Senators Start on Farm Bill

WASHINGTON (UPI) — The Senate began to wrestle today with an election-year farm bill that was full of political handshakes and stood in the way of action on civil rights.

The administration-backed farm bill is designed to head off a whopping drop in wheat farmers' income and to rescue the cotton support program.

The farm measure was made pending business Thursday when the Senate voted 57-19 to bring it up for debate. Republican opponents argued that the farm legislation should be second place to the House-passed civil rights bill, which is on the Senate calendar.

But Democratic leader Mike Mansfield, Mont., stuck by his plan to seek passage of the farm bill before opening the civil rights battle that may drag on for months.

Senate GOP Leader Everett Dirksen, Ill., served notice that the farm bill would take up, with perhaps 15 or 20 amendments to be considered. He said they would range from dairy rider to proposals to strict beef imports.

Approve Military Bill

The way was cleared for the farm bill Thursday by unanimous Senate approval of a \$17 billion military authorization bill. The military bill is expected to go to a House-Senate conference.

The measure authorizes expenditures for planes, missiles and warships as well as for defense research and development. It also includes \$52 million for work on a manned lunar orbiter which the administration feels should not be undertaken now. Congress still must take the actual funds in another bill.

All kinds of political pressures were involved in the farm bill fight.

Wheat state Republicans urged action on the bill because they hoped to avoid a feared \$30 million drop in wheat farmers' income. But most Republicans, including those from the states which are aroused by imports of foreign beef, opposed the bill.

Republicans generally protested that the bill's provisions for wheat and cotton are "the old Brannan plan." They referred to the proposed use of deemable marketing certificates for wheat farmers as a "bread tax."

Would Lift Supports

The wheat section would lift 1964 price supports above recently scheduled levels for farmers who limit production. The cotton section would offer subsidies to farmers who reduce output and other subsidies to cut the cost of cotton for domestic textile mills.

Mansfield's reason for giving the bill priority was that, with the running out fast for the 64 crops of wheat and cotton, a farm measure should be enacted by April 1. Otherwise, the administration contends, the legislation would have only limited beneficial effect this year.

Southerners who are certain filibuster against the civil rights program generally support the farm bill because of a cotton section.

Some GOP opponents argued that if the farm bill had been held back, the Senate leadership would have had some leverage to induce the Southerners to shorten their talkathon against civil rights.

BI Man Tells of Assassination Plot on Hoffa

HATTANOOGA, Tenn. (UPI) — A federal agent testified today he investigated in 1962 an assassination plot that had allegedly been discussed by gamblers President James R. Hoffa.

Frank Grimsley, a Justice Department attorney whose office is in Atlanta, did not give details of the alleged plot, but said the investigation involved "a national security matter."

NO INJURIES — One engine and a jumble of cars lay along the right of way, some of the cars in a water-filled ditch, after an explosion derailed a Florida East Coast train near St. Augustine, Fla. There were no injuries.

LBJ Returns to Capital In Secrecy-Cloaked Hop

By MERRIMAN SMITH

WASHINGTON (UPI) — President Johnson fired what sounded like the first shot of his election campaign Thursday night in Florida then got up well before dawn today to return to the White House for a full day of work.

The President, after a rousing reception during a political speech in Miami Beach, got only a few hours' sleep before flying back to Washington with his wife and daughters.

The flight was cloaked in unexplained secrecy. The presidential jet was in the air more than half an hour before the first confirmation came—from the White House here—that the Johnson had even arrived at Homestead Air Force Base, near Miami.

White House sources here expressed surprise at the secrecy and attached no significance to it.

An hour after the Johnson plane had taken off from Homestead, Air Force officials there declined to confirm it. The flight security apparently was ordered by local or military officials in Florida. They may have been extra jittery because of a railroad sabotage incident Thursday only about 15 miles from where Johnson was speaking near Palatka, Fla.

Johnson said during the flight from Miami that he decided to come back unusually early in the day simply because he wanted to get out in a full day at his office. He plans to work on a message he will send Congress next week outlining his "war on poverty."

Unprecedentedly tight security prevailed Thursday during the President's visit to Florida's famed Gold Coast. Secret Service agents and policemen were everywhere.

Johnson, however, ignored some of the precautions in order to shake hands with voters on this first purely political journey since he took office. He climaxed 16 hours in Florida with a rousing speech Thursday night in Miami Beach extolling Democratic virtues.

8 Complaints Offered to Grand Jury

Eight felony complaints were offered today to the Gray County grand jury by District Attorney Bill Waters as the jurors began hearings at 10 a.m. in the courthouse.

Waters said all but one of the complaints involved persons in custody or free on bond. The district attorney, who has been conducting court business in Wheeler the past three days, said he hoped to complete the day's business by 5 p.m.

Waters indicated that he would announce the indictments once the jurors completed their questioning of officers and suspects involved.

The district attorney said one case held over from last month might be re-discussed but expected no criminal action to take place.

years of Democratic rule in Washington had revitalized the nation, and that it is now so powerful that nobody would dare attack it.

He told 3,500 Democrats who paid \$100 a plate at a huge fund-raising dinner. "We intend to prove that government can be prudent and progressive. We intend to prove that a compassionate nation can be a strong nation."

Johnson's speech climaxed an openly political visit to the state which has gone Republican in the last three presidential elections and followed by three months a similar fence-mending trip by the late President John F. Kennedy.

Johnson's reception, like Kennedy's, was warm despite a downpour near Palatka where 10,000 persons huddled under umbrellas and other shelter to hear him speak at ceremonies marking the start of construction of a cross-Florida barge canal.

The weather was fair in south Florida and a crowd of several hundred gathered at the Bayshore Country Club here when Johnson's helicopter landed after a flight from Palm

Beach where the President paid an unexpected visit to the ailing father of Kennedy. Police, state troopers and Secret Servicemen had sealed off the club, but about 150 persons, including many fathers carrying their children, surged toward the President as he walked toward his black limousine. Johnson smiled and shook many hands.

Grew Somber Once

He appeared to be enjoying himself immensely, and he grew somber only once—when he interrupted his banquet speech to say he had ordered the "full force" of the FBI into the investigation of bombings of strike-embattled Florida East Coast (FEC) Railway freight trains. One bombing Thursday occurred only 10 miles from Johnson when he was speaking near Palatka.

In his speech, Johnson said the country was making every attempt to realize President Franklin D. Roosevelt's four freedoms — of speech and religion and from want and fear.

"Efforts to restrict free expression have been consistently defeated," he said. "A new spirit of religious toleration has broken down old barriers."

McLean Man Held In Theft of Saddles

A 40-year-old McLean resident was arrested Thursday in Tucumcari, N.M., by sheriff's officers there in connection with the \$600 theft of riding equipment from a ranch in Gray County this week.

Sheriff Rufe Jordan said John Lewis Allison had been charged with felony theft over \$50 in a complaint signed by Buck Miller, McLean rancher.

District Attorney Bill Waters said the charges would be presented to the grand jury today while they are in session.

Jordan said Allison is accused in the theft of four saddles, four blankets, two ropes, a breast harness, two new halters and a pair of chaps from the Noel Ranch, seven miles North of McLean. The theft took place Tuesday night and was reported Wednesday.

Allison is alleged to have sold the saddles in Clayton, N.M., Thursday morning and was arrested on a pick-up order from Texas Ranger Bill Baten and Jordan that afternoon by Sheriff Claude Moncus of Tucumcari.

Jordan said Deputy Sheriff Jim Shelton of McLean and Miller, the complainant, had left for New Mexico armed with a warrant to return Allison to Gray County for trial.

The sheriff said he did not know if the man would waive extradition to Texas or not, but hoped to have the man back in the county within the next 24 hours.

The riding equipment was recovered by sheriff's deputies in Clayton, starting the search for Allison. The saddles were recognized from a radio dispatch

from the Department of Public Safety in Amarillo at the request of Jordan.

Jordan said he was assisted by Deputies Dwight Day, Jimmy Bowers and Ranger Baten in the investigation of the theft.

Clay Admits Muslim Ties

MIAMI BEACH, Fla. (UPI) — Newly-crowned heavyweight boxing champion Cassius Marcellus Clay has been a member of the Black Muslim religious sect for five years, according to his own admission.

The Black Muslims, now holding their convention in Chicago, announced Wednesday that Clay was a member of the sect, which preaches hatred of the white men and a separate nation for U.S. Negroes. Clay confirmed the announcement here Thursday night.

"There is no god but Allah," Clay said. "I believe in Islam."

Turk Fleet Gives Cypriots Jitters

Officials Demand Help From Outside

By RAY J. MOLONEY

NICOSIA, Cyprus (UPI) — The presence of a powerful Turkish fleet just 80 miles away raised tensions today on Cyprus, where the Turkish minority protested against President Makarios' moves to bolster Greek Cypriot forces.

Some Turkish officials demanded outside intervention to safeguard the peace on the troubled Mediterranean island, and the Cyprus foreign minister charged Turkey is threatening world peace with "preparations for an invasion of Cyprus."

Cyprus Vice President Fazil Kuchuk, leader of the Turkish Cypriots, said Makarios' unilateral strengthening of the Greek Cypriot security forces was unconstitutional. He fired off cable

ble protests to the United Nations, President Johnson and the premiers of Britain, Greece and Turkey.

Kuchuk said Makarios' action was designed to give a legal appearance to what he called Greek Cypriot "genocide" of Turkish Cypriots.

An official spokesman in Ankara said 24 Turkish warships with troops aboard had arrived at Mersin from Iskenderum on maneuvers. Mersin is 90 miles off Cyprus across the narrow waterway separating the island from Turkey.

The maneuvers were similar to those of two weeks ago which raised fears of an imminent Turkish invasion of Cyprus to protect the Turkish Cypriot minority. These fears prompted United Nations efforts toward a settlement — so far unsuccessful — to head off a possible conflict between Turkey and Greece, which sides with the Greek Cypriots.

Communal fighting broke out around Christmas and has been going on intermittently ever since, causing hundreds of casualties. The Turkish Cypriots, who are outnumbered 4 to 1, claim Makarios is trying to take away their minority veto rights in the government through amendments to the constitution.

Junior Livestock Show Tomorrow

The Gray County Junior Livestock Show, sponsored by the Pampa Nonu Lions Club, gets under way tomorrow at Recreation Park.

The one-day affair is for all 4-H and FFA club members in the county with prizes and ribbons to be awarded by the Lions.

The event is expected to draw a near record number of cattle and swine. The winners will be announced about 4 p.m. Saturday.

Youths Held For Hearing In Gun Case

Recovery of a .357 Magnum pistol taken from a house at 1925 N. Sumner St. some three weeks ago and a confession of a Pampa youth brought to an end intensive investigation by juvenile officers and Pampa police.

