

Gen. Moseley To Be Quizzed On Reports Of Anti-Jew Campaign

WASHINGTON, May 19 (AP)—The house committee investigating anti-American activities asked Major General George Van Horn Moseley, retired, today to tell what he may know about a widespread anti-Semitic campaign other witnesses said was based on fears of a revolution in the United States.

It acted after Moseley's name was brought up by the committee last night in disclosing evidence developed by a trail of secret agents across eastern and southern states.

Moseley was asked to appear Monday, along with three others. If they decline, the committee aides said, formal subpoenas would be issued. Also invited

were: John D. M. Hamilton, republican national chairman, whose testimony showed had, on request, supplied a list of republican national committeemen to a man named by witnesses as active in the far-flung campaign.

George Deatherage of St. Albans, W. Va., chief of the Knights of the White Camellia, Felix McWhirter, Indianapolis banker.

For two hours last night Chairman Dies (D-Tex) summed up for reporters the testimony taken in deep secrecy yesterday.

Dies, recounting a secret, day-long examination of witnesses, said testimony showed the anti-Semitic campaign consisted

chiefly in sending out "highly inflammatory racial statements." These documents purported to prove, he asserted, a racial minority was plotting to overthrow the American form of government.

Dies gave reporters copies of correspondence which, according to committee testimony, General Moseley had exchanged with James Erwin Campbell, 42, of Owensboro, Ky.

One letter, signed "Moseley" and written on hotel stationery in Atlanta, where the general once commanded the army's fourth corps area, said that on that day, May 12, Moseley was setting out for the west coast.

"If the Jews bump me off," the

letter said, "be sure to see they get the credit for it from coast to coast. It will help our cause."

A letter dated April 21 and identified in the committee records as being from Moseley to a New York national guard officer said:

"The fact is that the most serious problem confronting America today is just this problem of the Jew and how to get rid of his influence definitely—locally, nationally and internationally."

Among witnesses before the committee yesterday were Campbell, a captain in the army engineers reserve, and Dudley Pierpont Gilbert, wealthy and socially prominent New Yorker.

Jews To Fight Britain With A Boycott

Economic Pressure In Protest Of New Palestine Plan

JERUSALEM May 19 (AP)—With more than 150 Jews and British constables injured and one constable killed in the first day of protest against Britain's new Palestine plan, Jews today mapped a campaign of non-cooperation and economic pressure.

No More Violence?

Organized Jews who abandoned work yesterday for great protest parades were busy this morning with a boycott plan. With the 24-hour strike ended, observers expected no further mass demonstrations likely to lead to violence.

The campaign against Britain's proposal to make Palestine self-governing, but with Jews in a minority through restricted immigration, called for:

1. Refusal to buy British goods, with intensification of production and purchase of local products.
2. Encouragement of Jewish members of municipal councils in all mixed municipalities to refuse to participate in the governments.
3. Encouragement of Jews to refuse payment of the usual municipal taxes and instead to contribute to the financing of the Jewish resistance.

In three hours of fierce fighting last evening—a clash between some 6,000 Jewish youths and hundreds of steel-helmeted, breast-plated police on Jerusalem's Jaffa road—casualties were numerous.

An official of the old Czechoslovak consulate was wounded when he drove his car near the rioters and was showered with bricks.

The clash occurred after the youthful Jewish throng jammed in front of the district commissioner's office. The demonstrators booted police and some stones were thrown before police forced the crowd to fall back temporarily.

The demonstrators surged back, throwing stones. After obtaining reinforcements the police charged in, wave after wave, swinging their clubs. The police fired into the air at one point. The battle ceased back and forth, with the police forced to retreat several times.

Britain Offers Way To Permanent Peace

IT'S FARLEY UP ON DYNAMITE

For a short time—a very, very short time—Postmaster General Jim Farley was a rip-roaring, platoon waving buckaroo way out west in Texas. Publisher Gene Howe offered to give Farley the horse, Dynamite, if he would mount the annual, Hero's Farley aboard at Amarillo, where he attended a federal building dedication.

Hitler Asked To Renounce Aggression

Would Not Buy Safety With Concessions, Says Chamberlain

LONDON, May 19 (AP)—Prime Minister Chamberlain offered today to lay down a definite long range policy for European peace if Germany would renounce in a convincing way the "intention of aggression or the further use of force" in her relations with other countries.

Reply To Lloyd George

Speaking in foreign affairs debate in the house of commons Chamberlain said, however, Britain was "not prepared to buy peace with concessions which would only lead to further demands."

He was replying to David Lloyd George, war time prime minister, who had demanded speedy conclusion of an alliance with Soviet Russia, and Clement R. Attlee, leader of the labor opposition, who had urged a clear and firm foreign policy.

Chamberlain declared the German government itself was responsible for a lack of faith in its assertion of non-aggressive intentions and added:

"If we could have such a renunciation (of aggressive aims), if we could have the conviction that there was no intention of aggression or the further use of force in the relations between Germany and other countries, then I think we would find we would not be backward in stating what is our view of the lines on which we would discuss the terms of a permanent peace."

Though he said Germany's demands for her war-lost colonies undoubtedly would be involved in such a peace, he said that would not mean Britain "will refuse to discuss any method by which we can satisfy reasonable aspirations x x x."

Answering criticism by speakers of delay in British-Russian negotiations and indirectly Russia's own charges that Britain's proposals lacked a basis of full reciprocity, the prime minister said:

"The British government have never desired to ask the Soviet government to do anything which they were not prepared to do themselves. They have always wanted the arrangement to be reciprocal."

He said he found it difficult to understand "why it should ever have been thought that our suggestion was lacking in reciprocity."

"Then he declared:

"We are not concerned at all with the Russian international doctrine, x x x we are concerned with building up a peace front. We want it. We attach value to it."

But, he added, "we would rather have a delay of a few days than to take a step which might result in the work already done crumbling before our very eyes."

Chamberlain said Britain had asked Russia to make a declaration to aid Poland and Lithuania similar to the pledges given those countries by Britain and France.

When this was not acceptable to Russia, he said "we tried again, x x x we were anxious that we should be able to come to an agreement quickly."

New Spend-Lend Program Reported In Capital; FD Says He Knows Nothing

TINY ISLAND REPORTED TO BE SINKING INTO THE SEA

MANILA, May 19 (AP)—Tiny Verde Island, some 100 miles south of Manila with a population of 4,000 was reported tonight to be quaking and sinking fast into the sea.

Governor Vicente Caeo of Batangas province reported to government headquarters here that persons on the island, only 15 kilometers square, were being evacuated. Reports on exact conditions were meager but it was believed those on the island were crossing the 10 miles to the Batangas coast in small native boats.

Verde Island, midway between the islands of Luzon and Mindoro, is in the Verde Island passage connecting the China sea and the Sibuyan sea.

Father Miguel Seiga, director of the weather bureau here, said he believed the settling of the island was due to the effect of sea water on its limestone formation.

Opposes Using Special Fund

WASHINGTON, May 19 (AP)—President Roosevelt, discussing reports a new spending-lending program was being studied in some administration quarters, expressed emphatic opposition today to using any part of the \$2,000,000,000 stabilization fund to finance aids to business.

Questions regarding the reports were raised at the president's press conference. He said he had never heard a new spending-lending plan was under construction.

When it was brought out the heart of this plan provided for utilizing part of the stabilization fund to finance new federal helps to business, such as purchases of railroad equipment, Mr. Roosevelt said he was opposed to monkeying with the fund.

Regarding other matters bearing on the business situation, the president said the securities commission report to congress on investment trusts would be submitted by him without recommendation.

He also reported that he had not yet scheduled further conferences with congressional or treasury tax experts on proposed revision of the corporate tax structure. He met at length with them last Monday.

