

CHALLENGES SOVIET OPPOSED TO DESIGN
 WASHINGTON (UPI) — Former President Dwight D. Eisenhower has challenged the Soviet Union to show it really wants peace by freeing the Baltic states of Estonia, Lithuania and Latvia which it forcibly annexed in 1940.
 "Khrushchev is serious in his expressed desire to 'ban wars on territories' then the sincerity of this statement should be demonstrated by permitting self-determination for the Baltic peoples," Eisenhower said Thursday in a statement sent to the American Lithuanian Congress.
NEW YORK EXPANSION
 NEW YORK (UPI) — Air Reaction Co. said it will spend \$5 million to expand the Niagara Falls, N.Y., plant of its Speer Carbon Division.

Atomic Energy Commission Attempts to Retain Workers
 By WILLIAM J. EATON
 United Press International
 WASHINGTON (UPI) — The Atomic Energy Commission (AEC) is launching an unprecedented job information program to try to retain experienced workers in the atomic industry and reduce the hardship of layoffs.
 The heart of the program, which goes into effect July 1, is a requirement that private employers holding AEC contracts must notify the agency monthly of anticipated hirings and layoffs for the next 90 day period.
 AEC officials will then inform all of the contractors of the skills that will become available because of layoffs. The list also will help laid off workers discover where they might be able to land a job by consulting help-wanted notices.
 Oscar Smith, labor relations director for the AEC, said in some cases the employers who want to hire new workers will be required to give first consideration to those in the industry about to be laid off.
 This requirement would not apply, however, if the new jobs were only temporary or if the plant was in an area where there were a great many idle workers with experience in atomic energy.
 Smith said in an interview that about 100,000 workers are now employed by private firms under contract with the AEC. He said the "job information exchange" was the first such plan worked out by a government agency as far as he knew.
 "At the moment," Smith said

"outbacks are quite general or are anticipated in production programs. The laboratories may be doing some hiring."
 He explained that a maintenance worker who was fired from a production plant might be able to land a similar job at an atomic energy laboratory by using the information that will be made available soon.
 The aim of the program is to retain in the industry those workers who are familiar with atomic energy procedures and safeguards, he said. It also would tend to minimize the hardship on workers who face layoffs, Smith added.
 The new plan was hailed by P. L. (Roy) Siemiller, vice president of the International Association of Machinists, at a recent union conference on atomic energy in Cincinnati.

DOORKNOB CLUE
 DALLAS (UPI) — Police caught a 23-year-old man in a parking lot Thursday. His pockets were filled with 101 nickels, 117 quarters, seven half dollars, 133 dimes, a penny and a doorknob. Police conducted a quick search and found a burglarized restaurant without a doorknob.
JOB RIGHT THERE
 EAST LOS ANGELES, Calif. (UPI) — Employees of the L.F. Clark Detective Agency arrived at the office Thursday and discovered it had been ransacked by a burglar, who left the following note:
 "So, solve this one. (Signed) Ace"

Bare Bosom Fashion Craze Hits Europe

LONDON (UPI) — The bare bosom fashion craze in Europe has switched from women's dresses to bathing suits, and some beaches on the Continent are starting to look like Paris strip-tease shows.

Despite the increasing popularity in the "monokini" — or one piece bikini — a leading German swimsuit manufacturer of topless bathing suits warned, "Women who cannot wear them will see to it that those who can won't."

Although bare bosoms are frequently seen on the Riviera, where pretty girls casually take off their bikini tops to get a little sun, the topless bathing suit craze has created quite a stir in Europe, as well as the United States.

Italian actress Gina Lollobrigida apparently summed up the argument against them when she said, "They lack taste and intelligence. They lack taste because they are esthetically questionable, and intelligence because it is unwise to destroy that atmosphere of reserve and

mystery that is one of the secrets of feminine charms.

"I am sure they will not last more than one season. Next year we will already have forgotten them."

Claudia Cardinale, another Italian film beauty, put it another way: "They are esthetically horrible. They destroy the silhouette. They are decidedly unfeminine."

In France, England and Denmark, officials either turned a blind eye to bare-bosomed beach girls or gave formal approval to the controversial new style.

In London, a borough council in suburban West Ham ruled it would permit topless swimsuits in local swimming pools — but only at women-only sessions.

"We're not narrow-minded," Councilor Mrs. Alice Gannon said. "If the craze catches on and people want to swim partially nude, I don't see why we should stop them. As long as they don't upset other swimmers, then everything is okay."

Mainly - - About People - -

Mr. and Mrs. Gerald Neher and family are visiting in the home of Mrs. Neher's mother, Mrs. Fidella Yoder, 1215 Williston. They will be leaving next Tuesday to return to their missionary work in Nigeria, West Africa. Mrs. Yoder's son, Gordon, of Dallas is also visiting here over the weekend.

Enjoy delicious food at the Town House Cafe, 306 N. Cuyler, Open Sundays.*

Among recent visitors to the USO Club in Pensacola, Florida, were James E. Hall Jr., and Maurice W. Cross. Hall is the son of Mr. and Mrs. J. E. Hall Sr., 124 South Faulkner, and d Cross is the son of Mrs. Charlene Cross, 624 North Roberta. The USO provides a "home away from home" for our local boys in service all over the world. USO is supported by United Funds and Community Chests through the Texas United Fund.

Jug of wine.*

The Old Timers Club will meet at noon Friday in Lovett Memorial Library for a covered dish dinner and book review to be presented by Mrs. Vera Back. All residents of the Panhandle area for 50 years or more are invited to attend.

Mississippi (Continued From Page 1)

man, 20, of New York; Mickey Schwerner, 24, of Brooklyn, and James Chaney, a 21-year-old Meridian, Miss., Negro — were participating in the "Mississippi Project," a summerlong desegregation drive, at the time of their disappearance.

FBI agents arrested white men Friday for threatening two other young Northern "Project" workers who were passing out Negro voter registration literature in Itta Bena, Miss.

All three of the suspects were brought before a U.S. commissioner in Oxford Saturday and ordered to stand trial on charges of conspiring to injure and intimidate the youths, Roy Bernard Torkington, 24, of Berkeley, Calif., and John Lyon Paul, 21, of Ossining, N.Y.

Obituaries

John Nichols
Funeral services are scheduled for 1 p.m. Monday in the First Baptist Church of Skellytown for John Nichols, retired oil field driller.

Mr. Nichols died yesterday afternoon at Highland General Hospital.

He moved to Skellytown in 1950 and resided for several years in Borger.

He was born November 14, 1892 in Madison, Kan.

Survivors include one son, Floyd, of Houston; three brothers, Charlie of Madison; Floyd of Chicago; and Willie of Topeka, Kan.; three sisters, Mrs. Jasper Johnson of Broken Arrow, Neb.; Mrs. Clyde Smith of Americus, Kan.; and Mrs.

Spray Gun Reported Stolen Saturday

A. L. (Red) Weathered reported the theft of a \$65 spray gun to Pampa Police Saturday in the only major police activity over the weekend.

Weathered said someone apparently climbed over a fence at his sandblasting yard, 405 W. Atchison, and made off with the gun.

Also, the keys from two parked pick-ups were stolen.

The theft was discovered about 8 a.m. Saturday.

Fire destroyed property to an estimated value of \$1.76 billion during 1963.

Pampa Man Sentenced On Burglary Charge

District Judge Lewis M. Goodrich sentenced a 29-year-old Pampa Negro to four years in the state penitentiary yesterday after he pleaded guilty to a charge of burglary.

Billy Norris Buckler was charged with the burglary of Cizon's Jewelry Store in March.

Judge Goodrich also sentenced Tommy Woodward of Pampa to a four year probated sentence after he entered a plea of guilty to a charge of theft.

Both men had been indicted by the Gray County Grand Jury.

Bill Waters is 31st District Attorney.

Drivers License Examiner to Leave

Pampa will be without a drivers license examiner until August when Virgil Wallsmith, present examiner, leaves next week.

Wallsmith will return to school at the Texas Department of Public Safety Academy in Austin for several weeks and then be reassigned to the license and weight division.

Two days during July, the 6 and 13, the examiner from Borger will be in the Pampa office to give written and driving tests.

A regular officer will not be assigned to Pampa until sometime late in August.

Gray County Savings Bond Sales Reported

May E and H Savings Bond sales in Gray County totaled \$17,650 according to Mr. Geo. B. Cree Jr., Chairman of the Gray County Savings Bonds Committee. This figure represents 21.9 per cent of the 1964 sales goal.

Savings Bond sales in Texas for the first five months of 1964 totaled \$63,926,046 which represents 42.6 per cent of the state's goal of \$150,000,000.

"United States Savings Bonds, though young in years, already have served four generations of Americans and offer opportunity for generations of Americans yet unborn," Chairman Cree stated.

Center Wrap-Up

George Smith, Director
Pampa Youth and Community Center

There are still some swim lessons available in the Red Cross program from June 29-July 10 and July 13-24. If a child does not pass a course in one session, they may be enrolled in the next session if places are available. This applies to those who passed, also.

In the June 29-July 10 session at 9 a.m. Advanced Beginner and Intermediates while at 10 a.m. Advanced Beginner and Swimmer. Enrollment is in the Center office. Someone must come by in person to enroll — no phone calls.

If you have been seeing some construction work going on South of the Center next to the Swim Building, it is just the new Sun Deck being built. This will be an area of some 40 x 40 feet enclosed by a fence and a four-foot concrete walk. The Center area will be grassed in and a concessions portion is available. Swimmers in the very near future may obtain their sun tans, or bring the youngsters to play while they lounge in the law chairs. Plans are for a small raised kiddies pool.

With this new addition you Pampans should obtain your memberships as soon as possible. This is only one of the many facilities the Center possesses. Locker facilities, recreation hall, and a gym is also available. Memberships to the Center are the most reasonable in the State of Texas. Individual memberships are \$5 for six months and \$8 per year. Family memberships are \$12 for six months and \$20 per year. Sustaining memberships start at \$25 and maybe budgeted by paying \$6.25 each quarter. College students may purchase a three month membership for \$3.

A new recreational sport which will start Monday is real casting. This will be located at the Southeast corner of the Center. Tires will be placed certain distances from a marked line and persons who are interested may bring their rods and reels and have some fun. There will be some small tires and some big tires to test your accuracy. From time to time as announced there will be some adults who will drop by and give some pointers on casting.

The Dolphin swim team is still working out in the mornings from 7-9 a.m. Persons interested in joining a competitive swim team may see Bobby Bybee the swim instructor or the Center Director. Each applicant must be able to swim five lengths of the pool without stopping.

New Books on Shelves At Public Library

Non-fiction:

"Mistress of the Seas"—John Carlow: the true story of Anne Bonny, voluptuous pirate queen of the eighteenth century. The book is based on intensive research in marine records and libraries all over Europe, the U. S., and the West Indies.

"Sundial of the Seasons"—Hal Borland: contains 365 outdoor essays, one for each day of the year, and because the author prefers the natural year to the calendar year, he begins with the vernal equinox.

"Not So Wild, The Old West"—Clara Toombs Harvey: the author is justice of the peace in Clayton, New Mexico, and the book is filled with facts, fable and fun about a part of the country familiar to West Texans.

"Roots in the Rock"—Charles Child: in 20th-century Maine, Charles Child cut pines to build his own home, battled against the weather, discovered a spring and a tidal pool. The author tells the story of his family maturing in the remote and idyllic surroundings of a Maine seacoast.

"A Moveable Feast"—Ernest Hemingway: these sketches of Paris in the Twenties as seen by the author are a revelation of a young writer living in the pre-dawn of world recognition. Many vivid vignettes of Gertrude Stein, Sylvia Beach, and others portray a special world which nurtured the author.

Fiction:

"Morgan's Castle"—Jan Hilliard: Mistress of Hilltop House — or Morgan's Castle, as the townsfolk call it — is Charlotte Morgan, a charming, warm-hearted woman whose only aim in life appears to be pleasing those around her. However, she has a peculiar secret hobby — doing people in.

"The Spire"—William Golding: Jocelin's Folly they called it; the great spire that the Dean drove upwards until the stone pillars that held it shrieked and the earth beneath it crawled and crept.

"The Fair"—Robert Nathan: a historical novel about the Celtic Prince named Arthur and the battles at Badon Hill and Salisbury Plain.

"A Chosen Sparrow"—Vera Caspary: tells the story of a lively young Jewish war orphan who, caught up in the sentimentality of the baroque Viennese world, falls in love with and marries an ex-Nazi officer who repudiated his past.

