NO FALSE CONFRONTATIONS The outbreak of fresh communist aggression in Southeast Asia has found the American people united in their determi nation to resist and retaliate against the Reds who attempted to torpedo U.S. warships in international waters. President Johnson has the full approval of the country in ordering counter measures against the Red pirates on the high seas.

Mr. Johnson's prompt action in the case of the attack on two U.S. destroyers does not cover up, however, the errors and blindness in American policy in Asia these four years past. The swift U.S. response was encouraging, but it would be much more encouraging if Mn. Johnson were to return to their cusgovernment officials who over the years have urged appeasement of communist aggressors.
