# Work to Start Soon on Four New Businesses in Coronado Center

Construction on the new Dunlap's department store, Piggly Wiggly food store, A. L. Duckwall Co. variety store and a service station will begin within 30 days in the Coronado Center, according to the Center's developer Stanley H. Mathis, in a speech he made before the Pampa Rotary Club yesterday afternoon in Coronado Inn.

Mathis said plans call for bringing the Center into the City when that phase of construction is completed in March of 1964.

NEARING COMPLETION — Montgomery Ward's new building in the Coronado Shopping Center is very near completion. It is expected to open for business early in October of this year. Construction will begin on Dunlap's, Piggly Wiggly food store, A. L. Duckwall Co. variety store and a service station within about 30 days. The

Center will occupy 150,000 square feet with 25 tenants and total construction costs will run more than \$2,000,000. Eighty per cent of the tenants are now under lease. (Daily News Photo)

## Next Move to Be From Peking in Sino-Russian Talk

MOSCOW (UPI) — Chinese and Soviet delegates did not show up for talks on their worsening ideological dispute today, indicating another recess had been called in the conference.

There was no announcement, but newsmen waiting outside the conference site in a villa on the outskirts of Moscow said neither delegation arrived. The usual pattern of the talks has been one day off and one day on, and talks were held Wednesday.

Western observers believed the talks were near an end, and that the departure of the Peking delegation could be expected any day.

Diplomats said it is China's turn to make the next move in the public attacks that have accompanied the talks, gaining in bitterness as the conference progressed.

The last attack of major proportions came from Russia. In a 25,000-word statement published in Sunday's Pravda, it accused Peking of being a racist power intent on war and determined to split the Communist camp.

(China's replies have been only indirect, but a blast of full force was expected soon to answer the Pravda charges.)

(Today, Peking Radio, monitored in Tokyo, made clear to its listeners the contrast between Soviet warmth toward the Western nuclear negotiators in Moscow and the snubs against the Chinese.)

(It quoted extensively from Western reports of the friendly reception given the allies. The point was clearly, although indirectly, made that Premier Nikita Khrushchev was joining with British and American officials and cold to the equally important Chinese negotiators.)

(It warned that the United States' aim was to "poison Soviet-Chinese relations," implying that Khrushchev was too glib to realize this.)

### CORPORATE EARNINGS

A flood of corporate earnings reports bolstered forecasts that business fared well in the second quarter and first half of the year. Among the major companies reporting higher earnings were Johns-Manville, P. Lorillard, Douglas Aircraft, Monsanto Chemical, Parke Davis and American Airlines.

### Rockefeller Is Out to Prevent Goldwater's Nomination in '64

EDITORS NOTE: New York Gov. Nelson Rockefeller was reported to have lost ground as a potential presidential nominee when he married a divorced woman. But last Sunday Rockefeller let it be known he was not resigning himself to political oblivion when he attacked the "radical right" in the Republican party. The following analysis was written by a veteran reporter of New York politics.

By KIRTLAND I. KING ALBANY, N.Y. (UPI) — Gov. Nelson A. Rockefeller is out to stop Sen. Barry Goldwater, leading conservative contender for the 1964 Republican presidential nomination.

Rockefeller, an aide said, has known Goldwater many years and likes the Arizona senator personally. He calls him "my good friend Barry." But, he feels Goldwater carries a heavy conservative label that could sink GOP congressional candidates next year.

"What do you think would happen to our congressional candidates in the East with Goldwater heading the ticket?" a Rockefeller associate asked. "Right here in New York state he would

## JFK Not Sure Soviets, Chinese Past Returning

WASHINGTON (UPI) — President Kennedy says he is not at all certain the dispute between Russia and Red China has passed the point of no return.

"Quite obviously there are strong indications of pressure," he said at a news conference Wednesday, but premature opinions would be foolish "because history has shown that they are frequently reversed."

The President was cautiously optimistic on the possibility of reaching at least a limited nuclear test ban agreement with Russia and said this should be possible — if at all — without a summit meeting.

He added, however, that he would be ready to consider a session with Soviet Premier Nikita Khrushchev if the "situation" became such that it was "essential to the making of an effective agreement."

Kennedy sought to reassure U.S. congressmen and NATO allies that the American mission negotiating with the Russians and British in Moscow would not make any secret deals or fatal concessions.

He noted that any test ban agreement which might emerge from the Moscow negotiations being carried on by Under Secretary of State W. Averell Harriman would have to be approved by the Senate.

The NATO allies, Kennedy added, could be certain no deals affecting their "rights and interests" would be made in Moscow and they would be fully filled in on any discussion of European subjects which might be going on there.

This obviously meant the United States would not give Khrushchev any assurance, one way or the other, on the non-aggression pact between NATO and the Communist Warsaw Pact countries which the Soviet leader wants.

Kennedy said the first three days of the Moscow talks had been "businesslike" and he was "still hopeful" of securing a test ban treaty, at least one prohibiting atmospheric, land and under water blasts — which can be detected afar without on-site inspection.

He noted that any test ban agreement which might emerge from the Moscow negotiations being carried on by Under Secretary of State W. Averell Harriman would have to be approved by the Senate.

## President Asks for Clampdown On Foreign Borrowing from U.S.

### Syrian Revolt Apparently Crushed

BEIRUT, Lebanon (UPI)—An armed revolution, apparently by both civilian and military rebels, was launched against the Syrian government in Damascus early Wednesday while the nation's leaders were abroad. Indications tonight were that the revolt had been crushed.

Heavy street fighting broke out in Damascus as the rebels, including a group of discharged military commanders, staged their attempted coup just after Revolutionary Council President Louai Atassi flew to Cairo for talks on the controversial new United Arab Republic.

At the same time Syrian Premier Salah Bitar was absent in Baghdad.

Reports reaching here tonight indicated the uprising had been smashed by army tanks operating under cover of Soviet-Built MIG jet fighters of the Syrian air force.

Messages intercepted here before Damascus Radio went off the air indicated there had been casualties in street fighting. But with a communications blackout and the borders of Syria sealed, details were lacking.

Baghdad Radio, in neighboring Iraq, broadcast a communique it said was issued by the "deputy military governor in Syria," claiming that the attempted army coup had been put down.

"An attempt by a small band of civilians supported by a group of cashiered (discharged) officers to disturb the peace in Damascus has been nipped in the bud," the communique, as quoted by Baghdad Radio, said.

### Tri-Power Conference Reports Progress Made

MOSCOW (UPI)—Top-level U.S., British, and Soviet negotiators met anew today in the Moscow three-power nuclear conference amid increasing indications an agreement may be reached soon on a partial test ban.

Soviet Foreign Minister Andrei Gromyko, U.S. Undersecretary of State W. Averell Harriman and British Science Minister Lord Hailsham opened the fourth session of the Big Three talks at 9:30 a.m. EDT.

The negotiations resumed in the wake of a Washington news conference statement by President Kennedy that he was "hopeful" the negotiators would agree to halting nuclear tests in the atmosphere, underwater and in space.

Progress Noted A three-power communique issued in Moscow Wednesday night said that "progress" had been made in drafting treaty provisions. The rival East and West drafts already put forward at the Moscow nuclear talks were understood to be fairly close in position.

The Big Three talks began an hour and a half later than scheduled today because of a lunch Gromyko gave for visiting East German Foreign Minister Lothar Boltz.

East German sources said Boltz was in Moscow to discuss the Berlin problem in connection with the three-power talks.

The consultations between Soviet and East German leaders during the nuclear conference led to speculation that another move might be in the works to try to solve the Berlin problem.

Other Topics Discussed The conference although primarily devoted to the nuclear issue, was understood to have already held soundings—but not negotiations—on a number of cold war issues, including an East-West non-aggression pact and the problem of Laos.

While the Soviets wanted to link a partial test ban treaty with a non-aggression pact between NATO and the Warsaw Pact nations, the Western Allies were opposed on the grounds such a pact would involve Western diplomatic

recognition of Communist East Germany.

Diplomats here speculated a new formula excluding Western recognition of the regime of East German Communist leader Walter Ulbricht might be under discussion.

U.S. sources said that under no circumstances would there be any diplomatic contact between West-

(See NEGOTIATIONS, Page 2)

### Requests Temporary Taxation

WASHINGTON (UPI) — President Kennedy asked Congress today to enact a temporary tax on foreign borrowing of U.S. capital in a stepped-up effort to close the growing balance of payments gap.

The President said the new clampdown was needed to help make further "inroads into the hard core of our continuing payments deficit."

The President's recommendation, made in a special message to Congress, was intended to add more authority to an intensified attack on the dollar deficit which began this week with the raising of short-term interest rates.

A payments deficit develops when U.S. citizens and the federal government spend more dollars abroad than foreigners spend in this country. The result is a drain on U.S. gold stocks.

The President proposed a program mixed with both old and new ideas for resolving the balance of payments problem.

(See KENNEDY, Page 3)

### Retracts Offer

CANNINGHAM, England (UPI)—Last Sunday Anglican Vicar Arthur Moss told his parishioners to go right ahead and interrupt his sermon if they had any objections to make.

Responding spiritedly to the invitation, the congregation filled the church with protest. Today, after giving the matter thoughtful consideration, the Rev. Mr. Moss said he would insist on at least seven minutes of uninterrupted sermon next Sunday.

### Echos Words of Brother

## RFK Tells Committee of Urgency of Civil Rights

WASHINGTON (UPI) — Atty. Gen. Robert F. Kennedy told Congress today that "no issues are more urgent" than those the administration's civil rights program seeks to resolve.

Kennedy appeared before the Senate Judiciary Committee, headed by hostile Sen. James O. Eastland, D - Miss., to urge acceptance of the President's entire civil rights package. To do so, he said in prepared testimony, would be "to bring to law what we have always known in our

hearts to be justice."

The attorney general cited racial unrest in Cambridge, Md.; Savannah, Ga., and "countless other cities" as evidence of what happens when "long-standing legitimate grievances are not remedied under law."

He thus echoed the word of his brother, President Kennedy, who said Wednesday that the way to eliminate the nation's racial troubles is to "provide for a redress of grievances."

The President told a news conference that demonstrations leading to riots and violence, as in Cambridge, could only hurt the civil rights cause. But those who urge an end to demonstrations must be willing to work for equal opportunities, he said, or the problem will remain.

The attorney general, whose appearance before the committee had been delayed two days, coupled his plea for civil rights legislation with an attack on states' rights advocates.

"States' rights, as our forefathers conceived it, was a protection of the right of the individual citizen," Kennedy said. "Those who preach most frequently about states' rights today are not seeking the protection of the individual citizen, but his exploitation."

Calling for new authority to institute federal court suits to speed school desegregation, Kennedy said the time had come for Congress to act "to prevent further delays" in implementing the Supreme Court's 1954 decision outlawing segregation in public schools.

The attorney general said no part of the President's program was "of more vital and immediate significance" than the proposal to ban discrimination in public accommodations such as hotels and restaurants.

This provision would "accomplish the most immediate goal in stamping out the fires of racial discord in our land," he added. "The other sections of the bill are ways of tunneling in to get at the smoldering origin of the fire: this one takes care of the flames."

Money Taken From Purse on Kitchen Table Mrs. Paul Pyron left her purse in a basket on the kitchen table yesterday afternoon at her home, 333 N. Christy.

Sometime between 12:30 noon and 2:50 p.m., someone took \$58 from the purse, according to a report filed with police last night.

The thief overlooked \$9 in another part of the purse, the police report stated.

### Lucky Pampans Theme for Two Shopping Days

"You're Lucky when you shop in Pampa" will be the theme of Pampa merchants during "Lucky Days" tomorrow and Saturday.

The merchants today are advertising hundreds upon hundreds of outstanding values in today's edition of The Pampa News.

As an added feature, approximately \$500 in gifts will be distributed to "lucky" shoppers during the two-day event.

Readers are asked to fill out any or all of the participating Pampa Merchants' Coupons (on Page 15 today) and deposit them in boxes provided at the respective stores tomorrow and Saturday.

No purchase is required and you do not have to be present at the drawing to be a winner. Only persons 18 years or older are qualified to enter. Winners will be notified.

## Maryland Bar Association Will Mediate Racial Dispute; Demonstrations Halted

By United Press International Negro leaders and officials of Cambridge, Md. agreed early today to let the Maryland Bar Association mediate the city's racial dispute.

Mrs. Gloria Richardson, an integration leader, indicated there would be no more racial demonstrations until "we see what they (mediators) accomplish."

National Guardsmen, called to Cambridge to preserve the peace, Wednesday night arrested six white men who attacked soldiers, reporters and photographers in a melee outside an armory.

At Chicago, police clashed with rowdy integration demonstrators in front of the Chicago Board of Education building Wednesday night. Three demonstrators, two Negroes and a white man, were arrested.

A 10-year-old Negro girl and three policemen were injured in the pushing and shoving demonstration by about 150 persons protesting alleged segregation in Chicago public schools.

Police stepped between rock-throwing groups of whites and Negroes Wednesday night at Thomasville, N.C., and dispersed

the crowds with threats of arrest. The crowds of about 150 persons each had gathered outside the Thomasville city hall where 68 Negroes were being booked for physically blocking the entrance to a segregated theater.

Negroes held peaceful mass rallies Wednesday night at Charleston, S.C., where almost 200 police officers guarded against a recurrence of racial violence, and Savannah, Ga., where city council

# 'Lucky Days' Are Here Again Friday and Saturday in Pampa Stores

**WEALTH OF THE NATION**—Viewed in one way, federal government spending in the U.S. has risen astronomically in this century—from about half a billion dollars in 1900 to almost \$108 billion last year. By another yardstick, however—per cent of gross national product—spending has increased only modestly. (GNP is the estimated total worth of all goods and services produced by the country.) As News-

Graphic shows, in 1900 federal expenditures amounted to about three per cent of GNP; in fiscal 1962 they were 19 per cent. The conclusion by economists is that federal spending since World War II has risen at a pace only moderately faster than that for the economy as a whole. Most of the spending has been for defense, but a growing amount goes into social programs. Data from U.S. Treasury Dept.

— Quotes In The News —

By United Press International

WASHINGTON — Sen. Thomas H. Kuchel, R-Calif., praising New York Gov. Nelson A. Rockefeller for criticizing the "radical right" in the Republican party:

"The truths he uttered need to be repeated again and again by more and more Republicans across the land... Lincoln's party is not going to abandon Lincoln's principles because a miserable little group of self-seeking haters sneers and jeers at every constructive accomplishment Republicans have made for America over the last century."

LOS ANGELES — Mrs. Elaine Johnson, conceding that her battle with the scales was far from won just because she dropped from 215 pounds to 184 pounds during a six-month diet in a hospital:

"It never will be (over) because I'm a foodaholic."

WASHINGTON — Rep. William S. Broomfield, R-Mich., opposing any U.S. aid to help India build a steel plant to be government-owned:

"I can't see why the American taxpayer's money should be used to build a huge socialistic steel plant overseas. A program of this kind is in direct contradiction to the free enterprise system and may even someday against American steel in the world market."

CAMBRIDGE, Md. — Integration leader Mrs. Gloria Richardson, pledging that demonstrations would continue here even if it meant the arrest of very person willing to march:

"If there are three left, three will go out."

The first power-producing public utility was built in New York City in 1882.

Hector Berlioz laid the foundation of modern orchestration. He also is known as a creator of music based on a specific story, or program music.

**Transportation Manager Named For P&SF Railway**

Robert R. Kington, transportation inspector for Santa Fe Railway at Amarillo, was appointed acting general transportation inspector for the Western Lines and P&SF Railway, with headquarters at Amarillo, July 1, relieving C. E. Duncan on leave of absence because of ill health.

James D. Shelton, secretary to the acting assistant general manager at Amarillo, has been named to succeed Kington as acting transportation inspector. His appointment is effective July 18.

Kington was born at Brownwood, in 1933, and after attending Temple, Tex. junior college, entered service at Brownwood as a yard clerk in 1952. He rose through the clerical ranks, serving at Temple, Clovis, N.M., and Chicago, where he was appointed secretary to the president of the Santa Fe in November, 1957. He was promoted to transportation inspector at Amarillo in Sept., 1959.

Kington and his wife, Opal, reside at 2400 Crockett, and are the parents of three children: Louise 11, Karen 8, and Jim 7.

Shelton, whose territory covers the Plains division west of Canadian, and that portion of the New Mexico division consisting of the first, second and Estancia districts, was born at Lubbock, in 1936. He was graduated from the University of California with a BA

degree in June, 1959, and has completed a year of graduate work at the University of Texas.

