## UNFAIR STRIKING

Because the sheriff of the county, labor union leaders say, sanctioned tossing of tear gas bombs against a restricted group of strikers, a general strike attempting to paralyze the economic life of Pekin, Illinois, has been called.

Thus business men who have no control over what the sheriff or his deputies or any other official do are to suffer whatever punishment the labor organizations may be able to bring against the offenders.

The general strike is the most unfair instrument in the hands of organized labor. The Peking incident is merely an illustration of the injustice the general strike invokes. Regardless of what the relations between employer and employe may be, pleasant or otherwise, the employer suffers loss of business, loss of profits that enable him to pay fair wages, and the burden of taxes that go on regardless of whether he operates or suspends.

The butcher and the baker who may go out of their way to insure the satisfaction of their employes' demands must close up because the candlestick maker's labor is dissatisfied or miffed because of some untoward incident perhaps none of them can control. Meanwhile overhead goes on. Is that fair?

The Banner will uphold from here to yonder labor's right to quit work when it is dissatisfied. There is no law spread upon our statute books that compels a man to work if conditions are not to his liking. But The Banner will similarly deny to the death the fairness of asking a laborer who is treated with fairness by his employer to penalize that employer because some other worker in another field is dissatisfied.

Labor demands and is entitled to a square deal. But if it is going to demand fair dealing it must be willing to give fair dealing in return. The general strike is the most grossly unfair dealing of which labor is guilty—Greenville Banner.

## Mrs. Johnson's Trial Starts

GATESVILLE, Feb. 11 (AP)—The trial of Mrs. Ethel Johnson of Dallas on charges of slaying her daughter-in-law, Mrs. Bernice Blankenship, moved toward the testimony stage today as attorneys sought to complete a jury.

Six jurors were chosen yesterday. Mrs. Blankenship and her husband, Joe Dean Blankenship, were shot to death on a Coryell county ranch in 1934. Mrs. Johnson was indicted in both deaths after an investigation which followed a coroner's verdict that Mrs. Blankenship killed her husband and then herself.

## Fisherman Tells Of Death Struggle On Lake Michigan

CHARLEVOIX, Mich., Feb. 11 (AP)—Clayton Brown, 25-year-old fisherman given up for lost with two companions after they were swept into Lake Michigan Saturday before a 40-mile sub-zero gale, came back today to tell how he refused to die.

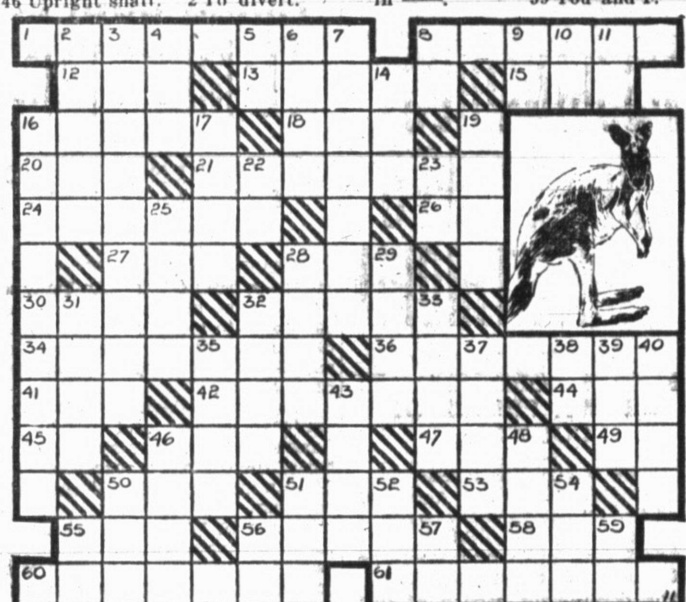

Brown crawled on frozen hands and legs seven miles across rough shore ice after Claude Beardley, 51, his father-in-law, and Earl Cunningham, coast guard surferman, froze to death in the small boat before it jammed into a floe and stuck. Brown's life was saved, physicians said, by the ministrations of an Indian family into whose cabin he stumbled early last night.

