

# 'Visitations' by Dead Studied

**EDITOR'S NOTE:** This is the fifth and last dispatch on extra-sensory perception by the UPI's national reporter. By HARRY FERGUSON, United Press International Newsmen, sometimes discuss what would be the biggest news story of all. Over the years nominations have included a total war, tidal waves on all shores of all continents, the conquest of cancer and even some variation of the Duke of Windsor story in which love conquers all in high places. The man who probably cut closest to the heart of the question of what fascinates us all is a talented New York edi-

tor named Herbert Bayward Swope: "Positive proof of life after death." Survival beyond the grave is an article of faith in most religions. But Swope was not talking about faith, he was talking about iron-clad scientific proof. Great intellects have ranged themselves on both sides of the controversy over whether the personality can survive death. William James was convinced that a medium named Mrs. Lenore Piper was in touch with the great beyond. William Shakespeare, in a famous soliloquy on death, has Hamlet say that the other side of the grave is an undiscovered country from which no traveler returns.

**Some Remarkable Feats**  
Spiritualism is the religion that deals most directly with the problem. Its followers believe that we not only survive death but, through mediums, can communicate with our friends and loved ones among the living. Dr. J.B. Rhine of Duke University, a pioneer in the study of extra-sensory perception, has no interest in attacking faith or discrediting religion.

Reputable scientists agree mediums have performed some remarkable feats. William James was not a naive fool. He was a doctor of medicine and a distinguished psychologist at Harvard University. He probably was the best qualified man in the United States to pass judgment on Mrs. Piper.

When James went to see the medium, he took care that she would not know his identity or any facts about his family. Mrs. Piper went into a trance and began naming and describing some of James' dead relatives. She answered questions about the relatives accurately, although she did not claim to be in direct touch with them. She said she was getting her information through an intermediary in the spirit world or, in her own language, a "control." After much investigation James came to the considered judgment that Mrs. Piper "has supernatural powers."

**Search Goes On**  
The search for scientific proof of life after death was one of Rhine's primary objectives when he began his research more than 30 years ago. Not to keep you in suspense, he hasn't found it yet.

One scientific hypothesis offered to explain the powers of mediums is that they truly are receiving information, but not from beyond the grave. This theory is that in their trances they are receptive to mental telepathy from the minds of the persons grouped around them. It should be emphasized that this is a theory and not a proved fact.

Thousands of persons have reported visitations, most frequently in dreams, from dead relatives. One of the most interesting is described by J. Gaither Pratt, who has worked with Rhine, in his book "Parapsychology."

In 1905 James L. Chaffin, a farmer in Davie County, North Carolina, made a will leaving everything to his third son, Marshall. In 1921 Chaffin suffered a fatal fall. Sometime in June, 1925, the second son, James, said he began dreaming that his father was visiting his bedside. On one such occasion, according to James, his father said "you will find my will in my overcoat pocket."

James found his father's old overcoat and ripped away the thread that had been used to sew up the inside pocket. He found a note in his father's handwriting instructing him to read the 27th Chapter of Genesis in the family Bible. Before doing so, James got three witnesses.

**Bible Gave Clue**  
The Bible was so old that it fell apart when they opened it to the 27th Chapter of Genesis, which tells the story of Jacob and Esau and their birthright. There they found a will in their father's handwriting, made on Jan. 16, 1919, which divided the property equally among all four children. A court certified it and the property was redistributed.

A visit from beyond the grave? Or a case of clairvoyance on the part of the son? Pratt answers it this way: "On the face of the matter, the experience looks like an instance in which the father returned in the son's dreams for the purpose of righting a wrong to his family. But where a question of such momentous importance is at issue, we dare not claim an affirmative answer until there is no alternative explanation."

The will was there, all the while, in the Bible. And the paper giving the clue was in existence in the lining of the old coat. If we assume that the son was concerned with the injustice of his father's earlier will, he had sufficient reason to want to discover the later document which would set things right. It is not difficult, therefore to suppose that ordinary extra-sensory perception (clairvoyance) could have detected the existence of the paper in the father's coat."

Dr. J.B. Rhine, pioneer in the study of extra-sensory perception at Duke University, intends to retire next year.

When that happens his parapsychology laboratory will be converted into the Institute for Parapsychology and attached to the Foundation for Research on the Nature of Man. That is an

independent institution which will co-operate with a number of universities in this country and abroad. In recent years the Rhine laboratory has averaged six full-time workers and another half dozen handling editorial, technical and secretarial work. At present there are two fellows in training, both from India.

