Israel And Egypt Decide To Sign Truce Proposal

By United Press International
Israel agreed Saturday to sign a truce agreement with Egypt Sunday, formally marking the end of the 1973 Middle East war. It will be the first agreement between the two enemies since the armistice that ended the Israeli war of independence a quarter century ago.

probably Syria would sit down for the first time to settle their differences peacefully instead of by war as they have done four times since 1948.

U.N. Secretary General Kurt Waldheim said the signing ceremony, held under the auspices of the U.N. Emergency Force (UNEF) overseeing the cease-fire, was scheduled for 3 p.m. (7 a.m. CST) Sunday at the 101-kilometer marker on the road from Cairo to Damascus, where Israeli and Egyptian officers have sat

together before to work out details of the current U.N. cease-fire.

blockade at the southern end of the Red Sea.

MODEL LEGISLATURE II Cates To Serve In Student Event

State Representative Phil Cates announced Saturday that he will participate in Model Legislature II at Pampa High School on Nov. 17. Cates will serve as Speaker of the House of Representatives.

REP. PHIL CATES to serve as speaker

"I am delighted to work with the organizations involved in Model Legislature II," Cates said. "I believe that our youth should have a better understanding of the workings of the Texas Legislature."

Cates, who has served two terms as a State Representative, served as Speaker of the House for Model Legislature I in 1971.

He graduated from Lefors High School in 1965 and received his bachelor of science in government and psychology from West Texas State University in 1969. He is married to the former Nancy Kay Holt. They presently reside in Pampa.

He served on the Agriculture and Livestock Committee in the Texas House of Representatives this year and was vice chairman of the Human Resources Committee and the Water Sub-committee of the Human Resources Committee.

During his first term he served on the Public Education, Oil, Gas and Mining, Conservation and Reclamation,

Livestock and Youth Committees.

"We are extremely pleased to have Phil with us again," said Kiwanian John W. Warner, general chairman of the project. "His actual experience in the Legislature coupled with his experience with Model Legislature I makes him ideal for Speaker."

The student evaluations from two years ago indicated that assistance from Phil was one of the highlights of the day for them.

The project is sponsored by the Pampa Kiwanis Club, PHS Key Club, Jaycees, Jaycee-Ettes, PHS Government Department and PHS Student Council.

An orientation of student and adult leaders for the event will be held at 7:30 p.m. Wednesday in the City Commission meeting room at City Hall.

Several Kiwanians will be serving as witnesses to testify to the student legislative committees for the project.

Jerry G. Davis and David McDaniel are in charge of obtaining the witnesses, with Paul Simmons serving as a member of the steering committee.

The students attending the event will have the opportunity of experiencing the legislative process by drafting legislation in the morning session and debating the bills in the afternoon session.

Students from area high schools have been invited to Model Legislature II.

President Preparing Disclosure?

CAMP DAVID, MD. (UPI)—While President Nixon relaxed for the weekend at this mountain retreat, there were signals Saturday that he may be preparing to make public the content of the controversial White House tapes and other memoranda.

Shortly before leaving Washington Friday with his family, Nixon conferred with Republican congressional leaders for two hours on the Watergate situation.

"We were assured the President is prepared to meet all charges that have been made and prepared to refute them," Senate GOP leader Hugh Scott told newsmen.

The next major development was expected Monday when Judge John J. Sirica resumes hearings on the White House claim that two key conversations—Nixon held with former Attorney General John N. Mitchell and ousted White House counsel John W. Dean III—were never recorded.

They were among nine purported taped conversations which Nixon agreed to turn over to Sirica for possible submission to the Watergate grand jury.

The White House has suggested Nixon is willing to turn over to Sirica personal memoranda dictated after a meeting with Dean on April 15—one of the two purported untaped conversations. It was not known whether the President dictated such a memorandum after the other conversation, a telephone call with Mitchell on June 20, 1972.

The first step in the White House strategy to try to rebuild the President's shaken prestige apparently will be to provide Sirica with whatever Watergate material is available.

There was strong speculation that once that is done and the grand jury has studied the tapes and other evidence, Nixon may move to make much of the material public. He has insisted throughout that he had no prior knowledge of the bugging break-in of Democratic headquarters on June 17, 1972, nor any awareness of cover-up attempts that followed.

Jack Scott Towles, 44, of Pampa, remained in critical condition in Amarillo's Northwest Texas Hospital Saturday evening where he has been hospitalized since Friday night for a gunshot wound in the chest.

The shooting at 910 Twiford in the city occurred during a family argument, police reports said.

Charged with assault with intent to murder in the incident was Pedro O'Dell Martinez, 26, Towles' son-in-law. He resides at the Twiford address.

Martinez remained in Gray County jail last night in lieu of \$10,000 bond. Bail in the case was set by Justice of the Peace E. L. Anderson.

Towles, whose residence is listed as northeast of the city, was shot around 8:25 p.m. Friday with a 303 caliber British-made rifle. The weapon was found at the scene, police said.

According to neighbors living across the street from 910 Twiford, the bullet which apparently wounded Towles went through a front room window in their house, passed through several walls and came to rest in a cabinet. The round was steel-jacketed, a witness said.

Police Arrest Pampan After Gunshot Incident

Chamber of Commerce officials Saturday issued an appeal for local entries and from nearby towns in Pampa's annual Santa Day parade Thursday, Nov. 29.

The invitation went out for non-commercial, commercial, individual or family, and decorated bicycle and motorcycle entries.

There will be three cash prizes in the Non-Commercial Division—\$100 for first, \$50 for second and \$25 for third place winners.

There will be a \$50 cash prize for any entry that does not qualify as commercial or non-commercial. This will be in the Family or Individual Division.

Fifteen dollars in cash will go to the first place winner in the Motorbike and Bicycle Division. Second place will draw \$10 in cash and third place \$5.

Plaques will be awarded to first, second and third place winners in the Commercial Division.

Prizes will be awarded at 4 p.m. Friday, Nov. 30, at the Chamber of Commerce office.

On Saturday, Dec. 1, there will be awards of \$15, \$10 and \$5 in cash to first, second and third place winners in a Pet Section

HOMECOMING QUEEN — Senior Lynn Hoyler, daughter of Mr. and Mrs. Cleo Hoyler, 128 N. Sumner, beams after being crowned Homecoming Queen during ceremonies before the Harvester clash with the Palo Duro Dons Friday night. The Harvesters lost 28-7. See story, Page 9

TO FIGHT ENERGY CRISIS Nation Slow At Making Any Major Adjustments

Apparently anticipating the next step in negotiations, Arab diplomats and politicians were on the move throughout the Arab world Saturday, consulting each other on Arab negotiating strategy.

Whether citizens will observe voluntary speed limits appeared doubtful, however.

A Los Angeles reporter who tried out the 50 m.p.h. limit on the Harbor Freeway toward San Pedro, Calif. said: "Several people who got behind me and then had to change lanes to pass looked at me like I was some kind of nut."

In Kansas City, Mo., Saturday, Secretary of the Interior Rogers C. B. Morton said that the 49 major utilities in the nation could convert to coal as a power source within two months and save up to 430,000 barrels of oil a day.

"We can't get energy out of thin air," Morton said. "Ninety per cent of the fossil fuel reserve under the American

flag is coal. It is in the public interest to convert to coal and we will do it as fast as possible."

A vice president of a leading coal producer said Friday that coal could be counted on as a substitute for oil—if the United States is willing to commit itself to using coal on a long term basis.

And that, said William Hartman of the Peabody Coal Co. in St. Louis, means that President Nixon's energy message must be clarified to determine whether strict emission standards will be relaxed for only a year or for a longer period.

In Washington Saturday, Sen. Gaylord Nelson D-Wis. cautioned the nation against compromising environmental standards adopted in recent years "in a panicky rush to find simple but ineffective answers to complex energy problems."

In other developments—"A reduction in heat" has been ordered on all New York City subways and trains operated by the Metropolitan Transportation Authority.

"To set an example of energy conservation, Minnesota won't have an official Christmas tree in front of the capitol this year."

"Legislation to put the country on daylight saving time all year" has been assigned the highest priority within the Senate, said Sen. Warren Magnuson, D-Wash. Friday. "It is entirely possible we can get a bill down to the White House by next week."

Optimist Club To Recognize Local Youths

Ten Pampa youths will be honored by the Pampa Optimist Club at its annual Youth Appreciation banquet Monday night at the Optimist Club Bldg. in conjunction with the International Youth Appreciation Week.

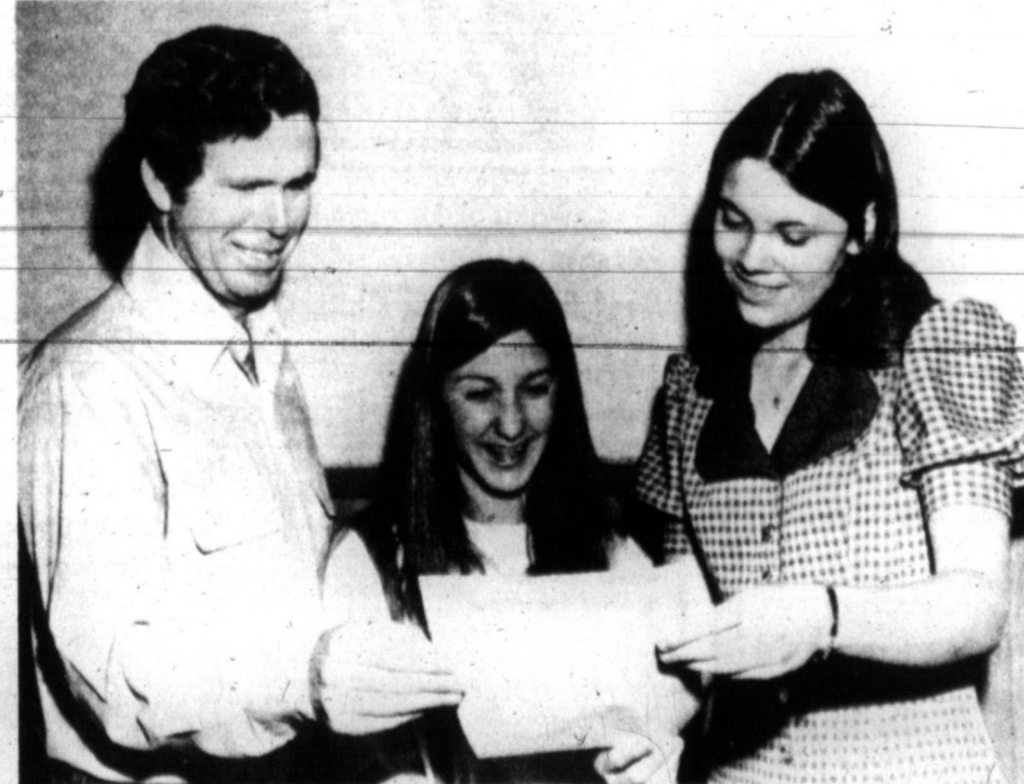

The banquet is held annually to honor student representatives displaying the qualities of today's outstanding youths and to show that all youths, despite the coverage often portrayed in the various news media, are not "bad."

The students were chosen by the school teachers and principals on the basis of personality, grades and participation in school activities, according to Harley Knutson, Optimist chairman of the Youth Week activities which started Nov. 8.

High school students to be honored at the banquet include seniors Darrell Carey and Susan Morrison; juniors E. B. Ellis and Zindi Epperson; and sophomores Vincent DiCosimo and Brenda Malone.

Pampa Junior High students receiving the recognition are Dana Kent and Chris Skaggs, ninth grade, and Lynn Quarles and Ricky Bunton, eighth.

Students recognized at the banquet will receive plaques. Parents of the youths are to be honored guests.

YOUTH APPRECIATION — Looking at a program list for activities at the Optimist Club's annual Youth Appreciation banquet slated Monday night are, from left, Harley Knutson, Optimist Youth Appreciation Week chairman; Lynn Quarles, 13, daughter of Mr. and Mrs. John E. Quarles, 2222 Williston, eighth grade student, and Brenda Malone, 16, daughter of Mr. and Mrs. Jack Malone, 414 Sloan, sophomore. The two girls, along with eight other students, will be special guests at the banquet. (Photo by Terry Hanna)

Hey, Mom, Look For Cappy Dick!

Hey, mom! If you want to give the kids something to do, have fun and try for some prizes at the same time...

Tell them to turn over to the Cappy Dick contest in the color comic section of today's Pampa News.

It's easy. Maybe you'll want to help them solve the puzzle. After they get the solution, all they have to do is clip and paste it on a piece of paper and color or decorate it with crayons.

Be sure to include name, age, address and zip code and mail it before midnight Tuesday to Cappy Dick, C-O The Pampa News, Box 2198, Pampa, Texas 79065.

Turn to Cappy Dick now in today's comic section for details.

FOR SANTA DAY Chamber Issues Appeal For Entries In Parade

judging at 2:30 p.m. at the old Junior High School parking lot at the intersection of N. Cuyler and Francis Sts. The awards will be presented at 4 p.m. Monday, Dec. 3, at the Chamber of Commerce office.

The Santa Day parade will form at S. Cuyler and Craven Sts. at 2 p.m. Thursday, Nov. 29. The parade will move at 2:30 p.m. going through downtown Pampa and disbanding at Coronado Center.

Santa Claus will be on hand before the parade to distribute candy to boys and girls and after the parade will meet the youngsters at Coronado Center.

Notification of entries for the parade should be sent to the Chamber of Commerce, P.O. Box 1942, Pampa, Texas, 79065.

Jury Delayed

Citizens of Gray County called for petit jury duty for tomorrow are not to report at that time, Sheriff Rufe Jordan said yesterday.

Instead, those who were notified to report for District 31 proceedings should report to the Courthouse Wednesday at the prescribed time.

Warmer Weather In Forecast Again

Warmer weather began to make an appearance Saturday afternoon as the sun broke through to drive away most of the cloud cover and fog which had dimmed the skies during most of the past week.

The temperatures still failed to reach the forecast 70s, instead inching up around the low 60s. But the high for today is again forecast to reach into the low 70s, with an overnight low in the lower 40s.

Skies were to be cloudy this morning, but were expected to begin clearing, becoming partly cloudy this afternoon and to continue as such through Monday.

(UPI) — The high price of walnut logs has led to a new type of thief: the tree thief. The magazine Wisconsin Agriculturalist warns its readers to beware of the timber thief. It mentions numerous reports of walnut trees being sawed down and stolen from farms through the country.

4-H Youths Earn Gold Star Honor

Two Gray County 4-H Club members were honored Saturday night at a district banquet in Amarillo after previously being named Gold Star winners during a program Nov. 3. Elaine Webb, 15, daughter of Mr. and Mrs. V.C. Webb, Moberly, and Jay Spearman, 15, son of Mr. and Mrs. John Spearman, Pampa, were named winners of the top award at the county level during the county banquet at the Lefors Civic Center. The Gold Stars are awarded annually for outstanding work by individuals. Other winners from the surrounding areas attended the banquet last night in Amarillo, sponsored by the Coop Electric Co.

GOLD STARS — Gray County 4-H Club members Elaine Webb, 15, left, and Jay Spearman, 15, were among area Gold Star winners honored at a district banquet Saturday night in Amarillo. The two were named winners during the county banquet last week. (Photo by Terry Hanna)

An active 4-H member for seven years, Miss Webb has studied consumer education and compared the costs of clothing, foods and home furnishings. She has won several first and second places in the county dress revue while a member. She was crowned district bake show winner at the age of ten. She represented District I in the state food show this year after creating her own breakfast roll recipe and designing the bread container. Her record book also earned first runnerup spot in the state bread competition. Spearman, a member for the past six years, was named 4-H Wheat King at the Amarillo Tri-State Fair in 1969 and 4-H Member of the Year in 1971. His projects include cow and calf production, crop demonstrations, and horse and pony.

Mistress of ceremonies for the county banquet was Miss Doris Carlton, Gray County 4-H Council chairman. Guest speaker Leonard Tolbert, Lefors football coach, was introduced by Miss Sally Brainard. Miss Carlton, granddaughter of Mr. and Mrs. Luther Welborn, Lefors, and Miss Regina Atwood, daughter of Mr. and Mrs. Ted Atwood, 2500 Mary Ellen, received the Texas Plains Key Awards. The 1973 Friend of the 4-H award was given to Southwestern Public Service for sponsoring Electric Camp and for continuing support of the 4-H Club work, including furnishing room for cooking classes. Members and leaders recognized for accomplishments the past years include Kelly Dougal, bread; Sherry Courtney, Terri Alexander, Peggy Coleman and Valerie Pangle, clothing; Bobbie Skaggs, dairy; Dana Smith, dress revue; Christal Atchley and Sally Youngblood, food - nutrition; Dana Dykes, home management; Mollie Carlton, leadership; and Robbie Cochran, safety.

OF WATERGATE, ENERGY GOP Governors To Study Crises

MEMPHIS, Tenn. (UPI) — The nation's GOP governors meet next week to grapple with the energy crisis and discuss ways of throwing off the "wet blanket" that has been cast over Republicanism. Tennessee Gov. Winfield Dunn, hosting the annual conference, said he anticipated no action calling for the resignation of President Nixon, but acknowledged that Watergate would figure heavily in the political discussions. At least 16 of the 19 GOP governors, including presidential prospects Ronald Reagan of California and Nelson Rockefeller of New York, are scheduled to attend the Nov. 18-20 meeting at a plush motel overlooking the Mississippi River.

"I think energy will monopolize the Republican Governors Conference," Dunn told UPI in an interview. "The second thrust will be political in nature. We can't deny the fact that there are two major considerations that face these governors politically. No. 1 is the posture of the President, his future. The other concern has to do with the jockeying that will be developing for national prominence and prestige that leads to national prominence among the governors. While we're all Republicans, there are different shades of enthusiasm and support for the President."

The South Koreans are responding to the gospel of Christ in large numbers, he stated, and added that Christianity is getting a foothold in Communist China via underground routes. Rev. Cone was a member of the 165-member mission which flew recently to South Korea on a charter flight from Amarillo Air Terminal. He spent two weeks in Seoul, the Korean capital, speaking to thousands. South Koreans, he said, have made much progress since the end of the Korean War in the 50s. Christianity is spreading rapidly in South Korea and the fight against communism philosophy continues to mount. During his stay in Seoul, Rev. Cone said he preached in penal institutions, high schools, and hospitals.

Mainly About People

Chapter CS-PEO will meet Tuesday, Nov. 13 at 9:30 a.m. with Mrs. Wesley Simpson, 1927 Evergreen, hostess.

Norman's of Salisbury, Custom draperies, shades, bedspreads. Hundreds of fabric samples. 3-week delivery. 669-6100 or 665-8663. (Adv.)

Select Your Christmas Greeting Cards early. Western, or traditional greeting cards at Las Pampas Galleries. (Adv.)

Call Laecrecia Howard 669-9222 or 669-9871 at Michelle's Beauty Salon, 321 N. Ballard for your next beauty appointment. (Adv.)

Celle Wagner and Helen Gallaher welcome you to the Ceramic Closet, 1304 Christine, 1-5 p.m. Tuesday - Saturday. (Adv.)

The possibility of improving drainage on Kentucky St. near Highland General Hospital will be studied by commissioners.

Also to be considered will be authorization of the firm of Kider & Peabody to purchase 1970 general obligation bonds with funds from the M.K. Brown Foundation.

The TWQB ordered the city to chlorinate the oxidation ponds at the plant to bring the facility up to state standards for the disposal of effluent.

The project is expected to be temporary pending word on the outcome of the City of Pampa's request for federal aid funds to bring the plant up to requirements of the Environmental Protection Agency.

Commissioners at their Tuesday meeting will consider the purchase of \$200,000 in investments from the Special Revenue Bond Fund for transferral to the city's General Fund.

Theft Suspect Picked Up By Sheriff Jordan

Paz Jacquez, Dodge City, Kan., was placed in the Gray County jail yesterday afternoon after being returned to Texas from Sayre, Okla. on charges of cattle theft (theft over \$50).

Jacquez' arrest in Oklahoma followed the theft of 13 head of young steers belonging to Johnny Hines, 1821 Christine, early Thursday from a wheat field southwest of Pampa. Jacquez allegedly contracted to sell the 13 head of cattle to Western Livestock Sales in Elk City, Okla., early Friday.

After the deal was made, reports show, he was told to come back in the afternoon and get a check for the cattle totalling \$2,394.

When he returned for the check, sheriff's officers from Beckman County, Okla., arrested him and jailed him in Sayre.

Gray County Sheriff Rufe Jordan went to Oklahoma to get Jacquez Saturday morning. Jordan said that after he got to Sayre he took Jacquez to Elk City, where District Judge McMinn told Jacquez as to his rights and the prisoner waived extradition.

After being returned to Pampa, Jacquez was arraigned before Justice of the Peace E.L. Anderson, who set bond at \$5,000.

Earlier in the day, police received three other calls reporting similar incidents in the same neighborhood.

In the rash of later calls, incidents were reported in the 1100 blocks of Sierra, Sandlewood and Sirroco Sts.

The earlier calls came from residents in the 1100 blocks of Terry Rd., Seneca and Sirroco.

The residence on Terry Rd. (1112), owned by Mark Topper, was entered and eggs and steak sauce strewn on furniture in the house. Several items were also missing from the residence.

Philip Kimbley, 1117 Sandlewood, called police at 10:10 p.m. and reported that after returning home from the Pampa football game, he discovered his house had been entered.

Nothing was missing from the house, reports indicated, but a rabbit had been released from a hutch in the back yard.

The other incidents involved prowlers and some slight vandalism.

Retired University Head To Speak At K&F Club

A man of national and international stature in both the education and business field, Dr. Andrew David Holt will be the guest speaker at the Knife and Fork Club meeting at 7:30 p.m. Tuesday at Coronado Inn.

DR. ANDREW D. HOLT ...Knife & Fork speaker

Retiring last year as president of the University of Tennessee, Dr. Holt still maintains an active schedule, having made more than 200 addresses in 21 states in the past year, with other talks made in Europe and Asia while on a world tour with his wife.

Dr. Holt, who received the bachelor of science degree from Emory University, has been accorded a large number of national and regional honors.

He served as president of the National Education Association and was chairman of the U.S. delegation to the World Organization of the Teaching

Profession at Berne, Switzerland. He has served as president or board chairman of various educational organizations in his region and the nation. He was a charter member of the steering committee of the Education Commission of the States and in 1969 served as vice chairman of that group.

Aside from his educational activities, Dr. Holt is a member of the board of directors of the South Central Bell Telephone and Telegraph Co., the Hamilton International Corp., the Provident Life and Accident Insurance Co. and the Hamilton National Bank of Knoxville.

He was recently appointed by the President to serve on the board of governors of the U.S. Postal Service. He is currently serving as educational consultant to American School, Delta Air Lines and Holiday Inns, Inc.

Dr. Holt is married to the former Martha Chase of Memphis, Tenn. They have three children.

Rev. Cone Reports On S. Korea Trip

South Korea of today was described by Rev. Claude Cone, pastor of First Baptist Church, as he addressed the Downtown Kiwanis Club at its weekly luncheon Friday in the new Fellowship Hall of First United Methodist Church.

Rev. Cone was a member of the 165-member mission which flew recently to South Korea on a charter flight from Amarillo Air Terminal.

He spent two weeks in Seoul, the Korean capital, speaking to thousands.

South Koreans, he said, have made much progress since the end of the Korean War in the 50s.

Christianity is spreading rapidly in South Korea and the fight against communism philosophy continues to mount.

During his stay in Seoul, Rev. Cone said he preached in penal institutions, high schools, and hospitals.

The South Koreans are responding to the gospel of Christ in large numbers, he stated, and added that Christianity is getting a foothold in Communist China via underground routes.

Jones To Visit Tax Seminar

Aubrey L. Jones, city tax collector - assessor, will leave Wednesday to attend a three-day tax seminar in Dallas.

The seminar, conducted by the American Appraisal Co. of Milwaukee, Wis., will deal with instructions on how to apply construction costs information to local property valuation.

The advance appraisal course will comprise 24 hours of study Thursday, Friday and Saturday, Nov. 15-17.

The state motto of California is "Eureka," which means "I have found it."

AIME Slates Landman Talk

Max A. Pischel, Jr., district landman for Phillips Petroleum Co., will speak before the Society of Petroleum Engineers (AIME) Tuesday at the Pampa Club in the Coronado Inn.

Pischel's topic for the evening will be "The Landman and the Exploration Team." He has been employed in land work with Phillips for over 25 years.

Pischel attended Tulsa University and the University of Oklahoma and received his B.A. and J.D. degrees from the latter.

He is a member of the American Association of Petroleum Landmen, the Panhandle Association of Petroleum Landmen, the Oklahoma Bar Association and Phi Delta Phi legal fraternity.

The meeting will get underway at the Pampa Club at 6:30 p.m.

