FINAL PREPARATIONS — The members of the "Mothers' March" committee of the March of Dimes Crusade met today to make final preparations for the annual door-to-door drive scheduled for Monday from 6 to 8 p.m. Members of the committee are, left to right, Mrs. Norman Henry, Mrs. Bill Power, Mrs. W. A. Jenkins, Mrs. Homer Krueger, Mrs. Howard Anderson, Mrs. Georgia Mack, chairman, and Mrs. Tommy Williams.

First Gathering Of Republicans Starts Tomorrow

By CARLTON WILSON
AUSTIN (UPI) — The first party gathering of 1964 will be held in Houston Saturday as the State Republican Executive Committee opens the year's political calendar.

Adoption of a budget is the main business item for GOP leaders. But they are sure to discuss candidates for this year's state and national elections.

State chairman Peter O'Donnell Jr. and his party leaders strongly favor the nomination of S. Sen. Barry Goldwater, R-Ariz., as the party's presidential standard-bearer. A big question mark looms as to their choice for a party candidate for governor, however.

Candidates from both major parties have until Feb. 3 to file spots on primary ballots. Those ballots do not list presidential or vice-presidential candidates, but the Republicans may wish to take some sort of straw vote to endorse Goldwater.

Another fast approaching date in the Texas political calendar

Police Await Action On Teen-agers Here

By GLENN McCASLAND
Pampa police, FBI agents and county juvenile officers were awaiting word today from Los Angeles county authorities as to disposition on two teen-agers held here.

Police Chief Jim Conner said he hoped to have official word on possible California action against Billy Wayne Morris, 15, and Steven Michael Caldwell, 16, both from the Los Angeles area.

Caldwell and Morris were being held here in connection with an auto theft in Los Angeles, a burglary in Pampa, a second auto theft here and jailbreak from the city jail.

Jordan said the service station operator had identified the articles taken from the car as those missing from his station.

Meanwhile, District Attorney Bill Waters was investigating all angles of the case to determine if felony action would be taken against the youths by presenting the case to the grand jury.

Vain Doe Trapped By Image in Glass

MOSCOW (UPI) — Wild life met city life in the central Soviet city of Omsk. Wild life lost.

The Soviet news agency Tass told today how a young deer, frightened by a group of skiers near Omsk, ran into the town.

Suddenly she stopped, fascinated by her reflection in a grocery window. Then the deer leaped forward and landed in a clutter of broken glass, canned goods, sausages and olive oil.

British Evacuate Tense Zanzibar

American Newsmen, Diplomats Arrested

By JOAN PASCOE
ZANZIBAR (UPI) — Royal Navy ships moved in today to evacuate British women and children from tense Zanzibar where the last two remaining U.S. diplomats and four American newsmen were arrested by the revolutionary regime.

Telephone communication between the East African island nation and the outside world was cut and censorship on outgoing news dispatches was in force. Tension persisted from last weekend's revolt in which scores were reported killed.

British and American correspondents were kept under guard overnight at a hotel and were not allowed to leave until mid-morning.

The two U.S. diplomats, Embassy Charge D'Affairs Frederick P. Picard III and Third Secretary Donald K. Petterson, were arrested at gunpoint by revolutionary President Abeid Karume Thursday. They were accused of interfering in the case of the American journalists who were said to have tried to enter Zanzibar illegally.

One Ordered Out
(The U.S. Embassy in neighboring Dar-es-Salaam, Tanganyika, said Picard had been ordered to leave Zanzibar today. It did not say what would happen to Petterson. (An embassy spokesman said

Glenn's Helmet Tossed in Ring For Senate Seat

Announcement in Ohio Puts Democratic Party in Turmoil

COLUMBUS, Ohio (UPI) — Astronaut John H. Glenn today announced he is a Democratic candidate for the U.S. Senate with a pledge to support President Johnson's policies if he is elected.

The smiling astronaut said his choice of the Democratic party was "a natural one," not because of family ties but "careful consideration of the current positions leads me to the choice of the Democratic party."

"I believe President Johnson has presented a program for our nation which a majority of Americans will support. In the Senate, I would hope to be able to help him reach the objectives of that program."

Glenn's announcement at a news conference tossed the Ohio Democratic party into turmoil, because the party at its conven-

Journalist to Open Career Clinic at PHS

Dr. DeWitt C. Reddick, director of the University of Texas School of Journalism, will be keynote speaker at the sixth annual Career Clinic at Pampa High School Feb. 12.

DR. DEWITT REDDICK, PHS clinic speaker

Dr. Reddick's address will open the day-long conference that will see some 84 consultants explain career opportunities with 1,200 PHS students.

The clinic is sponsored by the Altrusa Club, Jaycees and Chamber of Commerce. Mrs. Marion Osborne, Duggan Smith and Cameron Marsh are co-chairmen for the event which is planned to give students first-hand information on careers.

Floyd Watson, president of First National Bank and a member of the Pampa Independent School District's Board of Education, will meet with the 45 a.m. Feb. 12.

Reddick's address will follow 9 a.m. in the Harvester Field house. The educator will speak in "Preparation for Tomorrow."

Students will have the opportunity to talk personally with doctors, engineers, farmers, ranchers, technicians, scientists, artists, journalists, public relations personnel and others in the field of business during the day.

At least two roundtable discussions will be held to assist students in furthering their quests for a career.

The chairman of the affair said most of the consultants have been selected, but a few are still to be named. Besides Reddick, W. A. Moore, dramatic director at West Texas State University, will be present along with Howard R. Morris, Oklahoma School of Banking; Grant Hendrix, Southwestern State College; Ruth Ramsay, S. Anthony's School of Nursing; Amarillo, a number of nursing experts and businessmen from Miami, Wheeler, Canyon, Amarillo and Pampa.

The Career Clinic chairman

Definitions Confuse Canal Zone Problems

WASHINGTON (UPI) — Two troublesome words — "discuss" and "negotiate" — have involved the United States and Panama in a diplomatic wrangle that threatens to upset peace efforts in the Central American nation.

The words appeared in separate texts of the same document, the agreement announced early Wednesday in Panama City by the Inter-American peace commission of the Organization of American States (OAS).

The United States gave its consent to the unprecedented action of allowing two official texts of the same international agreement to contain different wording, officials here said today.

This was permitted, it was explained, because U. S. diplomats on the scene at Panama City thought they had an understanding with Panamanian officials that both words meant the same thing.

Spanish Text Differs
Thus the Spanish language text of the OAS-sponsored

agreement pledged the United States and Panama to "negotiate" on all issues — including the Panama Canal. But the English text of the same agreement said the two countries agreed to "discussions" of all the issues.

The State Department has said it is willing to "discuss" the canal treaty but it is not ready to "negotiate" the treaty if that implies an advance commitment that the treaty be revised.

Four Americans Said Killed in Viet Nam

SAIGON, South Viet Nam (UPI) — Four American soldiers were reported killed today when their helicopter was shot down by Communist ground fire.

An eyewitness told United Press International that the incident occurred during a massive government assault on a Communist guerrilla stronghold in the strategic Mekong River delta 65 miles south of Saigon.

The men were aboard an HU-1B helicopter which was flying in support of the Vietnamese government troops.

If the deaths of the four U.S. Army men are confirmed, they will bring to 136 the number of Americans killed in Viet Nam since the U.S. military advisory assistance program was inaugurated here in 1961.

Another 35 Americans have died here from accidents, suicides and natural causes.

Meanwhile, military sources disclosed that the Communists scored another major victory over government forces Wednesday.

The sources said that almost an entire company of South Vietnamese army troops was wiped out by the Communist Viet-Cong in the jungles 30 miles north of Saigon in one of the most disastrous ambush actions of recent months.

Six government soldiers were killed, 31 wounded and 39 captured.

Smoking Ban At Eastland Dies Quietly

EASTLAND, Tex. (UPI) — The controversy of a possible "smoking ban" was quietly dumped Thursday by the city council.

Mayor Don Pierson said the move that was proposed on Monday, is a closed matter as far as the city council is concerned.

The council had said it adopted a ban on cigarette smoking and sales, and would impose an ordinance which would carry severe penalties.

The proposed ordinance was to come up at next Monday's meeting of the city council, but now apparently will never see the light.

Pierson said the council did not hold an official meeting to drop the no smoking proposal, but he said an informal survey over the telephone indicated the majority favored to forget the whole thing.

"We hope the young people will recognize the seriousness of smoking and not start it,"

Thaw Expected in State After Worst Storm in History

By United Press International
A bright sun was expected to melt away a good portion of North Texas' record snowstorm today. Roads and highways were treacherous during the early morning hours and pedestrians found it difficult to walk on slick sidewalks.

A thick fog formed over much of East Texas and in some sectors of Central Texas. Temperatures ranged from 13 at Fort Worth to 37 in downtown Corpus Christi.

Four to six inches of snow still covered the ground over North Central Texas and the west portion of Northeast Texas.

A predicted hard freeze in the Rio Grande Valley failed to materialize and weathermen at Brownsville said a light freeze in northern sections of the Valley would cause no immediate danger to still unharvested Valencia oranges.

