Reservists Safe for Awhile; Draft Call To Be Doubled

Crack First Cavalry Ordered to Viet Nam

WASHINGTON (UPI) — President Johnson announced today that draft calls will be doubled to 35,000 men a month to help build up U.S. strength in South Viet Nam from 75,000 to 125,000 troops.

He also disclosed that he had ordered to Viet Nam the 1st Cavalry Division, a crack air assault and infantry outfit stationed at Ft. Benning, Ga. It will be accompanied by "certain other forces which will raise our fighting strength from 75,000 to 125,000 men."

Johnson said he had concluded, however, that "it is not essential to order reserve units into service" at this time.

He said that if it became necessary later to summon reserve units, "I will give the matter careful consideration; and I will give the country due and adequate notice before acting."

Johnson outlined his stepped-up program for meeting the Communist challenge in Viet Nam at a news conference carried to the people on nationwide radio and television. It capped a week long series of top-level conferences with his aides and congressional leaders.

Johnson said bluntly that additional forces will be needed in South Viet Nam "and they will be sent."

Senate Gives Final Approval To Medicare Bill

WASHINGTON (UPI) — The Senate gave final congressional approval today to President Johnson's \$6.1 billion medicare bill, the most significant welfare measure in a generation.

The measure now goes to Johnson for his signature. If it is signed before the end of the month, the first of its provisions will take effect Sept. 1.

The bill would provide hospital care under Social Security for an estimated 19 million Americans 65 and over and would increase all Social Security benefits by at least 7 per cent.

It also would establish an optional contributory insurance program for the elderly to help cover doctor bills and other medical expenses.

Pay Top Pentagon officials were called before the Senate Armed Services Committee to testify on legislation for a pay increase for armed forces personnel. The administration is hoping the Senate will reduce the 10.7 per cent average increase approved by the House. The figure was about double what the administration wanted.

Glasses: A Reading, Pa., eye-glass maker went before the Senate antitrust and monopoly subcommittee. He submitted testimony charging an eye doctor refused to send him any patients after he turned down a demand for a kickback.

Amendment: Sen. Walter F. Monale, D-Minn., said a proposed constitutional amendment would be "a disastrous blow for the cause of human rights." The amendment, now before the Senate, would let states apportion one House of their state legislatures on a basis other than population. It would nullify a recent U.S. Supreme Court decision.

NIMBLE-FOOTED

OAKLAND, Calif. (UPI) — Sixty year old Amy Correia was getting into a friend's car outside a bus station when a young man grabbed her purse containing \$700 in cash and \$800 in traveler's checks.

The nimble-footed woman chased the thief around the bus station and around the block. He finally threw the purse away. It contained the cash but not the checks.

Scientists Reveal New Space Plans

SAN FRANCISCO (UPI) — The agency, his company is developing a plan to send a manned Apollo ship up "to capture and return to earth the Syncom-3."

Launched Last Year Syncom-3 is a U.S. communications satellite orbiting earth about 22,300 miles up. The moonlet, launched more than one year ago from Cape Kennedy, was used for relaying television broadcasts of the Olympic games from Tokyo to the United States in 1964.

Returning a satellite for the first time would make an interesting experiment, said Tinnan. "It would allow us to see the weathering effect (from radiation and cosmic dust) on an orbiting spacecraft."

Recapitulating Syncom-3 is one of several ideas North America is looking at as a possible future used for the Apollo spaceships and Saturn rockets that will be used to land the first men on the moon around 1969. None of these programs

Schools Change Boundary Lines

The Pampa Independent School Board approved two boundary changes yesterday following recommendation of Superintendent L. J. Edmondson.

An elementary school boundary change will affect approximately 32 students residing west of Hobart between Kentucky and 18th streets.

Elementary students living in the 15, 16 and 17 hundred blocks of Hobart, Banks, Faulkner, Sumner and Nelson and on Decatur and Harvester west of Hobart will attend Horace Mann school instead of Travis Elementary School.

Edmondson told the board meeting yesterday that the change was due to overcrowded conditions at Travis school.

The other change concerned the moving of the boundary line from Alcock northward to Kentucky at the junior high level.

Edmondson said the change will effect only seventh grade students entering junior high this year. He said students already in junior high in the

has gained official approval. Tinnan said another possibility is to send an Apollo capsule into an orbit over earth's poles to meet up with the Giant Echo 2 balloon the United States sent into orbit—an idea that has been suggested, but failed to win approval, for the earlier Gemini manned orbital program.

Another Approach

Sending an Apollo ship, with men, on a "high resolution" photographic mission to get the first full, detailed map of the moon is still another avenue of approach to advanced missions in space, he said. Such a trip, from blast-off to landing, would take about 35 days.

Perhaps a better bet for final approval is a proposal offered by George M. Levin, an engineer with the space agency's Goddard Space Flight Center, for shooting instrumented "darts" at Mars to find out what its atmosphere is like.

Informal sources said a boyager probe the United States plans to send on a "fly-by" mission to the red planet in 1969 may be armed with two and possibly more of the 60-pound darts.

As boyager swung toward the planet, it would take aim and—at just the right instant—fire the darts from small cannon.

DANGEROUS DRIVER

HARLOW, England (UPI) — Carpet salesman Albert Harding was fined \$84 for dangerous driving because his car swerved across the road when he kissed a woman passenger.

Six U.S. Jets Lost in Action Near Hanoi

SAIGON (UPI)—Six American jets were lost Tuesday in air raids on Communist missile sites and a barracks only 30 miles from Hanoi, a U.S. Air Force spokesman said. A seventh plane was lost in a raid over the north today.

An Air Force spokesman disclosed fellow pilots fired on North Vietnamese troops today in an effort to save the pilot of the downed plane who parachuted after his plane apparently developed mechanical trouble and crashed.

One pilot was rescued Tuesday but five other airmen were listed as killed or captured. The pilot of the A1 Skyraider downed today was rescued by a helicopter while his fellow pilots from the carrier Midway fought off advancing enemy troops with rockets and cannon fire.

The Air Force said the Communists apparently fired no missiles Tuesday in a raid which followed a Saturday raid in which survivors reported objects "like telephone poles" passed their plane. One of the planes Saturday was confirmed to have been downed by one of these missiles.

Biggest Marine Operation U.S. Marines teamed up today with Vietnamese marines in a massive sweep and destroy operation 10 miles south of the Chu Lai air strip below Da Nang. A spokesman called it the biggest Marine operation of the Vietnam war, involving more than 500 Marines and two battalions of about 1,800 Vietnamese.

A spokesman said 11 Viet Cong were killed and 10 captured in the first day of the two-day operation which began when a battalion of Vietnamese marines and two companies of U.S. Marines from the 2nd Battalion, 4th Brigade, were flown into action by helicopter.

Viet Cong snipers opened up from head-high elephant grass and the Marines retaliated with 81 millimeter mortars which flattened the area.

Marine Skyhawks pounded enemy positions while another battalion of Vietnamese regulars blocked escape routes.

U.S. losses were not announced. It was the second major Marine action of the day. A Marine company moved out from the port city of Qui Nhon and captured a pass at Cu Mong where the Viet Cong had launched a series of harassing raids against American positions. No enemy casualties were reported.

DISTRIBUTION — George Newberry, manager of Southwestern Bell Telephone Company, examines a check-list as the last of 14,000 new telephone books were mailed today. A phone book is sent to every subscriber in the Pampa area. A total of 452 books were mailed to residents of Lefors, 493 to Skellytown and 13,055 to Pampa residents. The most received by any one company was about 493 books to the Cabot Corporation.

Civil Rights Leaders In South Await Court Order

By United Press International There were two protest marches in Americus Tuesday without incident. For a brief period there was a tense situation when several hundred whites, mostly teenagers, taunted and threatened the Negroes.

In Bogalusa, La., two police officials have at least another day of waiting before they learn whether a federal judge will hold them in contempt of his order requiring protection for demonstrators. Arguments on civil contempt charges ended Tuesday. The two also face criminal contempt proceedings.

Elsewhere: Cleveland, Ohio: Dr. Martin Luther King Jr. continued his street-corner speeches and church appearances aimed at spurring voter registration today. He cited Negro apathy and lack of motivation Tuesday as the reasons for poor registration.

Springfield, Mass.: Seven policemen accused of brutality by civil rights leaders were ordered Tuesday not to answer calls in the city's Negro district pending results of a hearing on the charges.

Some 150 Negroes gathered on the steps of St. Matthews A.M.E. Church in Greensboro. They talked, sang and prayed before bedding down for the night in the churchyard. "We will have a meeting again today and then head back to the barricades," said the Rev. Arthur Days, pastor of the church and leader of the protest demonstrations against church burnings and voter discrimination.

Showers Dot Pampa, Area, More Expected

Light showers dotted Pampa and the Panhandle area Tuesday night and today with just under an inch of rain the heaviest amount reported. The weatherman called for more showers ending Thursday. Pampa went from a high of 93 to a low of 68 Tuesday and the city recorded one-tenth of an inch of moisture at water pump station No. 1 on N. Ward. McLean and Lefors reported 45 of an inch; Wheeler, 40; Miami, a trace and White Deer, 10.

The U. S. Weather Bureau said a front was moving slowly southward near the Texarkana-Fort Worth-Spring line. The front should continue south throughout the day.

In a five-day forecast, the U.S. Weather Bureau predicted numerous thundershowers over all the state with temperatures 1-5 degrees below normal. Overnight readings today ranged from a comfortable 67 at Dalhart where 48 of an inch of rain fell to 79 degrees at Dallas and Waco. Temperatures were in the 60s behind the front and in the 70s ahead of it. Wichita Falls reached 100 degrees or more for the 22nd consecutive day Tuesday, hitting 105. Presidio was 101 as was Mineral Wells and Fort Worth. It was 100 at Waco and 99 at Abilene, Childress and Houston.

WEATHER PAMPA AND VICINITY — Cloudy through tomorrow. Partly cloudy late tomorrow. Showers possible in Panhandle late today. Low tonight upper 60s, high tomorrow upper 80s. Winds northwesterly 3-5 m.p.h.

Gardner Has Reputation for Excellence

WASHINGTON (UPI) — John W. Gardner's reputation as a two-fisted educator with a passion for excellence should serve him well in his new post as boss of the sprawling Department of Health, Education and Welfare.

President Johnson's nomination Tuesday of Republican Gardner to replace Anthony J. Celebrezze in the difficult and demanding cabinet post obviously reflected the Chief Executive's concern for education.

But his description of the 53-year-old Carnegie Foundation executive as an "explorer in search of excellence" implied strongly that he expects the new secretary and his department to be a seedbed of new ideas for the Great Society's future.

"As we near the outer edges of this century," Johnson said, "the loss of quality and the discovery of excellence become the searing issues of our time. I know of no one who is better suited by temperament, experience and ability to lead us through this period of transition than John W. Gardner." (See GARDNER, Page 3)

CABINET CHANGE — President Johnson congratulates John W. Gardner, his new secretary of Health, Education and Welfare. Gardner, a registered Republican long active in the education field, succeeds Anthony J. Celebrezze, center, whom the President has nominated for a judgeship on the 6th Circuit Court of Appeals covering Ohio, Michigan, Tennessee and Kentucky.

City Study Committee Probes Long Range Street Plans

A long-range plan for overall street improvements in Pampa is being probed by one of the mayor's study committees.

The committee on Thoroughfare and Street Improvement, headed by Clinton Evans, met in City Hall late yesterday afternoon and tackled some of the eventual needs.

It was the committee's decision to take a look at what is needed in the years to come as it relates to a city-wide street improvement program.

Starting at Price Rd. on the west, the committee considered, one by one, improvements needed on north-south thoroughfares including Price Rd., Sumner, Hobart and Duncan Sts. At its next meeting the committee will continue the north-south street study through to the east city limits. Next in consideration will be

major thoroughfares running east-west across Pampa. It is the plan of the committee to arrive at a complete picture of city needs as far as street improvements are concerned. Then it would determine what improvements need immediate attention and list other projects with relation to their importance in a long-range program.

Members of the committee in addition to Chairman Evans are Joe Fischer, Leon Holmes, Dr. Joe Donaldson, Ray Duncan, Lou Troja, Calvin Hill, C. P. Buckler, Jack Miller, James Morgan and O. F. Hunter.

Court News

CORPORATION COURT
Lella Cummins, 332 Baer, speeding, found guilty by jury, fined \$13.

Norman R. Stone, 1120 Seneca, running stop sign, guilty, fined \$11.
Donald L. Provence, 228 W. Craven, intoxication, guilty, fined \$25.

Perryton Man Fined \$250 After Fleeing Police

A 24-year-old Perryton man, Darry Gene Reppond, was fined \$250 on three traffic charges filed against him last night following a chase by Pampa police.
Reppond was charged with running a stop sign, speeding and no drivers license.
He was fined by Corporation Court Judge John Warner.
According to police, Reppond fled from police officer Gayle Stevens last night and was captured when his automobile ran into Acme Lumber Co.
Police said his car was not heavily damaged.

Pampans on Way To Arctic Circle For Fishing Trip

Ten Pampa men departed from Pampa today for a one-week fishing trip near the Arctic Circle.
The ten will spend approximately one week fishing the 1,500 mile shore-line Great Bear Lake.
The lake, largest in the world, is accessible only by air and is regarded as the greatest fresh water fishing lake in the world.
Making up the Pampa fishing party are Jean Deavers, Bob and Joe Gordon, George Cree Jr.; Ed and Holly Gray, John Lee Bell, D. E. Holt, Clayton Husted, and B. M. Behrman.
Trout, Arctic char and graylings weighing as much as 50 pounds have been caught from the lake.

