FLOWERS DECORATE FOR BRIDGE CLUBS

Spring Parties Are Given by Two Hostesses

Bi-weekly bridge club parties have been bright spots of the early days this week, as hostesses have decorated tables in the spirit of spring and included guests with club members for the games.

A breakfast for Queen of Clubs was given yesterday morning at the Schneider hotel by Mrs. Max Mahaffey. Bouquets of mixed garden flowers centered the five tables.

Mrs. Carl Boston made high score for club members. Mrs. Nichols for guests, and Mrs. Otto Studer, another special guest, cut high. Mmes. M. C. Overton, Frank Perry, John Sturgeon, Aitken, and Beagle completed the list of club visitors.

Members playing were Mmes. B. C. Lilly, L. N. McCullough, H. D. Keys, W. V. Jarrett, F. A. Howard, Carl M. Smith, R. S. Lawrence, I. B. Hughey, Howard Buckingham, A. B. Goldston, Joe Burrows, Crawford Atkinson.

YOUR CHILDREN

By OLIVE ROBERTS BARTON.

Sometimes I wonder what people would be like if speech had never been invented. Because words, both spoken and heard, and thought, are the making of character, either bad or good.

Our true selves are our thoughts, but strange to say, the words we speak, even at random, affect our view, just as an affected limp will eventually cripple the leg.

In a household that ferments constantly, where no good word is said of anybody or anything, not only the bacteria of hate get into the children, but a lingo of destruction is fostered. Everything is "mean" or "awful" or "bad" and people are everything under the sun.

Is an Unwitting Fault.

Most of us will look about now and think of one family or two that we know, and cluck our tongues. "Yes, that's true of the Smiths and Joneses," we say virtuously. But if a ghost could stand in one of our corners with a notebook and record for a day a list of destructive words used right in our own households, many of us would be chagrined and ashamed.

They would include complaint, suspicion, accusation and the whole gamut of unstrides.

Spend a week sometime in a house where sarcasm is the style. At first you want to run, then you begin to see some fun in it, and by the time you have said your farewells, you pride yourself that you have gotten off some good ones, too.

Nothing is so contagious as the destructive word. On the other hand, like most good and true things, the optimistic phrase travels slowly.

Parents feel that in their own homes, at least, they are free to express their troubles. Father comes in, tired out and full of woe; mother harried and suppressed, perhaps by a day's list of destructive words used right in our own households, many of us would be chagrined and ashamed.

Children Add to Rancor.

The children come in then, and air their petty jealousies, not that they are any less important to them than troubles are to their elders.

The air is so thick with the words of hate and suppressed, perhaps by a day's list of destructive words used right in our own households, many of us would be chagrined and ashamed.

Contrary to belief, it is self-control that reacts pleasantly.

HIGH SCHOOL P-TA PRESENTS HONOR EMBLEMS

Business Is Reported At Unit Meeting Yesterday

Presentation of National Honor Society pins to 21 high school students yesterday morning was reported to High School Parent-Teacher association when it met in the afternoon at the new auditorium.

Progress on the play, *Contrary Mary*, which the association is to sponsor soon, was reported by Kenneth Carman, director. The cast is at work on regular rehearsal schedule, he said.

Mrs. N. F. Turner brought highlights of the recent district convention at Perryton, and thanked the association for its part in presenting a life membership to her. All Pampa associations joined in the gift to Mrs. Turner, president of the Pampa council.

Cooperation in housing members of school bands who will convene here April 22-24 was asked by Mrs. John Hessey, chairman of the housing committee.

The program yesterday opened with songs by a Glee club group directed by Miss Helen Martin. The main talk was by E. N. Dendard, assistant principal, on Guiding Boy-and-Girl Relationships.

Mrs. N. F. Maddux presided at the meeting, which was postponed from last week because of the district meeting.

MIND your MANNERS

Test your knowledge of correct social usages by answering the following questions, then checking against the authoritative answers below:

1. Should a woman who has been asked to "pour" at a club tea wear her hat whether the tea is to be in someone's home or a clubhouse?
2. If a guest has not been asked to be served, is it correct for him to say to the person pouring, "May I have a cup of tea?"
3. When a person who is pouring tea asks a guest, "How do you like it?" what information does she want?
4. Is it better to make the tea at the table with tea leaves or essence and hot water, or bring it in from the kitchen at medium strength?
5. Is it appropriate to serve hot breads at afternoon tea?

What would you do if—
You were chairman of a club committee giving a tea for a large number of guests and you are confronted with the problem of providing napkins—

- (a) Borrow napkins from various club members?
- (b) Use paper napkins?
- (c) Do not use paper napkins?

- Answers.
1. Yes.
 2. Yes.
 3. Preferences concerning lemon, sugar, and weak or strong tea. (If she is not making tea at the table, there is no choice as to strength of tea.)
 4. Tea made at the table can be made strong or weak according to the preference of the guests. For a large tea it is more practical to make it medium strength in the kitchen.
 5. Yes, at small informal teas. Best "What Would You Do" solution—(c). There are too many difficulties involved in (a).

THE HEART AND THE POCKETBOOK

Authorities on safety are finding important parallels between present day efforts to stop traffic casualties and the accident problem which faced industry a quarter century ago.

It is history that in the beginning, management was reluctant to support the industrial safety movement on any but humanitarian grounds. Executives feared that the acceptance of safety standards and procedures, the use of machine guards and other such devices would slow up production.

What happened in the industrial field will happen with the automobile. Not only can we solve the traffic accident problem, but in so doing we shall very largely solve the traffic efficiency problem. Communities that are cutting down their accidents successfully are just those communities that are moving their traffic more quickly and more easily.

WAR PROSPECTS IN EUROPE With the break-down of the supposed agreement to stop other countries from sending volunteers into Spain and Mussolini's reported intention of sending 100,000 troops into Spain, the prospects for peace in Europe are none too bright.