The spending-lending program has not taken definite form, it was learned in informed quarters, but is being put in shape for submission to the president and possibly transmission to congress.

As tentatively outlined, it would include:

- Release of \$1,500,000,000 of the treasury's \$2,000,000,000 stabilization fund and use of the money to finance a nationwide home building program.

Cadet Killed, Another Leaps To Safety

SAN ANTONIO, May 19 (AP)—One Randolph field flying cadet was killed and another saved by his parachute when their basic training planes were battered to earth in a storm 12 miles southwest of Karnes City last night.

The cadets were in two planes, one of which burned. They were returning from Corpus Christi with 13 other cadets when they were caught in the storm.

The cadet killed was unofficially identified as Donald E. Roberts, 23, of Bessemer, Ala. The other flyer, whose leg was broken, was identified as Malvern H. W. Brown, 23, of Nashville, Tenn.

Joe Moneygamba, farmer who lives near the crash scene, reported he saw one plane crash and burn two miles from his home, and saw the other a few minutes later go down about a mile and a half from his home. He notified the Wilson county sheriff's office which called Randolph field.

A flight of 17 planes from the army air school and a ground searching party immediately was put into the field.

The planes were found at day-break and Randolph searching party flyers reported by radio that parachutes of the two pilots had been sighted. The parachutes were about half a mile apart.

Record Sales Expected For Cotton Week

Devoted to the story and sale of the agricultural product which gives employment to more Americans than any other crop, National Cotton Week has been proclaimed by President Franklin D. Roosevelt for the week beginning May 22.

The nationwide observance is the product of unanimous cooperation on the part of those who grow, handle and process cotton and cotton goods.

National Cotton Week is sponsored by the National Cotton Council of America and the Cotton Textile Institute, together representing virtually every phase of the cotton industry. Cooperation is further added this year by the Institute of Distribution, representing 100 chain store companies; and the National Cotton Consumption Council, representing several thousand cotton consuming establishments.

In the eight years since its inception, National Cotton Week has demonstrated its value, yet in none of these years has its significance been so great or its opportunities so outstanding as those of the current season.

Never before has cotton offered such smartness of style of quality of merchandise as that which it will present to the people of America from May 22 to May 29.

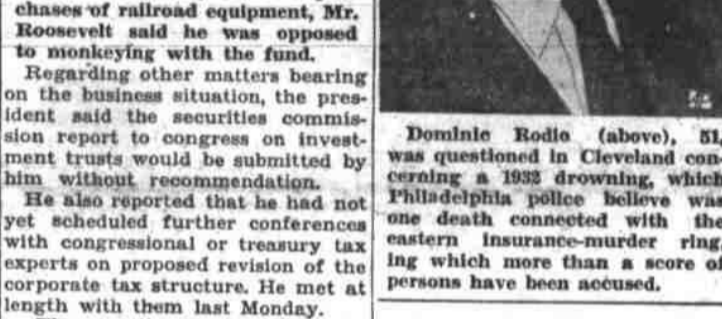

Besides the festive spirit of the week's program, National Cotton Week will constitute the greatest cotton sales event of the year, with more than 75,000 of America's retail merchants participating.

More than 400 miles of store windows will display cotton fabrics and cotton products, with customers expected to spend more than \$3,000,000 for cotton materials during the week.

The nation's dependence upon cotton is clearly illustrated by the fact that almost 20 per cent of America's population is dependent upon its production, processing and distribution. More than 11,000,000 Americans, comprising 3 1/2 million families, live upon cotton farms and are dependent upon consumption of American cotton for their livelihood. They live in 19 of the 48 states, ranging throughout the entire Cotton Belt.

An additional 14 million are engaged in transporting, marketing, processing and distributing cotton and its products.

QUESTIONED

Dominic Rodis (above), 51, was questioned in Cleveland concerning a 1932 drowning, which Philadelphia police believe was one death connected with the eastern insurance-murder ring, which more than a score of persons have been accused.

SERUM ADMINISTERED TO SUFFERERS OF PARROT FEVER

LUBBOCK, May 19 (AP)—Serum rushed from Enid, Okla., reached here today and was administered to Mr. and Mrs. Irving Jones, apparently suffering from psittacosis, commonly known as parrot fever.

Physicians hoped the serum might save the lives of the two residents of Lubbock, who have been in serious condition with what at first appeared to be pneumonia.

Physicians here requested the serum when they learned a supply had reached Enid too late to save the life of a Perry, Okla., woman. It was rushed by highway patrol cars in several relays to Amarillo and was brought from there to Lubbock by bus.

ATTEMPT TO FIX ADJOURNMENT DATE FAILS

AUSTIN, May 19 (AP)—A proposal that the legislature end its session two weeks from tomorrow was killed in the house today by a top-heavy majority.

The vote apparently meant nothing except the lower branch is not yet willing to set an adjournment date. Many members still believe adjournment will come around June 3.

Rain Shortage Setting Up A New Record

Forecast of fair weather Friday added little hope to the prospect of averting the completion of a 10-month stretch that may go down as one of the driest similar periods on record here.

A study of the weather records at the U. S. experiment farm showed that since the wet spell of last July, only 6.46 inches of moisture have fallen here. Another circumstance is that 45 per cent of the amount fell in one month.

Comparison with other corresponding periods shows that not one has been that devoid of moisture in 20 years. In the 10 months starting with August, 1938, and continuing until the present time, only two months have shown more than one inch of precipitation. One was in October when 1.06 inches were recorded. The other was in January with a total of 1.71.

The fact that the bulk of the rain fell in one month, coupled

NO NEED FOR ALARM ABOUT SMALL POX

Scores of Big Spring people were flocking to doctors today for vaccination in fear of a small pox epidemic which did not exist.

Dr. Frank Boyle, county health officer, said that the total number of cases of small pox stood at two. They were both isolated and in the same family. There has been no other case recently, but it also was in the same family and complete recovery has been reported.

By Thursday several hundred persons had visited physicians for immunization.

While local doctors exploded the "epidemic" rumor, they, nevertheless, felt that the wave of vaccinations was a good thing for individual and community health. And, they suggested, now is as good a time as any for proper precautions.

Investigations showed that the infection was brought into Big Spring by a lad returning from a visit with relatives in Oklahoma. He developed small pox and in turn communicated it to two other members of the family.

401 TICKETS ON THE IRISH SWEEPS HELD BY U. S. PEOPLE

DUBLIN, May 19 (AP)—The big gold drum of the Irish Hospital Sweepstakes today turned out 401 tickets held in the United States on horses in the English Derby to be run next Wednesday at Epsom Downs, England.

Of them 19 were among the 45 tickets drawn on the five horses most favored in the betting.

The prize fund was fixed at 900,100 pounds (about \$4,674,548) with total receipts announced as 1,000,627 pounds (\$4,812,807.50).

HOUSE CONTINUES DEBATE ON DEPARTMENT APPROPRIATIONS

AUSTIN, May 19 (AP)—A pay raise of five cents an hour to common laborers on state highway maintenance jobs was voted today by the house as debate continued on the voluminous departmental appropriations bill.

The lower branch adopted an amendment by Rep. Lonnie Alsop of Carthage prescribing wages of 40 cents an hour for laborers and 50 cents for truck drivers. The proposed new state is a five-cent increase to both classes of workmen, Alsop said.

Advocates of the omnibus tax bill recommended by the education committee more than a week ago decided not to try to displace the appropriations measure. They said they had an agreement with opponents under which the tax proposal would come up by Monday.

Amendments inserted in the highway department section of the appropriations bill include one to continue state-federal surveys of post and feeder roads and to ap-

FD Stands Pat On Beef Controversy

WASHINGTON, May 19 (AP)—President Roosevelt stood by his gun today in the controversy with congress over purchasing Argentine canned beef for the navy.

