

# Medicare Questions And Answers

**EDITOR'S NOTE**—The following first in a series of questions and answers on the Medicare Program were prepared by the Pampa Social Security office and are published by the Pampa News as a public service.

**Q**—What does the hospital insurance under medicare pay for?  
**A**—Up to 90 days of hospital care, in each spell of illness, with the payment of a deductible of \$40 for a stay up to 60 days and \$10 a day toward the cost of any days past 60 days that you remain in the hospital.

**Q**—How many days of hospital care are covered and how much will I have to pay?  
**A**—Up to 90 days of hospital care, in each spell of illness, with the payment of a deductible of \$40 for a stay up to 60 days and \$10 a day toward the cost of any days past 60 days that you remain in the hospital.

**Q**—What is a "spell of illness"?  
**A**—A "spell of illness" begins when you enter the hospital and ends after you have been out of the hospital (or out of a nursing home) for 60 consecutive days.

**Q**—What hospital services and care are covered?  
**A**—Services and care ordinarily furnished for persons admitted as inpatients to general hospitals. Covered services include:

- a. Semi-private room and board (2 to 4 beds) Payment is made for a private room only where there is medical justification, e.g. where the patient needed to be isolated. Otherwise the patient is responsible for the difference between the semi-private and private room rates.
- b. Regular nursing service but not private duty nursing.
- c. Services of residents and interns under professionally approved teaching programs.
- d. Drugs and biologicals furnished in the hospital.
- e. Blood transfusions, except for the first three pints (unless replaced by a donor).
- f. Services of technicians and

other non-physicians in the fields of radiology, pathology, anesthesiology and psychiatrics—but not the services of physicians.

**Q**—Does medicare cover the costs of a stay in a psychiatric or tuberculosis hospital?  
**A**—Yes, it covers care in a psychiatric or tuberculosis hospital for up to 90 days in each spell of illness with the same \$40 deductible and payment of \$10 a day for each day past 60 days of hospitalization. There is, however, a lifetime maximum of 190 days of covered care in a psychiatric hospital for care in psychiatric or tuberculosis hospitals to be covered, it must include active treatment to cure or improve the condition.

**Q**—Under what conditions are the hospital outpatient diagnostic services provided?  
**A**—Suppose your doctor wants you to have certain X-rays, laboratory, or other tests made to help him make his diagnosis. He could send you to the hospital to have these tests as an outpatient not admitted to stay over night. You would pay a deductible of \$20 toward the cost of a series of tests made in a 20-day period and a 20 percent of any cost above \$20. (The \$20 deductible you paid for these outpatient diagnostic services could count toward your \$50 deductible under your medical insurance.)

**Wall Street In Review**  
NEW YORK (UPI)—Charles McGorrick of E. F. Hutton & Co. Inc. says it seems to him that President Johnson is using psychology to gain an end and if "that doesn't work the big stick will come next."  
McGorrick says that if the economy cannot be cooled off with persuasion, it will be chilled with an income tax increase just as soon as the elections are out of the way.

Thomson & McKinnon says it appears that perhaps any administration action rather than the substance of the action was enough to clarify investors' conceptions of just where the economy stood.  
Leslie M. Pollack of Reynolds & Co. says that although he may be premature, he continues to feel that a significant bottom has been formed around the 760 level in the Dow Jones industrial average and a move through the 800 level would presage the beginning of an important intermediate rally.

## Television in Review

By RICK DU BROW  
United Press International HOLLYWOOD (UPI)—Along about the middle of every television premiere week, one gets a desperate yearning for reality. And there, as always, to help us out, is that haven of sanity—the CBS-TV prime time news hour. It has premieres too, and Tuesday night's seasonal debut was a charming, relaxing tour and chat with former President Eisenhower about his early years at Abilene, Kan., and West Point.  
Simplicity and directness are virtues that television generally overlooks because fellows who make a lot of money have to do a lot of fussing—or think they do—yet these old-fashioned qualities were perfectly used in the production of "Young Mr. Eisenhower." Producer Burton Benjamin, known for his "Twentieth Century" series, simply had reporter Harry Reasoner talk with Ike at the Eisenhower family home in Abilene, and at the U.S. Military Academy, and there was direct, simple photography at both places, and the tone could not have been better approached. Mr. Benjamin is not a sufferer.  
The former President recalled of his mother that "she believed her Bible implicitly," and was the happiest woman he ever knew. She was an ardent pacifist, he said. Of finances, he noted that his father never earned more than \$150 a month.  
Talking of his boyhood and early manhood, he repeatedly stressed his love of baseball, along with his great interest in football and boxing. Revisiting the family home along with his brother, Dr. Milton Eisenhower, president of Johns Hopkins University, it was recalled how the four boys slept in one room. One of them had to get up at 4:30 in the morning to build a fire to heat up the house.  
The beauty of the setting of West Point was captured briefly in the photography, as Ike and Reasoner toured first in a jeep and then on foot, thing touching about seeing a in which the ex-general was saluted by a cadet—and automatically returned it—that was gem-like. There is some.  
There was one little sequence, bit of the essence of a man's life in an instinctive reflex.  
Mr. Eisenhower also chatted with two cadets in his old room, shook hands with them, tried to put them at ease and told them he hoped he hadn't interfered with possible plans they might have had.  
The two greatest men he has ever known, Ike said, were Sir Winston Churchill and Gen. George Marshall. Asked whether he thought the concept of duty-honor-country was outmoded now in a more complex time, he said no: If we lose this, we lose our moorings. Or, as a brilliant British journalist once suggested, America discards its innocence only at its own peril.  
Tuesday night's premieres also included two new NBC-TV entertainment series. One, "The Girl From U.N.C.L.E.," is of course an offshoot of "The Man From U.N.C.L.E."—with a bit of "The Perils of Pauline" thrown in—and stars Stefanie Powers and Noel Harrison, son of Rex.

In 1958, the U.S. Supreme Court rejected an appeal from School, later the scene of racial Little Rock, Ark., to delay violence.

## 'Old' Miss America Still Plans Several Appearances

OVERLAND PARK, Kan. (UPI)—Miss Deborah Irene Bryant, Kansas' first Miss America, is ready to start her junior year in college Wednesday at the University of Kansas.

Although her reign as Miss America officially ended last Saturday night at Atlantic City, Debbie admitted Monday her role as a national beauty queen is not over. She has planned several appearances in Kansas and neighboring states during the school year "because they'll have a hard time getting the new Miss America, so they got the old one."  
Debbie will be a counselor at Gertrude-Sellards-Pearson Residence Hall on the K.U. campus where she will shoulder the responsibility of 40 freshmen girls.  
She said she did not plan to join a sorority.  
"Normally I would be a senior but a year as Miss America has put me a class behind," she said.  
Debbie said she didn't get a chance to "really know" her successor, Jane Jayroe of Lawrence, Okla., but added it was nice the title could stay in the Midwest.

### Cold Front May Bring Showers

A cold front that moved into the Texas Panhandle today is expected to bring cloudy skies and scattered rain showers for Pampa and vicinity through Thursday with a probability of 40 per cent for moisture.

Cooler temperatures will result, with a high near 70 predicted for Thursday. Overnight low should be in the mid 50s. Winds are to be northeasterly 10 to 20 miles an hour. Outlook for Friday calls for mostly cloudy skies with cooler temperatures.

The front was expected to set off showers over the eastern portion of the High Plains. The showers will spread into North Central and Northeast Texas tonight and Thursday.

Forecasters did not expect the front to lower Texas temperatures drastically. They set the mass of cold air in the Dakotas, would mostly swing east of Texas.

Thunderstorms were reported early today in the Gainesville and Nocona areas of North Central Texas. These showers apparently were dissipating but more showers were expected to build up later in the eastern part of the High Plains ahead of the cold front.

Early fog covered parts of the Panhandle. Low overnight temperature reports ranged from 57 at Dalhart to 80 at Laredo.

South Texas—and particularly the coastal area—was expected to get showers today.

A funnel cloud was sighted two miles north of Robstown Tuesday. It retreated into a cloud after six minutes without ever touching ground.

Corpus Christi recorded 23 inch of rain Tuesday and Brownsville, 01 inch, Kingsville reported 71 inch.

The high temperature in the state Tuesday was 81 degrees at Galveston and Laredo.

### United Fund Board Members To Meet

Board members of the Pampa United Fund will hold a short meeting at 5 p.m. Thursday in Lovett Memorial Library.

A. A. Schuneman, campaign chairman, also announced today there will be two short information meetings for persons who will contact employees in their own place of work.

These meetings have been scheduled for 10 a.m. Friday at the Boy Scout office, 815 N. Sumner, and at 4 p.m. next Monday in the First National Bank.

### Three-Car Pileup On Hobart Causes Heavy Damages

A pileup of cars in the 1400 block N. Hobart shortly before 5 p.m. yesterday resulted in heavy damage to all three autos.

Thomas Clyde Henry, 928 S. Nelson, Ralph D. Abbott, 104 N. Sumner and Richard James Roach, 1334 Charles, were involved in the three-car collision that occurred when the first car stopped to allow another vehicle to turn in front of him; the other two cars ran into the rear of the car in front, according to a police report.

Approximate damages were estimated at \$150 to the Henry car; \$225 to the Abbott car and \$275 to the Roach car.

A car properly parked at the curb and owned by Eddie L. Poinac, 1377 N. Starkweather, received \$300 estimated damages, when it was hit by a car driven by John McFall, 2200 N. Russell, police reported.

The driver of the McFall car was blinded by the lights of an oncoming car, police said.

The accident occurred shortly after 7:30 p.m. yesterday in the 500 block of W. 22nd. The McFall car had an estimated damage of \$250.

Minor damage was incurred to cars driven by Herbert Finis Trimble, 533 N. Hazel, and Elizabeth Ann-Gage, 1016 Gordon, when they collided at the intersection of Brown and Huff shortly after 1:30 p.m. Tuesday, according to a police report.

