CAMPAIGN — Members of the Pampa Garden Club joined the Chamber of Commerce this week in the annual city Clean Up-Paint Up-Fix Up drive which is scheduled to continue through May. Members of the club's clean up committee added signs to a truck and, armed with rakes and brooms, began aiding the spring clean up cause. From left in the truck are Mrs. W. E. Hinton, Mrs. Carlos Grissom and Mrs. C. C. Matheny. Standing from left are Mrs. E. W. Hogan, committee chairman; Mrs. A. J. Mitchell, Mrs. Lee Moore and Mrs. Thelma Bray.

Pampa Awarded Top Bond Rating

Pampa City Manager Harold Schmitzer announced today that Pampa has become one of the very few cities in the state to have been awarded a "AA" bond rating by the financial firm of Standard and Poor's in New York.

At the same time, the Pampa Independent School District received the same rating.

The change was listed in the current issue of Texas Bond Reporter, official publication of the Municipal Advisory Council of Texas. Pampa's previous rating had been "A."

The new rating will make sale of city and school bonds much easier, according to City Secretary Edwin Vicars, and will enable the city and school to save from one-eighth to one-quarter of one per cent on bond interest rates in the future.

On a large bond issue, such as the one now in the planning stage for a sewer treatment plant, the saving to the city would run into thousands of dollars over the 20-year life of the issue, Vicars said.

The city's fiscal representatives, R. A. Underwood and Co., Inc., of Dallas, were primarily

responsible for obtaining the new rating. Schmitzer said, by channeling information on the city's financial status to the New York investment company, which rates taxing units all over the nation as to financial responsibility.

Of the some 30 cities which received either new or revised ratings in the current edition of the magazine, Pampa was the only one to get the top rating of "AA."

PAMPA'S ANNUAL CLEAN UP DRIVE

City clean up trucks were winding up their work in Ward 1 today and will move into Ward 2 Friday in Pampa's annual Clean Up-Paint Up-Fix Up campaign.

The trucks will be in Ward 2 tomorrow and Monday, Tuesday and Wednesday of next week.

R. B. Cooke, public works director, said this morning more than 40 loads of trash had been hauled away in Ward 1 so far. The trucks, he said, will return to Ward 1 for a one-day re-run on May 26.

44 Die on West Coast In Crash of Airliner

Armed Forces Day Will Feature Parade, Talks

Armed Forces Day will be observed in Pampa Saturday complete with a parade, brass bands and plenty of speeches. The program will kickoff Armed Forces week observances in this area which will continue until Sunday, May 17.

A noon parade will open the celebration, which will be highlighted by a downtown concert by the U.S. Air Force Band from Amarillo Air Force Base.

The Pampa Chamber of Commerce military affairs committee will sponsor the parade and luncheon which will follow at the Coronado Inn as the city honors members of the armed forces and veterans.

The parade, which will form at Craven and Cuyler Sts., will feature the Air Force band, the Pampa High School band, the Sam Houston Drill Team from the West Texas State University ROTC unit at Canyon, a number of reserve units, floats and delegations from veterans' organizations.

The Air Force Band will hold a concert at 2 p.m. near the V.F.W. Hall, which will be open to the public. A large number of military units will take part in the parade. Chamber officials said, and efforts to have an Air Force fly-over are under way.

Following the parade, a luncheon will be held at the Starlight Room of Coronado Inn at

which time M. K. Brown, well-known Pampa civic leader, will speak and present a number of special awards to organizations that have aided military programs in the Pampa area this past year.

Judge E. E. Jordan, commander of the Naval reserve unit in Amarillo, will be a featured speaker at the luncheon at which PHS Principal Cameron Marsh will serve as master of ceremonies.

Ammonia on Loose Brings Near Tragedy

Mix 16,000 gallons of liquid ammonia with a strong wind and the outcome is silent death.

Residents of the Prairie Village area of Pampa slept while city police battled with a problem that represented the same formula between 11:30 p.m. Wednesday and early morning today.

The more than 300 residents were unaware that vandals had opened a valve to a large ammonia tank at the Hoover Oil Company near W. Brown and Wilks Sts. and allowed 16,000 gallons of the white liquid to pour onto the ground.

Gene Snell of the Hoover Oil Company discovered the open line about 11:34 p.m. and called police. Snell told Lt. Bill Robinson that a shift in the wind to the north would send fumes from the ammonia across the Prairie Village area, creating a deadly situation.

Snell said that the drifting fumes would force residents in the area to be removed by police until the ammonia was either washed away with water or evaporated.

Robinson called firemen to the scene and efforts to control the ammonia, which had covered over 100 feet of area, began.

Firemen, with one eye on the ammonia and another carefully watching the way the wind blew, decided the easiest solution would be to wait the ammonia out, since it is a fast evaporating liquid.

Officers and firemen camped out for awhile and others stood ready to begin the task of awaking sleeping Prairie Village residents at a moment's notice.

The problem cleared itself as the winds continued to blow the fumes away from the endangered area. By sunrise, the ammonia was gone.

Police, however, were still working this morning to determine how the ammonia was released from its tank—Robinson

said it appeared to be the work of small youngsters, pointing out that a 12-inch hose was damaged badly near-by.

The officer said that had not Snell discovered the liquid residential area to the south could easily have turned into a sleeping death trap.

Police estimated a loss of some \$5,000 was caused by the incident which apparently had no rhyme or reason behind it.

Officers today were pressing their investigation into the case, which has been officially tagged as vandalism.

Servicemen Voting Tiff Nears Climax

SAN ANTONIO (UPI)—The question of voting rights for military men stationed in Texas may be settled in time for the general elections in November.

The state attorney general's office announced this week that U.S. Dist. Judge Adrian A. Spears has set July 13 as the date for arguments in a suit brought by two airmen.

They are Sgt. James Mabry and Lt. David Sneyary, who sued in federal court for the right to vote. They are challenging a Texas law that forbids members of the armed forces to vote in Texas elections if they entered the service from some other state.

The state Supreme Court ruled last week that an El Paso soldier, Sgt. Herbert N. Carrington, was ineligible to vote, upholding the same law being questioned in the federal courts by the two airmen.

The sergeant is reported planning an appeal to the federal courts of his own, on the grounds the law is unconstitutional.

Railmen Strike on Two Illinois Lines

PEORIA, Ill. (UPI)—Firemen and engineers went on strike today against two small but important railroads in protest against imposition of new work rules which will wipe out more than 4,000 jobs.

The strike against the Toledo, Peoria and Western (TP&W) and the Peoria and Pekin Union (P&PU) railroads was in defiance of a federal court order barring walkouts directed against the work rules changes which went into effect at midnight.

Picketing was also reported at a Pennsylvania Railroad yard in Conway, Pa.

H.E. Gilbert, president of the Brotherhood of Locomotive Firemen and Engineers (BLF&E), said in Washington the Illinois strike was unauthorized. He said he had not been informed of it in advance.

J.E. Wolfe, spokesman for the nation's major railroads said in another Washington statement that the carriers "will take decisive action immediately" to make sure that the court order against such walkouts is enforced.

The walkout on the two lines involved little more than 100 men. But it halted operations on the TP&W, a 236-mile system which serves as a connection between major Eastern and Western railroads, and the even smaller P&PU, a terminal line which switches 2,000 freight cars for seven major railroads daily.

On the strike were members of BLF&E Local 96, representing the TP&W firemen, and Local 48, representing P&PU employees. The presidents of both locals said the men walked out in protest against "management's unilateral interpretation" of the federal arbitration board award allowing railroads to eliminate firemen jobs on diesel locomotives.

Robert Strand, president of Local 96, said the arbitration board is still in session in Washington. He said the railroad should withhold imposing the new work rules until the board's final decision has been reached.

Hot Summer Session Seen By Johnson

WASHINGTON (UPI)—President Johnson says he may call Congress back into session after this summer's political conventions if the lawmakers fail to act before then on the civil rights bill and his other major proposals.

The Chief Executive raised the threat of an extended congressional session Wednesday at a picnic-style news conference—one of the most unusual in the White House annals. About 1,000 newsmen, their wives and their children, some of whom were babes in arms, attended the outdoor affair.

Johnson took the crowd in stride, reeling off a series of announcements, most of them dealing with a buoyant and soaring economy, then plunged into a brisk question-and-answer session.

He was asked when he expected Senate action on the civil rights bill, now in the ninth week of debate, and whether he might hold Congress in extended session if consideration of the bill dragged on.

The Chief Executive replied that he hoped and expected the Senate to dispose of the measure in a "reasonably short time," by the end of May or early in June. Then, he said, Congress could move on to such other items as his anti-poverty legislation, the food stamp plan, the Appalachian bill and medicare.

But if it should become apparent that there was a slowdown to avoid action, he said, he would seriously consider asking Congress to return after the Republican convention in July and, if necessary, after the Democratic convention in August.

Johnson emphasized that he wanted Congress to act one way or another on his major legislative proposals.

If it comes from a hardware store we have it. Lewis Hdw. Adv.

Bull Nears End of Walk To World Fair

MOUNT HOLLY, N. J. (UPI)—Bobo the bull, who has walked all the way from Fort Worth since last September, rested at a farm near here before continuing his trip to the World's Fair.

His owner, Jerry Cotten, 23, of Saginaw, Tex., said they made about 10 miles Wednesday after leaving Mount Holly. They spent the night at the farmhouse of Harry Pike.

Before arriving in Mount Holly, Cotten and Bobo spent two weeks at the home of Pike's brother, William, in Mullica Hill. William Pike, a truckdriver, had befriended Cotten when he met him in Baltimore, Md.

Cotten, who said if probably will take him about two more weeks to get to the fair, said. (See BULL, Page 3)

PHS A Cappella Choir and Drama Group Set Program

The Pampa High School A Cappella Choir and drama department will combine talents tonight and Saturday night at 8 p.m. in the high school auditorium to present an evening of American folk art in song, drama, and dance.

Beginning the program will be individual numbers from the two departments. Included will be a humorous platform story presented by Earl Scott, a medley of folk songs by the popular singing group composed of Larry Johnson, Doug Altom, and Phil Smith; and a dramatic reading by Carole Sears. Narrator will be Barry Peterson.

The feature attraction, "God's Trombones," a choric dramatization of James Weldon Johnson's poetry with arrangements by Fred Waring, will present the 70-voice choir under the direction of Hugh Sanders accompanied by Marion Neslage, Harold Thompson, Pam King, Billy Hayes, Carole Sears, Dana Taylor and Carole Akt. A cast of 13 drama students provide variety in pantomimed scenes.

Special accompaniment will be provided by Jerry Whitten, organist; Eileen Trout, pianist; and George Sanders, tympanist. Director for the program is Mrs. Don Myers, of the drama department.

Admission is 75 cents for adults and 50 cents for students.

New FAA Ruling Orders Lighting For Life Jackets

WASHINGTON (UPI)—The Federal Aviation Agency (FAA) today made it mandatory for all airlines operating more than 50 miles from land to equip their life preservers and life rafts with lights. The order, effective Nov. 2, applies to all U.S. scheduled and supplemental airlines as well as commercial operators using large planes in extended overwater flights.

2-Engine Plane Hits Near Bay

By ROBERT STROUD
DANVILLE, Calif. (UPI)—A twin-engine airliner flying from Stockton, Calif., to San Francisco in clear weather crashed and burned on a ranch today and all 44 persons aboard were reported killed.

Pacific Air Lines officials said the plane, an F27 turbojet, carried 40 passengers, a crew of three and one Federal observer.

Contra Costa County sheriff's officers said there were no survivors.

The plane, Flight 773 originating in Reno, Nev., smashed into the ground on a ranch near this community on the east side of San Francisco Bay.

It was about 40 miles from its destination, San Francisco International Airport. It gave no hint of trouble in a routine radio report to the FAA control tower at Oakland a minute or two before it crashed at 9:50 a.m. EDT.

Dave Patterson, a pilot from nearby Concord, Calif., flew over the crash scene and said wreckage was strewn for at least a quarter of a mile.

"No portion appeared larger than a single automobile," he said.

It was the third crash in the 21 years of Pacific Air Lines, a scheduled line operating in California, Oregon and Nevada.

In Washington, the Civil Aeronautics Board said a 12-man investigation team headed by Lee Martin was being sent to the crash site.

City Tax Unit Sets Hearings Next Week

The city tax board of equalization will hold public hearings in the city commission room at City Hall Monday, Tuesday and Wednesday of next week.

The sessions will be held from 9 a.m. to 12 noon daily for the purpose of hearing any property owner who may have business with the board.

Notices were sent out some time ago to property owners whose values were increased or decreased.

Monday's session will deal with matters relating to real estate property. Tuesday will be devoted to personal property and Wednesday has been set aside for out of town property owners.

City Tax Assessor-Collector Aubrey Jones said today it probably would be around the first of June before figures will be available on the 1964 total tax assessment.

The 1963 city tax roll amounted to \$45,006,840.

Members of the city tax equalization board who will sit at the hearings are George Scott, Jim Dailey and R. M. Samples.

Third Boy Found Dead Near Woods

HILLSVILLE, Va. (UPI)—The FBI, following a trail of gasoline purchases made with a stolen credit card, Wednesday found the body of a third missing boy linked with former mental patient Joseph Francis Bryan Jr.

The investigation into his activities is still continuing, an FBI spokesman said in Washington.

Agents discovered the body of David Wulff, 8, who disappeared from his Willingboro, N.J., home April 1, in a wooded area about 400 yards off U.S. 52 near this small mountain town just above the North Carolina line. The youth lay next to a log, covered with leaves.

Bryan, 25, who once told authorities he liked to see "small boys tied up and screaming," was taken to Sumter, S. C., Wednesday to await trial in the kidnaping of David Robinson, 16, of Mount Pleasant, S. C.

