#### NICE TRY

IONIA, Mich. (UPI)—James Thomas successfully escaped from the Michigan Reformatory Thursday. His luck ran out Friday when he thumbed a ride and discovered the driver was state trooper Norm Lohroff.

#### Investors' Corner

**Know your broker...what he can and can't do for you...new Exchange booklet.**

Let's assume that, as a new investor or one of the estimated 20 million Americans who now own stock, you are considering an investment. And you ask yourself which broker to use.

If you're investing for the first time, chances are you don't know a broker personally. So you consider the recommendation of a friend. Or recall a sign on a window that reads: "Member New York Stock Exchange." Or look for a member firm in the stock broker section of the Yellow Pages.

It's a good indication to look for, and easy to find. There are more than 3,300 member firm offices in 850 U.S. cities. They have some 33,000 brokers called registered representatives.

If you choose a broker in a member firm, there will be 174 years of Exchange history behind him. Since those first days, members have evolved a remarkable set of rules and regulations to govern themselves.

Some relate to a firm's finances. One calls for maintaining adequate capital. Another prescribes an annual surprise audit by the firm's independent public accountant. And the Exchange itself makes periodic spot checks.

The registered representative who will serve you is a full-time broker. When he first became registered, he had to meet Exchange requirements for knowledge of the securities business.

His knowledge is yours for the asking. Terms and procedures often puzzle the new investor, so he'll expect your questions. He can explain the differences between common and preferred stocks and bonds. You may want to know how the commission is figured. Or how your order will be executed.

You'll be wise to discuss your situation with him. How much you should consider investing, after providing for living expenses and emergencies. Talk over your goal—growth of your money for the future, or dividends to bolster your regular income, or the relative safety of principal and income that might draw you to high-grade preferred stocks or bonds.

His is not a push-button world, of course. Whatever facts and advice he can supply about companies that attract you—their earnings, dividends, prospects as he views them—he can't guarantee you a profit. There will still be need for your own cool-headed estimation of the risks and chances of success.

Choosing your broker carefully, knowing what to expect of him and how to use him, is the first step to wise investing.

Own your share of American business

Members New York Stock Exchange

# Lions' Club Essay Contest Is Challenge for Local Youth

The youth of Pampa have been given a challenge to develop a plan for world peace by their local Lions Club — challenge that could earn one of them a \$25,000 educational and career assistance grant.

The Pampa Noon Lions Club, together with Lions Clubs throughout the world, is sponsoring a world-wide essay contest for the world's youth on an important world subject today — Peace. The contest offers \$50,000 in total awards, including the \$25,000 first prize, eight semi-final world regional awards of \$1,000 each and travel expenses for the eight winners to Chicago, Ill., in July, 1967. At that time, the first prize winner will be chosen from the eight. Also, more than 2,000 local, district and multiple district awards will be made.

"We are hopeful one of our young people will win this world-wide prestige award," President Tom Snow of the Pampa Noon Lions Club said in announcing the contest locally today.

The contest, open to young people who will be 14 but less than 22 years of age as of Jan. 15, 1967, was announced by the President of Lions International, Edward M. Lindsey, of Lawrenceburg, Tenn., during the Association's Annual International Convention in New York.

"The Peace Essay Contest is divided into eight world divisions for the \$1,000 prizes," President Snow said.

"Our Club's winner will advance to Lions District 27-1 competition in his or her effort to qualify for the multiple district contest."

The Contest sponsored by more than 20,000 Lions Clubs in more than 130 countries in the free world, will be the largest Peace Essay Contest in the world today.

"The purpose of the contest is to develop a formula for world peace because we feel peace is attainable," Snow said.

"We want to alert our youth to the need for world peace and focus attention on that important goal," he said.

In announcing the contest internationally, Lindsey said that Lions International, the world's largest service club organization is well qualified to sponsor such a contest.

He said the world-wide representation of Lions, the attention given to international relations and friendship between different nationalities and their participation in international humanitarian programs were their credentials for the patronage of the contest.

Contestants should submit their entry in essay form, not to exceed 5,000 words.

"Judging will fall into four categories: 75 per cent of the essay's points will be devoted to content, ten per cent to organization, ten per cent to style and five per cent to mechanics," Snow said.

"Three judges will be appointed to evaluate the entries submitted to our club," Snow said.

"If our winner can advance through the judging stages up to the world finals he will receive an expense paid trip to Chicago to attend the Lions International 50th Annual Convention for the final judging of his essay in addition to the \$1,000 award," Snow added. Snow said he hoped local young people would accept the challenge and enter his club's section of the contest. Closing date for the club's contest is Dec., 10, 1966.

