BOATING, ANYONE? — Lovely Phyllis Gardner invites all water sport enthusiasts to the Pampa Boat & Ski Club's annual Boat Show, Saturday and Sunday at the National Guard Armory. Phyllis, one of the style show models at the boat-o-rama, is a candidate for Boat Show Queen.

Pan-Am Leases Roberts, Gray Land for Oil Tests

An official for Pan American and Gas Company in Liberal, Kan., today confirmed reports that the company has leased some 10,000 acres of land in Roberts and Gray counties "for exploration."

Harvin Whitehead, district director for Pan-Am, said leases were part of several packages he was attempting to acquire for Pan-Am in an effort to trace the oil and gas field in Wheeler County.

"We are working to obtain additional land, but I am not liberty to say where or how much, at present," Whitehead stated.

The oil land director said he had to have the entire property cleared within the next few weeks and would announce details at that time.

Whitehead admitted that the Pan-Am move was brought on the fact that there is no additional land for lease in Wheeler County, which is currently negotiating a heavy oil and gas play.

A scout for Standard of Texas Company in Amarillo told the Pampa Daily News that all of the land around Wheeler had been "placed under active lease" and continued drilling and development was under way in that area.

Red Brown of Standard of Texas said he could not give details, but the Wheeler County activity was going at a high speed trend.

The move into Roberts County came to light when the Huber Company began a wildcat operation on the Ledrick farm in Roberts County and since has spread.

A Wheeler real estate agent, Don Earney, also confirmed that there is no additional property in Wheeler County available for leasing.

Earney, who has handled some 80 per cent of the leases in Wheeler and Mobeetie reported that inactive areas around the old field in Wheeler County were being checked by major companies.

The oil and gas activity in the area is claimed to be part of an effort to determine if producers have traced the Hunton lime which has been part of heavy field developments in Kansas and Oklahoma. It has been sought in the Panhandle for a number of years.

Earney said since the big Carwile No. 1 well had been wrapped up some three months ago, the following drilling efforts had been started or completed in Wheeler County:

Carwile area, Lee No. 1, four miles north and two east of Mobeetie; Horn east, two miles north and four east of Mobeetie, both scheduled for completion in November at some 17,500 feet or deeper.

Mobeetie area — Matt Sims well SW36; Hooker well, NE46; Dysert well, NE47; Johnson (See OIL TESTS, Page 3)

Second Report Set For Industry Group

A second joint report coffee will be held at 10 a.m. Friday members of the Pampa Industrial Foundation, Inc., campaign workers at the Coronado.

The campaign is to raise some \$200,000 which would be used to erect industries to the Pampa area. The drive has brought in \$88,000 in investments so far in a 10-day period.

The workers are faced with a challenge by the Cabot Corporation, which has promised to invest \$20,000 in the foundation if Pampa businesses first invest \$20,000.

The challenge was made Wednesday by Gene Green, South division manager for Cabot, when he addressed the joint meeting of the advice and general investments campaign workers.

"I, like many others, am convinced that if we are to grow and prosper, if we are going to be competitive in bringing industry into our city, such a foundation is a must. There are too many among us that are not thinking of this as a sound business investment, but as a donation," he declared.

Green said, "I can detect that there are some that are trying to figure out just how little they can get by with."

Green said that businessmen should check the facts and see how much could be invested instead of how little after learning of the success of other foundations.

Fred Neslage, general chairman for the foundation drive, said he had a number of persons inquire about how voting in the foundation program would be conducted. Neslage explained the proposed plan as this:

Every person investing \$100 or more to the foundation, will have a vote in the selection of the board of approximately 15 men who will direct the activities of the corporation.

It is proposed that one vote be allowed for each \$100 investment. It is also proposed that there will be an advisory board (See GROUP, Page 3)

No Waste Foreign Aid Plan Requested by LBJ

Petitions Out On Establishing Junior College

Papers to Be Distributed By Civic Clubs Over Area

Petitions went into circulation today calling an election for the purpose of establishing a junior college district in Gray County.

Another petition that required only 10 signatures was signed to dissolve the old county junior college district due to impairment and possible invalidity.

First of the petitions were taken to the noonday meeting of the Pampa Lions Club. They will be circulated in Pampa, Lefors and McLean among civic clubs, women's organizations, business houses and industrial plants.

Approximately 850 signatures of qualified taxpayers voters will be required to establish the district.

If enough signatures are obtained, the next steps would be action by the County Board of School Trustees to pass on the validity of the petitions and approval by the State Board of Education.

Circulation of the petitions was authorized at a meeting this forenoon of the Pampa Chamber of Commerce Junior College Committee.

When all legal angles in connection with the petitions are completed with State Board approval, the County Commissioners Court then would set a date for the election to set up the junior college district.

If voters approve establishing the district, next steps would be election of a junior college board and the follow-up bond issue election to provide and acquire a junior college plant, facilities, rights and easements.

A previous estimate by the college committee placed the bond issue figure at \$1,244,000.

It was stressed at today's meeting of the committee that voters should be made aware of the fact that it is planned to make the Gray County Junior

Second Woman Off on Flight Around World

COLUMBUS, Ohio (UPI) — Jerrie Mock took off into a clear, cold sky today in a flight to break two speed records and beat another American beauty on a solo flight around the world.

The trim 38-year-old mother of three left about 9:30 a.m. EST, with plans to complete her trip in a red and white single-engine Cessna 180 within 30 days.

Mrs. Mock was a day late in getting started which put her two days behind Joan Merriam Smith of Long Beach, Calif., who left from Oakland, Calif., Tuesday. Mrs. Smith will follow the course of the late famed Amelia Earhart.

Mrs. Smith was due in Miami today.

Mrs. Mock hoped to fly non-stop to Bermuda, which she estimated would take her about eight hours.

Amount Smallest In Program History

WASHINGTON (UPI) — President Johnson asked Congress today for a "no waste, no retreat" foreign aid program of \$3.4 billion. He promised to cut bureaucracy and to speed up efforts to put recipient nations on a self-supporting basis.

It was the smallest foreign aid request since the program was started in 1948. Johnson, aware of the growing tendency in Congress to cut foreign aid funds, warned the lawmakers against slashing his request.

"We will be laying up a harvest of woe for us and our children if we shrink from the task of grappling in the world community with poverty and ignorance," he said in a special message.

Will Be Cut

But the initial reaction in Congress was that the proposed program would be cut anyway. Rep. Otto E. Passman, D-La., chief House critic of foreign aid, said he was sure there was "plenty of fat in it" and Senate GOP Leader Everett M. Dirksen, Ill., predicted it would be cut.

The President requested new legislation to permit the foreign aid agency — known as the Agency for International Development (AID) — to cut deadwood from its staff.

He also announced plans to appoint a new committee of "distinguished private citizens" to keep a continuing eye on aid programs and advise him on policy.

Johnson said "waste or inefficiency or extravagance" in the aid program could not be tolerated, but it was "equally repugnant to our national interest to retreat from our obligations and commitments while freedom remains under siege."

Sets Request

The President set the foreign aid request for the fiscal year beginning next July 1 at \$3.4 billion, made up of \$1 billion military assistance and \$2.4 billion economic aid.

He emphasized that this was more than \$1 billion less than the late President John F. Kennedy requested for this year and only slightly more than the \$3 billion Congress actually voted.

Justifying his request, Johnson said: "We wish to build a world in which the weak can walk without fear and in which even the smallest nation can work out its own destiny without the danger of violence and aggression."

U. S. Satellite Lost After Launching

CAPE KENNEDY (UPI) — The United States today lost an Explorer satellite about an hour after it was rocketed into space to examine the ionosphere by test a new space tracking system using intense beams of light called lasers.

The double-duty moonlet was launched toward a planned orbit 743 miles above earth by a three-stage Delta rocket at 6:14 a.m. EST. Tracking stations lost contact with the booster's third stage and satellite about 20 minutes later.

The Douglas Delta rocket has scored an unprecedented 22 straight successes. Its only failure came on the first Delta shot in May, 1960, with an Echo balloon satellite.

Although the satellite's primary job was to explore the ionosphere on a global basis for the first time, it was the unrelated Laser experiment that gave the propeller-shaped moonlet special significance.

Lasers, developed only a few years ago, already have found many uses ranging from drilling diamonds to removing eye tumors and may develop into an "ultimate" communications device. The U. S. is also studying Laser possibilities as a death ray.

Smathers Lists Wants Of Negroes

WASHINGTON (UPI) — Sen. George A. Smathers, D-Fla., said today southern Negroes wanted better homes, jobs and schools rather than a "tyrannical" civil rights bill.

Smathers, who was born in Atlantic City, N.J., but moved to Miami when he was 6 years old, said in a prepared Senate speech that the answer to the racial problem was "understanding and education and tolerance." He claimed the House-passed bill would not provide such understanding.

"On the contrary," Smathers said, "it divides us, it creates distrust and doubt; it will result in fear, and intolerance; it will stop the progress now being made, and set us back in our efforts to solve our problems."

Ice and Snow Blamed for Accidents

Ice and snow were tagged as chief causes of 68 traffic accidents logged on Pampa streets during the month of February.

Police Chief Jim Conner said the mishaps brought a two month total of 122 accidents with 29 injuries. He released the figures in the monthly National Safety Council report.

According to traffic bureau figures, 30 of the 68 accidents happened with snow and ice on the streets. Four happened when streets were wet and 34 were caused under dry conditions.

This time last year saw 74 accidents occur with 29 injuries. Conner said the big snow of early February definitely had an effect on the accidents here.

The breakdown showed the peak accident period was from noon to 1 p.m. and from 1 p.m. to 2 p.m. with seven mishaps during the noon hour and six the following 60 minutes.

Conner said this was different from most months when 5 p.m. to 6 p.m. was the high area.

Conner said a total of 27 persons between the ages of 25 to 34 were involved in the accidents, 21 persons under the age of 20 were listed as drivers in the report and persons between 20 to 24 years old were involved in accidents.

A total of 82 males and 35 females were involved in the collisions which were caused by 18 counts of failure to yield the right of way, 16 speeding counts and 13 improper driving.

A total of \$13,715.50 in property damage was listed by investigating officers.

If it comes from a hardware store we have H. Lewis Hdwe. (Adv.)

GOPs Deny Attempt To Filibuster Issue

WASHINGTON (UPI) — Democrats charged today — and Republicans vigorously denied — that GOP congressmen were trying to filibuster against House consideration of the wheat-cotton bill and the food stamp program.

The Senate-passed wheat-cotton bill includes a plan to provide subsidies to the textile industry and to growers who cut surplus cotton production, and a section to head off a sharp drop in wheat farmers' income.

