VOL. 58 - NO. 71

THE PAMPA DAILY NEWS, WEDNESDAY, JULY 7, 1965

(12 PAGES TODAY)

West Park  
Pampa, Tex.

**DEATH IN THE NIGHT** — A flash fire or an explosion was responsible for the death of a 63-year-old Pampa woman early Wednesday morning in her trailer house. Firemen arrived on the scene at 1:20 a.m. Mrs. Kathryn Forker was found in the kitchen of her one-bedroom trailer house at 721 W. Brown, where the fire took place.

## Suspects Probed In Shooting of Deputy Sheriff

SPRINGFIELD, Ore. (UPI) — Law enforcement officers searching for two men who shot a rookie deputy sheriff questioned two men found today near an auto abandoned by the fugitives.

A spokesman for the Lane County sheriff's office said one of the men was armed with a nine-millimeter pistol similar to the type believed carried by one of the suspects.

Meanwhile, a heavily armed posse of about 100 law enforcement officers moved cautiously through a one-mile square rural residential area in Springfield in search of the two men, suspected of robbing a Portland, Ore., bank Tuesday and gunning down the deputy Tuesday night on his first night patrol.

Two small planes carrying deputy sheriffs aided the search swooping low over the gently rolling farmland in the heart of western Oregon's lush Willamette Valley. The area includes hay fields, fruit orchards and about two dozen new homes.

The suspects were believed surrounded shortly before midnight after a high speed chase through Springfield, a community of about 20,000 eight miles east of Eugene. The men abandoned their car and fled into a field.

The deputy, Charlton E. Smith, 33, was shot in the back with a 12-gauge shotgun when he stopped the suspect's car on a country road Tuesday night. The shooting took place about three miles north of Eugene.

Smith crawled to his patrol car and his dying words over his radio were a description of the car and its license number. He had stopped the auto for a routine check on the \$13,400 robbery of the 42nd and Going branch of the First National Bank of Oregon in Portland, 110 miles to the north, Tuesday afternoon.

The deputy, a former Alaska highway patrolman and member of the Springfield Police Department, was hired by the Lane County sheriff's office two weeks ago. He leaves a wife and four children.

Authorities tentatively identified the two suspects as Wilfred M. Gray, 31, and Carl C. Boles. Gray was released from Oregon State prison June 1 after serving a term for assault with a dangerous weapon.

## WEATHER

**PAMPA AND VICINITY** — Clear to partly cloudy through tomorrow. Isolated late afternoon and evening thundershowers. Low to night mid-60s, high tomorrow around 90. Winds variable 10-15 m.p.h.

## TROUBLE STARTS OVER AGAIN

# Council Asks Job Core Site Be Removed

WASHINGTON (UPI) — Take a pilot program for training young girls to be productive members of society, add some youthful animal spirits, and agitate in a community with a disproportionate number of elderly and retired people.

The result, according to the federal Job Corps, is likely to be the kind of thing which occurred at the job center camps at St. Petersburg, Fla., which has been under fire recently for alleged waste and immorality.

It all began last April when the first of 289 girls aged 16 through 21 arrived at the center from depressed areas to start learning skills designed to enable them to become self-supporting members of society.

**TEARS OF TRAGEDY** — Looking through the front door of Mrs. Kathryn Forker's trailer house, the charred front room can be seen. In the far left of the picture is a chair. Water streams from the top of the trailer house and appears as tears in the photograph.

# U.S. Force of 8,000 Marines Land in Viet

SAIGON (UPI) — An emergency force of 8,000 Marines landed today at Da Nang and Qui Nhon with tanks, artillery and battle gear ready for immediate action against the Viet Cong. The first contingent of a New Zealand artillery unit arrived near Saigon with its weapons.

The new landings were announced as American and Australian paratroops and infantrymen battled a force of guerrillas in the Viet Cong's Zone D, battle zone 31 miles north of Saigon. "Some" American casualties were reported but no details were announced.

A force of eight-engine jet planes based on Guam, 2,200 miles away, flew another "spoiling mission" against the Viet Cong in Zone D today, a few miles away from the joint U.S.-Australian-South Vietnamese 4,500 man force carrying out a sweep of the area. It was the third Strategic Air Force strike there.

A Da Nang dispatch reported two Viet Cong soldiers captured after the attack on the big air base 371 miles northeast of Saigon were shot and killed today "while trying to escape." Vietnamese officials reported. The air base attack killed one American and destroyed \$1 million worth of planes.

Arrival of the Marines in the Da Nang area increased American troop strength to 60,000 compared to a handful who arrived in 1961. It brings Marine strength to 25,000 men — the equivalent of a full combat division.

Da Nang dispatches said more than 6,000 Marines waded across a beach two miles north of Da Nang and that the remainder

landed more than 100 miles south at the port city of Qui Nhon, threatened by a Communist offensive a few miles away. Another 600 Marines landed at Qui Nhon last week.

A U. S. military spokesman in Saigon said the new wave of Marines was not part of the six U. S.-based combat battalions recently ticketed for Viet Nam by the U. S. Defense Department.

He said the fresh reinforcements "were needed too quickly" to wait for the announced battalions. The arrivals were pulled in from the 3rd Marine Division on Okinawa because they were closer.

Combat dispatches from war Zone D said Viet Cong guerrillas attacked American paratroopers this morning and (See MARINE, Page 3)

## Eight-Day Space Flight Scheduled For August 17

SPACE CENTER, Houston (UPI) — America's adventure some astronauts will spend eight days in orbit next month message earth with a "ray gun" next year and possibly reside in a living room-sized space station by 1968.

