(Daily News Staff Photo)

DEADLINE TODAY — The deadline for Texas motorists having their car safety checked falls today. Above Karl Parks, 530 N. Wells, goes about his job of checking out a Pampa resident's headlights.

Sad Greeting Due 'Little Hoover Commission' Bill

AUSTIN (UPI) — The legislature was in a pre-holiday limbo today, with sessions scheduled in both houses, but few lawmakers on hand. In the upper chamber, Sen. Bill Patman of Ganado expected a lonely reception for his "Little Hoover Commission" bill.

Sen. Dorsey Hardeman of San Angelo, who is something of an historian, had postponed debate on the bill with a talkathon about the anniversary of Lincoln's assassination.

Federal Officials Move Into Stricken Midwest

CHICAGO (UPI) — Federal officials were sent into the Midwest today to help carry out President Johnson's pledge of maximum assistance for tornado-ravaged towns and cities.

While recovery crews continued to clear through rubble left by the series of Palm Sunday twisters, economic experts studied voluminous reports on the extent of the storms' wrath.

Emergency Aid Sent Tornado Area Victims

WASHINGTON (UPI) — President Johnson, heartsick at the devastation wrought by wind and water in the Midwest, today threw into high gear a federal emergency program of money and materials to "rebuild and restore the life" of the stricken area.

Michigan and Ohio as federal disaster areas.

Shortly after returning to the White House Wednesday night, Johnson made good on his pledge of "maximum assistance" from the government. He signed documents designating tornado-hit areas of Indiana,

put into effect immediately after the weekend tornadoes. But under the disaster declarations, federal funds will become available for speedy repair of such public facilities as highways, public buildings and schools.

230 U.S. Jets Bomb Cong Headquarters

Kin of Maxwell Taylor Slain in Mercy Killing

Marines Join in Battle

PHILADELPHIA (UPI) — It was all there—the sorrow, the pity, the love, the tenderness and the courage — all in one heartbreaking sentence.

The confession to her slaying was written carefully on a note found on the body of her "best friend," Miss Dorothy Butts, 35, also of Bethesda, Miss. Butts used the same pistol to end her own life in front of the Bethesda police headquarters.

room at a nursing home in the historic Germantown section here.

beginning to flower and pink and white buds covered fruit trees. . . all was beauty for Miss Happer's last day of life.

Hubert Predicts Passage of Health, Voting Legislation

WASHINGTON (UPI) — Vice President Hubert H. Humphrey, comparing the present Congress to the famous "hundred days" Congress of 1933, today predicted enactment of a lot more legislative blockbusters, including the voting rights bill and health care for the aged.

Had Incurable Disease
It was only a few weeks ago that Miss Happer, 61-year-old sister of Mrs. Lydia Gardner Happer Taylor, came to the High Oaks home for Christian Scientists here, suffering the incurable disease which would have taken her life sometime in the not distant future.

Took Country Ride
For hours, the two friends rode through the countryside in bright sunshine and balmy temperatures. Spring bulbs were

Edith Barrett, the nurse on duty, was startled by "two sharp cracks." She ran to Room 8. Miss Happer was in

Minneapolis, St. Paul Brace for Mississippi

ST. PAUL, Minn. (UPI) — Minnesota's twin cities of Minneapolis and St. Paul braced against the mighty Mississippi today as the river inched upward in its worst flooding in history. Both cities were in a state of flood emergency.

The rampaging river, surpassing the disastrous floods of 1952 and 1981, is expected to crest at 27 feet Friday and hold the record level several days.

downtown airport and Union railroad station, a dozen lowland industries were ordered to evacuate from behind a leaky dike near the St. Paul Loop, and about 622 persons were out of their homes.

Minneapolis Mayor Arthur Naftalin declared a state of emergency in Minnesota's largest city, where at least five industrial areas were threatened, to qualify for federal aid. St. Paul took similar action at the start of the week.

Schools Out Until Wednesday

Pampa schools dismissed classes this afternoon for the Easter holiday period.

The city's public schools will not resume classes until next Wednesday morning.

WEATHER

PAMPA AND VICINITY — Fair through Friday with a little cooler temperatures. High Friday near 70 with low tonight upper 30s. Winds northerly 15-30 mph.

PHS CHEERLEADERS — These five girls were elected cheerleaders for Pampa High School Tuesday by the student body. Seated left to right are Leslie Watkins, Linda Watson and Dorothy Davis. Standing from left, Debbie and Ann Monroe who will serve during the 1965-66 school year.

SAIGON (UPI) — A force of 230 aircraft from all four U.S. services today carried out a dawn to dusk Saturday bombing of an almost impenetrable forest sheltering the Viet Cong Supreme headquarters in South Viet Nam.

In the first saturation bombing ever carried out against a Communist hideout, the American planes rained more than 1,000 tons of bombs on an eight-square mile area 65 miles northwest of the capital.

The explosives left the forested area in ruins.

American authorities said around-the-clock air raids on North Viet Nam's main highway are slowly squeezing off the flow of supplies to the Viet Cong in the South.

North Viet Nam reacted sharply to the night attacks, filing an "emergency note of protest" today with the International Control Commission.

"It is noteworthy that night bombing was carried out by the Americans only one week after (President) Johnson had raved about peace," Hanoi said.

While the night raids were under way, an explosion ripped through a U.S. ammunition dump in Qui Nonh City, 270 miles northeast of Saigon, destroying a stockpile of rockets. There were no injuries.

Tax Returns Due Tonight

WASHINGTON (UPI) — Today is the day the U.S. government performs major surgery on the American public in an area where it really hurts—the pocketbook.

And to add its voice to the confusion as last-minute taxpayers scramble to finish their returns, the Internal Revenue Service (IRS) has issued a variation on its usual warning to pay up or else.

Not all taxpayers owe the government at the end of the year. But this year more persons than usual are feeling the pinch because the mechanics of last year's tax cut did not provide for enough money to be withheld from many paychecks.

No figures are available, but many taxpayers — including President Johnson — have borrowed money to pay their tax bill on time.

The IRS announced recently that because of widespread under-withholding, "hardship" cases would not have to pay the entire amount they owe by tonight, although they would have to get their returns in on time.

If it comes from a hardware store we have it. Lewis H. Adams.

On the Record

Highland General Hospital cian. All patients, except severe accident victims, are requested to call their family physician before going to the hospital for treatment.

Please help us to help our patients by observing visiting hours.

Wall Street Chatter

NEW YORK (UPI) —Analyst James Dines says he is not as enthusiastic about the major bull market as he was when it was a few hundred points lower.

Dines says it is late in the bull market and one must be increasingly selective about purchases. Dines says he sees no major collapse at this point but advises against being over-extended.

Edward A. Viner & Co., Inc. says uncertainties are building up about next year's economy and developments between now and late summer will determine whether they are clarified. However, the firm points out the stock market tends to discount the future and for this reason it recommends holding all well chosen positions.

F. W. Bessel was the first to measure the distance to a star in 1835.

School Officials Attend Workshop

Superintendent Jack Edmondson and the five members of the Pampa school board were in Canyon this afternoon attending a regional workshop of the Texas Association of School Boards.

At the general meeting which was scheduled to start at 3:30 p.m., the program was to consist of discussion groups on school board problems with Dr. Emmitt Smith of West Texas State University as coordinator. The meeting will conclude with a dinner tonight at which Lloyd Turner, vice president of the Fort Worth Independent School District board of education will be the speaker.

The local school board members at the workshop and dinner meet include Dr. R. H. Hampton, H. Creel Grady Jr., John Gikas, Joe Reid and E. E. Shelhamer.

