

BRITISH STRIKE WITH PLANES, GUNS AT JAFFA

Europe Snubs Communists in Preparations for Big May Day

LONDON—(AP)—The Communists will have to celebrate May Day on their own this year in most of Western Europe's democratic capitals. Socialists and moderate labor groups are giving the Communists the cold shoulder as never before in planning for the traditional labor celebration Saturday. May Day was established as an international labor holiday in 1890 at a Socialist Congress in Paris. In most countries it has become labor day. The Russians have made it a national holiday, and this year they plan one of their biggest celebrations in Moscow. Huge pictures of Lenin, Stalin and other bolshevik leaders have been placed on buildings, and the city is going all-out in decorations. The Russians are combining celebrations, since May 1 is the third anniversary of the entrance of Russian troops into Berlin. In Western Europe, however, the Communists generally find themselves snubbed. Dual celebrations, in some cases for the first time, were called by Communists and non-Communists in London, Oslo, Paris, Berlin, Amsterdam, Brussels and Copenhagen. Even in Finland, which recently concluded a mutual assistance pact (See EUROPE, Page 8)

Elizabeth Will Not Intervene

LONDON—(AP)—Princess Elizabeth said she is sorry she can't ask royal clemency for a dog condemned to die for killing chickens. The dog's master, Norman Wilkinson, wrote the princess a plea yesterday. Her answer today said she "much regrets that the matter is not one in which she can exercise any personal intervention."

SPEEDING CHARGE
One man was fined \$10 on a speeding charge yesterday by Justice of the Peace C. I. Hughes.

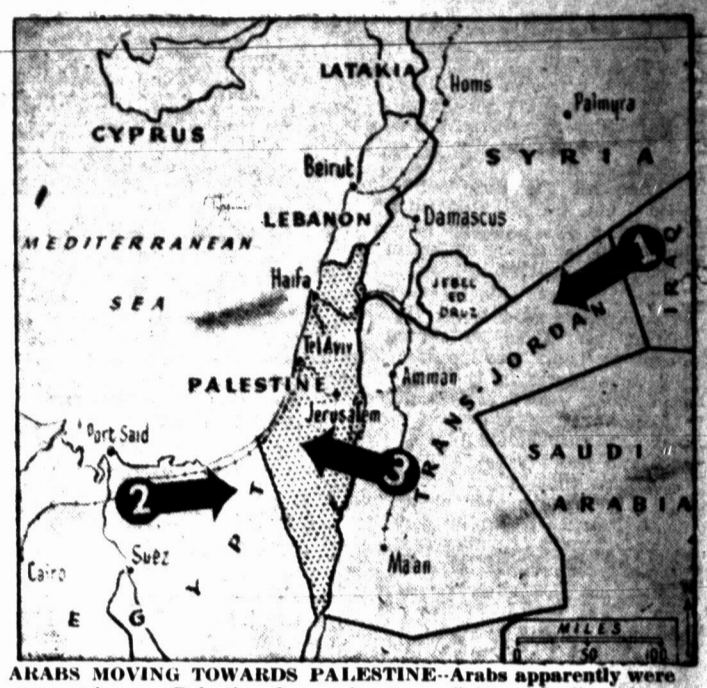

Egypt and Iraq Send in Armies

JERUSALEM—(AP)—The British struck with artillery and diving planes today at the battered Manshih Quarter of Jaffa, which Irgun Zvai Leumi captured yesterday after four days fighting with the Arabs. The promised British counterattack developed as officials of Egypt and Iraq said large parts of their armies were moving on Palestine. Sharp skirmishing occurred in the Jordan River Valley opposite Trans-Jordan.

Britain Will Withdraw Her Forces May 15

The Jews claimed capture of Beisan, 15 miles south of the Sea of Galilee. Beisan is a way station for Arabs filtering in from the east for the battle over partition. The Arab Legion informed King Abdullah in Amman it had occupied Gesh, a Jewish collective settlement in the Jordan Valley, and killed hundreds of Jews. The legion said the fight started Tuesday night when Jews killed legion sentry inside Trans-Jordan territory. Egyptian Communications Minister Asaki Pasha said in Cairo large Egyptian Army forces had been sent to the southern border of Palestine. Regent Abdul Ilah of Iraq said in Amman his country's Army had started moving toward Palestine and would pass through Trans-Jordan.

The main barrier to a truce is the fierce Arab-Jewish argument over further Jewish immigration into Palestine. The Arabs declare they won't stand for it, since this course it would turn the Jews, on the other hand, are expecting that the barrier against immigration will be removed when Britain withdraws officially on May 15. That would provide equally important to them, they also could import military materiel. Still negotiators haven't abandoned hope. They can't, because unless there is a truce, or it is possible to provide a U.N. force to maintain peace, there is bound to be war of extermination between Jews and Arabs.

ARABS MOVING TOWARDS PALESTINE: Arabs apparently were converging on Palestine for a showdown fight, unconfirmed reports indicated: (1) from Iraq, 8,000 troops on way through Trans-Jordan; (2) from Cairo, two trainloads of infantry moving towards Palestine; (3) King Abdullah of Trans-Jordan sending palace guard preparatory to taking command of his Arab Legion already in Palestine.

VOL. 47—NO. 19 (16 Pages) PAMPA, TEXAS, THURSDAY, APRIL 29, 1948. Price 5c AP Leased Wire

High Command Thinks Two Million Men Are Enough for U.S. Defense

WASHINGTON—(AP)—The high command, working with foreign policy farmers, thinks two million men are enough for defense—that more might be viewed abroad as a move toward aggressive war. The joint chiefs of staff, it was learned today, used such a diplomatic yardstick to help it measure the size of the recommended peacetime military establishment.

2 Injured In Bus and Car Wreck

Two Pampa High School students were hurt, but more than 50 others escaped injury in an accident involving a Pampa school bus and an automobile about 3:50 p. m. yesterday.

Thelma Jo Snider, 15, and Tommy White, 309 N. Hazel, were taken to Worley Hospital in a Clegg Funeral Home ambulance. Miss Snider was reported suffering from a fractured collar bone, but White was released after treatment for bruises.

The driver of the bus, G. C. Stark, 1018 E. Browning, told investigators highway patrolmen he was driving west on Texas Highway 182, about 3 of a mile west of Pampa. He was slowing down to discharge a passenger, when the accident occurred.

William Henry Chapman, driver of the automobile involved in the accident, told officers he was driving behind the bus at about 40 miles an hour. His brakes failed when he attempted to stop, and he careened off the right rear of the bus into a field.

Miss Snider and White, the only persons injured, were passengers in the car with Wanda and Letta McLeod, all Pampa High School students. Chapman was charged with having defective brakes and driving without an operator's license. The car, a 1941 Ford coach, is owned by Herbert McLeod, 520 N. Magnolia, officers said.

Stark said he was carrying more than 80 grade and high school students in his bus, but no one was injured.

3 Men Charged in Robbery Relate Story of Lawbreaking

Three youths who confessed to the Sunday morning robbery of Simmons Grocery and Market, are being held in the county jail pending investigation by the Grand Jury on charges of armed robbery. Justice of the Peace C. I. Hughes set a \$2,500 bond on each of the men.

The three, William Lemans, 19, of Detroit; Richard Miller, 20, of San Francisco, and Robert Corrado, 28, of Brockton, Mass., were arrested about 15 miles south of Borger Sunday afternoon by Sheriff Hugh Anderson, of Hutchinson County, after a 100-mile-an-hour chase.

EXECUTIVES CONFER—Sec. of State George Marshall arrives at the White House to confer with Pres. Truman for the first time since his return from the Inter-American Conference at Bogota. They are expected to review problems facing the U. S., with emphasis on the critical Palestine issue.

Mrs. Bentley Rites Today

MCLEAN—(Special)—Funeral services were to be held at 3 o'clock this afternoon at the First Baptist Church for Mrs. Ada Mac Bentley, a resident of this community with her family since November, 1905.

Married Nov. 7, 1897, the Bentleys had moved to this community in 1905. They celebrated their 50th wedding anniversary last November.

She leaves, besides her husband, M. D. Bentley, two sons—Clarence of McLean, and William E. of Clarendon; and a sister, Mrs. Annie Freeman, Mineral Wells.

Pallbearers were to be John Cooper, Euel Smith, A. G. Stokley, Boyd Reeves, W. C. Meharg and Clyde Andrews.

Neighbors Aid Stricken Farmer

MILLBROOK, Ill.—(AP)—Twenty-five tractors chugged into the 300-acre farm of Hubert Bryant on a good-will mission yesterday. Bryant's wife and five-year-old son were killed last week when the tractor they were riding to the fields to help him overturned and crushed them.

Without invitation and with no fanfare, Bryant's neighbors drove their tractors into his fields. By nightfall 150 acres had been plowed, manure had been spread and the fields were ready for corn planting.

Plans Made For Speaking Tour by HST

By The Associated Press Plans were shaping up today for a cross country speaking tour by President Truman only a month ahead of the Democratic national convention.

Unless developments in Washington or abroad intervene, Mr. Truman is scheduled to open his personal appearance campaign June 2 in Chicago. There he is to address a Swedish immigration celebration.

As far as was known, Irgun appeared determined to try and hold the Arab Quarter. Throughout the night, Irgun forces dug into defense positions and brought up fresh troops.

British shells fell in the Manshih Quarter. Early damage and casualties were reported small.

The news of a cease fire for the old walled city of Jerusalem was received here with optimism. Neither the Jews nor the Arabs, however, had received instructions by early afternoon to cease fighting, as their spokesmen agreed before the United Nations.

