Amendment Added To Insurance Act

AUSTIN (Sp) — The Texas Department of Public Safety said today a new amendment to the Safety Responsibility Act clearly states that a person who wilfully refuses to surrender within 10 days licenses suspended under the Act is subject to criminal charges carrying a penalty of up to a \$200 fine.

Col. Homer Garrison Jr., DPS Director, explained that the amendment, effective January 1, 1966, was enacted by the last Legislature after an Attorney General's opinion held the "surrender provision" of the Act unconstitutional because it required the suspended licensee to surrender his licenses "immediately." The opinion held this wording was too indefinite.

Garrison said that with the new amendment now in effect, the following action is taken when a person becomes involved in an accident coming under the provisions of the Safety Responsibility Act and does not report liability insurance coverage:

1. An original notice is sent by first class mail requesting the person to deposit security or otherwise comply with the law.
2. After a period of some four weeks, if he has not complied, an order of suspension and demand for surrender of his driver's license and vehicle registration plates is sent by first class mail.
3. After a reasonable period of time, if the suspended items have not been surrendered, an order is sent out to file criminal charges against him, to obtain a warrant for his arrest, and to secure possession of the suspended licenses.

The DPS Director explained further that basically, the Safety

Responsibility Act is designed to encourage motorists to be financially able to cover any damage they might do to others. Under the law, the Department is required to suspend the driver licenses and all motor vehicle registration plates of vehicles involved in an accident coming under the SR law, unless:

1. Evidence of liability insurance coverage in the minimum amounts of \$10,000 where one person was injured or killed, \$20,000 where more than one, and \$5,000 for property damage is reported to the Department of Public Safety.
2. A release signed by damaged or injured persons is filed with the Department of Public Safety.
3. A signed agreement to pay damages in installments is accepted by the damaged or injured persons, and filed with the Department.
4. The operator and owner are found to be not liable in a civil suit for damages by a court of competent jurisdiction, and a copy of such findings is filed with the Department.
5. The operator and owner deposit with the Department cash or bond security in an amount sufficient to cover any judgment or damages resulting from the accident that might be obtained by damaged or injured persons, which in no case shall be less than \$200. In addition, the operator and owner must file proof of financial responsibility for the future and maintain it for five years.

Commission

(Continued From Page 1) been discussed by the commissioners.

This, White said, could be done at a special meeting or at the next regular meeting of the commission on Feb. 22.

Meanwhile, the city manager said speakers are attending various meetings explaining the \$2,900,000 bond election.

The city has prepared a brochure titled "Facts About the City of Pampa Bond Election." These, White stated, are being distributed at meetings and are available at City Hall for the asking.

Brochures also are being made available in many Pampa stores.

CRMWA

(Continued From Page 1) trol boats in the water at all times.

Another item on the agenda at the Plainview meeting calls for a progress report on the CRMWA's aqueduct system from the lake to the 11 participating cities of the authority.

George W. Finger of Borger, the water authority's president, said:

"We feel this meeting is of vital importance and urge all directors to make every effort to attend."

Boy Scout Eagle Recognition Set For Saturday

Forty-four boy scouts from the Adobe Walls Council will be honored at the Second Annual Eagle Recognition banquet at 7 p.m. in the Starlight Room of Coronado Inn.

R. J. Rust of Borger, council advancement chairman, said today the honorees will be scouts who received the Eagle Award during 1965. Each Eagle Scout will have a sponsor in the field of his vocational interest, who will act as his host at the banquet and work with him throughout the coming year.

Rust will be master of ceremonies for the Saturday night affair, and R. W. Curry, president of the Council, will conduct the opening ceremony. Eagle Scout "Rocky" Rylee of Perryton will give the invocation, Eagle Scouts and their sponsors will be recognized, the Eagle Scout response will be given by Donald R. Butler of Borger, and speaker for the evening will be the Rev. Harry Vanderpool, minister of the First Methodist Church here.

The banquet has been planned in conjunction with the 56th Anniversary of the Boy Scouts of America, and will honor the following Eagle Scouts:

John A. Halliburton, III, Guymon; John A. Jones, Hooker; Randy K. King, Guymon; Dwaine Thelner, Hooker; Daniel M. Wrather, Tyrone; Charles M. Neas, Perryton; Billy R. Nowlin, Perryton; Randy M. Phillips, Darroutz.

Mickey R. Piersall, Perryton; "Rocky" Rylee, Perryton; Barry D. Schoenfeld, Darroutz; Kenneth L. Slough, Darroutz; Chris R. Smith, Perryton; Kenneth W. Fields, Shamrock; Alan J. Fires, Wellington; John J. Ford III, Wellington; Jerry D. Hall, Memphis; Raymond Jones, Lakeview; Lynn R. McLain, Wellington.

William L. Dickey, Shamrock; Charles A. Brauchle, Pampa; James M. Brown, Pampa; Joe M. Daniel, III, Pampa; Robert O. Doley, Pampa; Gregory J. Gunter, Pampa; John V. Haesle, Pampa.

Tim D. Haigood, Pampa; Bill J. Nichols, Pampa; Earl K. Scott, Pampa; Bill M. West, Pampa; Harry F. West, Pampa; Charles Wilson, Panhandle; Edward O. Bankhead, Borger.

Donald R. Butler, Borger; Kelly F. Clements, Borger; Ronald L. Gilchrist, Borger; Dick W. Harris, Phillips; John C. Phillips, Borger; Harry D. Smith, Borger; "Sippy" William B. Wyatt, III, Borger; Don W. Hooper, Stinnett; Tom D. May, Phillips; Roger L. Peterson, Phillips.

FHA

(Continued From Page 1) effect on the housing market, but might ease things for the seller.

"This slight increase in interest is not so much as to scare off a buyer. It's a small addition to the monthly payments. But it may help to bring down the discount rates which must be absorbed by the seller.

"If this is true, then the housing market, from a seller's viewpoint will be brightened. Recently the discount rates have run up as high as seven or eight percent, enough to discourage some in the seller's end of the business," he said.

Obituaries

Lawrence A. Maddox
Funeral services for Lawrence A. Maddox, 81, of Miami, will be at 2:30 p.m. tomorrow in Miami First Baptist Church with Rev. Truett White, pastor, officiating. Rev. D. D. Creecy, pastor of Miami First Methodist Church, and Rev. Thurman Boswell, pastor of Miami First Christian Church, will assist. Interment under direction of Carmichael-Whitley Funeral Directors, will be in Miami Cemetery by the side of his wife, Mrs. Hazel Maddox, who preceded him in death in June, 1964.

Mr. Maddox was born Aug. 13, 1884, in Scottland County, Mo. He died yesterday morning in a local hospital.

Palbearers will be Walter Elman, C. T. Locke, Joe Tolbert, Jack McLaren, Ed Smith, Orval Christopher, Jess Lawson and Guy Michael.

Fred Randall Sr.
Funeral services for Fred Randall Sr., 58, of 924 E. Francis, will be at 3 p.m. tomorrow in the First Assembly of God Church with Rev. J. S. McMullen officiating. Burial will be in Fairview Cemetery under direction of Carmichael-Whitley Funeral Directors.

Mr. Randall was born Jan. 31, 1908, in Mangum, Okla. He died yesterday morning in a local hospital.

Palbearers will be M. D. Snyder, O. L. Coble, C. M. Brunson, Hugh Lane, Sam Gilliland, Clyde Organ, Miller Hoppa and Rod Smithers.

Famed Pianist To Appear In Borger Event

Ozan Marsh, eminent pianist, will appear in concert in the Borger High School auditorium, Feb. 26, at 8 p.m.

Proceeds from the concert will go toward the purchase of a Baldwin grand piano by a committee of interested citizens of Borger.

The need for such an instrument has long been apparent in the Borger community, said Elton Brown, piano committee chairman. Marsh himself generously contributed to the fund, as well as making himself available for the benefit performance, Elton added.

The piano has been placed in the school, and will be used for community functions through permission of the School Board.

Marsh has appeared in Borger and in Pampa with the Buffalo Philharmonic, under the direction of Arthur Fiedler, and was enthusiastically received. Elton said, of him the New York Herald Tribune writes: "He has few, if any, peers." For his coming Borger appearance, he has chosen a program of variety which will appeal to the listening public.

A unique feature of the concert will be the combined dinner, reserved seat ticket, and reception following the concert, at an overall cost of \$10 per person. Dinner will be at 6:30 in the Borger High School cafeteria, and the reception in the Hotel Borger ballroom.

Due to the capacity of the dining room, only 300 of these special tickets will be available. The remaining orchestra seats are priced at \$3.50, and balcony seats at \$2.

Tickets may be obtained by writing tickets, Box 3192, Borger, 79006, or at Gibson's Prescription Pharmacy, 2211 Perryton Parkway, Pampa.

DWI Charges Filed

William L. Shelton, 735 E. Scott, was arraigned Tuesday in Gray County court on a charge of driving while intoxicated. Bond was set at \$1,000.

Garage Sale, Thursday only, 1706 Duncan in rear. Come through alley please.

Miss Sadie Walters, who was 90 this past Saturday, died at 11:30 a.m. Tuesday in a Lebanon, Pa., hospital. Mrs. Walters, aunt of Henry Gordon, a former Daily News reporter, was a frequent visitor to Pampa, spending many summers in the city. Funeral services will be held at 2 p.m. Friday at the Taylor Mortuary in Lebanon.

