Nation's Travelers Crippled by Union Walkout

Five Major Airlines Are Stalled by Strike

BY FRANK SWOBODA
United Press International

WASHINGTON (UPI) — Airline machinists ignored a presidential plea and early today began a nationwide strike grounding more than half the nation's airliners.

Thousands of vacationers, businessmen and tourists were stranded—30,000 Shriners alone being caught flat in San Francisco as their week-long convention broke up.

The walkout affected five major air carriers. And the prospect was dim that the airlines remaining in operation could take up some of the slack.

"The trouble is that at this time of year everybody's already using all their equipment," an airline spokesman said.

Picket lines went up at Kennedy International Airport in New York, National Airport in Washington and other major eastern airfields precisely at 6 a.m. EDT.

The strike spread westward as the local clocks struck 6.

Spokesmen for the struck airlines said there were no plans to lessen the impact on travelers by trying to maintain some flights with supervisory personnel.

But they said flights which originated before the strike deadline would continue through to their final destinations, even though this might mean taking off from some intermediate airports after picket lines were up there.

The strike by 35,300 members of the International Association of Machinists (IAM) was against five major airlines—Trans World, United, Eastern, Northwest and National—which serve about 150,000 persons daily and gross \$7 million a day.

From the Texas White House, President Johnson appealed Thursday night for both sides to come to terms on a new three-year contract, and get back to bargaining "as soon as possible."

Johnson also ordered government officials to assure that air transportation was available for defense needs, to keep the mails moving, and to "minimize the inconvenience to the traveling public."

The strike became a certainty earlier Thursday when Assistant Labor Secretary James J. Reynolds announced prolonged mediation had failed to yield any agreements on wage and benefit issues separating the two sides.

Reynolds, who served as chief federal mediator in the dispute, was told by Johnson to get the talks going again.

Reynolds set up a 10 a.m. session for Saturday. He had assurances from the IAM and airlines they would resume talks.

Jets Knock Out 95 Per Cent Of Pumping Units

SAIGON (UPI) — Return raids on North Viet Nam's largest oil depot on the outskirts of Haiphong Thursday dealt a "devastating blow" to the Communist war machine by knocking out pumping stations that handle 95 per cent of all petroleum imports, U.S. officials said today.

A military spokesman said Navy jets also knocked out three North Vietnamese patrol boats and successfully evaded air-to-air missiles fired at them by Soviet-designed MIG 21s, Russia's most advanced fighter-interceptor.

The Navy flew a total of 77 missions against North Viet Nam Thursday, the officials said, and lost only two planes despite Communist claims that six were downed.

An F105 Thunderchief was shot down by conventional ground fire about 90 miles northwest of Hanoi and the pilot was listed as missing, and A4 Skyhawk pilot, Lt. Cmdr. William J. Isenhour of Lemore, Calif. safely ejected over the South China Sea and was rescued.

The Haiphong raids were a repeat of those made last Friday which stirred protests in many parts of the world as an escalation of the war. Officials said reconnaissance showed that two pumping stations and some oil storage tanks had not been knocked out.

Flying through heavy flak, Navy jets led by Cmdr. Albert (Jack) Monger of Brawley, Calif., and Cmdr. Carl (Tex) Birdwell Jr. of Bryan, Texas, sent up a heavy column of black smoke that could be seen 80 miles away.

Other Navy planes from 7th Fleet carriers spotted four North Vietnamese PT boats moored off a coastal island about 25 miles southeast of Haiphong and sank two, drove another burning on a beach and heavily damaged the fourth in a three-hour battle.

The Communist MIGs rose to challenge U.S. raiders hitting a surface-to-air missile (SAM) site 35 miles northwest of Hanoi. It marked the first time

Form-O-Uth Will Double Floor Space and Employes

Factory to Provide \$2 Million Payroll

Pampa's Marie Foundations plant, 800 E. Kingsmill, will begin a two-pronged expansion program next Monday that will more than double the factory's floor space and increase the number of women employes from the present 250 to 500.

The announcement was made this forenoon by Calvin Fraser, company president, at a meeting of the board of the Pampa Industrial Foundation in the Pampa Chamber of Commerce conference room.

Fraser said the expansion program, when completed and with the employe roster at full strength, will enable the Form-O-Uth factory here to provide Pampa with a \$2,000,000 annual payroll.

This realization, he stated, should come within 18 months to two years.

Ed Myatt, of Pam-Tex Corp., which built the present plant structure, said work on the first building to be added will start Monday morning. It will be 120 by 180 feet with 21,600 square feet of floor space. The present building has 21,000 feet of floor space.

Upon completion of the first addition another structure 120 by 200 feet will be built which will bring total additional floor space to 46,800 square feet.

The new addition will provide more office space, rest rooms and floor space for installation of new machines.

The Form-O-Uth plant here manufactures women's undergarments and supplies approximately 600 stores in the United States and some in South America and Canada.

"We hope to have our employe roll built up by fall," Fraser said, "and we are anxious to get into new production as rapidly as possible."

Fraser added that the company has been forced to turn down much new business because of its current inability to fill orders.

He said the company needs half of its planned additional floor space now and hopes to get into the additional expansion immediately upon completion of the current program.

Present at today's meeting, in addition to PIF board members, were Mayor Jim Nation, City Manager Jim White and Chamber of Commerce president Norman Henry, all of whom extended congratulations to Fraser for his plant expansion program and the company's contribution to Pampa's economy.

E. L. Green, Jr., president of the Industrial Foundation, also congratulated Fraser, spoke of the work being done by the PIF and extended cooperation to the growing industry.

The phenomenal growth of the Pampa plant of Marie Foundations, which also has a plant in McLean, has occurred within the short period of two years.

The plant was opened in 1964 and has grown much faster than its production capacity.

"That's why we need more space and more employes," Fraser said. "By a year from now we hope to be adding very substantially to Pampa's per capita income."

Daily News Staff Photo

GOOD NEWS CONFERENCE—Calvin Fraser, second from left, president of Marie Foundations, confers with city and civic leaders just before his announcement today that the company's Pampa plant plans to double both its production capacity and number of employes. Talking with Fraser in the Chamber of Commerce lobby are, left to right, E. L. Green Jr., president of the Pampa Industrial Foundation, Mayor Jim Nation and Norman Henry, chamber of commerce president.

Oregon Governor Only Dissenter To Viet Approval

LOS ANGELES (UPI) Gov. Mark Hatfield of Oregon emerged from the 1966 National Governors' Conference today as a lonesome gambler staking his political future against U.S. policy in Viet Nam.

Gov. George Romney of Michigan went halfway with Hatfield and then pulled back to line up with the 49 to 1 majority which approved an already bland resolution of support for U.S. global commitments including the defense of Viet Nam against aggression.

Hatfield, now Republican nominee for a seat in the U.S. Senate, was the lonely dissenter against 46 state and three territorial governors. He has long been a critic of U.S. policy in Viet Nam and of every strategic decision to escalate the war.

At Thursday's final session of the annual conference, Gov. Grant Sawyer of Nevada offered a bipartisan resolution already softened in negotiations with Republicans. It declared support for U.S. servicemen in Viet Nam and for the nation's world commitments without any reference to President Johnson's course of action in Viet Nam and the recent bombing of oil dumps near Hanoi and Haiphong.

Speaking for Democrats who thought the resolution was too gentle, Gov. Richard J. Hughes of New Jersey offered an amendment to specify the defense of South Viet Nam as one of the global commitments. The Hughes amendment was approved by a voice vote.

At a closed session, the conference voted to hold a special meeting at or near Washington, DC, next winter, in part because the 1967 sessions are scheduled for October, 16 months after this meeting.

Militancy Resolutions Before NAACP Parley

LOS ANGELES (UPI) — The 57th annual convention of the National Association for the Advancement of Colored People (NAACP) today begins tackling potentially controversial resolutions on reorganization of the civil rights group.

The resolutions committee was meeting at the Statler Hilton Hotel this morning but its report would not be made to the convention until Saturday.

There was evidence of an underground movement by so-called "young turks" to try to upset the NAACP hierarchy but they were not revealing their strategy. The young element favors a more militant stance on civil rights issues but stops short of the "black power" concept embraced by the Congress of Racial Equality (CORE) and the Student Non-violent Coordinating Committee (SNCC).

Hard Head Finds Spike in Skull

MEMPHIS (UPI) — "Somebody's driven a nail into your head," observed the barber while cutting Ernest Wells' hair.

"I don't know where it came from," Wells replied. "But I had been having headaches." The discovery was made Thursday in a barber's chair at a penal farm where Wells was serving a term for fighting.

The prisoner was taken to a hospital where an inch-long stem of an icepick blade was removed from his head.

APPROVES GRANTS — WASHINGTON (UPI) — The Office of Education has approved allocation of \$9,329,258 for programs in 46 states aimed at solving community problems with the help of college and university talent.

Reds Broadcast 'Confessions' of US Pilots

TOKYO (UPI) — North Viet Nam broadcast "confessions" of captured U.S. pilots admitting to bombing "schools, hospitals, churches and innocent people" today and said angry mobs demanded their deaths.

Communist news agency dispatches also told how "scores" of American prisoners were paraded through the streets of Hanoi while "a human sea" surged forward and shook fists at the peace disturbers and child killers.

The report said the crowd demanded that the government "try and punish the pirates" and cried out for their execution.

Soldier-Father Looks On As 21-Year-Old Son Buried

EL PASO, Tex. (UPI) — Army Pvt. Danny Smith was buried with full military honors at Ft. Bliss National Cemetery Thursday while his soldier-father who served with him in Viet Nam looked on.

Danny, who would have been 22 Wednesday and who had been in Viet Nam since March 7, was killed last Thursday some 25 miles north of Saigon. His body was escorted home by his father, Army Spl. 6 Gerald Smith.

Danny's mother, to whom he expressed fears of being killed in his last letter home, and his brother, Darrel, 19, who entered the army last month, also attended the funeral and burial. Funeral services were held at the Holoman Air Force Base Chapel near Alamogordo, N.M., as flags flew at half staff in tribute to the youth.

Maj. Leland R. Stevens, Holoman chaplain, conducted the 20-minute funeral service. Six

pallbearers carried the flag-draped casket and six other men served as an honor guard. Burial followed at Ft. Bliss.

