### IN FLOODED LOWLANDS

## Survivors Dread Hungry Wildlife

NEW ORLEANS (UPI)—Searchers, hopeful that most dead have been recovered, moved into flooded lowlands today to help survivors in a hurricane stricken area plagued by treacherous wildlife.

Facing the hazards of poisonous snakes, alligators and hunger — maddened dogs, search crews advanced into the delta south of here to aid the survivors of Hurricane Betsy, which has left 67 dead, including 56 in Louisiana alone.

Earlier reports that as many as 250 others in this area had

died in the storm proved false. New Orleans Coroner Dr. Nicholas Chetta said late Monday night.

He said he had contacted Plaquemines Parish Coroner James T. Reeves and Dist. Atty. Leander H. Perez Jr., and they had reported there were no more than 20 hurricane victims there.

**Happy News**

"We are happy it did not come out that way," Perez told Chetta.

Communications facilities were slowly being restored

throughout the entire area. The storm's 125 mile per hour winds slashed inland from the Gulf of Mexico Thursday night, and worked its way north through Louisiana into Arkansas before disintegrating.

Transportation was almost normal with trains and buses running just about on schedule. Trucks and automobiles moved without difficulty and only a few storm damaged service stations remained closed.

Damage to the rice, sugar and cotton crops in Louisiana was extensive. Hurricane Hilda caused \$40 million damage last year, and the toll this time was expected to be higher.

At Baton Rouge, the search continued for a barge which sank in the Mississippi during the storm with a cargo of 600 tons of chlorine. The army rushed more than 100,000 gas masks to the city in the unlikely event the chlorine tanks ruptured releasing a deadly gas.

**Search Continues**

The big problem was to find the barge lying on the bottom of the muddy river. Officials estimated as many as 200 barges and tugs went to the bottom on the 70 mile stretch of river between New Orleans and Baton Rouge.

The Louisiana Office of Economic Opportunity announced that emergency Neighborhood Youth Corps programs costing as much as \$1 million would be set up to clear away debris from the storm.

Officials expected to hire from 2,000 to 4,000 young men and women between the ages of 16 and 21 at \$1.25 per hour. The youths would work with local authorities.

Insurance companies were swamped with damage claims, with more to come. State Insurance Commissioner Dudley Guglielmo said the claims probably would total more than \$300 million the biggest storm loss (See BETSY, Page 3)

## Citizen Water Study Urges Preparedness

**WATER STUDY GROUP REPORTS** — Travis Lively Sr., vice chairman of the Citizens' Water Advisory Committee, is shown here as he reported the committee's recommendations at today's meeting of the Pampa City Commission. The 5-page report and the 12-man group's conclusions are the result of three months of intensive probing into the many ramifications of Pampa's water supply needs for the future. In the photo, clockwise from Vice Chairman Lively, standing, are Public Works Director R. B. Cooke, Commissioner Roy Kay, Commissioner Clyde Carruth, City Engineer Harold Foreman, Commissioner M. McDaniel, Commissioner Hugh Burdette, City Secretary Stanley Chittenden, City Attorney Bob Gordon and seated center, Mayor Jim Nation.

### Increased Rate Is Opposed

Recommendations that Pampa's city commission should proceed at once to prepare plans and specifications for a filtration plant to handle the Canadian River Water supply was filed today by a Citizens Water Advisory Committee.

In the same report, the group advised against any increase in water rates to finance the program.

The 12-man committee, named in June by Mayor Jim Nation to help seek a solution to the complete text of the Citizens' Water Advisory Committee report and recommendations to the city commission will be found on Page 6 of today's News.

### MENTIONS U.S. TRIP

## Pope Paul VI Opens Final Council Session

VATICAN CITY (UPI)—Pope Paul VI opened the fourth and final session of the Ecumenical Council today with a new plea for world peace and the disclosure he had created a new Senate of Bishops to help govern the Roman Catholic Church.

Vatican sources said the pontiff will extend his stay in New York to at least two days and perhaps longer when he goes there next month to carry his world peace appeal to the United Nations.

The church senate, first in its history, is to be called an Episcopal Synod. It will be made up of high-ranking bishops from all parts of the world and would be called into session in the Vatican to help the Pope govern the church, particularly during times of decision on important questions.

Speaking in Latin to some 2,500 Catholic prelates gathered in the grandeur of St. Peter's Basilica, the pope mentioned his intended trip to New York. He said:

"And this we will do. Please God, during the present session of the council, absenting ourselves briefly in order to bring with respectful homage to the representatives of the nations there assembled a message of peace."

"We would like to believe that our message will have your unanimous support, for our only intention is that through us may be heard your voices."

Of the Ecumenical Council, now nearing completion after more than three years of work, the pontiff said:

"It does not seem difficult to visualize our Ecumenical Council with the characteristics of an act of love, of a great threefold act of love: For God, for the church, and for humanity."

Insurance companies were swamped with damage claims, with more to come. State Insurance Commissioner Dudley Guglielmo said the claims probably would total more than \$300 million the biggest storm loss (See BETSY, Page 3)

Peace efforts appeared to be faltering in New Delhi where Secretary General Thant was trying to win a cease-fire. After a 45-minute talk with Defense Minister Y. B. Chavan he postponed his scheduled departure for New York in an indication the talks had hit a snag. The government-owned all-India radio denied reports that had aimed for a cease-fire by today.

Soviet Communist party leader Leonid Brezhnev called again for peace between India and Pakistan, at a Kremlin reception today and it was apparent India was coming under strong pressure from Russia.

## India Claims Sialkot Win; Pakistan Makes Raids

India claimed a victory today in the battle for Sialkot, a major military base in West Pakistan. But aerial dogfights broke out near Calcutta and officials there said Indian and Pakistani artillery duelled across the border of India and East Pakistan.

Peace efforts appeared to be faltering in New Delhi where Secretary General Thant was trying to win a cease-fire. After a 45-minute talk with Defense Minister Y. B. Chavan he postponed his scheduled departure for New York in an indication the talks had hit a snag. The government-owned all-India radio denied reports that had aimed for a cease-fire by today.

**Freighter Blast Takes Four Lives**

MONTREAL (UPI)—At least four crewmen were believed killed early today in a thunderous explosion which rocked the freighter Fort William at its mooring in Montreal harbor.

Two other crewmen were hospitalized. The number of crewmen aboard the stricken ship was not immediately determined, police said.

The freighter, owned by Canada Steamship Lines, was quickly engulfed in flames following the mysterious blast, heard more than two miles away.

**Commission Gives Final Budget Nod**

Pampa's 1965-66 operating budget of \$1,477,975 was given final approval by the City Commission today and the city tax rate for the coming fiscal year was set at \$1.47.

The tax rate remains the same as the current year. The operating budget is up about \$12,000 over estimated operating costs for the 1964-65 fiscal year which will end Sept. 30.

The two ordinances adopting the budget and fixing the tax rate were approved unanimously as emergency legislation.

City Tax Assessor-Collector Aubrey Jones said tax notices for the upcoming year, based on total property valuation of \$46,168,720, are expected to be in the mail shortly.

Of the \$1.47 tax rate, \$1 goes into the general fund for operation (See BUDGET, Page 3)

## Commission Gives Final Budget Nod

The committee recommended that should the Citizens Finance Advisory Committee determine that a bond issue will be necessary to finance the filtration plant, the city should hold the bond election as soon as possible and get the funds authorized. (It is estimated that a filtration plant bond issue would amount to \$1,000,000.)

However, the Water Study Committee recommended that filtration plant bonds should not be sold until it is apparent that the city's water demand can no longer be met by the existing system of water wells.

Under today's circumstances, the committee stated, additional water should be acquired when the peak demand reaches 10 million gallons daily. (Highest peak demand so far under the present water system has been slightly in excess of 8 million gallons daily.)

In another recommendation, the study Committee stated it thought some source of revenue through some source of revenue should be provided to pay for the program other than from water revenue. The committee stated that, although finance was not the committee's function, its (See REPORT, Page 3)

## Informal Reception Planned for Teachers

The annual Reception honoring all teachers of the Pampa school system, with special emphasis on the new teachers, will be held at 6:30 p. m. today in central park.

Some 300 guests plus another 200 members of the P-TA council are expected to be on hand to participate in a watermelon feast, to be served by members of the Top O' Texans Club.

A truckload of fresh melons from the McLean area was brought to Pampa yesterday for the event sponsored jointly by the Top O' Texans Club of the Chamber of Commerce, the City P-TA Council, and the Pampa Classroom Teachers' Association.

Floyd Watson, president of the

Top O' Texans, will preside at a brief program featuring a watermelon-eating contest between a team of new teachers and other members of the school faculty. The Pampa High School Band will be on hand to play appropriate music throughout the program.

The program will conclude with the drawing for prizes donated by local business concerns. Any such concern that would like to contribute a prize for the drawing should call the Chamber of Commerce office, MO 4-3241.

## Waters Will Preside At Conference

Pampa's District Attorney Bill Waters will preside at the 15th annual Attorney General's Law Enforcement Conference Sept. 23, 24 and 25 in Austin. Waters is president of the District and County Attorneys Association of Texas.

The three-day event to be held in the Driskill Hotel in Austin, will attract district and county attorneys, sheriffs and prosecutors from over the state.

Waters, along with County Attorney Don Cain and Sheriff Rufe Jordan, will attend the conference from Pampa.

Waters will preside at the opening business session Friday and at a 9:30 a.m. business session Saturday.

Thursday will be devoted to registration.

Principal speakers at the conference will be Jack P. F. Gremlion, attorney general of the state of Louisiana; Henry Wade, district attorney of Dallas, who prosecuted Jack Ruby; Waggoner Carr, attorney general of Texas; and George M. Scott, president of the National District Attorneys Association, of Minneapolis, Minn.

## Check Death Of Character

MARFA, Tex. (UPI)—Police said they will continue an investigation of the death of a key witness in a 1964 Alabama murder trial because the victim was such a 'notorious character.'

Cecil Everett Padgett was found dead near some railroad tracks Saturday near Marfa, but there has been no indication yet that his death was by any means other than accidental.

Padgett was a surprise witness in the widely publicized trial of slaying Alabama Atty. Gen. John Patterson. The murder came during a crime crackdown at Phenix City, Ala.

Fuller was recently released on parole.