Babies

(Continued From Page 1) knew of baby sales and called for stricter state laws on the registration of births. He called the present system of once-a-month "antiquated."

A housewife said she had been negotiating to buy a child but backed out when she found that birth certificates were being made out illegally. She said she has been dealing with Mrs. Emma Lopez, a midwife.

Vacation Blanks For Handicapped Being Accepted

Applications for a summer vacation full of fun for handicapped children in the Pampa area are now being accepted by members of the noon Lions Club.

The unique Texas Lions Camp for Crippled Children at Kerrville will open its first two-weeks session Sunday, June 5. Five sessions will be held this summer for youngsters from seven through sixteen years of age.

The Camp is free to eligible blind, deaf, mute or crippled children. Transportation to and from the Camp is supplied by the Local Lions. All requests for summer camp are handled locally by Lions.

For more detailed information about the Camp, interested persons are urged to contact members of the Lions Club or call MO 4-4661 or MO 4-3227.

Dr. R. D. Falkenstein, chairman of the Pampa Lions Handicapped Children's committee, said today there will be three sessions for boys and girls, age 7 through 11. The dates for these sessions will be June 5-18, July 3-16, and July 31-Aug. 13.

Two sessions are scheduled for boys and girls, age 12 through 16. Dates for these are June 19-July 2 and July 17-30.

Eligible handicapped children are expected to be found through the cooperation of doctors, nurses, schools and local groups dealing with handicapped children.

In past years, Texas Lions Clubs have sent more than 8,000 youngsters to the Kerrville camp.

HUNGER STRIKE

THE HAGUE (UPI) — An estimated 8,000 pupils the total enrollment of all schools in the eastern Dutch town of Rheden, began a two-day hunger strike Tuesday to help hungry people in impoverished areas of the world. The students planned to donate the money saved on food during the hunger strike to help feed the hungry.

Mossler

(Continued From Page 1) band was slain during a burglary. Failing, the state claims, she began saying he was a homosexual and implying that one of his friends had committed the passion-murder.

Caltagirone, 39, was the 26th state witness in its effort to send Candy and Powers to the electric chair for the murder.

Caltagirone testified he first met the Mosslers in the summer of 1953, became friends with them, and taught their children to water ski. He said he went to work for Mossler in September 1960, left in October, 1962, and went back to work in February 1963. Mossler offered to "throw in the apartment," as an incentive to return, Caltagirone said.

Viet Nam

(Continued From Page 1) in South Viet Nam, one about 225 miles northeast of Saigon and another only 60 miles northwest of the capital. Details were not disclosed.

Vice President Hubert H. Humphrey was due in Saigon Thursday. He was flying back from Honolulu today with South Vietnamese Premier Nguyen Cao Ky and other officials who attended the Honolulu strategy conference with President Johnson.

Humphrey was scheduled to arrive at 1 p.m. EST.

A "Declaration of Honolulu" called for new programs to create a "true social revolution" in South Viet Nam and Johnson, in sending Humphrey on another Far East tour, ordered the vice president to fly to Saigon to launch it.

The bagpipe is a very ancient instrument, being mentioned in the Old Testament.

City Bond Issue Discussed at Pampa Lions Club

The Pampa Evening Lions Club had its regular meeting Thursday evening, Feb. 3. The program was presented by member Gene Lewis. He discussed the merits of the City Bond Election of March 8. He said that the bond issue must pass or Pampa will not grow. He presented comparisons of cities that had passed bonds for improvements with those where the bond issues had failed. He closed with the statement that Pampa would grow in every way if everyone would take interest in seeing that the bond election passes on March 8.

The club had 100 per cent attendance of its members. Bill Eads of the Pam-Tex Corporation and Clinton Forbes, a teacher at Robert E. Lee Jr. High, were guests. Bill Steger of the County Tax Office was reinstated as an active member.

The Pampa Evening Lions Club meets every Thursday night at 6:30 p.m. in the Pampa Hotel dining room.

Groups Named For Stock Show

The Chamber of Commerce Agriculture and Livestock Committee met this morning to iron out plans and name committees for the Junior Livestock Show Mar. 7, 8 and 9.

At least 20 different responsibilities were to be assigned to committees of one to five members, according to J. E. Gunn, Agriculture committee chairman.

Gunn added that at least 200 swine and 90 head of cattle are expected to be entered in this year's show.

58TH YEAR

Dear Abby....

Fast Action Needed For Dope Addiction

DEAR ABBY: Can you list some symptoms of dope addiction? We strongly suspect a member of our family is on some sort of dope, but before going to a family doctor with such a serious matter, we want to be reasonably certain, so as not to cause undue embarrassment to anyone. We do not want to get this person into any trouble with the law if our suspicions are correct. What is the best course to follow? I'll be looking in the paper for your answer.

CONCERNED

DEAR CONCERNED: Your family physician is the person to contact. He will provide authoritative answers to your questions, but the "patient" (if indeed he is addicted) will eventually have to cooperate. "Trouble" with the law is secondary. Don't let that deter you. Time is important, so I urge you to act at once.

DEAR ABBY: I am 77 years old but rarely tell my age. About a year ago I wrote my niece, who had recently married, and offered her my collection of antique copper cooking utensils that once belonged to her great-grandmother. I heard nothing from my niece, but after a few months, her mother (my youngest sister) wrote saying her daughter would be "delighted" to have the copper. (The mother and daughter live in different states.) I shipped the collection to my niece, going to the expense of having it professionally packed as, even though it was old, it was in excellent condition. I never did hear from my niece, but six months later her mother wrote a hurried note on the bottom of her Christmas card telling me how "thrilled" her daughter was with the heirlooms.

We are not people of means, but I could have sold those utensils for a good sum. Or given them to a museum and gained more pleasure. Although my niece was exposed to a fine education, she is far from "educated," but she is considered "bright." Is this the age of bad manners, Abby? Or am I too "victorian"?

DEAR VICTORIAN: Your sister's manners are atrocious, but her daughter's are even worse. When the mother wrote accepting the gift for her daughter, you should have taken the cue and given your priceless copper collection a more appreciative home.

Fulks-Johnson Vows Exchanged

WHEELER (Sp) — The wedding of Miss Mickie Fulks and Don Johnson, both of Briscoe, was solemnized recently in Amarillo in the home of Dale Johnson, the bridegroom's brother. Mr. and Mrs. Leonard Fulks of Briscoe are parents of the bride and Mr. and Mrs. Robert Johnson of Quail are parents of the bridegroom.

Rev. Vernon Rowley, pastor of the Locust Grove Baptist Church, read the double-ring ceremony before a fireplace flanked by tall floor baskets of white gladioli.

For her wedding the bride chose a two-piece winter white knit suit with round neckline and long sleeves. Her accessories were navy blue. She carried a white gardenia bouquet atop a white Bible.

Attending the bride as bridesmaid was Miss Cheryl Rowley, wearing a navy blue two-piece knit suit with winter white accessories and a corsage of white mums. Dean Johnson of WTSU attended his brother as best man.

A reception was held following the ceremony. The bridal table was covered with a blue cloth and decorated with blue candles and crystal appointments. The three-tiered cake was decorated with white ribbons and topped with a miniature bride and groom. Mrs. Dale Johnson served the cake and Mrs. John Hartzell, sister of the bride, presided at the punch bowl.

Following a wedding trip to Carlsbad, N.M., and other points of interest the couple will make their home at Briscoe, where the bridegroom is a teacher in the science department and coach of Wheeler High School basketball teams. Mrs. Johnson is a 1965 graduate of the Briscoe High School.

The newlyweds were feted with a wedding shower, hosted by the members of Wheeler High School basketball team. Some 50 persons participated in the event.

The single person who feels he is spending more per person for food than the member of a large family is correct. Research shows the single person spends about 20 per cent more per person on food than the person in a family of four or more.

Astrological Forecast

By CARROLL RIGHTER

FOR THURSDAY, FEB. 9
GENERAL TENDENCY: A day and evening when all kinds of chances are present for you to make much headway and progress by adopting a very formal, conventional and conservative attitude but at the same time a much confusion and modified thinking or deceptive conditions arise if you are in any way connected with the "unconventional" or the "subliminal."

ARIES (Mar. 21 to Apr. 19) — A considerable amount of data can be gotten today while discharging regular tasks. Take care you are not too forceful where money or romantic affairs are concerned, or there is trouble. Be ethical with everyone.

TALIESIN (Apr. 20 to May 20) — If you concentrate on work ahead of you and are steadfast, you will soon complete it, provided you avoid that associate who wants to make radical changes. Co-workers will cooperate better. Be courteous.

GEMINI (May 21 to June 21) — Personal aims are within easy reach, but being forceful where the material is concerned is most unwise. Show that you have special talents worthy of backing. You are able to get ahead very quickly.

MOON CHILDREN (June 22 to July 21) — Home and financial affairs can be accomplished well, but take care you do not take any unnecessary risks. Keep rooted in whatever increases security. Frequent about going off on tangents.

LEO (July 22 to Aug. 21) — An early start at your shopping or making calls of a professional nature will see you getting the right results. Garner information you need. Don't pass matters at home or you get into a peck of trouble.

VIRGO (Aug. 22 to Sept. 22) — Care

must be exercised while out driving or merely walking, etc. or there is bound to be some accident. Get monetary matters better handled, too. Show appreciation for the good will of others.

