Paper Says Autopsy Shows JFK Could Have Survived First Shot

President Reviews Plans On Nuclear, Polaris Navy

WASHINGTON (UPI)—President Johnson has reviewed plans for a NATO nuclear navy armed with Polaris missiles and ordered full speed ahead on the controversial project, administration officials said today.

One result is that key congressmen soon will be consulted by the administration on details of the proposed "Multi-Lateral Nuclear Force" (MLF), which would consist of 25 surface vessels with a total of 200 missiles. The legislators are to be given a progress report on negotiations with the Allies.

Arrangements already are being made for a "demonstration ship" to prove that it is practical to operate a warship with a crew drawn from several allied nations. The United States has offered one of its guided missile destroyers for this purpose.

Begin Training Soon
Training of a mixed crew for the demonstration ship is expected to begin early in the new year and take about six months.

The United States, West Germany, Greece and Turkey favor the proposed force. Italy also is understood to be agreeable to joining but a formal decision cannot be expected until the new left-center government of Premier Aldo Moro gets more firmly established.

Britain has refused to commit itself to the project, wavering between military and political objections. However, both Britain and Italy are expected to participate in the operation of the "demonstration" ship since this will not definitely commit them.

The Russians have bitterly criticized the proposed NATO nuclear navy, asserting that it is simply a device to get nuclear weapons into the hands of the West Germans.

Rejects Soviet Charge
The United States firmly rejects the Soviet charge, pointing out that the fleet will be under NATO control with a U.S. veto over the actual firing of the weapons.

The late President Kennedy

offered the MLF suggestion to give the NATO Allies a greater sense of participation in nuclear strategy. However, his administration emphasized that the United States would consider any alternative which appeared workable.

Senate Hopes to Start Debate on Aid Issue

WASHINGTON (UPI)—Senate leaders hoped to call up for debate today their embattled \$3.3 billion foreign aid money bill in a drive to speed Congress toward adjournment by Friday.

But the objection of a single senator could force a delay until Saturday, virtually wrecking administration hopes for final action on an aid appropriations bill before Congress goes home.

The Senate Appropriations Committee approved the measure Tuesday. The bill includes \$500 million more than the \$2.8 billion voted by the House for the fiscal year that began July 1.

Roll Call Showdown
The grain restrictions is not in the Senate bill. Sen. Karl E. Mundt, R-S.D., Senate sponsor of the proposal, said he would insist on a roll call showdown on the amendment. The Senate rejected a similar proposal last month.

A wrap-up of some other appropriations bills also was on the congressional agenda. And the House hoped that the Senate, at last, would concede it was the House's business if the House's business if some House members wanted to send franked, unaddressed mail to everybody the postman can find in their districts.

If the Senate accepts the House position on so-called "junk" mail, it will end a deadlock over the \$168 million money bill to run Congress for the (See SENATE, Page 3)

Education Bill Signed by LBJ

WASHINGTON (UPI)—President Johnson today signed legislation designed to launch U.S. vocational education into the new industrial age of automation.

The bill authorizes \$1.5 billion in new spending to expand aid to vocational schools with emphasis on training workers in new skills, increase student loan funds and continue federal help to schools crowded by children of federal workers or servicemen.

Johnson signed the education measure at the start of another busy day highlighted by a major conference with leaders of national farm organizations to discuss farm policy issues.

John signed the education measure at the start of another busy day highlighted by a major conference with leaders of national farm organizations to discuss farm policy issues.

MOD LEADERS — Three Pampans hold posters that signify objectives of the 1964 March of Dimes campaign. The March of Dimes now provides the largest single national source of private support for scientific research and patient care in both arthritis and birth defects. Norman Henry, left, is Pampa campaign chairman; Mrs. R. A. Mack is chairman of the Mothers' March and Gray County chairman is Bill Power. The drive will begin Jan. 2. (Daily News Photo)

Kidnap Suspect's Kin Turned Him in to FBI

LOS ANGELES (UPI)—The brother of one of the suspected kidnapers of Frank Sinatra Jr. said Tuesday he turned his brother in to the FBI "at his request."

"I turned my brother in, but it was with his approval," James Irwin, 41, said in a newspaper interview.

John William Irwin, 42, was arrested last Friday and presumably told FBI agents where to find the other two suspects, Barry Worthington Keenan, son of a wealthy family, and Joseph Clyde Amsler, both 23.

Although the FBI continued to remain silent on details of the capture, it was believed to be Irwin's brother and details supplied by the kidnap victim that led to the capture of the suspects.

Sinatra Jr. was kidnaped at gunpoint Dec. 8 from a State-line, Calif., motel across the border from where he was appearing in a Nevada gambling sap with the Tommy Dorsey orchestra. He was released in the Los Angeles area 54 hours later after his famous father paid \$240,000 ransom for his return. All but a small part of the marked money was returned.

Scene Lights Go on Tonight

The Nativity Scenes telling the story of the birth of Christ will be lighted in Central Park tonight.

The display, being erected by J. B. Cooke, director of public works, is now receiving its final touches. Lights should be on by 6:30 p.m., reported the Pampa Chamber of Commerce.

Thousands have visited Pampa every year since 1947 to view this seven-scene creation, built by the citizens of Pampa in co-operation with the Chamber of Commerce.

Pickle Credits Party Unity For Victory Over Republican

AUSTIN, Tex. (UPI) — J.J. Pickle worked for Johnson's cause when Johnson first went to Congress in 1937, and followed him to Washington.

Pickle called his victory a "vote of confidence in the Democratic party and in President Johnson's administration."

Dobbs conceded as the tally went against him. "I've been pretty thoroughly beaten," he said. Dobbs had campaigned hard against the Kennedy administration before the assassination.

Dr. James Carrico, a resident surgeon at Parkland who first examined the President, said Kennedy was on his back from the time he arrived at the hospital until the body was covered with a sheet and removed, preventing any search for a back wound.

Carrico earlier had reported that the President's eyes were open but the pupils were dilated.

Carrico earlier had reported that the President's eyes were open but the pupils were dilated.

Carrico earlier had reported that the President's eyes were open but the pupils were dilated.

First Bullet Struck In Back of President

WASHINGTON (UP) — The autopsy performed on President Kennedy was reported today to show that he was killed by the second bullet that struck him, but could have survived the first wound.

The Washington Post, in a dispatch signed by its medical writer Nate Haseltine, said this was the "as yet unofficial" finding of the team of pathologists who performed the autopsy at Bethesda Naval Hospital on the night of Nov. 22 after the President's body was brought back to Washington from Dallas.

The hospital, the Pentagon and the White House refused to comment on the Post story Tuesday night. White House Press Secretary Pierre Salinger, asked to comment on the report, said, "I'm not going to discuss it."

The pathologists were reported to have found that the first bullet struck the Chief Executive high in the back of the shoulder, about 5 to 7 inches below the line of his collar and became imbedded deep in his shoulder.

This was said to have caused "a hematoma, a pooling of the blood, inside the neck and shoulder muscles, but no critical harm," according to the Post report.

The post mortem examination was said to show that the second bullet which struck the President fore the right rear portion of his head so destructively that "it was completely incompatible with life," according to the newspaper.

It was a deflected fragment from this second bullet that passed out through Kennedy's throat, just above the collar line, giving rise to speculation that the President may have been shot from two angles, the newspaper said.

The autopsy seemed to end speculation about the angle from which the two bullets were fired. It said both bullets struck the President from behind. Accused assassin Lee Harvey Oswald allegedly fired shots at Kennedy and Texas Gov. John B. Connally from his vantage point in the Texas School Book Depository Building just after the presidential motorcade passed on the street below.

Because of the throat wound, questions had been raised as to whether Oswald's bullet could have inflicted it.

The pathologists were quoted as saying that the second bullet inflicted such irreparable damage that such a wound is normally considered as causing instant death. However, doctors at Dallas' Parkland Hospital reported earlier that they noted some outward manifestation of life when the President was brought into the emergency room.

Dr. James Carrico, a resident surgeon at Parkland who first examined the President, said Kennedy was on his back from the time he arrived at the hospital until the body was covered with a sheet and removed, preventing any search for a back wound.

Carrico earlier had reported that the President's eyes were open but the pupils were dilated.

Six Receive Minor Injuries In Rash of Auto Accidents

Six persons suffered minor injuries and six cars were damaged in three traffic accidents listed by police within a five-hour period late Tuesday afternoon and night.

An auto driven by Ronnie Campbell, 17, of 403 Purviance, struck a parked car in the 900 block of E. Kentucky shortly before 4 p.m. Both Campbell and 18-year-old Gerald Glover, 1720 Fir, a passenger, suffered head lacerations. Campbell was given a police citation for failure to control speed to avoid an accident. The parked car was owned by Mrs. Margaret Martin, 720 N. Gray.

At 4:52 p.m., cars driven by Mrs. Norma Stewart, 1023 Ripley, and Mrs. Anne Lee Borden, 1811 Charles, were in collision in the 300-block of N. Cuyler. Police said Mrs. Stewart suffered a minor injury.

In the third accident, Mrs. Estilene Kindle, 722 E. Murphy, and her son, Eddie, suffered minor injuries, when the car driven by Mrs. Kindle was in collision with another auto driven by Wilson S. Ballard, 519 Tignor. Ballard suffered a cut on his forehead. The accident happened at 8:40 p.m. at the intersection of E. Murphy and Talley Sts.

Mrs. Kindle was given a citation for failure to yield right of way and Ballard was cited for failure to have an operator's license, police stated.

Zero Weather Due Over Panhandle

By United Press International
A bitter, cold blast of Canadian air surged across Texas today, leaving in its wake sub-freezing temperatures and freezing drizzle.

The U. S. Weather Bureau forecast a low of zero tonight in the Panhandle. By mid-morning the cold air reached a Tyler-Austin line.

The cold air was expected to trigger only light precipitation with skies clearing Thursday.

Freezing drizzle spread a dangerous film of ice on Northwest Texas and South Plains roads today. The mercury dipped to a frosty 13 degrees at Dalhart in the Panhandle. Light snow was reported during the night.

Big Question: Baker's \$100 Bills

WASHINGTON (UPI) — The Senate Rules Committee set out today to find the answer to the \$32,000 question: Where did former Senate official Bobby Baker get all that cash—mostly in \$100 bills?

"I think that is the big point raised," said Sen. Carl T. Curtis, R-Neb., of Tuesday's initial public hearing into Baker's outside interests. Curtis, a committee member, said the question would be pursued in future hearings and asked of Baker himself when the former secretary of Senate Democrats is called to testify.

Gertrude C. Novak, blonde widow of a Baker business partner, testified at the televised public kick-off of the inquiry that Baker gave her \$31,000 or \$32,000, and perhaps more, to be deposited in accounts of the Carousel Motel, in which the Bakers and Novaks were partners.

The committee staff was reported to be following up two leads that might uncover the source of the cash which, according to Mrs. Novak, was "mostly" in \$100 bills: On one occasion, Mrs. Novak said she and Baker's attractive secretary, Carole Tyler, counted out \$13,300 from money in Baker's desk and the rest was placed

in a locked file cabinet in his Capitol office.

No further public hearings were scheduled this year, but there was a possibility that Chairman B. Everett Jordan, D-N.C., would try to lay additional groundwork by taking more closed-door testimony before Congress adjourns.

President Johnson signed an order Tuesday night making available to the committee Baker's income tax file. The Senate investigators had requested the file and the action generally is routine in such cases.

SECRETARY'S PLANE HAS NARROW ESCAPE
PARIS (UPI)—A U.S. Air Force Boeing jetliner carrying Defense Secretary Robert S. McNamara narrowly avoided crashing into a civilian jetliner at Orly Airfield today, port authorities announced.
The pilot of the U.S. Air Force plane reversed engines and applied brakes to avert a head-on collision with a Trans-World Airlines (TWA) plane.
One of the tires of the Defense Secretary's plane burst. There were no injuries.
The accident delayed McNamara's departure for South Vietnam for several hours.

German Christmas Customs Subject At Twentieth Century Culture Meet

Mrs. Otto Specht brought the program at the Christmas meeting of Twentieth Century Culture Club held recently in the home of Mrs. N. D. Steele. Mrs. G. L. Craddock was co-hostess. Mrs. Specht told the group about Christmas customs in her native Germany, demonstrating an advent wreath, and told the meaning of the lighting of the candles. In her home, Christmas Eve was the time for the first glimpse of the Christmas tree, which had been decorated by the mother and her father. Gifts were exchanged on Christmas Eve and then the family was off to bed. Church services were held at 4 a. m. and again at 8 a. m. The family would walk to church. Dec. 25 was the "stay at home" day and Dec. 26 was the day to visit family, friends and shut-ins. Mrs. Specht stressed that gifts in Germany were usually handmade and expressed the love of the giver in making a gift for the recipient. Christmas trees are left up until Jan. 6, to commemorate the coming of the kings. Mrs. Specht brought a number of gifts that she had either made or received, to show the handwork done on Christmas gifts. She also brought a Christmas stollen, or German

fruit cake, which she shared with the members.