He said at his press conference he did not know what his next move would be but that he thought domestic beef producers might improve their brand and lower the price.

The house recently wrote into next year's navy appropriation bill a provision that food supplies for the navy would have to come, in all possible cases, from American sources. Subsequently Mr. Roosevelt disclosed he had ordered a purchase of 48,000 pounds of canned Argentine beef, which he said was superior and cheaper than the American product.

This order will not be affected by the ban in the pending bill since that would not take effect until July 1.

King Greets Roper As U. S. Minister

Accepts Credentials, Voices Thanks For Expressions Of Friendship

OTTAWA, May 19 (AP)—King George VI in an unprecedented ceremony today received the credentials of Daniel G. Roper as United States minister to Canada and expressed "my sincere thanks" for assurances of friendship from President Roosevelt.

"The close friendship between my Canadian people and their neighbors," he added, "x x x makes us look forward to the visit (to the United States) with particular pleasure."

King George and Queen Elizabeth came to Ottawa in a cold drizzle to begin their two-day visit in the capital of their largest dominion.

In the first ceremony after they left the royal train, the king accepted Mr. Roper's credentials and asked him to convey "to the president of the United States my sincere thanks for the assurances of his friendship and his good wishes for the happiness and welfare of the Canadian people, which I cordially reciprocate."

The American minister presented his credentials in the Rideau hall study of the governor general, Lord Tweedsmuir, marking the first time in Canadian history that a representative of a foreign government in the dominion made the presentation to the British sovereign.

In presenting his letters, Mr. Roper said: "The president asks that I convey to your majesties the assurances of your friendship and

Naval Money Bill Sent To White House

WASHINGTON, May 19 (AP)—Congress sent the \$778,000,000 naval appropriation bill to the White House today when the house accepted minor senate amendments to the measure.

The big defense bill carries funds for continuing expansion of the fleet and the navy's airforce, including money to begin construction of two 45,000-ton battleships.

The senate had passed the bill yesterday, 61 to 14, after some debate over whether the United States had any need for such superdreadnaughts.

Navy officials have testified that Japan was constructing ships from 43,000 to 46,000 tons, and Senator Connally argued America should not "sit around waiting for Japan or some other nation to build a 45,000-ton battleship."

The bill contains also a provision to forbid the navy to buy Argentine canned corned beef. The beef item stirred up a controversy, too, after President Roosevelt had authorized the navy to buy some of the Argentine product and said it was cheaper and better than that canned in the United States.

GARNER BEING USED? ASKS MAVERICK

AUSTIN, May 19 (AP)—Maury Maverick advises Texas to "watch and wait and send a powerful unimpaired delegation" to the democratic national convention.

Only recently his election as mayor of San Antonio enhanced his political prestige, jolted by defeat last year for re-election to congress.

Friends of John N. Garner have advocated his nomination for the presidency. Maverick last night told a meeting of Young Democrats he felt the vice president's age would be a handicap and added he "always thought Mr. Garner wanted to retire."

He asked "could it be that the vice president is being used" by the democratic party here in 1940... that is worth looking into; for he has not announced his candidacy."

Maverick asserted Garner and other possible candidates had not stated definitely their views "and until they speak out let's set still and don't say nothin'."

Neither, he declared, should President Roosevelt be followed blindly simply because he is president.

Saying thousands of Texas' best citizens were supporting Mr. Garner, Maverick asked "who else supports John Garner? Every Roosevelt hater; every enemy of progress; every anti-democratic and a traitor of carpet baggers and the most reactionary republicans who would like to see the democratic party lose in 1940."

EXPENDITURES FOR FISCAL YEAR GO OVER 8 MILLION

WASHINGTON, May 19 (AP)—Federal expenditures for the fiscal year passed \$8,000,000,000 today but still were more than \$1,500,000,000 short of what President Roosevelt expected to spend in the twelve months which will end in six weeks.

The treasury reported that in the year which began last July 1 it had spent \$8,028,790,442 and had taken in \$4,949,831,214, causing a deficit of \$3,078,959,228 which pushed the federal debt to a record high of \$40,327,878,187.

Revenues, however, had a chance of exceeding the \$5,500,000,000 predicted in the president's January budget message. Another quarterly installment of the income tax is due June 15 and excise and customs taxes are running slightly ahead of last year.

'DEATH KISS' WIDOW HELD AT PHILLY

PHILADELPHIA, May 19 (AP)—A stout, suspicious woman, arrested in New York yesterday after a long search for her as a "professional widow" in the eastern insurance-murder ring was held without bail today for grand jury action on a murder charge.

Judge Harry S. McDowell refused to allow Mrs. Carina freedom on bail because she had three other co-defendants pending a further hearing.

Antonio Mastro, a barber, taken into custody with Mrs. Carina by agents of the Federal Bureau of Investigation, was held for another hearing.

Investigators had questioned Mrs. Carina, whom they called "the death-kiss widow," all night in a secret place after she was brought from New York. Some investigators indicated they were clearing a half-dozen trails.

Mrs. Carina, in black reindeer, clutched a handkerchief in court but displayed no emotion when Police Captain James A. Kelly announced her of the poison death of Harry Mastro—her "husband" —last November.

She, a grocer, died here in June, 1938. Captain Kelly said chemists found poison in his body when it was autopsied.

LET EVERYBODY PARTICIPATE

The average Texan's reaction to the bill to remit ad valorem taxes to all counties might be summed up in the words, why not? In the past, any county that has sought remission, on any pretext with even the semblance of plausibility, has obtained it.

In the light of experience in such matters, it is hard to discover any good reason why the 46th legislature should not be generous on the grand scale instead of on a restricted one, and give every county back its ad valorem taxes.

To be sure, the constitution says that taxes may be remitted only in the event of a calamity. The tax-remission business started nearly 40 years ago when Texas, shocked and saddened by the disaster of the Galveston storm, adopted a constitutional amendment to remit taxes so that a protective seawall might be built.

The pending measure is objectionable on many counts other than that of its unconstitutionality. But it would have one transcendent virtue. It would put a stop to a racket by letting everybody participate in it—Wichita Times.

In Spingtime, Young America Pitches Woo; In Britain, 'Canoodling' Is What They Do

BY WILLIAM MCGAFFIN, AP Feature Service Writer

LONDON—In the spring a young Englishman's fancy quietly turns to "canoodling"—or to "coopering," if he's a North Country man. Whether canoodling or coopering, they mean one thing in American "pitching woo."

This spring is no exception, despite the long shadow of Adolf Hitler over Europe. In fact, young love seems to burgeon best in a warlike atmosphere. So John and Jane already are canoodling in the darkness of the cinema.

John, who is lucky if he's making \$20 a week, doesn't have a motor car. Therefore he takes Jane to the pictures—or "flicks," as his upper class competitor disdainfully terms them (although upper class attends them with the same relish as John.)

After marriage, the honeymoon—which doesn't last long. Jane's duty from then on will be to serve her master as wife and mother, with no questions about how much money he is earning.

Today And Tomorrow

THE UNEMPLOYED SAVINGS

In any honest inquiry, such as that which the temporary national economic committee has just begun, the chances of finding the right answer depend on the capacity to ask the right questions. More often than not in public discussion the question is unanswerable because it is a false question, and until the question has been restated, no one, were he the world's greatest thinker, could answer it.

What was the president's letter to Senator O'Mahoney and the extraordinarily able testimony of Dr. Laughlin Currie, of the Federal Reserve board, and of Professor Alvin H. Hansen, of Harvard, the T. N. E. C. is off to a very good start. For the committee is now in a position to define its problems in a way that every informed person, whatever his other views, can accept. Agreement on a definition of the problem will clarify the whole subsequent discussion about public and private investment, tax policy, deficit spending, price and wage policy. Without agreement on the nature of the problem, the discussion will degenerate into the special pleading of conflicting interests and political factions.

