

Goldwater and Bush Lead in Texas GOP Vote

Pampa's Bob Price Ahead for Congress

By CARLTON WILSON
United Press International

Texas Republicans backed Sen. Barry Goldwater for President Saturday, as expected in a straw vote, and gave Houston oilman George Bush an early lead in his bid for the GOP nomination for U. S. Senate.

Early returns from 50 counties announced by the state Republican headquarters at 8:30 p.m. (est) showed Goldwater with 7,097 votes in a presidential preferential vote that is not binding on the Texas delegation to the national convention.

In the 18th Congressional District, Robert E. (Bob) Price of Pampa flew to a heavy early lead in every county in the district and was running about 3 to 1 over his opponent, Frank Hinkson of Parmer County.

Bush had 4,298 votes to lead Jack Cox with 3,630 votes, Robert Morris—who had 1,021—and Dr. Milton Davis, with 632.

Goldwater was expected to mount an impressive total as Texas showed their support for the Arizona senator, who has the support of practically every member of the party leadership. Other totals in the test vote gave Ambassador Henry Cabot Lodge 479, Gov. Newson Rockefeller of New York 477, U. S. Sen. Margaret Chase Smith 391, Harold Stassen 365, Richard Nixon 162, Gov. George Romney 12 and Gov. William Scranton 47.

Texas Republicans nominated their most complete slate of state and federal candidates in history Saturday, and in a straw vote indicated a choice for president.

The GOP primary election ballot featured a four-way fight for the post now held by Sen. Ralph Yarborough, D-Tex., whose renomination was contested in his own party primary.

Gray County Republicans were jubilant last night over the heavy presidential preference vote for Barry Goldwater and the GOP voter increase over the 1962 election.

In a curtain-raiser for the November general election, 10 Republicans were nominated without opposition in statewide races. The party is also fielding congressional candidates in 22 out of 23 districts.

In addition, Republicans chose favorites for both the state Senate and state House of Representatives.

GOP County Vote

Gray County Republicans were jubilant last night over the heavy presidential preference vote for Barry Goldwater and the GOP voter increase over the 1962 election.

With no county contests in the GOP races and the claim by Republican County Executive Chairman Clayton Husted that many Republicans moved into the Democratic column to cast ballots in the sheriff's race between Rufe Jordan and L. J. Flaherty and the Yarborough-McClendon senatorial contest, the Republican stacked up a total of 1,495 votes. This was an increase of 108 votes over their 1962 Gray county total.

Of the 1,495 GOP votes cast, 1,218, or 82 per cent, went for Goldwater in the Republican preferential primary vote in the county.

Henry Cabot Lodge was second with 48 votes. Nelson Rockefeller got 42, Richard Nixon 37, Margaret Chase Smith 27, Harold Stassen 24, Gov. Scranton of Pennsylvania 2 and Gov. Wallace of Mississippi, 1.

Pampa's Bob Price literally swamped his Parmer County opponent, Frank Hinkson, in the race for nomination as GOP representative from the 18th Congressional District. The Gray county vote was Price 1,383 and Hinkson 75.

In the other contest on the Republican ticket, George Bush of Harris County led the field for United States senator with 936 votes in Gray County. Jack Cox of Harris County was runner-up with 257 votes. Robert Morris of Dallas was third with 236 and Dr. Milton V. Davis of Dallas was fourth with 66 votes.

In the uncontested Republican state offices the Gray County vote was as follows:

For Governor—Jack Crichton of Dallas County, 1,470.
For Lieutenant Governor—Hercule Houston of Dallas County, 1,455.
For Attorney General—John Truce of McLennon County, 1,461.

For Place 1 Associate Justice U. S. Supreme Court—T. E. Kenney of Harris County, 1,473.
For Railroad Commissioner (Unexpired Term)—Dallas Calmes Jr., 1,476.

For State Treasurer—Fred S. Neumann of Jefferson County, 1,475.
For Land Commissioner—John A. Matthews of Taylor County, 1,476.

For Agriculture Commissioner—John B. Armstrong of Kieberg County, 1,485.
Clayton Husted was re-elected chairman of the Gray County Republican executive committee. He received 1,395 votes. There were 65 write-in votes for Dr. S. B. Syper.

Bill Watson was elected precinct chairman in Pct. 2, Glen Ritter in Pct. 3, L. E. Glass in Pct. 4, Homer Powell in Pct. 6, John Osborne in Pct. 7, Mrs. W. D. Price Jr. in Pct. 8, Charles Norton in Pct. 9, John S. Skelly in Pct. 10, Cleone Stone in Pct. 11, Ray Hudson in Pct. 12, and W. C. Epperson in Pct. 13.

County Chairman Husted said precinct chairman for Precincts 1 and 5 would be appointed later.

Yarborough and Connally Win; Jordan Sweeps Gray

Pool in Solid Spot For Congress Seat

DALLAS (UPI)—Gov. John Connally led a slate of incumbents to re-election victories tonight and Sen. Ralph Yarborough won the Democratic primary fight for renomination to a second full term in the U.S. Senate.

Gov. Connally, a conservative, who was wounded by the assassin who shot President Kennedy, left liberal Don Yarborough, no relation to the senator, far behind. Connally piled up an almost 3-to-1 lead.

Incumbent Joe Pool attorney-businessman-farmer of Madison county took a big early lead and appeared to be running ahead of the total of his four opponents for the congressman-at-large seat.

Gray County Vote

Sheriff Rufe Jordan was returned to that office as Gray County voters went to the polls to hand Gov. John Connally heavy support and almost split in the nomination of a Democratic senator.

Jordan retained the office of sheriff for the third time since the post became a four-year term by defeating L. J. Flaherty, former Pampa policeman, by a wide margin.

Jordan posted 2154 votes while Flaherty's total was 1006 with all of the county's 13 boxes reporting. The sheriff carried every box, most of them by good margins, in his return to the office he has held since 1951.

The re-election of Jordan was the only contested race in the Democratic primary, but interest in the election of a governor, lieutenant governor, U.S. Senator and U.S. Representative-at-large ran high.

Gray County Democrats showed they supported Gov. John Connally as they cast a total of 1,832 votes for the incumbent.

The Gray County vote went along with a general trend across the state that had most observers picking Connally to win without a runoff against any of the three other candidates for the post.

Walter Rogers, U.S. Representative from the 18th District, was nominated to face GOP Robert Price of Pampa in the general election as he received 3,097 votes of the total Democratic vote of 3,239. Observers had expected a turnout of from 4,500 to 5,800 votes in the election.

Don Yarborough, Harris County hopeful for Governor, ran second to Connally, but was trailing him almost two to one in the voting. He polled 992 votes.

M. T. Banks and Mrs. Johnnie Mae Hackworth had a total of 64 together, hardly enough to be considered a threat to defeating Connally in the county.

But it was a different story in the race for the Democratic nomination for U.S. Senator as incumbent Ralph Yarborough battled right down to the wire before the county figures determined who led in the area.

Yarborough posted a total of 1,742 votes to edge out McLendon, who totaled 1,348 votes. Yarborough had a lead of 1,435 to 1,184 with 12 boxes and the absentee box counted at 10 p.m. The large Mann School box was the last to be reported at the county clerk's office and as-

Tornado Damage In Temple Set At \$1 Million

TEMPLE, Tex. (UPI)—A total damage estimate of \$1 million was set Saturday by insurance adjusters following Friday's tornado.

Texas Power & Light said their damage could exceed \$100,000. Adjusters say that the insured loss will run \$400,000 and that the uninsured loss will double that.

Everything is back to normal except for the huge cleanup job that faces the city. Crews are being brought in from all over the state.

COMMANDING LEAD — Pampa rancher Bob Price, who is seeking the Republican nomination for U.S. Representative of the 18th Congressional District, visited the Pampa Junior high school polls with his family early Saturday. Price swept a commanding lead of nearly three to one over his opponent, Frank Hinkson of Parmer County. Bob and his wife, Marty, dropped their ballots in the locked ballot box and explained election procedure to their children who from left are Carl, 3; Grant, 8, and Janice Ann, 4.

BALLPARK ACCIDENT INJURES 45

Girl Killed on Escalator

BALTIMORE, Md. (UPI)—A 14-year-old girl was killed and 45 other children injured Saturday when they jammed aboard a ballpark escalator that was barricaded at the top.

Melville Gibson, 65-year-old usher at Baltimore Memorial Stadium, said he tried vainly to warn the children and other guards at the left field stands.

The children were at the ballpark for the Baltimore-Cleveland game as school safety patrol guests.

Thousands of the children, all teen-agers, were rushing to the left field stands. Attendants decided to open the escalator to the second deck, and the shouting children brushed past them.

"The platform at the top of escalator was barricaded," Gibson said. "I tried to yell down to the guards below to tell the kids to stop getting on, but it was too late. It looked like a cattle stampede. The kids began to panic."

Police said the children jammed themselves on the escalator four and five abreast. Those at the top fell back on the crush. She was dead on arrival at St. Joseph's Hospital.

Clean Up Campaign To Start Tomorrow

(See Photo on Page 26) Pickup trucks will begin moving through Ward 1 tomorrow morning in the first phase of Pampa's annual Clean Up-PAINT-UP-FIX-UP campaign which will run through the month of May.

The clean up drive is a cooperative effort by the city, Chamber of Commerce and Junior Chamber of Commerce.

The clean up trucks will be in Ward 1, the area north of Rham and W. Foster Sts. and east of N. Cuyler and Mary Ellen Sts. Monday, Tuesday, Wednesday and Thursday. They will move into Ward 2 on Friday, May 8; into Ward 3 on Thursday, May 14, and into Ward 4 on Wednesday, May 20. There will be four final one-day re-runs in each ward May 26 through May 29.

James Gallamore, chairman of the Chamber of Commerce fire prevention and safety committee, is general chairman of the clean up campaign.

Gallamore said Saturday the cooperation of residents is needed in piling trash where it can be easily picked up by trucks

moving through alleys of the city. Jaycees were operating sound trucks in Ward 1 yesterday to advise citizens of the collections starting there Monday. The sound trucks will continue their assistance during each day of the campaign.

To aid Pampans, the Evening Lions Club is selling trash barrels, painted and delivered for \$2.50. Orders for the 55-gallon oil drum containers can be telephoned to MO 9-9851 daily before 5 p.m. and to MO 9-9468 after 5 p.m.

Vote Results Over State

Ku Klux Klan Holds Parade In Florida

JACKSONVILLE, Fla. (UPI)—Robed and rebel-yelling Ku Klux Klansmen paraded in the rain in Jacksonville Saturday and there was renewed racial picketing in Nashville, Tenn.

At Chester, Pa., an integration leader called off a protest against alleged de facto school segregation because of interference by "outsiders," and in Washington senators completed eight weeks of debate on the House-approved civil rights bill.

In other developments, a Negro civil rights attorney, Donald L. Hollowell, and Ku Klux Klan Grand Dragon Calvin Craig qualified in Atlanta as candidates in Georgia's Democratic primary Sept. 9.

Pampa Band Wins Honors In Oklahoma

(See Photos on Page 4) ENID, Okla. (Sp.) — Pampa High's Harvester band walked off with the outstanding band honors Saturday in the million dollar Parade of Bands and took first place in the Class AA division of the 32nd annual Tri-State Music Festival.

The band, led by Drum Major Gary Laramore, was judged tops in the big band division as a total of 108 bands rolled down the streets of the city before some 55,000 people and a five-state television network hook-up.

The band also won first place in the trombone quartet division and the Harvester brass sextet took first in their group performance.

Festival officials said the Pampa school also had the best individual twirler but could not name the girl since the Pampa group left the Phillips University Tri-State Music Festival concert early before announcement of winners could be made.

The Pampa band is to return home today from the four-day event that saw Amarillo Tascosa take the sweepstakes honors for all bands.

New Rules In Effect on TV Manufacture

WASHINGTON (UPI) — would encourage the building of more commercial television stations and, at the same time, be a boon to development of non-commercial educational television service.

An FCC spokesman said it probably would be months or even years before the effect of the new law will be felt by most home viewers.

It will take that long for many persons to decide to trade the sets they now own and, in some areas, it may be that long before UHF reception is available.

There now are only about 100 UHF stations in the country although the channels have been available for a decade.

BECOME HONORARY CITIZENS — Mr. and Mrs. Antonio Carrillo, who are visiting in Pampa while Carrillo works with the Celanese Corporation, open a surprise package during ceremonies that made the two Mexico City residents honorary citizens of the Top O' Texas area. Carrillo is the son of the Mexican ambassador to the United States, Antonio Carrillo Flores, and is a graduate of Cornell University.

Son of Mexican Envoy Finds Top O' Texas 'Nice'

Son of one of Mexico's leading governmental figures finds that Texans on the whole have more civic pride than most Latin Americans and the Top O' Texas area is "the nicest place" in the Southwest.

Antonio Carrillo, son of Mexico's ambassador to the United States, Antonio Carrillo Flores, has spent the last four weeks finding out about the friendly spirit and progressive approach that is one of the leading factors in the Texas Panhandle.

Young Carrillo, who came to Pampa shortly after being married, has spent this time at the Celanese plant operations here, observing the latest methods in chemical engineering.

"This has been my longest stay in Texas, although I have met a large number of fine people around the Kingsville area," Carrillo declared this weekend after being made an honorary citizen of the Top O' Texas area.

"The people here have been the kindest, most helpful of any group of business aides I have dealt with in recent years. I will never forget them," he said.

Turning to a broader scope of events, Carrillo said he felt the average Mexican held a deep respect for the United States and was loyal to the "big nation to the north."

"The differences between the two nations are so small nowadays that it is immaterial," Carrillo declared. "I know that the people of Mexico were stunned when President Kennedy was slain, but they like the informal methods of President Johnson, although the government has not dealt with him long enough to determine just what is what in policy."

Carrillo described watching Kennedy's last visit to Mexico City and the throngs of people who lined the street to see the president and his wife.

"It was tremendous," Carrillo said. "I feel certain that the estimates of 100,000 people at the church services during Kennedy's visit were close to correct."

Carrillo was introduced Thursday night when he and his bride were presented with certificates of citizenship to the Top O' Texas during ceremonies marking the completion of the Form O-Uth building.

The young Mexican is working as a chemical engineer for the Quimica General company of Mexico City. He plans to return to that firm after his business in Pampa is completed to share the information he has acquired

here about the chemical industry. "I will be making a number of trips back to Pampa, I'm sure after this one. I hope to come back at least once a year," he said.

Carrillo said he and his wife would make a trip this weekend to Santa Fe and Taos, N.M., to see the art centers there and visit the old New Mexico capital. He finds that of the cities in the United States he has visited, Washington and San Francisco are the most impressive.

"Washington is a beautiful city and is full of friendly people despite the fact they are mostly governmental workers and are busy," he said. "I have had no trouble, however, making

friends with Americans."

Carrillo is a graduate of Cornell University and has lived in the United States off and on since 1948 when he attended a military school as a young boy.

He finds that while many sections of the United States' dealings with other countries fail to please a large portion of the Latin American population, the willingness of American industry to share knowledge with other nations is a tremendous boon.

"It is a fine good will policy to have and it has been shared with us to the utmost," he said.

Carrillo said he would always tell his friends in Mexico City that they can "hang their hats on the Top O' Texas and be friends."

Center Wrap-Up

George Smith, Director
Pampa Youth and Community Center

Because of the short time in which enrollment for the various tournaments was allowed, there will be a one week extension. This will place the deadline for all tournament entries on May 8. The boys eight ball doubles and boys ping pong doubles tournaments will start May 11 and run through May 16. The girls singles ping pong tournament will also run May 11-16. The boys shuffleboard and girls eight ball tournament will be on May 16-17. Any student may enter all of these tournaments according to sex. You do not have to be a member of the center but may pay the building fee.

The summer red cross swim lessons have been assigned and finalized and will be as follows: June 15-26 at 9 a.m. polywg, advanced beginner and intermediates. At 10 a.m. beginner, advanced beginner and swimmer will be offered. June 29-July 10 at 9 a.m. polywg, advanced beginner and swimmer while at 10 a.m. beginner, advanced beginner and intermediate will be held. On July 13-24 at 9 a.m. polywg, intermediate and advanced beginner and finally at 10 a.m. beginner, advanced beginner and swimmer will be held.

Enrollment for all these classes will be May 18 from 2-5 p.m. with a follow-up enrollment May 25 from 2-4 p.m. Parents are urged to enroll their children on May 18 for these classes fill in a hurry. A \$1 registration fee will be charged for each class per person. There is no other charge. If a child passes one course in one session, they may enroll in the next class providing there are vacancies.

After all these preliminary swim courses are finished, the Center will offer one big class for all persons desiring junior and senior Life Saving from August 3-14. Parents are invited to enroll their children at the Center for it makes no difference which pool they took lessons from last year. The Center pool is inside away from the cool morning breeze.

The center will finish up beginner and advanced beginner

this week and will offer intermediates and swimmer lessons starting May 11. Intermediates will meet from 4-5 p.m. and swimmer from 5-6 p.m. Enrollment for these classes will be on May 7-8 from 4-6 p.m. Only 20 will be enrolled in each course. Then on May 21-22 enrollment will be held for polywogs and beginners. These courses will run May 25-June 5. Polywogs will be at 4 p.m. and beginners at 5 p.m.

The volleyball leagues finished their fifth week of competition with the top clubs battling each other. On Friday night Fina (3-1) and Hi-Land Drive In (4-0) were playing in men's action last Friday Hi-Land took Cabot (3-2) 151 and 15-5; while Fina beat Southwell Supply (0-4) 15-0 and 15-1. Thursday night saw Skelly Spikers (41) over Panhandle Packing (1-4) 15-5 and 16-14; Cabot over Celanese (1-4) 15-0 and 15-10 while White Deer won by forfeit over Western Auto 15-0 and 15-0.

In the women's league the Hi-Land Lassies (5-0) and Surplus City (4-1) kept pace. Hi Land trounced Dairy Queen (0-5) 15-0 and 15-1; Surplus City took the Jaycee Ettes (2-3) 15-10 and 15-0 while Eloise Beauty Shop (2-3) won over Ogden and Son (2-3) 15-9 and 15-11.

School classes are also reminded they may rent the Center pool or recreation hall for their end of the year home room parties. Time must be arranged by calling George Smith at the Center. Time available is 2-4 p.m. Monday, Wednesday and Thursday.

ST. LOUIS, Mo. (UPI) — A carnival employee jumped into a giant Goodwill Industries gift box Thursday to avoid police who wanted to question him about weapons found in his car.

Authorities said they would charge Bryant Judd, 34, with "breaking and entering the Goodwill box."

HARVESTER BAND AT ENID — Pampa high school's Hustling Harvester band checks in, photo left, as drum major Gary Laramo reports the band's presence to Cheryl Moxley, one of the Tri-State Music Festival officials in Enid, Okla., prior to marching in the judging contest at Plainsman Field. In the photo at right, Donna Conner, one of the band's twirlers, is checked for temperature and pulse by Mrs. Moxley before heading into marching program. The Pampa band is one of 105 bands participating in the 32nd annual Tri-State Music Festival that drew a record turnout of 12,227 bandmen from five states.

Construction Drops For Month of March

AUSTIN (UPI)—Sluggish non-residential construction caused a 2 per cent drop in the index of total construction in Texas for March, the University of Texas business research bureau said Saturday.

Authorizations in March were 8 per cent below the previous year's level.

Residential construction was up 10 per cent over February and 4 per cent over March 1963. Most of the increase, however, was due to two big apartment projects in Houston and was not enough to offset the non-residential drop.

For the first quarter, residential construction was up 4.8 per cent over the first quarter of 1963, due largely to apartment construction.

Nonresidential construction for the quarter was down 8.3 per cent from the first three months last year and 3.3 per cent below the 1962 first quarter.

Total construction, including both categories, was down 3 per cent from 1963 but 4.4 per cent higher than in 1962.

Apartment construction, particularly in Houston, El Paso and Fort Worth, showed improvement in the first quarter.

Value of new apartments was up 17 per cent from the 1963 figure.

Total March construction authorizations were valued at \$144 million compared with \$128 million in February. For the quarter, authorizations totaled \$405 million compared with \$416 million in 1963.

Austin continued to lead the state in per capital expenditure for construction, with \$101. Houston spent \$93 per person in the first three months, Dallas \$70, El Paso \$41, Fort Worth \$36 and San Antonio \$30.

FIVE STUDENTS KILLED — OPORTO, Portugal (UPI)—Five students were killed and about 20 others injured Saturday when a bus swerved off the road leading from Lamego to Regua and crashed on a river embankment.

NETWORK BIRTHDAY — WASHINGTON (UPI)—Saturday was the 150 anniversary of the United States weather observing network, comprising more than 13,000 stations which keep climatological records.

Wildcatters List 25 Completions

AUSTIN (UPI)—Texas wildcatters had 10 oil and 15 gas completions last week, the State Railroad Commission reported Saturday.

The activity gave the wildcatters 134 oil and 298 gas discoveries so far this year compared with 127 oil and 229 gas finds in the same period in 1963.

Regular drillers completed 202 oil and 45 gas wells last week, bringing their annual totals to 3,031 oil and 966 gas wells this year compared with 3,056 oil and 841 gas wells last year.

Oil discoveries were four in the Corpus Christi district, three in the Wichita Falls district and one each in the Houston, Kilgore and Abilene districts.