Under the food stamp proposal, the needy would draw stamps good for purchases at grocery stores. The program is part of President Johnson's package of anti-poverty legislation.

The House Rules Committee, which never got a chance to act on the food stamp plan Wednesday, was scheduled to take up the wheat-cotton bill today. The committee's consideration of the food stamp plan was interrupted by three GOP-inspired quorum calls on the House floor. The interruptions consumed 1 hour, 18 minutes.

Democratic leaders are pressing hard for enactment of the wheat-cotton bill by April 1 before the spring planting season gets under way. Republicans are officially against the bill.

Other congressional news:
Aid: President Johnson sends his \$3.4 billion foreign aid request to Congress. The request, which faces a tough battle, includes \$1 billion for military aid and \$2.4 billion in economic assistance for the year starting July 1. Johnson said the request had been pared down to (See ISSUE, Page 3)

Accreditation OK'd For Highland Hospital

B. W. Robertson, administrator of Highland General Hospital, announced this morning a hospital auxiliary information meeting, that a one year accreditation had been handed Highland General by the Joint Commission on Accreditation in Chicago.

A survey, conducted by Dr. John Boxwell, Chicago, on Feb. 6, was evaluated and the report was received this morning by the administrator.

Robertson said that approximately 60 per cent of the operating hospitals in the United States hold a one-year or three-year accreditation.

High physical facilities must be obtained and maintained; adequate medical records provided; experienced personnel in charge of all internal departments and strict rule enforcement must be present to receive accreditation.

Robertson stated that the recognition amounted in short to better patient care; better insurance coverage and maximum service. A doctor will be on emergency call in the event a patient's personal physician cannot be contacted.

Since the hospital began operation 13 years ago, a new wing has been constructed and facilities provided for care of 150 patients. The maternity floor provides space and care for 21 patients; Medical has 91 beds and the remaining are in the surgery hall. A full x-ray laboratory is available and two surgery units are in use.

Robertson expressed sincere thanks to the medical staff of the hospital, stating that without full cooperation from practicing physicians in Pampa and full backing by the board of managers, the accreditation would have been impossible.

Members of the board of managers are Don Conley, Arthur Teed, R. W. Stowers, Fred Neslage, John Haymes, McLean, and J. R. Sparkman, Lefors. Dr. George Herlacher is chief of the medical staff.

Robertson explained the importance of forming a hospital auxiliary to the Junior Service League sponsored meeting this morning. David DuVall, assistant administrator, Miss Meador nursing supervisor, and Father West, representing the Ministerial Alliance, outlined the needs of an auxiliary in Pampa and (See HOSPITAL, Page 3)

Boy Steals Horse To Get to School

ALBEMARLE, N. C. (UPI)—It all began when he missed his school bus, said a 12-year-old boy, hauled into juvenile court Tuesday for stealing a horse.

Afraid his father would punish him if he missed school Friday, the youth smashed a windowpane, climbed into a barn, saddled a horse and rode him to class.

On his return, the boy said, he tied the horse in an old barn, certain the animal would be found by its owner. He made no attempt to keep the horse, saddle or blanket on the horse.

The tearful youth, whose name was withheld because of his age, apologized to the owner of the horse and got a lecture

from Judge Joe H. Lowder for lying to his parents.

Lowder also ordered the youth to pay for the broken window and placed him on probation for one year.

TRUCK ACCIDENT KILLS 15

HAVANA (UPI) — Fifteen persons were killed and more than 20 injured when a truck turned over at Soroa, Pinar del Rio Province, after its brakes failed, press reports said Tuesday.

The reports said the victims were members of an "excursion" group of some 50 persons apparently engaged in "volunteer" cane cutting.

Three-Meat Loaf Good News for Busy Mother With Hungry Family

By GAYNOR MADDOX
A meat loaf in the oven is good news to a hungry family. Particularly when three meats are combined as in this juicy recipe — ground beef, pork and veal. Red tomato juice, oregano for spicy flavor and rolled oats are the other interesting ingredients. If mother is too busy to make a brown or mushroom sauce, she can use one of the several very good canned brown and mushroom sauces.

MEAT LOAF

(8 Servings)
1/2 lb. ground beef
1/2 lb. ground pork
1/2 lb. ground veal
3/4 cup rolled oats (quick or old fashioned, uncooked)
1 1/2 teaspoons salt
1/4 teaspoon pepper
1/4 teaspoon oregano
1/4 cup chopped onion
1 egg, beaten
1 cup tomato juice
Heat oven to moderate (350 degrees). Combine all ingredients thoroughly. Pack firmly into an 8 1/2 x 4 1/2 x 2 1/2-inch loaf

Laced With Vanilla, Easter Cake Is Tops

By GAYNOR MADDOX
Here's a very beautiful Easter cake recipe, fragrant with the essence of pure vanilla. To make the classic vanilla sugar, bury a split vanilla bean or two in your sugar jar for a week or longer. This insures the finest flavor.

VANILLA EASTER CAKE

(12 Servings)
2 cups sifted cake flour
2 teaspoons double-acting baking powder
1/4 teaspoon salt
1/2 cup shortening
1 1/4 cups sugar
1 1/2 teaspoons pure vanilla extract
4 large egg whites, unbeaten
1/2 cup milk

Sift the first 3 ingredients together and set aside. Cream shortening with sugar and pure vanilla extract until well blended and fluffy. Beat in egg whites, one at a time. Add the flour mixture alternately with the milk. Beat batter 1/2 minute. Turn into 2 well-greased, lightly floured,

round 8-inch layer cake pans. Bake in a preheated moderate oven (375 degrees) 25 minutes or until done. Cool in pans 10 minutes. Turn onto wire racks to finish cooling. Spread Easter Cake Filling between layers. Frost top and sides of the cake with the remaining frosting.

EASTER CAKE FILLING

2 large egg whites, unbeaten
1 1/2 cups sugar
1/4 teaspoon cream of tartar
1/4 cup water
1/4 teaspoon salt
2 teaspoons pure vanilla extract
2-3 cup mixed glace fruit
1-3 cup blanched almonds chopped

Combine the first 5 ingredients in the top part of the double boiler. Place over boiling water and beat with an electric or rotary beater until the mixture stands in soft peaks. Add pure vanilla extract. Remove from heat and continue beating until stiff peaks are formed. Add glace fruit and almonds to 1-3 of the frosting. Mix well and spread between layers. Spread remaining frosting over the top and sides.

REGAL EASTER CAKE is fragrant with vanilla.

Try These Extra Good New Ideas

By GAYNOR MADDOX
Americans are big vanilla users. The United States normally imports between 40 and 50 per cent of the three million pounds of vanilla beans grown throughout the world. Last year, this amounted to more than 1,578,000 pounds, of which all but 20 per cent came from the Malagasy Republic. These fragrant pods, actually the fruit of a tropical orchid, are used to make pure vanilla extract.

Here are two good recipes using pure vanilla extract:
ENGLISH CHOCOLATE PUDDING (4 servings)
1 1/2 cups milk
3 large egg yolks
1-3 cup sugar
1 teaspoon flour
1 teaspoon pure vanilla extract
1/4 teaspoon salt
2 oz. (2 squares) semi-sweet baking chocolate, melted
Lady fingers or strips of sponge cake

Scald milk in a 2-quart saucepan. Combine egg yolks, sugar, flour and salt. Add to milk. Stir and cook over low heat or hot water (not boiling) until the mixture coats a metal spoon. Remove custard from heat and stir in melted chocolate and pure vanilla extract. Chill. Serve in sherbet glasses, each lined with 3 lady fingers or 3 strips of sponge cake.

VANILLA COCONUT SOFT CUSTARD
1/4 cup sugar
1/4 teaspoon salt
3 large eggs, slightly beaten
2 cups milk
1 teaspoon pure vanilla extract
1/4 cup shredded moist coconut
Mix sugar with salt in a saucepan or in the top part of a double boiler. Blend in eggs. Stir in 1/4 cup cold milk; heat the remaining milk and add to the mixture. Cook over low heat or over hot water until the custard coats a metal spoon, stirring constantly. Remove from heat. Add pure vanilla extract and coconut.

Offer Variety Of Lenten Luncheons

LOBSTER STICKS
1/4 cup butter or margarine
1/4 cup flour
1/4 teaspoon salt
1/4 teaspoon pepper
1 cup milk
2 cups (2 5-oz. cans) lobster meat, broken
3 cups corn flakes or
3/4 cup packaged corn flake crumbs
1 egg, well-beaten

drained and flaked
2 tablespoons finely cut parsley
1/2 cup grated Cheddar cheese

Beat eggs and milk together until foamy; add Croutettes and let stand about 5 minutes or until soft; beat well. Carefully stir in tuna, parsley and cheese. Spoon into well-greased custard or muffin cups.

Melt butter in medium-sized saucepan; stir in flour, salt, and pepper. Add milk slowly, stirring constantly. Cook until thickened, stirring occasionally. Remove from heat; fold in lobster. Spread in greased 8 x 8-inch pan. Chill. Cut into 12 portions about 1 1/4 x 4 inches. If using corn flakes, crush into fine crumbs. Dip sticks in beaten egg; roll in corn flake crumbs. Fry in heated shortening until lightly browned on all sides.

TUNA TIMBALES
2 eggs
2 cups milk
4 cups seasoned stuffing croutons
2 cups (2 6 1/2-oz. cans) tuna.

Bake in moderate oven (350 degrees F.) about 40 minutes, or until knife inserted near center comes out clean.

****SEALTEST...makes the difference!****

When kids deserve a treat, give 'em the one with real milk values!

Next time your children deserve a treat, give them the treat that provides wholesome nourishment. Give them Sealtest Chocolate Milk, the one with real milk values... contains milk protein, vitamins and minerals.

Sealtest Chocolate Milk is a product of skilled and experienced personnel working with the latest in modern equipment to test and retest for purity, goodness, freshness. Next time, serve Sealtest Chocolate Milk.

YOUR FAMILY DESERVES THE BEST...INSIST ON SEALTEST!

TRY SEALTEST DIP 'N DRESSING
A delectable dip with crackers, chips. Or, use as a topping for soups, meats, fish, salads, baked potatoes.

SEALTEST HOMOGENIZED VITAMIN D MILK
Produced with every modern quality control to assure you of purity and freshness.

Here's a Meatless Dish With Novelty Appetite Appeal

By GAYNOR MADDOX
Here's a meatless dish with appetite and novelty appeal—deep dish tuna and vegetable pie. The second recipe for breaded perch fillets with tartar sauce also adds novelty to your Lenten menus.

