THE PAMPA DAILY NEWS, TUESDAY, NOVEMBER 12, 1963

UNITED FUND DONATION — J. E. Langley, center, traveling freight and passenger agent for Santa Fe Railway Co. is presenting a \$500 check to Clyde Carruth, drive chairman for the Pampa-Lefors United Fund Campaign. Looking on is H.V. Wilks, president of the 1963 United Fund directors. (Daily News Photo)

Donations to Fund Campaign Reaches \$42,705; Still Short

The 1963 Pampa-Lefors United Fund Drive donations were at \$42,705 today, still more than \$19,000 short of the goal of \$62,000, according to the United Fund Drive Chairman Clyde Carruth.

Total collected during the previous week was \$4,290.

A coffee is planned at 10 a.m. Thursday in Coronado Inn for drive captains and team members.

The largest donation during the last week was by Panhandle and Santa Fe Railway Co. The check was presented to Carruth by J. E. Langley, traveling freight and passenger agent of Amarillo.

In presenting the check Langley said, "We want to give to Pampa because we feel we have a large investment in Pampa."

The 100 per cent centers for the week were, Merriman and Barber, Western Auto, Security Federal Savings and Loan Association, Schneider, Bernet and Hickman, Inc., and Guy Kerbow Plumbing and Heating.

Winners of door prizes at the Friday check-in coffee were Mrs. C. R. Direkxon, Mrs. Leslie Williams, David Tucker, Mrs. R. A. Mack, Milton J. Kinneman and the Firestone Store.

Donors of door prizes were Texas Furniture, John's Pharmacy, Sears, Ideal Food No. 2, Surplus City and Loyal Davies.

Charges False, TWU Board Says

DENTON (UPI)—Charges of "unnatural sex practices" in dormitories at Texas Woman's University were false, the school's board of regents said Monday.

The board met in a special meeting called by its president, Mrs. John T. Jones Jr. of Houston.

It unanimously adopted a resolution "reaffirming faith and confidence in TWU. President Dr. John A. Guinn, the administration, faculty and student body."

A student from Port Arthur charged more than a week ago that she quit TWU because she was threatened with physical harm by other students who promoted deviant sexual activity.

Economist Says Need Of Petroleum to Rise

CHICAGO (UPI)—A petroleum economist said today domestic requirements for all petroleum products will rise for the next five years. He said a better than expected demand for gasoline was responsible.

David R. Oliver, petroleum economist for the Atlantic Refining Co., spoke at the 43rd annual meeting of the American Petroleum Institute.

He said the annual domestic gains for all petroleum should average between 2.0 and 2.5 per cent for the next five years. The requirements, he said, could be amply covered with domestic crude oil production increases of 1.5 to 2.0 per cent.

Oliver said the gasoline demand this year should increase 3.8 per cent, a substantial increase over earlier forecasts.

Dean A. McGee, president of Kerr-McGee Oil Industries Inc., Oklahoma City, said the petroleum industry must give top priority to scientific research and technological development.

"Anticipated increases in population and energy consumption offer tremendous challenges to petroleum hydrocarbons," McGee said.

"The problems can be summed up in one word—competition, including international competition; interfuel competition; and the competition of primary, secondary, and stripper-well production for the domestic market."

Commissioners Act On Payment of Bills

The County Commissioners Court approved Monday the payment of monthly bills, according to County Judge Bill Craig.

Bank Too Busy, Has to Close

TULSA, Okla. (UPI)—A new Tulsa bank, swamped with so many new checking accounts it couldn't keep up with the bookwork, remained closed today to give employees a chance to update the bank's records.

A federally appointed bank conservator, William H. Greenfield of Dallas, announced a decision Monday to keep the Southern Hills National Bank of Tulsa closed a few more days.

Greenfield, however, was quick to assure depositors that "there is no question about the solvency of the bank."

"I have found no reason for the depositors of this bank to be concerned," he said. "The depositors should be able in the near future to have all their checks drawn and cleared with no problems."

When Southern Hills opened Aug. 12, it announced that anyone who opened a checking account within two weeks would never be assessed a service charge. Within a month, the bank had 30,000 depositors, more than any other bank in Oklahoma.

Banking sources said it costs \$10 to \$15 to open a new checking account. This would mean Southern Hills was spending \$300,000 to \$450,000 maintaining accounts on which there was no income.

The flood of new deposits so overwhelmed the bank that it has been flying its daily records to a Texas bank for processing each night. Southern Hills has

US Convoy Commission Approves Issue by 3 to 2 Vote To Berlin

By EDWARD J. SHIELDS
BERLIN (UPI)—A U.S. Army convoy sent out of Berlin to test Soviet reactions passed through the two Russian checkpoints today on the 110-mile superhighway-through Communist East Germany.

The 54 men in 13 vehicles did not dismount, but an Army spokesman refused to say whether the Russians had made such a demand.

This led to the speculation that the Russians at their checkpoint at Marienborn on the East-West German border had asked the soldiers to dismount, but that the American commander had refused to comply and had won his point.

This belief was strengthened by the refusal of the Army to disclose how long it took the convoy to be cleared.

Eighty Minutes
West German customs officials on the border said they heard it took the convoy 80 minutes to clear at Marienborn.

This was about 20 minutes slower than it took the convoy to clear through the Russian checkpoint outside Berlin, where it was announced the Russians did not demand that the convoy members dismount.

An Army spokesman said the convoy members were not asked to dismount when they passed through the Russians' Babelsberg checkpoint just outside Berlin to start the 110-mile run to West Germany. He said the convoy cleared Babelsberg in about an hour.

More Passengers
There were more passengers in today's convoy than in the one blocked by the Russians on Nov. 4 and held for 41 hours.

Three Persons Killed
In Beaumont Explosion
BEAUMONT, Tex. (UPI)—A man, woman, and child believed to have been in the same family were killed today in an explosion that ripped through a home on Beaumont's north side.

Police said the victims were not immediately identified, but the explosion occurred in the 2500 block of Pine Street.

Police believed accumulated gas was touched off by a spark or flame, exploding with a noise a neighbor said "sounded like a bomb."

"If it comes from a hardware store we have it, Lewis Hdwe. (Adv.)"

Castro Executes Four Cubans As 'CIA Agents'

HAYANA (UPI)—The Castro regime today executed four more Cubans identified as "CIA agents."

They were captured while trying to land from an armed boat which sailed from Marathon, in the Florida Keys, the official announcement said.

The executed men were identified as Antonio Cobelas Rodriguez, Orlando Sanchez Saraza, Juan M. Millan Rodriguez and Jose S. Bolanos Morales. The announcement said they were captured by air force men.

According to the government, the men jumped into the water from their 20-m. cannon-armed boat when intercepted. It said their arms included carbines, tommyguns and .45-cal. pistols.

The Havana radio broadcast did not say when the attempted landing was made.

Today's executions brought to nine the number killed by firing squads in less than a week.

Five men were executed last Friday after being charged with killing a Castro militiaman.

Houston Businessman Considers Senate Try

HOUSTON (UPI)—A Houston businessman, who once bought a one-way ticket to Denmark for a socialist, said today he is considering running for the U. S. Senate against Sen. Ralph Yarborough, D-Texas.

Contractor Robert E. Nesmith said many of his friends are asking him to run against Yarborough in next year's Democratic primary.

Farmers, Ranchers Will Host Farm-City Banquet Monday

Gray County Farmers and Ranchers will host the second annual Farm-City Week Banquet in the High School Cafeteria at 7 p.m. next Monday.

Leon J. ("T-Bone") McDonald, well known as Oklahoma's Soil Evangelist will be the guest speaker. His talk will be on the subject "Man and the Land." It will be illustrated with colored slides.

J. D. Skaggs, program chairman, said "For many years members of the service clubs of the county have had their Farmer-Rancher Day programs. As farmers and ranchers we would like to turn this around and each invite at least one businessman and his wife."

Skaggs stated further, "We feel there is a great need for farmers, ranchers and businessmen to have a better understanding of one another's problems. The annual event sponsored by the Gray County Farm Bureau gives us a wonderful opportunity to say thank you to the businessmen of this area."

Tickets can be purchased from a number of farmers and ranchers. An extra supply has been left with Dolores Johnson, secretary at the County Agent's office.

The event is being held just one week in advance of National Farm-City Week, which is being recognized November 22-28.

Hearing Planned For Ex-Promoter

SAN ANTONIO (UPI)—A habeas corpus hearing for one-time Brady land promoter B. R. Sheffield has been rescheduled for Nov. 18.

Sheffield, who was sentenced to six years in prison for forgery in connection with the veterans land scandals in 1955, surrendered to Travis County Sheriff T. O. Lang Oct. 31 after his appeals to state courts were exhausted, but Federal Judge Ben H. Rice granted his application for a new hearing.

The hearing was set for Nov. 7 but was delayed at the request of Sheffield's attorneys.

Bi-District Grid Game at Pampa

The Wellington-Stratford bi-district football game will be played in Harvester Stadium in Pampa Friday night, Nov. 22. The game will be played the night before the Pampa-Borger game on Saturday afternoon.

Coaches and officials of the two schools met with Pampa High athletic director Weldon (Birdog) Trice and Chamber of Commerce secretary E. O. (Red) Wedgeworth this morning to decide final plans.

