Goldwater Rejects Scranton Debate; Pennsylvanians Threaten to Revolt

Governor's Backers Might Pull Switch

SAN FRANCISCO (UPI) — Gov. William Scranton, insisting he has enough votes to stop Sen. Barry Goldwater on the first ballot, was faced today with a possible revolt in his own delegation.

The showdown could come at a meeting of the 64-vote Pennsylvania delegation today. Goldwater supporters in the delegation have served notice they will ask Scranton to free them from their "favorite son" commitment. The Goldwater men said as many as 15 Pennsylvanians might switch to Goldwater.

Scranton, still slugging away in his last gasp battle against the Goldwater bandwagon, mobilized some of his staunchest supporters for a rally in Union Square shortly after the Republican National Convention got started at the Cow Palace.

New York Gov. Nelson A. Rockefeller, ex-ambassador Henry Cabot Lodge, and Colorado Gov. John Love were scheduled to stand up with the governor at the noon PDT (1 p.m. CST) rally.

Hold Strategy Session — The same men, along with other top supporters, met with Scranton in a surprise "strategy session" which didn't break up until early today. Others present included Dr. Milton S. Eisenhower, who will place Scranton's name in nomination, and Sens. Kenneth B. Keating, N. Y., Leverett Saltonstall, Mass., Clifford P. Case, N. J., and John Sherman Cooper, Ky.

Scranton heated up the political dialogue Sunday in an unusually harsh convention-evening statement, accusing Goldwater of "open contempt for the dignity, integrity and common sense" of the delegates.

The charge was contained in a crackling letter which the Pennsylvanian dispatched to Goldwater Sunday night.

"You will be stopped on the first ballot because a sufficient number of your nominal supporters have already indicated to us that they will not vote for you," Scranton wrote.

The Pennsylvanian accused Goldwater of "Goldwaterism," a coined phrase which he defined as "nuclear irresponsibility. Keeping the name of (former president) Eisenhower out of our platform... being afraid to forthrightly condemn right-wing extremists... refusing to stand for law and order in maintaining racial peace."

Hits At Goldwaterism — "Goldwaterism" has come to stand for a whole crazy-quilt collection of absurd and dangerous positions that would be soundly repudiated by the American people in November," Scranton wrote.

Goldwater returned the letter, along with a rebuke from his campaign director that Scranton should tone down his language. Goldwater also turned down as "ridiculous" the latest Scranton challenge to a face-to-face debate, this time on the convention platform.

Scranton, in making the challenge in a television appearance (NBC-Meet the Press) had predicted Goldwater would do

just that. In the television interview Scranton also announced he would fight to block the seating of delegations from southern states who barred Republicans from membership because of race.

The threatened trouble in Scranton's own camp was signalled by Allegheny County Commissioner Blair F. Gunther of Pittsburgh. He failed to make good on a threat to demand the release of the Pennsylvania delegation at a caucus Sunday night. But he indicated he was saving his thunder for today.

Scranton's own camp was signalled by Allegheny County Commissioner Blair F. Gunther of Pittsburgh. He failed to make good on a threat to demand the release of the Pennsylvania delegation at a caucus Sunday night. But he indicated he was saving his thunder for today.

SMILE LADIES — Mrs. Mary Scranton (left) and Mrs. Peggy Goldwater get together at San Francisco long enough to smile and shake hands for photographers. The wives of the two top contenders for the Republican presidential nomination met at a reception.

Hearing Date Set On College Request

Aug. 3 has been set as the date for the public hearing by the Texas Education Agency on

Newspaper Urged As Textbook in School Classes

CANYON, Tex. (UPI)—Newspapers are better than ever, and ought to be used in the classroom as textbooks on the modern world, a Texas editor told a gathering of journalists and teachers Sunday.

Harry Provenca, editor of the Waco News-Tribune, addressed a workshop on the use of newspapers in classrooms.

Today's speakers were to be Robert Johnson, Texas bureau chief of the Associated Press, and Jenkin Lloyd Jones, Editor of the Tulsa Tribune.

"Newspapers are the most versatile instructional tools schools can use," said Provenca.

Educators are obligated to use newspapers, he said, and newsmen should feel "a direct obligation to put this living textbook where it belongs—in young hands."

The workshop, which began Sunday and ends Wednesday, is being sponsored by the Amarillo Globe-News Publishing Co.

William C. Payette, Southwest division manager of United Press International, will speak tomorrow.

Youth Absolved In Card Tossing On Ike's Request

AMARILLO, Tex. (UPI)—Charges against a college student accused of assaulting former President Eisenhower were dropped today at the request of Eisenhower.

Corporation Court Judge Emmett H. Foster dismissed the case against Melvin Phillip Floyd, 23, of Spearman, Tex., accused of hitting Eisenhower with a Goldwater-for-President placard.

Eisenhower wired Mayor F. V. Wallace Sunday, saying he heard "the young man who threw a placard aboard the platform of my railroad car has been arrested."

"I noted the act and am sure it was nothing but spontaneous reaction to excitement. I trust the matter will be dropped."

Floyd, a student at West Texas State College, denied he had thrown the sign.

Eisenhower was waving to a crowd of nearly 1,000 persons during a whistle-stop appearance from the rear of his special train on the way to the Republican convention when the incident occurred.

Amarillo television station KGNC-TV said its films of the incident showed "the whole thing was an accident," and Eisenhower was "only brushed" by the sign.

Pickets on Move to GOP Site

SAN FRANCISCO (UPI)—Civil rights demonstrators, stirred by a march of 50,000 persons, moved their pickets today to the GOP convention site, the Cow Palace.

The massive march and rally Sunday turned into an angry anti-Goldwater affair, but it was largely ignored by an apparent majority of delegates who intend to nominate the Arizona senator for president.

Perhaps 2,000 or 3,000 integrationists were expected to picket the convention opening. Their signs were to denounce Goldwater and ask the party of Abraham Lincoln to do more in 1964 for Negroes.

The principal picketing group is the Congress of Racial Equality (CORE) whose leaders have held meetings with the police about the arrangements.

Leaders Are Undecided — CORE leaders said that if they decide during the week to stage sit-ins or stall-ins, they probably will give police advance notice. But, then again, they said they might not.

San Francisco Police Chief Thomas Cahill has contacted leaders of segregationist groups including the American Nazi Party. He said their pickets have promised to avoid inflammatory contacts with the CORE group.

Sunday's crowd, about 40 percent Negro, included students in jeans, mothers with children in arms and elderly persons in their Sunday best.

They were called out by Negro leaders of church and labor groups who charged that Goldwater has become the rallying point of racists and right-wing extremists.

Marchers Chetry Rocky — The marchers gathered before the city hall steps, were cheered by the appearance of New York Gov. Nelson Rockefeller who declared that his delegation shared their beliefs "and we're here to fight for them."

Rockefeller shouldered his way through the throng with his wife, Happy, former ambassador Henry Cabot Lodge, and Sens. Jacob K. Javits and Kenneth B. Keating of New York. They are backers of Gov. William W. Scranton.

All pledged a last-ditch battle against adoption by the convention of a platform section on civil rights which was voted through committee by Goldwater delegates.

The proposed plank, Rockefeller said, is "utterly inadequate." But the governor did not mention Goldwater by name.

'Heavyweight' at Convention Sends Down Elevator

SAN FRANCISCO (UPI) — "I'm afraid if I get in this thing will probably fall," said 240-pound Frank Lanterman as he hesitatingly stepped aboard a crowded elevator at the Huntington Hotel Sunday.

But, encouraged by an assurance from someone in the elevator that "there's always room for one more," Lanterman and several others stepped on at the ninth floor and the elevator started its descent — a descent that did not stop until the elevator crashed with a jolt in the basement.

None of the dozen persons on the elevator, including five Goldwater delegates, was injured seriously.

Communists in Viet Score Biggest Gain

VINH CHEO, Viet Nam (UPI)—The government casualty toll rose to more than 250 today in a Viet Cong guerrilla attack and ambush that may have been the biggest Communist victory of the Vietnamese war.

A South Vietnamese military spokesman announced today that 60 government troops were killed, 65 missing and 129 others wounded in the disastrous weekend engagement that raged for two days around this outpost 120 miles southwest of Saigon.