LOUISVILLE, Ky. (UPI) — Arlington State College at Arlington, Tex., got full accreditation as a senior college Wednesday from the Southern Association of Colleges and Schools.

The association, meeting in Louisville, gave Arlington State the highest recognition a school can earn under the national system of regional associations. Dr. J. R. Woolf, Arlington State president, and Dr. S. T. Keim Jr., dean of the college of arts and sciences, were on hand to hear the report. It was the final step in accreditation for the school, which moved from junior college rank to senior college status in 1959 by act of the Texas Legislature.

It is the fifth largest state-supported college in Texas. Its fall enrollment was 11,513.

### HD Agent Gives Club Program

GROOM (Sp) — Groom Country Neighbors Home Demonstration Club met recently in the Community Club House for the November meeting. Mrs. Walter Ollinger and Mrs. Charlie Hermesmyer were hostess for the meeting.

Mrs. Sybil Stringer, county home demonstration agent, gave a demonstration on "Food for You."

Mrs. Harry Britten, vice president, had charge of the business meeting. The club voted to give \$10 to the Legion toward a new building. The Christmas dinner was planned for Dec. 16.

Mrs. Glynn D. Harrell gave a report of the luncheon honoring "The Woman of the Year" held in Panhandle recently.

### Mrs. Hawn Hosts White Circle Meet

Wilfnie White Circle of Calvary Baptist Church met in the home of Mrs. Joe Hawn Wednesday at 9:30 a.m.

Mrs. Gene Curtis opened the meeting with prayer. Those present took part in the program, "Worship Through Giving."

The meeting was closed by Mrs. Jack Robertson with a call to prayer, and refreshments were served.

Attending were Mmes. James Jennings, Bill Cole, Owen Long, Charles McGahn, Jack H. Robertson, Curtis, Robertson and Hawn.

Before buying a blanket, be sure it is long enough to tuck in at least five inches at the foot of the bed.

## Dear Abby... Change Tactics and Try a Little Tenderness

By ABIGAIL VAN BUREN

DEAR ABBY: If they rented out "fathers" for special occasions, I would be their best customer. Everytime my boys need their father, he's somewhere else. Our youngest son played first base with the Little League last summer and his father didn't come to see him play once! Now it's football season and one of the boys plays in the band and the other one is on the team, and everytime they ask their father to go to a game, he's too tired. But let one of his friends call him up and he finds the strength to go with them. Frankly, I am getting sick and tired of being the only mother there. One of the kids asked our boys if they had a father. I have yelled at him, scolded, cussed him out, threatened and shamed him, but I still can't get him to go. Any suggestions?

give your rudeness for having asked it."

DEAR ABBY: I have two daughters in their teens, just starting to date. What worries me is their going in cars with boys. How can a mother find out what kind of a driver a boy is without embarrassing him? I have forbidden my girls to go out with some boys because of the way they drive. But what about the boys I never meet until they come for a date? I worry myself sick until the girls get home safely from a date. Don't say, "Ask your daughter," because if she likes a boy she isn't going to say anything against him.

CONCERNED  
DEAR CONCERNED: There is no way to find out what kind of a driver a boy is unless you have seen him drive, or his reputation for driving has preceded him. Tell your teenage daughters that they risk defacing, crippling injury or death when they accept dates with dangerous drivers. And if they do not get the message, your alternative is prayer.

DEAR ABBY: My fiancé is about two inches shorter than I am. We have never discussed the difference in height, but I have always worn flats when we were together, which made us about the same height. We are now making plans for our wedding. I would like to wear high heels, which would make me taller than he, so I asked him if he minded wearing elevated shoes just for the wedding. He said yes, he minded very much, and if I wanted him to be taller than I, I should wear flats. Will you tell me what is the right way to settle this?

