# South Viet Nam To Observe Truce

## Dirksen Backs LBJ'S Federal Spending Cut

WASHINGTON (UPI) — Sen. Everett M. Dirksen today welcomed President Johnson's planned \$3 billion reduction in spending over the next seven months as a good start toward peace.

"It goes pretty far in our direction," the Senate Republican leader said in an interview with UPI, "especially when you consider how vigorously the Democrats fought against cuts this year."

Johnson listed for reporters at his Austin, Tex., office Tuesday an agency-by-agency breakdown of how much various programs would be reduced during the rest of fiscal 1967, ending next June 30. This totalled \$5.3 billion.

He also ticked off cuts in actual spending that will be made by the same federal agencies and departments during this period. These added up to "\$3 billion-plus," Johnson said.

The programs to be reduced represent specific amounts previously authorized by Congress to be spent for specific projects. The spending reduction is to be subtracted from money actually appropriated to be spent on such authorized projects.

Dirksen hinted that Republicans in Congress might press for deeper cuts in programs and spending that Johnson plans. He said he cautioned the President last week to keep in mind that Congress may be more economy-inclined than the administration.

Dirksen expressed agreement with Johnson's intention to defer the question of whether to raise taxes until more is known about the economy's inflationary aspects, more complete revenue estimates are possible and the added costs of the Viet Nam war are determined.

"You can't have a tax increase without having a depressing effect on business," said Dirksen. "But if inflation and spending continue, you may have to have a tax increase as the only way out."

## Thant May Accept Another U.N. Term

UNITED NATIONS (UPI) — U Thant, yielding in a sense to popular demand, is ready to accept another term as secretary-general of the United Nations, highly reliable diplomatic sources said today.

Thant was understood to have indicated a change of heart during a brief visit by a five-man Security Council delegation late Tuesday. The full 15-member body first met secretly for three hours to frame an approach to him.

## Top Mayors Meet With Gov. Connally

AUSTIN, Tex. (UPI) — The mayors of some of the state's biggest cities met behind closed doors Tuesday with Gov. John Connally.

None of the seven or eight mayors would make an official comment after leaving the hour-and-a-half closed session.

It was learned, however, that some of the mayors were still trying to talk Connally into supporting their pleas for a local option city sales tax. He told a conference of city officials recently he was not in favor of such a tax.

El Paso Mayor Judson Williams, who was at the meeting and is one of the strongest supporters of the sales tax proposal, said the sales tax was among issues discussed with Connally.

## Troops Find Horror Camp

SAIGON (UPI) — South Vietnamese troops overran a Communist horror camp in the Mekong Delta south of Saigon and liberated eight prisoners who had been chained for months, a military spokesman disclosed today. Five other prisoners were found shot or hacked to death.

In another tragic episode of the war, big guns of the U.S. Army's 1st Infantry Division shelled a friendly village by mistake today through a computing error. A spokesman reported three villagers killed and 14 wounded, seven of them seriously enough to require hospitalization.

The Communist terror camp was found near the village of Sa Dec, 66 miles southwest of Saigon when a government regiment swept the area looking for Viet Cong guerrillas who have terrorized the region for years.

Three prisoners managed to escape the Communist camp and lead the South Vietnamese to the scene. The Communist guard apparently discovered the missing prisoners and killed four of those remaining—two men and two women—by shooting them while their hands were still chained behind their back. One man had been hacked so badly his arm was nearly off. Two other prisoners were shot and one died later.

The Communist guards managed to escape the scene. The Communist guard apparently discovered the missing prisoners and killed four of those remaining—two men and two women—by shooting them while their hands were still chained behind their back. One man had been hacked so badly his arm was nearly off. Two other prisoners were shot and one died later.

## National Safety Agency Reveals Safety Requirements for '68 Autos

DETROIT (UPI) — The nation's auto manufacturers have been told what safety features will be required on their cars next year. They have been given 30 days to criticize and comment.

Haddon

He emphasized the importance of a collapsible steering wheel and cited recent incidents where such wheels have saved lives. But the only steering wheel requirement on the list required one which "would minimize chest and face injuries and reduce deaths in the case of drivers being impaled on the steering column."

Haddon said he expected criticism from the auto industry within the time period they had been given. He said some of the proposed regulations probably would be modified in some technical specifications to meet legitimate objections of the automakers.

The final standards, which will go into effect Sept. 1, 1967, will be published Jan. 31 after the government receives industry's comments.

Haddon said the new regulations generally were an amalgamation of a number of safety standards already in existence including those of the General Service Administration (GSA), the Society of Automotive Engineers, and in the case of tires, the Rubber Manufacturers Association and the Tire and Rim Association.

In one case, he said, a Swedish standard was adopted because there was no U.S. standard. That concerned elimination of projections on auto hub caps to reduce injury to pedestrians who might be struck by a car. This regulation was expected to spell the end of the spinner-type hub caps, popular on sporty models.

## Draft Standards Lowered Again; Screening Due

WASHINGTON (UPI) — The Pentagon is lowering the mental standards for draftees again and is laying plans to rescreen 2.4 million men previously rejected for military service.

But the latest reduction of standards, effective Thursday, probably will not produce more than 40,000 additional men for the armed forces, according to Defense Department manpower experts.

The manpower pool to be tapped comprises those classified 1-Y by the Selective Service System. But even with the newly reduced standards, most of these men will be screened out automatically for physical or mental reasons.

Only those who are physically fit and scored above the lowest 10 per cent in the mental examination will be affected, and then only if they meet certain additional standards.

The latest change, announced by the Pentagon Tuesday, makes eligible for military service all high school graduates who are physically fit and who scored between 10 and 15 on the armed forces qualification test. Previously, they had to have a score of at least 16. The perfect score is 100.

In addition, it also qualifies those who did not graduate from high school if they are physically fit, scored between 16 and 30 on the qualification test, and showed an aptitude in at least one military specialty.

The new reduction in standards is part of Defense Secretary Robert S. McNamara's program to qualify 40,000 former rejects for military service during the 12 months that began last Oct. 1.

## Tension Higher In Middle East

AMMAN, Jordan (UPI) — Jordanian King Hussein, blaming the powderkeg crisis in the Middle East on Soviet agitation, strove desperately today to turn aside new threats to his regime by hard-line Arab extremists and to establish a "balance of power" with Israel.

As tensions remained higher than at any time in the past decade, the young monarch summoned the Jordanian parliament to discuss the crisis. The meeting was set for Thursday.

In a conciliatory gesture, Hussein said at a news conference Tuesday Jordan would agree to basing United Nations peacekeeping troops along the border with Israel. (As Hussein acted, Syrian radio reports monitored in Beirut told of a general strike and new demonstrations against him in the Gaza Strip).

Extraordinary security precautions remained in effect in Jordan, as Arabs began demonstrations to protest the 1947 United Nations resolution partitioning Palestine and leading to the establishment of Israel. There were fears the demonstrations would be turned into new protests against Hussein, whom extremists accuse of weakness in dealing with Israel.

The Palestine Liberation Organization composed of Arab refugees from Israel who have settled in Jordan, has spearheaded the domestic unrest against Hussein as well as terrorist attacks against Israel.