Danny and his father, who expects to return to Viet Nam following his 30-day emergency leave, were stationed less than 20 miles apart in Viet Nam and had one brief meeting when their units met by chance.

Stephens, in eulogizing the young soldier, said: "Danny Smith gave his life in the service of his country. Just as Nathan Hale sacrificed his life at 21 with regret that he only had one to give, and as John F. Kennedy underscored his statement, ask not what your country can do for you; ask what you can do for your country, with his martyrdom, so had Danny made that supreme sacrifice."

Danny was a member of the 4th Cavalry, 1st Infantry Division. The elder Smith was stationed with the 605th Transportation Corps.

Continued Hot Weather Due Pampa Vicinity

Although prospects for rain exist in nearly every section of the state through Saturday, no showers are forecast for the Pampa vicinity, with continued warm weather.

High is again expected to reach the upper 90's, with clear to partly cloudy skies. Low is to be near 70. Southerly winds of 15 to 25 miles an hour are forecast. Outlook for Sunday calls for little change.

Thursday's high was 94, and low this morning was 72.

Throughout the rest of the state, scattered showers dampened parts of North Central and Northeast Texas today and South Texas rivers, swollen by seven-inch rains, spilled into lowlands.

A few light showers peppered parts of Southwest Texas.

More than seven inches of rain fell north of Leakey, 75 miles west of San Antonio, sending the Frio River on a six-foot rise. It flooded surrounding lowlands.

Cattlemen and campers were warned of the rising water in Garner State Park near Leakey.

The rains sent water flowing over low water crossings on the upper Nueces and Frio and (See WEATHER, Page 3)

He said the company needs half of its planned additional floor space now and hopes to get into the additional expansion immediately upon completion of the current program.

59TH
YEAR

Astrological Forecast

By CARROLL RICHTER

FOR SATURDAY, JULY 9
GENERAL TENDENCIES: A day of activity and excitement. Avoid making any new arrangements for the week ahead. A considerable amount of trouble as time passes. An argument should be avoided if you find that you are involved in a big issue.

ARIES (Mar. 21 to Apr. 19): Try not to express that disappointed feeling of others will not be pleased with you. Others need encouragement themselves. Do not add to their woes. Show that you have strength of character, are helpful.

Taurus (Apr. 20 to May 20): Don't permit any secret anxieties to keep you from carrying through with constructive plans you have been making in a business or personal way. Improve your career. Have greater problems — help them.

GEMINI (May 21 to June 21): Avoid most of your friends today, since they are apt to be in a bad mood or want to press you into something. Show courtesy, though. Keep busy going after your aims with enthusiasm and wisdom.

MINOR CHILDREN: June 22 to July 21 — Making sure not to take any risks with others will insure your getting ahead. A good day to clear up any misunderstandings with others. Be cooperative, considerate and sociable.

LEO (July 22 to Aug. 21): Forget about jumping into new interests you know little about and carry through with

whatever is standard, proven. If you have to take a small trip, do so. However, be very careful in driving.

VIRGO (Aug. 22 to Sept. 22): Keeping promises made in a very precise way will put intelligent persons in your corner in the future since they will be highly impressed. Kin may not react as you desire. Be patient.

LIBRA (Sept. 23 to Oct. 23): Spend some time planning how to please your associates more, since they are pretty up set right now. Keeping promises precise by an absolutely important. Regain lost ground with all.

SCORPIO (Oct. 24 to Nov. 21): Small duties await you that should not be put off, so give up thoughts of going out for a little fun. Some health problems should be looked into without delay. Be a stronger, happier you.

SAGITTARIUS (Nov. 22 to Dec. 21): Forget that temptation to go off to some very expensive and hardly worthwhile recreation that could prove to be a very unhappy one. Get into that hobby you like so much instead. Be heartwarming with those who are in trouble.

CAPRICORN (Dec. 22 to Jan. 20): You have to be very diplomatic in handling some home affair, since others are very sensitive just now. Get rid of tensions in the best way you can. Objective thinking.

AQUARIUS (Jan. 21 to Feb. 19): Although optimism may be justified, it is

Specialists Study Poor Performance

SAN FRANCISCO (UPI) — Children who are poor readers and who falter in spelling and writing aren't necessarily dull students.

In fact, many of them are gifted children whose ability cannot be rationalized because of a basic physical problem which affects their capacity to handle symbols.

These are the findings of researchers at the University of California Medical Center, where a clinic is being established for children with specific learning disorders.

Early diagnosis and treatment could mean the difference between achievement or failure and frustration, say the researchers.

The Dainty Look of Lace for Summer

FEMININE TOUCH — Schiffli eyelet and lace add a feminine touch to summer fashions. The tent dress (left) by Mr. Mort in eyelet cotton batiste falls gracefully from small shoulders to a widened hem. White cotton summer coat (right) from Leonard Arkin skims the body. It is enchantingly set off with sleeves of lace in a floral pattern.

American Tourist Rates as Gourmet

CHICAGO (UPI) — The American tourist has replaced the Frenchman as the world's most discriminating gourmet, a London restaurant director claims.

Guy Gluckstein, manager of The Diplomat, one of London's swankiest restaurants, says that "the stereotypical of the American tourist eating hot dogs wherever he goes could not be

further from the truth." Gluckstein was here on a visit.

"France is still the gourmet capital," he continued, "but the Frenchman limits his own claim to gourmet honors by refusing to eat anything but French cooking. He insists on sauces and does not necessarily care what is under them."

"Englishmen are too timid about trying sauces and spices,

Shorten the Skirt
To make a long story short you simply lengthen the torso and shorten the skirt. Sleek funnel tops flare to kicky bottoms for that perpetual motion effect.

and Germans demand rich, heavy food," he added. "But the American tourist keeps a restaurant on its toes, because he's likely to order anything on the menu and demand perfection."

Dear Abby... Husband's Conscience Won't Take Orders

DEAR ABBY: Please, please print this in your column. It may save my marriage. I can't mention any names as I don't want to ruin my husband's good name, but he has been seeing another woman.

I hope I can reach that woman's heart and ask her to please stop seeing my husband as I love him very much.

It just about kills me to know that someone else has taken my place with him. I have always been true to my husband and have been a good wife and mother. I would do anything for him, Abby. We have four children who love him, too. I am in hopes that the woman believes in God and will stop seeing my husband.

PRAYING
DEAR PRAYING: Your husband's conscience won't take orders from the "other" woman's heart. Try to reach your husband's sense of decency, morality, responsibility, and honor. He is not being held captive, you know.

Don't nag, beg, or drive him

him where he got them, and he said from a farmer out near where he worked. He asked me to boil two for his lunch bucket the next day. I did, and when he came home from work he said, "I never tasted anything so terrible as those eggs in all my life."

"They were duck eggs. I was biting into everything I could get my hands on all day long trying to get that awful taste out of my mouth."

So, Abby, please tell women who have husbands who think they can do their wives' jobs as well as their own to just tune the poor-boobs out. From now on, my husband does his job and I do mine.

LAST LAUGH

Troubled? Write to Abby, Box 69700, Los Angeles, Calif., 90069. For a personal reply, enclose a stamped, self-addressed envelope.

Hate to write letters? Send \$1 to Abby, Box 69700, Los Angeles, Calif., 90069, for Abby's booklet, "How to Write Letters for All Occasions."

The diamond, symbol of love, is worn on the fourth finger of the left hand because it was once believed that the vena amoris, or vein of love, ran from this finger directly to the heart. The English Prayer Book specified that the marriage ring also be placed on the left hand.

Manners Make Friends

DEAR ABBY: I am a 16-year-old girl who has read your column for years but I've never seen a problem like mine. I know I am too forward with the boys, but I can't help making a fool of myself.

I am always bumping into them accidentally, on purpose, being loud, and making silly remarks that aren't ladylike. I flirt and try to be real cute, but am always saying the wrong thing at the wrong time. Afterwards I see what I did wrong and I feel just awful. I don't want to be known as a flirt and boy-chaser, Abby. I sure need your help. How can I overcome this?

BOY CHASER
DEAR BOY CHASER: You are intelligent to realize what your problem is and honest to admit it. Now in order to overcome your forwardness, hear this in mind: When you are in the company of boys, think before you speak.

Don't talk because you have to say something, talk because you have something to say. If you sit as a lady, walk as a lady, and talk as a lady you will soon be considered one.

DEAR ABBY: My husband kept nagging me to let him do the marketing because he thought I spent too much for what I got. Well, I let him do the shopping one day, and he came home with the biggest eggs I had ever seen. I asked

Strike (Continued From Page 1)

IAM negotiator and general vice president of the union said that the parties were "poles apart" and no agreement had been reached on eight national issues.

William J. Curtin, chief airline negotiator, said the IAM "blew up the negotiation with a fantastic demand" for wages and other benefits increases.

Curtin said the demands were 75 per cent higher than the settlement recommended June 7 by a special presidential emergency board headed by Sen. Wayne L. Morse, D-Ore.

Sen. Morse said the strike "cannot be justified on any basis whatsoever," urged its postponement for additional mediation, and offered to reconvene his emergency board to help reach a settlement.

President Johnson said he was disappointed at the failure of both sides to reach an agreement. He said of the IAM and airlines that they "have a great responsibility to the traveling public and the public will expect them to live up to that responsibility."

The government, which used all its legal tools to try to avert the strike, has also done all it can to minimize the impact of the walkout, Johnson said.

Some railroads and bus companies were organizing for the expected crush of stranded air travelers. The Civil Aeronautics Board (CAB) met with representatives of operating airlines to see what, if any, additional service they might provide.

The strike would affect operations at 231 cities in the United States and 23 abroad, and would leave 68 U.S. cities without any trunkline service.

A major dispute between the IAM and the airlines is wages. IAM employees with the airlines now average \$3.25 an hour. Top wages for an IAM mechanic is \$3.32 an hour.

WTCC Outlines Promotions For West Texas Area

PANHANDLE (Sp1) - An ambitious and far-sighted action program of work designed to move West Texas ahead was outlined at a meeting of District 1 directors of the West Texas Chamber of Commerce yesterday in the Heritage Room of the First National Bank.

WTCC president John Ben Shepperd spoke on the various facets of the economy of the area and stressed the need for more positive thinking among its people.

We're shifting to a hard sell, and we're going to stop pussy-footing around about what we have got in West Texas. This is a great area and we're going to tell the world about it," he said.

