# Pampan Dies, Woman Hurt As Autos Crash

## Cuyler St. Scene of Disaster

By RON CROSS

A 73-year-old Pampa man, Leonard G. Black, 516 N. Zimmers, was killed and a Pampa woman injured this morning in a car-panel truck collision on Cuyler St.

Leta F. Lewis, 71, of Route 2, Pampa, was injured in the collision and taken to Highland General Hospital.

A hospital spokesman said the woman suffered facial cuts and arm and hand injuries. She was listed in serious condition.

Investigating Pampa police officers said Black was traveling south on Cuyler in the panel truck and the Lewis woman north on Cuyler.

Policeman Gayle Stevens and partner John Thomas said Black was left of center and the two vehicles collided head-on at the intersection of Cuyler and Texas Sts.

Stevens said both vehicles were a total loss.

Black was delivering groceries at the time of the accident. He had been employed by LeLand's Grocery for the past two years.

Mrs. Lewis, whose husband died about six months ago, is the mother of Abraham Lewis, who lives five miles east of Pampa.

Black's death is the first in the city of Pampa since 1964 when Pampa merchant Neal Sparks was killed.

Black was born in Arkansas, October 14, 1892, and had been a Pampa resident for the past 22 years.

Survivors include his wife, Clara, of the home; two daughters, Mrs. J. W. Hapman and Mrs. T. E. Ammons, both of Pampa; two sons, Earl, Pampa, and Mearl, Booker, Okla. Services are pending at Duemel Funeral Home.

# Red-Labeled DuBois Clubs

SAN FRANCISCO (UPI) —

The national headquarters of the W.E.B. DuBois Club, a Communist front organization by the Justice Department Friday, was shattered Sunday by a pre-dawn explosion.

Terence Hallinan, national executive secretary of the organization, charged that the blast was deliberately set and claimed it was caused by "about 30 to 40 sticks of dynamite."

But police declined comment on the charge pending a thorough investigation today by the arson squad and army explosives experts.

## Boston Papers Hit By Strike

BOSTON (UPI) —A strike of printers and mailers shut down Boston newspapers today for the third time in nine years.

The walkout by members of the International Typographical Union (ITU) closed the Boston morning and evening Globe, the morning Herald and evening Traveler, and the Hearst-owned Record-American.

The strikers set up picket lines outside the newspapers Sunday after the union membership voted 1,266 to 56 to walk in support of demands for a wage increase in each year of a three-year contract.

The publishers had offered pension and welfare improvements during the first two years of the contract and wage hikes the third year in a package totaling \$16.30 a week.

Other mechanical unions and editorial workers represented on the Globe by the Boston Globe Employees Association and on the other newspapers by the American Newspaper Guild (ANG) refused to cross the picket lines.

The Marines fired time and time again, but they were hitting below their target and could not see him well because

of scrub on the slopes. Suddenly, the Communist dropped to the ground, losing his rifle as one of the Marine's bullets found its target.

A second bullet struck the Communist, knocking him to the ground. But he got up again, only to be slammed to the ground a third time by two more bullets.

But still he moved, crawling up and over the crest of the hill to the other side.

Nobody could tell whether he lived or died. The Marines went no further than the hilltop.

A sergeant next to me knocked the dirt with his boot. "Well, in a way I'm glad the little bastard got away. He sure had guts."

# Candy Weeps, Goes Home to Children

MIAMI (UPI) —Candy Moss-

ler sat in a gold Cadillac across from the courthouse and blew the kisses to a yelling crowd of 150 rappers told a bailiff at 10:37 a.m. It was not until 12:13 p.m.

"The horrible nightmare" of that they were directed to hand arrest, indictment and seven weeks of trial on charges of murdering her multi-millionaire husband, Jacques, had ended.

The sweet dream of acquittal out the "not guilty" in the Powers verdict. (Mel uttered a "whew") to the "not guilty" in her own verdict. Candy sat with her lips in a Mona Lisa curve. Then she cried. And she sobbed through the judge's pronouncement of judgement of innocence as she stood with and alleged lover, to kill Mel before the bench.

Seconds later, newsmen were asking her what about the verdict?

"I just always thought there are a lot of wonderful people," she said, holding a handkerchief to her tears. "It makes me believe in the good people of this country and Dade county. It restores my whole faith in living and people and everything that is good."

"It's a horrible nightmare that's ended. Not only for myself but my poor, pitiful little children back home crying. I'm going to go tell them now. I left them crying."

Her four adopted children — ranging from 11 to 15 — are in school here now.

## Accused of Murder

The state tried to prove that Candy now 46, and Mel, 29, conspired long ago to murder Jacques — and that Powers, driven by an incestuous love for his silver-blond aunt, drove home the 39 passionate knife thrusts that ended the life of the 69-year-old financier, about 1:45 a.m. on June 30, 1964.

