Town Traffic Needs More Arteries

Pave 100 Blocks Now, Says Report

By TEX DEWEESE

Inadequate crosstown thoroughfares and an excessive amount of unimproved streets are causing Pampa's major traffic problems.

A long-range thoroughfare plan should be set in motion and immediate steps taken to pave 100 blocks of unimproved city streets.

These are among highlights of a report submitted today to the Pampa city Commission by the mayor's 11-man study committee on streets and thoroughfares.

The report, filed by Clinton Evans, chairman of the study group, outlined many proposed improvements to connecting streets and crosstown traffic arteries.

The full text of the Street & Thoroughfare Study Committee's report will be found on Page 4 of today's Pampa News.

The committee adopted its recommendations at a final meeting late yesterday afternoon in City Hall.

The report points out that "perhaps the most significant problem created by the lack of a thoroughfare plan is the traffic situation around our schools."

Every high volume traffic street in Pampa passes a school and "creates the almost impossible task of blending crosstown traffic with pedestrian traffic and school traffic."

The committee recommends that immediate changes which it has proposed be included in the next city bond election.

Projects which need immediate attention, the committee states, include the widening of Duncan St. to 80 feet with 60 feet of paving curb to curb; paving of 100 blocks of unimproved city streets, with special attention to S. Gray and Albert Sts.; improvement of E. Harvester St., including a bridge at the Red Deer Creek crossing; construction of a bridge at N. Somerville and N. Hobart Sts.

"To alleviate some of the heavy traffic conditions existing at the dangerous intersection of Cook, West and Hobart streets," the committee stated, "we would provide an additional street connecting the downtown business area with the Coronado Shopping Center."

Pampa, the commission was told this morning, has 500 blocks or about 35 miles of unpaved streets.

The committee also filed recommendations for making Farley and Zimmers streets a through north-south thoroughfare, approving the general area of Sloan street for a thoroughfare street, and changing Price Road to a type MA thoroughfare.

The committee urged the city commission to give close inspection to these recommendations. (See HEEDS, Page 3)

Right of Way Details Given Property Owners

Approximately 50 property owners on S. Cuyler and S. Barnes streets (SH 273) attended a meeting in the Palm Room of City Hall last night to get details of the city's right of way plans for the proposed widening and improvement of the two streets.

They met with members of the city commission, Mayor Jim Nation, City Manager Jim White and other officials and heard recommendations of the mayor's Highway Study Committee as they related to the right of way project.

Mayor Nation told the property owners the commission is concerned with the widening and improvement of the two streets, assuming that the commission finally approves committee recommendations and voters approve a bond issue.

He explained that the State Highway Department would not consider the project further until the city has provided money on its share of the costs for rights of way, curb and gutter and drainage.

"Our purpose is to get right of way options from property owners on the streets," the mayor said.

He added that the city was prepared to pay \$10 for 5-year options at whatever price is later agreed upon as fair.

City Manager White explained the mechanics and details of the proposal.

"This will be a partnership deal between property owners and the city," he said.

City Commissioner Clyde Caruth told those present:

"We want to do what the people want done and we would like to get you thinking about what you want done in your area. Improvement of these two streets would give us another channel for traffic into town and afford a better opportunity of bringing more people into Pampa."

The proposal would require ten feet of additional right of way on each side of the streets and calls for an 80-foot right of way and paving 64 feet wide from curb to curb.

City Manager White said property owners may execute options at his office.

Disaster Drill Tests Hospital Readiness

Ambulances and fire engines ran through the city of Pampa last night in a mock disaster drill to test the preparedness of Highland General Hospital.

Fifteen members of the Pampa National Guard were recruited to act as "casualties." The men were attending a make-up guard meeting at the armory, designated as the site of the "disaster."

Employees of the hospital knew nothing of the planned drill until the would-be patients began arriving at the hospital. Each one of the men was tagged as having a broken leg or arm, internal bleeding and even one man was a supposed woman in labor.

Ambulances furnished by Duenkel, Carmichael - Whately and the fire department brought victims to the hospital.

Administrator Bill Robertson said when the supposed disaster occurred local radio stations broadcast an appeal for all employees of Highland General to report to the hospital at once.

Robertson termed the drill as highly successful and stated he felt that Pampa was well prepared to take care of any disaster emergency.

The emphasis this week on civil defense in Pampa continues tonight with a civil defense conference of area, county, municipal and school officials.

The meeting will be held 6:30-10 p.m. in the county courtroom of the Gray County Courthouse.

The conference will cover basic community requirements for disaster planning and resources available from state and federal offices.

Several county officials from surrounding towns have been invited to the meeting.

Speakers from Texas A&M and the Department of Public Safety are expected to address the meeting.

DISASTER DRILL — National guardsmen were pressed into service yesterday evening as "casualties" when a mock exercise was staged to test the preparedness of Highland General Hospital. In the photo, Lt. Melvin Anisman looks up at Dr. Edward Williams and Dr. Frank Kelley as a "victim" awaiting emergency treatment. The "injured" were tagged according to their wounds and routed to the proper rooms for treatment.

HELPING HANDS — Marines carry a wounded buddy through waist-high "elephant grass" in an area of Viet Nam where U.S. Forces carried out a six-day operation against Viet Cong guerrillas.

Indonesian Students Demonstrate

JAKARTA (UPI) — Several thousand Indonesian students staged a protest march today demanding the ouster of left-leaning Foreign Minister Subandrio. They protested his charge that the U.S. Central Intelligence Agency (CIA) was fomenting strife in the troubled country.

The students also echoed earlier demands that the Indonesian Communist Party (PKI) be dissolved for its part in the unsuccessful attempt to seize power Oct. 1.

The demonstration marked the first directed specifically against Subandrio, top civilian aide to President Sukarno. Despite the purge of leftists following the coup attempt, Subandrio had maintained his position as deputy premier.

Armed police and army troops stood by to prevent any recurrence of the violent demonstrations against the PKI which swept the nation earlier, resulting in at least nine deaths and the burning of numerous buildings. Sukarno had ordered a halt to such demonstrations.

Subandrio failed to respond to demands that he appear before the students, but First Deputy Foreign Minister Suwito Kusumowidagdo stepped from the foreign ministry to receive their petition.

The petition contained several demands and a protest against Subandrio's charge that the U.S. CIA was subsidizing some Indonesian newspapers.

Kusumowidagdo appealed for unity behind Sukarno's philosophy and leadership and shouted "long live national unity" to the crowd.

"Without the PKI," they roared back.

The Indonesian Army, traditional rivals of the PKI, put more pressure on Sukarno today to crack down on elements supporting the power grab.

GOOD ESCAPE
MUNICH, Germany (UPI) — Three young East Germans fled across the mined border to the West during the weekend, the Bavarian Interior Ministry said.

Besieged Camp Gets Crack Aid

SAIGON (UPI) — "Flying Horsemen" of the U.S. 1st Cavalry Division reinforced Vietnamese troops today inside the beleaguered U.S. Special Forces camp at Plei Me. The outpost in the Central Highlands has been under attack by Communist North Vietnamese troops and Viet Cong guerrillas for seven days.

The Communist troops mounted another all-out attack on the camp this morning, including a human wave suicide charge. They were beaten back within a half hour by massive U.S. air and artillery strikes.

The artillery was provided by elements of the Cavalry Division, whose pinpoint shelling of Communist positions Monday night enabled a Vietnamese relief column to reach the besieged camp.

Units of the 1st Cavalry landed to bolster the defenses as the Communists renewed furious hammering of the camp later in the day.

A U.S. military spokesman said the Communists were attacking the camp with mortar and small arms fire at 6:30 p.m.

It was the seventh day of fighting at the outpost, 215 miles northeast of Saigon in the Central Highlands. Viet Cong units were strengthened by the 32nd regiment from Communist North Viet Nam, which moved below the border only two months ago.

The Communists opened up today with mortars, recoilless rifles and sent suicide squads charging to within 25 yards of the Plei Me fence before they were cut down by heavy fire from the beefed-up garrison.

U.S. Air Force and Navy planes, which have made the difference in the week-long fighting, bombarded the guerrillas. (See CAMP, Page 3)

Witness Says Walker Was Leading Riot
SHREVEPORT, La. (UPI) — A Meridian, Miss., newspaper reporter who covered the 1962 University of Mississippi riot, testified Monday he saw former Maj. Gen. Edwin A. Walker at the head of several hundred persons moving toward federal marshals.

The reporter, Tom Gregory of the Meridian Star, testified in the trial of Walker's \$3 million libel suit against the Associated Press.

Walker filed the suit because of an AP dispatch reported he led a charge on federal marshals during the riot that followed the arrival of Negro James Meredith to register at Ole Miss.

Gregory said he saw Walker in the vanguard of a large group of people moving toward a building where marshals were stationed, then a tear gas cloud covered them.

He testified he later heard Walker telling a number of spectators, "give them protest. Give them casualties."

The defense opened its presentation Monday. Walker's attorneys spent the first nine days of the trial attempting to disprove the AP report.

IT'S A GREAT WORLD
If You Have-Uh-
'Internal Fortitude'

DALLAS (UPI) — Because of modern science, it is a fine time to be alive, but because of the problems of the world, now "is the time to get involved," the editor of the Tulsa Tribune said today.

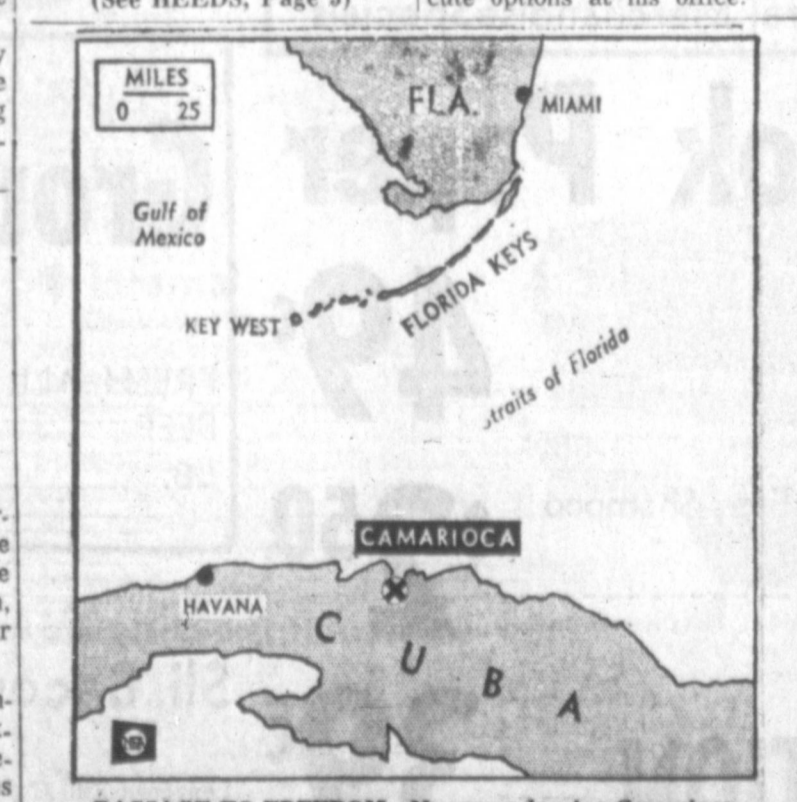

Jenkin Lloyd Jones, who is editor and publisher of the Tribune, made the remark in a speech prepared for today's closing session of the Independent Petroleum Association of America annual meeting.

"This is the greatest time to be alive," Jones said, "if you have the courage and internal fortitude for it."

"If we are bored or disheartened or fearful it is not the fault of the times, but because our imaginations are barren, our courage is feeble and our faith is weak," he said.

Jones said problems are increased by the population explosion that taxes nations' resources, by "a United Nations that lacks the power to insure international justice, by a generation of illegitimates reared on relief funds," and by the threat of Communism.

"We are living in a time when men of intelligence and (See INTERNAL, Page 3)

PASSAGE TO FREEDOM—Newsmag locates Camarioca, the fishing village on Cuba's north coast which has been transformed into an embarkation port for Cubans seeking passage to the United States. Exile organizations operating out of Miami have been ferrying small groups of refugees across the 90-mile-wide Straits of Florida. The Coast Guard has been intercepting the boats and escorting them to Key West.

