FIRST MEETING OF HERALD-RITZ MICKEY MOUSE CLUB SATURDAY

All right, kids, get set!
The word "go" is to be heard promptly at 9:30 o'clock Saturday morning at the Ritz theater—you all know Mr. Robb's fine picture house on Main street. The Herald-Ritz Mickey Mouse club is going to be organized at the Ritz in the morning at a free matinee.

Free—provided you go to one of the nine official Mickey Mouse stores and get application blanks. Fill them out and present them at the ticket office at 9:30 and you'll be admitted to the matinee.

If you know of all the fun that is going to be afforded the boys and girls who join the Mickey Mouse club you'd be anxious to get in at the very first meeting.

Now, here is a list of the official Mickey Mouse stores, where

Cunningham & Phillips drug stores,
J. & W. Fisher, Inc.
Bradshaw Studio,
Home Bakery,
Allen's Grocery,
Harry Lester Auto Supply,
Ritz Confectionery,
Service Barber Shop,
Kemp & Bird Dairy,
blanks (don't delay—get 'em now);
you may obtain application

Bruening Defeats Communist Non-Confidence Move After Prolonged Reichstag Debate

Vote Is 289 to 264 For Leader of Hindenburg Forces

BERLIN (AP)—The communist non-confidence motion against Chancellor Bruening's government was defeated today 289 to 264. This action ended a four days' debate of the presidential election situation.

Forty-Ninth Year Of Christian S. S. Will Be Observed

An attractive 30-minute anniversary program has been planned for the First Christian Sunday School Sunday morning following the regular lesson period. This will be in the nature of a celebration of the 49th anniversary of the Sunday school.

The members will be seated according to the number of years they have attended the Sunday school. There will be, says Mrs. L. A. Eubanks, superintendent, a very good number in the 40-year class, including many who have grown up in the Sunday school.

The offering will be a penny for every year of membership. I. D. Eddins, who organized the Sunday school, will give a talk. Mrs. H. Clay Read, who came to town a few years after its organization will preside at the piano, as she has done for so many years of the organization's history, and will play Mr. Eddins' favorite hymn, Mrs. Fanie M. Barrett, also a charter member, will have a place of honor.

The participants will be only the oldest and the youngest members. The junior and intermediate boys and girls will sing "Living for Jesus" and the primary children will sing "Happy Birthday to You" while the big white birthday cake, mounted with 9 candles, L. brought in. Miss Josephine Dabney will play the offertory.

Mr. Eddins, whom all the older members of the Sunday school affectionately call "Uncle Ike" organization will preside at the piano, as she has done for so many years of the organization's history, and will play Mr. Eddins' favorite hymn, Mrs. Fanie M. Barrett, also a charter member, will have a place of honor.

The natural 'boom' that follows new oil discoveries got a lot of us floating on air casities. That is, we got it in our heads that the boom would never burst.

And even today most of us, instead of forgetting those abnormal conditions persist in measuring present conditions by them. Those jibes are gone. And, in the long run, we'll all be better off because they have passed.

Measuring conditions by the 'boom' period business is entirely illogical. The only logical method is to determine the actual conditions of today and work therefrom, forgetting the past.

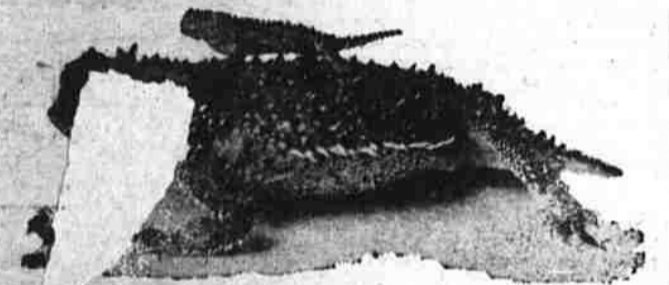

When people lose vision they perish. Without the few visionaries of the past in whose minds mirages loomed as fantastic to the average person that he looked upon the visionary as eccentric, impractical, sort of "off" balance some way or other we'd still be driving oxen and living in log huts.

The future is bright for this region simply because it is not only large, but the entire length and breadth of it is endowed by nature with resources far too great to be more than scratched by this generation.

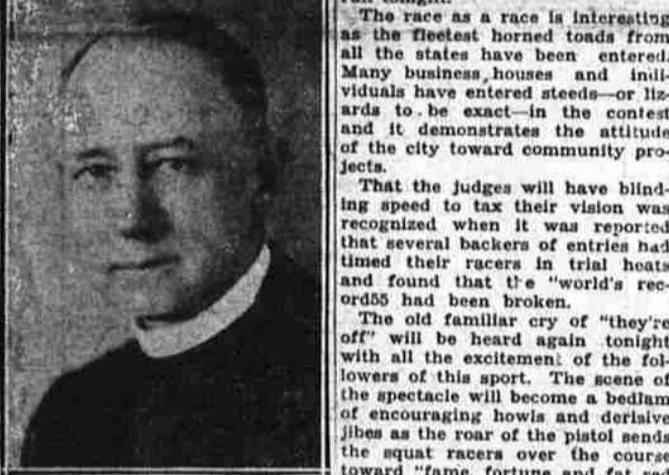

Even now the first real plans for commercial development of potash resources are being completed. In days to come West Texas will furnish the world with practically all of its potash—a necessary ingredient in the world's diet.

We've learned that at the very door of Big Spring one of the most pure deposits of lime exists.

Horned Frog Derby, Sponsored By Legion To Finance Drum and Bugle Corps, To Be Staged This Evening

CITIZEN OF BIG SPRING

The Rev. Mr. Martin, although he has lived in this city for only four years, is already the dean of local ministers from point of view of service. None of the others have been here for a parastate which even approaches his in length.

