## Boy Scouting Benefits Are Priceless; But Your Dollars Help

EDITOR'S NOTE, ... This is the first in a series of articles telling the story of participating agencies in the Pampa-Lefors United Fund campaign. Each story will be written by the head or director of each agency.

By JOHN BREWER

Scout Executive The question posed everytime a church, civic club, or other group of persons is asked to sponsor a Cub Scout Pack, Boy Scout Troop, or an Explorer Post is: What does a community gain from assisting the program of the Boy Scouts of

America? What do they receive from it?

The tangible benefits of Scouting cannot be put into a dollar and cents category, but they are measurable as indicated by

the following observations of a

Scoutmaster I once knew. George had a deep empathy for the boys he served and a sincere belief in the program of the Boy Scouts of America. One day I asked him if he thought the Scouting program

helped boys, "I remember those eager and enthusiastic Cub Scouts who

the little ones, the fat ones, the smart alecs, the timid and shy ones. And, those who had never been Cubs came in the same categories.

"They came to their first Scout meeting. . . a whole remember the timid way their hands met mine in the first Scout handshake.

'They eagerly passed Tenderfoot requirements. They were even better at tying knots than some of the older Scouts and they were quick to know the Scout Oath and Law.

"How hard they tried to measure up to being like the Senior Patrol Leader. On a hike, they were out in front all the way because they wanted to be sure to keep up, but they made so much noise they missed the chance of seeing nature as it really exists.

"All of a sudden we were holding a Troop Court of Honor, and here these Scouts are, old enough to be Explorers. As they come forward for the last handshake as members of the Troop, I saw the timid, shy little Cub Scout, He is our Senior Patrol Leader, well on his way to Eagle rank and also working for the God and Country Award

"He is no longer timid, shy, or little. In fact, he is bigger than I am. He has become a real leader, running the meetings, offering suggestions to patrol leaders, and helping and encouraging the new Scouts. It did not happen overnight. It took a little time. But I recall the changes as they took place. He is a leader in his church and school,

"Ah . here is the smart alec. . . .a Patrol Leader now working for his God and Country, and a Star Scout. He took more patience at times than I ever thought I had, but gradually the meaning of the Scout Oath and Law got through to him. His patrol is the best in the troop. can be sure his patrol will finish an assigned job, be it for

fun or for service "Yes, I remember how they struggled to build their first cooking fire in the wind and rain. .the noise they used to make after taps had sounded on overnight campouts. . . . those sloppy bandages they used to tie in first aid training, and

I thought they would never learn what to do for shock.

"The toys they exchanged at Christmas-time, they would rather have played with, but cheerfully put them in the basket for a needy family along with some food they had gathered. They didn't like pulling weeds from the flower beds at the church, but they did it,

A Watchful Newspaper

EVER STRIVING FOR THE TOP O' TEXAS TO BE AN EVEN BEITER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

The U.S. taxpayer picked up the tab for the remaining \$25 million. (World

Almanac, 1965, page 141.) The fact is that the entire Soviet bloc is so weak that in February, 1962, the Stanford Research Institute reported to the U.S. Office of Emergency Planning as follows:

"In any realistic accounting, the economic affairs of the bloc are in acute disorder, as the desperate food shortage in China suggests. Similar shortages exist in Poland, Czechoslovakia, and East Germany. Khrushchev's problem in the USSR has been clear for a long time; food is the bloc's Achilles heel." (Congressional Record, Oct.

There is the vaunted economis, vastly over-rated. But for periodic economic handouts from the U.S. and stealing from their victims, the poor rats had hanged themselves.

And what about scientific progress? Throughout modern history, fertile and rigorous minds have risen within the borders of the Soviet Union. commands those minds to stage

THE VICE-PRESIDENTIAL NOMINATION, 1960

The propriety of those closely Convention has been questioned, I shall not comment upon their ethics in publicizing what they believed to be their part in the Vice-Presidential One of them now offers a different version of the Kennedy-Johnson affiliation than he wrote

A young man who had worked in the campaign occupied a room in my Los Angeles hotel suite. January 12, 1961, UPI quoted him regarding my activities in connection with the Vice-Presidential nomination. Because the incoming administration was only getting organized, I felt that this publicity was unfortunate and could result in dissension, and I made a statement to discourage further discussion of his story.

In reading the "insiders' reports" it was apparent they had 'come into the act" many hours made between Kennedy and Johnson and had only partici-

The principals needed to satisfy divergent segments of the party before the announcement of the final selection of the Vice-Presidential nominee in order to keep minorities from attacking the selection from the convention floor.

Many astute party members were aware of the selection in the early morning following the nomination for President and, apparently unknown to these biographers, were properly active in consolidating the party before the formal nomination

They added 12-million tons to stockpiles as strike protection this year compared with 4.5 million tons in 1962 and 4.8 in 1963. The anticipated rapid liquidation of existing stockpiles isn't working out.

The basic reason for continued orders, Steel said, is that the steel consumption rate is much higher this year than in other contract years.

Also, this year's settlement came at a time when buying normally picks up. Other labor Fugate Printing continues as speed and accuracy with which raculous new Xerox 813, to be settlements have come just be-
