Soviet-Chinese Split Looms as Certainty

Record Traffic Toll Noted for Holiday Period

Actual Death Rate Per Miles Traveled Lowest in Years

By United Press International
A record number of traffic deaths occurred on the nation's streets and highways during the Memorial Day weekend. But the National Safety Council said today the actual death rate per miles traveled was one of the lowest in years.

A United Press International count showed 421 persons dead in traffic during the holiday period from 6 p.m. Thursday until midnight Sunday.

A breakdown showed:
Traffic deaths 421
Drownings 60
Planes 5
Miscellaneous 73
Total 559

California again led all states in the number of traffic accidents, 36. There were 30 in Texas, 23 in New York and 21 in Illinois. Pennsylvania had 19, Michigan 18, Oklahoma 16, Ohio 15 and Alabama and Missouri 14 each.

The traffic death count soared past the previous record of 371 persons killed over a similar Memorial Day holiday.

One minor accident early Saturday morning that slightly injured two Pampa women was the only accident investigated by Pampa police or highway patrolmen over the holiday period.

Police Chief Jim Conner said it was an unusually quiet holiday period with police activity at a minimum.

period last year. The safety council had estimated that between 410 and 490 persons would die during this year's 78-hour holiday.

A safety council spokesman said the actual death rate per mile this Memorial Day weekend may have been the lowest in years. Motorists this weekend drove an estimated 1.6 billion more miles than they did in the 1958 Memorial Day weekend, the council said.

Only four states had perfect safety for the weekend: Alaska, Delaware, Hawaii and Rhode Island.

The worst tragedy of the holiday

Negro to Be Admitted to Alabama U.

By United Press International
Josephine Powell, one of two Negroes to be graduated without incident Sunday at previously all-white West End High School in Birmingham, Ala., has been admitted to the University of Alabama. It was reported Sunday night.

The Birmingham Post-Herald said it had learned from the girl's attorney that she has been accepted by the university for the fall term.

Jefferson Bennett, administrative vice president of the university, said it was the school's policy not to comment on "any one else's" statements concerning applications or students.

Miss Powell's attorney, Oscar Adams Jr., will hold a news conference this week on her future plans, according to the girl's mother, Mrs. Clarence Powell.

LBJ Greets Israeli Leader in Capital

WASHINGTON (UPI)—President Johnson welcomed Israel's Prime Minister Levi Eshkol to the United States today with an assertion that "it is not only possible but imperative" that Israeli-Arab problems be peacefully resolved.

Johnson greeted the Israeli leader, here for a three-day official visit, at a ceremony on the White House south lawn. Eshkol was accorded full military honors.

"We are aware of the problems of political adjustment Israel faces with her neighbors," Johnson declared. "We know it is not only possible but imperative that these problems be peacefully resolved, bringing justice for all as well as security for all."

The President said he was confident that Eshkol's visit — which was protested last week by Arab ambassadors — will "result in increased understanding between us and strengthening

Final Breakfast Program of CofC Planned Tomorrow

The final spring program for the Chamber of Commerce Congressional Action Breakfast will be held at 7 a.m. Tuesday in the Starlight Room of the Colorado Inn.

Dr. James D. Bales, a member of the staff of Harding College at Searcy, Ark., will bring a program on Communism.

Dr. Bales is appearing in a local church during the week and is a noted authority in this field. The program promises to be of great informational benefit and will be in line with our non-partisan approach.

BAUGH REPLACES OILER COACH IVY

HOUSTON (UPI) — Houston Oilers today fired Frank Pop Ivy as general manager and head coach and replaced him with former pro great Sammy Baugh.

Adams said he took the action for the "general climate of professional football in Houston."

Former assistant general manager Carroll Martin was named the new general manager. Baugh, who had an unsuccessful tenure as coach of the New York Jets, then the Titans, was named recently as backfield coach of the Oilers.

Danish Mermaid, With New Head, Back on Pedestal

COPENHAGEN, Denmark (UPI) — The little mermaid of Copenhagen, her new head in place, was put back on her pedestal overlooking the harbor today after a five-week absence.

Vandals had decapitated her April 25. A truck delivered the life-size bronze statue of the fairy-tale creature from a foundry, where a new head was affixed, to the harbor side. A crane gently lifted her back to the rock she has occupied for 51 years.

She gazed out again with that smile world tourists and Danes know so well and on the city that loves her like a daughter.

Laos Coalition Appears to Be Disintegrating

VIENTIANE, Laos (UPI)—The formal end of Laos' coalition government appeared imminent today as a result of the Communists' decision to pull all their troops and officials out of the capital.

Vice Premier Prince Souphanouvong, leader of the Communist Pathet Lao faction, notified neutralist Premier Souvanna Phouma of the decision in a telegram during the week-end.

The Communist move became known as American leaders gathered in Honolulu for strategy meetings on the Southeast Asia situation, including Laos.

Souphanouvong charged that the Communist officials could not function properly because of the neutralist-rightist union and claimed their lives were in danger.

The coalition government of rightists, neutralists and Communists, set up by the 1962 Geneva conference on Laos, has not been functioning effectively as a unit since the Pathet Lao offensive on the Plaine des Jarres began last month.

In London, it was learned today that all but 5 of the 14 signatories of the Geneva agreement on Laos will shun the Western-supported meeting to discuss the crisis this week in Vientiane.

Only Britain — which proposed the meeting — the United States, Thailand, Canada and South Viet Nam have agreed to take part in talks aimed at establishing an immediate cease-fire in Laos and the withdrawal of Laotian Communist troops to their old positions.

But if the Communist officials and troops leave Vientiane as expected, it would sever the last physical links of the Pathet Lao with the government, and all semblance of the coalition would be ended.

Souphanouvong's telegram was reported by Communist broadcasts which said it was sent Saturday. The telegram asked Souvanna that Communist troops and officials be allowed to leave Vientiane unhindered.

Absentee Vote Light in Gray

A total of 13 absentee votes have been cast so far in the Gray County Clerk's office for the June 6 runoff election.

Both the Republicans and Democrats have one contested race.

In the Republican contest, George Bush faces Jack Cox for the GOP nomination for U.S. Senator and the right to face incumbent Ralph Yarborough in the November general election.

The Democratic runoff pits incumbent Congressman - at Large Joe Poole against Robert Baker.

Absentee voting will end at 5 p.m. tomorrow.

Of the 13 votes cast, Republicans have cast nine and the Democrats four.

Final Break Due In Communist Camp

By HENRY SHAPIRO
MOSCOW (UPI) — Hints by the Russians during the weekend indicated today that the Soviet Union is moving rapidly toward a final break in state and Communist party relations with Communist China.

The Kremlin also virtually conceded that the world Communist camp has been shattered irreparably, and that it must concentrate on consolidating a Moscow-led bloc.

The Kremlin also virtually conceded that the world Communist camp has been shattered irreparably, and that it must concentrate on consolidating a Moscow-led bloc.

The Russians hinted over the weekend that they may recall their ambassador from Peking and reduce their embassy staff to the caretaker level.

The government newspaper Izvestia said the Soviet Union had been compelled to take "political counter-measures" against Albania because that tiny nation had been "cold-bloodedly" egged on by Peking in the political struggle with Russia.

By "political counter-measures", the newspaper obviously was referring to the expulsion of Albanian diplomats from the Soviet capital in December, 1961. Izvestia indicated the Kremlin may do the same with the Chinese.

Laos Coalition Appears to Be Disintegrating

VIENTIANE, Laos (UPI)—The formal end of Laos' coalition government appeared imminent today as a result of the Communists' decision to pull all their troops and officials out of the capital.

Vice Premier Prince Souphanouvong, leader of the Communist Pathet Lao faction, notified neutralist Premier Souvanna Phouma of the decision in a telegram during the week-end.

The Communist move became known as American leaders gathered in Honolulu for strategy meetings on the Southeast Asia situation, including Laos.

Souphanouvong charged that the Communist officials could not function properly because of the neutralist-rightist union and claimed their lives were in danger.

The coalition government of rightists, neutralists and Communists, set up by the 1962 Geneva conference on Laos, has not been functioning effectively as a unit since the Pathet Lao offensive on the Plaine des Jarres began last month.

