# USW Executives Okay Strike Delay

## Opposition Rising On Extending Deadline

PITTSBURGH (UPI) — The Executive Board of the United Steelworkers (USW), overriding opposition within its ranks, today recommended approval of a four-month, no-strike contract extension, it was learned.

The recommendation will go to the union's 163-member Wage Policy Committee, which was expected to formally accept the extension agreement.

The committee met at 2 p.m. CST. Before the executive board met, a union source disclosed that there was "growing opposition" to the extension.

The 33-member board, split almost down the middle between backers of USW President David J. McDonald and union Secretary-Treasurer I.W.

Abel, was nearly an hour late in convening. The source said the delay was the result of efforts by board members to iron out their differences before meeting formally.

The board is made up of the union's three international officers, district directors and the national director of Canada. All are members of the Wage Policy Committee.

A strike had been set for Friday midnight when the current contracts with the 10 major steel producers expire. The Johnson administration, which hailed the extension agreement Tuesday, had viewed a possible strike as a threat to the nation's booming economy. Negotiations on a new over-all contract will resume in three weeks.

Reliable union sources said late Tuesday night they expected a small, hastily organized group to attempt to block approval of the pact at the WPC meeting. They had almost no chance of succeeding, the sources said.

Telegrams to union representatives here and a survey made by United Press International in steel centers showed rank and file reaction to the four-month agreement was mixed.

The extension provides for an 11.5 cent hourly increase which would be put into an escrow fund during the four-month period. It is up to the union to decide whether the money will be used for wages, pensions or other fringe benefits.

Negotiations on a final, over-all contract were to continue through the summer.

The committee approval of the extension pact today may serve as a third act curtain for USW President David J. McDonald.

## Clergy Denies Rights March Immoral Charges

WASHINGTON (UPI) — Ministers, priests and nuns who took part in the Selma-Montgomery march today categorically denied that sex orgies, drunkenness and other immoral conduct occurred during the demonstration.

The charges were made Tuesday on the House floor by Rep. William Dickinson, R-Ala. He read into the record a series of statements he described as sworn affidavits from police officers and citizens who said they had witnessed acts of debauchery by white and Negro marchers.

Eight Protestants and Catholics who took part in the march called a news conference today to deny the charges. They displayed supporting letters, telegrams and affidavits from scores of other church men and women who took part in the march.

The Rev. Richard Dickinson, a United Church of Christ minister, said separate tents were provided for men and women for overnight campouts and the whole area was "very closely patrolled at all times."

## Two-Way Telephone Service Due Lefors

By RON CROSS  
LEFORS — Apparently Lefors residents have won a four-month fight with Southwestern Bell Telephone Company to get two-way phone service from Lefors to Pampa installed in the city.

Lefors Mayor, Leonard Cain, said a contract was signed with the phone company last week after the contract was approved by the Lefors City Council.

"We had one change to make in the contract but have heard nothing from SWB officials so I guess it was okay," Cain said.

Councilman Ben White said the contract was approved unanimously by the council and "it looks like we're all set."

The council was told by the company that the two-way service would be completed within the next 18 months.

When the service is completed, business phone rates will be \$19.50, a private line will cost \$6.25, and a two-party or more line is \$5.

Discussions between Lefors residents and the SWB officials have been in progress since January.

In February, Lefors residents mailed a petition to the SWB home office in St. Louis in protest of a proposed 50 cent rate hike.

The petition, signed by 216 Bell Telephone users in Lefors, stated that if the city's residents had to pay a 50-cent rate hike and couldn't have Pampa-Lefors

service two ways, the residents would have their phones disconnected.

The Lefors citizens were asking for the same system now being used between Skellytown and Pampa.

Residents in Skellytown may call to Pampa and Pampa residents may call Skellytown numbers as a local call.

Both towns are approximately 12 miles from Pampa.

In their petition, Lefors residents stated that Skellytown gets the two-service system for the same rates that Lefors residents are paying for just one dial service.

The fuss actually started two months ago when phone rates in Lefors were raised 50 cents. Lefors residents wanted more service with the rate hike.

At the present time residents pay \$9 for a business phone, \$5.25 for a private line and \$4.50 for a two-party line.

George Newberry, Southwestern's Pampa representative, told the council two months ago that before Lefors residents could get the two-party system a study would have to be made by SWB to find out how much equipment would be needed in Lefors and Pampa and how many new lines would be needed and that a new building and all new equipment would have to be installed.

The Lefors phone office now used was built in 1958.

Skellytown residents pay \$12.50 for a business phone and \$5 for a residence phone.

CONGRATULATIONS — Pampa High School Principal Cameron Marsh extends congratulations to newly installed officers of the school. Doug Altom, center, was elected vice-president of the student body and Kenneth McWilliams, right, was elected president. The two were installed during a school assembly this morning. (See Story Page 3).

## De Gaulle Serves Notice On Tougher French Line

PARIS (UPI) — President Charles de Gaulle, pinning a "Made in Paris" label on his foreign policy, has served notice he is going to be a more difficult U.S. ally than ever before.

In a radio and television broadcast to the nation Tuesday night, De Gaulle made it clear he plans to follow an "independent" line in his international dealings no matter whose toes he steps on.

There also were indications that De Gaulle has ideas of taking over the leadership of the uncommitted world by heading up some kind of a "third force" coalition.

The French president urged a "new order and a new balance" free from domination by either the United States or Russia.

Nothing New  
He made it quite clear he considers France, having cut its colonial entanglements, the country best suited to promote such a world force.

None of all this was very new. De Gaulle has said much of it before in bits and pieces. What was striking this time was the way he put it all together to tell his allies bluntly.

MASS REPAIR  
BUDAPEST (UPI) — Soldiers and civilians joined forces Tuesday in large-scale repair work after flood waters struck western Hungary.

More than 100 houses were left in ruins and some 55 villages were affected. The flood waters receded Tuesday.

if it comes from a hardware store we have it. Lewis Hdwe. Adv.

that he intends to press for this combination of bloc - building and French nationalism whether they like it or not.

Most observers feel it is clear now that De Gaulle is thinking more and more in terms of his "Europe from the Atlantic to the Urals."

This is one of the chief reasons for the presence in Paris of Soviet Foreign Minister Andrei Gromyko, who conferred with De Gaulle for an hour and 20 minutes Tuesday.

No Startling Results  
French government sources today reported no startling results from the talks, and they said none is likely immediately. But the sources said enough areas of agreement have emerged to warrant additional

Franco-Soviet discussions in the coming months.  
De Gaulle apparently believes France and Russia have a common interest in squeezing the United States out of Europe. He believes if that can be accomplished, the Iron Curtain across the continent will begin lifting gradually and eventually permit the establishment of some sort of "balance," as he calls it.

Francis de Gaulle, pinning a "Made in Paris" label on his foreign policy, has served notice he is going to be a more difficult U.S. ally than ever before.

In a radio and television broadcast to the nation Tuesday night, De Gaulle made it clear he plans to follow an "independent" line in his international dealings no matter whose toes he steps on.

## Dominican Army Starts Clean-Up

SANTO DOMINGO, Dominican Republic (UPI)—Air force troops who crushed a leftist revolt today launched mopping-up operations but appeared to be meeting considerable resistance.

Snipers were active from rooftops and street corners. Rifle shots, an occasional artillery shell explosion and the chatter of submachine gun fire resounded throughout the city.

Martial law reigned in Santo Domingo but barricades were up in the streets throughout the capital and suburbs. The airport remained closed.

Air force colonels Francisco Camaño and Montes Arache, leading the mopping-up operations, said they were making slow but sure progress in restoring order. However, Camaño admitted that rebel forces still were fighting around the Duarte bridge in the suburbs.

Unofficial reports placed the toll of two days' bitter fighting here at 20 dead and more than 100 wounded.

A joint armed forces command took charge of the country late Tuesday night, pending the creation of a military junta government to replace the civilian junta overthrown Sunday.

A curfew was imposed on the city to prevent looting. The victorious generals promised that the new junta will hold presidential elections Sept. 1 and install the new president on Sept. 25.

Rebel holdouts were given until 6 p.m. today to surrender. The air force radio promised that those who do give up before that time will not be put to death.

Brig. Gen. Elias Wessin y Wessin appeared confirmed in his position as the new Dominican military "strong man." It was uncertain, however, whether he would play any overt part in the new government.

An air force announcement said hundreds of persons called at Wessin's headquarters in the armed forces academy Tuesday night to assure him of their support and offer their services.

Rafael Molina Urena, the "provisional president" installed by the rebels Sunday, fled to the Colombian embassy Tuesday night with 15 key members of his short-lived regime.

Other refugees fled by ship and plane to the nearby U.S. island of Puerto Rico and asked for asylum.

Rafael Molina Urena, the "provisional president" installed by the rebels Sunday, fled to the Colombian embassy Tuesday night with 15 key members of his short-lived regime.

Other refugees fled by ship and plane to the nearby U.S. island of Puerto Rico and asked for asylum.

Bosch, the ex-president the rebels had hoped to reinstate, remained in Puerto Rico where he has lived as a refugee since he was exiled a year and a half ago. He had planned to fly here this week but could not do so because Wessin's men held the airfields.

Arrivals in Puerto Rico included 620 civilians, most of them Americans, who were ferried out of Santo Domingo by the U.S. Navy Tuesday as a precautionary measure. So far as was known, no Americans were killed or injured in the four-day revolt. The evacuees totalling more than 1,000 also included Canadian, British and Jamaica nationals.

## Tax Valuation Hearings Set

Public hearings have been set Monday and Tuesday, May 11 and 12, to determine, fix and equalize valuations on all real and personal property in Pampa for tax purposes in 1965.

The hearings will be conducted by the City Board of Equalization to allow property owners who have not already agreed to valuations as fixed by the tax assessor to appear and show cause why the valuation should not be allowed to stand.

Owners of real estate will be heard starting at 9 a.m. on Monday, May 11, and owners of businesses and personal property will be heard starting at 9 a.m. on Tuesday, May 12.

The Board of Equalization met Monday night and examined the books and records of the city tax department and studied figures which reflect real and personal property values effective Jan. 1 this year.

Members of the equalization board comprising George Scott, Jim Dailey and R. M. Samples also considered written protests already filed on several valuations.

Following examination of the records, the board temporarily approved the tax department figures after making desired changes. The temporary approval is subject to the public hearings on property valuations.

## Jaycees Receive Awards, Recognition at Banquet

Pampa Club Walks off With Top Honors at Convention

By RAY RODGERS JR.  
Special awards and recognition to members of the Pampa Junior Chamber of Commerce were handed out yesterday during their regular weekly luncheon.

Yesterday's luncheon, though, could not quite be called a "regular" luncheon. Seven gold statues dotted the front of the speaker's stand, flanked by a row of red ribbons and plaques.

What might be called a "tired" looking set of faces could be seen from behind the head table.

The "tired" look came from a hectic week for 17 Jaycees and their wives who attended the annual Texas Junior Chamber of Commerce Convention held last week in El Paso.

The long list of recognition, awards, trophies and plaques won by the Pampa Junior Chamber of Commerce is unexcelled in state Jaycee history. Not only was Pampa's A. J. Carubbi, elected state president of the organization, but Mrs. Duggan Smith was named as "Outstanding Jaycee-Ette in

Texas," and her husband was named outstanding local president in Division 3.

