MIRRO PRESSURE COOKER

Adv for 6:30 a.m. EST WASHINGTON (UVI) - Rep. Oliver P. Bolton, R-Ohio, charged Tuesday that Indonesia was using late model U.S. transport planes to drop troops and supplies along the Malaysian border.

Bolton accused the adminis tion of furthering the "avaricious territorial dreams" of Indonesia's President Sukarno by permitting shipment of spare parts for the Lockheed C130 planes.

"There is evidence to suggest that these aircraft would be grounded within about six months time if all future export licenses for spare parts and engines were, as a matter of policy, disapproved," Bolton said.

The Ohio Republican de-scribed the U.S. planes as the Indonesian Air Forces' "most potent military punch." He said they represented one of the most serious threats to the future independence of Malaysia.

Indonesia has staunchly opposed the creation of Malaysia, a federation comprised of the former British territories of Malaya, Singapore, North Borneo and Sarawak.

I love my husband, but here is my problem: He likes to look at magazines with pictures of sexy-looking women in them and it hurts me until I am sick inside. I am not ugly, Abby, but can't compete with these women. He doesn't buy the magazines, he just borrows the m from his buddies. He knows now much it hurts me, but he says I am just being silly—that all men look at that stuff. Do they, really? Is my husband ormal? I couldn't feel worse if had caught him with another oman. Please help me.

NO NAME PLEASE DEAR NO NAME: Most men on't pass up a chance to look a "sexy-looking" woman (or picture of one). If your husand openly enjoys it occasionally and obviously he does, I wouldn't call him "sick." He is ossibly a bit immature, but 's normal.

End of Debate On Tax Measure

WASHINGTON (UPI)-Sen. Vance Hartke, D-Ind., a member of the Senate Finance Committee, said Tuesday he will offer a committee motion this dian week to end debate on the administration's tax cut bill.

"I feel we have enough testimony and there is no need for further hearings," Hartke told a news conference. "I plan to Sumner introduce a motion to end the Mrs. Gloria Gage, 1125 E. hearings, so we can report the Darby bill to the floor for a vote before Dec. 1.

The senator said he had no indication that he had any support for this proposal, however. Senate leaders have been dubious about gaining passage of the requested \$11 billion tax cut during this session of Congress.

DUCK FEET—Sometimes a duck could be like a fish out of water, but these ducklings and their mother prove differently. The fuzzy little critters, faced with the obstacle of a concrete stairway, just followed mom with flutter-and-hop until they reached the top. Such are the problems of a duck in St. Petersburg, Fla.

LONG LOOK—Adding even more height to a highcrowned bowler, ostrich plumes top the hat in a wispy mood. It is Britain's answer to "what is fall fashion?" It'll also make her as tall as her escort.

A PART OF THINGS—This leafy bower is part of a Berlin convent. Rather than level the splendid old tree, architects incorporated it into the structure.

OPEN HOUSE—Open house display of furniture in this unfinished apartment house was really an open house. The setting: one floor of a 27-story apartment building in the Pittsburgh, Pa., Golden Triangle.

RARE CARGO—A gleaming locomotive is prepared for transfer into the hold of a cargo ship with care and seemingly lots of supervision. The locomotive is a rare British type being shipped to the Canadian Railroad Museum in Delson, Quebec, along with 21 feet of original track.

lined as the lines of the buildings at the site of the 1964 New York World's Fair, this shift is done in a "silk" broadcloth of manmade fiber. The dress features a pleated and ruffled yoke and is casually fitted with long shirt sleeves.

SLEEK LINES—The "Mermaid" is the latest thing for the do-it-yourselfer who likes to make sailing boat kits." The boat is 11 feet long, is low in price and was the hit of London's Do It Yourself Exhibition.

dents casually watch from their cars, workers on this 700-ton coal drilling tower search for coal beneath the sea near Roker, England. It's a big attraction for many tourists who visit the seaside town.

AGE OF DISCOVERY—Meeting eye to eye, this youngster studies the little frog with intense interest. This photo of the New York youngster is a prize-winner.

