FOUNDATION EXPLAINED — Purpose of the Pampa Industrial Foundation, Inc., investment campaign to raise \$200,000 was explained Friday by Fred Neslage, right to Harley Seuser, next to Neslage, as Joe Fischer, Pampa realtor, watches with interest. Seuser, a Chicago representative of the National Association of Real Estate Boards, had nothing but high praise for the effort being shown by Pampa leaders in the drive. Seuser spoke to the Pampa Board of Realtors while on tour of the Southwest.

National Realtor Praises Industrial Drive Action

1,500 repossessed homes are cause of move-outs in the past year or so.

The effort being displayed in Pampa should be a true example of a desire to grow with the times and the rest of this area should benefit by what is being done here," he said.

Seuser said he had learned that Texans were not over-selling the state by letting the people in the North or East know that things are done down here in a big way.

"Many people don't know what is the true Texas until they come down and visit the people. The one thing that I find most striking is the friendly, easy-going manner that everyone has in business dealings," Seuser explained. "This is one trait that many states can't claim for their natives."

Seuser said he was glad to see the Pampa Real Estate Board was backing the Industrial Foundation, program because the success of the drive would "make the land business more stable."

He also declared that more people were finding out daily that real estate work is a profession of some skill and the field was becoming more attractive as a result.

"There are more and more young people getting into realty work each year," Seuser commented. "Part of this is caused by the fact that states have placed standard of requirements

Injured US Flier Freed By Reds; Others Held

U.S. Rules Cuba Must Seek Court Action on Fliers

Fidel Seeks Extradition of Pair Who Flew Helicopter to Florida

WASHINGTON (UPI) — The State Department said Saturday that Cuba must go to the U.S. courts if it wants to extradite two air force defectors who flew to Key West, Fla., Friday in a hijacked Russian-built helicopter.

But officials said the United States had agreed to return the body of a third Cuban, killed when the defectors made their escape, along with a fourth man who said he wanted to return to Cuba.

The department announcement followed Cuba's note Saturday demanding extradition of the two air force defectors. It charged them with "desertion, kidnapping, treason, and murder."

The note was delivered by the Czechoslovak Embassy, which handles U.S. diplomatic relations with Cuba.

In the note, Cuba also asked for the return of the helicopter, the body of the pilot, and the fourth man who said he would not seek asylum. State Department officials said it had not been decided whether the helicopter would be returned.

The State Department said it had sent word through Swiss diplomats in Havana that it had a plane standing by in Miami to carry out the mission when the Cuban government gave the necessary landing clearance.

As for the two air force men who chose asylum, the department said the only way Cuba could seek their extradition would be by a legal decision in the U.S. courts. Extradition however, is not normally granted for so-called "political crimes." Fleeing from one country to another is normally considered a political crime.

The United States has an extradition treaty with Cuba which apparently still is in effect. But the two countries have no diplomatic relations.

Single Auto Tag Odd Theft Subject

April 1 is deadline for purchasing new Texas automobile license plates.

But James R. Braxton of 1117 E. Darby found himself in need of a 1963 tag Saturday morning when he went out to his automobile.

Braxton told police Capt. Denny Roan that the tag — just one of the two plates — on the rear of his car had been stolen sometime during the night.

The tag, AV 3283, was bolted down tight enough that it could not have fallen off, Braxton declared, therefore it had to be stolen.

Police, like Braxton, are wondering just what use a lone 1963 Texas auto tag would be to anybody.

Soviets Silent on Pair Termed 'Spies'

By WERNER ZWICK

WIESBADEN, Germany (UPI) — The Soviets Saturday freed an injured American flier shot down in an RB66 reconnaissance jet bomber March 10 but remained silent on his two companions the Russians said were on a "spy flight."

The injured flier, 1st Lt. Harold W. Welch, 24, of Detroit, navigator of the plane, was brought to West Germany by ambulance from a Red army hospital at Magdeburg and flown to a U.S. Air Force hospital here.

Welch suffered leg and arm fractures when the RB66 strayed across the East German border on a routine training flight from a French air base and was shot down by Soviet fighter planes in the main air corridor to Berlin.

Still held by the Soviets — and possibly facing the ordeal of an espionage trial — were

pilot-Capt. David I. Holland, 35, Holland, Minn. and navigator-instructor Capt. Melvin J. Kessler, 30, Philadelphia.

The United States denied the plane was on a spy flight and demanded repeatedly the Russians release the three fliers. The government warned that further detention would jeopardize delicate U.S.-Soviet negotiations now underway. This could include wheat purchases, a cultural exchange agreement and talks on establishing more consulates.

In Moscow the Soviet foreign minister called in U.S. Charge d'Affaires Walter J. Stoessel Friday to discuss the fliers and informed sources said the Russian summons was "not particularly helpful." Later the Russians agreed to release Welch.

The heavily guarded ambulance carrying Welch crossed into East Germany at the Helmsstedt border control point. After a brief inspection stop it rushed to Hannover where a U.S. Air Force plane stood by for the trip to Wiesbaden.

Welch was accompanied by Col. John A. Hennessen Jr., Freeport, N.Y., the Air Force's chief orthopedic surgeon in Europe, who had visited Welch twice before. Another American doctor also examined Welch and pronounced him in good shape.

In Detroit, Welch's parents, Mr. and Mrs. Gerald Welch, were overjoyed at news of the release and said "we've waited a long, long time for this — we went through quite a bit." Welch said it was a "terrific relief for myself and his mother."

De Facto Segregation Blasted by Senator

WASHINGTON (UPI) — Sen. James O. Eastland charged Saturday that the pending civil rights bill would force integration on southern schools but leave "de facto school segregation" in northern cities untouched.

He made the assertion as the Senate held another Saturday session on the legislation which would ban racial discrimination in jobs, schools, voting and public accommodations.

The Mississippi Democrat, chairman of the Senate Judiciary Committee and a bitter foe of the legislation, made the statement in debating the House-passed bill with New York's two Republican senators, Kenneth B. Keating and Jacob K. Javits. Eastland referred specifically to the current controversy over racially "imbalanced" schools in New York City.

Javits rejected Eastland's contention, declaring that the pending bill would apply across the board to situations in Mississippi and New York. Keating told the Senate that the bill, under a House-approved amendment, provides no funds for bussing of children between schools to correct "imbalance" as proposed in New York and other large cities.

Eastland said, however, that Senate southerners will offer an amendment which will "require bussing." He said southerners are unwilling to let New York "have de facto school segregation because of housing patterns."

The discussion began after Eastland contended that New York City has about 165 schools which are predominantly colored.

"The truth is you do have de facto school segregation in New York City," Eastland declared, and cited such claims by Negro organizations.

"The truth is that we do not," Javits replied. He contended that Negroes can and do enter all New York schools but that the situation is "different in Mississippi."

Team Spirit Takes Grand National Win

AINTREE, Eng (UPI) — Team Spirit, a dead-game little gelding, rallied in the last 100 yards Saturday to become the first American-owned winner of the world's toughest horse race — the Grand National Steeplechase, since 1888.

Twenty-six years of U.S. frustration in the turf classic, on which the Irish Champion Sweepstakes is based, ended when Irish jockey Willie Robinson put the pressure on Team Spirit in the homestretch sprint and brought him home a half-length ahead of Purple Silk.

The winning co-owners were two Yanks who became interested in the Grand National when they were stationed in Britain during World War II — Jack Goodman of Tucson, Ariz., and Ron Woodward of Indianapolis, Ind.

Until Saturday, the last U.S.-owned horse to win the National was Battleship, the 1838 winner owned by Mrs. Marion Scott. All told, Team Spirit was the fifth U.S. winner since the first Grand National was run in 1837.

Redistricting In State Due Action Soon

HOUSTON (UPI) — Three federal judges who must decide if Texas should draw new congressional districts immediately will meet informally Tuesday morning to discuss the case with its many principals.

Federal judges John R. Brown, Joe Ingraham and James Noel will hold a hearing next Friday on the state's motion to delay judgment until the 1964 elections are over. Tuesday is the deadline for filing motions and briefs in the case.

Houston lawyer Bob Looney is seeking to have Gov. John Connally subpoenaed to the hearing to tell why he has not called a special session of the legislature for redistricting.

Looney added to the case as an intervenor, succeeded in getting Harris County Judge Bill Elliott and County Clerk R. E. (Bob) Turrentine subpoenaed to the hearing. Both defendants in the redistricting suit by Looney said they have expressed a desire to see new districts drawn.

Article, Pictures On Dam Project In Today's News

According to the Bureau of Reclamation of the Department of Interior, the huge Sanford Dam project is approximately 65 per cent completed.

The Pampa News has prepared an article and picture story on the construction work which will be found in today's paper on Pages 12 and 13.

Newsman Get Job Offers

HOUSTON (UPI) — The editor of the Houston Press, which closed Friday when it was sold to the Houston Chronicle, said Saturday newspapers throughout the country have offered more jobs than there are newsmen from the Press looking for jobs.

Editor George Carmack and Managing Editor Ed Ray formed a two-man employment headquarters Friday to try to get jobs for the approximately 50 newsmen left jobless by the sale. Of those, around half were absorbed into the Chronicle or found jobs with the Houston Post or other agencies of their own.

Carmack said as of mid-day Saturday, 28 newspapers had telephoned or wired him or Ray with job offers for 40 to 30 people.

STUDENTS PREPARE SERIES FOR PAPER

Beginning Monday and concluding Easter Sunday, a series of six stories based on the meaning of Easter will appear in the Pampa Daily News.

These stories have been prepared by six of Pampa High School's leading students and will represent each of the three classes at the school.

It is hoped that the presentation of Easter, its meaning and its observation through the eyes of six teen-agers will make Pampans enjoy the Easter holidays more.

LBJ Approves Envoy For Talks in Panama

WASHINGTON (UPI) — President Johnson, in a spirit of reconciliation, declared his willingness Saturday to send a special representative to Panama to deal with problems which have arisen over the Canal Zone sovereignty dispute between the two countries.

"At an impromptu news conference, he said he was notifying the Organization of American States (OAS) that he is prepared to review every issue which now divides us."

He said that as soon as Panama resumes diplomatic relations with the United States, he will send not only this country's ambassador but also a special representative "charged with seeking a solution which recognizes the fair claims of Panama."

Notes Term Used

The President pointed out that he was using the term "review" rather than "discuss" and he also carefully skirted implying that the United States would "negotiate" the thorny issue of the Panama Canal treaty.

If it comes from a hardware store we have it. Lewis Hove. (Adv.)

Safety Responsibility Act

Driver Suspensions on Increase

Texas Department of Public Safety officials in the Pampa area Saturday expressed growing concern with the number of automobile tag and driver license suspensions in Gray County.

Last year 124 actions were taken by DPS officials due to violations of the Safety Responsibility Law.

This year the number of pickup orders on plates and licenses is showing a marked increase and highway patrolmen feel it is due to a failure by drivers to become aware of the provisions of the new S-R law.

In an effort to make Pampa area motorists more aware of the new law, what it means and how to conform to its requirements, the Pampa DPS office at the courthouse is stock-piling information on the law.

The public is urged to come in and ask officers questions about any phase of the new law they fail to understand.

The new Texas Safety Responsibility Law went into effect Jan. 1 with stronger teeth than the 18-year-old measure which was replaced.

Texas law requires that in any accident in which a person is killed or injured or where there is total apparent damage of \$25 or more, the driver of every motor vehicle involved is required within 10 days to report the accident in writing to the DPS in Austin.

If the accident involves death, personal injury or damage of at least \$100 to any one person's property, the accident then comes under the Safety Responsibility Act and its requirements must be met.

There are 11 basic changes in the new law. Col. Homer Garrison Jr., director of the Department of Public Safety, has compiled a fact sheet showing these major provisions.

In brief, the revised law calls for a suspension period for drivers license and all license plates of two years instead of one year.

A \$10 reinstatement charge will be made for the restoration of suspended drivers license and/or vehicle registrations, in cases where proof of future financial responsibility is required. This was not in the 1954 law.

Proof of future financial responsibility must be maintained for five years instead of the old requirement of three years.

The minimum amount of security required following an accident shall be \$200 whereas the old law had no such provision.

The maximum amount of security is now \$25,000 where the old law set the amount at \$15,000.

Minimum limits for liability insurance to meet the requirements are \$10,000 for one person; \$20,000 for more than one and \$5,000 for property damage.

The old law called for \$5,000 for death or injury to one person; \$10,000 for death or injury to more than one person and \$5,000 for property damage.

Federal government employees, when acting within the scope of their employment are relieved of security and proof of future financial responsibility requirements. This was not covered in the 1954 law.

Proof of future financial responsibility after an accident must be demonstrated in addition to posting of cash or bond security. This was not in the old law.

Security must be cash deposit or by bond written by an authorized insurer or in such other form as the department (See AUTO LAW, Page 21)

Speaker Notes Evils In Federal Control

The government today is the most dominant factor in the nation's economic system, A. R. Watson of Amarillo, president of the Texas Manufacturers' Association and Southwestern Public Service Co., told members of the Pampa Kiwanis Club at their Friday luncheon.

Speaking on the topic, "Government in Business," Watson said the federal government buys, sells, competes, borrows, subsidizes, taxes and participates in all the other facets that belong to private business.

"The civil branches of government today are engaged in 19,000 industrial and commercial enterprises," Watson said, "and to that you can add some 2,500 more enterprises in national defense."

In 1932, Watson stated, \$2 out of every \$3 tax money was spent for city and state services and \$1 to the federal government. Today, he said, the situation is just reversed.

"Continues to Grow" "Government lives, prospers, and continues to grow bigger," Watson said.

"It is time that we take another look at one facet of our country's development. This nation is 200 years old and when it was founded it was dedicated to freedom of the individual from domination by government. This is what we know as the American way of life.

"With continued freedom we still can travel far — but there is one catch. That is 'continued freedom.' Are we as free as we think we are?"

Watson said he thought the biggest trouble today was that businessmen and the general public are confused and not certain of what government is doing.

Policy Confusing "What is our policy in Cuba?" he asked. "What is it in Latin America, South Viet Nam, Laos and what is our policy in relation to the Monroe Doctrine? Our European Allies are confused about our policy in Berlin.

"Here at home what is our policy on reducing the national debt? Do we intend to continue cutting taxes and at the same time continue to spend and increase our national debt?"

"All of this is very confusing at home and abroad.

"It is a dangerous policy to cut taxes when you have a deficit. Our founders originally placed a rein on government, but down through the years these bonds have been released one at a time."

Watson outlined how government has been moving into private business fields and said that today the biggest success story in all business annals is the rise of government in the field of private enterprise.

One Out of Six He pointed out that one out of every six persons employed in the United States is employ-

ed by the government. Eight million persons are obtaining some kind of federal aid.

"This means," Watson said, "that we have handed over to government the responsibility we should have assumed. If you think you can keep on doing this and retain your freedom, you have a wrong conception."

Watson declared that Americans have been buying socialism on the partial payment plan.

"This socialistic trend that has moved in here all got its start with Fabianism in England in 1884," he said.

"One at a Time" "Norman Thomas said 25 years ago the American people will never buy socialism in one package, but they will buy TVA, federal aid to education, and social security one at a time."

The speaker said that he does not believe Americans are apathetic about what is happening.

"They are confused," he said, "and they need to have a kind of know understandability. When they understand what is happening to them, they will do something about it."

Watson said people need to be informed, they need to take an active part in government and politics and make their views known to their elected representatives.

"If we don't inform those who are confused," he said, "we will find that our freedom is gone. I feel we can't and won't let this happen and that this republic shall not perish from the earth."

GUILLOTINE KILLER PARIS (UPI)—Stanislas Juhant, 25, a Yugoslav, was executed by the guillotine Tuesday for the murder of an elderly woman shopkeeper he robbed. He was the first to die by guillotine in France since George Rapin was executed in July, 1961, for murder.

NO STUDS IN STOCK EPPING England (UPI)—Arthur Hughes, on a world cruise aboard the liner Maretania, lost his front collar stud when his dress shirt went to the ship's laundry. And he could not beg, borrow, buy or even steal one.

Hughes said everyone wore either collar-attached or open-neck shirts.

"I tried at Las Palmas and in Trinidad, Jamaica, Bermuda, Vera Cruz and Miami," he said Sunday. "None of the stores kept studs in stock."

"I wasn't able to dress properly for dinner until my wife bought one from a local shop," he said.

SPEAKING IN LUBBOCK LUBBOCK (UPI)—Houston attorney Don Yarborough took his gubernatorial campaign to Lubbock today in a swing through West Texas to set up headquarters. Yarborough opposes Gov. John Connally in the May 2 Democratic primary.

FATAL HUNTING MISHAP SAN ANTONIO (UPI)—Michael Johnson, 14, was killed with a 22-caliber rifle Sunday while hunting with three other youths in South Bexar County. Dr. Ruben Santos county medical examiner, ruled the death accidental.

Red Cross Announces Completion of Classes

Red Cross sponsored classes in the care of the sick and injured and advanced first aid were completed Friday.

Mrs. A. D. Hills and Mrs. Elizabeth Taylor, Red Cross instructors in the Care of the Sick and Injured reported that Mrs. Frank Converse, Mrs. Ralph Converse, Mrs. Jess Hatcher, Mrs. O. F. Kreimeyer, Mrs. William T. Fain, Mrs. W. T. Butler and Mrs. Libba Trimble completed the training class and received pins from the Red Cross Friday morning. The class teaches bed side care of the sick and injured in the home.

Fred Martin, Red Cross first aid instructor, reported that 15 firemen were members of an Advanced First Aid class conducted last week. Those receiving certificates and uniform patches for the course were Brad Hinkle, Ray Fisher, Lee Tyrrell, Harry Patten, B. T. Brown, Bob Hulse, Joe Miller, Al Ferguson, W. A. Jenkins, K. N. Kirby, Billy C. Cox.

NOW YOU KNOW By United Press International The Hoover Dam on the Colorado River, the highest concrete dam in the United States, is 726 feet tall, 1,244 feet long at the top and contains 4.4 million cubic yards of concrete, according to the World Almanac.

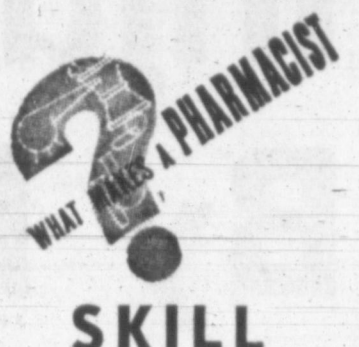

Dennis Bryant, Robert Young, Willie F. Crain, Ben Blackmo and Don Kite.

Firemen and policemen completing the course may wear the sleeve patch designating them as qualified first aid administrators.

INDIANS ATTACK PATROL LIMA, Peru (UPI)—Savage Cuzquima Indians, said to be armed with poisoned arrows, are harrying a surrounding army patrol in the jungles of Eastern Peru, it was reported Tuesday.

The newspaper Correo, quoting a seaplane pilot who said he flew over the beleaguered patrol, said the soldiers indicated by signs that the Indians had launched three new attacks during the day.

GREETED RED SKIPPER ZANZIBAR (UPI)—President Faisalabad when it docked here Tuesday to greet the captain of the 1,870-ton Soviet ship Union.

Panel to Hear Property Owners

A delegation of downtown property owners will appear before the city commission Tuesday to discuss downtown improvements.

City Manager Harold Schmitzer said he was asked Friday to include the discussion time in the regular agenda.

Other items up for consideration at Tuesday's session include:

Opening of bids on a 2-ton cab and chassis truck and one 3/4-ton pickup truck.

First reading of ordinance annexing Block 7, Overton Heights Addition on Aspen St. between 23rd and 25th Aves.

Acceptance of work done on remodeling of Railroad Commission offices and authorize contract payment.

Payment to Canadian River Municipal Water Authority of \$1,193.10, the remaining half due on 30-cent per water meter assessment for Pampa's share of CRMWA operating costs.

Transfer of \$19,279 from General Fund to Library Fund.

PASTOR TO SPEAK—Monday's speaker will be Rev. Carson N. Snow, Jr., pastor of the Church of the Nazarene. He has been pastor of the local church since January, 1962, and pastored previous to his coming here in Cisco. He also has held pastorates in Kansas and Oklahoma. He received his education at Bethany Nazarene College in Bethany, Okla. Sermon topic will be "Two Looks at Calvary."

HELP FOR CRIPPLES

Pampa High Paper Annual Takes Top Honors at Canyon

CANYON (Spl)—Pampa High School's Little Harvester newspaper and Harvester yearbook walked off with first place honors Saturday in contests at the 30th annual Panhandle High School Press Association convention.

The Little Harvester won its first place for general excellence while the Harvester annual took the same honor in yearbook judging.

The judging for the contest was conducted by the Fort Worth Press.

The Pampa publications took more honors than any other school entered in the affair with 11 individual winners while Lubbock High School finished second place.

Individual honors went to Larry Hollis, a second place in editorial writing; Jennifer Turner, a second place for sports stories; Charlie Yahn, third for sports column writing.

Pat Ludeman was awarded honorable mentions for news and general column writing while Miss Turner was second for news writing and won a first place trophy for feature writing.

Fred Willis received honorable mention for news photo work while Kenneth Hall was second in the news photo contest and took honorable mention in yearbook photo work and second place in the same contest, but in a different section.