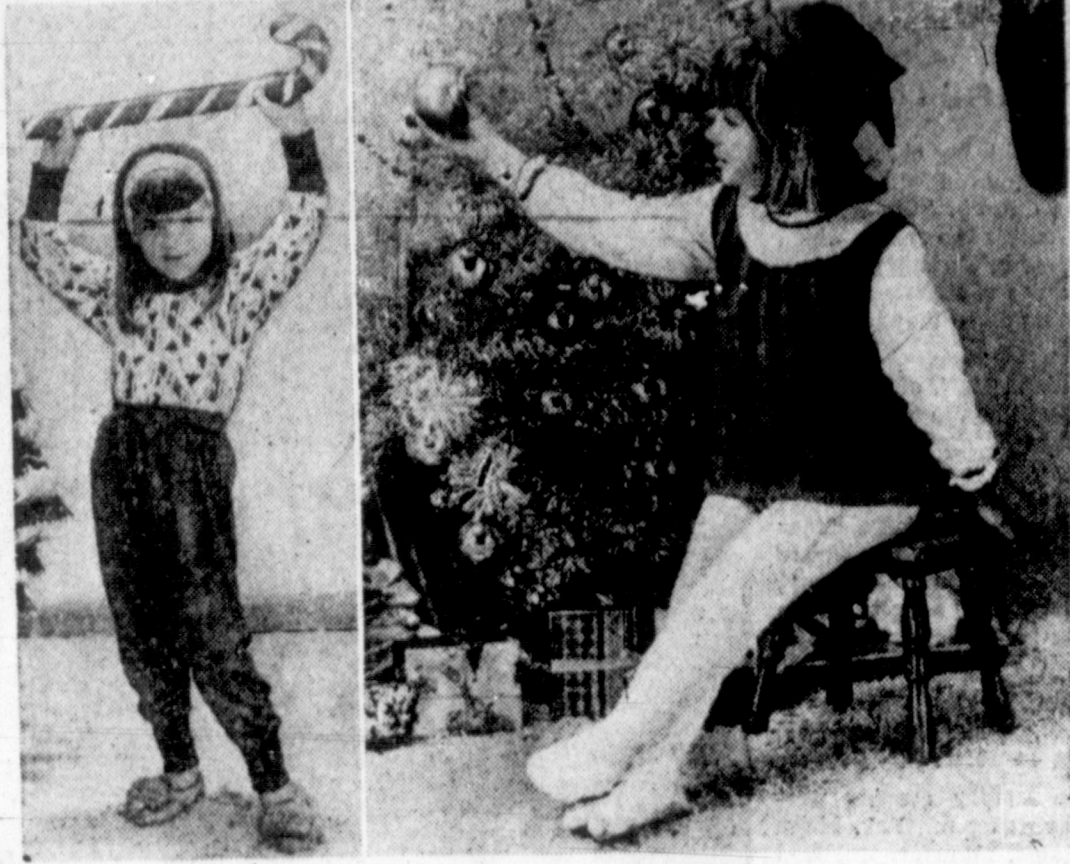

TALL GIRL  
DEAR GIRL: Since you have always worn flats with him in the past, wear them for your wedding.

Problems? Write to Abby, Box 69700, Los Angeles, Calif. For a personal reply, enclose a stamped, self-addressed envelope.

Hate to write letters? Send one dollar to Abby, Box 69700, Los Angeles, Calif. for Abby's booklet, "How To Write Letters For All Occasions."

For neglected ovens with crust and bake: - on grease, use a cleaning agent applied by a sponge. Use the spray - on oven cleaners for ovens, with only surface dirt.

## Sleepy-Time Togs for Tiny Tots

SLEEPING TOGS -- For the little lady who has a place on everyone's Christmas list, nighttime fashions will do the trick. Cotton sleepers (left) in candy cane design, shrink less than 1 per cent, a boon to mother, too. Pullover sleeper in the same fabric (right) interplays stripes and solids and is edged with ruffles.

## Housewife Prefers New Carpeting to Mink, Clothes Dryer Over Diamonds

By GAY PAULEY  
UPI Women's Editor  
NEW YORK (UPI) — The American housewife would rather put down new carpeting for Christmas than put on a mink coat. She'd rather have a dryer than diamonds.

Well, that's what it says here, anyway, in a continuing study of feminine gift preferences done by a firm which claims to be the largest maker of decorative ribbons and papers.

This is the fifth year of the Christmas gift preference study by the company, Chicago Printed String, which this year queried 200 homemakers selected at random from telephone directories in Chicago, Detroit, Atlanta and San Francisco.

Forty per cent of the women were under 25. Seventy-four per cent lived in families with incomes of under \$10,000, the rest with incomes of \$10,000 per year plus.

The researchers said that a cross-check of this year's answers with those of the four preceding years indicated that the margin of accuracy is close to five per cent.

Five years ago, the researchers advised husbands to "think mink" when considering what to buy the wife for Christmas. Now, they've found the mooning for mink is on the wane.

The widening eye of feminine acquisition now is fixed on dining room sets, new living room furniture, carpets, linens and other items of household adornment. The kitchen, the researchers said, has replaced the yen for gems as refrigerators, dryers, dishwashers, toasters, mixers, and even hair dryers make a strong showing this year.