An Arab National Committee spokesman said he had no word from his leaders about the truce. A Jewish Agency spokesman said the same, but added:

"If there is a truce, it must mean the Jews and Arabs can well about freely in each other's quarters. The Jews would have access to enter and leave the old walled city. At present, all areas around it are held by Arabs. A truce inside the walled area will have to mean access to it through the Arab controlled sections."

Insane Man Kills Officer

ADAIRVILLE, Ky.—(AP)—An insane Negro shot to death Chief of Police Rufus Barrow, 60, with the officer's own pistol today, then for more than an hour stood off officers before he finally was overpowered.

The Negro, listed as Ed Burkes, 20, had been adjudged insane and was in custody of the officer, awaiting a bus to take him to an institution. The prisoner seized the officer's gun, fired him and fired shot after shot into his body.

Then the man, waving the gun menacingly, took up a position over the officers' body and defied police and sheriff's deputies to approach him. The officers refrained immediately from attempting to seize him, lest he start shooting into the crowd of several hundred who quickly gathered.

Reporter Pays Debt to Boy

NEW YORK—(AP)—A newspaper reporter took a little boy to the circus yesterday. Under the circumstances, he thought it was the least he could do.

Several weeks ago John O'Reilly of the New York Herald Tribune, wrote a story about the Ringling Brothers and Barnum and Bailey Circus arriving at Madison Square Garden.

Above his story was a picture of the elephants parading in front of the building. It was a small boy, and later this letter came to the newspaper:

"Dear Mr. O'Reilly: You took a picture of the elephants marching down the street. I paraded in front of them from E. 84th St. and Second Avenue all the way down to the Garden."

"For punishment my mommy won't let me go to the circus. I went too far from home. You did not have to put the picture in the paper and get me in trouble."

"Yours truly, Dion Rummage." O'Reilly, though not directly responsible for the picture, called and persuaded them to alter the punishment.

Yesterday O'Reilly took Dion to the circus. The names of the children were not learned immediately. The oldest was a boy of about 16 years.

Stock Exchange Strike to End

NEW YORK—(AP)—United Financial Employees (AFL) today voted to return to work at the New York Stock Exchange, and a four brokerage houses and end their month-long strike.

The union acted at a special meeting after Mayor William O'Dwyer requested them to resume work at wage increases offered by the exchange pending city investigation of the wage issue.

There was no immediate announcement of when the strikers would return to their jobs. The strike against the Stock Exchange and the New York Curb Exchange started March 29. Later it was extended to four brokerage houses.

The Curb Exchange dispute was settled about two weeks ago.

Reporter Pays Debt to Boy

NEW YORK—(AP)—A newspaper reporter took a little boy to the circus yesterday. Under the circumstances, he thought it was the least he could do.

Several weeks ago John O'Reilly of the New York Herald Tribune, wrote a story about the Ringling Brothers and Barnum and Bailey Circus arriving at Madison Square Garden.

Above his story was a picture of the elephants parading in front of the building. It was a small boy, and later this letter came to the newspaper:

"Dear Mr. O'Reilly: You took a picture of the elephants marching down the street. I paraded in front of them from E. 84th St. and Second Avenue all the way down to the Garden."

"For punishment my mommy won't let me go to the circus. I went too far from home. You did not have to put the picture in the paper and get me in trouble."

"Yours truly, Dion Rummage." O'Reilly, though not directly responsible for the picture, called and persuaded them to alter the punishment.

Yesterday O'Reilly took Dion to the circus. The names of the children were not learned immediately. The oldest was a boy of about 16 years.

Damage Heavy to Cars in Collision

Damage estimated as close to \$500 was done to two cars in collision at the intersection of Hobart and Kentucky about 5:40 p. m. yesterday.

The driver of the first car, a 1937 Chevrolet coach, gave his name to investigating officers as Joe L. Brewer, 745 E. Malone.

He said he was headed south on Hobart when the collision occurred. After the impact, his car rolled over twice, doing an estimated \$250 damage.

The second car was driven by a man who gave his name as Bruce Miller, a salesman of Liberal, Kans. He told officers he was driving west on Kentucky before the accident. He was charged with failing to grant right of way, officers said.

Damage to Miller's car was estimated at \$175. Neither man was injured.

Good Progress Seen In Clean-Up Drive

Forty-seven loads of trash were taken from Ward Three in Pampa's annual Clean-Up campaign yesterday, and nine volunteer trucks began work in Ward Four this morning.

The directors of this year's campaign announced today that they were well pleased with the progress so far. Everyone has cooperated to the fullest extent by stacking their trash where it could be picked up easily, and there have been plenty of trucks available.

The final stage in the clean-up will be conducted tomorrow. If any one has been missed, he should call Ray Salmon at the City Health Office in the City Hall. Several trucks will be out tomorrow to pick up these strays, Salmon said.

The city began using its DDT fog applicator in Ward One yesterday, instead of waiting until early next week, as was previously reported.

The machine mixes DDT and ultraviolet light pressure and throws a penetrating fog over a wide area. The fog is completely harmless to any living plant or animal, even food exposed to it is safe. Persons along the route of the sprayer are asked to leave their windows open to give the fog its maximum penetration. The only living things that can be harmed by the fog are flies and mosquitoes, Salmon said.

It has been pretty well proven that the fly is the carrier of the deadly poliomyelitis virus, Salmon explained. If the fly can be eliminated, outbreaks of polio epidemics should be extremely rare.

A machine similar to the one the city now has used in San Antonio during a recent polio epidemic. A chart prepared at the time showed the number of new polio cases took a very sharp drop immediately after the fog applicator was put into use.

The killing effectiveness of this fog has for several weeks, and it is planned to spray the entire city of Pampa several times this summer in order to eliminate the fly and mosquito completely.

The machine will also be rented to towns surrounding Pampa, Salmon said.

Family of 5 Dies in Fire

MIDLAND—(AP)—A family of five Mr. and Mrs. Gordon Blanton and their three children perished today in the burning of their home four and one-half miles west of here.

Iron bed posts and other metal furnishings were all that was left of the dwelling after it was swept by an early morning blaze of unknown cause.

Midland Chief of Police Jack Ellington said Blanton's body was located in what evidently had been the kitchen and that Mrs. Blanton and the three children had died in their beds. The fire was reported at about 4:30 a. m. by Woodrow Stewart, a neighbor. The frame dwelling was engulfed in flames by the time Midland firemen and policemen arrived.

Mantz Attempts To Break Record

HOUSTON—(AP)—When speed flyer Paul Mantz flies back to the West Coast either today or tomorrow he hopes to better his own time of 3 hours, 6 minutes and 38 seconds, set yesterday.

"I think it's a record," he said, "at least I meant it to be." He said he got the idea to attempt the speed flight while in Dallas last month. "I had to wait over three and a half hours for an airliner while enroute to Houston and I thought if I could make the trip in the same time I was delayed there," he explained.

He said his average speed was 451 miles an hour. He flew a converted P-51.

Mantz came here to see Glenn McCarthy, Houston oil man. McCarthy said Mantz would compete in the 1948 Bendix Air Race under the McCarthy banner.

Who Let the Cat In Bag, Not Out?

DALLAS—(AP)—The question was not who let the cat out of the bag but who let him in. Carl Alexander of M. A. Rife's Laundry heard a small but urgent "meow" from the back of his truck as he drove along his route.

He kept driving but when the sound grew insistent, he stopped the truck and started opening laundry.

Suddenly a multi-colored kitten stuck his head out of one of the bundles.

Today

120th Day of the Year. On this day, in 1816, the Congress passed a bill to build a year for eight years to build warships. Alexander's cat, Hattie, was born on this day in 1918. He was the emancipator of the south. The Army Corps of Engineers dynamited a levee near New Orleans to save the city from flood. The headline on the front page of the Dallas Morning Star on this day in 1944, the headline announced the death of Secretary Knox. A verse from the Bible for today: "Thou madest man to have dominion over the works of hands; thou hast put all things under his feet."—Ps. 8:6.

IT'S THE HUSBAND WHO GOES TO THE CLEANERS

By HAL BOYLE
NEW YORK—(AP)—Spring housecleaning used to involve only a determined wife, an unwilling husband—and a few arguments. For a day or two the place looked like it had been hit by an untidy typhoon. When all the dirt had been scooped out, the glaze died down in the lady's eye, and she limped to her couch for a long afternoon nap—victory at last.

The husband's role in the entire procedure consisted largely of supplying grunts as he shoved the furniture back into position, over the worn places in the rug. His pocketbook wasn't bruised much.

Today "housecleaning" is as complex as a military amphibious landing—and about as expensive.

At least that is the situation in my client, Frances' case at the moment. Frances began by describing

Texas Today

By WILLIAM C. BARNARD
 Associated Press Staff
 Alfonso Johnson hunts through the Bible for human interest material.

He's found plenty in 15 years. Native of Iowa, Johnson was raised in Missouri, graduated from the University of Missouri, was business manager of a Japanese newspaper for a couple of years. Later he was U. S. trade commissioner for Japan and then returned to the U. S. where he was in newspaper work until 10 years later, he became manager, in Dallas, of an Insurance Agents Association, a job he still holds. Johnson began teaching Presbyterian Sunday School 24 years ago. He started finding odd things in the Bible.

"The Bible," he says, "helps to complete and enrich our daily conversation. Our government, and laws, trades and professions can be traced back to Biblical times and Biblical writers."

"The man who today 'has a lot of fear by the tail' was described in Proverbs as 'one that taketh bread in Jerusalem; and they divide it among the ladies of her court before she left Versailles for the last time."

Marie Antoinette prized her collection of lace so highly she divided it among the ladies of her court before she left Versailles for the last time.

