Bulgarian Police Patrol Legation After Mob Riots

Protection Promised After Mob Of 3,000 Breaks Building Windows

VIENNA (UPI) — The Bulgarian government posted a police guard around the U.S. legation building in Sofia Saturday and promised "sufficient protection" against further damage from riotous mobs.

Most of the windows in the six-story building were shattered Friday by a throng of 3,000 Bulgarians protesting the alleged American spy activities of a high-ranking diplomat.

A spokesman for the legation told UPI by telephone from Sofia that the guard was assigned after U.S. Charge d'Affaires Richard Johnson lodged "a strong protest" with the Bulgarian foreign ministry over the violent demonstration.

The mob threw stones and chunks of ice through windows of the legation building and overturned four legation cars.

Shouting "down with U.S. imperialists," the demonstrators were protesting the espionage activities of Ivan Assen Hristov Georgiev, 56-year-old former counselor of the Bulgarian mission to the United Nations. His treason trial entered its third day today.

Has Pleaded Guilty

Georgiev, who has pleaded guilty, is accused of acting as a spy for the U.S. Central Intelligence Agency (CIA) from 1956 until his arrest in September. The government claims Georgiev received \$200,000 for his espionage work and that he spent most of the money to maintain mistresses in several European capitals.

"We were given assurances that further demonstrations would be stopped and sufficient protection provided to insure the safety of the legation," the U.S. spokesman said Thursday.

Johnson delivered the protest to Bulgarian Minister G. Manjov under orders from the State Department in Washington. It contained a demand for compensation for the damage to the legation and the American automobiles.

The six-story building is two blocks away from the supreme court where Georgiev is being tried.

Interested In Private Lives

In testimony Saturday, according to the Bulgarian Telegraph Agency (BTA), Georgiev said U.S. intelligence agents displayed "extraordinary interest" in the private lives of Bulgarian diplomatic personnel. He said American agents needed such information to blackmail diplomats into becoming spies. Georgiev said "ideological confusion played an essential

Theft of Sacred Hair Triggers New Delhi Riots

NEW DELHI (UPI) — Mobs of rioting Moslems enraged by the theft of a sacred hair said to have come from the beard of the Prophet Mohammed stormed through the streets of the Kashmir capital of Srinagar Saturday in an orgy of destruction.

Reports reaching New Delhi said the angry Moslems set fire to fashionable homes, shops, buses, cars, trucks, two movie theaters, an automobile agency and partially destroyed the police station in the city—long popular with tourists.

Police with rifles fired "mostly" into the air to disperse rioters according to press reports but state government officials said one man was wounded.

State Premier Shamsuddin offered a \$21,000 reward for recovery of the sacred relic and said anyone providing a valid clue to its whereabouts would receive a lifetime stipend of \$105 per year.

AFTERMATH — The broken Christmas tree and the potted poinsettia plant were the last remaining signs of Christmas Saturday as city employes began burning the

mountains of trees, boxes and wrapping paper dumped in alleys following the Yuletide season. (Daily News Photo)

German At Home Of Texan

By ALVIN SPIVAK
JOHNSON CITY, Tex. (UPI) — President Johnson and West German Chancellor Ludwig Erhard opened talks in the comfort of the Johnson ranch house living room Saturday on East-West tensions and American tariff barriers to European farm goods.

Vowing to carry on the "great heritage" of President Kennedy and Chancellor Konrad Adenauer, the two newest Western leaders spend two hours in private. They probed European Common Market tariff walls and such problems as Red-encircled Berlin.

Erhard expressed anew his nation's sorrow over the assassination of President Kennedy. Johnson, in a lunch toast, referred to "sorrow because of a great loss."

Both men, new to their jobs, sounded a note of "new hope" for world peace and freedom and set right to work on their arrival at the LBJ ranch.

White House press secretary Pierre Salinger said they went over a "wide range of subjects—the current situation in Europe, in Berlin, and the general of subjects—the current situation Europe, in Berlin, and the general situation involving Germany."

Confer With Advisers

After lunch, Johnson and Erhard went into session with their advisers, including Secretary of State Dean Rusk and West German Foreign Minister Gerhard Schroeder. Rusk and Schroeder met separately during the morning.

Johnson and Erhard, who represents a member of the six-nation European Common Market, took up the question of greater access to European markets for American farm products.

"They discussed the strengthening of the Atlantic Alliance, Salinger said, "including mutual defense problems—bi-lateral as well as NATO problems."

The private meeting gave Johnson and Erhard an opportunity to discuss such problems man-to-man.

It also was a chance for the two chief executives to size up and get to know each other in the rural, home-like atmosphere of the ranch.

Talk Through Sunday

The talks continue through Sunday, when Erhard leaves for home.

Johnson set the tone of the meeting:

"It is our duty in these next two days," he told Erhard, "to discuss the great tasks of the future."

"It is our good fortune to build on the work of great men who have gone before — to begin our labor together."

The President said Germans and Americans stand "united against danger and strong in hope" for a solution to East-West tensions.

The formality of the 19-gun welcoming ceremonies at Bergstrom Air Force Base gave way to the comfort of the ranch after a helicopter ride that gave Johnson time to show Erhard the operation of his LBJ spread:

Invasion Rumors Fly As Cyprus Talks Set

NICOSIA, Cyprus (UPI) — British Commonwealth Relations Secretary Duncan Sandys arrived here Saturday on an emergency peace mission sparked by reports a Turkish invasion fleet had been sailing toward Cyprus.

Turkey officially denied the British Royal Air Force reports and said the fleet 20 miles off the northern coast was on NATO maneuvers. But scattered shots Saturday and thunderous roar of three jet fighters buzzing Nicosia at rooftop level just after dawn sent a shiver of fear through the tense city.

Sandys, who arrived with a contingent of British troop reinforcements, made the emergency flight from London after conferring by telephone with Prime Minister Sir Alec Douglas-Home in Scotland. It was reported prompted by fears the strike between Greek and Turkish Cypriots in this former colony might lead to a conflict between two NATO allies.

Residents Will Get Chance To Aid in '63 March of Dimes

"The March of Dimes is offering everyone a chance to get into the fight against crippling disease — one of our nation's most dangerous enemies," said Bill Power, chairman of the Gray County March of Dimes as he announced the 1964 campaign would run from Jan. 2 to 31.

Power reminded residents of Gray County that again in 1964, more than a quarter of a million American babies will be born with significant birth defects. Permanent disabilities and deformities will result in many cases.

"Support of the March of Dimes gives us a direct stake in the work of scientists seeking the means of preventing these crippling conditions," he declared. "In fact, important clues to the causes of certain birth defects have already been turned up as a result of March of Dimes grants.

"Children now afflicted with birth defects profit directly from a nationwide network of March of Dimes — financed treatment centers where the proved treatment is available from teams of medical specialists," Power said.

The March of Dimes is also providing the same superior medical care and supporting an equally sound research program for the benefit of millions of children and adults suffering from arthritis or disabling rheumatic disease.

Power also emphasized that funds are needed for continued aid to thousands of polio victims and for the Salk Institute for Biological Studies now under construction in San Diego, Calif.

The Gray County campaign will include Lefors and McLean as well as Pampa. Ray Chastain will head the Lefors drive, George W. Terry is city chairman in McLean and Norman Henry will lead Pampa.

School Count Will Start on Wednesday

School enumerators will start Wednesday calling at homes in the Pampa Independent School District for the annual school population count.

Jack Edmondson, school superintendent, said Saturday the 12 enumerators will begin the school census taking on New Year's Day to list all children in the district who will be 6 years of age and under 18 years of age on Sept. 1, 1964.

The census is required by state law, and Edmondson said the school board is asking that the public show all possible courtesy to the enumerators.

"Co-operation of the public in assisting in the census will be highly appreciated by school officials," he said.

Census enumerators who will start their work Wednesday include Mrs. L. H. Anderson, Mrs. J. B. Ayers, Mrs. Clyde Batson, Mrs. Jess Beard, Mrs. Dan Cotten, Mrs. William Hahn, Mrs. (See SCHOOL, Page 3)

Cubans Say CIA Blew Up Soviet-Built Boat

HAVANA (UPI) — The Cuban government charged Saturday that U. S. Central Intelligence Agency (CIA) "saboteurs" blew up a Soviet-built PT boat last Sunday, killing three Cuban sailors and wounding 18 in the first act of aggression by the Johnson administration.

A government communique said a mine blew up the PT boat last Sunday in Siguanea Bay of the Isle of Pines and said an investigation showed that the explosive came from a U.S. Navy submarine.

(Last Sunday, an anti-Castro exile group whose spokesman reported from Honduras claimed to have attacked a Soviet vessel in Siguanea Bay.)

The statement by Cuba said the United States was "directly responsible for the bloody and cowardly act against the people of Cuba at the moment they were preparing peacefully and full of joy for the festivities at the end of the year — the rise to power of Premier Fidel Castro.

The communique said the attack was the "first act of aggression since Lyndon B. Johnson occupied the presidency of the United States... and it is logical to suppose that the facts are known and have the full approval of the President..."

"During the night of Sunday-Monday CIA saboteurs using submarine demolition elements similar to those employed during the Second World War mined a PT boat of the revolutionary Cuban navy dock in Siguanea Bay in the Isle of Pines," the communique said.

"It exploded at 7:30 a.m., killing three comrades and injuring 18 other navy members."

It said the blast killed PT boat skipper Alfaerez Fragata and crewmen Leonardo Toribio and Luberta Ney.

RESPONSIBILITY MEASURE TOUGHER IN 1964

Motorists Warned on Safety Law

AUSTIN (Sp) — The director of the Texas Department of Public Safety today reminded motorists that more stringent provisions of the state's safety responsibility law — requiring drivers and owners to be able to pay for damage to others in traffic accidents — become effective January 1, 1964.

Col. Homer Garrison Jr., DPS director, emphasized that the law required the department to suspend the driver licenses and vehicle registrations of drivers and owners who are not in compliance with the law at the time of accident involvement, if the accident comes under the Safety Responsibility Act.

