

Voters Across Nation Make 'Choice' at Polls Today

By RAYMOND LAHR
WASHINGTON (UPI) — Seventy million Americans vote today in a presidential election which will set the nation's course for the next four years and perhaps for decades.

Published nationwide polls and pre-election surveys nearly all indicated a runaway victory for Johnson, although there were enough political unknowns at work to keep Republican hopes alive.

Johnson, Goldwater and their running mates, Sen. Hubert H. Humphrey and Rep. William E. Miller, respectively, returned to their home territory Monday night to join neighbors in voting booths today and then to await the decision.

Goldwater made a more informal television appearance with his family at his Phoenix, Ariz., home. But he, too, concluded with some quiet campaign oratory, saying that the Constitution and the free enterprise system were being whittled away through constant attack.

75,000 persons in Houston and 50,000 in Austin. Goldwater flew from Phoenix to San Francisco, where the biggest street crowd of his campaign — an estimated 100,000 to 200,000 — watched his motorcade in the walled district. He also spoke at the Civic Auditorium, delivering the speech with which he opened his campaign two months ago to show that he viewed the issues as unchanged.

of Lockport, N.Y. Strong Except South Outside the South, Johnson was expected to run ahead of the Democratic ticket in most of the country and Goldwater behind the Republican ticket.

scared against Democrat Genevieve Blatt. Gubernatorial contests drawing national attention were in Michigan, where Republican Gov. George Romney is seeking reelection against Rep. Neil Sjaebur, and in Illinois, where Democratic Gov. Otto Kerner was challenged by Republican Charles H. Percy.

Ralph and Bush Run Dead Heat

DALLAS (UPI) — Sen. Ralph Yarborough and the Republican challenger for his seat, Houston oilman George Bush, came down to the wire today virtually in a dead heat — with their eyes on the presidential campaign.

Gunmen Kidnap State Treasurer In Robbery Try

CHEYENNE, Wyo. (UPI) — Two armed men wearing Halloween masks kidnaped Wyoming's state treasurer from his home late Monday, ordered him into his state-owned car and then attempted to force him to open the state safe in his office.

(Daily News Staff Photo)

ELECTION DAY; PAMPA — Voters were turning out in heavy numbers at Gray County's 13 precincts this morning in what may be a record vote. A total of 10,544 persons were eligible to vote in today's election, the highest number ever qualified in Gray County. Absentee balloting also set a record high with 1,019 cast, compared to 702 in the 1960 election. This picture was snapped at mid-morning at precinct 10 at Gray County Court House.

Most observers thought that if enough Texans vote for President Johnson, a high enough percentage will stick with fellow Democrat Yarborough to send him back to Washington for a second term.

In any case, the results will be close. Nobody expects a sizeable margin on either side. Yarborough was given a slight edge because he is the incumbent and is running beside Johnson, who was seen as the victor in Texas.

But basically it was still a tossup when the polls opened. Both Yarborough and Bush campaigned hard, though their styles are different. Yarborough, who ran into trouble getting financial backing, crisscrossed the state.

He pushed hard on his native grounds in East Texas and spoke to many small groups. Bush had an easier time lining up financial support, and plastered the state with billboards, newspaper ads and bought up television time.

Yarborough claimed that Bush was "trying to buy his way into the Senate." Carpetbag issue Yarborough hammered away at the fact that Bush was born in Connecticut, and Bush's father was a senator from Connecticut, calling the "carpet-bagger" issue.

Bush answered that he had been in Texas for 16 years, that many of the heroes of the Alamo weren't born in Texas either, and pointed to Democrats Bobby Kennedy, running in New York and Pierre Salinger in California.

Record Looms in New Figures Given in Viet Sneak Raid

SAIGON, Viet Nam (UPI) — The U.S. Command in South Viet Nam today issued new figures on wounded in the raid on the Bien Hoa Airbase, disclosing that the toll was the highest for Americans in any single incident of the Viet Nam war.

The revised figures raised the total of wounded to 72, from the 31 originally announced Sunday after the raid on the base. In addition four Americans were killed, making the overall casualty count 76.

The additional casualties were servicemen who received minor wounds. These had not been reported previously because the men went back on duty or to their barracks after receiving first aid, officials said.

A spokesman said the additional wounded were turned up in a unit-by-unit survey of the air base. The new casualty toll was the highest for Americans in any single engagement of the Viet Nam war. The previous high was 52 last February, when three Americans were killed and 49 wounded by a terrorist bomb.

Originally, it was announced that four Americans and two Vietnamese were killed in the Bien Hoa attack Sunday, with 31 wounded. Of the wounded, one was in critical condition, two were listed as seriously injured, and 15 others remained hospitalized. The others were listed as having minor wounds.

\$100,000 Blaze In East Texas Hits Country Club

NACOGDOCHES, Tex. (UPI) — A \$100,000 fire destroyed the Piney Woods Country Club 5 miles south of Nacogdoches Monday night.

The fire started shortly after 9 p.m. and was brought under control two hours later. A director of the club said that the building had been remodeled earlier this year at a cost of \$20,000.

The club's directors said they planned to replace the building with an entirely new structure. The club was closed to members Monday. The only persons at the site were workmen repairing the roof.

Hearing Starts For Eidenoff

RUSK, Tex. (UPI) — Another sanity hearing was scheduled to begin today for Dr. Harold Eidenoff, who killed an attorney he said exhibited pictures of himself and his wife in the nude.

Eidenoff was found insane in 1959 and was given a sanity hearing here in December, 1962. A jury of three men and three women decided they could not agree on whether he was insane. A mistrial was declared.

U.S. Dist. Judge Joe W. Sheehy later ruled he must remain confined. Under Texas law, Eidenoff may ask for a sanity hearing every two years. Ted Anders was killed at the El Paso airport on New Year's Day in 1960.

1964 Traffic Count Injuries—107 Accidents—505 Deaths—1

BOLIVIAN ARMY AND AIR FORCE GROUPS REBEL

Election Sought By Faction

By BETSY ZAVALIA
LA PAZ, Bolivia (UPI) — Army and Air Force units rebelled against the government today under the leadership of Vice President Rene Barrientos, former air force chief of staff.

Radio Nacional at Cochabamba said Barrientos had called on President Victor Paz Estenssoro to resign to avoid bloodshed.

The radio report said the rebels controlled the army in the cities of Santa Cruz, Cochabamba, Sucre, Potosi and other cities.

Radio Nacional said the aim of the outbreak was to force Paz out of office so a military junta could take over and hold free general elections.

In La Paz, the rebellion appeared confined to units of the Ingavi Regiment. Loyal troops and police sought to isolate the dissidents in the Miraflores and Calacoto suburbs. They blocked off all access to the presidential palace.

Radio La Paz said Barrientos had recruited 200 air force troops in Cochabamba and taken command of the revolt movement. He was reported to have captured Gen. Alfredo Candia y Javier, head of the Cochabamba garrison.

The radio reports said Barrientos had sent two emissaries to La Paz to see Paz and "inform him of the situation."

Government sources in La Paz said, however, the Cochabamba situation had been "dominated." The government also claimed to have the situation in La Paz under control.

Heavy firing was heard in the vicinity of the Miraflores and Calacoto suburbs where revolt units were stationed.

Loyal police forces spilled into the streets in great numbers and blocked all roads to the rebellious areas. Some arrests were reported.

Commission OKs Plan to Raise Rates on Water

Boost Would Increase Cost to Pampa Users by 14 Per Cent
An ordinance increasing Pampa's regular water rates approximately 14 per cent for city consumers was given unanimous approval on first reading at today's City Commission meeting.

Water users outside the city limits, if the ordinance finally is passed after three readings, will pay 1 1/2 times the city rate with an increase of approximately 16 1/2 per cent.

Churches will be charged the regular rate. The Pampa Country Club, under the old rate, was paying a flat 20 cents per 1,000 gallons with a minimum of \$20 a month. The new rate places the Country Club on the regular city rate.

Fairview Cemetery, paying only the minimum of \$2.60 a month under the old rate, will be sold water at what it costs the city to deliver it. Officials estimated this at a flat rate of 20 cents per 1,000 gallons.

Here is a comparison of the old rate and the rate proposed under the ordinance passed on first reading today:

(Inside City Limits)
The minimum charge under the old rate was \$2.60 for the first 4,000 gallons. The new rate calls for a minimum of \$3 for the first 3,000 gallons.

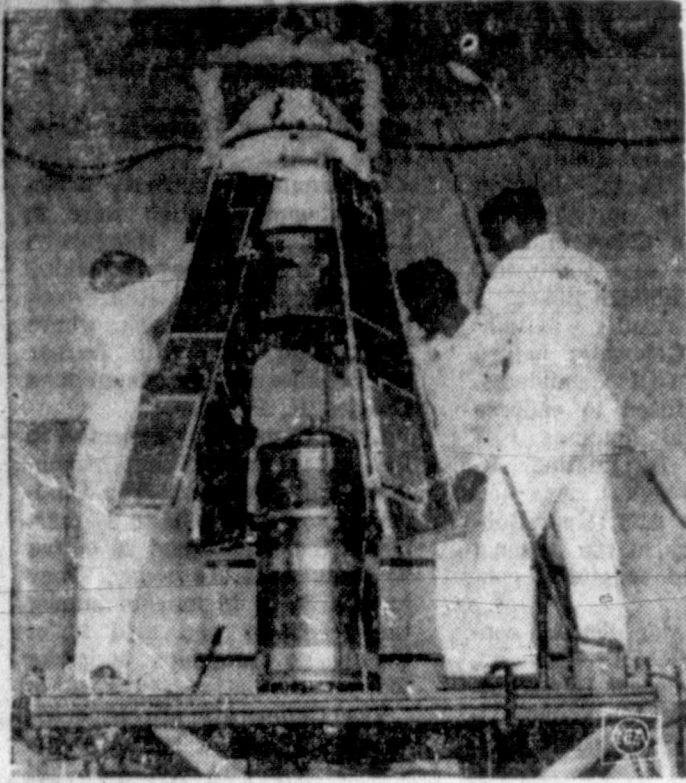

Under old rate—next 16,000 gallons at 50 cents per thousand. New rate—next 17,000 at 50 cents. Old rate—next 80,000 gallons at 27 cents per thousand. New rate—next 30,000 gallons at 35 cents. Old rate—all over 100,000 gallons at 25 cents per thousand. New rate—next 50,000 gallons at 30 cents per gallon and all over 100,000 gallons at 25 cents.

(Outside City Limits)
All users outside the Pampa city limits will be charged at 1 1/2 times the rate charged to users inside the city, using the same brackets of water usage and a minimum monthly charge of \$4.50. Users outside the city limits were charged 1 1/2 times the city rate under the old ordinance.

(Churches)
Churches will be charged the regular city rate.
(Country Club)
The Pampa Country Club will pay under the new rate ordinance the regular rate charged to city water users. The old rate was a flat 20 cents per thousand gallons and a minimum of \$20 a month.
(Fairview Cemetery)
The new rate will be 20 cents per 1,000 gallons of water used. This is figured at cost to the city. (See COMMISSION, Page 3)

MATING OF THE BEACON—Engineers and technicians at Pacific Missile Range, Calif., prepare to mate the Beacon Explorer (BE-B) satellite to the upper stage of the Scout launch vehicle for a test before moving to the launch complex. BE-B is designed to study the earth's ionosphere and evaluate laser techniques as means of getting orbital and geodetic information.