Gas finds were six in the Houston district, three each in the Corpus Christi and Abilene districts, and one each in the San Antonio, Kilgore and Pampa districts.

The average calendar day allowable was 2,899,920 barrels. The commission said 208,853 wells were producing from 8,132 fields.

Corkwood trees in the Lower Brazos Valley furnish the lightest native wood in the United States.

TOUR CAMPUS—Miss Helen Moffitt and Miss Jane Heaton, Pampa High School students, were among a group of select high school students who were guests recently at Lindenwood College, St. Charles, Mo. Seniors came from 23 states to tour the campus, meet professors, and experience "life on campus" during the weekend. Shown at the All School Carnival with Miss Ann Quarterman (right) a freshman at the college, from Amarillo, are from the left, Miss Moffitt is the daughter of Mr. and Mrs. Walter S. Moffitt, 815 N. West, Miss Jane Heaton is the daughter of Mr. and Mrs. Lee Heaton, 2246 Williston and Miss Quarterman is the daughter of the Right Rev. and Mrs. Geo. H. Quarterman of Amarillo.

UT Program to Be at Usual Site

AUSTIN (UPI)—W. W. Heath, chairman of the University of Texas regents, Saturday rejected student pleas and ruled that the University's May 30 commencement exercises will be held on the south mall of the main campus, the traditional site.

President Johnson is scheduled to deliver the commencement address, and students and some faculty members had urged the regents to move the ceremonies to Memorial stadium, which seats about 70,000. The capacity of the south mall is 12,500.

Heath said "a survey of the ticket requests to date indicates that the expanded seating arrangement will permit all reasonable requests of the graduates, faculty and staff to be met."

Wall Street In Review

NEW YORK (UPI)—Stanley Heller & Co. looks for the stock market shortly to recover from its weakness and resume its rise with "new highs being reached perhaps by early summer."

The brokerage house says the market drop "appears to be proceeding too rapidly and a temporarily oversold condition could develop shortly." It suggests that investors use the current reaction to buy rather than sell "well situated" issues.

Richard T. Leahy of J. W. Sparks & Co. reasons that unless the market stabilizes quickly it could undergo a "correction of far greater proportion" than has been the case to date. A drop in the Dow Jones average below the 810 level, Leahy says, could preface a possible further decline to the 785-790 range.

Reynolds & Co. says investor policy at this time need not change much. "The primary uptrend is still very much intact and we are not yet convinced that an intermediate reaction will take place," Reynolds comments. "While we would avoid being overextended at this, or any other time, we see little reason for liquidating well chosen positions solely because of a broken trend line."

NEW YORK (UPI)—Annlyst Elliot Janeway feels the current selloff is a healthy sign, particularly since it has been led by the rails, the "strongest single new group candidate for investment leadership."

Janeway considers the fact the "smart money" has turned bearish on the short term a bullish indicator and feels it is a portent of a breakthrough to new highs.

Goodbody & Co. feels that, barring any unexpected adverse development, the current reaction should end this week and the primary uptrend resumed. The firm says that the current state and prospects of the economy being what they are, "it is difficult to maintain a bearish position."

R. E. Buchsbaum of W. E. Hutton & Co. says the market reaction so far has been little more than an interruption and has not gone nearly far enough to be regarded as a correction.

Senate Ends Debate On Civil Rights Bill

WASHINGTON (UPI)—The Senate completed eight weeks of debate Saturday on the House-approved civil rights bill with both backers and opponents aiming for the first vote Wednesday on a jury-trial amendment.

Each side tried to line up allies for the showdown next week as Sen. Paul H. Douglas, D-Ill., warned that any major Senate changes in the measure could threaten its eventual passage.

The Senate, with most members already gone for the day, recessed at 2:37 p.m. EDT, until Monday. The four hour and 37 minute meeting was the shortest in the rights struggle since Saturday, April 4, when the Senate could not muster a quorum of members and recessed after only 40 minutes.

The agreement for a roll call next week lessened tensions.

However, he points out that once a strong trend is broken, it is difficult to regain momentum.

Thompson & McKinnon says that with so much of the positive business news seemingly discounted by investors it would be a mistake not to point out that "the change in pattern could mark the beginning of a technical correction of some depth." At best, the brokerage house says, we have entered a period when special situations and selected medium-priced issues are likely to outperform low-yielding, blue-ribbon stocks.

during the Senate's seventh Saturday session since the two-month-old talkathon began.

Douglas said the Republican and Democratic leaders who are backing the bill should think twice before amending the controversial bill without iron-clad assurances that the House will accept the revised legislation.

If that is not done, he warned the amended measure might be bottled up in the House Rules Committee and trigger a second filibuster in the Senate on a Senate-House conference report resolving the differences.

Douglas referred to a leadership-backed substitute for an amendment to the bill introduced by Sen. Herman E. Talmadge, D-Ga., that would guarantee jury trials to persons accused of criminal contempt of court for violations of civil rights law.

Southern opponents of the bill are backing Talmadge's proposal and hoped to recruit more Republican support for the amendment before the vote starts.

Senate leaders, with the concurrence of Southern bloc chief strategist Sen. Richard B. Russell, D-Ga., announced they plan to begin voting on the jury trial issue Wednesday.

The issue is important because the proposed bill would combat discrimination through federal court orders. Violators would be subject to contempt-of-court procedures that do not now provide for jury trials.

Senate leaders favor an amendment to guarantee a trial by jury in all cases where the penalty would be more than 30 days in jail or \$300 fine.

DANCING TO SILENCE—Music doesn't always have to be the prime ingredient for dancing. These students at the Pennsylvania School for the Deaf, Philadelphia, catch a rhythm by watching their teacher, Sandrasue Kinney (blonde in print dress), a graduate in modern dancing of Illinois State Normal University. The girls can hear only a few traces of music.

Agriculturally Speaking

By FOSTER WHALEY
County Agricultural Agent
Dr. Robert Berry, area plant pathologist, Extension Service, Lubbock, made an inspection tour of the county on Friday.
On the Bill Stockstill place he found one field that had a heavy population of brown wheat mites. The field also showed heavy damage from wheat streak mosaic. This field had been damaged earlier by cutworms. It was sprayed with Parathion. An excellent job was done, on killing the cutworms but the brown wheat mites have come back in larger numbers than ever. Bill plans to graze the field out. You can't win for losing in this farming business.

This place was also checked. Brown wheat mites were present but only slight evidence of wheat streak mosaic disease. The Jinks Shaw place was observed and very little evidence of either plant disease or insect damage.
No damage at all was observed on the Roy Tinsley place. The Tinsley and Shaw places are irrigated. Late planting and a disc plow is the best way to handle the wheat streak mosaic problem. The best way to handle the brown wheat mite is to pray for rain. They are a dry weather pest. Rain will put them out of business.

4-H Activities

Stephen Maddox, Gray County 4-H boy has been nominated to make a 4-H trip (along with 29 other 4-H boys and girls over the state) to Europe in June. Watch for a complete story on this later.

Wheat Programs

267 farmers have signed an intention to participate in the new recently passed wheat program for 1964-65, according to Evelyn Mason, Mgr., A.S.C. office, Pampa.

We have helped a large number of farmers by explaining many of the provisions. It is rather complicated. Therefore I would suggest you thoroughly familiarize yourself with the program before signing for any specific amount.

We helped several people that have farms in other counties. In one case a farmer called the ASC office at Miami and changed his intention on the basis of a few points we cleared up for him. It is not our intent to be the judge of the merits of the program. Nor do we care to take the responsibility of making a decision for a farmer regarding what he should do. We do have an educational responsibility in regard to explaining the program. If we can help you, call on us. Final sign up date is May 15.

Grass Seeding

Several farmers and ranchers are making use of the 4-H club boys grass drill. Clyde Organ, Gordon Taylor, State Highway Department, Geo. Quible and Elmer Balch to name a few. The 4-H boys get a very nominal fee of 50 cents per acre. Should you need it, contact our office.

District Carry-All

Elmer Balch recently used the Soil District's Carry-All. He thought it was the keener piece of dirt moving equipment available for small dirt moving chores about the farm. Robert Shores recently used the machine and he too was highly pleased.

Bermuda Grass

It's still too early and cool to plant common Bermuda in your lawn. Wait at least 2 more weeks. It will come up faster and get off to a better start. It's a good time to apply 16-20-0 fertilizer to all your lawns, shrubs and what have you. If you have a special problem send off a soil sample for test.

Location Picked For Water Well

Location for an irrigation well was staked for Lloyd Barrett on his farm southwest of Pampa. Raymond Barrett has completed an irrigation well on the farm he operates southwest of Pampa. Row direction for irrigation was staked for Alvin Reeves on his farm south of Pampa. Alvin has just completed his irrigation well.

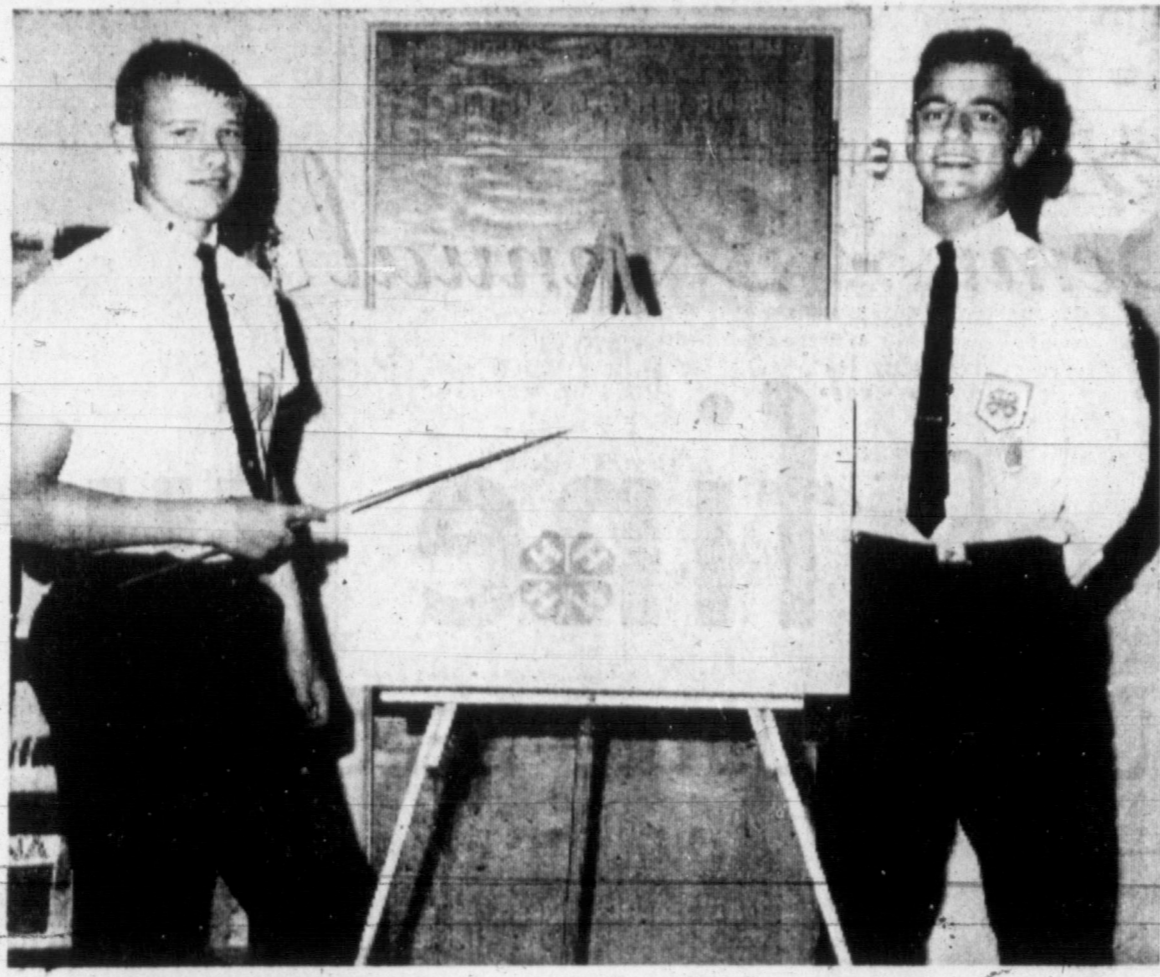

Two diversion terraces were completed for Olin Weldon on his place southwest of McLeah. These diversions were constructed on eroded cropland that is being seeded back to grass. These diversions will prevent further erosion while the grass is being established.

A farm pond was staked on B. J. Shaw place west of McLeah. Farm ponds are constructed to get better distribution of grazing. Sometimes cattle will overgraze parts of a pasture close to water and not graze other parts of the pasture further away from water. Sometimes distribution of grazing can be accomplished by placing salt in the ungrazed areas. Cows will go to salt just the same as they will go to water. Cross fencing is another way to get better distribution of grazing.

Harvey Taylor has just completed the ranch ponds on his ranch north of Alanreed. A diversion terrace was staked on the Gertrude Wood farm west of McLeah. This diversion terrace will help to protect a county road from further erosion, and stop gully erosion in the pasture where it is being constructed. Ten acres of land was leveled on the Duncan farm just north of Pampa.

This leveling will be a system of graded borders. The borders are level from side to side. This will allow for even distribution of water which will result in a more uniform crop. These graded borders will be sowed to alfalfa. This farm is operated by C. S. West.

If U. S. wheat exports continue at current levels, total for the fiscal year is expected to reach 850 million bushels compared with 638 million last year.

WINNING DEMONSTRATION — Lee Pulse, left, points with a ruler to part of his demonstration on beef cattle while partner Jim Craig watches. The two youths were winners last week at the District 4-H eliminations along with Bill Skaggs and Stephen Maddox, who presented a demonstration on field crops. The Gray County 4-Hers took six firsts and a number of individual honors at the Canyon meet.

Gray County Provided Plan For Wheat Help

Recent legislative action provided a voluntary wheat program for Gray County wheat producers. A county average price support of \$1.26 per bushel has been provided for those who participate in the program. In addition, two kinds of certificates will be issued, domestic market certificates with a face value of 70 cents a bushel and export certificates with a value of 25 cents a bushel.

In order to be eligible for price support and certificates, County Agent Foster Whaley reminds the producer that he must do the following things:
Sign an agreement by May 15.

Plant within his 1964 allotment. (He may destroy wheat on excess acreage).

Carry out conserving practices on an acreage equal to at least 11.11 percent of his 1964 allotment. (This is not subtracted from the 1964 allotment).

Comply with all other acreage allotment crops on the participating farm and the wheat allotment on other farms in which he has an interest. (Feed grain base is not considered as allotment crop).

A farmer will be eligible for certificates on the basis of planted acreage within the farm wheat acreage allotment. Any acreage for which diversion payments are made will not be eligible for certificates. If less than the total marketing allotment (wheat for which certificates may be issued) is earned, the reduction will first be made in export certificates.

In addition to marketing certificates, participating farmers will be eligible for price support loans on all wheat produced and payments for diverting land to conservation use.

A farmer who participates in the program may produce more bushels of wheat than his marketing allocation or the amount for which he receives marketing certificates. Although the farmer will not receive certificates for his wheat, it is eligible for price support loan at the \$1.25 rate.

Crop damage by weather or other unavoidable hazard will not affect eligibility certificates. Certificates will be issued if the acreage planted for harvest produces only part of a crop or no crop at all.

Whaley suggests that wheat producers check with the county ASC or Extension office for more details about the program.

Perryton Girl Named For 4-H Scholarship

Winners of three \$500 scholarships awarded annually by the Texas Home Demonstration Association have been announced by Floyd Lynch, state 4-H Club leader.

Ann Williams of Angleton, Kathy Ann Rogers of Nacogdoches and Judith Reimer of Perryton have been selected from 11 district nominees. Suzanne Orr of Abilene has been named first alternate.

The winners have been active in school, community, church and county activities. They have extended their leadership abilities by taking part in district and state 4-H Council activities. Records and accomplishments in 4-H activities, and projects in leadership and personal development were considered in determining winners.

Miss Williams, winner of the Maggie W. Barry Scholarship, is the daughter of Mr. and Mrs. G. W. Williams. Now a freshman at Sam Houston State Teachers College, she is a veteran of 10 years in 4-H work, and was one of six 4-H members of the United States chosen to present a "report to the nation" during the National 4-H Conference in Washington, D.C., April 18-24. Ann's report was scheduled for April 21 at the White House.

Miss Rogers, daughter of Mr. and Mrs. M. E. Rogers, has been in 4-H work seven years. She is a senior at Nacogdoches High School and plans to attend college and major in home economics. Principal demonstrations in her 4-H program include foods and nutrition, clothing, and leadership. Kathy's award is the Helen H. Swift Scholarship.

Winner of the Bonnie Cox Scholarship is Miss Reimer, daughter of Mr. and Mrs. Harry Reimer. Her outstanding 4-H demonstrations include clothing, food preparation, dress revue, money management, electric, and dairy foods.

Prevent rancidity of fat-rich foods by rapid use and protection from heat and long storage.

Wheat Program Opens With Deadline in May

The sign up for the 1964 voluntary wheat program is now underway at the ASCS County Office. Interested growers are urged to file their application as soon as possible, since the final date to sign up is May 15.

Those wheat producers who sign up by the final date and do participate in the program will be eligible for diversion payments, marketing certificates on most of their wheat production and price support loans on all their 1964 wheat crop. Producers who do not sign up will receive no diversion payment, no certificates, but they will be eligible for price support loans if they do not exceed their 1964 wheat allotment.

The diversion payment under the voluntary wheat program will be made for planting within the acreage allotment and putting to conserving use an acreage at least equal to that percentage of the allotment that was removed before the 1964 allotment was sent to the producer. Producers must not exceed their wheat allotment on any other farm in order to participate in this program.

The payments will be based on 20 per cent of the county price support loan rate times the farm normal yield.

As in previous years, all the wheat produced on a participating farm will be eligible for price support loans based on a national average of \$1.30 per bushel. (This rate for Gray County is \$1.26 per bushel). This

Trade relations among the Americans were greatly strengthened by favorable economic growth in the 10 years following World War II, spurring demands for U. S. agricultural products. Our agricultural exports to Latin American countries increased from the 1935-39 average of \$46 million to a \$148 million average for 1960-64. Last year's exports were valued at \$485 million, a third of this was under Food for Peace.

Milk and milk products, dark green and deep yellow vegetables and citrus fruits are foods most often neglected in a diet. The U. S. Department of Agriculture suggests that family menu planners include these foods in the daily diet.

is about 4 cents per bushel higher than the loan rate would have been without the new program. In addition, marketing certificates, with a cash value of 70 cents per bushel for domestic and 25 cents for export, will be available for 90 per cent of the normal production of the farm allotment — but not more than the normal production of the allotment acres actually planted for harvest.

Wheat growers are reminded that the farm wheat allotment and farm normal yield to be used under the 1964 voluntary

wheat program are those issued prior to the marketing quota referendum held in May of last year.

It is suggested that wheat growers who have questions about the voluntary new wheat program get in touch with the ASCS County Office so that they may complete their production plans well in advance of the May 15 deadline for the program sign up.

It is urgent that all producers understand that the final date is May 15 and that they must sign up to be in the program.

Beef Leading Menu Attraction for Spring

"Flowers that bloom in the spring, tra la" are being joined by an abundance of beef for tasty menu attractions.

Beef heads the list of May plentiful foods, reports the Texas Agricultural Extension Service.

The five-item list also points to huge supplies of turkey, canned ripe olives, salad oil, milk and all dairy foods.

All cuts and grades of beef will be plentiful all month, as the cattle inventory on farms stands at the peak of a six-year buildup. Beef output the first two months of this year was 9 per cent higher than a year earlier.

So watch for special values in beef as retailers provide attractive displays and prices. May will be an excellent time to serve beef often and generously. The Service suggests starting

the outdoor barbecue season with beef.

Spring salads will be enhanced by generous use of salad oils, dressings and canned ripe olives. Supplies are huge.

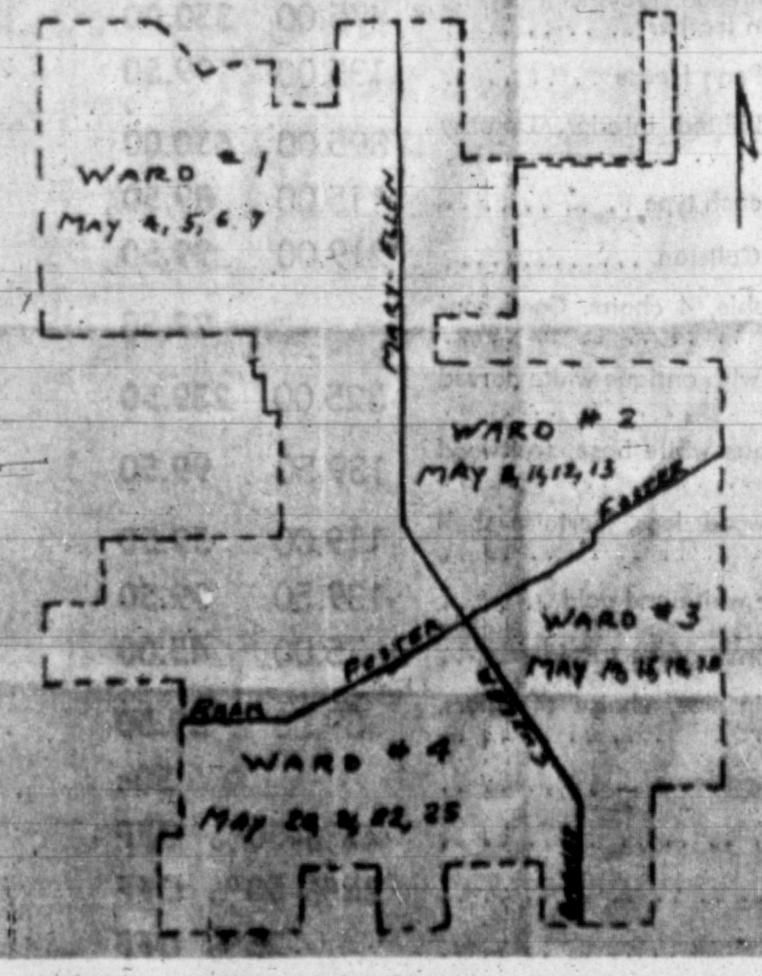

Count on turkeys, too, to provide the light touch to spring days. Marketings in May will run about one-fourth greater than a year ago. March storage holdings were up 12 million pounds.