And people are beginning to ask the question: What ever happened to the Russians?

The last status report in the U.S. bid for manned conquest of space came in three parts Tuesday:

At Cape Kennedy, informed sources revealed Aug. 17 is now the planned launch date for the eight-day orbital flight of astronauts L. Gordon Cooper Jr. and Charles (Pete) Conrad. At the same time, their Gemini-5 capsule was mated to its Titan-2 booster rocket on Pad 19.

At Houston, Gemini-7 pilot Frank Borman and copilot James A. Lovell said they will try to communicate with a ground tracking station over a slender beam of light on their planned 14-day orbital voyage, now expected around January, 1966.

At Los Angeles, Maj. Gen. Ben I. Funk, commander of the Air Force Space Systems Division, said the 1966 military budget requests include \$1 billion to build and launch a space station. This presumably is the Manned Orbital Laboratory (MOL) program that the Air Force expects to have approved by President Johnson this month.

Space veteran Cooper and rookie Conrad were on hand at Cape Kennedy when their 7,000-pound Gemini capsule was delicately lowered and bolted to the top of the two-stage Titan-2 rocket. Still ahead are five weeks of intensive checkouts before they can leave.

Meanwhile, space agency officials in Houston said flatly that neither Cooper nor Conrad would attempt a "walk in space" similar to that taken by astronaut Edward H. White during the four-day voyage of Gemini-4 last month. The Gemini-5 astronauts will not have the right equipment along.

Also, Houston officials denied recurring reports that an Atlas-Agena rocket now at the Cape would be launched to provide a target for a "rendezvous and docking" attempt on the flight of Gemini-5.

Instead, that must await the voyage of astronauts Walter M. Schirra and Thomas P. Stafford aboard Gemini-6, now set for October.

**If it comes from a hardware store we have it. Lewis Hdw. Adv.**

**1965 Traffic Count  
Accidents—265  
Injuries—73  
Deaths—0**

**SEARCH FOR A REASON** — Firemen searched the ruins of Mrs. Kathryn Forker's trailer house for a clue to the origin of the fire, which destroyed all but the bedroom. It was theorized that an explosion preceded the blaze, which would account for the windows being blown open.

## Passage of Succession Bill Looks Certain

WASHINGTON (UPI) — The proposed 25th Constitutional Amendment, aimed at ending 176 years of confusion over the transition of power when a president becomes disabled, could begin its long journey to ratification as early as next week.

Approval by 28 of the 50 state legislatures is necessary before the amendment, given final congressional approval Tuesday by the Senate, can become a part of the U.S. Constitution.

The amendment would set procedures for the vice president to become acting president when a chief executive became disabled and also provide for filling vacancies in the vice presidency. It will be sent to the states in about a week to 10 days.

Considered likely to be among the first to give its approval was Wisconsin, whose legislature is still in session. Legislative leaders in Madison have already scheduled the amendment for possible action next week.

Other states with legislatures still in session include Alabama, Massachusetts, Ohio and Oklahoma. The outlook was favorable for early consideration in Ohio and Massachusetts.

Although many state legislatures are scheduled to come back into session late this year or early next year, final ratifi-

cation is not expected for about two years. This is because not enough state legislatures will meet before January, 1967 to make up the required total of 33.

Ratification of the 25th Amendment is considered virtually certain. Since the adoption of the Constitution on March 4, 1789, only three amendments proposed by Congress have been rejected by the states. All these dealt with controversial subjects.

The 25th Amendment deals with a potential source of confusion that was most recently brought home when former President Dwight D. Eisenhower had his heart attack in 1955.

No objections were seen by the states to its adoption. Senate approval of the measure came on a 68-5 vote. 19 more than the required two-thirds of the senators present and voting. The House approved the amendment last week.

The amendment authorizes the vice president to take over as acting president immediately after he and a majority of the cabinet or such other body as Congress may create, have certified to Congress that the chief executive is unable to continue.

## Funeral Services Set Friday

By RAY RODGERS JR.  
The charred body of a Pampa resident was pulled from the burned ruins of her small trailer house today in Pampa's second fire fatality in two years.

Pronounced dead at the scene by acting coroner G. L. (Nat) Lunsford was Kathryn M. Forker, 63, a resident of the Jiffy Trailer Park, 721 W. Brown.

Mrs. Forker lived alone in a two-room trailer house.

The Pampa Fire Department was called to the scene at 1:20 a. m. when neighbors reported seeing fire billowing from her trailer house.

When firemen arrived the front room of the two-room metal trailer house was a blazing inferno. When firemen entered, Mrs. Forker's charred body was found in the living room.

Firemen said she was burned beyond recognition. Only the front room sustained heavy fire damage. The bedroom received smoke damage, but was not affected by the main fire itself, firemen said.

Fire Chief Earnest Winborne said Mrs. Forker had apparently been to bed sometime earlier in the evening.

"The faucets in the bedroom and kitchen were running," Winborne said, "which leads us to believe she might have discovered the fire and attempted to put it out."

Winborne also said indications were that there may have been some sort of explosion since the bedroom door was standing open when firemen arrived.

"We believe Mrs. Forker got out of bed and went into the front room for some reason," Winborne said, "because she could have easily escaped the fire by the bedroom exit."

Firemen said they believe she made no attempt to get out of the house.

Her body was found where the hottest part of the blaze was concentrated, firemen said. Neighbors reported not hearing an explosion, but stated they were asleep at the time the fire started.

Funeral services for Mrs. Forker have been set for 10 a. m. Friday in the chapel of the First Methodist Church.

She moved to Pampa in 1927 from Panhandle and her late husband L. R. Forker was manager of the National Supply Co., here for many years.