Buckingham Palace Honors Beatles Amid Mixed Emotions of Britons

LONDON (UPI)—The arrival of the Beatles today at Buckingham Palace, where they were made members of the Order of the British Empire, inspired unprecedented demonstrations outside the historic building.

A horde of squealing teenagers tried to rush the roped-off quartet when they rode up in one of their Rolls-Royces. A cordon of police held them back.

When the Beatles had entered the palace grounds, their hysterical fans tried to climb over the ornate iron gates. Police hauled girls off the gates and the fence while shocked sentries looked on.

Only a solid phalanx of police with arms linked prevented the crowd from breaking through to get at John Lennon, 25, Ringo Starr, 25, Paul McCartney, 23 and George Harrison, 22. Manager Brian Epstein accompanied the quartet.

As it was, Lennon and Harrison looked slightly battered as they walked to the vast gold and white state ballroom to receive their medals from Queen Elizabeth.

They had been set upon by a mob of about 50 hysterical girls when they met at Epstein's home. Their chauffeur and building caretakers rescued them.

The award to the four, only three years out of working-class Liverpool, drew bitter protests from other members of the OBE who received the honors for war services. Some returned their medals, bringing the amused comment from a spokesman for the Beatles:

"If the Rolling Stones ever get it, the Beatles will send theirs back." The Rolling Stones is another pop group.

East Texas Gets First Cold Snap

East Texas shivered in the first near-freezing temperatures since last spring today but it was a bit warmer in most of the rest of the state.

South Texas was due a slight warmup by nightfall but skies were expected to remain clear. No rain was in the forecast.

The mercury dipped to 37 at Longview and 38 at Lufkin early today and Texarkana had 42 degrees.

Texarkana had the first sub-freezing weather in the state Monday, recording 31 degrees, although Muleshoe in Northwest Texas, had a 32 last Friday.

It was a chilly 44 at San Antonio and College Station.

Routine Business Items Get Okay Of City Council

After hearing recommendations of the Streets and Thoroughfares Study Committee, city commissioners went through a routine business session in City Hall this forenoon.

Bids from three concerns were opened for the purchase of some 1,500 feet of cast iron pipe. Engineers will check the bids and a contract will be let at the next meeting.

In other business: An ordinance granting renewal of a 20-year franchise to Pioneer Natural Gas Co. was passed on second reading.

Passage on second reading also was given to an ordinance clarifying and bringing Pampa's city limit boundary lines up to date.

The commission approved payment of \$1,578.51 to Forrest & Cotton, Dallas consulting engineers, for engineering work on Pampa's sewage plant.

Authorization was granted to advertise for bids for the purchase of a new police car and the transfer of a used car from the police department to the city tax department. Bids on the new car will be opened Nov. 9.

Approval was given for the transfer to time deposits of \$50,000 from the Water & Sewer Fund and \$10,000 from the Special Revenue Bond Fund.

Commission approval was given to new salary schedules for city employees as set under the recent city budget.

Final approval was given and a resolution adopted accepting work of the Turner Construction Co. on the seal-coating of Pampa streets.

If it comes from a hardware store we have it. Lewis Hdws. (Adv.)

Television in Review

By RICK DU BROW
United Press International
HOLLYWOOD (UPI)—There is an occasional tendency of television networks to equate the dramatic impact of a history-making event with the quality of the film clips on hand.

The beauty of Tuesday night's 90-minute CBS-TV documentary, "The Making of the President: 1964," was that history conspired to force the program to reflect the exact tone and nature of the election.

Like the campaign itself, which many mistakenly felt lacked drama because it was not so much of the outward kind, the broadcast revealed the fundamental inner struggle of the Johnson-Goldwater showdown.

The program's predecessor, "The Making of the President: 1960," was a tremendously exciting telecast which had added impact because it was shown less than two months after President Kennedy's murder.

And, almost needless to say, the closeness of the Kennedy-Nixon election, and its youthful flavor, gave it a somewhat more romantic tone. It was certainly a more spellbinding documentary, but it was no more revealing of the American dream than was Tuesday night's.

Televiewers will not soon forget the bitter taste of the 1964 campaign. Furthermore, unlike 1960, the equal time law of broadcasting was not suspended—so that Tuesday night's documentary did not have the benefit of debating sequences between the candidates. In addition, because of the equal time stranglehold, viewers still recall the unpleasant need of the candidates to advertise themselves on the networks by buying commercial time, like products.

Nevertheless, Tuesday night's documentary had its memorable vignettes. There was a western musical group at a Goldwater rally singing, "Get Along Home, Leftwingers, Get Along Home." There was Goldwater in his suite, yawning as William Scranton made a television speech at the convention. There was the amazing relish of Johnson for campaigning. There was Nelson Rockefeller's dramatic speech being jeered and booed at by Goldwaterites at the GOP convention. And there was Robert Kennedy getting a huge, 22-minute ovation at the Democratic counterpart.

David Wolper was the executive producer. Theodore White wrote the excellent script, based on his book. History controlled the rest.

HIGH COURT
WASHINGTON (UPI)—The Supreme Court meets today to wind up its October business and call a two-week recess to write opinions.

The justices have been hearing arguments for the past two weeks. They have under advisement a request by the Justice Department for a quick ruling on the constitutionality of the voting rights law of 1965.

DIAMOND MINE
DAR ES SALAAM, Tanzania (UPI)—A new diamond deposit has been discovered at Singida, near the famous Williamson Diamond Mine, it was disclosed Sunday. Swiss prospectors have formed a company to mine the diamonds in partnership with the Tanzanian government.

Heeds

(Continued from Page 1) tion and supervision to all new plats and subdivisions to see that they align with existing streets.

When the thoroughfare plan is adopted, the committee added, then Pampa will have a foundation for long-range planning.

To facilitate this, it was stated in the report, the city commission should adopt proper building ordinances and establish building setback lines immediately, explaining that this would prohibit the construction of any new buildings along these proposed thoroughfares until they have first set back beyond the anticipated right of way requirements that will be necessary before the facility is actually constructed. This, it stated, would reduce the cost of right of way acquisition when the city determines that the street improvement should be made.

The committee also recommended a long-range program for the improvement of street intersections by the elimination of high curbs and deep dips which "make it difficult to go through some intersections without reducing speed almost to a stop."

Members of the Street and Thoroughfare Study group which filed the report today are Clinton Evans, chairman; Joe Fischer, Leon Holmes, Dr. Joe Donaldson, Ray Duncan, Lou Troja, James C. Hill, C. P. Buckler, Jack Miller, James Morgan and O. F. Hunter.

Harvester Band Will Be Guests At Lubbock Game

The Pampa High School Band will march in the homecoming parade at Texas Tech in Lubbock Saturday at the invitation of the Lubbock students association.

Band members will also be guests at the Texas Tech-Rice football game Saturday afternoon.

Band Director Fred Stockdale said the band will remain in Lubbock Saturday night to perform at the Pampa-Lubbock High game.

Tomorrow night band members will go to Amarillo where Doc Severinsen appears with the Amarillo Symphony.

Pipeliner Ends Forty Five Years

Ernest Carl Hart, who has completed 45 years of service with The Texas Pipe Line Company, will retire from the Wichita Falls Division of the company at Pampa, effective Monday, Nov. 1. It was announced by W. T. Palmer, division manager.

Hart is a native of Corsicana, attended public schools at Omen, and Tyler Commercial College. He joined The Texas Pipe Line Company at Burk Burnett, in 1920 as a laborer.

Subsequently, he served as timekeeper, assistant connection foreman and delivery gauger at Burk Burnett until 1925 when he was transferred to Olney as assistant district gauger. He became a district gauger there in 1926, transferring to Kingsmill in 1930. He began working as gang foreman in 1947 and held temporary assignments of assistant district superintendent at Archer City and Breckenridge 1952-53. He became district superintendent of the Panhandle District October 1, 1959, the position from which he is retiring.

Hart plans to live in Pampa upon retirement.

Youth Center Has Break-in

Burglars made off with approximately \$65 in change following a break-in last night at the Pampa Youth Center, 1009 Harvester.

Police said the building was entered by prying open a west door.

Three vending machines and the juke box were broken into and the change taken, police said.

The break-in occurred sometime last night or early this morning.

Three Held For Robbery

Three persons are in custody of the Gray County Sheriff's office today following an armed robbery last night on U.S. 66 about 25 miles south of Pampa.

Being held in jail in lieu of bond of \$5,000 each are Kenneth Martin, 20, and Francis I. Kostlow, 19, both of Baytown and Patricia A. Sealey, 23, of Dallas.

Sheriff Rufe Jordan said the trio left Baytown several days ago en route to Los Angeles. He reported the trio related that they picked up a hitch-hiker, Don T. Hale of Silver Springs, Md., near Canute, Oklahoma.

The three allegedly drove Thomas to a point in Gray County between Alanreed and McLean on U.S. 66 and robbed him of \$10 in cash at gunpoint.

Thomas was thrown from the car, while the trio sped away. Jordan stated that Thomas made his way to Groom where he reported the incident.

White Deer Youth Has Theater Role

CANYON (Sp1)—Wes Schultz, White Deer sophomore at West Texas State University, will be playing a role in the coming production of "The Crucible" at the Amarillo Little Theatre, according to Marilyn Pool, director.

Son of Mr. and Mrs. Ray Schultz of White Deer, the university student will be portraying the character Cheever.

President of the Buffalo Magicians, a drama group, Schultz is a speech major at WTSU.

"The Crucible," a popular Arthur Miller drama of the Salem witch trials, opens Nov. 10 and runs through the Nov. 13.

County Court Hears 3 Cases

Three cases were heard in Gray County Court late yesterday and this morning.

Clinton R. Doshier, Chickasha, Okla., pleaded guilty to charges of driving while intoxicated and was fined \$50 and costs and sentenced to three days in jail.

Don Crockett, McLean, entered a plea of guilty to charges of aggravated assault and was fined \$25 and costs.

Robert V. Barnett, 48, of 605 N. Dwight, pleaded not guilty to charges of driving while intoxicated and was placed under a \$500 bond.

CAPT. WESLEY V. GEARY, armed forces chaplain

Newspaper Carrier Boy Makes Good

Former Pampa Daily News carrier boy Wesley Geary visited his home town last week in his official capacity as Capt. Wesley V. Geary, Chaplain, U.S. Training Center, Ft. Sill, Okla.

Capt. Geary accompanied the body of a fellow officer fatally injured in an accident at the Training Center.

Co-workers at the paper remembered the former carrier boy's insistent dream of being a minister in the Christian Methodist Church and the ensuing struggle for an education.

"I think I am living proof that the average member of my race can get an education without it being handed out to him or she wants it bad enough," Geary said.

Six members of his family have obtained college educations. The chaplain attended Texas College and Southern Methodist University.

Asked about his duties at the post, he pointed out that he taught classes in Americanism and Moral and Morals to facilitate adjustments men must make to military life.

"It can be summed up," Capt. Geary smiled, "With our stock phrase, 'bringing God to men and men to God.'"

He started as a carrier boy in the Fall of 1944.

Burglars Make Beer Haul at Local Club

Burglars entered the Satellite Club, 1012 Octavious, last night and hauled away four cases of beer.

Patrolman Jesse Goad said the building was entered sometime last night by breaking through the front door.

SCS To Assist McClellan Creek Watershed Plans

WASHINGTON, D.C. (Sp1)—Congressman Walter Rogers announced Saturday that the Soil Conservation Service has been authorized to assist Gray and Carson county organizations in planning watershed development in a 226,112-acre area drained by McClellan Creek.

The Congressman hailed the development as "further important progress toward conserving and developing soil and water resource of the Panhandle."

Congressman Rogers congratulated the following Gray and Carson county organizations for joining with the Soil Conservation Service to make the project possible: Gray County Soil Conservation District, Milton Carpenter of McLean, chairman; Carson County Commissioners Court, Clarence C. Williams of Panhandle, county judge; Gray County Commissioners Court, William J. Craig of Pampa, county judge; and Staked Plains Soil Conservation District, Lloyd Nelson of Claude, chairman.