The Pampa club walked off with seven first place trophies for club activities and five second place ribbons.

No club, large or small, has ever piled up such a record of accomplishments at a state convention.

One Jaycee delegate to the convention from Houston said "I have never heard so much about one town at one place that I did about Pampa at El Paso."

One state Jaycee officer said, "Those boys literally put Pampa on the map."

"We should be extremely proud of the Pampa Junior Chamber of Commerce for the fine representatives that have been of the city of Pampa. They bring honor and dignity to our city," said E. O. Wedgeworth, manager of the Pampa Chamber of Commerce.

JAYCEE AWARDS — The Pampa Junior Chamber of Commerce set an un-paralleled record at the recent state convention when they walked off with six first place trophies and four second place awards. A. J. Carubbi, left, was elected State Jaycee president of the organization, while Mrs. Ruth Smith was named recipient of the "Outstanding State Jaycee-Ette" award and her husband Duggan Smith, right, was named outstanding local president, Eddie Poinac is show holding trophies and ribbons won at the convention.

# Foreign Commentary

By MICHAEL T. MALLOY  
SAIGON (UPI) — Although American and South Vietnamese fighter bombers have been chewing up North Vietnamese roads, bridges, radar stations and convoys with high explosives for nearly three months, so far they have only been "marking time."

That is the current way in Saigon of phrasing the fact that they have not gone above the 20th parallel, an arbitrary line 65 miles south of Hanoi, capital of the Communist North.

Authoritative American sources here say the 20th parallel is not intended, however, as a barrier for U.S. bombers.

They point out that the air raids have been marching north and increasing in destructiveness in a pre-determined plan. If the North Vietnamese regime continues to balk at calling off the war in the South, they are likely to march a little further.

Many Targets Left  
There are many targets in North Viet Nam which the American jets have not yet touched. All of them lie in the Red River delta, north of the 20th parallel. If you have a map of North Viet Nam, look up the Day River—pronounced "die" in Vietnamese—and remember its name.

The Day River is the classic southern boundary of the Red River Delta. When American jets strike north of the Day, you can be sure that the attack has finally begun on the real heartland of North Viet Nam.

The Red River delta is a wedge-shaped plain of rice and water, facing the South China Sea.

It is the political, industrial, agricultural, symbolic and financial heart of the Communist nation.

# Finding Good Paying Job Still As Difficult as Ever for U.S. Negroes

(EDITOR'S NOTE: Good jobs are vital to the hopes of millions of Americans trying to break the bonds of poverty. Yet, for many Negroes, getting one seems as difficult as ever. The following dispatch tells why.)

By WILLIAM J. EATON  
WASHINGTON (UPI) — The 1964 civil rights law opened new doors of opportunity for job-seeking Negroes by curbing discrimination. But, the government believes, that has not been enough.

Paradoxically, the average Negro has found that with racial barriers dropping, he is little better off than before.

The answer, federal authori-

ties say, is education.

After a thorough study of statistics on the schooling and unemployment of minority groups, they contend that only better preparation can make the Negro competitive with whites in the American economy.

Too, the nature of work has changed, with increasing automation and tougher skill requirements. The demand for higher qualifications only compounds the poorly trained Negro's plight, and the heavy high school dropout rate among Negroes doesn't help.

The typical Negro is suffering about twice as much as his white counterpart in nearly every category of unemployment.

Here are some examples of the racial gap in unemployment figures:

—Over-all jobless figures for April show that the Negro unemployment rate was 9.2 per cent — double the 4.6 per cent rate for white workers. There has been a worsening of the ratio since the early 1950's.

—Non-white workers accounted for 23 per cent of the long-term unemployed in 1964 — twice as high as their percentage of the labor force. Negroes on short work-weeks because they cannot find full-time jobs outnumbered whites five to one.

—In the teen-age category, jobless rates for Negroes ranged from 23 per cent for boys to 31 per cent for girls.

Many from poverty-stricken families were seeking full-time jobs. The over-all unemployment rate for teens — white and Negro included — was at the unusually high 15 per cent level.

President Johnson recently sent Congress a Labor Department manpower report which said:

"The very high rates of unemployment among non-white workers in 1964 are characteristic of the disproportionate impact of unemployment on non-whites since the early postwar period.

"The employment expansion of the past several years has done very little to alter this relationship."

Why should this be in view of determined efforts by recent administrations to give Negroes a better break in the job market?

Government experts explain it this way:

Negroes are now concentrated in lower-skilled, blue-collar jobs where employment has been gradually shrinking and unemployment is more frequent and prolonged.

The percentage of Negro college graduates in 1960 was 3.5 per cent — less than half the corresponding figure for whites. This limited education

accounts partly for the relatively small proportion of Negroes in professional occupations, the department says.

EDDIE MARTIN  
... revival speaker

**First Baptist Revival Slated To Start Sunday**

Evangelist Eddie Martin will lead the First Baptist Church in a revival, starting Sunday and continuing through May 9. Rev. Martin speaks to youths in special assembly programs, visiting an average of 40 schools each year. First Baptist Pastor E. Douglas Carver, said that personal visits are being made in the homes of the city to enlist prospects and cottage prayer meetings are being held in the homes of church members, and the choirs are being readied to participate in the nightly services. Sam Allen will be in charge of the music program. All services will start at 7:30 p.m.

**Water Department Employee Presented Proficiency Award**

An official State Health Department citation for job proficiency has been awarded to Tony R. Anderson, southwest of city, a service specialist with the Pampa municipal water department. Health agency engineers praised him as "a credit to his profession."

**Clean-up Event Activities Set**

Plans for the city's annual Paint-up, Fix-up, Clean-up campaign were made this morning during a meeting of the fire prevention committee of the Chamber of Commerce, sponsors of the annual event. Joe Fischer, committee chairman, said the campaign will be observed May 10 through May 22. "During the campaign," he said, "residents will be urged to clean-up, paint-up and fix-up around their property." Jim White, city manager, told the committee that the city will pick up all trash, including chunks of concrete, from every alley in the city. A sound truck will also be operated, urging resident's help during the campaign, Fischer said.

**P-I-S Student Body Officers Installed**

(See Pictures Page 1) Kenneth McWilliams was installed as student body president of Pampa High School this morning during an installation assembly. Doug Altom was installed as student body vice president. The two will officially serve as president and vice president during the 1963-64 school term which begins next September. Richard Fatheree, current student body president, gave his farewell address as retiring president.

**Court News**

**CORPORATION COURT**  
Mrs. Virginia Miller, 630 N. Christy, failure to yield right of way, found guilty by jury, fined \$1.

**Obituaries**

**Belmor Junior Ryan**

Funeral services for Belmor Junior Ryan, 29, of 506 Elm, will be conducted at 2 p.m. tomorrow in Oklahoma Street Church of Christ with Deader Sanders, minister, officiating. Burial will follow in Fairview Cemetery under direction of Carmichael-Whately Funeral Directors.

Mr. Ryan was born March 7, 1936, in Mount Alber. He died at 9:45 p.m. Sunday in his home.

Mr. Ryan moved to Pampa from Shamrock in 1955. He was employed by A-I Motor service and was a member of the Church of Christ.

Surviving are his wife, Mrs. Luster Mae Ryan of the home; four sons, Billy, Edward Lee, Jessie Lee and Willie James Ryan, all of the home; five sisters, Mrs. Annie Joe Young, Mrs. M. a m i e Jewell Walker, Mrs. Berdie Mae Phillips, all of Pampa, Mrs. Betty Lu Wright of Shamrock and Miss Eulla Mae Ryan of Palestine, and three brothers, Jessie B. Ryan of Shamrock, John Henry and Rufus Lee Ryan, both of Palestine.

**Mrs. Hattie Lee Hodge**

Funeral services for Mrs. Hattie Lee Hodge of Arlington, longtime Pampa resident, will be held at 4 p.m. Friday in First Methodist Church with Rev. Harry Vanderpool officiating. Interment, under direction of Carmichael-Whately Funeral Directors, will follow in Fairview Cemetery by the side of her husband, John H. Hodge.

Mrs. Hodge died this morning in a Fort Worth hospital following a brief illness. She moved to Arlington from Pampa two years ago. Mrs. Hodge was a member of Pampa First Methodist Church.

Survivors include two daughters, Mrs. W. B. Weathered of Arlington and Mrs. John C. Waite of Christianstead, St. Croix, Virgin Islands; two sisters, Mrs. Una Pledge of Houston and Mrs. Cora Arps of Little Rock, Ark.; five grandchildren and six great-grandchildren. Pallbearers will be Chet Henry, Hugh Layne, A. L. Weathered, George Scott and Joe Gordon.

**Mrs. H. W. Kribbs**

Services are pending at Duenek Funeral Home for Mrs. H. W. Kribbs, 71, of Amarillo, a former Pampa resident. Mrs. Kribbs died yesterday in Amarillo.

She was born April 30, 1893 in Haskins, Ohio and moved to Pampa in 1931. She moved back to Amarillo in 1958.

Survivors include her husband, H. W., of the home; three daughters, Mrs. Hershel B. Burros and Mrs. Glenn Burros, both of Hereford and Mrs. Albert Morrison, Pampa; one son, Bill, of Harlingen; one sister, Mrs. Marvin Brown, Chickasha, Okla.; 14 grandchildren and two great-grandchildren.

Mrs. Kribbs' son is a former employe of the Pampa News and is Mechanical Superintendent of the Harlingen paper.

**Explosion Rips McLean Residence**

An explosion at a McLean residence resulted in a motion being passed by the McLean City Commission yesterday to stop city employes from working on gas and water systems and from spraying exterminating mixtures on private property.

The explosion occurred yesterday morning at the home of James Allison.

The blast was apparently caused when a fogging machine being used under the house ignited the pilot of a water heater. The fogging spray contained kerosene.

The floor was blown up, the walls collapsed and glass was found across the street. Bill Heasley of the gas and water department and Bob Glenn, acting supervisor of the public works department, were slightly injured by the flying debris. No estimate of the amount of damage was made and no one was at home at the time of the explosion.

In the past, the city had conducted such sprayings free of charge.

**Army Recruiter Wins Savings Bond**

Staff Sergeant Bill Blackburn, local army recruiter, was awarded a U. S. savings bond for being the top recruiting sergeant for January, February, and March.

Sergeant Blackburn competed with 10 other recruiters in the Panhandle Area. He enlisted 29 applicants in the army with an assigned objective of 23.

Sergeant Blackburn resides with his wife, Rose and their three children at 1213 E. Kingsmill.

**Perryton Man Fined On DWI Charges**

George Duke of Perryton was fined \$125 and court costs and sentenced to three days in jail yesterday afternoon after pleading guilty to charges of driving while intoxicated.

Duke was arrested Monday by the city police department.

# Highlights and Sidelights From The Capital on Our Legislators

By VERN SANFORD  
Tex's Press Association

AUSTIN — In the stormiest week of the 59th Legislature, House and Senate deadlocked over the entwined issues of longer terms of office and addition of eight more senatorial districts.

Whatever the outcome, many feared resulting hard feelings from the feud would so dent harmony that finishing up necessary business at hand without a special session would be difficult indeed.

Big problem began when some representatives, as the price of going along with a constitutional amendment to give statewide officials four-year terms, demanded the same consideration.

House tacked onto a Senate proposal to increase membership of the upper house from 31 to 39 and increase senatorial terms to six years a provision

for four-year terms for representatives, too.