Cool, But Nice Weekend in Store

Friday will get the weekend off to a good start toward a bright, sunny Easter, according to the weather bureau in Amarillo.

Friday's forecast calls for fair weather with temperatures near 70. Saturday and Sunday's outlook calls for the same type weather with temperatures just slightly cooler.

Pampa recorded a high of 77 yesterday after an overnight low of 43. At 8 a.m., today the mercury read 48 degrees.

The hit-and-run shower that fell in Pampa yesterday left .15 of an inch of moisture.

Hail battered San Antonio for the second time within a few hours today in the wake of a surge of turbulent weather which spawned a rash of tornadoes across Texas Wednesday and Wednesday night.

One line of spring thunderstorms moved through the Alamo city between 4 and 5 a.m., peppering the north side of the city with marble-size hail.

Around 7:30 a.m. another and more violent weather outburst blanketed most of the city with hail, lightning and strong winds. There were no immediate reports of major damage or injuries.

But, in its path it left reports of a half dozen tornadoes, only one of which caused extensive damage.

That was one which struck the little town of Perrin, in Jack County, between Mineral Wells and Jackboro, damaging to some extent nearly every house in the community of around 850.

Two twisters damaged several barns and outbuildings 17 miles south of Paducah in Cottle County along the upper Wichita River. Golf ball size hail fell in Paducah itself.

Twisters also were reported

JOHN SCHMIDT

...scholarship winner

Pampa Student Wins Scholarship

John Schmidt, the son of Mrs. Joe Burton, northeast of Pampa, is the recipient of a \$600 competitive scholarship to McPherson College. He is presently a senior at Pampa High School.

At Pampa High School, John is active in dramatics and choral groups. He plans to major in either mathematics or history.

McPherson College annually awards scholarships with maximum values of \$2,000, \$1,500, \$1,000, \$800 and \$600 to selected incoming freshmen. The awards are based on composite results of the American College Testing (ACT) program scores, college faculty interviews, high school records, and other test scores.

McPherson is a four-year church related college. It enrolls 650 students. The Bachelor of Science and Bachelor of Arts degrees are offered in 16 curricular areas.

near Snyder and between Roby and Rotan in West Texas and along a 10-mile path between Fort Worth and McKinney, but no damage was reported.

Policeman Quits Pampa Police Force

Pampa's police dog "Ty" is without an owner again.

The dog's master, police patrolman C. G. Maddox submitted his resignation yesterday to Police Chief Jim Conner.

Conner said that the police department will check with trappers to determine if Ty can be retrained for the second time to a new master.

Ty was originally assigned to another patrolman who resigned last year. He was then retrained to obey Maddox.

Conner said he was not sure if Ty can be retrained for the third time.

Maddox, in his resignation, said he planned to move to California.

Killing

(Continued From Page 1)

bed, wearing only a slip. A deep red stain spread slowly over her left side.

Her visitor said nothing as the nurse hurried to the bedside. She "stuffed something" into her handbag, turned and ran out the door, Miss Barret said.

Other patients and attendants, unaware of the tragedy, saw the neatly dressed woman, blinking tears from her eyes, run from the building.

With the resignation of Maddox, and the dismissal of Sgt. C. S. Brunson yesterday, the police department is now two men short of its authorized strength.

FREE DIRT
ELY, England (UPI) — One million tons of soil will be given away by a local sugar factory to anyone who cares to haul it off. The dirt was washed

from 12 million tons of sugar beets cleaned at the factory during the past 37 years.

Gust of Wind Sends City Police Running

Failure to lock a west door at Montgomery Wards Department Store, Coronado Center, created a lot of excitement last night among Pampa law enforcement agencies.

Early last night, the company's remote burglar alarm system began sounding at the Pampa Police Department.

Three police units and one sheriff's department car speeded to the scene.

The building was checked and re-checked, but no burglar. Also, officers couldn't find where the burglar entered the building.

Upon probing around the west end of the building, officers discovered that the west door of the company had been left open and the wind had shoved it back enough to trigger the burglar alarm.

Officers then left the scene feeling confident that only a strong gust of wind had entered the building.

Burglary Charges Face Three Youths

A 17-year-old Pampa boy and two youths from Borger face charges of burglary in Carson, Hutchinson and possibly Gray County.

According to authorities, the trio is accused of breaking into vending machines at service stations and laundromats in Panhandle, Borger and Pampa.

Pampa law enforcement officers, when contacted this morning, said they were not aware of the circumstances of the Pampa and Gray County thefts.

Charged in Panhandle and Borger are Tommy Henley, 17, and Ed J. Gilmore, 17, both of Borger.

The trio will face the charges in Panhandle first and then in Borger.

The possibility exists they may also be charged in Pampa.

City, Borger Youths Arrested For 'Desecration of Graves'

Three youths, including one from Pampa, faced charges of "desecration of graves" in Borger today.

They are Charles E. Coble, 17, and Wallace H. Towles, 17, both of Borger and David L. Ferguson, 17, of Pampa.

Authorities said the trio admitted desecrating five veterans graves in Highland Park Cemetery.

They said the trio stole five crosses from the graves and buried them. Later, they dug up the crosses and burned them in streets and alleys at several locations in Borger.

The youths were expected to be taken into court to answer the charges today.

President, Wilson Meet on Britain's Pound Sterling

WASHINGTON (UPI)—British Prime Minister Harold Wilson today carried the battle of the pound sterling to the White House.

Wilson was scheduled to meet with President Johnson and top administration officials. The prime minister had at least three important money matters to talk over with the Chief Executive and his aides. These are:

—How to refinance some of the \$3 billion in credits put together by 11 nations to rescue Britain last fall when the pound sterling was under attack from speculators.

—How to keep U. S. efforts to strengthen the dollar from hurting the pound.

—How to reorganize the world's money system so that it can finance expanding world trade as well as stand up to attacks on individual currencies.

Wilson was said to be eager to get the idea across in Washington that the Labor government is pursuing the right course in its attempt to reinvigorate the British economy and restore the pound to a position of strength.

In a speech before the Economic Club of New York Wednesday night, the prime minister rejected "devaluation as a means of shoring up the pound. He promised to make British industry strong enough to "knock hell" out of its competition, including the United States.

American officials can be expected to lead a sympathetic ear to Wilson's three points. The pound and the dollar are the world's two chief trading currencies. An attack on one can hurt the other.

House Committee Hearings Continue On Poverty

WASHINGTON (UPI)—Officials from Washington, D. C., and New York City told a House subcommittee today about the role their cities have been playing in President Johnson's "war on poverty."

James Banks, director of the Community-wide United Planning Association in the nation's capital, was to lead off testimony. The hearing was before a House education and labor group which is considering Johnson's request to double anti-poverty spending.

Later in the day New York Mayor Robert F. Wagner and Deputy Mayor Paul Screevane were to present their views on the anti-poverty program. Rep. Adam Clayton Powell, D-N.Y., who heads both the full education and labor committee and the special subcommittee, has been critical of the poverty campaign in New York.

Sealed proposals addressed to the Newman Memorial Hospital, Inc., 2015 S. Broadway, Pampa, Oklahoma, covering the complete construction of the Newman Memorial Hospital, Inc., and its new wing will be received at the Public High School Administration, Pampa, Oklahoma, until 12:00 p.m., C.D.T., May 13, 1965, and then will be opened and read publicly the same date and hour. Any bid received after closing time will be returned unopened.