He was frequently a part-time Santa Fe employe during his student days in California and last entered service as an apprentice operator on the Gulf Lines in June, 1961. He was promoted to stenographer to the superintendent at Temple in December, 1961, and then advanced to secretary to the assistant general manager at Los Angeles in June, 1962. He was transferred to Amarillo in the same capacity in November, 1962.

Shelton, who is the son of Santa Fe's operating vice president, R. D. Shelton, is single and resides at 3807 Virginia, Amarillo.

MICHAEL T. PRICE ... To be ordained

### Pampan to Be Ordained at Service Here

Michael T. Price will be ordained to the gospel ministry of the United Presbyterian Church in the U.S.A. by the Presbytery of Plains at 7:30 p.m., Sunday in the First Presbyterian Church here.

The Rev. George Walker of Albany, Tex., will give the sermon, "Ordain to What?" He will be assisted in the service by the Rev. David McPhail of Canadian; the Rev. James Glenn of Borger; ruling elder J. Kirk Duncan and organist, Mrs. Fidelia Yoder of Pampa, and the Rev. Donald S. Hauck, minister of the First Presbyterian Church.

Price, son of Mr. and Mrs. Traylor Price, northwest of city, graduated from Pampa High School in 1956. He was editor of The Harvester, senior class vice president and president of the National Honor Society.

He received his BA degree at Trinity University at San Antonio, where he was junior class president and Student Christian Council president.

Price will graduate in May, 1964, from Union Theological Seminary, New York City, with a Bachelor of Divinity degree.

He has served for three years as a student assistant in the Watchung Presbyterian Church of Bloomfield, N.J.

On Aug. 15 he will assume his duties as assistant pastor of the First Presbyterian Church of Wilkes-Barre, Pa.

A reception on the Church lawn will follow the ordination service.

### Court News

**CORPORATION COURT**  
Albert H. Jones, 217 N. Nelson, speeding, guilty, fined \$20.  
Dale Junior Smotherman, 84 E. Campbell, disobeying stop sign, guilty, fined \$15.  
William F. Miller, 1035 S. Barnes, speeding, guilty, fined \$15.  
Gary G. Hill, 213 E. Kentucky, nolo contendere plea, fined \$10.

**COUNTY COURT**  
Criminal cases filed: Barney W. Braddock, Clarendon, driving while intoxicated, guilty plea, fined \$125 and costs, three days in county jail.

**Association**  
(Continued From Page 1)  
Wednesday banned all marches during the "state of severe racial unrest."

Elsewhere in the nation:  
Danville, Va. — Integrationists threatened city officials of Chatham with "non-violent" war unless eight racial demonstrators were released from jail by the first of next week.

Montgomery, Ala. — Gov. George Wallace said he would propose to the Alabama legislature bills providing for "segregation by color and sex" in public school classrooms.

Jackson, Miss. — A circuit judge was to hear motions today in the case of Byron De La Beckwith, accused slayer of Negro leader Medgar Evers. The state has asked that Beckwith be given mental tests.

Washington — President Kennedy Wednesday said a planned march by 100,000 Negroes in the nation's capital next month is in the American tradition of liberty. But he warned against "demonstrations that could lead to violence."

Santa Monica, Calif. — Actor Marion Brando was hospitalized with an acute kidney ailment Wednesday and will not be able to participate, as he planned, in racial demonstrations in Maryland this weekend.

**JET ORDER**  
American Airlines said in New York it has placed a \$40 million order for 15 British-made short-range jet aircraft—the first foreign-built aircraft ever bought by American Airlines. The British Aircraft Co.'s new 111 was chosen over the Douglas DC9, the other competitor in the short-range field.

### Negotiators

(Continued From Page 1)  
ern representatives and those from East Germany on the grounds that "we have no recognition of that regime." Diplomatic circles here felt that any agreement on a partial nuclear test ban and progress on other cold war issues could pave the way for an eventual summit meeting.

The Soviet Union informed its citizens today that the East-West nuclear talks have "achieved progress" toward a limited test ban.

The Soviet press published Wednesday night's three-power communique as the talks entered their fourth day in an atmosphere of undiminished optimism.

Moscow's release of the communique was viewed as another cause for optimism. Observers noted that the Soviet press usually withholds such progress reports until negotiations are near the stage of agreement.

Soviet citizens accustomed to reading between the lines of official pronouncements were certain to interpret the publication of the communique as a good sign.

The communique indicated that the negotiators will not try to ban all tests, including those underground. It said that "progress was made in drafting some of the provisions of the test ban treaty concerning testing in the atmosphere, outer space, and under water."

Another cause for optimism was the disclosure by diplomatic sources that the Soviet demand for a non-aggression pact to accompany the test agreement no longer poses an obstacle. The West was opposed to making the test ban dependent on the non-aggression pact between NATO and the Warsaw alliance.

Soviet Foreign Minister Andrei Gromyko, Under Secretary of State W. Averell Harriman, and British Minister of Science Lord Hailsham were reported "relaxed and jocular" at a dinner Wednesday night, and the same friendly air has been reported from the conferences.

**AGREEMENT ANNOUNCED**  
BELGRADE, Yugoslavia (UPI)—Burma will ship farm products, minerals, oil, seed and other goods to Yugoslavia in return for motor vehicle, farm machinery, textiles and chemical products under a new trade agreement announced here Wednesday.

### Kennedy

(Continued From Page 1)  
ance of payments dilemma—one of the most nagging economic problems facing the nation.

**Urges Renewed Emphasis**  
He urged renewed emphasis on previous drives to increase exports, promote U.S. tourism, and reduce overseas dollar expenditures by military and foreign aid programs.

Kennedy said the long-range payments outlook was hopeful, but that action must be taken quickly to replenish "our stockpile of arrangements," during our return to equilibrium.

The nation ended 1962 with a balance of payments deficit of \$2.2 billion, which shot up to an annual rate of \$3.3 billion by March of this year. Government economists indicate the deficit is still climbing.

Kennedy's proposal for an "interest equalization tax" was designed to lessen the impact on the gap that results when foreigners borrow dollars in money markets here — where interest rates are lower — for use in their own country.

**Asks Graduated Tax**  
The President asked Congress to enact a graduate tax, ranging from 2.75 per cent to 15 per cent, with the rate tied to the length of the loan.

The tax would start at the minimum 2.75 per cent on a three-year loan, and rise to the full 15 per cent for loans maturing in 28½ years or longer. It would be in effect through 1965.

Kennedy said the levy "would stem the flood of foreign security sales in our markets and still be fully consistent with both economic growth and free capital movements."

The increase earlier this week in short-term interest rates—from 3 per cent to 3½ per cent — was intended to discourage the flight of U.S. capital to foreign banks offering higher rates.

The President said these two strategies bolstered by additional savings in overseas government expenditures would add \$2 billion to the "plus" side of the payments ledger during the next 18 months.

**TWO CITED**  
FORT WORTH (UPI) — Two men, one accused of rape and the other of murder, were indicted Tuesday by the Tarrant County grand jury. Hanley Alvin Hunter, 18, was accused of attacking an 18-year-old Fort Worth girl and forcing her to commit unnatural sex acts. Albert Arthur Cannon, 28, was indicted for the slaying of Charles Ray Thompson June 3.

SPEAKER — Wynn Veale, manager of the Retail Merchants Association, will speak at the monthly meeting of the Desk & Derrick Club to be held at 7 p.m. Monday in Coronado Inn. The title of his talk will be "Bills, Baloney and Boomerangs."

### Pampa Boy Receives FFA Award

Richard Bowers, son of Mr. and Mrs. Paul Bowers, south of city, was honored with an educational award presented by Sante Fe Railway college award winners.

Richard was one of fourteen to receive the honor at today's session of the 35th annual Texas Future Farmers of America Convention being held in Lubbock.

Also attending the convention are Gary and Ronnie Doss, sons of Mr. and Mrs. Arnold Doss and Fred Vanderburg Jr., son of Mr. and Mrs. Fred Vanderburg.

WASHINGTON — Dr. Eugene Sanders of the Public Health Service, on the widespread outbreak of intestinal bacteria from cracked eggs:

"There is every evidence that the epidemic is continuing."

### Knights Install New Officers

Knight A. C. "Lonnie" Parsley was installed as Chancellor Commander at the last regular meeting of the Knights of Pythias, Lodge No. 480.

Parsley was installed by J. C. Hopkins, Deputy Grand Chancellor of the Local Lodge. Assisting in the ceremonies were A. L. Weathered, District Deputy Grand Chancellor, Glen Day, Grand Vice Chancellor and G. R. "Speed" Fugate, Grand Master of Arms.

Other officers installed were C. M. "Peg" Whittle, Vice Chancellor; Rex Gage, Prelate; Ray Barnard, Master of Work; B. B. Altman Jr., Secretary; Vernon Wood, Financial Secretary; Jack Back, Treasurer; James Weathered, Master of Arms; John Snuggs, Inner Guard; and Jack McKay, Outer Guard.

Outgoing Chancellor Vernon Wood was presented his past chancellor button by J. C. Hopkins. Lonnie Parsley, newly installed Chancellor gave a short talk and the meeting was adjourned. Refreshments and a recreation period followed the meeting.

"My daddy barks better than you do!"

CHICAGO—The Rev. Elton Cox, a CORE field secretary, charging that the city Board of Education broke an agreement with racial demonstrators by blocking a sit-in at a conference room:

"They tricked us. If necessary, we will picket the homes of individual board members. We'll follow them to dinner and we'll follow them to church."

### Quotes In The News

MIAMI BEACH, Fla. — Miss U.S.A., Marita Ozers, recalling that she was runnerup in a Chicago beauty contest two years ago:

"I guess I'm getting better now."

MOSCOW — A Soviet farm official, scolding Communist China in the columns of Ivestia, the Soviet government newspaper:

"We want peace while you are weakening the struggle for peace. Come to your senses."

LAS VEGAS, Nev.—Singer Eddie Fisher, denying rumors he would marry New York model Renata Boeck:

"I don't know what my plans are."

For young daughters who want to cook

FREE to users of Imperial Pure Cane Sugar! An Imperial cookbook especially for children ages 6 to 12. Simple recipes in easy-to-follow steps. Shows how to measure... how to use utensils... all the things beginners need to know. Little helpers can learn to cook this summer. And like all good cooks, learn they get best results with Imperial Pure Cane Sugar. It's quick dissolving!

"My First Cookbook" is a happy gift for daughters and little friends.

Scotland Yard was originally an area just off Whitehall, London, which took its name from a palace there during the 10th century reign of Edgar. The Scottish kings were given a piece of ground next to the new palace of Westminster. It was to serve as a residence for them on their yearly visit to pay homage to England. London's first Commissioner of Police and Improvement set up quarters there in 1682.

### Corn And Potatoes Make Fried Patties

By GAYNOR MADDOX  
Newspaper Enterprise Assn.  
Looking for something different and particularly delicious to serve with grilled meat, poultry or seafood? A little tired of potato chips, foil-wrapped baked potatoes or canned beans? Then read on. We think you'll welcome these two recipes.

**FRESH CORN AND POTATO PATTIES**  
(12 patties)

2 to 3 ears fresh corn  
Boiling water  
1 teaspoon salt  
2 cups mashed potatoes  
3 tablespoons flour  
1/4 teaspoon salt  
1/4 teaspoon ground black pepper  
2 tablespoons butter or margarine  
1 egg, beaten lightly  
Fine dry bread crumbs  
Shortening

Husk corn and remove silks. Cook 3 minutes in boiling water with 1 teaspoon salt. Cover the saucapan. Remove from water and cool until corn can be handled without discomfort. Score each row of kernels with a sharp knife. Cut corn off the cob and scrape cob with the bowl of a tablespoon (There should be 1 cup.) Add potatoes, flour, salt, black pepper and melted butter or margarine and egg. Mix well. Drop a heaping tablespoon of the mixture at a time into a bowl containing bread crumbs. Spoon bread crumbs over top and sides to cover patties completely. Fry in 1/4 inch hot shortening, turning to brown both sides. Drain on brown paper. Serve hot with seafood, chicken or meat.

### Flavors Remembered From Childhood Makes Bacon-Fried Chicken Recipe

Old fashioned recipes often provide the inspiration for new recipe ideas. And that's just the way the recipe for Bacon Fried Chicken came about. A remembered flavor from childhood was fried chicken with just a hint of sweet smoked bacon.

To make the modern day recipe, a shallow baking pan is used to partially cook the bacon. Oven baking is an easy method for cooking bacon because the bacon needs little watching and no turning. Remove the bacon from the pan and set aside for later use.

After dipping the chicken in flour and seasonings bake it skin side down in the pan with the bacon drippings. Turn the chicken once after about a half hour and continue baking. When the chicken is nearly done, arrange the bacon slices over the chicken and bake another five minutes.

Bacon Fried Chicken is especially good served hot with blueberry fritters. And fresh fruit in a water-

melon basket is fine as a salad or as the dessert.

**BACON-FRIED CHICKEN**  
Yield: 4 servings

1/2 pound sliced bacon  
2 1/4 to 3 pound chicken, cut up for frying  
1/2 cup flour  
2 teaspoons salt  
1/4 teaspoon white pepper  
1/2 teaspoon ground thyme  
1/2 teaspoon rosemary

Place bacon strips in a shallow baking pan. Bake in a hot oven (400 degrees F.) for 10 minutes. Remove bacon from pan and set aside for later use.

Dip chicken pieces into mixture of flour, salt, pepper, thyme, and rosemary. As pieces of floured chicken are placed in baking pan, turn to coat with bacon drippings. Bake skin side down in a single layer in a hot oven (400 degrees F.) for 30 minutes. Turn chicken. Bake another 15 to 20 minutes. Arrange bacon slices over chicken, and bake another 5 minutes. Serve hot with blueberry fritters.

BRIDAL CAKE That's Good For Any Month.

### Some Sugar, Spice, A Few Nuts Makes Ordinary Bread A Dessert

By GAYNOR MADDOX  
Newspaper Enterprise Assn.  
Enriched baker's bread, a wholesome and convenient food, can be used in many interesting ways. We think you'll agree that this easy-to-do-it orange pecan coffee cake proves our point.

**RAISIN BREAD ORANGE-PECAN COFFEE CAKE**  
(8 to 10 servings)

1 loaf unsliced raisin bread  
1-3 cup butter or margarine, melted  
2 navel oranges  
1 tablespoon cornstarch  
1 tablespoon granulated sugar  
1/4 teaspoon vanilla extract  
1/2 cup (firmly packed) light brown sugar  
1/4 cup coarsely chopped pecans  
1-3 cup flaked coconut

Slice off crust on each end of loaf. Slice the loaf in half, horizontally. Separate the two halves and place them on a greased baking pan. Brush cut sides with butter. Brown in a hot oven (400 degrees F.) for ten minutes. Squeeze one of the oranges and section the other. Place the cornstarch and sugar in a small saucapan. Add the juice from one of the oranges, a little at a time, until it has all been added to the cornstarch and sugar, and the mixture forms a paste.

Heat until thickened, then lower heat and cook an additional five to seven minutes. Remove from heat and add vanilla extract, brown sugar, and pecans. Stir until well-blended. Fold in orange sections and spread mixture over each of the two loaf halves. Sprinkle with coconut. Return to hot oven (400 degrees F.) and bake an additional five minutes, or until coconut is a golden brown. Remove and serve immediately.

## Bride's Wedding Cake

By GAYNOR MADDOX  
Newspaper Enterprise Assn.  
Every month is bride's month. July and August have their share of wedding receptions either at home on the lawn or indoors in flower-filled rooms. Mother and daughter together can plan the wedding reception and share the excitement of making this charming Honey Wedding Cake. Sweetheart rosebuds are tucked into a slim vase in the center of the cake. Serve chilled champagne or fruit punch with the cake for a perfect reception menu.

**FRUITED HONEY WEDDING CAKE**

1 cup shortening  
3 1/2 cups sifted cake flour  
4 teaspoons double-acting baking powder  
1 1/2 teaspoons salt  
1 cup granulated sugar  
1 cup milk  
2-3 cup honey  
2 teaspoons almond extract  
6 egg whites  
1 cup finely chopped candied cherries  
1/2 cup finely chopped citron  
1 1/2 cups chopped walnuts  
Fluffy Honey Frosting  
1-3 cups (about) flaked coconut

Few drops red food coloring

Stir shortening to soften. Sift together measured flour, baking powder, salt, and 1/2 cup sugar. Add milk, honey, almond extract, and flour mixture to shortening. Mix until all flour is dampened. Then beat 2 minutes at low speed of electric mixer, or 300 vigorous strokes by hand.