"The law provides that drivers and owners of vehicles involved in traffic accidents occurring or originating on a public street, highway or thoroughfare resulting in \$100 or more property damage, injury or death must file written reports with the Department of Public Safety within 10 days, and its requirements must be met," he explained. "Accidents not involving

death or injury but with \$25 or more damage involved a still must be reported to the Department but will not come under the safety Responsibility Law.

"THE DEPARTMENT is required to suspend driver licenses and all motor vehicle registration plates of both the operator and owner of vehicles involved in an accident coming under the Safety Responsibility Law, unless:

"1. Evidence of liability insurance coverage in the minimum amounts of \$10,000 where one person was injured or killed, \$20,000 where more than one, and \$5,000 for property damage is reported to the Department.

"2. A release signed by damaged or injured persons is filed with the Department.

"3. A signed agreement to pay damages in installments is accepted by the damaged or injured persons, and filed with the Department.

"4. THE OPERATOR and owner are found not to be

liable in a civil court of competent jurisdiction, and a copy of such finding is filed with the Department.

"5. The operator and owner deposit with the Department cash or bond security in an amount sufficient to cover any judgment for damages resulting from the accident that might be obtained by damaged or injured persons, which in no case shall be less than \$200."

In addition, the operator and owner must file proof of financial responsibility for the future and must maintain it for five years.

Garrison noted that under the new law, suspensions of licenses and registrations will be for a period of two years, unless the requirements of the Safety Responsibility Act are met.

HE SAID THAT when a person's driver license is suspended or revoked under any Texas law because of a conviction on a serious traffic charge, the Department is required to suspend such per-

son's motor vehicle registration, unless he immediately files proof of financial responsibility for the future.

In addition to other statutory filing fees required, a \$10 reinstatement charge has been provided for restoration of suspended license and - or vehicle registration in those cases where proof of financial responsibility for the future must be filed.

Garrison listed these exceptions where the law does not apply:

1. The law does not apply to the owner of a vehicle if it is involved in an accident while being driven by another person without the owner's consent.

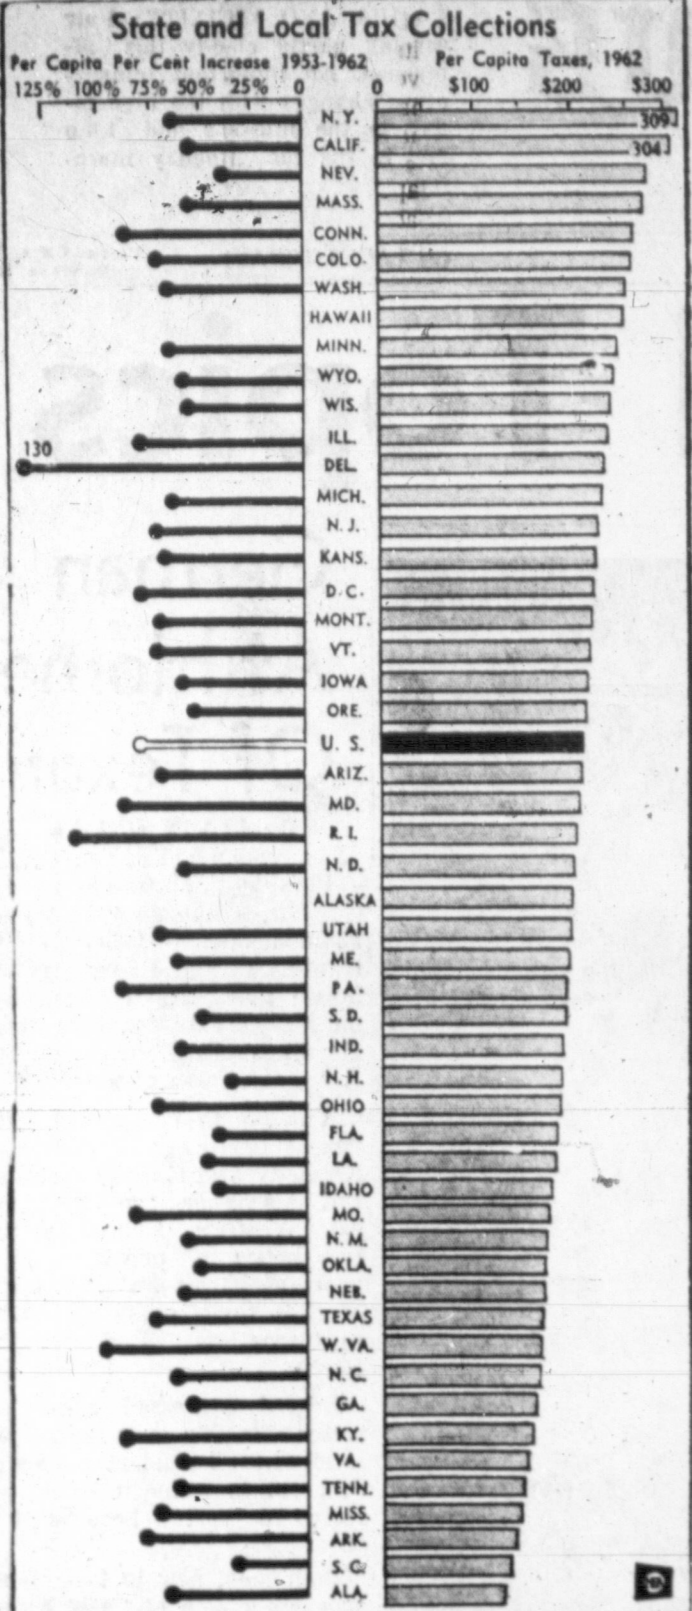

2. If the operator or owner involved in an accident is the only person damaged or injured.

3. If the vehicle was legally parked or stopped at a traffic signal at the time of the accident.

4. If the vehicle involved was being driven by an employee of the United States Government in connection with official duties.

LED TO SAFETY — Greek Cypriot troops lead Greek families to safety during shooting incidents between the Greeks and Turks in Nicosia, Cyprus. The Turkish flag was taken from Omorfital stronghold, from which the Greeks chased the Turks. Troops under British command are patrolling the streets of Nicosia to enforce a cease-fire between Greek and Turkish Cypriots. (NEA Radiophoto)

TAXES, TAXES, TAXES—State and local taxes averaged \$223 for each person in the United States in 1962. This was an increase of more than 66 per cent since 1953. Total state and local tax take was over \$41 billion. Leading the way was New York, with a high of \$309 per person; low was Alabama with \$132. Taxes increased faster in Delaware than in any other state, rising 130 per cent since 1953. Smallest increase was in New Hampshire: 29 per cent. Data from National Industrial Conference Board.

Foreign Commentary

By PHIL NEWSOM
UPI Foreign News Analyst

The violent demonstration of African students against racial discrimination in the Soviet Union was an embarrassment to the Russians because it tarnished their image as champions of black Africa.

It also came as a shock to many Russians who saw the demonstrators surge to the very gates of the Kremlin, within sight of Lenin's tomb, in the first such outbreak in 40 years.

It led the Soviet news agency Tass to warn that "anyone who does not want to abide by (our rules and laws) is free to leave our country at any time."

In the battle to win men's minds, both the Communist and the Western nations have relied heavily upon education as part of their strategy.

The magazine East Europe, published by the Free Europe Committee, estimated in its March issue that there are about 30,000 foreign students in the Communist bloc, including Red China.

At the same time, it said, there are 158,000 foreign students in the four principal Western countries—the United States, Britain, West Germany and France.

Problems Common

On both sides of the Iron Curtain, the problems of the foreign student may have elements common to all. These would arise from differences of custom, and especially the sensitivity of the underdeveloped nations.

But in the Soviet Union and the satellites it is clear that many Africans are not getting the treatment they were led to expect.

In Moscow the students were protesting the death of a Guantánamo student allegedly slain because he planned to marry a Russian girl.

The Russians said he had been drinking, fell down and froze to death.

Not The First

It was not the first African protest against Soviet discrimination.

In 1960, when the Russians quashed an attempt to organize an all-African students' union, three of its leaders later published an "open letter" which declared:

"For Soviet leaders to pose before the world as champions of oppressed Africa while they oppress millions in their own country and their satellites is hypocrisy at its worst."

The students further declared their "wish to stress the great danger communism is to true Africanism."

Among their complaints was one that the Soviet authorities refused to permit imports of books and jazz records.

But of deeper significance were other protests against Communist political indoctrination which denied diplomas to those not adept in the slogans of Marxist-Leninist doctrine.

Same Elsewhere

In Hungary and Poland, African students have protested their isolation. In Bulgaria 25 Ghanaian students left school protesting not only their isolation but also the discrimination and indoctrination to which they had been subjected.

In Czechoslovakia, the official Communist newspaper found it necessary to warn against attacks on African students and to deny that they were living in luxury at the expense of the Czech people.

News of the Moscow incident received wide distribution in West Africa. Nigerian dailies accused the Soviets of preaching tolerance but practicing racial discrimination.

NEW YEAR'S CARD

LOS ANGELES (UPI)—The city of Los Angeles, which of ten claims the biggest and the best, this year claims it will have the nation's largest New Year's card.

Office lights from the 10th to the 22nd floors on three sides of city hall will form a 6 on top of a 4, 175 feet high and 80 feet wide from dusk New Year's Eve until dawn of Jan. 2.

Pope Paul's Itinerary Announced in Israel

JERUSALEM, Israel (UPI)—Israeli authorities have announced the official itinerary for Pope Paul VI's pilgrimage to Christian shrines in Israel next week.

The pontiff is scheduled to arrive from Jordan at the town of Megiddo, 18 miles southeast of Haifa, on the morning of Jan. 5. Israeli President Zalman Shazar, Premier Levi Eshkol, other Israeli ministers and five senior members of the diplomatic corps will meet the Pope at Megiddo.

Shazar is to welcome the Pope in Hebrew, presenting him with a special medallion struck in his honor. Pope Paul is to be driven to Nazareth to pray at the Grotto of the Annunciation—reputedly the site where an angel appeared to announce the forthcoming birth of Jesus Christ to His mother Mary.