The meeting will get underway at the Pampa Club at 6:30 p.m.

DURING COFFEE C-C Group To Present Beautiful Yard Awards

Awards to winners in the six divisions of Pampa's Beautiful Yard Contest will be presented at 10:30 a.m. Thursday at a coffee in the Pampa Chamber of Commerce office, according to Mrs. Thelma Bray, chairman of the chamber's City Beautification Committee.

The following list of winners was released Saturday: Division I — Mr. and Mrs. Harold E. DeVore, 1721 W. 19th, first; Mr. and Mrs. Melvin Ball, 1125 Cinderella, second; Mr. and Mrs. Orval Batson, 1012 W. Buckler, third.

Division II — Mr. and Mrs. Jim Triplehorn, 1616 Charles, first; Mr. and Mrs. E.E. Shelhamer, 2101 Charles, second; Mr. and Mrs. Herman Whitley, 521 N. West, third.

Division III — Mr. and Mrs. William Sargent, 1724 Holly Ln., first; Mr. and Mrs. John Jones, 1922 Grape, second; Mr. and Mrs. Ed Maglaughlin, 2547 Duncan, third.

Division IV — Mr. and Mrs. Elmer Delaune, 621 Lowry, first; Lorene McCathern, 608

Division V — Mr. and Mrs. Lester Herr, 449 Pitts, first; Mrs. C.H. Keeton, 344 Tignor, second; Mr. and Mrs. Jack Becker, 345 Tignor, third.

Division VI — Mr. and Mrs. C.D. Browning, 940 S. Nelson, first; Mrs. Hazel Stewart, 803 S. Barnes, second; Mr. and Mrs. Crawford Hughes, 941 S. Wells, third.

Mrs. Bray urged contest winners to attend the awards presentation coffee or send a representative.

SHOWBEAT

Susan Hayward takes the good news quietly

By Dick Kleiner
HOLLYWOOD — (NEA) — Let's keep our fingers crossed but Susan Hayward thinks she has licked the cancer which had all her friends terribly concerned. Her press agent son Tim Barker wanted to release a statement to that effect, but Susan said no. "I didn't make a statement when I found out I had it," she said, "so why should I release one now?"

The Thaliens Ball this year saluted Sammy Davis Jr. It was a great show, as usual, marred only by Frank Sinatra's indecisiveness. He had told them he would show up, then he wouldn't, then he would, and so on for days. At the end, he didn't show and Cesar Romero subbed at the last minute for Frank in a duet with Danny Thomas. Highspots were film clips of Sammy singing as a small boy and the moment when a black marching band, the

Locke Saints, thundered into the dining room and Sammy jumped up on a chair to cheer.

The Disney studio turned part of its back lot into a replica of Sherwood Forest after the first screening of the studio's delightful new full-length animated feature, "Robin Hood." It was a big and lavish dinner party.

Among those present: Cary Grant, Walter Brennan, Keenan Wynn, Bob Crane and Ruth Buzzi. Ruth was all dolled up in a colorful caftan and carried an intriguing purse.

"The caftan is from Puerto Vallarta, (Mexico)" she said, "and the purse is from Panama. The face is from Italy."

Bob Ciner, who created and produces NBC's "Emergency!," says the show is a fair representation of the work of the Fire Department's paramedics — but they deliberately avoid realism, whatever that means.

"You can't be too realistic," he says, "because the real work is too grim. Even the real firemen draw a line between their jobs and their lives. They kid around, then go out and rescue a few people, burned medium rare, then come back and kid around some more.

"If they took their work too heart, they'd go off their heads. It's just too terrible."

There's nothing like seeing your name in lights. Ron Leibman and his wife, actress Linda Lavin, drove to the theater showing Leibman's first starring film, "Your Three Minutes Are Up," to see his name on the marquee.

"It blew my mind," Ron says.

Sarah Miles, like most of us, has a dream which keeps her going. It has nothing to do with Burt Reynolds.

"My fantasy," she says, "is that I'm going to do on stage when I'm 93. It's a good dream."

(NEWSPAPER ENTERPRISE ASSN.)

"BLACK EYE"
HOLLYWOOD (UPI) — Warner Bros. has switched the title of "Stone," starring Fred Williamson, to "Black Eye"

Fires destroy buildings on an average of 126 farms in the United States per day, according to the National Fire Prevention Association.

The Mississippi River overflowed its banks in 1882, causing more than \$12 million in damages in 16 Louisiana parishes.

Two Doctors Named Fellows

Two doctors from Pampa, Dr. John F. Elder and Dr. Julian M. Key, have been named Fellows of the American Academy of Family Physicians. The degree was conferred recently upon some 3,000 members of the Academy in conjunction with the AAFP's annual convention and scientific assembly in Denver, Colo.

Officials of the AAFP said the degree of Fellowship may be attained in either of two ways: successful completion of 600 or more hours of accredited continuing medical study, or achievement of diplomate status in the specialty of family medicine as a result of passing a certifying examination administered by the American Board of Family Practice. Fellowship entitles the conferee to use the title Fellow of the American Academy of Family Physicians, or FAAFP.

An estimated 5,000 deer were lost to poachers in Missouri in 1972 and with the high price of meat, the total could reach 10,000 for 1973, the Missouri Conservation Commission said.

ZENITH HEARING AIDS

Mr. Horace Nazworth from Geibel Hearing Aids of Amarillo will be at HEARD-JONES RECALL DRUG

WED.

TEST-HEAR THE LATEST ASK ABOUT OUR 10-DAY TRIAL PLAN

Woman Judge To Talk To Women's Fellowship

Judge Mary Lou Robinson will address the Christian Women's Fellowship in the sanctuary of the First Christian Church Nov. 15 at 7:15 p.m., according to Mrs. Lyle Peiffer, CWF president.

The public is invited to attend this presentation at which time Judge Robinson will speak on the power of "Christians in Social Action."

Recently appointed to the 7th Court of Civil Appeals in Amarillo, Judge Robinson has been named 1973 Woman of the Year by the Texas Federation. She is the first woman ever named appellate judge in Texas.

Judge Robinson moved to Amarillo with her family at the age of six. She is a graduate of Amarillo High School and Amarillo College.

She attended the University of Texas, earning a bachelor's

degree in 1948, and passed the State Bar examinations in August 1949, six months before receiving her degree from the UT Law School.

Judge Robinson is a member of the Amarillo B&PW Club. Dolph Briscoe has been quoted as saying, "Her years of experience on the district bench makes her uniquely qualified for the appellate judge post. She has had a distinguished career as a district judge and I expect her to have a distinguished career in the appellate court."

Women of the Christian Women's Fellowship and guests are to meet at the church for a covered-dish supper in the recreation room of FCC at 6:30 p.m. At this time there will be a short business meeting.

Mrs. James Cunningham will present a Thanksgiving devotional shortly before Judge Robinson speaks.

U.S. Postal Service Reveals New Postage Rates Designs

The U.S. Postal Service has announced the designs and first day of issue details for new embossed envelopes which will be issued for use when proposed new postage rates go into effect on Jan. 5.

The 10-cent embossed envelope, featuring a Liberty Bell indicia, will be placed on sale Dec. 5 with ceremonies at Philadelphia, Penn.

The indicia was designed by Jack McMillen, of New York, New York. The Liberty Bell and the words "U.S. Postage 10c" appear in white against a green background. This is McMillen's first design for the U.S. Postal Service.

A 13-cent airmail embossed envelope will be issued on Dec.

1, at Memphis, Tenn. The new airmail envelope features a symbolic bird in flight and "13c USAirmail" in white against a red background. It was designed by W. David Shaw, of Cos Cob, Conn.

A 2-cent embossed indicia has been added to the current 8-cent Eagle embossed envelope to permit remaining stocks to be used for first-class postage.

The revalued envelope will be placed on sale at Washington, D.C. on Dec. 1. However, there will be no first day servicing provided.

The blue 8-cent indicia on the revalued envelope was designed by Bradbury Thompson, of Riverside, Conn., a member of

the Citizens' Stamp Advisory Committee.

The 2-cent indicia has been used to revalue envelopes for previous rate changes. It was designed by James F. Crawford, Jr., a Postal Service artist. Both indicia have a blue background.

All three envelopes are manufactured by the United States Envelope Company, of Williamsburg, Penn.

First day cancellations for the envelopes may be obtained as follows:

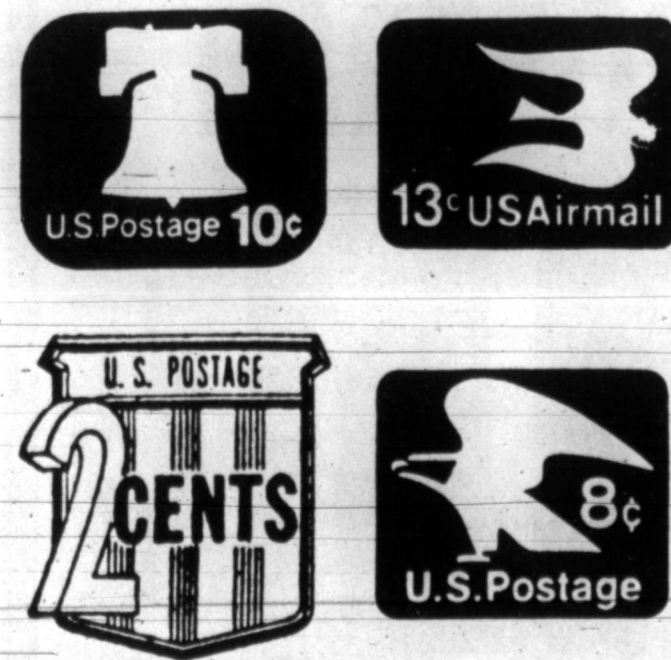

Submit orders for the 10c envelope to "10-cent Envelope, Postmaster, Philadelphia, Pa. 19104," with remittance to cover the cost which is 12c per envelope. Only the 6 1/4-inch standard size will be serviced. Orders must be postmarked no later than Dec. 5.

Orders for the airmail envelope should be addressed to "Airmail Envelope, Postmaster, Memphis, Tenn. 38101," with remittance to cover the cost, which is 15c per envelope. Only the 6 1/4-inch standard size envelope will be serviced. Orders must be postmarked no later than Dec. 1.

Although the envelopes will be placed on sale on the dates indicated, the Postal Service emphasized that they will not be available in most post offices until the end of the year. Also, they will not be available from the Philatelic Sales Unit in Washington until after the first of the year.

The envelopes are among a number of items to be issued over the next two months to be ready for proposed rate increases.

Farm Page

4-H CLUB NEWS

Henry Harnly lost several thousand dollars the night of Nov. 5. He came by my office the following day and asked me to help him find it. Actually I didn't have any sympathy for him but he made a suggestion that I will act on now.

Henry failed to show up at our Income Tax Seminar and thus missed out on some of the finest income tax management tips that has been handed out in recent years. This is why I didn't have any sympathy for him. We did have between 50 and 60 key leaders. We had the people out that are progressive farmers. So I don't feel sorry for you guys that stayed home by the TV bulb.

Dr. Mike Spratt, Texas A&M Extension Service, did his usual great job of giving farmers and ranchers some of the finest income tax advice one could get. Besides that we had coffee and donuts, compliments of Art Aftergut, and door prizes in cash by Joe Wheeley, Production Credit Association representative. Jack Skelly also provided some door prizes and free literature.

Henry suggested I devote this column on income tax savings tips. If it was only Henry that would benefit, I wouldn't comply because he missed his chance. So here goes. Don't take anything too seriously without conferring with your tax accountant.

PAY YOUR CHILDREN WAGES

A fairly recent change in income tax provides for a low income allowance. It must be legitimate — but each of your children could earn slightly

TFU Meet At Waco

Fred Vanderburg, Jr., of Pampa, Tex., will participate Nov. 12 and 13 in a Waco meeting to prepare a rough policy draft for consideration by delegates attending the 70th Annual Convention of Texas Farmers Union.

The farm organization's annual convention will be held at the Ko Ko Palace Convention Center in Lubbock, Tex. on Dec. 7 and 8. At that time, the rough policy draft will be given thorough consideration by delegates representing all chartered county organizations.

The Program Drafting Committee on which Vanderburg serves is charged with the responsibility of compiling, classifying and organizing the resolutions which have been received by the TFU state office from annual meetings held by county organizations during the fall months.

Vanderburg and wife, Sandy, have 3 children and are active farmers and ranchers. He produces wheat, sorghum and soybeans in addition to cattle. Vanderburg is a member of the Groom Wheat Growers Coop. The Vanderburg family are members of the First Baptist Church of Pampa.

West Texas Professor Sees Inadequate Fuel

AMARILLO — The current fuel crisis may not be near an immediate solution, a West Texas State University agriculturist says, so farmers can expect to be without adequate fuel this fall and winter.

"If allocations are to be with us," says Dr. Jimmie L. Green, chairman of the plant science department, "the problems the farmer will encounter will be the problems of differing requirements in different years."

Green adds: "For instance, last year was wet during the fall, so some farmers in the Texas Panhandle did not use diesel fuel."

"This year the allocation system the government is trying to introduce would mean those same farmers would get no fuel. That is obviously a bad situation."

There has been speculation the farmer might have to purchase at one time all the fuel he wants for a given year.

"So far as the individual farmer is concerned it would work, until we have a wet year when the fuel usage goes down, then there would be problems," Green says. "Of course, the individual farmer would have a tremendous storage problem."

With changes in fuel

over \$2,000 for wages and not pay any tax. You could still claim them as a dependent.

Let's say you are in a 40 percent tax bracket and you do not pay the wages but add \$2,000 extra to your income. This would cost you \$800 in taxes. Why not let the children earn the money and use it to help pay their way through college rather than you running it all through your bank account.

Also, check into transferring income producing assets to your children.

RUN A 1973 ESTIMATE OF INCOME TODAY

Then you will know whether you should delay the sale of commodities or sell before Jan. 1, 1974.

LEVEL YOUR INCOME Considerably less taxes will be paid over a ten-year period if you will avoid high levels of income one year and losses or low income the next. Use the three-year averaging as provided by the IRS if you have unavoidable high income for 1973.

KEEP GOOD RECORDS

This will give you a quick reference for making your decision.

PLAN PERSONAL DEDUCTIONS

Many personal deductions for 1973 and the coming 1974 year can be concentrated into 1973 such as two years of taxes, two years of contributions. Make out the long form for 1973. Then use the standard deduction for 1974 since you won't have as many deductions.

USE OF FAST DEPRECIATION AND INVESTMENT CREDIT

Would you give \$12,320.00 for a new John Deere, 4630 Tractor (loaded)?

Would you believe this was my part on the program last Monday night. We had CPA's and a host of tax men there that confirmed our method. This was done by assuming the purchase cost was \$16,000.00. Investment credit immediately lowers the cost of the tractor by \$1,280.00. First year 20 per cent depreciation for a person in a 40 per cent bracket would lower this farmer's net profit by \$3,200.00 and save \$1,280.00 in taxes.

Double declining balance method or a fast write off would create another \$3,200.00 worth of depreciation. This would save another \$1,280.00 of taxes, making a total savings of \$3,680.00. This would lower the cost of the above tractor to only \$12,320.00.

After I got through with all the above at the meeting, one farmer said, "Where can you buy a 4630 at any price?" He had a good question.

So you see you guys that stayed by the TV bulb really missed out on a good meeting.

Seriously, many farmers and ranchers are realizing there is much more to be made in the proper management of their business than by pushing up the production another 300 pounds per acre.

By AUDETTE VAUGHN

The 4-Hers would like to express their appreciation to the B&B Packing House for allowing them to observe a beef being cut into various meat cuts on Friday, November 9. We feel very fortunate that we were able to observe this process on the day school was dismissed.

There will be a meeting at 7 p.m., Thursday, Nov. 5 in the courthouse annex concerning how the costs of preparing family meals can be reduced.

The extension service is sponsoring a poster and theme contest for the school age 9-12 or 3rd, 4th, 5th and 6th grades (children who were involved in the "Mulligan Stew" series). The students may enter one or both contests.

Students should emphasize the nutrition knowledge that impresses them the most in the theme and poster. Judging will be based on subject matter, creativity, and neatness.

The theme should be approximately 100 words long and it would be preferred that the posters are made on poster size paper. However, there could be difficulty in all school-age children being able to acquire poster paper, so even typing paper will be accepted.

Winners will be announced at the Dec. 1 Food Show Fair. Prizes for the 1st, 2nd, and 3rd winners will receive \$5, \$3, and \$2 respectively.

The cable TV has also suggested that the 4-Hers share what they have learned with other boys and girls by giving demonstrations or knowledge that has been previously studied in the food classes.

We would like to meet with the food leaders and junior leaders at 6:30 for a planning session for the TV series and December food show.

The 4-H leaders are doing an exceptionally fine job and this was demonstrated at the Gold Star Banquet in Lefors. This was the first year that the program was held in Lefors and Mrs. V.C. Webb and other key leaders worked with the 4-Hers and decorated with the 4-H theme "4-H Gets It All Together."

Mrs. Ted Atwood and the Top o' Texas 4-H club were responsible for the program. Mrs. Andy Smith and the Horse Club provided refreshments with the Don Morrisons and The Sundowners being responsible for the clean-up committee. These leaders are very outstanding in the community and they have worked unselfishly with the 4-Hers for many years.

Mr. and Mrs. Ted Atwood have been leaders for 14 years. Mrs. V.C. Webb 6 years, Mr. and Mrs. Andy Smith 3 years and Don Morrison is presently chairman of the district adult leaders association for 4-H.

These are just a few of the adults who are giving of their time and efforts to the building of better boys and girls.

MORMON GROWTH SALT LAKE CITY (UPI) — The Mormon Church, with 3.2 million members, reported in 1973 that its growth rate for the previous year was 3.9 per cent, saying it "was well above the growth rate of most churches."

Panhandle Water

By FELIX W. RYALS
Today's column carries a further portion of a booklet "Famine In Your Future," by Russell Bean of Lubbock, Tex. Mr. Bean is a Director of Water, Inc., and a former member of the Board of Directors of the High Plains Water District. He has long been a businessman — farmer of the Lubbock area. Bean is a keen student of history and has an avid interest in the economy of our time.

Last week's column ended with a discussion of the pet theory of some that the food problems of the world could be solved by "farming the seas." Seafood according to Bean is a "supplementary item of human diet." The report continues:

"This misconception about diet was illustrated in a recent periodical which featured stories about the first Thanksgiving. Here were these Pilgrims about to plant the first crop in 1621. Around them were woods teeming with deer and turkey, and waters replete with lobsters, clams and fish, but the colony faced starvation. It doesn't seem to add up until we remember that "food" and "calories" meant about the same thing to these people. And when the pea crop failed (they were heavy consumers of split peas, a good source of calories and an adequate source of protein), there was near-panic.

But Squanto, the Indian who had picked up a little English from exploration groups, showed the colonists how to plant corn, with a fish buried under each hill, to fertilize the thin New England soil. The corn thrived, the colony had food, and while the turkey gets top billing at Thanksgiving, it was the corn which saved the day.

The so-called Green Revolution deserves sympathetic recognition as a dynamic approach to world food production. Primarily, it deals with rice breeding in the Orient and wheat breeding in Mexico, but the concept goes farther in trying to present plant breeding and intelligent farming as avenues to well-being.

There have been some

encouraging successes but a worldwide prejudice against anything relating to "rural" or "agriculture" limits progress in this field. From the way most people act, even in the United States, you might conclude that civilization started in the city and is spreading with difficulty into the countryside.

Yet, it was the invention of farming a mere 10,000 years ago which allowed Man to come out of that cave, build a village and eventually to increase the world's population 350 fold, from the 10 million grudgingly allowed to subsist as nomadic food gatherers by nature — in the raw to the 3.5 billion living on earth today.

Builders and technicians may crowd 100,000 people into an apartment building on a city block, but it still takes about 100,000 acres of farmland to keep this bunch of citizens fed and ready to protest about food prices. Yet with the quality of information made available to them, who can blame them for their misunderstanding.

For instance, you can get some interesting answers if you pose this question to any gathering of people, regardless of background and education:

"If it were possible to turn all farmlands, worldwide, back to meadows, worldwide, and pastures, and hunting, fishing and food gathering returned as the sources of food as they were thousands of years ago, would world population be able to increase, could it remain stable, or would it have to decrease? If the last, by how much?"

After all, this is just about the type of world our back-to-nature people seem to want.

The answers probably will be wildly unrealistic. In one group, the best guess was that world population, might have to decrease a bit, say by 10 per cent. Yet it should be fairly obvious that population would have to decrease by a ratio of about 350 to one, say 99.8 per cent, back to the 10 million supported by the primitive wilderness.

This may seem to be incredible but the facts aren't

hard to check in a rough way. For instance, North America, above the Rio Grande, is estimated to have supported

600,000 people in various stages of starvation and well-being in 1492, and maybe half of these people survived by virtue of the

introduction of corn farming from Mexico. Remember what Squanto showed the Pilgrims?

Youth Center Report

Swim Lessons
The Pampa Youth Center's swim schedule is listed below. Lessons are given the year round at the Center because the pool is indoors and heated.

During the school year classes are scheduled from 4-5 and 5-6 p.m. Each class lasts for 10 meeting dates meeting on Monday, Wednesday, Thursday and Friday.
Classes are open to the general public and to Center members. The cost to non-members is \$4 per class, but is free to Center members. Memberships are always available at the front desk at a very nominal charge. Classes are taught by our resident water safety instructor, Mrs. Ruth Carter.

Nov. 5-21

Basketball League

Although the 1973-74 pre-season basketball tournament is starting Monday, there is still time to enter the league. Entry fees are now being accepted and up until Nov. 19 at 10 p.m.

Only the first twelve teams to pay their entry fees will be accepted. Our schedule will only allow 12 teams.

Entry fee is \$137, which includes the total cost for officials. In addition each player must either be a Center member or pay a team playing fee of 50 cents each night he plays. A six-month individual membership is only \$5.

All entry fees must be mailed to Pampa Youth and Community Center, P.O. Box 1164, Pampa, Texas 79065 or brought by the front desk where you will receive a receipt.

Schedules will be drawn up Wednesday, Nov. 21, at 12 noon. For any further information, please contact Director Smith at the Center.

Women's Exercise Class

The Center's exercise and swim program for women will change a little in time and days beginning Monday, Nov. 12. The exercise class will run from 9:30 to 10:30 a.m. and swimming from 10:30 to 11:30 a.m. only on Monday and Fridays. No classes will be given on Wednesdays until the spring.

All women are invited to come out and participate in this precision exercise class led by Mrs. Sally White.

Health Club

The Youth Center has a health spa facility for both men and women. This building is located east of the swimming pool area and houses an exercise room containing all the exercise equipment, two racquetball or handball courts, dressing room, individual showers and a sauna.

Women's hours are from 9-11:45 Monday through Saturday mornings and also from 7-10 p.m. Tuesday and Thursday nights. We have all the latest exercise machines for the women and also for the men.

For the women we have the motorized bicycles, manual bicycles, sit-up boards, vibrator belts, barrel rollers, facial machine, beauty bars, rowing machine, sunlamp, beauty bells and many others that help trim and help you lose inches and pounds.

Additional equipment for the men include barbells, dumbbells, jungle pulley machine, thigh curl machine, leg press machine, multiple press machine, exercow, boxing bag and other various pieces.

Contrary to the rumor, the Center does have a complete program separately for women and men. Cost of the program is only an average of 39 cents per visit on a normal month calendar. You may use the facilities all hours every day we are open. Come by and let us explain how you can join this beautiful program.

Participation

The Youth Center is a non-profit organization which derives its operational revenue from dues, donations and extra activities. The Center is a private corporation and does not cost the tax payers of Pampa a cent. This is hard to believe comparing the programs the Center offers.

To participate in the activities we have a membership plan for individuals and families. The regular membership which we have sold for 13 years allows you full use of everything except the health club. This sells for an individual for \$5 for six months or \$8 a year. For a family the cost is only \$12 for six months or \$20 a year.

The unlimited membership which includes the health club costs \$65 for six months for an individual or \$90 for a husband-wife combination membership. You may pay this out on a six-

payment installment plan. We do allow you your first visit free of charge without any obligation to let yourself become acquainted with the program. Drop by and try it out on us.

SCHEDULE

November 12-18
Monday

Court Docket

Two men pleaded guilty to DWI and another to driving with license suspended in Gray County Court Thursday.

Pleading guilty to DWI were Bobby Gene Stowers, Sayre, Okla., and William R. Cullison, Jr., McLean.

Both men were fined \$100 and costs, sentenced to 10 days in county jail and placed on six months probation.

Dale Junior Smotherman, Pampa, pleaded guilty to DWLS and was fined \$1 and costs.