Paul Opens Rites For Holy Week

VATICAN CITY (UPI)—Pope Paul VI drives to a hallowed Roman basilica for a Palm Sunday service, opening Holy Week rites that will be climaxed on Easter Sunday by an open-air Mass in St. Peter's Square.

Sunday's rite is the traditional Blessing of the Palms, commemorating Christ's triumphal entry into Jerusalem when the people strewed palm leaves before him, crying "Hosanna to the Son of David."

The owner had the keys in his pocket, Roan said.

Police notified Pullen of the theft, since he had not discovered the car was missing at the time it was found by officers.

Obituaries

William O. Rich CANADIAN (Spl) — William Oscar Rich, 68, died Friday in a Canadian hospital. He was a former cafe operator in this Hemphill County community and was presently residing near Perryton at the time of his death.

Mr. Rich was a veteran of World War One and was a member of the Odd Fellow's Lodge.

Funeral services will be held at 2 p.m. today at the First Christian Church of Canadian with burial to follow in the Canadian Cemetery under direction of Stickler Funeral Home.

Mr. Rich is survived by his wife, Louise; a son, Billy Rich of Fort Worth; two daughters, Mrs. Idabel Edwards of Gruver and Mrs. Betty Jean Berg of Fort Worth; a stepson, David Richardson of Pampa; three brothers; Ollie Rich of Waurika, Okla.; Frank Rich of Ryan, Okla.; and Boss Rich of Fletcher, Okla.; a sister, Mrs. Ruby Samples of Wichita Falls; seven grandchildren and two great-grandchildren.

William E. Taylor Funeral rites for William Earl Taylor, 59, will be conducted at 2 p.m. tomorrow in the Duenkel-Carmichael Funeral Chapel. Rev. H. F. Pelman, pastor of the Borger Lutheran Church, will officiate.

Mr. Taylor died Friday at 11:55 a.m.

He had been a resident of Pampa for 30 years, moving here from Ada, Okla. He worked for many years in the oil field and had been a pipefitter for the past 20 years. He was a member of Central Baptist Church.

Survivors include his widow, Gussie, 517 N. Carr; three sons, Rudy, Pampa; Don, Hereford; and Dearn, Borger; one daughter, Mrs. C. M. (Dorothy) Barnhill, Pampa; three sisters, Mrs. R. L. Gamble, Borger; Mrs. Wheeler Wilson, Lawton; and Mrs. J. H. Davis, Davis, Okla.; one brother, Carl, Oklahoma City, and nine grandchildren.

Palbearers will be J. G. Shelton, E. B. Johnson, H. V. Armistead, I. J. Harvard, E. R. Young and Frank Silcott. Burial will be in Fairview Cemetery.

Harvey J. Palmer Funeral services for Harvey Jim Palmer, 71, will be conducted from the Duenkel-Carmichael Funeral Chapel at 2 p.m. Tuesday with Rev. Glynn B. Adsit, pastor of First Christian Church, officiating. Burial will be in Fairview Cemetery.

Mr. Palmer died in a local hospital Friday at 2:40 p.m. He moved to Pampa from Oklahoma in 1948 and was a retired driller for Murphy-McKernan Drilling Co.

He is survived by his wife, Lula, 308 N. Somerville; one son, Leonard, Springfield, Ohio; one sister, Mrs. Ida Hemington, Blythe, Calif.; and one brother, Carson, Pasadena, Calif.

Philo D. Boddy Funeral services for Philo D. Boddy will be conducted at 10 a.m. tomorrow at the Hobart Baptist Church with Rev. Carroll Ray, Southern Baptist district missionary, officiating. Rev. W. F. Vanderburg, Dallas, will assist. Burial will be in Fairview Cemetery under direction of Duenkel-Carmichael Funeral Home.

Mr. Boddy died Thursday in a local hospital. He had lived in Haskell from 1920 until 1945 and was a former resident of Perryton. He was employed as a bookkeeper for the Panhandle Heating and Plumbing Co. in Pampa at the time of his death. He was a charter member and deacon of Hobart Baptist Church.

Palbearers will be Claude Brock, O. C. Gist, Paul Gobin, Mage Keyser, Elmer Holley and C. F. Willmon. Honorary palbearers will be Alva French, Carl Ammons, Earl Ammons, Edwin Ammons, Aubrey Patton, Bill Biard, Talmadge Oilphant, Warren Jackson, Curly White, V. L. Oliver, Delbert Johnson, Buster Willis, Bill Cotts and Paul Crossman Sr.

Knife, Fork Has New Directors

Top of Texas Knife and Fork Club has three new directors who were elected by the membership at a recent meeting.

Replacing the three retiring board members, Homer D. Johnson, Jeff Bearden, and Ralph Sidwell, are Herman Whitley, Roy Sparkman, and Bill W. Waters. Directors serve for a three-year term, according to Jimmie Thompson, president.

Other members composing the 9-member board are R. W. Curry, W. S. Dixon, D. V. Biggers, Ralph Randal of Panhandle, Ralph Thomas, and president Thompson.

A representative for Knife and Fork Club International will meet with the directors next month, at which time speakers for the 1964-65 season will be booked.

Next meeting for this season is scheduled for April 7, when DeMille, nation's foremost mentalist, will perform feats dealing with the subconscious mind, telepathy, and psychological control.

The local club has a limited membership of 500. Due to the fact that the membership is full, a waiting list is maintained by the secretary, to accommodate future memberships as vacancies arise.

Drive

(Continued From Page 1) general and advance investment divisions and their workers are asked to be present, ready to report at 10 a.m. Monday.

Following the Wednesday report meeting, the drive will take a rest over the Easter holidays, then resume Tuesday, March 31, with another report meeting.

R DON'T LET A COLD CATCH YOU!

The very common expression, "I caught a cold," should be stated just the opposite way around — "A cold caught me." For, no one deliberately goes out looking to catch a cold. Rather, they should try to protect themselves from one.

In the month of March the weather is especially changeable. Extra care must be taken to avoid having a cold catch you. At the first signs that you have become a victim of public enemy number one, you should take the necessary steps to prevent it from developing into something serious. Nose drops, aspirin, rest, a cough remedy, etc. can help in the early stages. But if a simple cold starts getting worse or lingers on you should see your physician.

YOUR DOCTOR CAN PHONE US when you need a medicine. Pick up your prescription if shopping nearby, or we will deliver promptly without extra charge. A great many people entrust us with their prescriptions. May we represent yours?

Auto Stripped And Abandoned

A 1961 automobile was found abandoned Saturday morning just south of the Pampa airport, the bucket seats removed and the car heavily damaged by vandalism.

Police Capt. Dennis Roan said the auto was taken from the 800 block of E. Locust sometime between 12:30 a.m. and 7:45 a.m., stripped and cut-up with a beer opener.

Taken from the car were two red leatherette bucket seats and a Stewart-Warner tachometer. Heavy damage was done to the headliner, interior upholstery and flooring.

Roan said the car's clutch had been burned out, apparently by the thieves who moved it from Locust to where it was found. The car was locked and

Giant Cabot Rig to Operate in Desert

Built here in Pampa, the well servicing unit, consisting of a Franks 1287-120 drawworks, workover rig package ever assembled soon will be operating in the prolific oil wells in the desert of Libya.

It is the Sahara Comet, built by the Pampa Machinery Division of Cabot Corp. The rig is designed to replace the more costly drilling rigs currently are performing servicing and workover jobs.

The Pampa-built giant will be operated by the International Drilling Co., Libya, and International Permian Well Service Co., Tripoli.

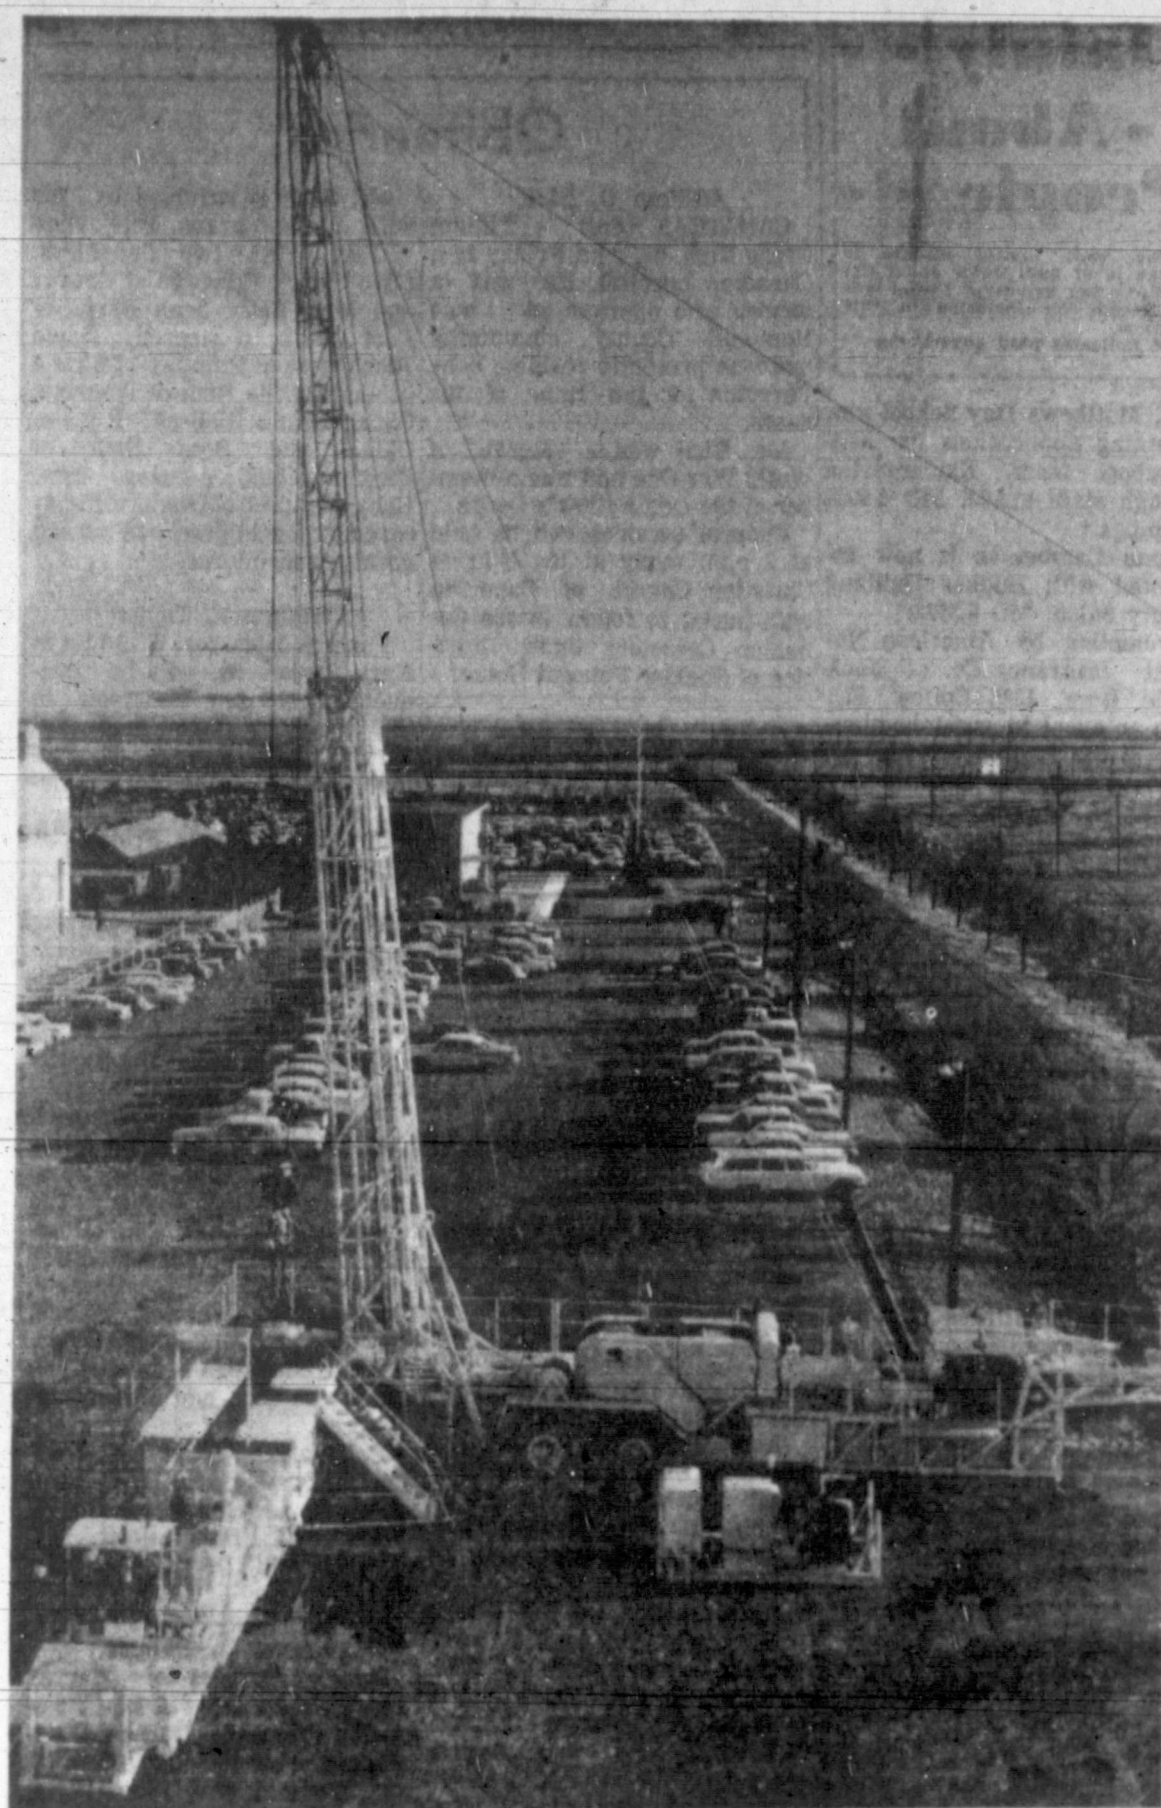

The Sahara Comet actually is a two trailer rig. The first 60-foot trailer is a complete well servicing unit, consisting of a Franks 1287-120 drawworks, workover rig package ever assembled soon will be operating in the prolific oil wells in the desert of Libya.

The second trailer contains a rotary table, mud pump, GMC diesel engine pump power, 100 barrel mud tank and manifold system which permits both normal or reverse circulation. The addition of the pump trailer enables the rig to perform workover and drilling functions. When required, the pump trailer is backed up to the rear of the well servicing trailer to form an L-shape. This arrangement places the rotary table at the rear of the well servicing trailer under the crown block of the derrick. Power for the rotary table is provided by a drive shaft from the servicing trailer.

For well servicing, the Sahara Comet will handle 2 1/2" tubing to a depth of 15,000 feet, and for workover operations the rig can handle 2 1/4" drill pipe to 12,000 feet.

Other equipment accompanying the Sahara Comet include three portable office, living, and dining trailers, a 35 KW light plant, and a rig-up truck. All equipment has been modified for operation in the heat and sand conditions to be encountered in Libya. Both rig trailers are equipped with over-size desert-type tires, and all engines utilize special centrifugal type air cleaners, and extra capacity cooling systems. The trailers carry enough water, fuel and supplies to permit ten-day's operation without replenishing.

Woodside 77, New York

96-FOOT DESERT GIANT — This is the Sahara Comet, built by the Pampa Machinery Division of Cabot Corp., which soon will go to work in the Sahara Desert. The well servicing and workover rig consists of a 96-foot derrick, two 60-foot trailers and all the needed equipment for 10 days of desert operation. The accompanying photograph shows the Comet as it went through the final rigup prior to shipment to Libya.

Pampa Supply Firm Gets Houston Office

Beacon Supply Co., with general offices in Pampa and active in the Panhandle, Permian Basin and Four Corners producing areas, has opened a new sales office in Houston, according to Robert W. Sidwell, vice president and general manager. The Houston office will be under supervision of Gus C. Schmidt Jr., a native of Houston who has been active in oil field sales there for the past 15 years. For Beacon Supply, his efforts will be concentrated on tubular goods and engineered production equipment.

With a complete line of engineered production equipment, Beacon Supply operates stores in Pampa, Odessa and Borger, Texas; Beaver, Okla.; Elkhart, Kans.; Lovington and Farmington, N.M.

Offices and sales representatives are maintained in Liberal, Kans.; Tulsa, Okla.; Hobbs, N.M.; Amarillo, Perryton, Dallas and Midland, Texas — and now in Houston. Beacon's lines include Ajax engines, pumps and compressors; Peerless water source and injection pumps; National triplex pumps; Oimaster hydraulic pumping systems; Cabot and American pumping units; Lone Star Steel line pipe, casing and tubing, and Colorado Fuel and Iron casing and tubing along with other leading makes.

Beacon Supply, with its headquarters offices here, has been operating in Texas for more than 30 years. Officers, in addition to general manager Bob Sidwell, are E. C. Sidwell, president; G. W. Taylor, vice president in charge of sales, and E. E. Watkins Jr., secretary-treasurer.

Cities Service To Reduce Rates

OKLAHOMA CITY (SpI) — Cities Service Gas Company has announced that it proposes to pass on to its customers in the form of lower rates the 2 percent reduction in corporate federal income taxes allowed by the Revenue Act of 1964. Rates affected would be those subject to regulation by the Federal Power Commission.

As has been previously announced, the company applied to the F.P.C. in October, 1963, for authority to increase rates in order to offset increased operating costs. These rates were suspended to April 23, 1964. The company now plans to reduce these rates by more than \$50,000 in order to reflect the tax savings.

WRONG SHOP

ARLINGTON, Tex. (UPI) — From dozens of other dry cleaning shops from which to choose, a stickup man picked the shop where Mrs. A. B. Cribbs is a clerk Thursday.

With his hand in his coat pocket, he growled, "Give me the money or I'll shoot."

Replied Mrs. Cribbs: "You'd better start shooting or you're in trouble."

He fled empty-handed without

Income Increases Noted in Texas

DALLAS (SpI) — Income of Texas families rose 79.8 per cent during the 1950's. Texas ranked 32nd among the 50 States in family income rise in that decade, according to Harry C. Meyers, Director of the U.S. Department of Commerce Field Office here.

Despite this large gain, Meyers points out that the median income of Texas families in 1959 was only \$4,884. Only 16 states had lower median family incomes. (If the States 2,392,573 families reported in the 1960 U.S. Census were divided into two equal groups half would have received incomes below and the other half over \$4,884 in 1959).

The median income in 1959 of all families in the nation was \$5,660. Of the 45 million families, 21.4 percent had incomes under \$3,000 and 13.1 per cent under \$2,000. Of the 2,392,573 Texas families, 28.7 per cent had incomes under \$3,000 and 18.0 per cent under \$2,000.

Petroleum Leads Gray Mineral Production List in Facts Books

EDITOR'S NOTE: This is the first in a series of stories devoted to the Pampa Industrial Facts Book, which was compiled by engineers from Texas A&M University. Today's story discusses raw materials found in Gray County.

Petroleum is first in order of value of minerals produced in Gray County. Following behind the industry is natural gas liquids and natural gas, thus making the county a rich petroleum producing area. Figures show that in 1961 the value of minerals produced in the county totaled \$60,043,600 as compared with \$46,276,834 in 1959.

A total of 26 minerals are listed in a 200-mile radius of Gray County with caliche, dolomite, drilling clay, gypsum, petroleum products, salt, sand, gravel and volcanic ash listed in a 50-mile area. Some of the other minerals found in the area include helium, coal, copper, carbon dioxide, granite, sulphur and sodium phosphate.

The first oil well in the Pampa field of Gray County, located six miles southeast of Pampa, was completed in 1924. It was a 100-barrel well. H. F. Cox Oil and Co. No. 1, Combs, Worley.

Gray has produced oil at a rate of some 14 million barrels a year for the seven years prior to 1960. The cumulative production to 1960 was almost one half a billion barrels of oil.

The peak oil production occurred during 1959 when more than 17 million barrels were produced for the year.

Gray county is surrounded by oil producing counties. These include Carson, Hemphill, Hutchinson, Roberts and Wheeler. Hutchinson county leads in annual crude oil production, producing nearly 13 million barrels annually for each of the years from 1956 to 1960. Gray County has produced 266,297 barrels of crude oil, valued by Hutchinson with 379,357 barrels.

Most of the gas produced in Gray is associated with oil production and several gasoline plants are located in the county. Total plant capacity will process 366 million cubic feet annually.

During the period of 1954 to 1959, the value of all farm products sold increased 40.6 per cent, from \$4,053,749 to \$5,701,649. The number of farms in Gray County decreased from 523 to 400 in 1959.

During the same period there was an addition in the number of acres in farms from 560,333 to 563,719 and an enlargement in the size of farms from 1,071 acres to 1,409 acres. Value of crops increased 2.5 per cent from 1954 to 1959. This rise included a 2.0 per cent increase in field crops, a 386.6 per cent decrease in vegetables, 142.4 per cent decline in fruits and nuts sold and a 168.7 per cent increase in forest products and horticultural specialty products sold.