In London, it was learned today that all but 5 of the 14 signatories of the Geneva agreement on Laos will shun the Western-supported meeting to discuss the crisis this week in Vientiane.

Only Britain — which proposed the meeting — the United States, Thailand, Canada and South Viet Nam have agreed to take part in talks aimed at establishing an immediate cease-fire in Laos and the withdrawal of Laotian Communist troops to their old positions.

But if the Communist officials and troops leave Vientiane as expected, it would sever the last physical links of the Pathet Lao with the government, and all semblance of the coalition would be ended.

Souphanouvong's telegram was reported by Communist broadcasts which said it was sent Saturday. The telegram asked Souvanna that Communist troops and officials be allowed to leave Vientiane unhindered.

1964 Traffic Count Deaths-0 Injuries-51 Accidents-254 792 CONSECUTIVE DEATHLESS DAYS

LONDON (UPI) — Two large signs outside a Westminster telephone exchange read: "Do not park between these signs."

Mystified motorists cannot understand why three parking meters are situated in between the signs.

BOUND FOR CONTEST — Cathy Wilkie, 14, daughter of Mr. and Mrs. Glenn Wilkie, 604 Sloan, and Mrs. Juanita Channel, assistant county home demonstration agent, left this morning for the 4-H Round-up to be conducted at College Station Wednesday. Cathy, a District I winner in the Favorite Foods Show, will enter her "Glory Cake With Apricot Filling" in the statewide contest. She is a member of the Top O' Texas 4-H Club.

Rocky, Barry Scrap For Coast Primary

SAN FRANCISCO (UPI) — Sen. Barry Goldwater and Gov. Nelson A. Rockefeller kept fighting for votes today in the final hours of a California presidential primary campaign with managers of both candidates predicting victory.

The two Republican presidential candidates are matched in Tuesday's critical primary contest — the last and most important presidential primary of 1964. The winner gets 86 national convention votes.

Rockefeller was flying back overnight from New York, where his son, Nelson Jr., was born Saturday, for a 1,500-mile hedge-hopping trip up and down the state by chartered plane. His schedule called for 12 airport stops beginning this morning at San Diego, up as far north as Chico and back through San Francisco to Los Angeles.

If both Rockefeller and Goldwater keep their schedules, they will be holding separate rallies tonight, less than an hour apart, at Los Angeles. Goldwater planned to fly this afternoon from Washington for his airport appearance and possibly a news conference at Los Angeles. He also will appear on a state television hookup tonight.

Public opinion polls continued to indicate that Rockefeller was ahead by what would seem to be a safe margin. However, the poll-takers were qualifying their forecasts and a larger percentage of the Goldwater vote would turn out than of the potential Rockefeller support.

Victory forecasts came Sunday from Sen. Thomas H. Kuchel, chairman of the Rockefeller campaign in California, and former Sen. William F. Knowland, the Goldwater chairman.

They appeared jointly on the National Broadcasting Company's "Meet The Press."

Knowland said his belief that Goldwater would win by 500,000 votes was buttressed by big turnouts for the conservative Arizona senator at campaign rallies Saturday. About 2 million of the state's 2.9 million registered Republicans are expected to vote.

Kuchel said Goldwater was drawing support from a number of extremist volunteer groups which were a "menace" to the California GOP. He also charged Goldwater with voting against "responsible Republicanism" in a number of senate votes.

Defense Secretary Robert McNamara, accompanied by the chief of the Joint Chiefs of Staff, Gen. Maxwell Taylor, also will take part in the talks.

On hand here to greet them and to act as host for the two-day session was Adm. Harry D. Felt, commander in chief of Pacific forces.

Subway Gang Terrorizes Passengers

NEW YORK (UPI) — Gangs of teen-aged toughs rode the subways Sunday, causing violence, vandalism and long minutes of terror for fellow passengers.

Incidents occurred on four different trains in Brooklyn and Manhattan. A 17-year-old boy was knifed and another suffered a concussion from a blow to the head with a bottle.

Other passengers were kicked, beaten, robbed and terrorized with a meat cleaver.

Police rounded up 21 young hoodlums, all Negroes. A number of others escaped. Most of the victims were white.

The most serious incident occurred in Brooklyn at 2:30 a.m. on board an IND train making a run on elevated tracks from Coney Island to the Kings Highway station. Twenty Negro youths got aboard at Coney Island and beat and robbed white passengers, smashed windows and shattered 200 lightbulbs.

A few stops away, the vandals poured out into the street, smashing store windows, destroying displays and stealing \$90 from a cash register at one store. Police prevented enraged white residents of the area from attacking the teen-agers.

Mavor Robert F. Wagner responded to news of the violence with an order to the Transit Authority (TA) for an immediate report on the incidents. Brooklyn Dist. Atty. Edward S. Silver ordered a thorough investigation saying: "The safety of the riding public comes first."

Civil rights leaders deplored the weekend of terror. But they said it was a sign of the growing anger and frustrations of Negro youth in the face of the city's "failure" to move ahead in the field of equal rights and opportunities.

James Farmer, national director of the Congress of Racial Equality (CORE), said the "alleged acts of vandalism and violence are to be condemned no matter who the perpetrators are." But he said it was "a sign of frustration and anger building up... even if the kids couldn't consciously explain it that way."

If it comes from a hardware store we have it. Lewis Hdw. Adv.

The Doctor Says

By WAYNE BRANDSTADT
For many unstable persons, there is a certain fascination about taking drugs that pep you up, knock you out, or cause hallucinations or a dream state.

Since time began, man has used such drugs as alcohol, morphine derivatives, hashish, ether, marijuana and loco weed for such purposes.

In recent years, science has added amphetamine (Benzedrine), tranquilizers and, most recent of all, lysergic acid dimethylamide (LSD). None of these have solved man's fundamental problem — failure to appreciate being alive, alert and able to take nourishment.

It is not uncommon, therefore, to find that the type of person who experiments with one kind of jag will be a willing candidate for one or more of the others listed. Some of these cause true addiction with punishing withdrawal symptoms. Others merely cause habituation or emotional dependence.

Thus a person with neurotic tendencies may take a pep pill on arising to get him started, a tranquilizer as the pressures of the day begin to bear in on him and a sleeping pill on retiring so that he can get some rest.

Since LSD is the latest, most powerful, and least understood of the so-called mood drugs, let's see what it can do for those who use it. The effects are so unreliable that one can't predict what effect will be produced — except that it will be weird. Users have described the experience as a combination of heaven and hell. They sometimes remember that it made them aware of the secrets of the universe. But the details escape them when they return to normal.

One user started sobbing a few minutes after taking the drug and couldn't stop for several hours. A truly wonderful experience but he later admitted that for him at least there was more of hell than heaven in his dreams. No one knows what a safe dose is, but it must be extremely small. Several students who decided to find out for themselves about LSD were hospitalized for several weeks after they took "an infinitesimal dose."

Another user was kept in a mental institution for six months before making what may or may not be a complete recovery. The drug cannot be obtained legally except for experimental use. However, a vast black market has already sprung up in the larger cities to cater to those who want their kicks from drugs and who have not yet learned of the great potential dangers involved in using LSD.

Built-in uniformity for meat comes in the form of a slicing knife with a patented control guide that turns out slices from paper-thin to half an inch thick. Set the dial on the knife handle and it works equally well in slicing, carving and shredding cheese, bread, fruit and vegetables. (Magna Wonder Knife, 61 West 23rd St., New York, the pennies in his mouth.)

DEAR POLLY — To keep ice cream cones from getting soggy in the bottom while little children dawdle over them, try dropping a small marshmallow in the bottom of pointed cones and a round cookie in the flat bottomed ones. Fill the cones just level for tiny tots.

DEAR POLLY — I have found that cotton flannel in children's designs is wonderfully practical to use for making curtains for the youngsters' bedrooms. They look cute and cozy and when you tire of them, they can be made into pajamas or play clothes. This is very useful for me as we move frequently and do not want to put much money in curtains that we may not be able to use again.—MRS. H. M.

GIRLS—Many of you might like to latch on to this basic idea, but use cotton prints in patterns that would be appropriate for children's clothes. There would be a greater choice of patterns and cotton would be more suitable than flannel for year round use as curtains.—POLLY

Dear Abby... Tell Her You Read It, Then It's Her Move!

