County Parties Endorse Favorites

Democrats Support Johnson, Connally

Gray County Democrats Saturday endorsed President Johnson and Gov. John Connally as the party leaders and selected eight delegates to the state convention June 16 in Houston.

The Democrats made these decisions during a peaceful meeting of county leaders at 31st District Court at Gray County Court House.

The endorsement of Johnson and Connally came as to surprise as the Democrats passed three resolutions that included an expression of sorrow over the death of President John F. Kennedy in Dallas last year.

The group also endorsed the candidacy of U. S. Senator

Ralph Yarborough as their choice for re-election in the forthcoming general vote in November.

Only the wording of the resolutions was changed by the convention and that was a single word — from precinct to county — where the group endorsement was needed.

The Democrats also moved to cut down the number of boxes in the June 6 run-off election for a congressman-at-large.

The group voted to have one polling place in Pampa with boxes 2, 7, 8, 9, 10 and 12 voting at the Pampa Junior High School gym building.

Other county boxes will include Lefors civic center; Grandview school; Allanreed School, McLean Grade School, Laketon, the Phillips Camp and the Court House Annex.

The body of Democrats, one of the largest turnouts in some time for a county convention, also selected delegates to the Houston Convention and heard Bob Baker, county secretary, tell them that absentee voting in the run-off election between Joe Pool and Robert W. Baker, seeking a U. S. representative seat at large, would begin May 27, closing some three or four days before the actual election.

Delegates to the Democratic State convention are Marvin Webster, Don Cain, William J. Craig, Bill Waters, Paul Crossman Sr., J. E. Thompson, Ramona Smith and Margaret Guidry.

Alternates are Jim Osborne, Mrs. Paul Crossman Sr., Benjie Shackelford, Ott Shewmaker, Margaret Thompson, Roy Sparkman, Mary Simpson and Mrs. Lynn Boyd.

Foundation Will Pick Directors at Thursday Meet

A slate of 25 nominees from which 15 will be elected to the board of the Pampa Industrial Foundation will be up for approval at a Foundation membership meeting at 10 a.m. Thursday in the Coronado Inn Starlight Room.

If approved, names of the 25 nominees will go on the ballot to be mailed to Foundation members. The 15 receiving the highest number of votes will be elected to the board.

E. O. Wedgeworth, Foundation secretary, urged a full attendance at Thursday's meeting.

EYES FRONT — These three Pampa youths were among the throng of local residents who lined Cuyler St., Saturday morning for the parade held in honor of Armed Forces Day. The boys perched on the railroad underpass watching the Pampa High School Harvester band from left are Bill Smith, son of Mr. and Mrs. Alfred V. Smith; Doug Barnes, 9, son of Mr. and Mrs. Tim Barnes and Bill's brother, Mike Smith, 9.

Armed Forces Day Observance

M. K. Brown Honored by Military

A grand old man from England who came to the Texas Panhandle 61 years ago to make his home in Pampa was honored Saturday by some 12 military units based in Gray County and this area.

M. K. Brown, who is still spry after 86 years, received a plaque honoring his work as a firm backer of the Armed Services, plus a standing ovation from over 150 persons who joined in Armed Forces Day observance in Pampa.

Brown stood waving to the crowd before he told the group that "I hope to be here for these parties a long time, and I thank you all for this fine honor."

Brown was presented his award by Capt. Bill Arrington of the National Guard unit in Pampa.

"I intend to place this award with the other fine honors I have received in an office that will some day be turned into a museum," Brown said. "I want the young folk of the Panhandle to be able to see and know of the things that have made the area a great place."

Brown was among four groups honored by the military. The others included the Pampa Daily News and radio stations KHHH and KPND.

Accepting the honor for the News was Bill Power, News general manager, while Herb Hester represented KHHH and Ray Rodgers, KPND.

The awards were presented at a banquet sponsored by Brown.

A speech by Judge E. E. Jordan of Amarillo was the feature of the affair, held at Coronado Inn. Jordan outlined the needs of the military reserves and urged all Americans to remind themselves daily that "we are free people."

He sounded the cry of Patrick Henry when he told the group

"I am like Patrick Henry when he said, 'Give me liberty or give me death' because, like him, I had rather be dead than red."

Jordan urged the public to demand that the United States stand prepared to meet attack at any time.

The banquet followed a parade by military units from the Panhandle area that included the crack drill team from West Texas State University and the U.S. Air Force Band from Amarillo.

State Report Planned On Dog Leash Issue

Commissioner L. P. Fort stated Saturday he would report to the city commission Tuesday on information he has received from the State Health Department regarding control of stray dogs and cats.

There has been some controversy over Pampa's proposed dog control ordinance which comes up for final reading at Tuesday's commission meeting.

The city manager has received a number of letters pro and con on the ordinance. Commissioner Fort said the letters are about 5 to 1 in favor of the proposed law.

The new legislation would increase the fee to reclaim impounded dogs from \$2 to \$10, increase the care of dogs in the pound from \$1 to \$2 a day, and require proof of rabies vaccination of dogs before they are released. The ordinance also would require that no dogs be allowed at large unless they are under control on a leash. Fine for violation could be as high as \$200.

Opponents of the ordinance

say the fees are too high and that the law makes "caged animals of pets."

Commissioner Fort says the State Department of Health treats dog control legislation as a protective measure to humans from the rabies standpoint.

In a letter to Commissioner Fort, L. W. Pessarara of the Division of Veterinary Public Health at Austin stated as follows:

"Stray dogs and cats are a potential source of danger to the human population in any area regardless of population. These uncared for animals can contract rabies from wildlife sources and maintain the disease in their own kind and thereby expose humans and livestock."

"Even though a city or other area has not reported a case of rabies for several years, there is no reason to believe that cases will not occur."

Commissioner Fort said also he had received other pertinent information which he will have available for the commission and citizens who attend Tuesday morning's meeting in City Hall. The commission meets on the second floor at 8:30 a.m.

In addition to the dog control ordinance other matters on the Tuesday agenda include: Discussion of condemned buildings, third reading of ordinance closing Mason St., opening of bids for cleaning, repairing and painting elevated water storage tanks, and approval of current bills for payment.

Republicans Back Goldwater Ticket

Gray County Republicans met in convention Saturday and endorsed Barry Goldwater for president of the United States.

The GOP precinct delegates to the county convention also elected 14 delegates and 14 alternates to the state GOP convention June 16 in Dallas and adopted nine resolutions to be offered at the state party.

Nearly 100 persons attended the convention held Saturday forenoon in the district courtroom of the Gray County Court House.

Delegates named to the state convention were: Frances Fatheree, Clayton Husted, John Skelly, Ida Ruth Price, Dr. S. B. Sybert, Charles Norton, Harold Cox, George Darby, Bob Price, Earl J. O'Brien, John Leg Bell, Walter Jordan, James Campbell and James Hobbs.

Alternates elected were: Betty Brown, Warren Fatheree, Walter

Businessmen Ask to Join Association

Businessmen and property owners in downtown Pampa have been asked to join and support the newly re-organized Downtown Business Association.

Temporary director Joe Tooly said yesterday that letters have been mailed explaining the mission of the association and that the membership drive will officially start Tuesday.

The primary mission of the organization, Temporary Chairman R. M. Samples, said, is to "foster, promote, maintain and encourage the civic, social, commercial and industrial welfare of the City of Pampa."

When all memberships are in, a board of nine directors will be elected to handle the operation of the civic group.

Aims of the group, as set out in a newsletter sent to downtown businessmen and property owners, include downtown redevelopment, tax studies, downtown parking survey, and overall promotion of downtown business.

Teams have been named to contact downtown merchants and property owners to solicit their membership, and the campaign for new members is expected to be completed by the next meeting of the group Friday at the Pampa Hotel.

Recording Reveals Tragedy

OAKLAND, Calif. (UPI)—The last coherent words from an airliner that crashed killing 44 persons sounded like, "Oh God, I think I'm shot, oh God" a recording of radio contact with the Oakland approach control tower showed Saturday.

The tape of conversations with the Pacific Air Lines plane that crashed Thursday was played for newsmen by the Civil Aeronautics Board.

At first it was unintelligible, but when repeated at slower than normal speeds the words came through.

Federal officials investigating the crash already had concluded that a passenger must have shot both pilots, causing the F27 Fairchild twin-engine prop-jet to dive out of control and crash with explosive force near Danville, 40 miles from its San Francisco destination.

Find Revolver
A .357 magnum Smith and Wesson revolver with six empty cartridges was found at the scene.

The Federal Bureau of Investigation and CAB officials were pressing investigations into backgrounds of those aboard.

It was reported without confirmation that the FBI had traced the gun to one of the passengers. The San Francisco Examiner said in a copyrighted story the man had taken out more than \$50,000 insurance before boarding the plane at Reno.

Most of the tape was taken up with conversation between a United Air Lines plane which was within sight of the Pacific Fairchild and whose pilots reported the Fairchild might have gone down.

The United plane overheard the then unintelligible report from the Fairchild and said a moment later:

"There's a black cloud of smoke coming up through the undercast at nine o'clock... looks like oil or gasoline fire."

PAMPA'S ANNUAL CLEAN UP DRIVE

Pampa's annual Clean Up-Paint Up-Fix Up campaign enters its second week tomorrow with clean up crews spending their second day in Ward 2. The trucks will continue through Ward 2 Monday, Tuesday and Wednesday.

R. B. Cooke, public works director, said Saturday the drive is progressing well and Pampa citizens are cooperating in the campaign to make Pampa one of the cleanest cities in Texas. Approximately 100 loads of rubbish already have been hauled away.

Parleys Marked by Walkouts

By United Press International
County Democratic conventions in the state's two largest cities, Dallas and Houston, were marked by walkouts Saturday.

In Dallas County it was the liberals who walked out, and in Harris County the conservatives left. In both cases the dissident groups held rump sessions disputing the legality of the regular conventions.

The Dallas liberals walked out after the convention leadership refused to hear the liberals' spokesman, Ed Winn.

In Houston, about 300 conservatives left, voting to contest the liberal-dominated state convention delegation chosen by the regular convention under the leadership of Harris County Democratic Chairman Bill Kilgartin.

Elsewhere, conservatives supported Gov. John Connally and appeared to have an early edge toward control of the state convention.

Travis County was firmly controlled by the Connally forces, sending its 78 delegates to the state convention under orders to support Connally as head of the state's delegation to the national convention.

Connally's campaign headquarters by early afternoon had counted 21 smaller counties with a total of 116 convention votes in the governor's column.

The Connally forces counted as favorable to them counties that either passed a stock resolution approving Connally's program but not President Johnson's, or sent a delegation to the state convention pledged to Connally, or both.

California Couple Barely Get Married

DELRAY BEACH, Fla. (UPI)—Sissy Dawson and Charles Morrow, standing nude under a clump of pine trees, were united in marriage Saturday while the bride's mother held

off an airplane with a rifle.

Sixteen-year-old Sissy was dressed only in a fingertip-length lace veil and high-heeled shoes, and the bridegroom wore nothing at all.

Seventy-five naked guests watched the two-and-a-half minute ceremony while Sissy's angry mother brandished a rifle at a low-flying airplane.

Three naked musicians played the wedding march on a guitar, a drum and an accordion. After the ceremonies, they ground out polkas for the guests.

The only clothes in sight with the nudist camp were on the lawyer who performed the ceremony and the little figures atop the wedding cake.

There were three bridesmaids, and Sissy's two younger sisters were flower girls. At the end of the ceremony, Morrow kissed Sissy gently. He shook hands with the guests and several of them planted the traditional kisses on Sissy's cheek.

"I'm ecstatically happy," she cried.

"I met her at a nudist camp," Morrow offered. "It was love at first sight," Sissy added.

Sissy's father, John, runs the Sunny Acres Nudist Lodge where the wedding was held.

GIRL GUARDS WIN TROPHY—Pampa members of the Salvation Army girl unit won top honors in a guard meet conducted yesterday in Amarillo. The award was presented for outstanding performance in Bible study and Salvation Army badge requirements. The Pampa Guards with Sunbeam members, were in competition with units from Plainview, Lubbock, Amarillo and Borger.