From Nazareth, the Pope will proceed to Mount Tabor, stopping there at the Basilica of the Transfiguration, revered as the place where Jesus is believed to have ascended with three of His disciples.

The Pope and his party will then proceed to Tabgha to tour the Church of the Loaves and Fishes and will go on to visit Capernaum, in whose synagogue Christ is said to have taught.

Pope Paul will dine and rest on the Mount of Beatitudes, traditional site of the Sermon on the Mount and Jesus' selection of His apostles.

He will then go to Jerusalem, where he will visit the room of the Last Supper on Mount Zion and see the Abbey of Dormition.

The final stop will be at Mandelbaum Gate, separating Israeli-held Jerusalem from the old city, which lies in Jordan. The Pope will take leave of the same dignitaries who greeted him at the start of the visit and then return into Jordan.

Methodist Church Sets Recognition Day for Students

AMERSHAM, England (UPI)—One hundred members of the League Against Cruel Sports tried to sabotage a fox hunt Thursday by laying false trails, but it didn't work.

The hunt ran three foxes to the ground—two were set free and the third got away.

will provide the special music, singing "I Walked Today Where Jesus Walked" by O'Hara.

The theme of the service is "Methodism Ministers to College Students." Those participating in this portion of the service are John Johnson, Texas Tech; John Wagoner, McMurry; Vince Johnson, West Texas State and Linda Key, SMU.

Other students participating in the service are Donnie Ayers, Texas A & M; Richard Bowers, Tarleton State and Wayne Denson, Eastern New Mexico.

The Youth Choir will also provide special music for the service.

Student Recognition Day will be held at First Methodist Church this Sunday with the college students in charge of the 7 p.m. worship service. This is an annual observance when Methodist Churches accord recognition to the many students attending colleges and universities all over the nation.

Raymond Nance of Texas Tech will preside over the service with Bill Don Eads of Rice leading the congregational singing. Mary Ellen Williams of SMU will play the prelude and accompany the congregational singing at the piano.

Miss Bettie Tatum, senior at McMurry College in Abilene

Strongarm Help Needed to Move Van Cliburn's Piano

STONEWALL, Tex. (UPI)—Principal Harvey Eckert called for help Saturday to get an 1,100-pound grand piano into the narrow door of his Stonewall school gymnasium.

Newsmen and neighbors volunteered and they managed to put Van Cliburn's piano in place for a Sunday afternoon performance honoring West German Chancellor Ludwig Erhard.

Eckert, 28, and two piano movers from San Antonio who brought the instrument to Stonewall couldn't handle the job by themselves. The front door of the gym, a surplus World War II Army building, was too small so they took the piano to the back of the two-story white frame building.

Short of manpower, Eckert asked three newsmen covering the event to help out.

Eckert also telephoned his father's garage in Stonewall and three husky mechanics responded.

The piano tuner pitched in for

Greeks Open Inquiry on Ship Burning

ATHENS (UPI)—Greece opened an official inquiry Saturday into the burning of the cruise liner Lakonia by questioning its captain, Mateos Zarbis. The inquiry coincided with new charges by passengers the crew panicked and looted their cabins.

George Phokas, a special magistrate with the mercantile marine ministry, questioned Zarbis in the harbor master's office at Piraeus, the port of Athens. He also questioned 15 other members of the crew of the 20,314-ton liner which caught fire in the Atlantic last Sunday.

No information is being issued during the course of the investigation, expected to last several more days, but a statement will be issued at the end of it.

Zarbis, who was in tears when he reached the Canary Islands earlier this week on a rescue ship, and members of crew have denied allegations against them by survivors from the disaster in which 91 persons were killed and 64 missing.

But 56 of the Lakonia passengers, who were mostly British, arrived at London Airport Saturday from Lisbon with further claims of "panic and looting" by crew members.

Passenger W. Scott of London said "there certainly was" looting. He said one fellow passenger accused a member of the crew outright when he was found "selling bits of jewelry" in Madeira, where survivors were taken.

Wheat Sale To Russia Near at Hand

WASHINGTON (UPI)—The first direct sale of U.S. wheat to the Soviet Union appeared today to be near at hand.

Continental Grain Co. of New York was granted export licenses by the Commerce Department to sell \$40.6 million worth of surplus U.S. wheat to Russia.

Continental was understood to have requested the licenses to have them in hand when its representatives go to Moscow to continue negotiations on a wheat sale.

The firm still is engaged in negotiations with the Russians. Undersecretary of Commerce Franklin D. Roosevelt Jr. said, however, that issuance of the licenses Thursday showed that consummation of the wheat deal was "strongly anticipated."

Final U.S. government approval of the sale will not come until the Soviets submit a statement that the wheat will be consumed within Russia and will not be re-exported. This is a routine part of all such transactions.

Commission Sets Routine Agenda

Only routine matters are listed on the agenda for Tuesday's meeting of the Pampa City Commission.

Commissioners will be asked to approve tax service contracts between the City and Gray County and between the City and Pampa Independent School District.

Bids will be opened for the purchase of two new police patrol cars and authorization is expected for payment of an invoice from Continental Oil Co. for \$963.47 in gasoline and oil purchases for city equipment.

Court News

COUNTY COURT
Estell Braden, 732 N. Banks, pleaded guilty to swindle by worthless check, fined \$500 and 30 days in jail.

Elvis Olsen Wilkerson, Pampa, driving while license suspended, pleaded guilty, fined \$50 and costs.

J. L. Warren, Allison, Tex., driving while intoxicated, pleaded guilty, fined \$100 and three days in jail.

Obituaries

Jeffrey Lloyd Shapley
Graveside services for Jeffrey Lloyd Shapley, one-day old son of Mr. and Mrs. Jack L. Shapley, 1113 Murphy, who died Friday at 1:20 p.m. in Highland General Hospital, will be held tomorrow at 11 a.m. in Shattuck Cemetery in Shattuck, Okla.

The infant is survived by his parents, one sister, Marilyn; grandparents, Mr. and Mrs. Frank Grisler, Pampa; Mrs. E. D. Todd, Amarillo; great-grandparents, Mrs. J. E. Bennett, White Deer; Mrs. Eloma Shapley, Shattuck; C. W. Jones, Woodward, Okla., and great-grandmother, Mrs. Mary Jones, Arnett, Okla.

Mrs. E. O. Sneed
Funeral services for Mrs. E. O. Sneed of Dallas, mother of Mrs. Russell Kennedy of 205 N. Sumner, will be held Sunday in Rockwall.

Mrs. Sneed died Friday in Dallas where she resided.

Besides Mrs. Kennedy, she leaves a daughter, Mrs. Richard Allison of Houston, and five grandchildren.

Basil Chapman
McLEAN (Sp) — Basil Brent Chapman, 64, of Keller, died Saturday in Shamrock after a short illness.

Chapman was born in Dallas county and moved to Keller from Oklahoma in 1935. He had been a field superintendent for Royal Oil and Gas at Keller, having worked for the firm 40 years.

He was a member of the First Baptist Church of McLean and the Masonic Lodge.

Survivors include his wife; a son John Chapman of Iowa Park; a daughter, Mrs. Earl Tarbet of McLean; four sisters, Mrs. Oscar Dodgin of Mesa, Ariz., Mrs. Homer Simmons of Sapulpa, Okla., Mrs. Bob Heflin of Pawhuska, Okla., and Mrs. Lee Dudley of Oklahoma City; his mother, Mrs. Lewis Chapman of Sapulpa, and eight grandchildren.

Services are pending at the Land Funeral Home in McLean.

GREETING VISITOR — J. V. Johnson, left, regional merchandising manager of Kansas City is shown as he was greeted by W. G. McComas, manager of the local Montgomery Ward store, as Johnson and 14 other Ward's officials arrived Thursday morning at Perry-Lefors Airport. (Daily News Photo)

Patriarch Asks Visit With Pope

VATICAN CITY (UPI)—The first official envoy of the Eastern Orthodox Church to call at the Vatican in five centuries told Pope Paul VI Saturday that Patriarch Athenagoras I wants to meet the pontiff in the Holy Land next month in an historic move to restore Christian unity.

Vatican City sources had made it clear the pontiff would like to meet Athenagoras. But this was the first official Orthodox statement of a desire to meet the Pope during his Holy Land pilgrimage beginning Jan. 4.

Patriarch Athenagoras is the most powerful of the several leaders of Eastern Orthodoxy, millions of faithful throughout the world.

The Eastern Orthodox envoy, the metropolitan of Thiakiron, conferred with Pope Paul for a half hour. He told the Pope in a formal address that the pontiff and Athenagoras were "called to climb the same mountain—the mountain of the Lord—from different sides."

"Those who understand the meaning of this double ascent, the metropolitan said "pray that they meet on the top, on the ground sanctified by the common Redeemer, near His cross and His empty tomb and that they from then on walk together, trying to rebuild in Christian solidarity the broken bridges, so all may be as Christ is, one with the heavenly Father."

The last official contact between the two branches of Catholicism occurred in 1439 at the Council of Florence. The Roman Catholic Church and the Eastern Orthodox Church split in 1054.

Police Check Two BB Gun Incidents
A window glass at the home of Mrs. G. H. Moore, 2117 Hamilton St., was shattered Friday afternoon by what police termed "either a BB or pellet shot."

The incident was the second such case reported to Pampa police during the afternoon Friday.

Mrs. M. G. Scott at 2128 N. Sumner told police that a group of small boys were shooting BB guns in the 2100 block of N. Sumner. Officers who investigated talked with the parents of the boys involved and received pledges that no further incidents would occur.

Don Lane Takes Over in Kiwanis
Malcolm Douglass, president of the Downtown Kiwanis Club for the past year, presided at his final meeting Friday and turned the gavel over to incoming president Don Lane.

Also presented to the club were Tom Beard, first vice president, and Bob Carmichael, second vice president.

The new club officers will be installed at the club's annual banquet in the Coronado Inn Starlight Room at 7 p.m. Thursday, Jan. 16.

