## 'K' to Head Soviets at Big Three Talks

### Texas Negro UPO Group Backs Governor

### Hope Raised For Break in 'Cold War'

## Address Called Positive Edict On Civil Rights

**AUSTIN (UPI)** — The United Political Organization (UPO) today demanded that Sens. Ralph Yarborough and John Tower state publicly their stands on President Kennedy's civil rights proposals.

**AUSTIN (UPI)** — Leaders of a statewide Negro political group, the United Political Organization (UPO), have backed Gov. John Connally's recent speech on civil rights. At the same time, the UPO denied any association with Booker T. Bonner, an Austin Negro who staged a one-man sit-in at Connally's office earlier this week.

The UPO executive committee met with Connally and then issued a statement on the governor's television address of last week, in which Connally disagreed with the public accommodations part of President Kennedy's civil rights proposal.

**Bonner Not Discussed**  
A UPO spokesman said the UPO had no plans for demonstrations in Texas in the immediate future and that Bonner was not discussed in the meeting with Connally. Bonner has gotten permission from the Austin City council to hold a parade Aug. 28 to coincide with a scheduled civil rights demonstration in Washington.

There were indications in the UPO statement that the organization may participate in the Washington demonstrations.

The group recognized "gains" made in civil rights in Texas, but said "there will be no advancement in the position of Negroes in many areas of our state and other states across the nation without adequate and enforceable legislation."

Concerning Connally, the statement said UPO disagreed with the governor's opposition to the public accommodations part of the Kennedy civil rights package, but added:

**Address is Best So Far**  
"We feel that the governor's address, in the main, constitutes a step in the right direction."  
(See ADDRESS, Page 7)

## Farmers Hoping for Some Rainfall Soon

**COLLEGE STATION (UPI)** — Texas farmers and ranchmen would like to see a reversal of the weather conditions which have held during most of July.

The hot, dry weather is causing crops to mature at a rapid rate, reducing hay crops, deteriorating pastures and ranges, causing pecans to shed in some areas and bringing on stock water supply problems, said the Texas Agricultural Extension Service.

The cotton harvest is moving at a fast clip as far north as Central Texas and first bales have been ginned even farther north and in the San Angelo area to the west. The grain sorghum harvest has moved in North Central and the Rolling Plains in volume and corn is being harvested from Central Texas south and eastward.

Pastures and ranges in every section of the state need moisture.

The service said most were brown and fires are a real hazard in the areas where dry grass is plentiful. Stock tanks are getting low in many sections and some feeding of livestock has started. Cattle, however, are generally in fair to good condition. Some increase in marketings were noted in central counties due to the continuing dry weather.

The South Texas peanut harvest has started and in western and northwestern areas the crop is making little progress due to the lack of moisture. Pecans in some parts of West Central and South Central Texas were reported shedding.

Good rains were received over last weekend and during the first part of the week over considerable portions of the South Plains and were more spotted to the north and southwest of that section. The South Plains cotton crop, though very late, was described as making good progress. Irrigated grain sorghum was listed as excellent in that same area. Dryland crops in the Panhandle need rain and all Rolling Plains counties reported a need for moisture. The northeastern district reported adequate moisture in the northern counties. All other areas reported a need for moisture, especially for pastures and ranges.

## Pampa Boys See Pope Paul VI

While en route to Marathon, Greece, for the 11-day World Scout Jamboree, Pampa scouts had an audience with Pope Paul VI in Rome, Italy, toured Vatican City, the Colosseum, the catacombs, the Roman forum, Hadrian's tomb and the Fountain of Trevi, according to word received today from Jim Shelhamer and Sam Williams.

Pampa scouts in Tour Group Six flew to Paris, France, July 22. From Paris, the scouts went to Geneva, Switzerland, saw the first United Nations building and the U.N. world labor building. While spending the night at Lausanne, they toured Lake Geneva and the Chateau de Chillon.

July 25 they flew from Geneva to Rome, attended the opera, "Carmen" and a program about the history of Rome. Athens, Greece was their last stop before arriving in Marathon yesterday for the jamboree.

If it comes from a hardware store we have it. Lewis Hews. Adv.

## Ward in Coma; Girl Threatens 'Crowd' Expose

**LONDON (UPI)** — Dr. Stephen Ward, who took an overdose of drugs as his vice trial went to the jury Wednesday, remains "unchanged" after more than 48 hours in a coma, a hospital spokesman said today.

The 50-year-old society osteopath was being kept alive by an electronic lung in St. Stephen's Hospital.

Ward's 22-year-old girl friend, singer Julia Gulliver, charged in a London newspaper interview that many of Ward's former friends would like to see him die. She said she will name a "whole crowd" of these people, who she said let Ward down when he needed them. She did not identify any of them.

W. Mayne Butcher, spokesman for the hospital where Ward lies in a guarded room, said:

**Condition Unchanged**  
"We are not providing you with a bulletin this morning because once more the patient's condition is quite unchanged, exactly the same as last night at 10 o'clock."

At that time, doctors were despairing for Ward's life. "He is very critically ill," Butcher added. "I would say that we can conclude that anxiety increases as he remains in this deep coma."

Ward has been unconscious since he was discovered in the apartment of a friend Wednesday morning, blue-faced and with saliva flecking his mouth.

That was a few hours before the court convened and the jury of 11 men and one woman found him guilty of vice charges that could bring him 14 years in prison if he survives.

Ward does not know of his conviction. He is being kept alive by means of a Barnett ventilator, a so-called electronic lung, which does his breathing for him. It was put on after Ward was found to have bronchial pneumonia Thursday.

**Found Guilty**  
Ward was found guilty of living off the immoral earnings of call girls Christine Keeler, 22, and Mandy Rice-Davies, 18. He will be sentenced if and when he recovers.

Ward's introduction of Christine to War Minister John Profumo and the Soviet naval attaché, Capt. Eugene Ivanov, cost Profumo his job and nearly brought down the government of Prime Minister Harold Macmillan.

Ward also introduced the girls to Lord Astor, millionaire newspaper proprietor and head of one of Britain's first families. Mandy claimed in court she slept with Astor and with Douglas Fairbanks Jr., the actor-businessman. Both denied it out of court but neither testified.

Ward told a reporter the night before he took the drugs that his friends, "crucified me" by not speaking up at the trial.

**Fast efficient Tune-ups. Call Lloyd Kuntz Sinclair, MO 4-7181. (Adv.)**

## Selected Short Subjects

**DES MOINES, Iowa (UPI)** — The "Little People of America" all under 4 feet 11 inches tall, closed their annual convention Thursday. One of the final items on the agenda was "Selected Short Subjects."

## Negroes Sprawl In Mud During Racial 'Lay-Down'

**By United Press International**  
Negroes lay in mud during a series of driving rainstorms in a "lay-down" demonstration today in Chicago three miles from the tense South Side area where racial violence has erupted for four consecutive nights.

More demonstrators were arrested at a New York hospital construction site, but the focal point of the nation's civil rights activity was in Chicago where the "lay-down" demonstration was staged to protest what Negroes call segregated classrooms.

Police arrested 26 of the demonstrating Congress of Racial Equality (CORE) members.

They were taken to Englewood police station, already crowded with Negroes and whites arrested in the South Side neighborhood where whites have protested Negro newcomers.

At least 24 persons were injured by flying bricks, stones and bottles during the protest against the Negro occupancy of apartments in a predominantly white neighborhood.

A 100-man police task force arrested eight demonstrators and hauled a number of others away in paddy wagons. The incidents brought the number of arrests to 133 in Chicago's worst racial demonstration in two years.

At New York, four Negroes attacked a policeman near a civil rights demonstration at a Brooklyn construction site. They were arrested, along with seven demonstrators who tried to enter Gov. Nelson Rockefeller's New York City office to join a sit-in protest against alleged job discrimination.

Callison pleaded guilty to violating the Juvenile Delinquency Act and was sentenced on that plea.

Callison and Mrs. Jones admitted taking the Jones family car from Wichita to Wellington where they stole a car which they drove to Groom. In Groom they stole a second car and drove on west to near Grants where a highway accident resulted in their apprehension.

## Governor Plans To Review Troops

**NORTH FORT HOOD, Tex. (UPI)** — Gov. John Connally has made plans to review the 7,000 troops of the 49th "Lone Star" Armored Division Saturday.

The troops, from all over Texas, are on two weeks' summer training and Connally's visit will mark the mid-point of the maneuvers.

**WINNERS** — Elizabeth Addison, left, Miss Texarkana, was the first night winner in the swimsuit competition, and Joy Garrett, Miss Fort Worth, got the nod in the talent competition of the Miss Texas pageant in Fort Worth. (NEA Telephoto)

## Youth Who Stole Auto in Groom Sent to Prison

**ALBUQUERQUE (UPI)** — A 15-year-old Wichita, Kan. youth who started on a junker across country with a 24-year-old woman and three small children faces a year in a federal correctional institution today.

Tommy Ray Callison was sentenced Thursday by U.S. Judge H. Vearle Payne for his part in driving a stolen car from Groom, Tex. to Grants July 15.

Callison was with Mrs. Marguerite Jones, 24, of Wichita, and her three small children. Judge Payne last Friday put the woman on probation for her role in the ill-fated jaunt which was intended to take all five persons to California.

Callison pleaded guilty to violating the Juvenile Delinquency Act and was sentenced on that plea.

## Stores to Open Thursday Nights

The merchants activities committee of the Chamber of Commerce will meet at 10 a.m. Monday in the Court House Cafe to complete plans for the Thursday night opening program of Pampa stores.

More than 35 stores have indicated they will participate in the program, which calls for stores to be open till 9 p.m. each Thursday beginning Aug. 15. The program is being set up on a permanent basis according to John Wortman, committee chairman.

Names of participating stores will be announced after Monday's meeting. Wortman asked that all retail store managers be present Monday to participate in opening plans.

## Prospects Seen For Agreement In Rail Dispute

**WASHINGTON (UPI)** — An informed source said today there are prospects for settlement of the railroad dispute without congressional action.

The source, who declined use of his name, said there were faint signs of improvement in the outlook for an agreement in the bitter fight over work rules.

This was disputed by a spokesman for railroads who said there had been "no visible improvements in the possibility of a settlement without congressional action."

A statement issued by J. E. Wolfe, chief negotiator for the carriers, added: "It may be that these rumors are part of an attempt to mislead the public and Congress and frustrate President Kennedy and his advisers in their proposal to end the dispute by submitting it to the ICC (Interstate Commerce Commission)."

Any agreement on the dispute, which has gone to the brink of a nationwide rail strike, might be built around a two-year plan for a substantial reduction in firemen's jobs and creation of a labor-management study group to make recommendations for future handling of the issue.

Labor Secretary W. Willard Wirtz has been meeting with both sides in an effort to get collective bargaining moving again. He talked Thursday with J. E. Wolfe, chief negotiator for the carriers.

Earlier this week H. E. Gilbert, president of the firemen's union, said management had changed its position somewhat in an exchange of messages. Wolfe minimized the change, but conceded it had come about.