Mr. Martin has been engaged in church work for twenty-five years, serving on the finance committee as vestryman for twelve years. As lay reader he had charge of Stillwater, Oklahoma, church in the absence of a minister and after many experiences, he says that he finds church work the most interesting phase of his life.

Just before the birth of Mr. Martin, his father went to Fredonia, Kansas, where he was superintendent of the city schools.

William Henry Martin completed high school, State Teacher's College of Kansas and taught school. Shortly before his marriage to Miss Sara Wood, who came from Ohio, Mr. Martin entered mercantile life. Soon afterward he went to New York City and attended school and completed a course in Commercial Advertising.

Most everybody, it appears, is agreed by now that the change that must occur in the country before what we still are accustomed to calling "normal" conditions, is a return of confidence.

Confidence in ability of the nation to recuperate and recover. Confidence in the institutions that hold the country in a substantial condition—banks, industrial operations, agriculture.

Return of confidence alone can eliminate the hoarding of cash that reached a billion and a half dollars. Until such hoarding has been eliminated Old Man Business is going to have cold feet, clammy hands, a numb brain and dimming eyes.

When that huge sum of cash has been returned to circulation the old man will perk up, his step will quicken, his face glow, his chest expand, his eyesight return.

Another sort of confidence, however, is even more fundamentally valuable—confidence in the natural resources of our own section of the country.

In all generations a great portion of the people lacked the type of confidence, that is in the fullest sense, "Way back yonder they felt the country never would be anything except an open range for livestock. The first farmers were looked upon as fools for trying to raise crops out here.

But they did. But even after 40 years of farming the actual agricultural resources are far from exhausted. Millions of tillable acres have never felt a plow.

Oil was discovered. West Texas became one of the greatest oil producing regions on the globe. Refineries, pipe lines, supply houses—all the allied lines of business came out here. Railroads reaped rich rewards through discovery of petroleum under this big country of ours.

Sir Malcolm Campbell Breaks Own Record

Propelled faster than most airplanes can travel, the Bluebird, Sir Malcolm Campbell's famous speed car, is shown above on a run at Daytona Beach, Florida, when it set a new world speed record of 253.968 miles per hour. The former record, held by Campbell, was 245 miles per hour. The speed king, not satisfied, has announced he will try for a better record.

Old Man Bad Break Forces Backs Of Steers To Wall As They Enter Second Game of Bi-District Series

Old Mister Breaks, who has won a lot of championships in his day but who has lost twice as many, stood threatening the chances of the Big Spring High Steers to repeat their bi-district championship win of 1931 as George Brown's black and gold stalwarts made ready for the invasion of the Breckenridge Buckaroos in the second game of the series between the champions of Districts 8 and 9.

P.T.A. Offers Support For Relief Drive

C. L. Bryant of the executive committee representing the Legion Unemployment Relief Campaign addressed a meeting of the Parent-Teachers Association in Big Spring at the Settles Hotel at three o'clock Thursday afternoon.

Executive Committeemen For Legion Talks To Leaders

Mr. Charles Koberg, as president of the associations, assured Mr. Bryant that he would receive full co-operation of all members of the various associations.

Force Change In Tactics By Invading Army

Russia Demands Explanation of Japan's Plans To Use Railway

SHANGHAI (Saturday) (AP)—In a slashing counter-attack shortly after midnight the Chinese drove the enemy from the Miao-changchen sector and held on against machine gun fire.

General Tsai Ting Kai said their gains were slight but gratifying. Shortly before midnight the Japanese had pushed forward their lines near Kiangwan and claimed the village was surrounded, but the Kiangwan garrison held on stubbornly and the Japanese admitted they had slight hopes of dialoging them but thought it possible to starve them into surrendering.

Code messages from Japan said the government would soon have a full army corps here under command of General Shinkawa.

The Japanese have practically abandoned their hopes of driving a wedge and splitting the Chinese lines in half and are now relying on direct attacks.

MOSCOW (AP)—It was learned that L. M. Karakhan, foreign affairs commissar, Wednesday, formally demanded of Koki Hirota, Japanese ambassador, that he explain the proposal by the Japanese command in Manchuria to use the Chinese Eastern Railway, partly owned by Russia, to transport troops of the Japanese.

He charged that the real plan was to send Japanese troops to the Soviet border.

Simultaneously the Tsao New Agency reported that White Russians were being recruited in Northern Manchuria under Japanese auspices for invasion of Vladivostok and the Primorje province. It also reported that the Japanese planned to attack the Russian Trans-Baikal Province while the White Russians invaded Primorje.

Wells of Two Complainants Are Released

AUSTIN (AP)—Governor Sterling said that only the Constantin and Weather wells had been returned to railroad commission control as a result of a federal injunction and that martial law control remains for all others. He said Colonel Wolters informed him he really needed more troops but would do his best with those available. None are to be withdrawn.

TYLER (AP)—Filing of the federal court decree formally enjoined the martial law pronouncement of East Texas oil fields. It named Governor Sterling, Adjutant General W. Sterling, Brigadier General Jacob F. Wolters or anyone acting from them as defendants.

E. F. Smith, defense attorney, said he would start for Washington immediately to ask the supreme court to stay execution and to file an appeal. The defendants waived service of the writ, accepting a telephone notification.

The railroad commission at Austin yesterday resumed the responsibility of directing proration. The allowable was left, for the present, at 75 barrels per well daily. It will set a new allowable on March 15. Circuit Judge Joseph C. Hutcheson signed the decree for himself and Judges Randolph Bryant and W. I. Grubb.

The Weather

By U. S. Weather Bureau Big Spring, Texas Feb. 26, 1932

Time	Temp.	Wind	Clouds

Highest yesterday 70. Lowest last night 39. 7:00 A. M.