LIBRA (Sept. 23 to Oct. 23) — Getting busy on own interests is fine, but avoid that fast-talking individual who is trying to steal your property. Show others how attractive you can be. However, don't be too extravagant.

SCORPIO (Oct. 24 to Nov. 21) — Being more altruistic and helping those who are in dire need is important at this time. Getting rid of whatever impedes your advancement is also wise. More study is required before you follow strong urges.

SAGITTARIUS (Nov. 22 to Dec. 21) — Avoid too much deliberation on that particularly thorny problem you've been worrying about, but if you confide in good friends, it will be easier to solve. Or just get away from it all. Be social.

CAPRICORN (Dec. 22 to Jan. 20) — Getting out into the bustling business world is best instead of wasting time with those who like to gossip. Much advancement can come at this time. Be very busy and don't go off on tangents.

AQUARIUS (Jan. 21 to Feb. 19) — New contacts can be very helpful as well as communications with those who are out of town, but don't argue with one in business. Take the time to improve credit. Plan now so that it can be done wisely later.

PISCES (Feb. 20 to Mar. 20) — Experts will give you the advice you need, so listen intently to what they have to say. Avoid those new and untried sources. Get explanations before you sit down to study. Then all works out just fine.

CHARITY BALL DECORATIONS — Truteen Service League members are shown making decorations for the League's Charity Ball to be held Saturday evening in Pampa Youth and Community Center. Working on the decorations are left to right, Miss Linda Lumpkin, project committee member; Miss Nita Eads, member of the decoration committee; and Miss Martha McMullan, chairman of the decoration committee. Proceeds from the ball will go toward the League's scholarship to be awarded to a deserving Pampa High School senior.

Mrs. Miller Gives Allegro Program

A regular meeting of the Twentieth Century Allegro was held recently in the home of Mrs. R. E. Reid, 2712 Duncan, with Mrs. Robert Mack as co-hostess.

Mrs. Curt Beck, president, presided at the business meeting and final plans were discussed for the luncheon and style show to be held Feb. 14, in the Starlight Room of Coronado Inn. Proceeds from the style show will go to a Pampa High School senior.

Mrs. Jack Miller presented the program, "St. Paul, the Man." "Next to Jesus, the most important personality in the Christian religion was the apostle Paul - co-founder of the Christian religion," Mrs. Miller stated. "Paul had no armies for conquest or financial resources for propaganda. Only two hands to support himself, two feet to carry him, a sharp mind and an effective tongue. An intense person, a leader among Pharisees and Christians, utterly a man of conflict he always came back for more. He had an unusual capacity for friendship-gathered strong helpers who stayed to the end."

"He believed that classes separating men are bridgeable and that all men belong potentially to the family of God."

There is no evidence for the belief that he died a martyr's death and in one of his letters to the Philippians, he wrote he was unharmed while he made converts in the palace. It was in this business of making converts that he ended his days. I have fought the good fight, I have kept the faith, the speaker have kept the faith," the speaker concluded.

Gardening News

By THELMA BRAY

EDITOR'S NOTE — The article for today is written by Mrs. V. N. Osborn, a local authority on the growing of African Violets.

An African Violet is a house plant that is easy to grow. It is true that it has to be given its special treatment; but doesn't any plant that is worth growing? This writer finds that African Violets take no more special care than Begonias, Cacti, Amaryllis, or a number of other plants, and I know of no other house plant that will reward the grower with beautiful foliage and blooms all the time.

The most important requirements for growing African Violets are: a temperature of not lower than 60 degrees at night and not above 75 degrees during the day, high humidity, bright light, soil that is porous for good drainage and a regular feeding of the balanced African Violet food every ten days or two weeks, water from the top with warm water when the soil on top feels slightly dry. Water well until the water runs out of the pot at the bottom, then do not water again until needed. Never let an African Violet plant set in water.

There are so many types of foliage, color of blooms that you can have a beautiful display in your home when the weather outside is cold and wintry. All it takes is (TLC) tender, loving care, and African Violets do love that.

Don't be afraid to grow an African Violet. Growing them is like raising children; the person who knows nothing about it tells you what they would, read or what they would do.

P-TA Program To Be Presented by Rev. Vanderpool

The first Stephen F. Austin Elementary School P-TA meeting for the year 1966, will be held Thursday at 2 p.m. in the school auditorium. The theme for the program will continue with "We, the P-TA. Participate in the Community Story." This theme is carried out through the school year with each month a new thought given toward this goal.

Thursday's program will be given by the Rev. Harry Vanderpool will be introduced by Rev. We Help a Child by Developing Durable Values." Rev. Vanderpool will be introduced by Mrs. J. E. Thompson and the spiritual thought will be given by Mrs. Weldon Carter.

Mrs. Jack Hall's Brownie Troop will present the colors for February. An executive board meeting will be held in the principal's office at 1:35 p.m., with Mrs. S. Gene Hall presiding.

PE Wives Will Honor Husbands At Dinner Party

Husbands of members of Petroleum Engineer's Wives Society will be entertained at a Valentine dinner, followed by a card party, at 6:30 p.m. Saturday in Jim's Steak House.

Reservations for the event may be made by contacting Mrs. Paul Davis at MO 5-3497 before Friday evening.

side out.

Along with the enjoyment of growing African Violets there is a great deal of joy in sharing them with your friends. They make lovely gifts to give on any special occasion or for a sick friend in the hospital.

If you have some time on your hands, why not make good use of it and try growing a few African Violets?

Carpet Paths and Spots Easily Removed
or clean carpet wall-to-wall. Safe Blue Lustre re-brightens colors. Leaves nap fluffy. Heat easy-to-use electric shampoo. 1oz. 1/2 a day at Pampa Hardware Co., 129 N. Culver MO 4-2451.

Luncheon Honors Glynda Harrell

GROOM (Sp) — Miss Glynda Harrell was honored at a bridge luncheon recently in the home of Mrs. Bill Bohr.

The serving table, covered with a hand crocheted cloth, was centered with an arrangement of yellow roses.

Each guest brought a kitchen gadget which was presented to Miss Harrell.

Attending were Mmes. Carey McAdams, Jerry Kotara, Donald Clark, Martin Bailey, Ted Major, Austin Crowell, Jack Stephens, Carlos Roberts, Max Ray Faulkner, Wayne Stroope and Tom DeLoach.

NEW WAY TO BE SUDDENLY SLIM, COMFORTABLE, TOO

Los Angeles—Are you a woman whose figure is on the good side but might look perfect? You'll be thrilled by the new easy way science has discovered for you to become Suddenly Slim and yet completely comfortable. If you're more than 15 pounds overweight, then this idea is not for you. If your weight problem falls within this range, then you can realize a new, smoother figure today, without diet or exercise.

Suddenly Slim is an all-new kind of 4-oz. girdle constructed of science fibers. One startling innovation is the sheer nylon front panel. This is permanently stiffened by a science process and cannot give or sag. It's surrounded by a slimming action border. A featherstitched panel down each side of this girdle will contour your hips if they are a problem.

The girdle itself is of a "wonder" Lycra spandex blend. It's a new power net consisting of nylon, acetate and spandex. It is so comfortable, but has such slimming strength, it gives your figure everything that's possible with a foundation.

"Suddenly Slim," in both girdle and panty versions, is the peak achievement of the California designer-genius, Olga. They are available in our area at

Diets Can Save Hearts

By PAUL DUDLEY
WHITE, M. D.
Written for
Newspaper Enterprise Assn.
(Second in a Series.)
BOSTON — (NEA) — Today I am talking primarily to women—the stronger sex so far

bearing. The female sex hormones (estrogens) exert a protective influence.
At 45 to 50, for example, heart attacks are five times more common among men than among their wives. In the 30-50 age bracket, eight times more proportion of polyunsaturated (vegetable) fats in the daily diet.
So there is something you can do to delay or slow down this invisible disease process, not only in your husband's case, but

1. Shop for the right foods—Keep your husband's calories under control by buying only the proper foods.
2. Cook carefully—Avoid the use of butter and other animal fats when you prepare your husband's meals.
3. Suggest a check-up—Subtly convince your husband to visit his doctor for a regular physical examination.

as heart disease is concerned. Your husbands are welcome to listen in.
As you probably know, the female of the human species apparently enjoys a marked advantage over the male in susceptibility to heart attack—at least until she is well past child-

men than women die of heart attacks and under 40 the ratio is 24 to 1.
We had an even more striking contrast on a local scale: In a group of 100 heart attack patients under 40 studied in a single year (1964) at the Massachusetts General Hospital, only three were women.
Contrary to what you may be thinking, I am not trying to persuade wives to take a course in home nursing or to urge their husbands to increase their life insurance. What I have in mind actually is a kind of insurance for husbands—but it's the kind one cannot buy. And it doesn't cost a cent.
It's an old-fashioned prescription, when you get right down to it: an ounce of prevention.

American Liberal Broadcasts For Radio Hanoi

By WARREN WILSON
United Press International
COMPTON, Calif. (UPI) — A young, self-professed liberal who disagrees with U.S. policy on Viet Nam today claimed he was the "voice" of Radio Hanoi broadcasts urging American fighting men to lay down their arms.
Ronald Ramsey, 27, a short, bearded man who wears horn-rimmed glasses, told UPI today he produces tape recordings which are shipped behind the Iron Curtain and used for propaganda by North Viet Nam.
However, he refused to give details about production of the program which he said was known as "radio Stateside" and broadcast by Radio Hanoi.
Ramsey lives in a cluttered, one-room flat in the outskirts of the Watts area. Although he is white, he claims he is a "black nationalist."