Draft (Continued From Page 1)

Nam the steps they will take to substantially increase their own efforts — on the battlefield and toward reform and progress in the villages," he said.
"To pay for the military step-up, Johnson said he will ask Congress for a limited addition to the defense appropriation bill now pending before the Senate Appropriations Committee.
"These steps, like our actions in the past, are carefully measured to do what must be done to bring about an end to aggression and a peaceful settlement," the President said. "We do not want an expanding struggle, with consequences no one can foresee. Nor will we bluster or bully or flaunt our power. "But we will not surrender and we will not retreat.
"For behind our pledges lie the determination and resources of the American nation.
"Once the Communists know, as we know, that a violent solution is impossible, then a peaceful solution will be inevitable.
The last draft call, issued Friday, was for September and called for the induction of 17,000 men for the Army. This was the same as the July quota but 500 more than was requested for August.
The draft rate dipped to a recent low of 3,000 last February, but was stepped up to 15,000 in March and has remained between 16,000 and 17,000 since then.

Hazelwood Again Named to Board

AUSTIN (Spl) — Lieut. Gov. Preston Smith today announced the reappointment of Sen. Grady Hazelwood of Amarillo to the Legislative Budget Board.

The Budget Board is a permanent legislative service agency with a full-time professional staff. Its duties include general budget work for state government and preparation of an estimated appropriation bill for each biennium to be submitted to the Governor and the Legislature.

Hazelwood recently was named to the Senate General Investigating Committee. A member of the Senate for 24 years, the Amarillo senator was chairman of the Senate State Affairs Committee during the 1965 legislative session.

PHS Twirler Wins Medal at Camp

Pampa High School twirler, Patsy Glover, daughter of Mr. and Mrs. Herman Glover, 1720 Fir, Peggy Peeples, daughter of Mr. and Mrs. Herb Peeples, 1706 Fir, and Barbara Zimmerman, daughter of Mr. and Mrs. Richard L. Zimmerman, 1809 N. Banks, attended a twirling camp last week at Kilgore at the college of the famous Rangerettes.

Bill Allen, world famous instructor, was head co-ordinator for the camp. The three Pampa twirlers were the only representatives at the camp from this district and the Panhandle area.
Eight different routines were learned by the girls to be used in next year's activities.
Miss Peeples was named the "Most Outstanding Twirler" in her solo class and received a medal for efforts.

Gardner (Continued From Page 1)

ence and common sense intellectualism to confront these issues and bend them to the national desire.
It is no secret that the White House is searching for new ideas for 1966's legislative program. Earlier this month presidential aide Richard Goodwin called on the nation's colleges and universities to speak out.
During his nearly three years in the new job, Celebrezze, a 55-year-old former mayor of Cleveland, "presided over the greatest thrust for the future of American education and health we have ever known," Johnson said Tuesday. Celebrezze will become a federal judge.
Now, with the vast and complex new medicare and education programs a reality, it will be up to Gardner to make them work. It was expected that his 10 years experience as president of the Carnegie Corp., which dispenses millions of dollars annually, would serve him well.

Obituaries

Mrs. Byrdie Virginia Miller Funeral arrangements are complete with Carmichael-Whitley Funeral Directors for Mrs. Byrdie Virginia Miller, 87, who died at 7:34 p.m. yesterday in St. Ann's Home, Panhandle.

Mrs. Miller was born April 15, 1878, in Arkansas. She was married to John William Miller on Aug. 16, 1903, in Waldo, Ark., who preceded her in death on Sept. 5, 1938.

Mrs. Miller had made her home with a daughter, Mrs. Lee Smith, near Laketon for the past 23 years. She was a member of the Methodist Church.

Other than Mrs. Smith survivors include one son, Robert Henry Miller of Korea; two brothers, William Crawford of Waldo, Ark., and Russell Crawford of McNeil, Ark.; one sister, Mrs. Fannie Crawford of Gilmer, four grandchildren and two great-grandchildren.

Kyle's Shoe Store To Observe Grand Opening Thursday

J. C. Roberts, owner of Kyle's Shoe Store, announced today the grand opening, Thursday, Friday and Saturday of a new store at 109 N. Cuyler.

Roberts has owned and operated his present store at 121 N. Cuyler for the past nine and one-half years.

"We almost have our moving complete to the new store and we will have complete line of shoes for every member of the household," Roberts said.
The new store will offer larger and better quarters and Roberts will have a larger selection of shoes to choose from.

Thursday the store will be open from 8:30 a.m. until 9 p.m. with shoe trees and French purses to be given away along with a pair of shoes every hour. There will also be candy and balloons for the kids.
The new store will be open from 8:30 a.m. until 6:30 p.m. Friday and Saturday.

Roberts, his wife and daughter, Lettie, live at 2501 Christine. They have one other daughter, Carol Sue Rhoten and three grandchildren.

Roberts is a member of the Pampa Lions Club and Chamber of Commerce and First Baptist church.

Television In Review

By ROBERT MUSEL

NEW YORK (UPI)—Every parent dreads the moment. Junior, having considered and discarded the stork theory, now fires questions like a district attorney. What to tell him?

Jules Power, director of children's programming for the ABC-TV network, solved that problem for many fathers and mothers with a highly acclaimed explanation titled "The Day Life Begins."

Junior learned a lot—and so did his parents. For it is one of the remarkable facts about ABC's "Discovery" series that about half its 8 million viewers are adults either enjoying the awakening of wonder in their children or getting a simple refresher course in facts long forgotten.

It is the fashion these days to knock adult television as imitative and unadventurous. May be so. But all three networks can take pride in the time and imagination lavished on programs for the younger generation and the respect accorded their efforts even in Europe which likes to think it leads the world in this important field.

Power stopped off briefly today in his around the world search for material for the next "Discovery" series, starting Sept. 19 (171 ABC-TV stations, 10 a.m. Sundays (CST) to talk about his new book "How Life Begins" and how he selects subjects that will inform and enrich young—and old—minds.

He is small, dark, intense, highly articulate as one might expect from a Phi Beta Kappa and serenely confident, as one might also expect from a family man who has devoted himself to children's programs on radio and television for 17 years.

"The book," he said over lunch at the Brasserie, "is, of course, a pin-off from the program. Children never come out and ask questions unless there is a stimulus—we provide this by showing the development of the egg and the life processes. Then we stress that most animals mate by instinct and part afterwards. This is a mechanical and frightening concept for a child. So in the book, as in the program, we point out that there is a difference when humans mate, and the difference is love.

Quarters Being Built for Lynda Bird's Secret Service Agents at UT

AUSTIN, Tex. (UPI)—Quarters for Secret Service agents are being built in Lynda Bird Johnson's sorority house at the University of Texas, it was learned Tuesday.

The White House has said the President's daughter would like to return to the university this fall but has never confirmed that she will do so.

Lynda attended the University of Texas and was a member of Zeta Tau Alpha sorority from September 1962 to January 1964, when she transferred to George Washington University in Washington.

She is majoring in history and will be a senior this fall.

Mrs. Joe Moore of Austin, chairman of the Zeta Tau Alpha alumna maintenance committee, said a red brick patio

next door to Lynda's room in the sorority house is being walled in for Secret Service agents.

Another Zeta Tau Alpha alumna, Mrs. George Covert of Austin, said the room, nine feet by 14 feet, will be used as

headquarters for about five Secret Service agents working in shifts.

Wall Street Chatter

NEW YORK (UPI)—Tessel, Patrick Inc. says it appears that a trading range is being established which necessitates purchases on weakness and selling on strength. The firm says that at present the list seems unsettled as to the lower limits of the range, while the upper limit has been clearly defined at 890 in the Dow Jones Industrial average.

Purcell, Graham & Co. says the cyclical stocks are now testing the late June lows and the next few trading days should be critical for them, but that the growth stocks may be seeing the last of their weakness.

Bache & Co. says a policy of selective accumulation is a prudent course to follow at this time.

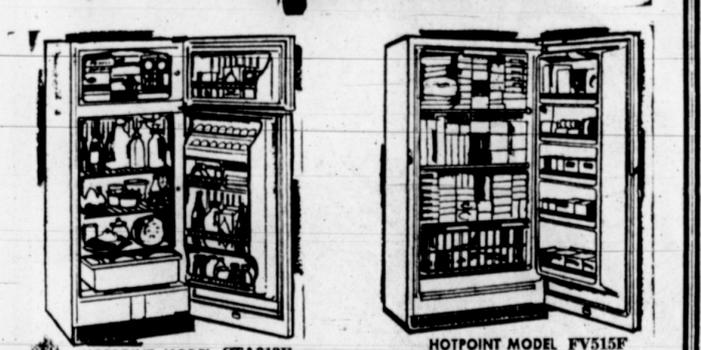

Standard & Poor's says it continues to advocate a conservative market policy in a period in which cloudiness in other areas shadows the favorable business background.

RESEARCH CONTRACT
SAN FRANCISCO (UPI)—Allis-Chalmers said Tuesday it has obtained \$1.04 million in additions to its contracts for work on hydrogen-oxygen fuel cells for the National Aeronautics and Space Administration. The research contract now involves \$4.175 million.

SLIDE STOPS SERVICE
FORTEZZA, Italy (UPI) — A landslide disrupted service on the Brenner line between Austria and Italy. There were no casualties reported in the slide which buried five railroad cars.

Water Shortage No. 1 Crisis In America

The Mayor of New York went for a blimp ride recently over the depleted reservoirs serving his metropolis of more than 8 million residents. Upon his return he declared there was no need for "panic." He urged caution and touched off a campaign to encourage New Yorkers to curtail their water consumption. The city's reservoirs, on July 21, were at 47.8 percent of capacity. On his inspection flight, Mayor Wagner could see stone walls and foundations first inundated by rising waters of the reservoir more than 100 years ago.

The crisis confronting New York City and much of the weYork CITY AND M OF THE drought-hit Northeastern United States is serious indeed. As I have said repeatedly, the real and threatened water shortages in our country constitute our No. 1 domestic problem. For many Americans, the crises in water are going to get worse before they get better.

It would be of interest to Pan-

handle residents to know that the capacity of all New York City reservoirs is less than the usable capacity of the reservoir being backed by the Canadian River dam near Sanford. Because the Northeast normally receives substantial amounts of rainfall, it is difficult for many residents of that area to realize the seriousness of the shortage they now face.

On July 22, I was honored to be among several Members of Congress invited to the White House to attend the ceremony as President Johnson signed the "Water Resources Planning Act." This legislation, which was shaped in the Subcommittee on Irrigation and Reclamation, of which I am chairman, declares the policy of the Congress to be "to encourage the conservation, development, and utilization of water and related land resources" on a coordinated basis. This means that all levels of Government, as well as affected corporations, business enterprises, and individuals,

will participate in planning the development of water resources. The Act sets up a cabinet-level Water Resources Council to keep the President and the Congress informed on the Nation's water needs and to guide the planning effort; authorizes the President to establish river basin planning commissions when needed; and provides for financial assistance to the States for water resources planning. By the way, at the bill-signing ceremony the President appeared hale, hearty, fit — and tanned, despite the recent pressures brought on by the close attention he must pay to events in Viet Nam.

John Ellsworth Rogers of Canadian is working in my office this summer as a "Congressional Intern." John, who is 22, is the son of Mr. and Mrs. Ted Rogers of Canadian. By coincidence, the name of my oldest son is John E. Rogers. In my son's name, the "E" stands for Edward, which is my middle name. There is no known relationship between the Walter Rogers and Ted Rogers families. We'd be proud to claim John Ellsworth Rogers, for his pleasing manner, good looks, and scholarly attainments, which are indeed compliments to his fine mother and father. John last month was graduated magna cum laude from Harvard College. In September he'll enroll in the law school of Columbia University. John's special field of interest and study is U.S. foreign policy, particularly at it relates to Latin America. This summer he is interested in observing at close hand relationships between U.S. domestic and foreign policy as reflected by actions of the House and Senate.

Other Panhandle area college students working this summer in Washington include Mark Blonstien of Shamrock (at the Federal Power Commission), Miss Wanda Pierce of Wheeler (at the Federal Communication Commission), and Miss Mary Rapstine of Amarillo (at the National Park Service). Mark is the son of Mr. and Mrs. Sol Blonstien of Shamrock and last year attended Texarkana College; Wanda is the daughter of Mr. and Mrs. Marvin Pierce of Wheeler and is a student at Wayland College; and Mary is the daughter of Mr. and Mrs. Frank Rapstine of Amarillo and is a student at Texas Tech. All report they are enjoying their work this summer and learning all they can about the operation of the Government.

Recent visitors: Mr. and Mrs. Ed Reed of Claude, with their children Lynette, Wesley, a nd Hugh; Mr. and Mrs. L. F. Etherege, Canadian; The Reverend and Mrs. Donald S. Hauck of Pampa, with children Steven, and Amy, and their friend Susan Jane Parsons; Mr. and Mrs. David Matthis of Canyon; Mr. and Mrs. Charles Hickman and their daughter Joanne, formerly of Pampa, now living in West Virginia; Mr. and Mrs. W. R. Pratt of Borger; and Mr. and Mrs. H. O. Stroud, Mr. L. P. Gilvin, Mr. Norman Dulaney; Mr. Bradley Stark; and Mr. and Mrs. Olin Thornton and daughters Jo Beth and Janet, all of Amarillo.

NEWSPAPER ENTERPRISE ASSN.

The Lighter Side

By DICK WEST
United Press International
WASHINGTON (UPI) — Vincent Lopez, the only band leader now in practice who performed at Calvin Coolidge's inaugural ball, has recently added a new feature to his floor shows.