The Senate Commerce Committee wound up testimony Thursday on President Kennedy's proposal to let the Interstate Commerce Commission (ICC) settle the controversy. It is expected to act on Kennedy's plan by Aug. 15.

The House Commerce Committee has not yet completed its hearings. Congressional leaders have agreed that the Senate will act first on the railroad legislation.

Under Kennedy's plan the four and one-half year dispute would go to the ICC and any change in pay and other working conditions ordered by the ICC would be effective for two years. The ICC decision would be subject to court review.

The carriers favor the bill. But the five railroad brotherhoods, representing about 185,000 train crewmen, oppose it as "compulsory arbitration."

The unions favor a plan suggested by AFL-CIO President George Meany that bargaining continue under the supervision of a special committee of Congress.

## BUS, TRUCK COLLIDE

**RENAIX, Belgium (UPI)** — A bus taking workers to a textile factory collided with a truck near here Thursday, killing nine persons and injuring six others.

## Ten Finalists To Be Selected

**FORT WORTH (UPI)** — Fifty-four lovely Texas girls don bathing suits and evening gowns tonight in the last session of preliminaries to pick 10 finalists for the Miss Texas of 1963 pageant Saturday night.

The contest hopefuls, split into three groups of 18 each, competed in a talent, bathing suit and evening gown events Thursday night and Wednesday night, with each group being judged once in each contest a different night.

Winner of the second night talent contest was red-haired Karen Ann Sealey, 18, Miss Port Arthur. The Lamar State College freshman did a ballet dance to win the judges' votes.

In the swim suit contest, 5-foot-6, 118-pound Marilyn Kay Vandever took top honors. The blonde beauty, officially billed as Miss Ableene, is a freshman at McMurry College. She measures 34-24-36.

Callison and Mrs. Jones admitted taking the Jones family car from Wichita to Wellington where they stole a car which they drove to Groom. In Groom they stole a second car and drove on west to near Grants where a highway accident resulted in their apprehension.

Callison pleaded guilty to violating the Juvenile Delinquency Act and was sentenced on that plea.

Callison pleaded guilty to violating the Juvenile Delinquency Act and was sentenced on that plea.

## Woman Injured In 4-Car Crash

A four-car collision yesterday afternoon sent a young woman to Highland Hospital for facial cuts.

The accident occurred shortly after 4:30 p.m. in the 1800 block of N. Hobart. Police investigation showed that as the car of Jeff David Lard, 68, Cabot Camp, slowed to make a right turn from the right lane, it was sideswiped on the right side by a car driven by Susan Kay Hyde, 20, 2208 N. Wells.

Miss Hyde's car, police said, then pulled to the right and struck two cars in an adjoining parking lot. One, belonging to George A. Mitten Jr., 1811 N. Sumner, suffered estimated damage of \$106. The other, that of Lloyd W. Wilson, 2228 N. Sumner, had \$400 damage.

Approximately \$200 damage was done both to Lard's and Miss Hyde's vehicles. Miss Hyde was taken to Highland Hospital to be treated for a cut chin. She was charged with failure to control speed to avoid an accident.

## Communist Guards Shoot Down Couple Trying to Flee to West

**GOSLAR, Germany (UPI)** — Shouts of "You are murderers" rang across the East-West border in Germany today near a spot where Communist guards shot down a man and a woman in plain sight of hundreds of witnesses.

July 25 they flew from Geneva to Rome, attended the opera, "Carmen" and a program about the history of Rome. Athens, Greece was their last stop before arriving in Marathon yesterday for the jamboree.

If it comes from a hardware store we have it. Lewis Hews. Adv.

day on two persons who tried to escape the Soviet Zone. They shot from woods.

Both would-be refugees were dressed like farm workers. The man carried a scythe on his back. The woman fell with a bullet in her leg in the Communist "death zone," a plowed strip of land running east of doubled barbed wire fences, spectators on a nearby highway in West Germany said.

When the man was hit the first time, he threw away his scythe and managed to scramble over the first fence.

George Stein, 45, Goslar, one of hundreds of motorists who stopped to watch the drama that was unfolding before their eyes, told United Press International what happened next. He said:

"The man was hit again. He dived into a bush between the two rows of barbed wire. Then he tried to get over the second fence."

"Suddenly I saw an East German army uniform come out of the bushes—a sergeant, I think. The uniform stood behind the first fence, took dead aim at the wounded man with his subma-

chinegun and fired.

The distance was no more than nine feet.

"The poor refugee crumpled. He was dead."

**Watched In Horror**  
"Suddenly I realized I wasn't alone on the highway. Hundreds of tourists were watching in horror."

"There seemed to be a caravan of Danish cars on the road, all stopped . . . all watching. And all the passengers in a Swedish tourist bus were there too, besides hundreds of West Germans. "When the East German ser-

geant fired we yelled 'murder.' We wouldn't stop shouting.

"Murder," we yelled. "You are murderers."

Shortly afterwards, about 25 East German army reinforcements and a Communist armored car rolled up.

They led away the limping woman. The blood-covered body of the slain man was taken away in an ambulance about two hours later.

The East Germans ignored the shouts from the West. After the ambulance removed the body, the crowd began to break up.

# Dear Abby....

## Naive To That Extreme You Tell Her, Mother

By ABIGAIL VAN BUREN

DEAR ABBY: Our son brought this girl (from a large city) home for us to meet. She is 21, and our son is 24. The girl was invited to be our guest for as long as she wishes. We have four other children, from 12 to 19. We welcomed this girl with open arms, but she started a war the first night she was here. She wears nylon, see-through baby doll pajamas, and thinks nothing of coming out in the evening to watch TV in that outfit. And in front of everybody! My husband is only 43, Abby, and that is not old. The younger children remark that Daddy is wearing sun glasses in the house, so nobody can see his eyes roll around. My son says he doesn't see anything wrong with it. I offered the girl my red and green plaid bathrobe, but she refused it. How can I impress upon her that it isn't right to sit around in front of my family like that?

AT A LOSS

DEAR AT: No 21-year-old girl can be this naive. Tell your son if he doesn't see anything wrong with it, YOU do. Give him five minutes in which to straighten her out. And if he doesn't do it—it's your assignment, Mother.

DEAR ABBY: Silly as this may seem, I would like to clear something up. I am a bachelor by choice. I live with a divorced sister, age 71. She has a habit of yawning. I know it is no crime to yawn, but you should see my sister! She opens her mouth so wide it is a wonder she doesn't dislocate her jaw. She never makes an effort to stifle her yawn even slightly, nor does she cover her mouth. Correct me if I'm wrong, but isn't it possible to yawn with one's mouth closed? I do it all the time. It is not quite as satisfying as yawning with an open mouth, but in public, it's rude to show one's tonsils. My sister tells me I am

crazy, that no one can yawn with their mouth closed. Well, I do. Am I the rare bird? Or is she just stubborn?

KEEP ME NAMELESS  
DEAR NAMELESS: It is possible to yawn with one's mouth closed. But few people have the control to do it. There is no excuse however for failing to cover one's mouth while yawning.

DEAR ABBY: Can a man get a divorce on the ground of extravagance? I make \$12,000 a year and my wife spends that much and puts me in debt besides. She is a social climber and spends her days buying out the stores. I tried giving her an allowance but she spent the allowance and ran up bills, too. I had to pay the bills or allow my credit to be ruined. If I didn't have children, I would leave her tonight. What can a man do with a wife like this?

DISCOURAGED AND BROKE

DEAR D AND B: It is obvious that your wife isn't able to manage money. So YOU manage it. Charge accounts can be closed, you know. So close them. Set up a budget and give your wife "pocket money".

DEAR ABBY: I think Aggie's trick with the cat food canapes was a good one! Your readers can be assured that fresh cat food would never hurt anybody; their food is as carefully inspected as ours—if not more so. And somebody ought to tell "Must Know" that if one gets sick after a cocktail party, it wasn't the CANAPES.

L. E.

Tell your troubles to Abby. For a personal, unpublished reply, please send a stamped, self-addressed envelope.

Hate to write letters? Send one dollar to ABBY, Box 3365, Beverly Hills, Calif., for Abby's new booklet, "How To Write Letters" For All Occasions".

### VFW Auxiliary To Attend Convention

The Ninth District Convention Veterans of Foreign Wars and Auxiliary will meet at Perryton Aug. 3-4 with the Perryton Tri-County Post No. 7107 as host.

The business meeting will be held Sunday at 10 a.m.

Members from Pampa Post No. 1657, and Auxiliary members who plan to attend are: Messrs. and Mrs. Jess Beard, Ronald Beard, Cleo Goff, Vernon Stuckey, and Messrs. Harry Cook, Harry Nelson, Tom Kitchens, M. A. Mahan, Jones Seitz, Alvin McCartney and Elmer D. Young.

### POLLY'S POINTERS

#### Keep A Notebook Now And Prevent Problems In Future

By POLLY CRAMER

DEAR POLLY — No matter how compatible a bride and her mother-in-law are, it is inevitable that a difference of opinion will arise on some issue. As a newlywed 25 years ago, I was confronted with this problem and many a time I had to force myself to keep silent while seething inwardly. When I felt sorry for myself, I jotted down in a small notebook what I thought at the time offended me. As time wore on, we respected each other's opinions and the notebook was forgotten. Today it is back in use for I have two daughters - in - law of my own. Whenever I feel the urge to criticize them I get out my lattered and well-worn notebook and read it through. This has saved me from making mistakes that might cause friction where none should exist.—MRS. E. L. R.

slide the apron around to back—MRS. H. G.

DEAR POLLY — To save time and trouble in making pleated skirts I fold fabric over a post card on the pleat line and touch with the iron. The pleats are nice and straight and much easier to handle. — MRS. K. W. H.

GIRLS — One good idea so often suggests another. This one prompted me to use a piece of laundry cardboard under the pleat folds when I was ironing a cotton dress that had just been washed. Ironing pleated skirts is one of my pet peeves and this was a great help.—POLLY

Share your favorite homemaking ideas. . . send them to Polly in care of this newspaper. You'll receive a bright, new silver dollar if Polly uses your ideas in Polly's Pointers.

### MATURE PARENT

Dear Mrs. Lawrence: "Spiteful" is the only word to describe the way our son, 16, treats his younger sister. She is 13, shy and not so pretty as our youngest girl, who is her brother's favorite. He calls her "Jumbo" before his friends, and as she is very sensitive about her plumpness, she won't leave her room when he has visitors. Do you know of any way we can get him to treat her as affectionately as he does his baby sister?

ANSWER: You are repelled by his vindictive treatment of his younger sister, aren't you?

This feeling of revulsion from the jealous child's behavior is what makes it so hard for us to help him. It offends us so that we can't see that it springs from his self-contempt—a doubt of his own value so pressing that he must make his sister appear equally worthless in the eyes of as many people as possible. We are so revolted by the jealous child's meanness that we just want it stopped. And we feel irritated by the suggestion that he, more often than his victim, is the child who needs our attention and sympathetic encouragement. As a result of this impatience in us, his self-doubt increases, driving him to increase his belittling treatment.

