

Rogers Praised By Price on 'No Tax Hike' Stand

SAN ANTONIO (Sp) —Congressional candidate Bob Price, Monday, congratulated Congressman Walter Rogers on his announced intention to "say no to a tax increase" this session of Congress.

"Just as Mr. Rogers has expressed hope that this Congress will find the courage to say 'no' if the administration asks for a tax increase I assure the voters of the 18th District, if elected, I will not vote for a tax increase next year," the Pampa rancher-businessman stated.

Price said in a statement released here where he is attending the State Republican Convention:

"A tax increase would be unfair and outrageous without the elimination of the waste in the current federal budget. Foreign aid, the poverty program, and a war in Viet Nam are all a staggering burden on the American people.

"It will be hard to convince me that we must have an income tax increase while the government continues to spend money like it grows on trees.

"I believe a tax increase can be avoided and all of the funds necessary to carry on the war in Viet Nam will still be available by cutting domestic spending. This is the only way the

Official Welcome To Be Given New Teachers At Feast

Teachers new to the Pampa School system will be the guests of the Top o' Texans Club, Pampa Classroom Teachers' Association and the P-T-A City Council at a Watermelon Feast beginning at 6:30 p.m. this evening in Central Park.

Inclement weather would necessitate postponement of the annual affair, "but it would not dare rain", said one of the attractive chamber of commerce secretaries.

Probation Given In Cattle Theft

Duward Franklin Downs of Pampa, charged with theft of one head of cattle, belonging to Rueben Baggerman, pleaded guilty in 31st Judicial Court yesterday.

Judge Lewis M. Goodrich directed the defendant to make restitution and placed him on three years' probation.

J. D. Downs, brother of Duward Franklin, also charged in the theft, has not been tried.

value of the dollar can be restored.

"Everyone is aware of the pressures that have been put on members of the President's party to vote as he wishes. Because I will be immune to these arm-twisting tactics the residents of this district can be sure my vote will be against taking more money out of their pockets." Price concluded.

THP Accid Rural

The Texas Department of Transportation is investigating a rural highway accident during the week ending Sept. 18, according to a report by State Highway Commissioner Wilson. His report says the driver of the car was killed. These crash deaths, six in all, are part of an estimated \$149 million loss to the state during the 1965-66 season. The report shows that 79 drivers were killed, 79 injured and an estimated \$79,650 in property damage.

September is the beginning of the highway inspection season. The state highway department is urging drivers to get their cars inspected to eliminate the possibility of an accident. The state highway department is urging drivers to get their cars inspected to eliminate the possibility of an accident.

Connally Revised Licensing

AUSTIN (UPI)—Gov. Connally's revision of state licensing of drivers' licenses is expected to be passed by the legislature in many months.

"We continue to believe that it is absolutely essential that we can continue to have a safe and sound highway system," Connally said. "The revision of the licensing law is a necessary step in the process of improving the safety of our highways."

The governor said that the revision of the licensing law is a necessary step in the process of improving the safety of our highways.

Police Suspect Big R

AYLES (UPI)—Riders of motor scooters are being suspected in a series of five mobile accidents—driving tests possibly being required.

Police Suspect Big R

AYLES (UPI)—Riders of motor scooters are being suspected in a series of five mobile accidents—driving tests possibly being required.

THP Reports Accidents On Rural Roads

The Texas Highway Patrol investigated 28 accidents on rural highways in Gray County during the month of August, according to Sergeant J. W. Wilson, Highway Patrol Supervisor of this area.

These crashes resulted in one death, sixteen persons injured, and an estimated property damage of \$14910.

The rural traffic accident summary for this county during the first eight months of 1966 shows a total of 145 accidents resulting in 4 persons killed, 79 persons injured, and an estimated property damage of \$79,650.

September first marked the beginning of the 1967 motor vehicle inspection period. As in previous years, the period will end on April 15, 1967. Motorists are urged to have their vehicles inspected in the routine visits to garages and thereby eliminate the necessity of having to wait in line at a later date for an inspection sticker.

The Sergeant stated, "With the hard summer driving coming to an end, fall is an excellent time to have vehicles safety checked for the winter months ahead."

Connally Proposes Revised Teen-Age Licensing Rules

AUSTIN (UPI) — Gov. John Connally recently urged a revision of state traffic laws, including the possibility of taking drivers' licenses away from many teen-agers.

"We continue to kill at a record rate on our highways, and it is absolutely unthinkable that we can continue to watch such carnage without taking corrective action," he said.

Connally pointed to statistics showing that persons under 21, while constituting only 12 per cent of all drivers, are responsible for 20 per cent of the accidents.

"It would be unfair to penalize all young drivers for the actions of the irresponsible minority," Connally said. "Accordingly we should consider issuance of some kind of provisional license to drivers under 21, with a means for revoking those of this irresponsible minority."

Perhaps too young? The governor said he is not satisfied that a 14-year-old boy or girl is mature enough to handle a car.

Connally, in a speech before the Texas Association of Defense Counsel, said the response has been overwhelming to his "initial call to arms" three months ago against traffic accidents.

"I am convinced the people of Texas are ready to join completely in our search for solutions," Connally said.

Some Suggestions The governor said he is considering recommending to the next session of legislature, along with other proposals already announced, that:

—Anyone apprehended driving while his license is revoked be given an automatic jail sentence.

—The vehicle inspection law be tightened to provide added traffic safety.

—Riders of motorcycles and motor scooters — which have a fatality rate for riders about five times as high as for automobile occupants involved in accidents — be required to pass a driving test on the vehicle and possibly required to wear protective clothing.

Police Nab Suspect In Big Robbery

AYLESBURY, England (UPI) — Ronald Buster Edwards, described as one of the sharpest brains in the London underworld, was arrested in London Monday in connection with the great train robbery of 1963.

He was brought here later and formally charged at a police station in Aylesbury, close to the scene of the robbery which netted the gang \$7.3 million — the biggest cash haul in history.

Police withheld details of the arrest, but indications were the 34-year old Edwards, in effect, gave himself up.

He had been on the run since Aug. 8, 1963, when a commando-like gang stopped a royal mail train on a Glasgow-to-London run and stole worn banknotes worth 2.6 million pounds sterling.

CLOSED SUNDAYS SO OUR EMPLOYEES MAY ATTEND THE CHURCH OF THEIR CHOICE

'Let Your Light Shine' Theme Used For Installation of WMU Officers

A background of autumn leaves with a table holding eight candles and an open Bible placed in front, formed the setting for the recent installation of officers ceremony of Central Baptist Women's Missionary Union.