The jurors thought otherwise. They said both were innocent. The 12 men had received the Mossler murder case at 9:14 p.m., on Thursday, the 34th court day. They rapped on the

were part of the 2nd Battalion, 4th Marines commanded by Lt. Col. P. X. Kelley of Boston, Mass.

We marched along with Capt. John E. Regal of Canyon, Tex., commander of George Company. We were moving in to relieve a company that had been hit hard during the night while protecting a Marine H34 helicopter that had been shot down in a rice paddy landing zone.

Company Holds Fast

The fighting had been so fierce that the commander of the guard detachment had to call for an emergency night-time resupply of ammunition.

The drop was made, and the company held out until daylight.

Now we marched through waist-high patches of scrub brush and occasional rice paddies with young green shoots pushing up from the mucky water.

# U.S. Jets Rake Red Supply Lines

SAIGON (UPI) —U.S. planes evaded exploding Surface-to-Air (SAM) missiles in another devastating raid on supply lines from Communist China today, and American Marines estimated they killed 1,100 North Vietnamese regulars trapped in a valley 300 miles northeast of Saigon.

Air Force and Navy pilots spotted at least six of the Russian-supplied SAM rockets and dodged heavy conventional ground fire in dumping tons of explosives on railway lines, storage areas and supply routes in Communist North-Viet Nam.

The Americans flew 71 missions in all, most by Air Force F105 Thunderchiefs and Navy and Marine Phantom jets from 7th Fleet carriers. It was the second straight day missiles were fired by Communist batteries but none of the U.S. aircraft was reported lost.

The 5,000 Marines and government troops in Operation Utah trapped the North Vietnamese Army's 36th Regiment in a narrow valley five to 10 miles northwest of Quang Ngai City during the weekend and reported wiping out at least half of it. The Leathernecks confirmed by a body count that 537 Communist troops were dead. The regiment was believed to number up to 2,500 men. American losses were not described as heavy but by U.S. standards the toll was expected to be high.

U.S. 1st Infantry Division troops in two days of heavy fighting only 35 miles north of Saigon killed 199 Viet Cong before completing Operation Cocoa Beach. The Americans

Sunday said Communist dead were stacked so high at one point that Viet Cong troops used them as cover to fire at U.S. positions.

The U.S. 1st Air Cavalry Division wound up Operation White Wing-Masher in the Bong San region 300 miles northeast of Saigon. The massive sweep of the longtime Communist sanctuary began Jan. 25 and resulted in 1,484 Viet Cong and North Vietnamese regulars known dead, 570 Communists captured and 1,700 suspects detained by the Americans and South Korean infantrymen.

# State's Traffic Deaths Hit Low Total of Year

By United Press International Good weather and safe driving conditions contributed to the lowest Texas weekend violent death toll in weeks.

A United Press International survey for the period between 6 p.m. Friday and midnight Sunday showed 19 violent deaths, including 15 highway fatalities.

A light plane crashed into a Houston residential area Sunday afternoon, killing a young couple who were to be married next Monday. They were Charles Mann Pool, 23, and Edith Schatelowitz, 19, both of Houston.

A two-car smashup on San Antonio's East Expressway Sunday was the worst accident of the weekend. It killed Robert Moeller, 24, of San Antonio and James Hardin, 24, of Kelly Air Force Base.

A Burlington Railroad switch engine struck a car in Lubbock Saturday night killing George Harvey Watkins of Lubbock.

Mrs. Betty Fulkerson, 73, of El Paso was killed in a two-car collision in El Paso Saturday.

Mrs. Frances Lozano, 24, of Dallas was killed in a two-car collision in Dallas Saturday.

An automobile overturned just north of Ben Wheeler, Tex. Saturday, killing Fred Young, 43.

Charles Crowe, 27, of Amarillo was killed Saturday in a two-car collision near Decatur on U.S. 81.

# Fog, Rain Postpones Recovery in Airliner Crash

**PLANE DISASTER** — The wreckage of a British Overseas Airways (BOAC) jet airliner smolders on the slopes of Mount Fuji Sunday. The jet crashed and killed all 124 on board. A search party turned back from the wreckage after rain and heavy fog closed in.

TOKYO (UPI) —Searchers postponed recovery operations today as rain and heavy fog shrouded the wreckage of a British Overseas Airways Corp. (BOAC) jetliner on the slopes of Mount Fuji.

Bodies of the 124 passengers and crew who died in the crash Saturday rested in caskets draped with white cloth, lined up in two temples in Gontemba, located at the base of the 19,744-foot holy mountain.

Officials waited for the weather to clear so they could transport the bodies to the Tachikawa U. S. Air Force Base outside Tokyo, about 60 miles northeast of the crash site.

The dead included 89 Americans, seventy-five of whom were dealers and their wives on a Far East tour arranged by the Minneapolis-based Thermo King Company for its top salesmen.