Girl's Letters Spur International Relief

WORTHINGTON, Minn. (AP)—Tons of relief supplies have been shipped from Worthington to war-shattered Crailsheim, Germany. And about 200 citizens of each town write to each other. It all started when Martha Cashel, 11 years old, began writing to a girl in Finland.

Her parents, Mr. and Mrs. Charles Cashel, after sending gifts to their daughter's friend, sponsored extension of the project. Crailsheim was chosen through Combined Relief Agencies Licensed to Operate in Germany (CRALOG) because it was similar in size and makeup to Worthington.

The idea caught on although some veterans opposed it at first. Worthington sponsors of the plan say it has paid off in exchange of ideas and pleasure at doing good work.

"The idea caught on although some veterans opposed it at first. Worthington sponsors of the plan say it has paid off in exchange of ideas and pleasure at doing good work."

"Long before travel editors encouraged summer trips, some folks evidently stayed too long when visiting: 'Withdraw thy foot from thy neighbor's house, lest he be weary of thee and so hate thee.' (Prov. 25:17)."

"BLUE WHALE UNIT"
 An old whaling industry phrase, the "blue whale unit" is the yardstick of the catch. By it a blue whale is equal to two finback whales, to two and one-half humpback whales, or to six sei whales.

From where I sit... by Joe Marsh

Sam's Hens Wear Spectacles!

Yes, it's a fact! Sam's brood of two dozen hens are wearing spectacles—which he bought from a mail-order house in Capitol City.

Sam says it works (and big poultry raisers say so, too). The hens see each other through soft colored glasses, and instead of fighting and picking at each other, they go around placidly, gain weight, and lay more eggs.

Makes me almost wish we could have rose-colored glasses for human beings, too. So that instead of quarreling and criticizing, like we do so much of the time, we'd live and let live in contentment.

From where I sit, the human race wastes a powerful lot of time in wrangling over minor issues... whether a man should drink beer or cider... whether a woman should wear slacks or skirts... instead of seeing each other through "spectacles" of tolerance that enable us to live-and-let-live like Sam's brood of chickens.

Joe Marsh

THE BIG WHITE TRUCK IS COMING!

Good News For Folks Who Suffer From

- STOMACH GAS
- SOOR FOOD TASTE
- ACID INDIGESTION

Do you feel bloated and miserable after every meal. "Acid sour, bitter food?" If so, here is how you may get blessed relief from this nervous distress.

Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles. If this food may ferment, Sour food, acid indigestion and gas frequently cause a morose, touchy, fretful, nervous, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that SSS Tonic is amazingly effective in increasing this flow when it is too little, or weak, due to a non-organic stomach disturbance. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice plus rich red-blood you should eat better, sleep better, feel better, work better, play better.

Avoid punishing yourself with over-doses of soda and other alkalis to counteract gas and bloating when what you so dearly need is SSS Tonic to help you digest food for body strength and repair. Don't wait until the best of happy people SSS Tonic has helped. Millions of bottles sold. Get a bottle of SSS Tonic from your drug store today. SSS Tonic helps Build Sturdy Health.

Plans Made to Complete West Texas Museum at Lubbock

FORT WORTH —(AP)—Directors of Texas Technological College gave the go-ahead yesterday for completion of a West Texas Museum on the campus at Lubbock which will add another \$100,000 to the \$4,400,000 building program now underway.

The board meeting at the Fort Worth Club, in a called session to consider the 1948-49 school year budget authorized employment of an architect to draw up specifications for the building sponsored by the West Texas Museum Association, so bids may be advertised for the work.

The board pledged to contribute \$50,000 toward the project and the museum association will raise all above that amount. The concrete basement structure was built several years ago on the right of the campus esplanade.

Board Members Charles Woodruff of Dallas and Leon Ince of Houston called the incompleting segment "a campus eyesore" and Woodruff said he thought it should be abandoned and the museum be relocated at some other spot. President Whyburn agreed this would be an ideal location for a large classroom building but Board Member O. B. Rattiff of Lubbock reminded the board members "there is considerable emotionalism involved."

President Whyburn, who has submitted his resignation effective August 31, submitted a preliminary report to the board on the 3 1/2 years of his administration. Thompson appointed Mark McGee of Fort Worth, Robert Price of El Paso and A. G. Mayse of Paris as a committee to prepare a resolution to be submitted at the June 7 meeting in Lubbock commending Dr. Whyburn's administration.

McGee asked jokingly "When are you going to tell us you are going to North Carolina University?" Whyburn has not confirmed officially yet the name of the school whose faculty he will join. State Auditor C. H. Cavness met with the board to explain provisions of the Legislature's last appropriation measure which requires each state college to set up a new auditing system under which that school's governing board must authorize each expenditure over \$100 and must make monthly reports to the state auditor. He said an audit of Texas Tech's finances to put this new system into effect would cost approximately \$2,500 and the board approved that expenditure.

ROBBERY

(Continued from Page 1)
Corrado was a trumpet player with various dance orchestras in Massachusetts until 1946, when the loss of two front teeth prevented his continuing in that field. He had played the trumpet since he was 10, Corrado said. After the death of his parents he helped support his sister.

You Need Hair To Be a Soldier

WASHINGTON —(AP)—Complete baldness, bad breath and unusual fatness were among little-known causes of disqualification for U. S. military service during the war, Dr. Louis Carp, describing his experiences at New York's Grand Central Palace induction station, says. Men with such defects were turned down, because of the possibility of upsetting morale or exposing the men to ridicule.

"Unhappily, very obese men with unusual fat distribution," he writes in the magazine Military Surgeon, "were not only had potential risks, but they might come in for some chronic ribbing. . . . Total (baldness) was not only unsightly but it could easily make a man the butt of a company."

Tattooed men were okay, and Carp said the percentage of tattooed selectees "was considerably higher than is generally believed." Carp tells of one chap who had a black cat and the number 13 tattooed on his arm. "It had always been lucky for him," related the doc. "His most recent lucky episode occurred on Friday, April 13, 1945, when he was among a group of 13 doughfoots who escaped from a German prison camp."

JIMMIE DAVIS MARGARET LINDSAY

Otey Leads Oilers to 11-6 Win Over Dukes to Split Series

Three Teams Tied for Third in Texas Loop

By the Associated Press
There's daylight between the Oilers and the other six clubs in the Texas League race today but it's a matter that can be changed by a few bobbles.

Last night Fort Worth whipped Houston 9-5, while Beaumont edged Dallas 7-6, and San Antonio set to Tulsa 6-1. And the upshot was that a three-way tie for second was broken and instead there is a triple deadlock for third.

However, there still is a rather small working margin between first-place Fort Worth and second-place Tulsa — just 3 1/2 games to be exact.

Shreveport was moving into a tie for third with Houston and Beaumont by downing Oklahoma City 4-1.

For a change, the Fort Worth opposition was having words with the umpire last night. Manager Johnny Keane and first baseman Johnny Hernandez were tossed out as the Cats strangled Houston by scoring three unearned runs in the eighth.

Sal Madrid singled with the bases full in the eleventh inning to bring San Antonio's victory. The triumph ended San Antonio's losing streak at three games. The Missions' Bill Sommers hit a home run in the ninth to force the game into extra innings, but when it appeared Dallas had it in the bag.

Harry Perkowski left-handed his way to a five-hitter in giving Tulsa victory over Beaumont. Perkowski also showed that pitchers do hit some of the time as he tripled in the fifth to touch off a five-run Tulsa spurge.

Pitching also featured Shreveport's win over Oklahoma City. Johnny Wood scattered seven Indian hits while the Sports cashed in on eight blows. Shreveport led all the way, getting off to three runs in the first inning.

Dallas continues at San Antonio, Fort Worth at Houston, Oklahoma City at Shreveport and Tulsa at Beaumont tonight.

Although Canada is now becoming industrialized, more than half of its population ten years ago was engaged in agriculture.

ALBUQUERQUE — (Special) — R. C. Otey led a 15-hit attack, principally on Oscar Potet, making his first start of the season, as the Pampa Oilers whacked the Dukes, 11 to 6, here last night for an even break on the two-game series. Otey socked a triple, a double and two singles.

The Oilers took a 4-1 lead in the fourth inning and Avon Driggers kept the Dukes safely at bay thereafter.

A five-run spurge in the eighth, found marked in the end of Potet and brought Ray Machado in to retire the side. Joe Behl pitched a scoreless ninth inning.

Six errors, two by Potet, helped the Oilers in producing their runs.

The Oilers made their first run in the opening frame on Otey's single. Potet's error and another single by Harriman. Singles by Feduniak and Belford, Otey's triple to left field and another throwing error by Potet figured in three runs that the Oilers collected in the fourth.

Pampa picked up two more markers in the seventh on Bowen's error, Riley's single and Range's double. And the game got completely out of the doubtful class in the eighth when three doubles and a pair of singles produced five runs.

Woodrow Wilson Wins Ward School Softball Playoff

The ward school softball playoff has been completed with Woodrow Wilson boys winning their final game from Horace Mann by a score of 12-8.

This gave Woodrow Wilson boys first place with three wins and no loss. The Horace Mann boys placed second with two wins and one loss.

The Sam Houston girls' team won in the girls' division with three wins and no games lost. They won the final game from the Baker girls by a score of 24-8. The Baker girls won second place with one win, one loss, and one tie.

Citation and Coaltown Major Topics of Derby Discussion

LOUISVILLE — (AP) — A lot of things besides corks were popping in derbytown today along with the first "big push" of incoming tourists for Saturday's Kentucky Derby, but you couldn't cross the street without picking up either "Citation" or "Coaltown" on the ear drums.