A high pressure area is over the southern Rocky mountain states and the pressure is relatively high over the entire country. The weather is generally fair and temperatures are unusually moderate for this season of the year. The only freezing temperatures this morning are extreme southern New England and the mountainous station of Colorado, Utah and Nevada. Precipitation during the last 24-hours was confined to the coast of Washington and Oregon where heavy rain and thunderstorms occurred and to light furries of snow along the lower St. Lawrence valley.

New Names In List Receiving Straw Votes

Eddie Cantor, Melvin Traylor, Calvin Coolidge Are Mentioned

Three new candidates were "mentioned" Friday in The Herald's straw vote for president—Melvin Traylor, Chicago, banker and former Texas; Calvin Coolidge, and Eddie Cantor, the writer-actor, radio star.

But John Garner of Uvalde, Texas, the Democratic speaker of the national house of representatives, continued to stand far and away ahead of the field.

Name	Votes
John Garner	43
Wm. H. Murray	3
Will Rogers	2
Owen D. Young	1
Herbert Hoover	1
Charles G. Dawes	1
Franklin D. Roosevelt	1
Melvin Traylor	1
Calvin Coolidge	1
Eddie Cantor	1

This poll is coming along nicely except for one thing—not enough discussion of the candidates in addition to merely casting the ballots.

Again, The Herald wishes the readers that latter discussing national affairs and the candidates mentioned for the presidential nominations are welcomed.

Use the ballot on this page, as mentioned therein, and mail to Straw Vote Editor, Big Spring Daily Herald.

There's Nothing New

COBBLER looking through the files of a New England newspaper not long ago, discovered that a man named Manton, resident of Rhode Island, invented an automobile as early as 1886.

But Mr. Manton was late with his invention, at that. In 1680 Isaac Newton made the first proposal for an automobile.

There really is nothing new under the sun, as the preacher said.

Paul Ryan of Midland was a visitor in Big Spring Wednesday.

Miss Jean Johnson, little daughter of Mr. and Mrs. T. E. Johnson, is better following an attack of appendicitis.

VITAMIN B IN BRAN.

RESEARCH REVEALS

Also Has "Bulk" to Further Assist Elimination, and Iron for Blood

One of the functions of Vitamin B is to help tone the intestinal tract, and promote elimination.

In addition, ALL-BRAN brings a plentiful supply of "bulk"—which provides the "ballast" needed to exercise the intestines.

This "bulk" in ALL-BRAN is similar to that of lettuce. Inside the body, it is different from the way you see it in the package.

Just eat two tablespoons daily—sufficient to overcome most types of constipation.

Women said— YOU'D LOSE THE SAME HOUSEHOLD SOAP FOR EVERYTHING... BUT the new Oxydol changed that.

BOY CRAZY

By GRACE PERKINS

SYNOPSIS: Intrigue fills the air when Hope Ross and her sister Goody both try to interest Charlie Rand. Hope is playing merely for the excitement, and to tease just sister who is interested in Goody. Goody lacks Hope's guile.

Chapter 4. DIPLOMATIC TRICKS. Charlie announced, his boyish words stammering and strained, his young eyes narrowed with an effort to appear strong and matter-of-factly.

"I'm so sorry, Charlie dear," she murmured. "Of course you must stay with your mother. We have to be big enough to face things in life, don't we? You know, my mother can't come to the party either."

"Why, Hope, that would be terrible." "I know," she nodded anxiously. "Everybody would be so disappointed. Goody says that she'll stay with Mother. But I hate to let her have so many more good times than Goody."

"Aren't you sweet, Hope? I never knew a sweeter, nicer, more unspoiled girl! Listen here, let Goody stay. If you stay you'll disappoint the whole crowd—and Goody is so much better at business than you. I mean—Charlie's manhood came to the fore—'

"That night Hope, in her magenta crepe pajamas, ambled into Goody's room and sat on the side of her bed for a friendly smoke.

"Oh, Goody, get it over with," growled Goody, as she bent over and picked up her book.

"There's nothing so beautiful," she said softly, "as a true friendship like that."

"My left foot!" grunted Hope, her blue eyes brightly fixed on the pale round face of her older sister.

"Charlie? Goody started forward. "What about Charlie?" "I'm jealous," Hope confessed earnestly. "I was awfully keen on Charlie, you know that, Goody. And now he isn't coming on my Placid party."

"Oh!" The exclamation was nothing short of a groan from Goody's lips.

Mission Services In Wander Inn

Mission services, started in January at Wander Inn by members of the Missionary Baptist church, which worships on Gelland street, are proving of much spiritual benefit not only to those who conduct the services but have resulted in a number of conversions. Rev. H. C. Goodman leads in this work. The first month of services, held from 9 to 10 o'clock each evening, ended February 23. At this service four men were converted and one restored. They were Jack Walker of Denver, Colo., Frank Leaton of Odessa, J. H. Riley of Killeen, J. F. Perry of Childress, and Charles Ferguson of Cleveland, Ohio. Last Sunday evening members of the church carried sandwiches and a cake to the men. Those participating in the food offering were Mrs. Inez Wright, Mrs. W. W. Hill, Mrs. A. H. Buggs, George O'Brien, Arrott Nance, and Rev. Goodman. One conversion resulted from this service.

Cabin Heaters Help Winter Patronage Of Mail-Passenger Line

Efficient cabin heaters are believed responsible for the steady increase in winter passenger traffic that has been experienced by American Airways over its flights of last year, according to Jesse Maxwell, local traffic representative of the airways company. In the month of January the passenger traffic over American Air-

DR. W. B. HARDY DENTIST 403 Petroleum Bldg. PHONE 366

WOODWARD and COFFEE Attorneys-at-Law General Practice In All Courts FISHER BUILDING Phone 561

ways lines was about double that of the preceding year, and the mileage flown by the planes was increased about 36 per cent. Eliminating the necessity for extra clothing for winter plane travel by providing the same degree of comfort in a cabin plane as in an office building has resulted in patronage by those who in previous years had not dared the rigors of winter in the skies.