Here's how the percentages broke down: In 1960, 24 per cent of the women queried wanted furs and other items of

## Weight in Gold

A pocket scale proves an inexpensive gift for the man who likes to be exact. It weighs only an ounce and comes in its own carrying case. Postage weights cover both packages and letters. A chart comes with the scale and gives air mail, first and third class postage rates from one to four ounces.

### Demonstrations Shown 4-H Food Unit Members

Top O' Texas 4-H Food Unit II met recently in the home of Mrs. H. B. Taylor Jr. Kathy Taylor presented a demonstration on preparing macaroni and cheese and Jen Snell gave a demonstration on making muffins.

Following the demonstrations the group practiced knitting. Headbands and house shoes were decided upon by the group as the first project. Mrs. Clyde Tidwell and Mrs. Robert Sailor gave knitting instructions to the girls attending.

Refreshments were served by Jan Crossman to Kathy Taylor, Jen Snell, Marilyn Sailor, Cara Tidwell and Mmes. Taylor, Tidwell and Sailor.

Officers of the club are Honey Jo Bond, president; Cara Tidwell, vice president; Mari-

### Taper TOPS Have Regular Meeting

Six members of Top O' Texas Taper TOPS met Monday in Citizen's Bank Hospitality Room for a regular meeting.

Members reported a loss of two pounds and a gain of four pounds for the past week.

During the business session final plans were made for the organization's bake sale to be held at 9 a.m. Saturday in Ideal Grocery No. One.

Mrs. Helen Corley was presented the fruit bowl for losing the most weight the past week.

Membership in this club is open and anyone wishing to attend the meetings each Monday at 1:30 p.m. in Citizen's Bank Hospitality Room is invited to do so.

Richard Johnson  
Minister of Education  
Central Baptist Church

## "BECAUSE JESUS CAME"

On the silent hills of Bethlehem shepherds sat watching their sheep by night. Suddenly the sky was brightened by a strange sight. Then the air was rent by a voice which said, "Fear not, for behold I bring you good tidings of great joy which shall be to all people. For unto you is born this day in the city of David, a Saviour, which is Christ the Lord." Then the songs of the angelic hosts proclaimed the glory of the new born Saviour.

No event in history has so changed the world. Because Jesus came the shepherds left their flocks and hurried to worship Him. The star which appeared at His birth led the wise men over hundreds of miles and many weeks of travel so they could worship the new born King. Because he came the wrath of the evil King Herod became so great that he ordered all male children under two years of age to be killed.

But that was nearly 2,000 years ago — so what does it mean today? Let us look at the benefits we know today because of His coming. Because Christ came there is freedom for men. Every where the religion of Christ is followed men enjoy a measure of personal freedom. The governments of the world who recognize the coming of Christ provide freedom for their peoples. There are other kinds of freedom we have because Christ came.

Because Christ came human life has value. Man is utmost value where Christianity abounds. This is not true under other religions of the world. Where — Christ is recognized relative freedom from suffering and dread disease is known. Where Christ is not known misery, poverty, suffering and disease are the lot of the mass of people.

Because Christ came there is salvation from sin. Peter said, "Neither is there salvation in any other; for there is none other name under heaven given among men, whereby we must be saved." Acts 4:12. This salvation is available to all who willingly accept it.

When Jesus came to the earth as a lowly babe, Mary gave birth to him in a manger, because there was no room in the inn. Jesus comes to each person asking for admission to abide in the life and soul of the individual. Shall He be turned away by neglect or willful rejection or will He be asked to abide? This is for each individual to decide for himself.

# Wheeler Meets Robert Lee In Regional

WHEELER — The current weather can be the big factor in tomorrow night's regional Class B championship game, opines Wheeler Mustang coach J. T. Hill.