Proposals and specifications may be obtained at the office of Locke, Miner and Smith, Architects and Engineers, 1615 North Casson Boulevard, Oklahoma City, Oklahoma. A deposit of one hundred dollars (\$100.00) which must be in the form of a check on the firm's business banking account made payable to the architect, will be required for a set of plans and specifications.

General conditions and a set of plans and specifications by deposit and additional sets by paying printing costs of \$200.00. Full deposits will be returned to those bidders who submit a competitive bid at the time and place specified and who return the plans and specifications to the architect in good condition within fourteen days from the date of bid opening. One-half of the deposit amount will be returned to those bidders who do not submit a bid. Full deposits will be returned to those contractors who receive plans and specifications by deposit but discover they will not be able to submit a bid and return the plans and specifications within five days from the date they receive them, but no later than seven days prior to bid opening. Partial sets of plans may be obtained by paying printing costs.

Each bidder shall submit with proposal a cashier's or certified check or acceptable bidder's bond made payable to the Newman Memorial Hospital, Inc., Shattuck, Ellis County, Oklahoma, in an amount of not less than 5% of the largest possible combination of the bidder's proposal and alternates as a guarantee and execute such bonds and furnish such security certificates as may be required. Only the following surety companies will be accepted:

- A. United States Fidelity and Guaranty Company of Baltimore, Maryland.
 - B. St. Paul Fire and Marine Insurance Company, St. Paul, Minnesota.
 - C. Hartford Accident and Indemnity Company.
 - D. American Casualty and Surety Company.
 - E. Travelers Insurance Company.
- For information concerning any part of this proposed work, contact architect Locke, Miner and Smith Inc., 1615 North Casson Boulevard, Oklahoma City, Oklahoma, phone JA 5411.
- The Newman Memorial Hospital, Inc., Shattuck, Oklahoma, reserves the right to reject any and all bids and waive formalities and irregularities.
- By: Newman Memorial Hospital, Inc.

Oil Well Still Flaming Despite Heavy Rains

COOL (UPI)—Asbestos-covered dynamite was to be dropped into the white-hot depths of a gas well today, in an effort to quench belching flames leaping from their subterranean lair.

Heavy rains throughout the night failed to put a damper on the five-day-old blaze.

"It still looks as big as ever," Mrs. Beatrice Fincher said. Her home is barely 100 yards from the burning well.

Flamed oil and gas well fighter Paul (Red) Adair and his crews worked late into the night removing glowing pieces of metal from the well. As much metal as possible has to be cleared away before an attempt to set off the dynamite is made. The searing heat of the metal would ignite the gas vapors again.

Adair said he would lower the dynamite, bundled in asbestos wrappings, into the well today—if the winds continue to come from the south.

President-elect Lincoln wrote first draft of his inaugural speech in Springfield, Ill., before starting for Washington.

Rotary Members Hear Rev. Hauck

Rev. Donald Hauck, pastor of the First Presbyterian Church, discussed the activities of the Pampa Ministerial Alliance before the Pampa Rotary Club yesterday in the Coronado Inn.

Hauck said that the Alliance seeks to coordinate social work efforts as well as encourage community worship.

A new Rotary member, C. W. Mullins, was introduced to the club by Travis Lively. Mullins is superintendent of Skelly Oil Company's Schaffer Gasoline Plant.

Members were also reminded of the inter-city meeting next Tuesday evening at Frank Phillips Junior College Cafeteria in Borger.

Talented Easter Bunny

Playmate for Toddlers

FOREGOES FASHION PARADE — Too young for a new Easter bonnet, this little miss is content to forego the fashion parade for a romp with her own Easter bunny. Mom doesn't mind because her floppy-eared friend is handy for spills, tears and sniffles all year around. Baby's talented playmate is really a perky new way to have facial tissues available for all the daily emergencies facing the high chair set. The fluffy white bunny holds a pop-up box of pink, aqua or white junior size tissues.

Horoscope Forecast

By Carroll Righter

FOR FRIDAY, APRIL 16

GENERAL TENDENCIES:

This is not a very important day or evening, although it is good to look into whatever faces you that has to do with secrets that you want to know about, in order to handle matters on a better footing. Show that you can keep quiet about your friends and conditions even tho tempted to explain them.
ARIES (Mar 21 to Apr 19) — Analyzing well your obligations, knowing what others expect of you and paying bills is fine now. Put in a good day of activity. Don't have a delightful evening with your loved one.
TAURUS (Apr 20 to May 20) — Paying more attention to the viewpoints of associates; you can have far better relations with them, especially in small matters. Get into affairs of policy. Give them assistance they need.
GEMINI (May 21 to June 21) — Impress those around by your efficiency and loyalty — be practical. Associates will then be happy to co-operate with you more. All of your affairs run far more smoothly as a consequence.
MOON CHILDREN (June 22 to July 21) — Close ties and friends would be grateful for some show of affection and loyalty from you. Plan some form of recreation they like. Don't hesitate to bring your talents before the right people.
LEO (July 22 to Aug 21) — Know what you desire from you and be very efficient in carrying out plans. Get rid of whatever is no longer of real use. This will be quite easy to do today — others will lend a helping hand.
VIRGO (Aug 22 to Sept 22) — If you use more up-to-date systems, you can get daily work done with greater dispatch, allies are more appreciative. Soap, visit, etc. Be sure you keep important appointments on time.
LIBRA (Set 23 to Oct 22) — Both small and big business, money affairs can be handled wisely so that you have much security in the future. Get advice from experts. Show that you appreciate their efforts.
SCORPIO (Oct 23 to Nov 21) — Small personal matters can now be perfected to suit your needs. Dress nicely and be out to visit with powerful individuals. They help you in your ambitions.
SAGITTARIUS (Nov 22 to Dec 21) — Every opportunity is yours now to comprehend that which has been difficult in the past. Think over how you want private concerns to progress in

the future. Take right initial steps.

CAPRICORN (Dec 22 to Jan 20) — Adding to your circle of friends is fine at this time, so gad about lither and yon. Express your aims with right ones. Gregariousness pays off big dividends now.

AQUARIUS (Jan 21 to Feb 19) — Hitting it off well with powerful individuals will facilitate the accomplishment of whatever you have in mind. Increase prestige by being more dignified. Utilize energies wisely.

PISCES (Feb 20 to Mar 20) — If you are broad-minded now and open your consciousness to greater ideas, you can get out of that rut you find yourself in. You can grow proportionately. Don't limit your capabilities.

IF YOUR CHILD IS BORN TODAY, he or she will be the possessor of two great qualities — imagination and perseverance, which will lead him or her very far in the world of business, finance or art. However, teach early that directness in

PEGGY JO ORMONSON Editor

Dear Abby... Lady Invaded Her Mother's Privacy

DEAR ABBY: Dad passed away nine years ago, and mother recently. While going through their things I came across dad's and mother's old love letters, written to each other before they were married. 63 years ago. I read them and enjoyed them very much. I let my daughter and granddaughters read them, and they also enjoyed them. My brother, who lives in another state, recently came here for his vacation. I tried to show him the letters, but he refused to look at them. He said they were "private" and should have been left private. It hurt me deeply. They were nice clean letters, and nothing to be ashamed of. I did not think I was wrong to read them, but I would like your opinion.

HURT DEEPLY DEAR HURT: Your brother was right. Unless your mother willed those letters to you, suggesting that she wanted you to read them, you were wrong to have invaded her privacy.

DEAR ABBY: I am a 16-year-old girl with a big problem. How do you stop a rumor that is going around about you? Please answer me in the paper as my mother would wonder why I got a letter from you. Thank you, and hurry.