Senate had decided its proposed constitutional amendment to enlarge membership to 39 should be submitted to an election on August 7 without the controversial term attachment.

House stripped a Senate compromise calling for a November election on lengthened terms for both houses (as a separate proposal) of the six-year senatorial term provision.

Senate retaliated by threatening to block the House version of legislative redistricting and leave reapportionment up to federal courts.

Also caught in the backwash of the feud were such major legislative items as the state budget, congressional redistricting and teacher pay raises.

Both houses played a rough game of bluff, bluster and brinkmanship in efforts to break the

logjam to their own advantage. Even the best solution appeared likely to leave some deep scars on the face of harmony.

**FARM LAND TAX DEFERRAL** — Resolution authorizing a constitutional amendment to give special tax consideration to farm land needs six more House votes for passage.

Constitutional amendments require 100 votes for passage, but the resolution's sponsor, Rep. Bill Dungan of McKinney, Rep. Alonzo Jamison of Denton and Rep. Wayne Connally of Floresville, could muster only 96.

If passed by the Legislature and approved by voters, the amendment would require a tax assessor-collector to put two values for agricultural land on tax rolls — the valuation based on income from agricultural purposes and the non-agricultural (or speculative) valuation.

Another bill to require major purchasers to purchase ratably within an area was sent to subcommittee for two weeks. TIPO spokesman said bill would allow the Railroad Commission to force purchasers to extend lines into new areas which may otherwise have trouble selling production.

Land owner would pay taxes based on the presumably lower agricultural valuation. However, if he sold the land, he'd have to pay the difference between the two values for the three previous years.

Valuation would affect all taxes — city, county, state and school district.

**TAXES TALKED** — Top-level lawmakers are speculating on possibility of a two-cents-a-pack cigarette tax boost and extension of the two per cent sales tax levy to all alcoholic beverages (now exempt).

Increased spending — including teacher pay raises and medicare costs — may make as much as \$100,000,000 in new taxation necessary, some believe.

About \$50,000,000 could be raised from the cigarette tax boost and \$21,000,000 from placing the retail sales levy on liquor and beer, according to reliable estimates.

Another \$12,000,000 could be gained by extending the "temporarily" increased corporation franchise taxation level, observers noted.

A joint conference committee continues to wrestle with the general budget bill, which has been delayed nearly two weeks beyond the "deadline" previously set by House Speaker Ben Barnes.

**APPOINTMENTS** — Gov. John Connally named Mills Cox of Gay Hill in Washington County, Groner A. Pitts of Brownwood and Robert B. Gilmore of Dallas to Texas Water Development Board.

Cox, succeeding C. Y. Mills of Mission, was designated chairman.

A native from Dublin, he is a retired president of Transwestern Pipeline.

Senate confirmed appointments of Carlos Cadena of San Antonio as associate justice of Court of Civil Appeals; Dr. J. W. Edgar of Austin as Texas Commissioner of Education; and William S. Lott of Georgetown to State School Land Board.

**NEW TECHNICAL SCHOOL APPROVED** — Two weeks after he first recommended creation of new James Connally Technical Institute at Waco, Governor Connally received final legislative authorization and signed the bill into law.

Institute at old Connally Air Force Base is scheduled to go into operation September, 1966, just three months after the deactivated military.

It will be administered by \$41,000,000 installation will be Texas A&M University, authorized by the new legislation to accept the base from the federal government. Installation includes 107 permanent buildings, 866 housing units, and 2,228 acres of land.

**"INDIAN TERRITORY" PLANNED** — Heap-big doings are planned on the old Alabama-Coushatta Indian Reservation near Livingston.

Bill by Reps. Emmett Lack of Kountze and Will Smith of Beaumont to create a State Commission for Indian Affairs to run the reservation received approval of House Committee on State Hospitals and Special Schools.

Smith said the commission would help the Indian Tribal council achieve self-sufficiency for its 550 people, largely through tourism.

More than 400,000 people would visit the reservation each year if it is properly developed, predicted Supervisor Walter Broemer. He outlined plans to provide a lake, amphitheater,

museums and an arts and crafts shop.

**OIL CUT ORDERED** — Railroad Commission ordered oil production for May held to 27.2 per cent of potential with allowable set at 2,800,000 barrels a day.

April's 28.5 per cent order permitted a 2,900,000 barrel daily maximum.

May, 1964, production was 3,800,000 barrels under 28.5 per cent order.

**RATABLE TAKE OIL BILL ADVANCED** — Senate Oil and Gas Committee approved the bill extending to independent oil purchasers ratable taking requirements.

Texas Independent Producers and Royalty Owners Association said recent pipeline proration makes the bill needed.

Another bill to require major purchasers to purchase ratably within an area was sent to subcommittee for two weeks. TIPO spokesman said bill would allow the Railroad Commission to force purchasers to extend lines into new areas which may otherwise have trouble selling production.

**JOBLESS PROGRAM OVERHAUL EYED** — Senate State Affairs Committee agreed the major changes in state unemployment compensation program.

Bill by Sen. Culp Kreuger of El Campo would disqualify for four to eight weeks those who quit their jobs voluntarily or get fired for misconduct.

Another provision would authorize increase in employer contributions to jobless benefits from 2.7 per cent to 4.5 per cent — but not more than 6 per cent in a single year.

**PRESTIGE LICENSES AUTHORIZED** — If your name happens to be Sam, for example, you can get it printed on your auto license plates under a new act of the Legislature.

Bill authorizing prestige license tags (for an additional \$10) was passed and sent to the governor, who recommended it.

Anticipated revenue of \$5,000,000 per year will go to tourist and industrial development program.

 SEOUL, South Korea (UPI)—Special U.S. Presidential Envoy Henry Cabot Lodge left for Hong Kong Tuesday after exchanging views on the Vietnamese situation with Korean President Park Chung Hee.

### matter of fact

John Sutter, the man upon whose land gold was discovered in California in 1848, died bankrupt. Sutter, a Swiss immigrant, was granted 49,000 acres in California in 1838 by the Mexican government. Gold was discovered in 1848, the year the U.S. took possession of the land and his property was overrun by prospectors. The Supreme Court later found his title to the land invalid and his claims for reimbursement were never recognized.

# Gardening News

By THELMA BRAY

A well-kept lawn adds immeasurably to the charm and beauty of a garden. Attractive in itself, it affords the perfect setting for flowers, shrubs, ornamental plants and many garden features.

The perfect lawn cannot be made or maintained without some effort. Inattention as much as mismanagement can lead to deterioration. The plant population of a lawn is ever subject to change. Weeds invade, and even the predominating grass species may vary according to how the lawn is managed. The maintenance of an attractive lawn calls for regular care and understanding attention.

When mowing, the height of the cut is extremely important. Too close mowing weakens the grasses, encourages weeds—especially Crab Grass—and excessively depresses soil fertility. The "Greystone Encyclopedia of Gardening" says, "With the exception of lawns made of Bent Grass, northern lawns should be cut not lower than 1 1/2 inches, and in hot summer weather it is better to cut at a height of 2 inches. Bent Grass lawns may be cut at a height of 1 inch or even lower. Southern lawns made of such grasses as Bermuda, St. Augustine and Centipede may be mown at a height of 1 inch. Southern winter lawns made of Rye Grass should be cut to a height of 1 1/4 inches.

"It is a mistake to mow too early in spring; if the grass is permitted to make some obvious growth before the first mowing it will have a better chance to develop good root growth, which will stand it in good stead throughout the season. It is a mistake, too, to mow too late in the fall; the grass may be allowed to go into the winter 1/4 inch longer than its regular cutting height.

Mowing should be done when the grass is dry, as wet grass clogs; and the clippings tend to cling together. It should not be done during cold, driving winds. Mowing should be done in parallel stripes; the direction of the cutting may be varied at each mowing so that it is at right angles to that used at the previous mowing. Mowing in the same direction each time may tend to produce corrugations and ribbing, and allows

coarse grasses to become established."

Not only do grasses consist of some 80 per cent water, but the loss of soil moisture by transpiration and evaporation from a lawn is very high on a hot summer day. The ability of a lawn to withstand drought depends partly on the water-holding capacity of the soil, and partly upon the density of the sward. Soils rich with organic matter hold water better than thin, sandy soils. Dense turf gives more shade against hot sun. In dry weather, it is better to water to saturate the soil once than to give several light sprinkles.

Early-blooming shrubs such as Forsythia and Flowering Quince may be pruned as soon as they have finished blooming. Cut out the oldest flowering shoots and encourage strong new shoots that will provide most of next year's bloom.

Peonies should be supported by some kind of stakes before the weight of the flowers causes the stems to bend over. Weeping Willow branches can be used to form hoops to support the peonies. Tie three to five pliable shoots together to form a circle, then secure by tying to three or four sticks which have been inserted in the ground around the Peony plant.

Another suggestion for stakes to be used around plants which need support is to use twigs and branches which have been pruned from shrubs and trees. Peach tree prunings are excellent. These supports should have six to eight inches clear at the base so that they can be easily pushed in the ground, and the tops should be moderately twiggy.

An article in the May issue of the "Reader's Digest" on the subject of beautifying America closed with this quote: From Thomas Jefferson, "Communities should be planned with an eye to the effect made upon the human spirit by being continuously surrounded with a maximum of beauty."

For those who may be interested in gardening by the signs of the moon, the following dates are suggested: April 28, 29, May 3, 4—destroy weeds; April 30, May 1, 2—transplant; May 5, 6—plant seeds.

Tickets are now being sold for the Pampa Garden Club Placement Show to be held May 15 in the Lee Harrah and Melvin Stephens homes.

## Horoscope Forecast

By Carroll Righter

### FOR THURSDAY, APRIL 29

#### GENERAL TENDENCIES:

A wonderful day and evening to get busy and quickly decide the path you most wish to follow in the days ahead and to show that you are the one who is willing to be the leader who brilliantly programs matters for future reference. Study carefully whatever comes to your attention and make progress to success.

**ARIES** (Mar. 21 to Apr. 19)—Know what you want from others in the future and waste no time in stating aims to close ties who can help much in their attainment. Be very friendly with them. They appreciate this.

**TAURUS** (Apr. 20 to May 20)—Much study and private labor is required before you get finest ambitions rolling nicely. Follow your intuitions and you get ahead. Keep your mind focused on the over-all aims.

**GEMINI** (May 21 to June 21)—Good friends in every sphere of your endeavor appreciate your finest talents and give the support you need. Something unexpected brings you chance to get long-anticipated aim. Be sociable tonight.

**MOON CHILDREN** (June 22 to July 21)—You are now able to get the backing from higher-ups quite easily, but you must be prepared to give full details. Enthusiastically go after that which is of a civic nature. Be clever.

**LEO** (July 22 to Aug. 21)—You can develop in several new avenues now. You must not waste a moment of this fine day. Make new plans. Partners whose views are different to yours should be listened to. Follow best ideas.

**VIRGO** (Aug. 22 to Sept. 22)—Follow your hunches for the information you have long wanted and you find it. Making close ties happy by some kind thought is very wise, too. Show them your kind devotion.

**LIBRA** (Sept. 23 to Oct. 22)—Listening to the ideas of associates and asking them for advice will lead to greater rapport between you. You quickly come to agreement. Conditions around you are bettered.

