## Savage Assault Near Heart Of Reds Continues

SAIGON (UPI) — U.S. warplanes carrying out President Johnson's vow to punish North Viet Nam until it halts aggression flew 89 missions against the Communist nation and again struck only 12 miles from the key port of Haiphong, U.S. officials disclosed today.

Navy jets from the 7th Fleet carrier Constellation pounded the Do Son oil depot within earshot of Haiphong's outskirts and Air Force pilots joined the attack against other supply areas and communications facilities.

A flight of F105 Thunderchiefs reported at least three surface-to-air (SAM) missiles were launched near Hanoi. The U.S. planes dodged them and then wheeled to the attack, destroying the launch site.

In the ground war units of the U.S. 25th Infantry Division caught up with a Communist force fleeing toward the Cambodian border during the night and battled them for three hours before the guerrillas

dumped 500 and 250 pound bombs and pulled away. The pilots saw two big tanks disintegrate but reported no secondary explosions, indicating they apparently were empty. Air Force planes struck near the North Vietnamese capital of Hanoi, Dong Hoi and the Mu Gia Pass entrance to the Ho Chi Minh supply trail. They destroyed or damaged five bridges, 15 boxcars, 27 trucks and cut rail and road lines in several places.

## Governors Differ On LBJ'S Policy Line in Viet Nam

LOS ANGELES (UPI) — Key Republican governors maintained a critical stance toward President Johnson's Viet Nam strategy today while backing his decision to escalate the bombing against the Communist regime in the North.

Differences among the state executives over Viet Nam policy were apparent as the National Governors' Conference scheduled preliminary sessions today to its 48th annual meeting. Business sessions begin Tuesday and run through Thursday.

Although the governors overwhelmingly endorsed Johnson's Viet Nam policy 11 months ago and again four months ago, there was no move afoot yet to bring a similar move before the 1966 conference.

Gov. John Reed of Maine, a Republican, said Sunday (Meet the Press, NBC) that he believed a majority of the conference would support similar action if a resolution comes before the conference.

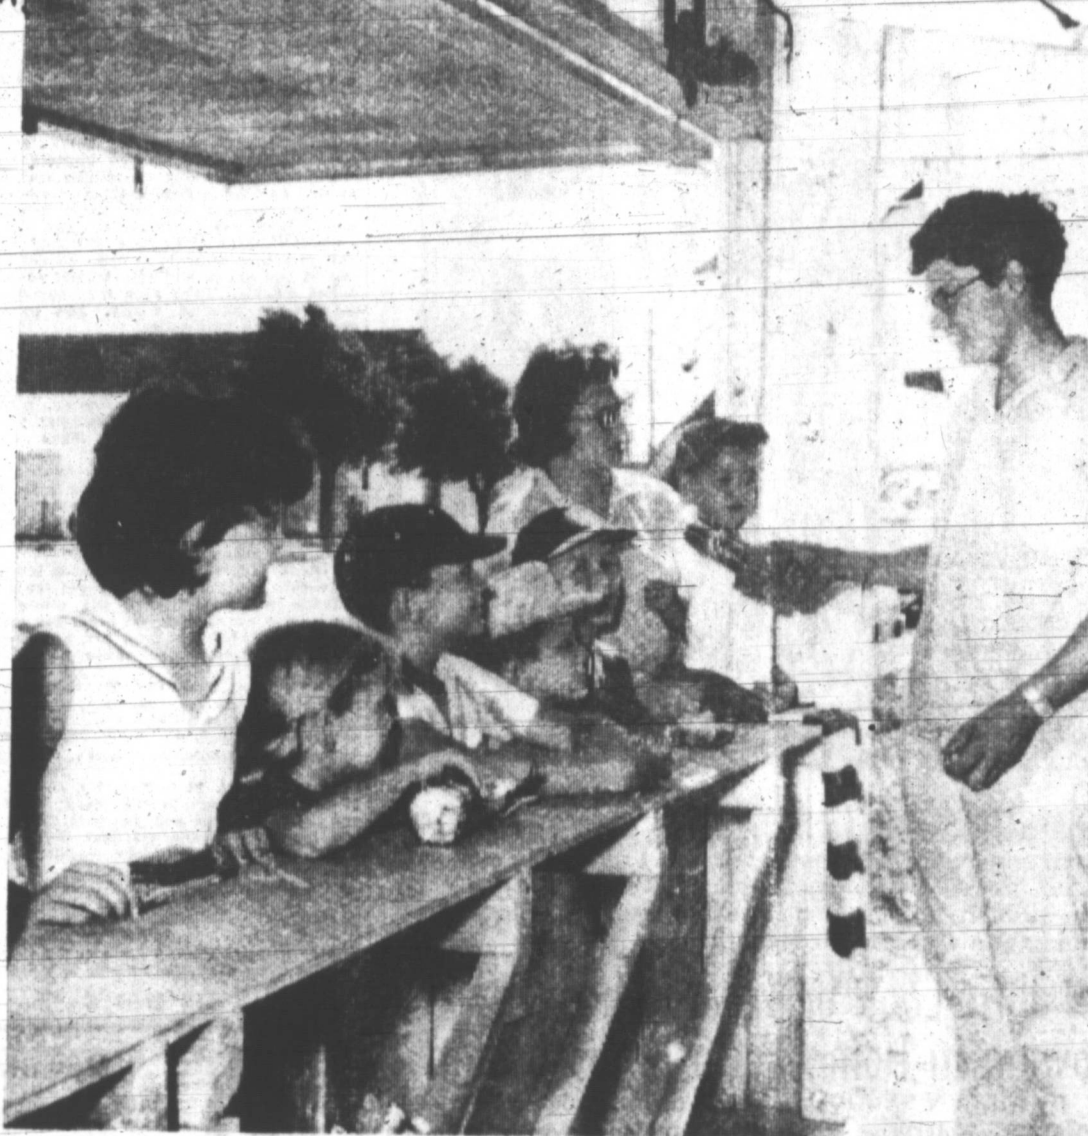

All three members of the executive committee of the GOP Governors Association endorsed the administration decision to bomb oil depots in North Viet Nam but all suggested that the action should have come earlier. They also expressed the belief that there would have been fewer unfavorable repercussions abroad if the decision had been made earlier.

These three were Govs. Robert E. Smylie of Idaho, chairman of the association, William W. Scranton of Pennsylvania and John A. Love of Colorado.

After telling newsmen that he thought the decision should have come earlier, Smylie said he thought little was accomplished in the national interest by being critical of a decision once it has been taken.

"That attitude speaks louder of duty than it does of enthusiasm," Smylie said.

These Republicans did not speak for all GOP governors, including, for example, Mark Hatfield of Oregon, a late arrival and the chief critic of Viet Nam policy among the Republican governors. He attacked the oil depot bombing action in a statement and news conference last week.

FOURTH OF JULY FUN — Dale Mahler, 2206 N. Williston, operator of a stand outside the city limits on the Borger highway, sells some fireworks to Mrs. Jeanie Davis, 709 Doucette, as she prepared to take her two children and four neighbor children to the lake for a picnic. She'll touch off the fireworks for them and planned to bring them back to Pampa for tonight's July Fourth display at Recreation Park. The children, left to right, are Connie, Mary, Johnny and Mark Miller, all of 405 N. Roberta, and Mrs. Davis' two sons, Clifford and Kevin.

## Pampans Spend Quiet July 4th Celebration

With the exception of the sound of a few firecrackers now and then, most Pampa residents are expected to celebrate the birthday of Uncle Sam in a relatively quiet fashion.

Most of the downtown area of Pampa was desolate today with only a few grocery stores and service stations remaining open.

After a day at the lake, park or at home, many Pampans are expected to attend the fireworks display tonight at Recreation Park to celebrate the Fourth of July.

The Independence Day program is to get under way at 8 p.m. with music by the Catalinas, a local combo.

Cash door prizes are a new feature of the program this year.

To be eligible for the drawings for \$25, \$15 and \$10, a slip must be signed upon entering the stands.

The patriotic phase of the program will begin at 8:45 p.m., with a brief address by Travis Lively, with Norman Henry, president of the Pampa Chamber of Commerce presiding.

Colors will be presented by a color guard from Boy Scout Troop 14, under Don Losher, scout master. The invocation will be given by Rev. M. B. Smith.

The fireworks display, produced by Burnett Fireworks Company of Enid, Okla., will start approximately at 9 a.m. It is scheduled to last 35 minutes.

Pampa Key Club will decorate the grandstand at Recreation Park for the program. This morning they placed flags in front of various businesses, and will take them down later this afternoon.

Pampans can expect clear to partly cloudy skies tonight for the display. Hot weather is

## NAACP Prepares For Debate Over Militant Buildup

LOS ANGELES (UPI) — The National Association for the Advancement of Colored People (NAACP) opens its 57th annual convention today with 2,500 delegates prepared for an elected debate on demands for increased militancy.

So-called "young Turks" were expected to press for a much more forceful program for the NAACP which traditionally has charted moderate course in its quest for Negro equality.

Younger members have come with remained too cautious in its approach to civil rights problems and should adopt more militant programs such as those of the student nonviolent coordinating committee and the congress of racial equality.

The NAACP's executive director, Roy Wilkins, has come under increasing pressure for allegedly being "too strongly influenced" by a "conservative" board of directors.

Some advocates of more aggressive policy have said they will pass for a stand against the war in Viet Nam and for some expression of sympathy of the "black power" concept.

They contend shrinking membership figures are the result of continued conservative programs by national officers.

Wilkins will deliver the keynote address Tuesday night.

## City Bombarded In Rock Slide

ALBUQUERQUE, N.M. (UPI) — A residential neighborhood here was bombarded with a shower of rocks, which crashed through roofs, punctured truck tires and tore up lawns, while a water line was being laid. A construction company official told police someone apparently used too much blasting powder and offered to pay for damages.

## Traffic Death Toll Soars Toward New National Record

By United Press International count shortly before noon, automobile accidents, Texas showed at least 486 persons killed in traffic accidents, since the Fourth of July holiday death toll on the nation's highways soared today to within striking distance of a new record.

The most dangerous hours were yet to come as the hundreds of thousands of motorists who sought Independence Day fun at lakes and beaches along the long ride home.

A United Press International count shortly before noon, automobile accidents, Texas showed at least 486 persons killed in traffic accidents, since the Fourth of July holiday death toll on the nation's highways soared today to within striking distance of a new record.

The breakdown: Traffic 486, Drownings 168, Planes 15, Miscellaneous 63, Total 732. California led all states with 30 persons reported killed in traffic accidents.