Club directors will hold their regular monthly meeting at 6:30 p.m. Thursday in Lovett Memorial Library.

US to Maintain Units in Korea

WASHINGTON (UPI)—The United States will maintain two infantry divisions in South Korea for the foreseeable future despite recurring reports that one division soon will be brought home, U.S. officials said today.

There are no current plans, officials said, to transfer either the 7th Infantry Division or the 1st Cavalry Division which are helping the Korean army guard the truce line against another attack by North Korean or Chinese Communists.

IN CASE OF MISFIRE—Before American astronauts can make a successful trip to the moon, it has to be proved that they can survive an unsuccessful one. A "boilerplate" (sheet metal) model of the three-man Apollo capsule is placed in position, left, at White Sands Missile Range, New Mexico, for an abort or malfunction test. Large escape rocket is attached to nose of the capsule. Sequence drawing, right, shows escape rocket ignition, escape rocket jettison, drogue chute release, main parachutes in reefed condition and finally fully open. In actual moon trip launch, Apollo capsule will sit atop a giant Saturn rocket 350 feet above the ground at Cape Canaveral.

Signs Proclaim Peaches First

JOHNSON CITY, Tex. (UPI)—Signs near President Johnson's ranch welcome travelers to Johnson City as "Peach Center of Texas" and "Home of LBJ," in that order.

His neighbors admire, love and respect the President. But Johnson City had peaches long before its favorite son became President.

Johnson went to school and votes in Johnson City, a town named for his grandfather. The President was born at another nearby town, Stonewall, which also considers itself the peach center of Texas.

At least 28 per cent of the world's land area was covered by ice at height of the glacial age, according to Encyclopaedia Britannica.

WE ARE PREPARED FOR THE NEW YEAR'S PROBLEMS

Operating a pharmacy is more complicated than in the past. Instead of having to stock a few hundred herbs and chemical as in the past we now have more than 4000 different prescription medicines in stock. The odds are that the ingredients in your last prescription were not known five or ten years ago. We will continue to add new discoveries as soon as they are available, so we will be able to fill any prescription, even those prescribed by physicians in other cities.

YOUR DOCTOR CAN PHONE US when you need a medicine. Pick up your prescription if shopping nearby, or we will deliver promptly without extra charge. A great many people entrust us with their prescriptions, May we compound yours?

MARRIAGE LICENSES

Danny Max Hogart and Susan Marie Lyons

san Marie Lyons

Cecil Ray Colium and Sharon Elaine Virden

RECORD TIME

We're approaching that time of the year when you'll start riffling through stacks of old checks, receipts, statements, ect., to see what you can do to whittle down your income tax. If you're like the average Texan, the record-sorting will be quite a chore, for most people overlook the advantages of a simple record-keeping system.

Used to be a family's important data was confined to the flyleaf of the family Bible. But life's gotten complicated since then.

Now you need to keep track of birth certificates, insurance policies, social security, income tax matters, automobile titles, etc. You can make life easier for yourself, and your family when you are gone, if you follow a few simple rules in setting up your do-it-yourself record system.

1. Get a heavily bound notebook folder or file folder as a central collecting point for all the records of your affairs.

2. Put your especially important papers in your safe deposit box, but make a list of those papers and a brief summary of their contents to put in your home file.

3. Get for your files copies of birth certificates for all members of the family. Add your marriage license or at least a statement as to when and where you were married and by whom.

4. Insert your will or a copy of it. If your will is kept elsewhere, include a note telling where it may be found.

5. During the year, put into the file your income tax withholding statements and receipts for expenditures which may be deductible. Then keep a copy of each year's tax return in the file.

6. Make a list of all the stocks and bonds you own and where they are.

7. List all the places you have lived and worked and the names of persons there who you know. Include the schools you have attended and the dates you left or were graduated.

8. If you may have benefits coming under a profit-sharing plan where you work, make a note of that too.

9. If you're in doubt about whether an item should be included, put it in.

This takes time initially, but it will save you both time and worry in the long run.

(This newfeature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

Whatley Promoted To Captain's Rank

7TH INFANTRY DIV., Korea (Spl) — David T. Whatley, whose wife Cynthia, of Amarillo, was promoted in mid-November to captain in Korea, where he is assigned to Headquarters, 7th Inf. Div. Artillery. Captain Whatley entered the Army in February 1960, was last stationed at Fort Sill, Okla., and arrived overseas in September 1963. The captain, son of Mr. and Mrs. Calvin T. Whatley, 1120 Starkweather, Pampa, is a graduate of Pampa High School. He is a 1959 graduate of West Texas State College, Canyon.

Wall Street In Review

NEW YORK (UPI) — Bradbury K. Thurlow of Winslow, Co. & Stetson continues to maintain that the present stock market strength is deceptive and that profit-taking will bring in lower prices after the turn of the year for the issues doing so well in recent trading.

Thurlow feels that many of these issues should be good short safe candidates between now and the end of the year.

Thurlow believes the withdrawal of selling pressure from the market has created the illusion of strength and scarcity, "an illusion that has been further enhanced by extensive short covering in stocks that have risen in order to establish taxable losses for the year, before the rates are cut."

Investors Research Co. believes the first decisive buying opportunity since July may occur in the early part of the new year. In the meantime, the firm suggests, cash reserves should be maintained until technical studies indicate general buying is about ready to begin.

The International Statistical Bureau says the 1963 record high may be topped in the coming year, but not by a very substantial margin. The firm believes the leaders will continue to turn in good performance but secondary and speculative issues should move up better than they have recently.

NEW YORK (UPI) — G. S. Colby of Colby & Co. Inc., says it is only prudent to recognize that the market is vulnerable to additional near term irregularity.

However, Colby doesn't see the present trend developing into a serious decline, but rather as a prelude to a substantial advance. He recommends waiting for the situation to clear a little more before "jumping the gun with a hard and fast conviction either way."

Kenneth Ward of Hayden, Stone & Co. suggests investors be patient with depressed, dormant issues. Ward feels that as long as the favorable outlook which prompted the original purchase remains unchanged, they should continue to be held.

YOUNG TEXAN FOR NOVEMBER — George Matthews Fleming, 17-year-old president of the senior class at Kirwin High School in Galveston (he lives in nearby Texas City), has been chosen by Texas Optimist Clubs to receive the Troy V. Post Award designating him Young Texan of the Month. George is an outstanding scholar—member of the National Honor Society—student leader, Boy Scout, orator and church worker. He is president of the Galveston-Houston Diocese Catholic Youth Organization, was on the state championship debating team one year. George is also an excellent swimmer and letterman on the Kirwin baseball team. As winner of the award, Fleming becomes eligible for one of three valuable scholarships to be awarded monthly Young Texas winners at year end. Fleming was chosen in competition from other nominees throughout the state by a panel of state leaders headed by U. S. Supreme Court Justice Tom C. Clark.

"Two years ago we sent them a card; last year we didn't send one to them, but they sent one to us, and this year we sent one to them, but..."

Reporters Rush To Central Texas

By VERN SANFORD
Texas Press Association
AUSTIN — When President Johnson said "I'll be home for Christmas," he made "AUSTIN" a world dateline—and he changed the plans of a lot of newspapermen.

Reporters from all over the nation preceded, accompanied and followed the President to Central Texas.

European newsmen will arrive soon after Christmas. They will be here for German Chancellor Ludwig Erhard's Dec. 28-29 visit to the President's famous LBJ Ranch near Johnson City.

Johnson's plans to confer with Erhard, in Texas, had been known for some time. But, his announcement that he planned to spend Christmas with his family at the Ranch was a surprise.

SHOWS OFF RANCH — In his first trip to the LBJ ranch at Johnson City, Tex., since he became President, Lyndon B. Johnson points out spots of interest to newsmen and visitors during a tour of the 415-acre ranch. The President and his family are spending the holidays at the ranch. (NEA Telephoto)

Paychecks Due Boost Over Most of Nation

NEW YORK (UPI)—In most parts of the United States workers can count on fatter paychecks in 1964. Business Week said Thursday.

There are exceptions. Indiana will be hit by the loss of the Studebaker automobile payroll. Cancellation of Dyna Soar will hurt Seattle, where the Boeing Co. contributes so much to the local economy, and phasing out of some of Republic Aircraft's contracts has created jobless-

ness on Long Island in the New York metropolitan area.

People dependent on defense industries elsewhere are nervous at the fendency of Secretary McNamara and Congress to slash military outlays.

But, in spite of this, Business Week said, if there is no international crisis and no great wave of labor strife, 1964 should produce an increase in personal income matching or bettering this year's 5½ percent gain.

The auto business and construction will pace the big industries contributing to personal income rise in the new year, the magazine said.

FINGER FUN—New York Giants' linemen Dick Modzelewski, left, and Jim Katcavage loosen up at Yankee Stadium by playing an old finger game, in which each contestant shoots out an undisclosed number of fingers on one hand and shouts out what he hopes will be the total of fingers shown by himself and his opponent. The Giants will do more serious training than this for their National Football League championship game against the Bears at Wrigley Field in Chicago Dec. 29.

Johnson Agrees On Latin Work

WASHINGTON (UPI)—President Johnson has told Sen. Ralph Yarborough, D-Tex., that "I am convinced we have no more important work than what we must do in the hemisphere among our good neighbors to the south."

Yarborough had written Johnson with suggestions of what could be done for Latin America. Johnson, in a letter dated Dec. 20, answered Yarborough:

"I agree with you on the ne-

cessity of showing the workers in Latin America the leadership and benefits of our free, anti-Communist trade unions — and have directed Tom Mann (Appointed as assistant secretary of state for Latin American affairs; to make full use of this resource of talent.

"I also hope we can bring more Latin students to our campuses. I should like to see the enrollment at our universities on the increase. Our exchange programs are most important."

SCIENTISTS PROBE WHISKY

LONDON, England (UPI)—Scientists the world over have been unable to figure out how the Scots make their whisky, a British biochemist said today in the weekly journal "New Scientist."

