

FULL-FLEDGED WAR FEARED FOR PALESTINE

ARAB ARTILLERY GETS READY—Recruits of King Abdullah's Arab Legion receive artillery training from British-trained instructors at Amman, Trans-Jordan. These are six-pound pieces, provided by the British under a treaty with Trans-Jordan.

AMMUNITION THAT MAY SEE ACTION—An Arab Legionnaire stands guard over an ammunition dump in Amman, Trans-Jordan, where the powerful Arab Legion is in training. The 20,000-man striking force, under the personal command of King Abdullah of Trans-Jordan, may soon be thrown into the fighting in the Holy Land.

GOOSE-STEPPING, ARAB STYLE—Wearing British Army fatigues uniforms, recruits of King Abdullah's Arab Legion drill on the Legion's training grounds near Amman, capital of Trans-Jordan. King Abdullah has threatened to send his 20,000-strong Legion, reputedly the top fighting force in the Arab world, into Palestine.

U.N. Will Act to Protect Jerusalem

By The Associated Press
A full-fledged Arab-Jewish war in Jerusalem appeared to be shaping up today amid reports that King Abdullah of Trans-Jordan was preparing to move into Palestine at the head of his Arab Legion.

With threats to Jerusalem growing, the United Nations Assembly met in an emergency session at Lake Success in New York and voted for immediate action to protect the Holy City.

Trucks Begin Pick-Up Tour in Ward One

Eight volunteer trucks manned by 24 laborers hired by the city began Pampa's annual Clean-Up campaign in Ward One early this morning.

The trucks began picking up trash piled in the alleys for disposal on Rhem and Foster streets and worked north. A late check-up showed considerable progress, so that Ray Salimon, city health officer, could say the ward should be "as slick as a whistle" by evening.

In several places, tree limbs and trimmings were found piled in the alleys. These trucks used in this campaign cannot pick up tree trimmings or garbage. The directors of Pampa's campaign would like to pick up tree trimmings along with the rest of the trash, but they would require too many loads and take up too much time for the limited number of trucks and workers.

The city's Street Department will, if requested, remove tree trimmings for a nominal charge. Four of the city's civic clubs, the Rotary, Lions, Kiwanis, and Junior Chamber of Commerce, divided the four wards among them, and are responsible for the Clean-Up campaign in their wards. The senior Chamber of Commerce will assist all the clubs when necessary.

The campaign will begin tomorrow in Ward Two under the direction of the Junior Chamber of Commerce. All persons are asked to pile their trash and articles to be disposed of in the alley next to their back fence or close to their property line in the rear. The trash should be stacked so the alley will not be blocked, and papers should be tied so the wind will not scatter them.

After completing his check-up this morning, Salimon congratulated all persons in Ward One for their very excellent cooperation in helping make this year's campaign a success, and also the Rotary Club and those who donated trucks for their generosity and hard work.

King, Queen Wed 25 Years

LONDON—(AP)—King George VI and Queen Elizabeth, whose domesticity has endeared them to home-loving Britons, celebrated their 25th wedding anniversary today amid empire-wide rejoicing. As congratulations poured in from far-off dominions, London plunged into the biggest display of royal pageantry since Princess Elizabeth married Philip last November.

From early morning thousands streamed into the capital to watch the royal family drive in state from Buckingham Palace to St. Paul's Cathedral for a national service of thanksgiving. Flags of virtually all nations decked the "silver jubilee" path, where thousands waited. Many arrived early to get good observation points, but few camped out all night as they did for the princess's wedding.

The palaces were a bustle of activity. First to congratulate the monarchs were Elizabeth and Philip. Two 41-gun salutes signaled the start of the procession. People leaped in trees and filled every window and balcony for a glimpse of the royal couple. Newsboys hawked programs among the crowd.

The King and Queen, accompanied by Princess Margaret, accompanied the plaudits from a grey open carriage, drawn by six grey horses. A second carriage followed with Elizabeth and Philip.

Mrs. Fred Wedge Succumbs Here

Mrs. Fred Wedge, 21½, died of a heart attack yesterday afternoon, shortly after she had been rushed to the Worley Hospital. She has been a Pampa resident for about four years, and was a member of the First Baptist Church.

Surviving her are her husband, Fred Wedge of Pampa; one brother, Jerry W. Ford of Lawton, Okla.; one sister, Mrs. W. R. Combs, of Lefors.

She was born in Saris, Tex. in 1892. Her body will lie in state at the Clegg Funeral Home until noon tomorrow, after which she will be taken to the First Methodist Church of Lefors where funeral services will be held at 2 p. m. The Rev. Newton Daniel of the First Methodist Church in Lefors, will officiate with the assistance of the Rev. Dan Belts of the First Baptist Church in Lefors.

Stassen Bids For Support Of New Jersey

WASHINGTON—(AP)—Harold E. Stassen takes time out this week from his Ohio battle with Senator Robert A. Taft to bid openly for the backing of New Jersey's 35 delegates to the GOP National Convention.

Senator H. Alexander Smith said Stassen's visit is part of a plan to bring all of the Republican presidential possibilities in for talks with his state's unpledged delegates.

Taft is expected to visit New Jersey in May. Smith said Senator John L. Lewis, of Michigan, who is being mentioned widely as a possible compromise candidate, has turned down a similar bid. He added that no arrangements have been made yet for a visit by Gov. Thomas E. Dewey of New York.

Stassen will speak Wednesday at the Princeton University campus. He will broadcast on a national hookup from Smith's Princeton home that night.

Aides here contend the former Minnesota governor already is sure of strong support among the 35 New Jersey delegates. The understanding is that the group will vote for Gov. Alfred E. Driscoll as a favorite son in the early balloting.

There have been reports that several of the delegates would likely have no contempt in giving any sign that he might accept the nomination. The Michigan senator has said repeatedly he doesn't want it.

The across-the-counter bidding for New Jersey's support seemed likely to have no counterpart in either Pennsylvania or Massachusetts, where GOP convention delegations will be chosen in primaries tomorrow.

Pennsylvania's 73 votes the latest plus an outside vote in New York, would be pledged, but behind Senator Edward Martin as a favorite son in the early balloting.

Massachusetts Republicans will pick a 35-member delegation today and the support of New York will be split on the first vote. House speaker Joseph W. Martin is reported in line for backing if he develops as a darkhorse candidate, with Senator Henry (See STASSEN, Page 8)

3 Men Captured Hour After Staging Holdup of Local Store

UNCLE SAM'S SUSIE—Susie Beeston's classmates in Cincinnati, Ohio, wouldn't believe that she was a government worker, even though she distributed pamphlets for the Security Loan Drive. So the 10-year-old consulted her boss, Secretary of the Treasury John W. Snyder. Yep, said Mr. Snyder, Susie's a government worker and a valued one, too.

Thousands of Miners Go Back to Pits

WASHINGTON—(AP)—Peace rode into the coal pits with thousands of returning miners today. But John L. Lewis and the operators began slugging it out over pensions in another ring.

The miners appeared to be heading back to work all through the scattered coal fields, finally ending six weeks of shutdowns.

The walkout began March 15 after Lewis told the miners that the operators had "dishonored" their contract by not agreeing to his pension proposal.

Lewis called a meeting today (3:30 P. M. CST) of the three trustees of the pension fund, presumably to consider the newest moves of the operators.

These include a court challenge by Ezra Van Horn, the operators' trustee, of the tentative pension plan which prompted Lewis to send the men back to work. It was adopted by Lewis and Senator Bridges (R-NH), the national trustee, over Van Horn's objection.

The operators also made public the final report of a statistical study of the welfare fund. That study, by a Philadelphia firm, said the present 10-cent a ton royalty payments by the mine-owners could finance only a \$50-a-month pension for their workers who reach age 65.

The plan agreed to by Lewis and Bridges would provide \$100 a month for 62-year-old United Mine Workers who had served 20 years in the industry and retired after May 29, 1948.

More than 27,000 men have been collected to date by the ten-cent royalty.

One hour and three minutes after three out-of-state men hijacked Simmons Grocery and Market yesterday, they were captured by Sheriff Hugh Anderson of Borger between Pampa and Borger.

The trio, William Donald Lemans, 19, Detroit, Mich.; Richard Green Miller, 20, Portland, Ore.; and Robert Corado, 23, Brockton, Mass., was driving a stolen 1947 Buick sedan when they staged the stick-up.

H. C. Simmons, owner of the grocery, was alone when the hold-ups entered the store, pointed guns at him, and said, "This is a stick-up. Get your hands up." Realizing his predicament, Simmons stood on a bell which is connected to the Simmons residence, in hopes his father or mother, Mr. and Mrs. W. H. Simmons, would get a look at the men as they fled.

Corado grabbed Simmons and held him over the counter when he realized he was being stalled. His accomplice, Miller, raided the cash register, getting between \$20 and \$30. Lemans remained in the car parked on Nelson Street, and kept the motor running in order to make a quick escape.

Mrs. W. W. Simmons, upon hearing the continuous buzzing of the store bell, rushed outside the house to see the men jump into the car and tear down Nelson Street. Several other witnesses gave descriptions of the car and the men and noted the last two numbers of the California license plate were 25.

Immediately after the robbery the Sheriff's Department telephoned eight neighboring counties for help in the lookout for the hold-ups. Pampa Police Department also joined in the search and telephoned the descriptions of the car and the State Highway Patrol and State Ranger Department made road blocks in the surrounding counties, so the men were soon caught and in jail.