Stratford has already clinched District 1-A and Wellington 2-A. Stratford, undefeated in district play, has an 8-1 record and plays Gruver in their last game this Friday. Wellington, also undefeated in 400p play, is 7-2 on the season and finishes Friday with Canadian.

Accident Fatal Near Huntsville

HUNTSVILLE, Tex. (UPI)—The State Department of Public Safety reported today a 33-year old soldier, Sgt. Charles G. Bernales, was killed when his sports convertible drifted off Texas Highway 30 west of Huntsville and overturned several times.

Bernales' hometown was not immediately determined.

Patrolman Paul Bruno said the man might have gone to sleep at the wheel. The car rolled over repeatedly until it struck a culvert.

Yale Professor Arrested, Held as Spy by Russians

MOSCOW (UPI)—A Yale University professor, noted for his anti-Communist views, has been arrested by the Russians as a spy, the U.S. Embassy announced today.

An embassy spokesman said Professor Frederick Barghoorn, 52, a member of Yale's political science department, had been touring the Soviet Union.

The spokesman said the embassy was informed of Barghoorn's arrest by the Soviet Foreign Ministry, but it was not known where or when he had been taken into custody.

The spokesman said the embassy was pressing for further details about Barghoorn's seizure and was seeking "the opportunity of seeing him."

He is believed to have been arrested a few days ago.

The spokesman added that he had no further details and "was pressing for further information and the opportunity of seeing him."

The U.S. embassy said Barghoorn, who comes from (100 York St.) New Haven, Conn., had been seen at Tbilisi in Georgia in connection with the Robert Jenkins Clarion concert group and at Alma Ata in Kazakhstan for the opening of the American graphic arts exhibition during October.

But the embassy said it did not know of his recent movements or where he had been taken into custody. The arrest was believed to have taken place a few days ago.

Barghoorn, the embassy said, had been stationed in the American Embassy here several years ago as a press officer.

Last year, he came to the Soviet Union in connection with the visit of the Yale University chorus.

The professor is attached to the Russian studies department of Yale.

PLANNING FARM-CITY BANQUET—John L. B. Johnson, left, J. D. Skaggs, center, and Marvin Webster are shown making plans for the second annual Farm-City Week Banquet in the High School Cafeteria at 7 p.m. Monday. Leon J. ("T-Bone") McDonald, will be guest speaker. (Daily News Photo)

Library Board Eyes Loitering Problem

A problem was brought to the attention of the Lovett Memorial Library board at its monthly meeting Monday.

The board was told that students are using the library as a social gathering place in the evenings rather than a place of research and study.

A library should be a workshop where persons of all ages can seek knowledge; but the Lovett Memorial Library is filled in the evenings with noisy students who have no studying, reading, or research to do, the board was told.

They come to the library to meet their friends. Often there are as many as 80 persons there at one time and it is essential that an atmosphere of quiet be maintained in order that all can enjoy the benefits of the library, the board has found.

Last week several board members visited the library during the evening hours and found that students ignored the request of the librarian and her staff when asked to limit their activities to study.

The board is making an appeal to parents to explain to their children that the library is an important servant of this community. It was given to Pampa to serve people of every age and if some misuse it, others are deprived of their rights. The board hopes that by explaining the situation to all, that the trouble can be corrected without more strenuous measures than this warning.

Obituaries

Harry Overton
McLEAN (Spl) - Funeral services for Harry Overton, 77, will be held at 2 p.m. tomorrow in the First Methodist Church of McLean. Burial will be in Hillcrest Cemetery.

Born in Jacksboro, Mr. Overton died yesterday noon near his home in McLean where he moved in 1959.

Survivors include his wife, Cora of the home; one son, Albert Overton of Mt. Vernon; one daughter, Mrs. Dora Mae James of Amarillo, and three grandchildren.

Mrs. Irene Barber Beesley
Funeral services will be held Wednesday afternoon in Wheeler under the direction of Kirk Funeral Home for Mrs. Irene Barber Beesley, 65, who died Tuesday in a Pampa hospital.

She was born in Oklahoma City, formerly lived in Wheeler and had been a resident of Pampa for two years.

Survivors include her husband, Earl R. Beesley, 927 Love St.; daughter Mrs. T. M. Griffin of Pampa; four sons, James T. Beesley of Pampa, William E. and Robert Beesley of Wheeler; two sisters, Miss Nora Barber and Mrs. Gladys Slaton of Amarillo; brother, Roy Barber of Everhart, Calif.; 11 grandchildren and one great-grandchild.

Helps You Overcome FALSE TEETH Looseness and Worry

No longer be annoyed or feel ill-at-ease because of loose, wobbly false teeth. FASTEETH, an improved alkaline (non-acid) powder, sprinkled on your plates holds them firmer so they feel more comfortable. Avoid embarrassment caused by loose plates. Get FASTEETH at any drug counter.

French Conductor Leads Without Benefit of Score

By JERRY WHITTEN

It's not too late for a word or two about Georges Pretre and the Royal Philharmonic Orchestra of London in their historic visit to Pampa last Saturday night.

The brilliant young French conductor led the mighty orchestra in a program of Rossini, Franck and Tchaikowsky at the Pampa Junior High School auditorium, but the feat was that he did so without benefit of the score. Few conductors ever rely on memory.

To open the program, Pretre chose the Overture to Rossini's opera, "Semiramide." In this piece the strings played the fantastic trills in the most dazzling manner, leaving nothing to be desired.

Next, and quite appropriately, Maestro Pretre turned to the mystic French organist-composer, Cesar Franck. His Symphony in D Minor, so piously clad, evoked images of the Gothic cathedral and stained glass windows. To this reviewer, this work seems to be an ideal vehicle for Pretre; more susceptible to his particular style of interpretation.

Tschaikowsky's Symphony in B minor No. 6, Opus 74, was the concluding work. Although the composer wrote that there was "nothing that is interesting or sympathetic" in the work; and that it should be "cast aside and forgotten," Saturday night's audience would scarcely agree. This gargantuan work in a m e d "Pathetique" was later considered by the composer to be his best.

Gas Rates

paving of parts of N. Sumner St. and Decatur Ave. A contract was awarded to the Donovan Company of Dallas to supply policemen and firemen's uniforms on a low bid of \$2,000. City bills for October totaling \$8,619.87 and \$1,000.00 amounting to \$694.88 were approved for payment.

Commissioner Fort set a meeting in the commission room for 8 p.m. today to discuss the proposed closing of Thut St. between Somerville and the Santa Fe Railroad. Residents of the area affected were asked to attend.

Commissioners decided to ask cooperation of schools and business places in a growing trash problem in Pampa.

Mayor Thompson pointed out that trash has been blowing on the streets and on private property especially in the north sections of Pampa.

"The problem seems to be increasing," he said, "and before we invoke the city and state laws against litterbugs, we hope to get an educational campaign started to eliminate the practice," the mayor said.

Nixon

thin margin to Sen. John F. Kennedy in the 1960 presidential election, foresaw "no circumstances whatever" under which he might become a candidate in 1964.

He spoke at a news conference held to announce the selection as "industrialist of the year" of Charles E. Daniel, board chairman of the Daniel Construction Co., Greenville, S.C. Nixon headed the 10-man committee which chose Daniel for the honor.

Educator Blasts News Coverage By Publications

CHICAGO (UPI)—An educator said Monday he has found that news outlets are concerned chiefly with news that relates to controversies, contests and contentions.

1. Political and governmental actions. "the actions are voting contests, arguments, debates and discussions of issues," Popejoy said.

2. Past, present, future and cold wars, "all of which are based on conflict or possible conflict."

3. Scandals, arguments, charges, segregation, integration, accidents, disasters, deaths, illnesses, beauty contests, intrigues, awards, crimes, law suits, separations, "all of which involve persons who are in conflict with other persons or things."

4. Sports contests, "which include all the competitive sports."

5. "Even the funnies are based on friction, argument, intrigue and embarrassment," Popejoy said.

6. "The society pages which announce engagements and weddings are an enigma to me, but maybe they anticipate controversy," Popejoy said.

Toastmasters Meet, Issue Invitation to New Members

A desire for increased membership in the Toastmasters Club was pointed out during a meeting of the group held last night in the Coronado Inn.

John Wortman, president of the group, was in charge of the business session with Dave Osborn acting as Table Topic chairman. Topics on the list for discussion were: "The Dog," "How To Introduce A Speaker" and "Poll Tax". Secretary, Gene Boyett, read the minutes of the last meeting.

Toastmaster for the evening was Dr. Bob Syper; introducing the speakers: John Wortman, Forrest Hills and Bill Dixon. Dixon won the Best Speech award for the evening. General Evaluator for the meeting was John Darnell. Evaluators were Gene Boyett, Charlie Norton, and Jim Morning, who was voted Best Evaluator of the evening. Phil Turner was assigned Grammarian for the evening.

Convict Faces Final Attempt To Gain Freedom

AUSTIN (UPI)—Howard Pierson, 49, charged with murder in the 1935 shooting of his parents, State Supreme Court Justice and Mrs. William Pierson, goes on trial Tuesday in the final round of his battle for freedom.