Maybe your husband has recently had a checkup. If the doctor found his weight, blood pressure or blood cholesterol on the high side, he probably prescribed changes in his diet to correct these conditions.
Very likely his instructions were in the form of a printed leaflet or booklet, giving general guidelines as well as specific dos and don'ts. You take it from there. You conscientiously revise your marketing and cooking patterns, planning and preparing the kind of meals that will lead to the desired results. You do your best to produce attractive, palatable dishes within the prescribed limits of his diet; you banish "Verboten" foods from your kitchen forever and keep the calories under careful control. Incidentally, count the calories in the liquor you drink.
But suppose your husband hasn't had a checkup lately (it would be a good idea to persuade him, gently, to see his doctor); or better yet, he's young and in the pink. Do you go on in the same old way, serving fat and calorie-loaded goodies, while the pounds pile up, until the first warning signs of trouble appear? Why wait?

He said he appeals to U.S. troops as "one joe blow to another," asking them to quit the war and "come home and fight here . . ." an apparent reference to the civil rights struggle.
Ramsey, who has no known means of support, said he realizes his broadcasting activities might lead to jail. "But," he said, "someone had to come out in the open . . . we need to escalate our propaganda."

There is evidence also that we should eat less of the foods that contain large amounts of cholesterol—for example, egg yolks and liver. And for a candidate for atherosclerosis, it is wiser to use skimmed milk rather than homogenized or cream.
Dealing with overweight, while it also involves food, involves other elements as well, in subtle and complex relationships.

Witnesses at the auto hearings, noted that cars are not driven in show windows, but are subjected to the stresses, strains and hazard of freeway traffic.
Neither, I might add, are cocktail dresses worn in show windows—except by mannequins. Women wear them at cocktail parties, where the accident rate also has been rising.
If cars provide inadequate protection for their occupants, that is even more true of a lot of cocktail dresses.

These dresses not only are subjected to stresses and strains more intensive than freeway traffic; they create stresses and strains themselves. Particularly eye-strain.
I am thinking especially of the strain imposed on husbands who are trying to remain on speaking terms with their wives. They have to strain their eyes staring at the ceiling.
Desirable Items
All around you are dresses

We know that atherosclerosis—the build-up of fatty deposits on the inner walls of vital arteries which sets the stage for heart attacks—starts early in life, and silently, without pain or other symptoms. We know that blood cholesterol—one of the substances in these arterial plaques—can be reduced through changes in diet; by lowering consumption of foods rich in animal fat and cholesterol and by raising the

National Window

By LYLE WILSON
United Press International
The national welfare is badly served by public dispute between responsible general officers of the U.S. Army on the administration's conduct of the Viet Nam war.

The public was adequately confused even before Gen. Maxwell D. Taylor and Gen. James A. Gavin (Retired) got into the act. This confusion is aggravated by the increasing overlap of political and military strategy in Southeast Asia.
The situation now prevailing was ticked off in simple language more than 10 years ago by Gen. Douglas MacArthur after he was booted out of command in Japan by Harry Truman on general charges of gross insubordination.
MacArthur wrote that in the concluding frustration of the Korean war the militarists were playing politics and the politicians were playing military strategy. That invites the inevitable question: How mixed up can you get? The Navy had a word for it: Mubb. That was a contraction of mixed up beyond belief. The Navy had even more expressive contractions, any one of which could have been applied accurately to Korea then and to Viet Nam now.

Citizens in Quandry
American citizens scarcely know who or what to believe about Viet Nam. The Taylor-Gavin dispute increases the citizen's perplexity. It is an unhappy fact that there is no military man in present view who possesses public confidence in any marked degree.
It would be a safe bet that not one in 20 of the first pedestrians you might encounter of any U.S. main street could name the members of the Joint Chiefs of Staff or maybe even one of them. Of the great names that inspired public confidence during World War II, only one or two is still alive.

Abraham Lincoln penned his first letter in 1818 at the age of nine, asking a circuit-riding preacher to officiate at his mother's funeral.

AT HOME ON LAND OR FOAM—It's a boat, it's a land trailer and it's a mobile home anywhere. This amphibian attracted attention at the National Recreational Vehicle Exposition in Cleveland, Ohio. In water the 29-foot-long craft is capable of 30 m.p.h. with one or two outboards. Wheels, which save cost of boat trailer, retract in water. Regulation lights for both highway and waterway use are standard equipment. It boasts galley, sleeping accommodations, both 12- and 110-volt electrical systems.

The Lighter Side

By DICK WEST
United Press International
WASHINGTON (UPI) — Auto designers were sharply criticized at recent Senate hearings for being more concerned with styling than safety.
The very same charge could also be lodged against dress designers.
New spring collections displayed in Paris and other fashion centers manifest a shocking lack of regard for the safety of the prospective occupants, not to mention innocent bystanders.
Further amputation of the neckline, additional cross-ventilation of the rib-cage, and more emphasis on the so-called "fastback" line are the main engineering features of the 1966 models.
I need hardly point out that these are style modifications rather than structural improvements. Indeed, the net effect is to make the garments more insubstantial at points where they most needed shoring up.

Witnesses at the auto hearings, noted that cars are not driven in show windows, but are subjected to the stresses, strains and hazard of freeway traffic.
Neither, I might add, are cocktail dresses worn in show windows—except by mannequins. Women wear them at cocktail parties, where the accident rate also has been rising.
If cars provide inadequate protection for their occupants, that is even more true of a lot of cocktail dresses.

Four Texans Die in Viet Nam War

WASHINGTON (UPI) — Four more Texans have died in Viet Nam, the Defense Department announced Monday.
They were Air Force 1st Lt. Donald C. Smith, husband of Mrs. Billie Smith, (Route 4) Tyler; and soldiers, Pfc. Thomas D. Williamson, son of Mr. and Mrs. Thomas C. Williamson, (Route 1), Palestine, Sgt. Ardon W. Carter, cousin of Mr. Robert D. Carter, (1217 Boston) Deer Park and Capt. Foy M. Mathis, husband of Mrs. Judy Mathis (719 North St.) Gilmer.

HIGH ON VODKA
WARSAW (UPI) — On any given day about a half a million Poles are too drunk to work properly and economic loss from drunkenness runs to about \$400,000 a day, it was reported Tuesday.
The newspaper Sztandar Mlodych said the consumption of Vodka, called "the curse of Poland," increased by 7 percent last year, particularly among youth.

Quotes in the News

By United Press International
WASHINGTON — President Johnson on U.S. determination to succeed in Southeast Asia: "We shall fight the battle against aggression in Viet Nam; we shall fight the battle for social construction; and, throughout the world, we shall fight the battle for peace. And we shall prevail."
MOSCOW — Tass, the official Soviet news agency, commenting on the President's meeting in Honolulu with the leaders of South Viet Nam: "One cannot take seriously the assurance in the official communique on the intention . . . to continue the peace offensive."
MIAMI — Candace Mossler, accused of killing her husband, heard commenting at various times to her lawyer Tuesday during the testimony of prosecution witnesses: "A frameup. . . I never said a word. . . I've never seen or heard of this man."
WASHINGTON — Carl H. Madden, director of economic research for the U.S. Chamber of Commerce, saying that education and training would be a cheaper way of giving jobs to unemployables than creating inflation: "The price of inflation far exceeds the cost of making these people employable."

NOT GETTING CREDIT

WASHINGTON (UPI) — Idaho's two congressmen want the government to help defend the good name of one of their state's best known products — the Idaho potato.

Reps. Compton I. White, a Democrat, and George V. Hansen, a Republican, asked the House Commerce Committee Tuesday to hold hearings on legislation which would require potatoes sold in interstate commerce to be labeled as to state of origin.

"It is estimated that between two and three times as many potatoes are presently being marketed as 'Idaho potatoes' than are actually grown in Idaho," they complained. "Such a situation is not fair to the producer or the consumer."

WALLS HAVE EARS

WASHINGTON (UPI) — Rep. Barber B. Conable Jr., R-N.Y., says that "talking to a wall in the Soviet Union is not as fruitless as at home."

During a recent trip to Russia he was warned by U.S. officials that his every word would be surreptitiously monitored. He decided to test this out later when his flight to Tashkent was canceled and he got nowhere at the airport trying to arrange alternate passage.

"Returning to my hotel room, I complained in a loud voice about how bad a system must be that treated visitors so shabbily," he said in a report to his constituents Tuesday. "Shortly afterward, there came a call from the airline, offering a seat on the next plane."

Foreign News Commentary

By PHIL NEWSOM
 UPI Foreign News Analyst
 The red carpet, the plumed helmets and ceremonial swords of the guard of honor were there, and President Charles de Gaulle even described his West German guests as "good old friendly acquaintances."
 But whatever the sugar-coating and the attempts to show solid achievement, there really was not one single major his guest, West German Chancellor Ludwig Erhard, could agree.

In fact, the outlook was that the already strained relations between their two nations would become even more strained as time went on.
 The Germans are suspicious of De Gaulle's forthcoming visit to Moscow, fearing that one result could be a sell-out of their hopes for German reunification.