Washington Window

By LYLE WILSON
United Press International

The losers in this presidential election will have the remainder of their lives to ponder this question:

"Could our side have won if we had concentrated on legitimate, definable issues and had refused to indulge in personalities, in exaggeration, in name-calling and such?"

That would be a fair and honest question for either side to ask itself if it came up on the short end of the vote. There is not much for either side to be proud of in the conduct of its presidential campaign. There is not much for American citizens to be proud of in the manner in which the campaign was conducted.

The whole political system is in disarray when grown men conduct themselves in a contest for the presidency of the United States like little boys flinging mud pies or bigger boys writing bad words on the side of the family outhouse.

Will Leave Stains

The principals in the campaign may or may not have piped the pitch to which their supporters responded. Perhaps the undisciplined supporters of one side or the other would have wallowed in the campaign excesses regardless of the standards set by the principal contestants. However it may have come about, the presidential campaign of 1964 was a sorry mess and one which will leave its stain for years to come.

Who could believe the basis of any evidence or half truth offered that Lyndon Johnson is a crook? Who would agree that Barry Goldwater is "a wild man, a stray, an unprincipled and ruthless jiu-jitsu artist," as the Saturday Evening Post so delicately put it?

Who could believe that Lyndon Johnson was guided by treacherable instincts or that Barry Goldwater was a lurking Fascist, a Hitler-on-the-make? Sick is the world for that kind of blather.

Who could believe? Well, the British seemed ready, willing and eager to believe just about anything said in derogation of Barry Goldwater. British boos for the Republican ticket could

be heard all the way across the Atlantic.

Anti-Americans Gloat
And all Commie and other anti-American propagandists world-wide were ready, willing and able to believe anything had said about either of the presidential candidates. What better arguments could the anti-Americans offer the emerging peoples of Africa and Asia and the suppressed peoples of Latin America?

"This is what the Americans say of themselves," these propagandists could tell bedevilled humans all over the world who are struggling to attain first class status. In the contest for the confidence and — or affection of these peoples, that would be mighty powerful propaganda. So it is reasonable to believe that millions of people have received and will retain the 1964 presidential campaign picture of the American people "It puts the American way about on a level with the name-calling methods by which the Soviet Union, from time to time demotes a head man and selects another, or two.

Sen. Karl Mundt, R-S.D. was on target when he called this one a low level school yard campaign in which both candidates were insulting the intelligence of American voters.

Murder Charge Filed on Tulsan

SAPULPA, Okla. (UPI) — Dwight Manley, 26, faced a murder charge today in the shooting death of Clarence Potter, 32, of Tulsa.

Manley pleaded innocent Monday and waived preliminary hearing.

Manley Leonard E. Johnson, 17, and Susan Kay Bradford, 14, of Berryhill, Okla., were arrested Wednesday in Tucumcari, N.M.

They were riding in Potter's car and had been sought since Johnson allegedly induced the girl to go with them earlier Wednesday by threatening suicide.

Johnson pleaded guilty to charges of causing a juvenile to come within the purview of juvenile court.

Tulsa county sheriff's deputies said Manley told them he shot Potter with a .38-caliber pistol. The deputies quoted Manley as saying, "I don't know why I did it."

Manley and Johnson were returned to Tulsa Friday. Johnson took officers to a creek County pond where he said Manley told him he had killed a man before leaving Tulsa.

HIT-MINE FIELD

VIENTIANE, Laos (UPI) — Right wing troops moving against a reinforced Communist position in southern Laos walked into a mine field Monday and lost one soldier killed and six wounded. Western sources said Wednesday.

Police Search For Youth in Theft of Money

Pampa police are searching for a 15-year-old boy who is accused of entering a Pampa residence and taking \$15 in cash.

Mrs. Mary Thornburg, 804 E. Beryl, told police yesterday that she visited a neighbor about 10:30 a.m. She said when she returned about 11 a.m. she discovered the front screen door locked.

Mrs. Thornburg related to police that she heard a noise inside the house and rushed in. She said she found the 15-year-old youth hiding in a closet.

The boy told her that he was to meet her daughter at the house about noon.

She said she didn't discover the missing money until the youth had left.

Mrs. Hale told police that someone gained entry to her apartment late Saturday afternoon by cutting a hole in the screen and tripping the latch.

She said due to her apartment being completely ransacked, she didn't miss the stolen items until yesterday.

She told police the thieves took \$71.50 in cash, wedding rings valued at \$150 and a watch valued at \$69.

Negroes in Alabama Plan Protest Boycott

By United Press International — Negroes planned a massive school boycott in Alabama today to protest alleged voter discrimination and the absence of President Johnson's name from Alabama ballots.

Negro school children in at least seven Alabama cities and towns were expected to shun classes. Hundreds of Negro children began the protest Monday with boycotts at Anniston and Tuscaloosa and a demonstration at Montgomery.

The demonstrators appeared on sidewalks outside the Capitol in Montgomery and, police

Three Sentenced In DWI Action

Three guilty pleas to charges of driving while intoxicated were heard yesterday by District Judge Lewis M. Goodrich during a court session in Canadian.

Fred Hobart of Pampa and Eulas F. Morgan of Ochiltree County were each fined \$200 and \$44 court costs on the charge.

Reginald A. Roberson of Miami was sentenced to two years probation on the same charge.

Driving while intoxicated, second offense, constitutes a felony violation and carries an automatic one-year suspension of driver's license.

District Attorney Bill Waters of Pampa was prosecutor.

Hemphill Grand Jury Impaneled

CANADIAN (Sp.) — The November term of the Hemphill County grand jury was officially impaneled yesterday in Canadian.

According to District Attorney Bill Waters, the jurors were adjourned, subject to call, following the impaneling.

Appointed foreman was L. F. Etheredge of Canadian.

arrested 26 of them when they refused to disperse. They were charged with parading without a permit. Many of the youthful Negroes carried signs calling for "the right to be free."

Negro leader Daniel Harrell of Mobile said the boycott today was to protest the fact "we cannot vote for President Johnson and the rigid voter registration rules against Negroes in Alabama." President Johnson's name is not on the Alabama ballot because a group of electors pledged to him was defeated by unpledged electors in a Democratic primary.

Dr. Martin Luther King Jr. said in Atlanta Monday that he "will begin working almost immediately" after the election on plans for new racial demonstrations in the nation.

"As long as the problem of racial injustice exists," King said, "there will probably have to be massive demonstrations to insure the right to vote in Alabama and Mississippi." He said the North also will see demonstrations for equal opportunities in jobs and housing.

Elsewhere:

Jackson, Miss. — The "Freedom Democratic Party" reported Monday night more than 40,000 Negroes participating in a mock election gave all but a "handful" of their votes to President Johnson.

Atlanta: State 4-H leader Tommy L. Walton Monday labeled as untrue reports that Georgia had been chosen to lead in the integration of the 4-H Club program.

TWO LOOSE

LIVERPOOL, England (UPI) — Police today sought Anthony Hoare, 26, who was mistakenly released from jail while awaiting trial on a theft charge.

Police explained that Hoare was released instead of Ronald Purvis, 30, an alleged accomplice for whom bail money had been put up. Purvis also was released when the mistake was discovered.

Killers Planning To Make Appeal

KANSAS CITY, Kan. (UPI) — Atty. Roy Cook said Monday he will appeal to the 10th U.S. Circuit Court of Appeals to keep George Ronald York and James Douglas Latham from being executed on Dec. 2.

A habeas corpus petition was denied Monday by U.S. District Judge Arthur J. Stanley. The petition asked that York and Latham be freed because they were denied counsel in the investigative phases of their case.

The two young soldiers escaped from an army stockade at Ft. Hood, Tex., in the summer of 1961. In the trip that followed they killed seven in a cross-country crime spree.

They were convicted of killing Otto Zeigler, a 62-year-old railroad worker, near Oakley, Kan.

Commission

(Continued From Page 1) city. The present rate for the cemetery is a flat rate of \$2.60 month, the minimum bill.

City Manager Harold Schmitzer said today the new water rate ordinance will bring an increase of about \$85,000 annually in revenue to the city.

Total billings and water income under the old rate was \$458,562 a year. The proposed rate ordinance will produce \$543,595.

There are 7,650 water customers inside the city, 298 consumers outside the city limits, 29 church consumers, which, with the Country Club and Fairview Cemetery, bring the total of Pampa water consumers to 7,979.

The rate ordinance adopted today is based on year around usage. Officials indicated it is possible that the city commission will consider granting a summer rate during the hot months of the year.

The new rate ordinance does not affect present sewer and trash collection charges. These are expected to be increased later after further study by city officials.

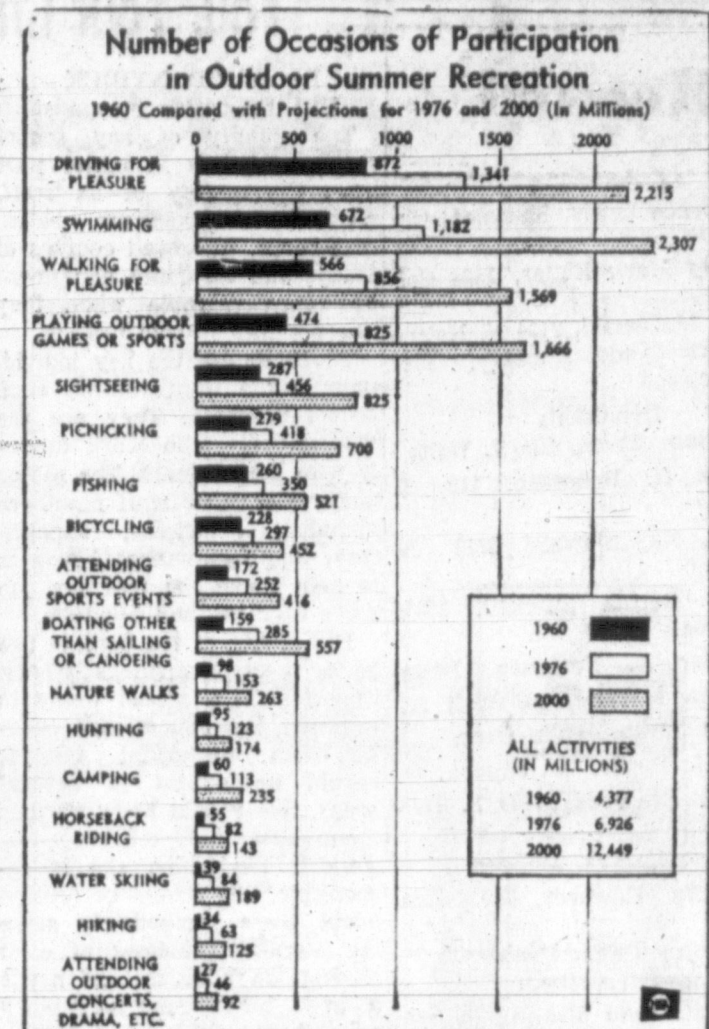

The rate ordinance approved on first reading today also does not take into consideration any of Pampa's commitments to the Canadian River Municipal Water Authority.

In other business today the commission approved appointment of three persons to serve on the City Traffic Commission to fill unexpired terms of three members who resigned.