Military sources said the bloody battle was the biggest so far in the war against the Communist Viet Cong guerrillas. In its course the Communists, in a mammoth ambush, slaughtered a government relief column and all but wiped out this once prosperous village.

In other Viet Nam developments today: —An American adviser was wounded when a Communist mine exploded beside the car in which he was riding.

—An American-piloted Vietnamese air force A1E "Sky-raider" plane crash-landed at Bien Hoa airbase north of Saigon this morning. A spokesman said the plane belly-landed while coming in from a close air support mission but no one aboard was injured.

—A Vietnamese military spokesman in Saigon said Communist guerrillas stepped up their attacks by almost 50 percent last week over the previous week and captured a near-record 570 weapons from government forces. It was the

Unprecedented Act Opens Convention

By RAYMOND LAHR
SAN FRANCISCO (UPI) — The 28th Republican National Convention began today with Gov. William Scranton challenging Sen. Barry Goldwater to debate their differences before the delegates.

Goldwater's managers visualized Scranton's unprecedented move as a last desperate effort to break their candidate's deadlock on the convention. They announced that they had sent the governor's letter back to him, but then had 4,000 copies struck off for distribution among delegates.

Barring a political miracle, Goldwater already was assured of the presidential nomination. The 1,308 delegates were assembling in the Cow Palace at noon (CST) for today's initial session, and were to reconvene at 5 p.m. (CST) to hear the keynote address of Gov. Mark Hatfield of Oregon.

The party's platform will be adopted Tuesday and the nomination of a candidate for president is scheduled for late Wednesday.

Despite the odds against him, Scranton was still fighting to force the Goldwater bandwagon off the road with no evidence of success.

The UPI tabulation of the delegates' first ballot preference gave Goldwater 764 votes, 109 more than needed. Scranton trailed with 205 followed by Gov. Nelson A. Rockefeller of New York with 104. A total of 129 were committed to other candidates and 106 were uncommitted.

Scranton may get more bad news today if Wisconsin's favorite son candidate, Rep. John W. Byrnes, releases that state's 30 delegates, who are pledged to him.

Goldwater is expected to inherit at least 20 of the Wisconsin delegates whenever the break comes.

Asks For Debate — Scranton's extraordinary letter to Goldwater Sunday night challenged the Arizona senator to a debate before the convention and a national television audience Wednesday night before the balloting starts.

When Scranton made the proposal earlier on a television interview, Goldwater called it ridiculous and said the GOP target this year is President Johnson.

The letter described Goldwater's political beliefs as "Goldwaterism."

"Goldwaterism has come to stand for a whole crazy-quilt collection of absurd and dangerous positions that would be soundly repudiated by the American people in November," Scranton wrote.

Denison Kitchel, Goldwater's campaign director, said the letter was received with amazement.

"Perhaps, upon consideration, the governor will recognize the intemperate nature of his remarks," Kitchel said. "As it stands, they tragically reflect upon the character of the Republican Party and every delegate to this convention."

7 Persons Killed In Highway Crash

WILLIAMS, Ariz. (UPI) — Two cars collided broadside Sunday, killing seven persons, including five members of a Denton, Tex., family.

The Texans killed were Troy W. Sparks, 41, his wife Faye, and their daughters, Sonya, 14, Luann, 12, and Debbie, 5.

Also killed were Alford White of Lupton, Ariz., and Billy Mustache of Shiprock, Ariz. Two other persons were injured.

The accident occurred on U.S. 66 just east of Williams during a rainstorm.

Reds Warn U.S. Of 'War Danger'

MOSCOW (UPI)—The Soviet Union has warned the United States and its allies that it will take counter measures if West Germany is given access to atomic weapons through the proposed NATO nuclear force.

The official Soviet news agency Tass said Sunday the Russians delivered the warning Saturday, declaring that West German participation in the U.S.-proposed multilateral force (MLF) would "greatly increase the danger of thermo-nuclear conflict."

GOPs Split on Barry Platform

By WILLIAM J. EATON
SAN FRANCISCO (UPI)—The Republican Convention was split today over a Goldwater-dominated party platform that promised a new cold war militancy but lacked enough muscle on home-front issues to satisfy Scranton backers.

As expected, the document emerged as a symbol of the broader power struggle between the forces of Sen. Barry Goldwater and Gov. William W. Scranton for, what one Republican termed, "the soul" of the party.

Anti-Goldwater forces promised a floor fight Tuesday night to insert into the platform stronger language on civil rights, "extremist" political ac-

tion groups, and presidential control of nuclear weapons.

At the convention's opening session today Sen. Thomas H. Kuchel, R-Calif., appealed to delegates to "rededicate our party to the high road we have been traveling." Kuchel, who helped draft the new civil rights law which Goldwater opposed, cited the long Republican record against discrimination. He said the struggle against slavery, 100 years after emancipation, remained an unfinished task.

Kuchel also laid the groundwork for another platform struggle, on nuclear weapons. He said Republicans had an inescapable duty to lead a global quest for liberty and peace

with justice "where our new found nuclear power may serve the human race rather than exterminate it."

The preliminary draft of the GOP Resolutions Committee during two week-end sessions wracked with conflict. It left these dominant impressions: —The committee draft was a total victory for the Goldwaterites which the Scranton supporters seemed unlikely to reverse in a convention floor showdown.

—The most prominent theme was the new no-nonsense attitude toward dealing with the Communist bloc nations — a much tougher statement than the 1960 platform pronouncement on the subject.

—The platform endorsed the 1964 civil rights law, but devoted less space to the civil rights struggle than the document adopted by the GOP convention four years ago.

—The committee draft turned down Scranton's request to reaffirm the constitutionality of the civil rights law, but instead pledged: "Full implementation and faithful execution of the civil rights act of 1964, and all other civil rights statutes, to assure equal rights and opportunities guaranteed by the constitution to every citizen."

Reflections From Two Solid Weeks Of Fall And Winter Fashion Shows

By GAY PAULEY
NEW YORK (UPI) — Some reflections from two solid weeks of fall and winter fashion shows:

Models complain they're getting callouses from so much pacing. Writers complain they are getting callouses from so much sitting.

The fashion industry is full of superstitions — even the models are afflicted. One model dropped a dangling earring as she showed off an evening dress, stooped, picked it up and commented, "that means I'll have good luck."

There'll always be phrasemakers in the wonderful world of fashion. "The escort coat" is Adele Simpson's way of describing long evening cloaks to go with evening dresses. "Caleche" is the French-born Pauline Trigere's way of describing her dresses with matching hoods. "M.O.B." is the garment industry's term for dresses appropriate for the mother of the bride.

Christian Dior-New York gives a name to every costume in its collection designed by Gaston Berthelot. Some have no apparent connection with the costume.

Samples — "Heat Wave" for

a salmon satin and royal blue crepe embroidered evening dress; "From Russia with Love" for a black wool afternoon dress; and "World's Fair" for a chrysanthemum and black tweed suit with black blouse.

Little things add up to a lot on the fall fashion scene. There are for instance those shoe strings of leather belting coats or suits in most collections. Inexpensive (as well as expensive) furs form scarves or stoles which reverse to the wool fabric side. Feathers are turned into capes and dresses as well as into hats.

And at Monte Sano & Pruzan, some evening dresses were shown with jewel-studded "bandit" scarves which wrapped around the face concealing all but the eyes.

Monte Sano & Pruzan was one of four ready-to-wear firms which Thursday rounded out two weeks of fashion previews for visiting reporters. The first week was sponsored by the America Designers Group; the second by the New York Couture group.

The firm's designer, Jacques Tiffreau, produced some of the shortest skirts of the new season — many a couple of inches above the knee. His "saucy" suits had skirts that swung, some from deep pleats all around, some with twin panel pleats front and back.

Only 300 miles of the Alaska Highway between Dawson Creek, B.C., and Fairbanks, Alaska, lies within the name-sake state.

The Doctor Says

Children are fascinated by animals. But whether in a zoo, a national park or in the woods it must be remembered that animals are wild and may suddenly bite. I emphasize this because often bears and other animals appear to be very friendly.

Friendliness in bears, however, may turn to anger if you refuse them food, if you give them food but they want more and think you are holding out on them, or if you get too friendly with their cubs.