Padgett's body was badly bruised, and officers said he apparently fell from a freight train. His body rolled about 55 feet over crossties after striking the tracks.

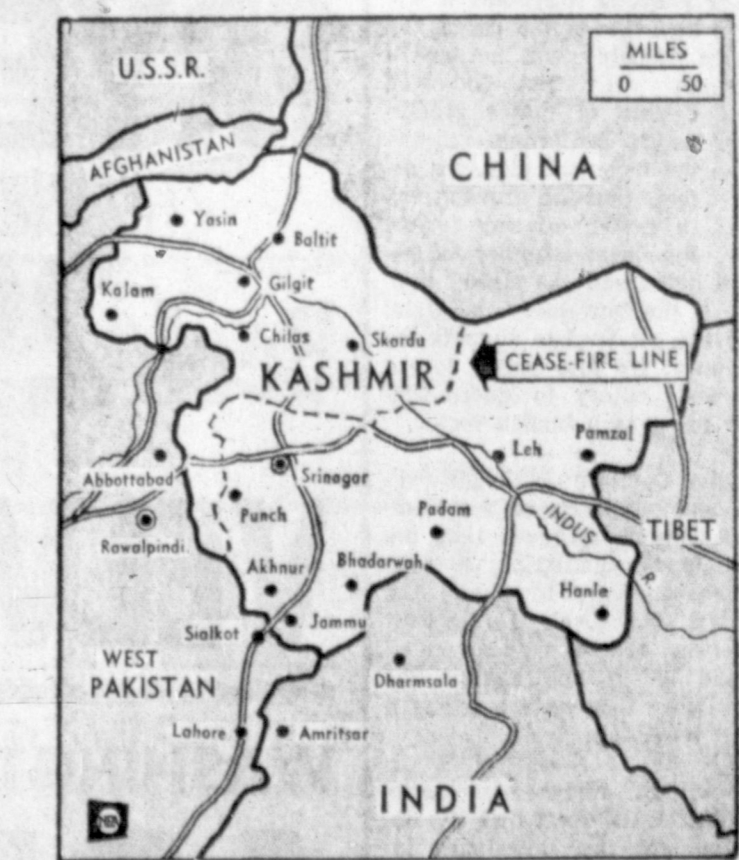

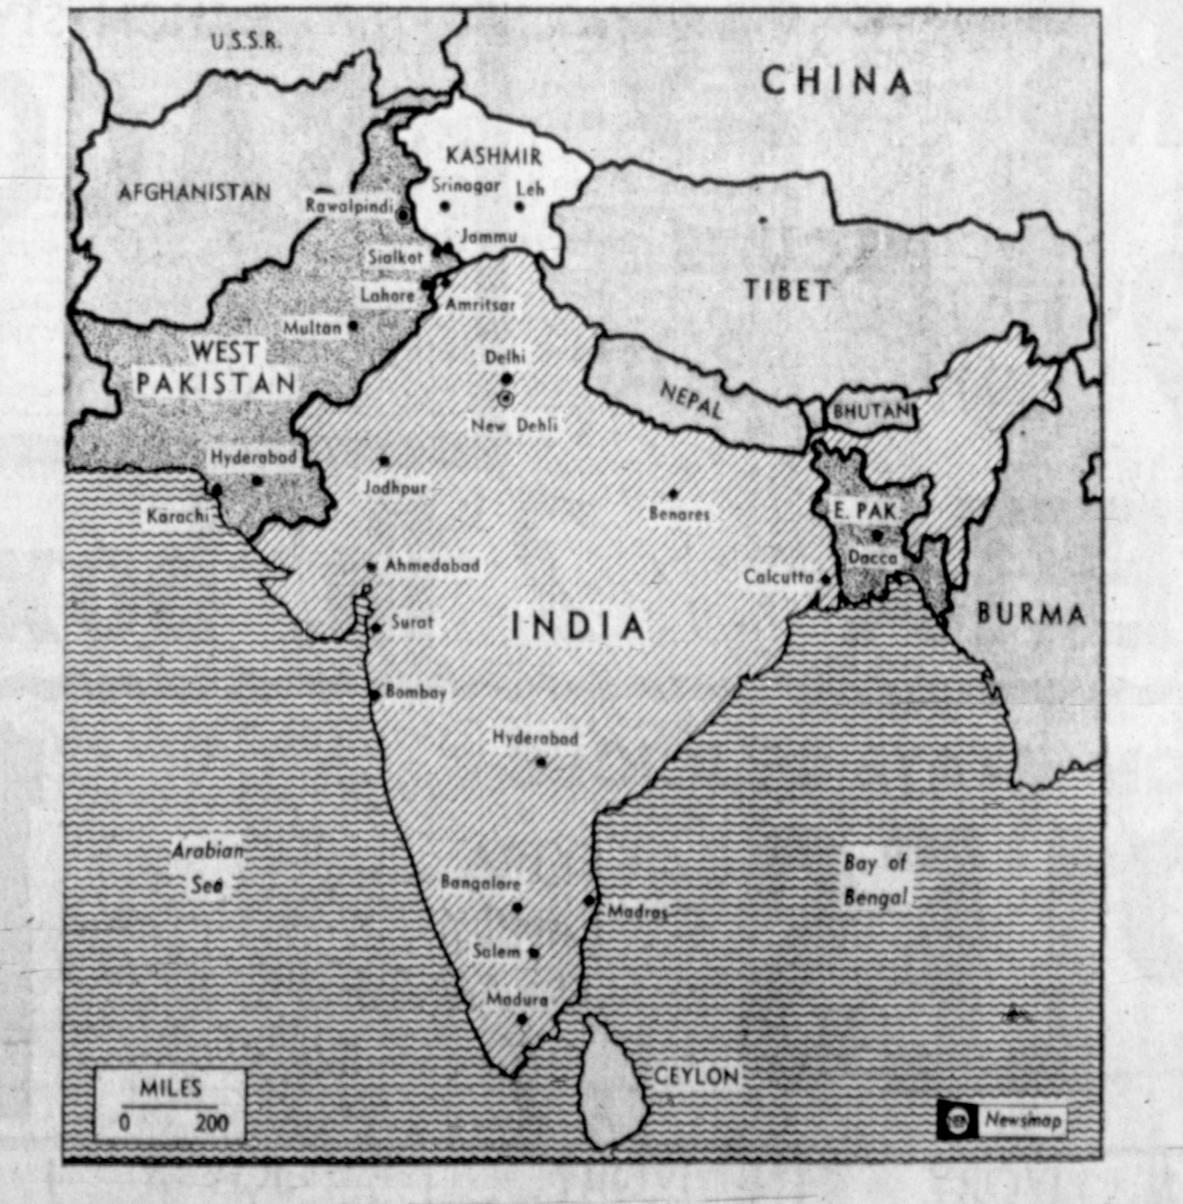

Principal speakers at the conference will be Jack P. F. Gremlion, attorney general of the state of Louisiana; Henry Wade, district attorney of Dallas, who prosecuted Jack Ruby; Waggoner Carr, attorney general of Texas; and George M. Scott, president of the National District Attorneys Association, of Minneapolis, Minn.

Betsy (Continued From Page 1) In the nation's history. Most schools remained closed in New Orleans and nearby areas hit by the storm. Fifty convicts from the state prison at Angola were sent to the area south of New Orleans to help clean up and burn dead livestock and game animals.

Investors' Corner

The stocks listed on the N.Y. Stock Exchange... are they "good buys" for you?

Like millions of other Americans, perhaps you have asked yourself whether investing in stocks or bonds might lead to better things for you and your family—income from dividends or interest to soften current expenses, or growth in the value of your investment for use later on.

We believe investors should consider companies whose stocks are listed on the New York Stock Exchange. There are some 1,200—out of 1,300,000 U.S. corporations.

These few earn nearly two-thirds of all the profits reported by all companies, and pay about 60% of all dividends.

Some 12 million investors own shares in these companies. Thousands of orders are funneled daily into the Exchange market place. This supply and demand means investors can usually buy or sell quickly and easily.

When a company originally applies for listing, the Exchange now generally applies guidelines such as these: 700,000 shares of publicly owned stock with a market value of at least \$12,000,000, demonstrated earning power of \$1,200,000 a year after taxes, and no fewer than 1,700 persons who own at least 100 shares each.

The Exchange usually considers delisting if ownership narrows (fewer than 700 round-lot shareholders), if the stock's market value falls below \$2,500,000, or because of other circumstances.

Would a listed stock make a "good buy" for you? Before you decide, consider these pointers:

- 1. Remember there is risk in any investment. A good rule is to invest money you don't expect to need in the foreseeable future.
2. Keep your eye on your specific goal. For example: dividend income, or growth in the stock's value, or the greater safety that bonds might offer.
3. Familiarize yourself with the financial performance of a company that seems promising for you, and try to evaluate its potential.
4. Use the services of a member firm of the Exchange. Ask your broker for the facts he has and for his opinion. Every registered representative has had to meet Exchange standards for knowledge of the securities business. He's not infallible, but his approach may broaden your thinking.

Investing could make your financial future brighter. That's why it is important to know there are both right and wrong ways to go about it.

Report

(Continued From Page 1) members felt that excessive water rates would result in a decline of water purchases and that irrigation sales would be the first to decline, causing an adverse effect on any beautification programs.

In its fourth and final recommendation, the committee urged the city commission to encourage conservation of potable underground water with whatever means available. The committee stated it found that some pollution of Pampa's underground water has taken place, and that it also is evident that the underground water supply is being used by industries that do not need potable water to serve their needs.

The Water Study Committee's report and recommendations with a number of exhibits were submitted to the commission this morning by Travis Lively Sr., vice chairman of the committee who acted in the absence of the city of James B. Massa, chairman.

Members of the committee who served during the three-month study of the water problems included in addition to Lively and Massa, Cletus Mitchell, W. A. Morgan, Joe Tooley, L. P. Fort, H. H. Boynton, Samuel Motley, Marvin Cooper, J. C. Roberts, Roy Sparkman and Leslie Williams.

Mayor Nation and City Manager Jim White thanked the committee members for their services on the committee.

City Manager White said: "I have never seen a more dedicated committee than this one."

The City manager also told the commission that he thought the study had been a thorough one and that in his opinion the city commission could not go too far wrong in accepting the committee's recommendations.

Recommendations of the committee are not final. All final determinations are to be made by the city commission.