DEEP DISH TUNA FISH AND VEGETABLE PIE

(6 servings)
2 cans (7 oz. each) tuna fish
1 can (10 1/2 oz.) cream of celery soup
1/2 teaspoon poultry seasoning
1/4 teaspoon salt
1/4 teaspoon ground black pepper
2 cups (1 pound) canned mixed vegetables
1 tablespoon butter or margarine
12 unbaked baking powder biscuits

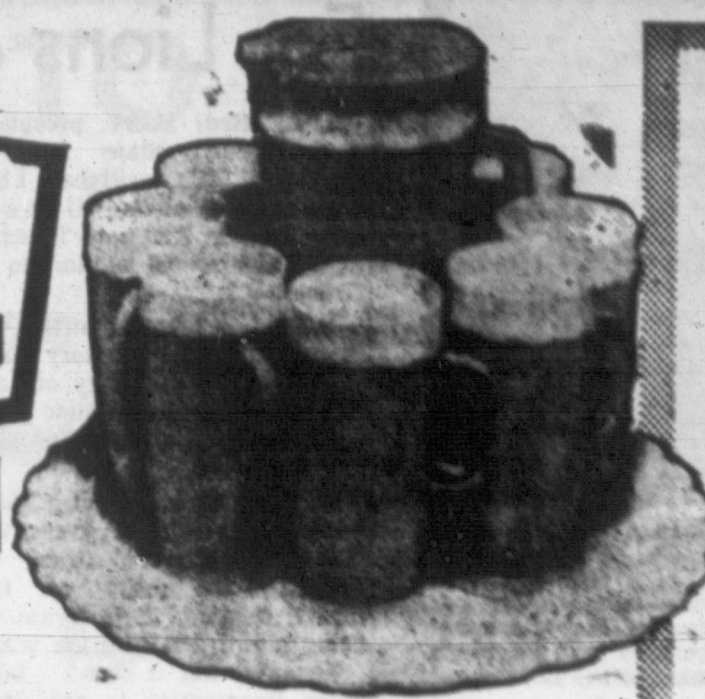

Combine first seven ingredients. Mix lightly. Turn into a 10x6x2-inch baking dish. Top with unbaked biscuits. Bake in a preheated hot oven (400 degrees) 35 minutes or until biscuits are browned and thoroughly baked. If biscuits are inclined to brown too much before they have completely baked, cover with foil. Serve hot.

HERBED BREADED PERCH FISH FILLETS

(4 to 6 servings)
1 pound perch fish fillets frozen or fresh
1 cup fine dry bread crumbs
1/2 teaspoon poultry seasoning
2 large eggs, beaten
2 tablespoons milk
3/4 teaspoon salt
1/2 teaspoon ground black pepper
Tartar sauce
Cut fish fillets into strips 1/4-inch wide. Mix bread crumbs with poultry seasoning. Roll fish strips in mixture. Dip in egg, mixed with milk, salt and black pepper. Roll in remaining crumbs. Fry until browned in deep fat preheated to 375 degrees or until a cube of day-old bread browns in 60 seconds. Drain on paper towels. Serve with Tartar sauce.

TARTAR SAUCE
Mix 1 cup mayonnaise with 1/4 teaspoon instant minced onion and 1 tablespoon each of chopped cucumber pickle, stuffed olives, parsley and capers.

Desk, Derrick to Hear Address by Clayton Husted

Clayton Husted of Pampa will address the monthly dinner meeting of the Desk and Derrick Club at 7 p.m. Monday in Coronado Inn.

Husted's topic will be "Necessary Preparations for Staking a Location Prior to Spudding Operations."

All women employed in the petroleum and allied industries are invited to the dinner session, according to Mildred Scott, club secretary. Reservations can be made by calling June Allen at MO 5-4611.

Husted, a veteran in the oil industry, came to the Panhandle with his parents in a covered wagon in 1913. He attended schools in Amarillo and Pampa. He went to work for the Santa Fe Railroad from 1926 to 1933 and was employed by the Texas Company in various oil-field capacities from 1933 to 1944.

Husted served as area chairman for the Oil Information Committee from 1947 to 1952, and was secretary-treasurer of the Panhandle Chapter American Petroleum Institute from 1945 to 1951. He served as chairman of the Advisory Committee in 1952 to 1953, and has served on that committee continuously since then. He has served as secretary-treasurer of Mid-Continent Division of American Petroleum Institute and co-chairman of the General Arrangements Committee for the Mid-Continent Division convention.

Husted helped form and was part owner of C. M. Jeffries Trucking Co. selling his interest and starting his company in 1951. He is now President of Clayton Husted Company, Longhorn Trucking Co., and Secretary-Treasurer of Curtis Well Servicing Co.

GUARANTEED WAGES MOSCOW (UPI)—The Soviet Union announced today that collective farmers in the republic of Estonia are now getting guaranteed monthly wages.

This was the first implementation of Premier Nikita Khrushchev's proposal for increased material incentives as a means of boosting lagging Soviet farm production.

SQUIRREL REPORT

SACRAMENTO, Calif. (UPI)—Assemblyman George Zenovich, who led a drive to capture six squirrels at Fresno County Court House Park and transfer them to state Capitol Park to perpetuate the species, made his first annual squirrel report Wednesday to the full assembly.

"I am very happy to announce that the superintendent of the park saw two baby squirrels yesterday," Zenovich said. "I have cigars."

TOWARD WORSHIP REVISION—Roman Catholic Archbishop Paul J. Hallinan, of Atlanta, Ga., left, and Joseph Cardinal Ritter, of St. Louis, right, have been appointed by Pope Paul VI to serve on the commission working out reform of Catholic worship.

Naming of the 42-member group numbering prelates from 26 countries is an outgrowth of decisions made by the recent session of the Ecumenical Council.

The American Federation of Labor was formed in 1886.

Oklahoman to Speak For Lions at Groom

L. L. (Red) Males, president of the Security State Bank, Cheyenne, Okla., will be the guest speaker of the Groom Lions Club at 7:30 p.m. Tuesday at the high school auditorium in Groom.

Males is a member of the National Watershed Advisory Committee to the secretary of agriculture. His colored slide presentation shows a watershed program at work.

Males, a country banker, first became interested in conservation in the early 1930's when he could see the fertility of the farms floating downstream or being blown away by the wind.

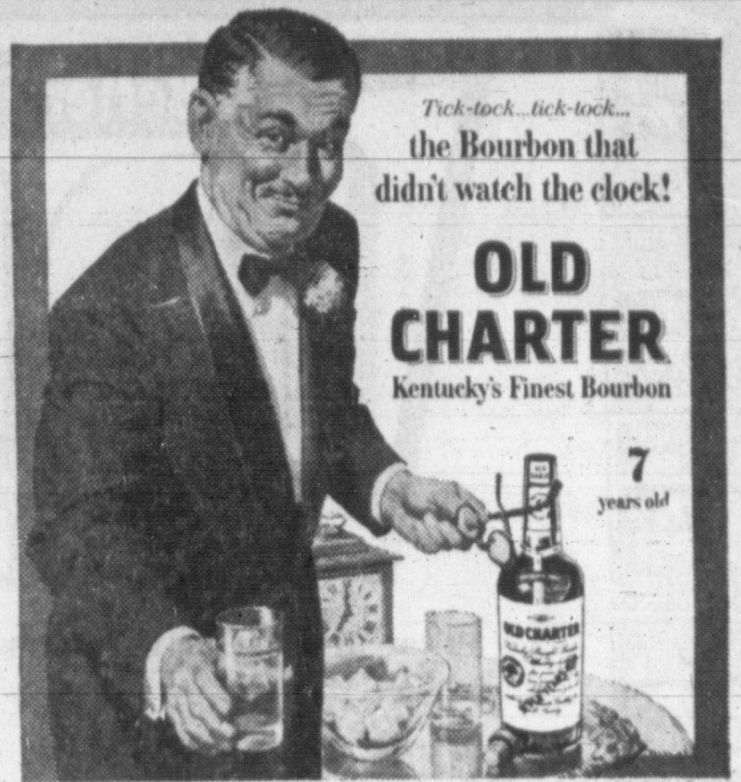

He says that it didn't take much imagination to see the stores, banks, schools and churches following these farms unless something could be done to stop the erosion. Later he learned that we could not have soil conservation without water conservation, and he became interested in the Upstream Flood Prevention Program which combines the two.

Males lives in the valley of the Washita River, which was authorized for flood prevention treatment in 1944. The famous Sandstone Creek Project adjoins Cheyenne.

Local people from Pampa and adjoining towns interested in developing a water shed program on McClellan Creek are invited by the Groom Lions Club to attend this meeting.

Foreign News Commentary

By PHIL NEWSOM
UPI Foreign News Analyst
The end of the first 100 days of Italian Premier Aldo Moro's interleft government finds important changes occurring in the nation's "miracle" economy and among its left-wing political parties.

Italy's economic growth in recent years has surpassed even that of France and West Germany. But it also has led to galloping inflation which recently has caused a flight of capital and a trade deficit threatening her gold and dollar reserves.

Over the weekend, the United States and a number of European banks moved to tide Italy over its financial emergency until the government's own attempts to put on the inflationary brakes take hold.

The help came in the form of a billion dollars in credit designed to halt speculation in the Italian lira.

The government's own efforts have included new taxes to help meet a budget deficit and measures to curb consumer spending.

Curb Installment Buying
Particularly hard hit was the booming business in new automobiles which rapidly has been converting Italy to a nation on wheels.

The curbs include tightened restrictions on installment buying, a new auto sales tax and a 10 percent increase in gasoline taxes.

The austerity measures have brought complaints from both labor and business and have led to strains within the Moro government in which left-wing socialists are participating for the first time since the years just after World War II.

However, since there seems to be a practical alternative to the center-left cooperation of Socialists and Christian Democrats, the government is expected to survive and there are hopes that steps to halt the inflationary spiral have been taken in time.

Outside the government but pressing for a voice are the Italian Communists, who themselves are split.

One out of four Italians votes Communist, but in the party conference which ended Sunday in Naples there were complaints of a declining membership and charges that the leadership had lost touch with the people.

Chinese Faction
An important element in the debate was the split between a pro-Chinese faction and the leadership of Palmiro Togliatti, the Communist veteran who continuously advocates the co-existence line of Nikita Khrushchev.