While incoming regular trains, planes and buses were supplemented by specials from all points on the compass, the major topic of conversation was which of Warren Wright's stars would cop the big money in the derby's \$100,000 stake — not to mention a \$5,000 gold cup and the horseshoe blanket of roses that goes to the "champ."

Wright said both his derby acts would be sent out to win.

Talking about the other probable starters in the mile and one quarter turf classic in the same breath with the Calumet colts just isn't being done.

My Request, Escadru, Billings, Grandpere? What are they horn-

ing into this deal for?
The streetcar motorman, shoe shine boy, taxicab driver, corner cop, waitress, or bellhop waste no time on trivialities. Oh, sure, some horse has to finish third, they guess.

As for the size of the derby field itself, nothing can be certain until Jupiter Pluvius decides whether or not to deliver some rain.

At the moment it looks as though six three-year-olds will go postward around 4:30 p. m. (CST). In addition to the Calumet pair, they are Ben Whitaker's My Request, William L. Brann's Escadru, Mrs. John Payson Adams' Grandpere, and R. W. McIlvain's Billings.

Scientists, many years before anyone ever heard of such things as atomic bombs, suggested the idea that worlds, in extreme old age, lose their stability and are destroyed by atomic explosions.

Spahn Faces Only 28 Phillies As Boston Scores 7-0 Victory

By the Associated Press
Things are looking up for Billy Southworth and his Boston Braves after a week of disaster. Excellent pitching jobs by Warren Spahn, Red Barrett and Bill Voiselle have lifted the would-be contenders from the cellar gloom.

Spahn's first win of the season yesterday marked the return to normalcy of Manager Southworth's gang. For Spahn and Johnny Sain, as 20-game winners last year, were expected to lead the Braves toward the 1948 flag. Spahn missed his first time out and Sain failed twice.

Spahn's job was a real sparkler. He faced only 23 Phillies in his 7-0 victory, walked none and fanned four.

Johnny Vander Meer made it a left-handed day in the National by stopping Chicago with six hits while his Cincinnati mates clubbed Johnny Schmitz and Don Carlson for 12 hits.

The Reds' southpaw reversed the trend of his first outing when he walked 12 men. Yesterday he passed only two assuring himself

of win No. 1 by an 8-1 score. The victory put the Reds in a four-way tie for second place at 500.

There was bad news for Cincy, too. Catcher Ray Mueller fractured his right ankle sliding into home. He will be out for 60 days.

The New York-Brooklyn game was rained out but both clubs provided disturbing news. From the Giants came word that catcher Walker Cooper, who has hit four homers, has a chip fracture on his left knee. He was injured April 21 but caught four of the last five games. He will be out several days.

Pitcher Harry Taylor of the Dodgers learned he may have to undergo an appendicitis operation.

Cold weather postponed the scheduled night game between St. Louis and Pittsburgh in the National. In the American Washington at New York, Boston at Philadelphia and Cleveland at Chicago were called off because of cold, rain or wet grounds.

Detroit took the sole American League game, 9-4, over St. Louis with a 15-hit assault on four Brownie pitchers.

The purple finch is not at all purple. The male is of an old-rose color and the female has the general sparrow-like appearance.

Both two o'clock Dutch will be local. The family will be local. Both two o'clock Dutch will be local. The family will be local.

Sadow and Vaqui Joe To Wrestle

Walter Stratton of Youngstown, Ohio, and Billy Hickson, of Knoxville, Tenn., will match holds to night in the main event of Pro-motor Vic Burnett's weekly wrestling card at the Sportatorium.

On the semi-final windup of the evening Vaqui Joe of Mexico will tangle with Young Billy Sadow of Toledo, Ohio. Three of the above-mentioned are all familiar and equally popular to local gripping fans. Vaqui Joe will be the only newcomer to the local ring.

Both events will be the best two out of three falls with a one hour time limit. Referee will be Dutch Jones of Borger. Action will begin at 8:15.

Although Formosa was seized by Japan about 50 years ago, the majority of its population are descendants of Chinese who crossed over from the mainland back in the 17th century.

WT-NM League Is Averaging 69 to 94 Runs Per Night

DALLAS —(AP)—The West Texas-New Mexico League is off on another run tonight but, says President Milton Price, don't let those big scores fool you—the loop isn't rank bush league at all.

The fences are too low and the altitude is too high, he says. The league is averaging from 69 to 94 runs per night, which is spiking the pan aplenty.

There have been some one-sided affairs, too, such as Albuquerque hitting Lamesa 24-4, Lamesa blasting Lubbock 29-9 and Borger "nosing out" Lamesa 29-2.

"Some of those places couldn't have fences as high as other leagues because the wind would blow them down," says Price. "In other instances the grounds prohibit making changes. The fences average from 325 to 345 feet in left field. Where the field is the longest way out—Albuquerque—we have fewer runs than in the other parks. The altitude is largely responsible for the ball carrying so far."

The new British House of Commons now being built from the bomb-blasted ruins of the old one is not expected to be completed before April 1950.

About half of Canada's exports have been on a credit basis.

Lamesa Clings To Narrow WT-NM League Lead

By the Associated Press
Lamesa's Lobos cling to a narrow lead today in the West Texas-New Mexico League. And as Amarillo for second place by beating the Gold Sox 14-7 with Man-

Lobos should keep it. Last night Lamesa used the circuit smash route in beating Borger's Gasers 21-7. Ted Friar hit two homers and Bob Murphy and Ed Skidgel each slammed one apiece for the Lobos.