Both drivers received citations: Miss Gage for making an improper turn and Trimble for failure to control speed to avoid an accident.

### Stock Market Quotations

T. W. Watson	46 1/2
U.S. Steel	44 1/2
Westinghouse	42 1/2
W.P.	42 1/2

### Federal Control Rapped by Price

AMARILLO — Congressional candidate Bob Price listed the return of many functions, being taken over by the Federal government, to the local governments as a prime goal if elected Nov. 8.

"This will benefit the citizen in two ways," Price told Pampa handle area county judges and commissioners meeting yesterday at the Herring Hotel here.

"First by reducing taxes because of the greater efficiency of the local governments," Price stated.

Price gave as an example the fact that for every \$3.40 the taxpayer pays at the local level he receives \$3 worth of services.

At the same time, because of the inefficiency of the Federal government it must collect \$6 in taxes to provide \$3 worth of services.

The second way a return of more functions to the local government will benefit the citizen, Price stated, is by decreasing the Federal budget deficit which will slow down inflation and increase the value of the dollar.

With the Federal government taking 37 cents of every dollar earned by the American citizen in taxes this does not leave much for the local government to work with," Price said.

### Sears' Officials Tour Local Plant

Edward H. Helstedt of Chicago, Ill., national merchandising manager for Sears-Roebuck and Co., and Jim Ball of Dallas, southwestern territorial buyer for Sears, were in Pampa today inspecting the 21,600 square foot expansion program in progress of the Marie Foundations, 800 E. Kingsmill.

Sears-Roebuck is the exclusive buyer of garments manufactured by Marie Foundations. Accompanying the Sears' representatives on a tour of the plant and its facilities this morning were city chamber of commerce and industrial foundation officials.

### Elections (Continued From Page 1)

the GOP nominee, in November.

New Hampshire: Brig. Gen. (Retired) Harrison Thyng, who advocates all out bombing of North Viet Nam, won the Republican nomination for U.S. Senate over five other candidates. Ex-Gov. Hugh Gregg won the GOP gubernatorial nomination. Sen. Thomas J. McIntyre and Gov. John W. King both were nominated on the Democratic ticket without opposition.

New Jersey: While Wilentz was winning in the Democratic primary, Republican Sen. Clifford P. Case was renominated without opposition.

### Mainly About People

The News in this column is not a man, but a woman. Mrs. Lois Morris, 1237 Mary Ellen, returned home yesterday to find a brand-new, uncrated electric lawnmower had been left in her garage.

She placed a call to the city police department, who, upon investigation, found that a local hardware store had made a mistake in delivery.

Now, thanks to Mrs. Morris' immediate honesty, the rightful owners at 1300 Mary Ellen will have a new mower to start the season off next year.

Both cars were heavily damaged. The Brewer car sustained approximately \$125 damages while the Cantrell car had \$400 damages.

Recent visitors in the home of Mr. and Mrs. Myron Marx Jr., 2166 Mary Ellen, included Mrs. H. B. Justice, Mrs. John Cochran and daughter, Shirley, of Artesia, N.M.; and Mr. and Mrs. J. K. Triplehorn of Tulsa, Okla.

Chicken and dumplings, Thursday, Town House Cafe.

Small puppies to give away. Call MO 4-7125.

Top 'O' Texas Chapter 1064, OES, will hold a stated meeting at 7:30 p.m. tomorrow in Masonic Hall, on W. Kentucky.

Last chance to get your Kiwanis birthday calendar. If you haven't already been contacted call MO 4-3861.

Garage sale, 1825 Grape, Thursday and Friday, electric range, toys and clothes.

Rummage sale, 612 S. Cuyler, Thursday, 7 a.m.

### Father and Son Both in Mishaps Within an Hour

Conversation around the Brewer dinner table last night must have been quite interesting. Both father and son were involved in separate accidents occurring within an hour of each other.

The bright spot must have been, however, that neither received citations.

Shortly before 1 p.m. yesterday, a car driver by Bobby Ray Brewer, 16, 333 N. Davis, and another driven by Clifford W. Richter, 312 N. Zimmers, were in collision in the 1300 block of Christine, according to a police report.

Richter was cited by city police for following too closely. Damages of approximately \$25 was incurred by the Brewer car and \$75 by the Richter car.

At 2 p.m. yesterday, a car driven by George O. Franklin Brewer, 333 N. Davis, and an auto driven by Grace Cooper Cantrell, 1613 Duncan, were in collision at the intersection of N. Starkweather and Kingsmill, police said.

Mrs. Cantrell was cited by police for disregarding a stop sign.

### Draft

(Continued From Page 1)

598 married men with dependents (3-A), 886 veterans (4-A), 21 fulltime ministers (4-D), 4, 153 over the eligible, draftable age (5-A) and 362 who are not qualified for the draft (4-F).

The local board meets every third Wednesday of the month at 1:30 p.m. in the basement of the post office.

### Domosthenes Would Have Loved Pampa

Somewhere Domosthenes, that great Greek orator and seeker of an honest man, must be smiling to himself.

But the Honest One this time is not a man, but a woman.

Mrs. Lois Morris, 1237 Mary Ellen, returned home yesterday to find a brand-new, uncrated electric lawnmower had been left in her garage.

She placed a call to the city police department, who, upon investigation, found that a local hardware store had made a mistake in delivery.

Now, thanks to Mrs. Morris' immediate honesty, the rightful owners at 1300 Mary Ellen will have a new mower to start the season off next year.

### Civic Auditorium Advisory Group To Meet Friday

First meeting of the M. K. Brown Memorial Auditorium advisory committee has been called for 10 a.m. Friday in the Chamber of Commerce conference room in the Hughes Bldg.

E. L. Green Jr., chairman, today urged all members of the group to attend the initial meeting.

Arthur Teed, president of the M. K. Brown Foundation, and other board members will attend the Friday session to report latest developments of the civic auditorium program and to inform advisory group members what is expected of the committee.

### Pampa Student Listed On Dean's Honor Roll

A dean's honor roll for the summer session at Eastern New Mexico University at Portales lists Van—Bob Ragsdale of Pampa with a 3.5 academic average for the semester.

Ragsdale is a junior at F.M. Ragsdale is a junior at E.M. N.U.

### Miller Schedules Formal Campaign Kickoff Tomorrow

AMARILLO — Jee Miller, Democratic candidate for Congress, announced today the formal opening of Miller for Congress headquarters at 602 Polk St. here from 7 to 10 p.m., Thursday.

"I want all our friends in Amarillo and throughout the district to plan on attending," Miller said. "We will have refreshments and a lot of fine entertainment including one of the finest brass bands in the area and an outstanding barbershop quartette."

Billed as the formal kick-off of his campaign, Miller plans to deliver his first major policy address.

Also in conjunction with the formal opening there will be a meeting of Miller for Congress campaign chairmen from the entire district.

Miller, who seeks the congressional post to be vacated by Walter Rogers of Pampa, is former district attorney of Potter and Armstrong Counties.

Pampans attending the headquarters opening will include Mr. and Mrs. Wiley Reynolds, Mr. and Mrs. Buster Carter, Mr. and Mrs. J. C. Osburn Jr., Mrs. Margaret Guidry and Mrs. Mary Simpson. Carter and Reynolds are co-chairmen of Miller's Gray County campaign.

### Bond Set For DWI

Odis E. Gist, 528 Doucette, was arraigned in county court yesterday on a charge of driving while intoxicated.

Bond was set at \$500.

Gist was stopped by city police shortly before 7 p.m. Monday, when observed driving erratically in the 700 block of W. Foster.

### Radar In Effect

The traffic radar unit will be in effect starting tomorrow, according to Chief of Police Jim Conner.

Conner said it will be used on the day and night shift.

**Former Pampan Hurt In Fall**

Gary Steger, former Pampan, is reported to be in a hospital in Trinidad, Colo., where he is recuperating from injuries sustained when he was thrown from a horse.

According to the report he is in Room 220, St. Raphael Hospital, Trinidad.

Steger's leg was broken in two places and he has possible hip injuries.

Young Steger was reported to be vacationing in Colorado when the accident occurred.

He is the son of Mr. and Mrs. Bill Steger, former Pampans, who are now making their home in Iowa Park.

58TH  
YEAR

## Dear Abby.... 'Wife Trouble' Is Caused by Snoring

DEAR ABBY: I am a plain ordinary guy. I like golf and poker with the boys once in a while, read mystery stories and my favorite TV shows are the shoot-'em-up westerns. I tell you this just to give you an idea of what kind of person I am. My wife likes the social scene. She doesn't know any more about high class music than I do, but she gets tickets for operas, concerts, and the symphony, and I have to take her so she can show off her clothes.

Last night we went to a concert, and I fell asleep during the second half. I snored once, and she kicked me awake. I heard about it all last night and this morning. I told her to take someone who enjoys that stuff and let me stay home. She says a woman should be escorted by her husband. How can I get her to let me skip it?

DEAR PLAIN: Sorry, no help from here. You can't reason with a woman who thinks Chopin is Chinese food but goes to concerts to show off her clothes. Your crime was snoring, not snoozing. So go and stay awake or put a silencer on the schnoz.

DEAR ABBY: My daughter is 18, was graduated from high school with honors, and is a clean, pretty, church-going girl. She just got a good job with a large company which employs a lot of young people. The company had an outing and she wanted to go, but her father said no.

My husband is very strict, and doesn't allow her to date. He thinks boys are all out for the worst. Maybe his mind is a little twisted, but Abby, I can't give our daughter permission to go out when her father says no. I don't want to fight with him as he has a terrible temper. I trust my daughter and feel sorry for her. How can I make my husband understand that he is wrong?

TROUBLED MOTHER  
DEAR MOTHER: Your husband is more than "wrong"—he is sick! Ask your doctor or clergyman to speak to him because if he doesn't change his ways and take on a healthier attitude where his daughter is concerned, she will move out of the house. And I wouldn't blame her.

