LBJ Gets Firsthand Look At Ravaged Midwest Area

President Makes Air, Ground Damage Trip

The President flew at day-break from Washington to a tour of the Midwest states where Palm Sunday tornadoes killed 236 persons, injured more than 2,000, and left thousands more homeless.

Landing at South Bend, he went by motorcade to this northern Indiana town where the twisters killed 23 persons and injured 111.

"I know it is the will of the American people that whenever their neighbors or friends in any community, in any state, suffer such losses at the hands of nature, the government of this good and generous people should be ready and prepared to assist in every way," the President said at South Bend.

"That is the reason we are here."

Flying To Minnesota
Johnson planned to fly on to Minnesota for a first hand look at flood waters on the Mississippi River and its tributaries which have driven more than

Clements Is Given Two-Year Suspended Term

SPEARMAN (UPI) — Robert Earl Clements, who surprised courtroom officials Tuesday by pleading no defense to a charge of felony theft, was a free man today.

The state claimed Clements borrowed \$37,600 from the Southwestern Investment Co. without having the fertilizer tanks he put down as collateral.

Dist. Judge Max Boyer handed down a two-year suspended sentence to Clements after the 71-year-old defendant unexpectedly entered his plea.

Clements' case was one of many which stemmed from the activities of bankrupt and imprisoned farm promoter Billie Sol Estes.

Estes, now serving a 15-year sentence at Leavenworth federal penitentiary, had been brought to Spearman to testify along with Coleman D. McSpadden and Ruel Alexander.

McSpadden and Alexander are also serving time in Texas prison for other illegal dealings stemming from the Estes get-rich-quick schemes.

While Estes did not get to testify, he did not make the trip from prison for nothing. He got to visit with his wife and his three children in the Hansford County jail.

It was the second time Clements had faced trial on the felony theft charge. He was sentenced to two years in prison. His first conviction was tossed out by an appeals court because of a faulty indictment and his second trial was moved from Amarillo to Spearman on a change of venue.

Before Clements entered his plea Tuesday, his lawyers asked Judge Boyer to put Estes on the stand so he could be asked whether he would answer questions when the trial actually started or would take refuge in the fifth amendment.

Boyer denied the request.

US Planes Drop Leaflets Warning of New Attacks

SAIGON (UPI) — American jet bombers raided radar installations and military highway traffic in North Viet Nam today. Other U.S. planes dropped 3 million leaflets on Communist territory threatening bigger and more devastating attacks.

An Air Force spokesman said both missions were successful. All of the planes returned safely to their bases.

The jets attacked "targets of opportunity" along national highways seven and eight, 70 to 90 miles inside North Viet Nam, and radar stations on Hon Matt Island and at Cua Lua — the same installations bombed Tuesday.

The spokesman said the planes encountered some ground fire from small arms and automatic weapons, but did not meet with any opposi-

tion from Communist MIGs.

Drop Leaflets

The leaflets, about the size of playing cards, were showered over the cities of Dong Hoi, Ha Tinh, Vinh and Thanh Hoa.

They said: "We love peace, but if the Communists of North Viet Nam persist in their aggression, the air strikes will be continued on a wider scale until the Communists stop the killings in South Viet Nam."

It was the first such American use of propaganda leaflets in the war against the Communists.

The Air Force spokesman said F4C Phantom jets took part in today's raid on highway traffic, marking the first time they have flown against the Communist north.

The raid and the psychological warfare mission were carried out as another battalion of American Marines hit the beach at Da Nang.

North of Da Nang, South Vietnamese marines slugged it out with Communist guerrillas in a bitter swamp battle.

Today's landing at Da Nang, completed the buildup of the biggest and most powerful American military unit ever committed to a combat situation on the mainland of Southeast Asia.

Selma Grand Jury Bills Three in Slaying of Reeb

SELMA, Ala. (UPI) — Three late Tuesday, the men posted \$10,000 bond each and were released.

Four men had been arrested following the March 9 beating of the Rev. James Reeb, a 38-year-old civil rights advocate from Boston. But the grand jury indicted only three of them: Brothers William Hogg-

38, and O'Neal (Duck) Hoggie, 31, and Elmer Cook, 41. The other man, R. B. Kelley, 30, was not named in the indictment.

Reeb, a Unitarian-Universalist minister, died in a Birmingham hospital two days after the beating. He and two other ministers were attacked by a group of white men on a Selma street after leaving a Negro restaurant where they had eaten supper. The other ministers were not seriously hurt.

The incident followed a second unsuccessful attempt by demonstrators to march from Selma to Montgomery to protest Alabama voter registration procedures. The controversial march was staged about two weeks later, and a white civil rights worker, Mrs. Viola Gregg Liuzzo, 39, of Detroit, was shot to death while transporting Negroes back to Selma.

Three Ku Klux Klansmen were indicted on federal civil rights charges in the Liuzzo killing. A grand jury in Lowndes County, where the killing occurred, meets April 19.

Worst Flood Ever Strikes Minnesota

ST. PAUL, Minn. (UPI) — The worst Mississippi River flood on record, fed by melting snow and breaking ice jams, surged through Minnesota lowlands today, rising toward a crest 13 feet above flood stage at the capital.

Minnesota was the focal point in flooding that stretched to parts of Iowa, Illinois, Wisconsin, North Dakota and Montana. The Red Cross estimated more than 31,000 persons have fled their homes in the north central states damage runs into millions of dollars.

The Mississippi, swelled by heavy inflow from the flooding Minnesota river and breaking ice jams, was expected to spurt over 25 feet today and crest at 27 feet Friday. Such a crest

would exceed the disastrous floods of 1952 and 1981. Damage was expected to be less than in the previous floods, however, because the city is better prepared.

Ten Persons Died
Ten persons have died in the Minnesota floods which virtually forced whole communities to flee their homes.