Milk and all the delicious dairy foods will be abundant as production reaches toward its early-summer peak. In January and February, milk output ran slightly higher than a year earlier.

USDA's Agricultural Marketing Service compiles the list of monthly plentiful foods as a guide for consumer buying. Items listed usually are available in a wide choice of quality at attractive prices.

Cattle Growers Face Bleak Price Outlook

By United Press International
The outlook for the cattle grower continues pretty bleak. Steer and heifer prices at Midwest markets, in slipping another run this week, neared a seven-year low.

One-time optimists who claimed last fall, "Things have got to get better," have turned pessimists: "No chance."

A leading cattle buyer said Friday even if prices did take a sudden upturn, it would have to be a substantial one to do the farmer any good.

"I don't look for much improvement this year," Walter L. Bornholdt said. The reasons: Active imports, a steady onslaught of overweight cattle and simply too many animals on hand.

Cattlemen have been promising since the first of the year that the supply of heavies is about to run out any minute now, but the average weight of steers at Chicago this week hit 1206 pounds, only 2 pounds below the record, set earlier this year.

Affiliate 81 is holding a workshop and business meeting at the Modern Beauty Shop, 110 N. Russell, Monday at 7:30 p.m.

Mr. and Mrs. Bobby Stephens,

Art Club Plans First Exhibition

The first public showing of the newly organized Creative Art Club will go on display at 1 p.m. tomorrow in Lovett Memorial Library following quality judging by Dord Fitz, teacher-artist, Amarillo.

Members of the Creative Art Club will host a social hour for the public on May 10 from 2 p.m.-5 p.m. closing the week long show.

Approximately 100 pieces of art done by the 20-member group will be shown. Fitz will present a gold medal award on the outstanding single painting.

Obituaries

O. B. Grant, Funeral services for O. B. (Judge) Grant, 69, will be held at 10 a.m. Monday in the Tascosa Baptist Church with burial in Nocona Cemetery, near Wichita Falls.

Mr. Grant, a former resident of Pampa, died suddenly in Northwest Texas Hospital, in Amarillo at 10 p.m. Thursday. He had lived in Amarillo for 12 years and retired from Texaco, after 42 years of service, four years ago. He had served as head of the district land department for the company for many years.

He is survived by his wife, Mrs. Tommie Stone Grant, 3600 Julian Blvd., Amarillo; three sisters, one brother and two step-daughters, Mrs. John Gik and Mrs. Mike J. Porter, both of Pampa, and a son, Robert Stone of San Francisco.

Charles A. Carmichael, Funeral services for Charles A. Carmichael will be conducted at 2 p.m. today in Granbury, Mr. Carmichael and his wife Mamie, were involved in a car-pickup accident west of Cresson, Tex., yesterday afternoon. Mrs. Carmichael was not seriously injured.

Born Jan. 31, 1894 in Alexander, Erath County, Mr. Carmichael was a farmer-rancher and a member of the Travis Avenue Baptist Church in Fort Worth. He was a member and past master of the Granbury A.F. and AM Lodge and was a veteran of World War I, having served in France with the 36th Division.

Other than his widow, he is survived by two sisters, Mrs. Ruth Reidrich, Oklahoma City and Mrs. Pauline Baker, Amarillo; four brothers, John F., Vernon, Joseph and J. G. Grandbury and Paul H., Pampa.

George P. McCracken, McLEAN (Sp) - Funeral services will be held at 2 p.m. Monday for George Pinkney McCracken, 77, of Alanreed who died Saturday in a Groom hospital following a stroke. McCracken was a retired rancher and had lived in Alanreed since 1894.

Services will be at Alanreed Baptist Church under direction of Lamb Funeral Home of McLean. Burial will be in Citizens Cemetery in Clarendon.

FOURTEEN INJURED

NOBORIBETSU, Japan (UPI) - Fourteen persons were injured Saturday when they jumped from windows after being trapped in a fire in a hotel in this well known hot spring resort. Many of the 800 hotel guests tied bed sheets together and slid to safety.

Johnson Gives Progress Report On Government Economy Drive

WASHINGTON (UPI) - President Johnson Saturday issued a progress report on his government economy drive and prodded all heads of federal agencies to follow his frugality lead in preparing their new budget recommendations.

Reporting on his own economy efforts to date, the Chief Executive disclosed that he plans to halt publication of 141 government advisory documents. Slated to go are publications on such topics as "Building With Logs," and "Chemical Composition of Fluorinated Tobacco."

The President, who also met with his National Security Council, conferred with the cabinet officers and department heads in connection with preparations now underway on the budget that goes to Congress next January. Its preparation is a year-long project.

Johnson told his top aides, "I want you to be from Missouri."

32 Hurt as Train Rams Into Boxcar

MINNEAPOLIS, Minn. (UPI) - A fast-moving passenger train bound from Chicago to the West Coast crashed into a derailed box car Saturday injuring at least 32 persons.

Use of a radio phone by one engineer to another possibly prevented a worse wreck.

Five diesel units and 21 cars on the Great Northern Railway's Western Star left the tracks about 10 miles west of here. Ten freight cars were knocked off the rails.

Freight engineer Gene Wicklund, Willmar, Minn., said the first sign of trouble was the loss of air pressure for braking.

"That indicated there was a derailment behind us in the train," he said. "Knowing that the passenger train was coming from the east, I picked up the radio phone and warned Brown of a possible derailment."

Wicklund referred to William Brown, St. Paul, Minn., the engineer on the Western Star.

"Brown immediately put on his brakes but couldn't stop in time to avoid a collision," a Western Star spokesman said.

"The passenger train probably was going about 50 miles an hour or a little under but the weight made it impossible to stop."

Twenty-seven injured were sped to Methodist Hospital in west suburban St. Louis Park. The hospital said one of them was in serious condition.

Five of the injured were taken to North Memorial Hospital in suburban Robbinsdale.

The passenger train had 65 passengers in coaches and a smaller number in sleeping cars. The freight train, No. 83, was eastbound on another track.

One of the freight cars jumped the track and sprawled across the path of the Western Star in Minnetonka Village several hundred feet west of interstate 494.

After the impact, passenger cars were zig-zagged along the tracks for more than a mile. Passengers were jolted and some slid down the aisles. Some of the injured were lifted on stretchers through windows of the cars. Others were carried out through doors. Rails were torn up and cars were scattered over the double-track road bed.

21 KILLED IN WRECK OF TRAIN IN JAKARTA, JAKARTA, Indonesia (UPI) - Twenty-one persons were killed and 108 injured Thursday in a freak train accident, the official Antara news agency reported Saturday. The engine was derailed and five cars continued nearly two miles before they crashed.

Meredith Indicates Political Interest

WASHINGTON (UPI) - James Meredith, first Negro to graduate from the University of Mississippi, is interested in a U.S. political career after he completes graduate studies in Africa, it was learned Saturday.

Those most familiar with his plans said that he believes he is establishing a political base of support in Washington that would enable him to run for Congress if the federal city gains home rule. He now lives in the District of Columbia.

He is said to believe that home rule might come during the three years that he is getting a doctor's degree in government at the University of Abadan in Nigeria.

Meredith himself declined to clarify his intentions but spoke with fervor about his interest in politics and in using his hard-won education to "help my country... and my own people."

"One of my original ambitions was to run for governor of Mississippi... not to win but to get all Negroes to vote for me," Meredith said.

That was one of three ambitions when he completed nine years of Air Force service in 1955. The others were to get a university degree and "be a man, as contrasted to a Negro man."

Meredith, honored Friday night at a reception by the Nigerian Embassy, plans to leave June 1 for visits to Middle East and African countries before entering the University of Abadan in September.

ORDERS U.S. JETS

WASHINGTON (UPI) - Iberia Airlines of Spain ordered three U.S. supersonic airliners, raising total delivery reservations for the plane to 84.

Incumbents Win Area Vote

In Carson County contested races, incumbent John Nunn won re-election to the sheriff's office over A. J. Atkins, 1,108 to 630, and County Attorney Frank Dove was re-elected over Marshall Sherwood by 1,127 to 628.

Wheeler County incumbent Sheriff Bus-Dorman won by 1,154 over John H. Rushing.

Hemphill County Sheriff Walter Rogers ran second, but entered a runoff election when he polled 341 votes to Jim Cloyd's 431 total in the election in that county. Rogers was running with four opponents.

In the commission race of precinct one Orla Cornutt emerged the victor in a four-way race with 303. Otis Cline was second with 241. Alton Henderson was third with 229 votes and Donald Fuller received 92.

Paul Ramsey won the nomination for commissioner of precinct three with 110 votes. Eddie, his opponent, received 31 votes.

William J. Jackson swept the race for the executive chairman nomination by polling 760 votes to the 239 for Furman Williams.

In Lipscomb County Donald Buchner won the nomination for county attorney with 599 votes compared to his opponent's, B. T. Fitzgugh, 439. Basil Duke, Jr., received 798 votes for sheriff's office and emerged victorious over George H. Pratt who polled 303.

George Bush of Houston ran second to Robert Morris in the Republican senator's race with 23 votes to Morris' 45.

BUYS-HAMNER CO. NEW YORK (UPI) - Harshaw Chemical Co. announced Friday the acquisition of a controlling interest in Hamner Electronics Co., a Pennington, N.J., manufacturer of nuclear research instruments and devices.

Wife of Ex-Pampa Newspaperman Dies

HARLINGEN (Sp) - Mrs. Kathleen (Betty) Juillard, wife of Ralph M. Juillard, general manager of Freedom Newspapers of the Valley, died Saturday morning in Valley Baptist Hospital of a brain tumor. She had been in failing health for several years.

Rosary will be recited at 7 p.m. Sunday in Kreidler - Ashcraft Funeral Home and requiem mass will be said at 9 a.m. Monday in St. Anthony's Catholic Church. Mgr. Victor Ralph will read the mass.

Mrs. Juillard went into a coma Friday afternoon in her home and was taken to the hospital where she died at 4 a.m. She was 47.

Mrs. Juillard was born in Maestown, Pa., and was married to Juillard in Alliance, Ohio, in 1937. Shortly after their marriage they moved to Santa Ana, Calif., where Juillard was advertising director of the Santa Ana Register and Mrs. Juillard was classified advertising manager for a short time.

In 1946, Mr. and Mrs. Juillard moved to Pampa where he was publisher of the Pampa Daily News, and came to Harlingen in January of 1952.

Mrs. Juillard was an active member of St. Anthony's Catholic Church, St. Anthony's Altar Society, St. Anthony's Mothers' Club, the 12-30 club and the B.P.O.E. Does, No. 90.

The body will be shipped to Fort Wayne, Ind., for burial in Lindenwood Cemetery Wednesday or Thursday. Graveside services will be conducted.

Surviving are her husband; one daughter, Miss Judith Joan Juillard, 15; and one sister, Mrs. Ruth Daniels of Canton, Ohio.

Monthly News MAY, 1964 HIGH SCHOOL GRADUATION TIME IS NEAR. If any members of your family are graduating and are uncertain about what their future work will be, may we suggest they investigate the practice of pharmacy? PHARMACY IS AN HONORABLE PROFESSION. It is spiritually rewarding, for we supply medicines and health-aids which prevent, relieve or cure sickness. And, a graduate of a college of pharmacy immediately earns a better than average income. AFTER HIGH SCHOOL; STUDY FIVE YEARS. It takes that time, learning in a college of pharmacy all the needed information to properly compound or dispense safely the potent prescriptions which are helping people live longer lives. YOU CAN GET FINANCIAL HELP. There are many opportunities for students who wish to work in a pharmacy after college hours and during vacations. Worthy applicants can get scholarships or student loans to be repaid after graduation in easy installments. PHARMACISTS OBSERVE A STRICT CODE. One of the Oaths you will take at graduation is, "That I will hold the citizen's health and welfare paramount in all considerations relative to the practice of my profession." New Books on Shelves At Public Library

Non-Fiction
Papa Wore no Halo — by Susan Herring Jefferies; is a story of an Australian-American family born and reared in China at the turn of a century. Missionary narration has a way of making saints of its subjects, and all the saints I ever knew were hard to live with. But Papa wasn't.
Eagle of the Andes — by Carlton Beals; South American Struggles for Independence, most of all Eagle of the Andes is a vivid characterization of the peoples of South America, their ways of life, their institutions, their sufferings, their aspirations. Many of their aspirations have never been realized; many of the same motives are still stirring unrest and rumblings of revolt.
Never Cry Wolf — by Farley Mowat; takes us out of ourselves and into the animal kingdom. It is a captivating book, destined to take its place on the shelf of animal classics.
Aboard and Abroad — By Harvey S. Olson. Complete travel guide to Europe. A must if you are going abroad and a store of information for those who stay at home.

Fiction
Run Me a River — By Janice Giles; this fictional story containing a pleasant blend of steamboat lore from Kentucky's Green River, a hint of history and romance, exciting but bloodless action, and a fine feel of river setting.
Convention — by Knebel and Bailey; is really a very exciting novel, with the thirtieth Republic

can Convention as a background.
I Just Happen to Have Some Pictures — by Willie Snow Ethridge; every grandparent will recognize his and her own pride and joy, and join in the tumultuous delight of one of the most bewitching family groups ever to come tumbling from an album.
Kiwanians Mark Goodwill Week
The Pampa Kiwanis Club marked U.S.-Canada Goodwill Week Friday with a travelog film depicting the Calgary, Alberta, area, Banff and Lake Louise.
Warren Hasse, chairman of the club's international relations committee, was in charge of the program.
Pampa club members will shower the Calgary Kiwanis Club with postcard scenes of Pampa and the Panhandle area to show appreciation for the program which was shipped to Pampa by the Canadian club.

JUST A DREAM
RICHLAND HILLS, Tex. (UPI) — Police responded promptly when a frantic woman called to report that a prowler was trying to break in to her house.
When they arrived, the officers found only an embarrassed housewife who said she had called during a frightening nightmare.

Plainsmen Pop Pampa High 6-3

By JEFF COHANE
Pampa News Sports Editor

The Monterey Plainsmen broke through in the top of the eighth inning for a three-run barrage to maintain their share of the district 3-AAAA lead and crush the Pampa Harvesters' last hopes, 6-3 yesterday.

The game started out as a slugfest, with both teams belting the ball hot and heavy for the first two innings, but then settled down to a mound duel, with sophomore Tommy Toombs holding the Harvesters hitless for the last six innings. Little Jerry Garrison again gave it everything he had, and was in hot water throughout the game, until the final break-through. The stubby "Chink" stranded Monterey baserunners again and again through the third to the seventh innings, leaving seven visitors helpless on the sacks, aided strongly by the outstanding fielding of Kyle Vann at third base.

Both pitchers appeared to be

strictly for batting practice in the first inning as the Plainsmen grabbed four hits, one of them Don Barnett's two-run homer, to open the game; and Pampa took the lead right back in their half as Vann doubled, Shotgun Gregory singled and Kenny Hebert slammed one over the centerfield fence.

Monterey tied it at 3-all in the second as John McIntyre walked, moved up on Jerry Haggard's single and scored as the pestiferous Barnett got a hit into center field.

Pampa then blew what turned out to be their last chance in the game as they loaded the bases on three short singles by Gene Madrid, Garrison and Rick Stewart, only to have the Plainsmen catch the trio in a rundown and tag Madrid out to kill the rally.

Toombs suddenly turned perfect at that point, striking out eight, walking two and running into only one threat. Meanwhile Garrison fought his way out of jam-after jam, leaving the sacks loaded in the third, two on in the fourth and in the fifth and being pulled out in the seventh by a double play.

Pampa put the winning run on third base in the bottom of the seventh as Madrid was safe on interference, pinch runner Claude Middleton moved to second on a wild pitch and Garrison walked. Garrison was out on Vann's grounder, but it put runners on first and third. Toombs then blew down the next two batters and sent it into overtime.

Toombs opened the eighth with a walk and John McIntyre laid down a sacrifice bunt. Garrison bobbled it and all hands were safe. Haggard bunted the pair along and Garrison apparently fought his way out as he got the dangerous Barnett. Cleanup hitter Rudy Foster then earned his keep as he slashed a two-run double down the third base line. Pinch-hitter Gene Fromm then singled in the final run.

Ranger 9th Wins, Lee Rebels Third

BORGER (Sp) — Perryton and Dumas came from behind to place one-two in the district junior high 9th grade track tournament yesterday, with Lee Junior High of Pampa finishing in third place. Perryton had 147 points, Dumas 129 and the Rebels 101. Pampa Junior High finished with 11 tallies.

The Rebels led through the field events, featured by James Matney's record-breaking discus throw as the Rebels finished strong in both weight events. Perryton came in the low hurdles and a hotly-disputed sprint relay win to take the lead for good, with Dumas shooting past Pampa at the finish on wins in the dashes and high hurdles.

Lee led the way in record-breaking behind Matney and twin winner Gary McCarrell. Matney broke Randy Matson's district record with a 173'1" toss of the platter, 3'3" further than the Olympic prospect had done. Doe Cornutt finished fourth with 453' and then went on to win the shot put with a heave of 55'7", followed by Chad Spears with 53.5.

McCarrell set a new record in the 100-yard dash as he finished in 10.15, smashing the old record of 10.4, by Norman Bonner of Dumas, and then won the 220 also, in 24.7. The other broken record was by the Dumas mile relay team, in 3:39.6.

Other Lee scorers were Myron Porter fifth in the high hurdles; Lonnie Richards fourth and David Harris sixth in the 50-yard dash; Richards fourth and Harris sixth in the 100; the mile relay team fourth; Barry Price second in the pole vault with 10'0"; Harris third in the broad jump with 17-5 1/2. The Perryton sprint relay team was credited with a 47.0 and victory with Lee finishing with a clocking of 47.1, despite a number of varied clockings for both teams ranging from 47.0 for Lee to 47.4 for Perryton.

PJH points were picked up by David Marindale, third in the pole vault with 9-6 and Billy Scribner with a third in the discus, 149-8, and by the fifth-place mile relay team of Marindale, Al Gomez, Ronny Walters and Jim Baker.

Reapers 2nd In 8th Grade

BORGER (Sp) — Dumas depth was too much for Pampa Junior High as the Gremlins won the district eighth grade track meet here yesterday with 141 points to the Reapers' 79. Borger Austin was third and Lee Junior High fourth with 53 markers.

Despite outstanding running led by Danny Stokes and Al Gomez, the Gremlins placed at least two boys in every event, winning in the sprints and placing second and third in almost every other event. Stokes ran a leg on the winning sprint and 880 yard teams, won the 220-yard dash and placed third in the broad jump and fifth in the high jump. Gomez also ran on both relays and placed first in the 440 and fifth in the broad jump. The other two members of both the sprint relay team and the 880-relayers were Alan Lindsey and Larry Elledge. Reed also ran a 58.7 to place second to Gomez' winning 58.5 in the 440. Stokes was clocked in 25.1 in the 220. Tommy Winborne picked up the other Pampa point with a sixth in the highjump.

Lee's only winner was Phil Topper, first in the shot with 42-9 1/2, trailed by Kenny Ferguson's 42-8 1/2. Wendell Watson was fourth in the 50; Ferguson was fourth in the 100; Dwight Rogers was fourth in the 440; John Meeks fourth in the 880; the 880-relay team fourth; Norm Sublett was third in the pole vault; Mike Sublett third and Richard Craig sixth in the discus.

Irish Cop Lefors Meet

LEFORS (Sp) — Over 100 youngsters competed in the first annual Lefors Optimist Invitational Track Meet here yesterday, with Shamrock winning, followed by Lefors and Skellytown.

The meet, for youngsters from third to sixth grade, was limited to the top contenders in each event from the Optimist Clubs of the three towns, with over 200 persons attending.

Shamrock, led by two youngsters, Robinson in the sixth grade and Jackson in the fifth, literally ran off with the meet, as the pair placed in every event they were entered in to pile up the points for the Irish. Lefors' top winner was sixth-grader John Duncan, who won both the 100-yard dash and the broad jump.

Other sixth grade winners were Robinson in the football throw, with a heave of 84'7", Mike Robbins of Lefors in the baseball throw, Phillips of Shamrock in the 50-yard dash, Collie of Shamrock in the 75, Tredig of Shamrock in the high jump and the Shamrock 440-relay team.