DEAR ABBY: When I extended an invitation for an 8 o'clock dinner at my home to a couple we know and like, she said, "We can't come unless we bring the children." I said "I am sorry, but this party is for grown-ups. I'll have the children another time when we plan a cook-out." She became very angry and said, "Well, if our children are not welcome, don't count on us!" Then she slammed the telephone down on my ear.

Abby, I do not like children at grown-up parties, and hers are particularly ill-mannered at ages 4, 7, and 9. My husband thinks I was wrong for not making her children welcome. I would like your opinion.

IN THE DOGHOUSE  
DEAR IN: I vote with you!

CONFIDENTIAL TO "P.D.Q." IN CAIRO, ILLINOIS: A blood test is required in your state, but there is no waiting period. The girl must be 18 and the boy 21 to marry without parental consent. Better check this out with your local authorities. Laws change.

## Reading Program To Be Discussed At Houston P-TA

Mrs. Jerry Gaut, recently appointed elementary consultant for the Pampa Public Schools, will discuss the schools' reading program at the first meeting of Sam Houston Elementary School P-TA.

The meeting will be held Thursday evening, at seven o'clock in the school auditorium.

Having worked with reading in Sam Houston last year, Mrs. Gaut will bring first-hand experience and knowledge to her discussion of the basal and reading improvement programs that will be of particular interest to parents.

Sam Houston P-TA members are urged to attend this important discussion and to visit with the teacher in their classrooms after the program.

## 'Low Calorie Foods' Demonstration Given At HD Club Meeting

"Preparation of Low Calorie Foods" was the demonstration given by Mrs. Mildred Prince and Mrs. John Stevens at the recent meeting of Worthwhile Home Demonstration Club.

Dishes prepared and served later to the group included two meat dishes, two vegetables and a variety of desserts, some prepared with the use of a blender.

Members attending the meeting, held in Southwestern Public Service Reddy Room were Mrs. O. G. Smith, Pearl Ferguson, W. G. Kinzer, Roy Tinsley and N. L. Welsch.

The club will meet next at 2 p.m. Friday in the home of Mrs. Lester Reynolds, 420 Crest St.

## Amarillo Regent Speaks to Local D.A.R.

LUNCHEON SPEAKER — Mrs. E. S. Brainard of Amarillo, right, is shown registering at the D.A.R. luncheon held in Black Gold Restaurant. Mrs. Henry Merrick, center, registrar, is secretary of the local chapter. Mrs. A. D. Hills, left, regent of the chapter, looks on. Mrs. Brainard, regent of Amarillo's Ester McCrory Chapter who has been endorsed as a candidate for state historian, spoke at the luncheon of Las Pampas D.A.R. Chapter.

Mrs. E. S. Brainard of Amarillo was the guest speaker at a luncheon recently in Black Gold Restaurant for members and guests of Las Pampas D.A.R. Chapter. Mrs. Brainard, regent of Ester McCrory Chapter of Amarillo has been endorsed as a candidate for state historian. She is presently state chairman of American Heritage. She has served as personal page to two president generals, vice president general and recording secretary general at Continental Congresses and to the state regent of the Texas Society DAR at State Conferences.

She is listed in "Who's who of American Women," fourth and fifth editions, "Dictionary in International Biography" and will be listed in the tenth edition of "Who's Who in the South and South West."

"What the Daughters Do," was the subject of Mrs. Brainard's talk. She said, "The National Society of the Daughters of the

American Revolution was founded on Oct. 11, 1890, to perpetuate the memory and spirit of the men and women who achieved American Independence; to carry out the injunction of Washington in his farewell address to the American people: to promote, as an object of primary importance, institutions of American freedom, to foster true patriotism and love of Country, and to aid in the securing for mankind all the blessings of liberty."

"The DAR has an active membership of almost 200,000 in chapters in the United States, Canal Zone, England, France, Mexico, and Puerto Rico.

Their property, which is located at 1776 D Street, N. W. Washington D. C., has three buildings occupying an entire city block in the most beautiful section of the nation's capital. It is the largest group of build-

ings in the world owned exclusively by women. Memorial Continental Hall, the original building, houses the DAR Genealogical Library and 28 period State Rooms. The Administration Building houses the offices of the national officers, a fine Museum Gallery and the Americana Collection is in the Archives room on the second floor.

"Constitution Hall, the third building, contains the largest auditorium in the District of Columbia. It was built to house the Continental Congress which meets each year during the week of the anniversary of the Battle of Lexington on April 19. During the concert season, Constitution Hall is used as Washington's chief and largest cultural center.

Mrs. Brainard mentioned the American Heritage Committee which aids and encourages the preservation of our rich American heritage in the field of art, crafts, drama, literature and music.

She said "Aid to American Indians is co-ordinated by the American Indians Committee. Money for scholarships and clothing is given to Bacone Indian College at Muskogee, Okla. and St. Mary's School for Indian Girls, Springfield, S.D.

"Two schools in the South depend entirely upon DAR funds for maintenance, Kate Duncan Smith in Alabama and Tamassee in South Carolina. The Kate Duncan Smith School is located in Grant, in Marshall County, Ala., on Gunter Mountain. It is a day school, primary through high school. Tamassee School is located at Tamassee, S. C. Co.

## Gardening News

By THELMA BRAY

When driving around town to see the pretty yards, it is quite evident that this is geranium and rose time. No doubt there are many attractive gardens behind fences but some places with attractive flower beds visible from the street include the home at 3501 Duncan St., very striking with its red petunias in front and a grouping of the chartreuse yellow shrub named Vicary Golden Privet on the south side. At 2307 Duncan St. the R. E. Darseys have combined alyssum and caladium attractively. In the next block of Duncan St. at 2227 the owners here have created a beautiful over-all picture using the Vicary Golden Privet along the foundation of the house with miniature orange marigolds as an edging plant to perfectly complement the gray house with its yellow shutters.

Moving over to 2544 Christine the Bob McCoy's have one of the most beautiful white roses to be seen in an attractive rose bed edged with various colors of verbenas. In the next block at 2429 Christine can be seen beautiful pink geraniums bordering a rose bed.

At the Grundy Morrison home, 2101 Christine, the pink rose China Doll, and white alyssum are used on either side of the curved sidewalk to make a pleasant pathway.

Just a simple bed of House Leak is very pretty at 2010 Christine St. This is an easy plant to use in the garden; just break off a stalk and stick it in the ground. By the next year a nice round clump will have developed. Using masses of any one plant, such as with the House Leak at the above noted home, can generally be more effective than several different plants together, but most gardeners can't resist the temptation to plant a little of everything.

One of the first golden cottonwood trees for this fall can be seen in the back yard at 1910

## Rev. Vanderpool To Be P-TA Speaker

Rev. Harry Vanderpool, pastor of First Methodist Church, will be the speaker at the first meeting of the Stephen F. Austin P-TA, Thursday at 7:30 p.m.

Rev. Vanderpool's topic will be "Accepting Responsibilities Is Our Heritage." This will be in conjunction with the year's theme which is "Increasing Educational Opportunities."

Rev. Vanderpool has been pastor of First Methodist Church for three years. He is a graduate of Southwestern University and received his B.D. at Perkins School, a branch of SMU. He and Mrs. Vanderpool have twin sons who are juniors in high school. The foreign exchange student from Thailand is living in their home this year. Rev. Vanderpool is a member of Kiwanis and president of the Band Booster Club.

Girl Scout Troop I will present the colors and lead in the pledge to the flag. The spiritual thought will be in the form of a song by Jim Manley.

Mrs. John Spearman, president, will preside over a short business meeting preceding the program. Other new officers for the year are Mrs. Paul R.

and is boarding school. Scholarships are available to deserving students through DAR Chapter and State funds.

All members were urged to observe Constitution week Sept. 17-23 by displaying the flag each day.

Among the members present were Mrs. Vernon Hobbs, George Hrdlicka, John Skelly, John Lantz, H. L. Miller, John McKerney, Harold Gregory, Geraldine Shultz, Henry Merrick, Katie Vincent, Doyle Osborne, George Friauf and A. D. Hills, regent, and Misses Norma Lantz and Ruth Huff.

Guests besides the speaker were Mrs. Claire Roane and Mrs. James Hudson of Amarillo. Miss Carolyn Stephenson of Groom, Mrs. Jerry Torvie and Mrs. W. D. Waters of Pampa.

The next regular meeting will be at 12:30 p.m., Oct. 1, in Jackson's Cafeteria.

Howard, vice president; Mrs. Bob Price, secretary; Mrs. Delmar Watkins, treasurer; Mrs. John McCausland, historian; Mrs. Gene Hall, parliamentarian, and City Council representatives; Mrs. Don Lane and Mrs. John Lee Bell.

A nursery will be provided for small children and there will be a film for children of school age.

THE NATIONAL REPORT ON WHAT'S HAPPENING

**DON'T MISS OUT ON THE JOB HUNT:** Because of kooky clothes—Millions of you will be looking for jobs this fall. . . . new job, a part-time or full-time. One of the chief things that people who do hiring notice is how you look. Put your best foot forward. . . . either girls or men. And GIRLS, starting with the crown of your head. Hair—not too long. . . . go easy on the makeup—spare your future boss that sirenlike heavy eyeshadow, fluttering false eyelashes, sick-white lipstick. Dress or skirts—Should be business-like. . . . not too short (not too long) or too tight. . . .

**BAREFOOT IN THE CITY:** An end of the summer survey shows, shoelessness continued to increase—bare feet walked right in the middle of towns and the same goes for sweaters. Don't come clanking in with pounds of jewelry. . . . or flaunting textured stockings or tights. Much of the same goes for MEN—wear socks, reasonably conservative ones. . . . avoid tight hipster pants. . . . and, anyway, wear a jacket over them and wear a tie. Since your dress to impress employers that you're businesslike. . . . when you go on that job interview.

out things clearly, your horn works. When you use a bus, wait at a stop near a light and where other people are waiting. No matter where you are, don't go out of your way to attract attention, don't encourage strangers—either by the way you act or dress.