The three men claimed they used pipe-holders as pistols, and had taken between seven and nine dollars. However, Simmons and the other eye witnesses said they were sure guns had been used.

They had been working as house-to-house magazine salesmen, Lemans said, before they left their crew in Missouri. "The reason we pulled the job," continued Lemans, "was that we had no money." Lemans claimed he had stolen the car from a parking lot in Tulsa, Okla., about 8 p. m. Saturday.

District Attorney Tom Bray is out of town today. The three men will remain in the County Jail until their bond has been set and the Grand Jury called.

Lana to Wed Fourth Time

HOLLYWOOD—(AP)—Lana Turner of the million-dollar figure and Henry J. (Bob) Topping, Jr., of the ten-million figure, will merge their fortunes today in a tinsel Hollywood wedding.

The 28-year-old actress and the wealthy sportsman, 34, each will be starting a fourth matrimonial venture. And they'll get off in grand style with typical filmland trimmings.

The ceremony is scheduled for 2 p. m. (PDT) in the Bel-Air home of Publisher William R. Wilkerson, the man who first discovered Lana hanging over a soda fountain 11 years ago.

The screen's foremost sweater girl will wear chintilly lace of champagne hue for this production. Carrying a bouquet of four large white orchids, she will descend a curving stairway on Wilkerson's arm while strings play the wedding march.

Adding to the ceremony will be the appearance of Lana's five-year-old daughter, Cheryl, as flower girl.

That's Cheryl Crane, Lana's baby by Stephen Crane twice her husband Artie Shaw was her first.

Topping was parted from his third wife, former Actress Arlene Judge, last Friday Arline got a \$100,000 alimony.

Army Arrests Over 400 in Korean Riot

KOBE Japan—(AP)—U. S. Military Police today jailed 800 soldiers as an aftermath to weekend rioting by nearly 8,000 Koreans.

American Negro soldiers had stepped in swiftly to quell outbreaks here and in Osaka over a touchy education issue. It was the first time troops have been called out in the 2 1/2 year old occupation.

U. S. 8th Army Headquarters in Tokyo said seven known Japanese Communists were among the 800 arrested.

U. S. intelligence officers said the disturbances were Communist-inspired. A jailed Korean leader told the Associated Press Japanese Communists took part in the riots.

No American casualties were reported. At least 38 Koreans and Japanese were injured in the melee. Headquarters termed the resistance negligible "due to complete cooperation between Japanese officials and police and American Military Police."

U. S. commanders were instructed to continue a dragnet over this southern Honshu port city to see that all persons responsible for the lawless acts are arrested.

Stern punishment for the leaders was ordered by Lt. Gen. Robert L. Eichelberger, commander of the Eighth Army. He hurried here from his Yokohama headquarters to investigate personally.

The Koreans demonstrated against Japanese insistence that Japanese must be taught as a standard language for Korean students in Japanese-supported schools.

Interviewed in the Kobe jail, Kim Kyung-Phan, 31, president of the League of Koreans Residing in Japan, said:

"The Japan Communist Party seems very sympathetic to us in our fight to maintain Korean education."

Other leaders among the 600,000 Koreans in Japan denied any Communist complicity. Koreans and Japanese have clashed repeatedly, but usually over black market operations.

Koreans in Osaka, meanwhile, received permission to stage a demonstration across the street from the Osaka prefectural office. An estimated 10,000 assembled peacefully.

U. S. Weather Bureau: Pampa and vicinity: Partly cloudy this afternoon, tonight, and tomorrow; no important temperature change.

Texans Organize Party, Open Fund Campaign in Support of Wallace

HOUSTON—(AP)—The Texas Progressive Political Party today was organized and with money in the till.

Around 800 delegates from 14 of the state's 31 senatorial districts yesterday fathered the third party—pledged to support Henry A. Wallace for president.

A 30-minute fund-raising campaign on the convention floor netted \$4,518.90, a nice portion of the proposed \$50,000 state headquarters budget.

This budget is based on plans for complete slates from "dog-catcher to president" in every possible county in Texas. Herman Wright, Houston attorney, told the convention.

Wright was named chairman of the party's State Executive Committee. This group will meet prior to May 11 to certify delegates to the founding national convention of the Wallace-for-President Party.

Forrestal Testifies Behalf 66-Group Air Force for U.S.

WASHINGTON—(AP)—Secretary Forrestal said today a 66-group Air Force would give the United States "the best military results if our budget is to be limited." He added he has decided military spending should be limited.

The secretary of defense testified to a Senate Appropriations Subcommittee in a new round of Congressional hearings on the 66 vs. Air Force controversy.

Forrestal said that "a military matter" both he and the chief chiefs of staff would support a 70-group force but that factors other than military also must be considered.

Forrestal was among the military leaders who pleaded at a locked door session of another Senate body last week for stepped-up action on President Truman's whole defense program. It calls for a draft training for universal military training and for more money to build up the Army, Navy and Air Force.

"For my responsibility," Forrestal asserted at one point, "I regard every day as critical."

Six Are Fined by Corporation Court

Six fines were assessed in Corporation Court yesterday morning. There was no court held this morning.

Two men were fined \$15 each, and two were fined \$10 each on charges of intoxication. One was fined \$10 on charges of reckless driving, and one \$10 fine was assessed on a charge of not having an operator's license.

Someone accuse Jeff Bearden of counting the picture of George Washington in an attendance contest among members of the Everymen's Bible Class which meets at the City Hall. The accusation was made, but the accuser said he couldn't "lay my finger" on anything evi-

Seven-Run Ninth Inning Gives Gold Sox 14-7 Win Over Oilers

Football's New Look

Not to be outdone by the girls, the Missouri backfield has adopted a new look in spring practice, modeled here by tackle Charles Fritz. Hens have gone up, not down, in the new look, with the usual amount of padding ending three inches above knees protected by pads. A bare midriff jersey is on the way.

Harvesters to Meet Lubbock Tomorrow

The Pampa High School Harvesters baseball nine will make its initial conference showing at home tomorrow afternoon when they meet the Lubbock Westerners at 3:45 at Oiler Park.

A first-class pitching duel should be seen if both Harvesters pitcher George Gambin and Westerner Denny Davidson are in top form.

Gambin pitched the Harvesters to a 6 to 0 win over the Pampa Bulldogs in Pampa on Saturday, limiting the Bulldogs to one hit and whiffing 15 opposing batters.

Davidson, although losing to Amarillo 7 to 1 in a 13 inning contest in Amarillo Saturday, proved to be a pitcher of talent.

Frankie Parker Wins Houston Tennis Tourney

HOUSTON (AP)—Frankie Parker, the Los Angeles Oaks veteran, wore the River Oaks Tennis Tournament men's singles crown again today.

Parker, champion in 1933, defeated William F. Talbot, New York Wilmington, Del., yesterday, 9-7, 6-2, for the title.

George Moran, Santa Monica, Calif., won the women's singles championship with an upset decision over Dorothy Head, San Francisco, 6-2, 6-4.

Talbot and Francis X. Shields, New York, beat Earl Corbell and Sam Mitchell, San Francisco, 6-1, 2-6, 6-4, in men's doubles and Head and Moran beat Peggy Ebbly and Marie Jane Donnelly, Houston, in women's doubles, 6-3, 6-4.

J. Gilbert Hall, New York, won the veterans singles championship on a 6 to 0 victory over Lamar Baker, Texas City, Tex.

Four doubles went to Jack Turpin, Rice Institute, and Dixon Osborn, Texas Christian University, and Herbert Karren, Southern Methodist, 6-4, 5-7, 7-5.

Mr. Busher, a full-brother to Busher, horse of the year in 1945, will go to the races this season as a two-year-old.

Citation Rated as Odds-On Kentucky Derby Winner May 1

NEW YORK (AP)—More than 47 percent of the favorites have won the Kentucky Derby. There's little reason to believe Citation will not hike up this percentage by winning on Saturday, May 1.

Citation should go to the post, odds-on in the 74th running of Col. Matt Winn's run for the roses at Churchill Downs. It may be that he will get such terrific support at the mutual windows that he will cause a minus pool in the show wagering.

Facetracks have been known to lose money when Citation runs. In his first 14 starts, the Calumet Farm colt by Bull Lea Hydroplane 11 has either been first or second. He won 12 of his first 14, ran second in the other two.

His form has been so consistent that betting men have really plunged on him to finish in the money. In two races within six days at Havre de Grace, the Maryland track lost \$55,468 because of the tremendous support Citation received.

Bettors are guaranteed 10 cents on a dollar in place and show pools. That's better interest than you get in any bank and horse-racing is beginning to believe that "it's money in the bank" when Citation runs.

In one of Citation's races the field was small and there was no show pool. But there was a minus place pool, which means that a total place pool of \$155,594 was wagered on Citation. This cost Havre de Grace \$20,226.

Five days previous, Citation cost the track \$15,242 in a minus show pool.

Since only two odds-on favorites out of 24 have finished out of the money in the Derby, Citation money probably will be bet heavily across for board. Ten odds-on choices have been on the Derby but only eight of them were either second or third.

Of all the post-time Derby favorites only 15 out of 73 have been worse than third.

Citation is the only 3-year-old to show this spring that he can run the Derby distance of one mile and quarter. This should be another reason for him to be heavily played.

Sports Round-Up

BY HUGH FULLERTON JR.
NEW YORK (AP)—Judging by very early results, you may not be far wrong if you pick Yale to win the Yale-Harvard regatta, the Olympic eight oared rowing race.