He was captured in New Orleans by two FBI agents last week, shortly after he was placed on the FBI's list of 10 most wanted criminals. Bryan had with him at the time 8-year-old Dennis Burke of Humboldt, Tenn. The boy had traveled with Bryan for three days but was not harmed.

The stolen credit card earlier had led agents to the skeleton of Lewis Wilson Jr., 7, of St. Petersburg, Fla. The Wilson boy was found in a rattlesnake-infested field near Venice, Fla.

Compromise On Prayers Is Offered

WASHINGTON (UPI)—A fragile trial balloon was flying today over the congressional school prayer battleground.

The trial balloon was in the form of a tentative suggestion by Chairman Emanuel Celler, D-N.Y., of the House Judiciary Committee. It conceivably could give Congress an exit from its current dilemma over public school prayer and Bible-reading.

Celler is an outspoken opponent of 147 proposals to amend the Constitution to override Supreme Court decisions outlawing classroom worship as a required part of school programs. He asked a witness Wednesday if he would favor Congress advising the high court of its feelings before undertaking to amend the Constitution.

The New York congressman suggested that Congress simply declare itself in favor of voluntary worship in the schools and call for Supreme Court affirmation of that principle. He noted that a New York federal court recently upheld voluntary schoolroom prayer and said the case might be before the Supreme Court before long.

Other congressional news: Civil Rights: Senate civil rights leaders scheduled further conferences with Atty. Gen. Robert F. Kennedy today on revisions of amendments to the rights measure. The session was to deal with some of the tougher issues, including Senate GOP Leader Everett M. Dirksen's proposed modification of the public accommodations and employment sections of the bill. The leaders hoped for a "package" agreement on most of the revisions.

Oklahomans Kill Work Amendment

OKLAHOMA CITY (UPI)—Oklahomans killed a proposed "right to work" amendment Tuesday in a heavy vote that climaxed a three-year battle by its promoters.

But right to work forces said they were considering asking for a recount.

Raymond Armstrong, manager of Oklahomaans for Right to Work, Inc., refused to concede today and said, "We're sitting tight."

With 2,895 of the state's 3,044 precincts reporting, there were 318,516 "yes" votes for the "right to work" amendment and 339,658 "no" votes.

Opponents of the measure enlisted the aid of Democratic party leaders in their fight and labeled it a fight between Democrats and Republicans.

The Oklahoma Republican party officially supported passage. House Majority Leader Carl Albert and U.S. Sens. Mike Monroney and Howard Edmondson opposed the question.

Lawsuit on Cemetery Set In Kansas

CHANUTE, Kan. (UPI)—Neosho County Dist. Judge George W. Donaldson set a hearing on the cemetery lawsuit for May 28.

The state, through Atty. Gen. William Ferguson and Insurance Commissioner Frank Sullivan, has brought suit against Norman Anderson of El Paso, Tex., and nine cemeteries he owns in Kansas.

The state seeks to force three of the Anderson cemetery corporations to reorganize as profit-making companies.

Such a move would force the three companies to file back reports and pay delinquent taxes, fees and penalties.

It also would force the Anderson companies to set up and maintain perpetual care trust funds as required by Kansas law.

Ship Damaged In Collision

NEWPORT, R.I. (UPI)—The Newport based destroyer USS Decatur sustained heavy damage Wednesday when it was in collision with the aircraft carrier Lake Champlain some 150 miles off the coast of Virginia, the Navy said.

No injuries were reported aboard either ship.

The accident occurred as the destroyer was pulling away from the carrier after being refueled. The ships were engaged in anti-submarine war maneuvers.

Officials said the Lake Champlain, out of Quonset Point, R.I., sustained only minor hull damage. A plane aboard the carrier also was damaged.

Most of the damage to the Decatur was confined to the superstructure, the Navy said.

The Decatur, in company with the destroyer USS Gearing, proceeded at reduced speed toward Norfolk, Va. It was expected to arrive there Thursday.

The Lake Champlain continued operations.

SMOKED CHICKEN—Dawn Brooks has trained her pet, Ernesto, to hold a cigarette in its beak. It comes in handy when Dawn wants to put her smoke down while she does something else. Presently, Dawn is at work in a movie on location in Rome. Ernesto has a part, too.

Railroads Accused Of Misinterpretation

WASHINGTON (UPI) — The president of the Brotherhood of Locomotive Firemen and Enginemen (BLFE) accused the nation's railroads today of deliberately misinterpreting a federal arbitration award in eliminating firemen from diesel locomotives.

BLFE chief H. E. Gilbert made the accusation at a news conference in seeking to explain the union's position in a new rail union - management wrangle in advance of a scheduled meeting Thursday to work out differences in interpretation of the arbitration board's award.

A federal district judge Tuesday issued an order to block strikes against several major railroads threatened by the BLFE. The order is good for 10 days.

Gilbert said there definitely would have been strikes called if management had not obtained the injunction.

Gilbert conceded that his interpretation of the arbitration

award differed from that of the railroad's chief spokesman, J. E. Wolfe.

"We now find that individual railroads are going beyond Wolfe's official interpretation and deliberately misinterpreting the award to suit their own special interest," Gilbert said.

A Supreme Court ruling last April 27 cleared the way for the award to take effect Thursday. It eventually could eliminate 90 per cent of firemen's jobs on freight and yard diesels — about 33,000 jobs.

A union spokesman said strike ballots were taken on several railroads by the union but were not tabulated and no permission to strike was granted by the national office of the union.

The latest strike threat came two days before the three-man arbitration board was to meet with union and management spokesmen to dispose of disputes over interpretation of the board's decision.

Truman in Capital For Birthday Fete

WASHINGTON (UPI) — Former President Harry S. Truman, acclaimed as "one of our greatest national assets" by President Johnson, returns to the nation's capital today for a two-day celebration of his 80th birthday.

Johnson telephoned the peppy former Chief Executive at a Kansas City, Mo., party Wednesday to wish him happy birthday in advance. The President also was expected to attend the birthday party here for Truman Friday night.

Truman was to be presented Austria's highest decoration, the Grand Cross with Ribbon, at 4:30 p.m. EDT ceremonies in the Austrian Embassy. Tonight he was to be honored at a Masonic dinner.

When Johnson called Truman

to congratulate him on his forthcoming birthday Wednesday, the President heard himself praised as the equal of any chief executive of the past century.

"I don't think we have had a better president in a hundred years that we have right now and I am tickled to death with him," Truman said.

"I hope you know that you belong to all America and you are one of our greatest national assets," Johnson responded.

Sunray Man Hurt In Auto Accident

A 36-year-old Sunray resident was in satisfactory condition this morning at Highland General Hospital after a collision some 13 miles east of the city about 3:40 a.m. today.

James Virgil Gambol of 210 Ave. K in Sunray was being held for further observation after he was tossed from his late model automobile after the car struck two guard posts on U. S. 70.

Highway Patrolman Vernon Cawthon, who worked the accident, said Gambol was driving the car with an unidentified passenger in the front seat at the time.

The officer said Gambol apparently fell asleep at the wheel and the automobile angled off into a ditch, struck one guard post, traveled along the ditch, hit the second post and then went into a broadside skid.

Gambol was thrown out during the skid, Cawthon said, but the automobile apparently missed the man. The passenger stayed inside the automobile and was not injured.

Cawthon listed the automobile as heavily damaged.

Greeks, Turks Reinforce in Cyprus Fight

NICOSIA, Cyprus (UPI) — Greek and Turkish Cypriot forces reinforced their defenses and manned new gun positions today as a result of fighting at widely-scattered points on this strife-torn island.

A sharp exchange of gunfire broke out just before midnight Wednesday night in Nicosia's northern suburbs and continued into the day. There were no immediate reports of casualties.

Reinforced United Nations patrols used tracker dogs to comb the old city of Nicosia during the night searching for new gun positions of both sides. Officials of the U.N. peace force admitted anxiety at the increased tension.

U.S. Sen. J. William Fulbright, D-Ark., was flying to Ankara for talks with Turkish officials on the Cyprus crisis.

Fulbright met with Greek Premier George Papandreu in Athens Wednesday on the second stop of his special mission for President Johnson. He saw British Prime Minister Sir Alec Douglas-Home in London on Tuesday.

OK BOND ISSUE
SHAMROCK, Tex. (UPI) — By a vote of 728-415, a \$385,000 bond issue for a new hospital for south Wheeler County was approved Tuesday.

Obituaries

William C. Stalcup
Funeral services for William Clarence Stalcup, 72, will be conducted at 2 p.m. Saturday in Duenkel-Carmichael Funeral Chapel, Lester Hathaway, minister of Mobeetic Church of Christ, will officiate. Burial is to be in Fairview Cemetery. He died at 2 a.m. today in a local hospital.

A resident of Pampa since 1926 when he moved from Hutchinson, Kan., Mr. Stalcup was a retired oilfield worker and owned rental property here. He made his home at 849½ W. Kingsmill.

He was a member of Wells Street Church of Christ.

Survivors include his wife, Olive; two brothers, Charlie, Preston, Kan., and Floyd, Lansdown, Pa.; one sister, Mrs. Anna Duley, Hutchinson; three grandchildren and one great-grandchild.

C. V. Wilkinson
Funeral services for C. V. Wilkinson, longtime resident of Pampa who died in Pryor, Okla., Saturday, were conducted in the Presbyterian Church of Pryor Monday.

Rev. Roy Nunn, Tecumseh, Okla., brother-in-law of Mr. Wilkinson, officiated, assisted by Rev. Lorin Laiger, pastor.

Palbearers were Dr. M. C. Overton, George Friauf and John Hankins of Pampa; Todd Overton, Phoenix, Ariz., and four elders of the Presbyterian Church of Pryor.

Mr. Wilkinson was a member of the First Presbyterian Church here. He was a native of Missouri, born Sept. 6, 1900. He was a rancher and in the grain business in Pampa before moving to Pryor a short time ago.

Survivors include his wife, Loretta; one daughter, Mrs. Vivian Copeland, Pryor; one son, Dr. D. I. Wilkinson, New Orleans; three grandsons, five brothers and two sisters.

Ultimatum New Threat For Laos

VIENTIANE, Laos (UPI) — Premier Souvanna Phouma's ultimatum to two leftist ministers in hiding posed a new threat today to hopes for reorganizing the Laotian coalition government.

The neutralist premier said Wednesday he would fire Health Minister Khamsook Keola and Gen. Heuan Mongkhonvay, secretary of state for veterans affairs, if they failed to return to the capital by today to help him run the government.

Authoritative observers doubted the ministers would heed Souvanna's order, and they said the Communist Pathet Lao would object to any drastic cabinet changes.

This combination of events, the observers said, created the danger of new hostilities between the Pathet Lao and the united neutralist and rightist factions.

Khamsook and Heuan, along with many other officials, fled Vientiane during an attempted right-wing generals coup d'etat April 19. The two ministers have issued statements from their hiding places that they do not want to return because they fear assassination by rightist troops.

Since the coup attempt, Souvanna has been trying to restore and revitalize the three-way coalition which existed prior to April 19. He has won a pledge of cooperation from right-wing strongman Gen. Phoumi Nosavan, who commands 50,000 troops, but has met stiff resistance from Pathet Lao leader Prince Souphanouvong.

Bull
(Continued From Page 1) — the people of New Jersey "have been wonderful to me. There are a lot of farms in this part of the state and they appreciate what a fine animal Bobo is."

Asked who received more attention, him or the bull, Cotten said "mostly it's the bull that appeals to people."

PLANS CYCLING TRIP
HOUSTON (UPI) — A 68-year-old man who thinks people should "dare to be different" will pedal his bicycle to the World's Fair.

Paul Rubinstein Kepner, a trim, white-haired former college professor, plans to leave Tuesday and to travel 100 miles per day. He hopes to arrive at the Fair June 6.

Court Told Estes Near Bankruptcy As Early as 1960

AUSTIN (UPI) — Billie Sol Estes, previously thought to have been worth about \$50 million from his West Texas fertilizer schemes in 1960, was pictured before the state Supreme Court Wednesday as only a step from bankruptcy at that time.

Paul C. Cook of Fort Worth quoted Estes as saying in the spring of 1960:

"If you're going to sue me, don't do it in Pecos—you'll throw me into bankruptcy. Sue me in Wichita Falls."

Cook's remarks were the first public indication that Estes was in financial trouble long before his arrest in March, 1962, on fraud and swindling charges.

Estes is currently free while lawyers appeal an eight year state prison term and 15-year federal sentence on fraud and swindling charges.

Cook said Estes made his remark to attorney L. T. Wilson of Wichita Falls, when Wilson threatened a suit to recover \$15,000 Estes is said to have owed on some Reeves County land.

Cook is the lawyer for Wilson's mother, Mrs. J. R. Wilson who sold Estes the 640 acres in 1956.

Estes sold the land in 1960 to C. R. Vance and three others, who then leased it back to Estes.

Mrs. Wilson, however, said Estes didn't keep up the payments he still owed her on the land, and so she had the land sold again to pay off the debt.

Vance and the others who bought the land from Estes sued Mrs. Wilson, arguing that she couldn't sell the land, since it belonged to them and not Estes.

Cook said Estes told Wilson he could not pay the \$15,000 and said a suit in Pecos would force him to declare bankruptcy when Wilson went to collect from Estes in Pecos.

Rotarians Hear Musical Combo

The "Rejects", a local musical trio, entertained the Pampa Rotary Club yesterday at a luncheon meeting in the Coronado Inn.

Pampa High School students Larry Johnson, Hank Henry and Phil Smith made up the group, which provided the club with several laughs as well as entertaining folk music.

Jack Reeve served as program chairman.

Toastmasters Pick Week's Top Speech

Harry Mitchell's speech on "We, the Unemployed," was selected as the best speech of the night when the Pampa Toastmasters met at Coronado Inn this week.

Mitchell's talk was selected out of three speeches by Calvin Hill, John Darnell and Mitchell.