Mrs. B. V. Floyd of Bunavista Baptist Church, Borger, served as installing officer, using the theme "Let Your Light Shine." The eight lighted candles represented the WMU officers' duties. Mrs. Hugh Sanders provided musical selections for the ceremony.

Installed as officers were R. C. Brown, president; Mrs. Bill Fulcher, vice president; Mrs. Sam Bateas, corresponding secretary-treasurer; Mrs. Ed Wells, recording secretary; Mrs. Tony Maples, YWA director; Mrs. John P. Adams, G.A. director; Mrs. George Wing, Sunbeam director; Mrs. Jim Johnston, music director; Mrs. Richard James, pianist; Mrs. Travis Taylor, mission study; Mrs. Virgil Holloway, program; Mrs. N. R. Lowe, community missions; Mrs. R. E. Warren Sr., assistant community missions chairman; Mrs. Hal Brown, stewardship; Mrs. Charles Terrell, prayer; Mrs. Ralph Prock, Bible study; Mrs. Kenneth Wyatt, publicity; Mrs. Laven Green, social, and Mrs. E. R. Gower, nominating committee chairman.

Circle chairmen installed included: Mmes. T. O. Upshaw, Nolan Cole, J. H. Garrett, John

Committee Named At Society Meet

Appointed to serve on the nominating committee for Pampa African Violet Society at its recent meeting were Mrs. Norman Walberg, Mrs. Evan Jones and Mrs. Holly Gray.

The group met recently in the home of Mrs. Walberg, north of the city.

Mrs. Dan Glaxner, president, opened the meeting with prayer and presided over the business session.

During the program, Mrs. W. A. Green gave the "Violet Hint for the Month." Mr. R. F. Dirksen presented a talk on "An Aye Vote for Gro-Lux," and Mrs. Holly Gray gave a talk entitled "One in One Hundred Thousand."

Refreshments were served during the social hour from a table centered with an arrangement of African violets.

Attending the meeting were Mmes. C. E. Boswell, W. A. Greene, J. E. Carlson, R. F. Dirksen, Norman Walberg, Lee Moore, Holly Gray and Dan Glaxner, members, and Mrs. Marie Smith and Mrs. Lorene Wilkinson, guests.

The Society will meet next at 7:30 p.m., Oct. 11, in the home of Mrs. J. E. Carlson.

Mrs. Bill Smith Is Birthday Honoree

SKELLYTOWN (Spl) — Mrs. Bill Smith of 1161 Huff Rd. was honored recently with a birthday cookout supper by her parents, Mr. and Mrs. Clifford Coleman at their home in Skellytown.

Attending were Mr. and Mrs. Bill Smith and Steve, Terry, and Julie Linn of Pampa, Mr. and Mrs. Ross Coleman and Cavin of Amarillo, Mr. and Mrs. Clead Steward of White Deer, Mr. and Mrs. Foy Barrett and daughter, Louann, and Mrs. Charley Coleman of Pampa.

Trapped Burglar Released by Girls
 GILLINGHAM, England (UPI)—A "pittiful looking" burglar with one foot stuck in a wash basin, his head in the bath tub and the rest of him caught in a narrow window, was set free by his intended victims.

Police revealed Sunday that Diana and Jean Wakeman-Rose, both nurses, were awakened by a strange noise coming from the bathroom of their flat.

The sisters investigated and found the man helpless and in a ludicrous position. They freed him and showed him the front door. He left "passively," Diana said.

The African nation of Mali has a marriage code which permits a choice between monogamy and polygamy.

It is estimated there are 5-4 million bee colonies in the United States.

Priest Specifies Why He Defected

MOSCOW (UPI)—Former Chicago Priest Harold M. Koch said Saturday he defected to the Soviet Union because President Johnson betrayed the American people by leading them into war and playing the Barry Goldwater role in Viet Nam.

The latest blast by the 34-year old Koch, who left the priesthood in 1963 when his superiors recommended psychiatric treatment, was carried as a "statement to the press" by the official Soviet news agency Tass.

Koch previously had ap-

peared on Moscow television to condemn what he called Johnson's brutal and unjust war in Viet Nam.

Koch, whose defection was announced here Monday, repeated that he left the United States and sought political asylum in the Soviet Union "basically because I totally disagree with the policies of the Johnson administration."

"We have a situation in America where literally the entire American people have voted for peace or at least for nonescalation of the Vietnamese war and the American

Custodial Workshop Slated At Houston

Lowest Prices... Greatest Variety... always at...

Piggly Wiggly

Rambling With Red
RON CROSS

Rambling while wondering what happened to Pampa. The Harvesters did not meet a better football team in Rider but they did meet one that played a decidedly better football game.

When Pampa had a 15-yard personal foul penalty called on them in the second quarter after stopping Rider short on a third and nine situation they were not the same team the rest of the evening.

Demons Best

Pampa has played Dumas twice since 1944, as far back as our records go, and the Demons have most assuredly whipped Pampa both times.

In 1961 the Demons forged a 37-0 victory and in 1962 won again, this time 40-8. The two teams haven't played since '62 and with scores like these you can't blame Pampa.

The Demons' 37-0 victory is the most points ever scored against a Pampa team and also the biggest margin of defeat suffered by a Harvester squad.

Since 1930 Pampa has played 359 games, winning 186, losing 166 and seven have ended in ties.

The Harvesters have scored 6,466 points in that period, from '30 through 1965 and have given up 4,873, this 1 point difference of 1,588.

Pampa tallied 81 points last season but this was not a new low. In 1960 the Harvesters scored only 59 points. The most points scored against a Pampa team in one season was 1961 when they gave up 284 while going 2-8. They were 0-10 in '60.

Punting Good

And to our friend from San Angelo: Pampa lost to San Angelo in 1933 in the state quarterfinals; Pampa won in 1951, 58-6; beat 'em again in 1952, 54-7; got beat 38-34 in 1953 and again in 1954, 41-34.

Thus far in 1966 the Demons have scored only three times, twice against Palo Duro and once last week against Phillips and halfback Tim Galloway has two of them and fullback Doug Cotren the other.

Dumas handles 3-4A teams rather well and they get an especial thrill out of beating Pampa. They managed to do it four times last baseball season.

And you can't help but admire the punting toe of James Matney.

The senior end has booted the ball five times for 181 yards, an average of 36.1 per boot. Save the one that slipped off the side of his foot Friday night for 18 yards and the average would be much higher.

Too Matney kicked an eight-yard extra point against Perryton following a penalty so maybe we can watch a field goal or two this season.

Quarterback Gary Hyatt has now thrown the ball 17 times, connected on seven and had one intercepted for a total of 79 yards.