**WILL LYNDY'S BEAU HIT BIG-TIME TV?** "Class of '67", the Setp 10, one-hour, variety show special, was beamed on the airwaves for two reasons—to showcase George Hamilton, Lynda Johnson's actor escort, and to present television's picture of what's happening in the college world today. If this new format, built around a collegiate musical, pulled a big audience, it foreshadows a new television trend—away from the expiring rock 'n' roll musicals to more sophisticated fare. . . . and it'll win a regular spot for young adult viewers on the 1967 net.

**COLLEGE, YES—MARRIAGE, NO:** Does going to college influence your getting married—and vice versa? A great deal—the figures show—for men, and even more for girls. . . . Today, a quarter of all students graduating from college are married. . . . but four out of five of them are men. . . . because married coeds tend to drop their courses or only attend part time. And, though more high school grooms than brides go on to college, marriage means the end of higher education for many of them. Among high school girls the most frequent age for marriage is 18. . . . among college graduates it's 22. So—like it or not—chances are that going to college will keep a girl an "old maid" for four more years.

**PLAY IT SAFE:** About personal safety—Too many unexpected and ugly things have been happening on the streets, not to be careful these darker fall and winter nights. . . . especially—but not only—if you are a girl. First and Foremost rule always: whether you are walking or driving in a car, stick to well-lit streets (statistics show light balks criminal attacks). When you park, keep your car locked. . . . before you get in again, check that no one is hiding in the back seat. After getting in, lock the doors again and roll the windows up. . . . stick to this—don't unroll or open them at traffic lights. Check, before driving at night, that your car is O.K.—that it won't stall, that your lights pick

around summer resorts and near beaches. . . . some young adults dispensed with shoes during supermarket shopping. . . . But a new barefoot bomb dropped at the close of the summer when mid-teen girls showed up in the midtown streets and Grand Central railroad station—"barefoot"—in New York City. YOUTH BEAT verified this—groups of girls carrying their shoes. . . . looking rebellious but not too comfortable on dirty, hot pavements. Maybe it's a plot of hosiery manufacturers to wear out girls' stockings faster!

**FLOODS HIT IRAN**  
TEHRAN, Iran (UPI)—At least 42 persons have been killed in a series of flash floods sweeping northern Iran, reports reaching here said today. Thirty villages were reported to have been destroyed. The stricken area is just west of the Caspian Sea about 25 miles south of the border with the Soviet Union.

**HIT BY LIGHTNING**  
PERTH, Australia (UPI)—A Trans-Australian 727 jetliner carrying 184 passengers was struck by lightning Tuesday night as it came in for a landing here. There were no injuries, but a 12-inch-long burn was left on the plane's nose and officials decided to ground the airliner for repairs. The plane was en route here from Melbourne.

(Daily News Staff Photo)

**AUXILIARY**—Highland Hospital General Hospital Auxiliary are completing plans for a luncheon at 12 noon Monday in the Starlight Room of the Coronado Inn. Mrs. Homer Johnson, auxiliary director, left, and Mrs. E. M. Keller Jr., president, go over a few of the last minute details.

## Auxiliary To Entertain With Lunch

To acquaint the women of the community with areas where they may be of service as members of Highland General Hospital Auxiliary, a luncheon is being planned for 12 noon Monday in the Starlight Room of the Coronado Inn.

Prospective members will be guests of the auxiliary for luncheon, Mrs. E. M. Keller, president, said. Key people, who are associated with the auxiliary in its function as a non-profit service organization will be special guests. Among these are Mrs. H. T. Wilkins of Amarillo, who assisted with the organization of Northwest Texas Hospital Auxiliary, Amarillo and the local auxiliary; Bill Robertson, Hospital administrator; the Rev. C. B. Bridges, chairman of the hospital's chaplaincy program; Miss Vernell Meaders, director of nurses.

Other special guests will be Mayor Jim Naton, E. O. Wedgeworth, manager of the Pampa Chamber of Commerce; Dr. Royce Laycock, chief of the Highland hospital staff; Don Conley, chairman of the hospital board; Mrs. Lorene Locke, city hostess; Wes Langham, assistant hospital administrator; Mr. and Mrs. George Friant, designer of the auxiliary's charter. Mrs. Kenneth Royce is program chairman. Reservations for the luncheon may be phoned to Mrs. Travis Lively Sr., MO 4-2463 or MO 9-9809.

## Cemetery's Refusal To Bury Negro Violates Civil Rights

LANSING, Mich. (UPI)—The Michigan Court of Appeals ruled Tuesday that a cemetery violated the civil rights law when it refused burial of a Negro.

The court upheld a lower court ruling that the rights of a Negro cemetery plot owner were denied when a Flint, Mich., cemetery association refused to let him bury the body of another Negro in the plot.

The man, J. Merrill Spencer, knew when he bought the burial plot that his contract with the Flint Memorial Park Association banned burial of non-whites.

But the court dismissed arguments by the association that Spencer was free to choose a burial place "among his own kind."

"When the law recognizes the philosophy represented by 'his own kind,' we are only a step away from adopting the racist philosophy which World War II was fought to eliminate," wrote Judge Stewart E. Newblatt of the Genesee County Circuit Court.

Chief Appeals Judge T. John Leitch, upholding Newblatt's ruling, cited U.S. Supreme Court rulings that courts cannot enforce private contracts that deny equal protection on the laws under the 14th amendment.

"In a sense, it stems highly grotesque to spend such time and legal efforts in considering the rights of dead soulless bodies when we have not as a society yet secured full rights for the living," Newblatt said.

"The gas incinerator was first developed in 1909. Average temperature for the state of Texas is 67 degrees."

## IBM Computer Will Take Over Control Of Traffic Lights In San Jose, Calif.

SAN JOSE, Calif. (UPI)—An IBM computer will soon take over control of stop lights in San Jose.

City officials decided upon the step after a three-year experimental program on a three-mile stretch of a main traffic artery. The computer reduced the number of stops 17 per cent and the waiting time at stops 14 per cent.

For the 35,000 autos that use the street each business day, this meant the elimination of some 50,000 stops and a time saving to drivers of 416 man hours.

Officials arrived at a \$264,000 annual savings figure for motorists, after calculating the cost of stopping and waiting for a red light.

Information is fed to the computer about the speed, volume and density of traffic by electrical sensors buried beneath the street. Within seconds, the computer applies the most efficient sequence of switches for the traffic lights.

**PIPELINE SABOTAGED**  
TEL AVIV, Israel (UPI)—A military water pipeline was sabotaged close to Israel—Jordan border Tuesday. Israel protested the incident to the United Nations Mixed Armistice Commission. Israeli investigators said they found the footsteps of three saboteurs leading from the break in the pipeline about six miles east of Arad to the Jordan-Israeli armistice line in the Hebron Mountains.

In 1759, the British defeated the French on the Plains of Abraham overlooking the city of Quebec.

 Miss Earlette Alexander, White Deer.

**Astrological Forecast**

By CARROLL RIGHTER

**FOR THURSDAY, SEPT. 15**  
**GENERAL TENDENCIES:** You certainly are likely to have poor judgment today and tonight so don't try to cooperate so hard and get along with those who seem to be hesitant in coordinating their efforts with yours, since they can be more aware than you of the intricate negotiations involved in personal or world affairs in order to reach right conclusions.  
**ARIES (Mar. 21 to Apr. 19):** Although you now understand both your position and that of partners, it is best you wait until tomorrow before making big deals. Stop being controversial with others. Affability gets better results.  
**Taurus (Apr. 20 to May 20):** Take a little inventory of what you possess and see where you have what others want. Make additions, etc. Get rid of whatever is obsolete, torn, co-workers can be very cooperative in this.  
**GEMINI (May 21 to June 21):** This is a good day to plan with good friends what should be done in the way of entertainment in the near future. Do some work on that special hobby that you have. Do not neglect important work, paying bills, etc.  
**SCORPIO (Oct. 23 to Nov. 21):** You need much valuable information to carry through successfully in business or personal matters, so keep busy and acquire it. Clear up that much-annoying mystery that has somewhat dangerous ramifications. Have faith.  
**SAGITTARIUS (Nov. 22 to Dec. 21):** Be loyal to that good pal who is getting raked over the coals by others. Show that you are a fair and understanding person. Avoid social affairs that could prove to be very disappointing.  
**CAPRICORN (Dec. 22 to Jan. 20):** Doing something that will impress upon others that you are an A-1 citizen can be very helpful in the future. Be sure to meet all expectations. Be very careful to get that important bill paid, or you get in Dutch.  
**AQUARIUS (Jan. 21 to Feb. 19):** You are unable to go on with that plan for advancement if you do not make better plans, use wiser, more efficient systems. Get improved mechanisms, expand thoughts. Clear up some affair that has been bothering you.  
**PISCES (Feb. 20 to Mar. 20):** Think over how you can rid yourself of some foolish entanglement that is a thorn on the side of your loved one. Vision and thoughtfulness can make the future much brighter. Eliminate possibility of future problems.  
**IF YOUR CHILD IS BORN TODAY:** . . . he, or she, will have such a remarkable charm all his, or her, own that could bring riches to your progeny but there is very little desire to use the fine angle that makes the personality pure magic. Spiritual training is necessary early to bring out the very sweet disposition in this unusually fine nature. Seek extra guidance for your son/daughter, as well—the field of entertainment is best.

**Dunlap's SEPTEMBER SPECTACULAR**

 • Harvest Grain Tan

Walk miles . . . Here are shoes built for walking. Comfort plus smart styling. Sizes 5 to 10 in AA and B width.

### Bowling Breaks By Gil

GIL BURGUND

Thank heaven most of the leagues are in full swing and it is a little easier to find something to write about.