Court didn't ban executions

Capital punishment is alive and well

By Tom Tiede

RALEIGH, N.C. — (NEA) — Sam A. Poole represents something out of America's recent past. A middle-aged black man, he was arrested last year and charged with entering a home with intent to rob and rape. A jury found him guilty. Today, though he protests his innocence, though no rape took place and Poole was convicted merely of intent, he sits in this state's death row waiting to be executed by electricity.

And he is not alone. Although the U.S. Supreme Court ruled more than a year ago that capital punishment, as it had been imposed, is illegal under the Constitution, some 29 men and women currently are awaiting death in the nation — 11 of them, including Sam Poole, right here in North Carolina.

The American death penalty is far from being dead.

The Supreme Court did not say that executing felons was unconstitutional. Only that the laws of execution were illegal because they were unevenly imposed. Thus proponents of capital punishment have rallied in many states to change the laws to satisfy the courts and get back to the routine business of electrocuting, gassing or hanging the bad guys.

North Carolina is one of 20 states which have enacted

new legislation toward this end. Deciding that the chief objection of the Supreme Court was that the death penalty was "freakishly used," that is to say discretionary, thus cruel and unusual, North Carolina decided to make the penalty mandatory for murder 1, arson, rape and burglary 1. Thus Poole, not having killed anyone, was trapped by the mandatory sentence, and could conceivably die because a jury thought he "wanted" to rape.

Other states have passed somewhat narrower death laws. Idaho has instituted automatic capital punishment for various kinds of murder only. Florida permits execution for rape, but only when the victim is 11 years old or under. California has recently made the death penalty mandatory for 11 types of murder, including killers of police officers and train saboteurs. Connecticut laws permit the death sentence for narcotics pushers who sell their goods to people who die from the drug use.

Yet however framed the laws, their sudden proliferation is arousing anew the historic antagonists of the death penalty controversy. Those who thought the question was settled by the 1972 Supreme Court ruling are back to the barricades. No one has been executed in the nation since 1967, but now

there is a growing possibility the punishment will be administered again (not to the 631 people on death row prior to the court decision, however; their penalties have or are expected to be modified) and forces are regrouping on both sides of the issue.

Public opinion, apparently, is siding with the new death penalties. A Gallup Poll taken last year indicated 57 per cent of the people queried favored reinstatement. President Nixon and other politicians have called for executions in certain circumstances. Proponents point to the fact that if U.S. capital punishment is cruel and unusual, as the Eighth Amendment prohibits, three fourths of the world's nations, those that have some form of death penalty, are equally barbaric.

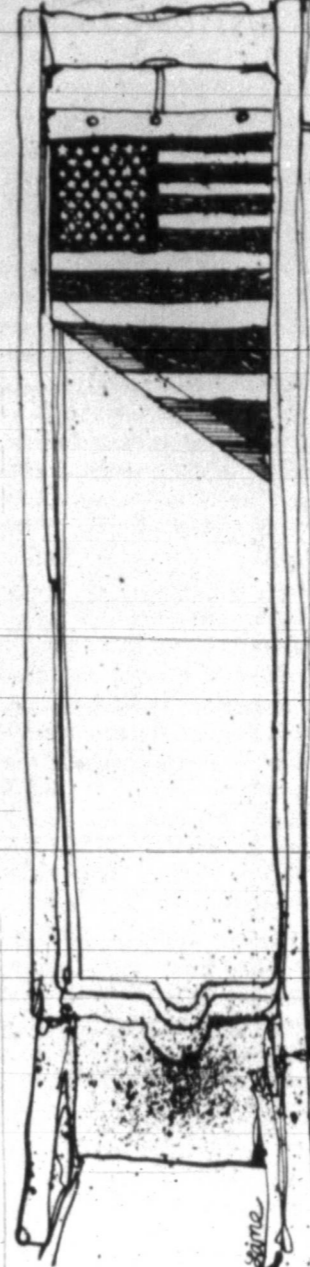

Besides the commonness of the penalty, proponents believe that street crime in America is such now that something must be done. Milton Rector, director of the National Council on Crime and Delinquency, says people are searching for "any answer to cut the crime rate." And that rate, assuredly, is staggering: last year's 18,520 known U.S. murders were 5 per cent over 1971 and rape in this country has increased 70 per cent since 1967.

"I know it's an old argument," says one prison superintendent, "but I still believe that if a man is risking the gas chamber, he'll think twice before he shoots his wife."

Opponents naturally insist otherwise. David Kendall, of the NAACP Legal Defense Fund, a group that has fought capital punishment since 1965 (primarily because in the last 43 years 52 per cent of all murder executions and 90 per cent of all rape executions involved blacks), says that public opinion has nothing to do with it. "The Bill of Rights was written to put some things beyond the reach of shifting majorities. If we relied on merely public opinion, why, we might not even have newspapers."

As for cutting crime and the deterrence factor, Kendall says such hopes are illusory. How, he asks, can the crime rate be reduced by capital punishment when since 1930, out of some 400,000 murder convictions, only 334 people were executed? Criminals can read figures too.

And deterrence? Kendall tells of the San Quentin inmate who helped to install the gas chamber there and then killed three people when

he was released from prison. He might also tell of the Ohio State Penitentiary inmate who designed improvements on that institution's electric chair, then was paroled, then was arrested for murder and eventually died in the same chair he helped maintain and engineer.

And so the old argument is resurrected. None of it, perhaps, applying to the case of Sam A. Poole of North Carolina. He sits here waiting to die for a rape that didn't take place. It's highly ironic, and more than frightening, that he is in this predicament because the highest court in the land tried once to protect him as an American from cruel and unusual punishment.

(NEWSPAPER ENTERPRISE ASSN.)

'SAVE THE CHILDREN' Christmas Spirit Doesn't Die With Holiday's End

Christmas need not be just one red-letter day on the December calendar.

The spirit of Christmas can live throughout all the months of the year for those who open their hearts to the needy children of the world by sending a holiday gift card from Save the Children Federation.

Children throughout the world, many of whom may never have heard of Christmas, will thus share the joy and hope of this holiday season.

The Save the Children Federation card spells "Merry Christmas" in 11 languages on its cover. Inside, the recipient learns that either a sponsorship has been taken out in his name, or that a contribution has been made to SCF in his behalf.

The holiday message the card bears is: "May this gift bring happiness to you at this joyous season as it will throughout the year to those children helped by our Federation Family."

A minimum donation of one dollar per name will enable a donor to send a contribution card, announcing that a gift has

been made in the name of the recipient to SCF's general self-help fund. These monies will be used to help villagers in developing communities around the world to raise their standard of living and work toward a lasting prosperity.

For a contribution of \$180 (which may be paid quarterly, semi-annually or annually), a sponsorship card may be obtained. The donor may select a child in Appalachia, in the Inner Cities, on American Indian reservations, or in any one of 14 countries overseas.

Christmas 1973 can be the most exciting and memorable ever if you take advantage of the opportunity of sending these meaningful SCF cards to relatives and friends. They may be ordered from: HOLIDAY GREETINGS, Save the Children Federation, Norwalk, Connecticut 06852.

Attention to two rules will insure a successful cheese dish: use low heat, and do not overcook. When cheese is melted, it is cooked.

LOSE A POUND A DAY AND MORE New Vitamin 'E' Diet Gives Fast Weight Loss

LOS ANGELES (Special) — New scientific discoveries have now produced a Vitamin E diet that quickly works wonders on overweight people, and reportedly is gaining great popularity across the country with glowing reports of easy weight loss "while still eating almost as much as you want."

Those who follow the simple Vitamin E diet report an average loss of at least a pound a day and even more without exercise or starvation. Nutritionists files are bulging with happy testimonials from formerly overweight people who are now trim and slim again. Best of all, you can still eat almost as much as you want of the "forbidden foods" like steak, chicken, fish, sauces, gravies, bacon and eggs and still lose weight.

Cheatable (candy-like) vitamin E tablets, as used in the diet plan, contain a new scientific combination of ingredients that quickly curbs and controls the appetite, while also giving the wondrous benefits of Vitamin E which is so essential to good health.

The use of the new Vitamin E Diet tablets and foods prescribed in the plan will, through natural action, act to help your body use up excess fat. According to recent clinical tests, a person who is deficient in Vitamin E or Protein "will double the speed of fat utilization" with the use of Vitamin E.

E-DIET AVAILABLE

To get a copy of this highly successful diet and E Tablets, send \$5.00 for 10 day supply (or \$7.00 for 20 day supply or \$10.00 for 30 day supply) to: Diet-E, 309 N. Kings Rd., Los Angeles, CA. 90048 money-back guarantee (not satisfied). In Calif. add 5% tax.

PUBLIC NOTICE

B&B Pharmacy is reducing stock in certain categories of merchandise. Reason? We are dedicating our efforts to more efficient methods of serving the general patient. Health care, welfare, and patient aids to medicare recipients. We are presently remodeling our store along these lines. To do this we must dispose of thousands of dollars in merchandise - cosmetics - watches - pipes - billfolds - radios - clocks - electric razors - hair dryers - hot combs - gift merchandise. Many, many more items which no longer will be a part of our operation. Therefore we are offering these products at amazing discount prices of 20% to 50% or more off regular price. These products must be sold prior to December 31, 1973. Most of this merchandise was purchased at gift shows in June and July prior to our decision to eliminate our fountain area which will be converted to Hospital and patient aid supplies. New merchandise arrives daily and will be displayed immediately - we advise several visits at various intervals to shop new values. Existing stocks will not be replenished.

LATE ARRIVALS

- \$15.95 Sanyo Hair Dryer \$8.49
- \$24.95 Sanyo Clock Radio \$15.95
- \$19.95 Sanyo Pop-up Toaster \$10.49
- Kay Woodie and Medico pipes all 50% Off
- \$19.95 Schick Super 500 Styling Dryer .. \$14.32
- \$19.95 Schick Hot Lather Machine \$12.95
- \$12.00 Ladies Fashion Bags \$2.95
- Hai Karate and Roman Brio One-Third Off
- Revlon and Dorothy Gray Below Cost
- Cigars 2 for the price of One (while they last)
- Reg. \$2.39 Sylvania Magicubes \$1.39

We have segregated this merchandise (Shopper's Cove) for your shopping pleasure. Buy now at fantastic savings for Christmas, birthdays, Mother's Day, graduation, etc. All sales cash, final, no exchanges, no refunds. NO DEALERS PLEASE. SELLING HOURS 8:30 a.m. to 5:30 p.m.

We are Retaining the Following Lines of Cosmetics - Frances Denny, Vita-Bath, Bonne Bell, Allercrème & Nina Ricci.

The Pampa Daily News

A Watchful Newspaper

EVER STRIVING FOR THE TOP O' TEXAS
TO BE AN EVEN BETTER PLACE TO LIVE

Our Capsule Policy

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces can he develop to his utmost capability.

The News believes each and every person would get more satisfaction in the long run if he were permitted to spend what he earns on a volunteer basis rather than having part of it distributed involuntarily.

Losing While Winning

By and large, even the thirdest people in this country do not save money. What they actually do is buy savings. Before you accuse us of playing with words, hear the rest of the story. It may clear up some of the puzzling things that you hear and read. Look at the subject this way, if you put your money in the bank or in a savings and loan, those firms lend it to someone who spends it. In other words, the savings weren't really "saved," but to the contrary were used. In the same manner, if a person buys corporate bonds, he has made a loan to a corporation, and the corporation uses the funds — customarily for tools or property. If a person buys stock in a company, he is pooling his money with others so that his portion may be spent in what he hopes will be an effective package for productive equipment. In both instances, the money was not saved, it was spent and used. We believed the foregoing sheds a little light on the nature of "savings." But we want to go two steps further. To get there quickly, we'll start off with two questions. First, where do savings come from? Second, what happens when savings decline?

As to the first question, we won't try to give a complete answer, but we will say only this — a part of savings comes from profits. As was shown before, these profits really can't be "saved," instead they are deposited or re-invested for re-use. They are re-cycled into new equipment or property and in the process they create new jobs for more people. If the funds are spent for automation, as happens not infrequently, the first thought is that such spending puts people out of work. In specific instances that is true, but in the broad overall sense somebody has to be hired to make the automation

What's in a (Misleading) Name?

You'd think that a series of events of such drama and magnitude as those which took place in the United States between 1861 and 1865 would have a commonly accepted name. In the North it's the "Civil War" and in the South the "War Between the States." Actually, neither one is accurate but reflects the philosophy of those who prefer it. Notes Strategy & Tactics, a magazine of war gaming or conflict simulation. The northern name is a poor one, it says, because a civil war is a struggle for control of the body politic. The South did not want to control the Union; it wanted to leave it. The southern name, on the other hand, is also poor. Aside from being bad grammatically, it implies that the states have a sovereign existence. The war was really a struggle between a group of southern states and a centralized Union. Other names which once enjoyed more or less popularity but which are now oddities are "Mr. Lincoln's War," the "War to Suppress Yankee Arrogance," the "War for Southern Independence" (which it was) and the "War of the Slaveholders' Rebellion" (which it was).

DUNAGIN'S PEOPLE

"AT LEAST I CAN COUNT ON ONE OLD FRIEND NOT TO DO ANYTHING TO EMBARRASS ME...
UH-OH. WHERE DID YOU GET THAT NEWSPAPER?"

Novelist Cites Price Of Morality

By TAYLOR CALDWELL

As you know, I am a novelist and I have had constant high best-sellers. But no movie sales. Why? Because I was a fool. I did not write pornographic novels nor novels denouncing the American way of life and American ideals. I did not try to corrupt the young, nor did I exalt the "drug culture" and crime. Though my novels lead the best-seller lists the Communists in control of our public media sneered at them and wrote my movie agent: "Don't show us any of her opuses." The movie editors not only rejected my books but wrote vehemently against them. It seems that I am not part of the "Liberal"/"Socialist"/"Communist Conspiracy," and that is unparadigmatic. Maybe they are right. What shall I do now to make a movie sale — dishonor and betray my country? I note that Jane Fonda, consorting with Communists and traitors, receives a wonderful press and plays in lucrative movies... and the American people rush joyfully to pay to see her. Maybe Jane, too, is wiser than I.

We could put the Communist media, and people like Jane Fonda, out of business in twenty-four hours if we would refuse to go to their movies and plays and refuse to buy anything they advertise on radio and TV. But we don't. We slavishly admire them, and support them, not only by buying their products but by buying tickets to see them prance and denounce and obscenely expose themselves. The masses of Americans don't patronize good movies. But they flock to see filthy ones. They don't buy good books. They buy the latest pornography. These are those for whom imbeciles like you and me have labored in the night!

A few hundred thousand letters to the broadcasting companies, denouncing that insufferable Walter Cronkite, for instance, would take him off the air at once. A total boycott of degenerate movies would put them out of business in a week. A refusal to acknowledge that there is such a thing as a "youth-drug culture" would stop it immediately and clap the criminal drug-offenders in the jails. But who will do such things? The masses love evil too much, and rejoice in it. For the simple reason that they are part of it, in all its manifestations. Yet to oppose the popular will leads only to disaster, as I can testify from personal experience. Even the noble men who gave their all during the American Revolution ended in bankruptcy, suicide, and starvation. It was all, I must admit, that they deserved. Who wants heroes and saviors? Who wants degenerates and traitors and liars? They are honored today, as always they have been honored, throughout history.

Look at our schools if you can bear it. Real men like Merrill Root and Max Rafferty and thousands of others have warned us of the corruption being taught our children in the public schools, and in many of our parochial schools, too. But the Mommies and Daddy-Os adore such corruption and are all for the vile "sex education" and fun times. Do parents ever loudly protest at the degradation of their children? Some few do, and wherever possible they are laughed out of committees and school meetings. The majority don't even object to the wickedness taught in our colleges. They say it is "progress" and that "these are new times, with new values." If only a few hundred thousand parents removed their children from the schools and defied the courts' orders to return them, what could the courts do? Jail these decent parents throughout the land? There wouldn't be enough jails to take them!

But they don't protest. They watch the debauching of their children with complacency, and then wait that they didn't know where they went wrong when their children become drug addicts, sexually sick, and criminal.

Paul Scott is one of America's most fearless, patriotic columnists. His sources are excellent and trustworthy. Here is what Scott reported recently about our continuing sell-out and surrender to the Soviet tyranny:

Three More Years?

TOM ANDERSON

An interesting if not completely reliable Washington source has confided the following to me: Nelson was so sure he was going to be Nixon's choice as Vice President that Rockefeller was already feeling out people about being in his cabinet. Nixon was afraid he'd be shot if Rockefeller was his Vice President, so he double-crossed Nelson. Now Rocky is out to get Nixon. In fact, he kept Nixon from getting the Pulitzer prize, which he was scheduled to get. According to my informant the Rockefeller has the Pulitzer operation, as well as the world, in their own little hot hands. Also Henry Kissinger.

The campaign is on, so the source went on, to drive Nixon to suicide or to a mental institution. And there are many inhabitants of the latter estate who would not have dreamed of defying Congress, press networks, and public opinion and refusing to give up the Watergate tapes, while dumping Cox, Ruckelshaus and Richardson.

Incidentally, in case you don't run with the international set and the conspirators who are trying to run the world, the source claims that the Rockefeller and Rothschilds are now engaged in an all-out struggle to determine which aggregation has the inside track in their contest to milk the world. The source also claims that a Wallace Watergate is in the offing and that certain Wallace people are in deep trouble with I.R.S. Also, he says that George Wallace has bought a home in Key West, Florida, and will not be a candidate for President on anybody's ticket.

PLAYBOY
A full-page newspaper advertisement entitled "The Score" says "Playboy" magazine has 15,075,000 male readers. And it might be true. "Playboy" is the worst thing that has happened to this country since Eleanor Roosevelt.

GRAVY TRAIN
Get involved in politics! Just think what it could mean to you: U.S. Senator Hiram L. Fong of Hawaii and his family get almost \$200,000 in salaries, expenses and fringes from we-the-taxpayers. Fong was elected to do good; actually he's doing well. Had enough?

PAUL SCOTT SAYS
Full many a gem of purest ray serene,
The dark, unfathomed caves of ocean bear;
Full many a flower is born to blush unseen,
And waste its sweetness on the desert air.
Thomas Gray

Tom Anderson

U.S. OIL RESERVE
"Notwithstanding the fact that we have a 300-year reserve of oil and liquid gas in this country, the ecology nuts and the Nixon Administration want us to be dependent on Siberian-oil and liquid gas. The Russians have asked Mr. Kissinger to furnish the money and the technology to develop the Siberian oil and liquid gas deposits in North West and North East Siberia. In the meantime Russia is devoting her money and man-power to build the greatest war machine the world has ever known. —Red China has made the same request to Mr. Kissinger and this amounts to double jeopardy, or a form of Russian-Chinese roulette.

SOVIET PREDOMINANCE
There are two contradictory trends in Germany and Eastern Europe. Although the U.S.S.R. has tied up this area with extremely potent trade deals, and German Chancellor Willy Brandt is a long-time Communist and the Kremlin has a firm understanding with the Nixon regime that the U.S.A. will support Soviet predominance over Eastern Europe, Red China may upset the apple-cart. It is to the interest of mainland China to create as much trouble for the Soviets as possible on its western border, and she is going all-out to subvert Soviet rule in this area. However, we cannot rule-out the possibility of a Russian-Chinese alliance when the Communist chips are high enough to justify the about-face.

WORLD ALMANAC FACTS
The boomerang is a sickle-shaped throwing stick with arms slightly curved in opposite directions as in an aircraft propeller. The only returning wooden boomerangs are used by Australian aborigines for sport. The World Almanac notes. Larger, less angled, nonreturning boomerangs have been used as hunting weapons in other areas of the world.

Even when people have memory problems in later years, there is some evidence that memory training techniques will help some. I'd suggest that you look in your local bookstore for some ordinary books on memory training and try some of their suggested techniques. You can train the memory, at least within limits. It might even be fun to try it.

Tex DeWeese

Rearview Mirror

Editor Of The News
NOW THAT the Constitutional Amendments election is history, it just naturally follows that postmortems are in order. Three of the nine amendments were "done in" by Texas voters when they went to the polls last Tuesday. If you take a close look at the three rejects it is easily determined they all had something to do with the cost of government. With new governmental spending and new taxes on all sides — the heavy income tax bite — plus the struggle to meet the ordinary cost of living, John Q. Public apparently is fed up with constantly digging down for more and more money when it's all he can do to meet the demands Big Brother already has saddled him with. It's as simple as that. There is a limit to everything and the limit to taxation and government spending on all levels has just about been reached. The addendum to that, of course, is for John Q. to let up on the demand for services he can no longer afford. Buying beyond our means and spending in excess of income is what opens the gate to bankruptcy boulevard, a shoddy, unkempt thoroughfare.

Your Health
Elderly Man's Memory Slips
By Lawrence E. Lamb, M.D.
DEAR DR. LAMB — I am a man past 80 years of age. We just celebrated our 59th wedding anniversary. We even have five great-grandsons. I can shave with a straight razor. My hands are steady. Now the problems. The past six months I have been troubled with dizziness. When I change from the vertical to horizontal, especially when I lie down on my right side, the room turns around with me. The doctor prescribed Antivert pills, but they did not help.

ONE OF THE biggest smacks in the Tuesday balloting was given to Proposal No. 1. That was the effort to increase the pay of state legislators from \$4,800 a year to \$15,000 a year. The average voter, held to a government restricted 5.5 percent increase in his own salary, just didn't cotton to giving the public servants he sends down to Austin a better than 300 percent pay hike. When you back off and look at it, the refusal is understandable. Maybe \$4,800 isn't enough annual salary for a state legislator who does nothing else to make a living. But, actually he works on the legislative job only four months every two years. A great deal of lawmakers' time when the Legislature is not in session is spent in mending political fences, speech-making and politicking for the next election. When you add the legislator's yearly salary for the biennium it amounts to \$9,600 and that ain't hay when you figure it as pin-money picked up aside from whatever he's making on a regular job out there with the rest of us.

THERE ARE those who still are trying to figure out whether voters turned down Amendment No. 1 because it proposed annual sessions of the Legislature or whether it was because of the 300 percent leap on the salary scale. Some believe the salary proposal would have carried had it been on the ballot by itself. There are great big doubts about that. Maybe the legislators are worth \$15,000 a year and maybe it would entice more candidates from which to pick. But, like we said awhile ago — people are getting pretty well fed up with increasing costs of

CITY MANAGER Mack Wofford's plan for a series of department head meetings to drum up a "cooperative team effort" at City Hall sounds like an excellent objective. The City Hall Cat sticks his nose into the proposal and tells us it won't work unless everybody chips in. If just one continues to be out of step it will wreck the whole project. All the gears must mesh if the machine is to run smoothly.

SOTTO VOCE: Drive slowly, turn down the thermostat, turn up your coat collar, shut off the lights and have fun!

Consumer Making Progress Towards Quality In Products

DALLAS — With a law such as the Consumer Product Safety Act, the American consumer is making progress towards obtaining what it wants most — quality in products and services, adequate information, protection against questionable products and marketing practices that will increase the quality of life.

Mrs. Erma Angevine, executive director of the Consumer Federation of America (CFA), made that statement in keynoting a seminar on "Consumerism and the Product Hazard" here recently.

The seminar was co-sponsored by the American Society of Insurance Management, its Dallas - Ft. Worth Chapter and the

Insurance Information Institute.

"We'll accomplish more of what we're after if we can get businessmen to reexamine their social roles," Mrs. Angevine added.

Quoting Edward Rush, president of the U.S. Chamber of Commerce and of State Farm Insurance Companies, Mrs. Angevine opened her address to the assembled insurance executives, corporate risk managers and insurance agents by saying, "The quality of business' products and services is a social responsibility with social implications far beyond profit and loss."

With that as her bench mark, the CFA spokeswoman said that traditionally, sellers in the U.S.

economic system hold the balance of power.

Mrs. Angevine warned that now, as the results of a recent Lou Harris poll indicate, the consumer has begun to doubt the credibility of that power.

"Seven years ago, Harris reported 48 per cent of the public said it had a great deal of confidence in business. By 1971, the level of confidence had slipped by half — to 24 per cent."

And, she added, this feeling is much more prevalent in our more affluent sectors of our society according to the Harris poll.

In regards to the new law, Mrs. Angevine pointed out three provisions that provide the consumer an opportunity to be involved in the regulating process.

As she outlined, they are the fact that private groups can offer to develop a product safety standard; any individual can petition for issuance or amendment of a product safety rule and, with limitations, an injured person can get direct redress from manufacturers for injuries if he can show he was injured by a knowing violation of a consumer product safety rule.

Then she called upon insurers and manufacturers to assist in the protection of the American consumer.

"Insurers and manufacturers have a responsibility to produce a product by assessment of the frequency and severity of possible injuries. This data should lead to alternate product designs and thus to reductions in injury. Consumers look to you for that kind of responsibility."