Survivors include one son, Stanley, of Pampa, one brother W. J. Freeman of San Diego; four daughters Mrs. W. D. Hawthorn of Anson; Mrs. Charley Huddleston of DeLeon, Mrs. Lloyd Lightfoot of Booker and Mrs. Shirley Peeler of San Diego; two grandchildren and one great-grandchild.

The Rev. Harry Vanderpool will officiate at the services and burial will be in Fairview Cemetery, under the direction of the Duenkel Funeral Home.

2 THE PAMPA DAILY NEWS WEDNESDAY, JULY 7, 1965 58TH YEAR

## Dear Abby.... Time Has Come To Make Your Choice

DEAR ABBY: I am a 31-year-old woman who has been divorced five years. I have two children. We live with my parents as my mother is always at home, which makes it convenient for me to work. Besides, if I had my own place it would put a strain on my budget, and my job requires that I dress well and own my own car. I do pay room and board, however.

All my life my father has been domineering, unreasonable and very narrow-minded. Even my mother has never dared to cross him. If I am not in by 12 o'clock he goes out looking for me. He has burst into places, insulted my escort, and has literally dragged me home with him. My friends have all been respectable, but after such a scene, they never call again.

I can't want to move out as it is so very comfortable and convenient having Mother to look after my children, and I do all the laundry and cooking and cleaning. But I can't live like this, either. What would you do if you were in my shoes?

DEAR ABBY: What do you say to a person who asks a lot of very personal questions in a crowd? This woman said to me, "It's funny that you've been married almost four years and don't have any children. Don't you want any? Or can't you have any?"

NO NERVE  
DEAR NO NERVE: The neck will inherit a lot of earthy questions. Muster the courage to tell her that it is none of her business.

Problems? Write to Abby, Box 69700, Los Angeles, Calif. For a personal reply, enclose a stamped, self-addressed envelope.

Hate to write letters? Send one dollar to Abby, Box 69700, Los Angeles, Calif. for Abby's booklet, "How To Write Letters For All Occasions."

WANTS FREEDOM  
DEAR WANTS: Which do you want more? The convenience of a live-in cook, cleaning woman and 24-hour baby sitting service? Or the right to live your own life? Obviously, you can't have both. If I were in your shoes, I would prefer the latter. And the longer you wait, the more difficult the break will be.

DEAR ABBY: I suspected that my husband was running around with a certain girl so I had him tailed by a private detective. They followed him to a motel where he checked in with this girl. They stayed only 32 minutes and then left. Do you think he could be guilty of wrongdoing?

HIS WIFE  
DEAR WIFE: You're his wife; I'll ask you. Could he?

DEAR ABBY: In a club initiation recently I had to shoplift a pair of shoes. I did this easily at a self-service shoe mart by taking a new pair of shoes and replacing them with an old pair I wore in. I didn't feel guilty while I was doing it, but I do now. I wanted to get in to this club at all costs because all the cool kids belong. What should I do?

FEELING GUILTY  
DEAR FEELING: Return the stolen shoes to the manager of

## Linen Knits Are Summer Hits

SUMMER HITS—There's an exciting summer fashion story in new linen knits. These handsome knits are being made by many of America's leading knitwear manufacturers in pure linen or linen combined with silk, wool, Arnel or rayon. Appliqued flowers bloom on the fresh, young two-piece knit (left). Herdman's Irish linen, Arnel and wool were used in a closely textured stitch. Background is white; flowers in soft pastels. It is a Gold-worm design. In one-piece sheath (right) by Madiera the same linen, mixed with silk, gives the effect of tussah. The random stripes are in beige and black.

## Gardening News

By THELMA BRAY

Such a wide variety of blooms can be enjoyed in the gardens now. The Phlox, Daisies, Cushion Mums, Hollyhocks, Lilies, Roses, Petunias, Delphinium, Alyssum, Geraniums, Zinnias, Salvia, Gloriosa Daisies, Shrub Alliea, and the Golden Rain Tree are now blooming.

The National Audubon Society's Nature Program booklet has the following bit of interesting information on the daisy: "The daisy is a cousin of those high chrysanthemums which, in autumn, crowd the florists' windows with their shaggy yellow, white or crimson heads. Like them, it reached us many years ago from the Far East. But there was this great difference in the way the two plants traveled. The showy chrysanthemums arrived as honored guests. But the daisies sneaked in as best they could, probably as seed stowaways aboard some freighter. It was really a case of one branch of the family being aristocrats and another branch plain tramps. And some of us, at least, think that the tramps look neater than their relatives."

Bindweed is getting a good start in several places around Pampa. It has been seen on some of the school grounds, near the library and across the street near the news office. It is a low growing vine with white and pink blooms. Some people water and care for the bindweed, not realizing the problems involved. The County Agent's office has information on control of the bindweed.

The black aphids are doing quite a bit of damage now. Certain insects play a part in keeping down aphids. Among these are the lady beetle or ladybug, which is capable of consuming a great many aphids, and a parasitic wasp.

Our helpful insects seem scarce these days, possibly because of all the spraying that has been done. In a search of the garden for the Ladybugs, Praying Mantis and other helpful insects, they could not be found.