Mayor Nation urged commission members to give thorough study to the committee's report and recommendations and to reach their own conclusions.

The mayor indicated the commission would act on the recommendations after further study by the individual commissioners and the commission as a whole.

Water from the Canadian River Municipal Water authority is expected to be ready for delivery to Pampa and the ten other member cities in January of 1968.

Beginning at that time, Pampa is obligated to make annual payments of approximately \$200,000 a year for the water supply and its share of operating the Water Authority.

Baby Beatle Born In London Hospital

LONDON (UPI)—Beatle drummer Ringo Starr became a father Monday when his 19-year-old wife Maureen gave birth to a son at a London hospital.

"Mother and baby are fine," a spokesman for Queen Charlotte's Hospital reported during a flood of calls from well-wishers. "It was a normal birth." Has the offspring inherited the majestic nose and woeful features with which Ringo, 25, has thrilled millions of teenage girls?

"Ringo said the baby was a bonny boy," said Mrs. Elsie Graes, the drummer's mother after speaking to her son by telephone from Liverpool.

Girlfriend Is Charged In Killing Spree

FLAGSTAFF, Ariz. (UPI)—A murder complaint has been filed against a 16-year-old Ohio preacher's daughter in the deaths of two men who befriended her and her exconvict boyfriend.

The complaint against Dixie Lee Radcliff was filed shortly after Superior Judge Laurence Wren ordered the girl to stand trial as an adult. He noted she showed a "rebellion against her home and religious life."

A similar complaint was issued earlier against her boyfriend, Donald Melvin Boggs, 23. His arraignment was postponed Monday until Friday.

The couple was accused of killing Robert Willis, 23, and Halvor Johnson, 28, both of Newport, N. H., near Ash Fork, Ariz., nine days ago. Authorities said the Chillicothe, Ohio, pair also robbed the two men of \$31 and credit cards and their car.

It was disclosed Monday that after her arrest, Miss Radcliff, daughter of the Rev. Pearl Radcliff, told Coccino County sheriffs of the slayings in a statement.

"I loved him (Boggs) too much to leave him," she said Thursday, in describing a multi-state crime spree in which four men were killed. The other victims were H. N. Flory, 50, San Antonio, Tex., and Warren George Lenker, a student at Brigham Young University, whose body was found near Cedar City, Utah.

New York Times Faces New Strike

NEW YORK (UPI)—The city was faced today with the threat of another newspaper strike as the result of a continuing contract dispute between the American Newspaper Guild (ANG) and the New York Times.

The guild said Monday it would strike the Times if no agreement is reached by 8 a. m. Thursday on a contract covering 2,200 Times employees. If the Times is struck, six other dailies said they would suspend publication.

A strike, if it is called, would be the first since March, 1963, when a 114-day walkout that closed eight daily newspapers here was settled.

Thomas J. Murphy, New York guild executive vice president, said that "if a strike does occur it will be a real long one."

Mobeetie Man Placed Under Bond for DWI

Bill Cowan, Mobeetie, was placed under a \$1,500 bond today following charges of driving while intoxicated, second offense.

Obituaries

Jess Lee Gates

Jess Lee Gates, 47, San Angelo, died yesterday in a hospital at San Angelo. Funeral services are scheduled for 3:30 today in that city.

Mr. Gates was born at Kermit, Tex., August 29, 1917. He was a Pampa resident from 1939 to 1955 when he moved to San Angelo. During his residence here he was employed in the Tom Rose parts department and drove the Wayside School Bus.

He is survived by his wife, the former Dorothy Hatfield of Pampa, four children and four grandchildren.

Budget

(Continued From Page 1) ing expenses and 47 cents goes for sinking funds and bond retirement.

The commission today took action that removed summer water rates and passed an ordinance restoring the same rate before the summer rate took effect June 1.

Approval was given for transfer of \$75,000 from the water fund to the general fund.

City Manager White explained tax money was running short and the money was needed for operating expenses. He said he thought the amount would tide the city over until new tax revenue is received.

Approval was given for a \$281,000 time deposit from various city funds. City bills amounting to \$20,204 for August were approved for payment and library bills of \$54 were okayed.

Payment of \$76,302 to A. W. Boren, sewage plant contractor, for work through Aug. 31 was approved. Final payment of \$30,138 was made to J. T. Brodie & Co. on completion of work on the sewage plant outfall line.

City Manager White said he expected the sewage plant to be completed and ready for operation early in January of 1966.

Urgent Military Changes Needed

SEA ISLAND, Ga. (UPI)

Deputy Defense Secretary Cyrus R. Vance said today the war in Viet Nam made it necessary to reorganize the Army Reserve and National Guard as soon as possible.

Speaking to the Southern Governors' Conference, Vance said the nation badly needed the proposed reorganization "to increase useable forces and improve their readiness."

The plan, which failed to win approval of several key lawmakers, is doomed for this session of Congress. However, efforts are expected to be made to revise it next year.

City Manager Plans Canadian Motor Trip

City Manager Jim White and Mrs. White were scheduled to leave Pampa late today on an automobile trip to Canada.

The city manager will attend the four-day conference of the International City Managers Association which opens Sunday in Montreal and runs through Wednesday.

The Whites expect to return to Pampa Sept. 27.

Petroleum Engineers To Host Ladies Night

The Society of Petroleum Engineers of Pahrhandle section, American Institute of Mining Engineers will host a ladies' night dinner meeting at the Coronado Inn in Pampa tonight at 6:15 p. m.

This will be the regular monthly meeting for the group. A "magic of fire" demonstration by Larry Clark of the U. S. Bureau of Mines will be a feature of the program.

Minister's Front Door Shattered by Rocks

Rev. Earl Maddox, 2124 N. Sumner, reported to police that someone threw rocks at his front door yesterday shattering the glass.

Maddox said there was no one at home at the time of the incident.

## Dear Abby....

### Considerate People Are Never a Bad Risk

DEAR ABBY: Do you think it's unreasonable for a wife to ask her husband please to phone her if he knows he is going to be late for supper? My husband is sometimes anywhere from one to three hours late and I worry myself sick. He forbids me to call his office because he doesn't want to look like a "little boy" who has to report in. I realize that in his line of work he is asked to stay longer to work after the office closes, but he has telephones all around him and it would take only a minute to call me and relieve my mind. Will you please comment on this, Abby?

DEAR ABBY: I am 22 and plan to be married next spring. I live with my brother, who is 21, as our parents are dead. I have always dreamed of having a lovely church wedding and have already started to make plans. Recently a lady suggested that it would be too presumptuous of me to have a church wedding. She said that since I have no parents, John and I should just go away and be married quietly and alone. I was so hurt by this advice. If I finance it and my brother gives me away, and some relatives "stand up" for me, couldn't I have a nice church wedding, too?

DEAR ABBY: Last night we had two couples in for dinner. One man brought a transistor radio, tuned to the baseball game. When I announced dinner, he brought the radio to the dinner table with him, and it blasted away all during dinner. After dinner we played cards, and he kept that thing alongside him, still going strong the entire time. Is this to be condoned, evaded in this age of casual manners? He reads you. Please

### Now Many Wear FALSE TEETH With Little Worry

Fast, talk, laugh or sneeze without fear of insecure false teeth dropping, slipping or wobbling. FASTTEETH holds plates firmer and more comfortably. This pleasant powder has no gummy, gooey, pasty taste or feeling. Doesn't cause rashes. It's alkaline (non-acid). Checks "plate odor" (bacteria breath). Get FASTTEETH at drug counters everywhere.

DEAR ABBY: I am 22 and plan to be married next spring. I live with my brother, who is 21, as our parents are dead. I have always dreamed of having a lovely church wedding and have already started to make plans. Recently a lady suggested that it would be too presumptuous of me to have a church wedding. She said that since I have no parents, John and I should just go away and be married quietly and alone. I was so hurt by this advice. If I finance it and my brother gives me away, and some relatives "stand up" for me, couldn't I have a nice church wedding, too?

DEAR BRIDE: The "lady" who gave you that advice is sadly uninformed. There is nothing "presumptuous" about your having a church wedding. Proceed with your plans, and may everything, good be yours.

PROBLEMS? Write to Abby, Box 69700, Los Angeles, Calif. For a personal reply, enclose a stamped, self-addressed envelope.  
Hate to write letters? Send one dollar to Abby, Box 69700, Los Angeles, Calif., for Abby's booklet, "How to Write Letters for All Occasions."

A generous sheaf of wheat and mums, pompons, and preserved oak leaves in a tall container will add the crowning touch to a fall buffet table setting. The Society of American Florists points out. After the party is over, add some sprigs of bittersweet for a long-lasting room decoration.

But I've seen my occupants all one by one, leave for a better home or place. Now all alone I lift mine eyes and humbly say the grace. Changes? Yes, by the multitude. Yet there's no room for pity. For I've seen Pampa grow from a village to a beautiful and prosperous city. And though I'm no mansion on the hill, something better fills my heart. For the city that gave me birth lets me stand as its landmark. Mrs. Nettie Corneillon is visiting a son and daughter in Arizona.

A recent guest of J. V. Kidwell was a daughter, Mrs. Evelyn Matahy of Greenville, Pa. Mrs. George Higgins and Mrs. Joe Looper were welcomed back at the Center this week following a long absence and Mrs. Fern Hogsett was welcomed as a new member. C. L. Adams is a patient in Highland General Hospital. Mrs. Tom Robinson of Borger is staying with Mrs. Adams and visited the Center this week. Mrs. Lydia J. Stackman was a guest of Mrs. Lona Webster last week. ### Senior Center Corner

By MRS. O. A. WAGNER

Order of the Eastern Star Chapter 65 served as hostess club for Senior Citizens Center this week. During the meeting those present heard a poem, "The Old House," written by Mrs. Lennie E. Chandler of 204 N. Faulkner, concerning Pampa's first pioneer home occupied by Mrs. Katie Vincent's family.

THE OLD HOUSE Just an old house on the slope of a hill to the passerby. Yet no mansion of our age stands more proudly than I. I once ranked among the best back in pioneer days. I sheltered my own from the cold and from the sultry summer days. I knew love, laughter and song, often heard the baby cry. Heard Dad's "God Bless our Home," and oh, how happy was I.

