CABLE TV IS HERE — Cable television service was turned on in Pampa for the first time today. Al Williams, left, manager for Cable TV, Inc., and Dale Greenhouse, co-owner, pushed the buttons that started the service. The 270-foot tower and building which houses the transmission equipment and TV camera for the weather scanner is located off Kentucky Ave. just north of Price Rd. Offices and studio space are at 1421 N. Hobart.

Price Asks Rusk To Halt 'Illegal' Oil Sale to Reds

Panhandle Congressman Bob Price has released the contents of a letter he has sent to Secretary of State Dean Rusk asking that the State Department reconsider the government-subsidized sale of vegetable oil to communist Yugoslavia.

Noting that there has been a Comptroller General's opinion rendered that such a sale would be illegal under provisions of the Agriculture Appropriation Act for Fiscal 1967, Price asked that the transaction with Yugoslavia be delayed until legislative action can be taken to clear up the matter.

The provisions of the appropriations act under question is the Findley Amendment which provides that no subsidized sales may be made to governments that are trading with North Vietnam or who are allowing ships or planes under their registry to carry goods to North Vietnam.

"Even granting the legality of the agreement signed with Yugoslavia, I question the wisdom of propriety of subsidizing a Communist government which, admittedly, is aiding a Communist-ruled country with whom we are engaged in open warfare."

Price has also introduced a resolution "expressing the sense of Congress" that trade, educational, and cultural exchanges, and other related agreements with Russia and its East European satellites be suspended until they stop aiding North Vietnam.

"I reiterate my objections to this or any other transaction by the United States Government which would aid those who aid a government with whom we are involved in armed conflict," he concluded.

Cable Television Is Turned on in Pampa

Cable television reception became a reality in Pampa this afternoon as buttons were pushed and Pampa Cable Television, Inc., began picking up signals of three Amarillo TV stations for clarity distribution to first customers in the city's northwest area.

E. E. Shelhamer, chamber of commerce president, Mayor Jim Nation, City Manager Jim White, Chamber manager E. O. Wedgworth were among officials at the brief ceremony today in the transmitter station.

First service is ready to be delivered from 20 miles of cable strung north of Kentucky and west of Hobart, according to Williams. The next phase, expected to be ready by March 5, will be ready to turn on for service in homes east of Hobart and north of Kentucky with other areas of the city to follow within several weeks.

Available now are four channels including programs of three Amarillo television stations and a time and weather channel plus music from six FM stations.

Installation of the system in Pampa by Ameco, Inc. & Co. Ax Construction Co. is in charge of Mack Spurlock, job supervisor.

Williams said service rates will be \$9.95 per installation and \$5.50 a month.

Over Shanghai, anti-Mao elements were reported to have used airplanes for the first time to stir up anti-Mao unrest among citizens of Red China's largest city.

The right-wing New Life Evening Post here said three unidentified planes dropped anti-Mao leaflets over the port city of 10 million for three consecutive days and caused "great consternation" among Red Guards.

The newspaper quoted travelers back from China as saying the leaflets vowed to continue the fight against Mao's purge and urged the people to rise up and kill Mao's fanatical Red Guard shock troops.

Part of Manchuria Is Taken by Red Rebels

Rail Service Cut To Key Naval Base

HONG KONG (UPI) — Reports from Red China said today rebel army troops have seized control of the southern tip of Manchuria and cut rail service to the key naval base of Port Arthur.

Two Peking broadcasts today gave new evidence of the paralysis gripping China's economy since the start of the "cultural revolution."

One said army commanders were being sent to factories and farms to "stimulate production" and to propagate Chairman-Mao's thought. Mao's opponents have been accused of wrecking production through "economism" — workers' refusal to take pau cuts.

Another said authorities ordered primary schools in Shanghai to be opened for the first time in eight months and that Mao's cultural revolution must be carried into the classrooms of the students who still are learning to read and write. Mao's opponents were reported trying to block the move.

Recent dispatches from Peking, however, have reported clashes between pro and anti-Mao forces in Shanghai as well as Honan, Hunan and Cheking provinces and inner Mongolia and Tibet.

Peking wall posters said at least three young Red Guard supporters of Mao Tse-tung were killed and several injured in bloody clashes with the pro-Mao troops. More than 400 anti-Mao supporters were reported arrested.

Over Shanghai, anti-Mao elements were reported to have used airplanes for the first time to stir up anti-Mao unrest among citizens of Red China's largest city.

The right-wing New Life Evening Post here said three unidentified planes dropped anti-Mao leaflets over the port city of 10 million for three consecutive days and caused "great consternation" among Red Guards.

The newspaper quoted travelers back from China as saying the leaflets vowed to continue the fight against Mao's purge and urged the people to rise up and kill Mao's fanatical Red Guard shock troops.

Other arrivals from Kong-mun Province in southern China told the newspaper a group of 2,000 heavily armed anti-Maoists have been carrying out a guerrilla warfare against the Red Guards in the Pearl River Delta area.

There was no immediate confirmation of the reports. But Peking Radio Thursday claimed

followers of the aging Chinese party Chairman Mao Tse-tung had defeated anti-Maoites in the southern mainland provinces of Fukien and Kiangsi.

These were the fifth and sixth provinces that Peking says are under Mao's control. The others include Heilungkiang, Shansi, Shantung and Kweichow.

NSA Accuses CIA Of 'Intimidation'

WASHINGTON (UPI) — A National Student Association spokesman today accused the Central Intelligence Agency of "intimidation" against NSA leaders the spy agency feared would reveal the clandestine relationship between the two organizations.

Officers of NSA who had signed national security oaths have not violated their trust. Yet they have still been threatened with legal action, and his has been only a part of the harassment," Philip Werdell, a NSA press liaison representative, charged in the statement.

"The CIA has intimidated them with personal threats ranging from character assassination to placing pressure on the 'establishment' to reject them from responsible roles in American society," Werdell said.

The security oaths Werdell required of past and present NSA officers who were informed that the Central Intelligence Agency was supporting the student organization with secret annual subsidies over the past 15 years.

Disclosure of the CIA-NSA tie earlier this week prompted President Johnson to order a review of all such government agency arrangements with educational groups. Shocked legislators called for a congressional investigation.

Werdell did not specify the persons alleged to have been

the object of CIA intimidation, but it was learned one of them was Philip Sherburne, a past president of the NSA.

A Washington newspaper said today it was informed by a "responsible authority" that Johnson was totally unaware of the Central Intelligence Agency's financial tie with the NSA.

The unnamed official said he believed no one on the President's staff knew of the arrangement until "very recently," the paper said.

But there was some conflict in the varying report of just how well informed higher

officials had been on the matter over the years.

The State Department had said Wednesday the CIA subsidies to the NSA had approval at "the highest levels." This was taken at the time to mean the White House circle and the President.

NSA officials themselves, said they consulted Vice President Hubert H. Humphrey last summer when they sought ways to break the clandestine CIA tie by replacing the income with above board money from other sources, preferably non-governmental.

IN POWELL CASE

Group May Ask For Pay Plan

WASHINGTON (UPI) — The special committee judging Adam Clayton Powell may recommend that if he is seated in Congress his \$30,000-a-year salary be docked to reimburse the government for alleged payroll and travel abuse.

The plan was only in the idea stage, but it was learned today that at least one member of the

nine-man panel was ready to put forward the proposal.

Besides having a legal purpose, the plan would put the onus on Powell by leaving it to him to decide whether he would be willing to serve in the House for reduced pay or for no pay at all.

Several members of the committee are known to have reservations about the legality of denying Powell his seat if he can meet the three constitutional qualifications for House membership — age (he's over 25), citizenship (natural-born U.S.), and residence: he's a New York resident.

But a seldom-used law permits the House or Senate to dock the pay of members who owe money to Congress for one reason or another.

How much he would lose in pay would probably be up to the committee. Mrs. Yvette Flores Powell, the Harlem Democrat's estranged wife, told the panel Thursday she had done no work for the last 18 months she was employed as a \$20,378-a-year aide in his office.

Earlier this week, the committee heard about a number of allegedly unauthorized trips to Miami charged to the House Education and Labor Committee Powell headed. The going price for a round-trip airline ticket — first class — Washington-to-Miami is about \$150.

Powell could object to docking his pay on ground he owes the government nothing. His lawyers hope the courts will accept a constitutional challenge to any action that would bar him from his seat, but they are less likely to win a court review of a method of punishment prescribed by the House.

Bombers Fly Record Number Of Air Raids

SAIGON (UPI) — U.S. B-52 bombers flew a record number of raids to support allied troops engaged in a series of battles that are resulting in some of the heaviest Communist losses of the war, military spokesmen said today.

Spokesmen said the eight-engine Stratofortresses carrying up to 30 tons of bombs each made seven strikes Thursday to soften Communist resistance in a series of allied campaigns launched this week. The previous record for B-52 raids was five, on Nov. 14, 1965.

The allies have amassed about 30,000 troops in battles through five border and coastal regions of South Vietnam, signaling what apparently is the start of a grand new strategy to carry on several major campaigns simultaneously.

It has paid off so far with some of the heaviest Communist losses of the war, spokesmen said. U.S. and other allied troops reported killing another 276 Communists Thursday for a two-day toll of nearly 900 enemy dead. There have been few comparable periods in which enemy casualties were as high.

The investigation was asked for by Maj. Nguyen Cao Quyen, head of a special Vietnamese court set up by Ky to fight corruption and handle cases of economic crimes. Several Americans have been convicted by the special court, from which there is no appeal.

Quyen was particularly disturbed by a report from the Defense Department in Washington that "third country" nationals could be put under jurisdiction of American military courts "in time of war" and when persons are serving with or accompanying American troops in the field.

"As to citizens of third countries, the American authorities have no right to arrest them," Quyen said.

Investigation Asked To Probe Viet Laws

SAIGON (UPI) — A key aide of Premier Nguyen Cao Ky called today for a U.S. congressional investigation of an American military attempt to extend its jurisdiction over civilians in Vietnam.

The investigation was asked for by Maj. Nguyen Cao Quyen, head of a special Vietnamese court set up by Ky to fight corruption and handle cases of economic crimes. Several Americans have been convicted by the special court, from which there is no appeal.

Quyen was particularly disturbed by a report from the Defense Department in Washington that "third country" nationals could be put under jurisdiction of American military courts "in time of war" and when persons are serving with or accompanying American troops in the field.