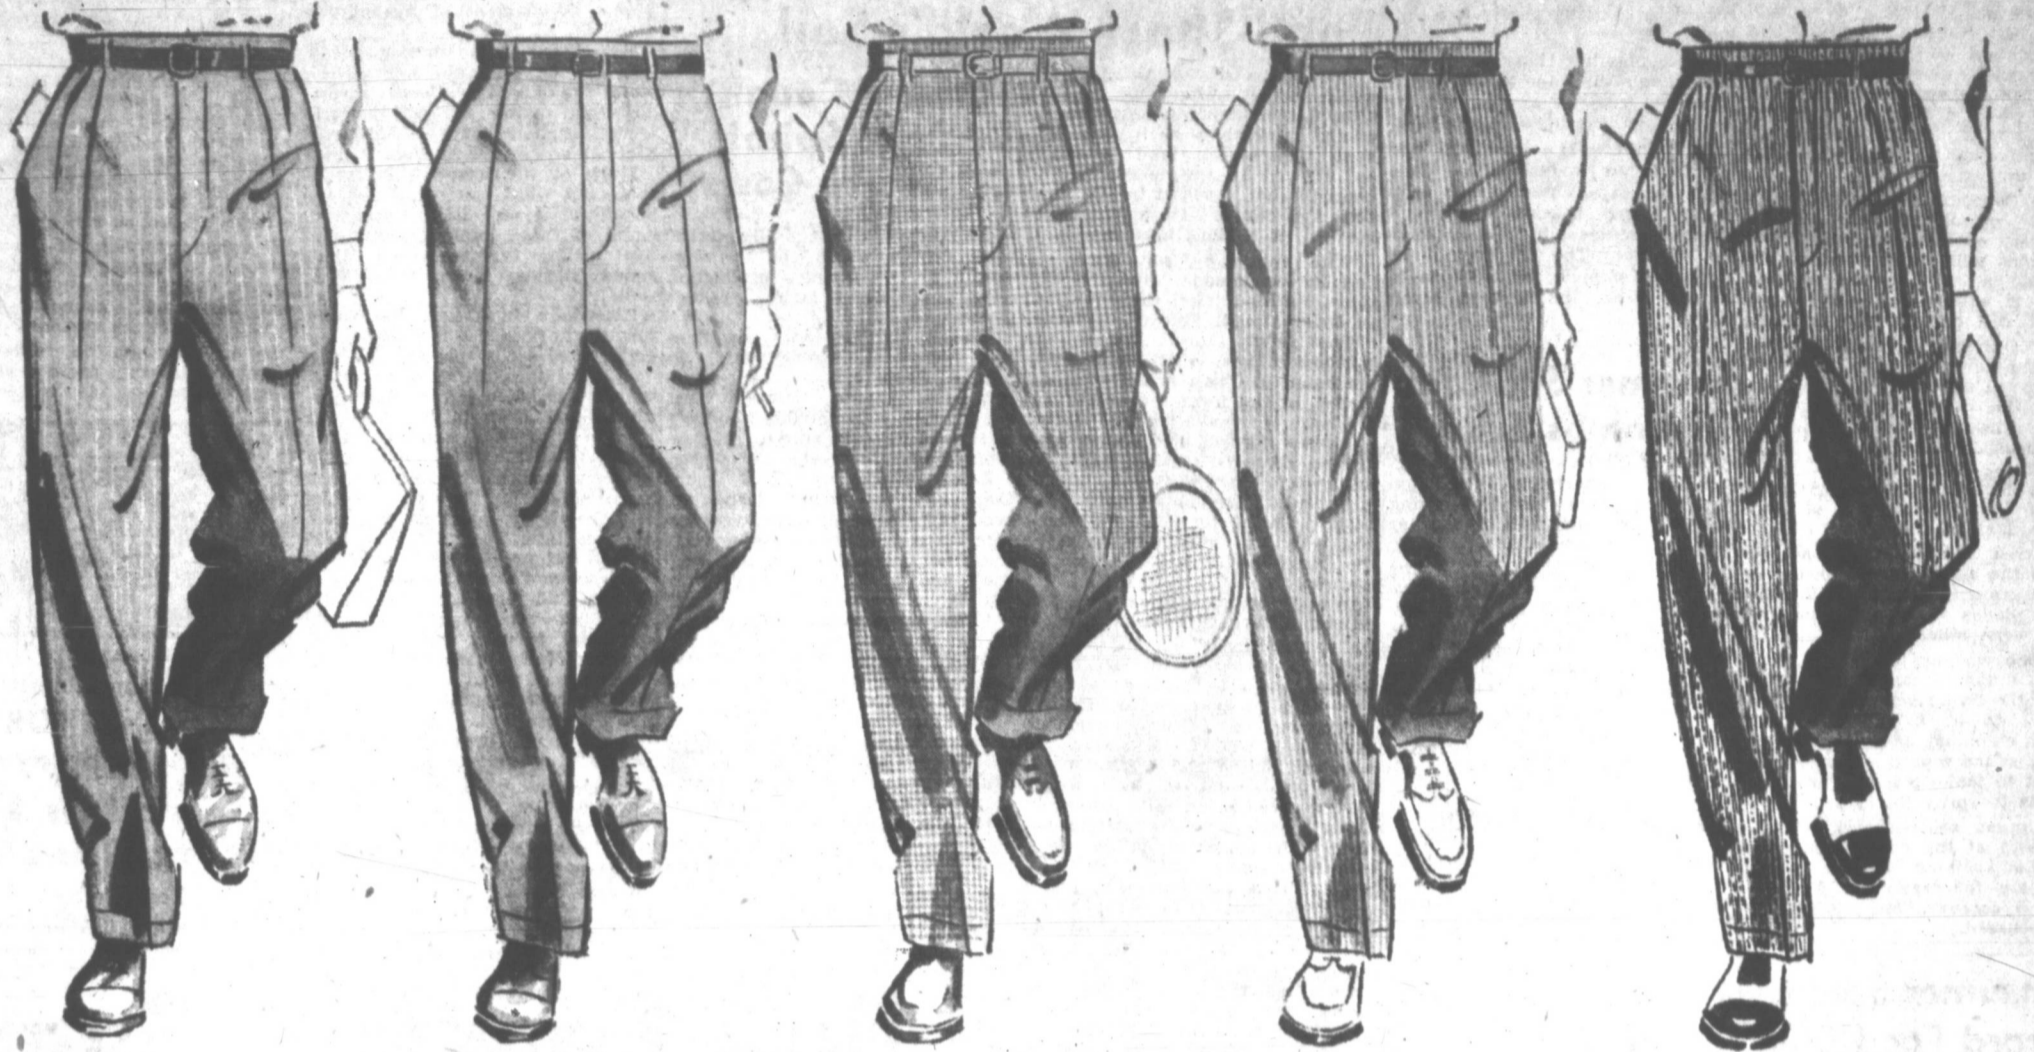

ager Art Bowland rattling homers. Pampa's Oilers downed Albuquerque 11-4 with a 10-hit attack, while Lubbock rallied for five runs in the eighth to beat out Clovis 11-10.

Pact Will be Signed April 29

BOGOTA, Colombia —(AP)—An organic pact binding 21 western hemisphere republics will be signed here April 29—eve of the closing of the latest Pan-American Conference. The treaty includes basic regula-

THE BIG WHITE TRUCK IS COMING!

tions and functions of the Pan American system. The conference's Steering Committee voted to hold the next Pan American meeting in Caracas, Venezuela, in 1952 or 1953. The earth's population has doubled in the last century.

Farmers Plan Several Soil Saving Modes

J. T. Roberts is planting an old field to grass on his farm two miles west of the red school house, the Roberts County Soil Conservation office in Miami said.

Roberts is using a mixture of blue grama grass and buffalo grass, which are the grasses that make up the native sod in this region, the office announced.

Jake Osborne is constructing an erosion control dam and several diversions on his river ranch. The diversions will carry the water out onto a level strip of land where it will spread out enough that it will not do any damage.

Tom O'Bryan is marking off a thousand acres of sage brush to be sprayed with 2-4D from an airplane, the latter part of next month. The spraying will kill the sage brush and weeds and leave the grass. Sage can be killed easiest during its period of rapid growth from the middle of May to the last of June.

An area sprayed should not be grazed the first year in order to let the grass thicken and fill some of the places where the sage and weeds were killed out.

Anyone wishing to do this work should make arrangements with one of the living companies equipped to do it. It is difficult to get the chemical, the Roberts County office reports, so it is important to make plans before it is too late to spray this year.

A film on soil conservation will be shown at the next meeting of the Miami Men's Service Club, and plans for organizing a standard soil conservation district will be discussed.

Consumer Spent Record Food Sum

Consumers spent 29 percent of their incomes for food last year, and set a record for that share of their living costs, Francis A. Kutish of Iowa State College writes in Capper's Farmer.

Before the war, only 23 to 24 percent of the consumer's income went for food. The winter break in grain and livestock prices probably was part of a return to more nearly prewar food spending habits. We have evidence, Kutish says, that consumers have been reconciled to less meat and will not bid as high for the choicer cuts as some earlier thought they would.

Sugar Outlook Good For Farm Consumers Now

Sweet words for the farmer's wife as a consumer: we have plenty of sugar and we'll have plenty next year. A big Cuban crop of six million tons is coming up.

Domestic beet sugar producers think they have broken their old record by growing nearly two million tons.

The September hurricane cut down Louisiana cane production a little, but growers are hopeful for next season. Florida's crop is good. Furthermore, Hawaiian and Puerto Rican producers have done well, and expect next year's crop to be bigger, barring labor and weather troubles, the Farm Journal reports. The Philippine Islands are shipping 200,000 tons to us this year, the first in seven years.

Summer Shortage Of Lambs Feared

WASHINGTON (AP) — The Agriculture Department predicted supplies of lamb meat this spring and early summer will be smaller than a year ago.

Short feed supplies in some areas, particularly such major producing states as Texas and California, and bad weather in some other areas were blamed.

Capper's Farmer reports that condition of the early lamb crop said to be above average.

Vets Perfect Cattle Vaccine

Veterinarians in Argentina have successfully used a new vaccine to immunize cattle and sheep against foot and mouth disease, Capper's Farmer reports.

Among a million animals thus far immunized, 92 percent were completely protected against infection for 6 months or longer.

The vaccine is said to give cattle and sheep quicker, better, and more prolonged immunity at lower cost than others now in use. The new product is not effective for hogs, however.

Girl Just Liked Grandmother Best

ST. JOSEPH, Mo. (AP) — A carload of police raced to the spot where a telephone caller reported a man was trying to force a screaming girl into his automobile.

No arrest was made. The motorist told police:

"His small daughter had spent the day with her grandparents and thus far resisted all efforts to coax her into the car to go home. A spanking had been responsible for the screams the neighbors called police about."

That's Really Flat!

Dan Clinton, Harris County agent, says the land around Houston is so flat you can lay a 2 by 4 edge-ways and back up water for half a mile.

We recap and vulcanize all size passenger car and truck tires. Also repair all size tractor tires.

Unhalted Erosion Ruining Food-Short World's Soil

WASHINGTON — Although the world is not producing enough food for its inhabitants, who increase in numbers each year, millions of acres of land annually are allowed to become eroded and unproductive, a report by the Food and Agriculture Organization of the United Nations here discloses.

"The problems of soil conservation are world-wide," the 180-page guide, entitled "Soil Conservation, an International Study," declares.

Two great object lessons for conservationists, FAO points out, are found in China and the United States. In the former country, the pressure of population on natural resources forced inhabitants long ago to struggle against soil deterioration. In the latter, appalling results have come from speedy destruction of forests, pasturage and soils and efforts to conserve the land have now begun in earnest.

In addition, says the report, soil problems are particularly acute in India, where, as in China, there is tremendous pressure of population on natural resources perhaps even more meager; in the Mediterranean region of Europe and the Near East, where centuries of human occupation and the nature of the climate and of land forms have favored rapid soil erosion; in Latin America, where many countries with dense populations have rapidly eroding lands; and in South Africa and Australia, where conditions and problems and the history of occupation are similar to those of parts of the United States of America.

Crop lands, the FAO study declares, cannot be conserved while mountains and forests are ignored. "It is a dangerous, and, in a deep, fatal delusion to imagine that the prime essential of land use—for food production—can survive unless government and farmer alike give jealous attention to the non-farm lands which support or destroy farm enterprise."

If this "indivisible unity" of the lands of any region or nation is disregarded, the report warns, cities and civilizations will vanish as they have in the past.

Not only are farm lands destroyed and lost to food production through misuse, the study shows, but the people who depend on the land suffer severely.

"In terms of the educational level, health and ambition of the people," the report declares, "sub-marginal farm land has maintained only submarginal farm societies."

However, no one solution for all problems of soil conservation is indicated in the report. Instead, careful analysis and planning are recommended to solve specific difficulties.

The traditional terracing, contour plowing and crop rotation of the age-old farmers of China furnish examples of some of the methods of soil conservation, the report indicates. Other more sweeping techniques are illustrated by the work of the United States Soil Conservation Service and the U. S. Tennessee Valley Authority, both of which have made plans for entire regions.

Special governmental agencies are not necessary for soil conservation programs, says the report, if the various phases of agricultural improvement receive the proper attention within established services.

Among other important governmental methods listed in the

Recent Rains Greatly Aid Crop Prospect

AUSTIN (AP) — Weekend rains greatly improved prospects of growing crops in Texas, the United States Department of Agriculture reported.

There are some major areas left out of the rain belt. They were the big trans-Pecos sheep, goat and cattle region; the adjacent sections of the Edwards Plateau and southern High Plains. Much of the long-dry Edwards Plateau or hill country, however, benefited from hard showers. Some of these totaled more than two inches for the week that ended Tuesday noon, the USDA said.

