## Executive Points Out Oil's Fight to Preserve Liberties

### 'Keep Informed,' Says Speaker at Luncheon

The oil industry in the Texas Panhandle and other areas of the United States is faced with many problems in the fight to preserve individual liberties, Fred Palmer, vice president and manager of the Tulsa division of Sinclair Oil & Gas Company, told a "Sinclair Appreciation Day" luncheon audience today in the Starlight Room of Coronado Inn.

During the course of his talk Palmer stated that "if we are to battle effectively for human rights we must constantly keep ourselves informed and then spread the word."

In this connection he went on to say:

"Events and documents of far-reaching consequences transpire and are executed without the general public's knowledge."

Payroll Cited  
After outlining optimistic figures on Sinclair activities, a detailed activity of the oil industry in general in the Texas Panhandle, including an annual payroll of \$12 1/2 million in Gray County alone, Palmer said:

"All these facts and figures quickly boil down to one point—all of us are involved in the oil industry to some extent, directly or indirectly. And all of us in the oil business recognize that despite the pretty picture these figures seem to paint, there are causes for concern in this industry. It would be most Pollyanna-like to pretend otherwise."

"Former Texas Congressman Frank N. Ikard, now president of the American Petroleum Institute, was referring to this situation when he recently said, 'With all the problems we face today, this industry needs all the interest and enthusiasm, all the energy and zeal its defenders can muster.'"

His Controls  
Among these problems, Palmer pointed out such matters as taxes, federal efforts to control well-head prices of natural gas, and renewed efforts to expand federal control within the industry, and attempts once again to

kill or cripple the percentage depletion allowable provisions.

"Sincerely," Palmer continued, "here in Pampa there is no difficulty in mustering the zealous defenders Mr. Ikard mentioned. Frequently, however, we find ourselves surrounded by other defenders and may soon develop the attitude that our battle is won because we can see no more foes."

"What we must all pause to realize is that we have friends and acquaintances in other areas of this nation who have not been informed of our fight to preserve individual liberties. It is this vast army of men and women that we must arouse—people who are complacent because they are not informed."

"Just recently Mr. Ikard pointed out that a federal oil report of serious importance was kept secret 10 months after its completion and can be expected to spawn a new series of secret reports. A major trouble with these secret reports is, he said, 'You never know when a report stops being a study and becomes a policy.' Mr. Ikard added that it was the insistence of Texas Congressman Walter Rogers that got the report exposed to public view."

"Policy Blueprint"  
"This report—a blueprint for national oil policy—makes many basic claims without any visible support of facts."

"Percentage depletion was a target for a swipe, and there were hints that the federal government was planning to take it away."

**AFTER 40 YEARS**—G. K. Reading, second from right, is shown receiving a 40-year certificate from District Engineer Charles W. Smith, right, of the Texas Highway Department. Looking on are Fred Thompson, left, of the highway committee of the Pampa Chamber of Commerce and Paul Crouch, chairman of the highway committee, who presented Reading a plaque in behalf of the chamber. Reading has been resident engineer in Pampa for 22 years after coming here from Clarendon. The testimonial dinner was held yesterday noon.

### Street Closing Move Triggers Controversy

Controversy marked this morning's meeting of the city commission when discussion came up over an ordinance authorizing the city to close Thut St. from S. Somerville to the Fort Worth & Denver Ry. Former Mayor E. C. Sidwell led the opposition to the street closing charging that the city would be "barricading and strangling industry" through such action.

Proponents of the street closing, led by Frank Culbertson, of the Chamber of Commerce industrial committee, held that the street closing would not injure Pampa's industrial area and said they felt the keeping of the Pampa Foundry with its

eventual jobs for some 80 employees was of vital importance to Pampa.

"We need new industry here," Culbertson said, "and I think we should give a break to industry already here."

The Pampa Foundry had asked that the street be closed in order to allow an expansion plan to be carried out. H. O. Dabry, owner and president of the foundry, told the commission two weeks ago, if the street could not be closed it would be necessary for him to move the foundry out of Pampa.

The ordinance calling for closing the street was prepared and introduced for the first time at today's commission meeting.

Mayor H. R. Thompson explained that no action could be taken on the legislation today due to the fact that further negotiations are needed with the Fort Worth & Denver Ry. in connection with plans to open an alternate route in event the street is closed.

Sidwell said if the city takes action to close the street he will seek legal advice with the intention of trying to stop it.

"I do not think we will lose any industry," Sidwell said, "I think there is room for expansion there. I don't think the solution to this problem is the barricading and strangling of existing industry."

Sidwell claimed that Thut street is one of the short cuts for industrial trucks to reach the Amarillo Highway from the area without the necessity of using a main thoroughfare.

The petitions would need 300 signatures or 10 per cent of the voters who cast ballots in the last mayoralty election.

The petition being circulated read:

"We, the qualified voters of Pampa petition the city commission as provided by the charter and statutes of the State of Texas on the question of submitting to the taxpayers to be voted upon the issue of whether or not the city commission should grant the increase of 10 per cent in gas rates to the Pioneer Natural Gas Company or should contest by all legal methods such a raise in gas rates. We, the undersigned, further petition that final passage of the ordinance granting the gas rate raise shall be delayed until an election can be called to determine the will of the people by means of the vote of the qualified voters of Pampa."

PEDESTRIAN KILLED  
GLEN ROSE, Tex. (UPI)—An automobile driven by Robert Turner Finley of Walnut Springs, Tex. struck and killed Howard Eeyerly Scott, 64, Monday.

MAN CRITICALLY BURNED  
AUSTIN (UPI)—A bookkeeper was burned critically Monday when he drove a fork lift truck into a barrel of sulphuric acid. Robert Dabney, 57, had been moving a barrel in the warehouse when the accident occurred.

### Hank Bauer Named As Oriole Manager

BALTIMORE, Md. (UPI)—Hank Bauer, former New York Yankee star who once piloted the Kansas City Athletics, today was named manager of the Baltimore Orioles.

Bauer, who succeeds Billy Hitchcock, was signed only for the 1964 season, but General Manager Lee MacPhail said that "Hank has been my preference right along." No terms were announced.

### Gas Rate Hike Stirs Opposition

Opposition arose today to the proposed 10 per cent increase in Pampa's general gas rates.

Eight petitions went into circulation seeking to delay passage of a rate raise ordinance now before the commission until an election can be called to determine the will of the people by means of a vote of the qualified voters of Pampa.

The ordinance granting the rate raise to Pioneer Natural Gas Company was given its first reading at today's commission meeting in City Hall. It passed first reading on a 3 to 2 vote. Mayor H. R. Thompson and Commissioners MacPhail, McDaniel and Jim Nation voted for it and Commissioners L. P. Fort and Leon Holmes cast votes against the passage.

Commissioner Fort introduced the petitions which he said were going into circulation today. He said he was asking the vote delay on the ordinance at the request of persons who wanted the final action held up until the petitions could be circulated and presented.

The petitions would need 300 signatures or 10 per cent of the voters who cast ballots in the last mayoralty election.

The petition being circulated read:

"We, the qualified voters of Pampa petition the city commission as provided by the charter and statutes of the State of Texas on the question of submitting to the taxpayers to be voted upon the issue of whether or not the city commission should grant the increase of 10 per cent in gas rates to the Pioneer Natural Gas Company or should contest by all legal methods such a raise in gas rates. ## JFK Encourages Castro Ouster In Miami Talk

### Professor Awaiting Rescue in Mountains

LAS CRUCES, N. M. (UPI)—A University of New Mexico physics professor, struck down by an avalanche east of Las Cruces Sunday, awaited rescue today from a peak in the rugged Oregon Mountains.

The professor, Georg Goeckel, and a student at the university, Arlon J. Hunt, 24, were both injured by falling rock from an avalanche as they started down from the summit of one of the mountains.

### Crow Continues Investigation On CD Property

CANADIAN—Hemphill County Attorney Jim Crow said today he was continuing his investigation as directed by the Hemphill County Commissioner's Court, and as of late this forenoon he had not received a reply from former Hemphill County Civil Defense Director Harry Rathjen.

Crow said he wrote Rathjen Friday and informed him of the investigation concerning the whereabouts of \$8,662.06 in government surplus property, which was purchased by checks drawn on the Hemphill County Civil Defense Organization.

Crow said in the letter he requested Rathjen to furnish him with an accounting of the material in question as soon as possible.

Crow told the News that he had advised U.S. Attorney General Robert F. Kennedy in two letters and a telegram of the situation and had yet to receive a reply.

Crow informed Kennedy in his letter of a letter which he (Crow) received from L. K. Barry, executive director of the Texas Surplus Property Agency, in which Barry said, "It has repeatedly been held by federal and state attorneys throughout the country that donable surplus acquired by a Civil Defense organization not for bona fide Civil Defense purposes was acquired by fraud against the United States and title never passed to the organization acquiring the property."

Crow said, "I intend to continue this investigation until the proper authorities recognize their duty and look into this situation."

### Man Charged In DWI Case

Walter Kyle Choate, 60, 601 W. Foster, was arraigned in Justice of Peace Court of G. L. Lunsford this morning on charges of driving while intoxicated, second offense.

Choate was arrested at 10:14 p.m. Saturday in the 800 block of West Foster by Pampa Police.

Bond was set at \$1000.

PEDESTRIAN KILLED  
GLEN ROSE, Tex. (UPI)—An automobile driven by Robert Turner Finley of Walnut Springs, Tex. struck and killed Howard Eeyerly Scott, 64, Monday.

### Backing Of U.S. Offered

By WILLIAM J. EATON  
WASHINGTON (UPI)—President Kennedy all but invited the Cuban people today to overthrow Fidel Castro's Communist regime and promised prompt U.S. aid if they do.

Kennedy's encouragement of a Cuban coup was contained in a major foreign policy speech before the Inter-American Press Association (IAPA) Monday night in Miami Beach, Fla.

The President said it would be a happy day if the Castro government is ousted.

His pledge and an offer to extend U.S. backing for any Latin American nation seeking aid to resist a Communist takeover attempts climaxed a busy political trip to Florida.

The Chief Executive was reported encouraged by the warm reception he received in Tampa and he told an airport rally in Miami that he was convinced Florida would vote for the Democratic presidential ticket in 1964.

Flashes Campaign Smile  
Kennedy acted like a man running for the White House as he motored past cheering crowds, shook hands with dozens of bystanders and flashed his familiar campaign smile.

"Great trip," one White House official observed with an eye to the unexpected enthusiasm shown in a state that has voted Republican in the last three presidential elections.