County Juvenile Officer Bill Leonard said the gun was recovered with the assistance of relatives of one of three boys involved in the actual theft of the weapon. The boys were visiting in Lubbock at the time the case broke, Leonard said, and have been returned here by their parents.

Leonard said a hearing on the case would be held before County Judge Bill Craig Saturday with a complete report filed in the matter at that time.

The officer said he was aided by Texas Ranger Bill Baten, Lubbock juvenile officers and Deputy Sheriff Dwight Day along with several city policemen.

"But the people who really need the credit for helping clear this case are the boys' parents and relatives who have worked with us 100 per cent since we became involved in the matter," Leonard said. "We wish all parents were as helpful and interested in their youngsters as this group."

Leonard said he did not know just what kind of complaint, if any, would be filed against the youths until the juvenile hearing is held Saturday.

Eight Americans Escape Ambush

SAIGON, South Viet Nam (UPI) — Eight U.S. Army medics escaped a Communist ambush Wednesday but eight Vietnamese troops escorting them were killed, a U.S. military spokesman said today.

PIE FREE-FOR-ALL — With his face covered with pie, a University of Texas student beats a hasty retreat during a pie throwing free-for-all between the staffs of university student publications in Austin. Members of the Ranger and Daily Texan squared off against each other armed with pie catapults and 60 meringue pies. The battle ended in a draw.

Hemphill Official Hits FBI Agent on Query

By GLENN McCASLAND

CANADIAN — Charges of inability to conduct a proper investigation were fired today by County Attorney Jim Crow at a Federal Bureau of Investigation agent in the continuing swirl of Hemphill County's Civil Defense equipment problem.

And as Crow made his charges, District Attorney Bill Waters of Pampa told the Pampa Daily News that he had never officially been informed that anything "is amiss in Hemphill County."

Crow made his complaint about FBI action in the federal probe into alleged misuse of county civil defense equipment in a letter to Nathaniel Kossack, chief of the Fraud Division of the U. S. Department of Justice, written Feb. 21.

The county attorney claimed that Amarillo-based FBI agent Tom O'Malley was not "capable of conducting an impartial investigation" of the case. He cited a visit to Hemphill County where Crow claimed O'Malley visited with Sheriff Walter Adams in a friendly manner and "certainly not in an investigative manner."

Crow also said while O'Malley visited with County Judge San-

ford Cole, he did not contact Crow about a number of things he wished to turn over to the FBI.

Waters, asked directly by a Pampa Daily News reporter if he planned to enter into the investigation, told the newsman he had not been talked with about the "problem."

"I have not been contacted by Mr. Crow or any other person regarding this alleged misuse of Civil Defense equipment in Hemphill County," he said. "I have never been told officially that Mr. Crow was conducting an investigation or that the FBI is conducting an investigation. I know only what I read in the newspapers."

Waters said there had been no request either by Crow or members of the Hemphill County grand jury had asked for an investigation into the issue.

Crow has said several times he would not talk with the present grand jury because he understood there were relatives of the principals involved in the case on the jury. He said he would await the impaneling of a new jury in the summer if need be.

Waters pointed out that Crow could come before the grand jury at any time without being summoned because Texas law allows a county attorney the privilege of presenting any information he desires before a grand jury.

The FBI entered into the investigation on orders from Kossack after a number of letters were written by Crow pertaining to the Civil Defense equipment. Crow has accused former Sheriff Harry Rathjen, who was Civil Defense director in Hemphill County for a time, of misusing equipment, but he has not filed any complaints in the matter against Rathjen or any other county official.

U. S. District Attorney Barefoot Sanders of Dallas announced the investigation on Feb. 14. Since that time no other information about the case has been made public.

Wind and Rain Slows Search for Jetliner

NEW ORLEANS (UPI)—Rising winds and lashing rains today threatened to halt search for the main cabin of an Eastern airliner and the 58 victims of Tuesday's crash into Lake Pontchartrain. A U.S. Navy "flying magnet" stood by, ready to probe the muddy bottom by radar.

A stiff wind and squalls forced small craft warnings on the shallow lake edging New Orleans. Weather was near the danger point for aircraft.

Winds were gusting to 35 mph an hour.

The Navy submarine hunter plane carried magnetic airborne detection (MAD) equipment. Only debris has been found in the area where the Eastern Air Lines DC3 crashed shortly after takeoff before dawn.

Quotes From The News

WASHINGTON — The special presidential commission investigating the assassination of President Kennedy explaining why it had selected the president of the American Bar Association, Walter E. Craig, to safeguard accused assassin Lee Harvey Oswald's interest in the investigation:

"His (Oswald's) guilt was not proved at a trial."

PRINCESS ANNE, Md.—John Wilson, co-chairman of the Student Appeal For Equality (SAFE), explaining why the civil rights group is opposed to a proposal for a referendum on Maryland's local option public accommodations law:

"We don't want to vote on our rights."

LEAP YEAR TWIST—Mrs. Nickie Culpepper of Dimmitt, right, will celebrate her 26th birthday in May and her mother, Mrs. Velma Lewter of 805 E. Francis St., celebrates her 13th birthday tomorrow. How does a daughter have twice as many birthdays as Mom? It's because Mrs. Lewter's Leap Year birthdate allows her to celebrate only once every four years.

WILL BUY FIRM
NEW YORK (UPI) — Perkin-Elmer Corp., Norwalk, Conn., maker of scientific instruments, announced Thursday it will buy Coleman Instruments, Inc., Chicago, for more than \$7 million from the estate of Edwin D. Coleman.

Surprise Party for Jackie Called 'Touching' by LBJ

By HELEN THOMAS
WASHINGTON (UPI) — To President Johnson it was a very touching, very spiritual ceremony.
That is how the Chief Executive described the surprise party held for Mrs. John F. Kennedy Wednesday night at her new home in the capital's storied Georgetown section.
The President and Mrs. Johnson headed the list of more than a dozen high-ranking guests who showed up unexpectedly at Mrs. Kennedy's home to present her with gifts and tokens of their affection for her and her late husband.
Johnson hurried away from the White House office after signing the \$11.5 billion tax cut bill to attend the party for the widow of the man who "worked

'Rainmaker' Credits Self With Big Snow

SANTA FE, N.M. (UPI) — Don't blame the weathermen for the recent heavy snowfall in New Mexico—blame a self-styled "rainmaker" from Denver, Colo., who claims he was responsible.
The head of Weather Engineering Inc. of Denver and Fabens, Tex., F. Neal Boscoe, said Thursday he could produce four inches of rain per month in any area of the Southwest for a cost of about \$1 an acre foot of rain.
Boscoe said his process of seeding the atmosphere had never failed to produce rain when and where he said it would. He described his process as the release of "hygroscopic particles from the ground, which cause ice particles in the air to melt." According to Boscoe, the particles are spread on the ground and rise by their own natural density.
Brought Snow?
Boscoe told his audience of State Water Engineer Steve Reynolds, Albuquerque Weather Bureau Chief H. L. Jacobson, Frank Lowrey of the Soil Conservation Service and Frank Tripodi of the Albuquerque Better Business Bureau he was responsible for the heavy snow storms recently in New Mexico. He said he was seeding the atmosphere to produce moisture for the San Luis Valley when the snowstorm occurred.
"This is completely beyond my comprehension," Weatherman Jacobson said.
Boscoe said his fees are about \$3,000 a month for a 15 section ranch and said he would not tackle a job of less than 10,000

Cub Scout Pack Gets Charter at Dinner Program

Warren Fathree, Boy Scout district commissioner, presented the charter for Cub Pack 22 from the Boy Scouts of America at the Blue and Gold banquet held Thursday evening at Pammel Hall.
Sam Bergert, institutional representative, accepted the charter in behalf of the Horace Mann P-TA, the sponsoring institution. Approximately 125 Cub Scouts and their families attended the annual dinner.
Guy Caskey, minister for the Mary Ellen and Harvester Church of Christ, showed slides of scenes and animals which he took in Tanganyika, Africa, where he lived for a number of years.
Burton Turner received the Webelos badge and "arrow of light," Cub Scoutings highest award, in the award ceremony conducted by Bob Horton, assistant district commissioner. Other boys receiving awards were Kent Karbo, bobcat; Raymond Miller, wolf badge and gold arrow; Erick Copenhaver, gold and silver arrow; Tim Farriell, gold and silver arrow; Jerry Holt, gold and silver arrow; Randy Holt, gold and silver arrow; Steve Osborn, bear badge and gold arrow; Gordon Miller, lion badge and gold arrow, and Rand Southard, Lion badge. Special awards were made to den mothers by Eugene Turner, cub master.
Table decorations were made by the Cubs at den meetings. A display table contained additional handicrafts of the boys.
Sam Bergert was master of ceremonies and Guy Caskey gave the invocation.

Air Passengers Aid In Moving Sick Baby

WASHINGTON (UPI) — The class passenger seat. A 50-pound oxygen tank is inside the incubator.
Delta said all passengers contacted pledged their cooperation.
A Delta official said the advance no-smoking requests were made so that no cabin announcement would be necessary aboard the plane.
Smoking could cause oxygen to explode or at the least cause discomfort for the infant.
Delta initiated the "no smoking" move to aid 2-month-old Francis Edward Grubar, who is being flown from Washington to Houston for an emergency heart operation.
The baby, son of Mr. and Mrs. Francis S. Grubar of Washington, lacks an artery leading to his heart. The parents said Dr. Denton Cooley of Houston was the only physician who had ever performed the necessary surgery.
The infant will be placed in a special incubator constructed so it will fit into a regular first

Develop Coatings

NEW YORK (UPI) — Mobil Oil Co. Thursday announced the development of a new group of paper and paperboard coatings it says will provide a better vapor and moisture barrier than conventional coatings used in food packaging.

GET GETS PATENT
SYRACUSE, N.Y. (UPI) — General Electric Co. said Thursday it has been granted a patent on the stereophonic fm broadcasting system that has been in nationwide use since 1961.

No Easter Visit Set For Berliners
BERLIN (UPI) — West Berliners will not be able to visit their relatives in East Berlin during the Easter holiday, the official East German news agency ADN said Thursday.
However, West Berlin and East German negotiators will continue to discuss a long-term pass agreement in another meeting after Easter, ADN said.
The West Berlin city executive council held a special meeting to discuss the collapse of attempts to obtain Easter passes.

Foreign News Commentary

By PHIL NEWSOM
UPI Foreign News Analyst
In a world dominated by two super powers, each with a nuclear capacity to over-kill, a curious fact emerges.

It is that both of the super powers, the United States and the Soviet Union, have been challenged with relative impunity by nations which are among the world's smallest.