But I've seen my occupants all one by one, leave for a better home or place. Now all alone I lift mine eyes and humbly say the grace. Changes? Yes, by the multitude. Yet there's no room for pity. For I've seen Pampa grow from a village to a beautiful and prosperous city. And though I'm no mansion on the hill, something better fills my heart.

For the city that gave me birth lets me stand as its landmark. Mrs. Nettie Corneillon is visiting a son and daughter in Arizona. A recent guest of J. V. When using mums and pompons in fall flower arrangements, break the stems instead of cutting them. This will help the stems absorb water and keep blooms fresh, the Society of American Florists points out.

### Mum's the Word For This Season

While available virtually the year round, chrysanthemums—popularly called mums—are at the peak of perfection in the fall, when they're also in plentiful supply. So, if you want striking table decorations for your fall dinners or wish to bring the rich brilliance of autumn colors into other rooms of your home or apartment, buy mums.

Both large chrysanthemums and the smaller pompons are considered good buys. They both are available in a variety of colors and are ideally suited for virtually every kind of decoration, says the Society of American Florists.

In addition to home decorative use, large mums traditionally are worn at football games. The

### Skellytown P-TA Starts New Year

Skellytown P-TA began the new year with a membership drive and will hold its first meeting on Sept. 21. David Grayson, principal of White Deer High School, will be the speaker for the meeting.

The room with the highest percentage of parents becoming members of the P-TA will receive a gift.

Compons make beautiful corsages for evening social events. In using the long-lasting mums and pompons for flower arrangements, break their stems instead of cutting them, the Society advises. This will help the stems to absorb water and keep blooms fresh.

### Astrological Forecast By CARROLL RIGTER

FOR WEDNESDAY, SEPT. 15  
GENERAL TENDENCIES: You get all sorts of good common sense practical answers from wherever you look for them. So forget all that wishful thinking and daydreaming and make your practical goals become a working reality by your own constructive activities. You can also adopt some very modern methods that can be of great helpfulness to you.  
ARIES (Mar. 21 to Apr. 19) — Confer with those who have had a tremendous amount of experience in property matters. Business is best way to make big strides forward now. Invest. Repair, gain.  
TAURUS (Apr. 20 to May 20) — Getting appearance more attractive will lead to you gaining personal desires that have been difficult before. See the right people. Show that magnetism for which you are noted.  
GEMINI (May 21 to June 21) — Try a new tack in going after your aims secretly. A direct approach is the best, especially with experts. Assist those who are in trouble. Show gentleness to all.  
MINOR CHILDREN (June 22 to July 21) — Listen to what good pals expect of you and do your best to assist them. This will bring fine co-operation for your own ventures later. Take it rather easy tonight and renew energies.  
LEO (July 22 to Aug. 21) — Forget all that outside pressure and get the good will of one who is very influential. This eases tensions quickly. Change conditions for the better. Be your most efficient self.  
VIRGO (Aug. 22 to Sept. 22) — If you seek for new people, ideas, you can start an uprising in your life that you had not thought possible heretofore. Show willingness to study the new. Expand.  
LIBRA (Sept. 23 to Oct. 23) — By showing precision in all that you do and say, you make fine impression on higher-ups and progress quickly. Know what your exact duties are. Then do them with accuracy.  
SCORPIO (Oct. 24 to Nov. 21) — Much bigger success can be yours if you comprehend the ideas of associates better and change your attitude. Fall into plans contemplated. They will meet with your approval.  
SAGITTARIUS (Nov. 22 to Dec. 21) — If you work effectively you can get much accomplished today and then have time to reorganize your habits. A clever co-worker will help. Complete all well.  
CAPRICORN (Dec. 22 to Jan. 30) — Several clever persons you know will assist in creative ventures with alacrity now. Get in touch with them early. Strive for more peace and harmony with everyone.  
AQUARIUS (Jan. 31 to Feb. 18) — Kin receive your time and attention, so don't waste time in outside world with wrong people. Get rid of the obsolete and unusable at home. Have better order around you.  
PISCES (Feb. 19 to Mar. 20) — Keeping appointments and doing shopping regularly much on your own is best, since others could be a detriment now. Dig up that information you need. Much benefit can come therefrom.

### Foreign News Commentary

By JOSEPH W. GRIGG  
United Press International  
PARIS (UPI)—French President Charles de Gaulle may have struck a death blow at the European Common Market.

Many European diplomats and many European newspapers have come to that unhappy conclusion following De Gaulle's Elysee Palace news conference last week.

The six-nation Common Market, whose members are France, West Germany, Italy, Belgium, Netherlands and Luxembourg, has been in a state of suspended animation since midnight June 30.

That night Common Market negotiators in Brussels were deadlocked in negotiations on setting up a common market for farm goods in the six-nation area, to match the market for industrial products already in effect.

The French, who want the German market opened up to their exportable surplus of farm produce just as they opened up theirs to German industrial exports, had set the June 30 deadline for agreement on an agricultural common market.

#### "Empty Chair" policy

When the clock hands pointed to midnight and there was no sign of agreement, French Foreign Minister Maurice Couve de Murville, who was in the chair, stood up, folded his papers and suspended the meeting.

Since then France has pursued the so-called "empty chair" policy toward the Common Market. It did not stage a walkout but it has boycotted the six-nation organization by simply not attending meetings.

This has had the effect of bringing to a standstill any progress toward the goal of a complete six-nation customs and economic union.

In his news conference De Gaulle destroyed any hopes he might relent. He laid down two conditions.

#### Sets Farm Condition

The first condition was that there must be agreement on a common market for farm produce. In other words, that the other five countries would have to bow to French financial and other demands.

His second condition was abandonment of any claims by the Common Market's commission to constitute the germ of European political federation. Coupled with this was a demand that the six-nation European Parliament—a consultative body composed of members of the national parliaments of the six Common Market countries—must not be given any authority over the Common Market's budget as the executive commission had proposed.

#### ORDERS MENTAL TESTS

LOS ANGELES (UPI)—Superior Court Judge William A. Munnell has ordered singer Mel Torme and his wife to undergo psychiatric examinations to help him decide which parent should have custody of their 6-year-old son, Tracy.

The singer was due to undergo the examination Monday at County General Hospital and Mrs. Torme was to be examined Wednesday.

In his divorce suit, Torme accused his wife of drinking heavily and being unfaithful. She accused him of physically abusing her. The trial began last week.

**SUED FOR DIVORCE**  
LONDON (UPI)—Australian actor Peter Finch, 49, was sued for divorce Saturday by his 29-year-old South African wife, actress Yolande Turner.

Finch is not defending the case, which is to be heard by a judge here later in the year.

The couple married in 1959 and have two children, a daughter, Samantha and a 2-year-old son, Charles.

# Recommendations of Water Study Committee

## Report Is Filed Today With City Commission

**EDITOR'S NOTE** — The mayor's 12-man Water Study Committee today filed its recommendations with the City Commission, outlining what it believes to be the best plan for providing Pampa's long-range water supply. The Pampa News publishes herewith the full text of the committee's report and its recommendations.

To the Mayor and Members of the City Commission: The members of the Water Study Committee take pleasure in presenting this report of water system analysis and our recommendations for a long-range water supply.

Through a series of meetings and a mass of information, this report has been compiled. This report has been compiled from the best sources available to our use. The committee has used information from the City Records; the Forrest & Cotton Engineering report, including a personal visit by Mr. Carl Shick to explain his firm's reports; Mr. Vern Grantham, Engineer with the Bureau of Reclamation; Mr. Fred Thompson, City Representative on the Board of Directors of CRWA; Mr. Shorty Heiskell, a widely known area well developer; and Mr. Felix Ryals, manager of Underground Water Conservation District.

To determine the best method of water development, the committee thoroughly reviewed the present water supply system. The City of Pampa depends on water wells developed within the corporate limits and an area known as the South Pampa field, approximately four miles south of the City.

The City owns 2,281 acres of water rights in the South Pampa field. In addition to this water rights area, the City owns 720 acres of water rights in what is known as the Lefors Basin area. Within the City Limits and the South Pampa field, the City has developed 17 water wells capable of producing 1.5 million gallons daily. This is the source of our present water supply. There is room for additional well development in the South Pampa field. The Lefors Basin has no development at this time. A reprint from the Forrest & Cotton Engineering report is attached in the back of this report and is marked as Exhibit A. This reprint shows the area of the present water wells and supply mains and also lists and locates the water wells that are developed at this time. The water rights owned by the City, as well as non-drilling water rights, are also listed on Exhibit A. However, the Lefors Basin water rights area has been increased by 480 acres since this exhibit was prepared. Therefore, the total shown in Exhibit A for the Lefors Basin area should be 2,720 acres.

In addition to the water rights outlined in the paragraph above, the City of Pampa has entered into a contract with the Canadian River Authority to purchase water from the Authority for municipal purposes. A copy of the contract is attached in the back of this report and is marked as Exhibit B. Under the terms of the contract the Canadian River Authority will build an aqueduct system to a point designated by the City of Pampa. This aqueduct system is now under construction and the delivery point will be one and one-quarter miles west of Hobart Street on Kentucky Avenue. The Canadian River contract calls for the City of Pampa to pay for a pro-rata share of the cost of the construction program whether the water is used or not. This facility, when completed, will furnish the City of Pampa with 6.6 million gallons daily with a peak capacity of 6.6 million gallons daily. The terms of the contract obligates the City of Pampa to pay to the C.R.W.A. Twelve Million One Hundred Forty-five Thousand Dollars (\$12,145,000.00) over a fifty (50) year period. The first payment will be due January 1, 1968, and will be One Hundred Fifty-three Thousand Seven Hundred Dollars (\$153,700.00). The payments are based on a graduated scale increasing to a maximum of Two Hundred Sixty-three Thousand Nine Hundred Dollars (\$263,900.00) annually to be reached in 1988. The schedule of annual payments is listed in detail on page 3 of the Cana-

dition River contract marked as Exhibit B. In addition to these annual payments, the City of Pampa will also share in the maintenance and operation costs to a total sum equal to 7.163 percent. This cost has been estimated to be approximately Fifty Thousand Dollars (\$50,000.00) annually for the City of Pampa's share. This means that the first payment will be approximately Two Hundred Three Thousand Dollars (\$203,000.00).