Skowron Beats Yankees, Mathews Tops Phillies

NEW YORK (UPI) — Bill Skowron beat his former New York Yankee teammates again Saturday — just as he did in the World Series last fall — when he delivered a 10th-inning pinch single that led the Washington Senators to a 5-4 victory.

Skowron, who haunted the Yanks during the 1963 World Series as a member of the Los Angeles Dodgers, connected off knuckleballer Bud Daley, the Yankees' fourth pitcher, to score John Kennedy, who had tripled with one out in the 10th.

Steve Ridzik, third of four Washington pitchers, was credited with his second victory while Daley was charged with his first defeat.

The Yankees trailed by three runs at one point, but tied the score at 4-4 in the eighth on Elston Howard's triple and Joe Pepitone's sacrifice fly.

Moose Leads Sens Braves Clobber To 5-4 Victory

MILWAUKEE (UPI) — Eddie Mathews of the Milwaukee Braves broke out of a season long batting slump Saturday with a home run and three singles to back up young Bob Sadowski's five-hit, 11-2 victory over the National League leading Philadelphia Phillies.

Mathews, who was batting just .176 going into the game, singled his first two times up, scoring once, and then slammed a two-run home run, his second of the year, in the fifth. It was the 424th-round tripper of Mathews' career. He also singled his last time up and scored.

Joe Torre also got four hits, including two doubles, to lead the Milwaukee 17 hit attack.

Chisox Nip LA Angels, 3-1

CHICAGO (UPI) — Southpaw Gary Peters kept the Chicago White Sox on the winning track Saturday although he needed ninth inning help in a 3-1 victory over the Los Angeles Angels.

Peters, who won only once in five tries against the Angels in 1963, picked up his second victory against one loss. The triumph was the fourth in a row for the White Sox.

Ron Hansen belted a 400-foot homer into the upper deck of the left field stands in the second inning. The home run helped send Angels starter Bob Belinsky down to his first loss of the season. He has not won yet.

Tigers Rack Up Boston Sox, 4-0

BOSTON (UPI) — Veteran righthander Dave Wickersham threw a six-hit shutout and the Detroit Tigers built a winning lead in the first inning Saturday in a 4-0 conquest over the Boston Red Sox.

Wickersham, pitching his second complete game and third victory, didn't issue a single walk and struck out six. No Boston runner got beyond second base and in only one inning, the third, did the Red Sox have two base runners.

The Tigers beat Boston starter Bill Monbouquette with two first inning runs on Don Demeter's two-out double, a walk, and singles by Norm Cash and Willie Horton.

Detroit added another in the second on Don Wert's two-out double and Jerry Lumpe's single, and closed the scoring in the seventh on Wert's single, a sacrifice, and Demeter's second double.

Tribe Rallies To Edge Birds

BALTIMORE, Md. (UPI) — The Cleveland Indians rallied for three runs in the 13th inning Saturday to beat the Baltimore Orioles, 6-4, in a game played under the pall of a grandstand tragedy.

A school girl was killed and at least 38 other youngsters injured before the game when too many of the children tried to crowd onto an escalator at the same time. The youngsters were among 18,000 special guests at the game at Memorial Park.

The score was tied at 2-2 at the end of nine innings and each team scored a single run in the 12th inning before the Indians staged their winning rally in the 13th. And even then the Orioles did not go down in the four-hour game until they scored a futile run in their half of the 13th.

ENTER PLAYER FIELD

WHITE PLAINS, N.Y. (UPI) — Earl Buchholz, Barry McKay and Alex Olmedo, former U.S. Davis Cup teammates, have joined the field for the \$15,000 U.S. professional indoor tennis championships, May 26-31.

Pancho Gonzales, Ken Roswall, Rod Laver and Lew Hoard also will compete in the event.

SAFE? — Although the umpire called Monterey shortstop John McIntyre safe in this stolen base attempt in the fifth inning of yesterday's game, the camera closeup shows the ball in Pampa shortstop Kenny Hebert's glove, being slapped against McIntyre as he first begins his slide, still several feet from the base.

Skowron Beats Yankees, New Mark Mathews Tops Phillies

HOUSTON (UPI) — Texas A&M's young giant, Randy Matson, shattered his own national freshman shot put record Saturday with a 64-10 1/2 heave in a triangular meet between A&M, Rice and Texas.

Matson led A&M to domination of the freshman division but Rice took the varsity events.

Matson's shot put was far above his previous national record 64-1 at the Drake Relays. His opponents Saturday trailed badly, with Toby Bolt of Texas second at 52-4 1/4. Matson also took the freshman discus throw with a heave of 182-11 1/4.

A&M's Danny Roberts took the varsity shot put with a 58-10 1/4, a record for the triangular meet, eclipsing his 58-9 at the triangular Feb. 29 at College Station. The three teams meet twice a year in track.

Wysong Leads Poor Boy Open

BURNEYVILLE, Okla. (UPI) — Dud Wysong Jr., former national amateur finalist who turned pro in this tournament a year ago birdied his way into a 1-stroke lead Saturday after the third round of the \$20,000 Waco Turnament "Poor Boy" Open Golf Tournament.

Wysong fired a 33-36-69 for a 54-hole total of 209, giving him a one-stroke lead over two Negro pros, Charles Sifford and Pete Brown, both of Los Angeles. Sifford and Brown were both at 6-under par 210.

The 25-year-old Wysong, from McKinney, Tex., picked up three of his six birdies on the front nine to lead the field by a stroke at that point and had to balance three backside bogies with an equal number of birdies to stay in front.

The short Texan had birdie putts of 12, 5, 8, 3 and 4 feet along with a two-putt birdie on the par-5 No. 13. He also saved a par on No. 15 by sinking a 12-footer.

Wysong, who started Saturday's round two strokes back of pacesetter Moon Mullins of Bermuda Dunes, Calif., has won but \$2,063 on the tour this year with his best finish being a tie for 11th at New Orleans. He has missed five tournaments, however, due to a chronic back ailment.

Brown, a 28-year-old Mississippi product with a year and a half pro experience, fired a 36-32-68 today to tie the veteran Sifford for second. Brown had five birdies that increased his share of sponsor Waco Turner's bonus money to \$295 for three days.

Sifford had a 34-36-70, his third consecutive two-under-par round.

Mullins had his troubles on the front side Saturday and wound up with a 38-35-73 that put him in a 5-way tie for fourth place at 211. With him were Joe Spinoia of Richmond, Calif., Paul Bondeson of Palm Springs, Calif., Larry Mowry of Portland, Ore., and Bob Verwey of Johannesburg, South Africa.

SPORTS

Dancer Sets New Mark In Run for Roses Victory

LOUISVILLE, Ky. (UPI) — Northern Dancer, a tough little colt from Canada, blazed to a new track record in the 90th running of the Kentucky Derby Saturday to give his country its first victory in America's greatest horse race.

With Jockey Bill Hartack in the saddle, Northern Dancer, in the middle of the pack during the early running of the first of the triple crown, classics, forged to the front at the top of the stretch and streaked under the wire in two minutes flat to break the record set by Decidedly in 1962.

Hartack was aboard Decidedly to top, giving him the two fastest rides in Kentucky Derby history as he bootied Northern Dancer across the finish line a neck ahead of El Peco Ranch's Hill Rise, the 7-5 favorite before one of the largest crowds ever to watch the race.

The Scoundrel was third with Roman Brother fourth.

Northern Dancer, owned and bred by Edward P. Taylor of Toronto, paid \$8.80, \$3.60 and \$3.00 while Hill Rise returned \$3.00 and \$2.60 and The Scoundrel paid \$3.20.

Glittering Triumph

It was a glittering triumph for Hartack as well as trainer Horatio Luro who handled Decidedly when the colt set the Derby record of 2:00 2-5 two years ago.

"He certainly is a true champion and I think he'll go right on," said the exuberant Hartack in the winner's circle, where the traditional blanket of roses was draped over the withers of the little colt which was bred on Taylor's National Stud Farms in Oshawa, Ontario.

Fourth Derby Win

Hartack also won the Derby with Iron-Liege in 1957 and with Venetian Way in 1960 to compile an enviable record of four wins in a half dozen Derbies.

Jack Nicklaus Takes Big Las Vegas Lead

LAS VEGAS, Nev. (UPI) — Jack Nicklaus, driving long and putting brilliantly, fired a seven-under-par 65 Saturday to take a three-stroke lead over Juan (Chi Chi) Rodriguez after 54 holes in the \$65,000 Tournament of Champions golf classic.

Posting nines of 32-33, Nicklaus vaulted past second round leader Rodriguez with a third-round score of 206. Rodriguez, who had a two-stroke lead to start the day, shot a solid 72 for 209.

The defending champion now is 10 strokes under par for the distance as he continued his mastery of the Desert Inn Country Club course. Balmly weather replaced the high winds of Friday and more than 10,000 fans roamed the fairways.

The sunshine also brought out the good golf again and Australia's Bruce Devlin had a 65 also for a 215 total; National Open champion Julius Boros had a 66 for 214; and Al Geiberger a 67 for 212.

Don Fairfield was closest to the two front runners with a 211 after a 67; and Gary Player was deadlocked with Geiberger at 212 after a 70.

Nicklaus and Rodriguez, who engaged in a head-and-head duel Friday with the tiny Puerto Rican winning, weren't paired together Saturday. But they ran neck-and-neck right down to the 15th hole, where the buckeye better started a string of three consecutive birdies to pull away.

Chi Chi picked up a bird himself, but he bogied the final hole to fall off the pace.

"I didn't play as well as some other days," said Nicklaus. "Four different times I tried to fade my tee shots. But they didn't fade at all, but they still wound up on the fairway and I wound up smelling like a rose."

Nicklaus-birdied the first three holes, getting the first with two putts from 30 feet; the second from three feet and the third from seven.

He parred then up to the eighth, where he knocked one in from 12 feet. Then he ran off a batch late in the round getting home in two on the par-five 15th and two-putting; and knocking birdies in from eight feet on both the 16th and 17th.

MOREY WINS N-S PINEHURST, N. C. (UPI)

Dale Morey of High Point, N. C., defeated his old golfing partner, defending champion Billy Joe Patton, 3 and 2 Saturday to win the 64th annual North-South amateur golf tournament.

COACH REPLACED HAMILTON, N.Y. (UPI)

Chester N. O'Neill will replace Leland Kendall as an assistant coach of Colgate University's football team July 1. O'Neill, 28, has been an assistant coach at Hofstra University.

Arthur Freezes Out LH Westerners, 1-0

By JEFF COHANE
Pampa News Sports Editor

Jim Arthur pitched the finest game of his career: Friday to put a screeching halt to the Pampa Harvesters' losing streak, winning a 1-0 pitching duel over lefthander Dorian Clawson of Lubbock.

Arthur allowed only two hits, a clean double in the second inning and a scratch single in the fourth and a solitary base on balls. The Westerners threatened three times to score, but Arthur pitched his way out of every jam, striking out 12 batters. Clawson, who deserved a better fate as he allowed only three hits and one walk while striking out nine, let the Harvesters bunt two of their hits in the fourth inning for the only run of the game.

Nathan Lindley doubled down the third base line in the second and went to third on a passed ball, but died there. In the Pampa third, Gene Madrid was safe on an error and went to second on Steve Molberg's

bunt, then to third on Kyle Vann's single, but was picked off the bag to kill that threat.

Rick Stewart hit a hard single down the third base line to open the bottom of the fourth, racing to second as the Lubbock third sacker let the ball get past him into foul territory. Stewart went to third on Shotgun Gregory's fly-ball to center field, and then cantered home as Kenny Hebert poled a Texas Leaguer over second base.

A walk, error on a sacrifice bunt and stolen base put Westerners on second and third in the fifth inning, but Arthur struck out the side between baserunners. Neither team got a man past second the rest of the way.

R H E
Lubbock 0 0 0 0 0 0 0 2 2
Pampa 0 0 0 1 0 0 x 1 3 2

Clawson and Strawn; Arthur and Gregory. Wild pitch - Arthur 2. Passed ball - Gregory.

Two-base hit - Lindley. Sacrifice hits - Coleman, Gregory, Molberg. Stolen base - Vann.

FINAL PLANS — PHS athletic director Weldon "Birdog" Trice goes over entry lists and event rosters with meet director George "Cousin" Smith and Jaycee chairman James "Red" Weathered as the trio plan for the forthcoming Pampa Jaycee Junior Champ Meet May 9.

Welch On All-Star Team

AUSTIN (UPI) — Top high school athletes were named Saturday to All-Star teams for the football and basketball games to be played in Fort Worth at the August meeting of the Texas High School Coaches Association.

The coaches group announced the members of the South All-Star football squad and the North All-Star basketball team. Rules allow only one boy from each school to a team.

The Teams
South Football All-Stars
CLASS AAAA PLAYERS
Ines Perez, Corpus Christi Miller, Linus Baer, San Antonio Lee, and Charles Wilson, Port Arthur, all backs; Pat Halloman, Port Neches; Jack Herington, S. E. Austin; Tom Harper, S. F. Austin; Mike Ferrell, Baytown Lee, Calvin Powitsky, Pasadena, Ralph Cooper, Reagan, Warren McVea, Brackenridge, Wade Kay, Edison, Mark Weaver, Victoria, linemen.

CLASS AAA
Ronnie Ehrig, Gonzales, and James Bailey, Conroe, backs; C. E. Riggs, Orange, Jesse Williamson, Pharr, linemen.

CLASS AA
Tim Schmidt, Mason, and Ronny Menn, Rockdale, backs; Dale Johnson, West Orange, Irvin Isensee, Taylor, linemen.

CLASS A
Danny Bighie, New London, and Wayne Rains, Pearland backs; Roy Gospard, East Chambers, Robert Mickle, San Augustine, linemen.

CLASS B
Robert Hailey, Bremond and Tommy Luttrell, Stockdale, backs; John Allen, Meridian against Allen Thomas of Chicago and Bill Kilgore, Barbers Hill, go May 8.

North Basketball All-Stars
Coach — Fabian Lemley, McAdoo High.
Billy Arnold, Fort Worth Hal-tom High; Joe Dobbs, Lubbock; Michael Lockner, Graham; Jim McCoy, Lancaster; Larry Morris, McAdoo; Joseph O'Hagan, Kilgore; Jim Saul, Quitaque; Larry Sorrels, Gladewater; Farrar Stockton, W. Wilson; Terry Trippet, Odessa; John Underwood, Honey Grove and Derrith Welch, McLean.

Rebels Could Repeat As State Champions

By BILL HART
Courtesy Lubbock Avalanche-Journal

Normally a team that qualifies only two relays and one individual wouldn't be given much chance of winning the state championship, but Tascosa could do it again with that number in Class AAAA May 8 in Austin.

48.0 effort, Conley Brown has a 47.7 and the Houston San Jacinto star is only a junior.

Others from District 3-AAAA qualifying for the state meet are miler Mark Westbrook of Pampa, discus thrower Alan Adams of Caprock and high jumper Henry Frizzell of Palo Duro.

Westbrook, a junior, has the third best qualifying time, a 4:27.5, while Adams threw the platter 157-3 to earn a trip to Austin. Frizzell jumped 6-3 3/4, the best in regional competition by AAAA performers.

In fact, 40 points might win the state title this year since not many teams qualified a lot of people for the big meet.

Relay points are doubled and two other teams besides Tascosa got both relays to the state meet. However, Dallas Samuell didn't get anyone else there, while San Antonio Highlands will have three persons on hand for big show.

Best Relay Times
Samuell has the best times in both relays, 41.5 in the 440 and 3:15.9 and the school could set new national records in both events. The 41.5 has tied the mark set by Andrews in 1960 and Andrews has the record in the mile, 3:15.2.

Westbrook Wins At Raider Relays

LUBBOCK (Spl) — Mark Westbrook coasted home to a victory in the mile run at the Red Raider Relays here yesterday.

The Pampa mile ace had little competition — as he warmed up for the state meet next weekend in a comparatively slow 4:40.3. Strong winds and blowing dirt made running on one side of the track a hazard, while neither of the expected competitors, Web Loudat of Roswell or Brian Woolsey of Fort Worth, showed up for the meet.

Westbrook, a junior, has the third best qualifying time, a 4:27.5, while Adams threw the platter 157-3 to earn a trip to Austin. Frizzell jumped 6-3 3/4, the best in regional competition by AAAA performers.

Westy took a 10-yard lead early in the race, set his own pace and held the lead the rest of the way, with Oscar Vigil of Kermit finishing second.

Kermit won the meet, scoring 57 1/2 points. The Class AAA state favorite took the honors over 4-A Lubbock, which had 32 1/2 points, and Dumas with 24 1/2.

Denver City won the small school division with 38 points, topping Booker with 32.

Howard Van Loon of Rotan put the shot 54 3/4", the best schoolboy throw in the nation, breaking Randy Matson's 1962 meet record.

Abilene has four individuals and one relay team, while Abilene Cooper doesn't have a relay team entered, but will have five athletes on hand.

Qualifying relay teams, too, were San Antonio Brackenridge, Dallas South Oak Cliff, Spring Branch Memorial and San Antonio MacArthur. All will have two individuals in the meet.

Westerners May Score
Lubbock High could score high in the meet. The Westerners will have Art Carroll in both hurdle races, and Tim Garrison made it in the lows.

Carroll shares the best time in the lows with Doug Belzung of San Antonio Edison, 18.9, while Garrison's best is 19.0. Carroll's best time in the highs is 14.5, well off the 13.9 turned in by Johnny Morriss of Houston Jones.

Besides the two relay teams, Tascosa will have Mike Bell in the 440 and he shares the second best time in the state with a

Deadline Set for Industrial League

The Industrial League for softball teams is now being formed by George Smith, director of the Pampa Youth and Community Center. Any team in the Panhandle area is invited to join the league. Plans have been finalized on using the Lions Park in Pampa and the Bowers City Park for playing league games. Each team will play a double round robin and will play twice each week. Tentative starting date is June 1.

Entry fee into the league is \$100 which is due May 10 at 5 p.m. This will include all trophies, game balls, umpires and game equipment. Team equipment must be arranged by individual teams. A league meeting will be held May 13 at 8:30 p.m. at the Pampa Youth and Community Center. Teams are urged to get their entry fee in before May 10.

AUSTIN 6th WINS

Austin won the 6th grade track meet in Pampa this week, rolling up 83 points to 63 for second-place Wilson. Travis followed with 41, Mann 32, Lamar 30, Houston 27 and Baker 20.

No new meet records were set. Calvin West of Austin was the outstanding performer of the meet with 33 points, followed by Mark Thomas of Travis with 29 points.

Mobeetie Hitters Belting Ball

MOBEEETIE (Spl) — The Mobeetie Hornets feature hot bats this season, with five men belting over the .300 mark through the first three district games, reports coach Cecil Reynolds. The Hornets also continued their heavy hitting in this week's game, with a 14-13 victory over Samnorwood.

Leading the club in hitting are Big Ray Corcoran and Eddie Hodges, each belting the ball at a .667 clip. The pair also increased their averages in Tuesday's game. Hodges with 3-for-3, Corcoran with 3-for-5 including a home run.

Eddie Vowell was hitting at a .500 clip through the first three games, pitcher J. L. Gudgel, who also got three hits Tuesday, was slamming the ball at a .375 mark and Gerald Gudgel had a .364 pace.

WILL CAPTAIN TEAM

HANOVER, N.Y. (UPI)—Richard Durance Jr., of Aspen, Colo., will captain Dartmouth's ski team next winter. Durance, 17, is the son of Richard Durance, a 1930 Olympic skiing star.

Bowling

By JIM ADKINS
 Fellows, the City Association's "Champion of Champions" tournament is to be held next weekend. All teams that are in contention for first or second place in each league are eligible to bowl. The times for bowling are: Saturday, at Garden Lanes, 6:30 p.m. and 9:00 p.m. and Sunday at Harvester Bowl at 2:30 p.m. and 5:00 p.m. Let's try to get as many entries as possible and find out who really is the city's top team.

Pampa's bowler of the year is Bob Gault. Bowling on a 178 average last week end Bob totaled 2477 for 12 games. Bob will receive a trophy and a badge of recognition in the year book.

Well I guess we should bid farewell to our City Association secretary, John Moore has been transferred away from Pampa. John has done a good job for our association and I think we should thank him sincerely for the job he has done for Pampa's bowling public. His wife Barbara was the Ladies Association President and she, too, has done a fine job. I'm sure we will all miss this couple as they have done a fine job in Pampa. I hope their new home will welcome a fine pair of bowlers.

The new officers that will replace John and Barbara are, in the ladies association vacancy, Allene Childers is the new President. In the Mens Association, the new secretary is DeWay Cudney. I'm sure these new officers will do a fine job.

High series of the week goes to Bill Abernathy. He put together games of 231, 223, and 202 for a 656 series. Nice bowling Bill. Darrell Lain also rolled a nice series with his 635. Darrell's games were 192, 222 and 221. I noticed that Darrell has recently changed balls. Perhaps that's the secret. Seaman 3rd class Jimmy Weatherly rolled a nice series with his 629. His games were 215, 217 and 197. Jimmy is to leave Wednesday for a four year tour with the U.S. Navy. Pampa is losing a fine bowler for a few years. Jessie Smart rolled a 622 series with games of 226, 191 and 205.