Mrs. Specht concluded her talk with Christmas greetings in German and Spanish.

The club had a gift exchange and brought food, clothing and gifts to be shared with a needy family.

Members attending were Mmes. Jeff Bearden, D. W. Bond, Ross Buzzard, D. F. DeWeese, R. E. Dobbin, L. H. Hart, W. L. Hasse, E. L. Henderson, V. L. Hobbs, Rufe Jordan, Doyle Osborne, E. E. Shelhamer, M. Wilson, L. J. Zachary, inactive members, Mrs. J. W. Edminster and Mrs. J. D. Merchant, and the hostesses.

Luncheon Held For House Guest

CANADIAN (Spl) — Mrs. Sterling Gage Swanson, houseguest of her mother, Mrs. Frank Chambers, was honored with a luncheon given at the Pampa Country Club. Hostesses for the affair were Mrs. Warren Fatheree, and Mrs. Jack Osborn of Pampa.

Guests were Mrs. John Ruse of Amarillo, Mmes. Tom Rose, Wiley Reynolds, Mary Beth Fatheree and Clyde Fatheree of Pampa; Mmes. Frank McMorris, Cap Kelly, Jim Waterfield, John Chambers, Dick Waterfield and the honoree and her mother.

Lois Class Marks Christmas Season

Members of the Lois Sunday School Class of First Baptist Church met recently at the home of Mrs. Jewel Castleberry for a Christmas party.

Mrs. Mack Harmon was in charge of the brief business meeting. Mrs. Lorena Danner, teacher, led the opening prayer. A basket of food was prepared to be given a needy family at Christmas.

Class members exchanged gifts. Mrs. J. L. Burba gave the Christmas story from Luke II and a reading for St. Nick to remember the less fortunate rather than those who are prosperous.

Piano music was presented by Mrs. Maude Schulkey.

Coffee and fruit cake were served to Mmes. Mack Harmon, L. P. Haggard, R. W. Ragsdale, W. M. Castleberry, Johnnie Sandy, E. G. Nelson, Gladys Edmundson, Lorena Danner, Lydia Mullins, Bessie Fields, Myrtle Yeager, A. A. Day, J. Heath, W. H. Dittberner, G. D. Holmes, J. H. King, G. L. Wilson, Maude Schulkey, Homer Taylor, R. L. Souther, J. E. Carlson and Miss Toni Kindle.

Bridge Club Holds Social

CANADIAN (Spl) — Mr. and Mrs. Hub Hest entertained the Ace High bridge club in their home recently.

Present were Mr. and Mrs. Bill McQuiddy, Mr. and Mrs. Tom Abraham, Mr. and Mrs. John D. Glen, Mr. and Mrs. Tom Riley, Mr. and Mrs. Ted Rogers, Dr. and Mrs. R. H. Snyder and the hosts.

High scores were held by Sybil McQuiddy and Ted Rogers.

Choir Presents Program At Meeting Of Horace Mann School P-TA Unit

Horace Mann Unit of P-TA convened recently for a Christmas program and business meeting.

Mrs. Foster Whaley, vice-president, introduced the program, the school choir under direction of Mrs. Hester Brunham which presented seasonal selections, with solo by John McPherson, "Santa Brought Me A Choo-choo Train; But, Daddy's Having Fun". As a part of the program, Craig Snell read "The Christmas Story".

Minutes of the last meeting were read by the secretary, Mrs. Gene Snell. Mrs. Paul Turner submitted the treasury report.

A report from the project committee was given by the chairman, Sam Bergert, stating that \$850 would be set aside for the purchase of a piano and the remainder to be used for a roller stand and cover for the piano.

Mrs. Earl O'Neal presided at the meeting, introducing Sam Bergert who led the group in prayer, followed by the Flag ceremony and Pledge of Allegiance, led by Cub Scouts from Pack 22, Den 5.

Room count award, first

place, was handed to the first grade room of Mrs. Maurine McCoy; second place, Miss Reeves' grade and Mr. Daugherty's sixth grade.

The door prize, a cake baked by Mrs. Hapiman, was won by Mrs. Snell.

The P-TA unit presented each teacher with a Christmas card; in appreciation for the work they put forth in behalf of the children.

Refreshments were served at the close of the meeting from a decorated table. Hostesses for this month were Mrs. Forrest Cloyd and Mrs. Leo Moore.

Preceding the general meeting the executive board met in the conference room with the president, Mrs. O'Neal, presiding.

Those present were Mmes. Paul Turner, Ralph Collinsworth, Gene Snell, Foster Whaley, E. R. Southard, H. L. Meers, Walter Davis, Jack Robinson and Mr. Sam Bergert.

COLOR-FAST CARPETS

Because of the excellence of dyes, American-made carpets do not fade easily. Give them the normal protection from direct sunlight which you would give any colored fabric, and you'll find that they hold their color well.

Dear Abby...

Go Ahead and Work Days, But Go Home Nights!

By ABIGAIL VAN BUREN

DEAR ABBY: I am a respectable woman of 59. While being interviewed for a job as live-in cook and housekeeper for a well-to-do elderly gentleman who lives alone in a 12-room house, he asked me if I snored! He said he does not wish to be disturbed while he is sleeping. What does this have to do with my qualifications as a cook and housekeeper?

JOB HUNTING

DEAR HUNTING: Obviously his sleeping quarters are within hearing distance of yours. And if YOU do not wish to be disturbed while YOU are sleeping, I suggest you work days and go home nights.

DEAR ABBY: We are three sisters, 19, 22 and 24, so we aren't exactly children. Our problem is our mother. She is 47, a wonderful person, and attractive. She has been going with the same man for six years. He is married and claims he has been trying to get a divorce all this time, but can't. (Is this possible?) Meanwhile, he is living with his wife, and Mother can't even be seen in public with him. We doubt if this man will ever be free to marry her. Mother says she "loves" him and one day he will marry her. Two of us girls are married, and when the last one goes we don't want Mother to be left alone. What can we do?

THREE WHO CARE

DEAR THREE: You can tell her what you've told me, but I don't be surprised if your words of wisdom fall on deaf ears. One of the symptoms of the illness called forbidden love (he IS married, you know) is deafness.

DEAR ABBY: My wife and I have been separated for several years. We have a 12-year-old daughter. The relationship between my estranged wife and me has been cordial except for one incident which is the reason for this letter. I recently learned that my wife had baptized our daughter in her faith, not mine, without having consulted me. My question: Could I annul the baptism? Also, could I have our daughter baptized in my own church at a later date if the first baptism can be annulled?

DISCONTENTED

Manners Make Friends

Piano Students Entertain Mothers During Christmas Workshop Party

A Christmas workshop party was held Friday in the home of Mrs. Fidelia Yoder, 1215 Wiliston, with Mrs. John Skelly and Mrs. B. B. Altman serving as hostesses.

A group of Mrs. Yoder's younger pupils met to play the Christmas carols they had learned while the others sang, giving the students an opportunity to have experience as accompanists.

The children exchanged gifts which were enjoyed during the party and then collected to be given to less fortunate children.

Students participating in the musical program were: Jean Fischer, Randy Land, Diane Graham, Suzanne Bond, Phoebe Skelly, Gail Duncan, Brenda Terry, Kay Upshaw, Linda

Adams, Derima Smith, Anita Williams, Lisa Laycock, Connie McBroom, Sharon and Wayne Bruce, Cathy Altman, and Steve Coffin.

Other than the hostesses, these mothers were present; Mmes. Joe Fischer, Jack Graham, D. W. Bond, Jimmy Terry, Dale Smith, Mac Williams, Royce Laycock Jr., Lowell McBroom and C. W. Coffin.

At the close of the recital and social activities, refreshments of punch and Christmas cookies were served by the hostesses.

Education 46 Pct. of Cost, Says Connally

AUSTIN (UPI) — Education costs consume 46 per cent of the money Texas is spending Gov. John Connally today reported to members of the legislature.

"Texas state government will expend in excess of \$3 billion during the two years beginning Sept. 1, 1963," Connally said. "Cost increases have been essential to resolve some of the problems and unmet needs of the dynamic economy of our growing state," he added.

The governor said reliable estimates show that Texas will have a population of 10.8 million in 1965 — a growth from a current total of 10.4 million citizens in the state.

Population Affects Costs "Almost all major programs of state service are affected by population expansion," Connally warned.

Public education led the spending list for the 1964-65 biennium with a budget of \$1,096,732,459 and Connally said "more children will require more teachers and professors."

State spending on higher education will total another \$335,741,401 to make the educational expense almost half the cost of state government at 46 per cent.

Texas gets most of its money from various sales taxes which bring in a total revenue in the two years of \$1,156,463,133 or 37 per cent of income.

Where Money Goes The proportion of tax dollars spent for other major purposes outlined by the report prepared by the governor's budget office were:

- Highways and roads, 28 per cent or \$871,251,208.
- Public welfare, 15 per cent or \$474,510,769.
- Health and hospitals, 4 per cent or \$127,377,740.
- Law enforcement and corrections, 2 per cent or \$76,380,619.
- Other governmental services such as the legislature, parks and wildlife, and regulatory agencies, 5 per cent or \$148,166,563.

Small Surplus Left This year's income, estimated by State Comptroller Robert

Cash Reported Stolen in Home

Mrs. Jackie Collins, 712 N. Nelson, reported to police that someone entered the Nelson home between 10 a.m. and 2:30 p.m. Tuesday and stole a cash box containing \$110 from under a bed. Mrs. Collins said the house was unlocked.

A purse containing \$460 in cash was stolen from an unlocked car parked in the 800 block of W. Francis between 4 and 5 p.m. Tuesday. The purse belonged to Carolyn McKinley, 1809 Grape. Miss McKinley and her mother, Mrs. John McKinley, had parked the car to go into a nearby laundry, according to police.

Thieves jerked a pay telephone off the wall at the Highland Speed Queen Laundry, 2000 N. Hobart, Tuesday afternoon and made off with the phone and an undetermined amount of change in the cash box. Police said the theft occurred between noon and 2:20 p.m.

—Licenses, permits and registrations, 10 per cent or \$303,958,192.

—Other state income, 9 per cent with \$108,407,963 from taxes and \$158,285,587 from miscellaneous sources.

Guard Company Gets Top Mark

Company B of the 2nd Battalion 142nd Infantry, was notified by headquarters at Fort Sam Houston, today that the local National Guard unit had received a "superior" rating in the annual inspection Nov. 4 by Col. Condee C. Nason, according to M. Sgt. Wes Langham, administrative supply technician.

Langham said, "Of the more than 300 units in the state, less than 20 normally receive this highest rating."

Capt. Florence W. Hurdle is the local company commander. The local company, which received an "Excellent" in inspection last year, had 103 men who participated in the annual inspection.

The Pampa company was the only unit in the 2nd Battalion, which includes Amarillo, Borger and Canyon that received "superior" rating.

Langham said the men of the local company were very proud of the rating, but had worked very hard in preparation of the inspection.

Seeds of the evergreen Texas Ebony are used as a substitute for coffee by Mexican Indians.

Toastmasters Delay Meetings

The Toastmaster Club, announced at their meeting at Coronado Inn that they would meet no more during December.

Next meeting is scheduled for Jan. 6.

Dr. Harris Kimbrough was toastmaster this week announcing that all speeches would be concerning Christmas.

He introduced Lloyd Kuntz who spoke on "The Greatest Gift of All," Dr. Smith B. Sybert who spoke on "Christian Unity" and Harry Mitchell, winner of the best speakers award with "Beginning to Now."

David Osborne was general evaluator, introducing evaluators Bill Dixon, Gene Boyett and Charles Norton. Boyett and Norton tied for best evaluator.

CoC Donations Coming in Well

Aubrey L. Steele, president of Pampa Chamber of Commerce, said the contributions for special Christmas activities of the chamber were coming in well.

Members of the Business and Professional Women's Club have made a personal canvass.

The new decorations that cost the chamber \$6,500 will be paid for over a three-year period through the contributions.

The rush of Christmas is now nearly over, but anyone who has not as yet made his contribution may do so by mailing it to Pampa Chamber Activities Fund, Box 1942.