During this five-year period there was a decrease of 18,148 acres in sorghums, a 14,380 reduction in wheat, 1,447 acre increase in hay and 2,923 acre drop in cotton. Irrigated land in farms jumped from 692 in 1954 to 6,293 in 1959. Value of all livestock and livestock products sold increased from \$1,735,843 in 1954 to \$3,323,536 in 1959, an addition of 91.4 per cent. This change represents a decline in the value of poultry and poultry products sold, but includes an increase of 103.8 per cent in livestock and livestock products sold excluding poultry and dairy products. This increase was from \$1,593,856 in 1954 to \$3,248,195 in 1959.

Although no up-to-date official source is available concerning agricultural situations in Gray County, the 1962 county agents report does give an indication as to the present day trends.

According to the report some 15,600 acres of the county's farm land was in the Soil Bank in 1962. Fifty-five irrigation wells in the county handled about 10,000 acres of cropland. This is an increase of almost 4,000 acres over the figure listed in the 1959 Census of Agriculture.

The report shows excellent wheat yields from 1959 to 1961. (NEXT WEEK: Industrial sites and buildings.)

McLean Race Horse Breaks World Mark

McLEAN — Raffles Passum is taking a well-deserved rest in the McLean Race Training Stable pasture. But it won't be a long rest for the speedy two-year-old Quarter Horse, owned by Jack Drake of Amarillo.

The Quarter Horse walked off with the \$46,000 Columbus, Tex., Futurity for two-year-olds last week and set a world record of 15.3 seconds for a 300-yard race.

The animal will be entered in the Stroud, Okla. Futurity later this month, the Goliad Futurity in April and the All-American Futurity set for Labor Day in Ruidoso, N.M.

The sleek animal has made McLean's Bob Willoughby a happy man and with good reason. Willoughby is trainer of the horse and operates the McLean stables.

The horse downed a field of 117 other Quarter Horses to win the big Texas race and set the world mark.

Willoughby took Raffles Passum to Columbus two weeks before the futurity and stayed with the horse constantly the full two weeks. "I even slept with him each night," the trainer said.

Drake, the horse's owner, picked up \$23,000 as first prize money, but the fact Raffles Passum won was plenty of prize for Willoughby.

The trainer admitted that even though the race was over a week ago, he was still riding high on "cloud nine."

Meanwhile, Raffles Passum is munching grass at McLean, waiting to attempt another world's mark come race time in Oklahoma this month.

Optimists Plan Birthday Party

A birthday party, marking Pampa's Evening Optimist Club's anniversary, will be held at 6:30 p.m. Monday at Poole's Steak House with some 200 Optimists and guests expected.

Dr. Leon Hill, a retired Baptist minister who devotes his time to making people laugh, will be the chief speaker at the program which will honor all of the 10 past presidents of the organization.

Buck Francis, former sports editor of the Pampa Daily News and now a columnist for the Corpus Christi Caller-Times, will be honored as the driving force behind the founding of the Optimist Club in 1954.

Francis began the effort to organize a club with a series of promotions designed to bring Little League baseball into Pampa. Club officials said Francis is expected to be present at the affair Monday night. A comical musical program has been arranged to make the night's event more attractive.

Optimist officials are hoping that the birthday celebration will also mark a perfect attendance record for the evening club.

Optimist officials urged persons attending the affair to arrive a little before the usual 6:30 p.m. meeting time in order that seating arrangements could be handled.

SINE NEW COACH

BOSTON (UPI) — Ray Sine, a former defensive halfback with the old New York Titans in the American Football League, will coach Boston State College's baseball team this season.

Sine, 27, succeeds Jim Sullivan, who resigned to devote full time as the school's athletic director.

New Postal Rates Effective April 1

Postmaster O. K. Gaylor issued a reminder Saturday that the new domestic parcel post rate increase goes into effect Wednesday, April 1.

The rate increase, approved recently by the Interstate Commerce Commission, averages slightly more than 13 per cent and is expected to yield about \$75.4 million annually.

The postmaster said catalog rates will be increased approximately 13 per cent and will produce added revenue of about \$2.4 million if the current volume is maintained.

The higher rate does not affect air parcel post or international parcel post, Gaylor stated.

The postmaster said he had been advised by Postmaster General John Gronouski that the ICC decision will enable the Post Office Department to carry out its objective of reducing the drain on the federal treasury by \$100 million.

To illustrate the effect of the new rates here, Gaylor pointed out that a six-pound parcel, which is average weight, for local area delivery will cost 37 cents instead of 32 cents.

The postmaster said the last parcel post rate increase was on Feb. 1, 1960.

Methodist Church Schedules Music Program

The Sanctuary Singers and the Youth Choir, under direction of Hugh Carson at First Methodist Church will sing "Seven Last Words of Christ" at 7:30 tonight at the church.

This great moving oratorio was written by Theodore Dubois, French composer, who took the seven last statements

made by Jesus as he hung on the cross and set them to music. Written for chorus, soprano, tenor, and bass soloists, this work is one of the most dramatic presentations ever composed upon this theme.

Through use of rhythmic patterns, melodic passages and harmonic progressions, the composer has been able to capture the atmosphere of the mob screaming for the death of Jesus, as well as the moment of sublime resignation when Christ says, "Father, into Thy hands, I commend my spirit."

Soloists for this presentation are: Mrs. J. P. Greenwalt, soprano; Joe Whitten, Baritone and Ira Schantz, tenor. Guest organist for this presentation will be Jerry Whitten.

ELECTRIC COMFORT HEATING

...for the comfort of your life!!!

WHEELER WINNER — Dunk Porter of Wheeler shows perfect form as he goes over the hurdles in the Panhandle Relays, winning the 180-yard lows in 22.1. The Dunk had clocked a 22.0 in the preliminaries.

MIAMI WINNER — Roy Bean goes and over the high jump bar at the Panhandle Relays for Miami. The Ham-bone took the honors in the event with a 5'9 1/4" jump.

BOOKER WINNER — State champ Shane Slovajek of Booker smacks the tape in a 10.3 100-yard dash prelim, followed by Bobby Dodd of Stinnett (far right) and Phil Woodring of Lefors (far left). The trio qualified for the finals with Slovajek winning, Dodd second and Woodring fifth.

Booker Ties Up Dalhart For Panhandle Crown

By KEITH GEISLER
News Sports Reporter

PANHANDLE — Booker swept to victory in the closing event of the 15th Panhandle Relays, the mile relay, to tie Dalhart for the team title yesterday.

Going into the final event, the favored Class AA Wolves led the Class B Kiowas, 64 points to 60, but Booker beat the foe by a hair in the relay to tie for team honors with 80 points apiece. Stinnett was third with 51 1/2 points. Wheeler followed with 46 and Claude and Lefors tied for fifth with 34 points each in the 26-team meet.

Although the wind was almost non-existent, chilly weather kept times from being as fast as usual. Three new records were set, however. Booker's sprint relay team broke the old record by three-tenths of a second, and Don Cantrell of Dalhart, as expected, smashed the half-mile record. The broad jump record was another predicted record to fall, Wayne Taylor of Vega knocking it off in the morning events.

Two expected head-and-head races failed to materialize as outsiders broke up the battles. John Colquitt of Dalhart was sidelined with the measles and unable to show up for his duel with Larry Elliott of White Deer, but Toby Crook of Memphis upset the apparent favorite, Shane Slovajek of Booker, in a 10.3 in his 100-yard prelim, but Wheeler's Little Bobby Vanpool, in a slow

heat, clocked only 10.7 in winning his prelim and Slovajek took the finals in 10.5.

Results:
High jump—Roy Bean, Miami; Phillips, Stinnett; Eckles, Canadian; Grady, Clarendon; Lane, Turkey; Seiber, Stinnett and Buck, Vega, Tie. Height—5'9 1/4".

440-yard dash—Toby Crook, Memphis; L. Elliott, WD; Smith, Turkey; Taylor, Vega; Fox, Claude; Burks, Price College. Time—52.3.

220-yard dash—Tim Burks, PC; Hughes, Booker; Walker, Sunray; Edwards, Shamrock; Reimer, Stinnett; Brannon, Stratford.

Broad jump—Wayne Taylor, Vega; Jeff Colquitt, Dalhart; Burks, PC; Edwards, Pampa; Smith, Wheeler; Marcum, Sanford-Fritch. Height—21' 2 1/2". (new record, old record 21' 2").

180-yard low hurdles—Dunk Porter, Wheeler; Snelgroves, Wheeler; Mitchell, Claude; Stone, Booker; L. Elliott, WD; Purvine, Panhandle. Time—22.1.

Discus—Don Locke, Dalhart; McCool, Lefors; McMinn, Lefors; Lorenz, Stinnett; Dowd, Vega; Clifton, Dalhart. Distance—147' 10 1/4".

Mile run—Robert Hoover, Booker; Bronniman, Adrian; Duran, Stinnett; Pendergast, Panhandle; Clark, Claude; Greene, PC. Time—5:00.8.

Mile relay—Booker, Dalhart; Claude, Wheeler, WD. Panhan-

die. Time—3:37.9.
440-yard relay—Booker, Wheeler, Dalhart, Claude, Shamrock, Stinnett. Time—44.6. (new record, old record 44.9.)

Pole vault—Rick Richardson, Booker; R. Elliott, WD; Slagle, Panhandle; Mathews, Stratford; McDade, Vega, Newman, Dalhart tie. Height—11' 2".

120-yard high hurdles—Terry Bromlow, Lefors; Meier, Booker; Strong, Dalhart; Mitchell, Claude; Daniels, Panhandle; Burk, Vega. Time—15.8.

Shot put—Dwight Clifton, Dalhart; McCool, Lefors; Bush, Dalhart and Lorenz, Stinnett tie; Marlar, WD; Gutierrez, Canadian. Distance—44' 4 1/4".

880-yard run—Don Cantrell, Dalhart; Immel, Stinnett; Ross, Gruver; Stone, Clarendon; Kirby, Panhandle; Tate, McLean. Time—2:06.3. (new record, old record 2:07.5.)

100-yard dash—Shane Slovajek, Booker; Dodd, Stinnett; B. Vanpool, Wheeler; Davis, S-F; Woodring, Lefors; Mitchell, Dalhart. Time—10.5.

The Pampa Daily News

8 THE PAMPA DAILY NEWS 56TH YEAR SUNDAY, MARCH 22, 1964

Bill Hines Leaves Miami To Be Silverton Coach

MIAMI (SpI) — Bill Hines, head football and track coach at Miami High School, announced to the Daily News yesterday that he had accepted the position of head coach at Silverton High School beginning next September.

The long-time Miami coach announced that "I am leaving with great regret my many friends and my home area, but this is a step up from Class B to Class A and I feel I cannot afford to pass up the opportunity."

Superintendent of Schools Weldon Snodgrass said he was accepting Hines' resignation with great regret, but agreed that the chance of advancement was too great to be turned down. No plans for hiring a replacement have been announced.

Hines, one of the most popular coaches in the Top O' Texas and known as "The Roly-Poly One" to his friends, is a native of the area, having been born in Canadian. He played high school football for the Wildcats and made All-Regional tackle. Hines went to Oklahoma University and played three years of varsity football as a tackle and defensive end, also coaching two years of junior high sports in Norman.

In his five years at Miami, Hines has won three district football championships and two bi-district crowns and two district track titles. Coaching basketball three years, he won two district crowns and also coached girls basketball for a year.

Hines and his wife Betty have three children, all boys.

Monterey Holds Loop Golf Lead

PLAINVIEW (SpI) — Monterey High School continued to pace the District 3-AAA golf race Saturday as the Plainsmen fired a team total of 298 to hold first place in the second district match round.

Pampa's Harvester linksters held fifth place after posting a 316 team total to bring their season's total to 636 in the loop chase.

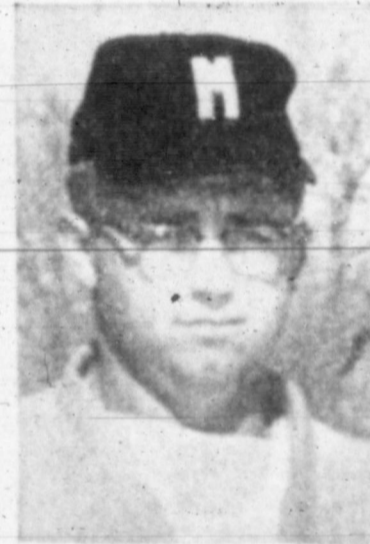

The Harvester score was paced by a tidy 77 total by Richard Ellis, one stroke ahead of two team mates, Skip Warner and George Snell, both with 78 totals.

Grover Haskell and Bill McKinney posted 83 totals to round out individual scores for the day's play.

James Conine of Monterey and Jim Brown of Amarillo High continued their torrid fight for medalist honors with 147 totals each to remain tied.

Only one change was noted in the Saturday match. Borger moved to third from fourth place in the league race with a 304 total in Saturday's match, giving the Bulldogs a 619 total in the two matches.

District action will resume Friday at the Ross Rogers Municipal Course at Amarillo.

BILL HINES

Pampa Trackmen Push Foes To New Heights

LUBBOCK (SpI) — One-tenth of a second.

That was the difference Saturday between Mark Westbrook's second place finish and a first place ribbon in the Lubbock Invitational Track and Field Meet.

The Pampa Harvester point-maker tangled horns with Jimmy Hopson of Lubbock High in the 880-yard run and was nosed out by the Westerner ace by a tenth of a second.

Westbrook came home in a time of 2:01.7 while Hopson was clocked at a 2:01.6 mark, neither of which was a record for the meet, but had the crowd of onlookers gined to their collective seats.

The second place handed Pampa a total of 22 points for an eighth-place finish in the field of 14 high schools. It also was Westbrook's fastest time of the current cinder season.

Coach Norm Phillips was proud of the performance of his squad, remarking that for the first time this year someone besides Westbrook took points in a meet.

"We are improving steadily," he declared at the close of the event.

It was easy to see why Phillips was pleased: Harvester thinly-clad placed in six events and helped force new records in three events of the six.

"That's not a bad day's work," the Harvester mentor said.

Gary (Little Butch) Crossland engaged in a broad jump battle with Ken Grissom of Lubbock High School that ended in a broken record for Grissom and the best jump of the year thus far for Crossland.

The Pampa sophomore bounded 21 feet nine inches, for third place and Grissom finished first with a 22' 6 1/2" jump, breaking the old record set last year by a Lubbock youth of 22 feet and 3 inches.

San Williams high jumped 5'8 for a sixth place finish, but Phillips wasn't unhappy over that mark since Midland's Walter Berger went 6-1 1/2 to tie Bill Martin's record, set by the Pampa youth in 1962.

Harvester Carl Johnson topped the discus 134-feet, 4-inch for a sixth place finish while Odessa's Larry Scruggs sailed the discus a distance of 132 feet, 1 1/2-inches for first place. No records, all held by Ram Matson, fell in this event.

Waylon Bullard posted a 1:16 time in the high hurdles but was only good enough for fourth place finish behind Carroll of Lubbock, who had 14.6 time to tie the record, a last year to Odessa's G. Rogers.

David McDaniels finished fifth just one second behind first place winner Ross Montgomery of Midland in the 220-yard dash with a 23.3 second time. Montgomery posted a neat 2.2 mark.

Midland High School lived to pre-meet estimates by racing up 107 points to take 11th place while Odessa High was second with 77 points and Lubbock High third with 60 points.

Amarillo's Sandies came fourth with 65 points. Amarillo Carver fifth with 60 points, Lubbock Monterey sixth with 57 points and Lubbock Dunbar seventh with 23 points, ahead of the Harvesters.

Bradley Five Shatters Lobo Cinderellas in NIT Finals

NEW YORK (UPI) — Bradley's bumptious Braves beat New Mexico at their own defensive game in the first half and then poured it on in the final 20 minutes to win the National Invitation Basketball Tournament for a record-equaling third time, 86-54, Saturday in a runaway title game.

A crowd of 15,137 at Madison Square Garden and a national television audience watched Bradley blank New Mexico from the floor for almost 10 minutes in the first half. During that period, from the 10:15 mark until 19:40 when Dick Ellis finally broke the ice for the Lobos with a basket, the Braves from Peoria, Ill., spurted to a 33-22 lead.

New Mexico, which led the nation in defense during the regular season, limiting its opposition to 55 points per game, was hurt early when Ira (The Large) Harge, the Lobos' leading rebounder, picked up two personal fouls in the first 90 minutes and was taken out of the game at the eight-minute mark when he drew his third infraction.

In the next six minutes, while the 6-8 Harge sat idly on the bench, Bradley went on a 12-2 tear to open a 27-17 lead. The Braves never looked back thereafter.

Fouls Out
Harge finally fouled out after 6 1/2 minutes of the second half, by which time the red-shirted Braves had increased their lead to 54-26 behind the slick shooting of Eddie Jackson and Joe Strawder, Bradley's 6-9 center who showed no effects of a sprained ankle he suffered against Army in the semifinal.

Strawder wound up as the game's high scorer with 21 points. Jackson added 14, one more than teammate Levern Tart.

Ellis, who had to carry most of the load following Harge's departure, led the Lobos with 18 points.

Tart, a 6-2 forward from West Palm Beach, Fla., was soon

named the tournament's most valuable player in post-game ceremonies.

Pick-em Contest
New Mexico, playing in its first NIT, had gone into the final game with high hopes. The oddsmakers pegged the game as a pick-em affair. But even the Lobos' staunchest rooters at the Garden, including Gov. Jack Campbell of New Mexico, had nothing to cheer about once Bradley took control of both backboards midway in the first half.

In the consolation game for third place, Army overcame a brilliant second-half performance by Barry Kramer to nip New York University, 60-59, on a one-hander by Mike Silliman with five seconds remaining.

Kramer, the greatest scorer in NYU history who was playing his final college game, tossed in 13 of the Violets' last 14 points in the final 10 minutes, but it was not enough. His final two free throws with 24 seconds remaining gave NYU a 59-58 lead.

Army then called a timeout and when play resumed the Cadets set up Silliman, who unleashed his one-hander from the Cadets.

Highland Park Wins Swim Title
LUBBOCK (UPI) — Highland Park of Dallas captured its fourth straight state high school swimming championship by winning the meet's final event Saturday.

Highland Park wound up with 40 points, three more than runner-up Alamo Heights of San Antonio. Spring Branch Memorial, an early favorite in the meet, was third with 33 points, just one ahead of Wichita Falls.

Memorial was deprived of second place because its 200-yard freestyle relay team, fourth in the race, was disqualified for a man starting too soon.

QUEEN CANDIDATES — This trio of junior lovelies from Pampa High, from left: Joy Shultz, Janie Leverich, Paula Sealey, are vying for the title of Basketball Queen at the All-Sports Banquet Thursday night at Harvester Fieldhouse. The winner will present the Hustling Harvester trophy to the Green 'n Gold cage warrior chosen for the honor. Tickets for the banquet, at \$2.50 each, can be obtained at the Pampa Chamber of Commerce, the PHS school administration office, the Pampa Daily News sports department, from coaches and from members of the CofC Sports Committee.

Harvesters Split In Dumas Duel

By JEFF COHANE
Pampa News Sports Editor

Rick Stewart beat out an infield single with two out in the bottom of the seventh inning to send Kenny Hebert home with the winning run and give the Pampa Harvesters a 7-6 comeback victory over the Dumas Demons, splitting the opening doubleheader yesterday at Optimist Park as the Demons had squeezed out a 3-1 victory in the opening game.