Khrushchev's suggestion that Italian Communists improve their relations with the Catholic Church in a spirit of co-existence drew little public reaction from the delegates. It had been interpreted as a move by Khrushchev to improve Communist chances for a role in government and to check the pro-Chinese

FLY TO WEST
BERLIN (UPI)—Three East Berliners escaped the Communist zone successfully into West Berlin last weekend, West Berlin police said.

Lunar Logic Theme for Civic Culture Club Recent Program

Groom Altar Society Completes Planning

GROOM (Spl) — Christian Mothers and Altar Society met recently at St. Mary's School with Mrs. Walter Olinger; president in charge of the business session. Following regular reports by officers, the original constitution of the Christian Mother's and Altar Society written in 1937, was read by Mrs. Albert Britten.

The Pampa Deanery spring meeting was announced. It will be conducted April 17 at St. Francis Hall in St. Francis. Delegates to be Nancy Kotara and Linda Bohr. Alternates will be Lucille Britten and Louise Conrad.

The slate of new officers was read and will be voted on the next regular meeting. Listed for leadership were, president, Mrs. Arnold Kuhler and Mrs. Mike Homer; vice-president, Mrs. Bill Bohr; secretary, Mrs. Jerry Kotara; treasurer, Mrs. W. H. Ollinger; historian, Mrs. Clara Britten; and reporter, Mrs. Jimmy King.

Nominations will also be accepted from the floor. Mrs. Homer presented the program on working with the Ladies Auxiliary at the hospital.

American Field Service Students Address 20th Century Cotillion

Pampa High School's foreign exchange students were the guest speakers at a recent meeting of Twentieth Century Cotillion at the home of Mrs. Jim Campbell, president.

Mrs. Aubrey Steele, president of the Pampa chapter of the American Field Service program, introduced Evelyn Roberts from New Zealand and Juhani Karmakoshi from Finland. The two students discussed their respective countries' natural resources, government, people and customs.

When asked why most foreign countries seem to have an unfavorable impression of the United States, Miss Roberts replied that the movies we send abroad often give other countries a bad impression of our way of life. In New Zealand, most of the people's information about the United States comes from the movies.

Both students seemed to be favorably impressed with America, and especially with Texas. Juhani Karmakoshi was surprised to find that the "real" Texas is so much like the Texas he had seen on TV before coming to this country. He is particularly interested in the oil industry, which does not exist in his country.

The two students have enjoyed their visits to the ranches of the Panhandle and are busy collecting Western clothing and souvenirs to take back home.

At the close of the program Twentieth Century Cotillion presented a donation to the Pampa chapter of the American Field Service in the names of the two exchange students.

The club members discussed the plans for the annual Spring Antique Show, which will be held April 3, 4 and 5 in the Starlight Room of the Coronado Inn. The schedule of the showings will be: April 3, 10:30 a.m. through 9 p.m.; April 4, 10:30 a.m. until 9 p.m.; and April 5, 1 p.m. until 6 p.m.

Proceeds from the ticket sales will be presented to the Opportunity Plan Inc. of West

Texas State University. Club members will visit the various civic organizations this month to explain the Opportunity Plan and sell tickets to the Antique Show.

Members present at the meeting were Mmes.: Weidon Adair, Thelma Bray, Buddy Cockrell, Lee Fraser, James Gallemore, Howard Greenlee, Ralph McKinney, Don Morrison, Charles Norton, W. D. Price Jr., Kenneth Roysse, Jim Alexander, Frank Vitrano, Jack White and Campbell.

"Astrology is the study of the Lunar system — the planets and their relationship to earth and to men" Mrs. H. H. Boynton stated as she introduced the program on "Lunar Logic" to the Civic Culture Club when it met in the home of Mrs. H. S. Alexander recently.

"The moon influences almost every area of life on earth," Mrs. Boynton continued. "It's pull causes the oceans tide — it's electromagnetic influence affects the way we think or feel. Police know that crime increases at the full of the moon. Even sleep walking is stimulated by the full moon. Farmers know that potatoes should be dug when the moon is decreasing — while fruit is best picked when the moon is increasing. Lettuce planted under the new moon will have fast growth and tender leaves."

The successful gardener works with the moon's signs. Flower seeds should be planted during the first quarter when the moon is in the sign of Libra for beauty and fragrance. Cucumbers are best planted when the moon is in Scorpio and increasing. Grain should be harvested after the full moon and not in a watery sign. More fish are caught when the moon is in the Pisces.

Weather men have learned to make accurate long range forecast of rainfall and temperature by the moon and planets.

Hunters too, are guided by the moon's signs and phases. Everything in nature relates to the moon's cycle — or rhythm.

Many scientists explain the relationship between life on earth and the moon's cycles

this way — all life is electrical in nature and throughout nature there is an electrical rhythm that coincides with the moon's cycle. All plants and animals have special cycles — and you can use the moon to accomplish more with less effort and should be our objective.

The human cycle is very important. People make more mistakes when they are at the low of the cycle — on the other hand much can be accomplished when you are at the top of your cycle. On good days you are more inclined to do things right automatically — your reflexes are functioning right. Mrs. Boynton cited an example of this when she quoted from the editor of the "Moon Book" stating that they were quite nervous about Gordon Cooper when he was launched into orbit in face of opposition — Mars and Saturn.

"We didn't like that — we watched it closely. When word came that the automatic controls were not working — that he was going to have to get down by himself our hearts came into our throats and we thought it time to start praying — however, when it came time to fire the retro-rocket, to slow down and make the re-entry Cooper was at the exact top of his human cycle."

This is the time when one's skill, judgment, and intuition is at its best and so with split second accuracy he fired the retro-rocket. He broke all records and landed within a few miles of the ship that was to pick him up."

As a simple guide to living and working in accordance with these cycles and the natural rhythm of life — regardless of your vocation in life you can do it better by working with the moon as your guide to choose nature's life cycles.

God has created the universe and set it in motion by certain laws and regulations that never change. He has a purpose for every thing in nature.

He has a purpose for you and me. When we recognize His laws and live by His purposes then we have harmony within ourselves. But He also gives us our free will and that is where the trouble comes in. When we exercise our own will without His guidance then sin enters and we become frustrated and ill. Doctors today tell us that a large percent of illness is caused from tension and frustration.

There are two attitudes you can assume toward astrology. One is the negative which is fatalistic and wait to see what is going to happen, the other is positive — whereby with knowledge of astrology's abstract laws you use the solar system to make things the way you want them to be. With the positive you set out to achieve an objective. When properly employed astrology allows you to accomplish more with less effort and should be our objective."

At the conclusion of the program Mrs. Boynton presented each member with a little book that she had made with information containing Moon Logic based on each individual's birthday.

Mrs. K. A. Sorenson, president presided in the business meeting. Mrs. Irvin Cole presented a short history of the club. The Club is sponsoring an entrance in the Hallmark Art contest in the Top of Texas district.

Plans were made during the business session to plant shrubs and trees at Highland Hospital. A spring bazaar was discussed and plans to send a delegate to the auxiliary meeting were made.

Waldon Moore reported progress made toward securing land on which to construct a bird sanctuary.

The program was presented by R. L. Studebaker who showed slides made during his two year stay in Central America as a member of the Peace Corp.

A social hour followed the planning session and refreshments were served by the hosts.

Mr. and Mrs. Robert Coley will host the next meeting set for April 7 at 7:30 p.m.

Mr. and Mrs. Garden Club Announces Landscaping Project

Mr. and Mrs. Ira Carlton, 331 N. Faulkner, were hosts for a meeting of the Mr. and Mrs. Garden Club Tuesday night.

Plans were made during the business session to plant shrubs and trees at Highland Hospital. A spring bazaar was discussed and plans to send a delegate to the auxiliary meeting were made.

Waldon Moore reported progress made toward securing land on which to construct a bird sanctuary.

The program was presented by R. L. Studebaker who showed slides made during his two year stay in Central America as a member of the Peace Corp.

A social hour followed the planning session and refreshments were served by the hosts.

Mr. and Mrs. Robert Coley will host the next meeting set for April 7 at 7:30 p.m.

Simple Tree Teaches Fair Goers Economics

NEW YORK (SpI) — The Tree is blossoming forth as a dramatic and simple new way of teaching economic processes in a display at the New York World Fair.

Called the Tree of Economic Life, the new teaching device is designed to trace the growth of material abundance by the application of human energy to natural resources through the use of tools. It was created for the HALL OF FREE ENTERPRISE by the Wilkie Brothers Foundation, Des Plaines, Ill.

The 14-foot exhibit, which took more than a year to build, contains almost 100 replicas of the tools of production, 79 models of working people engaged in specialized trades and crafts and professions, and more than 1,000 "fruits" symbolizing the products of labor for which we spend our income. It revolves on an 11-foot base as the narration proceeds.

Leighton Wilkie, president of the Wilkie Brothers Foundation, explained the purpose of the Tree: "Everyone understands that a tree grows by drawing its sustenance from the earth, that its trunk supports its limbs, and leaves, and that its fruit is the product of growth. The Tree of Economic Life has all the elements of a real tree."

The natural resources at the foot of the Tree symbolize the first factor of production which man uses to make the products of his modern world. The roots of the Tree are shown drawing upon these natural resources which make possible life on earth.

The leaf side of the Tree shows people, symbolizing hu-

man energy, the second factor of production. Human energy must be applied to natural resources before they can assume a form, condition or place making them useful to us.

The trunk, roots and branches of the Tree show our tools, the third factor of production which supports our economic life. The abundance of our tools makes possible our high standard of living. Showing inside the trunk are the basic machine tools which produce all other machines. Progressing up the trunk are the tools used to produce goods and services, and at the top are the tools of finance, marketing, and research.

On this side of the Tree, the limbs are hollowed out, and contain actual scale models of factories, plants and construction equipment. Money and credit is symbolized by the sap, shown, by a technomation device, flowing throughout the entire Tree, just as money and credit must flow throughout our economy.

The third side of the Tree shows the fruits of our labor, to symbolize the crop of abundance produced from natural resources when human energy is multiplied by tools. The fruit is arranged to indicate the way we spend our income for the necessities of life, recreation, cultural and spiritual pursuits.

Visitors viewing the 8-minute demonstration of the Tree in the Hall of Free Enterprise at the New York World's Fair will receive "Honorary Degree" certificates for having taken an "instant learning" course in economics. Miniature cardboard Trees will be available at the pavilion.

Dear Abby... Two-Timing Friend Better Than Two-Timing Husband!