"Students wishing to enter the contest should contact the High School Counselor's office to get full details of the contest," he said. The age limit for the contest, includes all youth 14 but less than 22 years of age as of Jan. 15, 1967. Snow announced that each applicant would be limited to one entry, with one winner's essay eligible to compete in the Lions District 27-1 contest. Winner of district contest will be entered in state or country contest. Each country or multiple district winner will be entered in one of the eight world divisions.

**fact**

The European fire salamanders, far from being able to withstand the action of fire, as was believed by the ancients, are found only in damp places. They often emerge in great number in misty weather or after thunderstorms. They are harmless to man but the large glands on their smooth, shiny bodies secrete a milky poison, which protects them from their many enemies.

**Amazing Discovery**  
 SAN ANTONIO, Tex. (UPI) — Woodrow Jones decided Monday he would be more than happy to go along with "operation lightbulb," the city's plan to have residents leave porch lights on to make neighborhoods safe from robbers.

But when the sun went down, he made an interesting discovery. Someone had stolen his light bulb.

**Need Bigger Facilities**  
 LONDON (UPI) — The Council of British Ceramic Sanitaryware manufacturers, in reporting that British women want bigger bathrooms with the toilet in a separate room, said, "much is said and written about the 'break-up of family life.' May not one reason be the design of so many of our modern houses? Only one fifth had reasonable accommodation to prevent bottlenecks at busy times."

In 1933, Nazi Germany announced it would withdraw from the League of Nations at the end of 1934.

# Navajo Indians Get Aid From Vista Volunteers

By JACK V. FOX  
 United Press International  
 The high desert was blazing hot in the Arizona sun and the Navajo sheep and goats had been herded from 30 miles around to rough rock for the once a year dip in disinfectant to rid them of ticks and lice. Tugging and hauling away at the sheep were two girls who might have been debutantes—Sheila Marvin of Pleasantville, N.Y., and Linda Elser of Crystal Lake, Ill. Twenty yards away, Indian squaws holding their young stared at the white girls in astonishment.

The girls were VISTA—Volunteers in Service to America, a sort of domestic Peace Corps. They were wrestling the squirming sheep toward a smelly trough in an idealistic, naive but heart-tugging attempt to show that the white people want to help the nation's largest Indian tribe up out of a poverty that is as much of soul as of body. The Navajo reservation spreads over a part of Utah and New Mexico but most of its 24,000 square miles lies in northeastern Arizona. Crossing its great plateaus and mesas is a trip as long as from Boston to Washington. On it subsist 110,000 Navajos, most of them living in hogans, round or hexagonal shaped buildings of timbers chinked with mud and overlaid with a roof of sticks and mud or hides. The hogans have dirt floors, no plumbing and no heating except for an open fire which also serves for cooking. The one community well for water may be as far as 20 miles away.

Defeat came to the Navajos in 1863 at the hands of Col. Kit Carson and the U.S. Cavalry. They were stripped of guns, horses and their flocks of sheep and driven 300 miles on-foot to what amounted to a concentration camp at Fort Sumner, N.M. In 1868, when they were released and permitted to return to their barren land, only 8,000 remained. They exist now by raising sheep, goats and some cattle and by planting pathetic little patches of corn, beans and squash. A few of the women make blankets and rugs and some of the older artisans make the heavy Navajo silver jewelry. But the bracelet the tourist pays \$24 for in a curio shop off the Indian reservation has been marked up from the \$8 paid the Navajo silversmith.

**Foreign News  
Commentary**

By PHIL NEWSOM

UPI Foreign News Analyst  
In the Middle East a handful of small and relatively weak nations have the power to trigger a major war but not the power to stop it.

And, in the Middle East, recurring attacks on Israel by so-called Arab commandos encouraged if not led by Syria has led to mounting Israeli tempers and the danger that from guerrilla pin-prickings a real war could develop.

Neither the United States nor the Soviet Union could remain aloof.

In the United Nations, sides already have been chosen along expected lines: the Arab states backed by the Soviet Union, and the United States, Britain and France generally supporting Israel.

**Real Question**

But the real question mark is the Soviet Union's increasing influence in the Middle East and how she intends to use it. And, while ill-will between Israel and her Arab neighbors continues to provide a possible flash point, there also is the development of a new grouping among the Arab states themselves whose lines are hardening and could provide the start of another conflict in an entirely different direction.