BETWEEN BALES—Tom Murphy snuggled between bales of hay and took a snooze before his Shorthorn cows came in to fill the empty stalls. Tom rested in the stalls of the Santa Cruze, Calif., fair grounds.

YOUNG ADMIRER—Belgian actress Chatherin Spaak, 18, chats with Christopher Buchholz, who visited the Rome set of a movie starring the actress and dad, Horst.

TASTE OF MONEY—Once this clown bank gets the taste of money, he continues to eat it up. The antique is one from the Chase Manhattan Bank's Money Museum.

"They're a better ball club than they were at the beginning of the season," Halas said. "we've seen films of their last two ball games, but I expect them to come up with some-thing new, and I don't know what it will be."

Halas shunned comment on whether the Bears were a better team now than for their first meeting with Green Bay, but he said that with Ronnie Bull, Willie Galimore and Charlie Bivins all ready for action at the running halfback spot, the Bears might have some oppor-

tunities for surprise too. "Let's not build up our great strength," he said. "The Packers have the edge on past performance. They've won two straight championships. They've beaten us five of the last six games. That's an indication of

11051/2 Alcock MO 4-3861 their over-all strangth. "And psychologically, they'll be primed emotionally for their best performance of the season because they want to prove that our beating them the first time was a mistake."

A Watchful Newspaper EVER STRIVING FOR THE TOP O' TEXAS TO BE AN EVEN BETTER PLACE TO LIVE The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself, no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

The Doctor Says

Fast Not Recommended As Way to Lose Weight

By DR. WAYNE BRANDSTADT To fast or not to fast-that is allowed themselves to become overweight.

motivated by their religions Congress. for sins.

litical weapon with appreciable success, and on at least one occasion carried it almost to the point of death by starvation.

Most modern practitioners of sole purpose of losing weight. In fact, the Liberty Amend- six states. And when you an- without anything by mouth exment will cut more money from nounce you're ready to trade cept water) will result in a raplittle to recommend it.

> So, if you're ready and willing Those who attempt it are usto see prosperity unleashed in ually persons who have lost pa-America, new jobs for all who tience with slower methods or want them, constitutional limi- who find that after a half-hearttations on government spended reduction of food intake on ing, and your income tax money two or three days a week theyto spend as you see fit - then weigh as much as or more than get busy and make your state they did before. In any case, the 7th to approve the Liberty the weight lost is quickly regained.

Write to me, in care of this Dr. Nevin S. Scrimshaw of the Massachusetts Institute of Technology made a study of teen-agers who indulged in partial fasting (skipping meals) and found that they lost weight. But at the same time, because of failure to get a balanced diet they lowered their resistance to infectious diseases. This is an especially dangerous way for teen-agers and young adults to do, because that is often the way tuberculosis gains a foothold.

In another study, in which normal volunteers-were used, fasting caused a decrease in the alkaline reserve in the blood. This could lead to a type of acidosis. Another result was that the normal nitrogen balance between what was ingested as protein and what was eliminated in the sweat and urine as urea was disturbed. Nitrogen was lost and this can slow the healing of wounds or the recovery from any disease.

Other constituents of the blood to be lost while fasting are sodium, calcium and glucose. The sugar stored in the liver is released to the blood and thus rapidly depleted.

For these reasons nutritionists today do not recommend fasting. All the evidence points to the benefits of an adequate wellbalanced diet with all the essential elements in quantities sufficient to maintain normal

Anyone who insists on a period of fasting should consult his family doctor who will take into consideration the subject's general health, his present weight compared with the desired weight for his height, the reasons why a fast is desired, the type of fast (partial or complete), the length of the fasting deleted the opening prayer? period and the anticipated extent of activity during the pe-

No Authority For U.S.

