Cold War Bill Of Rights Ready

WASHINGTON (UPI) — A permanent new GI Bill of Rights for veterans of the modern era's "perpetual cold war" was over its last major congressional hurdle today. Its first beneficiaries should be drawing college benefits by summer.

The House passed the bill Monday on a unanimous 381-0 vote. All that remained was for the Senate, which passed a similar bill last July to accept the House changes in the measure.

The bill's Senate sponsor, Sen. Ralph W. Yarborough, D-Tex., said he would recommend this. Although preferring his own more liberal version, Yarborough said, "the important thing is to get a cold war GI bill written into law as soon as possible."

The bill as passed by the House carries aid for college or other accredited schools totaling up to \$3,600 for single veterans and as much as \$5,400 for those with two or more dependents.

Other benefits include home loan guarantees, job counseling, veterans' preference in government jobs, and qualified hospital rights.

Unlike the GI bills of World War II and Korea, which were geared strictly to war periods, this will be permanent law. It will be retroactive to Jan. 31, 1955, the cutoff date for Korean GI bill, will cover qualifying service under the Korean GI bill, will cover everybody in uniform, and will last indefinitely.

It will cost \$335 million in its first year of operation, and more than \$2.1 billion over five years. This is far more than the \$150 million yearly contemplated by the Johnson administration in recommending a "hot spots" GI bill limited to veterans of actual battle or near-conflict.

FHA Orders Increase In Home Mortgage Interest

Typical Homeowner Will Pay Additional \$800 on House Loan

WASHINGTON (UPI) — The administration has authorized interest increases in federally insured home mortgages which will add about \$800 to the cost of a typical home loan over its 30-year span.

The increase announced Monday raises from 5 1/2 per cent to 5 7/8 per cent the maximum interest rate on new Federal Housing Administration FHA loans.

The move was aimed at keeping pace with increasing interest rates for other types of lending in order to make sure lending institutions would continue to make funds available for home mortgages.

But Rep. Wright Patman, D-Tex., chairman of the Senate Banking Committee, termed it "highly regrettable."

Patman and Rep. William A. Barrett, D-Pa., head of the banking committee's housing subcommittee, said the increase would cost home buyers millions of dollars and predicted resultant increases in already higher interest rates for conventional financing.

"These interest rates will hamstring and slow the building industry throughout the country, placing decent housing out of the reach of many Americans," they said.

The National Association of Real Estate Boards took the opposite view, arguing that the increase was not big enough.

Jack Justice, the association's president, said that the "slowdown in the housing sales market cannot be corrected until such time as the FHA sees fit to raise the rate another 3/4 per cent to 5 3/4 per cent."

He said the government's move might temporarily ease the situation in the East but "would not completely rectify the problem in the West where builders and home sellers have had a harder time finding loan money for their customers."

The 3/4 per cent increase announced Monday means that a family taking out a typical mortgage of \$15,000 over 30 years will pay an extra \$2.25 per month in interest charges.

Other business on the Thursday agenda will include acceptance of several resignations and new assignments under the PESO program and a progress report on PESO.

Consideration of administrative contracts.

Request to initiate bid procedure for items in the 1966-67 budget including new uniforms for the Robert E. Lee Junior High band and two new school buses.

Consideration of available money and possible application for the federal school library funds under Title II of the Elementary and Secondary Education Act of 1965.

Consideration of "supplementary" state funds for the local teacher salary schedule as authorized by Senate Bill 4 in the 59th state legislature.

School Board To Approve Trustee Election April 2

The Pampa Independent District School Board is scheduled to give official authorization at its Thursday meeting for a school trustee election to be held Saturday, April 2.

Only one board member will be elected this year to fill a vacancy left by the expiration of the term of Dr. R. M. Hampton.

The board also will appoint an election manager and two judges for the election in the Pampa Junior High School gymnasium, Ballard and Browning Sts.

Other business on the Thursday agenda will include acceptance of several resignations and new assignments under the PESO program and a progress report on PESO.

Consideration of administrative contracts.

Request to initiate bid procedure for items in the 1966-67 budget including new uniforms for the Robert E. Lee Junior High band and two new school buses.

START OF A BUSY NIGHT — Mrs. Benny Zelle, 1140 S. Finley, door-to-door marcher, receives a tally sheet from Mrs. H. L. Engle, 445 Hughes, president of Baker P.T.A. and leader of the Baker District for last night's Mother's March. More than 600 Pampa mothers collected a total of \$2,396 for the March of Dimes against birth defects. This is approximately \$200 more than was collected last year.

ADMITTED STABBING MILLIONAIRE

Convict Says Powers Murdered Mossler

MIAMI (UPI) — A balding convict testified today that Melvin Lane Powers told him July of 1964 that two years in the county jail at Houston had killed millionaire Jacques Mossler.

Billy Frank Mulvey, currently serving time in the Texas penitentiary, said this was in July of 1964, about two years after Mossler's blonde wife, Candace, gave him \$7,000 in an envelope on a lonely Houston road to kill her husband.

As the sallow-faced Mulvey uttered the words "her husband," Candy blurted out from her seat at the defense counsel table.

"I've never seen or heard of this man," Mulvey talked the language of a professional killer when he took the stand as the 24th state witness in the first degree murder trial of Powers and his Aunt Candy.

Telling of Candy's alleged attempt to have him kill her husband he said she made the offer in the summer or fall of 1962 and that he saw Powers in the Harris County Jail at Houston after Powers was arrested July 3, 1964 in the Mossler murder.

Mossler, 69, had been slain with more than 39 stab wounds in his Miami apartment on June 30, three days before.

During a running conversation that lasted on and off for a month, the bespectacled Mulvey said, "Melvin Lane Powers told me that he killed Jacques Mossler."

He said Powers "told me they could trace him through an auto he left at an airport or theater or someplace. He didn't tell me nothing about how he killed him. He said he stabbed him. I didn't ask him how many times."

The state claims Powers made his getaway from the Key Biscayne murder scene in a 1960 white Chevrolet sedan, which was found parked at the airport. Powers left the airport for Houston about 8 a.m. The murder had taken place around 1:45 a.m.

Powers' palm print was found on the Mossler kitchen sink, and police lifted 16 of his fingerprints from the car.

Mulvey said he met Mrs. Mossler in 1962 "after the month of May." He said he told her he would "make the hit" on her.

Temperatures were mild, ranging from the 50s in the Panhandle to the high 60s in the lower Rio Grande Valley.

At noon, 3/4 inch had been unofficially reported in Pampa since 6 a.m. There had been but a trace overnight.

Light rain dampened much of the southwestern third of Texas and parts of the Panhandle today with prospects for a movement of the showers eastward by nightfall.

Temperatures were mild, ranging from the 50s in the Panhandle to the high 60s in the lower Rio Grande Valley.

Search for Bomb Reveals Shades Of 'Thunderball'

PALOMARES, Spain (UPI) — U.S. and Spanish authorities were reported upset today about sensational stories in the British press that a "Thunderball" operation might be connected with the search for a missing American H-bomb off the coast of Spain.

In the James Bond story "Thunderball" foreign agents steal a British jet bomber carrying nuclear bombs.

Those cases will be drawn by (See JUDGE, Page 3)

ATTEND NATIONAL PARLEY

Girl Scouts Prepare for Trip to Hawaii

TO GIRL SCOUT CONFERENCES — Pampa Girl Scouts Margaret Ann Brewer (right) and Prudence Skelly have been selected as representatives from the Texas-Oklahoma-New Mexico region to attend important Girl Scout conferences. Miss Brewer will attend the East-West International Conference July 28 through Aug. 23, in Honolulu. Miss Skelly is to attend the All-States Encampment scheduled at Nantala National Forest in western North Carolina Aug. 8 through 26. The two 16-year-olds point out on a map the sites of the two conferences.

Commission Gets Two Requests to Annex Property

A request for annexation of approximately 17 acres fronting from the intersection of N. Hobart and Gwendolyn Sts. was filed with the Pampa City Commission today.

Frank Culberson of Culberson-Stowers Chevrolet and I. W. Tinney, owner of the Linwood Apts., each told commissioners they wished to have their property annexed to the city.

The Culberson-Stowers property occupies slightly more than 7 acres and the Tinney property includes approximately 9 acres occupied by the Linwood North and Linwood South apartment houses. All of the property is south and southwest of Coronado Inn and Red Deer Creek.

The commission gave final approval to an ordinance calling the \$2,900,000 bond election on March 8 and adopted a resolution commending the four Citizens' Advisory Committees which made recommendations for the five separate bond issue proposals. The resolution also included the commission's unanimous recommendation to (See ELECTION, Page 3)

The council's new order allows Chandler to try the 160 cases assigned to him at the time of his first order Dec. 27, which said the Oklahoma judge was barred from trying any further cases on grounds he was "unable or unwilling to discharge efficiently the duties of his office."

Chandler had offered to retire if he was allowed to handle the cases assigned to him before the Dec. 27 order.

But the Judicial Council ruled that all cases assigned to Chandler after Dec. 28 will be divided between U. S. Dist. Judges Luther Bohannon, Red Daugherty and Luther Eubank.

Those cases will be drawn by (See JUDGE, Page 3)

Gen. Ky's press spokesman, Nguyen Ngoc Linh, summed up Ky's remarks to the President on the subject in these words: "We anti-Communists have been deluding ourselves with the idea that our weaknesses could not be remedied while we were fighting the war."

"We always thought that once the aggressor was driven from our land, we would then turn to our political and social defects... it has taken a long time to realize that we would not completely drive out the aggressors until we make a start at eliminating these political and social defects."

President Johnson in reply spoke of moving ahead on economic, agriculture, education and other non-military fronts "not when the war has ended" but while "in fact the war is being waged."

The phrase "new society" was used by South Viet Nam's minister of rural construction, Nguyen Duc Thang, a gruff-talking major general who speaks with the zeal of a reformer.

Two Pampa Girl Scouts, both 16 and members of Troop 5, have been selected to attend two important Scout meetings this summer, according to Mrs. G. J. Boyd of Quivira Girl Scout Council.

Margaret Ann Brewer will attend the East-West International Conference in Honolulu July 28 through Aug. 23. The conference is designed to promote mutual appreciation of Eastern and Western cultural values, according to Mrs. Boyd. One hundred four Senior Girl Scouts will attend.

Prudence Skelly has been chosen to attend the All-States Encampment in Nantala National Forest in Western North Carolina Aug. 8 through 26. She is one of 105 Scouts, nation-wide, selected for the encampment designed to give experienced Scouts an opportunity to be responsible for their own leadership, to develop the program from their own ideas and the natural environment, and to demonstrate inexpensive camping using a minimum of personnel and equipment.

Miss Brewer is the daughter of Mr. and Mrs. John Brewer, Brewer, formerly executive of the Adobe Walls Boy Scout Council, is moving to Tulsa where he has been named executive of Indian Trails Boy Scout Council.

Miss Skelly is the daughter of Mr. and Mrs. Jack Skelly, 916 N. Somerville.