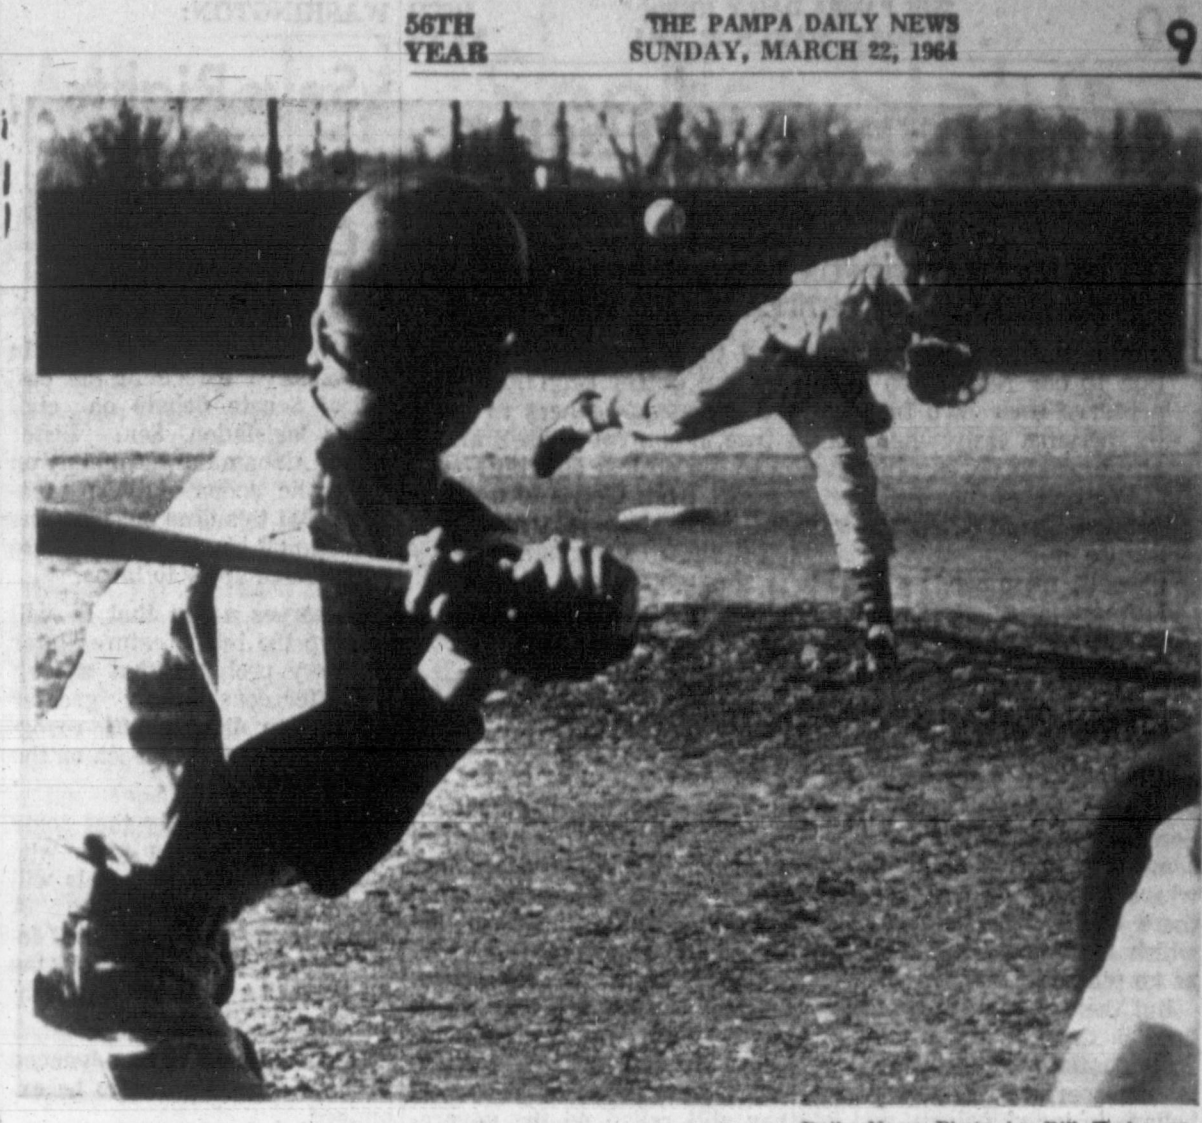

Most of the scanty and shivering crowd had left after Dumas scored five runs in the fifth inning, but the remainder saw a tremendous relief pitching performance by Blazing Bobby Price and the key hitting of Stewart, Hebert, Steve Molberg and Bandit Madrid pull the Harvesters out of the fire.

The smooth-fielding Demons seemed well on their way to a twin win as an error on an infield pop opened the floodgates for their five runs. The Harvesters had committed a total of six errors and gotten but seven hits through the first game and the opening four innings of the second until their potent bats suddenly came to life in the last three innings.

Only bright spots up until then for the Harvesters had been the pitching performance of sophomore Roy Harper and the steady hitting of Hebert and Ricky Goodwin in the first game. Harper, in his first appearance on the mound, struck out four and allowed no hits or walks in his two-inning stint. Jim Arthur had preceded him with a one-hitter for two innings, and Jerry Garrison had buried two shutout frames and Larry Daniels one in the opening game.

Sophomore Bud Hammons was the victim of a two-out error in the fifth inning of the nightcap, which was followed by back-to-back doubles by Lyle Peiffer and Boyd Lane, a walk, three-base error and single by Robert Moffatt. Price then came in to put out the fire and strike out six batters in a row before Mike Harvey took a wild swing at one of the lefthander's blazing fast balls and popped it over the center field fence. Price then struck out his seventh opponent to close the Demons out.

A walk; single by Molberg and a Dumas miscue brought in two runs in the Harvesters' half of the inning. Two walks and two wild pitches in the sixth and Stewart lashed a single down the first base line for two more runs. Reliever Clyde Gregory put out the fire and struck out the first batter in the seventh, but Phil Smith whacked a single, Madrid then got his third straight hit, a double, and Hebert then sent them both home with a single over second.

COMING IN — Robert Moffatt of Dumas awaits the pitch, coming in from the arm of sophomore flinger Roy Harper of Pampa to catcher Larry Daniels. Harper struck out four in two perfect innings yesterday.

Michigan Cagers Hot In Kansas State Win

KANSAS CITY, Mo. (UPI)—Bill Buntin, playing with scoring twin Cazzie Russell, scored 33 points Saturday to lead Michigan to a 100-77 victory over Kansas' State in the third round of the NCAA Basketball Championship Tournament.

Undeclared UCLA, the nation's top-ranked team, met Michigan in the opening game. Michigan, refusing to be crippled by the lamedness that kept Buntin out of uniform, fought behind 13 times before the advantage for keeps. Bob Cantrell's field goal that won the Big Ten champions a 35-32 lead with 13:35 remaining.

Buntin, a 6-foot-7 center, ridded Kansas State's defense beneath the basket. He scored 11 points in the first half and 22 in the second. He sank 15 consecutive free throws during the game, missing only his first and last attempts.

Cantrell, the shortest man on Michigan's team at 5-foot-10,

Tommy McD Nixes Trip

PHILADELPHIA (UPI)—Eagles flanker Tommy McDonald, said Saturday there is a possibility he might retire from professional football rather than go to Dallas "but the chance is very slim."

McDonald said he was "flabbergasted" Friday when Eagles head coach Joe Kuharich informed him he had been traded to the Dallas Cowboys for place-kicker Sam Baker and linemen Lynn Hoyem and John Meyers.

"But as for my retiring, I'm not sure yet because football is my first love and I figure I have four or five good years left in me yet," he said.

McDonald explained that he is a representative for a cigar firm here and "they pay me all year around. I have a lot of other business interests here. I was lined up for a sports TV show for Phillies and possibly a radio show. Plus, I was going to open a real nice restaurant but the trade threw a wrench into that."

Betsy, Kathy Tie In Western

PENSACOLA, Fla. (UPI)—Two-time winner Betsy Rawls and consistent money winner Kathy Whitworth battled chilling winds Saturday to take the halfway lead in the Women's Western Open golf tournament with 154's.

First day leader Ruth Jessel scored an eight over par 45 coming home to tall two strokes off the pace. Miss Jessen had a triple bogey eight on the par five 11th and she double-bogeyed another hole on the last nine.

Mary Lena Faulk, the Georgia stringbean, fired a two-over par 77 for second place at 155.

Tied with Miss Jessen for third was Judy Kimble with 77-79-156.

Casper Leads Doran Field by One

MIAMI, Fla. (UPI)—Billy Casper, burning up the course with the putter which made him famous, shot a five-under-par 32-35-67 Saturday to grab the third-round lead in the \$50,000 Doral Invitational golf tournament with a total of 207.

Casper, despite a bogey on the 18th hole where he was bothered by a photographer and three-putted, jumped one shot in front of young Rex Baxter of Amarillo, Tex., who had 36-36-72, while Jack Nicklaus shot a 73 to fall two shots off the pace.

Tied with Nicklaus at 209, seven under par, were Bob Shave Jr. of Willoughby, Ohio, with a 38-35-73 and Jack Rule.

Borger Team To Beat in YCC Tourney

Borger will be the team to beat in the Top O' Texas Basketball Tournament, warned Pampa Youth and Community Center director George Smith.

Smith, hosting the eight-team tournament, rates Borger as the favorite, Motor Supply, KPDN, Richard Drug and Panhandle Packing as the top contenders and Perryton a very strong dark horse.

Borger, with four starters ranging from 6'6" to 6'4", gets the nod on tremendous height and on the presence of Ron Altenberg, who played for the Phillips 66 Oilers last year, and All-State and college star Frank Castleberry.

The Richard Drug Synonyms recruited heavily from YCC League teams which did not enter the tourney, including Ronnie Mills the White Deer ace, Arlen Kaiser and Roy "Gunner" Pool and Gene Brown of the Pampa Jaycees.

Motor Supply, winners of the YCC League season, will go with their regular team, featuring Jim Krinklaw, James Lee and Sam Condo.

KPDN stars PHS coaches Terry Culley and Roy Kieval, Gary Griffin of the Jaycees, and Harvester ace Charlie Price.

Perryton will be headed by the fabulous Jim Reed.

Opening round games Monday night will have Perryton vs. The Synonyms at 7 and the Supplymen against Spearman Jaycees at 8:30. Tuesday Amarillo General Office Supply will tangle with KPDN at 7 and Borger and the Packers at 8:30.

Semifinals will be played Wednesday night with the winners meeting for the title Friday following a consolation round between the losers.

Jr. of Cedar Rapids, Iowa, with a four-under-par 33-35-68.

Arnold Palmer, struggling to recapture the touch which made him the king of the fairways, had little luck as he fired 36-37-73 for a 217 which left him 10 shots behind Casper.

Survives Cut

However, Palmer survived the cut to the low 60 and ties for Sunday's final round. Looking out by shooting over the 220 cut mark were such as Art Wall, Tony Lema, Bob Goalby, Doug Ford, Don Fairfield, and Jerry Barber.

Nicklaus, Baxter, and Shave were tied for the lead starting Saturday's third round, which was interrupted at one point for 50 minutes by heavy rain. But they finished in bright sunshine but could not withstand Casper's onrush.

The Pampa Daily News

A Watchful Newspaper
EVER STRIVING FOR THE TOP O' TEXAS
TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities. We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself, no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

A Telling Point for Individualism

Individualism and collectivism are two opposing doctrines. Some folks favor the one idea, some the other. In a nation where freedom is a birthright, there ought to be a system in which a person could believe as he pleased. But there is one major difference in these divergent views. Individualism, by its nature, is non-coercive. A person can believe in individualism, and let others believe as they please. But a person cannot believe in collectivism in the same way. To be a collectivist REQUIRES the conformity of everyone else. This is the source of the real problem we face today. Differences of view should not only be permitted, they ought to be welcomed. But implicit in freedom of opinion, is the idea that regardless of the opinion taken, no one should be coerced to share the view of another.

To provide an illustration, let us take the question of government-supported and managed schools. Assume a state with 2,000,000 population, and let us suppose that of this number some 1,500,000 persons favor government schools. They have a right to their views, of course. They want government to tax them and to provide schools for their children as a result of these taxes. But there is a minority group of 500,000. This group would like to put their children in private schools. They do not like government involvement in the delicate task of training and educating their children. Well, they have a right to their views, too. And if minorities have any rights in this country, they should not be oppressed because of their opinions.

But examine the situation. Because the majority group favors compulsory education, the minority loses its rights totally. The minority is compelled to pay taxes to support the schools favored by the larger segment. Then, if they wish schools of their own, they must provide them and pay for them on top of the fees forced from them in support of schools they don't want and won't use.

Here is the real problem between individualists and collectivists. The individualists, admittedly a minority, are in no position to force anyone to their wills. They simply want to let alone. They don't want to force everyone else to a tax-free existence. They simply want to escape the double cost they encounter when they educate their children.

Is something wrong with this? If so, what is it?

Who Pays for Highways?

The public needs to be reminded frequently that it is the taxpayers and not the government which is financing all the goodies they are receiving. Humble Oil & Refining Co. of Houston publishes a magazine The Humble Way. In a recent issue the company publication showed a picture of a sign along an "Interstate Highway" in Texas, which had the usual propaganda, showing the number of miles of highway in the particular project, the cost of the work, and the statement "State Funds 10 per cent - Federal - Aid Funds 90 per cent."

Signs displayed on the 11,000 federal-state highway projects now under construction throughout the nation show the proportion of the cost paid by federal and state governments. Some people believe this is slightly misleading because the cost is paid by the owners of the nation's 79.7 million motor vehicles. The money does not come from general funds of state and federal governments, but, from gasoline and other taxes paid by vehicle owners. In fact, motorists are paying for more than these highways, for part of the gasoline tax they pay is diverted into general funds and used for other purposes. Of the \$5.1 billion collected in federal highway user taxes each year, some \$1.8 billion goes into the general treasury and is not used for highways. The states collect another \$5.8 billion a year from highway users and divert about \$440 million from highways to other uses.

But the collectivists are in such a weak position, philosophically, that they cannot brook opposition. This is the problem arising from all compulsion. Once compulsion has been accepted as a way of life, EVERYONE must be compelled. And this is the problem which would be faced, say, if the tables were turned and individualists were in the majority, yet they still relied on the government to make decisions for them. Then, because individualists were in a majority, they could, conceivably, pass a law forbidding government schools.

But this would be wrong, too. But it is a kind of wrong many people have difficulty in recognizing because we are all of us too certain that the majority, whatever it says, rules out the minority. This may be one of the reasons why more people do not express the individualism they feel and want to experience. They imagine that the position of the true individualist is one wherein, if the individualists ever got the upper hand, collectivism would be ruled out. It could not be in terms of moral understanding.

If there was a group of, say, a mere 100,000 who wanted compulsory tax-supported schools, there would be nothing wrong with this group turning their educational problems over to the government, permitting themselves to be taxed, and getting the result. But it would be wrong for this group to tax the remaining 1,900,000 so they could have their schools.

This is our way of thinking, the factor that makes individualism so attractive and so unanswerable in terms of logic. The individualist doesn't try to force the collectivist to be an individualist. He merely insists that the collectivist consent himself with coercing others in the collective framework, and let those who wish to be free, be free.

If collectivists would stop coercing individualists and confine their energies to those who approve of coercion, we could have little objection. But the weakness of collectivism resides in the fact that individualism, on this ground, is more attractive.

There are many organizations today in this country which pride themselves on supporting the rights of minority groups. The trouble with most of them is that they really don't support minority rights at all. They try to win a majority to their standards and then they use force to compel all minorities to disappear.

There is nothing here as a matter of legislative history that would require racial balancing.

As for the broad fund cut-off power in Title VI, some senators can be expected to echo the view expressed by Rep. John Lindsay, R-N.Y., (and more than a few lawyers) that the federal government actually now has this kind of authority. Title VI, said Lindsay, would merely erase doubts as to congressional intent and eliminate "separate but equal" provisions where they have been — in limited instances — written into federally assisted programs.

Further answer to Hill is found in a recent Supreme Court decision which said it is unconstitutional to practice discrimination in facilities built under the federal Hill-Burton hospital aid program. The bill's advocates see Title VI as doing little more than casting this in statutory terms.

As for the antidiscrimination specifics set forth in Title VII, the "equal employment opportunity" section, it is to be argued that either existing federal law or freely adopted union policy already imposes nondiscrimination obligations on unions and unionized employers.

The bill's effect, it is said, would be to extend these obligations to nonunion employers — and thus strengthen rather than weaken union freedoms. Damage to union rights is categorically denied.

WASHINGTON:

Says Rights Bill Would Hurt Labor

By BRUCE BLOSSAT
WASHINGTON (NEA) — In his massive speech at the outset of Senate debate on civil rights legislation, Sen. Lister Hill of Alabama dwelt mainly on its public accommodations features. But this does not mean he is softening his attack on those parts which apply to labor.

He serves notice that he will take up the labor features later on. Very probably that assault will offer considerably greater detail than did his little-recognized Jan. 15 floor speech on the subject.

It is just as likely that some of the Senate's big guns who favor civil rights proposals will be moved to answer Hill. A carefully reasoned reply is demanded by the fact that the Alabama man is an established friend of labor.

The arguments to be advanced by both sides deserve to be examined.

As Hill sees the House-passed bill, it would virtually strip away the basic rights and protections organized labor has fought for more than a century to gain.

He finds the danger to labor not only in the bill's Title VII, which would seek to bar discrimination in employment, but also in Title VI, which would authorize the federal government to withhold funds involved in federal assistance programs, where racial discrimination is being practiced.

He argues that together these provisions would give the federal government both general and specific grants of authority enabling it to undermine union seniority privileges, representation rights under the National Labor Relations Act and the Railway Labor Act, the operation of referral (hiring hall) systems and other procedural rights assured under existing statutes.

In the detailed legal memorandum on which his Jan. 15 speech was based, the senator contended that the government could use the fund cut-off authority in Title VI not simply to bar discrimination but to achieve "racial balance."

This term is taken to mean a condition in which the number of Negroes employed corresponds roughly to their proportion of the total potential work force. According to Hill, in any situation where not just discrimination but racial imbalance existed, employers would no longer be legally bound to deal with the unions involved. Hard-won rights could thus be set aside totally.

Labor's friends on the other side of the argument are likely to deny flatly that any such sweeping, dire consequences will flow from this bill.

They will point out that the bill makes no reference to "racial balance." House proponents of the measure, including key Republicans, stressed this in the February debate. Rep. Charles Goodell, R-N.Y., said on the floor:

"There is nothing here as a matter of legislative history that would require racial balancing."

As for the broad fund cut-off power in Title VI, some senators can be expected to echo the view expressed by Rep. John Lindsay, R-N.Y., (and more than a few lawyers) that the federal government actually now has this kind of authority.

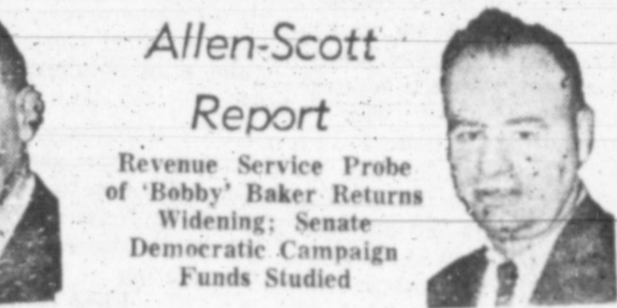

Title VI, said Lindsay, would merely erase doubts as to congressional intent and eliminate "separate but equal" provisions where they have been — in limited instances — written into federally assisted programs.

Further answer to Hill is found in a recent Supreme Court decision which said it is unconstitutional to practice discrimination in facilities built under the federal Hill-Burton hospital aid program. The bill's advocates see Title VI as doing little more than casting this in statutory terms.

As for the antidiscrimination specifics set forth in Title VII, the "equal employment opportunity" section, it is to be argued that either existing federal law or freely adopted union policy already imposes nondiscrimination obligations on unions and unionized employers. The bill's effect, it is said, would be to extend these obligations to nonunion employers — and thus strengthen rather than weaken union freedoms. Damage to union rights is categorically denied.

Allen-Scott Report

Revenue Service Probe of 'Bobby' Baker Returns Widening; Senate Democratic Campaign Funds Studied

WASHINGTON — While the Senate is noisily embroiled in bitter partisan wrangling over the continuance of the sensational Bobby Baker investigation, the Internal Revenue Service is quietly expanding its probing of his multifarious financial operations.

At IRS request, the Senate Democratic Campaign Committee has turned over its files on campaign contributions and disbursements for the years 1956-63, when Baker was secretary of the majority.

During this seven-year period, he played an important backstage role in the committee's far-flung political operations. It was common knowledge in Democratic circles, especially among senatorial candidates, that Baker received and disbursed large sums of campaign contributions.

For example, at the height of the tense 1962 congressional elections, he visited a number of states as the campaign committee's representative to determine how much financial aid would be given the Democratic senatorial candidates.

Senator George Smathers, Fla., who the investigation has disclosed had business ties with Baker, was then committee chairman.

The decision to make the committee's records available to the Revenue Service was made by Senator Warren Magnuson, Wash., current chairman. He reached this determination in response to the IRS' explanation that it wanted these financial files to check them against Baker's income tax returns.

It was the IRS angle that brought to the Senate Rules Committee the dynamite-loaded affidavit from accountant Milton Haut charging his name had been forged on some of Baker's returns.

The IRS probe is particularly significant, as the Democratic members of the investigating committee have hotly opposed Republican demands for a full airing of Baker's tax reports. The Democrats have contended this is outside the committee's scope — an interpretation strenuously challenged by the GOP.

Meanwhile, Senator John Williams, R-Del., veteran "one-man investigating committee," whose charges precipitated the Baker probe, is conducting his own inquiry into the latter's handling of campaign funds.

Williams has an affidavit that Baker conferred with a top Teamster official during the 1960 pre-convention contest. From other sources, Williams has information that Baker received sizable Teamster contributions during this period — when Baker was very active for then-Senate Democratic Leader Lyndon Johnson.

Also in Senator Williams' possession are documented reports that Baker conferred in New York City with the late President Kennedy at the height of his fall campaign for the White House, and allegedly turned

over a large amount of money. If the investigating committee refuses to go into these matters, it is Williams' intention to air them in detail in a Senate speech.

SECRET "MAGIC" STOCKHOLDERS — A key issue behind the stormy partisan clash over continuance of the probe is the strong Republican suspicion that a number of high-placed officials made big profits by buying shares of the Mortgage & Guaranty Insurance Co., Milwaukee, at bargain basement prices. The probe has disclosed that Baker made a killing in "MAGIC" speculation.

Potently reinforcing the GOP belief is the vehemence of the Democrats' hostility to digging into the affairs of "MAGIC." They have violently fought that. The Republicans have unavailingly sought the list of the company's stockholders. The Democrats contend this is not pertinent to an investigation of Baker's activities.

The GOP has information that at least four senators and certain high administration officials were let in on the lush "MAGIC" melon.