The City of Pampa must depend on expanding its water wells or it must build facilities to use the Canadian River water to supply additional water for the City of Pampa. To determine when additional water will be necessary to serve the City of Pampa, the Water Study Committee examined in detail the pumping records and daily demand of the City of Pampa. A chart showing the monthly pumping records and the maximum daily demand is attached to this report and is marked as Exhibit C. You will note on this chart that in the year 1954, the City of Pampa pumped 8,036,625 gallons during a single 24 hour period. This daily pumping demand was not reached again until 1963, and again in 1964 and 1965. It should be pointed out, however, that in 1954 the City of Pampa had 5,627 water meters in its water system. Today the City of Pampa has 8,099 water meters, or approximately 40 percent more meters tied on to its system. It should also be pointed out that in the year 1954 there was very little rainfall and drought conditions prevailed. The years 1963, 64 and 65, should be considered as normal rainfall years, if not well above normal. During each of these three years more than average rainfall was received during the peak pumping season. With 40 percent more meters tied onto the system in 1965, compared with 1954, it would be reasonable to project 40 percent more water pumping over the 1954 period should we experience the same drought conditions in 1965 or 66. This means that it would be possible for the City of Pampa to peak in excess of twelve million gallons daily under the same climatic conditions that were experienced in 1954.

To determine how soon an additional water supply will be necessary to serve the City of Pampa's needs, a graph has been charted showing the estimated maximum demands anticipated on the City's water system. This graph is included in this report and is marked as Exhibit D. You will also note on the chart a program of well development to meet this growing demand. The actual maximum demand represents the actual peak consumption anticipated by the City of Pampa. The difference between this line and the "estimated maximum demand" represents a safe margin of pumping to allow for the best well the City has in its system to be taken down for repairs and still have the ability to develop the maximum daily demand. It should also be noted that the estimated line of the "actual peak daily consumption" will not be a continuous curving line as the "estimated maximum demand" line. The actual daily peak as it is plotted across the chart will reflect changes in climatic conditions and reflect directly periods of heavy rainfall and low water consumption. However, over a period of years the average of this line should conform rather closely to the estimated maximum demand.

After inventoring the City's water production system, and determining the City's ability to provide additional supply of water and a review of the pumping records of the City of Pampa, it is apparent that the City will have to improve its ability to produce water within the next few years.

In view of the anticipated need to meet this growing water demand, the Committee has evaluated which method will be cheaper for the City to develop to meet these needs. Using the time table of well development in Exhibit D to determine the capital improvements as they will be needed should water well supplies be expanded, a development cost schedule has been prepared. The estimate of One Million Dollars (\$1,000,000.00) has been used as the cost com-

parison of the Filtration Plant. This schedule is attached to this report and is labeled Exhibit E. This schedule is carried out through five separate projects. Each of the projects are designated in their relationship to the area being developed. Project number one is the least in cost for its total development, and each project is graduated in its total cost down through the five separate projects spanning a period to 1980. It should be pointed out that these five projects should produce an amount of water equal to the amount of water to be taken from the Canadian River Water Authority.

A review of the cost of water produced has been attempted. However, since the City has not had a cost accounting system, only an estimate of the cost of our present water is available. It is estimated that production of our present water is 14 cents per 1000 gallons. The Committee feels it is quite conservative in its estimate based on present expense and the water cost of other cities in our area. This cost will be increased by another 13.5 cents per 1000 gallons to pay the obligation to the Canadian River Authority. Another 3 cents per 1000 gallons will be necessary to pay interest and retire the debt on new wells. This comes to a total projected cost of underground water to approximately 30 cent per 1000 gallons. Forrest & Cotton has estimated the cost of operating a Filter Plant at 30 cents per 1000 gallons, including the C.R.W.A. payments. There will be no appreciable difference in cost of water per 1000 gallons.

The Water Study Committee has prepared a chart which is attached to this report and is marked as Exhibit F, showing a comparison of operating and developing costs of the Canadian River supply versus an expanded well supply. The figures shown in Exhibit F take into account only those figures which are not constant costs. In other words, any cost that would be off-set or equal under the Canadian River supply to a cost that would be equal in an expanded well supply, has not been considered in this comparison. Only those figures which vary from one source to the other have been considered. As illustrated in Exhibit F, over a fifteen (15) year period, development of the Canadian River water will result in a savings of Two Hundred Eighty-nine Thousand One Hundred Fifty Dollars (\$289,150.00). The difference in the year 1982 in the principle and interest payments of each of the different projects, as well as the operating costs, will amount to a difference of Eighty-seven Thousand Dollars (\$87,000.00) annually. This means that during the next five years an additional Three Hundred Eighty-Five Thousand Dollars (\$385,000.00) could be saved, making a total savings for the twenty year period of Six Hundred Seventy-four Thousand One Hundred Fifty Dollars (\$674,150.00).

In conclusion of this report, it is evident that additional water supply is going to be needed in the near future to supply demands of the City of Pampa's water system. It is apparent to this Committee that it will be cheaper to develop the Canadian River Water supply than expanding our underground water production system.

A review of the engineering reports concerning the feasibility of the Canadian River Project indicates that it is a workable project. Water is already being collected and a volume of water has been impounded during the first nine months equal to the expected impoundment over a two year period. Water samples have been taken from the reservoir and from their analysis the water is potable. These samples have been a better quality of water than predicted by the estimated engineering reports in the original feasibility studies.

In view of the conclusion, the Water Study Committee respectfully submits the following recommendations:

1. The City Commission should proceed at once to prepare plans and specifications for a filtration plant. Expansion of the well supply should be held in reserve until demand exceeds the Canadian Supply.
2. Should the Finance Committee determine that a bond issue be necessary to finance this plant, the City should hold the bond election and get the funds authorized. However, the bonds should not be sold until it is apparent that the water demand can no longer be met by the existing system. Under today's circumstances, additional

water should be acquired when the peak demand reaches 10 million gallons daily. Future circumstances may change the 10 million gallon figure so the peak demand should be revised annually.

3. It is recommended that some source of revenue be provided to pay for this program other than water. Although finance is not the problem of this Committee, we feel excessive water rates will result in a decline of purchases and fail to

### The Lighter Side

By DICK WEST  
United Press International  
WASHINGTON (UPI) — Generally speaking, there are two types of scientific research. One produces something unexpected and the other confirms something that was suspected but unproven.

But it doesn't always work out that way. Occasionally, a research project will merely duplicate a previous discovery. I ran across one like that the other day while leafing through a magazine in my dentist's waiting room.

It contained an article written by three psychiatrists who had made a 15-year study of infant behavior patterns. They found that from the moment of birth all children exhibit their own individual style and temperament.

"Each baby we studied had distinctive way of behaving that was recognizable in his first weeks," the doctors reported.

**Obvious To Parents** — Imagine that! It took these poor medics 15 years to discover something that is obvious to any parent in 15 seconds.

The speed at which parents can recognize distinctive behavior in an infant was impressed upon me again this week when a young couple that I know brought one home from the hospital.

I stopped by to admire the baby and I was amazed by some of the behavioral characteristics they pointed out to me. Take, for instance, arm waving.

Some people might think that all babies wave their arms the same way and for the same reasons. According to the father, this isn't so. Arm waving is a very distinctive and meaningful gesture.

"Look at the way she is waving her arms," he exclaimed. "She's going to be a symphony conductor when she grows up."

**On the Podium** — I took a closer look and I must say that I have never seen a better impersonation of Leonard Bernstein.

The fact that the waving stopped as soon as he changed the baby's diaper may also have been significant. But he did not elaborate on that point.

A few minutes later, the baby started crying. This also proved to be a distinctive characteristic, fraught with meaning.

"Listen to that," the woman exclaimed. "This girl is going to be an opera singer when she grows up."

Although the article ended when they gave her a bottle, she continued to exhibit individualistic traits, one being the way she curled her fingers, which was a sure sign that she was going to be a concert pianist.

As I left, the baby was kicking her feet in a distinctive manner characteristic of a ballerina. I was sorry I couldn't stay for her nap. I'll bet she is a very talented sleeper.

### No 'Current' Consecration?

HIGH WYCOMBE, England (UPI) — The Rev. John Baggs despondently chastised his flock in the latest issue of the parish magazine.

"Something is grimly wrong when people reckon that you can feel holiness like an electric shock," he wrote.

**Typhoon Sighted**  
TOKYO (UPI)—Typhoon Trux, packing winds of 80 miles per hour at its center, was located 550 miles southeast of Okinawa today and was reported moving northwestward at 11 mph.

bring in additional revenue. It is also our opinion that irrigation will be the first to decline, causing an adverse effect

I vote for the following for the awards:

"Friendliest, Most Courteous" WOMAN EMPLOYEE —

Name .....

Place of Business .....

"Friendliest, Most Courteous" MAN EMPLOYEE —

Name .....

Place of Business .....

Clip out, fill in, and please mail the above to "Friendliest, Most Courteous" Employee Awards, at The Pampa Daily News, Pampa, Texas, or deposit in any one of the 4 ballot boxes located at Citizens Bank & Trust Co., First National Bank, Pampa Chamber of Commerce or The Pampa Daily News. Voting ends on Friday, September 17. Announcement will be made in The News late in September. Store owners or managers are not eligible. Vote as often as you wish; use only the award voting ballot which will be published daily in The News.

on any beautification programs. Although the testimony of Mr. Heiskell and Mr. Ryals was not elaborated upon in the report, it is apparent that some pollution of underground water has taken place. It is also evident that the underground supply is being used by industries who do not need potable water to serve their needs. It is recommended that the City Commission encourage conservation

of the potable underground water with whatever means available. We sincerely hope this report is beneficial to the members of the City Commission. Assuming this action has served the request of the City Commission, we consider this committee dissolved. If, however, we may be of further service please feel free to reconvene this Committee.

FOR TEXAS ELDERLY

# Increased Social Security Checks Will Cause Less State Assistance

## Hey, look us over!

New night! Clint Eastwood takes over the herd as the new trail boss in this scenic, exciting adventure series.

**6:30 P.M.**

**9 P.M.**  
AWARD  
THEATRE

TONIGHT ON tv **10**  
kda tv amarillo

AUSTIN (UPI) — Increased social security checks for elderly Texans will just be money out of one pocket and into another for many recipients, Texas welfare commissioner John H. Winters said today.

Persons receiving both federal social security checks and state old age assistance will find the federal check up and the state sum down, Winters said.