An earlier forecast of 25-27 degree readings for the Valley was revised to 28-36. The temperature at Brownsville was 39 at 4 a. m.

If it comes from a hardware store we have it. Lewis Hdw. (Adv.)

Barry Attacks Johnson Drive On US Spending

NEW YORK (UPI)—Senator Barry Goldwater, R-Ariz., attacked President Johnson's economy drive this week and the Democrats' handling of the Panama crisis.

At the same time, Goldwater revived a feud with Defense Secretary Robert S. McNamara by accusing the cabinet member of lying to "the American people about weapons (guided missile) systems."

Goldwater, a candidate for the Republican presidential nomination also accused President Johnson of sowing "deliberate confusion" in his economic proposals.

The Arizona Republican, in an address before the Economic Club of New York followed by a question and answer period, said the "foolishness of our yielding on the flag issue" contributed directly to the trouble in Panama.

"That canal is ours and we can't have other governments taking our property away," he said. He hoped the administration "doesn't back down an inch" in the flag-raising dispute in the Canal Zone.

Taking McNamara on Goldwater raised new doubts about the dependability of the nation's guided missiles.

Fruit of the Rio Grande palmetto is edible and can be bought in the Matamoras market.

Idleness Gives Dallas Autoists Two Samaritans

DALLAS (UPI)—Fred Coston and Barry Austin spent four hours in a jeep at the peak of Dallas' six-inch snow storm, cruising the streets and helping stranded motorists.

Coston, a UPI copy boy, estimated they helped 60 stranded motorists, whose general reaction was one of amazement at finding good Samaritans out in that kind of weather. Many offered to pay the pair for their troubles. One woman called them "angels."

Coston's explanation: We didn't have anything else better to do.

FAA Starts Research On Sonic Boom Effect

By ROBERT J. SERLING
UPI Aviation Editor.

OKLAHOMA CITY (UPI)—The Federal Aviation Agency (FAA), with all official fingers crossed, is ready to find out whether people on the ground will accept the sonic booms generated by supersonic airliners.

The agency disclosed it will start "bombing" a major American metropolitan area next month—Oklahoma City—with controlled sonic booms, using Air Force F104 fighters capable of flying 1,700 miles per hour. The \$300,000 experiment will begin Feb. 3 and will last 26 weeks. A final report is scheduled to be issued by the FAA, Air Force and National Aeronautics and Space Agency (NASA) late this year. More than 1,200 sonic boom flights

will be made during the 26 weeks.

Underlines Importance
Gordon M. Bain, director of FAA's supersonic airliner project, underlined the importance FAA is attaching to the Oklahoma City test.

"If the sonic boom proves intolerable to people on the ground, it may raise some question whether we should proceed with the supersonic project."

The sonic boom phenomenon is one of the major problems that must be solved before the United States puts a supersonic airliner into service. It is a strong pressure wave created by an aircraft moving at or above the speed of sound, forming two cones from the nose and tail that are sent speeding toward the ground like ripples in a stone-disturbed pond.

The waves, known as overpressures, range in volume from that of a coin dropped on a mattress to the ear-splitting roar of cannon sufficient to break windows from thousands of feet up.

Can't Halt Boom

"There is no known way by which we can eliminate sonic boom overpressures," Bain said. "We may some day but at the present time we must face the problem of whether this country's supersonic airliner will have to be limited to over-water operations. We may have

the finest and safest transport flying, but if it's disturbing to people on the ground, the market for the aircraft would be drastically limited."

The reason for the 26-week test was the belief that while people may tolerate the booms for a week or two, they might not over a longer period.

A thought for the day—English philosopher Francis Bacon said: "Fortune is like the market—where many times, if you stay a little, the price will fall."

CALLS FOR STUDY

WASHINGTON (UPI)—Chairman John C. Stennis, D-Miss., of the Senate preparedness subcommittee Thursday called for a staff study of Sen. Barry M. Goldwater's charge that U.S. long-range missiles are unreliable.

Stennis gave no promise of a full-scale investigation as asked by Goldwater.

Goldwater, a candidate for the Republican presidential nomination, called for an investigation of his charge last week.

DEVELOP MULCH

HOUSTON, Texas (UPI)—Humble Oil & Refining Co., Thursday announced the development of an agricultural mulch made from petroleum resins. The company says the mulch will speed germination of crop seeds and increase yields. It will be test marketed by Armour & Co. in California and Arizona.

Kennedy, Sukarno in Malaysia Agreement

TOKYO (UPI) — Atty. Gen. Robert F. Kennedy reached agreement with Indonesian President Sukarno today that the Malaysia crisis, which threatens the peace in Southeast Asia, should be solved by consultation.

Kennedy, in his first diplomatic mission for President Johnson, held a cordial 90-minute meeting with Sukarno, whose threat to crush the new British Commonwealth nation of Malaysia has increased tension in Asia.

Ed Guthman, spokesman for the attorney general, said "agreement was reached that the problem of Indonesia's opposition to Malaysia should be solved by consultation."

Talks Were Cordial

Guthman said the talks were "cordial, a friendly exchange of views."

An Indonesian spokesman also described the talks as friendly and said "there was no difficulty at all in finding ways for the solution of the problems, which should be solved by consultations by the parties concerned."

Asked about the U.S. role in the dispute, Guthman repeated Kennedy's views that the problem should be solved by the Asians involved, not outsiders.

This suggested that one of the attorney general's aims is to bring together the leaders of the three nations involved in the crisis — Malaysia, Indonesia, and The Philippines.

Rural Accidents Reported by State

The Texas Highway Patrol investigated nine accidents on rural highways in Gray County during December, according to Sgt. J. W. Wilson, patrol supervisor for the Pampa area.

The rural traffic accident summary for the county in 1965 shows 162 crashes resulting in 11 persons killed, 115 injured and estimated property damage of \$125,340.

"When the final reports are tabulated we will find that more people were killed in Texas traffic accidents during 1965 than in any previous year," Sergeant Wilson stated. The final count is expected to be about 10 per cent more than the 2,421 traffic deaths of 1962.

The patrol supervisor reminded motorists to think about the more than 5,000 people killed in Texas traffic accidents in the last two years, and to join the drive to reverse the trend of death by strict observance of traffic laws and rules of safe driving.

Red Cross Plans Statewide Meet Here Next Week

A conference of Texas Red Cross executive secretaries will be held in Pampa, next Wednesday, Thursday and Friday.

Plans for the conference were finalized at a meeting of the Gray County Red Cross chapter this week.

E. B. Pemberton, chapter chairman, said the three-day conference will be designed to aid Red Cross volunteer workers as well as the paid secretaries.

Highlights of the conference will include a coffee sponsored by the Gray Ladies in the Citizens Bank Hospitality Room Wednesday morning when a new class of Gray Ladies will receive their caps.

Mrs. Alexander and Mrs. Lynn Boyd will be in charge.

Mrs. Jack Foster will register visitors. More than 100 executive secretaries and volunteer workers from over Texas are expected to attend the sessions.

Mrs. Mark Heath and Mrs. Elmer Fite will be hostesses at the Hospitality Hour scheduled for 6 p.m. Wednesday in Coronado Inn Starlight Room. All board members will sponsor the affair.

Details of the three-day program will be announced in Sunday's Pampa News.

Rev. Jack Parker spoke on "Public Information" at the monthly meeting. He discussed various phases of Red Cross work and the student exchange program in public schools.

Mrs. Margaret Dial announced that an instructor course in care of the sick and injured will be conducted from Jan. 27 through Jan. 31.

Mrs. H. S. Alexander, Gray Lady chairman, reported 240 hours of service by Gray Ladies in December. Roscoe Mounts, first aid chairman, announced that Mrs. Carolyn Estes is teaching a group of Girl Scouts in first aid.

Parcel Post Rates Due Hike

WASHINGTON (UPI) — Parcel Post rates are going up. The Interstate Commerce Commission (ICC) Thursday approved rate increases expected to cost the public about \$75.4 million a year. The increases average 13.1 per cent but vary according to the mailing distance.

It is now up to the Post Office Department, which is required by law to get ICC approval before raising the Parcel Post rates, to set the date that the new rates go into effect.

Rocky Opens Way For GOP Debate

NEW YORK (UPI) — Gov. Nelson A. Rockefeller of New York is challenging Arizona Sen. Barry Goldwater to prove his Republicanism.

Rockefeller flew back today from an extensive 11½ hour tour of eight New Hampshire communities after he laid the way open for Goldwater to debate their differences on issues involved in their bid for the GOP presidential nomination.

The two Republicans are the chief opponents in New Hampshire's first-in-the-nation presidential primary March 10.

Throughout the grueling tour Rockefeller repeatedly challenged Goldwater to meet him in "open debate before the people of New Hampshire."

The New York chief executive flew into North-Swaney, N.H. and then toured Swaney, Keene, Peterborough, Wilton, Milford, Bedford, Derry and Manchester. He returned to New York City to prepare for a visit today with Italian President Antonio Segni.

Rockefeller said he has supported the programs of the Republican party for more than a decade bringing "about a melding of the points of view."