"As to citizens of third countries, the American authorities have no right to arrest them," Quyen said.

American troops are stationed on Vietnamese territory and nowhere in this land is there private land of the Americans. There are no American bases, so the Americans cannot use the American jurisdiction."

American consul Robert A. Lewis Wednesday confirmed that third country nations in certain instances would be subject to American military laws under a congressional statute. At the same time, the U.S. Embassy here also issued a statement saying the American mission was "acting in accordance" with this congressional statute.

The controversy began when it was learned that the American Military Assistance Command, Vietnam (AMCV) and the American mission were quietly working out new regulations which would extend military control over civilians — a new status, for civilians in Vietnam.

Death Slow for Young Tennessee Volunteer

By LEON DANIEL
TRUONG L. A. M. Vietnam (UPI) — A man is not asked in this war to volunteer for a mission that automatically makes him a human bullseye. Somehow there are always volunteers.

A young man from Tennessee — the Volunteer State — took a firm grip on a rope Thursday and lowered himself into a well in this tiny village 300 miles northeast of Saigon.

He was armed only with a flashlight, a .45 caliber pistol and the kind of personal courage most men command only in their dreams.

He slid slowly down into the well. Ten feet... twenty... At 30 feet, almost the water level, a desperate Communist guerrilla fired twice at point-blank range from a crevice in the well wall.

The bullets ripped into the belly of the Tennessee youth. He did not scream. His grip on the rope remained firm.

There is the knowledge he may suffer infinitely in his last minutes of life.

It is a horrible thing to see a man "gutshot."

Minutes passed and the anger waned. Stevenson ordered the enemy who had probably killed his man to be taken alive. It was an admirable study in integrity and the ethics of professional soldiering.

His mission was deadly simple; see if any Communists are hiding in the black depths and get them out if they are.

He was armed only with a flashlight, a .45 caliber pistol and the kind of personal courage most men command only in their dreams.

He slid slowly down into the well. Ten feet... twenty... At 30 feet, almost the water level, a desperate Communist guerrilla fired twice at point-blank range from a crevice in the well wall.

National Window

By LYLE WILSON
 United Press International
 The Department of Defense under the direction of the fastest brain in Washington, continues to engage in disgraceful and inexcusable waste of the taxpayers' money, the fastest brain, of course, is Defense Secretary Robert S. McNamara, former president of the Ford Motor Co.

The sum involved in the current example of Defense Department waste is not large. But it is typical and it is disgraceful. The Comptroller General of the United States—Elmer B. Staats—reported this example to the appropriate congressional and budget authorities. Here is the key passage of Staats' report:

"We found that the Department of the Army had incurred costs of about \$1 million to buy for and to deliver to Thailand, locomotives which were unable to meet Thailand's specific requirements for mainline use, the purpose for which furnished."

"We found also that the Department of Army officials had not obtained clarification of contradictory technical requirements. Instead (they) had prepared a purchase description and initiated procurement of the locomotives before ascertaining whether the locomotives would be able to perform the function for which they were intended. Therefore, the locomotives procured which were adequate only for switching and yard work are being replaced by main-line locomotives costing about \$2.3 million."

Staats report diagnosed the goof as having been caused by faulty management procedures or lack of such altogether.

How could there be faulty management procedures in McNamara's department? Taxpayers are entitled to an answer. They won't get it.

The \$1 million flushed down

the waste pipe by someone in the Department of Army will not seem so large a sum to McNamara. But thousands of hard working Joes with wives, kids, a jalopy and mortgages laid their tax money on the line to underwrite this wasteful process. Any Joe and his wife would regard \$1 million bucks as a considerable sum.

The \$1 million wasted is not much against the sums which is provided for Defense Department spending. The sum will be about \$75.5 billion in the next (1968) fiscal year. The disquieting aspect of this relatively trivial incident of waste is that it is typical, painfully typical.

Any constant reader of Controller General Staats' reports to Congress (include your correspondent in this group) is aware that McNamara's Defense Department maintains the pace in careless spending of other people's money, your money. In a department run by management procedure which, there is not much excuse for ignorance of elementary principles of management procedure as is so often revealed in Staats' reports to Congress.

The military brass involved—the high brass—should know and do better. The high brass is well paid, enjoys free hospitalization, and other privileges, retirement after 20 years. They owe it to the supporting taxpayers to know their jobs at least as well as those jobs are understood by Staats' stable of anonymous and less-favored accountants.

The taxpayers would be warranted in view of Pentagon waste to paint their legs red and march on the Pentagon building, to grow beards, strum guitars and yodel songs of protest. A more effective protest, however, would be on election day. Make your candidate promise to throw the wasters out.

UPI Editor Hits At News Censor

EUGENE, Ore. (UPI) — Roger Tatarian, editor of United Press International, said today Congress should clarify whether the Pentagon seeks control of all news to 1.8 million American servicemen and their dependents overseas.

"To the extent that independent alternatives are available, Americans in the armed forces should not have their news laddled out solely from a brass spoon," Tatarian said.

He addressed the Oregon Press Conference as guest speaker for the Allen Memorial Lecture which honors Eric W. Allen, former dean of the University of Oregon Journalism School who died in 1944.

In declaring that Congress should determine Pentagon intent toward the distribution of news, Tatarian specifically mentioned the new Armed Forces News Bureau which operates under centralized control of the Pentagon.

The bureau is the outgrowth of various consolidations and mergers of military radio, television and press services. On Jan. 1 it put into operation an expanded program for overseas radio and television stations and military publications.

"So long as the Armed Forces News Bureau functioned as a supplementary source of news," Tatarian said, "it was immune to suspicions of getting into the news business."

Bob Price Will Speak At Barbecue

Congressman Bob Price of Pampa will be in Amarillo for an 18th Congressional District barbecue at the Tri-State Fairgrounds Saturday, Feb. 25.

It will be Price's first public address in the district since the opening of the 90th Congress.

The congressman will talk on "Happenings in Congress" at the barbecue scheduled for 7 p.m. in the Exhibits Building at the fairgrounds.

Tickets for the barbecue will be \$3 each and may be obtained in Pampa from George Cree Jr., Gray County GOP Executive Committee chairman, and Jim Campbell, district committeeman, or by writing to P.O. Box 986, Amarillo.

 "... And so—the story BEHIND the story on recent events in Red China is that NOBODY knows what the story is!"

Taxpayer Errors Hold Up Refunds

Twenty-five percent of the taxpayers filing income tax returns early in January caused their refund checks to be delayed by errors. Ellis Campbell, Jr., district director for the Dallas District, says the first report on tax filing from the Austin Service Center showed 10,195 refund checks, amounting to \$1,195,323.00, had been refunded by the Southwest Service Center at Austin, to taxpayers in Northern Texas.

However, Campbell pointed out that more than 2,500 other early filers had caused their refund checks to be delayed through taxpayer errors. There were 850 taxpayers who made an error by using the wrong tax table or putting their tax on the wrong line. More than 700 failed to enclose their W-2 forms. About 500 failed to sign their return. Some 265 returns had missing schedules and documents.

The use of preprinted mailing labels furnished with the tax returns has reduced the number of taxpayer errors on Social Security Numbers this year. Errors in Social Security Numbers were the most frequent taxpayer errors last year. There were still 250 taxpayers among the early filers who mixed up their Social Security Numbers this year.

The Dallas District estimates

Scout Troop Given Charter at Lefors Lions Club Meet

LEFORS (Spl) — Members of Troop 19 of the Boy Scouts of America were guests of The Lefors Lions club at its regular meeting this week.

Out-of-town guests were Steve Odom and Bill Felter of Pampa and Jay Thompson of McLean. Felter presented boss lion Ray Chastain the charter of Troop 19, sponsored by the Lions.

Troop 19 was organized recently and now has 17 boys led by scoutmaster Walter Elliott. Jay Thompson of McLean presented the Lefors club with a 100 percent participation award for projection of the High Plains Eye Bank. Two dollar donations by each member was the requirement to be eligible for the award.

Jay Thompson, a member of the McLean Lions club and a director of the High Plains Eye Bank organization, explained how eyes are preserved and donated.

Dennis Keith was honored as cub of the month and Robert Rogers was installed as a new member.

Easter Seal Appeal To Open In Gray County on February, 19

The 1967 Easter Seal Appeal will open in Gray County next Monday, according to Paul D. Keim, Easter Seal Representative for the county. Keim said that Easter Seal Appeal letters would begin arriving at homes in the county about March 1.

As Easter Seal Representative Keim is the person to contact to request rehabilitation services from the Easter Seal Society for Crippled Children and Adults of Texas. The services, Keim stated, include physical and occupational therapy, speech and hearing program and special information services to help solve the many problems faced by the families of handicapped children and

adults. Special emphasis is being given in 1967 by the Easter Seal Society in Texas to locating disabled children and adults who may need rehabilitation services and do not know where they are available. Anyone who could benefit from treatment and services offered by the Easter Seal Society can contact Keim at the First National Bank in Pampa.

The Easter Seal Society was established to assist disabled persons and their families in finding and making effective use of all resources which will be helpful to them in developing their abilities and living more useful lives. The Society

helps support 23 treatment facilities where crippled children and adults are treated regardless of their ability to pay. Wheelchairs, walkers and related services are provided to those who cannot provide for themselves.

Keim said the Easter Seal Society depends on the annual Easter Seal Appeal to finance the program of rehabilitation in Texas.

Think.

What else besides Long Distance telephone service costs you less today than it did 20 years ago?

Tough question. Not many things have gone down in price these past few years. Most goods and services have zoomed up in cost.

Long Distance rates are a pleasant exception. There have been ten rate reductions in Texas since World War II.

Nowadays, you can make a three-minute, station-to-station call to anywhere in the continental United States (except Alaska) for \$1 or less after 8 p.m. or all day Sunday. This is the lowest rate ever. (Interesting comparison: The first transcontinental phone call, made in 1915, cost \$20.70.)

And service today is faster and more convenient than ever before.

Better service at lower cost; we think that's a winning combination. Don't you?

Southwestern Bell

Nothing Taken In House Burglary

An apparent house burglar apparently didn't find anything he wanted Thursday evening at the home of Mrs. C. S. McMullins, 947 S. Hobart.