"The law says we shall treat all people equally," Winters said. "Those who received both social security and old age assistance will have adjustments made."

The state check will be reduced to match the increase retroactive to January from the 7 per cent hike in federal old age payments. "But we are not going to take into account the retroactive increase," Winters added.

Winters said state law requires that all income be considered when setting the amount of old age assistance for an individual. "Social security is considered income," he said.

### National Window

By LYLE WILSON  
United Press International  
The Republican Coordinating Committee (RCC) on party policy has advanced in this year of civil rights a novel idea that merits exploration and further exploitation. It is the idea that crooked elections are discriminatory and in violation of civil rights equally with denial of the right to vote altogether.

The RCC advanced this idea so gently, with so little emphasis, that it almost escaped attention when the policy paper was made public Sept. 3. House Democratic Floor Leader Carl Albert rescued this Republican idea from oblivion by choosing to reply to it.

#### Poses Questions

The policy paper sought to illuminate what the RCC regarded as deficiencies in the 1965 Voting Rights Act. The RCC posed three questions for which it sought replies from President Johnson. One of the questions:

"Why vote frauds and dishonest elections, such as have occurred in Chicago and Texas, were not covered under his (voting rights) proposal."

The Republican charge was not specific. Who defrauded whom in Texas and in Chicago was not stated. The Republicans simply contended that fraud had prevailed in some recent elections, that enforcement of federal and state laws had been notoriously weak and that the 1965 act's provision for investigation of alleged frauds was inadequate. Such investigation would be by the Commission on Civil Rights.

"Additional legislation is clearly required," the policy paper continued, "to uphold the sanctity of the ballot (to) provide for swift and sure enforcement."

#### Defeats Self

The Republican thrust at vote frauds defeated itself by lack of supporting evidence that frauds do occur and urgently require additional legislation.

Replying to the Republicans, Albert said, "The purpose of the (1965 voting rights) legislation was to deal with voter discrimination, not with vote frauds and dishonest elections. There is other legislation dealing with those problems."

The Republican answer to Albert should be that the other legislation dealing with the problem of election frauds does not, in fact, deal with that problem. No proper investigative job ever has been done in the field of fraudulent elections. There are bits and pieces of evidence spotting frauds all over the United States.

The complexities of American elections and of election laws encourage fraud and discourage law enforcement. Majority Leader Albert probably is well aware of that. He chose, however, to make a debating point against the Republicans at the expense of acknowledging that the evidence available strongly suggests that something is wrong.

## Rambling With Red

RON CROSS

You can put the crying towel back in the rack, Harvester coach Eural Ramsey doesn't need it. Ramsey, who watched helplessly as his Harvesters were upset by Perryton Friday night, 27-8, hasn't shed a tear.

The Pampa coach, in fact, was busy Saturday morning trying to put Friday's game out of his mind and concentrate on this week's home opener with Wichita Falls Rider.

Ramsey was concentrating awfully hard too, for Rider stung Wichita Falls Hershey, 40-8.

But sports writers being like they are, Ramsey allowed as how he would talk for a while on the Pampa loss.

### Inexperience Shows

"Our inexperience showed. You just can't make mistakes like we did and expect to win," Ramsey said.

The coach wasn't real down trodden with the Harvesters pointing out, "True, we have 16 lettermen back, but add all of their experience together and you might have a total of two full games."

Take away the mistakes and the tables might have been turned Friday night.

On his first punt attempt of the season quarterback Roy Harper had the ball slip off the side of his foot, getting credit for a 12 yard kick.

It took Perryton no time at all to take advantage of this break going 42 yards in 12 plays over a Harvester defense that had a hard time getting adjusted.

Take the two points that followed. The Rangers were going to kick the extra point. The snap was fumbled, picked up and the quarterback spies a man in the end zone and tosses to him, while the Harvesters are charging in.

Perryton scored their second touchdown again on a Pampa miscue.

This time quarterback James Matney was back to punt, fumbled the snap and fell on the ball at his own 20.

Again the Harvester defense couldn't dig in and Perryton had a 14-0 bulge.

### Fumble Hurt

The Harvesters looked bad on offense in the first half but came out strong in the third period.

They took the kickoff and marched from their own 40 to the Perryton 32, where a stray aerial fell into the hands of an enemy and the drive was killed.

But, the next time they got the ball Pampa couldn't be stopped, doing everything right and marching 50 yards to score.

Perryton scored the next time they got the ball, Pampa being caught looking when a halfback tossed a 41-yard scoring pass.

Perryton had been running double reverses around the Harvesters all night and apparently were going to try it again and had three pass receivers open.

The killer came when Pampa fumbled the next time they got possession and on the first play the Rangers ran, seemed to be trying to figure out why they fumbled. The play went right up the middle for a 41-yard TD.

But take into consideration the Harvesters running game wasn't the worst in the world, being out charged only 164 yards to 152.

The defense will have to be strengthened and the offensive blocking will have to improve, especially when Pampa's two quarterbacks are trying to pass.

The running game was good with big bruising fullback Ted Heiskell gaining 79 yards in 17 carries, being the workhorse of the night and speedy Lewis Meers picking 56 lengths on seven carries.

The Harvest total would have been more with a little blocking in the line but quarterbacks Daniels and Roper lost 18 and seven yards respectively, when trying to pass and being flogged down by the enemy.

### Meers Wins First Harvester Award

Lewis Meers, Pampa's scrappy 162-pound halfback is 1965's first Harvester - of - The - Week winner.

Meers, son of Mr. and Mrs. H. L. Meers, south of city, is a senior and one-year letterman. The speedy Meers scored Pampa's lone touchdown against Perryton in the opener for both teams Friday night.

He was the Harvester's second leading rusher in the Friday affair carrying seven times for 56 yards. Meers finished second only to fullback Ted Heiskell.

Meers bulled over from the one-yard line for his touchdown after setting it up with a 27-yard run two plays before.

The 17-year-old was honored today at a luncheon by the Pampa Jaycees.

The Pampa Quarterback club will meet at 7 p. m. today in the high school cafeteria. A film of the Pampa-Perryton game will be shown and officers for the year elected.

# 3-4A Losers Try for Win Column Friday

By RON CROSS  
News Sports Editor

Pampa, Palo Duro, Tascosa, Caprock and Lubbock Monterey shoot for their first victories of the 1965 football campaign Friday night.

The Harvesters, Dons and Rebels were all first game losers last week and Lubbock

Monterey will be playing their first contest this week.

District 3-4A teams won four of eight games and tied one the past week with Amarillo, Lubbock, Plainview and Borger hoisting the victory flag.

In this week's action Pampa will host a tough Wichita Falls Rider club, a 40-8 winner over

Wichita Falls Hershey last week.

The Harvesters fell 27-8 to Perryton in the season opener Friday night.

Amarillo, a 21-7 winner over Odessa Bronchos, travels to Wichita Falls. The Sandies serve; notice they are the team to beat in the conference with their up-

set victory.

Borger, a surprisingly easy winner over Littlefield, 32-0, is causing a rumble in the conference and should they beat Dumas Friday at Dumas, must be taken seriously as a threat.

Lubbock's Westerners shoot their second win, traveling to Odessa. The Westerners

downed Midland Lee 32-6.

Plainview pulled a mild upset by downing Hereford, 13-8 and Friday host Littlefield in a non-conference clash.

Caprock will try to make it win No. 1 when the Longhorns host Lubbock Coronado. Caprock managed a tie with a tough El Paso team Saturday night.

Tascosa, the defending 3-4A champions try to get on the winning track after their season opening loss to Odessa Permian, 14-6, by hosting Robert E. Lee.

In other games Palo Duro plays at Midland and Pampa hosts Wichita Falls Rider.

Lubbock Monterey, picked in a pre-season poll to battle Amarillo for the title opens at home against Midland Bulldogs.

### BUSTING OUT ALL OVER

### BUCKS, MCLEAN IDLE

## Grid Slate Light For Area Teams

Panhandle area teams in districts 2-A and 5-B will be out to continue their mastery over outside opposition Friday night.

Last week 2-A teams won four of six games, including one tie and teams in the 5-B district took five of six contests.

Booker was the only 5-B team to meet defeat, falling to Spearman, 42-14. Lefors opens their season Friday at Happy.

Groom, Miami and Wheeler will be shooting for their second straight victories, after opening successfully last week.

Wheeler takes on another Ok-

lahoma team, traveling to Erick to meet the class C team, which fell to Sayre, 40-0 last week.

Groom, a 14-8 winner over Vega, journeys to Claude and Miami, a 14-0 opening game victor over Canadian B, goes to Vega.

In district 2-A, the defending champion White Deer Bucks flexed their muscles, driving 80-yards in the final period to ax Gruver, 7-0. This was the Bucks second win of the season. White Deer takes Friday off this week.

McLean takes a rest Friday after squaring their season record at 1-1 with an 8-6 nod over Panhandle.

Canadian tries for victory No. 1 after two straight setbacks, when the Wildcats host Sunray. Sanford-Fritch edged Canadian 8-6, Friday night after Shamrock had downed the Wildcats two weeks ago, 7-0.

Team	W	L	Pct
White Deer	2	0	1.000
Memphis	1	0	1.000
Wellington	0	0	.000
Clarendon	1	1	.500
McLean	1	1	.500
Canadian	0	2	.000

This Week's Schedule:  
McLean open; Sunray at Canadian; White Deer open.

Last Week's Results:  
White Deer 7, Gruver 0; McLean 8, Panhandle 0; Fritch 8, Canadian 6; Claude 27, Clarendon 22; Hollis 0, Wellington 0; Memphis 12, Shamrock 7.

Last Week's Results:  
Amarillo 21, Odessa Bronchos 7; Lubbock 32, Midland 6; Plainview 13, Hereford 8; Borger 22, Littlefield 0; Caprock 0, El Paso 0; Permian 14, Tascosa 6; Dumas 19, Palo Duro 0; Perryton 27, Pampa 8; Lubbock Monterey not scheduled.

### Tom Rolfe To Run in France

CHICAGO (UPI)—The grass may be greener in Paris for Tom Rolfe, but the little bay horse will be hard put to match the lettuce back home.

Tom Rolfe, who won the \$128,100 American Derby at Arlington Park Monday, leaves for France in just 10 days. The 3-year-old, owned by U.S. Ambassador to Ireland, Raymond Gues, will attempt in Paris to duplicate his sire's feat of winning the Prix de L'Arc de Triomphe.