## PANHANDLE WRECK CLAIMS VICTIM

Although no fatalities or major accidents had been reported in Gray County up until noon today, the Fourth of July holiday traffic had claimed three lives in an auto accident near Clarendon and one in another one-car crash near Panhandle.

Killed five miles south of Clarendon on Texas 70 were Eugene Hendricks, 39, his son, James William 14, both of McLean and Mason M. Cranford, 31, of Shamrock.

Listed in critical condition in Adair Hospital in Clarendon was Gary Charles Nicholson, 29, of McLean. He suffered severe abdominal injuries in the crash.

All were passengers in the Hendricks car, which officers said failed to make a curve and went 200 yards out of control before hitting and up-rooting a tree more than a foot in diameter.

## Eastern Europe's Reds Gather For Warsaw Meeting

BUCHAREST (UPI) — Eastern Europe's top Communist leaders assembled here today for a critical Warsaw Pact meeting. The war in Viet Nam and a new drive for independence from Russia were expected to be discussed.

Although there was official silence about the Red bloc summit conference, it was expected to begin late today.

Delegates from the Soviet Union, Poland and East Germany arrived during the weekend and were to be joined by representatives from Czechoslovakia, Hungary and Bulgaria today.

Missing was Albania, Communist China's staunch supporter, which has boycotted the meeting.

A certain of secrecy was drawn over the agenda but informed diplomatic sources said the escalation of U.S. air attacks on North Viet Nam would be among the key topics.

## Obscene Book Trial Slated In Houston

HOUSTON (UPI) — Seven persons and four companies go on trial in U. S. Dist. Court Tuesday, charged with shipping copies of seven books the federal government believes to be obscene from Los Angeles to Sandusky, Ohio.

Percy Foreman, perhaps Texas' most famous criminal lawyer, will represent the defense. "The jurors will be called upon to determine whether the books are obscene in terms of contemporary community standards," said Asst. U. S. Atty. Morton Susman.

The prosecution will ask the jurors to read the books after it rests its case and before the defense presents its case, he said.

The books involved are "Sin Summer," "Temple of Shame," "Swap Sect," "Passion Carousel," "Virgins, Inc.," "Orgy Club" and "Shame Hunger."

The defendants are William L. Hambling, publisher of Rogue Magazine; Richard A. Yerxa, president of Corinth Publications and Reed Enterprises, San Diego, Calif.; Stephen A. Keegan of San Diego, Calif.; Donald M. Patrick of El Cajon, Calif.; Mrs. Shirley R. Wright of La Mesa, Calif., all connected with the two firms.

The other defendants are Walter H. Lonsdale, owner of New Cal Publications, of Gardena, Calif. and Howard E. Stephens, owner of Stephens Publications, of Sandusky.

If it comes from a hardware store we have it, Lewis Hdw. (Adv.)

## Doctors Say Girl 'Okay' After 230-Foot Bridge Plunge

OAKLAND, Calif. (UPI) — A teen-age girl who plunged 230 feet off the San Francisco-Oakland Bay Bridge apparently will survive the leap.

Loisa Adrienne Lewis, 18, Oakland, Sunday night parked her car midway between Yerba Buena Island and the East Bay Toll Plaza. A passing motorist saw the girl, clad only in blouse and skirt, climb the railing and jump off into the darkness from the top deck at 9:03 p.m. P.D.T. He called the Coast Guard.

A cutter found her in the cold water almost 20 minutes later, alive and swimming.

"The water looked so warm, but it was so cold," the girl mumbled to Coast Guardsmen.

Once on board, she wanted to go to sleep, but the men yelled at her and slapped her face to keep her awake while a helicopter descended over them.

At Highland Hospital in Oakland late Sunday night, doctors reported that Miss Lewis was "doing remarkably well."

Dr. G. B. Kretschman said there is little doubt she will live. He said there were no visible injuries, but extensive X-rays still had to be made. He added that her lungs were clear — showing that she took in "no water at all."

If she survives the leap off the bay span, she will be third (See PLUNGE, Page 3)

## New Right-Wing Group Holds Convention

KANSAS CITY, Mo. (UPI) — The Patriotic Party opened its first national convention Sunday with a mystery speaker—a man wearing a white suit and sun glasses.

Robert Depugh, head of the militant right-wing Minutemen organization, said the man preferred to remain anonymous. Who he was didn't matter, Depugh said, "but what he says is."

The mystery speaker urged the audience to "never make

a statement he can't back up. "This is a mistake so many patriots make—they pull the rug out from under you and make you look silly and discredit the whole pro-American anti-Communist movement," he said.

Depugh of Norborne, Mo., presided at the opening session of the 1½-day convention attended by about 200 persons.

Democrats, Republicans, Communists, Socialists, "One-World

ers" and Internationalists all came under fire.

Rev. Kenneth Goff of Denver, who said he was a former Communist, denounced the bureaucratic dictatorship in Washington and said there was little difference in the Democratic and Republican parties.

"You can vote for one party or the other and you get a one-worlder or an internationalist," Goff said.

Goff said he hoped Barry Goldwater would unite Americans "that refuse to bow down" but the former Arizona senator "dropped the ball before he reached the goal" and failed to assert leadership after his overwhelming defeat in the 1964 presidential election.

Goff drew loud applause when he said, regarding the suggestions that communism is different in China from that of the Soviet Union, that "communism is communism and the only good communists are those that are dead."

# Scouting Scoops

By MRS. G. J. BOYD  
Many parents of the girls attending Day Camp have expressed a desire to let the drivers of the buses know how much they appreciate this service. A safe journey to and from the campsite with such a precious cargo is something for which to be thankful. The drivers are all busy people who volunteered their services during these three weeks. Garland C. Davis, committee chairman for the Top O' Texas Life Underwriters Association, made arrangements for the transportation and a list of the following drivers was made available through the Girl Scout office. Capable drivers were Clyde Carruth, Kay Fancher, J. Stan Hill, Mrs. Margie Gipsen, Derrel Hogsett, Richard W. James, Gene Lewis, Gene Leigh, Charles Lockhart, M. D. McGill, Tommy May, John McCausland, D. Otis Nace, Gris Rogers, Jack Rose, Mrs. Leon Rogers, Newt Secrest, Johnny Costner, Jerry Sims and Jim Terrell. Thank you people for your generosity in providing transportation. Without this service several hundred girls would miss the opportunity of attending Day Camp.

Girl Scout Little League and attended by Mmes. W. J. Felter, R. W. Karr and Mrs. W. R. Woodward from Pampa and Mrs. D. Z. Jackson and Mrs. Lloyd Harrah from Phillips. Girl Scout field advisors Mmes. Jim Terrell, T. M. Whiteley and Mrs. W. H. Powers. Mrs. N. G. Kadingo is camp director for the two seasons, beginning July 17. All sorts of exciting things are planned for the Scouts attending Established Camp. A backward party is among the plans and sounds like fun. If this camping is just half the fun of Day Camp (and I have been informed that it is twice the fun) then it is an experience that all Girl Scouts should have.

The City Summer Recreation Program is in full swing and the second session of Creative Dramatics is scheduled to begin July 5. Those interested should report to the girl's gym at 9 a.m. There is no fee for this instruction which is a volunteer project conducted by Mmes. Jack O. Miller, Don Myers, Elbert Walker and Le Roi Ogden. Members of the Trustees are taking part, along with some of the girls home for summer vacation from college.

## MATURE PARENT

By Mrs. JUREL LAWRENCE, DEAR MRS. LAWRENCE: My husband is so ashamed of our son's poor record in our Little League games that he wants to move to another state. He was himself a star athlete. Every season it's the same thing—terrible scenes, tension and ugly silence between him and the boy when scores are posted showing the child last. Our whole town is obsessed with our Little League; the kids getting special diets and money—rewards to keep them up to pitch.

ANSWER: How your husband must hate this older body of his! How he must despise himself for the loss of those "star athlete" powers that won him so much grandstand admiration!

Because it is his secret and unfelt contempt for his own athletic weakness that compels him to pile scorn on the child's athletic weakness.

Had he ever found the courage to face the loss of his athletic stardom, he would also inevitably have faced the loss of whistles and roars of stadium admiration. He'd have said to himself, "O.K., my day of glory is over. So what? What have the fans' whistles and roars really done for me? Nothing. But nothing!" So it would not be impossible for him to persecute his son for his failure to deliver more of those meaningless whistles and roars of grandstand approval.

Maybe moving to another town less insane on the subject of Little League competition would be a good idea.

Your husband's moral muscles, in contrast to his physical ones, have had little exercise. Though this has been star athlete of yours may have been able to resist a football tackle with magnificent bodily power, his moral muscles seem too flabby to resist the pressure of this town's craze for sports success.

He's in the spot of a drug addict who consorts with other addicts. He just hasn't got what it takes to kick his own addiction to grandstand admiration, consorting as he does with other parents who are so addicted to it that they have to bribe their children to get it for them.

None of which can your husband possibly accept as true. For people like him, who take great pride in power, go wild with fear at the idea that they are themselves controlled by feelings they know nothing about. So my suggestion that your husband is controlled by his unknown scorn for his waning athletic powers would frighten him terribly. Instead of showing him this column, let's encourage the move away from this town of yours. It's more than possible that he him.

2 THE PAMPA DAILY NEWS MONDAY, JULY 4, 1966 50TH YEAR

FURNISHINGS TREND — This young woman takes a cue from a home furnishings trend to cover formerly exposed wood areas with fabric. She picks Avril rayon and cotton fashion fabrics in diverse but complementary patterns for inexpensive redecorating.

### All-Fabric Look or Total Upholstery Growing in Home Furnishings Design

By AILEEN SNODDY  
Newspaper Enterprise Assn. NEW YORK (NEA) — The teen-ager today is learning to decorate with dash. In many cases this does not mean spending several months' allowance (and their parents' extra donations to meet youthful extravagances) to brighten a room. Duff use of inexpensive fabric applied to old furniture turns the trick.

In fact, the all-fabric look or total upholstery is growing in home furnishings design. It can be accomplished with a few tacks, paste or glue and inexpensive yard goods.

One designer-look advantage of bright and clever apparel fabrics in Avril rayon and cotton to bring a refreshing fashion look to chairs, chests and other household items slated to redecorate a young girl's special room.

When buying such fabric check the width. Select yard goods that are 45 to 54 inches wide, if possible, rather than 36 inches for a better buy per yard.

Some suggested things to cover with fabric to dress a teen-ager's room are cardboard files, kitchen chairs, plain three-drawer chests.

In some cases the young decorator will want to use colorful paints to pick up certain color tones in the fabrics she selects for her room. In addition, there is no reason why a young man cannot use the same technique to spruce up a sparsely decorated room.