The pale, bespectacled Pierson has been in and out of mental hospitals since the killing, which took place in the hills near Austin. He was found insane soon after the crime.

He escaped from a mental hospital in 1938 and worked as a magazine salesman until he was arrested in Minneapolis, Minn. in 1940.

He again walked out of a hospital in 1952 and stayed out three years before he gave himself up voluntarily.

Engine From Jet Found on Ground Near Houston

NEWGULF, Tex. (UPI)—An Eastern Airlines jet engine torn from the plane by turbulence Saturday was found Monday near Newgulf, which is about 50 miles southwest of Houston. A helicopter from Ellington Air Force Base at Houston found the battered engine in a pasture, ending a search by Air Force, sheriff's and Federal Aviation Agency personnel. The engine had dug a five-foot crater in the soft ground. FAA inspectors had the engine loaded on a truck to return to Houston for inspection.

Following the Leader

—Two familiar sights are seen in this picture: the Washington Monument and President Kennedy's helicopter. The President, with his party in the second copter, were whirling back to Washington after a visit at his home in Atoka, Va.

Adopted Infant Taken from Home

ARCADIA, Tex. (UPI)—The adopted parents of a 29-month-old girl told police Monday the natural mother and her husband took the child from them today without warning and then fled. Mr. and Mrs. E. L. Mikulenko of Arcadia swore out a warrant for the arrest of Mr. and Mrs. Dan Danvers. The Mikulenkos said the Danvers couple took their adopted child, Teresa Lynn, who is Mrs. Danvers' daughter. The couple were believed headed for Lancaster, Ohio, Mrs. Danvers' hometown. Mrs. Danvers gave her child for adoption to Mr. and Mrs. Mikulenko before the child was born, officers said.

IOCC Head Urges Oil Production Ahead of Demand

CHICAGO (UPI)—The chairman of the Interstate Oil Compact Commission yesterday charged the petroleum industry with the responsibility of placing production ahead of domestic demand. Gov. Matthew E. Welsh of Indiana spoke at the first session of the annual meeting of the American Petroleum Institute. He said the health and vitality of the finding and producing segments of the industry has a direct bearing on the nation's security. "It is difficult to understand that while the nation's demand is in excess of 10 million barrels of crude oil daily and the daily production is a little over 8 million barrels, there should be a price deterioration or market softness for domestic crude oil," Welsh said.

Quotes From The News

By United Press International
WASHINGTON—Sen. Barry Goldwater, replying to questions about his presidential primary intentions: "I never had attached the great importance to primaries that some people do. Primaries can do harm as well as good, depending upon whether the candidates concerned conduct themselves in a manner conducive to party harmony."
COVENTRY, Eng.—Rev. Francis H. Sayre, dean of Washington Cathedral, in a sermon: "The John Birch Society in the United States is but one illustration of the gopher-hole tendency of modern life."
VATICAN CITY—Ernesto Cardinal Ruffino, 75, archbishop of Palermo, Sicily, objecting to a proposal that an obligatory retirement age be set for bishops: "Some old or sick men with great virtue may do more good for the church than some healthy young men."
 The cinnamon bear is not a separate species but a dark chestnut-colored phase of the common black bear.
 Though it seems to be a single star, Polaris (the north star) actually is a system of three stars, according to the Ency-

Economics Book Is Again Target On Approved List

AUSTIN (UPI)—Two Texans have renewed their charges that an economics book recommended for use in Texas schools is slanted toward socialism. Mrs. Joan Slay, secretary of the Tarrant County Parents Committee, and Roger K. Harlan of Dallas urged the State Board of Education to strike "Economics for our Times" from the list of books approved last month by the State Textbook Committee. The board was scheduled to act on the list later today. Mrs. Slay said the book called liberal socialism a free economy. "Socialism is a malignancy," she said. "This book attempts to confuse the issue by saying there are many forms of socialism." Raps Smith's Book Harlan said Adam Smith's "Wealth of Nations," published in 1776, would be better for use in Texas schools than "Economics for our Times," which he said was "full of subtle socialism." The board refused to order a world history textbook removed from the Brownsville schools. Peyton Conway and T. E. Wright of Brownsville appealed a ruling of the local school board, contending "Men and Nations" contained serious errors about the history of Christianity. Dr. J. W. Edgar, state education commissioner, said the publisher, Harcourt, Brace and World, is preparing a new edition revising the passages objected to. Objects to Picture Conway said a picture in the book that showed tadpoles and described them as an early evolutionary form of life "is the basest form of atheism. I believe God created all life." The board rejected the appeal of Louis F. Puig Jr. of Laredo, who contended he was demoted in Laredo school system after running for mayor of Laredo. The board said Puig had not properly raised the question of possible political coercion, and left the door open for him to appeal again on that issue. Registry office of the New York Jockey Club registered 13,735 foals during 1962.

Pocahontas is said to have saved John Smith a second time by revealing an Indian plot against his life. The Continental Congress met at York, Pa., to adopt the Articles of Confederation. Philadelphia being occupied by the British. In the form of hairsprings for watches, a nickel-iron-chromium alloy costs \$50,000 a pound (100 times the cost of gold).

Foreign News Commentary

By PHIL NEWSOM
UPI Foreign News Analyst

Despite occasional differences over the treatment to be accorded Castro Cuba, United States-Mexico relations are at their highest point in years. The signs are that they are to improve still more.

The forecasts are based on the man who has been selected by the dominant Institutional Revolutionary party (PRI) to succeed Adolfo Lopez Mateos as president of Mexico in December, 1964.

He is Gustavo Diaz Ordaz, minister of the interior in the Lopez Mateos government. And since the PRI has not lost an election in more than 30 years, his election is considered assured.

As interior minister since 1958, Diaz Ordaz has cooperated closely with the United States so much so that Communists and Castroites have attacked him as "pro-Yanqui" and a leader of reactionary forces. Mexico's refusal to go along with U.S. demands for a total break with Cuba, including an economic blockade, is well known.

Less well known is the firm crackdown on Communists and Communist agitation that has been carried out within Mexico under Diaz Ordaz's direction.

Check Passengers Closely
While most passengers traveling to Cuba simply use Mexico as a way-point, all have been closely checked for years. Their photographs are taken and their passports stamped. Tons of Communist propaganda carried out of Cuba have been confiscated at the Mexico City airport.

The Mexican revolution dates from 1911 and Mexican political leaders still insist that theirs is a revolutionary state.

This in part explains Mexico's reluctance to intervene in Cuba, although it has declared international communism incompatible with free democratic institutions.

But Mexico has matured politically and its constitutional reforms given lands to previously landless peasants and spread national wealth among a growing middle class, it also has found it less necessary than some Latin American governments to exploit anti-U.S. sentiments.

Memories of U.S. occupation of Vera Cruz and the years of hard feelings which followed Mexican expropriation of U.S. and British oil companies now largely are only memories in a new period of friendly relations.

Lead In Reforms
Mexico is far ahead of most other Latin American nations in her agricultural, educational and tax reforms.

Large-scale irrigation is opening up virgin lands in northern and central Mexico. A half million dollars a day goes into public education.

Since the start of the Alliance for Progress, the United States has extended more than \$300 million to Mexico in direct loans and credits.

The fact that a single party has been able to dominate Mexican politics for so many years in no sense establishes it as a basis of dictatorship.

There is no oppression of opposition parties. They simply have not been able to dent the popularity of the PRI which draws support from all sectors of society, economic, agricultural and labor. In the elections of 1961, the pro-Communist and pro-Castro Popular Socialist party was able to muster only about 25,000 votes out of 6.5 million.

Wallace to Talk To Dallas Club

DALLAS (UPI)—Gov. George Wallace of Alabama, who clashed with the Kennedy administration last May over court-ordered integration of the University of Alabama, will address the Public Affairs Luncheon club next Monday.

Wallace, who has been touring northeastern states in a series of speaking engagements, was scheduled to arrive in Dallas next Sunday.

He bowed out of the Alabama integration issue at the university when President Kennedy federalized the Alabama National Guard.

**SCHOOLS MUST HELP 26 MILLION YOUNGSTERS
WORK THEIR WAY THROUGH THE CHALLENGING
DECADE AHEAD**

DECADE OF DECISION—Twenty-six million young people will complete some or all of the 16 years normally required for an education through the college level during the decade of the '60s. These 26 million will enter the job market to join 58 million Americans who will be already employed. • Fall 1963 enrollment in public and private schools and colleges totals an all-time high of 51.5 million students, an increase for

the 19th consecutive year. • Enrollments in kindergarten through eighth grade are 35 million; secondary schools are at 12.1 million; higher education enrollment is up to 4.4 million. • Almost 58 per cent of the population aged five to 34 were enrolled in some type of school last fall. • Americans aged 25 or over had completed an average of 11.4 grades, compared with 8.4 in 1940.

The Lighter Side

**'Virus Tennis' Ranks
As Top Winter Sport**

By DICK WEST
WASHINGTON (UPI) — In case you hadn't noticed, the season of winter sports is almost upon us once again. Soon, with a gay halloo, a large segment of the population will be participating in skiing, bobsledding, ice skating, curling, afternoon naps and that most popular of all winter games, virus tennis. Evidence extracted from hieroglyphics and from fossils of the

Phiocene period indicates that man has been playing some form of virus tennis since before the dawn of history.