Neither side has mentioned any names. But a significant discussion of this backstage bombshell occurred during one of the hot Senate clashes over the investigation. Highlights of this unnoted exchange are as follows:

Senator Frank Lausche, D-O.: "As I understand it, some members of the committee want the records of 'MAGIC' brought in so as to be able to trace the orders issuing stock and the source of such stock."

Senator Hugh Scott, R-Pa.: "That is correct."

Lausche: "Is it the belief of some members of the committee that stock was issued to others than those identified in testimony before the committee?"

Scott: "Yes. There is evidence in the testimony which indicates that this company was to issue some \$700,000 worth of stock to persons who could be helpful in its development, and that this stock would be issued at less than the market value. The committee has been able to unearth the issuance of between \$100,000 and \$200,000 of the stock, but as to more than \$500,000 worth of the stock we know nothing. We believe it was issued, but we have no proof. We have not had the opportunity to learn the facts."

Lausche: "What request was made to find out whether the stock was issued, the price and to whom it went?"

Scott: "We submitted a list of 14 witnesses, but the majority has shown no interest in subpoenaing them or the records of the company. It appears to be the firm intention of the majority to terminate the investigation despite the fact that it is confronted by demands for witnesses and for records in accordance with the rules of the committee."

Question Box

(We invite questions on economic and proper functions of government which will not injure others.)

QUESTION: "What does 'Ever Striving For The Top O' Texas To Be An Even Better Place To Live' mean to you?"

ANSWER: The best place to live is where more people have the will to try to understand the universal laws that govern the universe. Especially does it relate to where individuals respect the unalienable rights of every other individual. Morality, liberty and peace come before material prosperity.

This was pretty well summarized by Jesus who was credited with saying, "Seek ye first the kingdom of God and his righteousness and all these things will be added unto you."

At we understand it, the kingdom of God is within each individual to the degree that he lives in harmony with God's laws, or even tries to live in harmony with God's laws.

A better place to live is where people have convictions and are willing to express them into mathematical language. That is, where they define their terms so there is no misunderstanding what the word means. When people have convictions as to what is right they naturally will want these convictions examined. And just for the sake of self-protection and peace of mind if they see another person doing something that will destroy him and others they will warn him. If they do this then his blood is not on their hands. But if they fail to warn him for fear that it will make them unpopular or they will lose power or money, then if he goes ahead and does it, his blood is on their hands.

What a man believes is what he is. Man should try to have convictions as to what is right and good. That is what we mean by making The Top O' Texas an even better place to live.

SOCIAL WHIRL — Three imposing legal organizations gave a reception for the Supreme Court, but that didn't seem to cut much ice with the justices. Only Chief Justice Earl Warren and Justice Hugo Black, accompanied by their wives, showed up. The other "Seven Old Men" ignored the party by the District of Columbia Bar Association, the National Lawyers' Club and the District Chapter of the Federal Bar Association. There was no explanation for the cold shoulder; even Warren and Black couldn't account for it. Jordan's King Hussein is expected to bring his blonde English wife with him when he visits Washington April 14. President and Mrs. Johnson have invited her, and the General Federation of Women's Clubs has asked her to address them. Jordan's Ambassador says he confidently anticipates that Princess Muna, as Hussein's wife is known, will be with him. Oil-rich Kuwait, with a population of 330,000, is a tiny state, but it staged a giant party to celebrate the accession of its ruler, His Highness Abdullah Al-Salem Al Sabah. Some 900 diplomatic and other free-loaders turned out to partake of a lavish buffet and unlimited liquid refreshments.

Between the Bookends

IS IT REGULATION OR REGIMENTATION?

In drawing up the United States Constitution, America's founders were dedicated to providing the unalienable right of individual free choice. They had watched the march of history through Europe, and deliberately undertook to provide safe

guards against varying degrees of dictatorship. They had mind protecting the people against a strong and grasping Executive branch by setting a system of checks and balances.

How that system has been circumvented, ignored, manipulated and otherwise violated, the subject of a book by Merrill Stanley Rukeyser, "The Attack On Our Free Choice" (Mona Books, Inc., Derby, Conn., paperback). Mr. Rukeyser is a syndicated economic columnist for many years, a consultant to presidents and of high government officials, an eminently readable critic of government.

Called "Progressive" Mr. Rukeyser shows how Communists and "liberals" used to remove Constitutional safeguards by legal means, try to make varying degrees of regimentation seem more glamorous and "progressive" than freedom.

He also shows that the attack on our free choice is by means restricted to Marx and liberals. It is also made public officials grasping for power without always recognizing the implications of what they may be doing. He gives as examples the Interstate Commerce Commission's restriction over railroads, and TVA's similar control over electric power in the huge Tennessee Valley.

The author's thesis is that depressed 1930's created a litl and intellectual movement which disturbed the long-range balance and enlarged scope and responsibility of government in the lives of all Americans. And he says that so has been widening ever since. The trend, which dangerously weakened the American tradition of self-help, was promoted by the contention that it represented growing awareness of social and humane responsibilities by government.

Loss of Freedom

Its real danger, Rukeyser asserts, lies in the fact that the American people are losing our right to disagree; through misinformation we are lulled into a false sense of security; and that via "pie-in-the-sky" political promises, we are losing our precious right to free choice.

The American system, which has led the world in accomplishments, and in setting high standards, is uniquely characterized by an abundance of free choice. Easy-to-read books like "The Attack On Our Free Choice" will help restore the system and enlarge it.

or dress. The custom originated in England soon after the Norman invasion in 1066 A. D., prior to that in ancient Greece and Rome to indicate family clan. They were legally recognized in England during reign of Henry V about 1414. A Duke University dermatologist says sun lamps are of value except psychological, and adds that vitamin D from sunlight can be better obtained from milk and foods. Raleigh (N.C.) TIMES reported: "Mrs. Blank was bewitched in black lace." We'll bet it was.

Country Editor speaks "whenever you hear some yearn for the good old days, do them if they'd want to go to them without indoor plumbing, central heating, electric and television."

By Frank J. Markey

One of the little known facts that help make New York's Radio City Music Hall the "Showplace of the Nation" is the attention to detail given every phase of the huge operation that sometimes caters to as many as 25,000 patrons in a single day. For example, a fresh 70-by-35-foot motion picture screen is installed every six months at a cost of several thousand dollars to insure clarity of vision for every patron. They are made of vinyl plastic with a lenticular surface coated in pearlescent finish and constructed to give even light distribution to all parts of the auditorium. That's something the average moviegoer never thinks about when he buys his ticket.

asked her father: "What makes a man give a woman an engagement ring, Daddy?" Daddy replied: "The woman."

The car you are driving may not have come from Detroit, Michigan, although that city is the Motor Capital of the World. It might be a local product since most of the big companies now have branch factories in 17 other states including Missouri, Wisconsin, California, Massachusetts, Indiana, Kentucky, Virginia, Texas, Illinois, Minnesota, Kansas, Maryland, Delaware, New York, Georgia, Ohio and New Jersey. One of the side costs of war and the defense programs are the compensation benefits paid to veterans and their families. Last year the Veterans Administration disbursed in excess of nearly \$4 billion to more than 4 million claimants.

Thoughts while shaving: An executive of a firm of leading importers tells us some good news for economy-minded Scotch drinkers. He says they import Scotch whiskey from Scotland in barrels and bottle it here, thus creating a savings on taxes and transportation that would otherwise be passed on to the consumer. Demineralized or distilled water used to bring it down to drinking strength (.868 proof) is "neutral." He says water loses its character when distilled or demineralized so that its geographic origin is not significant. According to a recent safety survey human carelessness or error caused 85 per cent of all fatal automobile accidents in the U. S. last year. Remember, when you're driving your car, you're at the wheel of a steel-guided missile that weighs almost a half ton or more. Surnames, without which it would be difficult to identify persons, originated in various ways. Originally individuals were only known by their Christian names, then certain distinguishing names began to be added. Some surnames are descriptive of some ancestor's place of residence; others refer to some peculiarity of character.

answered by the United States Constitution, America's founders were dedicated to providing the unalienable right of individual free choice. They had watched the march of history through Europe, and deliberately undertook to provide safe

guards against varying degrees of dictatorship. They had mind protecting the people against a strong and grasping Executive branch by setting a system of checks and balances.

Farm Page

THE PAMPA DAILY NEWS
SUNDAY, MARCH 22, 1964

Agriculturally Speaking

By: FOSTER WHALEY
Co. Agricultural Agent
Our meeting at Grandview was well attended and much interest generated. Over 50 farmers were present.
Discussion was given on all uses of spray rigs and chemicals.
Growing dryland grain sorghum was discussed also.
Milo Variety Test
We exhausted our supply of seed reports from the Bushland Experiment Station. We now have a new supply on hand. Call our office, MO 4-3441, if

you are interested in the outcome of different varieties of milo tested at the Bushland Experiment Station in 1963. R. S. 610, one of the higher dryland yielders, is in very short supply.

Feed Grain Program

Deadline for signing up in the 1964 Feed Grain Program is March 27th.

Evelyn Mason, Office Manager A.S.C. Office, reports a heavy sign-up into the voluntary program. For more details, read her story on this page.

Cattle Feeding

Clarence Metrick, Groom, is giving serious thought to putting in an automatic type cattle feeding, air tight, up-right silo system. These systems are becoming more numerous over the Panhandle and South Plains area. Although rather expensive to install, one man can handle up to 1200 head in one and one-half hours according to authentic reports. We believe you will see a tremendous increase in the number of small farm feed lots (100 to 500 head capacity). When properly automated, one man can handle the push button feeding chore and carry on his routine farming operations.

Some of the systems are so automated the wife could push the buttons while she is doing her housework.

This type of system will expand in this area. They can be extremely competitive to the large commercial type feeding facilities.

Facts for You

Of the total U. S. labor force, 10.7 per cent is engaged in agriculture. In the Soviet Union 45.4 per cent of the population is engaged in agriculture.

We have around 185 million people in the U. S. while in the Soviet Union there are around 220 million people. We have about 310 million acres of cropland in the United States while the Soviets have 305 million acres. We have 4.7 million tractors. The Soviets only 1.1 million. We have 2.8 million trucks while they have about 7 million. We have over a million combines while the Soviets have less than one-half million. We use over three times as much electricity and fertilizer on the farms as the Soviet Union on their farms.

Irrigation

I've never seen so much interest in irrigation. Wells are going down every week. Irvin Cole recently completed one. Abe Lewis is thinking seriously about one. There are many other high priced land is to put in an irrigation well. We have many publications on the subject. Come by and chat with us about it.

The best way to cheapen up high priced land is to put in an irrigation well. We have many publications on the subject. Come by and chat with us about it.

BRUCELLOSIS FIGHT CONTINUES — Information provided by Texas A & M University shows Gray County as the lone Panhandle area county through Feb. 1 which has not begun work on brucellosis eradication. Black areas on the map show modified certified brucellosis areas. Wheeler county has filed for a declaration as a brucellosis free area.

Watershed Meet Set for Groom

L. L. "Red" Maies, president of the Security State Bank, Cheyenne, Okla., will be the guest speaker for the Groom Lions Club, 7:30 p.m. Tuesday in the Groom High School Auditorium. He is a member of the National Watershed Advisory Committee to the Secretary of Agriculture.

Maies, a country banker, will give a slide presentation of the Watershed Program in action. He was an active supporter of the famous Sandstone Creek Project near Cheyenne, Oklahoma when it was initiated in 1944.

Anyone from Pampa or surrounding towns interested in the McClellan Creek Watershed Program should make plans to attend.

Gregg Cotton Seed

I was talking with Jinks Shaw from Alanreed last week. Jinks farms the Graham irrigated place just East of Pampa. He has over 7000 lbs. of delinted cottonseed of top quality for his own planting. He said he might let his neighbors have some seed also.

This variety will mature at least two weeks earlier than the older varieties. Therefore has many advantages for this area because of short growing season.

Deadline for Grain Program Set Friday

Last day for filing an application to take part in the 1964 feed grain program is Friday, Paul R. Bowers, chairman, ASC County Committee, said today. He urges growers who are interested in the program to call at the county ASCS office.

"Time has a way of slipping up on us even though we think we have plenty," the chairman pointed out. "Actually, there are only 8 working days left in which to sign up for this year's program. The office is open from 8:00 a.m. to 5:00 p.m. on Monday through Friday. We don't want anybody to be disappointed because he ailed too long."

As last year, the feed grain program covers corn, grain sorghum and barley.

Minimum diversion under the 1964 program is 20 per cent of the individual farm's total feed grain base. For diverting more than the minimum acreage from feed grain production into a conserving use, the diverted acres payment will be figured at a higher rate. If the diversion is 40 per cent or more, the higher rate applies to the whole diversion.

Besides the diversion payments, part of which may be paid in advance if the farmers requests it, a participating grower also earns price support

payments on the normal production of the acreage planted to one or more of the three feed grains in 1964, and he is also eligible to put his crops under the regular price support loans or purchase agreements.

Farmers should be sure to remember the final date of March 27.

Wheeler Seeks Status As Brucellosis Free Area

Dusan Pakan, Wheeler County rancher, announced this week that Wheeler County ranchers had mailed a petition to the Texas Animal Health Commission asking that Wheeler County be declared a Modified Certified Brucellosis Free Area.

The petition contained signatures from 75 percent of the Wheeler County ranchers representing 51 percent of the cattle.

In effect, the ranchers asked for the cooperative State and Federal Testing Program for Bangs Disease in Cattle. In approximately 90 days 20 per cent of the cattle in each herd or 50 cattle (whichever is larger) will be blood tested for Brucellosis (Bang Disease). This disease is also communicable to man and is known as Undulant Fever.

At the present time Carson County is in the process of testing. According to Dr. T. H. Leenerts, U.S.D.A. Area Veterinarian, Amarillo, over 100 herds have been tested in that county representing 2000 cattle. Only one herd has been found to be infected.

It has been reported that Roberts County has scheduled a meeting for early April to discuss the possibility of their entering the program.

40 INJURED

VEVEY, Switzerland (UPI)—Forty persons were hurt, 10 seriously Tuesday, when a special train bringing workers from St. Maurice to Vevey collided with an express freight in the railway station here. Railway officials said the accident was caused by a "misunderstanding."

Soybean Market Sinking Due to Number of Reasons

By United Press International
The speculator would hardly recognize today's sinking soybean market as the same one that was acclaimed a bull market last fall.

Last year the government couldn't reduce its estimated carryover figure fast enough and this year Washington grain experts can't raise it fast enough. Carryover for the 1963 season ended around 15-million bushels, compared to the 40-million bushel figure to which statistics now point.

Soybean prices are also plagued by the cutdown on usage — both domestic and foreign — stemming from an unsatisfactory conversion ratio for processors.

And this week's government report on farmers' planting intentions didn't help any either. Farmers said they will plant 31 million acres, up 2.3 million acres from last year. Based on these figures, production this year could hit 756-million bushels against 701-million bushels last year.

March soybeans futures went off the board at noon Thursday at \$2.56 a bushel, down 12 cents from the previous Friday and off about 40 cents from the November peak. Other bean deliveries added another 5 cents on to the previous week's 5 cent loss.

The rest of the grain market on the Chicago Board of Trade wasn't much more heartening, but at least this week's dip in wheat and other grains wasn't as severe as the selloff in soybeans.

Wheat futures fell 2 cents in nervous trade. Farmers' intentions to increase spring wheat acreage by 6.5 per cent over last year and estimates for larger crops in France and Canada plus continued uncertainty over the farm bill brought liquidation to the bread grain.

Corn fell about a cent as the 1.7 per cent decrease in corn acreage was a smaller cut than most longs expected. Oats ended mixed and rye dropped 2 cents.

Hog prices advanced this week in midwestern market while cattle and sheep worked lower.

It has also been reported that a farm organization in Hemphill County plans to circulate petitions to bring that county into the program.

In Potter County they have all the required signatures of cattlemen with the exception of two that are away on a world trip.

It is reported this would be a 100 per cent sign-up when they return.

Should the above counties go into the program as reported, Gray County will stand alone as the only county West of the 100 meridian in Texas that has not been tested.

Laketon Farmer Plans Two Livestock Wells on Ranch

Fayette Seitz is planning to drill two livestock water wells and construct a cross-fence on his stock farm east of Laketon. Wells and fences will improve grazing distribution. Fayette also plans to construct some terraces to conserve moisture and control water erosion. Terraces have proven to be a good investment for him.

Tony Smitherman, a new land owner in the McLean area, plans to plant approximately 50 acres of pasture under irrigation. Tony recently drilled two irrigation wells on his farm south-west of McLean. It has been reported that they are good 6 inch wells. He also plans to irrigate annual cash crops such as cotton and grain sorghum. Irrigation is not new to Tony, since he recently moved to McLean from the Plainview area.

Davis recently outlined the brush control work he plans to do on his ranch east of Laketon. Billy has sprayed several thousand acres of sand sage infested rangeland and has had excellent results. He supervises

each spraying job to insure proper chemical application. Experience has taught him to spray when climatic conditions are ideal. Billy plans to spray 1,050 acres this year.

Clyde Magee has shaped approximately 15 acres of badly eroded rangeland on his ranch south-west of McLean. Clyde has scheduled several conservation jobs for application this year. This included grass seeding, brush control, diversion, terrace, and dam construction and gully shaping. Clyde is investing time and financial resources to reclaim land that could be permanently lost through water erosion. With erosion control measures this land is as productive as most upland in the McLean area.

Several landowners in Gray County have planned their conservation work this year. Anyone interested in grass seeding, dams or wind and water erosion problems should contact their Gray County Soil Conservation District representative.

Canadian Dam Expected to Catch Water in 1965

BY HAL GAMBLE
Pampa Daily News
News Editor

SANFORD — P h 11 Kensley, resident engineer at Sanford for the Bureau of Reclamation, reported this week that the Sanford Dam project was running well ahead of schedule and at the present time is 65 per cent completed.

Kensley explained that this was 4 per cent ahead of schedule and also, that the cost of project has been reduced from the earlier estimate of \$96 million to \$85 million. The cut in cost, he said was brought about by contractors "sharpening their pencils and giving us lower construction bids than previously anticipated."

"Embankment," Kensley said, "is about 57 per cent complete with the earthfill reaching 110 feet above the river bed. Ninety feet more remains to be built on."

In outlining the value of the project to the immediate Pampa area, Kensley said that the reservoir would provide a "firm water supply" for both home owners and for present and an-

icipated industries to be located in the area.

Water will reach this area by means of a huge aqueduct system which will entail a total of 322 miles of pipe and serve 10 cities other than Pampa.

The system, which will utilize

pipes up to 96 inches in diameter, will reach southward through Amarillo and Plainview to Lubbock where it will branch out to Levelland and Brownfield and then continue to Slaton, Tahoka, O'Donnell and Lamesa. Eastward from the damsite the

aqueduct will serve Borger as well as Pampa.

The capacity of the reservoir will be sufficient to develop an ultimate yield of 103,000 acre feet of water annually for municipal and industrial uses, which will be adequate to meet the present estimated demands of the project cities.

The Canadian River project was authorized as a Federal Reclamation project in December of 1950 by the Department of Interior. A repayment contract with the Canadian River Municipal Water Authority, representing all 11 cities, was signed in 1960 and repayment schedule for the authority provides for repayment of the municipal and industrial water supply obligation over a 50-year period.

In addition to its water conservation aspects, the reservoir will provide the entire Panhandle with public-use facilities including picnic areas, swimming, fishing, hunting, camping and boating.

Although the reservoir will start catching water in the early spring of 1965, it will be 1967

before work is completed on the massive aqueduct construction.

Kensley ventures no exact estimate on how long after closure the lake would be full, but said it might occur within a year.

At maximum water level the lake will have a shoreline of 200 miles and will contain 2,435,000 acre feet of water.

The dam itself is of earthfill construction and will have a crest length of 6,300 feet upon completion. The base width will be 1,300 feet and the top width 40 feet. It will rise 199 feet above the stream bed and have a total volume of 13,000,000 cubic yards of earth.

Kensley said clearing of reservoir bed was due to start next week and that the first phase of bidding on recreation work was set for April with another

phase following in May. All phases of construction, including the aqueduct, will be well under way by late in the year,

Kensley said. An additional \$1,100,000 will be required to complete recreational improvements, he estimated, and said that basic facilities will be installed first in the areas where the first water will be impounded.

New Books on Shelves At Public Library

FICTION

Running Sand — by Jonathan Wade; the nebulous anxiety that crystallizes into fear, the terror that freezes into uncertainty open this novel of conflict between character and loyalty, between conscience and political allegiance, on a note of high suspense, that is brilliantly maintained to its exciting conclusion.

The Girls of Slender Means — by Muriel Spark; the mysterious death of a missionary in Haiti awakens the memories of a group of women who knew him when they lived in the May of Teck Club, a home for young ladies of good family and meager means in the war-weary London of 1945.

The Celebration — by Mary Deasy; The Courranes have gathered to celebrate the twenty-fifth anniversary of the ordination of the priest in the family, and the dramatic events of that memorable reunion are narrated by each character in turn.

MYSTERIES

Root of All Evil — by Dell Shannon; a baffling mystery in which Lt. Luis Mendoza discovers that money is indeed the root of all evil.

The Affair of Chief Strongheart — by Patrick O'Malley; those most amazing, urbane

and witty counter-espionage agents — Harrigan and Hoefler — are off and running again in this sophisticated story.