Southern yellow pine is the most important Texas forest product.

More Than 100 Contribute to Cost of Survey

Over 100 business firms in Pampa have contributed to the industrial survey sponsored by the industrial committee of the Chamber of Commerce.

The industrial fund is building daily with local concerns giving it excellent support. It is hoped that a minimum of \$8,000 can be secured to pay the survey and have enough left to give promotion to the plan when finished, said Aubrey L. Steele, chamber president.

The survey being made by Texas A&M should be finished by March 1. Jim Bradley, in charge of the survey, said the final report will point out the strong and weak points of the city as it relates to industrial expansion along with a definite plan to follow.

President Calls Second Surprise News Conference

WASHINGTON (UPI)—President Johnson announced today that he is emphasizing the role of this country's top officials in Latin American affairs by making him a special White House assistant as well as assistant secretary of state.

The President, summoning reporters for his second surprise news conference in a week and a half, said the action was intended to bolster U.S. policy in this hemisphere.

U.S. Ambassador to Mexico Thomas C. Mann assumes the new posts.

Johnson gave an indirect answer when asked whether he would be willing to meet with Soviet Premier Nikita S. Khrushchev. He said he was "ready and willing to meet with any of the world's leaders anytime there is any indication this would be fruitful and productive."

Senators

Still locked in controversy was a \$817 million authorization bill for continued or new work on a number of river basin construction projects, all now in jeopardy because of a House-Senate split over the proposed \$247 million Knowles dam project in Montana.

Coin Approval Expected The Senate was expected to approve promptly the bill passed by the House Tuesday to authorize a new 50 cent piece bearing the likeness of John F. Kennedy. There also was a chance Congress could push through a bill to name the proposed cultural center here in honor of the late President.

On foreign aid, both the House and the Senate committee agreed to re-appropriate \$209 million in leftover, unspent funds in addition to the "new money" appropriations.

Besides the aid money, the bill also contains funds for the Peace Corps and for several lesser items.

The Senate committee voted to give the Peace Corps the full \$102 million authorized by Congress, although the total includes \$9.1 million in carryover money. The House had granted a total of only \$91.9, including re-appropriations.

Virgil L. Hohensee, 418 N. West, theft under \$5, guilty, fined \$25.

CORRECTION Due to an error in copying from court records The News wishes to make this correction. Mark Scott, 1710 Evergreen, pleaded not guilty to a charge of driving to left of center while approaching an intersection. Scott was not charged with failure to slow so as to avoid an accident as stated in Tuesday's Corporation Court report.

COUNTY COURT Robert Henry McGahin, 1041 Varmon Dr., pleaded guilty to a charge of aggravated assault before Judge Bill Craig yesterday. He was fined \$25 and costs.

DISTRICT COURT J. S. Worley filed suit in district court, yesterday, against Clayton Husted Co., Inc. Worley is asking \$25,000 damages allegedly suffered to his eyes, head, neck and upper portion of his body when a large piece of caliche bounced from one of the defendant's trucks and shattered the windshield of his car.

FIRE PROOF SUIT AUSTIN (Sp) — Santa's suit or your child's costume for a Christmas play can be made fireproof with a solution of nine ounces of borax and four ounces of hot water. Saturate fabric and hang to dry. The Texas Safety Association says this method must be repeated after each washing — and don't forget Santa's whiskers.

Kiwanis Meets, Hears Speaker

Gene Gates, a member of the National Institute of Drycleaning was guest speaker at the regular meeting of the Top of Texas Kiwanis Club which met Monday evening in Coronado room at City Hall.

Gates showed a film on "Seven Keys to Fabric Care."

A delegation from the downtown club consisted of: McHenry Lang, Bill Williamson, Roy Kay, Malcolm Denson, J. W. Brooks, Richard Willson, Carlton Nance, Glenn Radcliff, Dr. Royce Laycock, H. A. Thompson, Joe Gordon and Bill West.

Frank Keough was a guest of Harry Gordon.

Decoys for Reds Planned by AF

WASHINGTON (UPI)—The Air Force is planning to begin a series of tests early next year to aid in designing decoys that would confuse Soviet anti-missile defenses in case of nuclear war.

A spokesman said Tuesday that the experiments would involve firing the scaled-down test rocket "Athena" with a payload of about 100 pounds, which would be light enough to accompany an inter-continental missile.

GETS NEW POST NEW YORK (UPI) — C. W. Cook, president of General Foods Corp. has been elected to the board of directors of Chase Manhattan Bank.

Cook, who began his career with General Foods as chief engineer in 1942, is also a director of Whirlpool Corp., the Grocery Manufacturers of America, the National Industrial Conference Board and a trustee of the Food Law Institute.

City Employees Schedule Party

City Hall department heads and employees will hold a Christmas party from 2 to 4:30 p.m. Friday in the Corporation Court room at City Hall.

City Manager Harold Schmitzer said the party will be a "come and go" affair so that service can be maintained in all city offices.

The city manager also stated that City Hall offices will be open until 12 noon on the Tuesday before Christmas and the Tuesday before New Year's Day. Employees will get the afternoon off on Christmas Eve and New Year's Eve. City Hall offices will be closed all day on Christmas and New Year's Days.

Crack May Have Caused Disaster
LOS ANGELES (UPI) — A huge crack across the bottom of the Baldwin Hills reservoir may have unleashed the huge tidal wave that destroyed dozens of homes, damaged hundreds of others and killed three — and possibly four — persons.
It was learned after the flood that Archie V. MacDonald, 70, a furniture store executive has been missing since the dam broke Saturday and swept him away before the eyes of his wife, Marie.
Mrs. MacDonald was one of the 27 persons hospitalized with injuries received in the disaster that caused damage expected to exceed \$10 million.
The huge crack, running nearly the length of the reservoir, was revealed when the water drained out. Max K. Socha, department of water and power chief, insisted the crack must have occurred only shortly before the dam failed.

Couple Support Sizeable 'Family'
LONDON (UPI) — Mr. and Mrs. William Petrie, both in their 60's, give up more than half their combined weekly income to feed 57 dogs, four kittens, a cat, a duck and a canary.
The couple, who also have two children, were given suspended sentences this week on charges of causing unnecessary suffering to several of the animals.
A Humane Society officer visited the home several weeks ago to investigate the situation. "It was bedlam," he said.
Approximately 85 percent of the Angora goats of the U.S. are in Texas.

Austin Highlights Senate Race Given Workout in Capital

By VERN SANFORD
Texas Press Association
AUSTIN—Although the Christmas spirit is settling soothingly over the political scene in the state capital this week, one political topic — the 1964 U. S. Senate race — got a steady workout.
Big question is: Will Sen. Ralph Yarborough, in spite of his recent pledge to back President Johnson all the way, get a tough opponent?
Best guess is: He will. . . although President Johnson will assume no active role in the campaign.
Leaders of the liberal Texas Democratic Coalition — a combination of labor, Negro groups, the Political Association of Spanish-Speaking Organizations, and independent liberals — recently endorsed President Johnson for election in 1964. But they linked that support to backing of Yarborough also.
These names have been at the center of speculation as possible opponents for Yarborough: former Congressman Lloyd Bentsen Jr. of Houston; Congressman Jim Wright of Fort Worth; Atty. Gen. Waggoner Carr of Lubbock and former Gov. Allan Shivers of Austin.
Carr has said he won't run against Yarborough but will seek re-election and look toward the governor's race in 1966 instead. However, some think he still might change his mind.
Bentsen, once regarded as the most likely contender, cooled toward the Senate race after early opinion checks. Now, with a new political climate in the making, observers say he has reassessed the situation and decided to run. He won't talk until after the Dec. 22 political moratorium, however.
Wright has kept the door open. Both he and Bentsen conceivably could be candidates.
Only announced Democratic candidate for the U. S. Senate Post is John Van Cronkhite of Dallas.
Regardless of who emerges as the Democratic nominee, he will have to meet Republican opposition in November. Republicans who already have announced are George Bush of Houston and Dr. Milton V. Davis of Dallas.

REDISTRICTING
Attorney General Carr asked the U. S. Supreme Court to accept the appeal of the State of Texas against a three-judge federal court's decision that all 23 Texas congressmen should be elected statewide.
Carr's appeal says that the high court should recognize the unfairness of such an order. Furthermore, that it should agree to accept briefs and hear oral arguments on the legal questions involved.
Court has under study a similar order from Georgia in which a three-judge federal court refused to enter the congressional-districting field.
Still pending is a suit seeking to require redistricting for state legislative purposes. Primarily it is aimed at the Texas constitutional provision under which the 1,200,000 people in Harris County are limited to a single state senator.
Rep. Dick Cherry of Waco has proposed a new approach to this question. He plans to introduce a constitutional amendment which will let the Legislature grow as the state does. This would make possible additional representation for the big-city counties without such a sharp reduction in rural representation.
Cherry's plan would allow the Legislature to determine how many members it shall have with maximums set for the Senate and House. These would be based on the number of congressmen Texas is allowed, under automatic federal law which reallocates seats in the national House of Representatives after each census.
Based on the present census, the Cherry proposal would permit an increase in the State Senate from today's 31 to as many as 46 members, and expand membership in the House from 150 to 172.

SOUNDING OUT THE FUTURE—It looks like an oil gusher, but it isn't. Yet this spume of mud and water may lead to actual oil drilling. Scientists aboard seismicographic vehicles, equipped with buoyant Terra-Tires, are recording the echoes of a dynamite blast set off in a southern marsh in the unending hunt for oil. Earth structure, as revealed by vibrations from the blast, may tell the oil detectives whether the area possibly holds underground reservoirs. Photo by Texas Eastern Transmission Corp.

Foreign Commentary

By DAVID NYDICK
UPI Education Specialist
There is an increasing demand for the teaching of foreign languages in the elementary school. This is due in part to the increasing ease of travel and international atmosphere of recent years.
During World War II great success was achieved in the teaching of foreign languages by the armed forces. Within a matter of months personnel were often able to speak and understand a foreign language. The public schools rarely achieved similar results even after several years of courses.
Of course the armed forces program was highly concentrated and involved many more hours per week than the normal public school program. An additional major difference was the method of teaching. The armed forces used a conversational approach. The student actually lived the language. This is comparable to the traveler in a foreign country who picks up the language very quickly due to necessity and constant exposure. The public schools used a reading and grammar approach.
The logic of the conversational approach is based on the way a child in the United States learns English. He learned to imitate sound which he hears and then identifies these sounds with objects and meaning. He is later taught reading and grammar. It is also true that a real master of a language must learn to think in that language. He cannot understand its real meaning if he must constantly translate it into his mother tongue.
In line with these facts, it is difficult to master a language

Detective Role by Sinatra Jr. Aided Capture of Kidnapers

LOS ANGELES (UPI) — The cool role of detective played by Frank Sinatra Jr. while he was held by his kidnapers was credited today for the speedy capture of his abductors.
Although the FBI continued to remain silent concerning the clues that led to the arrests of three persons last Friday and Saturday, Frank Jr.'s role was learned by United Press International for the first time Monday.
Blindfolded and nervous, the 19-year-old youth nevertheless was able to provide many clues to the FBI, including distances counted by footsteps, sounds heard at the hideout and—in a moment when his eyes were uncovered—the name of a hamburger stand on a wrapper.
The discovery of the hideaway where Sinatra Jr. was held in nearby Canoga Park from the time he was abducted a week ago Sunday night to his release on payment of \$240,000 ransom early last Wednesday has been credited as the major break in cracking the case.
And young Frank Jr. was apparently able to provide the clues that led to its discovery.
The account of Frank Jr.'s role in the apprehension of the trio accused of kidnaping him came to light as the FBI made plans to transport John William Irwin, 42, suspected ringleader, from the jail in San Diego, Calif., to federal jail facilities here.
The two 23-year-old suspects, Barry Worthington Keenan, scion of a wealthy Los Angeles area family, and Joseph Clyde Amsler, Playa Del Rey, were held on \$50,000 bail each.
Multiple indictments against the trio were expected to be returned by a grand jury within three weeks.
Whitmore said he planned to review the sentences of all 70 to determine if "some paroles might be in order."
The sheriff said early Saturday morning the 70 inmates were filing out into the chill air for muster, when deputy Owen Bell — the only officer at the camp between midnight and 8 a.m.—fainted and struck his head on the pavement floor.
Bell, 30, was carrying the keys to all the remote Laguna Honda camp's facilities, plus the keys to three vehicles at the camp.