Guests were Martin Ludeman and Claude Smith. Dave Osborne was presiding officer in the absence of Jim Moring, president.

EXCHANGE SEAT SOLD
NEW YORK (UPI) — A seat on the New York Stock Exchange was sold this week for \$203,000, \$3,000 more than the previous high transaction, it was reported.

Warning Given on Teen-age Drinking

A rash of minor in possession cases in Corporation Court in the past three weeks, climaxed by a total of 10 cases in the past three days, brought a severe warning to Pampa teenagers from Judge John Warner today.

Warner declared that while he attempted to deal with each case on its merits, he felt the minor in possession violation was getting out of hand and it was the duty of the court to consider stiffer fines if the problem continues.

"Last year we had 193 minor in possession cases before us," he reported. "This year the figure is running high. I don't have a complete total with me, but I know it is high. We are concerned over the problem." Police figures show some 80 cases this year.

Warner pointed out that in recent weeks two youths had been fined \$100 each upon conviction of minor in possession charges. He added that one boy, who had been fined one day and re-arrested the next night for the same charge, was scheduled for trial this week.

"If it takes stiffer fines to bring this problem under control, then the court most certainly will consider taking this step," he commented. "I don't like the idea of young boys having a criminal record before they get out of school, but if that's what it takes, then that's

what we'll have to do."

Warner pointed out that youngsters arrested for minor in possession would have criminal records since the charge is a misdemeanor — not a traffic violation.

The judge said, however, that only one boy under 16 had been brought before him this year in connection with such a charge and that if evidence provided was correct, the youth was only in an automobile where intoxicants were found by city police when the driver was stopped for a traffic violation and was not actually drinking.

Under the present statute, a youngster need not have an open bottle of beer or whiskey in his hand at the time of arrest to be charged with minor in possession, but must only be present in a car where liquor is found to be charged.

As a result, though the boy is under 16, the youngster now has a criminal record since he was charged as being in possession. The youth was placed on probation to Juvenile Officer Bill Leonard.

"We are going to continue to judge each case by its merit, but this teen-age drinking problem is one of our biggest and it is something that needs to be corrected," the judge declared. "If larger fines are needed, then that's what will be handed out."

Spurned Lover Sends Gifts of Poison Pastry

SAN JOSE, Calif. (UPI) — Alice Yoshida, 23, of Morgan Hill, told police Wednesday that she sent congratulatory gifts to her former boy friend and his fiancée when they announced their engagement.

He got a cake spiced with rat poison, and she got a strawberry pie containing poisonous oleander leaves.

Officers identified the man involved as Mickey Neilan, 31, a teacher at Horner Junior High School at Fremont. His fiancée is Jovina Medeiros, 25, a laboratory technician at San Jose Hospital.

Neilan told police that two weeks ago a cake was delivered to his apartment in Santa Clara, accompanied by a handwritten note congratulating the couple on their engagement.

They were wary of the cake, and Miss Medeiros kept it with the intention of having its contents analyzed. However, she called police Sunday when the pie was delivered to her office at the hospital.

Analysis at the county crime laboratory showed the cake contained enough rat poison to kill a human, police said. Miss Yoshida admitted that the pie contained oleander leaves before an analysis of that was completed.

Miss Yoshida, who admitted sending the gifts after she was arrested on a petty theft charge Wednesday, told officers she did it to "get even" with Neilan "and get rid of that girl."

INFORMAL DRESS
SEMMES, Ala. (UPI) — This bulletin board notice startled viewers at Semmes High School: "Classes will meet in gym tomorrow. Neither group will dress."

Refrigerator Cream Cake Terrific with Strawberries

REFRIGERATOR CREAM CAKE for Mom's Day.

By GAYNOR MADDOX
(6 to 8 servings)
Advice to the youngster who sets out to make the most delicious dessert possible for Mother's Day: start with a basket of beautiful fresh strawberries. They need very little embellishment. Then like Curlylocks in the nursery rhyme, Mother can sit on a cushion and sew a fine seam while she "feeds upon strawberries, sugar and cream."
But if you want to gild the lily and surprise her with something super, then make this easy to put together Refrigerator Cream Cake and serve with Strawberry Sauce. It's terrific.

REFRIGERATOR CREAM CAKE

2 pkgs. (3 ounces each) lady fingers
4 T. sugar
1/2 t. pure vanilla extract
2 c. heavy cream
Fresh Strawberry Sauce
Whole fresh strawberries
Split lady fingers and use as many as needed to line the bottom and sides of a lightly buttered 8-inch spring-form pan. Add sugar and pure vanilla extract to cream, and whip until it stands in soft, stiff peaks. Fill the pan with alternate layers of whipped cream and lady fingers, having cream as top layer. Re-

Egg yolks will separate from the whites more quickly if eggs are removed from refrigerator about 45 minutes before using.

Cottage cheese and currant jelly make a good weight-watcher's dessert.

frigerate overnight or 6 to 8 hours. Just before serving, remove sides from the spring-form pan and place cake on a serving plate. Garnish top and around the bottom of cake, as desired, with fresh strawberries. Serve with Fresh Strawberry Sauce.

FRESH STRAWBERRY SAUCE

1 pint fresh strawberries
1 T. sugar
1/4 t. pure vanilla extract
1 c. sliced fresh strawberries

Wash strawberries, remove caps and crush coarsely. Add sugar and pure vanilla extract. Fold in sliced strawberries.

WHY NOT filet of sole with bananas?

Why Not Fry Filet of Sole With Bananas? You'll Find It Pleasing

By GAYNOR MADDOX
The delicacy of filet of sole, one of the most popular fish dishes, prompts Peter Robotti, a distinguished New York restaurateur, to give added interest with either bananas or with oranges and lemons.

We sampled both dishes at his handsome East side restaurant, Le Chateau Richelieu. Then we asked our best for his easy to prepare but definitely gourmet recipes.

FILET OF SOLE TROPICAL

(2 servings)
1 pound filet of sole (4 small filets)
1 banana, sliced diagonally
2 ounces butter
1 lemon
Parsley
Seasoning to taste
Lightly season the filets with salt and pepper. Sauté in butter over medium flame. Slice the banana diagonal and arrange banana slices over filets in the skillet. Cook for 3 minutes. Garnish with fresh parsley and lemon. Serve piping hot.

FILET OF SOLE FLORIDA

(2 servings)
1 pound filet of sole (4 small filets)
2 ounces butter
1 orange, cut into sections
1 grapefruit, cut into sections
Parsley
Lemon
Seasoning to taste
For cooking, follow same method as used in Filet of Sole Tropical.

TRY KRAUT AND FRANKS, Alsacienne style.

Try Old Country Franks and Kraut

By GAYNOR MADDOX
This family-style "old country" combination of kraut and franks is just the dish you'll enjoy after a lot of fancy foods. So is the recipe for the Kraut-Franks Short-cut Skillet.

KRAUT AND FRANKFURTERS ALSACIENNE

(4 to 6 servings)
6 frankfurters
1/2 c. sliced onion
1/4 c. butter or margarine
3/4 c. undrained sauerkraut
1/4 c. firmly packed brown sugar
2 T. chopped pimiento (optional)
1/4 c. dry sherry
In large skillet, cook frankfurters and onion in butter until lightly browned, about 3 minutes. Stir in kraut, sugar and pimiento. Cover and simmer 10 minutes. Stir in sherry. Serve hot. Garnish with parsley if desired.

KRAUT-FRANK SHORTCUT SKILLET

(6 servings)
2 T. butter or margarine
1 medium onion, chopped
3/4 c. undrained sauerkraut
1 pound frankfurters
Salt and pepper to taste
2 c. mashed potatoes
1 c. grated Cheddar cheese (about 1/4 pound)
Paprika
Melt butter in skillet. Add onion and cook until tender. Add kraut, frankfurters and salt and pepper. Blend potatoes and cheese; spoon over kraut mixture. Sprinkle with paprika. Cover and cook over low heat 10 to 15 minutes. Garnish with parsley, as desired.

Report Reveals Favorite Foods

By GAYNOR MADDOX
Q - I've just gotten a job planning menus and cooking dinner for a group of businessmen. Can you tell me if there really are any kinds of food men prefer?

A - As most of your group of businessmen have probably had some military experience, this report from "Food Preferences of Men in the U.S. Armed Forces" may be of some help. Fresh milk tops the list of food preferences. Then come hot rolls, hot biscuits, strawberry shortcake, grilled steak, ice cream, ice cream sundaes, fried chicken, French fried potatoes and roast turkey. Good luck and good cooking!

Q - Is it true that some people actually eat dirt? Why do they do it?

A - Yes. In many areas of the United States, particularly in the South, the custom of eating dirt is still prevalent, according to a report in the Journal of the American Medical Association.

Dr. Charles E. Mengel and Dr. William A. Carter of Durham, N.C., state that, "The practice, medically termed geophagia, may result in anemia, severe illness and even death."

Manners Make Friends

With children it is still what you do and not what you say that counts.

Give Meat Loaf Novelty With Mushrooms, Herbs

By GAYNOR MADDOX
Here's a savory variation on the popular meat loaf. The stuffing with mushrooms and herbs provides the novelty.

SAVORY MEAT SQUARES

(8 servings)
3 pounds lean beef chuck, ground
2 eggs, beaten
1 tablespoon salt
1/8 teaspoon pepper
1/2 teaspoon marjoram
1/4 cup milk
1/4 cup catsup
STUFFING INGREDIENTS
1 can (6 ounces) broiled mushroom crowns
1 teaspoon salt
1/2 teaspoon pepper
2 tablespoons dehydrated onion flakes
1/4 teaspoon marjoram
1 tablespoon dehydrated parsley flakes
1/4 cup melted butter or margarine
1 quart fresh bread crumbs
Place meat in large mixing bowl, then blend together and add eggs, salt, pepper, marjoram, milk and catsup. Mix lightly but thoroughly with large kitchen fork. To make stuffing: Reserve 8 mushroom crowns and chop the rest medium fine. Add chopped mushrooms, seasonings, onion and parsley to melted butter. Stir lightly, then add bread crumbs and toss lightly to mix.

In an 8x12-inch well-greased baking pan, pack half of the meat mixture, then top with all of the stuffing, spreading it evenly over the surface. As a top layer add the other half of the meat. With a knife, lightly make one very shallow cut lengthwise down center of pan, then make 4 evenly spaced crosswise cuts to give you 8 squares. Place a mushroom crown in the center of each square and press mushrooms deep into the meat. Brush top of meat with 2 tablespoons

Skilled Hostess Gives Tips on Easy Mother's Day Dinner Cooked by Mom

By GAYNOR MADDOX
No Mother's Day surprises for Theresa Morse. This skilled hostess, author of "Never In The Kitchen When Company Arrives," prefers to give the party herself.

"I invite one husband, two daughters, two sons - in-law, two granddaughters and two grandsons. Forgive me, but I find soggy cakes with 'To Mother' on them slightly depressing. It's far more fun for everyone when mother does the culinary honors. At least, that's my experience," she says.

More hospitable than sentimental, this gourmet mother practices what she preaches in "Never In The Kitchen When Company Arrives." Her Mother's Day dinner is free from last-minute confusion. The following menu is from her book: Lucky children!

Baked Baby Broilers
Fluffy Rice
Dilled Green Beans
Mixed Green Salad
Tart French Dressing
Mystery Torte
Small Scoops
Vanilla Ice Cream

Wash and gently dry broilers with paper toweling. Mix together oil, lemon juice, oregano, parsley and garlic. Place broilers, skin side up, on broiler pan; season with salt and pepper and brush with mixture. Turn and roast. Let stand at room temperature for two hours. When ready to cook, place 8 inches below broiler heat and broil first one side, then the other (skin side last) until nicely browned (about 10 minutes to a side) brushing occasionally with more mixture. When well browned, pour over balance of oil mixture, add a few dabs of butter, and cover with foil (if not baking immediately, this much can be done well ahead). When ready to bake, uncover pan and place in pre-heated 375-degree oven for 35-40 minutes.

catsup, then bake in a pre-heated 400-degree oven for about 70 minutes.

Foreign News Commentary

By PHIL NEWSOM
 UPI Foreign News Analyst
 Since the days of the Romans the port of Aden at the tip of the Arabian Peninsula has been a trading link between Asia and Europe. Today, in the hands of the British it is a strategic military base guaranteeing the flow of oil from the Persian Gulf, and the site of an oil refinery capable of processing five million tons of oil per year.

It also is a plum ardently desired by President Gamal Abdel Nasser of the United Arab Republic.

In recent weeks have occurred events which in British eyes are not mere coincidence. In neighboring Yemen, where for more than a year his troops have been deeply involved, Nasser told cheering tribesmen:

"We swear by God to expel Britain from all parts of the Arab world. We shall shed blood and sacrifice souls..."

Get Modern Arms
 And in the South Arabian Federation, of which Aden is a part, the tribesmen whom Britain has been battling for a century suddenly were striking with modern arms, mortars and automatic weapons. The weapons could only come from outside sources, and the British were convinced they came from the United Arab Republic via the Republic of Yemen.

As usual in the tangled affairs of the Middle East, the ramifications spread far beyond the desolate volcanic rock and the barren mountains and sand which make up the Aden protectorate and the sultanates, emirates and sheikhdoms composing the South Arabian Federation.

In Yemen, Nasser has tied up close to 40,000 of his armed forces, a third of his military strength. An operation undertaken to protect the new Republic of Yemen after the overthrow of the monarchy and at first expected to be of short duration had turned out to be a quagmire, costly to the Egyptian economy and unpopular at home.

With all the effort, Yemeni republican forces and the Egyptians still were able to control only Yemen's cities. Desert tribesmen still rallied to the deposed monarchy.

For Nasser the time was approaching when either he had to win in Yemen or get out with resulting damage to his aspirations for Arab unity.