NON-FICTION

Tom Horn, Man of the West — by Lauran Paine; it was Tom Horn who persuaded Geronimo to surrender; it was Tom Horn who was a range detective and Pinkerton operative; and it was he who hired his guns to the Wyoming cattle interests in the Powder River War of 1892.

Tales of the Frontier — selected by Everett Dick; the stories in this book depict different phases of frontier life during the period — roughly 120 years — which saw the penetration and settlement of the mighty stretch of land lying between the Mississippi and the Pacific.

The Footprints of Elephant Bill — by Susan Williams; this is the story of "Elephant Bill" the most legendary elephant trainer who became famous as the Commanding Officer of Elephants for the 14th British Army in Burma during the last war.

Children of the Developing Countries — a report by UNICEF; all those concerned with the welfare of children throughout the world will find much that is heartening in the face of an apparently hopeless struggle; this is at once informative and challenging as it shows the many valuable results already achieved and points the way to the tasks ahead.

The following books have been given to the library as memorial gifts:

- Ghost Town Album** — Lambert Florin
- Old Forts of the Northwest** — by Herbert M. Hart
- Bonaparte in Egypt** — by Christopher Herold
- Fair Gods and Stone Faces** — by Constance Irwin
- John Keats, the Making of a Poet** — by Aileen Ward
- World War II in the Air (Europe)** — by Major James Sunderman, U.S.A.F.
- Heritage of Valor** — by Budd J. Peasle, Co., U.S.A.F., Ret.

Wall Street In Review

NEW YORK (UPI)—Forbes Investigative, Inc., says "most commentators now seem bullish. To the naturally cynical, watch out!"

"Is this a useful signal? The answer is, 'not yet.' Reason: Experience shows that everyone must include the small investor before the rule applies and signals danger—and the odd-lotters are still selling. All in all, we look for a continuation of the strongly rising Dow-Jones, with the major catching up of secondary issues still largely deferred until the leaders level off—especially if their advance can end without any significant setback afterward, as we expect."

Thomson & McKinnon says "after examining the condition of the economy as well as the expectations of a broad cross segment of U.S. industry, it is rather difficult to be anything else but optimistic at this time. As far as the market is concerned, some temporary correction must be expected somewhere along the way, but it also appears logical to expect further advances as reports for the first two quarters should generally make impressive reading."

NEW YORK (UPI)—According to Standard & Poor's, "The stock market is capable of making further upside progress, subject to occasional correction. Stress soundly based values in making new commitments."

The Dow Theory Trader says, "For the next few months, technical studies imply that an irregularly higher market for many stocks and for the averages is more likely than not."

Sanford Project Now 65 Per Cent Complete

See Story on Page 12

AERIAL SHOT — This aerial photograph shows the intake structure and flood control outlet works on north end of the partially built Sanford dam on the Canadian River west of Borger. Picture was

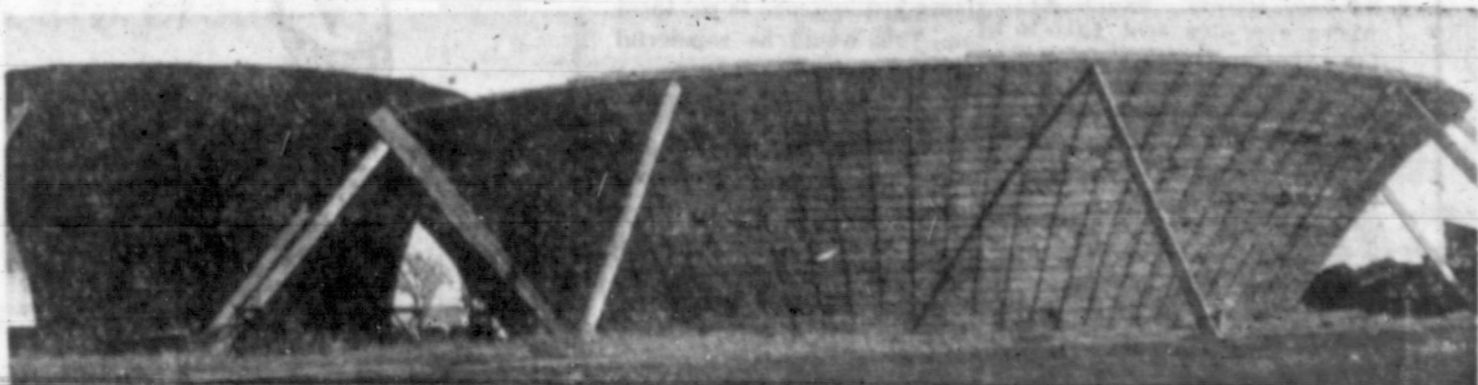

taken facing east and shows the base of the mammoth dam extending to the right from the intake works. The dam will be of rolled earthfill construction and will impound some 2,435,000 acre feet of water.

STILLING BASIN — Here is view of the stilling basin under construction at the Sanford Dam site. This basin is part of the flood

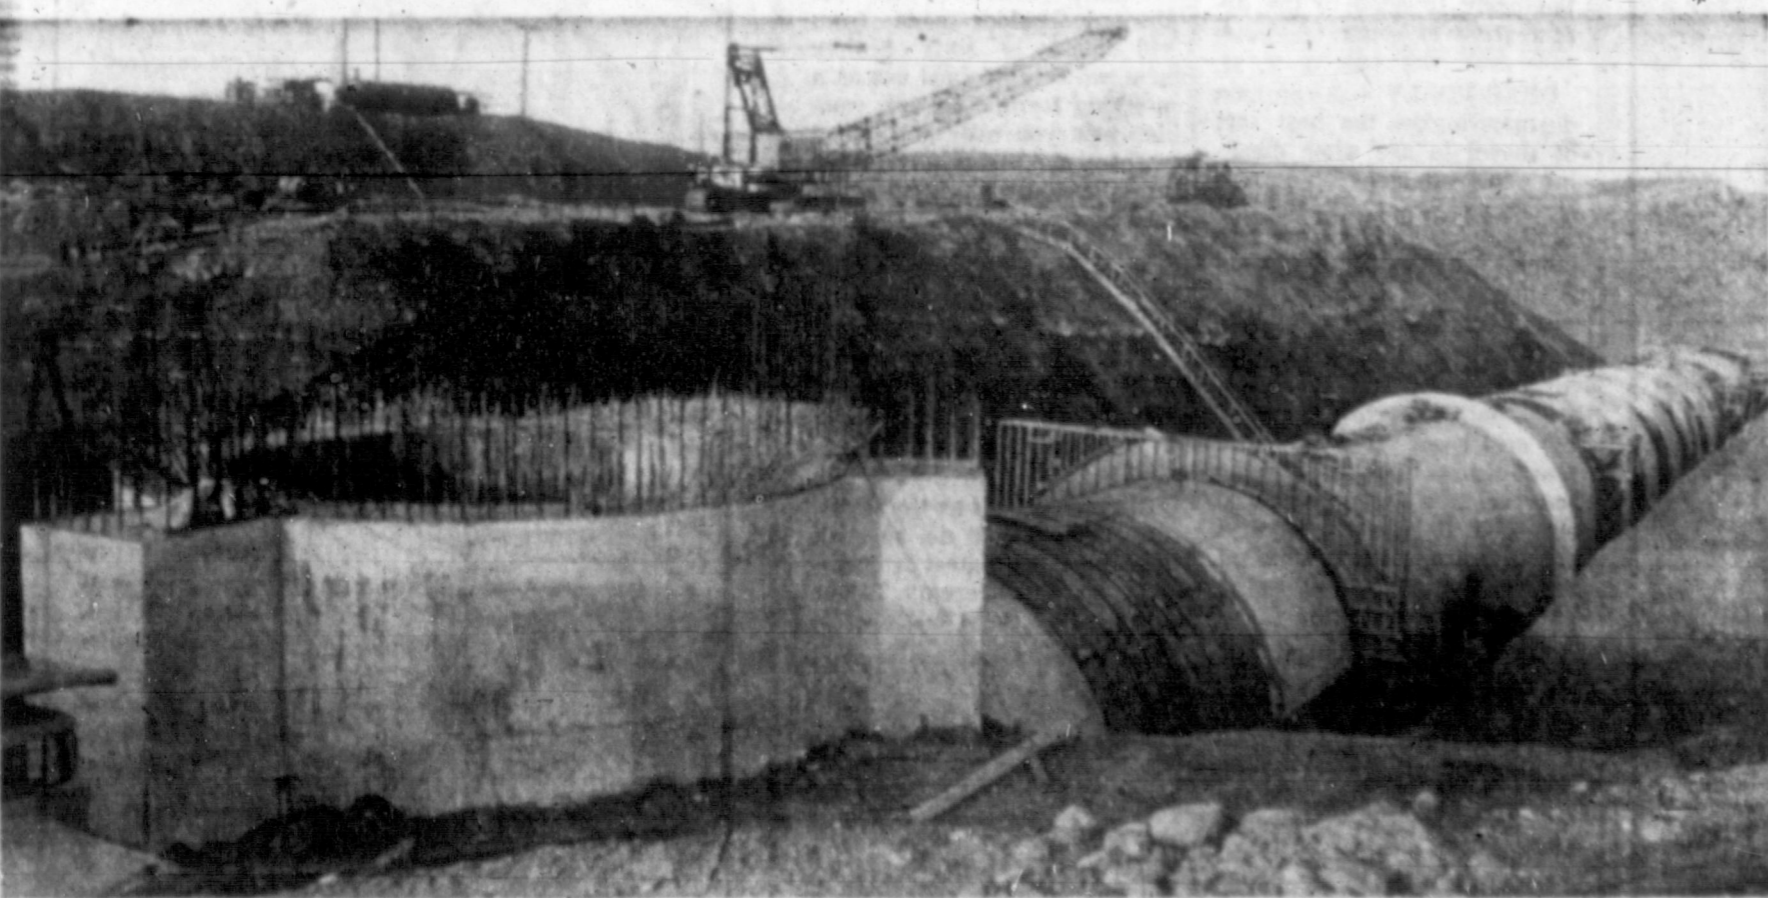

control outlet works which also will consist of an approach channel, intake channel, gate structure and outlet channel.

WORK UNDER WAY — Workers stay busy at construction site on Sanford Dam. The rolled earthfill structure is scheduled to start catching water in the early spring of 1965.

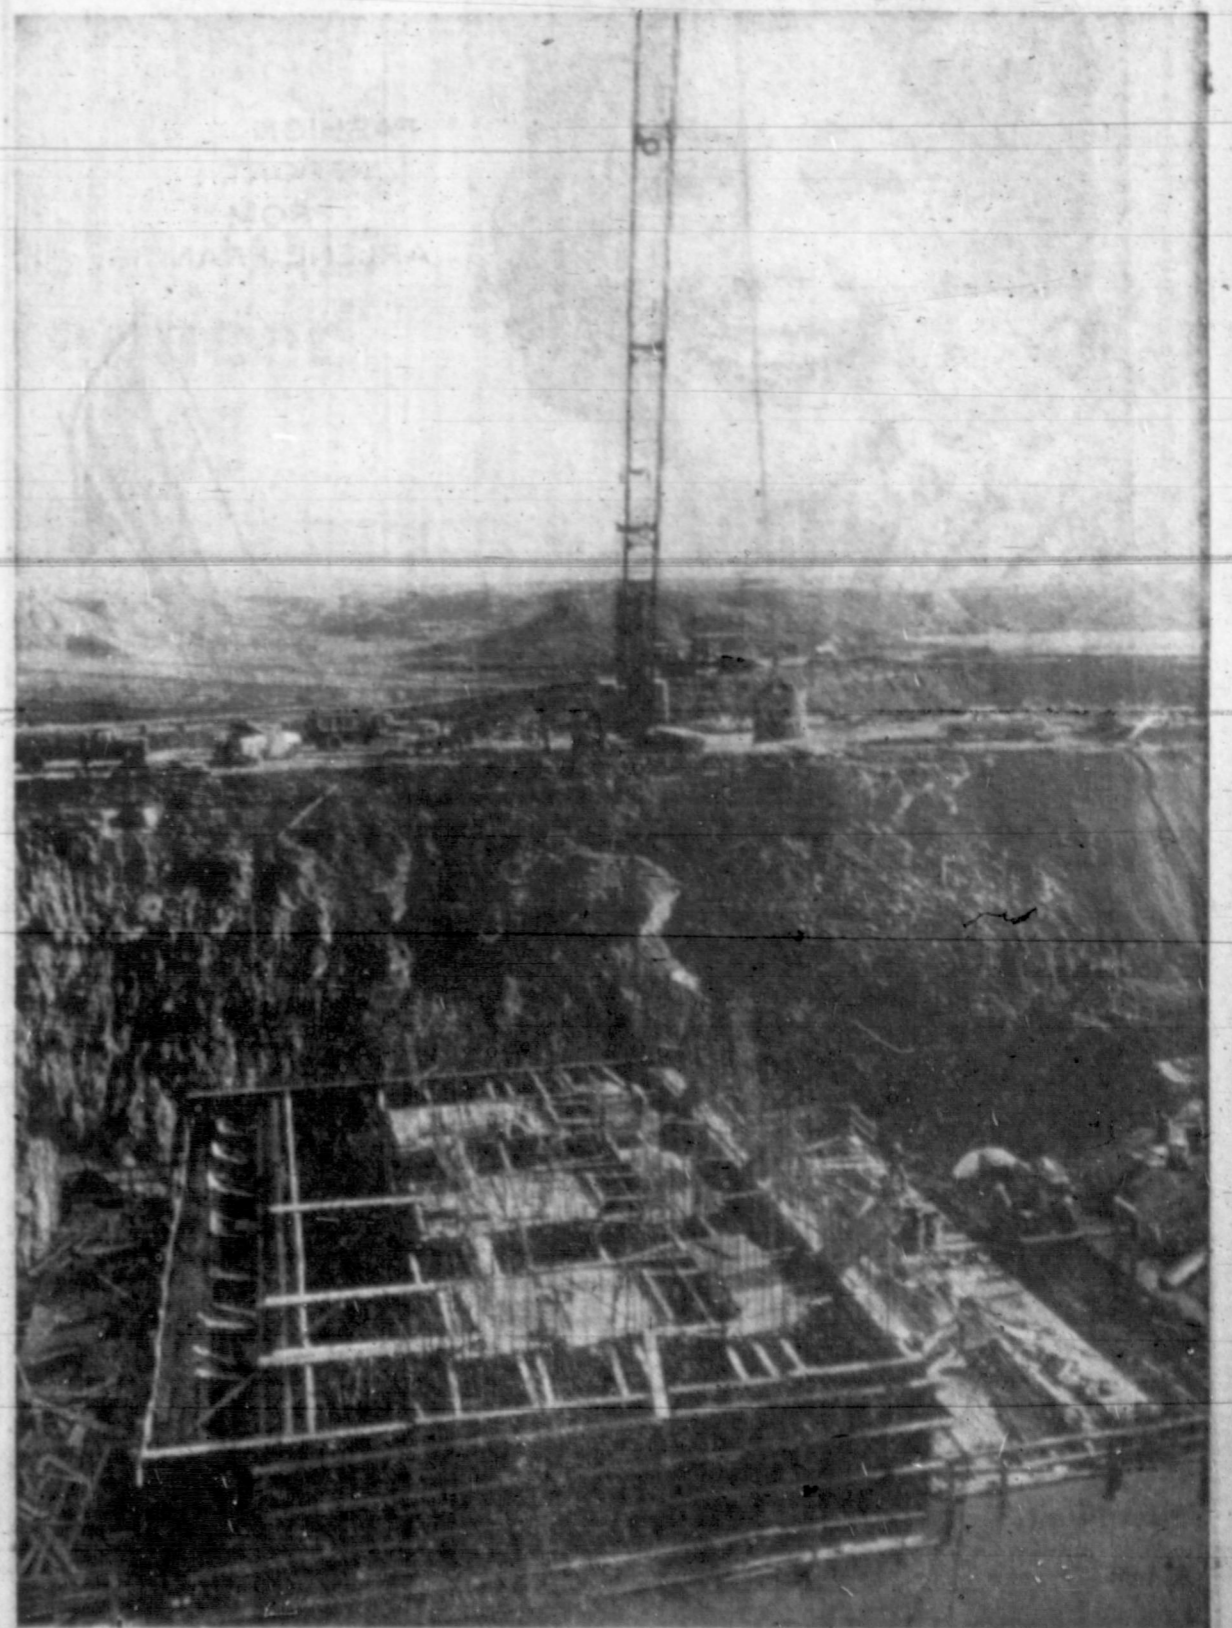

'MORNING GLORY' — Above are forms for the top of the cement "morning glory" which will serve as inlet structure for the conduit shown below. The smaller

part, left, will be placed directly on the upright conduit and the larger structure will go atop it to form an intake funnel.

SPILLWAY WORKS — Sanford Dam spillway, adjacent to the flood control outlet works, consists of a "morning glory" inlet structure having an outside diameter of 61 feet. Maximum discharge capacity for the spillway will be 19,300 cubic feet per second.

LOWER AWAY! — Huge crane delicately lowers a load of cement to the high pressure gates of Sanford Dam now under construction on the Canadian River. Project is now 65 per cent complete. The gate structure will feature both radial and fixed wheel gates.

Laughter Fades as Mayonnaise Works

By ALICIA HART

Over the years, the things women have done to build p assets Nature gave them have made men's heads swim.

Take the hair. One basic problem to maintain healthy hair is balancing the acid and alkaline content.

Those handed down through generations include sugar water or beer for setting hair, and eggs for shampoo. Others used were olive oil and castor oil for pre-shampoo treatments and rins-

es of vinegar or lemon. For those with scalp infections kerosene seemed to do the trick and also was used sparingly to add luster. It is much safer to rub a piece of linen over your hair to bring out luster than to use kerosene.)

Latest adaptation of a household item for beauty purposes sounds like one of the messiest. But a beauty salon owner in Great Neck, Long Island, N.Y., has a rush business because he uses mayonnaise as a hair conditioner. (See LAUGHTER, Page 20)

Couple Recites Wedding Vows In First Methodist Sanctuary

Nora Ruth Wells became the bride of Ed C. Clevenger in a double ring ceremony read in the First Methodist Church March 14. Dr. H. H. Bratcher, pastor, read the rite before a background formed by baskets of white stock and four seven-branch candelabra and jade palms. Miss iSue Ann Wiens presented the organ selections, "Ave Maria" and the "Wedding March" by Mendelssohn; and accompanied the vocalist, Miss Terrie Watson, who sang "I Love You Truly" and "Make Our Hands".

Mr. and Mrs. Joe L. Wells, 915 N. Gray, and Mr. and Mrs. C. P. Clevenger, former residents of Altus, Okla., now living in Lawton.

BRIDE

Given in marriage by her father, the bride was attired in a formal gown of white satin. The bodice featured a scoop neckline and long sleeves ending in points over the hands. The floor length skirt ended, in a chapel train. She wore a single strand of pearls as something borrowed; her grandmother's wedding band as something old and a sixpence in her shoe as something new, a gift from a friend, Carlton Nance.

A white satin covered ring secured her white net veil. Her bouquet of white carnations and roses was carried on a white Bible.

ATTENDANTS

Mrs. William E. Harris of Kilgore was her sister's only attendant. She wore a pale green street length dress complemented with a white glamelias.

C. P. Clevenger, attended his son as best man. Ushers were Price Clevenger, Dallas; and Ben Clevenger of Oklahoma City, brothers of the bridegroom.

Mrs. Wells wore for her daughter's wedding a navy blue linen suit with white and navy accessories. The mother of the bridegroom wore a blue sheath and matching jacket with bone accessories. Both mothers wore corsages of white carnations.

RECEPTION

Miss Betty-Lou McWilliams registered guests attending a reception in honor of the couple in the church parlor following the ceremony. Miss Anna Jo Watson, Miss Susan Watson and Mrs. Doug Luederke presided at the bride's table which was covered with white organza over green and centered with an arrangement of mums, stock and roses.