"The Keepers of the House"—one of the most compelling novels about the South today, and reveals a wide knowledge of human nature, both Negro and white.

"The Night in Lisbon"—Erich Remarque: a drama of a great and desperate love played out for the most part, against the background of war-torn Europe. A refugee from Germany gambles with fate and turns across the border to see the wife from whom he's been parted for five years.

18-year-old Men To Be Drafted For Qualification

DALLAS (Sp) — After the first of July, all 18-year old men who register for Selective Service and who are not enrolled in school may expect to be called promptly for the Armed Forces Qualifications Tests.

None will be drafted any sooner than in the past. The idea is to find out who is not qualified—either (1) for military service, or (2) for responsible life as a productive citizen.

Persons who are rejected for draft will be referred to their local employment service — for counseling, testing, training, and placement in jobs, in that order, as needed.

Secretary of Labor W. Willard Wirtz has called the plan "one of the most important social experiments of the postwar period."

In Texas, about half of the young men called up for Selective Service are rejected because of physical or educational inadequacies. About one in five called up cannot meet the education standards of the Armed Forces. At the most, these are equivalent to a seventh or eighth grade education.

Although such youths may be rejected for military service, the Labor Department insists they must have further education or training to keep them from serving in the "Army of the Unemployed" — for longer than the military's customary two-year hitch!

ROBBER BREAKS OUT

QUANAH, Tex. (UPI)—A robber got several thousand dollars from the T&O grocery store Thursday, but he had to break out of the store to escape.

Police said the thief stayed in the store all night, waiting for owner Hyson Wells to come in and put a bag containing the money on a counter, and go out for coffee, locking the door behind him.

HOW TO BLOW YOUR NOSE.

Physicians advise that one should not stop up one side of the nose and then blow the other. Some of the force will back up into the throat. Also, germ-laden mucous might be driven into the middle ear with a possible infection resulting.

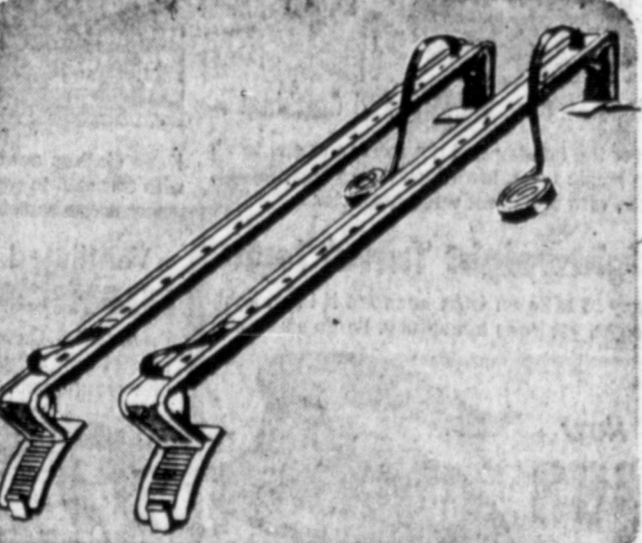

Blow your nose gently. It must last you a lifetime. Don't pick or pull hairs from it. A serious infection may be caused. And, if it troubles you and home remedies don't give quick help, don't delay. Go to your physician for inspection and skilled treatment.

YOUR DOCTOR CAN PHONE US when you need a medicine. Pick up your prescription if shopping nearby, or we will deliver promptly without extra charge. A great many people entrust us with their prescriptions. May we compound yours?

Alabama Commissioner of Agriculture A. W. Todd hasn't quit

500 Hours Fishing Required in Lakes

COLLEGE STATION (Sp) — Although your farm pond is well-managed, properly stocked and fertilized, you may still be catching only a few fish — small ones at that. If so, you're probably not fishing your pond heavily enough, says Wallace G. Klusmann, wildlife conservation specialist, Texas A&M University.

If a pond is not fished heavily, the fish population will rapidly deplete the food supply, resulting in stunted fish. Research has shown that a surface acre of pond water that is well-managed needs from 300 to 500 man hours of fishing each year to keep fish production at a maximum, Klusmann points out.

Fertilized water is like fertilized soil, says the specialist. Fertile water will produce a larger crop of fish just as fertile land will produce more cotton or corn. Therefore, the harvest of fish from fertile water can and should be greater than from non-fertile water.

Fishing should begin about a year after a pond has been stocked. This will allow each species to reach sexual maturity and spawn. Klusmann says it is advisable to fish the pond heavily after this.

Sunfish have a tendency to overpopulate farm ponds so as many as possible should be caught. For every bass or catfish removed, at least 10 to 12 sunfish should be taken out. Small sunfish that are caught should not be returned to the water, adds the specialist.

Alternating periods of good and poor fishing are to be expected and even the best fishermen will not always catch fish. Water temperature, availability of natural food, and seasonal activities of fish will influence fishing success.

Fishing conditions will usually improve if your pond is fished heavily enough. If your family cannot fish the pond as heavily as it should be, invite your friends to fish, suggests the specialist. They will enjoy the occasion and later benefits should result.

"IN BUSINESS FOR YOUR HEALTH"

Cattle Directors Ask For Beef Import Law

BAY CITY (Sp) — Directors of the Texas and Southwestern Cattle Raisers Association meeting here recently passed a resolution strongly supporting legislation to restrict beef imports to reasonable levels.

The resolution reaffirmed the Association's previous position of strong support for legislation by Congress which would restrict future foreign importations of beef to the average of the five immediately preceding years. This would be about seven and one-half percent of domestic production.

Fred Wulff of Brady, TSCRA president, emphasized that beef imports are a threat not only to the cattle industry but to the economy of countless communities and related industries.

The resolution pointed out that the Association applauds and pledges its cooperation to the efforts of groups such as President Johnson's team of ranchers, feeders, packers and government officials which are engaged in efforts to develop

outlets for American beef in the European market. However, the Association is convinced that these programs, as valuable and important as they are, will not provide a total, immediate or long term answer to the problems facing the domestic beef cattle industry.

In other action, the TSCRA directors passed a resolution opposing the proposed USDA regulation that would permit frozen semen to be imported into the United States, declaring that it had been proven that Foot and Mouth and other livestock diseases could be brought into this country through this semen.

The cattlemen also were brought up-to-date on the status of the screwworm eradication program. Dolph Briscoe Jr., of Uvalde, president of the Texas Animal Health Research Foundation said that on Feb. 14 it had been declared that eradication was complete and the program now was one of preventing reinestation. He said this makes it an international program and as such it could be carried on only by the Federal government.

However, financing of the program remains a problem. "It is my hope and belief that producers will not again be asked to contribute," he said. "But if this is asked, I believe it behooves all in the livestock industry to lend support to a statewide meeting where a program of action could be planned."

Grass Demands Proper Water and Correct Mowing

To keep a lawn attractive throughout the summer, proper fertilization, watering and mowing are very important.

Fertilization should continue throughout the growing season, says County Agent Foster Whaley. Nitrogen is the key element in turf growth and should be applied every eight to 10 weeks at the rate of one to two pounds of actual nitrogen per 1,000 square feet. It produces the deep green color that homeowners desire.

Whaley says that lawns should never be watered until the grass shows a definite need. When watering, the soil should be soaked to a depth of six inches or more. Water should be applied only as fast as the soil can absorb it.

Deep watering encourages a deep root system that is capable of utilizing plant nutrients more efficiently and is more resistant to diseases. Light sprinklings will produce shallow root systems which encourage weed infestation and disease. Whaley suggests that the lawn should be watered for a healthy root system during excessively dry periods in the winter since the root system is still alive. Many lawns were lost in Pampa last winter that could have been saved by one or two good winter waterings.

Improper mowing results in the deterioration of many lawns. Mowing too close encourages thinning of the turf, shallow rooting, soil drying and heat damage to grass during the summer. Clipping too high results in many of the same problems.

Bermuda should be mowed at a height of 1 to 1 1/2 inches. It is a good practice to cut only one inch off St. Augustine lawns at each mowing.

"his agents, employees, successors in office, and those acting in concert with him" to cease and desist from any efforts "devised to suppress, discourage, or in any way interfere with, or having the effect of suppressing, discouraging or in any way interfering with, the importation, distribution and sale of foreign meat and meat products."

What does Todd say to all this?

"You can know one thing: If anybody brings imported meat into Alabama, there is a big story in the papers telling you it is and where they got it, and saying that my department is checking it for purity. I'm after them, brother."

He is only mystified that other state agricultural commissioners, including John White of Texas, haven't taken similar action.

—West Texas Livestock Weekly.

SCD News

By VAN MILLS

T. D. Anderwald is in the process of sprigging 51 acres to Midland bermudagrass on his place south of Kingsmill. Bill Crisp has sprigged 20 acres to Midland on his farm north of Alanreed. Others who plan to sprig Midland are Drew Word, D. W. Swain, and Elmer Balch. Clyde Magee has planted about 250 acres of cropland to a sorghum cover. Clyde will sow grass in this dead sorghum cover next spring. Leslie Darsey reports that his farm ponds worked real good during the recent heavy rains. The pipe drop he had in his erosion control dam operated for two days following the rains. The pipe drop keeps the spillway from working and releases most of the water through the dam at a slow rate. June Wood and Willie Harris sprayed brush on their farms in the McLean area. Contour lines were run for S. K. Roach who farms northeast of Groom. A diversion terrace was staked for Glenn Studebaker on his place north of Alanreed. Glenn has done an outstanding job on controlling erosion on this place with a series of dams and diversions.

Points for Proper Grazing

- 1) Stock on the basis of available forage instead of so many acres per cow.
- 2) Check the grass crop rather than livestock condition. Animals can live on poor vegetation for some time before they look bad.
- 3) Provide a forage reserve of cured grass for winter grazing, as well as hay, silage and concentrated feed.
- 4) Allow for drought years. They are just as normal as wet years. If you are stocked on basis of the wet years, you will be short of grass more than 50 percent of the time.
- 5) Check sign for range improvement or deterioration.
- 6) Remember that pounds of production rather than number of head count at the market.

BRITISH TROOPS STAY

LONDON (UPI) — Britain will keep troops in Cyprus for three more months but cut the size of its force by one-third to between 1,000 and 1,200 men, Commonwealth Secretary Duncan Sandys said Thursday. He told the House of Commons that Britain had agreed to maintain British forces in the troubled island.

We Sell BONDED MONEY ORDERS

The Safest Way to Send Money Through the Mail!

Agriculturally Speaking

By FOSTER WHALEY
Gray County Agent

Alvin Reeves was about to spray some Maize that was only 4 or 5 inches tall the other day. We hope we talked him out of it. The best time to spray milo without damaging it is when it is from 8-12 inches tall. We prefer 10 inches in height. Spraying at any other stage can be costly. On Maize less than 6 to 8 inches will be much worse to lodge in the fall. The maturity period is also delayed. Spraying milo over 12 inches will drastically reduce yields.

Most irrigation farmers that had their milo planted before the rains will find it necessary to spray. This is a very economical way to control weeds. The chemical costs about 50 cents per acre.

Warning

I have had numerous calls from cotton farmers and residents in Pampa asking about what can be done for plants that have been injured from 2, 4-D spray. To my knowledge there is no immediate step you can take to alleviate damages done from 2, 4-D (weed spray). In this case an ounce of prevention is worth a hundred

pounds of cure. Here are some simple rules:

- 1) Use nothing but the Amine type of weed killer within the city limits.
- 2) Spray when there is little or no wind.
- 3) Do not fog the spray. Use a large droplet.

Cotton Crop

Some farmers planted their cotton over the fourth time in the McLean vicinity, due to adverse weather conditions. Most of the cotton is up to a good stand with the exception of a few patches. Mr. Winegeart, who farms the John Haggard place west of Pampa, had to plant some of his cotton over due to damage from 2, 4-D drift. We have a map in the office that shows where all the cotton farms are located in Gray County. We hope farmers and aerial applicators will take a close look at this map before spraying.