When traveling in a national park, therefore, the only safe procedure is to keep car windows closed, stay a safe distance from all wild animals, and don't attempt to feed them or play games with their young.

Often a fox, squirrel or other wild animal that appears to be friendly is just too sick to follow his better judgment and run. The natural instinct of all wild animals is to get out of your way unless taken suddenly by surprise.

Thus the "friendly" rabbit may have tularemia and the "friendly" fox may have rabies. Indeed, if you or your child is bitten by a wild creature and the animal escapes, you must assume that it had rabies and take prophylactic vaccine. If you kill the animal, you can have its brain examined for signs of rabies. If there are none, you will have one less worry.

Even if the animal is not rabid the bite may result in a nasty infection unless prompt steps are taken to clean the wound. The most important first step is thorough cleansing with soap and water.

If a soap containing hexachlorophene is available, use it.

Don't put iodine on the wound. After cleansing, cover it with the cleanest bandage available. Call your doctor. Then, when all the crying and excitement has subsided, make sure your child has learned his lesson and will not provoke an animal bite in the future.

Wool is elastic enough to stretch about 30 per cent beyond its length, yet spring back to original measurements.

Fall Evenings Sparkle With Elegance

By Helen Hennessy
Newspaper Enterprise Women's Editor

NEW YORK (NEA) — Last fall, every dressy after-six occasion was an excuse to wear a long gown.

This season's short, flouncy discotheques and short evening suits for dining out make it possible to keep the long gown for that really big event.

Feminine elegance is still the theme of the formal collections shown by New York designers. Candlelight will play on crystal embroidery, tear drop beading, gold brocade and lace and ribbon trim. And jewel tones will add their glow to the evening festivities.

The most important evening silhouettes in the collections this fall are the Empire bodice with softly full skirt, the bias cut

dress with halter neckline and the cover-up, ankle-length dinner dress with long, tight sleeves and high neck.

For anyone who wants to have her fashion cake and eat it, too, there are satin evening suits with both long and short skirts. It's up to you to make the costume fit the occasion.

Wool has become a favorite on the autumn evening scene. One handsome example is a doeskin wool gown with its own floor-length wool wrap. But crepe, velvet, chiffon and brocade, with twinkling jeweled embroidery, still predominate.

Colors are unbelievably beautiful. Purple is represented in every tone from lilac to plum. There are glorious pastels, carnation reds and smart black and white combinations.

Senior Center Corner

By MRS. O. A. WAGNER

The weather was a favorite topic at the center this week. We are continuing to have good crowds in spite of the heat.

R. W. Gordon, who has been visiting his sister, Mrs. Libba Trimble left for Oklahoma City Wednesday.

Miss Lucy Herlacher spent a few days visiting her sister, Mrs. T. G. Fields at Groom the first of the week. Guests of Miss Herlacher Wednesday were her sister, Mrs. W. H. Tarbox, Spearman, and daughter, Mrs. Floyd Robbs of Wilcox, Arizona. Dr. and Mrs. Wendell Altmiller and family arrived Thursday night for a visit with Mrs. Altmiller's father, R. W. Tucker.

B. L. Mitchell was a return guest at the center this week. He is visiting his daughter, Mrs. F. W. Bradley.

Mr. and Mrs. Frank Henry Cullum and children of Richardson, spent the past week with his parents, Mr. and Mrs. Fred Cullum.

Visiting Mr. and Mrs. C. L. Adams Monday was their daughter and family, Mr. and Mrs. George DeBord and grandson and family, Mr. and Mrs. Don DeBord and family, all of San Antonio. The DeBords were on their way to Colorado for a fishing trip.

Mr. and Mrs. C. L. Adams attended the old timers rodeo and reunion at Stamford recently.

Mrs. Tom Bandy and sons, Bruce, Brad and Kirk, are visiting her mother, Mrs. P. H. Gates and her brothers, Dr. Joe Gates and Dr. Phil Gates.

Mrs. A. D. Hills has returned from a guided tour of the Worlds Fair. She also visited relatives in New York and Pennsylvania. For the return flight home, Mr. Hills met her in Olean, New York.

Mrs. Lona Webster visited in Amarillo Monday with her sister, Mrs. Carrie McBride, who has been ill.

Saw Mrs. J. L. Love in the grocery store Wednesday and it was good to see her able to be out.

House guests of the Jay Evans this week was their grand-

daughter, Mrs. Peggy Gallie and three children, Amarillo. Mrs. Gallie will join her husband at Otis Air Base, Pennsylvania, where they will be making their home.

Guests of Mrs. Ollie Stator and other relatives the first of the week was her grandson Jack White and family of Coolidge, Arizona. The Whites were on their way to Grand Canyon where they will meet his parents and brother and sisters. Accompanying the Whites were another set of grandparents, Mr. and Mrs. O. A. Davis.

Visiting Mrs. Myrtle Enloe is her daughter, Mrs. W. E. Daniels and children, Mark and Drew of Freeport. Mrs. Enloe plans to accompany her daughter home and fly home the first of November.

I have discovered we have other fisher-women beside Mrs. Irma Tubbs. Mrs. Mary Puckett is also a fishing fan and Mrs. E. B. Smith has been doing a lot of fishing lately. Mrs. Smith and her daughter have returned from a trip to Fort Cobb, Oklahoma where they met the Parsleys. They reported no luck!

Mrs. Martha Carter is visiting her daughters in Amarillo and Canyon this week.

We extend our sympathy to Mrs. Lewis Henderson on the loss of her sister, Mrs. Eliza Massey in Idaho.

Visiting in the O. F. Kreimeyer home is Mrs. Kreimeyer's mother, Mrs. W. A. Burnham of Camden, Arkansas.

The Jayces-Ettes, dressed in their pretty jackets, were hostesses this week. Mmes. Nathan Lancaster, Bud McVickers, Gary Frasher and John Warner served doughnuts, cookies and coffee on an hours notice. Spry girls these!

Altruists attending were Mmes. Lena Pearl Hobbs and Mabel Hukill.

Gray ladies furnishing transportation were Mmes. Jess Hatcher, George Benham, Oma Drew, A. D. Hills and O. F. Kreimeyer.

ADIOUS.

Love, Mrs. Wagner.

Dear Abby.... Neighbor Burns While He Fiddles

By ABIGAIL VAN BUREN

DEAR ABBY: We live in a project. In summer we keep all our windows open and so do the neighbors. There is a kid next door who takes violin lessons. He's about 11, and he practices all the time, but he doesn't seem to improve any. I always thought the teacher gave the kids a new piece every week. Well, something is wrong here because this kid has been playing HUMORESQUE all summer. I saw his father on the street and I said, "Your Marvin sure practices a lot. I hear him night and day." His father said, "Don't complain. It's free. Some day you'll have to buy a ticket to hear him play." I don't want to file a complaint, Abby, but that kid is really disturbing my peace. Any suggestions?

other children would invite me for a weekend, or even a night, but they don't. I am not independent. I am not able to earn my own living. I have nothing. Sign me —
DISAPPOINTED IN MY CHILDREN

Problems? Write to Abby, Box 69700, Los Angeles, Calif., 90069. For a personal reply, enclose a stamped, self-addressed envelope.

Hate to write letters? Send one dollar to Abby, Box 69700, Los Angeles, Calif., 90069, for Abby's booklet, "How To Write Letters For All Occasions."

Manners Make Friends

Girls can break up the teen-age stag line: ask the fellows to dance.

A NEIGHBOR
DEAR NEIGHBOR: If Mother Love is "blind," Father Love is "deaf." Buy Marvin a mute, or buy yourself some ear plugs until it's time to buy the "ticket."

DEAR ABBY: I have a very dear friend whose feelings are easily hurt. It seems that anything I buy, be it furniture, toys for the children or clothes, she always ends up with one like it. This has been going on for a long time. Our husbands work together and we go around in the same crowd. I suppose I should be flattered that she likes my taste so much, but people are beginning to call us "THE GOLD DUST TWINS."

A "GOLD DUST TWIN"
DEAR GOLD: You cannot possibly tell your friend that you resent her copying you without hurting her feelings. Either do your shopping out of the city, or tell her how you feel about this "Kate and Dupli-cate" routine and be prepared to write off the friendship.