Holds Two-Pillar Concept
 De Gaulle holds the "two-pillar" concept of the Atlantic Alliance, one pillar being the United States and the other being a Europe independent of the United States. The Germans insist that the U.S. must have a role in Europe.

The Germans demand a voice in nuclear strategy. De Gaulle is adamantly opposed.
 And despite the fact that differences between the two within the six-nation European Common Market recently were papered over, there remains issues which cannot be papered over for long.

One concerns the future of Dr. Walter Hallstein, a German who heads the common market's authority in Brussels. De Gaulle accuses Hallstein of acting too much like the head of an independent government and wants him out.

Wall Street In Review

NEW YORK (UPI)—Thomson & McKinnon says the uncertainties are many and varied and are more likely to intensify than modify in the months ahead.
 The firm says even so, there are and will continue to be opportunities for timely investments and it continues to advocate a selective approach to new purchases.

Leslie M. Pollack of Reynolds & Co. says it regards the recent downturn as a normal setback and expects it to be contained within normal bounds.

Robert T. Allen of Shearson, Hammil & Co. says it would be prudent for investors to reduce their vulnerability by reducing debit balances where they have become overextended, holding some cash reserves and taking profits in some of the recent high flyers.

All Milwaukee-Atlanta Braves Need is Park

By SANDY PADWE
Newspaper Enterprise Assn.
PITCHING—There are many rumors about the future of the Braves. One is that they'll open the season in West Palm Beach. The other is that Gen. Eckert plans to send the team, under

the exchange program, to the Japanese Central League. The Nankai Hawks would come here, playing all their games on the road. This presumably would give the courts time to clear up all the litigation against the Braves. Where-

ever they go, however, they'll have a fair pitching staff, though not of championship caliber. Tony Cloninger won 24 games last season. Wade Blasingame and Ken Johnson 16 each. Hank Fischer and Dick Kelley still haven't proved they

can win in the majors. A comeback by Denny Lemaster, a 17-game winner in 1964, would help. Billy O'Dell had an outstanding year in relief in 1965. RATING—B Minus.
INFIELD—An excellent deal with the Red Sox brought Lee

Thomas to the Braves. He'll play first base, a position occupied primarily by two catchers and an outfielder last year. Thomas is a long-ball threat which makes the Milwaukee offense even more potent. Frank Bolling again will be at second

and Eddie Mathews at third. Mathews is 34 but had a good year in 1965 with 32 home runs and 95 RBI. At short it will be either Dennis Menke or Woody Woodward. RATING—B.
OUTFIELD—Henry Aaron and Rico Carty are two of the best hitters in baseball. Aaron

finished at .318 last year, Carty at .310. Then there is Felipe Alou who hit .297 with 23 home runs. And Mack Jones who had 31 home runs and 75 RBI. Nothing like stockpiling. RATING—A.
CATCHING—Joe Torre may be the best catcher in the major leagues. Last year was another good one for him. He hit .291 with 27 home runs and 80 RBI. Gene Oliver, who played a lot at first, was in 122 games, and hit .270 with 22 home runs and 58 RBI. RATING—A.
BENCH—Rico Carty had back trouble last season and Dennis Menke knee problems, so the Braves must be prepared. Gary

Geiger, drafted from the Red Sox, is a possible outfield replacement, along with Frank Thomas. Sandy Alomar and Mike de La Hoz are the infield reserves. John Blanchard can catch, play first base and the outfield. RATING—C Plus.
SUMMARY—It's always comforting to go into spring training not knowing if you should have an "A" or an "M" on your hat. Since the players are professionals, all the legal entanglements aren't supposed to worry them. It should be interesting, however. About the only thing the team needs is more depth on the pitching staff. Oh yes, they could also use a ball park. Prediction—6th.

Monterey Edges Pampa In Final Quarters, 39-34

Harvesters Held To Eight Last Half Points

By RON CROSS
News Sports Editor

LUBBOCK (Spl) — Determined Monterey threw a blanket over Pampa's offense in the final two periods Tuesday night, holding the Harvesters to eight points in the final 16 minutes, and took over undisputed possession of first place in district 3-4A.

The Plainsmen lead second half action with a 7-0 record with Pampa second at 6-1. Monterey closes out regular season play Friday against Lubbock's Westerners while Pampa journeys to Amarillo to tangle with Tascosa.

The loss snapped an eight game winning streak for Pampa, now 21-5, and was the Plainsmen's 12th straight victory and sent their record to 22-2.

Pampa had the game and a cinch tie for the second half district title in their hip pocket at halftime, leading 26-22.

But what had been their best quarter this season ended up being their worst when the chips were down.

So tight and tough was Monterey's defense in the third quarter Pampa managed only one point, that a free throw by Mike Wise. Pampa's leading scorer for the night with 11 points.

David Cain contributed 10 points, nine in the first half, and had two sure buckets drop in and then drop out of the basket in the final minute of play.

The Harvesters shot only three times in the first eight minutes of the second half while the Plainsmen fired nine times and connected twice and added a free throw for five points and a 27-27 tie.

Steve Hardin put Monterey out front at the start of the fourth period on a basket, 29-27 but Mike Wise scored Pampa's first basket in the second half one minute deep in the fourth period to tie it.

But the Plainsmen went out front to stay just 5:30 from the end on a bucket by Ken Coleman. Cain followed with a free shot to cut it to 31-30 and that's as close as the Harvesters got.

Pampa got control of the ball 3:39 from the end but failed to score.

The Plainsmen ran the count to 33-30 with 2:10 to go and Crossland cut it to 33-32 with a couple of charity tosses—six minutes into the game.

Wright connected again, his 14th point of the game, high for Monterey, then Steve Williams hit his first bucket of the night to make it 35-34 with 35 seconds left.

Pampa fouled in an attempt to get the ball and Dave Reed tossed in four straight free throws in final 28 seconds to ice it for the Plainsmen.

Aggies All Alone in SWC

By United Press International
Dick Rector scored three crucial baskets for Texas A&M to beat Texas Tech 77-71 Tuesday night at College Station and leave the unbeaten Aggies high atop the Southwest Conference race today.

At the mid-point of their 14-game league schedule Texas A&M has a clear three-game lead over the field. All other teams have suffered at least three defeats so far.

Southern Methodist mauled the Baylor Bears 95-65, the University of Texas came from behind to beat Texas Christian 77-75, and Arkansas edged Rice 76-71 in other games—three.

Tech Favored
Tech was favored over the Aggies, partly because shot put

star Randy Matson was not supposed to play for A&M. But the giant rebound specialist braved an injured knee and did see action, and Matson figured in the winning spurge. He stole the ball with the score tied 63-63 and fed it to Rector for a lay-up.

Then Rector stole the ball himself and drove in for another basket. Finally, Aggie Dick Stringfellow picked off a wayward Tech pass and fed to Rector for his third straight basket to put A&M in front to stay, 69-63.

Tech's hotshot guard Dub Malaise was held to eight points, while Aggie guard Eddie Dominguez scored 22 points to pace his team.

SMU had to play without star center Carroll Hooser, who was

sick, but still fashioned a lethal fast break for Baylor in Dallas. The Mustangs hit 55 per cent of their shots from the field, gaining a 47-33 halftime lead and coasting to victory over the Bears who managed only 38 per cent. Charles Beasley led SMU with 23 points but Darrell Hardy got 27 for Baylor.

Texas upset TCU when Dale Dotson hit a 20 foot jump shot at the buzzer—the only time the Longhorns led all night. He wound up with a total of 22 points, the same number Wayne Kreis had for the losers.

With 1-42 to play the Longhorns tied the game 75-all and

Kreis lost the ball on an offensive foul. Texas stalled the last 90 seconds, letting Dotson take the final shot as time ran out. Both teams were left with 3-4 records.

Arkansas beat Rice from the free throw line, hitting 24 of 28 attempts. The Hogs overcame three 10-point leads by Rice in the first half. Scoring leaders for Arkansas with 15 each were J. D. McConnell and Steve Rousseau—but forward Bill Doty got 22 for Rice before fouling out.

In other Texas collegiate basketball, Arlington State toyed with Angelo State until the last 10 minutes before pulling away 99-82.

Briscoe Races To 26th Straight Win

Briscoe built up a 40-29 halftime margin and rolled to an easy 84-62 decision over Wheeler Tuesday night.

Tom Hays paced the Bronchos to their 26th straight victory without defeat with 21 points, Dan Dorman and John Chapman shared high point honors for Wheeler with 17 each.

The Briscoe girls led only 8-7 after one period but stretched it to 24-17 at halftime and downed Wheeler, 45-26.

Lou Meadows paced Briscoe with 20 points and Donna Ford hit 13 for Wheeler.

Groom and Samnorwood split a pair of games.

Groom boys rolled to a 57-34 victory after leading 22-12 at halftime and the Groom girls lost 67-41.

Jerry Roberts paced Groom with 17 and Augustin Zermena hit 11 for the losers.

Pat Hunt hit 22 for the Groom girls and Suzie Bentley 29 for the winners.

Allison romped over Mobeette twice, 55-49 in the boys game and 72-35 in the girls contest.

Allison led 35-12 at halftime in the girls game and were paced by Sandra Keeler with 38 points. Judy Bailey led Mobeette with 28.

In the boys game Allison old only 28-22 at the half. Everett Childress scored 22 for the winners and Gerald Gudgel hit 21 for Mobeette.