Phases of the West Texas social, cultural and economic life to be developed during the coming year include tourist development, education, state affairs, national affairs, public information, agriculture and ranching, water resources, and petroleum and chemical industries.

District vice-president Cliff Milnar of Amarillo, presided at the meeting attended by some 25 district directors, including Bill Power of Pampa, J. G. McCollough of Panhandle welcomed the group.

The quarterly board meeting for the 132 county organization will be in Pampa, Aug. 11-12.

Influential Help In Securing Job

SAN MARCOS, Tex. (UPI) - Aubrey Kline admits she might have had some pull in getting her new job.

Last April, the Southwest Texas State College student talked to a visiting alumnus about jobs. He suggested she drop him a line. She did.

Now, thanks to President Johnson Miss Kline starts work Monday at the U.S. Information Agency.

Most dangerous of all sharks is the great white shark, also called the "man-eater."

Leukemia is an overgrowth of white cells in the blood.

Weather

(Continued From Page 1) ranchers were advised to get livestock out of lowlands.

Nearly every section of the state got some rain Thursday, even in normally parched West Texas. Alpine in the Big Bend Country, got .06 of an inch.

Ten counties in the northern Panhandle were under a severe thunderstorm alert for five hours but no turbulence developed. Dalhart, Borger and Dumas were in the alert area.

The showers held down temperatures in some areas to the lowest level in days but Precip recorded 104 degrees.

The gas incinerator was first developed in 1909.

SIO to Meet Here Sunday

Pampa chapter of the South west Indian Organization will meet at 2 p.m. Sunday in the Gray County Court House.

All Indians and those of Indian descent having their eligibility papers are asked to bring them. All Choctaw Indians should come to vote on the capital payment and to elect a representative to take the votes to Durant, Kansas.

Bob Price, Republican candidate for Congressman, will be the guest speaker. James A. Davenport will discuss land grants.

Television in Review

By RICK DU BROW
United Press International
POLLYWOOD (UPI)—Television's network hucksters are finally about to pay for their unrestrained, parasitic devouring of their creative superiors.

The movies. Anyone who has seen NBC-TV's list of coming original two-hour features to fill in for the shortage of old motion pictures knows the whole project is on shaky ratings ground.

Consider some of the basic attractions of old films. First of all, they had perhaps the basic commercial appeal. Pre-sold reputation. They had many big stars who would never work for television prices; video budgets simply couldn't afford them. If the networks had only had some men of foresight who could have laddered these old features a bit more sparingly, the supply might have lasted a number of years longer. But most television executives know nothing about show business and grab at any straws to maintain their positions. And a dozen or more of the new two-hour original features will be used to fill in for the short supply. NBC-TV is reported to have at least 10 on hand for possible use in the 1966-67 semester, and ABC-TV a minimum of three. But now consider the basic facts—the casts and the budgets.

There is not a star of truly blockbuster attraction in any of the announced projects—which do, in fact, appear to bear out the advance predictions that most of them would probably be little more than two-hour television shows rather than movies. While it is true some of these may well turn out to fill the bill of the old "B" movies—which is nothing to sneeze at—they are obviously, for the most part, way out of the "A" film class.

NBC-TV says each of its two-hour originals is cast "in depth." Upon looking at the casts, what this means basically is that since blockbuster stars could not be afforded, there is sometimes a strong lineup of what might be termed solid second-line performers (in terms of box office attraction). In short, it is about like a "good video anthology show," say the Bob Hope theatre. As an example, one coming production, "How I Spent My Summer Vacation," stars Robert Wagner, Peter Lawford, Lola Albright, Walter Pidgeon, Jill St. John and Michael Ansara. A quick glance discloses few stronger casts in name power.

And no wonder. These NBC-TV budgets vary from \$700,000 to \$1 million per feature, which is about the salary of some big movie stars these days. Why is the movie shortage so desperate? Here is a trade paper report of a statement by a Screen Actors Guild executive: "An average of 273 old features (are) telecast each week in Los Angeles, 172 in New York, 133 in Boston and 133 in San Francisco."

So desperate is the situation for local stations that affiliates of CBS-TV and ABC-TV are reported considering again late night network shows to compete with NBC-TV's "Tonight" program, to relieve the pressure of trying to come up with films that aren't there.

The Channel Swim: The next two heavyweight championship fights—Cassius Clay vs. Brian London in Britain, and the winner against Karl Mildenberger in Frankfurt, Germany—will be televised live via Satellite on ABC-TV's "Wide World of Sports" Aug. 6 and Sept. 10.

Men Arrested for Slaying Service Station Attendant

SAN ANTONIO, Tex. (UPI)—San Antonio sheriff's deputies today planned to return to Breckenridge three men arrested with the slaying of a 55-year-old Breckenridge gas station attendant.

Dean Edwards, 24; Ronald Wilhelm, 22 and Gene McCain, 21, all of San Antonio, were charged with the shooting death of Clarence Swain, whose bullet-riddled body was found on a road outside Breckenridge Monday.

Swain had been kidnaped in a \$270 holdup and shot nine times. Witnesses took down the license number of the getaway

Vicksburg, Miss., is nicknamed the "Gibraltar of the Confederacy." The city surrendered after a 47-day siege.

The first automatic gas water heater was made in 1889.

Alvin Karnes, 26, was found shot to death in a field outside the city. His station had been robbed.

Edwards, Wilhelm and McCain were arrested after their car was spotted at the motel. Wilhelm and McCain were arrested as they got into their car. Edwards was captured as he was taking a shower inside.

Edwards was convicted in 1964 in Breckenridge of forgery and was free on bond in San Antonio on a charge of burglarizing a service station.

Witnesses took down the license number of the getaway

To Most Religious Folk Doubt is Bad

By LOUIS CASELLS
By United Press International
You hardly ever hear a preacher put in a good word for doubt.

To most religious folk, doubt is a bad thing—a state to be avoided or suppressed.

This traditional view is challenged by a distinguished theologian in an important new book published this week.

Doubt, says the Rev. Dr. Geddes MacGregor, is the road a man must travel if he wants to move beyond merely believing in God to the "cognitive experience" which can properly be described as knowing God.

Dr. MacGregor is a Scotsman, educated at Oxford and the Sorbonne and formerly was on the theological faculty of the University of Edinburgh. Since 1960, he has been dean of the Graduate School of Religion at the University of Southern California.

His new book, published by Lippincott, is appropriately titled "God Beyond Doubt."

No sympathy
Dr. MacGregor has no sympathy for the kind of "arrogant religiosity . . . that seems to claim extensive acquaintance with God together with a complete survey of the geography of heaven."

"There is a profound agnosticism in all authentic religion," he says.

But a believer who is humbly aware of the drastic limitations on his knowledge of God may yet arrive at "a special kind of assurance, going beyond all doubt, that he is in an authentic relationship with the Being who stands over against him—and against all his religious experience, as the external world, whatever it be, stands over against our phenomenal experience."

This knowledge of God, which differs from what is commonly called "faith" as eyewitness testimony differs from hearsay, is not easily attained, according to Dr. MacGregor. It is yours only to those who want it badly enough to keep on seeking it after they've reached the edge of despair.

Dr. MacGregor says this is what the Bible means when it speaks of God revealing Himself to those who cry to Him "out of the depths."

"The Bible teaches that knowledge of God is never acquired like any other kind of knowledge, but may come to us, if it comes at all, when we are at our wits' end."

"Those who truly suffer the

torture of doubt and do not merely pretend, having made their assumptions in either direction in advance are in the most favorable position to discern God.

"Only in the extremity of doubt can God be known."

The "extremity of doubt" is very different from casual skepticism. As defined by Dr. MacGregor, it is the state of mind at which a man arrives after he has tried his very best to think through the riddles of human existence, and to arrive at some certainty by rational processes.

It does not matter whether the man in question be a brilliant scholar with several academic degrees, or an un-

lettered peasant. The test is whether he has done his honest and painstaking best, and "has truly come to the end of his intellectual tether, be this as long as the professor's or as short as the peasant's."

Only the earnest God-seekers reach this point, for it involves great anguish of mind and spirit to get there, but the reward is great.

"At the horizon of experience, where our minds are stretched to the breaking point, we can enter into a new kind of cognitive experience that is not, like the rest of our mental and moral life, a probing of the depths of human experience but is, rather, encounter with the Being who is beyond."

Calvary Church To Host Vocal Group

The Meia-Tones, Evangel College women's vocal ensemble, will be featured in a sacred music service at Calvary Assembly of God at 7:30 p.m. on July 13, the Rev. J. D. Lott has announced.

The four students are currently on a ten-week summer itinerary, appearing in churches in Missouri, Kansas, Colorado, New Mexico, Arizona, Texas, and Oklahoma.

Louise Griggs, first soprano, is traveling with the Meia-Tones for her second year. She is a junior from Springfield, Mo., and was a commencement speaker at Hillcrest High School. Majoring in business education at Evangel, she is a member of the concert choir.

Laurie Kelly, alto and violinist, played in the Springfield Symphony Orchestra during her freshman year. As a high school student in St. Charles, Mo., she was in a Youth for Christ trio that won a three-state YFC regional contest.

In addition, Miss Kelly is secretary of the concert choir, and plays in the Evangel College Silver Strings. She is a junior and is majoring in music education.

Ruth Olson, pianist, is a member of the Evangel College concert band. Last summer she traveled with the Coeds, a second Evangel women's ensemble.

She is president of the women's music honorary at Evangel, Lambda Mu Sigma. A junior, she is majoring in languages.

Miss Griggs, Miss Kelly, and Miss Olson participated last year in "Living Sound and Song," a dramatized musical production presented by the Evangel College concert band and concert choir in McCormick

Place, Chicago; Kiel Auditorium, St. Louis; Ford Auditorium, Detroit; the Kansas City Music Hall; and other major auditoriums.

Karen Krans, second soprano, is a member of the concert choir. While in high school in Whitehouse, O., she won state and regional honors in the vocal solo division of Talent Search, a competition sponsored by the Assembly of God national Youth department.

A sophomore at Evangel, she is chairman of her dormitory. She is majoring in elementary education.

The program will be varied, including such songs as "The Glory Road," "Do Lord," "In the Image of God," "The Shepherd Song," "I Found a Friend," "What a Precious Friend is He," and "There's a New Song in My Heart." Many of the arrangements are by Hope Collins, director of the Evangel College concert choir.