The immediate case in point is Albania's seizure of five Soviet Embassy buildings in the Albanian capital of Tirana. The counter point is Cuba.

Leadership Questioned

And from the two comes a wonder whether the two super-powers, as they have moved toward nuclear stalemate and the knowledge of what each could do the other, have not at the same time vacated claims for leadership.

The case histories of Cuba vs. the United States, and Albania vs. the Soviet Union are remarkably similar.

Albania's seizure of the Russian Embassy buildings is the latest episode in a quarrel which has split the Communist world.

But in late December, 1958, it was a different story.

Then, Albanian first party Secretary Gen. Enver Hoxha and Premier Gen. Mehmet Shehu were in Moscow concluding agreements under which Moscow not only would loan Albania \$40 million but also would build free two hydro-electric plants, an oil refinery and textile and other factories. The agreements formally were concluded in April, 1959.

Fidel Visits Washington
Also in April, 1959, Fidel Castro visited Washington.

"We are not Communists," he said, and he added that Cuba had no intention of confiscating foreign private industry. In case of conflict between East and West, he intimated, Cuba would be on the side of the West.

But soon the cracks began to show.

In 1959, the Red Chinese began moving in on the Soviet Union's Albanian preserve with loan and trade agreements. By late 1959, Castro was denouncing the United States as an aggressor.

In 1960, Albania openly joined Red China in a denunciation of Nikita Khrushchev's de-Stalinization program. Hoxha, placed in power with the aid of Yugoslavia's President Tito, joined Red China as one of Tito's bitter enemies.

And in 1960 Castro nationalized the last remaining U.S.-owned property in Cuba, bringing the total value seized to \$1.25 billion.

Albania Ignored
In this same year, Castro and Khrushchev embraced at the United Nations, while Albania's delegate stood virtually ignored by all other Communist nations.

In economic and military fields, punitive measures taken by the United States and the Soviet Union against their small adversaries also were similar.

Russian experts were withdrawn from Albania and satellite nations urged to break diplomatic relations. Albania was expelled from the Warsaw Pact just as Cuba was barred from the Organization of American States and placed under economic boycott by the United States.

But again, the line broke. Romania re-established contact with Albania just as the United States' allies refused to join the boycott against Cuba.

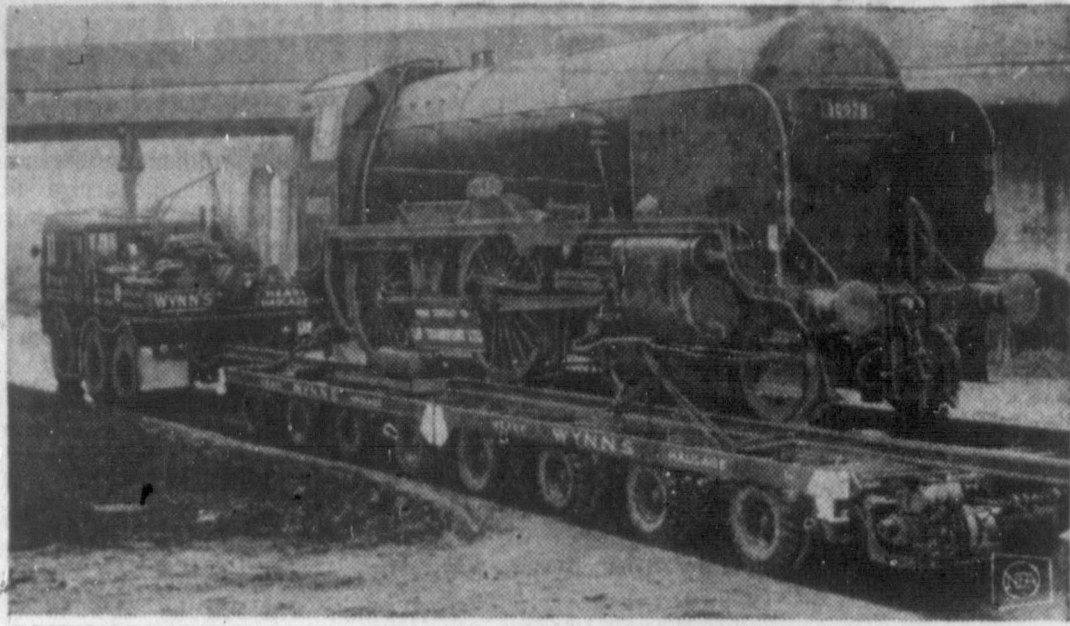

As the world has become convinced that the nuclear stalemate between the U.S.S.R. and the United States will prevent a major war, so too has the monolithic structure of world communism and the close ties of the Western alliance been weakened.

And the initiative has been passed to weaker powers.

'CHARCOAL GRAY' FOR WORK CLOTHES

NEW YORK (UPI) — The man wearing charcoal gray these days is just as likely to be a construction worker, river or laborer as a Madison Avenue advertising executive.

Reports from around the country indicate the working man is asking for charcoal and olive tones in addition to the traditional work clothing colors, says Meinhard Commercial Corporation, factoring and financing subsidiary of C.I.T. Financial Corporation.

BRITISH TRAINS GO ANYWHERE—Trains are built to ride on tracks, except in England, it appears. This vintage locomotive was moving merrily down a Southampton highway until an overpass called for some tricky negotiating. The big engine, bound for Lord Montagu of Beaulieu's museum, just squeezed through.

REGULAR CUSTOMER
BIRMINGHAM, England (UPI)—Lizzie Brookes, 91, has been awarded \$140 pounds for being the "longest regular customer" of the Giant Ansell's Brewery Company.

A brewery statistician calculated that she had downed 53,290 pints of beer in her local pub in 73 years.

Service Advisor Presents Program For Worthwhile Club

Mrs. Mildred Prince, Service Advisor for Southwestern Public Service, met with the Worthwhile Home Demonstration Club recently for a program of food demonstration.

Mrs. Lester Reynolds, president, presided during the brief business session during which an elective was selected for the District and State Convention. Mrs. O. G. Smith will represent the club at both meetings.

Plans for the food sale during the Fat Stock Show were completed.

The first meeting of March will be marked by a county-wide meeting of all clubs.

Mrs. J. L. Carlton will be hostess for a meeting March 20 in her home, 426 Crest.

Mrs. Prince prepared oven-fried chicken, sweet potato casserole, frozen Waldorf salad, a broiler meal featuring beef loin, corn, fried potatoes and broiled tomatoes, with frozen pecan pie.

Small Fry Pick Navy to Win

The small fry will come in for their own share of high fashion for spring. Navy, making a big return to the scene of adult styles, is shown in these designs by Nannette for the young miss as well. Navy sleeveless overblouse (left) is trimmed with white braid and large pearl buttons and worn over a pleated white no-iron cotton dress. White braid and bright red and green floral appliques provide a finishing touch to the navy cotton poplin. A-line jumper (right), with its own white cotton blouse.

Dear Abby... Find Somebody 6-Foot-3 To Drag Him There!

By ABIGAIL VAN BUREN

DEAR ABBY: When my daughter was in college, she eloped with a 6-foot-2 eyes-of-blue football star. We were upset at first, but got over it. Here's the problem. Every time they stay over night with us, I have to air out all the bedding afterwards. My son-in-law has a very obnoxious odor to his feet. It a-b-out knocks you over. It penetrates the mattress and blankets, too. The sheets I can launder. I've asked my daughter to tell him to do something about it and she says there is nothing he can do. He washes his feet twice a day and wears only white socks. She said he had some kind of jungle fungus while he was in the Marines, but he's over that now. For a girl who couldn't stand the good clean odor of onions cooking, this takes the cake! Love isn't only blind—it smells. What do you suggest?

you, quit dating him entirely, and let him find a girl who measures a man from his eyebrows up!

DEAR ABBY: I read in your column that a girl and her boy friend had a fight because they didn't know who should hang up the telephone first. Maybe this will help. My boy friend and I count one-two-three, together, and then we both hang up.

DEAR ABBY: Could you please give the names of some LONELY HEARTS CLUBS? I am sure there must be some good ones.

DEAR INTERESTED: If there are, they are like eggs. You never know you've got a bad one until it's too late.

Get it off your chest. For a personal, unpublished reply, write to Abby, Box 3365, Beverly Hills, Calif. Enclose a stamped, self-addressed envelope.

Hate to write letters? Send one dollar to Abby, Bx 3365, Beverly Hills, Calif., for Abby's new booklet, "How To Write Letters For All Occasions."

Opti-Mrs. Meet For Business

The Opti-Mrs. Club met recently in the Hospitality Room of Citizens Bank with Mrs. Cecil McCarrell, Mrs. George Massie and Mrs. Bill McDonald as hostesses. The business meeting was conducted by Mrs. Lloyd Summers, president. A letter from the scholarship girl, Miss Celia McDonald, was read.

A report of the bake sale was also given.

NEW WAY TO BE SUDDENLY SLIM

Los Angeles—Are you a woman whose figure is on the good side but might look perfect? You'll be thrilled by the new easy way science has discovered for you to become Suddenly Slim. If you're more than 15 pounds overweight, then this idea is not for you. If your weight problem falls within this range, then you can realize a new, smoother figure today, without diet or exercise.

Suddenly Slim is an all-new kind of 4-oz. girle constructed of science fibers. One startling innovation is the sheer nylon front panel. This is permanently stiffened by a science process and cannot give or sag. It's surrounded by a slimming action border. A featherstitched panel down each side of this girle will contour your hips if they are a problem.

The girle itself is of a "wonder" Lycra spandex blend. It's a new power net consisting of nylon, acetate and spandex. It feels like nothing on but has such slimming strength, it gives your figure everything that's possible with a foundation.

"Suddenly Slim," in both girle and panty versions, is the peak achievement of the California designer-genius, Olga. They are available in our area at

American Field Service Student Address Petroleum Wives Society

Miss Evelyn Roberts, American Field Service student from New Zealand was the guest speaker for a recent meeting of the Petroleum Engineers' Wives Society. Miss Roberts was introduced by Mrs. M. McDaniel, member of the local chapter of American Field Service.

"An Open Door to Understanding and Friendship," the slogan of the AFS, was typified by the friendly nature of Miss Roberts, who is a native of Auckland, New Zealand. Miss Roberts, one of seven children, whose father is an electrical contractor, is a graduate of a high school in her home town, and is taking mainly "American" subjects at Pampa High School. She noted several differences in the educational systems of the two countries, the outstanding one being that in New Zealand, everyone is required to take physical education throughout high school. In this country, it is an elective subject.