Several types of heaters are in use on American Airways planes, the type depending on the plane and the territory in which it is used. Air from outside the plane is drawn across the heaters on its way to the cabin and mixed in proportions chosen by the passengers with unheated outside air to give the temperature desired.

Mrs. Mary Bumpass Placed On Program Of Teachers' Meet

Mrs. Mary Bumpass of the Big Spring high school faculty will be in charge of the history division session at the spring meeting of the Oil Belt Educational association, to be held in Sweetwater March 11 and 12. J. F. Bailey, high school principal at Breckenridge, is head of the organization. Arrangements for the convention are in charge of Supt. B. H. McLain of Sweetwater, a vice-president. The program recently was announced by O. G. Lanier of Ranger, secretary.

Financial Notes

Chrysler Earnings DETROIT. Directors of the Chrysler Corporation, meeting in New York, declared a dividend of 25 cents a share, payable March 31 to stockholders of record of March 1. The balance sheet and report to stockholders shows net earnings for the year ending December 31 of \$1,468,935.06, or more than six times the 1930 net of \$234,164.97. This is at the rate of 33 cents a share for 1931, compared with 5 cents in 1930. In his letter to stockholders W.

P. Chrysler pointed out that these results had been accomplished notwithstanding the continuance during 1931 of adverse business conditions, more pronounced even than in 1930.

In this letter he said, in part: "In 1931 not only were more Chrysler Corporation cars sold at retail than in the preceding year, but the Corporation increased its profit on a smaller dollar volume in business, and also improved its relative position in the industry to a very substantial degree. Sale of the Corporation's cars at retail in 1931 constituted 16.6 per cent of all such sales by members of the National Automobile Chamber of Commerce, as compared with 14.3 per cent in 1930. The total number of automobiles of all makes sold at retail in the United States in 1931 was 27.3 per cent less than in 1930. Chrysler Corporation produced 101 per cent of its 1930 output as against the industry's production of 70.4 per cent of 1930 output.

"A non-recurring charge of \$642,945.88, has also been made against income to reflect the lower foreign exchange rates prevailing as of December 31, 1931. As in previous years and in accordance with the Corporation's consistent practice, all expenses incident to the creation of new models were charged against current operations.

"Cash and marketable securities amounted to \$50,232,535.89 at the close of the year, an increase for the year of \$8,588,433.64, while current liabilities amounted to \$11,327,092.22, practically the same as at the end of 1930.

"Marketable securities are all short term notes or bankers' acceptances, with one minor exception of approximately \$100,000, and mature with the year 1932. While their indicated market value as of December 31, 1931, was less than cost by \$108,561.52, largely occasioned by quoted prices of short term U. S. Treasury certificates, this indicated loss will disappear during the year as these holdings are retired. Cash accounts do not include deposits in closed banks, which are not carried as current assets and for which adequate provisions have been made against anticipated loss.

The gross amount of the Corporation's deposits in closed banks was \$237,454.95, of which \$37,454.11 has already been collected.

"Net current assets as of December 31, 1931, were \$64,992,413.83, an increase of \$2,419,151.91 over net current assets at the close of the preceding year. This increase, occurring in a year in which the Corporation purchased \$3,171,500 of Dodge Brothers debentures, in which dividend disbursements exceeded net income, is striking evidence of the soundness and conservatism of the financial and accounting policies which have been followed since the Corporation was established."

Kelly-Springfield Tire company reports operating profit for the year ending December 31 of \$1,002,334, before deductions, an increase in dealer sales of 4.22 per cent as against a decrease of .68 per cent for the industry as a whole, elimination of all bank loans and savings in operating expenses for the past nine months of the year of substantial more than \$1,000,000.

Current ratio of assets to liabilities is thirty to one, according to W. R. Lalley, president. A reserve of \$24,128 is set up to cover possible price fluctuations in crude rubber during 1932. This reserve, added to such deductions as year-end inventory adjustments, foreign exchange losses and depreciation total \$1,470,688, resulting in a net loss for the year of \$468,334, as compared with a net loss of \$3,796,034 for 1930. Mr. Lalley said he did not believe the reserve to cover price fluctuations would be needed.

Couples who wish to be married by the Rev. L. H. C. Hopkins, vicar of St. Albans the Martyr, South Norwood, England, must answer a questionnaire arranged by the clergyman. Accompanying the questions are particulars of the marriages, which must be signed before the ceremony. The vicar has just added two questions. One is "Are you

baptized?" The other, which has caused much discussion, reads: "Do you understand that marriage is indissoluble?" In explanation Mr. Hopkins said: "The question demonstrates the Church's attitude that the marriage about to be solemnized is indissoluble, and if people do not wish to obey the church's rule then they can get married at a register office."

The island of Formosa is estimated to have more than 4,000,000 camphor trees, some being more than 1,000 years old.

increase of \$2,419,151.91 over net current assets at the close of the preceding year. This increase, occurring in a year in which the Corporation purchased \$3,171,500 of Dodge Brothers debentures, in which dividend disbursements exceeded net income, is striking evidence of the soundness and conservatism of the financial and accounting policies which have been followed since the Corporation was established."

Kelly-Springfield Tire company reports operating profit for the year ending December 31 of \$1,002,334, before deductions, an increase in dealer sales of 4.22 per cent as against a decrease of .68 per cent for the industry as a whole, elimination of all bank loans and savings in operating expenses for the past nine months of the year of substantial more than \$1,000,000.

Current ratio of assets to liabilities is thirty to one, according to W. R. Lalley, president. A reserve of \$24,128 is set up to cover possible price fluctuations in crude rubber during 1932. This reserve, added to such deductions as year-end inventory adjustments, foreign exchange losses and depreciation total \$1,470,688, resulting in a net loss for the year of \$468,334, as compared with a net loss of \$3,796,034 for 1930. Mr. Lalley said he did not believe the reserve to cover price fluctuations would be needed.