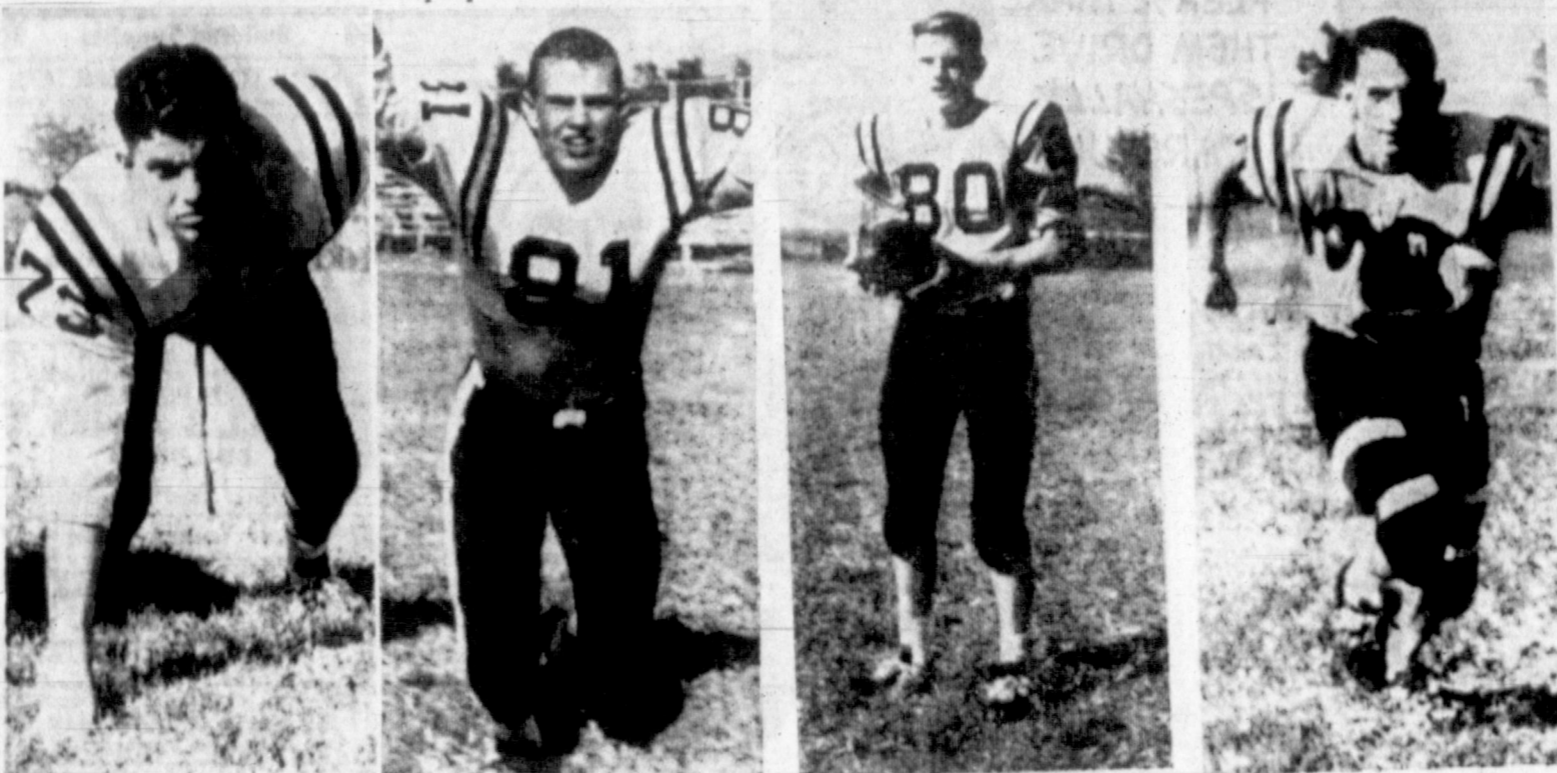

The Horses open the run for all the Panhandle marbles at 7:30 p.m. at Shamrock, against Robert Lee, and continued snow and cold could prove to be a big break for the Herd, said King.

"Lee has one of the finest passers I've seen, definitely the finest we've played this year, and while we feel we can stop their running attack, we are definitely worried about their passing. If it is cold or the field is slippery, that can be a big advantage for us."

Quarterback Jerry Tattford, a 185-pound senior who runs the 100 in 10.6 and throws aerial strikes up to 60 yards, spearheads a huge Lee backfield that has rolled to a 10-1 record, with an impressive 18-6 bi-district win over Matamoros Thanksgiving Day.

Although the Wheeler line has a slight weight advantage over Lee's, averaging 174 pounds to 171, the backfield average finds the Rebels weighing in at 185 pounds to Wheeler's 159!

In addition to Tattford, the visitors have a 235-pound fullback, Rusty Dodson, probably the biggest player in Class B, and a 170-pound halfback, Dennis Gartman, with the other half a 150-pound junior Robert Wink,

**BIG JOB** — These four Wheeler defensive standouts will figure to lead the way against Lee tomorrow. Sleepy Adams (73) and Danny Dorman (81) are slated to slow the only non-upper classman ton was defeated by Lee, 29-14. Jayton tied Matador, 6-6, which lost in bi-district last week to Wheeler, 28-0.