The Watershed Protection and Food-Prevention Act authorizes the Department of Agriculture to give technical and financial assistance to groups of farmers living in watersheds where floods and soil erosion threaten to cause serious damage. The application for initiating work along McClellan Creek was approved by the Texas State Soil Conservation Board.

Congressman Rogers said that after the watershed work plan is completed it would be submitted to Congress so that funds could be authorized and appropriated to carry out developments found to be necessary.

Pair Stabbed By Unknown Assailant

Pampa police were searching for an unknown Mexican man who allegedly stabbed two Pampa men early this morning in an unprovoked attack.

According to police reports, the man knocked at the door of William and Don Provence, age 23 and 18, respectively, of 521 S. Somerville, about 12:30 a.m. today. When Don answered the door, the Mexican asked him to step outside on the porch. Don told police when he did the Mexican produced a knife and stabbed him in the back.

William heard the scuffling and when he came outside the Mexican stabbed him just above the right eye.

Both men were taken to Highland General Hospital and were released after treatment.

Police stated that they had only a vague description of the Mexican and had no clues as to his whereabouts this morning.

The brothers told police that they had never seen the man before and had no idea who he was.

Asthma Formula Prescribed Most By Doctors—Available Now Without Prescription

Stops Attacks in Minutes... Relief Lasts for Hours!
New York, N.Y. (Special)—The asthma formula prescribed more than any other by doctors for their private patients is now available to asthma sufferers without prescription. Medical tests proved this formula stops asthma attacks in minutes and gives hours of freedom from recurrence of painful asthma spasms. This formula is so effective that it is the physicians' leading asthma prescription—so safe when used as directed that now it can be sold without prescription in most states—in tiny tablets called Primatene®. These Primatene Tablets open bronchial tubes, loosen congestion, relieve taut nervous tension. All without painful injections. The secret is—Primatene combines 2 medicines (in full prescription strength) found most effective in combination for asthma distress. So look forward to sleep at night, and freedom from asthma spasms.

TEST-DRIVE FAIRLANE '66 THE TOTALLY CHANGED CAR

New high performance—up to 390-cu.in. V-8.
New features—like a doubly convenient "his and hers" transmission.
New convenience—like a dual-action wagon tailgate.

Most models ever! Thirteen in all—including totally new sports-luxury XL's, high-performance GT's, elegantly paneled Squire wagons, convertibles!
Most performance ever! Standard in the new Fairlane GT: 390-cubic-inch V-8 • Bucket seats, dual-exhausts, GT stripes, • Console-mounted shift lever. • All-new Sport Shift Cruise-O-Matic (on GT/A models)—"his and hers" transmission—use it as automatic or manual.
Most luxury ever! Standard in the new Fairlane XL: Rich carpeting, wall-to-wall, • Contoured bucket seats, all-vinyl trim, • Padded dash and visors, • Automatic courtesy lights in the doors... and more!
Most conveniences ever! New Magic Doorgate (standard on all Ford, Fairlane wagons)—it's a door and a tailgate! • New "reversible" ignition key—works either side up. • Keyless door locking. • Foot-operated parking brake. • New 7-item standard safety package.
Try Fairlane '66—at your Ford Dealer's now!

Test-Drive a '66 Ford, Fairlane, Falcon, Mustang or Thunderbird at Your Ford Dealers' today!

100 BLOCKS OF PAVING

Street, Thoroughfare Plan Given to Council

EDITOR'S NOTE — Recommendations of the Mayor's Street and Thoroughfare Study Committee were filed today with the City Commission. The recommendations are based on what the committee terms "major problems created by inadequate thoroughfares and an excessive amount of unimproved streets." Full text of the report follows:

The members of the Thoroughfare Planning and Street Improvement Committee respectfully submit herewith our report and recommendations as requested by your appointment of this committee.

Although the words thoroughfare and streets are quite similar in meaning, there is a distinct difference in the purpose of these two facilities. Thoroughfare implies an improved facility with the ability to carry a large volume of traffic at a relatively fast pace. A thoroughfare is usually constructed to link one side of the City with the other.

Streets, on the other hand, serve as traffic arteries to provide access from the thoroughfare to the residence or commercial establishments. Usually they are designed to carry low volumes of traffic and at a relatively slow pace.

The nature of this committee's study is quite broad and comprehensive since it deals with almost every aspect of publicly dedicated property for the purpose of public travel. We have considered maintenance cost, improvements cost, development procedure and other indirect results affected by streets and street patterns.

A study of Pampa's street plan indicates there is no accepted thoroughfare plan and, as a result, there has been little continuity in providing adequate traffic arteries. The absence of such a plan has caused a number of problems and it is evident that without a plan for a major thoroughfare system, these problems are going to be multiplied in the years to come.

Perhaps the most significant problems created by the lack of a thoroughfare plan is the traffic situation around our schools. In every instance where the City presently has a street designated and assigned to carry a high volume of traffic, schools abut the street. This creates the almost impossible task of blending cross-town traffic with pedestrian traffic and local interest traffic. By this we mean, that the traffic generated by the school itself is of local interest, and they are not interested in traveling in the area at a higher rate of speed. The individual vehicle who is on his way to work across town or to the shopping areas in down town or the shopping centers, are interested in a more rapid flow traffic. To signalize intersections around such points to protect the pedestrian or the local traffic, only adds to the frustration of the across town motorist. To solve the problem of the across town motorist only adds to the confusion of protecting the pedestrian and of local traffic vehicles. Of course, the age of the school students contribute directly to the problems within the area.

The second most important problem created by the lack of the thoroughfare, is a means of maintaining real estate values. The lack of a good access street to the down town shopping area has caused the merchant to re-evaluate his location, and in some cases has contributed to a business being relocated in an area that is easily accessible. This type of movement can only cause a decrease in values in what is now the high value district. In addition, there is not a good connecting street between our Shopping Center and the down town business district. Out of town shoppers who shop down town find difficulty in reaching the Shopping Center and by the same token, out of town shoppers who visit the Shopping Center first have difficulty in reaching the down town area. A good connecting street between these two ties will merit immediate solution since it would provide a tool for both shopping districts to work with one another in promoting the business welfare of this community. It is quite obvious that the City should be interested in a healthy business economy if, for no other reason, than to maintain a well balanced tax system between residential and

commercial property. Otherwise residential property will be forced to bear the heavy brunt of taxation for support of local government.

Perhaps the next most significant problem created by the lack of a thoroughfare plan, is the development pattern which is usually established by the location of thoroughfares. This is especially true in Pampa and is quite obvious of the influence Hobart Street has had on a definite pattern of growth towards the North and Northwestern sections of the City. Additional thoroughfares, their designation and construction will enhance the development value and encourage a better balanced City and municipal facilities through future development.

Street improvements invariably affect the valuation of property that abuts such a street. Loan companies are reluctant to lend money for either a long term residence construction or commercial construction on unimproved streets. Therefore, property abutting unimproved streets become depressed in value in both the residential areas and in business and industrial sections. The second problem found with unimproved streets is the high maintenance cost necessary to keep unimproved streets passable. Paving, therefore, is a prerequisite to keep neighborhoods from deteriorating and losing their value. Therefore, paving in areas where unimproved streets have existed for a number of years must be the first step toward attracting new improvements in these areas.

Almost every summer, the City has a small paving program on a volunteer assessment basis. However, the City's funds available for such a project have two handicaps. One, is that they do not provide enough City funds to pay the City's share in an extensive project which would create a program large enough to take advantage of a quantity discount. Secondly, it is not large enough to make an all out effort to entice people to acquire loans and, at a time when several blocks could be done under one project.

This report has discussed most of the major problems created by inadequate thoroughfares and an excessive amount of unimproved streets. Since we are discussing two problems our recommendations shall be divided into two categories: thoroughfares and streets. To serve as a point of discussion, we have included the proposed thoroughfare plan as submitted by Koch, Fowler & Grafe. Secondly, there is an attached drawing showing the different type of thoroughfares suggested by this plan. Although we feel improvements can be made to the proposed plan, we recommend that this plan be accepted as a thoroughfare plan with the following exceptions:

1. Price Road — this road should be changed to a Type MA thoroughfare.
2. Farley & Zimmers — these streets should be made into a thoroughfare as proposed by the map, with the exception of the intersection of Alcock and Zimmers. Every effort should be made to align this street as it crosses Alcock so that there will not be an offset at this intersection with the results providing a North-South thoroughfare uninterrupted from one end of the City to the other.
3. Duncan Street — Duncan Street should be paved 60 feet, back to back within an 80 foot right-of-way.

4. Sloan Street — The general area of Sloan Street should be approved as a thoroughfare street. However, from the railroad North to Harvester, the City Commission should do some extensive appraisal work and engineering detail before completing the route from the railroad to Harvester. Perhaps by rerouting this thoroughfare and selecting a street within the general area but not particularly on Sloan, a large savings in the construction of this thoroughfare might be possible.

5. Close inspection and supervision should be given all new plats and subdivisions. Special attention should be given to see that all streets align with existing streets and that the length of the blocks should be a maximum length, reducing the number of side streets within the subdivisions.

When the thoroughfare plan is adopted, the foundation for long range planning has been

made. To facilitate the execution of this plan, the City Commission should adopt proper building ordinances and establish building set back lines immediately. This will prohibit the construction of any new buildings along these proposed thoroughfares until they have first set back beyond the anticipated right-of-way requirements that will be necessary by the City before the facility is actually constructed. This program will reduce the amount of cost involved in right-of-way acquisition when the City determines that the street improvement should be made.

Another long-range program that this committee would like to recommend to the City Commission, is an improvement program to our present intersections. High crowns and deep dips make it most difficult to go through some of our existing intersections without reducing the speed to almost a stop. New techniques in the paving process and new materials on the market have been improved to the extent that new designs on intersections are now possible and these crowns and dips can be reduced and improve this problem. Therefore, we recommend that from time to time as street maintenance is being done, the intersections should be lowered and gradually improve all the existing intersections where this problem exists.

The Streets and Thoroughfare Committee have listed above numerous long-range programs which we feel will be advantageous to the street network for the City of Pampa. However, there are a number of projects which we feel should be done in the immediate future. We recommend that the following projects be included in the next bond election, and the work on these projects be completed as soon as possible:

1. The Duncan Street improvements as listed above in the recommended thoroughfare plan should be done immediately.
2. The City should provide its share of approximately one hundred blocks of paving and provide an assessment program that will allow the property owner to pay their share of the cost of the improvements over a period of time. Special effort should be made to improve South Gray and Albert Street. This will provide temporary access streets from South Cuyler and Brown Street into the Cohen Addition.

3. The City should provide its share for improvements on Harvester Street, including a bridge on the Red Deer Crossing, and begin a program of improvements on this street immediately. At the present time the City stands a good chance for participation in this street which will reduce the City's cost for this improvement.
4. A bridge should be constructed on North Somerville and Hobart Street. This improvement will help alleviate some heavy traffic conditions existing in the dangerous intersection of Cook Street, West Street, and the Hobart intersection. Secondly, this will provide an additional street connecting the down town Business area with the Shopping Center.

5. Although Sloan Street is a part of the major thoroughfare plan, it is not the feeling of this committee that an immediate facility be constructed, but it is vitally important that the routing between Harvester Street and the proposed underpass at the railroad track be determined in the immediate future. Once the engineering work has determined the proper route, we feel it is also important that engineering work be proceeded at once on the underpass and that the City start making plans to acquire any additional property in this area to tie the underpass into the route chosen to carry the traffic on North to Harvester Avenue. We feel that this improvement will be necessary by the time the City is in a position to consider the next street improvements program.

We respectfully submit this report and trust that it is beneficial to the City Commission in establishing a long-range thoroughfare plan, and initiating an immediate street improvement program which we feel will be beneficial to this community. Unless we are notified to the contrary, we shall assume this committee dissolved.

Sincerely yours,
Clinton Evans
Chairman

Live Ammo Kills Two Reservists

HADDAM, Conn. (UPI) — A Marine reservist was killed and two others were wounded Sunday by live ammunition mistakenly fired from a machine gun during a night guerrilla maneuver on a wooded hill.