By ABIGAIL VAN BUREN

DEAR ABBY: I have been married for six years and have never suspected my wife of anything. While searching for a match I looked in her coat pocket and came across a letter addressed to her mother's house. I became curious and read the following:

It was so good to hear your voice again. During I am glad you still feel the same about me. As long as you can't love your husband, how long will it take you to get a divorce?

I have not told her I read the letter. I was so hurt I just froze. The letter was signed with an initial which meant nothing to me. Where do I go from here? P. S. Yes, we have children.

SICK

DEAR SICK: Go to your wife and tell her you read the letter. The next move is hers.

DEAR ABBY: My husband and I are nearing 50. My father, who is 80, lives with us. We let him know that our home is his home, and when we entertain he is made to feel as welcome as any guest. Here is my problem, and please don't think I am terrible. My husband and I never have any time alone. If we go to the kitchen for coffee, Papa parks himself right there. Sometimes my husband and I want to discuss something in private, but it has to wait because of Papa. How does a daughter go about telling her own father that she would like a few minutes alone with her husband once in a while? Papa is of sound mind, and in good health for his age. He has been with us 16 years, although he has other children he could have lived with. This is the first time I have considered mentioning something to him about this. Should I?

lem" to him gently and with good humor. If he is of "sound mind" he won't resent it. If he does, your problem is bigger than you know. And you could face years of unnecessary unpleasantness and tension.

DEAR ABBY: This is for BUSY MOTHER, whose children answer the phone, "Who is this?"

My son is a lawyer and he has four children ranging from five to eleven years of age. He once overheard his daughter answer the telephone. "Nobody is home. Goodbye." My son was furious. He lined them all up and taught them to say, "This is the Joseph residence. Linda speaking." Why can't other parents do this?

GRANDMOTHER M.

DEAR GRANDMOTHER: They can. And they probably would if they ever caught their youngsters answering the telephone the way your grandchild did.

DEAR ABBY: You seem to have a lot of complaints about the way children answer the telephone, but I wish you would say something about the way their PARENTS should conduct themselves on the telephone. I am a 16-year-old girl, and boys call me quite a lot. When my father calls me to the phone, he yells at the top of his voice, "MISS AMERICA... TELEPHONE!" I hope you print this. Maybe he'll realize how childish it is and stop clowning.

NOT Miss America

Problems? Write to Abby, Box 69700, Los Angeles, Calif. 90069. For a personal reply, enclose a stamped, self-addressed envelope.

Hate to write letters? Send one dollar to Abby, Box 69700, Los Angeles, Calif. 90069, for Abby's booklet, "How To Write Letters For All Occasions."

POLLY'S POINTERS

DEAR POLLY — When I work buttonholes in any material that ravel or stretches, I mark a line where I want the buttonhole, just the length it should be. Then buttonhole stitch on each side of the line as close as possible and still leave enough room to make a slit along the line. For this I use a razor blade or very sharp pointed scissors.

When ironing a blouse or dress with lace or tucks on the front, lay the garment on a turkish towel with the lace or tucked side down, then iron on wrong side. G. P.

DEAR POLLY — I always buy an extra pair of shoelaces with each pair of new shoes or when I am replacing laces for our family of five. Youngsters are very hard on them, and this one little service, which takes a minimum of time and money has saved many a good disposition. There is no last minute rush or disorder at our house over a broken shoelace. MRS. J.H.

DEAR POLLY — My hint is for the mother of a young child who hates to get out of the bathtub and leave his toys. Just wait until the water gets soapy enough so he cannot see the bottom of the tub and drop a few pennies in while he watches. He will gladly let the water run out while he looks for the "hidden treasure." Do keep up the good work. — Mrs. R. E.

GIRLS — I can well imagine how a youngster would be intrigued with this idea and more so if he can put the pennies in his "pizzet" bank. However, if a child is small do not leave him alone so he would have a chance to put

You won't long for the good old days if you're a golfer. See for yourself (left to right) who has the best chance for a mighty swing. Miss Gladys Ravenscroft, Women's Amateur Golf Champion of 1913, wears a black and white wool skirt, seven inches from the ground and a cardigan bulging with equipment. The final touch—her wooly wristlets. Stepping up in time to 1950 (not too long ago), Beverly Hanson, then Women's Amateur Champion, is dressed in that year's version of a free-swinging outfit—

short-sleeved knit shirt, red gabardine skirt, 13 inches from the ground, ankle socks and spiked golf shoes. Miss 1964, next, may not be a champion, but she could fool anyone until the time she tees off. Etone designed her liberated golf clothes. A simple print blouse in dacron and cotton is teamed with rayon linen-weave shorts and sturdy butterscotch and bone golf shoes. For rainy or windy days on the course she wears an abstract print lightweight jacket which can be tucked into her golf bag when not in use.

Allegro Installs New Officers

Mrs. Will Graham hosted the annual Spring Luncheon of Twentieth Century Allegro recently. Mrs. J. R. Reeve was installation official. Taking over the presidency of the club was Mrs. LeRoy Ogden; Mrs. Will Graham, vice president; Mrs. R. H. Cory, secretary; Mrs. D. W. Hayes, reporter; Mrs. Charles Walsh then installed Mrs. Reeve as treasurer. Mrs. George Cree, the incoming parliamentarian, was unable to attend.

In addressing the officers, Mrs. Reeve said, "In order for the work of any organization to function effectively, there must be harmony among the officers. If the harmony is delightful as it should be and can be, the work of each officer must be thoroughly synchronized with the work of all other officers, or the timing will be imperfect. The work will drag where it should be speeded up, or efforts will be prematurely launched. This being true, the group of officers whom you have chosen to lead you in your work for the coming year may be likened to an orchestra. Frances, as president of Twentieth Century Allegro, you bear the same relationship to it as the director bears to an orchestra. It should not be necessary for him to play any instruments in the orchestra but it is very important for him to know how each should be played and to be able to take over any instrument and show the musician how difficult passages in a score should be interpreted. Then when each member of the orchestra understands how his part should be performed, not a single sound is heard which is personally produced by the director, but at each movement of his baton strains of melody flow forth as each musician in perfect harmony follows the directors leadership. To produce the sweetest sounds, there must be a harmony of thought and action on the part of the whole orchestra. Imagine, if you can, an orchestra in which each member plays his part as he pleases. That would not be an orchestra... only clatter and clashing of sounds. Harmony comes when each looks to the conductor and follows his leadership.

NEW YORK (UPI)—A new portable infrared grill with glass-ceramic burner operates on either propane or natural gas. The grill is equipped with a valve that fits a one-pound propane bottle, the type used in home workshops. Adapter valves are available for larger LP-gas tanks and household natural gas outlets. Foods cook on a chrome grid that fits into a glass-ceramic broiler-bake tray. Both units slide in and out easily on side bars resembling those of a house hold oven, with locking tabs to prevent their slipping from the rack glides.

theme of the number. If for some reason the director finds it necessary to step aside, the piano proceeds to lead the orchestra to a finished performance, and the audience may not be mindful of the fact that the director is away. You, as vice-president, are charged with the responsibility of working in such harmony with the President that if for some reason the President can not be present you can carry on the work.

"Grace, the drums are rhythm instruments in the orchestra, the work of the secretary is to the organization as the work of the drums is to the orchestra. All progress is indicated by the records of the secretary. If no work is accomplished, she has nothing to report, but when the work is thriving and much is being done her pen is busy, just as the drummer - stick is busy when the movement of the music is accelerated. If the secretary fails to keep proper records there is no way for other officers to know the weakness or progress of their work; but just as the drum beats, if the secretary is regular in the performance of her duties she sets the tempo and furnishes the cue for the others in the accomplishment of their work.

"Barbara, in ancient times the trumpet was used to issue proclamations and in its present orchestral use, it frequently introduces the beginning and ending of a movement or theme. It is the duty of the reporter to trumpet the news of Twentieth Century Allegro. The trumpet is a fitting symbol of the reporter and even as the trumpets' sound must be clear and distinct, just so must the publicity be — informing and understandable. The trumpet player may not make many appearances in the performance of a number, but the appearances he does make are important, and they

must be made on time. A good reporter must get her story to the paper before the deadline.