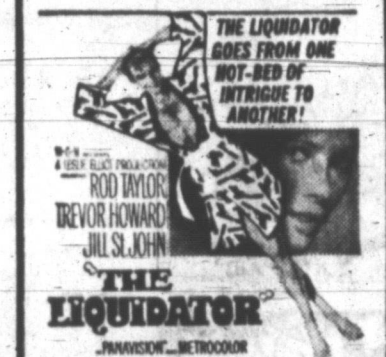

According to a Pampa report Mrs. McMullins heard someone at her back door and went out the front door and to a neighbor's home.

Police were called and found the back on the back screen door had been ripped off and the slide lock on the kitchen door unlocked.

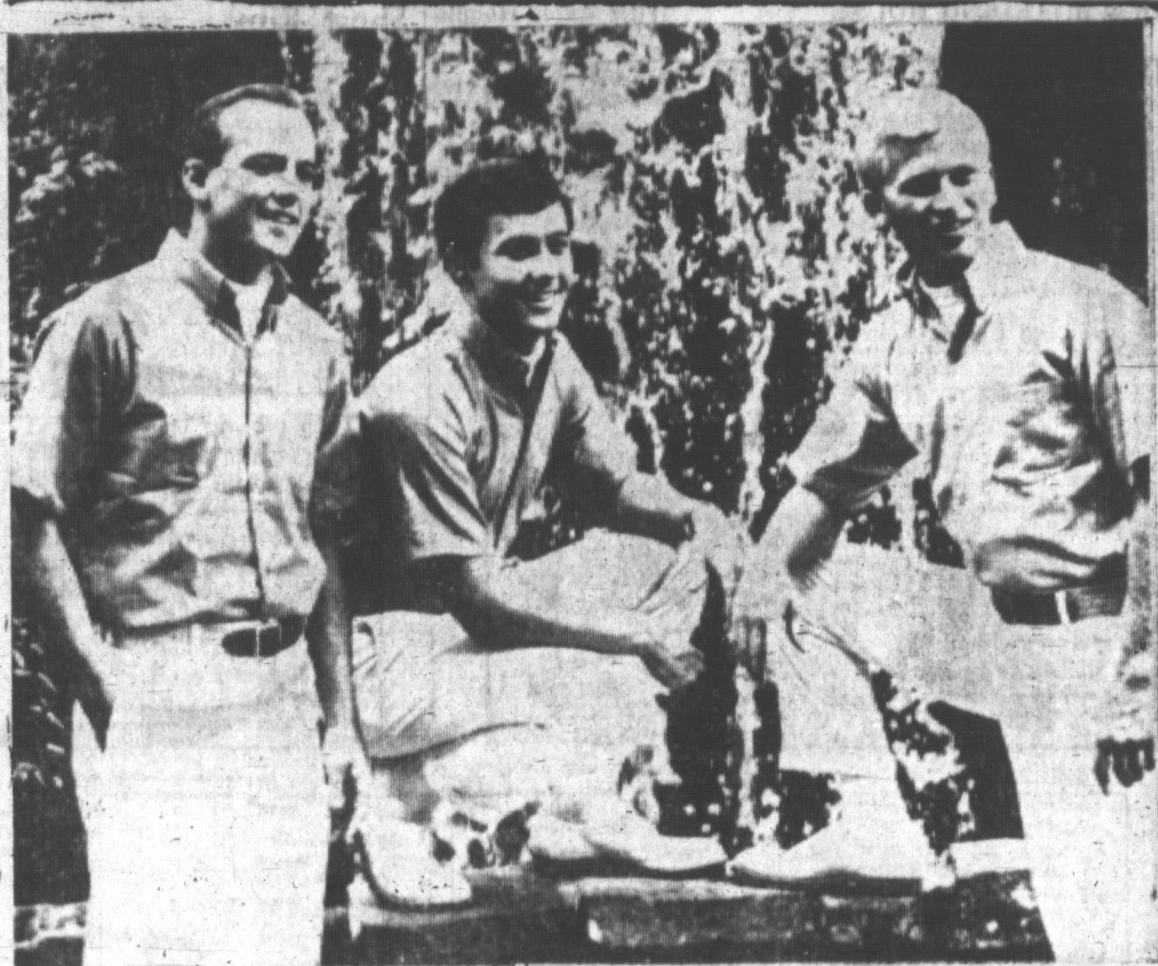

The burglar went through the house but took nothing.

THE WINDJAMMERS — Pampa High School Key Club will sponsor the Windjammers tonight at 8 in the High School Auditorium. Members of the talented group are (left to right) Clark Walter, Jerrell Elliott and Pat Hamilton. For the last two summers the Windjammers have been the featured singing group at Six Flags over Texas.

PRAISE AMBASSADOR

MOSCOW (UPI)—Moscow Radio today paid tribute to America's first ambassador to the Soviet Union, William C. Bullitt, who died Wednesday in Paris.

Key Club Sponsors Windjammers Group

The Windjammers will perform in concert in the high school auditorium a 8 o'clock tonight.

The Abilene-based trio, consisting of Jerrell Elliott of Ranger, Pat Hamilton of Lubbock and Clark Walter of Artesia, N.M., is being sponsored in their appearance here by the Pampa High School Key Club.

Tickets for the show will be available at the door, according to Mike Carr, Key Club president. Admission is a dollar.

The Pampa concert is part of a schedule of high school and college concerts which began for the Windjammers last fall.

Since the formation of the Windjammers on the McMurry College campus, success has become a comfortable companion for the trio. Their brand of music has been heard by more than a million persons, including over half a million in two consecutive summer stands at Six Flags Over Texas. The Windjammers credit their work

Obituaries

Jonathan and David Dunn — Jonathan and David Dunn, infant twin sons of Mr. and Mrs. Jerry Dunn, 204 E. Foster, died early this morning in Highland General Hospital following birth yesterday afternoon.

Graveside rites will be conducted at 10 a.m. tomorrow in Baby Gardens of Fairview Cemetery with Rev. C. R. Bridges, pastor of Highland Baptist Church officiating. Arrangements are under direction of Carmichael-Whately Funeral Directors.

Other than the parents survivors include three brothers, Terry, Tommy and Tony Dunn, and a sister, Corinne Dunn, all of the home; and grandmothers, Mrs. Lorene Dunn and Mrs. M. D. Dwight, both of Pampa.

Top Students Announced For Pampa High

Top-ranking students in junior and senior classes in Pampa High School have been announced by Mrs. Dona Cornutt, registrar.

Heading the list of senior students are Doc Cornutt, Gail Donaldson, Beverly Grady, David Harris, Ann Jamieson, Janet Jones, Robert Karr, Peggy Peoples, Myron Porter and George Walters.

Top students in the junior class are Susie Abernathy, George Bailey, Nell Duncan, Roselee

Candidates File For Prexy Of Student Council

Pampa High School joins the city political scene with filing for the office of president of the student council for 1967-68.

Campaign week will be April 3-7 with final election slated for April 7. New officers will be installed April 14.

Student body members will elect a president, vice president and secretary. The student receiving the highest number of votes will be president and the closest candidate will take office of vice president.

Candidates for the top offices must be single, juniors and must not have failed in more than one solid subject in either of the two preceding semesters. They also must have maintained at least an 80 overall average during the fall semester of their junior year, according to the Pampa High School Constitution.

Franke, Cynthia Orwig, Renee Secret, Rhonda Smith, Pam Thomas, Septhen, C. Walls and Perry White.

Former Pampan Named Manager Of PR Office

Mrs. Anna C. Reed, the former Anna Merle Cox and women's page editor of the Pampa Daily News in the early 1950's, has been appointed manager of public relations at International House, Managing Director Paul A. Fabry announced today.

In this capacity, Mrs. Reed will be in charge of the publications of the civic organization including Trade Winds, and will also coordinate International House publicity work for trade and cultural promotions worldwide.

Mrs. Reed was public relations director for the United Fund in Lubbock, Tex., before moving

to New Orleans with her husband, Wayne Reed, a petroleum engineer with the U. S. Geological Survey. The Reed and their children, Jaynie, 10, and Steven, 6, reside in Metairie.

From 1960 to 1965 Mrs. Reed was assistant women's editor and women's editor at Lubbock Avalanche - Journal. Prior to that time she worked with an advertising agency and a television station in Lubbock.

She is a former member of Lubbock Women's Club, Lubbock Advertising Club and Camp Fire Girls, Inc. She attended John Tarleton College in Stephenville, Tex., where she majored in journalism. Mrs. Reed is the daughter of

Mr. and Mrs. A. C. Cox, 903 E. Francis. At Pampa High School, she was a member of the Little Harvester.

International House is a non-profit organization headquartered in New Orleans and dedicated to the encouragement of courtesy and harmony among people of all nations. Founded in 1943 by New Orleans civic leaders to give practical effect to the Good Neighbor Policy, it has become a clearing house for international trade, travel and communication.

OUR BOARDING HOUSE With Major Hoople Short Ribs

Dear Abby... The Blabbermouths Day Will Come Soon

DEAR ABBY: There is a woman in our town who works for a loan company, and she blabs all the confidential information she picks up through her job. She tells everything she knows, and she knows plenty.

I understand that her boss has been informed of this fact, but he won't fire her, because he has a "personal" interest in her, if you know what I mean. (The boss is married and so is this woman.)

How can innocent people be tipped off to what the deal is there?

HEARD TELL
DEAR HEARD: A business that keeps a "firproof" blabbermouth will not last long. Those who come within earshot of her will see to that.

DEAR ABBY: Recently we moved into a very nice home, and our problem is the interference we get when we try to use our television set. Now we find out that a neighbor is a ham radio operator, and that's the reason for the interference. My son spoke to his son about it, and the kid gave him some kind of silly answer about maybe something was wrong with our set!

Abby, do you mean to tell me that just because some nut fools around with ham radio for a

hobby, we have to hold still for this? In this country where there are so many ridiculous laws, are there none to control these useless nuts? Please advise.

RECEPTION RUINED
DEAR RUINED: Ham operators are usually very cooperative and perhaps your neighbor would be, too, if you approached him properly. I am advised by a veteran ham operator that if a neighbor complains about interference, he (the ham) will gladly provide him with a coil which filters out the interference.

DEAR ABBY: We have two daughters, Joyce who is 20 and Jessica who is 16.