Burke Successor To Yankees Topping

NEW YORK (UPI)—The New York Yankees, looking up at life from the unfamiliar confines of the cellar, went all the way to the top to begin their long-expected shakeup with the resignation of Daniel R. Topping, the club's chief executive officer for 19 years. Topping also announced the sale of his 10 per cent interest in the Yankees at a meeting of the board Monday, leaving the Columbia Broadcasting System in complete ownership of the one-time Lords of Baseball.

Michael Burke, a World War II Navy hero who once was portrayed in the movies by Gary Cooper, was named to succeed Topping as chairman of New York Yankees Inc. and president of the club.

It marked a sad ending for Topping, who had known only years of glory since he bought into the team in 1945 until last year, when the perennial champions finished sixth in the American League. As Topping leaves for his home in Florida, the Yankees are dead last with 86 losses, their worst record since 1913.

The name most prominently mentioned as new general manager is Lee MacPhail, currently serving as chief adviser to Baseball Commissioner William D. Eckert.

MacPhail once worked with the Yankees and later was responsible for building the Baltimore Orioles into a first-place club.

Topping, Larry MacPhail Lee's afoof and Del Webb bought the Yankees from the estate of Jacob Ruppert for about three million dollars in 1945, with MacPhail selling out his interest to the other two partners in 1947.

CBS reportedly paid \$11.2 million when it purchased 80 per cent of the team's shares in 1964. Webb sold out his remaining 10 per cent to CBS in March, 1965.

Topping, 54, who saw the Yankees win 15 American League pennants and 10 world championships during his reign, listed "personal reasons" for his departure.

"For personal reasons I have decided to divest myself of my financial interests in the Yankees and I am selling my stock to CBS," Topping announced Monday. "My family lives permanently in Florida and I have many other outside activities. I think it is in the best interest of the Yankees as well as for myself to leave at this time."

Shockers, Junior Highs Open Play

Pampa's Shockers try to get on the winning side of things Thursday and Pampa's two Junior Highs try to get their football seasons underway for the second time Thursday.

The Shockers (0-2) with losses to Perryton, 33-0 and Borger, 13-0, host Lubbock Coronado's B squad in a 4 p.m. Thursday affair.

Pampa Junior High ninth goes to Perryton for a 4 p.m. contest while Pampa eighth hosts Perryton at 4 p.m.

Pampa seventh hosts Borger Houston at 4 p.m. Friday in the first game for both teams.

Lee ninth hosts Memphis B at 4 p.m. while Lee eighth goes to Borger to play Austin at 4 p.m. and Lee seventh hosts Austin at 4 p.m. Friday.

Rebels Johnson Leads 3-4A Scoring

By RON CROSS Sports Editor

There is an old familiar face leading 3-4A scoring through two games in the person of Tascosa's quarterback great Monty Johnson.

The splendid senior footballer booted a field goal, scored four times and kicked five conversions Friday night to send the Rebels sailing to their second consecutive victory.

Johnson now has five touchdowns, one field goal and five conversions for a total of 38 points which is well ahead of runners-up Randy Gaiser of Borger and Don Lester of Tascosa who have three touchdowns each for 18 points each.

Third is Don Chaney of Lubbock Coronado with two touchdowns and two conversions for 14 points and Pampa quarterback Gary Hyatt who has two touchdowns for 12 points.

These are the only 3-4A players who have tallied two touchdowns or more through two games.

Several big games are on tap this Friday and Saturday, the

week before the boys start playing conference affairs. Lubbock (1-1) hosts Amarillo (1-1) in a non-conference affair and Borger (1-0-1) plays at Tascosa (2-0) in a non-league game and Caprock (1-1) hosts Palo Duro (0-2) in another non-league affair.

JACK WILLIAMSON top harvester

Monterey has the night off but Coronado (1-1) plays at Littlefield (2-0); Plainview (0-2) hosts Tulia (1-1) and Dumas (2-0) hosts Pampa (1-1) in other encounters.

Pampa coaches chose senior

guard Jack Williamson as Harvester-of-the-Week for his play in Pampa's 20-0 loss to Wichita Falls Rider Friday. Williamson graded out well above 50 per cent on both blocking and on defensive work against the Raiders.

The 17-year-old 190-pounder is a two-year starter and had a shown well in every game.

Ramsey said Pampa has two doubtful starters for the Friday tilt at Dumas in center Glen Lewis, hip pointer and L. D. ed somewhat.

Rowden, swift Harvester half-back who is still bothered by a back injury.

Ted Heiskell suffered a charley horse in the Friday night affair and is expected to be slow somewhat.

SWC Teams Go Back to Work

By United Press International Both victors and losers of Saturday's grand opening foray of teams went through workouts Southwest Conference football Monday.

At Fayetteville, Ark. coach Frank Broyles sent his Razorbacks into the air. They were to get ready for Tulsa's aerial circus this weekend. Last Saturday they foot-stopped over Oklahoma State.

Emphasis was also placed on learning from their mistakes of last week.

Southern Methodist Mustangs basked in a warm glow that did not come entirely from the low 80 degree weather. The workouts were light and players who did not get to take part in last Saturday's win over Illinois played the freshmen.

But there was also some wound-licking. Safety Floyd Burke, who missed all of last

season because of knee injury, was out again, with a knee injury. Halfback Paul Loyd had a mild concussion, halfback Mike Richardson had a hip point bruise and defensive end George Wilmot, an injured knee.

Coach Hayden Fry said Loyd Richardson and Wilmot should be ready for Navy Saturday, but may lose their starting jobs. There was no such tale of woe in Lubbock.

Texas Tech Coach J. T. King said his team came out of Saturday's win over Kansas without injury.

The coach counted the house and said only 10 scattered single reserved seats remained for the Tech-Texas game this Saturday. But he added, between 2,000-3,000 general admission seats were available.

A sellout of 43,000 was expected at Jones Stadium. Baylor, who took last week-

end off after making a winning debut against Syracuse two weekends ago, worked on Colorado plays Monday.

They did not get any movies to watch of their upcoming opponent—Baylor's scouts never got to see Miami beat Colorado last week. Their plane was cancelled.

Darrell Royal, the mentor of the Texas Longhorns, philosophized Monday.

"The amazing thing to me is that we lost by only four points," he said of his team's defeat at the hands of Southern California last Saturday.

He said in one 38 minute 28 second period Southern Cal ran 67 yards to the Longhorns' 17. Royal promoted sophomore tailback Chris Gilbert to the first team. Gilbert gained 103 yards in 14 carries against the Trojans.

Texas Christian coach Abe

Martin allowed how that he thought the University of Nebraska team this year was better than last.