By ASIGAIL VAN BUREN

DEAR ABBY: I am 49 and have been going with a 51 year-old man for the past two years. He has been wonderful to me. He takes me to nice places and buys me lovely things. He asked to marry me, so I took him over to meet my son and daughter-in-law one evening. Well, it seems my daughter-in-law became interested in him (she is 28) and I was told that she called him up and invited him over when her husband wasn't home. My son travels three days a week, so she has a clear field. I notice when my son is out of town, his wife is never home and I can't find my friend, either. He takes me out only when she can't go. They have three little children. Abby, and now I feel guilty for taking him over there. Although she ran after him, if my son finds out he will half-kill my friend. I need this man because we had plans of marriage. What should I do?

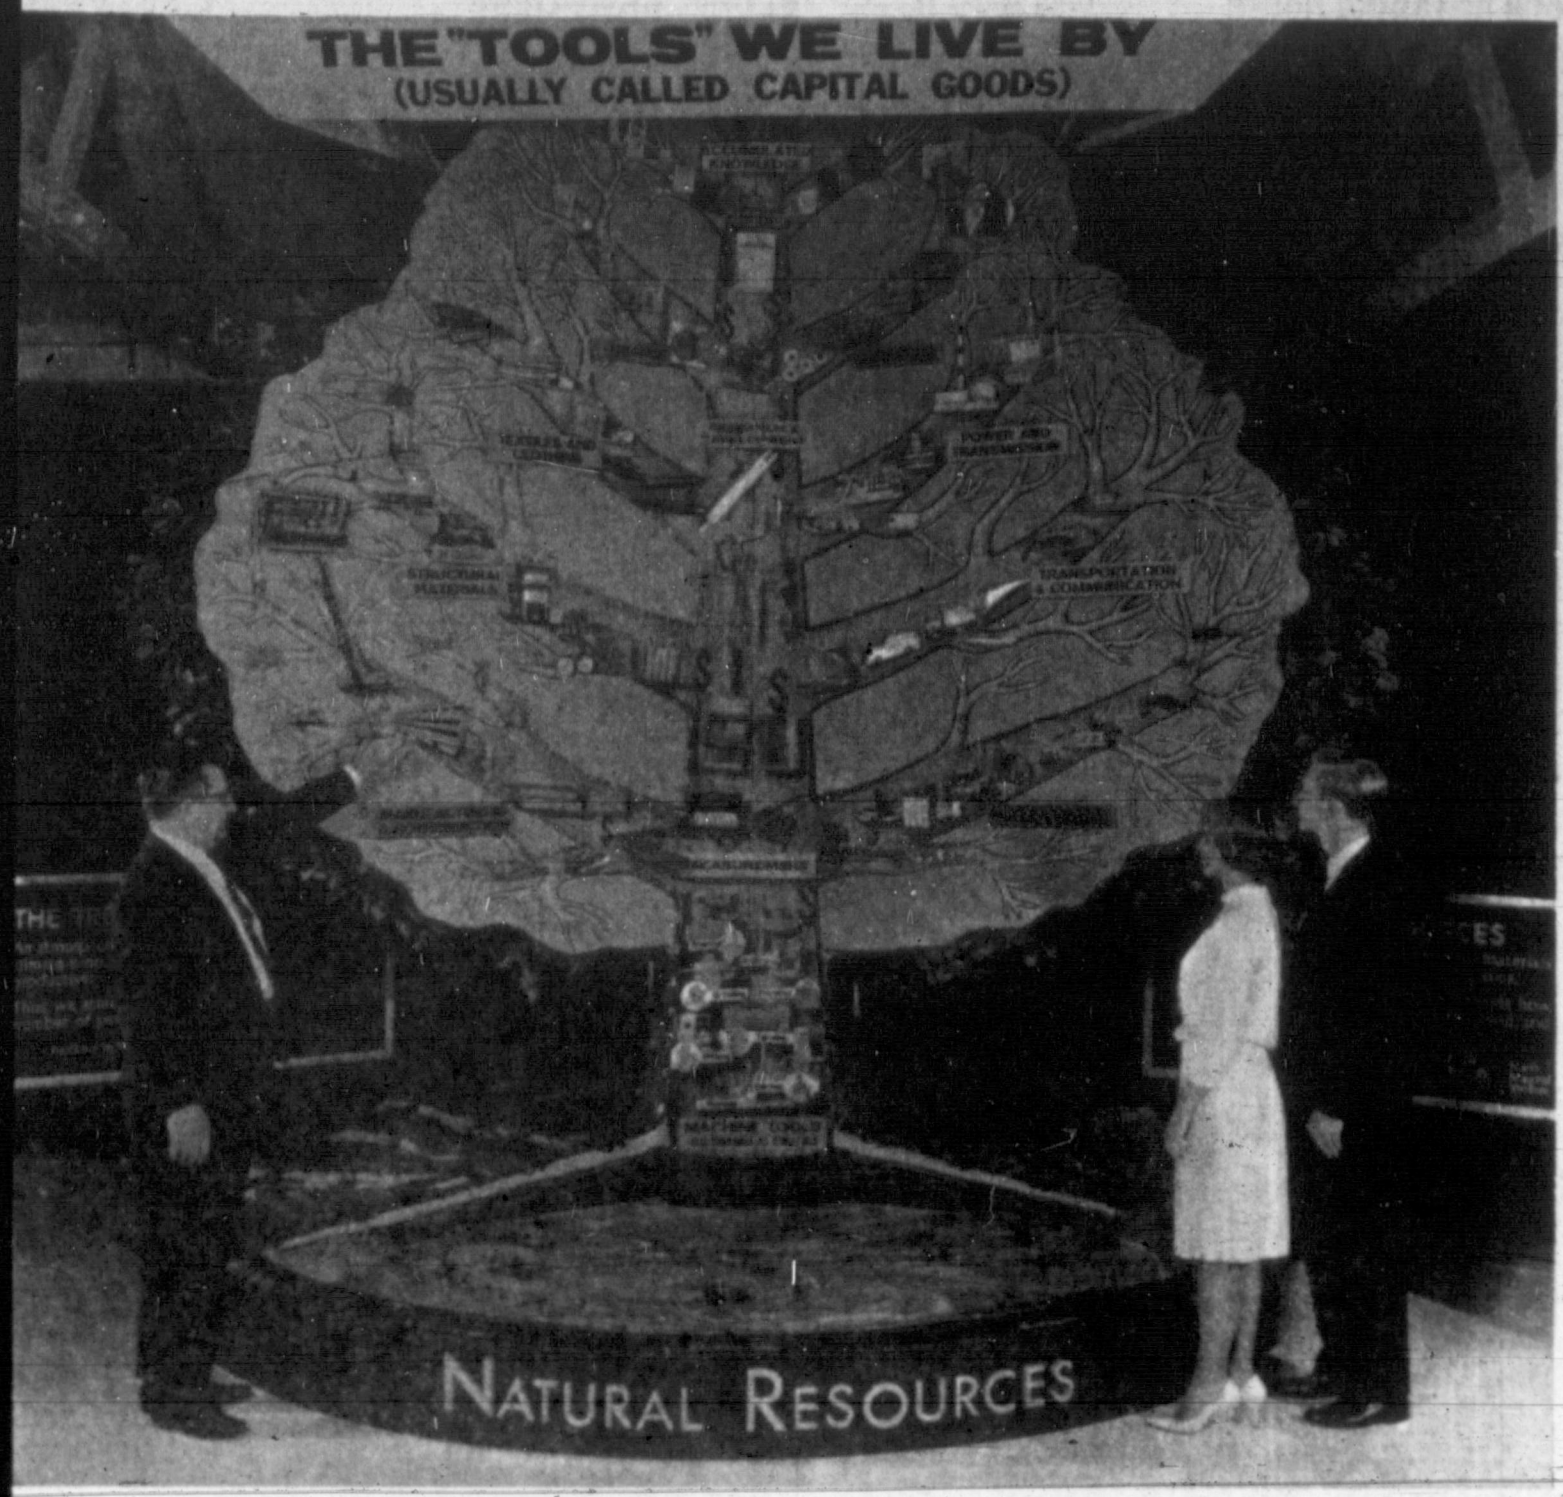

HAS TROUBLES
DEAR HAS: Drop your friend, and tell him why. He'll undoubtedly pass the word on to your daughter-in-law and it might scare some sense into them. A woman with a two-timing friend doesn't know

what trouble is until she has a two-timing husband.

DEAR ABBY: This is being written by FOUR women who are all in agreement on a neighborhood problem. There is a young, widowed woman in our neighborhood who is very well proportioned. She strings a clothesline across her FRONT porch. It is very embarrassing to see her flimsy nightgowns and all the underthings that women wear flapping in the breeze. What do you suppose she is advertising?
FOUR DISGUSTED NEIGHBORS
DEAR DISGUSTED: She is "advertising" the fact that she has no clothes dryer. Neither has she a man to set up a clothesline in her back yard.

CONFIDENTIAL TO "RELIEVED": The letter to which you refer could not have concerned your husband. It did not come from any of the cities you mentioned.

Get it off your chest. For a personal, unpublished reply, write to Abby, Box 3365, Beverly Hills, Calif. Enclose a stamped, self-addressed envelope.

—Daily News Staff Photo

TREE PROVIDES EQUATION — Tools, which are all of the things that air man in the production and exchange of goods and services, are the most important factor of production. The efficiency and abundance of our tools make possible our high standard of living. Man's Material Welfare anywhere may be said to equal his Natural Resources plus Human Energy times Tools (MMW equals NR plus HE times T).

Late Pope Writes in Diary Of Days He Served in Army

By RUFUS S. GOODWIN
United Press International
ROME (UPI)—To Pope John XIII, the army barracks was a terrible and he wrote in his diary, "how ugly the world is, that dirt, what filth!"
That was in 1901, when the late Pope was in the army. It is one of the entries contained in the diary which Angelo Roncalli kept from the age of 14 to 81—a year before his death and which appeared in Italian book stores today under the title, "Il Giornale Dell'anima" (Journal of a Soul).
The Pope spoke with rare frankness of his military service, saying "I had to submit myself to military service which is an unjust and barbarous imposition on the ministers of God."
Later he drew this lesson from his military experience:

"I do not live for other than to obey the signs of God like a little soldier at attention before his superior. I am a servant, and the Lord has shown me His orders. I love health. Here is sickness. God sends it to me. Well, may sickness be blessed then."
Pope John was drafted in November, 1901 and served as a non-commissioned officer in the medical corps.
The man who later wrote encyclicals hailed by the working classes and who did more to ease tension between the Vatican and Communist world than any other church figure of this century wrote this way about a 1903:
"The workingmen, but without religion and without God, the poor, exploited by the demagogues, the unconscious crowd

lives it up today, bawling its mainly Utopian ideals which, at times most just, are almost always deformed and profaned."
The diary is a collection of notes that shed light on Pope John's spiritual life from his young years in seminary until one year before his death in 1963.
On July 9, 1961, Pope John told his private secretary Msgr. Loris Capovilla that he could publish the diary, but only after his death.
"My soul," he said, "is in these pages."
Msgr. Capovilla recounts in the preface to the book that Pope John said to him that evening as he leafed through pages of the diary:
"I was a good boy, innocent, a little timid. I wanted to love God at all costs and I didn't

Reporting Board Gives Crop List

WASHINGTON (UPI)—The Agriculture Department Wednesday estimated farmers will plant 68,867,000 acres to corn this year, down 1.7 percent from last year's planting.
The Crop Reporting Board said that with average yields that acreage would produce about 4,055,000,000 bushels of corn for grain, compared with last year's record output of 4,081,395,000 bushels of the key livestock feed.