It looks as if Mussolini is determined to get possession of Spain so that the Port of Gibraltar, on the Mediterranean could be controlled by the Italians. If Italy succeeds in controlling the passage through the Mediterranean, it will be a great handicap to those countries who have colonies on the Mediterranean or beyond the Mediterranean.

WASHINGTON LETTER

WASHINGTON—Judged by simultaneous developments around Washington, Mayor LaGuardia's presentation of the request of the mayor's conference for a federal relief budget of two and a quarter billions arrived at the White House at an inauspicious moment.

On the same day, Messrs. Harrison and Doughton, for senate and house respectively, were giving the boot to suggestions for tax increases, so far as this session was concerned.

There were a number of other straws indicating the direction of the President's thoughts as he settled down to decide this delayed element of his budgetary policy.

The suggestion made recently by Governor Eccles of the reserve board for tax raises, if necessary, to obtain something like a balanced budget may be as objectionable to the White House as to Harrison and Doughton. But there are intimations that the President sees eye to eye with Eccles on the notion that his final budgetary decision could help prevent runaway boom markets and subsequent crashes.

The Eccles contention was that while government spending on a lavish scale for economic pump-priming had justified itself, recovery now was proceeding on its own momentum. His "compensatory fiscal policy" formula would require public debt reduction—a balanced budget at least—in such circumstances.

TEX'S TOPICS

Perhaps you have read in the last few days about a movement being fostered by the Pampa Board of City Development and the Junior Chamber of Commerce to bring farming and all the phases of agriculture into their own in Gray and surrounding counties.

As far back as anybody knows anything about civilization, the cultivation of the soil has been the first and most important industry in any thriving state, and—in the long run—doubtlessly it always will.

That was the garden of the world in its day. Its great cities, Babylon and Nineveh, were they today? Piles of desert sand mark the spots where they stood.

A provision of Providence fertilized the valley of the Nile by overflowing it every year. From the earliest records that history gives, Egypt has been a land of remarkable crops; and today the land thus fertilized by the overflow is yielding more abundantly than ever.

It is made clear by every process of logic and by the proof of historic fact that the wealth of a county, section of a state, or of a nation, the character of its people, the quality and permanence of its institutions all are dependent to a great extent upon sound and sufficient agricultural foundation.

The logic behind that kind of reasoning is exactly what the Pampa Chamber of Commerce groups have in mind when they consider it vital to this Panhandle community that something be done about getting farmers to settle in the area on a small farm tenancy basis.

Pretty serious line of thought in the column today, you say. Well, one can't go around all the time writing about what he sees on a downtown street corner, or dishing out some secret squib about Tom, Dick or Harry.

A heckler reminds us that we said here last night that Ernie Voss was a handsome lad, claiming that what we meant to say was that his son, Floyd, really is the Beau Brummel.

Yesteryear in Pampa

TEN YEARS AGO TODAY R. E. Williams, one of the first Gray county judges and former city marshal of Pampa, died of a heart attack while visiting his daughter, Mrs. Harry Bernard, from New Mexico.

Pampa participated in the county Inter-scholastic League meet at McLean. Outcome of the meet was disputed, as Pampa won points on some events in which other schools were not eligible to compete.

Hostesses of the week-end included Mrs. Siler Faulkner and Mrs. Henry Thut, Jr., Mrs. W. W. Merten, and Mrs. W. E. Coffee, Hicks Allen, and P. B. Carlson.

FIVE YEARS AGO TODAY Seniors left high school for their annual Sneak Day picnic at the Reynolds ranch.

T. D. Hobart was re-elected president of the Panhandle-Plains Historical society.

Pampa trippers headed by Travis Lively attended a carnival at Grandview school where Principal B. F. Bulls was in charge of a lively evening.

He held that course was as essential for stability on an economic upswing as was government spending to meet a downswing.

Which illustrates the President's problem as he faces the shaping of his relief budget. If he, like Eccles and many another New Deal insider, has fears of an impending uncontrolled boom, adjusting his relief policy to meet it without curtailing the "they-shall-not-starve" motto of his administration must be a doubly delicate task.

Pathetic figure: The man who heard his wife say "Where is my hat?" just after he had burned what he thought was Junior's Easter basket.

BIRD SEED

Man About Manhattan

By GEORGE TUCKER

NEW YORK—Princess Myrtle Big Man, as soon as she swaps her wampum and moccasins for some Fifth Avenue lingerie and finery, will move into one of the big Northwest airliners and become the first Indian princess hostess on record.

Herewith an imaginative record of the princess' recitations on a typical flight. The plane has left Chicago and, at 12,000 feet, is rushing over what the map insists would be Montana.

"Well, everybody, now that we've had some coffee we might as well have a little sista. . . Now what place could that be—I know, it's Crazy Horse Creek, and lightning strike me if it isn't the very place where my great grandpappy took a shot at old Sitting Bull. . . What a man he was—no, not Sitting Bull, my grandpappy. A dead shot, and he wouldn't have missed that day if a locust hadn't blurred his vision at the moment he twanged the bow.

"That ridge over to the left would be Coon Hollow ridge, and it was here that Chief Crazy Horse, with a band of no good reds, attempted to ambush a coterie of my ancestors. . . Sink me if that wasn't a real scrap. We quickly assumed the upper hand, blasty their hides, and sent them scurrying over the hills. Crazy Horse managed to escape (a fiend take him), but we got the rest of the group, and that evening had the satisfaction of listening to their lives gurgle away through tomahawk whacks in their throats.

"Dear me, wouldn't my grandpappy be surprised if he could see me now—acting like an eagle this high above the old range. Yessir, that's where the buffalo used to roam. Why I remember this very plateau. We came here to pray for rain during the famine of 1918, when I was three years old. . . I can recall a star-streaked night when my uncle, a great fighter, related the modest part he played in the defeat of the Blackfoot Indians. . . His aim was off during the campaign, he recalled, and it embarrassed him because he went out with 25 arrows in his quiver and came back with only 23 scapls.