"Most New Zealanders would rather participate in sports than be spectators," said Miss Roberts. Her family are all avid yachting fans, owning eight boats themselves. Two of her brothers have competed in national boat races, and one of them is a current world yachting champion. The other brother as sixth in the 1960 World Olympic Yacht Races.

When Miss Roberts returns to her native land this summer, she hopes to continue her education in the field of pharmaceutical chemistry.

Following the program, Mrs. J. E. Curzon, PEWS president, conducted a brief business meeting. Mrs. Ray Jordan, program chairman, announced that the April program will be presented by Mrs. H. S. Prince, a representative of Southwestern Public Service Co. Mrs. Jack Dennis was appointed as secretary to fill the unexpired

Social Enjoyed By Bethany Class

Members of the Bethany Sunday School Class of First Baptist Church recently were entertained with a social conducted at Lewis Buffeteria. The breakfast meeting was followed by a devotional given by Mrs. Jess Reeves. Mrs. Rachel Hutto offered the invocation and conducted a brief business session.

Those attending were Meses. Mabel Winter, Myrtle McDaniel, Jess Reeves, Rachel Hutto, Lizzie Henry, T. V. Lance, Ethel Evans, O. A. Davis, Cora Patterson, Clara Vandover, L. H. Greene, Pearl Gamage, P. G. Turner, O. T. Egerton, Lida Ramsey and Miss Edna King.

term of Mrs. Robert Allison, who has resigned.

The March meeting will be held in Berger on March 10, with Mrs. Lexie McLaughlin acting as hostess.

Mrs. N. E. Turnbo was hostess for the meeting. The door prize, an arrangement of red carnations, was presented to Mrs. McDaniel.

ZOOOOOOOOOOOOOOOOOM (What the '64 Plymouth has)

The new Plymouth has special engines for lots of Zoooooooom (optional, of course). That's important to some people.

There are others who feel that they don't need quite that much Zoom. They stick with the high performance of our standard V-8 or the economy of our standard six.

What's important to you... no matter how you like your power... is a car that's designed to make the best possible use of it. Power-hungry or not, test drive the new Plymouth. Consider the fact that Plymouth offers you a 5-year or 50,000-mile warranty* on the parts that keep you going. Then you'll have a better understanding of why we keep on saying, "Get up and go Plymouth!"

It does... and you should!

***HERE'S HOW PLYMOUTH'S 5-YEAR/50,000-MILE WARRANTY PROTECTS YOU:**

Chrysler Corporation warrants for 5 years or 50,000 miles, whichever comes first, against defects in materials and workmanship and will replace or repair at a Chrysler Motors Corporation Authorized Dealer's place of business, the engine block, head and internal parts, intake manifold, water pump, transmission case and internal parts (excluding manual clutch), torque converter, drive shaft, universal joints, rear axle and differential, and rear wheel bearings of its 1964 automobiles, provided the owner has the engine oil changed every 3 months or 4,000 miles, whichever comes first, the oil filter replaced every second oil change and the carburetor air filter cleaned every 6 months and replaced every 2 years, and every 6 months furnishes to such a dealer evidence of performance of the required service, and requests the dealer to certify (1) receipt of such evidence and (2) the car's then current mileage.

Magazine Says, 'Do Something, Don't Just Make Empty Offer'

Religion in America
By LOUIS CASSELS
United Press International

"If there's anything I can do for you, be sure to let me know."

Most of us have rattled off that sentence many times. It's the conventional thing to say to a friend who has been bereaved, or has a serious illness in the family, or is in some other kind of trouble.

But it's usually an empty gesture. The offer sounds magnanimous, and it can be made with relative safety because few people are likely to take you up on it.

If you really want to help bear the burden of a friend in trouble, you won't stop with a vague offer to "do anything." You'll actually do something. What you do is less important than the fact you perform a concrete act of kindness.

This advice comes from an extraordinarily sensitive and thoughtful article published by Presbyterian Life magazine. The article is signed by "Joan Richards," which is the pseudonym of a great Christian woman who has suffered much in recent months because of the protracted illness of a loved one.

From her own experiences, "Joan Richards" has distilled several very practical, very specific suggestions on how to help a friend in trouble.

This is what she says:

1. "Go to see your friend, especially if, because of illness, he is cut off from the world. It is generally better to telephone before you go. Don't stay long. And don't feel that you have to take flowers, books or jellied soup to be welcome. Such offerings are very nice, provided the containers don't have to be returned. But the best offering of all is your own sweet self."

2. While you're there, look around and see what practical needs the family may have that you are in a position to meet. Usually "you can spot helpful things you can do—running errands, sitting with the patient, inviting the children to a meal." If you do, "make a specific offer to do them." Not, "send the children over for dinner some night," but "can the children come to my house for dinner Friday at 6?"

3. "If you can't go to call in person, check up on your friend by phone." And if even that is impractical for some reason, "the next best thing is a note or card." Send a store-bought card if you must; it's better than nothing. But, "a handwritten note is much better, especially when someone has died."

4. Don't stop with one thoughtful act. "Do it again." In the first few days after tragedy strikes a family, many friends and neighbors are solicitous.

But as time passes, most people forget. Or they figure they've already made a sufficient gesture of sympathy. That is when the person in trouble really needs a friend—the kind of friend who understands that a cross doesn't grow any lighter just because it has been carried for a long time.

5. Talk to your friend about his trouble. "You may find it awkward, especially if your friend's grief is fresh, and you can see that you are shaking up his surface calm by mentioning it. But it is better for the calm to be shaken now and then. And even though your friend may not think that he wants to talk about his trouble, underneath he is aching for the chance."

6. Remember your friend in your prayers every day—and let him know that you do. "We have been much sustained over the months by people who simply call to tell us that they think of us and pray for us."

7. If you find that you can't do anything for your friend, besides pray for him, don't fret about it. "Not everybody in the world can help everybody else. For most of us, opportunities to help far outrun our funds of energy and time. We are weighed down with a burden of things left undone. Each time we think of some friend in trouble whom we have neglected, our conscience aches." But your guilt feelings won't help your friend. Instead of worrying about people you can't help, invest your limited emotional capital in doing something for the ones you can help. Just don't try to buy an easy conscience, cheaply by saying: "If there's anything I can do for you, be sure to let me know."

Perhaps the prayers of our friends are sustaining us whether we know they are praying or not. Theologians could probably elucidate this question. All I know is that the knowledge that a friend is keeping us in his prayers is very comforting.

Improvement Clinic Set at First Baptist

Dr. J. Earl Mead, will speak in the 11 o'clock morning worship of First Baptist Church, this Sunday. Dr. Mead, known as the Father of Religious Education Work, will start a Sunday School Improvement Clinic in this service. He will also preach at the 5 p.m. worship service.

Joe Whitten will present the church choir at the morning worship in singing an anthem, "Come to the Saviour, Now" by Maker. Miss Eloise Lane, organist, will play "Largo" by Handel for the offertory.

The chapel choir will occupy the choir loft at the 5 o'clock evening worship and will sing "Lord of Hosts" for the special music and "Song of the Bells" by Rasley will be organ offertory.

The Sunday School Improvement Clinic which begins Sunday morning under the direction of Dr. Mead will continue through Wednesday evening. Dr. Mead has spent nearly a life time as a full-time Christian worker serving over 40 years in the Cliff Temple Baptist Church, Dallas, as educational director. The scheduled for the clinic will include a luncheon at noon Monday, Tuesday and Wednesday evenings at 7. Dr. Mead will speak and conferences for each age group, led by competent leaders, will follow. Jack Parker, minister of education, states that study course credit can be obtained by reading the book pertaining to your group conference and attending each session.

First Baptist Church will be host to an area choir festival Monday evening beginning at 6:30 p.m. Paul Biggs of Phillips will be in-charge of the festival. The public is invited to hear these choirs sing.

The leaders in the 32 departments in the Sunday School adopted a goal of 1,185 for attendance Sunday.

J. EARL MEAD to start clinic

Lubbock Chaplain to Be Methodists' Guest

Rev. Wayne Cook, chaplain of Methodist Hospital in Lubbock, will be guest speaker this Sunday at First Methodist Church. Rev. Cook has served for the past 9 1/2 years as chaplain of Methodist Hospital in Lubbock, has also served various pastorates, in addition to Asbury Methodist Church in Lubbock, and has served as a military chaplain.

He received his bachelor of arts degree from McMurry College, Abilene, and received his bachelor of divinity degree from Perkins School of Theology, Southern Methodist University.

Special music for the 8-45 a.m. service will be the anthem, "O Make Our Hearts to Blossom," by Joseph Clokey sung by the Youth Choir. The anthem for the 11 a.m. service will be "Cherubim Song No. 7," written by Bortniansky and arranged by George Mattering sung by the Sanctuary Singers.

REV. WAYNE COOK, speaker from Lubbock

THE YOUTH CHOIR MEETS at 5 p.m. Sunday afternoon, followed by Sunday Evening Fellowship at 5:45 p.m. with a light supper for the entire family in Fellowship Hall. At 6:15 p.m. children, youth, and adults will separate for 45 minutes of Fellowship group activities according to interest and needs. The Adult Fellowship group will meet in the church parlor.

THE SUNDAY NIGHT WORSHIP service at 7 p.m. will be conducted by Rev. Curtis Lee, pastor of the Methodist Church at White Deer.

The official board and commission will meet Wednesday.

Highland Welcomes All at Weekly Rites

The Highland Baptist Church welcomes one and all to worship services throughout the week, beginning with the Sunday School Hour at 9:45 a.m. Sunday. The adults' study concerns two sisters, Mary and Martha and their brother Lazarus and how Christ was welcomed into their home.

Morning worship begins at 11 with Rev. Joe Allison in charge. The Adult Choir will sing, "All Hail, Immanuel," under the direction of Roy Harper, minister of music and accompanied at the instruments by Mrs. Ann Winegart and Mrs. Edith Beigle. For his scripture, Rev. Mr. Allison will read from II Samuel 14:12-17 with his text taken from chapter 22.8. His message he has entitled, "Water in the Sand."

Choir rehearsals will meet at the usual time of 5:30 p.m. with a concentrated effort of completing music for the Spring Festival at First Baptist Church tomorrow evening.

The Pastor's Class will meet during the Training Union Hour for a study together more about what Baptists believe. Others will be meeting in their regular places for Training Union.

For the evening worship service several songs will be sung, followed by the reading of the Scripture taken from Ephesians 3:1-11 with the text found in the third chapter, verses 6, 18 and 19. For his message Rev. Allison has chosen "All Are Fellow Heirs."

Every morning this week the W.M.U. women and those who wish to join them, will meet at 9:30 a.m. for the Annie Armstrong Week of Prayer. A cordial invitation is extended to all to attend these meetings. For Prayer Meeting Wednesday evening, the W.M.U. will present a Week of Prayer program.