Navy and Harvard also are rated as prime contenders for this honor, which is virtually a college monopoly. But it begins to look as though Alan Watts, a United States entry in the regatta, may be a non-Washington coach in the rowing business, really had something in his extra-fat beat for sprint races.

The Ellis hit 38 to the minute all the way against Penn and Columbia Saturday and made it look easy. And don't forget, the Olympic race is at 2,000 meters, so you can throw out the three mile races as determining factors. Also don't forget, a crew race is not like a horse race. Mere speed doesn't mean anything unless it's a real challenge to the winner.

BI-PARTISAN
Like many other things that look on a harness race as a test of wits as well as speed, the veteran trainer Bill Shively isn't fond of modern starting gates.

He'd rather have the old "scoring" system that gave a good driver a chance to steal length and then... The other day at Santa Anita, Bi was looking at the Sierra Madre range which forms the background... Pointing at Mount Wilson, he remarked to a neighbor, "When the Russians come over the Pacific, they're going to fly just to the left of that mountain—and for my dough, they can pick on that dash dash starting gate for their final target."

MONDAY MATINEE
Indications are that only seven colts will start in the Kentucky Derby Saturday, bearing out Brownie Leach's theory that one standout racer will scare off a lot of possible contenders. Bill Rigney, who has been working out with the Yankees for a couple of days, hopes to rejoin the Giants tomorrow.

Bobby Jones has hired his first golf tutor, Stewart Maiden, as pro at Bob's new Peachtree Club in Atlanta.

Two McLean Boxers Win in Clarendon
McLEAN (Special)—Three Tier boxers traveled to Clarendon Saturday night, April 25, and brought back two decisions from the Clarendon District Boxing Tournament.

The three boxers were Dick Andrews, Johnny Vineyard, and Freddy Brister. Freddy lost by decision.

Bob Phelps of Wellington was the opponent of Dick Andrews in the heavyweight class. Andrews came out slugging with the first bell and scored a 30 second KO.

Andrews and Vineyard will be given regulation boxing jackets as reward for their accomplishments.

Cleveland Bowlers Lead WIBC Doubles
DALLAS (AP)—The Women's International Bowling Congress entered its last two weeks today with a new doubles combination

Indians' Hitting Throws Scare Into Teams With Flag Designs

By the Associated Press

Manager Lou Boudreau has come up with his own "murderers row" at Cleveland to toss a temporary scare into teams with designs on the American League pennant.

The Indians have won four straight games to become the only major league club so far without a blemish and they have done it by following a very simple formula.

They have just knocked the stuffing out of the ball.

In the four games, Boudreau's Athletics have pounded out 45 hits, including five doubles, two triples and eight home runs. Only the slugging New York Giants of the National League, with nine in seven games, have more round-trippers.

Ken Keltner, Ed Robinson and Jim Hegan have been the loudest noises in the Cleveland arsenal. Keltner smashed two home runs and Robinson added another in the Indians' 7-4 conquest of the Detroit Tigers yesterday. The Tribe collected 10 hits off Hal Newhouser, Virgil Trucks and Rufus Gentry.

Sunday was home run day in the majors with a total of 19 round-trippers around the two circuits.

Joe Di Maggio connected for a homer with two bases on base to contribute to the New York Yankees' 5-4 win over the Boston Red Sox before 68,021 at Yankee Stadium.

Washington remained in second place with a 6-2 win and lost records when it gained a split in the doubleheader with the Athletics in Philadelphia before 22,150 fans. After 20-year-old Carl Scheib shut out the Senators, 4-0, on six hits in the first game, the Nats bounced back to defeat the A's, 7-1, in the second.

The Chicago White Sox won their first game of the season, trimming the Browns in St. Louis, 4-1, but Zach Taylor's men came back to win the second game, 7-1. Field umpire for four innings, the White Sox almost rescued the second game as they whittled down a 7-0 deficit.

Getting exceptionally fine pitching from veteran Bobo Newsom and rookie Sheldon Jones, the Giants whipped the Braves twice before 35,954 Boston rosters, 6-2 and 6-0. In making it four straight over the Braves, the Giants moved into first place in the National League.

Veteran knuckleballer Dutch Leonard led the Dodgers in check before 28,231 disappointed Brooklynites at Ebbets Field while the Philadelphia Phils clubbed four Dodger pitchers for 14 hits and a 7-3 victory.

With 43,476 home town fans showing approval, Russ Meyer pitched the Chicago Cubs to a 3-1 one-hit triumph over the St. Louis Cardinals. Rookie outfielder Hal Jeffcoat smashed a two-run homer off Murry Dickson in the first to give the Cubs the margin of victory.

Fourteen pitchers saw action at Cincinnati where the Reds and Pittsburgh Pirates played a double header before 28,066 fans. The Reds won the opener 7-6 on Hank Sauer's ninth inning home run. The Pirates won the second 13-10 despite two more four-baggers by Sauer.

Local Golfers Win Over Shamrock
Local golfers won 28 out of 36 matches in a Pampa-Shamrock Dual Meet held on the Shamrock links yesterday afternoon. Cities will meet again in Pampa sometime in the near future, announced Johnny Austin, local clubpro, this morning.

29 Errors Made In Four WT-NM League Games

By the Associated Press
The West Texas-New Mexico League was in the groove today: 78 runs, 91 hits and 29 errors in four ball games.

The weather finally gave the fans a break in West Texas and a full schedule was played yesterday with these results:

Lubbock 19, Albuquerque 9; Lamesa 15, Clovis 5; Abilene 5, Amarillo 14; Pampa 7, Ackerly 11; Pampa 4, Amarillo 14; Pampa 7, Ackerly 11.

Abilene Shortstop Len Glica's eighth inning single beat Berger, while last year's champion Lubbock, won its first game of the season by collecting 18 hits off the Albuquerque Dukes.

Lamesa spotted Clovis a five-run second inning, then won going away.

Bufs End Missions' Win Streak at 6

By the Associated Press

The Northern half of the Texas League swings into "little Dixie" today. Chances are a definite pattern for the standings will be cut on this 11-day trip.

San Antonio's Missions top the league by a half-game, even though Houston hauled them up after six straight victories yesterday, 12-6. In their first Northern leg will be Fort Worth tonight.

Frisco gave the home folks a 4-1 victory over Oklahoma City to remember as it moved into first tonight and Fort Worth also left home on a winning note—6-5 over Tulsa.

The Beaumont-Shreveport tilt was rained out.

A four-run homer by Hal Epps in the second inning was just a hot honey for Houston. The Buffs scored ten runs in the first three innings—the last on Joe Niesdon's homer in the third—and added two more before the free-hitting game was over.

George Corona accounted for two of San Antonio's runs with a homer in the first.

Dallas' keystone combination—Second Baseman Roy Hartsfield and Shortstop Mickey Livingston—backed up Floyd Giell's five-hit pitching at the plate to pace the Rebels' win. Hartsfield was a homer in the first inning and Livingston doubled Giell—and Hartsfield home in the fourth.

Tulsa tied up its ball game on three runs in the top of the ninth, but Fort Worth rallied to push over a run and square the two-game series.

Four Tulsa errors helped Fort Worth, though the Cats picked up 11 hits off two Tulsa pitchers.

The lineup tonight: Dallas at Houston; Fort Worth at San Antonio; Tulsa at Shreveport and Oklahoma City at Beaumont.

NUMBER, PLEASE?

IT'S A BIG JOB THESE DAYS
One of the first things a new telephone operator learns is to be always ready for the next call—your call—anybody's call!
Operators have a lot of calls to handle nowadays. There are more telephones in use than ever before and calling is at an all-time high. The switchboard at times is literally ablaze with lights—each one calling for "Number, please?" and each one getting a "Number, please?" as quickly as skilled and courteous operators can manage. If your call is not answered at once, you'll know that nimble fingers will reach it as soon as they possibly can.
As soon as much-needed new equipment can be obtained and installed, we'll be ready to handle your calls quicker and better than ever before.
SOUTHWESTERN BELL TELEPHONE CO.

Young mothers-to-be step out in smartly styled fashions which play up color interest and details at neckline and below the hipline. A Chinese motif, for example, is applied at the neckline of the bright coral jacket shown left topping a black crepe skirt.

A scalloped tunic band of contrasting color cleverly focuses attention below the hipline on the printed cotton dress, right. Play togs, center, combine a loose, boxy jacket in a bold cotton print with white shorts. All clothes shown have expandable waistlines.

Three Frankfort Sisters of Dallas Give Ladies-in-Waiting New Fashion

By EPSIE KINARD, NEA Staff Writer
NEW YORK (NEA)—The lady-in-waiting who thinks her only wardrobe choice is a wrap-around dress or a "butcher boy" smock isn't up on her fashions. Fashions for the mom-to-be won their spurs a few years ago in a style revolution waged against the stigma that stamped expandable clothes as maternity duds.

is the large number of Hollywood ladies-in-waiting whom the Frankfort sisters dress. Past boosters include Loretta Young, Betty Hutton, Deborah Kerr. To make important waistlines look unimportant, Louise, the designing member of the sister trio, employs a cut-out device, drawing belts, adjustable ring closings and other concealing aids for expansion. This designer whoops up the color of outfits with a coral fall Mandarin styled jacket, for example, above a black crepe skirt. In this design, she flays eyes away from the waistline with a black fall Chinese motif applied on one shoulder of the jacket. For other designs, interest is focused below the hipline. In the case of a pert two-piece cotton print, made with a tunic top and string-drawn waistline, the decorative decoy is a scalloped band placed below the hipline. Cotton play-clothes in which the young mom-to-be can disport herself with no feeling of apology are included in the Frankfort repertoire. Louise puts adjustable ring closings on shorts and tops them with boxy jackets of such bold patterns as white rick-rack print on black backgrounds.