After the musical part of the program, Lopez takes the mike and treats his audience to a few startling prophecies.

He got into the oracle business by way of his hobby, which is numerology. He believes there is occult significance in numbers and that if you know how to read them right you can divine things not apparent to the ordinary mortal.

He may be right. On the other hand, this may be the result of his having played "Nola" on the piano just about every day since 1921.

Got A Consultation
Anyway when Lopez returned to the capital this week for a post-Collidge appearance, I sought him out for a consultation.

An oracle, you know, is something like an umpire. He has to call 'em as he sees 'em, regardless of the consequences.

Down through the years, seers, soothsayers and other clairvoyant types have tended to be a bit on the grim side, usually predicting famines, floods, plagues, scourges and assorted other disasters. Lopez is no exception.

I am not referring, of course, to his predictions that Rep. John V. Lindsay, R-N. Y., will be elected mayor of New York and that Michigan Gov. George Romney will become president in 1968.

While these forecasts might be disturbing to most Democrats, and perhaps to certain Republicans, they would be regarded by others as cheery outlooks.

Music Was Shaker
Nola was his prophecy that a third world war is in the offing the one that distressed me. What made cold chills do the waltz up and down my spine was Lopez' prognostication in the field of music. It was here that he foresaw true calamity.

Putting two and two together, which is the way that numerologists go about ascertaining what the future has in store, he prophesied that the world is facing six more years of the Beatles.

Music, Lopez explained, runs in nine-year cycles. The type of music that the Beatles personify is now in its third year. Ergo, it has six years to go.

I was so shaken by this prediction that I was afraid to ask what type of music we will have during the next cycle. There are some things about the future that are better left untold.

SWORN IN — Arthur J. Goldberg takes the oath as new U.S. ambassador to the United Nations from his recent Supreme Court colleague Justice Hugo Black as President Johnson looks on. Mrs. Johnson and members of Goldberg's family also attended the swearing in ceremony at the White House.

Foreign Commentary

By JAY AXELBANK
MOSCOW (UPI)—What the Russians refer to as the West German "finger on the atomic trigger" shapes up as the major hurdle at this week's renewed Geneva disarmament conference.

Diplomatic observers here believe that one of the reasons the Kremlin agreed to return to Geneva after 10 months was because it felt the U.S. might be willing to soften its stand on a joint NATO nuclear force involving the Germans.

This was based to some extent on a key article in the foreign affairs quarterly by

William Foster, director of the U.S. Arms Control and Disarmament Agency, these observers said.

Foster said an agreement for non-proliferation of atomic weapons was an "urgent" need and added that the idea should be pursued at the cost of some "erosion of alliance."

Want 5-man Club

U.S. Senator Robert Kennedy also has given his voice to those who advocate quick action to negotiate a non-proliferation agreement. There are other influential American and British quarters who have urged consideration be given to dropping what Foster called the "MLF-ANF idea" if it could pave the way for a pact to keep the "atomic club" at five, where it now stands.

But the West German government has firmly made known to Washington its concern that the joint nuclear force idea — whether a multi-lateral force or an Atlantic nuclear force — should not be abandoned. Bonn feels a joint force is the cornerstone of its security.

On July 9 U.S. Secretary of State Dean Rusk assured the West German ambassador in Washington that the U.S. had undertaken no commitment to do this.

Then President Johnson and the British government were understood to have given assurances to Bonn that the multilateral nuclear force project would not be given up as the price for a non-proliferation agreement.

Finally, roving ambassador W. Averell Harriman emphasized during his recent visit to West Germany this month that the U.S. is still strongly in favor of MLF and that this does not "contradict" the principle of non-proliferation.

On the Record

OFFICER RECALLED
WASHINGTON (UPI) — The State Department has confirmed that Bruce T. Odell, a political officer at the U. S. Embassy in Cairo, has been brought home for "consultations" and reassignment.

Department press officer Marshall Wright said that Odell was detained by Egyptian police who found him in the company of a leading Cairo editor charged with passing information to the U. S. Central Intelligence Agency (CIA).

KAVNER PRESIDENT
NEW YORK (UPI) — Premier Corp. of America said Tuesday George Kavner has been elected president of its Sunwear, Inc., division.

Presidents of TARC, TAMH Pledge Full Support for New State Office

AUSTIN (UPI)—The presidents of the Texas Association for Retarded Children (TARC) and the Texas Association for Mental Health (TAMH) today pledged full support to the new State Department of Mental Health and Retardation created by the 59th Legislature.

TAMH president Don Wooten of Austin and Mrs. Dora Huston, head of TARC, said they will name a liaison committee "to consider the many ways in which the two citizen organizations can complement the work

of the other." The 59th Legislature consolidated the mental health functions of the State Board for Hospitals and Special Schools

and the mental retardation activities of the State Health Department in a new state agency and abolished the Board for

Hospitals and Special Schools. Gov. John Connally has not yet named the new board for mental health and retardation.

Woman Wins Suit Against Strong 'Copter Winds

SAN FRANCISCO (UPI)—A \$6,240 judgment has been awarded to a 71-year-old woman injured last year by wind blasts from President Johnson's helicopter.

Mr. Margaret Lovell of Con-

cord, Calif., complained that the helicopter sent debris flying and smashed a chair into her leg, causing serious lacerations.

At the time, the President was visiting the site of cere-

monies for the proposed San Francisco Bay area rapid transit system.

Texas' first Capitol was at Bell's Landing on the Brazos River.

ELECTED PRESIDENT
NEW YORK (UPI) — Kenneth E. Wackman has been elected president of James Talcott, Inc., commercial finance house. Herbert R. Silverman continues as chairman and chief executive. Wackman is an accountant.

Proposed CONSTITUTIONAL AMENDMENT NUMBER SIX ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965.

HOUSE JOINT RESOLUTION NO. 12 proposing an Amendment to Article III of the Constitution of the State of Texas authorizing loans to students at institutions of higher education; creating the Texas Opportunity Plan Fund and making provisions relating thereto.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: That Article III of the Constitution of the State of Texas be amended by adding a new Section to read as follows:

"Section 5th. STUDENT LOANS. (a) The Legislature may provide that the Coordinating Board, Texas College and University System, or its successor or successors, have the authority to provide for, issue and sell general obligation bonds of the State of Texas in an amount not to exceed Eighty-five Million Dollars (\$85,000,000). The bonds authorized herein shall be called 'Texas College Student Loan Bonds' shall be executed in such form, denominations and upon such terms as may be prescribed by law, provided, however, that the bonds shall not bear more than four per cent (4%) interest per annum; they may be issued in such installments as the Board finds feasible and practical in accomplishing the purposes of this Section.

(b) All moneys received from the sale of such bonds shall be deposited in a fund hereby created in the State Treasury to be known as the Texas Opportunity Plan Fund to be administered by the Coordinating Board, Texas College and University System, or its successor or successors to make loans to students who have been admitted to attend any institution of higher education within the State of Texas, public or private, including Junior Colleges, which are recognized or accredited under terms and conditions prescribed by the Legislature, and to pay interest and principal on such bonds and provide a sinking fund therefor under such conditions as the Legislature may prescribe.

(c) While any of the bonds, or interest on said bonds authorized by this Section is outstanding and un-

Dear Abby....
Leave Member Free To Hold Her Dog's Paw

DEAR ABBY: We are a group of ten church members who have been meeting in each other's homes once a month for the past eight years. After lunch we spend the rest of the afternoon studying our religion. Two years ago a woman joined our group. She has never yet had the luncheon in her home and has tried many times to change our meetings from luncheons to just coffee and cookies. When I asked her when she could take the luncheon, she told me that it was impossible for her to entertain as her dog is very jealous and she has to give him tranquilizers whenever she has company. Kindly advise what you would do in a situation like this. Most of the ladies feel we should ask for her resignation, but no one will speak up. Since I am the president, I am...

ON THE SPOT
DEAR ABBY: If the majority of the women want a luncheon meeting, then it should remain a luncheon club. And if this woman wants to be a member, she should take her turn at having the luncheon. Otherwise, drop her and leave her free to sit and hold her dog's paw.

DEAR ABBY: After three daughters I finally had a little boy. My husband was wild with joy, but he's going overboard to make sure his son will be "all boy." He won't allow the baby to have a teddy bear or any

Chase Blues With Spray Scents

CHASE HOT WEATHER BLUES — Ease through hot, humid days sensibly. Bathe often using tepid water and then spray on a floral eau de toilette with the springlike aura of a golden mimosa.

Senior Center Corner
By MRS. O. A. WAGNER

A smaller number of Senior Citizens attended Thursday's meeting of Senior Citizens' Center in Lovett Memorial Library due to the hot weather and several members being ill. John Sublett is a patient in Room 206 at Highland General Hospital. Mrs. Kate Humphrey is in Room 237 and Mrs. Connelison is also a patient in HGH.

Mrs. Maggie Deal spent Sunday visiting in Amarillo with her sisters, Mrs. Posey and Mrs. oPollard, and a niece, Mrs. Carter.

Mrs. Myrtle Enloe spent the weekend visiting with relatives in Amherst and touring the country side viewing the crops.

Several Senior Citizens enjoyed a picnic supper Friday evening in the backyard of Mrs. Elma Bailey's home. Games of 42 and pitch were played following the meal. Attending were Mr. Yoe, Mr. Tucker, Mr. Sublett, Mr. Ripple, Mrs. P. H. Gates, Mrs. Davie McVey and Mrs. Cora Yates.

Mrs. P. H. Gates and sister, Mrs. David McVey, left Saturday to attend a family reunion at Whitney Lake near Waco.

Mrs. Lennie Chandler has returned home after traveling to Albuquerque, N.M., with her twin brother, Jim Sheets of Grandview, to visit a sister, Mrs. Guynes.

Center members were happy to learn that Mrs. Bullock has been released from the hospital and is recuperating at home.

Recent houseguests of Mr. and Moseley have been Mrs. Moseley's sisters, Mrs. Jewell McCampbell of Post, Mrs. Dorca Anderson of Buckeye, Ariz., Mrs. Myrtle Smith of Mangum, Okla., and Mrs. Clovia Rust of Levelland; her step-mother, Mrs. Macy Pruett of Mangum, Okla.; a sister-in-law, Mrs. Lillie Pruett and Clarence of Reed, Okla.; and her brothers, Mr. and Mrs. L. A. Pruett of Portales, N.M., and W. M. Pruett of Amarillo.

Mrs. E. B. Smith was unable to attend Thursday's meeting since she was entertaining houseguests. Visiting in the Smith home were Mrs. Smith's son and family, Mr. and Mrs. Robert Smith and daughters, Robin and Tina, from Langley, Va., and a grandson, Joe Edward Smith of Amarillo.

Order of the Eastern Star O' Texas Chapter served as hostess club this week. Serving angel food cake, ice cream and coffee were Mmes. Earl Casey, C. H. Morris, I. T. Goodnight Jr., A. P. Coombes, C. K. Reading and Ann Park.

Door prizes were received by Mrs. Cora Yates, Mrs. M. A. y Harris, Jay Evans and S. E. Barnard.

Altruists present were Mmes. Marie Fitzgerald, chairman, Lena Pearl Hobbs, Lillian Snow and Jay Flanagan.

Mrs. Cooper Gives Program to WSCS
GROOM (SpI) — Woman's Society of Christian Service met in the Church Parlor recently for the July meeting. Hostesses were Mrs. Ruthardt and Mrs. J. B. Shockley.

Mrs. George Latta, spiritual life secretary, had charge of the devotional.

The business was conducted by Mrs. Manuel Ruthardt, president. The Memorial Fund was discussed and a report made on the bank balance and the donors.

Mrs. B.H. Cooper, program leader, presented the program, "We Would See Jesus".

Mrs. O.R. Major gave the devotional.

Present were Mmes. Cleo Schaffer, Curtis Schaffer, B. H. Cooper, C. A. Morrow, Phil Farley, O. R. Major, George Latta, E. L. Littlefield, Glynn D. Harrell and Fred Burgin.

PUBLIC NOTICE
Proposed CONSTITUTIONAL AMENDMENT NUMBER EIGHT ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965.

HOUSE JOINT RESOLUTION NO. 57 proposing an Amendment to Section 1-a of Article V of the Constitution of the State of Texas, by adding to said Section the following provisions: requiring automatic retirement of certain District and Appellate Judges at age seventy-five (75) or such earlier age, not under seventy (70), as may be provided by law; creating a State Judicial Qualifications Commission and providing for its composition and the qualifications, methods of selection and terms of office of its members; defining the functions and procedures of said Commission, including the duty to investigate and hold hearings in respect of disability and misconduct of District and Appellate Judges and to make recommendations to the Supreme Court of Texas as to involuntary retirement or removal of such Judges; empowering the Supreme Court of Texas, in its discretion, to retire such Judges for disability and to remove them for misconduct, upon recommendation of the said Commission and consideration of the record made before it; defining misconduct for which said Judges may be so removed; providing that the proceedings of said Commission shall be confidential until filed in the Supreme Court with recommendation for retirement or removal; and providing that the removal provisions here by established shall be alternative to and cumulative of those provided elsewhere in the Constitution.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 1-a of Article V of the Constitution of the State of Texas be amended so that said section shall hereafter read as follows:

"Section 1-a. (1) Subject to the further provisions of this Section, the Legislature shall provide for the retirement and compensation of Justices and Judges of the Appellate Courts and District and Criminal District Courts on account of length of service, age and disability, and for their reassignment to active duty where and when needed. The office of every such Justice and Judge shall become vacant when the incumbent reaches the age of seventy-five (75) years or such earlier age, not less than seventy (70) years, as the Legislature may prescribe; but, in the case of an incumbent whose term of office includes the effective date of this Amendment, this provision shall not prevent

him from serving the remainder of said term nor be applicable to him before his period or periods of judicial service shall have reached a total of ten (10) years.