"The production of whisky is undoubtedly an art, and all attempts to produce it by a scientific approach have proved futile. Nobody has been able to reproduce it outside of Scotland," Dr. Eustace Barton Wright said.

Economy Gain Seen Despite JFK Shooting

WASHINGTON (UPI)—The nation's economy is expected to show "a fair-sized gain" this year despite a brief slowdown following the assassination of President John F. Kennedy.

That was the Christmas Day word from the Commerce Department which reported that an upturn in steel production paced a continued slow advance in business activity in November.

"There was a temporary interruption in the tempo of economic activity for a period immediately after the assassination of President Kennedy," the report said.

"The upward momentum was resumed, however, reflecting basic underlying strength of the economic forces."

The Office of Business Economics cited these signs of economic strength in its monthly review.

—Retail sales showed a quick recovery in the first week of December, following "sharp and widespread declines" immediately after the assassination.

—Iron and steel production continued the rise begun in August. The spurt was due to renewed buying by steel consumers, whose inventories were running low.

—The automobile industry produced 875,000 cars and trucks

in November — a record for the month — despite temporary work stoppages at some important plants.

—Construction of homes and apartments also picked up last month.

The department said that business confidence has been bolstered by prospects for a tax cut. The administration's \$11 billion tax cut bill, approved by the House, is now before the Senate Finance Committee. But the measure is slated to take effect Jan. 1, even if Congress doesn't get around to passing it until months later.

READ! THE TRUE FACTS: WHY SOME WOMEN LOOK YOUNG AT 50 WHILE OTHERS LOOK OLD AT 35
by Helena Rubinstein
Creator of Ultra Feminine, the unique face cream that reduces lines and wrinkles due to dryness, starts you looking younger today.

Just as some girls reach adolescence at 12, others at 14 or later, you and I know that women show signs of age at different times. Some begin to age as early as 35, while others seem forever young. It depends greatly on individual skin and body chemistry, and each woman's supply of estrogen and progesterone, natural substances plentiful in youth, but diminished in later years. (See chart.)

HOW ESTROGEN AND PROGESTERONE PRODUCTION DECLINES WITH AGE

Because there are no substitutes for nature's youth-giving properties once they are lost, we have sought to return to aging skin two of these natural substances, estrogen and progesterone, in a face cream. Ultra Feminine® is the only face cream that contains both of these female requisites.

These substances cannot be stored by your skin, so results depend on daily use. Ultra Feminine works within the skin... gives a daily replenishment of estrogen and progesterone. When you use Ultra Feminine regularly, oil glands produce at a more youthful rate! Skin cells can hold maximum moisture! You will find that lines and wrinkles due to loss of oil and moisture are reduced! The skin's surface becomes soft, smooth; younger skin tone is restored. Yes, your skin looks younger! No other face cream, no matter how high-priced, can make these claims for effectiveness.

If you are 35 or older, I recommend that you begin Ultra Feminine treatment for your skin now! And I make this Guarantee: Use it faithfully for 30 days. Your skin *must* look younger, or your money back.

ONCE-A-YEAR SALE

Now—because Helena Rubinstein believes that Ultra Feminine® is her greatest cosmetic achievement—she makes this special offer to introduce it to more women. Your first jar will convince you that you can look younger! Use Ultra Feminine every night!

This season's sporty look is made up of many layers, with the blouse as the basic item that ties the costume together. Soft poet's collar and billowing long sleeves lend a romantic air to the sheer lawn blouse (left) by Detti. Bow is detachable. Haymaker creates a men's wear mood (center) in silky striped broadcloth with long sleeves and ascot tie. Turtle-neck shirt and chic country ensemble (right) by Deeb's is in poplin and broadcloth. The jacket itself has strong shirt tendencies with cuffs that really button. Supima cotton used in all these designs.

Blouse: Key to Layered Look

By HELEN HENNESSY
Women's Editor

Newspaper Enterprise Assn. NEW YORK (NEA) — This year fashion togetherness goes separate ways. The all-in-one look has been replaced with the layered look. Everything starts with two parts and adds up to three and four.

The new, casual, country attitude toward dressing makes unmatched separates an important part of the fashion scene. Vests are getting great play in velvet, tweed, suede, wool and even shiny satin. They are mated to panel front or softly gathered skirts in any material that is different from that of the vest. Jackets become the third party.

With all this imaginative mixing, blouses are receiving attention they haven't enjoyed for years. Nearly everything you buy for daytime wear this winter will need a good-looking blouse to carry out the spirit of the sportive splurge.

Chanel can probably be credited with starting this whole trend years ago. Sportive is her signature, and she has never deviated from it.

Cotton is one good choice of fabric for the all-important blouse. If your costume needs a delicate touch, fine lawn will be ideal. For a sportier effect choose a silky men's wear striped broadcloth. And you'll enjoy the easy-care qualities of

a solid color broadcloth turtle-neck blouse to wear with any jacket that is collarless.

The word for the season is indispensable required to pull neck blouse to wear with any mix. If it's dyed to match it's the whole lovely jacket that is collarless. not new. Your blouse is the one look together.

Whajamean, Donunerstan?

By ALICIA HART
Beauty Editor

Newspaper Enterprise Assn. NEW YORK — Angela Martin, a young ventriloquist, wants to start a new teen-age fad — good diction clubs. If you think Angela is a raisin to suggest this, just listen to your friends. Or, use a tape recorder to hear your own voice. Is it raucous or weak? Do you mumble or swallow your words?

Angela points out you can, and should, correct bad diction. "Using your voice properly is like being well-dressed."

The human voice is like an instrument, she explains, and can be beautiful or ugly, depending upon how it is used. Fortunately for her, she stumbled onto the fun of voice-throwing when she was a child and has spent much time practicing and studying voice control.

"A basic problem for most of us," she says as a fellow teenager, "is our failure to use our lips and tongues enough. We don't enunciate. We just slur over the words."

As a ventriloquist, she must enunciate "through" her dummies, with her mouth closed. This helped improve her speech. "It's really belly or stomach talking," she explains, and suggests teen-agers learn to use their diaphragms to help improve their voice quality.

Your diaphragm is that membrane between the lungs and the stomach where hiccups originate. To develop its use, lie flat on the floor and place a book or two over the area. Now take a deep breath. The book should rise. Hold your breath, count to 10 and exhale. Do this as a regular exercise, start with 5 and work up, and you soon will have the kind of breath control essential to better speech.

Pert and pretty, Angela lives with her parents in Astoria, N.Y., a subway ride from Manhattan where she appears as singer-ventriloquist on television and in night clubs. She also writes pop music for Bobbie Darin's company.

"Often on weekends with my gang," she says, "I'm slangy and my diction slips."

"Slang is all right," she feels, "but it can be a problem. You get so used to calling someone a 'fink' and such that you don't build much of a vocabulary."

Fortunately for Angela, she needn't worry. Extremely articulate, she suggests teen-agers can overcome voice problems before reaching 21. Train your voice, learn to be yourself, and relax, she says.

"To find the true quality of your voice, she explains, relax your jaw, yawn and say 'ah,' 'ee,' and 'oh.'"

The tone you hear is your true pitch. Try to work for this rather than speaking in a monotone. To help you do this and develop a more pleasing voice, read the newspaper aloud each morning. Books on yoga and speech are good aids if you do not have a speech therapist in your school to help.

The wire hanger is fine for the dry cleaner, but not as a permanent fixture in the closet. A strong, contoured wooden hanger is the proper type. It protects line of clothes, leaves no unwanted ridges, doesn't rust and lasts for years.

Music Students Present Piano Recital Series

Music students of Bill Haley recently participated in four informal recitals in the home of Haley, 1013 Mary Ellen.

In the first performance, Christie Whaley, Patrick Homer, Paula Homer, Dixie Bond, Honey Jo Bond, Judy Fugate, Betty Supina, Locke Braly, Billy Davis, Dorothy Davis, Deborah O'Neal, Mark McClelland, Cindy Roebuck, Nancy Ousley and Joe Crowell presented selections. Iris Page, Bruce Brown, David Hampton, Matt Hampton, Jeanne McKeon, Letitia Rutledge, Randy Specht, Sue Turner and Ricky Harris were on program during the second recital held Dec. 13.

Appearing the following Monday night were Helen McDaniel, Ellen McDaniel, Richard Stowers, Susie Stowers, Penny Powers, White Deer, Patsy Kelley, John Paul Bowers, Jeanne Jennings, Jimmie McDowell, Harriet Moore, Robin Vail, Terry Curley, Cara Thomas, Cindy Curry, Pam Ludeman, Jan McPherson of LeFors; Jo Clair Wilkerson, Dianna Edminister, Terry Heare, Stephen Heare and Grant Gething.

Playing Tuesday night were Cynthia Gill, Della Epps, Rebecca Spradin, Beverly Hackley, Sharron Hackley, Carol McAndrew, Debbie McAndrew, Mike Phillips, Mickey Mabry, Dianne Thomas, Patty West, LaJohnna Sears, Patty Price and Louise Turner.

Another group of students is scheduled to present a recital in January.

We're Turning Into Nation of Sitters

CHICAGO (UPI)—Americans are spending more time than ever sitting down, a study by a chair manufacturer reports.

By the time you reach 70 years of age you will have spent 37 of those 70 years sitting down, compared to 31 for an earlier generation, says Futurian Manufacturing Co.

Housewives, waiters and waitresses, salespeople, farmers, construction workers and others in comparably active occupations do a little better, but even they are likely to put in 28 years sitting down, compared to 23 a generation back, the report said.

Company president Morris Futurian sees modern technology as the reason for the increase in sedentary living. "Automation has put more and more people into desk jobs, and where there's a desk, there's a chair. The farmer, whose father walked behind a plow rides on a tractor — sitting down. Housewives today sit down to iron or do dishes," he said.

SCARVES AS GIFTS

Colorful silk and chiffon scarves make perfect gifts. They are fashion favorites this season, on plain dresses and sweaters.

Everything's coming up stripes, polka dots and solids. The biggest splash is being made by white flannel tog.

Dear Abby....