Democratic Congressmen from Florida were impressed by the applause Kennedy received in defending his civil rights proposals before the Florida Chamber of Commerce at Tampa.

Kennedy's major address of a five-speech day was his Latin American policy statement before U.S. and South American editors. He said that the American states must do everything they can to prevent the establishment of "another Cuba" in the Western Hemisphere.

"The American states must be ready to come to the aid of any government requesting aid to prevent a takeover linked to the policies of foreign communism rather than an internal desire for change," he said.

Pledges Aid  
"My country is prepared to do this," Kennedy pledged to applause from the 1,000 persons at the IAPA banquet.

He also promised that this country would work to block any effort to replace Castro with a right-wing government reminiscent of the former Fulgencio Batista dictatorship.

"No Cuban need feel trapped between dependence on the broken promises of foreign communism and the hostility of the rest of the hemisphere," he said.

For once Cuban sovereignty has been restored we will extend the hand of friendship and assistance to a Cuba whose political and economic institutions have been shaped by the will of the Cuban people," he said.

If it comes from a hardware store we have it. Lewis H. Hwa. (Adv.)

### Bill by Rogers Passes House

U. S. Rep. Walter Rogers informed the Pampa Daily News Monday night that his bill providing \$1.1 million for recreational facilities at Sanford Reservoir had passed the House by a roll call vote of 282 to 30.

The bill authorizes appropriation of the funds for establishment and administration of facilities in the area.

Rogers said last week that House approval for another \$23.9 million appropriation on the Canadian River project at Sanford was expected to clear the House today.

Among these problems, Palmer pointed out such matters as taxes, federal efforts to control well-head prices of natural gas, and renewed efforts to expand federal control within the industry, and attempts once again to

kill or cripple the percentage depletion allowable provisions.

"Sincerely," Palmer continued, "here in Pampa there is no difficulty in mustering the zealous defenders Mr. Ikard mentioned. Frequently, however, we find ourselves surrounded by other defenders and may soon develop the attitude that our battle is won because we can see no more foes."

"What we must all pause to realize is that we have friends and acquaintances in other areas of this nation who have not been informed of our fight to preserve individual liberties. It is this vast army of men and women that we must arouse—people who are complacent because they are not informed."

"Just recently Mr. Ikard pointed out that a federal oil report of serious importance was kept secret 10 months after its completion and can be expected to spawn a new series of secret reports. A major trouble with these secret reports is, he said, 'You never know when a report stops being a study and becomes a policy.' Mr. Ikard added that it was the insistence of Texas Congressman Walter Rogers that got the report exposed to public view."

"Policy Blueprint"  
"This report—a blueprint for national oil policy—makes many basic claims without any visible support of facts."

"Percentage depletion was a target for a swipe, and there were hints that the federal government was planning to take it away."

"Former Texas Congressman Frank N. Ikard, now president of the American Petroleum Institute, was referring to this situation when he recently said, 'With all the problems we face today, this industry needs all the interest and enthusiasm, all the energy and zeal its defenders can muster.'"

Mr. Ikard added that it was the insistence of Texas Congressman Walter Rogers that got the report exposed to public view."

### Police Report Mischief, Theft

James Pat Wheat, 737 Malone, reported to Pampa police at noon yesterday that his 1962 model motor scooter was missing from the Pampa Junior High parking lot.

Patrolmen found the scooter back at the lot at 4:25 p.m. yesterday.

Another report was received at the station shortly after 5 p.m. from Gae Robertson, 430 N. Sumner, who stated that someone had torn loose a window screen and entered her home sometime between 8:30 a.m. and 5 p.m. yesterday. A wrist watch valued at \$15 was missing.

A report of malicious mischief, was received early this morning. Jerry Bogle of Amarillo reported that the top of his 1955 convertible had been slashed while the vehicle was parked in front of the Peppermint Lounge.

The incident occurred between 6:30 p.m. yesterday and 12:10 a.m. today. Estimated damage was \$45.

Among these problems, Palmer pointed out such matters as taxes, federal efforts to control well-head prices of natural gas, and renewed efforts to expand federal control within the industry, and attempts once again to

kill or cripple the percentage depletion allowable provisions.

"Sincerely," Palmer continued, "here in Pampa there is no difficulty in mustering the zealous defenders Mr. Ikard mentioned. Frequently, however, we find ourselves surrounded by other defenders and may soon develop the attitude that our battle is won because we can see no more foes."

### Post Office Set For New Center

A contract branch of the Pampa post office will be opened around mid-February in the new Dunlap department store now under construction in Coronado Center.

Postmaster O. E. Gaylor said bids were opened yesterday and the contract awarded to Dunlap.

The postmaster said the new post office branch, to be known as the Coronado Contract Branch, will provide a convenience to residents in the areas surrounding the new shopping center.

All the general services of the post office will be available.

Among these problems, Palmer pointed out such matters as taxes, federal efforts to control well-head prices of natural gas, and renewed efforts to expand federal control within the industry, and attempts once again to

kill or cripple the percentage depletion allowable provisions.

"Sincerely," Palmer continued, "here in Pampa there is no difficulty in mustering the zealous defenders Mr. Ikard mentioned. Frequently, however, we find ourselves surrounded by other defenders and may soon develop the attitude that our battle is won because we can see no more foes."

### Witness Describes Horror of Fire

ATLANTIC CITY, N.J. (UPI)—"All those faces... my friends... I can see all those faces before me."

Thus did the elderly Jewish lady describe the horror and nightmare of the tragic fire which razed the Surfside Hotel here Monday killing 25 persons.

Sobbing bitterly Mrs. Minnie Dackman, 65, told how she awakened in her room disturbed by a strange smell.

First she called to the night watchman at the hotel, Philip Johnson, "Phil, I smell smoke."

"He yelled back that everything was all right. But I knew that everything was not all right. There was smoke, then in a second—there was no more smoke... there was fire."

"Crawled to Parch"  
"I opened a window, broke the screen, and crawled out head first to the first floor sun porch... flames were all around me. Then I saw a fireman putting a ladder up. I crawled over a railing... and

flames that soared 200 feet, destroyed four other hotels and damaged four additional guest houses which housed no residents other than token maintenance staffs.

Milton Rauer, 48, the owner of the Surfside, six of his relatives, eight guests and three employees made their way out safely through the billowing smoke and flames shortly after the flames erupted about 4:30 a.m. (EST).

Fifty-six pieces of fire equipment and more than 450 fire fighters including those from nearby communities battled the flames but for the most part all they could do was watch helplessly while the 60-year-old frame building was leveled.

City Commissioner Meredith Kerstetter, director of public safety in charge of police and fire operations said Monday that the Surfside "was routinely inspected in June and that it measured up to fire safety regulations. However the fire department will be alerted to continue a

### State Water Unit Outlines Future

AUSTIN (UPI)—The Texas Water Conservation Association outlined proposals Monday it hopes will help solve the problems of water short areas of the state for the next 50 years.

The association was due to discuss among other things a proposal to carry surplus East Texas water to the dry sections of the south and southwest at its 10th annual convention.

The proposal calls for a \$511 million canal from Orange to Brownsville to move fresh water from the Sabine, Neches, and Trinity rivers into the lower basins of other rivers between Houston and the Rio Grande Valley.

The U.S. Bureau of Reclamation has approved plans for the 419-mile project, which should go before the Texas Water Commission for hearings soon.

Some 125 delegates registered for the two-day convention, which opened Sunday with meetings of the resolutions committee and the executive board.

### NAACP Sets Demonstration For Kennedy

SAN ANTONIO (UPI)—The San Antonio chapter of the National Association for the Advancement of Colored People (NAACP) has announced it will stage a demonstration when President Kennedy visits the city Thursday.

Chapter president Harry V. Burns said the demonstration will be "to let President Kennedy know what is going on in San Antonio."

The NAACP is protesting the city council's refusal last Thursday to pass an ordinance prohibiting segregated business establishments.

The council voted to continue the present policy of voluntary integration.

Burns said demonstrations will be held at International Airport when Kennedy arrives and a city council meeting Thursday morning.

### Man, 84, Feared Lost at Bastrop

BASTROP, Tex. (UPI)—About 20 law officers searched dense, rattlesnake-infested thickets Monday for an 84-year-old man who wandered away from his home Saturday and has not been heard from since.

Lee Fuller left his home in Utley, a small community near Bastrop, early Saturday morning. Bastrop County Sheriff Jimmy Nutt said efforts to find Fuller have been hampered by thick woods and snakes, some of which have not yet hibernated.

Nutt said a helicopter used in the search proved of little value.

## Bishop's Company To Play Thursday

The dramatization of Stephen Vincent Benet's "The Devil and Daniel Webster," as presented by The Bishop's Company, unique repertory company touring 52 weeks of the year coast to coast, can be seen at 8 p.m. Thursday at St. Matthew's Episcopal Church, Rev. William E. West, Rector, announced today.

This unusual production presents the situation of Daniel Webster, great American statesman and lawyer, who attends the wedding of Mary and Jabez Stone and finds himself defending Jabez against the Devil.

The English theater, as most people know, was born before the altar of the church. The long separation of church and stage is being brought to an end by The Bishop's Company, first professional-caliber repertory company to reunite the forces of religion and theater. Its outstanding record includes 800,000 miles of touring in all of the 50 states and Canada.

Asking the audience to share in the creation of the play is part of the technique of the company, which uses no sets or props. Founded by Phyllis Beardsley Bokar in 1952, The Bishop's Company is named in honor of Bishop Gerald H. Kennedy of the Methodist Church. The company is inter-racial and inter-faith.

### NEW SERVICE STARTS

DALLAS (UPI) — Trans-Texas Airways began air service to 13 new cities in Texas and New Mexico Tuesday. The airline also inaugurated 11 daily flights between Dallas and Houston, four of which are non-stop. Some 30 Dallas businessmen flew to Houston for ceremonies.

### Now Many Wear FALSE TEETH With More Comfort

**FASTRETH**, a pleasant alkaline (non-acid) powder, holds false teeth more firmly. To eat and talk in more comfort, just sprinkle a little FASTRETH on your plates. No sunny goopy, pasty taste or feeling. Checks "plate odor" (denture breath). Get FASTRETH at any drug counter.

## Knife, Fork Club Speaker To Give Forecast on Space

It takes only about 3 1/2 hours to cross the United States in a jet airliner; just a little longer to span the Atlantic by commercial jet plane. For about \$200 via air economy passage one can travel from New York to Switzerland. Before the present air age, it cost three or four times as much by boat and took seven or eight times as long.