Clyde Carruth will succeed E. E. Shelhamer in Place 9 and serve until July 1, 1967. Lee Fraser will succeed Gene Barber in Place 9 and Mrs. Jim Terrell will succeed Don Conley in Place 14. Both of the latter will serve until July 1, 1965.

The commission exercised an option to buy 320 acres of land from J. L. McCoy at a cost of \$72,000. The land will be used as a sewage treatment plant site in Pampa's \$950,000 sewer improvement program.

Loquat trees will not grow in salty soil.

ROYAL VARIETY
LONDON (UPI) — American entertainers Lena Horne, Brenda Lee and Bob Newhart headlined the annual royal variety show presented Monday night before Queen Elizabeth.

The Queen outshone other members of the society audience in a full-skirted frock of ice-blue organza and diamond tiara.

About 300 entertainers took part in the show.

FIRST TV STATION
ADDIS ABABA, Ethiopia (UPI) — Ethiopia's first national television station was opened Monday night by Emperor Haile Selassie.

You, Your Child and School

By DAVID NYDICK
UPI Education Specialist

The quality of any school system depends in major part upon the quality of its staff. New math programs, better text books, improved courses of study, and adequate equipment are only valuable when they are put into proper use.

Teachers are the key individuals in the improvement of a school program. They are the professionals who work directly with the students. The major purpose of other staff members including principals, supervisors, and department heads is to help make the teachers job more efficient and effective.

The ability of teachers to use better teaching methods is most important if a school wants to improve the educational offering. An individual teacher should be expert in several areas. She should know various approaches for teaching the subjects for which she is responsible. She should be able to adopt these methods to solve the learning problems of each student. In addition, she needs a good background of knowledge in her subjects. A knowledge of new trends and research is also necessary.

Does a teacher have these abilities when she graduates from college? Actually, the answer varies with individuals. Some get more than others from their college programs. Obviously, they all lack years of experience. They do have as part of their college programs, an experience in supervised student teaching. During this part of their program they work with an experienced teacher in a regular classroom. This gives them an opportunity to use what they have learned in their college courses.

When a school system hires an inexperienced or an experienced teacher, it has the responsibility to provide continued training. This includes training in the system's curriculum for all new staff members. It includes special help for inexperienced people. They need assistance in organizing their classrooms, working with small and large groups of students, use of different books and equipment which is available, recognizing and correcting student problems, etc.

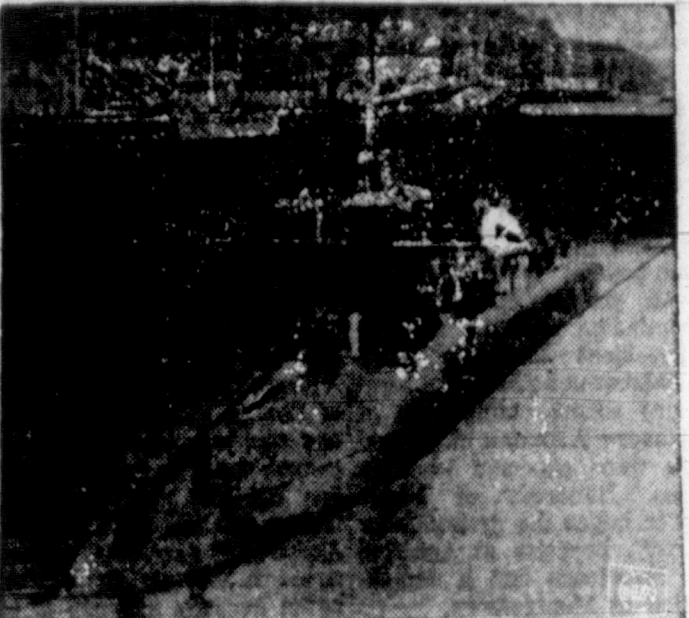

Continuous Training
All teachers need continuous training in techniques of teaching. They need to be aware of new knowledge, such as in science or math. Actually a teacher's own education should not end. It is this continuous training which improves the school program.

This type of training which is called an in-service program is the direct responsibility of administrators and supervisors. However, the community plays an important role. Remember that in the United States schools reflect the demands and support of the community.

Within any community there are experts in a variety of fields. The local banker can surely help train teachers in economics or business organization. An engineer can assist with the math program. The chef in a local restaurant can help the home making teacher. A doctor or nurse can provide training in the health area.

If the school system doesn't need the assistance of the community, the community should offer and encourage the use of its available talent.

A community can express its desires at school board meetings. A committee composed of members of the community and the school system should be able to design an excellent in-service program.

A SUB FIRST—USS Daniel Boone, the first Polaris-firing submarine assigned to the Pacific Fleet, is the first ballistic sub to make a round trip through the Panama Canal. She was commissioned in California, traveled to Cape Kennedy, Fla., for missile tests and returned via the canal.

Reporters to Receive Awards

LOS ANGELES (UPI) — Three nationally famous reporters from the magazine, television and wire service fields will receive distinguished achievement awards from the University of Southern California School of Journalism and Journalism Alumni Association Nov. 17.

Winners of the fifth annual awards were announced over the weekend. They were: Laura Bergquist, veteran Look magazine editor; John Scall, American Broadcasting Co. (ABC) television diplomatic reporter; and Merriman Smith, veteran White House correspondent for United Press International.

of the Beverly Hilton Hotel in Beverly Hills to receive the awards.

5 Oil, 23 Gas Finds Reported

AUSTIN (UPI) — Wildcat drills drilled five oil and 23 gas finds last week, the Texas Railroad Commission said Saturday, bringing yearly totals to 299 oil and 693 gas discoveries.

By this date last year wildcat drills had drilled 281 oil and 541 gas wells. Dryholes number 58 for the week and 2,097 for the year, compared to 2,206 at this point in 1963.

Regular drills had 171 oil and 50 gas well completions for the week, upping their totals to 7,115 oil and 2,304 gas wells for the year. This compared with 7,325 oil and 2,060 gas completions for the same period last year.

Oil discoveries included three each in the Abilene and San Angelo districts. Gas finds were 12 in the San Antonio district, four in the Corpus Christi district, three in the Houston district and one each in the Kilgore, Midland, Wichita Falls and Pampa districts.

A total average calendar day allowable as of today was 2,887,558, with 208,467 wells working in 8,207 fields.

**Foreign News
Commentary**

By PHIL NEWSOM
UPI Foreign News Analyst
To say that the South Vietnamese are being given one last chance to save themselves is perhaps putting it too strongly. But it is perilously close to that.

Almost exactly a year after the fall of the Ngo Dinh Diem government in Saigon, U.S. Ambassador Gen. Maxwell D. Taylor plainly was irked when he said repeated government crises had led to "deterioration and a loss of momentum" in the war effort.

But, in what has become standard U.S. policy in South Viet Nam, Taylor also remained determinedly optimistic. For the new civilian government, he said, he had "great hope."

Hope, indeed, was about the only ingredient left.

Under the autocratic Diem government and its politically-appointed generals there had been the "clear and hold" operations which neither cleared nor held. And there were the fortified strategic hamlets which fell to the Communist Viet Cong with distressing regularity once the troops departed and defenses were left to a local home guard.

No Improvement
Nor had the situation improved any under two strongman generals.

Gen. Duong Van (Big) Minh who took over after Diem's fall, himself fell victim to a coup led by Gen. Nguyen Khanh. And Khanh came perilously close to falling to a combined military and civilian coup last September.

Among all groups it was all too obvious that special interests were taking precedent over what should have been the main interest—the war against the Viet Cong.

Taking over this week as civilian premier was a man who appeared physically as frail as the 17-man high-council which in theory at least is to give the country civilian rule and free the military for the main job against the Communists.

The new premier was a one-time school teacher, typist and pharmacy assistant whose previous administrative experience had been five months as a Diem-appointed mayor of Saigon. He had, however, a record of resistance both to the Communists and Diem.

His first public announcement in the new post was in the work-or-fight vein, demanding that all citizens either enroll in the army or contribute to the budget.

Praise-Worthy Program
The remainder of his announced program, public health and education, was equally praise-worthy. The trouble was it had been heard before.

In the jungle, the Viet Cong remained depressingly near and there seemed little likelihood that villagers under the immediate threat of Communist retaliation would come flocking to Huong's banner.

Among the villagers also there was a traditional antipathy toward both the army and government taxes.

In the generally depressing picture, there seemed one ray of light. It was a Buddhist publication's frank admission that there would be no place for Buddhism under communism. It might be the unifying spark needed.

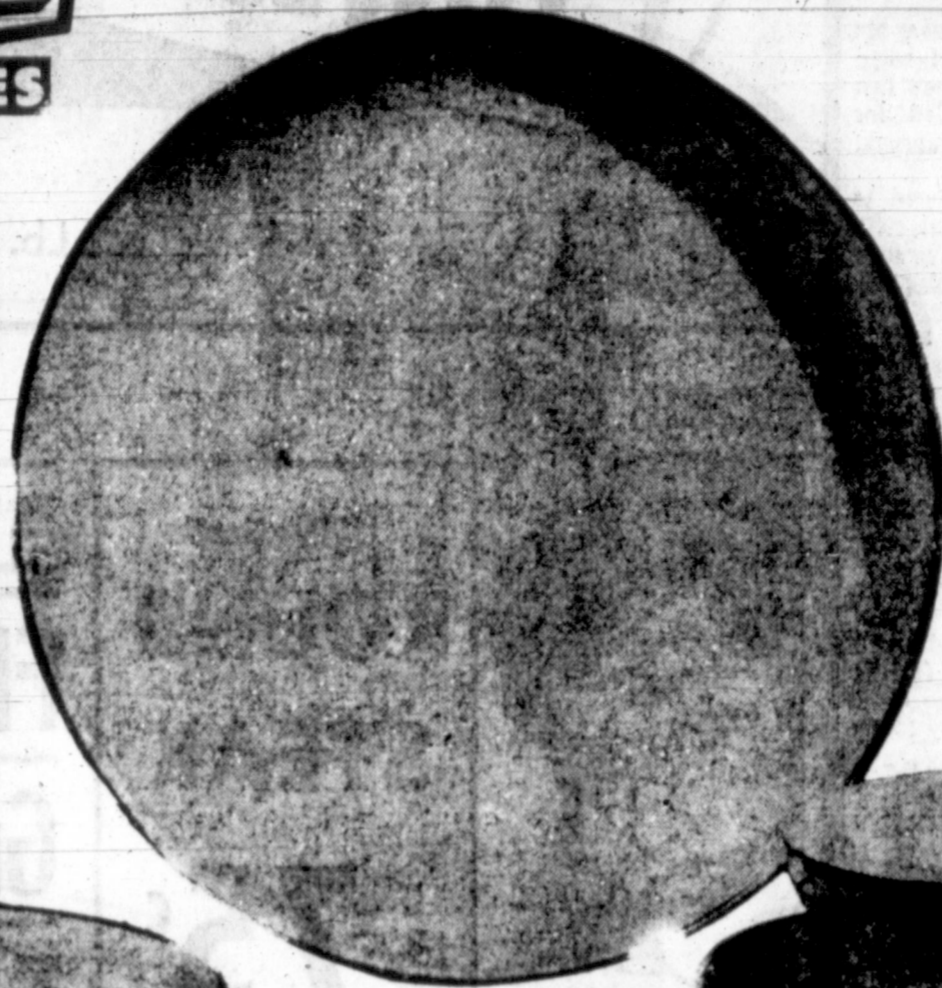

Failure would mean for the United States a major decision. And that decision could make French President Charles de Gaulle a forecaster of major dimensions. De Gaulle says nobody can win in South Viet Nam.