Authorities in Amman, meanwhile, were anxiously awaiting the arrival of the first of 36 supersonic F104 Starfighters purchased from the United States to bolster the Jordanian air force. In a related development Tuesday, Israeli and United Arab Republic jets clashed over Israel in a brief dogfight.

## Ceasefire Will Be On Three Occasions

SAIGON (UPI) — U.S. and South Vietnamese forces today promised to observe three year-end truces totalling eight days — provided Communist forces do the same. The Communists had offered two.

The order to suspend all fighting during the Christmas, New Year's and Asian New Year's Tet holidays was announced in behalf of both South Vietnamese and Allied forces by Prime Minister Nguyen Cao Ky.

The ceasefire measure will temporarily halt all combat operations, including U.S. bombing in North Viet Nam. It went one step further than a similar ceasefire, pledge announced by Communists earlier, providing in addition for a four-day combat truce during the Asian lunar new year beginning next Feb. 8 in Viet Nam.

The prime minister's announcement said that for the prescribed periods, "the Vietnamese government, after conferring with allied countries, has decided that Army of the Republic of Viet Nam (ARVN) and allied forces will not conduct military actions against the Communist forces in the South as well as in the North."

Ky emphasized, however, that all Vietnamese and allied troops would be ready to take "appropriate defensive measures" if Communists should attack during truce periods.

During a 30-hour Christmas truce period in Viet Nam last year, allied forces reported that Viet Cong troops violated the agreement by initiating 60 separate small-scale attacks.

## Cold Artic Air Bites Into Pampa

Artic air with the frostiest bite of the season hit Pampa early this morning showing temperatures down into the 20s.

Sunny skies with occasional cloudiness predominated over the city today with a high registering in the upper 40s. Things were to cool off a bit more tonight with readings in the low 20s.

Northerly winds, will whip along at 15 to 25 m.p.h.

## North Korean

## Naval Attack Is Reported

SEOUL (UPI) — The second alleged Communist North Korean naval attack on South Korean vessels within eight days boosted tension today in the demilitarized zone dividing North and South Korea.

Four North Korean gunboats reportedly machine-gunned and shelled an unarmed 30-boat South Korean fishing fleet south of the demarcation line Tuesday and fled with one boat and its crew of eight as captives.

The incident, according to reports reaching Seoul, took place in eastern waters of the Sea of Japan below the truce line's seaward extension.

Three South Korean navy ships patrolling south of the demarcation line were fired on eight days ago by North Korean shore batteries on the East Coast.

Following Tuesday's reported incident, South Korea's chief of naval operations, Vice Adm. Kim Jee-kwan, ordered the sinking of any Communist ships making similar attacks in the future.

A United Nations command spokesman said a full report on the incident was still unavailable today.

The clash was viewed as another blow to the underpinnings of the 13-year-old armed Korean truce being backed up by 50,000 American soldiers and armed forces from both Koreas.

## Johnson Plans Mexican Visit

AUSTIN, Tex. (UPI) — President Johnson, looking fit and feeling "fine," plans to leave the country briefly Saturday to inspect a dam construction site on the Rio Grande with Mexican President Gustavo Diaz Ordaz. Details of the one-day presidential trip south of the border were released today.

Diaz Ordaz will have an informal lunch for Johnson at the Amistad (Friendship) Dam construction camp. After lunch, both presidents will take a helicopter tour of the dam, a joint project of both the United States and Mexico.

The Mexican president's office said Diaz Ordaz had planned a working trip through the area and decided to invite the American President, who is currently recuperating from recent surgery on the LBJ ranch only 200 miles from the dam site.

Asked how he felt Tuesday, the President replied: "Fine." At a news conference, Johnson announced a \$2.5-billion cutback in federal programs during the 1967 fiscal year. He said actual federal spending in that period would be slashed by \$3-billion or more, and stressed that he is still seeking ways to slash federal spending further.

As for the possibility of a tax increase next year, Johnson said no decision had been reached as yet and that he didn't expect to reach one until around the end of the year.

## Red China Making Nuclear Progress

WASHINGTON (UPI) — Communist China's development of nuclear weapons appeared today to be progressing more rapidly than many Western experts originally expected.

The State Department said Tuesday there was "reason to believe" that Red China has nuclear test—possibly the third this year—would take place in the near future" at the Lop Nor Province.

Though the time was pinpointed no more than the "near future," it appeared if U.S. officials were correct—that the time interval between Chinese tests was shortening, and speeding up.

So far, U.S. forecasts of Red Chinese tests have been right on target. The United States has track of Peking's nuclear preparations through a variety of intelligence means; reported to include reconnaissance satellites and highly sensitive monitoring devices located outside China's borders. The exact means are top secret.

The new test could only have the effect of heightening the political forces already loosed on the world by China's first test on Oct. 16, 1964: some apprehension among China's near neighbors, Russia among them; some pressures in countries like Japan and India to seek their own nuclear weapons; and an increased sense of urgency in many nations for a treaty to ban the further spread of nuclear weapons.

If it comes from a hardware store we have it. Lewis, Howe. (Adv.)

SANTA'S LITTLE HELPERS — Pampa Firemen Richard Norwood and Charles Martin are preparing for the big day by helping the North Pole crew get toys ready. The firemen have brought many new toys with the money from the Firemen's Ball but are repairing many used bikes, tricycles and wagons that were donated. Toys that are in a repairable condition may be left at any fire station.

# Cold Wave Sweeps Over Entire Nation

**By United Press International**  
The worst widespread weather in a year threatened nearly the entire nation today as cold wave warnings were issued for the Rockies and northern plains and snow hampered movement in the Midwest.

Only those portions of the nation outside and south of the nation's dominating mountain ranges escaped the onslaught. Even so, Florida vegetable growers braced for an overnight frost.

Temperatures as low as 15 degrees below zero were forecast in parts of North

Dakota—Minot recorded 1 below at 2 a.m.—Montana and extreme northwest Minnesota, Wyoming and the northwestern portions of Nebraska. The cold wave warnings were extended into Iowa, Kansas, Missouri, the Texas Panhandle and Oklahoma.

Although the U.S. Weather Bureau stated early today "The powerful storm which piled the heavy snows in parts of the eastern and upper Great Lakes region has weakened considerably" snow continued to fall lightly on the nearly foot-deep snow over Michigan, northeast Indiana, northern Ohio, western Pennsylvania and western New York.

On Lake Michigan's eastern shore near Ludington, Mich., 123 passengers and 56 crewmen aboard the car ferry City of Midland, awaited the storm's abatement so they could end more than two days of confinement.

"The weather is moderating but we don't know when we'll be able to be rescued," an unidentified crewman crackled

"We all KNOW that Lyndon's sending Ike on a global tour is dirty politics—now, we've got to figure out WHY!"

# Carmichael Convicted On Charge of Inciting a Riot

SELMA, Ala. (UPI)—Wearing combat boots and olive drab he swears he'll never wear in Viet Nam if drafted black power advocate Stokely Carmichael defended himself unsuccessfully Tuesday on a charge of inciting a riot. He was found guilty, fined \$100 and sentenced to 60 days at hard labor.

Nonviolent Coordinating Committee (SNCC) that failure to pay the fine would result in an extension of the jail term to 167 days. Carmichael, 25, filed notice of appeal and was released in \$300 bond.