'Fish Talk' May Be Boon for Anglers

By JOSEPH L. MYLER
WASHINGTON (UPI)—Mastery of "fish talk" may make it possible some day for man to domesticate livestock of the sea.

A more immediate practical result, according to the Office of Naval Research (ONR), may be to help fishermen increase their catches.

An ONR publication, Naval Research Reviews, reports these suggestions in an article on more than 17 years of marine research by Marie Poland Fish of the University of Rhode Island's graduate school of oceanography.

Mrs. Fish is director of the world's largest underwater bio-acoustic library. Under an ONR contract, she has accumulated hundreds of miles of audio tape in a reference file on biological sounds.

The file contains "quite conclusive" evidence that fish and other sea animals do, indeed, speak a language of sorts.

Some whales appear to have extensive vocabularies.

Fishermen can be helped to improve their catches "by means of fixed, unmanned, underwater listening devices similar to those the Navy now uses to track enemy submarines.

"If fish of commercial interest were to swim near these posts and 'talk,'" ONR said, "The sounds would be picked up and rebroadcast to fishermen in the area.

"Also a possibility is the broadcasting of man-made sounds underwater to attract some marine animals, to frighten others away, and even to herd fish or contain them in selected areas."

Fish talk usually is associated with colony life. If something captures one fish in a school, other fish nearby will make a sound which impels the entire school to flee. Fish also talk while mating or feeding.

Researchers have auditioned a host of sea animals from shrimp and crabs to porpoises, whales, sea lions, sea cows, and many kinds of fish.

"Every animal studied," the report said, "was found to have a characteristic sound 'signature.'"

PHS Teacher Gets Honors From ILPC

Miss Elizabeth Hurley has been selected as the outstanding high school newspaper sponsor of the year by the Interscholastic League Press Conference. She is sponsor of Pampa High School Little Harvester newspaper.

In March of this year Miss Hurley received the Gold Key Award from Columbia Scholastic Press Association, Columbia University, for her work as a high school sponsor.

Miss Hurley has been at Pampa High School since 1953, when she left her teaching duties at Texas State College for Women, now Texas Woman's University. She had taught journalism in Denton for two years.

A four-year stint with the Denton Record Chronicle as both managing editor and vice-president ended a professional career that included seven years on the Lufkin Daily News and four on the Marshall News Messenger. In 1941 Miss Hurley worked for the Associated Press in Austin.

Miss Hurley was born in Fort Worth and, after attending Paschal High School, received both a BS and a MA from Texas State College for Women in Denton.

Lynda Bird Flies Into Mom's Place

WASHINGTON (UPI)—Lynda Bird Johnson, the President's 20-year-old daughter, took her mother's place Thursday on the Chief Executive's five-state Appalachian tour.

For Lynda, an attractive brunette with a dimpled smile, her job on the trip consists principally of "holding daddy's hand." She said Wednesday she hoped to "meet the people" but did not expect to make any speeches.

The First Lady was unable to make the trip because of a full White House social schedule.

Herbicides for Cotton Hold Few Answers

Several herbicides for pre-emergence use in cotton are on the market this year — some for the first time. Whether one or all will work on your farm under your particular conditions is a question with no stock answer.

County Agent Foster Whaley says four of the herbicides listed by Texas A&M University specialists this season are recommended on a trial-use basis only. These four are Trifluralin (Treflan), Prometryne, Norea (Herban), and DCPA (Decthal). Until more is known about the performance of these chemicals under Texas and more localized conditions, it's best to use them only on a very small acreage. And be sure to follow the label instructions exactly, Whaley cautions.

Bill Gunter, Area Extension Agronomist, says the term "trial basis only" means farmers who are interested in trying these new chemicals should restrict their use to a few rows. New herbicides are coming on the market each year and they will continue to play an important role in decreasing the cost of cotton production in this area.

"However," says Gunter, "until research has proven conclusively that one or all of these chemicals has a definite place on local farms under local conditions, they should be used on a limited trial basis only."

CIPC and diuron are recommended for use on Texas farms, having been used by research workers and farmers for

St. Vincent de Paul Pastor to Celebrate 25th Sacerdotal

Rev. Edward J. Cashman, pastor of St. Vincent de Paul Church and Vincentian Father of the Congregation of the Mission, Tuesday will celebrate his 25th Sacerdotal Jubilee as a priest.

The Rev. Fr. Cashman will celebrate a jubilee mass at 6 p.m. at St. Vincent's Church. The mass will be followed by a public dinner and reception in St. Vincent school cafeteria to honor Father Cashman as he marks his 25th year in the priesthood.

Speaker at the Jubilee Mass will be the Rev. Fr. Maurice Hymel, C.M. V.V., of New Orleans, vice provincial of the Southern Province of the Congregation of the Mission.

Other special guests at the jubilee observance will be the Pampa priest's brother, Rev. Fr. Thomas Cashman, O.F.M., of St. Thomas Aquinas Parish, Ryston, La., and his nephew, the Rev. Fr. James Cashman, C.M., of Holy Trinity Parish in Dallas.

Another visitor will be the Rev. Fr. Ronald Ramson, who was assistant pastor at St. Vincent's from 1959 to 1962, and now is director of vocation at St. Vincent Seminary in Beaumont.

Father Cashman came to Pampa in 1958 as pastor of St. Vincent's.

Under his guidance the new parish plant at 23rd Ave. and Hobart St. was completed. The growth of St. Vincent School came under his pastorate, a new school bus has been purchased, the church debt eliminated and several parish societies organized. Rev. Fr. Richard Lang and Rev. Fr. Charles J. Welter are assistant pastors at St. Vincent's.

Father Cashman, who is chaplain of the Pampa Deanery of the Diocesan Council of Catholic Women, was born the son of Mr. and Mrs. James Cashman in

FATHER CASHMAN
... 25th year

Chicago, Dec. 10, 1912, one of eleven children. Five of the children embraced the religious life. Mr. Cashman died in 1920 but Father Cashman's mother still resides in Park Ridge, Ill.

Father Cashman entered the Minor Seminary at Cape Girardeau, Mo., in 1927 where he pursued his studies until 1931. Then he went to St. Mary's Major Seminary, Perryville, Mo., where he was ordained June 4, 1939. Since ordination his assignments have carried him over a good portion of the Western United States. After ordination, he went to summer school at DePaul University, Chicago, and also served as chaplain at St. Joseph's Hospital.

In the fall of 1939, he was assigned chaplain at Hotel Dieu, New Orleans and in January, 1940, was named assistant pastor at St. Stephen's, New Orleans. He served for eight years as assistant at St. Stephen's and then went to St. Louis for two years. His following assignments included Cotulla, Tex., Chicago, Ill., and Los Angeles, Calif. In 1955, he was appointed pastor of Our Lady of the Miraculous Medal Parish at Montebello, Calif. He served there for three years and in 1958 received his appointment as pastor of St. Vincent de Paul here in Pampa.

In addition to the rapid growth of St. Vincent's parish under Father Cashman's guidance, plans now are under way for a new church which would complete the hopes of St. Vincent parishioners.

ELECTION IN ITALY
TRIESTE, Italy (UPI)—Nearly a million voters will choose a "state legislature" Sunday for northeastern Italy in an election regarded as a test of strength between democracy and communism.

The voters will elect a regional council for Friuli-Venezia Giulia, a newly designated "region with special autonomy"—roughly comparable to a U.S. state.

Woman Sought on Bogus Check Case

Federal agents and Gray County officers were seeking information Saturday as to the whereabouts of a woman accused of taking some \$4,500 from the Citizens Bank last week by using a forged check.

District Attorney Bill Waters said the woman, identified as Corrine Fern Buckner, alias Janet Odgen, had been indicted Friday by the Gray County Grand Jury on a charge of forgery.

The woman is sought in some 15 other states for similar offenses, Waters said.

Sheriff Rufe Jordan said the woman deposited \$150 in the Citizens Bank on or about May 1. She later returned and placed a certified check in the amount of \$7,500 in her account and withdrew \$2,500.

The next day, the woman returned and withdrew an additional \$2,000, telling bank officials that illness in her family was forcing her to send the money home.

The woman left the bank with a supposed balance of \$3,150. The certified check turned into a forged check the next day and efforts to find the woman failed.

Waters said that FBI agents had been seeking the woman for sometime. She allegedly has pulled the same type of operation in 15 states since her release from a northern prison in 1961 where she served a term for the same offense.

Jordan, along with city police and every deputy, had covered every motel, hotel and apartment house in Pampa during the past few days in an effort to locate the woman.

The woman is known to use 25 different names in the course of her travels across the country, according to FBI reports.

Agents in Dallas and Amarillo were assisting Gray County officers in attempting to run the woman aground, but the officers had little hope of an arrest soon.

"The only way we'll catch her, is for another police department to make an arrest while she's trying to do the same thing in another city," Waters said.

The indictment against the woman was one of 14 returned

by the grand jury during its actions of Friday.

Republicans OK Goldwater

(Continued From Page 1)

ter Stein, Mrs. Earl J. O'Brien, Mrs. Bob Price, Lewis Hackley, Clo Jordan, Jimmy Don Morris, Mrs. James Campbell, James C. Hill, Mrs. David Fatheree, Clem Followell, Buddy Price and Anita Bell.

The Goldwater resolution called on the state GOP delegation to the national convention to pledge support to Goldwater until personally released by him.

A resolution was adopted pledging the support of Gray County Republicans to the candidacy of Bob Price of Pampa in his race for U.S. representative from the 18th Congressional District.

A resolution was adopted urging the appointment of Mrs. Kathryn McDaniels of Borger to the state GOP platform committee and that Gray County delegates to the state convention be instructed to support Mrs. McDaniels for the post.

A resolution was adopted urging state and national conventions to make an effort to preserve individual freedom by having individuals judged on personal qualifications rather than by race, creed or color.

The Republicans were divided 39 to 37 on a resolution presented by Pct. 13 delegates calling for the United States to halt all trade and aid to communist na-

tions and their satellites. The division came over the inclusion of the word "trade" in the resolution but it finally was adopted by a two-vote margin.

Arguments arose from the floor at this point over whether the convention should adopt resolutions concerning international issues, which some delegates said would be taken care of in the state and national resolutions committees.

A resolution was adopted urging Republican party representatives to oppose national deficit spending and calling for a reduction in the national debt.

A resolution was adopted calling for the United States to take a firmer stand in S. Viet Nam. This resolution passed on a 29 to 23 vote, with those opposing again adhering to the stand that the county convention should not act on international affairs.

A resolution introduced by delegates from Pct. 7 urging aid to the Cuban Government in Exile to fight Castro Cuba was dropped when a motion failed to bring the precinct recommendation to the county level.

The final resolution adopted by the Republican convention urged Republican representatives in government to take a stand for abolishment of the inheritance tax.

Warren Fatheree was elected permanent convention chairman and Pat Norton was named secretary.

The county convention's keynote speaker was Bob Price, Republican candidate for Congress.

Price pointed out to the delegates that it was an honor to be a delegate to the Republican county convention, because "they have entrusted into your hands the governing of the only political party in this great nation that offers even a chance of returning constitutional, free-

dom-loving, God-fearing government to live in apartments were the Troquois Indians, according to the Encyclopaedia Britannica.

Price also pointed out that there have been two major world wars under the Democrats and none under Republican leadership.

"Under the liberal and naive leadership of such Democrats as Franklin Delano Roosevelt, Harry S. Truman, John Fitzgerald Kennedy, and Lyndon Baines Johnson, well over half the world's population has been surrendered to the Godless tyranny of communism, while under the able leadership of the honorable Dwight David Eisenhower not one single nation fell prey and openly proclaimed communism.

"The Republican Party clearly offers the only hope to the enslaved millions of people in the world. The record is clear. These are the facts. The Republican interest has been in the welfare OF the people, not in welfare FOR the people."

The convention was opened and closed by Clayton Husted, Gray County GOP chairman.

Center Wrap-Up

George Smith, Director
Pampa Youth and Community Center

Starting Monday the center will conduct new swim lessons for intermediates and swimmers. Registration is still open and parents may enroll their children today and Monday. Lessons are free to Center members and \$2 for non-members. Parents must come by the center to enroll. No phone calls please.