Local Chief Urges Home Check-Up For Fire Hazards

Fire Chief J. E. Winborne has issued a plea to all citizens of Pampa to cooperate in Spring Clean-Up to safeguard the community against fire, accidents, disease, and to improve its appearance. For the home check-up, the chief suggests that householders: Get rid of all rubbish and papers in the attic, closets, basement, yard and garage. Tie them into bundles for salvage. Check for Hazards and heaters. Have all repair work done now. See that floors under stoves are protected by metal, bricks, or cement. Insulate all burnable material subject to heat radiated from stoves, furnaces, and pipes. Empty hot ashes into metal containers. Clean chimney and check for cracks. Loose bricks and mortar. Place metal screens in front of fireplace. Place portable heaters so they can't be knocked over. Distribute enough ash trays in convenient places for smokers. See that matches are out of reach of young children and placed in safe containers. Check gas connections on portable heaters. Shut-off valves should be located on pipe before rubber tubing. Don't Use Gasoline. Never use gasoline, benzene or kerosene for cleaning. Don't quench a sluggish fire by pouring on kerosene. It may easily flame out of control. Destroy paint rags and oily cleaning cloths or put them in a metal container with a cover. Hang up oily mops so that air can circulate through them. Inspect all electric service cords and connections on lamps and appliances. Use only 15 ampere fuses for household circuits. Never permit "bridging" burned-out fuses with wire or coins. Such practices remove all protection against "shorts" or overloading of circuits. Self-inspection guides prepared

WE, THE WOMEN

By RUTH MILLETT, NEA Staff Writer
Not long ago I wrote an article questioning whether or not we are doing right in pushing teenagers off into little worlds of their own, giving them canteens, and saying, "Now run along, children, and don't bother us grownups." Their letters written in reply to the column were indignant. "After all," said the teenagers, "the canteens give us a place where we can get off by ourselves, away from grown-ups who aren't interested in the things we are and who don't even talk our language." "Besides," almost every letter added self-righteously, "the canteens keep us off the streets." Such letters make me wonder what they're doing to our young people. Yes, they're off the streets. We did such a fine job of selling them that idea they feel very virtuous about spending all their spare time in loafing lounges dancing and eating sundaes. SHOULD EXPECT MORE In these canteens, we thought we had the answer to juvenile delinquency. But it certainly can't be the whole answer. The boys aren't doing some practical work in off-school hours. Girls aren't learning how to run a home. Neither is contributing to family life. Yes, they are off the streets when they're in their canteens. But is that all we should expect of high school pupils who in a few years will face the problems of earning a living, making homes, and bringing up children? You may be sure that my statement that I was available for any public duty to which I might be called by the American people was not limited to any particular political test. —Gen. Douglas MacArthur. by The National Board of Fire Underwriters are ready now at Fire Department headquarters.

EAT WELL for Less

Variety Is Important in Baby's Diet

By GAYNOR MADDOX, NEA Staff Writer
Good nutrition for children must be a consistent, round-the-calendar plan, says Dr. James R. Wilson, Secretary of the Council on Foods and Nutrition of the American Medical Association, in an exclusive interview. "Child Health Day, May 1, should remind all parents of growing babies and children that they are responsible—not occasionally but every day of the year—for the health of their offspring. This great parental responsibility calls for unceasing effort to keep children well and to see that they are offered a wide variety of wholesome, appetizing foods each day. "A good variety of foods accomplishes two important purposes. It tends to supply essential nutrients that are required for normal growth—the known as well as the unknown. Second talking point for variety is that it helps children to grow up with healthy food habits. Early acceptance of many foods encourages a healthy attitude toward eating that acts to offset the development of finicky eating habits. "There is no shortcut to health. A vitamin pill will never make a good diet out of a poor one. The good diet must contain a variety of foods for normal growth and development, and for the maintenance of healthy appetite. "Babies quickly become creatures of habit. Feed them a limited diet, and they soon resist offers of foods that are new and strange. As noted in "The Road to Good Nutrition," latest publication of the U. S. Children's Bureau, Federal Security Agency: "New foods should be given at first in small amounts so that the child may become used to the new flavors and textures. Respect his dislikes, and remember that a dislike to a food may last only a few days." BREAKFAST: Orange juice, soft-cooked eggs, whole wheat toast, butter or fortified margarine, marmalade, coffee, milk. MOTHER-JUNIOR VARIETY LUNCH: Buttered baked potato, green beans, squash custard with lamb, vegetable sauce, graham crackers, tea, milk. DINNER: Stuffed and braised beef heart, gravy, mashed potatoes, buttered broccoli, sliced tomatoes, enriched bread, butter or fortified margarine, fresh fruit gelatin with custard sauce, coffee, milk. COOK CANNED FOODS RIGHT There was a time, not so long ago, when certain housewives would prepare a can of vegetables, such as peas, for the table by discarding the brine, washing the peas thoroughly and boiling them in a lot of water. The modern recommended procedure consists of pouring the brine into a saucepan, concentrating it as rapidly as possible to a half of its original volume, then adding the peas and heating only until they are hot enough for serving. The flavor is vastly improved and the brine, which requires valuable nutrients of the vegetable during the canning process, is utilized to the best advantage.

Women in the Church
By MARY FOWLER
"God's Design for Children" is the topic, and "Every child is my child" is the slogan of the "May Fellowship Day" which will be observed by Protestant church women across the nation on Friday, May 7. The observance of the day is sponsored by the United Council of Church Women, and Mrs. George Martin is chairman of the planning committee. The day "is a time when we celebrate the fact of our unity in the service of Christ in thousands of communities," say the women who will meet in inter-denominational and community-wide (sometimes county-wide) groups for special services. The general program of the day calls for an address (by a judge, or social worker, or church or school leader) on "God's Design for children"; followed by a panel discussion on the same topic by young people and by women; and a poll of four questions related to the welfare of children in the local community.

Lovely Layette

5859
sailing—your layette. Now you'll have lots of time to gather sweet little sets for the babies your friends, daughter or granddaughter are expecting this summer. Use fine white nainsook for the petticoat, sacque and dressing gown. If the dress is to be used as a christening gown, make it of lovely silk crepe, trimmed with real Val or handmade crocheted lace and make the bonnet to match. To obtain complete pattern for the 5 piece set, tracing for embroidery, stitch illustrations and finishing instructions for the Lovely Layette Set (pattern No. 5859) send 15 cents in coin plus 1 cent postage. The Social Calendar

MONDAY
8:30 Pampa Book Club in City Club rooms with Mrs. Dudley Steels in charge of program patterned after Ted Malone's radio program. Between the Book Ends. All members urged to be present and any one interested invited.
TUESDAY
Merton Home Demonstration Club all day quilting party in home of Mrs. Frank Bailey, 435 N. Warren. Covered dish luncheon at noon.
2:30 Varietas Study Club in home of Mrs. E. C. Evans, 1300 Charting with Mrs. E. J. Haslam as hostess.
7:30 Order of Eastern Star Study Club in home of Mrs. A. A. Hankins, 1209 Mary Ellen.
2:30 West Fraternity Club with Mrs. W. R. Ewing, 433 N. Somerville.
2:30 Twentieth Century Club in City Club rooms.
2:30 Civic Culture Club in home of Mrs. A. D. Hills, 106 N. Front. Mrs. Lloyd Risher will be hostess. This is a change from announcement made in yearbook.
2:30 Twentieth Century Forum Club in home of Mrs. Dick Hughes, 230 West Frank.
2:30 Twentieth Century Culture Club with Mrs. Myles Morgan, 120 Garland.
7:30 Theta Rho Girls Club in IOOF Home.
7:30 Business and Professional Women's Club in City Club Rooms.
WEDNESDAY
10:00 Women's Golf Association at Country Club.
2:00 Bell Home Demonstration Club, called meeting in home of Mrs. J. B. Jones.
7:00 Presbyterian Men's Brotherhood regular monthly dinner meeting in church basement.
8:00 BKG Club will entertain the presidents of all the clubs. Mrs. Henry Lane will review the book, "Peace of Mind."
THURSDAY
8:30 Yucca Chapter of the National Delphian Society with Mrs. John Adams, 1130 Christine.
7:30 Rebekah Lodge in IOOF Hall.
FRIDAY
8:00 Order of Eastern Star Initiatory work by Berger chapter in Masonic Temple.

Mrs. Albert Reynolds Is Hostess to Parent Education Club

The Parent Education Club business session was presided over by Mrs. Ed Weis, Jr., when it met last Tuesday in the home of Mrs. Albert Reynolds. Mrs. Joe Gordon was nursery hostess. Mrs. E. E. Shelhamer introduced the program for the afternoon with a quotation from Algernon Swinburne—"The sweetest flower in all the world—a baby's hands." Mrs. John Hines gave a talk on gardening, dealing primarily with a child's garden. She discussed the tools necessary for a beginner and told of different ways to make a child interested in growing a garden. Flower arrangements were discussed by Mrs. W. R. Ewing, who illustrated her instructive talk with pictures showing the various flower arrangements—circular, triangular, and radial. Mrs. Joe Key spoke on travel. She gave the basic principles to be remembered in packing bags for trips, and she discussed travel etiquette and explained the methods of obtaining passports and visas. Refreshments were served to fifteen members.