The week's outstanding bowler was Max Hickey, renowned for his golfing ability, and who hadn't bowled in three years. Starting league his first game was a 231 and his series was 624.

Practice, practice, practice I always say, but what do I say now?

The Gals too, Jerrie Hulsey setting a 180 average, Mary Ray 176, Rosa Lee Hendricks 169 and on and on. Nancy Skinner started with 184, ended with 126, Wylene Patrick had 191, then 118 and Marilyn Wright set things straight by starting with 108 and ending with 169.

Chet Davis didn't know it was possible to have so many splits but learned it could happen. Just ask him how it feels to have seven out of eight frames split. Fred Brook almost decided to quit bowling after his first night because he had a big 200 and he figured that would be all for the season.

Charles Duenkel took time off to see just what he could do after a 15-year layoff and believe it or not he did pretty well. He claimed someone swiped a new ball and bag long ago and he just quit bowling.

Hats off to Camerine Hoyler, Penny Pinley, Rosa Warminski and a fine bunch of girls who averted a near disaster by coming up with a whole bunch of teams in a week's time. Co-operation really helps.

Ina Hicks told Wilbur Hapeman that since she kept score for his team all summer if they won she deserved the arms off the trophy figure. You should have seen Wilbur's bright red face when I presented him with a beautiful trophy with the arms broken off.

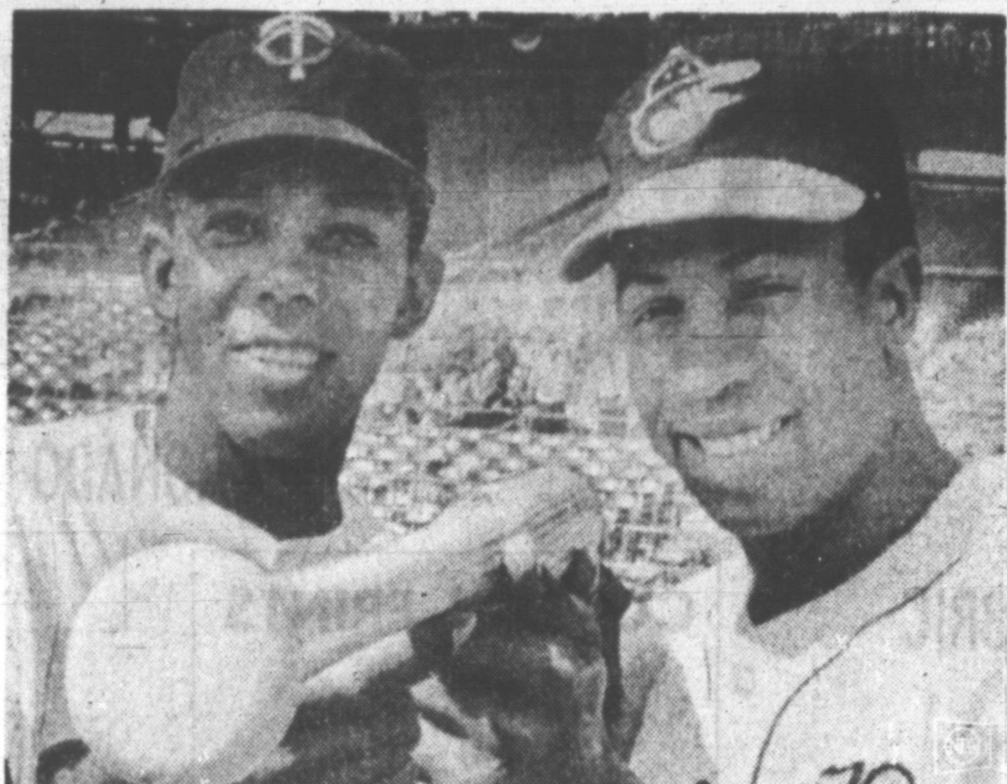

Betty Mounce improved her delivery almost a hundred percent this summer and is going to make a real classy left hander.

Also, in the Juniors, Warren Wilson picked the 2-7-9 and Frankie La Rue the 5-7. Linda Chase had the thrill of a life time, Saturday, she started with a 90 game and ended with a 193, the highest ever for her.

Stanley Cable has the distinction of being the season's first King of the Hill in the Hi school league. His 512 series just barely nudged out Kerry Parsley.

In the Bantams, pint sized Kathy Crotts, had high game for the girls and she grew two inches taller right away. Larry Ziebarth copped both hi game and series while Mary Thornton had hi series for girls.

Back with the grown ups Juanita Bell had a reverse climber 102-101-100. Jack Mosley took the spotlight on the Moonlighters but someone else got the credit. Better luck next time, Jack.

TONY OLIVA, left, of the Minnesota Twins has been the American League batting champion for two years in a row and he'd like to make it three. Baltimore's Frank Robinson has other ideas. The two are running neck and neck for the batting title with Robinson having a chance to win the triple crown—the batting, runs batted in and home run championships.

### AMERICAN LEAGUE ROUNDUP

## Battle for Second in AL

By United Press International

The Detroit Tigers, who made the battle for first place rather dull, are creating a lot of excitement for runner-up honors.

The Tigers never took advantage of an opening or a lapse this season by the Baltimore Orioles, who have been running away from their American League opponents since the All-Star break and now lead the circuit by a comfortable 9½ games.

While the Orioles have monopolized the top spot, the Tigers moved into second place June 19 and held that spot until Minnesota finally dislodged them last Sunday.

The Tigers, who kept the race for second closer than the battle for first by never holding more than a three-game edge over the third-place club, returned to their familiar perch as No. 2 by shading the Twins 6-5 Tuesday night.

Perryton journeys to Woodward, Okla. in hopes of picking up victory No. 1 for 1966 while No. 2 ranked White Deer shoots for their second straight victory by hosting Panhandle.

Wheeler, another class A power with Furgerson.

by a half-game while fourth-place Chicago lies five games behind the Tigers.

Detroit moved back into second the hard way, beating the A.L.'s top pitcher, Jim Kaat, who was seeking his 24th victory. Instead, he suffered his 10th setback while the Twins dropped their first game after five straight triumphs.

Elsewhere, Kansas City nipped Cleveland 3-1 in 15 innings. Boston walloped the White Sox 10-1. Washington edged New York 3-2 and California at Baltimore was rained out.

Willie Horton slammed a three-run homer and Bill Freehan connected with the bases empty for the Tigers. Al Kaline drove in the winning run eighth following singles by Jake Wood and Norm Cash. Mickey Loich, limiting Minnesota to six hits, was lifted in the ninth after giving up a two-run homer to Zoilo Versalles.

Roger Repoz homered with Danny Cater aboard in the 15th to send the A's to their fifth

consecutive victory. Repoz also knocked in Kansas City's other run by scoring Ed Charles from third on a ground out. Jack Aker hurled three innings of one-hit ball to record his run.

George Thomas and George Scott rifled two-run singles during Boston's five-run rally in the sixth inning. Scott also drove in a pair of runs with a double in the eighth. Rico Petrocelli and Joe Foy each collected three hits to pace a 15-hit Boston attack on three Chicago hurlers. Jim Lonborg yielded six hits for his 11th triumph in 18 decisions.

Paul Casanova came home on Bob Saverne's two-run homer — his fifth — and scored on an error by Horace Clarke in the fifth for the Senators. Phil Ortega limited the Yankees to six hits — half of them by Clarke — in boosting his record to 11-12. Fritz Peterson held Washington to four hits in six innings but lost his 11th game against as many triumphs.

### NATIONAL LEAGUE ROUNDUP

## LA, Giants' Bucs All Win

By United Press International

Lou Johnson talks a pretty good game — but these days he's playing an even better one.

In the midst of the tight National League pennant struggle when most players make cautious statements, the Los Angeles Dodgers' leftfielder is boasting, "we're going to win the pennant. I've been saying it for a long time."

Meanwhile, the Dodgers' ever-cautious manager Walter Alton will only say, "the team that gets a game in front at the wire will win it."

That's about as silly as saying "the team that scores the most runs wins the game." Elementary, Walter.

But Johnson seems to know what he's talking about because of his own playing. Johnson continued his September surge with two homers Tuesday night to lead the Dodgers to an 8-3 victory over the New York Mets. The victory kept the Dodgers 1½ games ahead of Pittsburgh and 2½ ahead of San Francisco, who were both victorious.

Johnson, who sparked the Dodgers to the world championship after being called up from the minors last year to replace Tommy Davis, who broke his ankle May 1, has been a key figure in the Dodgers' September drive.

The Dodgers have played 13 games in September and won 11 of them including the last six in a row. Johnson has played in 12 of those games and has hit .350 in them after going through a mid-summer slump when his average tailed off into the .250s.

Johnson's play is still keeping Tommy Davis on the bench most of the time even though Davis' ankle is healed and the

Dodgers are counting on him to keep going down the stretch.

Elsewhere in the National League, Pittsburgh defeated Houston, 9-3; San Francisco whipped Philadelphia, 7-2; St. Louis edged Cincinnati, 3-2 and Atlanta beat Chicago, 10-2.

Johnson's first homer tied the game in the fourth 2-2 and then he slugged a three-run homer off Jack Hamilton in the fifth to climax a five-run rally. "I was looking for a slider but Hamilton threw me a fast ball and I tagged it," Johnson said.

Claude Osteen went six innings to gain his 16th victory against 11 losses. Bob Miller finished up for the Dodgers. Bob Friend got the loss.

Pittsburgh, which had lost five of its last six, finally got its hitting attack going again as the Pirates collected 16 hits to down Houston. Gene Alley collected four of the hits to boost his average to .303 and give the Pirates six .300 hits.

In contrast, the entire American League has only three.

Willie Stargell hit his 30th homer and Donn Clendenon his 22nd as the Pirates battered four pitchers, including loser Dave Giusti (13-13). Tommie Sisk went 7-1-3 innings to gain the victory.