In a hospital here today Brown told his family of the 48-hour struggle to keep his companions from freezing and how he stumbled shoreward after the boat grounded "because I figured I'd just as soon die on my feet."

## OUT OUR WAY ----- By WILLIAMS

## BEHIND THE SCENES IN WASHINGTON

BY RODNEY DUTCHER  
NEA Service Staff Correspondent

WASHINGTON. — Into the hurly-burly, the constant strain, and the partisan bitterness of the capital, there sometimes comes a touch of comic relief which greatly relieves the tension of life here.

Much of the comedy is unconscious. Frequently it is Congressman Maury Maverick of Texas who introduces such wit and humor as is obtained by design. Maverick has an idea that laughter and ridicule are important weapons.

Scott of California had introduced an amendment to forbid teaching or advocating the legislative program of the American Liberty League in Indiana schools.

"I rise as the champion of the freedom of speech in defense of the American Liberty League," said Maverick. "Does the gentleman mean to tell me he intends to deny the pure doctrines of James M. Beck and his pal, Newton Baker, who received \$50,000 to decide the TVA before it came into court, and the doctrines of other impeccable and self-righteous citizens for the du Ponts and the holding companies, from being taught to our Indiana children?"

"Does the gentleman mean he would prevent the teaching to the Indiana children of the doctrine of Mr. 'Sixty Grand' Shouse, who gets salary and 'allowable expense' of \$60,000 a year? Indiana's know a lot about horses—they probably know about Twenty Grand—but they should know the du Pont horse known as Sixty Grand. . . ."

"No, Mr. Scott, I would let even the Liberty League talk. Would you deny these gentlemen who claim to be sole guardians of the Constitution the right also to be guardians of our Indiana children?"

Probably destined to become famous as a departure from the routine, dull committee reports is Maverick's one-man minority report against the bill permitting certain American officials to accept medals bestowed on them by some Latin American governments.

"Had I earned a foreign medal in the late war against the German Imperial Government," said he in the printed report, "when we entered the war to end wars—there now being no wars and with democracy thriving everywhere throughout the world—I suppose I should have worn it. But this bill ought to be deferred.

"Congress can legislate and debate on medals and titles of nobility. This should give us pride. It appears we cannot legislate on the welfare of those who live from the soil—and all humanity does—for that is a mere local matter—hence, the welfare of 125,000,000 people is not within our scope.

"Nor can we provide naturally even for minimum decent labor standards to protect states as against each other, or for millions of workers on whose lives and purchasing power the welfare of the nation, and business, depends. . . ."

"But we can dress our officers in foreign medals from foreign governments; and that proud power we must jealously guard, and if we permit all our powers to be usurped, as appears likely, we can devote much of our time to decorations. Thus we can pass our time. . . ."

Men and women equal? The former have to go out and fight for election; all women have to do is to wed frail congressmen.

The old-time rounder has given way to the modern 'rounder and Rounder.

They're dark horses to the electorate; but to the party, they're nightmares.

Only those who have had fellows with colds roar in their faces can really understand that phrase, "infectious laughs."

That Boston club is now known as the "Boston Bees," which seems just a change of tense. They were hasbeens.

New Deal dirge: I didn't raise my baby bond to be a soldier's.

Early to bed and early to rise makes a man a healthy enemy of daylight saving time.

# EXPECT BORAH WILL FILE IN ILLINOIS RACE

## PERKINS STRIKES BLOW FOR NEW DEAL IN SPEECH

BY NATHAN ROBERTSON, Associated Press Staff Writer. WASHINGTON, Feb. 11 (AP)—While new dealers stressed increased payrolls and Herbert Hoover spoke of what he called the "possible menace of inflation," the capital speculated today on Senator Borah's next move in the political wars.

The big question was: Would the Idaho republican carry his battle for the republican presidential nomination into Illinois, the home state of his potential rival, Colonel Frank Knox?

It was the belief of Borah's friends that the same motives which compelled him to announce he would enter the Ohio primary would prevail in Illinois.

Borah announced he would enter Ohio after he found his friends had little chance to be named delegates to the national convention by the republican powers in that state. He decided his only chance was to carry his battle into the primary.