And believe me it requires real dedication to begin playing before dawn.

In view of these findings, I cannot properly claim to have invented virus tennis. I believe the record will show, however, that I was the first to formulate written rules of procedure, tactics and ethics.

Starts Season Early

It might fairly be said that I am to virus tennis what Abner Doubleday was to baseball. But I doubt anyone will say it.

In my household, we do not ordinarily hold our first virus tennis tournament until after Thanksgiving. This year, however, we opened the season early to accommodate my father, who recently came to visit us.

My father lives in a climate that is still rather balmy at this time of year. He mistook the brisk autumn weather here as a sign of winter and began clamoring for a game.

He being senior among us and a guest at that, it seemed only right that we permit him to throw out the first virus.

Pairings for the first round pitted my father against my 13-year-old daughter, who is the top-seeded player in my family. It was an interesting match.

Being an old-timer, my father does not play the so-called "big game" favored by the younger set. That is, he does not try to blow his opponent off the court.

A Dogged Retriever

He is, however, a dogged retriever and can come up with viruses that would pass right by the average player.

Once my daughter adjusted to his style of play she was able to match him shot for shot, which included one penicillin and two streptomycin.

My daughter then served to my wife, who lobbed a virus in my direction even though I had not planned to enter the tournament.

Sportsman to the end, I came out of retirement and engaged in a spirited match with my younger daughter, who is just learning the game but who has picked up a lot of pointers at school.

Before you could say "pneumonia," we were all in mid-season form. All except my 2-year-old son.

He is too young to play, so he acts as "virus boy." He chases all of the viruses that the other players miss.

GETS EARLY START

WASHINGTON (UPI)—Theodore C. Sorensen, special counsel to President Kennedy, pointed up a possible 1964 presidential campaign issue Monday.

Sorensen told the Women's National Democratic Club that Kennedy had "devoted more years to major elective office than the leading three Republican candidates combined." He listed Sen. Barry Goldwater, R-Ariz., New York Gov. Nelson A. Rockefeller and Michigan Gov. George Romney.

DESTROYED — Firemen search the ruins of a house in Overland Park, Kan., a suburb of Kansas City, for the cause of an explosion that destroyed the house. Surrounding houses were badly damaged and electrical service in the neighborhood was disrupted. The occupant of the house, Hubert Gilson, was severely burned. (NEA Telephoto)

Nikita said 'Marking Time' On Foreign Policy Action

By K. C. THALER
LONDON (UPI) — Premier Nikita S. Khrushchev was reported Monday to have decided on a "time-marking" policy toward the West as well as Communist China because of pressing problems on the home front.

A high level diplomatic assessment cited strong indications that Khrushchev is turning his priority attention to mounting problems in Soviet economy, notably the crisis-ridden agriculture.

To do this the Soviet leader was believed to have set his policy course on a pause on the international fronts, because he does not want to be sidetracked from the urgent demands for putting his house in order.

Texas Democrats Preparing for Kennedy's Visit

AUSTIN — Gov. John Connally has made public the itinerary of his famous guests, President and Mrs. John F. Kennedy. They are due in the Lone Star State Nov. 21 and 22.

The Kennedys will visit San Antonio, Houston, Fort Worth, Dallas and Austin—in that order. In San Antonio the President will preside at dedication ceremonies at the Aerospace Medical Center. He will arrive at Kelly Air Force Base about 3 p.m. Nov. 21.

That evening he will attend a dinner in Houston for Congressman Albert Thomas. Next morning, Kennedy will be honor guest at a breakfast sponsored by the Fort Worth Chamber of Commerce.

At noon, he'll attend a Dallas Citizens Council and Graduate Research Center luncheon in Dallas.

Then he'll fly to Austin, arriving at Bergstrom Air Force Base about 4 p.m. That evening Gov. and Mrs. Connally will honor the Kennedys with a reception at the Mansion. Elected Democratic State officials and their wives will attend.

The assessment said there was strong reason to believe Khrushchev would now mark time for a period on any significant agreements with the West and merely keep the dialogue with the West going without making any long-range commitments on cold war issues.

Wants China Truce

At the same time, he wants a truce with Red China, apparently to take the heat off the serious conflict which has lately begun to set off worrying discussions within Communist parties worldwide.

The assessment predicted there would consequently be no significant East-West tension easing accords in the foreseeable future.

Nor did it anticipate any serious clash on the part of the Kremlin with the West, despite the latest harassment of allied convoys on the Berlin autobahn. Khrushchev was described as anxious to avoid a confrontation with the United States.

The Lost Pines of Bastrop State Park lie isolated, near Bastrop, Texas, 80 miles west of the main southern pine area of the state.

THIS IS NGPL

"... taking an active role in community citizenship."

No matter where the office or installation, NGPL is a "doer" on the local scene.

In fact—in NGPL territory—it's a tough job to find a civic or social club, a scouting or youth group, or a PTA organization in which our employees are not active. The Company itself—through contributions to worthy welfare and civic causes—helps local agencies get their jobs done.

Company-paid taxes help build schools and make other local improvements, and NGPL payrolls help support the area economy.

NGPL, as a corporate citizen—and as a neighbor, has an abiding interest in... and a desire to help... all the communities in which it operates.

ROYAL WEDDING
ATHENS, Greece (UPI)—The Greek royal court formally announced Monday night that Crown Prince Constantine and Princess Anna Maria of Denmark will wed "after Aug. 30, 1964." That is the princess' 18th birthday.
 The engagement was announced earlier this year. The sovereigns of the two countries will jointly announce the wedding date later.

Dear Abby...
Don't Take Your Hat Off... We're Eating Out
 By ABIGAIL VAN BUREN

DEAR ABBY: My husband is one of those fussy eaters who likes to complain about my cooking, but he never tells me what is wrong with it or what he would prefer. He just says, "It's lousy!" I have even gone to cooking school to learn nutrition, balanced meals and the art of interesting cooking. People tell me I am a good cook and I think I am. But what can I do with a husband who keeps telling me the dinner is lousy?

CAN'T WIN
DEAR ABBY: When your husband comes home for dinner, greet him with, "Don't take your hat off, Honey—we're eating out. And if the food is lousy you can complain to the manager."

DEAR ABBY: I am a G. I. serving in the Army very far from home. Why is it that I do not need my parents' consent to marry, but I need my Commanding Officer's consent? He refused to give it to me, and if I go ahead and marry this girl (she is a Korean) it will cost me my stripes. I don't think this is fair. I love this girl. What should I do?

G. I. JACK
DEAR G. I.: Hang on to your stripes. You've got G. I. fever. If your temperature doesn't return to normal after you get home, write me another letter. In the meantime, let your chaplain mediate.

DEAR ABBY: Happiness is knowing your parents won't almost kill you if you come home a little late. Happiness is having your own bedroom. Happiness is having your parents trust you. Happiness is getting the telephone call you've been praying for. Happiness is getting good grades and making your parents proud of you. Happiness is being included in the popular circle. Happiness is having parents who don't fight. Happiness is knowing you are as well-dressed as anybody. Happiness is something I don't have.

HERO LOSES SHOES
KUALA LUMPUR, Malaysia (UPI)—A schoolboy hero had his silver cup for bravery today but was still looking for his shoes.

Yong Peng, 18, was awarded the cup by his school for diving into a flooded house and rescuing 13 persons one after another.

He had left his shoes on a railway bridge as he went about his rescue task and someone stole them.

FIFTEEN AND UNHAPPY
CONFIDENTIAL TO "LITTLE LU": Don't go back to him unless he promises to treat you like a human being. From your description of his past behavior, I think he'd be just as happy with a dog for companionship on the week-ends.

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3385, Beverly Hills, Calif.

Hate to write letters? Send one dollar to Abby, Box 3385, Beverly Hills, Calif., for Abby's new booklet, "How To Write Letters For All Occasions".

Closed Circuit TV Will Help Return Children Lost at Fair

By PATRICIA MC CORMACK
United Press International
NEW YORK (UPI)—Children will have a chance to star on color television sets when the New York World's Fair opens. They won't get paid for their tearful performances but there's a good chance they'll get reunited with parents or baby-sitters faster once their sad expressions are flashed on television sets in the closed circuit network—300 sets in all.

The hero of the event, helping to alleviate the mental anguish of all concerned, will be the Radio Corporation of America (RCA). The electronic good Samaritan pledged to help reunite lost children with their parents—or vice versa—is the world's largest closed-circuit color television network.

Return Lost Children
 Lost children will be trooped at regular intervals before the color cameras at RCA's exhibit. The images will be telecast

over the network blanketing the fair grounds.

The broadcaster in charge will tell the parents where to go to reclaim the youngsters who got out of hand—and lost. Others besides lost youngsters will star on color television at the fair. At the RCA exhibit, for example, visitors will have a chance to see themselves both live as they stand in front of the color cameras. Later, they will see themselves on videotape as they pass television monitors placed in other parts of the building.

The see-yourself cameras already have had a fair test. It was before the color cameras at RCA's Moscow exhibit in July of 1959 that Richard Nixon then vice president of the United States, and Premier Nikita Khrushchev engaged in their now famous debate over the merits of capitalism versus Communism.