Ours is a Church With an Open Door to all that would come and worship with us.

Third of Series To Be Given by Reverend West

On Sunday morning at 11 at the Church of the Brethren, Rev. Russell G. West will preach the third in a series of sermons on beliefs and practices of the Church of the Brethren.

His message this Sunday will deal with "The Rite of Footwashing as a Preparation for Communion." This Brethren practice is based on the statement of Jesus in John 13: 14, 15 which reads, "If I then, your Lord and Teacher, have washed your feet, you also ought to wash one another's feet. For I have given you an example, that you also should do as I have done to you." Furthermore the brethren believe that a Christian can not be in with God and out with people.

In other words, a man must first be reconciled to his brother and then bring his gifts to the altar. To the Brethren the communion elements have no magic within themselves. Everything depends upon the condition of one's heart as he participates in the Communion.

St. Paul says in I Cor. 11: 28, "Let a man examine himself, and so eat of the bread and drink of the cup." Probably there is no other experience more heart-searching than to stoop down in Christian love and wash another's feet.

On Sunday evening from 5 to 6:30 the young people and their sponsors will serve a pancake supper. Everybody is invited. The supper will be free, but an offering will be lifted for the varied activities of the young people. Following the supper at 7 p.m. the young people will conduct a worship service in which they will give a play, entitled, "The Search for Power," by Ruth Aurelius.

Presbyterians Set 2 Services For Mornings

Beginning this Sunday, March 1, First Presbyterian Church will have two morning worship services at 8:45 and 11 a.m.

On this first Sunday the Children's Choir will sing at the early service, using "Lord I want to be a Christian" as the anthem, and the Sanctuary Choir will sing "There is a Green Hill Far Away" as the Anthem at the Second Service. Mrs. Cy Reeder is the organist at the early service while Mrs. Fidelia Yoder will continue as organist at 11 a.m.

Rev. Donald S. Hauck will be assisted in the worship by Ruling Elder Roy Sparkman, and will use the 23rd Chapter of Jeremiah and the 10th Chapter of Mark as the text for the morning sermon.

The evening program will return to its usual schedule with a youth snack supper at 5:30 p.m., followed by Junior and Senior High Fellowship at 6 p.m., and evening worship at 7 p.m.

Wayland President to Bring Baptist Sermon

Dr. Roy McClung, president of Wayland Baptist College, Plainview, will bring the sermon of dedication at Central Baptist Church Sunday morning. The dedication service for central's new auditorium will begin at 10:45 a.m.

Until his election as president of Wayland last year, Dr. McClung was pastor of First Baptist Church of Plainview. Prior to this Dr. McClung held pastorates in Oklahoma, Kentucky and Indiana. He is a graduate of Oklahoma Baptist University and received his Th.D. degree from Southern Baptist Seminary, Louisville, Ky.

Central Baptist Church will have its regular Sunday school services at 9:45. These will be shortened about 15 minutes, to allow more time for the service of formal dedication at 10:45. In addition to Dr. McClung's message, the pastor, T. O. Upshaw, will lead the congregation in the vows of dedication. John Christy, Tuscaloosa, Ala., will bring a message in song at this service. Christy is a former minister of music-education at Central. The church choir directed by Hugh Sanders, will also sing "These Are Thy Glorious Works."

There will be an old-fashioned basket lunch served at noon. At 1:30 Jerry Whitten will give a 30-minute concert on the Hammond Organ in the auditorium. A special service to be held at 2 p.m. will feature a message by D. H. Truhitte of Austin, Truhitte was the first pastor of Central Baptist Church.

Evening services begin with Training Union at 6. This organization will continue the study of doctrine. At the evening worship service, Carroll Ray, missionary for the Top of Texas area will bring the message. Bob Callahan of Amarillo will bring a testimony and special music. The Chapel Choir of the church will also sing for that service.

The public is cordially invited to share in these services. Central is proud of their new facilities and will hold open house from 3:30 to 5 p.m. Sunday.

DR. ROY MCCLUNG, Wayland president

Lamar Christian to Note Missions Day

Lamar Christian Church will observe World Missions Day Sunday at the 10:45 Worship Hour by sharing the message, "Concerned Conscience Committed and Communicated."

The text of this message to be delivered by Loren E. Williams, the minister, will come from the first 11 verses of the Acts of the Apostles. The thesis of the message is "True Christianity, an involvement of the total man, in the total world."

The first of four pastor's classes will be held Sunday in the pastor's study beginning at 9:45. This series of classes is for children, youth and adults who have reached a definite decision to acknowledge faith in Christ and is also open to those who are beginning to consider a decision but have not definitely decided to take membership in Christ's Church at the present time.

Enrollment for these classes should be phoned into the church Saturday. Chi Rho Fellowship for junior high youth begins each Sunday, at 5:30.

The Sunday evening services which begin at 7 are dealing with the seven words from the cross. The word "I thirst" from John 19:28 will be the text of the message Sunday night. The Week of Compassion offering which serves man and Christ, through Christ World Service taken last Sunday will be extended through next Sunday.

Alliance Group Makes Plans for '64

The committee for special religious services from the Pampa Ministerial Alliance met to make plans for the year of 1964. The major interests considered in the Christian calendar year were Holy Week Services, Thanksgiving, Christmas, New Year's Watchnight and the Burning of the Greens.

During Holy Week March 22-29 we will have preaching on the street Monday through Thursday at 12:30 p.m. On Good Friday we will urge the community to attend the services at the Episcopal Church from 12:30-3:00 p.m.

Members of this committee are Mrs. Z. L. Land, Hubert Carson, Rev. Earl Pruitt, Rev. J. S. McMullan, Rev. Douglas Carver and Rev. Jack Riley.

Hobart Baptist to Hear Amarillo

Dr. Floyd Golden, deacon of First Baptist Church, Amarillo, will be guest speaker in both the morning and evening services at Hobart Baptist Church.

Dr. Golden is former president of Eastern New Mexico University. He has traveled in Russia in recent years and has a good message about life behind the Iron Curtain.

At the 11 a.m. service the subject will be, "Religion Behind the Iron Curtain." The subject for the evening service, beginning at 7, will be, "Educational and Economic Conditions Behind the Iron Curtain." A cordial invitation is extended to all Pampans to hear these important messages.

The Weekly Message Of Inspiration

Attend The Church Of Your Choice

**DONALD S. HAUCK, PASTOR
FIRST PRESBYTERIAN CHURCH**

"And after six days Jesus took with him Peter and James and John his brother, and led them up a high mountain apart. And he was transfigured before them, and his face shone like the sun, and his garments became white as light."

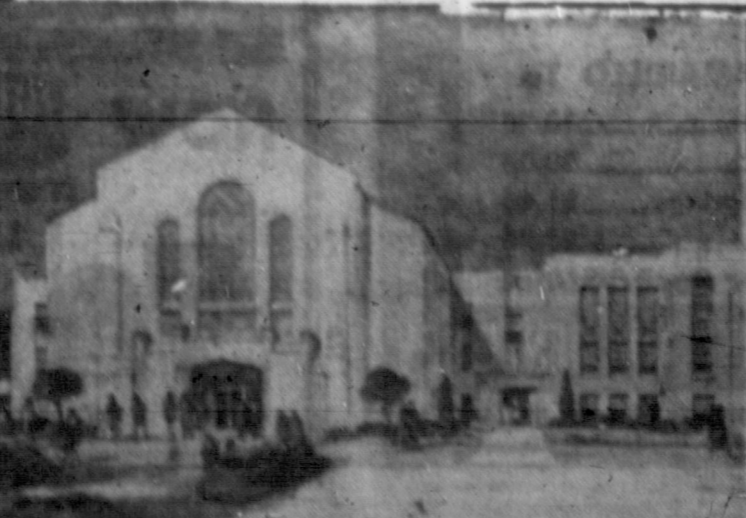

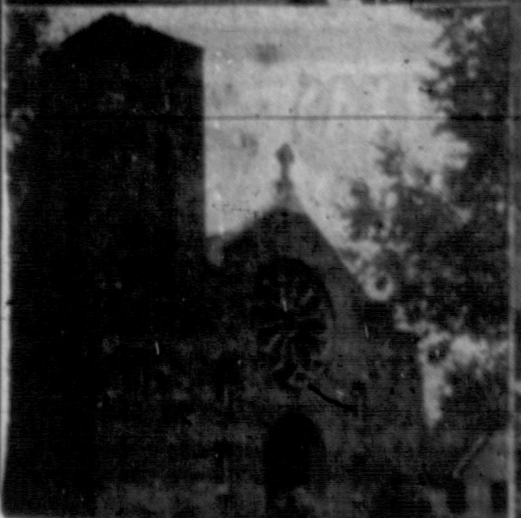

I can never say too much about the significance of the Christian Year and our part in it. We are now several weeks into Lent — A season of the Church Year which is often taken lightly by so many of us who are outside the Roman, Anglican and Lutheran traditions — We can gain much from readying ourselves for Easter.

The Transfiguration of our Lord stands as a symbol of Lent to me because it shows up our shallow lives as contrasted to the Glory of Christ, who chose by the will of God to take upon himself our human form, but who, none the less, still bore the mark of the divinity of God, a life perfect in love and obedience.

The experience upon the mountain top is a pivot-point in the life of our Lord and in his relationship with the disciples. Peter would have preserved that sacred moment by the building of booths, but first it was necessary to go back down that mountain to the suffering humanity who in their suffering would bear this Christ to the Cross.

Lent reminds us of our sinful condition of our need to enter anew into the life of our Lord — Not only when we get the first glimpse of his glory but when we have made our way with him to the Cross, dying to our old selves and then being made ready for our new life which is raised from the grave in the Easter faith to come.

"This is my beloved Son with whom I am well pleased, listen to Him."

THIN RED LINE — Coach Dunny Goode smiles hopefully at his handful of returning track veterans at Lefors. Top, left to right: Richard Bull, Bill McMinn, Terry Bromlow, Don "Squash" McCool. Sitting: Phil Woodring, Marvin "Tank" Todd, Neil Gates, Dickie Sims.

Lefors Pirates Return Only Handful Of Veterans For '64 Track Season

By JEFF COHANE
Pampa News Sports Editor

Doleful Dunny Goode, the well-known pessimist of the Panhandle, was in rare form as he surveyed the skimpy ranks of the Lefors track team for the 1964 season. Goode, who sings the blues with powerhouse squads, is in the position of the boy who cried wolf this year, as Lefors' track prospects are truly a far cry from last year's team which finished second in district 2-A.

Three athletes graduated among them Lefors' chief pointer, and a state champion is ineligible this season leaving only six Pirates who picked up meet points last year.