To Control Local Schools

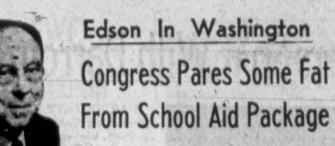

By ED DELANEY

A majority of the Warren Supreme Court, with characteristic solicitation for the aims of the atheistic, crypto - communist element in our country, decreed that God must be banned from the public schools. In a dissenting opinion Justice Stewart said it is an error not to recognize that religion and government must necessarily interact in countless ways. It is heartening to note that the governors in a couple of states flatly asserted that they will ignore the ruling of Warren & Co. In their schools will be continued the usual recitation of the Pledge of Allegiance with the words "under God" and the voluntary recitation of non - sectarian prayers, as has been their custom in the past. There is nothing in the Constitution or its amendments which gives the federal government authority to dictate the school policies or programs in individual

states. It is high time the people of this country, through their elected representatives, make unmistakably clear to Warren and associates that they resent and will not abide by that prayer decision which is contrary to the principles on which this country was founded. In our Declaration of Independence, God is acknowledged. Only a few years ago Congress added the words "under God" to the Pledge of Allegiance. On our coins and on much of the paper currency is the motto "in God we trust."

Under the established rules of the Senate and the House, each day's session is opened with a prayer by the chaplain or an invited representative. The last words in the oath of office taken by members of Congress are "so help me God." The words "In God We Trust" are in bold letters over the main entrance to the Senate. It might be well for the public school authorities in the several states to include as prescribed reading in the schools, the opening words of the current sessions of either the Senate or House. Or would the Warren wisemen dare to forbid the reading of the Congressional Record in the public schools - unless they

The five-year, \$5-billion omni- cational quality were dropped. bus aid to education package They would have provided trainwhich President Kennedy sub- ing of specialized teachers for mitted to Congress last January both gifted children and illiteris being cut way back. Of the 24 ates. Two programs to strengthprograms proposed, only six en educational research and imare being enacted, with many prove the gathering of educational statistics were dropped modifications and some extenas unnecessary. sions of old programs.

The major curtailment is that new aid to primary and secondary schools is out for classroom construction and teacher federal employes cause an extraining. Decision to drop these programs, to have cost \$1.5 billion, was taken last May. There passed separately. is little chance that they can be tax credit for the costs of colrevived even next year, though lege education is still under conit may be tried.

Federal aid for testing seventh original Kennedy program but and eighth graders to determine it is gaining steadily increasing their capabilities was dropped. support in Congress. Twenty-two Neweguidance and counseling senators have now introduced services for public and nonprof- bills for this purpose. But it is it private schools were also being handled as part of the tax

bill now before Congress. Grants to the states to provide The main aid to education 3

Frank Carlson, (Kan.), Barry Goldwater (Ariz.), Wallace Bennett (Utah) and Gordon Allott (Colo.) have co - sponsored a resolution proposing an amendment to the Constitution which will make it abundantly clear to Warren and his court colleagues that they may not arbitrarily ban God from the schools. The resolution states, in part, that nothing in the Constitution or its amendments shall be construed as prohibiting the participation by the students in any periods of Bible reading or non - sectarian prayer if such participation is volun-

When introducing the resolution Sen. Williams said, "our whole system of government from its earliest establishment has been based on the fact that we do recognize ourselves as being a Christian nation. This does not mean that we as a people do not respect the right of an individual to select his own religion."

The Delaware senator added, "nothing could be more disastrous to the world opinion of our country than to leave the impression that we, who had prided ourselves on being a Christian nation are now renouncing our dependence upon our God."

The senator appears to have forgotten that in the rash rush toward the New Frontier we embarked upon a policy of interdependence. One of the speech writers for the White House tenant endeavored to impress on us the fallacy of American independence. We must be part of the community of nations - interdependent. Since many of the nations merged in this world potpourri have rejected God, it would be indelicate for us to declare our faith and dependence on Him, and thereby mar the present cordial atmosphere of our interdepend-

When the Founding Fathers drafted that first amendment to the Constitution they stipulated that Congress should pass no law prohibiting the free exercise of religion, Nor has it done so. A Supreme Court ruling is not the law of the land. But will troops be called out to enforce the edict that God must not be mentioned in schools? Shades of Little Rock.