(2) There is hereby created the State Judicial Qualifications Commission, to consist of nine (9) members, to wit: (i) two (2) Justices of the Court of Civil Appeals; (ii) two (2) District Judges; (iii) two (2) members of the State Bar, who have respectively practiced law for over ten (10) consecutive years next preceding their selection; (iii) three (3) citizens, at least thirty (30) years of age, not licensed to practice law nor holding any salaried office or employment; provided that no person shall be or remain a member of the Commission, who does not maintain physical residence within the State, or who resides in, or holds a judgeship within or for, the same Supreme Judicial District as another member of the Commission, or who shall have ceased to retain the qualifications above specified for his respective class of membership. Commissioners of classes (i) and (ii) above shall be appointed by the Supreme Court with advice and consent of the Senate, those of class (iii) by the Board of Directors of the State Bar under regulations to be prescribed by the Supreme Court with advice and consent of the Senate, and those of class (iii) by appointment of the Governor with advice and consent of the Senate.

(3) The regular term of office of Commissioners shall be six (6) years; but the initial members of each of classes (i), (ii) and (iii) shall respectively be chosen for terms of four (4) and six (6) years, and the initial members of class (iii) for respective terms of two (2), four (4) and six (6) years. Interim vacancies shall be filled in the same manner as vacancies due to expiration of a full term, but only for the unexpired portion of the term in question. Commissioners may succeed themselves in office only if having served less than three (3) consecutive years.

(4) Commissioners shall receive no compensation for their services as such. The Legislature shall provide for the payment of the necessary expenses for the operation of the Commission.

(5) The Commission may hold its meetings, hearings and other proceedings at such times and places as it shall determine but shall meet at Austin at least once each year. It shall annually select one of its members as Chairman. A quorum shall consist of five (5) members. Proceed-

Autumn Evenings Promise Soft Look of Elegance

SOFTENED ELEGANCE FOR AUTUMN — Short or long, nearly all evening dresses for fall have their own coats or jackets. Left to right, Jo Copeland designs this elegant two-piece ensemble for Pattullo in white and gold silk brocade. Velvet top is aqua. Short jacket has no collar and features jeweled buttons. Nat Kaplan's evening ensemble of aqua silk petit point has straight coat with stand-up collar. Dress has a sparkling beaded bodice. White takes the night spotlight in

the coat and dress ensemble by David Kidd for Arthur Jablow. Litex fabric of Orlon and metalized yarn is used for the long guardsman overcoat and dress. Bodice is black velvet. Bob Bugnand for Sam Friedlander does this short evening costume in black and white. Coat is quilted black velvet. Acele, worsted and nylon blend into lustrous white satin for the dress.

By HELEN HENNESSY
Women's Editor
Newspaper Enterprise Ass'n.
NEW YORK (NEA) — The candlelight hours, judging from the fall '65 New York designer collections, will be ushered in at any length.

There are short dinner suits, theater ensembles and discotheque dresses, ankle-length dresses for dinner and dancing, and ball gowns that will make a sweeping entrance. Long sleeves (St. Laurent again) turns up on both floor-length and short gowns. Where sleeves are concerned, it seems to be all or nothing. For the comeback, side-by-side with its long-sleeved counterparts. And if you can't decide whether or not sleeves are for you, you can compromise. There are many dresses that bare just one shoulder.

Everything is soft, feminine and pretty. And even if you're weary of that description you will love wearing clothes that make you feel every inch a

woman. There are princess gowns, bias-cut crepes with beaded bolumes, all-over flower patterns in sequins and even gowns with swansdown trim. For rainy nights, there are rainproof striped silk costumes

—coats with their own dresses. Both long and short evening coats turn up in pouffy velvet and brocade, often with fur accents. Beige, oyster and black are shown in many collections. And pastels and hot colors are plen-

tiful. One beautiful costume is in Siamese green and pink. Nearly every designer shows white or pale blue crepe.

Some designers use the stiffness of faille to create full, Bopeep-type skirts. But the fabrics most widely used are crepe, velvet, jersey, silk, lace and chiffon.

The highlight of the season's collections is their diversity. There's enough variety for every woman to be an individual.

Gardening News

By THELMA BRAY

The Flower Arranging Classes last Wednesday were honored with the presence of several out-of-town women, including guests from Galveston and Dallas as well as five women from Borger and five women from White Deer. For the session Lorene Price made about 15 arrangements demonstrating the use of driftwood in designs as well as many other attractive arrangements for the home. Much work and planning goes into a program of this kind and it is greatly appreciated by all. Just saying "thank you" to all our instructors doesn't seem sufficient, but it is meant sincerely.

Louise Stephens will be teaching the session on "Oriental Design and the Use of Figurines" today. Next Wednesday, Aug. 4, Justine Sweeney will direct the session on Flower Arrangements and Table Settings. The classes are held on Wednesday afternoons at 2 in Lovett Memorial Library and the public is invited.

The daylily bloom stalks may sometimes have a group of new leaves form along the stalk. When this happens, as it is not on some kinds, cut a few inches below the leaf growth and insert in a rooting medium, such as sponge rock, or insert in soil outdoors in a shaded place and cover with a jar.

The August issue of Reader's Digest has an interesting and colorful article about Jan de Graaff and his work in hybridizing of Lilies.

Daylilies, or hemerocallis, are among the most adaptable of plants and there are few perennials less exacting in their demands. Indeed they rate at the top among perennials requiring little care. They have practically no pests and diseases, and therefore require no spraying. The stems are strong and supple and require no staking. Daylilies thrive and bloom well on a meager diet and the foliage shades the ground so completely that they require almost no cultivation. When the clumps become crowded they benefit from being lifted, divided and replanted, and this should be

done every few years if possible. But if it is not done the plants carry cheerfully on with somewhat less abundant bloom. Daylilies are among the most self-sufficient plants ever invited into the garden, and they are also among the most versatile and charming.

Quite a large number of Pampa Garden Club women are now ordering many new and improved varieties of lilies as, no doubt, many Pampa gardeners do each year; therefore, within a few years our city will be a glorious and beautiful picture. The only problem is that so much of this beauty can only be seen in the back gardens of the homes. But as these better varieties multiply and can be divided, we are planting some of them in the park areas.

Evergreen trees and shrubs will benefit from a good spraying with water regularly, especially since rain showers have been few and far between. The water spraying can help to discourage red spider which can do much damage.

Oriental poppies are dormant now and may be divided and transplanted. With so much beauty in our gardens now and the joy we all receive from snaring our plants with others, the following poem, entitled "The Gardener," and written by Catherine Case Lubbe seems most appropriate:

To be a gardener is to know
The joy of watching green things grow,
To see in every barren spot,
Potential beauty for that spot.
To place one's hands in quickened earth
And bring new wonder into birth.
To thrill to treasure undefined
That feeds the spirit, calms the mind,
To share a bloom with neighbor, friend,
What one has learned; there is no end
To bounty for the gardener's touch—
For so little he gains so much.

FOR THURSDAY, JULY 29
GENERAL TENDENCIES: A day and evening when you can gain the good will of others by charming them with compliments or whatever makes them feel they are wanted and attractive. Fine day and evening for entertainment, social and general prosperity and popularity. Show that you can enjoy life through your own magnetic warmth.

ARIES (Mar. 21 to Apr. 19) — You can do almost anything you please today, so be sure to get an early start for best results. Sporting events, hobbies, etc. are fine. Or calling on the trade unexpectedly could be your cup of tea.

TAURUS (Apr. 20 to May 20) — Dwell on getting home affairs more ideal so that others are pleased and you feel happy and relaxed. There is a well-deserved assistance to kin. Show tangibly that they are very close to your heart in a m. or with

GEMINI (May 21 to June 21) — Getting out to new sites and seeing individuals you like can make this day less boring than usual, since you are feeling under the weather somewhat. Get letters written first. Others want to hear from you.

MOON CHILDREN (June 22 to July 21) — Property affairs and some new channel of endeavor can certainly add much to present bank balance. Analyze present position, too. You may be far better off than you think.

LEO (July 22 to Aug. 21) — This day is pretty much yours, so make your plans early and then carry through with dispatch. Go first to barber or beauty shop for treatments. Be at your very best.

VIRGO (Aug. 22 to Sept. 21) — Secret maneuverings that help to gain prestige with close ties is wise in a m. or with others you like very much. Choose those who are truly human. Avoid the gossip.

LIBRA (Sept. 22 to Oct. 21) — Attending social matters with persons who truly know how to conduct themselves is your best bet this day. Renew old acquaintances. Do your share of favors in return for those received in the past.

SCORPIO (Oct. 22 to Nov. 21) — You can become more successful now if you make it a point to see persons of influence. Get their ideas, support. Assistance brings prestige right people, too.

Helm Home Is Scene For Family Reunion

GROOM (Spl) — The family of Mrs. J. J. Helm held its first reunion in 42 years recently in the home of Mr. and Mrs. Helm near Groom.

Mrs. Helm's brother and sisters and families attending were Mr. and Mrs. Alvin Scott of El Cajon, Calif., Mrs. Ethyl Ellis of Chino, Calif., Mrs. Lillie Campbell of San Gabriel, Calif., Mrs. Martha Brewster of Delhart and Mr. and Mrs. C. West of Farmersville.

Other members of the family and their families present were Mrs. Walter Bible and Nancy of Phillips, Mr. and Mrs. Raymond Langford of Los Angeles, Calif., Mrs. Norma Herdt and children of Conoga Park, Calif., Mrs. Patricia Garcia and daughters of Guymon, Okla., Mrs. Lenora Patterson and two daughters of Roswell, N.M., George Braxton and Loyd of Shamrock.

If you take the trouble to cultivate those who have been somewhat of an enigma to you in the past, fine results are possible. Then study. Advance in your field. **AQUARIUS (Jan. 21 to Feb. 19)** — Getting together now with those you want to have alliance with later brings closer rapport. Show that you have a kindly feeling toward them. This is soon returned. **PISCES (Feb. 20 to Mar. 20)** — Laboring along artistic and cultural lines that you love is quite easy now and you will get the results you want. Be kind to a co-worker. Show you have understanding

TOPS Club Has Regular Meeting

Lola Pounds Off TOPS Club met Monday evening for a regular meeting and social hour. A short business meeting was conducted at which Mrs. Gene Leigh announced that Mrs. O. C. Gist had won the fruit bowl. Two members received warning tickets for staying the same. The pledge was given and a letter read from National Headquarters concerning the jewelry price.

The club reported a seven pound loss and a two pound gain. The group meets at the Central Baptist Church each Monday at 7 p.m. Ladies interested in losing weight are invited to attend the meetings. For information call MO 4-2369 after 6 p.m. or MO 4-4339.

Preserve colorful fall leaves by dipping them in paraffin, which gives a waxy look, or in glycerine, which gives a soft, translucent effect. Leaves also can be preserved with a drying agent such as borax or silicel gel.

Tassels won't become matted if tied together with a string when washed.

MARINES—READY TO LAND—Photo-diagram above shows a Marine Corps Battalion Landing Team (BLT), a task force specifically organized for an amphibious assault landing. BLT above is described as typical, but their composition varies according to the mission, the enemy and the terrain. This one is composed of 82 Marine officers and 1838 enlisted men, plus 12 Navy officers and 139 sailors—a total of 2071 men. Numbers give breakdown of units supporting the Marine infantry battalion (2). They are (1) Battalion vehicles; (3) Artillery battery; (4) Service battalion (Medics, MP's, Force service unit); (5) Service battalion vehicles; (6) Amphibious tractor; (7) Amphibious tractor platoon; (8) Motor transport company; (9) Motor transport troops; (10) Reconnaissance platoon; (11) Detachment of Force Reconnaissance Company; (12) Engineer platoon equipment; (13) Engineer troops; (14) Anti-tank vehicles; (15) Anti-tank platoon; (16) Artillery guns and vehicles; (17) Gun tank platoon; (18) Gun tank troops; (19) Landing force supplies. Foreground group (A) is BLT commander and staff.

**Mandatory Oil Import Program
Changes List Sent to Udall**

WASHINGTON (SpI)—A joint letter signed by 46 members of the U. S. House of Representatives from 18 States was today sent to Secretary Udall, Chairman of the Inter-Agency Committee reviewing the Mandatory Oil Import Program, requesting that Congress be advised of the proposed changes in the program now under consideration. The Congressmen also asked that they have the opportunity to express their views concerning the proposed changes before final action is taken by the Committee.

Many members of Congress are deeply concerned about the depressed economic condition of the domestic oil industry and the resulting adverse effects upon the local economies of the oil producing areas throughout the United States. Of greater concern is the fact that the domestic industry for several years has been stagnated in its effort to find and develop reserves that will be needed to meet future requirements for peacetime growth and defense preparedness.

Drilling and development of domestic reserves must be encouraged and accelerated, otherwise, our defense posture will become critical.

The issues involved are vital and important to every citizen. Since the determinations of the Inter-Agency Committee will be far-reaching, perhaps for years to come, it seems to me that

members of Congress are fully justified in insisting upon being informed on this important matter and having the opportunity to express their viewpoint.