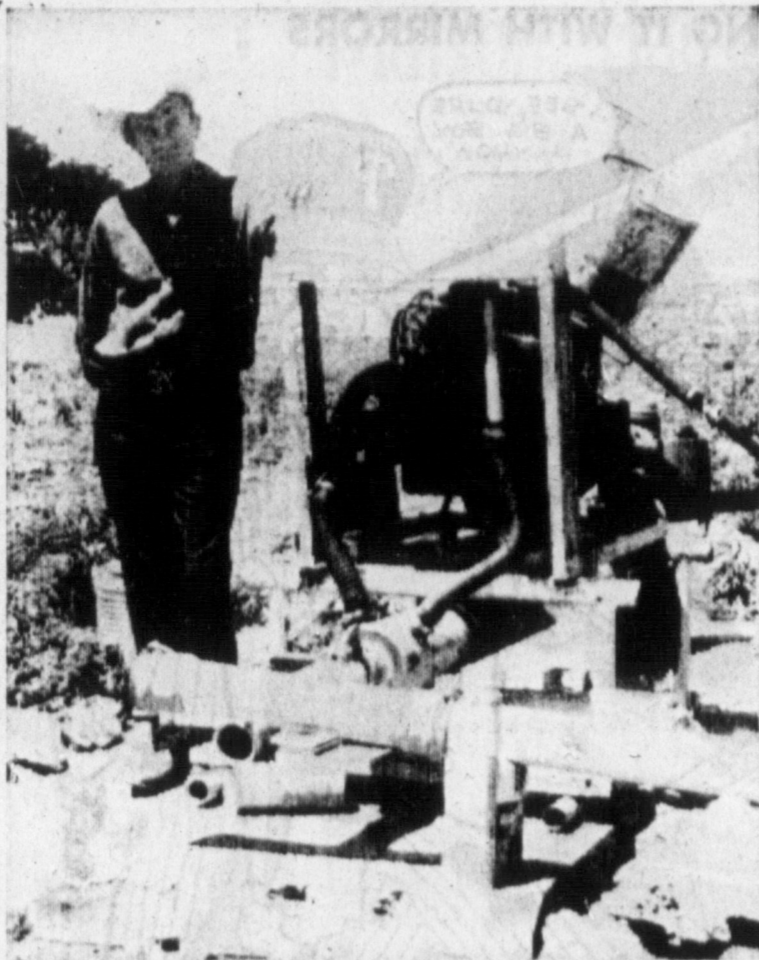

Tree Damage

We have had a number of calls asking about how to control woodpeckers that are damaging shade trees. They are especially wicked on Pines. There is a chemical called Rose-No-More that works well. It will also repel birds from unwanted places. It is applied as a paint. For more information, call our office, MO-4-3441.

4-H News

By JERRY HARLAND
Asst. Agricultural Agent
Gary Richardson, Top O' Texas 4-H Club member, and his brother, Larry, Pampa FFA member, recently purchased two Hampshire gilts and one sow from Norman Burton of Canadian. Barrows from this herd have twice won the Amarillo Stock Show. The Richardsons plan to feed and show most of the barrows they raise.

Brenda and J. T. Winters Jr. have installed an old air conditioner in their calf barn. This has been done to keep the calves cool during the hot weather. The flies are beginning to become a problem around most barnyards. For calves on feed

NEW IRRIGATION WELL — Harvey Taylor, rancher north of Alanreed, is shown with the newly installed irrigation well. Taylor planted 56 acres of switchgrass he plans to irrigate. Switchgrass, when properly irrigated, will carry two cows per acre during the summer.

Overgrazing Slashes Range Improvement

COLLEGE STATION (Spl) — With the improved moisture situation over much of the state, it is time to take a look at the grazing situation, says Bobby Ragsdale, Extension range specialist. First, Texas cattle and deer numbers are at an all time high. Ranges in their present condition will not be able to support these animals and maintain their productivity over a long period of time. Overstocking prevents buildup of litter which aids in water and soil stabilization. Revegetation from natural seeding and regaining vigor by forage plants already present is also retarded by overstocking. The specialist points out that overgrazing rangelands will allow little or no chance for range improvement.

files should be controlled if high rates of gains are to be expected. Research shows that if horn flies are not controlled, to 30 lbs. of beef per animal each year. This 20 to 30 lbs. may be just what is necessary to have a calf finished at show time. There are several commercial sprays that will help to control flies and one we have had good results with is Malathion. Whatever spray you use, be sure and follow the directions on the label.

McLean Boy Gets Top Farmer Award

McLEAN (Spl) — A McLean High School Future Farmer of America chapter member will receive the Lone Star Farmer degree next month the first local youth so honored in several years.

Harry Tate, son of Mr. and Mrs. Orphus O. Tate of Route 1, will be awarded the degree at the state FFA convention at San Antonio in July.

Nelson Christy, vocational agricultural teacher here, said this week that the McLean youth was selected with other degree recipients from among thousands of FFA members.

Christy praised Tate for his interest in agriculture and his continuous efforts to improve his farming activities.

In his application for the degree, young Tate showed a net worth of \$1,807.54.

BUYS FRENCH FIRM

NEW YORK (UPI) — International Telephone & Telegraph Corp. said Thursday it purchased a 75 per cent interest in Compagnie Generale de Metrologie S.A., a French manufacturer of electrical and electronic products. The transaction involved the exchange of 67,500 ITT shares for a 75 per cent interest from George Friedrichs, who owned nearly all the common stock in the French company.

SPORTS

Streak Snapped

NEW YORK (UPI)—The New York Yankees snapped a four-game losing streak and took Whitey Ford off the hook by defeating the Detroit Tigers, 5-4 Saturday when reliever Ed Rakow walked Tom Tresh with the bases full in the 10th inning.

Detroit manager Charlie Dressen employed three pitchers in the 10th inning during which the Yankees pushed across the winning run without a hit.

Cubs Top Colts

CHICAGO (UPI)—Home runs by Billy Cowan and Ron Santo and the six-hit pitching of Dick Ellsworth gave the Chicago Cubs a 2-1 victory over the Houston Colts Saturday.

Ellsworth, who picked up his 10th victory against six defeats, finished his 11th complete game. He walked two and struck out eight.

The Cubs pinned the defeat on veteran Houston righthander Dick Farrell, who lost his first game since May 6.

Boog Hits Two

WASHINGTON (UPI)—Boog Powell hit three home runs Saturday—giving him four in five consecutive at bats and lifting his season total to 20, in leading the Baltimore Orioles to a 3-1 victory over the Washington Senators.

Milt Pappas gained his seventh victory against four defeats. Pappas' only trouble came in the fifth after two were out when Mike Brumley doubled. Don Lock walked and Ed Brinkman singled to score Brumley.

Wilson Loses

BOSTON (UPI)—The Cleveland Indians jumped on leading Boston winner Earl Wilson for three runs in the first inning Saturday and went on to a 4-2 win over the Red Sox.

Tribal rookie Bob Chance drove in what proved to be the winning run with a two-run single in the first before leaving the game because of a knee bruised 16 hours earlier.

Bowling

You have all heard of the fellow who rolled a 300 and eight (ate). He has nothing on Keith McCann, one of our fine young junior bowlers. He shot a 372. He shot a 372 out of a possible 400 and he is now Champion Rifleman of the State 4-H Junior Roundup. We will admit he isn't State Bowling Champion yet.

Sports of all types go together, good bowlers are usually proficient in other realms of sport. Put bowling at the top of the list, tho, because the young, the old, the handicapped, the ladies and the smallest, can all compete in bowling.

Proof of the great interest in bowling was shown at one of the lanes this week when seventy kids showed up for bowling lessons. Can you imagine looking into the faces of seventy youngsters all eager to try bowling? The class was so large it was suggested that as many as possible change their time to an earlier one. What happened? Thirty kids showed up at the early class and how many at the later class? Sixty-five.

Imagine 95 future bowlers who in a few short years will be bowling with the best. One of just a few short years ago is Danny Mecher, who set an average of 185 in a Pop and Son league. Buck Donnell just couldn't quite beat him. Richard Parker set his at 163. Not bad. Many of the youngsters who learned bowling in P. E. classes are already married or getting married. Good luck to Virginia Vance.

It's a rare thing now a days when a 539 is a league high series so next time we hope that Bill Branum can do a little better. Pat Patrick's 211 wasn't too good, either. Wylene Patrick's 222 and 549 series kinda beat them both.

I wonder if this will also get to be a habit. Fay Lerner beating her husband Carroll by nine pins on series. Nancy Skinner and John Peterson having exceptional scores of 92 and 95. I forget which was which. This item is for the better tho, cause Anne Stone bowled a 504 for her first 500 series.

Sometimes a league just can't get in the limelight. I sure hate to mention Penny Pinley's 178

and Eve Boyd's 177 but at least Nell Rankin with a 121 average had two games of 121 in the same series. Marlene Riding had an unmentionable series and Pauline Stone is sporting a 158 average. While I was writing this Wylene Patrick had to upset my routine by rolling a beautiful 206, 200, 163 for a 569 series. She is going to have that average up with the pros.

I understand that Pampa will have four women teams in one of the traveling leagues this fall and that's a pretty good sign of the growing interest in bowling in Pampa and also that Pampa is getting more and more better bowlers. I hear we are losing one of the favorites, Carra Lou Perkins and Bob are being transferred to the Netherlands.

John Snuggs and Charley Wilkerson had the battle of all time in the singles 454 to 453. Good bowling, boys. A real one tho, Charles Sinclair and Lonnie Harmon 588 and 557. These are scratches.

Talking about the ladies—Dot Osborne's 179, 218, 223, 620 series puts most of the men's series to shame. This compares with one whole team of pretty good bowlers, Nadine Fletcher, Opal Miller, Sandra Walton, Helen Lain, averaging about 30 pins per game below average. Ikey Earp did right well, tho, with a 532 and Lodema Mitchell improved from a 96 to a 178. Neither Dorothy Burke nor Billy Harvey could ever reach a decent game while Delia McJonal came up with at least two good ones. I hear also that Joyce Coley can bowl a lot more over her average than Jerry did the other nite.

Some of the better games and series — George Pyeatt 206, 536; Horace Prince 582; Darrell Lain 584; Travis Beck 577; Little Chris Beck 166, 445 (better watch out, Travis). Jack Lallement, bowling league and make up at the same time — one series 441, the other 543. Graydon Lantz had a good excuse this time for a 436 series, a bum shoulder. Ken Stehlin fired his first big game—a 220 and 518.

Rebels Idle, Colts Busy

The Pampa Rebels were again stymied in their attempts to get in a game here with Vega as the Mets postponed the tilt until July 12.

It was originally scheduled for June 10, when rain forced postponement after two innings with Pampa leading 9-0.

The Colts play Guymon, Okla., in Optimist Park at 3 this afternoon in a Tri-State League game which could decide fourth place in the standings.

Both were 4-4 yesterday but the Colts played two with Amarillo last night.

Guymon has beaten Pampa twice this season. Mike Clark will be manager Tom Glover's likely starting pitcher today.

Panhandle Packing handed Weathered Humble its first loss of the season, 8-4, and moved into a first place tie with Humble Friday night.

The All-Stars shut out Cabot 5-0 and Miami beat the Jaycees 11-5 in other games.

Panhandle scored three runs in the second inning on a walk to Bob Seitz and home runs by Jack Woods and Joe Perry.

Humble tightened it up with two in the third on two singles, a fielder's choice and an error. The Packers won the game in the fourth with four runs on three hits and Cotton Hargrove's home run.

C. E. Cantrell homered for Humble with none on but the game situation changed little the rest of the game.

Raymond McKinney was the winning pitcher. Delbert Daniels was the loser.

In the other game at Lions Park, the All-Stars scored twice in the fourth on a single, two errors and a fielder's choice to take a lead they were never to lose.

P. D. James homered in the sixth with none on and the Stars added two more in the seventh.

Gene Brown, the winning pitcher, and Charlie Vaughan combined efforts to allow Cabot just one hit. James Shew was the loser.

Jim Enloe of the All - Stars was the leading hitter with two for four.

Miami and the Jaycees were tied three times until Miami finally put it out of reach with six runs in the top of the seventh. The lead also changed hands three times.

Denny Bowerman hit a grand slam home run in the seventh to kill the Jaycees. Three singles and an error sent two more runs in to end the scoring. Bill Thomas of Miami went three for four at the plate to lead the game's hitters.

Larry Rider was the winning pitcher, Benny Sparks the losing.

Max Alvis Improves

BOSTON (UPI)—Max Alvis, of Jasper, Tex., Cleveland Indians infielder who was struck down by an attack of spinal meningitis, showed some improvement Saturday at a hospital in nearby Cambridge.

Alvis was taken to Santa Maria Hospital Friday when he became ill shortly after the team arrived by plane from Minneapolis for a series with the Red Sox.