Evangel College, Springfield, Mo., is an accredited four-year college of arts and sciences. A church-related college, its parent denomination is the Assembly of God.

Fall, 1965 enrollment was 761.

Manning Selects Sunday Sermons

Rev. J. R. Manning, assistant pastor of the First Baptist Church, will be in the pulpit for both services of worship Sunday.

At the eleven o'clock morning worship he has chosen "Privilege Abused" for his sermon topic with a text taken from Matthew 22:1-14.

Sam Allen, minister of Music, will direct the Church Choir in singing, "Song of Praises" arranged by Jones for the special music, and Miss Eloise Lane, organist, will play "Fair Lord Jesus" arranged by Thompson for the organ offertory.

Vacation Bible School commencement, under the direction of Philip Stovall, Minister of Education, will be at the six o'clock evening worship hour, and will include a portion of the Vacation Bible School joint worship service, color slides of the school while in progress, and a message by Rev. Manning. Following the commencement parents of enrolled children are invited to view the display of work done during the school in the dining room. The children may then pick up their work and take it home with them. The parents of children are invited and urged to be present and participate in this meaningful service.

The Church Choir will participate in the commencement program by singing a choral offering number, "O Brother Man" by Wilson and Mrs. Floyd Hatcher will sing solo.

It takes a special type of person to take a special type of adventure—a mountain climber—great physical strength, endurance, and will to succeed.

There's high adventure in store at our Vacation Bible School—but it's for special people. Our VBS is geared especially to children—from the toddlers to the teens. And the Bible is our Guidebook.

This year's VBS can be one of the most important adventures your child has ever encountered.

ENROLL YOUR CHILD IN VACATION BIBLE SCHOOL.

VBS will begin July 10 and last through July 22, from 9:11-11:30 a.m. at Bethel Assembly of God Church, Hamilton and Worrell St.

Witnesses To Attend Assembly

Local Jehovah's Witnesses plan to be included in the more than 30,000 delegates at the August 7 "God's Sons of Liberty" district assembly at Dallas modern Market Hall.

According to Charles Regal, presiding minister, the local congregation received advance program information this week. "Normally much of the program material is kept as a surprise to the delegates until they arrive, but this year we have been briefed on some of the subject matter so that we have our spiritual appetites whetted in advance."

Regal cited the program feature, "Building on a Right Foundation with Fire-Resistant Materials," as an example. "Any Christian knows it is difficult maintaining Bible integrity in these critical times. And one glance at the particular subject reveals it is not a run-of-the-mill treatment of generalities, but a hard and factual analysis of Christian responsibility for today."

Commenting on the program Regal noted that part of the program will deal with dramatizations offering vivid portrayals of Bible accounts that are filled with meaning for all Christians now. "Imagine seeing the integrity-filled lives of Daniel, Jeremiah and Joshua unfolded before the eyes, and with application. This is something to look forward to."

"It is material such as this," he said, "that is real enough for modern use. This way we can effectively combat the current religious fad that 'God is Dead' as well as keeping strong in a materialistic, atheistic, satanic and morally corrupt system."

The highlight of the program will be reached at 3 p.m. Sunday, Aug. 7, when the public lecture, "What Has God's Kingdom Been Doing Since 1914?" will be given.

Sacrament Is Subject for Christian Science

Communion will be observed in all Christian Science branch churches this Sunday.

"Sacrament" is the subject of the Lesson-Sermon. The service occurs twice each year, and is altered from other Sundays to include reading of the Church Tenets and a period for kneeling in silent communion. This is followed by a second repetition of the Lord's Prayer, which is an integral part of the opening for all Christian Science services.

The Golden Text this week is from Romans: "The kingdom of God is not meat and drink; but righteousness, and peace, and joy in the Holy Ghost."

Grover A. Whalen, New York official greeter for many years, was called the founder of ticker tape parades.

THE PAMPA DAILY NEWS
FRIDAY, JULY 3, 1966

One Basic Need Truer Brotherhood

By RALPH W. DOEW, D.D., Newspaper Enterprise Assn.
A seemingly endless stream of projects was loosed into the world by Pope John's decision to call an ecumenical congress. Ecumenical dialog, theological exchanges, popular meetings and numerous books have been set free as though only waiting for one imaginative man—to raise the barriers in order for them to run into the places of action. With such a numerous company there is a diversity of quality. But it's not mediocrity and it's exciting.

Among the notable projects is a series of 50 volumes, published by the Paulist Press under the title of "Concilium." Each volume is a collection of essays by brilliant Catholic theologians, studying aspects of Vatican Council II. Among the most interesting of these volumes, thus far published, is one which is, disarmingly entitled "Do We Know the Others?"

Edited by the famous theologian Hans Kung of Tubingen, Germany it suggests that even in this time we do not know each other. Says this Roman Catholic of his fellow-Protestants:

"They are our brethren, even though they differ from us in many ways. Diversity is often more fruitful than unity in mediocrity. We should be particularly concerned about this because, for all their weaknesses and the one-sidedness from which they, too, obviously suffer, there are many things they do better as Christians than we. We notice this as soon as we begin to know them. It then often dawns upon us that so often our catholicity is unfortunate."

One of the dangers that comes with such understanding is that there is a mood of "so what?" Men are tempted to treat history and experience as though it has no meaning. It is in really understanding each other in depth, not in sentimentalizing one another, that we grow in faith.

This is why it is of such importance that theology be discussed in newspapers as well as in pulpits, over the coffee cups instead of just in the formal meetings, and in the living room dialogs as well as in the theologian's study. There is a hunger to know, to learn and to understand and it ought not be distorted by a diet of tidbits or hors d'oeuvres. We do need to know each other in order that we can study and pray and tackle life's urgent demands together. Once that was just an ideal; now it is an exciting demand!

Minister Comes Up With Building Plan

AUSTIN -- Fed up with churches spending millions of dollars a year on buildings that are used only three hours a week, a Presbyterian minister has come up with a plan he believes will avoid denominational duplication, and provide wider (and wiser) use of church facilities. The plan, being advanced by

the Rev. Ronald M. Guinn of Sugarland, Tex., calls for a central education building to be financed and shared by several denominations, with individual sanctuaries or chapels surrounding it.

Known as the "College of Congregations," the proposal would, as Mr. Guinn sees it, reduce overhead costs of churches approximately 20 percent. It would also benefit the community.

The central education building, the 34-year-old pastor explains in the July issue of the "Texas Presbyterian," could be used by various congregations for church-school classes on evenings and weekends.

On weekdays it could be leased to the public school system. In that way, the building would be more useful. Also, less property would be put on a community's tax-free roll.

"The individual sanctuaries or chapels," Mr. Guinn believes "would meet the demands for various forms of worship and preserve a sense of congregational identity."

Separate storage lockers for equipment and care in putting away church symbols would safeguard separation of church and state in the education building.

"And what," he asks, "is so heretical about having church-school classes on weekday nights?" You don't have to be a graduate sociologist, he says, to know more and more people are spending weekends on the lake or beach, and fewer are interested in a "Sunday" school.

Maintaining that "program—not property" is the business of the church, Mr. Guinn admits his plan isn't easy. "But," he counters, "some thing must be done to help us make better use of our building dollar which is given to Christ just as much as the benevolent dollar."

CHURCH SERVICES

- FOUR SQUARE GOSPEL CHURCH**

The Weekly Message Of Inspiration

Rev. Earl Maddux
Fellowship Baptist Church.

WHAT DOES THE CROSS OF CHRIST MEAN?

Galatians 6: 1-14

What does the cross of Christ mean? It means more than Christ being crucified on the old rugged cross. It means that the world is crucified unto me, and that I am crucified unto the world. There are three crucifixions. First, the crucifixion of Christ. Oh, what a picture is given us through the Holy scripture of that awful scene that took place some 1900 years or more ago, when the Prince of glory was slain and hanged on a tree. What a description is given of how wicked men gathered around and mocked Him, laughed and sneered Him. They blindfolded Him and spat upon Him and smote Him, plucking out His beard. What an awful scene! Not only that, but in the sixth hour when darkness veiled hiding His awful suffering, and His being from the eyes of them that sat comfortably by, looking and gazing upon Him in His agonizing hour. The scripture does not give us the insight of what actually took place, neither the suffering of His final moments of agony while hanging on the tree. We do hear His words, we hear His groans as they fall, even to the last dying drawn breath, and we hear Him saying that last final breath, it is finished. The work had been finished that He was to do the work of the Father, the work on the cross, the work of salvation, the work of blood redemption. All has been finished. The fulfillment of the law was finished on the cross. Many things were offered . . . animals were offered before Him, but none of these could take away sin. None but the blood of Christ could do that, the scripture declares that His blood cleanseth from all sin. At one stroke this destroys all arguments about the suffering after death in purgatory for the children of God. My friends, the scripture plainly declares that the blood of Jesus Christ, God's Son takes away or blots out ALL sin and is sufficient to cleanse us from ALL sin. There is no other perfection to be made. And what other perfection could be made must be of God. It is not through suffering, it is not through the works of the flesh. It is not through keeping of the law or the goodness and righteousness of man. No, all of that has been through the suffering . . . through the death and through the shed blood of the Son of God, and He became dead to the world and the world knew Him not. Not only that, but the cross of Christ means more than blood redemption. It means something else. It means that you and I are crucified unto the world and the world is crucified unto us. No wonder the world looks on you and I as a peculiar people, as a strange religion, as fanatics. They are dead to the work of the cross. We do not speak their language. We do not live their life and do not fellowship with them, so there is a vast difference between a Christian and the world. The reason for that is the world is crucified unto me and then, not only that but I am crucified unto the world. There is a death to the world, a death unto me from the world. There is a cavern . . . a great gulf which separates us as far as the east is from the west. What does it all mean? It sums up in the death of Christ. Christ was crucified . . . put to death on the cross. It means that I died with Christ on the cross. I was crucified with Him, in Him was my suffering. He is my sin bearer and in Him was I put to death, for the scripture declares if ye be risen with Him. Therefore we must have been dead with Him. We must have been crucified with Him. Not only that, but we are risen with Him, by whom the world is crucified unto me. Now we live not unto the world, but unto Him that died for us and gave Himself a ransom for us in that hour when the Son of God was crucified. Therefore my friends, you and I are dead to this world and the world is dead unto us. The world holds no more of its charm for us. It has no more of its magnetism . . . its pulling influence to separate us from the love of God. It has no more power to persuade and to lead astray those that are crucified unto the world. That has been taken care of through the death of Christ on the cross. Not only that, but I am dead to the things of this world, I am not swept away, it holds no more charm for me. I am not looking to the world for faith, love, mercy and righteousness. No, not at all, because I am crucified unto the world. So the cross has a three fold meaning. Not only the death of Christ on the cross, crucified, taking our place for our sins and paying our sin debt, but the world is crucified unto me and I unto the world. Thank God for the wonderful and great work that Christ did on Calvary's tree. Bless God for such a Saviour as our's! He is wonderful! It is beyond describing what matchless love He had for us. Let us strive to please Him!