Space usually is the problem.

According to a decorating guidebook compiled by Seventeen, all it takes is a shifting of common room ingredients to make better use of space. For example, use a cedar chest as a nightstand or to double as a window seat. Stack chests, cabinets and bookcases to take up little space and get the most use from them. Also use color to make a room appear larger. Avoid dark colors, although very sophisticated, because they absorb light and make a room seem smaller and closer. A room with a northern light needs warm colors but a room with a warm light needs cool blues and greens or violet.

When selecting fabric to cover furniture in a room, don't be afraid to mix florals, checks and plaids as long as there is a continuing color to bind them together.

To apply fabric to furniture, do not smoothen the surface completely. Rub off wax with turpentine or alcohol. A light rubbing with sandpaper or steel wool roughens the surface enough to provide a good "grip" for the fabric.

To fit fabric, hold a piece against the area to be covered and cut. If it is a stripe or plaid, line it up horizontally or vertically. With the mini-patterns, don't bother.

Canned biscuits can be used for quick dumplings. About 15 minutes before pot roast or stew is done, place the biscuits on top. Cover tightly and steam for 15 minutes.

## Astrological Forecast

By CARROLL RICHTER

For TUESDAY, JULY 5

GENERAL TENDENCIES: A wonderful day for handling matters which are clear, easily understood, conventional and according to accepted practices. Much energy and ability is released in such avenues of expression. However, if you act in a haphazard or confused fashion or try to take advantage of anyone, you can have a quick comeuppance.

ARIES (Mar. 21 to Apr. 19) — Kin and friends can be most helpful to you now, but avoid advisors who have their eye on your holdings. Some problem with mate can be upsetting. Try to forget it as quickly as possible. Keep calm.

Taurus (Apr. 20 to May 20) — Bear in mind that individual who opposes you and get busy working on routine matters as well as outside affairs. Situations break into the open and you then know how to handle them easily, be clever, just.

Gemini (May 21 to June 21) — If you change your attitude, you find you get the results you desire and rid yourself of dull duties quickly. Make sure that monetary matters are handled wisely. Add to income through new outlet.

MOON CHILDREN (June 22 to July 21) — Forget dreary routines and concentrate on how to get ahead via more worthwhile channels. Plan to put more money in the bank. Show ingenuity in gaining your aims. Increase prestige by leaps and bounds.

LEO (July 22 to Aug. 23) — Associates and advisors can be of infinite help to you, but you must get away from one at home who hinders unnecessarily. Trust your judgment in communications. Get a great deal accomplished.

VIRGO (Aug. 24 to Sept. 23) — If you are currently you can easily get the assistance from good friends and allies in the outside world that you need. Increase success. Feasibility in p.m. also appears to opportunity, but make no aside remarks.

LIBRA (Sept. 24 to Oct. 23) — Although monetary affairs may be rather confusing, you find that all else works out very nicely for you, so keep busy. Find some interest that is absolutely ideal. Get approval of kin.

SCORPIO (Oct. 24 to Nov. 21) — Instead of being antagonistic in the ideas of others, listen carefully and join with them in whatever is good and practical. Stern opposition could bring serious trouble. Anyways, think out any intelligent.

SAGITTARIUS (Nov. 22 to Dec. 21) — Don't bother your head about small matters and get very busy in the world of business activity, where you can soar to greater heights. Get all done in big time. Then you can assist that friend who needs you.

CAPRICORN (Dec. 22 to Jan. 30) —

Avoid that rather selfish friend who likes to take you away from important work just to talk of self and problems. Get important new project started. Forget any emotional involvement.

AQUARIUS (Jan. 31 to Feb. 19) — Your close ties can have wonderful ideas to offer, so don't waste your time going after a high-spirited who is very busy and irate. Now, some suspicion as to your motives is also possible. Keep busy.

PISCES (Feb. 20 to Mar. 20) — Don't give in to temptation to go on to new and untried interests, since present set-up can prove to be very lucrative. If you work hard, tonight you can study new outlets. Be sure and you won't be sorry.

IF YOUR CHILD IS BORN TODAY! — he or she will be one of those interesting young people to whom powerful persons are quickly attracted and many favors will be forthcoming. But there is also a penchant for good, off somewhat with the colorful kind of individual who will bring some chaos into what could otherwise be a most successful and interesting life. Be sure to give proper ethical training and much activity in sports and all will be fine. A great politician in this chart.

"The Stars Impel, they do not compel." What you make of your life is largely up to you!

## Zale's Manager Wins Company's Highest Award

Oscar H. Barker, manager of Zale's Jewelers, Coronado Center, has received his company's highest award for excellence in diamond marketing and achievement of sales goals. Barker was a national winner on Zale's Diamond Z contest. He was honored for his achievement at the annual Zale managers' meeting held recently in New York.

A native of Amarillo, Barker has been with Zale's for eight years. He joined the firm in Amarillo shortly after graduating from Amarillo Junior College, and has worked in various phases of the store before being named manager of the Pampa store.

Active in civic affairs, Barker is presently affiliated with the Pampa Chamber of Commerce and the Lions Club. He and his wife, Mary Jane, have a son, Billy Wayne, 3.

Barker's comment on receiving the award was simple and to the point. "The excellent diamond values we have to offer made it much easier to achieve the award."

The company has been honored three times with the Diamonds International Award for outstanding design in precious jewelry. As a three-time winner, Zale's is now a member of the "Diamonds International Academy."

**Plunge**  
(Continued From Page 1)  
person to do so. Professional stuntman Ray Woods plunged 185 feet from a railing below the bridge in 1937 and suffered a broken back.

In 1965, Isabelle Kaimoa, 36, Oakland, who was despondent because leprosy separated her from her children, leaped from the span. She survived the jump with only a fractured pelvis.

When Coast Guardsmen located the girl Sunday night swimming in water a half-mile south of the bridge, they were unable to maneuver their 46-foot cutter close to her. Seaman John Dennis, San Jose, Calif., jumped in to rescue her.

She was taken by helicopter to the Alameda Naval Air Station Hospital where she was described as "conscious but hysterical." From Alameda, she was transferred to Highland Hospital in Oakland.

A little more than a week ago, Roslyn Hirsch, 26, of New York was found in rocks edging the Hudson River.

She told police she had jumped from the George Washington Bridge the day before. If her story is true, and police believe it is, she is the first person to survive the 248-foot leap. She is in critical condition at Bellevue Hospital.

## Obituaries

**William Oscar Trayler WHEELER**—William Oscar Trayler of Levelland, former resident of Wheeler and Tullia, died at 6:45 a.m. yesterday in a Levelland Hospital.

Funeral services will be at 3 p.m. tomorrow in Wheeler Church of Christ with Max Hughes, minister of the Cactus Drive Church of Christ in Levelland, officiating. Jim Kelley, minister of the Wheeler Church of Christ, will assist. Burial, under direction of Wright-Denson Funeral Home, will be in Wheeler Cemetery by the side of his wife who preceded him in death on July 1, 1965.

Mr. Trayler was born March 18, 1889, in Montague County. He moved to Levelland from Tullia 18 months ago. A retired farmer and salesman, Mr. Trayler was a member of the Cactus Drive Church of Christ in Levelland.

Survivors include two sons, Robert Trayler of Perryton and Lawrence Trayler of Antelope; two daughters, Mrs. Walter Cummings of Levelland and Mrs. Alfred Bell of Long Beach, Calif.; one brother, Charlie Trayler of Allison; one sister, Mrs. Ida Hall of Vernon; 12 grandchildren and 6 great-grandchildren.

**Mrs. Faye Sivils**  
Mrs. Faye Sivils, 50, of Phoenix, Ariz., former resident of Pampa, died at 7 a.m. yesterday in a Phoenix hospital.

Mrs. Sivils moved to Phoenix from Pampa 18 months ago. Funeral arrangements are incomplete with Carmichael-Whitely Funeral Directors.

Survivors include her husband, Carl Sivils of the home; two daughters, Mrs. Sandra Murphee of Pampa and Mrs. Gloria Faye Meredith of Oklahoma City, Okla.; three sons, James Harold Young of Pampa and Franklin and Richard Lee Dismukes, both of Odessa; her mother, Mrs. Minnie Jones of Los Angeles, Calif.; two sisters, Mrs. Frank Olson of Pampa and Mrs. Jessie Lee Bridwell of Clovis, N.M.; and four brothers, Lloyd, Homer and Raymond Jones all of Los Angeles, Calif., and Jim Jones of Odessa.

Though electric eels are blind, they avoid bumping into objects by means of a built-in radar system.

**PASSPORT DENIED**  
WASHINGTON (UPI)—The State Department has denied Gus Hall, general secretary of the American Communist Party, permission to visit Red China and other Communist countries as a "journalist."

"Mr. Hall is not a journalist by profession," the State Department said Friday, "and we have not as a matter of routine validated passports for part-time journalists for travel in restricted areas."

The island of Jamaica grows more than half the world's supply of allspice.

being maintained. There will be no home delivery.

Many Pampans are visiting Lake McClellan, Lake Meredith and other lakes and resort areas for boating, fishing, skiing, swimming and picnicking.