The board said farmers indicate plans, as of March 1, to plant a total of 310,000,000 acres for 1964 harvest. The total planted acreage in 1963 for 59 crops was 309 million acres.
think of anything but being a priest. And meanwhile I struggled against an enemy in myself, the love of myself. I took everything seriously, and the examinations of conscience were detailed and severe."

Associate Justice for Potter Court Named

AUSTIN (SpI) — In a state bar-conducted mail poll of North and South Plains lawyers, completed last week, Ernest O. Northcutt of Randall County received 194 votes to 149 for his opponent, Herbert C. Martin of Potter County, for associate justice of the Amarillo Court of Civil Appeals.
Northcutt is the incumbent.
Voting in Potter County was Martin, 32 votes to Northcutt's 30. In Randall County, Northcutt received 29; Martin, 25.
In the only statewide appellate court contest, Democratic Candidate Jack Pope of San Antonio was the choice of lawyers over his Democratic opponent, Sears McGee of Houston, and a Republican candidate, T. E. Kennerly, also of Houston.

Pope received 3,983 first choice votes; McGee, 1,081; and Kennerly, 796.
As a second choice, McGee polled 2,243; Kennerly, 2,040, and Pope, 806. A second choice was not indicated by 775 voting lawyers.
Voting in Bexar County, Pope's home county, was Pope, 368; Kennerly, 16 and McGee, 1.
PIPE MAKERS BOOMLET
NEW YORK (UPI) — Makers of pipes and pipe tobacco are in the midst of a boomlet since the government's report on cigarettes and health was released in January, the Pipe and Tobacco Council reported Tuesday.
With a perhaps modest assist from the ladies and their jeweled pipes, sales of pipe tobacco in January jumped to the highest level since 1953.

Marks Expected to Fall at 15th Panhandle Meet

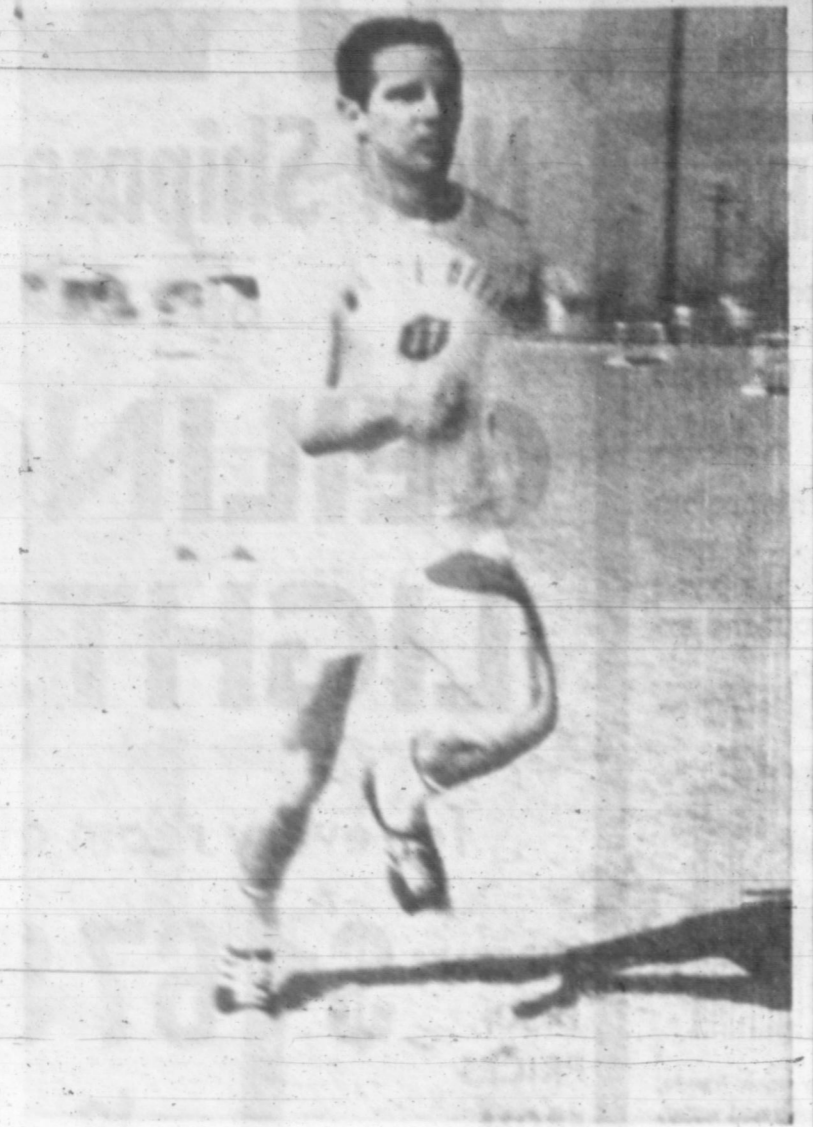

Panhandle — A number of marks, including the 100-yard dash, are expected to fall at the 15th Panhandle Track Meet Friday and Saturday, predicted Coach Ed Lehnick.

Looking at some of the records set earlier in the year by entered in this meet, there is a good chance that quite a few new records could be predicted the Panhandle all and track skipper.

Only eight teams are entered in the meet, with the possibility of several more last-minute entries in the largest small meet in the Panhandle.

Only area powerhouse missus Wellington, with Dalhart, and Wheeler rated by back as the top three in the meet, and Claude, White Deer and Lefors possible dark horses.

Entries are Allison, Boys, Briscoe, Canadian, Clanton, Darronsett, Groom, Memphis, Miami, Price, Sanford, Frith, Shamrock, Spearman, Stinnett, Stratton, Vega, Turkey, Morse, and host Panhandle.

LARRY ELLIOTT
... in first 440 of year

The oldest mark of the meet, mile clocking of Dale Lee of White Deer in 1952 of 8:30, seems ready to fall by Vernon Duran of Stinnett, who ran a 4:48.8 at Gruver.

A 300 record of 2:05.5 is expected to be topped by Cantrell of Dalhart, who led 2:04.6, also at Gruver.

University Blankenship of Gruver is the other threatened record, a 212' broad jump mark in 1959, but matched by Tom Smith of Wheeler at the Panhandle.

Some of the highlights of the meet is expected to be the 100-yard dash between Stinnett's Bookser and Little Bluff's Wheeler. Stinnett's Bookser has a 9.9 last year and has led up a 10.2 in a dual meet with Perryton and a 10.3 at Gruver.

Clanton, the freshman senior, has a 10.3 at McLean and 11.4 at Lefors. Although the are expected to push each other close to the 10-second mark, neither is figured to shatter the meet record of 9.7.

Other events on the program for the 200, the 440, the sprint mile relays, the high jump, vault, shotput and discus.

The standard race is expected to be the 440 dash between John Colquitt of Dalhart and Larry Elliott of White Deer. Colquitt has a 32.5 clock this year. Elliott, who has had a chance yet to run in the event, had a low of 31.2 last year.

Bookser has the best time in 440-relay, a 44.2, with Wheeler having a 43.3 and Lefors a 43.5.

A high hurdles race is expected between Jim Meyer of Lefors (15.8) and Terry Brown of Lefors (15.9). A number of competitors will make the hurdles a contest, including Hatch of Wellington and Porter of Wheeler (21.6). Purvins of Panhandle (21) and Denton Fox of Claude (21).

It's really hard to figure the new in this meet, said Lehnick, a number of the marks such as Briscoe, Miami, Darronsett, Groom and Quail, don't had a meet yet this year.

Olympic Officials Blame Pro Sports

TOKYO (UPI) — The main handicap to U.S. Olympic hopes is not Russian amateurism but American professionalism, J. Lyman Bingham, executive director of the U.S. Olympic Committee, said today.

Bingham also gave a detailed defense of the conduct of American Olympic athletes. He said reports of off-hours high jinks were "magnified beyond recognition."

Bingham and Charles L. Ornstein, chairman of the committee's food and housing committee, are in Tokyo to inspect facilities for the 1964 Olympic Games, to be held here Oct. 10-24.

They told a press conference that they have "no complaints" and that the Tokyo Olympics should be "the best set of games we've ever had."

Bingham was told the Russians have predicted they will win 43 gold medals at Tokyo. He declined to make a prediction for the American team.

"We know pretty well what we can do," he said, "but we don't know what the others can do. We had our best team ever at the Innsbruck Winter Olympics, and made the worst showing — because the others were improving faster than we were."

Baseball Scores

By CURT BLOCK
UPI Sports Writer

Manager Alvin Dark was grinning broadly Wednesday when his San Francisco Giants led the Cleveland Indians, 15-4, after three innings.

The Indians, though, wiped the smile off Dark's face with a strong comeback and had the tying run at the plate in the ninth inning.

But it all ended happily for Dark as the Giants outlasted Cleveland, 15-13, in a game that featured 40 hits, eight errors and 42 participants. San Francisco's "terrible trio" of Willie Mays, Willie McCovey and Orlando Cepeda played only three innings but contributed nine hits and nine RBIs, as the Giants picked up their ninth exhibition win in 10 starts.

Three of Cleveland's 17 hits were for the distance and came off the bats of Fred Whitfield, Mike De La Hoz and Wally Post.

Six Nip Senators
The Chicago White Sox scored all their runs in the first three innings and nipped the Washington Senators, 3-2. Relief specialist Hoyt Wilhelm worked three perfect innings allowing only two balls to be hit out of the infield.

The New York Mets won their first game of the spring and the New York Yankees got their first exhibition home run.

The National Leagueers beat Philadelphia, 4-1, in 10 innings on a pinch-hit single by Jim Hickman. Jack Fisher, Tracy Stallard and Ed Bauta limited the Phils to five base hits. The Yankees combined Joe Pepitone's grand slam homer with five Kansas City errors for a 9-4 victory.