Joyce is getting married in May. She insists on having her wedding in her boy friend's church because it is bigger. We live in a small town and belong to a small, but very nice little church. Her boy friend lives in a bigger town and belongs to a bigger church.

I don't feel like doing any of the planning in a church where all are strangers. Also Joyce says Jessica can't be in the wedding party because she is too young. Jessica is just as tall as Joyce, and she is heartbro-

Homemakers Club Sees Demonstration On Lamp Shades

SKELLYTOWN (Sp) — Skellytown Homemakers Club met recently in the home of Mrs. Floyd McCoy, north of Skellytown.

Mrs. Gertrude Huckins, secretary read the minutes of the last meeting.

Mrs. Bob Lawrence and Mrs. Gertrude Huckins received Valentine gifts from their secret pals.

Mrs. Ethel Hunt and Mrs. Pauline Heaton demonstrated the making of lamp shades from egg cartons.

Dessert refreshments were served by the hostess to Mmes. Bob Lawrence, Bob Heaton, Gertrude Huckins, Bob Heaton, Crawford, W. S. Berry, Kenneth Fanning, John Simmons, Ethel Hunt, a new member Mrs. Earl Looper, and four visitors, Mmes. Walt Shair, Mariene Brame, Lloyd Franklin and Mable Rhodes.

Please reply soon and tell me what to do.

MRS. A.
DEAR MRS. A.: Joyce needs a kindly lesson in values and humility. A wedding launched from a platform of such materialism and lack of family concern is off to a poor start. But if at 20, your daughter must be told these things, don't be surprised if she doesn't hear.

CONFIDENTIAL TO "JUST ASKING": If a woman attracts men, she has sex appeal; if she attracts women, she has style; if she attracts everybody, she has charm.

How has the world been treating you? Unload your problems on Dear Abby, Box 69700, Los Angeles, Calif. 90069. For a personal, unprinted reply, enclose a self-addressed, stamped envelope.

For Abby's booklet, "How to Have a Lovely Wedding," send \$1.00 to Abby, Box 69700, Los Angeles, Calif. 90069.

LIFT SOD

A good solution, of you still have good sod in a low-lying spot, is to take a spade and roll up or remove the sod. Then fill the hollow with nicely-sorted and lightly tamped soil before returning the sod to its original position. This method heals quicker and hides the work better.

You may have noticed during the hot weather of summer that your lawn developed poorly-colored dried up spots. If it is not beetle or grub damage, it may be a rock or builder's trash buried just under the surface which prevents rooting and feeding as deeply as elsewhere. The result is a very uneven lawn which no amount of feeding or watering alone will ever really correct.

Red Stocking Revue Director William Waggoner Gets Rehearsals Underway

(Daily News Staff Photo)

William Waggoner, representing Jerome H. Cargill Productions, Inc., of New York, arrived in Pampa Tuesday.

The 23-year-old Waggoner will direct the All New Red Stocking Revue being produced by Beta Sigma Phi Sorority. Presentations for the variety musical show are slated for 8 p.m., March 3 and 4 in Pampa High School Auditorium.

Waggoner, who choreographed the show, said that many popular songs will be used including "I Want To Be Loved by You," "The Stripper," "I'm Gonna Live Till I Die" and "Sweet Old Fashioned Girl."

Features of the show will include an oriental number, a dance with eight strippers, a western number, a wedding scene, a soft shoe number and the "Rockettes."

Rehearsals for some of the women's specialty numbers are being conducted from 10 to 12 a.m. daily in Pampa Youth and Community Centers. All other rehearsals begin at 6:30 p.m. in Pampa High School Cafeteria. Persons interested in ap-

pearing in the show need not be Beta Sigma Phi connected. They may come to either rehearsal place and audition for the production.

Waggoner, who celebrated his birthday at a Director's Party Tuesday evening in Jim's Steak House, hosted by the sorority, has been associated with Cargill Productions for four years.

Previous to that time he had appeared in professional stock stage plays at Santa Barbara, Calif., with Rhonda Fleming in

"Bell, Book and Candle," with Celeste Holme in "Affairs of State," and with Ann B. Davis in "Arsenic and Old Lace."

He has also had experience in community theatre direction at Bakersfield, Calif., and attended Bakersfield Junior College where he majored in acting and dancing.

Waggoner has directed shows for Cargill Productions this season in Wenatchee, Wash., Milwaukee, Wis., Pensacola, Fla., and Monroe, Mich.

Ruth Millett If Students Cheat Parents Have Failed

By RUTH MILLETT
Newspaper Enterprise Assn.
Twenty per cent of freshmen in a representative sampling at America's colleges and universities admit to cribbing on an examination in the past

year. That is the report of the American Council on Education, the principal co-ordinating agency for higher education in the nation.

That means that one-fifth of the parents who are sending their sons and daughters to college in the hope of giving them the best possible preparation for life have already failed to give them the best possible training at home.

Somewhere the parents of students who cheat on exams have failed their children. They

Astrological Forecast

By CARROLL RIGTER

FOR SATURDAY, FEB. 18 — GENERAL TENDENCIES: Most persons in an effort concerning any sales or purchases and you would be wise to double-check whatever you do expect. Make sure you make no mistakes whatever in connection with your desire to arrange both private and practical matters in the future according to your own special technique.

ARIES: (Mar. 21 to Apr. 19) — Put that plan into effect that will bring into focus your largest objectives, and do a little and, line the well-worn road to get results out, stop make calls that leave you feeling more positive and less tense.

TALIES: (Apr. 20 to May 20) — You may be quite in error over some matter of finance, so consider your objective you will be able to add to your abundance. Show others that you have good judgment, practical sense. Be happy! Be healthy!

LEMON: (May 21 to June 21) — Try to get the right perspective in your life. Fairness and you may be daydreaming pretty much. Certain social affairs may seem more important than they are. Choose well and do not be very extravagant.

MOON CHILDREN: (June 22 to July 21) — Some secret wishes should certainly spoil your chances to get ahead in the business world, if you permit. Forget it and be happy. Be very serious and you improve your position remarkably.

LEO: (July 22 to Aug. 23) — Keep busy at any obligations that are a must right now and you can get out for social fun with a free mind, sans worry. Do not take in heart some rather harsh word that may utter. Some tension is causing it. Be kind.

VIRGO: (Aug. 24 to Sept. 23) — Know how what your position is with close ties and assure him you will cooperate with them to the best of your ability. Come to better understanding with those who have become rather cold toward you. Get honest answers.

LIBRA: (Sept. 24 to Oct. 23) — Find more modern ways of improving your home, office, etc. See that you personally are satisfied. Some time and health treatments will pay off in big dividends. Be kind.

SCORPIO: (Oct. 24 to Nov. 23) — If you tried to what a successful party you are in, you can have a wonderful time today. Doing whatever a delightful attachment aspect of you is wise. Show that you are a very thoughtful person.

SAGITTARIUS: (Nov. 24 to Dec. 23) — Make it your business to learn how your son feel with respect to some business deal, fair and, if they disagree, study it carefully. Gradually changing attitudes get rid of whatever bad ideas were held.

CAPRICORN: (Dec. 24 to Jan. 23) — Stop making such a fuss over income, material matters and get out and have appointments, etc., that are important to your well being. Be happy with partner in your life. Stop the what will please them.

AQUARIUS: (Jan. 24 to Feb. 23) — If you had some of that over-enthusiasm to get out for fun and carefully handle vital duties first, you can then be without anxiety. Get advice from wise persons how to make right improvements to property.

PISCES: (Feb. 24 to Mar. 23) — By being faithful you can get the approval of some social leaders. But don't try to be smart — a lack instead of having male or female because you are feeling frustrated. Avoid making any deal and have appointments, etc., that are important to your well being. Be happy with partner in your life. Stop the what will please them.

IF YOUR CHILD IS BORN TODAY... If your child is born today, understand the other habits and ideas and respect the best results are to be had in them. Fine spiritual and academic training is necessary and basic lessons in good man-

Cotoneaster Is a Handsome Hedge

UNIVERSITY PARK, Pa.—If you're looking for handsome hedge plants for home landscaping — and something different than privet or yew — do not overlook the cotoneasters. Their small, pink flowers in the spring, justous green summer foliage and bright colored berries in autumn make them attractive plants.

Cotoneasters can be planted alone for accent. According to a Pennsylvania State University correspondence course on shrubs for home grounds planting, their best use is in mass plantings as in borders and hedges.

There are many varieties. Spreading Cotoneaster grows with arched and spreading branches six feet tall, loaded with small, pink flowers in late

May and thick with red berries in autumn.

Rock Spray Cotoneaster is a dwarf of three feet height and Creeping Cotoneaster grows moundlike all two feet tall. Culturally all these plants grow best fully exposed to sun and in deep, fertile, well-drained alkaline soil.

Want to learn of other shrubs for home landscaping? Then enroll in the Penn State course. Send your name and address with \$1.50 to Shrubs, Box 5000, University Park, Pa. 16802. Make checks or money orders payable to The Pennsylvania State University. A course copy will be sent to you by mail.

NEW WAY TO BE SUDDENLY SLIM, COMFORTABLE, TOO

Los Angeles.—Are you a woman whose figure is on the good side but might look perfect? You'll be thrilled by the new easy way science has discovered for you to become Suddenly Slim and yet completely comfortable. If you're more than 15 pounds overweight, then this idea is not for you. If your weight problem falls within this range, then you can realize a new, smoother figure today, without diet or exercise.

Suddenly Slim is an all-new kind of 4-oz. girdle constructed of science fibers. One startling innovation is the sheer nylon front panel. This is permanently stiffened by a science process and cannot give or sag. It's surrounded by a slimming action border. A featherstitched panel down each side of this girdle will contour your hips if they are a problem.

The girdle itself is of a "wool" Lycra spandex blend. It's a new power knit consisting of nylon, acetate and spandex. It is so comfortable, but has such slimming strength, it gives your figure everything that's possible with a foundation.

"Suddenly Slim," in both girdle and panty versions, is the peak achievement of the California design team, Olga. They are available in our size at

Faith Topic Subject For First Christian

Rev. J. W. Duke will fill the pulpit of the First Christian Church for the morning worship hour Sunday, Feb. 19. He will be assisted by the associate minister, Rev. C. M. Grov. Rev. Duke has chosen as his sermon topic "Unconvincing Faith" with scriptures from Matt. 17:14-21. The choir under the direction of Miss Rosemary Lawler and accompanied by Mrs. John Gill will do the Anthem.