The Pampa Daily News

A Watchful Newspaper

EVER STRIVING FOR THE TOP O' TEXAS

TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

Soviets Using Mercantilism

Communism or socialism, the Communists—never weary of telling us, is a higher stage of economic organization, than capitalism. It is the ultimate, inevitable stage which, someone named Khrushchev once promised, our grandchildren will live under.

For a higher form of economic organization, however, communism as practiced by the Soviet Union bears a startling similarity to what is sometimes looked upon as an early phase of capitalism. The Russians, at least in their relations with their satellites, seem only to have arrived at something called "mercantilism," which became fully developed in the west in the 18th century.

In simplest terms, mercantilism was a national policy of getting the highest possible profit from international trade with the least possible investment. In its heyday, it spurred the race for colonies between the nations of Europe, because colonies provided both a cheap source of raw materials and a captive market for manufactured goods from the home country. Thus mercantilism, since it involved governmental intervention into the market process, was really a form of socialism—rather than an "early phase of capitalism."

In the years since half of Europe was deposited in its lap, the Soviet Union has placed an immensely profitable stranglehold on the economies of seven eastern and central European countries—Albania, Bulgaria, Czechoslovakia, East Germany, Hungary, Poland and Romania. According to the Assembly of

Captive European Nations, which bases its claim on official Soviet trade reports, in the 10 years from 1955 to 1964, these seven countries were compelled to feed an "illegitimate" profit of \$12.6 billion into the Soviet economy.

This tidy sum was acquired by charging the seven countries higher prices for Soviet exports and paying them lower prices for imports than the Soviets pay and charge in their export-import trade with western Europe.

Specifically, overcharges on Soviet exports to east-central European countries amounted to \$7.3 billion, or 31.2 per cent over the amount these countries would have had to pay for the same volume of goods at prices charged by the U.S.S.R. to western European customers.

Underpayments for imports from east-central Europe totaled \$5.5 billion less than the U.S.S.R. would have had to pay in the western European market for the same goods.

Numerous observers at the recent 23rd party congress in Moscow remarked on the atmosphere of success, stability and conservatism which seemed to surround the delegates, who dutifully listened to a long series of speeches that sounded more like the reports of corporation controllers than the exhortations of ideological revolutionaries.

The general impression was that the Soviets aren't about to start rocking any boats.

Little wonder. They have a good thing going for them, with no serious signs that the natives in the colonies are getting restless.

More Valuable than Gold

We worry a lot about the balance of payments problem. That is, we supposedly pay thousands of people in Washington to worry about it for us.

The United States, like every other nation, keeps careful inventories of the inflow and outflow of gold, the import and export of raw materials and manufactured goods, the status of national resources and manufacturing facilities.

Few governments, however, maintain any comparable kind of inventory of brainpower which today is "perhaps the primary economic asset of any country."

In the opinion of Marion Harper Jr., president and chairman of the board of Interpublic, the import and export of brains is becoming as a matter of more serious concern than the flow of gold or the import or export of goods.

"The vital difference between nations," says Harper, "is fast becoming one of human capability."

We have traditionally thought of rich and poor countries, of countries endowed or not en-

dowed with material resources or production skills. It may now be more accurate, he says, to think of the "capable nation" or the "less capable nation."

At the same time as there is a gap between rich and poor nations, there is a more truly widening gap between the capable and the less capable. The United States currently enjoys a surplus "balance of payments" in the brainpower department, we are told.

In international dealings in currency, notes Harper, we have mechanisms like the International Monetary Fund to correct imbalances. "Perhaps we should develop some kind of International Brain Bank to correct imbalances in brains."

But don't tell LBJ or Ambassador Goldberg. If they hear about it the U.N. will establish one and the U.S. taxpayer will be stuck again for the tab.

And perhaps someone should suggest to Mr. Harper that brain power not free to function without interference from bureaucratic stupidity and controls doesn't add up to much of an asset.

Op, Pop and Slop

Modern art is a lot like modern fashion: Just as most of us eventually wear what the fashion czars decide we will wear, so our tastes in painting and sculpture are handed to us from above.

Art "appreciation" HAS to be decreed, for the ordinary person long ago lost his way amid the wilderness of surrealism, cubism, Dadaism, primitivism, abstractionism, op, pop and automobile bumpers stuck on pedestals that have constituted art in the 20th century.

It has gotten to the point where:

"Lumps of stone or bronze of any form whatsoever will . . . be received with bated breath and called 'profound imponderables' or some such meaningless phrase.

"Accidental splashes of color or rags or sacking on canvas, (the critic) will boldly tell you, is art of great significance, and if you look at it long enough 'will do something to you.' And we are all too timid to answer 'nonsense.'"

But wait, who is speaking? It is Sir Charles Wheeler, presi-

dent of Britain's Academy of Arts. Is the counterrevolution beginning?

Ah, no, Sir Charles is 73. His words are but the exasperated valetudinary of a super-annuated sculptor due to step down from the presidency this year.

It is still op and pop as far as the weary eye can see, an artistic wasteland where only elderly men like Sir Charles dare to be nonconformist while the young busy themselves splashing paints and welding twisted forms of metal into "profound imponderables."

HOW TO ADDRESS OUR LAW MAKERS

You may wish to write your senators and representatives in Washington and Austin. Here are their addresses:

(FEDERAL)
Rep. Walter Rogers, House Office Bldg., Washington 25, D. C.
Sen. Ralph Yarborough, Senate Bldg., Washington 25, D. C.
Sen. John Tower, Senate Office Bldg., Washington 25, D. C., Texas

(STATE)
Rep. Granger McWhorter, Wheeler, Sen. Grady Hazzard, Amritz, Texas

Cannel At Bay

By Ward Cannel

Clock of Life Breaks Spring TRURO, MASS. (NEA)—It is doubtless only plain old nostalgia at work. But there is something about the first hot days of early summer that we find irresistibly magical—as though a simple act of will is all it takes to turn the clock back to the sunny, limitless days of youth.

And so, once each June or July, we are overwhelmed anew by the great idea of throwing mature timidity to the winds, putting the wife in the car and going someplace on the spur of the summer moment.

It makes very little difference where we go, just as long as the going is done with youthful spontaneity.

"Youthful spontaneity?" the wife groaned. "I thought you got over that last year when the motel people wanted proof that we were married."

"Shucks," we said boyishly. "Don't be so old and stodgy." "I don't know if I'm stodgy," the wife said, "but I'm certainly too old to spend another weekend sleeping in the car."

"For gosh sakes," we told her. "Come alive. You're in the Pepsi generation."

And that is how we came last Saturday night to be sitting in a pleasant little seaside restaurant on Cape Cod, watching the sunburn glow on the wife's nose, and waiting for her to confess it was a great idea to be a kid again.

Whether she would have ever admitted it we do not know because the moment was seized by a waiter who said:

"Good evening. Do you wish to order a drink?" "Yes," the wife said immediately. "What cures sunburn? A Martini . . . ?"

"Sorry, Ma'm," the waiter said. "This state does not permit alcoholic beverages to be sold to persons under 21 years of age."

"And quite right, too," the wife said. "Make it a very dry Martini."

"Yes, Ma'm," the waiter said, noting her order on his pad. "But I'll have to have proof that you're over 21."

"How charming," the wife said with a great smile. "Never mind the Martini. I'll have a champagne cocktail."

"Yes, ma'am," the waiter said, noting the new order on his pad. "Now, about your age . . ."

"Come now," the wife giggled. "Do I look under 21?"

"Yes, ma'am," the waiter said. "I that case," the wife said, "forget the champagne cocktail. I'll have a pink lady."

The waiter noted her new order. But it did not deter him from his request. So the wife opened her purse to look for the necessary proof of being over 21. And as triumphs like these do not come along every day, we savored each attempt and failure.

The first item she came up with was a packet of credit cards and charge plates. But, as the waiter pointed out, all they proved was that her husband was over 21.

The next item was the auto registration. But that proved only that the car was over 21. Her driver's license was somewhere, but not on her person.

Finally, she came up with her New York voter's registration card. But the waiter said he took a great interest in politics, and from what he had seen of New York elections, a person didn't need any qualifications at all to vote in that state.

And that is where it should have ended—with the proof that in the summertime a simple act of will can turn the clock back to carefree youth.

But the wife had her mind on smaller things. And pointing a finger across the table at us, she asked the waiter angrily:

"Doss he look like the kind of man who would be married to a child under 21 years of age?" It was our feeling that the waiter looked us over quite a bit longer than was necessary before shrugging his shoulders. We would have got up then and there and started out for home.

But the wife would hear none of it and, silencing us with a mature smile, sent the waiter to get two glasses of milk.

A thought for the day—English statesman Bertram Russell: "Nature has given us two eyes but only one mouth."

"Political Football?"

Pull Up A Chair

By FRANK JAY MARKEY

The casserole, the piece de resistance of most American housewives, was an ingenious European idea with a unique American twist. It all began in France where peasant families, who regarded a good meal on a par with a good bank account, discovered that inexpensive odds and ends of food acquired an almost miraculous savor when oven-baked slowly in earthenware pots. Americans adopted it because it holds an entire meal in one container; it's perfect for company dinners, because it can be prepared in advance; it's an ideal work-saver, since it can be whisked from oven to table; and, finally, it makes a beautiful centerpiece for any housewife to serve.

Today's smile: Maybe you have heard about the picket who walked up and down a busy street carrying a blank sign. A friend happened by and said to him: "What's the idea?" The picket replied: "I'm looking for a sponsor."