Has Advantages
 Despite the difficulties involved there were certain advantages for Nasser.

A victory in Yemen would go a long way toward eventual control of the Red Sea and would lead directly into the oil-rich sheikhdoms of the South Arabian Federation.

In the British he had a natural target for his favorite themes against colonialism and imperialism, doubly so since the area involved once was held by Yemen and still is claimed by the Yemen government.

In Yemen it was noteworthy that Nasser did not attack Saudi Arabia, which has supported the deposed monarchy. New discussions with Saudi Arabia are pending and success there would contribute to success in Yemen.

Britain's troubles in Aden may be just beginning.
 Adv for Thursday pms, May 7

Russia Changes Broadcast Policy

WASHINGTON (UPI)—Russia has made a major switch in its overseas broadcasting, during the past week, drastically cutting programs to Europe and concentrating instead on areas of confrontation with Red China, a high U.S. official reported Wednesday.

Carl Rowan, head of the U.S. Information Agency (USIA), called it one of the most significant changes in the history of Russia's international broadcasting. The changeover was made on May 1.

Rowan said Soviet broadcasts in 10 Western European languages have been decreased, along with English broadcasts to North America.

He said that at the same time Russian broadcasts in languages spoken in China, Mongolia, Korea, India and Nepal have been greatly stepped up.

Great Port

The Duluth-Superior harbor on Lake Superior is the second largest port in America in terms of tonnage shipped. Iron ore and grain make up most of the tonnage.

WOMAN'S WORLD

WASHINGTON (UPI) — "A woman's world no longer ends at the backyard fence," according to the nation's First Lady. Mrs. Lyndon B. Johnson, in a special message printed in the current issue of "The Democrat," a publication of the Democratic National Committee, said that "a woman's place is not only in the home but in the American mainstream."

Mrs. Johnson said that the talents of the 96 million American women are a significant national resource which can enrich the nation's social, economic and political life.

CHECKER CHAMP — Mrs. Ruth Bussey of Tampa, Fla., smiles as she is crowned queen of supermarket checkers at a national convention in Chicago. Mrs. Rose Solavino of Cambridge, Mass., 1963 queen, is doing the crowning. Mrs. Bussey was selected for her speed, accuracy, courtesy and care.

PIE FACE

HILLSIDE, N.J. (UPI) — A policeman rushed up with a first aid kit when Edward Dumphy, 55, of New York emerged from his overturned bakery truck with his face covered with what appeared to be blood.

But the officer found Dumphy licking strawberry and cherry pie filling from his lips.

Pampan Attending Engineer Seminar

TULSA, Okla. (Spl) — Thirty-nine employees of Sinclair Oil & Gas Company, including Duane Cudney of Pampa, are attending a basic engineering seminar May 4-8 at the Tulsa Research Center of Sinclair Research, Inc.

Participants are from the Midland, Houston, Denver and Tulsa divisions, and the company's Canadian subsidiary, Sinclair Canada Oil Company. Sessions are conducted by personnel of Sinclair Oil & Gas Company and Sinclair Research, Inc.

CRUSHED TO DEATH

TAHOKA, Tex. (UPI) — Charles F. Meyer, 51, a Lynn County farmer, was killed Tuesday night in a tractor accident.

He fell from the tractor when it struck a gravel pile on a county road near the Draw community. Meyer was crushed.

Applications—left figure, Admissions—right figure

NO ROOM AT THE 'IVY' COLLEGES—The Ivy League schools were swamped this year with 44,373 applications for admission, a 16 per cent increase over last year. Only 13,820 students were accepted for the available 9,075 places. The Ivies "overadmit" to compensate for the multiple applications students make. The students are from the beginning of the post-war baby boom. The Newschart provides the breakdown in applications and available freshman places in the seven colleges.

COMMUTING WATER BUG—One of the newest sights in New York's East River is the 22-passenger aquafoil, Albattross II. It's a smooth way of traveling to the New York's World's Fair from downtown. The boat rises up out of the water and skims along on ski-like foils.

Christian Crusade Due in City May 28

"The Enemy Within — The Far Left" will be the subject of his address when Billy James Hargis, founder-director of Christian Crusade, brings his May tour to Pampa. He will be speaking at the Robert E. Lee Jr. High School at 7:30 p.m. Thursday, May 28.

Accompanying Hargis on the tour and speaking of the future of Cuba under Castro, will be Carlos Bringuier, refugee from Cuba from Castro. Bringuier is a Cuban attorney, the son of a Havana judge, who fled first to Argentina in 1960. He came to the United States in 1961 and became editor of the Spanish newspaper "El Tiempo" in New Orleans. He has been designated delegate of the Cuban Student Directorate. In August, 1963, Lee Harvey Oswald, accused assassin of President Kennedy, attempted to infiltrate the delegation in New Orleans and, at that time, Bringuier engaged Oswald in a debate that brought to the surface the pro-Marxist admission of Oswald and his feelings on the Fair Play for Cuba Committee. This debate has been recorded and just released in record album form by Christian Crusade and Key Records, Los Angeles.

In his long tenure as a leader in the conservative movement in this country, Hargis has spoken and written for millions both here and in foreign countries. Christian Crusade is in its 17th year of operation and has its headquarters in Tulsa, Okla.

In the 1950's, Hargis was chairman of the historic Bible Ballon campaign that sent hundreds of thousands of portions of the Bible into the Iron Curtain countries by means of hydrogen-filled balloons. The Bible portions were printed in Polish, Czech, Russian, Slovak and German. Christian Crusade has been prominently featured in many of the popular magazines and newspapers across the nation, including the St. Louis Post-Dispatch, Saturday Evening Post, Look, Life, and many others.

Today Hargis' Christian Crusade broadcasts are heard from coast to coast and the newest addition to the schedule of stations carrying the broadcasts is the Intermountain Network featuring 53 stations in Colorado, Idaho, Montana, Wyoming, New Mexico, South Dakota, North Dakota, Nebraska and Utah.

Cities included in the May tour in addition to Pampa include: Springfield, Ill.; Minneapolis, Minn.; Rapid City, South Dakota; Scottsbluff and Sidney, Neb.; San Angelo, Brownwood, Cleburne, Lufkin, Port Arthur, Houston, Garland, Dallas-Cockrell Hill, Dallas-Oak Cliff, Midland and Clovis, N.M.

The Pampa meeting will be open to the public and admission is free.

Wall Street In Review

NEW YORK (UPI) — Bache & Co. comments that investors in recent days have been quick to react to stock bargains offered by the recent selloff. The willingness to buy is understandable in view of the general, business outlook, Bache says. Taking these factors into consideration, Bache says "it is our belief that the long-term upward trend continues and any near-term weakness is likely to be limited in nature."

Stanley Heller & Co. views the intermediate-outlook for the stock market as "highly favorable," but adds that further consolidation may be needed before the markets can reach a new peak. "Excellent prospects for second quarter earnings plus an early settlement of the auto labor contract could provide the incentives for another broad rise in stock prices within the next few months."

Equity Research Associates concedes that the Dow Jones average may be high in relation to the rest of the market but on the basis of per share earnings to prices it still is about the same as it was a year ago. It says that the average would have to go "considerably higher" before it reached levels comparable to those of 1961.

Nasser, president of Egypt, was born in a farming village about 200 miles from Cairo and attended school in the Egyptian capital.

SCIENCE SKETCHES

TOMORROW'S JOBS are created in today's laboratories, says Pres. Harlan Thatcher of the University of Michigan. Economic growth, he says, occurs not where rivers meet as in pioneer days but around clusters of universities, government laboratories and research-based industries.

THE 'BIG BRAINS'—gargantuan electronic computers—get the headlines but, says a Minneapolis maker, their little brothers are getting the trade. Small-scale systems, renting for only \$3,000 to \$12,000 a month, account for seven of every ten computers now installed or on order.

LONDON FOG, or beautiful girls dancing on a cloud, or commandos plodding through steamy swamps are familiar in movies or on TV. The fog, clouds and steam all have carbon dioxide as their base, says Cardox, Chicago, which helps keep the studios supplied with dry ice and gaseous CO₂. Fog, for example, is formed by blowing live steam over stacks of dry ice.

McMurry College Invites Writers To Send Scripts

ABILENE (Sp1) — All writers of the Southwest are invited to submit play scripts to the "New Plays Library" housed at McMurry College in Abilene and sponsored by the Southwest Theater Conference, Jim Baines, head of the McMurry drama department, has announced.

The library is designed to promote and facilitate the distribution of new plays by playwrights in the Southwest, including Texas, Louisiana, Arkansas, Oklahoma and New Mexico.

The library, centered at McMurry, was voted into existence by the Southwest Theater Conference in its 1963 meeting at Austin. Since that time, the project has been fully organized and has requested plays from more than sixty playwrights in the area.

Upon receiving two copies of a script, the library circulates a description of the play to educational, community, and professional producers throughout the Southwest area. If a producer wishes to see a particular script, the library sends the script for a short examination period.

All negotiations for production are conducted directly between the playwright and the producer, with the playwright retaining all rights to his work.

The services of the library are available to all playwrights who are either natives of the Southwest or who are studying in the Southwest.

Inquiries should be addressed to Jim Baines, New Plays Library, McMurry College, Abilene, Texas.

LIKELIKE FIGURES
PALISADE, N.J. (UPI)—Animated figures dressed as a straw-hatted, striped-jacketed minstrel band outside the show beat funhouse at Palisades amusement park looked so life-like that the musicians union sent a delegation to investigate whether a new band had been hired by the park without its knowledge.

Methodists to Eye Church-State Issue

By RICHARD F. FONTANA
PITTSBURGH (UPI) — With plea for Christian unity from a Roman Catholic bishop ringing in their ears, delegates to the general conference of the Methodist Church moved today to end their business sessions by studying church-state relationships and another civil rights issue.

A spokesman for the conference said the delegates hoped to take up the two issues by late morning. He said there also was a chance the conference would take a report on the church's social creed today, possibly ending business sessions of the two-week meeting which ends Saturday.

The civil rights issue involves a proposed clause which would make ministers liable for accusation and trial for "refusing admission to any service or worship by reason of race, color or national origin, or aiding in such refusal."

The conference previously voted to abolish racial segregation within its membership and approved a plan for the annexation of the all-Negro central jurisdiction into the five white geographical jurisdictions.

Some 900 delegates and about 2,000 spectators at the Civic Arena greeted Bishop John J. Wright of the Pittsburgh Roman Catholic Diocese with a standing ovation Wednesday before a speech in which he

called for mutual prayer and understanding to unite Christians against "a certain atheist humanism."

Honored as the first Roman Catholic prelate ever to speak before the supreme law making body of the Methodist Church, Bishop Wright said the two denominations have many "deep, basic differences."

He said it would be dishonest to deny the differences which "involve our very concept of the church itself... but it is also true that precisely as Christians and despite the differences among us, we share a difference from the spirit of the world. That difference must... keep us and bring us closer together as the world becomes more secular to... unite us even more deeply in these days of a certain atheist humanism."

Woman Indicted Over Threat on Connally's Life
SAN ANTONIO (UPI)—Mrs. Christine Burke, 34, was indicted by a federal grand jury Tuesday for making a telephone threat last March on the life of Gov. John Connally.

U.S. Commissioner John Banks did not set a date for trial for Mrs. Burke, but said the trial would be in Austin, Wyo.

Other students winning awards were: Dennis Hamlin, Lamesa, best actor; Dianne Henson, and Cheryl Keetch, best supporting actresses; Sharon Herrod, outstanding service and Jana Orr, director's award.

PLANT FOR WYOMING
NEW YORK (UPI)—Fluor Corp. received a contract for approximately \$4 million for design and construction of a polyphosphate chemical plant for FMC Corp. in Green River, Wyo.

COURT BARS RELEASE
AUSTIN (UPI)—The Court of Criminal Appeals today refused to order the release from jail of James Williams Jr. who contended that Bexar County authorities were denying him his right to a speedy trial on charges of passing a forged instrument.

BOYCOTT TIME
MANCHESTER, Iowa (UPI)—A group of rural residents with unwanted time on their hands were engaged in an economic boycott of this county seat town today.

A spokesman for more than 20 protesting farmers said they were angered because Manchester adopted daylight saving time.

Moments later her neighbors knocked on the front door to tell her a one-ton limb from a giant oak tree had crashed through her roof into the attic.

WHEELER Student Receives Honors
WHEELER (Sp1) — David Dunn of Wheeler was presented the best supporting actor award at the annual Delta Psi Omega banquet at Lubbock Christian College.

He won the award for his role in "Richard III". He is the son of Mr. and Mrs. Walter Dunn of Wheeler.

ATHLETE'S FOOT GERM HOW TO KILL IT.

Use anti-athlete's footing T-4-L FOOT POWDER! too-fine for sweaty feet, foot-odor; stays active in the skin for hours. NOW at H-Land Pharmacy.

TITLE WINNER — Jacqueline Gayrod may be a student of economics in the university, but she majors in beauty. She won the title "Mademoiselle France" during the Paris camping exhibition.

JUST ANOTHER NOISE

HERRIN, Ill. (UPI) — When Mrs. Robert Dirks heard a loud noise overhead Wednesday, she dismissed it as just another sonic boom from low-flying aircraft.

Moments later her neighbors knocked on the front door to tell her a one-ton limb from a giant oak tree had crashed through her roof into the attic.

BOYCOTT TIME

Jet-smooth Luxury Chevrolet makes crooked roads feel like going straight

Your Chevrolet resists leaning on turns. Its Full Coil suspension makes the crookedest S-curve seem on the level. And with its low-friction Ball-Race steering system you waltz over twisting roads as gracefully as a ballerina.

Your Chevrolet resists bouncing on bumps. Chevrolet's Safety-Girder X-built frame soaks up jolts at its sturdy tubular center member. Its double-acting shock absorbers take the jumps out of bumps.