"But, after that shocking example of bad marksmanship, he steadied down and kept up with the rest of the boys. . . That place down there is Rattlesnake Slope, and a great salt lick for deer. At twilight the deer used to creep in from the meadows and get a little tonic, and my ancestors, concealed in the thick foliage of the cottonwoods, would let them have it through the heart. . . In fact, if you go there now, you will find wild flowers of deep, vermillion and scarlet growing in profusion, but they are not naturally so colored—as the botanists erroneously believe. . . Their petals are stained with the blood of mighty antlered deer which my ancestors were wont to slay from time to time.

"Buckle your belts—we're coming into Seattle."

FAVORS 6 MEALS A DAY —BUT SMALL ONES. CHICAGO (AP)—It is better for the system to eat five or six small meals daily than the customary three large ones, says Dr. Howard W. Haggard, associate professor of applied psychology at Yale university. Dr. Haggard told an audience here several small meals during the day would not interfere with mental activity nearly as much as the regulation American breakfast, lunch and supper.

People You Know

By ARCHER FULLINGIM

You've probably seen Fred Vandenberg's name in the papers a lot; the high school students are always running him for some office, and usually against Mickey Ledrick. Here lately they elected Fred the most popular boy. Now Most Popular boys are usually athletes, in Pampa anyway—but Fred and Mickey are exceptions. Fred didn't become popular because he was an athlete; he didn't have time to go out for the teams, though his physique looks trim enough.

The other day Fred walked out of a picture show, and there was a certain look on his face. You didn't know who Fred was but you recognized that look. It was that expression you see on the faces of persons who have come face to face with truth or beauty and who have had the courage to admit it.

AROUND HOLLYWOOD

HOLLYWOOD—The thrills of a hand-to-hand fight are being combined with studio economy on the "King of the Gamblers" set.

Akim Tamiroff, the title character and Lloyd Nolan, playing an intrepid reporter, are the antagonists. Robert Nolan, director, makes a scene in which Nolan leads raiders to Tamiroff's den. Then he transfers action to another set a few feet away where Tamiroff and Nolan have their grudge battle. Tamiroff and Nolan go over with practically all the other set attendants to watch themselves fight.

It is a good fight, and Tamiroff expresses delight at the way he tears into Nolan. Stunt men, of course, are doing the dirty work. Duke Green is Tamiroff's fighting double, and Chick Collins serves for Nolan. Green doubled for Tamiroff in fight scenes of "Michael Strogoff" also, and the actor applauded his work in that.

Use Stars In Close-ups Green and Collins, in their rough-and-tumble warfare, have turned over tables and torn down draperies. They also have precariously ruined each other, apparently. Then Florey calls a halt, and the fighters go to the sidelines, panting but unharmed, to swap stunt talk, most amiably. Tamiroff dons Green's coat, Nolan takes Chick's, and they are ready for close-ups—ready, that is, after they have mused their hair. The fight takes two minutes, but restoring the set for another "take" requires 35. Florey goes back to his original set, saving time while the restoration is under way, while the restoration is under way.

SIDE GLANCES

This, That and Everything

BY WILLIAM HUSLEY CLARK

One of the inconsistencies of our generation is the contradiction between public opinion and popular demand. Public opinion is more often in the right than one might expect by observing public support. The majority of people will condemn a certain type of literature, yet turn right around and promote that literature by paying regularly to read it.

This fact is why our civilization cannot produce any better in view of the constant clamor for something better. We expect the show to produce a higher type of picture, yet refuse to attend them. We condemn all shows that border on the "suggestive" side of life, but we are willing to pay to see what we condemn. We recognize the evils in government, but refuse to try to improve conditions by independent thinking and conscientious voting.

We have learned more from Americans' ability to smile and sense of humor than you can guess. —Aminé Yousef Bey, Egyptian ambassador to the United States.

The negro's economic problem is, fundamentally, a labor problem. The day of his hope to be a business man is passing. —Dr. R. C. Weaver, United States Department of Interior.

It's a mistake to get into a boy's date book too easily. Turning down a kiss may make you miss a few dates, but it will let you catch a husband. —Rev. Howard M. Wells, Cleveland, O.

Rather than placing the usual blame for crashes on "pilot errors," the best way to prevent accidents is to investigate accidents properly. —David Belinck, head of Air Line Pilots' Association.

DEVELOP PROTECTIVE WAX FOR NAVY PLANES

WASHINGTON (AP)—The war secreted by a South American palm tree to keep its moisture in is used on navy airplanes to keep moisture out.

Tests made at the National Bureau of Standards for the navy's bureau of aeronautics show that an extremely thin film of carnauba wax spread over a coat of paint on an airplane will prevent almost entirely the penetration of water through the paint to the fabric or metal.

The wax is obtained from the Brazilian palm tree. It serves as a coating on the leaves and fruit to cut down moisture losses.

HEN LAYS EGG WITHIN EGG

NEVADA, M. (AP)—A hen egg within a hen egg was the surprise which came to Mrs. Roy Snodgrass the other morning when she cracked the shell of an egg for her husband's breakfast.

The second egg, slightly smaller than a normal-sized egg, was surrounded by an extra egg white.

Taking of a criminal's fingerprints by peace officers is recorded on an ancient Babylonian clay tablet.

CAMPAIGN TO END HEARINGS IS CONTINUED

WASHINGTON, April 8 (AP)—Senator Hughes (D-Del.) anticipating defeat today in his first attempt to end Senate hearings on the court reorganization bill, declared he would continue his campaign until it brings results.

"I believe minds on the judiciary committee are made up on this question," he said, "and repetition of testimony such as we have been receiving serves no useful purpose."

The "first hint" that opponents might be willing to discontinue the hearings came after a conference in the office of Senator Van Nuys (D-Ind.). But while Hughes talked in terms of days, they spoke of at least another fortnight of testimony.

Another complication arose from House passage late yesterday, by a vote of 122 to 14, of the Summers bill to allow the attorney general to intervene in private suits attacking the constitutionality of federal laws.

It is designed to speed an appeal to the Supreme Court when lower judges invalidate a law.

Indications were that the administration leadership might seek to defer Senate action on this section of the president's program in hope of having the program voted on in its entirety.