The Trinidad-born civil rights leader was convicted of inciting a riot Nov. 5 when several hundred Negroes demonstrated at a rally for Black Panther party candidates.

William Stewart House, local SNCC secretary, earlier was convicted of similar charges and fined \$100 and 30 days at

hard labor. His appeal bond also was set at \$300.

A third Negro, Thomas Lorzneo Taylor of Philadelphia, Pa., was convicted of resisting arrest and blocking traffic and fined \$60 or 74 days in jail last week. He is free under \$200 appeal bond.

Policemen testified Taylor operated a sound truck urging Negroes to vote for Black Panther candidates who were subsequently defeated in the Nov. 8 general election. After Taylor was arrested, the officers testified, Carmichael and House tried to lead a march on city hall.

Wearing Army combat boots and a field jacket, Carmichael was allowed to conduct his own defense when Russell ruled that Don Jelnek, a white civil rights attorney from New York, was not licensed to practice in Alabama.

**Mrs. Ezerta D. Pruitt**  
Funeral services for Mrs. Ezerta D. Pruitt, 81, a resident of Pampa Convalescent home who died Monday morning in Highland General Hospital, will be at 2 p.m. tomorrow in First Assembly of God Church. Rev. J. S. McMullen will officiate. Burial will be in Fairview Cemetery under direction of Carmichael - Whitley Funeral Directors. Grandsons of the deceased will serve as pallbearers.

**Jury Considers Death of Youth**

WHEELER—A Wheeler County grand jury gave further consideration today to a murder with malice charge against Riley Bradstreet, 20. Bradstreet was indicted by the grand jury after the first day session on a separate charge of receiving and concealing stolen goods.

He has stated that the death of Dale Satterfield, 20 of Amarillo on Oct. 23 was an accident resulting from a quick-draw contest.

The two youths were in a hunting group with Gerald Dale Reynolds and T. O. Bradstreet, the accused youth's father. Satterfield was dead on arrival at Parkview Hospital here. He suffered a 22 caliber pistol wound in the neck.

The receiving and concealing charge grew out of recovery of approximately \$60 in materials taken from a school in a Jan. 27 burglary.

Two other men were indicted for burglary at a previous grand jury session.

Others indicted Monday by the grand jury were: Luther Tucker, charged with theft of seven hogs Oct. 3 from Wayne Davis; Franklin Nall, charged with the Aug. 21 burglary of the Carroll Williams residence; Billy Ray Jackson charged with assault with intent to murder Jessie Foy on Oct. 28; and Bub Alexander charged with the burglary Oct. 4 of the James Hollabough residence.

First Christian Church with Rev. J. W. Doke officiating, Military rites and burial, under direction of Duenkel Funeral Home, will be in Fairview Cemetery.

Capt. Scott, born March 30, 1932, in Mounds, Okla., was killed in a one-car accident early Monday morning on a Houston freeway.

Attached to NASA at Houston, Capt. Scott re-entered the U.S. Air Force in 1962. A 1950 graduate of Pampa High School, he was a carrier boy for the News from 1945 to 1947. Capt. Scott was a member of Pampa First Christian Church and Borger IOOF Lodge. He became a member of the U. S. Air Force after graduation from Texas A&M in 1954 being discharged in 1959. Capt. Scott married Miss Betty Jones, daughter of Mr. and Mrs. J. B. Jones, 1018 S. Hobart, on June 21, 1952, in Clovis, N.M.

Survivors include his wife, a daughter, Brenda, and a son, Rick, all of the home; his parents Mr. and Mrs. T. N. Scott of Tucumcari, N.M., and two brothers, Harry Scott of Odessa and Tommy Scott of Houston.

**Inmates Form Cancer Chapter**

HUNTSVILLE, Tex. (UPI)—Inmates of the state Prison have formed a chapter of the American Cancer Society in honor of the late Harry McCormick, Dallas Morning News reporter.

McCormick, dean of the Dallas press corps, had crusaded for years for prison reforms. He died of cancer Oct. 7.

The prison newspaper, The Echo, in announcing the memorial said:

"This old-timer, who had known the warm feeling of friendship with Harry, knew the inmates had a debt to pay because of his crusade for the humane treatment of prisoners."

**This Generation Will Turn Out Well**

By DORIS E. WILSON  
News Staff Writer

Another generation often chants "what's this younger generation coming to?"

Are they interested only in hot-rods, the MOD look, music minus a melody with only a beat? The true answer to this would be as varied as the teenagers you know. Some of them, yes; some of them, no . . . and some of them yes and no.

But wasn't it the same in the "other generation's" day?

There's a senior in Pampa High School who seems to embody all of the freshness, trust, and hope of today's youth, while retaining some of yesterday's probing for the aesthetic unknown . . . before the world got caught up in the frenzied scientific age.

And she expresses herself . . . her thoughts in poetry.

Rae Jeanne Perkins has been writing since she was 10 . . . seven or eight years ago. She

**Journalism Students To Be in Denton**

Pampa High School Journalism students will attend the annual Texas High School Press Association meeting in Denton. Students will attend clinics and discussion groups covering facets of high school journalism.

Martha McMullan, associate editor of the Little Harvester, will preside in her official duties as state secretary for THSPA.

Pat Kennedy, assistant to the director of the Newspaper Fund, Inc., will be keynote speaker. Mrs. Kathleen K. Leabo of the National Scholastic Press Association and editor of Scholastic Editor magazine, will be yearbook specialist.

**Drivers' School Set In Pampa**

A license training school will be held Dec. 4-6 in Gray County courthouse primarily for those persons over 16 who do not have a driver's license. Anyone interested may attend the school, however.

Sgt. Fred Marshall of Lubbock and patrolman Dick Burchfield of Amarillo will conduct the sessions from 7-9 p.m. each day.

Discussion will be based on information in the Texas driver handbook. The officers have conducted similar schools in area towns.

**Meek Chosen For College Who's Who**

Dave Meek of Pampa has been selected as one of eleven Oklahoma Panhandle A&M College students to be listed in Who's Who Among Students in Colleges and Universities this year.

Meek, a senior history major, was chosen on the basis of his scholastic standing, leadership and participation in college activities.

**Pampans At White House**

Phillip B. Filcott and his wife, the former Margerie Nixon, both former Pampans, attended a tea in the White House Monday evening hosted by Lady Bird Johnson, it was learned by the News today.

At the tea, which was televised, Mrs. Johnson was presented with the first copy of a new book compiled by the National Geographic Society titled, "The Living White House." The book traces the lives of presidential families that have lived in the White House.

Filcott is presently serving as assistant to the editor who wrote and compiled the book for National Geographic.

The son of Mr. and Mrs. J. F. Filcott, 1918 Butler, Filcott is a 1942 graduate of Pampa High School, the first class to graduate from the new school building.

**Four Pampans Given U.S. Citizenship**

Four Pampans were awarded U.S. Citizenship yesterday at district court in Amarillo.

The new citizens are: Anneliese Mills, 406 Red Deer, Mr. and Mrs. August Brantwein, 207 N. Ward and Gerdi Honaker, 1208 Barby.

**Ranks Conferred At Pythian Meeting**

The rank of Esquire was conferred on Charlie Grayum of Pampa and the rank of Knight was conferred on Grayum and Eck Koontz, a member of Amarillo Lodge 479, at a meeting last night of Pampa Lodge 480, Knights of Pythias.