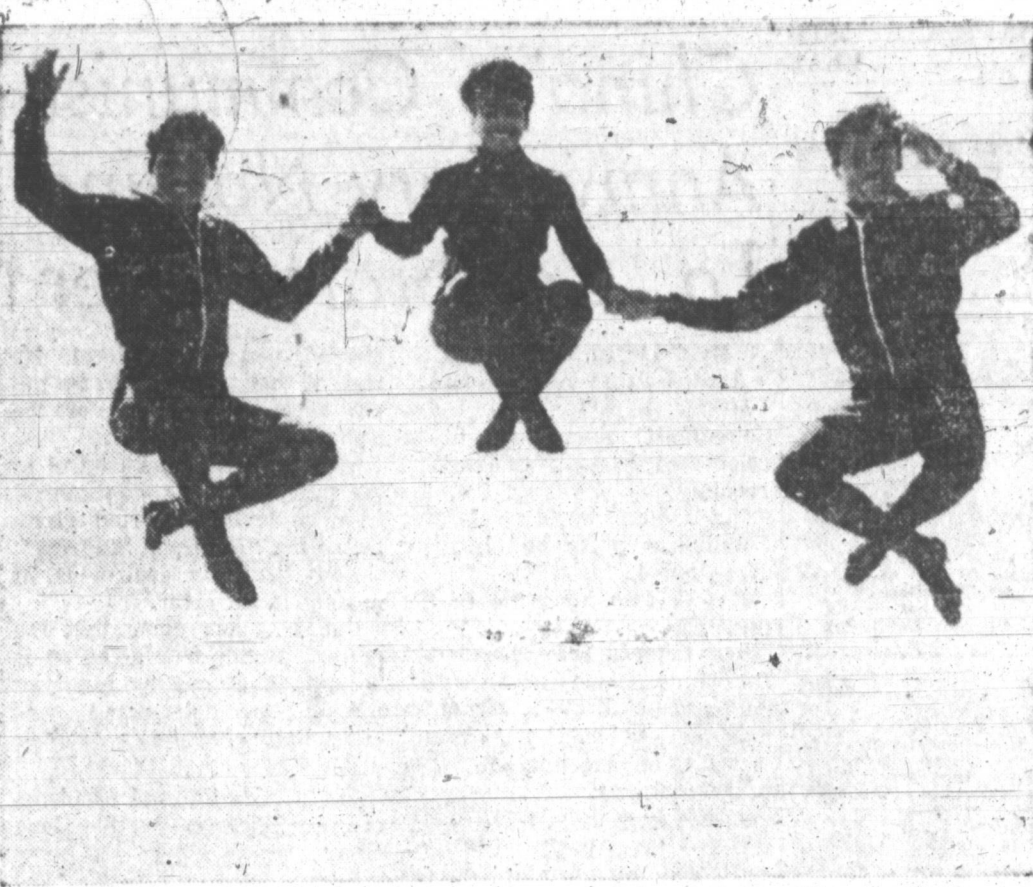

Others have taken to the highways for their trips and to visit relatives and friends. Many youngsters are using fireworks in their celebrations, but Police Chief Jim Conner reminds them that the fireworks must be used out of the city limits.

low this morning of 72. It was a clear to partly cloudy July Fourth over most of Texas today with prospects for a few late showers in east and central sections. The weather was warm, though not exceptionally hot.

Most stores are closed today to enable employees to spend the day with their families. Most other businesses are closed, along with the banks.

All city, county, state and federal offices, except for the police and fire departments, are closed in observance of Independence Day celebrations. No window service is available at the post office today, although holiday mail collections are being made as usual. The lobby is open for box patrons, and special delivery service is available.

The island of Jamaica grows more than half the world's supply of allspice.

**THEY FLY**—These are the Gaonas in their natural element, the thin air. They are one of the new blossoms of the spring-blooming Ringling Bros. and Barnum & Bailey Circus, just starting its 60-city tour for 1966 with an opening in New York City. The Gaonas troupe, experts on trampoline and trapeze, participate in this year's gee-whiz—three flying trapeze teams performing simultaneously.

The high-energy particles from solar flares travel in well-defined streams that twist around one another.

The alcoholic beverage industry spends more than \$2.6 billion a year for goods and services of other industries.

The word "vaccination" comes from the Latin word "vacca," meaning cow, says World Book Encyclopædia.

## Police Question Youths on Theft Of Pop Bottles

Three Pampa youths, two 16-year-olds and one 14-year-old, were talked to by Pampa police Sunday night in connection with the theft of eight cartons of bottles from the Jason Baker residence at 622 Montagu.

Pat Buchanan called police about 9 p.m. Sunday and told them she was babysitting at the home and had heard noises outside.

Police found the three boys in a parked car across the street from the home and found the bottles in the car.

The boys then admitted the theft.

## Lefors Direct Distance Dialing Scheduled For August 11

LEFORS (Sp1) — Direct dial, long-toll telephone service between Lefors and Pampa will go into effect Aug. 11, according to Gerôse Newberry, Southwestern Bell manager at Pampa.

Newberry said equipment installation to provide the new service now is under way.

## Car Reported Stolen

Jerry Daniels of Daniels Body Shop, reported to Pampa Police Sunday that a light brown 1959 Pontiac was stolen from his shop yesterday.

The car was a four-door with no license number available.

## Firemen Report Quiet Holiday

Pampa firemen were happy this morning but keeping a weary ear tuned to the telephone with only one run over the weekend.

Firemen were called to what was thought to be a fire on Ishom St. at 4:20 p.m. Sunday only to find an air conditioner cord had shorted and there was no fire and no damage.

**Holly Sugar Plans \$30 Million Unit**

SAN MATEO, California—The Board of Directors of Holly Sugar Corporation has approved the building of a new sugar factory at Tracy, Calif. With a rated slicing capacity of 8,000 tons of sugar beets a day, Holly's projected new Tracy plant will be the largest beet sugar factory in the United States.

Russell T. Tutt, Holly board chairman, and Dennis O'Rourke, president and chief executive officer, said engineering for the new factory would proceed immediately so ground breaking and construction could begin early in 1967. They expect the new factory, where Northern California operations will be consolidated, to be completed in time to process sugar beets early in 1970. Cost of the giant plant would be near \$30 million.

Canals and rivers link landlocked Moscow with the Caspian, Azov, Baltic, Black and White seas.

Texas derives its name from the world's rivers deposit 2 billion tons of salt in the oceans each year.

**China's Communist Anniversary Nothing To Celebrate Over**

By CHARLES R. SMITH  
United Press International—HONG KONG (UPI)—The Communist party of China celebrated its 43rd anniversary recently.

But the world's largest Communist party had little to cheer about.

It was torn by some of the most serious dissension since a dozen Chinese delegates and a Dutchman, Hendricus Sneevliet, gathered in a girl's school in Shanghai to hold the formal organization meeting and fifty party congress.

That was in July, 1921. Now the party has an estimated membership in excess of 25 million.

**Bitter Struggle**

And it is in the midst of a bitter power struggle to determine the successor to aging chairman Mao Tse-tung, who is 72.

The power struggle already has cost one of the top half dozen contenders for the leadership his job and numerous others are falling by the wayside.

Some of the most experienced Sinologists in this key listening post, who have studied the party for years, predict the present purge will be the biggest in the party's long history.

The party has other problems. It is engaged in a bitter ideological dispute with the Soviet Communist party, challenging the senior Soviet party for leadership of the international Communist movement.

Party propaganda considers it to have achieved this position:

"Mao Tse-tung's thought is the acme of Marxism-Leninism in the present era," said a recent Chinese editorial repeated in many publications and broadcasts.

"It is living Marxism-Leninism at its highest. It is the powerful, invincible weapon of the Chinese people, and it is also a powerful invincible weapon of the revolutionary people the world over . . ."

Come Long Way

The party has come a long way since its modest beginning. But it still is far short of that ambitious goal of world leadership, despite the claims.

When the party was organized, Cheng Tu-hsiu was elected secretary general. He was at that meeting but he did not take over control of the party until the mid-1930s.

Mao has held firm control of the party since he won control from a Soviet supported group called the "Returned Students."

How firm his control is at present is not clear.

But it seems clear that the power struggle now going on is not aimed at ousting Mao but merely to determine who takes over after he is dead or disabled.

The party's internal problems are complicated by the long delay in holding a party congress and elections, and finding young blood to carry on the Mao line faithfully.

Since its first congress in 1921, the party has held only seven others.

The last was the eighth, which opened on Sept. 15, 1956. The seventh had been held 11 years before and there had been complaints about the long gap.

As a result, the party revised its constitution at the eighth congress to provide for more frequent and regular congresses and elections. It was merely a paper promise that has not been kept.

**Congress Overdue**

The revised constitution provided that a national party congress would be elected for a five-year term and that a session would be convened once a year. Ten years have passed and not a single full congress has been held in that period.

The central committee, according to the revised constitution, was elected for five years. The new election is five years overdue.

Teng Hsiao-ping, party secretary general and one of the men most likely to succeed Mao, reported on the revised constitution at the eighth congress and told the delegates:

"One of the basic requirements of democratic centralism in the party is that party congresses at the various levels should be held at regular intervals, and should play their part to the full.

"More than eleven years elapsed between the seventh and eighth party congresses. The interval is of course much too long."

**Oswald's Wife Gives Birth To Third Child—Baby Boy**

RICHARDSON, Tex. (UPI)—Mrs. Marina Oswald Porter, 24, whose first husband assassinated President Kennedy, gave birth Sunday to a seven-pound, 12-ounce boy.

The child, named Mark Wayne, was her third child and the first for her and Kenneth Jess Porter, a former electronics technician. The couple was married June 1, 1965.

The other children, born of her marriage to Lee Harvey Oswald, are June Lee, 4, and Marina Rachel, 3.

Porter quit his job as an electronics technician recently and said he planned to move his family from Dallas. He mentioned the possibility of settling in Greenville, Tex., where his parents live.

Mrs. Porter met Oswald when he was working in a factory in Minsk in the Soviet Union and they were married. She was born in Archangel on the White Sea in the Soviet Arctic.

The child was born in Richardson General Hospital in Richardson, Tex., a Dallas suburb where the Porters formerly lived.

**BURMESE LEADER HOME**

RANGOON, Burma (UPI)—General Ne Win, chairman of the Burmese Revolutionary Council, returned Saturday morning from a three-week visit to Europe. The Burmese leader paid official visits to Czechoslovakia, Romania and Austria.

The first bicycle ever made in the United States weighed 70 pounds and cost \$313.

## Bolivian General Claims Election Victory

59TH YEAR THE PAMPA DAILY NEWS MONDAY, JULY 4, 1966

**ACTION**—Members of the King's Troop, Royal Horse Artillery, are frozen into a classical grouping by the camera during a rehearsal of a musical drive which they'll perform during the Royal Tournament in London.

LA PAZ (UPI) — Bolivian air force Gen. Rene Barrientos, who assumed power in a military coup 20 months ago, claimed victory today for a four-year term as constitutional president in one of this turbulent nation's quietest elections.

Barrientos, a dashing 47-year-old career military officer, based his claim on early returns from Sunday's election that showed him taking a lead of more than six to one over his nearest rival, retired Gen. Bernardino Bilbao, 70, of the center-rightist Socialist Fa-

the National Leftist Liberation Front (FLIN).

Several parties including the Christian Democrats led by ex-President Hernan Siles and the Leftist National Revolutionary Party (PRIN) of Juan Lechin, boycotted the elections charging they were rigged.

The boycotters said their followers to deposit blank votes but apparently were very successful in dramatizing their opposition.

The total of blank ballots was running at about only four or five per cent.

Bluebirds often nest in old woodpecker holes.

**CARDINAL-POPE MEET**  
VATICAN CITY (UPI) — Pope Paul VI Saturday received in private audience Francis Cardinal Spellman, archbishop of New York. The Cardinal had come to Rome for Thursday's dedication of three new Vatican radio transmitters, one of them a personal gift to the Holy See.

## Beatles Stand Up Philippine's First Lady

MANILA (UPI) — Britain's irreverent mop-haired Beatles stood up the first lady of the Philippines yesterday. Frantic messages from the British Embassy and the presidential palace failed to produce the famed quartet for a lunch date.