The book "Green Medicine," written by Margaret Kreig, focuses attention upon the exciting investigation of the vegetable kingdom for new sources of botanical drugs. Since this book might be of interest to gardeners, the following paragraph is quoted: "Current research is turning up medicinal properties in everything from lettuce, used by the ancients as a sedative, to apples and onions. A quick sampling to indicate the scope of these investigations shows that: compounds from daffodils may prove effective in treating myasthenia gravis and multiple sclerosis; a neuroactive factor in the perennial sweet pea is now being tested on animals; an extract from lady slipper has been found to exert an effect on high blood pressure; derivatives from the common snow-drops relieve some glaucoma patients not responding to other medication; buttercup juice stops the growth of step, staph, pneumococci, anthrax, and tuberculosis germs, and that of quivering anemones has similar bactericidal qualities. Research of Agriculture, in England, and elsewhere has proved that antibiotic properties exist in so

## Sgt. McNeill Gives HD Club Program

GROOM (Spl) — Country Neighbors Home Demonstration Club met recently in the home of Mrs. Guy Blackwell with Mrs. Manuel Rutherford and Mrs. George Latta serving as co-hostesses.

Sgt. Cecil McNeill of the Texas Department of Public Safety gave the program.

Mrs. J. W. Hermesmeier conducted the business meeting. The club voted to serve refreshments for the St. Ann's Home in September and to help the 4-H Dress Revue on July 15.

Attending were guests Sgt. McNeill, Mrs. Edith Hughes, county agent, Lisa Currie, Lanna and Guy Lynn Blackwell, guests and members, Mmes. Robert Kuehler, Guy Blackwell, Glynn D. Harrell, Dan Ashford, R. A. Snyder, W. H. Ollinger, J. A. Quirk, Mary Kuehler, Charley Hermesmeier and Jim Hermesmeier.

Mrs. W. H. Ollinger received the hostess gift.

Next meeting of the club will be Aug. 25 at the home of Mrs. Robert Kuehler with Mrs. Charley Hermesmeier as co-hostesses. The program will be on "Poisons, Harmless and Deadly."

## OH, MY ACHING BACK

Now! You can often get the fast relief you need from nagging backache, headache and muscular aches and pains that may cause restless nights and miserable tired-out feelings. When these discomforts fade on with near-instant relief, you'll know you've found the relief you need. It's fast! Doan's Pills by their speed-relieving action work promptly to ease torment of nagging backache, headache and muscular aches and pains.

Also, when mild bladder irritation follows unwise eating or drinking—often setting up a restless, uncomfortable feeling—Doan's Pills work in two ways for comforting relief: 1) their soothing effect on bladder irritation; 2) Doan's mild diuretic action through the kidneys tending to increase output of the 15 miles of kidney tubes.

Enjoy a good night's sleep and the same happy relief millions have for over 60 years. For convenience ask for Doan's large size. Get Doan's Pills today!

## George H. Clarks Entertain Friends

GROOM (Spl) — Mr. and Mrs. George H. Clark entertained with a pot-luck supper and 42 party at their home Saturday evening.

Those attending were Messrs. and Mmes. Joe Bladeney, Kenneth Hunt, John Brooks, Bud Brown, Dan Ashford, Jerry Thornton, M. B. Bolden, Billy Jones and Page Blackwell.

## Astrological Forecast

By CARROLL RIGHTER

FOR THURSDAY, JULY 7  
GENERAL TENDENCIES: Make sure that you do get busy and put into motion the plans that you have already decided are the ones that can catapult you forward with the greatest of speed, but at the same time avoid doing so in a manner in which you would arouse opposition from others because you are so intent on getting your own way.

ARIES (Mar. 21 to Apr. 19) — Putting government, business and personal matters in final order, possible should keep you properly occupied today. Play your hunches. This helps to bring you closer to your goals.

Taurus (Apr. 20 to May 20) — If you show a co-operative attitude toward others, you wind up taking with associates et al most successfully. Make new and more binding contracts, study all very well.

GEMINI (May 21 to June 21) — If you get right into the work facing you and are efficient, you make right impression on high-ups. Co-workers will also be pleased. Advancement then comes more quickly, security increases.

Get right into the new outlets that are so interesting and do such an excellent job that others are highly pleased. For get, too in p.m. and be quietly happy. Drive into some hobby you like.

LEO (July 22 to Aug. 23) — Give your support to those you admire, instead of driving into some hobby you like. Being very devoted to kin will also get their affection instead of resentment. Be kind.

VIRGO (Aug. 24 to Sept. 23) — You are thinking very clearly and can put across some idea that is very important to you. Good friends can give fine suggestions, if asked. Get ahead quickly.

LINNA (Sept. 24 to Oct. 23) — Con-

centrating upon how to have a greater abundance and spend less is wise at this time. Get a better budget set up. Alot yourself more money for recreation in the future.

SCORPIO (Oct. 24 to Nov. 23) — Knowing what it is that you most want in the days ahead is half the battle in attaining your aims. You are very charming, now. Others quickly assist you to get ahead.

SAGITTARIUS (Nov. 24 to Dec. 23) — Setting a new and better course for the future will prepare you for advancement. Be sure you consult with experts. They show you shortcuts of which you are not now cognizant.

CAPRICORN (Dec. 24 to Jan. 20) — Get out of that shell and cruise about socially where wonderful things can happen for you. Find new friends, partners can be made. Show that you have taste, charm, brains.

AQUARIUS (Jan. 21 to Feb. 19) — Giving more attention to the conventional and gracious things of life is best way to get approval of bigwigs. Follow rules that apply to you. Be charming in your speech.

PISCES (Feb. 20 to Mar. 20) — Contacting those far from your place of business brings the right ideas, results at this time. Increase benefits. Find success via different backgrounds, cultures.

# Sooner Town Sporting New Quarter Horse Track

**GREER DOWNS**, Mangum, Okla. (Sp1) — Oklahoma's newest American Quarter Horse Association approved race track officially opens at 1:00 p. m. July 10.