**SCORPIO** (Oct. 23 to Nov. 21)—Getting work ahead of you tackled in a dynamic fashion sees it melt away very fast, and you are free for other things on the morrow. Get wardrobe in order. Improve your health.

**SAGITTARIUS** (Nov. 22 to Dec. 21)—Putting those creative thoughts to work, but also take

some time for amusement you need. Show devotion to those you like. Get into mutually congenial hobbies.

**CAPRICORN** (Dec. 22 to Jan. 20)—Looking into fundamental affairs with kin will reveal how to increase your holdings. Get rid of projects that are simply no good. Find-better and more lucrative channels.

**AQUARIUS** (Jan. 21 to Feb. 19)—Contacting all those who can assist you where buying or selling is concerned, new accounts, etc. is wise today. Accomplish a great deal. Then be happy with friends, relatives.

**PISCES** (Feb. 20 to Mar. 20)—Finances are uppermost in your mind now, and this is good, since you need to become more prosperous. Get in touch with business experts. They give you best pointers.

**IF YOUR CHILD IS BORN TODAY**, he or she will be one of those interesting young ones who cannot be led to do what he or she does not like, but will use every bit of energy for whatever is truly interesting. Be sure to give the right course of education in whatever is the forte here so that a great success will be assured throughout the lifetime. A fine pioneering spirit here, too.

"The Stars impel, they do not compel." What you make of your life is largely up to YOU!

### Groom Needle Club Officers Are Elected

GROOM (Spl) — Entre Nous Needle Club met in the home of Mrs. C. A. Morrow recently for election of officers.

Elected were: president, Mrs. E. S. Craig; secretary and treasurer, Mrs. A. W. Knorrp; reporter, Mrs. E. R. Hess and sunshine chairman, Mrs. Crim Goodlett.

Present was a guest, Mrs. Perina Hill of Alhambra, Calif. and members Mmes. E. S. Craig, A. W. Knorrp, E. R. Hess, E. C. Goodlett, Van Earl Steed, T. G. Fields, R. T. Foster, Margy Emery, Roy Ritter, Blanche Harris, C. L. Ludwig, Phil Farley and the hostess, Mrs. C. A. Morrow.

The cape, tiered, ruffled, in lace, is the prettiest covering for the decollege wedding gown. Women's Wear Daily reports: One version is tiny enough to hide only the shoulders. Others are bolero length or down to the floor.

## DEAR ABBY...

# Make an Honest Woman Out of Yourself

DEAR ABBY: I have been married for eight years. I have dropped out of school a few months ago and got a job washing dishes in a restaurant. I got in bad with my family because they didn't want me to drop out, so I moved out of the house. A waitress where I work took a liking to me and I got more involved with her than I should have. She is 27 and has been divorced twice. She now tells me that she is going to have a baby and it is mine. (It is possible, but I can't be sure.) She says if I don't marry her, she can take me to court. Can she do this?

I feel very guilty about this. Should I continue to hide the fact that I smoke from my in-laws, or should I smoke in front of them and take the consequences?

**TWO-PACK PATTY** DEAR PATTY: A woman who is old enough to be a wife and mother is old enough to smoke if she wants to. Either quit smoking and make an honest woman of yourself, or light up in front of your in-laws.

DEAR ABBY: I am a 16-year-old boy who could easily pass for 21. (I am 6'3" and weigh

210). I dropped out of school a few months ago and got a job washing dishes in a restaurant. I got in bad with my family because they didn't want me to drop out, so I moved out of the house. A waitress where I work took a liking to me and I got more involved with her than I should have. She is 27 and has been divorced twice. She now tells me that she is going to have a baby and it is mine. (It is possible, but I can't be sure.) She says if I don't marry her, she can take me to court. Can she do this?

DEAR ABBY: Your item about the boy who was embittered when accused of stealing a sweater that he had only found and was keeping for its owner reminded me of the following quotation from the "Memoirs of Thomas Brown": "My rule through life has been to deal with all mankind as if they were honest and intended to deal honestly with me. And although I have often been the victim of such confidence, I have no desire that experience should make me so wise as to become sus-

picious of all men." Thomas Brown served Florida as its second State Governor from 1849 to 1853.

Sincerely, Jas. A. Winfield

CONFIDENTIAL TO "MRS. X" IN MADISON: One woman's left-overs can be another woman's banquet.

## Pascual Hurls Two-Hitter To Rout Cleveland Indians

By United Press International  
Camilo Pascual is known around the Minnesota Twins' clubhouse as a fellow with a short temper, a dazzling curve and a whip-lash batting swing.

He's succeeded in controlling his temper fairly well in recent years but both the dazzling curve and whip-lash swing were on display Tuesday night when he pitched a two-hitter and hit the second grand slam homer of his career in the Twins' 11-1 rout of the Cleveland Indians.

The 31-year old righthander from Havana, Cuba struck out five, walked only two and allowed only four Indians to reach base safely. He started slowly against the Indians yielding a leadoff double to Dick Howser, who scored on an infield out and Max Alvis' sacrifice fly, and walks to Chuck Hinton and Rocky Colavito but then retired 21 consecutive batters.

Pascual's grand slam capped a seven-run first inning and came off relief pitcher Stan Williams after the Twins had chased starter Sam McDowell. The only active AL pitcher who has hit more than one grand slam, Camilo hit the first of his career off Bob Turley of the New York Yankees on Aug. 14, 1960.

### Blast McDowell

The hard-hitting Twins ripped into McDowell with a double by Zoilo Versalles, singles by Tony Oliva and Harmon Killebrew and walks to Jimmy Hall, Earl Battey and Jerry Kindall. That brought on Williams to pitch to Pascual, who promptly connected for the big wallop of the game. Camilo also drove in another run later in the night. Bob Allison led Minnesota's

13-hit attack with a double and two singles and Pascual, Killebrew and Battey had two hits each. The victory was the Twins' seventh in nine games this season.

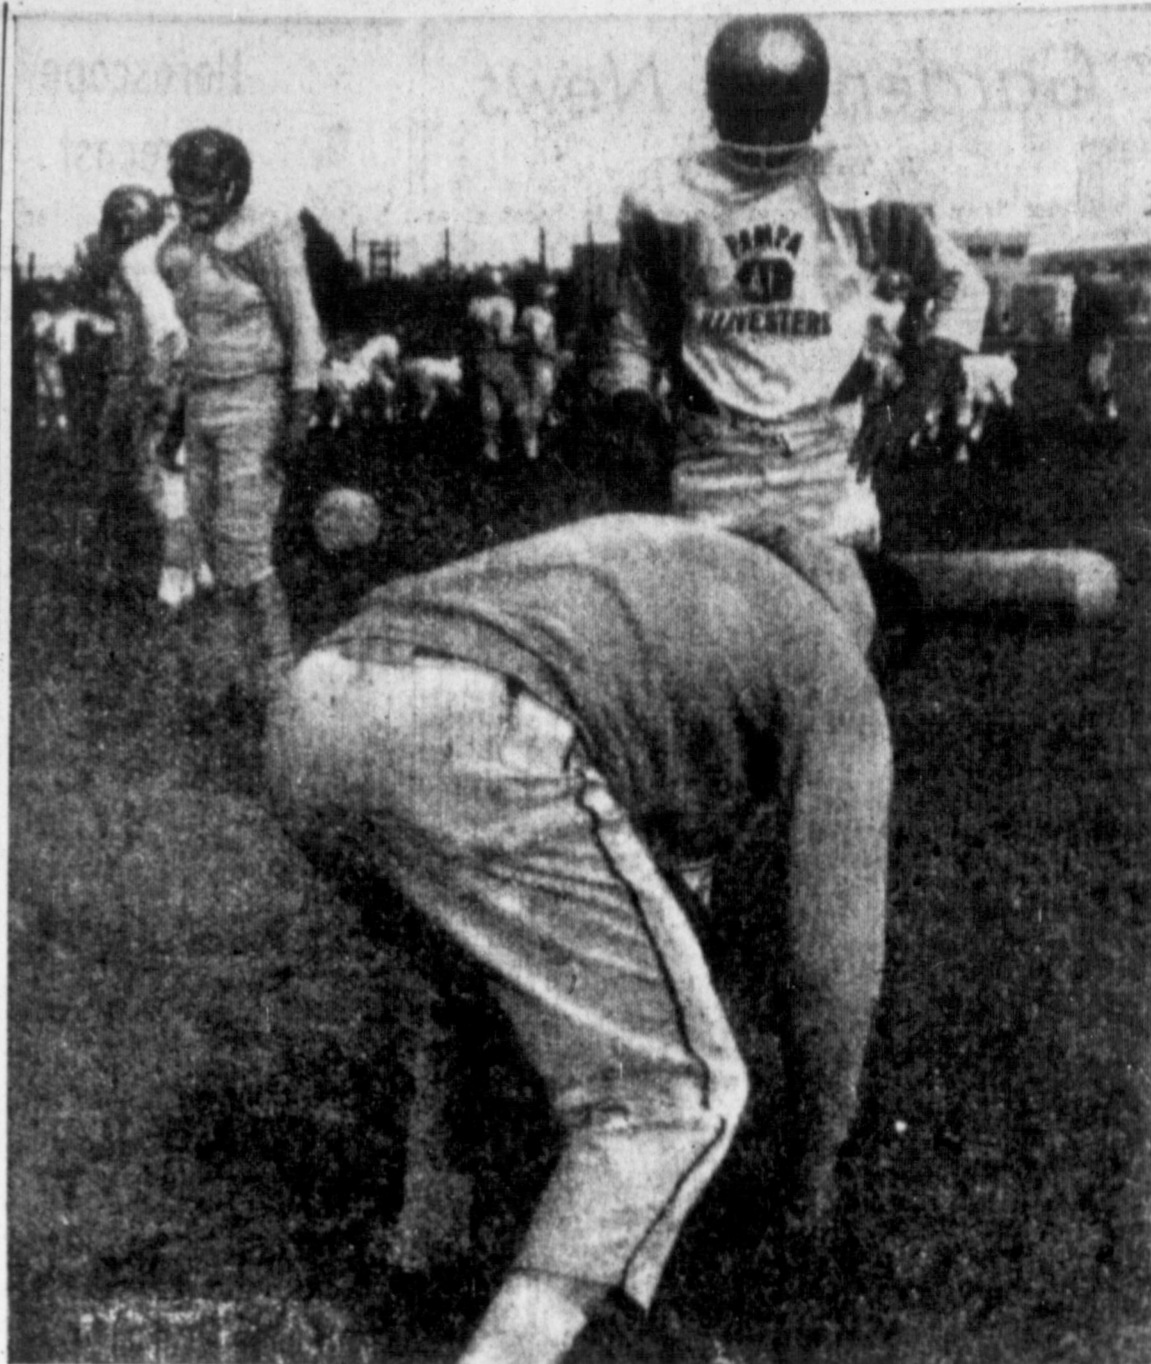

The Chicago White Sox downed the Boston Red Sox, 10-1, the Washington Senators beat the Baltimore Orioles, 5-2, and the Los Angeles Angels nipped the Detroit Tigers, 4-3, in other games. Kansas City at New York was rained out.

### Throws Six-Hitter

Johnny Buzhardt pitched a six-hitter and Don Buford drove in two runs with three singles and a double as the White Sox scored their fifth straight victory. The White Sox clinched the game when they scored six runs in the seventh inning. Tony Conigliaro homered for the Red Sox. It was the seventh time in a two year span that Buzhardt has beaten the Red Sox.

