FIREMEN AT WORK — A one-alarm blaze late yesterday destroyed a three car garage, inflicted heavy damage on a 1956 model automobile and caused heavy smoke damage to a residence. The blaze started, according to firemen, when a can of gasoline near a hot water heater ignited. The automobile was parked in the garage which was attached to the home of Bill Griffin, 317 Buckler.

Ike Calls for Check On Federal Controls

CLEVELAND (UPI)—Former President Dwight D. Eisenhower wants the states to force the federal government to balance its budget at least every two years through the never-used device of a constitutional convention. Eisenhower urged the nation's governors to initiate amendments to the Constitution through the convention system to apply a check on federal power. He spoke at an informal dinner at the National Governors' Conference. The Constitution provides that Congress shall call a convention for proposing amendments to the application of the legislative powers of the states. Any amendments thus proposed would still have to be ratified by three-fourths of the states. The convention system of amending the Constitution has never been used in the 175-year history of the document. Eisenhower said that once the convention power was used "those in Washington power centers would never again feel at ease in their restless work to extend the federal reach, or to use tax money to attract votes." He said that amendments to the Constitution through the convention system might authorize presidential use of the "item veto," now employed by many governors, and require submission of federal budgets which "balance at least biennially."

House GOP Hits LBJ's Plan to Hike Debt Limit

WASHINGTON (UPI)—House Republicans zeroed in on President Johnson's spending policies today and took special aim at a plan to raise the temporary national debt limit to a new high of \$324 billion. The GOP opposition was to be voiced at a hearing by the House Rules Committee, which was expected to clear the debt measure for a floor vote this week. The Republicans claim that the proposed \$324 billion ceiling for the 1965 fiscal year is about \$2 billion more than the administration needs. The debt limit bill would raise the ceiling by \$8 billion—the 11th boost in nine years. The permanent ceiling is \$285 billion but the public debt long ago soared past that figure. Other congressional news: Aid: President Johnson's \$3.5 billion foreign aid bill was called up for House debate with the economy bloc set to fight for cuts totaling about \$400 million. The White House and State Department were busy behind the scenes trying to convince lawmakers to leave the program untouched. But Rep. Edward Derwinski, R-Ill., said, "It's a well-inflated balloon." Rep. E. Ross Adair, R-Ind., had amendments ready to cut every section of the \$2.4 billion economic aid portion of the measure.

Nixon Sees 'Possible' Goldwater Challenge

By RAYMOND LAHR
CLEVELAND (UPI)—Former Vice President Richard M. Nixon said today there still was a "real possibility" that a challenger might emerge to Sen. Barry Goldwater in his headlong drive for the Republican presidential nomination. Nixon said, however, that Goldwater probably would have the nomination clinched by the end of this week. Nixon spent more than an hour at a breakfast session with Republican governors attending the annual National Governors' Conference. Nixon's remarks followed indications that former President Dwight D. Eisenhower was convinced Goldwater has the nomination sewed up. After a closed session with GOP governors today, Nixon told a news conference that he had encouraged them to develop competition for Goldwater because it would help the GOP and its eventual presidential nominee. Such competition, he said, would give the Republicans more national exposure at national convention and would assure continued debate over Republican policies. He said a majority of the governors present indicated they felt there should be real competition for the nomination and that they favored an open convention. However, Goldwater's strength among delegates headed for the convention is growing so steadily that it appears he may have more than the minimum 655 votes for nomination before the convention starts. Eisenhower met with the GOP governors Monday and left them convinced that he had refused any organized stop-Goldwater effort.

cause it would help the GOP and its eventual presidential nominee. Such competition, he said, would give the Republicans more national exposure at national convention and would assure continued debate over Republican policies. He said a majority of the governors present indicated they felt there should be real competition for the nomination and that they favored an open convention. However, Goldwater's strength among delegates headed for the convention is growing so steadily that it appears he may have more than the minimum 655 votes for nomination before the convention starts. Eisenhower met with the GOP governors Monday and left them convinced that he had refused any organized stop-Goldwater effort.

Senate Driving Hard For Crucial Vote on Filibuster

WASHINGTON (UPI)—The Senate, driving towards Wednesday's crucial vote on muzzling history's longest filibuster, today approved a jury trial amendment to its embattled civil rights bill. Adopted was a proposal by Sen. Thurston B. Martin, R-Ky., to provide jury trials in all criminal contempt cases which arise under the anti-discrimination statute except those involving voting rights. Voting cases would be governed by the 1957 Civil Rights Act which provides jury trials in cases for which penalties exceed 45 days in jail or \$300 fine. The vote was 51 to 48. The outcome was not unexpected since a similar Morton amendment was defeated on a series of roll calls which ended with

its rejection, 46 to 45 about a month ago.

PRODUCTS OF BROKEN HOME

Fate Took Tragic Turn for Boys' Ranch Youths

AMARILLO, Tex. (UPI)—Jimmy Mays, 14, never had much of a home life. In fact, he never knew his mother or father. He was abandoned as an infant and lived in 11 different foster homes. Felix Wesley (Buddy) Fesmire, 15, had it a little better but not much. He has a stepfather living in Harmon, Okla. and a mother who disappeared and has not been seen for a

year. Both boys wound up at Cal Farley's Boys Ranch, a private home for boys 38 miles northwest of Amarillo that just ended its 25th year of operation. The ranch has taken in countless youths from broken homes and, with training and a home-like atmosphere, turned them into useful citizens. This could have happened to Fesmire and Mays. But they stole a gun to go

hunting and got involved in a shooting scrape Monday with a cowboy. Then they went to the Melvin Kohler ranch home, terrorized Kohler, 26, his wife, Virginia, 22, and their baby, and stole the family's pickup truck. Later police spotted the truck and gave chase. The boys opened fire with a .257 Roberts Rifle with a telescopic sight. Officer William S. Meadows

was felled with a bullet between his eyes. He died an hour later in a hospital. It was then that Highway patrolman Richard Beal closed in on the pickup and began firing with a .30 caliber automatic Army carbine, pouring bullets at the truck from the sub-machinegun. The truck rumbled to a stop, all four tires flat and its engine stilled.

Police rushed up and found Mays dead in a pool of blood. Fesmire was wounded. He underwent surgery and is in good condition. Cal Farley, owner of the boys ranch, said "In 25 years and with 1,600 kids, this is the only time such a terrible thing has happened." Authorities at the ranch theorized that if the two boys had not fired at ranch hand Larry

Moore, they would have returned to the Farley ranch and the whole thing would never have happened. Officials believed the two youths thought they had killed Moore when they fired at him. He had driven off unhurt. Meadows' widow, meanwhile, was alone in her grief. The couple, who celebrated their first wedding anniversary just two weeks ago, had no children.