Beat egg whites until foamy. Gradually add remaining 1/2 cup sugar, 2 tablespoons at a time, beating after each addition until thoroughly blended. Continue beating until meringue will stand in soft peaks. Add meringue to cake

batter and beat 1 minute longer in mixer, or 150 strokes by hand. Fold in cherries, citron, and walnuts. Pour batter into a greased and lightly floured 10-inch tube pan. Bake in moderate oven (350 degrees) 1 hour and 15 minutes, or until cake tester inserted in cake comes out clean. Cool in pan at least 30 minutes. Remove from pan; cool completely. Wrap well or store covered, at room temperature.

A few hours before serving time, spread cake with Fluffy Honey Frosting. Tint coconut a pale pink with a few drops of food coloring, and pat gently on sides of frosted

cake. Insert a small vase in center of cake and fill with a bouquet of rosebuds. Or wrap stems of flowers in wet paper towels and then in aluminum foil; insert in center of cake.

If you don't find turkey portions in the store where you shop, select a 15 to 25 pound frozen bird. Cut the bird in half for two 7 to 12 pound roasts or cut in quarters. Wrap the portions you won't need right away in a moisture proof material and put in your freezer.

BLUEBERRY MERINGUE pie: Summertime delight.

## Blueberries, Meringue Bake Into Super Pie

By GAYNOR MADDOX  
Newspaper Enterprise Assn.  
Beautiful to look at and wonderful to eat - those dark blue, plump cultivated blueberries now adding color to our local markets. As is, with cream and sugar, or in muffins and pancakes. But for

today, how about a super meringue pie jeweled with them?

**BLUEBERRY MERINGUE PIE**  
(8 servings)

1 1/2 cups fresh cultivated blueberries  
3 cups cornflakes (about 1 1/2 cups crumbs)

2 tablespoons sugar  
4 tablespoons butter  
4 egg whites  
1/4 cup sugar  
1/2 teaspoon almond extract  
1/4 teaspoon salt  
1/2 teaspoon cream of tartar

Rinse fresh blueberries and spread between layers of absorbent towels to dry thoroughly. Crush cornflakes to make 1 1/2 cups of crumbs. Mix crumbs with 2 tablespoons sugar. Let butter soften to room temperature and mix cornflake crumbs and butter together thoroughly. Use crumb mixture to line a 9-inch pie plate, pressing crumbs with back of spoon to get an even layer on bottom and sides of pie plate. Back shell at 375 degrees for 10 minutes. Let cool. Beat egg whites until stiff. Gradually add sugar in very small amounts, beating continuously after each addition. Alternately add almond extract, salt, and cream of tartar, beating until thick and glossy. Carefully fold in dried blueberries, being careful not to break the berries. Pile blueberry meringue into baked crumb crust. With back of wet tablespoon, make swirl designs in meringue. Bake at 300 degrees for about 15 minutes or just until top browns slightly. Let cool before cutting.

### Serve Spareribs For 2-Way Taste

By GAYNOR MADDOX  
Newspaper Enterprise Assn.  
Always popular, braised pork spareribs can be charcoal or oven-roasted, braised, simmered in water or sauce or stuffed and baked. They are distinctive and have a welcome flavor.

**SPARERIBS WITH SAUERKRAUT**

Cut spareribs into serving size pieces. Add two cups of water one teaspoon salt, a sliced onion and a sliced celery stalk. Cover and cook over low heat 1 1/2 hours. Lift out ribs and place sauerkraut in bottom of pan. Add caraway seeds, if desired. Place ribs on kraut, cover and simmer over low heat until meat is tender, about 30 minutes.

**BRAISED SPARERIBS**

Cut ribs into serving size pieces. Brown in a little hot fat, if needed. Sprinkle with salt and pepper. Add one cup liquid, such as water, tomato juice or barbecue sauce and some sliced onions, if desired. Cover and cook over low heat or in a moderate oven (350 degrees) until tender, about 1 1/2 hours. Remove cover last 20 minutes for oven browning.

### Manners Make Friends

Some mothers have more peace than others because they constantly send their children to visit. Solution: Send the youngsters home more often.

**HAVE ARMY, WILL TRAVEL**—Trained to conduct pre-assault and distant-post assault reconnaissance in support of a landing force, members of the Marines' Force Reconnaissance Companies don't travel light. Above, a Recon Marine at Camp Geiger, N.C., leans against a man-size bag in which weapons, food and vital equipment have been tightly packed. A mixture of paratrooper, frogman and Indian scout, the Marine will jump with the bag behind "enemy" lines. Once on the ground, he will bury the parachute and proceed with the mission. Information gathered will be transmitted back by radio, also carried in the bag.

**Walter Rogers Reports**

**I Say Yes! To America**

Can you say YES! to America? Do you have faith in your country's future? Do you believe that the courage of our people and the strength of our institutions will carry our Nation to new glories? Is your personal conviction strong enough to withstand the assaults of those who would tell you that our Nation's most glorious days are gone, that we are surely destined for a secondary role in world affairs? Do you believe in the United States of America, past, present, and future?

Are Americans capable of patriotic expression, of putting into words the convictions they hold for their country and its future? I'm convinced our people, young and old, can say what they feel in their hearts about America. I believe that Americans, in full awareness of the deep problems facing us at home and abroad in this summer of 1963, can say YES! to America.

I like to see patriotism expressed. Now that it's summer, with the youngsters home from school, I'd like to hear from Panhandle folks — young and old — on this topic:

**I SAY YES! TO AMERICA**  
I'd like to see expressions of faith in America and its destiny from children and their parents — letters, not formal essays, stating their continuing faith in their country.

I'm opening a kind of contest — one in which everyone wins. First of all, those who write letters on the topic "I Say Yes! To America" will have benefited by giving deep reflection to their feelings about their country and putting their feelings in words. Second, those of us who read the letters — and I'll publish the most inspirational statements as part of a future newsletter — will benefit by seeing the convictions expressed by fellow citizens.

In a more material way, everyone who sends a letter on the topic will win. To each letter writer I will send copies of two booklets — "How Our Laws Are Made," a most interesting and accurate explanation of the Federal legislative process, and "Our American Government, What is it? How Does it Function?"

In addition, I will send other worthwhile books to the writers of the five letters adjudged to be most expressive in each of four age categories. These books are "Inaugural Addresses of Presidents of the United States" and the two-volume, authoritative study prepared by the House Committee on Un-American Activities, "Facts on Communism."

The letters will be judged in these age categories:  
1. Grade School (grades one through six).  
2. Junior High School (grades seven through nine).  
3. Senior High School (grades 10 through twelve).  
4. Adult.  
To the writers of the best letters in each category, I'll send an American flag — a flag that has a

United States — as well as the books and booklets. One of my most distinguished colleagues in the House of Representatives will be given the five letters I've picked as best in each category. He in turn will pick the flag winners.

I hope the letters flood into the office. Be sure and give me your name and address and the category in which your letter should be placed. All letters postmarked by midnight Sunday, August 25th, will be considered in the competition. I'll announce the winners in a newsletter early in September.

Send your letters to me: Congressman Walter Rogers, New House Office Building, Washington 25, D.C.

Short or long, handwritten or typewritten, on expensive bond or lined notebook paper. It matters not how you write — but write! The thing I'd like to see is the expression of your faith in America, your sincere statement on the topic "I Say Yes! To America."

Recent Visitors: W. Wellman Smith and family, Spearman; Mrs. T. S. Roberts and son Kent, Amarillo; Mr. and Mrs. J. B. Massa, Pampa.

Walter Rogers  
Member of Congress  
18th District of Texas

**'Fingerprinting' For Diamonds**

CHICAGO (UPI) — Diamonds are as different as fingerprints, according to a gem expert who announced a new method of identifying them.

Leon R. Bellis, a diamond appraiser, said "fingerprinting of diamonds could spell the end of an era which has seen diamonds become the most sought-after loot, partly because of the impossibility of identifying a diamond removed from its original setting."

Police departments "are holding thousands of dollars worth of unclaimed diamonds," said Bellis. Though the thieves are caught and the diamonds recovered, there is no way of returning the gems to their owners because of lack of identity.

Bellis said the services of his organization, Central File and Identification Bureau, Inc., will be free to all law enforcement authorities.

Each diamond "has markings discernible only under 10-power magnification," Bellis said. These "invisible" markings — technically called inclusions — are not faults but are part of the very structure of the stones, said Bellis. "They're never exactly the same on any two diamonds," he said, "and they are permanent, no matter what a thief does to change the looks of a diamond."

Bellis said the identification system would enable jewelers to register any diamond of 1-3 carat or over and thus aid in the recovery of lost or stolen gems.

## 10 WINNERS IN EVERY FURR'S SUPER MARKET EACH WEEK

### STARTS NOW - EVERY WEEK FOR 8 BIG WEEKS

Each week 10 names will be drawn from the Bonanza Ticket Hopper in each FURR'S Super Market. These names will be posted on a board in your store. The first two (2) names drawn will be entered in the weekly Grand Prize drawing and will automatically win anything from a transistor radio to a classic Lincoln Continental automobile. The other 8 winners from each store will be awarded 500 Frontier Trading Stamps. But remember to register every week... each week is a separate drawing. Register as often as you like, but be sure you register every week. A list of Grand Prize winners will be posted in each FURR'S Super Market and will be published in FURR'S weekly newspaper ad. Nothing to buy — you do not have to be present to win. Employees of FURR'S, Inc., and their families are not eligible.

Calling All Technocrats

Summary

MEXICO CITY (UPI) — A cartoon in the newspaper Diario de la Tarde today summed up the dispute between Russia and Red China in two words. It depicted Soviet Premier Nikita Khrushchev shouting "Red!" at China's Communist boss Mao Tse-tung, who retorted, "Yellow!"

James A. Garfield was the only man in U.S. history simultaneously president-elect, senator - elect and congressman from Ohio.

TWO SOLDIERS MISSING

SEOUL, Korea (UPI) — Two American soldiers swept away by the swift current of the Hanting River north of here were missing and presumed dead today, according to an announcement by U.S. Army authorities.

The soldiers were swept downstream when they attempted to walk across the river early Wednesday.

Inventions Galore, But Where's One to Help Out Patent Office?

By JOSEPH D. NUTNYAN

WASHINGTON (UPI) — If U.S. Patent Commissioner David L. Ladd were the melodramatic type you could probably find him looking through his office window crying out plaintively:

"Technology, technology everywhere — but not a drop for me." The 36-year-old commissioner is presiding over a governmental activity whose problems must present one of the classic ironies of our time.

The nation is in the midst of an unprecedented burst of inventiveness and technological progress that is helping everyone — and slowly crushing the Patent Office to death under a mountainous workload.

Ladd, who is far from the wailing type, is making a spirited effort to reorganize his office. The outcome could determine whether the present system will survive.

His new approach includes trying to adapt some of the new technology to speeding up the processing of patents. But so far, this phase of the reorganization has had only limited success.

Ladd, a former Chicago patent lawyer, stresses that the job of saving the present system won't be easy. "The situation is not desperate," he said in an interview. "But on the other hand, the Patent Office has been chronically behind for a long time. I think the time has come when we will have to make a decision."

Ladd said that if the present reorganization does not improve the situation by the middle of next year, "there should be a comprehensive revision of the patent law."

The root of the problem is the growing increase in patent applications, which reached 80,229 in 1962. This was 16,000 more than the office received 10 years ago.

The crush is so great that it now takes about 3½ years from the time the application is submitted until final action is taken. The backlog at present is running about 197,000.

This "information explosion" — as Ladd terms it — is one of the products of an age of frantic technological activity, spurred by defense requirements and an unquenchable thirst for a higher standard of living.

Inventive fashions are changing, too. Once the inventor was symbolized by the chap who pattered around in the garage or the basement.

That no longer is true. Technology now is mass produced in sleek new plants where large teams of white-coated scientists work at the job every day of the week.

In addition to this big increase in volume of new applications, the Patent Office is harassed by these other problems:

—The growing stack of patents that must be checked when a new application comes in is increasing to the point where 3,000 additional square feet will be needed every year to house them.

—This time-consuming activity is aggravated by a lack of trained personnel. Private industry is continually hiring away patent examiners.

Ladd's reorganization includes reclassification of the 10 million patents on file into fewer categories to speed up the examining process. The patents also are being filed with more logical emphasis on their subject matter.

For instance, some of the previous groupings contained such dissimilar subjects as: threshing, knotters, harvesters, animal husbandry, bee culture and acoustics.

Now the stacks of patents are filed under such headings as: "General Chemistry," "Petroleum Chemistry," and "Coatings and

ing the personnel problem by trying to improve working conditions. Examiners' salaries have been raised. Promotions now are governed by competency instead of seniority.

A new 22-week training program for examiners is aimed at taking

a first-year man and raising him to the competency of an examiner with three years experience.

In addition, the commissioner has set up a research and development section to try to find ways of adapting automated techniques to the laborious process of search-

ing patents. The commissioner also is attacking Laminating.

So far, there is no significant breakthrough. It seems that science's fancy new computers are capable of doing just about anything except checking out patents.

Latest Post Office Presentations—

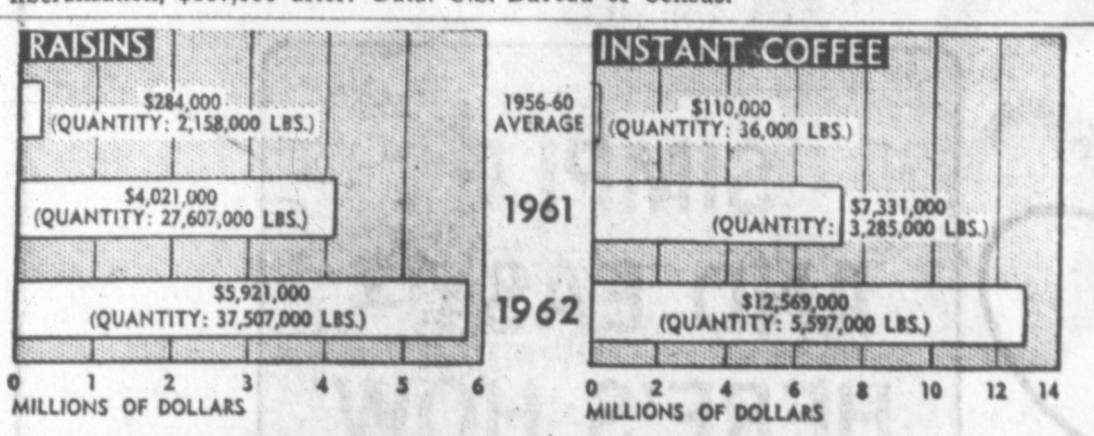

Two new five-cent stamps to be issued by the Post Office Dept. are reproduced here. Above, Alliance for Progress stamp will first go on sale in Washington, D.C., August 17. It is bright blue, with a flame in two shades of green.

Stamp honoring naturalist-artist John James Audubon, left, is this year's stamp in the department's fine arts series. It features Audubon's painting of Columbia jays which hangs in the National Gallery of Art. No issuing date for this stamp has yet been announced.

TRADE WINDS—Locked in a death struggle only two decades ago, Japan and the United States are today growing increasingly dependent on peaceful trade. U.S.-Japan trade is now about \$2.8 billion a year. Recent lifting of import restrictions by Japan has caused U.S. exports to jump. Two examples are shown on Newschart above. Exports of phonograph records and blanks to Japan averaged about \$26,000 a month before liberalization, then zoomed to high of \$189,000. Surprisingly, U.S.-made pens (both fountain and ball-point) are popular with the Japanese. Monthly exports averaged \$13,000 before import liberalization, \$167,000 after. Data: U.S. Bureau of Census.

EAST MEETS WEST—Trade between the United States and Japan reached a record annual level of \$2.8 billion in 1961 and '62. America is Japan's best customer, while Japan is second only to Canada as a market for U.S. products. Helping push up the volume of trade has been the easing of import restrictions by Japan. Newschart above shows two examples: raisins and instant coffee. Liberalizing restrictions caused raisin exports from the U.S. to rise from \$4 million in 1961 to nearly \$6 million in 1962. Instant coffee exports jumped from an average \$56,000 a month to over \$1 million. Data: U.S. Bureau of Census.

**SIMPLE REASON**

WASHINGTON (UPI) — President Kennedy gave a simple explanation Wednesday for resuming golf. There had been a two-year layoff due to his back injury.

"I like it," he told his news conference. He said that his return to the game was aided by a 10-day European visit because it was good "to get out of the office." The President played golf at Hyannis Port, Mass., last weekend.

**Betancourt Becomes Symbol of Changing Times, as U.S. Wavers from Snub to Acclaim**

CARACAS, Venezuela (UPI)—Romulo Betancourt is a symbol of changing times.

Once, nearly 10 years ago, Betancourt was snuffed at by the U.S. State Department as a "radical leftist."