DEAR ABBY: The woman who boasted that she had taught her children to inquire (on the telephone), "WHOM is calling, please?", needs to go back and study her elementary grammar. Doesn't she know that WHOM is objective, and it should be "WHO is calling, please?" Did she tell you what the response to their "WHOM is calling, please?" was?

CURIOUS
DEAR CURIOUS: No. But it was probably, "It's ME!"

DEAR ABBY: I am not asking for advice. I just want to cry on your shoulder, and hope that the right people read this and do something about it. I am living with my oldest married daughter. I have two other married daughters, and a married son, but this daughter is the only one who knows she has a mother. I make my home with her as I am a widow. I realize every family needs to be alone once in a while, but I have nowhere to go. I wish some of my

Rebekah Lodge In Regular Meet

Pampa Rebekah Lodge No. 355 met at 8 p.m. July 9 in the IOOF Hall with Mrs. Jaunita Mathney presiding. Mrs. Eunice Maddox attended as vice grand. Plans were made to attend the district visit of Mrs. Georgia Woods, state president of Rebekah Assembly to be held at Perryton July 22.

Announcement was made of the annual pilgrimage of state lodges at Corsicana September 6. A donation was sent to the homes at Ennis and Corsicana. It was also announced that the Esther Club will meet July 27 at Central Park.

Walt Chitwood, husband of Mrs. Alice Chitwood, was initiated by the degree team. A visitor from the Ysleta Rebekah lodge was present in the person of Mrs. Gladys Perry. Mrs. Perry is a sister-in-law of Mrs. Mary Dell McNeil.

Mmes. Lillie Fout and Nellie May Stapleton, hostesses, served refreshments to 30 members, one visitor and one new member present.

Another fall season of fur line, and fur trims is on its way. The New York coat and suit firm of Marquise, for instance, lines numerous coats and suit jackets with sable-dyed skunk, raccoon, black nutria, mink and other animal pelts. One trousered suit — pants cut much like a man's — except they are cuffless — came with jacket lined in raccoon. Hood also came in the same fur.

Asthma Formula Prescribed Most By Doctors - Available Now Without Prescription

Stops Attacks in Minutes... Relief Lasts for Hours!
New York, N. Y. (Special) — The asthma formula prescribed more than any other by doctors for their private patients is now available to asthma sufferers without prescription.

Medical tests proved this formula stops asthma attacks in minutes and gives hours of freedom from recurrence of painful asthma spasms.

This formula is so effective that it is the physician's leading asthma prescription — so safe when used as directed that now it can be sold without prescription in most states.

These Primatone Tablets open bronchial tubes, loosen congestion, relieve lung nervous tension. All without painful injections.

The novel Primatone combination medicine (in full prescription strength) found most effective in combination for asthma distress. Each performs a special purpose.

So look forward to sleep at night and freedom from asthma spasms. Get Primatone at any drugstore.

NEW CHAPTER TO LIVING LEGEND—Pola Negri, one of Hollywood's greatest stars of yesterday, is coming back to films after a 20-year retirement. In her heyday, Pola was an earthy glamor girl, a purveyor of passion without peer. At left, she is seen as an exotic temptress in "A Woman Commands," costarring Basil Rathbone. Pola, now 64, at right, begins her new show business career in the Walt Disney film, "The Moon Spinners," in which she will portray a wealthy and eccentric jewel fancier.

Ike Still Liked, But In Different Manner

United Press International
SAN FRANCISCO (UPI)—They still like Ike, these Republicans.

But Dwight D. Eisenhower, elder statesman, is a different figure from Dwight D. Eisenhower, the conquering hero of World War II, and Dwight D. Eisenhower, the only Republican thus far to win the White House since Herbert Hoover did it 36 years ago.

So when the general returned Sunday to the city where he was renominated eight years ago to his second term as president, his reception, too, was different from those of other years.

In years past, as he may have remembered Sunday, he was greeted by worshipping throngs which jammed every square foot within blocks of his presence and frantically shouted themselves hoarse in his praise.

Ike Receives Reverence
Sunday, he got not so much worship as reverence, the warm respect due a man who twice led his party to victory in a presidential election and now belongs to the world's most exclusive informal club—the three-man club of living former chief executives.

Perhaps a thousand persons were assembled at Richmond, across the bay from San Francisco, when Ike's train arrived at its western terminus after a transcontinental journey bearing some 250 delegates to the 28th Republican National Convention.

The former president came not as a delegate or as a kingmaker, a role he has steadfastly refused to take on.

He came as an honored guest of the convention, which he will address Tuesday evening, and as a commentator for the American Broadcasting Co.

He was greeted by his party's chief dignitaries and by representatives of the only major contenders for this year's

Washington Window

By LYLE WILSON
United Press International

There is no support in recent political history for the belief that Gov. William W. Scranton could carry New England and the Mid-Atlantic states if he were the Republican nominee for president whereas Sen. Barry M. Goldwater could not.

This widely held belief is a phony although perhaps a carefully nurtured phony. It has about the same merit as the belief that it is against the law to strike a man wearing spectacles or that blondes more than brunettes are passionate lovers.

The plain truth is that there is no very substantial reason to believe that any Republican could win a majority of the electoral votes of the New England and Mid-Atlantic areas. The soft-boiled or liberal Republicans have tried time after time and failed. The conservative or hard-boiled Republicans have no recent record of failure because the Republican Party consistently has refused to nominate a conservative for president.

Dunn Makes Report
These observations were prompted by a report by The Dunn Survey, McLean, Va., of which Rogers C. Dunn is chief surveyor and proprietor. Dunn cast up the returns from presidential elections 1940-1960, inclusive. Excepting only Gen. Dwight D. Eisenhower, all liberal Republican presidential nominees during the past 20 years have been beaten, rejected, humiliated in New England and the Mid-Atlantic states.

There are six Mid-Atlantic states with 115 electoral votes. The states are: New York, Pennsylvania, New Jersey, West Virginia, Maryland and Delaware. The six New England states have a total of 40 electoral votes. The two regions together cast 155, more than half the 269 electoral votes necessary to elect a president.

Wendell L. Willkie, a liberal maverick, beat out Robert A. Taft and others for the Republican presidential nomination in 1940. Willkie got eight electoral votes in New England, none in the Mid-Atlantic states. Thomas E. Dewey was the 1944 nominee. He duplicated Willkie's score.

Dewey Does Better
Dewey did a little better in 1948, taking 51 Mid-Atlantic electoral votes and 12 in New England. Ike in 1952 carried all of the 12 northeastern states except West Virginia and took a total of 147 electoral votes. Four years later Ike took 'em all in the northeast, 155 electoral votes.

In 1960 Richard M. Nixon ran for president on what Republican conservatives regard as a me-too, liberal platform. He was shellacked. Nixon reaped 12 electoral votes in New England, none in the Mid-Atlantic area.

All of this does not prove that a hard-boiled conservative could carry any or all of the Mid-Atlantic and New England states. But the record shoots a deadly hole in the argument that the Republicans must nominate a liberal to do well in those areas.

The liberal Republicans have done badly in the northeastern states and not much better elsewhere. They won big in 1952-56 but not on the political record of their candidate, Ike.

Huge Gambling Plot Uncovered in Gotham

NEW YORK (UPI)—A multi-million dollar gambling empire, forged on links between bookmakers, telephone company employees and policemen, was described Sunday by Brooklyn Dist. Atty. Edward Silver.

He said the scandal may extend to the highest ranks of the Police Department.

William Husey, former chief security officer for the New York Telephone Co. in Brooklyn, has agreed to reveal all he knows about the gambling operation, Silver said Sunday.

Husey is being held in protective custody under \$75,000 bail.

Silver said phone company employees warned bookmakers when their lines were being tapped and when raids were to be pulled off, and let policemen sent on a hunch know which phones were being used by gamblers.

The district attorney, discussing the growing scandal in a local television interview, termed the situation particularly serious because the underworld here has the organizational foresight to involve a large public utility in the operation of their illegal business.

Silver said he could not tell where the current investigations would end, but he promised, "We will go wherever it leads, no matter how high it may go."

ELEVATOR CRASHES

SAN FRANCISCO (UPI)—An elevator at the Huntington Hotel, filled with convention goers, crashed Sunday, but no one was injured.