The operations of this track is directed by the 13-man Board of Directors of Greer Downs, Inc. The stockholders of this corporation are horsemen of the area and residents and business people of the city of Mangum, Oklahoma.

The track, located three-fourth of a mile northwest of Mangum, has a 440 yard plus-straightaway and a three-fourth mile oval, which gives a total distance, from the starting gate to the finish line, of approximately 1 and one-eighth miles.

The top soil of this track has been thoroughly impregnated with sand, which tends to make it a fast track while still offering a cushion, which is easy on the young horse's legs and hoofs.

The grandstand, with seating for approximately 1,000 people, and the concession stands are nearing completion, and work is underway on the photofinish tower Judges' stand, saddling paddocks, track railing, and 68 stable stalls have already been completed. Over 40 of these stalls have already been rented.

Plans call for erection of at least four more (40 stall barns) in the near future. The track is equipped with the latest innovations in an 8-horse electrically-operated starting gate.

Condition sheets have been mailed to interested horse owners. Al Shotts, track manager, invites inquiries from all people interested in entering horses in these races. Racing breeds include quarter, horses, aint stock, appaloosa, and thoroughbreds. Information may be had by addressing inquiries to Greer Downs, P. O. Box 489, Mangum, or you may call Al Shotts at CHerry 3-5400. (area code-405), Mangum.

The opening card on July 10 will feature at least twelve approved races over varied distances. A feature attraction for that date will be a Dinner Bell Derby Race.

General admission will be \$1.00 for adults and 75 cents for children, ages 6 to 12.

The preceding day, July 9, is the date of the 34th annual Old Greer County Pioneer Reunion and Rodeo. To help with this promotion, the show windows of the retail merchants of the city are displaying items peculiar to the day of these pioneers. Almost every type of antique such as clothing, kitchen utensils, tools, music instruments, and machinery, as well as old time photos and newspapers will be found in these displays. In addition to this, most of the windows of the vacant stores have been drafted for the displaying of art works by local artists and several windows will be depicting hobby and coin collections. A great many of the local residents will dress in the clothing of the old west and pioneer times.

The Pioneer Reunion, to be held on the courthouse square, offers a full day of unusual entertainment such as Seymour Davis and his baffling and amusing feats of magic, Old Fiddlers, Contest, horse shoe tournament, terrapin race, and grease pig catch, etc.

There will be a gala-parade, composed of floats, bands, saddle clubs, at 4:30 in the afternoon. Louis Tittle, one of Mangum's most distinguished citizens, will be the Parade Marshal for this gala-parade through downtown Mangum. The honored guests of this parade will be Col. C. E. Choteau and his wife. Col. C. E. Choteau is a descendent of the first white family to settle in what is now Oklahoma.

The Old Greer County Annual Rodeo will be in Mangum's Liberty Bowl arena at 8:00 p. m. There will be a second participation of this rodeo event at 8:00 p. m. Saturday evening at the Liberty Bowl arena.

## Business Highlights

**By United Press International**  
**DETROIT** — When final figures on auto sales for June are in they may set a record for any month in the industry's history — well over 800,000 as compared with 675,000 in June, 1964.

**NEW YORK** — The National Association of Protesting Agents says general business activity increased somewhat more slowly in June than in the earlier months of this year. New orders fell sharply in June from those in May.

**LONDON** — Sterling area reserves of gold and convertible currencies dropped by \$67.2 million in June, according to the British Treasury. It also was learned that two large British realty investment concerns are cutting back on their joint venture activities with American firms in huge urban development projects in the United States.

**WASHINGTON** — Vitro Corp. announced the receipt of a \$15,929,496 Navy contract for engineering services on Polaris missile systems.

The contract calls for continuation of Vitro's system coordination engineering, testing, and fleet support work.

**HAGERSTOWN, Md.** — Fairchild Hiller Corp. announced the expansion of its propjet transport aircraft manufacturing program and the start of production of its turbo porter, a new single-engine short-field aircraft.

Fairchild also said negotiations for the sale of ten F27J transports to Allegheny Airlines are in the final stages.

**MAKING RECOVERY**  
**DUBLIN, Ireland (UPI)** — President Eamon De Valera, 82, continued to make satisfactory progress in his recovery from a hernia operation, a medical bulletin said De Valera spent a "good night."

**French Ambassador to Common Market Headquarters Called Back to Paris by De Gaulle**  
**BRUSSELS (UPI)** — France's ambassador to Common Market headquarters here has been recalled to Paris, a French spokesman said Tuesday.

It was not certain immediately whether Jean-Marc Boegner's withdrawal from Brussels would be permanent.

President Charles de Gaulle's withdrawal of other French officials from the Common Market setup Monday in a farm-price dispute brought the six nation group to the verge of collapse.

Walter Hallstein, chairman of the Common Market executive committee, hastened to Bonn today on the first stage of a round of crisis meetings with West German and Italian officials.

**CRITICAL CONDITION**  
**TE LAVIV, Israel (UPI)** — The newspaper Lamerhav said Tuesday former Premier Moshe Sharatt, 71-year-old chairman of the Jewish agency, is in "critical condition." It gave no further details.

# U.S.'s No. 1 Spaceport Is Busier Than Ever

By AL ROSSITER JR. CAPE KENNEDY (UPI) — America's No. 1 spaceport is bigger and busier than ever. It has the world's largest building, a huge crawler that runs on a road as wide as an eight-lane expressway, a massive launch complex built in the middle of a lagoon and a 26,000-man work force.

And it still has the launch pads that made its name a household term back in the 1950's and early 1960's when the United States was racing to build a strategic missile force. Times have changed. The cape's job is no longer just to develop military missiles, although some are still being test fired.