Funeral Set For Astronaut

HOUSTON (UPI) — The nation's spacemen gathered today for the funeral of Theodore C. Freeman, the first U. S. astronaut killed in training.

Services for the 34-year-old Air Force captain, killed when his T38 jet trainer crashed last Saturday, were scheduled for 10 a.m. CST at the Seabrook, Tex., Methodist Church.

The body will be shipped to Arlington, Va. for burial with full military honors Wednesday in the National Cemetery there.

The federal space agency said Monday an investigation of the crash that killed him may take several weeks to complete. But feathers pulled from the wreckage indicated the fast-moving jet may have collided with low-flying birds as it streaked toward a landing at Ellington Air Force Base south of Houston.

The tragedy brought astronaut training to a virtual halt for the week in memoriam to the quiet pilot who hoped some day to fly to the moon.

Pampans to Attend Cancer Conference

Don R. Lane, Pampa attorney, will be the official delegate for the Gray County Unit of the American Cancer Society at the annual meeting in San Antonio, Nov. 18, 19, at the Granada Hotel.

Lane is campaign chairman of the local unit. Also attending will be Mrs. Jack Foster and Mrs. Kermit Lawson.

—Daily News Staff Photo

AUDIT COMPLETED — I. R. Kurtz, seated, field auditor for the Audit Bureau of Circulations, checks final ledger figures for the annual circulation audit of the Pampa Daily News as News Circulation Manager Larry Winger looks on. The audit constitutes a verification of the newspaper's paid circulation. Complete figures will be published by the bureau within the next 30 days.

Man, 86, Votes for First Time in California Today

WEST HOLLYWOOD, Calif. (UPI) — Eighty-six-year-old Dennis T. Portianko has known a half-dozen presidents, but has never been able to vote for one of them — until today.

"For the first time in my life I'm going to vote," he said exuberantly.

Portianko's son, Port, 38, said his father would wear his best suit to an apartment building two blocks away where he was to cast his ballot — in a laundry room.

"My father was born in Russia and came to this country in 1906," said the son. "He was an official at the Russian Embassy in Washington, D. C., until the revolution, then he said 'forget it.'"

the elder Portianko became a doorman at the Mayfair Hotel in Washington. As such, he helped the Secret Service during visits to the hotel by such presidents as Truman, Hoover, Coolidge and Harding. He knew President Johnson when he was the junior senator from Texas.

"But although he's been a citizen 50 or 60 years, he's never been able to vote," his son said. "Last May mom died. In June I brought dad out here to live with me. Now he's going to vote for the first time in his life — in a laundry room yet."

Lamb County in the Texas Panhandle is almost square, measuring 30 miles from east to west and 34 miles from north to south.

MARGARET BURNS
... crown hopeful

Resident ACC Queen Aspirant

ABILENE (SpI) — Margaret Burns, daughter of Mr. and Mrs. Robert Earl Burns of 810 N. West in Pampa, has been nominated for 1964 Homecoming Queen at Abilene Christian College.

Miss Burns, a 1962 graduate of Pampa High School, is a junior elementary education major. She is a member of the Student Education Association and Ko Jo Kai women's social club, and she is one of ACC's 1964-65 cheerleaders.

The Homecoming Queen will be crowned during half-time ceremonies of ACC's game at 2 p.m. Saturday against Arlington State College.

Charges Due in Shooting of Teenage Girl

KANSAS CITY, Mo. (UPI) — Charges were expected to be filed today against Hezekiah French, who police say shot a 16-year-old girl as tempers flared in a traffic incident.

Theresa Ann Ward, daughter of Mr. and Mrs. Harold Ward of Mission, Kan., was listed in "fair" condition in Bethany Hospital after she was shot in the head.

Detectives said the incident occurred late Saturday night on a Kansas City street. A car apparently cut in front of an automobile occupied by four teenagers, including Miss Ward. Two of the youths shouted at the motorist.

The motorist left his car and walked over to the car occupied by the group. He fired a gun inside and Miss Ward slumped over.

Detectives said French told them he meant to fire into the air and scare the group. He did not mean to hit anyone, he said.

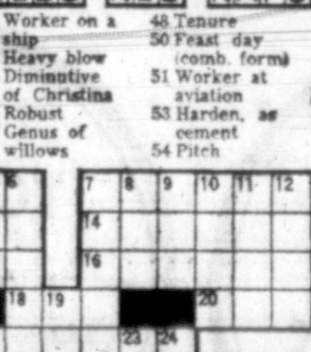

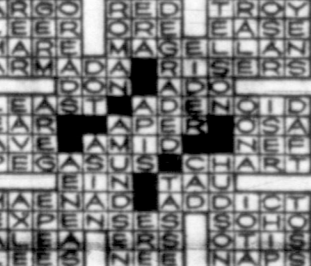

HEAD ROOM

BRADNINCH, England (UPI) — One of the reasons six-foot tall police officer Peter Tierney gives for using his own (1935) Rolls-Royce when patrolling this Devon village is that "there is plenty of room for me to drive with my helmet on."

Senior Center Corner

By MRS. O. A. WAGNER

Some local paintings are on exhibition at the Lovett Memorial Library, the works of children and adults, pupils of Mrs. Betty Bailey, a private teacher. Mr. and Mrs. Bill Burgin and children, Paula and Lee of Berger, visited Burgin's parents, Mr. and Mrs. A. H. Burgin, this week.

Mrs. P. H. Gates had as weekend guests her daughter, Mr. and Mrs. Tom Bandy and family from Friona.

A new member, J. V. Kidwell, was welcomed at the center Thursday. Kidwell retired recently and we hope he will be a regular attendant.

Mrs. Lona Webster spent last week in Houston with her son, T. E. Webster and family, and reports a wonderful trip and visit.

Mrs. Mae Wilson was welcomed back into the fold, after an absence of almost two years. Mrs. Wilson has been home only two weeks from a hospital in Houston.

Guests in the C. L. Adams home the past two days was their daughter, and husband from Hebronville, on their way home from a hunting trip in Colorado, leaving behind a hind quarter of deer, apples, peaches and tomatoes. In appreciation, Adams donated a gallon of his famous chow - chow.

Mr. and Mrs. Gem Terrell, Lois and Phyllis, of Fort Collins, Colo. spent Tuesday night and Wednesday with Mrs. Terrell's aunt, Mrs. C. W. Thompson.

Mrs. Jessie VanHuss motored to and from Houston last week-end where she visited two daughters.

Three Gray Ladies drove over to Panhandle Wednesday. Mmes. Pearl Clark, Ola McAfee and Elizabeth Taylor, visited St Ann's Home. Mrs. Maude Schulkey also went along and played the piano, and a real old fashioned song fest was held. The group reports the patients enjoyed the visit very much, and asked them to come back again. They served warm apple juice and cookies. Black cats were used as favors, to commemorate

Instruction School To Be Held Here

Saturday, Nov. 7, Pampa IOOF and Rebekah Lodges will be host to the Secretary Clerks and Scribes Association. Dignitaries attending and holding the school of instruction will be Stump Williams, grand secretary of the Grand Lodge of Texas, and Myrtle Russell, secretary of the Rebekah Assembly of Texas and treasurer of the International Association of Rebekah Assemblies. Others attending will be Raymond Gage, past grand master of the state of Texas and wife, Mrs. Thelma Gage, warden of the Rebekah Assembly.

The meeting will be called to order at 11 a.m. by Ray Chapman, president of Amarillo, assisted by Mrs. Hazell Lockhart, vice president, of Pampa. All lodges in this district are invited to attend. A luncheon will be served at noon by the host lodges.

Lawyers' Wives Enjoy Luncheon

Pampa Lawyers' Wives' Club met Saturday, in the home of Mrs. J. E. Thompson, president of the organization, for a salad luncheon and brief business meeting.

Luncheon tables were covered with white linen cloths and decorated with white and yellow chrysanthemums.

New officers officiating were Mrs. J. E. Thompson, president; Mrs. Roscoe Elmore, vice president; Mrs. Tom Snow, treasurer; Mrs. Bill Waters, secretary;

Manners Make Friends

Children who learn to entertain their little friends find entertaining easier when they grow up.

Announcement of the Christmas dinner - dance was made. The party will be Dec. 8 at the Country Club.

Dear Abby... Henceforth Let Husband Entertain Unwelcome Pair

By ABIGAIL VAN EUREN

DEAR ABBY: We are new in town. Last evening my husband's foreman and his wife dropped in on us unexpectedly. We were not prepared for company. When I served some soft drinks, the man hinted that he wanted something "stronger." We didn't have anything in the house, so my husband took him to the corner bar and left me with the wife. She talked bad about everybody at the plant. I didn't even know half the people she gossiped about. She told me I ought to "do something" with my hair, which hurt my feelings because my hair is very thin and there's not much I can do with it. Then she asked me when I waxed my floors last and I told her I had waxed them that morning. She said, "They look terrible. You should try my brand."

DEAR ABBY: I wish you would write something about bossy women who rule the roost and ruin their children. My sister is the mother of three boys. If her husband tells them to do something, she tells them to do the opposite. Many times I have heard her say, "I don't care what your father said, you'll do as I say!" And they do, too. No wonder those children are confused and nervous. Is there any way I can help?

SISTER MARY

DEAR SISTER: Perhaps, but this is not your problem, so be careful. I would tell both your sister and her husband what you have observed and how you see the effects of their (probably unintentional) conflict. Having done that, say no more and hope for the best.

DEAR ABBY: The men were gone three hours. When they came back this couple stayed until 1:30 a.m., although I said several times my husband had to get up at 6 a.m. for work. Do you think it was right of my husband to have left me there all evening with that woman? What if they drop in again? I don't care to associate with her. My head still aches from last night.

HEADACHE

DEAR HEADACHE: Tell your husband that if he likes the man, fine, but you don't want a foursome - type friendship with them. If they drop in again, you go lie down and let your husband answer the door and tell them that you are "resting." And if he wishes to entertain the pair of them, tell him he is welcome to.

DEAR ABBY: I am a 14-year-old girl and I was wondering if you think it is fair for a girl's mother to judge a boy by the way he dresses. My mother doesn't like a certain boy for that reason and I don't think it's fair.

JR. HIGH GIRL

DEAR GIRL: A boy's dress is an indication of his home environment, his character, personal

Hygiene and self-esteem. Listen to your mother, Honey, and you won't go wrong.

CONFIDENTIAL TO SYLVIA: There is nothing wrong with putting all your eggs in one basket - if you keep your eye on the basket.

Problems? Write to ABBY, Box 69700, Los Angeles, Calif. For a personal reply, enclose a stamped, self-addressed envelope.

Hate to write letters? Send one dollar to Abby, Box 69700, Los Angeles, Calif. for Abby's booklet, "How to Write Letters for all Occasions."

Youth of Today Are All Right

By PATRICIA MCCORMACK

HOMEFRONT, U.S.A. (UPI) - Occasional-even daily - reports of nasty acts by juveniles put a chip of sorts of the shoulders of any town's nice lads and lassies.

They're out to defend their honor and to prove that this generation is producing as many decent juveniles as the last.

"We're not all bad," they plead. "No more, that is, than all the apples in a barrel with one rotten one."