Audience Participation Shows
 In an attempt to fill the 2,000 hours that the color studio will be operated live each season of the fair, RCA also is developing a number of shows that call for audience participation.

One is a children's show that will be taped and played back later over the closed-circuit network so both participants and their parents may enjoy it.

The closed circuit network will also star visiting dignitaries from this country and abroad. They will be introduced when they arrive, so all in attendance will know which important persons are visiting the fair at the same time they are.

When there's space to fill on the color network, RCA plans to run film clips of something fair visitors couldn't possibly see any other way.

The films will show the fair under construction — starting from the time the fair grounds were just one muddy field.

Dear Kathy

By KATHY PETERSON
DEAR KATHY: I am 17 and so lonely most of the time I could cry! Strange as it seems, I have never dated. I rarely go out with girls either, except to meetings or things like that. Quite a few friends call me but just to talk. When it's time to go anywhere, I'm rarely included.

When I ask friends to my house, I feel ill at ease and it's even worse when I'm just fooling around at their homes. Until I know people well, I can't warm to them, so I have trouble making friends.

I have only one "true" friend and at times, I feel self-conscious even with her. Would more self-assurance help me? If so, how can I find it?

PATTY Mc
DEAR PATTY: To have problems and not share them—that's when people really are lonely. There are probably lots of little things that make you feel different from friends. Lack of a date life is one. When the subject of date life comes up in conversation, you have to just react with yes, no or questions because you have nothing to discuss. Anyone would feel left out.

Your clue to being happier is giving more of yourself in conversation and activities. A boy isn't going to date a frozen-faced mannequin no matter how pretty she is.

Garment Makers Are Dashing For Dots in New Spring Lines

By PATRICIA McCORMACK
United Press International
NEW YORK (UPI)—The nation's garment makers are dashing to dots for spring.

The polka dots, from dime to pancake size, made a mark during openings of spring collections by trend-setting designers in New York the last several days.

They showed in afternoon and evening dresses unveiled for buyers here from stores nationwide. But that's not all. The pace-setting designers have gone to the rainbow — and over it — blotting color as they searched for hues mostly likely to make spring, 1964, colorful.

They absorbed paint-box colors, rainbow colors, sunrise and sunset colors, man-made colors — most of them bright.

Dyes poured into the fibers in their fabric mills fed yards of goods cut, stitched and pressed into the most body-accentuating silhouettes seen in many a spring.

The fit of many styles was so tight it reminded one of wallpaper off the roll.

Calls For Dieting
 This kind of fit will call for rolling and bending and dieting for the femme who's grown accustomed to boxy jackets and overblouses and also has grown around the middle.

For after dark the fit combines with bare patches to make a look the girl watchers of America are bound to hail.

Backs, shoulders were bared. The most daring of the peek-a-boo little blacks was seen in the Luis Estevez collection.

Other trend-setting designers who leaned to the anatomy-accentuating silhouettes — best on lean women — included Larry Aldrich, president of the New York couture group.

Aldrich believes women will welcome the "body conscious" shapes. Even his suits had jackets buttoned in closely, at the waist and fitted gently over hips.

Other trends on fashion's front will be uncovered as additional designers show their collections. The big questions — which way the waistline, how low the

neckline — will be answered during the next two weeks.

Waistline Drops
 There's a tendency to drop the waistline in some collections. Herbert Sonheim, for example, showed plenty of dresses and suits with dropped waists. Some even dropped the belt to hip level on string — straight suit jackets.

Sonheim featured capes. They were slim, shell-typed capes rather than billowy ones. Highlights of other designer collections:

—Jane Derby advanced ruffles and gingham plaids as part of the move to get women out of pants at home.

—Anne Klein and Chuck Howard, of Junior Sophisticates, also hit on ruffles for at home.

But not to get the woman out of pants. Ruffles in this collection were on a green crepe overblouse that topped slim pants.

—Diana Adler, designer for George Carmel, pushed chanel-type suits in addition to ones with hip-length jackets shaped to the body.

—Designer Christian Mann, who works for Marquise, made a mark with collarless V-necklines on dresses and suits.

4-H Club Has Program On Fire Hazards

J. C. Pirkle, Assistant Fire Chief, assisted by members of the Pampa Fire Department gave a demonstration on the subject of fire hazards during a recent meeting of the Pampa 4-H Club. Thirteen members of the club were present.

The Fund Raising Committee presented suggestions for raising money to the group.

Regina Hunter and Donna Molberg received certificates for completing a Unit in cooking. Mrs. Hunter made the awards.

The club voted to have future meetings in the Production Credit Association Building. The group meets the first Tuesday of each month. The December meeting will be a Christmas Party.

Final PTA Study Course Is Slated

The last session of the PTA Study Course will meet at 9:30 a.m. Thursday in the gymnasium of Horace Mann School with St. Vincent's Catholic School as co-host.

Mrs. Gene Snell and Mrs. Forrest N. Hills, study course chairmen, have announced that this seventh meeting will be conducted in buzz sessions, giving all members an opportunity to express their views and opinions on subjects covered by speakers during the course of the program, which is entitled, "The Adult You Want Your Child to Be."

Coffee and rolls will be served during the coffee break. A nursery will be provided for pre-school children.

Some toads give off a poison from their skins and this may be strong enough to make a dog unconscious.

Planes Blamed In Bond Issue

LAKE WORTH, Tex. (UPI)—Thundering jet bombers from Carswell Air Force base today were blamed for a \$950,000 bond issue proposal for an underground junior high school. "We've been trying since 1955 to get some satisfaction from the Air Force on this noise problem," Albert E. Brown, school board president, said, "so now we're being driven underground."

British and Indian descent, was appointed commander-in-chief of the Indian army's Eastern command, the defense ministry said today.

Violator Enjoys Traffic Tickets

SYRACUSE, N.Y. (UPI)—Police Chief Patrick Murphy posted a letter on the station house bulletin board Monday from a citizen who received a ticket for disobeying a stop sign. The letter read "I have never been treated with more courtesy or respect than when ticketed by your officer. He was so courteous that he almost made me like the traffic ticket."

Education Board OKs Use of Text Under Dispute

AUSTIN (UPI)—"Economics for our Times" has been retained as an economics textbook for Texas schools. A 10-9 vote by the State Board of Education Monday rejected a proposal that the book be deleted from the list of texts because it was "slanted toward socialism."

Chairman W. W. Jackson of San Antonio cast the final vote to break a board deadlock of 9-9. Only four books from a list of 116, approved by the textbook committee, were deleted by the board.

Two Spanish books and a German text were dropped because Education Commissioner J. W. Edgar said their "content was not suitable for secondary school students."

Roger K. Harlan of Dallas and Mrs. Joan Slay of Fort Worth had requested the economics book be removed last month. An appeal to remove a world history text, "Men and Nations" also was rejected. Peyton Conway and T. E. Wright of Brownsville objected to the history book because they said it presented the Roman Catholic doctrine as fact.

Prisoner Rodeo Has Good Year

HOUSTON (UPI)—The 1963 Texas Prison rodeo made the most money of any rodeo in the long series—\$30,000 more than in the last three or four years, the Texas Board of Corrections said today. Board Chairman H. H. Coffield of Rockdale said total proceeds rose from \$72,271 last year to \$117,651 this year. Profits of the event, in which convicts ride and rope live-stock, go to health, education and recreation funds for inmates.

(NEA Telephoto)

Texan Awarded Carnegie Medal

PITTSBURGH (UPI)—William I. Duncan, a Harrold, Tex., farmer-merchant who died trying to save a neighbor from a well, has been awarded a bronze medal posthumously by the Carnegie Hero Commission. Duncan's widow will get \$80 a month from the commission as long as she does not remarry. Lawrence V. Hrnčirik, 30, fell off a ladder while cleaning the inside of a well on his farm after lack of oxygen rendered him unconscious. Hrnčirik's wife summoned help and Duncan, 43, and another man arrived to rescue him.

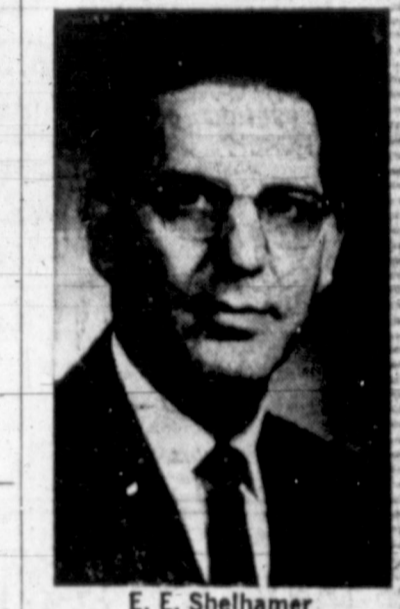

Duncan, who could not swim, was lowered on a rope. He released his hold on the rope and tried to tie it about Hrnčirik. Duncan, too, lost consciousness. Firemen finally pulled both of them out of the well. Hrnčirik recovered but Duncan had drowned. In 1910 there were only 318,088 employees in the U. S. Civil Service.