Leonard Cable would really be a top notch bowler if his second game was better. Wednesday night he helped the Play More Music team win first place in the Garden Lanes Classic league. Leonard's games were 201, 133 and 201. Friday night his games were 206, 159 and 211. If Lonnie Harmon could put some of his better games together, he too would be a top-notch. In one league he rolled a 206 game, in another a 215 and in another a 201.

Bill Garrett rolled a 234

Top Ropers Feature of Area Rodeo

The Amarillo area offers one of the top ten calf roping matches ever to be staged in Texas, featuring the outstanding ropers, Jim Bob Altizer of Del Rio, Texas, and Lee Cockrell, of Panhandle, Texas. This match will be at the Will Rogers Range Rider's Arena in Amarillo, on Highway 66 West, on May 10th, at 2 p.m. Both Lee and Jim Bob have impressive matched roping records, having beaten Toots Mansfield in the 50's when he was considered the man to beat in the calf roping world; and Dean Oliver in the past two years while he is the current World Champion.

Both Lee and Jim Bob are perfectionists with a rope. Jim Bob's style is similar to that of the great former World Champion, Toots Mansfield. He uses a good sized loop and dikes to reach a little for his cattle, while Lee fashions his roping after another former World Champion, Troy Fort. Lee likes to ride a little closer to his calves, and uses a smaller loop. Both men like to flank their calves.

Although neither man rodeos full time due to farming and ranching interests, they have both competed in the National Finals Rodeos in Dallas, and in Los Angeles. Both have a lot in common in rodeoing history, as both have placed in the famous Madison Square Garden and the San Francisco Cow Palace, two of the biggest indoor rodeos, where the calf is given a short head start; along with placing in the Calgary Stampede and Cheyenne Frontier Days, where the calf is given a long head start in the big outdoor arenas.

In a recent four calf roping at Lubbock, Texas, where twenty of the nation's top ropers were competing, there were three calves tied under 9 seconds, with Lee and Jim Bob tying all three.

These ropers have proven they have matched roping ability. In 1963, Jim Bob defeated Tom Nesmith, Bill Teague, and Dean Oliver. Jim Bob has had as many matched ropings as any roper during the past ten years. Lee has won many matched ropings which include wins over Sonny Davis and Dean Oliver. He has had eight consecutive matches without missing a loop or breaking a barrier.

In 1963, Altizer beat Dean Oliver by a mere 47 seconds on twelve calves; while in 1962, Cockrell defeated Oliver by only 2.1 seconds on ten head.

While both men have impressive backgrounds in matched roping, they have never been matched. Certainly this promises to be one of the outstanding matches in roping history.

In conjunction with this match, there will be a \$35 two calf open jack pot roping, with ropers such as Dean Oliver, Olin Young, Glenn Franklin, Eldon Dudley, J. T. Johnson, Clifton Smith, Jim Bob and Lee having entered. Entries close at 10 a.m., May 10th. Call 3272 at Panhandle, Texas, or Drake 2-3273, Amarillo, Texas.

57TH YEAR THE PAMPA DAILY NEWS SUNDAY, MAY 3, 1964 13

Ten High School Students Honored

Ten high school seniors have been selected among the 50 winners of scholarships worth \$2,000 from the Educational Fund for Children of Phillips Petroleum Company Employees. The awardees for 1964 were selected from 149 candidates who had qualified for the Scholastic Aptitude Test of the College Entrance Examination Board on March 7.

Area winners of scholarships to any accredited college or university of their choosing include John Boyett, son of Mr. and Mrs. M. J. Boyett; Wayne Cogdill, son of Mr. and Mrs. Glenn Cogdill; Roger Loyd, son of Mrs. Emory Loyd, and Dana Traylor, daughter of Mrs. M. D. Traylor—all of Borger; Derryl DeShields, son of Mr. and Mrs. H. W. DeShields; Jim Morgan, son of Mr. and Mrs. J. D. Morgan, and David Skinner, son of Mrs. Merle Skinner—all of Phillips, Tex.; Dennis Wheaton, son of Mr. and Mrs. J. M. Wheaton of Dumas; Robert Lorenz, son of Mr. and Mrs. K. F. Lorenz, and Leon Phelps, son of Mr. and Mrs. J. R. Phelps—both of Stinnett.

This year's awardees also include Tara Peppers, daughter of Mr. and Mrs. G. L. Peppers of Guymon, Okla.

Area students selected as alternates include Mark Leshner, son of Mr. and Mrs. M. W. Leshner; Harold Orr, son of Mr. and Mrs. H. W. Orr; John Rynders, son of Mr. and Mrs. W. B. Rynders, and Jerry Yeager, son of Mr. and Mrs. H. A. Yeager—all of Borger; Cheryl Campbell, daughter of Mr. and Mrs. F. P. Campbell of Phillips, Tex.; Curtis Overstreet, son of Mr. and Mrs. J. V. Overstreet of Amarillo, and Lynn Levertson, son of Mr. and Mrs. O. C. Levertson of Stinnett.

Each of the 50 scholarship awards provides \$500 annually during four years of college attendance, subject to the maintenance of a satisfactory record by the awardee.

The scholarship fund was established in 1939 for the purpose of aiding children of employees of Phillips Petroleum Company and its subsidiaries in obtaining a college or university education. Approximately 750 young people have obtained education as Phillips scholarship holders, under wards totaling more than one and one-third million dollars.

High school students from 71 towns in 20 states and one foreign country took the 1964 aptitude test. Qualifying students who did not receive scholarships may apply for loans for higher education from a separate educational loan fund.

JAY P. SIMPSON ... to speak here

Engineers to Hear Talk on Corrosion

The Panhandle Section of AIME—Society of Petroleum Engineers will hold their monthly meeting May 12 starting at 7 p.m. at the Pampa Country Club in Pampa.

The speaker will be Jay P. Simpson, chief drilling mud engineer with Baroid Division of National Lead Company from Houston. His topic will be "Effects of Drilling Fluid on Completion and Corrosion."

All members are urged to attend and to make reservations with Allan Evans in Borger, BR 4-1331 or Harry L. Williams in Pampa, MO 3-5796.

Oilmen From Four States Schedule District Meeting

NEW YORK (Sp) — Oilmen from four states will discuss a wide variety of technical problems at the May 11-13 Mid-Continent District meeting of the American Petroleum Institute's Division of Production.

Sessions at the Arlington Hotel, Hot Springs, Ark., will be attended by production men from Kansas, Oklahoma, the Texas Panhandle, and the northwest half of Arkansas.

Among papers and discussions scheduled at committee meetings on May 11 are "Recent Experience with the Square Drill Collar in Air and Mud" by H. M. Rollins, Drlico Oil Tools, Inc., Midland; "Operational Experience with the Teledrift Instrument" by W. F. Roberts, Byron Jackson, Inc., Tulsa; "Coagulation and Clarification of Oil Field Injection Waters" by Jerry Agnew, Calgon Corp., Wichita, Kan.; "A New Well Completion Approach" by Eugene Baker, Halliburton Co., Duncan, Okla.; and "New Dual-Zone Lifting Method: One Unit Pumps Independently Controlled Zones" by F. E. Fields and B. B. Hunt, Continental Oil Co., Ardmore, Okla.

The committee sessions also will include a demonstration of counseling techniques and the showing of a new film strip on personnel training.

Principal speakers at the general session on the morning of May 12 will include Robert L. Kidd of Bartlesville, Okla., chairman, Cities Service Oil Co. and API vice president for production; and Edward A. Albers of El Dorado, Ark., director of the Arkansas Oil and Gas Commission.

The afternoon of May 12 will be devoted to papers dealing with the Arkoma Basin. Speakers will include W. E. Golden of Midwest Oil Corp., Fort Smith, Ark., on land problems; David A. Six of Midwest-Oil Corp., Fort Worth, Texas, on geology; Don R. Davis of Big Chief Drilling Co., Oklahoma City, on drilling with mud; J. P. Busell and C. R. Palmer of Rowan Drilling Co., Inc., Midland, Texas, on drilling practices; and Fred J. Waelder of Schlumberger Well Surveying Corp., Fort Smith, Ark., on logging.

Papers slated for the morning of May 13 include "A Method of Calculating Multiphase Flow in Pipe Lines Using Rubber Spheres to Control Liquid Hold-up" by Alvis E. McDonald and Ovid Baker, Field Research Laboratory, Socony Mobil Oil Co., Inc., Dallas, Texas; "An Automatic Well Test System Utilizing a Capacitance Measuring Device to Determine Net Oil and Water" by R. L. Brace and M. L. Powers, Continental Oil Co., Ardmore, Okla.; "New Developments in Water Flooding" by R. C. Earlougher of Earlougher Engineering, Inc., Tulsa, Okla., and E. T. Guerrero, University of Tulsa;

Pampa Minister Will Get Honorary Degree

Three honorary degrees will be conferred at Hardin-Simmons University's spring commencement exercises.

H-SU trustees authorized the honorary doctorates Tuesday at their spring board meeting. To be honored are George H. Mahon of Lubbock, representative of the 19th Congressional District; Shichi Matsumura, Japanese Baptist leader; and Rev. Douglas Carver, pastor of First Baptist Church of Pampa.

H-SU trustees acted one day after the Hardin-Simmons faculty voted to award the honorary doctorates.

Both Mahon and the Rev. Mr. Carver are graduates of Hardin-Simmons.

Matsumura was director of the Japan Baptist New Life Movement, in which numerous H-SU representatives and the Hardin-Simmons Cowboy Band participated last year. The Japanese minister was described

Tuesday by Dr. Rupert N. Richardson of H-SU as "the foremost Baptist of Japan."

McCloskey General Hospital at Temple, Texas, was named for the first U.S. Army doctor to lose his life in World War II, Major James A. McCloskey, killed on Bataan, March 26, 1942.

IMC Claims Huge 'Lost' Cattle Herd

SAN ANTONIO (Sp) — "If we could find our cattle, we'd have the biggest herd in Texas."

"Why, we'd have enough to overstock the King Ranch, which is the nation's largest," says E. L. Powell, regional manager, IMC Drilling Mud, International Minerals & Chemical Corporation.

"The hypothetical herd is one of the hidden assets discovered on Alamo Lumber Company's books when it was acquired by IMC," he explains. "But the assets are so well hidden we can't find even one of the cows."

The bovine mother of this vanished herd was theoretically acquired by the company just 60 years ago. "A spotted cow (no brand) and her increase" were pledged to the company by a rancher at Choate, Texas, as collateral for a \$17.45 loan due in 1904.

"The loan was never paid, and we never got the cow," Powell says. "But we're not mad."

"If that fellow would just give us the increase, he can keep the old spotted cow," Powell says magnanimously. "We figure her spotted offspring would now total 2,814,783,152,834,559,999."

Keweenaw Oil Reports First Quarter Profits

BRYN MAWR, Pa. (Sp) — Consolidated net profits of Keweenaw Oil Company for the first quarter of 1964 totaled \$1,427,341 or 44 cents per share, compared with \$1,313,064 or 41 cents per share on the same number of shares for the first quarter of 1963, William Wikoff Smith, president, announced today.

Crude oil production for the first quarter of this year rose to an average of 24,192 net barrels per day, an increase of 10.5 per cent over the comparable quarter of 1963. Mr. Smith noted that the higher figures for the year to date reflect, to some extent, increased production resulting from oil and gas leases acquired by the Company last year. Further increases in production are anticipated for the second quarter of 1964, he stated.

Industrial Plants Use More Gas

The nation's industrial plants used 10.5 per cent more gas during February than a year earlier, although warmer weather cut total consumption. The American Gas Association announced.

Gas sales to industry rose to 4,427 million therms, a new February high. This was 420 million therms more than the 4,007 million therms consumed in February a year ago. One therm is equivalent to 100,000 British thermal units (Btu) and will, for example, operate a gas refrigerator for 80 hours.

Total sales of gas were 12.5 billion therms, compared with 12.8 billion during February, 1963. A.G.A. attributed the decline almost entirely to warmer weather which cut house heating demands.

Residential and commercial use of gas totaled 8 billion therms, compared with 8.8 billion therms in February, 1963.

During the 12-month period ending February 29, 108.2 billion therms of gas were sold, an increase of 4.2 over the previous period.

More than 3 million Americans play the organ today.

GROOM IS BRIDE

MASHPEE, Mass. (UPI) — A groom soon will become a bride.

Mary A. Groom, 24, of Mashpee and William H. Reed, 25, of Felton, Del., filed marriage intentions Thursday. Reed is an enlisted man stationed at Otis Air Force Base in nearby Falmouth.

Wheeler Boy, 5, Injured in Fall

WHEELER (Sp) — Five-year-old Larry Don Jackson was reported Saturday in fair condition after extensive facial surgery in Shamrock Hospital.

The son of Mr. and Mrs. Dwayne Jackson of Wheeler, suffered a fall of some 30 feet while climbing in the rafters of a vacant warehouse here in the fall his face was lacerated from his mouth to his forehead and one arm was broken.

The View from a Whirlybird ...

For those adventurers who want to see the World's Fair, but prefer not to be caught in the ground-level crush, the helicopter tour is a natural. Starting point (left) is the Port of New York Authority's heliport, 120 feet high. Passengers (center) are taken on a five-minute whirl in the 25-seat egg-beater above the fairgrounds. One of the sights on the air tour (right) is the World's Fair marina on Flushing Bay. The new hydrofoil boats which make the run from Manhattan are docked there as is a full-scale replica of the H.M.S. Bounty, constructed for the film, "Mutiny on the Bounty." Cost for the flight: \$6.50 for adults, \$3.50 for children. The copter's picture windows are fine for photographers.

Can of Paint Sets Off Big Buying Spree

NEW YORK (UPI)—In 1957, Arthur Keller stopped off to buy a can of paint for his porch. Leonard Newman, Keller was as crafty with the companies books as he was with a ship's wheel.

Newman said the indictment covers Keller's activities from February 1957 through last January. The Mainbocher manager was accused of stealing \$166,116 from the corporation by issuing checks to himself and signing the names of company officers. The embezzlements came to light when a bank official mentioned to one of Mainbocher's auditors, who was a personal friend, that he had received a financial statement from the corporation.

"That's funny," said the accountant, "we haven't issued it yet."

The high fashion ship of fraud had run aground.

ENDS YEMEN VISIT

CAIRO (UPI)—U.A.R. President Gamal Abdel Nasser returned Tuesday to Cairo from a six-day visit to the Yemen highlighted by his demands that the British leave Aden and the South Arabian Federation.

Keller was named in a 57-count indictment Thursday charging him with stealing more than \$227,000 from the Fifth Avenue fashion firm. He pleaded guilty to one count charging theft of \$166,116 and was released without bail for sentencing June 11.

Post Office to Change Services

Effective Monday the following services will be discontinued only on Saturday by the Pampa Post Office:

1. The setting of postage meters.
2. Acceptance of advance deposits for postage meter services, postage due, second class mailings and bulk third class mailings.
3. Acceptance of box rent mail payments.
4. Issuance of all postal money orders.
5. All postal savings transactions.

Patrons are invited to avail themselves of these services Monday through Friday. These changes will not affect the present Saturday delivery, collection and distribution of the present Saturday delivery.

Sugar May Be Key To Cuban Economy

By DONALD H. MAY WASHINGTON (UPI)—Like Alice in Wonderland, Fidel Castro's Cuba is going to have to run harder just to stay in the same place economically over the next few years.

And, because he badly needs all he can get for the Cuban economy this year, this may explain Castro's attempt to manipulate the sensitive world sugar markets.

The State Department charged Thursday that Cuba, one of the world's leading sugar producers, has been trying to drive up world sugar prices by making mysterious purchases abroad and by leaking false information on its own sugar production.

What probably lies behind it is the fact that Cuba is now in a crucial economic period. Its international financial position is somewhat improved. But the causes of the improvement are expected to reverse

and bring major problems in years ahead.

Markets Are Sensitive

International sugar markets are so sensitive that a difference of a few hundred thousand tons in what traders think will be offered for sale can affect the price.

Cuba startled trade circles recently by buying 20,000 tons of sugar in British and French markets for shipment to Bulgaria and Communist China.

At the same time, Cuban officials have been claiming that recent heavy rains have hindered Cuban cane cutting.

They have cited low production figures for March indicating that this year's Cuban sugar crop will be down.

The implication was that Cuba is having so many production troubles that it must buy sugar from Europe to meet its export commitments to the Communist world.

The State Department charged that this was all a fraud. It said U. S. records show no recent abnormal rains, and that Cuban production in March was higher than claimed. The U. S. estimate is that Cuban production this year will be about the same as last year, around 3.8 million metric tons.

Windfall For Castro

A rapid rise in world sugar prices from 2 1/2 cents a pound in 1962 to a peak of 12 cents in 1963 was a major windfall for Castro. It allowed him, by selling about the same amount of sugar on world markets, to increase his foreign exchange reserves from nearly zero to \$100 million.

But prices have since been falling, and they are expected to decline to perhaps 4 cents in 1967. According to one informed estimate, Castro will have to double his sugar production by 1967 to keep up his present earnings.

In other words, he will have to run faster to stay in the same place.

Doubling production would not be impossible for Cuba, which before Castro, did produce in one year 7 million tons. But it would take excellent management, and Cuba seems to lack that under the Communists.

Texas Nurses Week Observance Begins May 10

TEXAS NURSES WEEK will begin May 10 to observe the duties and services offered by nurses in the state. The welfare and care of the general public is largely credited to those women who complete extensive training and work long hours for the sake of man.

Pampa members of the Texas Nurses Association will hold a kick-off dinner Friday at 7 p.m. in the Hospitality Room of Citizens Bank. Mrs. Lillian Talbert, R.N., San Antonio, acting director of T.N.A., will be guest speaker.

The many phases of the profession will be recognized during this week of special observance.

SCHOOL NURSE — Top left, Mrs. Marjorie Penn, R.N., is the public school nurse for Lefors, Hopkins, and Grandview schools. Among her duties is checking hearing abilities of students. Mike Smith, Lefors fifth grader, is her "patient."

ADMINISTRATION — Top center, Miss Vermell Meador, R.N., is in the administration field as Supervisor of Nurses at Highland General Hospital. Special training in this field as well as her profession was required.

BEHIND THE SCENES — Top right, Mrs. Louise Bayless, comforting a frightened child R.N., Operating Room Supervisor and Miss Hazel Smith, assisting the doctor with a major C.R.N.A., anesthesiologist, spend a patch-up job on an out-patient.

great part of their working hours behind the scenes in the operating room.

TLC AND ISOLETTE — Center left, Nurses serving on the Maternity Floor must exercise plenty of TLC, or 'Tender loving care,' even with modern conveniences such as the Isolette which regulates temperature, humidity and oxygen for the newborn that needs special attention. Miss Helen McCaskill, R.N. looks in on one of her little charges.

PRIVATE DUTY — Center right, Mrs. Dean Prall, R.N. spends her working hours as a private nurse at Worley Hospital. Her regular duties are supplemented with little extras, such as arranging flowers and reading to the patient.

MEDICAL FLOOR — Lower left, Mrs. Melba Johnson, R.N., medical staff nurse at Highland General, goes over the records for Mrs. Norma Carroll, R.N. who takes over her floor each day at 3 p.m. Careful check is made of each patient's record and new information brought to the duty nurse before the shift changes.

CLINIC NURSE — Lower right, Mrs. Margaret Walker, R.N. works as a doctor's assistant in a clinic. Duties range from comforting a frightened child in for a minor check-up to assisting the doctor with a major patch-up job on an out-patient.

PLANS SUMMER WEDDING

Howard-Good Wedding Set

CANADIAN (Spl) — Mr. and Mrs. Edward Howard, of Glazier announce the engagement and approaching marriage of his sister, Mary Ann Howard, to William Glen Good Jr., son of Mr. and Mrs. William Glen Good of Falls City, Oregon. The wedding ceremony will be read in Canyon at the Southside Baptist Church at 8 p.m. May 28.

Miss Norma Jean Fatheree

Mr. Gene Fatheree, Glenwood Apartments, announces the engagement and approaching marriage of his daughter, Norma Jean, to Ronald J. Demmer, son of Mr. and Mrs. A. H. Demmer, San Antonio. The wedding is planned for August 8 and will be held in the First Presbyterian Church. Miss Fatheree is a senior at Trinity University and will receive her degree in elementary education June 1. The prospective bridegroom is a Trinity graduate with a degree in accounting and is employed with a San Antonio firm.

Scouting Scoops

By NANCY HOLT Senior Troop 5

Hi, Scouts! This warm weather seems to be giving everyone, myself included, the spring fever. Everyone can hardly wait these last three weeks so that they can run and romp in the out-of-doors. Those who are planning to attend Day Camp must remember that their registrations are due in the office before May 1.

Junior Troop 125 went on its first overnight trip April 18 and 19. Ready for a weekend of excitement, they left for Camp Mel Davis at 8:30 Saturday morning. Upon arriving at camp they met another Junior troop from Borger with whom they took a hike. For supper they cooked spaghetti and meat balls and banana boats over an outdoor fire. They also had French bread and tossed salad. That night, the girls sat around the campfire and sang songs. The next morning the designated patrol prepared pancakes and bacon for the rest of the girls. After breakfast the troop had a short church service. Everyone ate plenty and had lots of fun.