With a dozen persons aboard it started down from the ninth floor, picked up speed, declined to stop on order at the sixth floor, picked up more speed, and hit with a crash in the basement. But everybody walked away.

10,000 MOURNERS

CHAMONIX, France (UPI)—More than 10,000 mourners attended the church and burial services Thursday when former world slalom champion Charles Bozon and 13 other Alpinists who died in an avalanche on Mount Blanc Tuesday were buried. Maurice Herzog, secretary of state for sports and youth, represented the government.

New Way Found To Stop Hair Loss, Grow More Hair

HOUSTON, Texas — If you don't suffer from male pattern baldness, there is now an excellent chance you can stop your hair loss . . . and grow more hair.

For years they said it couldn't be done. But now a firm of laboratory consultants has developed a treatment that is not only stopping hair loss . . . but is really growing hair!

They don't even ask you to take their word for it. If they believe that the treatment will help you, they invite you to try it for 32 days, at their risk, and see for yourself!

Naturally, they would not offer this no-risk trial unless the treatment worked. However, it is impossible to satisfy everyone.

The great majority of cases of excessive hair fall and baldness are the beginning and fully developed stages of male pattern baldness and cannot be helped.

But how can any man or woman be sure what is actually causing their hair loss? Even if baldness may seem to "run in your family," this is certainly no proof of the cause of YOUR loss.

Actually, there are many scalp conditions other than male pattern baldness that can cause hair loss. No matter which one is the cause of your hair loss, if you wait until you are slick bald and your hair roots are dead, you are beyond help. But, if you still have hair (or at least some fuzz) on top of your head, and would like to stop your hair loss and grow more hair . . . now is the time to do something about it, before it's too late.

Loesch Laboratory Consultants, Inc., will supply you with treatment for 32 days, at their risk, if they believe the treatment will help you. Just send them the information listed below. All inquiries are answered confidentially, by mail and without obligation. Adv.

Gauge Set Stolen From Pump Unit

A set of panel gauges valued at \$20 was stolen last night from an oil well pumping unit southwest of Pampa.

The Gray County Sheriff's office said someone took the gauges from a truck-tractor owned by the V. E. Wagner Well Servicing Co. on the Pan American Lease, 7 miles southwest of the city.

Also taken was a small first aid kit.

Nembutal Taken In Office Theft

One and one-half pints of Nembutal was reported missing this morning following a break-in during the night at the Purviance Clinic, 806 W. Francis.

The burglary was discovered at 8:20 this morning in the office of dentist Dr. Harbord Cox.

Police Chief Jim Conner said the burglar entered the building by smashing a rear door glass.

Taken was one full pint and another half pint of Nembutal, a narcotic prescribed for relief of pain, and a box of assorted sample drugs.

The Nembutal was apparently poured in another container, Conner said, since the empty bottles were left behind.

Nothing else was reported missing, the chief said, and several other drugs locked in a cabinet were not bothered.

Conner said the thief apparently entered the office looking specifically for the Nembutal.

Guymon Beats Erring Colts 16-7

By KARL O'QUINN
Daily News Sports Editor
GUYMON, Okla. — The Guymon Dusters completed a sweep of four Tri-State League games with Pampa by beating the Colts 16-7 yesterday afternoon.

Barber Winner

NEW ROCHELLE, N. Y. (UPI)—Miller Barber, a balding 33-year-old Texan, finally found out how it feels to win a major golf tournament. "It's great. What else?" he grinned sheepishly after tucking away the fastest paycheck of his career (\$5,000) for winning the Wykagyl Round Robin Sunday from a field of 16 with a shaky one-point margin over U.S. Open Champ Ken Venturi. "Now I can go out and practice for a week," he added. "I'm not good enough to play with the big boys in the PGA championship at Columbus."

But he was good enough through five rounds to show his heels to quite a few of the big boys, though Venturi nearly pulled out a tie on the 90th green that would have sent the two leaders into a sudden death playoff. Barber was in with a plus score of 31, winning 10 points on the final round from Tommy Aaron, Jimmy Demaret and Tom Nieporte with a one under par 71. Then came Venturi, needing three points on the final hole to tie. Ken missed a 12 foot try for an eagle, then got his birdie four. He won a point from Gene Littler, who took a par-five. Then another point from Tommy Jacobs, who parred the hole. But Fred Hawkins knocked in an eight footer for a birdie to match Venturi's and Ken was left one point shy with a score of plus 30. Through the five round marathon, every player took on three rivals at a time in a different foursome each round. Points were added or subtracted for each hole won or lost with the highest plus score winning the jackpot. Dave Marr, 10th on the official money winning list for the year, wound up third with a plus 23. Littler finished fourth at plus 16 and Bob Rosburg tied Tommy Bolt for fifth at plus 15.

Davis Cuppers In Clay Tourney

CHICAGO (UPI)—Competition begins today in the National Clay Courts tennis championships with the entire U.S. Davis Cup team slated to play in the last tournament on clay before defending its trophy in September on the same type of court.

Defending champion Chuck McKinley, No. 1 ranked nationally, was seeded first for the tourney with his Davis Cup teammates following. Dennis Ralston second, Frank Froehling third, and Marty Riessen fourth.

Nancy Richey, third ranked nationally, was seeded first in women's singles with defending champion Carole Caldwell, married on Saturday to Clark Graebner, seeded second.

TO RECEIVE TROPHY
COLORADO SPRINGS, Colo. (UPI)—Former heavyweight champion Jack Dempsey will receive a trophy as the all-time greatest Colorado athlete at Colorado Springs on Aug. 8.

walked away with it. They drew 16 bases on balls from Colt hurlers Bobby Price and Don Hickman, and also capitalized on seven Colt errors.

Each of the teams got two doubles and ten hits. Merle Terrell, Roy Stephens and Jerry Glover singled in the first inning to get the Colts off to a short-lived one-run lead.

Three singles, three walks and an error put Guymon in front 5-1 in the bottom of the inning and the Colts never got a ny closer. Guymon scored in every inning but the fifth.

The Dusters weren't very alert, however, as they allowed Hickman to skip his turn at bat in the fourth and made no appeal on Price's batting out of turn.

In that inning Royce Harnsberger singled, moved to second on a walk to Price and scored on an error by the shortstop.

Terrell and Kenny Hebert singled in the sixth and both scored on Jerry Glover's double. Two more by Pampa in the eighth made the score 13-7 but Guymon added three more in the bottom of that frame.

Terrell singled and Hebert circled the bases on two errors. His grounder went through second baseman Dean Weese's legs and was fumbled by right fielder Ray Brown momentarily. Brown underestimated the streaking Hebert's speed and held on to the ball too long to catch him at the plate.

Bobby Price pitched three innings and was handed his second loss in 20 hours to drop his record to 3-4. He has figured in four of the last five Colt decisions.

Manager Tom Glover was forced to use himself and a coach Bo Brown in left field due to lack of personnel. The Colts played without Mike Clark, Mike Stewart and Larry Gregory. Claude Middleton is out with a broken finger, also.

Don Hickman appeared on the mound for the first time this season and gave up two hits in five innings. His wildness kept him in constant trouble, however, and he gave up seven runs.

STENGELE EASE—Even when Casey Stengel is at ease on the baseball field, his face and mouth are working—both with typical Stengelese. These expressions were recorded as the manager of the New York Mets expounded to sports writers after a recent victory.

Braves Beat Phils Twice

By United Press International
The Philadelphia Phillies are getting the same diet as the New York Yankees, plus Hank Aaron.

Milwaukee fed the Phils two more lefthanders Sunday in the person of rookie Wade Blasingame and veteran Billy Hoelt and dropped Philadelphia out of first place with 4-3 and 6-2 setbacks.

The defeats were the third and fourth in a row for the Phils, the previous two being inflicted by Cincinnati hurlers Joe Nuxhall and Jim O'Toole, both southpaws.

Aaron collected a pair of hits in both games and drove in a total of three runs as he extended his consecutive game hitting

streak to 16 games and increased his career hit total to 2,000 with a second game fourth inning double.

"Hammerin' Hank, whose .320 lifetime average is highest among active major leaguers, batted in two runs during the Braves' four-run third inning in the opener as Blasingame went seven frames for his second win in three decisions.