St. Paul's downtown airport, Holman Field, was under 5 to 6 feet of water and it may be 10 feet at crest time. Closing of the railroad station forced the Milwaukee road, Great Northern and Northern Pacific to route passenger traffic through Minneapolis. Some trains ran up to 10 hours late. St. Paul mail also was sent into Minneapolis.

WEATHER
PAMPA AND VICINITY—Partly cloudy through tomorrow. Thundershowers late today and tonight. Low tonight near 50, high tomorrow low 80s. Winds westerly 15-25 mph.

ELECTION WINNERS — Pampa High School students elected a president and vice president of the student body Tuesday and the winners check election results. At right is Kenneth McWilliams, son of Mr. and Mrs. J. C. McWilliams, 1318 Mary Ellen, who was elected president and Doug Altom, son of Mr. and Mrs. Garner H. Altom, 2500 Charles, the vice president. (See Story Page 3).

Lyndon in Dark; May Get \$325,000 Armored Car

WASHINGTON (UPI) — President Johnson may get a new \$325,000 armored limousine whether he wants it or not. Key congressmen will insist on it.

"He didn't ask for it in the first place," said Rep. Tom Steed, D-Okla., chairman of a subcommittee that secretly slipped funds for the bullet-proof car into a Treasury Department appropriation bill.

"We deliberately didn't consult him about it. We did not want to put him on the spot. But we will insist that it stay in the bill."

The President sent word to the Senate Tuesday that he would not condone the expenditure. He asked that the item be stricken from the bill, along with an allotment of \$197,000 for an armored "follow-up" car for use by the Secret Service.

The sums were included in an extra \$3.9 million which Steed's appropriation subcommittee wrote into the bill for the Secret Service, to bolster presidential protection in a (See LYNDON, Page 3).

Walter Votes No

WASHINGTON (UPI) — Five Texas congressmen, including Walter Rogers of Pampa, voted against a proposed constitutional amendment covering presidential disability and succession Tuesday. Rep. Graham Purcell of Wichita Falls did not vote. The other 17 members of the Texas delegation supported the bill approved 368-29.

Also voting against the proposal were Reps. Henry B. Gonzales of San Antonio, Olin Teague of College Station, Wright Patman of Texarkana and Richard White of El Paso.

Tornado Warnings Out for Panhandle

A tornado forecast, calling for scattered severe thunderstorms with a few tornadoes issued for parts of the Texas Panhandle and northern Oklahoma shortly before noon today.

Most eastern Panhandle towns including Pampa were included in the forecast area.

The text of the forecast read: "Scattered severe thunderstorms with a few tornadoes, hail, two inches in diameter and winds up to 87 mph, could be expected from 2 p.m. until 8 p.m. today along 60 miles either side of a line running for 90 miles southwest of Gage, Okla. to 30 miles north of Pong a City, Okla."

The forecast also called for extreme isolated turbulence. Five-day forecasts predicted that temperatures would range well above normal — as much as 10 to 11 degrees above in the northern sections — during the remainder of the week and that Easter Sunday's chance of being warm and dry were excellent.

A cooling trend will dip into the northwest quarter of the state tomorrow, but it will be short-lived, the weather bureau stated.

Skies were mostly cloudy around Pampa this morning following an overnight low of 48 degrees. The high yesterday was 71 degrees and at 8 a.m. today the mercury stood at 58.

Rainfall had generally been light up to daybreak, but Memphis at the southeast corner of the Panhandle reported 2.30 inches, Shamrock 1.08 and Paducah .95. Lubbock reported .07 inches. Amarillo .04 and fog and Abilene 01.

But, by 8 a.m., a radar report noted numerous rain showers and thunderstorms north of the Fort Worth-Dallas area extending as far east as Green-

ville, as far west as Rhoads and northward into central Oklahoma. A line of showers or light rain also extended from 25 miles south of Wichita Falls to 30 miles north of Abilene.

The Weather Bureau said the rain activity would diminish over North Texas late this morning, but would reform there late this afternoon or evening.

Governor Accused Of Power Grab

AUSTIN (UPI) — Gov. John Connally's plan to make the governorship a four-year job was out of House committee today, at the cost of a hearing Tuesday night in which lawmakers accused Connally of power grabbing and political hypocrisy.

For seven weeks, the House Constitutional Amendments Committee had frozen action on the plan, but mounting pressure on the opponents led to approval Tuesday night by a vote of 12-7 after several attempts to cripple it failed.

The amendment, written by Rep. Gene Hendryx of Alpine, was sought eagerly by Connally. The governor's chief rival in the state democratic party, U.S. Sen. Ralph Yarborough, went on the record last week as opposed in principle to the extension.

If the amendment goes to the voters in November and wins their approval, it means that Connally could take a four-year term in 1966 and become the longest serving governor in state history.

Massive Rebuilding Underway in Midwest

NOT FOR A WHILE — There won't be any dancing at this pavilion in Manitowish, Mich., for a while, at least. A tornado that demolished the pavilion Sunday, leveled most of the buildings in the small southern Michigan community.

CHICAGO (UPI) — Neighbors pitched in to help neighbor today in rebuilding the homes, towns and dreams smashed by Sunday's massive wave of tornadoes in six Midwest states.

All across the Midwest, volunteers were streaming into ruined towns to help their neighbors rebuild. It was a massive rekindling of the pioneer spirit which built the one-time frontier.

They took their cue from Pittsfield, Ohio, the tiny crossroads town in Lorain County completely wiped out by the twisters. Work was under way today on Pittsfield's first new building. Townsfolk hope the structure will be ready for Easter Sunday services.

But there was much in the Midwest which could not be reclaimed.

After a re-check of their casualty totals, authorities in Indiana listed 127 dead. Ohio reported 54 dead, Michigan counted 45 victims, Illinois had 7 and Wisconsin 3. More than 2,000 persons were injured.

'No Animosity,' Hanged Pair Tells Officials

LANSING, Kan. (UPI) — Richard Eugene Hickock and Perry Edward Smith went to the gallows today for what had been described as "the most heinous crime in modern Kansas history."