"I have held to the Republican principles more than he (Goldwater) has," the governor said. "He has said he wouldn't run on the 1960 GOP platform. Does that make him a good Republican?"

Rockefeller said he wanted to debate Goldwater on fundamental issues facing the Republican party.

Officers, Directors Installed At Annual Kiwanis Banquet

Pampa Kiwanis Club officers and directors were installed Thursday night at the club's annual banquet in Coronado Inn.

Leroy C. Hartman of Perryton, lieutenant governor for Division 8 of The Texas-Oklahoma Kiwanis district, installed the following officers:

Don Lane, president; Malcolm Douglass, immediate past president; Tom Beard, first vice president; Bob Carmichael, second vice president; William E. West, secretary, and Bill Waggoner, treasurer.

Directors installed were Jim Dailey, Richard Stowers, Herman Whatley, Ed Watts, Howard Buckingham, Walter Dean and Floyd Smith.

Arthur Aftergut, outgoing lieutenant governor, was honored by the club with a gift presentation and Ben Ogden received a plaque for 25 years membership in Kiwanis.

Clinton Evans was master of ceremonies and some 60 guests from Kiwanis clubs in Perryton, Amarillo and Borger were introduced by W. A. Morgan.

The audience of more than 200 was entertained by Maxine Milliron at the organ and the Pampa High School Swing Kings under direction of Fred Stockdale, band director.

Barry Enters Nebraska Vote

WASHINGTON (UPI) — Sen. Barry Goldwater, R-Ariz., plans to enter the Nebraska presidential primary and is considering going into primaries in three more states, his campaign aides said today.

They said Goldwater was thinking about entering the Republican primaries in the District of Columbia May 3, West Virginia May 12 and Maryland May 19. In any or all of these, he might be matched against Gov. Nelson A. Rockefeller of New York.

When he announced his candidacy for the GOP presidential nomination two weeks ago, Goldwater said he already had decided to enter primaries in New Hampshire, Illinois, Oregon and California. Rockefeller also will be on the ballot in all of those states except Illinois.

Goldwater's office said he had told Sen. Carl T. Curtis and Roman L. Hruska, both Nebraska Republicans and Goldwater backers, that he would enter that state's May 12 primary. It falls on the same day as the West Virginia primary.

The Arizona senator resumed his travels today with a trip to North Carolina. He was booked for off-the-cuff speeches tonight before the Junior Chamber of Commerce at Kingston and Saturday morning at a Republican breakfast at Fayetteville.

CORPORATION COURT

Carl A. Chambers, 1202 S. Dwight, speeding, no contest, fine \$5.

Tampa Douglass, 1108 S. Dwight, operating unregistered motor vehicle, guilty, fined \$11; operating vehicle without driver's license, guilty, fined \$21.

William W. Watson, 2708 Rosewood, disobeying stop sign, guilty, fined \$20.

James A. King, Rt. 1, Pampa, speeding, guilty, fined \$35; speeding, guilty, fined \$25.

Clyde L. Carruth, 1400 Bond, disobeying traffic signal, found guilty by jury, fined \$1.

Ronny E. Kotara, 852 Beryl, disobeying stop sign, found not guilty by jury.

'Bucket Brigade' Committee Near Finish on Bill Reducing Taxes

WASHINGTON (UPI) — The Senate Finance Committee appears to be within sight of completing its work on the administration's \$11.1 billion tax cut bill.

The 12-member panel meets again today to vote on more sections of the House-passed measure, the biggest tax cut in the history of the nation.

LEFORS (Sp) — The Ladies Lions Club will man the "Bucket Brigade" for the March of Dimes at business intersections tomorrow from 7 a.m. to 7 p.m.

Lefors MUD Chairman Ray Chastain said funds are urgently needed to combat two of the nation's greatest afflictions — birth defects and arthritis.

He noted that more than 250,000 babies are born each year with birth defects while some 12 million Americans suffer from arthritis and other disabling rheumatic diseases.

Cadillac

THERE IT GOES WINNING MORE HEARTS AGAIN!

Every time a Cadillac goes by, it seems someone falls in love with it.

Last year, for instance, more people moved up to Cadillac than ever before in history. And the way 1964 is starting off, Cadillac is going to attract more owners than even its beguiling predecessor. Why? We think the answer is easy.

Each year Cadillac simply lengthens its margin of product leadership—by introducing advancements and improvements that are entirely its own.

In 1964, for example, we've combined the heater and air conditioner in a single unit—with a single control. You set the thermostat at your favorite temperature just like you do at home—and the interior of the car holds it winter and summer. We call it Comfort Control.

Then there's Cadillac's new Twilight Sentinel. When it's time to turn on the lights, they switch on automatically. . . and then turn off when sufficient daylight returns. And in the evening, the headlights can be set to light your path from car to doorway and then turn off automatically after you have entered the house.

There's a lot more about the 1964 Cadillac just as new and just as exciting. Take performance, for example. There's the exciting new 340 h.p. engine—the most powerful in Cadillac history—combined with the smoothness of an improved Hydra-Matic or the completely new Turbo Hydra-Matic transmission.

Give in to your heart and get behind the wheel. Let your authorized Cadillac dealer introduce you to America's most desired motor car.

he Doctor Says

WAYNE BRANDSTADT
— A couple of weeks ago I noticed that I have hardly feeling on the tops of my feet. Is this a sign of foot?

— Since this type of numbness can occur as a result of a disturbance in the nerve fibers in the toes, or where in the nervous pathway through the spinal cord and including the brain, should have a nerve specialist examine you and determine the cause. Leprosy is only one possibility. It is important to remember that leprosy can now be cured and cured without comment in a leper colony.

— Does allergy ever cause dark circles under the eyes?

— According to Dr. M. Marks of Miami Beach, many persons, especially children with allergic rhinitis, have dark circles under their eyes. Dr. Marks calls them "allergic shiners." They show marked improvement when the underlying allergy is treated.

— I become drenched in sweat every night no matter how cold it is. What do I do to stop it?

— Night sweating is seen often in persons with tuberculosis and certain vitamin deficiencies. It may, however, be associated with a runny condition from any cause, and often accompanies fevers. To get rid of it should first have your doctor determine the cause.

— My doctor says my son has Kienboch's disease. What is it and what treatment is there?

— Kienboch's disease is a disease of one or more bones of the wrist, characterized by ossification of the bone, followed in a few years by reabsorption. If your son can be protected his wrist in injury, he should make complete recovery.

— I was told I had cancer of the lymph glands last week. Since then I have been treated with drugs in the hospital and X-ray. After about two weeks of X-ray treatment my white blood cell count dropped so I was given gamma rays. Is there anything, probably a food, I can take to help the cortisone to keep white count up?

— With some causes of white cell count, cortisone factor and yeast cakes have been beneficial. There is dietary treatment for this disease.

Designed for the man who has something to tote: Rugged attache case is just five inches wide, good for papers or pullovers. Leather wallet features card case on the outside of the billfold; and the very Scottish ensemble is a traveling bag for the man who wants everything—complete with 10-ounce flask.

Art and Civic Club Joins Mothers March

LEFORS (Spl) — Art and Civic Club aided in the March of Dimes fund raising campaign by participating in a Mothers March which was held at the club.

Mrs. Bud Cumberland acted as hostess for the Tuesday meeting, and Mrs. Ray Chastain presided during the business meeting.

Announcement was made that the club would host Senior Citizens Feb. 6.

The program, "Our Neighbors to the North" was presented by Mrs. J. E. Carter. Miss Norma Lantz showed slides made by Miss Ardelle Briggs during a tour of Canada.

Mrs. Carter stressed the beauty of Canada and offered pertinent facts concerning the livelihood, economics and customs of this land.

Members present were Mrs. Bud Cumberland, Carl Hall, Ray Chastain, Joe Watson, Harry Garrison, L. R. Spence, J. E. Carter, R. H. Barron, Fred Blackwell, James Gatlin, Jack Thacker, Paul Walden, Lee Arrington, Edythe Watson and Miss Norma Lantz.

POLLY'S POINTERS
Fixtures Shine After

By POLLY CRAMER

DEAR POLLY — After wiping off my refrigerator and washer, I shine them with rubbing alcohol. I also use it to shine chrome table legs, mirrors and bathroom fixtures. Rubbing alcohol will also remove "spit-up" stains from baby's clothing. Pour some on the stain and wash as usual.

I cut my worn, rag throw rugs into squares a little larger than my hand to use for dusting, floor waxing, scouring sink and bathtub and wiping up spills. They can be laundered and last longer than a sponge. — MRS. B. J. B.

GIRLS — I don't have a baby who spits up, but I do have appliances which looked better after an alcohol rub. — POLLY

DEAR POLLY — To make simple, inexpensive decorations for your Christmas tree, save the metal strips cut away when coffee and shortening cans are opened with a key. Slowly twist the metal in the opposite direction as to unwind, pulling down slightly as you do so. (Be careful not to cut your fingers. Polly) Leave

the key on to hang it by. You have a silver icicle curl or you spray it another color if you prefer. Spools that adhesive tape comes on may also be dipped or sprayed with paint. The spool and its outside band can either be left together or separated and small decorations glued to the center. A cord for hanging may be attached by closing the band over cord placed across the edge of the spool. The spools make nice candle holders, too.