Those attending were Joan Maxey, Diana Fulson, Cindy McDonald, Joan Barton, Martha Organ, Glenda Holloway, Dava Redus, Jean Fisher, Gaylene Winborne, Mary Beth Karr and Jane Anne Davis. Mrs. Robert Karr, the leader; Miss Sharon Washburn; and Senior Scouts, Natalie Skelly and Nancy Holt also attended.

Senior Troop 5 has spent the last two weekends painting and working on the Pioneer Cottage Museum. April 17 the troop met after school to scrape and put on the first coat of paint. Last Saturday morning the troop put on the second coat of paint. The girls are having a lot of fun working on the Museum and are anxious to earn their Museum Aid Bar. They are hap-

py to know that they will have a part in a landmark that will serve people from all over the country.

By way of the grapevine, I have heard that Junior Troop

28, under the leadership of Mrs. Mary Kennedy, has been meeting with Mrs. Leon Richter's troop. They have been planning a camp out.

Also, Mrs. C. F. Wooley's troop had a Court of Awards April 29.

Well, that seems to be it for this week. So, so long till next week.

Dear Abby....

Keep Letter Five Years, Read It Again in New Light

By ABIGAIL VAN BUREN

DEAR ABBY: I am a 13-year-old girl with only one problem in the whole world—my mother. I hate her. This may sound awful to you, but I hate her. I really do. I used to think I'd get over it. But now I know I never will.

Sometimes I think I'll go out of my mind if she doesn't stop tearing me apart. She doesn't like my clothes, my hair styles, or my friends. Don't get me wrong, Abby. I have nice friends. They are very polite, and they aren't wild or anything. She doesn't like them because I picked them.

Please help me. I cry myself to sleep at night. She won't let me baby-sit because I spend my money on a nail polish and hair spray. I can't wait till I am 18 so I can leave home. Don't tell me to discuss it with my father. He is always on her side. And don't tell me she loves me and is only doing it for my own good. You may print this letter if it doesn't shock you too much. And you can sign me—

UNHAPPY TEEN-AGER
DEAR UNHAPPY: Your letter doesn't shock me at all. I receive many such letters each week. Almost every normal teen-ager alternately "loves" and "hates" his parents. It is not easy to be criticized, restricted, corrected and disciplined day in and day out. But parents who really love their children prove it by consistently letting their children know what is expected of them. Parents who are "soft" and permissive rear confused, insecure children. I don't expect you to agree with me today. But keep this letter and read it again in five years, and then you will understand it perfectly. Good luck, honey. You are lucky. You are loved.

home, and miss a day of school.

(3) Assure the child that if his parents are too hard on him, he can always pack a bag and "run away" to Grandma's house.

Let her get away with it, and I promise you that your son will be exactly like ours. Eleven years old and spoiled rotten — thanks to his doting grandmother.

ANONYMOUS, OF COURSE

CONFIDENTIAL TO "J" IN WEST L. A.: Don't lend her any more money until you find out what she is doing with it. Anyone as desperate for cash as she appears to be could be supporting a very bad (and possibly dangerous) habit.

Get it off your chest. For a personal, unpublished reply, write to Abby, Box 3365, Beverly Hills, Calif. 90212. Enclose a stamped, self-addressed envelope.

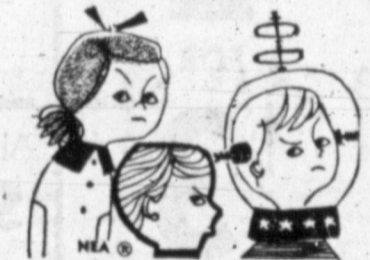

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby, Box 3365, Beverly Hills, Calif. 90212.

PITTSBURGH (UPI) — Persons who stop working before the usual retirement age apparently represent a population at higher risk of mortality than the working force, Dr. Antonio Cicco, of the University of Pittsburgh, believes. In a report to the American Public Health Association, the biostatistician referred to a recent study indicating a person's work activities and level of earnings affect his survival chances.

Manners Make Friends

DEAR ABBY: I just read the letter from the new grandmother who called herself "LUCKY." Devotion to one's grandchild is admirable, but some grandmothers overdo it. I refer to the kind who will:

(1) Interfere when his parents try to punish him, saying, "Don't pick on him. He's just a little boy."
(2) When the child goes to Granny's for the day, fill him with all the soft drinks, sweets and goodies he wants. He'll throw it up when he gets

Children are people. Why do adults insist on talking about them in their presence?

Sacred Heart Church Scene Of Dalsing-Bichsel Wedding

Phyllis Marie Dalsing and William Gerald Bichsel exchanged wedding promises April 25 in the Sacred Heart Church in White Deer. Father Hancox officiated during the single ring ceremony. Parents of the couple are Mr. and Mrs. Earl Dalsing, 113 N. Faulkner and Mr. and Mrs. L. M. Bichsel, White Deer.

White gladioli decorated the wedding scene and Mrs. Laddie Kotara, organist, accompanied Mrs. John Garcia as she sang "Ave Maria" and "Pavani Angelicus".

Given in marriage by her father, the bride wore a gown of silk organza over peau de soie fashioned with a bateau neckline and long fitted sleeves. The bell shaped skirt ended in a chapel train. Applique roses of organza added special interest to the gown which was designed and made by the bride. A circle tiara of peau de soie secured the veil of silk bridal illusion. Her bouquet was designed of white roses and carnations tied with satin ribbon.

ATTENDANTS
The maid of honor, Andrea Jewell, Pampa, wore an aqua silk organza gown over taffeta and carried white carnations with matching streamers. The bridesmaids, Rose Webb, Pampa and Adele Bichsel, White Deer, niece of the bridegroom, wore gowns of yellow and pink organza over taffeta and carried white carnation bouquets.

Robert Bichsel, brother of the bridegroom, attended as best man.

The mauve lace ensemble worn by the mother of the bride was accented by matching accessories and a white carnation corsage.

A white carnation corsage accented the navy blue crepe costume chosen by the mother of the bridegroom. She wore matching accessories.

RECEPTION
A reception in the Hospitality Room of the bank honored the couple following the cere-

mony. Guests were registered by Karen Watson, Crosbyton and Loretta Grant, Shallowater, served the cake. Pamela Sparkman, Alexandria, Va., and Elizabeth Boy, Coleman, presided at the punch bowl and coffee service which was set on a mint green and white covered table centered by the wedding cake and bridal bouquet.

a never before look...

in lip make-up

GLISSANDO
by Du Barry

In one lipstick... a mix of separate colors do what no colors ever did before!

Two colors in the stick... merge, converge, blend on your lips! Dazzling overtones interplay with bewitching undertones... and a never-before depth of color is born. No one lipstick could ever give you such depth of color. No two lipsticks could blend so harmoniously. (Glissando colors melt in a delicious blend that goes on the same every time). Nine never-before color combinations to choose from.
Lipstick 2.50; refills 1.75 plus tax.

Miss Betty Faye Brown

Mr. and Mrs. N. E. Brown, 616 N. Roberto, announce the engagement and approaching marriage of their daughter, Betty Faye, to Dorrell E. Doss, son of Mr. and Mrs. L. N. Doss, 1102 E. Francis. The wedding is planned for June 6 in the Mary Ellen Harvester Church of Christ.

● Sacred Heart

(Continued From Page 18)

quet. Other members of the house party were Mrs. Gene Dalsing, sister-in-law of the bride and Mrs. Carl Oney, Pampa, sister of the bride.

For a wedding trip to Lubbock, the bride traveled in a pink silk suit with matching accessories and lifted a white rose corsage from her bridal bouquet.

The couple will live in Pampa after spring term at Texas Tech is completed.

The bride is a 1963 graduate of Pampa High School and is a student at Tech and secretary in the geology department. She was a member of the Latin Club, Spanish Club, National Honor Society, salutatorian of her graduating class, 4-H Club and winner of the 4-H Gold Star Award and editor of the high school annual.

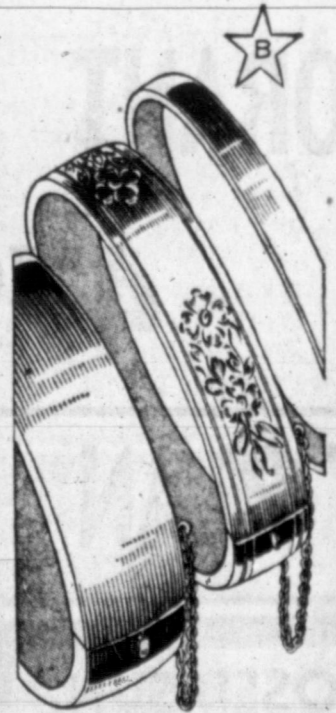

She was named to the Dean's Honor Roll first semester.

The bridegroom graduated from White Deer High School in 1962 and attended Paris Junior College on a basketball scholarship. He was named F.F.A. Gold Star Farmer in 1962. He is presently employed with Curberson Chevrolet.

KEEP AIRY

If you need a high fence to provide more privacy, you can give it a dainty look by using a louvered design. Louvers can be set in long lasting wood plates at an angle to prevent a view from outside in, but permit air to circulate.

Mrs. Bobby Burrows

Futch-Burrows Vows Repeated

Miss Donna Futch, daughter of Mr. and Mrs. J. D. Futch, 1037 Neel Rd., became the bride of Bobby Burrows, son of Mr. and Mrs. Bob Burrows, 2117 Coffee in a single ring ceremony read in Mexico April 18.

The bride chose a white suit with matching accessories for her wedding costume.

Mrs. Burrows is a student at Pampa High School and the bridegroom is a graduate of Pampa High School. He attended West Texas State University and is presently employed with Fite's Grocery.

The couple is at home at 433 N. Ballard.

The Highland General Hospital Auxiliary will meet at 9:30 a.m. tomorrow in Lovett Memorial Library for election installation of officers. Persons interested in the Auxiliary may attend. Interviews will be conducted following the meeting to tentatively set schedules for service at the hospital.

From May 31 until June 1 Auxiliary members will work with Junior Service League members as a training period. Plans state that the Auxiliary should be in full working force by June 1.

New members are invited to attend this meeting which will be opened by an invocation by Father William E. West.

The Cardiff Giant was a 12 foot stone statue of a man dug up in 1869 near Cardiff, N.Y., and widely exhibited.

Miss Martha Lee Bender PANHANDLE (Spl) — Mr. and Mrs. Marvin L. Bender announce the engagement of their daughter, Martha Lee, to Don Ernest, son of Mrs. Nellie Lee Sheets and the late W. E. Sheets of Canyon. The wedding will be solemnized at 7 p.m. June 20, in the First Christian Church of Panhandle with the Rev. Joe F. Kennedy, Jr. of Winfield, Kan., officiating.

Petree-Crosier

Betrothal Told

CANADIAN (Spl)—Mr. and Mrs. Creed Petree announce the engagement and approaching marriage of their daughter, Sharon Gayle, to Wesley Neal Crosier, son of Mr. and Mrs. Neal Crosier.

Miss Petree is a graduate of Canadian High School and attended Draughon's Business College in Amarillo.

The prospective bridegroom is a Canadian High School graduate and is employed with the Humble Oil Co.

The wedding date has been set for June 5 and will take place in the First Baptist Church.

Couple Repeats Vows At Harrah Methodist

-Mrs. Charlie Sackett.

Barbara Wakefield became the bride of Charlie Sackett April 17 during a double ring ceremony read by Rev. Vernon Willard in Harrah Methodist Church. Parents of the couple are Mr. and Mrs. H. C. Wakefield of Wichita Falls and Mr. and Mrs. J. D. Sackett of Pampa.

line and long fitted sleeves. Her shoulder-length veil was secured by a bridal crown and she carried a bouquet of white roses.

ATTENDANTS

Mrs. James Wakefield, sister-in-law of the bride, served as matron of honor and Miss Sackett, sister of the bridegroom, attended as maid of honor. Bridesmaid was Miss Georgia McClure. The attendants were dressed in blue satin street-length ensembles and carried nose gays of white mums.

Floyd Sackett served as best man and ushers were C. W. Burch, uncle of the bridegroom and Tom Wakefield, brother of the bride and Robert Kelley.

The church was decorated with baskets of white gladioli and candles. Vows were read before a kneeling bench. Paul Sackett, brother of the bridegroom, sang "Always" and "The Lord's Prayer" accompanied by Miss Susan Patrick.

Mrs. Wakefield wore a turquoise dress complemented with white accessories for her daughter's wedding.

The mother of the bridegroom was attired in a blue-gray two-piece ensemble and chose blue accessories. Both mothers wore white carnation corsages.

RECEPTION

Mrs. Wayne Daniels registered guests at the reception held in honor of the couple, following the wedding. A mum bouquet centered the white covered serving table. Mrs. Janice Sackett and Mrs. Paul Sackett, sisters-in-law of the bridegroom, presided at the serving table.

Following a brief wedding trip, the couple is at home at 512 N. Starkweather. The bridegroom is employed as assistant manager of Mitchell's Grocery.

PLENTIFUL

Wood is so plentiful, so widely and commonly used, that it is taken for granted, which prompts one wood expert to proclaim that if it could be discovered tomorrow it would be a tremendous success as a home building material.

Violet Society Hears Reports of Convention

The Pampa African Violet Society met recently in the home of Mrs. Marion Roberts. Reports were heard from delegates attending the National Convention.

Plans were discussed for the African Violet Society show which is scheduled for May 12 and will be held in Lovett Memorial Library at 2:30 p.m. The public will be invited to attend.

Mrs. Dan Glaxner gave a detailed report beginning with the departure from Pampa, including traffic problems, registering at the hotel and the commercial violet sale rooms at the convention.

Mrs. J. E. Carlson reported on the variety of plants and the tour of the city by bus.

Mrs. Norman Walberg reported the last day of the convention which included viewing the violets on display from various parts of the United States and the lecture. A Texan, Mrs. George Phillips, Arlington, won the show with "Wintery Rose", Queen of Show.

Alpha Omicron Installs New Chapter Officers

Alpha Omicron Chapter, Epsilon Sigma Alpha, met Thursday night for a Founder's Day dinner and installation of officers. E.S.A. was founded May 1, 1929 by E. Robert Palmer.

The executive board comprised of Mrs. W. R. Pairsh, Mrs. Lynn Bybee, Mrs. James H. Lewis and Mrs. Jack Hunter, served as hostesses.

Mrs. Pairsh, outgoing president installed the new executives including Mrs. Jack Hunter, president; Mrs. Ralph Ledwig, vice president; Mrs. James H. Lewis, corresponding secretary; Mrs. Buck Worley, recording secretary; Mrs. Lynn Bybee, treasurer and Mrs. Kenneth Roysse, educational director.

Following installation, the new president announced the committee chairmen for the coming year. They include, Mrs. Eugene Bentley, Jonquil Girl; Mrs. James Lewis, publicity; Mrs. Buster Higdon, scrapbook; Mrs. Pairsh and Mrs. Boy Maule, contact; Mrs. Roysse, program; Mrs. Jim-Malcolm, ways and means; Mrs. John Bird, welfare; Mrs. Ralph Ledwig, social. Mrs. Pairsh was presented a sterling tray in appreciation for her outstanding year in office.

The dinner was served from a T-shaped table decorated with spring cut flowers.

The fire-drill to kindle fires was the most widely distributed fire-making device before the invention of the friction match.

Home Building, Planning Outlined At Upsilon Meet

Mrs. Lynn Thames and Mrs. Bill Martin were in charge of the program for a recent meeting of Upsilon Chapter of Beta Sigma Phi. The guest speaker, Gene Hollar, architect with a degree from Texas A and M, an expert on home planning and building, Hollar pointed out that many considerations on planning a home to be warm and liveable and

enlarged must be pondered. Mrs. Jim Holcomb presented a group participation program on drama.

Plans for the Woman of the Year Tea were discussed.

Mrs. Vaughn Pittman and Mrs. Charles Reeves Jr. were hostesses and served Jell-O with cookies, mints, nuts, cokes and coffee.

Members attending: Mmes. O. V. Bailey, Jewel Castleberry, DeWey Cudney, Ernest Fletcher, Jim Holcomb, Paul Howard, Bill Jenkins, Jay Leath, George Massie, Jack Marrow, Bill Martin, Bill Parrish, Vaughn Pittman, James Schaffer, Robert Shelton, Don Taylor, Lynn Thames, Ralph Tyler and Miss Norma Briden.

Miss Irene Elizabeth Baggerman

Mr. and Mrs. John A. Baggerman, south of Pampa, announce the engagement and approaching marriage of their daughter, Irene Elizabeth, to Thomas E. Jackson, son of Mrs. Harry Hackathorn, Martin's Ferry, Ohio. The wedding is planned for May 16 and will be held in the First Methodist Church of Groom. Friends of the couple are invited to attend.

(Photo by Ganss)

Miss Diane Cooke

Mr. and Mrs. William H. Cooke, El Paso, announce the engagement and approaching marriage of their daughter, Diane, to Charles D. Warren, son of Mr. and Mrs. Robert E. Warren Jr., south of Pampa. An early summer wedding is planned by the couple.

The Doctor Says

By WAYNE BRANDSTADT
If your child has ever been called "Floppy Ears" or "Jughead" because his ears stick out at right angles, you will appreciate what a psychological problem this condition can be. It is all very well to point out that this is a normal variation but this does not lessen the teasing to which your boy may be exposed. The situation may not be so acute with a girl because her hair can be used as an effective cover.

nonmalignant tumor of the lymph vessels and is found most commonly in the neck. It tends to grow progressively larger. When such a tumor is recognized it should be completely removed as soon as possible to prevent both infection and the pressing of the tumor on the windpipe. These tumors become infected very easily. In a child allergic to antibiotics, the infection would be very hard to control.

Q—My son, whose IQ is high, has always been tense during examinations and this has pulled his grades down. Is there any safe sedative that will help his examination jitters?

Q—My son, whose IQ is high, has always been tense during examinations and this has pulled his grades down. Is there any safe sedative that will help his examination jitters?

Q—We lost a grandchild with cystic hygroma. He was operated on for it at 9 months and got an infection. He could not take sulfa drugs or penicillin because he was allergic to them. What can you tell me about this condition?

A—Many tranquilizers (available only on a doctor's prescription) are manufactured and used. The chief trouble with using them before an examination is that they slow up the mental processes. Were your son to take one of them before an exam he might assume an attitude of "couldn't care less." The best preparation for any exam is thorough grounding in the subject so that cramming just before the exam is not necessary.

A—Cystic hygroma is a development defect usually discovered after birth. It is a

Supper Plans Made

Rho Eta Chapter of Beta Sigma Phi met recently in the Hospitality Room of Citizens Bank. The program consisted of a discussion given by each member on Beta Sigma Phi.

Plans were made for a May 12 Salad Supper which will precede installation ceremony. Mrs. Cletus Mitchell was in charge of the business meeting.

Hostesses were Mrs. Doyle Beckham, Mrs. Hunky Greene, Mrs. Jack Gill Patrick and Mrs. Allen Stroker.

Members attending were Mes. Sam Anderson, Doyle Beckham, Bob Bruner, Jack Chisum, Jerry Davis, Eddie Duenkel, LeRoy England, C. L. Farmer, Richie Gardner, T. L. Garner, Hunky Greene, Julian Key, John Langford, Cletus Mitchell, Doug McBride, Joe Pafford, Ken Peeples, Bob Crow, Charlie Martin, Allan Self, Don Stafford, James Weathered and Jim Whately.

Wills, Insurance Discussed At 20th Century Culture Meet

Mrs. E. E. Shelhamer introduced the program on wills and life insurance to members of the Twentieth Century Culture Club during a recent meeting in the home of Mrs. Vernon Hobbs. Mrs. Ross Buzzard discussed wills and defined them as any instrument executed with formalities of law whereby a person makes a disposition of his property to take effect after his death. A will can be made by any person over 21 and with a sound mind, and under 21 if married. Texas, under old Spanish laws, she added, was limited to the doctrine of forced heirship. This required

the children of a deceased person acquire an interest in the estate.

However, under present day laws, one may disinherit whomever he chooses. A will must be in writing and signed by the testator or someone else by his direction, and in his presence. If not wholly written by hand, there must be two witnesses over 14 years of age and all must sign the instrument in the presence of each other. A holographic will is totally hand-written, signed by the testator, and can be proved by two witnesses who can identify the handwriting. The practical aspects

of making a will are obvious: to be certain the property is disposed of as the deceased would wish, and to avoid unnecessary expense if guardianships of small children should be involved. Mrs. Buzzard gave those present an Interstate Succession Chart to show the division of property by law if no will is left.

Mrs. E. L. Henderson discussed the history and development of life insurance from the days of the Greek and Roman Empires when cargo insurance was common, and life insurance policies were written to cover slaves. By 1634 Friendly Societies had developed for the mutual assistance of the poor classes in England. These early groups were religiously motivated. The common instinct of civilized man is to care for the sick and helpless. Life insurance today is concerned with man's highest duty: his responsibility to his household. From earliest times, society has made it a crime for a man to abandon his family during his lifetime. But life insurance reaffirms this duty and makes it equally a crime for a man to abandon his family after death. This is a high form of altruism.

In the United States, the first life insurance company was chartered in 1759 as Corporation for Relief of Poor and Distressed Presbyterian Ministers. This company is still in operation as Presbyterian Ministers Fund.