Hickock, 34, and Smith, 26, were hanged for the 1959 murders of Eisenhower administration farm advisor Herb Clutter, his wife and their two teen-age children.

Hickock said he was going "to a better place." Smith criticized capital punishment.

Their last request from death row was a conference with novelist Truman Capote, who witnessed the executions. Capote had followed the case since the men were tried and convicted. He chatted with both men shortly before midnight.

Hickock was then driven from the Kansas State Prison to a stone warehouse 110 yards away, accompanied by five guards. He told Roy Church, a Kansas Bureau of Investigation agent who worked on the case:

"You know, you and I have had difficulties. You know you are sending me to a better place than this and please, do not have any bad feelings about it."

The trap door dropped at 12:19 a.m. and Hickock was pronounced dead 22 minutes later.

Smith looked at the scaffold through the rear window of the car as he was driven in. He got out, looked up at the gallows and said:

"I think it's a hell of a thing because a life has to be taken in this manner. I think capital punishment is legally and morally wrong."

Financial Gossip

By JESSE BOGUE
UPI Financial Editor
NEW YORK (UPI) — Last week's late surge in prices on the New York Stock Exchange boosted the Dow Jones industrial average above the 900 mark again, for the first time since March 24.

Since the start of the year, this market indicator has moved in the \$70-90 level, showing a gain of about 1.7 per cent between the first of the year and the end of the first quarter. Standard & Poor's average of 500 stocks in the plus-84.87 range, showed about the same percentage of increase over the period.

But there have been a number of stocks which far outstripped the averages in performance. Without assailing the high regard in which these indicators are held, they are known to be well weighted with the more traditional favorites in the market. Many of the big advances in listed and over-the-counter stocks during the quarter were in some special "growth" is-

sues, although a handful of these were included in the averages.

Figures Tell Story

What this can mean to the major investor is illustrated by the figures for one of the closed-end investment companies itself listed on the big board, Lehman Brothers, which showed a rise in asset value of about 4.8 per cent between the end of 1964 and the end of the first quarter of 1965, according to figures in its quarterly report.

A closed-end investment company has a fixed number of shares outstanding; the shares of open-end investment companies, or mutual funds, change in number as the companies redeem and sell their own shares. A closed-end investment company employs its assets in purchasing securities of other companies.

Explains Increase

The presence of some of these stocks in the Lehman portfolio helps to explain how its increase outstripped that for the averages. Thus, Texas Gulf Sulphur during the first quarter went from 51 1/2 (on Dec. 31, 1964) to 65 (on March 31), a gain of 27.1 per cent. Syntex, on the American Stock Exchange, went from 65 1/2 to 81, up 23.2 per cent. Litton rose from 74 1/2 to 84; Xerox from 98 1/2 to 120 1/2. Westinghouse Electric from 42 to 48, among those whose gains have been ahead of the market.

By the end of last week, these issues also had improved still more in price.

Lehman, managed by the investment banking house of Lehman Brothers, is one of 22 closed-end companies listed on the NYSE. The Exchange, NYSE magazine, noted in its current issue that the net asset value of all of them was \$3,152 million at the end of 1964, compared with \$2,913 at the end of 1963.

Temperature at the moon's equator, when the sun is overhead, reaches 30 to 40 degrees above boiling point.

Foreign Commentary

By PHIL NEWSOM
UPI Foreign News Analyst
When Ho Chi Minh and the other North Vietnamese Communists accepted the division of North and South in 1954 they did so only in belief that this was but a temporary detour on their way to control of all Viet Nam.

Two subsequent developments upset their schedule.

The government of South Viet Nam refused to go along with a provision of the Geneva armistice agreement which called for all-Viet Nam elections to be held on July 20, 1956, to reunite the country. Grounds for the refusal were that elections in North Viet Nam would not be free and that falsified returns could offset the vote from South Viet Nam.

Upsetting Communist plans further was the fact that United States economic aid totalling well over \$1 billion between 1955 and 1959 had enabled the South Vietnamese regime to register strong gains both economically and politically.

These were the facts which led the central committee of the North Vietnamese Communist party in May, 1959, to call for re-unification of Viet Nam by all "appropriate means" and in September, 1960, to call for the direct overthrow of the government of South Viet Nam.

Coincident with these steps taken in Hanoi was the upsurge South Viet Nam and the escala-

tion in the war which continues to this moment.

Disappointments stemming from the 1954 Geneva agreements provide Ho Chi Minh with strong motives to resist any settlement which would prevent his attaining control of all Viet Nam.

Short of this, the only developments likely to change his mind seem to be either economic or military disaster or both.

Economically, there is evidence that North Viet Nam can stand a lot of the bombing such as that to which it has been subjected by U.S. and South Vietnamese planes since February in Communist terrorism in any.

North Viet Nam has an iron and steel complex, cement and other factories which could be hit.

But the great bulk of its population is agricultural and even without industry probably would not be much worse off than it is now.

Special Easter Service Planned In Palo Duro Park

CANYON (Spl)—The Easter sunrise service will start at 5:30 a.m. Sunday in the Pioneer Amphitheatre in Palo Duro Park.

Since the service this year is to consist of scenes from the Bible leading up to the events of Easter, the earlier hour has been chosen to allow the opening in the stark shadows and new vistas which artificial light brings out in the canyon. Starting in darkness, the story will unfold as dawn breaks.

Following a custom started more than ten years ago, members of the Canyon Christian Youth Council will present the service. They are being assisted by Bill Rhee and Joe Batson who are preparing the tapes which control the light and the music and are working under the supervision of Mrs. William A. Moore.

John Brantley is president of the council. The advisor is Jack Boyette of the Calvary Baptist Church. The script for the service was compiled from Biblical quotations by Lillian and Lou Ann Cowart.