Senator Burke (D-Neb.) opposed to the proposed revision of the Supreme court, wanted the judiciary committee to act first and separately on the Summers bill.

Lawyer Taffies "They want the bad to be acted on with the good," he said of the President's supporters, "but we shall try to get action on the bill on its own merits."

The senate committee postponed consideration of the Summers bill pending more discussion of Supreme Court revision.

J. S. Manning, Raleigh, N. C. lawyer, led off for the opposition today with a plea for the maintenance of the court's independence.

"This proposal startles and shocks a large number of people," his prepared statement said. "If we are not to have an independent judiciary, I would rather see none."

Introducing himself as a democrat who has voted for every presidential nominee of the party since 1880, Manning said he considered the court issue above party lines.

He praised the present justices, and asked why the country should be deprived of their knowledge and order to give place to those who may be able but who are biased and who have prejudged some of the questions that will come before them."

Connally Cites Case Senators Burke (D-Neb.), Connally (D-Tex.) and King (D-Utah), opponents of the Roosevelt program, in a round table discussion last night reviewed cases in which they contended the Supreme Court had upheld the rights of the people.

H. Stinchfield, president of the American Bar association, introduced them, saying:

"An absolutely independent judiciary has been the only protection of the rights and liberties of any people. Politics plays no part in the Supreme Court."

Connally summarized a case during the Civil War in which Landon Milligan of Indiana was sentenced to death by a military court without a jury trial. The Supreme Court held the military tribunal illegal, he said.

This case, Connally said, demonstrated to him "that under the excuse of an emergency any of the rights of the people . . . might be lost if the Supreme Court should be made obedient to the wishes of the moment."

CIO ORGANIZERS TALK WITH COMPANY HEADS

HOUSTON, April 8 (AP)—The CIO campaign for recruits in the petroleum industry centered on conferences with oil company executives today, less than a week since a national drive started.

The first conference was the 10 a. m. meeting of H. C. Fremming, oil union head, and Adolph Germer, John L. Lewis' personal representative, with H. C. Wess, Humble Co. president, and other company executives.

In launching the unionization drive, the CIO representatives had said that in addition to seeking more than 500,000 members, they would confer with oil companies as the drive progressed.

They also had said first efforts would be directed at the Standard group which has strong company unions. The Humble, a major producer, buyer and refiner, is a subsidiary of the Standard of New Jersey. Some 3,000 employees at the Humble Baytown plant had voted opposition to CIO organizing.

Fremming said he planned to leave Houston probably late tonight for Parko, Wyo., for conferences with the Sinclair Co. Germer said he would be left in charge here.

A mass meeting of union leaders and oil workers will be held here tonight.

Lindberghs See Sights in Munich

MUNICH, April 8 (AP)—Col. and Mrs. Charles A. Lindbergh, temporarily dropping their self-imposed seclusion, took a short sight-seeing trip through Munich today with an American friend.

Except for the brief tour, the Lindberghs stayed in their hotel room. Special guards were posted outside to assure the family's privacy.

Their plane at Oberwiesenthal airfield was serviced for a prospective takeoff although officials

Japan Premier's Anti-Killer Home

Within the innocent appearing walls of the new Tokio home, above, of Japan's Premier Senjuro Hayashi, are bomb-proof rooms, subterranean passages, secret exits, mysterious doors and disappearing floors which will protect him from assassination during tense political periods. The \$28,000 residence is honeycombed with mystery and not even his wife will know where the premier sleeps. Below may be seen Hayashi at the front door of his home, with his wife sitting to bid him goodby. Notice his stockinged feet. The former official residence of the premier saw two assassinations, many attempts at violence. Hayashi preferred a new residence, had this refuge built. It is called the "house of secrets." The premier took up residence in the house alone at first, forbidding his family to join him until he was certain it was safe.

Manchukuo, Japan Wedding Link

Manchukuo had cause for a double celebration when, on the occasion of the empire's fifth anniversary, the emperor announced the engagement of his young brother, Prince Pu Chieh, to Miss Hiroko Saga, daughter of one of Japan's oldest families. The betrothed couple is pictured as the announcement was made.

Martha, keeping a sullen note in her voice, suggested that they stop for something to eat. "Right!" Neal answered noncommittally. "I'll drive in at the next likely-looking place." It turned to be a lonely hamburger shack on the edge of the road. There was one slatternly woman attending, but both Neal and Martha were hungry—and the food did belie the woman's appearance. As Martha ate, she searched the little room for signs of a telephone, hoping that the woman's husband would enter—showing sufficient height and width to cope with Neal. But no man appeared. "Look here," Neal said at last, "you can't act like this indefinitely, Martha. Why not be human again?" Martha looked into her coffee cup absently. Then she made a little gesture of casual defeat. "I suppose we may as well be congenial traveling companions—since you insist that we do travel together." "That's the way to talk!" He held out his cigarette to her, then a light from his pocket torch. "Whatever you think of me, I'm insisting upon accompanying you because—well, because I don't want anything to happen to you." "Thank you," Martha said quietly. "Shall we go on now?" Carefully she was taking care not to overdo the role of a woman ready to forgive. She could tell by Neal's lighter manner, by the soft glow in his eyes, that he believed she had, woman-like, changed within the day. He was surer now than ever before that what he had said in the trailer was true. And this, she told herself triumphantly, would put him even more completely off his guard. That afternoon as they proceeded on their way, Martha talked more freely—taking it slowly at first, pretending that she was unconsciously warming under his charm. But something cold and hard within her breast kept her to her purpose. "It's my turn now," she told herself grim-

again. But he seemed genuinely tired. They had not gone many miles before he had dropped off to sleep with his head thrown back against the cushions. Taking advantage of this, Martha stepped on the accelerator even harder, anxious to reach Eureka before he awakened. Soon she began to see road signs indicating the distance to the northern California lumber town—22 miles, 17 miles, 11 miles. With every nerve of her body taut, Martha rushed the coupe onward, fearing every moment that Neal would awaken and notice the speedometer reading. Eight miles. Three miles. And then, at the edge of the town, Martha slowed down, let the engine of the coupe purr softly as she swerved into a big modern service station. Quickly she stopped the outfit, leaped out and ran to the burlap attendant inside the glass enclosure. "The man in that car must be arrested," she whispered excitedly. "And be careful—he's got a gun and he's dangerous!"

most any other half dozen buildings in the city together. To date 43 shells have crashed into it, yet there has been scarcely a casualty among the hundreds of persons who have sought refuge there and it is considered the safest spot in the capital against both aerial and land bombardment. Instead of fleeing, pedestrians dash to cover in the building whenever the insurgents train their big guns on the "Telefonica." Structural engineers visiting the telephone building, explained its resistance was due to the elasticity of its construction, similar to New York's "earthquake proof" towers.