A central point of agreement has been developed gradually in the past 10 years by the leading economists of all countries, though historically the idea has been known for much longer than that. It is that if the income received by the people is not spent, or invested (which is another form of spending) then the unspent income will produce unemployment of labor and capital. This must be true. If Smith earns \$100 and spends only \$70, saving the other \$30, and if then he does not invest his savings but buries them in the garden or in his bank, there are \$30 less in the market demanding goods for labor and capital to produce. The problem of recovery is, therefore, how to induce Smith to spend or invest the \$30 he has saved.

This is not New Deal economics or Wall Street economics. Democratic economics or republican. It is the central economic truth on which every one is agreed who is discussing the matter at all. It is of the highest importance that we should emphasize and hold fast to this major proposition, on which there is agreement. For by doing that we can narrow and clarify the debatable differences of opinion, which now exist among competent and sincere men.

Let us note then, that, starting with the proposition that unspent and uninvested savings are the cause of unemployment, we find men taking the following positions: 1. That the government must undertake to get these savings spent by distributing them as relief and pensions and subsidies, and must get them invested by inaugurating public works. 2. That private industry would invest these savings, and get them spent through its purchases of raw materials and through wages to labor if it were not deterred by taxes that destroy profits, by restrictions that raise costs, and by a general fear of the government's fiscal policy.

These are the two extreme theoretical positions that men take in argument, starting from the same major premise, namely, that recovery depends upon the spending and investing of the people's savings. But, actually except among fanatics and doctrinaires, neither of these extreme theoretical positions is tenable. It is evident that the government cannot spend and invest all the savings of the American people. It is no less evident that in a modern state the amount that has to be spent collectively—for social services, public health, education, the conservation of natural resources, for highways, bridges, parks, recreation, for waterways and the development of primary power, and, unfortunately, for armaments—is in absolute amounts much greater than it was in the century before the World War. It would, therefore, be a wholly false question to ask ourselves whether all the savings or none should be spent and invested by the government or by private enterprise. It is not only a false question, but a misleading question when it is stated as if an exclusive choice had to be made between two forms of investment.

The true question is how they can be made to supplement each other. But this question is unanswerable when men start, as so many New Dealers do, in their thinking by supposing that they or any one else can determine in advance, how much capital private industry can use and how much the government can wisely use. That is where the whole discussion begins down.

The question can be answered only by letting the two forms of investment, public and private, compete fairly and openly for the savings of the people. They do not compete fairly today. For the government itself not merely taxes and borrows to finance itself, but it also imposes regulations on private enterprise which make very difficult profitable private investment. These restrictions artificially increase the supply of idle money

Thorn hung about the fence, however, with the hopeful, watchful mien of a small boy loitering outside a baseball park hoping someone would invite him inside. No one did.

"Of course it isn't," she liked him, that's all. But the more you kicked him around the more she became determined to defend him. You defeated your own aim, Thorn. As for what she said—well, it wasn't much. Something about not intending to tie herself for life to a man who was suspicious and possessive. I really think she still cares about you, though. Why don't you write her at the Royal Hawaiian Hotel in Honolulu? She's pretty sure to stop there. But my advice is not to defend yourself. Eat humble pie once. It won't hurt you."

A stubborn expression crept into Thorn's face. "Why shouldn't I defend myself? She had no right to behave that way. Everyone knew we were engaged and that the party was being given for Nola; I'm not sure I want a wife who insists upon always doing just as she pleases without considering me, my friends, or my feelings."

"Then it's an impasse," Bob shrugged. "You'll have to figure it out for yourself. Truthfully, I can't understand what Nola ever saw in you in the first place. She's fun-loving and high-spirited; impulsive and not in the least class-conscious. While you. . . well, you rate people according to what their forebears accomplished. Why can't you and Jocelyn take people for what they themselves are? Can't you stop behaving like a stuffed peacock? Certainly you haven't much money!"

Scarlet color suffused Thorn's face. "You're nothing but a crazy radical! Why don't you go to Russia!"

Expecting to get his American Legion junior baseball team underway as soon as he brings his ball team back to its current road trip, Tony Rego has meanwhile transacted the managerial reins to Ben Daniel. Ben has his full. Besides playing nurse maid to more than 100 reporting for the team each afternoon the veteran operates two of the recreation department's junior ball leagues as well as manage a team in the Mundy.

According to Daniel the battalion is quite ready for Tony one in. The Baron manager promised them two weeks that he would take charge as soon as business permitted that the regular team would be given baseball togger that a full program would be arranged. He has already contracted for one to be played here, is leaning toward others.

Incidentally, if the team places Ben will probably up the idea of trying to note funds for his soft-team's trip to the national tournament in Boston, Mass. The state officers of the V.F.W. has promised peration but Ben is skeptical of his chances to raise money here. His charges made the last two meetings, participating in one at Buffalo, N. Y., in 1937, and another at Columbus, Ohio, in 1938.

The failure of the lefthanded pitcher sent by Joe Devine from Paso to arrive plus the suspension of Johnny Soden has added the Big Spring pitching staff in a decided cramp. Don't be surprised if Pat Stacey, the right gardener and cleanup hitter, is brought to throw all or part of one of the games in the arena series.

When Art Gigg and Clarence Trantham had worked without success in that nighttime game as approached from all sides "pitching offers, found that he had more twirlers than he new what to do with.

Besides Tex Walton, who worked two frames and succeeded in trading out three men, Curdell Loyd, first sacker, confessed but he once pitched a home run and three strikes in six trips last night. Robin has had plenty of trouble in connecting in the local ball orchard but they can't get big out elsewhere. He has definitely snapped out of his early season slump.

Bill Brown, disposed of here last week, has joined Midland, the fourth ex-Baron to land a job with the Cowboys. Others are Johnny Volk, Dixie Swartz and Bob Wood.

The angular flinger is scheduled to go to the hill tonight against Lubbock in Hubbertville.

Duke Loken, ex-Amerlian, and Bob Hillin, who spent last year with Lubbock, have been signed by Fletcher White at Ashtabula. Duke has been inserted at the short stop berth, a one spot in Withers' lineup all season.

There's nothing wrong with the Big Spring bombers. In the past five games they slammed out 66 base hits. During the past week, meeting such teams as Lamesa, Pampa and Lubbock, they've garnered a total of 81 safe hits.

Jones Shoots 67 In Odessa First Round

ODESSA, May 19 (AP)—Big Spring's Doug Jones began his campaign for the Odessa golf title on his last year by firing a qualifying score of 67 in his Thursday play. He shared scoring honors with Raymon Stoker, Odessa, who had qualified earlier in the week.

First round play was to begin this morning with Jones top heavy favorite to gain the championship again.

PALS BEATEN OUT BY JACKSONVILLE

Each team collected 10 hits but Jacksonville scored two runs in the ninth inning to defeat Palestine 4 to 3 in an East Texas league game last night. John Nook hit a single, a double and a triple for the Jacksonville outfit Palestine 12 to 9 but Leonard Barnes drove in two runs with a first inning triple to help Texarkana to a 3-1 win.

The other two games were postponed, Tyler at Henderson and Kilgore at Marshall.

Bigony Earns Track Letter

WACO, May 19—Weldon Bigony, Big Spring, was awarded his freshman letter in track by the Baylor athletic council this week.

Bigony showed lots of promise in all of his performances during the past season and is being counted on as a serious contender for the varsity track team next spring.

Royal Reception Given Barons In Lamesa

Loboes Slam Out 22 Licks To Earn 27-9 Victory; Locals Home Sunday

LAMESA, May 19—In the wildest, most leagued battle of the WT-NM league season, Lamesa's Loboes romped from behind in a mighty hitting exhibition to defeat the Big Spring Barons, 27-9, here Thursday evening, gaining an even break in the two game series.