The Pampa Daily News

96TH YEAR THURSDAY, MARCH 19, 1964

Underrated Kaydets Favored in Semifinal

NEW YORK (UPI) — It is a little less tasty, but the National Invitation Basketball Tournament title would still be a delectable morsel for Army after five years of football starvation at the hands of Navy.

Army, unseeded and obviously underrated, upset both St. Bonaventure and Duquesne with last-minute rallies to advance to the semifinals against Bradley tonight at Madison Square Garden at 9 p.m. EST.

New York University (17-8) meets fourth-seeded New Mexico (22-5) in the semifinal opener at 7 p.m. EST.

The beefy Army (18-6) quintet appears rugged enough to have given quarterback Rollie Stichweh the final yard for victory against Navy on the gridiron last December when time ran out on the Cadets. Army has triumphed in both its NIT tests by sheer physical strength, trailing by a large margin in the first half to a more mobile opposition only to wear them down in the final 20 minutes.

Second-seeded Bradley hopes to tie St. John's record of three NIT championships. The Peoria Braves (21-6) took the title in 1957 and 1960 and appear to be the class of the field since top-seeded DePaul and favorite Drake have been eliminated.

New Mexico, led by kangaroo-leaper Ira (The Large) Harge, is one of the nation's best defensive teams and is expected to use a press against NYU, which has exhibited a definite weakness in bringing the ball up court under pressure, although the New Yorkers are playing their best basketball of a frustrating season in the tourney.

Uof Houston To Play In Domed Stadium

HOUSTON (UPI) — The University of Houston had had bad news today for budding Paul Hornungs who dream of battling through the sleet and mud for gridiron glory: football is becoming an indoor sport.

The president of the 17,000-student university, second biggest in the state after the University of Texas, announced Wednesday that the school's football team will open the 1965 season with the first collegiate football game played indoors and under cover.

It will be played in the Harris county domed stadium, a 55-thousand seat, air-conditioned sports igloo now under construction.

Dr. Phillip Hoffman, university president, said the stadium would be considered the Cougars' home field beginning with that game.

It will be the end of slippery footballs for the players, and rain-soaked or sun-shriveled fans.

Also-hoped University officials loudly—the beginning of Southwest Conference play for the University of Houston, which is now knocking steadily on the conference's door.

The stadium will also be home to the Houston Colts of the American Baseball League. Plans call for the stadium to be completed late this year or early next year, so the colts can open there in the spring of 1965.

Houston had a poor 2-8 football record last year, but five of its defeats were at the hands of bowl-bound teams, and the sixth was inflicted by undefeated Memphis State.

Pampa Linksters Enter 2nd Round

"We're going to move up this week," was Pampa High golf coach Eural Ramsey's prediction as the Harvester linksters prepared to depart for Plainview and the second round of District 3-AAAA play.

In the opening round at Lubbock last week, Monterey took the lead with a blazing 303, followed by Tascosa with 311. Pampa finished sixth with 320, but Ramsey pointed out that the Big Green was only nine strokes out of second.

"With a good round, we can very easily move to second or third," predicted the shiny-domed teeman. "After our sophomore jitters are over, I feel like we can play real good golf."

Ramsey was especially pleased with the work of junior Chuck Worley last week. Worley, who had had to battle for fifth place on the squad, tied for low with captain Grover Heiskell with a 79. "Chuck did much better than I expected and the others did about what I had figured," said Ramsey. "I think we have a good quintet with Skip Warren, George Snell and Richard Ellis."

The Harvesters will take the same B team of Bill McKinney, who shot a hole-in-one at the Pampa Country Club last Sunday, Bobby Prichard, Fred Tinsley, Thomas Warren and David Fain. Ramsey was especially pleased with Prichard and Tinsley, who fired 86s.

The Harvesters will shoot a practice round Friday and tee off for the marbles at 8 a.m. Saturday.

Warriors Clinch Western Division

By United Press International

The regular National Basketball Association season has ended with Boston the champion again in the Eastern Division and San Francisco the winner in the Western loop.

The Western Division title was not settled until Wednesday night's final action when St. Louis made things easy for San Francisco by dropping a 106-96 decision at Detroit and then the Warriors earned the title anyway with an 89-85 win over the persistent Philadelphia 76ers.

Harvester Baseballers Open Play Tomorrow

Blazing Bobby Price and Carl Harnsberger will take the mound tomorrow at 4 p.m. when the Pampa Harvesters baseball team opens the 1964 season (weather and field conditions permitting) by hosting the Herford Whitefaces in Optimist Park.

Pampa swings into opening action in a hurry as they follow up the first game with a double-header Saturday at Dumas.

Coach Ray Howard indicated that the pre-district season would be mainly experimental, especially for pitchers and catchers. "We haven't had much time to work out, of course, and I don't expect our fielding to be outstanding. Then,

I'd like to give all our pitchers and catchers some experience, as well as some of the younger players out for the first time... we'll use eight pitchers and five catchers in the first weekend of play.

"We'll go pretty much with last year's starters in the field, although we'll work at least one other boy in each position so that we can have someone take over in case of trouble or accident, as happened with Ricky Maynard's broken hand."

Price, who had no record with the Harvesters last year, but compiled a tremendous season, mainly in relief, with the American Legion over the summer; and Harnsberger, who had one win as a Harvester and 6-0 to lead the Legion, will take the mound for the opening game.

Larry "Shotgun" Gregory will again be the starting catcher, with Rick Stewart alternating with him.

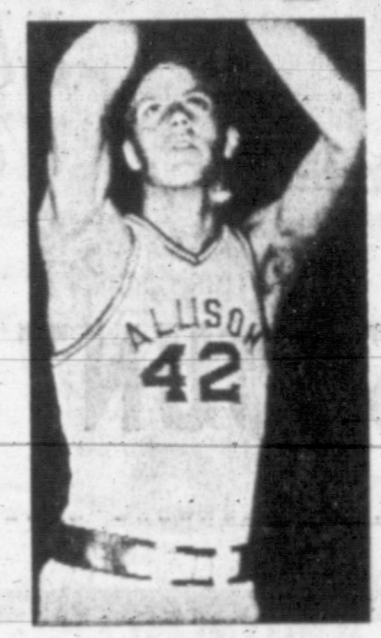

Steve Molberg will be back at first base. With Maynard, his relief last year, sidelined, pitcher and all-around man Jim Arthur might see some bag action. All-district Stewart will be at second, with Gregory switching with him. Kyle Vann and Phil Smith will again alternate shortstop, with Claude Middleton holding down third. Phil Massie might give "Miss Claudie" hot-corner relief.

Eugene "El Bandido" Madrid and all-district Kenny Heberf will take their regular left and centerfield positions. Ricky Goodwin will get his first starting chance, taking over for Maynard in right. Pitcher-out-

BOBBY PRICE
... hurler opener

Lonnie Will Sign With OSU Aggies

LONNIE RICHARDSON
ALLISON (Sp) — Coach Everett Dollar reported this morning that All-State Lonnie Richardson had agreed to accept a basketball scholarship to Oklahoma State.

Richard and his coach visited the OSU campus yesterday and Richardson made a verbal commitment to athletic director Hank Iba. He will sign a scholarship letter at the end of track season.

The 6'2" "Allison Antelope" averaged over 22 points per game and close to 20 rebounds a tilt. Almost single-handedly led Allison to the district 2-B basketball championship.

fielder Jerry Garrison will provide relief if needed.

In the first game at Dumas, Garrison will take the mound with Ronnie Curlee and sophomore Roy Harper also slated to see action. Arthur will open the nightcap, with sophs Larry Daniels and Bud Hammons in relief. Harper, Daniels and Lynn Heller will split catching duties with Gregory. Kenneth Emerson will be on tap for outfield relief.

"We don't plan to hit our peak until we go to Lubbock to open district," said Howard. "However, we should be hitting that ball this weekend. We don't expect consistent hitting at this stage, but they have looked far more advanced than I expected at the bat."

The Pampa Daily News

A Watchful Newspaper EVER STRIVING FOR THE TOP O' TEXAS TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing...

It's Up to You

EDITOR'S NOTE - The following editorial is reprinted from "The Listening Post," publication of the Bible Baptist Church of Pampa:

In 1921 Lenin advised American Communists. To resort to all kinds of cunning, schemes and stratagems, employ illegal methods, evade and conceal the truth in order to penetrate (U.S.) labor unions...

ineers how to use it has been lavishly poured out within the Soviet Union. We saved them in time of famine; we saved them in time of war...

Season for Sex Crimes

There are few crimes if any more brutal; more shocking, or more revolting to a civilized conscience than those committed by sexual degenerates...

daily headlines on sex crimes are testimonials to the fallacy of such practice. Community protection demands the separation of these degenerates from society...

Reds May Try Out as Capitalists

By RAY CROMLEY

WASHINGTON (NEA) - The quiet struggle now raging over succession among the Kremlin's top 12 men may end up with the Soviet Union gingerly adopting some of capitalism's economic ideas.

The Kremlin fight is over who shall replace the six ailing or aged men in the 12-man ruling Presidium. Back of that fight is a struggle between the Soviet "modernists" and "conservatives."

The "modernists" are believed making a bid for control. They're certain of only five out of the 12 men on the Presidium today.

The "modernists" want economic change. They favor trying some capitalist methods - profits and other material incentives as rewards for successful risk taking; decentralization of decision making; more freedom of action for industrial managers.

They're more inclined to increase the amount of goods produced for consumers on the theory "you can't attract people to communism by asking them to sit down to an empty table."

"Modernist" theoretician, Professor E. G. Liberman of the Kharkov Engineering-Economic Institute, in the Ukraine, proposes that Soviet enterprises be guided by an incentive system based on profits...

"Modernist" academician, Nechinov holds that enterprises should be charged interest on borrowed capital, as in any non-Communist country.

"Modernist" L. Gotovskiy, writing in Kommunist, top party theoretical journal, says that profit must be rehabilitated as a desirable economic end.

Allen-Scott Report McNamara's Quoted Promises of Full and Continuing Aid to South-Viet Nam Rouses Stormy Congressional Challenges

WASHINGTON - Defense Secretary McNamara is running into a storm of sharply critical Senate challenges of those "all-out aid" announcements he tossed about in South Viet Nam.

Insistent demand is being voiced that he fully explain exactly what he meant, any secret commitments he entered into, and by whose authority.