The crash was the second air disaster here over the weekend

and the third in four weeks. Sixty-four of the 72 persons aboard a Canadian Pacific Airlines DC8 died when the plane slammed through a retaining wall while attempting to land at the fog-shrouded airport Friday night.

Japanese Prime Minister Eisaku Sato told members of the house of councilors' budget committee today that intensive investigations of the three crashes were underway.

## Cuban Exiles Turned Back By Coast Guard

MIAMI (UPI) —Fourteen armed Cuban exiles on a boat were stopped in international waters off Florida and turned back toward shore Sunday by the Coast Guard and U.S. customs officials.

The men were identified by the Second Escambray Front Alpha 66, a Miami-based anti-Castro organization, as members of their group.

One report said the men were on a "commando mission." The exile group set a press conference for today, apparently to clarify the situation.

# Dear Abby...

## Gift Might Keep Thee Home Fires Burning

DEAR: Am I losing my mind? Please tell me what a "good-by gift" is. I always thought a "good-by gift" was a present given to someone who was leaving. Well, listen to this: My husband is leaving Portland. His firm is transferring him to San Francisco, so he bought his secretary a pair of antique andirons as a "good-by" gift. Why should he give her a "good-by" gift? She isn't going away, he is. Please straighten this out for me.

PLENTY MAD  
DEAR PLENTY: The department usually receives the "good-by" gift from one he leaves behind. Your husband's gesture was more like a "severance" or "appreciation" gift. (Maybe he wants to be sure she'll keep the home fires burning.)

DEAR ABBY: What can (or should) a father do in the following situation? My son is 20. His wife is 27. They are both college graduates and have been married five years. No children. Yesterday my son gave me the shocking news that he and his wife are getting a divorce. He says they are "pals"—not lovers, whatever that means. They live 1,500 miles from us, but we see them three or four times a year. They seemed very compatible. Never any quarreling or bickering. My son says they are "bored" with each other and are mutually agreeable to ending the marriage on friendly terms. I advised him to consult his clergyman or a marriage counselor to see if something can be worked out. He said, "What for? We both know what we want out of a marriage and we aren't getting it, so we might as well go our separate ways while there are no children to consider." Somehow, Abby, I just cannot condone ending a marriage because of "boredom." Am I right?

NEW ENGLANDER  
DEAR NEW ENGLANDER: Perhaps there is more to it than they care to tell. In any case, no one can "save" a marriage neither party thinks is worth saving. Your son did not ask your advice. He merely informed you of his intentions.

DEAR ABBY: What makes men customers want to pull a waitress' apron strings? We have our aprons tied in a neat bow, and after it has been pulled

# Teens Are Hair Care Buffs

DO-IT-YOURSELF HAIR CARE — Shampoo-in hair lighteners add highlights to hair. Especially good for young women who haven't colored or lightened hair before. Worked into hair like shampoo the first time, the lightener and developer are mixed in tray before applying. Model (left) touches up her summer-blonded hair with a lightener. Lightener is sponged onto new growth area first then combed through rest of hair for second treatment in four or five weeks. Used with brown hair to bring out red and gold and heightens red hair. The model (right) uses a conditioner on her hair. It is worked into hair after shampoo and towel-drying to add protein and help add body to thin hair and do away with problems of weather-damaged hair.

By ALICIA HART

Newspaper Enterprise Assn.  
Teen behavior is confusing. The young woman who refuses to put one foot after the other to walk to school proves a real do-it-yourself buff when it comes to her hair care. She spends more time shampooing and setting her hair than her mother does and also began to select her own hair care products when 11 or 12 years old. A report of a teen publication survey shows young women from age 11 and up use five times more hair care products than their mothers do. Various teen surveys in the last year show how personalized their hair care is. It isn't beauty salon-a-go-go for them. Only four per cent reported going regularly. Yet their concern over well groomed topknots comes through when slightly more than 85 per cent said they worry about hair problems. And take care of such woes as oiliness and dandruff more than half shampoo their hair twice a week.

The street-corner observer may lift his eyebrows slightly when hearing such a statistic after taking a close look at the hair aping the styles of such leaders of song as Sonny and Cher or Bob Dylan. Yet almost 60 per cent of the young women replying to the grooming questions said they use special rinses and about 14 per cent admitted to touching up the hair a bit with temporary color. One teen publication's survey revealed that 11 per cent of young ladies 13 to 14 years old said they were trying hair coloring for the first time.

If this trend continues, only the boy next door who marries the girl next door will ever know whether she does or doesn't. This desire to flip the pages of the calendar too fast through use of make-up and contrived hairdos concerns some responsible members of the hair and cosmetic field. These encourage a young woman to take advantage of the special freshness only youth has.