They downed TCU Saturday. Martin made the deduction after viewing film of the game. He also said that he would give highly-touted sophomore Gene Mayes of Garland to offensive left guard. Mayes had been at a linebacker position.

The Aggies had a brief workout in sweatcoats Monday and then got a lecture of their Saturday opponent Tulane.

A problem was to gain endurance.

The Texas A&M squad last Saturday had led Georgia Tech 3-0 at the half. They disintegrated after the trip to the locker room, to a 38-3 fiasco.

Rice spent much of its time working on punts in preparation for their opening game Saturday against Louisiana State.

BASEBALL RESULTS

Johnson Homers Pace Dodgers

By United Press International Don Drysdale is the latest volunteer to record "The Ballad of Sweet Lou."

The nickname "Sweet Lou" is one of the Dodge players have tagged on Lou Johnson, the journeyman outfielder who came to the club last season after Tommy Davis was injured and played a major role in helping Los Angeles win the National League pennant and World Series.

Johnson, whose hustle and enthusiasm epitomizes the Dodger team, has played regularly this season and has produced many game-winning hits, especially during this past week.

Claude Osteen benefitted from two Johnson homers to beat the New York Mets on Sept. 13 and Sandy Koufax was treated to a three-run homer by Johnson as he set down the Pittsburgh Pirates on Sept. 16.

The 33-year-old outfielder got aboard Drysdale's bandwagon Monday night by slamming two more homers and driving in a third run with a single as Los Angeles held on to its one and one-half game lead with a 6-1 victory over the Philadelphia Phillies.

The Pirates upended the San Francisco Giants, 16-1 in 11 innings and the New York Mets beat the Houston Astros 1-0 in 10 innings in the only other NL activity.

The league-leading Baltimore Orioles trimmed the California Angels 11-9 in the only American League game.

Roberto Clemente hit his 26th homer and Bob Bailey followed moments later with a grand slam homer as the Pirates rallied for five runs in the 11th inning to defeat the Giants for the second straight day. The loss dropped San Francisco four games off the pace in the pennant race.

Bob Shaw hurled a four-hitter in winning his 11th game against 13 losses as the Mets beat the Astros for the ninth time this year. New York, held to just one hit through the first nine innings by Chris Zachary, pushed across the game's only run in the 10th on a single by Ed Kranepool, a double by Cleo Jones and a wild pitch by reliever Carroll Sembera.

Frank Robinson, trying to become the first player to win the triple crown since 1956, drove in five runs with a double and his 46th homer as the Orioles moved to within four games of clinching their first AL pennant in 13 years. Robinson's double broke an 8-8 tie in the sixth inning and helped reliever Moe Drabowsky notch his sixth victory. Jack Sanford suffered the loss.

Robinson had two hits in the game to boost his average to .311 and tie him with Minnesota's Tony Oliva for the league lead. He boosted his league-leading RBI total to 112 and his 46 homers, which also leads the league, tied the Baltimore club record set by Jim Gentile in 1961.

Spartans, UCLA One-Two in Rating

NEW YORK (UPI)—Defending national champion Michigan State and high-scoring UCLA, rivals in the Rose Bowl game last Jan. 1, today finished one-two in the first weekly United Press International major college football ratings.

Michigan State, which landed on top of the UPI ratings last year only to have a perfect season marred by the Bruins on New Year's Day, was back in its accustomed No. 1 position after crushing North Carolina State 28-10 Saturday in its opening game.

The mountainous Spartans received 14 first-place votes and 270 points from the 35-man UPI board of coaches to nine and 200 for the runnerup Bruins.

UCLA, the surprise team of 1965 when it captured the Athletic Association of Western Universities title and finished fifth in the ratings, opened its season in overpowering fashion with a 57-14 bludgeoning of hapless Pittsburgh.

One other AAWU school and two of Michigan State's rivals for the Big Ten crown also cracked the top 10. Southern California, minus the sensational Mike Garrett, was third and Michigan and Purdue ranked sixth and seventh, respectively.

USC, whose last-minute defeat to the cross-town Bruins in 1965 cost the Trojans a trip to the Rose Bowl, threw a rugged defense at Texas in its opener and emerged with a 10-6 triumph. The Trojans collected two first place votes and 86 points.

Michigan, a 41-0 winner over Oregon State, received 152 points to 119 for Purdue, which meets Notre Dame in a nationally televised contest Saturday at South Bend, Ind. The Irish are tied for 12th in the ratings with Georgia Tech.

NEW YORK (UPI)—The United Press International major ratings with 1st place vote in brackets.

Area	Points
1. MSU (14) (1-0)	270
2. UCLA (9) (1-0)	200
3. USC (2) (1-0)	186
4. Alabama (5) (0-0)	179
5. Nebraska (1-0)	168
6. Michigan (22) (1-0)	152
7. Purdue (1-0)	119
8. Florida (1-0) (1-0)	104
9. Arkansas (1-0)	95
10. Missouri (1-0)	83
Second 10-11, Baylor 82; 12 (tie), Notre Dame (1) and Georgia Tech 73; 14, SMU (1) 35; 15, Miami (Fla.) 32; 16, LSU 24; 17, Tennessee 15; 18, Ohio State 14; 19, Mississippi 10; 20, Washington 4.

KENNY CARTER
... defense

**Bucks Linemen
Win News Honors**

It could only happen at White Deer and for the first time in two-years the Pampa News' honors two linemen for linemen of the week.

Both White Deer center Kenny Carter and tackle Buddy Thomas played so well against Panhandle coach Sherrill Bottoms figured both boys were deserving.

"If I had to choose between one or the other I couldn't," Bottoms said, adding, "they both played a real good ball-game."

Carter is a 180-pound senior who plays nose guard on defense and center on offense while Thomas, who didn't play last year, his first at White Deer, is a 185-pound tackle and nose guard.

Thomas, the son of White Deer's school superintendent, and Carter graded out 80 per cent on their blocking assignments against Panhandle.

"They both looked good on defense also although Carter plays only part-time on defense," Bottoms said.

How does his team look after two games?

Bottoms is happy, saying, "We've looked pretty good considering the injuries we've had

BUDDY THOMAS
... offense

and we picked another one up Friday night."

End Ronnie Anderson, who scored the Buck's first touchdown Friday night, suffered a twisted knee and will be out for at least three weeks.

There is fear that some work will have to be done on the 146-pound seniors' knee in the hospital.

1965's area leading scorer Randy Elliott, junior Ronnie Sargent, a 180-pound halfback and tackle Harry Riggins, a 170-pound senior, all missed Friday's game but will be back in action this Friday when the Bucks play Sanford-Fritch.