County Agent Attends Clothing Construction School in Amarillo

Ann Hastings, home demonstration agent of Gray County, attended the Clothing Construction School in Amarillo, Wednesday, Thursday and Friday of last week. Nena Robeson, associate state clothing specialist, conducted the meeting, and demonstrated mass production methods that can be used in perfecting and simplifying sewing. All home demonstration agents of this district were present, and they will take clothing construction ideas back to their counties.

There is one cancer death approximately every three minutes in the United States. Cancer strikes, on the average, in one of every two families. Seventeen million persons now alive will die of cancer unless new treatments and cures are found.

Modern Women Seek 2-Way Help Like This

What to do for women's oldest problem, functional monthly pain? Many a girl and woman has found the answer in CARDUI's 2-way help. You see, CARDUI may make things lots easier for you in either of two ways: (1) started 3 days before "your time" and taken as directed on the label, it should help relieve functional monthly pain; (2) taken throughout the month like a tonic, it should improve your appetite, aid digestion, and thus help build up resistance for the trying days to come. CARDUI is scientifically prepared and scientifically tested. If you suffer "at those certain times", get CARDUI today.

All 18 Feet of Your Skin Hates Humidity

"It's not the heat, it's the skin, plus humidity," says Dr. Waldo H. Kliever, research director of the Minneapolis-Honeywell Regulator Co. The average human being has 18 to 19 square feet of skin surface which acts as an evaporative cooling system, he says, and if surrounding air is extremely moist this action is restricted. controls now being developed are expected to make it possible to control humidity in homes and factories within a fraction of one percent of the desired level.

Suggestions Should Come From Dealer

Whether you plan to put up a few bookshelves or build a new house, consultation with your local building supply dealer before starting the job usually will save both money and headaches.

The dealer knows from practical experience far more about the problems involved than the average layman and is eager to pass along his information. What you are going to do or the way you plan to do it may waste material or the result sought may not be satisfactory. He knows about construction methods and new and improved materials, use of which will save money and produce a better job.

Particularly important is that the lumber dealer can give an accurate estimate on cost of the proposed project; therefore, when you start figuring with a contractor you will know whether the contractor's estimate is what it should be.

In case you plan to do the work yourself, your dealer will advise the quantities of material and proper lengths of lumber to buy to avoid waste. He will explain short cuts and methods to make the job easier.

Usually such information on a small job is given without cost or obligation; although a dealer cannot be expected to work out the bill of supplies for a complete house unless he knows he will sell the material. Many dealers offer a complete plan and consultation service at a low fee. Such service usually will save many times the amount of the fee and result in better construction.

Quality materials generally will be recommended. Although first cost is slightly higher, top quality materials are a better investment than poorer grades and are an economy in the long run. The dealer does not recommend top-quality goods merely to push up his bill. He is an integral part of the community and wants to see it grow and prosper. For that reason he is firmly against jerry-building and is eager to work out plans for the best interests of his customers.

Tall Fish Stories Grow in Australia

SYDNEY, Australia — (AP) — When a fisherman came home recently with a beer glass he told his wife he had caught it while fishing. A small octopus had its head wedged into it, he said, and he caught the octopus.

His story recalled one told some years ago by professional fishermen who said they found a full bottle of beer in the stomach of a shark. It was not claimed that the shark used the glass in consuming the beer.

BUILDING NEWS

Built-In Fluorescent Lighting Is Convenient for Recreation Rooms

If you're planning to remodel your recreation room or building a new one, here are some clever ideas for built-in lighting that you will certainly want to consider.

The cheerful recreation room pictured above is pleasantly illuminated with long lines of fluorescent light hidden beneath the windows, under the bookshelves, at each side of the bar, and in the sign above it.

You may not be able to add all of these light touches at once, but you'll certainly want to start with the novel shelf-valances used to light the small hank windows which are found in many basement rumpus rooms.

As you will notice in the photograph, a valance is placed at the bottom of each window rather than at the top as is usually done in conventional window treatments. The top of the valance is enclosed with a panel of frosted glass which provides shelf space for bric-a-brac or plants.

The valance can be made of construction board in any home workshop. It should be designed to fit the window.

Because of the great variety of lengths of fluorescent tubes (the length varies according to wattage) you must be sure to measure the window carefully and then choose the fluorescent tube that most nearly corresponds in length. Average size windows usually take either the 30-watt fluorescent (36 inches long) or the 40-watt (48 inches long).

Lamps should reach to within three inches of the end of the valance so that it will be lighted evenly. However, make certain when using more than one lamp to place them end to end in the center to avoid dark spots.

Portable brackets using 20-watt fluorescent lamps were mounted on either side of the bar to balance the lighting on that side of the room.

Floors May Be Restored By Bleaching

Home owners doing their own decorating report that bleaching floors before refinishing them restores the true beauty of the wood. They say, too, that bleaching is an inexpensive and simple process when done correctly.

All the necessary equipment and supplies should be assembled before beginning the actual work, so that everything will be near at hand when you need it.

You will need benzene, bleaching liquid, paint remover, sandpaper, a wire bristle brush, scrub pad and a scrub pail. Your paint dealer can recommend the amounts of the liquids necessary for the floor area to be refinished.

Since the liquids are highly inflammable, it is extremely important that they be used in a well-ventilated and all flames (including pilot lights) be extinguished. Smoking should not be permitted. Handle and store the liquids with care, too. It is both dangerous and convenient to keep the benzene in a galvanized steel gasoline can. This type of container can be kept tightly closed when not in use and also facilitates pouring.

Before bleaching the floor, remove all the old finish. Sanding is the easiest method, but if a sanding machine is not available it may be done with paint remover. Pour some of the remover on a small floor area and work it into the wood with the wire brush. Continue this treatment doing a small area at a time, until all of the old finish is loosened.

Saturate a heavy rag with benzene and use it to wipe up the remover. Repeat this procedure until the floor is clean. Go over the floor with fine sandpaper, giving special attention to any remaining spots of varnish.

Apply the bleach to the floor, being careful to follow the manufacturer's instructions. When the floor is bleached, wash three or four times with clear water to banish all traces of the bleach. It is convenient to use a galvanized steel mop wringer pail for this task. The mop head can be squeezed dry simply by stepping on the wringer device, eliminating stooping and wringing it by hand.

When the floor is thoroughly dry, refinish it with two coats of a high-grade transparent varnish. Allow the varnish to dry then apply wax to preserve the finish.

Shock-Proof Your Dwelling To Prevent Bad Accidents

Every home is loaded with hazards to life and limb, and the trigger can go off at any time. Home accidents account for thousands of casualties each year.

Tripping over an unseen threshold may cause only a stubbed toe . . . or it may result in a broken arm or leg. Turning on an unmarked water faucet might give you cold water . . . or a badly scalded hand. Electrical wiring in the basement might turn the lights on . . . or off for you with a charge of 5000 volts.

Good lighting plus a wise use of color will greatly reduce household hazards. A few dabs with a paint brush can do you or some member of your family from painful injuries.

Thresholds are a good place to start. Most are virtually invisible because they blend with the surrounding woodwork. Avoid toe-stubbing by painting thresholds leading into basement storerooms in a contrasting color.

In dark rooms or on poorly lit stairways, it's wise to have carpeting in a light reflecting color to eliminate dangerous shadows. Caution: make certain that all stairway carpeting is securely fastened!

Red means danger, and that's why it's a good color for electric switches in the basement. Red is also a good color for hot water faucets, furnace doors, electric connections, and the switch igniting your gas oven jet.

Bright colors silhouette any object. A spot of yellow or white behind a home fire extinguisher will make it stand out more from its background. Ditto for the guard on an electric fan.

Colors are useful as a means of identification besides serving as safety precautions. The kitchen is a good example of this. You open a kitchen drawer, fuss around the mass of handles confronting you and then, once you cut yourself again. Try painting the handles of much-used utensils in various contrasting colors: red for a paring knife, blue for a cooking fork, yellow for a ladle. Do the same with your carpenter and gardener tools.

These suggestions are only a start. Take it from there and shock-proof your home.

'Shirt Front' Homes Bad

Homes of the so-called "shirt front" or one-sided-treatment design are discouraged by the Federal Housing Administration and are given a low-value rating.

Architectural designs that are considered freakish, or those characterized by hybrid, are penalized in ratings. To receive favorable ratings, all design motifs should be in good taste, have a utility basis, or add structural value and attractiveness to the general scheme.

Elaborate use of motif and detail, inclusion of an unnecessary variety of materials, and straining for the picturesque cannot increase the rating. FHA officials declare. Use of false effects of roofing, false half-timber work, or unusual handling or combination of materials usually lessen the salability of a home.

Problem Solved By Glass Blocks

When a bathroom fronts on the street, necessary privacy and daylight can be obtained by combining glass block with a small ventilating window. The insulating quality of the glass block also reduces the heat loss that would occur with a large window.

Commonly associated with functional buildings, glass block also blends readily with almost any type of architecture. Insulux block in the six-inch size is comfortably at home with the simplicity of the Colonial-type doorway. The pattern of the mortar joints even bears a resemblance to the multiple-muntin sash present in early American windows.