First Christian will be observing "Week of Compassion" this week Feb. 19-25. Rev. Duke said this is one of our opportunities to give concrete expression to the Christian Gospel. The provision of food, clothes and tools with which to work. This is called our World Relief Offering. Major disaster needs in our world make necessary a much larger budget this year, the total needed for the goal set for the Christian Churches in Texas is \$60,000.

"We were all filled with much pride last Sunday as we looked at our Scouts worshipping with us in a total group. Our church sponsors Troop 4, Troop 34, Explorer Post 4 a Cub Pack and a Girl Scout Troop. We also thank those who give so much in leadership to this fine organization." Rev. Duke said.

The Functional Committees of the First Christian Church will meet Wednesday, Feb. 22 at 8 p.m. in the Fellowship Hall.

First Baptist To Hear New Pastor Sunday

Rev. Dan B. Cameron will be in the pulpit of the First Baptist Church, for both services of worship Sunday. This will be his first appearance as pastor since being called by the Church. He will announce his sermon subjects. The eleven o'clock morning worship service will be broadcast over Radio Station KPND.

The Sunday School workers, under the direction of Wes Langham, Sunday School superintendent, have set a goal of 1,100 for Sunday School attendance as a gesture of welcome and honor to the new pastor. Sam Allen, minister of music, will direct the Chancel Choir in singing the anthem, "If With All Your Hearts" arranged by Peery and will present Mrs. Harold Craddock who will sing a solo at the eleven o'clock morning worship. At the seven o'clock evening worship, the Chancel Choir will sing the selection, "Hallelujah What a Saviour" by Wilson. Mrs. Mack Hiatt, soprano, will sing a solo. Miss Eloise Lane, organist, has chosen "Psalm 35" by Thompson for the Morning Worship offertory number and "The Heart of God" by McAfee for the Evening Worship.

Trinidad is noted for its natural phenomenon of Pitch Lake, a lake of asphalt.

Rev. White Tells Sunday Sermon Topic

The congregation of Harrah Methodist Church will hear their pastor Rev. Walter White speak on the topic "Carry Your ID Card For Christ" at the 10:55 a.m. morning worship service this Sunday. The church choir under the direction of Mrs. Peggy Patrick will sing the morning anthem.

At 5:30 p.m. Sunday, "The All Church Wide Study" on "Affluence and Poverty" will be held for all age groups of the family. There is a class for everyone. The sermon for the Evening Vesper Service at 8:30 by Rev. White is "Our Objectives for Lent". Everyone is invited to worship at the Harrah Methodist Church, 639 S. Barnes. "The Church Where There's Never A Stranger".

"Mind" Subject For Scientists

"Mind" is the title of this Sunday's Lesson-Sermon to be read in all Christian Science churches. The Golden Text is from Proverbs: "The Lord giveth wisdom: out of his mouth cometh knowledge and understanding."

New Mexico Indians knew nothing of horses until they were brought in by the Spaniards from Old Mexico.

Personal Testimony of Faith More Convincing Than Sermon

By LOUIS CASSELS

A layman's personal testimony of faith may sometimes be more convincing than a polished professional sermon. That's especially true for our time—if the layman happens to be a scientist.

This week's mail brought an unusual letter from Dr. M.H. Yorgan a research chemist who lives in Upper Darby, Pa. Dr. Yorgan is weary of "death-of-God" theologians who buttress their atheistic posture with vague allusions to "present-day scientific thinking."

Anyone who tries to cite science as a basis for denying the reality of God, he says, has "completely failed to understand the thinking of modern scientific men."

It is true that certain historical developments disturbed the religious world," he writes. Galileo's demonstration that the earth revolves around the sun was a shock to medieval theologians who had considered the earth the center of the universe. Darwin's theory of evolution upset Biblical fundamentalists who took literally the Genesis account of creation.

But the conflict between science and religion has diminished sharply since the evolution controversy, he says. "Since those days, scientists

have persistently carried on their research into all natural phenomena, and the deeper they have penetrated into the mysteries of nature, the more profoundly they have sensed a meaning and significance which transcends scientific analysis.

"They have proved that the fundamental physical reality in the universe is energy—electrical energy; that matter is formed from units of energy; that energy and matter are interchangeable, energy into matter and matter into energy. They have established that hydrogen was the first matter formed from energy, about 10 billion years ago. Subsequently, more and more complex elements appeared, then combinations of elements, simple forms of inanimate compounds, and finally living organisms.

Upward Movement

"In this general picture of evolution from the most elemental energy and matter to the highly complex creature we call man, there has been a continuous movement toward higher and higher forms. This upward movement, persisting for billions of years, continuously repeated and elaborated at each stage of evolution, cannot possibly be conceived as a purely accidental process.

"There must have been a purpose in these constant changes, a plan, a design. And if that is true, then there also must have been a purposer, a planner, a designer a thinker, a creator, a supreme intelligence, a God. I do not see how any thinking person, familiar with the history of evolution as it has been reconstructed by science, can fail to see that it points toward, rather than away from, the concept of God.

Guest speaker at the First Presbyterian Church this Sunday will be Rev. Chester L. Tolson of Amarillo. Reverend Tolson is the area director for "The Fifty Million Fund." He will be preaching at both the 8:30 and 11 worship hours on the topic "Where in the World is the Church."

Assisting with both worship services will be The Reverend Frederick Dawson, interim pastor.

Miss Celeste Duncan will sing "Ave Maria" by Schubert, as the offertory anthem at the 11 a.m. worship hour. The choir is under the direction of Tommy Neught.

Youth Fellowships will meet at the regular hours, The Junior High Fellowship at 5:30; the Senior High at 6 in the home of Terry McClure, 1936 Lynn.

First American zoo was organized in 1859.

JIM KELLY
new pastor

Church of Christ Welcomes Pastor

The Mary Ellen at Harvester Church of Christ welcomed their new associate minister, Mr. Jim Kelly, to the community this past week. Mr. Kelly, his wife Betty, and two daughters Kristy and Sherri, moved to Pampa from Wheeler and reside at 421 Jupiter street.

Mr. Kelly graduated from Oklahoma Christian College receiving a Bachelor of Science Degree in Education. He has also done other college work at Central State (Oklahoma) College and Texas Technological College.

Before moving to Pampa, Mr. Kelly served Churches in Oklahoma City, Oklahoma, Brownfield, Texas, and Wheeler, Texas. "It is our desire to serve God and this Community in the best way possible and to be of service to all men in keeping with the principles of Christ," he stated.

Mr. Kelly will preach at both services Sunday — speaking Sunday morning on the subject "Present Day Challenges to God's Kingdom," and Sunday night on "That Priceless Ingredient." All are invited to attend.

Special Services To Start Sunday At Pentecostal

The First Pentecostal Holiness Church of Pampa will begin a week of special revival services on Sunday, Feb. 19th. These services will continue through Friday, Feb. 24, and will begin at 7 o'clock each night.

Special speaker for the revival is the Rev. S. N. Greene, pastor of the Northwest Pentecostal Holiness Church in Oklahoma City, Okla. Rev. Greene is an outstanding church leader and in demand as a speaker in campmeetings, conventions and revival campaigns. He is best known for the many beautiful gospel songs he has written.

Rev. Albert Maggard, pastor of the church, extends to everyone a cordial invitation to attend these services and enjoy the ministry of Rev. Greene in sermon and song.

YMA Week Set

The unique stewardship presentation "The Sound of Missions" was presented by Central Baptist Church Young Women's Auxiliary. The auxiliary is a missionary organization designed to reach missions to young women between the ages of 17 and 24.

The YWA, Focus Emphasis is to climax Feb. 24-26 on the campus of Hardin-Simmons University in Abilene, with a "House Party". 1,000 girls are expected to attend from the Panhandle and West Texas areas. Missionaries from around the world, home on furloughs, will direct the three day conference.

Twentyfive girls from Central Baptist Church will attend the campus Houseparty with their counselors. YWA Director at Central is Mrs. Tony Maples. Mrs. Norman Burgess and Mrs. Bob Hulsey are counselors.

The Weekly Message Of Inspiration

T. O. Upshaw
Central Baptist Church

COUNT YOUR BLESSINGS

Counting ones blessings has always been commended by our Lord. We shall never be what He wants, until first we begin in the right direction. Here are some steps in that direction.

The reality of sin must be realized. I heard a statement some time back which is very true. "I never knew how much milk was in a quart until I dropped one on the floor the other day." Sin is like that: It spreads everywhere and is so hard to clean up. We need to hide God's word in our hearts that we might not sin against HIM.

Our Christian experience must be real. Paul warned that in the last days there would be those who would try to substitute form for power. We must guard against this. We live in a day of imitation. Food, clothing and many items are imitations of the real thing. Some of the most condemning words that came from the lips of Jesus were to those who tried to make people believe that they were something when they are not. I heard a fellow say a while ago that he didn't mind turning off his lights in the house at night trying to make people believe he had a T.V. but it sure was uncomfortable riding in his car in the summer time with the windows up trying to make people think he had an air-conditioner. We must know that we are saved because God sees the heart. Salvation must be real. Our blessings must be appreciated. The following words tell the story better than I can.

"Today upon a bus, I saw a lovely maid with golden hair. I envied her — she seemed so gay — and wished I were as fair. When suddenly she arose to leave, I saw the cruel braces as she hobbled down the aisle; a victim of polio was she. But as she passed — a smile! Oh, God, forgive me when I whine. I have two straight feet. The world is mine!

"And then I stopped to buy some sweets. The lad who sold them had such charm. I talked with him. He said to me: 'It's nice to talk with folks like you. Ye see,' he said, 'I'm blind.' Oh, God, forgive me when I whine. I have two eyes. The world is mine!

"Then walking down the street, I saw a child with eyes of blue. He stood and watched the others play. It seemed he knew not what to do. I stopped a moment, then I said: 'Why don't you join the others, dear?' He looked ahead without a word, and then I knew he could not hear. Oh, God, forgive me when I whine. I have two ears. The world is mine!