In the three hour battle that saw four pitchers parade to the hill for the Big Springers, the Tatemmen combined 22 base licks with 14 bases on balls and five Big Spring errors to rout a team that had drubbed them the night before.

Johnny Stone, striking out his first trip, slapped out six hits in a row, including four doubles, to feature the unbelievable season while every one in the Lamesa lineup, with the exception of Eddie Guynes connected safely at least once.

Not So Bad

The Barons' willow accomplishments couldn't compare with the Lamesa's but they were rattling the boards at a fairly even clip all evening long, collecting 15 safes. Eddie Guynes, who had a three run home run and three singles. Pat Stacey's two triples looked good.

The Big Springers went to work on Stud Raines, Lamesa twirler, in the first frame, scoring when Tex Walton homered with Decker aboard and by the third frame had built up a 5-0 lead but the Loboes had wiped that advantage out by the fourth, chasing Art Gigg in doing so, and never let up on Clarence Trantham, Willard Ramsdell and Walton who worked at intervals on the hill.

Emmett Fullenwider, Lefty Goldman and J. Murphy connected for home runs in a big fourth stanza that saw the Loboes count 8 times. The Barons move on to Pampa where tonight they engage the second place Ollers in the first of a two game series. Sunday they return home to meet up with Lamesa again in a 3 o'clock game.

Riggs Set For First Invasion Of England

By GAYLE TALBOT

NEW YORK, May 19 (AP)—Bobby Riggs, who represents what faint hope this nation has of keeping the Davis Cup going to Australia in September, is preparing to sail for England and the famous finishing school of tennis, Wimbledon.

He is being sent by the U. S. Davis Cup committee, along with Elwood Cooke, to play in the All-England championships for the first time. The two other outstanding candidates for the depending American Cup team—Wayne Sabin and Gene Mako—are being kept on this side to play the regular eastern tournament circuit.

This is a great personal triumph for Riggs over the rulers of this country's tennis destinies. Bobby made himself unpopular with the brass hats from the first year he came east. He was hard-bitten and outspoken and never made the slightest effort to smooth the ruffled feelings of the great white chiefs.

As a result, while the more favored and amenable tennis sons were frisking around London's lawn parties in their white pants each summer, Bobby was left home to follow the bread-and-butter trail. He had to become the country's first ranking amateur and his Davis Cup ace before they bought him a boat ticket.

Down in Miami the past winter he made it abundantly clear he was going to play at Wimbledon this summer—or else. He said he thought the best way to prepare the Davis Cup team against the expected assault from Australia was to send the players to Wimbledon to see how they made it stick.

The decision to send Cooke along with Riggs obviously means the cup committee still is groping for a second singles player, despite Sabin's sensational string of victories on clay during the winter. Sabin's critics declare he can't beat men like Australia's Jack Bromwich and Adrian Quist on grass.

Indianapolis Speedsters Are Ready

May Require 120 MPH To Qualify For Race

INDIANAPOLIS, May 19 (AP)—A score of "young men in a hurry" stepped forward today with a "we are ready" as the roll was called of drivers who plan to bid tomorrow for places in the annual Indianapolis Memorial Day 500-mile motor speedway race.

From 10 a. m. until 7 p. m. (central standard time) tomorrow the drivers will have a chance to win positions in the 33-car starting lineup. Almost everyone at the track figures it will take about 120 miles an hour even to get in the race.

Practice laps during the last weeks have been at such high speeds that the drivers are unanimous in their prediction a new set of qualifying records will be written into the books.

The official one-lap record is 130.482 miles an hour, set by Jimmy Snyder of Chicago two years ago. The qualifying record is 125.769 miles an hour, established by Roy Householder of Van Nuys, Calif., last year.

CONCEDED TITLE

ANN ARBOR, Mich., May 19 (AP)—With Michigan generally conceded the team championship again, Indiana and Wisconsin contended today for second place in the annual Wabash Conference track and field meet, which attracted some of the nation's outstanding individual performers.

and Ernie Lombardi homered. The Pirates passed the Phillies, 5-4, in the 10th on Johnny Rizzo's single with the bases loaded. Gabby Hartnett's double with three on in the sixth broke up a hot pitching battle between Hill Lee and Van Munching to give the Cubs a 4-2 margin over the Dodgers, and the Cardinals showed the value of a steady drumming by distributing six runs through four different innings and beating the Giants, 6-1.

It was the same way for the Cubs, who won their eighth consecutive American league game and handed the Browns their fifth straight setback, 8-1, although they did have one typical big inning when Joe Gordon tripled with the bases loaded.

Bob Estalola stepped to the plate in the last of the ninth with two out and one on and homered to give Washington a 3-2 victory over the Tigers and save a polished four-hit performance by Al Alexander. Manager Joe Cronin decided a tough contest in favor of his Red Sox, 5-3, by stemming out a triple with two on in the seventh against the White Sox.

There also were two homers in Cleveland's battle with the Athletics, but this one was decided in favor of the A's, by 4-2, when Estalola homered dropping a three-run lead to Phil Rizzuto's sacrifice at the plate in the 11th inning.

Mrs. E. O. Ellington Is 1st Round Opponent; Stalcup Plays Griffith

Fourteen women completed qualifying rounds in the annual country club women's golf tournament Thursday with Mrs. Gordon Phillips gaining medalist honors with an 84.

Mrs. Phillips' first round opponent in today's first round matches was to be Mrs. E. O. Ellington.

Mrs. Harry Stalcup, co-favorites with Mrs. Phillips, was to oppose Mrs. Hayden Griffith while Mrs. Obie Bristol, defending champion, was to play a threesome with Mrs. J. Y. Robb and Mrs. Carl Blomberg. In the other championship match Mrs. M. H. Bennett was slated to encounter Mrs. A. E. Platon.

All title matches were to be scheduled for 18 holes.

In the nine-hole matches Mrs. Bill Tate and Mrs. Mabel Carter were to play today while Saturday's duels were to pit Mrs. Willie Rix against Mrs. E. V. Spence and Mrs. H. Staples against the winner of the Tate-Carter match.

Finals are scheduled for Sunday. Willie Rix captured medalist in the nine-hole division of play with a 35.

The approaching putting and long driving contests will be conducted at the course Saturday afternoon, 5 o'clock.

Scoring 12 Runs In First— LONE STAR COASTS TO 16-11 VICTORY

Scoring 12 runs in the first inning, Lone Star Chevrolet coasted to a 16-11 victory over Daniel's Wholesale Candies in the feature Mundy softball league game at the city park Thursday evening.

In the aftermath Collins Brothers Drug romped to an easy victory over Montgomery Ward, 29-12.

The opener saw the Sugar Coats chase Lefty Morris from the hill in the seventh frame with a seven run, six hit outburst but the Mechanics were never in danger of losing.

Graves and Wright hit safely three times each for the Sugar Coats to pace the game's pine attack. Check Smith collected two bingles for the victors.

The Druggists tallied in every inning but the second in routing the Wardmen in the second game. A 17-hit barrage off two of the Retailers' fingers featured the easy victory.

Smyly Clouts Herd To Win

By the Associated Press

Cecil Smyly laughed up his sleeve today and Dallas baseball fans grinned with him.

Benched recently for light hitting, the outfielder went in as a pinch hitter in the ninth inning last night and doubled Roy Mort home from second with a run that beat the Fort Worth Cats, 3 to 2.

The tally ended a slab duel between Stan Corbett of the Cats and Clayland Touchstone. Fort Worth scored twice in the seventh on four hits after Dallas took the lead in the third on a pair of doubles and a single.