"RUNOUTS" CAN BE USED ADVANTAGEOUSLY

If Junior's room is badly in need of a sound deadening floor covering and the family budget overlooked this item, try this suggestion. Ask your local dealer to see the "run-outs" he has in stock. These rugs are made from the odds and ends of yarn left from more expensive rugs. Many of the rugs are as gay as a young boy could wish for. The designs are often quite Indian in feeling. Actually, it is just the way the yarn happens to come on the loom, as there is no set pattern. They are warm, hard wearing and very inexpensive. They are also suitable for playrooms, camps or dens.

Quality Fittings Stand Up Well, Best in Long Run

From a maintenance standpoint, plumbing fixtures — the shower, accessories, fittings and valves — is of major importance to the Plumbing and Heating Industries Bureau.

"What's inside" the working part of the fittings is built to conform to a rigid standard of quality when made by a reputable manufacturer. Modern fittings are extra heavy and made of ingot brass, electrically melted to obtain the finest possible grain. Washers are made of long-wearing composition of rubber and asbestos fiber.

What's inside the shower fittings — for instance, the self-cleaning heads — guarantees shower satisfaction. The self-cleaning head has no holes in it; therefore, it cannot clog up. Instead, there are tapered grooves in six plungers, through which full round, unbroken sprays are emitted. By turning a lever handle, these plungers can give a choice of spray from a splashing rain shower to a fine stinging needle shower as desired by the bather.

A mixing valve mixes and measures hot and cold water to a mechanical exactness and measures the volume so that an equal amount of water passes through the shower at all temperatures. Cold water follows the first fractional turn of the handle, then warm, and finally hot. When properly installed, it is impossible to get hot water first.

The valve construction in fittings for bathtub and lavatory is superior because of renewable screws. All valve parts subject to wear are renewable. Thus it pays, the bureau advises, to select fittings and fittings made by a reputable manufacturer. Quality fittings will give years of satisfactory, trouble-free service. If repair parts are ever necessary, they can then be obtained and installed easily and quickly.

Inexpensive Unit Protects Refuge, Discourages Rats

Would you believe that the average home boards from one to five rats? And that rats damage or destroy two billion dollars' worth of food and property each year? Yes, these are the facts.

Rat control experts say that one of the ways to eliminate rats is to use galvanized steel garbage cans. Equipped with tight-fitting covers, such cans keep rats out of edible refuse. Without this source of food, they usually change quarters or starve.

Home owners often have difficulty keeping covers on garbage cans — they are either lost or damaged. If you are faced with this problem, you can solve it by constructing the unit shown.

The unit consists of 5 1/2 feet of 1-inch pipe, a 1-inch waist nut, a 1-inch malleable ell, a 3/4 inch "U" bolt, a length of chain and enough cement for a square base about 4 inches deep and a few inches larger than the base of the can used. Set upright pipe, which may vary in length, into 3 inches of the cement. Assemble other parts as indicated.

Such a unit adds life to the garbage can by preventing loss or damage of its cover. The concrete base is easy to clean and keeps unsightly mud and water from collecting around the can's base. A coat of paint can be added to dress up this rat-proof refuse area.

Interior Color Affects Mood And Makes Homes Distinctive

The colors that surround you affect your everyday moods. You can use color to make small rooms appear larger and large rooms smaller. With the trend toward less clutter and less crowded furniture arrangement, color enables you to fill your rooms to avoid a barren, sparsely-furnished appearance.

Subtle off-shades, rather than pure primary red; blue and yellow, are most satisfying, say interior designers. With the growing use of light-colored woods and fabrics in furniture, darker wall tones are needed to bring furniture into focus.

Combinations like these have been successfully used with blond wood furnishings: burnt orange for dark gray with white trim; kelly green with matching trim on walls and off-white or canary yellow ceilings. Maple furniture is effectively set off with almost any shade of blue or yellow. If your furniture is dark mahogany or oak, medium greens or deeper shades of blue provide an effective setting. Orange-yellow, chartreuse or a rich beige, also combine well with heavy furniture.

Lightly-gilded wallpapers on one wall are often used to accent a room's furnishings. A bright yellow should not be used behind a gold-colored chair. On the other hand the yellow will pleasantly meet a green chair.

Before deciding on your wall color scheme, get from your paint or wallpaper dealer generous swatches at least two feet square, of the colors and patterns you think you want. Hold these walls behind the furniture you expect to place there, to determine which color complements the furniture best. And don't forget to try the swatches under artificial light.

Those Old-Timers Knew Secrets of Sturdy Building

With all due respect for the skill of modern home builders in providing America with sturdy houses, it must be conceded that our hardy colonial forefathers possessed considerable talent in that direction. Lacking the equipment and advanced techniques employed by present day builders, many of them nevertheless constructed homes that have stood the test of time for more than 200 years.

One of the secrets of their success, aside from careful workmanship, was the use of durable materials. Floors, for example, usually were of oak or other hard-woods which are noted for their capacity to withstand wear almost indefinitely.

A case in point is a home in New Canaan, Conn., which was built about 1730. According to the New Canaan Historical Society the house still is in service today. Its present "fine condition," says the society, "is a tribute to the workmanship of its builder. Some

Building Is Revived From Low of '44

Total physical volume of new construction in 1947 more than doubled the war-time low of 1944 and exceeded by 8 percent the total for 1939, the last year unaffected by war demand, Melvin H. Baker, chairman of the Construction Industry advisory committee, said today.

"Moreover, the trend so far this year is well above 1947 performance," Baker said.

"Using the estimates of the U. S. Department of Commerce for the volume of construction activity measured in constant dollars, the index of physical volume for 1939 is 100. In 1944 the index dropped to 50, climbed back to only 54.5 in 1945, and by 1947 had risen to an estimated 107.6."

"This record demonstrates the efficiency and resourcefulness of the building industry and is a striking example of rapid recovery from the severe curtailment and dislocation of wartime conditions and postwar controls."

"While the emphasis necessarily continued to be placed on residential construction last year, with a near-record volume of housing starts, a large volume of other construction was underway and was apparent throughout the country in new stores, factories, schools, and hospitals of modern design — valuable additions to our communities. It should be remembered also, that in addition to new construction of all types, the industry was at the same time meeting an abnormal, record-breaking demand for farm building and for repair and maintenance work."

"An outstanding record has been made in construction of new industrial plants needed to meet unprecedented postwar demands for goods. As early as 1946, the physical volume of new industrial building had climbed to within two percent of the all-time high attained in 1929 and was more than 700 percent above the wartime low reached in 1945."

"The renaissance of the building industry to the demands put upon it and the fact that it was able to achieve such volume in the second full year after the end of hostilities is a tribute to all elements in the industry."

World Is Now Without Real Leadership—Watch Moscow

By UPTON CLOSE

The world is wallowing in a depression of leadership as chaos. All the big voices are silent or feeble. Three of the dictators of the world have died. Hitler, Mussolini and Roosevelt, are dead and largely repudiated.

The two remaining war lords, Stalin and Churchill, are only weak influences on the world battlefield.

Hirohito is a name hardly known to the Western newspaper reader. Chiang Kai-shek remains a rock in the path of the Red machine, but confused and cheap political leadership in the United States limits his sphere of usefulness.

There is evidence of weakness and indecision in Moscow.

The power of the Kremlin can only produce chaos, not victory. The United States, host to several of the world's great revolutionary leaders, has the weakest leadership in its history.

The long-term revolutionary program of the Kremlin for Central and South America, handed to leaders at Mexico City in November, 1941, is able to produce a revolt in Bogota and sporadic outbreaks in half a dozen neighboring countries, but only serves to bring confusion.

The plan to seize power in states bordering the Panama Canal and to seize British colonies in this hemisphere poses a threat to our security in case of war with Russia, but otherwise has only partial success.

There are evidences that this program is not up to its schedule.

In Italy we saw the hint of a possible moral awakening of the people during the years of war and postwar blood, hunger and harassment, Italian spirits flared; neither Christian nor Communist could consolidate a victorious following.

Even Communist leaders complained about the apathy of the Italian people. Social responsibility was low; anarchy threatened.

The significant news from the Italian election is that the intense political battle covering a period of weeks roused the people from their lethargy.

It is significant, also, that the successful leadership was Christian, the awakening moral.

In Italy the ancient and Christian forces met the stronghold of European Christianity and was stopped. It was at the Vatican that the East was stopped. It was the Pope who did the principal job of rallying the people. He went a long way toward unifying Protestant and Catholic forces in the fight to preserve Italy.

The time is right for a great leader. There is only one on the entire horizon whom the forces of freedom might spontaneously rally. He is Douglas MacArthur.

MacArthur probably could consolidate the United States itself, and thus score the major victory, but he also would be hated by

War's Effects on Married Life Said To Be Wearing Off

NEW YORK, N. Y. — The disruptive effects of the war on family life are rapidly wearing off, according to the statisticians of the Metropolitan Life Insurance Company, who estimate that divorces in the United States during 1947 dropped by about one-fourth from the all-time high in 1946. In Nevada, one of the divorce centers, the decline was about 34 percent; other states showing decreases of 20 percent or more are Florida, South Dakota, Texas, Michigan, and Minnesota.

The 1947 decline marks the first reversal in many years of the steady climb in divorce, which accelerated in the immediate postwar period to produce the 1946 peak.

A large proportion of wartime marriages proved to be unstable. The recent upswing was sharpest, the statisticians note, among those married less than five years, which they attribute to such factors as hasty marriage, long separation during the war, and adjustment to postwar civilian life.