He Should Chip In His Share Now

By ABIGAIL VAN BUREN

DEAR ABBY: The daughter of my husband's boss was married recently and someone in the office decided that a collection should be taken up for a wedding present. My husband said that since we were not invited to the wedding, and didn't socialize with the boss, he didn't want to chip in on the present. The girl collecting the money said he was entitled to his opinion, and she let it go at that. Well, it seems a gift was bought for \$90, and through some mistake, my husband's name got on the card. He got a nice personal "thank you" from the boss himself, but he didn't tell the boss that his name got on the card by mistake, and he didn't deserve any thanks. The office people think my husband should kick in with five dollars since he got credit for being in on the gift. What do you think?

him earn his own. Why should he have things as tough as you had them?

7. Satisfy his every craving for food, drink and comfort. Denial may lead to harmful frustrations.

8. Take his part against neighbors, teachers, policemen. They are all prejudiced against your child.

9. When he gets into real trouble, apologize for yourself by saying "I never could do anything with him."

10. Prepare for a life of grief. You are bound to have it.

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif.

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby, Box 3365, Beverly Hills, Calif.

Credit Women Hold Christmas Breakfast

A Christmas breakfast was held by the Pampa Credit Women in the Starlight Room of Coronado Inn recently.

Ruth McQueary, president, resided during the brief business session.

Ruby Crocker and Virginia McDonald were in charge of table decorations. Linda Martin, accompanied by Sue King, presented two Christmas numbers.

A program was presented by Mrs. Evelyn Nace, accompanied in the background by Mrs. Jessie Rance. Cordelia Mayes offered the invocation.

Members and guests attending included: Ethel Bryan, Laura B. Cornelius, Ruby Crocker, Jerry Hodges, Sharon Johns, Cordelia Mayes, Virgie Wesner, Patti McQueary, Marion George, Elizabeth Lewis, Vi Dunham, Lois Stephens, Virginia McDonald, Bonnie Nickel, Grazia Bolton, Mildred Lewis, Gladys Harvey, Lyda Gilchrist and LaVerne Bayless.

Little girl's dresses now go to great length—all the way down to shoe tops. They're spittin' images of the long at-home dresses boosted by dame fashion for the holiday hostess.

HIS WIFE
DEAR WIFE: Having accepted the unearned "thank you," your husband should kick in with the five dollars.

DEAR ABBY: A girl who works with us got a genuine mink stole from her boy friend for Christmas. What do you think she gave him?

THE OFFICE GANG
DEAR GANG: It wasn't the cold shoulder.

DEAR READERS: The Houston Police Department prepared Ten Easy Rules for Raising a Delinquent. And here they are:

1. Begin at infancy to give the child everything he wants. In this way he will grow up to believe the world owes him a living.

2. When he picks up bad words, laugh at him. This will make him think he's cute.

3. Never give him any spiritual training. Wait until he is 21, and then let him "decide for himself."

4. Pick up everything he leaves lying around — books, shoes, clothes. DO everything for him so that he will be experienced in throwing all responsibility on others.

5. Quarrel frequently in his presence. In this way he will not be too shocked when the home is broken later.

6. Give a child all the spending money he wants. Never let

There are usually lots of walnuts and pitted dates about the house over the Christmas season. The dates are stuffed, used in muffins or eaten as is. The walnuts, of course, belong on the festive board together with almonds and pecans and other nuts mixed together in the holiday nut bowl.

Now, however, we have a recipe from Mrs. P. S., which combines some of those dates and walnuts, plus spices, into a rich pudding. It is served hot and pungent. We like a scoop of vanilla ice cream on top.

DATE-WALNUT PUDDING
package (7½ oz.) pitted dates, finely chopped
1 pint water
1 cup sugar
½ cup butter

½ cup quick-cooking rice cereal
¾ teaspoon cinnamon
¼ teaspoon ground cloves
¼ teaspoon mace
1 can (4 oz.) shelled walnuts, finely chopped

Place dates and water in saucepan, then cover and bring to a boil. Let simmer, over low heat for 5 minutes. Stir in sugar. Meanwhile, melt butter in skillet. Add rice cereal, cinnamon, cloves and mace, then cook, over low heat, stirring constantly until golden brown, about 8 minutes. Add date mixture and walnuts to the browned rice and mix thoroughly. Cook, stirring constantly, until thick, about 4 minutes. Serve warm or cool in sauce dishes with light cream, rich milk, ice cream or as desired. Makes 6 servings.

Colorful, easy-care play clothes make ideal gifts for a toddler's Christmas. "Daddy's Little Angel," says the script on the shoulder of the infant's overall (left) and on the leg is an applique angel to show how feminine a little girl's corduroy playsuit can be. Crazy pants in a gay tulip pattern (center) are teamed with a long-sleeved white cotton knit shirt, with applique cherries on the front. Sleeves are push-up style. For the young man about the house, crawler costume (right) combines corduroy overalls with cotton knit shirt. All designs are by Thomas.

Artists' Designs Apply to the Home

By MARGERY MCELHENY
United Press International
CHICAGO (UPI) — Principles of design used by artists also apply to room furnishings. They include proportion, balance, emphasis, rhythm and harmony.

A "money management" booklet (published by Household Finance Corporation) offers many useful decorating hints based on these principles of art.

To create pleasing proportions in small and medium rooms, select furnishings with slim, simple lines. Use solid colors in light or medium grey tones or small, subtle designs. But avoid large furniture, bold patterns and bright colors of furniture arrangements that divide the room. Reverse the rules for large room.

High ceiling rooms can be scaled down by using darker colors on the ceiling than on walls. Choose furnishings and decorative effects with horizontal lines.

In long and narrow rooms, room dividers, mirrors on side walls, contrasting colors or emphasis on end walls proportion space.

The two types of balance include formal, when items on either side of a center are equal; or informal, when items on either side are placed at different distances from the center.

It is harder to arrange informal balance, but the effect is more interesting.

To achieve emphasis, furnishings should be arranged to draw the eye first to the center of interest and then to every other detail in order of importance.

Tots and Togs Are Washable

By HELEN HENNESSY
Women's Editor

Newspaper Enterprise Assn.
NEW YORK (NEA) — Early Christmas morning the mud-pie set took on the look of well-scrubbed angels who never soil their tiny hands on anything dirtier than a dusty cloud.

But mom knows better. So should you plan to give clothes for a toddler's gift, be sure they are food for the automatic washer.

You won't have to sacrifice color, style or fabric in order to choose a gift that's washable. From vivid reds to plaids and prints and from the daintiest of fabrics to thick pile, all can be found in sudsable styles.

• **Advances**
(Continued from Page 1) of new drugs.

UPSET MIRACLE CLAIMS
Another drug, long controversial, made news. The drug: krebiozen, offered as a cancer cure.

During the year, an analysis of the substance by researchers at the Food and Drug Administration (FDA) turned up evidence that the substance is creatine, an ordinary body chemical known to be of no use in cancer treatment.

The FDA called the evidence "unimpeachable."

On the drug front there was progress. A new pain relieving drug, pentazocine, was in the final stages of clinical research.

It is said to be as potent as morphine but non-addicting.

HOT CLUE
ALONG CANCER TRAIL
A new anti-leukemia drug, vincristine, was introduced. Also developed was a technique for the synthesis of steroids. This could mean that hormone-like drugs could be tailor-made to fit specific situations.

One of the hottest clues along the cancer trail was further evidence that the disease might be virus-linked.

A study of the families of eight Niles, Ill., children ill with the disease in a three-year period and of four other leukemic children showed that in each of the 12 families; one to three persons had leukemia antibodies although they were not found in all 57 non-leukemic members of the families.

"We interpret these findings to mean that exposure to leukemogenic (leukemia-causing) viruses leads to the formation of antibodies in some and leukemia in others," researchers said.

ROBOTS MATCH MEDIC'S WITS
Computers nosed into the medical field more extensively during the year. One, programmed to act as an expert medical consultant, passed its test with flying colors.

The problem tackled by the robot was diagnosing one of three thyroid conditions — overactive, underactive, or normal — on the basis of information supplied on individual patients.

The machine came up with the same answer as the diagnosing physician in 258 of 268 cases. That was 96 per cent on target!

REPORTS SINGE CIGARETTES
Other developments of significance during the year:

—The average daily charge for a hospital bed in the United States increased by \$1. The figure rose from \$18.40 to \$19.40.

Charges varied, depending on the area of the country. In Mississippi, the charge was \$10.60; in San Francisco, \$29.

—American athletes were being used to sing the virtues of non-smoking. Through a series of ads, sponsored by the American Cancer Society, sports stars such as Bob Mathias say, "I don't think anyone who wants to be an athlete should smoke. I can't tell you not to smoke. But before you take that first drag, do me a favor. Take one long, deep breath of fresh air. Then decide." The ads were in the works before the release of several reports citing health risks involved in smoking.

New York City's Health Department, meanwhile, announced a plan for clinics to help smokers stop lighting up.

—The first 25 federal grants under the new mass vaccination program — against polio, diphtheria, tetanus, whooping cough — were announced by the U.S. Public Health Service. Totaling \$3.4 million, the grants went to 18 state and seven city-county health departments to aid in community immunization programs for children under five especially. The program was proposed by President Kennedy in his last state of the union message.

The Clothes Poll

By HELEN HENNESSY
Newspaper Enterprise Assn.

The whole point of the new, low decolletage for evening is to provide us with the sexiest garb worn since Salome donned her veils.

So harken, future sirens, to the low-down on how to take the plunge for spring.

Don't grab the first dress on the rack that's slit to the waistline. You may be taking the wrong plunge.

This bosom-baring act should be approached with an eye to the over-all look. How low the neckline is isn't as important as how its shape looks on you. Be sure you choose a design that doesn't reveal your liabilities.

If, for example, you have prominent collarbones or coin-sized freckles, the narrow, deep slash is the selection that will suit you best.

If your face is full or your neck short, the deep plunge or V-line is your safest bet. Stay away from the rounded shapes.