Jockey Willie Shoemaker, who piloted Tom Rolfe to victory and a winner's purse of \$83,100 Monday, will be up again when the son of Ribot goes to the post in Paris Oct. 3.

Shoemaker said, "the race in France will be his first start ever on grass, but he'll certainly try his hardest."

### MAJOR LEAGUE ROUNDUP

## Marichal Ties Sandy For Most Games Won

By United Press International

Willie Mays reached another slugging milestone, but Juan Marichal once again wielded the most destructive bat.

The amazing Mr. Mays slammed the 500th home run of his baseball career and his 47th of the season Monday night as the San Francisco Giants battered the Houston Astros 5-1 and lengthened their National League lead to 2½ games over the idle Los Angeles Dodgers.

But Marichal, the high-kicking right-hander from the Dominican Republic, whose bat swinging episode against catcher John Roseboro of the Dodgers touched off a storm of controversy and earned him a nine-day suspension, supplied most of the hitting pyrotechnics for the Giants with a triple, single and two runs batted in.

22nd Victory

Those two hits enabled Juan to breeze to his 22nd victory of the year, tying him with the Dodgers' Sandy Koufax for the most wins in the major leagues this season. It also was his 23rd complete game, most in either circuit.

The victory opened considerable daylight between the Giants and two of their most persistent challengers—the Cincinnati Reds and Milwaukee Braves.

The Pittsburgh Pirates, still clinging to a mathematical hope of winning the pennant, routed the Reds 8-4 and Philadelphia edged the Braves 4-3 in the only other N.L. games.

The only scheduled American League game between the Baltimore Orioles and the Cleveland Indians was postponed by

rain.

Mays lashed his homer off Houston starter Don Nottebart leading off the fourth inning to tie the score at 1-1 after Jim Wynn had socked his 21st in the opening frame. The Giant super-star thus became the first N.L. right-handed hitter ever to hit 500 home runs. The blow left him only 11 short of Mel Ott's total for the most round-trippers in a career by a major league player.

One of the first to congratulate Mays was teammate Warren Spahn, who, as a member of the Boston Braves, served up the first homer to Willie in 1951. But Willie merely shrugged off the feat.

"As long as we keep winning," said Mays, "that's all I care."

Mays has a lot to care about because the Giants now have won 11 consecutive games, three of them by Marichal. The San Francisco ace, who scattered eight Houston hits and walked none, singled home a run in the Giants' four-run fourth and tripled home Tom Haller in the sixth to insure the victory.

Vernon Law survived a shaky four-run first inning to notch his ninth consecutive triumph and raise his record to 17-9 as the Pirates slammed 19-game winner Sammy Ellis out of the box in the second stanza. Pittsburgh crashed 12 hits, including six extra base blows, off five Red hurlers. Gene Alley, whose three hits included a solo homer, and Willie Stargell, with three RBIs, did most of the damage.

### Big 10 Teams Preparing For Opening Games on Saturday

By United Press International

Nine Big Ten football squads ran through light workouts Monday, polishing offense and drilling against unfamiliar defenses in preparation for season openers Saturday.

Only the Ohio State Buckeyes, who open a week later against North Carolina, had two full-scale workouts. Head coach Woody Hayes said he was "pleased with the shape the boys are getting into."

Flanker Ken Latt and left halfback Dave Colburn returned to action with the Minnesota Gophers after being out a week with injuries. Head Coach Murray Warmath said

he expects both to be ready to go in the Gophers' opener at Southern California.

Iowa Coach Jerry Burns praised his offensive units, but said the Hawkeye defense was still "spotty." Burns said the No. 1 defensive team was "capable of much better things than they are doing now."

Michigan's Bump Elliott also concentrated on defensive work at Monday's practice session. Elliott said the Wolverine secondary can expect a great deal of passing from the North Carolina Tarheel Saturday.

Bump's brother, Pete, made some personnel changes in his Illinois lineup. Junior Al Wa-

### Borger Wins Pigeon Races

Borger pigeons took the first five places in the second Top O' Texas Racing Pigeon Association contest.

The second race of the season was a 150-mile flight from Frederick, Okla. to Pampa and A. F. Casey placed first and fourth with his pigeons and A. J. Tipton took second and third place and fifth.

The winning bird posted 1011.01 yards per minute. Over 90 pigeons competed in the race.

Next race is Sept. 18 from Eldorado, Kan. to Pampa.

At former end, was moved to left guard and sophomore Craig Timko took over an offensive end spot. The Illini face Oregon State Saturday.

## HOW DO YOU BACK UP A PICK UP?

### DODGE DOES IT WITH

#### 6-YEAR OR 50,000-MILE ENGINE AND DRIVE TRAIN WARRANTY PROTECTION

Chrysler Corporation warrants for 6 years or 50,000 miles or 1500 hours of operation, whichever comes first, against defects in materials and workmanship. We will replace or repair at a Chrysler Motors Corporation authorized dealer's place of business gasoline engines (i.e., block, heads, and internal parts), intake manifold, water pump, flywheel, flywheel housing, clutch housing, torque converter, transmission (i.e., case and internal parts, excluding manual clutch), drive shaft, universal joints, driving axle and differential, and drive wheel bearings of its new Dodge conventional low-tonnage trucks (models D100, D200, D300), provided the owner has (1) the engine oil changed and universal joints (except sealed-type) lubricated and the oil-bath-type carburetor air filter cleaned every 3 months or 4000 miles, whichever comes first, (2) the engine oil filter replaced and dry-type carburetor air filter cleaned every second oil change, and dry-type carburetor air filter element replaced every 24,000 miles, (3) the crankcase ventilation system cleaned and serviced every 4000 miles, and (4) the transmission and driving axle lubricants changed every 32,000 miles. The foregoing services must be performed more often when reasonably required due to severe dust or regular "stop and go" operation. Every 6 months the owner must furnish to such a dealer evidence of performance of the required services and request the dealer to certify (1) receipt of such evidence and (2) the vehicle's then current mileage.

EVER STRIVING FOR THE TOP O' TEXAS  
TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

### In Defense of Poverty

We should like to say a few words in defense of poverty. Politicians have given poverty a bad name and it's high time some came to the defense of this much maligned condition. Poverty has been blamed for just about all the ills that have ever beset mankind and most recently it has been used to excuse murder, arson and pillage.

Our national political figures have just recently been joined by an eager group which has donned the suit of mail and is ready to loust with this elusive and "all evil" wind-mill.

Fie on you, sirs. Poverty as defined by Webster is "the lack or relative lack of money or material possessions."

Thus, a man with income of \$10,000 annually in a community with \$50,000 average earnings is a victim of poverty. By all means, we must do something for this poor chap.

Religious? Certainly, and certainly this isn't what the political wizards have in mind. But it is significant that poverty is defined as a "RELATIVE lack of money or material possessions."

Our Washington statisticians have proclaimed a figure of approximately \$3,000 annually as the magic figure separating poverty and non-poverty. Therefore, with their magic formulas and blank checks, poverty can be stricken from our land simply by adding the necessary dollars to everyone whose income is below that great parallel.

But this would be too simple. It, also, would not preserve as big a political boondoggle as will the "war on poverty," and would most quickly discredit the painful cries that poverty is the root of all evil.

Poor old poverty — what evils are committed in thy name.

Let's try to put the political ideas out of mind for a moment and examine poverty for what it is.

Basically it is simply the extension of the law of survival. To live, one must eat — to eat one must have food — to have food one must expend human energy. Those who are more skillful, more diligent and more wise in the use of human

energy will extend beyond "survival" to a position of "affluence."

It is the spectre of poverty which spurs man to work, for he wishes to gain money and the material possessions which extend his station ever further from poverty.

Poverty is the shadow which haunts and follows us all. To remove the threat of poverty is to invite a completely irresponsible society which puts nothing aside for that rainy day.

The government's "war on poverty" is as impossible as would be a war on pain.

Let us imagine a federal law declaring illegal the suffering of pain. Could our citizens then expect to stick a hand to a hot stove and suffer no discomfort? Of course not. It is the threat of pain; the awareness that it is always there which encourages us to be careful, promotes safety programs and develops protective devices for hazardous activity.

Pain is a necessary part of human life. So is poverty. Not the suffering of it, necessarily, but the awareness of it; the knowledge that they are real and that they are here to stay. The only way to avoid them is through individual effort.

The socialists would have us believe that poverty is merely some social illness which can be eliminated by the simple expedience of injecting subsidy checks into the community's veins.

It simply doesn't work that way.

And poverty, "the lack or relative lack of money or material possessions" is not at all what plagues us today.

We suffer from the effects of the evil "gospel" that it is as noble to live from the plunder of others as it is to live by the sweat of our brows.

There is an evil form of poverty, to be sure; the poverty of the human spirit. This is the sickness that lurks among our people and its victims are numbered among the "haves" as well as among the "have nots."

Is there one who will suggest the human spirit can be strengthened by the plunder of others?

### Strategic Retreat

High-placed friends of Soviet Communism have now beaten a strategic retreat from their efforts to get summit ratification of a Consular Pact with the Soviet Union this year. This pact, if ratified, would pave the way for the Soviet Union to set up Consular offices at several locations in the United States, the staffs of which would have diplomatic immunity. Should any of them be caught in the act of espionage, they could be neither held nor questioned by US authorities, but only ordered to leave this country.

Some observers have credited FBI Director, J. Edgar Hoover with being a prime obstacle to ratification in this instance. Several Senators cited Mr. Hoover's statement of last March that "a cherished goal of the Soviet Intelligence services was realized when the United States signed an agreement with the Soviet Union on June 1, 1964, providing for the reciprocal establishment of consulates in our respective countries." Most advocates of ratification no longer try to deny that the Soviets would staff their consulates with espionage agents, but act as though this would be of no significance.

As one opponent to ratification, Senator Dodd of Connecticut, has said, one can hardly blame the beatnik peace paradors and "teach-in" professors for their behavior when Congressional office-holders of both parties gloss over the never-ending tyrannies of Marxist governments. It simply makes no sense to offer further privileges to the Soviets in our own land, while they are shooting

### Cannel At Bay

By Ward Cannel

The Institute Answers Some Personal Problems

NEW YORK (NEA) — Before answering reader mail, we would like to take a moment to quell a nagging rumor — namely that we manufacture these letters of inquiry here at the Institute in order to match whatever answers happen to be in stock at the time.