FUNERAL FOR AN OAK
HARTFORD, Conn. (UPI) — Connecticut's giant Charter Oak was a symbol of freedom for almost 200 years. In 1687, the tree served as a shelter for the state's Royal Charter. A violent windstorm toppled the oak, which measured 33 feet in circumference, in 1856. A band played a funeral dirge and a memorial poem was written for the occasion.

The Lighter Side

By DICK WEST
WASHINGTON (UPI) — A couple of months ago I learned that biblical scholars had turned up an ancient Dead Sea scroll that was similar to the Old Testament account of the origin of the Ten Commandments.

The scroll related how a great leader and prophet whose name may be rendered in English as Mozus, or Mozis, had conferred on a mountaintop with an adviser believed to have been God.

The messages that Mozus, or Mozis, received were transcribed on two stone tablets. But he refused to reveal the contents, citing executive privilege.

At the time I first heard of the scroll, not enough had been translated to make clear what happened to the tablets. But now the work has progressed to the point where more information is available.

The scroll indicates that Mozus, or Mozis, became embroiled in a dispute with tribal elders who were demanding that he turn over the tablets to them.

Insist on Right to Know
The elders insisted they had a right to know what God had told Mozus, or Mozis, with respect to other gods, graven images, using the Lord's name in vain, remembering the Sabbath, honoring parents, killing, adultery, stealing, bearing false

witness and coveting a neighbor's wife.

Mozus, or Mozis, his patience sorely tried, finally agreed to give the elders a summary of tablets. He proclaimed his offer a reasonable compromise, but some of the elders were dissatisfied and refused to do his bidding.

Whereupon they were banished into the wilderness. And great was the hue and cry thereafter.

When scribes, some of whom may have been prejudiced against Mozus, or Mozis, revealed these events unto the people, the people became incensed and threatened to overthrow their leader.

Thereupon, the leader, seeing the handwriting on the wall ("Impeach Mozus, or Mozis"), yielded forth the tablets unto the elders.

Portion Rather Indistinct
This portion of the scroll is rather indistinct. The text as pieced together by scholars is so implausible it raises questions of authenticity.

However, the scroll appears to state that when the tablets finally were handed down to the elders, two of the 10 messages supposedly inscribed upon them were not there.

Moreover, they were two of the most important messages. Without them, the elders could not learn what God expected of the people with regard to

adultery and coveting a neighbor's wife.

Were these activities permissible, or not?

Mozus, or Mozis, denied the tablets had been tampered with. He explained that the missing messages had never been inscribed in the first place. There was some sort of technical problem with "the moving finger of God" which wrote upon the tablets.

The rest of the scroll still awaits translation.

COMPLICATIONS
HOLLYWOOD (UPI) — Richard Harris, originally scheduled to tour the United States on a reading-concert appearance, will delay the trek from Oct. 16 to Nov. 7 because of complications on his new movie, "99 and 44-100 per cent Dead."

ON RURAL GOVERNMENT

Cates Commends Group For Attending Meeting

State Representative Phil Cates commended those from Pampa who recently attended the Governor's Conference on Texas Rural Government.

"People in our small towns and rural areas must continue to get involved in the workings of government at every level," Rep. Cates stated.

"I believe in the people of the Texas Panhandle and know that they want good government. We must continue to strive for this kind of positive action. It is of utmost importance to the state and the nation that the people of this district attend conferences

whenever they can so that government will be more responsive to them."

Governor Dolph Briscoe's office released the names of those attending the Texas Rural Government Conference.

Attending the conference from here were Harris Brinson, assistant manager for industrial relations of the Pampa Chamber of Commerce; Gray County Agriculture agent Foster Whaley, and Rep. Cates.

Minas Gerais state in the interior of Brazil provides half the nation's mineral wealth.

PAMPA CONTINUES SKID

Harvesters Fall To Palo Duro Dons

By CLAY LIVELY

PAMPA — Palo Duro methodically ground out yardage in the two touchdowns and scored two more on long passes as the Dons overwhelmed the Pampa Harvesters here Friday, 28-7.

The win made Palo Duro 3-1 for the year and 1-2-1 in district while the loss dropped Pampa to 2-7 for the season and 0-4 in league play.

Palo Duro's first touchdown came in the second quarter with play at 4:48 left on the clock. David Beezley took the ball in from a foot out to cap a 14-play, 76-yard drive. Barry Reynolds kicked the extra point and the Dons led in the game, 7-0.

Pampa came right back following the kickoff to march 55 yards in seven plays and score with 2:02 left in the half. Howie Lewis got six on a nine-yard pass from Chuck Quarles. Joe Watkins made the PAT and the game was all even.

The Harvesters' momentum was short-lived, however. Following the kickoff, the Dons scored their first long TD on the first play of that possession.

Robert Douglas, the Palo Duro quarterback, feinted to his left, stopped short and threw back to his right, catching split end Larry Lipscomb behind the Harvester secondary for a 63-yard touchdown pass. Reynolds' kick was true and the

Dons were in front for good, 14-7.

The 83-yard pass and run play set a record for the Amarillo team. The longest previous such play was a 77-yard touchdown pass made against Tascosa last year.

Palo Duro's third touchdown came in the third period, climaxing a 16-play, 66-yard drive. Douglas scored with 30 seconds left in the quarter on a six-yard keeper to the right.

The kick was good and the score was 21-7, Palo Duro.

Palo Duro's final score came with 3:38 left in the game. Following the recovery of a Pampa fumble at their own seven yard line, the Dons again scored in just one play.

Douglas faked left, turned back and threw across field to his right. Lipscomb outflung Harvester cornerback Steve Mathis for the ball and took it across the goal line for the

93-yard touchdown, eclipsing the record set earlier.

Reynolds kicked the PAT and the scoring in the game ended with Palo Duro on top, 28-7. Don defensive halfback Stanley Stambaugh had a great deal to do with the Palo Duro victory as he stopped three Pampa drives with interceptions before going out of the game in the fourth quarter with an injury.

It was suffered, ironically, while he was playing quarterback for the Dons.

Lewis, the district's leading pass receiver going into the game, proved to be Pampa's main offensive threat as he caught seven passes for 114 yards for the Harvesters.

Rodney Towner was the leading rusher in the game as he carried 10 times for 61 yards for the Dons, all of it coming in the first half.

Tim Thornburg was the leading rusher for Pampa as he carried 11 times for 52 yards.

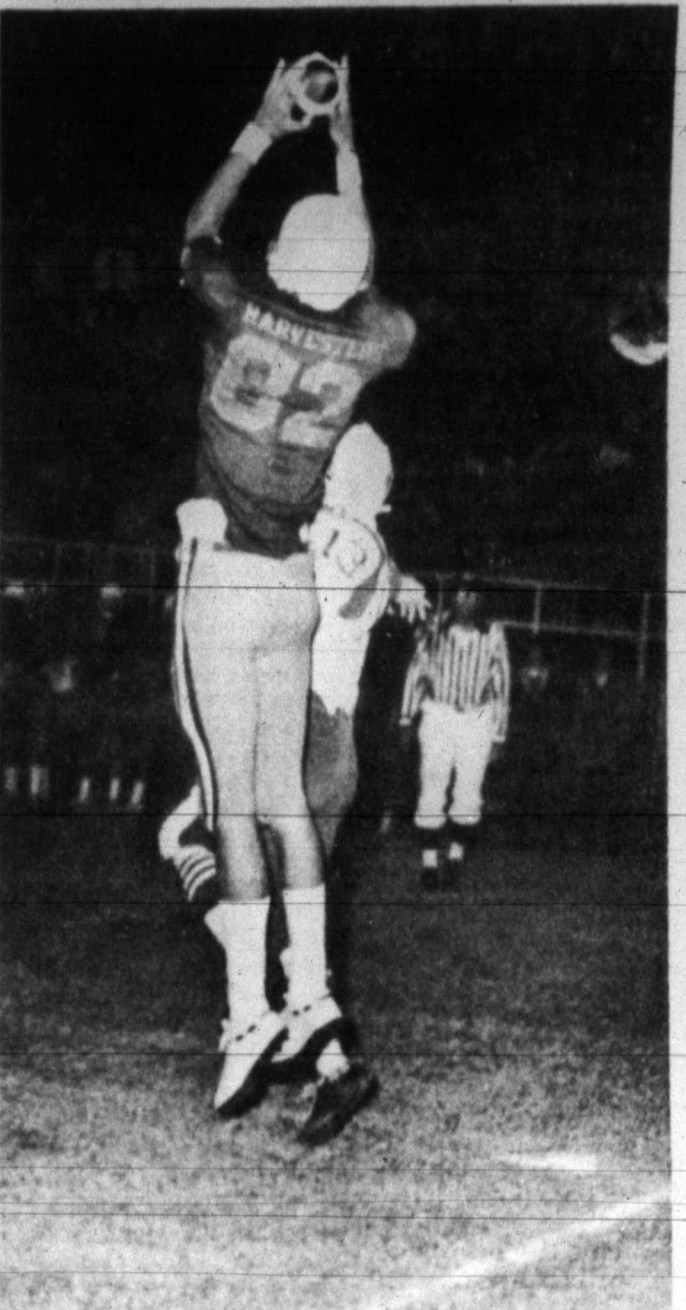

Douglas, who had not been particularly effective passing going into the game, hit on 3 of 8 for 163 yards and the two touchdowns. Pampa's Quarles completed 10 of 25 passes.

The loss was Pampa's 14th against two victories in the rivalry between the Harvesters and the Dons.

Pampa will attempt to better its season mark to 3-7 in the district finale Friday against Amarillo High in Dick Bivins Stadium in Amarillo.

The Harvesters will be hoping to close out their season with a victory while trying to avenge a 10-3 shellacking at the hands of the Sandies at home last year.

Pampa, Texas 67th Year Sunday, Nov. 11, 1973

COSTLY TURNOVER — Pampa lost this fumble to Palo Duro on the Don seven-yard line late in the game Friday in the Harvesters' 28-7 loss — Pampa's seventh against two wins. After PD recovered the loose ball, Don quarterback

Robert Douglas passed to Larry Lipscomb for a 93-yard touchdown on the first play from scrimmage, which put the game out of reach. The scoring strike was a Palo Duro school record. (Photo by Terry Hanna)

NFL ROUNDUP

49er's, Redskins To Scrap Today

By United Press International
It's easy to tell that things aren't going well for the Washington Redskins these days.

"I'm upset, I'm tired, I'm disgusted," Coach George Allen grumbled this week after the Redskins lost their second straight game last Monday night.

The Redskins have dropped into a tie for first place in the NFC's Eastern Division and they're having all kinds of problems with their offense. Larry Brown hasn't been able to gain much yardage and Billy Kilmer hasn't been able to move the team.

But Kilmer will still be at quarterback today when the Redskins host the San Francisco Forty-Niners.

It's an important game for the Skins because the Dallas Cowboys, who are tied with Washington for first place, are supposed to have an easy game against the hapless New York Giants. That means Washington must win to remain tied for first.

San Francisco has a 3-5 record but it's deceptive. The club is still dangerous and it beat the Redskins in the playoffs two years ago when Allen's fourth down gamble backfired.

San Francisco's 30-20 loss to Detroit last week dropped the Forty-Niners into fourth place.

in the NFC West behind, of all teams, New Orleans. John Brodie completed 23 of 47 in that game but had six passes intercepted.

In the other games today, Detroit is at Minnesota, Pittsburgh at Oakland, New Orleans at Los Angeles, Baltimore at Miami, Atlanta at Philadelphia, Dallas meets the New York Giants at New Haven, San Diego is at Denver, Cincinnati at Buffalo, Cleveland at Houston, St. Louis at Green Bay and New England at the New York Jets.

In the Monday night TV special, Chicago is at Kansas City.

The Pittsburgh-Oakland game, which will be televised to much of the country as part of a doubleheader, will be the first meeting of the two teams since last Dec. 23 when the Steelers won their playoff meeting on Franco Harris' celebrated deflected pass reception. Oakland is favored this time since Terry Bradshaw is sidelined and second string quarterback Terry Hanratty has bruised ribs.

Minnesota can clinch the NFC Central Division crown with a victory over Detroit if both Chicago and Green Bay lose or tie. Minnesota has beaten Detroit 11 straight times and will try to run its streak to six straight years without a loss against the Lions.

TEXAS KEEPS SWC LEAD

Roosevelt Gets 77 Yards, 3 TD's As 'Horns Hook Baylor Bears, 42-6

AUSTIN, Tex. (UPI) — Roosevelt Leaks scored three touchdowns off a mediocre rushing performance Saturday and defensive back Jay Arnold intercepted two passes to lead the Texas Longhorns to a 42-6 victory over the Baylor Bears.

Fleet freshman halfback Raymond Clayborn picked up 111 yards on 16 carries in a reserve role for the Longhorns. Fullback Leaks, the nation's leading collegiate rusher, left the game in the third quarter with 77 yards on 17 carries against a stubborn Baylor front line defense. He scored Texas' first three touchdowns on runs of 23, one and nine yards.

Starting quarterback Marty Akins scored once on a 15-yard run and his second half replacement, Mike Presley, ran for a nine-yard touchdown, and Clayborn ended the point production on a one-yard run.

Arnold harassed Baylor receivers all afternoon, picking off two of quarterback Neal Jeffrey's passes in the first half.

Defensive back Terry Melancon stole another Jeffrey aerial to stop Baylor's first scoring threat.

Jeffrey prevented a shutout with 8:02 left in the game hitting split end Charles Dancer with a nine-yard scoring pass. The Bears failed to convert on a running play.

Texas victory enabled it to retain a full game lead over runnerup Texas Tech.

Baylor retained its SWC cellar position at 0-4, and fell to 2-6 on the season.

Jeffrey, hitting Dancer and wingback Brian Kilgore on short passes, drove the Bears to the Texas 11 early in the first quarter for the most serious threat before the reserves took over, but Melancon stepped up to intercept a Jeffrey pass to the right flat and returned it 28 yards to the Texas 32.

Billy Schott kicked all six Texas' extra points. Baylor's defense provided a few bright moments with a goal line stand to stop an 81-yard Texas drive inches short of a touchdown with six seconds left in the first half.

Aggies Crush Mustangs Behind 432 Total Yards

COLLEGE STATION, Tex. (UPI) — Elusive sophomore Skip Walker rushed for two touchdowns and quarterback David Walker, a 17-year-old freshman, punched across for another score Saturday to lead Texas A&M to a crushing 45-10 victory over Southern Methodist.

Skip Walker rushed for 104 yards and scored on runs of four

and 20 yards off the Aggies' flawless wishbone offense. Alvin Bowers scored on a 12-yard run in the fourth period and freed Skip Walker for his second touchdown run with a cutting block.

Skip Walker broke three tackles and raced 27 yards to set up David Walker's threeyard touchdown run early in the first period and Randy Haddox booted a 44-yard field goal and six conversions for the Aggies, now 5-4 and 3-2 in Southwest Conference play. Speedster Carl Roaches scored on a 71-yard punt return to give the Aggies a 31-3 lead late in the third period.

Reserve quarterback Tim Trimmier passed 19 yards to Robert Verde with 34 seconds left in the game for A&M's final touchdown.

SMU, whipped 42-14 last week by Texas, made its initial first down in the second quarter and managed its first points on a 47-yard field goal by Clint Hackney.

Andy Duvall scored on a 45-yard pass interception late in the fourth quarter for the Mustangs' only touchdown.

A&M rolled up a 17-0 halftime lead. The Mustangs contributed to their demise with fumbles and penalties. Skip Walker's second touchdown came after officials penalized SMU 15 yards for a late tackle.

Kramer, FG Boost Rice Past Arkansas

HOUSTON (UPI) — Freshman quarterback Tommy Kramer ran 15 yards for a touchdown and Alan Pringle tipped a 46-yard field goal over the cross bar in the first half Saturday to lead the Rice Owls to a 17-7 Southwest Conference victory over the favored Arkansas Razorbacks.

Co-captain Richard Holas put the icing on Rice's first conference victory with 59 seconds left to play when he intercepted a Mike Kirkland pass and ran it back 29 yards for a touchdown.

The Owls methodically capitalized on Arkansas errors and held the Razorbacks scoreless until 2:54 in the third quarter when tailback Dickey Morton raced into right end for an 18-yard score. That touchdown was set up by a crucial 13-yard fourth down pass by

Kirkland to Freddie Douglas. Rice's first two scores came after Arkansas errors. With slightly more than 11 minutes left in the first quarter, Kirkland, operating from the Rice four-yard line, tossed the ball over left end where it was picked off by Rice cornerback Cullie Culepper, who raced 58 yards to the Arkansas 41.

Penalties Stop Texas Christian

FORT WORTH, Tex. (UPI) — Texas Tech came up with some big offensive plays to whip Texas Christian Saturday, but Horned Frog coach Billy Tohill thought the biggest plays of all came from the officials.

"We had them in a hole," said Tohill. "But all of a sudden they had us in a hole."

Tech was clinging to a 17-10 lead midway in the final period and had been backed up to its own seven-yard line. Quarterback Joe Barnes pushed out to the 11, but a piling on penalty was called against TCU and when linebacker Mike Hanna confronted an official about the call another 15-yard penalty was tacked on.

Suddenly, the Raiders were out to their own 41-yard line and quickly scored their clinching touchdown.

The battle was bruising for both sides Saturday with Barnes shaken up briefly for Tech, TCU quarterback Kent Marshall suffering a broken thumb and Frog running back Mike Luttrell pinching a nerve in the shoulder.

"They battled me real well," said Barnes. "TCU has the hardest hitting defense we've faced all year in my opinion."

PYYC Holding Cage Tourney

The Pampa Youth and Community Center will hold a pre-season basketball tournament, involving eight teams, which will start with games at 7 and 8:30 p.m. Monday at the center.

Games in the four-day affair will be played at 7 and 8:30 p.m. Monday, Wednesday and Thursday with the finals scheduled for 8 p.m. Nov. 19.

Teams entered in the tourney are Pampa Coaches, Pampa Independents, Coronado Conoco, Citizen's Bank and Trust, Cabot, Soul Patrol, First Baptist Youth and Berger Blue. At 7 p.m. Monday, Cabot will play Soul Patrol, and at 8:30 p.m., Coronado Conoco will take on Pampa Independents.

Miller, Gilbert Deadlocked For Lead After 3rd Round In World Open Golf

PINEHURST, N.C. (UPI) — Wise-cracking Allen Miller, wearing borrowed longjohns and a raincoat to ward off the freezing morning cold, warmed up enough to shoot a one-over-par 72 Saturday and move into a tie with Gibby Gilbert at 210 for the third-round lead in the \$500,000 World Open Golf Championship.

Gilbert, who virtually destroyed the legend of Pinehurst's invincibility with an

opening-round 62 to enjoy a five-stroke advantage over the field on Thursday, suffered putting miseries Saturday as he missed putts of one, two, five and six feet en route to his second straight 74.

Three shots behind Miller and Gilbert was Jerry Heard, who matched par of 71 although he said "my hands were so cold I couldn't make a putt." Another stroke farther back at 214 was Gay Brewer, following a 73, and

in a group at 215 were Bobby Mitchell, with a 70, Miller Barber with a 73 and young Tom Kite with a 74.

With the leaders of this marathon, eight-round tournament starting off early in the morning when the temperature was in the upper 20s, the scores were generally high and only Mitchell was able to break par among the top players, all of whom played course No. 4.

However, one notable scoring feat was accomplished when four sophomore Lanny Wadkins fired the first hole-in-one of his life. Wadkins, who went to school at Wake Forest, just 70 miles north of here, and already has earned more than \$300,000 during his brief pro career, got the ace on the 172-yard, par-3 hole.

"The ball ran into the hole on one hop," said Wadkins, who had a 71 for a 216 total. "My caddy got real excited but there wasn't anyone else around to enjoy it."

The freezing weather left the No. 2 and 4 courses covered with frost and the start of play was delayed a half-hour to allow thawing. Many of the golfers had to wear heavy clothing and some wore stocking caps.

Miller, still seeking his first victory since turning pro two years ago, borrowed the long-johns of a friend's wife to start the day, later discarding them when it got uncomfortable. Staring on the back side in the same threesome as Gilbert,

Miller bogeyed two of his first four holes, the 461-yard, par-four 10th when his drive carried into the woods on the left and he two-putted, and the same 13th that Wadkins aced as his tee shot hit the green.

The 25-year-old former Walker Cupper from San Diego, Calif., got one of those back with his only birdie of the day, putting in from 30 feet on the fifth hole.

"I played fairly well, considering the conditions and the cold," Miller said. "Everything's working well for me, but my muscles were tight in the freezing weather. It wasn't until the 11th hole that I felt loose."

Miller pointed out that all five of his bogeys in this tournament thus far have come during the early holes of his rounds.

Gilbert started off a little better than his chief rival and actually built his advantage to five strokes early in the round. While Miller was bogeying the 10th and 13th holes, Gilbert went seven under par for the tournament with a 12-foot birdie putt on the 12th.

But then he bogeyed the 14th when he drove into a bunker, the 16th when his drive missed the green and he blew a six-foot putt, the 18th when he blew the one-footer, the second when he missed from two feet and then the fourth when he missed the green. His only birdie during that stretch came on the third hole when he sank a 10-foot putt.

Groom Gains Playoffs By Stopping Lefors, 28-3

By PAUL SIMS
LEFORS — Groom's state-ranked Tigers scored twice within a minute and a half in the final period to break a close game open as the Tigers clinched District 1-B's championship for the seventh time in nine years with a 28-3 win over the Lefors Pirates in a penalty-marred contest Friday night here.

What had been defense at its best for three quarters turned into a medley of errors as Lefors suffered two costly ejections and three fumbles, while both teams were penalized a total of 139 yards in the fourth quarter. When it was over, Groom, 6-3 and 3-0, found itself winning a playoff berth against 2-B Matador, a 56-6 victor over Lazbuddie Friday night.

The two teams will meet for the bi-district crown in two weeks.

Lefors, on the other hand, closed out its season with a 9-1 record — the finest mark the Pirates have achieved since 1949 when they finished 11-1, losing to Littlefield in the regional playoffs.

The Tigers, who led 8-3 at the half, added a touchdown with 9:31 left to play in the game as halfback Tim Britten completed a 17-yard touchdown pass to Cliff Britten. The play capped a 71-yard drive, which included a 30-yard pass from quarterback Randy Sustaire to Cliff Britten.

After an incomplete conversion pass to Cliff Britten, the Tigers kicked off and Barney Sawyer fumbled after a short return. Mike Koetting recovered for Groom on Lefors' 38, which turned out to be the start of a long and poorly played final few minutes for both teams, although Groom scored twice.

Following the turnover, Groom, with the aid of five 13- and 10-yard penalties and the ejection of Lefors' quarterback — cornerback Bobby Dunn, drove for the score as Stan Britten went over on a three-yard burst off left tackle.

Sustaire attempted to run for the conversion but was stopped short.

The next five series were thwarted by turnovers and penalties against both teams. Lefors fumbled, Groom

fumbled, Lefors fumbled, Groom punted and Lefors lost the ball on downs with less than three minutes left to play.

Groom took advantage of penalties of 15 and eight yards against Lefors and nifty running by substitutes Bimbo Bivens, Mike Britten and Thomas Reed and ran out the clock, but not before the Tigers added another touchdown.

Reed scored with no time remaining on a one-yard run off right tackle. Chris Britten ran over the conversion to make it 28-3.

Lefors' only points in the game came early in the second quarter as Dwight Keith booted a 33-yard field goal seven plays after a Mike Crain fumble recovery on Groom's 22.

The Tigers took the lead on a one-yard dive by Tim Britten with 3:46 left to play in the half.

Hard hitting at the line, strong defensive play and a fired-up brand of football were witnessed by over 1,000 bi-partisan fans in the first half.

Groom's leading ground gainers were fullback Lynn Wilkinson with 64 yards on 18 carries, Tim Britten with 59 yards on 17 carries and Stan Britten with 43 yards on 14 rushes.

Rushers for Lefors included Robert Gifford with 63 yards on 15 carries and Sawyer with 22 yards on seven carries. Gifford was injured shortly before the first half ended and had to leave in the fourth quarter with a banged-up shoulder.

Dunn and Pirate tackle Henry Duckworth were ejected in the fourth quarter.

That was probably the turning point for us — Lefors just wanted to win it so bad, they had some extra-curricular activity," said Groom head coach Don Sessom, who added, "It was the most bruising game we've been in this year."

LEADING PAMPA RUSHER — Tim Thornburg (33), who gained 52 yards on 11 carries, picks up yardage against Palo Duro's Robert Lewis (66), Jimmy Hunt (65), and Billy Wills (42) in Friday's 28-7 loss to the Dons. Pampa, 2-7 overall and 0-4 in loop play, travels to Amarillo's Dick Bivins Stadium Friday for a 7:30 p.m. game with the Amarillo High Sandies in both teams' final game of the season. Ohio State Bombs Michigan State, 35-0

COLUMBUS, Ohio (UPI) — Safety Neal Colzie ran a punt back 43 yards for a touchdown and set up another with a 46-yard return and sophomore

sensation Archie Griffin rushed for 130 yards in 21 carries as top ranked Ohio State crushed Michigan State 35-0 Saturday.