Glen Day presided at the meeting. Other visitors from Amarillo lodge were Jessie Burgers, Roy Brashear, Jake Melburn, A. L. Anderson, and H. W. Cunningham.

**Assault Bond Set**

Jodie Lee Hardy, 806 S. Reid, was arraigned on a charge of aggravated assault in county court yesterday.

Justice of Peace Nat Lunsford set bond at \$1,000.

# FDA Presses Drive of Drug Protection

WASHINGTON (UPI) — The Food and Drug Administration is pressing its already stepped-up drive to increase the public's protection from hazardous drugs and sickness-bearing prepared foods.

A stream of FDA officials emphasized at a conference of food and drug industry representatives Monday that the problems of contaminated foods and potentially harmful drugs were not being adequately solved at present.

One official, Douglas C. Hansen of the FDA's Bureau of Regulatory Compliance, hinted the agency was ready to crack down on some drug manufacturers.

He said that there comes a time when we must apply punitive measures if we are to do our duty and the public is to be protected.

"That time is now," Hansen said there has been a marked increase in the number of recalls of hazardous drugs issued by manufacturers: 110 recalls in fiscal 1964, 340 in 1965, 449 in 1966, and this year almost double the number for the corresponding period last year.

This was not the result of declining drug quality, he said, but of improved inspection procedures.

"Our investigations, and the rising tide of recalls but indicate that there are some firms which have not taken the necessary steps to bring their operations into accord with good marketing practices," Hansen said. He added the warning that some firms might face prosecution if they sell defective drugs.

# Foreign Commentary

**PHIL NEWSOM**  
UPI Foreign News Analyst

In Moscow, the correspondent of the newspaper Pravda wrote of Hanoi, the capital of Communist North Viet Nam as he had last seen it early this month.

"The evacuation is continuing," he said. "Rationing has been introduced and sometimes there are interruptions in the food supplies."

In Saigon, where staff members of the U.S. Embassy keep tabs on events in the north it is estimated that forced evacuation of Hanoi has reduced its population from an original 750,000 to something less than 400,000.

As Saigon, Washington and Hanoi ponder the effects of a brief holiday in the fighting, there is continuing debate over the effectiveness of nearly two years of U.S. air attack against the North, and whether, if halted now it should not be halted for all time.

When the bombing began it was described as a move to discourage the North Vietnamese government and to bring it closer to the peace table. It was not to carry the war to North Vietnamese civilians nor was it designed to topple the government. It also was hoped the bombing effectively would slow the movement of Communist men and supplies into the South.

Critics of the operation say it neither has slowed Communist infiltration of the South, now estimated at a new high of around 7,500 men per month, nor has it visibly weakened the determination of the Ho Chi Minh government.

Air attack alone never yet has

# Seven Teachers Given Deferments

AUSTIN, Tex. (UPI) — Seven school teachers have won deferments from the draft until June 1 through appeals to the State Selective Service Board.

The teachers live in various parts of the state but all are registered with the Williamson County draft board in Georgetown.

On Oct. 17, the Williamson County board, unable to meet its draft quotas, reclassified 11 teachers 1-A, making them eligible for the draft immediately. The board said it was the only way it could meet its quota.

The teachers appealed, in most cases with support of their school officials. Seven won deferments until June 1. Appeals of the others have not been decided.

The teachers who won temporary 2-A status were Donald L. Bachmeyer of Median, Jesse Cocke Jr. of Sweeny, Gerald D. Smith of Del Valle, Douglas E. Krueger of Van Rieck, Terry E. Priest of Aspermont, David L. Carlin of Round Rock, and Richard A. Oman of Fayetteville.

Mt. Erebus on Victoria Land in Antarctica is the world's most southerly known active volcano.

In 124 men's social service centers operated by The Salvation Army in the United States, homeless men will celebrate a Christmas filled with new hope this year. With the aid of counseling, work therapy, and spiritual guidance, they are rebuilding their lives. More than 70,000 men are helped in these resident centers each year.

## Dear Abby... Fellow Teacher Has a Lot to Learn

DEAR ABBY: In reference to the letter about the boy who tore part of his lip when he ripped off the adhesive tape a teacher had placed over his mouth.

As a school teacher I object to your telling the boy's mother to "Go to school" and give the teacher some of your lip.

If a parent ever gave me any of her lip I'd give her a slap across the mouth. If parents don't like the way we discipline their children, why don't they discipline them at home!

FELLOW TEACHER: DEAR TEACHER: Good question. However, a teacher has the right to test a student out of her class — only figuratively, that is. A teacher who needs anything other than language to discipline a child, be it a ruler, a piece of tape, or adhesive tape, is in the wrong profession.

DEAR ABBY: How important do you think clothes are? I am a 33-year-old woman who has been told many times that if I want to get a man I should pay more attention to the way I dress. I am average looking. Not too fat or too thin, but I've never been clothes-crazy.

I've always dressed neatly and inconspicuously but I never did have much style. I think if a man is going to get interested in a woman, what she wears won't make that much difference. I'd appreciate your opinion.

PLAIN JANE: DEAR JANE: In this day of competition, "packaging" is important. To quote my friend, Edith Head, winner of seven academy awards for costume designing, and still reigning queen of the fashion world: "All women look alike in the bathtub. The only chance a woman

gets to show her individuality is when she puts her clothes on." I vote with Edith.

DEAR ABBY: My husband is 39 and I am 38, and we have been married for 10 unhappy months. The 5 months we went together he said he loved me, and he acted like it. Now I'm not sure. He told me the other night that he's been thinking a lot about his first love. He went with her for 2 years, then she married someone she'd known only a few weeks.

I asked him if he would go back to her if he could, and he said, "Yes, but I wouldn't want to break up her marriage." Then he hurt me awful bad when he said he didn't think he could ever love anybody else like he loved her.

Abby, I told him I loved him more than anything in the whole world and I would try my best to make him happy. He said, "That's the trouble, you love me too much." I didn't know a person could love anybody too much, Abby. Can they? Please help me. It's so hard to give your love to a man when he has another woman on his mind.

UNLOVED: DEAR UNLOVED: Your husband is right. You do love him too much. One loves "too much" only when that love is unreciprocated. Quit begging. Ask your husband if he wants to try to make a go of your marriage.

If he does, he will see a clergyman, or a professional counselor with you. Otherwise, face it. You'll be tied to a little boy who will be blubbering about his "first love" till the day he dies.

Troubled? Write to Abby, Box 69700, Los Angeles, Calif., 90069.

## Yule Party Set By HD Council

Announcement was made of the Gray County Home Demonstration Council Christmas party to be held at 1:30 p.m. Dec. 8 by Mrs. Jack Howard at the Monday meeting of the council. Mrs. J. Lloyd Laramore, council chairman, presided.

A gift exchange, with gifts ranging from \$1 to \$1.50, will be held at the party in the court-house annex. Miss Jimmie Lou Waincott, newly appointed Gray County home demonstration agent, will be a special guest.