A spokesman for the singers said they were still sleeping.

Mrs. Marcos, beautiful wife of President Ferdinand E. Marcos, waited at the presidential palace with her own three children plus about 200 other youngsters for more than hour.

Then she told newsmen: "We have no more time to receive them. We are also busy people. The children can meet them instead since they have all the time in the world."

**H. Guy Kerbow Co.**  
859 S. Faulkner MO 4-6171  
REMEMBER, THERE IS NO ECONOMICAL SUBSTITUTE FOR QUALITY

She confided to reporters that her children really liked the Rolling Stones, a rival pop group, better than the Beatles anyway and walked out of the Malacanang Palace's music room where the lunch was to be held. She said she had another lunch to attend.

It appeared that President Marcos himself also may have been stood up. Newsmen saw placecards at the lunch table for the president plus each of the Beatles and Mrs. Marcos.

Tony Barrow, spokesman for the singing group, said the Beatles knew "nothing of their appointment" until they received a noon-time call saying they were late for lunch.

"This was just impossible because three of the Beatles were in bed at the time," he said.

A spokesman for Cavalcade Promotions which is arranging their appearances here said he was trying to find out what went wrong. But he admitted being a bit nervous about having the singers do anything that wasn't in their contract.

"They are still planning to pay a courtesy call on the palace," the spokesman said. It appeared, however, they would not be meeting Mrs. Marcos.

**HOW DOES GARDEN GROW?**—You can see for yourself the transformation of a familiar area in New York City. Framework for the new Madison Square Garden has begun to rise over the Pennsylvania Railroad Station. The sports center will have one arena seating 22,000 and another 4,000. In the background can be seen the city's General Post Office.

### France Objects To Criticism of Nuclear Testing

PARIS (UPI) — France brushed aside worldwide criticism of its resumption of nuclear testing today and prepared for a second explosion in her Pacific test site later this month.

Foreign Office officials, pointing to the testing records of Britain and the United States, privately dismissed criticism from these countries as sour grapes.

Preliminary data from the first test of France's 1966 series, touched off Saturday at Mururoa in the Tuamotu Archipelago in the South Pacific created little fallout. Officials said the test was fully successful technically.

It paved the way for further tests this month and later in the year, culminating in the testing this fall of a "super bomb" intended as a forerunner of France's first hydrogen bomb.

The H bomb will not be exploded before late 1967 or early 1968.

Non-farm families spend about 32 cents of their food dollar for meat, poultry and fish and about 16 cents for fruits and vegetables.

First steel railway in America began operation on Nov. 26, 1832. PRIVATE EYES LONDON (UPI) — Plainclothesmen from a private security organization have been hired to guard Scotland Yard's new 20-story headquarters here.

### Television in Review

By VERNON SCOTT  
UPI Hollywood Correspondent

HOLLYWOOD (UPI) — Friday night's CBS news special report on the Viet Nam war was possibly the best summation of the conflict in many months.

Titled "The Decision to Bomb," with reference to this week's bombing of North Vietnamese fuel dumps, the hour-long report presented history, fact and opinion for viewers concisely and objectively.

It was an enlightening program that left viewers better informed if no less assured about the final solution.

Conducted principally by newsmen Harry Reasoner and Eric Sevareid, the report devoted its first half-hour to a history of the war going back a dozen years to when it was a French problem, not an American one.

Through judicious use of film clips, the show traced the historical implications of internal and external pressures exerted on Viet Nam.

But the most dramatic demonstrations of mounting American involvement were speeches by Presidents Eisenhower, Kennedy and Johnson. What became reluctant American support grew into even more reluctant involvement.

Spoke Softly

In his early speeches President Johnson spoke softly and optimistically, but as North Vietnamese aggression grew so clearly, did the President's determination to stop it.

This was television documentary at its best. Viewers were not asked to rely on paraphrase or vague summation. Here was the President of the United States to be seen and heard growing ever more impatient, ever tougher with the adversary.

Most of the second half of the show was dedicated to determining the significance of the bombings at Hanoi and Haiphong.

Actually, at least from what one could gather from the CBS news crew, the significance of the fuel dump raids is not earth shattering. Western Allies clucked their tongues disapprovingly and Communist China rattled its sword once more. But in separate interviews with Undersecretary of State George Ball—a hawk, and Sen. Joseph Clark—D-Penn., a dove, both sides were given an opportunity to express opinions.

Tough On Reds

Ball, supporting administration policy, saw great strategy in the bombings, making it tougher for Communists to infiltrate South Viet Nam. He did not see the raids as escalation.

Sen. Clark, who admitted on the air to being an exceedingly "nervous Nelly," believed the bombings were another step on the path to World War III.

### CORE to Decide On 'Black Power'

BALTIMORE (UPI) — The national convention of the Congress of Racial Equality was expected to act today on resolutions calling for use of "black power" and an end to non-violence as a technique in the civil rights movement.

Lincoln O. Lynch, CORE associate national director, said that a resolution concerning the philosophy of "black power" would be presented before the four-day convention winds up tonight. Lynch also voiced support for the abandonment of non-violence is dying. He said struggle. A resolution supporting his position was expected to be offered for the delegates' consideration.

Floyd B. McKissick, CORE national director, indicated the CORE leadership would seek adoption of a resolution. He added, in a statement last week, that the "philosophy of non-violence is dying." He said Negroes must protect themselves when subjected to violence.

McKissick also forecast the possibility of "direct action" demonstrations before the convention ends.

James Farmer, former CORE national director, told the convention Sunday night he has withdrawn his proposal to the Office of Economic Opportunity (OEO) for a national literacy program because of the federal government's failure to act.

"We have waited as patiently as honorable men can be expected to wait," Farmer asserted. He said his proposal for a literacy program had been for a long time on the desk of Sargent Shriver, director of the OEO.

"I am convinced that the war on poverty by the federal government has become a platitude rather than a reality," he continued. "It's a pitiful little war. If you want to keep a man enslaved, keep him ignorant," he declared.

### Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne®) — discovery of a world-famous research institute. This substance is now available in suppository or ointment form under the name Preparation H®. At all drug counters.

### World Renowned Music Composer Succumbs at 80

NEW YORK (UPI) — Deems Taylor, American composer, commentator and author of best-selling books on music, died Sunday. He was 80 years old.

Taylor, whose wit and erudition made him a popular radio personality on the old Information Please program and as an intermission commentator for network broadcasts of the New York Philharmonic concerts, succumbed at the Medical Arts Center Hospital here.

Largely self educated in composition, Taylor leaped into musical prominence with his popular opera "The King's Henchman," commissioned by the Metropolitan Opera and produced by the Met in 1927.

It was written to a libretto by the well-known poet Edna St. Vincent Millay and was performed at the Met for three consecutive seasons, at that time a record for new American works at the opera house.

# WHY IS THE PRINTED WORD SO IMPORTANT IN ADVERTISING?

- IT'S CLEAR
- IT'S PERMANENT
- IT'S BELIEVABLE

The newspaper is the greatest advertising medium for many reasons. One of them is that it carries the power of the printed word. People believe in a message that is permanent—One that is written. They understand it better. Also, the newspaper because of its permanence lets the reader choose his own time for absorbing the message. And once put down it can always be picked up again. The message that lives is the one that is written in the newspaper.

## RECKLESS DRIVER

SANTA SUSANA, Calif. (UPI)—California highway patrolmen cited Howard J. Ferguson, 28, of Van Nuys, Calif., for reckless driving Wednesday after his car crashed into a park auto.

Officers said Ferguson, who was paralyzed from the waist down in a traffic accident two years ago, had no special controls in the car and was operating the foot pedals with a pool cue.

# Robinsons in American, Mays in National

NEW YORK (UPI)—Baltimore's Robinson boys, Brooks and Frank, who have led the Orioles to a seven-game lead in the American League pennant race, will lead the junior circuit's attempt to even the All-Star game series in the 37th classic July 12 at St. Louis.

Commissioner William D. Eckert announced the results of the players' voting and added that last season's World Series pilots, Walt Alston of the Los Angeles Dodgers and Sam Mele of the Minnesota Twins, will name their respective pitching staffs this Wednesday and the reserves on Friday.

Torre of Atlanta for the National League and Bill Freehan of Detroit for the American.

headed by San Francisco's Willie Mays, who will be appearing in his 23th All-Star game and Atlanta's Hank Aaron, who has played in his 12th. Pittsburgh's Roberto Clemente, rounds out this classy outfield.

considered doubtful starters because of injuries. Third baseman Ron Santo of the Chicago Cubs suffered a fractured cheekbone last week and his status is uncertain.

denies as the Reds' only representative on the first team.

The American League will have a relatively inexperienced infield. First baseman George Scott of Boston and second baseman Bobby Knoop of the California Angels will be making their All-Star bows while McAuliffe is slated for his second classic.

# Braves' Cloninger Hits 2 Grand Slam Homers

By United Press International — Tony Cloninger extorted an exorbitant interest rate from an old slugger who finally evened his score with the San Francisco Giants.

Cloninger, a 25-year-old who won 24 games for the Braves last season, hit his first bases loaded blast 400 feet to right in the first inning and tagged Ray Sadecki for the second.

Cloninger hit two homers against the Mets on June 17 and now has driven in 18 runs in his last four games.

Cloninger hit two homers against the Mets on June 17 and now has driven in 18 runs in his last four games.

Cloninger hit two homers against the Mets on June 17 and now has driven in 18 runs in his last four games.

## Weekend Sports Summary

By United Press International — Saturday  
FREDERICK, Md. (UPI) — Charlotte-Cook of the Los Angeles Mercantiles set American records in the 440 and 880 yard runs at the Women's National AAU Track and Field Championships.

SAN FRANCISCO (UPI) — Pitcher Tony Cloninger of the Atlanta Braves set a National League record when he hit two grand slam homers in a 17-3 victory over the San Francisco Giants.

DETROIT (UPI) — Chuck Thompson, a veteran speedboat driver, was killed while competing in the Gold Cup Regatta on the Detroit River.

CHASKA, Minn. (UPI) — Sandra Spuzich of Indianapolis won the U.S. Women's Open Golf Championship with a 297, one stroke better than Carol Mann.

EDINBURGH, Scotland (UPI) — Fred Haas Jr. of New Orleans beat Dai Rees of Wales 3 and 2 to win the World Seniors Golf Title.

NEW YORK (UPI) — Alex Valle won the \$37,800 Saranac Handicap at Aqueduct for the

first stakes victory of his career.