An investigating officer said today the training accident apparently resulted from an unintentional mixing of live cartridges with dummy ammunition in a supply area during the weekend training exercise in a state forest.

The three reservists were cut down in a burst of fire from an M60 machine gun as they stood in the pre-dawn darkness. Dummy ammunition was to have been fired from the gun to add realism to the insurgency training.

Pfc. Edward N. Richter, 22, of Guilford, Conn., was shot in the heart and pronounced dead on arrival at a Middletown Hospital. Pfc. Thaddeus Kloss, 22, of Fairfield was in critical condition with abdominal wounds.

Pfc. Theodore J. Karaska, 22, of Stratford, who was grazed in the shoulder was released from the hospital following treatment.

MEMORIAL BELL
MOUNT GRAN SASSO, Italy (UPI)—A John F. Kennedy memorial bell was dedicated Monday at the shrine of St. Gabriels on the slopes of 9,585-foot Mt. Gran Sasso, highest mountain in the Apennine range. Some 30,000 pilgrims attended the ceremonies. The four-ton bronze bell, a gift of Italian-Americans, was consecrated by Bishop Alberto Deane of Villa Maria, Argentina.

FLAG FINE
LA ROCHELLE, France (UPI)—A Maritime court fined fishing boat skipper Guy Delattre \$20 Monday for not flying a flag when President Charles DE Gaulle visited the region earlier this year.

6 THE PAMPA DAILY NEWS TUESDAY, OCTOBER 26, 1965 58TH YEAR

Dear Abby....

Keep Looking; Law Of Averages Will Prevail

DEAR ABBY: I am 25, have a law degree and am a fairly good-looking fellow. I am neat and clean and reasonably well-dressed. I took a job in Washington, D.C., because I heard that there are eight girls for every single man here. But why can't I find one?

GOVT. BOY
DEAR BOY: Somebody's got 16. Keep looking.

DEAR ABBY: May I contribute my two cents' worth about cats?

When my baby was five weeks old, I thought I heard some funny noises coming from the bedroom in which the baby was napping. I went in, and found a large orange alley cat with its mouth pressed up close against the baby's, trying to suck the breath out of him. Both the cat's paws were going a mile a minute, clawing at the baby's little chest. I pulled the cat off the baby and threw it out the open window beside the baby's cradle. (That's how the cat got into the room in the first place) Two minutes later would have been too late.

This happened 30 years ago, and I haven't been able to look a cat in the face since.

MRS. F. S. G.,
COUNCIL BLUFFS, IA.

DEAR ABBY: Recently, we married off a daughter. We sent an invitation to some friends and addressed it to Mr. and Mrs. They attended the wedding and re-

ception, and brought their 20-year-old daughter and 22-year-old son along. Both their children live at home, but we did not mention them on the invitation and didn't mean for them to come. Afterwards, someone told me that if children live at home, no matter how old they are, they can go along on their parents' invitations. Is that true? And while I'm asking, another couple brought their children, ages 3, 5 and 7 to our wedding, and we didn't send for them, either. How do people avoid getting all these extra guests?

OVERSOLD
DEAR OVERSOLD: "Grown" children, regardless of whether they live with their parents or not, should be issued separate invitations. My own interpretation of "grown" (since neither Emily nor Amy states the exact age) is anyone who is adult enough to go places without his parents. And young children should never be brought to weddings unless specifically invited. Their names, or "and family," should be included on the invitation addressed to their parents.

DEAR ABBY: We don't have much time for letter writing, but we are making time for this. We're in the 101st Airborne Division serving the Republic of Viet Nam, and something in your column hit home with us. A girl's mother didn't like the idea that her daughter wrote a letter to her boy friend

Sherrri Lee Schaeff Observes Birthday

CANADIAN (Spl) — Sherrri Lee Schaeff celebrated her fourth birthday recently at a party given in her honor by her mother, Mrs. Don Schaeff.

The children enjoyed refreshments of cup cakes, ice cream and kool-aid.

Guests were Joe Kyle Curry, Junior Knezevich, Micah Lewis, Bruce Waterfield, Cindy Waterfield, Lauri Mathers, David Morris, Donna Ruth Powell and Debbie and Glenn Roth.

Mothers present were Mrs. Duane Curry, Mrs. Mike Knezevich, Mrs. Dale Roth and Mrs. Ben Mathers.

The honoree was feted at another party the same night. Guests were Messrs. and Mmes. Chris Schaeff, Joe Schaeff and Tammy, Guy Polley and Herb Duncan of California.

Mrs. Schaeff served refreshments of ice cream and cake during the evening.

Shower Honors Wheeler Bride

WHEELER (Spl) — A bridal shower honoring Mrs. Kenneth Childress, was held recently in the home of Mrs. H. Herd. Other hostesses were Mmes. Boyce Farris, Levi Reid, W. L. Jolly, J. D. Rutherford and J. B. Oglesby.

Those attending were Mmes. Lindon Sanders and Dale Corcoran of Pampa, Sharon Gately, Wanda Childress, Wilene Waters, Marge Meadows of Briscoe, Noyla Wright, L. M. Gaines, Bob Ramsey, Martha Childress, Easther Caswell, Willie Mae Stevens, Guy Brown, Will Burke, Clara Childress, Eula Bradstreet, L. Austin of San Angelo and Judy Qyehn of Garden City, Kan.

every night (he was serving his country overseas) and the girl didn't get much mail from the boy friend. Abby, will you please tell the folks back home that we aren't just sitting around here doing nothing. They keep us on the go, and we're lucky if we can get one letter a week off to a loved one.

Thank you!
A. J., CHEZE AND LARRY

Troubled? Write to Abby, Box 69700, Los Angeles, Calif. For a personal reply, enclose a stamped, self-addressed envelope.

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby, Box 69700, Los Angeles, Calif.

A wash - and - wear suit will wash better if you "pre-clean" it by removing stains with cold water and washing badly soiled areas with thick suds and a stiff brush. Then it's ready for a complete dunking.

Hands Need Extra Care If Skin Is Dry

FOR LOVELY HANDS — Pampering of hands adds to a woman's sense of well-being. Many know how to care for their hands but neglect the simplest routine during busy times. Solve the problem by having several tubes of an extra-dry skin cream spotted about the house. Also slip one into your purse for use during the day.

Astrological Forecast

By CARROLL RIGNER

For WEDNESDAY Oct. 27

GENERAL TENDENCIES: — A day of delays, obstacles and when most everyone is determined to have his or her way about conditions that may not be any of his or her affair at all. Make sure you avoid the tendency to be sharp and critical and that you back up those who have been good friends in a tactful way without alienating anyone else.

ARIES (Mar. 21 to Apr. 19) — Keeping promises is important today, instead of getting out somewhere just because you have a feeling of rest. Far away trips are unnecessary. They are only mirages you would be seeking.

Taurus (Apr. 20 to May 20) — Be careful not to go off on any tangents and forget your obligations, or you lose out, highspeed get provoked with you. Avoid jealousy, either on your part or others'. Be steady.

LEO (July 23 to Aug. 23) — Although your allies may be in a fighting mood, don't you fall into the trap but strive for peace by having much in your heart. Don't take in new associates. This could lead to trouble.

MOON CHILDREN (June 22 to July 21) — Some fascinating work is before you, but don't run off because you do not have tele-date with higher - up or co-worker. Do not take chances with your health, either. Be happy.

LEO (July 23 to Aug. 23) — Forget that recreation today that could cost you a pretty penny and also be a risk where health is concerned. Keep rooted to your work. Dissolve opposition by smiling more.

VIRGO (Aug. 23 to Sept. 23) — You have to use diplomacy with kin now or you can start a misunderstanding that can certainly be difficult to overcome. Be serious. Kind then all goes well.

LIRA (Sept. 23 to Oct. 23) — Caution should be used in motion, driving and also in talking to others, or there is trouble brewing. Go over any work statements, etc. for mistakes. Be very accurate.

SCORPIO (Oct. 23 to Nov. 21) — Financial affairs can be very annoying today if you are not on the optimistic side.

AN expert does not know your position exactly. Better carry on using own best judgment now.

SAGITTARIUS (Nov. 22 to Dec. 21) — Don't lose your temper with others who are feeling as superior as you right now. Use the courtesy that you want for yourself. Then all comes out just fine.

CAPRICORN (Dec. 22 to Jan. 20) — If you carry through with work on hand instead of fumbling over little things, you can make big headway. Assist those who are in need. Plan to make the future brighter.

AQUARIUS (Jan. 21 to Feb. 19) — Steer clear of disturbed persons today or you lose out on own endeavors and could suffer big loss. Plan social activities for later in the week. Strive for prosperity.

PISCES (Feb. 20 to Mar. 20) — Career and vital civic matters should have your most careful attention now. Impress things with your reliability. Situational matters require more thought — so wait until tomorrow.

Senior Center Corner

By MRS. O. A. WAGNER

Mrs. C. G. Miller is the writer of this week's column since Mrs. O. A. Wagner, regular columnist, was unable to attend Thursday's meeting of Senior Citizens' center due to being a patient in Highland General Hospital.

Welcomed as new members at the Center were Mr. and Mrs. A. R. Harvey.

Sixty members attended the meeting with Mmes. Mary Rogers, Frank Yates and Messrs. Ellison and Henderson receiving door prizes.

C. L. Adams entered Northwest Texas Hospital Amarillo, last week and Mrs. H. M. Norris is a patient in HGH, Staying at the Adams home are Mr. Adams' daughter, and husband, Mr. and Mrs. M. Adams of Hebronville.

Mrs. Nettie Cornelison has returned from a two-month visit with a daughter and husband, Mr. and Mrs. Bradshaw in Nas Pas, Ariz. Mrs. Cornelison was accompanied home by the Bradshaws.

Mr. and Mrs. Pete Smaltz of Irvin visited last week in the home of Mrs. Smaltz's parents, Mr. and Mrs. Charlie DeMoss, and other relatives.

Mrs. Pearl Erwin had as a Sunday guest a daughter, Mrs. Lillian Wade of Snyder.

Mrs. J. B. Butler of Bakersfield visited recently in the home of Mrs. Mottie Barnes. Mrs. Butler and Mrs. Barnes are sisters-in-law.

Mrs. Jim Arndt of Odessa spent last week in the home of

her mother, Mrs. E. E. Garland, Mr. Arndt and daughter, Janice, joined them Friday to spend the weekend.

Weekend guests of Mrs. Iva Ward were a daughter and husband, Mr. and Mrs. George Mox of Phoenix, Ariz.

Mrs. D. H. Porter and daughter, Ruth of Shamrock, visited Mrs. Porter's mother, Mrs. C. G. Miller and son, Bill Thursday.

Mrs. James Foust and daughter, Jimmie Allison of Oak Arbor, Ore., are spending this month in the home of Mrs. Foust's grandmother, Mrs. Josephine Wright. They also plan to visit other relatives in Amarillo.

Mrs. Lillian Snow recently returned from a two-month trip to New York, Washington, D. C., and other points of interest where she visited relatives and friends. Mrs. Snow visited a son, M-Sgt. Charles Snow at Camp LeJune, N. C.

Pampa Garden Club members serving as hostesses for Thursday's meeting were Mmes. W. E. Hinton, chairman, W. R. Campbell, Floyd Watson, Joe Shelton, Bert Robinson and Joe Weaver.

Altrusans attending were Mmes. Marie Fitzgerald, chairman, Lillian Snow, A. D. Hills and Jay Flanagan.

Gray Ladies providing transportation were Mmes. George Benham, Naomi Gill and J. E. Beard.

RAISING FEET IS RESTFUL
Take the weight off your feet and legs after a busy day. Sit for a few minutes with your feet up, either on a stool or table parallel to your chair. This also is good to relieve ankles swollen from water in the system.

Three Changes Designed For State Office Holders

By DAVID ANDERSON
AUSTIN (UPI)—The three most controversial amendments on the Nov. 2 special election ballot are all designed to make life easier for state office holders.

They would give the governor and seven other state executives four-year terms, increase the terms of members of the House from two to four years, and give legislators a \$1,360 hike in biennial expense allowances as well as the right to raise the pay of the house speaker and lieutenant governor.