The summer Red Cross swim lessons have been assigned and finalized and will be as follows: June 15-26 at 9 a.m. polywog, advanced beginner and intermediates. At 10 a.m. beginner, advanced beginner and swimmer will be offered. June 29-July 10 at 9 a.m. polywog, advanced beginner and swimmer while at 10 a.m. beginner, advanced beginner and intermediate will be held. On July 13-24 at 9 a.m. polywog, intermediate and advanced beginner and finally at 10 a.m. beginner, advanced beginner and swimmer.

Enrollment for all these classes will be May 18 from 2-5 p.m. with a follow-up enrollment May 25 from 2-4 p.m. Parents are urged to enroll their children on May 18 for these classes fill in a hurry. A \$1 registration fee will be charged for each class per person. If a child passes one course in one session, they may enroll in the next class providing there are vacancies. After all these preliminary swim courses are finished, the Center will offer one big class for all persons desiring junior and senior life saving from August 3-14. You do not have to be a Center member to take any of these swim lessons during the early summer.

School classes are also reminded they may rent the center pool or recreation hall for their end of the year homeroom parties. Time must be arranged

by calling George Smith at 5-2012 or 5-2622.

Another addition to the Center is currently under construction. The New Sun Area is being built just South of the pool building. It will be an area of some 40 by 40 feet with a fourfoot concrete walk around it. It will be grassed in and have lawn chairs and concession machines in the area. Swimmers may look forward to getting their sun tan at the Center this summer.

In volleyball action the Hi-Land Drive In Lassies (6-0) head for their showdown Monday night with the Surplus City girls (5-1). Results from last week found Hi-Land defeating Ogden and Son 15-4 and 15-2; Jaycee Ettes over Dairy Queen 15-0 and 15-0 while Surplus City overwhelmed Eloise Beauty Shop 15-2 and 15-12.

In men's action the Hi-Land Drive In Laddies were upset and threw the league into this week's action. Tied were Hi-Land, Fina Pinkairs, Skelly Spikers and White Deer Jaycees (all 4-1). One member of this group fell out of the tie by being defeated Thursday night by another lower place team. Skelly went under to Western Auto 16-14 and 15-7. Also Thursday White Deer defeated Cabot 15-11, 8-15 and 15-4 and Panhandle Packing took Southwell 15-5, 10-15 and 15-11. Last Friday night Fina Pink airs took Hi-Land 15-11 and 15-12 while the Marine tipsters tipped Southwell 13-15, 15-1 and 15-2.

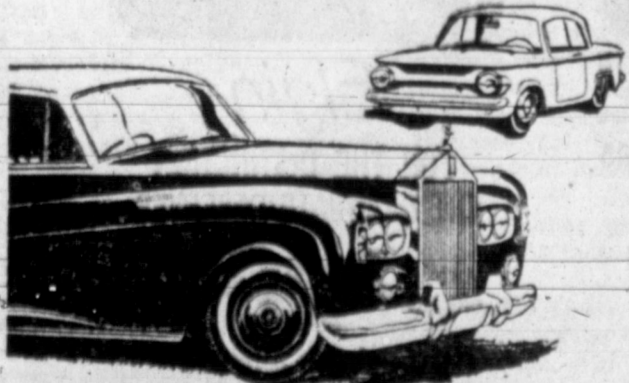

Boys are reminded that the Eight Ball Doubles Tournament starts Monday and brackets are on the bulletin board.

POLICE HONORED — Mayor H. R. Thompson hands Police Chief Jim Conner a certificate from the National Police Officers Association of America as the Pampa police department is honored as winner of the Walker Safety Award for traffic law enforcement. The award was presented the department by the police group on figures taken from the official National Safety Council report.

Pampa Police Chief Gets Safety Award

A major traffic safety award was presented to Chief of Police Jim Conner Saturday by the National Police Officers Association for superior work in traffic enforcement.

Conner was presented the certificate for the entire police department and a copy of it will be displayed at the Police Hall of Fame Building in Venice, Fla., as part of the NPOA's safety campaign.

The award, "The Walker Safety Award," was formed following the death of a policeman in the line of duty while enforcing traffic safety.

The selection of the Pampa Police Department as a winner of the award was based on the official report of the National Safety Council, according to Frank J. Schira, executive director, of the police association.

The honor was made at the beginning of the National Police Week observance which will continue through May 15. Conner was presented the

certificate by Mayor H. R. Thompson in special ceremonies at city hall.

Conner, on accepting the award, said he did so "knowing that it is an honor which goes to the entire department, not just any one person. I am proud that my men have been able to win this award."

Conner said he would display the certificate at police headquarters to serve as a reminder to his officers of the outstanding job done in the past several years in holding down traffic deaths on Pampa streets.

Pampa has not had a traffic death since March 31, 1962, some 769 days ago, and this year the accident rate has gone down, not only injury-wise, but damage-wise.

Thompson said he felt the citizens of Pampa "should" take every step possible to give the police department here credit for the splendid job they have done and are doing."

"This award shows what can be done by dedicated men," the Mayor declared.

PHS Student Wins Honors In Maryland

Intense interest in the fields of science paid off for Avril Doucette Friday as she was awarded fourth prize in the National Science Fair being conducted in Baltimore, Md.

The daughter of Mr. and Mrs. Albert Doucette, 2424 Mary Ellen, and a junior at Pampa High School, Avril won the award with her exhibit of "Texas Panhandle Soil Algae as Antibiotics."

Her parents were elated with the news that their daughter had won the honor. Her mother stated that Avril had shown an intense interest in the sciences since fifth grade.

She skipped sixth grade and is 1½ years younger than any of her classmates.

Palo Duro Pops Pampa By 7-0

By JEFF COHANE
Pampa News Sports Editor
AMARILLO — The Pampa Harvesters were out-hit, out-fielded, and out-pitched here Friday as they meekly went down to a 6-0 shutout at the hands of the Palo Duro Dons.

Pampa had set a team record in a game earlier last week by amassing 15 hits, five home runs and five doubles. Friday they could manage only five hits off PD hurler Mike Vachon with Kenny Hebert's double the only extra-base blow. Vachon's curve ball struck out five

Mickey Takes Giant Step

ST. LOUIS (UPI) — Mickey Wright took a giant step toward her third tour victory of the year Saturday with a one over par 72, good for a five stroke lead on her nearest competitor in the \$12,500 Squirt Women's Open.

Miss Wright has a 142 after 36-holes in the 54-hole invitational tournament.

The second round challenges to Miss Wright came and went during the afternoon as fast and windy conditions took their toll for the second straight day.

In second place was Joann Prentice, who has not won on the tour in seven years, at 147. She was having iron trouble but finished the day with a 75. Kathy Whitworth and Marlene Hage each had 149 to tie for third.

while he walked two. His hitting and that of first-baseman Larry Glasco keyed the Dons, who scored consistently off a worn-out Jerry Garrison and reliever Ronnie Curlee, aided by four Pampa errors.

Pampa never got a man past second base, with that happening only twice and both times with two outs. In the third inning, Claude Middleton and Kyle Vann singled in succession to no avail and in the sixth, Hebert doubled to left center, only to die there.

PD got their opening run in the bottom of the first on back-to-back doubles by Vachon and Glasco. The pair combined for a double and single and another run in the third inning and PD then scored three times in the fifth on Ronnie Phillips' double, Glascoe's single, a walk, sacrifice, error and balk.

A mixed-up medley produced two runs in the sixth on an error, wild pitch, walk and then a sacrifice bunt which apparently caught the runner at home, then was called just an out at first while two tallies fled across the plate.

No Limit to Matson's Power

COLLEGE STATION (NEA)—Six years ago a tall, trim boy was spending his predinner time heaving an 8-pound steel ball around his back yard, carefully marking and stepping off each throw.

Suddenly, there was the awful crash of steel against steel, which brought the father rushing out the back door, his jaw dropping as he saw the family car wobbling slightly, a large cavity in the right front fender.

"What in the world's going on here?" he roared.

"Aw, dad," said 14-year-old Randy Matson, "if you hadn't parked the car there, it would have gone 60 feet."

Randy, now a freshman at Texas A&M, is a shot-putter, probably the best young one in the world. He consistently beats the big boys use. At the Drake relays, he broke Dallas Long's national freshman record with a 64-1 heave and has a top mark of 64-10 1/2.

Track buffs eye him as the man to crack 70 feet eventually.

He is just beginning to fill out his 6-6, 240-pound frame, has been throwing the 16-pounder less than a year, has a height advantage on the average weight man and remarkable co-ordination.

He is hitting the 64-foot figure without the speed across the ring that experience will bring and, because of a lingering hand injury, without getting any finger-clip at the end of his put.

At A&M, he has come under the first weight program of his life and his instructor, Emil Mamaliga, predicts a 65-foot party O'Brien.

If he does, it will be an ironic bit of vindication for the school track program. In the 1952 Olympics, Texas A&M's Darrow Hooper lost the gold medal by one-quarter inch to O'Brien.

Matson was seven years old at the time.

Bulldogs Batter Harvesters, 8-2

The Berger Bulldogs exploded in the sixth inning for seven runs to come from behind and shatter the Pampa Harvesters yesterday at Optimist Park, 8-2.

Big Joe Robinson spotted the Green 'n Gold two runs in the first inning and then hurled shutout ball the rest of the way, scattering four hits, walking three and striking out 14 batters, gaining sweet revenge for an earlier 2-1 defeat.

Jim Arthur pitched his way out of numerous jams until the sixth, when the Bulldogs bit him for four straight hits, gnawing at reliever Carl Harnsberger for two more and the ball game. Pampa, with their leading hitter, all-district Kenny Hebert, cut from the team after Friday's game, could muster little punch, only Steve Molberg, with a pair of doubles, providing any threat to Robinson.

Coach Ray Howard said that Hebert was cut because "Kenny couldn't see his way to go along with the way I ran the ball club."

Kyle Vann opened the home first with a walk, moved to second on Rick Stewart's sacrifice and to third as Ricky Maynard was safe on an error. Molberg then slashed a two-bagger to the left-centerfield fence to score both tallies.

Pampa got only one runner past second base after that, Ricky Goodwin walking in the second and moving to third on a pair of passed balls, but Robinson struck out the next two batters and continued throwing bullets the rest of the way.

Arthur escaped with only one run scored from bases - loaded situation in the second, third and fourth innings, but the Dogs caught up in the sixth. Four straight hits, including doubles by Stan Walsiak and Vince Lang, were Arthur's downfall, while Harns was greeted by Preston Wilson's double follow-

Sporting Sidelines

by JEFF COHANE

ONE OF THE most painful like Kenny Hebert or Rick Stewart or Phil Woodring or Jody Holland out for every possible sport... two years of admiring their ability and reporting it... and two years of knowing them as friends as well, makes it kinda tough to stay while they go. Boys that I have had the privilege of coaching in baseball such as Gene Madrid and Claude Middleton, boys that I have watched grow up from young kids to mature men like Larry Gregory and Charlie Price and Terry Bromlow... it gets a little hard to say goodbye.

FRANKLY, I'LL MISS them... I'll miss them on the football field, the diamond, the track, the court... I'll miss the Saturday visits to my office by Squash McCool and Tank Todd, by Richard Ulrich and Ricky Moore, by Dave McDaniel and Mike Bridges. I'll miss going out on a track field and being pounced on by Larry Elliott and Mendall Hunter, by Charlie Byram and Jesse Washington and Bill McMin, by Ray Corcoran and Eddie Jay Windom... I'll miss the heckling of Bob Patton and Joe Schaefer and Cal Johnson and Butch Brown and Rock Heil. I'll miss the victory smiles of all the pretty basketball players and cheerleaders.

I'll miss the visits for discussion and endless arguments about baseball and football and basketball by Hebert and Gregory and Middleton and Madrid, by Woodring and McCool and Bromlow, by all the fine young athletes and fine young men and fine friends that graduate (See SIDELINES, Page 10)

WHILE GRADUATION is a source of pride to friends and relatives, and of achievement to the graduates, their teachers and coaches, to me it means saying goodbye to boys, or rather young men, who have been good friends for a long time.