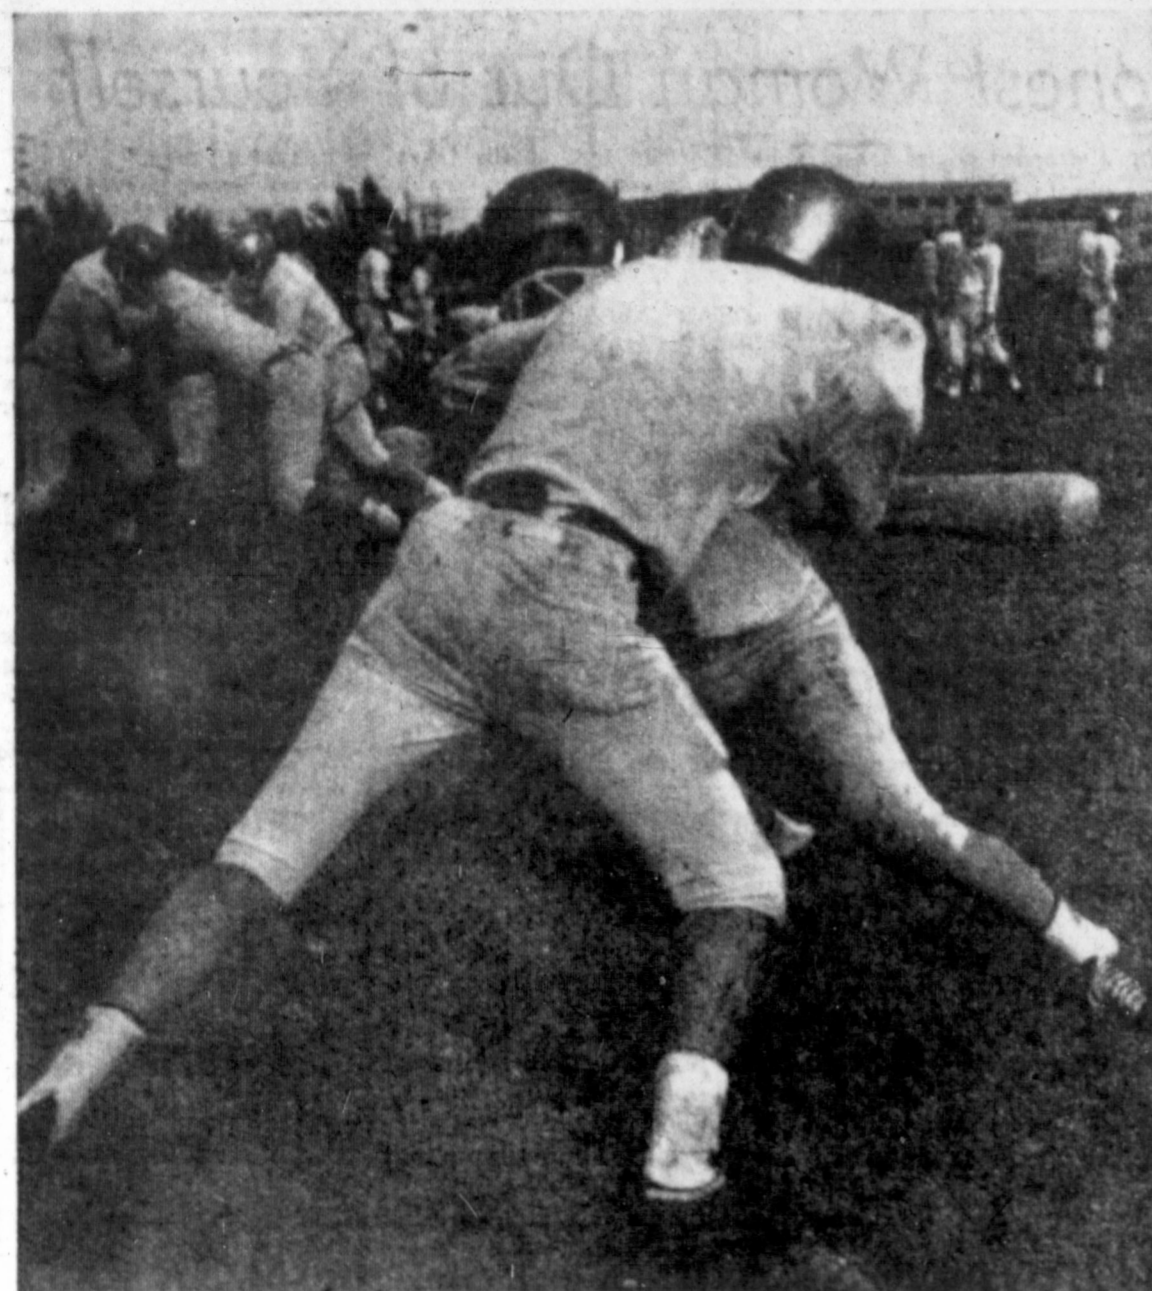

Frank Howard, the 6-foot, 7-inch, 255-pound giant acquired from the Los Angeles Dodgers during the off-season, drove in four runs with a homer and a single. Steve Ridzik received credit for the victory, replacing Washington starter Benny Daniels with the bases filled and none out in the fifth and shutting out the Orioles with one hit the rest of the way.

Jimmy Piersall bunted into a forceout but then raced to second when the base was left unguarded and scored moments later on Jim Fregosi's single to give the Angels their winning run. Fred Newman went 6-2-3 innings to win his second game of the season with the relief aid of Bob Lee. Paul Schaal homered for the Angels and Norm Cash connected for the Tigers.

(Daily News Staff Photo)

**DEMONSTRATION** — Coach Kenneth Frieml gives Larry "Tunafish" Keyser a demonstration of how to throw a shoulder block as the Pampa Harvesters open their first week of spring training.

(Daily News Staff Photo)

**HEAD-AND-HEAD** — Billy Stokes and an unidentified teammate collide head-on, while other would-be Harvester gridders tangle in the background as Pampa runs through its first week of spring training.

## Frank Robinson Leads Cincy In Early Move

By United Press International  
Frank Robinson and the Cincinnati Reds are proving again that as the big slugger goes, so goes the team.

The National League's Most Valuable Player in 1961 when the Reds won the pennant, Robinson failed to achieve such major goals last season as 100 runs batted in and 30 homers. And, of course, the Reds just did miss winning the NL flag after a late-season splurge.

Robinson and the Reds are making their move a lot ear-

lier this year — Robinson with the fastest start of his major league career and the Reds with seven victories in their first 11 games.

The 29-year old Robinson, in his 10th season in the majors, raised his average to a blistering .421 Tuesday night when he hit four straight singles and stole a base to lead the Reds to a 5-3 win over the Chicago Cubs. Other big blows in the Reds' 12-hit attack were homers by Deron Johnson and Tommy Harper and two hits by Don Pavletich.

### Maloney Gets Win

Jim Maloney received credit for his second victory but was relieved by Billy McCool after 6-1-3 innings. Then Roger Craig relieved with runners on second and third and one out in the ninth to strike out Ernie Banks and retire pinch hitter Larry Jackson on an infield out.

The Los Angeles Dodgers held first place by shading the Pittsburgh Pirates, 5-4, the Milwaukee Braves clubbed the St. Louis Cardinals, 9-5, the Houston Astros made it six in a row by nipping the New York Mets, 3-2, and the San Francisco Giants outslugged the Philadelphia Phillies, 14-13.

Robinson singled home the Reds' first run in the first inning and their final run in the seventh. Cincinnati's other three runs came in the third on the homers by Harper and Johnson.

Dick Tracewski's two-run double and a run-scoring single drove in three runs and led the 10-hit Dodger attack. Howie

Reed, who bailed Johnny Podres out of a sixth-inning jam, by retiring one batter, was credited with the victory although Bob Miller pitched the last three innings.

### Mathews Hits Fourth

Eddie Mathews hit his fourth homer of the season and Denis Menke, Frank Bolling and pitcher Denny LeMaster had two hits each for the Braves, who played before the smallest home crowd in their Milwaukee history — 1,677. Billy O'Dell preserved the victory with three-hit, one-run relief over the last four innings.

The Astros equalled their club record of six straight wins when they rallied for two runs in the ninth.

**Hornets Walk Quail In, 15-5**  
WELLINGTON — Mobeetie's pitchers issued 11 walks to set the Quail Quails up for a 15-5 victory in a game called after five innings due to the 10-run rule, here yesterday.

Deadly Dale Morris had to come in in the third inning to pull the win out for brother Don, after the Hornets had gotten four hits and two runs in the first and then two more hits and a pair of walks in the third. Dale proceeded to one-hit the Hornets the rest of the way while his mates piled up nine runs in the last two frames.

Quail is now 3-0 in district 5-B play, Mobeetie 1-1. The Hornets host Samnorwood Friday, Quail hosts Hedley.

Team	W	L	Pct.	GB
Mobeetie	2	0	0.00	5 7/4
Quail	3	3	45	15 10 2

Three-base hits-Dale Morris, Smokey Mitchell, Quail. Two-base hits-Vowell, Mixon, Mobeetie; Paul Gollighugh, Bruce Ward, Quail.				

### Eagles Trip Owls

SAMNORWOOD — The Samnorwood Eagles shattered a sixth inning tie with a three-run outburst to trip Hedley, 10-7, in Tuesday's District 5-B action.

Billy Wischkemper, last of three Samnorwood hurlers, blanked the Owls in the seventh inning to pick up the victory. Samnorwood is 1-2 in conference play to 0-3 for Hedley. In Tuesday's play, Hedley visits Quail and Samnorwood goes to Mobeetie.

**PF AND SPTS 1-18 Eastern**

## Bold Lad Standout for Roses Run

LOUISVILLE, Ky. (UPI)—

Bold Lad, the 1964 juvenile

champion, was back at peak

form today for Saturday's run-

ning of the \$125,000 added Ken-

tucky Derby but a field of

about 12 horses still was in

prospect for the rose run de-

spite the colt's smashing tri-

umph Tuesday in the Derby

trial at Churchill Downs.

Bold Lad streaked to a four

length triumph in the last prep

race for America's racing clas-

sic, running a mile in the last

time of 1:35 1/5. But only two

of the five horses which tried

vainly to match his speed were

out of the first of the Triple

Crown Classic.

Darby Dan Farm's Bugler

and Triple R Stable's One Af-

ternoon fell by the wayside but

Carpenner's Rule and Apple

Core, if the track is muddy,

will be back for another crack

at the Wheatley whiz.

"There is no sense saying he

didn't beat much," said Jim

Conway who saddled Chatsun-

gay for his 1963 Kentucky Der-

by victory and who has Bugler

scot Johnson (6-0), Seagraves;

and Dale Morris (5-9 1/2), Quail.

was in form that was it for

us," he added.

Perme L. Grissom's Carpen-

ner's Rule was second in the

trial and both the owner and

trainer Frank Childs agreed

that "if we don't start we don't

have a chance to win, so he is

a definite starter."

Childs, who saddled Tomy

Lee for a 1959 Kentucky Derby

victory and sent out Sir Ribot

to be fourth in 1962, rated his

colt's chances at 10-1 and about

on a par with Sir Ribot in ability.