Elsewhere in Texas, the rains furnished needed moisture to germinate seeds planted in the dust; and to push growing crops up another notch toward maturity. The wheat crop in the northern High Plains was showing some improvement; small grains in northern and north central areas were aided, but in many central and southern counties the rain was too late. The crops had been grazed off or ploughed under.

Corn made favorable progress in eastern and some central counties, but high wind and drying soil hurt the growing crop in other regions. Early planted cotton was up to a good stand and fields were clean. Grain sorghums were making good progress in the south and coastal bend. In the north they are still not planted.

Ranges and pastures were much improved by the midweek and weekend rains and even in the trans-Pecos there were some light showers that helped a little. A general drought-breaking rain over the sections that have been normally dry for many months was still lacking.

Waste of Soil Goes on Daily Writer Says

Through reckless dissipation of its topsoil, the United States today is only "a bare six inches from starvation" and must adopt more far-reaching conservation methods, Fred Bailey, agricultural and food production authority, declares in the May American Magazine.

"Our national welfare, our ability to feed and clothe ourselves, depend upon prompt and vigorous action at once," says Bailey who is a member of the 11-man committee created by Congress to work with the Secretary of Agriculture in promoting research in farm production and marketing.

"If voluntary methods do not succeed, Congress should act promptly and decisively to make compliance with sound soil-conservation practices mandatory."

In an effort to determine the extent of erosion, tests taken in New Orleans have shown, accord-

ing to Bailey, that the topsoil equivalent of one \$10,000 mid-western farm washes down the Mississippi every 30 minutes.

"Today one-third of our original 9-inch layer of soil has washed and blown away," he asserts. "Each year we are, as a nation, moving 18 months closer to starvation because half as much soil fertility washes or blows away as we use in the production of food and fibers."

There are more hoofed animals in America now than when the buffalo roamed.

Now Procter & Gamble brings you A MIRACLE that will revolutionize washday!

it's TIDE
...you've never used anything like it!

TIDE is the postwar miracle you've been waiting for! Developed as a result of wartime research, Tide does what's never been done before—washes clothes cleaner than any soap, yet leaves colors brighter! Expect to see something entirely different when you use Tide. Even the suds look and feel different! And those wonder suds billow up instantly even in hardest water... form none of that disagreeable hard-water scum... leave no cloudy deposits on clothes or round-the-tub!

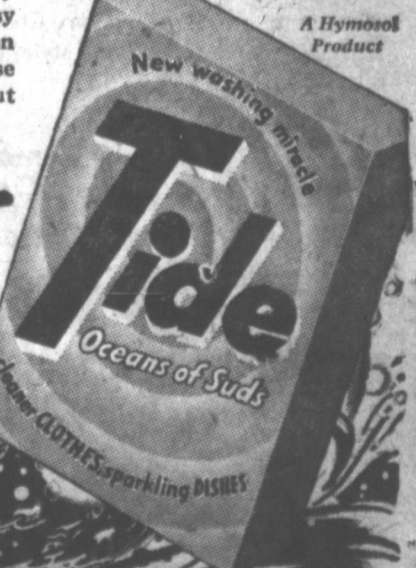

ONLY Tide DOES ALL FOUR!

- 1. Washes clothes cleaner!**
It's a real washday miracle, the way Tide gets the most stubborn dirt out of heavy laundry... even heavily soiled work clothes and greasy overalls! Tide not only leaves clothes free from ordinary dirt, but actually removes dingy soap film as well! That's why Tide washes cleaner!
- 2. Actually brightens colors!**
Tide washes away dulling soap film left from former washings... leaves dainty washable colors so thoroughly clean and fresh-looking that brightness perks up like magic!
- 3. Never "yellows" white things!**
Turn to Tide for dazzling white washes that stay white, week after week! Tide can't turn white things yellow, no matter how often you wash them or how long you store them.
- 4. Gives more suds—prove it in your dishpan!**
Kind-to-hands suds! Faster suds! Longer-lasting suds than any soap in hardest water! Tide cuts grease like magic... washes dishes cleaner than any soap! No scum in the water! No greasy ring round the pan! No cloudy film on dishes and glasses! That's why they rinse and dry so sparkling clear—even without wiping!

NO OTHER WASHING PRODUCT KNOWN CAN MAKE THIS STATEMENT

Tide
GETS CLOTHES CLEANER THAN ANY SOAP MADE — yet actually LEAVES COLORS BRIGHTER

TIDE'S IN-DIRT'S OUT!

GUARANTEE
Procter & Gamble guarantees that Tide will do everything claimed for it in this advertisement. If you are not completely satisfied, return the unused portion of your package to dealer, and the purchase price will be refunded.

ON DISPLAY—Four 1949 Mercurys will go on display tomorrow in the showroom of the J. C. Daniels Motor Co., 219 W. Tyng, it was announced today. The six-passenger convertible (above) one of a wide selection of Mercury body styles just announced, shows the long, low lines the car is featuring in the new models.

Pampa Boys in Naval Reserve

Emmett Forrester, 1021 Twiford, and James M. Gray, 514 S. Ballard, Pampa High School seniors, have been selected for the Naval Reserve Officers Training Corps program, CPO S. A. Smullin, local Navy recruiting officer, said today.

These two young Pampa men are among the 2,944 students selected by competitive examinations conducted in all the United States and its territories, Smullin said.

The Navy will pay the tuition for these boys in an accredited college or university, and a subsistence allowance, while they work toward a bachelor's degree. They must take a certain number of courses in naval science and tactics and accept a reserve officer's commission in the Navy upon graduation, Smullin explained.

EUROPE

(Continued from Page 1)

with Russia, Social Democrats and Communists called for separate rallies in Helsinki and some other communities.

Police throughout Europe, with the possible exception of Italy and Trieste, took a calm view of the coming celebrations in prior years May Day has often led to sharp disorders.

Italian troops and police were ready for possible trouble, especially in industrial Milan and along the Yugoslav border. There were reports of hidden arms in Milan and police seized some in a raid on a Milan suburb. Communists and left-wing elements in Rome said only an orderly observance was planned throughout the nation.

The Allied Military Government in the free territory of Trieste closed ten blockposts and restricted travel in six more, as reports were spread that Communists might try to filter across the border and stage May Day demonstrations.

TOUR

(Continued from Page 1)

convention delegates chosen yesterday showed four favoring Taft.

Like Taft, Henry A. Wallace, the third party candidate, pressed his campaign on home grounds. He told a Des Moines, Iowa, audience that war threats and the "oil trust" endanger farmers' prosperity.

Wallace described as "nonsense" a charge by CIO President Philip Murray at Atlantic City that the "Communist Party" is responsible for formation of the third party.

Employees' Dinner Set

Employees of The Texas Company and The Texas Pipe Line Company with 25 years or more service to their credit will be honored at a 1948 service award dinner to be held Saturday at the Herring Hotel, Amarillo. J. P. Tomberlin is the program chairman. An attendance of about 35 is expected.

The presentation of awards to employees will be made by S. W. Johnson, for the Refining Department; C. B. Williams, for the Producing Department, and V. H. Mahan, for the Pipe Line Company.

A social hour will be held at the hotel at 6, and the dinner will follow at 7 p. m. Following the presentation of awards, a program of entertainment will be staged.

Men's Wear Store Open for Business

The L. N. Atchison Men's Wear was open for business today. Formerly Lively's Men's Wear, the business was purchased by L. N. Atchison three weeks ago.

The concern is located at 111 W. Kingsmill. Atchison is former owner and operator of the Pampa Office Supply, on Cuyler.

Atchison said Otto Rice, well-known local merchant, is connected with him in the new business.

British Honduras is smaller than Vermont.

Pampa areas who will be presented with 25-year awards are—Refining Department—J. E. Coffman; Producing Department—J. W. Barber, T. R. Scruggs and William Sims; The Texas Pipe Line Company—Charley R. Seals.

No employees in the area are eligible for watches this year, it was said.

Los Angeles Is After Mosquito

LOS ANGELES—(AP)—The mosquito, nobody's friend, suffered severe casualties Monday as the city of Los Angeles sent its troops and mechanized equipment into the 1948 war against the blanket-bank insects.

Spearhead of the attack, which started on the Los Angeles River, was a contraption known as the "plumber's nightmare" because of its intricate sets of tanks and exhaust pipes that are mounted on a jeep.

The attack is going to be continued every 10 days by an 11-man crew from the Health Department's mosquito control unit.

Baby mosquitoes died at dawn, victims of one type of lethal spray. Adults hit the DDT dust at midnight.

If this activity doesn't discourage the mosquitoes which survive, 905,000 fish are going to do their best to get fat on mosquito hide. These fish are known as gambusia affinis. They're an inch long. About 180 acres of water have been planted with these fish and they're smacking their lips already at the early spring prospect of mosquito or natural prey.

The Health Department does all this on a \$25,000 budget and sends the public and the fish both home happy.

Russians Blame The Translator

BERLIN—(AP)—The Russian said Monday they did not accuse American soldiers of biting elderly German women on the streets of Berlin. It was all a translator's mistake, they said.

What Maj. Alexander Kotikov actually said in the Berlin Kommandatura meeting last Friday, the Soviet Army's official publication reported, was that a 60-year-old Berlin woman had been "severely misheard" by American troops; but the interpreter got it wrong and quoted him as saying "bitten."

The paper, Tagliche Rundschau, said Kotikov and the translator both corrected the error but that the western press "just didn't pay any attention because it wanted to make a cheap joke in order to confuse a really earnest issue."

Conservation Film Shown To Rotarians

A sound movie on soil conservation was shown at the Rotary Club's annual Farmer's Day luncheon yesterday noon in the Palm Room of the City Hall.