Fantastic as these achievements seem to us now, they will dwindle in significance. That is the theory of Peter Reich, Chicago journalist who won the Air Force award, "Newspaper Man of the Year" in 1959 for his coverage of important developments in the space, missile and rocket field.

Reich works for the Chicago American. He is a young man with a young viewpoint. He thinks we have just scratched the surface; that bigger and better things are ahead for all Americans. Reich is to be the speaker at the meeting of the Knife & Fork Club at 7:30 p.m. Thursday in Robert E. Lee Junior High School at which time he will tell what these developments are and what most Amer-

## Farm-City Dinner Attended by 300

More than 300 civic leaders, farmers and ranchers heard a witty but vital talk on soil conservation Monday night at the annual Farm-City Week banquet at Pampa High School Cafeteria.

Speaker was Leon J. (T-Bone) McDonald, Oklahoma's "soil evangelist," who is now educational director of the Sooner State's Good Roads and Streets Association.

The event was sponsored by Top o' Texas Farmers and Ranchers in co-operation with the Gray County Farm Bureau. Johnny Johnson of the Farm Bureau was master of ceremonies, bureau President J. D. Skaggs introduced special guests and County Agent Foster Whaley introduced the speaker.

The invocation was given by Rev. Douglas Carver of First Baptist Church and Jerry Whit-

## Gas Firm Ends Fight on Refund With Settlement

SAN FRANCISCO (UPI) — El Paso Natural Gas Co. has agreed to settle its nine-year fight with California, Arizona and New Mexico over natural gas refunds for \$155 million and some rate reductions, it was disclosed today.

The settlement was announced by William M. Bennett, president of the California Utilities Commission. He said it was probably the largest rate case settlement in the nation's history.

## VFW Issues Call For Toys to Fix

Vernon Stuckey of the Veterans of Foreign Wars today issued another appeal for Pampans to donate used toys for the Veterans' annual Christmas party.

Persons who have toys to donate can leave them at Central Fire Station downtown where city firemen will repair, paint and put them in first class condition.

"So far," Stuckey said, "the response has been small. The used toys are needed to take care of children who otherwise will receive no Christmas toys."

## Three Pampans Given Red Cross Aid Units

Three Pampans have completed First Aid Instruction classes and are qualified to teach. Mrs. O. F. Kreimeyer, Mrs. Clyde O. Estes and Fred Martin have been given mobile units by the Red Cross to be carried in their automobiles, enabling them to assist car wreck victims and persons with a type of injury demanding emergency first aid.

Persons interested in taking a course in Standard or Advanced First Aid should contact the local Red Cross office.

## KILLED IN ACCIDENT

Hockley (UPI) — Jack Howard Roberts was killed Monday in a two-car collision on Highway 290.

## Council Approves Paving of Streets

The city commission today accepted the bid of Ray Boswell Construction Co. to pave portions of the 1700-block of N. Sumner St. and the 1200-1300 blocks of Decatur St.

Immediately following the bid acceptance the commission passed an emergency ordinance to start the paving work.

## Post Office

(Continued From Page 1) regular post office will be available. Gaylor said, including sale of stamps, money orders, registered mail, parcel post, mail depository, etc.

The branch will be manned and operated by Dunlap personnel, Gaylor stated, but the operation will be under supervision of the main post office.

## ROUGH WOMEN

DETROIT (UPI) — An Ohio man told police Monday he was haled by two women in a car as he was walking down a street, taken to an alley, beaten and robbed of \$17.

Leonard Short, 26, Celina, Ohio, told officers he was accosted after getting in the car with the women.

He said he escaped once from their car and ran down the street but the women chased him, caught him and beat him some more.

They let him go, he said, after taking his wallet.

## Young Republicans Schedule Meeting Tonight for Vote

Gray County Young Republicans will meet at 7:30 tonight at Citizens National Bank Hospital Room for election of officers and discussion of upcoming projects.

Publicity Chairman Pat Norton announced the meeting and pointed out that the meeting will be open and visitors will be welcome for an informal coffee hour.

(Continued From Page 1)  
ernment should have a great deal more to say about petroleum conservation and supply." Palmer declared that "undoubtedly, the government thinks it can solve all our problems for us, but we have been shown too often what govern-

ment's hands in the operations mean, in spite of all the good intentions. "The late Justice Brandeis of the United States Supreme Court warned that "experience should teach us to be most on our guard to protect liberty when the government's purposes

are benevolent. "Too Much at Stake" "We must be alert — be on our guard—to discover the policies and events that contain a special meaning for us. Granted, this is a tremendous job. But Mr. Laird says, "There is far too much at stake for any oil man to say it is a task too big or too demanding of him. The privilege of being part of a free industry in a free country carries with it the obligation to take all necessary steps to preserve our freedom. We cannot be too careful. We cannot be too well informed."

"Individually and collectively our presence here constitutes a sizable vote of confidence in the future of Texas, Pampa, the oil industry and the United States. We join in searching continuously for ways to increase the major social and economic benefits of our presence."

Palmer pointed out that Sinclair Oil & Gas Company produces oil and/or gas in 10 counties in the immediate Panhandle area, the same area that contains nine of the top 100 Texas counties, ranked according to the value of their oil and gas production. 78 Employees Here in the Panhandle, Palmer stated, Sinclair currently has 78 employees, earning estimated annual incomes totaling about \$465,000. These workers include 18 in the company's exploration district at Amarillo, headed by District Landman G. C. Barton, and 60 in the Pampa production district, headed by District Production Supt. G. W. Crumrine.

Since 1932 when Sinclair Oil & Gas Company merged with The Prairie Oil and Gas Company, Sinclair has aggressively explored for and produced petroleum products in the Top O' Texas district. Presently, he said, Sinclair producing oil wells number 499, gas wells an even 100, and miscellaneous gas injection, water injection, and other wells bring the total to 674. For seven years, new wells

drilled by Sinclair have averaged 23 per year. Sinclair acquired 129 wells in the area by purchasing Southern Production Company properties in 1956. In the 26 counties in the Texas Panhandle, Sinclair holds a total of 335,377 acres, including 99,270 developed acres. In Gray county alone, the company has about 19,000 acres leased, of which 5,289 are developed.

**Seven Near Skellytown**  
From Drilling and Exploration Company, Sinclair acquired leases in four areas of the Panhandle. These include seven leases in the Skellytown area, with recently initiated waterfloods; three leases in the Panhandle field; two in the West Pampa area and one in the Sunnett area. These leases include 2,233 gross producing acres and 166 gross wells.

Sinclair's present average daily production in the Panhandle is 5,160 barrels of oil and the company produces for its own account an average of 32 million cubic feet of gas per day. Gross production from the former Drilexco property is 584 barrels of oil daily, with 218,000 cubic feet of gas per day. Net production is 356 barrels of oil and 199,000 cubic feet of gas daily.

**Royalties \$5.7 Million**  
"We are participating," Palmer said, "in six secondary recovery projects. They are the West Pampa repressuring unit; the Watkins operating committee; Southwest Pampa flood unit; East Morse flood, East Pampa unit and Farnsworth unit."

"Leasing alone adds thousands of dollars to the county's economy and royalty payments to Gray county farmers, ranchers and other landowners are running at more than \$5.7 million annually. Industry taxes likewise are important to the county government and school districts in the county. The Texas Mid-Century Oil & Gas Association calculates, for example, that 95 percent of the local property taxes collected for the Lefors Independent School District comes from oil and gas operations."

Palmer was introduced by Fred Neslage, chairman of the Chamber of Commerce oil and gas committee. Mayor H. R. Thompson and Aubrey Steele, chamber president, welcomed some 75 Sinclair employees and more than a dozen Sinclair officials who were special guests. They came from Tulsa, Okla.; Amarillo, Berger, Fort Worth and Midland.

Other Sinclair officials from out of town at today's luncheon included: Sinclair Oil & Gas Company: L. G. Rheinberger, vice president, gas and gas products, Tulsa. R. A. Wright, vice president, production, Tulsa. R. M. Koblish, vice president and division manager, Midland Division. Roy E. Dossier, division manager, Fort Worth Division. Warner E. Lile, production department, Fort Worth Division. G. C. Barton, Amarillo, and Bill N. Barnes, exploration district.

Clarence F. Mantooth, manager of publicity, Tulsa. Sinclair Refining Company, Southwestern division, marketing department, Fort Worth: F. J. Felice, division manager. D. R. McCallum, assistant division manager. Henry Casper Jr., manager, wholesale sales. C. W. McFarling, manager Northern Texas District. R. E. Hix, sales representative, sales supervisor, and H. R. Wilburn, sales representative-wholesale.

### Foreign News Commentary

By PHIL NEWSOM  
UPI Foreign News Analyst  
Notes from the foreign news cables:

#### DISASTER:

The sort of disaster that killed 161 persons in a railway collision between Tokyo and Yokohama could happen again at any time. There is no way to prevent it, short of bringing the Japanese economy to a halt. The Japanese National Railway Corporation runs more than 200 trains on a single track each day. About 2,400 trains arrive and depart from Tokyo Station daily. Even a slight error can cause disaster.

Japan Times editor Kazu-shige Hirasawa capsuled reaction with the comment: "The situation stems from the fact that Japan's transportation capacity is lagging behind the expansion of her economy and the concentration of population in big cities." It's the same story with highways, bridges, harbors, sewage, water supply. Until these catch up, Japan is going to go right on having spectacular and tragic accidents.

#### TOUGH TALK:

The United States is handing out some tough talk to its Western Allies about trade with Russia and her satellites. There will be more of it this week when U.S. Undersecretary of State George W. Ball talks to the NATO Permanent Council and to the Organization for Economic Cooperation and Development (OECD) in Paris. The United States feels the Europeans are granting too easy credit terms to Communist bloc nations and in effect underwriting their economies in a rush for orders. Among those opposing the U.S. position is Britain. Britain, backed by several of the smaller NATO members, holds there is no reason for further limitations of trade with the Communists.

**THE WHEAT DEAL:**  
The U.S.-Soviet wheat deal is expected to have repercussions in Japan. One analysis predicts it will set off a rise in shipping rates and commodity prices, meaning the Japanese will have to pay more for the food they eat and the raw materials they process. Japan's balance of payments will suffer. On the other hand, under-developed countries making more money on their raw materials will be able to buy more manufactured products from developed countries such as Japan. Some of the pain resulting from U.S. "Buy American" measures will be eased. The Japanese also believe that East-West trade will be stimulated and that in the end Japan may benefit.