Prisoners Know Meaning of Honor

SAN MATEO, Calif. (UPI) — San Mateo County Sheriff Earl Whitmore announced proudly this week that 70 inmates at the county honor camp have proven they know the meaning of the word "honor."
Whitmore said he planned to review the sentences of all 70 to determine if "some paroles might be in order."
The sheriff said early Saturday morning the 70 inmates were filing out into the chill air for muster, when deputy Owen Bell — the only officer at the camp between midnight and 8 a.m.—fainted and struck his head on the pavement floor.
Bell, 30, was carrying the keys to all the remote Laguna Honda camp's facilities, plus the keys to three vehicles at the camp.

Khrushchev Orders Iron and Steel Cuts

MOSCOW (UPI)—Premier Nikita S. Khrushchev has ordered a cutback in plans for the nation's iron and steel industry to provide funds for the buildup in the chemical industry and farming, economic experts said.
The Supreme Soviet today continued its debate on the the next two years. The parliament was expected to adopt both with only minor changes Wednesday.
Khrushchev also provided for a \$660 million cut in military spending to help finance the seven-year crash program to develop the chemical industry and solve the chronic farm shortages with chemical fertilizers.
Military Remains Strong
But he warned Monday night that despite these projected cuts and his policy of peaceful co-existence with the West, Soviet military forces will remain strong. In a statement at a reception for Czech Communist leaders, Khrushchev said:
"We are realists and we see perfectly well that there exist forces quite substantial . . . which are not adverse to starting on the road of new military adventures. That is why we remain vigilant."
(In Paris, NATO planners said serious economic troubles were behind the Soviet military cuts. They predicted further cuts, but said the reductions promised do not mean a sizable change in Soviet defense plans.
(It was stressed that the Soviet defense budget was raised by 50 per cent only three years ago.)
Exploit Cuts
(Allied diplomats at the NATO council meeting expected the Soviets to exploit the reduction in forthcoming disarmament talks and to demand equivalent Western cuts.
(The diplomats welcomed the gesture but pointed to similar

Western economy moves. They also noted that when compared to the total of Soviet military spending — both budgeted and camouflaged in other categories — the cut is modest.)
Observers here took note of the fact that the Supreme Soviet sessions thus far have been the least belligerent in years. They expected the military cuts to be used in a new Soviet peace offensive.

Yuletide Symbols Vary In Nations of World

It's pretty hard to imagine a Christmas without Santa Claus or a Christmas tree, but in many parts of the world the appearance of Santa would puzzle people and a tree would be out of keeping with the Christmas spirit.

What do you know about Christmas around the world? Test yourself with this quiz:

1. There's a country where kids don't know about Santa Claus. On Christmas Eve they wait for an old woman on a broomstick to give them presents. What's she called and what country does she come from?
2. In another country, people would shudder if someone brought an evergreen tree into the house on Christmas. Wild flowers are used as seasonal decorations instead. Why, and what country?
3. In Belgium and the Netherlands, people would gasp if they saw Santa Claus on a sleigh pulled by eight reindeers. How does St. Nicholas travel about in these countries?
4. Christmas can be a solemn holiday as well as joyful one, particularly for adults. Italy and Spain are two countries where some grownups don't think singing joyous Christmas carols is the only way to celebrate the holiday. How do they celebrate?
5. The custom of giving gifts for Christmas is believed to have grown from a different holiday that was celebrated before Christ was born. What holiday and what country?
6. St. Nicholas gives good children presents, but bad children get a whipping with a birch switch in one country. What country?
7. It's pretty hard to imagine a Christmas tree that isn't decorated with lights. But in one American town, people would be surprised if on Christmas day they couldn't see a row of Christmas trees that stretched more than a mile. Where?
8. The generous spirit of Christmas is reflected in one country by Christmas dinner. Custom there dictates that you set one more place at the dinner table than the number of guests who are coming to dine. That way, even an unexpected guest will find a place and a meal for himself without trouble. What country?
9. The familiar nativity scene—a representation of Christ's birth in the manger made with small figures of animals and

New Testament personages—is a typical American Christmas scene, but it originated in Italy. What famous saint began the custom and why?

10. Where was the first Christmas tree?

ANSWERS

These Christmas puzzlers all have been gleaned from a detailed article on Christmas in a current encyclopedia.

1. The old woman is called "La Befana" (the goblin) and she makes her Christmas rides through Italy, leaving presents for good children and ashes in the shoes of bad ones.
2. In Sweden wild flowers are substituted for evergreens, because "evergreens there symbolize death and grief."
3. In Belgium and the Netherlands, St. Nicholas rides a white horse.
4. Devout Catholics in Italy and Spain observe a day-long fast which begins on sunset.
5. The custom of giving gifts for Christmas dates back to the ancient Roman Mid-Winter Festival.
6. The country is Germany, where Santa arrives Dec. 6 instead of Christmas Eve and punishes bad children in addition to rewarding the good ones.
7. The town is Altadena, Calif. A mile long row of Christmas trees is decorated there every year.
8. Poland.
9. St. Francis of Assisi put on the first manger scene in 1244 to demonstrate to peasants in a small Italian town the meaning of The Nativity. Real people took the parts in St. Francis's representation. In most places, statues are used today.
10. There are several stories explaining the origin of the first Christmas tree. This is one of particular interest: In the eighth century, St. Boniface, then a missionary to Germany, was attempting to stamp out the pagan custom of making human sacrifices to oak trees. At Yule time he led his followers to an evergreen tree and told them it pointed straight up to the Christ Child. "Take this tree into your homes as a sign of your new worship," he told them. "Celebrate God's power no more with shameful rites, but in the sanctity of your home with laughter and love."

CLASSIFIED ADS GET RESULTS

CITIZEN SATELLITE—This is a scale model of Project Searcher, a 24-foot rocket which three California college students plan to use to launch a satellite next summer. With the co-operation of the Navy and NASA, they will lift the rocket to 90,000 feet with a balloon over a Pacific island, then ignite the booster to orbit a three-pound satellite (shown in miniature at right). If successful, it would be the first satellite designed, built and launched by private citizens.

DPS Director Urges Safety

Homer Garrison Jr., director of the Texas Department of Public Safety, has called on motorists not only to drive safely themselves during the Christmas-New Year holidays, but to "watch out for those who don't and report them to the nearest police agency."

DPS forecasts 96 traffic deaths during the nine days from Christmas-Eve through New Year's Day.

Over 150 additional highway patrolmen will be on duty. "But the best way toward reduction of the highway toll can be done by drivers themselves," Garrison said. "General carelessness and inattentiveness, coupled with disregard for the law, stand out as the greatest cause of highway tragedies."

Walter Rogers Reports

Lawmaker Reviews Civil Rights Issue

Three weeks from now a new session of Congress will begin—the second session of the 88th Congress. January highlights on Capitol Hill will include President Johnson's State of the Union address to the House and Senate and his budget message to Congress accompanying delivery of the massive 1965 fiscal year budget proposals prepared by the executive branch.

It remains to be seen what matters President Johnson will stress in his State of the Union speech as well as the budget sums he'll request to operate the federal government's departments and agencies in the fiscal year beginning July 1, 1964.

These January events will be dramatic. But for many Americans, regardless of their personal view of the matter, the congressional drama will center on developments affecting the civil rights bill.

The civil rights proposal—the so-called "omnibus civil rights bill"—has cleared the House judiciary committee and will be called up for hearings next month before the House rules committee. Early in the second session it will probably reach the floor of the House for prolonged and bitterly controversial debate. Then, if passed by the House, the bill will move on to the Senate where it faces a certain filibuster.

There has been so much discussion of this bill and its provisions that I would like to summarize it for you, section by section, to give you as clear an understanding as possible of the measure's contents, hoping that it will be of some service to you in studying the technicalities involved:

Title I—Voting Rights: Requires that election officials apply uniform standards in the use of literacy tests and other qualifying devices; that they be prohibited from disqualifying a voting applicant for material errors or omissions in papers requisite to voting in federal elections. Requires that literacy tests be in writing, unless the applicant requests and State law permits a non-written test; and creates a presumption that a person who has completed the sixth grade possesses sufficient literacy to vote in federal elections. The title also requires the courts to give priority in ruling on voting cases brought by the Federal government.

Title II—Public Accommodations: Prohibits discrimination on grounds of race, color, religion, or national origin in specified places of public accommodation. Included are hotels and motels, theaters and other places of amusement presenting sources of entertainment which move in interstate commerce, and restaurants, lunch counters, and gasoline stations which sell food or goods which move in interstate commerce or which serve interstate travelers.

Title III & Desegregation of

Denison Dam Designed 'Safe'

TULSA, Okla. (UPI)—Owners of property below Denison Dam have been assured the big structure is protected against seepage troubles that broke a smaller earthen dam and destroyed homes in California this week.

"The Denison Dam (which impounds Lake Texoma) is designed to be safe," said M. W. DeGeer, chief of the engineering division of the U. S. district engineer's office.

DeGeer explained that Denison Dam has a special drainage system to carry off seepage water.

"Any earth-filled dam has a certain amount of seepage," he said. "It becomes a problem only when, like in Los Angeles, seepage reaches major proportions."

DeGeer said this could not happen at Denison because of the structure's design.

Talks to Start on Plainview Sugar Mill
PLAINVIEW, Tex. (UPI)—High Plains Sugar Beet Growers Inc. of Plainview and Great Western Sugar Co. of Denver will begin talks soon on plans to locate a \$20 million sugar mill near Plainview, High Plains said Monday.

The Liberty Bell weighs approximately 2,080 pounds.

Poll Tax Bill Political Issue In Both Parties

By CARLTON WILSON
AUSTIN (UPI)—The Texas poll tax was made an issue at the polls last November and voters decided to keep it. Some Republican leaders pronounced the vote a victory for their party.

But was it? United Press International talked to state representatives from all parts of the state to see what they thought responsible for a majority of voters' deciding to keep the tax. The vote was not large—316,775 votes for the tax and 243,120 for it.

Here are some of the reasons representatives advanced for voters' deciding to keep the tax:

"The absence of candidates and personalities meant less interest in the election and there were fewer eligible voters for the off-year"—Rep. Chet Brooks of Pasadena.

Low Turnout Cited
"A low turnout and opposition reaction to the efforts of the labor-liberal coalition"—Rep. Charles R. Scoggins of Corpus Christi.

"The civil rights issue on the national level influenced many voters"—Rep. Fritz Thompson of Borger.

"Most people wanted to get rid of the Democratic administration and felt that by keeping the poll tax there would be a better chance to accomplish this goal"—Rep. Maurice Ball, a Dallas Republican.

"I attribute the change to the small participation of voters rather than any substantial change in opinion about this issue"—Rep. Don Gladden of Fort Worth.

Washington Window

By LYLE C. WILSON
United Press International
It has become commonplace in American politics for a U.S. President to address the U.N. Assembly in warm terms of commendation and pledges to mutual objectives. Thus it was that President Johnson conferred Tuesday to the U.S. political tradition that the hopes, aspirations and actions of the United States and the United Nations flow gently side by side.

To question the validity of this U.S. political tradition is to invite speculation that the questioner is, maybe, some kind of a nut or something. This tradition was established during the bright final months of World War II when those pally allies, the United States, Britain and the Soviet Union had the war well won. So it was that in April, 1945, in San Francisco the United Nations organizing conference produced the U. N. charter founded firmly on the flinty rock of allied solidarity. All for one, one for all!

Rock Becomes Gravel
Whatever practical validity the United Nations had as a keeper of the postwar peace was also founded on this flinty rock. The flinty rock, however, proved to be mere gravel, a shifting substance and no firm foundation for anything at all. Quickly faded was the concept of a peaceful world overseen by the three great pals of World War II in their capacities as military powers and permanent members of the Security Council.

The idealism of the United Nations dissolved quickly into the realism of the cold war. The tradition of the identity of a U.N. and U.S. hopes and aspirations and actions has been maintained, however, a blob of

idealism on the realistic tide. Presidents Truman, Eisenhower, Kennedy and, now, President Johnson have encouraged the American people to believe in this U.N.-U.S. identity. This, despite what seems to be the fact—that the United Nations with which the United States could identify in hopes and aspirations has been changed almost beyond recognition.

The first change and the most destructive to the usefulness of the United Nations was the imposition of the cold war upon the West by the Soviet Union. In the years since the United Nations was born, the United Kingdom has ceased to be the world's greatest colonial power and the Soviet Union has succeeded to that distinction. That succession also worked fundamental U. N. changes.

Afro-Asians Dominate
U. N. membership reflects the greatest and probably least noted change. Least noted because the change has been so gradual. The U. N. Security Council recommended this week that Kenya and Zanzibar be admitted as the 112th and 113th members of the United Nations. These two African nations obtained independence from the United Kingdom last week. They bring the number of African members of the United Nations to 34 and the membership of the Afro-Asian group to 58. The Afro-Asians, thus, comprise a majority of the U.N. Assembly.