Quentin Williams, in charge of yesterday's program, introduced Ben Ogden and C. G. Stinson, representatives of the Goodyear Tire and Rubber Company from Amarillo, who explained the film.

The color movie was made by the Goodyear company to demonstrate the disastrous effects of wind and rain erosion in destroying the nation's topsoil. Scenes were taken in the northeast, south, central, corn belt, southwest, and northwest sections of the country.

The climatic and soil conditions of the different sections were shown, as well as the problems of erosion that the different sections must face. Various methods of contour plowing, crop rotation, and water diversion to prevent erosion were demonstrated.

It was also graphically shown that soil conservation is necessary, since the nation's topsoil is being eroded away almost faster than it can be replaced. A thousand years are needed to produce one inch of topsoil, but the work of centuries can be destroyed in a single season through neglect.

H. Virgil Mott, accompanied by Mrs. Mott at the piano, sang the comical "Where Have You Been, Billy Boy," in which he mimicked the voices of four different persons.

The Rotarians, their more than 25 guests, and six visiting club members joined with Mott in the chorus of "Blow the Man Down."

Carver Students To Stage Debate

Students of Carver School will debate the question of universal military training in the school auditorium at 8 p.m. Friday.

The boys will uphold the affirmative of the proposition, Resolved: That every able bodied male citizen should have one year of full time military training before the age of 24. The girls will maintain the negative.

Admission to the debate will be 25 cents for adults and 15 cents for children. The funds raised will be used to pay the balance owed on the school's movie projector.

The earth's population is increasing at the rate of 1 percent annually.

Mrs. J. B. McCrery Gives Book Review

Mrs. Dick Hughes, 530 W. Francis, was hostess on Tuesday afternoon to members of the Twentieth Century Forum Club. Mrs. Gene Fatheree, president, led the business discussion. As the program, Mrs. J. B. McCrery reviewed Elizabeth Corbett's novel "Immortal Helen," a dramatic novel of conflict. These dynamic characters move at a swift pace against an authentic background of a lumber baron's town of the 1870's.

Bouquets of peach gladiolus, purple iris and apricot featured the decorative appointments throughout the rooms. Refreshments were served to those already mentioned and Mesdames Roy Bourland; E. J. Dunigan, Jr.; George Friant; John Kotler; Bruce Biggs Horn; Walter Rogers, R. P. Rossman; Aubrey L. Steele; Arthur Teed, C. V. Wilkinson and Eben Warner, Jr.

Five Circles of WSCS Hold Meetings

The First Methodist Church WSCS met in circles last Wednesday, Circle 1, with 10 members present met with Mrs. Bob McCoy and the business was conducted. Mrs. O. P. Johnston is the project for to help buy a new collection of Carver School and collection of \$3.25 was taken for that purpose. Mrs. W. C. Hutchinson reviewed the study book and Mrs. R. J. Epps gave devotional. The Lord's Prayer was played on a record player. The guests were shown the hostess' collection of antiques.

Circle 2 met with Mrs. Carlton Nance who was assisted by Mrs. S. B. Cook, Mrs. T. Clime and Mrs. Walker Purviance gave a review of the study book.

Circle 3, with 15 members present, met with Mrs. H. F. Barnhart with Mrs. Luther Pierson in charge of the business. After the group sang "I Give My Life to Thee," Mrs. John Hodge gave the devotional on the subject of "Service to God." The program, taken from "The World Outlook," was on the subject, "What Our Missionaries Are Doing in China," and it was given by Mrs. Lewis Robinson. Mrs. O. A. Webb spoke on the subject of a "Rural Deaconess Service on a Mountain Side." Mrs. Pierson discussed the work of the YWCA in China. Mrs. Carol Boston was a guest.

Mrs. W. H. Moseley was hostess to one guest, Mrs. W. R. Campbell, and 12 members of Circle 4. Mrs. Campbell led the lesson, finishing the study book. Others assisting with the program were Mesdames C. W. Andrews, Claude Byrd and Twila Daugherty. The group sang, "Sweet Hour of Prayer," and the meeting was closed with a prayer.

Mrs. D. Nensell was hostess to 11 members of Circle 5 when Mrs. David Binkley conducted the business and Mrs. Ray Goodnight led the program study. She was assisted by Mesdames J. B. Maguire, Roas Byars, Paul Brown and H. Goodner.

During the hatching season, wild turkeys make a hissing sound in imitation of a snake as a protection against disturbers seeking their eggs.

Engagement of Helen Palmer Is Told at Luncheon

SHAMROCK — (Special) — To announce the engagement and approaching marriage of her daughter, Miss Helen Palmer and Robert Laycock, Mrs. Charles Palmer entertained with a luncheon Saturday at her home on South Madden Street.

Lovely decorations emphasized a silver and blue theme to carry out the chosen color scheme of the bride-elect. Sweet peas in pastel shades were used in the entertaining rooms. The luncheon table was laid with a cloth of Mexican drawwork and centered with an arrangement of cherry blossoms and white iris on a reflector. Streamers of blue and white extended from the central arrangement to the corners of the table where they were held in place by silver vases filled with cherry blossoms.

The engagement was revealed with an inscription in blue letters, "Helen and Robert—June 3," at one side of the table. Tall blue tapers burning in crystal candleholders completed the setting.

The luncheon was served on small tables centered with silver flower pots of blue "Johnny-jump-ups."

Games of bridge provided entertainment during the afternoon. Little Miss Cheryl Ann Reynolds, niece of the honoree, dressed in blue and white, appeared carrying a ray silver parasol topped with a blue machine bow, and tallies hanging underneath which were tied to "engagement rings."

The tallies, decorated with miniature brides, repeated the announcement.

The honor guest was presented with a lovely gift. Mrs. Baxter Purcell was awarded high score prize at bridge. Travel prize went to Miss Cecil Solomon, and cut prizes were drawn by Mesdames Harry Clay, Bob Purcell, Huelyn Laycock, Miss Mary Elizabeth Pendleton and Miss Mary Jean Durham.

Guests included: Mesdames W. M. Laycock of Abira, mother of the bridegroom-to-be, and his sister-in-law, Mrs. Evelyn Laycock of Pampa, Harrison Hall of Wheeler, Henderson Coffman of Wheeler, Wayne Fox, Scott McCall, Joel Gosh, Baxter Purcell, Harry Clay, Walter Pendleton, Jr., Patricia Hoadly, Bob Purcell, Mrs. Robert A. Sturtevant of San Antonio, and Dorothy Reynolds.

Miss Betty Sue Hill of Amarillo, Cecil Solomon, Mary Jean Durham, Mary Elizabeth Pendleton, and Patricia Rankin.

BURIED SEATED
Burial custom of the Igorot tribe, Luzon, is to place the dead in a sitting position until the body is dried, and then into a cave or grave.

St. Louis began as an American town of 1,000 in 1803 when President Jefferson made the Louisiana Purchase from Napoleon.

The airfield at Bogota, Colombia, is known as Techo the roof because it is situated at 8,600 feet above sea level.

Woolly Soakers

By Mrs. A. C. Cuyler

Woolen soakers solve problem for loads of Mothers, as they are absorbent and washable. One soaker is knitted, the other crocheted and both easy to make.

To obtain complete knitting and crocheting instructions, stitch illustrations and finishing directions for Woolly Soakers (Pattern No. 5772) send 15 cents in COIN plus 1 cent postage, YOUR NAME, ADDRESS and the PATTERN NUMBER to ANNE CABOT (Pampa News) 1150 Avenue of the Americas, New York 19, N. Y.

Moore-Henihorn Marriage Announced

Mrs. Dorothy Moore, daughter of W. W. Avants, 514 N. Warren, was married on April 19 to Everett A. Henihorn, son of Mrs. M. L. Henihorn of Okmulgee, Okla. Justice of the Peace B. R. Henry performed the single ring ceremony in the County Court House.

The bride wore a grey suit with a pink corsage and black accessories.

After the ceremony a reception was held at 514 N. Warren. The bride couple took a short wedding trip to Okmulgee, Okla., to visit the bridegroom's mother. They are now at home at 514 N. Warren in Pampa.

Mrs. Morrow Is Shower Honoree

SHAMROCK — (Special) — Mrs. H. C. Morrow was honored Friday afternoon with a pink and blue shower at the home of Mrs. C. W. Fritts.

Mrs. Claud Craven, Mrs. Claud Whitfield, and Mrs. Jim Jones were co-hostesses with Mrs. Fritts.

Many attractive gifts were received by the honoree. Refreshments were served. About thirty guests attended the affair.

REPAY EACH OTHER
The earth is a luminary to the moon as the moon is to the earth. From the earth, the moon gets earthshine similar to moonlight.

Mrs. Coffin Is Hostess to Chitter Chat Club

Members of the Chitter Chat Club were entertained with a spring party in the home of Mrs. C. W. Coffin, Tuesday evening, April 27.

The rooms were attractively decorated in spring colors, and low bowls of pale pink, blue and white spiras, lavender iris, and tulips. Each guest was presented on her arrival with a small colonial corsage of pastel blossoms.

After a brief business session, secret pal gifts were exchanged. Then plate refreshments, carrying out the spring color scheme, were served to the following: Mesdames O. G. Smith, Chester Williams, Clifton Whitten, Glen Waggoner, Ray Boyd, Wayne Harrison, Howard Archer, James Grundy, J. L. Harrison, L. E. West, Woody Wilson, Dorothy Barritt and three guests, Mrs. Bill Foran, T. J. Hill, and Mrs. Dixon of Oak Ridge, La. who is visiting her daughter, Mrs. Ray Boyd.