It is considered unusual for two girls from the same troop (See HAWAII, Page 3)

Television in Review

By RICK DU BROW
 United Press International
 HOLLYWOOD (UPI) — I don't know whether you'd call it surrealistic programming for a documentary about a potential nuclear enemy to be followed up by a Danny Thomas special about Hollywood, but that's what NBC-TV offered Sunday night. Maybe there's a moral somewhere.

Back to back, NBC-TV presented the hour-long productions: The first a pictorialization of what newspaper readers have long been aware — that Red China would prefer not to have tea with us — and the second a Thomas musical with the theme of Hollywood as his home town. The plentitude of the usual maddening commercials added to the general feeling of insanity in the disabling assault on the senses. However, things could have been worse: Thomas pre-empted Walt Disney.

Such an assault on the senses is a fair claim to mental wounding. This review being written not long after both broadcasts, I therefore maintain it has a certain amount of accuracy in assessing what must have been the effect on viewers of the wild combination of programs, being an immediate reaction rather than a distillation of the smoothed-over senses of a later writing.

The first of the programs, "The Voice of the Dragon," focused on the indoctrination of the mainland Chinese by their Communist leaders, and used the footage shot by a French camera crew that spent a good deal of time in Red China. The program illustrated how the Reds are using the Viet Nam war to heighten their propaganda against the United States, and there were vivid films of children and grownups in their anti-American demonstrations, along with examples of indoctrination in many areas of everyday life.

I appreciated seeing the first-hand footage, but I must confess that about halfway through I suddenly got the inexplicable feeling that I was just plain tired of people hinting that I ought to be terrified of Red China, and I wouldn't be surprised if the program struck a similar chord in a lot of other persons too. I am much more terrified, frankly, by the new deductions from my pay check.

Since the intervention of the Danny Thomas musical comedy between Red China and me, I must also admit that my final impression of "The Voice of the Dragon" is likewise somewhat surrealistic, to wit:

When I was once in Berlin. I went over to East Berlin one night to catch the opera "The Bartered Bride." And when the 200-pound Communist farm girl heroine flew into the arms of the hero, knocking him flat, I broke out laughing, earning the angry stares of Red Chinese in the row behind — except for one young Red who smiled as though in agreement. I have never forgotten the understanding in that young fellow's face.

Well, now, getting back to topics of major importance, the Thomas musical comedy used Hollywood back lots for production numbers, but unlike past occasions he settled this time for such guest stars as Sonny and Cher and Mitzi Gaynor, with only Jim Nabors as a powerhouse visitor. It was an in-and-out hour, just dreamy after Red China.

The Channel Swim: Danny Kaye stars in the story of bandleader Red Nichols in "The Five Pennies," NBC-TV's Saturday night movie for March 5. . . . The Andrews sisters, the leading female vocal group of an older era, and the Supremes, who hold a similar position with the contemporary crowd, are guests on the same network's Sammy Davis Jr. series March 4.

The Lighter Side

By DICK WEST
 United Press International
 WASHINGTON (UPI) — Rep. Craig Hosmer's plan to win the war in Viet Nam by bombing the enemy with evil omens is ingenious to be sure.

There are, however, certain potential drawbacks that must be considered.

As the California Republican pointed out in a prepared House speech, the Vietnamese are superstitious about such things as the ace of spades, seeing a woman upon going outside in the morning and hearing an owl cry thrice in the night.

As he also pointed out, dropping explosives in North Viet Nam doesn't seem to be doing much good. So he proposed dropping bad luck symbols instead.

Potentiality for Panic
 Hosmer suggested that bombardments of spade aces, plastic models of women and devices that simulate owl hoots might be more effective by causing panic in the Viet Cong.

Maybe it would. And maybe I'm being unduly cautious. But what worries me is whether the Viet Cong might then employ similar tactics against our side. This sort of thing could escalate, too.

They might start parachuting black cats into our installations, or dropping broken mirrors over the area, or bombing our troops with calendars filled with Fridays the 13th.

To counter such measures, the United States would have to organize an airlift to fly in horseshoes, four-leaf clovers and salt for tossing over the left shoulder.

I must say, however, that Hosmer's strategy could create some picturesque situation. I can see one of them now:

An Air Force squadron makes a run over North Viet Nam, the lead bombardier zeros in on the target, and the flight commander yells "aces away!"

New Feathered Symbol
 The plan also could add a new element to the continuing debate over our Southeast Asia policies.

At present there are two groups, the "Hawks," who favor stepped-up military action in Viet Nam, and the "Doves," who oppose deeper involvement.

Those who support Hosmer's strategy presumably would become known as the "Hoot-ers."

If the plan is adopted, it apparently will require a few changes in armament production. Possibly some of the munitions plants can be converted into spade ace factories.

The congressman also suggested that skywriters fly over Viet Cong territory and form aces of spades. That should be effective, particularly if they use black smoke.

\$543,000 Given By Ford to Fight Discrimination

NEW YORK (UPI) — The Ford Foundation has announced a total of \$543,000 in grants to fight racial discrimination in the United States.

The National Committee against Discrimination in Housing received \$243,000 to expand its information and consultation services for governmental and private groups over the next three years.

The Southern Regional Council in Atlanta, Ga., was given \$300,000 to strengthen the professional staffs of human relations councils in 11 Southern states.

Ensemble To Play For All-State Choir in Dallas

Two Pampa girls have been selected as members of the all-state high school band and a Pampa High School Brass Ensemble has been selected to accompany the all-state choir, according to Harris Brinson, high school music director.

Sally McNight and Judy Mercer will play with the all-state band in Dallas.

Also in Dallas on Feb. 12 the brass ensemble will accompany the all-state choir for rehearsal and final concert performance.

Members of the ensemble are Kenneth Lemons, Darrel Cochran, Don Turner, Jim Brown, Larry Hargus, Pat Vanderpool, Homer Hatcher, Harry West, Mike Collingsworth, George Walters and David Gruben.

Final Tally Shows 8,661 Poll Taxes Paid in County

A final tally of poll taxes paid or exemptions claimed by the Jan. 31 deadline shows that 8,661 Gray County voters will be eligible to vote in this year's elections.

A total of 6,639 poll tax receipts were issued, with only one of these a non-fee receipt to vote in the federal election only.

Exemptions for those over 60, totalled 2,022.

Texas University Summer Program Available Here

Pampa High School students have an opportunity to apply for two summer training programs sponsored by the University of Texas.

High school juniors may apply for a special six-week program for those highly gifted in mathematics to be held June 6 through July 15. Thirty students will be selected from among the applicants.

Juniors, and exceptional sophomore students, may apply for a June 6 through Aug. 6 science training program for biology students. It will include research, special lectures, a field trip and library work. The 35 participants will be selected by the University.

For the mathematics program, students may address inquiries to Dr. H. J. Ettlenger, mathematics department, University of Texas, Austin, Texas 78712.

Prospective applicants for the science program must be chosen by a high school science teacher. Applications and other information are available from Dr. Irwin Spear, Box 7640, University Station, Austin. Deadline is March 15.

Both the programs are supported by the National Science Foundation.

Hawaii

(Continued From Page 1)

to be selected to represent a region at such important events, Mrs. Boyd said. Only five girls from the Texas-Oklahoma-New Mexico region were selected for the East-West Conference and eight for the All-State Encampment.

The art of pottery-making spread slowly in Stone Age Europe, requiring about 400 years for each 100 miles it traveled.

Obituaries

Fred Randall Sr.
Fred Randall Sr., 58, of 924 E. Francis, died at 3:30 a.m. today in a local hospital.

Mr. Randall, a Gray County truck driver, came to Pampa from Hobart, Okla., in 1939. He was born Jan. 31, 1906, in Mangum, Okla., and married Miss Bertha Perry in 1928 in Lone Wolf, Okla.

Survivors include his wife, Mrs. Bertha Randall of the home; three sons, Alvin and Fred Randall Jr., both of Pampa, and Ray Randall of Hereford; two brothers, Carroll Randall of Compton, Calif., and R. S. Anderson, residence unknown; two sisters, Mrs. Ethel Inez Teague and Mrs. Ida May Coronis, both of Pampa, and six grandchildren.

Funeral arrangements are incomplete with Carmichael-Whately Funeral Directors.

Lawrence A. Maddox
Lawrence A. Maddox, 81, long-time resident of Miami, died at 9:25 a.m. today in a local hospital. Funeral arrangements are incomplete with Carmichael-Whately Funeral Directors.

Mr. Maddox was born Aug. 13, 1884, in Scotland County, Mo. He married Miss Hazel King on April 21, 1912, in Clovis, N. M.

Mr. Maddox was a member of Miami First Baptist Church where he has served as a deacon for 30 years, an organizer and past-president of the Top O' Texas Hereford Breeders Association. Mr. Maddox had served as a Roberts County commissioner for 10 years and as a member of the Miami school board 10 years.

Survivors include four sons, Bruce and Wayne Maddox, both of Miami, Raymond Maddox of Pampa and L. A. Maddox Jr. of College Station; one sister, Mrs. Spence Parker of Miami, and 12 grandchildren.

Election

(Continued From Page 1)

that Pampa voters approve the bond issues at the polls.

Approval was given for a property trade with Charles D. Brazile, 819 Deane, involving a triangle of city land at the rear of Brazile's lot and for an equal triangular piece of his property fronting on Deane and adjacent to city swimming pool property.

The commission granted a request of the Lovett Memorial Library Board to charge a \$5 fee for meetings held in the Library meeting room. Non-dues paying organizations would be exempt.

Payment of \$2,068.10 from Sewer Bond funds to Forrest and Cotton, Dallas engineers, was authorized. Authorization also was given for payment of \$36,525.30 from Sewer Bond funds to A. W. Boren, sewage treatment plant contractor, for work completed through Jan. 31.

N. C. Jordan, 2516 Charies, was appointed to the City Traffic Commission to fill a vacancy left by the resignation of Preston Fowlkes.

The commission set March 8 as bid opening date for the purchase of a street sweeper and tractor-mower for the public works department.

Approval was given to a routine salary schedule for new city employees who have completed a six-month trial service period.

Swindle Linked With Indians' Land Quest

Pampa area Indians' quest for government land may have attracted an opportunist with dollar signs in his eyes, it was reported to Sheriff Rufe Jordan today.

Yesterday a Pampa woman, member of the Southwest Indian Organization, was approached by a well-dressed man who said he'd "get her the land she's entitled to for \$100."

The man, who would give no name, address or phone number, is not connected with the Southwest Indian Organization, according to Chief Marlon Hays of Pampa.

Hays requested that anyone approached by the man should contact him or Sub-Chief J. B. Bowers as soon as possible. If possible, get the tag number of his car, Hays advised.

Hays explained that, "It's impossible for this man to obtain the Indian lands. This must be done through the Federal Bureau of Indian Affairs."

He added, "The Southwest Indian Organization assists area Indians in establishing their claims for government land under the Act of 1887. We have access to the Indian Role Books which help to determine an Indian's ancestry and eligibility for land."

"There is no charge for the assistance of the Southwest Indian Organization. After the certificates of eligibility for land are filled out, they must be filed with the Bureau of Indian Affairs," he said.