It is now a base for space exploration, a launch site for America's manned and unmanned space shots.

And the biggest job of all is preparing for Project Apollo, the \$20 billion program started by President Kennedy in 1961. Its goal is to land two men on the moon before 1970.

To do it, the National Aeronautics and Space Administration (NASA) is building a huge moonport on an 88,000-acre tract on Merritt Island, west of the main missile launch area on Cape Kennedy proper. The estimated cost: \$1 billion.

**Massive Structure**  
Most impressive structure at the space center is the huge Vehicle Assembly Building, VAB for short, that will house the 364-foot Saturn-5 moon rockets while they are being assembled for launch.

This Goliath is so big that if its air conditioning system breaks down, clouds could form inside and rain could fall. The building is 52 stories tall, 716 feet long and 518 feet wide. Adjoining it is the "block house" of the Apollo program—a four-story control center larger than a football field.

The VAB will do away with the present method of assembling rockets stage by stage on the launching pad and keeping them there for weeks or even months during extensive check out periods.

NASA plans to put the towering, 7.5-million pound thrust Saturn-5's together in the VAB on mobile launchers that themselves are massive pieces of equipment.

The launchers will be moved about by a turtle-like crawler larger than a baseball diamond. One of the monstrous \$2 million machines is now undergoing tests and the second is under construction.

**Major Moving Job**  
As envisioned by Apollo planners, the Saturn-5 rockets and their three-man moonships will be assembled on the launcher in the VAB in about three months. Three can be put together at one time in the huge building.

Then, when a Saturn-5 is ready, it will be moved to one of two launch pads three miles away.

The moving job is up to one of the crawlers. It will edge beneath the launcher and then lift it and the mighty rocket — A 6,250-ton load — on its back and creep toward the launch site at 1 mile per hour along a spe-

cially prepared roadway. "You have to look down at the ground to make sure you're still moving," said Gunther Lehmann, an engineer who drove the crawler during recent tests. The machine moves on eight caterpillar treads. It has a special system of hydraulic jacks to keep its Saturn-5 rocket balanced almost perfectly upright during the trip to the pad.

After five to 10 days of final tests, fueling and launch preparations, the mighty rocket and its Apollo moonship will be ready for blastoff.

**Space City Built**  
The space agency's moon rocket complex does not stop with the Saturn-5 assembly building or launch site.

Five miles to the south, a small space city has been created to handle the administrative and engineering duties linked to Project Apollo and the Gemini two-man spaceflight program now under way.

Construction and expansion also continues at the missile area on the cape itself.

One Saturn launch pad is being modified to handle the Saturn-1B super boosters that will start orbiting three-man Apollo ships in 1967. The first Saturn-1B test flight is now set for early next year.

Another complex, which had been used for flight tests of the Titan-2 Intercontinental Ballistic Missile (ICBM), is now being reworked for tests of the Apollo moonship's rocket engines.

## Foreign News Commentary

By PHIL NEWSOM  
UPI Foreign News Analyst  
Ever since the Soviets fired Nikita S. Khrushchev from his job last October, the external picture of the Soviet Union has been one of painful reassessment.

The comparatively mild Russian reaction to United States action in South Viet Nam is attributed to indecision, to a desire to avoid action which would enhance the reputation and power of Red China and to an equal desire somehow to maintain Moscow's position as a hard-line leader against the capitalistic West.

New pressures against the allied position in Berlin, it has been suggested, may be the answer.

The picture as it emerges from inside the Soviet Union also suggests indecision in meeting problems which are mammoth.

This, it is said, was to have been expected because the men who took over Khrushchev's dual role as premier and party leader are technicians who think before they speak.

The Soviet Press itself provides clues to some of the problems unheard of in Stalin's day.

For example, it long has been axiomatic that unemployment is impossible in a Communist state.

### Lack Of Jobs

Yet it is disclosed that in the Soviet Union the lack of jobs for young people is becoming a major problem. It is a problem which began to plague Communist Poland much earlier.

In Poland it is estimated that up to 250,000 young males between the ages of 15 and 19 are unemployed. It has led the Poles to encourage workers into service organizations, tailor shops for example, or into restaurants. In Communist states for many years service jobs have been regarded as among the lowest.

Measures similar to those in Poland are being considered by the Soviets.

In both countries, unemployment among the young is accompanied by a shortage of skilled workers capable of competing with automation.

Both countries complain of a general exodus of farm youths toward cities ill-prepared either to give them jobs or house them.

As regards farm youth, there also are complaints about the educational system.

**Seek Higher Education**  
More than 80 per cent of the children of white collar workers go on to higher education. Among farm children, only 10 per cent go past high school.

Ex-Champs Testify  
Boxing Is Sicker

WASHINGTON (UPI)—Fight fans on the House Commerce Committee agreed today that boxing is flat on its back. But they disagreed on whether it's Uncle Sam's responsibility to get the game back on its feet. As the committee inquiry went into its second round Chairman Oren E. Harris, D-Ark., said there is a serious question how far the government can or should go in correcting the evils which a battery of ex-champs said Tuesday were about to count boxing out.

Final Instructions For State Meet

All Pampa Jaycee track team members are to meet at the Pampa High School parking lot at 12:30 p. m. tomorrow. The bus will leave as soon as all baggage is packed. Youngsters are advised to keep baggage to a minimum, and may dress comfortably for the trip up. No stop will be made on the way for meals, everyone should bring a sack lunch. Contestants should bring their own pocket money for soft drinks, etc. Boys should bring their own shorts—in case of size problems, and all contestants should bring their own track shoes, socks and equipment.