The same situation was understood here to prevail in Illinois, with many of the established republican leaders already pledged to Knox. If Borah decides to file in Illinois, he must do so by Friday.

On another front, Secretary Perkins struck a new deal talking point by declaring in Waterville, Me., last night that payrolls had increased "more than 50 per cent from the low point of the depression."

At a Colby college institute, she attributed "a rising curve" in labor and business to new deal measures. She listed gains by wage earners since March, 1933, and said the weekly payroll for industries surveyed by the labor department have jumped \$122,000,000 since the low point.

Former president Hoover's views were expressed at San Jose, Calif., yesterday as testimony before a court which is asked to permit Stanford university trustees to invest part of the institution's funds in stocks instead of bonds and first mortgages.

"The devaluation of the dollar, the widespread bank credit inflation and the possible menace of currency inflation," he testified, "are the new factors with which the trustees must deal. The theory of the devaluation of the dollar is that it will increase prices of commodities, thus causing a rise in the cost of living."

The former president is speaking tomorrow at a Lincoln day dinner in Portland, Ore.

Colonel Knox, Chicago publisher, pushed his anti-new deal attack to Philadelphia, where the democrats meet in June. He said the new deal is "looming through the mire" and compared the administration to the governments of "Mussolini, Stalin, and Hitler."

CHICAGO, Feb. 11 (AP)—Edgar J. Cooke, head of the Liberal Republican Voters league, announced today he had Senator William E. Borah's permission to enter his name as a candidate in the April 14 Illinois presidential preference primary.

# Islanders Haul Food Out of Air in Landing Dirigible

Food supplies near the vanishing point because ice had prevented ships from reaching them with replenishments, the fishermen of Tangier Island, off the Virginia coast, faced a desperate situation until a dirigible and airplanes swooped out of the wintry skies with loads of staples. Residents of the island are pictured tugging at the landing ropes of the dirigible Enterprise that brought 1,500 pounds of food from the Red Cross at Washington, D. C.

# The STRANGE CASE of JULIA CRAIG

Chapter VIII When Cintra Lee had finished her cigarette and returned to the cabin, Julia stayed outside, staring at the black water rushing by the graceful hull of the Wood Nymph. Presently she noticed the red spot of a cigar glowing in the darkness, and recognized the familiar figure of George Woodford.

"You've made quite a hit with the boys and girls," he said. "I'm glad I brought you along."

Julia turned to him on a sudden impulse. "I wish I could be glad I came."

Woodford's voice held an embarrassed surprise. "Why do you say that, Julia?" He hesitated, then added another question. "What did Cintra say to you?"

"Nothing," said Julia. "We get along nicely."

"Woodford seemed much relieved. 'I was sure you would. But what makes you wish you hadn't come?'"

"I don't know," said Julia slowly. "Somehow I feel — well, out of place."

Woodford laughed. "Nonsense, Julia! You belong here as much as any of us. A pretty young woman like you deserves every break in the world. And I've a surprise for you, too."

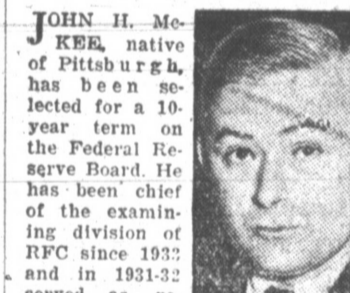

"Yes?" Her question was freighted with trepidation.

# New Choices for Federal Reserve Board

FORMER New York state bank superintendent and the first chief examiner of the Federal Reserve Board, John A. Broderick has been named by President Roosevelt to serve on the board of governors of the reserve system for 14 years.

A BRAUN'S cattle man and banker of San Antonio, Tex., Ralph W. Morrison is President Roosevelt's selection for a two-year term on the Federal Reserve Board. He has been chief of the examining division of RFC since 1932 and in 1931-32 served as receiver for Ohio and Pennsylvania banks.