Sporting Sidelines

by JEFF COHANE

THE STUNNING ACCIDENT that took the life of Mobeetie basketball player Jimmy Ed Smith and seriously injured coach Cecil Reynolds was particularly upsetting to this reporter as I had just visited Cecil and his cagers the previous day. Cecil is one of the nicest people I have had the pleasure of dealing with in this area and it is my sincere hope and that of all Pampa and Mobeetie sports fans that he recovers soon. I want to thank all the friends who telephoned me and contacted me as soon as the accident happened. Incidentally, Birdog Trice says that Cecil was one of the best centers Pampa ever had. Get well soon, Cecil, we miss ya. Cecil will be able to receive visitors this week at Highland General Hospital.

THE OL' SWAMI'S crystal ball really had a fine polish on it this weekend, with only one incorrect game out of 19 (West Texas-NMS tied) and lo and behold! Ray Howard, who has been dragging in the dust all season, came up with an equally potent mark, both of us missing only the White Deer game. Otis the Hat Holladay picked his cleaning ticket out of it instead of a prediction this week as he got three wrong, the Big Brownie did the same and pore! Skinhead Ramsey blew the fuse on five. Holladay still retains his first place spot with 127-1, but the Swami has sliced his lead, being 122-46. Ray has burst from the cellar and climbed into the thick of things with 120-48. Smith is one behind Howard and Eural has slipped into the cellar with 117-51. Don't feel so bad, Eural. Texas Tech can't lose this week!

SPEAKING OF PREDICTIONS, it seems that several West Texas alumni and students have gotten peeved over slighting remarks anent the Buffs this season. Really, there was no intent to injure anyone's feelings. It seems that a number of the local and area coaches and many of our good friends are Buff exes and they have been laying it on hot and heavy anent the University of Houston's poor season. All cracks about WT have been strictly in retaliation and purely in a spirit of fun. Likewise the cracks about Texas Tech have been solely to rib Ray and Eural (although I will admit a small

Fight Results
By United Press International
SYDNEY, Australia (UPI) — Earl Nikora, 160, New Zealand, stopped Don Jones, 160, Australia (8).

MANCHESTER, Eng. (UPI) — Bill Pickett, 154½, New York, outpointed Harry Scott, 160½, Liverpool (10).

MARACAIBO, Venezuela (UPI) — Carlos (Morcho) Hernandez, 136, Venezuela, knocked out Joe Brown, 136½, Houston, Tex. (3).

WINS DEBUT
MANCHESTER, Eng. (UPI) — Middleweight Bill Pickett of New York made an impressive English debut Monday night when he scored a 10-round decision over Harry Scott of Liverpool in a nationally-televized fight at the Free Trade Hall.

feeling of malice... still think the Cougars should be in the SWC instead of the Raiders!

AS FAR AS this past Friday's Harvester-Sandie game, all I could say would be to repeat what coach Otis Holladay said Monday... the spark is there. I wish we could start the season all over again. Nice going, fellas, now let's hang Leo Dromgool in effigy and beat the Bulldogs!

AROUND THE AREA: The Wheeler-Claude game looks like THE area game this week... two undefeated, untied teams meeting for the district championship. This corner will still stick with the Mustangs... I picked them as a great team the first time they ever worked out and nothing has changed my mind... they have proven conclusively that they could operate successfully in a strong A league and possibly even knock off higher-classification teams as well. Photographer Phil Duncan and I are arguing bitterly over who goes to Claude and who to the Lefors-McLean shindig... Seems the 2-A coaches are all complaining that Phil stands on their side of the field and roots for Memphis!

Tommy Nichols, popular fellow employee at the News, reports that her nephew, Chuck Nichols, well-known in Pampa, suffered a head injury while playing for Phillips against Perryton. Tommy says that Chuck is in North Plains Hospital in Berger and would welcome visits from his friends.

Larry Overcast, head basketball coach at Miami, is getting the cold sweats these days. The Miami football team has been decimated by injuries and is currently down to 13 men. Larry, who puts out a basketball powerhouse every year, losing regional by two points to state champ McAdoo last year, gets shook with every injury... because they all seem to happen to basketball players! I know exactly how Larry feels... as a baseball coach whose team, almost intact, is playing varsity football, I get the shakes every time one of my boys carries the ball or makes a tackle. Worst feeling is every time the Harvesters center the ball. When a pitcher Jim Arthur sticks that money wing down amongst the cleats of the opposing team... well, Larry, I know what you mean!

THE WHITE DEER Bucks have closed out their football season and will roll into cage action next week, with the Does playing Nov. 19 and the Bucks Nov. 23. The Ol' Swami will be down to WD with camera in hand this week to see Roy Simmons' latest squad.

THE SWAMI, Phil Duncan, Cecil Reynolds and Colie Huffman have already cast their ballots for the Daily News All-Area football team, and the rest of the coaches will do so this week. The results will be announced Sunday. All players named to the first team, second team or honorable mention, will receive engraved certificates from the News... at a football or sports banquet, if feasible, or whenever circumstances permit.

Dalhart Can Cop Over Shamrock

By United Press International
Fourteen district playoff berths will be up for grabs this week when Texas schoolboy football's Class AA division grinds to a halt on the regular season schedule.

Most of them will be decided on the basis of single game showdowns, but last-minute complications may arise forcing coin flips or district committee votes in some districts.

Defending state champion Jacksboro and runnerup Rockdale head up the list of 18 teams which already have clinched playoff spots. Jacksboro will represent 9-AA and Rockdale 19-AA.

The others already looking ahead are Tulla in District 2, Muleshoe in 3, Denver City in 4, Winters in 6, Mansfield in 10, Rockwall in 11, Lake Highlands in 12, Linden-Kildare in 14, Pine Tree in 16, West in 17, Livingston in 22, Hondo in 28, Sinton in 29, Bishop in 30, Hebronville in 31 and Donna in 32.

Here's how this week's undecided districts shape up: 1—Dalhart by beating Shamrock; 5—Quanah by beating Electra; 7—winner of McCamey-Crane game; 8—Dublin by beating Cisco; 13—Paul Hewitt by beating DeKalb; 20—winner Georgetown-Taylor game; 21—Katy by beating LaGrange; 23—Liberty by beating Dayton; 24—winner of Beaumont Forest Park-Little Cypress game; 25—Sweeny by beating Missouri City; 26—winner Palacios-Hallettsville game; 27—San Antonio East Central by beating Randolph Field.

In 15-AA, Lindale, Van and Grand Saline are tied with Lindale hosting Grand Saline this week. Grand Saline could get the playoff spot by winning since it has beaten Van, but Van would get it in case of a Lindale victory unless Van loses to Canton.

McPeak Says Skins Happy

WASHINGTON (UPI)—Coach Bill McPeak denied reports today that his Washington Redskins were riddled by dissension and even dissatisfaction against the coaching staff.

A local columnist last week reported that anti-coaching sentiment existed in the squad and quoted unnamed players as criticizing McPeak and his assistants for lack of imagination and poor strategy. Inasmuch as the Redskins lost their sixth straight in St. Louis Sunday, similar rumors are expected this week.

McPeak was reluctant to discuss the specific story. But he said several players had come to him privately to give assurances that no "revolt" was brewing. One of the team's veterans told UPI "the reports are just plain baloney — no one on this team blames anyone but the player personnel for our losing."

McPeak said squad morale remained unusually high despite the Redskins' horrendous losing streak.

"As for so-called dissension, such reports are inevitable when a team is losing as we are," McPeak said. "Frankly, I don't believe them and I think the coaches would be only too well aware of a situation like that."

HARVESTERS OF THE WEEK — Kenny Hebert (left) and Ricky Goodwin tied for the honor of "Toughest Harvester" this week at today's Jaycee luncheon. Hebert won the honor as he scored all the Pampa points to pull out the win, while Goodwin played the greatest game of a great career, making 15 tackles as he was all over the field offensively and defensively. Baylor Back Elkins Threatening Records

DALLAS (UPI) — Baylor's flanker back Lawrence Elkins has joined his pass-happy teammate Don Trull in threatening national collegiate pass records.

The 6-foot 1-inch junior from Brownwood, Tex., already is at the point where every time he catches a Trull pass he breaks his own Southwest Conference receiving record.

And, Trull is in the same position each time he hits Elkins or any other receiver with a pass.

Even in defeat (7-0) against Texas, both Baylor stars made the record books with sterling performances and moved closer to the NCAA's established marks in the major college ranks.

Elkins caught 12 passes for

151 yards against Texas to boost his season total to 56 receptions for 742 yards, while Trull hit 19 of 39 for 294 yards to push his season total to 125 for 1,612 yards.

Elkins thus jumped past the conference record of 48 which had stood for nearly three decades since Jim Benton of Arkansas set it in 1937 and moved closer to the national record.

SWC Round-up

By United Press International
Darrell Royal figures if lightning has already struck twice, it can certainly strike a third time. His No. 1 team in the nation faces Texas Christian this Saturday and Royal has heard the song before.

In 1959 and again in 1961, Texas was undefeated with 8-0 records and held the number one ranking. Both years Abe Martin's Horned Frogs defeated Texas and tumbled them from the top spot. Royal said "TCU is sure bringing a better team here than they did in 1961."

Martin, who may have to face the touted Texas team Saturday without his prize full-back Tommy Crutcher, sent his team through light drills without pads Monday.