The Pirates were nursing a 3-2 lead until the seventh when they scored five runs. Stargell's three-run homer highlighted that inning.

San Francisco's Juan Marichal collected his 22nd victory while pitching his 22nd complete game as the Giants downed the Phils, knocking the Phils eight games back and dealing their hopes of sneaking into the race a severe blow.

Leading 2-1, the Giants wrapped it up in the sixth when Tito Fuentes hit a bases-loaded double to score two runs and knock out loser Larry Jackson. Willie McCovey added his 29th homer in the eighth. Marichal pitched a seven-hitter as he struck out five and walked just one batter.

Hank Aaron hit his 38th and 39th homers and Rico Carty and Felipe Alou added one each to take the Brave rout of the Cubs. Carty's homer was his 14th and Alou's his 29th. All the Brave homers came in the first two innings off loser Ken Holtzman. Ken Johnson was touched for 10 hits but went all the way to get the victory.

Curt Flood hit a two-run double in the eighth to give St. Louis its triumph over Cincinnati. Deron Johnson's run-scoring double in the fourth and his 24th homer in the seventh gave Cincinnati its two runs. Larry Jaster went eight innings to gain the victory while Ted Davidson suffered the loss.

**Shockers Host Borger Thursday**

Pampa's Shockers try to get on the winning track at 4 p.m. Thursday when they host Borger's Bullpups at Harvester Field.

Coach Ed Letnick's grid-ders were squelched, 33-0 Saturday in their opener at Perryton.

# Harvesters Face 'Do Everything' WF Rider Friday

By RON CROSS  
Sports Editor

"They can throw, they can run and they'll be as tough as they were last year"

Speaking was Pampa Harvester coach Eural Ramsey. He was speaking about Wichita Falls Rider, the Harvester's Friday night opponent.

"They (Rider) have a good sound defense, as witnessed by their 6-0 win over Wichita Falls Hirschi Saturday and they can move the ball," the coach stated.

Clanton, who doesn't even start. Clanton picked up 52 yards in nine carries while starting tailback Tom Valenta, a 185-pound senior gained 83 yards in 15 rushes, tops of the game.

Valenta scored the game's only touchdown on a 31-yard scamper and connected on four of 13 throws for 50 yards.

Rider doesn't pass much, only when they have to and concentrates more on the running game.

Besides Clanton and Valenta they have wing-back Don Dudley, a 172-pound senior and a starter last year and Troy Dunlap, a 194-pound senior back from 1965 at fullback.

Dudley gained 21 yards in eight carries while Dunlap trudded 34 lengths in 10 possessions. The Blocking back is 196-pound junior Larry Sims.

From end to end Rider has five seniors in the line up in Jerry Gossett, a 155-pounder at left end and Lewis Brooks, a starter last year, who is a 180-pound end.

Tackles are Darel Snyder, 180-pound senior and Ricky Collier, 190-pound senior while the guards are David Anderson, 170-pound junior and Charles Avery, 163-pound senior. The center is 170-pound junior Dick Harris.

Valenta's favorite target Saturday was Brooks and Dudley.

The Harvesters, gunning for their second straight victory, went over the Rider offensive plays Monday and Tuesday and spent considerable time working on pass defense.

The game will be played in Midwestern University Stadium at 7:30 p.m.

Senior Garq Hyatt was picked by coaches as the Harvester of the week.

Clanton, who doesn't even start. Clanton picked up 52 yards in nine carries while starting tailback Tom Valenta, a 185-pound senior gained 83 yards in 15 rushes, tops of the game.

Valenta scored the game's only touchdown on a 31-yard scamper and connected on four of 13 throws for 50 yards.

### Ortiz, Ramos Sign for Bout

MEXICO CITY (UPI) — Carlos Ortiz of Puerto Rico will fight "Sugar" Ramos, former world featherweight champ, in Mexico City Oct. 23.

The formal announcement was made Tuesday by Mexico City promoter Pablo Ochoa. Ochoa refused to say how big Ortiz's purse will be for the title bout, but authoritative boxing sources said earlier it was in the neighborhood of \$55,000.

Ochoa also announced that promising Mexican heavyweight Manuel "Pulgarcito" Ramos (no relation) will be on the same card, but did not announce his opponent. It is widely believed that Ramos will take on Canada's George Chuvalo.

Los Angeles matchmaker George Parnassus said last week that heavyweight champ Cassius Clay had agreed to meet Manuel Ramos in Mexico City, if the promoters put up \$200,000.

Local sportswriters scoffed at the idea, as Ramos is still a novice in the heavyweight ranks. But Ochoa said he sent Clay an offer to attend the Oct. 23 fight, all expenses paid, to see Ramos in action. Clay will fight Cleveland Williams in Houston Nov. 11.

Ramos, Mexican heavyweight champion by virtue of being practically the only heavyweight in the country, won his last two fights by early round knockouts, flooring Wayne Heath on Oklahoma City and Dave Centi of Eugene, Ore.

Sugar Ramos, a Cuban by nationality, has been fighting out of Mexico for several years. He lost the featherweight crown to Mexico's Vicente Soidavidar, Davey Moore died of injuries.

## UCLA, Huskers Are Favorites

NEW YORK (UPI) — UCLA's Rose Bowl champion team are heavy favorites against Pittsburgh as the college football "war" explodes in full-scale Saturday.

UCLA's victim in the Pasadena spectacular last Jan. 1, Michigan State, along with Army, Arkansas and Nebraska are also two-touchdown-plus favorites over their opening opponents.

The UCLAs' hosting Pitt will go with the strong arm of quarterback Gary Beban and a fine field of backs, are a 20-point pick over the Panthers.

Duffy Daugherty's Michigan State Spartans are picked by 16 points over North Carolina State.

Nebraska, one of the top contenders in the Big eight, is a 13-point favorite over Texas Christian.

In the nationally televised game, Texas is a slim three-point choice over visiting Southern California. In another top contest, Arkansas is a heavy 17-point choice over Oklahoma State.

The cadets of West Point are expected to have little trouble with Kansas State and are a 17-point choice. The Naval Academy makes its season debut with Boston College, and have a one-touchdown edge in that game.

In other major games Penn

State is predicted over Maryland by six, Michigan 10 points over Oregon State; Iowa State and Wisconsin are a toss-up, Florida by six over Northwestern. North Carolina by two points over Kentucky. Missouri a touchdown over Minnesota. Georgia Tech over Texas A&M by 12 points. Georgia by three over Mississippi State, and Washington State over California by six.

A day after the collegians open their season, the pros crack helmets and only two games are apparent even-matches.

## Lefors Tackle Who Loves Football Is Lineman of Week

By A Staff Writer

Lefors tackle Mase Furgerson likes football and although Pirate coach Jack York didn't have much to cheer about in his team's 26-0 loss to Wheeler Friday night he was pleased with Furgerson.

Perryton journeys to Woodward, Okla. in hopes of picking up victory No. 1 for 1966 while No. 2 ranked White Deer shoots for their second straight victory by hosting Panhandle.

Wheeler, another class A power with Furgerson.

MASE FURGERSON  
...lineman of week

"He didn't do anything outstanding, he just minded his part of the store," was the way York described the play of the Pampa News' Linemen-of-the-Week.

Furgerson, a 178-pound junior, is earning his second high school football letter, having played center last season.

"He weighed 140-pounds last year and ran the 100 in a little over 11 seconds," York said, "but he's up to 170 and can run the century in 10.6 now," the coach added.

York's grid-ders will be shooting for their first victory of the season Friday night when they play host to Canadian, a 32-0 winner over Miami.

"We played good for three quarters against Wheeler but we tired out. We missed two sure touchdowns," York said. "Canadian is bigger than we are but we think we'll give 'em a real good battle," the coach stated.

In other area games Friday

er, plays host to Erick, Okla. and Groom hosts Claude.

McLean, who upset Shamrock Friday, guns for their second victory by traveling to Boers Ranch, a loser to White Deer last week.

The taste is distinctive.  
The man is Sean Connery.  
The Bourbon is JIM BEAM.

# The Pampa Daily News

A Watchful Newspaper

EVER STRIVING FOR THE TOP O' TEXAS TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

## Manpower Act

A piece of legislation to legalize what the United States Employment Service has been doing without authority seems to be running up against some opposition in the U.S. House of Representatives.

The Clark-Holland bill (Manpower Services Act) would authorize USES to recruit already employed persons to fill jobs. Present law was designed to help unemployed persons to find jobs, thus getting them off the power services Act would authorize USES to recruit already employed persons to fill jobs.

This legislation, which is aimed directly at tax paying private enterprise employment agencies, marched through the Senate with little objection. But it has met considerable opposition in the lower house of Congress. Private employment agencies have been joined by various chambers of commerce and employer groups in seeking to reverse the trend toward governmental agencies expanding further into business enterprises.

Private employment agencies, already regulated at nearly all levels by government bureau-

cracy, believe this bill will be a major blow at their existence. With government putting most of its employment effort at finding jobs for the unemployed, the workers who want to improve themselves have resorted to private agencies to get located with higher paying employers. But, if the Clark-Holland bill goes through, it will become increasingly difficult for the private agencies to compete with the political agency.

The Wall Street Journal points out that there is a threat to the workers as well. "If the USES is empowered to move people about from one job to another," says the Journal, "what is to prevent it from keeping them where they are if it so chooses? In other words, the act implies the sort of control over manpower which up to now, even in wartime, the government has adopted only reluctantly."

"A good many employers already have challenged the wisdom of giving the USES such broad controls over human beings. Certainly the concept of a centralized federal hiring hall ought to be equally repugnant to employees, union and non-union alike."

So, it is not only the private business employment agencies which are threatened. It is everyone who works for a living. This legislation should be halted at once.

## Forced Housing for Children

It would seem that everyone is going to get equal treatment except the owners.

The "civil rights" bill, which started out to prevent discrimination in renting and selling housing because of race, creed or national origin, has been expanded to include families with children.