Funeral services will be conducted Thursday at 10 a.m. in the First Baptist Church with the pastor, Rev. E. Douglas Carver, officiating. Burial will be in Fairview Cemetery under direction of Duenkel-Carmichael Funeral Home. Pallbearers will be John R. Davis, James Babcock, Frank Babcock, Walter Shepherd, Glen Studebaker, R. F. Fields, John Mackie and C. L. Culver. Honorary pallbearers will be employees of Precinct 3, members of the Commissioners Court and the Fellowship Sunday School Class of First Baptist Church. If it comes from a hardware store we have it. Lewis Hdwe. Adv.

Angry Mountain Streams Leave Trail of Death

GREAT FALLS, Mont. (UPI)—The Sun River swept over its banks in low-lying sections near Montana's largest city today in the wake of a heavy spring run-off and near torrential rains that sent many streams on a dam-bursting rampage.

By United Press International
Angry mountain streams dealt death and destruction across Montana today, while tornadoes and violent thunderstorms punched eastward over the sun-baked plains. Runoffs from melted snow and near torrential rains drove Montana floodwaters that left at least nine dead and 16 others missing. Property damage soared into the millions of dollars. Four sturdy dams crumbled beneath the surging waters. A search of the area below the Swift Dam just northwest of Great Falls was slated to begin. "They're afraid of what they're going to find there," one civil defense official said. Great Falls, the state's largest city, braced for the flood crest of the Sun River, expected by tonight or Wednesday morning. Civil defense officials rushed thousands of water purification pills to areas where floodwaters have contaminated the water supplies. Just north of the border, Alberta's Waterton Lakes National Park was declared a national disaster area, and the park's once scenic townsite was left a muddy mass of uprooted trees, overturned cars and shattered summer cottages. Tornadoes swirled over Nebraska and Dakota wheat fields and into Minnesota during the night and a driving cloudburst isolated the tiny South Dakota town of Stoneville. Between two and six inches of rain drenched the northwestern part of the state in 24 hours. A diehard spring snowstorm abruptly closed two super highways spanning Wyoming's Big Horn mountains, but the West's most devastating weather scarred Montana. The flood areas ranged from Glacier Park isolated by bridge and road washouts along the eastern slope of the Continental Divide to the town of Deer Lodge. Thousands of families fled their homes along the rampaging Sun River and flood engineers said the crest would surge through Great Falls by tonight. Scores of persons were rescued from the raging floodwaters upstream by helicopters and emergency personnel. At least six tornadoes ripped through the South Dakota range Monday night and other twisters spiraled through Nebraska and North Dakota. Two persons were injured when their house trailer was thrown end over end near Fargo, N. D. Homes and farm buildings were damaged or destroyed eastward into Iowa. At Stoneville, S.C., high rains flooded roads and isolated the town. Communication was difficult because of damaging wind and hail storms. A forecast of severe thunderstorms, large hail and high winds was in effect until daybreak for parts of Minnesota, Iowa and Wisconsin. A thunderstorm drenched South Miami, Fla., with 5.20 inches of rain in only seven hours Monday.

U.S. Resumes Jet Flights Across Laos

WASHINGTON (UPI)—U.S. jet fighters today resumed their sweeps over Laos with White House authorization to shoot up Communist gun emplacements if they fire on the American fliers. Official sources said the fighters, which are being sent along to protect unarmed photo reconnaissance planes, had received White House permission to attack Laotian Communist anti-aircraft positions which downed two American planes — one armed and one unarmed — over the weekend. The flights were resumed after a one-day suspension. Officials, meanwhile, said that photos taken by American reconnaissance craft since the flights began May 21 show considerable Communist transport on the roads in the Plaines des Jarres. They declined, however, to speculate as to whether this indicated that a major new Red offensive was in the offing.

There's Always That First Time

WICHITA FALLS, Tex. (UPI)—A man walked into a grocery Monday night and asked its proprietor if he had ever been robbed. The answer was "No." The customer pulled a .45 caliber pistol and fired into a wall saying, "You have now." He cleaned out the till but left some money collected for a local high school booster club.

Pickets Blocking Space Projects At Cape Kennedy

CAPE KENNEDY, Fla. (UPI)—Pickets protesting use of the non-union Florida East Coast Railway facilities held up construction on \$215 million worth of space projects again today while federal officials searched for a solution. The picket lines were up again early today and most of this space center's construction workers refused to cross them to get to their jobs. A federal spokesman said a court injunction to halt the picketing may be sought in federal court in Orlando today, pending the outcome of an investigation by an attorney from the National Labor Relations Board (NLRB). An NLRB team was trying to determine whether the surprise picketing early Monday broke a promise by the unions not to set up work barriers without notice. The picketing union claims it is not bound by the promise, made by another union protesting the same thing. Officials at the space center estimated that 3,359 workers out of 3,892 employed on construction at Cape Kennedy and Merritt Island were out Monday as a result of the picket line set up by New Smyrna Locals 220 and 717 of the Brotherhood of Maintenance Men. This is one of the 11 non-operating unions which have been on strike against the FEC since Jan. 23, 1963, seeking a 10.28 cent-an-hour pay raise. The union in setting up the picket lines Monday was renewing a protest over use of government-owned railway spur leading to Merritt Island by the FEC in bringing materials to the space center. It was the fourth labor snarl since September, and marks one of the stormiest labor periods since the spaceport came into being.

Voters Will Decide On \$950,000 Issue

The Pampa City Commission, on a 3-2 vote, today adopted a resolution setting June 30 as the election date for a \$950,000 tax bond issue calling for improvements to the city's sewer system and sewage treatment plant. Commissioners Dr. M. McDaniel and Jim Nation, along with Mayor H. R. Thompson, voted in favor of the resolution. Commissioners Leon Holmes and L. P. Fort dissented. The issue will be presented to voters on June 30. It calls for the expenditure of the \$950,000 for construction of the first phase of a new sewage treatment plant, an outfall line to the new plant, modifications of the existing plant and sewer system, additional lines to strengthen collection systems and replacing nine miles of concrete sewer lines. Opposition to the bond issue arose when former Mayor E. C. Sidwell objected to the issuance of tax bonds rather than water and sewer revenue bonds. Sidwell said that outside city limit water and sewer users would pay no part of the tax bonds. He added that if the bonds were issued as water and sewer revenue bonds the users would be subject to pay a portion of the cost. Mayor Thompson said: "The city has been advised by a financial advisor that the tax bonds were the best route to go. They will be at a cheaper interest rate and for a shorter length of time." Thompson also stated, "The city commission has studied reports and made a number of investigations. We feel that the plan now being presented to the people is the most feasible and economical and that it is a must if Pampa is to meet its obligations in keeping our streams free of pollution."

Mayor H. R. Thompson Today Released a Statement Concerning the Sewage System Bond Election Called for June 30.

The complete text of the mayor's statement will be found on Page 7 of today's Pampa News.