The next time you're shocked by a report of some youth gone wild, doing some dreadful anti-social thing, look around your own homefront and count all the examples of juvenile decency. It's guaranteed to help you weather the shock.

You won't see sissies in stovepipe pants or mama's girls smothered in ruffles. Rather, you'll see rough and tumble boys and girls who play hard, study hard, hunger for responsibility, and know when to switch into the courtesy gear.

The cast of characters most likely to restore your faith in the younger generation probably includes the baby-sitter, the paper boy-or paper girl, the youngsters who willingly slave in your yard for a pittance, and

RUTH MILLETT

Avoid these pitfalls if you don't want your youngsters to dub you "old-fashioned."

Bringing "when I was your age" into the conversation. Letting noise and confusion "drive you crazy."

Always saying "I'll have to think it over" when your son or daughter asks permission to do something.

Setting too great store by possessions-so that you are all upset when an unavoidable accident occurs.

Relying on "sermons" to get your ideas across, instead of depending on just the right word at the right moment.

Harping on a child's fault or what you think is a fault. Doing your worrying out loud. Using "I'd worry about you" as an excuse for not letting a child do something he wants to do and you don't want him to do and you don't want him to last.

Criticizing their friends. Talking as though young people today are worse than they were when you were growing up.

Acting as though it is ridiculous for him to think something is terribly important because it doesn't seem so to you.

Making fun of teen-age fads the whole crowd thinks are hip.

Using the slang that was current when you were in school, instead of weeding it out of your conversation entirely.

Sending the kids off on a date with a hundred last-minute admonitions.

the parade of their sort with scrubbed faces who turn up at your doorstep asking for support for their favorite cause.

It's enough to make you take a second look at the younger generation-if you've been inclined to think ill of it lately because of a few.

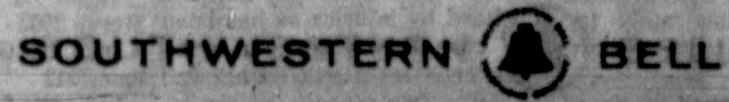

what's a telephone supposed to look like?

How it looks depends upon the way it serves you. It might look like this new Panel phone that's built into the wall. Or perhaps your needs call for:

The dainty Princess* with light-up dial... or a phone that hangs on the wall... a key set phone... the excitement of decorator color... perhaps a phone with speakers and amplifiers that let a group take part in a conversation.

New telephone designs give you an ever wider choice of styles for convenience, efficiency and beauty. They're another way of improving service to increase the personal value of your phone.

Making telephone service better to serve you better

NEW WAY TO BE SUDDENLY SLIM

Los Angeles-Are you a woman whose figure is on the good side but might look perfect? You'll be thrilled by the new easy way science has discovered for you to become Suddenly Slim. If you're more than 15 pounds overweight, then this idea is not for you. If your weight problem falls within this range, then you can realize a new, smoother figure today, without diet or exercise.

Suddenly Slim is an all-new kind of 4-oz. girdle constructed of science fibers. One startling innovation is the sheer nylon front panel. This is permanently stiffened by a science process and cannot give or sag. It's surrounded by a slanting action border. A leatherstitched panel down each side of this girdle will contour your hips if they are a problem.

The girdle itself is of a "wonder" Lycra spandex blend. It's a new power net consisting of nylon, acetate and spandex. It feels like nothing on but has such slimming strength. It gives your figure everything that's possible with a foundation.

"Suddenly Slim," in both girdle and panty versions, is the peak achievement of the California designer-genius, Olga. They are available in our area at (Store Name), (Department), (Location), (Telephone Number).

Sandie Defense Toughest Except Rebs, Say Scouts

"Amarillo is about as tough defensively as any club we've seen beside Tascosa," warned Pampa assistant coach Eural Ramsey, reviewing the Amarillo Sandies, Friday night's opponent at Dick Bivins Stadium.

"They are strictly power, with no exceptional speed," observed Ramsey, "but they have the power, they have the size and they're an experienced ball club."

"Speed-wise, they're about the same as us. They don't pass much, stick mainly to a ground attack which has worked so well for them, so we actually don't know whether they can pass or not. Quarterback Ben Hankins, 165, is a three-year starter and ends Mark Boynton, 155, and Morris McEwen, 173, are both good receivers, so it is probable they can if they have to."

"They didn't need to pass in their five wins, nor in their 13-7 loss to Borger which was a tie game until Borger got a break in the final minutes. Then, in the 7-3 loss to Tascosa, they were going against a strong wind in the last quarter and couldn't try it."

"They have another very powerful weapon in the person of field goal kicker Kenny Vinyard. Three of their games were won by the margin of a three-point-

er kicked by Vinyard, who holds the district record with a 47-yarder. If they get down inside the 30 and can't move, they'll kick a field goal rather than pass.

"The program weights show them as our size or smaller, but I think they look a lot larger than they are listed."

"They have eight lettermen on the offensive starting team. Hankins, of course, is what makes the team go. He rolls out either right or left and he gets what seems to be the whole team blocking in front of him. He has 183 yards rushing and 159 passing so far this season.

"Since they're not fast, they run most of the time in power off the tackles. Both halfbacks, Richey Belcher, 155 and Mike Brewer, 160, can break all the way. Brewer is probably the fastest. Belcher is a good blocker. Fullback Mike Marr, 175, is their strong boy for the short yardage, they also use Larry McDaniels, 165."

"They run chiefly out of the 'I' formation with pro sets, added coach Ray Howard.

"They run men in motion and split their ends. They don't split them quite as far as Lubbock, but they move their backs

around a lot."

"Defensively, they seem to run four or five men at each position. They alternate different boys in each spot, and then move the starting boys to different positions, their linemen are always fresh with that depth, which gives them such a good defense."

The offensive line, from the left, has Boynton, Bob Simmons, 160, Steve Scott, 165, Bob Gowers, 178, Lynn Perkins 168, Delbert Coyne 185, McEwen. Ramsey rates Scott as the best, real aggressive, leading the traps, and best blocker.

Defensive linemen are McEwen, Scott, Curtis Cadenhead 175, Coyne. Also regularly seeing action are Ronnie Edwards 178, Mike Kennedy, 170, Thomas Moss 230. Defensive linebackers in the 4-5 defense are Boynton, Davie Nimmo 155, Mark Tiffany 160, Dana Juett, 165. Vinyard, George Cobb, 175, also the second-string center, sees alternate action. Halfbacks are Hankins and Richard Bechtel 160.

Ramsey rates Nimmo as exceptional in rushing the quarterback and Tiffany as a fine ball player.

"They're a fine ball club," summed up Eural. "This is a traditional and anything can happen. Both teams are always up for this game."

Asked his opinion concerning the Sandies' coaching staff's alleged statements that they were going to let their boys roll it up as high as they wanted, Ramsey commented "They've gotta stop 11 Pampa boys first."

HARVESTER OF THE WEEK — Little Joey Roden was an overwhelming choice for Harvester of the Week for his outstanding play against Lubbock. The pint-size junior gained 88 yards rushing, caught two passes and led the team in tackles on defense.

PAMPA DAILY NEWS Sports November 3, 1964

TCU Ace Now Tops Rushing

DALLAS (UPI)—Texas Christian's Jim Fauver has wrested the Southwest Conference rushing leadership away from Texas Tech's Donny Anderson and is only a step behind Arkansas' Kenny Hatfield when it comes to getting back upfield with kickoffs.

The 185-pound Houston Milby graduate has made the most of TCU coach Abe Martin's "tandem offense" the past two weeks with 166 and 121-yard performances against Clemson and Baylor, respectively, and sent his rushing total spiraling to 637 yards. Anderson got 71 yards against Rice and now trails at 624 yards.

Fauver got 51 yards on two kickoff returns against Baylor to push his season total to 229 yards on 10 returns, one less yard and one less runback than Hatfield, who still is far out-front in punt returns with 16 for 314 yards.

Best Balanced Offense

TCU also has been making strides in the team statistics with what is now the league's most balanced offense. The Frogs rank third in total offense with 257.8 yards per game behind Taylor's 295.3 and Texas Tech's 258.3, but is the only team averaging better than 100 yards both passing and running, ranking second to Baylor in passing and fourth in rushing.

Baylor is averaging 220.5 yards on passes to TCU's 115.1, while Texas Tech leads in rushing with 189.4 yards per game to 178.1 for Texas, 173.9 for Arkansas and 142.7 for TCU.

Defensively, the story is still Texas overall with 184.3 yards allowed per game to 198.8 for Arkansas, but the Longhorns do not rank first in defense against either the pass or rush.

Least Passing Yardage

SMU has allowed the least passing yardage, 61.2 yards per game, while Arkansas has given up but 97.3 yards on the ground.

No one is close to Fauver and Anderson in rushing. Texas' Ernie Koy is third with 451 yards.

Baylor's Terry Southall continues to lead the passers by a wide margin with 71 completions for 1,000 yards to 46 completions and 534 yards for runnerup Kent Nix of TCU. Southall's 1,048-yard pass-run total is also well ahead of any rival in total offense. Fauver is second with 714 yards and Fred Marshall of Arkansas third with 706.

Baylor's Lawrence Elkins caught five passes for 103 yards against TCU to boost his receiving leadership to 30 for 612 yards.

Notre Dame 1st In UPI Rankings

NEW YORK (UPI)—Notre Dame replaced Ohio State to-day as the No. 1 college football team in the United Press International coaches ratings for the first time in a decade.

The Fighting Irish, ranked second a week ago, began the season in seventh place and advanced at least one position each week to attain top rating for the first time since Sept. 28, 1954.

The 35 coaches on the UPI rating board awarded 21 first-place votes to Notre Dame, nine to second-place Ohio State, three to third-ranked Alabama and one each to Arkansas, No. 4, and Georgia Tech, No. 6. Notre Dame held a slim 329 to 304 lead over Ohio State in total points.

The competition for first-place is greater this year than in many seasons. The top six teams in the ratings are unbeaten and untied, and the top five each received 200 points or better.

Nebraska, which has been swapping fourth place with Arkansas for the past three weeks, dropped to fifth place and Texas, which began the season in first place, slipped from sixth to seventh. Michigan remained eighth.

Louisiana State and Florida rejoined the top 10 after a brief absence. LSU placed ninth and Florida tied Purdue, the only newcomer to the 10 best, for the 10th slot.

Oregon State jumped from 14th to 12th after extending its victory string to six while State rival Oregon, tumbled from 10th to 13th after losing its first game to Stanford.

Syracuse returned to the ratings in 14th. Duke dropped three places to 15th and Florida State and Michigan State finished in a dead heat for 16th. Princeton and Villanova, both with perfect records, were locked in a three-way tie with Georgia for 18th place.

Gator Bowl Eyes Teams

JACKSONVILLE, Fla. (UPI)—Florida and Florida State are still in the running for the 20th annual Gator Bowl football game, the selection committee announced today.

Other top teams under consideration include four unbeaten and untied powers—Alabama (7-0), Georgia Tech (7-0), Nebraska (7-0), and Arkansas (7-0).

Rounding out the top prospects are Louisiana State (5-0-1), Texas (6-1), Duke (4-1-1) and Syracuse (5-2).

Miami Tribe Ready For Mighty Wheeler

MIAMI — The gamblers are giving the Miami Warriors 40 points against the undefeated Wheeler Mustangs Friday night, but the Warriors are ready to play just the same.