Your Chevrolet resists squatting on starts. The rear-end suspension with 4-link leveling control gives it Jet-smooth acceleration.

FOR THE GREAT HIGHWAY PERFORMERS

Your Chevrolet resists nose diving on stops. The front-end suspension with built-in anti-dive control gives it Jet-smooth stops.

Your Chevrolet resists shaking and vibrating. All seven Chevrolet engines are precision balanced for smooth operation. And because your Chevrolet has over 700 insulators and sound deadeners, you don't have to shout to have yourself heard.

Now it's Trade 'N' Travel Time at your Chevrolet dealer's—the perfect time to try the Jet-smooth ride. Find the meanest stretch of road you can. Then see for yourself how straight a crooked road can feel.

SHAKY WORLD—Superimposed over a map of the world are the earthquake belts, those areas where earthquakes are most likely to occur. This map was evolved through the years largely through the efforts of men such as P. de Montessus de Ballois who plotted some 160,000 earthquakes on a map and arrived at a configuration similar to that of the newmap above. Earthquakes happen in these areas because of a sharp fracture or break in the earth's crust along these broad lines.

Brown Denies Belli Report on Slayer

DALLAS (UPI)—Dist. Judge Joe B. Brown said Tuesday he had no idea where attorney Melvin Belli got information that condemned killer Jack Ruby would be committed to a mental hospital.

Brown, who has hired a psychiatrist to examine Ruby, said he had not yet received a full report.

Belli, who defended Ruby in his trial for the murder of Lee Harvey Oswald, said Tuesday in New York City that he was told by "an unimpeachable source" that Ruby would be committed "within the next month."

Belli was fired by the Ruby family after the trial because of his statements criticizing Dallas and the court that convicted Ruby and sentenced him to the electric chair.

Ruby's present defense lawyers have requested a sanity hearing for him and it is ap-

parently for this reason that Brown hired Dr. Charles Stubblefield to examine Ruby. Brown said he would not make any decision on the sanity hearing until he receives Dr. Stubblefield's full report.

Stubblefield is the same psychiatrist who examined Maj. Gen. Edwin Walker after Walker was arrested in October, 1962 after integration rioting at the University of Mississippi.

LONG WALK HOME

JACKSONVILLE, Fla. (UPI)—Reported missing by his parents, Ronnie Beauchamp, 8, was found by police at 3 a.m. Tuesday slowly walking home from school.

He indicated he was in no hurry to arrive home since he bore a note from his teacher stating some of his school work was not up to par. He lives three blocks from the school.

Black Muslims Recruit 400

NEW YORK (UPI)—A rebel Black Muslim group dedicated to violence has recruited 400 youths in Harlem and in infiltrating many community centers, it was reported Wednesday.

The New York Times said that the size of the "Blood Brother" movement in Harlem was estimated by a researcher for Harlem Youth Opportunities Unlimited, an organization party financed by federal and city funds to diagnose the social, economic and educational ills of the Negro section of Manhattan.

The "Blood Brother" movement came to light earlier this week when police announced the roundup of six members of a youthful Harlem gang devoted to wiping out white persons in the area. Police suspect the gang of murdering four white persons, including a saintly evangelist and a woman social worker.

GOP Senate Race Still at Fast Clip

By United Press International
The race for the Republican nomination for U.S. senator from Texas resumed without missing a beat from the four-man field was cut in half by Saturday's primary election.

Both Jack Cox and George Bush, vying for the right to oppose Sen. Ralph Yarborough, D-Tex., at the polls in November, were back on the campaign trail today, both predicting victory in the June 6 runoff election.

Bush polled more than 44 per cent of the vote and Cox about 31 per cent.

Bush planned to leave Houston today for a meeting with Young Republicans in Waco, and a conference with his supporters in Beaumont-Port Arthur.

Cox, in a statement released by his Austin headquarters Tuesday, said Bush does not have the experience to beat Yarborough, and is "not clearly conservative."

Meanwhile in Dallas, Robert Morris, eliminated from the race by Saturday's election, said he had not decided whether he would back either Cox or Bush.

He talked with Cox and representatives of Bush Tuesday, but said he wanted to talk to his own backers before throwing his support to either one. In any case, he said, he will support whoever wins the runoff against Yarborough.

FANCY THAT?—Now the women of the world can do yard and garden work in fashion. For gardening in this black and white striped vinyl overall designed by New York's Ann Campion. And no laundry problems. Just hang the garment in the garage and hose it down.

Housewife Uses Cowboy Tactics To Save Husband

ARLINGTON, Tex. (UPI)—Mrs. R. V. Holman borrowed a tactic from cowboys Tuesday when her husband came in contact with an air conditioner that had an electrical short.

Unable to free her husband by pulling at his clothing, Mrs. Holman made a lasso out of a garden hose and jerked the stunned man away from the air conditioner.

A grandson applied artificial respiration to revive Holman. He was treated at a hospital and released.

Dear Abby... The California Civil Code Provides the Answer

By ABIGAIL VAN BUREN

DEAR ABBY: You performed a great service by printing

the letter signed "SINNERS" in your column. Not all Californians know that their Civil Code provides that unmarried couples who have been living together as man and wife, and are eligible to be married (that is, not married to anyone else, and of legal age,) may present themselves to a minister, explain the circumstances, be married, obtain a certificate of marriage issued by that minister, and have the wedding recorded in the church records. No license is necessary and there is no waiting period or publicity.

Rev. E. E. LANGGUTH, LIVINGSTON, CALIF.
DEAR REVEREND LANGGUTH: Thank you for your letter. I wish more people realized that churches are not for the fellowship of the pure and holy alone, but rather for those who know themselves to need the help, forgiveness and love that God is continually offering to all of us. If one has a problem of this kind, the place where he will find the least judgment and the greatest understanding and acceptance is at his nearest parsonage, rectory or synagogue.

DEAR ABBY: I am 12 and have done a little baby-sitting in the neighborhood for 50 cents an hour. Yesterday I sat with my two little brothers for four hours while my mother went downtown. I told my father I thought I should get paid. He asked me how much, and I told him only 25 cents an hour, so he owed me a dollar. Then he figured out that the food I ate that day cost \$1.10 and the insurance policy he paid for came to 50 cents, so I owed HIM 60 cents. Do you think this was fair?

UNPAID
DEAR UNPAID: No. A 12-year-old should not have to pay for the food she eats at home. Neither should she "charge" her parents for looking after younger sisters and brothers.

DEAR ABBY: I am having a difference of opinion with someone and hope you can settle it. Is it true that the best chefs in the world never TASTE anything—that they can tell if something is properly seasoned simply by SMELLING it? I don't believe it. I can't prove that this person who made the above statement is wrong and I am right. Can you help me?

M Mc in MONTPELIER
DEAR M MC: I can't qualify as one of the best chefs in the world, but I will let you know what THEY say after I have heard from them.

CONFIDENTIAL TO "WAR-

NEW OFFICERS — Newly installed officers of Alpha Omicron ESA are, seated, left to right; Mrs. Buck Worley, recording secretary; Mrs. Jack Hunter, president; Mrs. Kenneth Royle, educational director. Standing left to right are Mrs. Ralph Ledwig, vice president; Mrs. W. R. Pairish, past president; Mrs. James Lewis, corresponding secretary and Mrs. Lynn Bybee, treasurer.

District Convention Reported at Meeting

Mrs. Jack Howard, Mrs. A. P. Combes and Mrs. James Gatlin, delegates to the District Convention of Home Demonstration Clubs in Perryton recently, gave reports of the conference during a recent meeting of the Gray County Home Demonstration Council.

Mrs. Jay Chappel, assistant Home Demonstration Agent of Gray County, announced that each club must elect their delegate to be voted for the next Council meeting, set for May 21 at 10 a.m. She also announced that a Consumer Education program will be given by Miss Murriel Bridge, Southwestern Public Service, on buying disposers, dishwashers and small appliances.

She also stated that persons wishing to enroll in the "DO: Sometimes it is better to put off until tomorrow what you are likely to botch today."

Get it off your chest. For a personal, unpublished reply, write to ABBY, Box 3365, Beverly Hills, Calif. 90212. Enclose a stamped, self-addressed envelope.

Hate to write letters? Send one dollar to ABBY, Box 3365, Beverly Hills, Calif. 90212, for Abby's new booklet, "How To Write Letters For All Occasions."

Homemakers College Week Should Enroll Before June 1

Members attending included Mrs. Jack Howard, Merten Club; Mrs. G. W. James, Lefors Club; Mrs. N. R. Lowe, Steadfast Club; Mrs. J. Lloyd Laramore, Merten Club; Mrs. O. G. Smith, Worthwhile Club; Mrs. Judy Easton, Alamreed Club; Mrs. James Gatlin, Lefors Club; Mrs. A. P. Combes, Goodwill Club and Mrs. Jay Chappel.

Methods for Drying Arrangements Told

"Dried Flowers With A Fresh Look" was the program topic of a discussion presented by Mrs. Tom Patton during a recent meeting of the Top O' Texas Garden Club held in the home of Mrs. Joe Rutledge.

Mrs. Patton outlined methods of drying materials to retain natural looks with sand, borax and glycerin; how to arrange the pieces for effectiveness and when to treat various plants.

Mrs. Fred Hinkley conducted the business meeting during which a work day was set and plans were made to conduct a field trip to Palo Duro Canyon.

The refreshment table was centered with an arrangement

Spring Meeting Planned During Hi-Plains Meet

The Hi-Plains Home Demonstration Club met in the home of Mrs. C. V. Forsman recently. Mrs. E. Barefoot presided over the meeting during which Mrs. Buddy Cockrell read the by-laws for the club. They stood approved.

The county-wide demonstration set for May 21 in the Courthouse Annex was announced. A covered dish luncheon will follow the meeting.

Miss Lou Ella Patterson presented the program, a film and discussion on family insurance.

Members present were Mmes. J. D. Skaggs, Barefoot, Boyd Brown, Cockrell, Miss Patterson and the hostess.

Ice cream, strawberries and plain cake were served with coffee during the social hour.

of spirea and variegated parrot tulips.

Members attending the meeting; Mmes. Joe Rutledge, Margery Mack, J. A. Knox, Hinkley, Patton, J. A. Howard, and A. H. Kouri welcomed new members, Mrs. Robert D. Mack and Mrs. Carl Barber, as well as the guest, Mrs. Tom Sells.

First Baptist Circles Conduct Study Meetings

Women's Missionary Union Circles of the First Baptist Church met recently for Bible and mission study.

The Sue Carter Circle met in the home of Mrs. W. E. Franklin. Mrs. J. P. Heath offered the opening prayer, followed by a business session conducted by Mrs. Ross Buzzard. The Royal Service program, "Baptists Emerge into Modern History," was presented by Mmes. Franklin, Eula Riggs, Buzzard, A. French and Heath.

The Ann Coffman Circle met in the home of Mr. Clayton White. The prayer calendar was read by Mrs. C. F. Pennington, followed by sentence prayer by the group. The Bible study, "New Testament Answers to Old Testament Questions," was taught by Mrs. P. G. Turner. Closing prayer was given by Mrs. E. E. Brown. Seven members and one visitor were present. Mrs. John Gikas, 1301 Mary Ellen, will host the next meeting May 13.

The Anita Low Circle met in the home of Mrs. C. W. Singleton. Opening prayer was given by Mrs. A. L. Prigmore and the business session was conducted by Mrs. Lida Ramsey. The Royal Service was presented by Mmes. Prigmore, Ramsey, E. D. Carver and Lee Moore. The closing prayer was given by Mrs. Ramsey. Six members and one guest, Mrs. A. Brooks, Enid, were present.

The Jackie Shaw Circle met in the home of Mrs. L. H. Greene with Mrs. George Henderson Jr., reading the prayer calendar. A business session was conducted by Mrs. R. L. McDonald and arrangements were made to send flowers to one member, Mrs. Mabel Winter, who is hospitalized. The Bible study was taught by Mrs. G. L. Wilson. Closing prayer was given by Mrs. James Hopkins. Other members present were Mmes. J. T. Embry, T. V. Lane, C. L. McKinney, Don McMinin and Jay Evans. Guests present were Mrs. D. S. Roush and Mrs. H. T. Moran. The next meeting, May 13, will be held in the home of Mrs. George Henderson Jr., 1800 Coffee.

The Ann Mitchell Circle met in the home of Mrs. Joe Summers. The prayer calendar was read by Mrs. Larry

Anderson followed by prayer by Mrs. Carroll Ray. The Bible study was given by Mrs. Wes Langham.

Twentieth Century Allegro Studies Spanish Influence and Playwrights

Mrs. Jack Miller spoke on the subject of "American Playwrights of the Past" and "Works of Eugene O'Neill" and Mrs. R. E. Johnson outlined "Spanish Influence on American Culture," during a meeting of the Twentieth Century Allegro Club recently.

She pointed out, "America's theater history begins with the non-professional playlet, 'Ye Bare and Ye Cub' in 1665 and with a professional production of 'The Merchant of Venice' in 1752 presented by the Hallam Company of London. Progress of the theater was hampered by the Puritans, but even so, the theater groups with their performances were found all over the country, first along the Atlantic seaboard, then in the Mid-West groups have been known travelling in covered wagons following the settlers and gold prospectors to Utah and the 'Wild West'."

"The first play printed in the States, 'Androboros' in 1714, was a satire aimed at New York's Trinity Parish. During the Revolutionary War the wife of General Warren wrote a satire on the Royalists, entitled, 'The Group.' It was published the day before the 'Battle of Lexington.' American propaganda plays did not start with the depression of 1929 but with the American Revolution.

"American playwrights were imitative rather than original and drew many ideas from European writers.