Now 55 and approaching the end of his term as president of Venezuela, he has won the acclaim of the United States.

When he was received at the White House last Feb. 19 President Kennedy told him: "You represent all that we admire in a political leader."

Years ago Betancourt flirted with Marxism, but when he went to Washington Kennedy called him the "number one enemy of international communism in this hemisphere."

The United States, impressed with the reforms he has achieved in always explosive Venezuela, now is reported considering him as the man needed to help bolster the sagging Alliance For Progress program once his term expires next March.

But he long has been an open and fervent admirer of the alliance and had launched Venezuela on major social and economic reforms envisioned by the alliance before President Kennedy announced the program.

Betancourt's time in government so far have been a succession of crises. The real triumph is that he—and elective democracy—ever got this far.

No elected president of Venezuela ever has lasted so long.

In four and a half years; he has had to:

- Put down four major military rebellions.
- Ride out the disintegration of a three-party coalition when the second largest partner in his government left the party in a squabble over Cuba policy.
- Endure two splits within his own party.
- Battle continuing subversion and violence, at first largely from the rightist remnants of the Perez Jimenez clique, but lately from the Communists with vocal and active support of Fidel Castro.

—Survive at least two attempts on his life, one of which nearly succeeded and left his hands and face scarred for life.

Perhaps even more remarkable than the mere fact of survival is what Betancourt has been able to accomplish despite the pressures on him. He has steered the country through a severe economic recession into a clear recovery.

He has undertaken massive expansion of the school systems, so that nearly twice as many children are in classrooms today as in 1958, and illiteracy has been chopped from more than 40 to 23 percent. He has laid the base for industrialization of a country which grew rich—and totally dependent—on a single commodity oil.

And he has stolen the thunder—and popular support—of the Communists, by providing reform through peaceful, democratic means. This explains their resorting now to violence.

**Nothing Of Future**

Betancourt has said nothing about post-presidential ambitions (under the constitution he would not even be eligible to run for another 10 years) beyond expressing the wish to take an extended vacation and do some writing.

### Arrested — By Request

SPOKANE, Wash. (UPI) — Albert Elmer Otterness, 18, Chehalis, Wash., turned up at the police station and asked to be arrested.

After checking the record, astonished officers complied.

Otterness told police he had walked and hitchhiked the 350 miles here from his home to surrender on charges of having no vehicle registration, reckless driving and having no vehicle operator's license.

But police said no warrant had been issued for him when he failed to turn up for his original trial and chances were "one in 10,000" he would have been arrested.

Police Court Judge Gordon Lower took note of Otterness' long walk to court and fined him \$1 on the vehicle registration charge, \$50 for reckless driving and \$20 for having no driver's license, and assessed \$4 court costs on each count. Normal fines are generally more, and Lower frequently metes out jail terms in such cases.

Otterness was serving time in jail anyway — serving out his fines at the rate of \$3 a day.

### MISTRIAL DECLARED

DALLAS (UPI) — Dist. Judge J. Frank Wilson declared a mistrial Tuesday in the trial of an Army private charged with trying to rob a barbecue cafe last March 9. Nathaniel Thomas, 26, was accused of trying to rob the barbecue place.

**1**

**THE PULL-UP** (for arms and shoulders). Sit straight, grasp the sides of the chair lightly with both hands and pull up as hard as possible.

**4**

**THE NECK PRESSER** (for the neck). Sitting straight, clasp the hands behind the neck holding elbows forward. Pull forward with the hands and at the same time press the head backward.

**7**

**THE BODY LIFT** (for shoulders, arms, abdomen). Keeping the back straight, lean forward and place the hands palms down against the side of the chair. Hold legs straight out, attempt to raise body about 1 inch off the chair.

**2**

**THE HAND PRESS** (for arms, chest and shoulders). Sit straight with chest out and arms held across chest, place one fist inside the other. Press together using all the strength of the arms and the shoulders.

**5**

**TUMMY TIGHTENER** (for waist and abdomen). Sitting with legs together straight out, bend forward and grasp the legs just below the knees. Press down with the hands, at the same time press up against the hands with both legs.

**8**

**THE LEG SQUEEZER.** While sitting forward on the edge of a chair, lean back, hold legs straight out. Hook one foot over the other and hold lightly. Rest feet on floor, keep legs straight, then try to pull the feet apart.

**3**

**THE BACK PULL** (for the back). Keep back straight and lean forward until you can grasp your legs or braces of chair. Pull straight up using back muscles only.

**6**

**THE CRISS-CROSS** (for chest and legs). Placing the feet about 4 inches apart, bend forward and place hands against inside of opposite knees. Attempt to press knees together while at the same time holding them apart with the hands.

**9**

**THE ARM CURL** (for the upper arms). Sit straight, grasp the underside of a heavy desk or table with palms up, forearms parallel to desk. Push up as hard as possible.

**SHAPE UP WITH ISOMETRICS**—For desk-bound sailors and Marines, who run the risk of putting on padding where it's not needed, Navy Department has developed a method of exercising which can be followed right at the desk, sitting down. The secret is called "isometrics"—the pitting of one set of muscles against another, similar to the "dynamic tension" method of Charles Atlas. There are nine basic exercises, lasting six seconds each. Thus, says the Navy, by exercising

for only 54 seconds a day, the muscle strength of most persons can be increased from 3 to 5 per cent in a week. The proper technique is to hold your breath while you do each exercise (for six seconds). Then relax completely for a few seconds before going on to the next. All nine exercises should be performed at least once every day. Several times a day is even better, although any more than that has no effect upon muscle growth.

## Make Believe Game Helps Congress Create Helpful Air

By VINCENT J. BURKE  
WASHINGTON (UPI)—A game of "make believe" is helping members of Congress create a climate of public opinion favorable to enactment this year of the big income tax cut President Kennedy wants.

The game might be called "let's make believe we have slashed Kennedy's budget so we can vote for a tax cut without being criticized too much."

Lawmakers of both parties seem fiercely determined to convince themselves and the voters that they are really slashing the record high \$98.8 billion which Kennedy budgeted for spending during the current fiscal year which ends next June 30.

The fact is that the lawmakers have not yet made a big cut in Kennedy's spending budget and there is considerable doubt that they will.

However, by fiscal juggling and bookkeeping legerdemain, Congress is creating the illusion of a big budget cut.

One obvious goal: to appease those voters who insist that big spending cuts are necessary to justify a tax cut while at the

same time avoiding the irate voter complaints that would erupt if federal services and subsidies actually were curtailed.

The truth is that the \$2.5 billion which the House this year has slashed from the first seven appropriation bills represents for the most part nothing but bookkeeping transactions which give the appearance of economy but do not actually save a single penny.

**Under House Direction**  
The budget-cutting drive is under the direction of the House Appropriations Committee which is a past master at the gentle art of cutting money bills in a manner that inflicts little, or no damage, to spending plans.

The committee has swung its economy ax vigorously this year at excess funds which Kennedy requested but which he did not even plan to commit for spending—much less spend—during the current fiscal year. This accounts for at least \$2.5 billion of the House-voted reductions in appropriations. Moreover, a good share of the remaining funds rejected by the House was not scheduled for spending this fiscal year.

Although the Senate will restore some House-voted reductions, Congress before adjourning is likely to cut appropriations by more than \$5 billion. It is highly doubtful that these reductions will translate into cuts of anywhere close to \$1 billion in the \$98.8 billion spending budget.

In fact, it is not inconceivable that actual spending during the 12-month period ending next June 30 will rise above the \$98.8 billion which Kennedy budgeted last January. The first true indication of the impact of Congressional action on this budget figure will come when the administration issues a revised budget estimate—several weeks after the present session of Congress has adjourned next fall or winter.

The Congressional budgetary process is so complicated that many members of Congress have only a dim understanding of it. The confusion arises because there are two budgets:

—The spending budget which everybody talks about. This represents the President's advance estimate of the money the Treasury will spend in a fiscal year

which runs from July 1 to June 30. For the current fiscal year Kennedy last January estimated spending at \$98.8 billion. He said he would use \$42.4 billion of funds already available and requested Congress to appropriate the rest.

The appropriations budget which Congress operates on. This represents the new spending authority the President requests each year. This year Kennedy requested a total of \$108 billion in new money but said that only \$56.4 would be spent in the current fiscal year.

If Congress rubber-stamped "approval" on the \$108 billion in requested appropriations, the ad-

ministration — after spending all the \$98.8 billion Kennedy budgeted—would still wind up the end of the fiscal year next January with about \$95 billion in "unspent" funds.

Obviously, Congress by pin-pointing its cuts in the \$108 billion appropriations budget can avoid doing much to curtail the \$98.8 billion spending budget. This is what has been happening.

Democratic strategists apparently are anxious to help create a political climate favorable to passage of a tax cut and Republican budget experts apparently are not adverse to seeing this illusion created.

NEW YORK (UPI) — ABC has launched a search for contestants to appear on its new fall quiz program, "100 Grand," on which \$1,000,000 will be at stake. Wanted are persons who are experts on any subject other than their regular field of endeavor. The network invites people to write details about themselves and specialties to 100 Grand, P.O. Box 467, New York 36, N.Y. The program is scheduled to start Sept. 15, being aired 10-10:30 p.m. Sundays.

### FIRM ACQUIRED

HOUSTON (UPI)—Brown and Root Inc., announced today it has acquired Fargo Engineering Co. of Jackson, Mich., a firm specializing in hydroelectric, pumping storage and allied fields.

JUST LIKE HOME  
NICE, France (UPI) — Andre Portelatine, one of the members of Cmdr. Jacques-Yves Cousteau's recent 20-day experiment in living under the Red Sea, said Tuesday he ate and slept as though he were at home. "We are enthused about the days we lived and by the under-sea landscape we saw," Portelatine said here. "An underwater life does not present any difficulty."

### "THE LIVELY ONES" OF 1963

Last year "The Lively Ones," a summer replacement musical-variety series, earned such plaudits that it is back this year. It debuts July 25 on NBC-TV. As before, Vic Damone stars as singing host. His "permanent" dates are red-haired Quinn O'Hara as "Smitty" and blonde Gloria Nell as "Melva."

## Television In Review

By RICK DU BROW  
United Press International  
HOLLYWOOD (UPI) — The immediacy of the desegregation crisis gave unique interest to the appearance Wednesday night of Sen. Richard Russell of Georgia on CBS-TV's "Portrait," not only because of the show's content but for its tone as well.  
To no one's surprise, of course, Russell, in the half-hour interview at his home in Winder, Ga., reiterated his feeling that the present turmoil is moving in too extreme and fast a manner with the administration's approval. But perhaps most important about the half-hour was the tone that was summarized in conclusion by reporter Harry Reasoner: That in any struggle, men of goodwill of all sides are worth listening to. Russell's credentials as a respected spokesman for the position of a large part of the South are unquestionable. As Reasoner recalled, Harry Truman once said of Russell that he might well have been presidential material if he had come from a different part of the country—since geography has a good deal to do with the selection of candidates.  
Thus, "Portrait" fulfilled an ur-

gent function of television in the desegregation hassle: The presentation of spokesmen of all sides in a setting of rationality, so that as much bitterness as possible is allayed in efforts to keep a national tragedy from getting out of hand. Thus, also, Reasoner's morning "Calendar" show for next Tuesday offers a report by an analyst on a survey of Negro opinion in the United States.  
There was also a personal and very human side to Wednesday night's fine interview. Russell, 65, recalled the more formal nature of the Senate 30 years ago: First names, he said, weren't used. He spoke fondly of his hard-working mother, who made garments for her 13 children, wrote to them every week when they were away, and acted as doctor and nurse as well. And, with humor, he recalled the various reasons he never married—and said that if he had it to do again, he would indeed get hitched.  
The Channel Swim: NBC-TV dropped Robert Taylor's new fall series, in which the star was to have played a worker in the U.S. Department of Health, Education and Welfare...it will be replaced by "Temple Houston," a one-hour western set against a backdrop of legal practice, starring Jeffrey Hunter...the time slot is 7:30-8:30 p.m. EDT.  
Bob Hope's new NBC anthology series will produce the first John O'Hara story ever acquired for film television. "It's Mental Work"...first published in the New Yorker magazine, and to be adapted by Rod Serling, it is set

## Chamizal Settlement Announcement Due Today

EL PASO, Texas (UPI)—Settlement of the century-old Chamizal dispute between the United States and Mexico will be announced today, United Press International has learned.  
The announcement that will transfer the area to Mexico will be made by President Kennedy in Washington and by Mexican President Adolfo Lopez Mateos in Mexico City.  
Joseph Friedkin, of the International Boundary and Water Commission in El Paso, called a press conference for 11 a.m. CST. He was expected to hand out background material on the Chamizal and give details of the long-awaited settlement.  
The U.S. is expected to give up most of the Chamizal to Mexico in return for Cordova Island, a Mexico-owned river island that juts 20 blocks into El Paso.  
Negotiators have been working out details of the settlement since in a shabby bar and concerns the efforts of a bartender and hat-check girl to gain control of the establishment after the owner's death.  
In 1911 an impartial boundary commission recommended the land be turned back to Mexico. The United States refused to accept the recommendation.  
The President and Lopez Mateos discussed the situation when Kennedy visited Mexico City June 29, 1962.  
The Chamizal — Spanish for thicket — is a section of land left on the north side of the Rio Grande when the river changed channels in 1852. It is now heavily populated and contains several schools, El Paso's only meat packing plant and a number of small business.  
The 630 acres in the Chamizal have been estimated to be worth as much as \$20 million. Approximately 4,000 persons live there.  
Former El Paso Mayor Ralph Seitsinger proposed July 19, 1962 that a new channel be dredged in the Rio Grande. He said at that time that a settlement was near.  
He said U.S. property owners would get about \$35 million in payment for the land turned over to Mexico.

## Latvian Lovely Named Miss USA

MIAMI BEACH (UPI)—Marita Ozars, a foreign-born blonde model who doesn't like to wear skimpy bikinis, was crowned the new Miss U.S.A. Wednesday night at the Miss Universe pageant.  
The 19-year-old daughter of a carpenter will join 44 foreign beauties tonight in the semifinals of the Miss Universe contest.  
The current Miss Universe, dark-haired Norma Nolan of Buenos Aires, will crown her successor in the nationally televised finals Saturday night.  
Miss Ozars, who represented Illinois in the Miss U.S.A. competition, was born in Riga, Latvia, and immigrated to the United States to escape Communist oppression 13 years ago.  
The runners up were Michelle

Betina Metrinko, 21, Arlington, Va., the Miss District of Columbia; Sandra Lee Marlin, 19, Springfield, Mo.; Rhea Looney, 19, Denver, Colo., and Francine Cheryl Herack, 19, Encino, Calif.  
Marita—"In Latvian you pronounce it Mah-reet"—said she entered, and lost, her first beauty contest when she was 16 years old. But a year later she was runner-up in a "Miss Oak Street beach contest."  
"I guess I'm getting better now," she said.  
Marita admitted being "slightly embarrassed" the first time she modeled a bikini, but said she now wears a green bikini to the beach "if there aren't too many people around."

**Governors Meet May Be Rights Battleground**  
MIAMI BEACH (UPI)—Moves were being made today to keep the National Governors' Conference which starts Sunday from becoming a stormy battleground over the civil rights issue.  
The issue which threw their 1962 conference into a revolt again is prominent this year, but the governors will be asked at an opening session to adopt a rule requiring unanimous vote on all resolutions.  
Alabama Gov. George Wallace and Arkansas Gov. Orval Faubus were reported squaring off to battle with New York's Nelson Rockefeller over the hot civil rights issue.  
Rockefeller says he plans to press the racial issue and lower the boom on states rights during the four-day conference.  
The governors are already arriving here well in advance of Sunday's opening session.

### Wall Street Chatter

NEW YORK (UPI)—“The market realizes it faces a difficult test overhead in the attempt to move above the 1963 highs of 726.96 in the Dow-Jones industrials and 176.19 in the rails,” notes Harris, Upham & Co.

Helping sentiment in coming weeks will be the second quarter reports which generally should compare favorably with a year ago. The 19-day breather on the rail strike also is encouraging.

“However, less favorable is the rumor of an increase in some interest rates,” the company says.

Bregman, Cummings & Co. says the present consolidation in the market probably has a little farther to go but should be completed without severe impairment of price levels or sentiment. The company believes the next major move “will be up.”

“Only the continued very low volume can be cited as a favorable factor as the market continues to go through this tedious process of rebuilding,” says Bache & Co. However, the brokerage house says that with the flow of second quarter earnings reports about to reach heavy proportions it would be surprised if the current correction carries much farther.