Gone is Rodney Arrington, who won district honors in the 100-yard dash and placed second in the broadjump and in the 100-yard dash; as well as running on the district champion sprint relay squad: Anthony "Punkin" McCool, who placed in the 880; and Tommy Smith, who placed in the low hurdles. Class A state pole vault champion Wayne "Lightning" Coleman, a 12'6" jumper as a junior, also a sprint man, is ineligible this year.

Only seven upperclassmen are left, with a squad of 27 composed mainly of untried freshmen and sophomores, none of whom are expected to develop into winners until next year. Three members of the district champion sprint relay team are back: Terry Bromlow, Neil Gates and Phil Woodring. Bromlow is also an outstanding high hurdler. Neil is a low hurdler and the lanky Woodring a 220 man.

With Arrington and Coleman gone, the fourth member of the sprint relay team will probably be Richard Bull. Bull was fourth in district in the 100 last year in 10.8, but is hampered by a knee injury. If the knee recovers, Bull and sophomore Dickie Sims will be the sprint threats.

Lefors' chief threats will be in the discus and shotput. Returning is Don "Squash" McCool, who won district last year in the discus with a heave of 126

feet, and put the shot 41 feet for second place. Marvin "Tank" Todd was second in the discus with a 121-foot heave, and the pair are backed by burly senior Bill McMinn.

"We only plan to take these eight boys to most of the meets until some of the youngsters prove themselves. They're young and untried, and we'll have to go with the veterans at first. We will take quite a few to the first meet of the season, as we are entered in two meets and will split the squad in two," said Goode.

The Doleful One explained that the Pirates were entered March 7 in both the Greyhound Relays at Gruver and the brand-new McLean track meet. "McLean being in our area, we naturally want to support their meet and help make it successful. However, we have been going to Gruver for years and had already accepted their invitation. So, we'll split the team in two for the opening meets."

The second traditional meet for the Top O' Texas area, the Pirate Relays at Lefors, has also been radically changed. "Our meet has always been a two-day affair, with about 28 teams entered," said Goode.

"However, because of the regional teachers meeting, we are cutting the meet to a one-day affair, Mar. 14, and having the limit the teams to 12. We have tried to keep the meet in our classification, having invited all the 1-A and 2-A track teams, plus Wheeler and Pampa B."

Following their own meet, the Pirates go to Panhandle, Amarillo, district and regional.

aimed at making him America's No. 1 man in the 4,500 meter run at the Olympics in Tokyo in October."

Other meet records were broken Thursday night by John Uelses of LaSalle in the pole vault with 18 feet, 3/4 inch; by Bruce Kidd of Toronto, Ont., in the two-mile in 8:39.8; and Morgan State College in the one-mile relay in 3:18.5. Also, Mel Pender of the U.S. Army tied the meet mark of 6.1 seconds in the 60-yard dash.

Bill Crothers of Toronto won the 600-yard run in a near record 1:09.7 and also ran a 47.2 quarter-mile on a relay. Other winners included Roy Hicks of the Army in the hurdles at 6.2 seconds, Charley Buchta of the Marines in the 1,000 at 2:06.7, and Gary Gubner of NYU in the shot put with 62 feet, 8 1/2 inches.

Harvesters Take Ten To Sweetwater Meet

Coach Norman Phillips and 10-man squad left today for the Sweetwater Invitational Track Meet, with slim chances of placing among the top finishers.

Phillips reported last night that due to the sickness of Kell "Red" Griffith, plans for a mile relay team in the meet have been scratched, and there has just not been enough good weather workouts to date to shape up a sprint relay squad.

"Without relay teams, it's pretty tough to place high, even if we had more experienced athletes in the other events than we do," admitted the Pampa pipe-puffer. "We won't be anywhere near last year's fourth-place finisher. As young as our kids are, it's hard to say how any of them will do. The main thing most of them need is experience, and they'll get that here. This will really be more of a tryout for us than anything else, although with a meet scheduled every week, we need to get started fast."

The meet preliminaries start at 10 a.m. tomorrow, with finals in the afternoon. Defending champion Odessa Permian is favored to repeat, with Odessa again a strong threat. Monterey and Lubbock from district 3-4A are figured to be tough contenders. The meet usually hosts about 30 teams in the large school class, but the Fort Worth meet, also coming up this weekend, is expected to draw off some of the North Central Texas teams, leaving about 20 large schools in the meet.

Best bet for a win from Pampa is expected to be half-miler Mark Westbrook. As a first-semester sophomore, Westbrook set a school record with a time of 2:00.2. Ineligible the next semester, the dark-haired junior is the big hope this year.

Waylon Bullard will be entered in both the high and low hurdles. Bullard ran a 15.5 in

the high last year, and has clocked a 15.7 in practice this year, and is definitely figured to pick up Pampa points.

A relatively unknown quantity, 5-miler Smiling Jesse Washington. Two-time Negro state champion at Carver, Washington's best times have been variously reported as anywhere from 4:27 to 5:00. "We'll find out for sure tomorrow," said Phillips with a twinkle, "and I'm betting it's better than 5:00."

Jim Brown, who highjumped 5'10" last year, has been handicapped by lack of work due to the muddy ground, but is also a point hopeful. Lewis Meers will be entered in the 100 and 220-yard dashes. "Mighty Mouse" was clocked in 10.4 as a

freshman, and has practice times of 10.5 and 24.8 so far this year, indicating that his injured knee has completely recovered.

Phillips pointed out that none of the practice marks this year were clocked under meet conditions.

Big Billy Quarles, who has put the shot 42 feet in practice and Carl Johnson and Myron Scribner in the discus will be the weight men. Johnson had a 132-foot heave last year, but has not thrown for distance yet this year.

Jimmy Jamieson, and Danny Heil, who would have made up half the mile relay team, will be entered in the 440. Jamieson had a best time of 0:53 last year and has an 0:56 in practice.

10 FRIDAY, FEBRUARY 28, 1964 56TH YEAR

Clark Hinkle Leads Seven Hall o' Famers

NEW YORK (UPI)—Fullback Clark Hinkle, whose fierce spirit enabled him to rive Bronko Nagurski as a great runner, and four of the most versatile linemen in history were among seven men elected today to pro football's hall of fame.

Named along with Hinkle, four-time all-pro fullback of the Green Bay Packers, were center George Trafton, tackles Ed Healey and Link Lyman, guard Mike Michalske, Pittsburgh Steeler founder and owner Art Rooney and halfback Jimmy Conzelman. All seven are living and expected to be present in Canton, Ohio, next Sept. 6 when they will be inducted into the shrine.

Already enshrined in the pro football Hall of Fame are Sammy Baugh, Bert Bell, Joe Carr, Dutch Clark, Red Grange, Mel Hein, George Halas, Pete Henry, Cal Hubbard, Don Hutson, Curley Lambeau, Johnny Blood McNally, George P. Marshall, Tim Mara, Nagurski, Ernie Nevers and Jim Thorpe.

The new members were elected by a committee of nine newspapermen and Conzelman. Conzelman was elected in a parliamentary procedure whereby his name was linked with Rooney's and the news-

men suddenly called for a voice vote. Conzelman, who had been protesting his election, was unable to raise a dissenting voice before the motion was carried.

The seven new pro immortals all come from the early years of the game when it was struggling to win recognition alongside the colleges. It was not until 1950 that pro football entered the "boom period" which has made it a rival to baseball as the country's national pastime.

Hinkle, Trafton, Healey, Lyman, Michalske and Conzelman were elected for their playing ability while Rooney was honored as a club founder and a dedicated apostle of pro football who helped the sport survive its dreary formative years.

OTTAWA (UPI)—Michael Mosolf, formerly with the Indianapolis Warriors of the United Football League, has signed to play with the Ottawa Rough Riders of Canada's Eastern Football Conference next season. Mosolf was a quarterback and a defensive halfback for the Warriors last season.

Greyhounds Nip Miami On Fouls

By JEFF COHANE
 Tampa News Sports Editor
FLORIAN — Petite Blonthe Blankenship sunk her 17th and 18th free throws with seconds to go in the game to give a fourth-quarter rally by Miami and give the Grubbers a 49-46 win in a pre-district girls game last night.

Cheryl's free throw made it 47-44 and Connie sank a hook shot with 78 seconds left to slice it to 47-46. Lyneth, who made 13 of 17 free throw attempts, then hit a pair, was fouled seconds later and missed, but Miami was unable to get off another shot. Anita finished with 29 points and Lyneth 19, Connie had scoring honors with 30 and Cheryl had 12.

Gruber's pretty and talented greyhounds led throughout the game by a double-figure margin in the deadly shooting of Anita. Only to have a tremendous fourth-quarter rally, sparked by Connie Dodson and Cheryl Gill, cut the lead to point, stopped by Lyneth's charity shots.

Miami led only once, in the final seconds of the game, as Linda hit the first five shots for the district 1-A champions. The Warriorettes hardly off a shot at the basket as Gammill hawked the pass and Wanda Hardesty wove way through the Miami defenses to feed the ball to Lyneth. Drizzling and head-faking, she would maneuver the Warriorettes away from Anita, would go in almost unopposed except by Cindy Coffey, layups and rebounds, causing 13 points for a 14-6 quarter lead.

With Lyneth leading fast breaks and drawing fouls, which accurately converted into points, Gruber moved into a 12-11 lead. Cheryl started to range for the district champs, but Anita kept the greyhounds comfortably ahead at the half.

Connie started hitting ones and pouring on the shots, but Anita matched her shot for bucket as Gruber led the action down, holding a 27-27 lead going into the final minute.

Struggling Cheryl literally needed a pair of shoulder pads and helmet at this juncture as she flew, battled and scrambled for the ball, tying it up again and getting the cover to Connie, who drove in three straight buckets to cut lead to four with 1:30 to go.

Connie started hitting ones and pouring on the shots, but Anita matched her shot for bucket as Gruber led the action down, holding a 27-27 lead going into the final minute.

Joe Kuharich Named Philadelphia Skipper

PHILADELPHIA (UPI) — Veteran Coach Joe Kuharich was named the Philadelphia Eagles' coach Thursday night. The 21-year-old Hoosier gained a split decision over the Texan, who outpointed defending champion Wade Smith of Muncie, Ind., Tuesday night.

To get there, Hill had to defeat Jesse Valdez of Fort Worth Tex., Thursday night. The 21-year-old Hoosier gained a split decision over the Texan, who outpointed defending champion Wade Smith of Muncie, Ind., Tuesday night.

Kuharich, presently supervisor of league officials for the NFL, becomes the 10th Eagle coach since the club was founded in 1933 and the eighth since Greasy Neale took over for the late league commissioner, Bert Bell, in 1941.