The bill is a bad piece of legislation. There are many persons who, for reasons of their own, will not rent to large families. But they certainly have a right to say to whom they will rent, whether it is because of the size of a family, because of color, because of race or religion or for no reason at all.

As we have commented many times that legislation to require owners to rent or sell to people not of their choosing can only build resentment and create even more discrimination. And, again, we warn prospective

renters or purchasers, if the government can order the owners to rent or sell to specific persons, the next step can be to order the renters or purchasers that they must live where the politicians decide.

The right to choose is an individual right, and once the government deprives one set of individuals of this basic right, it has taken a major step toward eliminating all choice in personal affairs.

People are going to discriminate in their personal associations, regardless of laws. If some government agency denies the owner his right to discriminate, other renters or owners will move into areas of their choice, unless the government steps in and decrees that they must remain. That is where the politicians gain complete control over the lives of the people. Once such controls start, there is no ending.

## How Much Is Too Much?

The attorney for the accused murderer of eight young students nurses in Chicago indicates he will try to have his client tried in some other community — one farther away from the scene of the crime.

He says he fears his man couldn't have a fair trial in Chicago because of publicity surrounding the case. If his request is granted, then all the lawyer has to do is find a place where there hasn't been — and won't be — publicity about the murders. This may take a bit of doing.

After all, a man accused of murdering eight young women in one night is — guilty or innocent — likely to receive some attention, in and out of the newspapers, regardless of where he is tried.

One of the more intriguing questions involved in all this is, just how much publicity constitutes "the publicity" cited as harmful to a person accused of a crime?

Alice, you visited Wonderland too soon. You ought to see what is going on now!

## Guam's Right-To-Work Law

Whether the people of the territory of Guam will have a so-called "right-to-work" law is up to President Johnson.

The Guam territorial legislature recently passed a bill providing that no person should be denied opportunity to gain or keep employment on account of membership or non-membership in a labor union. Their territorial governor, Manuel Gutierrez, a President Johnson appointee, vetoed the act, and his veto was overridden, 14 to 6.

Now it goes to the President who may either sign the bill into law, may veto it or may allow it to become law without his signature.

In view of Johnson's advocacy of repeal of Section 14 b of the Taft-Hartley Act, which permits states to adopt right-to-work laws, it is presumed he would not be willing to sign the terri-

torial legislation into law. However, in view of his support for "home rule" for the District of Columbia, the Guam right-to-work supporters are demanding some home rule for themselves.

It will be interesting to see whether the President really believes in allowing territories to decide for themselves whether they should have control of their own affairs.

## HOW TO ADDRESS OUR LAW MAKERS

You may wish to write your senators and representatives in Washington and Austin. Here are their addresses:

Sen. John Tower, Senate Office Bldg., Washington 25, D. C.  
Texas

(STATE)

Rep. Grainger McIlhenny, Wheeler, Sen. Brady Haselwood, Amarillo, Texas

## Pull Up A Chair

By FRANK JAY MARKEY

One of the very real problems confronting De Gaulle is what to do about "Le Bang." Le Bang has been plaguing the villagers of St. Julien-de-Lampon for too long a time and they want immediate action and indemnities. The latest affront came when Le Bang toppled the turret of Fenelon Castle, a 12th century edifice that dates back to the time when the tiny village was a stop-over on the route of the Crusades. Le Bang is unpredictable, swift, ear-splitting and destructive. Le Bang is simply the sonic boom of a supersonic jet plane arriving or departing from any one of the nearby airports. The all-too-frequent boom makes babies cry, upsets chickens, cows and other farm animals, and wreaks havoc in other ways, too. Last year the French Air Force paid the tiny village \$250,000 in indemnities. New the villagers are protesting to De Gaulle for additional payments, but most of all they insist he "cut out the noise."

Today's smile: The parent of a teen-ager wanted to use the phone, but she was using it to do her homework. When she finished, he said: "You usually talk for two hours, but this time you were only on the phone for 45 minutes. What happened? She blithely replied: "I called the wrong number."

Thoughts while shaving: Ski tows are usually associated with winter sports, but many of them get a big play during the summer season when they are used to haul tourists to high mountain tops just for the ride and the view. Incidentally, the first ski tow was the brain child of a fellow named Robert Royce, who designed and operated the first one at Woodstock, Vermont, in 1934. His invention was a simple rope tow, but most of today's models are more elaborate with gondola cars and other features for the comfort and safety of the rider. "We don't know who buys them, but 3 million pairs of wooden shoes are manufactured in this country every year. Maybe we export them to Holland. . . The one thing we remember most about the late Sunny Jim Fitzsimmons the noted horse trainer, was the unusual watch chain he wore. One night at Dinty Moore's restaurant in New York where we generally encountered him, he told us it was made of the hair from the tail of the great horse, Nishua, which he trained. . . How push turing radios for tractors so can you get. They're manufacturers can fill the soil to the accompaniment of "rock 'n' roll." . . The New York TIMES headlined a story: "Man Divorced For Not Kissing," Reason enough!

Country Editor speaking: "We wonder about the nations future when we see those sweet young things with their fancy hair-dos and skin-tight pants and dagueres. And the girls look awful, too."

After all, a man accused of murdering eight young women in one night is — guilty or innocent — likely to receive some attention, in and out of the newspapers, regardless of where he is tried.

One of the more intriguing questions involved in all this is, just how much publicity constitutes "the publicity" cited as harmful to a person accused of a crime?

## Hunt for Truth

BY H. L. MUNT

ACCEPTING SUPPORT

Many insist on impressing their friends or the public with the idea that the country is in danger of being destroyed by anti-Communists voicing their opinions.

It is difficult to understand how a high degree of loyalty to the nation can be divisive and destructive. The war in South Vietnam, our part in the Dominican Republic's affairs and our continued tolerance of Castro furnishes a greater need than ever before for citizens loyal to the USA. Those who deny extremism could ask themselves the question, "Was the extremism of Sgt. Alvin York in World War II divisive to the nation or did his extreme loyalty beyond the call of duty save the lives of scores of his buddies on Flanders Field?"

The question has arisen as to the character of support politics; parties and candidates can afford to accept. THE WORKER contemplates calling the shots for a vast number of Communist movements. This is a large part of its duty to the frenzy for which it speaks. So long as the American public has a good degree of sense it should be a liability for any candidate

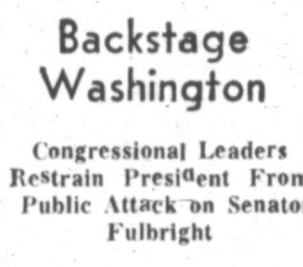

to welcome the support of THE WORKER.

Whenever an organization or through group endorses or works for the success of a candidate, what happens is that the group or its members have endorsed the candidate. It does not necessarily follow that the candidate is vouching for the tactics nor the principles of these particular supporters. If the supporters are unnecessarily rough, the candidate is not necessarily rude nor rough. He should be given credit for all his supporters who are opposed to the deadly menaces, communism and crime.

Congressional Leaders Restrain President From Public Attack on Senator Fulbright

WASHINGTON — Senator J. William Fulbright's increasingly virulent sniping at President Johnson's Southeast Asia policy is reaching the explosion point in relations between them. The President is so outraged at Fulbright's holding Foreign Relations Committee hearings on the U.S. military build-up in Thailand that he is threatening to publicly denounce the Arkansasian.

Only the restraining counsel of his Democratic congressional leaders has kept the President from issuing a blistering statement charging that Fulbright's attacks against the administration's policies are giving "aid and comfort to our enemies."

Drafted by White House aides after Fulbright announced his committee's inquiry would begin Sept. 19, the presidential bombshell was ready for detonation during the Labor Day weekend. But the President shelved the blast after conferring with the legislative leaders on strategy to counter Fulbright's latest hostile move.

The leaders, including Speaker John McCormack, Mass., and Senate Democratic chief Mike Mansfield, Mont., warned that an outright attack might cause a deep schism in the party just as the crucial congressional campaign was getting underway.

Instead, Senators Mansfield and Russell Long, La., offered to undertake to restrain Fulbright from turning his hearings into a new televised attack on the Viet Nam policy as he did in hearings earlier this summer.

posed new inquiry could easily damage our war effort and embarrass one of our staunchest allies."

When one leader suggested that "Fulbright is concerned lest another Viet Nam may be building up in Thailand," the President retorted, "If there is to be another Viet Nam, it will be caused by what the Communists do and not by us. And Fulbright knows that perfectly well."

"What concerns me about his inquiry is that it appears aimed at trying to keep our country from using Thailand bases for our B-52s," continued the President. "Bill doesn't want the U.S. to station these strategic bombers on the Asian mainland. He believes he can stop that by throwing the spotlight on Thailand."

"It is one thing for a Democratic senator to disagree with a policy of his President," said Speaker McCormack, "and quite another for him to try to destroy that policy after the decision has been made. That is playing a very dangerous game."

"I've been more than civil to Fulbright and have tried to reason with him," declared the President. "But I'm not going to stand idly by while he tries to cripple our war effort."

STRATEGIC BASE—At stake in the coming Fulbright hearings is the use by B-52 bombers of the new airfield at U-Tapao, Thailand, 95 miles southeast of Bangkok.

Capable of handling the mightiest U.S. jets in operation, the field is the largest in Asia. Its concrete runways stretch for more than two miles. The base is part of a giant military complex under construction that includes a naval port and logistic facilities. It is part of the \$100 million construction program in Thailand.

Under an agreement with the Thai government, the base will be used by B-52 bombers against targets in both North and South Viet Nam.

The Seventh Air Force, based at Saigon, sought authorization more than six months ago for B-52 strikes in North Viet Nam. After consulting with the White House, the Joint Chiefs of Staff notified Anderson Airbase in Guam that the B-52s could be used on such missions as soon as the Thailand base was ready.

At the outset the B-52s will continue to operate from Guam and use the U-Tapao base for refueling. Later this year raids on North Viet Nam will be staged from the Thai base.