Dispensers for plastic gummed tape can be made into sleds to use with reindeers made from pipe cleaners. — MRS. L. B.

DEAR POLLY — To keep children's mittens handy, take a length of heavy cord and tie clip clothespins to it, about six or eight inches apart. Make a loop at the top and hang card on a hook. Hang wet mittens on the bottom clips. They dry quickly and a pair may be hung on each clothespin. This has been a blessing for me with three small children who have two or three pairs apiece.

To remove chocolate stains from children's clothing, soak the spot thoroughly with club soda BEFORE WASHING and rub as you would any spot. This REALLY works. — MRS. W. F. B.

GIRLS — It really does. I tried it on two colors of cotton and also on green corduroy. Spots came out and the colors were not affected — but be safe and always test first. — POLLY

DEAR POLLY — If you squeeze too much liquid, such as baby lotion, out of a plastic bottle with a small opening, hold the bottle upright and squeeze it. Put the opening in to the lotion in your hand or wherever the extra is and then release the bottle. The excess lotion will be sucked back in. — MRS. E. K.

DEAR POLLY — Did you know that you can remove many streaks from light-colored dresses with an eraser? I have used a regular pencil eraser but soft art gum erasers are best. This has been a boon to me every since I was all dressed in a light beige dress and the dog jumped up. With no time to change, I grabbed a pencil and erased the paw marks. — HAZEL

Share your favorite home-making ideas... send them to Polly in care of this newspaper. You'll receive a bright, new silver dollar if Polly uses your idea in Polly's Pointers.

Cut glass and bottle washing time in half by using a nylon sponge attached to a wooden handle.

Carry Off That Prestige Bit

By HAROLD SHEEHAN
NEW YORK (NEA) — Right now you may bemoan the fact that your wallet is, if nothing else, too thin. But suppose your ship comes in one of these days?

There you are — doing those things you have always wanted to do: walking out on a musical which cost \$9.60 a seat; ordering a rented car by phone and charging it; flipping a credit card at the waiter instead of ordering a pastrami on rye "to do."

Lugging all those status symbols in your wallet takes space. But one leather goods manufacturer (C. F. Rumm) has simplified the job of prestige projection by making a wallet with a detachable card compartment which rides on the outside of the wallet.

Neat, huh? This way you can charge the dinner without the chance of letting her know you are flat broke. Worry about it at the end of the month. The card compartment holds 28 cards — all in their own little windows.

This feature is also built in to secretaries — not those behind typewriters — money-holders which fold flat for easy storage in breast pockets.

If you really want to live it up, you might check out another offering, by the same company, designed for the man on the go—but in comfort. Along with a suitcase, one can purchase in matched plaid such fitted incidentals as travel tie case, jewel box, shaving brush, shoeshine kit and a thermos with strap attachment which holds four golf

tees. The container will keep warm or cold 10 ounces of whatever you are drinking on your journey.

Less flamboyant but equally practical is an "attache case" now in the market, with a rugged magnesium frame (by Samsónite). It has a scuff-proof vinyl covering and locks which are flush with the surface — to cut down on accidental unsnapings. Inside is a writing surface and five-file briefcase—all of which can be removed if you are cramming in a shirt or two for an overnight sojourn.

In 1920, saloons closed their doors as the Volstead Act to enforce prohibition went into effect.

Dear Abby....
Anticipation Is Nearly 99 Per Cent of Suffering

By ABIGAIL VAN BUREN

DEAR ABBY: In plain words, how does a woman get a full-grown baby (her husband) to a dentist? I would hate to tell you how long I have been fighting this problem without success.

STUMPED
DEAR STUMPED: Your husband (like thousands of other "full-grown" babies) is terrified of the dentist's chair, but he's ashamed to admit it. You could make an appointment for "yourself" for a general check-up. Tell your husband you want him to go along and hold your hand for moral support. Once there, you could ask your dentist if he had a few moments to look at your husband's teeth. In this way the anticipation, which is 99 per cent of all "suffering" endured in connection with dentistry, is reduced. You'll need the cooperation of your dentist, of course, but it's worth a try.

DEAR WELL PAID: You could just as well have asked your mother. My answer is the same as hers.

CONFIDENTIAL TO "Red": A man is not likely to look under the bed unless he's hidden under one himself.

Get it off your chest. For a personal, unpublished reply, write to Abby, Box 3365, Beverly Hills, Calif. Enclose a stamped, self-addressed envelope.

Rate to write letters? Send one dollar to Abby, Box 3365, Beverly Hills, Calif., for Abby's new booklet, "How To Write Letters For All Occasions."

DEAR ABBY: My husband and I have been married four years and have a year-old son. We go to a dance every Saturday night. It usually winds up in an argument after the dance because I happen to have mentioned that we are married, or I make some remark about the baby. He claims it ruins his chances to dance with some of the women because they don't want to make me jealous. After last Saturday night he said a couple of girls refused to dance with him when they found out he was married. I am thinking seriously of letting him go alone in the future. Would it be wise?

CONFUSED
DEAR CONFUSED: No. It would be otherwise. A married man who poses as a bachelor usually wishes he were one, or is acting like one.

DEAR ABBY: I am a 16-year-old girl who has been sitting regularly for a woman who lives in our neighborhood. Her husband is on the road a lot and she likes to go out in the evenings. She never tells me where I can reach her in case of emergency. She says she will call me during the evening to see how things are, but she never has. She

Book Reviewed
At KA Meeting

Mrs. Wayne Rogers presented the program at a meeting of Kappa Alpha Chapter, Epsilon Sigma Alpha, recently in City Club Room.

Using Anne McGraw Lindburgh as her topic in keeping with the theme for the year, "Famous Women", Mrs. Rogers quoted from Mrs. Lindburgh's book, "Gift From the Sea" which imparted her philosophy of life.

Mrs. Rogers, club president, also conducted a brief business meeting during which a report from the Council of Clubs was made. Mrs. Bob Miller gave the financial report and reminded charter members that International dues were due.

Following the closing ritual a social hour was conducted. Those attending the meeting were Mrs. Charles Guidry, Joe Achord, R. O. Johnson, Charles Beard, James Frasier Dale Haynes, Forest Rader, Frank Maher, Bob Becquet, Bill Stephens, Felix Fisher, Wayne Rogers and Bob Miller.

The Weekly Message Of Inspiration

Attend The Church Of Your Choice

JACK RILEY, MINISTER
ST. PAUL METHODIST CHURCH

A PANEL REPORTS ON CHRISTIANITY

A panel composed of many leading personalities in our society has been studying the cause and effect of Christianity upon the lives of individual persons. These noted persons are from all walks of life, a professor of theology Mr. I Assume, Rev. Long Talker, Mr. Will Collect, Mrs. Wanna Know, Miss Ura Skeptic, Mr. L. B. Success, and many casual observers and a few occasional visitors.

This panel has met regularly once a week for several years. The meetings not intended to be in secret, however the panel has said little about their meetings to others and once they mingle with others in our society you can't tell them from the rest.

Their findings have finally emerged, given most reluctantly to our age, in fear that someone's feelings would be hurt. The panel quotes from "documented" materials found sometimes in an old black dusty book out of the past or a new shiny one just off the shelf called "The Holy Bible".

Here are some of their findings: Continued indulgence in Christianity will effect the mind.

"For as he thinketh in his heart, so is he." Prov. 23:7
 "Love God with all your mind". Mt. 22:38
 "Let this mind be in you, which was in Christ Jesus." Phil. 2:5

However, the greatest damage will come to the heart. The first noticeable symptom will be an attitude of love. One will begin to love God with all his heart. He will love his neighbor as he loves himself . . . In the last stages he will love his enemies!

This disease of love will "set a man against his father, and a daughter against her mother . . . a mans foes will be those of his own household." Mt. 10:34.

The love found in Christianity is "slow to lose patience . . . looks for a way of being constructive . . . is not possessive . . . is neither anxious to impress nor does it cherish inflated ideas of its own importance . . . it does not pursue selfish advantage . . . it is not touchy . . . it does not compile statistics of evil or gloat over the wickedness of other people, on the contrary, it is glad with all good men when Truth prevails. IT CAN OUTLAST ANYTHING . . . IT IS, IN FACT, THE ONE THING THAT STILL STANDS WHEN ALL ELSE HAS FALLEN." I Cor. 13:4-7 J. B. Phillips. Do with it what YOU will!!

How does Mr. Average Man accept this report Here are a few quotes from several interviews. Mr. I. Q. Public: "I've been indulging in Christianity for forty years and I can't tell it has affected me."
 Miss Willie Run: "I feel better when I use Christianity . . . I'm going to keep it up."
 Mr. B. Wildered: "I have never had any use for Christianity but if I had no decision of a panel would bother me."
 Mrs. Occasional Tender: "Everyone's gotta go with something, I had just as soon die of love as anything else."
 Rev. I. B. Humble: "Christianity is my business. As long as there are takers, I'll be here to offer Christianity."
 Miss Polly Tick: "Think of all the people who would be out of work if we gave up Christianity!"
 "AND GOD CREATED THE 8th DAY!" And HE said, "Jack, what time is it?"