So, though you may not like it, any change you want in your son has to first take place in you.

I don't know how I can make him seem sympathetic to you. But I can assure you that at his age we are beset by all kinds of sub-surface anxieties about our sexual attractiveness, our friends' opinion of us, how we can justify our parents' expectations of us, and our future place in the world. We may envy of a younger child to express them.

Does 'his boy of yours have any clear plans for his life? Has he chosen the work he wants to do? Is he worried about college admission? Have you or his father ever discussed any of these subjects with him?

During World War II there was a German word one heard a lot about—"lebensraum"—room for life. Room for his worried life is an acute need of the adolescent child. If we don't make space for his anxieties by using his complaints and criticisms to persuade him to talk to us about them, they may express themselves in vindictive treatment of a younger child who seems spared the older child's bigger challenges.

Perhaps your boy is envious, not of his sister, but of his parents' sympathetic awareness of her.

L-shaped foam rubber sofa, with an occasional table attached, helps solve problem of a long, narrow living room with no separation for dining. Table can be extended to a full dining table 72 inches long.

### Sofa Solves Narrow Room Problem Provides Separate Dining Area

By KAY SHERWOOD  
Newspaper Enterprise Assn.  
A new generation of cliff dwellers is finding that modern apartments, like modern subdivision homes, are not without their housekeeping headaches despite some glittering conveniences.  
A friend of mine, scornful suburban togetherness, sought lofty seclusion and a lake view in a 26th floor glass-walled apartment. She now finds her privacy shattered by a new apartment building across the street. Now her view is deep into the heart of the glass walled 26th floor apartment of her neighbor.  
Floor plans are a more frequent cause of problems. Many of the plans I've seen and heard about feature a long, narrow living room, often with no visible separation for dining. As anyone who has ever tried knows, arranging furniture in a long narrow room is not simple. Conversational groupings are difficult without blocking traffic lanes. It's all too easy to wind up with a cluttered effect even though one tries to limit the number of pieces of furniture.  
Scarcely surprising is the fact that professional designers have been working on the problem. One of the most dramatic results is a multi-purpose design by Ted Sherman. This is an L-shaped foam rubber sofa with an occasional table attached. As is, the piece pro-

vides a lot of seating space and forms a natural divider between areas. The table, a handsome walnut one, can be extended with leaves to a full dining table 72 inches in length. This is a well-designed, strongly built and expensive piece. The cost doesn't loom quite so large when one realizes that little else is needed besides occasional chairs which double as dining chairs, and lamp tables.

An L-shaped arrangement can, of course, be accomplished in several ways using sectional sofas or sofas and chairs. Tables sized to back up a sofa include some very narrow ones with drop leaf sides. If you are caught in a long, narrow pocket, I'll remind you of the advice given me by a noted decorator. Keep walls and ceiling light. Keep the effect of clutter or over-furnishing to a minimum by using a few substantial pieces and avoiding several small pieces.

### Internationally Known Artists Give China New Design, Colors

By MARGERY McELHENY  
CHICAGO (UPI) — The home-maker buying fine china today can choose from many new patterns designed by internationally known artists, including Italy's Emilio Pucci, better known for his clothing designs.

A design team, known as the Rosenthal Studio Group, was organized by Philip Rosenthal, head of the Bavarian china firm, to combine the best art work of modern times with quality china.  
"Anything good has to be pleasing as well," said Rosenthal, who was in Chicago to open one of the Studio Rooms planned for 15 major cities nationwide.

The design team includes: Pucci, Finland's Tapio Wirkkala, Denmark's Bjorn Winblad, Sweden's Count Sigvard Bernadotte, England's Lucienne Day, Germany's Hans Teho Baumann, France's Raymond Peynet, and Raymond Loewy, George Jensen and Richard Latham, from the United States.

The first design to come out of the studio was shown in New York this spring as Porcelaine Noire—the first all-black china.  
Designed by Wirkkala, the dinner service features white against black and black against white in contemporary shapes. It is used for large matte-finished service plates on which an intricate medallion pattern is just barely visible.

Pucci's designs, introduced here, displayed an uninhibited Italian approach to color.  
"His designs are almost audacious," Rosenthal said. "He blends greens and reds in a way that would look awful if done by someone less skilled in combining colors."

Rosenthal feels the new designs will be so successful that 67 per cent of the firm's entire output has been geared to their production. The remaining output is traditional.

He said he thinks Americans will be willing to pay the price of studio designs, which cost 30 to 40

per cent more than other types.  
"The function of china, glass and silverware does not lie in their utility," he said. "The function also covers an aesthetic value and serve as a projection of one's own personality."

The casual buffet and barbecue style of American entertaining does not bother him either.  
"Casual entertaining and fine china are not against each other," he said. "Casual clothes can be just as well designed as formal wear. And as much thought and art work goes into the design of casual china as into an ambassador's plate."

### Patterned Luggage In Autumn Picture

NEW YORK — When a girl goes off to college this year, houndstooth checks may be on her luggage as well as in it.

Patterned luggage will be more popular this year than ever, reports the August Seventeen. Some patterned pieces range from a suitcase of giant-size houndstooth checks in vinyl reinforced for shape retention to a tweed zipper roll bound with cowhide-look vinyl and a Paisley bag in cotton homespun with dirt-resistant finish.

Solid-color luggage takes new direction, too. A bright yellow bag piped in black has many zippers to give clothes instant accessibility; jumbo tote bags in vivid colors or black are newly important alone or in luggage sets; a d hang-up dress bags are getting bigger and brighter.

Simon Girty was a renegade Indian scout who aided the British by stirring up the tribes against the colonists in the Revolutionary War.

### Dorothy Larson Carved Way Into Rare Artistry Career

By GAY PAULEY  
WASHINGTON, N. J. (UPI) —

Dorothy A. Larson has carved her way to a rare career in glass artistry. She also concedes that she's carved up quite a bit of Larsen fingers along the way.

Miss Larson, a former potter, now fuses cathedral glass, the stained glass of the type used in churches, and clear glass layer on layer with other materials to create decorative murals, room dividers, bookends, table tops, cigarette boxes, ash trays, wall plaques, and other items.

She designs right from the glass, without benefit of sketching in advance, and uses the conventional tool sold at hardware stores to do the cutting.  
"I'm a walking ad for adhesive bandages," she said, in an interview, explaining that cutting had its hazards.

Fusing is done in four electrically-heated kilns at temperatures

well over 1,000 degrees Fahrenheit.

Some of Miss Larson's glass went into the lighting decor for the cafe of the Lincoln Center Philharmonic Hall, New York.

Other glass is in museums, or decorating offices, hotels, motels, restaurants, showrooms, and homes where the owners have discovered her work in retail shops or through decorators.

The Lincoln Center project was one of the largest commissions this native of Madison, Wis., has had. It was for 190 reflectors, each eight inches in diameter, done in yellow and amber to match the color scheme of the cafe — pumpkin colored upholstery, gold carpet, gold swizzle sticks. The project took six months.

Miss Larson, in private life Mrs. Bruce Hotchkiss, wife of a newspaperman, said she is one of the handful of artists in the Uni-

ed States who work in stained glass. But she believes the technique she has developed is unique. It also is top secret.

The artist produces numerous design effects by working beads, wire, even leaves and flowers between the layers. She never is at loss for color — "There are more than 100 colors of cathedral glass," she said.

# Barrett Baptist Chapel Will Be Organized Into Church Sunday

Barrett Baptist Chapel, a mission of First Baptist Church, will be organized into a church Sunday at 3 p.m. in special services. Assisting in the services will be Dr. O. D. Martin of Dallas, Director of the Stewardship Division of the State Missions Commission of the Baptist General Convention of Texas; Dr. E. Douglas Carver, pastor of the First Baptist Church, District 10 of the Baptist General Convention of Texas; Rev. Thurman O. Upshaw, pastor of Central

Baptist and District 10 President; and pastors of churches of the Palo Duro Association as well as other visiting pastors. Barrett Chapel began 9 years ago in the old Henry place at the old house has been removed and a building erected which includes an auditorium and an Educational space. The original property was given by Rev. E. G. Barrett. The total property is valued today at \$50,000. There has been five pastors at

the Chapel; Leroy Harris, Jerry Spears, Lee Hillon, Gene Grace, and A. E. Burns, the present pastor. Former members and pastors are expected to be present for the special services. A special welcome is extended to all to attend the services. Speakers for the day will be Rev. Carroll B. Ray at the 11 a.m. service, Dr. O. D. Martin at the 3 p.m. service and the pastor A. E. Burns at the evening service.

**FROM CHAPEL TO CHURCH** — The Barrett Baptist Chapel will officially become Barrett Baptist Church at a special organization ceremony Sunday at 3 p.m. Dr. O. D. Martin of Dallas, Director of the Stewardship Division of the State Missions Commission will be the guest of honor at the organization ceremonies.

# Rev. Dyer Begins Seventh Year at Hobart Baptist

Rev. John Dyer, pastor of Hobart Baptist Church will begin his seventh year as pastor Sunday. Rev. Dyer came to Pampa with his family, his wife Faye, and their four children Johnny, Janie, Judy, and Joy from Cordell, Okla. where he had served for two years as Superintendent of Missions for Concord-Kiowa Baptist Association. He is a native Oklahoman. He has served as pastor of three churches in Okla. First Baptist Church Indianola, Mt. Tepee Baptist Church, Lone Wolf, and First Baptist Church, Granite. He has conducted about 40 revival meetings. Some of these have been in Okla., Texas, Arizona, Nevada, Colorado, Nebraska and Kansas.

The past six years in Pampa the resident membership has almost doubled. There have been 512 additions to the church. More than 2000 rededications. Thirteen people have publicly surrendered their lives for special service. More than \$21,000 has been given for world missions and benevolence. A beautiful new auditorium seating 500 has been completed with year round heating and air

**REV. JOHN DYER** made to the church property. Rev. conditioning. There have been innumerable physical improvements

Dyer has preached 960 sermons at Hobart Baptist Church. He has conducted 40 funerals in Pampa. He has performed 75 weddings and marriage ceremonies. Rev. Dyer says, "Hobart Baptist Church and the people of Pampa have contributed so much to our lives that only eternity can measure its value. We love Hobart Church and all the people of Pampa." Vacation Bible School will begin with preparation day Saturday at 9:30 p.m. Then a parade and picnic. Regular classes will begin Monday at 8:30 p.m. The commencement program for Bible School will be next Friday.

The Massachusetts Bay Colony, in 1632, granted a patent to John Clarke for designing what probably was the first American stove.

# Rev. Gene Buchanan Will Conduct Services at 1st Christian Sunday

"Did You Hear That?" is the sermon title chosen by Rev. Gene Buchanan who will be filling the pulpit of First Christian Church the first three Sunday mornings in August while Rev. Glyn Adsit, pastor, is on vacation in Oregon. The text for the sermon is Romans 8:18-25. Mrs. Paul Reimer will sing "I Heard The Voice of Jesus Say" by Chas. A. E. Harris as a solo in place of the usual choir anthem during the morning service which begins at 10:50 a.m. Mrs. John Gill will be at the organ.