# Feasting With Panthers Russian Agent Ivanov Had Reason to Be Smiling

(Second of four dispatches.)  
By TOM A. CULLEN  
Newspaper Enterprise Assn.  
LONDON (NEA) — Commander Eugene Ivanov, 37, former Soviet assistant naval attaché in London, was no spy in the sense of microdots and cipher codes.

No, the smiling Russian naval commander was a product of what is known here as the Lenin Charm School. His assignment: to worm his way into London high society, there to pick up information and contacts which might prove useful to the Soviets.

Ivanov was sent here to construct a picture of the private lives and views of British politicians and officials. In particular, he was told to watch for sexual peculiarities or other character defects which might make these men vulnerable to Russian blackmail.

The burly Russian arrived here in mid-1960 armed with a perfect command of the English language and an unlimited expense account. He proceeded to make himself the life of every embassy party.

He drove a sporty car, ordered his suits from Saville Row, and displayed a heroic capacity for alcohol. He also proved to be a superb bridge player, once winning \$2,240 in an evening's play.

Then in the summer of 1961 Ivanov shared a mistress, attractive model Christine Keeler, with the British Secretary of State for War, John Profumo. It was this event which rocked the British government, carrying as it does grave implications of a security breach.

Ivanov revealed still another side of his many-faceted personality during the Cuban crisis last October when he suddenly dropped his genial mask for the poker face of the Soviet intelligence agent.

This should have served as a warning to members of Britain's smart set who insist upon “feasting with panthers,” or playing fast and loose with the nation's security. For Ivanov was almost certainly a full-time member of

G.R.U., the Soviet military secret service which deals with military espionage abroad.

The warning, however, was ignored, and Ivanov was as much in demand as ever at parties. In fact, the husky Russian gained quite a reputation as a wit. For example,

IVANOV AND WIFE: Wit and a heroic capacity for vodka.

he told friends that he took late lunch every day so that he could see “Watch With Mother” on television.

On another occasion when his British guide on a pub-crawling tour of London's East End got lost, Ivanov whipped out a street map on which the route from the Soviet embassy to the headquarters of Britain's counter-espionage MIS was clearly marked in pencil. This was Ivanov's idea of a joke.

Sometimes Ivanov talked too much for his own good. Once after vodka he confided his own personal solution to the Cold War problem.

“We should have a space ship,” he said, “which would circle the earth and drop a bomb... pouf... on New York; another... pouf... on Washington; another... pouf... on London; and the last... pouf... on Moscow.”

Ivanov may have been ignored by some, considered a menace by others, but to Christine Keeler he

was simply “this wonderful huggy bear of a man.”

“He was rugged with a hairy chest, strong and agile,” she recalled.

Christine met Ivanov in June 1961 and for a while shared her favors with the Russian and Pro-

sex James Bond thriller, Ivanov was something of a prude, according to Christine. He did not like fast women, objected to Christine even wearing make-up.

Ivanov, himself might have walked straight out of a James Bond thriller when he went into action during the October Cuban crisis.

“Ivanov was the one man who maintained contact between Fidel Castro's regime and the West,” declared Dr. Stephen Ward, the man who introduced Ivanov to his 21-year-old protegee.

“Ivanov, through his contacts at the Foreign Office, acted as linkman in every major diplomatic decision taken during the Cuban crisis,” Ward insisted.

That any one so minor as an assistant naval attaché would be entrusted with such a delicate diplomatic mission seems incredible to most observers here. Yet, there is no doubt that Ivanov and the ubiquitous Dr. Ward were frantically pulling wires during the Cuban crisis.

Among others they saw during the crisis were Viscount Astor, the Earl of Arran and Sir Godfrey Nicholson, a Tory member of Parliament.

In other words, Britain's “old boy” network was placed at the service of Soviet diplomacy thanks to Dr. Ward, who had, after all, influential connections.

NEXT: The Doctor With a Dog L'sh.

Although he enjoyed reading

BUGGED LITTERBUG BOX—A talking trash receptacle stops passers-by in New York's Times Square, carries on friendly conversations with them and urges them not to throw litter on the street. Known as “Lively Louie,” the receptacle is equipped with an intercom system, with a master station in an office overlooking the street, a speaker and reply microphone in the container. Some people think there's a midget inside.

### Folk Team Is Undimmed by Two-Year Schism

WASHINGTON (UPI)—Bud Dashiell and Travis Edmonson are back together, their comedy and songs undimmed by a two-year schism.

One of the original top acts in the current folk craze, Bud and Travis split in 1960 after recording four albums and pioneering folk music in clubs across the country.

“We had different ideas on material and how to present it,” Bud said.

“We were a couple of tired guitar players,” Travis added.

Now reunited, the duo has dusted off its blend of comedy and music that won it warm praise from reviewers. They also offered some outspoken comments on today's folk entertainment during a recent interview.

“There is a greater mass ignorance about folk music now,” Bud said. “It's hurt the field. Most of these groups play the best they can, but there is no effort to improve, to study music.”

“You've got the rock 'n' roll element in folk music,” Travis added. “The street performers in other countries can outplay nine-tenths of the folk groups in America.”

Both Bud and Travis draw on a long background of music.

Bud, 33, was born in Paris of a French mother — a music hall singer — and an American father.

“There was always music in our home,” he recalled. “My grand father played first violin in the Philadelphia Symphony Orchestra.”

Travis, 30, was raised in Nogales, Ariz., and began his entertainment career at the age of four in the old “Our Gang” movie comedy series.

“I was the one with all the curls,” he recalled.

They teamed up in 1958 after doing a single radio show together. At the time, Bud was playing in Los Angeles night clubs and Travis was a member of the original Gateway singers with Lou Gottlieb, now a member of the Limelitters.

Today, their own guitars are backed by the Mexican bass guitar of Carlos “Charlie” Gonzales, an expert studio musician and sometimes character actor in Hollywood.

Their music is a potpourri of American, English, Mexican and French folksongs, Broadway show

### Washington Window

By LYLE C. WILSON  
United Press International

The American people urgently need to know more of the official facts and opinions about the proposed ban on nuclear weapons tests.

It is the American people who must make the final judgment whether a test ban on the basis now proposed would be in their interest or against them. They dare not make a mistake.

Several members of the Joint Chiefs of Staff appeared early this year before the Senate Armed Services Committee. More than a fortnight ago, the joint chiefs presented to the Senate preparedness subcommittee a report on the proposed test ban treaty. They are against it.

That much has been learned. But why they are opposed and all of the questions thereto related are facts being withheld from the American people. Some of the top brass have testified before Senate groups. Their testimony likewise is secret.

Perhaps President Kennedy is being too generous in making concessions to the Soviet Union. If so, who has a better right to know about that than the American people? Three Democratic senators, all members of the armed services committee, wrote to President Kennedy earlier this year warning in substance that further test ban concessions would be unacceptable to the U.S. Senate. The text of that letter also is a state secret too.

The senators were Chairman Richard B. Russell, Ga., Stuart Symington, Mo., and Henry M. Jackson, Wash.

When such members of the President's own party become uneasy about concessions to the Soviet Union, the average American reasonably might also become uneasy. The average American citizen has been showered with massive propaganda in behalf of a nuclear test ban.

tunes with a folk flavor, and their own compositions.

Their humor includes rehearsed punchlines and ad libs, delivered rapid fire, with both performers sometimes talking at once.

Describing a folk maiden “not overly staggered by the weight of her brain,” Bud said.

“She thought Eartha Kitt was a set of gardening tools.”

“The kind of kid that thought Einstein was one beer,” Travis added.

If citizens would care to inform themselves of the arguments against a test ban on the basis now proposed, there is a good book available. Intelligent citizens will want to read this book whether they are for or against a quickie test ban. The title is “Nuclear Ambush,” by Earl Voss, published by Henry Regnery Co. of Chicago, at \$5.50. A bargain. Voss is a veteran Washington newsmen. Dr. Willard Libby, University of California, in an introduction wrote:

“Mr. Voss tells the story of the Soviet arrestation of our nuclear arms development program for three whole years—and our consequent gift of an opportunity to catch up, which they have accepted.

“The Soviet Union has been making a great development program for three whole years—and our consequent gift of an opportunity to catch up, which they have accepted.

“The Soviet Union has been making a great development program for three whole years—and our consequent gift of an opportunity to catch up, which they have accepted.

“The Soviet Union has been making a great development program for three whole years—and our consequent gift of an opportunity to catch up, which they have accepted.

# Administration Considering Possible Defense Cut Back

By JOHN A. GOLDSMITH  
WASHINGTON (UPI)—The administration, with the enthusiastic support of some congressional leaders, is taking a look at production of nuclear explosives with view to a possible cutback.

In confirming that long-range studies of military requirements are underway, the Atomic Energy Commission said earlier this month that no decisions have yet been reached. The decision, when made, could have important repercussions.

A top government official told a group of newsmen recently, in discussing possible economies in the defense program, that as much as a billion dollars might be saved by easing production of fissionable materials for weapons use.

The Defense Department later said no such extensive cut is now planned. However, the commis-

sion's July 2 announcement made it clear that new studies are being made on the question of production which has been under more or less continuous examination.

The Senate-House Committee on Atomic Energy has been interested in the production of weapons materials for some time. Committee Chairman John O. Pastore, D-R.I., raised the point with Chairman Glenn T. Seaborg at hearings early this year.

Indications are that the joint committee will intensify its interest. In its formal report on this year's AEC authorization bill the committee mentioned "its past and continuing concern with the method of establishing requirements for weapons material."

The authorization bill will give the joint committee power, in future years, to approve the commission's operating budget as well

as its new construction. The report said the lack of such authority has, in the past, impaired its ability to act on the production matter.

Annual production of nuclear weapons materials, and the related question of the size of U.S. weapons stockpiles, are of course, among the nation's highly classified secrets. Moreover, those legislators who have the information, have—in the view of one of their number—taken largely on faith the views of military leaders on production needs.

The AEC began, as early as 1959, to stretch out its procurement of uranium ores. At that time it set 1964 as target date for a cutback in power consumption at its gaseous diffusion production plants.

However, according to informed sources, the military appraisal of how much can be produced,

# AEC Wants Pantex Works

WASHINGTON (UPI)—The Atomic Energy Commission (AEC) reported today it hoped to take over the Pantex Ordnance Works near Amarillo, Tex., Oct. 1. The House and Senate Armed Services Committees gave tacit approval to the transfer of the plant from the Army to the AEC by not offering any objection prior to June 30.

The plant and improvements have a total value of \$34 million. The facility was established in 1942 as a bomb and shell loading plant.

### SNEAKY TRICK

TOPEKA, Kan. (UPI)—The school board today pulled the rug from under a time-honored alibi for students who arrive home late from school.

The board announced a new ruling requiring teachers to telephone parents if a pupil has been kept after regular classes.

EVERYWHERE YOU GO—Visitors to the nation's park lands this summer will be seeing this poster, as a reminder to carry their good manners with them on vacation. Forest Service and National Parks Service hope the poster will help them with their "appalling" clean-up problem.

## STATE GASOLINE, SALES AND CIGARETTE TAXES

(As of July 1, 1963)

THE THREE FIGURES IN EACH STATE ARE, LEFT TO RIGHT, THE GASOLINE TAX PER GALLON, THE SALES TAX RATE AND THE CIGARETTE TAX PER PACKAGE.  
(0) INDICATES THE TAX IS NOT LEVIED.

THE 2% INDIANA SALES TAX ACT HAS BEEN DECLARED UNCONSTITUTIONAL AND COLLECTION STOPPED BY INJUNCTION.

**A TAXING SUMMER**—Vacationers crossing this fair land will find more taxes, new taxes and higher taxes as they travel from state to state. Newsmag lists, by state, the three taxes which tourists are most likely to encounter: gasoline, sales and cigarette taxes.  
• Gasoline taxes: No escape in any state. Rates range from 5 cents to 8 cents per gallon, with 25 states collecting 6 cents to 7 cents and 18 states

at least 7 cents per gallon. • Sales taxes: Rates are commonly 3 per cent or 4 per cent with Pennsylvania in the lead with 5 per cent. • Cigarette taxes: Taxes per pack range from a high of 8 cents in 4 states to zero in Colorado, North Carolina and Oregon. Many areas have local cigarette taxes, too. Data is from Commerce Clearing House, a private organization reporting on tax and business law.

SHOP YOUR PAMPA MERCHANTS FOR TREMENDOUS VALUES FRIDAY AND SATURDAY

VIENNA, Austria (UPI)—More than 50,000 Bulgarians visited an American plastics exhibit in Sofia on its opening day, U.S. diplomatic sources said Wednesday.

The exhibition was first shown in Russia in 1961 and later was put on display in Romania and Yugoslavia. It opened in Sofia on July 6.

**CHARLIE GETS CHOPPERS**  
ALCONBURY, England (UPI)—The U.S. Air Force base here put its 5-year-old guard dog, Charlie, back on duty today with

56TH YEAR

THE PAMPA DAILY NEWS  
THURSDAY, JULY 18, 1963

17

a set of false teeth. Charlie lost his real teeth by chewing on concrete, wire fences and wooden posts.

**PREHISTORIC PET**—Artisans at the Disneyland shops in Anaheim, Calif., are now building prehistoric giants like this triceratops. Other realistic monsters are being reproduced to be used in the Ford Magic Skyway trip through time which will be a highlight of the New York World's Fair. The building process involves a plaster of paris cast from a clay model. Plaster sections are lined with a plastic liquid which hardens to become the hide of the beast. Admiring the completed work of sculptor George H. Snowden is Wendy Anderson, who seems to be marveling at the fork-faced fellow with the sunbonnet armor.

"Give us a corner table, Andre... we're fixing prices today."

**Brothers Found Dead in Blood Spattered House**

SAN ANTONIO (UPI)—Police entered a blood-spattered shack in San Antonio Wednesday and found Eucedo Martinez, 44, Manuel Martinez, 42, and Fulgencio Martinez, 46, all brothers, shot dead.

Each had been shot through the head with a .38-caliber revolver. Police said Eucedo, who had a history of mental illness, killed his two brothers and then himself. A medical examiner ruled double murder and suicide.

**JUST ONE ATTENDANT**  
HEMEL HEMPSTEAD, England (UPI)—Alderman Maud Hannam Clark said today it was high time this English town adopted the continental custom of having one attendant for both the men's and women's public rest rooms. Mrs. Clark said she would ask the city council to hire a man to keep a watch on both sides.

## POLLY'S POINTERS Child's Suggestion Aids Grandmother

By POLLY CRAMER

DEAR POLLY: My seven-year-old grandson was helping me scrape grass from between the cracks in our sidewalk and driveway. We were using putty knives and it was a slow and tedious job. Suddenly, he said "Grandma, do you have an old beer can opener with a sharp point?" I did and it worked perfectly. I guess the moral of my story is "and a little child shall lead them."

—N. T.  
DEAR POLLY — For cleaning pine paneling, use a SMALL amount of vinegar in the water. Wring out the rag as dry as possible before wiping off the panel. This removes the dirt and leaves a shine. (Polly's note—This would be only for housecleaning time, not weekly cleaning.)

Recently our barbecue grill broke and instead of throwing it away, I painted the legs white, filled it with soil and planted with flowers and trailing vines. This makes a beautiful outdoor conversation piece.—MRS. J. W. R.

DEAR POLLY — Paint garden tool handles in a distinctive color and then add your initials in a contrasting color to remind forgetful borrowers that the tools are on loan. For wooden handles, a hard wearing enamel is your best

choice.—MRS. C. A. H.

DEAR POLLY — My hint is for housewives who make their own draperies and want them to hang in sharp folds like those made by professionals. I hang the draperies at the window, pull them OPEN, fold down in pleats and tie a string loosely around them to hold the folds in place. Then I spray with spray starch. Let them hang for several hours before removing the strings and closing the curtains.—MRS. R. W. S.

DEAR POLLY — To save floors and make baby's rocker non-skid, line the bottom with wide adhesive tape.

With limited hanging space, attach shoe bags to clothes hampers with safety pins and hang on closets rods to slide back and forth when needed.

You must sometimes grow tired of preparing the column but we all enjoy it and watch for it so please keep on making us happy.—MRS. R. S.

DEAR POLLY — Husbands will appreciate this. My husband took a No. 10 food can and hung it from the handle of his lawn mower. The bits of paper, sticks and twigs that he has to pick up go into this can instead of into his pockets.—MRS. J. W. S.

## Ruth Millett

### Mother's 'Normal Interest' May Irritate Daughter

A bewildered mother asks what's wrong with displaying an interest in her teen-age daughter's phone conversations.

It seems she answered the telephone for her daughter and when she asked interestedly, "Who was it, dear?" When the daughter told her the boy's name the mother said: "Did he ask you for a date?" With that, her daughter lost her temper and said it was "impossible to have any privacy at home."