HAPPY RELIEF FROM PAINFUL BACKACHE

Caused by Tired Kidneys
Many of those gnawing, nagging, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way. The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. Most people pass about 3 pints a day or about 8 pounds of waste. If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, hiccups, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

TRAILER ADVENTURE

By Nard Jones NEA Service, Inc.
Chapter XIV
"No," Neal told her quietly. "You're not going to report to the police. You're going to take my advice."
"What makes you so certain of that?"
"Because," Neal said, "you're in love with me. Why don't you stop pretending, Martha, as I have?"
The color rose furiously in Martha's cheeks. "Don't be absurd!"
Gerry Neal shrugged. "All right. Then you're not in love me . . . But suppose we get started?"
Still flushing angrily, Martha piled the breakfast dishes into the little galley sink and took down her leather jacket from its hook. Wordless, she got out of the trailer and Neal hopped to the ground after her. Showing the portable steps inside the vehicle, Martha locked the door of the trailer and hurried to the coupe. A grim Gerry Neal was already at the wheel.
"Hop in," he invited casually.
Her lips compressed in a tight, thin line. Martha got inside. Then quickly her hand shot toward the pocket in the door of the car. Neal smiled as Martha withdrew her hand—empty.
"I have the gun," he said coolly.
Mile after mile they drove in silence . . . through the busy streets of Oakland and Berkeley, on through Vallejo, then always bearing north along the coast toward Eureka. The country grew wilder, with broad rolling hills and scattered oaks. Then wilder and more ominous yet as they passed the giant redwoods, serene in their strength and their years, mak-

THE FINANCIAL WHIRLIGIG

By LOUIS SCHNEIDER

BULLISH

Foreign buying of American shares has been rather slow during the past couple of months. This is due to two reasons. The first is that prices had advanced too rapidly in discounting prospects. The second reason is that London cooperated with the United States in making an effort to stop the wild flow of funds to this side of the ocean.

But foreign liquidation of American shares wasn't large. International interest report that London, Paris and Amsterdam stock buying interests haven't changed their opinions that business in the United States will continue good. Your correspondent has been reliably informed that about American share prices run into a reaction of consequence as a new foreign buying movement could be expected.

IF!

Unconfirmed reports are that since the turn of the year Allied Chemical sold some 25,000 shares of United States Steel common. As of December 31, 1936, the company held 224,000 shares of Big Steel at an average cost of \$83 a share.

If the disposal of the shares took place on the recent market rally the company profited handsomely. Also — if the selling did take place it was the first time in several years that Allied Chemical sold any of its portfolio holdings.

ODDS AND ENDS

Whiskey production level during the past couple of months because several moderate sized distilleries can't get credit accommodation for additions to present stocks. . . . Home State Mining shares to be split on a five for one basis — in the near future. . . . Barber Company has largest part of asphalt contract for paving fifteen miles of highway through New York World's fair grounds. . . . Vick Chemical's Richmond, Virginia plant can produce 250,000 cough drops per hour. . . . I. Miller & Company — chain shoe store system — adding ladies millinery to its lines of shoes, handbags and hosiery. . . . General Motors has a new proving ground at Phoenix, Ariz. . . . United States Rubber has a new skid proof bicycle tire. . . . Johns-Manville has developed an asbestos cloth to be used as wearing apparel for firemen and furnace stokers. . . . National Broadcasting System is in the market for a real estate parcel in or near Hollywood — for a new studio building.

BETTER

There are numerous reasons why Colgate-Palmolive-Peet is again in favor with investment account managers. Here are a few: Company's good earnings for the last half of 1936 are continuing; soap prices are higher than a year ago; the price structure is stronger, shipments are larger in volume; company is establishing new economies to offset increased operating costs; and, as commodity prices increase the company could profit from its unusually large inventory position.

HOPE

All during last year when bond refundings were brought out in large volume, conservative interests urged caution. The low coupon rates weren't expected to hold. These warnings received little attention. Now that bond prices have slipped and yields are higher, institutional and private investors are worried.

Those experienced in extending credit say that there is nothing to fear. The bonds will be paid at maturity dates. They also say that the dip is a sign of hope. It means that many corporations, cities, states and even the federal government will think twice before increasing indebtedness. In the long run it is construed as constructive because freer spending policies will be braked down.

UTILITIES

A couple of years ago the New Deal talked of municipally operated utility companies to compete with privately owned organizations. As a result the investor's attitude towards utility bonds was nil. But the picture has changed. Due to the lower rates announced by the various privately owned utility organizations most talk of municipal competition has faded. Bond dealers now report that the investing public is again looking into issues of this classification.

WAITING

All speculative enthusiasm for low priced railroad bonds has suddenly abated. Traders are placing a new emphasis on the unsettled wage demands — even though a delay of several months is anticipated. Another factor withholding speculative buying.

LET'S KNOW TEXAS AND TEXANS

BY WILL H. MAYES.

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people. As evidence of good faith inquiries must give their names and addresses, but only their initials will be printed. Address inquiries to Will H. Mayes, Austin, Texas.

Q. What were the words of J. W. Throckmorton, afterward governor of Texas, in voting against Texas secession?

A. "Mr. President, in view of the responsibility, in the presence of God and my country and unawed by the wild spirit of revolution around me, I vote 'no'." When this expression was hissed from the galleries, he exclaimed, "When the rabble hisses, well may patriots tremble."