For a short wedding trip the bride donned a baby blue linen suit with pale blue blouse and accessories. She wore a corsage of white roses lifted from the bridal bou-

Mrs. Ed C. Clevenger

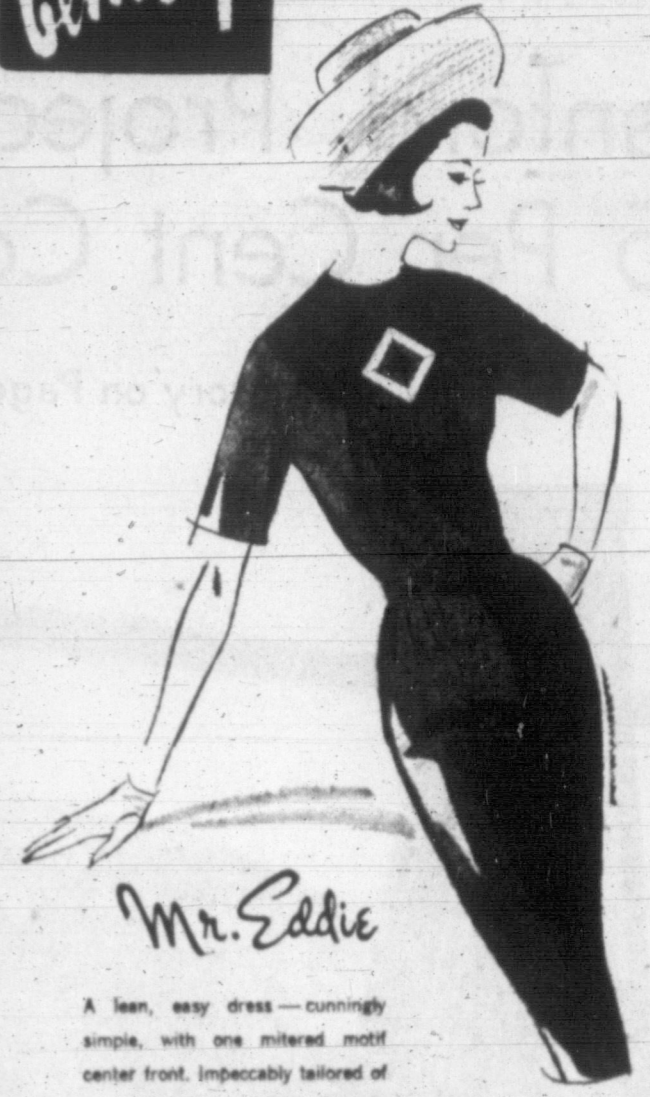

quet. The couple is now at home at 726 1/2 N. 16 in Lawton, Okla.

The bride is a 1962 graduate of Pampa High School and attended Oklahoma State University where she was a member of Delta Delta Delta sorority and vice-president of Family Relations and Child Development Club. She was a member of the Home Economics Club and Lew Wentz Scholarship winner.

The bridegroom is a graduate of Altus High School and attended Oklahoma State University. He is associated with C&E Supply in Lawton.

PRE-NUPITAL COURTESIES

The bride was honored with a shower Feb. 27 by friends. Hostesses for the event were Mrs. William A. Wagner, Carlton Nance, Ed Wiens, Glen Radcliff, Elma Gunn, John Harnly, W. R. Campbell and Paul Bowers. Approximately 50 guests registered.

Mr. Eddie

A lean, easy dress—cunningly simple, with one mirrored motif center front. Impeccably tailored of imported Moygal Irish linen in taupe, gray or navy and sizes 8 to 20.

POLLY'S POINTERS Reader Gives New Slant for Showers

By POLLY CRAMER

DEAR POLLY — Having just read your column about the baby shower by mail where everyone sent gifts to the expectant mother, let me tell you of a shower I attended. The recipient had recently moved away and her friends wanted to "shower" her with gifts for the expected baby. The hostess invited everyone to her house. We all brought our gifts unwrapped, and our wrapping paper and ribbon. We showed each other the gifts, wrapped them and packed them all in one large box. While we were enjoying refreshments, one of the girls took the package to the post office and we all shared the postage cost when she returned. We also took snapshots of the party to send to the absent guest of honor.

—MRS. J. T. H.
DEAR POLLY — A common dustpan makes the best sort of shovel to use when cleaning snow off steps or outside stairways. Begin with the bottom step and scoop as you climb. Try this the next time it snows for it is quick, easy and efficient — A.M.

DEAR POLLY — A small turkish towel is very useful when defrosting the refrigerator or freezer. It absorbs more water than a dishrag and covers a larger area at one time. It is better for drying the sides and bottom of the freezing unit as well as the rest of the box.

Add a small amount of baking soda to water in an empty peanut butter jar. Screw the lid tightly, invert the jar and let it stand all night. The lid rubber loses any odor and the jar can be used to store other foods. —MRS. G.E.R.

DEAR POLLY — To keep the tongue on a child's oxford from slipping down in the shoe, punch holes on each side of the tongue and even with the lace eyelets in the shoe itself. Lace up the tongue with the shoe. This works for canvas as well as leather shoes. —MRS. A. E. M.

have to be laced before they were put on the child and the laces just loosened to put them on. This would be wonderful for baby's high shoes.

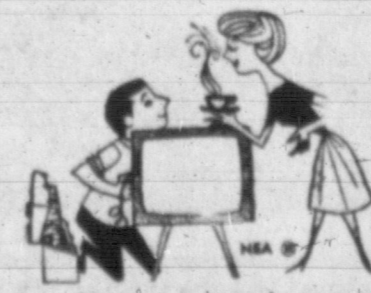

—POLLY
DEAR POLLY — The gals will soon be wearing spring hats. I have a hint for sinus sufferers or those who cannot stand the cold breezes blowing through these light hats after they have been wearing fur and felt hats. Cut a round piece of plastic from a dry cleaner's bag and tuck it to the crown of your spring hat. No more breezes on a cold head and you will look as chic as the rest of the gals.

—MRS. E. S.
DEAR POLLY — Do not discard shoulder pads from old dresses or suits. Simply sew two together and use as a pressing form. You will wonder how you ever got along without one, especially when pressing those hard-to-get-at places. —I. H.

Share your favorite home-making ideas... send them to Polly in care of The Pampa News. You'll receive a bright, new silver dollar if Polly uses your idea in Polly's Pointers.

Observe thyself as thy greatest enemy would do, so shalt thou be thy greatest friend. —Jeremy Taylor

After-school jobs are good, IF they do not cut into classwork.

Dear Abby....

Abby Gives All the Answers To All the Questions

By ABIGAIL VAN BUREN

DEAR READERS: I am continually receiving letters from readers who ask, "How can you give advice to parents on child rearing when you are an old maid yourself?" Or, "The lady next door told me that the picture you use with your column was taken before World War I." Others have asked, "Are you married? Have you any children?"

I have, on numerous occasions, answered these questions in my column, but for those who apparently still do not know, I offer a few vital statistics:

Abigail Van Buren is a pen name of my own choosing. I was born on the fourth of July in 1918. In 1939 I married the same fine man to whom I am still married. We have two offspring — a daughter 21, and a son 19. The picture over my column was taken about a year ago. I stand five feet nothing, and weigh 100 pounds. I was raised on Iowa corn (no remarks, please), and now reside in southern California. Any more questions?

two more and served it to my "Club." All the women wanted the recipe. I didn't think it would be right, Abby, if I gave it out without asking your permission. If you say no, I'll guard it with my life.

Florence O. in Hannibal, Mo. DEAR FLORENCE: I hope your life is worth more than one cup of white corn syrup, one cup of dark brown sugar, one-third cup of melted butter, one heaping cup of shelled pecans, three whole eggs, a dash of vanilla and a pinch of salt. I can't understand a person who refuses to give out a recipe (save a professional chef). Share!

Get it off your chest. For a personal unpublished reply, write to ABBY, Box 3365, Beverly Hills, Calif. Enclose a stamped, self-addressed envelope.

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby, Box 3365, Beverly Hills, Calif.

Musical Interests of Teen-agers Discussed at PMTA Luncheon Meeting

"Problems in Holding the Musical Interest of the Teen-ager" was the topic of discussion for the March meeting of the Pampa Music Teachers' Association, Tuesday in the Pampa Hotel.

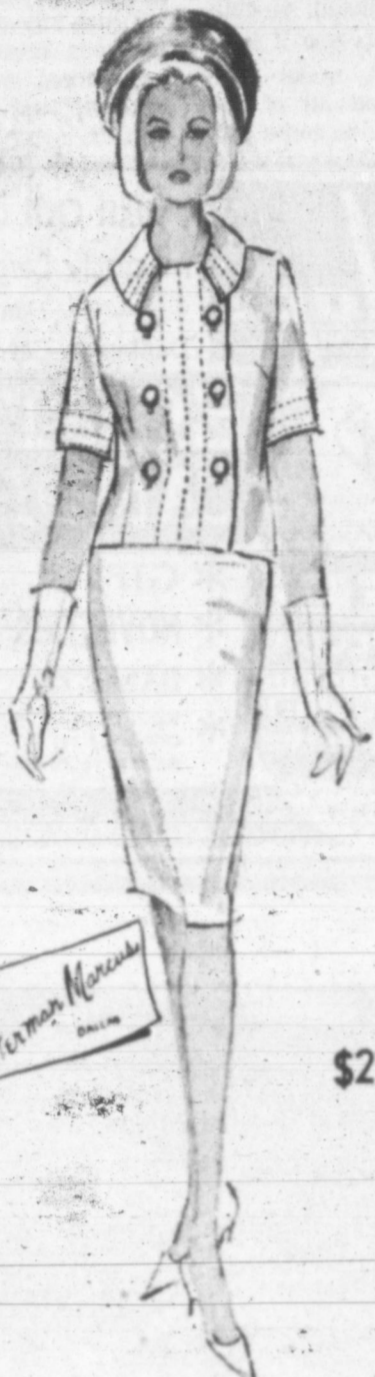

Guest speaker was Hubert G. Carson, minister of music of the First Methodist Church. He stated that the teenager is a personality with problems, attitudes, anxieties and philosophies which are unique and must be understood by the educator, parents and those concerned with this age level. "Musically speaking," Carson emphasized, "the learning process is a result of discovery of new sensations and experience. Culture is 'caught' and not

'taught', and must be caught from a pattern and enthusiasm of parents, first; teachers, second; and environment, third." The speaker stressed that learning in music is the conquest of knowledge through effort on the part of the student as he constantly adjusts to what he sees, hears and most of all, practices.

Mrs. Ann Carson entertained the group with three violin solos, accompanied by Mrs. Marilyn Duke at the piano. Included were "Rondino" and "Sehon Rosemarin" and "Softly As In A Morning Sunrise".

Officers elected for the coming year were Mrs. W. H.

Fuller, president; Mrs. Calvin Whatley, vice president; Mrs. Sheila Parr, secretary and Mrs. Fidelia Yoder, treasurer. Tickets for the piano concert of Mrs. Marjorie Urban (See MUSICAL, Page 19)

Shop Down Town Pampa For Greater Selections

DEAR ABBY: My husband insists on making a liar out of me every time I open my mouth. I can be talking to friends, relatives, our children or to strangers. He is a good man in many other ways, but his habit of contradicting me is getting me down. I don't even feel like talking in front of him any more. When I started to tell my doctor how I felt, my husband interrupted me, saying, "She doesn't really feel weak and dizzy, she feels tired and nervous." I am never right. Is there a cure for a man like that?

NEVER RIGHT DEAR NEVER: Your husband may not be aware that he is constantly contradicting you. Tell him! And if he's as good a man in the many other ways as you say he is, he'll make an effort to be a better man in this way, too. If he's just looking for a fight, use reverse English and give him the old, "You're right, Dear." He'll catch on.

DEAR ABBY: You once gave me your recipe for Southern pecan pie. I baked one for my family, and they just raved about how delicious it was. Then I baked

Capes cover the young sports-wear scene for spring as a popular sportive carry over from the fall - winter season. They may, in fact, prove to be even more popular when temperatures are brisk rather than cold as they are just right as a little topper.

A man who reforms himself has contributed his full share towards the reformation of his neighbor.

—Norman Douglas

Jaycee-Ettes Host St. Pat Guest Tea

Pampa Jaycee-Ettes hosted a St. Patrick's Day Guest Tea in the Hospitality Room of Citizens Bank March 15. Mrs. Benny Shackelford registered guests. The Petite Dance Studio of Borger, di-

rected by Mrs. Phyllis Jackson, presented the program. A St. Patrick's Day theme was carried out in the table and room decorations. Cake and punch were served by Mrs. Eddie Polnac and Mrs. Jake Webb.

Mrs. Richard Cooke, president, welcomed the guests which were introduced by Mrs. Shackelford. Mrs. Polnac extended thanks to those working on the tea committee. Mrs. Webb, Shackelford and Duggan Smith had assisted. Other committee members were Meses. Gary Frasier, Howard Anderson, A. J. Carubbi, Jerry Hopkins, Lynn Thames, and John Davenport. Mrs. John Warner summarized the activities of the year for the club.

ST. PATRICK'S DAY GUEST TEA — Pampa Jaycee-Ettes entertained guests with a tea Sunday in the Citizens Bank Hospitality Room. Left to right; Jaycee-Ettes, Mrs. Eddie Polnac, Mrs. Bennie Shackelford and Mrs. Gary Frasier, chat at the punch table.

County Judge Speaks at Open Meet

County Judge Bill Craig was guest speaker at a meeting of the Worthwhile Home Demonstration Club held in the County Court House Annex Tuesday. He explained the necessity of a will and added that the will need not be professionally drawn up, nor does it have to be probated. He added that the State would handle property and guardianship of children under twenty-one if individuals did not make provisions. He urged all of the members to provide some sort

of will to avoid State-appointed control of property and guardianship of children.

All Home Demonstration Clubs in Gray County were guests of Worthwhile. Forty-one members and guests attended the meeting.

The Doctor Says

By WAYNE BRANDSTADT

Q — I am involved in the production of articles made from beryllium. To what extent is this metal toxic?

A — Anyone who works with powdered beryllium or its oxide is likely to inhale minute amounts. The effects appear more rapidly in some persons than in others, but over a period of several years this may lead to a thickening of the air sacs in the lungs. This would interfere with the normal exchange of gases in these sacs, and cause shortness of breath on exertion, coughing and loss of weight. The victim may also develop nonmalignant tumors of the liver, spleen, lymph nodes and skin.

If the disease (berylliosis) is discovered early and the victim is removed from any further exposure to the metal, no lasting damage is done. The diagnosis can be aided by using a patch test in which a 1 per cent solution of beryllium sulfate is applied to the skin. Steroid hormones have been used to treat the disease, but the best treatment is prevention. You should consult a specialist in industrial health hazards for proper methods of eliminating the beryllium hazard in your plant, if there is one.

Q — What is Parnate used for? What are its side effects? Could it lower the blood pressure enough to cause shock?

A — Tranlycypromine (Parnate) is primarily a tranquilizer. Side effects may include restlessness, insomnia, drowsiness, dizziness, dry mouth and headache. The drug may lower the blood pressure, but in the doses prescribed by your doctor it would not cause the pressure to fall to shock level. When the drug is discontinued, the blood pressure quickly returns to the pre-treatment level.

Q — I'm 40 and my pulse runs between 52 and 55 beats per minute. Is this abnormally low?

A — A pulse rate as low as 50 may be normal in some persons, especially large-boned athletes. An electrocardiogram would show whether or not your low pulse rate is associated with any irregularity of the heart. If your tracings are normal, you have nothing to worry about. In fact, persons with a normally slow pulse usually live longer than those with a fast one.

Q — About five years ago my uterus was removed, and 18 months ago I started to get fat across the middle of my abdomen. What could cause this?

A — It is not uncommon for women in middle age to develop a protruding abdomen. If you are not unusually fat, especially around shoulders and hips, this change in shape is probably not due to an accumulation of fat, but to sagging abdominal muscles or to bloating. A tight-fitting girdle and exercises to strengthen the abdominal muscles should help you to regain your shape. If bloating is the cause you should avoid starchy vegetables (potatoes, rice, corn, peas and beans) and carbonated beverages.

Benefit Show Will Aid Students Attending West Texas State U.

Members of Twentieth Century Cotillion will welcome the public to their annual spring Antique Show and Sale on Friday, at 10:30 a.m. The Starlight Room of the Coronado Inn is the scene of the show which has attracted dealers from all over the Southwest.

Showings are scheduled from 10:30 a.m. until 9 p.m. on Friday and Saturday and from 1 p.m. until 6 p.m. on Sunday. The collections will cover a wide range of antiques: china, cutglass, silver, pewter, brass, corner jewelry, art objects, dolls and furniture, according to Mrs. W. D. Price Jr., chairman.

The tickets are one dollar per person, and all proceeds from ticket sales will be presented to the Opportunity Plan Inc. of West Texas State University. The Opportunity Plan is a unique student loan program that provides part-time jobs and financial assistance for students who possess ability, ambition, and character, but cannot attend college without help.

Since its inception by Milton Morris, West Texas Student Executive Secretary, in 1954, more than 1,000 students have used the Plan's loan fund and the Association loan funds. At present, 24 students from the Top of Texas area are participating in the Opportunity Plan. Virtually every town in the Panhandle has been represented by students using funds provided by the Plan.

Under the program, long-term loans are emphasized in most cases, with students outlining a 4-year college expense budget and borrowing money from the corporation as is necessary. Students pay

back their loan as they can, through employment while in school, and after graduation. At the present time, 39 students from the Top of Texas area have repaid their loans; and 35 who have left school or graduated are paying on their obligations.

Because of the Opportunity Plan Inc., West Texas State University needs no government-financed student loan program. The Plan is financed by philanthropic contributors in the Panhandle area, both individual and groups.

Alpha Delta Pi Elects Officers

The Pampa Alpha Delta Pi Alumnae Chapter met Tuesday in the home of Mrs. Don Losher.

Mrs. Bruce Pratt, president, conducted the election of officers for the coming year. Mrs. Hugh D. Barton was named president; Mrs. Joe De Cosimo, vice-president; Mrs. Harold Schmitzer, secretary-treasurer and Mrs. Pratt membership chairman.

Mrs. Barton, vice-president of Pampa City Panhellenic will also be Alpha Delta Pi representative.

Plans concerning the Founder's Day, May 15, and the state Convention, to be held in Midland in April, were discussed.

The City Panhellenic Tea for girls planning to attend college in the fall, was set for May 31.

Hostess for the meeting was Mrs. Pratt.

Members attending were Anna Lee Barton, Anna Di Cosimo, Emma Lou Larsen, Jean Locker, Jean Losher, Inga Pratt and Mildred Schmitzer.

Wedding Vows Made by Couple Men Seeing Red For Good Reason

Miss Sammie Elaine Vernon became the bride of Richard L. Hinkley in a ceremony read in the First Presbyterian church in Wichita Falls March 6. Dr. Earl W. Crawford officiated the double ring ceremony before the Prayer Table which was graced with a basket of white majestic daisies and greenery.

Parents of the couple are Mr. and Mrs. Fred Hinkley, 501 N. Nelson and Mrs. Lilla Vernon, Wichita Falls.

Miss Marilyn Jullison was organist and accompanied the vocalist, Marvin Byers.

BRIDE

Given in marriage by her brother, Bobby R. Vernon, the bride was attired in a formal length gown of silk organza and peau de soie. The Sabrina neckline was outlined in brocaded roses. The skirt, trimmed with brocaded roses, extended into a chapel length train attached at the back waistline by a large bow. Her veil was of silk illusion and was secured by a crown covered in seed pearls.

The bridal bouquet was designed from gladiolus and lilies-of-the-valley and carried atop a white Bible.

ATTENDANTS

Mrs. R. H. Grier, Jr. of Wichita Falls was matron of honor. Mrs. Jim Cox attended as bridesmaid.

Jack Brantley attended as best man and Larry Frost ushered. James Hinkley of Pampa was groomsmen.

The mother of the bride wore a pink silk shantung dress with matching accessories and a corsage of carnations.

A white carnation corsage graced the celery color linen dress worn with matching accessories by the mother of the bridegroom.

RECEPTION

Mrs. Richard Hinkley

By JERRY SHEEHAN

Newspaper Enterprise Assn. NEW YORK (NEA)—"Better red than socially dead" is the motto of the well-dressed gent this spring.

So you thought that red jackets were worn only by fox hunters and bartenders? Think again. Muted tones of red are appearing from coast to coast in blazers and sports jackets.

Some of the more popular hues: burgundy, cranberry and terra cotta.

Red is just one element, of course, in the steady march toward brighter, livelier colors in menswear. Also up leading the color parade, according to a national survey: Grays and color-on-grays in the light to medium tones, blue iridescents with green, gold and tan casts — for blazers, dark blue and camel.

The survey, just for the record, was compiled by the Woolens and Worsteds of America. The investigation was based on original clothing manufacturers' mill orders and backed up by reorders from those firms.

The whole point is to assure the American male that he is not too far out of line when he buys his suit or sports jacket.

Men, unlike women, feel warmly comfortable when they enter a room to see three or four other gents dressed exactly the same. There must somewhere exist a style-setter in the group, but he is often a shadowy figure.

When it comes to the matter of a burgundy sports coat, it may be hard to find two other men in the same lunch-

Leather & Lace Third in St. Pat Parade

Leather and Lace Riding Club placed third in the St. Patrick's Day Parade in Shamrock Tuesday.

A green horse, the first to be entered in a Shamrock parade, was used.

Seventeen members rode along with the group, wear something different—but not too different—next time at room looking like yourself. But why not try an experiment?

Instead of strictly going the Joneses. See, then, how long it takes Jones to keep up with you.

including Donna Whatley, Connie Parish, Donna Hinds, Emma Wheelless, Dorma Kotara, Gloria Hughes, Glenda Fooks, Judy, Gerik, Becky Brewer, Geneva Miller, Sharon Miller, Yvonne Danford, Ann Lathrop, Helen Danford, Gwen Bowers and Jeanie Atchley.

The club will set pivots Saturday for the Grand Entry of the Amarillo Rodeo.

School - examinations are one-sided; it is not so much academic education, as a moral and spiritual culture, which lifts one higher.

—Mary Baker Eddy

A reception in honor of the couple was held in the home of the bride's sister Mrs. Emmil Decoure, following the ceremony. Bouquets of white and yellow, the bride's chosen colors, graced the table. Mrs. Larry Frost and Mrs. Earl Bowlen assisted the hostess.