They urge the use of cosmetics with a very light hand. Work for the natural look, and avoid the

## Student's Chances Predicted by Tests

AUSTIN, Tex. (UPI)—Students planning to go into college can find out how hard they will have to work even before they take their first term examination.

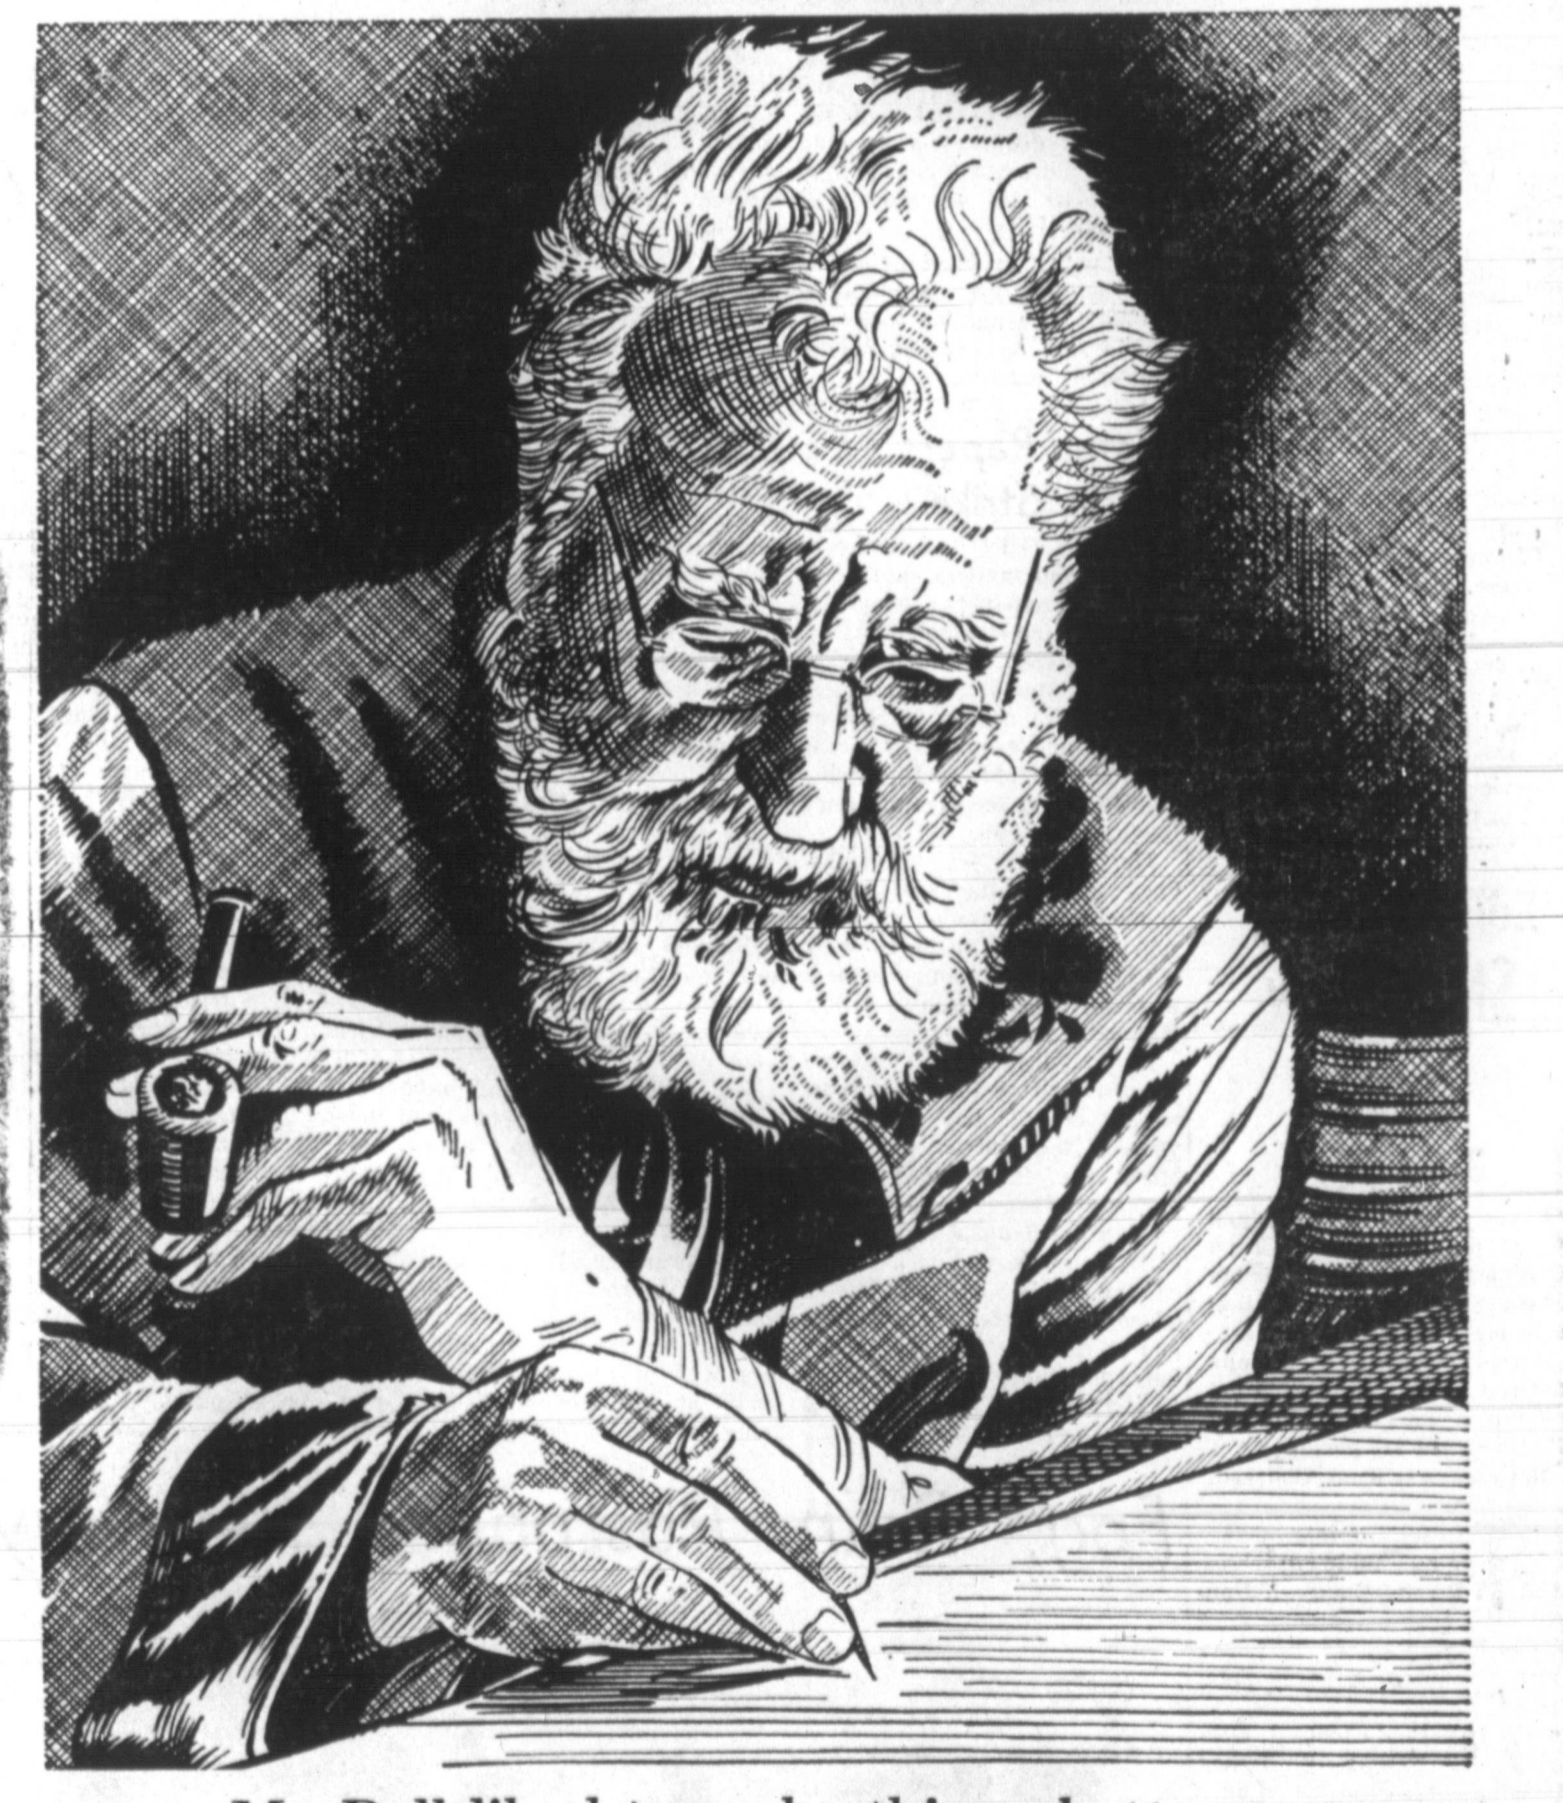

Dr. H. Paul Kelly of the College Entrance Examination Board regional office in Austin heads a project that is pooling information on thousands of students. Their high school records, grades on aptitude examinations and records at college were put into the data pool.

From it, researchers got an equation that tells what can reasonably be expected from a high school graduate of certain abilities and success in high school.