Nat Fleischer, boxing historian and editor of Ring magazine; Cus D'Amato, who was manager of Floyd Patterson during part of his reign as heavyweight titleholder, and the chairman of the New York Athletic and Colorado Boxing commissioners were on today's witness card.

Jack Dempsey, Rocky Marciano and Gene Tunney—the latter through his son—John, a freshman member of Congress—Tuesday pictured the recent Liston-Clay fight in Lewiston, Maine, as symptomatic of a sick sport growing steadily sicker. They blamed diverse state laws and haphazard standards. Committee members seemed to agree that the golden era of boxing ended some years ago. One put the start of the decline at about the time Marciano retired undefeated in 1955 after four years as heavyweight champ.

Schayes Gets Two-Year Pact

PHILADELPHIA (UPI)—Dolph Schayes, coach of the Philadelphia 76ers of the National Basketball Association for the past two years, signed a new one year contract Tuesday for the 1965-66 season. His original two year contract expired at the end of last season. He had asked for a new one-year contract, and reportedly received a salary boost. Schayes, an all-time NBA great as a player, became the team's coach when it was transferred here from Syracuse in 1963. It finished third during his two seasons. The 76ers upset Cincinnati in the playoffs last spring and took the championship Boston Celtics to the full seven games in their playoff before losing the deciding game 110-109 in the final second.

RADCLIFF — Front row, left to right: Kelly Everson, Jimmy Keel, Doyle Snell, Philip Schaub. Second row: Darrell Snell, Cameron Cunningham, Jimmy Pepper, Jim Corley. Top row: Jack Robinson, Johnny Johnson, Dwain Glover, Robert Morris, coach Dale Everson. Not shown: Steve Hughes, Wade Hutchison, Stan Franke, Lynn Green.

Bob Buhl Asks To Be Traded

NEW YORK (UPI)—"Trade me or treat me honestly" was the challenge hurled today by pitcher Bob Buhl at head Coach Lou Klein and the Chicago Cubs. "If you don't get a chance to win a game, why bother starting it?" asked Buhl, who last Sunday was yanked with two out in the fifth inning in a game against the San Francisco Giants. "I'll still be here and pitch," he added when advised of Klein's reaction. "I'll still give my best. That's the way I'm built."

Clarke Whips Kenya Nemesis

STOCKHOLM, Sweden (UPI)—Australian distance ace Ron Clarke had to be satisfied with his "old" world record for 5,000 meters today but he had at least one consolation for his failure to crack that mark Tuesday night. Clarke missed his one-month-old standard of 13:25.8 by six-tenths of a second in an Olympic Stadium race. He did, however, defeat nemesis Kipchoge Keino of Kenya, who had whipped the Aussie twice in a little Finland during recent weeks.

Sports Parade

By MILTON RICHMAN, UPI Sports Writer. ROAD RACING differs from track racing such as the famed Indianapolis 500 in that it simulates actual driving conditions. That means road racers go uphill and downhill and have to make right and left turns, while in track racing the drivers are called upon to make only left turns. Moreover, road racing has mushroomed in popularity to such an extent that manufacturers, such as Robert Bosch, give drivers like Hall and Sharp \$10,000 just to use their products in their car. RAIN DELAYS. MILWAUKEE (UPI)—Clark Graebner and Kathy Harter had little trouble knocking off their opponents in the Western Open tennis tournament Tuesday, before rain delayed until today opening matches for top seeded Dennis Ralston and Nancy Richey. Ralston, Bakersfield, Calif., and Miss Richey, Dallas, are the top rated man and woman amateur players in the nation, and were favored to win in the 80th annual Western. The meet is expected to weigh heavily in selecting members for the next match of the U.S. Davis Cup team. Graebner, Beachwood, Ohio, and Miss Harter, Seal Beach, Calif., seeded fifth among the men and fourth among the women, respectively, were the highest seeded players in action Tuesday. Graebner defeated Dave McCormick, Canada, 6-1, 6-4, and Miss Harter took Sue Schrader, Sacramento, Calif., 6-3, 6-1.

Lou Brock Lifting Cards Toward Top of Standings

By United Press International. Lou Brock once again is giving the St. Louis Cardinals a lift toward the top of the National League standings and this hitch, like the one he provided last year, may prove to be a joyride. The fleet outfielder picked up the Cards last season at the eighth-place mark and dropped them off at the pennant with a spectacular one-man offensive barrage after coming over from the Chicago Cubs in June. And the 26-year-old Brock appears to be going out of his way once again to see that the world champions arrive at their proper destination. Brock, who batted .348 for the Cards down the stretch in 1964, suddenly has broken loose since the advent of summer and St. Louis has been on the rise. Over the last 13 games, Brock has been hitting at a sizzling .385 pace, stolen eight bases and boosted the club to nine victories. GAIN ON LEADERS. During that stretch the Cards have risen from eighth 12 games off the pace to a challenging seventh only seven games behind the league-leading Los Angeles Dodgers. Brock continued his improved play by stroking three hits, scoring two runs, driving in another and stealing his 35th base Tuesday night while St. Louis edged the San Francisco Giants 3-2 for its seventh consecutive triumph. The Dodgers moved back into first by winning an 11-7 slugfest over the Cincinnati Reds and the Pittsburgh Pirates, scuttled the Philadelphia Phillies 8-4 in the only other National League action. Houston at Milwaukee was postponed by wet grounds and the Cubs and Mets were not scheduled. Brock's three safeties accounted for half the total the Redbirds collected off Juan Marichal, the major-league's winningest righthander who suffered his seventh defeat in 20 decisions. And the native of El Dorado, Ark., figured in every one of the Cards' runs. Curt Simmons gained credit for the victory—his fifth—although he needed relief help from Don Dennis and Hal Woodeshick, who have given the St. Louis bullpen a touch of respectability. A crowd of 31,229, the largest of the season at Busch Stadium, watched the Cards make it two straight over the Giants. Don Drysdale gained his 12th victory for the Dodgers and contributed to their 17-hit attack with his fourth home run, but the side-wheeling star was raked for six runs and 10 hits before he departed in the seventh. Frank Robinson and Gordy Coleman slammed consecutive homers in the seventh off "Big D", who ended a personal five-game losing streak. Don Cardwell of the Pirates beat his former teammates for the ninth time and drove in two runs in Pittsburgh's triumph.