County Commissioner Dies Suddenly of Heart Attack

James M. McCracken, Gray County commissioner in Precinct 3, died suddenly today of a heart attack suffered at his home in the Grandview community, 18 miles southwest of Pampa. An ambulance was summoned but Mr. McCracken was dead on arrival at Highland General Hospital at 8 a.m. A resident of Gray County for 46 years and a prominent farmer and stockman, Mr. McCracken had been in the county commissioner's post since 1954. He was active in the First Baptist Church of Pampa and Groom Masonic Lodge 1170. He was also a member of the Odd-fellows Lodge 203 in Ames, Okla., where he resided before moving to the Grandview Community in 1918. Survivors include his wife, Elsie of the home; one son, Jimmy McCracken, south of Pampa; two daughters, Mrs. Betty Miller and Mrs. Margaret Morgan, both of Tulsa; one sister, Mrs. Fred Detrick, Ames, Okla., and seven grandchildren. Funeral services will be conducted Thursday at 10 a.m. in the First Baptist Church with the pastor, Rev. E. Douglas Carver, officiating. Burial will be in Fairview Cemetery under direction of Duenkel-Carmichael Funeral Home. Pallbearers will be John R. Davis, James Babcock, Frank Babcock, Walter Shepherd, Glen Studebaker, R. F. Fields, John Mackie and C. L. Culver. Honorary pallbearers will be employees of Precinct 3, members of the Commissioners Court and the Fellowship Sunday School Class of First Baptist Church. SUGGESTIONS FOR YOUTH AND PARENTS

Editor's note: — The following is one of a series of brief, informative articles to be published daily in the News. They are designed to offer aid and advice to young people as well as their parents. The series is furnished as a public service of city and county juvenile and police officers and corporation court.

JUVENILE DELINQUENCY

It is seldom that a youngster is led to delinquency by only one cause. In almost every case it is the result of a combination of things, such as broken homes, torn apart by death, divorce, separation, desertion, etc.; poor home conditions, inadequate homes, bad family atmosphere, poor housing, lack of cooperation between parents, unfit parents, no church association, neglectful parents, indifferent parents, drinking parents, injustices, unfairness, rejection, lack of love and affection, lack of security, lack of responsibility, lack of respect, also, bad companionship, lack of respect of authority, lack of home supervision or discipline, employment of both parents or many other reasons. Juveniles are not born delinquent. Juvenile delinquency is an acquired trait, just as much as honesty, integrity and good behavior.

Turkish Invasion Threat Lessens, Greeks on Alert

NICOSIA, Cyprus (UPI)—The threat of a Turkish invasion diminished today but 35,000 Greek Cypriot irregulars continued to maintain a formal alert.

Reports from Ankara indicated that President Johnson's intervention in the Cyprus crisis had resulted in lessening the immediate threat of direct Turkish military action.

But invasion jitters continued to grip this Mediterranean island. Archbishop Makarios, the president of Cyprus, conferred with his cabinet for several hours Sunday to discuss "appropriate measures."

An official spokesman declined to disclose details but it was understood the irregulars were to remain on alert at least until dawn.

'TRAFFIC LIGHT' IN THE SKY

NEW YORK (UPI)—A "traffic light in-the-sky" to help military planes land safely on tiny battlezone air strips by means of a tri-colored shaft of light beaming into the sky is being developed by a watch company.

The landing aid will be about the size of a home movie projector and operate as a stationary searchlight, according to Bulova engineers. After the beam of light is spotted by pilots, they will follow the green shaft of light in the middle of the beam right down to a safe landing. The beam is split into three bands of color — like a stop-and-go light. When a pilot is flying down the green shaft of light he'll make a safe landing.

OLD AND NEW—When one moves something in the United States, one goes to the local supermarket and gets some boxes. The chap above has combined the best of two ways of life at the New York World's Fair.

Dog Ordinance Effective Today

Pampa's new dog control ordinance which was passed by the city commission May 12 goes into effect today and will require dog owners to pay increased impounding fees for letting a dog run loose.

Under the new ordinance owners must pay \$10 impounding fee plus \$2 a day to the city pound for care of the dog. A dog must also be vaccinated against rabies before it can be released to the owner.

All dogs must be on a leash or kept in a fenced yard according to the new ordinance. It also eliminates the need for licensing of dogs in the city.

Action on Fuel Contract Delayed

Pampa City Commissioners postponed the awarding of the city's fuel requirements and paid current bills today.

The contract was postponed until certain bids could be studied for accuracy.

The bills totaled \$27,415.15, including a \$51.09 bill for Lovett Memorial Library.

The Chinese emperor's sun Ho is said to have invented playing cards in the 11th century for the entertainment of his many wives.

How To Hold FALSE TEETH More Firmly in Place

Do your false teeth annoy and embarrass by slipping, dropping or wobbling when you eat, laugh or talk? Just sprinkle a little **FASTTEETH** on your plates. This alkaline (non-acid) powder holds false teeth more firmly and more comfortably. No gummy, goopy, sticky taste or feeling. Does not sour. Checks "plate odor" (denture breath). Get **FASTTEETH** today at any drug counter.

Negroes to Teach At Texas in Fall

AUSTIN (UPI)—At least two Negroes will begin teaching at the University of Texas next fall, it was learned today.

University Chancellor Harry Ransom said Mrs. Cora Eiland Hicks, a former editorial assistant for the University of Texas Press, will become a teaching assistant in English.

The other Negro teacher will be Dr. Ervin S. Perry, who will become an assistant professor of civil engineering.

Two Sentenced For Burglary

District Judge Lewis M. Goodrich handed down two prison sentences yesterday afternoon.

Larry Wayne Henderson was sentenced to three years in the state penitentiary after pleading guilty to a charge of burglary.

William Wayne Roe was sentenced to 8 years probation on a plea of guilty to burglary.

INSURANCE COSTS
NEW YORK (UPI) Expenditures of Americans for various kinds of personal and family insurance, including pensions, in 1950 to \$51.8 billion in 1963, the Institute of Life Insurance reports.

Obituaries

James Douglass Brock
Funeral services were held at 2:30 p.m. today in the McLean Church of Christ for James Douglass Brock, 90, long time resident of McLean, who died Saturday at the Twilight Acres Rest Home in Pampa.

Mr. Brock was born Jan. 16, 1874, in Lama County, Alabama. He farmed for many years in the McLean area, retiring five years ago.

He is survived by three sons, Edward B. of Dimmitt, Claude J. of Pampa and James O. Brock of McLean; five daughters, Mrs. Nora Clawson of McLean, Mrs. Lou Hood of Ft. Worth, Mrs. Sadie Lane of Lefors, and Mrs. Cecile Plumlee of Whitt, Tex., and one sister, Miss Lily Brock of Jasper, Ala.

Officiating at the services were Jay Channell, minister of the McLean Church of Christ, Harold J. McColum, Church of Christ Evangelist and Zeb Sailors, minister of the Lefors Church of Christ.

Burial was in the Hillcrest Cemetery in McLean, under the direction of the Lamb Funeral Home.

The Library of Congress is not required by law to preserve a copy of everything registered for copyright.

Wedgeworth on Panel in Dallas

E. O. Wedgeworth, manager of the Pampa Chamber of Commerce, and Mrs. Wedgeworth are among some 275 delegates attending the 58th Annual Conference of the Chamber of Commerce Managers at the Baker Hotel in Dallas.