Construction to Begin on Central Church Soon

An air of expectancy hangs over the congregation. The power of the Holy Spirit is felt in the pew. The music of the choir and the congregation combines to bring the worshiper in closer touch with God. The pastor stands to speak and one listens with keen interest. The message is brought and it penetrates the hearts of the listeners so they will respond to the call of God. This is an experience in worship. Such an experience is felt by an increasing number of people each Sunday at Central Baptist Church.

# 'Revisiting' Is Topic At Lamar Church

The message to be brought by the Rev. Loren E. Williams, in the Morning Worship Service, Sunday is entitled "Revisiting Old Scenes". Special music for the service will be under the direction of Mrs. Gene Pitmon, and organist, Mrs. Wayne Shaw.

The monthly general meeting of the Christian Women's Fellowship will be held Monday at 7:30 p.m. at the church. Mrs. Loren E. Williams, 1st vice president will preside at the meeting. Applications are now being taken for Family Camp which will be held August 18, 19, and 20th at the Ceta Glen Camp. This is a camp for the entire family, and will be a great inspiration to each and every family that attends. For further information check with the church office, and get your registration blanks in by August 10th. The Lamar Church will join the First Christian Church for evening services during the month of August with Rev. Gene Buchanan conducting the services.

# Rev. Allison Will Be In Pulpit Sunday

Services at Highland Baptist Church located at 1301 N. Banks begins at 9:45 a.m. Sunday. There are Sunday School classes for all ages and a nursery for babies. Adults will be studying from Genesis the 12th chapter. For the 11 a.m. worship service, the pastor, Rev. Joe W. Allison has chosen for his sermon title, "The Triumph of Gethsemane." John Locke will bring the special music for the morning service, singing "The Round-Up in Glory." He will be accompanied by Mrs. Edith Beigle at the organ.

# Rev. West Returns To Pulpit After Attending Camp

After having been away for two Sundays in Camp work, the Rev. Russell G. West Sr., will be back in his pulpit this Sunday morning at the Church of the Brethren. "Christianizing our Attitudes" will be his sermon subject at 11 a.m. Sunday at 7 p.m. he will speak on the subject, "This Means Me." This message will be illustrated by

# Construction to Begin on Central Church Soon

Within the next two weeks or so construction will begin on a new auditorium for worship. Completion of this building will be around the first of the year. The auditorium will have a seating capacity of more than 900 on the main floor. Finances for this construction are being procured through the sale of bonds. The church still has a few bonds available for anyone desiring a good investment.

**TO CONDUCT SEMINAR** — James Adams of Lubbock will conduct a Seminar today through Sunday at 7:30 p.m. at the Lefors Methodist Church. Adams is a graduate of Texas Tech and the Foreign Trade Institute in Arizona. He has studied recently at Southern Methodist University.

colored slides from the recent General Conference. Sunday School opens at 9:45 a.m. with Archie L. Patrick Jr., in charge. You are urged to exercise your freedom of Religion by worshipping in the Church of your choice.

# The Weekly Message Of Inspiration

Attend The Church Of Your Choice

**VERNON WILLARD, PASTOR  
HARRAH METHODIST CHURCH  
LEAVES WITHOUT FRUIT**

Could it be that many of us are like the fig tree in Matthew 21:19? "Leaves without fruit." And when He saw a fig tree in the way, he came to it, and found nothing there on but leaves only . . .

This tree was defeating God's purpose for creating it. God never created us for leaves, but for fruit, which is service. We are not ornaments, but oracles. We are not fixtures of rigidity, but factors of righteousness. We are not Christmas decorations, but Christian declarers. I fear many are more interested in "looking good" than "living right," in "being happy" than "being holy," in "feeling good" than "fearing God."

In Ezekiel 47:12 we read, "trees that grow for meat, whose leaf shall not fade, neither shall the fruit thereof be consumed . . . the fruit shall be for meat, and the leaf thereof for medicine." This is really a picture of our responsibility to the world. We are to be evergreen and everbearing. Every day should be a new and vital experience with the Saviour. Every day we should do something to indicate our faith and love for the Master . . . "fruit bearing." This fruit tree was a pretender. It looked good but didn't do good. You will notice what is said about it . . . "And presently the fig tree withered away." If we do witness, work, win and worship the Saviour as we should, there will come a withering time. We were made to bear fruit for the Saviour, and if we don't we will wither up and die in spirit.

The tree indicated something else to us . . . wasted power. All of the energy of the tree went into making leaves instead of fruit. What a tragedy. How are you spending your energy? Is it in the service of the Master or in the service of self? The owner nourished, and patiently noticed this tree, but it refused to bear fruit. God has done the same for us. He has nourished us, and graciously looked upon us . . . we ought to respond in every way. He deserves to have some return on His investment in us.

### Market Council Fails to Agree On Chicken Deal

WASHINGTON (UPI) — The United States and the European Common Market are headed for a chicken fight with the potential victims being European industrial goods makers and U.S. poultry exporters.

The Common Market ministers council in Brussels this week failed to reach an agreement on tariff reductions for poultry imports from the United States.

President Kennedy's special trade negotiator Christian A. Herter warned the Common Market countries on May 31 that failure to grant U.S. poultry improved terms in Europe "would call for our insisting on balancing compensation elsewhere in our trade exchanges."

A spokesman for Herter said this week that the United States "may withdraw some existing tariff concessions."

#### Cars Likely Candidates

The spokesman declined to indicate what Common Market exports might be affected. Rumors are that European automobiles West Germany's Volkswagen is the most popular foreign car in the United States, with the French Renault Dauphine running second.

Common Market tariff regulations for poultry went into effect July 30, 1962. They favored French and Dutch poultry exports into the West German market.

U.S. poultry dealers hatched a rapidly expanding West German market consuming a total of 465,184,000 pounds of slaughter poultry in 1962 with the U.S. share of 37 per cent valued at about \$50 million.

Since the new tariff went into effect, U.S. poultry is losing the West German market mainly to the Gallic chicken with the U.S. share down to 15.8 per cent for the first four months in 1963 and dollar losses for 1963 estimated somewhere between \$20 million and \$46 million.

Started in 1956  
The U.S. chicken export drive was started in 1956 on a relatively small scale but snowballed into a major and profitable outlet for U.S. broilers and soup hens.

U.S. poultry exports to West Germany reached an all-time peak in June 1962, when 42,607,000 pounds of slaughtered poultry—or nearly one pound for every West German citizen—were imported.

When new tariff regulations went into effect the next month rates were escalated—up to the fixed minimum price levels by flexible import duties.

Import duties are imposed on every chicken crossing the West German border. But there is a marked difference between duties on U.S. and Common Market poultry. U.S. officials offer these figures:

—U.S. poultry is taxed 14.25 cents per pound.  
—French poultry is taxed 7.4 cents per pound.  
—Dutch poultry is taxed 7.8 cents per pound.

U.S. officials are under heavy pressure to do something about this differential, especially from big commercial chicken-raising states such as Georgia, Alabama, Mississippi, Arkansas, and Midwest states specializing in soup hens.

U.S. officials agree that a trade war would be most harmful for the future relationship between the United States and the Common Market and they refuse to call the counteractions the are hatching "retaliation."

The Kennedy administration, however, is reported determined to go ahead with implementing Herter's warning of May 1 and raise tariffs on a yet secret selection of import goods.

European diplomats fear the retaliation may deeply hurt U.S. Common Market relations. They remain hopeful the Kennedy administration will think twice before acting, however hard pushed by the powerful poultry men.

**WARNS OF SEEDS**  
WASHINGTON (UPI) — Sen. Vance Hartke says the reason morning glory seeds are selling so well is that teen-agers have found they can get their kicks from eating them.

Hartke, an Indiana Democrat, asked the Senate Commerce Committee Thursday to investigate whether sale of the seeds should be controlled. He said the seeds contain a substance like that found in a hallucination-producing drug called LSD25 which, he said, is a dangerous and violent poison.

(This newsfeature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

**MAN-MADE VOLCANO**—Exhaust flames leap 200 feet into the sky, then turn into a swirling cloud above the landscape at Coyote, Calif., as the world's largest solid-fuel rocket motor is test fired. The motor, built by United Technology Center, was tested nose downward and developed a peak thrust of one million pounds. Though it is the same size as the Atlas (73 feet) which launched the Mercury astronauts, the new motor is 2½ times more powerful.

**ENCHANTED FOREST INHABITANTS**—Lorry Lorch, 4, lives in the Enchanted Forest of Allison Park, Pa., with her three friends—Charlie, the parakeet; Daniel, the spaniel, and Kitty, the cat. They are amiable playmates, but note please that to avert an unhappy end to the idyll, Charlie, the parakeet, keeps as much distance as possible between him and Kitty, the cat.

### Washington Window

By LYLE C. WILSON  
United Press International

It is President Kennedy's bad luck that Sam Rayburn died and that it was deemed necessary to put Lyndon B. Johnson on the 1960 Democratic presidential ticket to hold the Deep South.

"Mr. Sam" and Johnson were congressional leaders who knew how to lead. That cannot be said of the leadership of the 88th Congress. The Democratic Party enjoys majorities in the House and Senate. Democrats chair the committees, occupy the seats of power. The President in the White House is a Democrat.

With all of that going for the New Frontier, the Kennedy administration is unable to move its legislative program. The U.S. Congress does not function much beyond the routine of convene-recess-convene-recess again, more a vegetable than a living organism of government.

**Leadership Complicated**  
The President has complicated more than simplified the leadership problems of his legislative agents. For example: There are at this moment before Congress three major Kennedy proposals, each with an A-1 priority. They are: tax reduction and reform, civil rights and railroad strike legislation.

This is the seventh month of the 88th Congress. All but two of the routine appropriation bills await action. Fewer than half a dozen major bills of any kind have been enacted in this first seven months. The President recently reported himself content that he had got the country to moving again. If so, it is time he turned his attention to the Democratic 88th Congress.

No economy nor system of government nor political administration can long endure an absolute stagnation of public business. If Republicans would knock off fighting among themselves long enough to consider the stagnation now prevailing, they might discover the delights of lining up together to fight the Democrats.

Republicans should be the last to forget that a lost and hopeless cause produced a political miracle in 1948 when Harry S. Truman directed his presidential campaign exclusively against the Republican 80th Congress. HST called the 80th the worst. On its record so far, HST might want to revise his estimate in favor of the 88th Congress.

**Session Draws On**  
This session probably will continue through Thanksgiving to Christmas. President Kennedy made an effective 1960 campaign complaint that President Eisenhower had failed to provide the nation with leadership. That invites attention now to the situation in Congress where the Democratic leadership does not lead and the Democratic majorities reject the leadership of President Kennedy.