Oklahoma City's Indians scored five runs in the third inning with a 7-3 victory over Tulsa. The San Antonio at Houston and Beaumont at Shreveport games were rained out.

Seek To Settle Coal Dispute

HARLAN, Ky., May 19 (AP)—Optimistic federal and state conciliators today began conferences seeking a settlement of differences between the Harlan County Coal Operators association and United Mine Workers (CIO) in an atmosphere of tension following gunfire and dynamiting.

The association represents 42 mines and is the only large operating group in the soft coal fields holding out against the "union shop" contract of the U.M.W.

Late last night the Lynch mines of the United States Coal and Coke Co., subsidiary of United States Steel Corporation, became the first Harlan county operator to sign a union contract. These mines are not members of the county association.

General Manager T. J. McParland of the coke corporation said the two year contract did not contain the "union shop" clause.

The first serious disturbances came yesterday when Brigadier General Elmer Carter, commander of national guard, reported a group had fired from ambush on miners going to work at Highplint Number 2 mine, 12 miles from Harlan. None was hurt.

A mine superintendent reported "snipers" in the mountains had attempted to pick off working men at the Harlan central mine at Tulsa. He said none was hit and the gunfire was not returned by militiamen.

10-YEAR-OLD SAVES SISTERS FROM FIRE

CAMDEN, N. J., May 19 (AP)—Ten-year-old Ada Penny was a heroine today. She carried her two-year-old twin sisters from their smoke-filled burning home, then smothered the twins to safety in one trip—ones under each arm.

When the house ignited, her parents were visiting neighbors.

The first half of the Senior Boy's Recreation Softball league ended in a two-way tie yesterday as the Roosters whipped the Mexican Tigers 3 to 3. The Tigers defeated the Roosters in their previous meeting.

Twenty junior boys and girls participated in a croquet tournament at South Side Thursday afternoon.

CHAMPS GAIN 8TH VICTORY IN ROW

By JUDSON BAILEY

Associated Press Sports Writer

The "dead" baseball which both major leagues are using this semester has as many lives as a cat, but bringing the two circuits into conformity on the ball has, at least, put a damper on the American league's reputed hitting superiority.

In the first month of the baseball campaign 296 home runs have been plastered into the records and the junior league's margin is a mere 14 blows. The American league averaged 46 homers a month more than the National league last year in arriving at respective totals of 564 and 511.

However, there are even more surprising aspects of the first month's slugging. The Cincinnati Reds have hit more home runs than the renowned New York Yankees, by 24 to 22.

The leading individual socker is Johnny Rizzo of the St. Louis Cardinals with seven. There are two other National leaguers, Mel Ott of the New York Giants and Dolph Camilli of the Brooklyn Dodgers, who have hit six, the number made by Hank Greenberg, the American league leader.

Heading Dual

In the National league yesterday the Reds beat the Boston Bees, 5-2, in a hard-fought duel. In the first inning Phil Rizzuto's sacrifice at the plate in the 11th inning.

Obie Bristow Low At Mundy

Of the ten players that have qualified thus far for the annual Mundy Spring tournament, Obie Bristow is low with an 81.

Others and their scores are Horace Wallin 88, Lib Coffee 85, George Hill 108, B. E. Fresman 102, E. W. Lowmire 90, Tommy Neal 89, Dar Hudson 86, J. G. Carter 110 and V. V. Strahan 93.

Sunday is the final day to post qualifying scores, Pro Harold Akey said.

TO PROTEST FUND FOR DENISON DAM

WASHINGTON, May 19 (AP)—Rep. Cartwright (D-Ola) said C. C. Hatchett, Durant attorney, would protest next Monday to the senate appropriations committee against a proposed \$5,700,000 allocation for the Denison dam in a resumption of Gov. Leon Phillips' fight against the project.

Cartwright said he and several other Oklahoma congressmen, with Walter Archibald, Durant publisher, and Floor Leader Rayburn (D-Tex) would appear in behalf of the project.

The allocation would be from funds appropriated by the war department civil functions bill as it stands.

Graduation Rites Held At Forsan

FORSAN, May 19.—Graduation exercises for the Forsan class of 1930 were held in the high school auditorium Wednesday night, with Dr. Tom Taylor, president of Howard Payne college, Brownwood, as principal speaker. Dr. Taylor was introduced by Supr. L. L. Martin. J. B. White delivered the salutatory address and Wanda Martin was valedictorian. Each received college scholarships. A special scholarship which entitled the winner to music lessons for a year was awarded to Dorothy Gresset by Mrs. Herman Williams. Graduates included: Orville Greenman, Wanda Martin, Bummy Asbury, Ray McKinnon, Ruth Brown, Carlton Y. A. Beff, Willie Marling, Willa Lee Porter, Fred Thieme, Hollis Parker, Elton Neely, Fay Wendland, J. B. White, Louise Benton, Maxine Moreland and Bill Rucker.

GULF NEGOTIATING FOR 35 STATIONS

PITTSBURGH, May 19 (AP)—The Gulf Oil Corporation disclosed today it was negotiating for the purchase of 35 retail and wholesale gasoline stations from the Pure Oil company and the acquisition of approximately 100 leases. A spokesman said the deal, to be completed today, included the purchase of approximately 10 wholesale outlets and 25 retail stations in the Mohawk Valley of New York and in New Jersey. The leased stations, he said, were located principally in New York, New Jersey, Connecticut and Massachusetts. The stations will be brought under the Gulf management and included in the chain of Gulf stations. The amount involved in the purchase and lease transfers was not disclosed.

SISLER TO TAKE LEADING PART IN TOURNEYS

NEW YORK, May 19 (AP)—Baseball's retired stars—men like Babe Ruth, Ty Cobb, Tris Speaker and George Sisler—will be asked to step back into the limelight this summer as part of semi-pro baseball celebration of the game's centennial. Ray Dumont, president of the National Semi-Pro Baseball congress, said today Sisler, the semi-pro's high commissioner, already has accepted invitations to be guest of honor at eight state tournaments, in addition to the national finals at Wichita, Kas., August 11-23.

THREE ESCAPE JAIL AT SHREVEPORT

SHREVEPORT, La., May 19 (AP)—Three prisoners escaped the Caddo parish jail here, Jailer Joe Leslie discovered when he came on duty early today. The men were W. C. Kennedy, 39, under four to 12 years sentence in the state penitentiary for forgery; J. A. (Jimmie) Johnson, 20, held for Marshall, Texas, offense; and Jack Neal, 26, under one year jail sentence for passing worthless checks. Officers said the prisoners sawed their way from the eighth floor and used a rope made of ticking from prison mattresses to lower themselves to the fourth floor window. The descent from the roof to the ground was then easily made.

SHOOTS ROBBER

NEW YORK, May 19 (AP)—Last Thanksgiving day, Samuel Giblan, 37-year-old delicatessen operator, was held up and robbed. He bought a revolver and carried it under his apron. Last night a negro strode into the store, leveled a gun and ordered Giblan and his 16-year-old daughter Phyllis to the rear of the place. "Give you got anything on you?" demanded the negro. "Yes," said Giblan. His hand moved under his apron. Four shots sounded, and the robber fell dead.

DRY WEATHER IS TAKING TOLL IN WHEAT SECTORS

WASHINGTON, May 19 (AP)—Federal farm officials predicted today the nation's surplus wheat problem would virtually disappear this summer unless there is a sharp reversal in weather conditions. They said dry weather was taking a heavy toll in such winter wheat states as Kansas, Oklahoma, Western Texas, and Nebraska, and the moisture conditions in such spring wheat states as Minnesota, the Dakotas, Montana, Washington and Oregon were far below a year ago. Weather bureau reports showed rainfall in the wheat belt was 30 to 40 per cent less than a year ago. Unless there is a marked increase in rainfall during the balance of this month—a critical one for winter wheat—the deficiency will be even greater. The unfavorable weather conditions and a 30 per cent reduction in the wheat acreage under the agriculture department's crop control program may result in a crop hardly large enough, officials said, to supply normal domestic needs. Such needs average about 685,000, 600 bushels a year.