Fullback Bruce Elia scored three of the Buckeye touchdowns on short yardage bursts and freshman Pete Johnson, his understudy, got the other with a two-yard plunge.

The Ohio State defense, which has now allowed only 20 points eight games — tops in the nation — didn't allow the Spartans past their own 37-yard line until midway in the fourth period.

The Spartans' longest march of the day carried from their 34 to the Ohio State 35 where quarterback Tyrone Willingham was dropped four yards short of a first down on a fourth and seven situation.

An 18-yard punt return by Colzie, who had 170 yards in eight returns for the day, gave the Buckeyes good field position on the Spartan 48 early in the first quarter.

The Buckeyes drove to the Michigan State 7 but a Cornelius Greene pass was intercepted in the end zone by the Spartans' Bruce Harms.

Michigan State was unable to move, however, and Colzie returned Bill Simpson's punt 46 yards to the Spartans' 26. The Buckeyes scored in six plays with the 6-1, 215-pound Elia pounding in from the one.

Early in the second quarter Ohio State drove 71 yards in nine plays, sparked by a 34-yard dash by Griffin, with Elia this time going in from the two.

Elia's third touchdown, from two yards out, capped a 69-yard, 14-play drive the first time the Buckeyes had the ball in the second half, and Johnson's touchdown, capping a 51-yard, nine-play drive, ended the scoring early in the final period.

Wheeler's workhorse all season long, rushed 34 times for 205 yards and scored twice to lead the Wheeler Mustangs to a 17-6 win over McLean Friday in a District 2-A rivalry here.

Wheeler is now 3-5-1 on the year and 3-2-1 in loop play, while McLean fell to 3-6 and 2-4. Both teams finished their seasons at home Friday as Wheeler takes on Clarendon and McLean hosts Wellington.

Joe Sherrod recovered a Mustang fumble which set up the game's first score — a 14-yard off-tackle run by McLean's Marty Duniven with 9:12 left in the first quarter. The fumble came on Wheeler's first play of the game from scrimmage. Wheeler's Kent Ware blocked the extra-point try.

Britt returned the following

Sooners Belt Missouri, 31-3, Move Step Nearer To Title

COLUMBIA, Mo. (UPI) — Joe Washington scored two touchdowns and Oklahoma's stout defense held Missouri to only six first downs Saturday as the third-ranked Sooners took a giant stride toward the Big Eight football championship with a 31-3 victory.

The Sooners, who won their seventh game against one tie, struck for two touchdowns in the last two minutes of the third quarter to put the game out of reach before a record Faurot Field crowd of 68,831.

Washington completed a 57-yard, six-play drive with a 26-yard touchdown run, hitting off tackle and sprinting to the 16-line, to raise the score to 16-3 with 1:58 left in the third quarter.

When Missouri quarterback

John Cherry fumbled seconds later, linebacker David Smith recovered at the Oklahoma 33. On third down from the 37, quarterback Steve Davis

Yellow Jackets Wallop Keydets
ATLANTA (UPI) — The Georgia Tech Yellow Jackets took the ball away from Virginia Military eight times on pass interceptions and fumble recoveries Saturday while coasting to a 36-7 victory over the hapless Keydets.

The Yellow Jackets jumped into a 17-0 lead in the first 12 minutes of the game with Greg Horne scoring twice on one-yard runs and E. O. Wheeler setting a school record with a 55-yard field goal.

Tech moved ahead 23-0 midway through the second period when quarterback Rudy Allen threw a two-yard pass to Jim Owings to cap an 80-yard drive that had consumed more than seven minutes.

That's the way the half ended as Tech's only other scoring attempts the rest of the period were 63 and 59-yard field goal attempts by Wheeler which were short.

flipped a pass to Billy Brooks, who stepped out of the grasp of Ken Downing and outran everyone else on a 63-yard scoring play.

Early in the fourth quarter, Missouri lost another fumble and Lucious Selmon recovered, setting up Rick Fulcher's second field goal, a 30-yarder.

Washington made the score even more lopsided when he dashed 80 yards on a punt return with 5:51 to play.

Waymon Clark led the Sooners' potent ground attack with 5:51 to play.

Waymon Clark led the Sooners' 153 yards on 26 carries. Washington added 107 yards on 13 carries.

The loss dropped Missouri's record to 7-2 while the victory gave Oklahoma a 1 1/2-game lead on the field in the Big Eight Conference.

The Sooners held Missouri to two first downs while building a 10-3 halftime lead.

Missouri scored on its first possession, John Mosley returning a short punt 12 yards to the Oklahoma 33. On fourth down, Greg Hill kicked a 42-yard field goal with 11:26 left in the first quarter.

Hawks Lick Buffs, 17-15

LAWRENCE, Kan. (UPI) — Quarterback David Jaynes' four-yard touchdown run in the third quarter allowed the Kansas Jayhawks to squeeze past stubborn Colorado Saturday for a 17-15 victory in a regionally televised Big Eight contest.

Set up by a pass interference call at the Buffalo six, Jaynes handed off once and then weaved through the middle on an option for the touchdown with 11:12 left in the third quarter, giving Kansas a 17-15 lead.

But Colorado made it close in the fourth quarter, relying mostly on tailback Billy Waddy's running.

The Ohio State defense, which has now allowed only 20 points eight games — tops in the nation — didn't allow the Spartans past their own 37-yard line until midway in the fourth period.

The Spartans' longest march of the day carried from their 34 to the Ohio State 35 where quarterback Tyrone Willingham was dropped four yards short of a first down on a fourth and seven situation.

An 18-yard punt return by Colzie, who had 170 yards in eight returns for the day, gave the Buckeyes good field position on the Spartan 48 early in the first quarter.

The Buckeyes drove to the Michigan State 7 but a Cornelius Greene pass was intercepted in the end zone by the Spartans' Bruce Harms.

Michigan State was unable to move, however, and Colzie returned Bill Simpson's punt 46 yards to the Spartans' 26. The Buckeyes scored in six plays with the 6-1, 215-pound Elia pounding in from the one.

Early in the second quarter Ohio State drove 71 yards in nine plays, sparked by a 34-yard dash by Griffin, with Elia this time going in from the two.

Elia's third touchdown, from two yards out, capped a 69-yard, 14-play drive the first time the Buckeyes had the ball in the second half, and Johnson's touchdown, capping a 51-yard, nine-play drive, ended the scoring early in the final period.

Wheeler Whips Tigers In District 2-A Tilt, 17-6

WHEELER — Lewis Britt Wheeler's workhorse all season long, rushed 34 times for 205 yards and scored twice to lead the Wheeler Mustangs to a 17-6 win over McLean Friday in a District 2-A rivalry here.

Wheeler is now 3-5-1 on the year and 3-2-1 in loop play, while McLean fell to 3-6 and 2-4. Both teams finished their seasons at home Friday as Wheeler takes on Clarendon and McLean hosts Wellington.

Joe Sherrod recovered a Mustang fumble which set up the game's first score — a 14-yard off-tackle run by McLean's Marty Duniven with 9:12 left in the first quarter. The fumble came on Wheeler's first play of the game from scrimmage. Wheeler's Kent Ware blocked the extra-point try.

Britt returned the following

BRITT RUNS WILD

kickoff 47 yards to McLean's 38. On the first play from scrimmage, Ware broke for 33 yards — running to the 10 and fumbling the ball out of bounds on the five. Two plays later, Britt scored on a two-yard run behind right guard Danny Hardcastle. Jim Verden booted the extra point to make it 7-6 with 8:41 left in the half.

Neither team scored again in the half or in the third period.

Wheeler's Dale Helton fell on a McLean fumble on the Mustang 40 late in the third quarter. In eight plays, Britt carried seven times and scored from 25 yards out as Hardcastle broke the senior tailback free. With 11:16 left in the game, Verden tacked on the point after.

McLean's Skeet Lowery fumbled on the first play after the kickoff and Wheeler recovered on the Tigers' 26. Britt scored an apparent touchdown on a 12-yard run, however, a holding penalty against the Mustangs wiped the play out.

On the fourth down with 9:19 left to play, Verden booted a 29-yard field goal.

Oysters Hospitalize AJ

HOUSTON (UPI) — A J Foyt is recovering steadily from a bout with hepatitis, but the veteran race car driver said Saturday that despite an improving appetite he has scratched raw oysters from future menus.

Health officials said this week a contaminated batch of the slick delicacies served in several Houston restaurants caused at least 100 diners to come down with the liver ailment.

Foyt said he was one of them. "I never did eat them up until about two years ago, and then I got to really liking them," the three-time Indy 500 winner said. "But it will probably be quite awhile before I eat them again."

Foyt checked into the hospital Tuesday after complaining of feeling weak. He said the ailment forced him to miss the Nov. 2 race at Phoenix.

"It's the first I've ever missed in my whole career because of illness," he said. "I've raced with pneumonia, flu and even while I was still on crutches."

Bucks Crush Sanford-Fritch In Loop Action

WHITE DEER — Quarterback Buddy Cummins rambled for 152 yards on 21 carries and passed for another 82 as White Deer blanked heavily favored Sanford-Fritch, 41-0 in what turned out to be the upset of the year in 1-A play this season.

On the Eagles' first possession of the game, White Deer killed what was Fritch's only penetration of the evening as Sandye Hodge recovered on the 15.

From then on it was all White Deer — offensively and defensively.

Fullback Billy Lunch scored behind left guard on a 15-yard run midway through the first quarter, capping an 85-yard drive, which followed the fumble. Donny Thurman's extra-point attempt failed.

In the second quarter, Cummins scored on a 70-yard romp down the left sideline and then ran in the extras to put the Bucks in front by 14. Midway through the quarter, Lynch dove over from the one and Thurman added the extra point.

White Deer made it 27-0 in the third quarter, driving 78 yards in eight plays with Cummins running over around the right side from 12 yards out. Thurman added the extra point.

On the Bucks' next possession, Cummins capped a short drive with a one-yard sneak and Thurman tacked on the point after. The drive began when Tommy May fell on the kickoff following the Bucks' prior score. White Deer led 35-0.

The night's final TD came on an eight-yard run by Denny Moss. White Deer's second leading rusher with 121 yards on 16 carries. Moss set the score up with a 25-yard run during the 50-yard march.

White Deer head coach Larry Anthony lists Cummins, Moss, Lynch, Jim McCann, Scott Lorraine, Hodge, Allen Cummins and Dan Cathey as individuals playing exceptionally well for the Bucks.

White Deer, 3-6 and 2-2, travels to 1-A champ Stinnett Friday.

Wildcats Whitewash Sunray 'Cats, 28-0

SUNRAY — Canadian exhibited a balanced attack between running and passing and racked up 312 yards total offense in blanking the Sunray Bobcats, 28-0 Friday night in Sunray.

The win moved the Wildcats to 7-1-0 on the year and 3-1 in 1-A action, while Sunray is now 4-4-1 and 2-2. The Wildcats host Gruber Friday in Canadian's Homecoming, and Sunray closes its season at Sanford-Fritch.

David Wilson got things rolling for Canadian early in the second quarter by scoring around right end on a 14-yard pitchout. The run capped an 85-yard drive, which included a pass from quarterback Lonnie Hines to brother Bill for 45 yards. The pass for extras went incomplete.

After an exchange of punts, Wilson scored on a one-yard plunge behind right tackle just before the first half ended. Bill Hines passed to Ricky Wheeler on an option play for 32 of the 49 yards in the scoring drive. Lonnie Hines ran over the extra points and Canadian led 14-0 at the half.

On Canadian's first possession of the second half, Kem Carr, who led all rushers with 81 yards on 16 carries, scored by taking a pitch and rambling 33 yards around right end. Wilson failed to run in the conversion.

Sunray fumbled the ensuing kickoff and Canadian's Gary Tubb recovered on Sunray's 41. Quarterback Hines passed 20 yards to Wheeler to set up the Wildcats' next score. Dickinson did the honors on a 12-yard burst in the middle. Carr ran in the conversion to finalize scoring.

Sunray's only big threat was to the 14 in the third quarter, however, the Wildcats, who have played exceptional defense all season, held on downs.

Wilson finished with 71 yards on 11 carries. Other Canadian rushers included Lonnie Hines, seven for 28, and Dickinson, five for 22.

LSU, Nittany Lions In Orange Bowl?

UNIVERSITY PARK, Pa. (PI) — Orange Bowl officials Saturday stopped just short of confirming that it would be Penn State versus Louisiana State University in the New Year's night classic at Miami.

"We have a pretty good idea LSU wants to come," said chairman Bill Ward of the Orange Bowl selection committee, "and from the impressions we've received up here, we believe Penn State wants to come."

"The fact that we are here, still interested, and based on what I've been reading in the newspapers I would say the indications are pretty strong," he said.

No fewer than six bowls — the Orange, Sugar, Cotton, Peach, Gator and Liberty — were represented at Saturday's game between sixth-ranked Penn State and North Carolina State. The Peach, Gator and Liberty scouts were eyeing North Carolina State.

"I have to like LSU and Penn State," said Orange Bowl scout Nick Crane, watching the Nittany Lions for the fourth time this season.

"We'd like to have people who want to be with you," Crane said, "someone who wants to be entertained by us and someone we want to entertain," he said.

"Notre Dame is not in the picture, based on statements in the newspapers that they don't want to come to our bowl, that they'd rather go somewhere else," he said.

As for Alabama, which indicated earlier this week it would like to meet Notre Dame in the Sugar Bowl, Crane said "This makes it twice in a row that Bear Bryant has said what bowl he wants to go to without waiting for an invitation."

"I was pretty surprised at their form and timing," Ward said of Alabama. "It puts all of the bowls in a precarious position."

Irish Shell Pitt 31-10

PITTSBURGH (UPI) — The Fighting Irish of Notre Dame, facing their sternest test of the season, capitalized on three turnovers to defeat Pitt 31-10 Saturday and extend their perfect season to eight games.

Wayne Bullock scored four touchdowns for the Irish, three on Panther miscues. Pitt quarterback Billy Daniels was the victim of three turnovers which bulwarped the Irish victory. In the first quarter, Daniels' fumble was picked up by Jim Stock on the Pitt 24 and five plays Bullock dashed 11 yards up the middle.

But Pitt learned the Irish defense, rated No. 1 nationally, when Pitt tailback Tony Dorsett rushed for 209 yards on 29 carries for the best performance ever against Notre Dame. He surpassed the previous individual rushing mark of 195 yards against Notre Dame set by Billy Vessels of Oklahoma in 1952. It was the first time a back ran more than 100 yards against Notre Dame this season.

In the third period Mike Fanning recovered Bill Jansek's fumble on the Panther 4 and on the next play Bullock scored.

In the final period Bullock scored two touchdowns. His last one came on a nine yard pass from Tom Clements which followed Daniels' third interception. A few minutes earlier the Irish drove 59 yards with Bullock carrying the ball on eight of nine plays for the score.

Bullock rushed 25 times for 168 yards.

Pitt scored with three seconds left in the half when Carson Long kicked a 25 yard field goal. The big gainer in the drive was Daniels' 40-yard pass to Rod Clark to the Notre Dame 25.

Pitt's touchdown came in the last period on a 55-yard drive culminated by Jansek's one-yard plunge on the eighth play.

Bob Thomas kicked a 20-yard field goal for the Irish in the second quarter after Tim Rudnick intercepted a Daniels' pass on the Notre Dame nine. A sustained drive moved the Irish to Pitt's three and Thomas was successful on a fourth and three situation.

Perryton Nips Dumas Demons To Win Crown

DUMAS — Perryton stopped a Dumas drive on the Ranger one which would have meant a Dumas win if the Demons had scored, but time expired and the Rangers came away with a 10-7 win Friday night here, giving the visitors 1-AAA's district championship.

The upset-minded Demons scored first when Wayne Laughry, who gained 99 yards on eight carries for the game, ran 77 yards on a pitchout for a second-period touchdown at 9:37. Wheeler Russell booted the extra point to give the Demons a 7-0 advantage.

With 4:50 left in the half, Perryton's Robert Palmer scored on a 15-yard romp, which was set up when David Johnson recovered a Phil Courtney fumble on Dumas' 38. Dale Street tied the game with the extra point kick.

Russ Elledge put the Rangers ahead to stay with a 23-yard field goal with 1:06 left in the third quarter.

Dumas threatened to successfully defend its district title, driving from its own 16 down to Perryton's one with time running out in the game. However, the Demons failed to score as no time outs were left to stop the clock.

Palmer carried 19 times for 101 yards to lead the Rangers' running attack.

Perryton closes out its regular season Friday in Muleshoe.

SPORTS FANS!

I BET YOU DIDN'T KNOW

Brought to you by B.F. Dormon

If you don't think times have changed in football, look at this... When one of the great football coaches of all-time, Pop Warner, coached at the University of Georgia in 1896, he received a salary of \$25 for the whole season... And, he led them to an undefeated season!

Of all the football stadiums in America today, did you ever wonder which one is the oldest? ... Answer is Harvard Stadium which was the first concrete football stadium built in the United States... It was opened in 1903.

What's the farthest a man can throw a football? ... There's no official record, but most experts say that under game conditions the farthest a pro quarterback can throw the ball in the air is about 70 yards... But in practice sessions, without any linemen charging and with plenty of time to get set, some possessors of football history such as Jack Kemp and Kenny Washington have been reported as being able to throw more than 80 yards... And some players say quarterback Rudy Bukich once threw a ball 100 yards in the air.

I bet you didn't know that people have been asking about MICHELIN 'X' for 25 years. They say a friend sent them. Come in and find out why... let us introduce you to MICHELIN 'X'... the leader in steel belt radials.

Cowboys Drop Wildcats In Crucial Big 8 Contest

STILLWATER, Okla. (UPI) — Halfback Alton Gerard plunged for a pair of touchdowns Saturday to pace Oklahoma State to a 28-9 victory over Kansas State in a crucial Big Eight contest that kept the Cowboys' bowl hopes alive. Gerard scored his first touchdown from the one yard line late in the second quarter to climax a 93-yard campaign of 15 plays. He smashed over from the one in the final period to cap a 19-play, 80-yard drive. Halfback Leonard Thompson opened the scoring with a two-yard charge on the Cowboys' second play of the game. The touchdown was set up by a 55-yard pass from quarterback Brent Blackman to tight end Reuben Gant. Gant caught a 36-yard touch-

down pass from split end Tom Stremme with 1:22 left in the game. Freshman Abby Daigle added the extra point after each Pokes score. Wildcat quarterback Steve Grogan scored on a one-yard run early in the fourth quarter, but was tackled before he could throw an attempted two-point conversion pass. Kansas State's other three points came on a 54-yard drive led by Keith Brumley for the only third quarter scoring. Oklahoma State ground out 283 yards rushing on 64 carries and added 128 yards in passing. The Wildcats could manage only 117 yards on the ground in 57 hits against the Pokes and 57 yards via the air.

Blackman was the leading rusher of the day, picking up 86 yards in 19 carries. Fullback James Nunn contributed 77 yards on 15 rushes for the Cowboys. Blackman connected on four of 11 passes for 92 yards. Grogan picked up the 70 Wildcat passing yards by completing six of 10 attempts. Grogan also ran 29 times against the Cowboy defenders, pacing the KSU ground attack with 50 yards. Fullback Don Calhoun added 35 yards on 11 carries. It was the first conference victory for the Cowboys who now have an overall record of 4-2-2 and stand 1-1-2 in the Big Eight. The loss left KSU with a 4-5 season, and 1-4 in the conference.

MEET A HARVESTER — Six-foot senior forward Dwight Rice, a B-teamer last year, will give strength on the second team this season. Pampa opens its 1973-74 season Nov. 17 against the Whitefaces in Hereford. (Staff Photo)

Tech Behind, Still Wins Over TCU Frogs, 24-10

FORT WORTH, Tex. (UPI) — Freshman tailback Larry Isaac started Texas Tech on a comeback Saturday with a three-yard touchdown run in the second period and then clinched a 24-10 Texas Tech victory over TCU with a 52-yard scoring gallop that all but wrapped up a bowl berth for the 14th-ranked Red Raiders. Tech surprisingly trailed 10-0, after the first period, but quarterback Joe Barnes began going to the air for the crucial

yardage and rallied the Raiders to their eighth victory against a single loss. Barnes hit halfback George Smith with a 32-yard pass that set up Isaac's first touchdown in the second quarter and then put Tech ahead for good with a nine-yard scoring loss to tight end Andre Tillman. Don Grimes connected on a 30-yard field goal on the second play of the final period for Tech to give the Raiders a seven-point lead, but the game was not decided until Isaac dashed around left end on the way to his 52-yard touchdown. TCU's first quarter lead came on a 28-yard field goal by Berl Simmons and a one-yard quarterback sneak by Kent Marshall. In the losing effort, Horned Frog running back Mike Luttrell, the key to the TCU offense, gained 180 yards on 32 carries—the best performance of his career. The loss lowered TCU's season record to 3-5 and the Horned Frogs are now 1-3 in Southwest Conference play. Tech is 4-1 in league action and remained one game behind the

Southwest Conference leading Texas Longhorns. The win, however, moved Tech into sole possession of second place in the conference ahead of the Arkansas Razorbacks, who were upset by Rice Saturday. TCU's best hope to catch Tech in the second half came midway through the third quarter. NEW BOSTON, Mich. (UPI) — Huron High School lost its last football game of the season, 24-14, Friday, but for the team's starting offensive tackle Ron Suemnick, who lost the lower part of his right leg in a farm accident last year, the game was a victory regardless of the score. The 17-year-old senior started his team's first seven games, but was ruled ineligible for the eighth when a referee detected his handicap during a game. The Michigan High School Athletic Association (MHSAA) ruled his artificial foot and joint were "ineligible equipment."

Courageous—Yet Slighted

But Suemnick took his case to federal court where a judge said he not only could play, but should play. "Ron is a fine example to other handicapped persons," said U.S. District Court Judge Lawrence Gubow. The muscular 6-foot-2 Suemnick had played two years of high school football before his accident during the summer of 1970. Through therapy, he learned to use the artificial limb and learned to play football again. Soon he was again in the starting lineup. "Our opponents know about him," said Hank Smith, the school's athletic director, "but they don't go easy on him." Though football season is over, Suemnick's athletic career isn't. "I think I'll go out for basketball," he said.

TO TUNE OF 31-7 Humm Ruins Iowa State

LINCOLN, Neb. (UPI) — Quarterback Dave Humm ran for one touchdown and passed for two more Saturday in a 31-7 Big Eight Nebraska victory over Iowa State. The victory kept the Cornhuskers' slim hopes for the conference title alive and enhanced their chances for a major bowl bid.

Nebraska struck twice for touchdowns in the first six minutes of play. Each time, a 21-yard scoring march was set up by a recovery of an Iowa State fumble. A 49-yard field goal by Rich Sanger boosted Nebraska's lead to 17-0 early in the second period. And a 67-yard pass play from Humm to end Frosty

Anderson moved the margin to 24-0 two minutes before the end of the half. Iowa State, which never threatened in the first half, scored early in the third quarter on a 58-yard drive after Barry Hill picked off a Humm pass at the Cyclone 42. Freshman quarterback Buddy Hardeman, who replaced the injured Wayne Stanley in the first half, rammed in from one yard out to give the Cyclones their only score. The fans had hardly settled into their seats when the Huskers scored their first touchdown. Ron Pruitt, defensive tackle, covered a Mike Tyson fumble on the Iowa State 21 and four plays later Humm slammed into the end zone from the one. On the ensuing kickoff, Jerry Moses fumbled on the Cyclone 21. Humm hooked up with Ritch Bahe on a 25-yard strike thrown over the Cyclone middle. On Humm's long scoring pass to Anderson, the talented end hooked behind Cyclone defender Hill at the Iowa State 30, gathered the ball in an over-the-shoulder catch, and outsped Hill the rest of the way. The final Nebraska touchdown was scored by substitute Steve Runty on a one-yard run with 24 seconds left in the game.

Florida Nudges Georgia Behind QB's Throwing

JACKSONVILLE, Fla. (UPI) — Quarterback Don Gaffney drilled a 13-yard scoring pass to split end Lee McGriff then hit tight end Hank Foldberg for the two-point conversion Saturday to boost Florida to an 11-10 victory over Georgia.