Undoubtedly the questions that caused the flap-up were just the straws that broke the camel's back.

It isn't likely any daughter would have become so upset over such an incident unless for a long time she had felt that her mother wasn't allowing her any privacy.

Many mothers fail to see that what they consider "normal interest" may seem like prying to their children.

Whether the interest is irritating or not depends on how it is shown. Continual questioning can seem like prying. A mother who is more diplomatic usually learns just as much about a teen-ager's doings by being ready to listen when the daughter seems to want to talk and by being interested in her confidences.

No one likes to be continually under the eye of anyone else. As children grow older, the home should become a place where some privacy is provided for all members of the family.

One pound of unshelled fresh shrimp fills one 4½-ounce can with shelled, cleaned shrimp.

### RUSSIAN WOMEN AT WORK

### U.S. VS. U.S.S.R.

### Baptist WMU Has Missions Program

The W.M.U. of Highland Baptist Church heard a program of "Changing Patterns in City Missions," for its July Royal Service program July 18, at the church.

Jr., J. D. Ellis, Maysel Butler, Tommy Stewart, Joe Bob Hudson and Belote presented the program.

The Elizabeth Garrett Circle served refreshments. An executive board meeting preceded the general meeting.

Shoes for fall will look like brogues others like sturdy oxfords with welt soles and tongues.

Look for suede to come on strong in hand stitched coats and suits for fall.

## The Clothes Poll

By HELEN HENNESSY  
Newspaper Enterprise Assn'

Dieting has become a fetish in our fair land and the stout woman is becoming the vanishing American.

It's only natural that designers and manufacturers are catering to the current crop of sylphs and anyone who takes a size larger than 35 finds it difficult to buy smart clothes.

This state creates a problem for the woman whose health does not permit her to reduce to a shadow

of herself but whose spirit rebels at being packed off to some fashion limbo.

If you are in this group, you can beat the game and help yourself to fashion with just a little know-how.

The hat you choose is very important to your over-all silhouette. A high pillbox or a turban of veiling or other soft fabric in a solid color are your best bets. Forego wide brims. They will shorten your appearance.

For daytime, a solid color two-piece suit with a longish jacket on a classic shirtwaist dress that buttons down the front is chic and slenderizing. Crepe is fashionable this fall and is a particularly good choice. You should avoid satin like Satan.

For evening wear, keep all trimming above the waistline and preferably near the face. This will call attention to the upper portion of your body and take eyes off the hips where bulk is bound to be found. Avoid lace sleeves through which large arms can be seen.

It's best to choose dresses that have no belts, but if one is needed, it should be narrow and made of the dress material.

Jewelry should be big and bulky. The length of your necklace will be determined by the neckline of your dress. A V-neckline is most flattering, but a higher style can be worn with several long strands of beads to create a slimming illusion. Never wear a choker.

Flat furs, such as Persian lamb or mink are best. Even a cloth coat should not have a bulky fur collar. You can add flair to an untrimmed coat with a fur muff or hat.

Finally, watch your hemline. It should cover your knees no matter what fashion decrees for the season.

You can achieve fashion miracles even with a limited selection if you know the right lines to wear for your figure.

Q — "I'm 17 years old and have been invited to an elegant country club dance with friends in September. I've asked my mother to lend me her ranch mink stole, but she says I'm too young for mink and should wear my own blue fox cape. I've worn this before with the same people and would love to borrow the mink. Do you think it would be too adult for me?" — Geraldine

A — Dear Geraldine: Yes, I do. The light shade of fox would be more flattering as well as more appropriate. Heaven help the working girl if she felt she shouldn't wear the same FUR twice in a row. If you don't want to wear the fox, perhaps you can buy a velvet stole. They'll be big fashion news this fall.

Please send your fashion problems to Helen Hennessy in care of this paper. While she cannot answer each letter personally, letters of general interest will be answered in this column.

NEW YORK (UPI) — New summer snacks include oval-shaped, firm-textured rye crackers with caraway seeds.

### Dear Abby....

## Young Driver Sentenced To Years Without Car

By ABIGAIL VAN BUREN

DEAR ABBY: I am a 16-year-old boy and just got my driver's license last week. My parents let me drive only to do errands. Yesterday at 3:30 p.m. my mother gave me the grocery list and the keys to the car. On the way to the store I circled the block to pick up a friend for company. There was another kid at his house who had a big heavy box of records to haul home. He only lived four blocks so I offered to drive him home. Well, after that, on my way to the store I hit a dog. Now, Abby, I wasn't going to let that dog lay there in the middle of the street, so I found the owner and took her and the dog to the vet's. To make a long story short, I got home at ten after six and now I can't drive until I'm 21. Do you think that's fair?

time. Am I being unreasonable? **SOMEBODY** DEAR SOMEBODY: You are NOT being unreasonable. Don't put your confidential matters in the hands of anyone (relative or otherwise) whose ability to keep quiet is questionable.

DEAR ABBY: My problem is this: I have a wonderful mother-in-law, and I wouldn't dream of hurting her, but I don't know what to call her. I can't keep calling her "Mrs. Smith" (not her real name). And it wouldn't be respectful to call her "Mary" (which isn't her real first name either). I don't feel like calling her "Mom" or "Mother" because that's reserved for my own mother. So what should I call her?

**TROUBLED** DEAR TROUBLED: Ask her if you may call her "Mother Whatever-her-last-name-is." Or "Mother Whatever-her-first-name-is." She'll probably be delighted to permit it. If she doesn't, call her "Mrs. Smith" and forget it.

**CONFIDENTIAL TO RICK:** If you're thinking about girls, you obviously are old enough to be thinking about girls.

What's on my mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif.

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby, Box 3365, Beverly Hills, Calif.

### Family Entertains Guests With Supper

**GROOM (Sp)** — Those attending a pot-luck supper and barbecued hamburger feast at the Ross Nix home recently were B. A. Franklin, Messrs. and Mrs. W. A. Vance of Little Rock, Ark., Charlie B. Hahn, Charles, Kay Perry and Scotty of Oklahoma City, Irl Smith and Dwayne, Willard Franklin, Perry Franklin and Jean of Pampa, Ray Purgason of Lubbock, Orville Franklin, Jerry and David, E. R. Butler, Eileen, Ricky and Chris of White Deer; Mr. Carson Dibble, Clinton, Okla., Messrs. and Mrs. C. L. Culver, Glen Smith and Donna Marie and Ross Nix.

**SAUCY SAUCER** — This perky bonnet is one of the highlights of the new Dior collection. The saucer hat, done in putty-colored velour, perches on top of the head with a slight tilt forward.

### Light Your Home With 3-Way Plan

By MARGERY McELHENY United Press International CHICAGO (UPI) — Home lighting needs require three-way planning to achieve balance.

One type of lighting may be adequate for reading or close work, but keep in mind the need for over-all lighting as well as area lighting for activities such as card playing.

Lighting experts suggest keeping lamp shades at approximately the same height in a room to attain an even atmosphere.

In scale to a large table, the top of the shade should be from 35 to 60 inches from the floor for maximum light and scale.

A slender lamp should be used on a small table for maximum harmony. The height and weight of the lamp in proportion to the table must be practical to avoid a top-heavy look.

Small lamps on large or massive-styled tables and chests are in poor scale to provide adequate reading light.

Tall, heavy lamps on pedestal tables or on small-scaled tables in front of picture windows create an unbalanced look.

The inventive homemaker can create a balanced composition with lamps as well as with pictures. Interior decorators frequently combine tall lamps with a pair of candlesticks on a buffet. In smaller areas, the balance may be achieved by using wall space pictures. Wall plaques offer needed contrast to a small lamp on a scaled-down chest.

The range of colors in lamps and shades permits an integrated design theme in combination with the basic color scheme of a room. A lamp in a single sharp color is a functional accent piece in a beige or gray-toned room.

### Old Settlers Reunite At Panhandle Meeting

**CANADIAN (Sp)** — A record-breaking crowd of 228 Panhandle old settlers registered July 11 for the annual Old Settlers Reunion here. More than 300 were present for the buffet luncheon served by the Chamber of Commerce.

Last year's registration at the Old Settlers Reunion was 177.

Ike Simpson of Canadian received the award for being the oldest old settler. He was born here, near Old Mobeetie in 1884. Ike was out-ranked by his elder half-brother, H. M. (Herz) Wood, who was born in the Panhandle in 1880, but judges declared Wood — winner of the award last year — ineligible to compete this year.

The award for the oldest old timer travelling the greatest distance to attend the reunion this year went to Zeb Wilhite of Dodson, Okla.

Smart and cool numbers such as this buckle-over and self-gripping casual shoe are an alternative to the traditional Oxford, the staple in most men's closets.

### The Mature Parent Childhood Punishment Continues For Years

By MRS. MURIEL LAWRENCE

One day when Cora was 7 she displaced her mother. She hit her little brother for pouring water into her doll carriage. As a result, she was sent to bed. Her mother, making her undress and get into bed said angrily, "No, you can't get up for supper. I don't know when you can get up. You can just stay there until I'm ready to let you up."

At first Cora just felt hate for her mother. But as the day lengthened, the threat of permanent confinement to a space the size of her bed became real and frightening. She thought, "If you displease someone, it is clear that you lose room to move around in. You get squeezed back into a space no bigger than this room, this bed."

But when her punishment was ended the next morning she forgot this conclusion engraved into her mind by overpowering fear. Twenty years later, it still controls her responses to displeased people.

This afternoon when her own little girl came into complain that a neighbor's child had just called

her a nasty name, she cried, "Why do you stay out in the yard when Janey comes into it? How many times have I told you to run into the house when you see her coming? You know what nasty tongue she has..."

But Cora's habit of surrendering space to displeased people isn't limited to her front yard. She surrenders room for her opinions, too, as soon as they are challenged. If

### New Masculine Shoes Shape Styles Into 'Breathing' Plastic

By HAROLD SHEEHAN Newspaper Enterprise Assn. NEW YORK (NEA) — As late as 1850 every man could be accused of having two left feet. Fact is, he had two right feet as well, since there was no difference between either shoe. Breaking shoes in back in those days was slightly more difficult than getting a suit of armor to drape correctly.

Then some alert shoemaker chanced to look down at his own bare feet one day, noticed a distinction, and we know the rest of the story.

Mens' shoe styles change slowly and slightly. So, don't throw away your black shoes when we tell you that brown is coming strongly into the picture.

Shoe manufacturers have been trying for years to push what is known as high-fashion lines. But the American consumer generally is conservative when it comes to buying shoes. The wing tips and the traditional Oxford continue to dominate the scene—despite the introduction this year of a variety of smart models, including buckle-overs and self-gripping casuals.

The biggest shoe news on the horizon is the advent of plastic shoes. It should come as no surprise to all of us who have been wearing what amounts to plastic clothes for many years.

A major chemical firm has concocted a substance which it calls

a neighbor objects to her opinion of their PTA president, she feels so uncomfortable that she at once tries to withdraw it. If a tradesman is displeased by the suggestion that he has shortchanged her, she laughs uneasily and says, "Oh well, let it go." On these occasions she feels a strange impatience with herself. But she doesn't connect these humiliating experiences with the old 7-year-old conclusion that equated displeasing people with retreat from space.

Corfam. Shoes made from this material will start hitting the markets in the spring of 1964.

Shoes made from the new product, it is said, are scuff resistant, do not have to be shined (simply wiped with a wet or dry cloth), have the ability to "breathe," and wear like mad.

It could be the biggest shoe news since they found out about those right and left feet.

Hold it! Don't throw away that wornout pillowcase. You can cut it to size and use it in baby's crib. Tuck the pillowcase around the top of the crib mattress. Then if baby bubbles, you do not need to change the entire sheet.

### Drop in Red Ink Spending Spurs Tax Cut Hopes

WASHINGTON (UPI)—A sharp cut in government red-ink spending today buoyed prospects for House approval of the income tax cut President Kennedy wants.

Kennedy announced the good news Wednesday. He told a televised news conference that the government wound up the fiscal year on June 30 with a budget deficit \$2.6 billion less than he had predicted last January.

nedly administration — was \$6.4 billion.

Kennedy coupled the announcement with a renewed plea for passage this year of a \$10 billion cut in income taxes for individuals and corporations.

#### BOATS WERE WARNED

EASTBOURNE, England (UPI)—All shipping in the English Channel was warned Wednesday night to watch out for a floating depth charge.

The warning came after a high-explosive depth charge was picked up in a trawler's net off Beachy Head, near here.

### Sadler Cleared of Income Tax Fraud

AUSTIN (UPI)—Land Commissioner Jerry Sadler said Wednesday he has been exonerated of any fraud on income tax reports for the years 1954-1957.

Sadler said he received a federal tax court decision which said that instead of owing more than \$125,000 in back taxes for the period, he actually owes \$6,778.93.

The Internal Revenue Service (IRS) had contended Sadler owed the back taxes and penalties in a three-day civil hearing before Federal Judge Howard A. Dawson in Fort Worth May 9.

The ruling said the government owed Sadler a total refund of \$8,227.38 and that Sadler owed back taxes of \$14,995.14.

"The judgment threw out all fraud penalties and showed refunds due in the years the government attempted to collect fraud penalties," Sadler said.

### Ultra Violet Light, Electric Eye Help Post Office

Ultra-violet light has teamed up with photo electric eyes for high-speed mail sorting, according to Pampa Postmaster O. K. Gaylor.

Gaylor said today Postmaster General J. Edward Day has announced the beginning of field tests Aug. 1, in Dayton, Ohio, in which envelopes bearing airmail stamps printed with special luminescent ink will be separated from untreated mail at an over all rate of 30,000 per hour.

A small black box added to the Mark II facer-cancelling machine will "recognize" and separate specially-treated airmail stamps in the field tests. Engineers said the modification is relatively inexpensive. It was conceived and is being developed by Post Office Department research scientists working in conjunction with the National Cash Register Co., Dayton, Ohio, and climaxes experiments that have been going on for more than

three years.

Estimates are that the ultra-violet sensing device will save an average of one-half hour in the dispatch of airmail. It also eliminates at least one manual sorting operation.

Development of a facer-canceller, which went into operation in 1960, eliminated, for major cities, a slow and expensive hand-sorting operation. Before mail could be fed into old-style cancelling machines, postal clerks had to "face" the jumble of mail coming out of pouches so that all envelopes were arranged on trays with stamps in the same position. The facer-canceller uses photo-electric cells to "search-out" stamps in any of four possible combinations of positions of a letter passing through the device. Letters can be fed into the facer-canceller with stamps upper right or upside down (lower left), backwards with stamps lower left or backwards upper right.

Photo-electric eyes permit all letters with stamps in a common position to be sent into its proper channel. A fifth channel is for rejects — mail without stamps, metered mail which is too lightly inked to activate the photo-electric cells, stamps on colored envelopes that do not provide enough contrast, and for other reasons. About 14 per cent of mail currently going through the facer-canceller ends up in the reject channel. The facer-canceller is not foolproof but it is a time and money saver, Postmaster Gaylor said.

Collectors desiring first-day cancellations of the luminescent-tagged 8-cent airmail stamp may send addressed envelopes, together with remittance to cover the cost of the stamps to be affixed, to the Postmaster, Dayton, Ohio, 45401. Each envelope must be marked, in pencil, in the upper right corner indicating the number of stamps to be affixed (singles, pairs, blocks, etc.). Requests for first-day covers should NOT be sent to the Philatelic Sales Agency, Washington, D.C.

An enclosure of medium weight should be placed in each envelope and the flap either turned in or sealed. The outside envelope to the Postmaster should be clearly marked "tagged stamp." Collectors are cautioned that orders for first-day covers must not include requests for uncanceled stamps. Cover requests must be post-marked not later than August 1.

# Foreign Commentary

By RAY J. MOLONEY  
BEIRUT, Lebanon (UPI)—Signs have appeared of a possible rising tide against the Baath party control in Syria and Iraq, both locked in a bitter ideological

conflict with U.A.R.'s President Gamal Abdel Nasser. Syria is now deep in a political crisis which has seen its Baath government maneuver repeatedly to avoid an open clash with the non-Baathists.

Iraq recently announced the crushing of "a vile Communist plot," but the reports reaching here indicate that the plotters were by no means only Communist.

In both Iraq and Syria observers believe the trouble stems from Baath insistence on placing its own men—however inexperienced—in key positions. This policy is claimed to be fostering a steadily increasing anti-Baath attitude in the civil serv-

ice and the armed forces, where seniority has sometimes been ignored.

Had Strong Following  
The Syrian crisis began last month with a Baathist bid to clip the wings of Defense Minister Ziad Al Hariri, a man with a strong personal following in the army, by transferring abroad or discharging a number of his close army associates.