Dr. Thomas Tierney, the Red Sox team doctor, diagnosed the illness Friday night as "early spinal meningitis." As a precautionary measure, he immediately prescribed sulfa drug pills for the rest of the Cleveland team, the reporters and broadcasters traveling with it, and airline crew that flew them here.

Alvis had a high fever and complained of head and neck pains. Tierney also said the third baseman had a neck rigidity.

The doctor said Saturday that the 25-year-old Alvis had a comfortable night and that his temperature had dropped. He said there also was less discomfort in Alvis' head and neck.

Tierney said he could see no reason why the rest of the team could not continue to play, adding that they would take the sulfa pills daily and undergo examination if there was the slightest indication that the disease might spread.

One of the party traveling with the team said the players were "taking it in stride."

The doctor declined to predict how long Alvis would be hospitalized, adding, "you go day by day in these things."

B.J. Moves Into Quarter Finals

WIMBLEDON, Eng. (UPI)—Pixie-like Billie Jean Moffitt and little Nancy Richey of the United States advanced Saturday in the women's quarter-finals of the Wimbledon Tennis championships marred for the second time by an Iron Curtain protest against South Africa's racial policy.

With a crowd of 20,000 that included British Labor Party leader Harold Wilson and the mother of the Duke of Kent looking on, Miss Moffitt alternately cheered and criticized herself aloud in scoring a 6-4, 6-4 victory over Jacqueline Reese-Lewis of France.

Miss Richey, meanwhile, maintained perfect composure and near-perfect control of her deep passing shots in gaining an easy 6-2, 6-2 triumph over Judy Alvarez of Tampa, Fla.

Advancing into the quarter-finals along with the third-seeded Miss Moffitt of Long Beach, Calif., and the fifth-seeded Miss Richey of Dallas, were first-seeded Margaret Smith of Australia, fourth-seeded Lesley Turner of Australia, Norma Baylon of Argentina and eighth-seeded Robyn Ebborn of Australia.

Miss Smith downed Anja Le-Pourde of the Netherlands, 6-1, 6-1. Miss Turner defeated Grenda Swan of South Africa, 6-0, 5-7, 6-2. Miss Baylon topped Deirdre Catt of Great Britain, 4-6, 6-0, 6-3, and Miss Ebborn beat Carole Caldwell of Santa Monica, Calif., 6-4, 6-0.

The tournament was upset for the second time in three days, however, when Czechoslovakia's Jiri Javorsky and Vera Sukova withdrew from their scheduled mixed doubles match

with Ray Weedon and Annette Van Zyl in protest against South Africa's apartheid policy. Only last Thursday, Russia ordered 19-year-old Alexander Metrevelli to withdraw from his singles match against a South African.

Only defending champion and second-seeded Chuck McKinley of San Antonio is in the men's quarter-finals.

In men's play today, fourth-seeded Rafael Osuna of Mexico reached the quarter-finals with a 6-4, 10-12, 6-3 victory over Jose Arilla of Spain. Willy Bunge of Germany downed Jorgen Ulrich of Denmark, 3-6, 6-2, 6-3, 6-4, and sixth-seeded Fred Stolle of Australia turned aside Mickey Kageropoulos of Greece, 6-2, 6-3, 6-0.

BABE RUTH LEAGUE

Enco won its second straight upset by edging Pampa Hardware 10-9 and Ideal avoided the American League cellar with a 15-1 victory over Cree Friday night.

Enco scored five runs in the third inning and led 5-0 until the sixth, when Hardware pushed a run across.

Hardware started off a hectic seventh inning with an eight-run rally to take a commanding lead. Alfred Brown led off the frame with a home run to deep left field.

Enco, which appears to have been reading those ads about a tiger in the tank lately, came back undaunted to score five runs and nail down its third win of the season.

Mike Fortin relieved Rodney Hail on the hill for Pampa Hardware in the last inning, just in time to be tagged with the loss. Fortin gave up two hits and walked four. Hail was touched for three hits.

Winner Chuck Albus went all the way, scattering five hits as he went. He struck out two, walked two and was in real trouble only in the seventh inning.

The loss dropped Hardware into sole possession of the American League cellar.

Ideal, which had been tied with Hardware before the two games, decided the outcome of the nightcap early by taking a 2-1 lead in the first inning.

Ideal added 13 more runs, all but one of them in the last two innings, but Cree was through scoring for the night.

Cree used five pitchers but none of them was able to effectively deal with the Grocery-men, who seemed to be still smarting from their defeat by Enco earlier in the week.

Johnny Marsh struck out ten, walked three and gave up four hits to get the decision. Starter Don Whitney took the loss for Cree.

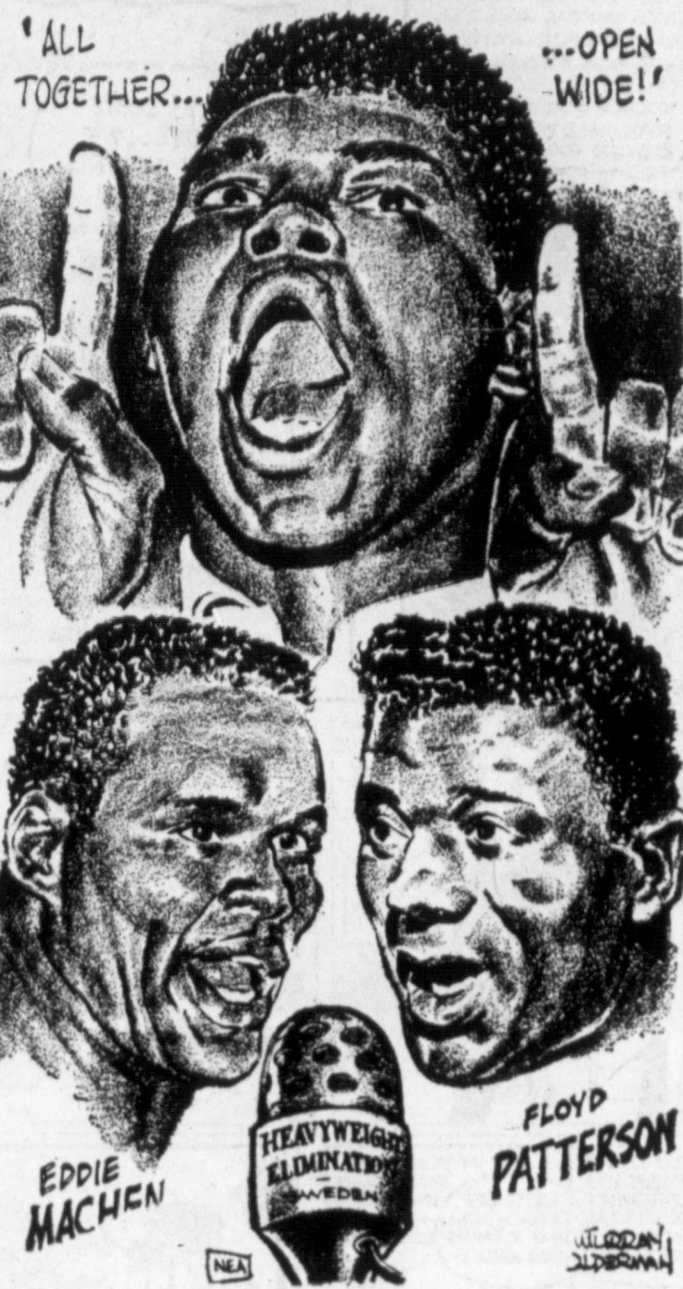

Steve Oler got two of Ideal's six hits in his two at bats to lead the game's hitters.

The teams head into the final week of play with Kist a cinch to at least tie for the American League title. Only the Lions have a chance to tie.

First National Bank holds a one-game lead over Fannon and a two-game edge over Cree.

FOLLOW THE 'LEADER'

Patterson vs. Machen Nobody Cares Much

By BILL McCORMICK
Newspaper Enterprise Assn.
NEW YORK (NEA) — A few years ago a fight between Floyd Patterson and Eddie Machen probably would have aroused as widespread interest as the current brawl between Barry Goldwater and Bill Scranton.

Now, former heavyweight champion Floyd Patterson is taking on the man who was his leading contender and perennial challenger in Stockholm July 5 — and nobody cares much. Not around here, anyway.

Such interest as New York shows in the contest in Sweden centers around the intriguing possibility that it could well lead to Patterson becoming the heavyweight title holder for the third time.

Although a corporation headed by Sonny Liston holds the rights to Cassius Clay's first title defense, there is no assurance that Liston will be the

champion's opponent. Liston, who is trouble prone, has had a couple of skirmishes with the law since losing the title to Clay in a sit-down strike last February and may count himself out in court.

Even if Liston survives the gendarmes, the people behind Clay would rather their heavyweight champion of the world fought Patterson. They express the belief that Patterson would draw better at the gate, but may be motivated by a suspicion that Cassius won the title from Sonny more on luck — or something — than ability.

Opinion in fight circles is about evenly divided over the outcome of the Stockholm bout and a title fight between Clay and Patterson — if it materializes.

Jersey Jones, a veteran manager, promoter and writer, perhaps best expresses it. "A fight between two question marks" he says of the bout in Sweden. "We don't know how much Liston took out of Patterson or how much Machen has left."

Jones believes Patterson would beat Clay, if it comes to that.

Should Patterson win the title a third time, he almost certainly would be forced by public opinion to defend against Liston, the man who knocked him out twice.

It all just goes to show that while Patterson may not be the best fighter of all time, he certainly is the greatest at getting himself involved in interesting situations.

Giants Waltz

SAN FRANCISCO (UPI) — Tom Haller and Orlando Cepeda each blasted three-run homers Saturday and drove in four tallies apiece while the San Francisco Giants overpowered the Los Angeles Dodgers 9-1 behind the five-hit pitching of Juan Marichal.

The victory was San Francisco's eighth in its last nine contests and it lifted the Giants to within seven percentage points of the league leading Philadelphia Phillies, who lost to St. Louis.

Braves Win

MILWAUKEE (UPI) — Denis Menke's bases-loaded double and a two-run home run by Henry Aaron paced a seven-run second inning Saturday that led the Milwaukee Braves to a 9-6 victory over the New York Mets.

Frank Bolling batted in one of the runs with a single and the seventh scored on Jesse Gonder's passed ball. The Braves added single runs in the third and eighth and the Mets, who had jumped off to a 2-0 first inning lead, chipped away gradually but could never catch up.

Broken Barrier

PRINCETON, N.J. — (NEA) — Bill Bradley of Princeton is the first Ivy Leaguer to be named to the U.S. Olympic basketball team. He was selected last April and will compete in Tokyo this fall.

Matson, Hansen Break National Meet Records

NEW BRUNSWICK, N.J. (UPI) — Fred Hansen, 23-year-old pre-dental student at Rice, soared over 17 feet for the third time this season to win the National A.A.U. pole vault championship Saturday but America's hopes of regaining Olympic sprint honors were dealt a severe blow when big Bob Hayes pulled up lame after winning the 100-meter dash.

Hayes, world's fastest human with a 9.1 clocking for 100 yards last year, began to limp as he hit the tape in 10.3 seconds to beat Nebraska's Charley Green by a stride. It was determined the burly Florida A&M ace had pulled a hamstring muscle in his left leg but how long he'll be out of action was a question.

Hansen, 240-pound freshman shotputter Randy Matson of Texas A&M, and 10,000-meter runner Pete McCordie of New York all set meet records as the blue-ribbon field shot for berths in next week's Olympic trials and on the U.S. team that faces Russia in a dual meet at Los Angeles July 25-26.

Hansen bested Dave Tork, a public relations man at the University of West Virginia, in a six-hour vaulting duel by clearing 17 feet on his second try while Tork was missing his three attempts after topping 16.8.

Hansen then attempted to lift his own 17-foot meet record which bettered the 16.4 set last year by the now injured Brian Sternberg. Difficulty with the lift truck that hoisted the pole vault bar caused considerable delay in the vaulting pits.

Matson fired the shot 64 feet, 11 inches, to defeat world record-holder Dallas Long and McCordie ran Dallas with the 10,000 by 250 yards in 30 minutes, 11 seconds, to top the mark of 30:14.4 set by Al Lawrence of Australia in 1960.

Matson set his meet record on his third throw of the day, bettering the old mark of 63 feet, 6 1/2 inches set in 1962 by Gary Gubner of New York University. Long was second with 63-4 3/4 and veteran Parry O'Brien was third.