The couple is at home in Wichita Falls following a wedding trip to Dallas.

Mrs. Hinkley is a graduate of Wichita Falls High School where she was a member of the National Honor Society. She is employed with Ryan Mortgage Co. as a secretary. The bridegroom attended Pampa schools and is self-employed at Continental Hair Styling in Wichita Falls.

Out-of-town guests for the wedding included Mr. and Mrs. R. N. Adams, Mr. and Mrs. Fred Clark, Jr., W. W. Watson and Mrs. J. C. Cherry, all of Dennison; Mr. and Mrs. Ray Riddles and Mr. and Mrs. Jack Frazier of Irving; and the parents of the bridegroom, Mr. and Mrs. Fred Hinkley and his brother, James Hinkley, all of Pampa.

PRE-NUPITAL COURTESIES

A rehearsal party, given in the home of Mr. and Mrs. E. W. Willis by parents of the bridegroom, was included in courtesies extended to the couple.

Friends of the bride honored her with miscellaneous and personal gifts at a shower given in Wichita Falls.

You Can Revive Conversation

By KAY SHERWOOD
 you're weary of the cock-
 party crunch, haven't the
 for an elaborate dinner
 the budget for dinner-out-
 theater, take a party line
 bright young couples.
 cently, we've been in-
 ed in a refreshing "new"

kind of party which is really
 not new but credit for reviv-
 ing the conversational ex-
 change goes to the smart
 youngsters.
 Ingredients are simple: Pull
 up a seat and join in the
 talk. O.K., O.K., but how long
 has it been since you've en-

gaged in sustained, intelli-
 gible, even controversial conver-
 sation?

In our town, late Sunday
 afternoon is favored. Slim
 budgets and bright minds pre-
 clude high-voltage cocktails or
 fancy food. Coffee, tea, beer
 or a chilled bottle of wine
 are in order along with some-
 thing to eat which is more
 than an hors d'oeuvre and
 less than dinner.

One young homemaker, for
 example, specializes in Swiss
 cheese fondue served from a
 chafing dish in the center of
 the table. Each guest has his
 own long-handled dunking
 fork to spear chunks of
 French bread and dip in.

I think one thing that en-
 courages the conversation is
 that guests are seated around
 a table, not scattered in two-
 somes around the room. Be-
 sides chairs, pull-up seating
 may be a pile of cushions,
 benches topped with trim la-
 tex foam cushions (for com-
 fort) or small tables which,
 with a cushion on top, double
 nicely as seats.

In fact, such an adaptable
 unit of table plus cushion-
 catches my eye for another
 reason. If you suspect you'll
 be moving often (and I've
 lived in six homes already),
 the more versatile furniture
 is, the easier it is to fit into
 strange surroundings and the
 less likely to wind up in ex-
 pensive storage.

With pre-cut latex foam
 cushions available in depart-
 ment and variety stores it's a
 cinch to cover your own to
 top a home-finished strong,
 low table.

I was not so sure conversa-

tion at my first afternoon ef-
 fort would flow freely so I rig-
 ged it a little. In our town as
 I'm sure, in yours there are
 many things to do or listen
 to that cost little and will
 spark the talk. Art films, con-
 versation travelogues, a new
 museum show, a debate, a
 new museum show, a debate,
 a new recording of (hear,
 hear Virginia) borrowed
 from the library — all are
 time-tested pleasures to share.
 Just fit the subject to the
 known interests of the guests.

The Mature Parent

Are His Talents Being Wasted or Abandoned?

By MRS. MURIEL LAWRENCE

Dear Mrs. Lawrence — Our
 boy, 15, is a gifted pianist. I
 am a piano teacher and start-
 ed his musical education when
 he was 6. He now studies with
 the finest teacher in our city.
 But within the last three
 months, she and I have both
 noticed a change in his atti-
 tude. He avoids practicing;
 and when he does play, it is
 rock 'n' roll. At first I thought
 he played it to tease me but
 I now realize how often he ac-
 cepts schoolmates' invitations

to play at parties which he
 used to turn down. He is capa-
 ble of making a concert care-
 er.

ANSWER — He's spent
 many years in lonely dedica-
 tion to the kind of music you
 like. Now he's discovered that
 he enjoys another kind — the
 kind that is winning him ad-
 miring acceptance from
 youngsters of his own age.

I would let him enjoy it, if
 I were you.
 If he is a serious musician,

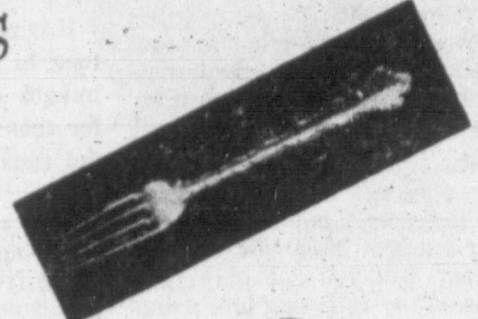

his pleasure in the social ex-
 citements resulting from his
 skill in playing teen music
 will not permanently outweigh
 his pleasure in serious music.
 He will return to it. But if you
 refuse him this experience,
 he won't be able to discover
 how he misses his music. You
 want him to make this dis-
 covery, don't you? You want
 him to play his serious music
 because he prefers it to any
 other kind.
 So I suggest that you tell

BETROTHAL TOLD

Miss Sandra Patrice Moore, daughter of Mr. and Mrs. Gordon E. Moore, Amarillo, announces the engagement and approaching marriage of their daughter, Sandra Patrice, to Terry Wayne Burns, son of Mr. and Mrs. M. O. Burns, 922 E. Frederic. The wedding is scheduled for June 16 and will be held in the Polk Street Methodist Church in Amarillo.

ENGAGEMENT REVEALED

Miss Delores Ann Bollig

Mr. and Mrs. Hank Bollig of Borger, announce the engagement and approaching marriage of their daughter, Delores Ann, to Lynn Don Garner, son of the late Mr. Alvin H. Garner and Mrs. R. E. Smith, 2217 N. Dwight. The wedding is planned for May 29 and will be held in St. John's Catholic Church in Borger with Father Ryan officiating.

SUMMER WEDDING

Miss Eileen Butler

Mr. and Mrs. Everett R. Butler of White Deer announce the engagement and approaching marriage of their daughter, Eileen Butler, to Carson L. Dibble, son of Mr. and Mrs. Rexford Dibble of New Albany, Pa. Wedding vows will be solemnized July 4 in the First Methodist Church of White Deer.

Mature Parent

(Continued From Page 19) him that he is as free to discontinue his music lessons as he will be free to resume them when he wants to. In adolescence, a talented child will become as jealous of his right to direct his own talent as less talented youngsters are of the right to direct their own phone calls. For some years now you have directed your son's. By this sudden interest in the teen music that so offends you, he may be saying to you, "Mother, let me alone. This is my talent, not yours, and I intend to use it as I please." His rejection of serious music may not be the rejection of the music but of your supervising attitude toward his talent. But you can only find this out by releasing him from your supervision. Released from it, he may discover he wants to play B a c k as much as you want him to. On the other hand, he may discover that he doesn't want your kind of music, never and wants to become the pianist in a jazz combo. That's how it turns out, the nothing you can do about but thank your stars that didn't continue to spend money on expensive piano lessons that weren't wanted. It is rough when children refuse to live in the glories of our ambition for them. But they do it the time. Prevent dark cottons from graying by adding a half cup of vinegar to a gallon of the last rinse water.

Laughter (Continued From Page 14) toner.

According to Monte Daniel, he mixes mayonnaise with a permanent waving lotion and works this into the hair. It makes an excellent hair conditioner, he says, and has proved especially effective in reconditioning bleached hair. The mayonnaise adds protein to hair stripped of this necessary balancer. If you want to try this at home, take a tablespoon of mayonnaise and rub it in after shampooing and towel-drying your hair. Let it remain for at least an hour and shampoo again.

Banquet Honors Canadian Seniors

CANADIAN (Spl) — Canadian High School seniors were honored recently with a banquet at the First Baptist Church. Members of the W.M.U. were hostesses.

Guests included Superintendent of Schools and Mrs. Woodie Beene and Principal and Mrs. Joe Cullender. Other guests were class sponsor, Mrs. William Karr; Rev. and Mrs. Troy Noland; Mr. and Mrs. Aaron Rose, Mr. and Mrs. Hugh Wilson, Mary Rutledge and Sheila Foster.

Supt. Beene gave the invocation and Mrs. Rose, president of the W.M.U. gave the welcome to the guests. Eddie Snyder, class president, gave the response. Wilson was master of ceremonies and Rev. Noland was guest speaker. Sheila Foster

MAKES WEDDING PLANS

Miss Janice Gaye Cope

Mr. and Mrs. Virgil E. Cope, 704 N. Gray, announce the engagement and approaching marriage of their daughter, Janice Gaye, to Richard Hankins, son of Mr. and Mrs. John A. Hankins, 205 W. Harvester. The wedding is planned for May 2 and will be held in the First Presbyterian Church in Pampa.

Poisonous Plants Discussed at Meet

Mrs. H. H. Boynton presented a program on identification and effects of foreign and domestic poisonous plants to members of the Top O' Texas Garden Club when it met recently. She named plants poisonous on contact and those that had ill effects if swallowed. She also reviewed a number of plants with medicinal value. Mrs. Kenneth Osborne was in charge of the meeting which was conducted in the home of Mrs. O. M. Prigmore, 1308 Charles.

A red and white floral arrangement graced the coffee table. Club members will again meet March 24 at 1:30 p.m.

Farley Granger Tops Cast in Dallas Show

Farley Granger of motion picture fame has risen to an enviable position in the legitimate theater during the past five years. Thursday he comes to the Dallas Memorial Auditorium Theater, Dallas, "in person" as one of the four stars heading the productions of the ANTA sponsored National Repertory Theatre — "Ring Round The Moon," "The Crucible" and "The Seagull."

His co-stars are Eva Le Gallienne, great lady of the American theater, Denholm Elliott, popular London actor, and Anne Meacham, hailed by New York critics as one of today's most gifted actresses. This distinguished company of 20 actors comes to Dallas under the auspices of the Broadway Theatre League.

A motion picture and television star since the age of 17, Farley Granger defected to the legitimate theater at the height of his film career, after seeing his first Broadway production. As soon as his picture contract was finished, he moved to New York. With a humility unusual in a young man who had reached his position, Granger studied acting with important teachers and took singing, dancing, diction and fencing lessons in preparation for work in the legitimate theater.

His New York debut was made at the off-Broadway Phoenix Theater in "The Carefree Tree." He soon thereafter appeared on Broadway as co-star with Polly Bergen in a musical, "First Impressions."

He next played opposite Julie Harris in "The Warm Penitentiary," toured in "Advise and Consent" which played Dallas persons.

Farley Granger appears with Eva LeGallienne and the famed National Repertory Theatre in Dallas, Mar. 26-29.

NIX PLAYBOY

BONN (UPI)—Playboy magazine was placed on the official West German government list of publications considered dangerous to youth to read Wednesday. The official Gazette said the American magazine will remain on the list for the remainder of 1964.

TWO RIGHTS

OXFORD, England (UPI)—Robert Walter Bishop, 32, was remanded in custody Monday after being charged with stealing a pair of shoes.

Detective Sgt. W. R. Barnard said Bishop approached him at Gloucester police station and said, "I wish to surrender myself for stealing these shoes from a shop near Carfax in Oxford Monday."

Asked why he was giving himself up, Bishop replied, "well, it's two right ones, and my left foot is covered with blisters."

Alfred Hitchcock, host of "The Alfred Hitchcock Hour," studied art and engineering at a Jesuit seminary and at the University of London.

SWAN DIVE

LONDON (UPI)—A swan crash-landed at the Fulham Football Club's home ground Wednesday night during a schoolboys' floodlit game.

The match was delayed until an officer from the Royal Society for the Prevention of Cruelty to Animals removed the swan.

LEADING LADIES

NEW YORK (UPI)—Rise Stevens and Patrice Munsel, both with long careers as Metropolitan Opera stars, will be the leading ladies of this summer's two musicals at Lincoln Center.

Richard Rodgers announced Wednesday Miss Stevens will play Anna in the Rodgers-Hammerstein "The King and I," and Miss Munsel will play Sonia in Franz Lehár's "The Merry Widow."

Insurer has not paid same amount to at least twice the amount of such bond.

3. A certificate of deposit of money or securities with the state treasurer in the amount of \$15,000.

Methods of showing financial responsibility for past accidents are:

1. A certificate of motor vehicle liability insurance, Form SR-22.
2. A bond in the amount of \$15,000 signed by two persons owning real estate equal in value to all damaged or injured persons.
3. An agreement to pay damages in installments.
4. An adjudication of non-liability by a court of competent jurisdiction in a civil action.
5. A cash security deposit in an amount determined by the TDPS to be sufficient to pay any judgment for damages that might be obtained against the depositor.

Department spokesmen in the area reminded motorists that the safety responsibility act applies to one-car accidents if the damage is over \$100 and results in either death or injury.

Because of the rising number of suspensions and a plan by the Department of Public Safety to bring additional enforcement into the picture soon, Pampa highway patrolmen urge that motorists with any doubt or question about the law to obtain copies of the law or question officers.

WHAT ARE THESE WORTH? — That's the question Dean Evans is pondering as he looks at his Texas automobile registration plate and drivers license. Dean, like many Pampa motorists, is confused with the new "teeth" in the Texas driver responsibility law, which went into effect this year. Because he values both his auto tags and license, the Pampa high school junior plans to inquire as to how to qualify under the law should he become involved in an accident with more than \$100 damage, a death or injury involved.

Quotes From The News

(Reg. U.S. Pat. Off.)

By United Press International

WASHINGTON — President Johnson denying there is a feud between him and Robert F. Kennedy concerning efforts by supporters of the attorney general to boom him for vice president.

"The attorney general and I have talked about that, and I think he understands my viewpoint, and I take his word that he has done nothing to encourage those efforts, and all of this stuff that you read about is newspaper talk."

WASHINGTON — President Johnson commenting on his recollections of the four days following the assassination of President Kennedy:

"I have rarely been in the presence of greatness, but as I went through that period, I observed Mrs. Kennedy, Jackie Kennedy. I saw her greatness, her gallantry, her graciousness, her courage, and it will always be a vivid memory, and I will always appreciate the strength that came to me from knowing her and from associating with her."

MONTREAL — Richard Burton, commenting on his marriage Sunday to Elizabeth Taylor:

"Elizabeth Burton and I are very, very happy."

NEW YORK — Francis Cardinal Spellman referring to the controversial play "The Deputy" which depicts Pope Pius XII as being callously indifferent to the Nazi slaughter of Jews:

"This is an outrageous desecration of the honor of a great and good man, and an affront to those who know his record as a humanitarian."

AROUND THE MOON—This is how an artist sees the Lunar Orbiter spacecraft in orbit about 28 miles from the moon's surface. The Orbiter has blossomed from a compact package, opening its petals of solar cell panels and stalks carrying antennas. It is hoped that the first of five of these vehicles to be built will be ready for missions in 1966. It would take photos of the moon, which would be radioed back to earth. Objects three-foot square would be recorded in the film. Overlapping of pictures would provide full coverage of selected areas and a three-dimensional effect to aid moon studies.

Pampa Student Honored at NTSU

DENTON (SpI) — Bill Ronder Brown of Pampa has been elected chaplain of Talons, men's service organization at North Texas State University. The son of H. C. Hollingsworth, 1228 Garland, he is a senior psychology major at NTSU and is a member of Psi Chi, national honorary fraternity in psychology.

He is a 1960 graduate of Pampa High School.

Lizard Stew to Be on Diet of First on Moon

By ALVIN B. WEBB JR.
HOUSTON (UPI) — The first American to set foot on the moon will have to know how to cook and eat a snake.

He also must have a working knowledge of what kind of lizards make the best stew, the accepted methods for constructing a tent from a parachute remnant, and how to survive at least a week in the merciless heat of a desert.

He will, of course, find none of these on the moon.

But the story of a flight into

space can be one of failure as well as success. There is always the possibility of a mishap that could force a spaceship to an emergency landing on earth, perhaps in an area far removed from civilization.

This contingency is the reason for what experts call "survival courses" for the nation's 20 astronauts.

Fifteen already have gone through that rugged ordeal. It is still ahead, this year, for the 14 newest astronauts who joined the space program Feb. 3.

A final decision as to the location of the survival course for the fledglings is still pending, but it most likely will be at Stead Air Force Base, in the blazing, arid stretches of Nevada desert near Reno.

"If our training does take place at Stead," said Raymond Zedecker, a training specialist in the federal space agency's Manned Spacecraft Center near Houston. "It probably will be in the late summer."

Hottest Period

Just about the hottest time of the year.

Survival training is a part of the "classroom" course that already has taken the young astronaut hopefuls to the frigid depths of the Grand Canyon for lessons in identification of rocks and other geologic formations they might expect to see on the moon.

Later, the entire astronaut team is scheduled for a similar visit to the vast, barren plains of West Texas.

North Viet Nam Worries Cambodia More

By PHIL NEWSOM
UPI Foreign News Analyst

A little short of a year ago, Cambodia's unpredictable chief of state Prince Norodom Sihanouk declared in an interview that "the real interest of Cambodia is not to have the North Vietnamese at our door... we do fear South Viet Nam, but we fear North Viet Nam much more."

This week, whatever his fears, Sihanouk by his own words was contemplating diplomatic recognition of Communist North Viet Nam.

It was typical of Sihanouk's diplomatic gyrations that a few minutes later he also was talking of renewed contact with South Viet Nam. But the facts are that since November Sihanouk has been moving ostensibly neutral Cambodia steadily closer to the Communist orbit.

Carried to their logical conclusion these actions vastly could complicate U.S. objectives in both neighboring Laos and South Viet Nam.

They are a reflection of Sihanouk's seeming conviction that U.S. efforts in South Viet Nam already are doomed, and of his almost hysterical belief that his borders are threatened both by South Viet Nam and by Thailand.

It was last Nov. 19 that Sihanouk announced he was rejecting approximately \$30 million a year in U.S. economic and military aid on charges that the U.S. Central Intelligence Agency was plotting his ouster.

More recently he has accused the United States of joining with South Viet Nam and Thailand in a plot to partition Cambodia and rejected a U.S. proposal that Cambodia set up joint commissions to demarcate disputed borders.

Last week, as anti-American mobs sacked both the United States' and British embassies in the Cambodian capital of Pnom Penh, Sihanouk announced he would turn to Communist China for guarantees of Cambodian neutrality and to Communist North Viet Nam and the Communist-led Pathet Lao of Laos for guarantees of his borders.

The Pathet Lao and the Communist North Vietnamese, he said, were the "future masters of Viet Nam and Laos."

The puzzlement was that North Viet Nam has no common border with Cambodia which does border on South

Viet Nam, Laos and Thailand. His announcement, therefore, suggested that by recognizing the Hanoi government of North Viet Nam he also was recognizing it as the capital of all Viet Nam.

NICOLAO TO COMPETE

BUENOS AIRES (UPI) — Luis Alberto Nicolao, the Argentine swimmer regarded many as the best in South America, will compete in the U.S. National AAU swimming championships at Bartlesville, Okla., April 2-4.

The death of an intestate person (one who has made no will) may give rise to many problems regarding distribution of his separate estate. In the preceding column we investigated the manner of dividing the community estate upon the death of a husband or wife. Now we shall see that, where separate property is involved, a completely different set of rules applies in determining heirship and apportioning the estate among the rightful claimants.

It may be well to recall that the separate estate of a husband or wife includes property owned by either before marriage, and that which is acquired after marriage by gift or inheritance. Any other property acquired after marriage is presumed by law to be community property until the contrary is clearly proved.

Now, here is a general idea as to how your separate property will be divided if you do not make a will with contrary provisions prior to your death.

If your husband or wife survives and if, in addition, there are surviving children or descendants of previously deceased children, the children and their descendants immediately obtain a full (fee) title in two-thirds of the real estate involved. The surviving spouse receives a life interest in the remaining one-third of the real property, which passes on to the children and their descendants upon the death of the spouse.

The rule for distributing personal property — cash, stocks, bonds, furniture, or any other items not constituting real estate — is different. Here the surviving spouse gets full ownership of one-third, and the children and their descendants inherit the balance.

Now suppose your husband or wife survives, but there are no surviving children or their descendants. In this case the surviving spouse inherits all of the personal property involved.

With regard to real estate, the survivor obtains full title to one-half, and the other half is divided between your mother and father, if both survive you. If only one of them survives, he or she receives only half of this portion, and the other half (or one-fourth of the entire real estate) will be divided among your brothers and sisters (and their descendants) who survive. If there are no surviving brothers and sisters and their descendants, then the one surviving parent inherits the full one-half.

Where no parent survives, but there are brothers and sisters (and their descendants) surviving, then the surviving husband or wife inherits all of the real estate.

(This new feature, prepared by the State Bar of Texas, is written to inform — not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

FIGHT FOR AUTOGRAPHS

LONDON (UPI) — Millionaires and dukes vied Thursday for autographs of the Beatles, winners of a "showbiz" award. Near bedlam broke out at the Viety Club during Britain's presentation of honors to performers. The Beatles—Ringo Starr, George Harrison, John Lennon and Paul McCartney — were joint winners of the "Show Business Personality of 1963" award.