RUMOR GIRL DEAR GIRL: You cannot shut people's mouths. But actions (yours) speak louder than words (theirs), so behave in a manner that will make liars of your detractors.

DEAR ABBY: My mother-in-law and I are having a slight difference of opinion. She has a habit of walking into my house without knocking or ringing the bell. I do not think this is proper and I told her so in a very nice way. She says that she only does this to members of her family and there is nothing wrong with it. What do you think?

DEAR ABBY: My mother-in-law and I are having a slight difference of opinion. She has a habit of walking into my house without knocking or ringing the bell. I do not think this is proper and I told her so in a very nice way. She says that she only does this to members of her family and there is nothing wrong with it. What do you think?

CONFUSED DEAR CONFUSED: If people would treat their relatives with the same respect, courtesy and consideration they reserve for strangers, they would get along better. No one should walk into another's home without knocking or ringing the bell unless invited to do so.

DEAR ABBY: I had an experience four years ago which I wish to share with others who might be facing the same problem I faced. I was a teen-ager and an unwed mother who discovered too late that "he" didn't love me. My parents' only thought (and mine) was to make him marry me. He wouldn't, and I didn't know what to do. After a long talk with my minister I realized that I had to do what was best for the baby. Marriage when there is no love is no good for anyone. Especially the child. I went to a home for unwed mothers and gave my baby up for adoption. It was not a horrible experience which marred me for life, Abby. I was at peace with myself for the first time in my life for I felt that I was doing my best to right my mistake. There I met many other girls like myself, good Christian girls who made a mistake. And I made some of the best friends I will ever have. The hardest part was leaving my baby. Now I have been married for two years to a wonderful man, whom I love very much, and we are expecting soon. You see, this was such a small sorrow compared to the happiness I have now. And I know that my baby is happy, too, with parents who love her as much as I do. Just sign me, SINCERELY HAPPY

Troubled? Write to Abby, Box 69700, Los Angeles, Calif. For a personal reply, enclose a stamped, self-addressed envelope.

Scouting
Scoops

girls, who stayed in the lodge, made and served dessert to the leaders who were finishing their training course by "tenting out" over the weekend. The leaders taking the training were from Districts I, II and III.

Girls of Troop 40 and their leader, Mrs. Charles Davis, treated their parents to a Hawaiian banquet on April 10 in Pancel Hall. The hall was decorated in the Hawaiian theme and each girl dressed in costume for the occasion.

Last year, Troop 125 learned to knit and now they are sharing their new skill with Troop 210 by helping them learn to knit. This is Girl Scouting—learning a new skill, sharing it with others, and having fun. "Man is not the creature of circumstances. Circumstances are the creatures of men."—Disraeli

By BERKLEY EVANS
G.S. Troop Two
Camp folders for Day Camp, Troop Camp and Established Camp have been distributed. This summer there will be two sessions of Day Camp for Pampa, June 7-11 and June 14-18. Such things as nature study, crafts, cookouts, games, hiking, fishing, learning about trail signs and sketching are offered. Troop Camp will be July 25-31. Canoeing, swimming, hiking,

archery, campfires and other fun things will await you at Camp Kiowa. Established Camp is Aug. 8-19 and offers the same activities under qualified counselors.
Mrs. W. J. Felter and Scouts from Troop 1 helped out in the Girl Scout office with stapling materials and getting the camp folders ready for distribution.
Mrs. W. I. Jordan's Troop 92 set off for a fun-filled weekend at Camp Mel Davis April 9. The

You, Your Child and School

By DAVID NYDICK
UPI Education Specialist

One of the more important responsibilities of the schools is teaching students how to communicate effectively. Although the area of reading is unquestionably of top priority, we must also emphasize speaking, writing, and listening.

All learning is dependant upon these skills. In adult life, an individual uses these skills constantly in his work, social life, and every other activity in which he participates. Regardless of the profession chosen, success depends in great part upon one's ability in the skills of communication.

The formal teaching of these skills is the job of the schools. These areas are closely related and therefore are usual-

ly taught together under the title of language arts. As an example, a student will have great difficulty speaking if he has not learned to listen. This is emphasized with children who have hearing handicaps. Their speech is usually affected quite seriously.

Parents play a major role in helping their children learn to communicate. This is especially true in the case of pre-school children. A child first learns to talk by imitating the sounds made by people around him. He is usually very enthusiastic about learning this skill.

Parents should try to speak properly and clearly so that the child has a good example to follow. Baby talk on the part of adults is not a good idea. The child will tend to imitate

incorrect pronunciation just as easily as correct pronunciation. Parents will notice that the child usually imitates the first part of a word. As he grows older he begins to complete the words. It is therefore most important that he hears them correctly. Don't try to imitate him; let him imitate you.

All during the years when a child is developing he should be given many opportunities to use his voice, ears, and eyes for communication. The more one listens to others, the more he begins to hear.

The school program is designed to develop these skills. Children are given practice and instruction in distinguishing between sounds, shapes, colors, and other similar items. These are gradually developed into a complex program of creative writing, public speaking, debates, discussions, and dramatics.

Financial Gossip

By JESSE BOGUE
UPI Financial Editor

NEW YORK (UPI) — Profitable operation of an "in town" hotel is not and never has been easy, said Harry M. Anholt, but it can be done if management knows it must keep to the idea of what the public expects.

Anholt is president of Realty Hotels, Inc., owned by Dispatch Shops, Inc., which in turn is wholly owned by the New York Central. Realty Hotels operates what are known as the Grand Central Hotels, because they lie in the neighborhood of Grand Central terminal in midtown New York; the hotels are the Barclay, the Biltmore, the Park Lane, and the Roosevelt.

Each of them is an "older" hotel. None is constructed along

VOLCANO ERUPTS
AGANA, Guam (UPI) — An underwater volcano Wednesday sent steam soaring 8,000 feet in the air near Tinian in the Marianas island chain.

The U.S. Navy warned all crafts to stay clear of the volcanic area, 30 miles west of the northern tip of the island.

continuation and maintenance of services of a type which will attract both the new guest and the one who has been in attendance for a period of years.

Yet, perhaps because activity in midtown Manhattan never flags, in contrast to what goes on in the older areas of other cities, these hotels continue in unruined operation. Anholt said that the Barclay, for example, always has developed a substantial return, one which might be envied by many inns twice its size.

VIET CONG DESERTION and capture rates are rising. Here a South Vietnamese soldier watches two Viet Cong prisoners.

ACTION AT LEFORS — Highlights of the district 2-B track meet yesterday. In top photo, Little Bobby Vanpool of Wheeler hits the tape in the 100-yard dash, flanked by Funk Childress of Allison and Larry Lamberson of Groom, a tight second and third. In middle photo, Devert Murphy of Miami leads Freddie Goad of Wheeler in their heat of the low hurdles preliminaries. At bottom, Bill "Bruiser" Nichols of Lefors takes the handoff for the first leg of the 440 relay from Glen Hix, Gary Hardcastle of Wheeler takes it from Dunk Porter, and Bradley Trout of Mobeetie reaches for the baton being held by Little Joe Kelley.

Wheeler Wins District, Groom Strong Second

By JEFF COHANE
News Sports Editor
LEFORS—As expected, Wheeler ran off with the district 2-B track championship yesterday, but ran into unexpectedly strong competition from new loop member Groom.
The Mustangs, virtually unopposed in track for the past few years, rang up 152½ points and qualified both relay teams and nine individuals for the regional meet, but Groom, a fellow member of the loop in football, but previously in a different basketball and track district, ran up 100 points in their first session in the loop, qualifying five for regional. Host Lefors was unexpectedly strong with 70 points, Allison had 48, Briscoe 42½, Mobeetie 39 and Miami 24. The Hornets really ran their races in a hurry, as they were scheduled for a baseball game with Samnorwood immediately after the meet.