The National Association of Life Underwriters reported in 1963 there was \$730 billion total life insurance in force in America, and an average in-

(See INSURANCE, Page 23)

Civic Culture Club Studies Food in Home Life Program

Mrs. C. F. Pennington was hostess to the Civic Culture Club in the Hospitality room of the Citizens Bank recently. The theme of study "Guiding Lights for Growth" with the Home Life topic being "What's on the Menu" was brought by Mrs. Louise Sewell.

"Eating of food is one of mankind's most popular pursuits. Food plays an important part in all the big events of our lives—birthdays, holidays, and others—breaking bread is a ritual showing friendliness and good fellowship. Good food, appetizingly prepared, and served in an atmosphere of good company is one of the most important and pleasurable phases of our daily living.

"We cannot all make beautiful music or paint, or write, but now, as never before we can give our families meals that are imaginative, healthful and good to eat and we can do it easier and faster," Mrs. Sewell said.

"Today there is a greater need than ever before to keep abreast of new discoveries about food and food values and their influence on diet and health. There are new concepts of diet and health—new methods of processing and packaging food, and new equipment for preparing it.

"All these developments are creating new patterns of eating which will make possible more healthful meals that are easier to prepare—more delicious to eat.

"Today, the connection between what we eat and how we survive has become too apparent to be ignored. Many people are concerned about the relation of fats to coronary heart disease. The basis for this concern is the medical fact that as people grow older, a fatty substance may be deposited inside the walls of the blood vessels which may interfere with the normal flow of blood. This fatty deposit contains a substance called cholesterol. All fats and oils are made of three types of fatty acids in varying proportions—saturated—mono-unsaturated—poly-unsaturated.

"Saturated fatty acids may tend to elevate the cholesterol level in the blood, mono-saturates are neutral and poly-unsaturates in carefully controlled diets may tend to lower it. Meaty fats, lard and butter fat contain a high percentage of saturated fatty acids, while fish and poultry and liquid vegetable oils such as corn, soybean, cottonseed are relatively high in the poly-unsaturates. Because of the relationship between cholesterol and saturated fatty acids, it has started a new trend in dietary patterns. Public demanding less of the fats has led producers to try to lessen the fat content of their products. In spite of the fact that healthy people with normal weight are urged by medical authorities not to make changes in their diet pattern. For most of us the safe course is a good varied diet, and plenty of exercise. However now we have milk which have more milk solids, less butterfat, thus reducing the saturated fat in milk.

"Parts of the country even have replaced the butter fats with vegetable oils, special margarines in which some of the oil has not been modified to retain a high percentage of the poly-unsaturates.

"We should always keep in mind this important point—the role of cholesterol in the area of heart ailments is not certain, nor do we know the long term effects on the body of large quantities of the poly-unsaturates. This is why most medical authorities do not recommend that the general public change its diet at this time by substituting poly-unsaturates for saturated fats.

"This kind of dieting may prove not only useless but harmful—since a dieter without the right kind of knowledge of food values can easily eliminate highly essential nutrients when he decides on his own to stop eating certain foods. The point is to keep alert to new developments and research and not be a do-it-yourself dieter.

"Another food controversy is on the increased use of chemicals in the raising and processing of foods today, wanting to know if it is safe or necessary. Few people realize how almost impossible

it would be to eat as well as we do without the aid of chemistry. In fact, without the use of agricultural chemicals, food additives, sanitizing agents, chemically treated water, synthetic packaging materials and like, the U.S. could not begin to feed its urban population.

"There has been tremendous progress in the last century in the growing, processing, preserving, and packaging of food—so it can be transported thousands of miles and remain in good condition for months—even years. This is one of the wonders of our civilization and food additives have played an important part in making it possible.

"The Food and Drug Administration has been watching over the safety of the nation's food supply since the Food and Drug in 1906. The

General Federation of Women's Clubs was instrumental in getting that first law passed.

"Some of the world's greatest scientists on food and safety are employed in the F.D.A. laboratories. They are constantly seeking ways to improve public protection, and develop more reliable methods of determining if a substance is safe. They are also experts in enforcing food safety rules and regulations.

"We women also have a responsibility here to report violations and infringements of food safety rules," Mrs. Sewell said.

"All in all, however, Americans have the most abundant, wholesome and dependable food supply in the world, it is also the most convenient," she said. President Sorenson presided

over the business meeting. Pledge of allegiance to the flag of the U.S. and salute to the Texas flag was given.

The Club voted to send a donation to the War Memorial honoring all American women who gave their lives for their country. This is being erected at Rindge New Hampshire. It is a Memorial Bell Tower on the crest of a Knoll of the open air Cathedral of the Pines.

Mrs. Bobby Ray Dempsey (Photo, Smith's)

Vows Repeated In Candlelight Setting

Miss Amber Laverne Collis and Bobby Ray Dempsey exchanged wedding promises Friday night in the First Presbyterian Church with Rev. Howard Lyons officiating during the double ring service. Parents of the couple are Mr. and Mrs. Loydd B. Collis of White Deer and Mrs. Neoma Dempsey of McAlester, Okla.

Baskets of white gladioli and candelabra decorated the wedding scene. Candles were lighted by Cindy Jordan and Paul Booth. Ringbearers were John and David Booth.

BRIDE
The bride, given in marriage by her father, wore a gown of chantilly lace over taffeta fashioned with a bateau neckline and fitted sleeves, ending in petal points. The floor-length skirt terminated in a chapel train. Her veil of bridal illusion trimmed with lace, was secured by a seed pearl encrusted crown. She carried a cascade of white roses.

ATTENDANTS
Dressed in identical ensembles of camilla pink chiffon over taffeta and carrying bouquets of white carnations centered with camellias, were the honor attendants, Mrs. A. W. Blevins, matron of honor; Mrs. George Collis, maid of honor and Miss Beverly Barker, bridesmaid, all of Amarillo. Becky Armstrong, Amarillo, was flower girl.

George Collis served as best man and ushers were Donald Booth of White Deer and Jim Turner of Amarillo. Groomsman were Gerald Noblett, Amarillo and Charles Cox, Amarillo.

Mrs. John E. Phillips

Wedding Vows Read in Early Evening Ceremony at Joseph A. Hill Chapel

Hill Chapel on the campus of West Texas State University was the scene of the wedding of Kay Stephenson and John E. Phillips on April 25. Rev. Barrett Moore read the double ring ceremony before a setting of pink and white gladioli and daisies, lighted by candles. Miss Dorothy Higdon presented traditional wedding music from the organ. Harpist was Miss Julia Phillips.

Parents of the couple are Mr. and Mrs. P. E. Stephenson of Skellytown and Mr. and Mrs. H. A. Phillips of Amarillo.

BRIDE
The bride, given in marriage by her father, wore a nub-weave cotton princess styled ensemble. The draped neckline added interest to the fitted bodice and long sleeves. Her illusion shoulder length veil was held by a pearl tiara and she carried a cascade of pink roses.

ATTENDANTS
Mrs. J. Pat Stephenson, matron of honor, wore a pink cotton ensemble complemented with white accessories. She carried a nosegay of pink and white spring flowers.

Dressed in an identical costume was the bridesmaid, Miss Julia Phillips, sister of the bridegroom.

Origin and History of American Music Discussed in Varietas Meet

Mrs. W. A. Wagoner presented the program for the Varietas Study Club which met recently in the home of Mrs. J. R. Spearman. She developed her topic, "America Grows with Music," with piano selections depicting the various types of arrangements. She introduced her subject by stating that America's music had Old World roots. An illustration of this is the opera, "Aida" which was of Egyptian origin and "Carmen" which is about France, and the foremost opera ever produced.

"The first opera performance on record in American was 'Flora' given in February in Charleston, S.C. Much has been written about American folk music and the closely related spiritual and jazz. No subject, not even the little dogie has produced so much good American music as the railroads, our best ballads being 'John Henry', 'Casey Jones' and 'The Old 97'."

"Jazz is said to be a music with many faces. The term has been used to describe more different types than almost any other musical term in the dictionary. Some assert that jazz is not the music played but the manner of playing it, while others maintain that the only true jazz was that played by such and such performer in New Orleans, St. Louis or Chicago fifteen years ago. But, whatever it is, jazz did not spring out of nowhere. It has its roots in our people, and its antecedents in the popular music of an earlier period. "The Gospel music and the spiritual which are best sung by Marian Anderson and Mahalia Jackson, are also a part of American music. "The songs of Stephen Foster are America's best remembered folklore, the best known — 'Old Folks at Home', ranks with 'Home Sweet Home' as one of the world's greatest home songs. Sousa's 'Stars and Stripes' stands out as one of the world's greatest marches. "Songs of the musicals, 'Music Man', 'South Pacific', 'Song of Love', and 'The King and I', continue to live as good American music. 'Largo's New World Symphony has taken its place among the best. "Popular music at its best is evidenced in 'By the Light of the Silvery Moon', 'Moon River' and 'Melody of Love'. "She concluded by saying: "America knows with music spiritually and intellectually as we study it, and learn to appreciate it; emotionally as it causes us to relax, and physically as we respond to rhythm with dance." A guest, Mrs. John R. Spearman Jr., was welcomed.

The Pampa Daily News

A Watchful Newspaper
EVER STRIVING FOR THE TOP O' TEXAS
TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities. We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself, no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

You Gotta Talk Back!

Communication is a two-way street. For understanding, ideas and thoughts must travel in both directions. What happens when, somewhere along the route, traffic snarls? Misunderstanding and confusion can result. In a series of experiments, a Bell Telephone Laboratories scientist has graphically demonstrated the role of two-way communication in tackling a problem. In each test, six people were divided into pairs. Each of the six was given a set of dominoes. The dominoes of one person (A) in each group were placed in a specific pattern; the dominoes of the other person (B) were unorganized. "A" was told to tell "B" by telephone how to set up his dominoes in the same pattern, but with this difference: In Group 2, "B" could only indicate by pressing a buzzer that he didn't understand the instructions of "A," who was allowed to repeat the instructions. Result: some of the "Bs" got the pattern right. In group 3, "B" could talk to "A." Result: all of the "Bs" got the pattern right. When interviewed after the test, "As" in Group 1 thought the "Bs" were dim, since they couldn't understand simple instructions. But the "Bs" felt the "As" couldn't explain things. The Group 2 participants expressed similar views, but not quite as strongly. Only the Group 3 people — who had been permitted full two-way communication — felt happy about the experiment. The tests seem to show that it's easy to misunderstand, misinterpret and become completely confused when two-way channels are closed. Small wonder, then, that a common phrase these days is, "Well, what I meant to say was..."

Twined Hearts Automated

Romance is one field of human endeavor which you might think would be immune to the advances of technology. And yet match-making machines — kissing cousins to computers — are programming Cupid right out of a job. It all started when some unromantic soul went into partnership with an electronic business machine and set it to work pairing off young men and women in compatible twosomes. As a result, matchmaking centers have been set up in several major cities. Business, according to the boy-meet-girl people, couldn't be better. "Miss Brown," the machine might say, "meet Mr. Smith. Both of you like jazz, hate olives, are allergic to cats and take long walks. You're ideally suited to each other. Have fun." Actually, the machines don't match personality to personality but, by the unromantic process of card elimination find two or three suitable mates for the only client. Someone who's looking for a mother-image, for example, wouldn't be happy with a clinging vine. If automated romance becomes fashionable, where will it all end? Perhaps your great-grandchildren will depend for introductions on the local computer, instead of today's overworked mutual friends. Or young couples may have to apply to a computer for compatibility tests before being issued a marriage license. But be of good cheer: A computer will never be able to program so unpredictable an item as love in the male-female relationship. And love, they say, conquers all. Even computers.

Ice Cream Headache Test

The clinical experiment is about to begin. The physician checks the test substance, carefully notes the room temperature, and glances at his watch. Then he opens a refrigerator door, takes out a double-dip ice cream cone, and begins to eat. Has lunch hour postponed the medical test? No. The ice cream itself is undergoing scrutiny. The purpose is to study so-called "ice cream headache." To learn what conditions are necessary to produce this pain, and whether it is a clue to the cause of vascular headaches, Richard O. Smith, M.D., of Pulaskee, Va., has consumed large quantities of ice cream under varying conditions, ranging from hot summer weather to zero degree winter cold. Dr. Smith's interest dates back several years to a medical meeting on headaches, when half of those present, responding to a question, indicated that they had experienced ice cream headache. His experiments developed spontaneously one humid summer day when, eating an ice cream cone, he suffered temporal pain several seconds after each mouthful. This rhythmic response seemed to result from constriction of relationship between ice cream and other headaches. While his experiments have as yet produced no tangible results, Dr. Smith hopes further studies might yield significant knowledge. Besides, he loves ice cream.

The World is Fabulous

If anyone fears that the Soviet Union — or any other nation — has a chance of overtaking us in electric power production in the foreseeable future, he can stop worrying. U. S. production of this form of energy can only be described as fabulous. In January, 1964, for instance, a new record of 90,641,604,000 kilowatt-hours was set. This was the second straight month that output exceeded 90 billion kilowatt hours. To generate this record number of kilowatt-hours, the utilities burned 20.5 million tons of coal, 10.1 million barrels of oil, and 143.4 billion cubic feet of natural gas. It is the safest of bets that power production and consumption will continue to rise, and that in this all-important field we will stay safely ahead of any other nation. And the production figures tell only a part of the story. A vast system of interconnection of far apart power systems is being developed, making possible the instant transference of the energy from one part of the country to another. Transmission lines capable of carrying extremely high voltages, with a minimum of loss en route are being built. The result is a nationwide network which can be depended upon to perform its function under emergency conditions. This, finally, is the investor-owned utility industry's answer to those who argue that only government, under a policy of tax subsidized development, is capable of doing the needed job. The figures and the facts refute the argument. There is no need of power project that taxpaying power companies cannot accomplish.

HOW TO ADDRESS OUR LAW MAKERS

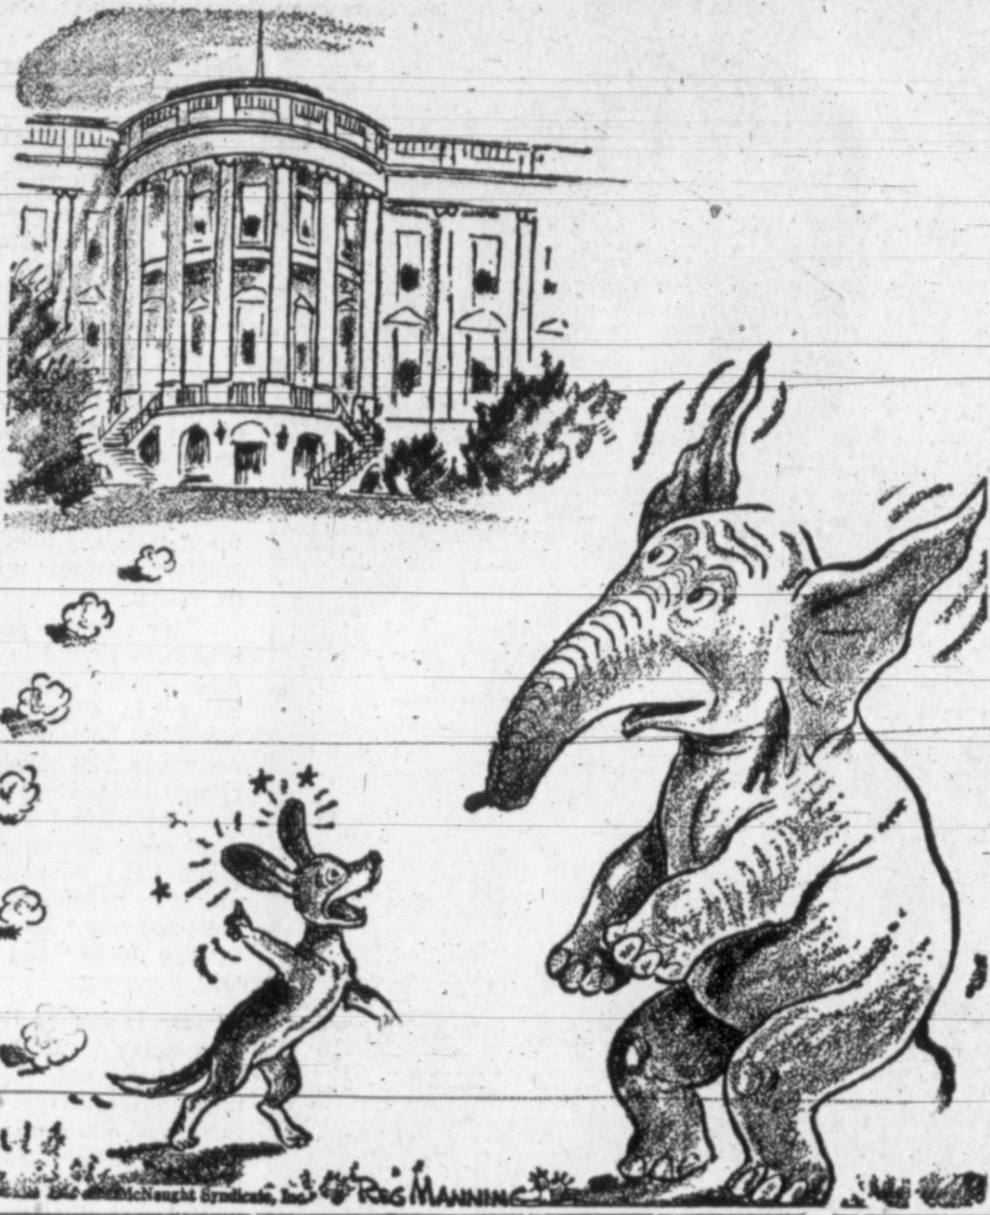

You may wish to write your senators and representatives in Washington and Austin. Here are their addresses: (FEDERAL) Rep. Walter Rogers, House Office Bldg., Washington 25, D. C. Sen. Ralph Yarborough, Senate Bldg., Washington 25, D. C. Sen. John Tower, Senate Office Bldg., Washington 25, D. C. (STATE) Rep. Granger McIlhenny, House Bldg., Austin, Texas Sen. Grady Hazwood, Senate Bldg., Austin, Texas.

CAPITOL EYE:

Civil Rights Letters by The Bushel

By BRUCE BLOSSAT
WASHINGTON (NEA) — A high administration official, commenting on the white backlash against Negro civil rights demands and demonstrations, blurted with some impatience: "Whoever said this country's northern white population is united on civil rights?" He finds nothing particularly surprising in the expectation that Alabama's Gov. George Wallace may run up substantial protest votes in the Indiana and Maryland primaries — as he did in Wisconsin early this month. Another leading administration figure underscores this view. He suggests that what Wallace got in Wisconsin and may get in later primaries is perhaps a rock-bottom protest, that another southerner with a "better national image" might pull far more. "I have no doubt that a tremendous number of northern white Americans are against the civil rights bill," adds this second official. Among the evidence for this is the virtual hero status being accorded the only two northern Democratic congressmen who voted against the big rights bill when it passed the House in mid-February. The two, of course, are Reps. John Lesinski of Michigan's huge 16th district, and Walter Baring, Nevada's sole representative. Both have been showered with hundreds of commendatory letters and telegrams, mostly from their own constituents, but now and then from more distant precincts. Baring has received only a handful of disapproving letters, while Lesinski's correspondence runs 2 to 1 in support of his stand-out vote. The Michigan lawmaker is the only Democrat on the "no" side who represents a highly urbanized district liberally sprinkled with nationality minorities and some Negroes (roughly 60,000 in a total population of 804,000). Nevada has a mere 15,000 Negroes. At the time of this writing, Lesinski's mail on the subject was not available for perusal. But this reporter had a look at half a hundred or more of Baring's letters. Few of those read showed any of the usual signs of inspired "organization mail." Many were scrawled on cheap paper. The most striking thing about them was how few made any reference to the specifics of the pending civil rights legislation, or to Negroes. The bill is assaulted basically as a "grab for federal power" as a measure leading toward dictatorship and is snuffing out of individual rights. This theme is, of course, one that is hammered ceaselessly by lobbying foes of the civil rights bill. One way or another, it seems to have reached the ears of countless citizens. Some letter writers insist they favor granting Negroes full citizenship rights, but add "I don't think this bill is the answer." While the complainants bespeak freedom, individual rights and states' rights as they commend Baring, only rarely do they charge that the legislation is Communist-inspired. One writer called it "the socialist omnibus bill of 1963." Lesinski says his mail, too, exhibits marked emphasis on the "federal control" theme, though many of his letters get into specifics. What is unclear, as the bill stands before the Senate, is how effective these generalized broadsides may be. They indicate discontent — but of the same order as usually accompanies almost any major federal legislation.

Don't Let Him Get You By the Ears!

The American Way

"THE TOOLS OF PROSPERITY"
By Harry T. Everingham
President of "We, The People!" Isn't it time we put up an argument — against those people, both here and abroad, who insist on calling Americans "lucky" because we have "more natural wealth" than anyone else? They call us lucky and say that's why we should take care of the rest of the world!

What kind of talk is that? We didn't get our wealth by luck, we found ways to produce it. It's the rest of the world that's lucky that we happen to be around to lend a helping hand. In the Middle East, so many things are still provided by the same animal power that has been used for thousands of years. While in America we use machine power. Their way produces so little — ours, so much. There's all the difference in the world between those two systems, just as there is between their economic system and ours; that's why we are the wealthiest people in the world.