When Britain announced she would abandon her big base at Aden by 1968 and it would be joined with the sheikhdoms, sultanates and emirates of South Arabian independence, she created a vacuum which the Russians promptly moved to fill.

**Space Age Makes  
South Into Beef  
Center of World**

Space age development which are rocketing the Southwest into the leading beef production center in the world will be featured at the sixth annual Southwestern Cattle Feeding Conference in Lubbock, Texas, Dec. 6.

High on the list of subjects which progressive feeders are talking about these days is steam flaking of grain, and this topic will be covered in detail by Dr. William H. Hale of the University of Arizona, recognized as one of the leading authorities in the nation. He will also discuss other factors having significant impact in cattle feeding circles in his address, "New Methods in Grain Processing."

Dr. Hale's address is one of several which are expected to prove highly beneficial to cattlemen looking for more efficient ways of producing beef.

This is the second time for the conference to be held in Lubbock, site of the original conference which in 1961 helped establish it as one of the top livestock meetings in the U. S. each year. It is sponsored annually by the Cattle Feeders' Division of the Texas and Southwestern Cattle Raisers Association.

Lloyd Bergsma of Fort Worth, director of the division, said headquarters for the conference this year will be the KoKo Inn Motor Hotel. Programs and other information in regard to the 1966 conference can be obtained by writing the TSCRA Cattle Feeders' Division, 410 East Weatherford St., Fort Worth, Texas.

In 1912, former President Theodore Roosevelt was shot in Milwaukee and refused to have the wound treated until he delivered a scheduled speech. He recovered.

### Police File Charges Against Parents To Receive Summons For Refusal to Send Children to School

**WOMAN FOR KILLING DAUGHTER**  
Greeley, Colo. (UPI) — Charges were to be filed today against a woman who officials said fired four shots into her 8-year-old daughter's head, then spent 45 minutes on the phone with a psychiatrist who tried to talk her out of doing anything to another child.

Law officers were alerted by Dr. James W. Lauer, a psychiatrist at Colorado General Hospital in Denver. The woman had called the hospital and Dr. Lauer had talked with her for 45 minutes, unaware that one of her children already was dead.

Parents in the isolated village of Canones, N. M., will receive summons soon for failure to send 25 children to school in protest against what they consider a "dangerous" bus ride to a new school 20 miles away.

ESPAÑOLA, N. M. (UPI) — "so the people will appear when they're suppose to appear." The elementary school at Canones was closed this fall and the state made arrangements for the grade school children to be bused to the new Coyot, N. M., school.

The woman, identified as Mrs. Audrey Seward, about 30, was hospitalized at Weld County General Hospital for observation.

A spokesman for the hospital said the "woman was screaming and hysterical" on the telephone. Lauer finally learned her name and address and alerted sheriff's officers who went to the home.

The identity of the woman was withheld until late Sunday after her husband, James, was located. H. Ross Adamson, Weld County Coroner, said the man had been hunting north of Steamboat Springs at the time of the shooting late Saturday.

When they arrived, they found the dead girl and a .22 caliber pistol she had been shot with. They said the woman was in the process of bottle-feeding her 8-month-old baby, Sandra Michel, who was sitting in her lap.

The dead girl, Valerie, was found lying on a floor when sheriff's officers arrived at the frame home, 14 miles north of Brighton, Colo.

### The Lighter Side

**By DICK WEST**  
United Press International  
WASHINGTON (UPI) — Of all the picturesque phrases in a congressman's vocabulary none is more popular than "crash program."

Our lawgivers picked that term up from the Pentagon a number of years ago and now seldom a day goes by that crash programs of one sort or another.

Few, however, are as startling as the one proposed recently by Rep. Richard L. Ottinger, D-N.Y.

He called for a crash program to reduce jet aircraft noise.

That noise is pretty annoying all right, but Ottinger's remedy sounds a bit drastic.

Given a choice, I think, I would prefer a program advocated by Rep. Craig Hosmer to reduce auto traffic jams.

Hosmer is a Republican from Southern California, land of the freeway and home of the brave. (A Southern California freeway is no place for cowards).

As such, he is looking forward to the development of small battery-powered cars.

When that day arrives, traffic jams caused by large gasoline-powered autos will be eliminated.

release, the system "would be designed to pick up the small private electric automobile — passengers and all — and transport the entire package from point to point.

"A commuter would drive from his home to a convenient mass transit pickup point, deposit his fare, dial his destination and be speeded to a nearby exit. There his automobile would be unlocked from the public system by computer.

