It is an opportunity and a privilege seldom accorded to Big Spring citizens, to hear a minister celebrath his eighty-first anniversary in the pulpit. This young land, so far from the scholastic centers of the country, does not attract white hairs and crudition, as often it does young blood and energy.

For this reason, the First Preshy terian Church was comfortably filled Sunday morning to hear Dr. Samuel H. Chester deliver his fare well sermon. It was also his Slst birthday and below the pulpit was a rich red cyclamen presented to him by the members of the Auxillary in commemoration of this senson, by of responsibility as presented in teachings of Christ, stressing the fact that the Bible estimate is on the least, using electrons and protons in the universe as an example of God's attention to the minutest of the senson will be linked.

#### WILBUR C. HAWK

Publisher, Amarillo News-Globe, Amarillo, Texas

"The tax program of the West Texas Chamber of Commerce alone is worth all the money the organization costs to maintain."

### O. B. MARTIN

Director, Texas Agricultural Extension Service, College Station

"The West Texas Chamber of Commerce initiated the movement for drouth relief in Texas, and also rendered great service in securing aid from Washington, as well as similar helpfulness in getting it to the people. I doubt very much whether the funds for the drouth work would have been applied to Texas to any considerable extent but for the activity of the organization."

## J. S. BRIDWELL

Oil Producer, Wichita Falls, Texas

"The West Texas Chamber of Commerce has done a great deal towards the development of West Texas, and has brought about a better understanding among the citizenship of the different communities in West Texas to help West Texas get recognition that otherwise it would not have received. The organization is entitled to the support and confidence of the citizenship of this vast empire in West Texas."

## C. N. BASSETT

President, State National Bank, El Paso

"It is just dawning upon me that we have in the West Texas Chamber of Commerce the best possible agency through which to solve our state and regional problems."

## R. L. MALONE

Merchant, Roswell, N. M.

"Eastern New Mexico has received much help from the West Texas Chamber of Commerce in the promotion of tourist travel to our scenic attractions. Each community in New Mexico has received adequate dividends on its memberships. This cooperation has been of value also to the people of West Texas in bringing to their very door these great recreational opportunities."

## W. H. BOWMAN

Macmillan Publishing Company, Dallas, Texas

"From a publicity standpoint, the work done by the West Texas Chamber of Commerce in correcting the geographies was worth many times any one year's budget."

## H. S. HILBURN

Publisher, Plainview Evening Merald, Plainview, Texas

"The savings to cotton shippers because of reduced freight rates brought about through the efforts of the West Texas Chamber of Commerce amount to many, many times the money the affected territory pays into the organization's treasury in several years. Other reductions followed, but shippers must realize the immense savings early in the season, the direct result of West Texas Chamber of Commerce activities."

-- and so say scores of other West Texas business leaders who are affiliated with this organization. And so you will say!

## ANNUAL MEMBERSHIP DRIVE

Your help is needed to make 1932 the Banner year for West Texas

January 18th, the West Texas Chamber of Commerce will launch its 1932 Membership Campaign, simultaneously in the 130 towns affiliated with it:

The sum of \$60,000 is needed and asked for, to carry on the Work Program.

This organization is 13 years old. It is one of the oldest and is the largest organization of its kind in the country.

From the 130 affiliated towns it draws a democratic directorate of 113 members, an executive board of 14 members.

18 committees with definite work programs, and four headquarters and branch offices. Its magazine, WEST TEXAS TODAY, is an old, well-established, powerful medium for the promotion of the territory served.

The West Texas Chamber of Commerce is NOT an opportunist type of organization. Its work is done according to a plan, the policies of which are determined by its annual conventions, which are the largest of their kind in the United States. Its directorate is completely representative and democratic. There are no paid membership solicitors... EVERY DOLLAR RAISED GOES TO CARRY ON THE WORK PROGRAM.

The West Texas Chamber of Commerce has no debts, but is on a "Pay as you go" basis.

Every West Texas town should be affiliated with the West Texas Chamber of Commerce. An affiliation gives your town the benefit of the force of all other West Texas towns behind your regional problems. The cost of affiliation is small, the procedure simple. All that is required is that your town meet its prorata part of our budget; and that from our membership in your town, you yourself elect your director.

## CONSOLIDATED BALANCE SHEET West Texas Chamber of Commerce

The assets of this organization are in its WORK PROGRAM; its liabilities, the cost of putting over the program.

Within the past biennium the accomplishments of the West Texas Chamber of Commerce, measured in dollars and cents, would, according to the most reasonable figuring,

amount to \$23,824,782. They would include, to take a few at random, the following whose cash returns can be exactly stated:

The Chamber fathered, and was the agency contacted by the U. S. Department of Agriculture, in production and food loans, enabling the farming of 1,500,000 acres of Texas land not otherwise possible. Amount loaned by gov-

ernment to 15,000 farmers in 67 West Texas counties was: \$2,403,36
Secured \$7.50 exemption per bale from government mortgage—150,000 bales

of West Texas cotton at \$7.50 per bale, amounts to: \$1,125,000
Secured consent of government to collateralize production loans on basis of

8-cent cotton. Saving on 75,000 bales at 3 cents over the market was: \$1,125,0
First to solicit Red Cross aid, resulting in securing assistance for drouth defined
area of West Texas. Cash allotment made, \$45,000; food and clothing, \$59,-

In the way of estimated, deferred and intangible assets, completing the total of \$23,824,782, the Chamber secured equalization of cotton rates, overcoming differential in
South Plains area; secured cotton rate reductions for same territory; forced corrections in
geographies used in 38 states which now, for first time, are giving West Texas a "break";
pioneered and championed conservation of natural resources, validation of land titles,
needed constitutional amendments; passage of relinquishment act; split tax bill; reduced
public expenditures with a view of tax reduction, etc., etc.

Liabities for 1932 are \$60,000. This is the budget, the sum required in the Work Program, to be carried on by the following committees, already organized and functioning: Officers, Agricultural, Livestock, Mineral Survey, Industrial, National Affairs, Oil and Gas, Land, Educational, Tax, Traffic, Publicity and World's Fair Exhibit, Parks, Railway, Highway, Legislative Bureau and Committee, Speakers Bureau, Industrial Opportunities Bureau, and Beautification Committee.

A small investment in the West Texas Chamber of Commerce will pay greatest dividends.

(Signed) Houston Harte, President A. J. Swenson, Treasurer
Wilbur C. Hawk, Vice-President
Spencer Wells, Vice-President

## It's got to be good to be

'All the king's horses . . . and all the king's men can't make a success out of a bad product. No amount of advertising will create a market for it. The more it's advertised, the more its defects become known.

But a good product well advertised grows as swiftly and naturally as a healthy plant. People try it and like it. They tell others. They like it. Soon that product is found everywhere . . . and its name, spread abroad by advertising, is on every tongue.

When you see something widely and consistently advertised, you can be pretty sure it's well worth having. If it weren't . . . if it didn't represent an honest and worthy value . . . the maker couldn't afford to advertise it.

Look over the advertisements in this paper. Some of these names you know. Others perhaps are newcomers, potential friends bringing some new comfort or convenience. But all are entitled to your trust . . . all are here because they have something real to contribute to your advantage . . . your service . . . your happiness.