This expansion of membership among new-born nations, some being unable to meet the minimum qualifications of a sovereign state, was not foreseen when the United Nations was founded.

Dear Santa, Please bring me a Thumbling doll and a used.
Lynne Davenport
2101 N. Duncan

Dear Santa, Please bring me a Tammy doll family and some clothes for her family. Also a Barbie dream house. Bring me a pair of house shoes.
Barbara Hardin

Dear Santa, I'm a little girl 2 1/2 years old and my name is Pamela Kay. I have a little brother named Stephen Ray who is 7 months old. I want a piano, ironing board, and iron doll and kitchenette. I like Donna Carol. Stephen wants a ball with butterflies in it and a little stuffed horse.
Pam and Steve
228 Miami

Dear Santa, I will give you a cookie and glass of milk. Please send me a Telescope, a Junior Tool Set, a Combat Scope, a Boy's, a Football, a Badminton Set, a Volleyball Set, a Sharpshooter Rifle, a Compass. Well, I have to go now.
Curtis Thornton
11117 Crane Rd.

Dear Santa, Me and my brother have been talking and agree what we want. Danny, Big Lou, Ron, live a show projector, Debbie, clothes of my doll, a set of dishes, adding machine, cash register, jumping shoes, slinky.
Debbie and Danny Thomas
717 Bradley Dr.

Dear Santa, I want a baking set, a chalk board, a record player, make up kit and a pebble doll. I am in first grade.
Zindi Epperson
1524 Hamilton

Dear Santa, I would like to have an Indian suit, play hatchet, bow and arrow set and some play cards.
Mark Epperson
5124 Hamilton

Dear Santa, We are writing this letter late in the year. First is my oldest sister, Chatty Cathy, a better doll, Yenny Toy Tears, Raggedy Ann, Spank me I cry. A tea set. Pam is my youngest sister. Klary, Barbie doll, Baby Buggy, Dresser Set, Dolls in my only brother, and he wants Ice Cream machine, football game, Robot Commando, Johnny Reb Cannon, a train set, and a 24 inch bike. An I am last and I want Big Lou, baseball gloves, and Emeese Electronic Rifle Range.
Mark Doug, Martha Ann, Pam

Court Martial Due Unplugger

LUBBOCK (UPI) — Airman 1.C Philip E. Giannarco, 22, of Long Island, N.Y., was charged with unplugging wires on the nose wheel of six T38 jet trainers last Wednesday. Giannarco, stationed at Reece Air Force Base, must face a court martial on charges of willful and malicious destruction of government property.

In the U.S., outbreaks of grasshoppers are most common in the northern Great Plains, where there are more than 100 varieties.

RECORD LARGE QUAKE

PASADENA, Calif. (UPI) — A major earthquake that could have been destructive had it struck a populated area was recorded Tuesday by seismographs at the California Institute of Technology. Dr. Charles Richter said the quake registered 7.8 on the Richter Scale at 4:42.12 PST (7:42.12 p.m. EST) at a distance of about 5,500 miles — probably to the northwest of Japan. It was of such force as to cause extensive damage in a populated area, according to Richter.

Carr, 2 Others In Washington

AUSTIN (UPI) — Texas Atty. Gen. Waggoner Carr and two special lawyers left for Washington Tuesday to meet with a special commission looking into the assassination of President Kennedy. Accompanying Carr were Houston attorney Leon Jaworski and Dallas attorney Robert G. Storey. Carr previously had named the two prominent lawyers as special counsel for the state to work with the commission.

THE COMMISSION, headed by Chief Justice Earl Warren, was named by President Johnson to make a thorough investigation of the Nov. 22 shootings in Dallas and report their findings.

WILL BUY STOCK
MONTREAL (UPI) — Triad Oil Co. will offer to buy the remaining 32 per cent of the outstanding shares of Devon-Palmer Oils, Ltd., at \$1.35 (Canadian) a share. Triad bought 68 per cent of Devon - Palmer mainly from British Petroleum Co. which also controls Triad, in July, 1962 at 90 cents a share. Some stock was bought on the open market at varying prices.

Booby Trap Kills Grocer

EVERMAN, Tex. (UPI) — Grocer B. C. Russell, 63, was killed Tuesday by his own burglar booby trap as he went out the back door of his store to empty some trash.

The trap had killed two burglars in past years and wounded Russell in 1960. It consisted of a concealed shotgun aimed at the back door. A string attached to the trigger and the door set off the weapon when Russell opened the door.

J. E. Riley, a parttime employe at the store, told officers he heard the shotgun discharge and Russell call out: "Get me an ambulance, I've shot myself."

Russell was dead on arrival at a Fort Worth hospital. The huiscase is one of the earliest spring-flowering trees native to Texas.

MOVIE SIRENS—THEN AND NOW—In no period of the film industry has Hollywood been without its glamor girls, the sexpots of their particular day: Betty Blythe, Theda Bara, Clara Bow, the "It" girl; Jean Harlow, Greta Garbo, Marlene Dietrich to mention only a few. One of the famous of the charmers was Betty Blythe. Photo at left shows her

today in a movie comeback as a dowager in the "My Fair Lady" film. Center, Miss Blythe as the champ vamp of the silent screen as she appeared in the 1921 movie, "The Queen of Sheba"—daring for that era. The same allure treatment—1963 style—is typified by Ursula Andress, right, a lady proprietor of a gambling boat in "4 for Texas."

Show Beat

'Cleopatra' of 1920s Rates Sirens of '63

By ERSKINE JOHNSON Hollywood Correspondent HOLLYWOOD (NEA) — She is wearing only a few pearls and sparse swatches of gold cloth in the old photograph which trembles in her hand. She is sitting now on the set of a movie in which she is playing a wealthy Edwardian dowager. Her hair is gray. She is matronly and sedate, but the voice is youthful and the heart is gay. The name is Betty Blythe, and she laughs about how she got herself into the mood for such exotic, underclad roles: "I had an atomizer filled with musk perfume and I sprayed myself before each scene. When I smelled slinky, I acted slinky."

"A movie vamp from the stone age," teen-agers in the house probably will laugh. After all, only grandpa and grandma remember Betty Blythe when. But in her day she was a Hollywood champ vamp who held untold males to her will.

Her day was in the '20s and her films were such lush spectacles as "The Queen of Sheba," "Chu Chin Chow" and "She."

The 1921 vintage photograph in her hand is a faded memento from "The Queen of Sheba," the "Cleopatra" of its day. "But," she smiles, "it cost only \$4 million and earned \$16 million in its first year."

The set on which she sits is "My Fair Lady," and Betty chuckles about the dowager role for which she is gowned and jeweled. Her costume of pearls aroused as much protest then, she said, as some of today's film nudity. Her films, in fact, were important factors which brought self-censorship to the then young film industry.

But even when censorship came to cover her charms the Blythe spirit carried her to continued stardom.

She tells you her reasons why. In the same breath she tells you how she rates the screen sirens of today.

"Not very high," she says, explaining: "The actresses of today lack mystery. I think, it isn't enough to appear before the cameras in little attire. The siren appeal

Humble Lets Contract For \$43 Million Job

HOUSTON (UPI) — Humble Oil and Refining Co. said today it has let a contract for \$43 million in pipeline construction from its King Ranch gas plant in South Texas to Baytown near Houston.

Panama, Inc., a Houston pipeline firm, won the contract, the Humble announcement said. The line will stretch 290 miles and construction will begin soon. The project is scheduled for completion late in 1964.

Humble estimated the new pipeline's potential capacity at 615 million cubic feet of gas daily, and with added compressors can be 1.2 billion cubic feet daily.

Around three-quarters of the pipeline will be laid alongside the 30-inch existing line put on stream four years ago to take natural gas from South Texas

Daily Texan Hit On Sex Attitude

AUSTIN (UPI) — Thornton Hardie of El Paso, former chairman of the University of Texas board of regents, today cancelled his subscription to the university newspaper because it ran a series of articles on sex.

Hardie also protested in a letter to the editor to the paper's "attempts to further the cause of the integration of fraternities and sororities and intermarriage between Negroes and white persons."

"I have for a long time steered myself to endure the egotistical immature editorials of writers on the Daily Texan," Hardie said.

Nine Texas Democrats Vote No to Foreign Aid

WASHINGTON (UPI) — Nine Democratic members of the Texas congressional delegation joined two Republicans in voting against the \$2.8 billion foreign aid appropriation bill in the House.

The bill passed 249-135 on a roll call vote.

Texas Democrats against the bill were Reps. Burleson, Casey, Dowdy, Fisher, Kilgore, Poage, Pool, Rogers and Teague. Rep. Clark Thompson did not vote.

Chimpanzee's Kidneys Transplanted in Man

By I. J. Vidacovich NEW ORLEANS (UPI) — A 44-year-old dockworker received a chimpanzee's kidneys in an historic transplant operation six weeks ago and has recovered sufficiently to leave the hospital, it was announced Tuesday.

"It appears the rejection mechanism has been overcome," Dr. Keith Reemtsma, of Tulane University, said.

Tulane and Charity hospital said drugs and X-rays were administered to the patient, Jefferson Davis, to counteract the body's natural tendency to reject foreign tissues.

"He is now in good health and the kidneys are functioning well," Reemtsma reported.

Treatments Continued Davis was continuing treatments on an out-patient basis. Physicians said he has not been able to return to work.

A 12-member surgical team from Tulane transplanted both kidneys from a 90-pound chimpanzee to Davis in a 39-minute operation, Nov. 5.

The first successful operation of this type was performed by a Tulane team Oct. 8 on a 32-year-old woman. The unidentified woman received the kidneys of a Rhesus monkey.

The technique was successful, but her body rejected the foreign tissue and the monkey kidneys were removed 10 days later

Water Control Reports Heard

AUSTIN (UPI) — The governor's water recreation study committee this week heard reports from 18 state and federal agencies on problems from water pollution control to land acquisition.

The committee, formed to make plans for developing Texas lakes and rivers, held its fourth meeting. It plans meetings Feb. 3 at Abilene, Feb. 4 at Dallas, Feb. 10 at Houston and Feb. 11 at San Antonio.

Reports received yesterday were from the U. S. Corps of Engineers, Board of Outdoor Recreation, Reclamation Bureau, Forest Service, State Parks and Wildlife Commission, Water Pollution Control Board and Highway Department.

The committee plans to consolidate the opinions into a report to Gov. John Connally next March. From the findings, he is expected to select a larger group to work on water recreation problems.

Estimates Given On State Growth

COLLEGE STATION (UPI) — Texas will have a 11.7 million population by 1970, a Texas A&M professor said today.

Dr. R. L. Skrabanek, department of agricultural economics and sociology at Texas A&M University, made the population estimate after an analysis of significant changes in Texas' population during the past decade.

Harvesters Upset Borger Dogs, 64-41

Pampa Makes Borger Critics Eat Remarks With Team Effort

By JEFF COHANE
Pampa News Sports Editor

BORGER — A band of Hustling Harvesters really lived up to their nick-name last night as they hustled the Borger Bulldogs off the court and down to a stunning 64-41 defeat.

The inspired Harvesters, aroused by derogatory remarks about their ability in the Borger newspaper, literally made the offending scribe eat his words as they almost reversed the predicted score in their finest team effort of the season, making their district 3-AAAA record

1-1 while dropping the highly-touted Dogs to their second loop defeat against one victory.

Using a tight zone press from the opening buzzer, with Rick Stewart and Danny Heil blocking shots, while Charlie Price, Ropes Roper and Kenny Hebert grabbed the rebounds and Price used his boardinghouse reach to snatch passes out of the air, Pampa forced Borger to lose the ball time and again, especially in the second quarter.

Offensively, Price had the finest night of his career, scoring 21 points from all over the

court, while Stewart and Hebert hit from outside and on drives, and fed each other on fast breaks. The Pampa bugaboo of losing it at the foul line was non-existent as the happy Harvesters hammered in 14 of 18 charity tosses. Price making nine of 11 free tries good.

With Hebert and Price doing all the scoring in the opening quarter as Charlie snatched the rebounds and Stewart blocked passes, Pampa twice moved into a five-point lead, only to have Borger cut it back to one both times from the foul line. Stewart stole the ball again in the final seconds and Price dunked it for a 13-10 lead.