Couples who wish to be married by the Rev. L. H. C. Hopkins, vicar of St. Albans the Martyr, South Norwood, England, must answer a questionnaire arranged by the clergyman. Accompanying the questions are particulars of the marriages, which must be signed before the ceremony. The vicar has just added two questions. One is "Are you

McCamey Wins From Angelo

Badgers Make It Two Straight In Playoff Series

SAN ANGELO—The McCamey Badgers took basketball honors for Districts 17 and 18 by defeating the San Angelo Elgin Bobcats 24 to 23 in an exciting game here Thursday night.

The Bobcats lead at the half 12 to 9, but could not stand off the fighting Badgers in the final period as Carl and Barnett took off scoring honors. McCamey and won the first game of the playoff series 23 to 13.

DON BROWN ACQUITTED

Donald Brown of Big Spring and Midland was acquitted by a jury at Midland Thursday afternoon following a trial on a charge of robbery with firearms. He was charged in connection with an alleged hold-up some months ago.

Citizen

(Continued from Page One)

work during the World war. On leaving Stillwater, Mr. Martin was made a life member of that lodge. He is a Royal Arch Mason and a member of the Scottish Rite 180.

Mr. and Mrs. Martin have one son, Wayne Martin, who received his A.B. degree in bacteriology from the University of Oklahoma last spring.

In the short term of his service here, Mr. Martin has received many honors. During the general convention of the Episcopal church at Denver, last fall, he was asked by the "Living Church," the official national magazine of the church, to report the meetings. He is the regular reporter for that magazine for this district. He is also the district secretary, an office that ranks next to the Bishop.

Writing would be a hobby of his if he had time for it. He likes quaint folklore and some years he wrote about the vagaries of West Texas winds were included in a volume called "Folksay," put out by the University of Oklahoma. Scribner's magazine liked these so well that the editor asked him for an article along this line, which he has not yet had time to write.

ABILENE

Taylor county tax collections are \$28,000 more than at the beginning of 1931 and an increase of \$75,000 is expected by June 30.

Horned Toad

(Continued from Page One)

ten Red and White stores in Big Spring and they will cheerfully refund your money if you can buy better food for the same price elsewhere.

No-D-Lay
No-D-Lay Cleaners at 207 1-2 Main are giving their toad's clothes the cleaning and pressing that will make them look like a million derby night. The lady toads had better watch out or they will fall by the wayside looking at this sheik. You can't flirt and race, too, Harvey Clay, who is training "No-D-Lay" says there is no use of buying this entry new clothes for the derby for he can clean the old ones so that they look that way.

Public Weigher No. 1
J. F. Ory is training "Public Weigher No. 1" for the big derby. "Public Weigher" has been trained to a shadow and is accurate to the nth degree. When the barrier is lifted he'll be out from under it so fast that you won't be much more than able to see him. Mr. Ory has had "Public Weigher" racing right along with himself in Precinct No. 1 and both will run a good race.

Kelly Tires
"The Place of Almost Perfect Service" which happens to be Phillips Super-Service Station at 424 East 3rd street is backing "Kelly Tires." The Shroyer Brothers are training him and when interviewed they had just completed an over-

Home Town

(CONTINUED FROM PAGE 1)

years from now those of us who are still here will rub our eyes and pinch ourselves, trying to make ourselves believe that this is the West Texas of 1932.

This is from the Rotary Magazine:
He Lost a Castle to Gain a Home
A timely message commemorating the twenty-seventh anniversary of Rotary International, from its Founder and President Emeritus.

By Paul P. Harris
The sailing of a boat in fair weather is not the best test of seamanship; the maintenance of good cheer when everything is coming one's way is not the best test of disposition; the pursuit of an enemy who is on the run, is not the best test of courage.

Napoleon took slight interest in easy conquests. To turn defeat into victory was the height of his ambition, and the ability to accomplish his purpose was what made him Napoleon. He possessed in superlative degree that something which we call courage. He knew no fear. Courage works miracles, fear produces paralysis.

What marks the difference between yesterday and today? Yesterday was the day of miracles, today the day of paralysis; yesterday the day of indomitable, irrational courage, today the day of persistent and equally irrational fear.

More Wealth
The economists tell us that there is more real wealth today than ever before. Postal and savings bank accumulations account for some of it, stocking and tea kettle hoardings, also for an appreciable part.

Over-production is more imaginary than real. Where are there one whose wants are satisfied? He who has a small automobile wants a large one; he who has a 1931 model wants one of 1932. As human desires are gratified they multiply. If the rate of satisfaction increases by arithmetical progression, the rate of desires increases by geometrical progression. The more one has the more one wants. He who has the least is frequently most nearly satisfied.

The orgy of 1929 might have been continued ad infinitum so far as man's wants are concerned, but where's the use? If human happiness is the highest objective, it was time to turn the switch; that was turned, and the thing that was turned it was mankind's hereditary enemy, fear—paralyzing, irrational fear.

There are things even worse for the average man than economic paralysis. The habit of worshipping mere things, is one of them. The pity of it is to be found in the fact that the brunt of misfortune has to be suffered by innocent bystanders, the wives and children.

To Good Account
When the disease will have run its course, I do not know. I am not an economist. What I do know is that it is possible for you and for me to turn the whole business to good account. If we will to do as Napoleon was wont to do, turn defeat into victory. I know men who are doing that very thing. They are not those who were least hit in 1929; they are those who were worse hit. One was put out of business entirely, the result of frozen assets.