Members signing the letter were: Omar Burleson, Texas; Oren Harris, Arkansas; Edwin E. Willis, Louisiana; George Mahon, Texas; Chester L. Mize, Kansas; E. S. Johnny Walker, New Mexico; Graham Purcell, Texas; Garner E. Shriver, Kansas; Robert Dole, Kansas; Robert F. Ellsworth, Kansas; George E. Shipley, Illinois; James Kee, West Virginia; Carl D. Perkins, Kentucky; John Dowdy, Texas; Jamie L. Whitten, Mississippi; Winfield K. Denton, Indiana; Ed Edmondson, Oklahoma; John Jarman, Oklahoma; Tom Steed, Oklahoma; Frank T. Bow, Ohio; O. C. Fisher, Texas; Bob Casey, Texas; Kenneth J. Gray, Illinois; Mark Andrews, North Dakota; J. Arthur Younger, California; William M. Colmer, Mississippi; Walter Rogers, Texas; John Bell Williams, Mississippi; Lindley Beckworth, Texas; J. J. Pickle, Texas; Thomas G. Morris, New Mexico; Henry B. Gonzalez, Texas; Joe Pool, Texas; Virginia; Jim Wright, Texas; Joe Skubitz, Kansas; Teno Roncalio, Wyoming; Glenn Cunningham, Nebraska; Page Belcher, Oklahoma; James F. Battin, Montana; Richard White, Texas; Ray Roberts, Texas; Otto E. Passman, Louisiana; Jed Johnson, Jr., Oklahoma; E. Y. Berry, South Dakota; and Arch A. Moore, Jr., West Virginia.

National Window

By LYLE WILSON
United Press International
After a political career of supporting the poll tax and such devices deemed to be intolerable restrictions on civil rights, President Johnson came roaring onstage in the White House as the champion of the rights of Negro citizens.

was president, Detroit Federation of Laborers Local No. 638, AFL, 1957-55 and vice president of the Detroit Federation of Labor, 1939-45.

Maybe he had made some mistakes, the President conceded in a recent press conference, but that was all behind him. Also massed behind him and shouting hosannas for the champion are the hundreds of thousands of Negro voters. Their numbers soon will be counted in the millions. These voting Negroes have been helping elect Democrats to national office since the late FDR founded the New Deal with federal funds to subsidize the ill-housed, ill-clothed, ill-fed. On either both humanitarian and political grounds, FDR's New Deal policies were the mark of political genius.

BIRDS BATTLE TOO
HOUSTON (UPI) — The fight against encephalitis, in Houston at least, is for the birds as well as the people.

Many citizens have put up houses designed to attract purple martins, each of whom devour thousands of mosquitoes daily.

Encephalitis, or sleeping sickness, took a heavy toll in Houston last year.

But LBJ seems less determined in his championship of another massed voting army which he proudly commanded in the 1964 presidential campaign. This is the army of organized labor whose brigade and divisional commanders now lay tribute on Johnson in the form of demand that he make the whole United States safe for compulsory unionism. Compulsory unionism is forbidden now in 19 states.

The labor leaders demand repeal of Section 14-B of the Taft-Hartley Act. This section merely acknowledged the right of each state to permit or to forbid within its borders the union shop wherein a worker must belong, pay dues to and follow his union leader if he wants a job. Section 14-B did not confer any new rights on any state. The section merely stipulated that the Taft-Hartley Act was not to interfere with the always acknowledged right of any state to choose between open and compulsory unionism.

To this repeal program of the labor leaders, LBJ seems to be giving not much more than lip service. His repealer request to Congress was wholly casual, almost an afterthought in a long message. LBJ has not since been known to be twisting arms in behalf of repeal.

In his comparative youth, LBJ was no less an advocate of the Taft-Hartley Act than of the poll tax. His appreciation of Taft-Hartley seems to persist whereas his affinity for the poll tax and such brakes on civil rights seems to have disappeared altogether. Perhaps the President is guided in this by his policy of governing by consensus.

The American consensus indisputably is against repeal of 14-B. That is a fact of life as shown in reputable polls, by a canvass of newspaper opinion. The congressional supporters of repeal know this and they are running scared. The House and Senate committees which had hearings on the repealer proposal were shockingly abrupt with its opponents. The captive, pro-labor chairman of these committees simply shut off their hearings to silence the rank and file workers who wanted to testify that the demand for repeal was largely a labor boss demand.

Sen. Patrick V. McNamara (D-Mich.) was chairman of the Senate subcommittee that considered repeal of Section 14-B. Michigan's AFL-CIO put McNamara in the Senate in 1964 and keeps him there. The senator

was president, Detroit Federation of Laborers Local No. 638, AFL, 1957-55 and vice president of the Detroit Federation of Labor, 1939-45.

What chance did the opponents of repeal have before this representative of the labor leaders club? You guessed it. Not much!

Element of Risk for US In Attack on Missiles

EDITOR'S NOTE: The bombing of North Vietnamese missile sites by U. S. planes raises grave diplomatic and military questions. This dispatch by UPI diplomatic correspondent Stewart Hensley and UPI Pentagon correspondent Darrell Garwood wraps up views of the situation from

the State Department and Defense Department.
By STEWART HENSLEY and DARRELL GARWOOD
United Press International
WASHINGTON (UPI) — The bombing of two Soviet-supplied missile sites near the North Vietnamese capital of Hanoi by

U. S. planes raises two questions in the deepening Viet Nam conflict: —Did the raid Tuesday and the downing of a U. S. plane two days ago which brought on the bombing attack involve a direct clash between U. S. and Russian personnel? —Is a time drawing near when U. S. bombing raids eventually will penetrate Hanoi and the nearby industrial and port city of Haiphong?

Goldberg Begins Ambassador Duties

UNITED NATIONS, N. Y. (UPI) — Arthur J. Goldberg, sworn to "curse no one but to help keep the candle of peace burning," today begins his duties as U. S. ambassador to the United Nations.

U.N. headquarters, and meet key members of the staff there. He was not expected to move into his headquarters office immediately. Newly stripped of Stevenson's belongings, it now was little more than a bare room with a desk.

Goldberg, whose resignation as Supreme Court justice to accept the U.N. post vacated by the sudden death of Adlai E. Stevenson, was due here from Washington shortly after noon.

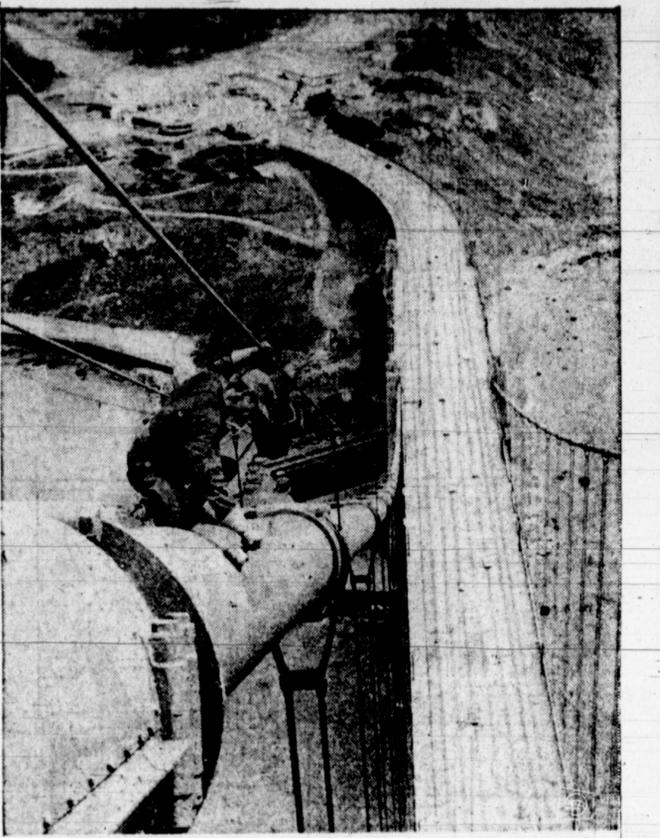

The occasion was the monthly lunch of the Security Council. The presidency of the council rotates among the members on a monthly basis and the president customarily gives a lunch for the other 10 members near the end of his term.

The meeting was scheduled for 4 a.m. EDT. Then Goldberg was scheduled to meet the U.N. press corps for his first news conference as ambassador.

This month's president is ambassador Platon D. Morozov, deputy chief of the Soviet delegation. Ambassador Nikolai T. Fedorenko, who heads the Russian delegation, is on home leave in Moscow.

Between his arrival from Washington and his appearance here, Goldberg was to make his first visit to the U.S. mission, across the street from

U.N. headquarters, and meet key members of the staff there.

LOFTY LABOR—It's a long way down (700 feet to be exact) but this painter on San Francisco's Golden Gate Bridge goes about his work as if he were on the ground. Not one painter has lost his life in the 28 years of the famed bridge's existence even though the big bridge takes plenty of attention, requiring 6,000 gallons of "international orange" every year.

John Brown had 18 men with him on the Harper's Ferry raid. The type of harness now used for horsedrawn vehicles originated in Europe in the 12th Century.

PUBLIC NOTICE

Proposed CONSTITUTIONAL AMENDMENT NUMBER TWO ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965.

HOUSE JOINT RESOLUTION NO. 5 proposing an Amendment to Section 49-b, Article III of the Constitution of Texas so as to authorize an increase in the total amount of bonds or obligations that may be issued by the Veterans' Land Board to Four Hundred Million Dollars (\$400,000,000); providing for the issuance of said bonds or obligations and the conditions relating thereto and the use of the Veterans' Land Fund; and providing for an election and the issuance of a proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: That Section 49-b, Article III of the Constitution of Texas, be amended so that the same will hereafter read as follows:

"Section 49-b. By virtue of prior Amendments to the Constitution, there has been created a governmental agency of the State of Texas performing governmental duties which has been designated the Veterans' Land Board. Said Board shall continue to function for the purposes specified in all of the prior Constitutional Amendments except as modified herein. Said Board shall be composed of the Commissioner of the General Land Office and two (2) citizens of the State of Texas, one (1) of whom shall be well versed in financial affairs and one (1) of whom shall be well versed in finance. One (1) such citizen member shall, with the advice and consent of the Senate, be appointed annually by the Governor to serve for a term of four (4) years; but the members serving on said Board on the date of adoption hereof shall complete the term to which they were appointed. In the event of the resignation or death of any such citizen member, the Governor shall appoint a replacement to serve for the unexpired portion of the term to which the deceased or resigning member had been appointed. The compensation for said citizen members shall be as is now or may hereafter be fixed by the Legislature; and each shall make bond in such amount as is now or may hereafter be prescribed by the Legislature.

"The Commissioner of the General Land Office shall act as Chairman of said Board and shall be the administrator of the Veterans' Land Program under such terms and restrictions as are now or may hereafter be provided by law. In the absence or illness of said Commissioner, the Chief Clerk of the General Land Office shall be the Acting Chairman of said Board with the same duties and powers that said Commissioner would have if present.

"The Veterans' Land Board may provide for, issue and sell not to exceed Four Hundred Million Dollars (\$400,000,000) of bonds or obligations of the State of Texas for the purpose of creating a fund to be known as the Veterans' Land Fund, Two Hundred Million Dollars (\$200,000,000) of which have heretofore been issued and sold. Such bonds or obligations shall be sold for

not less than par value and accrued interest; shall be issued in such forms, denominations, and upon such terms as are now or may hereafter be provided by law; shall be issued and sold at such times, at such places, and in such installments as may be determined by said Board; and shall bear a rate or rates of interest as may be fixed by said Board but the weighted average annual interest rate, as that phrase is commonly and ordinarily used and understood in the municipal bond market, of all the bonds issued and sold in any installment of any such bonds may not exceed four and one-half per cent (4½%). All bonds or obligations issued and sold hereunder shall, after execution by the Board, approval by the Attorney General of Texas, registration by the Comptroller of Public Accounts of the State of Texas, and delivery to the purchaser or purchasers, be incontestable and shall constitute general obligations of the State of Texas under the Constitution of Texas; and all bonds heretofore issued and sold by said Board are hereby in all respects validated, declared to be general obligations of the State of Texas. In order to prevent default in the payment of principal or interest on any such bonds, the Legislature shall appropriate sufficient amount to pay the same.

"In the sale of any such bonds or obligations, a preferential right of purchase shall be given to the administrators of the various Teacher Retirement Funds, the Permanent University Funds, and the Permanent School Funds.

"Said Veterans' Land Fund shall consist of any lands heretofore or hereafter purchased by said Board, until the sale price therefor, together with any interest and penalties due, have been received by said Board (although nothing herein shall be construed to prevent said Board from accepting full payment for a portion of any tract), and of any moneys attributable to any bonds heretofore or hereafter issued and sold by said Board which moneys so attributable shall include but shall not be limited to the proceeds from the sale or resale of any lands, or rights therein, purchased with such proceeds; the moneys received from the sale or resale of any lands, or rights therein, purchased with other moneys attributable to such bonds; the interest and penalties received from the sale or resale of any lands, or rights therein; the bonuses, income, rents, royalties, and any other pecuniary benefit received by said Board from any such lands; sums received by way of indemnity or forfeiture for the failure of any bidder for the purchase of any such bonds to comply with his bid and accept and pay for such bonds or for the failure of any bidder for the purchase of any lands comprising a part of said Fund to comply with his bid and accept and pay for any such lands; and interest received from investment of any such moneys. The principal and interest on the bonds heretofore and hereafter issued by said Board shall be paid out of the

moneys of said Fund in conformity with the Constitutional provisions authorizing such bonds; but the moneys of said Fund which are not immediately committed to the payment of principal and interest on such bonds, the purchase of lands as herein provided, or the payment of expenses as herein provided may be invested in bonds or obligations of the United States until such funds are needed for such purposes.