In the second game, Aaron, who has scored over 100 runs nine seasons in a row, tallied the Braves' first run in the fourth after Philadelphia jumped to a 2-0 advantage. Aaron drove in an insurance run in the seventh after Frank Bolling's two-run homer put Milwaukee ahead to stay.

Houston nipped San Francisco, 5-4, the Mets topped Cincinnati, 1-0 and 3-1, Chicago took the first from Los Angeles, 6-3, then lost the second game, 6-2, and St. Louis was rained out at Pittsburgh in other National League action.

In the American League, Los Angeles beat Minnesota twice, 2-1 and 3-2 in 10 innings, Chicago downed Kansas City, 3-1 and 11-4, Baltimore clipped Detroit, 4-2, then lost 4-3 in 10 innings; Boston defeated Washington, 5-3, in the first game but the Senators took the finale, 10-3, and New York and Cleveland battled to a 2-2 tie before rain washed out their doubleheader.

Ninth inning singles by Eddie Kasko, Dave Roberts and Nellie Fox gave Houston reliever Hal Woodeshick his second victory in seven decisions. Gaylord Perry, the fifth Giant pitcher, was the victim of the rally.

57TH YEAR MONDAY, JULY 13, 1964 5

Umbarger Slips Past Colts 20-19

UMBARGER — The catcher, the manager and the third baseman pitched for the Pampa Colts Saturday night but it was all in vain as Umbarger took a 20-19 Tri-State League victory.

Royce Harnsberger, who has appeared infrequently on the mound for the Colts this year, started the game but it was followed by Larry Gregory, Tom Glover and Kenny Hebert. Ironically, Bobby Price, the only full-time pitcher to see action in the game for Pampa, took the loss on one inning's work.

The Colts led 1-0 and 4-3 early in the game, then fell behind by eight runs. The score was tied at 16-15 and 19-19 but Pampa never led again.

Singles by Roy Stephens and Jerry Glover produced the first lead in the opening frame but the Blackhawk scored three in the second to go ahead.

Kenny Hebert walked and Jerry Glover and Gregory hit consecutive home runs to give the Colts their last lead.

Umbarger scored seven runs in the third and six in the fourth and looked on their way to ending the game in seven-innings on the ten-run lead, but Hebert came to the rescue from third base and shut out the Blackhawk for three innings.

Pampa climbed back into the ball game by scoring in every inning.

Roy Stephens hit a grand slam home run in the fourth after Price and Merle Terrell had walked and Jess Middleton was hit by the pitcher.

Two more came in the fifth on a single by Ray Dean and a home run by Harnsberger.

In the sixth, Stephens and Hebert doubled to score one run. Larry Wieck came in to pitch and walked three men to score two more runs.

A fielder's choice on Stephens and a double by Hebert scored another run in the seventh and two more scored in the eighth the same way as in the fifth. Dean singled and Harnsberger homered.

This tied the score but Um-

'Wondrous Warren' Signs With Houston

SAN ANTONIO, Tex. (UPI)—University of Houston football coach Bill Yeoman smiled the wide smile of a man who dreams of future triumphs as he snared the speediest pair of legs in Texas high school football over the weekend.

The legs came attached to Warren McVea, the four-sport Negro threat from Brackenridge High of San Antonio, who signed with the Cougars Saturday.

Seventy-four other colleges wanted McVea, the breakaway runner whose 5-10, 170-pound frame pounded out 315 points scoring in 31 games last fall and gained 1,332 yards rushing.

The powerfully built player has scored 128 points as a sophomore at Brackenridge (in class AAAA Texas high school football) and 148 points as a junior even though he did not play four of the early games that year.

McVea, an elusive runner who does his best under pressure, can sprint the 100-yard

dash in 9.5 seconds, can play baseball with the best of prep schools, and was Brackenridge's No. 2 scorer in basketball last season.

He plans to play in the Texas schoolboy all-star football game in August in Fort Worth.

No better index of McVea's ability could be shown than his performance in Brackenridge's drive to the state title in 1962. McVea ran a kickoff back 82 yards, opening the way for his team's first tally. Then he took a 37-yard touchdown pass later in the game.

As his team drove toward a go-ahead score, he kept the momentum going by snagging a fourth-and-one pass. Then he ran 60 yards with another pass to score and hand Brackenridge the victory.

PUT A TIGER IN YOUR TANK!

"BUT GEORGE... I'M SURE I HEARD A ROAR!"

NEW POWER-FORMULA ENCO EXTRA GASOLINE BOOSTS POWER THREE WAYS:

- 1 Cleaning Power!** Dirt can clog even a new carburetor in a few months of normal operation—causing hard starting and rough idling. Your very first tankful of New Enco Extra will start to clear away these deposits—in new engines or old—to improve power and mileage.
- 2 Firing Power!** Spark plug and cylinder deposits can cause misfiring, pre-ignition and hot spots. New Enco Extra neutralizes these harmful deposits—to help your engine fire smoothly, to help preserve the power of new cars and restore lost power to many older cars.
- 3 Octane Power!** New Enco Extra has the high octane that most cars now need for full smooth performance without knocking. You'll get all these extras with New Power-formula Enco Extra gasoline—it puts a tiger in your tank! *Happy Motoring!*

The Pampa Daily News

A Watchful Newspaper

EVER STRIVING FOR THE TOP O' TEXAS TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities. We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

Speaking of Discrimination

Amid all the debate over the civil rights bill, which today is the law of the land, there was no mention of the fact that the United States government is an arch-discriminator.

For example, the armed forces discriminate by drafting only men, not women. They accept women for their special feminine corps but do not conscript them. Soldiering being a kind of employment, this seems to be employment discrimination on the basis of sex, which the bill prohibits.

The government discriminates in the employment of other people, too — for example, the President. He must be at least 35 years old; a 34-year-old won't do. Further, he must be a native-born, not a naturalized, citizen. This puts naturalized citizens in an inferior class; they cannot run for president. Neither can they aspire to be vice-president.

But for a glaring example of discrimination by the government, consider the immigration laws, especially the quota system. Each country has a quota or maximum number of people from that country who may migrate to the United States in any one year.

These quotas are highly discriminatory. For example, Great Britain has a quota of 65,361, while India — a much bigger country — has a quota of 100. Yet Yemen, smaller than either, also has a quota of 100.

In fact, all the countries of Asia and Africa have quotas of 100, so small a number as to be negligible. In short, we practically close our doors in the face of the Asians and Africans.

And note that these are the so-called "colored" races. Our government discriminates against them, nationally and officially. But in the civil rights bill, our government would force us as individuals to open the doors of our private places of business to them.

The immigration quota system discriminates between different white peoples also. While Great Britain has a quota of 65,361, Italy has but 5,666 and

Down South

By THURMAN SENSING

SCRAPPING THE CONSTITUTION

If ever there was a clear demonstration of judicial tyranny, it was the recent action of six justices of the U. S. Supreme Court riding roughshod over the wishes and constituted authority of 50 state legislatures in the legislative reapportionment ruling. The decision unmistakably points the way to the death of the American Republic and its replacement by a centralized regime exercising total political power over the states and citizens.

Justice Potter Stewart, one of the three dissenters from the ruling, accurately summed up the unconstitutionalism of the court's action, saying: "The court's Draconian pronouncement which makes unconstitutional the legislatures of most of the 50 states finds no support in the words of the Constitution, in any prior decision of this court, or in the 175-year political history of the federal court."

In short, the dominant majority based its decision, not on law or precedent, but on a desire to revolutionize a portion of the American political system. The ruling means that the Supreme Court is going into the business of regulating state legislatures. It already is in the business of acting as the supreme school board in numerous communities. Before long, subordinate federal courts will be telling business concerns whom they are to employ and to promote. Is there no limit to the thirst for power in the American judiciary today? Citizens should ask themselves this question.

It is true that some states had need for reapportionment. But that was no excuse for federal intervention. No case had been made that anyone's rights had been violated. The CHICAGO DAILY NEWS, commenting on the decision, rightly said that even those who rejoice in some of the effects of the Supreme Court's action "must have qualms about this giant step toward centralism."