Q. How many composed the first Congress of the Republic of Texas?

A. Forty-six.

Q. What was the "Treaty of Guadalupe Hidalgo"?

A. It was the treaty of peace between the United States and Mexico, signed at Guadalupe Hidalgo Feb. 2, 1848, in which Mexico surrendered its claim on Texas, with the Rio Grande as the border, and for \$15,000,000 included the territory that is now California, Nevada, Utah, Arizona and part of Mexico, Colorado and Wyoming.

Q. When was Wood county created and for whom was it named?

A. In 1850, and was named for George T. Wood, a native of Georgia, who came to Texas in 1836. He was for several terms a member of the Texas Congress and was elected brigadier general of militia; raised a regiment and served in the Mexican war in 1846; after serving while in the Texas Senate, he was elected governor in 1847; died in 1856 at his home in Panola county, to which he had retired at expiration of term as governor.

Q. When was the present site of the Deaf and Dumb Institute in Austin acquired?

A. Part of the land (the first bought), was acquired March 3, 1858, for \$5,500 from Dr. S. K. Jennings and P. S. Calhoun.

BALL BAT BLOW FATAL GUNTER, April 8 (P)—An accidental blow with a baseball bat yesterday proved fatal to Rudolph Jones, 7-year-old son of Mr. and Mrs. Carl Jones. The mishap occurred on the school playgrounds here. The child died on the way to a physician's office.

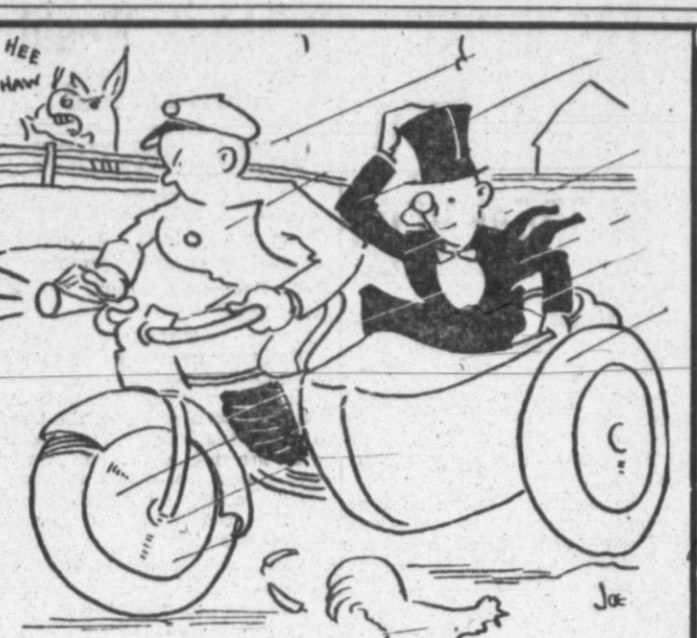

DOG FINDS MONEY TO BUY HIS LICENSE. BUTTE, Mont. (P)—The annual police drive to collect dog license fees was on and Bing, fox terrier, was without his new tag. He scratched at the door of his master's home and stood there, holding something in his mouth. When his master, John Gaffney, opened the door he discovered the bit of paper was a \$5 bill. Going promptly to the dog license bureau, Gaffney bought a tag and received \$2.50 change from the \$5 bill.

BURN TO DEATH. FORT WORTH, April 8 (P)—Two children were burned to death here at 7:45 a. m. today when a gasoline stove exploded as the father of the children attempted to light the stove at their home. The parents, Mr. and Mrs. Bill Brackett, were taken to a hospital for treatment for burns received in the fire which gutted the one-story residence. The children were Wilma Joe, 3, and Billy, 14 months old.

BODY IS SOUGHT. GALVESTON, April 8 (P)—Searchers for the body of Lt. A. E. Livingston, 28-year-old air corps reserve flier killed when his plane mysteriously crashed into the Gulf of Mexico, today resumed their efforts today after an overnight rest. Rough waters cut short the search last night. At that time only pieces of wreckage and leather apparently from the flier's jacket had been found.

THIS CURIOUS WORLD

By William Ferguson

SOME COMMON REGAL LILY BULBS, AFTER BEING SUBJECTED TO X-RAYS FOR A FEW SECONDS, DEVELOPED INTO A STRANGE, NEW SPECIES, SO DIFFERENT THAT IT WAS PATENTABLE.

THE ANGEL FISH IS EQUIPPED WITH LONG APPENDAGES WHICH WARN IT WHEN ITS VERY DELICATE LOWER FIN IS IN DANGER OF STRIKING HARD OBJECTS.

AT PITCHFORK RANCH, WYO., A SHEEP WAS BORN TO A DOMESTIC EWE AND A BIGHORN RAM! IT JUMPS OVER 6-FOOT FENCES WITH EASE.

FOR years, plant breeders had tried to develop a regal lily whose anthers did not shed pollen on the petals, thus discoloring them. By chance, it was discovered that bulbs subjected to X-rays produced just such a plant. Now this lily is registered in the U. S. Patent Office as Plant Patent No. 165.

Flashes of LIFE

(By The Associated Press.) DOOR PRIZE. NEWARK, N. J.—It was almost an all night card party for 100 members of the Order of the Golden Chain.

The janitor of their lodge building, in a hurry to get home, forgot about the card party on the third floor, and locked the front door.

A police emergency squad came to the rescue, but not before several of the men guests peeled off their coats and started battering away at the door.

TIME ON HIS HANDS. BUTLER, Pa.—A. J. Whitehall has plenty of time all the time.

He has 75 clocks, all running at his home. Most of them are 75 to 100 years old.

REWARD. NEW YORK—For fifty years Philip Costaro has been shining policemen's shoes.

As a youth of 19 he set up a boot-black stand in a Bronx police station in 1887, moved to a downtown precinct 10 years later and has been there ever since.