Golf Pros On Money Trail Again

HOUSTON (UPI) — Top golf professionals went after \$75,000 in prize money today in the Houston Classic, first big stop of the summer tour and a scramble made closer by the absence of some big names.
Billy Casper and Doug Sanders were the favorites as golfers teed off on the 7,233-yard par 35-36-71 Sharpstown Country Club course. The tournament's four rounds will end Sunday and the winners will share \$55,000 Classic purse fattened by around \$20,000 additionally from television.
Some of the "names" of the tournament were Bruce Crampton, Bob Charley, Mike Souchak, Tommy Bolt, Jackie Burke, Doug Ford, Dove Marr, George Archer, Gay Brewer, Jimmy Demaree, Charles Coody and Bob Goalby.
Coody shot a 63 practice round over the Sharpstown course. The competition record is 65.
Masters champion Jack Nicklaus, Arnold Palmer and Gary Player decided they would pass up the classic this year—Palmer and Juan (Chi Chi) Rodriguez. Others with a chance at taking top money were Tommy Aaron, for "personal reasons," Player for a trip to South Africa and Nicklaus because of television commitments and the coming birth of a baby to his wife.

Miami Hires New Cage Coach

MIAMI — A pair of former Top O' Texas natives return as August Wilbur "Red" Hart has been announced as the new basketball coach at Miami, with his wife Debbie being hired as a teacher.
Superintendent of Schools Weldon Snodgrass announced that Hart, who has been coaching in California for the past six years, had been hired last night. Hart, with equal coaching experience in both football and basketball, will serve as the new head basketball coach and assistant football coach.
Hart is a native of Panhandle and his wife, Joyce, is originally from Wheeler County. Hart graduated from the University of Texas in 1936 with a BS degree in Physical Education. For the past three summers, he has been studying for his master's degree at Texas A&M on an NDEA scholarship.
Hart started as assistant coach in football and basketball at Childress and Kermit, then became head coach at Round Rock. For the past four years he has been head football and assistant basketball coach at Bolso Grande High School in Garden Grove, Calif. Hart has been given a one year contract, said Snodgrass, who declined to mention a salary figure.
His wife, a graduate of West Texas State, has taught in both Texas and California and is presently chairman of junior high counselors in Anahem, Calif. She will teach English and History.
The Harts have two children, Phil, a sophomore and reputedly a good football player, and Debbie, a junior and a basketball player. They will report for duties at MHS in August.
Snodgrass said that the School Board wished to thank all those who applied for the coaching positions at Miami, and reported that "all openings are now closed. Coach Hart and coach Hall, the new head football coach, will assume all coaching duties at the Miami schools, including the junior high."
Head coach Lawrence Overcast, assistant Bill Stovall and junior high coach Bill Thomas had all resigned last month. Overcast has since become head coach at Clarendon Junior College.

Dodgers, Osteen Thinking Positive

By United Press International
Claude Osteen is thinking positive and so are the Los Angeles Dodgers.
The 25-year-old southpaw was obtained by the Dodgers from Washington in the Frank Howard trade when the status of Sandy Koufax became painfully doubtful.
Osteen's initial contribution to the Los Angeles cause Wednesday night was a routine going, two-hit, 3-1 victory over Pittsburgh that had even Koufax beaming and gave the Dodgers their second complete game in two starts.
The former Washington lefty, who won 15 games for the Senators last year and credits ex-

Manager Gil Hodges with teaching him to think positively and for his consequent improvement, fanned eight and had his bid for a shutout spoiled by Bob Bailey's homer with two away in the ninth.
Wills Steals Three
While Osteen rested on the bench between innings, shortstop Maury Wills continued his copping three more stolen bases for a total of five in two games and got caught in a run-down that precipitated the first fight of the infant season.
The newly appointed Dodger captain, who has vowed to steal early and often and break his own base stealing record of 104, reached base in the fifth inning after being hit by a Joe Gibbon pitch.
Bigon, the Pirates' losing pitcher, had Wills' picked off base moments later and in an effort to reach second base he barreled into Pittsburgh shortstop Dick Schofield. The two exchanged words briefly and started throwing punches.
As usual, order was restored quickly, no one was injured and no one was ejected.
Fairly Homers
Ron Fairly gave Osteen all the support he needed when he homered deep to right following rookie Jim Lefebvre's inning-opening double in the fifth.
In other National League games, San Francisco topped Philadelphia 5-2, Houston edged New York in 11 innings 7-6 and Chicago defeated St. Louis 7-3. Milwaukee and Cincinnati were idle.
Willie Mays' second homer in two days and seven hits by the Alop brothers, Matty and Jay, helped the Giants to their victory. Mays' roundtripper, a 450-foot blast off loser Jim Bunning came in the third after Matty Alop reached base on one of his three singles. Gaylord Perry got the win with relief help from Bob Shaw. Wes Covington's homer in the sixth accounted for both Phillie runs.
Withstood Rally
Houston scored four unearned runs in the 11th inning and then withstood a Met rally that netted three. The Astros fashioned the winning runs on a bunt single, four walks, two wild pitches by loser Larry Spangler's steal of home.
Astro righthander Dick Farrell went 10-1-3 innings and got the victory. Veteran Warren Spahn, making his debut as a Met, went eight innings, giving up seven hits, three runs and striking out three, before being pulled for a pinchrunner.
Ron Santo socked two home runs and George Altman added one as lefty Dick Ellsworth went all the way against St. Louis. Lou Brock powered a home run for the Cardinals and in a losing effort.

Chamberlain, Russell In NBA Showdown

BOSTON (UPI) — Bill Russell's long championship domination of rival giant Witt Chamberlain reaches a new climax tonight when they collide for the 89th time in National Basketball Association play.
Russell, the shot-blocking, rebounding keystone of the Boston Celtics' seven playoff crowns in the last eight years, has been an almost continuous champion as a schoolboy, collegian, Olympian and professional.
Chamberlain, the scoring and rebounding star on which the Philadelphia 76ers base their championship hopes, has never played for a team that captured a major crown.
Russell carries a 59-29 professional edge over Chamberlain tonight when the two lead their teams into the seventh and division playoffs. Philadelphia's 112-106 win on Tuesday night sent the series into the final game deadlocked at three victories apiece.
The teams will be clashing before a 14th successive capacity playoff crowd at Boston Garden for the right to meet Los Angeles in the best-of-seven championship playoffs starting on national television Sunday afternoon. The Lakers clinched their title showdown right by eliminating Baltimore on Tuesday night after the Bulls had taken St. Louis out of post-season play.
The 76ers shaped up as something of a Cinderella team, their height, might and muscle notwithstanding. Schayes' club, which split even with Boston during the regular season, had been an underdog against the Cincinnati Royals in the preliminary playoffs. But that didn't keep them from knocking the Royals out.