Each year you get to know them a little better and each year you miss them more. The youngsters that you have watched and followed and encouraged and, in a few cases, had the good fortune to actively help, are now departing for new worlds... worlds where you can only follow them second-hand.

TRUE, THEY are not gone forever... many of them still keep in touch... holiday visits from Bill Martin and Carl Clark and Clyde Windom and Mark Arrington... letters and messages from Ralph Palmer and J. L. Grantham and Curtis Campbell... newspaper reports of the doings of Randy Matson and Wayne Kries, Steve Garmon and Kippy Williams and Carl McAdams... an occasional chance to see Jerry Glover in a baseball game and Keith Swanson and Curtis Campbell and Jimmy Flowers in basketball and Curtis Fletcher in football.

BUT IT STILL isn't the same. Two years of watching a boy

FISHIN' REPORT

By RAY KEELIN

Grab a rod and take your pick, fishin' is good in just about any direction. Elephant Butte, Foss, Texoma, Canton, Ft. Supply, Skipout, you name it... bass, crappie, channel cat... there have been a few changes in what the bass are hitting. Last week, just about any deep running yellow lure would take a few bass, the past few days, the trend has changed... the black and white bushwhacker, black and white shyster, the red abu, looks as if the bass are really beginning to mean business and you fishermen won't have to have a special piece of equipment.

You'll find a lot of new lures on the market this year. That doesn't mean to throw away all your old standbys, another thing, don't give up to easily... 25 casts with one lure, vary your retrieve then change to another plug. The Finnish lure "Rapala" is available in more quantity this year, don't let anybody hold you up to get one. You'll find a suggested retail price in each box.

Who Caught What... I know of two old timers, went out last Sunday, had about \$10 worth of tackle, a couple "hula poppers" total catch... get this... 25 bass and one channel cat, all on the "hula popper" average weight 2 lbs... the fishermen... Dickie Bell of Woodward, Okla. and Randy Glitsch, Pampa... both are ten-year-olds.

Couple other youngsters came up with a good catch... out of Elephant Butte (New Mexico) Jess Hulseay and J. D. White stopped in the store Monday reporting limit catches of channel cat going up to six pounds, also two bull heads, one 15 pounds, one 18 pounds. These boys were using cut bait... this is a good catch for this time of year, if you try it, don't be too disappointed, unless you know your lake and where the fish are, this time of the year, or any time of year for that matter, you may fish two lakes the same way and come up with a catch in one and nothing from the other. Well, from all results you could just about discount the one lake, but don't do it... go back and check take another look... check the water temperature, how the lake is fed, does it have springs, or an internal water supply, what type vegetation, moss, water lilies, cattails, what type insects can you kick out... it won't take you long to figure out how to fish any lake in the country, with better results. New Mexico... fishing license

... non-resident yearly permit will go up May 1st... \$10.00 a year... that will allow you one rod per permit. That's a two buck increase over last year, looks like somebody's fixin' to retire young.

If you've got the money and want some "once in a lifetime" fish, check into Great Bear Lake, Northwestern Canada. Lake trout running as high as 50 pounds, average 25 to 30, as I said if you got the loot, if you haven't, come on down, I'm going to city lake...

Did you know that Texas has more inland lakes than any state in the union, with the exception of Alaska??? Truth... Wheaties and strawberry soda pop makes a fine dough bait for carp, ain't much for eatin', but you'll know you've been in a fight landing one they're powerful.

As more and more people are getting out on week-ends, I hear more and more reports about lakes that are closed... the west side of Skipout is locked, part of Spring Lake, Berlin Lakes are partly fenced off, almost all the ranch lakes around Pampa are posted, others are clubs—actually too many to mention, but what I'm leadin' up to is why?

The man in town says, "state money built this lake and it's stocked with state fish, I paid my taxes, why can't I fish in any lake I want to??? The man's got a point—a darn good one... let's see why... every land owner I've talked to, both here and in Oklahoma have basically the same answer... disregard for personal property. That's it in a nut shell. Not only does this apply to fishin, the same goes for hunters... some of the legitimate reasons... gates left open, grass trampled, fences cut, trash thrown everywhere, cattle run off from watering. One instance in Oklahoma, a man lost a prize bull, the cause, bull got tangled in a trot line someone had left in the lake, you pay the man and you just might get to fish there, otherwise I'll bet the fish die of old age... in every case, everyone, the land owner has opened his lakes for fishermen the public, and had to close it because of one or two. Yes, I can get pretty well wound up on this subject... But on the other hand... If the shoe fits... wear it. Actually one party in forty will do all the damage... one other thing... there always has, and I guess always will be some friction between skiers and fishermen... mark you trot lines some way, these gallon, white

Second Annual Junior Champ Meet

Big Field In Jaycee Track

By JEFF COHANE
Pampa News Sports Editor

A combined sprint relay team of Canadian, Skellytown and Lee Junior High ninth graders flashed from behind in 48.8 to climax the second annual Pampa Jaycee Junior Champ Track Tournament yesterday.

Uncounted hundreds of youngsters from Letors, Skellytown, White Deer and Canadian joined hundreds more from Pampa grade and junior high schools for the massive meet at the Pampa High track field. Stand-out individuals were Kenneth Steine of Canadian, Alonzo Gomez and Connie Parish of Pampa. Steine, district 2-A junior high champ, won the 100 yard dash in 10.6 in the prep (14-15 year-old) boys division, broad-jumped 19'11" and anchored the winning relay. Connie, a state junior champ last year, put on a big bid for repeat honors as she won four events and was second in a fifth in the prep girls division. Other standout marks were a 6.7 50-yard dash in junior (12-13) girls by Linda Stevenson; 10.7 in the 75-yard dash for pee-wee girls (10-11) by Sandra Cain; 9.9 by junior Linda Stevenson; a 25.85 by Gomez in the junior 220; a 57. by Dickie Sims in the prep 440.

Top placers in the meet will compete in the state Jaycee tournament in Irving next month. A meet for 16 and 17-year-olds, may also be held by the Jaycees to qualify contestants for the state meet.

Bowling

By JIM ADKINS
Congratulations to all of the new league champions of the 1963-1964 season. Those beautiful emblems are a badge of merit, wear them proudly. I will try to mention all of the new champions as soon as all of the leagues finish. It has been quite a year for bowling and of course play-offs and banquets signify the end of the fall league season and right around the corner is the beginning of the summer season which will be starting at both houses in the very near future.

SWC Puts Texas, SMU on Trial

LUBBOCK (UPI)—The University of Texas and Southern Methodist University Saturday were placed on probation by the Southwest Conference.

The announcement was made by the conference executive secretary, Howard Grubbs at the spring meeting of the conference in Lubbock.

Texas, national football champion, was given a one-year probation for violation of article 29, section 6, which says a prospective athlete must be accompanied to an institution where he is considering enrollment and also excessive entertainment expenses for prospective athletes during campus visits.

SMU was placed on probation for two years in football for violation of the same article and for extra financial inducement to sign prospective athletes and for offering financial aid beyond that permitted by conference rules.

Grubbs said the SMU football team will be denied the privilege of participating in all post-season contests. He added it will still be eligible for the conference championship.

The conference also reprimanded Baylor and Texas Tech for violation of article 29, section 10 of conference by-laws which limits the number of visits representatives of schools may make to prospective athletes in their hometowns.

Texas must show evidence at the May, 1965 meeting of the conference of a satisfactory revision of its procedures and practices in the recruiting of prospective athletes, the conference ruled.

Texas will be eligible to play in a bowl game.

tion of Champions' tournament this week-end. The winner of his tourney is truly the champion team of the city. Only the first and second place winners of each league are eligible to bowl in this tournament. The men's banquet is to be Tuesday May 12th at 7:30 p.m. at the Coronado Inn. Tickets are \$3.00 per person and we want everyone there.

In spite of the fact that most of the leagues are over there has been some really good bowling; Darrell Lain rolled a 641 series with games of 205, 212 and 224. Forrest Rader rolled a 600 with a 223 game and a 201. Dale Haynes rolled a 249 game, Henry Frazier rolled a 245, W. C. Boss rolled a 244, and Ray Shults rolled a 243 game and narrowly missed a 600 series, Ray's series was a 598. Ray Browning rolled a 220 game, and Harv Hoepfner rolled a 213.

I hope everyone read about the phenomenal bowling by a couple of junior bowlers at the Grand Bowl in Amarillo. Can you imagine a 1372 for six games, that's a 228 average. One of the boys rolled two three-hundred games and a 235 for an 835 series, this was in practice before the match game when the boys rolled the great series.

Can you imagine a man becoming so disgusted with his bowling that he would try to shoot his right hand off, then when his team needs him he can come back after laying off almost all season and bowl his average consistently? Actually Warren Copenhaver really showed good sportsmanship. He had a hunting accident early in the season and injured his right arm pretty badly. Yet when his team needed him for a roll-off he came in and bowled his average.

Welcome to our town a bowler of renown from Oklahoma City. Joe Moevs (pronounced Mays.)

The ladies pictured to the right of the column were the Blake's Food Market team which placed 60th out of a field of 684 in the Texas Womens Bowling Association State Tournament in Class C competition. Final results released this week gave them a total of 2337, a team average of 723. The girls were the only team out of 41 local units that placed at Midland. Other Pampanos who scored in the tourney were Alben Childers and Joy Urbanzky in 113th place in Class C doubles out of 1452 teams; and Sheila Rutledge, 128th out of 2070 in Class B singles. Congratulations to all of them.

West Texas Tracksters Top State Champions

AUSTIN (UPI)—Dash specialists Phil Everett and Marty Mayer paced Kermit to its first Class AAA track championship Saturday to give West Texas teams a near sweep of the 54th annual State Interscholastic Track and Field Meet.

The upper Panhandle town of Booker swept both the 440-yard and mile relays and won the 440-yard dash Saturday to win the Class A crown and Abilene Cooper the AAAA championship to give West Texas schools four of the five team trophies.

Highlight of the two-day schoolboy track and field meet was Dallas Samuel's breaking the national record in the mile relay Friday night with a fine time of 3 minutes, 14.9 seconds. The Samuel effort was the only national schoolboy record shattered, but the meet saw

nearly two dozen conference and state marks equalled or shattered.

In Class AA competition Saturday, Liberty of southeast Texas won the team championship, overcoming another West Texas team, Denver city, by 13 points for the only win by a team in the eastern half of the state.

In Class AAA, Everett won the 220-yard dash, came in second in the 100 and he and Mayer were on the Kermit 440-relay team that came in second behind Brownwood. Mayer won the 440 dash.

Top Individual in Class AAA was Brownwood's Jerry McCullough who won the 100-yard dash, came in second in the 220 and was on Brownwood's winning 440-relay team. McCullough's 9.6 in the 100-yard tied the Class AAA record in that event. The only AAA record set Saturday was Everett's 21.8 in the 220-dash.

Altogether, six new records were established Saturday in Class AAA, AA and B competition and three others were tied. This compares with a total of 14 records broken or tied Friday night in Class AAA and A competition.

Booker, in winning the Class B crown with 50 points, set a new conference record in the mile relay with a 3:23.9 time. William Thompson of Evant also set a new Class B record in the 220-dash at 22.8. Stockdale was second in team totals with 32 points in Class B, followed by Evant and Kemp with 20 each.

Liberty racked up 51-points to take the Class AA crown, with Denver City netting 36½ for second and Lake Highlands next with 36. Edna had 31 and Hearne 30. Class AA records broken Saturday included Tommy Moore of Lockney in the 440 dash at 48.6; Leonard Peters of Seymour in the low hurdles at 19.0; and Jackie Anderson of Rockwall in the 220-dash at 22.6.

Kermit was hard pressed by Brownwood for the AAA team trophy, as had been expected. The Yellow Jackets led with a total of 69½ points to 62 for the Lions.

Everett's first place in the 220-dash clinched it for Kermit, although Brownwood's mile relay team of Letoy Deanda, Ishmal Benavides, James Harris and Jeff Smith took the final event of the meet to edge close to the Yellow Jackets.