Gaffney, a sophomore who started his first college game in last week's 12-8 upset over Auburn, set up the winning touchdown with a 33-yard pass to McGriff at the Bulldog 35-yard line with seven minutes left. He hit flanker Joel Parker for 10, then fullback James Richards flashed up the middle for eight. The Gator drive almost fizzled when tailback Vince Kendrick dropped a pass all alone at the 10, but Gaffney foefully completed a fourth-and-seven pass to McGriff for the touchdown that cut the Georgia lead to 10-9 with 3:48 left. The Bulldogs tried a yard field goal into the wind with two minutes left but it fell six

feet. The fans had hardly settled into their seats when the Huskers scored their first touchdown. Ron Pruitt, defensive tackle, covered a Mike Tyson fumble on the Iowa State 21 and four plays later Humm slammed into the end zone from the one. On the ensuing kickoff, Jerry Moses fumbled on the Cyclone 21. Humm hooked up with Ritch Bahe on a 25-yard strike thrown over the Cyclone middle. On Humm's long scoring pass to Anderson, the talented end hooked behind Cyclone defender Hill at the Iowa State 30, gathered the ball in an over-the-shoulder catch, and outsped Hill the rest of the way. The final Nebraska touchdown was scored by substitute Steve Runty on a one-yard run with 24 seconds left in the game.

CC Team Wins 4th

AMARILLO — Pampa's first cross country team in the school's history competed in the junior varsity division in the season's first meet at Ross Rogers Golf Course in Amarillo and finished second behind Midland High. Midland scored a 41, while Pampa finished with 53. Odessa Permian was third with 68. Permian won the varsity division of the meet. David Kitchens of Pampa had the best individual time of any JV runner with 10:45. Noel Hansen finished second with 10:49. David Putnam won seventh with 11:15. Clinton Henry was 11th with 11:33 and Rick Hayes was 42nd with 12:17. Others competing for Pampa

were Barry Lemons and Barry Sims. "We did remarkably well with it being our first meet and since we ran all sophomores and juniors," said athletic director and cross country coach Ed Lehnick. Pampa will compete in the district meet Nov. 20.

Job switch ATLANTA (UPI) — Commissioner Phil Wooson of the North American Soccer League formerly was general manager and coach of the Atlanta Chiefs.

All you got to do is ask

By Murray Olderman

The tipoff;

One of the competition committee members is mulling a far-out rule change to stimulate offense in the NFL — give the offensive unit an extra or 12th man.

Q. Do pro football teams really have bed check? — Charlie Gallagher, Pittsburgh, Pa. Don't take my word for it. Just show up at 11 o'clock the night before any NFL game in a hotel hallway where a team is staying, and watch an assistant coach door-to-dooring it with a pencil flashlight. In Green Bay, we hear, the coaches even start checking on the players at home from Wednesday on.

Q. What people did Muhammad Ali fight before he dusted Sonny Liston the first time for the title? Every one around here seems to think that Mr. Clay had only five pro fights before he got a title shot? I'm sure Mr. Ali didn't get it with his lip only. — Charlie Peurano, Livermore, Calif. Mr. Ali had 20 pro fights before he took on big bad Sonny in Miami in February, 1964, and among the victims were Archie Moore, Doug Jones and Henry Cooper. His lip didn't hurt in drumming up interest.

Q. Over 50 years ago at Harvard University there was a Charley Brickley who droppicked points of 40 to 50 yards. What were some of his records? — Ben Ebelhardt, Ft. Mitchell, Ky. Charley Brickley was the nonpareil kicker of early college football but also a complete player who made Walter Camp's All-America teams as a halfback in 1912-13. In his three-year varsity career, he booted 34 field goals, most of them on droppicks, and once accounted for all the points in a 15-5 victory over Yale. Amazingly, he is not in the Hall of Fame.

Q. Would like to know how old Wahoo McDaniel is and how long he has been wrestling? — S.M., Odessa, Texas Our old friend, Edward McDaniel, part Choctaw and part Chickasaw and all red-blooded human, started wrestling professionally a decade ago while he was a linebacker with the Denver Broncos and became a full-time grappler after the Miami Dolphins released him in 1968. But long before that he had wrestled at the University of Oklahoma for fun. He is now 35 years old.

Q. How does Catfish Hunter of the Oakland Athletics feel about the greater publicity that Vida Blue gets on the same team, when the records show Catfish has contributed more? — S.L. Williams, Reidsville, N.C. Catfish doesn't get bothered by such things. His only criticism of Vida is that the young lefthander wasn't in shape to pitch when he reported to the club a year ago after his long and publicized spring holdout. Catfish wasn't even bothered that Vida got the first game start in the Baltimore playoff series.

Q. Is it just a coincidence or was Hank Aaron named after Lou Gehrig, because both their names are Henry Louis? — David Schellhase, Berkeley, Calif. It's just a coincidence. Hank Aaron had no middle name when he first came into baseball, according to his biographer, Furman Bisher, and just decided it would be nice to insert "Louis" into his official record. It's also a very nice coincidence they match the first two names of a slugger like Gehrig.

Q. How come all of a sudden there are so many field goals being kicked in the National Football League? And don't you think that makes the game kind of dull? — Bill Pell, Ramsey, N.J. Got a couple of hours, Bill? Field goals, to me, are a reflection of the growing conservatism of coaches in pro ball. When they get in close, they'd rather settle for three than gamble for seven and so tutor their quarterbacks to call plays accordingly. It does put a premium on foreign-born ex-

soccer players, which irks Alex Karras but gets a lot of free European trips for NFL scouts and general managers. Q. How did they happen to start penalizing teams for grabbing face masks? — Harold Wald, Detroit, Mich. The face mask as an essential part of a player's equipment has only been with us a couple of decades. Dick (Night Train) Lane, who came into the NFL in 1952, realized early it was easy to grab and made that part of his tackling technique, almost decapitating some runners. Because of Lane's head-hunting, the tactic was declared illegal against ball carriers. In 1962, the rule was broadened to prohibit grabbing anyone's face mask. This year, except in flagrant cases, the penalty has been reduced from 15 to five yards.

Q. I would like to know where Y.A. Tittle, one of the all-time famous quarterbacks, began his career and ended it. — Sam Gonzales, Fresno, Calif. Yelberton Abraham Tittle started as a schoolboy in Marshall, Tex., played at Louisiana State and began his pro career with the Baltimore Colts of the old All-American Conference. He ended it with the New York Giants in 1964 and still does some part-time coaching and scouting for the Giants. Full-time, he's a successful insurance man in Atherton, Calif.

Parting shot: That grand move of the New York football Giants to the Jersey meadows is virtually dead, because the stadium's dead — and you watch, they'll be back in Yankee Stadium some day, post-Lindsay.

Got a tough question about sports and the people who play them? All you got to do is ask Murray Olderman. Write him at (name and address of this newspaper). The most interesting questions will be answered in this column. Olderman regrets that he cannot write personal answers to all questions.

PLANNING FOR BAZAAR — The women pictured above are among many members of the Christian Women's Fellowship of the First Christian Church in Pampa who have been preparing for the church's bazaar which will begin Friday at 7:30 a.m. at the church. Pictured are Mrs. D.V. Burton, Ella Mae Mix and Mrs. Joan Peiffer, CWF president, with various crafts to be sold at the event.

(Photo by Terry Hanna)

Church Planning Bazaar

The 1973 First Christian Bazaar will kickoff Friday, Nov. 16 at 7:30 a.m., according to Mrs. Sophia Rasmussen and Mrs. Betty Bailey, bazaar chairmen.

The annual bazaar will include four exciting booths this year plus a stew and pie luncheon which will be served from 11 a.m. until 2 p.m. Friday.

The Country Kitchen Booth will include exotic and tasty homemade pies, cakes, candies, cookies, jams, jellies and other home canned goodies made by the First Christian Church ladies. Mrs. Don Tinney and Mrs. Georgia Mack have headed the committee for this particular booth.

The Sewing Booth, managed by Mrs. Lou Gantz, will sell handmade articles such as quilts, afghans, Raggedy Ann and Andy dolls, aprons and pillow cases, also made by ladies of the church.

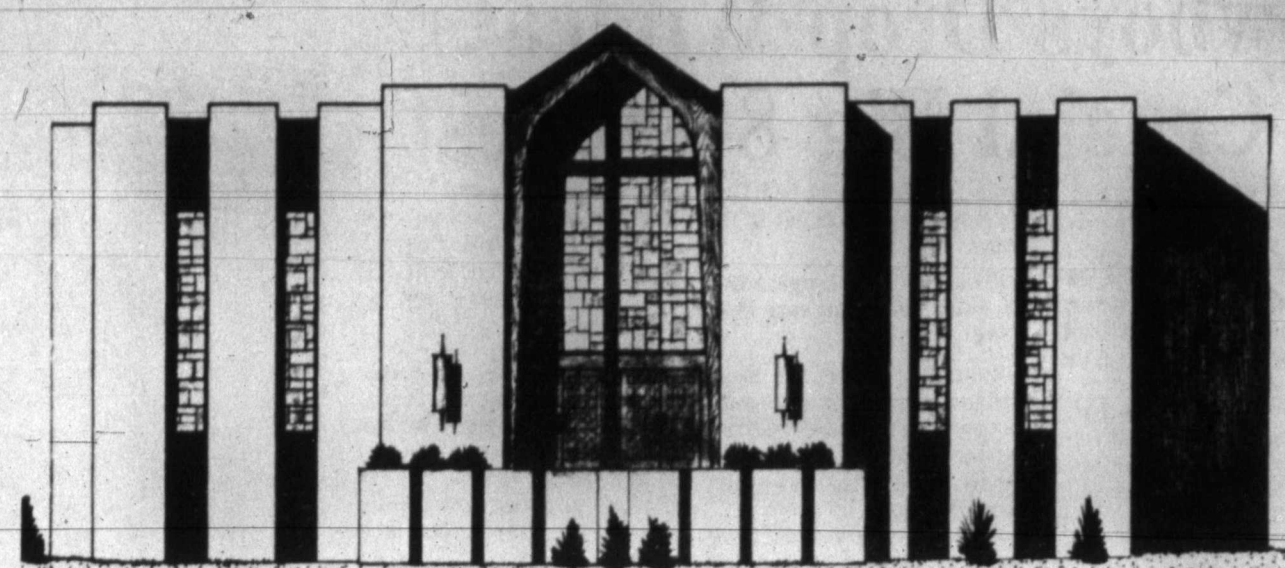

There will be a Children's Booth, according to Mrs. Ella Mae Mix, booth chairman, which will feature stick horses, piggy banks, block trains and other children's toys.

The Arts and Crafts booth, headed by Mrs. Rasmussen and Mrs. Helen Maxey, will contain dry flower arrangements, bread dough flour arrangements, ceramic figurines, fireplace logs, many various Christmas arrangements, plus much, much more.

Everyone is invited to stop and shop at the FCC bazaar and while there, to enjoy the gourmet cooking of Mrs. John Zuerker and Mrs. Roy Williams.

Friday morning everyone may enjoy coffee and homemade cinnamon rolls. The noon menu will feature stew, cornbread, pies and beverages.

Anyone wishing to place an order for homemade cinnamon rolls may do so by contacting Madge Zuerker or the church office. Stew will be sold in carry-out orders after the noon rush hour.

NEW FRONT — This is an artist's representation of the proposed "face-lifting" for the First United Methodist Church at 201 E. Foster. The church announced this week a proposed three-year project costing \$300,000 to renovate and rebuild the present church

building, with remodeling of the outside, structural changes for the electrical, heating and air conditioning systems and basement improvements. Above is the way the south entrance will look when the work is completed.

BATTIN' AROUND

TV Editing Can Affect Impressions

By C.R. BATTEN

We were relaxing on our back porch when my long-time sidekick P.K. Rune walked up and sat down on the nearest chunk of firewood.

"Did you see the television special on the energy crisis the other night?" he asked.

"I saw part of it," I replied. "But that show was three hours long, and I have never yet been able to sit in front of that boob tube for three hours at one time. How was it?"

"It put me to sleep, too," answered Pick (I call him that because he has never told what his initials stand for.) "I didn't see it all, either. But what I saw didn't tell me what I didn't know already. It did make me think that some business executives are their own worst enemies."

"What do you mean by that?" I asked.

"From the statements some of those coal mining and power company executives made, they gave the impression they were going to get what they wanted for their profit, come hell or high water, and the people and the land be damned, for all they cared," he declared.

"Maybe they were quoted out of context," I said. "I have often said that the very nature of television makes a balanced and objective report on any controversial issue impossible."

"Yeah, I can't argue with you on that point," Pick admitted. "What did the mining executives say that made them their own worst enemies?" I asked.

"Well, they were talking about strip mining coal in Montana. In one scene they asked a mining company man one question: 'How much does it cost to reclaim this land after mining?' He answered to the effect that 'it costs up to \$6,000 an acre.'"

"It seems to me that it speaks pretty well for a company if it is willing and able to put up \$6,000 an acre to reclaim that land in eastern Montana," I interjected.

"Well, you ain't heard it all yet," said Pick. "Then they went and interviewed some bigger shot in the same company. They asked him, 'How can your company afford to spend \$6,000 an acre to reclaim land that may have been worth only \$35 or so before it was mined?' Do you know what he said?"

"No. What did he say?" I asked.

"That mining executive said,

"Because it is the law. The law says that we must reclaim it this way, and so we will obey the law." my friend exclaimed. "Right then and there he told the country that the coal companies don't care a hoot what happens to the land after they are through with it, and they won't do a thing to reclaim the land unless they are forced to do it by law!"

"It does give that impression, doesn't it," I conceded. "What would you have said?"

"Well," he answered thoughtfully, "I would have said: 'We can't afford to pay \$6,000 an acre for reclaiming that land. We do it because the law requires us to do it. Actually, the natural laws of economics require us to reclaim the land, because we are in business to make a profit while supplying people with energy. Since we want to make as much profit as we can, we have to get the land back to the highest possible value.'"

"If the state didn't tell us how to do it, we believe we could reclaim the land adequately at much less cost, therefore being able to provide energy at less cost to the consumer, and

maybe having more money to invest in research and development of new methods of energy production or pollution control. 'How does that sound?'"

"That does sound better," I agreed. "But maybe he did say something to that effect. All of what you just said except the law requires us to do it could be cut out, and we are back to the same answer the mining executive gave."

"I suppose they did edit his interview pretty heavy," he admitted. "—and it sure gave a

false impression. That particular company has been among the leaders in voluntary reclamation of their lands."

"True," I agreed. "So it looks to me as though we must not draw our conclusions too quickly from what we see on television. Of course, the same kind of distortions can happen in the printed media, too — and with pictures to back them up."

"Yeah, I guess you're right," he admitted. "Maybe it's true what they say: 'Pictures don't lie, but liars take pictures.'"

Expensive Turkeys

WASHINGTON (UPI) — With consumers having gobbled up more turkeys than usual during the year because of high beef and pork prices, Thanksgiving shoppers will find their traditional holiday fare more expensive this month than they did last year.

Although turkey production this year is slightly larger than a year ago, Agriculture Department economists reported in an "Outlook Digest" report, lower slaughter weights have offset the increase and left consumers with about the same number of pounds of turkey as last year.

Despite the flat production trend, an unusually high demand for turkey in recent months has reduced back-up stocks of turkey in cold storage. Heavier demand, experts added, has boosted turkey out of the "lower priced alternative" class.

"While chicken, pork and beef prices have eased off recently, turkey prices have declined less. Even with the usual Thanksgiving specials, consumers will pay much more than last year," the report predicted.

PERRY'S CO-STARS

Creel Retires From Skelly

Harry D. Creel, former field auditor for Skelly Oil Co., retired recently with over 26 years service.

Creel joined Skelly April 14, 1947, as an engineer in Pampa and also worked in Eunice, N.M. He became a field auditor in 1962.

A graduate of Central High School in Tulsa, Okla., he also attended the University of Tulsa. Creel is a member of St. Matthews Episcopal Church, Pampa Community Concert Association, Pampa Rifle & Pistol Club, Lake City (Colo.) Jeep Club, and A.F. & A.M. Pampa lodge.

He plans to hunt, fish and take jeep trips in western Colorado during his retirement.

Creel and wife, Lena Evelyn, live at 1332 Charles St. Creel's son, James, was a recipient of a Skelly Oil scholarship in 1966.

PHS Choral Department Will Stage "Hello Dolly" In M.K. Brown Auditorium

EMPTY POCKETS — John Hollar as Monday's "Barnaby Tucker" looks at Tuesday's "Barnaby Tucker's," (Kim Snell) empty pockets as Lynn Richardson, Tuesday's "Irene Molloy," and Melinda Spearman, Tuesday's "Minnie Faye" talk about the evening ahead on the town.

WANTING TO MARRY — Dixie Douglass, right, Tuesday's "Ermengarde," pleads with her "Uncle Horace Vandergelder" (Mark Box) to let her marry "Ambrose Kemper" (Ocie Powell), left.

GETTING READY — Jeri Bohlander, chorus girl, watches as "Dolly Levi" (Terri Malone) helps Janet Whitsell (Monday's Ermengarde) with her coat as Monday's "Minnie Faye" (Lori Perilloux) watches.

"Hello, Dolly!" the second longest running musical in history, based on the philosophy "isn't the world full of wonderful things?" will be performed by the Pampa High School choral department, Monday and Tuesday, Nov. 12, 13, at 8 p.m. in the M.K. Brown Memorial Auditorium. John Woicikowski, PHS choral instructor, will direct the musical. Tickets are on sale at several local businesses, or may be purchased at the door.

Members of the cast include Terri Malone, Dolly Levi; Mark Box, Horace Vandergelder; Ricky Brazile, Cornelius; Lynn Richardson and Kayla Waterbury are double-cast as Mrs. Molloy; Kim Snell and John Hollar, Barnaby Tucker; Melinda Spearman and Lori Perilloux, Minnie Fay; and Dixie Douglass and Janet Whitsell, Ermengarde.

"Hello, Dolly!" begins early one summer morning in New York City in the year 1898. Dolly Levi, widow of Ephram Levi, is on her way to Yonkers, N.Y., to arrange a second marriage of Horace Vandergelder, the well-known half-a-millionaire. Actually, she intends to marry him herself.

Horace Vandergelder's clerks, Cornelius Hackl and Barnaby Tucker decide to go to New York and do some living. While in New York, they step into a hat shop owned by Mrs. Malloy and her assistant, Minnie Fay.

Horace is supposed to meet Mrs. Malloy, so he goes to her hat shop and discovers there are other men in the shop. He breaks relations with Mrs. Malloy; Dolly matches up Cornelius with Mrs. Malloy; and Barnaby with Minnie Fay.

This leads to calamitous events at the Harmonia Garden Restaurant, and the show ends with Horace realizing that Dolly is the woman for him.

HOOTCHY-KOOTCHY — Renel Tigrett as "Ernestina" does the hootchy-kootchy for a shocked "Mrs. Molloy" (Kayla Waterbury).

Photos by Terry Hanna

CHORUS GIRLS — Call on Dolly chorus girls Susan Lockhart, Beverly Bradford, Gisele Hudson, and Debbie Thompson try out their parasols before they go to call on "Dolly Levi."

Dodgin-Mitchell

Miss Rebecca Rosalin Dodgin and Jim Pat Mitchell will wed Dec. 21 in Southwest Amarillo Church of Christ. Making the announcement are Mr. and Mrs. Bill A. Dodgin of Amarillo, parents of the bride-elect, Mr. and Mrs. Cletus Mitchell, 526 Gray, are parents of the prospective bridegroom. Miss Dodgin attended Abilene Christian College where she was a member of Delta Theta sorority. She is presently attending West Texas State University and in May will be a candidate for degree under the Baccalaureate Nursing Degree Program. Her fiancé is attending WTSU where he is a member of Lambda Chi Alpha fraternity, active in the Church of Christ Bible Chair and in May will be a candidate for degree in speech. He plans to enter Harding Graduate School in Memphis, Tenn. in the fall. The engagement announcement was made Saturday, Oct. 27 at a tea in the home of Mrs. Pauline Vaughn, 2109 Christine. Co-hostesses for the event were Mmes. Martha Sublett, Patsy Strown and Nancy Chase.

Mitchell-Thomas

Nuptial vows will be solemnized Dec. 29 at Mary Ellen and Harvester Church of Christ for Miss Suzan Denise Mitchell and William Rick Thomas of Lubbock. Making the announcement are her parents, SM-Sgt. and Mrs. J.L. Mitell, Amarillo. Parents of the bridegroom-to-be are Mr. and Mrs. Joy L. Thomas, 1027 S. Nelson, Pampa. The bride-elect is a 1973 graduate of Amarillo High School and is presently employed as assistant bookkeeper for Panhandle Plains Auto Club of Amarillo. The prospective bridegroom is a 1969 graduate of Pampa High School and is majoring in accounting at Texas Tech University, where he will graduate in 1974. He is a member of Delta Tau Delta fraternity and is presently employed as district route manager for the U-Haul Company of Lubbock.

Girl Scouting Needs Is Program For DAR Chapter

Mrs. J.B. White, regent, presided at a recent meeting of Las Pampas Chapter Daughters of the American Revolution which was held in the Flame Room of Pioneer Natural Gas Co. Mrs. Louise Sewell, flag chairman, led in the pledge to the flag and the American's Creed. In giving the devotional, Mrs. Quentin Williams, chaplain, stressed the Thanksgiving theme. In concluding, she said, "We have hope that all people of God's world will be united in everlasting peace and for that hope we give thanks." Mrs. Larry Nash of Borger, director of Quivira Council of the Girl Scouts, spoke on the topic "Your Time is Worth a Million." She said that young people today are more service oriented, more openly caring of

their world and their environment. Conservation and an abiding respect for life have been characteristic of girl scouting since it was begun in Savannah, Ga. in 1912. Mrs. Nash pointed out that leaders were badly needed to carry on the work of scouting. The DAR Chapter presented a flag to local Scout Troop 8. Mrs. Jane Kadingo, leader, and her two daughters, Ann and Nikita, were present to receive it. Nikita, in accepting the flag for the troop, said that in scouting, members learn how to respect the flag; how to love their country and how to become good citizens of city, state and nation. In closing she told that when their troop used the flag, they would remember ancestors who founded this great nation.

Mrs. W.S. Dixon, insignia chairman, explained the meaning of the DAR insignia and its use. She said there is a large number of bars and pins that may be earned by service in office, the Chapter bar, ancestor bars, and the State Society pin. The official insignia of the National Society is in the form of a wheel and distaff. The bars and pin must be attached to a blue ribbon with a white edge, ribbed and watered, following the colors of Washington's staff. The insignia is to be worn only on special occasions. The recognition pin,

a small replica of the National pin may be worn on all occasions. Mrs. Williams gave a travelogue of her recent trip with her husband when they attended the International Convention of Realtors in Sydney, Australia. She showed slides of many of the places visited which included Tahiti, Fiji, Auckland, New Zealand, Jakarta, Indonesia, Bali, Singapore, Bangkok, Hong Kong and Japan. Miss Mary Reeve was welcomed as a new member and Mrs. W.C. Huckaby was a guest.

ORANGE PECAN PIE
3 eggs
3/4 cup dark corn syrup
2 Florida oranges, pureed (two-thirds cup)+
2 tablespoons butter or margarine, melted
1 teaspoon vanilla
1/2 cup sugar
1/4 teaspoon grated orange rind
1 cup pecans
1 unbaked 9-inch pastry shell.
Beat eggs in large bowl; stir in remaining ingredients except pastry shell. Pour into pastry shell. Bake in 400 degree oven for 15 minutes; reduce heat to 350 degrees and continue to bake 35 to 45 minutes longer.

Filling will be moist in center. Cool.
YIELD: 6 to 8 servings.
+ To puree oranges: Remove skin; cut orange into eighths and process at medium speed in electric blender. 1/4 cup Florida frozen concentrated orange juice may be substituted for the orange puree. Increase sugar to 1 cup when using concentrate.

FASHION NOTES

Brought To You by Doug Coon BEHRMAN'S

Dresses with the greatest flair are designed in knits which cling... and jerseys that swing... They can make an average figure look good... and a good figure, GREAT.

Every single woman... just a little older than young... should revel in the up-high neckline... Not only does it hide what should be hidden... but it lengthens the entire silhouette.

The short dinner dress makes itself felt... especially if it's designed in dramatic black crepe... It's an integral part of the fashion scene.

If your wardrobe doesn't contain at least one evening knit... you've missed out on one of the most exciting styles... and all fashion weeps for you.

Remember, fashion is your best SOCIAL security.

You're always welcome at Behrman's. Come in, browse leisurely. Our friendly staff is ready to show you the very latest in Fashions.