Proposition No. 4, the governor's four-year term, is generally considered the most controversial of the three amendments, and in the view of many observers, is the most likely to pass.

Gov. John Connally proposed the amendment and is mobilizing the forces of the Democratic party in its behalf. A billboard and newspaper advertising campaign against the proposal has just begun.

Connally has a personal interest in the amendment — it would take effect in time for the elections in 1966, and Connally has already announced he will be a candidate then for reelection.

Liberals, led by Sen. Ralph

Yarborough, oppose the four-year term, calling it a power grab that would give Connally dictatorial powers over the legislature and state boards. Organized labor opposes it.

Proponents of the amendment say the present two-year term forces an incumbent governor to begin campaigning for reelection almost as soon as he wins the office. Thirty-five states already have four-year terms, they point out.

Opponents contend liberals and Republicans will be hurt by the fact that the fourth-year gubernatorial elections would always fall between presidential elections—in 1966, 1970, and so on—thus depriving these groups of the advantage of running with a national ticket.

Proposition No. 10, the four-year term for House members, resulted from the fratricidal warring of the 59th Legislature. Some House members demanded a shot at longer terms for themselves in return for approval of Connally's four-year term amendment and the Senate's ill-fated enlargement plan.

If the amendment passes, half the House seats would be up

for election every two years. Proponents say House members will need four-year terms to protect them against gubernatorial pressure if the governor wins a four-year term.

Opponents reply that the theory of a bicameral legislature is that the lower House should stand for election frequently because it is supposed to be the body most responsive to the will of the people.

There has been little organized support or opposition for the House term proposition.

Proposal No. 9, raising legislative per diem allowances and permitting a pay raise for the presiding officers of the two houses, began its course through the legislature as simply a raise to \$12,500 a year for the speaker and lieutenant governor.

Along the legislative way, however, this ceiling was changed to half the governor's salary (currently \$25,000), then disappeared altogether. Added was the section raising legislators' per diem from \$12 to \$20 a day and making it payable for 140 days of each regular session instead of the present 120.

Opponents object to the fact that the per diem of legislators was tied to the officers' pay raise, and argue that the legislature should not be given unlimited power to raise the speaker's and lieutenant governor's pay.

Next: Propositions 1 and 6—College building funds and student loans.

Year's First Christmas Party Cost \$3 Million

DALLAS — It cost more than \$3 million to set the stage for the first Christmas party of the year in Dallas.

It was held recently in the Marriott Motor Lodge where Schenley Industries, Inc. displayed its specially created holiday packaging which included 75 gift items.

Schenley introduced its holiday line several weeks earlier than ever this year in a bid to capture a larger share of this major seasonal market, according to Bernard Goldberg, president of Affiliated Distillers Brands Corp., Schenley's marketing subsidiary.

Among those who visited Schenley's Merchandise Mart at the Motor Lodge were distributor principals, salesmen, retailers and newsmen.

"We have made model changeovers that are masterpieces of creative design and have backed our convictions with a budget of \$10 million for advertising, sales promotion and merchandising," Mr. Goldberg said. He added that Schenley already has invested \$3 million in design and production of the 1965 holiday packages.

Cotton Trade Moves Slowly

NEW YORK (UPI)—Cotton futures trading continued to move at a slow pace and prices were mostly lower on the New York Cotton Exchange this past week.

At Friday's close, the list ranged 1 point higher to 10 points lower and ranged 2 points higher to 40 pounds lower for the week.

The continuing lack of trade interest is being attributed to uncertainties as to how the futures market will fare under the new farm bill in the light of the discretionary powers granted to the secretary of agriculture.

Meanwhile, a crop news remained on the favorable side over most of the cotton belt.

PAMPA Business News...

58TH YEAR THE PAMPA DAILY NEWS TUESDAY, OCTOBER 26, 1965

JUST BRUSH — The colorless, odorless coating where you want it. No need to move dishes or food when you use Johnson's No-Roach. Dries in minutes to form an invisible shield that stays effective for months. Brush Johnson's No-Roach in cabinets, on baseboards, door sills, window sills... wherever you see roaches and ants. Use Johnson's No-Roach and forget about bugs for months.

Disappointed, What?

DARLINGTON, England (UPI) — Weights and measures inspectors discovered fruit juice cans imported from the United States contained only four-fifths of a pint of juice although labeled one full pint.

The importer was fined \$42 in connection with the false description. The American pint contains less than the British one.

Canada Has Wheat Deal With China

TORONTO (UPI) — Canada will sell Communist China nearly 234 million bushels of wheat for about \$403 million in one of the biggest wheat deals ever negotiated, authoritative sources said today.

Mitchell Sharp, minister of trade and commerce, had been hinting that such a deal was pending, but said Monday night an official announcement would not be made immediately.

"I'll be making an announcement on Thursday," he said.

He refused to give further details.

Other sources said the wheat would be distributed over a three-year period, with shipments to begin early next year. It would be the fifth wheat contract between Canada and Red China since Aug. 1, 1963. The current trade agreement expires next July.

'MERVOUS MRECK'

Mere Man Masters Machine's Madness

FRESNO, Calif. (UPI) — A mere man has again triumphed over the onslaught of a computer gone mad—but only after his nerves were folded, spindled and mutilated.

The "infernal machine" began haunting Dr. George B. Kauffman, a Fresno State College chemistry professor, shortly after he ordered three copies of a chemistry book from a New York firm last February.

Three books arrived in March, but they were the wrong books so Kauffman dashed off a note explaining the mistake. He followed up with another letter saying he needed the right books urgently, and they finally arrived in June—after the semester ended.

That's when the professor made his mistake. He sent the books back.

Suddenly he began getting bills for the books...and more bills...and still more bills.

"I received an endless stream of these documents—all ways in duplicate—under every possible combination and permutation of my name and for different amounts and under different account numbers," Kauffman said. "One day I received four bills."

Finally, in desperation, Kauffman fired off a plea to the company.

"Dear computer," he wrote. "I know that you must be a computer because you have hounded me inexorably with a mechanical obstinacy and an unwillingness to listen to reason."

The letter concluded: "Are you listening, computer? I don't owe you any money—honest to God!"

In some strange manner, the letter managed to elude the computer and fell into the hands of a human, the treasurer of the New York firm. The firm offered "humble apologies" and offered to send three books—free.

"I promise that I will send them secretly so that our computer won't be aware of it," the treasurer wrote. "We are attempting to calm the machine and make it forget you."

Kauffman's composure has improved steadily. He's even been opening his mail again.

Record High Reported By Celanese

Celanese Corporation today reported record highs in net income and sales both for the quarter ended September 30, 1965, and for the first nine months of this year.

Celanese net income for the quarter was \$17,560,000, a 21 per cent increase over the comparable income of \$14,522,000 for 1964. Per share earnings were \$1.39 in the 1965 third quarter, on the 11,628,972 shares outstanding, compared with \$1.13 per share in last year's third quarter.

Sales for the 1965 third quarter were \$227,905,000, highest for any quarter in Celanese history and 30 per cent above last year's third quarter results.

Celanese record earnings of \$46,311,000 for the first nine months of 1965 were 20 per cent higher than last year's nine-month total. Per share earnings were \$3.79 compared with \$3.10 for the same period last year. Nine-month sales of \$640,373,000, also a new high, were 27 per cent ahead of 1964's comparable period.

Wall Street Chatter

NEW YORK (UPI)—Newton D. Zinder finds the recent deterioration in market leadership a disturbing element in an otherwise favorable market picture.

Zinder says if this weak leadership continues, it could discourage the more sophisticated securities buyers and might then be the precursor to a decline more serious than anything seen over the past two months.

Michael S. Geier of Hertz Neumark & Warner says that from present levels he looks for a general market advance to the 1,000 area in the Dow-Jones industrial average with the possibilities of even higher levels in the future.

Thomson & McKinnon says that however high the general market average may look there is no doubt that a massive buildup of capital construction is only now coming into full bloom and the process is so far along as to admit no major reversal for several years ahead.

Bache & Co. says that with no lack of fundamentally attractive situations it believes it is foolhardy to make purchases in stocks without any fundamental merit.

NEW YORK (UPI)—Hayden Stone Incorporated says there is nothing definite on which to pinpoint timing of a general temporary top to the market.

The company feels the trend of the market remains upward and that when the normal reaction occurs, it will be comparatively small and probably not force the Dow-Jones Industrial Average too much below the 920-25 level and the rail average below the 224-26 mark.

Bache & Company feels that the overall performance of the market remains sound and that it will reach new highs in the near-term, despite some signs of speculative excesses. It feels that the shape of the economy backs up the prediction of higher prices.

Charles Jensen of Tessel, Partridge & Ostrau, Inc. says that even though several issues seem to be overbought and that some reaction would seem logical, many other stocks seem ready to reach new highs. The analyst recommends trading in selective issues in view of the strong rotational nature of the current advance.

Business Highlights

By United Press International
WASHINGTON — For the first time in almost 60 years, the United States is preparing to broaden the federal meat inspection laws. However, the meat bill introduced by the Johnson administration probably will face strong opposition in Congress.

WASHINGTON — Although housing starts increased somewhat in September, a fall off of new building permits raised fears that residential construction is about to go into another decline. The Commerce Department reports. Total starts for 1965 may fall below 1.5 million, compared with 1.537 million last year and 1.669 million in 1963.

PITTSBURGH — The possibility of further hikes in steel prices was raised when Youngstown Sheet & Tube Co. reported lower third quarter earnings in spite of a rise in sales. President Alfred S. Grossbrenner said it was doubtful if the recent increases in labor costs can be offset or sustained "within the present price structure."

CHICAGO — Alcoa Inc. of Akron and U.S. Aluminum Co. of Chicago both raised the price of aluminum residential siding by \$1 a hundred square feet. However, both companies admitted they would not be able to make the raise stick unless the major producers follow suit.

'Prejudice' Protests Due Says PASO
EL PASO, Tex. (UPI)—The chairman of the Political Association of Spanish Speaking Organizations (PASO) has warned of possible demonstrations soon to protest what he called "flagrant prejudice against Americans of Mexican descent."
Albert Fuentes Jr. of San Antonio said the organization is considering sponsoring protest marches in San Antonio and other cities.
He said in one Central Texas town none of the community's three barber shops would cut the hair of a Mexican.
"Citizens of Mexican descent must go 30 miles to another town to get their hair cut," Fuentes said. He declined to name the community involved.

'Prejudice' Protests Due Says PASO

EL PASO, Tex. (UPI)—The chairman of the Political Association of Spanish Speaking Organizations (PASO) has warned of possible demonstrations soon to protest what he called "flagrant prejudice against Americans of Mexican descent."

Albert Fuentes Jr. of San Antonio said the organization is considering sponsoring protest marches in San Antonio and other cities.

He said in one Central Texas town none of the community's three barber shops would cut the hair of a Mexican.

"Citizens of Mexican descent must go 30 miles to another town to get their hair cut," Fuentes said. He declined to name the community involved.

Wheeler, White Deer Face Tough Conference Opponents

Things can change this week-end in a football with Wheeler and White Deer meeting their stiffest challenges of the season.

Both are unbeaten and both meet unbeaten, but once-tied conference teams for what could be championships in their respective conferences.

White Deer plays host to Wellington (6-0-1) in a 2-A league game and Wheeler journeys to Groom (5-0-1) for a 5-B league game.

White Deer is 7-0 for the season and 2-0 in conference play, the same as Wellington and Wheeler is 7-0 for the season and 3-0 in league play while

Groom is 2-0 in the conference. By comparative scores the Mustangs would have to be 2-point underdogs. The only foe both teams have played is Booker with Wheeler winning, 30-0, last week and Groom downed Booker, 46-8 the week before.

White Deer looms as a 14-point favorite over Wellington,

although the Bucks gave up two touchdowns to Clarendon last week, the first time this has happened this year.

The Bucks are averaging 36.8 points per game while giving up 3.8 a game.