"Silly Goose"
The popular notion that geese are "silly" is misleading. Careful observation indicates that most species are, as birds go, above the average in intelligence.

Conservation Notes

Curtis Schaffer, Elmer Balch and Robert Saylor recently used the new SCD Carryall to do earth moving work on their farms. It has a capacity of two cubic yards and has proved to be satisfactory for small earth moving projects. Landowners and operators that plan to use the Carryall should contact Dolores Johnson, Secretary for the Gray County Soil Conservation District.

Jack Bailey staked a pond for construction on his farm north-east of McLean. A livestock pond was staked on the Johnson Ranch west of Alanreed. Pete Seitz constructed a pond on his farm east of Laketon. Jinks Shaw is constructing a dam on his ranch north-west of McLean. There have been several stock ponds constructed in Gray County this year. Due to droughty conditions last year, livestock water was a problem. Landowners that have this problem should make plans now for additional livestock water.

Bailey recently seeded

170 acres of native grass north-east of McLean. Roy McCracken seeded 86 acres on his farm east of McLean. George F. Jackson seeded approximately 40 acres of grass on his farm west of Kellerville. Approximately 1200 acres of old cultivated fields and poor condition rangeland have been seeded to native and improved grasses in the McLean Area this year. Cost-share assistance is available for grass seeding through the Great Plains and ASC Programs.

Several Ranchers have indicated that they plan to spray competitive brush this year. Areas to be sprayed should have good moisture conditions and the brush should be in a healthy state of growth for best results. Native grass should be deferred 90 to 120 days following spraying.

THE PAMPA DAILY NEWS
SUNDAY, MAY 10, 1964

57TH
YEAR

Agriculturally Speaking

By FOSTER WHALEY
Gray County Agent

Mrs. May Muse, Pampa, called to find out who the Game Warden is for this area. She wanted to make application for fish.

Jack Woodford, Miami, Texas, is the Game Warden for Gray and Roberts County.

We supplied Mrs. Muse with an application card for fish from our office. Application is made to the Texas Game and Fish Commission, Austin. We have a few application cards left and are writing for more.

Mrs. Muse also asked what type fish she should apply for. Since we are not a fisherman, our advice isn't very good in this field. We did tell her, however, that channel cat and bass are the most common ones ordered.

Fish from the Texas Game and Fish Commission are delivered from their Dundee, Texas, Fish Hatchery to county seat towns.

Applicants should be very prompt in picking up their fish when notified from the Texas Game and Fish Commission. It is not uncommon for a farmer or rancher to be a few minutes late and find the fish truck has just left. They operate on a tight schedule because of the hazard of having fish die on them, if not delivered at a specific time.

Bindweed Control
We have had numerous calls on bindweed problems recently. These calls have come from both city and rural areas. There are several ways to treat bindweed. Each particular case has to be weighed before you can say which way is best. Generally speaking, if you have them in town, I would stick to a 2-4-d spray job. Be sure and use the Amine form. This does not drift, if sprayed when the wind is not blowing you can spray pretty close to susceptible plants and not damage them. The Ester formulation of 2-4-d or 2,4,5-T should not be used within the city limits because of drift damage to susceptible shrubs or plants.

Wheat Program
Evelyn Mason, Manager, ASC office, Pampa, says that 370 farmers have signed an intention to participate in the 1964 wheat program as of last Friday noon.

Evelyn said it should be pointed out to farmers that unless they have not signed an intention to participate since April 20th they should do so by May 15th if it is their desire to participate. She said some farmers were of the opinion they had already signed this intention some two months ago. They were confusing it with a card that was asked to be returned about two months ago.

Recent legislation has nullified many of the provisions of the older program.

Dryland Wheat
"The effect of Nitrogen and Phosphorus fertilizers on dryland winter wheat were studied at the Bushland Experiment Station under six different cropping system-tillage combinations on Pullman silty clay loam. Fertilizer did not affect grain or straw yields. Effect on test weight of grain, grain protein and grain phosphorus were slight. Soil moisture, rather than the fertility status of the soil was the limiting factor in dryland wheat production." The above is a summary from MP-564 released very recently from the Bushland Experiment Station. Quite a number of Gray County farmers are pouring their money down a rat hole trying to increase yields of dryland wheat with fertilizer. The same is true with fertilizing dryland milo. Fertilizer pays on the dryland of the McLean area. It is a must for the irrigation farmer on the High Plains part of Gray County.

You can take a pretty nice vacation on the money wasted on fertilizing 200 acres of dryland wheat or milo.

Field Crops
Billy Gunter, Agronomist, Extension Service, Lubbock, will be the feature speaker at a meeting to be held in the Agriculture Building at 7:30 p.m., Friday evening, May 22, 1964.

Gunter will speak on methods of obtaining high yields of wheat under both dryland and irrigated conditions. Two 4-H Club teams will put on demonstrations that won them first place in the District One Elimination Contest at Canyon recently.

Many farmers will remember Gunter as the Specialist that did such a bang-up job of telling us how to grow 9000 lbs. of milo per acre in a meeting held earlier — by our Field Crops Committee.

Six of every 10 teenage girls and 4 of every 10 teenage boys have poor diets, according to a national study, and the facts also apply to Texas, according to Extension Service foods and nutrition specialists at Texas A&M University. In an effort to improve diets of teenagers, the Extension specialists are working with county home demonstration agents and County Program Building Committees in many Texas areas where youth diets do not meet recommendations of the National Research Council.

Health Program Heard In Varietas Club Meet

A program on health was presented by Mrs. Lee Harrah and Mrs. Cecil Dalton during a meeting of the Varietas Study Club hosted recently by Mrs. Tilden Armstrong, 1238 N. Russell.

"Is the Nation's Health Endangered by Pesticides?" was discussed from the positive and negative points of view. In presenting the positive view Mrs. Harrah stated that no pesticide should ever be used if the directions on the labels were not strictly adhered to. But that they can be fatal if accidentally misused. Laws require that manufacturers register their labels showing that they will be effective for a specific use and that they are safe for human and animals if used as directed. She stated that nature has been unable to cope with damaging agricultural insects necessitating the use of insecticides in the spraying of fruit trees, some vegetables, cotton and grain crops as well as forests. Because some insects develop a tolerance to some chemicals new formulas are constantly being developed to control them. About 225,000,000 pounds of pesticides are used each year in the United States and the result has brought about the reduction of insect spread diseases such as malaria, typhus, bubonic plague, Rocky Mountain spotted fever and encephalitis. They have also enabled housewives to buy a better quality of fruits and vegetables at reasonable prices.

Mrs. Dalton stated that Rachel Carson in 1962 published a best seller, "Silent Spring," dealing with the question of whether man, through careless use of pesticides was poisoning his environment, killing wildlife and contributing to human illness. Many scientists view the question with concern. In the eastern United States, the spraying of forests for gypsy moth control met with opposition because of harm to the wildlife.

Evidence of destruction of birds, squirrels and other animals has been noted in Midwestern states after airplanes dusting for control of Japanese beetles. Many dead fish were found in Yellowstone Park after DDT had been sprayed. In an attempt to kill fire ants in East Texas, the bird population was reduced by 85 per cent. Since pesticides are poison, improper use has resulted in hundreds of human fatalities. Vigilance of the Food and Drug Administration has kept foods off the market which show presence of poisons above standards set by the group. Meantime, scientists request more

thorough inspection of food, more research on residues and their long range effects on humans and stricter controls over use of chemicals, especially in area-wide spraying.

Present for the meeting were Meses. Tilden Armstrong, Cecil Dalton, H. Price Dosier, S. C. Evans, Lee Harrah, Dow King, J. E. Kirchner, R. W. Lane, C. L. McKinney, Otis Nace, Luther

New Officers Are Installed in Last Meeting of Year for P-TA Council

Pampa P-TA City Council met at Robert E. Lee Junior High School on Tuesday for the final meeting of the school year and for installation of incoming officers and committee chairmen.

The invocation was given by Sam Begert and Mrs. Dan Cotten, secretary, read the minutes. Treasury report was given by Mrs. Paul Turner who stated a balance of \$171.43.

Committee chairmen gave oral reports on activities of the past year.

Two recommendations from the executive board were passed, the first being a recommendation that units rotate the duty of delivering the scrapbooks to the district publicity record book chairman each year.

The second recommendation passed was that P-TA City Council will provide a nursery for both the parliamentary and leadership procedures courses Monday and Tuesday. Each course will begin at 9:30 for two-hour sessions.

Mrs. Melvin Watkins expressed her appreciation for the co-operation she had received during her term as president.

The installing officer, Mrs. Ernest Pulse, newly elected as a vice president of District 19, used bestowing of "gifts" as her theme and handed each of the incoming officers

Gamma Conclave Installs Officers

Gamma Conclave of Kappa Kappa Iota installed newly elected officers during a meeting held in the Citizens Bank Hospitality Room recently. Mrs. Houston Price was named the new president; Mrs. Aaron Meek, vice president; Mrs. D. L. Mackie, recording secretary; Mrs. Perry Gaut, financial secretary; Mrs. Roy Sparkman, treasurer; Mrs. Teresa Humphreys, scrapbook chairman and Mrs. G. M. Walls, flower chairman.

Mrs. Floyd Smith, outgoing president, conducted a brief business meeting before presenting the gavel to the new president.

New by-laws, which had been approved in a council meeting, were read and adopted.

It was announced that the Gammas scrapbook, made by Mrs. Lee Heaton, had won first place at the State Convention in Odessa.

A short report was given on the convention at which Governor Connally was guest speaker. The Governor stressed the importance of school teachers in our changing times.

Mrs. Meek, Mrs. W. L. Parker, Mrs. Otto Mangold and Miss Elizabeth Enns acted as hostesses and served punch and cookies to the following members: Meses. J. E. Gunne, C. W. Stowell, J. E. Tatum, Lee Heaton, M. L. Carter, Houston Price, Dan Johnson, Hugh Sanders, Fred Stockdale, Charles Meech, Perry Gaut, Austin Ruddick, D. L. Mackie, J. R. Poston, H. Bowers, Teresa Humphreys, Floyd Smith, G. M. Walls, L. B. Penick, B. G. Gordon, and Misses Mildred Hogland and Alma Wilson.

Following the installation, Mrs. Wilks presented the outgoing president, Mrs. Watkins with a past-president's pin and a life membership pin and certificate.

Coffee and doughnuts were served by Mrs. S. M. Goodlett Jr., Robert E. Lee hospitality chairman, and Mrs. Harold C. Weidler.

An executive board meeting was held prior to the general meeting.

Ruth Millett Make Retirement Years Best You Have

Do you want to know how to make your retirement years some of the best years of your life?

A reader of this column who retired several years ago and has been "extremely happy" with more things to do than she has time to do offers her own set of rules for living happily after retirement:

1. Act your age. Seek the companionship of persons in your own age group, with interests similar to your own.
2. Do not underestimate youth. Do not patronize the young with such remarks as "When you've lived as long as I have..."
3. Do not be a bore. Give others equal time for talking. Really listen to them, instead of waiting impatiently for a chance to interrupt.
4. When in the company of young people, show respect for their ideas and opinions.
5. Be willing to learn new things, instead of thinking you have the final answer to everything.

However tempting it might be to talk of "the good, old days" don't overdo it. And try not to keep telling the same people the same stories, over and over again.

7. Enrich your life in every possible way — by reading, attending lectures, concerts, and the theater — so that you will have new things to think about and talk about.

8. Try to have a smile and a light, cheerful word for everyone you meet. People of all ages are attracted to the older person who is gracious, pleasant, and who is obviously enjoying life and finding it good.

Quilting Club Has All-Day Sewing Meeting

WHEELER (Spl) — The Stitch and Chatter Club met recently in the home of Mrs. Claude Crouch for an all-day quilting session.