Golfers Make More Loot Than Any Other Athletes

By HAL WOOD
UPI Sports Writer

PEBBLE BEACH, Calif. (UPI)—Willie Mays signed for \$50,000 a year. He makes a rotable \$50,000 extra on the de.

New Dad Leads All-Star Bowling

DALLAS (UPI)—Veteran Hennessey of St. Louis, reasoning that with another outh to feed at home he had st round his game into shape ok a two-pin lead into today's cond preliminary round of the 00,000 All-Star bowling tournament.

Hennessey's wife presented in with their third child and st boy, Donald Thomas, Wed- day morning in St. Louis. e same day his twin daugh- ers turned two years old.

With the new addition as an centive, Hennessey bowled nos of 247, 218, 237 and 204 Thursday's first round for a 6 total and a two-pin lead er unknown Daniel Boone of ston.

Boone, who has never cap- ed a championship outside ston, rolled the day's high- t single game of 277. But he d to settle for a four-game al of 924.

Flashy Carmen Savlino of hicago rounded out the close- bunched top three with 920. rom there, the field began to ring out.

Dick Weber of St. Louis, try- g to become the first man in ll-Star history to capture the le three straight times, start- low with a four-game total 836.

Over in the women's depart- ent, Janie Letcrynki of Mil- waukee rolled a three-game to- of 663 to take the lead. Her ore was the highest three- me total ever rolled by a men on the tournament's ening day.

She led Olga Gloor, who sed a 648 series. Running rd after the opening round as Myrt Defily of San Anton- o, Tex., who posted 621.

Jack Nicklaus, world's great- est football player, gets approx- imately \$25,000, plus extras of another \$10,000 a year or so.

Wilt (The Stilt) Chamberlain, pro basketball ace, makes in the neighborhood of \$50,000 a season.

Jockeys like Willie Shoemaker, if they have a good season, make upwards of \$100,000 a year.

Big money, you say? Pea- nuts!

Take a look at the golf pro- fessionals. Over a 10-year span, they are the highest-priced ath- letes in the history of sports. They make more money than corporation presidents; several times as much as the presi- dent of the United States.

Short Career
The only athlete who makes more in one year, possibly, is the world heavyweight boxing champion who, if he is lucky, gets three or four good gates during his career.

But a golfer's career is good over a stretch of 10 to 20 years. And their yearly intake is as- tronomical.

Arnold Palmer, with his golf- ing skill and sideline activities, reputedly took in \$500,000 last season.

Jack Nicklaus, who won't be 24 years old until Jan. 21, is believed to have collected in the neighborhood of a quarter of a million dollars in 1963, when his official PGA earnings were \$102,903.

Gary Player, the little South African who knows how to build a buck into two, has said that a good golfer with a good manager should be able to quadruple what he wins in official PGA earnings.

Player won \$60,000 last season—and off his own standards must have collected \$240,000.

Doubled PGA Figure
National Open champion Julius Boros collected \$83,000 in PGA money in 1963—and probably collected close to twice that amount.

This doesn't mean that the players netted anywhere near the amount they made. Expens- es take a big bite from their winnings.

PAMPA REAPERS — Pampa Junior High 9th grade cagers are, top row, left to right: Larry Keyser, Larry Stephens, L. D. Rowden, Bob Karr, David Martindale, Billy Scribner. Middle row: Coach Harold Moore, Lee Pulse, John Garza, Roby Walters, Darrell Smith, John Braley. Front row: Wesley Vienneau, Jim Baker, Alfonso Gomez, Douglas Abbott, Gary Butler, Gary Myatt.

Bryant Still Wants Payoff

BIRMINGHAM, Ala. (UPI)—Alabama Coach Paul (Bear) Bryant will seek the full \$10-million in his suit against the Curtis Publishing Co., attorney Francis H. Hare said Thursday.

The attorney, retained this week by Bryant, said a federal judge's order reducing the amount of the judgment won by former Georgia Athletic Di- rector Wally Butts would have no effect on Bryant's suit.

"We have an entirely differ- ent situation here and that ac- tion ought not to influence a jury in Alabama," Hare said.

Bryant and Butts each sued for \$10-million because of a Saturday Evening Post article charging they attempted to rig the 1962 Alabama-Georgia foot- ball game.

Butts won a \$3.6-million judg- ment but was told by U.S. Judge Lewis Morgan in Atlan- ta that he must accept only \$460,000 or face a new trial.

Bryant's suit is scheduled to be tried here Feb. 10.

AGREE TO FIGHT
FLORENCE, Italy (UPI)—Alessandro Mazzinghi, world junior middleweight boxing champion of Italy, Thursday night agreed in principle to a bout against Gaspar Ortega in Juarez, Mexico, probably in June.

LORTSCHER SIGNS
MINNEAPOLIS - ST. PAUL (UPI)—Dennis Lortscher, an 18-year-old righthanded pitcher, signed his 1964 contract with the Minnesota Twins Thursday. Lortscher is the only first-year player on the team's spring roster.

SPORTS

The Pampa Daily News

56th YEAR FRIDAY, JANUARY 17, 1964

Sports Parade

By OSCAR FRALEY
UPI Sports Writer

MIAMI (UPI)—The immortal Four Horsemen of Notre Dame gridiron glory couldn't even play in the National Foot- ball League of this era, Frank Gifford of the New York Giants asserted today.

"They'd be much, much too small to stand the gaff," said the handsome flanker back who was knocked out of action him- self for one year. "The size and ferocity of those defensive teams is unbelievable."

"Consider Jimmy Brown," he points out with vast admiration for the 232-pound fullback of the Cleveland Browns, first ball carrier to gain more than a mile of yardage in one season. "He is 10 years ahead of the game."

"But," adds Gifford, "in 10 years we'll have a lot of Jimmy Browns, fellows who are not only big and seemingly inde- structible but also move with tremendous speed and maneu- verability. You might say that because of multiple vitamins we'll have multiple Jimmy Browns."

Sees Great Advances
It's Gifford's opinion that at the end of another 10-year span a 300-pound lineman will be "just average" and that "every one of them will be able to move like sprinters."

The six-foot, one-inch 190-pounder from the University of Southern California was out of action in 1961. He suffered a bad concussion when he was hit by Chuck Bednarik of the Phil- adelphia Eagles.

"I didn't know what hap- pened," said Gifford. "It was like being run over by a truck and I was out cold. A lot of people said I ought to quit be- fore I started walking around on my heels."

Gifford spent the 1961 season scouting for the Giants and con- centrating on building up a planned radio and television ca- reer. He still is going ahead with this and, as a commenta- tor for CBS, worked the pro Playoff Bowl game Sunday. But in 1962 he couldn't withstand the urge to get back into ac- tion and rejoined the Giants.

Had Better Season
"It took me a long time to get back into condition," he re- calls. "I feel I had a much bet- ter season this past year but playing with fellows like Y.A. Tittle and Del Shofner made it easier. They have to put two

defensive men on Shofner while they usually only have one on me. A good receiver should beat one defender because you know where you're going and he doesn't."

Gifford looks forward to at least one more season of play although, he says, "I really don't know if they want me to come back." What he means is that he doesn't know if he will be sent a new contract but other sources indicate that the Giants still are counting on him for at least another season.

However, when he is finished, Gifford will have no worries. The collar ad guy is in big de- mand for commercials, endorse- ments and such and in addition to aiming for his own television sports shows does two radio sports shows.

Joe Giardello OKs Contract

PATERSON, N.J. (UPI)—Middleweight champion Joe Giardello has signed with the brand new Nationwide Sports Promotions, Inc. for all of his fights and personal appearanc- es, promoter Lou Duva of Pat- erson announced today.

Duva is president of the new corporation which filed its pa- pers in Philadelphia Thursday. Giardello's Philadelphia attor- neys, Michael Del Collo and Don D'Augli, are treasurer and secretary, respectively, Duva explained.

After Giardello of Cherry Hill, N.J., goes through with his already contracted non-title fight against light heavyweight Herschel Jacobs at the Pater- son Armory for Duva on Feb. 8, they will consider "several \$100,000 offers," Duva said.

Outstanding challengers are Joey Archer of New York and Rubin (Hurricane) Carter of Paterson. Also ex-champions Dick Tiger of Nigeria and Terry Downes of England.

Weekend Can Make Or Break Uclan Bid

By United Press International
This is the weekend that can make or break UCLA's bid for its first unbeaten season in bas- ketball and its first national championship.

By an odd quirk in the sched- ule, the Bruins already have faced most of their tougher op- ponents. They've had rather good success, too, with a 13-0 record and the No. 1 ranking among the nation's major pow- ers.

The most likely to halt UCLA is Stanford, and that's exactly who the Bruins will be up against in a two-game weekend series. UCLA will have the ad-

vantage of its home court to- night but Saturday's game will be contested at a neutral site in Santa Monica.