Canadian, loser -55-0 to Wellington last week will try again to get in the victory column

when the Wildcats play host to another toughie, Memphis, 5-2. McLean (2-5), and loser to Memphis, 22-14 last Friday attempts to break a three game losing streak when the Tigers host Clarendon (4-4) Friday night.

in other 5-B action Lefors, winner of their first contest of the season, a surprise, 20-14 licking of Dazroutt, shoots for their second victory at Booker (2-4) and Miami, a 48-8 loser to Groom takes the week off.

Wilt, Russell Lead NBA Stats

PHILADELPHIA (UPI) — Success doesn't seem to have spoiled Philadelphia's Bill Chamberlain and Boston's Bill Russell.

Chamberlain and Russell, sporting a pair of the richest contracts ever awarded to any athletes, were leading the National Basketball Association statistics released today after the first week of play.

Chamberlain, who threatened to become a boxer before hauling down his record contract, was the hottest shooter in the NBA through Sunday's games, averaging 43 points per game and hitting 37 of 54 field goal attempts for a 68.5 percentage to lead the league.

JONES DOUBTFUL STARTER

Injuries Hit SMU, Hogs

By United Press International

Southwest Conference teams, coming off a week of upsets, hit the practice field Monday to begin preparations for their next foes.

Texas, Texas A&M and Southern Methodist, all upset victims last week, are still thinking about last week, while Rice, Baylor and Texas Tech all with only one conference loss, turned ahead to thoughts of repeating their success for another week.

There's a conflict of interest, since Tech hosts Rice in a

homecoming match. Texas A&M takes it 0-3 league standing to Little Rock, Ark., to match it against Arkansas' 3-0 mark. Texas Christian and Baylor play at Fort Worth.

Texas A&M coach Gene Stallings sent the Aggies through a running drill Monday and rehearsed his squad on game plans during a no-contact practice.

Baylor, finishing a game for the first time of the year without an injury, went through a loosening-up workout. Coach John Bridges predicted the Bears would be in top shape for TCU's Horned Frogs,

TCU, meanwhile, looked at films of its 3-0 loss to Clemson last week and then went through a workout with no contact. Coach Abe Martin put emphasis on an improved offense, which never threatened last week. The Horned Frogs also escaped their last game without injuries.

Raiders in Good Shape

The Texas Tech varsity just loosened up Monday, but the red shirts drilled on Rice offenses and defenses so they would be ready to run them against the regulars the rest of the week. Coach J. T. King said no additional Raiders were hurt in the SMU game, although starting back Johnny Agan may miss his second straight game with a hip injury.

The Rice Owls, out to discover if their win over Texas was for real or just a fluke, watched the game films and then heard a scouting report on Tech. Coach Jess Neely said the Owls looked to be in good physical shape, with none injured in the last game.

Two other teams, SMU and Arkansas, both had players on the injured list.

SMU Linemen George Wilmot, Jerry Phillips and Ronnie Medlen missed workout, Phillips with a hip pointer and the other two with bad knees. The Mustangs worked out almost an hour and a half without pads, mostly just loosening up.

Arkansas had linebacker Mike Jordan out for the year because of a knee injury, and the conference's leading rusher, Harry Jones, is a doubtful starter against Texas A&M because of pulled stomach muscles. Jones was out in sweat clothes Monday but did not practice any.

Durocher Takes Over As New Cub Manager

CHICAGO (UPI)—Leo Durocher, a baseball firebrand since 1928, destroyed a four-year-old front office policy in his first public moments as new manager of the Chicago Cubs, and he promised today the new look would extend to the playing field next year.

Durocher needed only seconds after his appointment was announced Monday to declare himself "manager, not head coach" of the Cubs, wiping out the club practice of numerous coaches and no leader, which had existed since 1961.

Now, Durocher said, he and General Manager John Holland will spend the winter trying to trade or otherwise develop a Durocher team.

performance or attendance, and said the long term pact was Holland's idea.

"We wanted to keep him," Holland said. "We didn't want somebody taking him away after one year, so we wanted a three-year contract. We felt our biggest need was a good strong experienced successful man endowed with inspirational leadership. Leo fills the bill perfectly."

Some Trading

Durocher and Holland will consult on trades, and both indicated they would deal readily. However, Durocher warned that he expected the Cubs to get the best of any trade.

"I say now it'll be a one-sided deal," he said. "I'm going to get the best of it. Any club that gets what it wants from us is going to have to give us more than we want."

Durocher cleaned out the Cubs coaching staff almost completely in his first official move, retaining only Rube Walker from the 1965 staff. He also added two of his old coaches, Whitey Lockman and Fred Fitzsimmons, for next season.

Durocher's major league career began with the New York Yankees in 1928 and he played through the 1939 season, when he was player manager of the Brooklyn Dodgers. From 1940 through 1954 he managed either Brooklyn or the New York Giants, winning National League pennants in 1941, 1951 and 1954. Three times he was named Manager of the Year.

Hogs Pass Defense Worst in League

DALLAS (UPI) — The Arkansas Razorbacks, leading the Southwest Conference and winners of 18 football games in a row, have the most porous pass defense in the league but that is small consolation to the opposition.

Six opponents have pierced the Razorback secondary with passes at a 179.2-yard per game pace against 160.6 against SMU, the second worst record, and 113.8 yards against Baylor, the best.

But the Razorbacks have choked off enemy running attacks to 74.8 yards per game, stingiest in the circuit, and rank third overall in defense with 254 yards per game as compared with 214.0 for Baylor and 214.7 for Texas.

The Razorbacks set a new offensive high for the season last week, too, with 543 yards total offense and 403 yards ground — so leaky pass defenses are minimized.

Arkansas now sports the top rushing average, 236.7 yards per game to 218.8 for Texas, but Texas still leads in total offense, 349 yards to 339, with Baylor moving up to a strong third at 313.4. Texas Tech edged Baylor in pass offense, 199.8 to 198.4 yards per game.

Individually, Arkansas' rambling twin terrors, Harry Jones and Bobby Burnett, gained 255 yards between them last week and now have 540 and 486 yards, respectively, to lead conference ground gainers.

Tom Wilson, Texas Tech's pass-happy quarterback, hit 21 of 34 passes against SMU and is far out front in the aerial department with 98 for 1,192 yards and 11 touchdowns. Teammate Donny Anderson snagged six of those passes and widened his pass receiving lead with 37 for 448 yards.

Tiger League Grid Season to Close In City Tonight

Tiger League football, sponsored by the Pampa Optimist club will come to a close, starting at 6 p.m. tonight at Harvester Stadium.

Three games are on tap with the Colts and the Lions meeting in the first game and the Redskins and Packers playing a 7 p.m. contest and the Rams and Browns closing out the night's action at 8 p.m.

It will be easy to gain admission to the games. Just bring a new toy or 50 cents for adults, all children will be admitted free.

All proceeds will go to the VFW and will be used in their fund drive for underprivileged children.

Youngsters playing in Tiger League are fifth and sixth grade youths, all from Pampa schools.

Speed Seeker

"I'm not looking for the long ball," he said. "I'm looking for speed. I'm not waiting for somebody to hit out of the park. I like to run. I like to hit to right field, or on the ground and move my man around."

"I believe I'm unorthodox. I don't want a safety first player. I want players to bear down and go for everything they can get. I want players who will run 90 feet."

"We've got the nucleus of a good ball club we can build around. We've got some pretty good ball players in (Billy) Williams, (Ron) Santo and (Ernie) Banks, and six or seven pretty good pitchers."

Durocher, 59, signed a three-year contract with the Cubs, at an undisclosed salary without any bonus arrangements on

Some Trading

Durocher and Holland will consult on trades, and both indicated they would deal readily. However, Durocher warned that he expected the Cubs to get the best of any trade.

"I say now it'll be a one-sided deal," he said. "I'm going to get the best of it. Any club that gets what it wants from us is going to have to give us more than we want."

Durocher cleaned out the Cubs coaching staff almost completely in his first official move, retaining only Rube Walker from the 1965 staff. He also added two of his old coaches, Whitey Lockman and Fred Fitzsimmons, for next season.

Durocher's major league career began with the New York Yankees in 1928 and he played through the 1939 season, when he was player manager of the Brooklyn Dodgers. From 1940 through 1954 he managed either Brooklyn or the New York Giants, winning National League pennants in 1941, 1951 and 1954. Three times he was named Manager of the Year.

Arkansas A&M next foe

Michigan State Pulls Into No. 1; Hogs 3rd

NEW YORK (UPI)—Michigan State, the surprise team of the Big 10 Conference, edged Nebraska out of the first place Tuesday in the three-way battle for the No. 1 ranking with Arkansas in the United Press International major college football ratings.

The Spartans, given only a slight chance to make the big 10's first division before the season began, have reeled off six consecutive victories including last Saturday's 14-10 verdict over previously unbeaten Purdue.

The 35 coaches on the UPI rating board awarded Michigan State 15 first-place votes and 318 points. Nebraska and Arkansas, both undefeated, received nine and 11 votes, respectively, but the second-place Cornhuskers nipped Arkansas in total points, 307 to 305.

The tussle among Michigan State, Nebraska (No. 1 for three weeks) and Arkansas for first place is one of the closest in the 16-year history of the UPI ratings. All three squads were impressive last weekend,

Michigan State Pulls Into No. 1; Hogs 3rd

with Arkansas belting North Texas State, 55-20 and Nebraska ripping Colorado 38-13.

Notre Dame jumped from seventh to fourth place after its rout of Southern California, Florida rose from eighth to fifth and Louisiana State skipped three places to sixth. Purdue dropped from fourth to seventh, and Missouri, which plays Nebraska Saturday, entered the top 10 in eighth position.

Southern California fell from a fourth place tie to ninth and UCLA beaten only by Michigan State, climbed into 10th for the first time this season.

The South dominated the second 10 led by 11th-ranked Alabama and unbeaten but twice-tied Tennessee in 12th. Georgia Tech entered the ratings in 13th and Texas occupied 14th place.

Kentucky ranked No. 15 followed by unbeaten Utah State, Minnesota, and Stanford. Princeton, also undefeated, tied Texas Tech for 19th.

Nebraska at Missouri is the featured contest among the top 10 this weekend.

Alderman Kept Milwaukee from Expanding

MADISON, Wis. (UPI) — Baseball Commissioner Ford Frick said Milwaukee would have been at the top of the list for an expansion club if it weren't for a "certain Milwaukee alderman," it was testified Monday.

C. Hayden Jamison, head of the Wisconsin Investment Board, quoted Frick as saying: "If he (the alderman) kept his mouth shut and if the city and county had shut up, when I retire, Milwaukee would stand at the top of the list to get a franchise when the league expands. Now they don't stand a chance." (Frick reportedly denied in New York he made the statement).

Jamison, who heads the agency which handles state investments, testified in a deposition taken by the Braves attorneys. He told them he visited Frick Sept. 22 in connection with the Club's move to Atlanta in 1966. Jamison also said he had sounded out Frick with the idea of the state purchasing the Braves, but only if Atlanta

would also get a franchise. A Braves attorney asked Jamison if Frick, who is to retire this year, was referring to Milwaukee County Board Chairman Eugene Grobbschmidt as the "alderman." Jamison said he wouldn't know by name which man Frick had meant. Grobbschmidt, however, has been one of the Braves' most ardent critics.

The Braves Monday acted in Milwaukee to answer a state request that a state antitrust suit against the club and the National League be returned to circuit court, where the state started it. The Braves had it shifted to the U.S. District Court.

The Braves said the state was making a "bizarre effort" to "regulate the wholly interstate affairs of professional baseball" by starting an antitrust suit. The Braves contended the federal court should have such a suit.

Milwaukee County has started in U.S. District Court an antitrust suit against the Braves

and Milwaukee aimed at keeping the team from moving unless the community gets another major league club.

Arguments on the state's motion to get its suit back into circuit court will be heard Nov. 9.

"Fans, the man said, are the most fickle people on earth."

He knew from whence he spoke. This was very evident at Plainview Friday night where there was a big gap in the place Harvester fans were supposed to be.

Who Gets Hurt

Counting Pampa's band there might possibly have been 125 fans from Pampa at the game.

It is easy to support a winner but it takes guts to support a loser and Pampa fans are no different than fans throughout the country.

They will not support a loser.

Now we would be the first to admit that watching Pampa play football this season hasn't been the most pleasing sight, but, at times, they have shown they can play the way they are supposed to play. Not very often, but at times.