Mrs. Vardeman Smith was elected to fill the unexpired term of treasurer following the resignation of Mrs. Bert Smith. Members present voted to send a box of Christmas gifts to the state hospital at Wichita Falls. Club members are asked to bring an extra gift, suitable for a man or woman patient, such as billfold, coin purses, belts, underwear, shirts, cigarettes, cigars, cosmetics, jewelry, perfume, bath powder, boxed soap, candy, Bibles, after shave lotion, shaving lather, checkers, dominoes, cards, writing materials, gloves, suspenders, socks, hose, hair curlers, bobby pins, shower caps, sewing kit and hand lotion.

Mrs. Carlos Nunez, Assistant HD agent, announced Miss Jimmie Lou Waincott will arrive in Pampa Dec. 1.

Attending the meeting were Mmes. Vardeman Smith, O. G. Smith, Nolan Cole, Carlos Nunez, John Wiesters, B. M. Rogers, Jack Howard, A. M. Nash, Boyd Brown, J. Lloyd Laramore and Marvin Rowan.

For Abby's booklet, "How to Have a Lovely Wedding," send \$1.00 to Abby, Box 69700, Los Angeles, Calif., 90069.

## Gardening News

By THELMA BRAY

An exciting book for gardeners to read is "The How and Why of Better Gardening" by Laurence Manning. As the author says, "It is written to explain what sort of creature a plant really is, and to show in the simplest possible way the basic facts about plants. This is not a book about various kinds of plants as much as it is the story of a typical garden plant. In general, a plant is not like an animal, a single organism with a root, leaf, and stem. The root mines, the leaf manufactures, and the stem transports. Unlike animals, plants have no definite term of life. There is no reason why trees should not go on living forever, except for the accident of storm or drought. Many trees are known to be more than a thousand years old.

The Paris couturiere Mme. Gres has brought a new sophistication of cut and refinement of detail to her American lingerie collection. Samples: strapless boudoir gowns in misty pines of nude and dusk nylon tricot appliqued squares of lace, front and back or a flowing caftan-like gown. For the woman with a sense of daring another gown has ribbon edged diamond shaped cutouts front and back. The latter gown is long and slender and made of ice blue nylon tricot.

Agromony, Plant Pathology, Plant Genetics, Agriculture, Horticulture and Forestry."

It's enough to frighten a person. But, actually, this book is so beautifully written that it stirs one on to greater learning. Quotes will be taken from this book quite frequently for future articles.

## National Window

By LYLE WILSON  
 United Press International  
 Draft deferment on the basis of college grades probably is on the way out despite the act that it is in the public interest educational deferment con-

Interest to put the better educated draftees where they can contribute the most to the public interest. By chance, only better brains are most useful in the less hazardous job.

If the bleeding hearts and vote seekers among our leaders mean what they say about the inequity of educational discrimination, why do they not start on that problem where they have authority to do so, such as by changing the front line assignments in Southeast Asia?

In an era of scientific war the armed services need a supply of drafted brains and the armed services gets them. But other manpower needs of the armed services can be met without waste of brain power.

Defense Secretary Robert S. McNamara has accepted discrimination between brains and brawn as right and proper. Although his pentagon mouthpiece probably would deny it, Pentagon acceptance of discrimination which favors deferment of brains at the expense of brawny blood is shown by several related facts. These are:

—McNamara has accepted a gradual lowering of educational standards by which young men are accepted or rejected.

—Quotas have been imposed on the various armed service requiring each to accept not less than a fixed percentage of the ill-educated or merely dull witted draftees.

McNamara and the Joint Chiefs of Staff have ordered that 25 per cent of the slower-witted be included in each contingent of enlistees and draftees it accepts. The figure is 18 per cent for the Marines and 15 per cent each for the Navy and Air Force.

McNamara and the Joint Chiefs of Staff have ordered the Army to accept a minimum of 25 per cent of the duller-witted among each group of draftees assigned to it. The Navy and Air Force quotas are about half that of the infantry.

—It has been roughly calculated that over 90 per cent of battle casualties in Viet Nam are among ground forces.

Therefore, it is U.S. government policy to assign the ill-educated to the more hazardous ground forces. That is not because the government loves the ill-educated less. It is because it is in the public interest to put them in a foxhole where they are likely to be blasted.

Likewise, it is in the public

Government by the people and for the people is the best ever devised. But it cannot work all of its wonders if the political leaders have mush where their courage ought to be.

Brains are scarce in the United States and so it is, also, with moral courage among politicians. They could lead but prefer to be led. A politician who endorsed conserving brains at the cost of brawny blood probably would be voted out of office the next time around.

So it is that educational deferment probably is on the way out.

UN ON TV  
 WASHINGTON (UPI)—Communications satellites will beam live television coverage of the United Nations' debate on Red China Monday to Europe and Asia.

A spokesman for Communications Satellite Corp. (COMSAT) said pictures would be relayed to Europe by the Early Bird satellite over the Atlantic and to Japan by COMSAT's new Pacific switchboard in the sky, Lani Bird.

Texas' constitution gives it the right to form four new states within its borders.

## Social Security Amendments Make Several Important Program Changes

The Social Security Amendments of 1966 made several important changes in the disability benefits program, according to Virgil J. Holloway, administrative officer of the Pampa Social Security office.

Under the old law, disability insurance benefits were payable only if the worker's disability was expected to result in death or to be of long and indefinite duration. The new law removes this requirement, Holloway stated. It provides that an insured worker who has been totally disabled for a continuous period of six months, and whose condition is expected to continue for at least six more months, may receive disability payments beginning with the seventh month after he became disabled.

For example, a worker who contracts tuberculosis can generally be expected to recover after a period of treatment. This period when he is unable to engage in any gainful work because of his condition may cause undue hardship because the worker is without the income needed to support his family. Because of the new amendments he would now be eligible for payments for himself and his dependents.

There has been no change in the definition of severity of the disability or in the work requirements. The impairment must still prevent the worker from engaging in any substantial work. His age, education, experience, and the nature of the disabling ailment are all considered in deciding if he is able to do any kind of work.

The amount of work under social security needed to be eligible for disability benefits is still 5 years of work covered by social security in the 10-year period before the disability began. However, there are special provisions for some blind people. It is possible for some persons who became blind before age 31 to qualify for disability benefits with less than 5 years of work.

Under the old law it was possible for some individuals entitled to both social security benefits and workmen's compensation to receive combined payments equal to or exceeding their earnings when they were employed. This was not in keeping with the aim of social insurance — to replace a portion of lost income. The new amendments limit the total amount payable to persons who receive both workmen's compensation

THE BORN LOSER

FESTIVAL FUN in Bombay, India, during celebration of the Hindu god Krishna's birthday includes a human ladder to retrieve prize-filled baskets suspended from apartment building ladders. The stunt symbolizes one of Krishna's legendary childhood pranks—stealing housewives' butter pots. The baskets these days are filled with food and money.

The Saluki breed, known to have existed as long ago as 7000 to 6000 B.C., is known as the "royal dog of Egypt."

**MONEY COULD BE SAVED**

**Will Sick Cars Eventually Get Well?**

**BOB COCHNAR and DAVE BURGIN**  
**NEW YORK (NEA)**—A coed rolled her new Porsche 911 into the service station and hopped out, telling the attendant: "Something's wrong with my car. Could you fix it?"

Harper, for 35 years an expert auto mechanic. She and her husband run the Harper Automotive Service in Los Angeles, Calif. "For one thing, if women knew more about the cars they drive they would save them-

at cars as human beings whose ills pass in time. "They know something's wrong, but they let it go, thinking it will go away. "This is very dangerous because an auto is the world's most lethal weapon. The sicker the car, the more lethal it is."