Wedgeworth was moderator on a panel Monday, "How We Made Our Members Love Us." The 1964 TCCM annual conference has its theme, "Seminars of Success."

The convention ends tomorrow.

Benefit Party Set for Price

A benefit card party for Bob Price, Republican candidate for 18th district congressman will be held at 8 p.m. Thursday in the Hospitality Room of Citizens Bank and Trust Company.

Price will face incumbent Rep. Walter Rogers, Democrat, in the November general election.

Dominoes, canasta and bridge tables will be set up at the party and tickets may be purchased by calling 5-4100.

Money raised from the affair will go for Price's campaign.

Man Injured in Driveway Mishap

Dale Smotherman, 844 E. Campbell, was treated and released at Highland General hospital Monday night for cuts and bruises received when he was hit by a car being backed out of a driveway by his wife, Mrs. Evelyn Smotherman.

Police said Mrs. Smotherman was backing into the street about 10 p.m. when her husband stepped in the path of the oncoming car which knocked him down and ran over him.

The water flea is not an insect, but a tiny freshwater shellfish about one-tenth of an inch long.

Foreign Commentary

By PHIL NEWSOM

At a White House luncheon, President Johnson lifted his glass in a toast to Shah Mohammed Reza Pahlavi of Iran.

A "Reformist 20th century monarch," said the President. The luncheon itself was a reminder of the importance which the United States continues to attach to the Shah's nation of 20 million persons standing as a barrier against communism in the Middle East and as an example of a backward land moving into the 20th century.

Over the years since World War II, the United States had spent well over a billion dollars

to forward Iran's economic development and develop its armed forces. Although on a declining scale, this aid continues.

For the Shah, the presidential toast was an accolade earned the hard way, although not without antecedent.

Iran's entry into the modern world and the beginning of the Pahlavi dynasty date only from 1926 when the present Shah's father overthrew the Qajar dynasty and made himself absolute monarch.

Abolished Women's Veil
The old Shah was a tough and colorful man who gained the enmity of Iran's Moslem religious leaders by abolishing the veil for women.

One story has it that when an imam criticized the when for not wearing a veil, the Shah ordered out a convoy of armored cars, went to the mosque and kicked the erring imam in the stomach.

His son has exhibited similar toughness, surviving assassins' bullets and attempted overthrow, persisting in his friendship to the West despite the wrath of Russia and in his steady drive to modernize Iran over the strong opposition of the Moslem imams and Iran's big landowners.

The comparatively fast turnover of Iranian premiers illustrates an impatient tendency to exercise the royal whim and Iranian rule could not be called a shining example of democracy.

Gave Own Land
But since he began giving his own lands away for distribution among Iran's 15 million landless peasants more than 10 years ago, he also has shown a determined single-mindedness of purpose.

One by one, the big landowners, some of them owning up to 150 villages and holding the peasants in virtual serfdom, have toppled.

So far, the government has bought up more than 8,000 villages and distributed the land for the benefit of more than one million peasants.

The landlords also have been removed from control of Parliament which now has a broad base including civil servants, workers, farmers, businessmen, intellectuals and some women who last year were given the vote for the first time.

White Youth Interrupts Meeting on Civil Rights

By CLIFF SESSIONS
 WASHINGTON (UPI) — A young white man interrupted a civil rights meeting yesterday with a 10-minute anti-Negro, anti-semitic harangue, touching off angry shouts from the audience. The man, who identified himself as John Patler, a member of the American Nazi Party, was finally dragged off the stage by a policeman. He showed up in a downtown theater where the Council of Federated Organizations, a coalition of civil rights groups, was holding a meeting to discuss alleged mistreatment of Negroes in Mississippi. Dr. Harold Taylor, former president of Sarah Lawrence College, novelist Joseph Heller, author Paul Goodman and Dr. Gresham Sykes of the American Sociological Association were among members of a "select jury panel" which was meeting to hear reports from about 25 alleged victims of Mississippi racial violence during the day long meeting.

Ash Remains of Jawaharlal Nehru Spread Over Land

U.S. Protection Urged
 The panel was asked to urge President Johnson to furnish federal protection for civil rights workers during a summer campaign in Mississippi. Patler arose from his fourth row seat moments after Lawrence Guyot, a civil rights worker from Hattiesburg, Miss., began to tell of some of his Mississippi experiences. "You bunch of phonies," Patler screamed as he rushed to center stage before the crowd of about 150. Guyot attempted to continue his discussion but finally gave up as Patler talked. Taylor rose to quiet Patler but was unsuccessful. Taylor attempted to introduce himself but Patler screamed, "I don't care who you are," and continued his speech making.

LIONS ENTERTAINMENT — The southwestern district championship barbershop quartet, the Pioneers, will be the featured attraction at the Pampa Noon Lions Club's annual installation banquet at 7 p.m. today. Top are, left, Dean Kelly and Bill Devers. Bottom, left, is Bobby Boyd and Bill Rawlings. The Pioneers were organized in 1957 and have placed in the finals in two regional contests and two district contests before winning the southwestern championship.

DOG EXCHANGE
LONDON (UPI) — Boris, a Russian wolfhound presented by Soviet Premier Nikita S. Khrushchev to British farmer Rudi Sternberg in exchange for a sheepdog, flew into London Monday night and went behind a kind of medical iron curtain. The dog went directly from London Airport to the Hackbridge Kennels, Surrey for quarantine for six months, the same as any other imported dog. Sternberg gave the sheepdog, Flash, to Khrushchev at a British agricultural exhibition in Moscow.

Barry Believes He's 'In,' But Not Certain Yet
CHESTER, Pa. (UPI) — Sen. Barry Goldwater believes he will be nominated for president at the Republican National Convention but he will not be entirely "certain" until the roll is called in San Francisco. Goldwater, who addressed the graduating class at Pennsylvania Military College Sunday, said he thought the "stop Goldwater" movement was "running out of actors" but he would not elaborate on that statement.

The conservative Republican senator told a news conference he felt that former President Dwight D. Eisenhower and former Vice President Richard Nixon were not part of a campaign to halt his presidential ambitions. He said Gov. William Scranton's television appearance Sunday led him to believe Scranton "is not a member of a stop Goldwater movement nor by his words is he a candidate."

Scranton said on the "Face the Nation" program that he and other GOP leaders want assurances that Goldwater's nomination would not mean "wedgeing" the party from its traditional principles. In reply to a question, Goldwater said he did not feel that his position on the civil rights bill and against cloture to end the southern filibuster could be construed as the "wedge" Scranton mentioned. He expressed belief that Republican support of cloture was from a "very, very limited minority" in the Senate.

"I believe you saw the answer to this in Sen. (Bourke) Hickenlooper's getting a postponement of the cloture," he said. "I think Hickenlooper (R-Iowa) was speaking for the bulk of the Republican senators. If the liberal (Republican) element was that strong it would have stopped this."