JOHN H. McKee, native of Pittsburgh, has been selected for a 10-year term on the Federal Reserve Board. He has been chief of the examining division of RFC since 1932 and in 1931-32 served as receiver for Ohio and Pennsylvania banks.

# Franco-Russian Treaty Debated

PARIS, Feb. 11 (AP)—France's mutual assistance treaty with soviet Russia, intended to protect the two nations against any German attack, was called up for debate in the chamber of deputies today on the question of its ratification.

Approval of the pact was considered generally a forgone conclusion, and Marshal Mikhail Toukatchevsky of the soviet army was already discussing its application in army terms with French War Minister Louis Felix Maurin.

The pact, a virtual military alliance uniting the world war allies, promises France the instant aid of the great soviet army of more than a million men in the event of a Nazi attack.

# FARM ACT IS ASSAILED BY IOWA SENATOR

## McNARY CONCEDES IT WOULD BE PASSED BY CONGRESS

WASHINGTON, Feb. 11 (AP)—Senator Dickinson R. (Ia.) was on the warpath today against the administration farm bill but Senator McNary of Oregon, republican leader, conceded it would pass.

In a radio speech last night, Dickinson called the bill "just as unconstitutional" as the invalidated AAA.

"The delegation of power to the secretary of agriculture is more sweeping," he said. "He may spend the money in whatever states he likes—such as those listed as politically 'doubtful'—or he can discriminate between individuals, between states, or whole sections of the country."

"The bill provides for federal payments to farmers who withdraw acreage from commercial crop production or take certain other steps for 'economic use of land.'"

McNary sought postponements of final action until these senators return. But he acknowledged that when the roll call comes, some republicans may vote for it.

Other agricultural developments: A measure replacing the Bankhead cotton, Kerr-Smith tobacco, and Warren potato control acts became law late yesterday with President Roosevelt signing the repeal without ceremony. He had asked that the laws be wiped from the statute books, saying they were "auxiliary" to the outlawed AAA.

The farm administration prepared to mail checks to farmers who contracted to control production before AAA's invalidation. The senate had sent to the White House the \$3,678,000,000 deficiency bill including \$296,185,000 for 1935 payments on fulfilled agreements.

# Daughter Helps Mrs. Long Reply To Newspapermen

WASHINGTON, Feb. 11 (AP)—Vowing to carry on the "Share-the-Wealth" campaign of her dead husband, Senator Rose McConnell Long today set out to learn the ropes of the senate into which she was inducted yesterday.

The woman who baked a prize cake and won Huey P. Long for a husband back in the old Shreveport days, came to town yesterday with her family to take part in the legislative wars.

She—and her pert, 19-year-old daughter, Rose—made it clear that the "Share-the-Wealth" movement did not stop with the death of her husband.

After she was sworn in yesterday Vice President Clemens, the new Senator Long received the press. When she hesitated on replies, her daughter jumped into the breach.

# Texas Centennial Stamps Will Go in Mails on March 2

DALLAS, Texas—The suggestion of U. S. Commissioner General Cullen F. Thomas, of the Texas Centennial Exposition, that the new Texas Centennial postage stamps be placed on sale March 2 at Gonzales, "Lexington of Texas," has been approved by Postmaster General James J. Farley.

A delegation of Gonzales citizens led by State Senator W. K. Hopkins of that city advanced their claims that since the first shot of the Texas Revolution was fired at

Gonzales 100 years ago that the memorial stamp should first be sold there on Texas Independence Day 1936. This was supported by the Commissioner General and the Postmaster General.

The new three-cent stamp will be special delivery size, purple in color and carry in the center a reproduction of the historic Alamo between the pictures of General Sam Houston, victor of San Jacinto, and Stephen F. Austin, founder of Texas. March 2 is Houston's birthday anniversary.

# WOMAN FACES PROSPECT OF CHAIR DEATH

## MAY BE FIRST WOMAN TO DIE IN NEW JERSEY

SALEM, N. J., Feb. 11 (AP)—Mrs. Marguerite Fox Dolbow, 29-year-old former school teacher, convicted with her boyhood sweetheart of murdering her husband, faced today the prospect of being the first woman to die in the electric chair in New Jersey.