# Good Progress Being Made on Soil Survey

I recently received from H. N. (Red) Smith, the State Conservationist who directs activities of the Soil Conservation Service in Texas, a report on the progress being made in the 18th District toward completing soil surveys. These surveys constitute detailed physical inventories of soil conditions, showing depth, structure, drainage, stoniness, slope, erosion, and the other features of each kind of soil that determine its use and capability. Soil surveys are carried out on a nationally coordinated basis in cooperation with other Federal agencies, the State agricultural experiment stations, other State agencies, county governments and a number of local organizations.

I'm glad to say that good progress is being made. In four of the 28 counties of the 18th District the mapping has been completed and the surveys published. In six other counties, the work is completed and publication should follow shortly. Work in other counties is in varying stages.

With each county listed alphabetically, and with the percentage of land area mapped and a target date for completion indicated for each county, the situation in the District is as follows: Armstrong, 100 per cent, published; Briscoe, 50 per cent, 1970; Carson, 100 per cent, published; Castro, 50 per cent, 1967; Childress, 100 per cent, published; Collingsworth, 100 per cent, complete; Cottle, 32 per cent, 1966; Dallam, 44 per cent, 1967; Deaf Smith, 100 per cent, complete; Donley, 14 per cent, 1968; Gray, 100 per cent, complete; Hansford, 100 per cent, published; Hartley, 23 per cent, 1972; Hemphill, 100 per cent, complete; Hutchinson, 16 per cent, 1972; Lipscomb, 39 per cent, 1968; Moore, 53 per cent, 1968; Motley, 14 per cent, 1969; Ochiltree, 100 per cent, complete; Odham, 33 per cent, 1971; Parker, 26 per cent, 1969; Potter, 2 per cent, indefinite; Randall, 99 per cent, 1965; Roberts, 20 per cent, 1973; Sherman, 0 per cent, indefinite; Swisher, 34 per cent, 1966; and Wheeler, 40 per cent, 1967.

The primary purpose of the soil surveys is to make available to landowners and farm and ranch operators the facts on which to guide development of basic conservation plans. With a soil map and its interpretation, plus related information, a technician of the Soil Conservation Service is able to provide farmers and ranchers with proper planning assistance. Although soil surveys are being used mainly in developing and managing farm and forest lands, they provide information for other purposes. County and community planning officials use

soil survey information to help locate areas that are suitable for housing, schools, shopping centers, roads, parking lots, industry, parks, and recreational areas. Bankers, insurance officials, and loan companies find soil surveys helpful in determining the soundness of proposed investments in land. Engineers use soil surveys in locating and designing highways, airports, sewers, pipelines, buildings, and other structures.

In past years, a number of attempts have been made to reduce funds available for soil conservation programs, including soil surveys. I have always supported proper appropriations for soil conservation work, recognizing the great work done over the years in the Texas Panhandle, and have on several occasions helped lead fights to restore threatened cuts in appropriations. It now appears that the SCS appropriation for Fiscal Year 1966 will provide approximately the same amount of money as was available for the program in 1965. Many of us have been concerned because a \$20 million cut was threatened under legislation to be offered increasing the extent of financial participation by cooperating soil conservation districts, landowners, and operators. However, this legislation has not as yet been submitted to the Congress and its fate, when it is submitted, is very much uncertain. Certainly we can ill-afford to handicap the soil conservation movement. Our treasured soil resources must be preserved.

The soil, water, range, and forest resources of the country are basic in the structure of our national economy. From that base comes our food; the bulk of our water supply for agricultural and municipal and industrial purposes; most of our clothing, paper, and other fiber; much of our shelter. In our growing nation, this most vital economic base must be protected and enhanced.

Recent Visitors: Mr. and Mrs. A. M. Hilburn, Kenneth Farmer, Howard Lynch, M. N. Skadshelm, and the Rev. Robert Metzger of Amarillo; T. A. L. Landers of McLean; and Mr. and Mrs. Howard Graham of Pampa.

RETREADS ON SOUND TIRE BODIES OR ON YOUR OWN TIRES

Same tread quality... Same tread design... Same tread width... Same tread depth... as the

**FIRESTONE ORIGINAL EQUIPMENT TIRES** that came on 1961 thru 1964 new cars!

**NATIONWIDE GUARANTEE**

honored by thousands of Firestone dealers and stores throughout the United States... wherever you travel.

Our retreads, identified by medallion and shop mark, carry this **DOUBLE GUARANTEE**

1. Against defects in workmanship and materials during the life of the tread.
2. Against all normal road hazards encountered in everyday passenger car use for 12 MONTHS. Replacements are pro-rated on tread wear and based on current Firestone retail price at time of adjustment.

**STORE HOURS DAILY 8 A.M. TO 6 P.M. THURSDAY: 8 A.M. TO 9 P.M.**

**Firestone** 120 N. Gray MO 4-8419