The rise in the divorce rate has been progressively smaller for each successive five-year period since 1941 to 1946 was 130 percent among those married less than five years, 55 percent among those married five to nine years, and 35 percent among those married 10 to 14 years.

"If there is any comfort to be derived from the divorce record of recent years," the statisticians conclude, "it is that about three-fourths of the marriages dissolved were childless and that a considerable proportion of the divorced lost little time in re-marrying."

Russia is blocking the return of economic stabilization to Europe. The situation has got to be solved somehow and soon.

— Henry Ford II.

Gracie Reports

By GRACIE ALLEN

Well, I kiss that snopy old science has now turned its attention to kissing. A biochemist told a convention of the American Chemical Society that the chemicals in your body act exactly the same, whether your girl kisses you or makes you angry by refusing to.

In either case, this scientist said, the chemicals inside you set up an "alarm reaction" and go churning all over the place. The trouble is, according to Gracie, many a man taking a carder's kiss gets an "alarm reaction" of the delayed type, and too late awakens to find himself saying "I do."

Gracie himself gets an "alarm reaction" when I kiss him around the first of the month just before the bills come in. I guess the safest kind of a kiss is the husband's "going-to-the-office" peck on the cheek that seems to put all the chemicals in both parties to sleep.

MOPSY by Gladys Parker

It is time to call a halt to the stream of bitter, smearing attacks, indiscriminately made on public servants.

— Dr. Charles E. Merriam, economist.

It is quite clear the Russians do not like our being in Berlin and they are trying to make our position untenable.

— Maj. Gen. Neville Brownjohn, British deputy governor of Berlin.

CAMPAIGN STEPPED UP by John Fisher

The results in Italy are only one aspect of the struggle between the philosophy of free peoples and world communism. In Washington, experts on the problem point out that the contest of ideologies may be long. Sporadic tests of strength are possible in the Middle East, Northern Europe, Asia and in parts of Latin America.

The United States must have patience, firmness and understanding.

Doses Of Propaganda

Lenin's tomb is only one means by which the rulers seek to hold the fealty of the masses. The Politburo has learned that others are not so faithful to principles as its hierarchy. Backsliding occurs when propaganda wanes. Many thousands of Soviet soldiers, sailors and captured civilians in the Ukraine had personal contacts with Western civilization. They would not believe the outside world is as bad as the Red press pictures unless they were told new stories of capitalist warmongering and imperialist designs on Mother Russia.

During the war the ranks of the Communist Party were doubled to more than six million members. Many of the newcomers knew very little of Marxist tenets. Secretary-General Malenkov recently admitted frankly, "The rapid numerical growth of the party and the changes thus caused in its composition have rendered very urgent the problem of intensifying the political education of the members."

Two years ago the Central Committee ordered writers and composers to inject party propaganda in their nonpolitical works. But the cultural leaders were remiss. Recently the government cracked down on errant artists, including the celebrated composers Shebalin, Mianusky and Shostakovich, for too much individualism and too little communism.

Potential Danger

In the incident a hopeful sign of tolerance is seen. In the old days recalcitrants were purged. The present crop of sinners was merely scolded and told to reform.

Common Ground

Republican Leaders Sell Out to Lewis

It looks as if the Republican leaders are making an immoral and unbecoming combination with John L. Lewis.

Lewis gained so much power under laws made by Democrats that he was able to strangle the country. He got so much power that even the Democratic Party hesitated to grant his demands.

Now the chairman of the Republican Party, Senator Martin, has connived to appoint a third arbitrator, Senator Bridges, who would sell out the American people in order to claim that the Republicans settled the strike.

They did not settle anything. They did get the men back to work temporarily, but by permitting Lewis to doublecross Ezra Vaa Horn, representing the mine operators in the three party committee.

We have only thrown more blood to a man who knows no law but might; who is willing to strangle the American people in order to promote his own power. The Republican Party should be ashamed of such an alliance. In the long run it will do the Republicans no good. It will do them no good because it means less Americanism and more subservience, more tribute to a special privilege group.

War's Effects on Married Life Said To Be Wearing Off

NEW YORK, N. Y. — The disruptive effects of the war on family life are rapidly wearing off, according to the statisticians of the Metropolitan Life Insurance Company, who estimate that divorces in the United States during 1947 dropped by about one-fourth from the all-time high in 1946. America Adopting the Brothers' Keeper Aftitude

I received a clipping from the London Daily Express with a card which states that the clipping was with Lord Beaverbrook's compliments. He is the publisher of the London Daily Express.

What particularly struck me was one of the statements made in trying to show appreciation for what America had done in coming to the aid of England. The article said, "They (America) have gifted these immense sums of money and goods with every intention of rescuing their neighbors in trouble. They show a kindness of disposition worthy of a people who have for long sustained throughout the world the precepts of the Christian faith. They have declared themselves their brothers' keepers."

In reality that is what it means when we try to rehabilitate another nation. We have to treat those we are trying to rehabilitate like a jailer keeps people in a jail; with a parent keeps his children; with a woman keeps her children; with a man keeps his children.

And when that condition comes about the people themselves lose their own initiative and become leeches on the man or nation who becomes the keeper.

As this column has repeatedly contended, no man is his brother's keeper; he is only his brother's helper. A parent has to tell them what they can have, he has to make decisions for them.

When that condition comes about the people themselves lose their own initiative and become leeches on the man or nation who becomes the keeper.

As this column has repeatedly contended, no man is his brother's keeper; he is only his brother's helper. A parent has to tell them what they can have, he has to make decisions for them.

Beaver Rustlers Worry California

SONORA, Calif. — Folks up here in Tuolumne County are loopy about the beavers which game wardens have been planting around.

J. Whittle heard a shot on his ranch. Sure enough, there were a couple of boys skinning a beaver. Whittle held them while his son ran for the game warden, who said they had planted the beaver only an hour before.

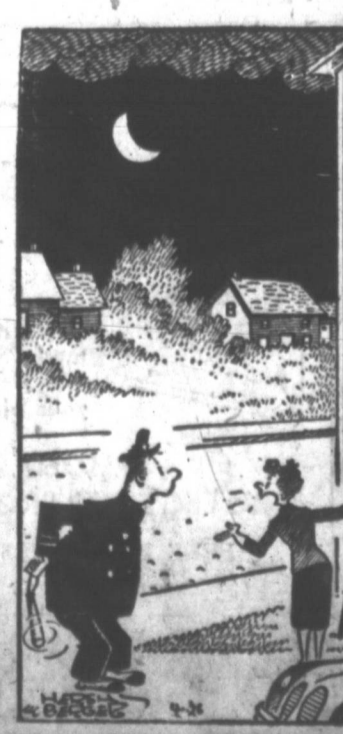

In court, the boys were fined \$50 each.

FUNNY BUSINESS BY HERSHBERGER

"Do you think that the recent tax cut, which becomes effective on May 1, will be permanent?" writes S. A. of Brooklyn.

Answer: No, and I find few in Washington who do. It will be election year tax reduction, and it is almost certain that the rates will have to be increased next year on the basis of foreign gifts and loans and national defense expenditures.

But the 1948 cuts may mean a permanent, a smaller saving. When Congress finds it necessary to obtain more revenue, the new increases will start from

We Convinced Russia—All Too Well

NATIONAL WHIRLIGIG

news behind the news

By RAY TUCKER

WASHINGTON — General discussion of the prospect of atomic warfare has provoked many letters on various phases of this problem. Specifically, they revolve around a report here of an article by Dr. E. R. Lapp, executive director of the Atomic Energy Commission's Joint Army and Navy Research and Development Board.

With the approval of higher authorities, Dr. Lapp described the devastating effect which an atomic bomb would have if dropped over Washington. The article also outlined the targets in the U. S. which an enemy nation would attack first.

M. E. B. of Norwalk, Conn., thinks that Dr. Lapp and the writer did a disservice in making public this information. "The reports are all right for official Washington," he says, "but I would rather not serve the information on a silver platter to the enemy."

McLean

McLEAN (Special) — The Senior Class will present its annual play Thursday night, 8 o'clock, at the Auditorium. Virginia Chambers directs the 3-act farce-comedy, "He Was a Gal Senorita." In the cast are Scotty McDonald, Bobby Myatt, Bill Boston, Jan Black, Arvin Smith, Jayne Bowen, Carl Smith, Charles Ross, Bill Busby, Claude Mounce, Sue Davis, and Maurine Harlan.

Mrs. Ivan Myatt, Italian bride of C. A. Myatt, was guest speaker at the F.H.A. girls meeting at the High School last Wednesday. A former resident of Rome, she discussed her country, which she has traveled, as well as Africa, where she spent two years.

Stella McCellan and Mrs. J. D. Coleman were present at the state meeting of the Texas Association of Future Homemakers held at Galveston Friday and Saturday. They were to arrive home over the weekend.

Submarines Seen In Barmora Sea

ISTANBUL Turkey — Istanbul newspapers reported today that two foreign submarines have been seen prowling in the Sea of Marmora.

There was no official comment. The papers said the submarines came from the north and slipped through narrow Bosphorus Strait unnoticed.

However, in view of the wretched conditions which prevail among the millions of people beneath the upper crust of aristocrats in almost every one of the twenty southern republics, sporadic protests of this sort must be expected. Such phrases as the "Good Neighbor Policy" do not eliminate basic evils.

THE INNOCENT IMPOSTOR
By Renee Shann COPYRIGHT BY RENEE SHANN; DISTRIBUTED BY NEA SERVICE, INC.