Stanford, ranked 16th, brings a 9-2 record into the series in addition to a strong desire to wipe some of the polish off its Big Six rival.

Although action generally is light this weekend due to mid- year examinations, several other members of the top 10 face important conference games Saturday.

Third-ranked Michigan, in a three-way deadlock for the Big Ten lead, engages another co- leader, Ohio State, at Ann Ar- bor; fourth-ranked Kentucky, trying to scramble back into the Southeastern Conference race after losing its first two league games, will be at home for an engagement with confer- ence leader Tennessee; and eighth-ranked Cincinnati trav- els to Drake for a Missouri Val- ley Conference match.

Oregon State, rated seventh, faces a home-and-away week- end series with Oregon and 10th-ranked Villanova is at Xavier of Cincinnati Saturday.

In Thursday night's action, Virginia Tech beat William & Mary, 73-66, Florida State nipped Memphis State, 91-80, and Wyoming defeated Arizona State of Tempe, 87-82.

Seven Cities Apply to AFL

SAN DIEGO, Calif. (UPI)—Seven groups have applied for new American Football League (AFL) franchises, Joe Foss, league commissioner, told the league owners at the annual AFL meeting Thursday.

He listed Newark, Montreal, Philadelphia and Cincinnati as four groups and said the others preferred to remain anonym- ous.

The expansion committee, headed by Lamar Hunt, owner of Kansas City Chiefs, will study the applications for con- sideration at the league's sum- mer meeting in Buffalo, N.Y.

Calvin Kunz, owner of the Denver Broncos, said the league was not interested in ex- pansion until all clubs were in the black. The same eight teams will be in the league next year, the owners said.

A retirement plan for AFL players and plans for next year's television schedule also were discussed by the owners.

Three representatives of the newly formed players associa- tion meet with the owners to- day to discuss pension and medical plans.

OWLS SET DATE

HOUSTON (UPI)—Coach Jess Neely has set Feb. 3 as the tentative starting date for start of spring football drills for the Rice Owls.

The early start, Neely said, would permit several Rice grid- stars to finish the 20-day work- outs in time to compete in other spring sports.

Neely will be starting his 25th season with Rice on that date, if the weatherman co-operates.

McANDREW MOTORS
800 W. Kingsmill Pampa

A Watchful Newspaper EVER STRIVING FOR THE TOP O' TEXAS TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

Time to Junk the Trash

In Pampa and almost every city there are signs challenging the careless who litter the highways and scatter trash. It's a worthy campaign.

It calls for a parallel campaign, unless we are to turn our cities and countryside into repetitious dullness, devoid of character.

A recent comment of an architect underscores the dilemma: "In the objects soon to be mass-produced for our country's swelling masses, it all collapses into falsity and superficial seriousness; the triumphal progress of trash begins."

It is this deadening trashiness that Jesus confronted as men turned even the Commandments into harsh rigidities, losing their meaning and their purpose.

He commented simply, "Ye have heard it said of old time, but I say unto you," and with bold brush strokes put great new dimensions before men. There was nothing uninteresting or dull about such words.

Those men and women in our time who teach, communicate, renew, and call men from contentment with trashiness serve a larger purpose than they might guess.

That person who condemns a child to dullness, causing him to miss the exciting awakening of his own senses and wasting his energies, deserves Jesus' harsh condemnation. "It is better that a millstone be hanged about his neck."

A Form of Servitude

Are some of this nation's major labor unions seeking to commit suicide?

This is not an idle question. See what Victor Riesel, a writer of very wide experience in labor affairs, has to say in the Los Angeles Times: "There is another rail crisis highballing it down the main lines of the land right into the White House; this time it is not a matter of striking the railroads. Angry union chiefs know full well that Congress and President Johnson won't permit them to paralyze the railroads."

"So labor's high command is ready... to demand that the government take the country's 600 railroads away from their private owners. This would be socialization of the railroads."

That attitude, of course, stems mainly from the railway unions' demand that the railroads continue, apparently forever, to hire workers, mainly firemen on

The pressures of modern living seem to be getting heavy for more and more of us.

With seemingly no way out, it now appears that even chickens seem to be caught up in our pressurized living.

At least, this is what you might conclude in light of the results of two researchers at the University of Arizona. They find that by giving chickens as-

"Look, baby, we don't have to be radical any more - I made a killing in the market!"

Edson In Capitol

PETER EDSON NEA Washington Correspondent

WASHINGTON (NEA)—There's a reason for President Johnson's sudden approach to Khrushchev for a "peace offensive" in 1964.

U. S. experts think Khrushchev's announced cutback in military spending won't be sufficient to enable him to get industrial - agriculture-consumer production on the track.

New government evidence here indicates Khrushchev's heavy step-up in military spending from 1960-62 was a major cause of his 1963-64 economic troubles.

From 1957-59, Khrushchev's military spending apparently held fairly steady. Russia's annual rate of growth of investments in fixed capital - which stimulates over-all economic growth - went up a hefty 14-15 per cent a year, or a whopping 8.3 billion rubles for the two-year period.

Then from 1960-62, Khrushchev pushed arms outlays up by 3.3 billion rubles. The annual rate of growth of investment in fixed capital skidded to 4-5 per cent a year, to a two-year total of 3.8 billion rubles.

From 1955-58, the Soviet economy reportedly grew by an average of 8 per cent a year. This slipped to around 2 per cent annually the past two years.

The Soviet construction materials industry was especially hard-hit by Khrushchev's arms race. Its growth rate dropped from 25 per cent in 1959 to 21 per cent in 1960, to 16 per cent in 1961, to 8 per cent in 1962 and to an estimated 6 per cent in 1963. Much of Russia's over-all industrial growth depends on the strength of its construction materials industry.

"Khrushchev plans to bury us by forcing us to spend ourselves into bankruptcy in an arms race has boomeranged," says one U.S. Soviet economic specialist.

Published first reports on the new Soviet budget indicated that Khrushchev was cutting back on military spending - to give more aid to consumers, agriculture, industry.

New data carefully analyzed by Soviet experts here shows that Khrushchev is not only cutting arms spending. He is cutting back on consumer-agriculture-industry programs across the board.

This is what indicates to U.S. experts that the current cutback in military spending won't be sufficient to meet Soviet economic problems.

Here are examples of how Khrushchev in the past month has cut back on his 1970 goals: Industrial goals were cut all along the line - in steel, other ferrous metallurgical products, plastics, chemical fibers. Goals for food, shoes, clothing, housing, wages have been revised downward.

Textile production goals were slashed 28 per cent, from 13.6 billion square meters a year to 9.8 billion. Shoe output goals slipped 21 per cent. Fertilizer production goals, key to improving Soviet agriculture, were cut back around 10 per cent, meat goals about 20 per cent, milk goals around 15 per cent.

In 1963, Khrushchev had planned for 91 million square meters of housing. Only 75.6 million were built. Housing goals for 1964 and 1965 have been reduced 17 per cent.

All Khrushchev's economic problems, of course, are not the result of military expansion. Soviet planners, administrators and managers have made many mistakes, and these mistakes have had a tendency to bunch.

Under the abortive Sixth Five-Year Plan, they brought a fuel-and-metal shortage on themselves. Currently, their errors have run high in construction. Consider these figures: The value of uncompleted construction projects - uncompleted because of bad planning and management as well as shortages - increased from 16 billion rubles in 1956 to 17.5 billion in 1958, and to 27 billion in 1962.

HOW TO ADDRESS OUR LAW MAKERS

You may wish to write your senators and representatives in Washington and Austin. Here are their addresses: (FEDERAL) Rep. Walter Rogers, House Office Bldg., Washington D. C. Sen. Ralph Yarborough, Senate Office Bldg., Washington D. C. Sen. John Tower, Senate Office Office Bldg., Washington D. C. (STATE) Sen. Grady Hazelwood, Senate Bldg., Austin, Texas. Rep. Grainger Maloney, House of Representatives, Austin, Texas.

POLITICS AND BETRAYAL IN THE CARIBBEAN

The reign of Rafael Trujillo as dictator of the Dominican Republic ended in 1961 as it had begun 31 years earlier: in bloodshed and machinegun fire. Trujillo was able to survive for 31 years in the jungle of Dominican politics only because he was shaped by - and almost perfectly adapted to - its "claw and fang" environment.

Exile Speaks

Following Trujillo's assassination, Arturo Espallat, Secretary of State Security in the Dominican Government, was exiled to Canada. From his exile he has written of the way in which the United States was involved in both the life and death of Trujillo, in "Trujillo: The Last Caesar" (Henry Regnery Co., 14 E. Jackson Blvd., Chicago 4, Ill.; \$4.95). Espallat details how Trujillo was able to bribe influential American Congressmen and State Department officials

Question Box

(We invite questions on economic and the proper functions of government which will not injure anyone.)

QUESTION: "Is it true that equality is unnatural and artificial, that inequality is a natural state and contributes to the health of society?"

ANSWER: It seems that all history proves that it is true. Every human being is different and has talents that other individuals do not have. Thus they are able to contribute to the well being of mankind much more so than if all people had equal talents and abilities.