LITTLE LEAGUE

Hardin-Roth beat Lone Star and Windsor beat Duncan by the same 7-2 score. Cabot topped Celanese 13-2 and Hoover and Rotary played to a 9-9 tie Friday night.

Hardin-Roth scored five runs in the fourth inning to decide its Western League game. Ross Hembree hit a two-run homer to provide the big blow in the inning.

Dalton was three for four for the winners and struck out 12 in pitching a two-hit victory. Young took the loss for Lone Star.

Windsor scored three times in the first inning to decide its game early. Duncan picked up a run in the third and another in the fifth but Windsor was in the process of adding four more runs to its opening total.

Gary Haynes gave up six hits to gain the win. Joe Foster was the loser as he walked five and gave up four hits.

Larry Kotara was the leading hitter with two hits in three tries.

Cabot overcame an early 1-0 deficit with one run in the second, four in the third and eight in the fourth to whip Celanese.

Johnny Carter provided most of the scoring in the third with a three-run home run. Earp

Cabot's catcher, had two doubles and a single in four at bats. Cowles pitched a three-hitter for the victory. Hawkins was the loser.

Rotary took a 7-0 lead before Hoover could get started but couldn't dent the plate after the fourth inning. Hoover scored one in the fifth and four in the bottom of the sixth to tie the game. Porter and Edgar of Hoover hit home runs.

Snell and Roper shared mound duties for Rotary. Porter and Braley did the same for Hoover.

Phils Dropped

ST. LOUIS (UPI) — The St. Louis Cardinals scored four unearned runs in two innings on errors by Richie Allen, Tony Taylor and Roy Sievers and defeated the league-leading Philadelphia Phillies 6-4 Saturday. In all, the Phillies committed five errors.

Before the fumbling Phillies allowed the four runs the clubs were deadlocked on back-to-back four runs on identical four hits and a walk. Each team got two doubles and two singles to go with a base on balls in the first inning.

Texas Traffic Situation 'Critical'

AUSTIN (Sp) — The director of the Texas Department of Public Safety today described the traffic situation in Texas as "critical" at mid-year and appealed to all motorists to make the July 4 holiday weekend the turning point away from a two-year upward trend in fatal traffic accidents.

Col Homer Garrison Jr. announced that "Operation Motorcade" will be in effect from 12:01 a.m. Friday, July 3 through 11:59 p.m. Sunday, July 5, in an effort to focus public attention on the added hazards of holiday road travel and at the same time bring about continued safety consciousness among all drivers. During this three-day period, the DPS estimates that 32 persons will be killed in Texas traffic.

As part of this program, he said, additional patrolmen from the DPS License and Weight and Motor Vehicle Inspection Services will join the regular Highway Patrol force for the three-day holiday period.

Garrison added that numerous agencies, organizations and individuals will take part in "Operation Motorcade" in a

coordinated attack on traffic accidents. For example, he said the Texas Safety Association will conduct a public information program stressing the need for courtesy, and caution on a statewide basis and coordinate local safety council holiday safety emphasis programs. The Texas Council of Safety Supervisors and the Texas Motor Transportation Association will conduct a "Holiday Road Patrol" in which a fleet of 35 to 40 cars will be used over the state to assist stranded motorists and thus help to relieve highway patrolmen for more enforcement work. And the State Highway Department will conduct a continuing information and education program instructing drivers on freeway driving and the need for caution near construction areas.

"And we know we can count on the press, radio and television, as always, to carry the message of safety to the public and thereby make a wonderful contribution to the program," he said.

In a mid-year summary of the traffic situation in Texas, Garrison stressed that fatal acci-

dents on the streets and highways are up about 14 per cent over 1963 — which was the worst year in history for Texas traffic with 2,729 fatalities.

"If this trend continues through the rest of this year, traffic deaths will go over 3,000," he said. "We must break this trend toward ever-increasing fatal accidents which seems to have set in almost exactly two years ago. To do so, we must have public awareness of this dangerous situation and the full cooperation of everyone in saving lives and cutting down on injuries and economic loss."

Garrison said a study of the present situation shows that the increase in fatal accidents has been in the cities and towns as well as on the open highways. A recent report shows that 445 fatal crashes occurred in cities and towns so far this year, compared to 363 for the same period last year. The same report shows that a total of 524 rural fatal accidents have occurred this year, compared to 480 for the same period in 1963.

The Public Safety Director pointed out that nearly half of the fatal accidents that occur on

rural highways involved either running off the roadway or head-on collision. To guard against these most frequent types of fatal mishaps, Garrison offered these suggestions:

1. Be sure your equipment — tires, steering gear, brakes, lights, windshield wipers, etc. — are in proper working order at all times.
2. Be sure the driver is in good physical and mental condition whenever he takes on the exacting job of driving a motor vehicle.
3. Always be on the alert for unexpected actions of other drivers and for other hazards, such as slick pavement, pedestrians, construction areas, etc.
4. Reduce speed before entering curves, not after, when it may be too late to retain control.
5. Avoid improper passing, one of the major factors involved in head-on collisions. This includes such things as passing with insufficient clearance, and passing in no-passing zones such as on hills and curves.
6. Adjust speed to existing conditions and circumstances, regardless of the posted limits.

VOTE YES On June 30th

After Careful Consideration, the Board of Directors of your Chamber of Commerce urges your support of the City Bond Issue for the improvements and expansion of our City Sewage Treatment Plant and Sewer System. The questions and answers provided below are:

WHAT IS THE PURPOSE OF THE BOND ISSUE?

The purpose of the bond issue is to finance improvements needed on Pampa's sewer and sewage treatment facilities. These needed improvements are:

1. Additional Lines to Strengthen Collection Systems
2. Modifications of Existing Plant and System Modifications
3. Outfall Line to New treatment Plant
4. First Phase of New Sewage Treatment Plant
5. Replacing 9 miles of Deteriorated Concrete Sewer Lines
6. Land Cost
7. Engineering and Contingencies

WHY ARE THESE IMPROVEMENTS NECESSARY?

Pampa's present sewer and sewage treatment facilities were constructed about 1930. Based on present State of Texas health standards, the facilities have a capacity for a city of about 12,000 people. The population has doubled and our facilities are very inadequate.

WHAT SIZE CITY WILL THE ENLARGED FACILITIES BE ABLE TO SERVE?

The engineering firm of Forrest & Cotton of Dallas estimated that the new plant in conjunction with the remodeled present plant will be adequate for about 32,000 people at present State Health Department Standards and will be designed to take care of the future growth of the City.

WHAT IS THE AMOUNT AND THE TYPE OF BONDS THAT ARE PROPOSED FOR FINANCING THESE IMPROVEMENTS?

\$950,000 in tax bonds.

WHY IS A TAX BOND PROPOSED RATHER THAN A REVENUE BOND?

Our financial advisor, Mr. R. A. Underwood, is a specialist in the municipal bonding field. He has recommended that a tax bond be used. Issuing tax bonds, as recommended by R. A. Underwood over a feasible revenue bond issue, would save the citizens of Pampa approximately \$100,000.00.

WHAT WILL THE INCREASE IN TAX RATE BE FOR THE PROPOSED TAX BOND OF \$950,000?

The increase would be 2 1/2c per \$100.00 valuation. This amount of increase in taxes will amortize the \$950,000 bond issue in 14 years. As an example — A home that cost \$10,000 would be on the tax rolls at a value of approximately \$4,000.00 and at 2 1/2c per \$100.00 valuation, would be \$1.00 per year increase in taxes.

WHO ARE THE FINANCIAL AND ENGINEERING FIRMS RESPONSIBLE TO THE CITY OF PAMPA FOR ANALYZING THIS PROJECT?

The fiscal agent for Pampa is R. A. Underwood & Company, Inc., noted investment banking firm of Dallas, Texas. They were fiscal agents for Pampa in a number of prior years and are recognized authorities in their field. The engineering firm of Forrest & Cotton of Dallas, Texas has made all preliminary engineering studies for this project. This firm is noted as among the top engineering companies for this type of work in the Southwest. The Board of Directors of your Chamber of Commerce feel that these improvements are necessary. They are vitally needed if our city is to grow and progress. At a meeting of the Board of Directors, unanimous approval was given this project.

FOR THE BEST INTEREST OF THE CITY OF PAMPA
WE URGE YOU TO VOTE "FOR" THE BOND ISSUE ON
TUESDAY, JUNE 30, 1964.

PAMPA CHAMBER OF COMMERCE

Political Adv. Paid by Floyd Watson, Committee, Chm.

The Pampa Daily News

Pampans Find Fun In Summer Activity

Family fun in the sun has begun in Pampa. Things are settling down from the end-of-school hustle and bustle. Vacation time for Dad, as well as the kids, has arrived. With the leisure time at hand, families are preparing to enjoy the outdoors together and with neighbors and friends.

BACKYARD BARBECUE — Good neighbors get together for an afternoon of visiting and good eating. Anticipating a delicious barbecue meal on the patio of the G. M. Martin home, 2417 Duncan are (upper left photo) from left Mrs. Martin, Martin, O. B. Worley and Mrs. Worley.

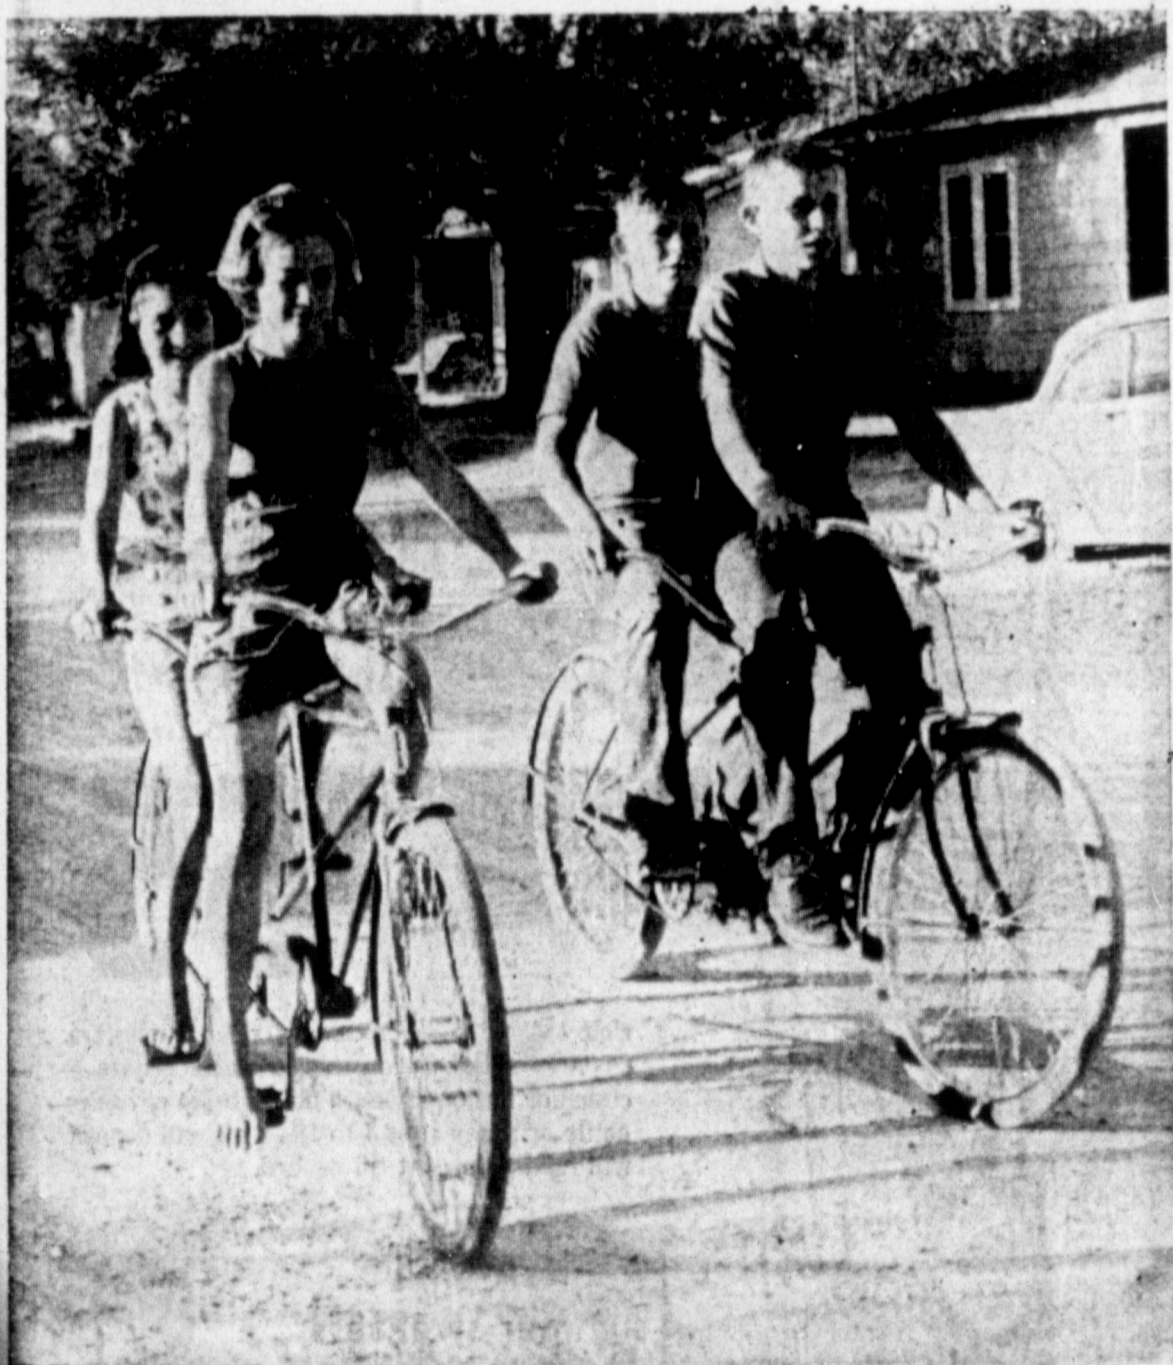

WATER WEEKEND — Placing gear for a weekend of swimming, boating and skiing at Lake Skip Out is the Tommy Sells family, (upper right photo) from left, Sells, Jeanie Sells and children, Carla and Mike, 2233 Hamilton.