I knew this man but slightly. I know him better now. In days of so-called prosperity, he lived within himself and his business. Neither wife, son, nor daughter was permitted to enter his sanctum sanctorum. His house was his castle in very truth. Had he lived in feudal days, he would have surrounded his castle with a moat. The drawbridge would have been up and the portcullis down. None could have gained admittance, except in the sacred name of business.

The crash came, and down with it, his castle. His business partner took his own life; not so, he; in his veins was the blood of a Napoleon. He took inventory of his frozen assets. With most of them there was nothing to do but

You can depend on a Liggett & Myers product

Granger is made for pipes..and it's in more and more pipes every day. Just try it!

Packed in a handy pocket pouch of heavy foil. Keeps the tobacco better and makes the price lower. Hence 10c

Ice Refrigeration

Ben Cole is training "Ice Refrigeration" for the Southern Ice and Utilities Co. "Ice Refrigeration" is perhaps not the latest way but it is the most dependable as a block of ice just simply can't get out of order. "Ice Refrigeration" is a real and true old racer and those who really know prefer him. He's crystal clear and just as pure. Place your bets on "Ice Refrigeration." Lots of cold cash is there.

Peace Without Justice

Cecil C. Collings who says his address is Law West of Pecos has entered "Peace Without Justice" in the race. "Peace Without Justice" will be in the race to see that there is no underhand work going on and that every entrant gets his due. This racer is a real peace-maker and many are the arguments he has settled after the race is over, especially when someone has won by a horn. Mr. Collings says that "Peace Without Justice" has never been known to make a mistake and if he judges the winner there won't be any arguments.

Clean Up for the Dance
"Clean Up for the Dance" simply can't stand to have any dirt around him and whenever anything the least bit dirty comes into the shop of the Modern Cleaners, 303 E. 3rd street he immediately sets to work on it and when he has finished there isn't a spot to be found on it anywhere. Mr. Bumam, his trainer, intends to wear a slightly spotted suit to the dance and then stand just outside the finish line. He is confident that when "Clean Up for the Dance" sees him he will be so angry that he will make the course in record time to get at the dirty suit.

49th

(Continued from Page One)

escape baptism in chilly waters.

Present Staff
The present officers and teachers of the Sunday School, which has increased itself many 100 per cent in the 49 years, will participate in the celebration. Mrs. Eubank is superintendent; Mrs. Charles Dunn, assistant; Miss Elizabeth Owen, junior superintendent; Walter Bell, treasurer and Miss Georgia Owen, secretary.

The teachers are: B. Roagan, Bible Class; Mrs. Geo. W. Dabney, Women's Class; Geo. W. Dabney, Men's Class; Mrs. F. M. Purser, Bluebonnets (young women); George Wilke, Young People's Class; Mrs. J. R. Creath, senior boys; Miss Stella Schubert, senior girls; Mrs. Roy Carter, intermediate girls; Miss Mildred Creath, junior boys; Mrs. Charles Dunn, junior girls; Miss Lillian Schubert, junior boys; Miss L. M. Brooks, W. B. Martin and Louis Owen, primary department; Mmes. J. Y. Blount, beginners; and Mrs. Jim Cawthron, cradle roll.

Mrs. Eubank asks that any member of the Sunday School who does not have means of transportation get in touch with her and she will see that a car is provided for.

YOUTH WOUNDED

BOGALUSA, La. (AP)—Bogalusa officers, pursuing in an automobile, seriously wounded one of two youths believed to be men robbing the Bank of Lumberton at Lumberton, Mississippi, today. The other fled into the swamp near Piquayune, Mississippi. The robbers had kidnaped and then released three men, and were in flight.

H. W. Leeper And Mrs. H. B. Reagan Employed By City

H. W. Leeper, long-time resident, will become inspector for enforcement of sanitary regulations and Mrs. H. B. Reagan will be in charge of the office and laboratory for the city of Big Spring beginning March 1. City Manager E. V. Spence announced Friday.

They will perform the duties heretofore attended to by J. M. Williams, who tendered his resignation to the city commission Tuesday night.

Mr. Leeper is well-known to people of the city and to those with whom he will work to a great extent in his new position.

Mrs. Reagan, who majored in chemistry and biology at Baylor university, is unusually well prepared to handle the laboratory in which tests of milk and other food products as well as water supply are made. She was for two years a laboratory technician in the Harris hospital at Fort Worth and for 18 months was in the large laboratory of the Alta Vista creamery there.

The city obtained the services of both Mr. Leeper and Mrs. Reagan without greater expense than heretofore been necessary for maintaining the department.

A. C. C. Board Names Morris Vice-President

ABILENE—Trustees of Abilene Christian college in final session of their annual meeting last night created a new administrative office that of vice presidency—and elected Don Morris to the position.

J. S. Aldredge was re-elected board chairman; J. B. McGinty of Terrell and E. L. Crawford were named vice chairmen, and W. H. Free, secretary-treasurer of the college since its founding was retained in that position.

As vice president, Mr. Morris, a member of the faculty for four years, will have charge of business affairs of the school and will direct financial campaigns as outlined by the board of trustees.

Mr. Morris, scarcely more than 30 years of age, is professor of public speaking at A.C.C., his alma mater. After his graduation there a few years ago, he attended Texas university, where he received the M.A. degree. Before coming to Abilene he attended Thorpe Springs Junior college and taught school. He also taught public speaking in Abilene high school.

James F. Cox, president-elect of the college, will retain the duties of dean temporarily, Mr. Arledge said. Mr. Cox is to become president in June, succeeding Batsell Baxter, who has accepted the presidency of David Lipscomb college, Nashville, Tenn.

Former Banker Given 3-Year Suspended Term

HOUSTON, (UP)—G. G. Nettles, 35, former vice president and cashier of the First National Bank at Livingston, pleaded guilty to embezzling \$13,725 from the institution before Federal Judge T. M. Kennerly and was given a three year sentence suspended five years.