For the slim chick with oval perfect face there is a wealth of new neckline shapes. She can wear the low, softly gathered drawing, the deep V, the scooped U-line, the split (an almost square neckline that is unexpectedly slit down the center to the waist, and accented with a bow), the circular neck that's cut round and low, front and back, and the keyhole shape.

The market isn't as yet flooded with this bare look, although there were some choices in nearly every spring collection. But designers and manufacturers are now as busy as beavers turning it out, for they saw the enthusiasm with which the few shown were received.

Men love the new decolletage and women love to please men. So this should put an end for a while to the covered-up look for evening.

But remember, it's not enough just to take the plunge. Be wise and take it becomingly.

Chic Chat
Q — "I plan to take a three-week vacation in France and Italy at the end of January. Can you suggest the kind of wardrobe I should take?"

— Martha W.
Dear Martha W. — What you plan to do while in Europe will, of course, have an effect on the clothing you should take. Here is a general list that should prove helpful:

If you are going by air, wear

either a coat and sheath combination or a wool suit with a fur collar. For sightseeing, take two wool sheaths, one a print, the other in a neutral color. For cocktails or dining, take a black knit wool that you can dress up or down.

One long wool skirt with a couple of dressy tops will be fine for the opera or gala evenings.

Take a warm travel coat and a stole for dressy occasions. Your shoe wardrobe should include one pair of evening slippers, one pair of walking shoes and one pair of town pumps. Carry a large, tailored handbag for daytime and take a fold-over evening bag. Remember to include the usual jewelry, scarves, etc.

This list may seem big, but you'll find when you pack that it isn't. And you'll be set for all occasions.

Please send your fashion problems to Helen Hennessy in care of The Pampa News. While she cannot answer each letter personally, letters of general interest will be answered in this column.

Christmas Meet Held by Auxiliary

The D.M.F. Auxiliary of Cities Service Gas Company held a Christmas party and gift exchange recently in the home of Mrs. C. D. Anderson, south of the city. Other hostesses were Mmes. Ed Allen, Robert Brandon, Buck Vann and Quilly Smith.

Members attending were Mmes. Paul Hallahan, Ralph Paxton, Homer Kessinger, Theron Bruce, Ralph O. Wilson, Jr., James Bowen, Charles Tate, Glenn Biglin, Dave Kerz, Joe E. Hood, Ray Sutton, Ed Wiens and Ernie Mesnek.

Mrs. Lovell Satterwhite won the door prize and Mrs. Nellie Richmond was welcomed as a guest.

SAVE PLASTIC PICKS
After a party, drop your plastic tidbit picks into a strainer and dip into hot sudsy water. Swish back and forth, rinse and dry. The strainer will keep the elusive small pieces from disappearing.

Furs Priced to Tempt Pop

By HELEN HENNESSY
Newspaper Enterprise Assn.
Women's Editor

NEW YORK (NEA) — A fur coat can add a couture look to a career girl's wardrobe. And this year, the price of that touch of glamor is within reason.

In past seasons, furs were luxury items that young people could seldom afford. Now the new sport furs, many of which can be bought for the price of a good cloth coat, have opened a new world of fashion to working girls and coeds alike.

Curly white Norwegian lamb, snow lynx, mink sides, kit fox and the spotted South American cats that look like leopard all can be worn with flair and swaggar by the young set.

Over her smart, little wool dresses, a natural kit fox coat can take the career girl through day and evening. In shimmering shades of rust and honey, this fur has just the right touch of sophistication, and its price will outfox a limited budget.

For the college girl, furs such as curly lamb, white or brightly dyed, will gambol with ease over the campus from football game to fraternity dance. And dad won't balk at its cost.

Furriers are finding that they have an almost untapped market among working girls and students because of the new sporty furs. These fashions are fun to wear and budget blessings.

They come in a variety of styles from belted trench coats to swinging A-lines. On many the fur is worked horizontally rather than vertically for a new fashion approach.

And before we overlook comfort while stressing price and style, the coats are cozily warm, too, to keep you snug this winter.

This season furs are big with the younger set for the cost of sporty furs is reasonably low. Paris-inspired coat (left) of natural kit fox is horizontally worked to surround the fashion-conscious career girl from knee to nose and is priced within the working girl's budget. Campus classic in curly white Norwegian lamb (right) has a papa-pleasing price tag. It is lined in a bright shade of silk. Both are Evans designs.

LIFE LINES

The attitude toward wrinkles separates the men from the women. Women look at wrinkles as a sign of age, while men say they indicate "character."

Truthfully, though, wrinkles start early in some women who insist on furrowing a brow in disapproval, who squint at the sun without sunglasses or who won't wear eyeglasses. Using

an eye oil at night before retiring and a moisturizer smoothed gently in the lined areas will stave off deep inroads. However, practicing pleasant expressions does much to keep fine lines from prematurely forming on your skin.

BRIGHTEN BRASS

Keep your brass accessories gleaming. Use only brass polish

on fireplace accessories. Small pieces may be soaked overnight in a solution of vinegar and salt. Scrub with a small brush, wash and dry.

BEST APRON FORWARD

The smart homemaker will keep a freshly-laundered cover-all apron on hand in the kitchen and put it over work-soiled clothes when the door bell rings.

Couple Hosts Yule Dinner

SKELLYTOWN — Mr. and Mrs. Carl Cade of Skellytown were hosts for a Christmas dinner and party recently. Santa was present and presented gifts to all the guests from a beautiful lighted Christmas tree.

Guests attending were Mr. and Mrs. Buzzy Patrick, Stacy and Carrie of Borger; Mr. and Mrs. H. E. Stout and Eddie of Pampa;

Mr. and Mrs. Muri Terrill, Berry and Brenda of Amarillo, and Mr. and Mrs. Jim McCain, Jimmy Wayne, Danny Ray and Carla of Skellytown.

HUG THOSE SPONGES
Even though synthetic sponges are supersturdy and hold lots of suds, it's best to squeeze rather than to wring them.

As only a veteran actress can, she can look excitingly different in each photo of her. At left she's definitely Miss (I've-seen-it-all) Kitty; at right, a sophisticated type.

Byrd Feels Economy Ax Finally Paid Off

WASHINGTON (UPI) — For 30 years Harry Flood Byrd, the senior senator from Virginia, has been wielding the economy ax on Capitol Hill. This year, he feels, it finally paid off. The 76-year-old conservative Democrat views as most significant the action of Congress this year in whittling down foreign aid spending from the \$4.5 billion originally sought by the late President Kennedy to \$3 billion. "This is the first time in a long time I have seen Congress really cut spending," Byrd said. "The people back home really have been speaking this time, and they were heard up here, I believe."

Byrd, now in his sixth full term as senator, regards federal budget deficits as akin to sin. As chairman of the powerful tax-writing Senate Finance Committee, he occupies a key position in President Johnson's plans for early action next year on the priority \$11 billion tax cut bill. The President has promised that Byrd and his committee will get an advance peek at the budget for the next fiscal year.

Houston NAACP Readies Drive

HOUSTON (UPI)—The Houston branch of the National Association for the Advancement of Colored People will open a six-month membership campaign Sunday with a parade along Main Street and a human rights rally. The city council gave its permission Thursday for the parade, which will start at 2 p.m.

'BABY DOLL' GROWS UP—With regard to film nudity, Carol Baker has not only grown up; she has grown smart as well. Here, on location in Monument Valley, Utah, locale of her new film, "Cheyenne Autumn," Carroll gives her views on nude roles to Erskine Johnson, Newspaper Enterprise Association's Hollywood correspondent.

Statistics Play Major Role in U.S. Economy

WASHINGTON (UPI)—The Agriculture Department's Statistical Reporting Service plays a key role in evaluating the nation's economy. SRS provides the "numbers of agriculture."

These "numbers" gathered and evaluated by SRS statisticians helped farmers, food marketers, and the department plan for the record 1963 food crop efficiently. Consumers benefited from the resulting economies. The department said forecasts of farm production by the statistical reporting services helped keep food expenditures of Americans down to 19 per cent of the consumer dollar in 1963.

Food Demand up The department said demand for food increased in 1963, along with the continuing rise in business activity and the rise in consumer incomes. Food consumption also kept pace with the rise in incomes — although not as rapid a rate as in the previous year. All this SRS reported. During the year, SRS collected information from some 700,000 volunteer reporters. This information supplied by farmers and businessmen formed the principal basis of more than 700 statistical reports compiled and released by SRS in Washington. There are numerous number of agriculture released by SRS state statisticians — some 9,000 detailed reports to the farm community and food industry.

Information Evaluated

The basic information supplied by the volunteer reporters and state statisticians is evaluated by SRS specialists. Then, crop-by-crop and month-to-month, production figures and crop forecasts of farm commodities are reported by SRS.

The total production of U. S. farms in 1963 was more than 4 per cent above that of 1962. The SRS reports at year-end showed 1963 record crops of rice, sugar (both beet and cane), soybeans, oilseeds, corn and red meat output.

SRS reported the nut crop as 82 per cent above average, a cotton record yield of 524 pounds of lint to the acre and explained how weather cut into the citrus crops in Florida, Texas and Louisiana.

You, Your Child and School

By DAVID NYDICK UPI Education Specialist Some parents of teen-age children may be encouraging the drinking of alcoholic beverages. Permitting a drink with dinner or allowing a taste of the parent's drink can lead to problems. Teen-age drinking brings many problems — automobile accidents, vandalism, fighting, sexual promiscuity, etc. A child should not drink alcoholic beverages, and there should be no exceptions regardless of social pressures. The parent who permits his child to drink liquor is not setting proper standards, and the child's associates are being exposed to unfair pressures.

An extension of this problem can be the teen-age party. Liquor should not be served in any form. It is the responsibility of the parents, in whose home the party is held, to supply proper supervision. There is no harm in a parent making a telephone call to find out what is being planned at a party to which his child has been invited. Some parents hesitate to do this because they feel it may be embarrassing. It should never be embarrassing to show an interest in a child's welfare. The other parents probably would like to know the same things when the situation is reversed.