The strategy of the B-52 strikes, as explained by Pentagon authorities, is to put new pressure on Hanoi to withdraw from South Viet Nam. If the B-52s hit areas defended by Soviet missiles, Air Force officials concede "we may lose a few."

The Soviet SAM missile, now estimated as totaling more than 500 in North Viet Nam, was designed for the express pur-

Big Brother — Replacement for Our Father

The whole trend of a big brother government which reaches out to solve more and more of the problems of the people and, in doing so, provides more and more direction for them, resulting in less and less liberty for the exercise of initiative and more and more control over their lives, is, in a very real sense, replacing God. Whether so intended or not, it teaches people to look to Washington for help, that is, to pray to their government rather than to God; to depend on its strength rather than the help of God plus their own efforts.

It has been variously estimated that some 30 to 40 million persons receive salary checks, subsidy checks, welfare or assistance checks of some kind regularly from the federal government. There are literally hundreds of ways in which ingenious, scheming, unprincipled people can get more help from government. A one-thousand-page book has just been published telling of the many involved and complicated procedures that can be followed to get more aid. These are definite, concrete methods of obtaining dollars. To many people, they no doubt seem much more real than praying to God for help and strength and then doing their best to implement their own prayers.

Socialism is the great apostasy from the belief in God to be-  
pose of countering the B-52 bomber. The missiles are effective at altitudes above 60,000 feet, which is higher than B-52s usually fly.

Originally developed to deliver nuclear weapons, the B-52s are armed with conventional bombs in hitting Viet Nam targets, which they now strike three or four times a week. They have also made a limited number of attacks in Laos since early this year.

THAILAND FALLOUT—Thannom Kittikachorn, pro-U.S. Thai prime minister, has been the target of two Red assassination plots in the past six months. U.S. intelligence authorities say the Thai strong-man is the top Communist murder target in the world. . . An estimated 40 villages in northeast Thailand have been "captured" by Communist guerrillas. While not seized in a literal sense, the villages are in-area where Thai officials do not go because of rebel bands operating in the surrounding hills. . . The number of assassinations and killings in northeast Thailand have reached a record high of about 30 a month since June. The victims are primarily police informers and outspoken anti-Communist village headmen, teachers and other officials. . . The number of Communists lurking in the remote Phi Pan Mountains scattered over six border provinces is estimated at 4,000 by Thai officials. Also along the Thai-Malaysian border are an estimated 800 Chinese terrorists from the guerrilla war in Malaya.

## Between the Bookends

THE TARIFF IDEA  
"One who defends tariffs, cannot logically oppose government control of prices and profits, material allocations, subsidies, and other violations of the free market principles." This is a statement by Dr. W. M. Curtiss, formerly Professor of Marketing at Cornell University, in his booklet "The Tariff Idea". (Published by The Foundation For Economic Education, Inc., Irvington-On-Hudson, New York, \$1.)

Tariffs, as a current issue, may seem insignificant in the face of the, almost numberless controls invented daily by government. The subject is used in this book to illustrate the basic fallacies underlying all trade restrictions — tariffs are used as a classic example.

In 80 swift pages all the arguments in favor of, reasons for, and fallacies about tariffs are raised and laid to rest. Several illustrative parables are included from the writings of Frederic Bastiat, an economist and advocate of freedom who lived more than a century ago.

In laying the foundation for his basic arguments Dr. Curtiss states fundamental truths about human nature, which are fatally overlooked by the advocates of intervention in the worldwide and domestic marketplace. Consider for example — man will always attempt to satisfy his desires with the least possible effort. This leads to specialization and the division of labor. Each man does what he can do best, thus conserving human energy and increasing total production. Now men must exchange with one another to gain the maximum profit from the increased production. But a man will only exchange goods and services with other men in order to get something he values more than whatever he gives up. This is true of both parties in any exchange or the transaction would not take place. Therefore, a voluntary trade benefits both parties. This applies in exchanges across the street or across national boundaries. The standard of living of every individual is lowered to whatever degree he is prohibited from taking advantage of efficiency, abundance, and low cost wherever they are available.

Bastiat said, "If goods do not cross frontiers, armies will." This is still a hotly debated issue, even among those who would otherwise advocate freedom. Some people who would not sanction any other intervention in the marketplace believe trade can be effectively used by government as a weapon in international relations. The weapon, however, backfires!

It's all here — war, wages and unemployment, balance of trade, scarcity — you name it and you will probably find an answer to it in this amazing little book.

Dr. Curtiss sums up by saying: "Adjustments such as those which would be required by removal of tariffs are taking place constantly in a free economy. When the automobile made its appearance, the operators of livery stables and the manufacturers of buggies were inconvenienced. They had to turn to something else. But they soon found themselves benefiting in two ways: First, as consumers, they benefited generally from the automobile; and second, the new job opportunities within the new and expanding automobile industry were more attractive than their old jobs in a dying industry."

PROGRESS ANYONE?  
... Marian Landers

The Nation's Press  
UNCLE SAM'S FREE LUNCH  
(New York Daily News)

Asked about the zooming price of bread, Secretary of Agriculture Orville L. Freeman agily changed the topic to the administration's hike in permissible wheat acreage. United States farmers next year may plant 15 per cent more wheatland.

But will that mean cheaper bread for us? Not at all, Freeman confessed cheerfully. Despite an expected record crop of 1.6 billion bushels, "continued export expansion and large food assistance requirements" will keep our own grain prices up.

So Uncle Sap, next year, will grow more wheat than ever, give more and more of it to overseas friends unable or too lazy to grow their own, and will charge Mrs. America a record price for every loaf of bread she buys.

# The Lighter Side

By DICK WEST  
 United Press International  
 WASHINGTON (UPI)—Let's hear it out there for Mrs. E. M. Barker of Wells, Tex.  
 You may be shocked by her suggestion, but I think you will agree that she deserves a round of applause for progressive thinking.  
 "As you know," Mrs. Barker writes, "a lot of licenses have to be renewed each year. Dog, fishing, hunting, auto, liquor, chauffeur and so on probably into the hundreds.  
 "So what would happen if marriage licenses had to be renewed each year? Would there be any golden anniversaries? Or even silver ones?"  
 Since I don't know the lady personally, I am unable to say whether Mrs. Barker got this idea from licensing a dog or whether her husband did something to inspire it.  
 Either way, it lends itself to some rather interesting conjecture.  
 Mrs. Barker appears to believe that many married people are more fond of hunting than they are of wedlock and if marriages were

operated on a year-to-year basis they would let their licenses expire.  
 I am convinced, however, that the opposite would be true. Suppose that ducks were flying overhead all the time and that a persons could at any given moment shoot as many as he cared to. Do you think that under these conditions anyone would give a hoot about duck hunting? Of course not.  
 Duck hunting owes its appeal to the fact that there are legal obstacles (bag limits, license requirements, seasonal bans, etc.) between the duck and the hunter.  
 By the same token, divorce laws make it difficult to dissolve a marriage. Ergo, divorces are highly popular. But there are no laws that make it difficult to stay married.  
 (I'm not saying it isn't difficult. I'm just saying there is no governmental interference.)  
 This month I have to take my annual inspection. It occurred to me that a similar program to me that a similar program could be adopted for marriages.

## Pampans Receive Early Promotions Upon Completion of Basic Training

FORT BLISS —William M. Taylor, 19, son of Mr. and Mrs. Earl R. Taylor, 700 Magnolia, and Roger D. Lewis, 22 whose wife, Jacklyn, lives at 412 Pitts

WILLIAM M. TAYLOR

received early promotions to Army pay grade private E-2 on completion of basic combat training at Fort Bliss.

They received the promotion two months earlier than is customary because of scores in firing the M-14 rifle, high scores on the physical combat proficiency

ROGER D. LEWIS

was employed by Rudy's Automotive as a mechanic. Pvt. Lewis entered active duty in June, 1966, and was employed by Cabot Corp. in Pampa.

## Johnson's Popularity Slips To the Lowest Level Ever

WASHINGTON (UPI)—President Johnson's popularity has slipped to 50 per cent—the lowest level since he entered the White House, according to a nationwide public opinion survey.  
 The Louis Harris Survey, copyrighted by the Washington Post Co., reported Monday that the President's job rating among the public had dropped 4 points since July despite his recent speaking tours around the nation.  
 The survey blamed most of his decline in popularity on domestic problems such as the continued rise in food prices, racial riots, the airline strike

and the drop in the stock market.  
 Another pollster, Dr. George Gallup, also was quoted Monday as predicting that Johnson will be in "deep trouble" with the voters unless the Viet Nam situation improves.  
 Gallup, in a copyrighted interview in U.S. News & World Report, said his samplings of public opinion indicated that the Republicans would gain 25 to 35 House seats in the November elections.  
 Gallup said that civil rights violence ranked next to Viet Nam as an election issue.

## Federal Government Redefines Small Businesses To Increase Contracts

WASHINGTON (UPI)—The federal government redefined "small business" Tuesday to give more firms—some of them large by most standards—a chance to get government contracts.  
 Immediately affected were the tire and auto industries, but officials of the Small Business Administration (SBA) said they might extend the new rule to half a dozen others.

The outstanding example of a company that will now be able to qualify as a small business is American Motors Corp., which had sales of \$991 million its latest fiscal year.  
 Under the old rule, a manufacturing firm could bid on government contracts specially set aside for small

business, if it had between 500 and 1,000 employees, depending on the industry. Under the new rule, a firm will be deemed small if it accounts for less than 5 per cent of its market. During the first seven months of 1966, American Motors produced less than 2 per cent of all passenger cars made in the United States. SBA officials said the firm had not asked the agency to redefine its qualifications.  
 They said that the new rule, which becomes effective 30 days, was designed to help promote competition in highly concentrated industries. An industry is deemed highly concentrated when four firms or less account for at least 70 per cent of the industry's sales.