Only to name a few of our own American playwrights of the past: William Gillette, who was also an actor, William Dunlap, John Howard Payne, Clyde Fitch, he was the most successful of the past, Bronson Howard, Charles Klein, Edward Sheldon. Really not many and they have not given us great works

to remember but around 1900 the tide began to turn. Broadway shows became famous, musical comedy and vaudeville drew large crowds. Now let us look at the works of our best and most famous American playwright to this day, Eugene O'Neill." Mrs. Miller outlined his life and background and his earlier works and finished her program by playing a scene from the recording "Strange Interlude" by Eugene O'Neill produced pointing out the timeliness of the problems and thoughts in the play as O'Neill saw and recognized them 40 years ago, his plays are often slow and without much action they are a portrait of life and everyday thoughts and problems of his figures . . . and as such they touch us often very deeply."

Mrs. R. E. Johnson spoke on "Spanish Influence on American Culture."

She first gave a picture of the history of the first Spanish explorers who came to this country and told about Coronado and his travels through our area, leading to the theme of her program. She said, "From 1492 until 1822 Spain's flag flew in the United States. This occupation for more than three centuries was bound to leave an impression on American culture. The fact that the Southwest was once Spanish is eloquently shown on the map. According to Harold W. Bentley quoted in 'The American Language,' 'No less than 2000 American cities and towns have Spanish names, thousands more are borne by rivers, mountains and other landmarks. The Christianity of the early Spaniards seems to have concerned itself with the New Testament. There are no Canaan or River Jordans in the Southwest; but Concep-

tion, Sacramento and Trinidad are not hard to find. States bearing Spanish names, as discussed by Isaac Asimov in his book 'Names on the Map' are as follows: Florida; discovered in the Easter season by Ponce de Leon in 1513 and named for this flowery season. Nevada; name taken from the Sierra Nevada Mountains (snowy mountains). Colorado; red, probably for the reddish color of the mountains and muddy color of the rivers. Arizona; shortened version of 'Arida Zona' meaning dry belt. Montana; translated mountain; even though the Spaniards never explored that far north, Spanish names were the rage in 1889 when it became a state.

The Spanish use of descriptive names is shown in names like El Paso (the place where the river can be forded), Rio Grande (great river), Pacific Ocean (peaceful ocean), Las Vegas (the meadows), Savannah (actually 'savana', treeless plain). A amarillo (yellow) and our own Pampa, for Pampas or grasslands.

"Religious names are reflected by Santa Fe (holy faith), Trinidad (three members of Trinity) Santa Cruz (the holy cross), Corpus Christi (Body of Christ), and examples of settlements named for leading Spaniards are: Albuquerque (founded in 1706 and named for the Duke of Albuquerque, Viceroy of New Spain) and Galveston (originally Galvez for the Governor of the Louisiana Territory in 1780). Many physical features carry Spanish names like sierras, mesas canyons and arroyos.

Many words in our everyday language are of Spanish origin, tomato, vanilla, banana, barbeque, tapica and tobacco, to name only a few.

"Names like Juanita, Maria, Dolores, Joel are borrowed from the Spanish. Spaniards laid the basis for American agriculture. A royal order in 1532 required all ships sailing for the 'Indies' to carry plants, seeds and domesticated animals. Early Spanish explorers brought wheat, barley, figs, oranges and grapes. Alfalfa, sugar cane and ginger and various sorts of tobacco came from Spain. The American diet owes to Spanish influence the banana, pineapple, mango, lemon, lime, avocado, tomato and various beans.

"In the 1500's the horse was introduced. Until that time only the dog and turkey were known in America as domesticated animals. The influence of the horse upon history is incalculable. The best American horses were of Spanish origin. Wild horses and cattle provided the basis for the 18th century ranching industry in Georgia and 19th century development in Texas and the western states. Spanish ranching adopted in the western plains produced the American cowboy. He adapted the vocation, equipment and jargon of the Mexican vaquero. The rodeo grew out of the annual round-up.

"Spanish Missions scattered from Florida to California are principally responsible for the 'Spanish' architecture in the United States, with houses designed around a central patio, roofs of tile, walls of stucco and floors of tiles in brilliant colors. Elaborate wood and stone carvings and wrought iron grills also have

Spanish background.

"Spanish Dollars were the most used coins during the Colonial period, made of precious metal, first were produced in 1728.

"Spanish law influenced the legal system of Texas, Arizona, New Mexico and California. Some of those laws are still in effect today and

land offices have original Spanish titles translated and on file.

"Latin American music, dances and bands have become increasingly popular since around 1920.

"Spanish furnishings have recently achieved amazing popularity and local dealers predict an even greater demand for it. Many homebuilders in the Southwest are awakening to their Spanish colonial heritage and entire houses are built and furnished in this manner.

"Spanish influence on dress is of a faddish nature. The lace mantilla is popular. The influence on men's hats and boots is noticeable in the wide

The Pampa Daily News

A Watchful Newspaper
EVER STRIVING FOR THE TOP O' TEXAS
TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities. We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself, no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

The People Feel the Pain

Politicians learned long ago that there's nothing like a whipping boy to get them on the front pages. Take any industry that's big enough to have a public "image," place it over the Congressional barrel and get out the paddles. Investigations of the have-you-stopped-beating-your-wife type unfailingly produce restrictive legislation, more paper work and, of course, more Federal jobs.

Francis C. Brown, president of the Schering Corporation, in noting this phenomenon of public life, pointed out to his stockholders at their annual meeting in Bloomfield, N.J., the historic parade of America's whipping boys: the railroads, then the oil companies, then "Wall Street," next our national defense contractors and more recently, the drug industry. Since the sympathetic American people "are essentially considerate of the sick and the unfortunate," said Mr. Brown, the latter show was a great success from the producers' standpoint, resulting in legislation, regulation and red tape that have slowed the introduction of new drugs to the lowest level in 16 years — and threaten a system of health care unequalled anywhere in the world. But the Schering chief executive, who admits he is an optimist, suggested to the meeting a practical means of directing the massive government controls "along a more constructive course."

Mr. Brown urged the appointment by the President of a board of distinguished representatives of industry, Government and private practice, to be directly responsible to the Secretary of Health, Education and Welfare, and thus "in an advantageous position to arbitrate grave divisions of opinion between industry and the Food and Drug Administration or scientific community."

As chairman, he suggested an outstanding physician, such as Jonas Salk, discoverer of the Salk vaccine, or a Nobel laureate distinguished in the field of biological sciences, such as Dr. Philip Hench, who did the early work on cortisone. In his discussion, Mr. Brown applauded the recent appointment of Dr. Joseph F. Salsus as medical director of the FDA as "the first real move toward a real improvement of the recent climate."

Race is on To Harness Hi-Power

By BRUCE BLOSSAT
WASHINGTON (NEA) — Studies by startled U. S. scientists reveal that the Soviet Union is putting 50 per cent more effort than the United States into learning how to control the energy that's in the H-bomb.

The United States now has 385 scientists on controlled thermonuclear research. The Soviet Union has 600 on this potentially tremendous source of power. The Russians are investing heavily in new research buildings and in high-powered equipment. The Kurchatov laboratory in Moscow is the largest in the world in fusion research.

The Communist party has ordered that controlled fusion research be put on the first-priority list and all monetary ceilings removed. Soviet scientists already have moved so fast in one crucial fusion control problem, reports a highly placed U. S. nuclear physicist, that their results have sparked a whole series of new ideas in the United States.

Until recently, U. S. scientists have been confident that we were well ahead of the Russians. That may still be true, for the big Soviet push is less than four years old. But with this new Soviet effort, U. S. superiority could disappear in less than five years. Some scientists believe the U.S.S.R. is already ahead. If the Soviets get their first in fusion control, it would bring a bigger worldwide shock than the first Sputnik. As one scientist puts it, "In the long run it is much more important to solve (the) energy (needs) of mankind forever than just to put a satellite up."

The major problem in controlled fusion is learning how to contain large amounts of the interacting hot gas particles, bring them toward temperatures equaling those on the sun's surface and concentrate or contain these gases (plasma) in a small enough space with sufficient stability so that fusion will take place continuously.

Allen-Scott Report

Commission Wants President Johnson's Story To Add to Thousands Of Pages of Testimony On Assassination

ROBERT ALLEN

PAUL SCOTT

WASHINGTON — The special investigating commission is very eager to get President Johnson's personal account of the assassination of his predecessor.

This has been discussed at several commission meetings, and it was decided to leave the matter up to the President.

That will be "informally" conveyed to him by Chief Justice Earl Warren, head of the seven-member commission named by the President to make an exhaustive inquiry into the slaying of President Kennedy.

The American Way

"THINKING MAN'S" APPROACH
By Harry Browne

Remember the TV cigarette commercials about the "thinking man's filter"? The selling job was very well done. The hero of each commercial was shown to be a thinking man whose intellect and interests were broad enough to encompass new ideas and pursuits.

After he had complimented the cigarette in question for having a "thinking man's filter," the announcer would ask him if he thought that everyone should smoke this brand. To this, the hero would reply, "I think everyone should think for himself."

This commercial comes to mind frequently these days — because it seems that everyone is trying to think on behalf of everyone else. Everyone is trying to make choices and decisions that are binding on everyone else.

We are continually besieged with such questions as "Don't you think everyone should be willing to help those in need?" or "Don't you think each of us should be willing to give to the underdeveloped nations?" You know the type of question.

Only One Answer
And we find ourselves trying to argue such questions on the basis of need and other technical factors. When, in reality, the real answer to any such question is simply: "I believe everyone should choose for himself."

When did it become my responsibility — or right — to decide how the money you earn should be spent? Why is it necessary to force everyone to contribute to a political "war on poverty"? Why can't each and every person make up his own mind about the use and disposition of his own property? Why does every decision have to be collective?

One shining beauty of a free society is that it permits each individual to choose for himself. If he makes a mistake, no one else suffers. And even if he profits from his own mistake, for he will then know enough not to repeat it.

But in our present welfare state, a little band of politicians in Washington is currently trying to decide for us how much money each of us should give to their pet projects — "aid" to other governments, "aid" to depressed areas, medical research, education, etc. And, whether they are right or wrong in their politically-motivated decisions, every one of us will be forced to pay as prescribed.

Each of us is robbed of the responsibility to grow and develop our own intellects. For only in a state of freedom and self-responsibility can a human being develop himself to his full capabilities. The welfare state robs every one of us of the opportunity to be a whole person, capable of governing his own life.

The only legislation that should be discussed in Washington right now is legislation to repeal all of the meddling that has been placed in the law books during the last 50 years. If the government will quit trying to make our economic and moral decisions for us, we can all begin to grow and produce the abundance that will start the American dream upward again.

Freedom is the "thinking man's" philosophy — because it gives every man an opportunity to think and be a human being. And when you stop to think about it — every man is a "thinking man."

Rights—or Rule?

One simple fact stands out starkly from all the ramifications and involvements and highly suspect legality of the House-passed omnibus "Civil Rights" bill.

And that is that the Senate, in whose hands this inflammatory legislation rests, has been badly shaken by the wave of organized violence that erupted in Cleveland, Ohio; San Francisco, Calif.; Chester, Pa.; that threatened the safety not only of New Yorkers and World's Fair visitors in subways and on the highways, but that of the President of the United States at the ceremonies officially opening this vast projection of the "American image."

In view of their preoccupation with the legislation that has inspired these ugly and even bloody incidents, and threatens further outbreaks, it is only natural that more and more Senators are coming to regard this lawlessness as an organized effort to intimidate the upper house of the U.S. Legislature.

Furthermore, it should now be dawning on the most ardent supporters of this reckless, legalistic deformation of the Constitution that what the demonstrators and their inflammatory

mentors really want is not "rights," but rule — mob rule; and that they, at least, regard the Civil Rights Act as an instrument to that end!

Clearly, there will be amendments by the Senate that will send the bill back to the House for stormy reconsideration. There will be a jury trial amendment — whether it is that of Senator Talmadge, calling for juries in all criminal contempt trials under the Act, or whether the bipartisan, Mansfield-Dirksen amendment requiring jury trial only where penalties exceed 30 days or \$300. Defection of Senator Albert Gore of Tennessee from the ranks of the bill's supporters suggests further amendments. He has discovered to his dismay, the opportunities for "political reprisal" that lurk in Title VI.

But, after all, Senator Russell's description of the compromise jury trial amendment as "a mustard plaster on a cancer," may well apply to any and all amendments that may be brought up. A fundamentally bad bill cannot be cured by amendments. And the behavior of its militant supporters should by now have convinced even Congress of just how bad the "Civil Rights" bill is.

portation, has been to reduce fares whenever possible. Its purpose is to make world air travel the province of the many, not just the few. And the result is seen in the statistics, as tourism by air increases sharply year after year. This weary old world becomes the better because of that.

"... But Honey, there must be lots of 'women doors' who have not been invited to Lady Bird's luncheons!"

A Better World

Why do people go abroad? There are, of course, quite a list of reasons. Some go on business. Some go just to see the sights. Some go to visit places where their forebears were born. Some go to study at the universities of the Old World.

But, whatever the reason in any individual case, one thing is sure — every traveler learns something. He meets people of other lands and heritages and is given an insight into their hopes, interests and problems. This is the way that misunderstandings are dissolved — and that hands-across-the-sea friendships are made.

And this is the true significance of the age of the jet plane, which can encompass continents in a matter of hours and offer the utmost in flying comfort while it is doing so. It is, of course, an agent of commerce. But, more, it is a means of establishing and cementing understanding between peoples of far-apart lands.

That significance has been multiplied by our own principal overseas airline, Pan American. Its constant policy, going back into a comparatively primitive time of commercial air trans-

POTOMAC FLASHES—House Democrats are being sternly admonished by Majority Floor Leader Carl Albert, Okla., to be on hand May 13 when the new pay increase bill is slated to be brought to a vote. It includes a \$7,500-a-year raise for members of Congress, and hikes for all other government employees. Cost of the legislation is \$333 million. . . . Hoffa lieutenants are sounding out Washington newsmen on writing a book about his long vendetta with Attorney General Robert Kennedy. One correspondent was offered \$10,000, plus royalties from an assured "big sale." The correspondent declined the proposition.