Teen-agers should have definite rules prohibiting the drinking of alcoholic beverages. Attendance at drinking parties should be avoided. A child who drinks at home could hardly be expected to refrain outside the home. My fifteen-year-old daughter attended a party at a friend's home. I had checked and found that the parents would be home and intended to act as chaperones. My daughter arrived home visibly upset. It seems that liquor was available and she had been embarrassed several times because

VAMP HOLLYWOOD (UPI) — Betty Blythe, former screen vamp of "Queen of Sheba" and "Chu Chin Chow," has come out of retirement to play a bit part in "My Fair Lady."

EVENING ELEGANCE—Glamour for holiday evenings is created by Parisian hair stylist Antoine Salvador. The combination of straight low bang and high twisted crown is graced with teardrop jewel clips and white lace mantilla.

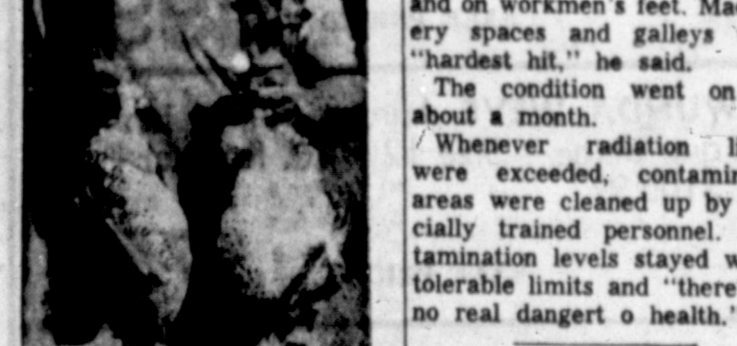

Danger From Fallout 'Nil' For Enterprise

WASHINGTON (UPI) — The nuclear-powered supercarrier Enterprise—the world's largest ship—was contaminated by radioactive fallout from Russia's 1961 atomic tests in the atmosphere, but there was "no real danger to health."

Seaton said that rainstorms washed fallout from the sky contaminating some external areas of the Enterprise with 10 to 20 times the amount of allowable radiation for the nuclear power plant compartment.

The Enterprise was at the Newport News, Va., shipyard at the time, the Navy said, adding that no other ships had reported such increases in radiation. Apparently this was because the Enterprise, being nuclear-powered and heavily equipped with radiation sources for medical, radar and other purposes, has intensive monitoring programs. Conventionally powered ships do not.

Seaton said that concerted efforts were necessary to keep the fallout from entering the ship through ventilating systems and on workmen's feet. Machinery spaces and galleys were "hardest hit," he said. The condition went on for about a month. Whenever radiation limits were exceeded, contaminated areas were cleaned up by specially trained personnel. Contamination levels stayed within tolerable limits and "there was no real danger to health."

FLAMBOYANT HOLLYWOOD (UPI) — Mel Ferrer, Audrey Hepburn's husband, will play a flamboyant psychiatrist in "Sex and the Single Girl."

COMIC HOOD HOLLYWOOD (UPI) — Comedian Gary Morton, Lucille Ball's husband, will play a gangster in Frank Sinatra's new movie, "Robin and the 7 Hoods."

HOW DRY IT WAS—Newsmaps, based on data from the U.S. Department of Agriculture, provide vivid illustration of how drought conditions worsened and spread in the United States between 1962 and 1963. The percentages indicate the current supply of pasture feed for grazing relative to what would be expected under very favorable growing conditions. As of Nov. 1, 1963, extreme drought afflicted all of Ohio, most of Virginia and Arkansas and much of New York, Pennsylvania, Missouri and Texas.

Wheat Crop Condition On Plains Not Good

Condition of the winter wheat crop on the Texas high plains and in New Mexico and Colorado is not too favorable, according to the crop report issued Saturday by the Santa Fe Railway Agricultural Department at Amarillo.

The report includes agricultural data received up to and including Dec. 26.

The Santa Fe report says: "Winter wheat continues to need additional moisture, although mid-November rains over North Texas, central Oklahoma, central and eastern Kansas and through Missouri and Illinois aided materially in helping wheat plants to establish good root system. In much of western Kansas, western Oklahoma, the Texas High Plains, New Mexico and Colorado the condition of the winter wheat crop is not favorable, with many areas having gone from 90-120 days without effective moisture.

"Although most of the wheat in this area is up to a stand, dry top soil has delayed development of secondary roots. Also, many fields lack sufficient top growth to protect the soil from damage by high winds. Considerable concern is expressed over possibility of damage from 'winterkill' where dry top

soil together with poorly rooted wheat plants have been hit by a succession of cold nights and warm days, causing the soil to expand and break the few roots holding the wheat in the soil.

"While some areas were hit by near zero temperatures during December, extent of damage, if any, cannot yet be determined.

"Late killing frosts over much of the important cotton producing areas in the Texas High Plains and adjacent counties of New Mexico and Oklahoma delayed harvest of much of the 1963 cotton crop. On the other hand, many late-planted cotton fields matured with yields now expected to be considerably more than usually produced on late June and early July planted fields.

"Since the early December frost, mechanical pickers and strippers have been gathering the crop at record speed, with many gins having a backlog of sufficient cotton waiting to be ginned to keep busy for over a week even if no more is brought in from the fields.

"It now appears certain, cotton farmers of the United States for the first time will exceed 'a bale to the acre' with an indicated 524 pounds of lint cotton per harvested acre."

Fake Doctors Of Trees Lead Complaint List

Questionable tree doctors, who not only take citizens for tremendous amounts of money but may harm trees, are being reported from across the state, says Wendell Horne, plant pathologist with the Texas Agricultural Extension Service.

Unfortunately these so-called tree doctors also give reputable silviculturists a bad name, says the specialist. These operators usually claim that they have secret formulas that will cure ailing trees of all problems. He may drive nails into the tree or spread some "revitalizer" around them. When asked about his cure-all, he usually explains that it is so new that research has not heard about it as yet.

Horne recommends that an unbiased authority, such as the local county agricultural agent, be consulted to diagnose the tree's ailment before bargaining with people that make such claims. It is also advisable for the home-owner to inquire about the operator's qualifications to work on trees. Most of the questionable operators usually have no formal training in tree care or plant pathology. The reputable ones are always glad to give their background and qualifications and are willing to back up their claims with scientific data, points out the specialist.

Home-owners are reminded by Horne that there are no miracle cures for tree ailments, and when new treatments are found, research and educational organizations immediately make the information available to the public without charge.

Before spending money for the treatment of trees, make sure you are dealing with a reputable operator, and make certain that you know what is affecting the trees, emphasizes the pathologist. Tree doctors who appear to be unrepentable should be reported to the Retail Merchants Bureau or the Chamber of Commerce, he suggests.

questions about chemical sprays or dusts used during the year to control pests and diseases of any kind. The bulk of questions will deal with crops and livestock produced and sold, use of farm land and amounts of farm expenditures.

"The most significant farm census since 1940" is the description by Ray Hurley, who has directed the Censuses of Agriculture at five-year intervals over the past quarter century. "American agriculture has been undergoing widespread and massive changes and the Census provides the only accurate measures of those changes," Mr. Hurley said.

Black-Eye Pea Supply Hints Lots of Good Luck in 1964

There's good luck in store for you in 1964, if luck can be measured by the ample supplies of black-eye peas.

According to tradition and folklore, black-eye peas have to be eaten on the first day of the New Year, if you want to have good luck throughout the year. There are ample supplies available of dried, canned and frozen peas, says the Agricultural Marketing Service of the U.S. Department of Agriculture.

It may be wise to dine on good luck this New Year's, since 1964 is Leap Year, and an extra day of good fortune may be needed. For every pea you eat on New Year's Day, you can expect to earn a dollar to match it during the coming year, according to folklorists.

Some folklore authorities claim the custom of eating black-eye peas hinges on the superstition that those who eat

them show their humility and save themselves from the wrath of the heavens because of the vanity they have. The peas were first grown in the South prior to the Civil War, and the tradition most likely started there, according to another theory. After the war, many Southern families had only hog jowl, black-eye peas and cornbread for holiday feasting—and a nifty luck they had in the new year was jokingly attributed to the humble fare.

The added pork flavor of hog jowl makes the black-eye peas especially tasty.

Another good reason for eating black-eye peas on New Year's Day—or any other day—is that they're nutritious, foods and nutrition specialists say. Their high protein content makes them good extenders for such main course dishes as meat, fish, eggs and cheese.

Farm News

By VAN MILLS
A stock pond was completed on the Duncan Estate north of Pampa.

Jack Benton has completed a new irrigation well and has installed 1400 feet of underground irrigation pipeline.

Bill Rich has completed a new irrigation well on the farm he operates east of Pampa.

Turner Kirby has completed a new irrigation well on his place east of Groom, and has leveled about 20 acres of land.

Paul Kennedy has completed another irrigation well on his farm south of McLean.

O. R. Blankenship has completed a diversion terrace on his place west of McLean.

Harvey Taylor has completed an irrigation well on his place north of Alnearred.

In a 10 year study (1951-1961) at the Woodward Experiment Station brush control increased net profit 110 per cent per acre. Cost-share assistance is available for brush control and deferred grazing.

Pompey the Great married strengthen his friendship with Caesar's daughter, Julia, to Julius Caesar.

Ranchers Asked To Keep Records

Every farmer and rancher will have need for records on his business in 1964 in order to provide accurate answers for the do-it-yourself questionnaire he will receive near the end of the year as part of the 1964 Census of Agriculture, according to the Bureau of Commerce, U.S. Department of Commerce.

Each farmer or rancher will receive a census form by mail in October or earlier, and will be asked to fill it out. A census taker will visit the farm during November or early December to review the filled-out form, make sure that all questions are answered, and send the form to Census headquarters.

The "do-it-yourself" plan is expected to save several million dollars compared with the method used in earlier farm censuses in which a census taker asked all the questions and wrote the answers on the census form.

For the first time, the 1964 Census of Agriculture will include questions about income received from recreation services, such as hunting or fishing privileges, board and room provided to sportsmen; and