Nettles was given the suspended sentence on the condition he quit gambling and playing the stock market and make restitution of the money. He told the court he already had returned \$8,700 of the sum to the bank.

Edison Will Dispute Settlement Effected

WILMINGTON, Del.—William A. Edison, a son of the late Thomas A. Edison, announced today a settlement had been reached in the suit he had filed contesting a portion of his father's will.

Edison said the settlement was satisfactory. Edison announced last October, shortly after the death of his famous father, that he would contest certain provisions of the will relating to the distribution and handling of the amount left to him. He had declared the provision was "unfair."

Political Announcements

The Big Spring Herald will make the following charges to candidates payable cash in advance.

District Offices \$22.50
County Offices 12.50
Precinct Offices 5.00

This price includes insertion in the Big Spring Herald (Weekly).

A series of earthquakes in the early morning hours left scenes like this in the Caribbean seaport of Santiago, Cuba. Although the death toll was light, hundreds were injured and few buildings in the city escaped unharmed. Damage was estimated at \$10,000,000.

Oven Baked Bean Sandwiches Are Ideal for Winter Lunches

By JOSEPHINE GIBSON

Hot baked bean sandwiches, or sandwiches of baked beans in combination with other foods, form a substantial, appetizing main dish for winter lunches. These may be of the hot type if the family lunches at home or may be used in sandwiches which offer interesting variety for the packed lunch. If the idea seems a bit unusual, look carefully at the recipes below and you readily will understand why baked bean sandwiches deserve the prominent place they are receiving in outstanding tea rooms the country over. Such sandwiches not only are delightful in appearance and flavor, but are nutritious, for baked beans are a valuable source of calcium and iron as well as an excellent protein food.

Baked Bean Sandwich—5 slices bread; butter; 1 medium can oven baked beans (Boston style); 1-2 teaspoon salt; 4 preserved sweet gherkins, chopped; 8 stuffed Spanish olives, chopped; Mayonnaise salad dressing. Drain baked beans and press-through a sieve or mash until entirely free from lumps. Add salt, sweet gherkins and olives. Add just enough Mayonnaise salad dressing to make a smooth filling and spread between buttered slices of Boston brown bread or whole wheat bread.

Salted Sandwich—3 slices whole wheat bread for each sandwich; 1 small can oven baked beans (Vegetarian style); 2 tablespoons tomato Ketchup or chili sauce; 2 to 3 spoons minced onion; 1-4 teaspoon salt; 1 large pepper, chopped; lettuce of bacon. Place under low broiler flame 5 minutes or until cheese is melted and bacon crisp. Serve hot garnished with Chow Chow pickle. Serves six.

Baked Bean, Bacon and Olive Sandwich—3 slices toast for each sandwich to be made; 1-4 pound bacon, sliced thin; 1 small bottle stuffed Spanish olives, sliced; 1 (with pork and tomato sauce). Fry bacon until crisp and brown. Add sliced olives and allow to heat in the fat. Heat baked beans according to directions on label of package.

Fresh load of fruits and vegetables from the valley at low prices

As the accuracy of the hour-glass depends upon an even, continuous flow ...

a little at a time

... so the uniform flavor of Hills Bros. Coffee is produced by Controlled Roasting—the patented process that roasts evenly, continuously ... "a little at a time."

HILLS BROS CHANGED COFFEE-ROASTING FROM A GUESSING-GAME TO A SCIENCE

Controlled Roasting—Hills Bros' patented process—roasts small amounts, continuously, under automatic control

Exact roast assured for every pound ... delightful flavor never changes

Hills Bros. developed a new way to roast coffee, because in ordinary, bulk-roasting methods the roast is governed by a man's guess. And men make mistakes. One batch may be underdone; another overdone. Flavor-variations naturally result.

Hills Bros.' patented Controlled Roasting process always makes a perfect roast! Instead of big batches, Hills Bros. roast a little at a time ... without guesswork! Small quantities of coffee pass evenly, continuously through the roasters.

Every pound is done to the exact degree that develops the most enjoyable flavor.

Hills Bros. Coffee can't go stale! The vacuum process of packing coffee is the only method that fully preserves coffee freshness—the air is removed from the can and kept out. It was originated by Hills Bros. over thirty years ago. There is no magic about a vacuum can—it will not make poor coffee good, but it will keep good coffee fresh.

Order Hills Bros. Coffee by name, and look for the Arab trade-mark on the can.

Potash Test To Start Soon Near Midland

Jones Ranch Deposits Estimated At 57 Million Tons

AMARILLO—The Amarillo Daily News will say in its morning edition that the Texas Potash corporation will begin sinking a shaft for the mining of potash on the Jones ranch near Midland "not later than May 1."

The story will quote O. P. Jones, Amarillo cattleman, as saying that 23,500 acres of his ranch is a proven potash field, and that University of Texas geologists have estimated the deposit to be in excess of 57,000,000 tons. The deposit was discovered while an oil test was being sunk, he said.

Jones said his royalty had been estimated at \$25,000,000. He acquired the land in 1908, paying \$2,500 an acre for the school land and \$5 an acre for railroad land.

Injunction Bill Argued

Rhode Island Holds Measure Probably Unconstitutional

WASHINGTON (UP)—The Morris bill to curb injunctions in labor disputes was criticized as probably unconstitutional by Senator Hebert, R., R. I., today.

Hebert, saying he approved the spirit of the bill, offered a series of amendments designed to fortify its constitutionality. These amendments previously were defeated in committee sessions.

The supreme court, Hebert contended, has already upheld the "yellow dog contract," which the bill would abolish. In three cases, the court decided "there is no legislative power, state or federal, to inhibit or outlaw employment contracts providing against union membership," he said. He proposed, therefore, that the bill specify only that such a contract should not be considered by the federal courts as a basis for injunctions.

