GOSSIPTOWN, USA DEAR GOSSIPTOWN: I'd send her a "get well" card!

DEAR ABBY: I can't expect you to solve my problem, but I am interested in your opinion. Our school has installed a swimming pool, and the boys have been informed that they must swim nude. Some of the boys did not approve of this, but they didn't object because they were afraid of the coach. (My son was one, that's how I know.) I think this should have been decided by the parents as it is a public, coeducational school built with taxpayers' money. What do

TAXPAYER DEAR TAXPAYER: I agree that this decision should have been left to each parent. But our boy had better overcome his shyness about nudity in the presence of other boys or he is likely to be miserable much of his life.

DEAR ABBY: My husband says I am unreasonable because I do not approve of his having one night a week "Out with the boys." Before you tell me off I want to explain what his "night out with the boys" entails. First of all, these "boys" have no names or addresses. They just "burn around." I wouldn't object if he went bowling with the boys, went to a movie or had dinner with the "boys," or even if he played cards - if I knew the "boys" and where they went. I think you are beginning to get the picture. How do I handle this? I hate to call it quits and throw him

Plymouth rocks racing world with sweep in Daytona "500"

in competition, there is no higher average speed for 500 miles than the 154.334 m.p.h. set by a competition-equipped 1964 Plymouth in winning last month's Daytona "500."

Adding to that glory is the fact that two more 1964 Plymouths finished 2nd and 3rd for a decisive Plymouth sweep. That suggests that Plymouths were not only the swiftest cars in the competition, but that they're built to stay in there all the way.

For the millions of racing fans and high-performance enthusiasts across the country, Plymouth is proud of its "high speed" victory at Daytona.

Plymouth beats Ford & Chevrolet in tests of showroom V-8s

This competition was more "your speed." At Plymouth's request, an independent testing company bought and compared showroom models of Plymouth, Ford and Chevrolet.

The cars were comparably equipped standard V-8s -cars people buy. And the tests were of "things people buy a car for"-acceleration, handling, braking, and gas economy.

In test after test. Plymouth accelerated best, handled best, braked best, and got the best gas mileage. This is the kind of competition Plymouth most likes to win. "High speed" or "your speed," these 1964 Plymouths are tough to beat!

The Fabian Society, whose perhaps most famous memper was George Bernard Shaw, is a socialist society founded in 1884 by a small group in London who aimed "reconstituting society according to its highest moral possibilities." The name is derived from the Roman general Fabius Cunctator, whose elusive tactics in avoiding pitched battles secured his ultimate victory over stronger forces.