The attractive, chestnut-haired widow and her reputed lover, Norman Driscoll, husky, 36-year-old farmer, will be taken to New Jersey's death house in Trenton tomorrow to await execution, set for the week of March 15, for the axe slaying of Harry Y. Dolbow.

In the death house the pair will join Bruno Richard Hauptmann, convicted kidnap-slaver of the Lindbergh baby, who also is awaiting death.

A jury of ten men and two women convicted Mrs. Dolbow and Driscoll last night in Salem county's century-old court house and Judge Frank P. Neutze, immediately pronounced the mandatory death sentence.

The trial began Jan. 27. The state introduced testimony to show Mrs. Dolbow and Driscoll carried on a clandestine love affair for months, during which they plotted Dolbow's death.

He was slain the night of Aug. 2, last, in the barnyard of his Mannington township farm. The state contended Driscoll struck the fatal blows with a farm harrow axle, then

# Bad Elimination Makes It Easier To Catch Cold

With the right sort of food and proper exercise, constipation might be rare, but in actual living conditions, how few manage to escape it!

Mr. Clyde Martin, of Ona, Va., recently very aptly wrote that "constipation is the root of a lot of sickness, but if Black-Draught is taken right it will keep down constipation."

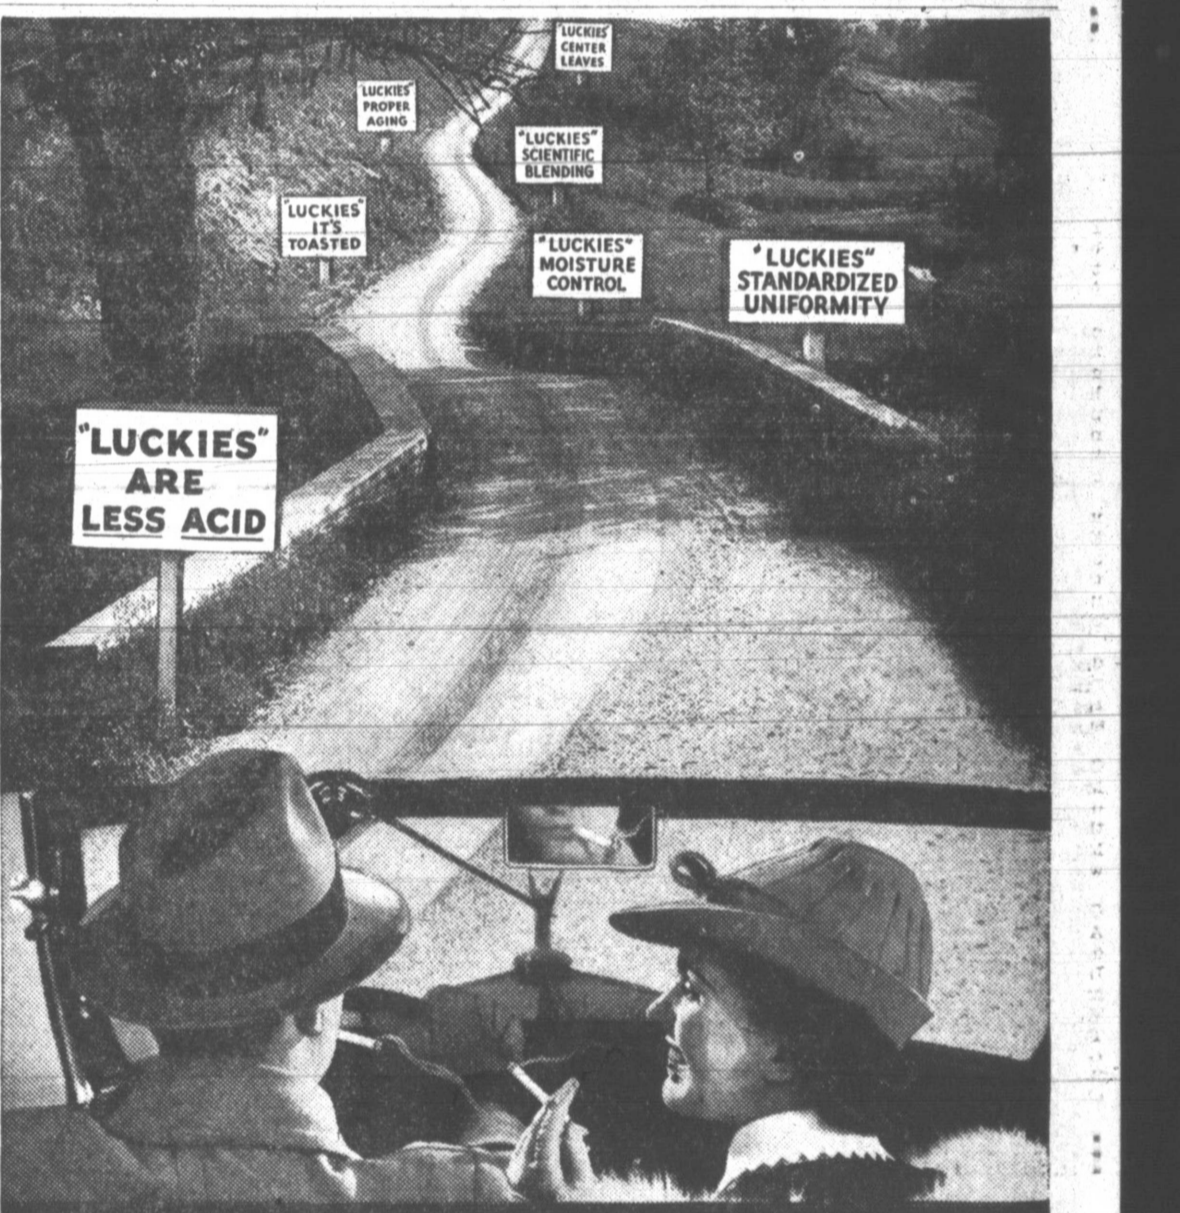

"If I let myself get constipated," he explains, "and my system filled with impure matter, I feel bloated, take cold easily, and feel out of sorts in a lot of ways. I will take about two good doses of Black-Draught. It seems to cleanse my whole system and I feel like doing my work."

# Going to town with Luckies A LIGHT SMOKE of rich, ripe-bodied tobacco

Over a period of years, certain basic advances have been made in the selection and treatment of cigarette tobaccos for Lucky Strike Cigarettes.