Well, nothing could be farther from the truth (although we must admit to a secret hope that someone will write in to ask, "Where are alligators found?" because we have thought of a rather humorous reply to it).

But as regular readers know, that is not the sort of query the Institute usually receives. On the contrary, these letters are of a much more personal nature and reflect the deep bewilderments of mankind in today's uncertain world.

Suffice it to say there is no need to counterfeit bewilderments when they are available free at every corner. So if anything about them seems fictitious we have no knowledge of it.

The only ingredients we have manufactured pertaining to these letters are the people who write them.

To falsify a question for the sake of using an answer denies all of the work we are trying to do here at the Institute. As we always say, bewilderments come and go. But a solid person, carefully and scientifically constructed, can last a lifetime.

And now, a peek into the mailbox:

DEAR DR. CANNEL: I am an average American housewife with 2.3 children, 18.7 household appliances, and a creamy, schoolgirl complexion. However, I find that I cannot withstand any more complete television coverage of the United States Space program. Is that all right?

ANSWER: No. Our surveys here at the Institute show that you are in arrears 2.6 household appliances for this year's average.

DEAR DR. CANNEL: My wife is a beloved star of stage, screen and radio, but for some reason has not been offered a part in the past 18 years. Can you suggest anything to relieve this condition?

ANSWER: Theatrical personality problems are frequently difficult to solve. However, if you will send two boxtops to us here at the Institute together with any personal article of your wife's — a worn stocking or a hairpin will do — we will try to have her named the First Lady of the American Theater for Oct. Nov.

DEAR DR. CANNEL: I am an idealistic young college student in rebellion against today's materialistic values. Would it pay me to become a brilliant and sensitive writer whose works reflect the longings and disillusionment of my age. I am 41.

ANSWER: What you propose requires a lot of hard work. Send a check or money order to us here at the Institute together with a copy of your favorite book typed in triple space with wide margins. Also specify whether you know any book reviewers personally.

HERR DR. CANNEL: I am a high-ranking diplomat and top-level news source in my country which — as you know — is America's staunchest ally in Europe and looks to your nation for leadership in the common struggle of freedom-loving peoples everywhere against tyranny and aggression. However, I live in terror that a new fuhrer-type leader may arise unless I receive a stockpile of atomic bombs by return mail.

ANSWER: Postal regulations forbid the mailing of nuclear devices. However, we here at the Institute can promise you speedy delivery of atomic bombs should the need arise. In the meantime, we are sending you absolutely free the informative booklet, "1001 Things Any Boy Can Do In His Spare Time."

### HOW TO ADDRESS OUR LAW MAKERS

You may wish to write your senator and representatives in Washington and Austin. Here are their addresses:

(FEDERAL)

Rep. Walter Rogers, House Office Bldg., Washington 25, D. C.  
Sen. Ralph Yarborough, Senate Bldg., Washington 25, D. C.  
Sen. John Tower, Senate Office Bldg., Washington 25, D. C.

(STATE)

Sen. Grady Hazelwood, Amarillo, Texas.  
Rep. Grainger McIlhenny, Wheeler, Texas.

### Master of Fact

When a performer "ad lib," he is saying something which was not in the script, was not rehearsed. The term actually comes from music. "Ad libitum" (in Latin "at pleasure") is a direction signifying that the performance of the passage in question is left to the discretion of the performer, also that part of a work may be omitted.

### Question Box

QUESTION: "Is it true that we can lick mental retardation, by government action, as Vice President Humphrey contends?"

ANSWER: Not unless centralized planning of Communism can improve the well being of mankind on this earth. We cannot find any record where the government which takes away from an individual his responsibility of developing the inheritance that divine providence gave him at birth can change the inheritance of an individual. Genes are given to him at birth by nature and man cannot change them.

Humphrey contends that "history also will record the pre-eminent contribution of one man: President John F. Kennedy." Also, "a panel of experts that he set up offered the nation the boldest program for remedial action ever envisioned—both signed just one month before the President's tragic death."

Of course Humphrey doesn't tell, and neither did Kennedy show what an "expert" is. It takes a genius to recognize a genius, and certainly Kennedy or Humphrey are anything but geniuses as far as knowing the moral laws that promote peace and goodwill, spirituality, and mental development and physical energy.

All the laws they have advocated have taken away from the individual his responsibility and have helped him come to believe that the government can do something for him that he only can do himself.

This defeat of mental retardation by the government is just about as rational as the contention that the government can end poverty. Poverty can only be defeated by production and by letting each man get all he produces, no more, no less.

As Henry D. Thoreau said, "the only way the government can help production is the rapidity with which it gets out of the road." The only way the government can help mental retardation is with the rapidity which it gets out of the road and puts it up to individual responsibility and those who voluntarily want to devote their energies, money, and talents to helping those mentally retarded.

But the government selected by the majority, instead of helping it, will atrophy, and deaden and weaken the minds of those it claims to help.

### Wit and Whimsy

Pianist Moriz Rosenthal had a strong distaste for child prodigies, whose tender years gave them an advantage over established virtuosos.

At one time, he was introduced to a child pianist who was the sensation of the musical world.

Rosenthal — How old are you?  
Boy — Six.  
Rosenthal — And how long have you been playing the piano?  
Boy — Since I was three.  
Rosenthal (threw up his hands in an agonized gesture). — You have been playing the piano half your life, and you dare call yourself a prodigy?

—TILL DEBT DO US PART!  
I hope that some day I shall see  
The Joneses trying  
To keep up with me.  
—Anna Herbert.

A committee of three functions better when one man is sick and the others are out of town.

Molly — Were you excited when you first asked your husband for money?  
Dolly — Oh, no, I was calm — and collected.

P.O. Wit and Whimsy

### EVERYBODY'S BUSINESS

### Job Gives You an Identity; What About When It Ends?

By SAM CAMPBELL  
Business Editor

The problem of employer and employe alike is not to become his job.

For if a person obtains his sole identity from his work, he becomes a zero when he retires or when for one reason or another, he is laid off his job. The question is, what can a man do while he is yet employed to sustain his self respect and self identity in those periods when he will not be employed.

### Straight Talk

By TOM ANDERSON  
Communism: The Abolition of Property

Karl Marx said: "The theory of the Communists may be summed up in a single sentence: Abolish all private property. . . the ownership of property . . . must be swept out of the way and made impossible." Or a necessary step, if one can't plant cotton on his property, he does not really own it. If one can't hire, fire, buy from and sell to only those people he chooses, then he doesn't really own his business or his property. Once they have destroyed our property rights, our Power Elite will unfold the master plan to destroy human rights. Anybody with sittin' up sense should know that human rights can't exist without property rights.

### Pull Up A Chair

By Frank Markey

You can thank Leonardo Da Vinci for inventing the rotisserie. Legend has it that he devised a self-turning spit, powered by a paddle wheel which turned by the draft of the hot air in the chimney. So, there's really nothing new after all . . . We saw a back-to-school gadget that might be helpful to your youngster. It's an eight-lesson reading course for pre-high school students, which uses a device called a "reading pacer." A lesson roll is inserted into the pacer and moves at a speed controlled by the reader. It's designed to improve reading ability . . . There's no charge to Americans for the radio and television entertainment they receive, but it's a little different for Queen Elizabeth's subjects. Each and every one of them is soaked for a license fee if they own a radio or TV set.

Today's smiles: When the cops raided a night club featuring Oriental belly dancers, an exotic dancer almost knocked a burly officer over in her rush to get into the patrol wagon. He said: "What's the hurry?" She replied: "The last time I had to stand all the way to the police station."

The immortal Lou Gehrig, "Pride of the Yankees" when that club was the greatest ever assembled in big league baseball, was the greatest clutch hitter in the history of the national sport. He piled 23 home runs with the bases loaded, a record no other big leaguer has ever equalled . . . An insurance survey reveals that 5000 persons drown in this country each year, and two out of three drownings happen at bodies of water not intended for recreation. So, practice water safety.

### Hunt for Truth

BY H. L. HUNT

LESSONS FROM VIET NAM

It has been said that those who were condemned to repeat it. Whatever may be the outcome of the struggle against communism we are now losing in Viet Nam, we should be able to learn from the mistakes we have made there. We should resolve that such mistakes will never be made again.

No serious observer of our foreign policy, whether called Liberal, Moderate or Conservative, now denies that we are in deep trouble in South Viet Nam. No one any longer really tries to defend a policy which has brought about the complete collapse of stable government in a nation actually at war with communists within its own borders.

Arguments rage over whether we should withdraw completely, carry the war to the enemy, or merely try to hold on in a defensive position. But the sound and fury of these arguments can easily obscure the otherwise self-evident truth about how we came to such a pass.

We are facing disaster in Viet Nam today for one simple reason. Our government, urged on by certain desk-men in the State Department and in Saigon, convived at the violent overthrow of the friendly and stable government of President Diem just a little over a year ago, an overthrow that ended in his murder. Diem was the strong man who commanded the loyalty of the populace. There has never been a dependable government in Saigon since.

If we would only stop fighting our friends, we might some day be able to defeat our enemies.

Thoughts while shaving: Have you noticed that the new Salvation Army centennial commemorative stamp, which went on sale earlier this summer, showed only lettering and numbers? Well, it was the first such stamp to be devoid of portraits, symbols or other embellishments, and that's reason enough to make it a collector's item . . . Although most folks use oil heat now, coal mining is still a big industry here with close to 500,000 tons, worth \$2.5 million, mined each year. Most of it is used to produce electricity, and comes from Pennsylvania, Ohio, West Virginia, Indiana, Illinois and Kentucky . . . An Ohio baseball fan asks us who holds the record for having managed big league ball teams. The answer: Jimmy Dykes who, at various times in a long baseball career, managed the Chicago White Sox, Philadelphia Athletics, Baltimore Orioles, Cincinnati Reds, Detroit Tigers and Cleveland Indians. . . On a recent shopping tour we found a new liquid-cleaning polisher that should delight a nifty housewife. It's guaranteed to dissolve old wax, grime and stains, to emphasize the glow of fine wood, and it won't finger mark and cuts dusting down to once a week. Who could ask for anything more? . . . The Washington (D.C.) POST reported: "Younger Republicans appear