The inequality of man is what furnishes examples and initiative which benefits all mankind. Pareto, the great Italian philosopher, said that society is like a pyramid of sand, the higher you let the man with initiative, capital, and ability rise, the more people will be able to survive and the more people can have a higher standard of living.

Of course, that does not mean that there won't be people who merely subsist. That is a law of nature. As a great teacher said, "The poor you will always have with you." But the higher the apex the more men we have of initiative and judgment and courage and creative ability, the more people can live at a higher standard of living. They tend to pull the great masses of people up. Ortega Y. Gasset ascribed the decay of Spain through the centuries to the lack of eminent directing minorities and the undisturbed predominance of the masses. Gasset's, "Revolt of the Masses," was translated into 15 different languages and had a very wide distribution.

The more people we have who live by rationally thinking and better understanding the laws of the universe and setting a good example to the rest of us, the more we will improve the well being of mankind on this earth.

MISLEADING

Uncle Felon Purlon was the most borrowing man ever to set foot in the sandhills of Spatang. If there was anything under the sun that he had not borrowed from a neighbor at one time or another, it must have been because they didn't have it. He borrowed a plow from one neighbor, a mule to pull it with from another and cotton seed to plant from another. It might not have been so bad if Uncle Felon had returned what he borrowed, but usually each neighbor had to come after his own equipment and there was always the possibility that Uncle Felon might have sold it to the junk man.

He owed everyone and seldom paid any debt. A hot, dry summer found him in banker Brown's office trying to borrow some money. Bankers have a way of asking questions that are sticky as sorghum molasses. Shuffling some papers on his desk, banker Brown asked, "How is your maize crop, Mr. Purlon?" Uncle Felon crossed his legs, cracked his big knuckles and said, "Mr. Brown, I've got some maize that is over six foot high and has heads on it ten inches long."

This shook up banker Brown, because he'd driven around quite a bit and knew that maize all around Spatang was less than knee high and its leaves were twisting up from the drought. In this case Uncle Felon was not telling an outright lie, he did have two stalks of maize out where the horse tank ran over that was ever bit as good as he said it was. Banker Brown filled out a few more lines of the mortgage and asked another sticky question. "How is your cotton doing Mr. Purlon?" Uncle Felon cracked his knuckles again, crossed and uncrossed his legs, sweat ran down his face, but he finally answered, "Mr.

Brown, hits doing alright, hits holding his own."

Banker Brown was just about to slide the mortgage across the desk for Uncle Purlon to sign, when he had an after thought. Bankers are notorious for having after thoughts. He asked, "Mr. Purlon just what do you mean saying that your cotton is holding its own?" Uncle Purlon buried his face in his hands, but finally answered, "Well Mr. Brown hit come up with two leaves on each stalk and hit's still gottem." He did not get the loan.

It seems to me that some of our politicians who proclaim that we are holding our own against Communism, are trying to mislead the people about like Uncle Purlon was trying to mislead banker Brown.

Turning Back The Years (From the files of the Pampa Daily News)

30 Years Ago Today Jan. 17, 1934

Gray county residents who thought the deadline for securing auto licenses would be extended found they were in error, according to a ruling received by Tax Collector T. W. Barnes.

25 Years Ago Today Tom Aldridge, manager of the C. R. Anthony store since it opened here in 1934, announced he would leave for Amarillo to become manager of the company's store there.

10 Years Ago Today City-County Sanitarian L. E. West reported he had distributed 12 notices to persons cited for disobeying the city's livestock ordinance.

Allen-Scott Report President, Atty. General Aligned On Different Sides In Maryland Primary - Could Strain Their Accord

WASHINGTON — President Johnson and Attorney General Robert Kennedy are facing the first significant test of their tenuous arrangement to let bygones be bygones and to work together until after the November elections.

Each is supporting a strong candidate for the Democratic senatorial nomination in nearby Maryland's May 19 primary, and the outcome of this backstage clash of wills and personalities remains to be seen. It could end the "marriage of convenience" before getting very far.

Favored by the President is State Comptroller Louis Goldstein. Also backing him are Governor Millard Tawes, Senator Daniel Brewster, and other influential leaders of the regular party organization.

"Bobby" Kennedy's candidate is former U. S. Attorney Joseph Tydings. The son of the late long-time Senator Millard Tydings was named to this important federal job for the avowed purpose of furthering his prospects to seek the seat held by Republican Senator Glenn Beall.

Prior to President Kennedy's assassination, the stage was set for his administration to throw its weight behind Tydings. In various ways, he was to get the benefit of such potent support.

Now the situation is exactly the opposite. While outwardly the President and his political lieutenants are keeping hands off this explosive Democratic contest, no doubt is being left that Comptroller Goldstein is their choice.

Nothing is being said against Tydings or Attorney General Kennedy. But the undisguised enthusiasm for Goldstein comes through loud and clear.

Pointedly indicative of this is the reaction of the President's close political assistants to a complaint of undercover intervening for Tydings by a key-placed Kennedy hold-over.

It is being charged that Theodore Sorensen, special White House counsel and one of the late President's most intimate aides, is quietly proselyting for Tydings. The claim is made that Sorensen is urging influential Maryland Democrats to back Tydings.

Clifton Carter, top political lieutenant of the President, has assured Goldstein managers that Sorensen will be bluntly told to "cease and desist."

What if anything "Bobby" Kennedy does about this is a toss-up.

If he continues to work for Tydings that will put him at direct loggerheads with the President and his faction. If the

Area Educator Tells of Travel In Soviet Union

A Perryton school official told the Pampa Noon Lions Club the most "frightening thing in Russia is the Young Pioneer organization."

Gilbert Mize, superintendent of schools at Perryton, made the remark while reviewing a 22-day trip through Scandinavian nations which he made with some 50 other American educators.

"The Young Pioneer group is something like Boy Scouts," he declared, "only they drill the youngsters with the ideas of Communism while making better citizens of them."

Mize said he saw a group of the red-banded youth members sing several Russian songs during a tour of one "boarding school" and the experience was "shaking."

"You could tell they were very proud of Russia and their way of life. You could almost see the fire in their eyes," he commented.

Mize explained that while Russia was trying to "educate as many as possible" the Soviets were still working on the European pattern of cutting so many by ages from their educational system.

"They give more a chance at high school education, but the cropping tests are still given at different levels," he said.

Mize said when Americans heard that Russia had graduated 32,000 engineers last year, it could be accepted as so, but the Russian definition of engineer was much different from that of the United States.

"In Russia, half of the 32,000 engineers are what we call technicians and the other half, which are university graduates, regular engineers," he explained.

Mize said the same is true of the huge number of doctors in the Soviet Union. He said 60 per cent of the women doctors in Russia would be "what we call registered nurses and must work under the direction of a trained medical doctor."

The Perryton man said school building structure was such in Russia that not one of the Soviet buildings visited by his group could have "passed a building code examination in a U.S. village."

"But the basic fact is, that while Russia is a long way from being equal with us, they are busily drilling their people with the ideas of Communism and succeeding," he said.

Mize said, in closing, that he remembered taking a tour through one of the ornate castles that old Russian royalty built for their wives, daughters and sweethearts.

"While we were going through a group of Russian students were being shown the building

Committees Picked For Lions' Minstrel

Committees for the 1966 Lions Minstrel Show were named today by Howard Greenlee, show chairman and business manager.

The Lions Club members will begin rehearsals each Tuesday and Thursday starting this week at Pampa High School with show dates set March 12-13.

A total of 11 committees will function to produce the show with a 13-man steering committee slated to head the program.

Greenlee, who will serve as chairman with Max Fressnell, named the following to the steering committee:

Earl McConnell, Henry Groben, Harold Dougherty, Bob Monzingo, Joe Tooley, Dave Duval, John Dellacroce, Ray Duncan, Ralph Thomas, John Lee Bell and Dudley Steele.

Wynne Veale will serve as specialty chairman.

Other committees, chairmen and members, include:

Congress — Harold Dougherty, Harris Kimbrough, Homer Bowers, Carl Caldwell, Verl Hagaman, Bill Harris, Frank Stallins, W. W. Wells, Art Larano, H. C. Luna, William G. McComas, Hansford Olesky, Stanley Shulken, John White, Arville Hayes, J. C. Roberts, Carl Shafer, E. E. Shultz, Frank Smith, Tom Snow, Lou Troja and Victor Keyes.

Stage and Sound — Earl McConnell, Bill Dunn, N. L. Nicholl, Curt Beck, John Bowers, D. V. Siggers, Homer Craig, A. A. Sturgeon, Charles Doan, J. R. Zane Hall, J. E. McCann, Charles Duenkel Sr., John Studer, Charlie Thut, Weldon Stewart, Calvin Whitley, Claude Siterly, J. E. Gunn and Bill Skoug.

Program — Ralph Thomas, E. O. Wedgeworth, W. L. Veale, Arthur Teed, Dudley Steele, Carl Beavers, Lee Harrah, Thomas Huff, Charles Bransche, Paul Brown, Paul Crouch, Frank Culbertson, Joe Donaldson, Russell Kennedy, Don Forsha, Robert Gordon, Raymond Dorsey, C. B. Homer and Roy McMillan.