Your Horoscope

By Jeane Dixon

SUNDAY, NOV. 11
Your birthday today: Social and vocational movement characterize your life in this coming year. You wind up being and doing something beyond what is presently expected. Nothing comes easily, particularly if you wait for the outside world to bring to you the job or obligation to fulfill. Relationships are emphasized, more important than in most years, subject to many dramatic turns of circumstances. Today's natives often are zealous in their devotion to work or politics.
Aries [March 21 - April 19]: Adjustment is the keyword for success in the prevailing, shifting conditions. Stay clear of involvement with strangers. Be thoughtful, consistent in your handling of children.
Taurus [April 20-May 20]: Invitations flow in from all sides. Once you have sustained your share of community customs, select your company and accept the contact you most value. Romanticize a little.
Gemini [May 21-June 20]: This will be a delightful Sunday if you can program it into different phases, each separate from the others. Your spiritual life deserves rituals, the bearing of witness. Everything else seems to come naturally.
Cancer [June 21-July 22]: Life should seem somewhat simpler than it really is on this rather routine Sunday. This is a dispensation to make it easier for you to focus on what you ought to be doing.
Leo [July 23-Aug. 22]: If you need help, it is at hand for the asking; but you must ask, and explicitly. Groups split up and take sides; one issue will do as well as another. Spend some time with your mate.

Virgo [Aug. 23-Sept. 22]: After you have carried a graceful share of community customs, excuse yourself from social rounds. Catch up on neglected correspondence. People await your replies, even those who posed no questions.
Libra [Sept. 23-Oct. 22]: A perfectly ordinary event turns out to be especially interesting, more power-packed and dramatic than you expect. Be cool. Remember you're not called upon for any immediate decision.
Scorpio [Oct. 23 - Nov. 21]: You are on your way to a better position, with more energy to push your vocational and social enterprises. A many-sided day, according to how you go from one point to another.
Sagittarius [Nov. 22-Dec. 21]: Expect resistance or contradiction from those who usually applaud your schemes. Being direct and staying on the main issues with simple questions is the only way you can tell what has gone wrong.
Capricorn [Dec. 22-Jan. 19]: Stay within your own sphere among your peers and excel in personal competition. Getting into strange circles brings no benefit, may lose your chance of making a point.
Aquarius [Jan. 20-Feb. 18]: Now comes a peaceful Sunday with all your projects finding a place somewhere in the scheme of things. Don't expect others to know particulars where they have no experience.
Pisces [Feb. 19-March 20]: Build closer relations among the people you cherish. Rest and prayer add an extra factor for contentment. Inspiration brings out hidden good qualities in yourself as well as in those about you.

Butts-Beach

Mr. and Mrs. Al Butts, 2123 N. Nelson, are announcing the engagement of their daughter, Trisha Jane, to Ronald Beach, son of Mr. and Mrs. Oliver Beach of Kansas City, Kan. The wedding is being planned for Dec. 15 at Timmons Chapel. The bride-elect has received her bachelor of science degree in education from Kansas State College of Pittsburg and is teaching remedial math in Liberal, Mo. She is a member of Alpha Sigma Alpha sorority. The prospective bridegroom is working on his master's degree in agency counseling at KSCP. He is a member of Lambda Chi Alpha fraternity, and is employed by Goodyear Tire and Rubber Co.

City Council PTA Hears Talk On School Nurses

President, Mrs. Tommy Hill, called the November meeting of the Pampa City Council PTA to order.

The devotional, given by Mrs. Lacy Lee, was entitled "Character and Spiritual Education."

Radio chairman reported that Lamar School has the Nov. 11 radio program.

Mrs. C. L. Farmer, publications chairman, urged each local PTA unit to order a subscription to the National and Texas PTA magazines. She said there are many valuable articles in these magazines to enlighten us as parents and PTA members.

Mrs. Mack Courtney, PFLE chairman, reported that the PFLE courses will be held in January of 1974 instead of November. The days for these programs have also been changed to Fridays.

Mrs. Hill reminded the local units that Council dues are due and should be sent to Mrs. Tom Dunn. She also asked local units to get their yearbooks sent into the District officers who should receive one.

Dr. James Malone spoke for a few minutes on some of the

responsibilities of school administration and school board, such as food services, bus services, and public health service. He introduced Mrs. Marjorie Penn, school nurse, who explained some of the functions of school nurses.

Mrs. Penn told that we have 4,600 students and nine campuses for two nurses to cover. She stated that the other school nurse, Mrs. Steele, services five of the elementary schools and she services Baker Elementary, Houston Middle, Pampa Jr. High, and Pampa High Schools.

An immunization clinic will be held the second Thursday of each month for pre-school and school children at Carver Center free of charge.

The school health service not only inoculates children against the usual childhood diseases but also works on such things as epidemics of ringworms, entanglo, and head lice.

Mrs. Penn explained there is much need for a city public nurse and county health nurse. The Child Welfare Service helps out in cases that the school nurse can do nothing about.

PTA members assist her in many phases of her program.

Pampa City Council served as hostess for the meeting and the December meeting will be held at Wilson School with the choir and Mrs. Edith Sayles, choir Director, presenting the program.

Club News

COTILLION CLUB

Twentieth Century Cotillion Club met recently in the home of Mrs. R.T. Dunigan. The meeting was called to order by the president, Mrs. Jim Hughes. A new member, Mrs. Alton Setliff, was welcomed by club members.

The program for the meeting was "Crafts" and all members present brought something they were working on or had finished previously.

Those in attendance were: Mmes. Jim Campbell, Dean Copeland, R.T. Dunigan, Glen Fleming, S. Gene Hall, Jim Hughes, Jerry Kotara, Ralph McKinney, E.P. Maglaughlin, Don Morrison, Dan Puckett, Al Smith, Ben Sturgeon, Jay Boettner, and Alton Setliff.

By Oswald & James Jacoby

The late P. Hal Sims was undoubtedly the greatest auction bridge player of all time. He carried his card playing skill over into contract, but when the bidding began to get better Hal just refused to go along with the younger experts who had begun to dominate the new game.

Hal did have his moments of success. Here we see him bidding three notrump with no justification except his confidence in his own dummy play.

When Hal looked over dummy, he wished he had settled for the part score. Not that he was sure of making even two notrump, but at

least that would have been a reasonable contract. Then Hal settled down to bring home three notrump.

East played the 10 of hearts at trick one and Hal was careful to win the trick with the queen, not the jack. He felt that West would play him for the jack in any event and he wanted to look like a man who was deliberately falsifying.

Then Hal led a diamond to dummy's ace, returned a diamond, covered East's nine with the 10 and let West win with the queen.

West was now sure that Hal was trying to get him to lay down the ace and king of hearts. West wasn't going to fall for that. He led his 10 of clubs and Hal romped home with game and rubber.

(NEWSPAPER ENTERPRISE ASSN.)

 What do you do now?
 A — Six diamonds would not be too bad a gamble, but it is better to suggest a slam without hanging your partner for holding a bad hand. So bid three clubs.
TODAY'S QUESTION
 You do bid three clubs and your partner bids three diamonds. What do you do now?
 Answer Monday

Scouting

Scout Scoops
By DIANE GROOTERS

A few weeks back when we were having that beautiful Indian Summer, Cadette Troop 90 took a trip to Palo Duro Canyon.

When they arrived they were joined by a Cadette troop from Clarendon, and the two troops pitched tents near each other.

Some of the activities enjoyed on the two-day camp-out were horseback riding and riding the "Sad Monkey" train. The highlight of the weekend was guided geological tour through a cave and to the top of a mountain.

Students from West Texas State University led the Scouts in a study of minerals and rock formations through the canyon.

The 11 girls attending were Mary Gantz, Cheryl Birkes, Susan Micheal, Kerry Comer, Kathy Morgan, Jennifer Suttie, Sara Stallings, Kim Hagerman, Susanne Walsh, Sally Brainard and Terry Prentice.

Co-leaders Mrs. Wallace Birkes and Mrs. David Gantz supervised the event.

Attention Leaders! There will be a song and game workshop in Borger Nov. 15. This will start at 9:30 a.m. at the Borger Little House and run until 12:15 p.m. If you need a ride call the Girl Scout office. Nov. 13 will be the date for a training session in Miami from 9:30 a.m. to 2:30 p.m. For further information or transportation, call the office.

MR. AND MRS. NORMAN WALBERG

Reception Will Honor Longtime Pampa Couple

A Golden Wedding Anniversary reception honoring Mr. and Mrs. Norman Walberg, 621 E. Kingsmill, will be held in their home Sunday, Nov. 18, from 2:30 to 5 p.m. Hosting the event for their parents are Mr. and Mrs. Morris Walberg, Alamosa, Colo., and Mr. and Mrs. Donald Walberg of Pampa. The former Nettie Morris and Norman Walberg were married Nov. 18, 1923, in the home which his father, Nels Walberg, built in 1908, and where they now reside. The ceremony was read in front of a picture window with stained leaded glass at the top. An archway entwined with fall flowers will be placed in front of this same window and will serve as the setting as the couple and family members stand while Rev. Bryce Hubbard reads a special scripture. The couple has six grandchildren. Friends of the couple are cordially invited to attend the occasion. No gifts please.

WEDDING-ENGAGEMENT DEADLINE

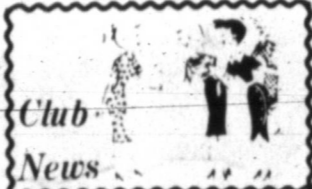

The following deadlines and procedure on wedding stories will be as follows: For a wedding story to appear in a Sunday edition, information and picture must be turned in to the women's editor by 5 p.m. on the Monday BEFORE the wedding. All wedding stories submitted after that time will appear during the week. Engagement announcements must be submitted by 12 noon Wednesday to appear in Sunday's edition.

\$120 dinner prize a big surprise for this donor

By Abigail Van Buren

© 1973 by Chicago Tribune-N. Y. News Synd., Inc.

DEAR ABBY: Recently I gave a party for my husband. I planned the entertainment, which included games with prizes for the winners. One of the prizes was dinner for two at our finest restaurant.

I did not set a limit on the amount to be spent on the dinners because I didn't think it would be proper.

Well, I just received a bill for two dinners, and it was \$120. Thinking there must have been a mistake, I called the restaurant and was told there was no mistake.

That man and his wife had ordered four appetizers, and THREE lobsters for the two of them, plus \$50 worth of drinks which included 15 bottles of imported beer! [They even charged the "tip" on the bill.]

I feel that we were taken advantage of, but I am at a loss as to what I should say to this greedy, gluttonous couple.

Any suggestions?

TAKEN IN PITTSBURGH

DEAR TAKEN: I would say "Goodby," after telling them that they had eaten themselves out of your good graces.

DEAR ABBY: What do you think of an 81-year-old man and a 79-year-old woman who met in an old folks home four months ago, and decided to get married to save expenses? It's true, one double is cheaper than two singles, but isn't that a silly reason to get married?

LIVES HERE

DEAR LIVES: It's as good a reason as any to get married. And better than some.

DEAR ABBY: I have been going with a guy for nine months. We have been together every night since we met. He is 24 and I am 18. He talks about long-range plans, such as the two of us going to Europe together next summer. Our relationship is a good one, but it would be perfect if we were married. He has not mentioned marriage at all, except to knock it. He was married for two years and is now divorced.

Should I just wait until he brings it up? I would hate to go on like this for a couple of years and then find out he doesn't want to marry me.

How can I find out what his intentions are without being pushy?

WANTS TO WED

DEAR WANTS: If he doesn't mention marriage, the chances are he isn't considering it. If you want to know for sure (and I can't blame you), ASK him. But be prepared for a let down. If your relationship is, as you say, a "good one" now, it's probably good enough for him—infinitely.

For Abby's booklet, "How to Have a Lovely Wedding," send \$1 to Abigail Van Buren, 132 Lasky Dr., Beverly Hills, Cal. 90212.

Smith-Massey Vows Pledged

Mr. and Mrs. Bill Smith of Shamrock and former Wheeler residents, announce the marriage of their daughter, Miss Cynthia Gail Smith and Gary Massey, son of Mr. and Mrs. George Massey of Beeville.

The ceremony was performed Wednesday evening, Oct. 17 in the home of the bride's great-aunt, Mrs. R.L. Pike. Rev. Bill Lewis, pastor of the Eleventh Street Baptist Church performed the ceremony.

Mrs. David Kirby, Amarillo, served as her sister's matron - of-honor. She was attired in a blue street-length dress fashioned with an empire waistline and featured a scoop neckline and long tapered sleeves. She chose peacock blue accessories. A corsage of white carnations tied with silver complemented her ensemble. Bobby Smith, brother of the bride, was best man.

The bride chose a floor-length gown of pastel blue.

accented with white lace. The Victorian neckline and long puffed sleeves were trimmed in matching lace. The bridal corsage was white Frenched carnations tied with white streamers.

Following the ceremony a dinner was held at Western Restaurant honoring the couple and members of the wedding party. Hosting the affair were the parents of the bride and Marie-Taylor.

The bride is a graduate of Shamrock High School and was employed at the Western Restaurant before her marriage. The bridegroom was graduated from William Adams High School. Alice, and attended Beeville Junior College.

He is presently employed by the Teledyne Exploration Company of Houston as a surveyor with headquarters in Duncan, Okla.

The couple will be at home in Duncan.

Church News

FIRST BAPTIST WOMEN
The Baptist Women met at 12 noon, Wednesday, Nov. 7, for a covered dish luncheon. Mrs. Gary Clark led the prayer of grace. After the meal, the group adjourned to the lower auditorium for a short business meeting and the Royal Service study.

President, Mrs. Jack White, was in charge of the meeting. The "Call to Prayer" was given by Mrs. E. E. Shelhamer and the opening prayer was given by Mrs. J.P. Heath.

In the absence of Mrs. Sam Corbin, secretary, the minutes of the last meeting were read by Mrs. C.V. Forsman. The treasurer's report was given by Mrs. Paul Turner. She also read correspondence received.

Mission Action chairman, Mrs. H.A. Muns, stated that projects for the months of November and December will be food baskets for needy families. She also asked that cookies be baked for shut-ins and taken to Mrs. Ed Cantrell by Nov. 18. Mrs. Cantrell is

chairman in charge of this endeavor.

Mission Support Chairman, Mrs. Louis Tarpley, gave a report of work being done by her various chairmen and their groups. She announced that Nov. 28 is the date set for the mission study book to be taught. This will be at the church from 9:30 a.m. to 12 noon, ending with a covered dish luncheon with dishes from the different countries being studied.

Mrs. White reminded the ladies of many important upcoming dates. She also reported on Baptist Women's Day of Prayer which was held at the church recently. 39 attended.

Mrs. Tarpley then presented a study on Paraguay. Assisting her were: Msrs. George Warren, John Glover, W.G. Harvey, and Mmes. D.B. Jameson, Shelhamer and Turner. The setting for the study was a hospital conference room in Paraguay.

The closing prayer was given by Warren.

Kappa Alpha Studies Women Of Medicine

Kappa Alpha Chapter of Epsilon Sigma Alpha International met Nov. 1, in Citizens Bank Hospitality Room for a monthly business meeting. Mrs. Tommy Sells, president, introduced Mrs. Gerald Vaughn, who presented a program "The Great Women of Medicine." She told that early day women were revered, honored and highly skilled as healers.

History records famous women healers as early as 1500 B.C. With the coming of Christianity began the teaching of the inferiority of women. Women were pushed into the background to stay there forbidden to practice medicine until the 19th Century. A few selected women were permitted to study medicine but years passed before they were awarded a doctor's degree, the speaker stated.

Florence Nightingale is the most remembered of women for her contributions to the sanitation practices in hospitals and the army barracks. Many other women suffered ridicule and harassment to follow in their chosen fields of medicine.

Some even masqueraded as men to work as doctors, she concluded.

Following the program, Mrs. Sells conducted a short business meeting with committee reports given by Mrs. Dorothy Miller, Ways and Means, pecan sales; Mrs. Fern Berry, treasurer, door-to-door Muscular Dystrophy Drive conducted Oct. 29 with \$1,417.06 being reported to date.

Mrs. Bob Warnock, welfare, reported on the Halloween Party given for the Satellite Day School and a bake sale to be held at Furr's for the Disaster Fund.

Mrs. Sells gave a summary of the District 10 meeting held in Canadian, Tex., Oct. 21. A bid for the Texas State Convention has been requested from District 10.

Mrs. Vaughn was the winner of the raffle gift.

Members attending were Mmes. Ed Bailey, Fern Berry, Coy Brown, Bob Eastham, Roy Floyd, Irvin Hungerford, John McBride, Glenn McConnell, Joe Miller, Tommy Sells, Norman Sublett, Gerald Vaughn, Bob Warnock and Bob Yost.

FASHIONETTES

By United Press International
Short, natural hairdos for women are causing happiness in hat factories across the land. The hat business, off in recent years, expects a 20 per cent increase in units sold this year. The Millinery Institute of America says a dent was put in the hat business by wigs and teased hairdos - neither of which are meant for hats. That's why the cheering over the popularity of the short, natural hairdos.

Famous black fashion model Naomi Sims is out with a collection of eight wigs, one fall and two hairpieces just for black women. The Sims wigs are said to feel like a black woman's straightened hair.

Skirts for fall and winter will be fuller than they've been in many a fashion season. Lots of pleats make for a swinging skirt when the wearer walks.

Red is an exciting color.

What's helping to put zest in the hat industry: teen-agers and other females under 30. They've discovered hats - but not the kind cartoonists joked about for generations, those non-descript flowerpot type hats. The current most popular hat is a floppy brimmed type made of denim or felt or soft leather. It looks good with jeans or mini skirts. It even looks good with barefeet.

The newest pattern in fashion fabrics is the stripe - especially when running in a diagonal direction, says Mrs. Becky Culp, clothing specialist with the Texas Agricultural Extension Service, Texas A&M University System.

POLLY'S POINTERS

Dry bread balls
Clean paintings

By POLLY CRAMER

Polly's Problem

DEAR POLLY - I have three summer handbags that are almost like new on the outside but my problem is with the linings. They were fastened to the inside with tiny tacks just pushed into the inside section along the top and sides. Does someone have some other solution for fastening such linings? The tacks are constantly coming out even though I do not put them in the same places when they are replaced. - CLARA

DEAR POLLY - My Pet Peeve is with the makers of refrigerators who do not make the drawers under the freezer compartments deep enough. It is so messy when defrosting to have to empty the drawer three or four times and get water all over the place. - MRS. N.G.

DEAR POLLY - My art instructor told me (and I want to pass it on to H.M.A.) that ordinary dry white bread, minus the crust, rolled into a small dry ball and then rolled around on the surface of a painting will remove lint and dust. Repeat until entire painting is clean. - L.C.V.

DEAR POLLY - I am answering Mary Lee who wanted to know if any kind of an eraser could be used to remove pencil scribbling from a nice portrait. (Polly's note: Part of the following should also help H.M.A.) I am a graduate of a four-year training program at New York University to study materials and treatment to restore and preserve works of art. Four years is not enough to learn all one should know to do this with assurance.

Even if the pencil scribbling could be erased without dulling the varnish or rubbing the paint the indentations left by the pencil would still remain. If the owner of such a painting is very lucky the indentations may penetrate only the varnish layer. The varnish can be removed safely by a trained conservator and replaced with a new coat. Such work should NEVER be attempted by an amateur. Some solvents that remove varnish may also remove the original paint.

A professional works with many materials and first tests under a microscope. The necessity for this is understood easily after seeing paintings that have been subject to such treatments as the use of half a potato or pure soap. One unfortunate owner completely destroyed her painting by putting it through her washing machine. None of these help and all COULD ruin a painting.

Private owners should dust their paintings with a soft clean large paint brush to remove the surface dirt. Cloths could snag raised edges of paint and pull them off and any dampness can cause eventual flaking of paint. - JOYCE H.S., Conservation Center of the Institute of Fine Arts, N.Y.U.

DEAR POLLY - I lost my hairstyling comb with steel prongs that lifted my hair as beauty operators do. I used a plastic picnic fork that gave the same results. - MILDRED.

Westbrook-Barnhill Vows Exchanged In Lubbock

Christ the King Catholic Church of Lubbock, was the setting at 2 p.m. Saturday, Nov. 10 for the exchange of nuptial vows of Miss Denise Westbrook and Donald Earl Barnhill.

The bride is the daughter of Mr. and Mrs. L.R. Westbrook of Lubbock. Parents of the bridegroom are Mr. and Mrs. C.M. Barnhill of Borger.

THE CEREMONY
Officiating for the double-ring ceremony was the Rev. Krisman, C.M., pastor. Bernard Gardel, organist, accompanied Jana Bullard as she sang, "One Love" and "For All We Know." Violinist was Mrs. James Kidwell.

THE BRIDE

The bride, given in marriage by her father, wore a floor-length gown of candlelight satin designed with peau de ange lace highlighting the front panel of the skirt. It was styled with a beaded bodice and long tapered sleeves. The circular A-line skirt fell from the modified waistline and the detachable train was held by a butterfly bow.

A profile headpiece, featuring lace and pearls, held her full silk veil of illusion. She carried a bridal bouquet of sweetheart roses and gardenias.

ATTENDANTS

Maid of honor was Frances Westbrook of Lubbock and bridesmaids were Miss Joni Herrington of Lubbock, Miss Terry Boggess, San Antonio, and Miss Lera Nettles, Abilene. Bridesmaids were Mrs. Pete Kyle and Mrs. John Igo, both of Lubbock.

All attendants were dressed identically in light blue gowns.

Ron Childress, Carlsbad, N.M., served the bridegroom as best man, and Larry Paul Barnhill, Borger, Redge Westbrook and Steve Syper, both of Lubbock, Eddy Hopkins, Shidler, Okla., and Steve Coy Taylor, Amarillo, were groomsmen. Ushers were Johnny Weaver and Curt Smith.

RECEPTION

The Lubbock Country Club was the setting for the wedding reception. Willette Merrell played traditional wedding selection, and Miss Lauren Wall registered wedding guests. Miss Sally Bone and Mrs. Larry Parker assisted at the punch bowl and coffee service and cake was served by Mrs. Tina Hand, and Miss Vikki Reeves. Mrs. Helen Rebstock and Miss Nancy Mason served the bridegroom's cake.

The couple will reside in Des Moines, Iowa.

AFFILIATIONS

The bride was an August 1973 graduate of Texas Tech and a member of Pi Beta Phi sorority. She was also listed on the Dean's List and a student senator.

The bridegroom graduated from Pampa High School in 1969 and from Texas Tech in May of this year. He was a member of Kappa Alpha order fraternity and on the Dean's List. He is employed by Electronic Data Systems of Dallas.

OUT-OF-TOWN GUESTS

Attending the wedding from Pampa were Mrs. Gussie Taylor and Mrs. Mattie Dixon.

LADIES AUXILIARY

The Ladies Auxiliary to Pampa Post No. 1657 met Tuesday at 7:30 p.m. in VFW Hall for a regular meeting with Mrs. Bill Leonard, president, presiding.

Ruth Ing, chaplain, offered the opening prayer, and Hadda Moore gave the Patriotic Charge, followed by the Pledge to the Flag in unison.

Mrs. Vernon Stuckey, secretary, read general orders from the state president. Members were asked to save Betty Crocker coupons to purchase a fire truck for use at the VFW National Home, a project of the Junior Girls Unit in Texas.

A contribution was made to the Christmas Fund for the children at the home. Participation Program requirement for the month was met by paying \$1 per member to the VFW State Cancer Aid and Research Program.

Four applications for membership were approved and Mmes. Francis Drum, G.J. Ely, Jill Land and Mattie Scott were welcomed as new members.

Mrs. Jewel Henson, District Nine president, Amarillo, made her official visit, accompanied by Melba Vaughn, junior vice-president, Borger, and Irene Kropp, secretary-treasurer, Fritch.

MRS. DONALD EARL BARNHILL
...Miss Denise Westbrook

Library Notes

By MARY FATHEREE

To those of us who can see, books are windows to the world around us. Thanks to the Texas State Library's free Talking Books service, these windows can now be opened to those who cannot see — or who are physically unable to hold a book and turn its pages.

Talking Books are books and magazines recorded on long-playing records to be played at 33 and one-third, 16 and two-thirds or 8 and one-third rpm speeds. Machines on which to play these books are furnished through the Texas State Library by the State Commission for the Blind.

The list of Talking Books available covers a range of subjects as broad as that of any public library. Fiction, non-fiction, poetry, literature in foreign languages and magazines are all there just for the asking.

Also available at no cost to the

user are books recorded on open-reel tape for readers who own or have access to a tape player that plays a 2-track 7-inch reel at 3 3/4 ips. (Cassette owners may choose from a limited selection of titles.)

Braille readers may also obtain materials through this same service. All materials are mailed to and from the user by the Post Office without charge.

Among the free services available for partially sightless persons are large print books, lighted magnifiers, prism glasses and reading stands.

The blind and partially sightless are not the only persons eligible for Talking Books. Other handicaps that may prevent normal reading include cerebral palsy, muscular dystrophy, arthritis, myasthenia gravis, paralysis, diplegia and confinement in respiratory devices.