The latest thing in interior decoration in public buildings and some homes is to have all useful equipment blend with the decor of the walls, etc. One of the nation's leading manufacturers of fire extinguishers is whole-heartedly in accord. His firm is now turning out conventional fire extinguishers in such off-beat colors as Marmalade and Cotton Candy. Of course, for those squaring who want them, he's still turning them out in the traditional Cherry Red, too.

Thoughts while shaving: If you're an inventor and have applied for a patent, have a little patience. The U.S. Patent Office handles about 75,000 applications a year. . . . Following a survey of last year's vacationists, many summer resort owners found they would have to renovate and provide "something new" to lure the customers back again. Well, they're doing it. Some places are installing bi-level swimming pools connected by spiral slides. And one Pennsylvania spot has installed a \$100,000 gymnasium with carpeted walls. What next? . . . Although Christmas is six months away, the large department stores have every detail of their Christmas promotion planned: The window and store displays were ordered six months ago and are now being delivered. And the Christmas season for the mercantile business starts about the first week in November. . . . New York has the world's greatest traffic problem and it's a wonder things run as smoothly as they do. Every day an estimated half-billion automobiles, including taxis, ply their way around Manhattan Island south of 59th Street down to the Battery, plus 73,000 trucks and about 10,000 buses. . . . A Texas baseball fan writes to ask if Jackie Robinson was the first Negro to play in the leagues. Our research shows Moses Fleetwood Walker, a Negro catcher, played for Toledo in the American Associa-

The Nation's Press

COMMERCE IN THE GRAVEYARD (Richmond News Leader)

Is there any remaining validity to the distinction between intrastate and interstate commerce?

Some lawyers for the First Congregational Church, Los Angeles, put that despairing question to the United States Supreme court. And the court answered, in effect, "Nope. None at all."

That is perhaps an overstatement. What the court did was to deny certiorari (refuse to hear

an appeal) in a proceeding brought against the church by the National Labor Relations board. The NLRB found the church guilty of an unfair labor practice in the operation of its cemetery, and the 9th Circuit court upheld the board. By refusing certiorari, the Supreme court let the order stand. In theory, this action says nothing of the high court's own opinion, but the effect is substantially as if the court had affirmed.

And in this case, the effect is to extend the commerce clause of the Constitution by one more fatal step. The evidence before the NLRB indicated that three "marker trimmers" at the church's Ingleside cemetery undertook to join Local 986 of the Teamsters union. The cemetery superintendent promptly fired them. They went to the NLRB, which found that the cemetery was engaged in interstate commerce. The employees were ordered reinstated with back pay, plus interest, and the church was ordered to post the usual notices of cease-and-desist.

How did a cemetery get to be in interstate commerce? It developed that the cemetery had taken in gross revenues for the 1962-63 fiscal year of \$500,000. In this same period, it had spent \$3,000 or six-tenths of one per cent, on goods purchased directly from out of state. To the NLRB, this was plainly a "substantial" involvement in interstate commerce. And the thought would be difficult to imagine a business more wholly local than the business of burying the dead, the NLRB's view has now prevailed.

Counsel for the church protested in their petition for appeal that "if the NLRB properly asserted jurisdiction in this case and on this record, there is no longer any 'local' commerce." That seems to be the size of it. The old distinctions, so carefully drawn for the high court by Hughes in 1937, now have been laid in the grave. And John Marshall, who started all this, perhaps is spinning in his.

There is a certain grimness about totalitarianism that robs the human spirit of its bloom as surely as the icy breath of winter darkens a green countryside. Modernism is the ample modern proof of this. The heart of Soviet Russia is a stone, bitter and bleak. Its sad music, tragic theater, doleful literature are dirges of despair. It is the voice of slavery; it is the clanking chains of pogroms, torture, exile, death.

Look at the youth of America. There is a brightness, an unconditioned joy about them. Observing their carefree faces, hearing their laughter and songs, listening to their words, we can be grateful that they have inherited the golden treasure of human liberty, and that the country's future, bound up in their lives, will be as happy as the freedom in their hearts as they restore it to their benefactors.

tion back in 1884. At that time the American Association was considered a "major league." . . . Although you never read about any of them erupting, San Salvador in Central America has more volcanoes than any other country in the world. A recently returned visitor told us you can't go anywhere without seeing one. . . . The Boston (Mass.) GLOBE headlined a story: "Policemen Battle Over Gravy." They'll do it every time.

Country Editor speaking: "People complain about the warm weather but in the winter months they complain about not having it."

A traffic court clerk was telling a surly motorist why he should keep his receipt for a traffic fine:

Court Clerk—When you get ten of 'em, you get a bicycle.

Doctor— I don't like the looks of your husband.

Mrs. Jones— I don't either, Doctor, but he is good to the children.

Man— When I bought this dog you said he was splendid for rats. Why, he won't even touch them.

Pet Shop Owner— Well, ain't that splendid for rats?

It's a pity that we can't forget our troubles the same way we forget our blessings.

The Doctor Says:

By DR. WAYNE BRANDSTADT

Follow These Simple Tips To Avoid Fishy Accidents It is again time to take your fishing tackle out of moth balls. Whether you drop a line off a bridge, wade through racing rapids or track down your prey in some kind of a boat, you have chosen a sport that gets you out of doors and provides time for quiet reflection.

The most common fishing accident is snagging a finger or some other part of your body on a barbed hook. This may occur while you are trying to bait a hook when you are sitting in a rocking boat or when reaching for a lure in a box full of tackle. Many such accidents can be prevented by keeping a small cork over all barbs that are not in use. Casting is potentially dangerous to your fellow fishermen. Some of the practice by using an overhead motion rather than a sidearm motion. If you prefer the latter you should move to a safe distance from your companions.

In removing the hook from a fish you should hold the fish firmly under the gills so that its head can't flop or wiggle. If the hook has caught you instead of a fish don't try to pull it out. The hook must be pushed forward until it emerges from your flesh then snipped off with a wire cutter. Your doctor is equipped to do this and give you antibiotics and a tetanus booster to prevent infection.

If you are fishing from a boat be sure to have life belts available. Don't overload the boat and be sure to heed radio warnings of an approaching storm. When your boat is in motion keep a watchful eye out for other boats, swimmers and submerged rocks.

Sunburn is another hazard you must make every effort to prevent. Carry insect repellent and a first-aid kit with you.

Q—What causes hemorrhoids? What makes them itch? Can they become cancerous?

A—Hemorrhoids or piles are a form of varicose vein located at the outlet of the bowel. The cause may be prolonged straining at stool, a congenital weakness of the tissues surrounding the veins of the rectum or pregnancy. Irritation of any tissue at a level below that of true pain may cause itching. Piles may itch when there is a slight break in the overlying mucous membrane or when the stool is highly acidic. Piles do not increase the danger of cancer of the rectum but the two conditions may coexist.

Q—Why be an extremist? they ask me. "Nobody" and no government is perfect, so we must accept what you call lesser of evils." I'm told by the "moderates."

Reminds me of the preacher who was preaching on the imperfections of man: "I, myself, am guilty of many sins of omission and commission. I dare say there's not one among you even thinks he's perfect!" He was appalled when a little fellow timidly arose in the rear and held up his hand.

"Sir, do you mean to say you think you're perfect?"

"Oh, no, Reverend! I'm just standing up in lieu of my wife's first husband!"

We "kooks" are standing up in lieu of those who know the score and lack the guts and integrity to stand.

"Are you against everything? What are you so upset about? Have you ever had it so good? What are you for?" These questions are continuously propounded by full-belied and empty-headed friends, enemies and neutrals who can't imagine anything being wrong as long as "beezness is good."

"I'm for ending the "Civil Rights" Act; "renticracy"; Urban Renewal; sandwich coins; so-called "Fair Trade" laws; double taxation of corporate dividends; federal price and wage controls; postal subsidies; withholding taxes; skinny-dipping in the White House pool; the Department of Urban Affairs; Metro; federal housing; Medicare; the Federal Reserve System; the Department of Health, Education and Welfare; federal aid to state and local governments.

For a research grant to determine why it is that the boy you were sure was not good enough for your daughter turned out to be the father of the world's smartest grandchildren.

For "urban renewal" for every city where the people who own the downtown real estate and get practically all the benefits will pay for all the costs. "Save the downtown." "Why? Decentralization and dispersal of city populations should be the goal."

Practically everything our collectivists, Democrat and Republican, have done for the past 30 years has undermined farm, rural and small town life.

The Great Society concept is not new! The "Reapportionment" decision, "Urban Renewal" public housing, "one-man, one-vote"—practically all "The Great Society" programs to remake America are for the cities and at the expense of rural communities—because the cities are where the votes are. Caesar-Bird is for votes, regardless.

For returning all public "welfare" to state and local governments.

For restoring the sovereignty of our states, which is our strongest bulwark against Communist control of people and more people control of government. For keeping government small, honest and poor.

For restoring the sovereignty of our states, which is our strongest bulwark against Communist control of people and more people control of government. For keeping government small, honest and poor.

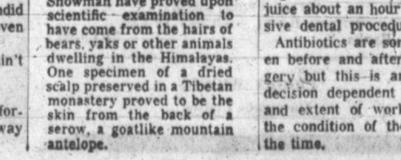

Periodontal disease is said to be more common in diabetics, but again, this seems to be so in other debilitating diseases too. It may be due to poor mouth care, nutritional deficiencies, vascular changes, and physical inability to get to the dentist, e.g. in bed-ridden or wheel chair cases, or those too weak to leave home or institution.

Some dental procedures require special precautions. Patients should get their physician's approval for extractions, gum surgery or any complicated or extensive dental work. Diabetic patients should eat before dental appointments just in case you aren't able to do so for some hours afterwards, e.g. after fillings are placed; teeth extracted, etc. Some physicians want patients to drink sugar and water, or orange juice about an hour after extensive dental procedures.

Antibiotics are sometimes given before and after dental surgery but this is an individual decision dependent on the type and extent of work done, and the condition of the patient at the time.

Specimens of hair supposedly believed to have come from the Abominable Snowman have proved upon scientific examination to have come from the hairs of bears, yaks or other animals dwelling in the Himalayas. One specimen of a dried scalp preserved in a Tibetan monastery proved to be the skin from the back of a serow, a goatlike mountain antelope.

matter of fact

BUSCH MEMORIAL STADIUM in St. Louis, brand new this year, is the site of the 37th annual All-Star game. It is expected to draw more than 50,000 fans, perhaps the largest crowd ever to see a sports event in Missouri.