"We know Wheeler is going to try to run up the score and to keep us scoreless to preserve that statewide ranking," observed Warrior Coach Lawrence Overcast, "but we're gonna try to push it across just the same."

The Warriors have had a week's rest prior to the game, and will be in good physical condition, but according to Overcast, what physical condition?

"Just to show you what a rough season will do to a bunch of young kids, we weighed our boys during the open week and found everyone of them is down from 10 to 20 pounds. No kidding, we averaged 153 before the season started and 138 right now. Tackle Jerry McCuiston is down to 178 from over 190, and Doug Talley has lost 15 pounds to 163, all the rest of them from seven to 12 pounds. Only full-back Ken Gill, 191, has kept his weight and that's because he is growing."

"They're just skin and bones. We don't call 'em the Warriors anymore, they're known now as 'Overcast's 11 Little Indians.'"

"And if the starters are in bad shape, look at our three reserves, 140, 109 and 101!"

"We're hitting harder and moving better, but without the weight we can't hold anybody. You'd think with these light boys we'd have some speed, but we're probably the slowest team in the state! We clocked the whole team in pads, and then without us, and then with us, and we average 13.0 as a team in pads and 12.8 without shoulder pads. Fastest man is Deverl Murphy at 11.65 and Lloyd Seitz at 11.7. How are we gonna catch Bobby Vanpool and Dunk Porter with that speed? Or stop Wheeler's line, which outweighs us 50 pounds a man?"

Overcast praised the Warriors showing against Booker in their last outing. "We played our best offensive game of the season for a half and our best defensive all the way. We made several goal line stands and forced Groom to fumble the ball several times. Groom played well against us. . . I thought they played well against Wheeler last week too. They should have scored, they were badly hurt when Bob Garmon went out. We were real impressed by Jerry Roberts, he looked tremendous."

"Most all our boys played well on defense. Gill was named defensive Warrior of the Week, he made about 15 unassisted tackles. David Bowers was named offensive Warrior, he handled the team real well at quarterback and scored both touchdowns and passed for over 100 yards. Gary Lister also rated very highly, he caught six passes, some of them tremendous catches."

"The gamblers may have us down 40 points before the game starts, but we're ready to play."

smooth job **DAVE BOWERS**

Braves Battle Milwaukeeans

CHICAGO (UPI)—The Milwaukee Braves contend that Milwaukee County broke the ball club's lease on County Stadium, clearing the way for the team to move to Atlanta, Ga., for the 1965 season.

The Braves issued the charge in an answer filed in federal court in Milwaukee Monday to a suit for an injunction filed by the county to prevent transfer of the franchise. The county contends that the lease requires the Braves to play all home games in Milwaukee during the 1965 season.

The Braves charged Milwaukee County broke the lease by failing to protect the team against ticket speculators on stadium grounds, by failing to "make up" to the Braves for failures of season ticket sales and radio and TV income, and by making public statements implying that the Braves' management was deliberately trying to have the team not win games.

The club said that in an effort to offset the "disparagement" by county officials, it sold 119,000 tickets at reduced rates.

Hutchinson In Bad Way

BRADENTON, Fla. (UPI)—Officials at Manatee County Hospital today described former Cincinnati Reds' Manager Fred Hutchinson's condition as "not good" in his battle with chest cancer.

"He is periodically conscious," said one hospital spokesman, "but is not suffering a great deal."

Doctors Monday reported that Hutchinson has spent a "restless" Sunday night but had been conscious and in good spirits.

Hutchinson was stricken with the illness last year. He was taken to the hospital Saturday from his home at nearby Anna Maria Island.

His physician, Dr. J. H. Beam said Hutchinson was not suffering a great deal of pain — "it comes and goes."

Sports Parade

By MILTON RICHMAN UPI Sports Writer

NEW YORK (UPI)—Who's behind the sudden resurgence of the Baltimore Colts?

On the surface, the logical answer seems to be Johnny Unitas, who once again ranks as the No. 1 quarterback in the National Football League.

Unitas is a good part of the answer but he's not the entire one.

Everyone knew he was one of the finest passers around even though the Colts were beaten six times last year and most everyone also knew that the watchword around the league was stop Unitas and you stop the Colts.

Depends on Unitas

The team had to depend on his throwing arm almost completely because it had no real running attack to speak of since Alan (The Horse) Ameche retired in 1960.

Now, for the first time in four years, Baltimore has come up with some muscle in its ground game to take a great deal of pressure off Unitas.

Some of that muscle is the result of Lenny Moore's return

MARKY WHITEHORN

Migratory birds have been a term for some time, but it is only recently that people have begun to realize the importance of their survival in the face of human activities. Just the other day, a trainer of carrier pigeons, "Tip" said that he had flown a crate of eastern Oklahoma pigeons according to the Club rules, and the birds failed to return or so later he received from a lady in Pampa, notifying him that she had it in her cage. Promptly he asked her to return the whole grain and to advise the following day she did and the birds were home long before the same day of the year.

How the bird course is a mystery, the pigeon knew where his flight is mystery. Later on, very short visit, mentioned that he had a dark bird landed on his hand. I didn't know the bird's age, but it was five years old.

Lex Board, then a sheriff, and I took off in 1930 (I was 15). I found in the Antarctic to Clinton, Oklahoma to drive back a stolen coupe. We picked up a very recently the route following daylight hours toward Berger, through the dusty dirt and I soon got lost. It was the Arctic and check until way after sunup to their routes to the Antarctic, Berger via Pampa and the established flight pattern die. At that time the road between Berger and Pampa was through Panhandle territory.

A carrier pigeon would be Panhandle, such as the blue-winged teal, but it took us and he would, a few mallards, the have had to stop and ask back, the red head, and rections. How birds know where they spent to go at certain times of the year and summer months mystery not completely known specifically, but year and why they go there know that when the open A year-old carrier pigeon in this area begin to almost keep up with a hot-rover, these birds will de- der from Houston to Pampa, a southward direction, few years ago they could wing, especially if they driving a \$3,000 auto and ever been there before. If the driver had twenty to this don't lead the young, ty more years of experience, they all seem to be the sign of the times and that they must to unknown lands, know to the offspring gra- frafts.

It is a good time to have a good of pills and other of the duck specie ably will have an umber when the sea- ground November 26. Their cycle and ne- movements, togeth- er, it could be play- ing a role in shoot- ing than flying birds. If the aner in the field really appreciate the most of energy they expand to give each a shout the family.

Some people on a foggy day couldn't find their way back to the corral in brush country if they were more than a couple of miles away and the fog was heavy.

Each year millions of birds move northward either into or through the top part of Texas to set up their summer home to raise a family. In the autumn months they depart to areas to the south. Some might go to the extreme portions of South America, while other species might spend the winter months just below the Caprock or may- be even stay around here.

In the spring the scissor-tailed flycatcher usually makes his appearance around the first of May and departs in late August. Where did he come from and where is he going are good questions. He will show up again, together with the mockingbirds, the bluejays, the buzzards, and a host of other birds the next spring, but they don't spend the winter in the top of Texas.

Seemingly, it is almost beyond belief how birds freely wing their way between North and South America, aye, even past the most northern points of Alaska, during their annual activities. They do, however, the arctic tern is the champion globetrotter. This small bird breeds very near the North Pole. After the young are able to fly, the tern disappears from the North American breeding grounds and, in a few months, is found in the Antarctic region 11,000 miles away.

According to authorities, un- coupe. We picked up a very recently the route following daylight hours toward Berger, through the dusty dirt and I soon got lost. It was the Arctic and check until way after sunup to their routes to the Antarctic, Berger via Pampa and the established flight pattern die. At that time the road between Berger and Pampa was through Panhandle territory.

SWC Roundup

By United Press International
Southwest Conference trainers had a heavier workout Monday than most of the loop's grid- ders. As the 1964 season dwin- dles into its final weeks, the tape and handage squad spent time patching up war-weary players.

Both Rice and Baylor—who will meet league-leading Arkan- sas and dethroned Texas, re- spectively—had a list of wound- ed that might miss Saturday's action.

The Owls, readying for their bout with undefeated Arkansas, worked in sweat shirts. Coach Jess Neely said that Owl play- kicking specialist Larry Rice might miss the Razorback game. Rice wrenched a knee in the Texas-Tech game.

Defense Crippled
Four of Baylor's defensive aces will be missing workouts this week, fighting time in an effort to get well enough to play against Texas. Trainer Sam Ketcham said Bobby Map- les, James Rust, Fred Allen, and Ramsey Muniz would stay out of pads this week.

The Razorbacks came out of their victory over winless Tex- as A&M last Saturday with only one injury. That was top defensive end Jim Finch, who sprained an ankle. He is ex- pected to be well for the Rice game, but end Jerry Lamb, sidelined since the Hogs knocked Texas off the nation's football throne, is still on the doubtful list.

The Arkansas-Rice game be- came an official sellout Mon- day. Only 1,100 tickets re- mained to be sold when the box-office opened and they were gone within the hour.

Royal Frets
Longhorn coach Darrell Roy- al fretted and fumed about his next two opponents in his weekly press conference Monday. The coach of the year in 1963 worried out loud about the Bay- lor passing attack. "I believe that our offense will have to be more productive than it is now if we intend to beat Baylor."

Royal then gazed a bit fur- ther into the future and said, "Just as we suspected, TCU is beginning to look like a football team." The Frogs have played spotters to two previous undefeated - bound Longhorn teams.

Meanwhile, the Horned Frog- ran through a light drill, set- ting their long-range sights on Texas. TCU has an open date this Saturday, giving them two weeks to work up for the Long- horns.

In Lubbock, Texas Tech worked out under the lights preparing for their Saturday game with West Texas. Three Raiders were out with injuries today, but all looked like they would probably be back in ac- tion by Saturday. Jerry Ship- ley, James Cecil and Kenneth Gill were on the casualty list.

The SWC cellar-dwellers be- gan work for their show-down game Saturday to see who will dominate the bottom rung of the ladder. SMU had a light workout, looking at films of their 7-0 loss to Texas Satur- day.

Texas A&M worked long, pre- paring for their game with the Ponies in Dallas.

OSU Star Double-A's Can Fill Gets Arm Berths This Weekend

By United Press International
Nearly half the 32-team Class AA state playoff brackets may be filled after the coming week- end's round of action along the Texas schoolboy football front.

Three teams—Grapevine in 10-AA, Floresville in 26-AA and Bishop in 30-AA—already have assumed themselves of a shot at the crown Rockwall won a year ago.

The picture is fairly clear in most of the remaining districts, but some titles can't be de- cided until next week when the final games of the regular season are scheduled.

This Week's Slate
Here's how this week's sched- ule stacks up as far as playoff spots are concerned (by dis- tricts):

1—Phillips can clinch spot by beating Sanford-Fritch; 2—Iowa Park by beating Electra; 4—winner of Denver City-Morton game gets it; 5—Stamford by beating Anson; 7—Dublin by beating Cisco, but only if Granbury beats Hamilton; 8—Fred- ericksburg, if Mason beats Llano; 9—winner of Nocona Jacksboro game gets it; 12—Marlin by beating Mexia; 18—Taylor, if Georgetown beats Del Valle; 22—Port Acres by beat- ing Kirbyville; 24—Bolton by beating Sweeney; 25—Palacios by beating Vanderbilt, but only if Ganado beats Yoakum.