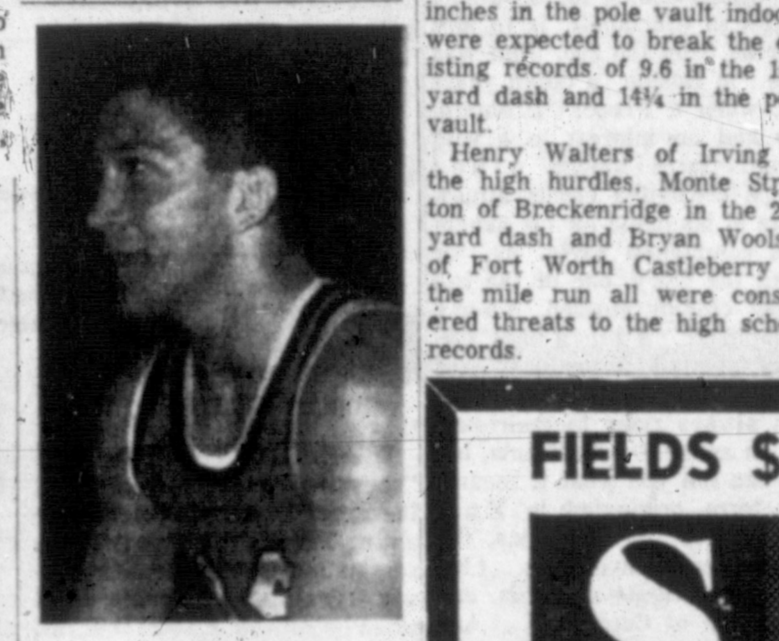

AGGIES HOST MEET
 COLLEGE STATION (UPI) — Three new Southwest conference events will be run Saturday at the Texas, Rice, Texas A&M triangular track meet. A new event is the 440-yard dash on a curve.

Foster-Roderick Run Fort Worth Feature

FORT WORTH (UPI) — The 100-yard dash duel between Southern Methodist teammates Billy Foster and John Roderick promises to be the spotlight feature of the 41st annual Southwestern Recreation Track and Field Meet opening the state's outdoor season Saturday.

Despite a record entry list, hiked this year by the first-time competition of two Negro colleges and several Negro high schools, most of the meet's records appear intact except in the high school division.

Defending champions are expected to be hard put to keep their team titles. Abilene Christian won both the university and junior college - freshmen titles and McMurry the college crown last year.

DON MCCOOL
 Lefors, 1st team

Baylor and Southern Methodist were expected to push ACC in the university division, while the University of Texas freshmen are considered the favorites in the junior college-fresh division. Texas Southern of Pittsburg (Kan.) State loom as top threats to McMurry's throne.

SENT TO BELMONT
 HIALEAH, Fla. (UPI) — Kelo completely recovered from an ankle injury that caused him to miss the Widener Handicap, will be shipped to Belmont Park, March 7, but he may not return to action until early summer, according to trainer Carl Hanford.

The Pampa Daily News

A Watchful Newspaper
EVER STRIVING FOR THE TOP O' TEXAS
TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better protect and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities. We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself, no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

Can The Tide Be Stemmed?

When informed persons raise their voices today, pointing out that this nation is pursuing a course of ultimate destruction so far as its economic system is concerned, there is apt to be some fairly wide agreement. Obviously one cannot forever continue to raise taxes, enlarge government and deprive the citizens of their freedom. The day comes when reality calls a halt. When this is pointed out, although many will now agree, the normal course is to say, "It isn't politically feasible to bring about a change."

It isn't politically feasible. A man recently returned from a trip to South America. He reported that inflation in Brazil has now finally gone up to ruinous proportions. For instance, business firms are finding it almost impossible to sell any merchandise on time payments. Even dealers in such things as automobiles, tractors, houses and heavy-duty household appliances are reluctant to enter into long-term purchase contracts.

One large firm doing business in many countries is now reported to be charging from 7 to 7 1/2 per cent per month in carrying charges with a positive limit of 18 months. This is in Brazil. This firm, in spite of an interest rate that would be larger than 75 per cent per year, still has difficulty in actually earning a 4 per cent return on the original loan.

A purchasing agent seeking delivery of an item of heavy manufacture from the United States is confronted with this impasse. The representative of the firm which sells the item will tell him: "It will take us nine months to get delivery. We can only quote the price which is applicable today. Therefore, we cannot enter into a contract with you to deliver this item at a fixed rate. We still have to negotiate the price when the item is on hand and ready for delivery."

This is what a galloping inflation will do to any country. Persons being paid regular weekly wages in Brazil will take

Better U.S. 'Meerscham'?

Here's good news for loosed-ended, ex-cigarette smokers and - or secret admirers of Gen. Douglas MacArthur, Allen Dulles, Norman Rockwell, Bennett Cerf and a number of others: The Corn Industries Foundation has announced the results of scientific project MO Pipe 12. Put in simple terms for the layman, it means that better corn pipe 12 is in the offing. MO Pipe 12 is a new hybrid corn with an exceptionally hard cob that was developed by Dr. Marcus S. Zuber at the Univer-

By Frank J. Markey

Automobiles were called many things before they were officially known by their present name. The French Academy gave its formal approval in 1895 to a combination of Greek and Latin that means "self-moving." Prior to that they were called "horseless carriages," "machines," and "road locomotives." The U.S. Patent Office describes them as "motor vehicles," which is the legal term in this country. The firms that make them have always been listed as automobile manufacturers, but in their corporate names they call themselves "motor car" companies. When something goes wrong with them, most of us have called them other names!

Today's smile: A little boy said to his teacher: "Please, teacher, what did I learn today?" "That's an odd question," the teacher replied. "Well, that's what they'll ask me when I get home," said the lad.

The latest kick for debutante parties in Cincinnati is to hire animals from the zoo. That was done in Boston a dozen years ago, when a Proper Brahmin, who had an interest in a wild animal farm among other things, created a circus atmosphere at his home for his daughter's coming-out party. As we recall the story, one of the imported chimps guzzled some champagne, and a baby elephant showed a fondness for hors d'oeuvres. Newspapermen always refer to their profession as the Fourth Estate, but few can tell you what it means. The term originated in England, where, for centuries, the three estates have been the Crown, the House of Lords, and the House of Commons. And speaking of newspapers, they often use "peril" as a verb. For example: "Fire Perils City."

Honestly now, did you ever hear it used as a verb in conversation? Neither have we. Thoughts while shaving: Most Italians still play cards with the old deck that has the ace of swords, the suits are spades (which means swords, not spades), denaro (money), bastoni (clubs), and fiori (flowers). They've been used for centuries in the ancient game of scopa. A headline in the Portland (Oregon) OREGONIAN said: "Parents Ask Sex Action." We hope the reporter got the five W's to that story - Who, What, Why, When and Where. A physician friend tells us eye-sight changes after 40 fall into two categories, normal development, related to changes in tissue and muscle tone, and dangerous possibilities, related to certain diseases to which we are more prone as we grow older. The Reader's Digest has maintained for many years that Laughter is the Best Medicine, but only recently the Illinois State Medical Society made tests which proved laughter reduces muscle tension, relaxes the tissues, and stimulates the muscles and organs of the body by introducing adrenal fluid into the blood stream. The top ten TV advertisers are five drug firms, plugging headache and pain relievers, three cigarette manufacturers, a toothpaste company, and an automobile corporation. We'd never believe it, but the American male does spend \$300,000,000 annually on after shave lotions and other toiletries.

Country Editor speaking: "The improbable happens often enough to be disturbing or helpful."

Mrs. Marina Oswald, 23-year-old widow of the killer, told the commission that Soviet security agents contacted her husband a number of times while they were living in Russia. Under questioning, she emphatically denied that she or Oswald had been KGB (secret police) agents or were "associated" with that organization. Mrs. Oswald confirmed that her uncle is a Soviet "Military Colonel," and that she and Oswald resided near him in Minsk.

MORE MYSTERIES - One of the curious backstage aspects of the investigation is former CIA Director Dulles' acute sensitivity about information relating to that agency. For example: At Dulles' vigorous insistence, certain questions and answers about Oswald's possible training as a secret agent while in Russia were put off the record; that is, they were not transcribed and are not recorded in the testimony.

Throughout the inquiry, Dulles

has displayed a militant protectiveness regarding the CIA. Other mysteries being explored by the commission are: Where Oswald obtained an apparently steady flow of money, amounting to several hundred dollars, during his frequent periods of unemployment. How Oswald was able to obtain a passport in New Orleans to go to Russia despite the fact that the State Department had a file detailing his "defection" in Moscow and four years' residence in the Soviet.

This passport, DO#2526, was issued on June 25, 1963, in his application Oswald stated he proposed traveling from three to 12 months as a tourist to England, France, Germany, Holland, Finland, Italy, Poland and Russia. Oswald's original passport, dated September 10, 1959, was numbered 173232.