Mick Won't Miss All-Star Contest

By United Press International
Mickey Mantle won't make the All-Star game in St. Louis Tuesday. He has something better to do.

The slugging New York Yankee outfielder, omitted from the All-Star post this season for the first time since 1962, will spend Tuesday in Dallas with retarded children from the Dallas-Forth Worth area at a Texas League contest as guests of Mantle's Texas insurance company.

Beltis Homer
Mantle didn't look like he needed rest Thursday night at Yankee Stadium as he clouted Boston reliever Don McMahon's two-out 2-1 delivery high into the right field seats to highlight a five-run ninth inning uprising that gave the Yankees a comeback behind 5-2 victory over the Red Sox.

52nd of Willie Mays' career. Tito Fuentis, Mays and Cap Peterson each hit a two-run blast and Tom Haller, contributed a solo homer as Ray Sadecki staggered to his fourth victory in nine decisions. Leo Cardenas hit a three-run homer for the Reds, who now have lost nine in a row.

Randy Hundley's sacrifice fly capped a three-run seventh-inning rally that lifted the Cubs past the second-place Pirates. Ernie Banks doubled in Ron Santo with the tying run, rookie Byron Browne singled across

the go-ahead tally and Hundley's fly scored Browne with Pittsburgh.

Mota homered in the ninth for Al Luplow and Larry Elliot each doubled during New York's three-run ninth-inning outburst which gave the Mets their fourth victory in the five-game series with the Phillies. Luplow's double off loser Ray Herbert drove in the first run of the frame and Elliot doubled in two more to snap the deadlock created by Bob Uecker's pinch homer in the eighth.

Astros Squeeze TL All-Stars, 7-6

ARLINGTON, Tex. (UPI)—The Houston Astros capitalized on an error and a balk Thursday night to score three runs in

the ninth inning and come from behind to defeat the Texas League all-stars 7-6.

It was the second win in a row for the National League club in this series with the Texas Leaguers and was picked up before 10,400 fans at Turnpike Stadium, the home of the Dallas-Fort Worth Spurs.

The all-stars had things pretty much their way until the ninth, taking the lead in the third and fighting off numerous Astro threats.

The Texas Leaguers led 4-1 going into the seventh when things began to happen. Houston narrowed the gap to 4-3 in the seventh and then tied things up in the eighth.

But the all-stars recaptured the lead with a pair of runs in the bottom half of the eighth and it appeared the game was theirs.

Felix Mantilla led off with a single in the ninth for the Astros, however, and they were on their way. He moved up to third on an error by Arkansas' Roy Majtyka and scored when Rusty Staub hit into a force play.

Singles by Bob Aspromonte and Nate Colbert brought Staub around to score and also brought in the all-stars fourth pitcher, Leo Newton of Arkansas. Newton promptly balked, bringing in Aspromonte with what proved to be the winning run.

It was a tough game to lose, especially for Majtyka. Until his bobble in the ninth, which made all three runs in that inning unearned, he was the game's leading hero, having picked up four hits in five times at bat.

He was the only all-star to gather more than one hit. Houston reliever Ron Arlich, who once pitched for Houston's farm club in the Texas League, Amarillo, picked up the win. Wayne Granger of Arkansas, was charged with the loss.

Pontiac Keeps League Lead
Three games are on tap Tuesday night in Pampa Softball Association play.

Thursday night Bell Pontiac ran its unbeaten streak to five by downing Mobile Oilers, 16-2 and in the late game the Pampa Jets won their first game of the season, 25-9.

Tuesday night Bell plays a 7:30 p.m. game at Miami and the Oilers and Jets meet in a 7:30 p.m. game at Lions club park. The late game will feature Walsh Insurance and Mayfair.

Thursday the Jets play at Miami and Mayfair and Mobile play the first game here with Walsh and Bell playing the late game.

Thursday night Bell scored four times in the first inning and added 11 in the third to outrun the Oilers.

Corman, Perry and Kitchers homered for the winners with Nelson Kitchers picking up the win and Leslie Sigler taking the loss. Kitchers whiffed 11 and walked none.

For the Jets it was a case of run, run, run and Mayfair struck too late.

Honeycutt paced the Jets with five hits in five trips and Ted Finley homered. Jackie Graham paced the losers with two hits along with Hom and Rodgers.

Graham was the loser and Proctor took the victory.

SECOND ROUND TODAY Texans Lead at Odessa

ODESSA, Tex. (UPI)—A professional from just up the highway and a golfing-dentist with a flair for drilling birdies take to the course today with a one-stroke lead in the 48th annual Odessa pro-amateur golf tournament.

George Clark, the pro at nearby Midland Country club, and Dean Strack, who fills teeth in Midland, toured the Odessa country club course in 61 strokes Thursday, 11-under par.

That was good for a one-stroke bulge over the team of veteran touring-pro Bo Winger of Las Vegas, Nev., and his amateur partner, Bobby French

of Midland. All by themselves in third place with a 63 to show after 18 holes were Charles Coody of Fort Worth and Richard Patton, also of Midland.

The partnership of Clark and Strack was a perfect one. Clark singled the front nine, picking up five birdies while his partner collected one. Then on the back nine, Strack got hot, picking up four birdies while Clark contributed one.

Winger and French could have tied for the lead had it not been for their lapse at the par-3 ninth hole. Both missed the green on that short hole with their tee shots and

could not get down in two from off the green.

Coody and Patton finished in a flourish to reach their lofty perch. They were only five under par as they approached the 16th, but Coody picked up a birdy at 16, and eagled the 17th. Patton put the finishing touches to their closing rush with a birdie on the final hole.

Three sets of golfers were grouped in fourth place, three strokes off the pace—having carded 64s.

They were the Midland team of Bobby Nichols and Sleepy Wynn; Randy Petri of Austin and John Leach of Houston; and Bill Eschenbrenner of El Paso and Jimmy Clayton of Kermit.

Far back in the field with a 70 after the first round was the celebrity team of singers Don Cherry and Dean Martin.

DETROIT (UPI)—Joe Strawder of the Detroit Pistons underwent surgery for a hernia Thursday, one day after he signed his 1966-67 contract with the National Basketball Association club.

Terrell Ready to Meet Cassius Clay
ATLANTIC CITY, N.J. (UPI)—Ernie Terrell said he is "ready, willing and waiting" to meet heavyweight champion Cassius Clay.

Terrell Thursday asked that the heavyweight-kingpin "stop running away" from a title fight in a letter to the attorney for Clay's controlling syndicate.

"Terrell," who canceled a championship bout with Clay last spring, took a unanimous decision from Doug Jones last Tuesday to retain the World Boxing Association version of

the heavyweight title.

"Terrell's letter, addressed to Arthur Grafton in Louisville, Ky., to be forwarded to Clay, read: 'Cassius Clay or Muhammad Ali, whichever you are, wherever you are: my record of 15 consecutive wins, 39, all fold, and my recent selection as Ring Magazine 'Fighter of the Month' proves that I am the only fighter that you should be fighting—not setups and heavyweights past their prime. 'Stop running away. I am willing and waiting.'"

Babe Ruth Star Game Tonight

A queen will be crowned tonight at Optimist Club Park.

Prior to the All-Star game between the American and National Leagues in the Babe Ruth part of the gigantic Optimist Club program the Babe Ruth queen will be named.

Activities will start at 7 p.m. Sandra McNaughten will represent Fannon Oil, Nan Autry is Lions Club selection, Susan Smith will represent First National Bank, Jan Wallace is Ideal selection, Susan Richardson will represent Cree Drilling, Pampa Hardware is represented by Carolyn McKinley, Ellen

McDaniel is Coke Cola choice and Paula Daugherty will represent B&B.

Fannon and Lions Club tied for the league championship with 9.5 records, Bank and Ideal finished at 8-6, Cree was 7-7, Hardware was 6-8, Coke Cola was 5-9 and B&B, 4-10.

Marvin Holman, J. C. Hopkins and Vincent Simon will guide the National Stars and Jessie Smart and George Ralback will guide the American League.

American League squadmen are Al Gomez, Cliff Gage, Mike Stephens, Brad and Craig Snell, Steve Haynes, Dan Carlton,

Claude Combs, Jay and Denny Johnson, Mike McComas, Jim Hollis, Danny Harris, Randy Ziebach and Bobby Jeffers.

Making up the National Stars is Eddie Hopkins, Tommy Hawkins, Chris Gamlin, Lee Waters, Dan Craig, Fran McGahn, Jay Parks, Phil Long, Ross Hollyman, Fillmore Merriel, Larry Katara, Chuck Albus, Joe Daniels and Sherwin Cox.

The American Stars play at 8 p.m. Monday in Plainview in the first round of district competition and play the host team.

The National Stars play the winner of the game at 8 p.m. Tuesday.

Footballers Set For Star Game

ATLANTA (UPI)—The richest rookie crop in the history of professional football pairs off here Saturday night for the sixth annual coaches All-America football game.

Price tags reportedly ranging up to a half million dollars were placed last winter on the likes of halfback Donnie Anderson of Texas Tech, Heisman Trophy winner Mike Garrett of Southern Cal, Maxwell Trophy winner Tommy Nobis of Texas and fullback Jim Grabowski of Illinois.

A total of 60 of last fall's top college stars, tangle in the East-west All-Star game which precedes their reporting to their respective camps to try for pro jobs.

This is expected to be the final crop of rich rookies. The forthcoming merger of the National and American Football leagues ends the price war that enabled the Andersons and Garretts to play the leagues one against the other to attract the top dollar.

The West, featuring Anderson, Garrett and Nobis, is favored. But the underdog won all of the first five games—all played in Buffalo, N.Y.

The game was switched to Atlanta because the biggest crowd at Buffalo totaled barely 25,000. Game officials are now predicting a turnout of more than 50,000 (at \$6 a head) Saturday night. The game will be nationally televised (ABC) in color. Starting time 7 p.m. CST.

The Demons are in third place at 4-3 and have three games left while Berger and Caprock stand 4-4 and Perryton is 0-8.

Tascosa has the south lead at 10-1 with one game left while Amarillo is 8-3 then comes Hereford at 6-4, Groom at 5-4, Canyon at 4-3, Tulsa, 3-3 and Caprock, 2-10.