ROOM AT THE TOP—Wonderful Willie Mays, left, of the San Francisco Giants, continues to climb in the standings of all-times major league home run hitters. Willie slugged his 521st homer to tie Ted Williams for third in the all-time standings. Only Jimmie Foxx, center, former Boston Red Sox great, and Babe Ruth have hit more home runs than Willie. Foxx slugged 534, a mark Willie will probably surpass this season, while Ruth's 714 appears to be far out of reach, even for Willie.

## Open Victory Gives Spuzich Cincy Nod

CHASKA, Minn. (UPI) — Sandra Spuzich headed for Cincinnati today being touted as a favorite in a Ladies Professional Golf Association tournament for the first time in her life.

Miss Spuzich missed a 30-footer, but tapped in the short second putt for a bogey and a 1-shot victory. She had a 72 Sunday for a 72-hole total of 297.

Independence Day came one day early for Sandra, who is in her fourth year on the professional tour and had never even led a tournament before the Open.

She needed all of that edge when they reached the 18th green. Miss Mann, shooting for

concentrate on her putting at the Speedway Golf Club while racing cars roared by. The concentration paid off with the birdies on 16 and 17 which were worth \$2,000 each.

# The Pampa Daily News

A Watchful Newspaper

EVER STRIVING FOR THE TOP O' TEXAS TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and what he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

## Dr. Humphrey's Prescription

Our Independence Day editorial was written by J. Edgar Hoover, director of the Federal Bureau of Investigation.

His statement, which went out to all law enforcement officials, follows:

Independence Day is a glorious and meaningful holiday. It commemorates the birth of a new Nation, conceived in liberty and dedicated to the belief that all men are created equal. It commemorates the courage and stand of American patriots for the principle that freedom under God is man's destiny. And it reminds us that there is still virtue in recognizing and supporting the ideals of our great heritage.

In the past 190 years, patriotism has been a sustaining power for America in her darkest hours. It has been a dominant force in the preservation of the self-evident truths which were so dear to our Founding Fathers. However, some sophisticated today think an open show of patriotic emotion is old-fashioned. Patriotic symbols and teachings are scorned and neglected. In a Nation founded on an unflinching faith in God and made great by a rich reservoir of spiritual inheritance, it is shocking to now hear that "God is dead" and that patriotism is unnecessary. Is this trend the vision seen by our forefathers who, "with a firm reliance on the protection of Divine Providence," mutually pledged their lives, fortunes, and sacred honor to the establishment of independence? I think not.

Love of country is a matter of

the heart. It is a deep appreciation of the unalienable rights of life, liberty, and the pursuit of happiness. It is a sincere belief in our way of life and a determination to preserve it. Patriotism also is an open declaration of faith and confidence in our constitutional concepts and a heartfelt gratitude for the many blessings God has given to us. If we love our country, why should we be ashamed to say so?

In much of the world today, young people are being indoctrinated with atheistic communism, a false dogma which imprisons the minds and souls of men. Communist and their followers are strong and dedicated. Their goal is to enslave the world. If young Americans, our future leaders, are to resist and turn back this international conspiracy, they must know what they stand for. They need to be well versed in and have full knowledge of our traditions of freedom. They should be taught not only by words but also by deeds. Their pride in our individual liberties and human rights, including the right to worship God, must be fierce and unshakable. They must be willing to defend these rights even unto death.

The need of America in 1966 is for full-time citizens—patriots all, who have pride in our country and in its historic accomplishments. Let us profess our faith in the "living God." Let us shed the cloak of timidity and stand as proud and true patriots, defenders of the priceless heritage forged by the men of '76.

—J. EDGAR HOOVER

## A Priceless Heritage to Defend

Years ago a politician made history with the opinion that what this country needed was a good five-cent cigar.

Nowadays our politicians are obsessed with the notion that what the country needs is more taxes, and their attitude may be judged from some recent remarks of Hubert H. Humphrey. According to a Washington news story, our Vice President in addressing a body of state legislative leaders "quoted figures showing about a third of the states have no income tax, another third have an anemic tax and the remainder 'make reasonably effective use of it.'"

Further on in his remarks he told the lawmakers: "I would suggest that you might take another look at the income tax."

In plain English that means: "You boys ought to get with it. There are plenty of golden eggs in those tax-paying geese."

Time was when this sort of jabberwocky would have ended a man's political career. That was when politicians advocated less government meddling and called for less taxation and more economy. Indeed, only three decades ago there were screams of outrage when Harry Hopkins, the social worker who became aide to President Roosevelt, expressed the political philosophy: "Tax and tax."

spend and spend, elect and elect." He had to back water on that, quick.

Today things are different. Taxes are huckstered by our politicians as though they were highly beneficial. They imply that the more taxes we pay the better off we are. More taxes, we're told, mean you get more things, absolutely free, from Washington and your State Capitol. The more money you pay in taxes the more nice people can be hired to keep a close look on your affairs, especially your tax-paying habits. And more tax money means there will be less money "wasted" on "the private sector of the economy," which means the things you need for yourself.

Such money, diverted to government use, means that people who presume to be smarter than you and I are enabled to buy all sorts of expensive trinkets to use, waste or give away, and this in turn creates business booms. And if the boom gets out of hand and money starts getting worthless, more taxes are just the thing needed to bring it under control.

With so many Americans falling for this malarkey they can blame only themselves when Dr. Humphrey's fiscal prescription is filled by the several states.

## A Leap Backward by Red China

The Pekinologists would like very much to know just what's going on in Red China. It's doubtful if even the Chinese themselves will know what really happened until the current "cultural revolution" has run its course and the long-range effects begin to home home.

What's going on in China is far more than an ordinary, run-of-the-mill purge of the Communist hierarchy. The entire educational system of the country is being reorganized.

Scholarship is out and utter denigration to the truths of communism and the teachings of Mao Tse-tung is in. The purpose of education is no longer to be the training of skills but the fighting of the class struggle.

Entrance examinations for all colleges and universities have been postponed for six months because the schools have be-

come "citadels of bourgeois thought and reactions." Students will henceforth be admitted not on the basis of their abilities but on the basis of their ideological purity.

It is all being done "at the demand of the masses, proclaims 'The People's Daily,' the official organ of the regime. According to a petition supposedly presented to the government by high school students in Peking, the present educational system "induced many young people to bury themselves in books in preparation for going to college; instead of studying for the revolution."

Apparently all students who would have entered college in the interim are now to bury themselves in "volunteer" labor in factories or in the country to "eradicate the difference between physical and mental la-

# Pull Up A Chair

By FRANK JAY MARKEY

Maybe a little encouragement and understanding on the part of parents and teachers might cut the number of high school dropouts. A U.S. Chamber of Commerce study revealed that boys make up the majority of those quitting high school. And more than a quarter of those who do leave their classes are of average intelligence and could pass their courses. Very few have low I. Q.'s; and even fewer have police records. We think any lad of average intelligence should be encouraged to stay in school and learn that education is the price tag for successful employment as an adult.

Today's smile: The teacher of a class in Ancient History asked: "Can anyone name the principal river of Egypt?" Several answered "The Nile." The teacher said: "That's correct. Now can anyone tell me the name of its tributaries?" One youngster responded: "The juveniles."

We've been plugging in, electrical appliances for years, but the latest gadgets in the parade of progress are "plug-in" gas appliances. Instead of a plug there is a coupling used to attach toasters, irons, coffee percolators and the like to gas lines. You'll see them in the stores soon. Drive in theaters in many parts of the country have put the downtown movie houses out of business. These money-makers, together with the smaller cinemas at shopping centers, are the big thing in the theater business these days. The first drive-in was opened at Camden, N.J., just 33 years ago tonight.

Thoughts while shaving: A Federal Aviation Agency official suggests that airline passengers of the future should be given plastic hoods with a self-contained air supply to enable them to get clear of flaming crashes. Why not try to devise a way to extinguish a flame when it starts in mid-air, thus enabling the plane to make a non-flaming landing? Most political meetings are called "pow-wows." The term derives from the Indians along the New England coast, who first used it in connection with their medicine men. Later, it was transferred to their ceremonial rites. When the white man took it over it came to mean any gathering at all. We can't imagine anyone going through life with the name Tun Tun, but a dwarf of that name, an established star in Latin American films, makes his Hollywood debut in the new Warner Bros. movie "Chamber of Horrors" as the owner of a 19th century Baltimore wax museum. Incidentally, the name is pronounced like "toon toon." James Bond never thought of it, but someone at the Pentagon has come up with the bright idea of equipping our fighting men in Vietnam with "melt-away" parachutes. They are made of plastic film, instead of the conventional nylon and can be dissolved in water after use in enemy territory. What next? The Hamilton (Ontario) SPECTATOR reported in a story: "The survey, carried out by a bridal war manufacturer, lists figures since 1958." And there have been many bridal wars since 1958.

Country Editor speaking: "Summer is that time when we eat 'perfect' steak at a cook-out, and which we'd complain was 'burned' if it was served to us at home or in a restaurant."

bor" and thus hasten the day of absolute equality among all China's citizens.