SECRET ALLIANCE (?) — Senator Barry Goldwater has mailed a personal letter to 102,

Pull Up A Chair

Television education is now an accepted thing. More than 10 million youngsters were enrolled in TV classrooms last year. Educational authorities say the number will be doubled in the next few years. They add one of the advantages is dramatic impact, which makes a lasting impression on the pupil. . . . We visited a do-it-yourself candy store in New York recently where you make up your own assortment from more than 200 varieties of chocolates and other goodies. The manager told us that since they adopted the policy of permitting the customer to select his favorites business has zoomed.

Today's smile: A city slicker outfitted with expensive fishing tackle stopped his convertible near a stream where he saw a rustic lazing with a fish pole in his hands. "Any good fishing here?" he asked. "Some," the old fellow replied. "What do you catch?" pursued the city slicker. The rustic answered: "You said 'fishin', not 'ketchin'."

A jeweler told us one simple test for a perfect diamond is to submerge it in water where it would become invisible. He said that's where the expression "of the first water" originated. He said less perfect diamonds are considered "of the second water." . . . Just 49 years ago today a German submarine sank the Cunard liner "Lusitania," an atrocity that hastened U.S. entry in World War I. . . . The trading stamp industry now accounts for \$1 billion a year in our economy. It's estimated 600 registered California Republicans urging them to work and vote for him in the crucial June 2 primary.

The list of these names was provided by former Vice President Nixon. It was made available to Goldwater's campaign managers without charge. The list includes not only registered Republicans, but local and state leaders who actively supported Nixon in his 1960 presidential and 1962 gubernatorial races. Many not only worked for him, but contributed money. Goldwater's workers brought the list up to date by checking with phone books, directories and other sources. His personal letter asks for the recipients not only to vote for him, but to get out other voters.

Mother of Year Named at Parley

NEW YORK (UPI) — The American Mothers Committee Wednesday named Mrs. L. M. Stavig, 63, wife of the president of Augustana College of Sioux Falls, S.D., as its 1964 Mother of the Year.

Mrs. Stavig is the mother of four sons, all professional men successful in their chosen fields of medicine, English literature, and business.

Cora Stavig was cited for her own brand of "people to people diplomacy" and for her work in trying to build international understanding. She is a leader in marriage counselling and adult education.

Mrs. Stavig's efforts toward international amity stem from the program for foreign students at Augustana College.

Mrs. Stavig, who was one of seven children in a minister's family, serves as foster mother to collegians from Hong Kong in Asia to Sierra Leone in Africa.

She was picked from among 50 outstanding women of the nation who were selected by a state jury system, honored by their state governors and given distinguished recognition. The mothers committee is holding a five-day round of ceremonies and business sessions at the Waldorf-Astoria Hotel.

Louis Daguerre, French inventor who perfected the method known as the daguerreotype process, is known as the "father of photography."

GET ME TO THE CHURCH ON TIME—Actually, Roberta Fulbright, daughter of Arkansas Sen. J. W. Fulbright, is leaving Washington Cathedral after her marriage to Edward Poole, a Georgetown University law student. Her exit was met by a stiff breeze blowing in the capital that day.

Wallace Eyes Latest Win In Primary

INDIANAPOLIS, Ind. (UPI) — Alabama Gov. George C. Wallace viewed his 31 per cent vote in the Indiana Democratic presidential preference primary as a victory which will permit his states' rights supporters to decide the 1964 presidency.

Wallace nearly duplicated his Wisconsin primary showing of last month by racking up nearly 175,000 votes, almost half the total received by Indiana Gov. Matthew E. Welsh, who ran in behalf of President Johnson.

The Alabama governor polled about 19 per cent of more than 900,000 votes cast for president in both parties. Five unheralded candidates, three Democrats and two Republicans, received about 50,000 votes between them.

Despite Wallace's claims he and his followers will have the final word in picking the next president, it appeared there would be a close analysis of many factors which went into the Alabamian's showing before a decision is made on whether he rates any kind of kingmaker role.

For the present, national Democratic headquarters said it was unimpressed.

With returns from the Hoosier primary still coming in, National Democratic Party Chairman John M. Bailey said about all the results showed was that Wallace "spent wildly" and lost "irresponsibly" and lost overwhelmingly to the favorite son candidate of the Indiana Democratic party, Gov. Welsh.

Charges Filed in Suburbia Sex Case

MINEOLA, N.Y. (UPI) — A grand jury returned 49 indictments Tuesday in Long Island's sex-in-suburbia housewife call girl case.

Indicted were 39 persons and 10 corporations on a total of 181 counts in the play-for-pay case in which several women led split-level lives as housewives and prostitutes.

Mrs. Connie McAllister, 35, who allegedly was the brains as well as one of the bodies in the case, was indicted on 32 counts charging prostitution, conspiracy, receiving the proceeds of prostitution, inducing women to become prostitutes, relief chiseling and grand larceny.

A former policeman, charged with serving as a counterparty for the \$200,000-a-year prostitution ring, also was indicted.

Dist. Atty. William Cahn said the jury heard testimony from more than 400 witnesses, a number of them housewives who received immunity from prosecution for their cooperation in the investigation.

Most of those indicted were what Cahn called "the people we're really after—the steers, the solicitors." Only five housewives allegedly connected with the ring were indicted.

Thirty-three persons entered innocent pleas at their arraignment and most were released on their own recognizance.

They included the owners, managers, bartenders and clerks at motels, restaurants, bars and hotels in the vicinity of Roosevelt Raceway, a harness racing track. The corporations indicted operated the motels and bars which referred customers to the housewife-call girls.

Cahn said some of the housewives worked in the ring with the knowledge of their husbands, who stayed home baby-sitting while their wives went out on sin-for-sale dates.

AT RIGHT SPOT—ESCONDIDO, Calif. (UPI)—Sheriff's deputies Leslie Hill, John Reeve and Mel Smith picked the right time and place for a coffee break Tuesday.

While they relaxed at a roadside cafe, in walked a man they knew to be a friend of forger suspect Newborn Jackson.

Where's your old friend Jackson, they asked the man, Robert Buckner.

"Why, he's right outside in the truck," replied Buckner—an answer that landed Jackson in the jailhouse.

Lichens are able to live in steaming tropics or on the mountains of Antarctica, where they are frozen virtually all year.

Yarborough Says Last Week Settled Voting

WASHINGTON (UPI)— U.S. Sen. Ralph Yarborough, D-Tex., believes that his renomination for the Senate was won in the last week of the campaign in the Democratic primary.

He told a news conference Tuesday that the alleged \$50,000 gift from Billie Sol Estes to him in 1960 was an issue that might have defeated him. But Yarborough credited his 30-minute reply on statewide television and an FBI report with successfully counter-attacking.

"This was a big lie, a big smear," Yarborough said. "Had I not proved it was a big lie it might have beat me."

The senator added, "it's impossible to estimate the exact effect but I guess that story... that fakery could have beaten me."

Yarborough put two men on television who said they had seen with him the entire time he was at the home of Estes on Oct. 6, 1960 and had not seen Estes give Yarborough any money. Then, on the final day of the campaign, Yarborough made public an FBI report that one of two men who said they saw the money change hands had retracted his story.

Witness Missing

That witness, Ernest Keeton, has been missing from his home at Pecos since Friday and was reported by a friend to have gone to El Paso, Keeton was quoted by newsmen that he had received threats.

In Dallas, Yarborough's primary opponent Gordon McLendon said he had been asked by the FBI to make a statement.

But McLendon told newsmen he would wait until the FBI gave him the same information that the agency had released to Yarborough on the case.

McLendon asked Keeton and Midland policeman James Fonville about the alleged \$50,000 gift on an earlier statewide campaign telecast. Both Keeton and Fonville backed up sworn statements that they saw the \$50,000 change hands. Fonville stuck by his story under FBI questioning.

No legal action has been filed in the matter. But Yarborough said he had "three law firms briefing my case to see where I stand." He refused to name them.

Civil Rights Views

At the news conference the senator also announced he

would vote for a jury trial amendment to the pending Civil Rights bill. One proposed amendment would provide jury trials in criminal contempt cases growing out of civil rights disputes.

It was the first statement Yarborough had made on his stand on the measure under Senate debate.

Yarborough also warned both Democrats and Republicans to guard against "electronic smears" in the elections this year.

Yarborough suggested they monitor radio and television speeches.

The FBI is investigating, at Yarborough's request, to determine if federal election statutes were violated during the Texas campaign.

Panty Check OK for Taxes

SACRAMENTO, Calif. (UPI)—It is a common complaint of men that the payment of income tax amounts to taking the shirt right off their back, but California tax officials have found out what it means to a woman.

A Southern California school teacher paid her state income tax this year with a check literally drawn on her panties.

Martin Huff, executive secretary of the franchise tax board, said the empty panties arrived in the mail last week. They were neatly inked with all the information usually appearing on a personal check, including the tax payment amount.

Huff said a lower echelon clerk, who apparently takes such things in stride at tax

time, sent the panties to the proper bank. Bank officials determined they were a "valid instrument" and cancelled them. Huff declined to disclose the woman's identity, saying that tax transactions are private matters between the individual and the state—but he added: "We're not particularly pleased with this. We don't consider this helps with our efforts of tax administration."

BUYS COPTER FIRM

HAGERSTOWN, Md. (UPI)—Fairchild Stratos Corp. announced it has bought the Hiller Aircraft Division of Eltra Corp. Palo Alto, Calif., a leading designer and builder of light helicopters for the armed forces and civilian use.

Battle Looms in Dallas Election

DALLAS (UPI)— Primary election returns from Dallas County indicate a major battle brewing between Republicans and Democrats in the congressional election this fall for the seat now held by Rep. Bruce Alger, R-Tex.

An observer unfamiliar to Texas politics might think Alger is headed for certain defeat in the city that has been a stronghold of the state GOP. However, former Mayor Earle Cabell, predicting a Democratic victory, told United Press International it will be one of the hardest fought campaigns in Dallas history.

Alger ran unopposed in Saturday's GOP primary in which 29,823 Dallas county residents voted Republican.

On the same day 112,387 voters participated in the Democratic primary race for Congress, allowing the word "Democrat" to be stamped on their poll tax receipt used as voter registration. Support of the party nominee is implied.

Cabell won that Democratic primary with 73,959 votes to 38,428 for Baxton Bryant, a Methodist minister running on a liberal platform to appeal to minority groups.

Cabell, 57, campaigned with strong anti-Alger speeches but identified his political position as that of a moderate-conservative. Cabell sees his candidacy as one for "effective representation." Alger is an out-and-out conservative.

Alger became the only Texas Republican member of the U.S. House in 1954 with an upset victory over another former Dallas mayor, Wallace Savage. Since then Alger, a handsome former real estate man, handily has won re-election every two years.

New York Mayor Would Consider Vice Presidency

NEW YORK (UPI)—Mayor Robert F. Wagner said Wednesday he had no objection to running for vice president provided President Johnson wanted him to.

Wagner made his statement at Kennedy Airport here following a flight from Los Angeles where he addressed the Building Service Employees International Union convention.

The selection of a running-mate on the Democratic ticket this fall is up to the President, Wagner said, adding that very few persons would turn down such an invitation.

"If they say otherwise, they are kidding the people and kidding themselves," Wagner said.

The mayor said he was "not doing anything" to win the designation.

ON THEIR WAY — This quintet of Class B runners are on their way to the state meet in Austin tomorrow and Saturday with high hopes. Roy Bean (center) of Miami has the second highest high jump in his class in the state. Surrounding him are the Wheeler

mile relay team of (from left) Little Bobby Van Pool, Mendall Hunter, Tommy Smith, and Don Burks, who have posted a 3:30.6, third fastest Class B mark in the state.

Youngsters, 'Retreads' Responsible for Phillies

By United Press International — You can credit a happy blend of youngsters and retreads for the surprising "early foot" the Philadelphia Phillies are showing in the National League race.

Kids like Richie Allen, John Herrstein and Dennis Bennett are doing their share for Gene Mauch's scrappy crew. So, too, are old timers like Wes Covington, Johnny Klippstein and Ed Roebuck.

The Phillies climbed back into second place, a game back of San Francisco, by nipping the Milwaukee Braves, 7-6, Wednesday night on a two-run homer by Covington and sturdy relief pitching by Roebuck.

Although Covington had, entered the game with an anemic .171 batting average, Mauch allowed the veteran left fielder to bat against Bob Tiefenauer with two out in the eighth inning and Allen on third base. Covington came through by lacing one of Tiefenauer's knuckle balls just inside the right field foul pole for his game-winning blow.

Roebuck, obtained from the Washington Senators last month, blanked the Braves over the final two innings to pick up the victory.

Braves Drop Back — Herrstein also contributed to the Phil's victory with a three-run double off Bob Sadowski in the first inning. The loss dropped the Braves into third place, 17 percentage points back of the Phillies.

In other NL games, the Cubs halted the Giants four-game winning streak, 4-2, the Dodgers downed the Colts, 5-2, the Pirates eked out a 1-0 victory over the Cardinals, and the Reds ripped the Mets, 12-4.

Larry Jackson pitched a five-hitter and fanned 11 in beating the Giants. It was the fourth victory of the season for the Cubs' righthander, who drove in the decisive run with a double. Willie Mays celebrated his 33rd birthday with a double and a single in a losing cause, raising his batting average to .470.

Throws Six-Hitter — Don Drysdale allowed only six hits in besting ex-Dodger teammate Dick Farrell for the first time. Drysdale blanked the Colts on three hits until the seventh when he lost his shut-out on a solo homer by Walt Bond and John Bateman's run-scoring double.