IRON MAN
NEW YORK (UPI) — Joe (Iron Man) McGinnity pitched and won both games of a doubleheader three times during August, 1903, for the New York Giants.

Atom-Powered Ship Starts Maiden Trip

NEW YORK (UPI)—The NS Savannah, the first U.S. nuclear powered passenger-cargo vessel, sailed yesterday on her maiden voyage to Europe, eager to prove the atom the maritime fuel of the future just as her namesake demonstrated 145 years ago that steam marked the end of the sailing era.

The atomic pioneer, built by the U.S. government at an estimated cost of \$53 million, is expected to complete its first transatlantic crossing in 10 days with its first port of call Bremerhaven, Germany. Aboard the flag decorated vessel are 33 paying passengers and 250 tons of cargo.

After five days in Bremerhaven, the ship will sail to Hamburg, Dublin, and Southampton before returning to New York July 21. Two more European cruises are planned this year to give the gleaming white rakish vessel as much public exposure as possible.

The Savannah, a joint project of the Atomic Energy Commission and the Maritime Administration, already has called at ports on the U.S. Pacific, Gulf and Atlantic coasts. More than 105,000 persons have inspected its large cabins, broad decks and the science-fiction-like operations room where engineers control the nuclear reactor.

Officers of American Export Isbrandtsen Lines, which operates the Savannah for the government, said more than 36,000 persons visited the ship while it was in New York on the eve of its historic voyage.

The handsome 22,000 ton vessel was designed and built as part of the U.S. Atoms for Peace program announced in 1955. Government officials acknowledge that the Savannah is an expensive ship for her class, but they consider her a pioneer that will be an example for future commercial nuclear ships.

Witness Says Bodies Used to Fertilize Soil
FRANKFURT, Germany (UPI)—A witness told a West German war crimes court yesterday that the Nazis used human remains to enrich the soil of the Auschwitz death camp farm. Dr. Imrich Goenczi said he did not know whether the Nazis "killed extra prisoners or just used whoever was dead." He testified at the trial of 22 former officials and guards accused of taking part in the murders of up to four million persons at Auschwitz. Goenczi, a 39-year-old dentist from Czechoslovakia, said he helped to prepare the human fertilizer as a slave worker at the farm laboratory.

Statement on Bond Election

(EDITOR'S NOTE — Mayor H. R. Thompson released the following statement to the public in connection with the city commission's action today in calling a \$950,000 tax bond election on June 30 to finance improvements in the city's sanitary sewage system.)

"City officials have been studying the needs of Pampa for some time and are convinced that inadequacies in the sewage treatment plant and the sewer system is the most important and pressing problem facing them.

"The commission has spent about a year studying all the possibilities before recommending the proposed program.

"Pampa's sewage treatment facilities are outmoded and overloaded to the extent that a deplorable condition of pollution has been created in Red Deer Creek below our treatment plant.

"The plant originally was built in 1930 and was renovated and added to in 1949. The 1949 remodeling was to make the plant capable of serving about 17,000 people. Since that time our city has grown to 25,000. Also, new products such as detergents and new devices such as home garbage grinders have added a huge load to our treatment facilities.

"A few years ago, the State of Texas passed a stream pollution control law and the rules for sewage treatment have been tightened. Under the present rules our existing plant is not adequate for more than 10,000 to 12,000 people.

"City officials have realized for some time that treatment facilities are inadequate. The firm of Forrest and Cotton, consulting engineers of Dallas,

was employed to make a complete study of Pampa's water and sewer systems. They found the present treatment plant to be very inadequate and made recommendations to bring treatment facilities up to standard.

"The proposed plan provides for utilizing the present treatment plant to treat part of the sewage for some time to come; and to supplement the present plant by stage construction of a new plant downstream from the present one. The engineers have made preliminary designs for a new plant to serve 40,000 people. At first, only a portion of the plant will be constructed, then other parts will be added as the city's population grows and the need arises. The available land is large enough to provide a plant to serve 55,000 or 60,000 people. In time to come the present plant can be abandoned entirely if the nearby area is needed for development.

"Under the presently proposed bond issue, some repairs and renovations will be made at the existing plant. These include repairs to the filter and digester and constructing a small stabilization pond. These improvements will make the plant capable of handling about one-third of our present flow and meet present state health department standards.

"At the new plant, a screen, grit chamber, primary clarifier, filter, digester and stabilization ponds will be included in the bond issue. These facilities, used in conjunction with the remodeled present plant, will be adequate for about 32,000 people at present state health department standards.

"We must construct a large sewer line from our present plant to the new plant site which will involve considerable expense.

"Also included in this bond issue are funds for replacing the remainder of the concrete sewer lines in our sewer system. These concrete lines were installed about 1930. Not many

years later it was found the sewer gas was eating up the top of the pipes. Some of these lines were replaced from time to time by city forces and two large contracts for replacing the most seriously damaged lines were carried out in 1946-47 and 1960-61. The destructive action of the sewer gas continues and we are now having so many plugged sewer lines and cave-ins that we must replace the remainder of the lines.

"Our engineers report indicated that there were a few places in the existing sewer system where lines are overloaded. We have included funds in this bond issue to remedy these inadequacies.

"Our financial adviser, R. A. Underwood, tells us that we are in good financial condition and can pay off this bond issue without out strain on our pocketbooks. At present we owe \$1,292,000 in tax bonds. These are being paid off with a tax rate of 45 cents. Our financial adviser says we could pay our present debt plus the new bond issue without changing the tax rate by extending the bonds over a longer period of time. However, he advises a tax increase of 5 cents so the bonds can be retired in a shorter time. There will be a considerable savings in interest not only due to the shorter term but because the bonds will sell at a lower interest rate. The city commission agrees with their financial advisor on this point.

"To summarize, the proposed bond issue will provide funds for: first phase of a new sewage treatment plant, outfall line to new treatment plant, modifications of the existing plant and sewer system modifications, additional lines to strengthen collection system and replacing concrete sewer lines.

"The total amount of the bond issue is \$950,000 and a tax increase of 5 cents per \$100 valuation is proposed.

"If you have any questions about the proposed improvements, please contact your city officials for information."

Caballo Dam Gates Open in New Mexico

TRUTH OR CONSEQUENCE, N.M. (UPI)—The gates of Caballo Dam have been opened to supply water-hungry farmers in the lower Rio Grande, although the reservoir level is far below the seasonal average.

Caballo Dam Reservoir and the larger Elephant Butte Reservoir just upstream now hold 173,953 acre feet. The current breakdown is: Caballo 33,306; Elephant Butte 140,647. A year ago the combined total was 366,760 acre feet and the average storage at this time of year is 1,021,000.

Gates at Elephant Butte remain closed. The Caballo gates

were opened Friday after being closed since late April due to the water shortage.

Water now being released will be used by farmers with water rights in Sierra and Dona Ana counties in New Mexico and El Paso County in Texas. The current water allotment for the year is three inches per acre (the equivalent of water three inches deep over one acre of land).