Hebert also charged that the injunction features of the Norris bill would "lead to the conclusion that an employe may continue in the relation of employment, hold his job and yet refuse to work." He proposed that the language of this section be changed to read that "no injunction shall be issued upon the ground that an employe has ceased or refused to remain in any relation of employment."

Local Violinist To Broadcast Over WBAP Tonight

Miss Virginia Peden, teacher of violin in Big Spring, will broadcast tonight from the studio of WBAP on the program given by the Colorado Boosters. J. H. Greene will be master of ceremonies. The program follows:

Frasquita (Kreisler), violin solo, Virginia Peden.
Chant from Bandana Sketches, violin solo, Virginia Peden.
Tranquility, trumpet duet, Roy Hester and Charles Edward Root.
End of a Perfect Day, trumpet duet, Roy Hester and Charles Edward Root.
When It's Sleepy Time Down South, vocal trio, Mrs. Bill Martin, Alice Skerritt and Virginia Peden.
Parade of Wooden Soldiers, vocal trio.
Vocal solo, Dr. C. L. Root; Mrs. B. L. Wolfjen, accompanist.
Dainty Miss, piano solo, Alice Skerritt.
Lazy River, accordion solo, Alice Skerritt.
St. Louis Blues, accordion solo, Alice Skerritt.

Bruening Aims Toward Abolition Of Reparations

BERLIN (UP)—Chancellor Heinrich Bruening faced a disorderly, shouting Reichstag and implicitly reaffirmed the government's intention of aiming at complete abolition of reparations.

Bruening told the Reichstag that Germany, which had urged an earlier meeting of the reparations conference, declines responsibility of delaying the Lausanne meeting until June, adding that a solution of reparations is essential to further economic understandings toward eliminating world wide unemployment.

Isolated heckling during his discussion of foreign affairs turned into restlessness and shouting when he took up domestic matters. Facing the Hitlerites, he shouted: "Don't dare associate me with the German revolution. I was the leader of picked troops assigned to suppress the revolution when one of your leaders was undecided which country to choose as a fatherland."

Presumably he referred to Alfred Rosenberg, one of Hitler's supporters.

Dr. J. Richard Spann, pastor of the First Methodist church, is teaching a class in Sweetwater this week in the Teacher's Training School.

W. H. Merrick of Fort Worth, merchandising manager of the Texas Electric Service company, was a visitor in Big Spring Wednesday.

Here's A Polly Who Always Gets Her Man

Here's a recommendation to Jess Slaughter for a deputy sheriff—a bird who gets her thief.

This particular bird is a green, vicious-dispositioned, one-man parrot, the property of Judge and Mrs. C. P. Rogers, of the Douglass Hotel, but the special pet of Mrs. Rogers. She is not a bird for thieves to fool with; unless they want free board and room in the penitentiary.

This incident took place in Ft. Worth. The Rogers were living in a hotel there. One night, in the wee small hours, the door to their room was opened softly by an uninvited guest. The Rogers were sound asleep and Polly apparently was but Polly has one ingratiating habit—that of welcoming every visitor with "hello."

So Polly, hearing the door penetrated, greeted the visitor with "hello." That woke Mrs. Rogers. In the darkness she saw nothing. The door moved again and Polly shouted "hello" the second time. Then Mrs. Rogers woke Judge Rogers, who reached for the telephone at the bedside and called the office downstairs, informing them that someone was trying to break in. The owner was on duty and he hastened up and cornered the intruder in the hallway. The man was later sent to the state penitentiary.

Polly is still on guard.

Ruth Class Has Original Party

The members of the Ruth Class of the First Baptist Church assembled at the home of Mrs. M. M. Mancill in Washington Place Thursday afternoon for a social and business session. Assisting the hostess were Meses. Harry Ditz, S. C. Tate, and Miss Irma Lee Gary.

Announcements were made of the coming visitation week of the church which will be next week. Committees will be announced Sunday. Mrs. Horace Reagan, president of the class, had charge of this session.

Mrs. Clarence Hahn was social chairman and had prepared a very instructive program on the life of George Washington. Mrs. J. A. Coffey read a paper regarding Washington's home life, after which a series of pictures illustrating incidents in his life were used in a memory test. Mrs. Reagan told the members of her visit to Mt. Vernon. Mrs. Homer Wright talked on "Washington as a Christian."

After a clever contest in various outlining historical and national events relating to the name of Washington, the guests were served a delicious fruit salad course.

Mrs. King, of Abilene, who is visiting Mrs. Tate, was an out-of-town guest of the class.

The members attending were Meses. B. Reagan, teacher, J. V. Bush, Horace Reagan, J. A. Coffey, Vernon Mason, Homer Wright, P. W. Malone, Tom Cantrel, H. C. Ditz, Clarence Hahn, S. C. Tate and Miss Irma Lee Gary.

Mrs. G. R. Porter returned from Waxahachie Thursday night, having been called there by the illness of her mother.

"I like a Fair Fighter"

THAT'S one of the things I like most about Chesterfields...the attitude of the people who make them. They positively lean over backwards to be fair and square.

"I've been watching their advertisements for years. And do you know the thing that struck me most forcibly? They're so reasonable! Just a plain straightforward statement of facts. No wild claims... Nothing that's hard to believe!

"I wouldn't want to be a competitor of Chesterfield! They make too good a cigarette! I really believe they're the mildest I ever tasted.

"I can smoke Chesterfields any hour of the day or night...They're so mild, I don't even bother to keep track of how many I've smoked. They must be purer, too... they certainly taste better to me!"

"Music that Satisfies." Hear Nat Shilkret's 35-piece orchestra and Alex Gray, soloist, every night except Sunday—entire Columbia Network—10:30 Eastern Standard Time.

THEY'RE Milder • • • THEY'RE PURE • • • THEY TASTE BETTER