"I have seen the Jim Dandy's

beat the 2-1 shots," said the

veteran trainer. "If Mr. Jacobs

will give us some support by

running with Bold Lad, we are

willing to try," he added.

He referred to Flag Raiser,

owned by Isidor Bleiser and

trained by Hirsch Jacobs.

## Sonics Lose Again

By United Press International  
The Albuquerque Dodgers and Dallas-Fort Worth Spurs to whip Tulsa 6-4 and the Dod-

won a pair of narrow victories Tuesday night to hold onto the top spots of their respective divisions in the Texas League.

The Spurs came from behind to hold off the Austin Braves 5-4. El Paso kept pace with Albuquerque in the Western Division with a 5-2 victory over Amarillo.

Albuquerque got four runs in the first inning but the Braves tied it up in the fifth on a grand slam blast off the bat of Mike Sinnerud.

The Dodgers picked up the winning run in their half of the fifth, however and right-hander Lynn Rogelia held off the Braves for the rest of the contest. He saved the win for starter Chuck Lauritsen.

Dallas-Fort Worth came from behind once again to win its sixth straight game and take a two game lead in the Eastern Division. Trailing 2-0 going into the fifth, the Spurs tied things up with a two-run homer by Charles Benson.

The Spurs bombed out Oiler starter Wayne Grainger in the eighth, picking up four runs and icing away the game. Two Tulsa runs in the ninth were not enough.

El Paso got all the runs it needed in the second inning, tagging Amarillo starter Bruce Van Hoff for three markers. Amarillo got its only runs in the sixth on a two-run home run by Aaron Pointer.

Pointer's blast was one of only six hits given up by Pat Rogan, who went the distance for the Sun Kings.

## Celts Will Play Another Cage Year

BOSTON (UPI) — There's still hope for the National Basketball Association — if they can stand the suspense being generated by the Boston Celtics.

As a group, the rivals of the seven-time champion Celtics had been hoping with a passion that Tom Heinsohn, K.C. Jones and Willie Naulls would all retire during the club's annual breakfast dinner Tuesday night.

Instead, Jones said he would play another year before calling it quits. And both Heinsohn and Naulls said they would wait until next fall before considering retirement.

In the meantime, Celtics co-owner Lou Prier announced that he still was considering the offers of three separate groups, two of them Boston-based and the third agreeing to a no-transfer stipulation, to purchase the franchise.

## Canadians Hit Durelle

MONTREAL (UPI) — Canadian welterweight champion Joey Durelle today began an indefinite suspension imposed by the Montreal Athletic Commission for refusing to fulfill a contract to fight Armand Savoie, a man he has beaten twice in the past five months.

Durelle, from Trois Rivières, Que., interrupted his training for the May 4 title bout last week to attend his father's funeral and later informed promoter Johnny Rougeau that he wasn't fit "mentally or physically" to defend his 147-pound crown.

"He was already in training and still had 13 days before the fight in which to get ready," charged Rougeau, who asked the Canadian Boxing Federation to declare the title vacant.

"We feel that was long enough."

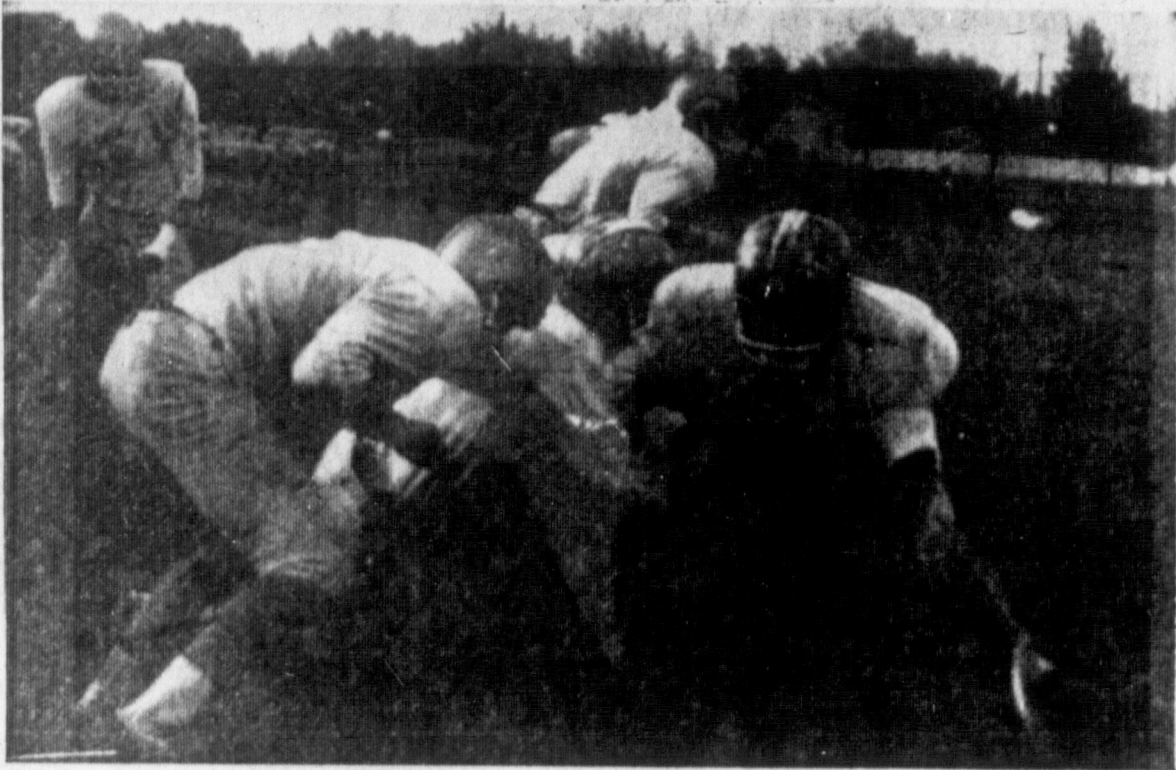

## Coach Moves

CANYON — Ron Adams has accepted a position as first assistant football coach and head track coach at A. C. Jones High School in Beeville.

Dummy Goode, former Lefors coach, is the new head coach at Beeville, a member of District 14-AAA.

Adams coached football at Canyon High School for one year. Prior to that, the Howard Payne College graduate coached at Panhandle for three years and Lefors for two years.

GANG-FIGHT — Dan Patterson is ganged by two of his teammates as the Harvesters got rough on the second day of the spring training grid program.

## Sports Parade

By MILTON RICHMAN  
UPI Sports Writer

NEW YORK (UPI)—You can lead a horse to water, but who ever heard of sending a mule to the United Nations?

You're hearing it now because that's exactly what Charles O. Finley did Tuesday. Finley is the owner of the Kansas City baseball club although he's not what you'd expect the ordinary major league owner to be.

Finley's mule, which answers to the name of Charlie O, isn't an ordinary mule, either. He's house-broken — hasn't had an accident in any hotel he's been in — travels in an air-conditioned, custom built trailer and drinks champagne with his dinner.

The feeling is rather general that Finley has designated the mule Kansas City's official mascot and is sending him along around the country with the ball club strictly as a publicity stunt.

A Little Muleish  
Finley is acutely aware of this feeling because each time it is mentioned he becomes a little muleish about it.

"Listen," he said, after registering the beast into a swanky New York hotel, "what this game of baseball needs most is color. And if it takes a Missouri mule to put some color into it then that's the way it's going to be."

There are some baseball con-

servatives who look down their noses at Finley and have the feeling that stunts of this type are bush.

"Isn't that just too bad," snapped the KC owner, gradually getting his dander up.

"If you can't have fun with your work then you're lost. I'm having fun. It's my money and it's my ball club and nobody is going to tell me what I can do with either of them."

It was a source of some pride with Finley that despite weather Tuesday, there was quite a turnout and traffic was tied up when he rode sleepy-eyed Charlie O up to the hotel entrance.

### More At Hotel

"We had more people than there were out at the ball park," he said.

That was true enough. There were 1,399 fans in the stands at Yankee Stadium when the contest between the A's and Yankees was postponed because of rain a few minutes before game time. There were more than 2,000 on hand when Finley and Charlie O checked in at the hotel's registration desk.

Since Charlie O was hungry, Finley ordered room service. Up came a bellhop with a silver bowlful of oats and champagne to wash it down. The mule made quick work of both.

Then the animal began his working day. First he went to the World's Fair and then to the U.N.

### Fight Results

## Lee Leads Junior Golf

Lee Junior High won the third round of district junior golf yesterday at their home Pampa Country Club, shooting a 338. Second was Borger Austin 351, followed by Borger Houston 359, Perryton 364, PJH 405. Lee 'B' shot a 392.

Medalist was Tom Rose of Lee with a 75; other Lee scores were Steve Grady 87; Steve Wells 85, Greg Gunter 81, Terry Denney 100. PJH had D. A. Carlton 94, Johnny Carter 109, Thomas Crawford 99, Nolan Wilborn 103, Johnny Keane 110. Lee B had Timmy New 94, Calvin Francis 90, Mike Thut 98, Richard Craig 110.

The final round will be at Perryton Country Club next Tuesday with only the top five boys from each school contending. Austin holds first overall with 1063, Lee is second with 1045.

## Daves, Simpson Honored

CANYON — Charlie Daves of Mineral Wells and Gail Simpson of Borger walked off with nearly all the honors at the annual West Texas State athletic banquet held last night at the University.

Daves, three-year letterman at center for the Buffs, received the President's Award from Dr. James P. Cornette, president of the university. Dr. Cornette makes the selection each year on the basis of citizenship, leadership, loyalty, cooperation, improvement, attitude and best use of native ability.

Charlie was also presented with the Kleinschmidt Award by the originator, J. Wesley Kleinschmidt. This award is given annually for both football and basketball to players selected "most valuable" by a local committee appointed by Kleinschmidt.

The third honor bestowed upon Daves was being selected honorary captain by his teammates. He started 23 consecutive games for the Buffaloes before being injured in the third game this past season. He played parts of only two more games, but still was named to the Dallas Morning News All-State team as a linebacker.

Simpson, a junior, received the Kleinschmidt Award as the most valuable player on the basketball squad and also won the Fighting Heart Award, presented

## Baylor Drops Texas Off Undisputed Rung

By United Press International  
A funny thing happened to the Texas Longhorns on their way to the Southwest Conference baseball title Tuesday—they fell on their face.

The Baylor Bears stabbed the Horns in the back 4-1 dropping Texas into a first place tie with the Texas Aggies, who were busy whipping up on Rice 8-3 in Bryan.

Texas Christian continued its dominance of Southern Methodist, whipping the Mustangs 4-0 in the other SWC game.

The flurry of activity left the Southwest Conference race shaped up like this:

The Aggies and Longhorns both own 8-3 league marks with only four games left. The Bears, thanks to their win over Texas, have a 7-4 record and are only one game out of the top spot.

SMU is in third place with a 4-7 record, and Rice and TCU share the bottom rungs with 3-8 marks.

The most inspirational player each year by the Canyon Rotary Club. Dr. Paige Carruth, Dean of Student Life and President of the Rotary Club, made the presentation.

The basketball squad selected Joe "Pogo" McWilliams of Lubbock and George Scott of McAdoo as honorary co-captains for the 1964-65 season.

The featured speaker at the banquet was Harold Ratliff. His subject was the "Values of Intercollegiate Athletics."