Chorus — John Lee Bell, Harbord Cox, Jack Back, George Friant, Ray Rodgers Sr. and R. A. Wyckoff.

Tickets — Dave Duval and Rufe Jordan, co-chairmen. Entire club serves as committee members.

Publicity — John Dellacroce, Harold Miller, Norman Henry, Floyd Imel, Bill Craig, Blake

by a history teacher. Mize said. "They were telling the boys and girls — this is the way it was under the Caars, this was theirs and you had nothing, now it is yours — it belongs to everyone of you."

"And friends, they believe it," Mize said.

Laramore, Jim Currey, W. H. Monroe, Frank Grantham, Ray Wilson, Arthell Gibson, R. E. Farrell and Lee Franks.

House — Joe Tooley, Ray Wilson, Crawford Atkinson, L. Barrett, Malcolm Brown, Fred Cary, Norman Shaw, Oscar Huff, Duke Balthrop, Price Dossier, Ralph Dunbar, R. D. Falkenstein, Houston Fleetwood, J. W. Brunley, Floyd Strickland, John Vantine, John Wortman, R. R. Watson, H. S. Hollender, Jim Morris, E. J. O'Brien, D. L. Parker.

Make-up — Bob Monzingo, E. A. McLennan, M. N. Roberts, Irl Smith, Earnest Winborne, James McCune, H. C. Seago and Robert Evans.

Reception — Ray Duncan, James Evans, A. B. Carruth, Bert Nuckels and Gary Neal.

Music and band — Henry Groben and Frank Hatcher.

Controller and finance — O. K. Gayler.

JACK BACK seeks tax post

Jack Back Seeks County Tax Post

Jack Back, longtime Gray County resident, filed today for re-election as county tax assessor-collector in the May Democratic primary.

Back will be seeking a third term and his second four-year term in office.

Back is married and resides at 2207 Christie St. He was reared in the McLean area and attended McLean High School.

Back is an active member of the Church of Christ and takes an interest in civic matters on various levels.

He said he would make a formal announcement of his candidacy later this month.

Washington Window

By LYLE C. WILSON

United Press International President Johnson's reduced 1965 fiscal year budget will be distributed to news bureaus Saturday and will be presented to Congress and published Tuesday of next week, Jan. 21.

Let this essay be a warning to the taxpayers: Don't believe everything you read next Tuesday about the budget. Everything is a sucker if you believe much of anything about the budget. President Johnson will report it next week to Congress.

This is not a reflection on President Johnson. It is simply a fact of life. Most citizens next Tuesday will read some of the budget headlines and a few paragraphs of the budget stories. Friends, do not be conned by the majestically rolling cadences of the President's budget message nor by the piously prim accounting in billion of dollars and odd cents on the cost during fiscal 1965 of this or that function of government. Be not sold, either on the government income figures which will be set down precisely as so many billions from that tax and so on.

Estimate Is Guessimate This whole budget business is guess work. At best, the estimate of what government will cost in fiscal 1965 is no more than a guessimate. The experts always are wrong. Consider! The budget message going to Congress next week is an estimate of government income and outgo in fiscal year 1965, which will not begin until July 1 of this year. It will end about 18 months hence on June 30, 1966.

Even with the best of intentions, the politicians and Budget Bureau numbers sharks can do little more than guess what revenues and expendi-

tures will be. Much will depend on what Congress does or does not appropriate; on what Congress does or does not vote in the way of tax cut.

Moreover, there probably will be supplemental appropriations sought and obtained from Congress as fiscal 1965 wears away. Projects budgeted for \$1 billion will be found to be costing \$2 billion. Or income will sag or an emergency will arise.

The Bureau of the Budget, like another famous hot spot, is paved with good intentions. The budgeteers do their best, usually tempering their best when necessary to give the man in the White House the best close decisions.

FDR Quit Hoping Thus, the budget estimators enabled Franklin D. Roosevelt to predict a balanced budget and a surplus through the first six or eight years of his presidency. It never came off and, finally, FDR quit even hoping for a balance.

The horrible example, perhaps, was in fiscal year 1959 during Dwight D. Eisenhower's second term. Ike was an honest man who wanted a balanced budget and to reduce government spending. He estimated for fiscal 1959 a budget surplus of \$466 million. Not much, but a surplus. When the returns were all in at the end of fiscal 1959, Ike had a deficit of \$12.4 billion.

The late President Kennedy was in the habit of estimating for a surplus and ringing up a deficit. President Johnson now estimates '65 fiscal year expenditures at \$87.3 billion, half a billion below the Kennedy budget for the current fiscal year. Johnson estimates for a deficit of \$4.9 billion. His estimate of fiscal '65 revenue is \$83 billion. These are mere guesses until the books close in June 1965.

Notes From Wall Street

Jack Coleman of Bergman, Cummings & Co. believes there can be little doubt remaining that we are in a long term bull market, and he feels the technical indicators tend to confirm it.

Leslie M. Pollack of Reynolds & Co. is "very impressed with the action of the market over the past few weeks" and thinks the general price level could work considerably higher over the foreseeable future.

NEW YORK (UPI) — According to Kenneth Ward of Hayden, Stone & Co., "the bullish technical pattern of the general market and dozens of individually attractive stocks is still undisturbed."

"Strategic investment position are being strongly held and a large amount of latest buying power is available. It seems that any correction taking place during the next few weeks should hold above the 755-760 level in the Dow-Jones industrial and 174-176 in the rails. A selective buying policy on all periods of minor weakness is still advocated."

"Little doubt can remain that we are in a long term bull market," says Colby & Co., Inc. "Although it is becoming a little overextended and subject to increasing price irregularity, it's far from over." They would continue to add to existing portfolios during avoidable reactions.

Bache & Co. says that "although the overall tone continues to look good, the market is still expressing a good deal of discrimination of choice. We think investors should certainly do the same."

Humphrey Asks Study Of Automation Plan

WASHINGTON (UPI) — Senate Democratic Whip Hubert Humphrey called this week for a comprehensive study of the impact of automation and technology, including a search for programs to cope with effects of possible disarmament.

In a statement prepared for Senate delivery, Humphrey said he was introducing President Johnson's proposal to create a commission on automation, technology and employment.

The Minnesota senator's proposal broadened the administration program to include the impact of defense spending and arms reduction.

"The time has come for a truly comprehensive and in-depth study of this critical challenge to our system of democratic government and our system of free enterprise," he said.

Humphrey said there were many needs crying out for the application of technology and automation.

"There are many tasks and projects that would create thousands of new jobs, create many new communities, revitalize more old ones," he said. "But this will take planning, not wishful thinking."

Humphrey proposed a commission on automation, technology and employment similar to

commissions once headed by former President Herbert Hoover on government reorganization. It would make the study over a two-year period.

The commission would be composed of 32 members, including 10 from the executive branch of the government from the legislative branch 12 from private life.

The commission would point advisory panels in fields of science and technology, economics, political science, operations analysis and news.

SHORTAGE OF MEN

DOUGLAS, Isle of Man (UPI) — The Isle of Man has a shortage of men.

The government said there are 26,091 women and 20,000 men on this island off the west coast of Ireland.

Foreign News Commentary

By PHIL NEWSOM

UPI Foreign News Analyst

In a trophy-decked room off a shaded patio in a suburb of Lima last spring, presidential candidate Fernando Belaunde Terry outlined his plans for Peru.

The nation's No. 1 problem, he said, was the Peruvian Indian who made up more than half of Peru's approximately 11 million population but who played no part in the Peruvian economy.

This, he said, called for widespread land reform but not for confiscation.

Calls Self Nationalist Politically, he described himself as a nationalist within a framework of hemispheric cooperation.

Generally, his views toward Peru's six million Indians were not too different from those held by his chief opponents. Raul Haya Della Torre, founder of Peru's moderately leftist American Popular Revolutionary Alliance (APRA), and Gen. Manuel Odría, an aging rightist and former Peruvian dictator.

Belaunde won the election and a military junta which a year earlier had nullified national elections on charges of fraud, moved out in favor of democratic government.

Going been Tough Since then, the going for the handsome, dark-browed Belaunde has not been easy. For the United States, his actions have been both pleasing and distressing.

As an avowed nationalist, he supported nationalization of the International Petroleum Company, a subsidiary of Standard Oil of New Jersey which has operated in Peru since 1922. The company provides 90 per cent of Peru's oil needs and also exports crude oil and oil products. It lists assets of \$200 million.

A final settlement still is pending, with the United States taking the position it will accept any solution acceptable to the company.

"BEST SELLER" AVAILABLE WASHINGTON (UPI) — The 1964 edition of that perennial government best-seller, "Your Federal Income Tax," is now available at 40 cents a copy at U. S. tax offices across the nation.

PANEL SETS HEARING AUSTIN (UPI) — The Texas Water Commission has scheduled a hearing Feb. 14 on the Sabine River Authority's application to buy \$15 million worth of storage facilities at the Toledo Bend Reservoir.