Under the act of 1887, Indians, and descendants up to one-third second Indian blood are entitled to 160 acres of government land.

Don't Neglect Slipping FALSE TEETH

Do false teeth drop, slip or wobble when you talk, eat, laugh or sneeze? Don't be annoyed and embarrassed by such happenings. FASTEER, an alkaline (non-acid) powder to sprinkle on your plates, keeps false teeth more firmly set. Gives confident feeling of security and added comfort. No more wobbly, gritty taste or feeling. Get FASTEER today at drug counters everywhere.

Kiwanians View Canadian Film

Films of a Canadian canoe trip and some young folk singers highlighted the program at the Top O' Texas Kiwanis meeting Monday night.

Guests at the meeting were Kiwanis District VI Lieutenant Governor Lloyd Williams and Bob Hoggood, both of Amarillo.

The films were those taken by Boy Scout Billy Davis on a Scout canoe trip in Canada this past summer.

The singing was provided by the Travellers, 8th Graders from Robert E. Lee Jr. High.

The group included Brena Duncan, Pam Martin, Cindy Gambren, Terry Curtis, Debbie Veale, and Beth Watson.

Mossler

(Continued From Page 1)

her husband for "25 grand, with 10 grand in front, in advance."

Mossler, 69, head of a bank and financing empire, was stabbed and bludgeoned to death on June 30, 1964. Candy and Powers are on trial on first degree murder charges. The state accuses Powers of doing the killing; it contends Candy helped plan it.

The testimony actually fixing the two as lovers and alleging Mossler knew of the affair was provided by Edward Bart Diehl of San Francisco, a saloon man in a bright blue sweater, with hollow cheeks and eyes.

He said shortly after he became caretaker at the Mossler Galveston, Tex., ranch in April, 1962, Powers came to him.

"He had asked me what I thought about him and Mrs. Mossler coming down to the ranch together and all. Asked me not to tell Mr. Mossler," Diehl said.

"The two were carrying on in a trailer there," Powers then asked why, and that Powers replied:

"Because Mr. Mossler knew about Mrs. Mossler and him . . . he said that unless Mr. Mossler was killed, Mrs. Mossler would never get anything."

He said he told Powers he didn't know of anybody willing to kill, that Powers offered \$5,000 and said, "Well, think about it," and that later, in the

William B. Travis P-TA Executive Board will meet at 9:30 a.m. Thursday in the home of Mrs. A. W. French, 1921 N. Banks.

At the general P-TA meeting, to be held at 7:30 p.m. Thursday in the school auditorium, fathers will preside. Sheriff Rufe Jordan will be guest speaker.

Venetian blind repair service Pampa Tent and Awning, 317 E. Brown, MO 4-8541.

"Thirty Pieces of Silver," is the title of the film to be shown this Wednesday night at the Church of God corner of Gwendolen and Summer streets.

This is the second in a ten film series of the last days of Christ that will be shown in the Young People's services each Wednesday night. The services will begin at 7:30 p.m. Showings are open to the public.

Garage Sale, Thursday only, 1706 Duncan in rear. Come through alley please.

Women of the Moose will meet at 8 p.m. today in Moose Lodge Hall.

Garage Sale, 1304 Duncan, Wednesday, 10 to 4 p.m.,

Pampa Lodge No. 480 Knights of Pythias will meet in a stated meeting tonight and will confer the rank of Page on Wilson S. Howell. Chancellor-commander Glen Day will preside at the meeting. Knights O. G. Smith and Jack McKay will have charge of refreshments. Master of works H. L. Meers will have charge of the rank team.

Mossler trailer, he "said he would even raise it to \$10,000."

Celanese Reports Yearly Earnings

NEW YORK (SpI) — Celanese Corporation, with a large plant in Pampa, reported today that its 1967 earnings were \$64.9 million. Equal to \$5.10 a common share, on sales for the year of \$862.3 million.

Both sales and earnings were at record highs. The 1967 sales were 32 per cent higher and per-share earnings 20 per cent higher than 1964 sales of \$701 million and earnings of \$4.25 a common share.

Harold Blacke, chairman and chief executive officer, said that the earnings increase was achieved in spite of heavy costs of new business ventures such as nylon raw materials, nylon fiber and polyester film, as well as the starting up of other new fiber, chemical and plastic facilities.

Celanese is a diversified chemical company producing a broad line of petrochemicals, fibers, plastics, paints and coating, petroleum and forest products. The corporation and affiliates operate 90 plants, with 40,000 employees, in the U. S. and 24 other countries.

Judge

(Continued From Page 1)

lots, with Bohanon and Daugherty getting three each and Eubank four out of every 10, the Council said.

The U. S. Supreme Court had refused to suspend the council's initial order stripping power from Chandler. He was allowed to keep his title and \$30,000 annual salary.

The Council also canceled a hearing scheduled for Thursday in Oklahoma City to review its Dec. 27 decision because it said it "would have no useful purpose."

The council said there was unwillingness among those involved to attend the hearing scheduled Thursday. It set the hearing at a special session Jan. 27, and said Chandler could appear with counsel to "present such matters to the council as he may deem fit."

The council is made up of U.S. Circuit Judges David T. Lewis, Jean S. Breitenstein, Delmas C. Hill and Oliver Seth. Chief Circuit Judge Alfred P. Murrah of Oklahoma City disqualified himself from participating in the action.

List of Gray County Candidates Complete

With the filing of Gene Barber for the non-salaried position of county surveyor, the Gray County slate of candidates was completed as of the deadline Monday midnight.

Barber, a Pampa consulting engineer, is unopposed for the surveyor's job.

The primary is scheduled for May 7 with the run-off primary, if necessary to be held on June 4.

The General election is scheduled this year for Nov. 8.

Farm Bureau Breakfast Set

Members of the Gray County Farm Bureau will hold a breakfast meeting at 9 Wednesday in Jim's Steak House.

The meeting will be the highlight of Texas Farm Bureau Week locally, according to Marvin Webster, local president.

A Farm Bureau district representative will be on hand to help kick-off a local membership drive, Webster said.

Asthma & Hay Fever Sufferers Report Relief in Minutes

Remarkable Doctor's Formula Halts Sneezing. Clears Congestion Without Drugs or Injections.

YEAR

Dear Abby...

The Tight Pants 'Ins' Versus the 'Outs'

DEAR ABBY: Anyone who thinks skinny, form-fitting trousers for men is "disgusting" should get out his history book. George Washington wore tight pants — and they were satin, yet. And so did Napoleon, Thomas Jefferson, Sir Walter Raleigh, and many other heroes of various periods. Lots of hair was so much in vogue in those days that no man could grow enough. So they wore wigs. I wish the old fogies would go along with the current styles and quit nagging the kids.

PROUD OF TEENAGERS

DEAR ABBY: About tight pants: It all depends on who wears 'em. I have seen men in tight pants who look great. But I think any man under 5 ft. 8 who is more than ten pounds over-weight should be fined \$100 for wearing tight pants. And any man who is bow-legged who would dare to wear tight pants should be put in jail.

MILTY

DEAR ABBY: Tell Disgusted in Sycamore she is not alone. Tight pants on men and boys are the crime of the century. My son is 20 years old and I buy his pants at the dear old Salvation Army, where we can get them with pleats in front. He is an honor student at college where he is graded on the curve (but not the curve of his lower torso). I gag when I see men dancing on TV in those tight, skinny pants.

MOTHER IN ALBANY

DEAR ABBY: "Disgusted" took the words out of my mouth. Tightness is not confined only to men's trousers. Everything is skimp in men's fashions. Their neckties are little thin strings, and even their hats look like a fly on a doughnut. The Ivy League cut is reminiscent of the organ grinder's monkey 50 years ago. And those "mud" colors that are "in" are sickening. I don't advocate sticking to the same styles for years without end, but I am more than ready for a change. These are the worst!

FASHION-MINDED

DEAR ABBY: That lady who

TC Members Set 'Taste and Smell Tea' Next Month

A "Taste and Smell Tea" was planned by members of Twentieth Century Club when the group met recently. Mrs. Bob Sanford was named chairman of the event which is to be held March 22. Mrs. Tom Rose presided over the business session in the absence of Mrs. Jack Stroup, president.

Mrs. Bill Roots presented the first portion of the "Mental Retardation" program, quoting from the book "Gifts They Bring."

"The theme of mental retardation could be summed up in the word 'love,'" Mrs. Roots stated. "Patience, kindness, generosity, humility, courtesy, unselfishness, good temper, gentleness and sincerity are needed when dealing with the mentally retarded," the speaker concluded.

Mrs. Gene Barber then gave a talk on the "Definition of Mentally Retarded and Mentally Deficient."

"Mentally Retarded is the impairment of an adult performance and mentally deficient is the lack of one or more functions to the point of disqualifying one from full participation in ordinary life," Mrs. Barber told the group.

The speaker continued, "Much work is being done in the field of retardation. The part of the brain affected in the mentally retarded is the frontal lobe, the part that controls emotion and attitudes of right or wrong. The filing system that records thoughts is affected many times by outside pressures. Doctors have found treatment for this problem."

Mrs. W. R. Campbell was hostess for the meeting.

Pampans' Granddaughter Will Study At University of Salamanca in Spain

Miss Judy Frantz
... will study in Spain

Miss Judy Frantz, sophomore and Spanish major in the College of Education at the University of Cincinnati, daughter of Mr. and Mrs. Dore Frantz Jr. of Cincinnati, Ohio, and granddaughter of Mr. and Mrs. J. E. Gilbert of 532 N. Hazel St., is one of 21 UC students planning to study in Spain this spring quarter.

For the UC students who will attend the University of Salamanca in Spain this spring quarter, Dr. Patricia O'Connor of the Spanish Department, has announced the opportunity to visit London, Paris, and Madrid before classes begin in Salamanca after Holy Week.

Following the termination of her studies in Spain on June 8, Miss Frantz plans to travel in other countries in Europe which include Portugal, Switzerland, Italy, Greece and to take a more extended visit to Paris

and London on the return trip home.

Mr. Frantz was KPDN's first transmitter engineer, and Mrs. Frantz, the former Miss Jessie Marie Gilbert, was bookkeeper for the Cretney Drug Stores in Pampa and Amarillo before moving to Cincinnati 17 years ago, where Mr. Frantz is employed as radio and FM engineering supervisor for Radio Station WKRC of the Taft Broadcasting Company.

Astrological Forecast

By CARROLL RICHTER

FOR WEDNESDAY, FEB. 9
GENERAL TENDENCIES An excellent time for you to decide just how you want your relations with others to work out and to show all about them. You are willing to cooperate your efforts with those of others. These contacts which are important to them and to you. Fine for whatever has to do with color, art, music.

ARIES (Mar. 21 to Apr. 19) — Ideal day for sitting at conference table with partners and clarifying how best to make your affairs more operative. You are now able to come to a true meeting of minds. Be happy and turn to lighter things tonight.

Taurus (Apr. 20 to May 20) — Your whole office, etc. can be made to look streamlined. Use of the T.A.F. real touch for which you are noted. Use a better approach with co-workers and you get along famously. Be kind, practical.