**NATO SUCCESSOR:**  
NATO Secretary General Dirk U. Stikker is expected to quit in the spring and speculation already is rife over his successor. Names most frequently mentioned include Italian Ambassador to Paris Manlio Brosio, who also is a former ambassador to Washington, Norwegian Foreign Minister Halvard Lange and NATO's Deputy Secretary General Prince Guido Colonna, also of Italy.

### Western Credit Aids Soviet Arms

PARIS (UPI) — U.S. Undersecretary of State George W. Ball said Monday Western long-term credits are allowing the Soviet Union to keep its military production in high gear and to shore up its agricultural crisis, informed sources said.

Ball addressed a special session of the North Atlantic Treaty Organization (NATO) permanent council, convened to discuss U.S. concern about growing trade links between Western Europe and Communist countries.

Informed sources said Ball appealed to the Western Alliance to refuse more than five-years credit. He urged tight coordination of Western trade to the East, they added.

The sources said Canadian External Affairs Minister Paul Martin and Edward Heath, president of the British Board of Trade, disagreed with Ball. Britain and Canada have recently expanded trade with the Soviet Union.

Ball said the Soviet Union now is undergoing severe agricultural difficulties and long-term Western credits allow it to continue to earmark money for military expenditure which otherwise it would be forced to use to increase consumer goods and agricultural products.

He said the West was helping the Soviet Union over present difficulties and thus directly hurting itself.

### Cattlemen to Take Up Subject of Importing

LAS CRUCES, N.M. (UPI)—New Mexico cattlemen are expected to take up the problem of beef importation, a problem of growing concern to them, at the fourth quarterly meeting of the New Mexico Cattle Growers' Association Dec. 13-14 in Las Cruces.

### Cambodia Renounces Aid By U.S.

PHNOM PENH, Cambodia of this neutralist Southeast Asian nation thus cut off an estimated \$10.4 million yearly in U.S. aid, effective immediately, and demanded the economic aid and \$18.8 million withdrawal of American military and civilian advisers.

A 20,000-member people's congress approved the action by BETHLEHEM, Pa. (UPI)—A mouse in a substitution of the state, Prince Norodom Sihanouk told it he has proof that the United States is helping a rebel 4,000 residences and businesses movement against his regime. for 40 minutes when he climbed the 41-year-old chief of state into some instruments.

## OES Past Matrons Gavel Club Meets

Ten dollars was donated to the United Fund by members of the OES Past Matrons Gavel Club during a recent meeting which was held in the home of Mrs. Bill Fluelling, 502 N. Russell.

Mrs. Katie Vincent gave the invocation and Mrs. O. A. Davis, president, presided during the business meeting.

Two members, Mrs. Marie Bolander and Mrs. Lucile Wagner were reported ill.

The December meeting will be held on the 13th in the home of Mrs. I. E. Byers, 2227 Chestnut. Secret pals will be revealed during this meeting and new names drawn for the next six month period.

Other members attending were Mmes. J. L. Burba, Floyd Pennington, Clem Davis, Rosalie Wedge, Emma Lee Gray, Ethel Alexander, I. E. Byers, Dennis Stillwell, Howard Warner, W. L. Parker, W. R. Morrison, Wood Osborne, J. S. Fugua, Guy Andis, Oscar Sphaer, G. C. Crocker, O. A. Wagner, and Joe Wheeler.

Co-hostesses were Rosalie Wedge, Ethel Alexander, Katie Vincent and Mrs. W. M. Voyles.

Co-hostesses for the December meeting will be Mrs. Otis Nace and Mrs. Aubry Jones.

## Mission Study Held By W.M.U. Circles of Highland Baptist

The circle meetings of the Highland Baptist W.M.U. were held Wednesday.

The Althea Fuller Circle met in the home of Mrs. Eunice Hunt, 906 E. Browning. Opening prayer was given by Mrs. H. E. Winegart. Part of the mission book was presented. Closing prayer was given by Mrs. Orban S. Epperson. Five members were present.

Edith Crane Circle met at the church with Mrs. Leroy Allen reading the prayer calendar and Mrs. John A. Dawes leading the prayer. Plans were made for giving a Thanksgiving basket to a needy family. Mrs. Tommy J. Stewart lead the mission study. Eight members were present.

Doris Smith Circle met at the church with the opening prayer and prayer calendar being given by Mrs. Carl Laffin. Mrs. Mayset Hatter gave the mission study on the mission book, "Mandelbaum Gate." Plans were made for giving a Thanksgiving basket to a needy family. Closing prayer was given by Mrs. Dee Crowder Jr. Five members were present. W.M.S. President, Mrs. Joe Bob Hudson, was a guest.

Trelma Bagby Circle met at the home of Mrs. Bryan Bryan, 429 N. Christy. Opening prayer was given by Mrs. C. Wayne Brisler. Mrs. A. M. Giesler read the prayer calendar and lead in the prayer for the missionaries. The November circle program, based on the book, "Bill Wallace of China," was lead by Mrs. Harry Nuns, who also lead

## Senior Center Corner

By MRS. O. A. WAGNER  
Senior Citizens Center

Nice crowd out Thursday evening if the first real fall weather was a blessing. Sixteen tables of games were active, and a few others were visiting on the sidelines.

Was sorry to learn that Mrs. E. B. Smith had fallen and was confined to Worley Hospital with a broken foot.

Was good to have Mrs. Ollie Staton back with us after her sojourn to the hospital.

Mrs. Loreta Timmons of Seminole spent last week with her mother, Mrs. Minnie Hogan, and other relatives.

A dinner guest recently in the home of Mrs. Verda Adair was an old schoolmate, Mrs. Helen Miller of Tonkawa, Okla. They were schoolmates in Blythedale, Mo. away back when?

Mrs. Carrie McBride of Amarillo was visiting her sister, Mrs. Lona Webster recently.

Mr. and Mrs. L. E. Henderson spent last week in east and central Texas. They visited his brother and sister in Tyler; other relatives in Texoma and Waco. On their way home, they captured a sly old possum along the road side, and now have a pet that seems not to

mind, as it eats anything they put out for it. However, they were thoughtful and brought home some persimmons, of which it is very fond.

Mrs. Puckett was telling about her volunteer tomato vine in her garden. She has picked over a bushel of tomatoes off of it. It is six or seven feet across, and it takes two blankets to cover it at night to protect it from the frost. Mrs. Puckett lives at 512 N. Warren. Some tomato plant wouldn't you say?

Mr. and Mrs. Jay Evans spent a day with Mrs. Evans' daughter, Mrs. W. D. Oates recently, and a weekend in Oklahoma City with Mrs. Evans' brother, Asa Evans, and family.

Sorry to hear that L. R. Ripple was home suffering with a cold. Also missed Mrs. Kate Humphrey; hope she was not ill. Mrs. Al Lawson was reported to be in Worley Hospital. We hope she has a speedy recovery, as well as all the sick folks in our large family.

That reminds me, Mrs. N. M. Norris has been home suffering from a bruised hip she received when she fell the other day.

H. L. DeWoody sent word by Mrs. Edith Mills that he planned to come over from Amarillo one day this month to visit with us again. Everyone will be delighted to see him as he was a regular attendant.

The Gray County Home Demonstration Council was hostess this week. Those in charge were Mmes. A. P. Coombs, chairman; Ray Frazier, Carl Smith, Roy Tinsley, Nolen Cole, O. A. Wagner, J. L. Carlton, Jack Howard and F. P. Hayes.

Door prizes went to Mrs. Mollie Hethcock, Mrs. Cora Long and Bob Dilly.

Altruists serving were Mmes. Emily Coston, Charlene Yeager, Louise Sewell, and Lillian Snow.

Gray Ladies providing transportation were Mmes. O. F. Kreimeyer, Jess Hatcher, George Benham, A. D. Hills.

Lovely angel cake, ice cream, mints and coffee were served. A lovely floral centerpiece graced the serving table. See you next week. Bye, and may God bless you.

Love, Mrs. Wagner.

## Skellytown PTA Plans Open House

SKELLYTOWN (Sp) — The Skellytown PTA met Tuesday evening in the school cafeteria. Mrs. Melvin Bieble, president, presided for the business meeting.

Guest speaker was David Grayson, school counselor. He spoke on the beginning of Communism and how to immunize oneself to Communism.

Next month will be "Open House" at the school, so there will be no PTA meetings until Jan. 21. The program will be on "Public Safety" a special invitation to teenagers is extended.

Dear Abby  
By Abigail Van Buren

DEAR ABBY: Just before report-card time, our sixth grade teacher told us to write a paragraph grading HER on her personality and teaching ability. She said we could tell about her good points and bad points and nothing would be held against us. Well, I thought she really meant it, so I went ahead and told her what I thought of her. I guess maybe I didn't say enough about her good points and kind of went overboard on her bad points, because my mother just got a letter from the teacher telling everything I wrote, and saying how horrible it was of me. Now my mother is making me write an "I'm sorry" letter to the teacher. Do you think it was fair of this teacher? Also should I have to write that "I'm sorry" letter? I thank you.

A SIXTH GRADER  
DEAR SIXTH GRADER: I think your teacher was extremely unfair! But your Mom is trying to teach you that although some people insist they want to hear the truth about themselves, if it's unflattering, they resent it. Mom is the boss. Honey, so write that letter, and remember the lesson.

DEAR ABBY: We are expecting our second child in December and we want to know if we should send out birth announcements. I have heard that it is proper to send such announcements for only the FIRST child. But we have many friends and relatives out of the state, and we'd like them to know about this new baby when it comes. What is proper?

K. F.  
DEAR K. F.: It is entirely proper to send out a birth announcement for EACH new arrival.

DEAR ABBY: Tell "LISTENING" she'll never learn anything by listening to her husband talk in his sleep because dream specialists tell us that more lies than truths are told during sleep. I dream the most fantastic dreams and I talk right out loud in my sleep, too, but my husband knows better than to take anything I say seriously. Once I went around the world with Harry Truman (I am a Republican!) and it caused a big national scandal, but Bess didn't mind a bit. Another time Cary Grant and Liberace were fighting over me.

Clean the lint traps on both washer and dryer before laundering such fabrics as corduroys and dark cottons. They both attract lint.

# Borger Linemen Tough, Warns Coach Brownell

Despite their "lack of size" according to the football program, the Borger line is as tough and tough an outfit as the Harvesters have met all year, warns Pampa assistant coach Brownell.

"The word to describe them is 'tough,' although the program shows them to be the smallest line in the district. Frankly, it looks as if the program is mistaken in most cases, the team we have scouted looked a lot bigger.