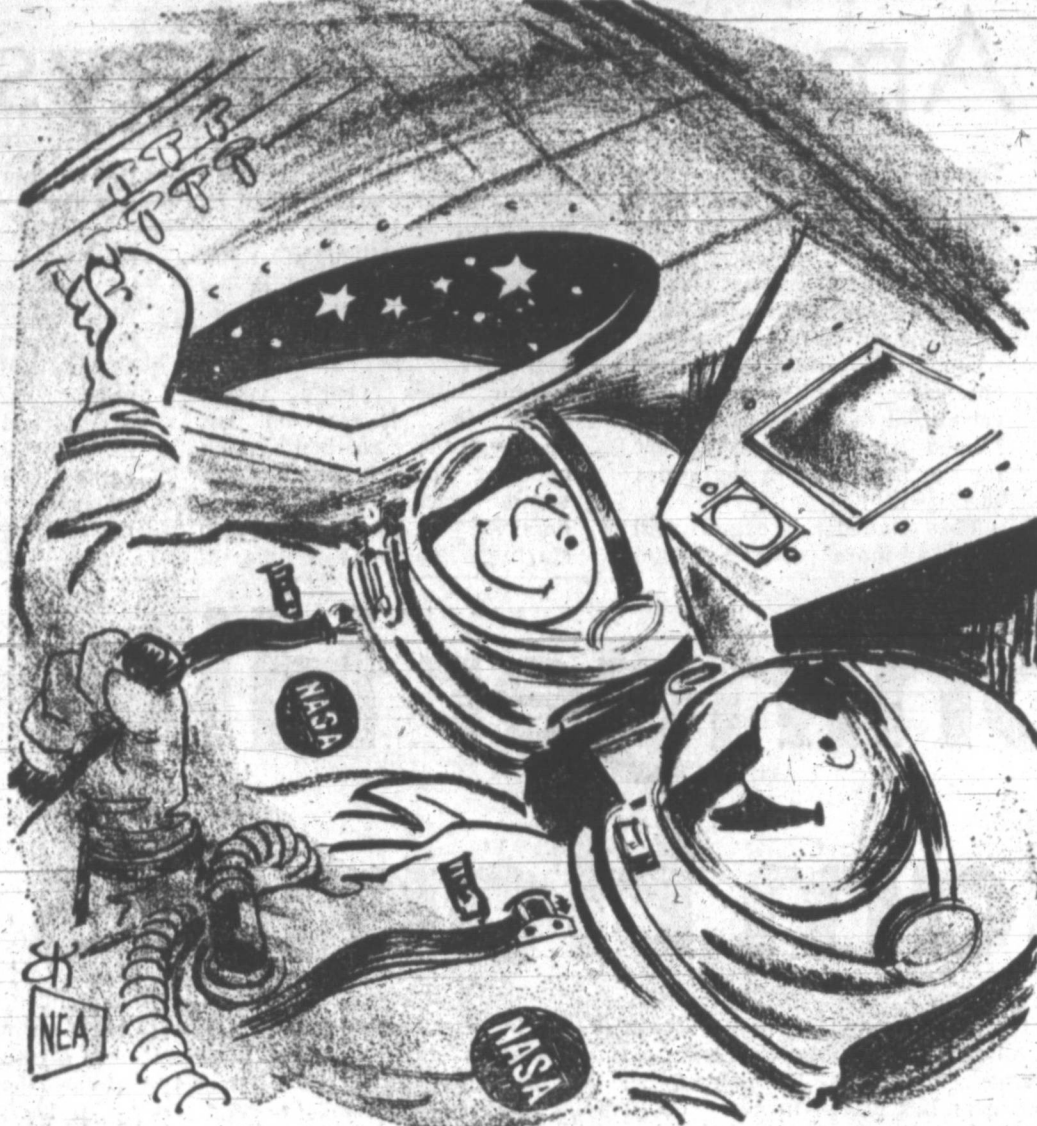

To help achieve this equality, a revival of the discredited commune system is also being undertaken.

China seems deliberately to have launched a "great leap backward" into a new dark age of the mind which, if successful, could indefinitely delay her entrance into the modern world community of nations.

Chinese scientists recently synthesized insulin in the laboratory for the first time, something not yet achieved in the West. Now all the old textbooks are being thrown out of the schools and all the old teachers are being reindoctrinated.

It is almost as if an entire nation were committing intellectual suicide. The consequences of China—and to the world—can hardly be estimated at this time.

# "And Remember on the Fourth How We Used to Shoot Those Skyrockets"

WASHINGTON

## Chart 'Black War' to Sow Confusion

By RAY CROMLEY

Washington Correspondent WASHINGTON (NEA) — Unconventional "black" war techniques for use in Viet Nam are now being quietly discussed among policymakers.

The proposals are circulated with backing from some high U.S. officials in Saigon.

"Black" techniques in this case would be in issuance of "orders" and the publication of newspapers and documents by U.S. or friendly agents pretending to be Viet Cong, North Vietnamese or Red Chinese. False radio broadcasts might be included. Also involved would be a handful of other offbeat ideas. Some examples:

1—A plan to put contaminated ammunition into Viet Cong hands. It could be issued openly (though not labeled as faulty) to men known for their secret VC connections. It could be stored where the VC could pilfer it.

As one proposer puts it: "The effect of contaminated ammunition in Chinese or other bloc weapons held by Viet Cong can readily, and happily, be imagined."

2—A plan for publishing two "black" newspapers for distribution to the VC, each purporting to be published by VC headquarters. Each would espouse a different side in the Sino-Soviet split.

Much of the content would come directly from Radio Moscow, Radio Hanoi and Radio Peking. These papers could also include secret instructions from Hanoi and other high Communist headquarters to local VC political cadre. The orders would be genuine orders, captured in battle. The orders chosen, of course, would be those the Communists would want to keep secret from the people. The newspapers might include, for example, secret order on terrorism, plans for raising taxes or toughening political controls. They might include cynical instructions from Hanoi to put local guerrilla forces in the front ranks where they'd suffer the highest casualties and save "elite" North Vietnamese troops.

That is, they'd be orders from Hanoi which showed the real face of the Communists and disclosed to the Vietnamese villagers that Hanoi pulls the strings. The papers would be published "with a straight face" as though indeed put out by the Viet Cong themselves.

3—A scheme for issuing "black orders" to the Viet Cong units. These orders would deliberately be conflicting—setting groups of VC at cross-purposes and engendering confusion.

False intelligence reports could be sent "from higher headquarters." False orders could be issued, calling for shipping rice along certain routes at certain times when government troops would be waiting in ambush.

These false orders could either be paper orders delivered by agents or radio orders beamed into the VC radio receivers using Hanoi-VC frequencies and codes.

Administration Switches Position on School Milk; Congressmen Urge Moves to Spur Wheat, Milk Production

PAUL SCOTT

WASHINGTON — The Johnson Administration is backing down on its once-insistent demand that Congress drastically slash the school milk program from \$103 million to \$21 million.

Without fanfare the sponge was thrown in by Agriculture Secretary Orville Freeman at a meeting of the Senate Agriculture Committee. It was considering a bill by Senator Allen Ellender, D-La., chairman, to continue the widely popular program for four more years. Not only did Freeman capitulate; he turned a complete flip-flop.

To the committee's astonishment he announced the administration now favors making the program permanent with no ceiling on its funds. "I would suggest for your consideration," Freeman told the senators, "that the program be made permanent, and that the \$100 million limitation on its appropriations be eliminated. We see no basis for limiting the duration of the program or its funds."

Strikingly illustrative of the extent of this sudden switch is the stand taken by Assistant Agriculture Secretary George Mehren a little more than a month previous. He firmly told the Senate committee there was no economic justification for the school milk program. Said Mehren: "The long-standing reason for a special milk program to alleviate surplus production conditions does not now exist. There is no evidence there will be surplus production in the near future. We do not now need a special milk program for this reason."

What Congress will do about the administration's latest shift is still uncertain. But one thing is absolutely definite: The school milk program will be continued by Congress at its present \$103-million-a-year level for at least four more years—and possibly longer, on a progressively larger scale, as vigorously advocated by Senator William Proxmire, D-Wis.

For Proxmire, the administration's change of mind is a resounding victory. He was the first to assail the proposed axing of the school milk program, and spearheaded the militant bipartisan fight that forced the administration to run for cover. NO MORE SURPLUSES—Senator Proxmire is now leading a new bipartisan demand for a hike in the government price support on milk—from \$3.50 to \$4 a hundredweight.

Potently backing him is Senator George Aiken, Vt., ranking Republican member of the Agriculture Committee. Both are stressing that the administration's price support policy is steadily driving dairy farmers out of business with resulting loss in production at a time when consumption is increasing.

"Production of milk in May was the lowest it has been since 1946," points out Proxmire, "when the nation's population was only 65 per cent of its present level. Production last

month was 4 per cent below May of 1955. "With a rising population, greater affluence and ability to afford the most nutritious foods, it is clear that milk production sufficient for a nation of 133 million in 1940 is far from enough for a far more prosperous nation of 195 million today. The production of milk is going to be grossly insufficient to meet the nation's needs unless the administration acts promptly to lift the support price to at least \$4 a hundredweight."

Senator Aiken says categorically the U.S. has run out of surplus in dairy products, and cites the following official figures to prove it: —In May 1965, milk production totaled 12,266,000,000 lbs. In May of this year output had fallen to 11,767,000,000 lbs. —As of July 1, 1965, the Commodity Credit Corporation had a stockpile of 282,620,291 lbs. in government-owned dried milk. On March 31, 1966, this surplus had sunk to 67,699,102 lbs. —On July 1, 1965, the Commodity Credit Corporation had a stockpile of 158,960,918 lbs. of government-owned butter. On March 31, 1966, this immense surplus had shrunk to 717,269 lbs. —On July 1, 1965, the Commodity Credit Corporation had 2,088,565 lbs. of government-owned cheese. Today—there is not a single pound of surplus cheese. "Our population is growing and consumption is growing," says Aiken, "but the number of dairy farmers is steadily decreasing and so is dairy production. Unless the administration moves quickly and forcefully to counter this situation, our country is going to be in a serious predicament on a vital food."

# The American Way

By HARRY BROWNE

July 4 is the day we celebrate national independence day. But there is a more basic independence that must be celebrated—after it has been won.

What about your "Declaration of Independence"? Have you declared it? Have you taken the trouble to examine your own life to see where it can be improved through independence?

Independence begins by examining the clichés, the platitudes, the maxims and the morals that are repeated endlessly without thought. How many clichés are you carrying in your mind right now—clichés that you have never taken the trouble to prove to your own satisfaction?

You have a mind. Its purpose is to think, to determine, to weigh, to judge, to guide, to direct—to make the decisions that are necessary to bring maximum happiness to your life.

Are you using it? Do you use your mind to examine the logic and validity of the many arguments, creeds, and slogans that others expect you to accept without hesitation? Are you giving your mind the opportunity to serve you—by acting as the filter that separates the provable truth from the repetitious slogan?

Have you been accepting as

proof such trite evidence as "Because it has always been this way" or "Everybody knows that's true" or "so-and-so says it's true." If so, isn't it about time to find out what you think is true?

Let today be your day of independence—the day you decide to sit down and think out this world for yourself.

Does someone expect you to believe something? Then let him prove it!

Does someone expect you to act in a certain way? Why?

Is it expected of you that you will participate in some function? Why should it be?

Your life is yours—it belongs to no one else. There is no human being who can claim to own you—to any degree. You are not obligated to anyone or anything.

If someone wants something from you, let them prove the validity of it and approach you on a mutually-profitable basis.

But while you're declaring your own independence, your self-interest demands of you that you also recognize the independence of every other human being, too. Just as no one has a claim upon your life, you have no claim on the life of anyone else.

Recognize this—realize that no one is obligated to you for anything. If you want others to accept your idea, then you must prove them.

If you want others to do things for you, then you must approach them on a mutually-profitable basis.

If you want others to associate with you, then you must be worthy of that association. You must demonstrate your own independence and the fact that others will be treated with the same independence by you. You must prove that you will not lie, cheat, steal or plunder in any way—if you expect those other independent human beings to respect you.

No one owes you anything. In the same way, you do not owe anything to anyone else.