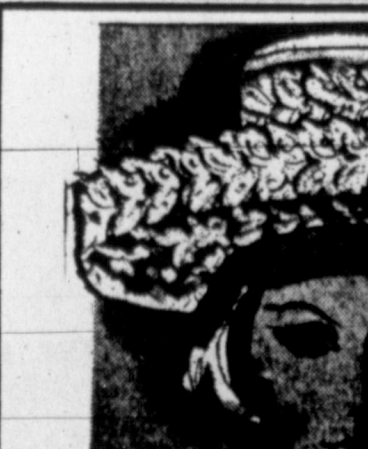

A covered dish luncheon was served at noon. Members attending were Meses. Agnes Trayer, Will Burks, W. E. Bowen, Charles McCarney, Walter Hooker, George Warren and the hostess. Afternoon guests included Mrs. Mildred Jones, Mrs. Roy Ford, Mrs. Nettie Luttrell, Mrs. Frank Noah, Mrs. Loyd Childress and Annie Sivage. Mrs. Mildred Jones will host the next meeting.

Violet Society Invites Public To Plant Show

Pampa African Violet Society members have extended an invitation to the public to attend a meeting and violet show Tuesday from 2:30 p.m. until 7 p.m. in Lovett Memorial Library.

The speaker, Mrs. H. H. Boynton, will use as her subject, "The Relationship of Plants to Man" from 2:30 p.m. - 3 p.m.

Following the address, open house will be conducted until 7 p.m.

Dear Abby.... Mothers Don't Wish For Gifts Depriving Children

By ABIGAIL VAN BUREN

DEAR ABBY: My mother gave me her annual warning speech again this year prior to Mother's Day. It always starts out, "Please don't buy me anything. There's nothing I need." Abby, this hurts me. I KNOW my mother doesn't "need" anything, but it takes the pleasure out of it for me when she is so ungracious as to reject my gift before she even gets it. Please put a word or two in your column letting mothers know that their children enjoy buying Mother's Day gifts, and they should not be discouraged from doing so.

LOVES TO GIVE
DEAR LOVES: Most mothers are fearful that their children will deny themselves something in order to buy a Mother's Day gift. An original poem or letter doesn't cost anything, and is the most cherished of all gifts. When I was a child, my own mother used to say, "Don't buy me anything. I have everything I need." So I would write little poems and verses telling her how much I appreciated her. Only after she passed away did I realize how much they meant to her. She had saved every one.

DEAR ABBY: Maybe I'm wrong, but I always thought that Mother's Day was a day to remember one's OWN mother. I am my husband's sweetheart, companion, partner, and lover but, by Jove, I am NOT his mother! I hope that Bill and I never start calling each other "Mother" and "Dad" like some couples we know. And we certainly don't intend to exchange gifts on "Mother's Day" and "Father's Day."

MY MOTHER'S DAUGHTER
Dear Readers: In my files is this letter, written on Mother's Day by a young prisoner

who was awaiting execution in San Quentin prison:

"A crime was committed. There was an arrest. And a boy was thrown into a cell. The crime was great, the boy was young and the cell was dark. Life seemed at an end and hell became a living thing.

Then one day, as the boy sat weeping, he looked up to see his mother. She was smiling. She opened her arms and said, 'My son, did you think I would not come to you?' Suddenly the boy forgot his terror and found comfort in the magic circle of his mother's arms.

"Through the dark that shrouded the hill of Calvary, a voice cried, 'Son, behold thy mother!' And Mary knelt at the foot of the cross.

"For every son who crucifies himself on pillars of hate, weakness and greed, there at the foot of the cross you will find his mother. Your mother and mine. God bless them, here and beyond. They have known so much pain."

Get it off your chest. For a personal, unpublished reply, write to ABBY, Box 3365, Beverly Hills, Calif. 90212. Enclose a stamped, self-addressed envelope.

Hate to write letters? Send one dollar to ABBY, Box 3365, Beverly Hills, Calif. 90212, for Abby's new booklet, "How To Write Letters For All Occasions."

SMALL HOUSE

You can give the illusion of extra size to a small cottage by installing screening fences at each end of the house where it faces the street. The fences can be higher than usual to give the illusion of being an extension of the home.

The costume will go everywhere this spring. Bill Blass for Maurice Rentner, keynotes vibrant color in a red and multicolor floral print (left). Sleeveless sheath is shown with reefer coat with slightly raised back belt. From Teal Traina, the white cotton brocade (center) is a sleeveless

skimmer with low V-neck, worn under a collarless jacket that buttons high on the bodice. Acid green in a sculptured silk worsted interprets the Larry Aldrich cocktail-dinner costume (right), designed by Marie McCarthy. The slim dress is sleeveless. Boxy jacket is lined in shocking pink.

P-TA Council Sets Study Course Dates

City Council of the Parent-Teacher Association is conducting a two-part study series here tomorrow and Tuesday.

A course on parliamentary procedure will be taught by Mrs. James E. Lewis tomorrow at the Youth Center. Study will be conducted from 9:30 a.m. until 11:30 a.m.

The leadership course will be taught at 9:30 a.m. Tuesday by Mrs. Jean Harris, Aqua Dulce, Tex.

A nursery is being provided for pre-school children.

Mrs. Lewis is the state budget chairman for P-TA and has worked with local units for many years. She has been an officer in local, district and state levels.

Mrs. Harris is the recording secretary for the State Congress of P-TA and is a past vice president.

Officers and chairmen are urged to attend these sessions.

Beat the egg yolks and whites for an omelet separately and mix them just before they are poured into the skillet. Air beaten into the mixture will give a light and puffy omelet.

Keep french dressing in a baby bottle where the ounces are marked and the recipe can be followed easily.

POLLY'S POINTERS Lo, the Handy Clothesline: Here's Another Quirk!

By POLLY CRAMER

DEAR POLLY — Clotheslines are among the handiest things in my house. When out of use they can be out of sight because they are put up in the following manner: Both ends of each plastic clothesline are tied to strong five-inch springs which are hooked on large steel hooks screwed into the beams of the basement ceiling. The lines are brought down to my reach by the weight of the clothespin bag. When clothes are removed from the lines, the lines spring back into their neat looking places across the ceiling. As I do not have a dryer—this saves me the dreaded job of putting up clotheslines each time I wash.

I wear a shower cap when washing dishes if I have a special hairdo which becomes limp from the steam from hot water. I also wear the shower cap when I bathe the children. It has saved many a hairdo. Please extend my thanks to the other contributors whose hints have shortened my household chores.

—ANN
DEAR POLLY — Stitch your mattress pad to an old contour sheet and it will not slip when you make the bed.

No-longer-needed baby carriage pillowcases make good covers for ice packs or hot water bottles.

Often foam rubber is awkward to cut neatly with scissors but if the bulk of the piece is compressed tightly, by being pressed down with a flat board, the size strip you need can be sliced easily with a long-bladed, sharp knife.

—MRS. C. M. M.
DEAR POLLY — A paper plate cut in half makes a good "table crumber" set. Use one half for the brush and the other half to catch the crumbs.

M. E.
DEAR POLLY — When I pack my husband's shirts in a suitcase, I fill the collar areas with rolled up socks to keep the collars from wrinkling. When he packs a dirty shirt in his suitcase he first lays it out with the front edges together but unbuttoned. Then he folds one-third of the shirt on each side toward the center and next starts at the collar and rolls the shirt tightly. It makes a compact bundle and saves space.

—MRS. R. B. D.
GIRLS — You have noticed that soiled clothes usually take more space in a suitcase than clean ones, so it pays to

YELLOW ROSE TEA PLANS — As the time to reveal Beta Sigma Phi's "Woman of the Year", nears, committees in charge of the tea in her honor May 24, are busy making plans. Left to right, Mrs. John Longford, Mrs. James Trusty and Mrs. Kent Mitchell try to decide just which punch recipe should be used.

Bridal Shower Honors Joyce Hoobler Thomas

CANADIAN (Spl) — The Mary Martha Circle of the First Christian church entertained in Fellowship Hall recently with a bridal shower honoring Mrs. Joyce Hoobler Thomas.

The bride's chosen colors of red and white were carried out in the decorations and refreshments. The serving table was decorated with a centerpiece of red and white roses. Refreshments of red punch, white cake decorated with red roses, red mints and nuts were served. Suzanne Morris presided at the punch bowl.

Mrs. Thomas and her mother, Mrs. Arleith Hoobler, were presented with corsages of red and white carnations as was Mrs. Homer Thomas, mother of the bridegroom. Joyce was assisted in opening and displaying her gifts by Ethel Miller and Sandy Thomas.

Over 100 persons attended or sent gifts.

Members of the circle acting as hostesses were Meses. Gilbert Dickens, Myrl Powers, Wayne Baker, Arden Ranson, John Whitsit, Royce Jones, J. D. Van Diver, Danny Urschel, Warren Hill, Rev. Massey, Jamie Reid, Jake Keim Jr., Jerry Johnson, Jim Parsons, George Morrow and Max Stapp.

Couple Takes Wedding Vows In Panhandle Baptist Church

PANHANDLE (Spl) — The First Baptist Church of Panhandle, was the scene, May 3, of the wedding of Miss Jolene DeSpain, daughter of Mr. and Mrs. O. J. DeSpain of Panhandle, and Donald J. Hughes, Amarillo, son of Mr. and Mrs. Jeff D. Hughes of Bradshaw, W. Va.

Rev. Keith McCormick, minister of the church, read the double-ring vows before an arch of huckleberry leaves, flanked by vases of white hydrangeas.

The Doctor Says

By WAYNE BRANDSTADT
Obesity is generally regarded as a serious health hazard. One pathology professor was fond of saying that carrying around a lot of excess weight was an athletic event. But he added sadly, it is not a "fun" sport.

He would then demonstrate an enlarged tired old heart with the resulting hardening of the arteries. Being overweight not only shortens life; it also makes it harder for your doctor to detect cancer and other tumors under the thick layers of fat.

What leads some people to eat more food than they need day after day is a subject scientists are still studying. One authority has classified problem eaters into several groups.

The obese person who comes from a family of over-eaters usually does not have any guilt feelings about his size. He enjoys eating and sees no reason for wanting to reduce. A child brought up in such an atmosphere merely follows the example of those about him.

The next group includes the true gourmet who eats slowly and rarely snacks between meals. His problem is not acute, and his chances for reducing are usually good. The icebox raider who gets up at night for a little snack so he can go to sleep again and the compulsive all-day - long nibbler are usually victims of emotional tensions. Trying to get them to reduce is a hard job.

Finally, there are those who weigh 300 pounds or more. They probably have emotional problems too. But they refuse to air them and they stubbornly resist reducing.

Studies have shown that if a fat person is allowed to eat all he wants, he will not gain weight but will maintain himself at a certain level.

Mrs. Bobby Skidmore, at the organ, played nuptial selections before the ceremony and the traditional wedding processional and recessional. She was accompanied by Miss Paula Kay Eagle, who sang, "Because", and "I Love You Truly" preceding the ceremony, and closed it with "The Lord's Prayer."

Acting as matron of honor for her sister was Mrs. E. A. Waters, and Miss Sharon Chado was maid of honor. Both wore blue peau de soie street length dresses made with full skirts, fitted bodices with cap sleeves, and rounded necklines. They wore tulle veils topped with a blue rose, and carried a long stemmed red rose with white streamers.

Serving as best man was Jackie DeSpain of Canyon, brother of the bride. Ken Fuller of Amarillo, was groomsman.

Ushers were Carey Worrell, Bobby Worrell and Jimmy Paul Worrell, all of Altus, Okla., cousins of the bride. Flower girl was Michelle Waters, niece of the bride, who wore a full-skirted blue organza dress with white shoes, gloves, and white floral headband. She carried a white basket with red rose petals. Johnny Stovall was ring bearer.

BRIDE

Given in marriage by her father, the bride wore a gown of white chantilly lace over satin, with a fitted bodice and modified sabrina neckline, which was outlined with sequins and pearls. The long fitted sleeves of lace came to points over her hands. The bouffant skirt, sweeping into a chapel train, was draped in venetian style over wide ruffles of pleated tulle, caught at intervals by sheer butterfly bows of tulle. She carried a colonial bouquet of stephanotis, centered with a white orchid, which was showered with satin streamers, knotted with stephanotis.

RECEPTION

Following the wedding a reception was given in the War Memorial Building. The bride's table was laid with an ecru lace cloth over blue satin. The centerpiece of white carnations in a crystal bowl was flanked by white candles in crystal holders. Other table appointments were of crystal and silver.