Mrs. Harper suggests that women of all ages who drive should take two hours, sit down and read a good book on auto mechanics. Or at least they should familiarize themselves with the auto manual when they (their husbands, fathers or brothers) purchase a new car. "Another way women can learn to save money in driving is by finding out about service products—gasolines, oils, antifreeze, additives," Mrs. Harper ad.

"Women tend to defeat their own purpose by buying cheap

ive instruction for housewives, high school girls and coeds available for the asking. . . Got a question (or tip) for Wheeling It? Send it along, care of this newspaper.

**You, Your Child And School**

**By DAVID NYDICK**  
**UPI Education Specialist**  
 Educators continuously talk about individual differences and needs. They talk about how different children learn at different speeds and in different ways. If these things are true, why are so many school programs so inflexible?

In many school systems children are not permitted to enter kindergarten or first grade until they have reached a specific age. How does this take into consideration the wide variation in abilities of children of the same age? Shouldn't some provision be made for the child who does belong in a particular grade even though he is not of age?

Does your school say that all children start reading when they enter first grade? This is absurd. Some children know how to read when they enter kindergarten. Some don't learn until they reach the higher grades. Abilities vary but too often programs don't.

School programs are sometimes designed to use each reading book on only one grade level. The third grade teacher does not use a fourth grade book even if she has a group of students who have read the third grade book and are properly ready to move ahead. This certainly doesn't take into consideration that children progress at different speeds in reading.

Does your child's teacher divide the children into small groups for teaching arithmetic or does she teach the entire class regardless of the wide achievement?

Many teachers and schools do use all the available techniques and materials to provide individualized instruction. However, many only talk about doing it and continue to maintain programs which do not have the flexibility to provide for differences.

It should be understood that complete individualization cannot be provided nor is it necessarily desirable. One teacher with twenty five or more students cannot work consistently with each student as an individual. Obviously, the time is just not available in the normal school day.

It should further be understood that there is value in small and large group activities. The interaction of the students results in important learnings. Team work and cooperation should be part of the learning process.

As parents, you should support the schools in their efforts to provide a program which considers individual differences. This means keeping class size down to a workable number of students. It means purchasing specialized materials and supplies. It means attracting and employing qualified staff members.

These are some of the ingredients in a program which provides for individual differences. Such a program should be encouraged and supported.

**Wheeling it**

"Well, miss," the guy said, "roughly where do you suppose the trouble is—the engine, the transmission or is something wrong with the electrical system?"

"All I know is that it doesn't run right," she answered. "Could you fix it and I'll be back to pick it up tonight?"

The guy could be pardoned

for a slow burn. But the girl shouldn't be pardoned, although nine times out of 10 she will be. Females simply aren't expected to know much about cars and therefore rarely pursue knowledge of them.

"Men tend to resent women who know too much about traditional subjects, such as cars," she said.

"Girls sometimes play dumb," says another.

"Wrong," says Mrs. Ma

think something's wrong with the transmission, only to find it's some sort of engine trouble. Even the expert mechanic has to have some idea of where to look for trouble.

"The problem, I think, is mostly with older women. Many of the younger girls have had the advantage of driver training, where they learn more about cars and can maintain an interest in them."

What is worse, says Mrs. Harper, is that women tend to look

stuff when, in the long run, quality products will preserve the life of the car and save money.

"And I think any teen-ager or college girl who thinks she's hurting her chances with her boy friend by knowing about cars is not very realistic. Carburator has nothing to do with femininity."

**PINOFFS:** In many cities YWCAs, women's clubs and automobile clubs make automo-

**AUTO MECHANICS** nearly always is left to the man. But, says Mrs. Mae Harper, gals can get ahead of the game and save themselves money if they take the time to learn what makes a car tick.

**COMMUNITY COLLEGE LEADERS**

CALIF.	80
TEXAS	47
PENN.	43
ILL.	40
N.Y.	34
MISS.	28
FLA.	27

Public junior colleges, in many states called community colleges, have become American education's major "growth industry." New two-year schools are opening at the rate of 50 a year and enrollment, now nearly 1.3 million, is growing at the rate of 200,000 yearly. One out of every three freshmen entering college this fall enrolled at a community college. California heads the states with 80 schools, but the boom extends across the country.

**Wall Street Chatter**

**NEW YORK (UPI)**—Purcell, path of least resistance for Graham & Co. says a strong bull market in growth stocks seems to be underway and that cyclical issues will be hardest hit during declines and, in general, make very little headway. The company, however, does advise avoiding growth stocks that could be affected by an economic pullback as well as cyclical stocks.

Newton D. Zinder of E.F. Hutton & Co. says that despite the many economic uncertainties surrounding the market, a little fault can be found in the recent technical performance of the list. The analyst feels that at least for the near-term, the highest exploration award.

Federal funds available for construction at the nation's 800 junior colleges, American education's major "growth industry," will rise sharply in the next few years under school-aid legislation passed just before the 89th Congress adjourned. The junior college share of federally financed higher education construction expenditures, 22 per cent of the total in 1967, will rise to 23 per cent in fiscal 1968 and 24 per cent in 1969.

**FOOTBALL QUEEN** for the 1966 school year of Pampa High School is Linda Watson, daughter of Mr. and Mrs. Floyd Watson. Linda was crowned queen Tuesday night at the football banquet.

## Rowden Given Heart Award; Watson Is Queen

Linda Watson and Harvester halfback L. D. Rowden walked off with top honors Tuesday night from the Pampa football banquet held in the high school cafeteria.

Miss Watson, one of the Pampa cheerleaders, and a basketball player of note, was crowned the 1966 Football Queen by player-captain Doc Cornutt and was bestowed the traditional kiss.

Attendants were Ann Monroe and Patti Meador, escorted by Rowden and Larry Stephens.

Rowden, the leading scorer in the north zone and selected a north zone all-district player, won the most coveted prize a Harvester can get, the "Fighting Heart" award.

In making the presentation coach Eural Ramsey told the overflow crowd that this year's choice was doubly tough to make because of the unusual number of fine athletes on the Harvester squad.

For the first time squad members were allowed to vote, then the coaches huddled again and Rowden was declared the winner.

Pampa attorney Don Lane handled master of ceremonies chores without a flaw and assistant principal Weldon Trice had the distinction of introducing guest speaker W. T. "Dub" Nelson of Dallas.

A special thanks was given to the football mothers and coaches wives for decorations and for all the work they did in making the banquet the success it was.

**ROWDEN HONORED** — Pampa halfback L. D. Rowden was presented the "Fighting Heart" award Tuesday night at the Pampa High School football banquet.

## BRONCOS TOUGH

# Sonora Likes To Throw

**WHITE DEER** — The passing attack, which gave White Deer a lot of trouble last week, will be prominent again this week when the Bucks tackle Sonora in the quarterfinals of the class A state playoffs.

The Saturday match will begin at 7:30 p.m. and will be played in Snyder.

Sonora has a youngster proclaimed to be the best passer in class A grid circles.

Lanny Cook, the Broncos 180-pound senior quarterback has tossed the ball 127 times, completed 61 for 1,280 yards and 17 touchdowns. Cook, who is known as "The Scrambler" by his teammates has had only two intercepted.