They include preliminary analyses of the tobacco selected; use of center leaves; the higher heat treatment of tobacco ("Toasting"); consideration of acid-alkaline balance, with consequent definite improvement in flavor; and controlled uniformity in the finished product.

All these combine to produce a superior cigarette—a modern cigarette, a cigarette made of rich, ripe-bodied tobaccos—A Light Smoke.

Recent chemical tests show that other popular brands have an excess of acidity over Lucky Strike of from 53% to 100%. Excess of Acidity of Other Popular Brands Over Lucky Strike Cigarettes

Demerit System Is Abolished by P. O. Department

WASHINGTON, Feb. 11. (AP)—The post office department said today it planned to wipe off all "demerits" against postal employees and start afresh on a new system to "give the man a break."

COURT RECORD

TRIAL CONTINUES
Testimony was being heard today in the murder trial of R. W. McQuerry, charged with the fatal shooting of E. W. (Dutch) Morse of Panhandle here last March 6.

Gray county commissioners yesterday decided to buy a drive-in Decker, at a cost of about \$500. The meter will be used to weigh trucks suspected of over-loading.

Although F. E. Leech, tax assessor-collector, expects to receive by Friday or Saturday the application forms necessary to obtain drivers' licenses, he is not yet inviting the public to call for the blanks.

DRIVE

passed out slips bearing the recommendations of the committee made in approval to Pampa to work an effort to put Pampa where it belongs on the map of Texas.

The Rev. L. Burney Shell, Presbyterian minister, F. E. Leech and Hugh McKimling, laymen of the local church, left today to attend a layman's meeting for the synod of Texas in Breckenridge tomorrow.