"All moneys comprising a part of said Fund and not expended for the purposes here provided shall be a part of said Fund and there are sufficient moneys therein to retire fully all of the bonds heretofore or hereafter issued and sold by said Board, at which time all such moneys remaining in said Fund, except such portion thereof as may be necessary to retire all such bonds which portion shall be set aside and retained in said Fund for the purpose of purchasing any such lands as herein provided, shall be deposited to the credit of the General Revenue Fund to be appropriated to such purposes as may be prescribed by law. All moneys becoming a part of said Fund hereafter shall likewise be deposited to the credit of the General Revenue Fund.

"When a Division of said Fund (each Division consisting of the moneys attributable to the bonds issued and sold pursuant to a single Constitutional authorization and the lands purchased therewith) contains sufficient moneys to retire all of the bonds secured by such Division, the moneys thereof, except such portion as may be needed to retire all of the bonds secured by such Division which moneys shall be set aside and remain a part of such Division for the purpose of retiring all such bonds, may be used for the purpose of paying the principal and interest on any other bonds heretofore or hereafter issued and sold by said Board. Such use shall be a matter for the discretion and direction of said Board; but there may be no such use of any such moneys contrary to the rights of any holder of any of the bonds issued and sold by said Board or in violation of any contract to which said Board is a party.

"The Veterans' Land Fund shall be used by said Board for the purpose of purchasing lands situated in the State of Texas owned by the United States or any governmental agency thereof, owned by the Texas Prison System or any other governmental agency of the State of Texas, or owned by any person, firm, or corporation. All lands thus purchased shall be acquired at the lowest price obtainable, to be paid for in cash, and shall be a part of said Fund. Such lands heretofore or hereafter purchased and comprising a part of said Fund are hereby declared to be held for a governmental purpose, although the individual purchasers thereof shall be subject to taxation to the same extent and in the same manner as are purchasers of lands dedicated to the Permanent Free Public School Fund.

"The lands of the Veterans' Land Fund shall be sold by said Board in such quantities, on such terms, at such prices, at such rates of interest and under such rules and regulations as are now or may hereafter be provided by law to

shall be set aside for that purpose in accordance with the resolution adopted by said Board authorizing the issuance and sale of such series of bonds. After such eight (8) year period, all of such moneys shall be set aside for the retirement of any bonds hereafter issued and sold and to pay interest thereon, together with any expenses as provided herein, in accordance with the resolution or resolutions authorizing the issuance and sale of such additional bonds, until there are sufficient moneys to retire all of the bonds hereafter issued and sold, at which time all such moneys then remaining a part of said Veterans' Land Fund and thereafter becoming a part of said Fund shall be governed as elsewhere provided herein.

"This Amendment being intended only to establish a basic framework and not to be a comprehensive treatment of the Veterans' Land Program, there is hereby reserved to the Legislature full power to implement and effectuate the design and objects of this Amendment, including the powers, responsibilities, functions, and authority to the Veterans' Land Board as it believes necessary.

"Should the Legislature enact any enabling laws in anticipation of the Veterans' Land Fund, such law shall be void by reason of its anticipatory nature.

"This Amendment shall become effective upon its adoption."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1965, at which election all ballots shall have printed thereon the following:

"FOR the Amendment to Section 49-b of Article III of the Constitution of Texas to increase the Veterans' Land Fund by \$200,000,000; said Fund to be used for the purpose of purchasing land in Texas to be sold to Texas veterans who served in the Armed Services of the United States between September 16, 1940, and March 31, 1955; such funds to be expended in accordance with instructions and requirements that may be provided by law;" and

"AGAINST the Amendment to Section 49-b of Article III of the Constitution of Texas to increase the Veterans' Land Fund by \$200,000,000; said Fund to be used for the purpose of purchasing land in Texas to be sold to Texas veterans who served in the Armed Services of the United States between September 16, 1940, and March 31, 1955; such funds to be expended in accordance with instructions and requirements that may be provided by law."

If it appears from the returns of said election that a majority of the votes cast were in favor of said Amendment, the same shall become a part of the State Constitution and be effective from the date set forth in said Amendment, and the Governor shall issue a proclamation in keeping therewith.

Section 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and shall have the same published as required by the Constitution and Laws of this state.

Texas veterans who served not less than ninety (90) consecutive days, unless sooner discharged by reason of a service-connected disability, on active duty in the Army, Navy, Air Force, Coast Guard or Marine Corps of the United States between September 16, 1940, and March 31, 1955, and who upon the date of filing his or her application to purchase any such land is a citizen of the United States, is a bona fide resident of the State of Texas, and has not been dishonorably discharged from any branch of the Armed Forces above-named and who at the time of his or her enlistment, induction, commissioning, or drafting was a bona fide resident of the State of Texas. The foregoing notwithstanding, any lands in the Veterans' Land Fund which have been first offered for sale to veterans and which have not been sold may be sold or resold to such purchasers, in such quantities, and on such terms, and at such prices and rates of interest, and under such rules and regulations as are now or may hereafter be provided by law.

"Said Veterans' Land Fund, to the extent of the moneys attributable to any bonds hereafter issued and sold by said Board may be used by said Board, as is now or may hereafter be provided by law, for the purpose of paying the expenses of surveying, monumenting, road construction, legal fees, recordation fees, advertising and other like costs necessary or incidental to the purchase and sale, or resale, of any lands purchased with any of the moneys attributable to such additional bonds, such expenses to be added to the price of such lands when sold, or resold, by said Board; for the purpose of paying the expenses of issuing, selling, and delivering any such additional bonds; and for the purpose of meeting the expenses of paying the interest or principal due or to become due on any such additional bonds.

"All moneys attributable to the bonds issued and sold pursuant to the Constitutional Amendment adopted on November 6, 1956, shall be credited to said Veterans' Land Fund and may be used for the purpose of purchasing additional lands; to be sold as provided herein, until December 1, 1965; provided, however, that so much of such moneys as may be necessary to pay interest on such bonds shall be set aside for that purpose. After December 1, 1965, all moneys attributable to such bonds shall be set aside and to pay interest thereon; and when there are sufficient moneys to retire all of such bonds, all of such moneys then remaining or thereafter becoming a part of said Fund shall be governed as elsewhere provided herein.

"All of the moneys attributable to any series of bonds hereafter issued and sold by said Board (a series of bonds being all of the bonds issued and sold in a single transaction as a single installment of bonds) may be used for the purchase of lands as herein provided, to be sold as herein provided, for a period ending eight (8) years after the date of sale of such series of bonds; provided, however, that so much of such moneys as may be necessary to pay interest on bonds hereafter issued and sold

shall be set aside for that purpose in accordance with the resolution adopted by said Board authorizing the issuance and sale of such series of bonds. After such eight (8) year period, all of such moneys shall be set aside for the retirement of any bonds hereafter issued and sold and to pay interest thereon, together with any expenses as provided herein, in accordance with the resolution or resolutions authorizing the issuance and sale of such additional bonds, until there are sufficient moneys to retire all of the bonds hereafter issued and sold, at which time all such moneys then remaining a part of said Veterans' Land Fund and thereafter becoming a part of said Fund shall be governed as elsewhere provided herein.

"This Amendment being intended only to establish a basic framework and not to be a comprehensive treatment of the Veterans' Land Program, there is hereby reserved to the Legislature full power to implement and effectuate the design and objects of this Amendment, including the powers, responsibilities, functions, and authority to the Veterans' Land Board as it believes necessary.

"Should the Legislature enact any enabling laws in anticipation of the Veterans' Land Fund, such law shall be void by reason of its anticipatory nature.

"This Amendment shall become effective upon its adoption."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1965, at which election all ballots shall have printed thereon the following:

"FOR the Amendment to Section 49-b of Article III of the Constitution of Texas to increase the Veterans' Land Fund by \$200,000,000; said Fund to be used for the purpose of purchasing land in Texas to be sold to Texas veterans who served in the Armed Services of the United States between September 16, 1940, and March 31, 1955; such funds to be expended in accordance with instructions and requirements that may be provided by law;" and

"AGAINST the Amendment to Section 49-b of Article III of the Constitution of Texas to increase the Veterans' Land Fund by \$200,000,000; said Fund to be used for the purpose of purchasing land in Texas to be sold to Texas veterans who served in the Armed Services of the United States between September 16, 1940, and March 31, 1955; such funds to be expended in accordance with instructions and requirements that may be provided by law."

If it appears from the returns of said election that a majority of the votes cast were in favor of said Amendment, the same shall become a part of the State Constitution and be effective from the date set forth in said Amendment, and the Governor shall issue a proclamation in keeping therewith.

Section 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and shall have the same published as required by the Constitution and Laws of this state.

Not Unduly Concerned

In any case, administration officials did not appear unduly concerned over the possibility that some Russians might have been in the area brought under attack.

It was acknowledged, however, that any fatal exchanges between Russian and American personnel in Viet Nam would further damage already strained relations between Moscow and Washington. If there were Soviet casualties in the raid, the Kremlin might prefer to remain silent and thus avoid the inevitable question in other world capitals as to what the Kremlin would do in reply.

But there would be no similar restraints on the North Vietnamese who might even hope to pull Russia deeper into the struggle. As a result, the administration assumption that there were no Russians on those two particular sites appeared fairly solid.

The Defense Department left open the question of whether U. S. jet fighter bombers eventually might strike in the Hanoi area.

The Pentagon said only that military targets in the Hanoi area do not have "current priority." Defense officials declined to elaborate when asked what this meant in terms of future U. S. strategy.

The Hanoi-Haiphong area is one of the world's most densely populated. Air attacks there almost inevitably would mean civilian casualties and consequent condemnation from neutralist nations — and possibly even from some sympathetic to over-all U. S. aims in Southeast Asia.

Sen. Patrick V. McNamara (D-Mich.) was chairman of the Senate subcommittee that considered repeal of Section 14-B. Michigan's AFL-CIO put McNamara in the Senate in 1964 and keeps him there. The senator

was president, Detroit Federation of Laborers Local No. 638, AFL, 1957-55 and vice president of the Detroit Federation of Labor, 1939-45.

What chance did the opponents of repeal have before this representative of the labor leaders club? You guessed it. Not much!

Encephalitis, or sleeping sickness, took a heavy toll in Houston last year.

Maybe he had made some mistakes, the President conceded in a recent press conference, but that was all behind him. Also massed behind him and shouting hosannas for the champion are the hundreds of thousands of Negro voters. Their numbers soon will be counted in the millions. These voting Negroes have been helping elect Democrats to national office since the late FDR founded the New Deal with federal funds to subsidize the ill-housed, ill-clothed, ill-fed. On either both humanitarian and political grounds, FDR's New Deal policies were the mark of political genius.

The labor leaders demand repeal of Section 14-B of the Taft-Hartley Act. This section merely acknowledged the right of each state to permit or to forbid within its borders the union shop wherein a worker must belong, pay dues to and follow his union leader if he wants a job. Section 14-B did not confer any new rights on any state. The section merely stipulated that the Taft-Hartley Act was not to interfere with the always acknowledged right of any state to choose between open and compulsory unionism.

To this repeal program of the labor leaders, LBJ seems to be giving not much more than lip service. His repealer request to Congress was wholly casual, almost an afterthought in a long message. LBJ has not since been known to be twisting arms in behalf of repeal.

In his comparative youth, LBJ was no less an advocate of the Taft-Hartley Act than of the poll tax. His appreciation of Taft-Hartley seems to persist whereas his affinity for the poll tax and such brakes on civil rights seems to have disappeared altogether. Perhaps the President is guided in this by his policy of governing by consensus.

The American consensus indisputably is against repeal of 14-B. That is a fact of life as shown in reputable polls, by a canvass of newspaper opinion. The congressional supporters of repeal know this and they are running scared. The House and Senate committees which had hearings on the repealer proposal were shockingly abrupt with its opponents. The captive, pro-labor chairman of these committees simply shut off their hearings to silence the rank and file workers who wanted to testify that the demand for repeal was largely a labor boss demand.

Torre Tilts Scoreboard, Wills Steals Two Sacks

By United Press International
Joe Torre tilted Houston's \$2 million exploding scoreboard with some two-bit fireworks and hit the jackpot with pyrotechnics the Astros couldn't buy at any price.

When Milwaukee's All-Star catcher slammed his 20th home run Tuesday night in the Astrodome, his teammates beat the mammoth scoreboard to the punch by tossing firecrackers and lighting sparklers.

The 400-foot long monster triggers electronic fireworks when the Astros hit home runs but ignores an enemy blast by flashing "tilt." The Braves retaliated with their own display from the dugout in honor of Torre, who has clubbed seven hits and driven in six runs in the last two games.

Milwaukee won the game 7-1 and edged within one game of second place Cincinnati, which succumbed to the flashing feet and torrid bat of Maury Wills who led Los Angeles to a 9-7 triumph.

Completing the National League action, St. Louis shut out San Francisco and Warren Spahn 3-0, Philadelphia edged Pittsburgh 3-1 in the first game of a doubleheader then lost to the Pirates 3-2 in 10 innings and Chicago trimmed New York 6-3.

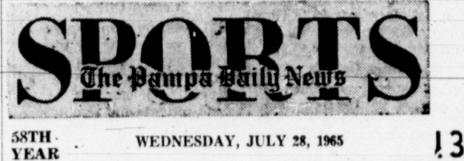

ings, was the winner for Los Angeles.