Income Tax, Safety Check Stickers Deadline Tomorrow

Two deadlines fall tomorrow. April 15 is the final day to pay your income tax without penalty and also the end of the line for auto inspections in Texas.

The Internal Revenue office and auto inspection stations in Pampa are expecting last minute rushes.

So, if you haven't already done so, get your income tax returns in the mail, and get that little inspection sticker on your auto windshield before time runs out tomorrow.

McWilliams, Altom Win PHS Election

(See Picture Page 1)

Kenneth McWilliams, Pampa High school junior, was elected president of the student body yesterday.

McWilliams will serve as student body president, which also takes in duties as student council president, during the 1965-66 school year.

Doug Altom was elected as student body vice president.

Cheerleaders elected were Dorothy Davis, Leslie Watkins, Ann Monroe, Linda Watson and Debbie Roper.

The elections were held yesterday morning. However, the ballots were not tabulated until yesterday afternoon.

School Principal Cameron Marsh said he was very pleased with the results and felt the new officers and cheerleaders would serve the school well.

Officer Dismissed on Misconduct Charge

Police Chief Jim Conner announced today the dismissal of Sgt. Charles Brunson effective today.

Conner said Brunson was dismissed for "conduct unbecoming a police officer."

Brunson had been on the Pampa police force since Sept. 7, 1963.

Lyndon White Deer-S'town Stock Show Thursday

(Continued From Page 1)

number of ways.

But no mention was made of the cars specifically, either in the subcommittee's printed hearings, its report to the House, or in the debate that preceded House passage of the bill.

Steed, who disclosed the plans later after learning they were about to be revealed elsewhere, said it had been thought originally that for security reasons the cars ought not to be mentioned.

The 1965 White Deer-Skellytown Livestock Show will open at 9 a.m. tomorrow and Friday in the White Deer High School bus barn.

The show is sponsored by these two communities for the purpose of giving the boys taking vocational agriculture in White Deer High School a place to exhibit their animals.

Earliest known contour map is a chart of the English Channel drawn in 1737.

Area Jaycees Boost Carrubi for President

Area I Jaycees held a planning session in Amarillo Tuesday night to help boost Pampa lawyer A. J. Carrubi in his bid for the state presidency of the Jaycees.

Approximately 60 Panhandle Jaycees attended the meeting, held in the Shamrock auditorium of the First National Bank.

Jobs were assigned to various Jaycee clubs to line-up behind Carrubi and solicit votes. Election of the state president will be held April 24 in El Paso. John Prather of Austin is Carrubi's opponent.

VIETNAMESE SPY — Nguyen Thi Nga, a Vietnamese bar girl, is shown in jail in Ba Xuyen, Viet Nam, where she has been charged with acting as a spy for the Communist Viet Cong. The charge said the girl was ordered by the Viet Cong to date U.S. servicemen so she could obtain military information from them. She allegedly planned to blow up a U.S. Army mess hall.

ISSUE WARNING
 TOKYO, Wednesday (UPI)— Communist China charged today that a U.S. military plane twice intruded into Chinese airspace Tuesday over Yungshing Island of the Hsisha group in Kwangtung Province. The Communist New China News Agency said the Peking Foreign Ministry immediately issued its 375th "serious warning" against alleged U.S. military provocations.

DECLINES OFFER
 BUFFALO, N.Y. (UPI) — "Beefsteak Charley," self-styled king of the hobos of America, offered City Court Judge Joseph J. Sedita membership in his organization. No thanks, Sedita said, "being a hobo isn't the greatest profession in the world." Charley offered the membership as thanks when the judge suspended a \$5 fine on a trespassing charge brought against the king.

CALL OFF STRIKE
 LONDON (UPI) — British European Airways pilots Tuesday called off a scheduled strike that had threatened to ruin Easter holiday travel plans for an estimated 25,000 persons.

FBI Asks Panhandle Residents Help in Catching Fugitive

The FBI in Dallas announced a stepped-up all-out effort to locate Donald L. Payne, of Haskell, Okla., one of the "Ten Most Wanted Fugitives" in the United States.

The FBI office in Dallas asked Panhandle residents to aid in the search for the man.

According to the FBI Payne is a highly dangerous criminal who is charged with a sex attack upon a Houston girl in July, 1959. He is being sought for unlawful flight to avoid prosecution for the crime of rape.

Payne allegedly raped an 18-year-old Houston professional dancer on July 10, 1959, after gaining entrance to her residence on the pretext of offering her a dancing job. He reportedly threatened to strangle her if

she resisted or cried for help. He has also been identified as the perpetrator of a vicious sex attack on a 12-year-old Houston boy on July 5, 1959, the FBI said.

Payne has a long history of violent criminal sex attacks and parole violations and was described by the FBI as a dangerous man who "would not hesitate to kill."

SINUS Sufferers

Here's good news for you! Exclusive new "hard-core" SYNA-CLEAR Decongestant Tablets are instantly and continuously "soothe" and clear all nasal sinus cavities. CANADIAN (Spl) — Five hundred and eighty-eight people, stockholders of The Canadian Production Credit Association and members of their families and guests, attended the 31st annual stockholders' meeting of the farmer-owned credit organization in Canadian.

Members were present from all of the six counties served by the Association including Gray, Hemphill, Wheeler, Lipscomb, Ochiltree and Roberts.

Featured speaker at the meeting, which was held in the Canadian High School Auditorium, was Jack Tompkins, farm and ranch specialist from Amarillo's KFDA-TV television station (Channel 10). Tompkins talked on new trends in government farm programs.

Two members of the board of directors, Dale Nix of Canadian and M. Lawrence Ellzey of Peryton, were re-elected to three-year terms on the board. Hold over members of the board are H. H. Keahey of White Deer, President; C. B. Henderson of Wheeler, Hugh Parsell of Canadian and Wallace Hamker of Booker.