GEMINI (May 21 to June 21) — You must plan early in the day for the recreation you want to enjoy tonight. Bring your talents before the right people. Don't keep procrastinating or you never get anywhere that counts.

MOON CHILDREN (June 22 to July 21) — Your energy should be expended at own residence now and kin should have all the devotion they desire. Rid yourself of whatever is no longer of use to you. You can have a larger success.

LEO (July 22 to Aug. 23) — You are striving to find more adequate means by which to have a better accord with others. Be sure to act upon your good impulses. Be more efficient with sales, letter writing, etc. Expansion comes easily.

VIRO (Aug. 22 to Sept. 23) — You are now able to increase your revenues by dealing more effectively with those around you. By supporting business persons you get their ideas. Make an effort to please family tonight.

LIBRA (Sept. 23 to Oct. 23) — You can be very charming today and can accomplish a great deal in business or vocational matters, plus the social in particular. Give backing to those who deserve it. Show that you are an intellectual.

SCORPIO (Oct. 23 to Nov. 21) — Investigation to your cup of tea today, since you can win out where others have failed. Be of service quietly to those who mean a good deal to you. Show that you are a magnanimous and kind person.

SAGITTARIUS (Nov. 22 to Dec. 21) — Kin detesting friends now see what must be done to make you a happier and more successful person and they certainly extend themselves. Accept invitations. Meet interesting other persons as well.

CAPRICORN (Dec. 22 to Jan. 20) — You have to take another tack if you want to make greater progress where business matters are concerned. Your bills need to be paid more on time than in the past. Refrain from criticizing higher-ups.

AQUARIUS (Jan. 21 to Feb. 19) — You will get inspiring thoughts that will put you far ahead of others in any new outlets that you become interested in. Study minutes thoroughly the one to take the initiative and grow.

PISCES (Feb. 20 to Mar. 20) — You have a natural sense of rhythm and can use these gifts wisely. Rid yourself early of responsibilities. Being very devoted to make is most vital in p.m. increase happiness.

Teacher Salaries
WASHINGTON (UPI) — For 1965-66, estimates the National Education Association (NEA), the average salary of classroom teachers is pegged at \$6,586.

SENIOR CITIZENS MARK BIRTHDAYS — Honored for having birthdays in February at Senior Citizens' Center Thursday afternoon were, left to right, J. M. Forrest, Mrs. C. G. Miller, Mrs. Edith M. Mills, Mrs. P. H. Gates,

Mrs. Mattie Fountain and Fred Cullum. Altrusa Club of Pampa sponsors SCC each Thursday afternoon in Lovett Memorial Library and fetes those having birthdays each month with a party and gifts.

R. De Arment Speaks At Forum Club Meet

Wheeler (Spl) — Richard De Arment of Wheeler was guest speaker for the Forum Club which met recently in the home of Mrs. William F. Holmes of Shamrock.

In the absence of the president, Mrs. Robert Baxter, Mrs. William Holmes presided. Mrs. Jack Martin was program chairman.

Mr. De Arment gave an interesting and informative program on "Conservation," showing colored slides to illustrate his talk which highlighted preservation, protection and shelter of wild life on ranches and farms in the Panhandle area.

A question and answer period followed. Special guests were Mrs. Ernest Henderson, Mrs. Willis Caperton and Mrs. Glenn Richardson.

Club members attending were Mmes. Aubrey Anthony, Sol Blonsten, Cabot Brannon, Rufus Dodgen, Shirley Draper,

Dance Is Slated By Riding Club

Members of the Leather 'N Lace Riding Club met at the Silver Spur Restaurant Thursday evening. Plans were finalized for the Western Dance which will be held Feb. 18, at the Pampa VFW Hall. Mrs. Donna Whatley, president of the Leather 'N Lace Club, announced that the dance will be from 8 p.m. until midnight. Music for the dance will be provided by Bill Kennedy and the Texans. The public is invited to attend.

NEW WAY TO BE SUDDENLY SLIM, COMFORTABLE, TOO

Los Angeles: — Are you a woman whose figure is on the good side but might look perfect? You'll be thrilled by the new easy way science has discovered for you to become Suddenly Slim and yet completely comfortable. If you're more than 15 pounds overweight, then this idea is not for you. If your weight problem falls within this range, then you can realize a new, smoother figure today, without diet or exercise.

Suddenly Slim is an all-new kind of 4-oz. girdle constructed of science fibers. One startling innovation is the sheer nylon front panel. This is permanently stiffened by a science process and cannot give or sag. It's surrounded by a slimming action border. A featherstitched panel down each side of this girdle will contour your hips if they are a problem.

The girdle itself is of a "wonder" Lycra spandex blend. It's a new power net consisting of nylon, acetate and spandex. It is so comfortable, but has such slimming strength, it gives your figure everything that's possible with a foundation.

"Suddenly Slim," in both girdle and panty versions, is the peak achievement of the California designer-genius, Olga. They are available in our area at

Foreign News Commentary

By PHIL NEWSOM
UPI Foreign News Analyst
The foreign news outlook:

Along The Ho Chi Minh Trail:

Informed sources in Saigon say that Hanoi used the U.S. bombing lull over the north to start elements of another North Vietnamese regiment down the Ho Chi Minh supply route to the south. The same sources revealed the immense scope of Red infiltration of supplies and ammunition and weapons down the trail. They say it now has reached 300 tons per day during the dry season, coming down by truck part of the way and then being carried on the backs of a coolie army that numbers thousands. The sources deny any connection between the bombing lull and the simultaneous lull in Communist ground offensives. It is believed that many North Vietnamese troops were pulled across the Cambodian border last month but only to build up their strength and supplies.

Soviet Prosperity:

Moscow observers expect that the Soviet Union's new five year plan will continue to place the accent on prosperity, including a promise of more consumer goods. The new plan will be formally announced at the 23rd party congress beginning March 29. However, sufficient details will be published in advance to permit some public discussion and possibly permit some minor alternations.

The plan replaces the seven year plan that expired Dec. 31. Recently published results of the old plan indicated that at least some of former Premier Nikita Khrushchev's promises had been kept, notably in an increase of refrigerators and washing machines. While much will be made in new planned increases in consumer goods, stepped up defense spending also will be the order of the day as indicated by a five per cent increase in the 1966 budget.

Italian Politics:

Out of the hodge podge of Italian politics, something like a two-party system may be emerging. Two of the parties in the recently fallen coalition government of Premier Aldo Moro plan to merge. They are the Socialists and the Social Democrats which have been split since shortly after World War II. Together they would post a real challenge to both Moro's Christian Democrats and the opposition Communists. The prospect already is frightening the Christian Democrats who fear that their 21-year position as Italy's largest political force may be threatened. Actually, a new election probably would find the Christian Democrats still the country's largest single party, with the Communists second and the Socialists a strong third. In any event, the Socialists seem certain to increase their voice in government.

French Satellite:

The French plan to launch their second space satellite at Hammagur in the Sahara Feb. 11. The first was launched from there Nov. 26. In contrast to the extreme secrecy surrounding the first launching, newsmen will be flown to the site by the French air force to cover the second firing.

SAVING THE 'WILD RIVERS'

Preservation of remaining untamed rivers, such as forests and grasslands are maintained in their natural states by the present federal park and forests systems, continues to be a major conservation goal of the Johnson administration. "Wild rivers" legislation introduced in the last session of Congress appeared again in the current one, where it was the first item passed by the Senate although shelved in House committee. As proposed by the administration, the measure would immediately place parts of five rivers under federal protection: Clearwater (2) and Salmon (3) in Idaho;

Rogue (5) in Oregon; Rio Grande (14) in New Mexico, and the Eleven Point (16) in Missouri. Thirteen additional rivers would be studied for possible inclusion in the wild rivers system: Skaigut (1) in Washington; Missouri (4) in Montana; Green (6) in Wyoming; Wolf (7) in Wisconsin; Little Miami and Little Beaver (9) in Ohio; Hudson (10) in New York; Youghiogheny (11) in Maryland and Pennsylvania; Susquehanna (12) in New York and Pennsylvania; Capocoan (13) in West Virginia; Niobrara (15) in Nebraska; Suwannee (17) in Georgia and Florida; Buffalo (18) in Tennessee.

'Ideal' New York Police Pictured In Panel Report

NEW YORK (UPI)—Picture a policeman equipped to fight crime with courage and imagination. Give him the respect of the citizens he is protecting and make sure he respects and protects them all equally.

This is the kind of policeman who should patrol the streets of the nation's largest city, according to a report on New York's 27,000-man force prepared for Mayor John V. Lindsay.

Such a policeman is possible, the mayor's task force said, if the city is willing to break with tradition and face up to the inevitable controversy that will follow.

High on the list of recommended changes, and controversial, is establishment of a civilian-dominated police review board. Police performance now is reviewed by a board of three police officers.

The mayor's panel called for an end to "nepotism" that it said governs promotions and instead advance a man for his hard work and imagination.

36th Guard Unit Hits 95 Per Cent Strength

SAN ANTONIO (UPI)—Texas' high-priority 36th National Guard Brigade has passed the 95 per cent mark of its authorized strength with its stepped-up training on schedule, a spokesman said today.

LAUSANNE, Switzerland (UPI)—Playwright Noel Coward is in "good" condition but will spend another week in a Lausanne clinic, his personal secretary said Monday. Doctors are treating Coward for a tropical intestinal ailment.

For an assignment to the detective division, an important promotion, he now must rely on "nepotism, influence or having made a much-publicized arrest," the report said.

"Our study," the task force said, "has revealed so many practices and procedures that are either outmoded, inefficient or undesirable that we have no reservations as to the need for a thorough-going reevaluation of the department's operations."

At the level of the patrolman walking a beat this means, for example, that he is required to fill in duplicate summons stubs for traffic violations but is given no carbon paper.

The brigade commander, Brig. Gen. Ross Ayers, and eight officers, returned this weekend from Fort Benning, Ga., where they attended a special infantry refresher course for officers of the select reserve forces unit.

Ayers said all units of the 36th priority brigade have now completed administrative work. The next three months will emphasize field training at regular Army installations or at other government facilities.

The special brigade units now have 72 training sessions a year, compared to 48 sessions before the new emphasis on

special reserve units was announced last fall. The Texas brigade now has about 80 per cent of its authorized modern Army equipment. The brigade will hold its 18-day summer training session at Ft. Hood June 1-18, with the entire period spent in the field.

Ayers said the brigade, formed with a nucleus of the 37th Infantry Division and some units of the 49th Armored Division, is right on schedule in its intensive training program.

The units will be ready to meet the department of army's "combat ready" training schedule plan by July, he said.

Houston University Get \$1 Million Grant

HOUSTON (UPI)—The University of Houston has received a \$1 million grant from the

Moody Foundation to help finance a \$9.1 million, 17-story, twin-tower dormitory.

The building will be located at Calhoun and Wheeler. It will hold 1,200 students.