But you owe it to yourself to give the best that you are to your family, your friends, your business associates—because only in that way will you earn the respect, the service, and the profit that you seek.

And any relationship based upon the premise that both parties are totally independent will be a realistic, firm, durable relationship.

July 4th is here. What are you going to do about it?

# The Almanac

Today is Monday, July 4, the 185th day of 1966 with 180 to follow.

Today is Independence Day. The moon is between its full phase and last quarter.

The morning stars are Venus and Saturn.

There are no evening stars. Thirteenth President Calvin Coolidge, was born on this day in 1872.

On this day in history: In 1773, the Continental Congress accepted the Declaration of Independence. It was signed by John Hancock, President of the congress, and Secretary Charles Thomson. Other congressional members signed it starting August 2, 1776.

In 1947, Gen. Chiang Kai-shek of China issued a proclamation stating that the Communists were in open rebellion against the government and ordered general mobilization of manpower.

# matter fact

The oldest organized sport in America is lacrosse. It is the name given by the French settlers of Canada to the old Indian game of baggataway, "because the curved netted stick resembles a bishop's crozier." It was played by the six nations of the Iroquois before Columbus landed in the new world in 1492.

# Mental Inmates Hold Guards for Complaints

LARNED, Kan. (UPI) — Officials at the Larned State Mental Hospital today checked into grievances made by 11 rebel inmates who held seven guards hostage in the section for the criminally insane Saturday night.

Dr. Robert Haines, state director of institutional management, said the list of grievances presented by the inmates will be treated "mostly as a hospital matter."

"Most of the complaints are against a few of the aides and their particular treatment of the patients," Haines said. He added that if some of the complaints are true, there "would have to be some changes made."

The inmates — convicted of crimes but sent here after being judged insane — barricaded themselves in one wing of the maximum security section at the mental institution about 8:30 p.m. (CST) Saturday with seven aides.

They released the hostages unharmed about seven hours later after Haines' Charles McAtee, state director of the penal division, hospital officials and newsmen met with the inmates and heard their grievances. The complaints ranged from accusations that aides beat the inmates to objections

that the mail was sorted too slowly.

More than 100 law enforcement officers from Western Kansas were called to the hospital. They stood by with tear gas and fire hoses while reports circulated that the inmates had fashioned "Molotov cocktails" from lighter fluid.

Besides the seizing of the guards there was no other violence and damage was minor. Some glass and furniture were broken.

A spokesman for the patients said they had no plans to escape but wanted to "bring the attention of the outside world to our gross problems."

# Students Want Expulsion for Czech in Mexico

MEXICO CITY (UPI) — A Mexican student organization accused the Czechoslovakian ambassador and his commercial attaché Sunday of shipping up discontent in two states and demanded their expulsion.

The University Movement of Renewed Orientation (MURO) issued a statement accusing Ambassador Karel Hanus and Attaché Emil Hradecky of being involved in student disturbances in Durango, where the students hold an iron ore mine, and in the state of Nayarit, where there is a problem of tobacco sales to Czechoslovakia. MURO demanded that both diplomats, who it alleged, were "expert technicians in political subversion," be declared personas non grata by the Mexican government, and sent back home.

**INSURANCE COUNSELOR:** Glen Courtney, local agent for State Farm Insurance, has become an expert in helping the individual properly insure their property, as well as their family automobile. For expert insurance advice, call MO 4-8611 or visit his office at 1534 N. Hobart.

## Glen Courtney Is Competent Advisor on Insurance Needs

Generally, policyholders' rates are determined by their "accident potential." That doesn't mean that each person's "accident potential" is estimated on an individual basis. But, by looking at the accident records of a large group of people who have certain similar characteristics like age, marital status, and the use of their car — who drive about the same mileage through similar traffic — who are exposed to similar hazards, insurance companies can get a pretty good idea of what the accident record of that group may be through the next several months.

From this analysis, insurance companies are able to group applicants and policyholders into classes. If you fall within a group that has a higher "accident potential" — the cost of your insurance will be higher. If you qualify for a lower "accident potential" group — the cost of your insurance will be lower.

Of course, when the cost and number of accidents go up (as they have in the last few years) insurance costs for everybody go up. You can do something about car insurance rates. Accidents don't have to happen. It

starts with you. The minute you start your car you have an "accident potential." You have to drive carefully for yourself and "the other driver," as well. Drive as if you're the only person on the road with any common sense. You don't always know what the other driver is going to do. He may have a blow-out or his brakes may fail. He may use bad judgement or have bad eyesight. Watch out the other driver. Drive defensively. If everyone drives with an alert, defensive attitude, watching out for the mistakes of other drivers, thousands of lives could be saved each year.

And, don't forget to keep your own car in safe operating condition. Install seat belts and use them. Remove the keys from the ignition and lock the doors whenever you leave your car. When enforcement of motor vehicle laws is lax and courts are lenient with irresponsible drivers, let the newspaper, local officials and legislators know how you feel.

And, don't just talk about it — do it! After the accident — there may be nothing you can do.

Your State Farm agent is anxious to help you... not only get a good deal on insurance for your car, but the same good deal on life and homeowners insurance.

Up-to-date, sensible life insurance tailored to fit your needs and budget exactly. And, a worry-free insurance package for you, your home and your belongings. (Even coverage in case of lawsuits.)

Call your State Farm family insurance man now. You'll find out that in auto, life and home protection, when you say State Farm, you've said a good deal! Glen Courtney at 1534 N. Hobart is your State Farm agent for Pampa. Go by and see him today.

## Frank Smith Wins Trip to Hawaii In Sales Contest

Frank Smith, owner-operator of Smith's Quality Shoes, has won the runner-up prize in the retailer division of the nationwide Paradise Kitten — TWA "Rendezvous in Rome" contest.

The announcement was made by Jane M. Smith, advertising director of the shoe manufacturer. The contest was judged on the ingenuity of the Pampa store in cooperating with the Paradise Kitten and TWA promotion.

Mr. and Mrs. Smith will enjoy an 8-day vacation in Honolulu. They will travel by TWA from Amarillo July 11.

**BOMB DEFUSED**  
— HANAU, Germany (UPI) — Detonation experts Friday defused a 500-pound bomb which apparently was dropped during World War II. The bomb was found by a dredger working on a construction site.

## Kennedy Decries Viet Escalation

WASHINGTON (UPI) — Sen. Robert F. Kennedy, D-N.Y., believes the U.S. air strikes on communist oil facilities makes it more difficult for the North Vietnamese to supply their forces in South Viet Nam.

"But I think the danger of escalation of this war... and therefore a danger of a conflict or confrontation with the Chinese, outweighs the military advantages," Kennedy said.

Presidential assistant Walt W. Rostow defended the bombings, however. He said during a television interview Sunday that the strikes were "wholly consistent" with U.S. efforts to prevent a Communist takeover.

"I don't believe that it (the bombings) need lead to war with China. That is a choice which the mainland Chinese government has to make... as the President said, we want nothing in Communist China. We want nothing from Communist China. I believe that is understood inside Communist China," Rostow added.

Kennedy emphasized that he thought President Johnson's decision to bomb the installations on the outskirts of North Viet Nam's capital was "very, very difficult, and it is one thing to criticize and another to try to develop a policy and a program that is effective."

The President said the raids were necessary to convince the Communists they could never win, and thus bring them to the peace table.

But Kennedy said this would never work. "Extending the bombing is not going to be conducive toward bringing the North Vietnamese or Communists to the negotiating table because I think they have been under fire before and they are going to be strong and react strongly."

### WRONG TARGET

DOVER, England (UPI) — Holiday makers at a caravan site panicked Friday when a dozen commando soldiers dashed through the camp, firing rifles and shouting war cries.

A red-faced army major later apologized on behalf of the troops who were on exercise and mistook the camping grounds for their target area.

### FRANCO-ANGLO PARLAY

LONDON (UPI) — French Premier Georges Pompidou will arrive July 6 for talks with Premier Minister Harold Wilson. It was officially announced Thursday.

Families in America today are using almost twice as much hot water as they did 10 years ago.

## Foreign Commentary

By PHIL NEWSOM  
UPI Foreign News Analyst

Church vis-a-vis Reds:

More and more Communist envoys may be seen at the Vatican before long. But they are not likely to include one from Russia, and certainly not Communist China.

Vatican sources have indicated that last month's accord establishing partial diplomatic relations with Yugoslavia after a 14-year break is only the first step in a patient effort to restore relations with the Communist regimes of Eastern Europe. It may take years—the accord with Yugoslavia took two years—but "the tendency certainly is in that direction," the sources said. Italian Communist sources say Czechoslovakia, Romania, Bulgaria and Hungary may be next. The recent flare-up of church-state tension in Poland has eliminated that nation as one of the early candidates.

Traveller De Gaulle:

President Charles de Gaulle scarcely had returned from his triumphant tour of Russia when he began laying plans for a 28,000-mile junket to the Pacific to witness the final phase of French nuclear tests at Mururoa Atoll in early September. He will make two key stops enroute: Aug. 28 in Addis Ababa, for talks with Ethiopian Emperor Haile Selassie on how to prop up moderate African regimes, and a state visit to Cambodia starting Sept. 2. The Cambodian visit is expected to produce a strident new call for neutralization of Viet Nam. Officials discount the possibility of secret talks in Phnom Penh with Ho Chi Minh's emissaries.

Driver's licenses:

With one automobile for seven inhabitants, Belgium finally has decided to introduce a road test and license for drivers, and no country ever needed them more. Probable date will be January, 1967. Old drivers automatically will be licensed but youngsters will have to undergo strict tests. Until January, the current system will be in force. Anyone

can buy a car and drive it off.

New peace drive:

A new British probe into prospects of a Viet Nam truce may be expected soon. This may be done through different channels—in Geneva, through commonwealth lines and fresh soundings in Hanoi. Prime Minister Harold Wilson will discuss these ideas with President Johnson in Washington later this month.

Communist summit:

In Bucharest, Communist leaders are discussing, among other things, a possible reduction of Soviet aid forces in East Germany and Hungary. However, such action is believed unlikely so long as Viet Nam tensions continue. So far as Viet Nam developments are concerned, there doesn't seem much the Soviets can do short of military confrontation. The alternatives are a stepped up anti-U.S. propaganda campaign and vastly increased military aid to the North.

SPECIAL RATES

DALLAS (UPI) — Traffic courts here offer bargain rates to early arrivals willing to plead no contest to driving violations. Court Clerk Hugh Jones said persons with otherwise good driving records can have \$10 fines cut to \$5 and \$25 fines reduced to \$10 if they arrive early enough to help ease crowded dockets at the four Dallas traffic courts.