Only reason for the line advantage for Wheeler is due to the presence of a 135-pound sophomore guard, Buddy Vosburg, while 215-pound sophomore center Glen Roach is bigger than anyone the Horses have. The line is split with three seniors, three sophomores and a freshman.

King points out that Vosburg, despite his lack of size, is one of the toughest men on the team. "Dodson missed part of the season due to injuries and they moved Vosburg to fullback. Against Jayton, he ran for two touchdowns."

The only comparative foe, Jayton was defeated by Lee, 29-14. Jayton tied Matador, 6-6, which lost in bi-district last week to Wheeler, 28-0.

Tattford is the heart of the offense. King, who watched him against Throckmorton and viewed films of other performances, rates him as possibly the finest quarterback in Class B. "He's big, he's fast, he takes well and runs the bootleg superbly, but most of all, he's the most accurate long passer I've seen. On the first play against Throckmorton, he completed a pass that went 55 yards in the air. He completed about half his passes and he threw up to 60 yards dead on target. He has two ends who are fast and excellent receivers, freshman Gary Williams and senior Ricky Hatch. "Dodson is good, but frankly, I don't think he is as good as Richard Campbell of Matador. He's reported to run 10.8, but he didn't look that fast to me. I think we can stop him on his

off-tackle slants, and contain the running game, but that passes — well, it's going to be a completely different game than what we're used to.

"Groom is the only team we played that threw a lot and had an accurate passing attack, but they didn't have that size to go with it. We have to stop Tattford to stop Lee, and we would not mind an assist from the weather, to be frank."

Hill reported several of the Horses, including Little Bobby Vanpool and Jimmy Jamison, down with the flu, and Sleepy Adams bothered by an ear infection. Omley Mustang figured to be definitely missing Saturday is defensive lineman Roy Lanning, who tore up a knee in practice earlier this week.

## WD Does Win, Bucks Lose In Sunray Tilts

By ROGER SIMMONS  
News Sports Correspondent

**SUNRAY** — The White Deer Does romped to a 69-29 victory over Channing in their opening game in the Sunray Tournament Friday night, but the WD Bucks were toppled by the tall Channing Eagles, 54-43.

White Deer's girls play tonight at 6:30 in the winner's bracket against Adrian, which took a 30-30 victory over S-F. The Bucks were to meet Adrian B in the losers bracket at 2:30 this afternoon, Adrian being wiped out by Fritch, 79-29.

Other opening-round results saw Gruver over Stinnett, 48-38; Sunray over Hartley, 50-30;

Gruver girls edge Stinnett, 37-36; and Sunray girls rack up Hartley, 43-13.

The Does were never headed as Linda Hawpe dominated the offensive boards and Carolyn Young dominated the defense. WD shot into a 12-4 quarter lead, a 39-18 halftime edge and were 58-20 going into the final frame. Linda Stump drew a key share of the credit when Kay Schultz fouled out in the second quarter. Switching from guard, Linda took over the ballhandling and canned 14 points while Cindy Hubbard had 13.

Six-five Randy Sherrod was too much for the Bucks as he completely hogged both backboards and hit consistently from close-in, aided by a couple of outside gunmen, Bendiver and Jerry Muncey. Channing opened a 13-4 quarter lead, moved it to 27-12 at the half and then held off WD rallies for 44-30 at the quarter and another spurt in the final frame. Led by Roy Armstrong with 12 points and Jack Dunivin with eight, Sherrod had 26 points, Bendiver 13 and Muncey 11.

**Business Highlights**

By United Press International  
**WASHINGTON** — President Johnson wants the nation's businessmen to pass up a quick killing in profits and plan instead to benefit from long-term expansion. The President, in a speech before the business council Wednesday night, singled out bankers for special counsel. He said any increase in bank lending rates at this time "might slow down our economic advance."

**NEW YORK**—The New York Stock Exchange banned stop orders in the stock of Communications Satellite Corp. presumably to dampen the speculative fever that has gripped investors in the space issue. Comsat has attracted a big following among small investors and it's price has soared from its original offering price of \$20 to a record high earlier this week of 54 1/2.

**HOLLYWOOD (UPI)**—A new four-year contract agreement has been reached between the Association of Motion Pictures and Television Producers and the Directors Guild of America. The agreement is subject to ratification by the membership. The contract covers directors, assistant directors and unit production managers.