"None of the real big lines around, with the exception of Tascosa and to an extent, Palo Duro, have been able to move them very much either," continued Smith. "Most of them are two-way boys. They're tough on offense and tough on defense.

"They run the same defense as we do, a 4-5, so it should be real interesting to watch the defensive battle. I just don't know who to say is the outstanding lineman. I suppose Big Joe Robinson is the one who has been publicized most.

"Robinson is a terrific pass receiver. He has real great hands, he's real fast and he's shifty. He can be covered and

go up between two or three receivers and still get that ball. He's hard to stop and they also use him running on end-arounds.

"Bob McGlaun, 180, a tough blocker and good pass receiver, is used as the alternate left end, and plays defensive tackle. James Shaw, 173, is the other end and another fine blocker.

"Right tackle is Ronnie Green, 172, another tough boy, he'll hurt you. He's one of their best defensive men at right inside linebacker. Left tackle is Joe Barron, 177, a good downfield blocker.

"Left guard David Walton, 168, is a returning, all-district. He's probably their best blocker and a tough defenseman, good on traps. Right guard is Philip Kensley, 171, another good blocker and good on traps. He's been hurt, and Preston Wilson, 170, may start in his place. One of them will play left guard on defense.

"Center could be either Freddy Reed, 174, or Mike Auld, 167. Reed started the season. Auld took over when he was hurt, and I believe has beaten him out for the job since Reed recovered. They're both good blockers and

Auld is real good at left line-backer on defense.

"Summing it up," said Smith, "they're a real hard-hitting crew. They make up for their lack of size with their ability to hit. If our kids can keep their heads up and keep their feet, I believe we can move them."

## SWC Round-up

By United Press International

Half-best Southwest Conference football teams, which see 75 per cent action this weekend, struggled through some workouts Tuesday while Texas and Texas A&M took a breather.

Six of the eight conference squads see loop action, while the two resting squads meet Thanksgiving.

Baylor, upset by Kentucky Saturday, groomed for Southern Methodist under the dreary announcement that Lawrence Elkins, ace pass catcher, may be out of the game because of his back injury. Starting center Curtis Leggett, his knee injured, and two sophomores, fullback Mike Marshall and end Dwain Heath, were announced out for the season.

**HARVESTERS OF THE WEEK** — Joey Roden (left) and James Williamson were presented as Toughest Harvesters at today's Jaycee luncheon. With the varsity off, Roden, who led the Pampa Shockers to a 7-2-1 season record with his running and defense, and Williamson, who headed the Shockers in their win over Booker, were chosen for the honor. (Daily News Photo)

## Six Quarterfinalists Back In AA Playoffs

By United Press International

Six of last year's eight quarterfinalists are back and hoping to do as well again in the Texas Interscholastic League's Class AA football championships which open a five-week run this week.

Only three of the six, however, are given much chance of wading through the stiff competition lying ahead in the first two rounds of the playoffs.

These six include defending state champion Jacksboro, finalist Rockdale, Winters, Sinton, Denver City and Missouri City with Rockdale, Sinton and Denver City given the best chances of making it that far again.

Actually, half of the 32-team field which starts play this week are returning for a second consecutive time and this sets up three bi-district pairings which were a repeat of a year ago.

Others back again include Dalhart, Mulshoe, Crane, Rockwall, Paul Pewitt, Livingston, Katy, Hondo, Palacios and Donna.

Sinton rated No. 2 and favored to reach the finals. Rockdale and Denver City rank third and fourth, but Denver City and Dalhart clash in the second round if they win their openers, so fifth-ranked Lake Highlands becomes the northern bracket favorite to reach the semifinals.

Sixth-ranked Katy may get by Livingston in this week's bi-district and the Forest Park-Liberty victor in the regional, but then will likely bump into Rockdale in the quarterfinals.

Sinton opens its drive against Bishop, then will take on the Donna-Hebronville winner; Dalhart opens against Tulla while Denver City tackles Muleshoe to set up their probable regional clash; Rockdale faces Taylor this week then the winner of the West-San Saba game in the second round.

## Matador Pits Speed Against Wheeler

MATADOR (Spl) — "We don't have anyone as fast, individually, as the Wheeler backs but we have good team speed, we might be able to contain them," said Matador football coach Charles Johnson, referring to Friday's bi-district game at Clarendon between the Matadors and the Mustangs.

The potent and powerful Matadors will have size to match Wheeler, possibly even greater overall speed, an almost-as-impressive record, and last year's win to spur them on.

The defending regional champions won the 6-B crown last year also, topped the Mustangs in bi-district, 14-6, and went on to win the regional honor from Knox City, 22-14.

Matador has steamrolled nine opponents and lost only a hair-raiser to Class A Cowell. The Matadors started with a 34-0 shutout of Ropes, took a repeat over Knox City, 18-6, lost their only game by 14-12 to Crowell, and then went through Roscoe 28-0, Rochester 28-6, Whiteace 45-0, Throckmorton 20-6, and then their two district foes, hapless Esteline 54-6 and Turkey 42-14.

Almost none of the team has seen action in all 10 games, explained Johnson, with Campbell having played eight games after being converted from end. All-district guard Jack McColley, 162, moved to center, and the Matadors' other all-district guard and co-captain, David Rattan, 152, was switched to end.

Left halfback Tim Green started at end and has just played the last two games in the backfield. Left end Tommy Green, on the other hand, was banged up as a starting halfback and moved to end to save injury.

"They're a pretty rugged crew," said Johnson, "we had a couple of boys hurt last Friday night and three out with the flu but I think they'll all be out for Wheeler.

"We have five or six boys who run around 11, 11.2," explained Johnson. "We don't have any real fast boys like Wheeler, but we have good overall speed. They're quick and they pursue real well. With Campbell, all-district tackle Robert Brandon, the other tackle, Ronnie Cox and guard Johnny Thomas, we have some good size too, although they tail off after that."

**Probable starting lineup**  
RE — David Rattan, Sr., 152;  
RT — Ronnie Cox, Soph., 208;  
RG — Wilbur Terry, Sr., 134;  
center — Jack McColley, Sr., 162; LG — Johnny Thomas, Sr., 224; LT — Robert Brandon, Sr., 194; LE — Tommy Green, Jr., 135; QB — Charles Ezzell, Jr., 155; RHB — Kenneth Pitts, Jr., 150; LHB — Tim Green, Jr., 147; FB — Richard Campbell, Jr., 195.

## UT Desegregates Athletic Program

AUSTIN, Tex. (UPI) — The University of Texas Monday became the first school in the Southwest Conference to racially desegregate its sports program.

Most schools in the eight-member conference except Rice and Arkansas were expected to slowly integrate.

Coach Darrell Royal, athletic director at Texas, said he would allow any eligible student to try out for sports.

"We will recruit anyone who will fit in our program," Royal said. "That is anyone who qualifies academically and athletically."

Texas' football team is undefeated this season and top-ranked nationally.

Frank Broyles, Arkansas coach, said he was "too busy" to comment on Texas' action. Gov. Orval Faubus has said he would oppose any move to integrate athletics at the state university.

Rice, a private university, has a stipulation in its charter which prohibits Negroes. A spokesman, however, indicated

sports probably would be desegregated when, and if, the school is integrated.

Southern Methodist University was the first team in the loop to play a team with Negro athletes. SMU, Baylor, Texas Tech, Texas A&M, and Texas as Christian all were viewing the Texas decision with interest and as a guide to the future.

Royal said he had no particular athlete in mind as the first Negro player in Texas' history. The school's regents ruled Nov. 9 that color bars were not part of its policy. It was left to department heads to integrate. Royal's announcement followed that directive.

**BRUINS REACH LIMIT**

BOSTON (UPI) — The Boston Bruins reached the National Hockey League player limit Monday by sending rookie defenseman Don Awrey to Minneapolis of the Central League. Awrey, 20, appeared in 15 games with the Bruins but accumulated little playing time.

## Sporting Sidelines

ANYONE WHO THINKS a sportswriter's life is an easy one should see the Ol' Swami gazing wistfully out the car window at all the deer, quail and turkey hunters while driving hither and yon covering basketball and football. There ARE drawbacks. . . Worst is the way all the coaches and athletes borrow your shooting irons while you just sit and watch.

NOT TOO MANY reports in yet, although Bill Greent of the News got one of the biggest bucks in years Sunday, an eight-pointer that field-dressed out at 151 pounds. Gridders Kenney Hebert, John Fite and Perry Thompson reported in with three turkeys and their limit of quail the same day. Everyone else is keeping mum. . . must be like Pampa assistant basketball coach Norm Kieval. . . one woodpecker! If you have a good hunting day, drag your game up here and let Phil Duncan or me know, please.

THE OL' CRYSTAL BALL cracked right down the middle for Ray Howard and me this weekend. Last week we cleaned up with only one wrong, but this week we went the other route. All five 'experts' goofed only on Kentucky-Baylor and Rice A&M, with two ties-Tascosa and Borger and Michigan-Iowa. However, Ray and I each picked three others differently and went down with all three-Lefors, Miami and Arkansas. . . Even with all the sneaky bi-district games coming up, it looks like Ol' Holladay has clinched his steak with 143 right and only 43 wrong. Brown Smith climbs into a second place tie with the Swami at 135-51, and Skinhead Ramsey and

Ray share the cellar with 133-53.

Found out I owe several more steak dinners. Went over to White Deer for a pre-season basketball report and Colie Huffman, the round man, cornered me and reminded me forcibly that I had bet steak with him. Roy Simmons and Vic (The Absentminded Professor) Bates when they picked Wellington to win 2-A football. Girls basketball coach Ronnie Mills rescued me from the dilemma by dragging me off for a cup of coffee before Colie got double or nothing on a golf game. Incidentally, Ronnie's girls, according to him, are not the top team in the district, but they certainly are the winners for looks around here!

AROUND THE AREA. . . Seems to be nice people week. Got a very wonderful letter from the mother of an area player we did a story on recently, got some nice compliments on our football coverage, and got some very appreciative treatment from the staff, players and fans of the Wheeler Mustangs at their game with Claude. Still say the Horses will go all the way, although Matador is tough.

BACK TO BASKETBALL as the White Deer lasses, Canadian and Groom open up their cage seasons tonight. Much as I am tempted to watch the Does, better get up to Canadian and start covering their season, darn it. Incidentally, White Deer girls are looking for games. . . the Does play a separate schedule from the Bucks and are looking for girls A&B games anywhere around.