GOLFERS—Coming in to the 18th hole at the Country Club Golf Course (lower right photo) are from left Mike Casey, Mrs. Gus Moorleland and Pat Casey, watching as Gus Moorleland Jr. sinks a putt.

PICNICS — Picnics are always at the top of the list for summer enjoyment. Taking advantage of the long twilights just perfect for a picnic in the park, (center left photo) are Ellis Knight, Ronnie Cade, Mrs. Cade, Beverly Cade, 4, and Mrs. Knight.

BUILT FOR TWO — Bikes are fun and those built for two just double the enjoyment. Sitting in the drivers' seats (lower left photo) are Ilene Ensey, 12, daughter of Mr. and Mrs. Haskell Ensey and Cecil Schultz, 15, son of Mr. and Mrs. T. C. Schultz. Riding rumble seat are Vicki Hallcom, 12, daughter of Mr. and Mrs. Roy Hallcom and Jerry Carper, 15, son of Mr. and Mrs. Ervin Carper.

Wedding Promises Exchanged

Miss Caçon Terry

Mr. and Mrs. Hugh Terry, Lefors, announce the engagement and approaching marriage of their daughter, Caçon, to Joe W. Gilbert, son of Mr. and Mrs. C. O. Gilbert, south of Pampa. Vows will be solemnized August 8 in the First Baptist Church of Lefors.

Wash Away Bad Moods

If you get up on the wrong side of the bed, try a warm bath. Much early morning grumpiness is caused by body sluggishness which a bath or shower will wash away.

Sandra Nell Whelchel became the bride of Franklin Douglas Brown during a candlelight ceremony read Friday evening in the First Baptist Church. Dr. E. Douglas Carver, pastor, performed the double ring service before a background of gladioli held in baskets and flanked by altar candelabra.

Mrs. John Hatcher, organist, presented traditional wedding music and accompanied the vocalist, Miss Sue Collins, as she sang "The Lord's Prayer" and "I Love You Truly".

Parents of the couple are Mr. and Mrs. John Whelchel, 1213 Garland and Mr. L. J. Brown Sr., and Mrs. Anne Worley, both of Fort Worth.

BRIDE

The bride, given in marriage by her father, chose a gown of white raw silk fashioned with a boat neckline long petal point sleeves. The sheath designed skirt featured an over skirt which ended in a princess train. Her bouffant butterfly veil was secured by a pillbox of raw silk and she carried an orchid surrounded by rosebuds as her bridal bouquet.

Mrs. Franklin D. Brown

ATTENDANTS
Dressed identically in dresses of ice blue peau de soi fashioned with draped necklines, and pillbox hats with short veils of illusion, the attendants included the matron of honor, Mrs. Earl Henry, sister of the bride; Miss Glenda Converse, maid of honor and the bridesmaids, Miss Sue Maxey and Miss Donna Kirk, Seminole.
L. T. Brown Jr., served his brother as best man and groomsmen were Wade Walk-

er. Sharing ushering duties were Teddy Gober, Bill Mann and Kip Miller.

Miss Leslie Johnson was flower girl and Clinton Earl Henry Jr., nephew of the bride, carried the rings.

Mrs. Whelchel chose a royal blue raw silk dress with bone accessories for her daughter's wedding and the mother of the bridegroom was attired in an off-white two-piece suit with matching accessories. Both mothers chose white carnation corsages.

RECEPTION

Guests attending a reception in honor of the couple following the ceremony were registered by Miss Diane Fenton of Amarillo.

The bride's table, set in the church parlor, was laid with white satin draped with ice blue tulle and centered with the bridal bouquet. The centerpiece was flanked by silver candelabra holding white tapers. The tiered wedding cake and punch were served from crystal and silver appointments by Miss Jan Blanton and Mrs. L. T. Brown Jr. The bride donned an off-white two-piece suit with tan patent accessories and lifted the orchid corsage from her bridal bouquet for a wedding trip to points of interest in Colorado.

The couple will be at home in the Varsity Apartments in Arlington where the bridegroom will continue his studies at Arlington State University.

Mrs. Brown is a graduate of Pampa High School and attended West Texas State University. She has been employed in Arlington.

The bridegroom is a graduate of Eastern Hills High School in Fort Worth and attended West Texas State University for two years where he was on the football team.

PRE-NUPTIAL COURTESIES

Pre-nuptial courtesies extended the couple include a rehearsal dinner hosted by the parents of the bridegroom at Sutphen's Restaurant in Berger on Thursday. Other members of the house party were Mrs. G. H. Anderson, Mrs. (See NUPITALS, Page 16)

Wedding Nuptials Solemnized In Candlelight Ceremony

Mrs. Stephen E. Lewis

Jonette McElroy became the bride of Stephen E. Lewis at 8 p.m. last evening in the First Methodist Church of Ralls. Rev. Conrad Ryan officiated at the double ring ceremony.

Parents of the couple are Mr. and Mrs. E. F. McElroy of Ralls and Mrs. Evelyn Lewis and the late Mr. Grover Lewis of Ralls, former Pampa residents.

Mrs. Bill Mayes, organist, presented traditional music and accompanied the soloist, Lauren Huddleston.

BRIDE

The bride, given in marriage by her father, chose for her wedding ensemble a gown of white bridal satin with long petal point sleeves and a decollete neckline. The bouffant skirt was accented with a detachable chapel train banded with lace scallops trimmed with iridescent paillettes and seed pearls. The veil was secured by satin roses outlined with orange blossoms and silk illusion. Her white Bible was crested with white roses.

ATTENDANTS

The attendants to the bride wore street-length dresses of Wedgewood blue cotton fashioned with "A" line skirts. Their hats of Wedgewood blue roses and rosebuds secured veils of illusion. Each carried an arrangement of glamelias with lemon leaves. Maid of honor was a sister of the bride, Miss Laura McElroy, Ralls and matron of honor was Mrs. Keith Joyce of Lubbock. Bridesmaids were Miss Karen Houston, Ralls, and Mrs. Brady Jones, Idaho. Miss Lee Ann McElroy, sister of the bride, was flower girl.

Keith Joyce attended the bridegroom as best man. Ushers were Don and Stan McElroy, brothers of the bride and Ricky Lowe, White Deer and Steve Gray, Ralls, cousins of the bridegroom.

Following a reception in their honor, the couple left for a wedding trip to Colorado. They will make their home in Ralls where Mr. Lewis is employed with Hinton Well Service. He graduated from Pampa High School and attended Amarillo College and is the grandson of Mr. and Mrs. Earl Lewis, 425 N. Faulkner.

Mrs. Lewis is a graduate of Ralls High School and is a sophomore student at Texas Tech.

PLANS SUMMER WEDDING

(Photo by Callie)

Miss Irene Marchman

Mr. and Mrs. F. H. Marchman, 621 N. Carr, announce the betrothal and approaching marriage of their daughter, Irene, to Roy Thurmond, son of Mr. and Mrs. Paul Thurmond of Skellytown. Vows will be exchanged August 28.

Nuptials

Maxey and Mrs. Wesley Lewis.

The bride was honored with a shower in the home of Mrs. Wesley Lewis. Co-hostesses wear Mrs. Anderson, Maxey, Ralph Barnett, Burgess, Mrs. Leona Marsh and Mrs. Lester Stewart.

Miss Verneice Hatcher

LEFORS (Sp) Mr. and Mrs. C. B. Hatcher, Lefors, announce the engagement and approaching marriage of their daughter, Verneice to Cecil Dale Welch, son of Mr. and Mrs. J. W. Welch, Hobbs, N.M.

TO WED IN TULSA

(Photo by Glen Nelson)

Miss Cheryl Jean Trotter

Mr. and Mrs. O. C. Trotter, Tulsa, announce the engagement and approaching marriage of their daughter, Cheryl Jean to Arlen Dale Kaiser, son of Mr. and Mrs. Clarence Kaiser, Skellytown. The vows will be exchanged at 8 p.m. August 22 in the Red Fork Baptist Church with Rev. Gene Winfrey, Marietta, Ga., officiating.

SUN SPOTS

Sun spots are the newest natural phenomenon for pool and play clothes. Spots range from pale and petite to big and bold. Look for pink and white dotted swimwear iced with white eyelet ruffles, dazzling red accented with white,

and red, white and blue combinations. Swimsuit cover-ups wrap and tie up the news. A beach shift with elasticized neck turns into a long beach skirt when the sun goes down, and an apron-front beach dress ties in back.

Reception Marks Couple's Golden Wedding Anniversary

Mr. and Mrs. E. O. Pulliam

Mr. and Mrs. V. Collum were hosts for a Golden Wedding Anniversary Reception honoring Mr. and Mrs. E. O. Pulliam May 31. Members of the houseparty included Mr. and Mrs. Eddie Collum, Jackie Collum and Mr. and Mrs. Joe Rice, grandchildren of the honored couple.

Mrs. Collum stood with her parents in the receiving line as they greeted some 100 guests.

The honoree was presented an orchid for the occasion. The serving table was covered in white satin overlaid with white net, trimmed with gold. White mums with golden leaves formed the centerpiece which was flanked by the crystal punch service and tiered anniversary cake.

Mrs. Eddie Collum presided at the punch bowl, and Mrs. Rice served cake to attending guests.

ENGAGED

(Photo by Johnny Caroon)

Miss Kathy Chandler, Mr. and Mrs. J. O. Chandler, 732 N. Dwight, announce the engagement and approaching marriage of their daughter, Kathy, to Wendell Honeycutt, son of Mr. and Mrs. Glenn Honeycutt, 210 Tuke. The wedding is planned for July 2 in the Fellowship Baptist Church in Pampa.

Dear Abby....

Little Boys Have No Business in Beauty Shops

By ABIGAIL VAN BUREN

DEAR ABBY: We moved into a new neighborhood and I started going to the neighborhood beauty shop. The last two times I went, the same lady was there in her slip with her big fat legs showing as well as her bosom. Another lady took off her blouse and sat there in a thin nylon bra. The lady in the slip didn't care what showed. I go to the beauty shop every Saturday and my 8-year-old son likes to go with me. He was so embarrassed by all these half-dressed women he could hardly keep his mind on his comics. He has plenty of time before he has to learn what half-dressed women look like. He doesn't have to learn it at 8 years of age in a beauty shop. Should I tell those brazen women to be more modest? Or should I ask the shop manager to keep her customers covered?

NEW CUSTOMER

DEAR NEW: Women in various stages of undress have more business in a beauty shop than an eight-year-old boy. Leave the lad at home.

DEAR ABBY: Why would a young, intelligent married woman go to someone's home for dinner with her hair done up in rollers and a scarf when she had been told there would be 16 other guests? I hope you can think of a good excuse for her because she is really a good girl otherwise.