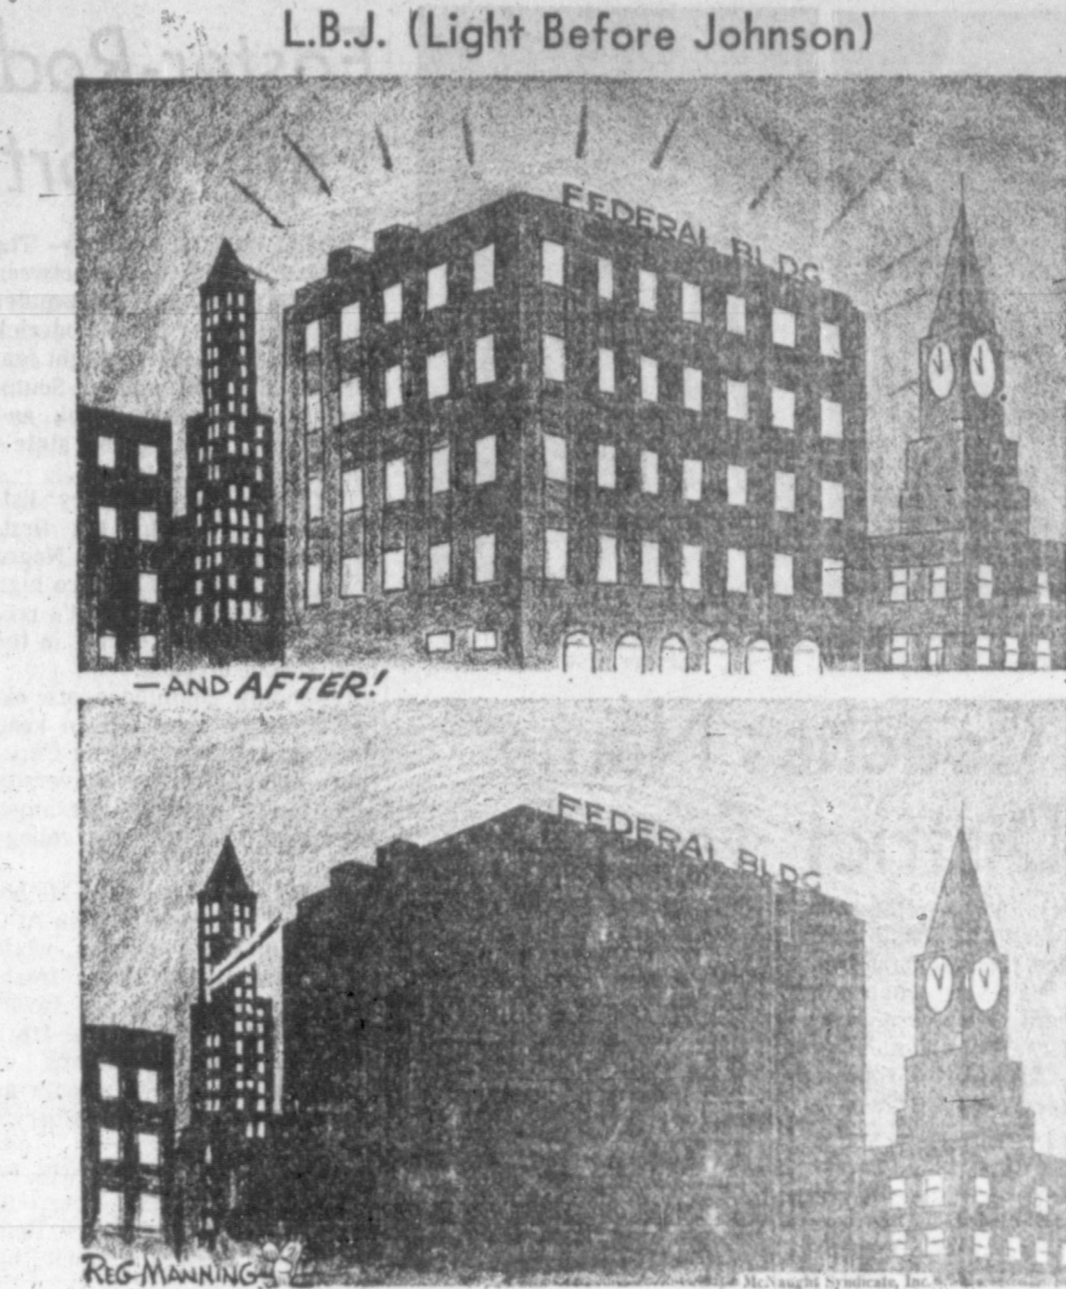

His second passport was given him the day after he asked for it, and without the required "name check" for individuals known to be Communist or to have Communist associations. So far, the commission has no explanation for this official dereliction. Authorities of the Passport Division are to be questioned about that.

A senator has given the investigators the name of a Texas attorney who claims to have information about Oswald's being a double agent. The lawyer reportedly learned this from a client who has been operating in Communist circles for a number of years.

Yuri Nosenko, the important Soviet security official who recently defected to the U.S., may be questioned by the commission. In his position as a key member of the American section of KGB, Nosenko would have had access to files on Oswald. Whether he did is not known. Staff members of the commission are slated to confer with him to determine whether he testifies before the commission.

Lately, the commission's closed-door sessions have been sparsely attended. Only one of the seven members was present during the interrogation of Oswald's brother. This member was former CIA Director Dulles, who balked at any testimony that might reflect on the intelligence agency.

A RED "HOT LINE" - Despite this country's ban against trade with Communist East Germany, the teletype at the U.S. end of the Moscow-to-Washington hot line came from that satellite. Installed in the Pentagon's communications center, the teletype's number is "T5A-RFT Blattschreiber," and a stamped plate states it was made in Karl Marxstadt, East Germany. Defense officials say the machine was installed at the Soviet's request. Saudi Arabia is buying 200 anti-tank missiles from Britain. This is the second purchase of this weapon by an Arab country. Kuwait bought a number of these guided missiles

Allen-Scott Report

Warren Commission Still Not Sure Whether Oswald Was Double Agent

Clearing House

Articles for this column are preferred to be 500 words or less in length. However, longer articles may be printed. All letters must be signed.

Editor:

A dangerous and devastating disease is sweeping over America, leaving broken homes, family separations, and ruined lives in its wake. Doctors are at a loss as to how to cope with this completely catastrophic condition. No one is immune to it; however, it seems to strike more men than women.

The technical name for the disease is encephalitis lethargica, and here are the symptoms: Early on Sunday morning the victim awakes, opens one eye and looks around, glances at the clock and says, "Oh my, nearly time for Sunday School, but maybe I can get another wink or two of sleep before getting up." Then turning over, the victim goes back to sleep.

In other parts of the house the rest of the family can be heard getting ready for Sunday School, unaware that one member of the family is ill. The demon of encephalitis lethargica has struck again.

All human efforts have been exhausted in trying to find a cure for this maddening, malignant malady. For instance, there was the eminent Doctor Society, who thought he had a cure. "All that is needed," said he, "is more social activity in the church. Give them more pie suppers and fewer prayer meetings and they will be all right." This was tried, however, and found to be a false cure. And so goes the theory of Dr. Society.

Then there was the very prominent Doctor Education. His theory was that an educated person is a healthy person. "Give more thought to their education, and less thought to their spiritual welfare, and they will be fine." This, too, has been proven false. An educated person can be just as sick as an uneducated one.

Other famous doctors who have failed are: Dr. Goodworks, Dr. Psychology, Dr. Modernism and Dr. Worldliness.

Spiritual-minded scientists are working around the clock, trying to find a permanent cure for this pitiful, putrefying plague that is threatening our country. But much research is needed, and such work is extremely expensive. Remember, this work is not included in any United Fund Drive; there are no endowment funds to cover this tremendous expense. So it is up to you and me to see that this tremendously important work is not neglected. Give of your money, your service and talent to help further this all-important cause; and don't forget, to have your periodical check up at the clinic of your choice - your church - lest you, too, become a victim of this terrible disease.

Rev. W. L. Hopper
705 East Campbell

And I Quote:

"The voter who asks or accepts special favors at the expense of all the other taxpayers destroys decent government; he sets the tone that leads to double-dealing, knavery and immorality in high places."

President Edwin P. Neilan, Chamber of Commerce of the U.S.

CALIFORNIA WHITE HOUSE—This Palm Springs, Calif., home is where President Lyndon B. Johnson will stay when he meets with President Adolfo Lopez Mateos of Mexico. The house is owned by Louis Taubman, a real estate developer.

Washington Window

By LYLE C. WILSON
United Press International

In the matter of Fidel Castro's effort to seize Venezuela, it would appear that the next move is up to President Johnson. The OAS reported this week on Castro's operation Venezuela. OAS is the Organization of American States. OAS investigators reported that Castro's agents smuggled bazookas, mortars and machine guns into Venezuela. Object: Seizure of the country. This effort to export communism from Cuba into a South American state invites attention to the ground rules laid down by the late President John F. Kennedy. The occasion was Kennedy's Sept. 13, 1962, news conference. The young President was trying to silence uneasy rumors that Castro's Cuba was becoming more in the lead of less a menace to the United States and its neighbors. Most emphatically, Kennedy said military action by the United States was neither required nor would it be justified by the then existing situation. But the President did not want to appear to be soft on Cuba, so he added this:

List Dangers
"But, let me make this clear once again: If at any time the Communist build-up in Cuba were to:
—Endanger or interfere with our security in any way, including our base at Guantanamo;
—Our passage to the Panama Canal;
—Our missile and space activities at Cape Canaveral;
—Or the lives of American citizens in this country;
—Or if Cuba should ever attempt to export its aggressive purposes by force or the threat of force against any nation in

this hemisphere:
—Or become an offensive military base of significant capacity for the Soviet Union;
—THEN this country will do whatever must be done to protect its own security and that of its Allies."

The President said the United States would be alert and fully capable of dealing swiftly with any such developments.

"As President and Commander in Chief," Kennedy continued, "I have full authority now to take such action."
Time of Demands
These bold words were uttered at a time when Sen. Barry Goldwater, R-Ariz., was demanding that the administration act to remove the threat of Soviet armed might in this hemisphere. Richard M. Nixon was demanding stronger action, a U.S. naval blockade if necessary, to quarantine Cuba against Soviet arms.

And Secretary of State Dean Rusk was reassuring the House Foreign Affairs Committee that the Soviet arms buildup in Cuba was only defensive. Five weeks later on the eve of the congressional elections there was a national clamor for action to check the Sino-Russian penetration of the Western Hemisphere. It had become the prime Republican campaign issue.

The Kennedy administration discovered the Russian missile buildup on Oct. 23 and imposed a naval blockade despite Russian threats of an A-war. The nation applauded and the campaign issue of Communist penetration subsided and disappeared. On the basis of the OAS report of Castro's operation Venezuela, that big issue is arising again.

Public Service Firm Announces Research

AMARILLO (SpI) — Southwestern Public Service Company and nine other investor-owned electric utility companies in Texas have announced in Austin sponsorship of a major research program in atomic energy to be conducted at the University of Texas and Texas A&M University.

A. R. Watson, president of Southwestern Public Service Company and a director of the Texas Atomic Energy Research Foundation, the sponsoring organization, said the initial phase of the research program will carry a commitment of \$325,000. The Foundation is considering a program which might ultimately see a total of \$540,000 committed to research in Texas, Watson said.

The Texas Atomic Energy Research Foundation has had a nuclear fusion program under way since 1957 under joint sponsorship with the General Atomic Division of General Dynamics Corporation.

The research, which has been carried on at San Diego, Calif., seeks to control the source of power of the hydrogen bomb for the eventual economical generation of electricity. It is the largest nuclear fusion research program in the world to be financed by private industry.

Watson said that the investor-owned electric industry of Texas as hoped to accomplish two major goals in the program, announced today.
"We hope that this financial support, and the funds that we will allocate in the future, will aid the universities in their drive for excellence in science education. And, naturally, we hope that major contributions will be made to our nuclear fu-

sion research program," he said.

Watson pointed out that the conventional electric power generating stations like those presently operated by Southwestern Public Service Company are much more economical than the atomic power plants that are now in operation. These atomic plants use the fission process, or split the atom, while the research in which Southwestern is participating is designed to fuse, or join together, atoms. If the research is successful, the hydrogen found in sea water would be the fuel source for generating electric power.