Rocky Colavito Goes To KC A's In Swap

KANSAS CITY, Mo. (UPI) — The Kansas City Athletics plan to wheel and deal in the winter trading market: this year in search of one item—power.

They are willing to sacrifice. They will give up front-line pitching, stable defense, percentage hitters and even youth to obtain that one hitting element for their lineup.

The Athletics' management believes there is no other solution to the club's perennial problem, a second division berth in the American League.

Jess Neely Hung On Rice Campus

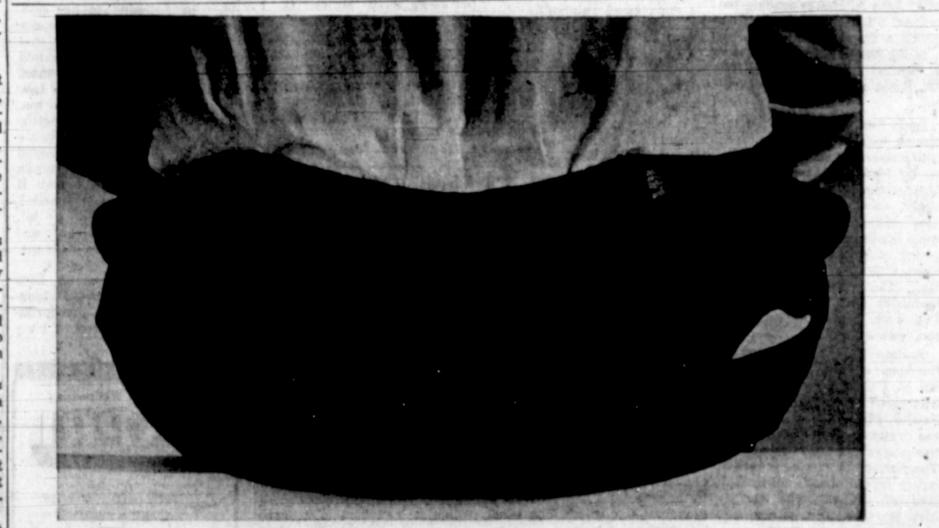

HOUSTON (UPI) — Rice coach Jess Neely has joined Abe Martin of Texas Christian in the 1963 Southwest Conference effigy club.

A hanging figure was draped from the chemistry tower on Rice campus Sunday and labeled. "Jess Neely, head coach 24 years." The Owls suffered a 13-6 upset Saturday at the hands of Texas A&M.

TCU's Martin was treated to his effigy "honor" last week after a loss to Louisiana State.

# White Deer Does Kick Off Tonight

By JEFF COHANE  
Pampa News Sports Editor  
WHITE DEER — The White Deer Does return a pulchritudinous powerhouse from last year's outfit that won 17 of 26 basketball games, but coach Ronnie Mills insists that Spearman will again take the district title.

The Does finished second in the loop last year to Spearman and Mills figures the pair will again run one-two, with Spearman the number one.

White Deer lost to Spearman, to Tullia, and to Friona by one point, and return almost their entire starting team. Mills says, however, that Spearman also is returning five starters and figures to repeat.

In addition to looks, the Does possess height, experience and ability, as evidenced by the fact that they return five starters, plus two other regulars in the starting line-up. Mills says the starting returnees include two all-district players, and Mills could put a team on the floor which would average almost 5'8", tremendous height for girls basketball.

The Does graduated only All-District Carolyn Riggins, who averaged 27 points per game. Returning to the forward wall is 5-8½ post Betty Peters, who did the offensive rebounding and averaged 12 points a game. Betty will see much more shooting action, as will Cindy Hubbard, who also averaged 12 points a game. Cindy, a 5-4 playmaker,

is a returning All-District. Defensive starters returning include the All-District defensive rebounder, 5-7½ post guard Linda Davis, and 5-6 Coleen Crawford. An all-around hustler, rebounder and defensive player, Mills rates her as "one of the best ballhandlers I ever had."

Guard Eva Jo Duncan is in the hospital with appendicitis and is expected back before too late in the season. Paulette Hinton, however, suffered a knee injury in a scrimmage with Miami and is through for the season.

Biggest and brightest prospect coming up for the Does is 5-10 freshman Linda Hawpe. Sister of 6-1½ Monty Hawpe, Linda promises height, shooting and rebounding ability for the next four years. Another tall forward candidate is 5-7½ Pat Freeman. Lynette Williams, 5-4, is a returning letterman, but will get a battle for the other starting guard-berth from 5-6 Carolyn Young and 5-5½ Barbara Linden.

Rita Spence, 5-6 freshman, is another tall candidate, with frosh Nancy Ulrich the "mid-et" of the team at 5-1.

The Does kick off action tonight in a triple bill, hosting Panhandle in A, B and freshman games. Two more games next week and the girls will play most of their games after that together with the boys team.

FINAL INSTRUCTIONS — Team captain Betty Peters gets final instructions from coach Ronnie Mills as the White Deer Does open their 1963-64 basketball season tonight against visiting Panhandle. (Daily News Photo)

# Texas Moves Ahead In College Rating

NEW YORK (UPI) — Stamping Texas improved its No. 1 ranking today in the run-away race for the 1963 national college football title.

Thirty-two coaches — one more than last week — rated the Longhorns first in the United Press International ratings on the strength of their perfect record, the only one among the major powers.

Pittsburgh and Michigan State negotiated the only change in the top 10 from last week, the Panthers taking over fourth-place from the Spartans, who replaced them in fifth.

Navy, enjoying the highest ranking ever held by a service team in the history of the ratings, fattened its hold on second place, drawing two No. 1 ballots. Mississippi slipped but clung to a three-point lead over Pittsburgh in third. The Rebels received the other first-place ranking from the 35-man board.

Increase Point Totals  
Oklahoma, Alabama and Illinois each increased its point total in sixth, seventh and eighth, respectively. Ninth-ranked Navy.

NEW YORK (UPI) — The United Press International major college football ratings with first-place votes and won-lost records in parentheses:  
Team Points  
1. Texas (32) (9-0) 347  
2. Navy (2) (8-1) 294  
3. Mississippi (1) (7-0-1) 216  
4. Pittsburgh (7-1) 213  
5. Michigan State (6-1-1) 204  
6. Oklahoma (7-1) 173  
7. Alabama (7-1) 153  
8. Illinois (6-1-1) 135  
9. Nebraska (8-1) 96  
10. Auburn (7-1) 52

Second 10 — 11. Syracuse 9; 12. Penn State; 13. Mississippi State 7; 14 (tie) Southern California and Arizona State 6; 16. Wisconsin 5; 17 (tie), Memphis State and Kansas; 18. Utah State 2, 20 (tie), Georgia Tech, Army and Air Force

# Stratford Has Come Long Way

STRATFORD (Sp1)—The Elks of Stratford tore the old history books up Friday night when they romped over the Gruver Greyhounds, 26-6.

The Blue and White earned the right to represent District 1-A in the state playoffs. It will be the first time the Elks have ever won or shared a part of the district. The Elks ended up in a three-way tie in 1957 with Groom and Darrouzett but lost the coin flip.

The Elks will meet Wellington in bi-district play Friday night in Pampa.

The Elks will possibly be without the services of end Lynn Allen and defensive cornerback Charlie Britten. Allen has reinjured a bad leg bruise that he sustained against the Eagles. Britten has been in the bed with the flu. Coach Jim Greenwood said yesterday that Britten would be weak if he played. He was not going to use Allen unless he had to.

Greenwood stated also that "the kids had had a real good week in workout." He also said, "I hope the kids come through but they will have to play forty-eight minutes of real hard football to beat Wellington."

Stratford has been led all year by the great running of all the backs, especially that of Terry Matthews and Gary Hudson. Johnny Brannon and Jim Hudson also have done a fine job on both offense and defense. The Elk defense is bulwarked by Dennis Plunk, Phil Dettie, Duane Pittman and Lanny Harris. Also a sophomore, Harry Hamilton, deserves recognition for his efforts on defense. Coach Greenwood has said after this year that his kids have come a long way since the first ball game that they have lost to Texoma, Oklahoma, 22-12.

Halfback Gary Hudson, stated last week after the win over Gruver that if it weren't for the seven men up front the Elks wouldn't be where they are now. Greenwood stated, "I hope the kids don't let us down just because they have earned the right to be in the playoff."

TYLER TO BOWL  
TYLER, Tex. (UPI) — Tyler Junior College has accepted an invitation to send its football team to the Hospitality Bowl in Gulfport, Miss.  
Tyler, Eastern Conference champion, probably will play Pearl River, Miss. in the game. No date for the Hospitality Bowl has been announced but Thanksgiving day has been mentioned as a possible time.

GET TWO PLAYERS  
CINCINNATI, Ohio (UPI)—The Cincinnati Wings of the Central Professional Hockey League, seeking their first win in their new home, acquired center Ken Laufman and right wing Ron Leopold Monday from the Portland Bucs of the Western League in exchange for center Sid Finney. Leopold was assigned to Cincinnati for only one year under the terms of the trade.

ROCKET DEFENSE — Ready to stop the Gruver Greyhound attack is the Wellington Skyrocket defensive unit, composed of (front, left to right): John Maxwell, Jennings Wells, Ray Floyd, Joe Rudy, Tim Bailey. Kneeling are linebackers Gary White, Glen Thomas, Billy Clubb, Bryan Hatch. Standing are safetymen Danny Martin and Bobby Hudson.

# Pro Basketball

NEW YORK (UPI) — Wilt Chamberlain and the National Basketball Association scoring lead are a hard combination to separate.

Chamberlain embarked on a campaign to concentrate on playmaking for the San Francisco Warriors this season and thus his point production isn't as prodigious as in previous years. But with each passing week his name is becoming more evident among the scoring leaders.

Big Wilt now has the best scoring average in the league with a 32.1 mark and is the only player to show a field shooting average over .500. In last week's action, Chamberlain advanced from fourth place to second in point production with 44.9.

Jerry West of the Los Angeles Lakers is the scoring leader with 45.6 points, but he has played in two more games than Chamberlain and has a 28.5 average. Bob Pettit of the St. Louis Hawks, who became the second player in NBA history to surpass 18,000 career points, has 44.9 points this season with a 28.1 average.

Oscar Robertson of the Cincinnati Royals is fourth in scoring with 41.5 points and Elgin Baylor of the Lakers has 39.2. Chamberlain's field goal percentage is .506, and he is followed by Jerry Lucas of the Royals with .497 and Terry Disinger of the Baltimore Bullets with .491.