Two of the big area games Friday night will find Wheeler playing their third straight game at home by playing host to Groom.

The Mustangs have won their first two outings while Groom battled to a draw in their opener and won last week for a 1-0-1 mark.

What should be the top game in the area will be played in LeFors where coach Jack York's Pirates (0-2) host upstart McLean (2-0).

The Pirates are favored to replace Groom as the top 5-B team while McLean was expecting a rebuilding year and have apparently already built.

Perryton (1-1) faces a tough Dalhart team at Perryton; White Deer (2-0) plays at Sanford-Fritch (1-1); Canadian (2-0) goes to Follett (1-1) in the other Friday night affairs.

ITALIAN SUB
LONDON (UPI) —Franco Badalassi, an Italian heavyweight, replaces Willie Johnson of the United States in a bout against Johnny Prescott of England at Birmingham Wednesday night.

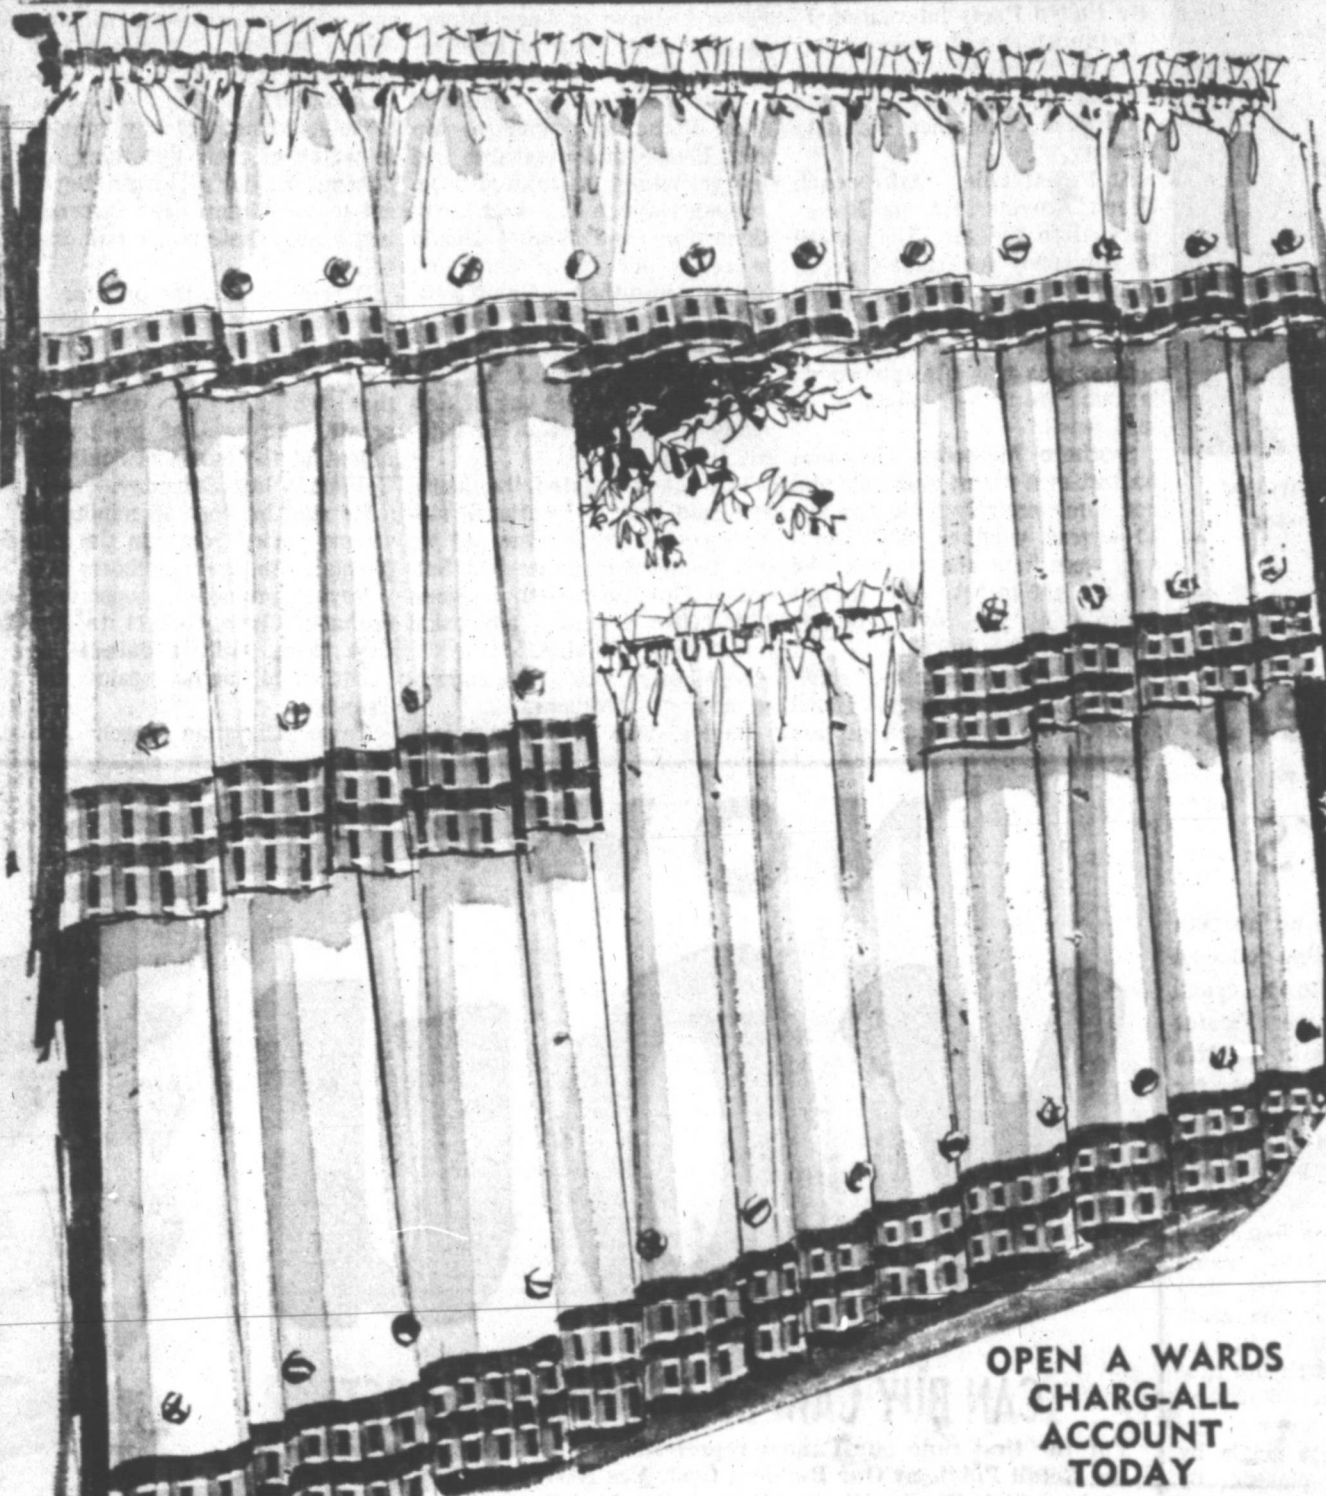

Badalassi drew with American Ray Patterson in his last bout.