Angels leading hitter in '64, nailed down the victory in the seventh when he doubled home Cardenal, who collected four hits, and Willie Smith, who added three.
In other American League games, Baltimore whitewashed Chicago 6-0, and Washington defeated Boston 6-4. Cleveland at Kansas City and Detroit at Minnesota were both rained out.
Stops Sox Cold
Oriole righthander Milt Pappas, who bypassed an opening day assignment because of a sore elbow, stopped the White Sox cold on six-hits. A 16-game winner last season, Pappas whiffed four and didn't walk a man as the Pale Hoos failed to place two men on base in the same frame.
John Orsino and Norm Siebern, who had poor seasons last year, led the Baltimore attack with two hits apiece. Pappas was supported by a stout Oriole defense that executed four double plays.
Second baseman Don Blasingame ripped a two-run triple off ace Red Sox reliever Dick Radatz to drive in the winning runs in Washington's victory. Pinchhitter Jim King's single scored the first run in the seventh and, after a walk, Blasingame drilled his game-winning hit.
Winner Buster Narum and Boston starter Earl Wilson belted the game's only roundtrippers.
Shortstop Jim Fregosi, the

58TH YEAR THURSDAY, APRIL 15, 1965 13

Yankees Take 2nd Straight Downing

By United Press International
It's a new year with new faces and what's happening is sort of different.
It's not at all what Yankee Manager Johnny Keane thought he was getting himself into when he joined the American League champs.
The tone of Wednesday night's game was set early when rookie Angel outfielder Jose Cardenal led off the bottom of the first with his first major league home run off veteran Whitey Ford. The Angeles wound up pounding four New York hurlers for 12 hits and a 4-3 triumph—the Bombers second straight one-run loss.
With Cy Young Award winners Whitey Ford and Dean Chance opposing each other as starters, you'd look for a pitchers' battle but it just so happened that neither was around when the seventh inning began.
Ford was yanked in the sixth in favor of loser Hal Reniff and Chance, the major No. 1 pitcher in 1964, was lifted in the same inning for a pinchhitter.
Brunet Gets Win
George Brunet, a 29-year-old lefthander whose major league career dates back to 1936 and shows a total of six victories, came on in the seventh and worked his way out of a ninth-inning bases loaded situation by fanning pinch swinger Phil Linz to receive credit for the win.
Shortstop Jim Fregosi, the

Matson Adds Disc To Marks

WACO, Tex. (UPI) — Speculation has been heavy that Randy Matson would launch the disc into the same kind of orbital bliss as the shot put if he ever spent much time on it.
The Texas A&M sophomore still hasn't spent much time on the disc, but he fooled around with it long enough Wednesday to send the NCAA record tumbling to pieces.
Dandy Randy broke the year-old record of Occidental's Bill Neville by more than eight feet with a heave of 201 feet 5-1/2 inches in a triangular track meet among Texas A&M, Baylor and Texas Tech at Waco. Neville's mark was 193 feet 4 inches.
In what track observers had been calling his specialty before Wednesday's discus toss, Matson tossed the shot put past the 67 foot mark for his third straight meet.
A warmup throw of 67 feet 6 inches was the closest he got to last week's world record of 71-11-4 effort, but he still captured first place with 67-0-34.
Matson's next competition is this weekend at the Kansas Relays, but fans there won't be watching him toss the discus. The hefty weightman will forego the event in favor of the shot put.
Pampa's Randy Matson arrived home early today to spend the Easter week-end visiting his parents and friends in Pampa.
Matson will leave Pampa by plane Saturday morning to fly to the Kansas Relays and then return to Pampa Saturday night.
Baylor's Bears swept the sprint and broke the string on the finish line first in both relays to overcome Matson's herculean efforts and take the team title. The final point count found Baylor with 83, Texas A&M with 58 and Texas Tech with 27.
The Bears' Wayne Brandt won the 100-yard dash and 220-yard dash, ran a leg on the winning sprint relay foursome and took second in the javelin to beat out Matson for individual laurels. Jerry Cross of Baylor threw the javelin 216 feet to get the blue ribbon in the event and break Baylor's oldest school record.

Shockers Stay Unbeaten On 6-2 Win Over Quail

By JEFF COHANE
News Sports Editor
The Pampa Shockers got to a tired Don Morris in the late innings to come from behind and pull out a 6-2 win over the Quail Quails yesterday.
It was Pampa B's sixth straight win and Roy Harper's second straight over the declining district 5-B champs, but his pitching duel with the Morris brothers was marred yesterday by four errors on each side on a windy, dusty old Little League Field, as rain-wet down Optimist Park, original site of the game.
Deadly Dale Morris, after pitching the last four frames of the Quails' 10-inning 3-2 win over Hedley Tuesday, hurled the first frame, but was bothered by a sore arm and retired in favor of brother Don.
The younger Morris pitched stand-out ball for three frames, but finally tired in the late innings after hurling six the previous day.
Harper struck out 10 batters, rationed four singles, and walked only three in taking his third win of the season for the Pampa B, Don and Dale striking out 10 and walking but two between them.
With two out in the first, Dale singled, went to second on a wild pitch and came home on a single by Paul Gollighugh.
A walk to Bruce Ward and a pair of Pampa errors made it 2-0 Quail, in the third.
Pampa got a hit in every inning, but failed to plate a runner until the fifth, when Bud Abbott singled, moved to second under a bad throw on a stolen base attempt, and scored on Stevie

Oler's second hit.
Teddy Phillips led off the bottom of the sixth with a single. Lawrence Jones walked and Phillips scored on Harper's second hit of the day. The pair advanced on the throw to the plate, and Jones scored the lead run on Nicky Brumfield's hard-hit grounder. The second baseman fumbled the ball, then threw it away to allow The Harp to score and Brumfield to move to second. Abbott singled again to plate pinch-runner Jimmy Stroud, and scored himself on an outfield error.
Quail threatened a tiring Harper in the seventh on a walk and single, but with two out and runners on second and third, red-headed Oler ran five miles out in deep centerfield to haul down Don Morris' long drive for the final out.
The Shockers play two games at Shattuck Saturday, meeting Capron, Okla., at 1 p.m. and

then playing host Shattuck at 3:30. Jim Lang of Stoney Stone will pitch the first game and Jerry Largin the second.

The Pampa Daily News

A Watchful Newspaper

EVER STRIVING FOR THE TOP O' TEXAS TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

Pull Up A Chair

By Frank J. Markey

One of the safest forms of investment today is coin collecting, but success in this field, just like in stocks, depends on the sound judgment of the investor. The two types of coins offering the greatest potential are called "key" coins and unrecirculated rolls. They are the Blue Chips of the market and are coins of scarce dates and mints needed by others to complete collections. Because of limited supply and increasing demand, prices advance consistently over the years. Research has shown that a modest investment in this hobby can increase in value as much as 40 percent in a single year.

Today's smile: Carl DeSuzer, world traveler, wit and raconteur, tells the story about the three Polar bears sitting on an iceberg. The father polar bear said: "I have a tale to tell." The mother bear said: "And I have a tale to tell, too." The little polar bear, looking at his parents, complained: "My tail's T.O.L.D."

The next time you take a "bromo" for a headache, give a thought to Isaac Emerson of Baltimore. He discovered the formula while working as a drug clerk, tried it out on his customers, then marketed it. When he died, he left more than \$30 million. All of which proves that simple ideas do pay off.

Thoughts while shaving: The word "boudoir" derived from the French word "boudier," meaning to pout. Maybe, back in the old days, it was the place where a woman went when she wanted to sulk. And, if you know anything about women, times haven't changed. . . . The average big city department store spends \$1 out of every \$20 in retail sales on its windows and store displays. And display managers are always a year ahead in their planning, although they will consider Christmas decorations and novelties at any time because that's the biggest merchandising season. . . . We've been hearing about "plastic surgery" for many years, but now leading medics suggest changing the name to "reconstructive surgery" because they believe it is more descriptive. . . . A new shoe-fitting device was recently patented for use in shoe stores. The customer steps on a lucite-covered platform above a sheet of photosensitive paper, a light is flashed above the toes and a photographic record is made of the feet. It eliminates the use of X-ray devices, banned in many states, and insures a perfect fit. . . . The Agriculture Dept. says it would take a million refrigerated freight cars to hold the meat inspected last year, almost 50 billion pounds. Of that amount only one million pounds was rejected as "unfit" for human consumption. That shows you Uncle Sam does a pretty good job of protecting us.