Pampa pounded Dumas 9-4 here Wednesday and will try to do the same in their 3 p.m. Sunday game. Roy Harper will probably get the starting nod Sunday and Johnny Sober is expected to pitch for Dumas.

Dons Hold Legion Lead
Palo Duro, having completed regular season Legion play, holds a one-half game lead over Pampa in the North division.

The Dons are 7-3 while Pampa, who completes the season Sunday, stands 6-3.

The Rebels journey to Dumas in what is their most important contest of the season.

Should Pampa win and tie the Dons for first the district tournament will be played at Optimist club park sometime later this month.

The district affair is composed of the one-two finishers in the North and South Divisions.

A loss to Dumas would mean Pampa would have to wait and see.

The Demons are in third place at 4-3 and have three games left while Berger and Caprock stand 4-4 and Perryton is 0-8.

Tascosa has the south lead at 10-1 with one game left while Amarillo is 8-3 then comes Hereford at 6-4, Groom at 5-4, Canyon at 4-3, Tulsa, 3-3 and Caprock, 2-10.

Pampa pounded Dumas 9-4 here Wednesday and will try to do the same in their 3 p.m. Sunday game. Roy Harper will probably get the starting nod Sunday and Johnny Sober is expected to pitch for Dumas.

Lefebvre To Start for NL

By United Press International
Jim Lefebvre of Los Angeles was selected today to start for the National League at second base in place of the injured Joe Morgan of the Houston Astros, and the American League All-Stars will take the field in St. Louis, July 13 without Mickey Mantle for the first time in 16 years.

The league offices released the names of players selected to fill out the All-star Lineups by Dodger manager Walter Alston and Minnesota's Sam Mele of the American League.

The starters were named by the votes of managers, coaches and players last week.

Alston named chatchers Tom Haller of San Francisco and Tim McCarver of St. Louis; infielders Lefebvre, Maury Wills of Los Angeles; Felipe Alou of Atlanta, Ron Hunt of New York and Jim Hart of San Francisco; and outfielders Willie Stargell of Pittsburgh, Curt Flood of St. Louis and Richie Allen of Philadelphia.

Managers Herman Franks of San Francisco, and Harry Walker of Pittsburgh will serve as coaches.

Mele chose catchers Earl Battey of Minnesota and Andy Etchebarren of Baltimore; infielders Norm Cash of Detroit, Bobby Richardson of New York, Jim Fregosi of California and Harmon Killebrew of Minnesota; and outfielders Carl Yastrzemski of Boston, Rocky Tommy Ake of Chicago.

Managers Hank Bauer of Baltimore and Birdie Tebbetts of Cleveland will be the coaches.

Mantle, who had been on the last 15 American League All-Star squads, got off to an extremely poor start this season. The veteran slugger went on a home run spree last week, but this was well after the players had voted him sixth. Mele made his final selections about the time Mantle started cllobbering the ball.

Wills is the senior man among the Nationals. He has appeared in five games (only one appearance is counted for the years when two games were played) with a .308 batting average.

WESLEY SIGNS
CINCINNATI (UPI)—Walt Wesley of Kansas, the number one draft choice of the Royals, Wednesday became the first player to sign a 1966-67 contract with Cincinnati.

Wesley, a 6-foot-11 native of Ft. Myers, Fla., had a career average of 19.3 points per game for Kansas.

Court Hears Confessions Of Klansmen

ATHENS, Ga. (UPI) — FBI agents Thursday read alleged confessions from two of three Ku Klux Klansmen being tried on conspiracy charges in the highway killing of Lennie Penn, a Negro educator and Army reserve officer. Federal Judge William A. Boyle admitted into evidence the confessions over defense objections. Agents said the confessions by defendants Herbert Guest and James S. Lackey were made less than a month after the shotgun slaying of Penn on a dark north Georgia highway on July 11, 1964. Lackey later repudiated his confession. The agents said they will be charged with conspiring to violate the civil rights of Negroes, including Penn. The charge, upon conviction, carries a maximum penalty of 10 years imprisonment and a \$5,000 fine. Three other klansmen, Cecil Myers, Howard Sims and George Turner, were tried on similar charges last week but a sealed verdict was returned by the jury and will not be opened until after this trial.

A New Offensive: 'Mud Mail'

By TOM TIEDE
 Newspaper Enterprise Assn.
 SAIGON (NEA) — The anti-everything forces back home have opened up a new offensive against the war here. They are attacking individual GIs.

And the worry is they may be wounding deeply. Their supply line is the Army Post Office, their weapon is poison penman.

"Not me," he replied, "but it does some guys."
 "How's that?"
 "They figure, what the hell's the use? You know."
 "Oh?"
 "Yeah, if nobody back home cares, why should they?"
 "But people do care."
 "I know and you know. But some guys don't."

"I have never talked or corresponded with a person knowledgeable in Indochinese affairs who did not agree that had elections been held at the time of the fighting (1954), possibly 80% of the population would have voted for the Communist Ho Chi Minh as their leader."

— Dwight D. Eisenhower, in his book *Mandate For Chance*, p. 372

The United States is fighting against the people of Vietnam. Why?

"People ask me who my heroes are. I have only one—Hitler."
 — Saigon premier Nguyen Cao Ky

Wouldn't it be better to let the Vietnamese people decide for themselves what form of government they want—even if it's communist—and stop this needless killing of Vietnamese peasants and American G.I.s?

KNOW WHY
 WASHINGTON (UPI) — Ford, noting that 2,434 Americans have died in Viet Nam since January, claims Americans deserve to know why North Vietnamese oil depots were not bombed six months ago.

Ford said Thursday the administration has hinted that the attacks are speeding the prospect of peace.

The American Revolution lasted from April 19, 1775, to Sept. 17, 1783.

Meteors are composed chiefly of iron, according to the *Encyclopaedia Britannica*.

WHY

Farm Workers On Last Leg of March

EDINBURG, Tex. (UPI) — More than 100 Texas Lower Rio Grande Valley farm workers, dramatizing their demand for a \$1.25 an hour minimum wage, set out today on the last leg of a 61-mile march.

The marchers, led by Eugene Nelson, chief organizer of the Independent Workers Association (IWA), planned to receive mass from Roman Catholic Bishop Humberto Sousa Medeiros at the shrine of San Juan, Tex.

The procession, including whole families and members ranging in age from a 72-year-old man down to a year-old boy, encountered only one incident.

Simon Calville, 21, of Westlaco, Tex. and Fidel D. Barrio, 22, of Edinburg, said several automobiles passed close and the occupants shouted abuse.

They said one car's bumper brushed another marcher, Linda Parras, 20, a student of Pan American College in Edinburg.

Mayor Al Ramirez of Edinburg left a hospital in an ambulance to greet the marchers.

Ramirez had been hospitalized for a broken hip suffered in an automobile accident.

Ramirez spoke to a rally of the workers in front of the Hidalgo County Courthouse.

Wishes Marchers Luck
 "I just want to wish you all the luck in the world... because we will all lead better lives here if the march is a success," Ramirez said.

Along with Miss Parras, several other students joined the march.

Susan Baker, 22, of the University of Oregon and Michael Holcomb, 22, of Austin Peay College in Clarksville, Tenn. had been working in a summer apprenticeship program of the National Farm Workers Association.

Pliny the Elder, famous Roman author, perished in the eruption of Mt. Vesuvius which destroyed Pompeii.

ship, and their target — the lonely and the impressionable soldier.

The letter senders call it talking truth. Receivers here call it "mud mail."

"Dear Soldier," it reads, "Get out of Viet Nam!"

The letters bear no return address, and the envelope postmarks are from Berkeley, Calif., Eugene, Ore., Dallas, Tex., and from College Station, Anystate.

One message being directed at the 173rd Airborne Brigade is a reprint from the leftist "National Guardian" entitled: "What to do when drafted—if you have a conscience."

Its author, Peter Romayn Clark, writes that at his induction he passed out peace leaflets, argued with a sergeant, solicited signatures for an anti-Viet Nam petition and refused to sign the loyalty oath.

So, he said, the "surprised" officials sent him home.

"Don't call us," he reported them as pleading, "we'll call you."

The article, reprinted at Berkeley by something called the Viet Nam Day Committee — which troops here gleefully call the VD group — is wrapped in a yellow folder inscribed with the words: "Peace on Earth."

"Wouldn't it be better," the folder asks, "to let the Vietnamese people decide what form of government they want—even if it's Communist — and stop this needless killing of peasants and GIs?"

The overwhelming answer here is "No." But there are some who may agree and here-in lies the worry.

Explains 173rd Information Specialist James Ryan: "I'm afraid some young, confused kid is going to answer some of this stuff one day, and that's exactly what these people want."

"Why?" he was asked.
 "To use as fodder for their campaign."

"In what way?"
 "Reprinting the GI mail they might get."

The paratroop brigade does have one defense, however. All anonymous mail goes through its central information office where questionable letters are inspected.

But most other outfits have no such mail check, and this a growing number of servicemen suffer the malicious mail daily.

"Does it affect you?" one was asked.

The Scots called whisky "ferintosh" during the 18th century.

WIN HAMMOND'S HMT SWEEPSTAKES

50 Hammond Organs or Pianos [YOUR CHOICE] Free!

Win the lifetime joy of making music. For you. For your whole family. It couldn't be easier. All you do is come in and sign the official sweepstakes entry blank. No obligation. Nothing else to do. And you could win one of the world's most wanted musical instruments. Sweepstakes closes September 3, 1966. Void in states where prohibited, taxed or restricted by law.

Win a Hammond Organ—One of the newest models. An easy-to-play spinet with 28 exciting instrumental sounds including realistic Hawaiian guitar, banjo, trumpet, clarinet, and many others.

Win a Hammond Piano—A smartly styled console with the full, rich tones and quick response that is ideal for beginners and so appealing to advanced pianists.

A sweepstakes you can't lose because everybody wins the chance to discover their Hidden Musical Talent (HMT).

Discover your **Hidden Musical Talent (HMT)**

Do you long to play—but feel you lack the ability? Let us show you just how much Hidden Musical Talent you really have. It's fun. It's free. It takes no more than five minutes. And, you'll know once and for all if you really can make music. Don't be surprised if you have far more talent than you think—even if you've never played an instrument before. Bring in the whole family and let everyone discover their Hidden Musical Talent!

Enter the Hammond HMT Sweepstakes—and discover your Hidden Musical Talent. Do it soon.