This situation, of course, will change considerably in the final weeks of this session. Then there will be a hurricane of legislative activity. Congress will be on a day-and-evening schedule to enact vital legislation. This will be accomplished by short cuts, half-baked debate and consideration. Emerging is likely to be a

That is the environment, for example, in which the Senate probably will be compelled to consider the test ban treaty now in the works in Moscow. The session-end legislative traffic jam will not permit time for intelligent consideration of a test ban treaty although the fate of the human race may be written be-

### Aims to Dampen Fires on Farms

CHAMPAIGN, ILL. (UPI) — Carelessness in using and storing gasoline, kerosene and other petroleum products is responsible for the annual loss of 500 lives and more than \$5 million damage from farm fires.

University of Illinois safety specialist O. L. Hogsett says farm families can safeguard their lives and property against the hazards of fire and explosion by careful storing and handling of flammable liquids.

Hogsett says never pour kerosene into a stove or furnace that is still warm from a previous fire. Keep lamps, lanterns, heaters, stoves and brooders in a safe place and guard against overheating.

If home dry-cleaning must be done, do it out of doors and use a non-flammable cleaning fluid. Store gasoline in an underground tank or a shade steel drum away from all buildings, says Hogsett, and never handle gasoline or kerosene in an open container.

tween the lines of that document. Too bad Lyndon and Mr. Sam can't take over again.

### Yank Decides Nine Years In Red China Is Enough

HONG KONG (UPI)—An American captured during the Korean War who chose to stay behind the Bamboo Curtain has returned to the West from Communist China and said another American may be coming out soon.

Lowell D. Skinner, 32, of Akron, Ohio, a former corporal who has not seen the United States since 1950, stepped across the border into this British crown colony shortly after noon.

"It's about time to go back," he said. "My parents are getting pretty old."

Skinner said that during his nine years in Communist China he kept in touch with other Americans among 21 who stayed behind at the end of the Korean fighting.

One of them, Scott L. Rush of Marietta, Ohio, indicated he also might be leaving China soon, according to Skinner. He said Rush was employed as a lathe operator in Wuhan, a big steel center in the central mainland.

Besides Rush, seven others of the original 21 American prisoners of war are believed still living in

Red China. They are: Clarence C. Adams of Memphis, Tenn.; Howard G. Adams of Corsicana, Tex.; John R. Dunn of Baltimore, Md.; James G. Veneris of Hawthorne, Calif.; Harold H. Webb, of Fort Pierce, Fla.; William C. White of Plummerville, Ark.; and Morris R. Wills of Fort Ann, N.Y.

The last previous American former prisoner of war to leave China was Richard G. Gordon of Providence, R.I., who arrived in Hong Kong in December, 1958.

Skinner and the others all were dishonorably discharged from the U.S. Army in 1954, and cannot be prosecuted under military jurisdiction as turncoats.

Rhode Island is the smallest state in the Union; Delaware is second smallest.

### Schools Must Fly Texas Flag to Get That State Aid

AUSTIN (UPI) — District and county school superintendents today were reminded they may lose state funds unless the Texas flag is displayed regularly and prominently on school campuses.

The reminder came from the Texas State Teachers Association in its monthly publication, "Texas Outlook."

The state education agency noted that the flag requirement was one of the "rider" provisions in the general appropriations bill passed by the recent legislature.

The appropriations bill dealing with state school funds includes the rider requiring the display of the Texas flag "regularly and prominently" on school premises in order to receive state financial aid.

This was interpreted to mean that the Texas flag must be flown at every school in the district in order for the district to qualify for state funds.

### JURY DUTY

Jury duty is an experience everybody ought to have. In a criminal case twelve jurors have a duty to do justice as each one sees it, and yet be unanimous. In most trials both sides have much to say, and the evidence is conflicting. The twelve jurors vary in their ability, temperament, character, education, and their experience in the world, and in the question at stake.

Yet a jury made up of both sexes, with wide age and educational differences, jobs and origins must all come up with the same verdict. Upon their verdict much depends—the life or liberty of others, and the public good. So it may take them days of talking among themselves, all to agree.

Jury duty calls for insight, common sense, courage, tact, fairness, patience, (especially toward the jurors who disagree with you), good humor, tolerance, balance, willingness to hear others out and change one's mind, readiness to go over and over the facts to find something to bring agreement. In short, jury duty demands a "decent respect for the opinions" of others.

More and more women share civic duties, especially as jurors. Time was in Texas when women could not serve on juries. They

### New Speed Limit To Take Effect On August 23rd

AUSTIN (UPI) — The State Highway Commission said today more than two-thirds of the Texas highway system will come under the new 70 miles per hour speed limit effective Aug. 23.

The 58th Legislature passed a new speed control law allowing the commission to set speed zones. All highways where specific zones are not set will automatically go to the new 70 m.p.h. speed Aug. 23.

The commission said about 41,500 miles of the state-maintained highway system will be allowed to come under the higher maximum speed. Top speed limit now is 60 miles per hour in day and 55 at night.

A new "minute order" passed by the commission zoned some 18,640 miles of the highway system at a maximum of 60 miles per hour daytime and 55 at night for passenger cars effective Aug. 23.

These highways will be restricted to the lower speed limit because engineering studies indicate they are inadequate to accommodate the higher maximum speed, the commission said.

The commission action followed a series of engineering traffic studies conducted in each of the state's 25 highway districts.

A big percentage of Texas' farm to market road system will come under the 70 m.p.h. maximum, although some of these roads, as well as some of the older primary routes, will be restricted to the 60 m.p.h. bracket where conditions warrant.

still cannot in four states. A jury finds facts. It hears and weighs evidence and then comes to a verdict. It does not make the law—the legislature does; and the judge "charges" or instructs the jury concerning the law applicable to the particular case it is considering.

The judge will tell you not to find the accused guilty until he is proved so under strict rules of evidence. If you have an "reasonable doubt,"—not imaginary or fetched—acquitt the accused. Civil cases do not demand a moral certainty, merely the "Preponderance" of what you regard as reliable and believable evidence.

(This newsfeature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

# Cub Hitter Joins Mantle in Books

By MILTON RICHMAN  
UPI Sports Writer

Off-traded Ellis Burton of the Cubs, a tough man to keep tabs on because he never stays in one place too long, landed in the record book for keeps today—alongside Mickey Mantle.

That's a pretty tall order for a guy with an undistinguished .224 lifetime batting average, but Burton managed it Thursday night when he became the eighth player in major league history to hit home runs from both sides of the plate in one game.

The shopworn, switch-hitting Burton, whose only other claim to fame is that he plays a hot trumpet off the field, accomplished Thursday night's feat while helping the Cubs beat the Braves, 10-2.

Batting right-handed, the 27-year-old Chicago outfielder set off a six-run rally with his fifth homer of the year off loser Denny Lemaster in the first inning, then connected for his sixth homer while batting left-handed against reliever Ron Piche in the seventh.

Burton thus joined a select group of seven other major leaguers who switch hit home runs in the same game. Most notable of the group is Mantle, who has done it on nine different occasions. Most recent before Burton was Maury Wills of the Dodgers, who did it last year.

# Jim Flowers Paces West Cage Stars

CISCO — Miami's Jim Flowers paced the West to a 46-37 victory over the East Thursday night in the all-star basketball game during the Texas Six and Eight Man Coaches Association School.

The 5-11 left-hander scored 17 points to lead his team in scoring. Pat Kvapil of Miles was the top scorer for both teams as he tallied 18 for the East.

The six-man football all-star game is scheduled Friday night and the eight-man football game will be Saturday at 4 p.m. Mickey Kivlehen of Miami plays for the West in the eight-man game.

COLORADO'S BEST BEER!  
**Boughoff**  
DISTRIBUTED BY GLAZIER'S

In addition to his two homers Thursday night, Steve Boros and Jim Schaffer also homered for the Cubs as Larry Jackson set down the Braves on seven hits for his 12th victory against nine losses. Lemaster's loss was hit sixth compared with seven victories.

By winning, the Cubs solidified their hold on fourth place and moved to within 1/2 game of the idle first-place Dodgers.

The St. Louis Cardinals climbed into a tie for second place with San Francisco by defeating the Cincinnati Reds, 3-2, in the only other National League game scheduled.

**Game Rained Out**  
The only game scheduled in the American League was Boston at Baltimore and it was rained out.

George Altman's fifth inning homer off Joey Jay broke up a 1-1 tie and paced the Cardinals to their victory over the Reds. Benchmarked recently for weak hitting, Altman collected three of the Cardinals' seven hits.

# Golden Spread Women's Softball

BORGER (Sp) — The Pampa Queens dropped out of first place in the Golden Spread League as Curly Garrison's single scored the winning run in the bottom of the sixth inning and gave the Borger Bees an upset 4-3 victory last night.

This was the Queens' last district game. Stinnett now moves half-a-game in front of them, and the pennant will be decided Saturday night when Stinnett plays Skellytown at Skellytown. A win by Stinnett clinches the crown for the Bees, a win by Skellytown throws the championship into a playoff game.

The Queens belted Jackie Sears for 10 hits, but could score only three runs as Jackie was tough in the clinches, walking only one and striking out four. Mary Lou Addington had allowed the Bees only one run in the first five frames, but lost her control in the sixth and walked in two runs to tie the ball game. Peg Kastien came on in relief and Curly smacked her for a clean single to drive in the winning run as Jackie shut out the Queens in the seventh.

Curly and Joyce Patillo had two hits each for the winners, Neva Hale, Jan Little, Peg Kastien and Ruth Blumer two each for the losers.

# Pro Football Roundup:

By United Press International  
Offensive end Gail Cogdill, the Detroit Lions' last holdout signed Thursday after four of his teammates, including All-Pro middle linebacker Joe Schmidt and defensive halfback standout Dick (Night Train) Lane, had agreed to terms with the National Football League club within the previous 48-hour period.

The Baltimore Colts who dominated the Western Division a few short years ago, returned to their foremost weapon—the forward pass — in Thursday's drill, which quarterbacks Johnny Unitas, Lamas McHan, and Gary Cuozzo throwing along with halfbacks Lenny Moore, Tom Matte and J. W. Lockett.

The Cleveland Browns continued to polish their offense against the blitz with traps, flares and screen passes. Star of Thursday's workout was Frank Parker, a 6-6, 267-pound defensive tackle.

**Giants Sold Bill**  
The New York Giants sold former Notre Dame lineman Bob Bill to the Washington Redskins for a 1964 draft choice. The 240-pound Bill, an offensive guard, spent last season on the Giants' "taxi squad" after injuring his knee in a pre-season game. The Redskins sent linebacker Gene Cronin to a Washington hospital for treatment from a severe lower back strain.

Tom Landry, coach of the Dal-

las Cowboys, was especially pleased with his defense during the Cowboys' last heavy workout prior to next week's charity game against the Los Angeles Rams, although quarterbacks Eddie LeBaron and Don Meredith both looked good.

# Softball League

The Panhandle Packers virtually clinched the Industrial Softball League title last night as they downed the Miami Cowboys, 11-1, while the second-place Pampa Stars were splitting a twin bill with the Cabot Clowns.

The win gives the Packers an 11-8 record with two games to go. The Stars are 10-10, with one game left, Miami (9-10) has two left and Cabot (8-10) has three. If the Packers win one of their two games, both with Cabot next week, they win the title, otherwise the race could end in a tie.