Looking Forward
"I guess I'll be looking forward to playing the No. 1 team," Martin said. Crutcher had a bruised leg and bad ankle from the Frogs' game with LSU last Saturday.

Around the rest of the conference, teams went through light Monday drills recuperating from scratches and bruises of last Saturday's games. Only coach Jess Neely of Rice ordered contact work. A dozen of the Owls top players got the day off while the reserve squads went through full scrimmages.

Neely wasn't pleased with the Owls showing in beating Arkansas last week. Owl center Malcolm Walker was badly bruised, but Neely said he'll be ready for this Saturday's game with Texas A&M.

Some Have Rest
Baylor and Texas Tech took a complete day off today. Coach John Bridgers gave his team a scouting report on Kentucky then dismissed them.

Star passer Don Trull and his target Lawrence Elkins were both injured in Saturday's contest with Texas. Trull had four stitches in his lip and Elkins had a badly bruised back.

Both will be ready for Kentucky, however.

Tech Coach J. T. King said his star halfback Donny Anderson had a charley horse. SMU, Texas A&M and Arkansas began work for their contests Saturday with light work in sweat clothes.

Texas Stretches National Lead

NEW YORK (UPI) — Texas Coach Darrell Royal has more "straights" going for him than a riverboat gambler and he's determined to play defense to the hilt to extend them.

The top-ranked Longhorns, the nation's only unbeaten-untied major college football team, were rated first by 31 of

35 coaches on the United Press International rating board Monday to increase their lead in the race for the national title.

In the process they have won eight straight games this season, 12 straight over two seasons — the longest streak in major college ranks; and have not lost in 19 straight regular season games.

Texas is seeking its third straight Southwest Conference title; its fifth straight bowl bid, its first national championship and its first perfect season since 1920. The Longhorns have been No. 1 in the country for five straight weeks.

Royal's offense has scored only four touchdowns in the last three games but his defense has shut out opponents twice and four times allowed just one score.

"Defense and sound kicking win football games," Royal maintained, and Texas has both.

For the first time this season the top ten remained intact, although there was quite a bit of shuffling.

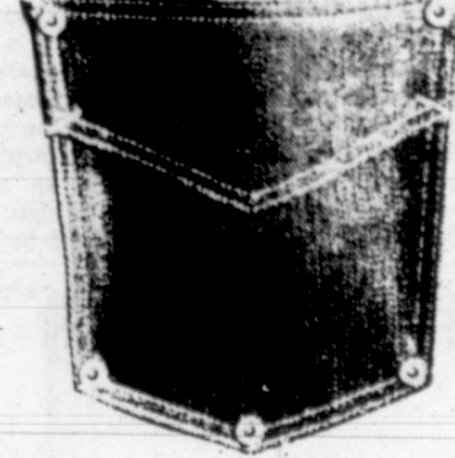

Navy cruised into second replacing Illinois; undefeated, once-tied Mississippi, en route to another Southeastern Conference crown, finished third for the third week in a row and Michigan State, leading the Big Ten, vaulted four places to fourth.

Pitt Advances
Pittsburgh jumped from ninth to fifth. Oklahoma remained sixth and Alabama maintained its seventh-place ranking. Illinois slipped to eighth after its loss to Michigan, the Illini's first of the season; Nebraska gained ninth place and Auburn, which had its perfect record ruined by Mississippi State, dipped from fifth to 10th.

Washington, winner of five consecutive games and on top in the Big Six race, moved up to No. 11; Army and Georgia Tech advanced to 12th and 13th respectively and Baylor slid to 14th from 11th. Missouri remained 15th. Penn State defeated Ohio State and replaced the Buckeyes in 16th, shoving them to 17th.

Memphis State, the only unbeaten (one tie) team in rankings along with Mississippi and Texas, shared 18th with Syracuse and Arizona State, winner of six in a row after losing its season opener.

"EACH DODGE TRUCK PUTS \$2,500 A YEAR IN MY POCKET"

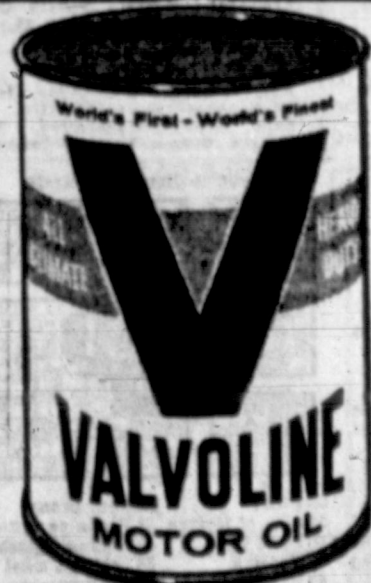

"I own three Dodge CT800's and one competitive make, all tandem dumps. The Dodges carry a ton more per load than the other make. And each Dodge uses 25 less gallons of gasoline a day. Between the added load and the gasoline savings, I figure each Dodge puts an extra \$2500 a year in my pocket. As for maintenance, my Dodges have run up to 130,000 miles without major repair. My business is hauling sand and gravel, a job that's tough on any truck!" Victor Edwards, Macksburg, Iowa. And Dodge trucks keep getting tougher all the time, because of our policy of making running improvements when they're ready, not saving them for announcement time. But in spite of their added features and saving ways, Dodge trucks are still priced lower than most of the competition, right in line with the rest. Price, plus your dependable Dodge truck dealer's liberal new-finance plan, makes a great combination. It can put a Dodge Job-Rated truck to work for you for less than you might think. Talk it over with your Dodge truck dealer soon!

Entered as second class matter under the act of March 9, 1878.

Where Are The Brakes?

How do you eliminate a program which is supported by the government when the purpose for which the program was started has been served? This is a knotty problem as the Hoover Commission discovered some years ago. While there may be pitfalls and roadblocks to the task of getting the money appropriated for a program at the outset, the taxpayers can attest to the fact that it is an infinitely more difficult task to stop the flow of dollars into a project once that project has been given official approval. A very good case in point can be found by studying the Rural Electrification Administration. Dr. W. C. Tutill, professor of Business Administration, Emory University, and Dr. John D. Garwood, professor of economics and dean of the faculty at Fort Hays Kansas State College, have combined their talents to put out a new report in this area. According to the study, REA has substantially fulfilled the purpose for which it was originally created... yet, as the reason for its continuing operation is reduced, its activities have expanded. "Considered purely as economic enterprises, within the context of a freely competitive market, the rural cooperatives have demonstrated insufficient efficiency to justify their continued support at public expense." REA was put together by Executive Order back in 1935. The Roosevelt administration handed it \$10 million and issued a command that the money be used to help bring electricity to those of the nation's farms not then receiving electrical service from some central station. This order affected nearly 90 per cent of the then existing farms. In 1939, without any stated change in purpose, the REA became a part of the Department of Agriculture. But since that time, the REA has changed its function from a primary distributor of electric current to rural users to being a primary lending agency—an agency that generates and transmits electrical power, an agency that grants a great deal of money to

Pull Up A Chair

By Frank J. Markey

Television writing is a precarious career, but not for those working for Jack Benny. His team of four writers has been with him for years. All have an equal voice in planning Benny's programs, but Jack okays every finished script. Their chief problem is keeping the show "fresh" after having written for the same characters for so many years. The only guiding policy that Benny insists upon is to avoid bad taste. They have succeeded admirably through the years.

Memory Lane: Remember when most homes were heated by coal, and one of the chores on Saturday was to sift the ashes and save the unburned coal to bank the fire overnight? It was not so long ago.

Glad to get things straight: An ophthalmologist is an M. D. who specializes in diagnosis and treatment of eye defects and diseases, is also sometimes a surgeon. Years ago he was called an oculist. An optometrist is a licensed non-medical practitioner who simply examines the eyes and can prescribe glasses to improve vision. An optician grinds lenses, fits frames, and adjusts them to the wearer. Never mind trying to write the great American novel. If you can write a readable How-To-Do-It book on almost any subject, you'll find a ready market. One of the new titles: "How To Make A Fast Buck."

Country Editor speaking: "Automation means that one machine can do the work of many ordinary men. But no machine can do the work of one extraordinary man."

Wisconsin cheesemakers plan to display a 24,000 pound cheddar cheese at next year's N. Y. World's Fair. However, it will be made in Denmark — Denmark, Wisconsin, that is. We like the attitude of that Phoenix, Ariz., jurist who delayed qualifying 400 prospective jurors for several hours so that he could join them in watching a rodeo parade. Just learned the world's deepest well is an oil well in Pecos, Texas, which goes down 25,430 feet. And, the world's largest gasoline storage tank is at Chicago with a capacity of nearly 5 million gallons. Now that Christmas is almost here you might like to know the first printed Christmas card was designed by John Calcott Horsley in England in 1843. He sold about 1000 at a shilling each. Never knew 'til now there's a difference between a post card and a postal card. The Post Office says the plain cards which they sell with a stamp printed on them are postal cards. Unstamped cards bought from a private firm and sometimes having a picture on one side are post cards.

Today's smile: A father, plagued by his teen-age daughter's constant use of the telephone, remembered a wartime slogan and posted a sign near the phone: "Is This Call Necessary?" The next day he noticed an addition pencilled on the sign: "I won't know until after I have made it."

On that controversial note, perhaps it is best to close the subject.