Natural Wealth
They say about two-thirds of the world's people go to bed hungry every night. Yet, in many of their lands throughout Africa, South America, India, China and Southeast Asia, there may be more natural wealth buried under the ground than there is in the U.S. Think of that! People starving to death above ground, while great natural wealth lies buried under their feet. Why? For nearly 180 years we Americans have had a form of government which leaves everyone free to dream his own dreams, and to work to make his dreams come true. In most other countries, the average man is seldom free to make the best use of his God-given abilities. He must depend on a master for his security — usually the government — and do whatever the master planner thinks is best. But here in America where men are free, they can make the best use of their abilities in order to get ahead. To improve their competitive position, our people strive to invent new products, develop new methods and improve their machinery to produce a better product or render a better service at a better price. You see, our American system is a competitive race to see who can "get their fustest with the bestest" — and the customer picks the winner, when he decides which one offers the best buy for his money. It's this competition between everyone trying to do a better job that has raised our standard of living and made America both wealthy and great.

Pull Up A Chair

By Frank J. Markey
Although many claim credit for originating the supermarket, we believe the idea came from Frank Woolworth, who said: "Let the customer handle the merchandise." He brought goods out from beneath the counters and shelves of his stores, placing items within easy reach of his patrons so they could see and touch them. This "impulse buying" philosophy of retailing was Frank Woolworth's when he opened his first store (selling only 5-cent items) over 80 years ago. He revolutionized marketing techniques; encouraged browsing, warning employees never to buttonhole a customer. Thus he proved himself to be a great salesman.

Today's smile: Junior put down the National Geographic long enough to ask his father: "Do you know, Dad, that in some parts of Africa and Asia a man doesn't know his wife until he marries her." His father replied: "In some cases, it's just the same here." An automobile salesman friend tells us if your car is equipped with a steering wheel that adjusts to different positions, it will rest you to change the wheel's position occasionally on a long trip. He says that this, combined with changing the position of the car seat cushion, will provide a way of giving your body a variety of postures. . . . During the year your family physician receives an average of 633 samples from pharmaceutical companies, which reduces to about 53 per month. About 84 per cent come from the 25 top firms. All contain new developments in tranquilizers, cardiovascular medicines, gastrointestinal medicines and a variety of other nostrums. If he thinks they're good, he's supposed to try them on his patients.

Thoughts while shaving: Perhaps it's purely psychological, but the personnel director of one of the nation's largest department stores suggested to salespersons that instead of asking browsing customers the hackneyed question, "May I help you?" they ask, "May I help you locate something?" It worked and sales zoomed 20 per cent upward over a six-month period. . . . Don't know how they know but the U.S. Dept. of Commerce says the average American will guzzle 222 eight-ounce bottles of soft drinks this year, which marks an increase of five bottles per average American over last year. Facts like that make us wish we'd bought that Coca-Cola stock 20 years ago. . . . The total net private and public debt in the U.S. rose to \$1,096 billion last year which comes out to about \$5,769 for every man, woman and child in these United States. So, if each one of us pays off our own little \$5,769 bit before next year, Uncle Sam will be out of hock. . . . Incidentally, we favor President Johnson's war on poverty, but after paying our income taxes earlier this month we're not exactly certain which side we're on. . . . It was a happy accident when the French-

WASHINGTON:

U.S., Soviet Working on Disarming?

By RAY CROMLEY
WASHINGTON (NEA) — Some time before President Kennedy died, Soviet Premier Nikita Khrushchev sent him a secret personal message saying in essence: "It will be a lot easier for me to deal with my military and cut back my armed forces if you will announce arms cutbacks of your own first." This message lies in back of the uranium-plutonium out-put reductions announced by President Johnson and Khrushchev. That tacit nuclear understanding is part of a larger program quietly pushed for the past year by some officials in State, Defense, White House and Disarmament Agency circles. Under this program the United States would prepare for an arms cutback of one type or another, then secretly send word to Khrushchev, get his reactions, learn unofficially what he'd do in return. If all went well, the United States and the Soviet Union would announce their reductions. There'd be no formal agreement, no inspections. State and Defense officials have about come to the conclusion that little will be achieved for the time being in formal arms reduction talks. A growing number of the experts have more hope for these tacit understandings. A series of possible tacit "disarmament" agreements have been suggested for consideration within the circle of White House, State, Defense and Disarmament Agency advisers. These agreements include: Gradual stretch-outs in the development and production of new types of weapons. Suggested for consideration is the possibility of slowdowns in the development and production of antimissile missiles, civil defense shelters, advanced Minutemen, Polaris missiles and nuclear submarines. More rapid retirement of obsolescent weapons. Suggested for consideration is a step-up in the dropping of older missiles and older bombing planes. Reduction in the number of weapons and troops in excess of requirements, especially those with slow reaction times. Suggested for consideration are certain types of U.S. Army, Navy and Air Force reserve units. Reduction in the amount and in the firepower of arms supplied to allies and neutral nations. The major concern here is with nuclear weapons, bomber planes, tanks, modern artillery, submarines and surface naval vessels. The major concern here is with nuclear weapons, bomber planes, tanks, modern artillery, submarines and surface naval vessels. The aim here would be to restrict the sending of arms to countries which might, on their own, initiate wars which could draw in the major powers. Instead of attempting to disarm, weapon by weapon, gradually cut back the percentage of U.S. gross national product devoted to arms from today's 10 per cent to an eventual 8 per cent.

Straight Talk

By Tom Anderson
THE RIGHT TO WORK NEEDS HELP
If you are a Democrat, Republican, Mason, Methodist, Elk, Rotarian or American Legioner, you can resign, join another organization or none and suffer no consequences. But in the 30 union shop states a laborer, by act of Congress, must join the union where he works. In these 30 states, workers are compelled to join the union, compelled to have their dues checked off from their pay by their compelled employer. And then the union officials take the booty and are not even compelled to report how they spend it. If the roots of union monopoly were examined carefully, it would not take long to see that the principal root is forced membership or dues collection through the vehicle of the union or agency shop. Federal Edicts
The Supreme Court used to believe (before it was packed) that the Bill of Rights protected the right to work. Now the Court upholds unions in forcing membership on unwilling workers. Thus millions of laborers are held captive in unions they do not want to contribute to, by edict of the Congress of the U.S. backed by the Extreme Court. In 30 states you can get a job without joining a union, but not without joining a union. The rank-and-file union member may go to the polls and vote against these philosophies, but his money is used to elect public officials who will carry both the rank-and-file union member and his employer down the legislative paths from free enterprise to Socialism. On the plant level, the employee continues to be under the thumb of the paid unionist. Today in America, international Socialists like Reuther and all-American goons like Hoffa are able to control the work-world of millions of citizens. They decide whether John Smith goes on strike, walks a picket line, pays an increase in union dues or coughs up an assessment to support a strike hundreds of miles away in another state. Promote Responsibility
While compulsory unionism is against public policy in 20 states that have right-to-work laws, the opportunity exists for right-to-work laws to be adopted in the other 30 states. It is up to the citizens of those states, however, to initiate affirmative action. The employer who supports a right-to-work movement because he thinks it may save his plant from being organized, or because he thinks it will break a union, could not be more mistaken. Right-to-work legislation is not designed to bust unions, even if that were possible in these days of government-assisted, rich labor organizations. Nor is right-to-work designed to stop further unionization. Right-to-work laws are enacted to make unions responsible organizations — responsible to the contracts they negotiate with employers and responsible to the public-at-large.

The Almanac

Today is Sunday, May 3, the 124th day of 1964 with 242 to follow.
The moon is approaching its last quarter.
The morning star is Saturn. The evening star is Venus. On this day in history:
In 1865, the body of assassinated President Abraham Lincoln arrived back in his home town of Springfield, Ill., after a journey from the nation's capital.
In 1939, Japanese bombers raided Chungking, China, setting fire to the heavily congested downtown area of the city.
In 1944, synthetic quinine was produced in a Harvard University laboratory from coal-tar products.
In 1948, the U.S. Supreme Court forbade the states to enforce those agreements that bind owners not to sell property to racial and religious minorities.
A thought for the day — French satirist Rabelais once said: "One each of joy surmounts one inch of grief a span, because to laugh is proper to the man."

NOW YOU KNOW By United Press International The index finger of the Statue of Liberty in New York Harbor is eight feet long, according to the World Almanac.

TOP SIDE—The USS Henry Clay demonstrates the fact that Polaris submarines can successfully launch missiles from the surface of the sea as well as they can submerged. In the space of 30 minutes, off Cape Kennedy, it launched one Polaris missile while submerged and one while surfaced.

Armstrong Disk Stays First on List of Hits

CHICAGO (UPI)—Louis Armstrong's "Hello Dolly" continued to set the pace among the nation's most popular tunes, a survey by United Press International showed Saturday. Armstrong's "Hello Dolly" held its lead for the second consecutive week, and was followed this time by "My Guy" done by Mary Wells.

"ESCAPE" FROM DODGE CITY—Dennis Weaver, long-time (nine years) assistant to Marshal Dillon "Gunsmoke's" Dodge City, moves to "Kentucky," with a California locale, next season. He'll play the part of a rich widowed rancher with an adopted son, Ricky Der, 10-year-old Chinese lad, shown at right.

VILLAGE HIT BY QUAKE

ATHENS, Greece (UPI) — The village of Klima on the Aegean island of Skopelos, 80 miles north of Athens, was devastated Wednesday by an earthquake. Reports from the island said 40 out of nearly 100 houses in the village were seriously damaged. Huge cracks in the village streets caused by earlier landslides were widened by the tremor.

Communist World Marks May 1, 'Day of Unity'

EDITOR'S NOTE: UPI correspondent Henry Shapiro has reported Soviet events from Moscow for more than 25 years. In the following dispatch, he examines the Communist world's split as the Reds celebrate May Day. That was May Day, which Communists traditionally observe as "the day of international solidarity of the working people, the day of unity and brotherhood of the workers of all countries."

Lamb County in the Texas Panhandle is almost square, measuring 30 miles from east to west and 34 miles from north to south.

By HENRY SHAPIRO MOSCOW (UPI) — The Communist world celebrated its "day of unity" Friday in disarray.

CAPRI ADULTS 85c CHILD 25c MO 4-2569 OPENS TODAY 12:45 A bold, blushing, outrageously funny movie... Dedicated to the proposition that every girl gets... sooner or later!

But because of the ideological and political dispute between Russia and Red China, the celebrations underscored the disunity rather than the unity of the Communist movement. Mao Tze-tung, Red China's powerful leader, sent formal congratulations even while his propaganda demanded that "revisionism, and capitulationist and traitor" Khrushchev be dispatched to "the junk heap of history."

The Russians dismissed the Chinese greetings as hypocrisy and the battle between Moscow and Peking for world influence has since increased in scope and intensity. "The Chinese leaders have brought their disagreements with the Communist movement to such stage where they virtually developed into differences on all basic questions," declared the chief Soviet party ideologist, Mikhail Suslov, last month.

Peking has left no choice to the Kremlin, in the opinion of many observers here, but to follow a policy orientated increasingly towards the West.

Texaco Announces Income for Quarter

LOS ANGELES — Consolidated net income of Texaco Inc. for the first three months of 1964 totaled \$146,661,369, or \$1.14 a share, it was announced here today by Augustus C. Long, Chairman of the Board. These earnings were 10.2 per cent above the comparable figure of \$133,076,117, or \$1.03 a share, for the first quarter of 1963. Mr. Long reported to the Annual Meeting of Stockholders.

The 1964 first quarter was the best such period in Texaco's history and included dividends from affiliates amounting to \$54,685,798, compared with \$50,156,973 for the similar 1963 period, Mr. Long said.

Excluding equity in affiliates, Texaco's gross production in the first three months of 1964 increased 5.1 per cent, refinery runs 4.7 per cent, and product sales 3.2 per cent over the same quarter a year earlier, he added. Results for the first quarters of both years include earnings of Texaco Maracaibo Inc., formerly the Superior Oil Company of Venezuela.

The Texaco Chairman forecast a 6 per cent increase in petroleum demand in the free world in 1964, and a similar annual rise for the next five years. He predicted that petroleum demand in the United States — the world's largest consuming area — would grow 2 to 3 per cent annually over the same period, and gross national product would rise 4 per cent yearly.

"This further rise will be brought about by basic factors such as the continuing growth in the nation's population and in personal income," Mr. Long said. "New families are being formed at a rapid rate, and their homes are being heated by oil and natural gas. Automobiles are being purchased at what seems now to be a normal rate of over seven million a year, higher horsepower is being demanded, and even the compact cars are becoming less compact," he noted.

Over the next five years, petroleum demand outside the U.S. is expected to continue to grow about 8 to 10 per cent a year, he told Texaco's stockholders.

Mr. Long reported the following highlights of recent Texaco operations:

In gross production of crude oil and natural gas liquids, Texaco's output in the Western Hemisphere this year has reached a record average of over one million barrels a day. In the United States, production of the Company is up 5.3 per cent above last year. In Venezuela, Texaco is producing 80,000 barrels a day from the former Superior properties. It expects its Lake Maracaibo production to exceed 100,000 barrels a day by the end of 1964. Its affiliate in Libya, which began producing at the end of 1963, will raise output by drilling about 20 new wells in 1964.

In manufacturing, Texaco is expanding its capacity with new plants planned or under construction in the U.S., Puerto Rico, Guatemala, Trinidad and the United Kingdom.

Mr. Long said that the Company is considering the direct entry into the manufacture of petrochemicals in Western Europe by building an additive plant, probably in the Ghent area of Belgium. A full line of additives for lubricating oils, greases, gasolines, and heating oils will be marketed to affiliated companies and outside customers. These products and processes stem from a whole new area of highly sophisticated research.

Mr. Long said expansion in the American economy was anticipated in large part, because of the recent tax reduction. The tax cut's biggest benefit to the oil industry "will come from the overall stimulus to the economy, and thus to petroleum demand," the Texaco Chief Executive Officer declared.

"However, Texaco's total payments to governments, including excise and other taxes that the Company is obligated to collect from customers on the sale of products, will go up again this year," he added. Such payments in 1963 exceeded \$1 billion and were almost twice Texaco's net income, Mr. Long noted.

Mr. Long defended the percentage depletion provision of the Federal Income Tax Law, which, he said, "has enabled the petroleum industry to provide the United States with an abundant supply of low-cost energy."

He denied critics' charges that the oil industry "evades its proper taxes, makes exorbitant profits, and charges excessive prices."

On taxes, Mr. Long pointed out that the industry's burden in direct domestic taxes, totaling \$2 billion a year, amounts to 5 per cent of its gross revenue. This is the same percentage for all manufacturing and mining, he said.

On profits, he reported that the industry's return on net worth amounted to a little more than 11 per cent last year, or slightly less than the average return of 11.5 per cent for all manufacturing industries. Of the 41 major industrial groups, Mr. Long stated, petroleum ranked 17th in return on net worth.

On prices, he cited last year's national average for gasoline — 20.1 cents a gallon excluding taxes — as being almost one cent less than it was in 1962, when percentage depletion was enacted.

Commenting on foreign operations of American companies, Mr. Long warned that such companies, "unlike their foreign competitors, face U.S. tax obligations on their earnings as soon as and no matter where these earnings may be generated."

"They cannot compete under this unfair tax burden," Mr. Long said, urging that such earnings be taxed only at the time they are remitted into this country.

The Texaco Chairman also reviewed the problems of developing countries which require foreign investment.

"Such governments as wish to attract business and industry on a long-term basis will recognize that expropriation of foreign-owned property is unfair and simply damages their own interests by discouraging further private investment," Mr. Long declared.

Many new and smaller countries are stagnating economically because their leaders refuse to understand this, he added. "It is generally held, and sometimes stated even by important officials in our own government to expropriate properties provided prompt and adequate compensation is made," he continued. "I challenge anyone to show where these criteria have ever been met."

In the final analysis, a contract is a contract. There is no ethical or moral difference between a contract involving two private companies and one involving a private company and a state. The sanctity of contracts must be recognized and preserved, and in the event of a difference of opinion the issue should be submitted to an international tribunal for final adjudication," Mr. Long concluded.

KEY CLUB WINNERS — Newly-installed President Jim Shelhamer, second from right, presents Carol Chase with the Student Leader of the Year award, Saturday night as Barry Peterson, left, and Ray Wagner, right, watch the ceremonies. Peterson was named winner of the Sandy Ninninger Award, based on ability, while Wagner was selected as Key Clubber of the Year, during the Pampa Key Club's annual banquet and Sweetheart Ball held at Coronado Inn.

NEW OFFICERS ARE INSTALLED

Girl Winner of Major Honor As Key Club Holds Banquet

Carol Chase, daughter of Dr. and Mrs. J. L. Chase Jr., of 2328 Duncan, became the first girl winner of the Student Leader of the Year award as presented Saturday night at the annual Key Club Banquet.

The honor was bestowed upon the pretty senior by Doug Alton, incoming vice president of the Pampa Key Club chapter, as one of the three highlights of the banquet which was attended by some 150 persons.

Miss Chase was joined by two other members of the senior class in accepting honors from the Key Club as the Sandy Ninninger and the Key Clubber of the Year awards were made. Named as winner of the Sandy Ninninger award was Barry Peterson, who was caught by surprise when his name was announced by Sam Williams, the young man he had just introduced to present the award. Peterson was acting as master of ceremonies for the banquet. Ray Wagner was selected as Key Clubber of the Year and received his award from Don Rexroad.

The Student Leader of the Year honor is based on overall leadership in school and its standing in the community. The winner does not have to be a Key Club member. The selection is made by a committee of school and Key Club adults and supervisors.

The Ninninger award goes to the person who "does the best with the ability he has" and is considered one of the highest honors a Key Club member can receive during his work in club activities.

Installation of officers was another feature in the program with I. Governor Mike Wise of Pampa handling the ceremonies, his first official act. These programs were developed by Key Club International office.

Jim Shelhamer, son of Mr. and Mrs. E. E. Shelhamer of 2101 Charles St., was installed as new president, replacing Joe Fischer Jr., son of Mr. and Mrs. Joe Fischer of 1429 Charles St.

Alton was installed as vice president while Richard Fatheree was named secretary. David Cain installed as treasurer and two directors, David McDaniel and Kenneth McWilliams, were installed to fill the senior and junior board slots. A sophomore director will be elected in September.

Fischer announced that Shelhamer and Fatheree would attend the International Key Club Convention in Dallas on July 10 this year. He also introduced the awards committee headed by Richard Steele, and composed of Wise, Fatheree, McDaniel, and Jim and Betty Jean Bergner presented special music prior to the installation of officers. Hank Henry introduced the dates of Key Club members in the absence of Cain, who is ill.

The banquet was held in the Starlight Room of Coronado Inn and was followed by the annual Sweetheart's Ball at 9 p.m.

RECORD COLD

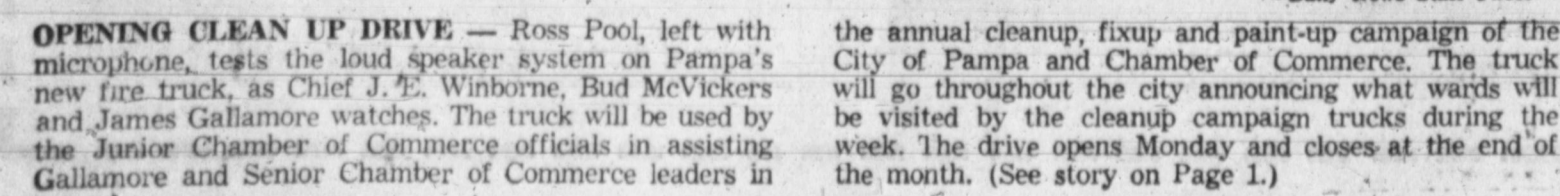

Record cold in which men have survived was the 90 below zero recorded in Siberia in 1933; 18 Americans at the South Pole came within a degree of that mark on April 2, 1957, when they reported a minus 89.

Mr. Long said expansion in the American economy was anticipated in large part, because of the recent tax reduction. The tax cut's biggest benefit to the oil industry "will come from the overall stimulus to the economy, and thus to petroleum demand," the Texaco Chief Executive Officer declared.

"However, Texaco's total payments to governments, including excise and other taxes that the Company is obligated to collect from customers on the sale of products, will go up again this year," he added. Such payments in 1963 exceeded \$1 billion and were almost twice Texaco's net income, Mr. Long noted.

Mr. Long defended the percentage depletion provision of the Federal Income Tax Law, which, he said, "has enabled the petroleum industry to provide the United States with an abundant supply of low-cost energy."

He denied critics' charges that the oil industry "evades its proper taxes, makes exorbitant profits, and charges excessive prices."

OPENING CLEAN UP DRIVE — Ross Pool, left with microphone, tests the loud speaker system on Pampa's new fire truck, as Chief J. E. Winborne, Bud McVickers and James Gallamore watches. The truck will be used by the Junior Chamber of Commerce officials in assisting Gallamore and Senior Chamber of Commerce leaders in the annual cleanup, fixup and paint-up campaign of the City of Pampa and Chamber of Commerce. The truck will go throughout the city announcing what wards will be visited by the cleanup campaign trucks during the week. The drive opens Monday and closes at the end of the month. (See story on Page 1.)