An entering freshman can get from a computer some guide for his study for the next four years. The guide is affected by factors it cannot take into consideration, such as activities he gets into while in college. Kelly says, but it gives a broad idea of a student's prospects for success.

Kelly predicts that in a few years, with that much more data to go on, the system will be quite accurate. It will serve to guide schools in their grading system as well as students in their goals.

And that could help lower the rate of those who quit college because of bad grades, Kelly said.

## Mr. Bell liked to make things better...

After Alexander Graham Bell invented the telephone in 1876, he did not rest on his laurels. He helped form the National Geographic Society, developed the basic method of making phonograph records on wax discs and pioneered a method of locating icebergs by detecting echoes from them. He made suggestions and contributions that helped give us air conditioning and the iron lung. For 46 years after inventing the telephone, he lived a vigorous and creative life.

Southwestern Bell likes to make things better, too... Six short years ago, we did not offer the Princess® telephone, Home Interphone, Wide Area Telephone Service, Centrex service, Data-Phone data communications service or Panel Phone. There was no electronic artificial larynx, no automatic dialer and no Speakerphone. Today, these new items help us provide the best telephone service in the world. But we want to make it better. That's our legacy from Mr. Bell.

# Red Auerbach Tolerant of Three-Time Loser

NEW YORK (NEA) — Boston Celtics coach Red Auerbach is one of the few men in the world who can take time out from success to be tolerant of a three-time loser.

Auerbach has done it for Larry Siegfried, who was a three-time loser in pro basketball before he came to Boston.

Siegfried is flabbergasted. "This time last year I never dreamed I would be averaging 13 points a game as a sub for the Celtics," he said, "even though I felt deep down I was capable of it. I never really thought basketball could be this enjoyable."

Siegfried finished at Ohio State in 1961, a year ahead of Jerry Lucas and John Havlicek. He was the first draft choice of both the Cincinnati Royals and the Cleveland Pipers of the short-lived American Basketball League. He signed with Cleveland.

He started fast, faded and ended the season sitting on the bench. In fall of 1962, he was invited to try out with the St. Louis Hawks despite the fact he was Cincinnati property.

"The big thing," Auerbach said, "is that he's lost his humility. In this league you can't run up and down the court sulking if you make one bad pass or miss a shot."

here. He just kept sticking with me. "Once in a while Russell or Heinsohn would say to me, 'Nice going, kid,' or, 'Keep plugging.' It has made all the difference in the world."

of the boys. The night he scored his 29 points, he played 48 minutes, filling in for ailing Sam Jones.

GETTING THEIR KICKS — Calisthenics is part of the daily routine at the Braves training camp in West Palm Beach, Fla. At least, the Braves have a definite spring home.

## Podres Has New Pitch

Podres, a 31-year-old bridegroom earlier this year, made an impressive spring debut Sunday as he tossed two perfect innings in an intra-squad game and displayed a slider for the first time after 14 years of pro ball.

Pete Ward is Chicago White Sox Manager Eddie Stanky's first guinea pig. A top flight hitter but something less in the field at his regular third base slot, Ward started at first base Saturday and will be used in left field Tuesday.

Leo Durocher, the Windy City's new manager, was annoyed by the five errors committed in an intra-squad game but impressed by the throwing of 20-year-old southpaw Kenny Holtzman and Lee Meyers, a 19-year-old lefty.

## If Baseball Players Unite So Can Major League Clubowners

By MILTON RICHMAN  
ST. PETERSBURG, Fla. (UPI) — If the players are going to unite, then so are the clubowners.

The owner speaking out in favor of an arbitration board suggested it might be composed of three persons.

It could be made up of one man from the commissioner's office, the league president and this new man (Marvin Miller) the players have just hired.

Actually, some informal arbitration has been tried in the majors before but there was never any publicity given it.

Only a few years ago, a pitcher and his club became stale-mated over a contract in excess of \$30,000. The pitcher was asking \$2,500 more than the club was offering and somehow this particular pitcher, the general manager of the club and the league president all happened to be together in the same room at one time.

## Ticket Packs Available for Colonial Golf

The ultimate in golf tournament ticket packages will be available at the Colonial National Invitation this year.

For several seasons Colonial has offered an "Angel and Patron" group purchase plan and this year a "Saint" package will be added to the lineup.

Thus for \$1,000 a person or firm can become a Saint at the NIT and receive benefits never before offered at the Tournament.

Additionally, a Saint will receive \$1,000 in tickets, including two gold medallions which give him unlimited access to any place on the course or in the clubhouse; two captain-type chairs situated on a platform around the 18th green in a roped and guarded area for the exclusive use of Saints; clubhouse red-carpet parking; special advertising listing in the daily program; access to a private lounge and a special saint's golf hat.

The New Feudalism
The latest dramatic proposal by the Great Society relates to the "guaranteed annual income," a program so far-reaching in its consequences that it pales by comparison other programs for a Brave New World.