Basis of this anvil chorus of disapproval is the contention that McNamara's pronouncements and "mystery" shrouded plans may lead to embroiling the U.S. in nuclear war with Russia and Red China.

To get at the bottom of all this, a determined move has been launched to summon McNamara for detailed accounting of just what is afoot.

In letters to Senators J. William Fulbright, D-Ark., chairman of the Foreign Relations Committee, and Richard Russell, D-Ga., chairman of the Armed Services Committee, Senator Ernest Gruening, D-Alaska, formally requested a joint session "to find out just what he (McNamara) did promise, and what his authority was, to, in effect, commit the United States."

Vigorously supporting this demand are leading members of both committees, among them Senators Wayne Morse, D-Ore., Frank Lausche, D-O., John Williams, R-Del., Clifford Case, R-N.J. A number of other senators also are backing this proposal.

Citing particularly McNamara's declaration in South Viet Nam that U.S. aid "will from now on be total, unlimited and without conditions," Gruening wrote Senators Fulbright and Russell that this sweeping commitment "might well lead to a war in which the authorization of Congress would, under the Constitution, be required."

Yet Congress, Gruening noted, is still very much in the dark as to just what is going on and what is contemplated.

"There appears to be no doubt that Secretary McNamara has given the South Vietnamese the impression that the U.S. is committed to stay there until the war is won," wrote Gruening.

"After all, foreign policy is made by the President of the United States, and not the Secretary of Defense."

"I therefore urge that Secretary McNamara be called before a joint session of the Foreign Relations Committee and the Armed Services Committee to ascertain just what he did promise and what his authority was, to, in effect, commit the United States."

FOREBODING WARNING - Congress' increasing concern over the ominously deteriorating South Viet Nam situation and demand for a greater voice in administration policy

Straight Talk HE FELT IT Editor: Will there be any stars in my crown? These melodious words poured forth sweet and clear from the window of the little white church house on the north side of Spatanga's one-lane street...

TURNING OFF THE RED STAR A brainy editor in Florida has observed that Castro wants to "normalize" relations between the United States and Cuba. According to the editor, "normalize" means that Castro could continue to insult us, but would start getting foreign aid at the same time.

This reminds me of the little old lady who handed her check to the Internal Revenue man, saying "I hope this money goes to some nice country."

Who is it anyway that made the decision that it was the duty of the American taxpayer - to support foreign governments? Surely there's nothing in the Constitution that authorizes our government to spend money around the world like a drunken sailor.

Who Voted? Who was it anyway that made the decision that it was the duty of the American taxpayer - to support foreign governments? Surely there's nothing in the Constitution that authorizes our government to spend money around the world like a drunken sailor.

HOW LODGE OPERATES - A lot of disapproving head-shaking about ambassador Lodge is going on in inner Pentagon circles since Defense Secretary McNamara's return from South Viet Nam.

While he and other top Administration officials carefully are saying nothing about the winner of the New Hampshire Republican presidential primary, assistants are making no secret that strong criticism exists of the way he is handling his job in Saigon.

It's contended Lodge operates on a lone-wolf basis; that he functions "out of his hat" co-operating with no one, including his embassy aides, and communicates only with Secretary Raikes. All other U.S. agencies in Saigon are ignored by Lodge.

As a consequence, it's charged, there is endless delay and confusion - attributed squarely to Lodge.

It is definitely known Secretary McNamara reported this situation to President Johnson. It is also authoritatively understood the following was cited as a graphic illustration of the way Lodge operates:

For months, he refused to convene a "country team" meeting - a standard practice in countries where the U.S. has a number of military, aid and other agencies. Purpose of these meetings is to enable the executives of these agencies to get together once a month to discuss mutual problems and exchange ideas and suggestions.

Finally, after repeated complaints to Washington, Lodge at direct State Department insistence called a "country team" gathering. It lasted less than five minutes.

Lodge called the session to order, then said, "I take it that all the interested officials are here. I understand you wanted a 'country team' meeting. That's fine. You have had that meeting. That's all. Good day."

With that, Lodge departed - leaving the officials peeped and dumbfounded.

President Johnson is telling congressional leaders, "All of Lodge's recommendations that have reached my desk have been promptly approved." The President said nothing about any plans to expand the war to North Viet Nam.

HOW TO ADDRESS OUR LAW MAKERS You may wish to write your senator and representative in Washington and Austin. Here are their addresses:

FEDERAL: Rep. Walter Rogers, House Office Bldg., Washington, D. C. SEN. RALPH YARBROUGH, Senate Bldg., Washington, D. C. SEN. JIMM TOWSE, Senate Office Bldg., Washington, D. C. (STATE): Rep. Grainger McInany, House Bldg., Austin, Texas. SEN. GRADY HAZWOOD, Senate Bldg., Austin, Texas.

BIBLICAL BIT ACROSS: 1 Wife of Adam, 2 Restless, 3 Church services, 12 Tropic sea, 13 Famine, 14 Leave out, 15 Trainer of Samuel, 16 Prevent from oxidation, 18 Reperforated, 20 Set anew, 21 Hair, 22 God of love, 24 Daughter of Zion, 26 Home for Adam, 27 Pain (adj.), 30 Mallet, 32 Environment, 34 Stroked, 35 President of ice, 36 Suffice, 37 Flounce, 39 Willet, 40 Stead, 41 Lock opener, 42 Ostrich's dog, 45 Refer to, 49 Very painful, 51 Burn, 52 Unleash, 53 Evergreen tree, 54 Compass point, 55 Period of time, 56 Fruit drinks, 57 Seth to Adam. Texas Motorists Rack Up Worst Year in Fatalities

AUSTIN (Sp) — Texas motorists, barreling along the streets and highways at a clip of 99,000 miles each minute, killed themselves at the rate of one person every three hours and 12 minutes to rack up the worst year in history for traffic tragedy in 1963.

Col. Homer Garrison Jr., director of the Texas Department of Public Safety, reported today that DPS Statistical Services officially closed the traffic death book for 1963 at noon Sunday, recording an all-time record of 2,729 motoricides.

"This tragic toll of lives was 308 or 13 per cent higher than in 1962, and 129 or five per cent higher than the previous all-time high of 2,611 in 1956," Garrison said.

"Even though many more miles were traveled in Texas a last year than in previous years, the fatality rate per 100 million miles traveled increased from 4.9 deaths in 1962 to 5.2 deaths in 1963.

"We are shocked and saddened by this terrible loss of human life in our state, which was accompanied by untold suffering

among an estimated 161,000 persons who were injured, and a staggering economic loss of \$432,715,000."

In order to point up the magnitude of the traffic situation in an effort to bring about public awareness of its seriousness, Garrison listed these facts:

—The 312 motoricides in December 1963 was the highest number for any month on record. Second high was 303 in December 1960.

—Only one day during 1963, Tuesday, September 3, was motoricide free. It followed Labor Day when 22 persons were killed in traffic.

—On both Sunday, May 5 and Friday, December 20 there were 25 persons killed in 17 accidents.

—During 1963 there were 21 days with 15 or more motoricides. There were only 19 in 1962, 14 in 1961 and 13 in 1960.

—The worst accident in 1963 occurred on September 2 in Liberty County where 10 persons were killed in a head-on collision near Dayton. The last previous 10-death accident occurred on February 15, 1959 in Hidalgo County under similar circumstances.

—The estimated economic loss from motor vehicle traffic accidents in 1963 was \$13.72 per second.

The Public Safety Director pointed out that the 13 per cent statewide increase in traffic deaths in 1963 was reflected almost equally in rural and urban areas. The rural traffic death increase was 13 per cent, while the urban increase was 12 per cent. He added:

"The fact that this upsurge in traffic fatalities appears to be part of a current national trend—and I might add that many other states had their worst traffic year in 1963—does not alter the seriousness of our situation here in our home state.

"Certainly, with these facts before them, the people of Texas are challenged to do everything in their power to halt this trend which, incidentally, seems to be continuing into the new year.

"The records consistently reflect that two things stand out in general as the leading causes for serious traffic accidents—carelessness and willful or unwitting disregard for the laws of safety.

"Therefore, we wish to issue an urgent appeal to all Texans to charge themselves with the responsibility of doing a better and safer job of alert driving and thus bring down this terrible toll of lives and suffering and economic loss in our state."

On the Record

HOSPITAL NOTES

Highland General Hospital does not have a house physician. All patients, except severe accident victims, are requested to call their family physician before going to the hospital for treatment.

Please help us to help our patients by observing visiting hours.

Mrs. Stella Carper, Skellytown

Miss Bonnie Clemmons, 927 E. Scott

Richard Gordzelik, Amarillo

Steven Reeves, 1924 N. Dwight

Mrs. Penny Christensen, 2219 N. Nelson

Mrs. Estelle Tillery, 2104 N. Banks

CONGRATULATIONS

To Mr. and Mrs. C. L. Hodges, 1307 Coffee, on the birth of a baby boy at 6:23 p.m., weighing 6 lbs. 4 1/2 oz.

REVERSE ROLE

SOUTH BEND, Ind. (UPI)—The Rev. Austin Davis, former superintendent of poor relief recipients, filed for welfare payments himself Tuesday. He is the father of nine children.

LIGHT FANTASTIC—Variety of street lamps line the end of a Tipton, England, parking lot. They're not rejects but a display that was shown to visiting council officials so they could choose the best lighting for their area.

Exchange Students Address Rotarians

Pampa High School foreign exchange students Evelyn Rooters of Auckland, New Zealand and Juhani Karmakosky from Turku, Finland, described their native countries to the Pampa Rotary Club yesterday at the Coronado Inn.

Evelyn said that New Zealand is approximately the size of the state of Colorado and has a population of 2 1/2 million. It follows a socialized type of government with free elections. Agriculture, which is its main industry, features cattle, dairy cows and sheep.

In comparing education in New Zealand with the United States, Evelyn said students in secondary schools must take a national examination at the end of each year and those who fail are required to repeat the full year. She also said that almost all students in New Zealand participate in some form of athletics.

Juhani said that Finland has a population of 4 1/2 million people and is smaller than California, but larger than the British Isles. Finland is a republic and follows a basic foreign policy of neutrality.

In one part of the country, Juhani said, the sun shines 24 hours a day for 73 consecutive days in the summer and in the

winter it is completely dark for 51 days.

Its forests provide the main industry with lumber and paper products accounting for 75 per cent of exports.

Hunting, fishing and skiing are principle sports.

The two students are sponsored by the American Field Service. Evelyn is living with Dr. and Mrs. Joe Donaldson and Juhani is staying with Mr. and Mrs. Robert K. Johnson. Bob Johnson introduced the program.