Showdown Games Due
Showdown games are set next week between Floydada and Friona in 3, Rockwall and Plano in 11, De Kalb and Lib- erty-Eylau in 13, Atlanta and Gladewater in 14, Cooper and Winstboro in 15, Canton and Kaufman in 16, Cameron and Rockdale in 17, Humble and Sour Lake in 23, Boerne and Randolph Field in 27, Hondo and Devine in 28 and Freer and Premont in 31.

In 19-AA, Columbus battled favorite La Grange to a 6-6 tie last week and, because of an edge in penetrations could take the playoff spot by beating Gid- dings and Hallettsville.

In 21-AA, Cleveland is idle and plays Rusk Nov. 13. A Rusk victory would likely leave the two tied with Crockett.

In 29-AA, where Goliad slipped up on Sinton for a 0-0 tie last week, Sinton would still get the playoff nod because of a penetrations edge if they both win their two remaining games. Sinton plays Refugio and Taft while Goliad faces Mathis and Refugio.

The schedule, by districts (all games Friday and all games district games un- less noted):

CLASS AA
1—Boys Ranch at Sunsett, Dalhart at Spearman, Phillips at Sanford-Fritch
2—Electra at Iowa Park, Seymour at Olney
3—Dimmitt at Abilene, Floydada at Lockney, Friona at Olton
4—Morton at Denver City, Post at Fremont
5—Anton at Stamford, Ballinger at Colorado City, Winters at Hamlin
6—Aging at Crane, Marble at McCamey
7—Dallin at Cisco, Granbury at Ham- ilton
8—San Saba at Brady, Llano at Mason
9—Declar at Bowie, Nocona at Jacks- boro
10—Burleson at Lake Worth, Rowell at Everman, Mansfield at Justin, North- west
11—Rockwall at Wilmer-Hutchins, Lewisville at Plano, Kaufman at Seagoville (vs.)
12—Haltom at Waco County, McDiv- ert at Cooperas Cove, Marble at Mexia
13—Teggie at West
14—Kath at Clarksville, Hooks at Paul Powell, Liberty-Kyle at New Bod- ley
15—Dallingerfield at Linda-Kilders, Glad- water at Gilmer
16—Commerce at Winstboro, Cooper at Mt. Vernon
17—Chapel Hill at Canton, Grand Saline at Lindale, Van at Minola
18—Cameron at Caldwell, Navasota at Rockdale
19—Georgetown at Del Valle, Egin at Round Rock
20—Belville at Katy, Klein at Tomball
21—Crockett at Livingston, Madisonville

Russians Will Go All-Out in '68

LOS ANGELES (UPI)—One of the nation's top athletic officials pointedly warned the U.S. against sitting back on its Olympic laurels Friday and said the Russians will have "a special reason" for trying to hog the gold medals in Mexico City.

The Russians were "com- pletely shocked" by the fact we won 30 out of 36 gold medals in the two major events during the Tokyo Olympics, said Col. Don- ald F. Hull, Executive Director of the Amateur Athletic Union.

"We can never hope to win that many again because the Russians are going to make sure they'll have much better teams at Mexico City four years from now," Hull added.

Special Reason
"They wanted the next Olympic games to be held in Mexico City for a special reason. The Russians know the people down there are poor, and poor people generally are far more susceptible to Communism than others."

"The Russians figure if they can make a great showing in the Mexico City Olympics, it would be a tremendous feather in their cap."

"I'm not talking from here- say. I know for a fact the Rus- sians already have offered to send some of their coaches to help the Mexicans," Hull con- tinued.

Gabriel Korobkov, said he might go down to Mexico just to help out despite the fact he previously had said he planned to retire after this year."

In any sport, amateur or pro- fessional, there is a normal tendency to relax a bit after a winning performance and after Tokyo, our Olympians certainly would seem entitled to do so, grave mistake.

"After each Olympics, there is a common tendency to coast in our country for two years and then work feverishly for the next two years simply to get ready," he pointed out.

"We can't afford to do that this time. Sure we did well in track and swimming. Maybe a lot better than we ever expect- ed. But how about our perfor- mances in the lesser-known sports? I'm talking about events such as gymnastics, fencing and freestyle and Greco-Roman wrestling. We didn't exactly bowl over all the other countries in those sports."

"Our country has a fine pro- gram mapped out in track and exactly bowl over all the other countries in those sports."

"The Bills not only sport a perfect 8-0 record, but they also lead in all but one statistical department. Their first include rushing, total offense, scoring, pass defense, rushing defense, total defense and scoring de- fense."

Oddly, it is the Oakland Raid- ers, possessors of a 1-6-1 re- cord, who prevent a clean sweep of honors by the Bills. Oakland is tops in passing while the Bills had to settle for second place.

Powerful Cookie Gilchrist, in- tent on recapturing the rushing title, has carried for 621 of the Bills' 1,326 yards.

Bufs Lead AFL Stats

NEW YORK (UPI) — The statistics released today by the American Football League cer- tainly add credence to the amazing tale of the Buffalo Bills.

"The Bills not only sport a perfect 8-0 record, but they also lead in all but one statistical department. Their first include rushing, total offense, scoring, pass defense, rushing defense, total defense and scoring de- fense."

Oddly, it is the Oakland Raid- ers, possessors of a 1-6-1 re- cord, who prevent a clean sweep of honors by the Bills. Oakland is tops in passing while the Bills had to settle for second place.

Powerful Cookie Gilchrist, in- tent on recapturing the rushing title, has carried for 621 of the Bills' 1,326 yards.

Yankees Join Capt. Kangaroo
NEW YORK (UPI) — The New York Yankees were officially the property of the Columbia Broadcasting System today.

The deal was consummated in fitting silence Monday with the formal signing of final papers that turned over 80 per cent of the Yankee stock to CBS. The signing was held privately and after it was completed CBS issued a short announcement.

Former Yankee co-owners Dan Topping Sr. and Del Webb received \$5.6 million each of the \$11.2 million paid by CBS. In addition, the network has an option to buy the remaining 20 per cent interest in the Yankees now shared by Topping and Webb within five years.

The transaction had been studied closely by the Department of Justice ever since it was first announced in August. The department admittedly was seeking to determine if any anti-trust violations were involved, but it has not announced any decision as yet, one way or the other.

STAYS WITH YANKS
NEW YORK (UPI) — Yogi Berra, recently fired as manager of the New York Yankees, returned his signed two-year contract to the Yankee front office Monday as a special field consultant.

The former manager retains the privilege of making another deal for himself under the contract terms.

The Pampa Daily News

A Watchful Newspaper
EVER STRIVING FOR THE TOP O' TEXAS
TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities. We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself, no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

Elections Can Be Stolen

On the record of past elections, today's presidential vote count probably will be crooked in spots. Your ballot may be stolen. If you have been voting long it is likely that your vote has been stolen before this.

The National Municipal Review (NMR) some years ago publicized an Honest Ballot Association (HBA) estimate that at least 1 million votes were stolen in the 1952 election.

HBA chief investigator George Abrams warned at the time: "Election frauds are increasing. Nearly every area in the United States—big city, small town—cracker barrel village—has some type of election fraud. It may be in a national election or one involving local school boards, judges or highways."

Samuel H. Still, an election investigator for Congress, said in a report on election scandals that: "Approximately 50 public figures who occupy high state and municipal offices today would not have won them had the elections been carried out according to law."

Abrams and HBA fingered the 1928 election of Franklin D. Roosevelt to be governor of New York, citing "the famous long count." FDR beat Republican Albert Ottinger.

"Democratic boss Ed Flynn's cronies," said Abrams, "sat quietly in the Bronx counting ballots at snail's pace until 2 a.m., when the traditionally Republican upstate returns showed Ottinger's exact margin."

When the (Bronx) boys knew how many votes were needed, they went to work. Republican ballots (in the Bronx) were thrown out under any pretext. Lead concealed under the finger

Ironclad Security

The visionaries are talking up a couple of ideas these days that sound nice. One is the concept of a "right" to an income. The other is guaranteed lifetime job security. If we know our demagogues, you'll be hearing much more about these notions.

The "right" to an income presumes that "society," or rather the hard-working members of it, owes everybody a minimum living, whether he works or not. Obviously, one man's guaranteed income is made up under this scheme of parts of other men's earned incomes.

As one politician put it, "the people of Appalachia have as much right to prosperity as a well-to-do suburb of New York. That sounds well, but it happens that most of those who live well in Westchester County worked hard, earned money, and then moved to pleasant Westchester County to raise their families."

BERRY'S WORLD

"I guess I am to you what Cuba is to Russia—friendly, but expensive!"

Sensing The News

By THURMAN SENSING

THE RUBBER STAMP 88th CONGRESS

While the nation watches closely the developments on this election day, it has little mind for the session of Congress which recently came to an end. Yet the record of the 88th Congress, after 21 months in continuous session, was directly related to the issues in the race for the Presidency.

It was a tremendously significant session of Congress, and a tragic one as well. Sen. Strom Thurmond (R-S.C.) has pointed out that this session of Congress "broke all records in its great leap forward toward socialism, centralized government and irresponsibility."

Insofar as the growth of socialism is concerned, the Johnson Administration's "War on Poverty" bill was the largest step forward to the kind of America that the leftwing Americans for Democratic Action (ADA) have sought since their founding in 1947. Norman Thomas, the nation's best known self-identified socialist leader, praised this administration bill for its "socialist approach."

It provides for labor camps in the states—camps that will be under federal control. Interestingly, one of these camps was planned for Yorktown, Va., where America's conservative revolution against English centralism came to an end. The people of Yorktown in 1964 were opposed to the establishment of the camp, and it now will not be imposed on their community. So the spirit of independence still beats in American hearts.

Another heavy blow at individual liberties was struck by the Johnson Administration when the misnamed Civil Rights Bill was rammed through Congress, giving federal agencies a mandate to interfere in fundamental private business operations on the local level.

This legislation undoubtedly is but the beginning of a massive federal effort at socialistic regulation of every enterprise in America, no matter how small. U.S. business has not yet begun to feel the full impact of this new law, which will strip employers of their rights to select their employees and will make company personnel managers subordinate to bureaucrats who have special groups or individuals that they want to promote or otherwise favor.

With the so-called Civil Rights law in its arsenal, Big Government will have a powerful weapon with which to conduct a war of harassment against free enterprise in the United States. In addition, the 88th Congress was obedient to the White House by enacting legislation such as the Domestic Peace Corps, Mass Transit, Youth Employment Corps, Food Stamps, and tremendous amounts of foreign aid. Speaking of foreign aid, it is worth noting that one of the beneficiaries of U.S. economic and military aid, the pro-Communist dictatorship of Sukarno in Indonesia, recently used equipment furnished by American taxpayers to launch a guerrilla war against the anti-Communist government of Malaysia. Indonesian parachutists were dropped on Malaysia from a U.S.-built and paid for C-130 E transport. The Johnson administration declined to take effective action against the Indonesians. In the U.S., the Security Council did nothing. So it went during the 88th Congress.

The other side of the coin is that Congress declined to approve a proposal for amendment of the Constitution so as to permit voluntary non-sectarian prayers and Bible readings in public schools. The Senate took no action to prevent further action by the Supreme Court operating as the chief political shaper of congressional districts.