Floyd, Cooper Battle Tonight

LONDON (UPI)—Two-time world heavyweight champion Floyd Patterson, with his sights still set on regaining the crown a third time, is a strong 6-4 favorite to defeat British champion Henry Cooper tonight in a bout that could be the "most important" of the Patterson's career.

Patterson, who has become a millionaire through boxing, stands to get another shot at heavyweight champion Cassius Clay if he defeats Cooper and West German's Karl Mildenberger according to matchmakers Hal Conrad and Al Bolan, who are here to watch tonight's fight to arrange a bout between Patterson and Mildenberger.

"We figure this fight is the most important in Patterson's career," Conrad told United Press International. "If he wins, it's Mildenberger."

And if he comes through that we can put him in with Cassius Clay early next year.

"Clay told me after he had beaten Mildenberger in Frankfurt that he would accept Floyd as a challenger if he got past Cooper."

"There's \$500,000 ahead for Foyd if he produces the goods. But it's curtains if he loses," Conrad added.

Patterson and Cooper, both of whom have been savagely beaten by Clay, have definite weaknesses that could at any time change the outcome of the fight. Patterson has a notoriously weak chin.

Cooper is a recognized "bleeder" with tissue-paper eyes that can be cut at the slightest impact.

The Pampa Daily News

A Watchful Newspaper

EVER STRIVING FOR THE TOP O' TEXAS

TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

Laser Is Finger on Earth's 'Pulse'

There seems to be no limits to the potential of the laser, that intense beam of manmade light created in the laboratory only a few years ago.

One possibility that could be an incalculable boon to mankind is to use the laser to predict earthquakes.

For the past two years, physicists from the Boeing Scientific Research Laboratories in Seattle have been successfully measuring movement along earth faults in California, using a laser beam in a specially designed interferometer.

The device works by measuring the difference in phase of a light wave crossing a fault from that of a beam which does not cross it. It can detect movements of the earth of less than a millionth of a centimeter. Even smaller measurements may become possible. Build-up of these infinitesimal strains is thought to precede a major shift of the earth's crust along a fault line.

There are 20,000 miles of major faults around the Pacific Ocean alone. Another zone extends from the West Indies all the way across the Atlantic, the

Mediterranean and Asia to the East Indies.

It was a massive shifting of the earth at a point along this line that took some 3,000 lives in Turkey recently.

Fortunately, such disasters are relatively infrequent. Only about 1,000 out of the 500,000 tremors detected by seismograph stations around the world each year are severe enough to cause damage.

Seismographs, however, record earthquakes only after they happen. A series of laser interferometers along an earthquake belt, the Boeing scientists believe, could continuously probe and chart the system's strains.

There is nothing men can—should—do to prevent Mother Earth's restlessness. Were it not for the constant uplifting of the crust, all land would long ago have been eroded by wind and rain and conquered by the sea.

But the laser now shines as a light of hope that we may eventually be able to predict the time and place of the worst of these convulsions and save uncounted lives in the future.

What Is Right

Why is it that by and large few persons are as excited about race riots as they were a year ago, in spite of the fact that more riots are taking place now?

One reason, in our opinion, is that riots are old news to persons outside the immediate riot area. A human being is just so much juice in his "excitement glands" and, when that is exhausted, he no longer reacts in the same way. When the initial shock wears off, the tendency is to respond less rapidly, but more methodically.

Lack of excitement, therefore, does not — of itself — indicate that the American people have lost their concern over the problem of race violence. We think also it does not indicate the American people have abandoned their concern over the politicians who have encouraged the violence. We do believe it means the response, when it comes will be methodical and somewhat awesome. It is pertinent to inquire, therefore, what is the proper method for dealing with the racial issues. We submit these basic considerations.

First, each person has the same right to control, sell or retain his belongings as every other person.

Second, each person has the right to contract on a voluntary basis with any other person, and this includes the marriage contract.

Third, each person has the right to choose with whom he shall associate, black with black, black with white, or white with white, on a mutually acceptable basis.

Fourth, no person has a right to interfere forcefully with the exercise of any of the foregoing rights, whether he acts singly or whether he acts in a group, whether he acts legally or whether he acts extra-legally.

In short, we suggest the problems of race relations be taken out of the area of prejudice and that they be decided on the basis of what is right; that is to say, or what are the respective rights of very individual, instead of exaggerations, instead of political force, instead of bias based upon nothing more than the hue of an epidermis, instead of pity, instead of anger, let us judge any given racial relationship on the basis of what is due to the individual as a matter of his natural rights.

How can this be done? Well, it's a one-by-one process, each person deciding for himself that is the way it will be with him.

Time to Take Stock

When a nation is up to its ears in debt, and taking some 40 percent of the income of the people for taxes, and running deficits, you would think that the elected and appointed bureaucracy would welcome and encourage taxing private industry that provides revenue for federal, state and local governments. But political proposals restrict the operation of the taxing private enterprise system — the foundation of the economy.

The impression given is that political management can in some manner serve the people better than can private management. The proponents of tax-exempt government competition never point out that such private enterprise system — the policies kill taxing industries that provide jobs. They

never show that under such policies government puts taxpaying enterprise out of business. It is as senseless for government to harass and discourage business by such practices as it would be for managers of industry to promote policies to put their customers out of business. We have spent billions of tax dollars and sacrificed thousands of lives supposedly opposing the spread of totalitarian government philosophy in two world wars and other conflicts. But our politicians go merrily on promoting its inroads in our own land. Is it not reasonable to ask — what is the end?

Freedom dies without resistance to political forces working to restrict free enterprise.

Need Facts, Not Surmise

Who are the Negro rioters — in New York, Los Angeles, Dayton, Ohio, or wherever?

A common belief is that they are mostly youths, mostly jobless and mostly new arrivals from the South who have not yet found a place in the cities of the North.