"Katherine, your work in this organization is likened to sheet music, silent and sometimes unseen. However, without this there would be no music. The orchestra would not know when to begin and when to end and nothing would be accomplished. By collecting dues promptly and following the budget, we know where to begin and where we are going. The music is written and we must follow it. The harmony of this organization will not be accomplished without the cooperative efforts of the entire membership. An instrument that is out of tune creates discords in the music and destroys the effect of all the other instruments. Let's all work in harmony."

Each officer was presented with a symbol of her new responsibility. The outgoing president Mrs. Will Graham received a gift in appreciation of her work from the members of the club.

Skellytown P-TA Holds Final Meet

SKELLYTOWN (Sp) — The Skellytown P-TA held the final meeting of the year in the school cafeteria with Mrs. Melvin Beigel, president in charge of the business meeting. Mrs. Ernest Pulse, District 19 vice president, installed the new officers for the coming year. Installed were president, Mrs. C. D. McCloud, vice president, Mrs. G. C. Huckins, treasurer, Mrs. John Banks, parliamentarian, Mrs. LeRoy Snodgrass, and reporter, Mrs. H. K. Phillips. The Skellytown Band under the direction of the band leader, Mr. Mel Harp, gave an enjoyable concert. During the fellowship hour refreshments were served by Mrs. Gene Harlan, hospitality chairman. The Skellytown P-TA wishes to extend their heart-felt gratitude to the officers, committee men and its members for their cooperation.

Five Residents OK Boat Mishap OK

The last of five Pampa residents who were injured in a boating accident at Conchas Dam near Tucumcari, N. M. Friday evening were released from the hospital there yesterday.

Mr. and Mrs. J. T. Richardson of 1616 Williston were dismissed from Dan Trigg hospital late yesterday after being admitted Friday evening following the accident.

Also injured were Fred Alvey of 2100 Christine, Laughton Branscum of 201 Miami and R. C. Cary of 907 Somerville.

Alvey received a laceration of the face and was treated and released. Branscum and Cary both received minor chest injuries and were dismissed Saturday.

The accident occurred about 6 p.m. Friday as the five were riding in a boat that struck a rock. The boat didn't capsize but it did spring a leak. Nearby boaters came to the rescue and took the occupants to the shore. They were then taken to the Tucumcari hospital for treatment.

BASEBALL QUEEN — Ann Monroe, daughter of Mr. and Mrs. W. H. Monroe, 1806 Chestnut was erroneously listed as the daughter of Mrs. Faye Monroe in Sunday's edition of the News. Ann is Queen of the First National Bank Babe Ruth League baseball team.

Mike Conway, Harvester baseballer of 1959, and Mrs. Conway are visiting relatives in Pampa. Mrs. Roberta Wood of 903 E. Francis and Mr. and Mrs. A. D. Conway of 2245 Christine. He recently received his master's degree in mathematics from North Texas State University. He has accepted a position as aerospace technologist with NASA in Houston. She is the former LaVeda Naylor of Pampa.

Golden Spread Group of the Alcoholics Anonymous will meet each Thursday at 8 p.m. at 532 Reid.

Home Fire Causes Extensive Damage

A pre-dawn blaze at the home of Danny R. Reed, 712 N. Nelson, caused extensive fire damage to the kitchen and smoke damage to all rooms of the three-bedroom house.

Reed called the fire department at 4:20 a.m. when he awoke and found his house filled with smoke.

The fire was blamed on leaking gas from a refrigerator. No estimate of the amount of damage was made.

The blaze completely gutted the kitchen and caused smoke damage in all rooms of the house.

SUGGESTIONS FOR YOUTH AND PARENTS

(Editor's Note: — The following is one of a series of brief, informative articles to be published daily in the News. They are designed to offer aid and advice to young people as well as their parents. The series is furnished as a service of Juvenile Officer Bill Leonard and the Pampa Police Department.)

SEX DELINQUENCY

A few boys and girls in their teens sometimes become sex delinquents. Experts say some young people get into this kind of trouble because of lack of love and understanding at home. The best preventive measures would seem to be a normal, happy home life and proper instruction in the home in order to avoid tragedy because of ignorance.

13-Year-Old Boy Questioned on Laundry Theft

A 13-year-old Pampa youngster was undergoing questioning by police and juvenile authorities this morning after admitting breaking into a coin box at the Red and White Laundry, 700 E. Craven.

The youth was apprehended by police after a neighbor reported seeing him near the laundry prior to the burglary. The boy told police he pried open a coin box on one of the washing machines and took 40 cents in change.

The incident occurred shortly after 10 p.m. Sunday night.

STRUCK BY LIGHTNING SOUTHAMPTON, England, (UPI) — Mrs. Joan Marion Evans, was killed Sunday during a thunderstorm when a lightning bolt struck the zipper on her dress.

Former Sheriff On Trial Tuesday

CIEBURN, Tex. (UPI)—Former Somervell County sheriff and tax assessor-collector Paul Bone goes on trial Tuesday on charges of misapplying more than \$22,000 in county funds.

Bone, who disappeared from his Glen Rose, Tex. home in March, was arrested as he returned to this country from Mexico April 29 at El Paso, Tex.

He admitted his accounts were short — "but not that short"—referring to an audit which showed a discrepancy of \$21,544.72 in county funds, \$935.72 in state funds, and \$311.05 in school tax funds.

He said he left the country "because it seemed like the walls were closing in and I needed time to think."

Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain — without surgery. In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Dyne®)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form under the name Preparation H®. At all drug counters.

THE DODGE BOYS LEAVE THE RING!!

57TH YEAR MONDAY, JUNE 1, 1964 5

White Sox Mystify With Surge to Top

By United Press International
One of the mysteries of the American League pennant race has been how Al Lopez manages to keep his Chicago White Sox atop the league standings. Despite the absence of a consistent .300 hitter and the fact that their winningest pitcher has yet to go the distance, the White Sox climbed into first place Sunday with a double victory over Detroit, 5-3 and 8-3.

The merry month of May had Lopez ecstatic as his men jumped on rivals for 19 victories while being set down only seven times. During the off-season, Lopez dealt his second baseman for a decade, Nellie Fox, to Houston and found himself on opening day without the services of his leading batter, Pete Ward. Ward injured his back in spring training and wasn't in the regular lineup until May 10, but newcomers Tom McCraw, Al Weis and Don Buford have lifted the White Sox to their lofty position.

Chicago gained sole possession of the top spot by a half game in sweeping the four-game Tiger series during the weekend while the Orioles took a three game set from the Angels. Ward's fifth home run of the year sparked Sunday's first game for the White Sox as relief ace Don Mossi and Hoyt Wilhelm blanked Detroit over the final four frames. Frank Kreutzer received his second win in as many decisions by pitching two-hit ball in middle inning relief. Wilhelm came on in the eighth inning when 1963 rookie of the year and 1962 game winner Gary Peters tried and failed for the 10th time to produce a going performance. The slim lefty was credited with his sixth win against two losses.

Other AL Action
In other AL action, Baltimore nipped Los Angeles, 2-1; Kansas City downed New York, 4-2; Boston edged Minnesota, 4-3; and Cleveland took two from Washington, 9-6 and 8-3. Baltimore's Steve Barber, hobbled with a bad back, registered his first victory of the year after winning 20 last season. Working seven frames, he gave up only three hits, two singles, a Bo Belinsky balk and an infield out accounted for the winning run. The Angel southpaw suffered his third loss to go with two wins.

Homer Wins Game
Wayne Causey's seventh inning home run, following two walks, gave the A's their win over reliever Hal Reniff after the Yanks had taken a 2-1 lead in the top of the frame on Mickey Mantle's two-run pinch single off John O'Donoghue.

Felix Mantilla's ninth inning pinch double off Lee Stange scored Frank Malzone from second base with the winning Boston marker. It was Stange's fifth defeat. Dick Radatz fanned Zoilo Versalles and Len Green in the last of the ninth with a man on second to save Earl Wilson's third win. Mike Brumley's passed ball opened the gates for a two out, four-run Cleveland rally in the ninth inning of the opening game at Washington.

Round-trippers by Woody Held and Leon Wagner, the latter's second of the day, helped Gary Bell boost his lifetime record over Washington teams to 14-3 in the finale.