Nursing homes, hospitals, institutions and schools may

also borrow reading materials for eligible patients, residents and students.

Persons eligible to use the Talking Books service may obtain order forms at the Lovett Memorial Library. The form must be signed by a doctor, optometrist, registered nurse, professional staff member of a hospital or other institution or agency, or a professional librarian. In cases of total blindness, a statement written by a prominent member of the community is acceptable.

If you know someone who would like to have the Talking Books or related services, visit the Lovett Memorial Library. On temporary display at the main desk are a Talking Books machine, catalogues listing the recordings available for adults and younger readers and the special forms for ordering the service.

Your Horoscope

By Jeane Dixon

MONDAY, NOV. 12

Your birthday today: Pick up your earthly possessions and move to another way of life. Today's natives are persistent, hold on long after they should turn loose. They seldom respect, but usually comply with, social rules and customs.

Aries [March 21 - April 19]: A message means a great deal. Business interests thrive, may require travel, certainly will entail careful planning since nothing is simple.

Taurus [April 20 - May 20]: Now is the time to turn over the proverbial new leaf. Use new tools; apply new methods; start new ventures. Get out of a rut.

Gemini [May 21 - June 20]: Move up boldly, with the cheerful assumption that all is going to go well. Anything within reason should advance your career effort.

Cancer [June 21 - July 22]: Apply yourself diligently, concentrating on those tasks which do not demand close cooperation or await details to be settled by others.

Leo [July 23 - Aug. 22]: Help is at hand from people who are not usually helpful. Pursue romance, particularly where faraway places and people are involved.

Virgo [Aug. 23 - Sept. 22]: Routine and the methodical completion of well-set plans count. In the course of a pleasant social adventure, avoid misleading others as to your real feelings.

Libra [Sept. 23 - Oct. 22]: Ideas flow swiftly. Jot them down so you can recall them

for later application. Make this a light, happy evening of shared pleasures.

Scorpio [Oct. 23 - Nov. 21]: Friends are into activities you couldn't or shouldn't share with them. If you don't find the group you seek, organize one to suit your own ideals.

Sagittarius [Nov. 22 - Dec. 21]: Begin a course of self-improvement, the study of a specialty related to your main vocation. Family and neighborhood cooperation is promised. Take initiative.

Capricorn [Dec. 22 - Jan. 19]: You should now be able to clear up long-standing tangles, make definite readjustments of the nature and direction of your enterprises.

Aquarius [Jan. 20 - Feb. 18]: Distant contacts, as usual, seem optimistic. Work during working hours, then quit altogether and play — mixing the two won't do.

Places [Feb. 19 - March 20]: Where it seems quiet for a moment, you attract a request for help. Pause from time to time for brief reflection. Be glad you are adaptable to change.

BILLION FOR TOYS
NEW YORK (UPI) — Santa's helpers making playthings for under the nation's Christmas trees expect the manufacturers value of toys shipped in 1973 to be 10 per cent ahead of the 1972 figure.

The figure, \$2.6 billion, includes also shipments of games and Christmas decorations. The value of toys shipped has more than doubled in 10 years. In 1962, a comparable figure was \$1.1 billion.

CowBelles Plan Work Session

Top O'Texas CowBelles will hold a work session Monday, Nov. 12, at 1 p.m. at the Pampa Chamber of Commerce office. The purpose of the session will be to assemble "Brides Kits," a gift which will be given to each new bride in the Top O'Texas area.

The kits will be decorated packages containing a beef cookbook, "What's Your Beef?", a plastic grip-type jar lid opener, a pamphlet on cooking beef outdoors, and various brochures explaining the nutritional value of beef and facts for consumer identification and retail labeling. The kit is designed to aid the bride in planning varied

nutritious and economical meals centered around beef.

These kits will be given free of charge to new brides as part of this local chapter's project of beef promotion. The beef industry is one of the major industries of this area. It has more related industries providing employment in the United States than the space industry.

Red Cross News

By LIBBY SHOTWELL
Executive Secretary ARC

Thanks to so many of you for your kind words of sympathy, your prayers and cards. One does not know how many friends you have until you have sorrow in your family, then your friends are there.

A great big thanks to Nell Carter for working in the office while I was away. Thanks to the Hospital Volunteers for their memorial gift to our family, also the many water safety instructors who remembered us with their remembrances.

Our town is also saddened by the death of Jack Graham, our County Service officer. The Red Cross secretary is also a service officer and until the county appoints or elects another service officer, we will be glad to assist you with veteran work.

If you need the questionnaire filled out, we will not ask you for a change in your power of attorney.

Earl Culver and Mrs. Judy Livingston, both First Aid instructors in Multimedia First Aid, have completed a class in MM-FA in the Adult Education class at Pampa High School.

Those who received their certificates were Gary Potter, John L. Young, Larry Cross, Danny Mason, Diane Grouen and Norvel Lowe.

Mrs. Livingston will be teaching another MM-FA Class to begin Dec. 3, so if you want to take this course, come by the Red Cross office and sign up for the class. It will be taught on Mondays and Thursdays.

Mrs. Oran Carter and Libby Shotwell will attend a Red Cross meeting in Lubbock Nov. 15. Bill Schweitzer, manager of the Fort Worth West Texas Division, will chair the meeting.

Norman Sanders, Safety Director for West Texas Division, will hold a re-training session for First Aid Instructor Jan. 22, 23 and 24 from 7 to 10 p.m. This class will update all FA instructors and they are urged to put these dates on their calendar.

This class will be for Standard FA and Personal Safety with the course taught out of the new book. On Jan. 28, 29, 30 and 31, Sanders will teach Advanced FA and Emergency Care from 7 to 10 p.m.

Please mark these dates on your calendar.

Mrs. Forrest Hills will teach a Mother and Baby Care class beginning Nov. 19 and last four Monday evenings. Please call our office and register for this course. There is no charge and people who are expecting their first baby should take this important course. Call 669-7121 and register.

This class will be held at Highland General Hospital on the 3rd floor in the study room.

The Red Cross Board will meet Tuesday at 7 a.m. at the Black Gold Motel with all board members and chairmen present. The program will be on Red Cross Youth by Jack Bailey and Kathy Kille.

All schools will have their Red Cross enrollment this coming week. Each child that is enrolled will receive a Red Cross pin, and Red Cross News will be ordered for the school.

Army Offering New 2-Year Enlistment Plan

The United States Army has just announced a new two-year enlistment option.

The option offers either training in a skill of the applicant's choosing, or assignment in Europe following successful completion of required training in a skill selected by the Army. The option includes training in over 120 occupational areas and is open to male and female applicants.

Maj. Gen. John Q. Henion, commander of the U.S. Army Recruiting Command, said the new option "reflects an exciting opportunity for young men and women to experience a valuable addition to their lives and at the same time render an important national service."

"Our research indicates there are a good many young men and women in this country who would enlist in the Volunteer Army if they could arrange a two-year tour as an initial enlistment," he said.

"Many feel that three years is just too large a commitment. They regard two years as an ideal length of time in which to do some traveling and thinking and pick up some valuable learning."

For more information on the Volunteer Army's new option, contact SFC. Kenneth Baker, the Army representative in this area, at 665-2022.

GOLF FINALS
HOLLYWOOD (UPI) — Final rounds of the 33rd annual Bing Crosby National Pro-Amateur Golf Tournament will be televised from Pebble Beach, Calif., next Jan. 5-6.

Princess Anne and Mark Phillips: not just your run-of-the-mill wedding

By Tom Cullen

LONDON — (NEA) — Princess Anne was hoping for a quiet wedding in St. George's Chapel, Windsor, with only the immediate family and a few friends present.

But the princess reckoned without the men who advise her mother, Queen Elizabeth, in such matters. They plumped for a big wedding.

So Princess Anne will be married to Captain Mark Phillips on November 14 in Westminster Abbey, which seats 2,000. Like some fairy tale princess she will arrive at the abbey in a gilded coach escorted by the Household Cavalry in their scarlet tunics.

Princess Anne Elizabeth Alice Louise, who is in direct line to the succession to the British throne, is 23. Mark Phillips, who is a captain in the Queen's Dragoon Guards, is 25. Their wedding will be seen by 53 million Britons, thanks to television.

There are cynics among the 53 million, grumblers who claim that the Westminster Abbey spectacle is designed to bolster the waning popularity of the monarchy, as well as to take the public's mind off the prospect of gasoline rationing this winter.

The vast majority of Britons, however, are all set for an emotional binge. They enjoy a bit of pageantry, like to see the royal family occasionally in a ceremonial role. More important, they approve Princess Anne marrying a commoner. ("Mark's much more manly than those chinless wonders who used to marry into royalty in the old days," one loyal subject commented.)

Just as she was not allowed to choose the style of her own wedding, so Princess Anne's plans for a honeymoon have been vetoed. Her idea was to slip away with Mark to Switzerland for a skiing holiday.

Instead the couple will join the royal yacht Britannia at Barbados for a Caribbean cruise. As the only passengers in the 412-foot yacht, which carries a crew of 27, the newlyweds no doubt will rattle around like two peas in a pod.

On their return from the honeymoon the couple will live at Sandhurst, which is Britain's equivalent of West Point, where Mark has been appointed as an instructor. But there is little chance of Princess Anne being treated as an ordinary army wife.

For one thing, there is the security problem. Princess Anne's presence at Sandhurst will necessitate detailing extra police to guard her, and to beat the bushes around her home in search of I.R.A. terrorists.

Then Princess Anne cannot possibly live on the \$125 per week which Mark Phillips earns as a captain. They will have to have servants, for Anne can neither cook nor sew nor do housework. She has never been trained for these chores.

They will have to entertain, too, on a fairly lavish scale all of those princelings who are Anne's cousins.

Fortunately, Mr. and Mrs. Mark Phillips need not apply for public assistance as needy cases, for the day she marries Anne's personal allowance in the Civil List voted by Parliament is increased from \$37,500 to \$87,500 per year.

It is also doubtful that Mark Phillips will remain a captain for long. To promote him to field marshal, of course, is out of the question. But he can be made an earl, and in due course take his seat in the House of Lords. Directorships in any number of firms will be open to him once he has married such an illustrious wife.

The public's attitude towards Princess Anne has undergone a marked change in recent months. After reading about the princess's temper tantrums in front of newsmen, the public was inclined to conclude that she was arrogant and spoiled.

"She takes after her bad-tempered father, Prince Philip," was the usual comment.

But the British are a sport-loving nation, and the fact that Anne is skilled in horsemanship has been a strong bond between her and the public.

There was a wave of sympathy for the princess following her spectacular fall from her horse at the European equestrian championships held in Kiev, Soviet Russia in September. "Plucky," "game," "good sport" were some of the adjectives applied to Anne, who cracked her collarbone in the fall.

At least one member of the royal family isn't afraid to compete with ordinary folk on equal terms, "is another comment one hears.

It was a mutual love of horses that brought Princess Anne and Mark Phillips together at a party given shortly after the 1968 Olympics. (Mark, then aged 20, was a reserve rider with the British Olympics team.)

The announcement of their engagement on May 29 this year put an end to speculation concerning their romance, also to the elaborate dodges the couple used in an effort to foil the press.

On one occasion Mark drove up to his parents' home in Great Somersford, Wiltshire, with a horse trailer attached to his car. When he opened the trailer door out stepped a somewhat disheveled Princess Anne. The two then congratulated each other on their use to shake off the press.

This is probably the first time that a princess of the royal blood has ever met her future in-laws in such a fashion.

Princess Anne and Mark Phillips: Can an army wife make it on \$87,500 a year?

George W. Crane, Ph.D., M.D.

WORRY CLINIC

Rev. Thomas, like many other liberal preachers and college professors, needs to wake up! For both groups are biting the hands that feed them. It is greedy Uncle Sam that now gets the lion's share of earnings!

CASE Y-566: Rev. Thomas, aged 32, often preaches against Big Business.

One day I had lunch with him and asked him why he had such an open aversion to business executives.

"Dr. Crane," he replied, "because they live in luxury while the poor are starving and sick!"

"Take my own case for example. I draw a salary of \$8,500 per year.

"But the local morticians and dentists get \$25,000 or more, yet I've put more years in college and seminary than many of them."

"So is it fair for me to get only \$8,500 in contrast to their \$25,000?"

MYOPIC PREACHERS

"Do you have a secretary?" I abruptly asked Rev. Thomas. He said he did and told me she obtained a salary of \$250 per month.

"That's \$3,000 per year," I added, "so do you pay the \$3,000 out of your \$8,500?"

"Of course not," he exclaimed. "The church pays her."

"But the dentist and mortician, physician, lawyer or merchant pays that salary out of the \$25,000 that you say he gets."

"So you really are comparable to a professional man with an income of \$11,500 (your \$8,500 plus her \$3,000)."

Then I further inquired if he had to pay rent for the new home in which he resided.

Again he said "No," for the church furnishes clergymen free parsonage, rectory or manse.

"But that's an additional \$1,200 you are getting as a fringe benefit," I added, bringing your income up to \$12,700 annually."

"Do you have a private office?" I asked and he nodded agreement.

"Other professional men don't get free offices," I reminded him, "unless they are teachers or salaried doctors on

Boards of Health or in Military Service."

That office would cost at least \$100 per month, meaning Rev. Thomas was getting \$13,900 annually.

But then I pressed my point further and showed him that he was obtaining free utilities, free telephone, both at home and in the office, free office furniture and typewriter, filing cabinets, stationery, stamps and other "fringe benefits."

He also admitted that merchants and doctors, accountants and others gave him discounts on merchandise, and free income tax advice, plus free medical attention.

The church also granted him \$1,000 gasoline allowance annually for his car.

Transportational mediums, like railroads, have long granted a discount to clergymen on their tickets.

And they also get free tuition at seminary, whereas physicians, dentists, lawyers, engineers et al, paid a high annual tuition, plus room and board.

"Do you get any fees for performing weddings and funerals?" I naively inquired, and he slowly nodded assent.

"Then you compare favorably with a gross income of at least \$20,000 that a dentist or mortician may receive."

"So why not laud the 'free enterprise' system that furnishes most of the high wages to Americans, from which they can afford to contribute heavily to churches and ministerial support?"

Then I reminded him that Big Business for several years hasn't averaged a 2 percent return in dividends, due to Uncle Sam's big "bite" via taxes!

(Always write to Dr. Crane in care of The Worry Clinic, Republic Bldg., Station 1000, Dallas 1938. Enclose a long stamped, addressed envelope, and 25 cents to cover typing and printing costs when you read for one of his booklets.)

A weekly public service feature from
the Texas State Department of Health

Accent on Health

J.E. PEAVY, M.D., Commissioner of Health

Death and taxes may be inevitable, but many people are being killed or sickened by a preventable illness — carbon monoxide poisoning.

The autumn chill in the air has brought heating units and gas stoves into play in many homes and businesses.

With the relighting of these appliances should come a sense of caution because of the odorless, colorless and tasteless gas which is present in all combustible substances. This gas can lull a person into unconsciousness before the victim knows he's in trouble, says the State Health Department.

In Texas last year, 102 persons were victims of this lethal killer. Automobile exhausts accounted for the bulk of deaths.

In Fort Worth this summer, one woman died and four other persons suffered serious illnesses from carbon monoxide poisoning. The tragedy revolved around an automobile which was inadvertently left running in a garage. Under the floor air conditioning vents opening into the garage picked up the carbon monoxide fumes and circulated them into the home, health authorities reported.

Similar tragedies can occur on the highway from leaking exhaust pipes. A Central Texas family had their vacation interrupted only a short distance from home when the deadly gas seeped into their vehicle, causing death and illness.

While carbon monoxide is sinister, it doesn't have to be fatal if handled with caution and respect. With Texas in the midst of its fall and winter hunting season, hunters should check ventilation in their stoves, and should examine smokestacks and chimneys to be certain they aren't clogged.

In the home, make sure the damper is open before lighting the fireplace. Have your gas refrigerator service — checked annually even though newer models have improved control systems.

All furnaces, regardless of fuel type, should be checked and properly vented to the outside.

Social Security Q And A

(Have you a question about social security? Address it to Howard L. Weatherly, Branch Manager, Social Security Administration, 1541 North Hobart, Pampa, Texas 79065. You will receive an answer in this column or by mail.)

By HOWARD L. WEATHERLY
Q. My wife and I received welfare payments until recently when our payments stopped because our social security was raised. Can we get anything under the new Supplemental Security Income law?

A. Yes, if your income and resources are not too high you may be entitled to more benefits. You should contact the Social Security Office and check on this.

Q. I have been drawing disability benefits under a State plan. Will I be entitled under the new disability law?

A. Yes. Persons who have been determined to be disabled or blind under a State plan in effect in October 1972, and who are on the rolls for December 1973, will be considered disabled or blind for supplemental Security Income purposes so long as they continue to meet the State's definition.

Q. My wife and I are getting social security benefits on my work record. Can she also receive Supplemental Security Income payments under the new law?

A. Yes. If your combined income and resources are not above a certain level, both of you may be entitled to some additional monthly benefits.

Q. I am receiving social security benefits and a company retirement benefit. The income for my wife and me is almost as much as when I was working. Could we draw Supplemental Security Income?

A. Probably not. Remember that the new Supplemental Security Income law is based on need, and if your countable income is above \$215 a month for you and your wife, you would not qualify.

NO KISSING IN SALEM
SALEM, Ore. (UPI) — Plans for a kissing booth at the Oregon State Fair collapsed this year after "parental permission difficulties" were encountered, fair officials said.

Combustion-chamber leakage is a serious hazard, particularly if the heating unit is old. All individual room-type gas heating equipment should be vented.

And, say safety experts, don't use your gas cooking range for heating.

Automobiles and trucks, as well as other gasoline engines, shouldn't be run indoors for long periods — even with the garage door open. A charcoal grill or hibachi should be used only outdoors.

While carbon monoxide poisoning is sneaky, there are recognizable symptoms — if you are alert.

Early symptoms of carbon monoxide poisoning include yawning, headache, nausea, dizziness, ringing in the ears, and abdominal pain. Difficult breathing and unconsciousness quickly follow. The victim should get fresh air immediately and should be kept lying down and warm. A physician should be called promptly, and inhalations of oxygen or an oxygen-carbon dioxide mixture should be administered.

A little bit of carbon monoxide can go a long way. It is an insidious killer. Its physical properties — no odor, taste or smell — make it almost impossible to recognize unless you understand the symptoms listed above.

Once the gas is inhaled, it invades the blood stream through the lungs. It unites with the hemoglobin in the red blood cells so they cannot carry oxygen to the cells of the body. Asphyxiation results.

Carbon monoxide is so poisonous that when combined with red cells in the blood the bond between the two is 200 times stronger than the normal bond between oxygen and red cells. When oxygen and sizable amounts of carbon monoxide are breathed together, the carbon monoxide muscles the oxygen aside, causing illness. If oxygen is depleted sufficiently, death follows.

Many deaths occur from faulty appliances even though a window may be slightly opened, says the Health Department.

At least 1,400 deaths are attributed in the United States each year to carbon monoxide poisoning. More than 10,000 persons are poisoned by carbon monoxide. Those not killed may suffer temporary or permanent damage to the brain, with serious disturbances of vision, hearing, speech and memory.

Carbon monoxide is dangerous, but it doesn't have to be fatal, repeats the State Health Department. Be aware of the dangers, observe caution in the use of appliances, have them checked regularly, and you may never suffer from carbon monoxide poisoning.

Divers Hunt For Sunken Ships

Every calm, sunny day for the last two summers a small crew of divers and archeologists have spent all their working hours combing a section of the Gulf floor in search of the scattered remains of 400-year-old Spanish sailing ships.

Under the sponsorship of the Texas Antiquities Committee, the personnel are recovering for the state of Texas vast amounts

of archeological information that would otherwise remain buried in the ocean or be lost to treasure hunters and salvagers. Tons of material consisting of hundreds of individual artifacts have been recovered during approximately six cumulative months of work.

Unfortunately, most of the perishable material — such as wood, cloth, and rope — is gone, and many of the fragile objects

— such as clay pots — are broken. Mostly metal artifacts survive, although time and the sea have wrought strange changes in them, eating away at their surfaces or cementing them together with grotesque encrustations of corrosion; and shellfish deposits.

A six-hour day on board the barge Discoverer, the Antiquities Committee's vessel from which the crew of 10 to 20

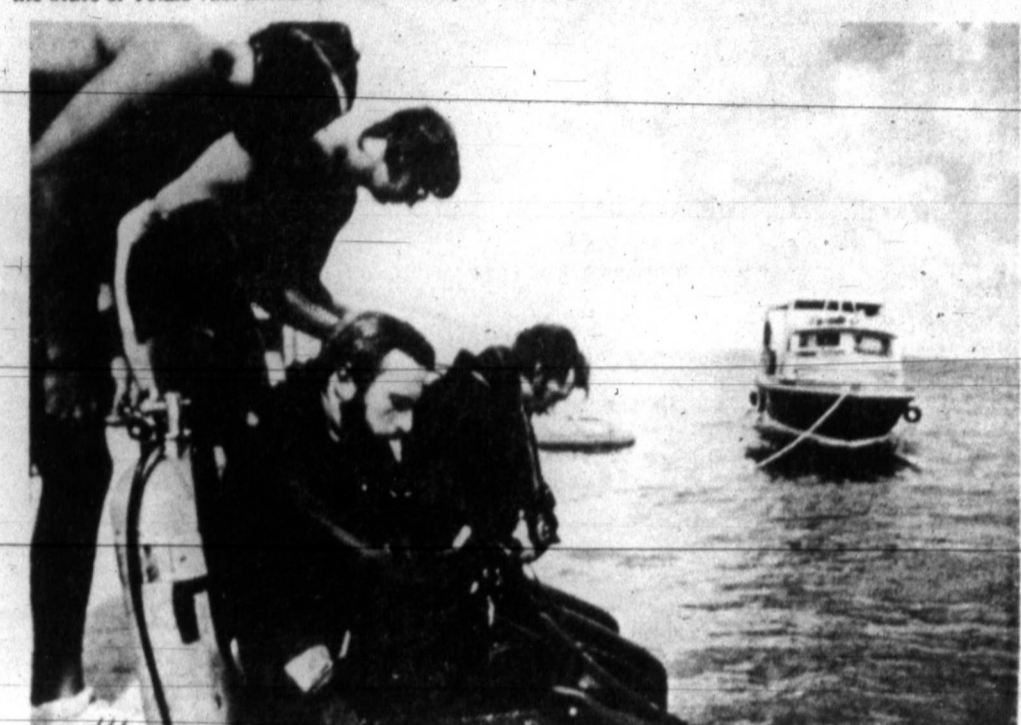

works, reveals the tremendous difficulties encountered by land animals (men) attempting to work in a medium (water) which is not their natural habitat.

The recovery of a single artifact entails, first, an hour's trip to the barge site, located some 1,600 feet offshore above the Port Mansfield Cut on Padre Island. There the day's crew relieves the two divers who have spent the night on the barge as watchmen. Equipment brought from shore (including lunches of bologna sandwiches and appetizers laboriously transferred to the barge by means of a small inflatable boat, and diving gear is checked in preparation for the descent.

Toward the end of the diving season the artifacts are loaded into vats of treated water and placed in trucks for transport to the Texas Archeological Research Laboratory in Austin. There they are cleaned and their deterioration stabilized in order that they may be subjected to further intensive study.

When this process has been completed, the Antiquities Committee will arrange for their public display at a museum or educational institution in order that they may be seen by the people of Texas — for whom they were recovered in the first place.

The oldest daily newspaper west of the Allegheny Mountains is the Scioto (Ohio) Gazette.

DRIVERS WITH the Padre Island Underwater Research Project off the Texas coast prepare to descend into 20 feet of Gulf waters to search out artifacts which sunk, together with a number of Spanish ships, more than 400 years ago. The state-funded diving project has been conducted for two summers under the sponsorship of the Texas Antiquities Committee. (TAC Photo)

The Almanac
By United Press International
Today is Sunday, Nov. 11, the 315th day of 1973 with 50 to follow. This is Armistice (Veterans) Day, celebrated this year on Oct. 22.

The moon is between its full phase and last quarter.

The morning stars are Saturn and Mercury.

The evening stars are Venus, Mars and Jupiter.

Those born on this date are under the sign of Scorpio.

American surgeon George Washington Crile was born Nov. 11, 1864.

On this day in history:

In 1889, Washington was admitted to the Union as the 42nd state.

In 1918, fighting in World War I ended with the signing of the Armistice.

In 1921, President Warren Harding dedicated the Tomb of the Unknown Soldier at Arlington National Cemetery.

In 1965, white-ruled Rhodesia declared its independence from Britain... an act the British government called treasonable.

A thought for the day: Irish poet, playwright and wit Oscar Wilde said, "Experience is the name everyone gives to their mistakes."

A snake darts its tongue in and out because the tongue tells it when food is near.