In truth, the court's decision is only the beginning. Arthur Krock, a distinguished political observer, has suggested that the next steps may be abolition of the Electoral College and striking down of the constitutional provision that guarantees each state two U. S. Senators. In recent years, the Southern States have been in the vanguard of the movement calling for restrictions on the unbridled power of the U. S. Supreme Court. The South has received very little understanding or encouragement from other states — the suggestion being made by some Northerners and Westerners, for example, that the South's plea was simply the result of regional bias.

One may properly wonder, therefore, whether the people of tiny Rhode Island, for example, are giving any thought to the possibility that in the not distant future the Supreme Court may say that state is not entitled to one U. S. Senator, let alone two. There are a number of small Northern and Western states that are similarly situated. They had better look to their rights and interests under the U. S. Constitution, which a ruthless majority on the Supreme Court is now intent upon scrapping on the installment plan.

The long range objective of this Supreme Court majority seems clear enough. It is to substitute one set of national elections for the present system of state and federal elections. In this way, the states would be finally humbled and eliminated as an effective political instrumentality. The states would remain, but only in name. They would have no more authority than the departments of France, which are administered by national officials.

The design that the Supreme Court is imposing on America is not the design that is authorized by the Federal Constitution or the Constitutions of the 50 states. The Supreme Court's plan is the creation and embodiment of the personal wishes of a small handful of arrogant men who conceive of their right to manipulate America any way they please.

What is astonishing is that the American people have stood for it for so long. It is not removal of any one justice that is the ultimate answer, but formal constitutional limitations, through the amendment process, for curbing would-be dictators in judicial robes who are destroying this republic built upon a constitutional basis.

In Words of Ed Sullivan—

ROBERT ALLEN

Backstage Washington

No Big Administration Announcements Planned During Republican Convention Headlines

PAUL SCOTT

WASHINGTON — Senate Republican Leader Everett Dirksen, who boasts of being Senator Barry Goldwater's "political godfather" and will nominate him at the national convention this week, is still chuckling over a fast one President Johnson tried to pull on him. After the White House signing of the far-reaching civil rights law, in whose enactment Dirksen played a key role, he and the President got to bantering about the fall election battle. Suddenly, the President said wheedlingly: "Now, Ev, don't you honestly think I'm the best man for President in the next four years?"

Startled, Dirksen eyed the President intently for a moment, then breaking into a broad smile shook his head in mock perplexity and in his most mellifluous style replied: "Mr. President, surely you know me well enough to know that I'm far too modest and honest to frankly answer such an obvious leading question."

"Yes, I know," grinned the President. "I know you, all right."

Dirksen is besieged by publishers for his memoirs covering more than 30 years of service in both branches of Congress and as a national political figure. Some of the offers run into five figures.

So far the Illinoisan has turned them down on two grounds: "When would I have time to write a book; and my best stories are the ones I couldn't tell."

President Johnson will not try to compete with the GOP convention for the headlines next week. This decision was reached after an extended discussion at a White House staff conference.

As a consequence, all important administration announcements will be delayed until after the San Francisco conclave. During this deliberation, the President expressed the hope that the Republican convention would divert major public attention from civil rights clashes in the South and elsewhere.

"Maybe it will help take the heat off demands for federal marshals and FBI agents," said one presidential aide prayerfully.

MORE BIG U.S. SPENDING IN CONGO — The Johnson administration has agreed to foot the bill for returning some 10,000 Belgian civilian and military technicians and advisers to the Congo in a new effort to "stabilize" that strife and turmoil-racked country. Estimated cost of this still-unannounced project is between \$80 and \$100 million.

This heavy expenditure will be in addition to the \$300 million the U.S. put into the United Nations "peace force" that was finally liquidated last week — having solved nothing. Total cost of that venture in futility was \$420 million, of which the U.S. contributed approximately three-fourths.

Irony of the return of the Belgian technicians and advisers is

EDITOR:

It is my hope that I can convey to any interested party the status of the lake being built near Sanford in which Pampa has such a vital part.

How we came to be a part of this construction is now of little importance. How to handle the role that we are bound to play is certainly worthy of the consideration of every citizen.

First, they are building a dam. It doubtless will be completed, and we are told within perhaps two years. You may want to know when it will be filled with water, that too is a puzzle. But it is said by some who should know that if we again should see the Canadian River running bank full, as even I have seen it, in the past twenty years, then the dam would have water lapping at the top.

What does this mean to Pampa? It means that we are to take and pay for 6,000,000 (six million) gallons of water each and every day in the year at 13 cents per thousand or \$780.00 per day or \$284,700 annually plus maintenance of the lake and machinery.

What if the water is not available after a few weeks after we start taking it? The contract provides in simple layman's language that if water IS NOT available after we have started taking it we will continue to pay the same amount that we are pledged to pay. It must be paid then from local sources or production from our own wells.

Must we keep our city wells going? Our local officials say we cannot close our wells. They must be kept running to remain productive.

How much must the wells keep pumping to remain self-productive? They must produce about our average usage, from two to four million gallons daily.

Then what will we do with the six million gallons daily that we must take from the Canadian dam? THAT my friend is a question that no one has been able to answer yet.

The former Commission that I served on, never approached an answer. This Commission does not have the answer, at least no one has divulged it to me.

Much was said during the campaign to vote to construct this lake, about the wonders of boating and so on. Well, now is the time for these land-locked Vikings to come forward and tell us some answers to one burning question — What will we do with 6,000,000 (six million) gallons of water every day of the year.

Each Sunday evening recently I have been at the lake site. They are building a dam, it may rain. If it does then in a short time an aqueduct being built to Pampa, could be flowing six million gallons of water daily to our gates. This water is coming C.O.D., \$780.00 each day, \$284,700 each year.

Pampa faces the most momentous day and perhaps not too far distant. When this question will be forced upon us, it could be ruinous. We need some

EVERYBODY'S BUSINESS

What's Ahead for Oils? Growth, Tax Harassment

By SAM CAMPBELL

Fortune magazine's list of the top ten most profitable industrial firms (after - tax profits as a percentage of sales) included the names of four oil companies.

At least one mutual fund specializing in petroleum and other forms of energy.

Petroleum Management magazine surveyed 75 oil companies and found that total earnings had increased 14 per cent during 1963 over the previous year.

These random points together with the increasing number of automobiles both in this country and Europe, plus the increasing population, plus the diversification of oil companies into chemicals suggest that the trend of the petroleum business is up.

The same thing might have been said of the automobile business in 1920. But the question from the standpoint of the individual investor at that time was which auto company.

Fortune Magazine's "most profitable" list was headed by Amerada Petroleum with a net profit of 30.2 per cent of sales. Texaco was No. 5 with 16 per cent; Superior No. 6 with 15.8, and Standard Oil of California with 14.6.

However when Fortune measured profitability as a percentage of invested capital, not a single oil company appeared among the top 10.

And Petroleum Management magazine observed that while its compiled earnings did show an increase over 1962, the rate of return on investment (net worth) dropped in 1963 to 10.8 per cent in 1963. The low point of this period was 9 per cent in 1958.

During this same period the return on revenues declined from 10.8 per cent in 1953 to 8.7 per cent in 1963.

Meanwhile, some concern is being expressed for the rising costs of exploration and development, particularly in view of the continuing governmental attacks on the depletion allowance. This allowance lets the oil company deduct 27.5 per cent of its gross income from a producing property before figuring its income tax.

The effect is to give the companies an incentive to hunt for more reserves. Texaco reports there were 16,000 fewer wells drilled in 1963 than in 1956, the record year. In this same approximate period the ratio of U.S. oil and gas reserves to reproduction dropped a full percentage point.

That sounds like a lot of arithmetic, but what it means in a nutshell is that the cost of the Miracle men such as promoted this project and dynamically got it voted in at the rate of about 2,000 to 90. Will those Miracle Men please stand up?

Anyone wanting to get a copy of the contract that we signed may do so by paying for the reproduction cost.

I believe the contract will make plain one thing, that is, that the time will come when, we must sell to someone, six million gallons of water each and every day, OR our water department will face a long period of planned starvation.

The City Commissioners are not the stars in this show, and the people are not mere spectators, we are all involved.

L. P. FORT
CITY COMMISSIONER

gasoline you burn in your car is to rise considerably if the depletion allowance goes off.

Progress of a mutual fund to invest in petroleum and other energy companies was discussed in a conversation with this writer by Irving L. Straus vice president of Energy Fund Inc., New York and Los Angeles.