There were demands, in some quarters, that the use of gasoline be banned in USAC races. Andy Granatelli, owner of the three-car Novi stable, flatly blamed the second-lap crash in full view of many thousands of horrified spectators on lightweight cars and "due to the fact these cars run on gasoline."

"Gasoline is highly inflammable and explodes," he said. "You can light it with a match. You can't light methanol with a match."

Two-time winner Roger Ward, the runnerup who drove one of seven machines powered by Ford engines mounted in the rear, said his crew made changes "at my insistence" the night before the race so he could use a fuel blend.

The other six Ford-powered cars ran on gasoline which, under certain conditions, is more dangerous than blends, according to fuel expert Ray McMahon. But McMahon cautioned against any hasty decisions. "Regardless of type fuel used, there would have been a fire," he said. "It was that type of crash. Maybe they should make a more careful study of fuel tanks rather than rush into a ban on gasoline."

USAC officials said an investigation of the tragedy which knocked seven cars out of the race was underway. They also said there is no rule specifically prohibiting the use of gasoline in auto racing.

Sporting Sidelines

by JEFF COHANE

ANOTHER of the TCU baseball team has returned home to play with the Pampa Colts this summer in the person of Mike Stewart.

Friendly Mike will be playing a different position this summer than local fans have ever seen him play, as the long-time high school, American Legion and Colts' catcher will be in the outfield.

Mike explains that coach Frank Windeger decided to switch Mike to the outfield for the good of the team, despite the fact that Mike had been playing second-string catcher this spring behind graduating all-conference Freddy Jones.

MIKE reported that he had played some outfield as a freshman, but had come back out for catcher as a sophomore because "I'd rather catch than do anything else." Mike continued "I guess coach just wants me to play where I can benefit the team most. . . we have a real good freshman catcher, Ron Edens, a good hitter who can't play anywhere else and coach feels I can play outfield too, so this way he gets both positions covered and both of us earn our scholarships. I guess he must have some confidence in me, I'm to replace Jay Walrath in left field. Jay was a three-year all-SWC and just signed with the New York Yankees. I'd rather catch, I admit, but if that's where he wants me, that's where I'll play. . . and I guess I'll play that position with the Colts this summer to get more experience."

The good-looking Stewart played in almost every game for the Froggies, coming in the late innings as a catcher or pinch-hitter, blushingly admitting to only one hit. . . but that one a home run. Mike was a catcher for three years at Pampa High, making all-district in his senior year, caught two years for the Pampa Rebels and last year for the Pampa Colts.

MIKE is another baseballer who comes from an athletic family, his father Lester, having played both baseball and basketball in high school. Mike having also played both football and basketball for three years with the Harvesters. His younger brother Rick is following the family pattern, having also been a three-sport man at PHS, heading for a combined baseball and basketball scholarship at Arlington State, and currently playing his third season for the Rebels.

REVIEWING THE PROSPECTS of the Tri-State League this year, Mike admitted that the loss of Liberal and Woodward would hurt it badly. "They had good teams, and the more good teams in the loop, the better your team is going to be." The player who impressed him most last year? Carl Shreiner of Liberal. "Probable standout this year?" Mike agrees with teammate Keith Gregory of Donnie Anderson of Stinnett, Texas Tech catcher. "I saw him hit a home run in practice that went about 480 feet. He's a pretty good ballplayer. Borger impresses me, they always do. . . they always come up with a good team. I guess it's a carryover from all the years I played against them in high school."

Weekend Sports

By United Press International
NEW YORK—The New York Mets purchased ex-Yankee killer Frank Lary from Detroit Tigers on a 30-day conditional basis.

SURBITON, England — Ann Haydon Jones, Britain's No. 1 Wrightman Cup player, defeated Carol Caldwell of Santa Monica, Calif., 8-3, 6-1 in the final of the Surrey tennis championships.

STOCKHOLM — Sweden's Berni Roos piloted his Crescent boat to a surprise win in the 500 CCC class of the European Grand Prix of outboard racers with the United States' Dick O'Dea finishing second.

PARIS — Top-seeded Margaret Smith of Australia won the women's singles crown in the French international tennis championships by defeating Maria Bueno of Brazil, 5-7, 6-1, 6-2.

INDIANAPOLIS, Ind. — Gary Player won the \$70,000 Festival Open with a 72-hole score of 273, 11 under par. Player fired a four-under par 67 in the final round to beat Doug Sanders and Art Wall by one stroke.

WHITE PLAINS, N.Y. — Panchito Gonzalez of Los Angeles won the \$3,000 top prize in the U.S. pro indoor tennis championships with a 5-7, 3-6, 10-8, 11-9, 8-6 victory over Ken Rosewall of Australia in a match that lasted three hours and 12 minutes.

BEAUMONT, Tex. — Ruth Jessen won the Babe Zaharias Women's Open golf tournament with a 54-hole total of 214. Marlene Hagge was second.

Lose 23-Inning Marathon

Mets Back Into History

By United Press International
The New York Mets, their traditions of futility deeply enriched, have stood the test of time—and filed with flying colors.

Despite their youthful appearance, the Mets, only in their third year of existence, have backed into the record book with the poise of veterans and turned baseball upside down. Sunday, the New Yorkers participated in the longest game in major league annals from the point of time elapsed—and lost.

A crowd of 57,037 at Shea Stadium—the largest in the majors this year—was on hand for the opener of the Mets-San Francisco Giants doubleheader at 1:05 p.m. EDT. Less than a quarter of that total remained to see the final out at 11:24, which proves that history isn't a very attractive subject.

After losing the opener, 5-3, the Mets scored three runs in the seventh inning of the nightcap on Joe Christopher's home run to tie the score at 6-6. And that's the way it remained until the 23rd inning when Del Crandall's ground-rule double drove in the winning run in the 8-6 victory.

The 23-inning struggle fell three short of tying the major league record of 26 set by the Dodgers and Braves in 1920, but the total playing time of seven hours and 23 minutes broke the seven-hours endurance mark set by the New York Yankees and the Detroit Tigers in 1962. It also was the longest game in major league history played to a decision since the Dodgers-Braves struggle ended in a 1-1 tie.

But length wasn't the only oddity of the game. New York shortstop Roy McMillan started a triple play in the 14th inning and Manager Alvin Dark of the Giants was ejected but not before protesting the game.

Sets Strikeout Record
In addition, 46 strikeouts were recorded in the doubleheader to surpass the old major league standard of 44 established by the Indians and Red Sox last year.

Galen Cisco, the last of six Met pitchers, was charged with the defeat after pitching eight brilliant innings. With two out in the 23rd, Cisco was tagged for a triple by Jim Davenport. After Cap Peterson was intentionally passed, Crandall, batting for winning pitcher, Gaylord Perry, sliced his double into the right field corner. Jesus Alou then drove Peterson home from third with an infield single.

COLTS PLAY TUESDAY

Pampa Colts manager Tom Glover reported this morning that the Tri-State League opener at Borger has been definitely set up for Tuesday night at 8:15 at Huber Field. The Pampa Rebels play the Tascosa Sheriffs today at 5:30 at Tascosa High and return home Wednesday night to host Woodward, Okla. The two local teams were washed out of five games between them last week.

In other National League games, Billy Williams homered in the 10th inning to give the Cubs a 4-3 win over the Braves; the Phillies overpowered the Colts, 4-1, the Dodgers defeated the Pirates, 6-4, and the Cardinals won the second game of a doubleheader with the Reds, 2-1, after losing the opener, 6-0.

Williams Raises Average
Williams' home run, his 13th, was one of three hits for the day and raised the Chicago outfielder's major league-leading batting average to .414. Billy Cowan had tied the score in the ninth with a two-out single. Dick Ellsworth was the winner.

Rookie Richie Allen and Ruben Amaro crashed two-run homers for Philadelphia and Ed Roebuck saved Art Mahafey's fourth victory with 2-3 innings of scoreless relief. The win kept the Phillies in first place by a half-game.

Ron Operranoski bailed out Sandy Koufax in the eighth inning and preserved the Dodgers' two-run lead for their third consecutive win over Pittsburgh. Los Angeles was aided by three Pirate errors as Bob Friend was charged with the loss.