Truly, the 88th Congress left behind it a shameful record. Though Congress is one of the three coordinate branches of the U.S. government, it acted as a rubber stamp agency for the Johnson Administration. Under President Johnson, Congress was whipped into line and into a thoroughly subordinate status as it had never been before, not even under the Kennedy Administration. Those Southern Democrats who are fearful of White House retaliation against defense bases in this region, played an especially dismaying role in the betrayal of the country's best interests and in abandonment of the rights and independence of Congress.

Today at the polls, it is hoped Americans kept in mind the need for strong, independent Congressmen who will not be

Backstage Washington

CIA, State Dept. Backing Haitian Exile Dejoie Despite Suspicions of Left-Wing Aims by His Supporters

PAUL SCOTT

WASHINGTON — For a tortuous foreign policy, none is more perplexing than the double standard now being pursued by the Johnson administration in the dictator-plagued Caribbean.

On one hand, stern measures are being forcefully invoked to prevent Cuban refugees from warring against Fidel Castro's Communist dictatorship. The full weight of the U.S. government is being exerted to this end—the State Department, the Navy, Air Force, Coast Guard and other agencies.

At the same time, the Central Intelligence Agency is covertly supplying money and arms to favored Haitian exiles seeking to rid their long-suffering land of their long-drenched dictator, "Papa Doc" Duvalier, self-proclaimed "life-time president."

Leader of this preferred group is Louis Dejoie, one-time Haitian senator.

Moving freely between the U.S. and the Dominican Republic, his main base of operations, Dejoie is in close touch with CIA authorities—who in turn are acting under the direction of important State Department officials.

Thus, the department not only is fully cognizant of this undercover activity, but has a direct hand in it.

Other Haitian exiles, also fighting "Papa Doc," are wary of Dejoie and leading elements supporting him. They charge his ranks prominently include Communists and other left-wingers whose real aim is to replace Duvalier with a Castro-type Red regime.

Leader of this critical faction is Dr. Roger Rigaud, also based in the Dominican Republic.

A one-time Haitian businessman and strongly pro-U.S., Rigaud is distrustful of the State Department and CIA and is getting no help from them. Some aid is coming from Caribbean countries and individual Americans.

SAVED BY STATE DEPARTMENT — Influential Dominican authorities are making little secret that they favor Dr. Rigaud, and would like to get rid of Dejoie and his motley assortment of strongly suspected left-wing followers.

Dominican President Donald Reid Cabral is credited as feeling very much that way.

But the Dominican's hands are tied because of State Department and CIA support of Dejoie. The Dominican regime is heavily dependent on the U.S., and in no position to oppose the Johnson administration.

A graphic illustration of this was the recommendation of the Dominican National Investigation (Justice) Department that Dejoie and his group be ousted. The ruling civilian triumvirate, headed by Cabral, were very

eager to enforce this proposal. But the crackdown was blocked by the State Department. Through diplomatic and other channels, the department enabled Dejoie to remain in the Dominican Republic and to continue using it as a base of operations.

Also the State Department last summer intervened in behalf of several Dejoie henchmen to quash gun running charges against them.

A special commission of the Organization of American States is in Santo Domingo arbitrating a long-pending boundary dispute between the Dominican Republic and Haiti. Headed by Manuel Trucco, Chile, the commission favors all Haitian exiles be asked to leave the Dominican Republic as a move to improve relations with Haiti.

The State Department is covertly opposing this peace proposal.

The Department is against Dejoie's group being ousted from its Dominican base, and to prevent that is blocking the Trucco commission's recommendation.

CARRIBBEAN FLASHES — A top Dominican official, with extensive sugar interests, turned over \$100,000 in cash to an attorney to be deposited in a numbered account in a Swiss bank. This Dominican official made a big killing in the U.S. also imported several hundred duty-free U.S. automobiles.

Three Cuban exile leaders, one of them Ernesto Oliva, a commander in the Bay of Pigs invasion, are touring Latin America seeking arms and funds for a new anti-Castro movement. The other two are Ernest Freyre and Ventura Rublers. Plan of the group is to operate outside of the U.S., and to keep aloof from the CIA and State Department.

Pull Up A Chair

By Frank J. Markey

The old-fashioned double bed is doomed. Taking its place will be either the "king" or "queen" size super double beds. The king size is two feet wider and 10 inches longer than the present standard product and the queen size is six inches wider and 10 inches longer. Manufacturers say they are needed because the coming generation will be taller and maybe a bit heavier than our oldsters. The new trend will prove a boon to the textile industry since all housewives will need oversize bed linen, too.

Today's smile: Two fellows were marooned on a desert island for several years. One day one found a family size Coke bottle washed up on the shore. He picked it up and rushed to his friend saying: "We've been here so long we've shrunk."

Education is on the move in the European Common Market countries where 900,000 domestic and foreign students are enrolled in 75 universities. France has the largest student population with 245,000, and Italy and Germany follow with about 240,000 each. Italy boasts 24 universities, France 21 and Germany 18. Tuition is low in comparison with the U.S. with French and Italian students paying \$20 a year and those in Germany about \$140, but living costs are excessive. Nearly 40 per cent of the students are women, something unheard-of a few years ago.

Thoughts while shaving: Every now and then we come across an old remedy for some ailment. A "sure cure" for headaches years ago was to heat a key in a fire, drench it with cold water and place it on the forehead. That was before they discovered aspirin, but it worked. Keys were also used to stop nosebleeds by holding one against the back or nape of the neck. Sounds like witchcraft, but our ancestors believed in such palliatives. . . . When they finally get around to redistricting Congressional districts it may be done by computers. A New York firm asserts they "think machines" can perform the task in minutes on the basis of population concentrations at a cost of about one-half cent per district. Already 32 states are considering the use of them. . . . "Key locks" are an innovation at gas stations on the West Coast. They permit truckers and other big users to drive into a station after closing hours, fill their tanks and be billed later. . . . Pizza from vending machines is the latest thing in Denver, Colorado. You choose the size, drop anywhere from 35 to 45 cents in the slot, wait three minutes and out comes a hot pizza. . . . If someone ever asks you on a quiz show to identify a water ouzel or dipper, tell them it's a bird, resembling a thrush, and is found only in parts of Europe and Asia. . . . Chicago has been the scene of 24 national political conventions, more than any other city. Balti-

At Long Last: Good Sense Love Movie

NEW YORK (NEA) — On second thought, we were quite alarmed to learn that a movie was being made from the book "Sex and the Single Girl."

It had seemed to us originally that the book would make a good, wholesome, rollicking film in the tradition of the old Andy Hardy pictures, filled with seemingly insurmountable problems solved by heartwarming common sense.

As we remembered "Sex and the Single Girl," it was a very jolly non-marriage manual for women still unmarried by the age of 23, with nifty tips on what to serve for brunch, how to ing an affair without getting heavily involved, how to decorate a loathsome nest, having two or more affairs at once, when to ask for more, and so on.

In fact, we foresaw not a movie but also an immediate sequel, such as "The Son of the Single Girl," to be followed by a long and happy series set against a background of the Olympics or the Bay of

However, when we tried to cast the movie mentally, we got what Judith Anderson's title role as an intimate with David Ben-Gurion, or Everet Dirksen, or by sheer will power, Charles Gault.

Why that was so, we imagine. But it is very aging not to be able to cast of a daydream any than that, especially when we have read the book and felt persecuted and took on the plot. Consequentially, we hurried down to the book and read it.

And in these several years since then, we have read the book and help classics, including the "Single Man" and the "Campus Sex Union." Again he didn't just talk. He came back to the U.S. even though he would face serious difficulties here.

He didn't just think about deserting to Cuba. He went to Mexico and attempted to arrange passage.

There are many tortured people known to police and other agencies. The problem is first to separate the "doers" from the others. But even that isn't enough. There are many "doers" who don't assassinate presidents.

The potential assassin seems to be a man with a need for self-aggrandizement, a man who believes he must exalt himself. That is, he thinks he's a real big national or world leader who should have a place in history if society would only recognize his worth. Assassination may be a way to gain fame. This self-aggrandizement should show up throughout his history.

What type of man the potential assassin will pick as his target depends on whom or what group the tortured man thinks has wronged him. If he's a Marxist, anarchist or Hitlerite he may pick any handy important political figure as his target. Some of the experts suggest President Kennedy just happened to be the prominent man who was at a place convenient for Oswald to act.

How Do Spot an Assin?

BY CROMLEY

ON CORRESPONDENT TON (NEA) — A primary analysis of Oswald's life by experts has turned up on what kind of attempt to assassinate

is to spot these men who can be protected

however, take 15 to 20 more of detailed check out these characters and outline the chances of possible presidential assassination with some reasonable assurance of confidence.

Age of 23, with nifty tips on this indication that what to serve for brunch, how to ing an affair without getting heavily involved, how to decorate a loathsome nest, having two or more affairs at once, when to ask for more, and so on.

The Nation's Press

CIVIL RIGHTS, SEX (California Feature Service) Sex has reared its head in the civil rights situation.

A Washington correspondent of the Christian Science Monitor has discovered that a last-minute insertion in the Civil Rights Act added to race, color, religion and national origin as a characteristic that must not be made the basis of discrimination. This, of course, raises all sorts of interesting questions. Are we once, more to have the wartime Rosie the Riveters with "Must boys" schools hire female teachers, even though the schools traditionally have preferred men? Must push restaurants hire waitresses?

Labor leaders and employers alike are studying the many ramifications of this last-minute curtesy to the ladies. A lot of hiring and operational policies could well be affected. For ourselves, however, we just wonder if possibly Margaret Chase Smith has a legal beef against the Republican Party.

Doctor — Tell your wife not to worry about that slight deafness. It's merely an indication of advancing years. Husband — Er — doc, would you mind telling her yourself?

PLEGDED — Kenny Ray Miller, 1964 graduate of Pampa High School and son of Mr. and Mrs. Homer Miller of 1220 E. Kingsmill, has pledged Delta Sigma Pi fraternity at Texas Tech in Lubbock.

Hidden Mikes Discovered in Warsaw Embassy

WASHINGTON (UPI)—A battery of concealed microphones has been discovered in the recently built U.S. Embassy building in Warsaw, Poland, the State Department disclosed Monday.

A spokesman said the listening devices apparently were installed in the early stages of construction of the building, which began in 1960.

The system was said to be similar to a network for more than 40 microphones earlier found secreted in the walls of the U.S. Embassy in Moscow. Discovery of the Moscow bugging was announced last May 19.

The State Devices in Warsaw were discovered Oct. 7. It did not disclose how many microphones were found.

Shortly after the discovery, Cabot lodged a formal protest with the Polish Foreign Ministry. Polish authorities denied any knowledge or responsibility for the listening system, the State Department said.

Department press officer Robert J. McCloskey said the embassy was equipped with a "secure room" where classified discussions were held. This is, in effect, a room within a room, designed to make electronic eavesdropping impossible. Embassy personnel also were given standard instructions that any conversations they held outside the secure room might be monitored.

Officials said investigation of the bugging has not yet reached the point where it could be concluded definitely whether any classified information may have been compromised.

Construction of the modern concrete and glass building began Oct. 1, 1960. The building is on ground leased by the United States for 80 years, renewable for another 20.

FOR CANADA'S ROADS—New signs have been developed by Quebec province's road department which give a lot of information in little space. From top, signs depict timber cutting, picnic and timber hauling areas.