The Packers wasted no time in clinching the game with the defending league champions. Raymond McKinney allowed the Cowboys one run in the first inning and then hurled shutout ball in the next four frames, allowing three singles, walking none and striking out five.

The Packers proceeded to come right back with four in the first on Dave Fulton's bases-loaded triple, got four more in the third as McKinney smacked a grand-slammer, and then Jack Wood finished it off with a sacks-jammed double in the fifth.

Cabot squeaked to a 5-3 win in the first game, and then Pampa came right back with a 2-0 hair-raiser in the nightcap. Cabot jumped into a 5-0 lead in the first frame of the opener as Ray Howard and Lloyd Stephens each unloaded two — run doubles. P. D. James then settled down and allowed only two hits the rest of the way while the Stars chewed away at the edge, but Howard was tough in the clutch, striking out five and walking none, for the margin. Jerry Wright led the batters with two hits.

Charlie Vaughan and Delbert Daniels then hooked up in one of the best pitching duels of the season, with Vaughan hurling a two hitter, walking only one and striking out eight; Daniels allowed four hits, walked one and struck out one.

Two unearned runs were the margin of difference as key Clown miscues sparked the game. Jimmy Enloe sparked the Stars with a hit and both runs scored, also sparking the umpire, who gave him the thumb in the late-innings. James had a double for the only extra-baser.

Miami 1 0 0 0 0 — 1 3  
Panhandle 4 0 4 0 3 — 11 8

Rider and Daugherty, McKinney and Kaiser  
Pampa 0 0 1 1 1 — 3 4 2  
Cabot 5 0 0 0 x — 5 8 2

James and Reed, Howard and Kuntz  
Cabot 0 0 0 0 0 — 0 2 2  
Pampa 1 0 1 0 x — 2 4 2

Daniels and James, Vaughan and Reed

Coach Norm Van Brocklin also found reason to be pleased with his Minnesota Vikings, who put on a polished performance. Veteran backs Tommy Mason and Bill Brown each scored a TD during a half-hour scrimmage.

**Colchico Returns**  
Defensive end Dan Colchico returned to action with the San Francisco Forty-Niners Thursday after a week's absence due to an injured right knee.

In American Football League developments, sprinter Bo Robertson of the Oakland Raiders will miss Sunday's exhibition game against the Boston Patriots. Robertson, who suffered a pulled groin muscle 10 days ago, returned as listed as a probable starter.

The New York Jets acquired Constantinos (Charlie) Theokas from the Patriots and signed halfback Bill Wood, a free agent. Cookie Gilchrist, the AFL's leading ground gainer in 1962, gave his best performance of the training season during the Buffalo Bills' dummy drill, the Denver Broncos trimmed their roster to 60 men, and veteran linebacker Jack Rudolph joined the Patriot casualty list with a pulled muscle.

**OLSEN SIGNS CONTRACT**  
CINCINNATI, Ohio (UPI)—Bud Olsen, a one-year veteran of the National Basketball Association, has signed his 1963-1964 contract with the Cincinnati Royals. Olsen, a former University of Louisville star, is the fifth Royal to agree to terms.

# Randy Second In Shot Put At Germany

HANNOVER, Germany (UPI) — The victorious United States men's track and field team, a third straight victory behind it, leaves today for London; and a weekend meet with Britain's top athletes.

The Yank men won 10 of Thursday's 11 events against Germany's men's team to close out a 141-82 victory. Previously on the current tour, the Americans beat the Russians and Poles in similar dual meets.

A spectacular victory in the 1,600 meter relay highlighted Thursday's action with Lester Milburn, Ullis Williams, Rex Cawley and Henry Carr clocking 3:02.8 for the best time in this event anywhere in the world this year. The time was just short of the world record of 3:02.2 set by the United States in the 1960 Olympic Games.

The Americans scored 1-2 sweeps in five of Thursday's events and lost only in the 10,000 meter run when Peter Kubicki defeated Jim Keefe of Central Connecticut State. The sweeps were scored in the 200 meters, the 1,500 meters, the 400-meter hurdles, the shot put and the hop-step-and-jump. The Yanks also won the 3,000-meter steeplechase, the high jump, the javelin and the 10,000-meter walk.

Dave Davis of the USMC edged Randy Matson of Pampa in the shot put, Davis winning with 58-8 1/2, while Matson was second with 58-5.

Jubilant American men's coach Payton Jordan said he feels the team will bring home a world record before the tour is finished.

"We are ready for a world record in the 400-meter relay in London on Saturday," said Jordan, "but we will have to improve on our baton passing to do it."

# Green Bay Favored Over College Stars

CHICAGO (UPI) — Gridiron know-how made Vince Lombardi's Green Bay Packers a two to three touchdown favorite today for the 30th annual game matching the National Football League champions against the College All-Stars.

The All-Stars, coached by Otto Graham for the sixth consecutive year, have their share of 260 and 270 pound behemoths and more backfield speed than usual, but even Graham concedes that the experience of the Packers, NFL titleholders for the last two seasons, will make them hard to beat.

The pro club has won 19 of the 30 games, the All-Stars eight and two games have been tied, while the Packers will be seeking to rack up the fifth straight pro triumph in the series and their 20th.

# Youth Baseball

Jimmy Addington pitched a five-hitter to lead Dixie Parts to a 13-4 win over Cabot in Optimist Youth Baseball last night. Elmer Rippeot was the losing pitcher, with Mike Stephens in relief. Dan Carlton and Chuck Albus each had three hits.

The win ties Dixie with Et Al, each 13-2. A playoff for the Eastern League title will be held tonight at 7:30 at Optimist Park.

Hardin & Roth ended the Western League season with an 11-5 win over One Bull Ranch. D. Harris was the four-hit winner. R. Redus the loser. G. Dalton had three hits for H&R.

consecutive exhibition victory. Last year Green Bay whipped the Stars, 42-20, with a 21-point splurge in the fourth period.

Tonight's game was expected to draw about 65,000 fans to Soldier Field on Chicago's lake front despite network television over 200 stations and an uncomfortable weather forecast.

The weather outlook was for a warm night with a high temperature during the day between 85 and 90 and thundershowers likely.

Both teams took their final workouts under the lights at Soldier Field to become acclimated to the turf with the Packers winding up their drills Thursday night.

The Packers definitely will be without the services of one key player, linebacker Ray Nitschke, a star last year, while fullback Jim Taylor was a doubtful starter due to a leg injury. However, Lombardi was expected to get maximum service from Earl Gros, an All-Star standout last year, as a replacement.

One other new name will be in the Pack's backfield, halfback Tom Moore, replacing Paul Hornung, under suspension by the NFL.

# Texas League Drygulches Houston Colts

HOUSTON (UPI) — Texas League combatants laid inter-team rivalries aside Thursday night and combined forces to drygulch the National League Houston Colts 7-3 in a Texas League All-Star game.

The All-Stars used six pitchers to scatter five Houston hits, getting three runs in the fifth inning and then holding the Colts scoreless until the eighth.

Houston started to roll in that inning, blasting across three runs of their own to deadlock the ball game.

But Tulsa infielder James Beauchamp of the All-Stars blasted a home run with three men on board in the bottom of the ninth to end the game.

The Texas League returns to normal action tonight, with Albuquerque at El Paso, Amarillo at Tulsa and San Antonio at Austin.

# Plainview Beats Tascosa Legion

PLAINVIEW (Sp) — Tascosa's state-tournament bound American Legion baseball team lost a 5-1 exhibition game Thursday night to the Plainview American Legion club.

Ray Newton pitched the distance for the winners and gave up two hits.

Tascosa 1 0 0 0 0 — 1 2 2  
Plainview 2 0 0 1 0 — 5 4 2

Bill Bogan, Bruce Magness (5) and Stan Robinson, Joe Saunders (5), Ray Newton and Bob Piercy.  
2B—Tom Clark, Plainview.

Two unearned runs were the margin of difference as key Clown miscues sparked the game. Jimmy Enloe sparked the Stars with a hit and both runs scored, also sparking the umpire, who gave him the thumb in the late-innings. James had a double for the only extra-baser.

# The Panma Daily News

A Watchful Newspaper  
EVER STRIVING FOR THE TOP O' TEXAS  
TO BE AN EVEN BETTER PLACE TO LIVE

The Panma News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself, no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

## Actions Reveal What Words Do Not

Of the old Trojan war there arose a slogan: "Beware of Greeks bearing gifts." The reference was to the wooden horse, offered as a gift by the Greeks to the war-weary defenders of Troy. In case you've forgotten, the "gift" contained a task force which formed a fifth column within Troy and opened the doors to the Greek military forces.

Aesop had some ideas along this same line which actually predate the Trojan war: "Beware of wolves in sheep's clothing."

In today's world we might paraphrase this to suggest: "Beware of men whose deeds differ from their soft and generous promises."

At the moment, for instance, there are thousands of persons in this nation who wave the American flag and who stamp and shout in favor of "patriotism."

Many of those who thus posture with great enthusiasm about their love of country and of the "American Way" are engaged in seeking laws to increase taxes, to grant special favors to unions or other power groups. They want increased welfare payments; censorship of ideas they do not favor; government control of schools and of our lives.

Indeed, they often go so far as to demand the banishment of those whose views differ from their own. They want more from Social Security, more medical payments for the aged, more restrictions and controls on business. And this that they want, they equate with Americanism. They come forward with the idea that whatever the majority of the people may say they want at a given time, this is the American way.

America attained its greatness, not by these things offered through the hands of a tax-greedy political mechanism, but by their very lack. The distinctive feature of this country was not some special brand of religion, but freedom for all religions. We gained stature, not with Social Security, but with individual security, individually earned.

We obtained a stature of nobility, not thru censorship, but thru freedom to express ideas, often unpopular. We gained breadth and height among the nations of the world, not by robbing the rich to give to the poor but by permitting the rich to be rich and to do as they pleased with what was their own. And this also meant that the poor were free to obtain riches in any honest pursuit of their own.

It was not the democratic idea that propelled us into the forefront of all the nations on earth, but the fact that we relied primarily on the right of the people to protest and to reject government and to make their own way. The power of our government to do as it pleases with its taxpayers is not emblematic of success, but indicative of a great loss of the meaning of America, in the hearts of many.

This country became important, not because the people were so well protected by a benevolent state, but because the people rolled up their sleeves in rugged competition and out-produced every other nation on earth. It is not thru a protectionist attitude but one residing in a deep belief in human dignity and worth and in a principle of freedom, that we gained our stars. Therefore, it is not enough for people to smile with oily satisfaction and to profess their love of the American way. What they do speaks more loudly than what they say.

Those persons engaged in engendering economic, political, racial or religious strife are not demonstrating the greatness of America. The greatness of America is in its ability to rise above sectional differences and to permit all men to do their best with whatever nature and their own energies have endowed them.

So, beware of politicians who promise you something out of other people's incomes. Beware of labor bosses who profess to love America but who undermine its enterprise by strikes and forays against the productivity of individuals.