# The Pampa Daily News

A Watchful Newspaper

EVER STRIVING FOR THE TOP O' TEXAS  
-TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

## Typical Example

There is such a thing, of course, as industrial espionage. Otherwise the latest offer of a defecting employe to sell the merchandising plans of his company to a competitor would not have come to light and provided the newspapers with the recent and lurid "toothpaste spy" story.

The point of the story we think is that to be played up by the press, such incidents must be rare indeed, and that we are by no means as immoral—cooperately or personally—as we are commonly made out to be.

What happened was that a former junior-executive of Procter & Gamble offered a 18-page photoprint copy of complete, detailed plans for promoting its toothpaste to the strongest rival, Colgate-Palmolive. Admittedly worth millions, the plan was offered for \$20,000. Colgate immediately contacted the FBI and following the Bureau's advice, arranged a rendezvous and exchanged marked

## Lima Beans and People

A 31-year-old Ohio girl has conducted experiments she believes prove beyond doubt that a little love and a few kind words mean a lot to a lima bean.

This may not seem like much at first, but read on. She experimented with four groups of bean plants. Group No. 1 she plied with affection, urging the beans to grow up big and strong.

Group No. 2 was serenaded with soft and schmaltzy violin music. Group No. 3 was bombarded with blasts by the Beatles. And Group No. 4 was scolded.

The beans that were loved and encouraged did indeed grow up

big and strong — better than any of the others.

The fiddle-fondled beans did second best. The Beatles beans were a poor third (relax, kids, it may mean nothing), and the unloved beans turned out to be stunted no-goodniks.

A prominent horticulturist says the girl may have something. He mentioned such things as sound and tone values, high frequency impulses, cells and growth regulators.

But the important thing is that a 13-year-old girl and a 11-m bean have reminded a troublesome nation of a simple truth—that a little love and a few kind words, too.

Now all we have to do is to put it into practice.

## The Low Low in Thievery

Can anything be worse than the fury of a tornado, flood or fire?

Yes. Looting of the ruins. What kind of fiend is this who can prey upon the homeless, the helpless the grief-stricken survivor who has just lost a loved one at the very moment of their deepest sorrow and despair? It takes a special brand of depravity.

Yet such looting is so commonplace that it is routine police procedure to place guards amidst the devastation to protect the stunned victims of nature's wrath from the sneak attacks of their fellow humans.

A sorry commentary on the human race! But there is a brighter side to the picture. For every miserable thief who skulks through the ruins to steal there are scores of good Samaritans who rush in to help the stricken.

The Samaritans reap their reward in the knowledge of what they have done. Perhaps the looters do the same.

## Clearing Skies

Often times the citing of one good example is more effective than thousands of words of argument or admonition.

Today's example. The decision of four major steel producers in the Chicago area to spend \$50 million for equipment to end air pollution at their plants.

The project, jointly announced, will take several years to complete. But it is estimated that by the first of next year alone it will have advanced sufficiently to eliminate half of the air pollution caused by these plants, and that further improvement can be expected before the project is completed.

This is just one instance of the good citizenship displayed by American industry. Less dramatic possibly because they involve lesser sums, countless other projects are constantly under way as industry voluntarily seeks to help assure the nation of pure air and pure water.

## B. A. in Dishwashing

When a union official criticizes the federal government, and when a labor paper publishes that criticism, that's news!

In Little Rock, a 24-week training program has been set up with federal funds to train unemployed youths for such jobs as dishwasher, porter, and bus boy.

"It's the most ridiculous thing I ever heard of," says the Arkansas state organizer for the hotel and restaurant employes union.

Twenty-four weeks to learn how to wash dishes, to clear a table, to carry a suitcase? We have a vague feeling that the union man knows whereof he speaks.

## Male to Get Competition From Female

By RAY CROMLEY

Washington Correspondent WASHINGTON (NEA) — The male is now going to have some real competition from the female.

In the publicity over Negro rights, it has been largely overlooked that the Civil Rights Act of 1964 provides for equal employment rights for women, too, in all industries "affecting" interstate or foreign commerce.

(This means most businesses and industries — such as trade, manufacturing and banking — which have 100 or more workers, and unions of the same size).

But the Women's Bureau of the Department of Labor has not overlooked this word "sex" in Title VII, which "prohibits discrimination because of race, color, religion, sex or national origin by employers, labor unions and employment agencies."

There will now be an active campaign to get women to fight for equality of pay and promotion.

A woman will be able to bring suit if she applies for a job and a man gets the job instead and she feels he got the job because he was a man.

A woman can sue if she feels she is in line for a promotion and a man beats her out for the higher job if she feels the man's victory was due to his being a male.

Note that a woman also will be able to sue if she feels she has been unfairly kept from joining a union membership in which is often a prerequisite for getting a job.

In these three cases, of course, she will have to prove that she was equally qualified for the post or membership she sought.

Watch July 2. The betting here is that within 60 days after that date some woman will sue some company for unfairness in not promoting her or increasing her salary, and some other woman will sue a company for not hiring her.

In 1965, only companies with more than 100 employees and unions with more than 100 members will feel the weight of this woman pressure. By July of 1968, the law will apply to companies and unions with 25 or more employees.

Even without the new law, women have been cutting into the labor force right smartly. In the past 24 years, there has been a doubling in the labor force of women between the ages of 35 and 44, a tripling of women 45 to 54, and a three-and-a-half fold increase of women 55 to 64.

In 1940, 25 per cent of the American labor force was women. Now women represent 35 per cent of American workers. Mathematicians have been fiddling with their slide rules and rulers. They estimate (with their fingers crossed) that if present trends continue, 51 per cent of the labor force will be women by the year 2000 A.D. Then men will be in the minority in their chosen field.

But the Women's Bureau of the Labor Department holds "women are somewhat more crowded today than they were before World War II in the less-skilled, less-rewarding and less-learned fields. We are a much larger percentage of those in the clerical (and service occupations) and we constitute a smaller proportion of those in professions."

This the Women's Bureau intends to remedy.

Some grumbling men have suggested that the Labor Department now needs a Men's Bureau to fight for the rights of males trying to compete with females.

Viet Cong Launching Drive to Split South Viet Nam and Cut Highway No. 1, Intelligence Reports

WASHINGTON — If the best U.S. intelligence can be trusted, the strange noises emanating from Hanoi and Peking can be compared to the underground rumblings that sometimes precede great landscape-changing earthquakes.

The Communist Viet Cong "main force" — organized and trained as formal tactical units — are being regrouped south of the big U.S. airbase at Da Nang to launch a drive to split South Viet Nam.

Fifteen or more battalions, many equipped with North Vietnamese heavy weapons units of recoilless rifles and mortars, have been identified in Quangnam and Quangnai Provinces.

These "elite" Communist forces are expected to spearhead the drive to split South Viet Nam in two from Laos to the South China Sea coastline. The strategy is to close the north-south Highway No. 1, cutting off the Da Nang airbase from Saigon, where the U. S. military command is located.

This ominous threat is the reason behind President Johnson's emergency decision to increase American forces in South Viet Nam.

He has approved the commitment of the equivalent of another U.S. Army combat division to Viet Nam the next few weeks in a desperate effort to block the Communist tactical move.

If necessary, these troops (approximately 20,000) will go directly into combat in a major U.S. effort to blunt the new Communist offensive and avoid a land encirclement of the strategic Da Nang airbase.

The Communist Viet Cong "main force" — organized and trained as formal tactical units — are being regrouped south of the big U.S. airbase at Da Nang to launch a drive to split South Viet Nam.

Fifteen or more battalions, many equipped with North Vietnamese heavy weapons units of recoilless rifles and mortars, have been identified in Quangnam and Quangnai Provinces.

These "elite" Communist forces are expected to spearhead the drive to split South Viet Nam in two from Laos to the South China Sea coastline.

The strategy is to close the north-south Highway No. 1, cutting off the Da Nang airbase from Saigon, where the U. S. military command is located.

This ominous threat is the reason behind President Johnson's emergency decision to increase American forces in South Viet Nam.

He has approved the commitment of the equivalent of another U.S. Army combat division to Viet Nam the next few weeks in a desperate effort to block the Communist tactical move.

If necessary, these troops (approximately 20,000) will go directly into combat in a major U.S. effort to blunt the new Communist offensive and avoid a land encirclement of the strategic Da Nang airbase.

The seriousness of the situation is indicated by the briefing one high-ranking military officer gave a group of congress-

"You would think we were fighting an Indian war, the way the Marines are being forced to defend 'Fort' Da Nang," he said. "The political controls are so tight that the Marines must keep Washington advised of all patrols outside their defense perimeter. It reminds you of Custer's last stand. The Marines were never trained to fight that kind of war."

While the Communists are expected to launch probing actions against the Da Nang defenses, reports from Saigon indicate that Viet Cong shock troops will avoid a head-on clash with the tough Marines until they succeed in cutting South Viet Nam in two.

If that should happen, Ho Chi Minh is expected to accept President Johnson's offer of "unconditional discussion" and

If that should happen, Ho Chi Minh is expected to accept President Johnson's offer of "unconditional discussion" and

## Straight Talk

By TOM ANDERSON

The Pseudo-Businessman

A newspaper wireservice reports that "twenty two of Alabama's most influential business groups, possibly indicating a crack in the state's 'hard line' segregation stand, today called upon the people of Alabama to obey the civil rights laws."

In the light of recent developments in Alabama, we feel that the business community has an obligation to speak out for what it believes to be right.

And what is that? The business community feels to be "right"? Making a profit. That is almost the only thing most of the business community is interested in. I have had long experiences first hand with the business community. And my contempt for it is colossal. I say this in spite of the fact that I have been actively opposing Socialism and promoting free enterprise for 31 years; and in spite of the fact that I have owned my own business for 18 years.

The businessmen who made the above pronouncement are anonymous. That's par for the course. They took their stand through the Chambers of Commerce and various manufacturers' associations.

They are petrified at the mere thought that the federal government plans to cut off federal aid and federal loans to all states, communities and individuals who "discriminate." They are frightened sick at the threats throughout the nation to boycott Alabama products.

So, what's new? At the Battle of Little Rock, "Main Street" was the first to capitulate. I was in Oxford, Mississippi the second day after the occupation. The first businessman I approached in the Square was despondent: "Look what this has done to business!" he moaned.

Recently I was talking with a clubwoman who declared: "We should go ahead and integrate. Integration is only right, and besides that it's inevitable." What she really meant was that she thinks it is inevitable, and you should relax and enjoy it. She? She is the Queen of the Country Club. Equality? She doesn't even speak to most of the members. At this particular Club, there is a social system, just like cows and chickens have. The "in" group, a thin layer of cream, greet each other with kisses. To the next layer, they speak cordially, and so on down to the grunt and stare, and finally the turn of the back.

I replied: "Yes, and the first thing we should integrate is your Country Club." She looked at me in horror. Her Country Club, where she plays golf gaily as the country goes down the drain, is not only white, but you have to come from a long line of the most white and most advantaged to belong.

Historically, most of the fat-

pers, Barthelmes was top aide to Oregon Representative Edith Green for three years before joining the Kennedy staff.

## Between the Bookends

By WARD CANDEL

The Physiology of Plunder During the past few weeks in these columns, we have reviewed two books in the three-volume set of new translations of the works of the French economist Frederic Bastiat. The third, and final, volume is entitled "Economic Sophisms" (published by Van Nostrand, 120 Alexander St., Princeton, N. J.; \$6.75).