A report compiled by the California State Bureau of Criminal Identification and Investigation reveals that the facts are quite otherwise — at least for the Watts area riots in Los Angeles.

According to the report, of the 3,927 persons arrested during the week of rioting a year ago,

73 per cent were employed. Only 556 of those arrested were under 18. And 75 per cent of the adults arrested had lived in the county at least five years.

"It's one thing to say the people rioted because they were out of work," said an aide to the state's attorney general, "and another to say that they had a job but were so frustrated that they rioted."

Not until the nation stops saying the first thing and begins believing the second, however, is it likely that progress will be made toward getting at the roots of the real causes of the riots.

CAPITOL EYE

Crowds on RFK Circuit To Gall LBJ

By BRUCE BISSAT
Washington Correspondent

WASHINGTON (NEA) — Inescapably, Sen. Robert F. Kennedy of New York and, to a lesser extent, his brother, Sen. Edward M. (Ted) Kennedy of Massachusetts, will provide the major show in the 1966 election campaigns soon to get under way.

Inescapably, too, this is bound to complicate further the already harassed political life of President Lyndon B. Johnson.

The two Kennedys will, of course, spend considerable time campaigning for others in their own home states. But the biggest part of their energies will be spread across the country.

Among the key States, Bobby is already committed to helping Gov. Edmund G. (Pat) Brown in California, Sen. Paul Douglas in Illinois, U.S. Democratic Senate nominee G. Mennen (Sonny) Williams in Michigan. He has bids from Ohio and Pennsylvania.

GOP Gov. John Reed of Maine will have to weather a Bobby Kennedy invasion in behalf of the Democratic nominee, Kenneth Curtis. Whoever wins Wisconsin's September gubernatorial primary has the senator's promise of one-of-the-scene support. There will be many other such forays, coast to coast.

Ted Kennedy's mid-August appearance in Illinois for Adlai Stevenson III, nominee for state treasurer, is just a mild starter for him. In September he will swing through several western states. His particular commitment right now is to Montana's Sen. Lee Metcalf, who has a tough race against GOP Gov. Tim Babcock.

Indications are that Ted, like Bobby, will lend his political magnetism to Democrats in California, Illinois, Michigan and other populous states. His list should be at least as long as Bobby's.

It is a safe forecast that large and enthusiastic crowds will almost everywhere swarm around the "Kennedy show," and especially that part of it starring Bobby Kennedy. He is "Kennedy" today, the political heir apparent to his late brother, John F. Kennedy. In less than two years, he has built enormously on his already huge heritage. Polls continue to show him leading anybody, Democrat or Republican, in presidential trial heats.

For Lyndon B. Johnson, this has to mean severe embarrassment. The President is going to hit the campaign road himself, as his gun-jumping weekend trip to New York and New England indicates. But even with all the automatic panoply of the presidential entourage (who can match the buff and blue Air Force One?), he is likely to be hard-pressed to equal Bobby Kennedy's crowds.

In 1964 it was an open secret that Johnson exhibited envy of the late John Kennedy by constantly making crowd comparisons in various cities touched by both the 1960 and 1964 Democratic nominees.

To be outmatched by a live Kennedy perhaps traveling the same circuit in the same campaign month may prove almost more than Johnson can bear.

The judgment here is that the President will do his utmost not to have to bear it. That means, for one thing, that he will pick his spots and time his appearances in particular states so that direct comparisons will be difficult, if not impossible.

It is also likely to mean that where comparisons do seem inevitable the presidential managers will go the absolute limit to drum out record crowds and bedeck campaign settings with large, visible proofs of support.

In this age of the curious, any president gets a big response much of the time. But none before LBJ ever had so magnetic a crowd competitor in his own party as Robert F. Kennedy.

If this were Europe in the old days, Johnson long since would have sent Kennedy to be governor of the Virgin Islands. Diligent inquiry suggests that is the one place his is unlikely to go.

HOW TO ADDRESS OUR LAW MAKERS

You may wish to write your senators and representatives in Washington and Austin. Here are their addresses:

Sen. Ralph Yarborough, Senate Bldg., Washington 25, D. C.
Sen. John Tower, Senate Office Bldg., Washington 25, D. C.
(STATE)
Rep. Grainger McVittory, Wheeler Bldg., Grady Hazelwood, Amarillo, Texas.

Sensing The News

By THURMAN
SENSING
Recession and Recovery

Within recent weeks, economists and financial writers have begun to voice deep concern about the economic outlook, saying that a recession is possible if not actually likely. Across the Atlantic, Prime Minister Harold Wilson of England went further. He warned that a world-wide depression, with widespread unemployment, could occur.

At home, President Johnson announced what he termed a broad attack on rising inflation. In a special message to Congress he proposed a 16-month suspension of the 7 percent tax credit for corporate investment in new plants and equipment. He also asked for a similar rollback of the accelerated tax write-off for depreciation of industrial and commercial buildings.

Now, let's look at the situation and at the President's proposed remedy. The outlook is disturbing, for investors clearly are gloomy about the immediate future. A jittery stock market is the result, with major corporate securities suffering heavy losses in value. Meanwhile, the general public is becoming increasingly apprehensive as prices increase for necessary commodities.

If a recession takes place, it will be the most unnecessary recession in history. The American people are hard-working, energetic and progressive in outlook. They supply a tremendous demand for the new goods and services developed by U.S. free enterprise. Young people now in college — where they are acquiring valuable skills for the age of automation — will want new homes, new cars, new appliances. This demand should provide a great deal of prosperity in the years ahead. The educated youth of America form a highly productive segment of our society. Their drive and imagination should further enrich the American way of life.

But this isn't the entire story. The productive groups and forces in American life are not dominant on the political scene. There are, one is sad to say, a counter-productive group and forces. A segment of American voters — and they are highly organized, militant and demanding — is crying out for more federal welfare. This segment of our society wants to be carried along at taxpayer expense, instead of helping support the government.

To be specific, there is a tremendous demand from the slum areas that the federal government spend billions of dollars in reconstructing urban areas where the residents — as a point of fact — have done nothing to abide by reasonable standards of residential behavior. In Chicago, so-called "tenant unions" have been formed. Residents of slum districts are seeking to bind landlords to contracts. But the contracts are one-way affairs. Tenants are unwilling to assume any responsibilities on their part.

In New York City and other great metropolitan centers, the hand-out hungry element in our society is politically powerful. Bloc voting by the aspirants for handouts causes Big Govern-

7 Mysterious Tunnels
Towards Guantanamo
Base Observed; Purpose,
Extent of Excavations
Still Not Fully
Ascertained

WASHINGTON — Soviet and Cuban engineers are digging tunnels toward the heavily fortified U.S. naval base at Guantanamo Bay.