THE STORY: Patience Mead goes to London three times a week to attend dressmaking school. It is the only freedom allowed her by the two old-fashioned, snobbish, but kind-hearted, and with whom she lives in the country. She always returns home on the same train and for some time now has been trying to pick her up. But Patience is too proper to talk to a strange young man. One evening, an accident halts the train about a mile from her station. Paul offers to walk with her, so she won't be too late getting home, and she accepts. He asks her to meet him at nearby Moorfield the following Saturday for tea and movies. She tells him her name, and he tells her she has a twin sister whom she hasn't seen since childhood.

The Innocent Impostor

"I was a strange man! Still, I had hard work to make you speak to me."
"Ah, but you didn't seem at all strange. I'd seen you so often traveling down in the same car."
"Oh! So you had noticed me?"
"But of course."
"Mouise, you're adorable! Gosh, that's made you go quite pink!"
"Well..."
"The guard blew his whistle. She leaned out of the window impulsively, holding out her hand to him."
"Goodbye, and thank you. It began to move slowly down the platform."
"Mouise" he called.
"I suppose you know I'm in love with you?"
She gasped. She didn't know what to say to him. She just stood there at the window watching him, waving to him as at last he stopped running, her head thumping madly. Then she sank down in the seat wondering if she were dreaming. She sat very still, her hands folded in her lap, trying to quiet down a little. Was this the way her mother had felt when first she'd met her father? Well, she, her daughter, knew what had happened. She'd run away. Been cut off completely by her family. Been deserted by her lover and left to die of a broken heart. Shouldn't that be a warning to her?

Oh, if only her mother had had her good sense. Patience, could have grown up with her to guide her! She'd have understood that a time was bound to come when something like this would happen. How could Aunt Helen and Aunt Alice be expected to know the way she was feeling? They were two of the best. They'd probably neither of them ever been in love in their lives.
"I'll be there."
She was leaning out of the window now. She rather wished he'd kiss her goodbye. And felt a little shocked at herself for wishing it.
"Get home safely. Don't speak to any strange men, remember."
She laughed gaily.
"I shouldn't be likely to."

High-Scoring Features Big State League's Results

By the Associated Press
Only two Big State League games were played yesterday, but they were free-fighting, high-scoring affairs.
Wichita Falls took a three-hour slugfest from Austin, 19-15, and Gainesville moved into a tie for first place on an 11-9 decision over Waco.
Rain postponed the Sherman-Denison Texas game and Greenville-Paris tilt.
Austin built up a five-run lead in the first inning, but wilted before a 16-hit Wichita Falls attack.
The Spudders bounced back in the third for six runs, added two in the fourth, three in the fourth, four in the fifth, two in the sixth and single runs in the seventh and ninth innings.
Manager Hank Oana used 19 players trying to catch up with Wichita Falls, but though the Spudders tallied three times in the fourth, fifth and ninth innings, couldn't make it.
Frank Pawlik hit a single and two triples to drive in six runs pace the Spudders' victory.
Gordon Donaldson collected five hits and a walk in six times at bat, including a two-run homer, to lead Gainesville to its wild win over Waco. Lon Goldstein also contributed a grand slam homer as the Owls took a lead that stood up in the face of a nine-inning outburst by Waco in the last three innings.

STASSEN

(Continued from Page 1)
Cabot Lodge, Jr., in the background of another possibility. There has been some speculation that Rhode Island Republicans, picking eight delegates at a convention today, might back Spurr, Martin as an adopted supporter of Dewey, who was figured to have strong New England backing before his losses in the Wisconsin and Nebraska primaries, were reported working behind the scenes to line up secondary victories.
Dewey's backers bid at a state meeting today for a sweep of the Oklahoma delegation. They already have clinched several district delegate posts.
In a busy political week, Delaware and New Mexico Republicans will choose delegations Wednesday, Tennessee and Mississippi Friday, and Missouri and Colorado Saturday. By the 717 of the 1,094 GOP convention delegates will have been chosen.
Pennsylvania Democrats pick 74 delegates tomorrow. All are expected to support President Truman for the nomination. In Massachusetts at least 35 of that state's 36 are certain to be for the President.
Mayor James M. Curley of Boston, a delegate candidate, has said he is for Gen. Douglas MacArthur.
With an eye on the President's steady accumulation of convention votes, Senator Pepper (D-Fla.) told a reporter he thinks Mr. Truman is "almost certain" of the nomination despite the intra-party fight.
Pepper is understood to have brought back from a far-western speaking tour pessimistic reports to Democratic Chairman J. Howard McGrath on the party's chances in that area.
Mr. Truman is going out to take a look at his political fences there in June. He plans a speech June 12 at the University of California commencement.

Man Killed in Car-Truck Crash

SHAMROCK — (Special) — Wesley Wayne MacDonald, 22, of Briscoe, was killed instantly about 12:30 a.m. today when the Ford coupe he was driving was collided with a truck driven by Eugene Wallace, of Tulsa, Okla., about eight miles east of Shamrock.
Hugh Fillingim, son of Mr. and Mrs. I. G. Fillingim, of Briscoe, was riding with MacDonald, and is being treated at the Shamrock General Hospital for face lacerations.
Mr. MacDonald was born in Loda, Grove Community near Twitty, where he lived until nine years ago, when his family moved to Briscoe. He was a member of the Baptist Church, and served 21 months in the Navy.
Surviving are parents, Mr. and Mrs. B. F. MacDonald, Sr., brother, Benjamin Franklin, Jr.; two sisters, Mrs. L. T. Davis, Jr. of Kelton and Mrs. W. E. Chavez, of Amarillo; grandmother, Mrs. S. A. McDonald of Twitty.
Funeral arrangements are pending, but burial will be in the Shamrock Cemetery with the Clay Funeral Home in charge.

Replies Needed To Questionnaires

Many farmers in Grady, Wheeler, Roberts, and Hemphill counties have not yet replied to the questionnaires sent them by the Pampa office of the Texas Employment Commission, L. P. Fort, manager of the office, said today.
With the prospects of a good wheat crop, this information is particularly important, Fort said, because the commission will try to supply all demands of farmers and ranchers for farm labor. The commission will use the information obtained to plan for the labor supply that will be needed, and will be able to direct laborers to where they are needed.

PALESTINE

(Continued from Page 1)
from Andrei A. Gromyko, Soviet delegate to the U. N., to Trygve Lie, U. N. Secretary-general, gave the signal yesterday that Moscow was ending its 13-month boycott of the trusteeship council.
Gromyko merely said the Soviet government has appointed Semen K. Tsarapkin its representative on the trusteeship council.
When the trusteeship council, one of three major U. N. councils, first met on March 26, 1947, the Russian chair was empty. The Russians have remained away from every council meeting. They said the council was illegally organized.
Irgun Zvai Leumi, underground army, undertook the attack on Tel Aviv against the advice of Haganah, army of the Jewish Agency. An estimated 1,000 men took part—the biggest strength, said Tel Aviv people, Irgun yet has shown.

DEATHS REACH 11

WINNIPEG, Man. — (AP) — Flood deaths in Canada's prairie provinces mounted to 11 today.
The flood threat lessened to a certain degree in Saskatchewan, but showed no signs of diminishing in Manitoba. An unseasonal snow-storm lashed Alberta, renewing the danger of floods there.
EVERYBODY PRESENT
OKLAHOMA CITY — (AP) — Al Smith, Robert E. Lee and Woodrow Wilson registered as delegates to the State Republican Convention here today.
Smith is Oklahoma County chairman. Lee is a presidential elector from Idabel and Wilson is secretary of the McIntosh County group.

Political Calendar

Peak is forecast in labor need even without a draft.

Nurses Save Headquarters of De la Rosa Here

San Antonio — (AP) — Five infantile paralysis victims, confined to iron lungs in the Robert E. Green Hospital here, who owe their lives to the heroic efforts of nurses, aided by police officers and firemen, were reported doing nicely today.
A power failure, caused by an electrical storm, early yesterday, halted the rhythmic function of the mechanical life savers for more than an hour.
Four nurses on duty immediately took over the manually operated pumps which service the lungs when the motors are not operating.
In semi-darkness, pierced only by brilliant flashes of lightning and probing flashlight beams, an emergency call to police headquarters brought five officers and five firemen who immediately took over the manual operation feeding life-giving air to the victims.
The five patients, all from the Rio Grande Valley, were two girls, 2 and 10 years of age and three boys, one eight and two two years old.
The children lay silent during the valiant battle with death. Only one of the victims could have lived outside the lungs for more than one hour.
"I was not panicky, no tears. I went my duty," whispered the younger girl, as nurses and volunteers worked silently, moving the bellows levers back and forth.
Dr. Edward D. King, her physician, said the babies were "doing fine."
They were born at 8:15 a.m. (EDT) at Providence Hospital.

Quadruplets Are Born in Detroit

DETROIT — (AP) — One boy and three girls were born today to Mrs. Anna Borg, 30-year-old wife of a Ford Motor Co. auto worker. The quadruplet births were a first here.
Dr. Edward D. King, her physician, said the babies were "doing fine."
They were born at 8:15 a.m. (EDT) at Providence Hospital.

Plans for Wedding Prove Too Much

LOS ANGELES — (AP) — The excitement of making wedding plans proved too much for 83-year-old Frank Hatch.
Hatch, a retired cabinet maker, succumbed to a heart attack Saturday at the home of Mrs. Jennie Johnson, 72. They were making final plans for the wedding ceremony, which was to have been held yesterday at the Evangelistic Center Church.