The Pirates' Bob Friend and Ray Sadecki of the Cardinals battled through 8½ scoreless innings before Pittsburgh pulled it out on an unearned run. Roberto Clemente led off the ninth inning with a double and Sadecki, who had given up only six hits, was replaced by Bob Gibson.

Nicholson's HR Record Breaker

By United Press International — Chicago baseball fans with long memories will tell you that only one man — Jimmy Foxx — ever hit a ball that cleared the double-decked left field stands at Comiskey Park on the fly.

Dave Nicholson may have matched that feat by old "Double X" Wednesday night in the first game of a doubleheader between the White Sox and the Kansas City Athletics.

It all depends on whom you ask.

Nicholson teed off on a Moe Drabowsky slider that "hung" in the fifth inning of the opener. The ball was retrieved outside the ancient park — an estimated 573 feet from home plate.

White Sox officials claimed the ball went out of the park on the fly. However, press box observers generally agreed the ball bounced on the roof. They were supported by fans seated under the roof, who said they heard a "thump" when the ball bounced above them.

Hit Two Others

Nicholson hit two other homers in the twinbill as the White Sox swept the A's, 6-4 and 11-4, to tie Cleveland for first place in the AL. On his next appearance at the plate after his tape-measure job, Dave homered into the left field upper deck with Joe Cunningham aboard. Drabowsky again was the pitcher.

In the second game, Nicholson added another two-run homer off Aurelio Montague. It was the greatest night of his career for big Nick, who had entered the doubleheader with only one homer in Chicago's previous 13 games this season.

Mickey Mantle, who also has a few tape-measure homers to his credit, hit a pair of round-trippers as the New York Yankees split a doubleheader with the Washington Senators, coasting to a 9-2 victory in the opener and losing the nightcap, 5-4.

Cleveland turned back Baltimore, 7-5, Detroit rode two homers by Norm Cash to a 6-3 victory over Boston, and Los Angeles nipped Minnesota, 4-3, in other American League action.

Accounts For Runs

Mantle, sidelined last week with a pulled leg muscle, homered in the first game at Washington and accounted for all the Yankees' runs in the nightcap with a run-scoring double and a three-run homer. However, the Senators pulled out the second game, Chuck Hinton scoring the winning run in the ninth on a passed ball by Elston Howard.

SMU, Recruiting, UH on SWS Agenda

LUBBOCK (UPI)—While college golfers and tennis players putted and backhanded at the spring sports showdown of the Southwest Conference today, faculty fathers warmed up for the opening of debate competition tonight.

That's when they'll meet in the first business session to confront several knotty problems.

Track competition gets underway Friday, but top subject in the eyes of the faculty representatives who rule the eight-school conference will be connected with football.

Specifically, it will concern charges by Southern Methodist football coach Hayden Fry that other schools are using underhanded techniques to recruit top high school players.

Fry charges, said executive secretary Howard Grubbs, that some coaches have been spreading rumors that SMU's team will be put on probation, thus discouraging players from signing with the Mustangs for fear they'll never get to play.

Another problem headed for the laps of the faculty representatives seems to have been solved already—for the time being at least.

Earlier this week, Rice announced it would not sponsor the University of Houston as a candidate for conference membership. The Cougars are anxious to get into the league and there has been considerable pulling and hauling over what to do about it.

Even without the sponsoring school needed to put Houston back in contention, the meeting is almost sure to at least discuss the matter. Houston has already frostily rejected a suggestion they start a conference of their own with Texas A&I and other smaller schools.

The agenda also calls for discussion of a proposal limiting the number and length of athletic scholarships, minimum grade requirements for athletes, and television broadcasting rights for conference basketball and football games.

Rice is favored in the varsity track and field meet, with Texas as seen as the closest competition. Texas A&M, paced by phenomenal young shotputter Randy Matson, is favored to win the freshman division.

Rod Bliss of SMU and Richard Yates of Texas Tech are expected to lead the field in the 72-hole golf tournament. Both were 6-1 in conference match play this season.

Jim Parker of Rice is everybody's choice to repeat as tennis singles champion. Dick Barker and Luis Rojas of A&M are expected to give Parker and Dale McLeary of Rice their strongest doubles competition.

Carlisle Texas' Letterman of Year

DALLAS (UPI)—Duke Carlisle, who led the University of Texas to the national championship and a Cotton Bowl victory over Navy, was named University of Texas "Letterman of the Year" today.

Carlisle will represent the Longhorns at the Southwest Conference Letterman's Association's annual awards banquet in Dallas May 15. One "Letterman of the Year" from each of the eight conference schools will attend the banquet.

Earlier, Roger Gill was named Texas Tech's representative.

Readies for Television

AFL Sets Night Games

NEW YORK (UPI) — The American Football League, under the protective wing of a lucrative new television contract, announced today it would play a record number of 17 night games in 1964. Included on the schedule released by league Commissioner Joe Foss is the first Sunday night game in league history. This will be played at Houston, Oct. 11, when the Oilers are host to the Buffalo Bills.

Chisox Claim Homer Beat Mickey Mantle

CHICAGO (UPI) — Slugger Dave Nicholson made no claim to baseball fame today for a possible tape measure home run, but there was plenty of controversy over whether he did or he didn't.

Nicholson hit a pitch by Moe Drabowsky onto a landing on the roof of the upper deck in left Wednesday night and the ball apparently bounced into the park behind the ballyard. The White Sox front office, notably General Manager Ed Short, claimed the ball cleared the park on the fly, but press box observers, supported by spectators in the area in left field, agreed generally that the ball bounced off the roof.

According to Comiskey Park historians, only once has the ball been knocked over the left field upper deck on the fly since the park was built in 1916 — by former Philadelphia Athletics first baseman Jimmy Foxx in 1928, 1929 or 1930. Nicholson didn't know whether the ball bounced or not, and he wouldn't claim he hit it harder than any previous ball in his comparatively short major league career.

57TH YEAR THURSDAY, MAY 7, 1964 21

Thunderstorms Threaten Colonial Golf Tournament

FORT WORTH, Tex. (UPI) — The threat of thunderstorms hung over the opening round of the \$75,000 Colonial National Invitation golf tournament today, putting an added burden on the 72-player field in its attack on par.

Colonial's par 35-35 — 70 lay-out which winds for 7,122 yards through the Trinity River bottomlands is tough enough at best. Julius Boros' one-under-par 279 winning total last year — was the first time any champion had conquered par since 1955.

With more showers or thunderstorms today adding to the softness of the fairways caused by heavy showers during Wednesday's pro-amateur round, the tortuous course will play even longer and tougher. The favorite to succeed Boros as champion was burly Jack Nicklaus, the tour's leading money winner who came here fresh from an \$11,000 boost provided by the Tournament of Champions title. Nicklaus, who has won \$46,150 this year by being in the top five eight times in nine starts and who is the only man to win more than one tour title, has finished fourth and third in his two starts here as a pro.

There was plenty of support, too, for Masters champion Arnold Palmer, whose booming accurate drives — like those of Nicklaus — are tailor-made for the demanding layout.

Daily News Staff Photo

TROPHY-HUNTING TRIP — Pampa High track coaches Norm Phillips and Don Myers escort miler Mark Westbrook into the car as they head out on the first leg of their journey to the state meet in Austin. Westbrook, with the third fastest time in the mile among 4-A state competitors, will seek to win a fifth track championship for a Harvester in the past three years.

UHouston Frosts Rice Suggestion

HOUSTON (UPI) — The University of Houston has frostily rejected a suggestion it give up trying to get into the Southwest Conference and form a loop of its own with small state-supported schools instead.

The suggestion came from Rice University. Rice was going to sponsor the Houston entry bid at the conference's spring meeting in Lubbock now in progress, but decided against it. The eight-team league could not work out a satisfactory round-robin athletic schedule with an odd-number ninth member, said Rice president Dr. Kenneth Pitzer, Tuesday.

Rice suggested Houston form a league with such schools as Texas A&I, Lamar-Tech, and Southwest Texas State. Houston athletic director Harry Fouke replied Wednesday that these schools are small colleges, and the University of Houston has been rated a major university by the NCAA for several years.

Fouke said Pitzer's suggestion was "at odds" with the situation.

Mets Maul Fair

Reds Murder Mets

NEW YORK (UPI) — The New York Mets stole the play from the World's Fair on the occasion of their first night game in Shea Stadium.

A crowd of 32,421 turned out Wednesday night — tying up roads and approaches to the World's Fair that haven't had traffic problems in weeks. Alas for the faithful, the Cincinnati Reds made it to the park, too, and clobbered the Mets, 12-4.

was "at odds" with the situation.

RECEIVES GRANT-IN-AID

WINSTON-SALEM, N. C. (UPI) — Robert Grant, a 6-foot, 2-inch, 217-pound end from Georgetown High School in

Jacksonville, N. C., has received a football grant-in-aid from Wake Forest, the college announced Wednesday. Grant is the third Negro to receive a grant-in-aid from the college.

can't see for the tree....

but his advertising agency helps spot his customers' needs

Business men today meet some giant operating problems. There is seldom enough talent to help top men figure the cost-profit picture — and at the same time — keep a searching eye on customers' future needs.

Advertising's service for many years has been skilled communications: selling the public about a product — often telling it so well that buyers' demands have turned small plants into enormous industries.

Today, in addition to these creative selling techniques, advertising is of even more utility both to business and its customers through a bird's-eye view of the buying public. Market research becomes a vital management tool when interpreted by advertising professionals; statistics gain new meaning when evaluated by men with long experience in observing changing human needs and demands.

Pinpointing the wants of people originates useful production, a creative saving for our economy.

Here's why it's the greatest... one of America's largest clothing manufacturers combined efforts with DUNLAP'S to bring you this sensational wardrobe value... if produced and distributed one suit at a time, the price of this wardrobe would be about 196.80. Imagine the sizes and variety of this wardrobe... a whole chest of clothes to enjoy... and only \$12 a month! Now, more than ever, it really pays to shop at Dunlap's.

SCIENCE SKETCHES

FAT PARENTS and tension often add up to overweight, says Dr. Edward M. Lirin, chief psychiatrist of the Mayo Clinic.

YOU will breathe about 593 million times in your lifetime. Each breath ventilates your lungs, transferring oxygen from the air to your bloodstream which carries it to cells throughout your body.

Widow to Return to Alaska Teaching Job

ANCHORAGE, Alaska (UPI)—Mrs. James Harley Dearhold said Wednesday she may return to Alaska to continue teaching among the Eskimos even though her husband was slain Saturday in the remote village of Scammon Bay.

Bethel, 150 miles to the southwest, did not succeed until several hours later. Finally a plane was dispatched from Bethel, but the pilot ran into "whiteout" weather conditions and had to land.

WASHINGTON—Senate Democratic Leader Mike Mansfield urging senators invited to accompany President Johnson on his second poverty tour to remain for a crucial vote on civil rights bill amendments.

SUFFOLK, Va.—Irving Leopold, regional director of the retail, wholesale and department store workers union, explaining why 1,700 union members went on strike at a peanut processing plant.

CHICAGO—Mrs. Dora Fronczak's only audible comment as she was led from Michael Reese Hospital from which her newborn baby was kidnapped: "Please return my baby."

VANCOUVER, B.C. (UPI)—An official of the striking garbage collectors' union has accused enterprising college students of being scabs.

Since the refuse collectors went on strike more than a week ago, the students at the University of British Columbia have been hauling garbage in their automobiles and trailers, collecting a fee of 25 cents a can.

Dearhold, 38, also a teacher, was slain when he went to investigate noises in an old schoolhouse. He was shot three times in the chest and once in the hand.

Dearhold, a veteran of World War II and the Korean War, was survived by his widow, their four children and his parents, who live in Roswell, N.M.

Quotes From The News

By United Press International WASHINGTON — Sen. Richard B. Russell, D-Ga., commenting on a Senate defeat of the first of two amendments to the civil rights bill favored by opponents of the bill itself: "I was disappointed. I thought we were going to carry it, but the pressures were too great."

LONDON—Lord Mayor James Harmon of London commenting on the launching of a drive to raise \$2.8 million for a memorial to the late President Kennedy: "He was a man who commanded universal respect and this appeal is a mark of the feeling that we, in Britain, had for him."

CUMBERLAND, Md.—President Johnson observing that Maryland had a history of fighting for the rights of man going back more than 300 years: "Today, the enemies which menace our people are more complex. They will not yield simply to guns or force. They take the form of disease and poor schools—of untrained men and chronic unemployment—of exhausted mines and obsolete skills."

INDIANAPOLIS — Segregationist Gov. George C. Wallace of Alabama commenting on his strong showing in Indiana's Democratic presidential primary: "Our campaign for state's rights won. You, the people, voted for me. We are going to decide who'll be the next president of the United States."

WASHINGTON—Senate Democratic Leader Mike Mansfield urging senators invited to accompany President Johnson on his second poverty tour to remain for a crucial vote on civil rights bill amendments: "I hope no senators, regardless of their position on this bill, will leave the floor. If the President has invited them—I hope they do not accept it."

SUFFOLK, Va.—Irving Leopold, regional director of the retail, wholesale and department store workers union, explaining why 1,700 union members went on strike at a peanut processing plant: "We are not striking just for higher wages. We are fighting segregationist policies as far as wages are concerned."

CHICAGO—Mrs. Dora Fronczak's only audible comment as she was led from Michael Reese Hospital from which her newborn baby was kidnapped: "Please return my baby."

VANCOUVER, B.C. (UPI)—An official of the striking garbage collectors' union has accused enterprising college students of being scabs: "Since the refuse collectors went on strike more than a week ago, the students at the University of British Columbia have been hauling garbage in their automobiles and trailers, collecting a fee of 25 cents a can."

Dearhold, 38, also a teacher, was slain when he went to investigate noises in an old schoolhouse. He was shot three times in the chest and once in the hand.