Spahn hurled a four-hitter at the Cardinals but one of the safeties was Bill White's 15th homer and another was Curt Flood's triple. Flood scored on Phil Gagliano's sacrifice fly and the runs were all St. Louis needed as Bob Purkey blanked the Giants on five singles, three by Len Gabrielson. The loss was the ninth straight for the 44-year old Spahn, who is now 4-1. Purkey (8-7) shutout Willie Mays in three appearances. Mays has not gotten a hit in his last 19 at bats.

Split Doubleheader
Donn Clendon singled home Willie Stargell in the 10th inning with the winning run for

Pittsburgh in the nightcap after the Phillies had scored three runs after two were out in the ninth inning of the opener to defeat Pittsburgh. Bob Friend had a 1-0 six-hitter in the first game with none on and two out in the ninth when Bobby Wine, Alex Johnson and Tony Gonzalez singled. Al McBean relieved Friend and was greeted with a two-run double by Cookie Rojas.

Ernie Banks drove in four runs with a bases-loaded double and a home run to raise his league-leading RBI total to 76. Bob Buhl won his 11th game for the Cubs. Although he needed relief from Billy Hoft and Ted Abernathy in the ninth, Jack Fisher (7-12) was the loser.

Sports Parade

By MILTON RICHMAN
UPI Sports Writer
FAIRFIELD, Conn. (UPI) — There used to be a running gag with the New York football Giants that they had to take Del Shofner's pulse to see if he still was breathing.

Shofner, the gangling, raw-boned end who was named all-pro five times during his eight previous seasons in the National Football League, is the phlegmatic type.

"Unexcitable and unemotional, he's the kind who might look at you wide-eyed and inquire 'Did you say something?' if you shot off a cannon under him."

That was the "old" Shofner. Up here in the Giants' pre-season training camp, all that they're talking about is the new one.

The blond, 30-year-old Texan actually is going around telling jokes, patting the other players on the back and behaving in general as a one-man cheering squad.

Shofner, out of action the last half of the 1964 season with bleeding ulcers, may also be attempting to keep his own spirits up.

Shofner Started Thinking
Down to 169 pounds the day he was released from the hospital last November, Shofner, who doesn't exactly look like Mr. America when he's well, did a lot of thinking during the off-season.

"I never got to the point of thinking I might not come back, but my doctor did," he laughed, strapping on his shoulder pads in the gymnasium near the field the Giants practice on.

"The doctor said if it was football that was causing my ulcers, it would be best I didn't come back; but if it was something else and not football, I could come back."

"I don't think it was football that caused my trouble. I think it was touring the country for a public relations firm after the 1963 season that had something

to do with it.

"Right now, everything is fine," Shofner said. "I weigh 193—almost as much as I ever weighed—and I'm having no trouble with my stomach at all."

That could change, and Shofner naturally hopes it doesn't, but if the ulcers return, the Giants will find themselves minus one of the finest ends in the business.

"In the event I do have any trouble," said Shofner, "I'll know football is responsible. And if that happens, I imagine I'd quit for good. It's no fun to have an ulcer bleeding on you. Besides, it could endanger your health even more to continue doing nothing about it."

The Giants, who finished last in their division without Shofner last year, can hardly afford to lose him.

Coach Allie Sherman has been watching Shofner carefully the past week, doesn't believe they will.

"Physically, he looks wonderful to me," said Sherman. "Equally important, he's in great shape mentally. Don't forget, he's had a tough road back. He was a very sick man. But he applied himself from the minute he reported here and right now he has to be considered our starting left end. I think he can come back."

Shofner thinks the same way although there will be an added obstacle because his favorite pitching partner, quarterback Y.A. Tittle, no longer is with the team.

"No question, we lost a real fine quarterback," said Shofner, standing up and preparing to work on some offensive pass patterns.

Steals Two More
Wills stole two more bases, raising his total to 71, cracked a double and single to run his hitting streak to 20 and scored the decisive run in the fifth on Jim Gilliam's single. Gilliam drove in four of the Dodger tallies with a homer, double and single. Wills is now 29 games ahead of his 1962 pace when he pilfered a record 104 Cincinnati's Joey Jay absorbed the loss and Ron Perranoski, who pitched the final two inn-

E. League 302 000 001-6 10
W. League 001 040 000-5 3
Batteries: Stroud to Adams & Adams to Stroud. Morris to Glover.
Winning Pitcher: Kenneth Adams SO 7 BB 0 Hits 0.
Losing Pitcher: Morris SO 11 BB 5 Hits 10.
Leading Batter: Richard Stroud 3 Hits For 5 AB.
Home Runs: Chuck Sexton, with one on in 3rd.
Comments: Eastern League All-Stars takes opening game of tournament in one of the better played games of the year. Each team played excellent ball, as the game went 3 extra innings with Morris tiring to walk in the winning run in the 9th.

Brownfield Downs Pampa

BROWNFIELD—Host Brownfield came from behind last night to take an 8-6 victory over Pampa American in the Yanks' opening game of the state Babe Ruth League Tournament.

Pampa will meet Lamesa at 6 p.m. tonight in a fight for survival. Lamesa had dropped a 3-2 decision to Brownfield in their opener Monday night, then had come back to eliminate Texhoma, 6-5. Texhoma had been swamped by South San Antonio in their first game. San Antonio and Brownfield will meet in tonight's winners bracket.

Johnny Marsh absorbed the loss as he was rapped for 11 hits, while his mates committed two crucial errors behind him. Brownfield committed five errors, while the Yanks got seven hits, but couldn't tally in the last three innings.

Brownfield opened up with four runs on four hits and a pair of errors in the second inning. Pampa got a single tally back in the third, and then went ahead with five runs in the fourth.

Brownfield tied it up in the fifth inning, and then got the eventual winning run in the sixth and a clincher in the seventh.

Roberts Looking For Job

BALTIMORE (UPI) — Robin Roberts, one of baseball's great pitchers over the last two decades, is looking for a job today.

The 38-year-old righthander, winner of 276 games in a major league career that started in 1948, was placed on waivers by the Baltimore Orioles Tuesday at his own request. Roberts had started only one game in the last five weeks.

"I enjoy pitching and want to go on," Roberts said. "I had never planned on being an occasional starter and a long relief man. If I continue in this role, it would be assumed by everybody I'd put in my last year. It's a role I don't care to assume."

Twice before Roberts was let go by teams who considered him washed up. After serving 14 years with the Philadelphia Phillies they sold him to the New York Yankees in October, 1961. Roberts, trying to get by without his blazing fastball, never got to throw a pitch for the Yankees as they released him unconditionally shortly after the start of the 1962 season.

Baltimore took a chance on him, and Roberts obliged with 27 victories and 29 defeats over the next three years. He won his first four starts this season but then lost seven in a row.

Roberts asked Orioles General Manager Lee MacPhail for his release and MacPhail complied. Any of the other major league clubs now can claim Roberts for \$100.

"I think he'll make a connection," MacPhail said, "and I think he can still help somebody in a starting role. There just wasn't any room to use him that way here."

TOT Softball Starts Tonight

The annual Top O' Texas Softball Tournament will get underway Wednesday night with nine teams competing for championship honors. Trophies this year will be presented to first, second, third and consolation winners. Teams competing are Amarillo Air Force Base, Amarillo Merchants, Sunray, Perryton 1st National, Perryton McGibbons Oilers, Cabot, Panhandle Packing, Pampa Independents and Weathered Humble.

First round games find Pampa Independents vs McGibbons Oilers 7:30 p.m. Wed., Amarillo Merchants vs Perryton 1st National 9:00 p.m. Wed. On Thursday Cabot vs Amarillo Air Force Base at 7:30 (a change) and Sunray vs Panhandle Packing at 9:00 while the winner of McGibbons — Independents will play Weathered Friday night at 9:00 p.m.

Top seeded teams in a toss up are Amarillo Air Force Base, Amarillo Merchants and Weathered Humble. Weathered is the Pampa League Champs for the past two years. Dark horses would be Sunray and Panhandle Packing. The Amarillo Merchants were runners-up to Graham Plow Sunday in the finals of the TAAF Tournament and will go to State Competition in August.

Puzzled Orioles Pennant-Bound?

By United Press International
The Orioles have Manager Hank Bauer so puzzled he figures they have to win the pennant.

"We haven't been playing our best ball at all," the Baltimore skipper explained. "And we're still in second place. We haven't been hitting, our fielding has let down and we're still up there."

A couple of items that aren't mysterious to Bauer are third baseman Brooks Robinson and the Orioles bullpen. While Hank waits for the rest of his team to jell, Robinson's consistent bat and the relievers' stingy hurling are keeping Baltimore close.

Robby has driven in the winning run for the Orioles in two of their last three victories, including Tuesday night's 3-2 10-inning triumph over Los Angeles.

Reliever Dick Hall earned his ninth victory in the contest, enabling the Orioles to move within four games of pace-setting Minnesota.

In other AL games, Kansas City swept a doubleheader from Boston 7-3 and 10-8, Minnesota beat Washington 9-5 after losing the first game 10-7, Cleveland defeated Chicago 7-3, and New York tripped Detroit 4-3 in the first game, then lost the

The Pampa Daily News

Watchful Newspaper

NEVER STRIVING FOR THE TOP O' TEXAS TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

Everyone in Know About Viet Nam

Demands and pleas that the government "tell the truth about Viet Nam" strike a responsive chord among many Americans, whether they are voiced by persons who oppose the administration's actions or by those who support them.

Although most people have a decided opinion about what should be done in matters of domestic concern, when it comes to foreign affairs they are usually more ready to abdicate their own judgment and look to the government experts for answers, even while not quite trusting them.

This was pointed out recently by Gunnar Myrdal, an astute Swedish observer of the American scene. Writing in the New York Times Magazine, he gives as the reason the fact that the ordinary citizen "tends to assume that the government has information of a secret nature, not available to the general public."

While it may be to the tactical advantage of government officials to maintain this belief, "experience suggests that outside purely military matters the belief is vastly exaggerated when it is not entirely false."

Ordinarily, maintains Myrdal, no government has more knowledge about a foreign country than is generally available in the press and published literature.

If so, this carries two significant implications — one general and the other particular — for all of us. In general, it means there can be no excuse for shrugging off responsibility for what the nation does in the world arena on the grounds that we cannot possibly know — or learn — as much about the issues as the men who have to make the decisions.

In the particular issue of Viet Nam, it means that despite any fond hopes, the government possesses no secret knowledge but for the revelation of which we could arrive at a quick and easy solution to the war there.

"The truth about Viet Nam" is as evident to the ordinary citizen as it is to the man in the White House. It is that the Communists want to swallow up South Viet Nam and we intend to stop them from doing it.

It is that we face a long and increasingly costly struggle, with no certain prospect of victory or even some kind of peace that is neither victory nor defeat.

There are no hidden truths that will make these obvious truths go away.

Further, we remember that "roving" Ambassador Harriman made a quiet junket to Moscow a couple of years ago, in early 1963, while other officials were reminding us frequently of the tense and "dangerous" situation regarding Soviet missiles in Cuba. Mr. Harriman returned from that trip to surprise most of the American people with a test ban treaty, which actually had been negotiated in top-level conferences between US and USSR officials, without letting even Congress in on it.

Whether vacationing or not, we don't like the idea of an official emissary of our Government going around Moscow, hat in hand, pleading with Communist officials just to let him in and to smile and talk to him. Even more disturbing is the prospect that this rover has been sent to fetch another made-in-Moscow deal which has been negotiated behind our backs. We think it would be better for vacating Ambassador Harriman to "See America First", too.

Also, we remember a pronouncement by Mr. Sylvester of the Defense Department, that he believes the "Government" has the right to lie to the people in certain circumstances. And since Mr. Sylvester still holds a high appointive office, we get the impression that his beliefs may have encouraged others in the administration to feel the same way.

Automation Perils Vastly Overrated

On Medieval maps of the world, unexplored areas were often filled in with fanciful drawings of dragons and a serpents illustrating such warnings as "Here be monsters."

As men actually penetrated the unknown and came face to face with the "monsters," they found they were not so ferocious after all.

The same has been true of other imagined dangers down through the ages. One specter that still frightens people but which is slowly losing its terror as we come to know it is the supposedly job devouring monster called automation.

Indeed, so much has automation become a part of our lives that if all automated equipment in use today were suddenly to disappear, many of our daily activities — particularly in industry and communications and commerce — would grind to a halt and be immensely difficult to start up again.

For instance, it is estimated that without automation, it would be necessary to hire all women between 21 and 45 just to process the billions of bank checks that will be circulating by 1970. The only trouble is that no one would be available for the work, because without automated equipment all the women in America would be operating telephone switchboards.

As for automation eating away employment, the fact is that in the past four years jobs have been growing at the rate of more than one and a half million a year. Much of this increase has been not in spite of but because of automation, as it generates new products and new markets and new services.

This is not to say that there have not been job losses and displacements, labor-management disputes and other problems caused by automation. So far, however, none of them has proved insurmountable in the face of intelligent human planning and co-operation.