Well, we won't stretch the analogy, except to note a pair of points. A future society, no matter how advanced technologically, which is first coddled and then controlled by governmental authority is going to be a highly disagreeable one in which to live.

Here, for a particularly lurid example, is a high-powered commission on technology, set up by Congress and boasting prominent names like Thomas J. Watson Jr. and Walter P. Reuther.

These, of course, are only a couple of the innumerable manifestations of a welfareism run rampant, a welfareism divorced from the humanitarian principle that the people of a community must care for its genuinely needy.

As Free as a Prison Camp
In a significant departure from past behavior, the USSR has felt constrained to defend its sentencing of two authors, Andre D. Sinyavsky and Yuli M. Daniel, to hard labor for anti-Soviet writings which they smuggled out of Russia between 1956 and 1963.

What Happened?
The question, if anybody is still interested, is not just what Bobby Kennedy said about Viet Nam but just why he said it.

Straight Talk

By TOM ANDERSON

The Great Society is now going worldwide. Johnson, not to be outdone by Jesus, will feed the multitude. President Johnson piously pronounces New Testament to "The War on Hunger".

The slogan "Food for Peace" is part of the deliberate attempt of our one-worlders and Communists to sell the Big Lie that hunger is the main cause of wars.

Whether or not such is the utopia our guaranteed incomers and the rest want, they certainly seem to be trying to bring it on. They have made a drastic and intellectually unwarranted leap from a perfectly proper concern for the less fortunate among us to a vast sentimentalism which would sweep away some of Western man's most prized values.

Only fools, traitors and half-brights give the enemy weapons with which to destroy us. "Armies travel on their stomachs." He who gives anything to any communist country is a traitor to the United States and the cause of freedom.

agent of "imperialistic ideological subversion." All of this double talk can be dismissed as so much rancid horseshit. There are two encouraging aspects to the sorry affair, however.

Backstage Washington
GOP National Committee Organizing Another Dinner - At \$100 or \$500 - for Funds for House Campaign Committee

WASHINGTON - Another big fund-raising dinner is being set in motion by the Republican National Committee.

It will be for the House Campaign Committee, headed by Representative Bob Wilson, R-Calif., and the tentative date is May 19. That is two weeks after a similar affair slated by the Senate and House Democratic Campaign Committees.

Still undecided is the price of the GOP tickets - \$100 or \$500. A \$500-a-plate dinner last month by the Senate Republican Campaign Committee, headed by Senator Thurston Morton, Ky., netted more than \$600,000.

To avert such backstage friction, Representative Wilson agreed to the House dinner's being under the auspices of the National Committee - with the clear understanding that the proceeds go to his committee.

These funds will be used to support incumbent Republican congressmen. In addition, Wilson has another fund of some \$600,000 to be spent helping Republicans running against sitting Democrats.

President Eisenhower will address the May 19 dinner, if his health permits. A number of governors and other party notables will attend.

DEMOCRATIC AFFAIR - President Johnson and Vice President Humphrey will be the headline attractions at the May 5 Democratic dinner. Unlike the GOP fund-raiser, the Democratic event will have no connection with the National Committee - for a good reason.

UNEXPECTED BACKER - Barry Goldwater is enthusiastically supporting Massachusetts Attorney General Edward Brooke for the U. S. Senate.

The Arizona disclosed this in a letter to Carl Shipley, District of Columbia GOP chairman, saying, "I am supporting Ed Brooke not because he is a Negro but because he has done an outstanding job in Massachusetts, is a highly intelligent and articulate young man, and I think his election would be greatly to the credit of the Republican party and the nation."

DISCORD AMONG THE ANTIS - Senator J. William Fulbright's unexpected vote for the Morse amendment to revoke the 1964 Tonkin Gulf resolution was directly counter to the vigorous stand he espoused the day before at a strategy conference of opponents of the President's Viet Nam policy.

The Arkansas chairman of the Foreign Relations Committee, strongly counseled against supporting the Morse proposal on the ground it would be overwhelmingly defeated and that would be viewed as a decisive endorsement of the President.

Senator Robert Kennedy, D-N.Y., who earlier had made headlines urging that the Viet Cong be given a "share of power and responsibility" in the Saigon government, heartily approved Fulbright's argument.

Fulbright replied that a clear-cut confrontation with the President should be delayed until later, "when the atmosphere is more conducive to our winning."

CRACKDOWN ON DE GAULLE - President De Gaulle is profiting from the Viet Nam conflict at U. S. expense in two big ways: The haughty French leader is using the war in his persistent efforts to create world sentiment against the U. S.; and soaring U. S. expenditures in Viet Nam are pouring hundreds of millions of dollars into French coffers that are financing the heavy raids on this country's steadily diminishing gold reserves.

As of last month, they had sunk to \$13.811 billion. Last year France obtained \$800 million in gold from this country, and is withdrawing it at the rate of \$30 million a month.