The Moody Foundation, a charitable trust fund established by the Moody family in Galveston, in a weekend announcement, said another half-million dollars in grant to seven other schools would include:—Lon Morris College, \$250,000 for a classroom building;—Brownsville Society for Crippled Children, \$100,000 for a clinic;

—Texas Foundation of Voluntarily Supported Colleges and Universities, \$100,000 for distribution among 23 institutions;—Texas Private Junior-College Foundation, \$50,000 for distribution among 10 colleges;—University of Texas Law School Foundation, \$10,000 for research;

—University of Texas Medical Branch at Galveston, \$3,300 for the department of neurosurgery;—Galveston County Community Action Council, \$2,500.

Wall Street In Review

By United Press International NEW YORK (UPI)—William R. White of Hornblower & Weeks-Hemphill, Noyes, says mounting evidence of inflation, which gave the market its impetus over the past few months, together with extensive covering of short positions by professional traders should give the market an effective cushion for any substantial liquidation in the near-term.

Bache & Co. says that while it feels that basic trend is still upward it envisions a "trading-range" type of market immediately ahead and thus reiterates the need to stay close to the quality end of the market.

Quotes in the News

By United Press International HONOLULU—Gen. William C. Westmoreland, commander of U.S. forces in Viet Nam, appraising the progress of the Southeast Asian war:

"The nature of the enemy is such that we cannot expect him to be defeated in one battle or in one series of battles. He will have to be ferreted out over a period of time involving many campaigns."

HAVANA—Cuban Premier Fidel Castro, denouncing Communist China for reneging on a large trade agreement:

"Does not Cuba face equal or greater danger from Yankee aggression than China? And now, in the midst of such aggression could needed grain reach us with all the other Socialist countries thousands of miles away? By what means and through what borders could Cuba be supplied?"

WASHINGTON—A report by the House Veterans' Committee, urging passage of a comprehensive new GI Bill of Rights:

"The perpetual cold war condition, with its crises, compulsory military service, and expanded overseas commitments, makes this bill necessary if our servicemen,

during this tense period of history, are to receive equitable treatment."

WASHINGTON—Roving Ambassador W. Averell Harriman, asserting that he believes President Johnson will do all he can to avoid a military confrontation with Communist China:

"There are some people who are rather reckless in the United States who talk about confrontation with China, but it is not the policy of the President of the United States to take actions which would draw Red China into the contest."

WASHINGTON—Rep. Benjamin S. Rosenthal, D-N.Y., criticizing psychological tests administered to some ninth-grade students in New York City:

"With young students as subjects, I believe the test is capable of causing confusion and anxiety. I see no reason why young boys and girls should be subjected to the experience of answering questions with 'My sex life is satisfactory.' Rather than measure psychological anxiety, the test is more likely to cause it."

WASHINGTON—FBI Director J. Edgar Hoover, complaining in his monthly letter to law enforcement agencies about the current "insurrectionary climate" on American college campuses:

"On many campuses he (the student) faces a turbulence built on individualism, repulsive dress and speech, outright obscenity, disdain for moral and spiritual values and disrespect for law and order."

MACLEISH ELECTED NEW YORK (UPI)—The Academy of American Poets has elected Archibald MacLeish its 1966 fellow, the academy announced Monday.

MacLeish is a poet, playwright, former librarian of Congress, assistant secretary of state and a U.S. delegate to UNESCO. On his election, MacLeish said he would give the \$5,000 award to Harvard college to sponsor readings by young poets.

Cambodia, Red China: Ganging Up on Thailand?

By LEON DENNEN
 Newspaper Enterprise Assn.
 UNITED NATIONS, N. Y.—
 (NEA) — Prince Norodom Sihanouk, Cambodia's chief of state, is an unpredictable man who loves the international spotlight.
 But there is nothing unpredictable or ambiguous about the prince's allegiance to Red China. A French diplomat who knows Sihanouk intimately con-

prophets make sure of events first.
 There is no longer much doubt that Thailand, the little kingdom of golden Buddhist temples, will soon become Peking's "second front" in Southeast Asia.
 Mao Tse-tung desperately needs a facesaving "little war" to divert attention from his fiasco in Viet Nam.
 What better target is there

can and pro-Chinese propaganda. It has even assured an audience for itself by distributing cheap transistor radios in many villages of Thailand, particularly in the northeast.
 And how long will it be before assorted professors and leftist intellectuals start clamoring for justice for the "Thailand Independence Movement" which, like the Viet Cong, is merely a creature of Red China?

SIHANOUK: An Oriental Fidel Castro?

siders him a "somewhat more sophisticated oriental Fidel Castro."

The prince is "obviously convinced that China's version of militant communism is the wave of the future in Asia," the diplomat revealed. "He hopes to carve out a place for himself in Mao Tse-tung's future Communist empire."

No wonder the anti-Chinese Russians and their East European satellites gave Prince Sihanouk the cold shoulder when he recently toured Europe.

It is therefore more than a coincidence that Sihanouk, who often serves as Peking's bellwether in Southeast Asia, charged that neighboring Thailand invaded Cambodia's territory just when Peking stepped up subversive activities in Thailand.

Thanat Khoman, the Thai Foreign Minister, ridiculed the charges as "baseless." Neither Thailand nor American troops ever invaded or intend to invade Cambodia, he said. A similar denial was made by the U.S. State Department.

Yet Prince Sihanouk persists in feeding the western press reports that the United States and Thailand plan aggressive action against Cambodia.

What does he hope to achieve with his charges? It is old Marxist-Leninist strategy to blame a potential victim for the crime the Communists themselves intend to commit. Or as Mao Tse-tung would say, "the wisest

than little Thailand, with its wealth of rice, tin, rubber and teak? It is the most loyal ally the United States has in Southeast Asia. It has been for many years an island of peace surrounded by a sea of turmoil.

Thailand's northern tip is a mere 100 miles from Red China's mainland. It is only separated by short stretches of sea from South Viet Nam and Indonesia. Parts of its long border with Laos are under the control of the Communist Pathet Lao guerrillas.

Yet until now the Communists — pro-Russian or pro-Chinese — have had little success in Thailand. It was the only nation in all Southeast Asia in whose territory there were no armed Communists waging guerrilla war. Except for the bloodless coup in 1958 by the late Marshal Sarit Thanarat, Thailand's politics have lacked high drama. The Thais like it that way.

But Prince Norodom Sihanouk's charges, persistent though baseless, are a clear danger signal that China is planning to attack Thailand.

"We shall have a guerrilla war going on in Thailand before the year is out," said Chen Yi, Red China's foreign minister. He obviously means to keep his word.

Already a clandestine radio station which calls itself the "Voice of Free Thailand" is broadcasting daily anti-Ameri-

Mexico Frowns On Mop-Tops

MONTERREY, Mexico (UPI) — Pity the poor Beatle-mops of Monterrey, harassed by the city fathers and harassed by tonsorial vigilantes.

Pedro Quintanilla Coffin, secretary to the mayor, recently announced a drive against "cafe-a-go-gos," as "centers of perdition, where the mop-tops give bad examples to the young of both sexes."

City Treasurer Reinaldo Garcia followed it up by warning that when the city officials get through shutting all the rock-and-roll coffee houses, they are going to start in on the radio and television programs.

"Who authorized these programs anyway?" he asked.

(In the anti-guitar drive, Monterrey is following in the footsteps of Mexico City, where Mayor Ernesto Uruchurtu's dislike for rock-and-roll music led to the closing of most coffee houses. The few still in business operate almost like "speakeasies" during U. S. Prohibition days, with guards at the doors.)

As if it weren't enough that the city fathers have declared war, the "rocknrollers" faced a more direct enemy.

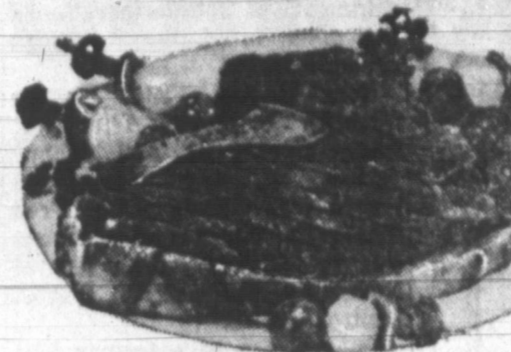

University students armed with scissors invaded a local television station Sunday, threatening to grab a group of Beatle-mopped singers and "cut their hair down to masculine size."

FEELING WELL

KUALA LUMPUR, Malaysia (UPI)—Malaysian Prime Minister Tengku Abdul Rahman celebrated his 63rd birthday today and pronounced at a news conference that he was "one hundred per cent living—I enjoy the beauty of ladies and I enjoy my golf." Rahman became the first prime minister of Malaysia when independence was declared in 1957.

In 1825, the House of Representatives elected John Quincy Adams president.

MORE NEGRO POLICE

LONDON (UPI) — British Home Secretary Roy Jenkins says Britain must have more Negro policemen if it hopes to bridge the "gap" between the police force and the "colored" community.

Jenkins told a news conference Monday he expected to have a number of Negroes in uniform within the next year. At present, Britain has only two Negro constables—one in Gloucester and the other in Plymouth.

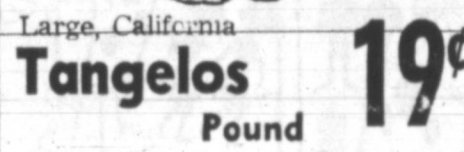

"There should not be a gap between the police force and the colored community," he said. "One move to prevent this would be if we could see a certain number of colored faces in blue uniforms."

The world's largest lake, by volume, is not Lake Superior but Lake Baikal in southern Siberia. Although Lake Superior has the greatest fresh water surface in the world, Lake Baikal is so deep that its total volume is greater. The lake with the largest surface area, next to Lake Superior, is Lake Victoria in East Africa.

RESIGNED — Roy Lee Dunn, line coach of the Pampa Harvesters this past season has resigned, effective Feb. 28, to become first assistant and line coach at Odessa High School. Dunn will join former Phillips Blackhawk head coach Joe Means.

Hunt Signs With NY For Same '65 Salary

among shortstops in the American League, and Nen batted .260 in 69 games.

The Philadelphia Phillies and the St. Louis Cardinals managed to sign some rookies for the upcoming campaign. The Phils got signed contracts from righthanded relief pitcher Jerry List, agreed to terms with the Mets Monday for the same 25 grand he received last season and the scrappy infielder is determined to have the kind of season that made him the national league's All-Star second-baseman in 1964.

Hunt's misfortunes last year started when he injured a finger while playing handball as a pre-training practice conditioner and he missed the start of the campaign.

When he finally did get back into action on April 30, he played 11 games, then suffered a left shoulder separation in a baseline collision with Phil Gagliano of the St. Louis Cardinals. An operation followed and he was out until Aug. 5. All in all, Hunt played in only 57 games and batted .240, which was a considerable comedown from his .303 average the previous season.

The Cincinnati Reds inked eight players, including outfielder Tommy Harper, who batted .257 last season and led the Reds in stolen bases with 35. Others signed by Cincinnati were outfielder Mel Queen and pitchers Roger Craig, Teddy Davidson, Jim Duffalo, Phil Henderson, John Tsitouris and Don Zanni.