Hariri battled the move bitterly.

But the National Revolutionary Council stripped Hariri of his post and sent him to European exile July 1.

The failure of the Baath to grant adequate representation to Syrian Nasserite elements in the post-coup cabinet sparked the crisis and put in doubt the establishment of the tripartite United Arab federation of Iraq, Syria and Egypt.

The reasons for the clash are complex. Both support Arab na-

tionism and Arab unity but they differ diametrically on who should lead this part of the world.

Factor In Uprising  
No such figure as Hariri yet exists in Iraq. But there the anger against the "Baathization" of the army appears to have been a major factor in the recent brief uprising at the strategic El Rashid military camp outside Bagdad, according to reports received here through diplomatic channels.

The camp contains a large

number of Communist and Kurdish prisoners, and the reports claim that most of these were released and armed by dissident army units in preparation for a march on Bagdad.

Something like two-thirds of the Iraqi army is presently engaged in the campaign against the Kurdish nationalists in the north. Any serious trouble in the re-

# Texans Will Get Double-Dip Hike on Car Insurance

**By VERN SANFORD**  
Texas Press Association  
AUSTIN (Sp) — A growing toll of accidents on city streets and freeways, heavier damage claims and an act of the Legislature, all have combined to cause insured motorists in Texas a double-dip premium increase during the next five months.

First boost for most drivers will come on policies renewed after August 1, when new auto insurance rates set by the State Board of Insurance go into effect.

Many others face a second increase in liability insurance premiums

after January 1. This is effective date of a new law requiring responsibility of \$10,000 per person and \$20,000 per accident.

Present law requires \$5,000-\$10,000. So those now carrying minimum insurance will pay an average of \$4 more after January 1.

Increasing accident losses, mainly in urban areas, forced the Insurance Board to hike liability and collision rates in most sections of the state.

Average premium boosts after August 1 will be 5.2 per cent for bodily injury, 9.7 per cent for property damage and 8.4 per cent

for collision. This will cost policyholders a total of \$12,000,000. Drivers in some rural areas, however, escaped the rate increase.

**PHYSICAL EDUCATION**—Atty. Gen. Waggoner Carr has been asked to come to the aid of hard-pressed physical education departments in the 20 state-supported universities and colleges.

Commission on Higher Education asked Carr for an opinion on the legality of the "rider" in the new appropriation bill, which goes into effect on September 1. Rider declares that state funds for physical education can be used only for mass calisthenics unless the students are majoring in PE. Net effect would be special fees charged by the schools if they wanted to give instruction in games.

Some schools have protested that the rider would seriously curtail physical education programs.

**JOBS ASSIGNED**—Speaker Byron Tunnell has more than 60 appointments to make on interim study committees. He is making them at the rate of one or two a week.

Reps. George Cook, Odessa; J. Collier Adams, Lubbock; Maurice Duke, Wichita Falls; George Hinson, Mineola; and Ben Jarvis, Tyler, will study the oil and gas industry. Their assignment is no small chore, how to restore prosperity to the Texas oil industry.

Reps. Ben Atwell, Dallas; Dick

Cory, Victoria; and David Crews, Conroe, will take up membership on the Committee on State and Local Tax Policy. Lt. Gov. Preston Smith has named Senators George Parkhouse, Dallas; W. T. Moore, Bryan; and Jack Strong, Longview. Balance of the committee will be composed of three citizens to be named by Governor Connally.

Reps. W. H. Miller, Houston; Myra Banfield, Rosenberg; Raleigh Brown, Abilene; Charles Soggins, Corpus Christi; and John Traeger, Sequin, will investigate public school testing.

Rep. Bob Fairchild of Center has been named chairman of the House General Investigating Committee by Speaker Byron Tunnell. Other new members are Reps. Ben Barnes of DeLeon, Hudson Moyer of Amarillo, Bill Parsley of Lubbock and James Slider of Naples.

Previous investigating committee's probes ranged from alleged basketball game fixes to the East Texas slant-hole scandal.

**MENTAL HEALTH** — National Institute for Mental Health has awarded a \$302,000 grant to the State Hospital Board for research and training in mental health.

Houston State Psychiatric Institute received a grant of \$114,878 for research in early clinical drug evaluation.

Remainder of the funds went to Baylor University College of Medicine for various research projects.

**AFL-CIO LOSES** — A suit by State AFL-CIO leaders alleging improper lobbying activities by Texas Employment Commission members and four employees was

dismissed in 33rd District Court at Austin.

Suit, filed last February, claimed TEC pushed 11 pro-employer bills in the Legislature. Judge Herman Jones said the union failed to prove its case.

Union said it would appeal the decision.

**COTTON**—Texas cotton farmers planted 670,000 fewer acres this year than in 1962, U.S. Department of Agriculture reports.

Decline amounted to 9.7 per cent, which is more than the national decrease of 9.0 per cent. Reduction, made in compliance with the federal control program, would mean a cut of about 476,000 bales in the state's cotton production if yield-per-acre is the same as last year.

**POLL TAXES** — Felks who are past 60 and living in towns with 10,000 or more population should get their poll tax exemptions on October 1 or as soon as possible thereafter.

Exemptions for those over 60 are free under the old law, which will be in effect at least until November 9. That's the date for the vote on repeal of the poll tax as a voting requirement.

If Texans vote FOR the repeal, those over 60 who live in towns above 10,000 population then will have to pay a 25-cent registration fee. Ditto for all voters under 60.

Those past 60 who live in rural areas or in towns under 10,000 population will not be affected by the changes. They can vote without paying under both the old and the new law.

The attorney general informed tax assessor-collectors that they must accept the \$1.75 poll tax payments, starting on October 1, from those who insist on paying rather than waiting to see if the charge will be cut to 25 cents by the November 9 vote.

**FINAL MEETING** — At the Game & Fish Commission's last meeting, the eight remaining commissioners were presented with engraved plaques by the 2,700-member Bayshore Rod, Reel and Gun Club. Executive Secretary Howard Dodgen then presented them with gold-framed certificates for their service on behalf of the department's staff.

Those receiving the awards were Ben F. Vaughan Jr. of Corpus Christi, chairman, Howard Carney of Atlanta, Morris Higley

of Childress, H. A. Walsh of El Paso, Frank M. Wood of Wichita Falls, J. F. Corley of Houston, W. O. Reed of Dallas and Carl Dupuy of Lufkin.

Ninth member, Wilson Southwell of San Antonio, resigned last spring.

Commissioners are making way for the new 3-man Parks and Wildlife Commission. It will handle both State Parks and Game and Fish matters under the merger of the two agencies.

**SHORT SNORTS** — Texas railroads, trying to block federal court approval of the \$911,000,000 Trinity River canal project, have asked the State Water Commission to delay its feasibility hearing from July 30 to August 28.

U.S. Bureau of Roads has released \$33,438,664 in federal road funds to Texas to speed up current highway projects, aiding both the interstate highway system and other federal-aid construction projects.

Texas Commission on Higher Education elected Dr. Lester E. Harrell Jr. as its director. Harrell has been acting director since Dr. Ralph Green resigned a year ago.

**DISGRUNTLED MOTORIST**  
LONDON (UPI) — Police searched today for the disgruntled motorist who hurled part of a parking meter through the dining room window of British Transport Minister Ernest Marples.

Marples is the man responsible for the proliferation of parking meters on London's streets.

# UT Drama Dept. To Offer PhD in Drama Theatre

AUSTIN, Texas (Spl) — In September The University of Texas Drama Department will offer a new program leading to the Doctor of Philosophy degree in drama-theater.

Areas of concentration will be playwriting and drama-theater history. The term "drama-theater" refers first to the literary aspects of drama, the plays, and secondly to the physical aspects of buildings and productions.

The University will be the only institution in Texas offering the doctorate in drama. Only three other U.S. universities, with theater departments devoted entirely to drama, now offer that degree.

The new program will emphasize scholarly research and creative writing. Students working toward the Ph.D. in drama-theater history will be required to complete a dissertation. Playwriting candidates will write two long plays and a long essay or three long plays.

Dr. Loren Winship, Drama Department chairman, said only a limited number of doctoral students would be accepted at one time, with no more than 10 or 12 students in the total program.

Resources for research in drama will center in the extensive theater materials found in the University's Main Library, Hertzberg Theater Arts Library and other special collections of the Humanities Research Center. They include the Albert Davis, Messmore Kendall, Robert Downing and Norman Bei Geddes Collections; manuscripts of George Bernard Shaw, Maxwell Anderson, Arthur Miller, Lillian Hellman, Tennessee Williams and other dramatists; Spanish and Portuguese plays in the Latin American Collection, and theater and drama texts in the Miriam Lutzer Stark, E. A. Parsons, J. B. Priestley, Christopher Morley and Philip Moeller Collections.

Dr. E. P. Conkle, drama professor and resident playwright, will supervise the work of playwriting students. Directing research in theater history will be Dr. Winship (educational theater history and philosophy), Dr. Francis Hodges (history and directing), Dr. Frederick J. Hunter (criticism, analy-

# Vending Machines To Collect Tax

AUSTIN (UPI)—The Texas Supreme Court has been asked to order vending machine operators to collect the 2 per cent sales tax on all sales—even those of less than 25 cents.

Asst. Atty. Gen. W. E. Allen asked the court to overrule a decision of the 3rd Court of Civil Appeals which held that sales of less than 25 cents are exempt from the sales tax.

The suit could affect several million dollars in taxes collected before July 1, Comptroller Robert W. Calvert said.

The 58th Texas Legislature passed a law specifically exempting sales from coin-operated machines of less than 25 cents. The law went into effect July 1.

Will P. Davis of Austin, the lawyer who represented five vending machine companies, told the Supreme Court the law did not extend to tax sales of less than 25 cents. He asked that the 3rd Court of Civil Appeals' ruling be upheld.

Allen said the sales tax law really imposes two taxes: —A "bracket tax" on the buyer that only approximates 2 per cent. —A 2 per cent gross receipts tax on the seller.

"The law of averages," Allen said, "reconciles these two taxes so that the ordinary merchant pays the state almost exactly what he collects from his customers."

CLINTONVILLE, Wis. (UPI)—Four Wheel Drive Corp. has announced the purchase of the fire apparatus business of Seagrave Corp., Columbus, Ohio, for more than \$2.5 million.

# It's The Law In Texas

**THE MAYFLOW COMPACT.** From the dawn of Western thought, men like Socrates have wondered what claims the laws have on us—aside from pure force.

Some thought men had contracted to set up and obey the laws to keep the peace: "You don't hurt me and I won't hurt you." But until 1620 at least, nobody had ever seen men enter such a social contract.

True, Socrates in return for the good Athens had done for him, said that he had entered an implied, unwritten contract to obey her laws, even the unjust judgment against him to take the hemlock and die.

Still, not until the Mayflower band twenty centuries later, sailed over to settle in the new world did we get a social contract actually signed and sealed.

It comes down to us in 195 vital words, the granddaddy of all written constitutions, as well as a document in the history of liberty under the law. Its gist:

"We...do by these presents solemnly and mutually in the presence of God, and one another, covenant and combine ourselves together into a civil body politic, for our better ordering and preservation...and by virtue hereof to enact, constitute, and frame such just and equal laws, ordinances, acts, constitutions, and offices from time to time as shall be thought most meet and convenient for the general good of the colony, unto which we promise all due

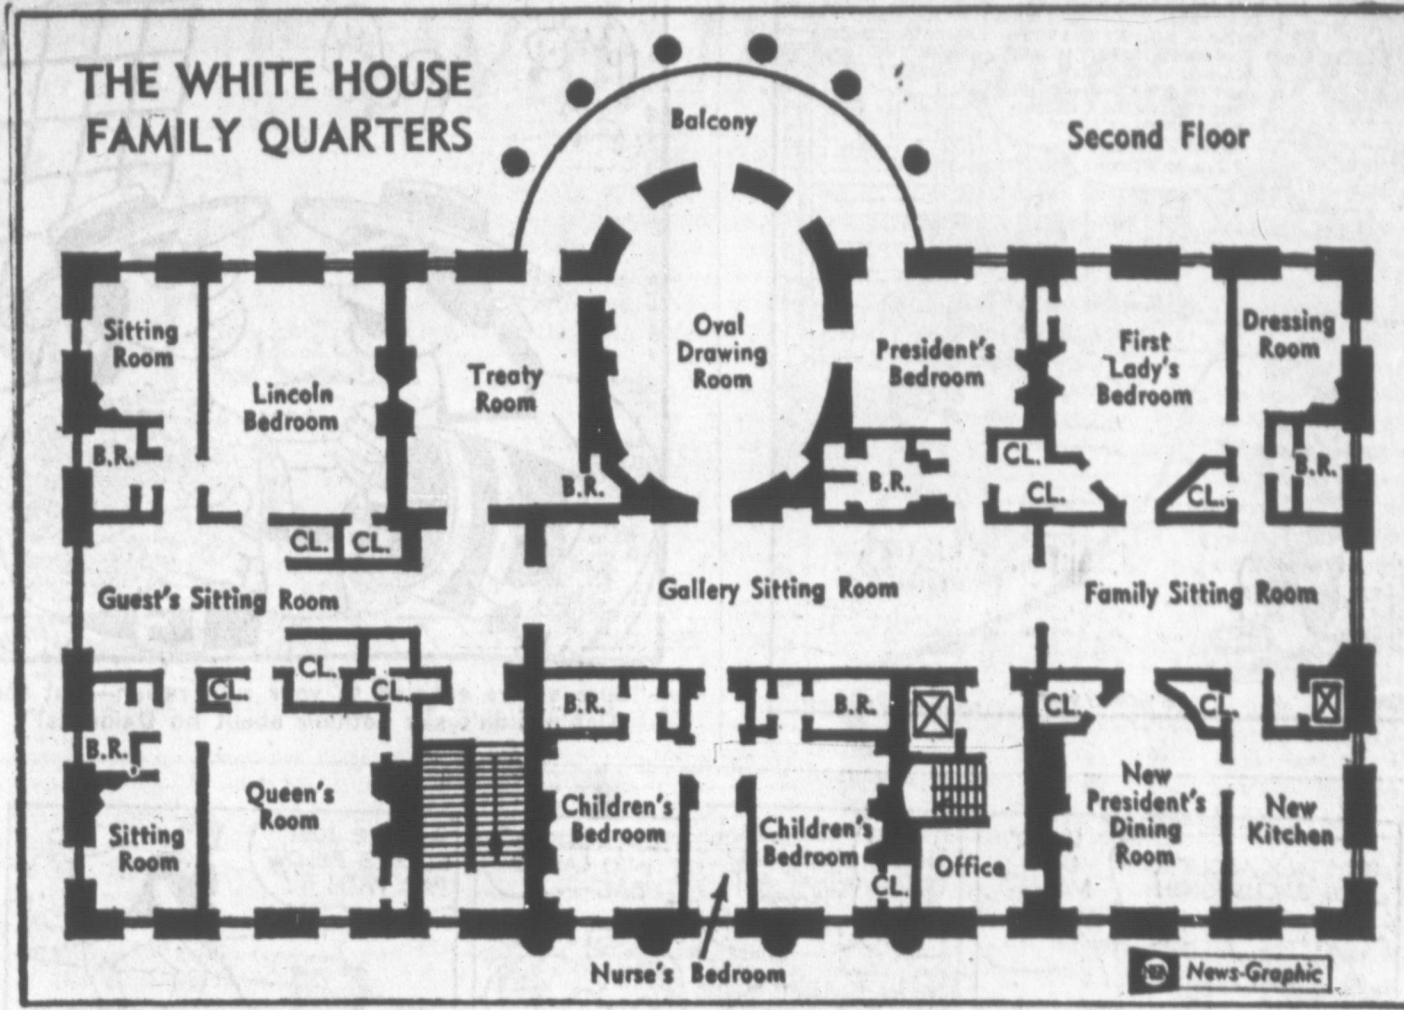

aid and history). James W. Moll (acting and directing), Paul D. Reinhardt (costume design) and John R. Rothgeb (scenic design).

submission and obedience. In witness whereof we have subscribed our names at Cape Cod on the 11 of November...

Much took place in the next 168 years. But in 1788 the new states wrote and ratified the world's first and now oldest and most successful constitution. Why do men obey the laws? It says:

"We, the people of the United States, in order to form a more perfect Union, establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare, and secure the Blessings of Liberty to ourselves and our Posterity, do ordain and establish this Constitution of the United States of America."