Miami walloped Lefors in a doubleheader, winning 65-34 in the boys game and 43-24 in the girls contest.

Beverly Weiss paced the Miami girls with 18 points. Judy Barnes hit 12 for the losers, who trailed only 19-12 at halftime.

David Bowers poured in 24 points for the Warriors, who led 43-8 at halftime and Tilden Moore contributed 15. Jerry Warner hit 13 for the losers.

White Deer stopped McLean

previously averaged 90.4 points per game. Frank Hollendoner led Georgetown with 23 points.

Texas A&M almost wrapped up the Southwest Conference title by defeating Texas Tech 77-71. In another Southwest game, Dale Dotson hit a 20-foot jumper at the buzzer to give Texas a come-from-behind victory over Texas Christian.

In other games, Penn State beat Ken State 94-72. Boston College defeated Massachusetts 101-80. Georgia Tech whipped Furman 110-68. Davidson edged Richmond 80-74. Detroit tripped up St. Bonaventure 89-84. Arkansas downed Rice 76-71 and Southern Methodist beat Baylor 95-65.

Georgetown won its eighth straight by defeating Rutgers 76-73 in an overtime contest. Rutgers used a determined attack and defense to slow down the taller Hoyas, who had

and with a 522 series—that's really something.

Yvonne Thomas will be up there too, and you should watch her do a ballet dance on picking the ten pin. All this, while Aline Keel is the most nonchalant person at having a 541 series and a 201 game.

This is the heart breaker of the week. Tiny Harmon and Mary Ray bowling in the same league Friday night had a real battle for high honors. Mary Ray had a 206. Tiny had a 206. Mary had a 539 series and Tiny a 538. Could it have been any closer? The clinch throw, was Roy Ray high for men with 536 and a 200. The women have just got it—that's all!

Lonnie Harmon did his best to keep the men in the limelight by bowling 248-252 for a 659 series. He certainly didn't have much help from the rest of the men. Typically a 203 was high in the Classic.

Chris Beck is talking after his eminent parents as a first class bowler. He had a 534 series with high game of 188 and that's pretty steady bowling. Jackie Clark had a nice game too, a 165.

Stu Murchison had his biggest thrill when he showed his big brother Bruce Murchison how to bowl. He beat him almost 40 pins on total. The Bantams and Juniors are really taking an interest in their bowling this year. I wonder if it is because so many of the winners on the TV shows have been comparative youngsters. These last few weeks the bowling on the PBA tour has been topflight with some mighty smooth bowlers in action. By all means watch these shows. You will not only enjoy them but you can learn a lot about bowling.

Well, I believe that's all for this week but after the tournaments we will have a little more time for more news.

Bowling Breaks by Gil

The Mens City Association Tournament started rolling this Saturday and Sunday and already some very good scores have been posted.

Presently in first place in the Scratch All Events, which is of course one of the highest honors, is Jesse Smartt. Jesse has 1788 for nine games of competition and that is just under a 200 average.

John Snuggs our usual news headliner, is out in front with a huge 1928 for the handicap All Events. Needless to say John bowled three nice series.

Top team at present is Whites Stores Inc. with 2989 and not far behind is Celanese Traffic.

Red Watson and Jesse Smartt teamed up in the Doubles and posted a very formidable 1313 and just behind is the team of J. Otey and Roland Bowden with 1303.

Singles also started at a high level with Buddy Epperson shooting 699; second place is held by Roy Stephens 684.

All these scores are going to be mighty hard to beat but since the tournament is only half over anything can happen.

Firing starts again this Saturday and Sunday and we would like to see a lot of you people out at the lanes watching all of the Pampa bowlers in action.

Kent Olsen was apparently getting in practice for this event by bowling first a 103 and then a 225. Quite a change.

It's too bad too that Rosa Lee Hendricks wasn't eligible to bowl in the Men's tournament. Bowling on a 131 average this week, she had a 573 and a 514 series as well as a 216 game.

Fact of the matter the women all had a big week.

Mary Clark had her first 200, a 203 and that was after a 95 game.

Retha Oler, an almost new bowler, also had her first 200

previously averaged 90.4 points per game. Frank Hollendoner led Georgetown with 23 points.

Texas A&M almost wrapped up the Southwest Conference title by defeating Texas Tech 77-71. In another Southwest game, Dale Dotson hit a 20-foot jumper at the buzzer to give Texas a come-from-behind victory over Texas Christian.

In other games, Penn State beat Ken State 94-72. Boston College defeated Massachusetts 101-80. Georgia Tech whipped Furman 110-68. Davidson edged Richmond 80-74. Detroit tripped up St. Bonaventure 89-84. Arkansas downed Rice 76-71 and Southern Methodist beat Baylor 95-65.

Georgetown won its eighth straight by defeating Rutgers 76-73 in an overtime contest. Rutgers used a determined attack and defense to slow down the taller Hoyas, who had

and with a 522 series—that's really something.

Yvonne Thomas will be up there too, and you should watch her do a ballet dance on picking the ten pin. All this, while Aline Keel is the most nonchalant person at having a 541 series and a 201 game.

You will not only enjoy them but you can learn a lot about bowling.

Well, I believe that's all for this week but after the tournaments we will have a little more time for more news.

previously averaged 90.4 points per game. Frank Hollendoner led Georgetown with 23 points.

Texas A&M almost wrapped up the Southwest Conference title by defeating Texas Tech 77-71. In another Southwest game, Dale Dotson hit a 20-foot jumper at the buzzer to give Texas a come-from-behind victory over Texas Christian.

REPEAT PERFORMANCE—Eddie Mathews has been repeating this scene regularly since he broke in with the Boston Braves back in 1952. He's the only member of the Boston team still on the Brave's roster.

The Pampa Daily News

A Watchful Newspaper
NEVER STRIVING FOR THE TOP O' TEXAS
TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

Equal 'Right' to Kumquats

John Toohy of Lima, Ohio, wrote a personal letter to President Johnson asking for assistance in the New Anti-Poverty Program. "There's something troubling me, Mr. President. Lately, the first thing I ask my wife when I come home from work: 'What's he done for us today?' With all the goodies you have been dishing out... poverty kaput, dinero for the drop-outs, even help on the rent. Well, with everybody getting, and me just plugging a way working for a living, I'm getting rather impatient waiting for you to come up with something for Yours Truly, so that I, too, may become a part of 'The Plan.'"

This is typical of the feeling that is being developed across the nation by all the people. If it is good for some of the people why not all of the people. For example:

Mr. Toohy does have a problem and it can be solved by L. B. J. His neighbor has a kumquat tree, the only kumquat tree in the entire neighborhood. Now the neighbor has been very attentive toward this tree, watered it, pruned, fertilized and even covers it with a netting during the harvest season to "keep the birds from ruining the crop." The neighbor is sort of "one-way." After the crop is ready to eat, he keeps all of the fruit for himself; the neighbors can just go jump, and this makes Mr. Toohy very unhappy.

All he asks from President Johnson is a little aid: "Could you run through a bill that will provide me with equal kumquats from my neighbor's tree, free-of-charge-of-course? If he objects I suggest that you subsidize him for the part he gives me. If this fails, will you please just send him a check and ask him to stop raising kumquats. We must have equality. Mr. President, and you are the one to equalize all of us."

FCC Should Keep Hands off CATV

The Federal Communications Commission will convene in Washington tomorrow to tackle the question of what controls—if any—should be imposed on Community Antenna Television (CATV) systems now springing up around the country.

The final decision may have far-reaching effects on the system as a whole and on the system planned for Pampa by Dale Greenhouse and Calvin Fraser, recently granted a local franchise for cable TV.

Greenhouse charged recently that if some rules being considered by the FCC are adopted, the federal government will, in effect, be telling TV cable subscribers what television programs they can and cannot watch on their home sets.

The community antenna firms are set up in various parts of the country to provide a service to people who want to buy it. The operators guarantee the system will project clearer TV picture, bring in stations not ordinarily received, carry local time and weather service programs.

CATV officials say they have been informed that the FCC has proposed to restrict the service of cable firms, although Congress has held hearings on the community antenna systems and has not yet announced any conclusion.

There is said to be some controversy between broadcasters and CATV.

Pampa Congressman Walter Rogers said that he had been told by the FCC chairman that the FCC will meet tomorrow and go over the whole matter and work out differences that exist.

Rogers said that the FCC will report back to the Subcommittee on Communications and Power, of which Rogers is chairman, for further discussion.

The congressman stated that the meeting between the subcommittee and the FCC will determine "whether Congress should intervene in what has been charged as usurpation of power by the FCC."

The News believes any proposal by the FCC to regulate CATV would be another attempt by a political agency to interfere with business establish-

Capitol Eye: LBJ Charts Major Civil Rights Talks

By BRUCE BLOSSAT
Washington Correspondent

WASHINGTON (NEA)—President Johnson is getting very close to decisions affecting a springtime White House conference on civil rights which he hopes will avert the pitfalls that last November's planning session suffered.

That earlier meeting actually produced some very useful ideas. But it was agreed there were largely buried amid a good deal of stale argument and much dickering between militant and conservative civil rights leaders as to the course their movement should take.

Acutely aware of this situation, the White House is said by outside sources to be prepared to spend up to \$350,000 or more to mount a larger parley this spring—perhaps in the last week of May.