# Irish Hit Top In UPI Ratings, Play No. 10 Oklahoma

Pampa showed several good points in its 7-6 loss to Monterey Saturday night... The Harvester defensive crew played by far their best defensive game of the year, even better than Monterey.

### Deserved Better

The Harvesters led in the first downs and yards rushing and trailed by only eight yards in total offense with the Monterey passing attack looking better than Pampa's. It was good to see Gary Hyatt back at the controls and the little senior left no doubt he is the man for the job.

NEW YORK (UPI) —Notre Dame, which began the season with a green passing combination that since has turned golden, edged past defending national champion Michigan State into the No. 1 position among the major college football teams today in the United Press International weekly ratings.

### Baylor Worried About Aggies

By United Press International The Baylor Bears have gotten the word. Texas A&M is no joke.

The bruising Irish, who have overrun their first four opponents, drew 12 first-place votes from the 35-man UPI board of coaches and a total of 317 points, two more than the runner-up Spartans, who dropped from the top position for the first time since Oct. 26, 1965.

Strong Irish Victory Second a week ago, Notre Dame crushed North Carolina 32-0 last Saturday while Michigan State rallied in the final minutes to nip Ohio State 11-8. The Spartans actually received more first place support than the Irish with 14 votes for No. 1, but their secondary support was not as strong.

### Shocks to Host Monterey B

Pampa's Shockers host Monterey at 4 p.m. Thursday in the seventh game of the season for the Shockers.

Albama also had to come from behind to beat Tennessee 11-10 and consequently surrendered the third position to UCLA, which walloped Penn State 49-11.

### Sandies Good

Pampa Can, if they play to their full potential, beat both Amarillo and Caprock. When asked about Amarillo coach Eural Ramsey allowed as how the Sandies would probably be the toughest the Harvesters have faced thus far.

### Bowling

Moonlighters League First Place: Terry's Electric. Team Hi Game: Jim's Steak House, 827. Team Hi Series: REA Express, 2363.

# Shake hands with L.S. Green

Lee ninth (1-3) will try to break their three game losing streak when they host Dumas in a conference game and the Lee eighth (0-4) travels to Dumas their second straight victory by playing host to Borger-Houston Friday.

All ninth and eighth grade games are at 4 p.m. Thursday. Last Friday Lee seventh won for the first time in four outings by edging Dumas, 8-6.

Garvin McCarrel went 12 yards around right end in the first period and Tom Watson scored the conversion for Lee.

PJH seventh scored once in each of the first three quarters to post their 18-6 victory over Borger Houston.

The PJH seventh is the only undefeated team in Pampa, although they have been tied twice.

FOR ALL YOUR INSURANCE NEEDS MO 4-8413 Matheree Insurance Agency Main Floor HUGHES BUILDING

Florida, Purdue and Oklahoma completed the top 10 in that order. They each held the same positions last week Purdue, which lost to Notre Dame in the first game of the season, remained the only member of the top 10 without a perfect record.

Explosive Houston leaped from 11th on the strength of its fourth consecutive triumph, a 28-0 rout of Mississippi State. Another pair of Southwest clubs, Arkansas and Baylor, deadlocked for 12th place.

S.M.U. 16th Southern Methodist, the third Southwest Conference club in the second-10, ranked 16th. Missouri was 17th and Georgia, which suffered its first loss of the campaign 7-6 to Miami (Fla.) Friday night, dropped seven places to 18th.

Work in Rain With that warning, the Bears took to the field for a workout in a moderate shower, and put in a much heavier drill than is usual for a Monday because of having no game the past Saturday.

TCU learned that halfback Steve Landon will not play this weekend against Auburn. Landon injured his ankle against A&M.

NEW YORK (UPI) —The United Press International major college football ratings with first place votes and won-lost records in parentheses:

Teams	Points
1. Notre Dame (12) (4-0)	317
2. Mich. St. (14) (5-0)	315
3. UCLA (6) (5-0)	265
4. Alabama (2) (4-0)	240
5. Southern Cal. (1) (5-0)	200

### AT AMARILLO FRIDAY

## Pampa Looking Forward To Football Clash With Sandies

Pampa football coach Eural Ramsey and his assistants had nothing but praise for their warriors Saturday following Pampa's bitter 7-6 north zone league defeat to Monterey.

The coaches and players were down just a bit over having missed, according to one official, the try for a two-point conversion that would have given them a victory.