The next meeting of the club will be a picnic on the Colteco Lease at Lefors, Texas, with Mrs. Ray-Boyd as hostess.

Swedish Neutrality Faces Home Critics

STOCKHOLM (AP)—To the Swedish government the traditional policy of strict neutrality in any but an increasing number of

international conflict is still good, Sweden say it is obsolete. The Swedish minister of finance, Ernst Wigforss, recently had to admit in a speech on foreign policy that the unity on neutrality seems to be breaking.

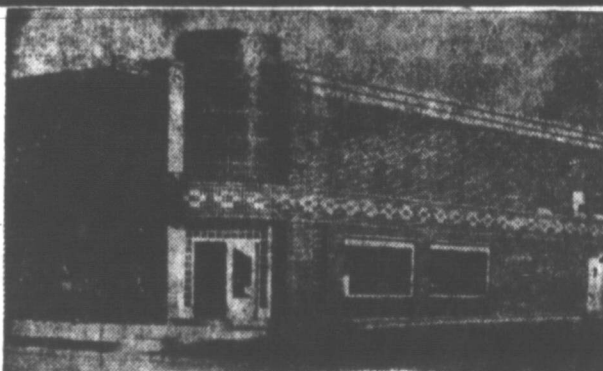

Foreign minister Oesten Unden has refused to commit his government to anything except the Marshall plan. He has been criticized for saying east and west were equally dangerous to this country. The view, which is vigorously

proposed by "Dagens Nyheter" and some other newspapers, is that Sweden's chances of escaping any new war are faint. The best course, according to these quarters, is to prepare military and political cooperation with the West in good time. Swedish defense, it is said,

is based on the principle of delay, until help from abroad arrives. "Why each year, that quota has not been arranged for that help before the embassy in Stockholm has not obtained. After, it may be too late," the alliance enthusiasts say. But there has been no panic here. Although 3,314 Swedes can

immigrate to the United States and filled for many years. The American Swedes for their apprehensions in that direction. "The Swedes have known all the time what the Americans have discovered only recently regarding Russia expansionism. Centuries of wars with the Russians have taught us something. We are not scared, just watchful," he said. Lettuce was raised as a salad crop in the days of ancient Rome.

Railroad Makes Its Way Toward Wealth Found in High Plains Country

By JOHN L. McCARTY
(This is the third in a series of articles giving some of the background history of the Fort Worth and Denver City Railway, which will observe its seventy-fifth birthday on May 26.)

Not all the railroad building is done when a single line is laid through a potentially rich area. When the main line is completed there remains, almost without exception, areas that must have branch lines and areas which must have connecting lines. That was especially true of the great super-rich West Texas area which the Fort Worth and Denver City Railway's main line traversed between Fort Worth and Denver. Its cattle, farm products, oil, and other resources were confined to narrow strips along the wide swinging bow-like curves of the miles of track through West Texas, across the Plains and through New Mexico and on to Denver. The country was big and lush and wide open. The railroads that fed into this main artery. That is why today on the letterhead of the Fort Worth and Denver City Railway there is printed: "The Wichita Valley Railway Company." It is an important part of the main line. It is also only a part of the rail lines built by Morgan Jones, Frank Kell, and other leaders of "The City That Faith Built," which stretched fingers out from Wichita Falls throughout a rich territory.

The Wichita Valley Railway Company was chartered on February 8, 1890. General Dodge was its promoter and associated with him was Morgan Jones, who became the road's first president and who came to be associated with so many railroads and the development of West Texas. The road was built on the same basis of cost as was the Fort Worth and Denver City Railway, or \$20,000 in stock and \$15,000 in bonds per mile. The promoters also had donations of \$20,000 cash and virtually all the right-of-way. The charter called for 400 miles of road to be constructed southwesterly from Wichita Falls by September 1, 1890. Only 51 miles were plotted and put into operation by that date. Financial reverses in 1896 and 1897 put severe strains on the road, and it barely escaped reorganization. In 1905 Dodge and associates sold the road to the Colorado and Southern Railway for \$92,100. This came about as a result of the Colorado and Southern having embarked on a program of building feeder lines into that part of Texas in 1903. The first of these was the Wichita Falls & Oklahoma Railway Company, for which Morgan Jones and associates secured the charter on October 25, 1903, to build 24 miles from Wichita Falls to Byers. It was completed June 24, 1904.

Morgan Jones after selling out his interests embarked on another railroad construction enterprise with Dr. T. Bomar as a chief associate, and with the ranchers of West Texas as valuable allies. His objective was Stamford, 61 miles from Seymour, and he chose a name very similar to the first one—change it to the Wichita Valley Railroad Co. Land owners and citizens of Stamford, Haskell, Munday, Wernert, and Gorce donated \$120,000 in lands and cash. This line was completed in 1906, and its securities transferred to the Colorado and Southern Railway. That company leased it to the Wichita Valley Railway Company on February 1, 1908.

A chronicle of railroad building would not be complete without mention of the Come Tap Railroad Company from Agate to Agatite, Texas, a distance of 1,510 miles, less than two miles. Its construction involved a quarrel between two rival cement companies.

Neither would the Wichita Valley system be complete without the story of how the Wichita Valley line crossed the Texas Central, or "Tin Can" line at Stamford, as told by J. W. "Jinks" Mode, recently retired superintendent of the Fort Worth and Denver City Railway Company. "Jinks" Mode was conductor on the lead work train and had a part in the planning and execution of the crossing. Mr. Mode, his crew, and about 75 workmen were ordered to stay back from the crossing at distance and not to put in their appearance until 1 o'clock in the early morning. When they did, they promptly put out warning flags on each side of the prospective crossing. Workmen cut the tracks and inserted the crossing iron in its place and spiked it down, and the train pulled across. By 3:30 o'clock the work was done and a celebration already was well underway when the crews moved up.

"The Tin Can knew good and well we were going to cross their line but their officials had been stubborn from the start," said Mr. Mode.

West Texans, and especially those of the Wichita Falls area, can do a lot of speculating on the possibilities of "The City That Faith Built" had all of the proposed and chartered rail mileage been completed. The 400 miles southwesterly undoubtedly would have tapped the riches of far West Texas long before they were developed. Wichita Falls would have been the center to which that weighty traffic would have flowed. The development of Plainview and the South Plains undoubtedly would have been far advanced had the Stamford and Northwestern Railway reached its original chartered destination of Plainview. Wichita Falls would have received much business from that region. Some civic and railroad leaders were doing some real planning and building in those early days.

It remained for the terrific agricultural and oil development on the South and North Plains in the late twenties and early thirties to usher in another Fort Worth and Denver City, and one of the few modern, new, railroad

Leaves From a Correspondent's Life Note Book

By HAL BOYLE
NEW YORK—(AP)—Soviet spies in Berlin are now stealing—of all things—congressional directories.

An American back from the German capital, which is now an inland island to the Western Allies, reports widespread espionage by German employes in secret league with the Russians.

"It is rather amateurish though," he said, "because the Germans like to tattle on each other. 'If a worker in your office is a spy and goes through your desk after you leave, the other Germans break their necks to get on a phone and tell you about him. 'They steal the oddest things—U. S. Postal Guides, the World Almanac, reference books on America, and even copies of the congressional directory. They steal public military government reports they could have for the asking. 'They would rather steal than get them legitimately. 'The man said he had no idea why the Russians wanted such material unless they were trying to amass information on America—or just keep their German stooges exercised. 'I had one spy spotted in my office," he said, "but I kept him on at the request of our own military intelligence, who wanted to watch him. But finally I had to bounce him. 'Then he started stealing for himself. One night he stole a telephone out of the office. The next day he had the gall to bring it in and try to sell it back to the office manager. 'That was going too far. I bounced him."

Small fry quandary: A small daughter who wanted to buy a birthday present for her father—a newspaperman—finally asked her mother for advice. "Daddy's awful hard to buy a present for," the little girl confided blithely. "All he likes is martinis, cigars and newspapers."

One thing that is never in short supply in Manhattan is a reason for having a cocktail party. Today Artists Arthur William Brown, Russell Patterson and Bradshaw Randall are throwing one at the Stork Club to present Violet Nolan, 20, whom they found in a search through Ireland for "the loveliest colleen." She comes from Tralee, and the artists say she pedaled 25 miles by bicycle to be interviewed. The prize cocktail party of the last twelve months, however, was held at a famous midtown hotel to launch a tractor. It showed up as guest of honor in a coat of new paint.

WASHINGTON—(AP)—Want to grow more and bigger tomatoes? Then give 'em nightcaps during these springtime afternoons. Dr. F. W. Went of California Institute of Technology, told the National Academy of Sciences that putting covers on tomato plants in Pasadena after 2 o'clock in the afternoon did this: In actual experiments the weight of plants was increased from 300 grams in the uncontrolled controls to 1,000 grams in the plants covered daily from 2 p. m. until early next morning. Their fruit weight was increased from 10 grams to 250 grams. Dr. Went explained that most of the tomato plant's growth occurs at night when the temperature is most favorable—between 60 and 68 degrees. But he added this warning: "Such covering does not work in the summer months, when night temperatures are ideal, and when the afternoon temperatures would be too high for the dark processes to proceed."

PISCATORIAL ESCORT Pelorus Jack was the world's most famous sea animal. For many years, this unsexedly tailed steamer through French Pass, off the coast of New Zealand. The government of New Zealand passed a law protecting him. That story which will follow will close this series of articles which seek to show how a railroad built an empire and how an empire made it possible for a railroad to celebrate a sparkling diamond anniversary on May 26, 1948.

THE BIG WHITE TRUCK IS COMING!

- We pick up flats.
- 24-hour service.
- We fix flats.