The Albuquerque (N.M.) TRIBUNE reporting the story of the President's inauguration said: "At the conclusion of the swearing-in ceremony, as both women were watching their husbands admiringly, Mrs. Johnson gave Mrs. Humphrey a small happy jug. Just the thing for such a cold morning."

Country Editor speaking: "A lot of fellows get cold feet after they've burned their fingers."

Electronic Vigils Many collateral activities, now handled haphazardly by assorted bureaus, can be gathered together into one organization of cabinet status. These include equal pay for women, pensions for security risks, subsidies for illegitimacy, integration of nausium, ad hoc, am amas amat etc.

Birds and Bees, however, will remain with Agriculture. Interdepartmental conferences can be set up on the sub-cabinet level to resolve the delicate jurisdictional conflicts.

EVERYBODY'S BUSINESS

After Rent Subsidy, What? Super Snoopers, Obviously

By SAM CAMPBELL Business Editor

The obvious solution to many of our country's ills would be a U. S. Department of Sex. Sex is truly an interstate situation. Clearly individuals have been unable to cope with the problems associated therewith. Cities have proved inadequate. States have been slow to accept their responsibilities in regard thereto. Next logical step: the feds.

Establishment of a Department of Sex is not without precedent. For many years now, the central authority in Washington has dealt with aspects of the problem. There was the time, for instance, when the Department of Health, Education and Welfare was headed by Nels — well, let's skip that.

At First Blush Washington has taken an active role into this stubbornly resistant matter. Birth control over the years has drawn and today continues to draw a substantial percentage of tax-paid brain-ery. Now comes a proposal for federal subsidies for medium income renters.

The general idea, at first blush, seems a bit removed from the Department of Sex proposal. But closer analysis discloses a rather direct relation. Specifically the rent subsidies are intended to go to those families that have too great an income to qualify for public housing but not so great an income that they would be considered non-improverished. This is the area of genuine need.

With the feds paying the rent, the inevitable concern will be with the amount of rent to be paid which in turn involves the size of quarters that are rented. This in turn is a function of family size etc., etc. and etc.

Dangerous Small Town Program

"It has become in large part a small town program."

Those innocent-sounding words slipped by virtually unnoticed in the whirl of official Washington a few days ago, but when analyzed they disclose an alarming trend which the forces of Centralized Government have been insidiously effecting during the last few years.

Those words were spoken by Housing and Home Finance Administrator Weaver in his testimony on the Administration's Housing Bill and he was talking about public housing — dwellings owned and operated by the Government.

Although varied arguments and excuses have been advanced over the years by advocates to gain Congressional approval of an ever-mounting volume, the one plea that always struck the greatest response — and is indeed the pretext on which the program is continued — was let's clear slums and help the poor. Failure to succeed in any appreciable degree in achieving this goal in the cities where the

arguments sound plausible has obviously not deterred the socializers in the slightest.

Now they have turned to small towns and hamlets and boast that 810 localities with populations less than 2,500 are "participating." While it is difficult to visualize "slums" and the crying need to cure them in crossroads villages, it's not so hard to understand how socialized housing became established there. It's difficult for almost any human to turn down Santa Claus.

The basic point which is always overlooked — or purposely obscured — is that in a free society housing owned and operated by the Government is inherently wrong and dangerous, no matter how sweet and plausible the excuse.

Hence the Administration request for another \$188 million for an additional 240,000 socialized housing units during the next four fiscal years should be rejected flatly and finally. And already existing public housing should be liquidated to private ownership.

Time to Cheer Polio's Death

Eleven years ago, and every year before that, the coming of warm weather was the beginning of the fearful season for millions of parents.

The dreaded disease called infantile paralysis was striking 40,000 persons a year, most of them children whose "summer-colds" too often left behind them years of disability if not death or permanent paralysis.

But 10 years ago this month a brilliant ray of hope flashed over the news channels of the world. It was on April 12, 1955, that Dr. Thomas Francis Jr. faced hundreds of scientists, cameramen and reporters assembled at the University of Michigan and announced simply, "The vaccine works."

The vaccine had been developed by Dr. Jonas Salk of the University of Pittsburgh, one of scores of medical researchers who had long labored for a solution to polio.

The preceding year, in a massive nationwide test conducted by Dr. Francis and the National Foundation-March of Dimes, 1,080,000 children had received shots, two-thirds of them with

vaccine, the rest — the control group — with an inert fluid.

More than 150,000 clinicians, health officers, nurses, school teachers and volunteer recorders and clerks had participated in 44 states. Then had come the waiting, the gathering of records and finally the immense task of organizing and analyzing the statistics.

The verdict was unmistakable: Salk's killed virus vaccine had licked polio.

By fitting coincidence the public announcement came on the 10th anniversary of the death of Franklin D. Roosevelt, himself a victim of infantile paralysis and in whose name the National Foundation had been established.

In 1954 there were 24.8 cases of polio per 100,000 population. By 1961, this had plummeted to 0.7. The coming of the Sabin live virus vaccine that year dropped the incidence still further until today this one-time scourge of childhood is all but eradicated — both from the public health statistics and from the public memory.

We ought not to forget quite so quickly.

Profits for the Community

How can a community with municipally-owned utilities pay a profit of its debt and earn a profit? Answer: By selling the utilities to investor-owned enterprise.

That, at any rate, has been the experience of Bellefontaine, Ohio. It recently sold its municipal electric and gas systems to an investor-owned power and light utility for more than \$5 million. Now, the community's mayor reports, Bellefontaine is paying off its indebtedness and earning more than \$500 a day in interest from the balance.

Moreover, the utility which purchased the systems will spend \$1.3 million on improvements and pay taxes.

Distillation often follows a town's jump into municipally-owned utilities. Low rates promised often prove a mirage. Operational losses must be made up by taxpayers. Taxes which private enterprise would pay are lost. Service standards are too frequently inferior. Many another community could profit by following Bellefontaine's example.

So Smooth, So Even

Anything humans can do, machines can — well, imitate. People smoke, some machines have the same bad habit. Now an electronics manufacturer has brought out a "thinking machine's filter."

Let someone cry that this time they've gone too far, it should be noted that the filter is a device to regulate the elec-

tricity fed to computers, which are quite sensitive to unevenness in the current.

Apparently the filters are free and easy on the input and there isn't a shock in a carload. However, no what-if-up-front that time counts has made the logical move and stated that it would compute a mile for one.

Unexpected Repentance

History of some sort was made at a war crimes trial in West Germany the other day. A former Nazi officer, convicted of the mass murder of 1,180 persons in World War II, actually admitted his moral guilt.

"What happened was so terrible," Albert Rapp, onetime colonel in Hitler's Elite Guard, told the court, "that I cannot and will not ask for mercy."

He got a lot more of it, though, than his victims — 10 life sentences on 10 counts.

As President Johnson on an inspection trip, might have thought with satisfaction, the Great Society begins at home. It will not be necessary for the taxpayer to take a Finnish bath to work up a sweat.

To the extent that the individual joins together with others in any form of association, he must surrender some part of his independence. This is the price of admission to harmonious human relationships.

Here's to bride and mother-in-law. Here's to groom and father-in-law.