Borger took their only lead of the game early in the second quarter, going ahead, 16-15 on a rebound by Big Joe Robinson. Hebert and Price each hit a pair of free throws and Price stuffed in his own rebound and the Harvesters were off and running. Heil led the way as the Harvesters took the ball away defensively and Price and Hebert continued to score, with Roper hitting a backward hook just before the buzzer for a 31-20 halftime lead.

Borger closed the gap to seven, but it was all Price the rest of the quarter as he blocked shots, grabbed the defensive boards with Roper, scored outside, on drives and on rebounds and set up his mates, with Hebert making the final two buckets for a 45-30 edge.

Pampa slowed it down as Borger put on the press, and Stewart went into action as he and Hebert fast broke again and again, moving it up to 56-35. The pressing Bulldogs left Roper breathing room under the

basket and Ropes went up for two quick layups and a 60-37 edge. Pampa kept piling it on as Stewart hit two more goals and Pampa had a 27-point lead as the reserves came in to finish up.

The Pampa Shockers went down to the wire to squeeze out a 57-55 victory over the Borger Bulldogs for their ninth straight win. The Shockers led all the way, except for two momentary ties, holding as much as a nine-point bulge, but the Borger B cut the edge down each time. With a one-point lead in the final minute of the game, Little Butch Crossland made two free throws to clinch the victory.

Ronnie Curlee and Gunner Brown each had 16 points for the Shockers. Sugar Cain had 10 and dominated the rebounds until fouling out late in the third quarter.

Miami Invades Kelton For Double Victory

By MILO O'LAUGHLIN
News Sports Correspondent

KELTON — The inspired Kelton Lions gave the Miami Warriors a battle down to the wire last night before bowing, 45-43, while the Warriorettes made it a twin by belting the Lionesses, 64-30.

In a rugged "football" game, the lead changed hands constantly, with Miami's five-point margin in the final frame the biggest lead held by either team.

The lead changed hands three times in the opening quarter before being tied 11-11. Ken Abernathy led the Lions to a four-point bulge in the second quarter, but a Wayne Daugherty free throw and Roy Bean's basket cut it to 23-22 at the half.

Jody Holland opened the scoring in the third quarter to put Miami into a one-point lead, and they held a one-to-three margin through the period, 33-32. The lead changed hands three times in the last quarter until ball-hawking Lewis Holland put Miami five points ahead. The Warriors went into

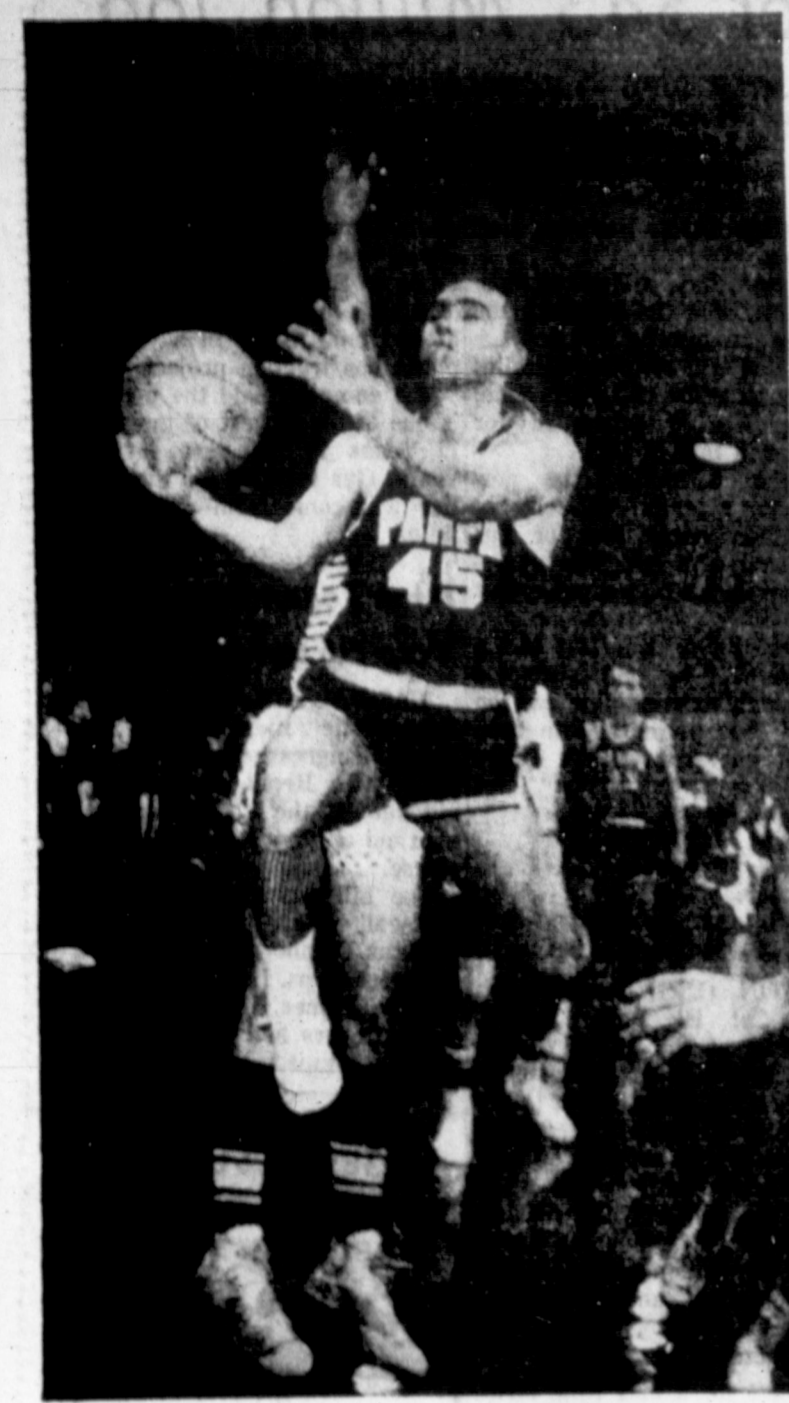

a stall with three minutes left, but Abernathy stole and cut the lead to two. Ray Guerrero matched him and Bean threw in the clinch bucket to offset a Kelton score in the final seconds.

Bean had 16 points and Lewis 12. Abernathy had 22.

The Warriorettes took their ninth win against two defeats as they led all the way. Connie Dodson slammed the net while Marilyn Murphy and Cheryl Gill dominated the boards and Miami moved into a 20-10 quarter lead. Ruth Ann Cunningham led a tight defense that stopped Kelton ace Glenda Anderson and Miami had a 38-20 halftime margin. Miami blew it open to 54-27 at the end of the third quarter, as the reserves came in, with Beverly Weise, Cheri Jackson and Connie Ratliff continuing the gunning.

Connie Dodson had 28 points, all but six in the first half, and Marilyn had 15. Glenda had 12 for the Lionesses.

Miami plays at Spearman Thursday.

OUCH! THAT HURT! — Kenny Hebert of Pampa grimaces in momentary pain as a Borger defender fouls the Flying Frenchman while he goes high in the air for a layup. Hebert made the bucket and the free throw for a three-point play against the Bulldogs. (Daily News Photo)

Panhandle Panthers Turn Back McLean's Tigers

By JEFF MONEY
News Sports Correspondent

PANHANDLE — McLean met with superior height for the first time this season and went down to defeat, 39-33 to Panhandle in a tight defensive game last night, while the Panthers made it a twin win as they turned back the Tigresses, 56-35.

All-State Derrith Welch met up with somebody his own size in 6-6 Larry Duckett, backed by 6-4 Leon Choate and 6-3 Ricky Potts. With Potts defending him, Welch was held to only 21 points, his lowest total of the season. Meanwhile Duckett and Choate, with Welch occupied, completely dominated the rebounds, while working in under the basket freely for close-in shots.

Panhandle took a 14-11 quarter lead, 22-19 at the half, then stretched the margin to 34-23 at the three-quarter mark and stalled out the final frame. Choate finished with 16 points and Duckett had eight.

Panhandle's "blonde bombshells," tall forwards Wanda Ware and Barbara Fager, completely dominated the girls game, moving a 12-9 quarter lead to 25-17 at the half and 42-29 after three periods. Barbara had 30 and Wanda 13 points. Jan Bailey had 13 for McLean. Sharon Cooston and Jan Flowers had 11 each.

Panhandle also won the B girls game, 42-23. Connie Marshall had eight for the losers. McLean takes the holiday off, returning to action Jan. 2 in the Claude Tournament.

Briscoe Explodes Against Wheeler Mobeetie Mauled In Allison Visit

WHEELER (Spl) — Invading Briscoe rolled to the second highest score chalked up in a Top O' Texas basketball game as they downed the Wheeler Mustangs last night 105-67, while the Wheeler girls made the twin bill a split by downing the Bronettes, 61-52.

Briscoe hit a fantastic shooting percentage from the floor as they utilized a half-court press and a fast break. With Harvey Puryear and Tommy Hayes hitting from outside while Ronnie Hayes led the fast break, Briscoe opened a 30-18 quarter lead, 57-38 at halftime and 83-55 after three quarters.

Puryear had 38 points, Tommy Hayes 22 and Ronnie Hayes 15. Mendall Hunter had 18 points and Dunk Porter 16 for the Mustangs.

The Wheeler Fillies took a 13-margin at the quarter, held a 26-26 halftime margin and a 40-34 third-quarter lead. Estelle Fillingim broke the game open in the final frame, finishing up with 32 points, aided by Lynda Batey with 14. Mosele Fillingim did an outstanding defensive job as she held high-scoring Mirkie Fulks to 19 points, one of her lowest totals of the season. Lou Meadows had 26 to lead Briscoe.

Wheeler is off for the holidays, returning Jan. 2 in the Canadian Tournament.

ALLISON (Spl) — Allison turned back invading Mobeetie last night, 71-41 in the boys game and 45-38 in the girls game, using superior height for the victory margin in both tilts.

Lonnie Richardson and Ray Markham completely dominated the rebounds as Allison took a 17-12 quarter lead, moved it to 39-19 at the half and 54-28 after three quarters. Richardson again did everything but sell programs as he led every phase of the game, scoring 27 points, aided by Markham with 12 and Billy Childers with 11. Big Ray Corcoran had 15 points and Billy Whitson 11.

With their tallest player, 5-9 post forward Judy Rowell out sick, Mobeetie couldn't contest Allison's overall height, although one-gal gang Mary Helen Gudgel did her best. Allison took a 14-12 quarter margin and a 24-18 halftime lead, building it to 31-24 at the three-quarter mark and holding the bulge for the win.

Linda Miller had 17 and Elizabeth Kelly 13 points for Allison. Only Judy Bailey's first-quarter bucket stopped Mary Helen from making every point for Mobeetie as she canned 36. The Hornets and Hornettes take the holiday off, returning to action in the Canadian Tournament Jan. 2.

"help out" his alma mater when it needed a grid mentor. Russell, whose lifetime coaching record includes 243 victories against 100 losses and 20 ties, said he would continue to make his home here and "enjoy the hunting and fishing."

Russell said he took the job at Howard Payne's insistence on a "seasonal... help out" basis "if they would give me Dr. (C. E. 'Nig') McCarver as athletic director." He saw his teams win only three games against 17 losses and a tie in his two seasons at the helm.

"They promoted McCarver to administrative vice-president and I figured it was a good time for me to get out and retire again," Russell said. Russell, who once resigned under pressure as head coach at Southern Methodist with three years still to run on his contract, had coached one year at Schriener Institute and Victoria, Tex., Junior College for seven years before his retirement.

Dr. Guy D. Newman, Howard Payne President, announced Russell's decision and said basketball coach Glen Whitis, who is also chairman of the college's physical education department, would succeed McCarver as athletic director and that a new football coach would be named soon.

Russell gained prominence in coach circles as mentor at tiny Masonic Home High School in Fort Worth where he turned out a record of 127 victories against 30 losses in 16 seasons while competing with the state's largest high schools.

He moved to Highland Park High School in 1942 and became an assistant at SMU in 1945, succeeding Matty Bell as head coach in 1950.

Roberts Tips Groom Over Lefors, 61-47

By KEITH GEISLER
News Sports Correspondent

LEFORS — Jerry Roberts led the Groom Tigers to a 61-47 upset of the Lefors Pirates last night as he racked up 30 points to stop Lefors rallies time and again.

Playing his finest game of the season, the 6-4 sophomore dominated the rebounds and drove for scores, backed by Dan Craig. Again and again the Pirates' full-court press would bring them back from a deficit, but each time Roberts would run off another scoring streak.