Under the personal direction of dictator Fidel Castro, a number of military units are boring a network of tunnels in the direction of the powerful U.S. base.

By various means, U.S. authorities have ascertained there are seven large craters in a semi-circle some three miles from Guantanamo. At least three of these craters are known to be entrances to tunnels being excavated in the direction of the base.

The length of these tunnels is still not definitely known, although it is certain they have not yet reached the outer lines of the U.S. defense perimeter.

Intelligence has learned that the mysterious excavations have been underway since early this year, and have been considerably accelerated in the past several months.

Efforts to photograph the round-the-clock digging have been only partially successful because of the limited aerial reconnaissance the Johnson administration permits over Cuba. Low-level flights over Cuban territory are barred.

Reconnaissance planes flying

ment to bow to their wishes. Money is lavished on welfare instead of being saved or devoted to constructive investment.

Here we come to Mr. Johnson's so-called "remedy" for inflation. His miracle cure is to make it more difficult for corporations to invest in new plants and equipment. Yet it is precisely this investment that creates new jobs, and adds to the importance of old job opportunities. Mr. Johnson's proposals thus further undermine the confidence of business in government's intentions. The first thing to be curtailed by the Great Society is industry's chance to grow and expand.

Why didn't Mr. Johnson propose instead that welfare spending be cut back and all manner of wasteful government handout programs be curtailed? The answer is simple: It is that Mr. Johnson is thinking about the votes of the handout-seekers. He appeases them while he jeopardizes the economic security of the country. This kind of appeasement is what could bring on a recession or worse in this country. It is a prime example of counter-productive political action.

If recession is not to hit the United States, it is imperative that more congressmen be elected who will speak for the productive groups and forces in American life. It is interesting that the fall congressional election is coming at a time when the economy is approaching a crisis. The election could be the last opportunity the responsible citizens of America have to restore the voice of the productive in the councils of government.

The Doctor Says:

By DR. WAYNE BRANDSTADT
Electronics Has Important
Place in Medicine, Too
By WAYNE G. BRANDSTADT,
M.D.

Newspaper Enterprise Assn. Modern electronic devices are being used in every field including human physiology, the chemistry of living organisms and the diagnosis and treatment of disease.

One of the first of these, the electrocardiograph, has been with us for over 50 years and has become a common and indispensable item of medical equipment. Earlier models have been improved and simplified and the number of different angles from which the electric impulses within the heart may be studied has been greatly extended from the original three leads.

Valuable as this device is, it has its limitations. It is employed chiefly to detect disorders of cardiac rhythm such as skipped beats, abnormally fast pulse and various types of heart-block, the changes that occur when the left side of the heart is greatly enlarged and those that occur after an obstruction in a coronary artery has damaged the heart muscle. Unfortunately it cannot predict an impending coronary attack.

The electroencephalograph or brain wave machine was developed over 35 years ago and has its greatest field of usefulness in detecting epilepsy in persons even when they are not having an attack. It may also give you a doctor a clue concerning brain damage caused by concussion, brain tumor or oxygen deficiency.

The short wave diathermy machine applies heat to painful muscles and joints to depths beneath the skin which a hot water bottle or electric pad cannot penetrate.

The electric cautery is a device used by surgeons to destroy diseased tissues that are hard to remove with a knife. For example, the probing end, which is not much wider than a needle, can be introduced through a cystoscope into the bladder. A current brings to a red-heat — only the tip of the probe. Without having to cut into the bladder, yet under direct vision through the scope, the cautery can be used to remove a tumor.

The endoradiosonde or radio pill is an ingenious device about the size of a pea. It is used to study the digestive tract. The electric cautery is a device used by surgeons to destroy diseased tissues that are hard to remove with a knife. Affairs Latin American Subcommittee, has asked the Defense Department for a report on Castro's tunneling near Guantanamo. Selden plans to visit the base for an on-the-spot inspection of its defenses. . . . A gradual Iron Curtain buildup is again underway in Cuba, with Soviet and other bloc forces increased from "an estimated 6,000 to more than 10,000 in the past six months." These troops and technicians are arriving in fairly open groups of 50 to 100 on Communist ships. . . . The recent testimony of Jose Manuel Santamaria, 29, who fled Cuba after serving five years in the Isle of Pines prison, was given to the Internal Security Subcommittee, headed by Senator Thomas Dodd, D-Conn., despite the protests of Sen. J. William Fulbright, D-Ark., chairman of the Foreign Relations Committee. Fulbright delayed the hearing for a week by contending the Dodd subcommittee was delving in "matters pertaining to foreign affairs." Santamaria furnished the subcommittee with a list of Americans in prison in Cuba.

The moon is between its new phase and first quarter.

The morning stars are Saturn, Jupiter, Mars and Venus.

The evening star is Saturn.

American scholar Herbert Putnam was born on this day in 1861.

Hunt for Truth

BY H. L. HUNT
VOTING FOR A
MYTH OR A NAME

I granted my first interview ever to the fine and popular columnist reporter Frank X. Tolbert. In trying to express my pride in our office force, I awkwardly told him they were "gentlefolks". This designation intrigued Tolbert.

A New Englander recently went to court to have his name changed to Kennedy which caused Tolbert to column, "While back, Mr. H. L. Hunt, who sometimes asks me to do free research chores for him, was inquiring about a Texan who legally changed his name for political purposes. . . . In the Spring of 1934 He appeared in a Dallas court and had his name changed legally to "George B. Terrell."

"George W. Terrell . . . one of Texas' three congressmen at large. . . had a Dallas district court issue an order which stated that. . . (the new-name aspirant) had no legal claim to the name, George Terrell. . . already on the ballot as George B. Terrell, though, and he missed by . . . 38,536 votes of going into a runoff with the long-time state treasurer, Charlie Lockhart."

The proof of the popularity of the Terrell name was the great vote amassed in the face of continuous state-wide unfavorable publicity regarding the attempt to filch a more popular name. If he then used the name of Terrell, he was subject to contempt of court and Mr. Nameless had to go to court to recover his previous name.

The new Mr. Kennedy would do well to get "advice-and-consent" from Bobby and Ted before he announces for office.

The Almanac

By United Press International
Today is Tuesday, Sept. 20, the 263rd day of 1966 with 102 days to follow.

The moon is between its new phase and first quarter.

The morning stars are Saturn, Jupiter, Mars and Venus.

The evening star is Saturn.

American scholar Herbert Putnam was born on this day in 1861.

Safety Sam Says:
In Texas any minor traffic violation may be legally convicted of traffic violations in a regular court and fined up to \$100.