When the fans don't show up, and the student body was very absent too, this hurts no one but the youngsters taking a beating on the football field for four quarters every Friday night.

They aren't out there just for the fun of it and even though the Harvesters haven't shown it enough, they do want to make their school and townspeople proud of them.

They don't really want to lose all the time, but it is hard to stay interested when it appears the fans aren't interested in them.

Let's Go To Lubbock

The Pampa High School Student body has a good contest going, each room challenging the other to see who can charter the most buses for the trip to Lubbock. The student body's absence at Plainview was not choice, it was have to.

The kids, or most of them, can get to an away game only one way. By charter bus.

The trip to Lubbock would have cost at least \$5 and the trip to Lubbock is about \$8.00.

Even high school youngsters in this generation do not have that kind of money, so they had to make a choice, Plainview or Lubbock? They chose Lubbock, thinking, probably, the Harvesters wouldn't need much backing to whip Plainview.

Pampa fans might try to help our kids out by offering to take two students apiece with them on out-of-town games, thus insuring the Harvesters of being well represented at football games.

An added attraction to the Saturday contest at Lubbock Saturday is the afternoon homecoming game between Texas Tech and Rice, this surely will lure some of the local fans, who can take in both games.

And don't be surprised if the Harvesters come home Saturday night with an upset victory over the West-erners.

Young Business Man of the Year

The Pampa Daily News

Dons Challenging Monterey

By RON CROSS News Sports Editor Thanks to Tascosa Monterey is a step closer to wrapping up the 3-4A championship. The Rebels fought Amarillo to a 7-7 draw Saturday while Friday night Monterey slapped Caprock, 18-7. The Plainsmen stand 5-1 for the season and are now 4-0 in conference play. Amarillo is now 3-1-1 in league play while Tascosa is 2-1-1. Palo Duro, meanwhile, stormed into second place in the conference with a 3-1 record with a 14-6 victory over Borger. The Dons have now won three straight and host Monterey Nov. 5 in Dick Bivins stadium. Oddly enough, Palo Duro's only league loss has been to last place Pampa, the only game the Harvesters have won all year.

JACK WILLIAMSON ... good line job

Williamson Is Top Harvester

A junior, with only B team experience to his credit before this year, has been picked as Harvester-of-the-Week by Pampa football coaches.

Jack Williamson, six-foot junior, was named to receive the honor for his outstanding defensive and offensive work in the Pampa-Plainview game Friday night. Jack, a 173-pounder, got off to a slow start for the Harvesters this season but has been starting on both offense and defense for the past five games.

On defense Williamson plays defensive end and moves to the guard slot on offense with Dan Patterson.

"We thought Jack did a fine job in the Plainview game, offensively and defensively, just as he has done all year," coach Eural Ramsey said.

Dear Althea,
"I can't decide whether I like Half and Halfs for their rich taste or mild flavor."

Dear Smoker,
"Why bother? Just enjoy both."

Injury Riddled Shockers Host Caprock Thursday

Pampa's Shockers, riddled with injuries, attempt to break a two game losing streak Thursday when Caprock's B team comes to town for a 4 p.m. contest at Harvester Stadium.

The Shockers have four front line players on the injury list and have lost to Plainview and Monterey the past two weeks for a 5-3 season record.

All Pampa Junior High teams will be in action Thursday with the exceptions of seventh grade teams from both schools.

Pampa ninth grade will try to break a two game losing streak when the Reapers host Borger Austin at 4 p.m. and Pampa eighth will attempt to get back on the winning track after an 18-0 loss to Perryton last week by playing Austin at Borger at 4 p.m.

Lee ninth plays a home game and the Rebels are still seeking their first victory in what will be their seventh game of the season.

They host Perryton at 4 p.m. at Lee.

Lee eighth, with a 3-2 record, travels to Perryton in a 4 p.m. contest.

The seventh grade teams, Lee and Pampa meet for the city championship at 4 p.m. in a site yet unnamed.

Lee seventh fell 14-0 last week to Perryton and now have a 1-5 record and Pampa seventh lost to Borger Austin, 8-0 and stand 2-4.

Memphis Selected Liberty Bowl City

MEMPHIS, Tenn. (UPI)—The National Collegiate Athletic Association (NCAA) Monday approved Memphis as the permanent site of the Liberty Bowl because the city "offered the greatest potential opportunity for success."

Bowl President A. F. (Bud) Dudley, contacted at his Philadelphia office, said the decision came from Stan Bates, chairman of the NCAA's extracurricular committee. He said Bates, Washington State University athletic director, said the transfer would be official if Dudley met certain conditions.

Included in the conditions were that Dudley have on file in the NCAA's office by Nov. 8 identity and duties of the Memphis committees, plans to sell tickets and finance the game and by Nov. 18, certification that a Memphis bank has on deposit \$50,000 to guarantee team expenses.

The seventh annual game will be played in the new \$3.7 million Memphis Memorial Stadium Dec. 18.

The facility, which seats 50,160 was dedicated Sept. 11, and is located near the center of the city at the fairgrounds.

Arthur S. Bergstrom, assistant to NCAA Director Walter Byers, said the committee decided on Memphis because it wanted to see the game succeed and felt that if it didn't succeed in Memphis, it never would.

Bergstrom said the committee was particularly impressed with the stadium "which certainly ranks as one of the finest in the country."

He said after a month of deliberation over possible sites, "exhaustive research proved that the city of Memphis offered the greatest potential opportunity for success."

Dudley was to fly to Memphis today for a press conference and official announcement of the transfer.

EVER STRIVING FOR THE TOP O' TEXAS TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities. We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

Insurance Competition

A new group is protesting the "unfair" competition of the federal government in a business enterprise. The latest group about which we've heard is Crop Insurance Research Bureau, Inc., President Max D. Rutledge of Des Moines, who pointed out that the Federal Crop Insurance Corp. is \$225 million in the red, and is asking Congress for increased appropriations and subsidies so it can expand further. The tax-subsidized insurance program competes directly with private tax-paying companies, offers premiums at less than cost, and when it loses money it runs back to Congress for more money. This is the same as the tax-financed power programs of various governmental programs, and almost countless other fields in which the federal government has intervened into what once was the considered private sector. As far as we know, there is only one organization which

devotes its entire time trying to solve the problem of governmental intervention in business. It is the Liberty Amendment Committee, headed by Willis Stone of Los Angeles. While most people consider the proposed Liberty Amendment only as a move to eliminate the federal personal income tax, it has a companion feature, which would eliminate the federal government's activities in business enterprises not specified in the Constitution. Stone claims that if all such business enterprises were eliminated, the action would reduce the federal debt and eliminate enough spending of tax payer funds to balance the budget without personal income taxes. We have seen no evidence to refute his claims. But as long as the federal government has unlimited power to tax the people it will continue to expand into business enterprises and to compete unfairly, with tax-paying enterprises who must help support their competitors.

Maybe They Don't Like Us

A dramatic example of communist togetherness is the "month of hatred" for the United States now being observed by the Viet Cong. It is nothing new, of course, for the Viet Cong to have less than warm affection for Americans. But this is an organized, countrywide effort, designed to put more vim, vigor and vitality into Yankee hating. The occasion for the campaign is the first anniversary of the execution of a Saigon electrician who merely tried to kill

U. S. Defense Secretary Robert McNamara during an inspection tour of South Viet Nam. It's hard to talk peace to people who organize to hate Americans as Americans organize for the United Appeal. Perhaps as fitting a response as any to the month of hatred by the Viet Cong is for Americans to observe a month of prayer for the characters who thought up the hate campaign. Can anyone deny that they need it?

Plenty of Fizz in Pop Sales

How many soft drinks do you consume a year? It's less than the equivalent of 243 eight-ounce bottles, you are not imbibing your fair share. If it's more than that, you're unusually thirsty and maybe a bit soggy. To quench their thirst, be soberly sociable, and possibly to see for themselves if the gay effects suggested in the soft drink ads really do come to pass, Americans—and visitors—

bought \$3.8 billion of nonalcoholic beverages last year. This was twice as much as in 1954, and must have tempted many a dry crusader to celebrate by swigging down a double shot of carbonated water, straight. It probably didn't make the soft drink tycoons mad, either, to find that things do indeed go better with this generation of stockholders when aggressive merchandising techniques put soaring sales punch into pop.

This Is News to the Girls

One of the latest developments in man's ceaseless effort to conquer space was the discovery that 12 college men can be immersed in cosmetic oils for 10 days without any real damage. It is part of scientific experiments to determine simulated effects on the human body of the prolonged weightlessness astronauts must endure. It is gratifying to know that the college boys came through in good shape and the marathon beauty bath was doubtless a forward step, or dunk, in the race to the moon. But it must have evoked a discreet snicker from the 12 college men's girlfriends. Surely, those young ladies must have been covered—at least their faces—by beauty oils a lot longer during their young lives than any little old 10 days. And it has not only done them no harm, but they have undoubtedly emerged even more beautiful than they were before. Can the scientists say as much for the college boys?

THE AMERICAN WAY

ON MY ACHIN' HEAD!

The Morning After

Sensing The News SENSING THURMAN By

"Home Rule" and Crime In refusing to be stampeded into approval of immediate home rule for the District of Columbia, which it knows to be unwise, the U. S. House of Representatives has asserted its independence of White House dictation in a truly responsible way.

It was Martin Luther King's threat of a second march on Washington that brought virtually an order from the Johnson administration, decreeing that home rule must be accomplished now. The Senate gave way, but the House refused to act in a precipitous fashion. "Home rule" has an appealing sound, and is an effective catch phrase. But the situation of the District of Columbia is a special one. The district was created out of the territory of Maryland and Virginia, and surrendered to the national government because of the need for a capital city. Thus the entire country has a stake in the kind of government that exists in Washington.

As things now stand in Washington, because of a mass migration of people ill-prepared for the duties and requirements of city life, the capital city has a bad reputation as a focus of street crime. In few capitals in the world are the public officials and ordinary law-abiding citizens so unsafe as in Washington. The District of Columbia—after dark—is a dangerous place for people using the streets. Conditions are bad in part because heavy political pressure is applied against the city's police force—to the end that firmness be curbed. If things are bad now, it is easy to imagine what they would be under conditions of "home rule." Every hoodlum in Washington wants a home rule, for it would mean a sudden easing of police authority and congressional scrutiny. The flight from Washington by responsible middle-class citizens would be sharply accelerated under home rule. What one could expect in Washington under "home rule" would be the kind of leadership given Harlem by Adam Clayton Powell. It would be what sociologists call kakistocracy, namely, rule by the worst.

These are facts of life known to every responsible Washingtonian who is concerned about public safety and public order. The plain truth is that great numbers of the current residents of the nation's capital are not prepared to support a decent, respectable form of city government that would stand up to the street thugs and various lawless elements. What a disgrace it would be if the capital of the United States fell subject to municipal government that was on the order of state governments in the Reconstruction South of the last century! What a shame it would be if the quality of local government suffered a further appalling decline as the result of machine rule sustained in office by a grossly unqualified electorate! To have the seat of the government of the Republic become a living symbol of the excesses of the worst possible version of republican government would be an outrage and mockery.

To have such expectations of "home rule" in Washington is not alarmism, for Washingtonians know full well the danger of the mugger and the rapist. They know that the police in Washington barely manage to contain even worse lawlessness than now exists. The dignity of the United States demands that at least a minimum of good order exist in the city in which the offices of the federal government are located. It is the duty of the Congress to sustain that dignity by appropriate measures. In short, at the present time it is essential that Congress keep close tabs on municipal government in the District of Columbia, possibly tightening control so as to promote greater respect for law and order among the newcomers to the city who think that they are exempt from all authority.

The way to improve conditions in Washington is not to relax congressional controls on the district. Relaxation is the road to anarchy in the federal district, and the entire population of the city would suffer from home rule. Congress may study the issue of home rule for a long time, but what counts most is reality, not theory. The reality in Washington, D.C. is that a very sizeable part of the district's population is not fit to exercise municipal responsibilities in a way

Entertaining Thee Troops—Of the Enemy!