What we want is freedom under law. This is the same as supposing that freedom consists of your right to do what you are told.

Man—Apt Imitator  
It is said that science and technology have advanced mankind many centuries in this past century. Yet, have they?

Jet propulsion is new, but the squid has been jetting around the ocean by sucking in and expelling water for much longer than man has been doing it.

Radar, of a type, has been used by bats for centuries. The hummingbird is a natural helicopter, going up and down, backward or forward, or just hovering over a blossom.

The scorpion's tail is a natural hypodermic needle. The caribou and snowshoe rabbit have built-in snowshoes. And abalones use suction cups to attach themselves to rocks.

Science is man learning how to imitate the things he has seen around him since he came upon the earth.

## Pull Up A Chair

By Frank J. Markey

The family shopper will be glad to learn that stores giving trading stamps don't raise their prices very much, as is generally believed. The Harvard Business School investigated practices of more than 1000 supermarkets and found 85 per cent maintained the same prices. The survey concluded that stamps attract customers, but they won't return unless the prices and quality are okay. In other words, competition still prevails.

Dr. Norman Welch of Boston, new president-elect of the American Medical Association, serves for a year as president-elect and then for the next 12 months as president, a unique arrangement. A specialist in internal medicine, he is a consultant at five Massachusetts hospitals, and has taught at Tufts and Boston University Medical Schools, along with heading the Bay State's Blue Shield. Says his hobby is medicine. Who would doubt it?

It's surprising that some TV producer doesn't make a series about Calamity Jane. She was an Indian Scout with Custer, and later a government pony express rider between Deadwood, South Dakota, and Montana. Her adventures rival those of any western hero.

The soap companies are frothing to introduce new "soft" detergents to head off Federal legislation to eliminate insoluble materials which have resulted in water pollution problems throughout the country. All agree that existing detergents sometimes result in foam in water supplies, but deny they are a health hazard. New "soft" detergents will decompose faster in sewer treatment processes, and thus banish the foaming problem. Three chemical companies will be in production within a year with ingredients for the "soft" detergents. Madison Avenue is already bubbling over at the prospect of the advertising campaign to come.

Country Editor speaking: "Relaxation is the luxury of wasting time. Therefore, it's not wasted." . . . Washington County, Maine, the nation's largest producer of low bush blueberries, has more than 100,000 acres of the "tasty morsels. The first canning factory for blueberries was started in 1866 at Cherryfield, an unlikely name for a blueberry canning factory location. . . . The Post Office Dept. is gradually eliminating the bronze-barred stamp windows for multi-purpose counters in the interest of economy. . . . The Sheraton Hotel chain recently started construction of a 26-story hostelry in Tokyo since the Japanese government lifted the ban on high buildings, which had been enacted as a safety rule because of earthquakes. . . . The Interior Dept. has just put out a poster to curb litterbugs. It pictures the Litterbug as a despicable creature throwing trash in all directions, and says: "Don't Be One. . . . Keep America Beautiful." . . . Nothing tastes better when we're in Oregon than fresh baked Columbia River salmon. It loses much of its flavor when it is canned, frozen, or shipped elsewhere on ice.

With our owned stock in companies making safety belts for automobiles, now that many states have passed legislation making them mandatory. . . . 17 million Americans living in all parts of the country were born behind the Iron Curtain. . . . A quipster suggests different license plates for day and night driving might solve the traffic problem and also give the states more revenue. . . . We've never been able to figure the 10, 15, and 25 cents off items in a supermarket. Trouble is the products never seem to have the real price indicated. . . . The automobile companies say that an average of 8 million cars a year will be sold in the late 60's. . . . The four words that must appear on every U. S. coin are United States of America. . . . Since "My Fair Lady" opened on Broadway in March 1956 it has been seen in the United States, Britain, Australia, New Zealand, South Africa, Argentina, Mexico, Soviet Russia, Germany, Holland, Norway, Sweden, Denmark, Finland, and Iceland. The Warner Brothers movie version will give it even greater world-wide presentation. . . . Today's smile: Auto dealer telling off prospective buyer: "We've looked over your 1959 roadster for which you are asking \$2200 on a trade. In our opinion you need YOUR wheels balanced."

"I'm more interested in seeing that Department of Agriculture change directions than change secretaries," says Shuman. But he sees no changes coming in Freeman or Kennedy administration farm policies.

Shuman gets around the country for a good bit so he was asked how farmers generally feel about Freeman. "About the same as they felt about Mr. Benson," Shuman replied. As for Republican presidential candidates now being mentioned, Shuman believes those with congressional experience in handling farm legislation would be best qualified. That would give the nod to Senators Barry Goldwater of Arizona and Thurston B. Morton of Kentucky.

Shuman gives Gov. Nelson Rockefeller credit for being knowledgeable on farm issues. New York State has a big dairy industry and Rockefeller has big ranches in Venezuela. Shuman believes that "chaos will not result if new farm legislation is passed."

Shuman gives Freeman credit for being very astute and a good administrator and he takes no stock in reports Freeman will resign or be fired.

Shuman gives Freeman credit for being very astute and a good administrator and he takes no stock in reports Freeman will resign or be fired.

## Bible Digest

By R. B. DEAN

"He that loveth his brother abideth in the light and there is none occasion of stumbling in him." 1 John 2:10

The love that we have for our Heavenly Father is reflected in brotherly love. "Love one another."

## "Well Here Comes Our Candidate for 1996!"

When the philosophy of freedom is the subject of a discussion, people unfamiliar with this philosophy invariably arrive at certain mental blocks. One of these blocks goes like this: "Sure I believe in freedom. I want to be free to buy canned and frozen foods and to be sure such foods have been properly prepared, under sanitary conditions. I want strong government rules, regulations and supervision to guarantee my safety when I eat what I want to eat."

The person who makes a statement of this kind has two rumors on his mind. In the first place, he imagines that without government rules, regulations and controls, the public is continually endangered. In the second place, he imagines that government rules, regulations and controls eliminate all dangers.

To begin with, the vast majority of manufacturers and processors of canned and frozen foods have a natural tendency to want to protect the lives, and digestive tracts of their customers. It isn't easy to build a good business by killing off your clients or making them ill. Millions of cans of tomato soup have been prepared on a commercial basis and millions of customers have enjoyed eating the soup, with no unpleasant after effects. On the other hand, several members of my family became ill after eating tomato soup made from home-grown vegetables, prepared by a skilled cook and we never knew why. Of course the home-made soup was not made under government rules and regulations and controls. Shall we have government rules and controls applied to all home-cooked foods? Think of all the newly wedded who live recklessly as the bride prepares food for her newly-won husband. It's a frightening thought, to say the least. There should be a law!

What do you think would happen if all government rules and controls connected with the preparation, canning, freezing and bottling of food and drink products were cancelled out day after tomorrow?

Do you believe that canners and freezers and bottlers would happily go about the business of endangering the lives of their clients? I have been drinking bottled apple juice for some time. The other day my wife opened a new bottle and my first taste told me something was wrong. I don't know what went wrong or what caused the unusual and unpleasant taste. Maybe just one little rotten apple managed to get into the act but this happened despite all of the government rules, regulations and controls.

Now, let's apply a little common sense to this situation. If you want government to make rules to protect you, I'm all for it. Will you permit me to buy products which are not subjected to those rules, regulations and controls? Why not ignore manufacturers and canners, bottlers and freezers who wish to offer their products for sale unencumbered by rules and controls? You buy products which bear a government stamp of approval and I'll buy products which do not. Naturally, you will pay for the protection you desire but you will not insist that I must pay for your protection since I prefer to take a chance on the market place. You may pay 18 cents more for a product which bears the government stamp, or I may pay 18 cents more for a product guaranteed only by the producer, or I may pay less.

My wife and I are inveterate searchers for roadside stands and for other sources from which we may buy food products. We have bought chickens and turkeys from producers who are not bothered by controls. We will buy fruit and vegetables from roadside stands at every opportunity. In your opinion, we may be reckless and foolish but we will not insist that you follow our lead. On the other hand, we are resistant to paying for your protection.

Good luck and good health to you, in Freedom.

Edson In Washington  
Farm Bureau Sows Seeds For Legislation It Favors  
By PETER EDSON

WASHINGTON (NEA)—Charles B. Shuman, American Farm Bureau president, isn't mad at anybody any more—not even Secretary of Agriculture Orville L. Freeman.

Since the biggest farm organization was generally credited—or blamed—for defeat of the Kennedy administration wheat program in the May 21 referendum, it has been assumed that Shuman is still agin' the gov'ment because it has done nothing to get some substitute wheat legislation through Congress.

In Washington to testify before a House Agriculture subcommittee on the AFB proposals for an interim wheat, feed grain and cotton bill, Shuman was completely relaxed.

He didn't have any particular criticism of Freeman for taking his trip to Russia although some critics have accused him of running away to block new farm legislation.

"After all," observed Shuman, "Secretary Benson—(President Eisenhower's Secretary of Agriculture Ezra Taft Benson)—took his family and friends on a tour of Russia just before he left office. So why shouldn't Secretary Freeman go?"

Shuman gives Freeman credit for being very astute and a good administrator and he takes no stock in reports Freeman will resign or be fired.

## CONTRADICTIONS Some Want 'Freedom' Under Regulations

By GEORGE BOARDMAN, Ph. D.

When the philosophy of freedom is the subject of a discussion, people unfamiliar with this philosophy invariably arrive at certain mental blocks. One of these blocks goes like this: "Sure I believe in freedom. I want to be free to buy canned and frozen foods and to be sure such foods have been properly prepared, under sanitary conditions. I want strong government rules, regulations and supervision to guarantee my safety when I eat what I want to eat."

The person who makes a statement of this kind has two rumors on his mind. In the first place, he imagines that without government rules, regulations and controls, the public is continually endangered. In the second place, he imagines that government rules, regulations and controls eliminate all dangers.

To begin with, the vast majority of manufacturers and processors of canned and frozen foods have a natural tendency to want to protect the lives, and digestive tracts of their customers. It isn't easy to build a good business by killing off your clients or making them ill. Millions of cans of tomato soup have been prepared on a commercial basis and millions of customers have enjoyed eating the soup, with no unpleasant after effects. On the other hand, several members of my family became ill after eating tomato soup made from home-grown vegetables, prepared by a skilled cook and we never knew why. Of course the home-made soup was not made under government rules and regulations and controls. Shall we have government rules and controls applied to all home-cooked foods? Think of all the newly wedded who live recklessly as the bride prepares food for her newly-won husband. It's a frightening thought, to say the least. There should be a law!

What do you think would happen if all government rules and controls connected with the preparation, canning, freezing and bottling of food and drink products were cancelled out day after tomorrow?

Do you believe that canners and freezers and bottlers would happily go about the business of endangering the lives of their clients? I have been drinking bottled apple juice for some time. The other day my wife opened a new bottle and my first taste told me something was wrong. I don't know what went wrong or what caused the unusual and unpleasant taste. Maybe just one little rotten apple managed to get into the act but this happened despite all of the government rules, regulations and controls.