Baltimore, Cleveland and Washington each signed one player. The Orioles inked pitcher Dave McNally, the Indians signed shortstop Larry Brown and the Senators corralled first baseman Dick Nen. McNally turned in an 11.6 record and posted a 2.85 earned run average last season, Brown had the top fielding average

RON CROSS

A little bit about a lot of things starting first with golf.

When Arnold Palmer fell to Doug Sanders Sunday in the Bob Hope Desert Classic it was the eighth time in 19 tries that Palmer has lost in a sudden death playoff.

Today, there are more than 10 million golfers in the world. There is no known ban on golf anywhere, but the game is still conducive to some rare occurrences.

Consider in 1965 a total of 124 golfers achieved one of golf's most difficult feats, shooting a three-under par double eagle.

An Ohio man, recorded the longest double eagle when he holed out a 260 yard three wood shot on a 567 par five hole.

Elkins just lay down on the green speechless when he was told of his feat.

1965 was also a big year for golf's rarest feat—equaling or bettering one's age in 18 holes on a course at least 6,000 yards long.

Henry G. Miller, 82, of Anaheim, Calif., was the oldest age-shooter registered in 1965.

Golf's all time age shooter is still William G. Water, who matched his age when he shot a 91 on his birthday in 1964.

February 14 at noon has been set as the deadline for all independent college teams to get their entries in to George Smith, director at Pampa Youth and Community Center for the third annual Top O' Texas basketball tournament.

The tournament will be held Feb. 21-25 and it is known defending champ Cock-O-Walk will be back to try to make it two straight tourney wins.

This season Coc and Borger are having a tight battle for first place in the league.

Entry fee to the tournament is \$15.00 per team.

Three straight games of 50 per cent and better from the floor has raised Pampa's season average to 46.1 per cent field shots.

For the season the Harvesters have connected on 526 of 1194 field goal attempts.

In 14 conference outings the Harvesters have hit 272 of 560 shots for 48.5 per cent.

Free throw shooting, of course, has been lots better and needs to improve.

In 25 season games the Harvesters have shot 616 charity tosses and sank 396 for 64.2 per cent. In conference 219 charity tosses have gone in out of 329 tried for 66.5 per cent.

Mike Wise has had the hottest hand from the free throw line, hitting 91 of 134 in season play for 67 per cent.

In his 14 conference outings Wise has hit an amazing 77 per cent on 52 of 67.

David Cain leads in percentage in field goals with 124 out of 220 attempts being good for 55 per cent.

Then comes Wise again with 52.3 per cent on 99 of 189 tries.

The Harvesters have been out fouled by opponents by a considerable margin in both season and league play.

In 25 games the Harvesters have fouled 388 times to the opponents 452 and in league have been fouled 247 to 171.

Back when baseball was being played one of the Washington Senators sent a hard line drive over the left field stands.

The umpire ran over to judge the ball and at the same time a woman was being carried from the stands.

The umpire asked the late Nick Altrock, a Washington coach, if the woman had been hit.

"No," shouted Nick, "you called that one right and she passed out from shock."

SPORTS

The Pampa Daily News
58TH YEAR TUESDAY, FEBRUARY 9, 1966

UPSET WIN — International epee tournament. The Southampton University student beat Bill Hoskyns of England twice to become the second overseas competitor to win the cup.

LONDON (UPI) — Pennsylvania Steve Netburn upset Britain's leading epeeist Sunday to win the Miller-Hallett

ed from the Red Sox. The double-play combination is one of the best with Jim Fregosi at short and Bobby Knoop at second. Knoop (.269) proved last season that he could hit. For Fregosi it has never been a problem. RATING—B minus.

OUTFIELD — There could be two rookies in the Angel outfield. Rick Reichardt, the \$200,000 bonus baby had a good year in the minors. So did Ed Kirkpatrick. Both have speed and are good defensively. That leaves speedy Jose Cardenal, who stole 37 bases last season, Albie Person who led the club in batting (.278) and Willie Smith. One thing is certain, no matter who starts, not many fly balls will fall safely in the new Anaheim Stadium when the opposition is at bat. RATING—C Plus.

INFIELD — The Angles have trouble hitting, so they traded with Baltimore for Norm Siebern who will be on first base. Over the years, Siebern has been a solid major leaguer.

Another spot that needs work is third base. Paul Schaaf hit only .224 last season. His back-up will be Frank Malzone, obtain-

Cain Still Leads Pampa Scoring

Lee and Pampa Junior High play Borger Houston Friday at basketball teams will battle on the maples Wednesday in a Phillips Friday. Both games doubleheader.

Eighth and ninth grade teams will begin play at 4 p.m. in Harvesters Fieldhouse. The game was scheduled for Tuesday but postponed due to Pampa-Monterey game at Lubbock Tuesday night.

Pampa seventh grade will play Borger Houston Friday at 7 p.m. tonight and the winner can clinch at least a tie for the second half 3-4A championship. Both teams are unbeaten in six league outings and the Plainsmen defeated Pampa, 38-31 earlier in the season at Pampa.

In area basketball tonight Wheeler played host to unbeaten Briscoe in hopes of stopping the Bronchos winning streak at 26 straight.

In other area games Lefors journeyed to Miami; McLean journeyed to White Deer; Clarendon plays at Canadian; David Cain and Mike Wise continued to lead the Pampa scoring through 25 season contests.

Cain maintains a 12.4 average while Wise, who has hit in double figures in his last six games has an 11.5 average.

Cain is also Pampa's leading scorer in conference games with an 11.1 average on 156 points in 14 games.

Wise again is next at 10.4 and Steve Williams remains just under the double figure bracket at 9.9.

As a team the Harvesters have averaged 67.1 points per contest while giving up 47.1 in season play.

In the conference Pampa has scored an average of 54.5 points per contest and given up an average of 41.1 per game.

NEW YORK (UPI) — Adolph Rupp's most optimistic predictions and Duke's direst fears have been realized in the weekly United Press international major college basketball ratings.

Rupp, whose Kentucky team assumed the No. 1 position in the Board of Coaches ratings Monday, was virtually the only person in the nation to envision the Wildcats as a powerhouse this season after a sub-standard 15-10 record a year ago.

"I honestly believe," the Baron said prior to the start of the season, "that man-for-man, we just might have in the making a better team than we had in 1958—when we won the national title."

Kentucky received 21 votes for the top spot and 334 points, 14 more than the runnerup Duke. The Wildcats had been second to the Blue Devils in each of the past five weeks.

Loyola (Ill.) climbed two notches to third, replacing Vanderbilt which sagged to seventh after the loss to Kentucky. Providence held fourth while Texas Western, the only major college team other than Kentucky to sport a perfect record, and Kansas advanced to fifth and sixth, respectively.

St. Joseph's (Pa.) held its ground in eighth position but a newcomer, football-minded Nebraska, shot into ninth place ahead of Michigan, which slipped one notch to 10th.

Layoff Hurts, Duke Falls to West Virginia

NEW YORK (UPI) — The United Press International major college basketball ratings with first-place votes and won-lost records through games of Saturday, Feb. 5, in parentheses:

Team	Points
1. Kentucky (21) (17-0)	334
2. Duke (13) (15-1)	320
3. Loyola (Ill.) (16-1)	201
4. Providence (15-1)	190
5. Tex. Western (1) (16-0)	183
6. Kansas (15-3)	141
7. Vanderbilt (16-3)	133
8. St. Jos. (Pa.) (15-4)	109
9. Nebraska (14-2)	48
10. Michigan (12-5)	37

Second 10 — 11 (tie) San Francisco and Cincinnati 32; 13. Utah 26; 14. Dayton 22; 15 (tie), Syracuse and St. John's (N.Y.) 17; 17, Brigham Young 14; 18. Illinois 12; 19. Bradley 11; 20. Michigan State 10.

FIVE-YEAR CONTRACT — The Atlantic Coast Football League owners Sunday gave Commissioner Joe Rosentover a five-year contract, his first multi-year pact since he took the job in 1962.

The ACFL expects to field eight teams next season with franchises definite in New Haven, Scranton, New Bedford, Lowell and Jersey City. Mohawk Valley which played out of Herkimer last season probably will shift to another upstate New York town.

STILL PITCHING — California Angels pitcher Dean Chance wields a pitchfork as well as he does a baseball, keeping fit for spring training with chores on his farm near Wooster, Ohio.

By SANDY PADWE
Newspaper Enterprise Assn.
PITCHING — If only the rest of Bill Rigney's team matched the pitching staff. Last season, George Burnet, Marcellino Lopez and Fred Newman all had earned run averages below 3.00. And Dean Chance, No. 1 on the staff, was at 3.15 with a 15-10 record. Bob Lee, the best reliever, appeared in 69 games, had a 1.92 ERA and 21 saves. Aubrey Gatewood also had a fair year in relief. Possible starters are Rudy May and rookie Jim McGlothlin who had an outstanding year in the Pacific Coast League. For emergencies, Rigney has Lew Burdette, now 39. RATING—B.

INFIELD — The Angles have trouble hitting, so they traded with Baltimore for Norm Siebern who will be on first base. Over the years, Siebern has been a solid major leaguer.

Another spot that needs work is third base. Paul Schaaf hit only .224 last season. His back-up will be Frank Malzone, obtain-

ed from the Red Sox. The double-play combination is one of the best with Jim Fregosi at short and Bobby Knoop at second. Knoop (.269) proved last season that he could hit. For Fregosi it has never been a problem. RATING—B minus.

The Pampa Daily News

A Watchful Newspaper

NEVER STRIVING FOR THE TOP O' TEXAS TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

Right Principle—Right Result

As the news whirls by, as civic issues develop, as politicians make pronouncements, as editorialists offer unsolicited advice, the poor citizen must feel somewhat bewildered how to judge all the information that comes his way. For the reason that one person's experience may prove useful to another, we will relate two rules that we have found to be dependable. The first rule is that right principles rightly applied lead to right results. The equation is mathematical. In any undertaking, whether civic or business, you need have no fear of the outcome if you start with a sound principle, stick to it rigorously and apply it judiciously, accurately, thoroughly to the actual situation. On occasions of failure, we have only to examine our commending principle, or the manner in which we applied it, to find the cause of our error. Correctly understood, failure is the school where Providence teaches success.

The second rule flows from the first in that we have, at the outset, to select a right principle. In so far as social relationships are concerned, we cannot find an exception to the following: that aggressive force—whether legal or illegal—is never justified. Thus if one-party has a good objective in view, he has a right to try to persuade

you to the same end, but no right at all to compel you either to do his bidding or to support his idea financially against your will.

As this second rule applies to illegal offenses against the person, it has a very widespread acceptance among us. The rub comes from the contrary side; namely, that when the aggression against you comes through legal channels, you find yourself with few sympathizers. For the multitude of men suppose that an act is right if it is legal. The truth, however, is that an action may be completely legal and, at the same time, entirely wrong. Legalities are fashioned by fallible men; whereas right and wrong are defined by the infallible Creator and given force by Natural Law.