The fund has been in existence since 1955, holds securities in 51 companies, as of March 31, 1964, reported assets of \$33.5 million. The growth record—Straus said—on an assumed investment of \$1,000 on Oct. 19, 1955 was \$2,592 as of March 31, 1964.

Of this \$1,939 represented an increase in the value of the original shares and \$653 represented capital gains distribution. Total dividends, not invested, came to \$160.

The value of these figures for investment purposes can be ascertained only by comparing them with comparable data from other organizations, but they do indicate a growth performance in the energy field. Straus gave one comparison. He said an assumed investment in Dow - Jones' 30 industrials on the basis would have resulted in a total value of \$1,788.

The fund's literature reproduces a Department of Interior chart showing a steady uptrend in energy consumption from 1935 on. Even a straight-line projection from past performance points to a rather dramatic gain in energy consumption by 1974.

In Petroleum Management, (May, 1964), Jersey Standard forecasts a 4 per cent increase in the Free World's petroleum demand this year over 1963. For the same period Standard Indiana sees a 2 to 3 per cent advance in domestic demand and 8 to 10 per cent in the foreign free world.

The Nation's Press

(California Feature Service)
San Francisco has been handling its unruly civil rights demonstrators with calm and efficient realism; defending their right to picket peacefully, jailing and fining them for breaking laws. This, however, isn't good enough for the bleeding hearts, including Michael Harrington, advisor to President Johnson in the "war on poverty," and Norman Thomas, perennial Socialist.

Both Harrington and Thomas have nosed into the San Francisco affair, protesting municipal court sentences for the demonstrators. Mr. Harrington wails that "fighters for civil rights" are being "pilloried" by the courts. But Mr. Thomas has the most amazing observation of any yet to come our way. Said he:

"The justice of their cause is amply demonstrated by the concessions they have won."

Invasion of private property, destructive disruption of private business, interference with public access... these are amply justified because some employers have signed agreements with civil rights groups?

Hitter's cause was just, because he won concessions from Chamberlain at Munich? The cause of the Mafia or Syndicate is just, because it gains concessions from some businessmen and politicians?

One more question: Is this the new credo, the new intellectual and moral standard of the liberal element?

Young Man's World

As if we, er, mature folks already didn't have enough to worry about, we now face the fact that the country is going to the kids.

The Census Bureau has announced that half of the 192 million people in the United States are under the age of 28.5 years.

And that isn't all. By 1985, the bureau says, half of the 266 million Americans will be under the age of 26 years.

Now if this trend continues, the unstatistical mind has to conclude that by the year 2025 almost everybody will be younger than 26, or half the population will be under 15, or something like that will have happened.

What's this going to do to those

of us who already aren't younger than 28.5 and will, unless somebody invents something fast, have been getting older all the time the nation is getting younger?

It stands to reason that with more and more customers getting younger, manufacturers and merchants will cater to them. So our older folks (those over 20) may have to wear romper suits, drive kiddie cars, eat nothing but potato chips and hot dogs, and go into shrieking hysterics over the Beatles.

But hang in there, old-timers. The Beatles themselves won't be so dopedgedged young by then!

So heh, heh, to you, yeah, yeah kids.

For Critters Who Litter

This is the season the litterbug is in his glory.

What gives with this character?

What makes a person toss a popcorn box or a beer can or a pop bottle or a flutter of cleansing tissue from a moving car to clutter up the roadside?

How can anyone enjoy a picnic in a public park and then walk off without cleaning up the litter—or even extinguishing the fire?

How can people tear the wrappings off candy bars and calmly drop them to the sidewalk?

We don't know the answer. But people do it — by the thousands.

There are warnings and penalties against it. There are constant campaigns against it. There are fervent appeals to good citizenship, neatness and plain good manners. They are all ignored.

Do these people act like this in their own homes? You can't see how they could, but maybe

they do. At least they advertise themselves as sloppy.

The outdoor season is on. We all want to enjoy it. It is more fun when things are neat and clean. Remember — every litter bit hurts.

The politician who once had to learn how to flatter kings, has now to learn how to fascinate, amuse, coax, humbug, frighten, or otherwise strike the fancy of the electorate.

PULLS HANDLE

NORTH LUFFENHAM, Eng-land (UPI)—Five year - old Raymond Weston paid attention when several older boys told him that he would hear a Beat-

les record if he stood on tiptoe and pulled that big red handle above his head. Raymond did as he was told—and was rewarded with two fire engines answering the false alarm that he had turned in.

BEATS ALL OTHERS IN COMFORT & VALUE!

Ford's Offers Top Quality Body Work

Getting ready to take your vacation? Are you ashamed of the dull paint on your car, or maybe you have a few dents that you would like to have removed before you take off on your trip. Ford's Body Shop at 111 N. Frost can bring glamour back to your car by removing the dents and giving it a first-class paint job.

Most people are proud of their cars, as rightly they should be. Therefore they want the best when it comes to repair after a mishap, either a major or a minor one, or when they just want a repaint job to enhance the looks of an older model. You can always depend on Ford's Body Shop for the best possible service. When your car comes out of Ford's, you can point to it with pride.

Ford's has the room and equipment needed to perform a first-class repair job on any make or model of automobile. The shop's best advertisements are the "extra sharp" paint jobs that they put on older model cars and the total wrecks that are made to look like new.

For 24-hour wrecker service call MO 4-4619 during the day and MO 5-2494 at night.

EXPERT—Top flight body repairs are available at Ford's Body Shop, 111 N. Frost, with reasonable rates and fast service. The Ford shop not only offers body work but maintains a 24-hour wrecker service.

On The Record

Highland General Hospital does not have a house physician. All patients, except severe accident victims, are requested to call their family physician before going to the hospital for treatment.

Foreign News Commentary

By PHIL NEWSOM
UPI Foreign News Analyst

After a brief period of hope progress at the 17-nation disarmament conference in Geneva again has come to a screeching halt.

The hope arose last month when the Soviet Union sent its deputy foreign minister, Valerian A. Zorin, to Geneva to announce that the Russians were willing to seek limited accords aimed at reducing international tensions.

Among these was President Johnson's dramatic proposal for a "bomber bonfire" in which the United States would destroy 480 of its multi-million dollar B47 bombers in return for the destruction of a similar number of the Soviet Union's comparable TU16 aircraft.

In the light of the speed and the destruction which can be meted out by nuclear-tipped rockets, such a bomber bonfire would be little more than symbolic.

The First Step

It would, however, represent the first really tangible step toward disarmament in 18 years of talk.

Progress at Geneva, or the lack of it, always reflects Moscow's current attitude toward the United States.

The present impasse arises from a turn-about in which the Russians again assert they will discuss only their own proposals on how to scrap missiles and other means of delivering atomic bombs.

A forewarning of the Russian attitude came during Nikita Khrushchev's recent Scandinavian tour in which he attacked NATO and emphasized that disarmament could only be achieved on Russian terms, including the permanent partition of Germany.

Home again, Khrushchev extended his attack to include U. S. reconnaissance flights over Cuba and U. S. policies in Laos and South Viet Nam.

DEATH SENTENCE—Johnston's No-Roach spells death for bugs of all kinds from Florida to Texas. No-Roach is a sure way to keep a pest-free home.

No-Roach Gets Bugs From Florida, Texas

Yep, podner, Texas hands it right over to Florida when it comes to big cockroaches. Texas' biggest bug is the American cockroach. . . it grows about 2 inches long. Florida has the palmetto bug. . . and brother, it grows about 3 or 4 inches long, and besides, it's more repulsive than the Texas brand. Sometimes the palmetto bug flies, and sometimes it runs so fast, you can't lasso it. However, Johnston's No-Roach can slow them down. . . to a dead standstill.

Happy Floridians send letters and cards weekly to the Johnston office. They tell of success with No-Roach in the battle of the bugs. Users just brush the colorless, odorless coating around the kitchen, or squirt No-Roach back of the sink and the fridge. Wait a few days—you will find dead bugs, and have a pest free home.

No-Roach kills ants, spiders, silverfish too, yet is harmless to pets. Try it for yourself. Get No-Roach at Wards, Ideal's, Furr's and all grocery stores. Distributed by Panhandle Kimbell.