Senator Paul Douglas, D-Ill., a ranking member of the finance committee, wants immediate measures taken to prevent France from profiting from the Viet Nam conflict. The combat-disabled World War II Marine veteran is urging two counter moves:

The establishment of U. S. banks in Saigon, and requirement by the South Viet Nam government that all dollar claims be presented to the American banks instead of the French-controlled Bank of Indo-China.

"U. S. spending in Viet Nam in the coming year will run into the billions," pointed out Douglas. "It is a conservative estimate that at least five per cent of this will wind up in the Bank of Indo-China, which will send these dollars to Paris, which will then demand gold for them from us. The best way to check this is to urge the South Viet Nam government to permit American banks to open branches there, and then to provide that all claims in dollars be presented to these banks and not to the Bank of Indo-China."

Douglas advocated still another "painless way" of curbing De Gaulle's ability to "injure us by raiding our gold reserves." This is to halt further economic aid and private investments in former African French colonies.

The American Way

By HARRY BROWNE
The cries to put unions under anti-trust laws and impose other restraints upon union activity are not based upon a proper understanding of the current union problems.

There is no question that union leaders are exercising near-dictatorial control over the properties of some American businessmen. But the remedy is not to be found in imposing new legislation or regulation.

For the unions do not possess this power by any natural outgrowth of their service. It is not that unions are so attractive to wage-earners that the latter will voluntarily join unions and fill their treasuries - thus giving the unions great powers.

Perhaps the most critical of these is the so-called "right to strike". It would seem an injustice to prevent any worker from walking off a job where he did not agree to the wages and working conditions. And it would be an injustice.

But what is not generally recognized is the basic difference between a "strike" and "quitting". They are not the same act.

If an employee quits his job, he has left it. If he finds later that this act has not caused his employer to modify his attitude, and the employee would like to get his job back, he can ask for it. But it is obvious that the employer has no duty to give the resigning employee his job back.

When a "strike" is conducted (meaning the government recognizes the quitting of certain groups of workers as a "strike"), then something different happens. In that case, the government will force the employer to reinstate all of the

striking workers when the strike is over. A strike is an artificial situation, created by government coercion, in which employees are permitted to leave their jobs and then reclaim them at their own discretion.

Realizing this, does the "right to strike" sound so plausible? Of course not. No one has to tell an employer who he may hire or fire. But as long as the government forces such situations upon the employer, the unions will have all the trump cards in bargaining.

**IF YOU ARE 65 OR OVER**

**BLUE CROSS-BLUE SHIELD'S SENIOR TEXAN COMPANION SERVICE**

Is a Low Cost Program that ties in with Medicare to give you a Protection Value Never Before Possible

Texans 65 and over in good health now can have a prepaid health-protection plan that will be the envy of millions. At a total cost so low, it is without doubt the greatest value in health-care protection the U.S. has ever seen.

Study the outline of benefits below — showing what Medicare will, and will not do. You need more than Medicare! Then read carefully what Blue Cross-Blue Shield's Senior Texan Companion Service does in column 2 and column 3, below.

With either Senior Texan "Basic" (column 2 below) or Senior Texan "Major Medical" (column 3 below), tied in to Medicare benefits, you will have a low-cost health-care program value simply never possible before; surely no Texan in good health, over 65, can afford to

be without it. Benefits begin when Medicare benefits begin — July 1, 1966.

The cost is unbelievably low: For Senior Texan "Basic," only \$3.75 per month; for Senior Texan "Major Medical," only \$6.75 per month.

**Send in Application Now!**

This offer will be open to the general public for a limited time only. Don't delay. At the bottom of this page is an application form. Fill it out carefully, indicating "Basic" or "Major Medical," sign it, and mail it today to:

**BLUE CROSS-BLUE SHIELD**  
 Main at North Central Expressway  
 Dallas, Texas 75222

**READ THESE FACTS ABOUT MEDICARE!**

There are two parts to Medicare; note details carefully in Column 1 below. Part "A" provides mainly hospital services (beginning July 1, 1966) and nursing home services (beginning January 1, 1967); and some home health calls (visiting nurse, physical therapist, etc.) are available following a hospital illness. Part "A" provides nothing for doctor bills. Part "B" is automatic for those now receiving Social Security or Railroad Retirement benefits. Others must apply to Social Security, giving proof of age.

Part "B" is mainly to help pay doctor bills and other medical services. To qualify for this, everyone must enroll at his or her nearest Social Security office. The cost is \$3 per month; Social Security will instruct you how to pay. The deadline is March 31st for those now 65.

Caution: unless you are enrolled under both parts of Medicare, you will of course have to provide those benefits yourself, since Senior Texan Companion Service begins where Medicare leaves off. It is plainly to your advantage to enroll for Medicare, both Parts "A" and "B."