BAFFLED

DEAR BAFFLED: She'll have to think of her own "excuses." But if you are interested in the reason, it is obvious. She's saving her best self for a worthier occasion, which is no compliment to her hostess.

DEAR ABBY: My boy friend is not quite 17 and he has grown a mustache — at least, that's what he calls it. It isn't very thick or dark. In fact, it just looks like he forgot to wash his face but, nevertheless, it is a mustache and he thinks it looks good. Everyone makes fun of it behind his back. When my mother saw it for the first time she had to bite her lip to keep from laughing. I really wish that he would shave it off. How should I tell him? I hate to hurt his feelings.

KATHY

DEAR KATHY: Tell him in the kindest, frankest, plainest words you can find. But TELL him.

DEAR ABBY: The woman who signed herself "WAITING" is not the only one whose husband uses poker games as a cover up for evenings spent with other women. How do I know? Because I was the "other woman" (for (See DEAR ABBY, Page 17)

PLANS AUGUST WEDDING

Miss Lena Pearl Hawkins

Mr. and Mrs. R. R. Hawkins, 425 Hughes, announce the engagement and approaching marriage of their daughter, Lena Pearl, to George Grantham, son of Mr. and Mrs. Thurman Grantham, Fort Worth. The couple plans to exchange wedding promises August 23 in Calvary Baptist Church.

Jerry Stephens

Private Recital Set for Today

Jerry Stephens, 15, son of Mr. and Mrs. Melvin Stephens will present a piano recital at 3 p.m. today in the First Methodist Church. The public is invited to hear the young pianist as he presents a program including "Sonata in E minor" by Hayden; "Nocturne, Op. 37 No. 1" Chopin; "French Suite No. VI" by Bach; and "Concerto K. 48 A Major (Presto)" by Mozart.

Jerry has studied with Robert Hoffman of Amarillo for eight years and has been accompanist for school choirs for several semesters.

Pluck Shape

Blondes and redheads often have pale eyebrows. To define them more, pluck hairs from the underside of the eyebrow. This creates a clean arch. Then apply the proper shade of eye pencil with short, hair-like strokes for a more natural look.

Select a Good Quality Tool for Gardening

For loosening up the soil in flower or shrub borders or cultivating in the vegetable garden, nothing can quite equal the long handled 4-prong green thumb cultivator. However, where regular hoeing is necessary, have you ever tried the little triangular hoes? They can get in anywhere. Another tool we do not see half enough, except among the professionals, is the scuffle hoe. It's a push-pull affair and works in both directions. Where you edge your lawn neatly around flower beds,

etc. and want a whisker-free edge, give the rotary grass edgers a try. They go along fast and do a neat job.

Even in the most carefully sprayed or spreader-treated lawn a few dandelions, plantains and other large weeds usually escape each year. And the quickest way to get them is to cut them off below ground and dig them out with a long handled dandelion digger. It works just like the old-fashioned asparagus knife but you don't have to bend down so far.

Finally, when it comes to small hand tools, again it pays to get good ones, because they save you time and effort. You've often seen hand weeder and trowels stamped out of a piece of sheet metal. If you're trying to save 2 or 3 cents, get them. But, if you're trying to save work, get a weeder with good forged steel fingers, and a trowel with a true shank joining it to the handle. Then, it can stand all your prying and not fold up at just the wrong time.

Natalie Wood Fires Gun For Warner Bros. Race

HOLLYWOOD
By VERNON SCOTT
United Press International
HOLLYWOOD (UPI)—Natalie Wood fired the starting pistol for the doggondest auto race in the history of Warner Bros. studio.

At the crack of the gun an ornate white Leslie Special roared away from the starting line, hotly pursued by an ominously black Hannibal Eight. Before they had budged five feet, the Hannibal had crunched into the tail light of the Leslie Special.

The wildly improbable cars sped around a couple of studio blocks and screeched to a halt to the cheers of some 300 visitors.

The drivers debarked to pose for pictures. To the surprise of no one, they were Jack Lemmon and Tony Curtis who will co-star in "The Great Race" for the studio. It's a comedy with Lemmon playing the villainous Professor Fate (dressed in

black top hat and black cape) and Curtis as Leslie Gallant III (attired in purest white).

Though the actors get top billing, the cars deserve special attention. They are the wickedest contraptions on wheels.

The Leslie Special is a gleaming white and brass phaeton. The Hannibal Eight is a square black monster complete with cannon and other evil weapons, including smoke screen equipment.

Both cars were made by the studio's special effects department and are completely operable. Though their bodies are different from anything ever seen, they are equipped with powerful speeds up to 100 miles per hour.

The plot of the movie involves a race from New York to Paris the hard way—via the West Coast and Russia—with Lemmon bent on destroying Curtis and his car.

Miss Wood and Dorothy Provine will be along to pretty up the scenery. At this writing no one will divulge the winner.

'Madame Butterfly' to Open Dallas Civic Opera Nov. 13

Dallas Civic Opera will open its 1964 production period Nov. 13 with a gala performance of Puccini's "Madama Butterfly," starring Lydia Marimpietri, the sensational young Italian soprano who stopped the show last year as Micela in DCO's "Carmen."

Appearing with her will be five other leading stars—the celebrated lyric tenor Giuseppe di Stefano, Italian baritone Enzo Sordello, American mezzo Elaine Bonazzi, Greek Bass Nicola Zaccaria, and Mexican bass Roberto Banuelas.

"Butterfly" will be staged for the company's gala opening night Nov. 13 and will be repeated for a performance at 8 p.m. Friday, Nov. 20.

This will be the same production of the Puccini masterpiece that Dallas Civic Opera staged in 1960 as the first production designed and executed in its resident scenic studio under direction of the late Trevor Hocker.

It will again be staged by the distinguished Japanese artist Hizi Koyke, once the world's leading interpreter of "Madama Butterfly," who was selected by DCO in 1960 especially to conceive and direct this opera.

her ideals for the love of an American naval officer.

Rescigno and DCO general manager Lawrence Kelly said they selected Miss Marimpietri because of her ideal qualifications for the role, because of her increasing recognition as one of today's leading young singers, and because of her tremendous reception by Dallas audiences.

Both Zaccaria and Banuelas are old favorites of DCO audiences. Zaccaria has appeared with the company for five seasons, making his American debut here in 1958 with Maria Callas in "Medea." He will be repeating his 1960 Dallas role as the Bonze, the Japanese priest and uncle of Butterfly.

Banuelas, who will sing the role of Yamadori, a priest of Japan and Butterfly's motor, made his American debut with Dallas Civic Opera in 1962 in "Otello" and "Barber of Seville."

As Butterfly's lover, Lt. Pinkerton, di Stefano will be making his second appearance with Dallas Civic Opera, following his debut here in Verdi's "Masked Ball" in 1963. Although the tenor has recorded "Butterfly" and is considered the foremost lyric tenor of the world today, he has only sung the role of Pinkerton in one other major opera house, Chicago in 1955.

Sordello, who will appear as Sharpless, also will be returning to Dallas Civic Opera for the second year, having debuted in 1963 in "Poppea." He also has starred with major opera companies throughout Europe and

Television In Review

(EDITOR'S NOTE: The most controversial topic in the television industry is Pay-TV which gets underway on a major scale in California next month. The new entertainment form has brought sharp opposition including an effort to have it declared illegal. In the following dispatch, the head of Subscription Television and a former NBC president describes the service. Saturday opponents of Pay-TV will state their case.)

By SYLVESTER L. WEAVER JR., President Subscription Television Inc. Written For UPI

HOLLYWOOD (UPI)—Subscription Television (STV) will bring three new and different program schedules into California homes, giving viewers a whole new realm of excitement and interest.

Three extra channels, all equipped to transmit in color, will be added to the existing television service. There will be no interference with present reception of commercial or educational television.

The most popular entertainment events—shows not seen or even possible on commercial television—will be brought to the whole family for the price of a single general admission ticket.

The coverage of our great culture—the opera, the ballet, the concert hall, the museums, all will come uninterrupted, unedited, in all their full-length glory, during hours suited to viewing convenience.

The full range of theater, not economically possible in commercial television, will be another service of STV. Viewers will be there as the great classics of Shakespeare and Shaw, of Chekov and Ibsen, of the great moderns, are played by renowned international theatrical organizations and by community groups. They will also be complete and uninterrupted, without commercials.

There will be professional, thorough, regular prime-time coverage in audio-visual form of almost every special interest, hobby, avocation and activity which families now follow by reading magazines, books and newspapers or by consulting other sources.

Instruction by audio-visual means is by far the most effective method. Virtually every evening STV will have programs designed and produced to instruct people on a wide range of subjects. This sort of instruction has been almost unavailable in any form. Certainly it hasn't been available in regular daytime, nighttime continuous service, which STV will provide.

Oil News

THE PAMPA DAILY NEWS
SUNDAY, JUNE 28, 1964
57TH YEAR

Concern Shown Over Oil Imports Report

WASHINGTON (Sp) — An area east of the Rockies (Districts I-IV), Jones said Venezuela oil imports into the U.S. have increased 200,000 barrels daily under the import program. He said the import program "has not operated to retard or injure Venezuela."

Jones said when the import control program was initiated in 1959, the largest U.S. oil state, Texas, produced 2,663,000 barrels daily while Venezuelan production was 2,771,000 barrels daily. In 1963, he said, Texas production was still at the 1959 level while Venezuelan production was up almost a half million barrels daily.

He pointed out that July 1964 producing allowable announced by the Railroad Commission of Texas permits a production level of 2,610,000 barrels a day more than 50,000 barrels below the 1959 Texas production level.

Jones advised Udall that he was writing at the request of IPAA president H. A. True Jr., Casper, Wyo., "to express our serious concern about press reports which indicate, despite critical and deteriorating economic conditions in the domestic petroleum industry, that the Department of Interior is planning, rather than any reductions in the level of total non-residual imports, a substantial net increase of some 5,000 barrels daily."

Referring to press reports that Interior officials were "apparently concerned about the effect on Venezuela" of a minimal reduction in imports into the

Troubles in Oil Industry Laid to Federal Controls

SHREVEPORT, La. (Sp) — Political harassment is the oil industry's biggest problem, International Oil Scouts were told at their 41st annual convention here Friday.

Sun Oil Co. senior vice president Jno. G. Pew challenged the oil scouts to lead the way in gaining public understanding as a solution.

The troubles — and there are many — come from "the increasing inroads of government controls in our business," said Mr. Pew.

Among them he listed: Continuing attacks on statutory (percentage) depletion, "smothering" effects of Federal regulation on natural gas producers, inequitable imports restrictions, gasoline's heavy tax burden and the ever-increasing need to invest greater amounts of money in the business to maintain jobs and profits.

Contrary to assertions made by politicians and publicity-seekers, declared Mr. Pew, the statutory depletion laws now in effect are in the national interest.

A way must be found to get legislators and people in general to understand that the depletion provision for petroleum is a "well thought out and effective way of both preventing the taxing of one's capital and of providing the incentive to the risk-taker to continued search for reserves," he said.

Turning to natural gas, he said the industry must find a way "to make it crystal clear that Federal regulation is unfair not only to the producer but also to the consumer." He pointed out that Sun Oil and other producers today decide whether to drill for oil or gas. "Producers may well direct exploratory efforts away from gas if remedial legislation does not come soon," he said.

Pointing to "the preposterous situation of about a 50 per cent tax on an essential product (gasoline) as compared to a 10 per cent tax on luxuries," Pew declared that there also must be a way to stop the continually rising direct taxes on petroleum's principal product. The industry does not oppose the idea of gasoline taxes to build roads and highways, he said, as long as highway planning is practical and reasonable and the handling of funds and expenditures is honest. He strongly opposed diversion of funds for non-highway purposes.

Oil's overall tax load — local, state and national — is a real problem, he went on, despite frequent charges by oil's critics of tax dodging. The industry pays \$2 billion in taxes per year, and a recent study of 25 large oil companies showed that they averaged more cents paid for taxes per dollar of revenue than other business corporations in the period from 1959 through 1961. He pointed out that the combination of oil's taxes and the excise taxes it collects amounts to between \$7.5 and \$8 billion per year — equivalent to 6.5 per cent of all taxes paid in the United States.

The problem of unemployment is not surprising in view of the failure of profits to keep pace and the necessity for increased investment to maintain jobs, he said. And the search for oil and gas is growing more expensive and risky, he added, with only one in 33 wildcats finding a profitable field.