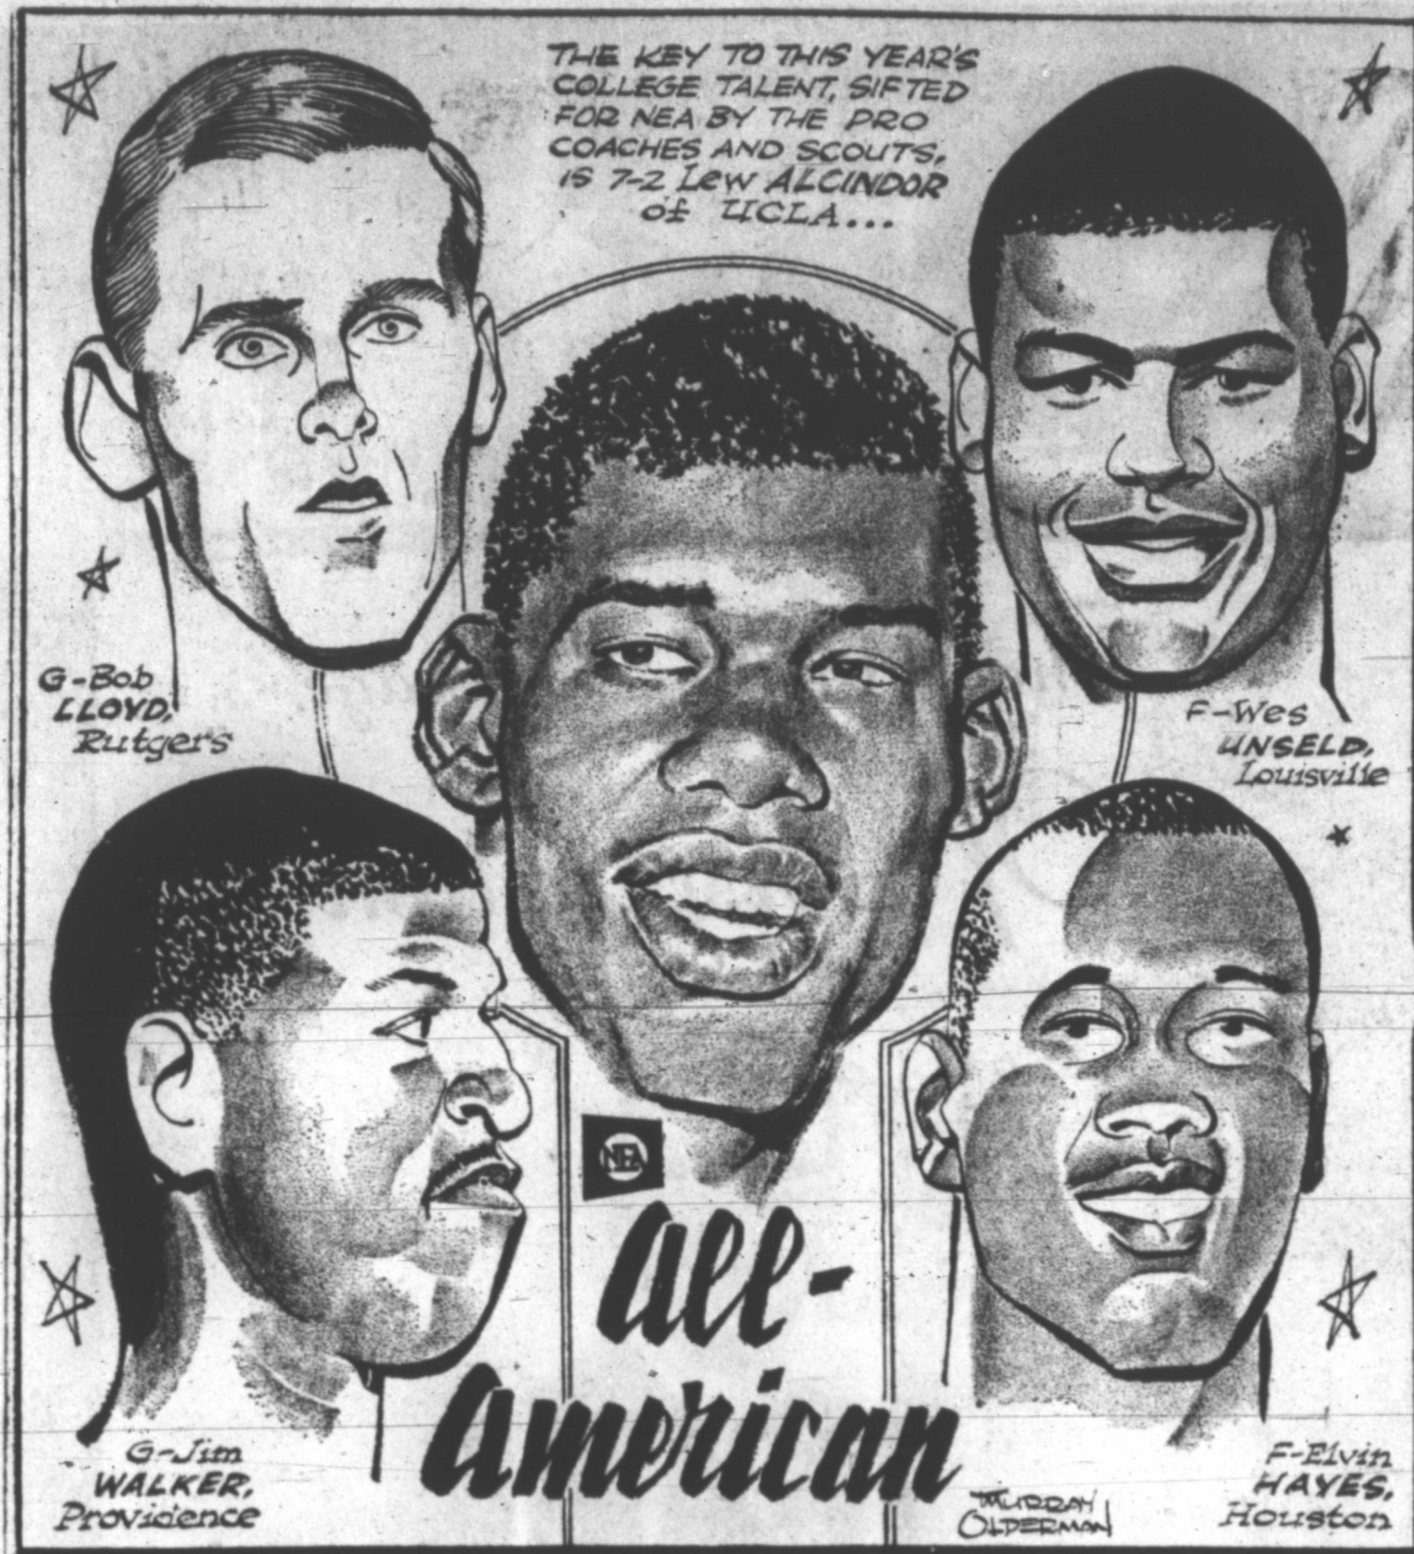

"With feet to take me where I'd go, with eyes to see the sunset's glow, with ears to hear what I would know — oh, God, forgive me when I whine. I'm blessed indeed. The world is mine!"

Pee Wee Tourney In Semi-Finals

Fifth and sixth grade teams of the Pampa Optimist clubs... Tonight in the winners bracket in fifth grade games Austin meets Travis at 6 p.m. with Wilson taking on Lamar at 7 p.m.

Bucks, Does Lose in Meet

White Deer's girls and boys were dumped from the district 1-A tournament Thursday night while Groom drew a split in the 9-B tournament. The Does lost a one-point heart breaker in overtime, 46-45 to Gruver.

THE KEY TO THIS YEAR'S COLLEGE TALENT, SIFTED FOR NEAR BY THE PRO COACHES AND SCOUTS, IS 7-2 LEW ALCINDOR OF UCLA...

All-American

It Was A Good Try But Ruffing Can't Stay Calm

By MILTON RICHMAN NEW YORK (UPI)—Charlie Ruffing was going to keep calm if it killed him. He didn't care if this was the day he was going to relax and take it easy. Above all, he wasn't going to miss his lunch.

get it on my car radio coming home? I listened to three different stations. None of them had it. Greeted By Son When Ruffing pulled over in front of his home, his son greeted him excitedly.

Eventually, the connection was made and Eckert succeeded in congratulating the 61-year-old former Red Sox and Yankee pitcher.

Board Trying To Reach Agreement With NCAA-AAU

NEW YORK (UPI)—A Senate appointed administration board worked into the early hours today to formulate a ruling designed to force the NCAA and AAU to lay down their personal ambitions and work toward a common cause of U.S. amateur sports unity.

BILL GLASS evangelist Pro Footballer Baptist Speaker

Bill Glass, defensive end for the Cleveland Browns, will be the featured speaker at a banquet in the dining hall of First Baptist Church at 7 p.m. Tuesday.

"I tried, sometimes I think it's not a matter of what you know, but who you know. It's pretty rough getting a job."

Bowling

Moonlighters League First Place: Team No. 10. Team Hi Game: Furr's Supermarket, 839.

Palmer Leads Tucson Golf

TUCSON, Ariz. (UPI)—Arnold Palmer, Pennsylvania's gift to pro golf, was top man today going into the second round of the 72-hole \$60,000 Tucson Open, but three other pros were just on stroke behind him.

The Pampa Daily News

A Watchful Newspaper
EVER STRIVING FOR THE TOP OF TEXAS
TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license, nor anarchy. It is control and sovereignty of oneself no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

And His Name Was...

There is no getting away from it, inflation of the money supply is a terrific appeal. It creates the illusion of high wages, high profits, comfortable savings accounts; in short, prosperity. And who is against that? Trouble is, the "prosperity" it creates is not real and the day of reckoning is inevitable. Although no economist worthy of the name would attempt to predict the day the crash will come—there are too many interlocking and unpredictable factors involved—all know that the laws of cause and effect are still active and, consequently, that the day of reckoning must come.

Signs, too many and too significant to be ignored, note the badly hidden uneasiness on the faces of public officials as they hurl strings of meaningless, words of assurance at you from the TV screen and that which is left unsaid and, hopefully, unbelieved in hurriedly prepared "news" releases indicates that payday approaches. In fact, young men are already paying for inflation with their lives in Vietnam; for our involvement in that conflict with a pipeline country which presents a no threat to the United States can be traced at least in part to inflation and the resort, by our governmental authorities, to military operations and war production as means of delaying the consequences thereof.