Bob Gibson scattered six hits and started the Cards' winning rally with a single in the eighth as St. Louis won the second game. Bob Purkey gained his third victory in six decisions in the first game with a neat six-hit.

The Pampa Daily News

A Watchful Newspaper
EVER STRIVING FOR THE TOP O' TEXAS
TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities. We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

Playthings of Federal Power

The socialist propagandists have certainly done their job. Within the past fifty to sixty years the amount of fear concerning the supposed danger from businessmen, industrialists and other profit seekers has been exaggerated out of all sense of proportion. This creation of a bogey man has taken a bit of doing, but thanks to Karl Marx and socialist fulminators, the job really has been done. Nearly everywhere now, except in quarters unusually well informed, the dread of private management and independent operation is apparent.

So thoroughly has this sense of peril arising from the market place been expressed and circulated that today one of the major efforts of the federal government is aimed at investigating harmless and hard-working businessmen in an effort to find them guilty of some legal violation.

It was not always thus. Within the past 100 years there were other men, far more realistic, we submit, who had little if any fear of the business establishment, but a very healthy dread of what the government might do or might become.

Here, to illustrate the point, is an excerpt from a speech by a Georgia Senator Benjamin Hill, delivered in the Senate on March 27, 1878.

"But, sir, I have said I do not dread these corporations as instruments of power to destroy this country, because there are a thousand agencies which can regulate, restrain and control them; but there is a corporation we may all well dread. That corporation is the federal government. From the aggressions of this corporation, there can be no safety if it is allowed to go beyond the well defined limits of its power."

"I dread nothing so much as the exercise of ungranted and doubtful powers by this government. It is, in my opinion, the danger of dangers to the future of this country. Let us be sure to keep it always within its limits. If this great, ambitious, ever-growing corporation become oppressive, who shall check it? If it become wayward, who shall control it? If it become unjust, who shall trust it? As sentinels on the Country's watchtower, senators, I beseech you — watch and guard with sleepless dread that corporation which can make all property and rights, all states and people, and all liberty and hope its

Ways to Insure Life of Leisure

Want to keep from getting a job now that you have graduated from school?

Here are some simple things to do that will practically insure a summer — maybe even a lifetime — of leisure:

Show your individuality by affecting a Beatle haircut and other touches of distinction which make it clear you have a personality of your own.

Show up late and keep your interviewer waiting. Let him know you're not falling over yourself to land this job.

Pull up a chair real close to the interviewer, rearrange the stuff on his desk so his astray is near you, and light up. This shows you are at ease and at home anywhere.

Tell him frankly what you think is wrong with his business. So he burns a little. So what? If he can't take a little honest

criticism, he's too narrow-minded to fool around with.

Make sure the company is broadminded about coffee breaks, long lunch hours, tardiness, absenteeism and time out for personal business. Bear down on this. It will indicate you have your career carefully planned.

Let the interviewer know the company will be lucky to get you — that a lot of other outfits are bidding for you.

If a starting salary is mentioned, react with pain and hurt surprise. Explain that your professor thought you would be worth a lot more.

Follow this routine and it's dollars to doughnuts you end up with time to catch up on your sleep in the mornings and to polish up your golf game — assuming, of course, that you can get hold of the dough to play.

The decisive question in these last campaign moments is whether moves so patently defensive can register with voters, many still doubtful, who see a tide flowing another way.

They barely edged out librarians, clergymen and dieticians. Public schoolteachers will earn a national average of \$5,963 this year, a rise of \$231 over 1962-63.

Nevertheless, college graduates going into teaching, says the NEA, can expect to receive a starting wage (\$4,700) that is at least \$1,000 less than that for any other profession, but that's for a nine-month year.

WASHINGTON:

California Tension Runs High Tonight

By BRUCE BLOSSAT
SAN FRANCISCO (NEA) — The greatest threat to Sen. Barry Goldwater in California is excitement.

If this state's slow-to-stir, 2-to-1 moderate majority among Republicans is truly caught up in New York Governor Nelson Rockefeller's dramatic onrush since his May 15 Oregon victory, then the Arizona can be engulfed in tomorrow's primar-

The excitement does exist right now, as California voters feel the pebble-in-the-pool effects from the Oregon encounter. The atmosphere is charged with the inevitable tensions of an important stretch drive.

Skepticism there may be over quick-shifting public opinion polls whose reliability has been somewhat clouded this spring, but practiced politicians on many sides find increasing signs of strong new Rockefeller momentum that could carry through voting day.

Rockefeller's own forces, though feeling a checkrein of genuine caution, cannot deny sharply rising hopes.

Goldwater's Southern California heartland, extending from the Tehachapi Mountains to the Mexico line, is the area that gives the surging governor pause. Here lies the big vote, the militant Goldwater vote expected to march on the polls with fire in the eye.

Nor are Goldwater's managers any longer "sitting with hands folded and smiles on their faces calmly waiting for victory," as one knowledgeable Californian describes their attitude before the Oregon vote.

Neutral appraisers agree that the senator not only has the most ardent following of the two contenders, but a precinct level organization calculated to get the support onto the vote scoreboard June 2.

On one hand, the President is vigorously exhorting Congress to enact his \$962.5 million anti-poverty program — a major feature of which is a \$190 million "Youth Corps" under which some 40,000 16-to-22-year-olds would be given special job training in unused army camps. Express purpose of this plan is to increase their employability.

On the other hand, in pursuit of his loudly-publicized economizing, the President has ordered a number of government departments and agencies to steeply slash their annual hiring of thousands of youths for summer work. Under this backstage move, these jobs, chiefly filled by students, have been cut more than 50 per cent.

So far, there has been no White House explanation for this striking contradiction in policy. Hardest hit by the unannounced student job axing are the Agriculture and Interior Departments. Under the President's economizing edict, these much sought summer jobs have been whittled from 27,000 to 15,000.

Applicants for this work, mainly in national parks and soil conservation, number three times the available openings.

A particularly sorrowful aspect of this undercover clampdown is that hundreds of students already had been notified to report to work. Now Agriculture and Interior are embarrassedly sending out new notices canceling the first.

For three Democratic senators up for re-election, this situation is even more distressing.

A large proportion of these summer jobs are in the states represented by Senators Henry Jackson, Wash., Gale McGee, Wyo., and Frank Moss, Utah. McGee and Moss admittedly face a highly uncertain campaign.

All three senators are storming the White House vehemently urging this economizing be reconsidered.

MORE OR SAME — Among other agencies hit by the drastic student job cutback are the State, Justice, Commerce and Labor Departments, and the National Aeronautics & Space Administration.

The latter is one of the severest hit. Under the President's order, NASA's summer work allotment has been slashed around 75 per cent.

The reduction in the other agencies ranges from 25 to 50 per cent.

Commerce Secretary Luther Hodges has informed his assistants that the Department's student jobs have been chopped from 1,300 to 650. Most of those eliminated are the most sought — typists, file clerks and other office work. Relatively lightly affected are openings for senior college students in engineering, accounting and business management.

"Let the Chips Fall Where They May!"

Allen-Scott Report

Administration's Contradictory Policy on Youth Jobs Slashes Summer Work on Parks, Soil Conservation, Other Programs

Pull Up A Chair

By Frank J. Markey

WASHINGTON — President Johnson is buoyantly riding two much-touted horses galloping briskly in exactly opposite directions.

On one hand, the President is vigorously exhorting Congress to enact his \$962.5 million anti-poverty program — a major feature of which is a \$190 million "Youth Corps" under which some 40,000 16-to-22-year-olds would be given special job training in unused army camps. Express purpose of this plan is to increase their employability.

On the other hand, in pursuit of his loudly-publicized economizing, the President has ordered a number of government departments and agencies to steeply slash their annual hiring of thousands of youths for summer work. Under this backstage move, these jobs, chiefly filled by students, have been cut more than 50 per cent.

So far, there has been no White House explanation for this striking contradiction in policy. Hardest hit by the unannounced student job axing are the Agriculture and Interior Departments. Under the President's economizing edict, these much sought summer jobs have been whittled from 27,000 to 15,000.

Applicants for this work, mainly in national parks and soil conservation, number three times the available openings.