When these two rules are put to use, tact and courage may be required, but not moderation. In fact, moderation in the application of a right of a principle is a common source of error. It is clearly contradictory to suppose that something good can be made better by mixing in a little bit of bad. Moderation in manner, moderation in language, moderation in attitude are excellent marks of character, but principle—being the handiwork of a Higher Power than men—cannot by men be moderated.

Spurs Aren't Soothing

As if television didn't have enough domestic critics, now someone has taken a potshot at it from across the border. In the opinion of Alberto Ortega, director of Mexico's National Center of Mass Communications Media, American programs—which constitute about 70 per cent of Mexican television—are a bad influence.

The advertising of products like automobiles and washing machines, he says, causes unrest; frustration and anguish among Mexico's poor people, to whom such things are hopelessly out of reach.

Even worse, he fears that a constant diet of television westerns might encourage people in rural areas to start solving their problems with guns.

No one will dispute Senator Ortega's criticism of television violence, and to be sure, an awful lot of its advertising could be

gracefully dispensed with. But as for television causing unrest, this is an ailment Americans themselves have historically suffered from. In fact, it is one of the reasons this country is as rich as it is.

It was unrest that brought people here in the first place. It was frustration with their lives that drove the pioneers across the prairies. It was dissatisfaction with the present and desire for something better that inspired the inventors and founders of industries. It is the anguish of the underprivileged that has spurred every social reform.

Indeed, it was unrest that brought about the Mexican Revolution which, like our own, started that country on the road to democratic prosperity.

When the natives stop being restless for a better life, then Mexico will have something to worry about.

Definitely Not Green Cheese

Luna 9's successful landing and successful functioning on the moon is an impressive achievement, even when stacked up against all the other fantastic things that have happened in space in the past year.

According to the excitable guys who follow all the space shots at England's Jodrell Bank tracking station, this puts the Soviet Union exactly four months ahead of the United States because we won't even attempt to duplicate the feat until May, when the first soft-landing Surveyor spacecraft is scheduled to be launched.

But we were supposedly ahead of the Russians in December when the Gemini 6 and 7 rendezvoused, and since they

haven't done this yet... who's on first?

The final score in the space race will still not be known until men actually land there. So unless the Russians have a superrocket up their sleeves that can make the trip directly without the necessity of space rendezvous and capsule detachments, then it would still appear to be anybody's ball game.

In any event, the last major question mark concerning the moon has been erased by Luna 9: Its surface is firm enough to support men and their machines.

Nothing but time now stands between us and the most exciting scientific adventure of the century.

Pull Up A Chair

Frank Markey

"Tarzan" is one of the greatest and most profitable characters in the whole history of fiction writing. More than 100 million copies of Edgar Rice Burroughs' stories about the ape man have been sold since the first one was published in 1912. Burroughs made millions on his fictional creation and reaped tremendous additional royalties from such sidelines as the Tarzan movies, radio and TV serials, and comic strips. Now that Mt. Everest has been conquered, the only high mountain yet to be scaled by man is Shisha-Pangma, a 26,291-foot peak in Tibet. Right now it's unlikely that the Red Chinese will permit any non-communist mountain climbing team to try to reach its summit. . . And although everyone knows the name of Mt. Everest, we'll bet that few know it was named in honor of Sir George Everest, a British engineer, who was Surveyor-General of India and spent 40 years making a trigonometrical survey of that vast country.

Today's smile: A young man was being interviewed for a job as junior accounting clerk and, after a series of routine questions, was asked about his other interests. He replied: "My avocation is color photography." The personnel man stared at him and said: "Young man, top executives have avocations: department heads have hobbies; what you're doing is fooling around."

Remember when everyone was doing jigsaw puzzles? Well, they are now back in vogue. Shopping on New York's Madison Avenue we saw some of the new ones and they offer a fascinating challenge to jigsaw devotees. The new ones are circular and more difficult to assemble, but when you have the picture completed it is a beautiful reproduction of some art treasure.

Thoughts while shaving: Only 20 per cent of all motorists are brand conscious in buying advertised brands of gasoline, a survey revealed. Most of those interviewed figured that all motor fuels in the same price range give the customer the same standard of quality and performance. . . The longest poker game in the history of Hollywood movies was recently filmed at the Warner Bros. studios. It will run for a half hour in the film "A Big Hand For A Little Lady," but it took two weeks before the camera to get it on celluloid. During that time the player used 50 decks of cards, smoked 350 thin Western-type cigars and drank five gallons of tea, which was supposed to resemble whiskey.

The airlines are "thinking big" about the future. During the past 15 years they spent a mere \$6.5 billion on new planes and ground equipment, but in the next decade they plan to double that by spending \$12.2 billion. And with the service they give you on a short or long flight, it's no wonder they have lured the passenger business away from the railroads. . . The smallest country in the world is Vatican City. It's about one-quarter in size of New York's Central Park, yet it has its own railroad, police force, stamps, currency, newspaper, radio and TV stations, and maintains diplomatic relations with 42 nations. Its total area is only 108 acres. . . The Detroit (Mich.) FREE PRESS reported in a story: "The king's realm is made up of about 200 small Pacific islands, many of them uninhabited." They probably meant "inhabited by uninhabited inhabitants."

Country Editor speaking: "Not so long ago child psychologists consisted of a good spanking."

(STATE)
Rep. Granger Melhany, Wheeler, Texas.
Sen. Grady Hazelwood, Amarillo, Texas.

"This Is Our New Model. Let's Hope It Works Better!"

Backstage Washington
Gen. Abrams Possible Successor to Gen. Westmoreland Under Discussion in Inner White House Council

ROBERT ALLEN

WASHINGTON — The possible replacement of General William Westmoreland as U. S. Commander in Viet Nam is under discussion in inner White House councils.

Most likely successor is General Creighton Abrams, Army Vice Chief of Staff. Westmoreland is on the final leg of a normal tour of duty. He arrived in Viet Nam in January 1964, assumed full command in August of that year. The 52-year-old artilleryman is highly regarded by President Johnson, Defense Secretary McNamara and the Joint Chiefs of Staff.

Ably and unassumingly he has coped with tremendous problems in building up in little more than a year a battle force of 200,000 — in the midst of widespread guerrilla attacks and terrorism. But with the war entering a new phase, the question has been raised of the desirability of a change in command.

Westmoreland has indicated the wish to continue in Viet Nam.

A decision on this matter is not imminent. General Abrams, 51, like Westmoreland a West Pointer, has a notable fighting record. As a young officer, he commanded a tank battalion and combat command of the famed 4th Armored Division. The 4th was General George Patton's favorite assault force, and spearheaded his historic drives through France and Germany. In the Korean war, Abrams was chief of staff of a Corps.

MAKING THE KIDS PAY — Among the numerous contradictions and inconsistencies of President Johnson's stupendous budget, one of the most glaring directly concerns Mrs. Jacqueline Kennedy.

Under this budget, the former First Lady would get \$50,000 for "clerical expenses" — The same amount voted her for the current fiscal year. Also under this budget, funds for lunches and milk for schoolchildren throughout the country would be drastically slashed.

School authorities estimate that millions of needy children now covered by these programs would be eliminated.

In the President's budget message he sonorously proclaimed that the needy and children would not be called on for "sacrifices" to meet the soaring costs of the Viet Nam war. Bipartisan members of Congress are bitterly pointing out the hollow ring of this righteous avowal.

None has yet publicly commented on Mrs. Kennedy's untouched \$50,000 for clerical assistance. But privately indignant comparison is being drawn to the heavy axing of funds for lunches and milk for needy schoolchildren.

Paul Scott

She also receives a \$10,000-a-year pension as the widow of a President, franking (free mail) privilege, and has a squad of six servicemen to protect her and her two children. These guards accompany them wherever they go — with the government paying travel and other expenses.

From her late husband, Mrs. Kennedy and her children inherited an estate of some \$10 million.

Plain Talk — Foremost among those denouncing the steep cutting of lunch and milk funds for schoolchildren are Senators William Proxmire, D-Wis.; George Aiken, R-Vt.; Spessard Holland, D-Fla.; and Representative Albert Quie, R-Minn.

Proxmire bluntly characterized President Johnson's budget statement on this issue as a "travesty."

"It is abhorrent that first and second graders should be forced to testify, 'Dad is too poor to buy a half pint of milk,'" said Proxmire. "Many parents will be too proud to let their children go through a means test. That is what it all amounts to."

Representative Quie was equally caustic. "In examining the President's budget," he said, "I find that the school milk and lunch programs are cut to the bone. There would be an \$82 million cut in the milk program, and a \$19 million cut in the lunch program. That is \$101 million cut in funds that have provided health for our children for a long time.

"This cut occurs in the same budget that proposes a \$465 million increase in funds for the controversial and in so many cases wasteful war on poverty. If it is necessary to reduce expenditures in our domestic budget because we cannot have all the guns and butter that we want, then let us not take the butter away from the schoolchildren if we can afford it in so many other programs."

Another inconsistency in the budget — so far unmentioned — is \$3 million for a "Multilevel parking facility" at the National Institutes of Health, Bethesda, Md.

NIH is in a suburban area with abundance of available space for outdoor parking. Presumably, the proposed facility would save a few steps. Dr. Paul Dudley White, world-famed heart specialist and NIH consultant, strongly counsels walking to prevent cardiac attacks. It's a safe bet he was not consulted on the contemplated \$3.5 million parking facility.

Sensing The News
By THURMAN SENSING HUD AND 'RENTICARE'

Now that the new federal Department of Housing and Urban Development is in business, the public can expect prompt moves to expand federal control over cities and suburbs.

HUD, as the department is known in Washington, has been widely described by its proponents as the "one-stop shopping spot" for mayors seeking federal funds for their communities. If the mayors shop at HUD, however, they can expect to become deeply in debt to the federal regulators.

In this connection it is interesting to note that HUD soon may open an "urban desk" at each of the 76 federal housing offices in U. S. cities. The idea is that public officials who want to find out how to get federal money and federal approval could stop by these desks and get their instructions. Before they stop by these desks, mayors would be well-advised to think of their future. The deskmen could well become the shadow mayors of American cities.

If a HUD official can call the tune on every program in a community, that official soon will be the real power in a community. Elected officials would be mere front men.

An even more immediate danger from HUD is that it will press for a rent subsidy program in the current session of Congress. Robert Weaver, the head of the new department, pushed rent subsidies, or "renticare," last year when he was head of the old Housing and Home Finance Agency. The subsidy plan was incorporated into the 1965 Housing Act. But Congress declined to appropriate the money to finance it. One reason Congress proved unwilling was that it discovered that a family with assets of \$25,000 would have been eligible to receiving a housing subsidy.