Bureau of Reclamation officials have expressed doubt that the original allotment of three inches per acre will be increased this year. In past years, farmers have been allowed to take amounts in excess of two feet per acre.

Most farmers in the area are expected to use private wells to supplement the Rio Grande water supply.

Probers Claim Equipment in Viet Nam Okay

WASHINGTON (UPI)—Congressional investigators were told yesterday by Army Secretary Stephen Ailes that the American equipment being used to fight the anti-Communist war in South Viet Nam is both "modern and highly effective."

Echoing earlier assurances along the same line by Defense Secretary Robert S. McNamara, Ailes told the House Armed Services Committee that the Vietnamese army and its U.S. military advisers "are being met on a high priority basis."

The lawmakers are inquiring into charges that some of the war equipment sent to Viet Nam is so obsolete that it is dangerous.

Manned Space Program is Due For Beefing up

HOUSTON (UPI)—A U.S. military leader said today the Air Force is planning to beef up its first manned space program with 15 to 18 astronauts for orbital trips that would overfly the Soviet Union.

Such flights could become manned "spy-in-the-sky" missions.

Brig. Gen. Joseph Bleymaier said the astronauts are under consideration for the Air Force's Manned Orbital Laboratory (MOL), a house trailer-sized space station the United States hopes to install above earth in 1967 or 1968.

The U.S. civilian space agency already has 29 astronauts at work training for flights to the moon.

Bleymaier, chief of the MOL development program, also indicated the Air Force is pushing for development of a second astronaut launching center, in the Vandenberg Air Force Base, Calif. area.

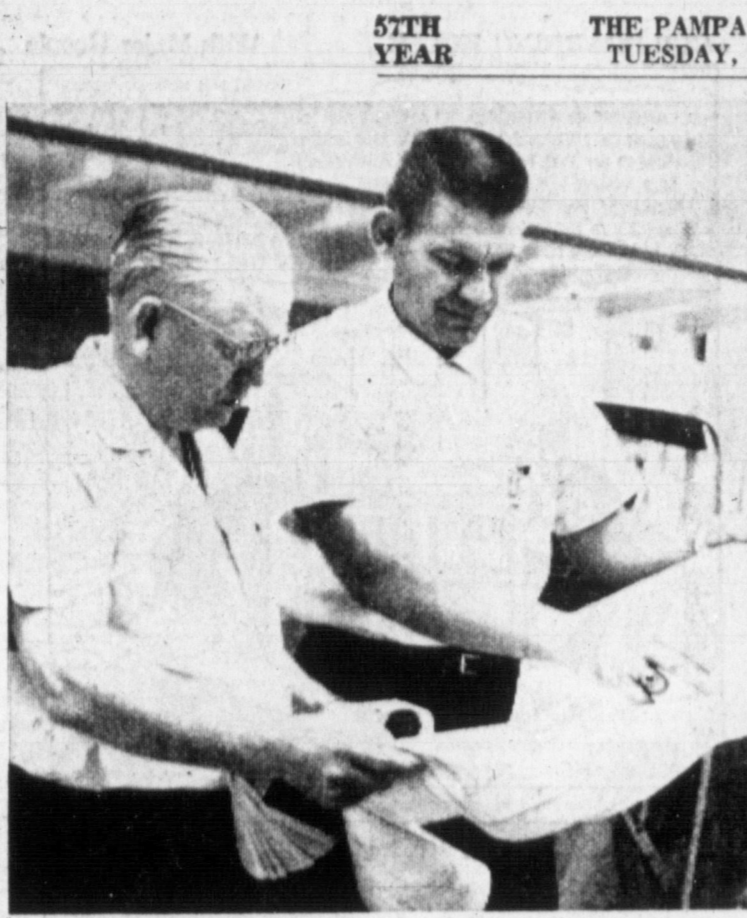

"We've been contemplating it like mad," he said, "and we plan to do this." But he declined to say when it might be done.

Bleymaier unveiled the ambitious plans to newsmen following an address before the three-day Texas Air Force Association convention, in which he also revealed that some of his own MOL astronauts will probably "hitchhike" orbital rides aboard the federal space agency's two-man Gemini and three-man Apollo spaceships.

A West Coast station for launching astronauts, he said, "would be very attractive, from a military point of view."

SHARE OF SPACE—Hundreds of small investors are scrambling to buy shares in the Communications Satellite Corp., one of the most glamorous stock issues in Wall Street history. Bank employee Joanne Cockrell shows a certificate with an experimental relay satellite in the background. The corporation hopes to place a network of satellites in space. A unique corporation, half of the stock is the property of the U.S. government.

Officials Try to Pacify Students

SEOUL, Korea (UPI)—The South Korea government moved against corruption in high places today in an attempt to pacify student protests aimed at ousting President Park Chung Hee's regime.

Premier Chung Il Kwon ordered ranking government officials to register their property holdings. The decree applied to all officials above the rank of sub-section chief. Chung said officials should "voluntarily" submit a list of their holdings and those of members of their families.

The premier said the number of government vehicles would be reduced by 50 per cent and that all officials would be encouraged to walk to work instead of riding at taxpayers' expense. He added that 576 government officials were punished for irregularities between January and April.

The portrait of Alexander Hamilton appears on the U. S. \$10 bill.

POSTOFFICE TO BE COOL—Pampa Postmaster O. K. Gaylor and Bill Morris of the Central Air Conditioning Company are shown looking over the new air conditioning system to be installed in the post office. The Central Air Conditioning Company of Wichita, Kansas was awarded a \$110,000 contract, recently, which calls for installation of the air conditioners, a new fluorescent lighting system and toilet facilities in the basement. The work is expected to be completed by December.

Broadcasters To Fight for TV Coverage

WASHINGTON (UPI)—A broadcasting industry spokesman has served notice that efforts in Congress to restrict television coverage of the presidential election in November would be fought by the nation's broadcasters.

Leroy Collins, president of the National Association of Broadcasters (NAB), said that "any suppression of news is revolting to our concept of reportorial responsibility."

Rep. Oliver P. Bolton, R-Ohio, called on radio and television networks to voluntarily agree to withhold any declaration of a winner in the November election until the polls had closed all over the country.

Bolton said if no voluntary agreement was forthcoming, he would ask the Federal Communications Commission (FCC) to "seriously consider appropriate regulatory action."

CABLE SHIP DEPARTS SOUTHAMPTON, Eng. (UPI)—The cable ship Monarch left here for Singapore today with a communications cable to link Australia to Hong Kong and Malaysia.

The cable will provide a 685-mile extension on cable already laid by the cable ship Mercury. The cable is expected to be in service by 1966.

Dear Abby....

Tell Children Family Feed On Mother's Day Has Ended

By ABIGAIL VAN BUREN

DEAR ABBY: Every Mother's Day my married children "honor" me by bringing their families to me to feed. This Mother's Day I had 22 here. All the men played cards, and the girls sat in the living room laughing and gossiping while I was in the kitchen doing all the work. Pa helped me dry the dishes. I love my children and grandchildren, but I am getting too old to work like this. If I am still around next year, how can I let them know that I would rather not be "honored" like this again without hurting their feelings?