Named to the 1966 nominating committee were Marvin Webster and J. D. Skaggs of Gray County; Leroy Kliever and F. C. Thomas of Lipscomb County; Marvin Longhofer and L. F. Etheredge of Hemphill County; Jack Osborne and Ellis Locke of Roberts County; Floyd Carver and Robert Hogan of Wheeler County; and B. J. Turner and Maurice Wilson of Ochiltree County.

Dale Nix gave the report for the board of directors; and Erbin Crowell, secretary and general manager of the association, gave the secretary's report to stockholders.

Groom Post Office Dedication Friday

GROOM (Spl) — Dedication of the new Post Office Building in Groom will be held at 4 P.M. Friday, according to Gene Wade, postmaster.

The new building was completed and put into use on February 18.

Built at a cost of approximately \$30,000, the modern brick building is 38 feet wide by 56 feet long. A paved driveway encircles the building for use of mail delivery trucks and patrons. New boxes and other equipment were installed at an additional cost of \$15,000.

The dedication program is being sponsored by the Groom Lions Club. Heading up the program will be J. Allen Dupree, assistant Regional Postal Director from Dallas.

The public is invited to the dedication ceremony Postmaster Wade said.

THE PAMPA DAILY NEWS
WEDNESDAY, APRIL 14, 1965

58TH
YEAR

Dear Abby....

The Best Approach
Is the Direct One

DEAR ABBY: For several years Jayson and Rita and my husband and I have been very good friends. We see each other in the evenings about two nights a week. Jayson is a salesman, so when he is in my neighborhood he frequently drops in for a cup of coffee. It's all perfectly innocent. I assure you, but lately he has been coming over much more often. My children remarked that their playmates have mentioned it. I suspect the neighbors are talking because they see his car in front of our house so many afternoons.

Now that I think about it, I'm not quite sure how I would like it if my husband called on a married woman in the afternoon. How can I tell Jayson it would be better if he didn't drop in any more? I hate to hurt his feelings.

ONLY FRIENDS
DEAR ONLY: The best approach is the direct one. Tell Jayson that his visits have become neighborhood gossip, and it would be better for all concerned if he discontinued his afternoon drop-in visits.

DEAR ABBY: I am a girl who turned 15 last week, but I am very mature for my age. Physically, I mean. I like a boy who is a senior at school and he is real neat. He has started to walk me home from school every night and we always take the long way by walking through the park. My mother is afraid I will get into trouble if I keep letting this boy walk me home every night. Do you think there is any danger?

LIKES HIM
DEAR LIKES: Not if you keep walking.

DEAR ABBY: What do you think of a father who won't buy his child a piano even though he could get one wholesale? Our 13-year-old child has begged for a piano for years. She hasn't done very well in school and I am sure it's partly due to the

fact that she is brooding about not being able to learn how to play the piano. She's promised that she would practice, but her father says, "I know how much you'll practice after the newness wears off. Besides, we can't afford one." We are not rich, but we could afford a piano, I know.

It's true, we may have to keep after her to practice, but if she has talent and enjoys it, he will be glad we bought it. And if she doesn't have talent, we can always sell the piano. How can I make my husband see how selfish and foolish he is?

A CONCERNED MOTHER
DEAR MOTHER: If you could rent a piano long enough to let the child prove her interest, Father may become convinced. If that won't sell, how about a relative? If there are no kinfolk or understanding friends nearby, how about the school, the church, or the "Y"? I think the little girl should have a chance, too.

CONFIDENTIAL TO PAT:
The surest way to destroy your enemy is to make him your friend.

Troubled? Write to ABBY, Box 69700, Los Angeles Calif. For a personal reply, enclose a stamped, self-addressed envelope.

For Abby's booklet "How To Have A Lovely Wedding," send 50 cents to Abby, Box 69700, Los Angeles, Calif.

HOT CORNER

It's a good idea to keep appliances containing heating units—such as toasters, coffee makers and grills—in one spot on a heat-resistant surface to avoid the danger of scorching. A counter top of ceramic tile is ideal for this purpose. It is fireproof, stainproof and easy to clean.

EASTER FASHION — Soft, classic lines mold the shape of the Easter fashion parade this year. Typical is this chalk-colored coat in Anglo's double-woven gabardine loomed in America. The shoulders are squared off with soft precision. Collar is small and neat. Gilt buttons are a bright contrast. This is a Seymour Fox creation.

POLLY'S POINTERS

Typewriter Table Trick
Adds Meal Time Space

By POLLY CRAMER

By POLLY CRAMER
Newspaper Enterprise Assn.
DEAR POLLY—We were not able to sit down in our tiny kitchen for a cup of coffee, to say nothing of a meal, until I discovered that a typewriter table, with end leaves, could be used to make a comfortable eating arrangement for two people. With the leaves down, the top measures only 16 by 20 inches. Other convenient features in the use of this table are that it moves easily in its casters and three place mats cover the top of the table.

MARIE
GIRLS—Have I ever told you that I keep my sewing machine on a typewriter table? It is easily rolled in and out of the closet.

POLLY
DEAR POLLY—We recently moved into a new home with pale green carpeting over the entire first floor. My husband's office has oiled floors and the

oil plus the tracks from muddy feet put me at my wit's end as I wanted to protect the carpeting. I made my husband a pair of booties by sewing up a loose pair of slippers out of old Turkish towels and putting a loose elastic around the tops. They are kept on the chair by the kitchen door and my husband slips them on over his shoes and wears them in the house. He does not mind as this is a lot easier than taking his shoes off and putting them on again to go out later. My invention has caused some laughs and maybe some misplaced pity for my husband but it has saved the carpeting. He too, is proud of his home and willing, as any husband should be, to do this little bit toward keeping it nice.

MRS. R. R.
DEAR POLLY—I have found a way to keep fingernail polish smooth while it is being applied. Put the bottle of polish in a glass of hot water for a few minutes

Gardening News

By THELMA BRAY

A donation of \$100 by Mr. E. L. Green was gratefully accepted by the Pampa Garden Club Civic Beautification Committee. All of Pampa can benefit from such contributions.

