Three Coifs That Are Flattering

SPRING HAIRSTYLES — Two of three flattering hairstyles for spring fashion show how adaptable they are to women of varying ages. Exaggerated, teased hair is out for the truly chic, according to stylist IIa in New York. Have hair cut so it falls naturally and can be set at home. The Siren hairdo (left) reflects the 1930s trend with its unbroken curves to the shoulder. It is set on large, large rollers down the back and on both sides with large pin curls at the very bottom. L'Allure (right) is a back sweep with bangs. If hair is short, use a postiche at the back. For longer hair, brush up in back and fold over.

EVER STRIVING FOR THE TOP O' TEXAS TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing informa-

tion to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

Every part has a purpose

Today's telephone has 475 precisionmade parts. Each one has a specific purpose to make the instrument work smoothly and efficiently. But even though the telephone has more parts than the average fine watch, its reliability is greater today than ever before. And in the rare event something does go wrong, repairs are included as part of your service. There's no extra charge. Any repairs are covered by your regular payments for service.

Telephones have been improved time and again over the years. They will continue to be improved because Southwestern Bell wants to make your telephone service—already the world's best-even better.