GETTING OLD
DEAR GETTING: WHAT feelings? Tell all your children before Mother's Day that Dad is taking you out for dinner. And then see that he does, if you have to use the money you've stashed away in the sugar bowl to help him.

DEAR ABBY: You said in your column that if a boy says something dirty or out of line in front of a girl, and the girl's brother hears it, it is his place to stand up for his sister and tell the boy off. What if a girl doesn't have a brother? My girl friend and I talked over this problem because it has happened to us. She says if a boy says something dirty, the girl should ignore it. What do you think?

ANOTHER FRESHMAN
DEAR FRESHMAN: To ignore offensive language implies that it has your approval. A girl should tell a boy who gets out of line in this manner that he should watch his language. And in no uncertain terms!

DEAR ABBY: I am a woman physician with three children who don't like to do dishes. I told my problem to a remarkable patient of mine who not only raised her own family but raised several foster children, and did a wonderful job. She sent me a copy of a little poem that she keeps pasted above her kitchen sink:

"Thank God for dirty dishes. They have a tale to tell; While other folks go hungry, We're eating very well. With Home and Health and Happiness We shouldn't want to fuss. For by this stack of evidence, God's very good to us!" Since I have put up this sign I have had no complaints.
B. A. T. (M. D.)

CONFIDENTIAL TO "DISGUSTED WITH PEOPLE IN SCHENECTADY": "Make yourself an honest man, and then you may be sure that there is one less rascal in the world." (Thomas Carlyle)

Troubled? Write to ABBY, Box 69700, Los Angeles, Calif., 90069. For a personal reply, enclose a stamped, self-addressed envelope.

RUTH MILLETT

You've still got some growing up to do, whatever your age, if:

It makes you unhappy to see a friend get ahead or buy things you can't afford.

You feel there is just one "crowd" in your town you want to belong to — and that if they accept you, you'll really amount to something.

You have to retaliate when anyone slights you in any way.

You keep strict account of what you do for others — and expect them to do equally as much for you, resenting it when they fail to repay your kindnesses.

You always have to have one friend you can count on to listen to all your troubles and boost your ego by telling you that you are in the right and whoever disagrees with you is in the wrong.

You are more concerned with the impression you make on others when you first meet them than in enjoying the chance to get ac-

Legion Auxiliary Votes to Buy Markers for Graves of Veterans

The American Legion Auxiliary voted at its meeting last Thursday to buy two dozen

bronze markers for the graves of veterans.

At a meeting in the home of Mrs. F. W. Shotwell, 1312 Duncan, Auxiliary members also voted to send \$5 and 50 gift articles to the hospitality committee for the national convention to be held in Dallas in September, decided to hold a rummage sale in September and reported that two families of veterans had been assisted.

Contributions of \$25 each were reported from the Altrusa and Varietas clubs to assist in sending a Pampa girl to Girls State.

Poppy Day sales amounted to \$425. The president reported that the clergy chair would be placed in the chapel of the Veterans Administration Hospital.

Refreshments were served by Mrs. Shotwell, assisted by Mrs. Estelle Wheeler.

The next meeting will be held at 7:30 p.m., July 2, in the home of Mrs. Luther Pierson, 1818 Christine.

Disolve a little blueing in the cleaning water to give additional sparkle to mirrors.

Rebekah District Deputy Conducts Instruction Class

Certificates of Perfection were presented at a recent meeting of Pampa Rebekah Lodge No. 355 to Mrs. Dorothy Voiles and Mrs. Ola McAfee.

The presentation was made by Mrs. Bobbie Brummett, lodge deputy.

A school of instruction for members was conducted by Mrs. Robert Mouton, district deputy, from Perryton. Members presented the lodge officer with a gift.

Noble Grand Mrs. Juanita Matheny presided at the session at which a letter was read thanking members for contributions to aged members and jewelry to be sent to children.

A circle meeting will be held June 23 in Amarillo.

Next meeting of the local lodge will be at 8 p.m. Friday in Odd Fellows Hall.

Girl Marks Birthday, Graduates And is Married All on Same Day

CANADIAN (Spl) — May 26 was a busy day for Miss Suzanne Morris who celebrated her birthday, graduated from high school and was married all on the same day. She is the daughter of Mr. and Mrs. Kenneth Morris of Canadian.

Miss Morris became the

quainted with a new person. You are miserable if you hear about a party to which a lot of your friends have been invited but to which you have not received an invitation.

If you do another person a favor, you make quick work of seeing to it that all your friends know of your good deed.

It takes you a long time to make even a simple decision and after you've made it you worry for fear it might have been better if made differently.

bride of Harold Lee Thrasher, son of Mr. and Mrs. Harold Thrasher of Pampa, in an impressive double-ring ceremony after the graduation exercises. The vows were exchanged in the home of the bride's parents with her uncle, the Rev. Lawrence Jahnel of San Angelo, officiating. The improvised altar was decorated with tall baskets of white gladiolias.

The young couple was attended by another newlywed couple, H. L. and Joyce Thomas.

The bride, who was given in marriage by her father, chose for her wedding a white linen sheath dress with a blue lace jacket. She carried a white Bible (her something borrowed) topped with white roses.

A reception followed the ceremony. A lovely tiered wedding cake centered the serving table. Punch was served from crystal service. The young couple will make their home at Clovis N.M.

WESTERN THEME — Members of Sigma Delta Sub Debs recently entertained more than 50 rushees at a western theme party at the home of Patsy Vaughn, 2109 Christine. Refreshments were served from the chuck wagon. From left are two rushees, Debbie Sullins, Judy Abernathy, president Patsy Vaughn and treasurer Helen Reed.

READY, AIM . . . NEW YORK (UPI) — The number of licensed women hunters in the United States climbed above the million mark in 1963, the National Shooting Sports Foundation reports. Read The New Classified Ads

Joint Meeting Held by Circles

A joint meeting of the four day circles of the Women's Association of the First Presbyterian Church was held recently in the church auditorium.

Mrs. Glenn Ritchhart presided in the absence of the president, Mrs. J. B. McCreary. Rev. Donald Hauck led the group in a study, "Men Made

Alive", based on the fifth chapter of "Be What You Are", a study guide of Paul's Letter to the Colossians.

Members were informed that the annual Prayer Retreat would be held Aug. 19. The meeting was closed by Mrs. Ritchhart with a short devotional.

COLLECTION TIME

Our little merchants are really self-employed businessmen. He is learning that personal enterprise is a challenging education in itself. By learning to serve you well, he serves his own future as a better citizen.

If for some reason you put him off at collection time, or ask him to come back or forget to pay him entirely then he suffers the loss. Loss of time in coming back, (and he is such a busy fellow anyway). And he suffers loss of money, because he pays for all papers delivered.