RADIO SUIT MOVED TO FEDERAL COURT

ABILENE, May 19.—Case of V. T. Anderson, et al. of Big Spring vs. the Big Spring Herald Broadcasting company was filed this week in the Northern Texas district, Abilene division, of the federal court, Judge T. Whitfield Davidson presiding. The case was removed to the federal court from the Howard county district court on an appeal of lack of jurisdiction. Anderson et al. as plaintiffs are seeking \$25,000 in damages for alleged breach of contract.

was exhausted recently and that Stea was one of three of Mrs. Carrin's husbands who died under circumstances as suspicious as many of the 50 or so deaths charged to the slay-for-pay ring. Meanwhile, a possibility the mass-murder syndicate still might be functioning, despite wholesale arrests, developed with announcement by Coroner Charles H. Henschel he had ordered exhumation of the body of a young Italian boy who died in the last two weeks.

INJUNCTION CASE IS UP TO JUDGE

Jury in the case of A. J. Crawford against Frank Rutherford for injunction was dismissed Thursday evening by Judge Cecil Collins. The court continued to hear arguments in the case Friday. Crawford is asking that Rutherford, who formerly operated a cleaning establishment in the Crawford hotel, be restrained from using the name of Crawford Cleaners in his business.

MARKETS

Wall Street
NEW YORK, May 19 (AP)—Selling of stocks dried up in today's stock market and leading issues, paced by motors and rubbers, registered gains running to a point or so. Activity broadened somewhat in the forenoon, but the list subsequently went to sleep again and transfers for the five hours amounted 400,000 shares. Best prices were shaded in many cases at the close. Brokers attributed the better performance partly to short covering inspired by thoughts that trends may have been seen their worst for a while. A little investment nibbling was in evidence here and there. Fading of European war fears as a speculative factor were once more stressed by advisors the British had announced readiness to confer on a long-range peace policy if Germany would give assurances aggression would be renounced. Business news, on the whole, evoked no great cheering, but a few bright spots could be seen. Trading forces still cling to the hope at least some form of tax revision would be approved by congress.

NYA Project Is Approved

Approval of a National Youth Administration project under the sponsorship of the City of Big Spring was announced here Friday by O. M. Cosby, Jr., area supervisor. The project, set up for expiration on June 30, is for approximately \$1,800 and embraces funds for quarrying rock for a community center in the city park. Plans are to submit another project covering the complete development of the community center, said Cosby. Eligible for work on the NYA project will be needy youths from 16-25 years who satisfy certain requirements and will fit into a program of part time employment. According to Cosby, NYA projects have the dual objective of utilizing idle youth and at the same time instructing them in the fundamentals of several trades. It was estimated that it would require about two weeks to certify enough youths for the job. It is the second NYA project undertaken in Howard county, the first having been attempted four years ago at the outset of the program.

Rev. W. A. Nicholas, Child Benefactor, Visitor In City

The Rev. W. A. Nicholas, superintendent of the West Texas Children's Aid and Welfare Association of Abilene, is a visitor in town this week. The association seeks to find homeless, neglected and destitute children and place them in homes. The Rev. Nicholas, who has been connected with the organization for some time, asserts that it is non-sectarian and that regardless of religion, the best place for a child is in a Christian home. The Rev. Mr. Nicholas will go on to Lamesa from here.

LABOR VIOLENCE AT HOUSTON PROBED

HOUSTON, May 19 (AP)—The county grand jury today resumed its probe of labor violence here. Witnesses in the attack on a non-union man at a flour mill were among the first called. Union men appeared on the streets handing out dodgers charging that \$30,000,000 was spent in 1926 in the United States by large corporations for strike breakers, armed guards and labor spies. The pamphlet, which was signed by "Organized Labor Committee," composed of five American Federation of Labor unions and the C. I. O. unions here, charged 12 Houston firms contributed to that fund. The organized labor committee charged employers had formulated a strike breaking program known as the Mohawk Valley formula or Read plan, and were attempting to force labor to its knees in Houston. Two hundred and twenty-five Big Spring and Howard county persons who have been appointed notaries public were reminded by the county clerk's office Friday that they have 10 days after June 1 in which to qualify. Current commissions expire as of May 21 and the new ones will become effective as soon as the appointed posts bond and qualify. The new commissions will hold until May 31, 1931.

Weather

(Continued from Page 1)
with the existence of good sub-soil moisture from last summer, has mitigated the drought and made it seem less severe than rain charts would indicate. Too, there are spots in the county which have received considerably more moisture. Since January, the rain total stacks up like this: February 15, March 10, April 44, May 75. Both the April and May figures are a third of the normal amount. Last year late May showers broke a similar run of weather before the last week in June contributed a record of 8.55 inches for the month.

Plantings Completed At Experiment Farm

First of the date-varietal plantings for this season have been completed at the U. S. experiment farm, F. E. Keating, U. S. experiment farm superintendent, said Friday. Included in the plantings were 42 varieties of grain sorghum and feed and a score varieties of legumes including 10 of cowpeas and 10 of soybeans. In keeping with the farm program, the plantings are made on a time schedule regardless of season. Over a period of years this builds toward conclusions governing the best time to plant particular varieties. Besides this information, the tests with soybeans and cowpeas have shown the latter to be far a better legume for this country. Soybeans have to be planted as row-crops in this area and produce woody stems and an inferior grade and tonnage in hay. Moreover, they are veritable magnets for rabbits when coming up to stand.

SCHOOLGIRL STRIPPED BY CLASSMATES

ANAHUAC, May 19 (AP)—Scherer Scherer today investigated a report five jealous high school girls stripped a 19-year-old classmate and made her run around their car in the nude because they resented the attentions boys paid her. Scherer went to Baytown yesterday to talk with the victim and said he expected some developments later today. He conferred with County Attorney Everett Cain. The little girl who was stripped said the five girls, all between 15 and 16 years of age, had threatened to whip her if she revealed their action. She was sent to Baytown by her mother, who placed her with relatives while authorities investigated the case.

King

(Continued from Page 1)
genuine good wishes for the continued happiness and well-being of the Canadian people. Both the king and the American press their statements. Following the presentation, witnessed by Prime Minister W. L. Mackenzie King and members of the American legation staff, the new minister joined other foreign diplomats in Ottawa at a reception given by the king. The queen received the minister's wives. The king and queen reached their North American capital after a night aboard their "travelling palace" such as no other British king and queen ever have experienced. The northern lights, glowing and darting like celestial fireworks—an unusual sight even for Canada in late May—could be seen in the heavens. As the train moved under the long, finger-like illuminations, the skies continued the protocols of the welcome Montreal had given earlier last night. The festival character of the arrival in Ottawa was somewhat dampened but the crowded city presented its people bundled in raincoats, overcoats and umbrellas, busy as in rainy England.

4-H Club Sponsors To Confer On Plans For Encampments

Establishment of rules of eligibility for attending the state short course and the county and district encampments will be discussed Saturday by representatives of encampment sponsors from the five 4-H girls clubs in the county. GRADUATED TAX ON OIL IS HELD VALID

AUSTIN, May 19 (AP)—A proposed graduated production tax on oil with a maximum of four cents a barrel was held constitutional by Attorney General Gerald C. Mann today. Rep. H. T. Brown of Jacksonville requested the opinion in view of a bill pending in the legislature which would levy a four-cent a barrel tax on oil from wells producing more than 20 barrels daily, three and a half cents on those producing between 10 and 20 barrels daily, three and a half cents on those producing between 10 and 20 barrels, three cents on five to ten-barrel producers and two and three-fourths cents on those producing less than five barrels. Currently the oil tax is two and three-fourths cents per barrel. If the market value is one dollar per barrel or less, if it is in excess of one dollar, the tax is two and three-fourths per cent of the value.