Recently, in editorializing on the dangers of inflation and where it inevitably leads, we pointed out that inflation, deliberately embarked upon as a monetary policy by government officials at post-World War I Germany, led to conditions where prices, beginning in 1914 and ending in 1923, increased, on a pound of butter, for example, from 1.40 Deutsch Marks to 4,000,000,000,000 (4 trillions). A pound of meat during the same period, went from DM .90 to 3,200,000,000,000.

Despite the fact that we identified the Germany history book the figures were taken from and that conditions as described in the editorial are thoroughly documented facts of history well known to economists and government officials the world over, some persons pooh-poohed our efforts. Several telephone calls, chidingly indicated that we had finally flipped our wig. "Fantastic," they say, "it never happened. And, even if it did, it could never happen here."

A \$5,000 Key To Greater Amity

Americans are: Trigger happy, crude, brash, vulgar, back-slapping, beautiful, materialistic, materialistic, dollar crazy, sex mad, jingoistic, credulous and neurotic. America is: Wall Street, gang wars, pretentious cars and people with too much money.

That's what Britons think. The British, in their turn, are: Degenerate, lazy, arrogant, unprogressive, papered, snobbish, standoffish, ungrateful and soft on communism. Britain is: Carnaby Street, mini-skirts, traffic circles and stiff upper lips.

That's what Americans think. Not all of the 64 million inhabitants of the British Isles believe these things about Americans, of course, nor do 100 million Americans entertain such simple ideas about the British. But a considerable number on both sides of the Atlantic are guided in their attitudes toward each other by clichés, stereotypes, pet generalizations and half-truths.

The Doctor Says:

By DR. WAYNE SPANDEAN
Angina Sufferers Should Avoid Smoking, Exercise

Q—Can a person with angina pectoris be cured? How does it affect the heart?

A—Angina is usually a chronic disease caused by spasm or narrowing of one of the coronary arteries. The victim should avoid smoking, sudden exposure to cold and severe exertion. Several drugs are used to relieve the attacks but for more lasting relief either a program of gradually increasing exercise under strict medical supervision or an operation is required.

Excellent results have been reported in selected patients who have had the sympathetic nerve supplying the heart cut or have had a healthy blood vessel near the heart implanted in the heart muscle.

Q—I have angina pectoris. My doctor has recommended that I take nitroglycerin to relieve the pain but I am reluctant to take this drug. Does it act as a painkiller or has it some other effect?

A—Nitroglycerin is not a painkiller. It stops the pain of angina by relieving the spasm and dilating the coronary blood vessels. By all means, take it as often as you need to. Some victims take as many as 25 of these tablets a day.

Q—Five years ago my blood was reported type A and Rh positive. Some time later, another laboratory reported it type A and Rh negative. How do you explain this change? Is there any difference between a baby born of a mother with incompatible Rh and a blue baby?

A—Laboratories do make mistakes. A woman with Rh negative blood who carries an Rh positive baby does, however, develop antibodies against the Rh factor. If she becomes pregnant after this her baby may be born with erythroblastosis (severe blood destruction). The baby may seem to be normal at birth but becomes jaundiced (not blue) within a few hours. A blue baby has a congenital heart defect that is in no way related to the Rh factor of its parents.

Q—What are Orbanis tablets used for? Why are they so safe?

A—This over-the-counter drug is a triple bromide and is used as a severe sedative. Since bromides are closely related to table salt they have a salty taste.

Q—Is cigarette smoking especially harmful to persons with bronchial or sinus trouble?

A—According to the report of the U.S. Public Health Service cigarette smoking is the chief cause of chronic bronchitis. No evidence of its effect on the nasal sinuses has been presented.

Inhumanity Of Urban Renewal

(American Opinion)
By Bryson and Ella Barron
Crowfoot Books, P.O. Box 381,
Springfield, Virginia; 37 pages,
\$1.50 (paper).

A documentary on Urban Renewal, this book should be read by everyone, and should be broadcast in communities which are being softened up for the bulldozer.

These case studies are easy to read, and they have the dramatic impact of personal experience. Some testimony is taken from a hearing on Urban Renewal by a Congressional Committee. Some is testimony that the Committee did not want to hear. Mr. and Mrs. Barron note that where there already is a shortage of housing, the bulldozer demolishes homes and the displaced are told to move: "We don't care where. Just move." Urban Renewal Commission makes their own rules and define their own terms. A witness at a Congressional hearing on these matters testified that, conceivably, even the United States Capitol could be declared substandard "on the grounds that it is a single-purpose building, inadequate for conversion to other uses." In this volume, Joseph C. Goulden is quoted from the Philadelphia Inquirer as having stated that, in Philadelphia, Urban Renewal "has gained literal life-and-death jurisdiction over center, city and neighborhood, private home and commercial building alike."

This book exposes not only the results but the purposes of this governmental system on private property and local authority. Homes and jobs are lost, families are broken up, small businesses are squeezed out. — R. M. Curtis

Fire To Fight Fire

Pull Up A Chair

By FRANK JAY MARKEY

PP DP Pull up a Chair
In tribute to one of its most dazzling industrial engineers, Belgium, boasts of the world's only monument to the queen of all gems, the diamond. A statue in honor of the diamond is at the same time a tribute to Ludwig Van Berken who in 1473 invented the method for cutting diamonds, which basically is the same as that used today. Anwerp has remained the world's great diamond and lapidary center and craftsmen continue to pass on their fine skills from father to son. Van Berken, incidentally, was a native of nearby Bruges where Afthdike Maximilian first gave women the notion that diamonds have a friendly value 500 years ago. Max gave Mary of Burgundy a gold ring set with diamonds as a pledge of betrothal. History records this as the first engagement ring.

Today's smile: A fellow presented himself at a class for speed-reading and the instructor asked: "Why do you want to 'do this course'?" He answered: "Well, I drive the expressways every day and if you can't read fast you wind up in another county."

Man can perceive sweet, sour, bitter or salty qualities. Formerly, it was held that separate taste buds for each of these qualities exist. Now the existence of separate taste buds for each of the qualities is being questioned. Flavor of food consists of the four taste qualities, plus odors such as fruitiness and smokiness. Scientists report flavor is as complex as a symphony or a painting. The ears can break a symphony down into pure tones. And, similarly, the sense of taste perception can break flavor down into simple components.

Thoughts while shaving: Ward McAllister, who invented the term "40°" to describe New York Society back before the turn of the century, firmly believed acceptance of a dinner invitation was a sacred obligation. He once said: "If you die before the dinner takes place, your executor should attend in your place." That doesn't jibe with Oscar Wilde's ideas. Courteously refusing a dinner invitation since Wilde wrote his would-be hostess that he would be unable to attend because of "a subsequent invitation." One of the most expensive items for apartment dwellers in Manhattan is firewood for their fireplaces. It costs about \$1.22 per cord at the corner delicatessen where it is stocked along with the cooked meats and fruit. Buying it by the cord from farmers in Connecticut and Long Island is impractical because of the excessive costs, and no place in the modern apartment to store it. Rutgers Univ. has the Football Hall of Fame and New York U. has the Hall of Fame of Great Americans. Now the University of Michigan is getting into the act by starting a Businessmen's Hall of Fame. It will open in 1968, and

Between the Bookends

THE BRANDED CHILD
During recent years, many ment schools have become parents of children in governmental schools to learn of various "tests" being administered to their children. Such tests probe the psychological attitudes of the child toward religion, his family, sex, his social status, etc.

A summary of the material that has come to light is contained in "The Branded Child" by Edward J. Van Allen (published by Reputorial Press, Box 182, Mineola, L. I., New York; card cover, \$1.50). The author describes the attempts of guidance counselors and others to inquire into the personal lives of the students and to then make psychiatric judgments that are placed on the child's written record and follow him throughout his school life.

At the author puts it: "The breed of psycho-snoop I speak of here has endowed itself with God-life attributes. It professes the ability to determine who is educable and who is not. Who is insane and who is not. Who is emotionally unstable and who is not. Ad infinitum."

"Some of the breed also professes the ability to tell not only which school children need psychiatric treatment, but which parents as well. And it matters little whether the mental-health soddists making up the breed ever see their victims. Their tests can determine the sanity or insanity of persons who are no more than names on paper or mere ciphers to them."

"The document in which members of the breed can perpetuate unprovable conclusions, mistakes or outright lies which can hound a child on into adulthood (with an uninformed public believing none the wiser) is known as the 'cumulative file' or 'school record.'"

The author has compiled a great number of case histories in his book to demonstrate that this is not an isolated phenomenon. Unfortunately, he suggests that the solution is to go to work to try to change the laws of your own state or to rid your school district of the snoopers.

This remedy is far-overshadowed by another one that is suggested inadvertently in the book. He reports that many parents have taken their children out of the government schools and placed them in private schools. As one of them said, "It's costing us money, but it's worth it."

When you measure the cost to yourself of continually having to keep abreast of the psycho-snoopers, the progressive education buff, the life adjustment clique, the social studies propagandists, the American business-nessman. The Women's Wear Daily reported in a story: "The police will help the Philippines catch smuggling of imports." And, we thought they were the good guys too."

Country Editor speaking: "It's no bad that when success turns a person's head, it doesn't bring his neck at the same time."

Straight Talk

By TOM ANDERSON

The name of the game is "Answer Please!" For the reader giving the best answers, I will give a black and white picture of Adam Clayton Powell, in living color. Ready? Here goes:

Why are we sending men to die in an undeclared war we have no intention of winning? Why has our Commander-in-Chief never said that we will win it. Worse, why has he never said we intend to win it? If we can't whip the Viet Cong, who can we whip? If we can, why aren't we?

What are our boys fighting and dying for? Why are our boys being murdered by an enemy our Commander-in-Chief is deliberately helping? The main enemy is not Red China but Russia. (Our men are being killed by Russian equipment and material.) Why are American boys being murdered by proxy by our own government and businessmen who are selling supplies to the enemy? Why are American men being slaughtered by a Viet Cong armed and supplied by our "allies"?

Rugers Professor Eugene D. Genovese proclaimed at a teach-in: "I do not fear or regret the impending Viet Cong victory in Vietnam. I welcome it. We are part of a worldwide movement and our activist allies will help us." Isn't that treason labeled "academic freedom"?