Staff discussions in the White House have been frequent, indicating the high degree of the President's own interest in the subject.

Nevertheless, there are still sufficient rumblings from civil rights leaders and others to suggest that the President will be hard-pressed to bring off a full-blown conference satisfactory to all.

One civil rights source in New York reports that some leaders there were so disenchanted with the November meeting that they would like to see an entirely new conference staff created to manage the spring affair.

That staff is now down to a waning skeleton and is operating in tightly condensed Washington office space. This fact has further irritated some in the civil rights movement, who read the trail interim staff as a sign of intermittent White House interest.

Not all the rumblings come from Negro leaders unhappy with the November business. One high-placed white participant in that conference has told Washington sources he is greatly disturbed and even "frightened" at what he considers the badly fragmented Negro leadership in this country.

This participant believes the November conference demonstrated forcefully a lack of cohesive Negro leadership, and nothing which has happened since alters this impression. Disgruntlement exists, too, over the fact that the final report to the White House on the earlier parley was delayed at least six weeks beyond the original target date in mid-December.

Admittedly this has slowed White House planning for the spring session.

Despite these and other complaints, the more settled elements in the civil rights movement expect the President to go all-out to develop a full-sized conference which might serve as some kind of watershed.

Many Negro leaders privately concede they are floundering, that they need new directions and new drive. They agree that the era of protest, as expressed simply in sit-ins and street demonstrations, is passing.

By the time a new conference is held, these leaders may have had their confidence somewhat bolstered by further presidential actions.

They do not believe it is altogether accidental that Johnson has chosen this time of doubt and confusion to name a sizable string of Negroes to high federal posts—including the federal judgeship awarded to Constance Baker Motley.

They expect the President also to press for quick congressional delivery on legislative proposals to afford better physical protection for civil rights workers and assure Negro representation on southern juries.

Sympathizers with the civil rights movement say, however, that they are still looking for evidence of fresh initiatives and better collaboration among the Negro leaders themselves.

Around-The-Clock Russian Airlift to North Viet Nam Via Red Chinese Bases

By ROBERT ALLEN and PAUL SCOTT

WASHINGTON — Russia is conducting a huge arms airlift to North Viet Nam and Communist-controlled areas in Laos.

The air shuttle, of daily round-the-clock flights from deep in the Soviet Union to airfields near Hanoi and Haiphong, is using a fleet of more than 100 giant cargo planes.

The Russian aircraft, including the largest cargo carriers in the world, are making regular refueling and repair stops at strategically located airfields in Red China and North Korea.

The Soviet arms airlift is using Peking's largest airport under an agreement worked out early last year by Kremlin troubleshooter Aleksandr Shelepin when he visited China and North Viet Nam. During this trip, he spent five days in Peking.

Many of the largest Soviet planes fly non-stop to Hanoi. Other uses Nanning, China, a key rail junction point, near the North Vietnamese border, as their unloading point. Smaller, two-engine aircraft hedge-hop over the mainland, making a series of stops before reaching their destination in Laos near the South Vietnamese border.

This is the latest grim Viet Nam development the Joint Chiefs of Staff reported to the House Military Appropriations Subcommittee during the closed-door hearings on President Johnson's \$13 billion Viet Nam emergency war budget.

The Joint Chiefs, who are seeking authorization from President Johnson to bomb these airfields, estimate that up to 10,000 Russians and Soviet-bloc personnel are keeping continent-spanning arms ferry operating.

GETTING THE FACTS — Under persistent and sharp grilling, General Earl G. Wheeler, JCS chairman, revealed that latest intelligence reports clearly show the Russians greatly expanded their airlift during the 37-day bombing lull.

It was during this period that President Johnson's peace-seeking emissaries were reportedly working closely with Russian diplomats throughout the world trying to persuade Hanoi to come to the conference table.

In his backstage report on the build-up of Soviet and Chinese arms in North Viet Nam, General Wheeler stressed that "the Russians are now bringing into North Viet Nam as much tonnage by air as by sea."

He also noted that the North Vietnamese airfields used by the Soviets are "out-of-bounds" for U.S. pilots, and that they are under orders not to attack the Russian aircraft unless fired on first.

General Wheeler explained to the somber legislators that the decision not to attack the Soviet planes was made by President Johnson on the recommendation of his diplomatic advisers.

While Wheeler did not name them, congressional sources with contacts inside the White House say that Secretaries Rusk and McNamara are vigorously opposed to any military action that would disrupt or block these air shipments.

The two cabinet members, who favor U.S.-Russian collaboration on Viet Nam, reportedly contend that attacks on the Soviet airlift would upset delicate negotiations with the Kremlin.

WASHINGTON

Mao Venture Tightens Red China's Belt

By RAY CROMLEY
WASHINGTON (NEA) — Curiously enough, Red China may become a captive of her expensive nuclear missile program.

To develop a meaningful production of nuclear weapons and missile delivery systems, Mao Tse-tung must use a hefty slice of Communist China's technical brains and critical resources for a decade.

Sustained diversion of scientists and engineers, raw materials, manufacturing skills and funds to the nuclear program would hold down Mao's ability to wage aggressive war, expand his industry and solve agricultural shortages.

Soviet Russia's slowdown in industrial growth began when she started to divert more skilled men and resources to nuclear weapons and space while trying to keep her armies large and well-equipped.

Mao at home already is faced with continuing enormous economic problems. Farm food output is now believed at about the 1967 level. But Red China's population has grown 100 million since 1957. This year Mao will have to import 6 million tons of grain and keep his people on short rations.

Mao has been making progress in industrial development, in the production of such scarce resources as petroleum and in building a national network of repair facilities. But his industry is plagued with shortages and breakdowns. Mao's Red China, like Brezhnev's Russia, has not solved the problem of allocating scarce materials. Therefore, mainland China's development is spotty.

More Chinese are becoming impatient with this progress. The revolutionary generation is getting old. Many men who have grown up in the last 20 years don't have the old fervor. They want more evident material progress.

These home problems put heavy pressure on Mao to be cautious, however loudly his propagandists speak in public.

But "caution" as applied to Mao must be defined. Caution won't keep Mao from "careful" adventures on the Indian border (but he'll make certain he has a line of retreat). Caution won't keep him from shelling Quemoy and Matsu off the China coast opposite Formosa. Caution won't keep him from upping his aid to North Viet Nam nor make him reluctant to send revolutionary agents to Africa, Latin America, Thailand or Burma.

It probably wouldn't prevent him from sending in his armies, if U.S. troops moved up to the China border in North Viet Nam.

But caution (and his domestic problems) would make it extremely difficult for Mao to send his armies to South Viet Nam or infiltrate "volunteer" cadres in numbers large enough to invite U.S. bombing of China.

1964, when her visit was marred in Quebec by hostile demonstrations.

VIET NAM FLASHES — Several of Russia's "flying boxcars" are propelled by jet engines with 50,000 pounds of thrust. U.S. Air Force authorities say this country won't have engines of similar power until 1969.

Queen Elizabeth will visit Canada in 1967 to attend that country's centennial celebration. She reportedly wants to come to New York City during the trip. The Queen was last in Canada in the fall of

The Clearing House

Articles for this column are preferred to be 300 words or less in length. However, longer articles may be printed. All letters must be signed.

Editor: Glaring in its omission from the President's State of the Union Message was a request it should have contained: A request that Congress declare a State of War exists in Vietnam. The word "victory" was also glaringly omitted!

These omissions, however, are shameful and revolting, at the moment do not concern me nearly so much as the apathetic attitude of the American people.

I recall WW II, and how the Americans rallied together with courage and determination. We thrilled when Old Glory marched by, and we all worked in unison, jealously guarding our freedoms and national sovereignty. We also walked with God, for we recognized Him as the Author of our liberty, and Christ the Cornerstone upon which this great nation had been founded. God hadn't been stripped from our schools and courts in those days, and we all sang loud and clear "Praise the Lord and Pass the Ammunition!" Every American stood ten feet tall, each sacrificing gladly to keep our nation free, and we sent our sons to fight, and many to die, for we all agreed with Patrick Henry's "Give me liberty or give me death!"

A mother cried in agony when her son's blood stained the earth, but her eyes also filled with tears of pride, for she knew that he had made the most noble of sacrifices, and was a hero in the sight of God and beloved Country.

But war was called war in those days, and we were out to win! Our government officials weren't crawling over the world, begging Hitler for "peace at any price"! Can you imagine what would have happened if anyone, including the President, had even suggested such a thing? Can you imagine what would have occurred if long-haired unwashed creeps had staged flop-ins and sloop-ins on behalf of "peaceful coexistence" with Hitler? Can you picture the Americans standing silently while pro-Hitler professors swarmed over our campuses, brainwashing our youth, and advocating a one-world

government with the Hitler regime? Fantastic? Yes indeed, but no more fantastic than what is happening today! As the American people hide behind their boob-tubes, "our" government continues to crawl cowardly before the Bolshevik Beast; continues to send billions of our tax dollars and goods to bolster the strength of the enemy as he butchers our sons in Vietnam! And while our precious boys shed their blood supposedly fighting communist aggression in that steaming hell-hole, they continue under the "command" of a communist in the U.S. Security Council. Fantastic is right!

So this is the Great Society! Look again, America - this is the Sick Society! Could it be that we are already an "occupied" country? If not, why is not war declared war, and why not victory? And since when did treason cease to be treason? And why else would "our" government give aid and comfort to an avowed enemy who has promised to smash us when the time is ripe?