How About Scrapping The Money System And Returning To Barter?

By MARY WHALEY

Having just had a session with my check book, bank, and bank account, and having torn my hair, wrinkled my brow, and bitten my finger nails, I'm all in favor of going back to the old trade and barter system. What is this thing called money, anyway?

I'd like to junk the whole idea and return to the days of you give me this and I'll give you that. Then it won't make any difference if the bears chase the bulls—or something—in the stock market.

I never have been quite sure whether we were on the gold or silver standard and just what it meant, anyway. I understand there are only four or five persons in the world who know the monetary system and I'll bet they have their tongue in their cheeks.

Going back to the primitive method of buying and selling would do away with a lot of things such as splitting with governments—federal, state, county, city—to say nothing of the old gold pensions, and social security funds. All I could offer would be a large supply of old newspapers and I know they wouldn't take them in payment (unless maybe I included the comics).

Then there wouldn't be anybody pushing you off cliffs to collect your insurance money or banks closing down as per the depression era. And think what a wonderful bonfire you could have with your budget and canceled checks.

Somebody is always advocating something so I think I shall advocate closing down the mint and starting from scratch again. There are some who will believe my trouble is that I never learned that I'm losing the art of anything.

The idea may not appeal to anyone else but having just lost the fight with my budget, I would be willing to try it.

Pioneer Club Has Reversal Party In Forsan

FORSAN, May 19 (Sp1)—A reversal party provided entertainment when Mrs. I. L. Watkins entertained the Pioneer Bridge club in her home Wednesday.

Roses and larkspur and spring flowers decorated the rooms and plaques were given as plate favors. Others attending were Mrs. Foster Harmon, Mrs. S. B. Loper, Mrs. Charles Adams, Mrs. Paul Johnson, Mrs. Frank Tate, Mrs. Brady Nix, and Miss Aquila West.

Mrs. T. Hicks Includes Two Guests For Bridge

Mrs. Elvira McCrary and Mrs. D. W. Webber were included as guests when Mrs. Theron Hicks entertained the What-Not club in her home Thursday.

Mrs. McCrary won guest high score and Mrs. Robert Satterwhite won club high score. Mrs. Lonnie Coker received low score and Mrs. Leonard Coker binged.

A sweet course was served and roses furnished decoration. Others attending were Mrs. Phil Smith and Mrs. Roy Tidwell.

THE WORLD OF WOMEN

How Can We Steer Clear Of Mother-In-Law Problems?

This is the fifth of six articles discussing problems that most often trouble married couples.

By LYDIA GRAY SHAW
AP Feature Service Writer

Unfortunately, there's plenty of truth behind the jokes they're always telling on mother-in-laws.

Many a mother-in-law has been directly responsible for a young couple's marital troubles, says Mrs. Sidonie M. Gruenberg, director of the Child Study association. The association has a marriage counseling service that gets so many mother-in-law problems Mrs. Gruenberg says she easily could become a fanatic on the subject.

"Now she has no other interests."

Half the Battle

Something can be done about it, though, she explains. And if you understand why a mother-in-law is likely to cause trouble, the battle is half won.

The husband's mother or the wife's mother may do it—but in totally different ways. The wife's mother causes it when she makes the new home her business—tries to tell her daughter how many rooms to have, how to arrange her furniture, how much and whom she should entertain. She purveys advice, whether she's asked to or not.

The husband's mother, if she's a trouble-maker, proceeds differently—and more insidiously. She doesn't care about housekeeping details; her son's welfare is her worry. She hints, very gently, that perhaps your wife shouldn't be such a good-about-late hours as had her hard-working boy.

She thinks the new wife's cooking can't be good. She encourages her son to bring his problems to her.

The result, says Mrs. Gruenberg, is the same in either case. In one, wife is annoyed if husband criticizes her mother. Wife springs to mother's defense and the battle is on.

In the other situation, husband suggests wife do things "the way his mother does." Wife resents; same result.

There's No Escape

Well, you can't move out of range of the in-laws. Even if you could, as much damage can be done in a two-week visit, or even by letter, says Mrs. Gruenberg. She thinks frankness doesn't help, either.

The best thing, she says, is to realize, first, it is natural for a mother-in-law to act as she does. Tell your husband: "I know mother is a nuisance, always coming around to tell me how to do things. But I don't want to hurt her. I run my house as I please, but I do try to accept her suggestions when they are good. It pleases her to help, and it doesn't hurt us. We won't let it bother us."

If son's mother is causing trouble, the wife can tell her husband, "Yes, it's natural for your mother to watch over you like a hawk. She is fond of you. I suppose I would do the same thing myself, if I had a son."

If he sees his mother's reaction is a natural one, that all mothers of sons share, he will tolerate her remarks, but promptly forget them.

You can't change your mother—or your husband's mother. But if you do not become resentful you will have no problem.

Why should the burden of settling this difficult relationship fall on the wife? Because, says Mrs. Gruenberg, it's the wife who determines the pattern of the home. The husband merely accepts it.

Next week: How soon should we have children?

Latin Students Hold Annual Banquet Here

Purple and gold were the colors used to carry out the theme when the Latin students held their annual banquet at the Crawford hotel Thursday evening.

Place cards were Roman helmets of wood with the name of each student burned in. The ballroom was decorated with the ribbons of purple and gold and the two colors formed a background where the program was given.

Favors were of wood with the menu and entertainment for the evening burned in Latin and these were tied with purple cord. A feather quill was attached to the book.

Gold cellophane bags filled with gold mints and tied with purple ribbons were also favors and a javelin of purple, tipped with gold and marked with S. P. Q. R., the motto, was given.

The bust of Caesar formed the centerpiece of the head table. All the program was given in Latin and included a talk by Lawrence Deason, toastmaster, and president of second year Latin class. "Hail, Hail, the Gang's All Here" was sung in Latin and other officers were introduced.

Charles Talbot, accompanied by Kathleen Williams, sang "Deep Purple" and Reta Mae Bignon gave a humorous story of Rome. Jacqueline Faw gave a tribute to the second year classes and Kathryn Campbell gave the response to the first year class.

Miss Lillian Shick, teacher, gave awards to outstanding students and a song, a parody on Latin, was given by Anna Belle Edwards, Gloria Conley, and Sara Lamun.

A pantomime parade of 10 Roman gods and goddesses dressed in costume was given and the group guessed the identity of each. They also gave thumbs up or thumbs down approval or disapproval according to old Roman custom.

A gift was presented to Miss Shick from the second year classes by Clara Sue Vestine. Bingo with Latin words provided diversion and other games were played.

Attending were Otis Grafa, Carlton Seabourne, Patsy Stalcup, James Webb, Orvie Earl Walker, Elva Eltway, Neva Brock, Reta Mae Bignon, Eva Jean Attaway, Mary Margaret Williams, Georgia Griffin, Phil O'Bar, Billie Duke Rogers, Jimmie Warren, Betty Fay Collins, Lawrence Deason, Bruce Frazier, Jack Ferguson, Theresa Jahren, Polly Roberts, Duval Wiley, Vilo Rowe, Gloria Conley, David Lamun, Sara Lamun, Clara Sue Vestine, Waneta Walker, Maurice Biedose, Billy Meier, Nancy Lann, Jo Russell, Adolph Jahren, Janice Slaughter, Leroy Hux, Grover Cunningham, Ralph Sheets, Natalie Smith, Jimmy Fay Rogers, Wilford Hardy.