A particularly sorrowful aspect of this undercover clampdown is that hundreds of students already had been notified to report to work. Now Agriculture and Interior are embarrassedly sending out new notices canceling the first.

For three Democratic senators up for re-election, this situation is even more distressing.

A large proportion of these summer jobs are in the states represented by Senators Henry Jackson, Wash., Gale McGee, Wyo., and Frank Moss, Utah. McGee and Moss admittedly face a highly uncertain campaign.

All three senators are storming the White House vehemently urging this economizing be reconsidered.

MORE OR SAME — Among other agencies hit by the drastic student job cutback are the State, Justice, Commerce and Labor Departments, and the National Aeronautics & Space Administration.

The latter is one of the severest hit. Under the President's order, NASA's summer work allotment has been slashed around 75 per cent.

The reduction in the other agencies ranges from 25 to 50 per cent.

Commerce Secretary Luther Hodges has informed his assistants that the Department's student jobs have been chopped from 1,300 to 650. Most of those eliminated are the most sought — typists, file clerks and other office work. Relatively lightly affected are openings for senior college students in engineering, accounting and business management.

TOO MANY HATS — President Johnson has decided that Sargent Shriver, brother-in-law of the late President, is wearing too many hats.

Shriver is head of both the Peace Corps and the anti-poverty program, which still has to be enacted by Congress. It is now awaiting a House vote, having been approved by the Public Works Committee.

The President wants the director of this program to devote full time to it if and when it becomes law.

While this job hasn't been formally offered to Shriver, the President has indicated he can have it if he wants it — on one condition. If he takes it, he will have to give up the Peace Corps.

Which he will choose is still being weighed by Shriver.

THE "SNUGGERY" — Lately, Mrs. Jacqueline Kennedy has taken to dropping in occasionally for an evening of quiet relaxation at a popular inn a few short blocks from her stately 18th century home in historic Georgetown — which was a thriving seaport decades before the existence of Washington.

The inn, dating back to colonial times, has four handsome dining rooms. The one visited by Mrs. Kennedy is known as the "Snuggery."

Smallish, with subdued lighting and decorations, and especially comfortable leather-covered swivel chairs, the "Snuggery" is popular with Georgetowners as an after-dinner lounge for a quiet drink and restful piano music.

Mrs. Kennedy usually arrives around 9:30, accompanied by a friend and Secret Service guard. Few are aware of her presence, and the Georgetowners who are discreet give no indication of it. One recent evening, Mrs. Kennedy and her escorts had to wait 15 minutes for a table. Usually she is seated toward the rear and stays an hour or so.

The management meticulously does not publicize her visits, but at the same time makes no secret of them.

When a reporter phoned to confirm this information, the manager readily acknowledged it: "Oh, yet, Mrs. Kennedy drops in now and then. She and her husband used to do that when he was a Senator and they lived on the other side of Wisconsin Avenue (the business street that bisects the historic 'village,' as its fashionable residents fondly refer to it)."

"Have there been any complications or trouble?" asked the newsmen.

"Certainly not," exclaimed the manager. "Mrs. Kennedy is a lady. There never is any trouble at our inn."

Mrs. Kennedy's big brick home, atop a knoll well back from the street, is viewed by hundreds daily. Sightseeing buses now include the mansion, flanked by two huge magnolias more than 100 years old, as part of their tours. The increasing

trongs have become a problem for Mrs. Kennedy's neighbors.

To cope with the situation, a uniformed policeman is now stationed at the foot of the stone steps leading to her house, and a Secret Serviceman at the top of the stairs. The policeman directs the crowds to keep moving, and one of the functions of the Secret Serviceman is to keep sightseers from trying to peer into the front windows. That's not an uncommon occurrence.

Most of the tourists take pictures. But occasionally some drive up with the apparent intention of picnicking right on the street. This happened last Sunday afternoon, and the blithe visitors were quite indignant when told by the policeman to leave.

Few of the hundreds of sightseers are aware that diagonally across from Mrs. Kennedy's home is the even larger red brick mansion occupied until his death by Robert Lincoln, son of assassinated President Abraham Lincoln.

CAPITOL EYE:

Space Race Too Speedy For Educated

By RAY CROMLEY
SANTA MONICA (NEA) — Here in factories working on the manned trip to the moon, a new kind of potential technological unemployment is developing — a kind of technological obsolescence of the educated.

We hear a lot these days about the effects of automation on men and women who have had little schooling. But in the Apollo-Saturn factories I've visited on this trip to Louisiana and California, it's not only the under-educated who are being hit.

Management is finding that a good many of its college graduate engineers, scientists and managers — including men with advanced degrees — aren't able to keep up with the fast-changing intricate technical problems that moon and space exploration present.

Says one top manager of a plant doing development and production work for the Apollo-Saturn man-to-the-moon project: "We're finding that if a man has been out of college 10 years, he's behind the times — unless he's spent his nights at school studying to keep up with the new concepts. He often can't keep up with the man just out of college."

Says another manager: "We have put our space systems division several miles away from our older plant. We want our sharp young space engineers off by themselves where they won't be held back by the less advanced ideas of our older engineers."

"Our problem is finding men who aren't so tied to past ways of doing things they can't come up with new ideas."

Rocketdyne division of North American Aviation, like a number of other companies, has lost its engineers, managers, technicians and all other employees that if they will seriously go back to school in the evenings, the company will pay part of

is credited with inventing the poster or placard as an advertising device. It was first used in 1867 to plug a play starring Sarah Bernhardt, then 22 years old. . . We've been using "4711" for years without knowing the firm of Muhlen and Kroff selected that trademark in 1792 to identify a cologne water made from a family recipe. Their address at the time was 4711 Glockenstrasse, Cologne, Germany. . . A recent survey by fire prevention authorities showed careless smoking leads all other fire causes. It proved beyond all doubt a carelessly tossed cigarette butt can start a forest fire. Also showed smoking in bed was the cause of many fires. . . Researchers say filters are removing a large portion of the cancer-causing substances in cigarette smoke, but they cautiously add it is unrealistic to believe cigarette smoking can ever be entirely safe. However, they estimate the 1964 smoker of filtered cigarettes is exposed to 50 per cent less tar and nicotine than those who smoked cigarettes without filter tips 10 years ago. . . Reported in the St. Louis (Mo.) GLOBE-DEMOCRAT: "They met in snow business and were married 45 years." There's no business like snow business.

Country Editor speaking: "An exhibitionist is a young lady displaying her first engagement ring."

Thoughts while shaving: Jules Cheret, a French draughtsman,

The Almanac

By United Press International
Today is Monday, June 1, the 153rd day of 1964 with 213 to follow.

The moon is approaching its last quarter.
The morning star is Saturn.
The evening star is Venus.
On this day in history:

In 1812, President James Madison advised Congress that a second war with Great Britain was inevitable.

In 1881, officials of the U.S. Military Academy at West Point announced that cadets would no longer be allowed to use tobacco.

In 1944, the siesta was abolished in Mexico.

In 1958, Charles de Gaulle was chosen premier of France.

A thought for the day — German Socialist Karl Marx said: "The ruling ideas of each age have ever been the ideas of its ruling class."

The cost. If a worker successfully completes work for a degree in this evening training, the company will pay all tuition costs.

The company is picking a group of its brighter young engineer-manager types who have proved their ambition by successfully studying evenings. It's offering to pay them a salary to go to school in the daytime.

I talked to Wallace Fore, Rocketdyne vice president in charge of manufacturing and facilities. Though he had a degree in chemistry, he's been studying nights and has recently won his master's degree in operations management.

So important do the space-rocket companies consider this academic research stimulation that they tend to make certain their new development and manufacturing plants are built near colleges.

Douglas Aircraft Company's Missile and Space Division has recently built the first stage of its new space-rocket development facility — in Huntington Beach, Calif., near the California Institute of Technology and close by the projected site of a major new college being established by the University of California.

Douglas is also planning to set up a basic research laboratory on the grounds of this Huntington plant. The Douglas people think this will spur research, help bring in new ideas and stimulate their engineers.

Matter of Fact

The road runner is a bird of the deserts of northwest South America, Mexico and southern United States. It runs with head lowered and tail horizontal, stopping from time to time, when the tail assumes an almost vertical position. The road runner belongs to the cuckoo family.