Backstage Washington

McNamara Quitting As Defense Secretary Before Year's End; Vance to Succeed Him

ROBERT ALLEN

PAUL SCOTT

Cannel At Bay

By Ward Cannel

WASHINGTON—Defense Secretary McNamara is on the way out. The controversial Pentagon head will return to private life by the end of the year. In informing President Johnson of his intention to resign, McNamara explained this decision was largely prompted by two reasons: His feeling this was a good time to leave as the "transitional period" was over and the administration was fully established; on a number of grounds it was desirable that his successor be in office when Congress reconvenes in January. "That will enable him to start with a fresh slate in presenting the military budget, and in handling other problems on Capitol Hill," said McNamara. The President somberly voiced heartfelt regret over losing the cabinet member. He praised him to the skies for outstandingly devoted and able service, and said he would feel free to call on McNamara if occasion required. The latter assured the President he would respond "whenever I am summoned."

Two factors are behind McNamara's determination to quit. —For some months he has been relegated to a secondary role in formulating Viet Nam policy. He still participates in policy deliberations, but no longer plays the dominant role. That has largely been taken over by Secretary Rusk, McGeorge Bundy, special White House assistant on foreign affairs and Ambassador Henry Cabot Lodge. McNamara is occupied primarily with directing the massive armed build-up in Viet Nam. —Increasingly he has been heatedly embroiled with Congress. Once highly respected and admired by congressional leaders, McNamara, in the recent session, was at stormy loggerheads with many of them and repeatedly angrily denounced—with Democrats in the van, illustrative is the blistering attack on the Senate floor early this month by Senator John Stennis, D-Miss., head of the powerful Armed Services Preparedness Committee. Stennis bluntly charged him with misstatements and attempting to mislead Congress. In effect, the scathing castigation was an official pronouncement of "no confidence."

It was an open secret Stennis' blast had the approval of Senator Richard Russell, D-Ga., veteran chairman of the full Armed Services Committee, and of virtually all of its members. The extraordinary denunciation joined both McNamara and the White House. Deputy Secretary Cyrus Vance will replace McNamara. A long-time close friend of the President, Vance served as Army Secretary under President Kennedy, and last year was shifted to the No. 2 Defense job, by Johnson to prepare him to take over from McNamara. AN OLD STORY — The shelving of the judgeship appointment of Francis X. Morrissey is not the first time a Kennedy selection for the federal bench has been scotched. Overlooked in the turbulent Morrissey fray was the refusal of the Senate Judiciary Committee to approve a federal district judge handpicked by then-Attorney General Robert Kennedy — now the junior Senator from New York. His choice was Wisconsin National Committeeman David Rabinovitch, who had vigorously supported Senator John Kennedy against Senator Hubert Humphrey in the state's super-heated 1960 pre-convention primary battle. Rabinovitch's appointment as federal judge was an out-and-out political reward by the Kennedys.

Senators William Proxmire and Gaylord Nelson, D-Wis., strongly favored James Doyle, leading Madison attorney and former U. S. Attorney. But he had one fatal drawback. He had supported the late Adlai Stevenson for the presidential nomination. Attorney General Robert Kennedy made no bones about this when Nelson urged the appointment of Doyle. "He is outstanding in ability and character," pointed out the former governor. "His selection would be widely popular, and would greatly redound to the President's credit in next year's (1964) race." "But why should we appoint him?" retorted "Bobby." "Doyle fought us in the 1960 primary, and again at the Los Angeles convention. He was 100 per cent for Stevenson, and stayed with him to the bitter end. He made it very evident he is no friend of ours."

"It has been my understanding," replied Nelson icily, "that in naming men to the federal bench, they should be the best qualified. Doyle is unquestionably that in every respect; personally, professionally, and politically, if you insist on raising that question. Even if this appointment is to be made on a political basis, he is still your best man." "How do you figure that?" demanded "Bobby." "The President could lose Dane County (Doyle's home) next year," said Nelson. "In 1960 he carried the county by only 4,000, while Representative Kastenmeier swept it by more than 15,000. Doyle is highly respected throughout the county, and his appointment would unquestionably be a big help to the President—as well as putting a distinguished attorney on the federal bench." Nelson's appeal got nowhere. On "Bobby's" recommendation, Rabinovitch was named to the

The Nation's Press

HOW TO KEEP OUT OF TROUBLE (Industrial News Review)

If children were taught in the home by their parents and in the schools, and Sunday schools by their teachers, one simple little rule of action, think of the sorrow and suffering it would save, not to mention the countless millions of dollars. This rule of action wouldn't require any new laws, it would not cost a dime of taxpayers money, and it would reduce the cost of law enforcement and court trials. Respect for the rule would eventually become automatic with most children as they grew up. There wouldn't be so many news reports of murder, robbery, kidnaping, rape, purse snatching, automobile stealing etc., etc. And what is the rule of action that would reduce our vicious crime record, if it became part of the thinking of children when it was taught to them daily by their parents and schools, along with suitable illustrations of what it meant? Rule — "Keep your hands off other people and other people's property." It's that simple to keep out of trouble.

Wit and Whimsy

It is not too difficult to live on a small income if you don't spend too much trying to keep it a secret. Larry — Were you at the races yesterday? Harry — No. Larry — Then I guess you've got it. Harry — Got what? Larry — Five dollars. I need it.

of the candidates is worth having — and he will not lend dignity to the race by taking it seriously. As a result, he appears in public only at press conferences, to heckle the opposing candidates, or with a few special friends among the clergy. As far as we can tell, his platform is made up entirely of having gone to Yale, being against everybody in office and promising, if elected, to control crime by organizing and subsidizing underworld informers. On the basis of these ideals, Mr. Buckley has picked up what seemed to be the decisive 10 per cent of the vote. So, as we said, there was no reason to fear that Mr. Lindsay would win the mayoralty race and ruin his future political career. However, we are beginning to have grave doubts regarding the security of the situation. For some reason that is not yet clear, the city's subway stations have suddenly been plastered with enormous posters of an Oriental fellow and the slogan: "Fu Manchu For Mayor."

We have been loath to investigate this matter, knowing that it will eventually turn out to be an ad for some new auto style or men's cologne. But in the meantime, Election Day is practically here and the posters say only: "Fu Manchu For Mayor." So we must confess to having a certain uneasiness about our original analysis and prediction for the mayoralty race. As we recall, Dr. Fu Manchu was a very clever character created by a romantic writer named Sax Rohmer and set in motion by a hatred of everybody in power everywhere. If memory serves, Dr. Fu's ambition was to remake the world into a more orderly place, which he could best run himself. And to that end he was aided by a large underworld organization. Now, that is not much of a platform, and by our calculations it would probably not appeal to more than 10 per cent of the voters. But whose 10 per cent? We do not know if Fu Manchu went to Yale. But, in any event, it is unlikely that he would appeal to the Conservatives inasmuch as he is so highly ethnic. What worries us is that he could appeal to incumbent Democrats. There might be something very tempting about solving the old air pollution problem by burning opium along with the soot. In that event, the cause is lost. Mr. Buckley's decisive strength will be canceled out by the polls by an equal and opposite 10 per cent. The Republicans and Democrats will tie for first place in the election. Mr. Lindsay will win the payoff in straight sets. And Sen. Kennedy will become president.

Hunt for Truth

BY H. L. HUNT

NATIONAL DISOBEDIENCE DEMONSTRATIONS The phony "peace" demonstrations held in cities simultaneously on October 15 and 16 required far-reaching effort, intricate planning and coordination.

The source of the planning and coordination for the week-end demonstrations was not readily available to the public through normal communications channels, but the Communist press revealed this source to its readers. For several weeks prior to the chosen week-end, the official Communist Party newspaper, THE WORKER, ballyhooed the phony "peace" demonstrations and urged support by its readers. On October 10 THE WORKER gave half its front page to a story heralding the perfecting of demonstration preparations, noting the number of cities in which marches were slated had passed "the 60 mark."

THE WORKER's story also declared, "The nation's key demonstration will be a parade on Fifth Avenue, New York City, on Saturday, October 16. The "key" New York demonstration, which was the focal point of the national disobedience campaign, was supported by THE WORKER in a quite blatant manner compared with the guarded support the Communist Party has furnished to agitators in the past. The Party usually avoids use of its name, relying on front groups to do its work publicly. But for the "protest demonstration" THE WORKER revealed the Communist Party as a distributor of propaganda materials for the parade, along with five of the Party's most consistent supporters in pacifist and labor groups.

The Communist Party no longer finds it necessary to stay far in the background, because misguided Americans are so willing to carry out the Communists' subversive acts for them. Our troops abroad, including those fighting in Vietnam, are shown pictures of draft card burnings.

The Almanac

By United Press International Today is Tuesday, Oct. 26, the 299th day of 1965 with 66 to follow. The moon is approaching its first quarter. The morning star is Jupiter. The evening stars are Mars, Venus and Saturn. In 1825, the Erie Canal, first of the great man-made waterways in the United States, was opened for traffic. In 1920, Terrence MacSwiney, lord mayor of Cork, Ireland, died after fasting for 75 days in a prison cell demanding independence for Ireland. In 1942, the Japanese sank the U.S. aircraft carrier Hornet after a savage engagement off the Solomon Islands. In 1951, Rocky Marciano knocked out former heavyweight champion Joe Louis in Madison Square Garden. A thought for the day: Norwegian dramatist Henrik Ibsen said: "A community is like a ship; everyone ought to be prepared to take the helm."

matter of fact

A fjord is a long narrow arm of the sea extending inland, resulting from the inundation by the sea of a severely glaciated valley. Many fjords are astonishingly deep. Sogne Fjord in Norway is 4,078 feet deep. Messier Channel in Chile is 4,167 feet deep. Fjords are characteristically U-shaped valleys, with the lower, slanting part of the U underwater. Walls of fjords often rise vertically for hundreds of feet from the water's edge.

The Lighter Side

By DICK WEST

United Press International
WASHINGTON (UPI) — Last summer, Dale E. Trautman of Clear, Alaska, helped the neighboring city of Fairbanks stage its Golden Days Celebration by growing a beard.

It must have been a thing of beauty because Trautman became very fond of it. In fact, he liked it so much it cost him his civilian job at the Clear Air Force Station.

He was fired last month for refusing to shave it off.

Fight In Progress

Trautman, however, did not accept the dismissal as final. In addition to appealing to the Civil Service Commission, he solicited the support of Sen. E. L. Bartlett, an Alaska Democrat who can be a tiger when aroused.

Thus was raised an issue that goes to the very heart, or at least to the chin, of the civilian-military relationship in this country.

Although beardless himself, Bartlett made Trautman's cause his cause. He laid before the Senate a ringing statement that will long be remembered as the beard-growers' "Liberty Bell."

"Throwing down the gauntlet as forcefully as Trautman threw down his razor, Bartlett challenged the authority of the military to establish hirsute standards for civilians.

"If such power exists, he said, let us repeal it here today, before we are told what kind of pants to wear and what color ties to put on."

The senator was particularly aroused by a letter he received from the Air Force defending the "no beard" policy as a frostbite preventive.

Frozen Face

"Individuals who go in and out of doors in severe cold climates accumulate frost in the beard hair which alternately melts and freezes," the Air Force explained. "This wetness tends to cause a loss of insulation which favors the development of frostbite."

Bartlett said such a claim was contrary to "the experience of thousands of sourdoughs who have grown beards for protection against the cold."

Besides that, he added, the firing took place in September when frostbite in that part of

DANGEROUS DOLLS
DETROIT (UPI)—More than a dozen dolls sent home by U.S. soldiers in Viet Nam were destroyed by police bomb squads Saturday and Sunday to quell fears they might have been bobby-trapped by the Viet Cong.

Everyone turned out to be a dud.

Alaska "ranges between zero and none."

Recalling former President Dwight D. Eisenhower's warning about the growing influence of America's industrial-military complex Bartlett suggested that it might have some bearing on Trautman's case.

Although proof of "conspiracy" is lacking, he said, "it is entirely possible that the 'no beard' policy is a result of a secret agreement between the military and razor industry."

I don't know how the case will turn out, but one thing about beards is definite. If you aren't careful, the darn things will grow on you.