John Egan of the Detroit Pistons is the new free throw leader with an .878 percentage and Robertson is far ahead in assists with 148. Chamberlain also jumped

# Stats Show Why KC Down

NEW YORK (UPI)—The decline of the Kansas City Chiefs (formerly Dallas Texans) from champs to chumps can be traced to the simple fact that they have had difficulty in moving the ball on offense and in containing their opponents on defense.

Elementary? Just check the team statistics released today by American Football League headquarters.

The Chiefs rank either fifth, sixth or seventh in every one of the six major categories on offense and defense.

Last season, when they won the AFL championship, this club compiled the second highest offensive yardage total of any team in the league and yielded the least yardage on defense.

The San Diego Chargers and the Buffalo Bills continued to

lead the AFL in offense figures and the Boston Patriots and Oakland Raiders ranked 1-2 in defense.

The Chiefs' three individual stars also trail in the standings of their specialties. Len Dawson the AFL's top passer last season, now ranks fourth; Abner Haynes, the league's No. 2 rusher in 1962, has been switched to flanker, and Curtis McCClinton, No. 5 in rushing last season, presently ranks eighth.

Jack Kemp and Bill Miller of Buffalo regained first place this week in passing and pass-catching, respectively. The other individual leaders were the same as last week's — Clem Daniels of Oakland in rushing, Jim Frasier of the Denver Broncos in punting and Gino Cappelletti of Boston in scoring.

COACHES SWITCH JOBS

CLEVELAND, Ohio (UPI)—Bill Sudeck and "Nip" Heim switched positions at Case Tech Monday with Sudeck taking over the reins of the varsity basketball team and Heim assuming the role of freshman coach. Sudeck also coaches the cross country and track teams.

# Syracuse Coach Believes Eastern Football Strong

By OSCAR FRALEY  
UPI Sports Writer

NEW YORK (UPI)—The air-borne major from Syracuse leaped squarely on the rest of the nation today with an analysis that Eastern gridiron powers are as good as any in the country.

Part of it is due to a 10-year simmer, after Ben Schwartzwalder's team was clobbered 61-1 by Alabama in the 1953 Orange Bowl he was accused of doing the East irreparable damage. Not even a national championship team unbeaten in 1959 and a Cotton Bowl victory over Texas erased the sting.

"I'm glad I've seen it come back," granted the former paratrooper, with pointed inference as he took a lusty swing at both the South and Midwest and included everybody else who wanted in.

"Just look at the intersectional record of about six teams and you'll see what I mean," said forthright Ben, pointing to the football exploits of his own Syracuse, Navy, Army, Pitt, Penn State and Boston College.

DEMONS AT LUBBOCK

LUBBOCK (UPI) — Defending state Class AAA champion Dumas of 1-AAA and Andrews of 2-AAA will play their bi-district schoolboy football game here at 2 p.m., Thursday, Nov. 28.

"Those six have won 31 intersectional games against only four defeats. It's a pretty good record."

It is, too. Intersectionally, Navy is 7-1; Army is 5-1; Pitt 5-0; Penn State 6-0; Syracuse 4-1, and Boston College 4-1.

List Includes Tough Teams  
And they didn't do it against a complete bunch of humpies, either. For the list of victims include such as Michigan, Ohio State, Duke, Maryland, West Virginia, Notre Dame twice, Air Force, UCLA, Washington, California, Oregon, Oregon State and Rice.

"Look at it this way," said Ben. "Florida beat Richmond by one touchdown. Then Florida beat Alabama. Then we 'nosed out' Richmond."

Syracuse "nosed out" Richmond by 50-0.

"We gained a few yards against Richmond," Ben elaborated, "although Richmond brought along a couple of Richmond officials who knew their style of play. It only cost us 138 yards in penalties and three touchdowns. I'd like to see our people work out the same system. We've good officials in Syracuse I'd like to take along with us when we go away."

"However," he pointed out the Syracuse superiority, "we managed to keep 469 yards."

**A Watchful Newspaper**  
EVER STRIVING FOR THE TOP OF TEXAS TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself, no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

**SUBSCRIPTION RATES**  
By carrier in Pampa, 25¢ per week, \$4.50 per month, \$9.00 per 3 months, \$18.00 per year. By mail paid in advance at office, \$10.00 per year in retail trading zone, \$14.00 per year outside retail trading zone, \$1.25 per month. Price per single copy 5¢ daily, 15¢ Sunday. No Mail orders accepted in localities served by carrier. Published daily except Saturday by the Pampa Daily News, Atchison at Somerville, Pampa, Texas. Phone 310-4-5235 all departments. Entered as second class matter under the act of March 3, 1924.

## United Fund Needs Extra Push

The United Fund is short about \$10,000.

The last dollar of any campaign is the hardest one to get. The Fund is supporting six agencies with total budgets of \$62,000. The campaigners have \$32,683 in hand and another \$9,500 is needed. But where will that other \$9,500 come from?

The United Fund has only one source of revenue — the volunteer donor. Unlike almost every other sort of endeavor, this money campaign is strictly and totally supported by voluntary contributions. There is no government compulsion, no matching funds, no gimme from Austin or Washington.

For that reason, if for no other, the Fund should get wholehearted support.

When private fund-raising falls, the government usually is invited to help out. This is the history of our increasing government activity in the fields of charity and "welfare."

However onerous it may be to raise funds privately and contribute voluntarily, how much

better that is than to put all the participating agencies under the state or federal welfare department.

The future of a United Fund depends upon the cooperation of the donor. If a united effort fails, then you may be sure each agency will stage its own drive, calling on the same people for the same effort time after time.

Not every agency in the United Fund is as popular as every other one; and the unpopular ones afford the donor an excuse to cut down his contribution to all. That is a weakness of the United Fund, but the alternative drives which seem to send a new solicitor to see you every day of the year with a worthy cause.

If you haven't given, or if you've cut the corner a little this year, try to get right with the United Fund during the next few days.

Just mail your contribution to United Fund, City Hall.

And thanks.

## Sinclair Appreciation Day

The general population and the businessmen of Pampa today have been showing their appreciation for the contribution of the Sinclair Companies to the economy of the Pampa and Top O' Texas area.

Sinclair long has been and still is an important part of the industrial life, not only of Pampa and the Panhandle but of the entire state of Texas.

So, Pampa was happy today to welcome the Sinclair officials and the Sinclair employees and to tell them sincerely that Pampa appreciates them and their company.

The highlight of the Sinclair Appreciation Day was the luncheon for officials and employees in Coronado Inn this noon and the specials offered for company employees in downtown stores.

## To Know — To Do

To be wise, know what to do; to be skillful, know how to do it; to be virtuous, do it.

## The Incredible Shrinking Man

Recently, a science fiction writer wrote a book entitled "The Shrinking Man." The incredible tale depicted the adventures of a man who each day shrunk in size until even small insects towered above him as menacing monsters. At last came a time when he was forced to flee for his life from the pursuit of a black widow spider, a creature which under ordinary circumstances he could have crushed beneath his shoe.

Modern man and his relations with government provide a striking simile to the tale of the fictional character, with the exception that man's situation is far from fiction.

Man brought government into being as a tool to be controlled. The tool has now become the master. Each day man shrinks in stature as he pours more money into the insatiable maw of the tax-bloated monster called government.

How is this tax money being spent? Let's take a look at just a few of such expenditures. You can draw your own conclusions as to whether your tax money has been put to use to serve your interests in the furtherance of your prosperity or in the interests of the prosperity of others.

Robert Dietsch writes from Washington, D.C., that during the past two years your tax money has been spent or loaned to:

vesting, processing and marketing of sea lions in Alaska.

Help train copper workers in Montana for new jobs with Anaconda, the company which laid off the workers in the first place.

Loans or grants for all these projects came from the Area Redevelopment Administration, an agency set up by the Kennedy administration in 1961.

In the face of the Dietsch statement we cannot deny that we are all shrinking men, equated with the man of the story who fled from the spider.

Let's face it. We have been drained, but we can do something about it. Remember, the government is still nothing but a tool of man's devising and we, also, we may deny it, have aided and abetted the condition in which we now find ourselves.

In short, we have employed the tool for our own uses, only to find that with each use the tool grew stronger and we grew weaker.

Isn't it time we discovered the fact that we may grow with our family, our business and our work, but with the growth of government we must shrink?

The nature of man is such that he can rise to any height if he but will. The nature of government is such that, whatever strength it has, it will be used to amass greater strength by draining away the strength of individuals.

Man brought government into being as a tool to be controlled. The tool has now become the master. Each day man shrinks in stature as he pours more money into the insatiable maw of the tax-bloated monster called government.

How is this tax money being spent? Let's take a look at just a few of such expenditures. You can draw your own conclusions as to whether your tax money has been put to use to serve your interests in the furtherance of your prosperity or in the interests of the prosperity of others.

Robert Dietsch writes from Washington, D.C., that during the past two years your tax money has been spent or loaned to:

**HOW TO ADDRESS OUR LAW MAKERS**

You may wish to write your senators and representatives in Washington and Austin. Here are their addresses:

(FEDERAL)  
Rep. Walter Rogers, House Office Bldg., Washington 25, D. C.  
Sen. Ralph Yarborough, Senate Bldg., Washington 25, D. C.  
Sen. John Tower, Senate Office Bldg., Washington 25, D. C.

(STATE)  
Rep. Granger McWhorter, House of Representatives, Austin, Texas.  
Sen. Grady Mazerolle, State Senate Bldg., Austin, Texas.

The wettest state in the United States is Alabama. Its annual rainfall averages about 68 inches.

### NEW LIGHT ON UNESCO

Time and again, when concerned Americans have voiced doubt as to the propriety of UNESCO and associated organizations, they have been dubbed alarmists who have not looked at the facts. "There's nothing in UNESCO's activities," say its U.S. apologists, "about which good citizens need be troubled."

Well, these apologists, if they are sincere in their complacency should take a look at an article "The Cold War in the Classroom" published in the June 1963 issue of War—Peace Report. This slick magazine, published in the United States, provides a forum for the disarmers and so-called peace workers. The author of the article in question is Mrs. Elise Boulding, a research associate at the Center for Research on Conflict Resolution.

Mrs. Boulding's thesis is that American children have long been taught a stereotype of the "enemy." She tells how some teachers are seeking ways and means to present a radically different view of America's cold war enemy. Her hymn of praise is for UNESCO and its programs. The reason Mrs. Boulding likes UNESCO is she believes it will help get rid of the stereotypes of which she disapproves. "A few beginning efforts have been made," she wrote, "to give students a more universal view of the world. This was one of the hopes of UNESCO at its founding in 1950."