A drive through our city is a pleasant experience with all the forsythia, flowering peach, thrift, hyacinth, grape hyacinth, flowering quince, dwarf iris, daffodils and a few tulips in full bloom. If each citizen of Pampa will plan and plant his own grounds to help beautify Pampa, it will become a breathtaking picture.

Two Burr Oak Trees, donated to the parks by R. L. Studebaker were planted this week by Mr. Carl Wright, park supt., and park employes in the Aspen Park.

Several hundred wind break trees were planted by our park dept. recently and a large number of them have been pulled up, apparently by children in the Austin school area. This is a real problem that must be solved. Too much destruction of this sort takes place continually in our parks and city. It is very discouraging for those who are working to make Pampa a beautiful city. Any help in solving this problem will be greatly appreciated.

Several local garden club women attended the District One Convention of Texas Garden Clubs, Inc. held in Amarillo last week. Mrs. Howard Kittel, state president, was present. Attending the board meeting preceding the convention were Mrs. Myron Dorman, District Vice President and this columnist as District Litterbug Chairman.

before or while using it. This keeps the polish thin and easy to apply.

MARGIE
GIRLS—If you have found a shade you really like, write down the brand and color before trying this idea, for the label will surely come off in the water.

POLLY
"Child Chatter," "Painting Eater" and "Thrifty Hints" are three of the Pointer-packed chapters in Polly Cramer's 32-page booklet. To order your copy, send your name, address and 50 cents to: Polly's Pointers, in care of The Pampa Daily News, P. O. Box 489, Dept. A, Radio City Station, New York 19, N. Y.

Opening convention activities was a meeting of the District One Council of Nationally Accredited Amateur Flower Show Judges with a dessert coffee and a most informative, interesting and inspirational program presented by Irene Haddox of Dallas who is a world traveler and lecturer on art and flower arranging. Attending this meeting were: Mmes. Ed Parsons, John Sweeney, V. N. Osborn, Myron Dorman and this columnist.

Other garden club members from Pampa who were present for the Awards Banquet were Mmes. Tom Patton, Kenneth Osborn, and Helen Knox, members of the Top O' Texas Garden Club.

Three chartered buses took the convention delegates to visit the Alibates Flint Quarries near the Canadian River Dam with Mr. Floyd V. Studer and Henry Hertner serving as guides.

Mr. Studer, who discovered the quarries and Pueblo ruins in 1907 and has worked them since that time, says "Alibates flint was to prehistoric man what the finest steel is to man today." To Mr. Studer, an Amarillo man well known in the field of archeology, preservation of the source of the finest material available to prehistoric man in North America would provide the finest and only in-place educational exhibit of its kind in the nation."

Mr. Henry Hertner, an Amarillo businessman who is promoting national monument status says "Fauna and flora of the region in an in-place exhibit at the quarries and Pueblo sites would be a wonderful way to tell young people about those who lived before them." According to Mr. Hertner the flint is every color of the spectrum, as well as black and white.

The Flint Quarries were a mining and trading business operated by prehistoric man near here 12,000 years ago and in continuous operation for 11,300 years. Earliest inhabitants of the North American continent walked hundreds of miles to collect flint from the quarries. It provided weapons for hunting woolly-haired, long tusked mammoths which thundered over this region 10,000 years before the birth of Christ.

After the time of the mammoth hunters, flint from the

Alibates quarries was used by ice age man for stalking giant bison, camel, sloth and tapir, once plentiful over much of the Southwest.

A 66-room Pueblo ruin in the quarry area, excavated by a Works Project Administration crew in the 1930's, produced 16,000 identifiable artifacts — 11,000 of them not native to this region. The artifacts, representing a culture from 900 to 1300 A.D., are in the Panhandle-Plains Historical Museum at West Texas State University, Canyon.

Location of the quarries and nearby Indian Pueblo Ruins is one of the state's best-kept secrets. But opening of the 25,000 acre Lake Meredith will make them available to the public either by automobile or boat. It is expected to be one year before the quarries and Pueblos will be ready as a tourist attraction.

Mrs. Kittel, of Fort Worth, president of Texas Garden Clubs, Inc. attended the convention because she has helped to promote these quarries as a national monument.

Of interest to Pampans is the fact that the stones placed in the two rock gardens and the shelter in Aspen Park were brought to Pampa many years ago from these flint quarries by Mr. Charles Burton to build a rock garden beside his home and service station on Brown St. When the station was being torn down, Mr. Burton gave the large stones to be used in our city parks.

Lee P-TA Will View Style Show

Robert E. Lee Junior High P-TA will meet Thursday afternoon at 2 p.m. in the school auditorium.

Miss Geraldine Ramps's ninth grade clothing students will model garments which they have made in class this year. Since the ninth grade course is for beginners, each girl has worked with a simple pattern and cotton material of her choice. The total result is a colorful revue of spring dresses with appropriate accessories.

Commentator will be Miss Marilyn Keyes and piano accompanist will be Miss Judy Utzman.

A short business meeting will follow. There will be a report from the District 19 Spring Conference held at Shamrock.

SOFTENING SKIN

Do your knees and elbows embarrass you? Treat them to an overnight refresher. Smooth on a mixture of lemon juice and baby oil after scrubbing the areas with a brush first. This combination helps rid knees and elbows of discolorations while softening the skin.

Horoscope Forecast

By Carroll Righter

FOR THURSDAY, APRIL 15: GENERAL TENDENCIES: Now you are under excellent influences to wind up whatever arrangements you have already commenced to put into motion where others are concerned. Show that you value their best points and cement the bonds that exist between you and them much more closely. Get all in artistic, charming condition.

ARIES (Mar. 21 to Apr. 19): Partners are in a very good mood and will assist you to put your pet projects into operation now. Get out later to new places with fascinating people. Forget that sense of ennui.