They'll Do It Every Time

By Jimmy Hatlo

THE FONDLES SACRIFICED TO GET THEIR HEART'S DESIRE... A BOAT... A REAL THIRTY-FOOTER...

WE'LL TAKE IT! I'VE EXPECTED TO PAY... BUT IT'S WHAT WE ALWAYS WANTED...

I JUST LOVE THE WATER...

I'VE ALWAYS HAD MY HEART SET ON SEEING THE MOUNTAIN DESERT.

CULLIGAN PLANT — Here's a photograph inside the Culligan Water Conditioning Plant at 314 S. Starkweather showing regenerating, cleaning and sterilizing equipment. Culligan can provide your home or business with soft water quickly and economically.

Soft Water Makes Housekeeping Easy

Hard water and soft water coming from a faucet look identical, with the result that the quality of water is usually taken for granted. However, hard water presents a problem where it is used.

You can see the difference every day in any home that still uses hard water. Minerals in hard water (generally dissolved rock) combine with soap to cause a scum which you recognize as the familiar "ring" in the bathtub or lavatory.

Most dermatologists agree that pure soap and soft water are best for normal skin. Thus, costly remedial lotions and creams could become unnecessary.

The hardness in the water used by a family of four in Pampa in a single year would equal a boulder weighing over a hundred pounds. When hard water is heated, scale builds up in hot water lines and water heaters. This scale (dissolved rock) acts as an insulator that can cause your water heater to burn out prematurely. All water-using appliances are affected. More money is spent each year for repair and maintenance of water-using appliances and plumbing, due to the hardness impurities in water, than is spent on the purchase of new equipment, according to American Home Magazine.

Westinghouse says, "Hard water is one reason for unsatisfactory washing results by any washing method."

Maytag states, "Soft or soft-

ened water produces best results."

According to Speed Queen, "Soft water will do a better cleaning job."

General Electric tells us, "Soft water is necessary for a bright, clean wash."

It is a fact then that soft water is best for all washables. Clothes laundered in soft water are cleaner, whiter and brighter. The life of fabrics when washed in soft water will last 20 to 50 per cent longer.

According to Life Magazine, "Hair washed in soft water reflects up to 54 per cent more light." And the American Hairdresser Magazine states, "Hair washed in soft water is easier to work with."

Soft hot water creates whisker-wilting lather and enables blades to smoothly, efficiently zip through the toughest beards. Blades keep sharp cutting edges longer because there is no scum to dull them.

It is easy to have pure filtered Culligan soft water throughout your home. Your Culligan man at 314 S. Starkweather can furnish soft water two convenient, economical ways: with his portable exchange service softener or your purchase of the automatic softener appliance. Either method provides unlimited soft water throughout the home at surprisingly low cost.

See your Culligan man now at 314 S. Starkweather or call him at MO 5-5729 for more information about soft water.

PAMPA Business News...

CUSTOM STYLE — Leymond Hall, owner of Hall Tire Company, 700 W. Foster, MO 5-3755, custom-packs this air conditioner pad to make sure the pad is the right size and the right thickness to do its job right. With 17 years' experience, Hall Tire Company has the know-how to manufacture air cooler pads so they fit exactly — not too heavy or light, have the right thickness to filter the air, and let your air cooler "breathe." Hall Tire also has other cooler accessories you may need, including recirculating pumps, tubing, fittings and other accessories. Drive by today... Let Hall Tire custom-make pads to fit your air cooler frames.

TEEN TWIST

NEW YORK (UPI) — Today's twisting teen-agers are expected to "twist" consumer goods markets into a new shape when they're in their twenties.

Population projections prepared by the Department of Commerce indicate that by 1975 the U.S. male population aged 20-29 will have jumped 47 per cent over the 1965 level, says Meinhard-Commercial Corp. financing and financial subsidiary of C.I.T. Financial Corporation. Females aged 20-29 will be up 45 per cent, the firm adds.

New Pads Will Make Cooler Perform More Efficiently

It's summer time, and time to make sure your air cooler is ready to keep your home comfortable. You'll need new cooler pads for clear, clean, fresh air.

Let Hall Tire Company, 700 W. Foster, MO 5-3755, custom-make them for you. When your pads are exactly right: the right size, the right thickness for your cooler frame, then your air conditioner gives you real enjoyment. With 17 years' experience in making cooler pads, Hall Tire knows how to give you the right thickness pad to filter the air, and to provide moisture you need for cooling.

Leymond Hall personally makes sure that each pad receives individual attention so that it will fit exactly to the frame, and therefore give you the best service.

All-around cooler service at Hall Tire includes stocking the air cooler accessories you may need, including recirculating pumps, fittings, tubing and

many other items. This firm is your one-stop air cooler headquarters.

Another "comfort service" of Hall Tire is the automobile wheel balancing and tire truing work. With the Alemite Electronic Wheel Balancer and Tru-O-Matic Tire Truer, the firm can smooth out your automobile ride. Tires that are not perfectly round bump and bounce along the highway, and cause unnecessary tire wear and driver fatigue.

In just a few minutes Hall Tire can round your tires, balance your auto wheels. You get more comfort, longer tire wear, more motoring fun.

Deadly Chlorine Gas Leak Threat To 40 Families

LA MARQUE, Tex. (UPI)—Deadly chlorine gas spewed from a railroad tank car today, causing authorities to evacuate about 40 families from their homes.

The gas, which has a searing, burning effect on the skin and lungs, was leaking from a valve on the tank car.

No injuries were reported. La Marque is 12 miles north of Galveston and adjacent to Texas City.

The tank car was being unloaded into storage tanks at the Galveston County Water Co., which provides water from the Brazos River to Texas City industrial plants.

Police said the concentration of gas was not very heavy, but the families were evacuated in case the valve ruptured further.

Chlorine, which is a highly lethal gas, was used in World War I as a weapon.

PEOPLE LIKE MONEY

NEW YORK (UPI) — Any notion that credit cards are making money less popular is all wet, the Institute of Life Insurance says. Government figures show the folding money and cash in circulation still amounts to \$200 for every man, woman and child in the United States.

WORLD'S LARGEST CAR INSURER!
Largest in Texas Too!
State Farm now insures more Texans' cars than any other company (over 300,000 of them!). It's easy to reason why. Texas policyholders have historically saved with State Farm (more than \$40,000,000 over the past 20 years on expiring 6 month policies). And, eligible policyholders are currently enjoying a 25% dividend. Special discount savings like the 2 Car (or more) and Working Farmer discounts, plus Home-Invoice Service coast-to-coast make State Farm's "good deal" on car insurance even better. Why not check with your State Farm agent for details!

Clarendon College Makes Additions

CLARENDON (SpI) — Well-man girl for the academic year 1964-65, and another scholarship will be offered to a sophomore student for the academic year, 1965-66.

The other added convenience of the college will be the opening of a girl's dorm. Girls who wish to stay in the dorm this fall should contact Dean Day as soon as possible to make reservations. Dorm facilities for boys

will include courses in elementary nutrition, meal planning and serving and consumer problems.

A home economics scholarship for tuition, books, and fees has been awarded to a freshman girl.

MERGER TALKS

BUCK HILL FALLS, Pa. (UPI) — Seventy-two churches in 19 countries are engaged in discussions which could lead to church mergers, according to an official of the World Council of Churches.

The Rev. Patrick C. Rodger of Geneva, Switzerland, executive secretary of the Department of Faith and Order of the Council, said the negotiations involve 23 proposed unions. In addition, he said, 20 conversations just started looking forward to the possibility of church union involve another 43 churches on three continents. He made his report at the recent annual conference here of United States member churches of the Council.

What the FULL-POWERED Friedrich room air conditioner means to YOU!
You're COOLER! — You get full-powered cooling capacity, so that your home is completely cooled.
You're MORE COMFORTABLE! — Your Friedrich squeezes the excess moisture from humid air (up to 75 quarts a day).
You're FRESHER! — Friedrich's heavy-duty filter eliminates most of the dust, pollen and other air-borne impurities.
You're UNDISTURBED! — Friedrich cools, dries, freshens... but quietly. You'll hardly notice its gentle hum.
AND YOU'RE SAVING MONEY! — With Friedrich you're getting the highest quality, but you're paying less in electric bills to operate it!