Highly revealing is Mrs. Boulding's account of a "World Forum of Women" held in Brussels, Belgium, last November, to discuss "The Education of Children and Youth in the Spirit of Friendship and Understanding Among Peoples." Nice sounding, isn't it? Ninety women were present, including representatives from the Soviet Union, Yugoslavia, Hungary, Bulgaria, Romania, and other Iron Curtain countries. "This was a conference of educators," she said, "concerned with the practical aspects of preparing children to live in a world in which armed might would be replaced by a subtler and more complex means of resolving differences." Imagine making a statement of that sort about a conference where communist countries were heavily represented!

In describing the work of the conference, Mrs. Boulding deplored the representation of the Soviet Union in U. S. text books. She said one American text teaches:

"In the Soviet Union, a few persons in the Communist Party, not elected by the people, have most of the power." She added this comment:

"Without information to the contrary (which they are not likely to see) American school children grow up believing that the Soviet people are ruled capriciously by a few powerful men." One wonders how Mrs. Boulding explains away the examples of Dictators Stalin and Khrushchev, the bloody purges and rocket-rattling.

Particularly interesting is her account of something called the Liaison Bureau, which she said "is undertaking the organization of national commissions on children's books until such time as UNESCO will be able to add this to its roster of Projects." The aim of this bureau, in her words, is "to make it possible for children around the world to read the same books in their separate countries." This, she says, "will help them find their international identity in tomorrow's world."

Note this! Mrs. Boulding is not proposing that the Russian children read books that expound the value of freedom. She is proposing that Soviet and U.S. children read the same books, which is a very different thing.

It is deeply tragic that, after more than 40 years of communist deceit and tyranny, some Americans still refuse to realize that every instance of Soviet "cooperation" with the West is an effort by the Reds to subvert freedom. The whole massive record of communist activity proves that any joint book project with the Russians would end up as an attempt to brainwash U. S. school children.

The minimum amount of light considered adequate for study is that received from a 75-watt bulb at a distance of about six feet, vision authorities suggest.

The largest orange trees in America are found in the Red River Valley.

## Spirit-Of-Moscow Cocktail

## Allen-Scott Report

'Cuban' Refugees in Bay of Pigs Ransom Deal Included 333 from Other Countries, Including Red China, U.S.S.R.

WASHINGTON — Those Cuban refugees that Castro permitted to come to the U.S. during the first six months of 1963 as part of the Bay of Pigs prisoner-ransom exchange weren't all Cubans.

Among the refugees were 333 aliens born in countries other than Cuba — including a number of nationals from Communist China, Russia, Poland and Hungary.

Largest group of these aliens brought to the U.S. by the American Red Cross vessels that carried the ransom supplies to Cuba were 220 from Spain, 13 from Poland, 12 from Turkey, 11 from Communist China, 10 from Germany, and 7 from Lebanon.

Other foreigners among the refugees included nationals from Argentina, 3; Bahamas, 1; Brazil, 3; British West Indies, 1; Canada, 3; Chile, 1; Colombia, 2; Costa Rica, 2; Denmark, 1; Dominican Republic, 2; England, 5; France, 1; Greece, 1; Honduras, 1; Hungary, 1; Italy, 2; Lithuania, 4; Mexico, 4; Morocco, 1; Norway, 1; Panama, 1; Peru, 1; Portugal, 3; Russia, 3; Switzerland, 5; Syria, 5; and Venezuela, 2.

These and other even more intriguing details are included in the latest chapter on the backstage negotiations of the Bay of Pigs prisoner exchange to be revealed by the House Judiciary Subcommittee making an inquiry into the entire Cuban refugee program.

Headed by Representative Michael Feighan, D-O., the subcommittee is releasing 110 pages of closed-door testimony this week, including an admission by Abba P. Schwartz, administrator of the State Department's Bureau of Security and Consular Affairs, that Castro was permitted to designate 50 per cent of the Cuban refugees.

THE "50-50" DEAL — The secret 50-50 deal, first revealed in this column, has been vigorously denied by both the State Department and the White House.

In releasing the subcommittee's hearings this week, Representative Feighan challenged the denials, stating:

"The testimony before our subcommittee of Abba P. Schwartz, administrator of the Bureau of Security and Consular Affairs, shows conclusively that a deal was worked out with Castro whereby he was permitted to designate 50 per cent of the Cuban refugees allowed to come to the U.S. as part of the Bay of Pigs prisoner exchange."

To support his statement, Representative Feighan pointed out five references to the 50-50 deal in Schwartz's testimony, including these remarks:

"Mr. Castro insisted that on each ship on which we were bringing American citizens and immediate dependents, 50 per cent of the capacity be Cuban nationals, not necessarily relatives of these American citizens."

"In other words, if we had a ship that held 700 people, 50 per cent of that capacity was for

American citizens and immediate dependents and such persons as we designated. Fifty per cent of that was for passage of Cuban nationals to whom Mr. Castro had given exit permits. That was the arrangement.

"This is where the priority system comes on our side and we imposed that on the 50 per cent Mr. Castro designated the same priority system."

The transcript of the hearing shows an exchange between Schwartz and Representative Richard Poff, D-Va., in which the latter inquired about the screening of refugees, stating:

"This applies to our 50 per cent capacity and the Castro quota."

Replied Schwartz, "Yes; one hundred per cent of the shipload."

THE OTHER REFUGEES — The revelation of the alien's among the Cuban refugees is highlighted for the first time in an Immigration Service memorandum requested by Representative Feighan and included in the published hearings.

Related testimony in the hearings showed that at least 13 of the refugees were detained for security reasons and then allowed to migrate to other countries in the Western Hemisphere.

In light of these startling discoveries in the first six months of 1963, Representative Feighan has asked the Immigration Service to furnish the subcommittee with the number of aliens, other than Cubans, who have come into the U.S. from Cuba since Castro took over.

INSIDE REPORT — Frances G. Knight, director of the State Department's Passport Office since 1955, appears to have the upper hand in her stormy backstage battle with her immediate superior, Abba P. Schwartz. Secretary of State Rusk has informed congressional supporters of Miss Knight that Schwartz will be leaving the Department "very soon." Members of the Senate Internal Security Subcommittee vigorously opposed Schwartz' effort to oust Miss Knight. The subcommittee, headed by Senator James Eastland, D-Miss., is preparing a highly critical report of what is termed Schwartz' "harassment" of Miss Knight.

Representative Otis Pike, D-N.Y., has this to say about life in Washington: "I don't know what it takes to be a social lion in Washington, but there must be a certain indefinable weakness in my make-up which keeps me from making the grade. Lobbyists call on congressmen in a fairly steady stream and our office gets at least its share. Instead of being wooed to the sound of soft music and champagne with beautiful women, however, I find myself drinking black coffee across the desk from a balding businessman, and listening to statistics on unemployment and the need for rapid infusion of federal money."

### Congressional Slowdown

### Perils Tax, Rights Bills

By PETER EDSON

WASHINGTON (NEA) — According to the schedule worked out by Senate majority leader Mike Mansfield, D-Mont., there are fewer than 30 legislative working days for Congress before the next session opens after New Year's Day.

This allows for the usual Thanksgiving week end and the Christmas week vacations, with no regular sessions on Saturday, which is customary.

It is impossible, of course, for Congress to clean up the vast amount of work it has to do in this short time.

There is still nearly a full month's work to be done on the appropriation bills — providing money to run the government up to next July 1. This job already is four months late.

That crowds the time for both the tax cut bill and new civil rights measures. Few congressmen believe either can be passed this year.

The strategy of opponents of the bills has been to delay everything else, so the tax bill would not be passed before the appropriation bills, and civil rights could be killed without a filibuster in the Senate.

It is a deliberate slowdown, just as effective as a sit-down strike by a labor union or a sit-in demonstration by integrationists.

Congress has passed only eight major measures in the first 10 months of this year. A vocational education bill and a college construction aid program seem fairly certain to be added to the list. But anything else is problematic.

How any congressman can have the gall to vote himself a 44 per cent salary increase — from \$22,500 a year to \$32,500 a year — in the face of a record like that is hard to understand.

Granted the lawmakers have worked longer than any Congress before, the productivity has been at an all-time low. A pay cut rather than a raise would be more in order.

In a completely different but still related area of government there have been two significant acts this year.

It may be lost amid the election news, but on Nov. 4 the Atomic Energy Commission retired the "X-10" or "Clinton Pile" — the first atomic reactor built at Oak Ridge, Tenn. It was only 20 years old. But it was obsolete, inefficient, a dodo.

Just a month before, the U.S. Census Bureau retired its first data processing computer, "Univac I." It was only 12½ years old. But it's being put in the Smithsonian Institution.

The whole government of the United States, however, continues to hobble along with legislative machinery that is not only antique but also completely inadequate for today's job.

Believers in the sacredness of American political institutions may differ on this point, arguing that nothing which has protected American liberties for 175 years should ever be changed.

Concede for a moment that they may be right. The point made in refutation is not that tax reform or civil rights reform or any other reform must be approved as soon as it is dreamed up by the visionaries.

The point is that these things should be allowed to come to a vote and decided one way or the

other — not that they be ground to oblivion in the dry gears of old-fashioned legislative processes good enough for grandfather.

The one thing this year's record is said to have demonstrated clearly is that Congress as now organized is not able to deal with today's workload.

In this light, one of the most important pieces of neglected legislation before this session is the resolution to set up a Joint Commission on the Organization of Congress.

Its function would be to consider during the coming year plans for modernization of congressional machinery.

As Sen. Clifford Case, R-N.J., one of the resolution's principal backers, says, if something isn't done about that "the future of Congress as a living, vigorous instrument of government is endangered and it will become another historical exhibit in Smithsonian Institution alongside the one hoss shay."

To which might be added, "Univac I and the Clinton Pile."

## The Almanac

By United Press International  
Today is Tuesday, Nov. 19, the 323rd day of 1963 with 42 to follow.

The moon is approaching its first quarter.

The evening stars are Jupiter Saturn and Venus.

On this day in history:

In 1863, President Abraham Lincoln delivered his famous ceremony dedicating the battlefield of Gettysburg, Pa., as a national cemetery.

In 1874, William Marcy Tweed political "boss" of Tammany Hall in New York City, was convicted of defrauding the city of about \$6 million and was sentenced to 12 years imprisonment.

In 1919, the Treaty of Versailles, drawn up by the Paris Conference at the end of World War I, was rejected by the U.S. Senate.

In 1959, New York Gov. Nelson Rockefeller urged economic union for the Americas.