The Broncos returned seven starters from a team that finished 11-1 in 1965 and thus far have bowled over 11 straight foes in 1966. They average 68.4 pounds per man in the line and 66 pounds per man in a potent backfield.

Sonora has been able to score at will against foes but have given up 100 points in the 11 contests, an average of 9.9 per game. But the Broncos have run across 381 points, an average of 34.7 per game.

The Bucks, who ran into a whirlwind last week in Spur, ran their season point total to 420, an average of 38.2 per game but gave up 30 points, which was 10 more than they had allowed in the 10 previous contests. White Deer has now allowed 50 points, an average of a ghastly 4.4 per game.

Coach Bill Hopkins is in his seventh year as head of the Broncos and has never experienced a losing season building up a 58-15-2 record and advancing to the state playoffs several times.

Sonora is currently rated No. 3 in the state and last week bumped off Seagraves 36-0. Other wins have been over Wink, 47-14 in bi-district, and knocked off conference foes, Iraan, 45-10; Sanderson, 63-15; Menard, 48-22; El Dorado, 25-0; Rankin, 28-14; Junction, 32-13; and Ozona 33-0. In non-loop action the Broncos ripped Maston and Ballinger by identical 12-6 scores.

Cook, the passer, has used left end, Noe Chavez, a 140-pound junior, who started last year as his prime receiver. Chavez has caught 41 passes for 860 yards and 12 touchdowns.

Ed Renfro, 165-pound sophomore halfback is the team's leading scorer with 115 points, 1,204 yards in 101 carries and 5 passes caught for 365 yards.

The Broncos have two better than average linemen in left guard Brent Johnson, 180-pound senior. Both were named to all district honors in 1965 and appear to be headed the same way in 1966. These two, along with Chavez, Cook and Renfro have been nominated for all-state.

But good as Sonora appears to be they still have a lot to cope with in a sound-all around

## ON THE SIDELINES

# From the Eyes of a Coach

By BUD WILKINSON

Football games can be won and lost on the sidelines. The bench is a command post, and decisions by the coach and his staff during the battle can make the difference between victory or defeat.

Coaches like to say they have the worst seat in the stadium during a game, and this is true. But their "eyes" are two or more staff members high in the pressbox, phoning information to the bench. Decisions are based on this information.

This part of coaching is of prime importance. If the information is faulty, or the decisions wrong, the team is in trouble.

Humor, often of the grim sort, also is found on the sidelines. Coach Pete Cawthorns' team once was taking a severe drubbing. The assistant manning the phone rushed up excitedly to tell Pete the opponent had changed his offensive formation to launch a new assault. Pete was unperturbed.

"All I want you to tell me," he said, "is when they get out their knives and forks. They're fixin' to eat us alive."

In his lean first season at Kansas State, before he built

the Wildcats into a big winner, Bill Meek had a lot of long, futile afternoons. During one, he asked his assistant in the pressbox, Sol Kamf, if he had any ideas.

"Just one," said Sol. "Forfeit."

It seldom is that grim, however, on the sidelines. The coach and his staff go into the game with their "game plan." When

the game starts, there are certain things they want to know immediately, so they can make necessary adjustments quickly.

When their team has the ball, they want to know what the defense is doing, and how well. They check their own line spacing and the blocking assignments. They look for weaknesses they can exploit.

When their team is on defense, they look for anything different or unusual on the part of the offensive team that requires defensive adjustment. They check to see if they're overpowered in any defensive area. If so, "stunting" or other changes may be ordered.

Primarily, coaches search for positions or areas where their team clearly is physically superior to the opponent — or just as clearly physically inferior. They then try to hit the

weak spots of the opponent, and shore up their own weak spots through various adjustments or personnel changes.

They also watch closely to see if any player — their's or the other team's — is the least bit fatigued. The man who is obviously tired just can't play as well as the man who isn't. It is like counting the pitches of a starting pitcher. When he has

thrown too many, his effectiveness declines.

The sideline often is the scene of squad regrouping or a "pep talk." An example is the excellent job done Thanksgiving Day by Oklahoma's Jim MacKenzie

about six minutes left, the Sooners missed a field goal from close range and were visibly disheartened.

MacKenzie got them together, convinced them they would get the ball again, would move it, and would have another chance to score. The Sooners did just that, and won the game.

Conversation with the officials — most of it illegal — also is a sideline activity. The rules permit the coach to question an official about the nature of a penalty, but not about his judgment. This distinction is not always observed, although penalties for infractions are rare.

**On The Sports Front**  
Bud Wilkinson

## Wheeler Takes Two Cage Wins Over Warriors

**MIAMI** — Wheeler took two of three games from Miami Tuesday night with the Warriors taking victory in the B boys game.

In the B boys contest the Warriors took a 12-10 halftime lead and ran to a 26-23 victory. Loyd South, Carl Weiss and James Lunsford tallied six points each for the winners while Don Reeves hit eight for Wheeler.

In the A girls game Miami managed only three of 21 from the floor in the first half and trailed 27-9 at halftime before staging a second half rally and losing, 43-40.

Beverly Weiss, who had only one point at halftime was high scorer, with 22 points and Kay Maddox added nine. Sue Richardson paced Wheeler with 27 and Nancy Moore had 13.

In the boys contest Wheeler held only a 23-22 halftime margin but put on a last half spurt and coasted to a 49-39 victory.

Ken Gill hit 12 and Curtis Holland 10 for the losers while John Chapman's 16, 11 by Ronald Reeves and Fred Goad's 10 points paced Wheeler.

## Mantle to Shift To First Base

**COLUMBUS, Ohio (UPI)** — The New York Yankees' surprise inter-league trade with the Atlanta Braves paved the way Wednesday for them to convert Mickey Mantle into a first baseman and to bid home run king Roger Maris bon voyage.

The Yankees completed the first inter-league deal of the baseball meetings just before midnight Tuesday when they sent veteran third baseman Cleto Boyer to the Braves for 23-year-old rookie outfielder Bill Robinson.

"We plan to play Robinson in right field with Steve Whitaker," said Lee MacPhail, general manager of the Yankees who negotiated the deal with Johnny McTale of the Braves. Asked where that left Maris, the Yankees' regular right fielder since 1960, MacPhail shrugged and said nothing.

Earlier, it was learned that the Yankees plan to switch Mantle to first base when spring training begins next March 1 with Tom Tresh remaining in left field and first baseman Joe Pepitone moving to center field.

Maris Fades  
The trade thus greased the skids for Maris, who has been a disappointing and controversial player since winning consecutive most valuable player awards in 1960 and 1961 and setting the all-time home run mark of 61 in '61. Maris hit 233 with 13 homers in 1966 after a 1965 season in which he batted .239 with eight homers in 46 games.

## Rifle, Pistol Club Holds Second Meet

The Pampa Rifle and Pistol Club held their second shoot of the season with Ken Williams winning both the .22 caliber shoot and center fire.

Williams won the .22 caliber with a 285 score while Fred Carothers had 272, R. Day had 255 and Jim Smith 236.

In the center fire Williams had 264 and Jess Goad, 251 and David Holt was second with 255.