Rare Art Masterpiece

Few of us ever have folding money in our pockets long enough to become very well acquainted with it. And even fewer people have enough familiarity with money to have bred contempt for it. But there's a fellow in Miami, Fla., who has complained to his congressman about the \$10 bill. He thinks the obsolete car in the picture on the back gives America a bad image and certainly does not convey the idea of progress which this nation is so proud of. Actually, the street scene in front of the Treasury Building was ridiculously inaccurate even when it was engraved in 1929. There are a mere four motor vehicles and 12 pedestrians in sight. Washington hasn't been that depopulated since the British were careless with matches in 1814. However, as one Treasury spokesman commented, the out-of-date ten-spot is "a symbol of the stability of the American economy."

BERRY'S WORLD

The Almanac

By United Press International Today is Tuesday, Nov. 12, the 318th day of 1963 with 49 to follow. The moon is approaching its new phase. The evening stars are Jupiter and Saturn. On this day in history: In 1920, Judge Kenesaw Mountain Landis was appointed the first "czar" of big league baseball. In 1927, Joseph Stalin became the dictator of the Communist party in the Soviet Union as Leon Trotsky was expelled from the party. In 1948, the war crimes tribunal in Japan sentenced former Premier Tojo and six colleagues to die by hanging. In 1951, the International Monetary Fund gave Iran an \$8 million loan to meet the financial crisis caused by the loss of oil revenues.

"I'd Like to Borrow a Loaf of Bread But None of Your Lip, Please!"

Allen-Scott Report

Misuse of Contingency Funds Charged by Ellender, Morse and Gruening in Crackdown on Unlabeled Foreign Aid

WASHINGTON — President Kennedy has only himself to blame for the Senate's roughshod mauling of his multi-billion dollar foreign aid authorization bill. Startling disclosures by three Senators — Allen Ellender, D-La., Wayne Morse, D-Ore., and Ernest Gruening, D-Alaska, the last two former staunch foreign aid supporters — of fast and loose spending of tens of millions of dollars of contingency funds sparked the lashing crackdown. Denunciations of the misuse of foreign aid contingency funds had been heard before. But this time the charges were spelled out in jarring detail, and they had explosive effect. Bluntly and explicitly the three Senators accused the President and his administration of using contingency funds for purposes which Congress would not approve. In other words, instead of these funds being utilized solely for emergencies and unforeseen requirements, as Congress intended, they have been diverted to a wide variety of expenditures that could never pass congressional muster — a clear flouting of congressional will and aim. As proof, Senator Ellender cited the fact that "through March 31, 1963, out of the \$120 million that was obligated, only \$35 million actually covered unforeseen contingencies. Only \$35 million of the \$120 million was used for bona fide contingencies. The remaining \$85 million was used to correct deficits in the budgets and the balance-of-payments of various countries." Senator Morse was equally scathing in detailing the record of the "unauthorized" use of contingency funds in Latin America, as follows: "To put it bluntly," he declared, "in Latin America they are 'bail out' money. They have been used to bail out Latin American governments that have not had the courage, determination or the political backing at home to undertake the reforms required to obtain funds through the Alliance for Progress. "As I look down the list of countries that have received assistance out of the contingency funds, I am hard put to find a single one or a single purpose to which the money was put that anyone could possibly call an emergency. Balance of payment loans and budget support grants are a prominent use of contingency funds everywhere in the world. SHOCKING DETAILS — Following are highlights of the glaring misuse of foreign aid contingency funds by the Kennedy Administration as brought into the open by Senator Ellender: "I cannot name the country because it is labeled 'secret.' But millions of dollars were granted to this country to cover, and this is the official justification, 'deficit in national budget to avoid serious political disturbances which would result from the government's inability to meet its immediate expenses.' In other words, American taxpayers' money was used, without congressional authorization or review, to subsidize governmental mismanagement in a foreign country. "Seventeen million dollars was made available to our 'staunch friend and ally,' President Sukarno of Indonesia, for the same purpose; namely to mitigate serious internal financial and balance-of-payments problems. About the same time these U.S. funds became available to him, Sukarno bought some jet aircraft from Russia. By a strange coincidence, those planes cost approximately \$17 million." "From those contingency funds, a grant of \$2.7 million also was given him to equip and train a special unit of the Indonesian national police force to deal with civil disturbances. I can only wonder where this special civil disturbance unit was when Indonesian mobs wrecked and burned the British embassy not long ago." "\$25.5 million of these contingency funds was allotted to Brazil to aid her balance-of-payment problem. And \$20 million was given to Argentina for the same purpose. I respectfully suggest to my administration that it can find balance-of-payment problems urgently in need of solution much closer at home." "Several millions of dollars of these funds were given to the islands of Trinidad - Tobago. If they can be called undeveloped, then some of our Western European allies would also qualify in that category. Yet these islands have received substantial quantities of American aid ever since Great Britain saw fit to cut them loose to fend for themselves. It seems strange that whenever the British leave their former possessions and stop giving them aid, good old Uncle Sam walks in and takes over." Senator Morse assailed contingency funds as a blank check, and contended they should be cut to the bone. "Every year during consideration of this question," he said, "we hear a great deal about the necessity of a large contingency fund for the President to use for purposes that are unforeseen when the foreign aid bill is under consideration. But when a true emergency develops, the President comes to Congress and gets whatever he needs almost overnight. "All the talk about the need for a huge contingency fund does not stem from an argument of need; it stems from an argument of convenience. Only a few thousand dollars have been used from the contingency fund for emergency public safe-

Edson In Washington Powell Maneuvering for Civil Rights Leadership

By PETER EDSON

WASHINGTON (NEA) — An attempt by Rep. Clayton Powell to become the big man in what he calls an American "black revolution" is seen here in his recent call for a "summit meeting" of all Negro organization leaders to work for civil rights. In this connection it is recalled that last March Powell told a Black Muslim meeting at Madison Square Garden in New York: "Boycott all civil rights organizations not totally controlled by us."

At this meeting he praised Malcolm X, Muslim leader. In recent weeks Powell has been predicting that no civil rights legislation would be passed by Congress this year.

Some civil rights leaders see such a development as Powell's opportunity to lay the groundwork for a new effort to be led by him next year. They fear that this might be a divisive influence, hurting the civil rights cause.

Other civil rights champions, admitting Powell's statement that 90 per cent of the American Negroes are uncommitted and inactive in the civil rights drive, endorse his summit meeting. They hope it will develop more financial support and personal effort in the future.

Invitations sent to 50 Negro organizations by Powell said his meeting would be off the record and closed. But the day before it convened he called a press conference in the House Education and Labor Committee room to announce its program and 45 acceptances.

The meeting, held in this same Room 429 of the old House Office Building, raised some questions on the propriety of organizing a lobby in congressional quarters. But since Powell is committee chairman, he gets away with it.

During the current civil rights fight Chairman Powell forced a broad fair employment practices bill through his committee. Its main provisions were incorporated in the revised bill just reported out by the House Judiciary Committee.

Aside from this, however, Powell has not been too active in this year's fight. And he was not too active in the 1957 and 1960 civil rights legislation battles.

Powell took part in the march on Washington for jobs and freedom last August. But he sat with the other congressmen and was not invited to speak by leaders of "the Big Six."

The "Big Six" are the National Association for the Advancement of Colored People, Committee on Racial Equality, Southern Christian Leadership, Student Non-violent Co-ordinating Committee, Urban League and Negro American Labor Council. They organized the march, later becoming "the Big Ten" by inclusion of integrated church groups.

Powell insisted at his press conference that the new Negro summit was not being organized in opposition to the Big Six, which are already committed to civil rights.

His aim is to get the uncommitted organizations working to complement the efforts of the Big Six. He said getting the Big

Question Box

(We invite questions on economic and the proper functions of government which will not injure anyone.)

QUESTION: "Are there really any property rights?"

ANSWER: There are no such things as property rights. Property is not a unit that is self-motivated, not a unit that plans ahead and makes decisions of a momentous nature.

It is a loose way of speaking. It is used, undoubtedly, to reduce words. It really means a man's rights in property. That is, man's right to own and control 100 per cent the property that he has acquired honestly. Of course, if it is not acquired honestly, it is not really property, it is loot or plunder.

This loose method of talking about property rights leads to the oft-repeated question whether a man puts property rights before human rights. The answer to that is that there are no property rights, there are only human rights, so therefore there isn't any question as to whether a man should put "property rights" before human rights. It is just a method of loose thinking or fooling the public, that is, making the masses of people believe that there are such things as "property rights." There would be no property if there were no human beings.

So the next time you hear a man talking about putting "property rights" above human rights try to get the man to see that there isn't any such thing as "property rights," it is only man's rights to own and manage his own property.

HOW TO ADDRESS OUR LAW MAKERS

You may wish to write your senator and representative in Washington and Austin. Here are their addresses:

(FEDERAL)
Rep. Walter Rogers, House Office Bldg., Washington 25, D. C.
Sen. Ralph Yarborough, Senate Bldg., Washington 25, D. C.
Sen. John Tower, Senate Office Bldg., Washington 25, D. C.

(STATE)
Rep. Grainger McWhaney, House of Representatives, Austin, Texas
Sen. Grady Hazelwood, State Senate Bldg., Austin, Texas