Roberts opened the game with five straight points and Groom soared to a 12-3 quarter lead. The "gold-dust twins," Terry Bromlow and Don McCool, suddenly broke loose and set each other up on fast breaks to move Lefors into a 23-20 halftime lead. The margin failed to last as Roberts hit six points and Craig followed with seven to move the Tigers into an eight-point lead. Phil Woodring came battling back and tied the game

at 36-all at the third-quarter buzzer. Roberts again broke it open, leading Groom to another eight-point margin and Groom went into a stall with Craig dribbling out the clock. The pressing Pirates fouled and Groom wrapped the game up at the charity line.

Craig backed Roberts with 14 points; McCool had 13, Bromlow 11 and Dave Roberts nine. Janie Talley and Evelyn Burgin broke open a tight girls game in the fourth quarter to lead Groom to a 34-26 win. Groom led 6-4 and 13-11 at the first two quarter stops, but Frances Clark led a third-quarter rally to cut the edge to 21-20. Janie hit seven points and Evelyn six in the final frame to wrap it up. Evelyn led the scoring with 14. Janie had 13 and Francey 12 for Lefors.

Lefors takes the holidays off, as does Groom, the Pirates at the Stinnett Tournament Jan. 2-4 and the Tigers at the Claude Tourney the same dates.

Canadian Comes Up Over Follett Panthers

CANADIAN (Spl) — Resurgent Canadian took a twin bill from Follett last night, the Wildcats winning 60-45 and the Kittens copping a 52-41 duel.

The lead switched back and forth in the first quarter, with Canadian taking a narrow 15-14 lead. Tied going into the final moments of the half, the Wildcats took the lead for good as Ken Willis and Butcherboy Eckles hit in succession for a 28-24 lead.

Eckles and Jumping Joe Schaeff led the rebounding and the shooting as Canadian pushed to a 43-36 margin going into the final frame.

Four Cat starters fouled out in the final period, but Willis kept the scoring going, aided by Mike Cullenden and Mile Henderson for the win.

Willis had 19 points, Schaeff 17 and Eckles and Tony Steine 10 each. Alvin Jennings had 18 and Marvin Appel 12 for Follett. Follett girls opened a 12-9 quarter lead, but Dixie Petree, Dora Mae Hext, Sue George and Marie Williams pulled

Canadian back to a 25-23 halftime lead.

With Joyce Thorne grabbing the defensive boards while Mary Rivers, Eva Wheeler and Dixie Flowers put on the press, Canadian moved to 41-31 at the three-quarter mark.

Dixie slammed in her high of the season with 38 points. Dora Mae had nine. Cheryl Kleimer had 27 points and Judy Robertson 14 for the losers.

Canadian plays at Briscoe Friday.

REBELS RALLY

PERRYTON (Spl) — Doc Cornutt hit two free throws after the final buzzer to give the Lee Rebels a 40-39 victory over Perryton yesterday. Steve Williams led the scoring with 13 points and Schnoz Foster was an all-around standout.

Gordon Bailey led the scoring and Rodney Hale the rebounding as the Lee 8th grade made it a twin win, 33-23. The two teams host Dumas Junior High tomorrow.

LEE 7th WINS
DUMAS (Spl) — Lee 7th grade won their fourth straight game yesterday, 26-19 over Dumas 7th. Jim Hollis had eight points and Gary Parrish six to lead the way. The Little Rebs take the holiday off, returning to action next month.

SWC Roundup

By United Press International
Southern Methodist and Texas Tech posted impressive victories Tuesday night in non-Southwest conference basketball clashes, both challenging the century mark of scoring.

Tech used steady basketball to overcome Oklahoma's high-speed offense for a 95-66 victory at Lubbock. The lead shifted five times in the first five minutes, then Tech pushed ahead. Tom Petty paced the Red Raiders' successful offense with 21 points.

Southern Methodist's Carroll Hooser cooled an early Georgia Tech uprising with methodical scoring that brought a 97-75 victory and earned him game honors with 27 points at Dallas. Sophomore Don Ramsay aided the Ponies with 12 points.

West Texas turned back its host, Western Kentucky 84-83. Marvin Mitchell scored 30 points in the victory, that had to beat down a late Kentucky uprising.

Southwest Texas broke open a tight match for a 78-68 victory over Trinity. East Texas retained an early lead for an 84-58 triumph over Arlington State.

The doubleheader, four-team meet at Edinburg ended with a Kansas team smiling. Emporia (Kan.) State dumped Pan American 69-56 and Georgetown (Ky.) dropped Texas A&I 80-75 Tuesday night. Monday night's action had Pan Am beating Georgetown 97-71 and Emporia kayoed A&I 64-59.

Texas Christian spices Wednesday night action with an invasion of Vanderbilt. Tennessee Tech visits Texas Western. Austin College invades St. Edward's Lamar. Tech at Dayton, Midwestern hosts Harlin-Simmons and Georgetown goes to Texas Lutheran.

Parseghian Definitely Set At Nortre Dame

CHICAGO (UPI) — Notre Dame and Northwestern had new football coaches today, definitely, and most of the nation must have heard the sigh of relief breathed by officials of both schools.

Ara Parseghian accepted the Notre Dame job after telephone conversations cleared up a "little difference" which caused

Halas Named UPI Top NFL Coach

NEW YORK (UPI) — George Halas, a stubborn old codger who learned a few new football tricks at the age of 69, today was voted the 1963 National League coach-of-the-year by United Press International.

The Chicago Bears, after drastically revamping their defense this season, clinched their 10th Western Conference championship under Halas' long reign last Sunday. They meet the New York Giants in the NFL's championship playoff game Dec. 29.

Halas, a member of football's Hall of Fame, won the honor by a majority of the votes cast by a panel of 42 writers who covered the NFL season regularly during 1963. He received 24 votes compared to six each for Buddy Parker of the Pittsburgh Steelers and Wally Lemm of the St. Louis Cardinals.

Parseghian, 40, notified Northwestern Athletic Director Stu Hoicomb, and Hoicomb hastily called a press conference and notified Agase he was hired.

Parseghian said he would take "two and possibly three" of his Northeastern assistants with him to Notre Dame, and that it was "not likely" he would keep any of the current Irish staff, although he was "considering two of the younger ones."

Notre Dame's coach of the past year, Hugh Devore, named on an "interim" basis after Joe Kuharich resigned in March, Saturday was elevated to the post of assistant athletic director.

Agase, who said that he would have gone to Notre Dame with Parseghian had he not been named new head coach at Northwestern, said he would "talk" to the other Wildcat assistants and then determine whether he would retain them.

him to reject a proffered Irish contract Monday.

Northwestern promptly hired Alex Agase, Parseghian's No. 1 assistant during his eight years as Wildcat coach, as the new head man under a three-year contract.

Announcements of the final selection of the two coaches came less than an hour apart. The log jam broke first when Parseghian and the Rev. Edmund P. Joyce, C.S.C., executive vice president of Notre Dame, settled on exact terms of a four-year contract.

Parseghian, 40, notified Northwestern Athletic Director Stu Hoicomb, and Hoicomb hastily called a press conference and notified Agase he was hired.

Parseghian said he would take "two and possibly three" of his Northeastern assistants with him to Notre Dame, and that it was "not likely" he would keep any of the current Irish staff, although he was "considering two of the younger ones."

WD Cage Games Snowed Out

GRUVER (Spl) — The scheduled basketball games between White Deer and Gruver boys and girls were cancelled last night due to icy roads and bad weather.

After playing the B team games, the two schools agreed to postpone the varsity tilts so that White Deer could get home before the weather made driving too hazardous.

Gruver won the boys B game, 27-25, holding a narrow lead throughout the entire game. Ronald Cisco had seven points for the Little Bucks.

White Deer smashed to a win in the girls B game, 42-13. Linda Stump had 22 points and Kay Schultz 10.

WD takes the holidays off, going back into action in the Wellington Tournament, Jan. 2-4.

The Pampa Daily News

A Watchful Newspaper

EVER STRIVING FOR THE TOP O' TEXAS TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities. We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself, no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

We Must Face the Facts

(No. 3 Of A Series) (Conclusion) In the editorials published previously in this series, we have been reviewing the constitutional grant of powers to the Congress as set forth in Article I, Section 8.

We have discovered that the first three phrases have granted total power to the Congress to tax without limit; to lay and collect imposts, duties and excises provided only that they be uniform throughout all the states; to pay all debts regardless of the reason for their incidence and regardless of amount; to provide for the defense (no limit is specified save that it be "common" defense), and to provide for the "general welfare" (which phrase has no precise nor accepted meaning); to borrow any sum of money for any reason whatever up to the full limit of the credit of the United States; to regulate commerce between the states, foreign nations and among the Indian tribes.

The final phrase of Section 8 grants full power to pass implementing legislation for all powers set forth in the section including other powers not set forth in the section. The facts of the case are these. The wording of the Constitution is precise and the granting of powers is very broad. As a matter of fact, let us pose this theoretical question:

Suppose you wanted to be a dictator. To accomplish your mission as a dictator what powers would you require other than the power to tax without limit, to borrow without limit, and to regulate the commerce between the respective states of the nation you chose to rule as a dictator? Omit the troublesome "general welfare" clause if you please, you still come up with a grant of power that is nearly total in itself. Now, we are among those

who do not favor limitless government. But there is certainly no reason to practice self-deception. The wording of the Constitution is as set forth.

Let us grant that to begin with the men who held office did not interpret the Constitution as it is presently being interpreted. The record is clear that they did not. They held to the sentiment that "that government is best which governs least" and they held themselves in check to a large degree.

But when it seemed expedient to make use of the powers which are inherent in the wording of the document, the record also tells us what happened. Beginning with the Civil War period, and again during World War I and in the ensuing periods, particularly since the New Deal, the Constitution has received other interpretation for there is nothing in the Constitution to prevent a loose interpretation and an extension of powers virtually without limit.

This is the fact. The Constitution, contrary to popular belief, is not a bulwark of conservatism. While many of us may object to the manner in which the Constitution has been loosely interpreted in the past several decades, we must admit that this is precisely what has happened. The facts are against our wishes but they are nonetheless facts.

We are not seeking to belittle or malign anyone. We are simply interested in discovering just what the Constitution says and what it does not say. To lean on a frail reed is to invite a fall. To assume that the Constitution is an instrument of limited powers is to assume something desirable, but contrary both to the fact of the wording and to the record of history.

The safeguards thought to be in the Constitution are not in it. We must deal with facts, not with theories.

Doctrine of Majority Rule

The race issue provides clear evidence of how unreliable the doctrine is that the majority should rule the minority.

For what is the majority point of view in a northern state may be the minority point of view in a southern state.

What may be the minority view in one geographic segment may be the majority view in the nation as a whole.

What may be majority opinion in a period of tranquility may, in the twinkling of an eye, be changed to a minority opinion in a time of passion.

The doctrine of majority rule is a false doctrine, not a true doctrine. "Majority rule" is a distorted version of the principle of "majority decision." This principle is that when a decision is necessary between two courses of action both of which are right, the majority shall determine the course to be pursued.

The principle of majority decision does not give the greater number in a given instance a right to bind the lesser number in all cases whatsoever, and it forbids the majority from ever binding anyone to an unjust course of action. For governments derive only their just (that is, rightful) powers from the consent of the governed.

The very phrase "majority rule" is tyrannical in concept. For it implies that some men shall be ruled. It implies that the function of government is to rule men, rather than to try to make secure their rights.

Although majority rule is evil, it is not — as some would contend — a necessary evil. For no person is a better judge of what is necessary than the person who has the need. The owner of a house may feel the need for a fire department. The owner of a vacant lot may feel no such need. Let each, therefore, buy what he wants. Let each pay for what he gets. Why should the will of the one be

imposed upon the other? There is no more reason for the majority to rule the minority in determining what schools the children of each shall go to, what kind of savings plan all shall undertake, or how they shall deliver messages to one another than there is for the grocer (a food expert) to tell the housewife what kind of beans she must buy.

By United Press International Today is Wednesday, Dec. 18, the 352nd day of 1963 with 13 to follow. The moon is approaching its first quarter. The evening stars are Jupiter Saturn and Venus.

On this day in history: In 1787, New Jersey ratified the proposed Constitution of the United States. In 1865, slavery was abolished in the United States by adoption of the 13th Amendment. In 1936, the first giant panda was imported to the United States from China. In 1941, President Franklin Roosevelt appointed a committee to investigate the military disaster at Pearl Harbor.

A thought for the day—In the New Testament it is written according to Mark: "... The Sabbath was made for man, and not man for the Sabbath."