TAURUS (Apr. 20 to May 20): Those unusual duties can now be performed with fine rapport of good associates. Impress them by your cheerful attitude. Labor with vim and vitality—crack a joke once in a while.

GEMINI (May 21 to June 21): Fine day to get into the activities that bring greatest pleasure and spread your cheer around. Your particular talents can reach their peak now. Do

not lose your temper or your head.

MOON CHILDREN (June 22 to July 21): Adding to comforts and being happy at home is best way to spend part of this day. Know what it is to be tranquil again. Give your family much of the attention they require.

LEO (July 22 to Aug. 21): Showing appreciation for the loyal backing of others in your finest projects is only right and just now. Get new ideas whittled down to practicable size. Make even greater progress.

VIRGO (Sept. 23 to Oct. 22): You are able to so juggle your finances that you make fine investments that bring real profit now. Be very practical and you have wonderful security. Be very accurate.

LIBRA (Sept. 23 to Oct. 22): You can accomplish pretty much what you wish now, but you have to be more explicit with right persons. Getting out socially to group meetings is fine. You make big headway.

SCORPIO (Oct. 23 to Nov. 21): Solving current problems only requires your analyzing own actions as well as those of others. Then all works out well. Carefully preparing for days ahead is then advisable.

SAGITTARIUS (Nov. 22 to Dec. 21): Fascinating allies now understand your views and give the right kind of co-operation for your projects. Be with persons you like tonight. Get ahead socially, too.

CAPRICORN (Dec. 22 to Jan. 30): Adopting a whole new attitude with others sees you getting ahead much faster in the future. Be a perfectionist in your work. Make a deep impression on those ennobling persons who count.

AQUARIUS (Jan. 31 to Feb. 19): You can become much happier now by using wisely those unusual aspects present. Be sure to give joy to others as well. This starts a chain of pleasant events.

PISCES (Feb. 20 to Mar. 20): Be willing to give the data that is required by others so that they become more successful. By following your intuition, fine things can occur today. Buy loved one a fine gift.

IF YOUR CHILD IS BORN TODAY, many favors will be conferred upon your charming progeny and it is best that you slant the education toward whatever will place him or her before the public in general, whether it be in entertainment field or selling, or whatever.

School Drop-Outs Discussed at P-TA

Bill Cooper, assistant principal of Pampa High School presented the program for the Sam Houston P-TA which met April 8 in the school auditorium at 2 p.m. The topic of the program was the present day causes and problems of school dropouts and a film strip was shown to illustrate these problems.

Mr. Cooper stated that the causes of school drop-outs were numerous and varied with interest, marriage, social problems of school drop-outs and low achievement as just a few of the reasons given for dropping out. He cited parental apathy and indifference and some-

times over expectations as contributing factors also. Mr. Cooper recommends that better child-parent-teacher relationships be established and that potential dropouts be given special counseling and encouragement in order to help him work out the problems that seem to motivate him to quit school. School drop-outs, according to the speaker, are not only a problem to themselves and their future but also to the social and economic stability of the community and to the nation as a whole. Mr. Cooper stated that it is his hope that people become concerned with this problem and take the necessary steps to correct and alleviate the problems not only in society, but in the homes and schools as well.

Business at the meeting was a report by Mrs. J. S. Skelly, legislation chairman, in which she urged the members to study

the two bills before the State Legislature on teacher pay increase and to write their senator or representative voicing their choice or opinions. Brownie Troop 18 presented the flag ceremony followed by Mrs. Zebbie Land with the devotional. Mrs. June Johnston won the door prize.

P-TA president, Mrs. Buddy Cockrell, announced the next meeting to be May 13 in the school cafeteria with the introduction of new officers and a tea for pre-school mothers.

Wheeler Stitch and Chatter Club Meets

WHEELER (Sp) — Stitch and Chatter Club met recently in the home of Mrs. Florence Wilson.

Members pieced a quilt top and enjoyed fellowship and refreshments were served to three guests and nine members.

Guests were Mrs. J. E. Leonard, Mrs. Nola Wright and Mrs. Nanny Slaton. Mrs. Wright became a member of the club. A short business meeting was conducted by the president.

Members present were Mrs. Nancy Warren, Mae Noah, Clara Childress, Edith Williamson, Etta Cruch, Sue Ivy, Mildred Jones and the hostesses Mrs. Florence Wilson.

Next meeting will be in the home of Mrs. Clara Childress on April 16.

Walter Rogers Reports:

Giant Stride Taken To Halt Smut Mail

The House of Representatives acted April 5 to protect American families from the forced intrusion into their homes of morally objectionable material. On your order, under the terms of this bill, the Postmaster General must require the sender to halt his mailings to you or your children of any mail matter you believe to be obscene, indecent, or vile.

You make the determination of what is obscene, under the provisions of this bill, and mailers must respect your decision or face a contempt charge.

Under existing statutes aimed at smut peddlers, defining what is and what is not obscene is a question often tangled in courtroom controversy. On the same day the House passed the bill to help you control your own mail, the Supreme Court agreed to hear the appeal of one Ralph Ginzburg, who in December, 1963, was sentenced to five years in Federal prison and fined \$28,000 upon his conviction for sending obscene material through the mails. The Federal judge who tried Ginzburg termed his publications "dirt for dirt's sake and dirt for money's sake." It remains to be seen whether the Supreme Court will sustain Ginzburg's conviction, and the crucial point at issue will be the definition of obscenity.

The bill just passed by the House makes an end run-around the problem of defining obscenity. Each person who receives mail is free to apply his own definition. If he feels that unsolicited mail addressed to him — or to his children — is obscene, he may return such mail to the Postmaster General and require him to notify the sender not to send additional such mail. The Postmaster General so advises the sender — who, if he fails to comply, can be haled into Federal court and punished for contempt.