Here's to friends and friends-in-law. May none of them need an attorney-at-law.

The Nation's Press MAYBE THE TAXPAYER WILL GET IN A SWEAT

(Chicago Tribune)

The description we are given of the relaxation rooms in the new \$86,400,000 Rayburn House office building suggests a luxury unrivaled since the Baths of Caracalla were undertaken in Rome in A.D. 212. This magnificence is a long way from the old swimmer's hole where most members probably took their first dips.

There are hardwood handball courts, a blue-tiled swimming pool, marble and stainless steel saunas, massage and exercise rooms, a "conference room" outfitted with twin beds where the members can think deeply while horizontal, a gymnasium electric rocking horse, whirlpool baths, etc.

As President Johnson on an inspection trip, might have thought with satisfaction, the Great Society begins at home. It will not be necessary for the taxpayer to take a Finnish bath to work up a sweat.

To the extent that the individual joins together with others in any form of association, he must surrender some part of his independence. This is the price of admission to harmonious human relationships.

Here's to bride and mother-in-law. Here's to groom and father-in-law.

Here's to friends and friends-in-law. May none of them need an attorney-at-law.

Question Box

(We invite questions on economic and the proper functioning of government which will be answered in this column.)

QUESTION: "Who owns the Federal Reserve Banks and to whom does our government pay interest on the national debt?"

ANSWER: As nearly as we can figure from reading the Federal Reserve's own book "The Federal Reserve System — Purpose and Functions," the Fed is a quasi-government, quasi-private organization. It is set up by federal law and the Federal Reserve Board, whose members are appointed by the president, seems to have unlimited control over the Federal Reserve Banks and the member banks.

"Every member bank is required to subscribe to the capital of its Reserve Bank," according to this official document. "Its paid-in subscription is an amount equal to 3 per cent of its capital and surplus, and another 3 per cent is subject to call. On June 30, 1963, all member banks together held about \$480 million of paid-in capital stock of the twelve Federal Reserve Banks."

In return the member banks are entitled to a number of services, including "a capital statutory dividend of 6 per cent on the paid-in capital stock of the Federal Reserve Bank."

This would indicate nominal ownership by the member banks although it is noted that this "ownership" is "required." Membership is not voluntary as far as national banks are concerned. State-chartered banks "may join the System if qualified for membership and if accepted by the Federal Reserve."

However, with the politically appointed board exercising control over member banks, they could hardly be considered to be true owners if ownership includes control.

As to the question of who receives the interest on the national debt, the answer is that it is the owners of the federal securities. Tax Foundation, Inc., in its 1964-65 "Facts and Figures on Government Finance" reports the 1964 admitted national debt was \$312.5 billion.

Ownership was divided as follows: Commercial banks, \$59.7 billion; Federal Reserve banks, \$34.8 billion; individuals, \$67.7 billion; insurance companies, \$10.6 billion; mutual savings banks, \$6 billion; other corporations, \$20.7 billion; state and local governments, \$22.6 billion; U.S. government investment accounts, \$61.1 billion; miscellaneous investors, \$29.3 billion.

Interest payments would be in proportion to the investment by the various holders of the securities.

oustration of U.S. will. To assure this prompt and adequate response, detailed contingency planning should be undertaken on precisely what action should be taken when action occurs.

The study concludes: "With the stakes so high, it is necessary to think seriously about the possible consequences of reliance on instruments so historically fragile as treaties have been.

When a treaty is made with Communist countries, it is essential to be prepared to respond determinedly whenever the Reds violate the pact. The Communists would probably consider failure to respond to a violation as an invitation to go ahead and unilaterally modify the agreement to suit their fancy.

It is essential that this response to treaty violations be both speedy and effective and be carried out with a clear dem-

Reds Want To Play By Own Rules

WASHINGTON: Washington Correspondent WASHINGTON (NEA) — By coincidence, at this time when some people are advocating a treaty with the Communists on Viet Nam, a study of the history of treaties with Red dictators is now circulating among government policy makers.

The study warns: "Beware of treaties that depend on 'neutral' enforcement or inspection agencies. Experience has shown the Reds won't accept such 'neutral' teams unless they include Communist representation. Then the Red members inevitably go all-out to subvert the team's ability either to enforce or inspect."

"Treaty violations aren't likely to be corrected satisfactorily through a coalition government which includes Communists. The Communist government officials will invariably work to take over or immobilize the government."

"World opinion can't be counted on to get a Communist dictatorship to stop violating a treaty. Democratic states may be sensitive to the pressures of public opinion. But self-contained powers with a controlled press can usually ignore the opinion of other states."

In particular, widespread disapproval will seldom, if ever, alienate the people of a violating nation from their government; more often than not the reverse will occur and the people of the offending nation will rally behind their government."

"Economic sanctions will rarely be effective in preventing treaty violations. They are almost certain to fail against major, self-contained powers."

The concepts of truth, logic and precedent can be of little or no concern to Communists in their approach to treaty negotiations and compliance with these are not consistent with their national or ideological objectives. In negotiations with Communists, it is generally desirable to deal on a tough pro quo (something for something) basis.

"When a treaty is made with Communist countries, it is essential to be prepared to respond determinedly whenever the Reds violate the pact. The Communists would probably consider failure to respond to a violation as an invitation to go ahead and unilaterally modify the agreement to suit their fancy."

It is essential that this response to treaty violations be both speedy and effective and be carried out with a clear dem-

oustration of U.S. will. To assure this prompt and adequate response, detailed contingency planning should be undertaken on precisely what action should be taken when action occurs.

Answer to Previous Puzzle

NEWSPAPER ENTERPRISE ASSN.

CLEAN LIES

For Watson, it was a painful duty.

"I'm the manager of the office where your sister works," he began. "For the benefit of all concerned, I wish you would convince her to resign."

"Why?" demanded the other man. "Has she done something wrong?"

"I'm afraid so," replied Watson. "She has been stealing from the cash box."

As it turned out, the girl had done no such thing. In short order, Watson found himself facing a lawsuit for defamation of character.

But the court held him not liable, ruling that his mistaken statement was "privileged" by the circumstances. The court pointed out that Watson had had good grounds for believing the girl guilty, and had spoken to her brother with decent purpose.

Defamation law, like the Ninth Commandment, forbids you to bear false witness against your neighbor. But is also forgives what might be called the clean lie — told in all fairness, on reasonable grounds, without malice.

Thus, in another case, a man was excused for wrongly blaming a schoolboy for indecent conduct during recess. His statement, made privately to principal, was based on seemingly reliable information from his own daughter.

But, to be privileged, the statement must be made in the line of duty. It must be one which the speaker has a legitimate interest in making, and the hearer a legitimate interest in hearing.

A court found no such interest, under the following circumstances:

A meddlesome woman heard a report, later proved false, that a certain prospective bridegroom was an ex-convict. Although she was not a relative of the bride, or even a close friend, the woman took it upon herself to pass along this tidbit.

Sued later for defamation, she was held liable for having been too quick to soil an innocent man's good name. The court saw no reason to wrap the mantle of privilege around something so close to plain and simple gossip.

SHIP-HUGE COILS
PITTSBURGH (UPI) — Westinghouse Electric Corp. announced the shipment of huge coils to the National Aeronautics and Space Administration for assembly of one of the strongest electro-magnets in the world.

The four-ton cryogenic magnet, rated at roughly 500,000 times the average magnetic field strength of the earth, will be used by NASA at the Lewis Research Center in Cleveland for magnetic studies.

Gas flame welding with oxygen and hydrogen was invented in 1887.