Responsible citizens should begin right now to register opposition to a renewal of "renticare" legislation. Rent subsidies would be a slap in the face of the millions of Americans who are making all manner of personal sacrifices to pay off the mortgages on the homes they have bought. Broadscale homebuying has been one of the most happy developments of the last 20 years. It has been part of the

estate and daughter of the one-time prominent New Deal brain-truster Thomas Corcoran; Harvard has designated Matthew Nimetz, also a top Harvard graduate at their next clerks. The Harvard law faculty is topped here by professors who served as clerks for Supreme Court justices. —17. In addition, Professor David Riesman, School of Social Sciences, also was a Supreme Court law clerk. . . . The FBI has conducted a treason-sedition type investigation on Morris Robert Wills, American soldier who defected to Red China in 1953 and returned to the U. S. last year with a Chinese wife and 15-month-old daughter. Wills claims he has offers from several universities to translate and analyze Chinese publications.

The Doctor Says:

A Balanced Diet Is Best Vitamin Source
Q—Is it a good thing to take cod liver oil capsules and ascorbic acid tablets during the winter months? Is there any harm in taking extra amounts of vitamin B-1 and B-12 daily?

A—Cod liver oil is usually given when they cannot get direct sunlight on their skin, unless an ultraviolet sunlamp is used instead. This is to prevent rickets. The need is not so great in adults because, although they may develop osteomalacia (softening of the bones) due to a deficiency of vitamin D, they usually get their requirement (which is much less than for a child) even in winter by eating eggs, various sea foods and drinking vitamin D-enriched milk. Similarly, the requirement for

ascorbic acid (vitamin C) for both adults and children is amply met by getting a small amount of citrus fruit or juice daily. Vitamins of the B complex can be taken in large amounts without harm (this is not true of vitamins A and D) but unless you have a definite vitamin deficiency, there is no point in getting your vitamins in this way. Eating a balanced diet is cheaper and better.

Q—Does vitamin E help to prevent miscarriage when taken during pregnancy? Does it increase fertility in men? Is too much of this vitamin harmful?

A—Although prevention of miscarriage and increased fertility in men have been attributed to vitamin E, there is no firm evidence that the vitamin does either of these things. It is believed to be of some value in the treatment of some forms of anemia, especially in infants, and in the treatment of cystic fibrosis, also in infants. No cases of poisoning from large doses of this vitamin have been reported.

Q—Why would a woman of 65 years talk aloud to herself when she thinks she is alone? Is this a sign of a mental disease?

A—Talking to oneself is the most normal thing in the world and should be encouraged. Most persons who do this are lonely and talking to themselves, far from being a sign of a mental disease, helps to keep them from going crazy.

Q—Does a person always have sores in the mouth if there are syphilis germs in his saliva? Are gonorrhea germs ever found in the saliva? Will vitamin C prevent venereal disease?

A—If syphilis germs are present in the saliva, they must come from the superficial painless ulcers of the secondary stage of syphilis. The gonococcus that causes gonorrhea is not found in the saliva. Vitamin C will neither prevent nor cure any venereal disease.

Hunt for Truth
BY H. L. HUNT

INFLATION AND GOVERNMENT CONTROL
Pierce control by government edict is deeply repugnant to the great majority of Americans, and so far in our history has been tolerated only in wartime, and very grudgingly then. Nationalization of major industries, a vital element in the program of international socialism, is overwhelmingly rejected by people as a legitimate activity of government.

Yet there is a real danger that both price control and nationalization will come in by the back door while the front door remains firmly barred against them. This danger results from our continuing monetary inflation.

Inflation may increase in the supply of money by government action. As more money goes into circulation, the value of the dollar decreases. In a free market, this is soon reflected in rising prices and wages.

But government, through a massive propaganda effort, has not convinced many people that inflation, and rising prices and wages, are one and the same thing. This means that if prices and wages can be held down, government can claim it stopped inflation. It is a perfect example of treating the symptoms instead of the disease.

If by a combination of pressures government can hold down prices for goods produced by major industries, rising costs resulting from inflation will soon eliminate their profits. In order to keep producing, such industries would have to turn to government for subsidies. Government subsidization soon becomes nationalization in everything but name.

Inflation is both a hidden tax and a device which can readily be used for a vast extension of government control. It has destroyed the economy of many nations.

expansion and strengthening of the great American middle class. Moreover, home-buying is an exercise in capitalism, in saving and in self-reliance. "Renticare" would in effect repudiate such individual efforts.

Not only would "renticare" have this ill effect, but it would erase a necessary line between private and public housing in the United States. Those who today live in public housing are encouraged to look forward to the time when they own their own homes. But if more prosperous citizens are to receive a housing dole, then the incentive to get out of a public project will be shattered.

Perhaps more than any other program, "renticare" would push America toward a collectivist state. The feeling that a man's home is his castle is a foundation stone of our free enterprise society. If free numbers of Americans lost the feeling of owning property, if they realized that the very walls that surround their families are provided by the government, then their dependence on Big Brother in Washington would increase sharply.

The rent subsidy idea is riddled with injustice to those citizens who are paying their way in American life. If "renticare" became the law of the land, then the individual who makes a mortgage payment each month, and therefore cannot afford some luxury, also would be paying taxes to house someone who wouldn't practice any self-sacrifice. The truth is that there is no grassroots demand for "renticare." The only people calling for it are the social-welfarists who are interested in wrapping all Americans in a cocoon of federal programs.

The Almanac

Today is Tuesday, Feb. 8, the 39th day of 1966 with 326 to follow.

The moon is between its full phase and last quarter. The morning star is Venus. The evening stars are Jupiter and Saturn.

French novelist Jules Verne of "Around the World in 80 Days" fame was born on this day in 1828.

A thought for the day—American writer Henry Brooks Adams: "Chaos often breeds life, when order breeds habit."

Wit and Whimsy

Suitor—I hope, sir, that you will consider me in the nature of an investment, even if I may not pay regular dividends.

Girl's Father—My dear boy, don't talk of dividends. I shall be glad if you don't levy regular assessments on me.

Mary—I've decided not to marry Harvey.

Lois—How come?

Mary—I saw him in his swim suit and he looks so different without his wallet.

The famous Venus de Milo statue was found armless in the ruins of the Greek island of Melos (Milo) in 1820.

Her—Say, do your eyes bother you?

Her—No-why?

Her—Well, they bother me!

fact

Beer appears to have been the national beverage of ancient Egypt. There is a reference to it as early as 2800 B.C. During his reign Ramses III, who lived about 1225 B.C., is claimed to have distributed the equivalent of more than 500,000 gallons. Beer was also used extensively in medicine.

Healey briefed LONDON (UPI) - Defense newsmen at London Airport Secretary Denis Healey said after returning from a 30,000-Sunday the cabinet would mile Far East tour of British decide by the end of the month bases and talks in Washington whether Britain would buy the Defense Secretary Robert American F111 swing je S. McNamara

Investors' Corner

What a stock broker can and can't do for a new investor.

If you think investing might help your family enjoy a better life, you may want to know more about stock brokers.

Q. What does a stock broker do? A. Basically, he executes your orders to buy or sell securities. He can also explain how the market functions, give you facts he may have about companies that interest you, and suggest investments you may not be familiar with.

Q. Will a broker give you advice? A. All you have to do is ask. He may not always be right, but he can often suggest opportunities you may wish to examine more closely.

Q. Are all brokers connected with the New York Stock Exchange? A. No. Only those with member firms. Each registered representative had to satisfy exchange requirements for knowledge of the securities business at the time he was registered.

Q. How much does a broker charge? A. A member firm broker's commission is among the lowest charged for the transfer of any type of property. Example: If 100 shares are purchased for \$3,000, according to the schedule now used by member firms, the charge would be \$34, or about 1.1%. (When odd lots, usually less than 100 shares, are traded, the cost per share is slightly higher.)

Q. How do I find a member firm broker? A. Check your telephone directory's Yellow Pages. Or, look for an office that displays the sign "Member Firm New York Stock Exchange." There are some 3,500 member firm offices, probably one near you.

How a broker can help you start your investment program.

1. He can discuss with you how much you might invest. Remember, don't use money needed for regular living expenses or emergencies. All investments carry a certain risk.

2. He can help you choose a specific goal. Perhaps dividends for more income now. If your concern is safety of capital, you might consider bonds. Or maybe you're looking for a long-range increase in the value of your investment.

3. He can help you get information about a particular company so that you can make a more informed judgment as to its prospects.

4. He can suggest various investment possibilities among stocks listed on the New York Stock Exchange. There are some 1,200—among them some of the most respected names in American business.

United Press International
Two clouded aspects of the war in Viet Nam and its likely effect on the United States deserve discussion in depth when Congress comes finally to full-dress debate of Johnson administration policy in South-east Asia.

Urgently needing exploration are these two vital questions:
—Does impressive evidence suggest that limited use of air power (as in Viet Nam) is self defeating?

—What is known of the long-range, global objectives of Communist China?

Press For Answer

These questions press for answer. In response to the first question, the most compelling evidence seems to suggest that limited use of air power as in Viet Nam is self defeating. The evidence was accumulated in World War II. United States military observers reported from London in 1940 that Germany misunderstood air power and misapplied air power in the terror blitz of London and other British cities. The net effect of the German air blitz was to boost British morale, to increase the British will to fight and to crystallize British determination to win.

The Germans did not deliberately limit their air attack on the United Kingdom. They hit as hard and as often as they were capable of hitting. They were unable to hit hard and often enough to destroy the British will to fight or to destroy the British fighting structure.

Missed the Point

The German air blitz would have been more effective if their raiders had ignored the cathedrals and the mass populations in cities to concentrate on, for example, bridges and harbor facilities. That might have deprived the British of their ability to fight.

Directors of the U.S. Strategic Air Force did not make over Germany the mistakes the Germans made in British skies. U.S. bombers hit the bridges and hit 'em again. They hit the oil refineries and returned time after time as each refinery was repaired and restored to production. As a Hamburg refinery manager remarked to this correspondent in June of 1945: "They (U.S. bombers) came again and again. It was most discouraging."

The U.S. bombers destroyed both the German ability to fight and the will to fight. Cities were not overlooked. Barring ancient Heidelberg and a very few others, the Anglo-American bombers levelled the cities, large and small.

What the Allied bombers did not hit from the west, Russian artillery hit from the east. On the foregoing valid evidence, limited air warfare such as President Johnson has resumed in Viet Nam is likely to be self defeating. All-out air war would be likely to win.

Less Precise Question

The second question is less precise. What is known of Communist China's long range global objectives? The question, however, invites re-examination of the Oct. 4, 1965, weekly report of the prestigious American Security Council. This report over the signature of Adm. Arthur W. Radford, USN (Ret.) cites the evidence that China expects to dominate the entire world in the next 5 years by virtue of population and strength. China appears to be planning a global people's war.

There would be simultaneous people's wars in many different parts of the world. In any given country the strategy would be (as in Viet Nam) to encircle and finally to capture the cities from power bases established in the countryside. In global terms, North America and Western Europe would be encircled for Communist takeover from bases in Asia, Africa and Latin America. Like Hitler before him, the Chinese minister of national defense, One Lin Piao, wrote and published a blunt blueprint of Chinese global strategy. This appeared Sept. 2, 1965. Radford's report was a simple, unadorned analysis of Lin Piao's plan.

In 1587, Mary, Queen of Scots, was beheaded after being charged with plotting the murder of Britain's Queen Elizabeth I.