A STATEMENT FROM THE M.D.'s of PAMPA

FROM A PUBLIC HEALTH STANDPOINT
the physicians of Pampa endorse the Sewer and Disposal Plant Bond Issue —

- Typhoid Fever and other diseases CAN be a problem in Pampa.
- Public Health and Sanitation CAN NOT BE TAKEN FOR GRANTED!

Card of Thanks

CARL E. STALEY
We Do Not Love
The One We Love.
They Only Go Before,
Where There is Everlasting Life,
Where Sorrow is No More...
And There The Soul
Will Always Live.
We Do Not Lose The One We Love,
God Takes Them In His Care.

We wish to express our sincere appreciation and deep gratitude to our many friends, especially the Rev. W. F. Blakey, a special thanks to Duane-Carmichael Funeral Home and the pallbearers for their words of comfort and deeds of kindness at the loss of our husband.

Mary Lenore Staley

21 Male Help Wanted 21

Don Pedro Hired to Tell Lies About the City of Brownsville

By JAMES T. YOUNG
United Press International
BROWNSVILLE, Tex. (UPI)—Out of nowhere, a man with a yen for travel in Milwaukee wins an airliner. A man with a thirst in Dallas gets the where-withal to quench it.

Senior Don Pedro is at work giving things away. Mostly they are hooby prizes, but still he is generous with them.

He wears a serape and has holes in his pants. He sports an oversized sombrero and he has the most bloodshot eye this side of a morning after the night before.

He's a spook, a Latin leprechaun and one of the best liars this side of the Canadian border, which is about as far as you can go in this country and still be in it.

One day this month, Charles Collins, travel editor for the Milwaukee Sentinel walked into his office to find he had won a DC3 airliner from Don Pedro. The first instalment arrived—one half of a propeller. The remaining 11,000-and-some-odd parts of the plane were to be sent to him a piece at a time. C.O.D.

Collins begged off, although Don Pedro assured him that the air to fly the old crate in would be absolutely free.

The thirsty man in Dallas got tequila. But he'll be a long time waiting for a drink of it. What Don Pedro sent him was a thorny Mexican century plant.

Matters Of The Military

7TH INFANTRY DIV., KOR- EA (AHTNC) — Jerry L. Rockwell, 23, son of Mr. and Mrs. Scott W. Rockwell, 1900 Hamilton, Pampa, Tex., was promoted to specialist four in Korea June 15, while assigned to the 7th Infantry Division.

A parts clerk in Headquarters and Service Battery, 2d Battalion, of the division's 8th Artillery, Rockwell entered the Army in January 1963 and received basic training at Fort Polk, La. he was last stationed at Fort Gordon, Ga., and arrived overseas in January of this year.

Rockwell is a 1960 graduate of Pampa High School.

LUBBOCK — John D. Ayres, son of Mr. and Mrs. J. B. Ayres of 932 Browning, has been commissioned a second lieutenant in the U.S. Air Force upon completion of the Air Force Reserve Officer Training Corps program at Texas Technological College.

Lieutenant Ayres also received his B.B.A. degree upon graduation at the college. He is being assigned to one of the more than 250 installations world-wide where Air Force combat and support units are based.

The lieutenant is a member of Phi Gamma Delta.

SMYRNA, Tenn. — Lieutenant Colonel Hector C. Dacus, son of A. C. Dacus of White Deer, has graduated from the U.S. Air Force transition training course for C-130 Hercules AFB, Tenn.

Colonel Dacus, who studied ground maintenance and the turbo-propeller systems of the C-130, is commander of the 779th Troop Carrier Squadron at Pope AFB, N.C., which supports the Tactical Air Command mission of providing firepower and other air support to U.S. Army forces.

The colonel, a graduate of White Deer High School, is the son of Mrs. Allean Dacus of 2349 N.W. 23rd St., Oklahoma City. A former student at Texas Technological College in Lubbock, he was commissioned in the Air Force in 1944 through the aviation cadet program. His wife, Leona, is the daughter of Mrs. Clara Crews of 2312 Eighth St., Lubbock.

FORT RILEY, Kan. (AHTNC) — Army MSG William L. Marshall Jr., whose parents live in Pampa, and other members of the 1st Infantry Division, are participating in the Joint Army-Air Force exercise INDIAN RIVER I, at Eglin Air Force Base, Fla., ending June 30.

Marshall, assigned to Company A in the division's 1st Medical Battalion regularly stationed at Fort Riley, Kan., entered the Army in February 1951.

The sergeant is a 1948 graduate of Pampa High School. He attended the Panhandle Agricultural and Mechanical College, Goodwell, Okla.

n a pot, with three instructions: "Wait 10 years, squeeze juice from the leaves (gloves very important here), ferment juice, and, voila! tequila."

In his capacity as president of the Wide Awake Public Relations and Septic Tank Co., Senior Don Pedro likes to throw around words like voila. It adds flavor.

And flavor is what Don Pedro is promoting, the flavor of Texas and Mexico all rolled into one where the palm trees wave beside the blue waters of the Gulf of Mexico.

Don Pedro is the imaginary and imaginative front man hired "to tell lies and other interesting facts about the city of Brownsville."

Such as: The average winter temperature is 76 degrees. There are sun and sand and super fishing, fine hotels, grapefruit right off the tree and old Mexico right over the river. Its metropolitan area popula-

tion is about 150,000, not counting Senior Don Pedro.

These, of course, are facts. Don Pedro never lies about the real Brownsville. But he'll tell whoppers if he thinks it will attract attention to his city in the sun.

He likes to say "Brownsville is where 'poor millionaires spend the winter.' And he sends suntan lotion in the winter to friends around the country reminding them, "if you were here instead of there, you'd need it."

Don Pedro's name also appears over front page stories about the weather and current events in The Brownsville Herald.

When there was tremendous argument in Dallas over whether Jack Ruby could get a fair trial in the same city where he shot Lee Harvey Oswald, Don Pedro proposed in print that the trial be transferred to the community of Bluetown, near Brownsville.

Pampa High School teachers spend their summer vacations in a variety of ways ranging from loafing to farming.

A recent check revealed that out of 63 teachers during the regular school year, only 15 remain to teach summer school.

The remaining 48 spend the summer working, attending college, and in a variety of different occupations.

A Spanish teacher, Mrs. W. A. Morgan, appropriately spends the summer attending school in Sautilla, Old Mexico.

Mathematics teacher John Plaster spends his three months farming in Canyon.

Terry Culley, basketball coach, is in charge of the summer recreation program for the city. Bill Armstrong, mathematics teacher, works for a roofing contractor. Elbert Albritton, shop teacher, works for Malcolm Hinkle; and Melvin Cardwell, commercial teacher, is employed as a bookkeeper at the Panhandle Fisher Grain Company.

School principal Cameron Marsh said many of the teachers return to college and spend the summer studying.

Among these are Mr. and Mrs. Don Myers who attend West Texas University at Canyon, along with Vernon Graham and Warren Hallbauer.

Probably one of the most educational summers is spent by Latin teacher, Miss Claudia Everly, who is touring Europe with the National Education Association; one of the most enjoyable by Elizabeth Hurlley, journalism teacher, who is vacationing throughout the northeast; and one of the most constructive by A. R. Nooncaester, who is building his own house.

Summer school will end July 25 and the fall term begins the first week of September.

For approximately 63 teachers and 1,000 students, it'll be "back to the grindstone," but not without a summer of fond memories and experiences.

It's Fun to Vacation In Texas, Any Season

AUSTIN (Spl) — No matter what the season, it's FUN to vacation in or visit "Texas, America's Fun-Tier," declares the latest travel publication of the Travel and Information Division of the Texas Highway Department.

The point should be well taken by visitors — once they take a look at the four-color folder, rich in information and abundant with color photographs showing the scenic, historic and recreational wonders of the Lone Star State.

The folder, sporting a red-white-and-blue cover in line with the colors of the flag of the Lone Star State, is aptly titled "Texas, America's Fun-Tier."

"This folder," said Tom H. Taylor, Director of the Travel and Information Division, "answers a need for providing hundreds of thousands of visitors with a compact and informative introduction to the vacation pleasures abounding in the Lone Star State. The folder is also designed for and will be made available for distribution to delegates attending conventions in Texas," Taylor said.

"We hope it will whet their traveling appetites to inquire more about 'America's Fun-Tier.' Anticipating this need, we've listed the Travel Division,

Texas Highway Department address on the folder inviting prospective visitors to make further inquiries about the Fun-Tier State.

The folder emphasizes that Texas offers a brand of fun for everyone regardless of the season.

It may be the mountain country of West Texas... the spacious areas of the Panhandle-Plains... the lush, green country of North Texas... those forested acres of East Texas... the hill and lake country of Central Texas... or the subtropical vacationlands of the Gulf Coast-South Texas region.

Choose spring, that magic time when a parade of wildflowers blanket hill and valley, and anglers and picnickers take to lake and forest. Or summer, when the special lure of the seashore is answered by swimmers and beachcombers. Or fall, ablaze with the red and gold of autumn foliage by day, and a hunter's moon at night. Or winter, no sit - by-the-fire time, but a season when sport fishermen test rod and muscles against the flashing silver tarpon on the sunny Gulf.

Taylor said the new folder will be fulfilling another important need — an economical piece to provide to school children who

Speaker Declares Domestic Industry On Critical List

DALLAS (Spl) — Association Executive Vice President Minor S. Jameson, Independent Petroleum Association of America, Washington, D. C. says the domestic industry "is on the critical list". The evaluation was made by Jameson before the American Association of Petroleum Landmen meeting held here recently.

Jameson stated, "The challenges we face today, particularly as they affect the domestic production of gas and oil, with eroding crude oil prices, declining exploration, drilling, development, and employment

are always clamoring for literature on Texas.

now in the eighth year, certainly place domestic industry on the "critical" list." Jameson expressed hope that "action will be forthcoming rather than appeals to the government for help and punitive or discriminatory proposals. What is needed is specific and positive evidence of independent, corrective action by individual companies."

In laying down this mandate, the Independent Association executive vice president charged "unless this industry demonstrates that it has the economic good sense and business stamenship to resolve its own economic problems, it is defaulting in its responsibilities. It is in-

And it is playing into the hands of those in government who have fingers that are itching to take over and straighten out economic problems of the oil business."

In making his remarks, Jameson named the Landmen as one of "the front lines of the oil industry's most important activities" and observed Landmen "see first hand the sharp declines in leasing, exploration, and drilling activities."

Mrs. John Bruce Dodd, of Spokane, Wash., originated the observance of Father's Day in 1910.

Teachers Spend Vacation In Variety of Manners

Pampa High School teachers spend their summer vacations in a variety of ways ranging from loafing to farming.

A recent check revealed that out of 63 teachers during the regular school year, only 15 remain to teach summer school.

The remaining 48 spend the summer working, attending college, and in a variety of different occupations.

A Spanish teacher, Mrs. W. A. Morgan, appropriately spends the summer attending school in Sautilla, Old Mexico.

Mathematics teacher John Plaster spends his three months farming in Canyon.

Terry Culley, basketball coach, is in charge of the summer recreation program for the city. Bill Armstrong, mathematics teacher, works for a roofing contractor. Elbert Albritton, shop teacher, works for Malcolm Hinkle; and Melvin Cardwell, commercial teacher, is employed as a bookkeeper at the Panhandle Fisher Grain Company.

School principal Cameron Marsh said many of the teachers return to college and spend the summer studying.

Among these are Mr. and Mrs. Don Myers who attend West Texas University at Canyon, along with Vernon Graham and Warren Hallbauer.

Probably one of the most educational summers is spent by Latin teacher, Miss Claudia Everly, who is touring Europe with the National Education Association; one of the most enjoyable by Elizabeth Hurlley, journalism teacher, who is vacationing throughout the northeast; and one of the most constructive by A. R. Nooncaester, who is building his own house.

Summer school will end July 25 and the fall term begins the first week of September.

For approximately 63 teachers and 1,000 students, it'll be "back to the grindstone," but not without a summer of fond memories and experiences.

HOMEOWNERS BRAG...

ONLY GAS COOLS SO MUCH BETTER FOR SO MUCH LESS!

that only GAS air conditioning costs so little to enjoy. There are no moving parts — nothing to wear out. GAS systems cost far less to operate and maintenance is almost unheard of. And, best of all, GAS air conditioners are built to last a long time — far longer than all other types.