Enactment of this bill will go a long way to help curb the vile traffic in pornography. The mass mailers of filth will find that millions of American parents have suddenly come into the possession of a means to curtail their operations. Its enactment would be one more blow aimed at what some have called the "pornography industry" — a business web "earning" its unscrupulous practitioners millions, perhaps billions, of dollars each year. Last year, according to Post Office Department estimates, more than a million American school children were sent material soliciting their purchase of smut disguised as "art," or "literature," or "culture," or "education."

Ginzburg's publications, for which he was convicted in Philadelphia, were being sent to teenage children. When this came to my attention I immediately embarked upon a course to help put a stop to this entire venture. The offensive magazine was Eros Magazine, Inc. It was only after a heated exchange of correspondence that I was able to find out that this corporation (?) was nothing more than a protective front. It

had been incorporated by Ginzburg, his wife Susan, and a Mrs. Celia Abelson.

ALL of the stock was owned by Ginzburg. In his own words, he wrote, "I am the only stockholder in Eros Magazine and the Board of Directors consists of myself, my wife Susan and Mrs. Celia Abelson." The people of this country can draw their own conclusions as to why these peddlers of filth think they need some kind of semi-false front behind which to hide. It might be well to remember that their first defense is always, "My Constitutional rights of freedom of speech and freedom of the press." It has been my opinion for many years that the entire procedure is nothing more than a sinister attempt to create legal entanglements that will defeat the very purpose of the laws and the Constitution behind which they are trying to hide. The Communists have been using this method for a long time — for example, their constant plea of the Fifth Amendment.

The time has come in this country to recognize the fact that words can be as offensive as physical blows. The written word can be more offensive many times than the spoken word, and much more wide-spread. It is time to stop begging the fact that obscenity, filth, and pornography, whether spoken, written, portrayed on the screens of movie houses, or shown on television, can produce nothing more than an immorality and corruption of morals that can and will destroy this nation as surely as Sodom and Gomorrah were destroyed. Let us hope the Supreme Court meets this challenge.

Harvesters Club Sandies in 3-4A District Game

HIGHLIGHTS AND SIDELIGHTS of the opening district 3-AAA baseball game at Pampa yesterday, as seen by the magic camera of staff photographer Bill Treloggen. Silhouetted against the evening sky in the top photo, PHS catcher Ricky Maynard gloves a low pitch to Sandie batter Ben Hankins, watched by umpire George Smith. Second row, left, sees Pampa pitcher Carl Harnsberger unload another of his sneaky curves which brought him a three-hit, 5-4 victory. Center picture shows Amarillo coach Guss Hrner, tobacco in jaw, ranting furiously at umpire Smith, who consults the rule book to see who is right in the fourth inning rhubarb. (See story on sports page). Center right photo shows two hopefuls and a future watch the Big Green in action as Shocker centerfielder Stevie Oler is flanked by a pair of Little Leaguers, Randall Townsend (center) and Mike Archibald. Lower left shows the other side of the story as Amarillo players line up to congratulate Kenny Vineyard after his three-run homer had put the Sandies in a short-lived lead. Bottom right shows the Pampa bench rooting their mates on, with manager Perry Moose holding a bat, next to Jim Arthur and Phil Smith. Standing is coach Deck Woldt, while Jimmy Moore looks worried behind a teammate with his back to the camera.

Elkhart Citizens Start Trek Back

Editor's Note: Tornadoes which swept the Midwest Sunday left awesome scenes of death and destruction in their wake. In the following dispatch, UPI correspondent Donald R. Pieper describes the plight of tornado-torn Elkhart, Ind., where 23 persons were killed and 111 were injured.

By DONALD R. PIEPER
ELKHART, Ind. (UPI) — From a hill high above this north-central Indiana town of 40,000 persons, you can look down and follow the course the tornadoes took.

The path of Sunday's storms is at some places a quarter-mile wide. There is virtually nothing standing in the path—houses are leveled, cars crushed, house trailers in bits.

Outside the tornadoes' path—even only a few feet outside it—houses were standing untouched, undamaged, as if nothing had happened.

It is a shocking sight, made even more so because you soon notice how strange the buildings that were left standing appear. The ones reduced to rubble look like they are the ones that belong there.

In the mass of wreckage you wonder not how all those buildings could be destroyed, but rather how anything could survive the force of the devastating tornado, which killed 23

persons here.

Trees 12 feet high were uprooted, lying yards from their original spot. At one point the only remaining part of a house lifted up and carried away by the tornado was a foot-square section of the linoleum-covered

kitchen floor, leaning against a shattered tree in the middle of what looked at first glance like a lot that had been vacant for years and years. Only 24 hours ago, it had been a home for an Elkhart family.

A trailer court nearby looked

like some giant child had left toy house trailers scattered around haphazardly after playing with them.

But the people, somehow, managed to overcome the initial shock and disbelief, even though the force of this tornado is a thing impossible to believe. By Monday they had organized efficient methods for treating the injured and making some sort of order out of the chaos.

Sixteenth century medicine relied heavily upon burning incense and swallowing strongly spiced medicines.

TORNADOES KILL HUNDREDS — A week-end of killer tornadoes in Arkansas and six midwest states killed at least 231 persons and left more than 2,000 injured, Indiana, Ohio and Michigan were the hardest hit. Top, a child's bike stands on its balancing wheels as cars and trucks are jumbled together like toys by a twister that ripped Conway, Ark., late Saturday night. Six persons were killed in Conway. In Watertown, Wis., Richard Conley, in checkered jacket, bottom left, holds a broken toy wagon as neighbors help him pick up belongings after a tornado demolished his house Sunday. Three persons were killed by the twister.

GET ORDERS
SOUTH MILWAUKEE, Wis. (UPI) — Bucyrus-Erie Co. Tuesday announced the receipt of \$12.5 million in orders for excavating equipment for construction, mining, and chemical companies in recent weeks. B-E said the orders consisted of four big walking draglines and a huge power shovel.