Now, let's apply a little common sense to this situation. If you want government to make rules to protect you, I'm all for it. Will you permit me to buy products which are not subjected to those rules, regulations and controls? Why not ignore manufacturers and canners, bottlers and freezers who wish to offer their products for sale unencumbered by rules and controls? You buy products which bear a government stamp of approval and I'll buy products which do not. Naturally, you will pay for the protection you desire but you will not insist that I must pay for your protection since I prefer to take a chance on the market place. You may pay 18 cents more for a product which bears the government stamp, or I may pay 18 cents more for a product guaranteed only by the producer, or I may pay less.

My wife and I are inveterate searchers for roadside stands and for other sources from which we may buy food products. We have bought chickens and turkeys from producers who are not bothered by controls. We will buy fruit and vegetables from roadside stands at every opportunity. In your opinion, we may be reckless and foolish but we will not insist that you follow our lead. On the other hand, we are resistant to paying for your protection.

Good luck and good health to you, in Freedom.

## Question Box

(We invite questions on economic and the proper functions of government which will not injure anyone.)

Question: "Is profit always expressed in dollars?"

Answer: We believe much of our difficulty in communicating between individuals is in defining the word profit. The answer to the question is an emphatic no.

If a person's property is his life and all of its products, then that includes a man's ideas, his mind, his soul, his physical body and his physical property. The profit he gains from use of his life and its products is the satisfaction he gains from voluntary activities.

One man gains great satisfaction (Profit) from increasing his physical wealth. Another gains profit from increasing his knowledge. Another cares nothing for money, but gains profit from giving away his worldly goods to those he regards as less fortunate than he.

And to the extent that individuals are able to exercise their own talents to their own personal satisfaction, are those individuals free.

Freedom means self-control and is not a state of unbridled behavior. One man's freedom does not give him the right to infringe another's freedom.

When someone says that an individual is motivated only by sacrificial social-mindedness and is not doing it for profit, that person is mistaken. Every voluntary action is done for personal self-satisfaction (profit).

CITATION BY PUBLICATION  
THE STATE OF TEXAS

The unknown heirs of CHARLES McMAHAN, deceased, the unknown heirs of WALTER McMAHAN, deceased, the unknown heirs of HARRY McMAHAN, deceased, the unknown heirs of VICTOR McMAHAN, deceased, the unknown heirs of EVA McMAHAN, deceased, the estate executor of Cordis Walls, deceased, and legal representatives of the estates of each of said deceased persons; and all other persons claiming any title or interest in the premises, numbered 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, are hereby commanded to appear before the Honorable District Court of Gray County, Texas, at 10 o'clock A.M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, to answer to the petition filed in said court, to wit: THE UNKNOWN HEIRS OF CHARLES McMAHAN, DECEASED, ET AL., Defendants, vs. THE UNKNOWN HEIRS OF CHARLES McMAHAN, DECEASED, ET AL., Defendants. A brief statement of the nature of this suit is as follows, to-wit: The premises, described in all of Lots 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, are situated in Block No. 4 of the Original Town of Panma, Texas, and the premises are subject to the provisions of the Adverse Possession and Limitation Act, and more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unanswered.

The officer executing this writ shall promptly serve the same according to regulations of law, and the mandates hereof, and make due return as the law directs.

Witness my hand and the seal of said court at Panma, Texas, this 26th day of July A.D. 1963.

Attest: Helen Sprinkle Clark, District Court Gray County, Texas.

August 2-9-16-22

## The Doctor Says

New Tests Confirm A Diabetes Factor  
By DR. WAYNE BRANDSTADT

Has your doctor tested you to rule out diabetes lately? If not, it may be that you should have a checkup. You may be surprised when he tells you that although you may have a normal blood sugar and glucose tolerance test, you will eventually become diabetic.

The fact that these tests, important as they are, do not rule out a condition now known as prediabetes also came as a surprise to your doctor in recent months but it is true. If you do have prediabetes, however, much can be done to slow or even prevent further progress of the disease.

The new test that determines whether you have this condition differs from the old glucose tolerance test in that for three days before the test you must eat 300 grams of carbohydrates daily and before the test you must take a course of cortisone. The tolerance test is then performed and may show an insulin deficiency that has not yet produced any abnormality in the standard test.

Since diabetes is an inherited disease that is present from birth but may not become manifest until late in adult life, not everyone is a likely suspect. The new test should be reserved for persons with a history of diabetes in the family of either parent; mothers who have had repeated miscarriages, who have had stillbirths, who produce babies that weigh over 10 pounds, or who have mild diabetes during pregnancy that clears up after delivery.

# Sheriff Decides As Bear Hunter He's Fine Cowboy

PAULINE, Neb. (UPI) — Bob Anderson, the sheriff of Adams County, has captured his share of criminals, but confesses to limited experience with bears.

After his meeting the other day with Martha, he's not sure he cares for bears.

It's not that Martha was disagreeable. Uncooperative, maybe, but for a 400-pound black bear, she was pretty friendly.

That doesn't mean the sheriff had an easy job when he set out to catch her—and get her back home.

Bob and his deputy, Jake Thiel, were alerted Wednesday morning that Martha had wandered away from the Grover Stapleman place near here. Stapleman has a string of donkeys he hauls around to stage donkey baseball games for fairs and festivals. He also kept Martha.

While Stapleman was out drumming up business Tuesday, Martha decided to wander. Anderson, Thiel and three other bear "hunters" followed tips and tracked down Martha.

They spent about two hours in the chase, during which Martha got tangled in some barbed wire and floundered for a while in a V-shaped tree trunk.

Anderson, who's pretty fair with a lasso, finally used some borrowed rope to capture her.

He and Martha were about two miles from Stapleman's place. So they began trudging down a hot, dusty road. Every now and then, perhaps because of the heat, Martha decided to sit and rest in the middle of the road.

A friendly farmer in a pickup truck finally gave them a lift the last quarter-mile.

Said the sheriff: "I've worked with horses and cattle, but never before with a bear named Martha."

**PROOF IN THE EATING—** All good things—even cotton candy—come to an end. Dianne Lane, 4, of Austin, Tex., soon will learn that sad fact as she eats her way down to cardboard cone which held spun cotton confection.

## On The Record

### HOSPITAL NOTES

Highland General Hospital does not have a house physician. All patients, except severe accident victims, are requested to call their family physician, before going to the hospital for treatment.

Please help us to help our patients by observing visiting hours.

**VISITING HOURS**  
AFTERNOONS: 2:00 — 4:00  
EVENINGS: 7:00 — 8:30

**MATERNITY FLOOR**  
AFTERNOONS: 3:00 — 4:00  
EVENINGS: 7:00 — 8:00

We request that all children under 14 yrs. of age not visit in patient rooms.

### THURSDAY Admissions

Alemita Simpson, 525 Elm  
James Weathered, 1221 Charles  
Mrs. Pearl Rushing, Stinnett  
Jimmy Finch, Amarillo  
Clifton Daniels, 332 N. Wells  
Calvin Tosh, Stinnett

David Clemens, Skellytown

### CONGRATULATIONS

To Mr. and Mrs. Robert Simpson, 525 Elm, on the birth of a boy at 7:59 p.m., weighing 6 lbs. 5 oz.

## 1964 Feed Grain Program Basically Same as in '63

The 1964 feed grain program will be basically the same as the 1963 program, Evelyn Mason, county office manager of the Gray County ASCS, announced today.

The sign-up period for crops is planned for early in 1964.

The Department of Agriculture has held changes to the "fewest consistent with law and economic circumstances," Miss Mason said.

The major change in next year's feed grain program is an increase in the top limit on diversion from a farm's base acreage with an increase in the rate of payment for maximum diversion. This is intended to encourage producers to divert additional feed grain acreage and to increase their income.

In her statement, Miss Mason said: "In 1964, a producer may divert as much as 50 per cent of this feed grain base acreage (in 1963 it was 40 per cent), and those who divert from 40 to 50 per cent will receive diversion payments as the maximum rate for all acres diverted. As before, the maximum acreage diversion will be 25 acres if this is more than 50 per cent of the base.

"As in the 1963 program, two rates of diversion payment will be offered: (a) Producers who divert at least 20 per cent of their base acres will be eligible for payments (based on the county price support rate for the feed grain diverted) on 20 per cent of the normal yield of the diverted acres; (b) for diversion between 20 and 40 per cent of their acreage, the payment on this part of the diversion will be at a rate of 50 per cent of the farm's normal yield times the county support rate. Participants who divert 40 to 50 per cent of the base (or 25 acres, if this is greater) will receive the 50 per cent maximum rate of payment on all acres di-

verted. Under a new legal provision, payments may not exceed 20 per cent of the value of the land diverted.

"The national average price support levels in 1964 will be the same as in 1963, but a slightly larger proportion of the support will be made available through loans. For the feed grains covered by the program, the loan rate, support payment, and total national average support are, respectively: (1) Corn (per bu. — \$1.10; 15 cents, \$1.25; (2) Barley (per bu.), 84 cents, 12 cents, 96 cents; (3) Grain sorghum (Per cwt.) \$1.77, 23 cents, \$2.00.

"Payments-in-kind for both diversion and the non-loan part of the price support will again be made in the form of negotiable certificates with which the producer may receive grain from CCC stocks or cash as the ASCS county office if he wishes CCC to help in marketing the certificates.

"As in the past, eligibility for payments and price support will be conditional upon maintenance of normal conserving acreage (1959-60 average) in soil-conserving crops or practices, including summer fallow and idle land. Also as in the past, a producer who owns or operates more than one farm will be eligible to participate in the program on one farm only if, on each of his other farms, the feed grain base is not exceeded."

## 'Prof' Nixes Books, Cupid

AUSTIN, Tex. (UPI) — A University of Texas dean says the idea that marriage makes for better students is a myth.

"We find marriage seldom makes a good student out of a poor one," Dean of Students Glenn Barnett says.

Barnett warned that mixing marriage and college can mean troubles for both husband and wife.

"If the wife was a competent student and dropped out for marriage," Barnett says, "she frequently feels an underlying resentment if her student husband doesn't excel."

"In many cases," he adds, "his grades go down as the time and concentration needed for his work are nibbled away by the demands of family life."

Barnett also says that a student-father can grow extremely sensitive about his own position while his wife plays the role of breadwinner.

"When a girl tells me she is quitting to get married," Barnett says, "I try to impress upon her the importance of continuing her own education some time, whether soon or many years from now."

"The boy she marries is going to continue to grow and probably become a leader in his profession and his community. Her growth will have to keep pace with his if the marriage is to succeed," Barnett says.

**MOVIE-GOERS FLEE**  
NEW YORK (UPI)—More than 8,000 movie-goers, who had seated themselves in the huge Radio City Music Hall Thursday night to see "The Thrill of It All," were forced to leave when fire broke out in an electrical generator in the basement.

Smoke billowed through the basement and cut off some power to the theatre. However, most of the patrons were not aware of the fire until the theatre's organist announced there would be no show. The movie had not yet started.