But it lasted only a few moments and the players began talking about Friday night's foe, Amarillo, who will be every bit as tough as Monterey.

Amarillo has won two in a row, taking last year's contest, 41-0 behind a powerful running and passing attack.

Both teams will enter the contest with identical 3-3 records but the Sandies walked all over Borger, 28-8 Friday night, in a conference outing.

Too, coach Warren Harper's Sandies have one of the league's better defensive outfits and have given up but an average of 12.5 points per game.

Defensively Pampa showed a 100 per cent improvement against Monterey last week and as Ramsey put it, "Our boys just decided they wanted to win."

### Helps Solve 3 Biggest FALSE TEETH Worries and Problems

A little FASTERTEETH sprinkled on your dentures does all this: (1) Helps hold false teeth more firmly in place; (2) Holds them more comfortably; (3) Lets you bite up to 25% harder without discomfort.

The Pampa Daily News

EVER STRIVING FOR THE TOP OF TEXAS TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces...

Simplifying English for Computers

Computers will someday be of immense value in retrieving information from the masses of written documents accumulated in libraries. But one big trouble with teaching them the language is that they take things too literally...

Ray of Hope on Delicate Issue

Much of the opposition to therapeutic abortion, when it does not stem from moral or religious beliefs, centers on the fact that predictions that a woman will give birth to a defective child have been at best educated guesses...

Quick, Watson the Pliers

The idea seems so logical, one wonders why it wasn't thought of before - to have the automobile repairman visit an all-garage car right in the family garage just like doctors visit, or used to visit, ailing people in their homes...

'Let Him Enforce It'

The lack of trust and confidence generated by the U.S. Supreme Court in recent years is reflected in a House Resolution presented by Rep. Samuel Devine of Ohio...

Low on Red Ink, Too?

End-of-the-world note: The Canadian government, reports the National Observer, has run out of red tape. This is real tape, used not to tie up taxpayers but to secure documents...

The American Way

By HARRY BROWNE A favorite argument of the draft-supporters goes something like this: "To give a few years of your life is little enough to pay back your country for all the blessings it has given you..."

It's Up To You By HOWARD KERSHNER Better to Earn While They Learn A recent dispatch from Washington states that the cost of operating the Job Corps last year was \$11.251 per each enrollee...

Backstage Washington By H. L. HUNT Manila Classified Briefing Warns President Of Red China's Treating Nuclear Changes

Robert Allen and Paul Scott are featured in the 'Backstage Washington' column, discussing the Manila Classified briefing.

Editorial 'The American Way' discusses the value of education and national service, questioning the idea of trading years of life for government benefits.

Howard Kershner's 'It's Up To You' discusses the cost of the Job Corps and the benefits of learning while working.

H.L. Hunt's 'Backstage Washington' discusses the Manila Classified briefing and the implications of Red China's nuclear ambitions.

"Have a Seat; I'll Be Right With You!"

Manila Classified Briefing Warns President Of Red China's Treating Nuclear Changes

WASHINGTON - An ominous intelligence warning on a new military-nuclear development in Communist China is high on the list of briefing papers prepared for President Johnson...

NATION'S PRESS

Profit-Seeking Business

By LUDWIG VON MISES (From The Freeman) The entrepreneurial function, the striving of entrepreneurs after profits, is the driving power in the market economy.

Washington Correspondent SAIGON (NEA) - Viet Cong sources say their leadership has become worried over the silent antagonism of the small middle-class farmer in many areas...

Profit-seeking business is subject to the sovereignty of the consumers, while nonprofit institutions are sovereign unto themselves and not responsive to the public.

BY H. L. HUNT SPEAKING OUT After being acquainted with the facts about the rise of big government and the decline of liberty in our land...

The Almanac

By United Press International Today is Tuesday, Oct. 18, the 291st day of 1966 with 74 to follow. The moon is between its new phase and first quarter.

Cong Boots Away Its Vital Backing

By RAY CROMLEY Washington Correspondent SAIGON (NEA) - Viet Cong sources say their leadership has become worried over the silent antagonism of the small middle-class farmer in many areas...

It's not only for party leadership but also for local economic leadership that the Communists must depend on the middle-class farmer group.

Let Him Enforce It

The lack of trust and confidence generated by the U.S. Supreme Court in recent years is reflected in a House Resolution presented by Rep. Samuel Devine of Ohio.

Safety Sam Says: When following another vehicle, your minimum following distance should be one vehicle length for each 10 miles of speed.