"Spit in their faces, and they call it dew," boasted Khrushchev and a Sick Society finds this boast to be true. Why, America, do we allow this treachery? Where are the voices that should be raised in righteous indignation? We know the impossibility of "peaceful coexistence" with this satanic enemy. History has proven it over and over. "Promises are like pie-crusts, made to be broken," spoke Khrushchev clearly. Why can't "our" government believe what the enemy tells us over and over again? Why does "our" government continue to protect Castro's terror regime, forbidding the Cuban patriots even the chance to free their own land? Same for the Free Chinese, who want to fight the Viet Cong, in our stead, and beg the opportunity to free their country? Why have we not blockaded Cuba and North Viet Nam? "Our" government didn't hesitate a moment to blockade White Christian Rhodesia who, in the same spirit of our own Declaration of Independence, fights for freedom as we once did in 1776?

Why? Why? Why? Wake up America, and stand up for God and Country. The hour is much later than you think.

The Almanac

By United Press International
Today is Wednesday, Feb. 9, the 40th day of 1966 with 325 to follow.

The moon is between its full phase and last quarter. The morning star is Venus. The evening stars are Jupiter and Saturn.

The ninth president of the United States, William Harrison, was born on this day in 1773.

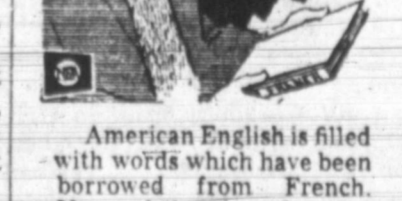

On this day in history:
In 1900, 7,000 construction workers in Chicago voted to strike for an eight-hour day.

In 1943, Japan evacuated Guadalcanal in the Pacific in the face of overwhelming American military superiority.

In 1950, Sen. Joseph McCarthy, R-Wis., charged that the State Department was infested with Communists.

A thought for the day—American poet Joaquin Miller wrote: "That man who lives for self alone lives for the meanest mortal known."

Matter of Fact

American English is filled with words which have been borrowed from French. Many of these words crept into our language as a result of early French settlements on the North American continent. Many are words used to describe the features of the vast inland area where the Frenchman was the first white person to appear. Among these words: prairie, depot, mill.

Hunt for Truth

BY H. L. HUNT
BLACKOUTS AND BUREAUCRACY

The recent power blackout on the Eastern Seaboard opened another crack through which federal control over almost everything will ooze.

First among the collectivists to grab the opportunity to advance collectivism was Democratic Congressman Wright Patman, of Texas.

Patman, in a television appearance, said that the blackout indicated further need for governmental activity and possible legislation. He proposed to bring the subject before some congressional committee, probably his own.

One of the obvious causes of the mass blackout was the fact that so many utility companies in so many different cities were hooked together in this giant power grid. Yet Patman's solution ignores this fact, proposing to join the electric systems of the entire country together, all the lights in the nation could be blacked-out by a tripped relay.

With a logic born of years of appealing to the mentality that craves to share in the unearned, Patman saw no reason why one part of the country should be without power, when the rest has it. To prove such a concept, he used as his example the Soviet Union, where, said Patman, electric power is transmitted thousands of miles. He added that if the Russians could do this, we should be able to transmit power from such sources as the Tennessee Valley Authority (TVA) complex.

In cases where peak demands justify purchases of power from other areas, America's private power companies appear capable of managing their own business. Considering the questionable state of world affairs, it would seem that politicians and bureaucrats should concentrate on managing theirs.

Wall Street Chatter

NEW YORK (UPI) — Kenneth B. Silen and Kenneth Safian of Purcell, Graham & Co. say the outlook for the market over the near-term still appears to be generally favorable but a cautious attitude is called for due to continued deterioration in the longer term technical and fundamental indicators.

The analysts say that since a market top does seem to be forming, a hedged position, long and short, is advised.

Tessel, Patrick & Ostrau Inc. says full retention of current commitments and adding to trading portfolios on a selective basis still appears warranted.

John C. Hammerslough, editor and publisher of the Hammer Report, says he believes the current consolidation will continue but any reaction will be mild and positions should be maintained.

HALF OPENED — The nation's interstate highway system has passed the halfway mark.

WASHINGTON (UPI) — The nation's interstate highway system has passed the halfway mark.

NEW DELHI (UPI) — India has rejected as a "massive lie" manufactured in Peking" Communist Chinese charges that Indian troops made 300 intrusions into Chinese territory between November, 1962, and September, 1965.

In a note handed to the Communist Chinese embassy Tuesday the Foreign Ministry accused China of building up "hypocritical pleas of self-defense" for its military occupation of 14,000 square miles of Indian territory in Ladakh.

- gives increased power

DO THIS 10-SECOND BATTERY CHECK TODAY!
Raise the hood of your car and look at the battery. A green or white formation around the battery or terminals means sulphation and sulphation means your car's battery is dying. You need VX-6 immediately, or you will soon have to spend money for a new battery. If there is no sulphation, you can prevent it by adding VX-6 now — it takes just a minute to increase the life of your battery by years. VX-6 is backed by an unconditional money-back guarantee, for 6 or 12 volt batteries.

Walter Rogers Reports:

Incorporation Would Spell Doom for SBA

The Small Business Administration is marked for destruction under a proposal to place it within the mammoth bureaucracy of the Department of Commerce. I have long held that there are too many boards, bureaus, and agencies in the Federal Government — and I have long been critical of the Small Business Administration

for abusing its powers and for concentrating too heavily on big city problems. But the fact remains that in all of the Federal Government, only the Small Business Administration speaks for the small businessman. I believe the SBA should be preserved as an independent agency and not buried in the Commerce Department. The SBA needs improving, it needs to be made to do better what it is supposed to do, but it should not be killed as part of the continuing concentration of Government power.

Publishing Heir Faces Homicide In Girl's Death

NEW YORK (UPI) — Robert Friede, an heir to the Annenberg publishing fortune, was charged with homicide Monday in the death of his girl friend — a 19-year-old high school drop out.

Friede, 25, the grandson of Moses Annenberg, the late newspaper-magazine tycoon from Philadelphia, was arrested in a rented automobile during a routine check. Police found the frozen body of Celeste Crenshaw stuffed in the trunk.

The medical examiner's report said an autopsy disclosed that Miss Crenshaw, a pretty, strawberry blonde, died of "acute and chronic intravenous narcotism," an overdose of narcotics.

Police said Friede admitted he injected the narcotics into the left arm of Miss Crenshaw about two weeks ago.

He was charged with homicide, illegally transporting a body, failure to notify authorities of a death and possession of narcotics.

Dudley Watson, a 37-year-old musician, also was held in connection with the case. He was charged with possession of narcotics and a hypodermic needle and illegal transportation of a body. Police said Watson helped Friede put the girl into the trunk.

A patrolman stopped Friede's automobile early Monday in Manhattan. During an investigation, police said, the patrolman saw two cellophane bags of white powder drop out of Friede's wallet. Police, suspecting the powder to be narcotics, searched the car and found the girl's body.

The small businessman is too often the overlooked victim of increasing bigness in Government and the economy. The danger of Big Government, Big Business, Big Labor is a subject of great concern. Bigness is a very real threat; size alone can be a ruinous factor in business competition. It is a problem Congress has had to tackle over and over as the country has grown because there has been general recognition that the small entrepreneur is — all through our history — a basic strength in our economic system.

I'm opposed to submerging the Small Business Administration in the vast bureaucracy of the Commerce Department. Although I have been frequently critical of SBA policies as not being fully responsive to small businessmen's problems, the agency has maintained its independence and does report directly to the President. As of now, it is not susceptible to policy misdirection by a large Department where big fish might seek to devour the small.

Centralization is a danger at all levels of Government. We have witnessed — to the deep regret of many of us — the diminution of the Constitutional doctrine of separation of powers. States and cities have lost their influence as power has shifted to Washington, and our efforts to reverse the trend meet with little success. Now a very dangerous new power axis is forming — that between the big Federal Government and the biggest U. S. cities. This is a form of centralization which we're familiar with. Another kind takes place within the Federal Government structure. This is the kind that resulted in putting together unrelated departments during the Eisenhower Administration to form the cabinet-rank Department of Health, Education, and Welfare.

HEW, as it is called, is a hodge-podge of activities and only the most far-fetched argument would support the idea that the U. S. Public Health Service, the Office of Education, and the Social Security Administration (not to mention other functions under the HEW wing) have any business being included under the same centralized administration. This, error, despite my objections and those of others, was repeated last year when separate and independent agencies of the Government were lumped together to create the new cabinet-rank Department of Housing and Urban Development. Although its activities are more closely allied in purpose than those in Health, Education, and Welfare, the new department (called "HUD" for short) is going to pose problems common to any organization with a centralized administration and set of policies. For example, HUD in my view threatens to concentrate so heavily on urban matters that its responsibilities in rural and semi-rural areas may suffer.

Voices speaking for small interests must be preserved in this Government. The Department of Agriculture, originally the voice of the farmer, is now concerned with its "image" to the extent that its 1965 Yearbook of Agriculture, "Consumers All," is not aimed any more at farmers than it is to city dwellers. In its own way, every Department is concerned about city support — and it is a continuing fight to see that large urban interests and bigness generally don't prove overwhelming.