Mrs. Skidmore played soft music on the piano during the receiving hours, while Mrs. Carey Worrell registered the guests.

Serving the three-tiered wedding cake, which was topped with a miniature bride and groom, was Mrs. Billy Van Crawford, serving the

punch and coffee were Mrs. Bobby Worrell and Mrs. Charles Hebard.

Others in the houseparty were Mrs. Becky Worrell, aunt of the bride, and Mrs. Oscar Tidwell, cousin of the bride, both of Altus.

For a wedding trip to West Virginia and Washington, D. C., Mrs. Hughes wore a pink linen dress with pink and white accessories and the orchid from her bridal bouquet.

After May 17, the couple will be at home at the Golden Spread Trailer Court in Amarillo.

Mrs. Hughes was graduated from Panhandle High School with the class of 1960 and attended West Texas State University, Canyon. She is now employed at Amarillo Air Force Base as secretary

to Lt. Col. Hodges, department of Field Training, 3320th Technical School.

Hughes graduated from Jager High School, Jager, W. Va., with the class of 1960 and is presently stationed at Amarillo Air Force Base with the rank of Airman First Class. He will be discharged later this year.

**Farber-Pair
Vows Repeated
In Erick Church**

GROOM (Spl) — Wedding vows were exchanged April 10 by Miss Patricia Farber of Erick, Okla. and Lester Pair of Groom.

The ceremony was performed at the Church of Christ in Erick by Rev. Reggie Nails of Little Rock, Ark., former minister at the Erick church.

The bride is the daughter of Mrs. Elmer Farber and the late Mr. Farber of Erick. The bridegroom is the son of Mr. and Mrs. W. A. Pair of Groom.

The bride wore a white dress of satin covered with white lace, featuring a low neckline. A white satin headband held her light net veil.

Miss Sue Boyd of Erick served as maid of honor and Ernest Weller served as best man.

Ushers were Hershel Farber of Pampa and Ed Pair of Groom. Jane Eysen and Anita Tyson were candlelighters.

After the ceremony a reception was held in the church.

Following a short wedding trip to Weatherford, Okla., the couple is at home in Groom.

Mayonnalse proves heady stuff for patrons of a Long Island (N.Y.) beauty salon. The spread is mixed with a permanent wave solution and massaged into the scalp to recondition hair. It proved especially effective for bleached blondes.

Changing the color scheme in this kitchen is a matter of replacing plastic fronts of enameled steel cabinets. Panels slide into frame.

SUMMER WEDDING

Miss Patricia Harrington

GROOM (Spl) Mr. and Mrs. W. J. Harrington Jr. of Coffeyville, Kan., announce the engagement and approaching marriage of their daughter, Patricia Ann, to Ernest G. Hermesmeier, St. Louis, son of Mr. and Mrs. C. F. Hermesmeier, Groom. The wedding will be held June 11 in the Holy Name Catholic Church at Coffeyville.

USE WOOD

You can use wood in retaining walls providing you first treat it with creosote or other chemicals to prevent rot. Douglas fir timbers when treated make good retaining walls.

Watch for blouses cut identically to your suit jacket in detailing. Fashion seers say that's what you'll be wearing this fall. Only the fabric will be different — wool jacket, silk blouse that looks like the jacket, for example.

Leather shoes for spring are light in color, airy in silhouette, designed to complement the soft, romantic look in fashions. Criss-cross sandal strap (upper left) in pastel patent, designed by Herbert Levine, has set-back chunky heel. New spectator look (upper right) from International Shoes is in pink grained leather and has open sling at the heel. Sling walking shoe (lower left) is a Newton-Elkin design in pale smooth leather with simulated buckle effect. Pallizio's ankle strap for late day is in lustrated leather, set on mid-high slender heel.

Shift into warm weather with a wardrobe of versatile and comfortable shift dresses. New wash-and-wear fabrics of Vycron polyester and cotton insure daylong freshness. With belts or without them, with accent scarves or not, in A-line or two-piece look, these go - everywhere shifts are ideal for resort and town wear.

Remove rust from leaky faucets with vinegar. Keep meat from sticking to barbecue bars by rubbing the grill with suet or salad oil.

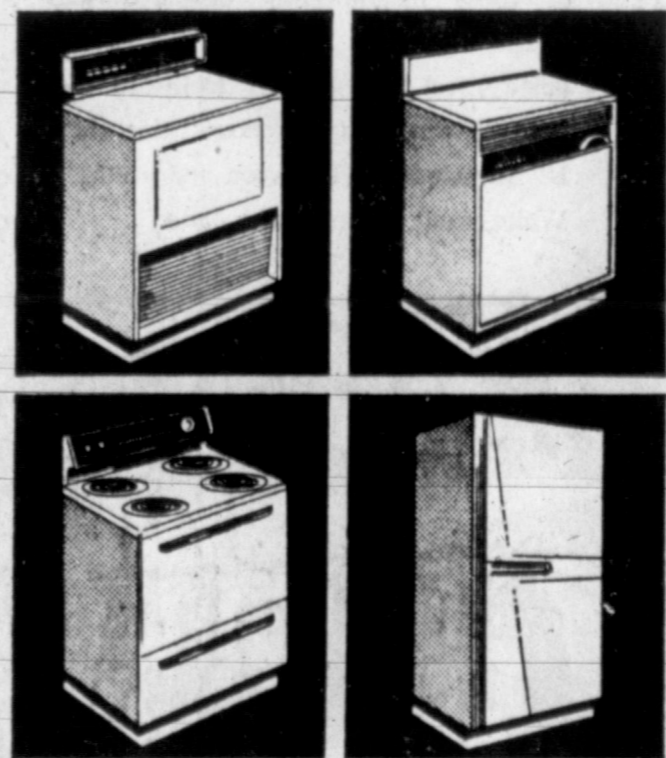

Use thick, dry suds to clean mattresses. Beat a handful of detergent with water to form a meringue-like froth. Apply with a sponge and set an electric fan to speed drying.

TEA HOUSE

A tiny and elegant rest area in a yard can be built of 2x4 and 2x2 inch Douglas fir lumber. A platform of 2x4s set on 2x4 framework will support a lacy wall of 2x2s spaced six inches apart which in turn will support a simple shade roof.

The custom-size dress can now be found in high-fashion styles. These designs by Young Viewpoint feature the understated, elegant simplicity apparent in all fashions for spring. Two-piece dress (left) in new green-haze, linen-like weave textured pure silk has subtly hidden pockets in the front panel. The raglan-sleeved, circlet neckline over-

blouse is figure flattering. Turquoise, rayon-silk costume (center) will take you from luncheon on to dinner. Jacket shelters a modified A-line dress. Easy-care two-piece knit (right) is ideal for traveling. Overblouse, with self-flower accent, is worn over a hip-slimming sheath skirt.

Great Government Women Discussed in Meeting

Mrs. Homer Johnson and Mrs. Holt Barber presented the program for the Tuesday meeting of Twentieth Century Forum Club conducted in the home of Mrs. John B. McCree.

Using a reference book, "Madame Ambassador, The Life of Vijaya Lakshmi Pandit", by Anne Guthrie, Mrs. Johnson said, "Vijaya Lakshmi Pandit is portrayed both as an individual and a diplomat with insight, warmth and vitality. She and her family, and India's emergence as an independent nation, are an intertwined story."

Swarup Kumari Nehru, sister of Jawaharlal Nehru, was brought up in a cosmopolitan home with all the privileges of wealth and position. Then, slowly, as India's struggle for independence became more intense, the Nehru's way of life changed drastically. All the resources of the household and family were devoted to the cause of a free India. Through years of intermittent imprisonment and heart-breaking sacrifices, she and her family continued to live for their beliefs, until full freedom was granted India in 1947. Mrs. Pandit has served her country and the world in many positions, Indian Am-

assador to the United States, president of the Eighth General Assembly of the U.N. and India's High Commissioner to the Court of St. James. "Perle Mesta's own life has been colorful and exciting as her succession of extraordinary careers," said Mrs. Barber in introducing her review of the book, "Perle - My Story", by Perle Mesta with Robert Cahn. "Diplomat, ranch owner, world famous social leader, crusader for women's rights, worker for the Democratic party, she was playing a major role in business, society and politics. "From girlhood in the Oklahoma home that her father ran in the manner of a feudal baron, through her brilliant social duties as unofficial hostess for the Truman administration, she met many interesting and important people. As Minister to Luxembourg in 1949, she ran the legislation in such a way as to inspire a composer to write a musical comedy entitled "Call Me Madame". Whether fighting for a women's rights or planning parties for presidents, Perle Mesta shows her common sense, dedication and boundless spirit of adventure."

Members present for the meeting included Mrs. Frank Kelley, Joe Franklin, Harold Barrett, M. McDaniel, Audrey Steele, William Ellis, Calvin Jones, John Sweeney, Arthur Teed, E. J. Dunigan, James Harris, William Fraser, Homer Johnson, Holt Barber and the hostess.

ANNOUNCEMENT

Miss Marie Mills

GROOM (Spl) Mr. and Mrs. Guy Mills of Clarendon announce the engagement and approaching marriage of their daughter, Marie, to Kit Littlefield, son of Mr. and Mrs. Jim Littlefield, Groom. The marriage will take place June 5 in the First Baptist Church of Clarendon. Friends of the couple are invited to attend.

Manners Make Friends

Bus boarding speeds up if all have correct change.

In spring, a young man's fancy may turn lightly to thoughts of love, but if you really want to make him whirl, give him yellow togs. This suggestion comes from Ron Postal, president of the National Council of Men's Fashions in Beverly Hills. "Warm colors," says he, "increase a man's heartbeat — and yellow does the most in lifting his spirits."

Missionary Groups Hold Studies of City Church

Women's Missionary Groups of First Christian Church met recently for studies and programs. The Meers Group met in the home of Mrs. Lloyd Kuntz. Mrs. Frank Hogsett and Mrs. George Ingram were hostesses. The program entitled, "Alma Mater," was led by Mrs. Cecil Deist. Mrs. Lester Alam conducted the business meeting and Mrs. W. G. Kinzer was in charge of the devotional. The Ross Group met in the church with Mrs. Glen Newman as hostess. Mrs. Carl Barber led the group discussion on the Campus Ministry. Mrs. Murray Castleberry conducted a short business meeting. There were seven members present. The meeting closed with the C.W.F. Benediction. The Hobgood Group met in the home of Mrs. Bill Taylor. Mrs. Roland Dauer, leader, opened the meeting with prayer and conducted a short business meeting. Mrs. Frank Grantham, program chairman, gave the devotional. The

lesson on the Metropolitan Church was given by Mrs. R. A. Mack. Mrs. Ray Williams, service chairman, reported on the shut-ins to the seventeen members attending. The Musgrave Group met with Mrs. D. E. Bohlander. Mrs. Vernan Hall, study chairman, gave the program on Campus Ministry. The devotional, taken from Proverbs, was given by Mrs. Glenn Nichols. Mrs. Lester Mason, leader, conducted the business meeting. Fifteen members attended. The Hill Group met in the church Youth Building. Mrs. Lewis Meers was hostess. The lesson, taken from the study booklet, "Church Spires and City Skylines," was given on the Campus Ministry. Mrs. Homer Kessinger led the discussion. Mrs. G. I. Harkrader gave the devotional taken from the "Life of Peter Marshall." The business meeting was directed by Mrs. Harkrader. Seven members attended the study. The Sharp Group met in the Youth Building of the church.

The Pampa Daily News

A Watchful Newspaper
EVER STRIVING FOR THE TOP O' TEXAS
TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities. We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself; no more, no less. It is consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

There's Pride in Profits

Many Americans in all parts of the country have been breathing deeply and gratefully of late. We think of that lovely breeze of invigorating fresh air from up around St. Paul where the Macalester College Bureau of Economic Studies and the University of Minnesota. Graduate School of Business Administration have sponsored a three-day joint conference — "Understanding Profits."