Effects of Responsibility

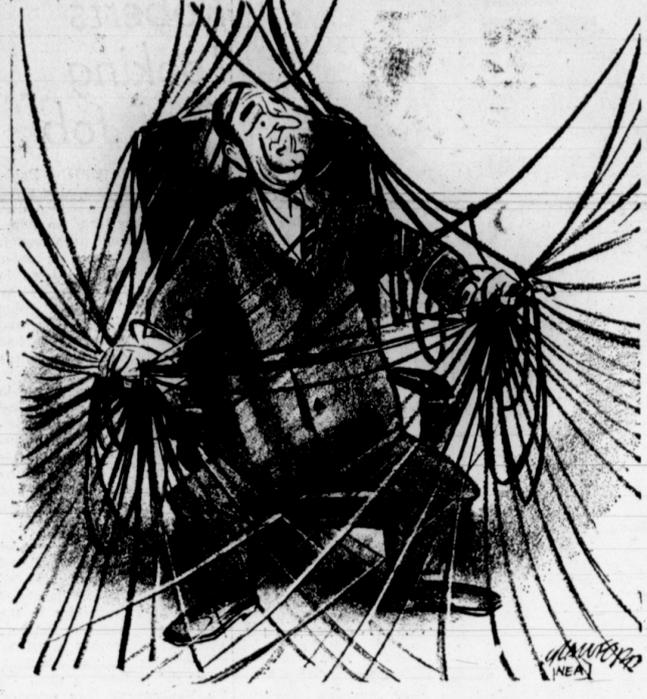

It's not so much the danger as the responsibility that makes a man's heart beat faster — if he's a pilot, anyway.

That seems to be the message of electrodes taped to the chests of test pilots and astronauts. NASA physicians long ago encountered fantastic increases in the heartbeat rates of X-15 and Mercury astronauts.

Later, in a series of flights of a high-performance aircraft with two men aboard, it was found that outwardly calm and confident command pilots registered high heartbeat averages while passenger pilots had much lower ones.

Thus the assumption that it is the responsibility of command and not danger alone that accounts for the high rates. It is hardly surprising. The possibility of spreading yourself all over the landscape in a research plane or space capsule is one thing. But being put in charge of umpteen million dollars' worth of taxpayers' money would accelerate anybody's circulation.

The Driver's Seat

Backstage Washington

White House Decision on B-52 Bombing of Targets in North Viet Nam Expected; Could Save the Big Bombers

WASHINGTON — The use of B-52 bombers to blast Communist targets in South Viet Nam has ignited an old air power controversy within the Johnson administration.

The President's military advisers, seeking extension of these B-52 raids to major military and economic targets in North Viet Nam are urging another \$1 billion to modernize 300 of the strategic bombers.

Involving more than half the present B-52 fleet, this Air Force proposal runs directly counter to Defense Secretary McNamara's long-prepared plans to begin retiring approximately the same number of the giant jet bombers next year.

Formal decision on modernizing and keeping these planes in operation is expected to be made by President Johnson during the current White House strategy and budget talks on Viet Nam.

A governing factor in the President's ruling could be whether he approves using the B-52s, now the backbone of the Strategic Air Command, on raids over North Viet Nam.

Until now, the President has limited B-52 missions to attacks on Communist troop build-ups in South Viet Nam because of Secretary of State Rusk's fears that use of the heavy bombers might draw the Chinese air force into the war.

In these saturation air strikes, the B-52 flights from Guam, the Philippines and Okinawa usually pass near the Chinese Communist-held island of Hainan in the South China Sea, about 150 miles from the North Vietnamese coast.

THE RED ALERT — Soviet-built MIG-21s based on Hainan's seven airfields scramble to the air when the B-52s approach, but the Chinese Reds have made no attempt to intercept the strategic bombers.

Secretary Rusk argues that Peiping has warned the B-52s will be intercepted and shot down if used against North Vietnamese targets. With the Chinese Communists beefing up their Hainan-based air power to 300 planes in recent weeks, Rusk contends they have the capability of enforcing their threat.

The Joint Chiefs of Staff, who believe massive B-52 raids are needed to effectively cripple the North Vietnamese war effort, disagree with Rusk.

They maintain the Chinese air force is no match for U.S. air power in the China Sea area, and that a confrontation now would eliminate planes that pose a danger to the increasing U.S. forces in South Viet Nam.

The critical need for heavier bombing in North Viet Nam is indicated by one of Secretary McNamara's major findings during his recent inspection trip to South Viet Nam.

McNamara reported to the President that General William Westmoreland, commander of U.S. forces in Viet Nam, declared the air strikes so far

have failed to stem the flow of infiltrated supplies, weapons and men from North Viet Nam. Westmoreland also warned that the North Vietnamese appear to be mobilizing to send large numbers of reinforcements into South Viet Nam, and that only a massive bombing raid could forestall this ominous development.

PICKING THE TARGETS — According to McNamara, South Vietnamese military leaders believe that only by bombing economic targets in the North will the Communist government be sufficiently hurt to force a satisfactory settlement of the conflict.

The South Vietnamese said Hanoi's economy could be crippled by destroying irrigation dikes of the Red River Delta within the next 30 days — while the rivers in the area are at or near flood stage.

The devastating effect of such bombing on the North Vietnamese economy is indicated by the breakdown of the dikes in 1945 when 90 per cent of the country's rice crop was flooded and destroyed. The resultant nationwide famine and epidemics forced the North's economy to a near halt.

If President Johnson authorizes striking these targets, the B-52s would be the most effective aircraft because of their large-bomb capacity. Although normally equipped to carry atomic weapons, they can easily be converted to handle conventional bombs to destroy the dikes.

Air Force officers who oppose further cutbacks in the 500-plane B-52 force until another manned bomber is ready to replace it believe the expanded Vietnamese war may have won their case.

THE PERMISSIVE LINK — White House Aide Jack Valenti is privately denying published reports that President Johnson is transferring some of the functions of his military aides to the Pentagon. Replying to questions, he told a group of students during a White House briefing that the "black bag" with the equipment that links the chief executive with the Strategic Air Command headquarters at Omaha is still in the same hands. "There are a dozen military aides who carry the briefcase on a shift basis," Valenti explained. "The black bag" or "football," as we call it, goes wherever the President travels. It is never more than two minutes away from the President. . . . Valenti contending that if President Johnson showed up at SAC's headquarters without the "black bag," military authorities there would not be able to order the firing of a single nuclear bomb. "There is no chance an imposter could trigger an atomic attack," reported Valenti. "Before even the President could direct such an attack, he would have to have the code contained in the black bag."

Straight Talk

Who's Behind the 'Civil Rights' Drive?

By TOM ANDERSON

The communist "Worker" called "The Reverend" Martin Luther King's 1959 March on Washington "a communist project." Whether or not King is a Communist, it is not the fact that he got the Nobel Peace prize is, of course, evidence against him. The point is that Martin Luther King is even more effective in the communist cause than Senator Fulbright. By their fruits — not their membership cards — shall we know them. King now poses as a pacifist. (So do Communists.) He also poses as a Christian. Communists have murdered more Christians than any other tyrant in history. Communism and Christianity are opposites, are enemies and cannot coexist. One must destroy the other.

In the name of liberation, anti-colonialism, and freedom, American collectivists helped deliver the colonial peoples of the world from the benevolent care of their Dutch, French, Belgian and English masters into the clutches of their present communist enslavers. The same "liberators" are now "freeing" the Negroes of America. As one communist publication has proclaimed, "The Black Belt of the South . . . constitutes virtually a colony within the body of the United States of America." A longtime communist goal and plan has been to establish a Negro Soviet Republic in the Southeastern United States. One of the first requirements for getting that Negro Republic under way is enforcement of a "Voting Rights" law which will ensure the Negro take-over of the Black Belt.

The Negro in America owns more cars, TV sets, homes and farms than all of the combined Negroes of the world. The Negro nowhere in human history has ever even approached the materialistic comforts he enjoys in America. The Negro in Mississippi lives better — than the average white Russian. The plantation slave in America had more freedom than the Russian citizen has today.

The communist racial program in America is (1) to publicize and exaggerate all "restrictions or denials" of civil rights to Negroes, especially in the South; (2) to organize, support or infiltrate and direct the activities of such organizations as NAACP, Urban League and Civil Liberties Union; (3) recruit Negroes as communist party members and train them as racial agitators; (4) encourage, support and guide the activities of "liberals" in promoting social and sexual integration of blacks and whites on theoretical or scientific grounds. The campaign of the communists is not to help the Negro but to destroy America.

Here's what the communist "Daily Worker" had to say on integration, way back in 1928: "The Communist Party consists of its historic duty to unite all workers regardless of their color against the common

EVERYBODY'S BUSINESS

Property in Idea, Like Title To Auto, Is Subject to Loss

By SAM CAMPBELL Business Editor

As the fate of an increasing number of companies hangs on the inventive brains of key employees, the question of who owns an idea grows increasingly pertinent.

The subject was examined in a previous column. My conclusion was that an idea is owned by the originator up until the time he discloses the idea to some other person. Who owns the idea after that depends on the contractual relation between the two parties at the time of disclosure.

If there is no contractual relationship, either written or unwritten in character, the idea has been released unconditionally, and the originator has no moral claim to compensation from the other person if that person picks up what he has heard and uses it.

Counter Opinion

As expected, this opinion did not receive universal acclaim.

Question Box

(We invite questions on economic and proper functions of government which will not insure anonymity.)

QUESTION: "Does the supply come before the demand as some contend?"

ANSWER: In certain things, certainly the demand comes before the supply. People demand food and shelter in various forms.

Usually all new ideas and inventions come before there is a demand for them. There was never really any great demand for air transportation until energetic people created airplanes that would transport people rapidly and relatively safe. There was never really any great demand for automobiles years ago.

Of course they all wanted transportation but most people were pretty well satisfied with a good horse. Autos were not "in great demand" socially, nor was there expressed desire for ownership or use of them.

There is no great desire for great poems or great music by the general public, until they are produced. It was some genius that the spirit moved so that he felt he must express himself. As Albert J. Nock said in his book, "Our Enemy The State," a man who has a certain belief is ethically obliged to express his belief in order to have peace of mind.

If a man demanded a piece of cloth made to his own specifications, it would be prohibitively expensive. It used to be that most dress suits were tailor made, but now they are various sizes with various materials hoping that they will satisfy the demand their efforts have created.

The large tracts of houses are built before they are sold. The supply comes before the demand. If the demand doesn't come, the builder or financier will have a loss.

People were pretty well satisfied with oil lamps and gas lamps until Edison commenced to show how electricity could give them better lights. But he had to prove it before they would buy it. And as the consumption became more and more, the prices became lower and lower and increased the demand.

So the answer is, in most cases, supply comes before demand, and in certain specific cases, the demand comes before the supply. But it is very expensive when the demand comes before there is much of an enemy, against the master class. The Negro race must understand that Communism means social and racial equality.

The Civil Rioters are said to be in violent disagreement with each other over how much violence should be injected into the movement. "The time may be approaching," a leftist reports, "when he (Martin Luther King) is the best friend the South has in the Civil Rights movement." (With him as our friend, we do not need any enemies.) Thus the lefties use the same approach they've used to undermine our opposition to Russian Communism: by portraying the Russian leaders as "good" Communists as contrasted with Red China's "bad" Communists. The only good Communist is a dead Communist.

Property in Idea, Like Title To Auto, Is Subject to Loss

Among those who disagree is Professor Andrew J. Galambos of the Free Enterprise Institute. He writes in part as follows: "You said that the fellow with the \$500,000 ideas who disclosed to a firm the ideas involved loses all moral claim to compensation when he is disclosed. I disagree. Just because a man is careless with his automobile and someone steals it, does not entitle the thief to ownership of the automobile. "Recourse is possible if there is to be justice. Similarly, if someone makes a careless disclosure and thereby becomes subject to trespass of his ideas does not lose him the ownership thereof. It merely causes him problems of recourse and recovery. But carelessness does not cost ownership."

He goes on to observe at another point that "if title to an idea passes upon disclosure, then the concept would be operationally meaningless to attribute to ideas the significance of property."

Professor Galambos investigates the concept of property in ideas in a course conducted under the auspices of the Free Enterprise Institute. He has done more prolonged thinking on this particular subject than I have. Moreover, my esteem for Mr. Galambos' perception is so great that I am flattered even by the fact he takes time to disagree with me. However, that said, I believe he has not reasoned straightly in the present instance.

Certainly, property is not necessarily lost by carelessness. But on the other hand, such loss is possible. Suppose the owner of a new automobile gets drunk and signs the pink slip over to a barmaid. His carelessness thereby has cost him the title to his property. Similarly ideas may be lost through a careless lip. The only difference between the two passings of title is that in one case the transfer was written and in the other case it was spoken.

To suppose that conditions can be attached to an idea that has been unconditionally released is to presume a contract where none existed.

The idea originator may not have intended to lose his property, he may have regrets that he talked too much, but he did what he did. He gave away what was his. It isn't his exclusively any more.

Montgomery Ward

GOVERNING FORCES

Demonstrations have become means of securing the fulfillment of desires and demands.

Demonstrations are an experiment in a new type of government of and by the minority of the people. If government by demonstration proves more adequate, legislation, courts and enforcement of law and decision should be dispensed with and substituted by the direct exercise of the will of the dissatisfied.

Town meetings in the early settlements of America were forms of orderly debate and resulted in the formation of needed decisions of power.

Later mass meetings were held in place of "town meetings" and only reflected the will of the dissatisfied or at their best the whims of crusaders and self-styled reformers.

Conventions were more orderly, but in the convention hall passion often runs wild.

Voting in primaries and elections gives the expression of the will of the majority without any protection for minorities which they will sometime badly need.

Anti-communists may be much concerned about the future of America and are sincerely outraged at times, but since they are not prone to demonstrate, their warnings fall on deaf ears. Any form of demonstration invariably makes news and in the hands of skilled propagandists the weight of public opinion is nearly always brought to bear in support of the demonstrators.

The quiet, well-read, thoughtful peaceful citizens are powerless and lost in facing wild tirades and eager crusaders.

We may reflect upon the overthrow through students or other demonstrations of long-established, orderly government.