Today members of the police department will give him a miniature police badge and a silver loving cup. But it's his business as usual with Costaro.

TRAVEL MADE EASY. CEDAR GAP, Mo.—The Wright-Webster county line runs through the middle of L. V. Sherwood's farm house. He eats his meals in Wright county. He rests in an easy chair in both counties.

He pays taxes in both counties. But he votes in Webster county—because he sleeps in it.

YOUR MOVE, RAY. VAN BUREN, Mo.—Mayor Ray McSpadden moved to a farm a month ago after he was elected last year. The voters decided unanimously to extend the city limits to include his farm. So he's still mayor.

CORN AND HOPS. KEARNEY, Mo.—Sam Chanslor has a miniature grasshopper plague on his hands. He brought soil from his farm to set plans for winter storage. It is a tiny, planned corn in the warm room—so did the hoppers.

WHEELER BOXING MEET OPENS TOMORROW WITH 8 TEAMS ENTERED

75 FIGHTERS SCHEDULED IN SCHOOL BOUTS

WHEELER, April 8.—One of the largest boxing tournaments ever held in this section of the Panhandle will begin at 8 o'clock tomorrow night in the Wheeler high school gymnasium when Coach Bob Clark of the Wheeler high school will present the first group of 75 fighters.

The second round of the tournament will be called at 9 o'clock Saturday morning with the finals scheduled for 8 o'clock Saturday night. No Friday afternoon bouts will be held as formerly announced. Weighing in will be between 5 and 6 o'clock tomorrow evening.

Twelve schools have signified their intention of sending teams and eight of them have notified their fighters. One of the outstanding battlers of the meet will be Goodnight's smiling fighter, Red McDaniel who won his division in the Amarillo Golden Gloves tournament.

Beautiful awards will be given schools placing first, second and third in the tournament. Individual winners will receive golden gloves with their weight engraved on the back of the glove. A loving cup will go to the most popular fighter. He must reach the finals to be eligible.

The fights are being sponsored by the Wheeler school and each boy entering has the permission of his superintendent to enter. The entries already in the hands of Coach Clark are:

Islanders and St. Louis Entries Win In Boxing Tourney

ST. LOUIS, April 8 (AP)—Three little Hawaiian boxers divided title honors with St. Louis fighters in the finals of the National A. A. U. junior boxing tournament here last night.

The islanders won three championships. St. Louis entries took three and Bloomington, Ill., and the Chillico, Okla., Indian school one each in bouts climaxing two days of battling.

The champions:

- Flyweight—Gilbert Murakami, Hawaii.
- Bantamweight—Eddie Yasul, Hawaii.
- Featherweight—Salvatore Le Boy, Hawaii.
- Lightweight—Al Morrison, Bloomington, Ill.
- Welterweight—Al Beauhild, St. Louis.
- Middleweight—Clarence Jones, St. Louis, negro.
- Light heavyweight—Monroe Harrison, St. Louis, negro.
- Heavyweight—Francis Shoulderblade, Chillico, Okla.

Decisions settled most of the title fights, only Morrison and Harrison winning on technical knockouts.

Amarilloan Congratulates Pampa On Baseball Spirit

Thirty-six new entries in the contest to name Pampa's baseball club were stacked on the sports desk at the Pampa Daily News this morning as the deadline for sending entries—Saturday night—drew near. That stack brought the number received to date near the 200 mark. Someone wants to win the \$20 cash or the season box seat.

One interesting letter accompanying an entry was from R. W. Kincaid of Amarillo who suggested "Pampa Grays." Mr. Kincaid wrote, "Glad to see that you people in Pampa are going to have another good baseball line. So far it looks like we are not going to have one over here. What we need is a bunch of ball fans like you are graced with." (Thank you, Mr. Kincaid, we appreciate your interest in our baseball—Spis, Ed.)

P. G. Tilley, in suggesting the name, "Pampa Spartans," wrote, "You know that Pampa teams are noted for their fighting until the last ball is pitched."

THREE FAMED SIRE'S SONS NOT FAVORED TO WIN DERBY

NEW YORK, April 8 (AP)—Three of America's outstanding thoroughbred sires—Sir Gallahad III, Gallant Fox and Man o'War—will not lack for capable representatives in the 63rd running of the Kentucky Derby at Churchill Downs.

Nine of the trio's offspring, six of them by Sir Gallahad, are among the 103 nominees but only three stand out prominently in the pre-race speculation for the May 8 renewal of the \$50,000 turf classic.

They are Privileged, son of Sir Gallahad, and Galsun, sired by Gallant Fox, both from Warren Wright's Calumet farm, and Samuel Riddle's War Admiral, lone representative of the famous Superhorse, now 20 years old.

There is little to choose among the three. Privileged and War Admiral are quitted at 51 to 1 each in the future books, Galsun, 20 to 1. Reports from their training camps, the Calumet farm at Lexington, and Havre de Grace, where War Admiral is quartered, fairly glow with optimism.

War Admiral, in the money in each of his six juvenile starts, and the Wright pair at a two-year old, but Galsun is favored now by Trainer Frank Kearns. Barring training accidents, he plans to start both in the Derby.

Training Camp News

(By The Associated Press)
SAN ANTONIO, April 8.—"We're ready" was Manager Rogers Hornsby's comment as the Browns opened an eight-game series with the Chicago Cubs today. Jack Knott and Oral Hildebrand were named to hurl for the Browns. Bill Lee drew the Cub assignment.

DAYTONA BEACH, Fla.—Paul Dean took the mound against Brooklyn today in the final game of the training season at Daytona Beach. The Cardinals began the homeward trek Friday.

EL PASO.—The Chicago White Sox had an off day today, but the time was needed for a train-ride to Longview, Tex., where the Sox meet the Pittsburgh Pirates in the first game of a seven-game series tomorrow.

SARASOTA, Fla.—Paul Waner, Pittsburgh Pirate holdout and the National league's No. 1 batter last season, left for Dallas, Texas, to confer with President Denswanger.