This volume contains 39 of Bastiat's essays, all sparked with the same logical reasoning and delightful wit that characterized and immortalized the man who practically ridiculed to death socialism during the last century.

Particularly noteworthy is the author's essay "The Physiology of Plunder" for it offers hope to many who see no end to the welfare state. He cites a natural law that has been proven time and again throughout history. "Plunder always carries within itself the germ that ultimately kills it." Plunder is the transfer of property from one person to another, using coercion rather than persuasion. It is legalized, of course, through all manner of laws — tariffs, subsidies, special taxes, etc.

Bastiat points out that "plunder not only redistributes wealth; it always, at the same time, destroys a part of it."

"Thanks to this law," he continues, "the balance is always tending to be upset: either because the plunderers come to realize that too much wealth is being destroyed, or, in the absence of this realization, because the evil is constantly worsening, and it is in the nature of whatever keeps on worsening to come to an end."

In fact, there comes a time when the progressively accelerating destruction of wealth goes so far that the plunderer is poorer than he would have been if he had remained honest.

AMERICA'S BLANK CHECK Our government has now committed the federal treasury to total support of the United Nations financially, no matter what it may do and no matter how many of its members renege on their solemnly pledged obligations. We have handed the U.N. a blank check on our treasury.

Only last year government spokesmen in Washington and in our U.N. delegation stoutly insisted that Soviet Russia and other nations refusing to meet their U.N. payroll would lose their vote as the charter requires, challenged and out-manuevered and surrounded by Red China's stooge, Albania, the U.S. backed down, allowing the bullies to vote without even a protest.

Now the retreat is officially admitted. We will no longer demand that any member nations pay one cent of U.N. expenses in return for recognizing its vote in the General Assembly. If a member nation wants to contribute to U.N. expenses, naturally we will, thankfully welcome it. But if other members don't pay, our treasury will make up their part.

The quick result of this will be obvious to anyone not totally blinded by childish "idealism." Nearly all the other U.N. members will stop their payments, except for an occasional token sum, and each U Thant and his associates will fill in our blank check for whatever amount of our money they want.

Sensible Americans are entitled to ask what we are getting from the U.N. in return.

cats always "go along" with those in power. They played ball during the Russian Revolution, they played ball with Hitler, and now they're in Johnson's pocket. They will do anything to stay on top, which is one of the main reasons we're on the verge of a corporate Socialist dictatorship. The same scoundrels who are frantically installing Negro vice presidents (near the windows) to appease the almighty government are selling wheat to Russia to get the almighty dollar — so they can send their children to posh, segregated schools and belong to segregated country clubs and maintain two-inch-thick drawing room carpets upon which no black foot will ever be permitted to tread, except as a servant.

Hope is taxable under the regulations of Form 1040-ES. But regret is perfectly deductible if it is in excess of the \$100 limitation but not more than the cost, or other adjusted basis of the property.

So, this year we are turning over a new pail of milk, and for the past two weeks have been studying the instruction book that comes with the tax form. And we have listed below some of our findings and resolutions in this matter for anybody else who is ready to yield to necessity.

Now, as we understand the philosophy of the income tax, the basic idea is to minimize your blessings and count your losses. Space prevents a list of all the ways to accomplish this end. But in general, we are planning:

To take more pills, visit more doctors and wear more eyeglasses.

To plant alfalfa in the window boxes.

To close our savings account and take out a personal loan.

To quit having people in for drinks or dinner unless they can do us some good.

To get rid of the dog, the fish, the book club and magazine subscriptions (except for "Printing Press Monthly").

To wear overalls to the office, give our household furnishings to an organized charity and move into the car.

To spend at least half of our vacation in a hospital.

To get a receipt for everything.

To be at least 65 years old as soon as possible.

And as to crving over a split milk—absolutely and without fail.

Hope is taxable under the regulations of Form 1040-ES. But regret is perfectly deductible if it is in excess of the \$100 limitation but not more than the cost, or other adjusted basis of the property.

Wall Street Chatter

NEW YORK (UPI) — The Alexander Hamilton Institute says that while it does not look for an extended rise from present levels neither does it anticipate a serious downward adjustment as it did earlier in the year.

The firm says that offsetting the favorable factors of the economy and business are the potential threats of Viet Nam and the steel labor situation.

Bergman, Cummings & Co. says it expects the market upward trend to continue for some time and to be characterized by frequent periods of vigorous upward movement interrupted by relatively few and mild consolidations.

Hornblower & Weeks-Hemphill, Noyes says that even though risks are becoming more clearly evident, the forward movement appears to have sufficient momentum to carry considerably further.

Walter Rogers Reports

Sit-In Participants Just Publicity Seekers

I remember quite well when I was at the University, the marathon dance fad swept the Country. A poor bedraggled couple would dance, or perhaps "stand and shake" would be a better term for it, until they dropped from utter exhaustion. The two who avoided total exhaustion longest would win the prize. The fad caught on to the extent that there were some pretty sizable money prizes being offered to the nuts who had

THE HOSTESSES

MANCHESTER, England (UPI) — Women who rent rooms to 300 students here will now be termed "hostesses" by the Manchester Education Committee which ruled the term "landlady" is out-of-date.

little enough sense to strain their mental and physical facilities in such a manner. It was the prize money that probably appealed to most of the college students who participated, and there were a great many. Food and lodging were hard to come by in those days, and I suppose some of the folks thought that since they had no place to go and nothing to eat, they might as well dance and maybe win a prize.

A few years later it became the popular fad to eat goldfish, without benefit of the frying pan, that is. Just simply reach into the fish bowl, grab one by the tail, and swallow him whole. This practice did not last too long, probably due to the lack of participants who were willing to pay any price for a little publicity, or a shortage of goldfish extent that only the well-to-do that increased the price to the could enjoy the game. I have always suspected that it was the desire of the individual to be noticed that prompted most of these crazy ideas.

Then, along came the flag pole sitting era. Some screwball with nothing more to do would pack a light lunch, tuck a pillow under his arm, skin the nearest flag pole and perch on top of it until inclement weather or total exhaustion drove him down. I don't know who finally won the title, or who presently holds it, but I do think that the prize should have been a minimum of two years in some mental institution.

After the flag pole era came the practice of seeing how many young people could get into a telephone booth. I don't know how many finally succeeded, but I was of the firm opinion when this was going on that the best solution to that problem would be to lock the telephone booth after they were all in and disconnect the telephone.

Then came a period when Russian roulette was popular. This was discontinued, I understand, because too many were losing the game and the ranks of the "kooks" (formerly known as nuts, screwballs, and crackpots) were being thinned alarmingly. It is also pointed out that those who lost the game and received the publicity which they were seeking were unable to enjoy it.

We are now going through another similar era in which these same type eccentrics are engaging in marches, demonstrations, and sit-ins. They daily parade in front of the White House or any place that they think they can receive attention. They pose as representing all shades of the political spectrum, the economic spectrum, and the spiritual spectrum. They invade the halls of the Nation's Capitol and other public buildings, and engage in what they call civil disobedience. In a great many instances, this so-called civil disobedience is nothing less than a violation of criminal statutes and ordinances for which the participants should be held responsible. Their actions and deeds encroach upon and invade the rights of honest, law-abiding citizens who are the basic strength of this Nation. The laws of this Nation and all of its States provide for proper hearing and redress of the grievances of any individual citizen or any group. It was never intended by the founders of this Country or those who firmly believe in its Constitution that the practices being employed at the present time should be tolerated.

A great number of these people are doing nothing more or less than seeking publicity. They look forward to the appearance of their names in newspapers and periodicals, or their faces on television. Their right to do this would not be challenged by anyone so long as they do not violate the rights of other individuals and the public. When their activities do so they should be dealt with accordingly and without delay. A good dose of no publicity and a night or two in the County jail might be the proper remedy. At least it would test their sincerity.

As one member of Congress so ably put it to a group of kooks who had invaded his office: "If you are sincere in wanting to protect my rights, I wish you would go shave and take a bath first!"

Walter Rogers  
Member of Congress

Rodeo to Highlight Guymon Pioneer Days

Sparked by some of the nation's top cowboys and a nationally known rodeo announcer, Guymon's annual Pioneer Days Rodeo explodes into action April 30 through May 1.

An expected 90 big-hatted entries will be in pursuit of a prize money bundle which may top the \$4,040 divided among winners at the rodeo's conclusion here last year.

Individual money honors in the 1964 Pioneer Days Rodeo went to Phil Hatcher, Okemah, who won \$398 in steer wrestling. Oklahoma Senator Clem McSpadden, ABC-TV's Wide World of Sports announcer, is scheduled to call the shots at the three big performances.

Other event winners were Buck Rutherford, Lenap, Okla., in bareback bronc riding; Jim Wise, Grover, Colo., in saddle bronc riding; Duane Hennigh, Laverne, Okla., in bull riding; and Eldon Dudley, Perryton, Texas in calf roping.

On the early entry roster this year are: former seven-time champion Roper Don McLaughlin, Fort Collins, Colo., Jim Mihalek, Broomfield, Colo., Joe Green, Sulphur, Okla., Olin Young, Albuquerque, N.M., C. R. Boucher, Burkburnett, Texas, Bill Kornell, Clarksville,

Texas, Pete Fredericks, Halliday, N.C., and Eldon Dudley, who plans defense of his roping victory here last year.

Boucher, 33, is the reigning world champion steer wrestler, while Kornell, 20, was 1963's national bull riding tittist. Young, 28, a one event specialist in calf roping finished third for the 1964 championship and Mihalek, 24, was runner up for the bareback bronc riding crown.

Scheduled rodeo events this year are saddle and bareback bronc riding, bull riding, calf roping, steer wrestling and girls barrel race. Rodeo livestock will again be furnished by Bent-

ler & Son of Elk City. Other events during the pioneer days include free chuck wagon breakfast, 12 mile long parade in the pioneer tradition, wagon trains, dances, free street entertainment, contests, old car show, gathering of area pioneers, and more dances.

RECRUITING DRIVE

WASHINGTON (UPI) — The Johnson administration's "domestic Peace Corps" is launching nationwide campaign to recruit college students to serve in its ranks this summer.

The campaign by the Volunteers in Service to America (VISTA) will seek volunteers to fill 800, immediate openings in urban areas, 600 to work with migrant farm families, 300 to

assist Indian families and 200 to work in rural Appalachia.

The volunteers will begin assignments after completing a six-week training course in June and July. The recruiting team will start campus visits this week at the City College of New York and visit other institutions throughout the country in the next five weeks.

WOOLWORTH'S

THE LOOK OF EXQUISITE LACE!

Vinyl Cloths

TO DRESS UP YOUR TABLE!

\$1 to \$4.49

Authentic reproductions of fine lace in Soflon® vinyl with the touch of elegance, plus effortless care. Just wipe it clean, or whisk through suds. Two skilful reproductions... Brussels, a heavily encrusted all-over lace design, or Riviera, featuring delicate lace insets and border combined with an embroidered linen look.

Brussels Pattern	Riviera Pattern
Round Shape	Square Shape
36" round \$1.00	36" square \$1.00
54" round \$2.49	54" square \$2.49
72" round \$3.49	72" x 54" oblong \$3.49
	90" x 54" oblong \$4.49

YOUR MONEY'S WORTH MORE AT WOOLWORTH'S