If this little businessman comes knocking on your door and asks for payment, please remember he really appreciates your courtesy and promptness.

when you need your phone you can count on it

A freckle-faced miss invites a playmate over . . . Dad tracks down a hard-to-find gadget for the workshop . . . Mom gets a recipe from a friend. Whatever the need, people take it for granted their phone will work. What else that you use so often is so dependable?

Making telephones so reliable takes complex equipment, technical improvements and, above all, carefully trained telephone people.

The payoff for these things comes when you pick up the receiver and your phone works, and works well. Our goal is telephone service that continues to grow in dependability, convenience and personal value.

Making telephone service better to serve you better

Sporting Sidelines

By KARL O'QUINN

Although he is graying and slowed by time, there is still pepper in John Leonard Martin.

The Wild Horse of the Osage is now in his 40th year of baseball, and although he has not starred on the playing fields for over half that time his name is still magic. If any proof were needed it was furnished last night by the standing ovation given him by a crowd of 1,500 when he was introduced at the Little League opening.

Pepper Martin is currently engaged in teaching baseball to youngsters in the Southwest by means of such brief clinics as he held last night and of longer schools. When in Tulsa he provides the color for the radio broadcasts of the Oiler games but part of his salary is still paid by the Cardinal farm club.

Martin was a coach for the Oiler last year and, although he denies that he has anything to do with the running Tulsa attack, it is certain that the young Texas Leaguers profit from his experience and example.

To show what a Pepper Martin type of team Tulsa has this year, in a recent game in San Antonio an Oiler batter beat out an infield hit at first and runners scored from second and third on the play.

Pepper is as direct in his speaking now as he was with his running in the thirties. When asked how he thought the Cardinals would do in the current National League race he said every time he said anything on the subject he made people mad. However, he risked displeasure again by repeating his prediction made at the start of the season — that the Cards did not have the balanced team necessary to go all the way in the rugged pennant race. He picked the Dodgers to win with San Francisco and Philadelphia as

alternate choices. He gave no indication that he had changed his mind.

Martin has been a resident of Oklahoma all his life. He was born in Temple, raised in Oklahoma City and now lives in Quinton.

He played most of his early professional career in Texas, breaking in with Greenville in 1924 in the long-dead East Texas League and playing for the Houston Buffs in 1927 and 1929 in the Texas League.

He picked up the name "Pepper" early in his career while with Fort Smith, Ark., in 1925. Blake Harper, business manager for the Fort Smith club, hung the name on him and it stuck.

He made the grade with the Cardinals in 1931 in his eighth year of pro ball, fast in those days, and helped the Red Birds to a World Series win over the defending champion Philadelphia Athletics the same year.

Three years later Martin and the famed "Gas House Gang" duded Mickey Cochrane's Detroit club in one of the game's great series.

Pepper led the National League in stolen bases in three of his ten years with St. Louis and appeared in three World Series.

After he finished playing he managed Miami, Sacramento, Macon and Des Moines, and coached with the Chicago Cubs (when they still had a manager) and Tulsa.

There are extremely few careers that can come close to comparing with Martin's. Those Little Leaguers can start making up stories for their grandchildren about how Pepper Martin taught them how to slide and make a tag on a sliding runner. His name will still be famous when they have grandchildren.

BIG CAT — Bob Fletcher, of 1025 S. Sumner, displays a 54-pound yellow catfish he caught on a trotline in Kickapoo Lake, south of Wichita Falls. The Webco employe also said he caught several smaller ones around five pounds.

57TH YEAR TUESDAY, JUNE 9, 1964 13

Thunderbird Winnings Move Lema to Fifth

DUNEDIN, Fla. (UPI)—Tony Lema's \$20,000 pay day for winning the Thunderbird Classic vaulted him into fifth place in total money winnings for the year among the touring professional golfers.

Lema's victory, his first in 15 tournaments this year, brought his total winnings to \$31,684.17. Mike Souchak, who finished second to Lema in the Thunderbird and picked up \$12,000, climbed into fourth place with total winnings of \$34,453.92. Jack Nicklaus maintained the

All America Gridgers Move on to Pros

By STEVE SNIDER
UPI Sports Writer

NEW YORK (UPI)—Scores of fine football players bid goodbye to campus life this June including 19 of the top 33 on the 1963 "All America" squad selected by United Press International.

In the group are seven off the first All-America honor team led by linesman of the year Scott Appleton of Texas and speedy halfback Sperm Lewis of Michigan State.

Seven from the UPI second team and five more from the third will be graduated, or otherwise become ineligible for further collegiate football.

In addition to Lewis and Appleton, the first team picks heading out into the cold cruel world (meaning the pro ranks for many of them) are end Vern Burke of Oregon State, tackle Carl Eller of Minnesota, guard Bob Brown of Nebraska, end Jim Kelly of Notre Dame and halfback Jay Wilkinson of Duke.

Second Team Picks
Second team picks in the class of '64 include end Billy Martin and halfback Billy Loderidge of Georgia Tech, halfback Paul Marth of Pitt, guards Damon Bame of Southern California and Dick Nowak of Army, tackle Whaley Hall of Mississippi and Baylor's great passer, Don Trull.

Third teamers are end Mel Profit of UCLA, tackle Herschel Turner of Kentucky, guard Earl Lattimer of Michigan State, backs Mel Renfro of Oregon and Tommy Crutcher of Texas Christian.

Texas, unbeaten in two seasons (though tied in '62), loses a bundle from its 1963 national champs.

In addition to Appleton, who was just about everyone's all-around star last season, the

Longhorns say goodbye to their other starting tackle — Ken Ferguson — as well as quarterback Duke Carlisle, halfback Tommy Ford and center Dave McWilliams from a roster that listed 17 seniors last fall.

Wade Testifies Before Warren Investigators

WASHINGTON (UPI)—Dallas Dist. Atty. Henry Wade, who closely investigated the Kennedy assassination and won a death verdict against Jack Ruby for the slaying of accused assassin Lee Harvey Oswald, testified yesterday before the Warren Commission.
Wade was one of two Dallas witnesses called for testimony today before the group investigating the murder of the late President John F. Kennedy. The other witness was Dallas police Sgt. Patrick Dean.
Scheduled to appear Tuesday are a number of officials of the State Department. They apparently will testify about the overseas activities of Oswald, a Marxist who spent some time in the Soviet Union after leaving the U. S. Marine Corps.
Secretary of State Dean Rusk is scheduled to testify Wednesday and Mrs. Marina Oswald, widow of the alleged assassin, will make her second Washington appearance before the commission Thursday.

READY AGAIN
BONN (UPI)—West German President Heinrich Luebke Monday informed parliamentary parties chairmen he is ready to be re-elected for another five-year term.
His re-election was seen as a virtual certainty since the Christian Democrats and opposition Socialists have pledged him their support.

THIRST FOR FUN—When Mark Sarazen, 2, went to get a drink from a sprinkler in St. Petersburg, Fla., he got a little more than he bargained for.