SCARED OF LINGERING MADISON, Wis. (UPI)—Gov. John Reynolds boasted Monday he had quit smoking cigarettes. "I gave them up 10 days ago," he said at his weekly news conference. Then he reached into a box of cigars and pulled one out. "I'm not scared of dying, but I'm scared of lingering on," Reynolds said between puffs.

Another nice example of subsidies in the field of agriculture, and we can see what a mess it has gotten us into. Now we are obliged to sell wheat to communist countries at less than millers can buy wheat in the United States. In other words, subsidies mean that the workers in the United States are obliged to pay more for bread than the workers in the communist countries where we sell wheat for less than we sell it to millers in this country.

We can think of no case where subsidies, in the long run, benefit mankind.

TRUTH FORUM

with ED DELANEY

Sen. Dodd's Criticism of G. O. P. Justified

Recently Sen. Thomas Dodd, (D.Conn.) castigated the Republicans in that legislative body for their "do-nothing" attitude. The only real opposition to irrational, unconstitutional, squandermania programs and policies comes, almost entirely, from Democrats. "Most of the opposition I have made to my own administration," said Dodd, "should have been made on the other side of the aisle."

Our country, he pointed out, was built on the principle of conflicting ideas and philosophies of government. The Republican opposition has become so soft, so cozy, that it does not amount to much. That kind of supine, complacent opposition is the course taken by other free governments that have disintegrated in the past. Dodd said it is usually Sen. Frank Lausche (D-Ore.) or Wayne Morse, (D-Ore.) who stands up day after day questioning the administration for mistakes it has made. "We Democrats," he said, "are the only opposition to ourselves and we are not happy about it." The so-called opposition party was dubbed as being weak, decadent and so eager to curry public opinion, that it does not say what it should be saying. Dodd then added a bit more for good measure: "If a man dared to stand up and say what he thinks, particularly on the subject of communism, he is called a crackpot, a nut, a sick man who does not know what he's talking about."

The Republican party may thank Sen. Dodd for that indictment. Many of the so-called opposition senators have become yes-men for their opposition spokesmen. Why? What dire threat hangs over them if they voice vehement protests to mistakes of the Democrats?

It is no wonder that voters have become apathetic, disgusted and inclined to voice the view that many of the so-called Republicans in the senate are Democrats in disguise. There are, for instance, Sen. Kuchel, Keating and Javits, who usually parrot the patter of the Democrats on such issues as the so-called civil rights measures, foreign aid and co-existence with communist countries.

Did the Republicans blazon to the nation that in Alabama, the Justice Dept. obtained a federal court order enjoining a grand jury from investigating crime in that state? The Republicans did not. Rep. George Andrews (D-Ala.) made it known. The first time in the history of this country that a court ever enjoined a grand jury from probing into crime. As Rep. Andrews pointed out, this is a most dangerous precedent. It could lead to the destruction of our system of law enforcement.

A person cannot be prosecuted for a felony unless indicted by a grand jury. That jury cannot indict without an investigation. If the Justice Department stops investigations by grand juries, as the congressman cited, then criminals in this country will have a field day. Why was it done in Alabama? Because the grand jury had caused subpoenas to be issued for some witnesses who are employees of the Justice Dept.

The Republican '64 campaign will be formally launched Jan. 29—without an agreed-upon candidate. GOP National Committee is holding "Go-Day" rallies that night in 26 principal U.S. cities.

There will be \$100-a-plate dinners, only anyone who wants to pay more for his meal will be encouraged to do so. National Committee hopes to raise \$2 million. In 1960, with 60 dinners and Nixon, they raised \$4 million.

All the 1964 candidates, favorite sons and remote long shots will be put on the air by closed-circuit television. Gen. Eisenhower will be in Detroit, Nixon in New York, Rockefeller in Los Angeles, Goldwater in Pittsburgh, Pennsylvania's Gov. Scranton in Indianapolis, Michigan government grants a subsidy it always controls it or it would not subsidize. It doesn't make any difference whether two people out of three take a vote and force the third to pay for something he doesn't want, especially education or whether it is 180 million people forcing one or one hundred people to pay for something they do not want. The principle is absolutely the same. Multiplying zero or a crime by a million is still zero or a crime.

We can think of no case where subsidies, in the long run, benefit mankind.

You've Got T'Get Off Enough Weight

Edson In Washington

Kennedy's Death Put GOP Campaign Plans in Ashcan

By PETER EDSON

WASHINGTON (NEA) — It's a brand new ball game for the GOP.

The Republicans had their campaign all planned around the theme of "Retire the Kennedys in 1964." The trade mark was three empty rocking chairs for Jack, Bobby and Teddy.

There was a regional GOP strategy conference going on in St. Louis on the Nov. 22 weekend. When news of President Kennedy's assassination became known during the lunch hour, the banners and posters were hauled down immediately, the rocking chairs dragged out of the hotel lobby, and the conference folded.

Anti-Goldwater Republicans maintain he no longer has a chance. His main strength was in the South where he had 303 of the 655 GOP convention delegates needed for the nomination. The contention is that southern Democrats who might have voted Republican against Kennedy will support Johnson.

There are all kinds of rumors floating around Washington that Goldwater is getting ready to pull out. Most of this is wishful thinking or guessting. Draft Goldwater headquarters in Washington is working harder than ever. The senator's own office shows no signs of retreat. And it has become known that shortly after the Kennedy funeral, Goldwater had a session with Leonard Hall in New York, asking him to become Goldwater campaign manager. It didn't go through.

New York Gov. Nelson Rockefeller's stock has shown no perceptible rise. The consensus is that most women won't vote for him because of his divorce and marriage to a divorcee.

Gov. Scranton's weakness is that he isn't known. "Walk him down any main street outside of Harrisburg, Pa.," says one GOP leader, "and nobody would recognize him."

Nixon is the real dark horse. One shrewd comment on him is that, "if he had just known Rockefeller was going to get a divorce and if he just hadn't run for governor of California and taken such a beating, today he'd have it made."

All the 1964 candidates, favorite sons and remote long shots will be put on the air by closed-circuit television. Gen. Eisenhower will be in Detroit, Nixon in New York, Rockefeller in Los Angeles, Goldwater in Pittsburgh, Pennsylvania's Gov. Scranton in Indianapolis, Michigan government grants a subsidy it always controls it or it would not subsidize. It doesn't make any difference whether two people out of three take a vote and force the third to pay for something he doesn't want, especially education or whether it is 180 million people forcing one or one hundred people to pay for something they do not want. The principle is absolutely the same. Multiplying zero or a crime by a million is still zero or a crime.

We can think of no case where subsidies, in the long run, benefit mankind.

Clearing House

Articles for this column are preferred to be 300 words or less in length. However, longer articles may be printed. All letters must be signed.

Honorable Walter Rogers House Office Building Washington 25, D.C.

Dear Congressman Rogers: Re: Your newsletter of Nov. 30, 1963

In your fourth paragraph you ask, "WHY...WHY..." the President could be shot down here in the United States in mid twentieth century. I submit that any serious student of the communist international conspiracy can understand the modus operandi and the grand design of this assassination. There is no question but what assassination has become a standard weapon in the armamentarium of the international communist conspiracy. I can list for you ten such assassinations, if you are interested enough to go into this matter.

I am constrained to comment also on your next to the last paragraph, where you refer to the assassin as "one solitary twisted extremist". I would suggest that you be more realistic and accurate in your terminology. The man was a communist. I think you should have called him a communist. In fact, I fail to find anywhere in your full page, legal size letter any mention that the President was assassinated by a communist. I trust this is an oversight and that it is not part of the big scheme to ignore the guilty and blame the blameless.

Between the Bookends

WHAT DOES "DISARMAMENT" MEAN? The word "disarmament" has come to be a standard part of our American vocabulary — and has acquired a stature as a high ideal, similar to "brotherhood" or "full employment." Commentators speak longingly of the day when disarmament is achieved and war will be eliminated forever.

As a result, anything done in the name of disarmament, has received wide approval as a policy that must be correct. The recent test ban treaty is a good example.

Robert Morris, a former Senate subcommittee counsel and respected attorney, has examined the entire range of disarmament proposals; and concluded that American State Department planners and the American public are talking about two different things when they refer to "disarmament." He reveals his conclusions in his new book, "Disarmament: Weapon of Conquest," (published by the Bookmailer, Box 101, New York 16, N.Y.; \$3.00).

Wrong Assumption Morris points out that our leaders are not referring to a state in which all governments of the world have systematically and scrupulously destroyed their weapons of war. This concept of disarmament is what the American people have constantly assumed was the case.

Instead, Morris' book provides adequate evidence that our State Department is actually talking about turning over our weapons of war to an all-powerful United Nations police force. And, of course, there is absolutely no safeguard suggested that would prevent the UN from then waging war against us — as it did against Katanga.

Evidence Supplied Tied in with this program is the understanding that sooner or later the U.S. and the Soviet Union will blend politically and economically into a single world state under the U.N. While such a suggestion may seem preposterous to Americans at this point, it is only preposterous because we haven't paid close enough attention to the revealed evidence of our own government's intentions. Morris supplies that evidence in abundance in his book.

In fact, he demonstrates that this amazing idea is so firm a pillar in our foreign policy that our State Department planners think of the enemy being — not Khrushchev — but "those people here and abroad who are against what will be shown to be a merger with the Soviet Union."

Even more important, per-

HOW TO ADDRESS OUR LAW MAKERS

You may wish to write your senators and representatives in Washington and Austin. Here are their addresses:

(FEDERAL) Rep. Walter Rogers, House Office Bldg., Washington 25, D. C. Sen. Walter Yarborough, Senate Bldg., Washington 25, D. C. Sen. John Tower, Senate Office Bldg., Washington 25, D. C.

(STATE) Rep. Granger McWhorter, House of Representatives, Austin, Texas. Sen. Grady Hawwood, State Senate Bldg., Austin, Texas.

haps, than this revelation is the author's comments on the idea of disarmament itself. He makes it clear that — even in its most ideal form — disarmament is impossible for a world in which the Soviet Union is single-mindedly striving for total world domination.

The American Way

I AM PROUD TO BE AN AMERICAN

By Harry Browne Editor, Freedom Magazine

I am grateful that I am an American. I even feel proud to be an American — even though I am one by an accident of birth and not by personal accomplishment.

I am not ashamed of America because of the assassination of the President — even though many of our own leaders are attempting to heap a mountain of shame upon us.

For I have nothing in common with the man who apparently murdered the President. The killer was not an American, no matter what was written on his passport. He had renounced his American citizenship and pledged his allegiance to Soviet Russia.

Over and above that, he was a Communist. And Communists belong to no nation; they are dedicated instead to the destruction of all nations.

Differences There are many other wide gulfs between the assassin and me.

I believe unswervingly in the private enterprise system. He detested it.

I believe that the government that governs least governs best. He believed in the totality of the state.

I believe in the principle of voluntary action. He believed in brute force — by government or individuals — to bring about his goals.

Frankly, I'm insulted when the politicians attempt to blame "all Americans" for the act of a man who was opposed to the American Way of Life.

Despite or, worse, it would be the greatest hypocrisy for us to feel ashamed of the acts of a man who was our sworn enemy.

No Understanding

Those in public life who are trying so hard to point the finger of shame at America and Americans are way off the track. They do so because they have no understanding of the principles that separate an American from a Communist assassin.

They should look instead to themselves — to see how closely their own views may resemble the Communist's hatred of private enterprise, Constitutional limitations and voluntary action.

I am happy to be an American — yes, even proud. For by being born an American, I have enjoyed — more than other citizens of the world — the freedom and prosperity that come from our great private enterprise system.

Your Attitude You very likely feel this way too. You are probably equally as dedicated to the private enterprise system and its associated benefits.

If so, don't let anyone attempt to heap the guilt and shame upon your shoulders. Instead, keep working in every way you can for the principles in which you believe.

There is no way to guarantee against a lunatic's resort to force. But if our nation will return to the concepts of freedom upon which it was founded, the decentralization of government will make such an act less inviting, less rewarding, and less damaging to the future of our country.

DECEPTIVE ADVERTISING WASHINGTON (UPI) — The Federal Trade Commission has accused three toy manufacturers of deceptive television advertising.

The agency said Tuesday night that deceptive claims were made by the American Doll & Toy Corp. of New York for its "Dick Tracy 2-way wrist radio," the Rainbow Crafts, Inc. of Cincinnati, for its "forge press" and Emcee Industries, Inc. of New York, for its "electronic rifle range."

The companies have 30 days to answer the charges.

Master of Fact

Prince Edward Island is the smallest province of Canada. It has less than one per cent of the total population and area of Canada. Weather there is variable as the island lies on one of the most heavily traveled storm tracks in the North Atlantic.