Why don't we declare war? Is it because then anybody who deliberately helped the enemy — beatniks, peaceniks, Bobby Kennedy, Senators Morse and Fulbright, President Johnson—would be guilty of treason? Or is treason now "to give aid and comfort to friends" — like Rhodesia?

Red China and Russia not only supply the Vietnamese enemies, they are co-belligerents. Since Russia and Red China are the enemy, is that the reason our government maintains a no-win policy?

Why do we fight alone in Vietnam? Why don't the nations of the world have befriended by giving them \$6 billion — our grandchildren's inheritance — support us instead of the enemy? Why do we continue to help these "friends" kill American boys daily as we continue to give foreign aid to them? Why did we turn down Rhodesia's offer to send troops to help us in Vietnam? Is "racism" now a greater crime than Communism?

If Britain can stop tankers bound for Rhodesia where there is no war, why can't the U. S. Navy stop tankers and ships carrying oil and supplies to our enemy in North Vietnam?

"Peace" negotiations in Vietnam are now under way. President Johnson is asking "guarantees." Since when are Communist guarantees worth the paper they are written on? What negotiated victory or real peace have we ever won with the Communists anywhere? President Kennedy set up a "neutral" coalition government in Laos. Isn't that one of the main causes of the war in Vietnam? Aren't so-called coalitions invariably pro-communist? What is the difference between coalition and appeasement? Aren't appeasers people who feed a crocodile hoping it'll eat them last?

Johnson talks peace, freedom, equality. Great Society and says we'll stay in Vietnam. Has he ever said we'll win in Vietnam? Should any American ever be sent to die in any war we don't intend to win? Is it victory we plan, or is it murder?

If we walk out of Vietnam, then our word is not good if it is not good in Southeast Asia, where is it good?

When and if we win in Vietnam and move out, won't the Communists move in? Isn't the place to destroy Communism not at the trenches but at the head? Then why do we help the head and attack the tentacle? Is treason the reason? What other reason could there be? Strategy? Stupidity? Fear?

Hurry! Don't forget the fabulous prizes! You don't even have to be present to win!

The time has come for action, not merely complaint, against the Supreme Court. Its powers can and must be curbed, as the Constitution authorizes, by new laws passed in Congress to restrict its jurisdiction.

HOW TO ADDRESS OUR LAWMAKERS

You may wish to write your senators and representatives in Washington and Austin. Here are their addresses:

(FEDERAL)
Sen. Bob Firth, 205 Longworth Bldg., Washington 25, D.C.
Sen. Roger Torbert, Senate Bldg., Washington 25, D.C.
Austin, Texas
Sen. John Tower, Senate Office Bldg., Washington, D.C.
(STATE)
Rep. Walter Brubaker, House Bldg., 205 Longworth Bldg., Austin, Texas.

Cannel At Bay

By Ward Cannel

Moves to Tone Up U.S. Scene
NEW YORK (NEA)—As regular readers know, it is the dedicated purpose of this department to help make some order out of the chaos of current events. And in that regard, a rather rich vein of raw materials seems to have opened up. As of this writing, if our notes are correct:

Mao's China is in civil war; the Europe-Asia Communist solidarity is broken; Walter Reuther has quit the AFL-CIO Council; Leonard Bernstein has quit the New York Philharmonic; Clark Kerr has been quit from the University of California.

Old alliances are in upheaval. New alliances are forming.

Hanoi shows signs of amending. Syria and Israel are at the conference table. Podgorny has been to see the Pope. Clark Booth Luce has come out for birth control. Eddie Fisher has gotten married. Yale and Vassar are talking of a merger.

So, as we said, there is plenty of chaos around — more than enough for everybody. Nowadays it is just as hard to be a John Birchite as an ADAER. A Republican, a member of management or a member of labor, the prospects for philosophy are so murky, in fact, that we fully expect next football season to bring with it the new lyric: "March, march on down the field-fighting for Yassar."

Whether any mind is capable of making order out of this much chaos we do not know. But there certainly ought to be some profit to be made in the breakup of old alliances and the formation of new.

And so, in order to seize the moment of transition, we would like to suggest a few realignments that are long overdue.

To begin with, we'd like to see a new television series next season starring Lorne Green, Bill Cosby and Shiri Conway in which the maverick son of a rancher is working his way through medical school as an intelligence agent.

We'd like to see Gov. Ronald Reagan and the California Board of Regents oust Herman Franks as manager of the San Francisco Giants.

It also occurs to us that Jacqueline Kennedy could threaten to sue Norman Mailer as he hasn't had a best-selling book in years and certainly deserves one.

The time also seems ripe for the Retail Druggists Association to take over the American Medical Association. Or vice versa. Just so long as the merger cuts down advertising expenses for both.

We'd also like to see Gov. Ronald Reagan take over New Jersey and oust the principal of P.S. 39 in Paterson, and also the head of the math department.

This is the proper moment, too, for the Playboy Club Bunnies to organize as the Teamsters Union wants them to. The new union can be called either The Bunnies or The Teamsters. We don't care which, just so long as Jimmy Hoffa dies his part and wears a cotton tail to the meetings.

Along the same lines, we'd like to see:

Gen. De Gaulle form an alliance with the Russians and see how they like it for a change.

The Congress of the United States cut a long-play album for Secretariat Records under the title: "Keep the cash, Baby."

Chiang Kai-shek form an alliance with Mme. Chiang Kai-shek.

Gov. Ronald Reagan take over New York, oust Horace Clark, and put Bill Mazeroski at second base instead.

The FBI buy AT&T. Or AT&T buy the FBI. Anything to put all end to this wandering about those strange ramps and clicks on our phone.

The tobacco and auto industries underwrite Dr. Timothy Leary in the production of a book to be called "The Smoking and Driving Karma Sutra."

And last, but not least, could the Colgate-Palmolive Co. please join forces with Helms Rubenstein, Inc., and come up with a tube of something—once and for all — that cleans your teeth while it grows your hair?

Sergeant Blank — Okay, you know. Get busy and carry that piano in the officers' quarters — the top floor.

Give Dandelions As Inch And They Will Take A Yard.

Wit and Whimsy

A sergeant at Camp Crowder, just before dismissing his squad from duties for the day sang:

Sergeant Blank — All those fond of music step two paces forward.

Six men with visions of a soft job in the Regimental band stepped forward smartly.

- Mrs. Laurie Marie Young, 722 W. Kingsmill.
- Mrs. Alice Vineyard, 421 N. Faulkner.
- Mrs. Elnora Haynes, 620 N. Dwight.

The Lighter Side

By DICK WEST

United Press International
WASHINGTON (UPI)—When I spoke before a college group not long ago, I addressed the audience as "members of the faculty, students, CIA agents, etc."

I thought that was a pretty good gag but nobody laughed. Now I think I understand why. It could be they were so accustomed to having CIA agents in their midst, they didn't think it was meant as a joke.

At any rate, the disclosure this week that the National Student Association is one of the oldest, established CIA "covers" in the U.S.A. has certainly raised a cloud of dust.

I wouldn't be surprised if scenes like these should develop:

Dwight.
Mervin Snapp, 1805 N. Sumner.

Thomas Pearson, Borger.
Mrs. Ernestine Wallace, 1209 Maryellen.

Garland Gray, 737 Letors St.
CONGRATULATIONS:

To Mr. and Mrs. William E. Harden, 325 Canadian on the birth of a boy at 1:45 p.m., weighing 3 lbs. 1 oz.

Scene I
The hot line at the White House rings. President Johnson picks up the receiver and hears the angry voice of Soviet Premier Alexei N. Kosygin.
Kosygin: "Mr. President, this is an outrage. We have discovered that some of our student groups have been infiltrated by the CIA."
Johnson: "Welcome to the club."

Scene II
Senior: "I'm going to study abroad after I graduate."
Junior: "Do you have a student exchange grant?"
Senior: "No, I have a CIA scholarship."

It is not as yet clear whether the CIA has similar ties with other groups, but some members of congress have criticized the agency for domestic involvement.

This illustrates how much opinion has changed since America's founding fathers warned against entangling foreign alliances.

Now the consensus seems to be that the CIA should promote foreign entanglements but avoid alliances at home.

Things also have changed since the 1950s when Congressmen were demanding investigations to determine whether any American organizations were controlled by foreign agents.

Now they're demanding investigations to determine whether any American organizations are controlled by American agents.

The most damaging thing about the whole affair may be the report that the CIA was paying the student association close to \$400,000 a year.

Already certain other private groups are making inquiries as to how they go about applying for a CIA subsidy.

Once the word gets around, the entire cloak-and-dagger business will be swept by inflation.

Wall Street Chatter

NEM YORK (UPI)—Bache & Co. says that while the rotation of market leadership probably will limit any reaction, the underlying trend is constructive, the market is overextended on the buy side and sudden prods of profit-taking should be expected. The company says with the Dow Jones industrial average meeting resistance at the 860 level, traders apparently have decided to cash in on some of the large profits racked up this year. But it feels the large amount of funds still in the hands of institutions and the

Bradbury K. Thurlow of Winslow, Cohn & Stetson believes the performance stocks will make further headway and eventually pull up the sluggish Dow Jones industrial average to new recovery highs. The analyst does not see much likelihood of a general market decline until institutional demand has dried up.

We'd ask you to compare it... but with what?

Comparing a Cadillac has always been a problem, for the car has long been clearly in a class of its own. In 1967, the challenge is even greater... because Cadillac has never before asserted its leadership so convincingly.

Start with beauty. Cast about for a luxury car contender that can list such styling advancements as Cadillac's dramatic new roof line, its forward sweeping front design and its graceful and flowing side contours. Then consider that there are eleven exciting examples of this kind of Cadillac beauty... as well as the totally new Eldorado, the world's finest personal car!

Consider also the incomparable newness of Cadillac's

beautiful interiors and their unexcelled safety and convenience. There are passenger-guard door locks, a hazard warning system, a dual circuit braking system, latches that hold folding front seats securely in place and dozens of other safety features.

And, of course, there's performance. There's nothing else smoother than Cadillac's V-8 power; nothing else easier than Cadillac's improved variable ratio power steering; nothing else surer or steadier on the highway.

Visit your authorized dealer and measure Cadillac against your own motoring requirements. It's the only valid comparison test for the Standard of the World.