JACKSONVILLE, Fla.—Van Lingle Mungo, the Brooklyn Dodgers' ace righthander says he wants Rube Moore, utility player whom Burleigh Grimes has converted into a catcher, behind the plate when he pitches, instead of Babe Phelps, the first string receiver.

OKLAHOMA CITY.—The tip-off on the New York Yankees is the batting average and status of Roy Johnson, utility outfielder. He's hitting .420 with 15 hits out of 32 times at bat, yet in the continued fusillade of Yankee hits, he's just another outfielder.

PORT SMITH, Ark.—Dick Coffman, New York Giants pitcher who was slated to go to Jersey City of the International league, may hang on with the National league champions. Coffman has shown considerable improvement and may win a berth as a relief pitcher.

JACKSONVILLE, Fla.—Starting four days of "bush league" warfare, Cincinnati's Reds came here today for their last training-season game in Florida, with Jacksonville.

ORLANDO, Fla.—The Washington

TEXAS HORSE IS NOMINATED IN PREAKNESS

BALTIMORE, April 8 (AP)—The pick of the three-year-old crop from Heffly, the Texas flash, to Pom-poon, the big eastern bay, appeared today among the 85 nominations the Maryland Jockey club announced for the forty-seventh renewal of the Preakness.

Of the eight top racers as two-year-olds only two—Case Ace and Privileged—were missing from the list released by Matt L. Dalger, jockey club secretary.

At the top was Pom-poon, which took down \$82,280 in prize money last year for J. H. Loucheim, of Philadelphia, his owner. The strapping offspring of Pompey-Oonagh failed to win only two of his eight starts.

His biggest stake was the Belmont futurity and eligible to challenge him in the mile and three-sixteenths Preakness carrying \$50,000 added money at Pimlico May 15 will be three other futurity winners. They are:

Milky Way Farm's Reaping Reward, a Sickle Dust-Whirl colt that conquered Pom-poon in the New England futurity and accounted for \$56,965 in two-year-old prize money.

Matey, Walter M. Jefford's chestnut Man o'War colt, winner of the Pimlico futurity and \$26,950.

J. W. Y. Martin's Triple Action, victor in the Maryland futurity at Laurel.

Col. E. R. Bradley named his highly rated Kentucky bred pair: Brooklyn, a Blue Larkspur colt, and Billionaire, by Black Toney with Biologist, by Bubbling Over, in reserve. Glen Riddle farms' War Admiral, another Man o'War colt; Mary Hirsch's No Sir, the second horse to whip Pom-poon last year; Foxcatcher farm's Dairy Hill, winner of the Santa Anita Derby, and Elizabeth C. Bosley's Betty's Buddy, talked of strongly as a dark horse, also are eligible.

TO PLAY AGAIN.

Braddock Would As Soon Battle Louis as German

STONE LAKE, Wis., April 8 (AP)—Whom would James J. Braddock, world's heavyweight champion, rather fight—Joe Louis or Max Schmeling?

"I make no difference to him. 'Frankly' Braddock said today as he sunned himself in a big wooden lawn chair, "the man I want to meet is the one who will draw the biggest gate, and that's Louis. I'm sure we'll be in the ring in Chicago June 22. My manager, Joe Gould, told me to do the training, and let him do the worrying over threatened court action. That suits me."

Which fight would be the easier opponent?

Braddock says there is a right way to fight either one.

"I have studied the styles of both, and I am convinced I've got their number," the champion smiled.

Braddock is disappointed in the lingering winter weather conditions which have made road work impossible on the dirt roads leading to his camp on Little Lake Sissabagama.

Trainer Ross Lippman put the clamps on road work for fear Braddock might sprain an ankle.

As a result Braddock works for two hours daily swinging his double bitted axe on hard maples.

ALLISON WILL PLAY HESS IN QUARTER FINAL

HOUSTON, April 8 (AP)—Wilmer Allison, veteran Davis Cup campaigner and former national champion, was up against an unexpected but strong foe in his quarter-final match in the River Oaks tennis tournament today.

The opponent was bespectacled Wilbur Hess, Houston star who yesterday disposed of Joel Hunt of Los Angeles, third seeded player in the meet.

The Allison-Hess match was the feature of a busy day of 26 contests, including second rounds in men's doubles, women's singles and junior singles, and the Atlanta tournament's doubles title play.

Robert Riggs of Los Angeles was paired with Walter Senior of San Francisco in the only other quarter-final match.

Bryan (Bilby) Grant, seeded favorite from Atlanta, will play Hal Surface of Kansas City and Arthur Hendrix of Lakeland, Fla., will meet Wayne Sabin of Hollywood in the quarter-finals tomorrow.

Grant and Sabin were teamed against Hunt and Riggs in the Atlanta tourney finals, called for 4:30 p. m. That match was rained out at Atlanta Sunday.

Fourth round results which placed all the favorites except Hunt in the quarter-finals were:

Allison, Austin, defeated Martin Buxby, Miami, 6-1, 8-6.

Surface defeated Elwood Cooke, Portland, 1-6, 6-4, 6-3.

Hendrix defeated Marvin Kantrowitz, Austin 6-0, 6-3.

Wilbur Hess defeated Hunt, 6-1, 6-3.

Sabin defeated Marion Reece, Atlanta, 8-6, 1-6, 6-3.

Grant defeated Junior Coen, Kansas City, 6-3, 7-5.

Riggs defeated Frank Guernsey, Miami, 1-6, 6-2, 7-5.

Senior defeated Jake Hess, Houston, 6-3, 5-7, 66-1.

It's some Welcome you're handing us and Our Family's Whiskey!

It appears to me like our Family's Whiskey comes pretty close to being about as good a known whiskey as any there is.

But you got to remember it isn't just William and Tom and me that's responsible for this extra grand taste our Family's Whiskey has got. That wouldn't be handing the proper credit to Grandpa Wilken and Pa Wilken. If it wasn't for the lot of us Wilkens being whiskey making people since I don't know when, you never could be enjoying all this tastiness we've learned how to put into our personal Family's Recipe!