MARKET BRIEFS

Table with market data including Am Can, Am Rad, Am Tel, etc. Columns include stock names and prices.

BUTTER

NEW ORLEANS COTTON

The market reversed its trend in the near positions during the morning and prices worked up to small net advances as March sold at 11.24, and May at 10.82.

Cardenas Will Visit Matamoras

REYNOSA, Tamaulipas, Mexico, Feb. 11. (AP)—Dr. Bernardo Chavez, Mexican consul at McAllen, Texas, announced that President Lazaro Cardenas of Mexico would pass through Reynosa tomorrow afternoon en route to Matamoras.

MISSIONARIES

Ethiopia, said both men were well born in York, Neb. The government received a letter from Mrs. Street saying her husband and the Rev. Mr. Trewin had been held since January 27.

COL. MCGEE ILL

MINERAL WELLS, Feb. 11. (AP)—The condition of Col. Lawrence E. McGee of Austin, seriously ill in a Mineral Wells hospital, was slightly improved today but attendants said it was still very unfavorable.

SALARIES RESTORED

HOUSTON, Feb. 11. (AP)—A 10 per cent salary restoration affecting all of the 2,000 employees of the Houston public school system was provided today in the budget of \$5,167,250 adopted by the school board.

WYOMING LAWYER DIES

CHEYENNE, Wyo., Feb. 11. (AP)—John L. Lacy, former chief justice of Wyoming's territorial supreme court and an attorney for Harry F. Sinclair in the Teapot Dome oil lease case, died here today after a short illness. He was 88.

COXEY IS CANDIDATE

JACKSON, Mich., Feb. 11. (AP)—"Gen." Jacob S. Coxey, who led a march to Washington in 1894, announced today he will enter the republican presidential primary in Ohio. Coxey was named as a presidential candidate by a farmer labor group at a convention in Omaha several months ago. He has been living here since last October.

Eagle Scouts in Antarctica

Each year Boy Scouts everywhere are given opportunities for summer and winter camping, overnight and short-term camps, trail building and mountain climbing.

JOSH LEE

whole-hearted devotion was a good sign. "There was a campus couple down at our school," he said, "who were just as much in love as anyone, but they didn't know it. They were trying to be blasé about it."

COOPER GETS SEAT

WASHINGTON, Feb. 11. (AP)—A house election committee today decided in favor of Rep. John G. Cooper (R-Ohio) in an election contest brought against him by Locke Miller, Cooper's democratic opponent in the 1934 election.

SMOKING CAMELS FOUND TO EASE THE STRAIN AND PROMOTE WELL-BEING

Life gets more complex. The pace grows faster. People live harder. Where do we see the effects? Frequently on digestion, so often overtaxed by the busy whirl! Smoking Camels is or definite aid in promoting good digestion.

And now we come to one of modern life's most gracious privileges—dining at New York, as shown at the right. Like the Mermaid Tavern of Shakespeare's day, Keen's is famous as a gathering place of congenial spirits.

JUNGLE BOUND! "I smoke Camels for digestion's sake," says Frank Buck, animal collector. "Camels for flavor!" he says. "They are rich and mellow."

Jaycees Will Be Responsible for Centennial Fete

The Pampa Junior chamber of commerce will take the responsibility of staging a Panhandle Centennial Celebration this year. The membership decided at its meeting today. At a meeting of a representative group of citizens last week, it was decided that the Jaycees should go ahead with its program rather than form a separate organization.

TEXAN

we are adequately prepared, not only on the west coast, but at the Panama Canal and in Hawaii. The (appropriations) committee is systematically alive to the situation.

WOUNDED BY SHOT

TERRELL, Feb. 11. (AP)—W. H. Cade, about 56, for the last six years local agent of the Texas and Pacific railroad, was found shot in the head at his home here today.

DOES BLADDER WEAKNESS WAKE YOU UP?

Make this 25c test. Remove the cause. Use buchu leaves, juniper oil, etc., to flush out excess acids and impurities which cause irritation that results in restless nights, burning, scanty flow, frequent desire or backache. Ask for little green tablets called Buketa, the bladder lax.