(This newsfeature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

**WHERE TO PUT THE BABY?**—It's getting crowded in the cabin for the nation's First Family, just as it has for millions of growing families not quite so well known. There may be 121 rooms in the White House, but the new addition due this year to the John F. Kennedy is already causing problems. Critical factor, as shown in floor plan of the private part of the White House, is placing a nursery in close proximity to nurse Maude Shaw. The First Lady's dressing room and other rooms such as the Treaty Room and Queen's Room (where five reigning queens have stayed as

guests) were ruled out because of this and because of continual traffic in corridors and sitting rooms. So for the first few months of his life, the newest Kennedy will stay in nurse Shaw's bedroom, which was formerly a 9 x 12 storage closet. Later, the baby will share a bedroom with brother John Jr. Of course, if the family had a long enough lease on the executive mansion, some of the kids could eventually move upstairs when they are older, where there are 21 more rooms and 9 baths.

# Colts Rap Roadrunners, 18-15, In League Game

The Pampa Colts batted around for five runs in the bottom of the eighth inning and then hung on for an 18-15 slugging match win over the Stinnett Roadrunners at Opti-mist Park last night.

A walk, error and Weldon Lugenbyhl's single brought in the first run for Spearman. Pampa then went wild in their half of the first, scoring seven runs on as many hits. Roy Don Stephens, Bobby Nutt, DeWayne and Jerry Glover singled, Keith Gregory hit two doubles and Harnsberger another in the big inning.

Colts bats again got cracking in the eighth inning. Gregory walked, Hill singled, Stephens sacrificed, Nutt walked to load the sacks and, with two out, Stewart singled. Jerry Glover singled and brother DeWayne cleared the bases with a ringing double to give the Colts the win.

The win makes the Colts 6-4 in Tri-State League play and keeps them in third place in the loop. Pampa hosts second place Liberal Friday night in their last regular season game before the NBC tournament at Berger next week. Pampa's first tournament game will be Tuesday night against Spearman.

Three walks and hits by Danny Slater and Jim Anderson produced three runs for Stinnett in the second inning, and they got three more in the third on three walks, two errors and Lugenbyhl's hit.

Fairly drove in two runs with a second-inning homer and a fourth-inning double and then Perranoski went to Bob Miller's rescue in a seventh-inning jam and shut out the Pirates with two hits the rest of the way. Miller received credit for his seventh win while Vern Law lost his fourth game.

PARKER SIGNS CONTRACT  
BALTIMORE, Md. (UPI) — Jim Parker, an All-Pro lineman, has signed his contract with the Baltimore Colts for the 1963 National Football League season.

### Youth Baseball

Cabot conked Celanese, 12-2 and Crail downed Highland Drug, 7-3, in last night's Optimist Youth Baseball.  
Mike Stephens was the winning hurler for Cabot, Lonnie Cox the loser, with Marshall Gamblin in relief. Stephens allowed three hits and two walks while striking out four. Johnny Carter had a homer and single and Elmer Rippetoe a homer for the winners. Jimmy Gollman and Dennis Johnson stood out defensively for Cabot and Hawkins for Celanese.  
Gary Parrish also hurled a three-hitter for Crail's win, walking four and striking out seven. Eddy Hopkins took the loss.  
Thompson got three hits for the winners. The victory clinches the Northern League pennant for Crail Products.

# Dodgers' Drive Stuns NL Foes

By FRED DOWN  
UPI Sports Writer

The Los Angeles Dodgers are operating on the theory that a hero a day will keep the contenders away.  
Sandy Koufax, Johnny Podres, Maury Wills, Tommy Davis—they've all taken their turns in the spotlight as the Dodgers have increased their National League lead to 6 1/2 games and their won-lost percentage to .620.  
And when they're not tearing up the peapatch, it seems that there's always somebody else—Perranoski.

Dodgers manager Walt Alston experienced one of his rare ejections when he protested umpire Ed Sudol's safe call at first base on a potential double play that would have taken Perranoski out of the crucial seventh. After Alston's departure, however, Perranoski went right back to work and retired dangerous Roberto Clemente for the third out of the frame.  
Two players recently recalled from the minors dealt the Giants decisive blows as Joe Christopher singled and Joe Hicks homered in the 11th for the Mets. Willie McCovey hit his 11th homer of the month—five short of the NL record for a month—and his 29th of the season while Jesse Gonder and Christopher homered for the Mets.  
The Cardinals moved into a virtual second-place tie with the Cubs on the strength of Bob Gibson's five-hit, 12-strikeout pitching and key eighth-inning doubles by Dick Groat and Bill White. Thirteen-game winner Jim O'Toole suffered his fifth straight loss and eighth of the year for the Reds.  
Joe Torre and Lee Maye had three hits each and Ed Matthews hit his 16th homer to lead the Braves' 16-hit attack which gave Hank Fisher his second win. Ellis Burton homered for the Cubs, whose three-game winning streak was snapped.  
Bob Oldis' 10th-inning single drove in the winning run and ended a three-hour and nine-minute hitfest in which the Phillies made 19 hits and the Colts made nine against a total of 11 pitchers. Wes Covington drove in five runs with a homer and a double and Johnny Callison also homered for the Phillies, who overcame an early 9-2 deficit. Pete Runnels homered for the Colts.

### Fairly Led Attack

Fairly drove in two runs with a second-inning homer and a fourth-inning double and then Perranoski went to Bob Miller's rescue in a seventh-inning jam and shut out the Pirates with two hits the rest of the way. Miller received credit for his seventh win while Vern Law lost his fourth game.

### Mathews Hits 16th

Joe Torre and Lee Maye had three hits each and Ed Matthews hit his 16th homer to lead the Braves' 16-hit attack which gave Hank Fisher his second win. Ellis Burton homered for the Cubs, whose three-game winning streak was snapped.

### Bob Oldis' 10th-Inning Single

Bob Oldis' 10th-inning single drove in the winning run and ended a three-hour and nine-minute hitfest in which the Phillies made 19 hits and the Colts made nine against a total of 11 pitchers. Wes Covington drove in five runs with a homer and a double and Johnny Callison also homered for the Phillies, who overcame an early 9-2 deficit. Pete Runnels homered for the Colts.

# Youth Movement Pays Off for NY

NEW YORK (UPI) — When in doubt, decide in favor of youth.  
That's been manager Ralph Houk's policy since he became manager of the New York Yankees in 1961 and it has paid off dramatically in the cases of pitcher Jim Bouton and first baseman Joe Pepitone.  
The ultimate payoff, barring a spectacular uprising by some American League contender, looks like a romp to Houk's third straight pennant.  
In May, 1962, Houk was faced with a choice between veteran Robin Roberts and Bouton. He decided in favor of Bouton. And last winter Houk approved the trade of veteran Bill Skowron on the grounds that he had 22-year-old Pepitone waiting in the wings.  
Both moves have paid off handsomely. Bouton has developed into a 12-game winner this season while Pepitone is hitting .288 with 15 homers. Roberts is below .500 with the Orioles and Skowron is batting .217 for the Los Angeles Dodgers.  
Pitched Seven-Hitter  
Bouton pitched a seven-hitter and struck out eight and Pepitone had a homer and a single when the Yankees whipped the Minnesota Twins, 4-0, Wednesday night before a crowd of 42,034 — the largest ever to see a baseball game in Minnesota. The loss dropped the pennant-hopeful Twins 7 1/2 games behind the front-running world champions.  
The Chicago White Sox beat the Washington Senators 8-2. The Detroit Tigers routed the Baltimore Orioles, 9-1, the Kansas City Athletics whipped the Boston Red Sox, 8-1, and the Los Angeles Angels topped the Cleveland Indians, 7-2 and 1-0, in other American League games.  
Ron Hansen hit a two-run homer and Jim Landis had three hits to lead a 14-hit White Sox attack that enabled Dave DeBusschere to win his first big league game. Hoyt Wilhelm shut out the Senators for the last two innings to preserve the rookies win.  
Hits Grand Slammer  
Gus Triandos, sixth grand slam homer of his career was the big blow for the Tigers as Hank Aguirre pitched a five-hitter for his eighth triumph. Steve Barber was tagged for three runs and seven hits in five innings and suffered his seventh defeat against 12 victories.

# Cornutt Wins For Nats With 11th Inning Double

CANYON (Sp) — Doc Cornutt doubled off the center field fence to drive in the winning run in the last of the eleventh inning and gave the Pampa Nationals a marathon 10-9 win over Fritch in the regional Babe Ruth baseball tournament.

Fritch then got three runs without a hit in the eighth inning, on two errors and a walk, and apparently wrapped up the game. Once again the stubborn Nats came back as Kimes got the first out and then lost his control, walking the bases full. Cornutt got an infield single to drive in one run and Kimes got the second out on a fly ball. Kimes got a 3-2 count on

Stephens and then issued ball four to walk in the tying run.  
Fritch got two runs in the 10th inning and again seemed to have won the game as Smith singled, Otis McCullen doubled and Everson walked three batters.  
Cornutt again was the man of the hour as he led off the bottom of the inning with a home run over the center field fence. Stevens came in and walked Chuck Cauthorn, who proceeded to come in on Jack Thompson's third hit to tie the game once more.  
Troy Edwards struck out to open the bottom of the 11th, but was safe on first as the catcher dropped the ball. Stevens then walked Gary Frasher and Everson to jam the sacks and leave no room for Big Doc. Cornutt took a 2-1 count and then belted the ball up against the wall to score the tying and winning runs.  
Fritch 2 0 0 0 2 0 3 0 2 0 — 9  
Pmp 1 0 2 0 0 1 3 0 2 1 — 10  
H. Kimes, Stevens and Smith, J. Kimes; Largin, Everson and Stephens.

The Pampa American League All-Stars will play powerful Dumas at 4:30 p.m. today in a battle of the unbeaten. The Nats will go back to the diamond wars tonight at 7:30, meeting the winner of this afternoon's Canyon-Plainview game.

## Softball League

Howard Dearing homered in the seventh inning to provide the winning margin as the Pampa All-Stars beat the Berger All-Stars, 6-5, at Lions Park last night.  
The game, a practice between two league all-star teams which will compete in the ASA Tournament in Amarillo next week, saw Berger grab an early lead, only to have Homer "Squirrel" West tie it up with a two-run double in the fifth inning, and Big Howard come through with an extra-base blow to win, the second game in a row he has pulled out of the fire that way.  
Charlie Vaughan, last of three Pampa pitchers took the win. Hard-Luck Ray Howard started, went three innings, allowing five runs, three unearned, seven hits and no walks, striking out five.  
P. D. James hurtled the fourth inning, and Vaughan went the last three, walking two, giving up two hits and striking out three.  
West led the hitting with his double and single and Garrett and Jimmy Enloe each had two hits.  
Pampa 3 0 0 2 0 1 — 6 10  
Berger 3 0 2 0 0 0 — 5 9  
Howard, James, Vaughan and James, Reid, James; Fagan, Clements and Boren.

## Harvester Tourney

Harvesters Bowl's fifth annual Women's Summer Team Tournament will be held this Saturday night, beginning at 6:30. A WIBC sanctioned tourney, handicaps will be used from the 62-63 league season, or this summer's average if there is no winter average. Prizes and trophies will be awarded.  
The tourney will be limited to 40 entries. Last year saw 24 teams entered.

### Pampan Is Transferred To Amarillo

Jim Christy, staff manager for Prudential Insurance Co. here since 1939, has been transferred to the company's Amarillo office where he will be staff manager. Christy opened the Pampa office of Prudential in August of 1939, serving the Pampa and Berger area. The Pampa staff led the entire district in Prudential insurance placed last year. Christy has been active in Pampa community affairs, presently serving as Jaycee first vice president. He also is president of the Top O' Texas Life Underwriters Association. Mrs. Christy and their three children still reside at 414 Red Deer, prior to moving to Amarillo.

CHELTENHAM, England (UPI)—Mrs. Agatha Thompson, 63, admits she is a little old for the love letter which arrived at her home Wednesday. But she wasn't too old when a former boyfriend mailed the letter 42 years ago in Banbury, less than 100 miles away. "It must have slipped down somewhere," a baffled spokesman for the Post Office explained.

## 'Disarmers' Say Ban Is Near

GENEVA (UPI)—"The point is," said the neutral diplomat, settling himself into his deck chair on the shore of Lake Geneva, "the nuclear powers will sign a test ban only when they are sure they have enough modern atomic potential on hand to destroy themselves and most of the world with them." "They obviously have this power and so the signs are that agreement on at least a partial ban is near," he continued. "What we have to keep on trying to do is to have this power steadily reduced and keep working for general disarmament, using a test ban as a major step forward." The diplomat was one of the many normally involved in the 17-nation Geneva Disarmament Conference which is now in a six-week recess, taking it easy here while the United States, Russia and Britain negotiate for a possible test ban in Moscow. Disarmament delegates who haven't gone home relax in the hot sunshine that basks beautiful Lake Geneva. "I just came in to see what the news is from Moscow. I'm off on vacation again tomorrow," one British delegation official said. Although resting, the "disarmers" also keep a careful finger on the pulse of the Moscow talks and find the recess a good time to sum up on what has been done and what the future holds. They consider the 16 months since the disarmament conference began—March 14, 1962—time well spent despite the frustration. "Aren't the nuclear powers talking?" the neutral diplomat said, smiling. If the Moscow negotiations fail, many more months of dead-end disarmament talk is predicted. If at least some success is achieved in Moscow, disarmament delegates hope impetus and encouragement will be given for agreement on greater things in the future. The disarmament problems are severe.

Four Discussion Areas There are four areas of disarmament discussion—conventional weapons, nuclear weapons, nuclear delivery vehicles and side measures to reduce tension and prevent accidental war.

The first three run hand-in-hand and conventional disarmament appears less difficult than nuclear disarmament on the basis of what has been said and proposed in the past 16 months.

The West has proposed a first stage reduction of conventional forces to 2.1 million men. The Soviets have proposed that 1.3 million men be retained. This is a small difference. Conventional forces would gradually disappear altogether in the second and third stages as foreseen by both East and West.

On the removal of nuclear weapons, things are more complicated. Basically, the West proposes in a first stage the reduction of these weapons by 30 per cent, an all-inclusive test ban and a stop to the production of fissionable material.

In the West's second stage, weapons would be reduced by a further 35 per cent and the remaining 35 per cent destroyed in the third and final stage.

The Soviets, however, want the first stage to consist only of a study on how to get rid of nuclear weapons. Moscow says all these weapons should then be destroyed in the second stage.

The Soviets thus have no third stage provisions because all weapons would have gone in the second. It is primarily this "all-or-nothing" Soviet approach which has caused the stalemate in Geneva. The West maintains that while negotiation of complete disarmament is under way—and this could take years, the arms race would continue. Therefore it is better to start on preliminary steps right away rather than wait until an entire disarmament plan is worked out.

There is also the problem of verification. Moscow refuses to allow international inspection teams on its territory to safeguard against secret testing underground or hiding of nuclear weapons and missiles. This is just another form of espionage, the Kremlin charges. The West insists on verification through inspection, saying its lack would leave an area of doubt and, consequently, mistrust.

## Oil Theft Jury Continues Study

TYLER (UPI)—A jury resumed deliberations today in a civil suit charging that H. L. (Pete) Long and other oil operators stole oil from Pan American Petroleum Corp. and Socony Mobil Oil Co.

The jury began deliberating the case at 4 p.m. Wednesday. The panel recessed until today after only one hour.

Pan American and Socony Mobil seek damages from Long, W. W. Long, Charles Stubblefield, Mr. and Mrs. George Erickson of Smyrna, Ga., and Southwestern Insurance Co. and Valley Royalty Co., both of Dallas.

Former State Sen. Wardlow Lane of Center, in final arguments, accused the defendants of "a super-colossal kind of theft."

Lane charged that wells on the defendants' lease were drilled on the slant to steal oil from beneath leases owned by the two oil firms. He said the fact they were slanted was deliberately concealed.

Defense lawyer Fred Erisman charged that Pan American was protesting Long's wells simply to cover up the fact that three wells on the company lease were slanted-drilled.

John Ford, another defense attorney, said that corrections used by Sperry-Sun Survey Co. were made so the surveys would go the way they wanted them to.

Ford, representing Stubblefield, also charged that his client would not be in court now if Pan American had told about the deviated well on its own lease.

Jack Flock of Tyler, a lawyer for Mobil, said the defense was critical of Pan American in an effort to divert the attention of the jury away from "real" issues in the case.

'GATOR BAITER—This situation at Loxahatchee National Wildlife Refuge in Florida, is not as bad as it looks. The alligator is stuffed. Small boy, Sparky Barkmann III, is just seeing what it would feel like if...

NO PROOF OF DEATH SANTA MONICA, Calif. (UPI)—A 25-year-old ambulance driver today was free of a charge of stealing \$200 from a dead man when Superior Judge Hector Bai- da upheld the defense attorney's argument that no one had proved the victim was actually dead.