# Competition Looks Tough in Top O' Texas Meet

**By RON CROSS**  
Sports Editor

Pampa will try to add more to the already state cake Thursday when they open defense of their 11 championships in the 12th annual Top O' Texas basketball tournament.

In the 11 previous years the Harvesters have not lost a game, thus gaining the championship in every tournament and this year appears headed in no different way.

The competition appears a bit stiffer and instead of the regular 4-team holiday affair this year's meet has eight teams with four games each day, Thursday through Saturday.

The Harvesters open with Dumas at 9 p.m. Thursday and the Demons will be seeing their first action of the season.

The kickoff game has Berger playing Childress at 3 p.m. with Channing and Canyon getting together at 4:30 p.m.

The first game on the night card pits the only Oklahoma entry, Elk City against Burk Burnett starting at 7:30 p.m.

In their opening contest coach Terry Culley's cagers will be gunning for victory number five in as many outings this season.

Pampa-riddled Perryton, 76-57 Monday night card are just averaging under 77 points per contest.

If Dumas, who is just getting off the football field, can stop

the likes of Bo Lang, George Bailey, Steve Williams, Rick Foster and two or three others then victory can be had.

But nobody else has done it with all four of the abovementioned hitting in double figures through the four contests already played.

Dumas has three starters back from a season ago, but none will get the starting call Thursday, not having fully recovered from the gridiron wars.

The Demons have slain two of three opponents using nothing but returning lettermen that includes 63 senior Randy Welch at the post; Billy Sloss, 6'2" junior and Rusty Kidder, 5'8" senior at guards; Dwight Jackson, 6'2 1/2" senior and Jim Mebane, 6'2 1/2" senior at forwards.

Coach Jim Hendricks has holdovers Ron McInture, a 6'2" junior, Bob McVicker, 6'2" senior and Glen Bonner, 5'9" junior back but not ready to play.

Channing, always a power, would have to be considered the co-favorites with the Harvesters, although no team will enter the tournament with a losing record.

The Eagles have won five straight, in as many games, and remember if you will, they were beaten only in the state finals a year ago.

The Eagles seem to have forgotten they lost four starters from that 1965-66 squad that finished 38-3.

The only member back from the state finals is Roger Skelton, a 6'2 1/2" senior who averaged 16.4 points per contest.

Skelton, the Eagle center, has Bob Smallwood, a 6'1" senior and Sam Mason, 5'11" junior, to work with at forwards and Gayland Vandier, 6'2" junior and Bob Skelton, 5'6" sophomore as guards.

The Eagles foe, Canyon, returns only one starter, Joe Moore, a 6'2" senior, who averaged nine points per contest last season.

Canyon is littered with lettermen with 6'4" senior Richard Gardner working the post, Mike Barnes, 6'1" senior at the other forward spot with Moore and Rick Willick, 5'9" senior and Gaylon Davis, 5'8" junior at guards.

Canyon, with one victory played Berger Tuesday night.

The Bulldogs, who opened their season against Canyon return no starters, although they have three players who saw part-time duty last season.

New coach Duane Hunt starts Wayne Fryer, 6'0" senior at forward with Don Piland, 6'0" senior; Rick Williams, 6'4" senior works at the post and George Hanna, 5'9" senior and Lynn Kelley, 5'11" junior works at the guard spots.

The Bulldogs' first opponent, Childress may be tough to stop.

The Bobcats returned three starters and stand 2-1 coming into the tournament.

They have Paul Canup, 6'1" senior, returning at forward, Willie Clark, 6'3" senior returning at center and Ike Hughes, 5'11" senior returning at a guard spot.

Clark was the team's leading scorer with a 14.3 average while Canup averaged 9.3 and Hughes, 9.7 points last season.

Mike Henderson, 6'1" senior will be the other guard and David Lassen, 6'3" senior will start at the open forward position.

Elk City will bring a team capable of doing a lot of things,

## More Boxers Agree to Charity Tourney

Several 'name' boxers have given their consent to participate in a charity gloves tournament in Pampa this month.

The three-day event will feature such names, among those who have already said okay, the Snyder brothers, Pete Pettit, Dickie James, Donni Ray and Tom Richardson, just to name a few.

Pettit fought 47 golden gloves bouts, lost only six in the 90 to 118 pound range. Pete won the Pampa district three times, Berger district four times, Perryton district twice and won the championship of the golden gloves meet in Liberal, Kan. six times.

He was regional runnerup in Amarillo twice.

James had 125 fights from 1949-62, won 105 and lost 20. Dickie, one of the best known Pampa boxers was the Pampa district champ four times and the Berger district champ five times and won the Amarillo Regional three times.

Ray, of Shamrock, had over 100 fights and was considered one of the better fighters in the 100-112 pound class. He was at one time asked to turn pro and declined the offer.

Richardson, who fought in the divisions had 65 fights and lost only 10 times, and now weighs in at 260 pounds.

Kenneth Wood, a native of Shamrock and a boxer who will be remembered by oldtimer will compete.

Wood, known as "The Pride of Shamrock" fought for 19 years, was in 168 fights and lost only 17 times.

He started in 1947 and was a district champ of Shamrock and Wellington for seven years, district champ of Berger and Pampa regions for nine years and fought in all weight through 147 pounds. He also fought in the Amarillo regionals for several years.

Over 100 of Wood's trophies are on display in his dad's barber shop in Wheeler.

Bobby Wilhelm, promoter of the charity event, in which all proceeds go to the Christmas fund, said several other boxers have consented to come home for the festivities.

## Rose Bowl Choice Not the Best

**By MIKE GERALD**  
City Editor

The Rose Bowl has long been the most famous and popular football bowl game of them all. However, the 1967 contest to be played in Pasadena, Jan. 2, unfortunately appears to be one of the most mismatched bowls ever.

The classic this year matches the Big Ten runnerup, Purdue Boilermakers, against the Pacific runnerup, Southern California Trojans.

A more interesting combination would of course be a rematch of last year's and this year's football giants, Michigan State and UCLA.

Again, it is unfortunate that

a Big Ten conference rule prevents any member team from participating in the western thriller in two consecutive years.

Nevertheless, Purdue with a 8-2 season record and a 7-1 conference record, with losses only to the nation's number one and two teams, looms as a worthy successor to uphold the honor of the Big Ten conference with almost a sure chance of winning, which is better than the Spartans did last year.

It still remains a mystery why Rose Bowl officials chose Southern Cal over UCLA to represent the Pacific in the classic when top sports writers across the nation never suspected that

and Ted Jobe, another 5'8" lad appears to get the call at guard. The Elks face one of the better teams in the tournament, Burk Burnett, winners of three games in three tries this season.

Burkburnett has four starters back from last season in 6'4" center John Edwards, both starting 6.3.

Edwards averaged 8.6 points last season while Breur averaged 7.8, Owen, 12.7 and Roe 6.3.

As a result, we now have Purdue, laying claim to national number six in the final UPI United Press International ranking of the season, facing Southern California, ranked number 18 in the same poll.

Sure, the Trojans do stand a small chance to upset the Boilermakers as UCLA beat Michigan State 12-7 year ear. But if the Rose Bowl officials were looking trying to spread the bowl around so all the Pacific conference teams could eventually participate in it, why didn't they tap Washington, who bumped off UCLA and only have a 6-4 record, and look for a bigger upset?