For instance, from the Macalester campus on opening day came the word that: "It's only recently become respectable for businessmen in the USA to make a profit." John D. Lockton, treasurer of the General Electric Company, broke this news to reporters following his address on "Profits and the Future for Industry," in which he stressed the "crying need" for public awareness of how business works — a clear understanding of how the opportunity to make a profit spurs industry to better products at lower cost. To help meet this need, he said, his company sponsors more than 300 scholarships for high school and college teachers of economics.

The Retarded Child

A handicapped child is not necessarily found in an iron lung or a wheel chair. He may show no outward sign of a handicap at all. For his handicap is not outward but inward, not physical but mental — mental retardation.

A Long Story

To whom, and to what, do you pay taxes? The quick answer is the federal government. But that isn't the end of the story — not by a very long shot.

Face the Fact

There is one school of thought which thinks it would be a good idea to placate demands made by labor groups by increasing and broadening fringe benefits instead of raising wages. This, should it become a common practice, would be a perfect example of taking money out of one pocket instead of another and calling it a saving. For the payments made to labor, no matter what they are called or what their form, must all come out of the same till. And that till is represented by the buyers of the product or service involved.

—providing only that making it will make money for him. People who fear high profits have little faith in competition, he declared, citing the case of GE's cordless electric toothbrush — which had 32 imitators within two years!

Robert C. Tyson, chairman of the U.S. Steel Finance Committee, described our profit and loss system as the "automatic guarantee of efficiency and guardian of progress." To tamper with it, he said, is "economic idiocy."

U. S. Foreign Policy Is Big Issue

By BRUCE BLOSSAT
WASHINGTON (NEA) — By a substantial margin, editors across the United States believe general foreign policy is the principal issue in the 1964 presidential campaign.

Of the more than 300 editors who responded to NEA's spring survey of its hundreds of newspaper clients, 248 or 82.4 per cent say foreign policy in the broad is the big thing.

Others replies reveal that many editors also fasten on various specific aspects of foreign affairs. Altogether the editors settle on 17 issues as of some importance in this election year.

Allen-Scott Report

ROBERT ALLEN

PAUL SCOTT

WASHINGTON — Former President Eisenhower is being asked to reciprocate a notable political favor by Ambassador Henry Cabot Lodge.

In the spring of 1952 Lodge, as spokesman for a number of prominent Republicans, issued a "call" to Eisenhower to relinquish his post as NATO commander and return to the U. S. to actively campaign for the presidency.

Now, 12 years later, the Lodge-for-President Committee wants Eisenhower to make a similar public appeal in Lodge's behalf.

It's Up To You

Sukarno's renewed and continuing threats to crush the peaceful state of Malaysia again emphasizes the terrible wrong against civilization which our country has perpetrated in bringing this left wing tyrant to power and supporting him with money, food, and arms to continue his depredations against civilized communities.

Question Box

QUESTION: "Can a newspaper that has convictions as to what will improve the well-being of mankind on this earth be consistent, by paying for, and publishing columnists who advocate any form of state communism and will not answer questions about what they are advocating without evasion or contradiction or define stealing?"

ANSWER: We feel that the newspaper could not be consistent and be publishing something that they thought would be harmful to their fellow man. However, if the columnist could and would answer questions about the state communism which he is advocating without evasion or contradiction and be able to define stealing, certainly the newspaper would be glad to publish that kind of a columnist.

The reason that those who advocate any form of state communism cannot rationally answer questions is because there are an infinite number of ways of stealing, an infinite number of ways of harming their fellow man. There is only one way of benefiting your fellow man and that is by rendering a service to your fellow man which will benefit him and he will give you in exchange something that will benefit you.

San Antonio Planning 'Hemisfair' for '68

SAN ANTONIO (UPI) — Let New York take care of the world with its fair, San Antonio will handle the hemisphere.

San Antonio is building a \$75 million fair for 1968 and will coincide with the 250th anniversary of Santa Ana, the 17th largest city in the country.

Help Launch Project
Rep. Henry Gonzalez, William R. Sinkin, a department store operator, and Mayor McAllister got the fair going in 1963. Sinkin now is president. Gonzalez and McAllister are honorary co-chairmen.

Even Dingwall, chief administrative officer of the highly successful Seattle Fair, was brought in at \$40,000 a year as executive vice president of Hemisfair.

James M. Gaines, vice president of Southland Industries and of WOA! television and radio, is first vice president of Hemisfair. Gaines, a former New York network executive, is amazed.

"I have been here 10 years and this is the only thing the people have been of one mind on," he says.

Plastic Aids Growers of Top Tomatoes
Tomato growers who have not used plastic mulch can prevent fruit rot on their tomatoes by staking or by placing newspapers under vines to prevent contact with the soil, reports Gray County Agent Foster Whaley.

Staking tomato plants sometimes produces larger, better quality fruit. It also keeps them cleaner and makes plants easier to spray. However, staked tomatoes are likely to have more cracking, blossom-end rot and sunscald, Whaley said.

Placing whole sections of newspapers under tomato vines is an easy way to prevent fruit rot. Whaley suggests putting papers down after the vines are heavy enough to keep them from blowing away. Plastic dry-cleaner bags can be used the same way, he said.

When staking tomatoes, place sturdy, five-foot stakes about one foot in the ground. Set them about four inches from the plant and avoid cutting tomato roots when setting them. Use of soft cord or strips of old cloth will lessen injury to plants when tying them, Whaley said.

A good method of tying plants to stakes is to loop the material around the main stem; then cross it between the stem and the stake to form a figure eight. Tie it back of the stake.

If pruning is necessary, Whaley says to break off shoots that grow from the crotch formed by a leaf branch at the main stem. Break the shoots, rather than cutting them, because a knife may spread disease. Whaley said. When pruning, shoots should be removed before they are three inches long.

Wall Street In Review

NEW YORK (UPI) — E. F. Hutton & Co. says that with corporate profits and the gross national product heading upward a stock market decline does not seem likely in this atmosphere.

As the market moves up in price, the brokerage firm says, "the resting periods might expand both in time and extent (and) these interruptions can easily be mistaken for a reversal of the major trend."

Hayden, Stone, Inc., asserts that setbacks such as those which have occurred after each new high so far "should be considered perfectly normal and in no way upsetting to the primary upward trend." The advisory letter says that history shows that the market often needs a "correction" in late April and during May to consolidate a base for a later summer rise.

Grand Jury Indicts Three City Youths

Three Pampa teen-agers, arrested and charged last month in a series of thefts and burglaries in which officers said some \$6,000 to \$10,000 in merchandise was taken, were indicted by the Gray County Grand Jury Friday.

Five true bills, naming the three boys jointly in each, were returned after the jurors listened to evidence presented in the case by District Attorney Bill Waters.

Charles Wayne Tyler, 18, Kenneth Rogers, 17, and Danny Bond, 16, were named in the indictments, each charging burglary of businesses either owned or managed by H. M. Luna, B. M. Jones, F. E. Bull, Tom Glitsch and Louis Lenz.

The indictments were part of 14 returned by the jurors following a full day's session, which began at 9:30 a.m. Friday.

District Attorney Waters said efforts to bring the cases before district court within the next two months would be made. One of the youths is a juvenile and can not be tried before his 17th birthday, which is next month.

Other indictments included: J. T. Huffman, forgery, a check cashed on Feb. 17 at the Minit Mart No. 5 on Feb. 17, 1964.

William Wayne Roe, burglary, residence of the Bob Parker family, on Jan. 19, 1964.

John Mantz, forgery, check written on Darrell Conklin on Feb. 21, 1964.

Billy R. Lyles, forgery, check cashed at the IGA Super Market on March 6, 1964.

M. L. (Leo) Fly, theft by false pretext in the taking of a new Chevrolet from the F. M. Culbertson Motor Company by cashing of a bogus check in the amount of \$3,300 on Dec. 22, 1963.

New Books on Shelves At Public Library

New books on the shelves of Lovett Memorial Library this week are:

FICTION

A Fine Madness — Elliott Baker; a first novel by a veteran of World War II who saw service in the infantry and has written a novel of "energy, vigor, quest, that offers people to live with instead of characters to read about." Winner of the Putnam \$10,000 award.

Take Heed of Loving Me — Elizabeth Gray Vining; taking place amid the pageantry, excitement, and intrigue of Elizabethan and Jacobean England, this novel is the love story of the great poet, John Donne and Anne More, who defied her father and risked her inheritance to marry the man she loved.

Trog - Suited Fighters — Joseph Brennan; Larry Larkin, former liegward, finds a new career as a frogman with the Underwater Demolition Service in the Asiatic Theater during the Korean conflict.

The Blind Heart — Storm Jameson; the author sets the stage for a wry comedy in which a good man, a vain woman, and a young rogue play out a telling commentary on life's absurd pitfalls.

The Far Side of Home — Maggie Davis; here is the other side of "Gone With the Wind" — a novel that will touch every reader with its beautiful simplicity, and its vivid picture of a young man and woman, striving to do what is right for themselves and for each other amid the ugliness of war.

ing to do what is right for themselves and for each other amid the ugliness of war.

The Reichstag Fire — Fritz Tobias; when the Reichstag went up in flames in 1933, a flood of conflicting reports was deliberately launched to cause a tangle of distortion. The author, a prominent German citizen, analyzes the incident once more to reveal a truth not often recognized.

A Time For Action — Lyndon B. Johnson; composed of speeches and writing by Lyndon Johnson. The selections were made — with his authorization — shortly after he became President of the U. S. They show him in action as Senator, Vice - President and President.

The Destruction of Dresden — David Irving; the full night-mare story of the most successful and indiscriminate annihilation in human history told in a book that rips the veil of secrecy from one of the most controversial episodes of the war.

Our Presidents — Richard Armour; a tongue-in-cheek verse history of White House tenants from GW to LBJ. Contained in this book are portraits in rhyme of all our Presidents that will instruct youngsters and entertain parents.

What is Poetry? — John Hall Wheelock; the author discusses the relationship between poetry and science as twin forms of knowledge dealing with different aspects of reality.

Buffalo to Appear At Cowboy Reunion

STAMFORD (Sp) — "Hackberry" Johnson, who started in the rodeo business in Arizona Territory in 1909, announced today he was bringing to the Texas Cowboy Reunion, in Stamford his herd of Buffalo, purchased from the federal government and Reynolds Cattle Co. "These buffalo are to be offered the regular cowhands who show up at the Stamford Reunion as bucking stock. "Hackberry" said — they are both bulls and cows; but the cows are every bit as mean as the bulls.

"I first came to the present Stamford area in 1896," he said, "when my father operated the Lucas ranch running 7 Bar brand near present Paint Creek. We paid two cents per acre grass lease, but it was too high and we moved to Nolan County free range."

"I have furnished special riding and bucking stock since the Cattle Raisers Association show in El Paso in 1919, but these present buffalo are the meanest and buckinest stock I have ever handled — and to see 'em in action is worth while for any Western minded folks. I lost my right leg in 1906 — and as a cowboy got only around \$25 per month — so it was mighty hard for a wooden legged man to make any money. I started to workin' buckin stock to keep from havin' to live on \$15 a month."

"Hackberry", at 76, says he feels he is a regular Old Timer, and he intends to enjoy the company of the Old Timers' organization at the Cowboy Reunion, as well as his work with bucking and fighting buffalo. From the Cowboy Reunion, he takes his buffalo to the Inter-Tribal Indian Ceremony at Gallup,

N. M., where from 16,000 to 20,000 Indians from 16 or more tribes, meet each year.

Long Bargaining Seen Between US and France

GENEVA (UPI) — United States trade negotiators believe now that France's attitude at the Kennedy round of tariff-cutting negotiations foretells some long, hard bargaining between Washington and Europe.

While the optimistic objective is for agreement on a new tariff program by mid-1965, some negotiators felt the talks could drag on to 1966 or 1967, depending on the course adopted by the European Common Market and by France in particular. Expert committees settled down today to discussion of outstanding problems following the conclusion Wednesday of ministerial meetings which formally opened the negotiations Monday.

The Kennedy round, which is named for the late President Kennedy because his 1962 Trade Expansion Act set the pattern for the negotiations, is intended to stimulate international trade through tariff cuts and strengthened cooperation between the United States and Europe. The negotiations are under auspices of the 42-nation General Agreement for Tariffs and Trade.
