1,000 Southwestern Bell employees are attending training courses today

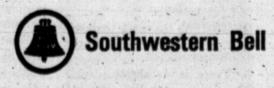

Why?

Because you have to know your business before you can provide the world's best telephone service.

Today-and every workday-1,000 or more employees are in company training classes. Last year, 43,000 telephone people spent 2,900,000 on-job hours learning how to serve you better.

And the training doesn't stop after the workday ends. Last year 2,941 telephone people took advantage of the company's Tuition Plan to attend courses at 110 different colleges and universities. Paid for by Southwestern Bell, these courses cover just about anything that will help the employee do a better job.

Telephone people have established a solid reputation for being courteous and helpful. One thing that helps them help you is the intensive training they receive. Our goal is to make your telephone service—already the world's best-even better.

WITH BLADDER IRRITATION

What'd you expect us to put our Overhead Cam Six in?

An ordinary car?

Our revolutionary 165-hp OHC 6 is so revolutionary we had to do something special with it. So we made it standard in all Tempests and Le Mans.

You see, it was inspired by those famous overhead cam engines in expensive European sports cars. With a few Pontiac refinements, of course.

That's why it'll keep running and running until somebody turns it off. And with a power reserve for expressway passing you'd normally expect from a V-8.

We even offer a 215-hp version that makes a lot of big V-8s, seem awfully extravagant. Which is why we say, with a 6 like this who needs an 8?

Incidentally, a four-way-hazard warning flasher, backup lights, and GM's energy absorbing steering column are some of the safety features also standard in all Tempests and Le Mans. So how can you possibly resist seeing your Pontiac dealer right now?

EVER STRIVING FOR THE TOP O' TEXAS TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to turnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its olessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

Time for Restraint

With the congressional elections now decided, the country will be giving much thought to the economic policies that will be followed in the next two years. The last year has been characterized by disturbing economic signs, and many citizens fear the coming of a re-

Clearly, it will take a great deal of restraint all around for the country to navigate successfully through the difficult period that lies ahead. One fear that is current is the nation might find itself encountering a situation where there was both a recession in business and inflation

If the country is to ride out the troublesome period ahead, there will be special need for restraint on the part of the labor unions. The unions, if they fail to show some responsibility, could trigger a real breakdown of the economy. It should not be forgotten that the airline machinists who went on strike last summer won a wage in-Men are also spared the faticrease that was sharply inflationary. Hollywood, especially, has a time-honored tradition of such pictures. In fact, they once were the bread and butter of chae repproduction, more profit any other amounts she spends Mrs. Jessie Morton, 2235 N. ont he dollar -until television on her support would have to Nelson. claimed the bottom level for its own. Anybody can make an Amovie, but nobody can make Bmovies the way we can here.

"Fame is the Name of the Game" was the meaningless title of the pleasant, mindless little murder - mystery that brought new gloss and technicolor appeal to the B-picture level Saturday night, and the twohour production had no trouble whatever in holding my interest, chiefly because of a newcomer named Susan Saint James. More about her in a moment, but as for the film itself it used the sincerest form of flattery in recalling the plots and twists and techniques in many of the fine, old, little murder-mysteries, even the airy
